(5) There are adequate public facilities to serve the development, including but not limited to roads, sidewalks, bike paths, potable water, wastewater treatment, drainage, fire and police safety, parks and recreation facilities, schools, and playgrounds, as proposed;

(6) Ingress and egress to the property and traffic patterns are designed to protect and promote motorized vehicle and pedestrian/bicycle safety and convenience, allow for desirable traffic flow and control, and provide adequate access in case of fire or catastrophe, as proposed;

(7) The proposed development is functional in the use of space and aesthetically acceptable;

(8) The proposed development provides for the safety of occupants and visitors;

(9) The proposed use of materials and architectural features will not adversely impact the neighborhood and aesthetics of the area; now therefore,

BE IT ENACTED BY THE PEOPLE OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The foregoing recitals are incorporated herein as the findings of the City Commission.

SECTION TWO. The application of the Property Owner for the issuance of a Planned Business Development Development Order for the "Tymber Creek Apartments" project is hereby approved. The Mayor and the City Manager are authorized and directed to execute and issue the attached Development Order for the "Tymber Creek Apartments" Planned Business Development to allow the construction of 270 multi-family residential units and associated site improvements under certain conditions on the Property, consisting of approximately 19.62 acres.

SECTION THREE. Section 2-29(B)(2) of the *Land Development Code* allows a multi-family density of ten units per acre. The land uses of "Residential, Office, Retail" and "General Commercial" of the city's Comprehensive Plan allow a maximum of 471 multi-family units. The request for 270 multi-family units, or 16.44 units per acre, for the Planned Business Development as shown, described, and depicted in Exhibit "D" to the PBD Development Order is hereby granted.

SECTION FOUR. Section 2-29(B)(3) of the *Land Development Code* allows a maximum building height of 30'. Section 2-36(d)(3) of the Land Development Code states, "Height limits may exceed that allowed by district regulations by a maximum of fifteen feet (15'), provided that the structure is so located as to not have an adverse impact on adjoining properties, particularly single-family homes. This additional height allowance will not be awarded for any portion of a structure located within fifty feet (50') of a single-family home or for a vacant site in a zoning district designed primarily for such use. In no case shall any building height exceed seventy-five feet (75') when measured from the average median lot elevation to the highest point of any structure and/or attached services." The request for a building height of 39'5" as shown, described, and depicted in Exhibit "D" to the PBD Development Order is hereby granted.

SECTION FIVE. Section 2-57(22)(f) of the Land Development Code states "No structure shall exceed one hundred eighty feet (180') in length, unless a planned development is obtained." The request for buildings three (3) and four (4) to be 249 linear feet in length and building eight (8) to be 351.5 linear feet in length as shown, described, and depicted in Exhibit "D" to the PBD Development Order is hereby approved.

SECTION SIX. The Applicant, including the Applicant's successors and assigns, shall at all times fully comply with the terms and conditions of the PBD Development Order.

SECTION SEVEN. All Ordinances or parts of Ordinances in conflict herewith are hereby repealed to the extent of such conflict.

SECTION EIGHT. This Ordinance shall be effective immediately upon its adoption.

PASSED UPON at the first reading of the City Commission this 16th day of May, 2023.

PASSED UPON at the second and final reading of the City Commission, this 6th day of June, 2023.

BEFORE THE
CITY COMMISSION
OF THE
CITY OF ORMOND BEACH

IN RE:	**Application of:**	VCP Ormond Beach II, LLC, LLC, a Florida Limited Liability Company
	Application No.	2022-008
	Project Name:	Tymber Creek Apartments
	Property Address:	36 North Tymber Creek Road and 2011 West Granada Boulevard
	Parcel ID No.:	4125-00-00-0221 and 4125-00-00-0243

PLANNED BUSINESS DEVELOPMENT DEVELOPMENT ORDER

This matter having come on for public hearing before the City Commission of the City of Ormond Beach, Florida, on May 16, 2023, and June 6, 2023, and the City Commission having considered those items as required by 1-18(e) of the *Land Development Code,* and having heard testimony and evidence from all affected persons, the City Commission hereby finds that:

1. The proposed development conforms to the standards and requirements of the *Land Development Code* and will not create undue crowding beyond the conditions normally permitted in the PBD, Planned Business Development, zoning district, or adversely affect the public health, safety, welfare or quality of life;

2. The proposed development is consistent with the *Comprehensive Plan*;

3. The proposed development will not adversely impact environmentally sensitive lands or natural resources, including but not limited to waterbodies, wetlands, xeric communities, wildlife habitats, endangered or threatened plants and animal species or species of special concern, wellfields, and individual wells;

4. The proposed use will not substantially or permanently depreciate the value of surrounding property; create a nuisance; or deprive adjoining properties of adequate light and air; create excessive noise, odor, glare, or visual impacts on the neighborhood and adjoining properties;

5. There are adequate public facilities to serve the development, including but not limited to roads, sidewalks, bike paths, potable water, wastewater treatment, drainage, fire and police safety, parks and recreation facilities, schools, and playgrounds;

6. Ingress and egress to the property and traffic patterns are designed to protect and promote motorized vehicle and pedestrian/bicycle safety and convenience, allow for desirable traffic flow and control, and provide adequate access in case of fire or catastrophe;

7. The proposed development is functional in the use of space and aesthetically acceptable;

8. The proposed development provides for the safety of occupants and visitors; and

9. The proposed use of materials and architectural features will not adversely impact the neighborhood and aesthetics of the area.

Thereupon and in consideration thereof, the City Commission hereby orders that:

A. The application of VCP Ormond Beach II, LLC, a Florida limited liability company ("Applicant/Property Owner") located at 36 North Tymber Creek Road (Volusia County parcel number 4125-00-00-0221) and 2011 West Granada Boulevard (Volusia County parcel number 4125-00-00-0243) as more particularly described and depicted in Exhibit "A" attached hereto and incorporated herein ("Property"), for a Development Order for a Planned Business Development to be known as the "Tymber Creek Apartments", to allow the construction of 270 multi-family residential units and associated site improvements under certain conditions on 19.62 acres on that Property more particularly described and depicted in Exhibit "A" attached hereto and incorporated herein by reference, is hereby granted, subject to the following conditions:

1. All applicable provisions of Chapter 2, District and General Regulations, Article II, District Regulations, Section 2-36, PBD, Planned Business Development District, of the City of Ormond Beach *Land Development Code*, except as otherwise specifically modified hereby, shall at all times be strictly complied with;

2. The outstanding comments from the Site Plan Review Committee list in Exhibit "B" shall be satisfied;

3. Full and complete compliance with the Planned Business Development Conditions described in Exhibit "C";

4. Full and complete compliance with the Applicant's Site Plan attached as Exhibit "D";

B. The final plans for the development project shall be consistent with all the conditions listed in this Development Order and as depicted in the plans that are attached hereto and incorporated herein by reference as Exhibit "D".

C. No material change shall be made to the final plan for the development project without further review by the Planning Board and approval by the City Commission in accordance with the procedures for the approval or modification of development orders.

D. All site construction activity shall be performed in strict compliance with the terms and conditions of this Planned Business Development Order approved for this development project, and of the *Land Development Code*.

E. If the final plan approval lapses under the provisions of Section 1-14(3)(b) of the *Land Development Code* before the planned development permit can be established, a new application for a Planned Business Development Order must be submitted for consideration in accordance with the requirements of the *Land Development Code*.

F. In the event the use of the land approved by this Planned Business Development Order is abandoned for a period of two (2) years any permit issued hereunder and this Planned Business Development Order shall automatically become void and a Notice of Final Plan Revocation shall be filed under the provisions of Chapter 1, Article II, Section 1-14(3)(b) of the *Land Development Code,* and a new application for a Planned Business Development Order must be submitted for consideration in accordance with the requirements of the *Land Development Code*.

G. The Neighborhood Improvement Officer shall semi-annually prepare a report indicating which planned developments are not in compliance with Chapter 1, Article II, Section 1-14, or with the conditions provided in the Planned Business Development Order. In the event a Neighborhood Improvement Officer determines there to be any violation, such Officer shall initiate appropriate code enforcement action for hearing before the City's Special Master.

H. In the event a building permit has not been issued within thirty-six (36) months, which date shall be June 6, 2026, then this Development Order shall automatically become void and shall have no further legal effect per Chapter 1, Article II, Section 1-14(3)(a), of the *Land Development Code.* If a building or site engineering permit is issued on or before June 6, 2026 the project shall be vested.

I. This Planned Business Development Order shall be recorded in the public records of Volusia County, Florida, at the expense of the Property Owner, and shall be binding on the Property Owner, and its successors and assigns, and shall run with the real property described in Exhibit "A" attached hereto.

ORDERED this 6th day of June, 2023.

Project Name: PZ-22-008
Project Description: Tymber Creek Apartments
Review Comments List Date: 11/27/2022

Ref. # 77, Civil Engineer, David Allen, 11/1/22 2:46 PM, Cycle 6, Unresolved

Markup: Civil-Wall and Building Review, 36.1 WALL DETAILS.pdf

The review of this wall requires the design calculations being reviewed for the structural capability adjacent to the wet detention facility and the building in close proximity. The two structures will require separate building permits. The City of Ormond Beach will require an independent review by a structural engineer for the correlation between the structures. This review will be completed and the cost will be the responsibility of the developer.

Ref. # 78, Civil Engineer, David Allen, 11/1/22 2:46 PM, Cycle 6, Unresolved

Markup: Civil-Building Code, 36.1 WALL DETAILS.pdf

This should reference the 2020 Florida Building Code (7th Edition).

Ref. # 79, Civil Engineer, David Allen, 11/1/22 2:46 PM, Cycle 6, Unresolved

Markup: Civil- Building Location, 36.1 WALL DETAILS.pdf

Show the location of the building foundation on this cross section.

Ref. # 80, Civil Engineer, David Allen, 11/1/22 2:46 PM, Cycle 6, Unresolved

Markup: Civil-Distance, 36.1 WALL DETAILS.pdf

Provide distance from segmental wall to building footprint.

Ref. # 81, Civil Engineer, David Allen, 11/1/22 3:02 PM, Cycle 6, Unresolved

Markup: Civil-Wall Comments, 36 WALL DETAILS.pdf

See the comments on Sheet 36.1 regarding the review of the segmental block walls.

Ref. # 83, Civil Engineer, David Allen, 11/16/22 3:14 PM, Cycle 6, Unresolved

Markup: Civil-Lighting, 91 PHOTOMETRIC.pdf

The details for the lighting includes wall mounted, WSG4L45K, fixtures. However, the photometric plan does not indicate additional foot-candles. Where will the wall mounted lights be placed? Will these light fixtures also need the glare guards?

