CITY MANAGER MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce A. Shanahan, City Manager

From: Shawn Finley, Public Works Director

Date: October 5, 2021

Subject: FDOT Transportation Update

Commission Goal: Transportation - Other

Introduction

This workshop is scheduled to provide an opportunity for the Florida Department of Transportation (FDOT) to update the City Commission on planned projects to upgrade the safety and operation of FDOT/State roadways within the City.

Background

The City has made transportation safety one of its top priorities. As transportation trends and needs evolve, it is critical to review operation of roadways and investigate improvements that can make the roadways more efficient and safer for all users. Improvements to roadways maintained by the Florida Department of Transportation require coordination by City staff with FDOT. Through this coordination, the staff of both entities have identified potential improvements on three corridors: S.R. A1A from Granada Boulevard to the south City limits; improvements to Granada Boulevard east of U.S. Highway 1; and safety improvements along Nova Road north of Granada Boulevard.

Discussion

FDOT, at the request of City staff, has prepared presentations related to proposed improvements along the S.R. A1A, Granada Boulevard, and Nova Road corridors. These plans being presented represent modifications that not only address current deficiencies, but also identify opportunities to improve these roadways and address future needs.

Staff will use this opportunity to update the City Commission on projects included in the River to Sea Transportation Organization's priority project list.

Budget Impact

There is no budget impact.

Citizen Impact

Improvements to the City's transportation corridors benefit all residents and visitors to the community. A coordinated effort with the Florida Department of Transportation allows the City to provide input that will add to the future design and operation of these roadways.

Recommendation

Staff requests that feedback be given to the Florida Department of Transportation to proceed with further development of construction plans.