TYMBER CREEK APARTMENTS
PLANNED BUSINESS DEVELOPMENT CONDITIONS

1. Section 2-29(B)(2) of the Land Development Code allows a multi-family density of ten (10) units per acre. The land uses of "Residential, Office, Retail" and "General Commercial" of the city's Comprehensive Plan allows a maximum of 471 multi-family units. The request for 270 multi-family units or 16.44 units per acre for the Planned Business Development as shown, described, and depicted in Exhibit "D" to the PBD Development Order are hereby granted.
2. Section 2-29(B)(3) of the *Land Development Code* allows a maximum height of 30'. Section 2-36(d)(3) of the Land Development Code states, "Height limits may exceed that allowed by district regulations by a maximum of fifteen feet (15'), provided that the structure is so located as to not have an adverse impact on adjoining properties, particularly single-family homes. This additional height allowance will not be awarded for any portion of a structure located within fifty feet (50') of a single-family home or for a vacant site in a zoning district designed primarily for such use. In no case shall any building height exceed seventy-five feet (75') when measured from the average median lot elevation to the highest point of any structure and/or attached services." The request for a building height of 39'5" as shown, described, and depicted in Exhibit "D" to the PBD Development Order are hereby granted.
3. Section 2-57(22)(f) of the Land Development Code states "No structure shall exceed one hundred eighty feet (180') in length, unless a planned development is obtained." The request for buildings three (3) and four (4) to be 249 linear feet in length and building eight (8) to be 351.5 linear feet in length as shown, described, and depicted in Exhibit "D" to the PBD Development Order are hereby approved.
4. The project access is proposed through a master access point on West Granada Boulevard that will serve multiple uses including the existing Walgreens. The existing master access point for the commercial uses has an approved site plan to shift to the west from the existing Walgreens access point, in accordance with the approved Florida Department of Transportation permit.
5. Along Tymber Creek Road, the project proposes an emergency access only access point. The emergency access point is designed to allow access from fire station #94. The emergency access point would not allow general traffic to access Tymber Creek Road. The access point to Walgreens will remain unchanged. Based upon the connectivity of the overall parcels, individuals of the Tymber Creek Apartments could access Tymber Creek Road through the Walgreens parking lot. The project is required to install a right-hand turn lane on Tymber Creek Road into the Walgreens project.

6. The landscape buffers required for this project are 20' foot landscape buffers for the north, west & east sides of this parcel. The north landscape buffer proposed along the Moss Point subdivision in the north western portion varies from 195' to 130' and narrows to 70' in the northeastern portion of the buffer. The proposed west landscape buffer, abutting Indian Springs, varies from 176' to 218' based on the updated re-design of the site. The previous west buffer was 140' to 57' feet in the original design. The proposed east landscape buffer along Tymber Creek Road is 20' feet. The south landscape buffer that abuts the future commercial parcel requires a 6' foot landscape buffer and a 10' buffer is being proposed. The landscape buffers around the Walgreens pond to the north requires a 6' foot which is shown, the west landscape buffer requires a 6' foot and a 10' foot is being proposed. The landscape buffers around the Volusia County pond to the north, west and south sides require a 6' foot buffer and a 11'-6" foot is being proposed.
7. There are 7 historic trees on-site (4 Bald Cypress & 3 Live Oaks) all of which are to be saved.
8. The site requires that fifteen percent of the site is designated for tree preservation. Fifteen percent of the total gross area is 2.94 acres. The project provides 5.44 acres of proposed tree preservation which includes the north and west areas of the site.
9. The project has fencing as follows:
   A. Decorative aluminum open style, 6' high: along Tymber Creek Road, Volusia County stormwater pond, entrance road.
   B. PVC vinyl, 6' high: along interface of north wetland area ("Open Space/Conservation" area) and portion of area abutting Coquina Presbyterian Church.
   C. Masonry wall, 6' high: Along area of Indian Springs, including on top of the retaining wall and abutting the future commercial area of 2041 West Granada Boulevard.

   Fencing screen wall and retaining wall details on Sheets 36, 36.1, and 36, of Exhibit "D".
10. Phasing of project may be approved by the SPRC as a minor modification to the development order. The SPRC may allow Certificate of Occupancy for individual buildings that re completed in terms of building and site improvements and the reminder of the site is protected for construction activities.
11. Hours of outside construction activities shall be from 7:00 a.m. to 7:00 p.m. Monday through Saturday, with no outside construction activities on Sundays. Required concrete pours outside the construction hour restrictions may be scheduled with the Planning Director with at least five (5) days prior to the activity.
12. The Planned Business Development would incorporate the uses and dimensional standards of the B-8, Commercial zoning district, except as amended in Exhibit "D".

VOLUSIA COUNTY IRRIGATION NOTES:

1. AUTOMATIC IRRIGATION CONTROLLERS, WHEN UTILIZED, SHALL CONTAIN A FUNCTIONAL RAIN SENSOR DEVICE, CAPABLE OF BEING SET TO ONE MINUTE RUN TIMES, AND BATTERY BACKUP CAPABILITY TO RETAIN PROGRAMMING IN THE EVENT OF A POWER FAILURE.
2. A RAIN SENSOR PLACED ON A STATIONARY STRUCTURE, FREE AND CLEAR OF ANY OVERHEAD OBSTRUCTIONS AND ABOVE THE HEIGHT OF THE SPRINKLER COVERAGE.
3. EQUIPMENT WITH CHECK VALVES USED IN LOW-LYING AREAS TO PREVENT LOW HEAD DRAINAGE.
4. BACKFLOW PREVENTION METHODS AND OTHER PROVISIONS PRESCRIBED IN SECTION 74-42.
5. IRRIGATION DESIGN WITH THE APPROPRIATE UNIFORMITY FOR THE TYPE OF PLANT BEING GROWN AND FOR THE TYPE OF SOIL.
6. IRRIGATION SYSTEM EQUIPMENT INSTALLED AS DESIGNED.
7. IRRIGATION ZONES DIVIDED ACCORDING TO AVAILABLE FLOW RATE, VEGETATED GROUPINGS (I.E., TURF, SHRUBS, NATIVE PLANTS, ETC.), SPRINKLER TYPES (I.E., SPRINKLERS WITH MATCHING PRECIPITATION RATES) AND SOIL CHARACTERISTICS.
8. SPRAY HEADS AND ROTORS NOT MIXED IN SAME ZONE.
9. DISTRIBUTION EQUIPMENT IN A GIVEN ZONE HAVING MATCHED PRECIPITATION RATES.
10. APPLICATION RATES THAT AVOID RUNOFF AND PERMIT UNIFORM WATER INFILTRATION INTO THE SOIL, CONSIDERING LAND SLOPE, SOIL HYDRAULIC PROPERTIES, VEGETATIVE GROUND COVER AND PREVAILING WINDS.
11. A MINIMUM SEPARATION OF FOUR INCHES BETWEEN DISTRIBUTION EQUIPMENT AND PAVEMENT.
12. A MINIMUM SEPARATION OF 12 INCHES BETWEEN DISTRIBUTION EQUIPMENT AND BUILDINGS AND OTHER VERTICAL STRUCTURES.
13. NO DIRECT SPRAY ONTO WALKWAYS, BUILDINGS, ROADWAYS AND DRIVES.
14. LAWN SPRAY PATTERNS PROVIDING HEAD TO HEAD COVERAGE.
15. WATER CONVEYANCE SYSTEMS WITH A FLOW VELOCITY OF FIVE FEET PER SECOND OR LESS.
16. PIPELINES DESIGNED TO PROVIDE THE SYSTEM WITH THE APPROPRIATE PRESSURE REQUIRED FOR MAXIMUM IRRIGATION UNIFORMITY.
17. PRESSURE REGULATING HEADS.
18. A MAINTENANCE CHECKLIST PROVIDED TO THE PROPERTY OWNER BY THE IRRIGATION CONTRACTOR ACCOMPANIED BY A RECOMMENDED MAINTENANCE SCHEDULE. PROPER IRRIGATION SYSTEM SETTINGS ACCORING TO SEASON, RECOMMENDATIONS FOR CHECKING RAIN SENSOR DEVICE, FILTER CLEANING RECOMMENDATIONS AND INFORMATION ON THE CURRENT WATER RESTRICTIONS.
19. IRRIGATION SYSTEM DESIGN WILL BE PERMITTED THROUGH VOLUSIA COUNTY.

VOLUSIA COUNTY LANDSCAPE REQUIREMENTS:

1. A HIGH VOLUME IRRIGATION AREA SHALL NOT EXCEED 50 PERCENT OF THE LANDSCAPED AREA. LOW OR MEDIUM VOLUME IRRIGATION AREAS MAY BE UTILIZED IN LIEU OF ANY HIGH VOLUME IRRIGATION AREA.
2. A MEDIUM VOLUME IRRIGATION AREA SHALL NOT EXCEED 25 PERCENT OF THE LANDSCAPED AREA HOWEVER, THE LANDSCAPED AREA MAY CONTAIN UP TO 75 PERCENT MEDIUM VOLUME IRRIGATION AREA, IF NO HIGH VOLUME IRRIGATION AREA IS UTILIZED ON SITE.
3. A LOW VOLUME IRRIGATION AREA MAY BE UTILIZED FOR AN ENTIRE LANDSCAPED AREA WITH THE EXCEPTION OF NATIVE VEGETATION AREAS REGULATED BY SECTION 50-373(b)(4).
4. IN THE ALTERNATIVE TO (1), (2), AND (3) ABOVE, IF 25 PERCENT OF THE PRE-EXISTING NATIVE VEGETATION IS RETAINED ON SITE, THE REMAINING 75 PERCENT OF THE LANDSCAPED AREA MAY BE A HIGH VOLUME IRRIGATION AREA. FOR ALL PRE-EXISTING NATIVE VEGETATION RETAINED ON A PARCEL:
   - NO SUPPLEMENTAL WATER SHALL BE APPLIED TO THE NATIVE VEGETATION AREA.
   - ONLY HAND PRUNING OF NATIVE VEGETATION IS ALLOWED.
   - MECHANICAL MOWING OR CLEARING IS PROHIBITED.

VOLUSIA COUNTY CONTRACTOR LICENSE REQUIREMENTS:

NO PERSON MAY INSTALL OR REPAIR AN IRRIGATION SYSTEM IN VOLUSIA COUNTY UNLESS THEY POSSESS A VALID IRRIGATION CERTIFICATE OF COMPETENCY FROM THE DEPARTMENT. THE FOLLOWING PERSONS ARE EXEMPTED FROM HAVING TO POSSESS A CERTIFICATE OF COMPETENCY:

- LICENSED FLORIDA WATER WELL CONTRACTORS AND FLORIDA STATE CERTIFIED PLUMING CONTRACTORS.
- FLORIDA STATE REGISTERED PLUMBING CONTRACTORS.
- PROPERTY OWNERS WHO PERSONALLY PERFORM CONSTRUCTION, MAINTENANCE OR REPAIRS ON AN IRRIGATION SYSTEM THAT SERVES HIS OR HER OWNER-OCCUPIED SINGLE FAMILY RESIDENCE.

SITE AND GENERAL INFORMATION

1. THE PROPERTY AREA BOUNDARY CONSISTS OF 854,635 SF OR 19.620 ACRES. FOR BOUNDARY AND TOPOGRAPHIC SURVEY REFER TO THE SURVEY PERFORMED BY SLIGER AND ASSOCIATES (SEE SHEET No. 2.1, 2.2, 2.3 & 2.4 OF THESE PLANS).
2. THE EXISTING ZONING IS B-8 (COMMERCIAL) AND A-2 (RURAL AGRICULTURE). THE PROPOSED ZONING IS PBD (PLANNED BUSINESS DEVELOPMENT).
3. THE FLUM IS (1) OPEN SPACE / CONSERVATION, (2) RESIDENTIAL, OFFICE RETAIL AND (3) GENERAL COMMERCIAL.
4. THE TAX PARCEL NUMBERS ARE 412500000221 AND 412500000230.
5. THE EXISTING SITE CONDITION IS UNDEVELOPED. THE FLUCFCS LAND USE IS (191) UNDEVELOPED LAND WITHIN URBAN AREAS.
6. PER THE USDA NATURAL RESOURCES CONSERVATION SERVICE FOR VOLUSIA COUNTY, THE SCS SOILS MAP INDICATES THE SITE CONSISTS OF (1) APOPKA FINE SAND, 0 TO 5 PERCENT SLOPES, (19) DELAND FINE SAND, 0 TO 5 PERCENT SLOPES, (22) ELECTRA FINE SAND, 0 TO 5 PERCENT SLOPES, (23) FARMTON FINE SAND AND (51) POMONA-ST. JOHNS COMPLEX.
7. THE SITE IS LOCATED WITHIN ZONE "X" & "AE" PER FEMA MAP PANEL No. 12127C0194 J, DATED FEBRUARY 19, 2014.
8. ELECTRICAL UTILITY SERVICE WILL BE PROVIDED BY FLORIDA POWER & LIGHT. NATURAL GAS WILL BE PROVIDED BY TECO PEOPLES GAS COMPANY. TELEPHONE, CABLE AND INTERNET SERVICE WILL BE PROVIDED BY AT&T. CABLE TV AND INTERNET CAN ALSO BE PROVIDED BY SPECTRUM.
9. SOLID WASTE WILL BE COLLECTED AND DISPOSED OF BY WASTE PRO, INC.
10. THE SITE IS NOT LOCATED WITHIN THE LIMITS OF A WELLHEAD PROTECTION ZONE AND THERE IS NO ORDINARY HIGH WATER (OHW) LINE WITHIN THE SITE.
11. STORMWATER WILL BE PROVIDED BY INTERCONNECTED EXFILTRATION AND DRY RETENTION PRE-TREATMENT TO WET DETENTION POND SYSTEM.
12. POTABLE WATER AND WASTEWATER UTILITIES PROVIDED BY CITY OF ORMOND BEACH.
13. IRRIGATION SERVICE WILL BE PROVIDED BY PRIVATE WELL.
14. ACCESS WILL BE PROVIDED FROM S.R. 40 (GRANADA BOULEVARD) WITH A RIGHT-IN AND RIGHT-OUT DRIVEWAY. EMERGENCY ACCESS WILL BE PROVIDED BY CONNECTION TO WALGREENS.

SITE DEVELOPMENT USAGE

1. SETBACK:

	BUILDING	LANDSCAPE
FRONT (TYMBER CREEK)	25 FEET	20 FEET
REAR (NORTH)	20 FEET	20 FEET
SIDE (WEST)	10 FEET	20 FEET
SIDE (INTERIOR)	10 FEET	6 FEET
SIDE (CORNER)	20 FEET	6 FEET
MAXIMUM BUILDING HEIGHT		45 FEET

* SECTION 2-36(d) STATES, "HEIGHT LIMITS MAY EXCEED THAT ALLOWED BY DISTRICT REGULATIONS BY A MAXIMUM FIFTEEN FEET (15'), PROVIDED THAT THE STRUCTURE IS LOCATED AS TO NOT HAVE AN ADVERSE IMPACT ON ADJOINING PROPERTIES, PARTICULARLY SINGLE-FAMILY HOMES. THIS ADDITIONAL HEIGHT ALLOWANCE WILL NOT BE AWARDED FOR ANY PORTION OF A STRUCTURE LOCATED WITHIN FIFTY FEET (50') OF A SINGLE FAMILY HOME OR FOR A VACANT SITE IN A ZONING DISTRICT DESIGNED PRIMARILY FOR SUCH USE. IN NO CASE SHALL ANY BUILDING HEIGHT EXCEED SEVENTY-FIVE FEET (75') WHEN MEASURED FROM THE AVERAGE MEDIAN LOT ELEVATION TO THE HIGHEST POINT OF ANY STRUCTURE AND/OR ATTACHED SERVICES."

MAXIMUM BUILDING COVERAGE	35%
MAXIMUM IMPERVIOUS LOT COVERAGE	75%

THE B-8 ZONING DISTRICT ALLOWS 10 UNITS PER ACRE. THE LAND USE CATEGORIES ALLOW:
(1) "OPEN SPACE/CONSERVATION" (3.2 ACRES) - 0 UNITS
(2) "RESIDENTIAL, OFFICE RETAIL" (3.2 ACRES) - 48 UNITS
(3) "GENERAL COMMERCIAL" (13.22 ACRES) - 423 UNITS

THE PROPERTY'S LAND USES ALLOW A TOTAL OF 471 UNITS (300 UNITS PROPOSED).
THE UNITS PER ACRE NEED TO BE BASED UPON 16.42 ACRES OR
270 UNITS / 16.42 = 16.44 UNITS PER ACRE

NO STRUCTURE SHALL EXCEED 180 LINEAR FEET IN LENGTH PER LDC SECTION 2-57(22)(f).

2. PROPOSED SITE COVERAGE:

	SQ. FT	ACRE	%

FDOT CONSTRUCTION NOTES

1. MAINTENANCE OF TRAFFIC TO BE SUPERVISED BY A CERTIFIED PERSON.
2. THE CONTRACTOR SHALL NOTIFY THE DEPARTMENT A MINIMUM OF TWO BUSINESS DAYS PRIOR TO ANY LANE CLOSURES OR BEGINNING ANY CONSTRUCTION WITHIN THE FDOT RIGHT-OF-WAY.
3. ALL WORK PERFORMED WITHIN THE FDOT RIGHT OF-WAY SHALL BE IN ACCORDANCE WITH THE LATEST EDITIONS OF FDOT DESIGN STANDARDS, SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION, AND THE UTILITY ACCOMMODATION MANUAL.
4. IT WILL BE THE RESPONSIBILITY OF THE PERMITTEE TO REPAIR ANY DAMAGE TO FDOT FACILITIES CAUSED BY CONSTRUCTION OF THE PROJECT.
5. TEST RESULTS OF ANY TESTS TAKEN FOR OR DURING CONSTRUCTION OF THE PERMITTED WORK SHALL BE PROVIDED TO THE FDOT UPON REQUEST.
6. ALL CONCRETE TO BE REMOVED SHALL BE SAW CUT AT THE NEAREST JOINT IN GOOD CONDITION, SO AS TO PRODUCE A CONNECTION WITH NEW CONCRETE THAT IS FREE OF CRACKS, DEFORMITY IN SHAPE, IRREGULARITIES, AND OTHER DEFECTS.
7. ALL CONCRETE SHALL BE AN APPROVED FDOT MIX DESIGN OF 3,000 PSI.
8. ALL MATERIALS INSTALLED WITHIN FDOT RIGHT OF WAY SHALL BE LIMITED TO THOSE ON THE FDOT'S QUALIFIED PRODUCTS LIST OR APPROVED PRODUCT LIST OF TRAFFIC CONTROL SIGNALS AND DEVICES.

PHASING NOTE:
THE PHASING OF THE PROJECT MAY BE APPROVED BY THE SPRC AS A MINOR MODIFICATION TO THE DEVELOPMENT ORDER. THE SPRC MAY ALLOW CERTIFICATE OF OCCUPANCY FOR INDIVIDUAL BUILDINGS THAT ARE COMPLETED IN TERMS OF BUILDING AND SITE IMPROVEMENTS AND THE REMAINDER OF THE SITE IS PROTECTED FOR CONSTRUCTION ACTIVITIES.

PHASE 1 (SITE INFRASTRUCTURE CONSTRUCTION)

1. INSTALL ALL SITE FENCE, TREE BARRICADES AND CONSTRUCTION ENTRANCE.
2. CLEARING AND GRUBBING ENTIRE SITE WITHIN LIMITS OF CONSTRUCTION.
3. EARTHWORK IMPROVEMENTS CONSISTING OF SITE GRADING AND STORMWATER PONDS.
4. INSTALL PUBLIC LIFT STATION AND SANITARY SEWER MAIN, MANHOLES AND SERVICES.
5. INSTALL WATER MAIN, FIRE HYDRANTS, WATER SERVICES AND FIRE SERVICES.
6. INSTALL STORMWATER INLETS, DRAINAGE PIPES, CONTROL STRUCTURES, STORM-TECH EXFILTRATION AND MITERED END SECTIONS.
7. INSTALL SEGMENTAL RETAINING WALL.
8. INSTALL FIRST LIFT OF ASPHALT PAVEMENT CONSISTING OF STABILIZED SUBBASE, BASE AND1 INCH OF ASPHALT PAVEMENT.
9. TYMBER CREEK ROADWAY IMPROVEMENTS CONSISTING OF RIGHT-TURN LANE AND DUEL LEFT TURN LANE EXPANSION.
10. SURVEYOR TO PREPARE AS-BUILTS FOR WATER AND SEWER IMPROVEMENTS.
11. ENGINEER OF RECORD TO PREPARE FDEP WATER AND WASTEWATER CERTIFICATIONS FOR CITY OF ORMOND BEACH APPROVAL. ENGINEER OF RECORD TO SUBMIT FDEP WATER AND WASTEWATER CERTIFICATIONS TO FDEP FOR FINAL APPROVAL.
12. ENGINEER OF RECORD TO CERTIFY TYMBER CREEK ROAD IMPROVEMENTS WITH VOLUSIA COUNTY.

PHASE 2 (CLUBHOUSE, BUILDING 1 & 2)

1. ALL SITE INFRASTRUCTURE IMPROVEMENTS SHALL BE CONSTRUCTED INCLUDING FIRST LIFT OF ASPHALT FOR THE ENTIRE DEVELOPMENT PRIOR TO REQUESTING ANY BUILDING CLEARING FOR OCCUPANCIES.
2. CONSTRUCT CLUBHOUSE AND POOL, BUILDING 1 AND 2 BUILDING IMPROVEMENTS.
3. INSTALL SECOND LIFT OF ASPHALT (1") WITHIN BUILDING PHASE.
4. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
5. INSTALL SIDEWALK CONNECTION TO GRANADA BOULEVARD.
6. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
7. INSTALL PRE-CAST SCREEN WALL.
8. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
9. INSTALL LANDSCAPE, IRRIGATION AND FLOATING FOUNTAIN WITHIN WALGREENS.
10. SURVEYOR TO PREPARE AS-BUILTS FOR THIS BUILDING PHASE.
11. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
12. INSTALL TEMPORARY DUMPSTER.
13. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
14. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
15. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 3 (BUILDING 3)

1. CONSTRUCT BUILDING 3 BUILDING IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (1") WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. INSTALL SIDEWALK CONNECTION TO TYMBER CREEK ROAD.
5. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
6. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
7. INSTALL TEMPORARY DUMPSTER.
8. SURVEYOR TO PREPARE AS-BUILTS FOR THIS BUILDING PHASE.
9. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
10. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
11. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
12. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS A REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 4 (BUILDING 4)

1. CONSTRUCT BUILDING 4 BUILDING IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (1") WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
5. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
6. INSTALL TEMPORARY DUMPSTER.
7. SURVEYOR TO PREPARE AS-BUILTS FOR THIS BUILDING PHASE.
8. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
9. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
10. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
11. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 5 (BUILDING 5, 6, MAINTENANCE BLDG. & TRASH COMPACTOR)

1. CONSTRUCT BUILDING 5, 6, MAINTENANCE BUILDING AND TRASH COMPACTOR IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (1") WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
5. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
6. REMOVE ALL TEMPORARY DUMPSTER'S.
7. SURVEYOR TO PREPARE AS-BUILTS FOR THIS PHASE.
8. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
9. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
10. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
11. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 6 (BUILDING 7, 8 & ENTIRE SITE FINAL RE-INSPECTION)

1. CONSTRUCT BUILDING 7, 8 BUILDING IMPROVEMENTS AND FINAL SITE RE-INSPECTION.
2. INSTALL SECOND LIFT OF ASPHALT (1") WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. IINSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
5. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
6. SURVEYOR TO PREPARE AS-BUILTS FOR THIS PHASE.
7. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
8. INSTALL FLOATING FOUNTAIN IN WET DETENTION POND.
9. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
10. ENGINEER OF RECORD TO CERTIFY STORMWATER SYSTEM WITH SJRWMD.
11. ENGINEER OF RECORD TO CERTIFY FDEP NPDES NOTICE OF TERMINATION.
12. CITY OF ORMOND BEACH PHASE INSPECTION AND RE-INSPECTION OF ENTIRE SITE WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
13. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

CITY OF ORMOND BEACH SPRC NOTE:

THE PHASING OF THE PROJECT MAY BE APPROVED BY SPRC AS A MINOR MODIFICATION TO THE DEVELOPMENT ORDER. THE SPRC MAY ALLOW CERTIFICATE OF OCCUPANCY FOR INDIVIDUAL BUILDINGS THAT ARE COMPLETED IN TERMS OF BUILDING AND SITE IMPROVEMENTS AND THE REMAINDER OF THE SITE IS PROTECTED FOR CONSTRUCTION ACTIVITIES.

SUMMARY OF DRAINAGE:

THE EMBANKMENT MASTER QUALITY TREATMENT VOLUME REQUIRED IS THE GREATER OF 1-INCH OF RUNOFF OVER THE DRAINAGE RETENTION AREA OR 2.5-INCHES OVER THE IMPERVIOUS SURFACE PLUS AN ADDITIONAL 15 INCHES FOR ON-LINE STORAGE. AN ADDITIONAL 50% OF THE REQUIRED TREATMENT VOLUME IS REQUIRED FOR DISCHARGE TO OUTSTANDING FLORIDA WATERS. THE TREATMENT SYSTEM IS DESIGNED TO ENSURE THE POST-DEVELOPMENT DISCHARGE RATE AND VOLUME DOES NOT EXCEED THE PRE-DEVELOPMENT RATE AND VOLUME FOR THE MEAN ANNUAL 25 YEAR-24 HOUR, AND 100 YEAR-24 HOUR STORM EVENTS.

Design Storm	Rainfall (inches)	Discharge Rates (cfs)			Outflow Volume (ac-ft)			Max Flood Peak Stage (ft)
		North	South	East	North	South	East	
Mean Annual, 24-Hour	PRE	5.0	4.41	0.62	0.75	66.987	2.928	6.571	15.29
	POST		1.07	0.00	0.00	51.487	0	0	
25 Year, 24-Hour	PRE	9.0	13.77	1.93	2.33	153.044	5.989	20.59	17.40
	POST		3.77	0.00	0.00	132.044	0	0	
100 Year, 24-Hour	PRE	11.0	21.46	1.62	3.64	244.318	7.196	27.847	17.91
	POST		5.59	0.00	0.00	222.454	0	0	

STORM EVENT	PRE-DEVELOPMENT DISCHARGE VOLUME	POST-DEVELOPMENT DISCHARGE VOLUME	VOLUME RETAINED
MEAN ANNUAL	4.630 Ac-Ft	3.181 Ac-Ft	1.449 Ac-Ft
25YR-24HR	14.633 Ac-Ft	13.171 Ac-Ft	1.462 Ac-Ft
100YR-24HR	6.419 Ac-Ft	5.107 Ac-Ft	1.311 Ac-Ft

TREATMENT VOLUME REQUIRED (AC-FT)	4.931
TREATMENT VOLUME PROVIDED (AC-FT)	6.157
HALF-TIME DRAIN VOLUME RECOVERY (HOURS)	29.0

GENERAL DRAINAGE NOTES:

1. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE TO DRAINAGE SYSTEM AND SHALL RESTORE ANY DAMAGED STRUCTURES.
2. ALL PIPE FROM THE BUILDING DRAINS SHALL BE SMOOTH INTERIOR CORRUGATED HDPE.
3. ALL STORM PIPE SHALL BE CONSTRUCTED OF HDPE (SEE PIPE WITH CERTIFIED WATERTIGHT JOINTS BY THE MANUFACTURER. ACCEPTABLE HDPE PIPE SHALL BE ADS N-12 OR EQUAL.
4. THE CONTRACTOR SHALL SUBMIT SHOP DRAWINGS OF ALL MATERIALS AND STRUCTURES TO THE ENGINEER (NEWKIRK ENGINEERING, INC) FOR APPROVAL PRIOR TO THE PURCHASE OF ANY MATERIALS.
5. CONTRACTOR TO PLACE FILTER FABRIC BETWEEN DRAINAGE STRUCTURES AND TOPS TO PREVENT SOIL INTRUSION. THE FABRIC SHALL BE PERIODICALLY CLEANED OF SAND A MINIMUM OF TWICE DURING CONSTRUCTION.
6. ALL STORM STRUCTURES, INLETS, CLEANOUTS, ETC. WITHIN THE CONSTRUCTION AREA SHALL BE PROTECTED BY SILT FENCE, HAY BALES, ETC. WITHIN THE CONSTRUCTION AREA SHALL BE REMOVED AND DISPOSED OF OFFSITE.
7. ALL DRAINAGE STRUCTURES SHALL BE CONSTRUCTED WITH TRAFFIC RATED LIDS (RXD LOADING AND BE INSTALLED ACCORDINGLY PER FDOT STANDARD SPECIFICATIONS.
8. ALL DRAINAGE STRUCTURES WITHIN PAVED AREAS SHALL BE CLEANED OF SAND AT THE LAST STAGE OF CONSTRUCTION PRIOR TO THE FINAL INSPECTION.
9. ALL STORM INLET GRATES SHALL BE STEEL (TRAFFIC RATED).
10. ALL ROOTS THAT ARE BROKEN OR CHOPPED WITHIN THE CRZ ZONE SHALL BE DONE WITH SHALL BE SAW CUT CLEAN, Y WITH A SHARP SUPERVISION BY ISA CERTIFIED ARBORIST AND DETAILS AND NOTES ON SHEET 27.
11. AND REPLACE SOILS WITH GRANULAR TYPE 'B' SOILS.

ALL ROOTS THAT ARE BROKEN OR CHOPPED DRAINAGE WITHIN 48" OAK TREE CRITICAL ZONE SUPERVISION BY ISA CERTIFIED ARBORIST AND

ALL EXCAVATION WITHIN RETENTION AREAS 3 FEET BELOW BOTTOM OF STONE SHALL BE PERFORMED WITH LOW GROUND PRESSURE EQUIPMENT TO PREVENT COMPACTION OF SOILS.

DATE: NOVEMBER 2021
DESIGN BY: HHN
DRAWN BY: NHS
CHECKED BY: HHN
SCALE: 1"=40'

DRAWING NUMBER **26**

GENERAL EARTHWORK NOTES:

1. REMOVE ALL ORGANIC OR UNSUITABLE MATERIALS. IF ANY MUCK OR MUCK-LIKE MATERIAL IS DISCOVERED, IT WILL BE REQUIRED TO BE REMOVED, BACKFILLED WITH APPROPRIATE MATERIAL COMPACTED AND TESTED USING AASHTO T-180 MODIFIED PROCTOR METHOD.
2. ALL EMBANKMENTS SHALL BE COMPACTED TO 98% FOR COMMERCIAL AREAS, 95% FOR PAVED AREAS AND 95% FOR UNPAVED AREAS PER AASHTO T-180 MODIFIED PROCTOR TEST.
3. TEMPORARY FILL STOCKPILING IS NOT PERMITTED IN LIFTS GREATER THAN SIX FEET.
4. SOILS ARE TO BE STABILIZED BY WATER OR OTHER MEANS DURING CONSTRUCTION. THIS IS INTENDED TO REDUCE SOIL EROSION AND THE IMPACT TO NEIGHBORING COMMUNITIES.
5. ONCE AN AREA IS SEEDED OR SODDED, IT MUST BE MAINTAINED TO ALLOW THE GRASS TO GROW.
6. ALL NON-PAVED AREAS MUST BE PLANTED, GRASSED, OR MULCHED.

GENERAL GRADING NOTES:

1. CROSS SLOPES OF ACCESSIBLE PARKING SPACES AND ACCESS AISLE SHALL BE PLANED OR MANUFACTURED TO BE THE MINIMUM POSSIBLE AS REQUIRED BY THE FLORIDA ACCESSIBILITY CODE FOR BUILDING CONSTRUCTION (FACBC).
2. THE MAXIMUM ELEVATION CHANGE AT THE ENTRANCE DOOR MAY NOT EXCEED 1/2 INCH.
3. ALL SIDEWALK MARKINGS SHALL HAVE SLOPES NOT GREATER THAN 1/4 INCH / 1 FOOT IN MANEUVERING SPACES AT ALL DOORWAYS.
4. ALL SIDEWALKS SHALL HAVE A LONG SLOPE (LS) NO MAXIMUM.
5. ALL CURB RAMPS SHALL COMPLY WITH SECTION 406 OF FACBC.
6. ALL IMPROVEMENTS SHALL BE STAKED FOR CONSTRUCTION BY MEANS OF DIGITAL COORDINATES BY SURVEY OR UTILIZING GEODETIC DATA AS SHOWN ON THE PLANS OF DRAWING FOR PURPOSES OF STAKING ARE AT THE SURVEYOR.

REQUIRED FIRE FLOW:

"SITE DESIGNED IN ACCORDANCE TO THE NEW FIRE PREVENTION CODE AND NFPA EFFECTIVE JANUARY 1, 2015.

FLORIDA BUILDING CODE CONSTRUCTION TYPE:	VA - PROTECTED
FIRE AREA:	45,195 SF
REQUIRED FIRE FLOW:	3,750 GPM @ 3 HOURS
FIRE SPRINKLER SYSTEM REDUCTION (75%)	2,812 GPM
REQUIRED FIRE FLOW (3,750 - 2,812)	938 GPM @ 3 HOURS
	USE 1,200 GPM @ 3 HOURS

BASED ON NFPA 18.4.5.2.1, REDUCTION IN REQUIRED FIRE FLOW OF 75% SHALL BE PERMITTED WHEN THE BUILDING IS PROTECTED THROUGHOUT BY AN APPROVED SPRINKLER SYSTEM. THE RESULTING FIRE FLOW SHALL NOT BE LESS THAN 1,000 GPM.

PROVIDED FIRE FLOW:

THE PROPOSED WATER MAIN SYSTEM WAS MODELED AND TESTED WITH THE REQUIRED 1,200 GPM FIRE FLOW IN ADDITION TO THE MAXIMUM DAILY FLOW DEMAND TO ENSURE MINIMUM 20 PSI UNDER FIRE FLOW CONDITIONS. SIMULATIONS WERE RUN WITH FIRE DEMAND AT THE CENTER AND OUTERMOST BUILDINGS IN THE SYSTEM.

	FIRE LOCATION	PSI
SCENARIO 2	BUILDING 8	48.15 PSI
SCENARIO 3	BUILDING 3	53.28 PSI

WARNING !!
CONTRACTOR SHALL TAKE ALL PRECAUTIONS DURING CONSTRUCTION TO AVOID CONTACT WITH EXISTING UNDERGROUND UTILITIES. GAS MAINS AND OVERHEAD ELECTRIC IN THE RIGHT-OF-WAY.

AMOUNT OF EXISTING 2" to 5" TREES WITHIN TREE PRESERVATION AREA (TPA)	
PLOT AREA (100' x 100')	10,000 SF
AVERAGE TREE PLOT AREA QUANTITY	25 TREES
TREE PRESERVATION AREA	219,551 SF
TOTAL AMOUNT OF EXISTING 2" TO 5" TREES	549 TREES

TOTAL AMOUNT OF TREES PROVIDED	
SITE TREE REQUIREMENTS	1,227
TREE MITIGATION FOR PROTECTED TREES	625
TREE MITIGATION FOR SPECIMEN TREES	-175
TOTAL TREES REQUIRED	1,852
EXISTING TREES (6" CALIPER & LARGER)	735
EXISTING TREES (2" to 5" CALIPER) WITHIN TPA	549
PROPOSED TREES	456
TOTAL TREES PROVIDED	**1,740**

MITIGATION FOR SPECIMEN TREES WAS A CREDIT OF 175 TREES USED FOR PROTECTED TREES.

LANDSCAPE NOTES:

1. ALL PLANT MATERIAL SHALL CONFORM TO THE STANDARDS FOR FLORIDA #1 OR BETTER AS DESCRIBED IN THE CURRENT "GRADES AND STANDARDS FOR NURSERY PLANTS", STATE OF FLORIDA, DEPARTMENT OF AGRICULTURE, TALLAHASSEE, OR THEIR EQUAL AS DETERMINED BY THE LANDSCAPE ARCHITECT.
2. ALL MULCH SHALL BE ALL NATURAL WOOD (NO CYPRESS).
3. SOD SPECIFIED AS ST. AUGUSTINE "FLORITAM" SHALL BE 95% WEED-FREE. SOD SPECIFIED AS BAHIA SHALL BE 85% WEED-FREE. ALL SOD SHALL BE INSTALLED WITH TIGHT JOINTS, ROLLED AND FERTILIZED.
4. SEED, IF ANY, TO MEET SOUTHERN SEED CERTIFICATION ASSOCIATION.
5. ALL DIMENSIONS SHALL BE FIELD-CHECKED BY THE LANDSCAPE CONTRACTOR PRIOR TO CONSTRUCTION, WITH ANY DISCREPANCIES REPORTED IMMEDIATELY TO THE LANDSCAPE ARCHITECT.
6. THE PLANT MATERIALS SCHEDULE IS PROVIDED FOR THE CONVENIENCE OF THE LANDSCAPE CONTRACTOR; SHOULD THERE BE ANY DISCREPANCY BETWEEN THE PLAN AND THE PLANT LIST, THE PLAN WILL PREVAIL.
7. ALL MATERIALS MUST BE AS SPECIFIED ON THE LANDSCAPE PLAN. IF MATERIALS OR LABOR DO NOT ADHERE TO THE SPECIFICATIONS, THEY WILL BE REJECTED AT NO ADDITIONAL COST TO THE OWNER.
8. NO SUBSTITUTIONS OR CHANGES OF ANY KIND WILL BE ALLOWED AT THE TIME OF BIDDING SO AS TO PROVIDE FOR FAIR COMPARISON.
9. EXISTING IRRIGATION SYSTEM SHALL BE REVAMPED TO PROVIDE 100% COVERAGE.
10. THE CONTRACTOR SHALL VERIFY EXISTENCE AND LOCATION OF ALL EXISTING UTILITIES AND UNDERGROUND CONDITIONS PRIOR TO HIS COMMENCEMENT OF THE ANY WORK.
11. ALL BUILDING MATERIALS AND LABOR SHALL CONFORM TO THE SOUTHERN BUILDING CODE AND ALSO TO ALL LOCAL CODES THAT HAVE JURISDICTION.
12. ALL PERMIT AND VARIANCE APPLICATIONS SHALL BE MADE BY THE CONTRACTOR.
13. PRIOR TO CONSTRUCTION OF PLANTING BEDS, ALL AREAS ARE TO HAVE SOIL TESTS CONDUCTED TO DETERMINE pH AND SOIL FERTILITY. IT IS THE RESPONSIBILITY OF THE LANDSCAPE CONTRACTOR TO AMEND THE SOIL TO MEET ADEQUATE FERTILITY AND pH FOR CORRESPONDING PLANT MATERIAL. ALL TEST RESULTS SHALL BE REPORTED TO THE LANDSCAPE ARCHITECT.
14. EQUIPMENT SHALL BE OPERATED IN A MANNER AS NOT TO INJURE OR DESTROY ANY TREES SHOWN TO REMAIN. CONTRACTOR SHALL NOT CAUSE OR ALLOW THE CLEANING OF EQUIPMENT OR MATERIAL WITHIN THE DRIP LINE OF ANY TREE OR GROUPS OF TREES TO BE RETAINED OR THOSE PROPOSED. NOR SHALL THE CONTRACTOR ALLOW THE DISPOSAL OF WASTE MATERIAL, SUCH AS PAINT, OIL SOLVENTS, ASPHALT, CONCRETE, MORTAR OR ANY OTHER MATERIAL HARMFUL TO THE LIFE OF A TREE WITHIN THE DRIP LINE OF ANY TREE OR GROUP OF TREES. NO ATTACHMENT, WIRES (OTHER THAN PROTECTIVE GUY WIRES), SIGNS, OR PERMITS MAY BE FASTENED TO A TREE.
15. ANY EXISTING TREES CREDITED TOWARDS REQUIRED BUFFERS OR LANDSCAPE REQUIREMENTS REMOVED FOR ANY REASON SHALL BE REPLACED WITH TREES MEETING CITY APPROVAL WITH REGARDS TO SPECIES AND SIZE.
16. ALL QUESTIONS CONCERNING THE PLAN AND/OR SPECIFICATIONS SHALL BE DIRECTED TO THE LANDSCAPE ARCHITECT (386) 872-7794.
17. ALL SHADE TREES AND SINGLE TRUNK UNDERSTORY TREES SHALL BE STAKED USING ARBORGUY STAKING SYSTEM FOR SINGLE STEM TREE AND ALL MULTI-TRUNK UNDERSTORY TREES SHALL BE STAKED WITH ARBORGUY MULTI-TRUNK SYSTEM.
18. ANY CHANGE IN STAKING SYSTEM MUST BE APPROVED IN WRITING BY THE LANDSCAPE ARCHITECT BEFORE BEING INSTALLED.
19. ALL UNIMPROVED AREA NOT OTHERWISE PLANTED OR MULCHED SHALL BE SODDED WITH BAHIA UNLESS OTHERWISE NOTED ON THE LANDSCAPE PLAN.
20. PLANT MATERIAL SHALL BE CLEARLY IDENTIFIED AS FLORIDA #1 OR BETTER ON EITHER LABELS OR INVOICES.
21. ALL PLANT MATERIAL SHALL BE GUARANTEED ONE YEAR AFTER ACCEPTANCE BY OWNER.
22. ALL TREES IN SOD TO BE IN A (4) FOOT MINIMUM-MULCHED RING AROUND.
23. TREES SHALL BE PLANTED SO THAT THE TRUNK FLARE IS EXPOSED AND TOPMOST ROOT IN THE ROOTBALL ORIGINATING FROM THE TRUNK IS AT SOIL SURFACE OR WITHIN THE TOP INCH OF SOIL ON THE ROOTBALL.
24. ALL PLANT SPECIFICATIONS MUST BE MET OR EXCEEDED.
25. PLANT TREE SO THAT ROOTBALL IS 1"-2" ABOVE FINISH GRADE.
26. REMOVAL OF ALL CONSTRUCTION DEBRIS, LIMEROCK, EXCESS OF BUILDERS SAND, CONCRETE AND MORTAR DEBRIS, EXISTING WEEDS AND GRASS, AND ALL FOREIGN MATERIALS IN THE PLANTING BED AND SOD AREAS SHALL BE REMOVED AND A MINIMUM OF 3' OF CLEAN SAND WITH A pH 5.5-6.5 SHALL BE INSTALLED PRIOR TO ANY INSTALLATION OF PLANTS OR TREES.
27. FOR ALL NEW DEVELOPMENT, OR REDEVELOPMENT OF EXISTING PROPERTY, THE APPLICANT SHALL BE REQUIRED TO REMOVE ALL INVASIVE NONNATIVE PLANT SPECIES FROM THE PROPERTY PRIOR TO ISSUANCE OF THE CERTIFICATE OF OCCUPANCY.
28. ALL EXISTING TREES AND PALMS WILL BE PROPERLY PRUNED AND CLEANED OF DEADWOOD, BROKEN BRANCHES, DEAD FROND AND VINES AS NEEDED.
29. PER SECTION 11.01.02.B.4 OF THE LAND DEVELOPMENT CODE, ANY EXPANSION PROJECT SHALL INCLUDE REPLACING PREVIOUSLY PLANTED REQUIRED LANDSCAPING AND REPAIR OF EXISTING IRRIGATION THAT HAS BEEN DAMAGED OR DIED. AS-BUILTS ARE AVAILABLE FROM THE CITY.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Steven Spraker, Planning Director

Date: April 18, 2023

Subject: Live Local Act, Senate Bill 102

Commission Goal: Community Development

Introduction

On March 29, 2023, the Governor signed Senate Bill (SB) 102, known as the Live Local Act into law that seeks to provide incentives to build affordable and workforce housing. The law is effective July 1, 2023. The purpose of this disposition item is to inform the City Commission of the pending law.

Background

The Live Local Act was signed into law on March 29, 2023 and is effective July 1, 2023. Attached to the packet is (1) Bill Analysis and Fiscal Impact Statement and (2) text of the Live Local Act. The law has a wide range of amendments to state level resources that is discussed in the bill analysis. The focus of this disposition item is the amendments that would impact local jurisdictions. City staff are reviewing SB 102 and additional information will be provided leading up to the implementation. Key parts of the legislation include:

1. A municipality must authorize multifamily and mixed-use residential as allowable uses in any area zoned for commercial, industrial, or mixed use if at least 40 percent of the residential units in a proposed multifamily rental development are, for a period of at least 30 years, affordable as defined in s. 420.0004. Notwithstanding any other law, local ordinance, or regulation to the contrary, a municipality may not require a proposed multifamily development to obtain a zoning or land use change, special exception, conditional use approval, variance, or comprehensive plan amendment for the building height, zoning, and densities authorized under this subsection.
2. A municipality may not restrict the density of a proposed development authorized under this subsection below the highest allowed density on any land in the municipality where residential development is allowed.
3. A municipality may not restrict the height of a proposed development authorized

under this subsection below the highest currently allowed height for a commercial or residential development located in its jurisdiction within 1 mile of the proposed development or 3 stories, which is higher.

4. A proposed development authorized under this subsection must be administratively approved and no further action by the governing body of the municipality is required if the development satisfies the municipality's land development regulations for multifamily developments in areas zoned for such use and is otherwise consistent with the comprehensive plan, with the exception of the provisions establishing allowable densities, height, and land use.
5. Requires local governments to maintain a public, written policy that outlines procedures for expediting building permits and development orders for affordable housing.
6. Requires local governments to update and electronically publish an inventory of publicly owned property that may be appropriate for affordable and workforce housing.

Discussion

The Live Local Act preempts local government's land use and zoning regulations regarding zoning, density and height for the provision of affordable housing in commercial, industrial, and mixed use zoned areas. Staff is in the process of confirming the application of the new law. Below is staff's initial analysis:

Zoning:
The city's commercial zoning districts, except for the B-2, Neighborhood Commercial, allow for multifamily development at ten (10) units per acre. The industrial zoning district currently does not allow for residential development. The city does not have a designated mixed use zoning district and all the commercial areas (except for the B-2 zoning district) would allow for a mixture of uses. The Live Local Act would allow residential development within industrial zoned properties provided the affordable requirements as defined by state statute are met.

Density:
The city's commercial land use designations allow more density than the commercial zoning districts. The city land use designations allow the following density:

1. 32 units per acre: General Commercial and Tourist Commercial
2. 18 units per acre: Heavy Commercial
3. 15 units per acre: Residential, Office, Retail
4. 10 units per acre: Low Intensity Commercial
5. 0 units per acre: Public Institutional, Light Industrial/Utilities, and Heavy Industrial

The restriction of the zoning density was a policy decision to allow the Site Plan Review Committee to approve up to 10 units per acre administratively (no public hearing) and any project seeking a density of greater than 10 units per acre would require a public hearing.

The Live Local Act has the following actions regarding density:

1. A municipality may not restrict the density of a proposed development authorized under this subsection below the highest allowed density on any land in the municipality where residential development is allowed. This would allow the development at **32 units an acre** for a project that provides affordable housing as defined by state statute.
2. Industrially zoned properties that meet the Live Local Act requirements are allowed 32 units per acre.
3. The city cannot require Comprehensive Plan amendments, Special Exceptions, or Planned Developments for the use, density or building height for qualified projects.
4. Qualified projects that meet the Live Local Acts are required to be approved administratively with no public hearings.

Height:
The city zoning designations allow the following maximum height:

1. 75' maximum height: B-4, Central Business, B-6, Oceanfront Tourist Commercial, B-9, Boulevard, and B-10, Suburban Boulevard.
2. 50' maximum height: B-7, Highway Tourist Commercial
3. 45' maximum height: I-1, Light Industrial
4. 30' maximum height: B-1, Professional Office/Hospital Zoning District, B-5, Service Commercial, and B-8 (Commercial).

The Live Local Act requires the allowance of **a minimum of three (3) stories or the allowed height within the city within 1 mile of the proposed development**.

The above provisions are only for projects that provide at least 40 percent of the residential units in a proposed multifamily rental development that are, for a period of at least 30 years, affordable as defined in state statute 420.0004. Staff is continuing to research the new law and Comprehensive Plan and/or Land Development Code amendments may be necessary to implement the new state law.

Budget Impact

There is no budget impact as the result of this disposition item.

Citizen Impact

The Live Local Act seeks to provide incentives to build affordable and workforce housing. The legislation preempts local jurisdictions from utilizing their existing Comprehensive Plan land use categories and Land Development Code density, height and processes for qualified affordable housing projects. It is important to note that not every residential project would qualify for the zoning, density, and height exemptions.

The local impact is that there may be residential projects at a greater Land Development Code allowed density and height with no public hearings. In addition, industrially zoned property may be used for qualified affordable housing projects.

Recommendation

The purpose of the disposition item is to inform the City Commission of the Live Local Act. No action is required at this time and additional staff research to implement the newly signed law is needed.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 102
INTRODUCER:	Appropriations Committee, and Senator Calatayud and others
SUBJECT:	Housing
DATE:	February 24, 2023
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Hackett	Ryon	CA	**Favorable**
2.	Nortelus	Sadberry	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 102 makes various changes and additions to affordable housing related programs and policies at both the state and local level.

Much of the bill involves the Florida Housing Finance Corporation (FHFC), a public-private entity that administers the two largest statewide affordable housing programs: the State Apartment Incentive Loan (SAIL) program and the State Housing Initiatives Partnership (SHIP) program. With regards to the FHFC, the bill:

- Provides up to $150 million annually to the SAIL program for certain specified uses such as infill and projects near military installations. These funds are to be redirected from the General Revenue service charge, and this provision sunsets 2033.
- Provides up to a $5,000 refund for sales tax paid on building materials used to construct an affordable housing unit funded through the FHFC.
- Creates a new tax donation program to allow corporate taxpayers to direct certain tax payments to the FHFC, up to $100 million annually, to fund the SAIL program.
- Codifies the Florida Hometown Heroes down payment assistance program, retaining the structure as it exists while increasing the monetary limit per loan and the scope of eligibility.
- Adds two members to the FHFC Board of Directors, one appointed by the leader of each chamber of the Legislature.
- Broadens the ability for the FHFC to invest in affordable housing developments for those in or aging out of foster care.
- Adds a requirement to its annual legislative budget request.
- Makes a technical amendment to the qualified contracts process.

With regards to other state-level resources, the bill:

- Revises the State Housing Strategy to align with current best practices and goals.
- Requires nonconservation land managers to analyze whether such lands would be more appropriately transferred to a local government for affordable housing related purposes.
- Clarifies current law to ensure all local government requests for surplus lands are expedited.
- Expands Job Growth Grant Fund eligibility to specifically authorize public infrastructure projects that support affordable housing.
- Increases the amount of tax credits available through the Community Contribution Tax Credit Program for affordable housing from $14.5 million to $25 million annually.

With regards to local governments, the bill:

- Preempts local governments' requirements regarding zoning, density, and height to allow for streamlined development of affordable housing in commercial and mixed-use zoned areas under certain circumstances. Developments that meet the requirements may not require a zoning change or comprehensive plan amendment.
- Removes a local government's ability to approve affordable housing on residential parcels by bypassing state and local laws that may otherwise preclude such development, while retaining such right for commercial and industrial parcels.
- Removes provision in current law allowing local governments to impose rent control under certain circumstances, preempting rent control ordinances entirely.
- Requires counties and cities to update and electronically publish the inventory of publicly owned properties, for counties including property owned by a dependent special district, which may be appropriate for affordable housing development.
- Authorizes the FHFC, through contract with the Florida Housing Coalition, to provide technical assistance to local governments to facilitate the use or lease of county or municipal property for affordable housing purposes.
- Requires local governments to maintain a public written policy outlining procedures for expediting building permits and development orders for affordable housing projects.
- Provides that the Keys Workforce Housing Initiative is an exception to evacuation time requirements and that comprehensive plan and land use amendments approved under that initiative are valid.

The bill also introduces three ad valorem property tax exemptions:

- An ad valorem tax exemption for land owned by a nonprofit entity that is leased for a minimum of 99 years for the purpose of providing affordable housing.
- An ad valorem tax exemption that applies to rent-restricted units within newly constructed or substantially rehabilitated developments setting aside at least 70 units for affordable housing for households earning 120 percent of area median income or less.
- Authorizes counties and municipalities to offer, through ordinance, an ad valorem tax exemption to property owners who dedicate units for affordable housing for households earning 60 percent of area median income or less.

The bill contains the following appropriations to the FHFC:

- $100 million in non-recurring funds from the General Revenue Fund to implement the Florida Hometown Heroes Program;

- $252 million in non-recurring funds from the Local Government Housing Trust Fund for the SHIP program;
- $150 million in recurring funds from the State Housing Trust Fund for SAIL projects funded by the General Revenue service charge redirect in the bill.
- $109 million in non-recurring funds from the State Housing Trust Fund for the SAIL program; and
- $100 million in non-recurring funds from the General Revenue Fund to implement a competitive loan program to alleviate inflation-related cost increases for FHFC-approved multifamily projects that have not yet commenced construction.

See Section V., Fiscal Impact Statement, for Revenue Estimating Conference analysis on individual components of the bill.

Except as otherwise provided, the bill takes effect July 1, 2023.

II. Present Situation:

The present situation for each issue is described below in Section III, Effect of Proposed Changes.

III. Effect of Proposed Changes:

Present Situation:

Affordable Housing

One major goal at all levels of government is to ensure that citizens have access to affordable housing. Housing is considered affordable when it costs less than 30 percent of a family's gross income. A family paying more than 30 percent of its income for housing is considered "cost burdened," while those paying more than 50 percent are considered "extremely cost burdened." Severely cost burdened households are more likely to sacrifice other necessities such as healthy food and healthcare to pay for housing, and to experience unstable housing situations such as eviction.

Affordable housing is defined in terms of household income. Resident eligibility for Florida's state and federally funded housing programs is typically governed by area median income (AMI) levels. These levels are published annually by the U.S. Department of Housing and Urban Development (HUD) for every county and metropolitan area. The following are standard household income level definitions and their relationship to the 2022 Florida state AMI of $78,300 for a family of four (as family size increases or decreases, the income range also increases or decreases):[1]

- Extremely low income – earning up to 30% AMI (at or below $ 23,500);[2]
- Very low income – earning from 30.01 to 50% AMI ($23,501 to $39,150);[3]

[1] U.S. Department of Housing and Urban Development, *Income Limits, Access Individual Income Limits Areas – Click Here for FY 2022 IL Documentation*, available at https://www.huduser.gov/portal/datasets/il.html#2022 (last visited January 25, 2023).
[2] Section 420.0004(9), F.S.
[3] Section 420.0004(17), F.S.

- Low income – earning from 50.01 to 80% AMI ($39,151 to $62,650);[4] and
- Moderate income – earning from 80.01 to 120% of AMI ($62,651 to $94,000).[5]

To illustrate, below are examples of income thresholds from various counties in Florida:

AMI % Single Income	30%	60%	80%	120%	150%
Miami-Dade	20,490	40,980	54,640	81,960	102,450
Collier	19,830	39,660	52,880	79,320	99,150
Leon	17,070	34,140	45,520	68,280	85,350
Bradford[6]	12,750	25,500	34,000	51,000	63,750

AMI % Family of 4	30%	60%	80%	120%	150%
Miami-Dade	29,250	58,500	78,000	117,000	146,250
Collier	28,290	56,580	75,440	113,160	141,450
Leon	24,360	48,720	64,960	97,440	121,800
Bradford[7]	18,210	36,420	48,560	72,840	91,050

Housing costs reflect what people are willing to pay to live in an area, which may make it difficult for the workforce, elders, and people with disabilities to find affordable homes and apartments. The government helps make housing affordable through decreased monthly rent or mortgage payments so that income eligible families are able to pay less for housing than it would otherwise cost at "market rate." Lower monthly payments or down payment assistance is a result of affordable housing financing.

Florida Housing Finance Corporation

The 1997 Legislature created the Florida Housing Finance Corporation (FHFC) as a public-private entity to assist in providing a range of affordable housing opportunities for Floridians.[8] The FHFC is a corporation held by the state and housed within the Department of Economic Opportunity (DEO). The FHFC is a separate budget entity and its operations, including those relating to personnel, purchasing, transactions involving real or personal property, and budgetary matters, are not subject to control, supervision, or direction by the DEO.[9]

The goal of the FHFC is to increase the supply of safe, affordable housing for individuals and families with very low to moderate incomes by stimulating investment of private capital and encouraging public and private sector housing partnerships. As a financial institution, the FHFC administers federal and state resources to finance the development and preservation of affordable rental housing and assist homebuyers with financing and down payment assistance.

[9] Section 420.504(1), F.S.

Funding for Affordable Housing

The FHFC draws and administers funds from federal programs through federal tax credits and the HUD,[10] from the state through the State Housing Trust Fund and Local Government Housing Trust Fund,[11] both funded by documentary stamp taxes, as well as ad hoc individual legislative appropriations, and through program income, which consists primarily of funds from successful loan repayment that is recycled into the program it came from.

Documentary Stamp Tax

The documentary stamp tax imposes an excise tax on deeds or other documents that convey an interest in Florida real property. The tax comprises two taxes imposed on different bases at different tax rates. The first tax rate is 70 cents on each $100 of consideration for deeds, instruments, or writings whereby lands, tenements, or other real property or interests that are granted, assigned, transferred, conveyed or vested in a purchaser.[12] The second tax rate is 35 cents per each $100 of consideration for certificates of indebtedness, promissory notes, wage assignments, and retail charge account agreements.[13] Revenue collected from the documentary stamp tax is divided between the General Revenue Fund and various trust funds[14] according to the statutory formula in ch. 201, F.S.

Housing Trust Funds

The State Housing Trust Fund, administered by the FHFC,[15] is "to be used for new construction and substantial rehabilitation of housing, to improve the state's ability to serve first-time homebuyers, and to increase the affordability and availability of the housing stock in the State of Florida."[16] The 1992 Sadowski Act increased documentary stamp tax rates and provided for a certain proportion of documentary stamp tax revenues to be distributed to the State Housing Trust Fund. A large portion of these funds are utilized in the State Apartment Incentive Loan (SAIL) Program.

The Local Government Housing Trust Fund, administered by the FHFC,[17] is used to fund the State Housing Initiatives Partnership (SHIP) Program, which was created "for the purpose of providing funds to local governments as an incentive for the creation of partnerships to produce and preserve affordable housing."[18] A certain proportion of documentary stamp tax revenues are distributed to the Local Government Housing Trust Fund.

[18] Chapter 92-317, s. 32, Laws of Fla.; s. 420.9072, F.S. (1992).

State Apartment Incentive Loan (SAIL) Program

The SAIL Program is administered by the FHFC and provides low-interest loans on a competitive basis to multifamily affordable housing developers.[19] These funds often serve to bridge the gap between the development's primary financing and the total cost of the development. SAIL dollars are available for developers proposing to construct or substantially rehabilitate multifamily rental housing.[20]

At a minimum, developments financed by SAIL must set aside 20 percent of units for households at or below 50 percent of AMI, or if the development also receives Low Income Housing Tax Credits[21] (LIHTC), 40 percent of units for households up to 60 percent of AMI.[22] Loan interest rates are set at zero percent for those developments that maintain 80 percent of their occupancy for farmworkers, commercial fishing workers or homeless people. The interest rates are set at one percent for all other developments. Generally, loans are issued for 15 years and cover approximately 25 to 35 percent of the total development cost.

Development Funding Selection Process

SAIL funding is distributed by the FHFC through a competitive solicitation process.[23] Each year the FHFC issues several requests for application, formal offers of funding that require hopeful developers to give the FHFC detailed information related to the development. These requests for application vary by geography and needs of the community, based on a statewide market study.[24] Applications are then reviewed and scored by the FHFC, based on a number of criteria, and awards are made from the highest scoring applications.[25]

To illustrate, in 2022 one request for application was entitled "SAIL Financing for the Construction of Workforce Housing in Monroe County."[26] This request stated that up to $5.52 million in SAIL financing would be awarded for a Monroe County based development serving workforce income households (up to 120% AMI), in addition to $1.8 million of LIHTC financing available for award to developments serving low income households (up to 60% AMI). Applicants filed detailed information, including developer experience, development characteristics, proposed location, set-aside commitments, and existing financing. Applications

[20] See Florida Housing Finance Corporation, *State Apartment Incentive Loan*, available at https://floridahousing.org/programs/developers-multifamily-programs/state-apartment-incentive-loan (last visited February 3, 2022).
[21] Low Income Housing Tax Credits are a financial instrument administered by the Department of Housing and Urban Development that provide financing for low income housing developments. Credits are allocated to states on a per capita basis and state-level administration is performed by FHFC. Eligible developments are income-limited similarly to SAIL requirements.
[22] Section 420.5087(2), F.S.
[23] Section 420.5087(1), F.S.
[24] *Id.*, *see also* Fla. Admin. Code R. Ch 67-60.
[25] For the full list of statutory criteria, *see* s. 420.5087(6)(c), F.S. Additional criteria and scoring mechanics can be set by FHFC.
[26] Florida Housing Finance Corporation, *Request for Applications 2022-208*, March 7, 2022, available at https://www.floridahousing.org/docs/default-source/programs/competitive/2022/2022-208/3-7-22-final-2022-208-workforce_bookmarked08e499c2fb0d6fb69bf3ff00004a6e0f.pdf?sfvrsn=ce9f67b_0 (last visited December 29, 2022).

were reviewed and ultimately one was awarded the full amount available. The resulting development following award will have 98 units, with each unit set aside as follows:

- 10 percent of the units will serve households at or below 25% AMI;
- 40 percent of the units will serve households at or below 60% AMI; and
- 50 percent of the units will serve households between 60% and 120% AMI.[27]

These set-asides for affordable housing set two limits on an apartment: the rent is limited to make the apartment affordable to someone at the target income, and potential renters must submit proof of income beneath the target before becoming eligible renters. Set-asides are generally governed by a Land Use Restrictive Agreement (LURA), which is recorded by the county clerk's office and runs with the land. A LURA can also include a time period associated with restriction compliance enforced by the IRS, HUD, or other housing authority.[28] Both the FHFC and local governments utilize LURAs to enforce requirements that developers receiving funding indeed go on to provide affordable housing.

The same competitive solicitation process is used to distribute many different types of funding routed through the FHFC. The FHFC is the state's administrator for all federal affordable housing programs, which include LIHTC, HOME investment partnerships and the National Housing Trust Fund program via the HUD, and Multifamily Mortgage Revenue Bonds. The process is also used for other state programs such as the Elderly Housing Community Loan Program.[29] Certain funding sources can also be paired to ensure a greater number of projects are funded.

External Funding for SAIL Projects

SAIL funding operates as gap financing, which means it provides the last amount needed to secure a development's future. There are several sources of funding that an affordable housing development will take advantage of:

- FHFC Loans and Grants, which result from state appropriations;
- Traditional financing through bank loans and bond issuance;
- Local government investment;
- Private funds directly raised or put forth by the developer; and
- LIHTC.

Housing credits are a financial instrument, tax credits, issued through the LIHTC program.[30] After being allocated a certain amount of tax credits by the federal government based on population and need, the FHFC allocates the funding to affordable housing developers. There are two types of credits:

---

[29] SB 102's focus, as it relates to multifamily development loans, is SAIL funding. For more on the programs referred to in this paragraph, *see generally* Florida Housing Finance Corporation, *2021 Annual Report*, January 30, 2022, available at https://issuu.com/fhfc/docs/2021_annual_report (last visited December 29, 2022).

[30] Florida Housing Finance Corporation, *Housing Credits*, available at https://www.floridahousing.org/programs/developers-multifamily-programs/low-income-housing-tax-credits (last visited January 5, 2023).

- 9 percent credits, which are more valuable and limited. These are competitively bid for and can typically fund two-thirds of a development's total cost; and
- 4 percent credits, which are not limited and considered "non-competitive." These typically fund one third of a development's total cost.

General Revenue Service Charge Redirect for SAIL Program

Section 201.15, F.S., prescribes the distribution of revenues from the excise tax on documents. After payments on certain outstanding bonds and a distribution to the Land Acquisition Trust Fund, eight percent of total collections is deducted as the General Revenue service charge required by s. 215.20(1), F.S. This charge is intended to represent a share of the cost of general government. The remaining revenues from the excise tax on documents are distributed to various trust funds, including the State Housing and Local Government Housing Trust Funds, pursuant to s. 201.15, F.S.

Effect of Proposed Changes:

The bill provides for $150 million to be redirected from the General Revenue service charge to the State Housing Trust Fund for use in the SAIL program, with certain priorities and goals attached. These goals include projects focused on infill and maximizing existing infrastructure, the use and lease of public lands, projects near military installations, and projects meeting the needs of certain groups such as the elderly and those aging out of foster care. This funding is annually recurring, and will be repealed on July 1, 2033. A section-level breakdown follows.

Section 10 amends s. 201.15, F.S., to provide that, after documentary stamp tax revenue distributions to the Land Acquisition Trust Fund and before any other distributions, the lesser of 8 percent of the remainder or $150 million is paid to the credit of the State Housing Trust Fund to be utilized pursuant to s. 420.50871, F.S., created by section 30. The remainder of the 8 percent shall be paid into the General Revenue Fund, constituting the General Revenue service charge. The section removes other references to the General Revenue service charge.

Section 11 provides that the amendments made by section 10 expire on July 1, 2033, and the text of that section shall revert to that in existence before the bill's passage but for any amendments by other legislation which are not dependent on the portions of the text which expire.

Section 14 creates s. 215.212, F.S., to exempt documentary stamp taxes from the General Revenue service charge, in accordance with the amendments made by Section 10 which provide the same 8 percent charge in another form. This section is also repealed July 1, 2033.

Section 15 amends s. 215.22, F.S., to make a technical conforming change. **Section 16** likewise provides that the amendments made by section 15 expire on July 1, 2033, and the text of that section shall revert to that in existence before the bill's passage but for any amendments by other legislation which are not dependent on the portions of the text which expire.

Section 32 creates s. 420.50871, F.S., which provides the allocation of revenues derived by the amendments made by section 10. The $150,000,000 allocated to the State Housing Trust Fund

by section 10 are to be used by the FHFC under the SAIL program, with specific requirements as follows:

Seventy percent of the funds must be used to issue competitive requests for application to finance projects that:

- Both redevelop an existing affordable housing development and provide for the construction of a new development within close proximity to the existing development to be rehabilitated. This mechanism involves building a new affordable housing development first, relocating the tenants of the existing development to the new development, and then demolishing the existing development for reconstruction of an affordable housing development with more overall and affordable units.
- Address urban infill, including conversions of vacant, dilapidated, or functionally obsolete buildings or the use of underused commercial property.
- Provide for mixed use of the location, incorporating nonresidential uses, such as retail, office, institutional, or other appropriate commercial or nonresidential uses.
- Provide housing near military installations in this state.

The remaining 30 percent must be used to finance any of the following projects which:

- Propose using or leasing public lands. Projects that propose to use or lease public lands must include a resolution or other agreement with the unit of government owning the land to use the land for affordable housing purposes.
- Address needs of young adults who age out of the foster care system.
- Meet the needs of elderly persons.
- Provide housing to meet the needs in areas of rural opportunity, designated pursuant to s. 288.0656, F.S.

One project need not meet all of the goals listed for each allocation group, but each goal must be targeted for development. The bill instructs the FHFC to coordinate with the appropriate state department or agency for each goal, and to prioritize projects providing mixed-income developments. Funds allocated under this section must remain within the requirements of this section, but the FHFC may allocate outside funds (e.g. from the wider SAIL program) to supplement these funds.

This section is repealed on June 30, 2033.

Section 33 directs the Division of Law Revision to make technical amendments to bill when published into law.

Present Situation:

Florida Sales Tax Refund for SAIL Developments

Florida levies a six percent sales and use tax on the sale or rental of most tangible personal property,[31] admissions,[32] transient rentals,[33] and a limited number of services. Chapter 212, F.S.,

[31] Section 212.05(1)(a)1.a., F.S.
[32] Section 212.04(1)(b), F.S.
[33] Section 212.03(1)(a), F.S.

contains provisions authorizing the levy and collection of Florida's sales and use tax, as well as the exemptions and credits applicable to certain sales. Sales tax is added to the sales price of the taxable good or service and collected from the purchaser at the time of sale.[34]

Counties are authorized to impose local discretionary sales surtaxes in addition to the state sales tax.[35] A surtax applies to "all transactions occurring in the county which transactions are subject to the state tax imposed on sales, use, services, rentals, admissions, and other transactions by [ch. 212, F.S.], and communications services as defined in ch. 202."[36] The discretionary sales surtax is based on the tax rate imposed by the county where the taxable goods or services are sold or delivered. Discretionary sales surtax may be levied in a range of 0.5 to 2.5 percent.[37]

Effect of Proposed Changes:

Section 12 (in part) amends s. 212.08(5)(v), F.S., to provide up to a $5,000 refund for sales tax paid on building materials used to construct an affordable housing unit funded through the FHFC.

The bill provides that building materials used in eligible residential units are exempt from sales tax under certain circumstances. The exemption takes the form of a post-construction refund to the owner, and may not exceed the lesser of $5,000 or 97.5 percent of the Florida sales or use tax paid on the cost of building materials per unit. A refund will not be granted unless it exceeds $500. This refund does not apply to affordable housing developments for which construction began prior to July 1, 2023.

In order to receive the refund, the owner of the applicable residential units must submit a review request to the Department of Revenue (DOR) within six months of the units' completion, including the following:

- The applicant's name and address;
- An address and parcel number of the improved real property;
- A description of the eligible residential units;
- A copy of the units' building permit;
- A sworn statement from the general contractor or owner specifying the building materials, their cost and sales tax; and
- A certification by the building code inspector that the unit is substantially completed.
- A copy of the LURA with the FHFC for the eligible units.

The exemption may also be claimed by a local government, agency, or nonprofit community-based organization if the building materials are paid for from the funds of a grant or loan program similar to SHIP. In this instance, the local government, agency, or organization would submit the same request as above.

The DOR may adopt rules to implement the directives of this section.

[34] Section 212.07(2), F.S.
[35] Section 212.055, F.S.
[36] Section 212.054(2)(a), F.S.
[37] Office of Economic and Demographic Research, *Florida Tax Handbook*, 227-228 (2021), *available at* http://edr.state.fl.us/Content/revenues/reports/tax-handbook/taxhandbook2021.pdf (last visited Dec. 06, 2021).

The DOR will additionally move 10 percent of the value of the refund from the Local Government Half-Cent Sales Tax Clearing Trust Fund to the General Revenue Fund in order to reflect the sales tax refund.

Present Situation:

"Live Local Program" - Tax Credit Program benefiting SAIL Program

The Florida Tax Credit Scholarship Program (FTC) was created in 2001[38] and allows taxpayers to make private, voluntary contributions to scholarship-funding organizations (SFOs) that can then be awarded as scholarships to eligible low-income students for private school tuition and fees. Taxpayers can receive a tax credit for use against their liability for corporate income tax, insurance premium tax, oil and gas production tax, use tax under a direct pay permit or alcoholic beverage taxes on beer, wine, and spirits.[39] The tax credit is equal to 100 percent of the eligible contributions made.[40] To receive a tax credit the taxpayer must submit an application to the DOR and specify each tax for which the taxpayer requests a credit and the applicable taxable or state fiscal year for the credit.[41] Taxpayers can rescind tax credits, which will become available to another eligible taxpayer in that fiscal year.[42]

Described below are select taxes imposed by Florida on certain businesses and products within the state.

- Corporate Income Tax: Florida imposes a 5.5 percent tax on the taxable income of certain corporations and financial institutions doing business in Florida.[43] Corporate income tax is remitted to the DOR and distributed to the General Revenue Fund.
- Insurance Premium Tax: Florida imposes a 1.75 percent tax on most Florida insurance premiums.[44] Insurance premium taxes are paid by insurance companies under ch. 624, F.S., and are remitted to the DOR. These revenues are distributed to the General Revenue Fund with additional distributions to the Insurance Regulatory Trust Fund, the Police & Firefighters Premium Tax Trust Fund, and the Emergency Management Preparedness & Assistance Trust Fund.

Effect of Proposed Changes:

Section 34 creates s. 420.50872, F.S., to establish the "Live Local Program," a tax credit program benefiting the SAIL program.

Under the Live Local Program, businesses that make monetary donations to the FHFC to fund the SAIL program may receive a dollar-for-dollar credit against either corporate income or

[38] Section 1002.395, F.S.
[39] Section 1002.395(1) and (5), F.S.
[40] Sections 220.1875 and 1002.395(5), F.S.
[41] Section 1002.395(5)(b), F.S.
[42] Section 1002.395(5)(e), F.S.
[43] Sections 220.11(2) and 220.63(2), F.S.
[44] Section 624.509, F.S. (Different tax rates apply to wet marine and transportation insurance, self-insurance, and annuity premiums.)

insurance premium taxes. New sections are created in each of the applicable tax chapters to create the credit. The annual tax credit cap for all credits under the program is $100 million.

The FHFC must expend all of the contributions received under the Live Local Program for the SAIL program. From the amount received, the FHFC may use up to $25 million to provide loans for the construction of large-scale projects of significant regional impact. These projects must include a substantial civic, educational, or health care component, and may incorporate commercial use.

Such a loan must be made in accordance with the practices and policies of the SAIL program, through a competitive application process, and must not exceed 25 percent of the development's total costs. The FHFC must find that such a loan provides a unique opportunity for investment alongside local government participation that enables the creation of a significant amount of affordable and workforce housing.

Application and Approval of Tax Credits by the DOR

Taxpayers that wish to participate in the program by making a donation to the initiative must apply to the DOR beginning October 1, 2023, for an allocation of tax credit. The taxpayer must specify in the application each tax for which the taxpayer requests a credit, the applicable taxable year for a credit under s. 220.1878 (regarding corporate income tax and created by **section 21**) or s. 624.51058, F.S. (regarding insurance premium taxes and created by **section 41**). The DOR is required to approve the tax credits on a first-come, first-served basis.

Any unused credit may be carried forward up to ten taxable years. The bill generally does not allow a taxpayer to convey, transfer, or assign the credit to another entity unless all of the assets of the taxpayer are conveyed, transferred, or assigned in the same transaction. Upon approval of the DOR, transfers may be made between members of an affiliated group of corporations if the credit transferred will be taken against the same type of tax. Credits earned under this program are to be accounted for in calculating the underpayment of estimated corporate income taxes, as well as associated penalties and interest.

A taxpayer may apply to the DOR to rescind all or part of an approved tax credit. The amount rescinded becomes available for that state fiscal year to another eligible taxpayer as approved by the DOR if the taxpayer receives notice that the rescindment has been accepted.

The bill allows the DOR and the FHFC to share information and develop a cooperative agreement to assist in the administration of the program, and the DOR is further authorized to adopt rules. Additionally, the bill requires the DOR, by August 15, 2023, and each year thereafter, to determine the 500 taxpayers with the greatest total corporate income or franchise tax liability and notify those taxpayers of the existence of the Live Local Program and the process to participate.

Section 13 amends s. 213.053, F.S., to direct the DOR to make available to the FHFC information for the purpose of administering the Live Local program.

Present Situation:

SAIL Developments for Those in Foster Care or Those Aging out of Foster Care

Current law provides that the FHFC may prioritize a portion of SAIL funding set aside for persons with special needs to provide funding for the development of newly constructed permanent rental housing *on a campus* that provides housing for persons in foster care or persons aging out of foster care.[45] This housing must promote and facilitate access to community-based supportive, educational, and employment services and resources that assist persons aging out of foster care to successfully transition to independent living and adulthood.

Effect of Proposed Changes:

Section 31 amends s. 420.5087(10), F.S., to remove the requirement that the prioritized developments for persons in foster care or aging out of foster care be "on a campus" that provides housing for such persons, in order to add flexibility to the types of developments the FHFC can fund.

Present Situation:

State Housing Initiatives Partnership (SHIP) Program

The SHIP Program was created in 1992[46] to provide funds to local governments as an incentive to create partnerships that produce and preserve affordable homeownership and multifamily housing. The SHIP program provides funds to all 67 counties and 52 Community Development Block Grant[47] entitlement cities on a population-based formula to finance and preserve affordable housing based on locally adopted housing plans.[48] The program was designed to serve very-low, low-, and moderate-income families and is administered by the FHFC. SHIP funds may be used to pay for emergency repairs, rehabilitation, down payment and closing cost assistance, impact fees, construction and gap financing, mortgage buydowns, acquisition of property for affordable housing, matching dollars for federal housing grants and programs, and homeownership counseling.[49]

Funds are expended per each local government's adopted Local Housing Assistance Plan (LHAP), which details the housing strategies it will use.[50] Local governments submit their LHAPs to the FHFC for review to ensure that they meet the broad statutory guidelines and the requirements of the program rules. The FHFC must approve an LHAP before a local government may receive the SHIP funding.

[45] Section 420.5087(10), F.S.
[46] Chapter 92-317, Laws of Fla.
[47] The CDBG program is a federal program created in 1974 that provides funding for housing and community development activities.
[48] *See* ss. 420.907-420.9089, F.S.
[49] Section 420.072(7), F.S.
[50] Section 420.9075, F.S. Section 420.9075(3), F.S., outlines a list of strategies LHAPs are encouraged to employ, such as helping those affected by mobile home park closures, encouraging innovative housing design to reduce long-term housing costs, preserving assisted housing, and reducing homelessness.

Certain statutory requirements restrict a local government's use of funds made available under the SHIP program (excluding amounts set aside for administrative costs):

- At least 75 percent of SHIP funds must be reserved for construction, rehabilitation, or emergency repair of affordable, eligible housing;[51] and
- Up to 25 percent of SHIP funds may be reserved for allowed rental services.[52]

Within those distributions by local governments, additional requirements must be met:

- At least 65 percent of SHIP funds must be reserved for home ownership for eligible persons;[53]
- At least 20 percent of SHIP funds must serve persons with special needs;[54]
- Up to 20 percent of SHIP funds may be used for manufactured housing;[55] and
- At least 30 percent of SHIP funds must be used for awards to very-low-income persons or eligible sponsors serving very-low-income persons, and another 30 percent must be used for awards for low-income-persons or eligible sponsors serving low-income persons.[56]

Florida Housing Finance Corporation Homeownership Programs

The FHFC's primary function is administering a variety of programs to assist in the development and rehabilitation of affordable housing stock, provide low interest loans for first-time homebuyers, provide down payment assistance and reduce closing costs, and assist in the housing side of disaster recovery. The following programs focus primarily on aiding first-time homebuyers into stable homeownership by reducing mortgage payments and onerous one-time costs associated with purchasing a home.

Homebuyer Loan Programs

The FHFC's homebuyer loan programs offer 30-year fixed-rate first mortgage loans originated by a network of participating lenders throughout Florida. The programs are offered to eligible first time homebuyers[57] who meet income, purchase price and other program criteria; can qualify for a loan; and successfully complete a homebuyer education course.[58] Borrowers who qualify

[51] Section 420.9075(5)(c), F.S.
[52] Section 420.9075(5)(b), F.S. However, a local government may not expend money distributed to it to provide ongoing rent subsidies, except for: security and utility deposit assistance; eviction prevention not to exceed six months' rent; or a rent subsidy program for very-low-income households with at least one adult who is a person with special needs or is homeless, not to exceed 12 months' rental assistance.
[53] Section 420.9075(5)(a), F.S. "Eligible person" or "eligible household" means one or more natural persons or a family determined by the county or eligible municipality to be of very low income, low income, or moderate income based upon the annual gross income of the household.
[54] Section 420.9075(5)(d), F.S.
[55] Section 420.9075(5)(e), F.S.
[56] Section 420.9075(5)(g)2., F.S.
[57] The IRS definition of "first-time homebuyer," generally accepted by Florida agencies and corporations, is a person who has not owned and occupied their primary residence for the past three years. *See Homebuyer Overview*, FHFC, available at https://www.floridahousing.org/programs/homebuyer-overview-page (last visited December 15, 2021).
[58] FHFC funds homebuyer loans through various transaction types, including (a) the specified pool market, (2) tax-exempt bonds, and (3) forward delivery/To Be Announced (TBA) market.

for a first mortgage program may access one of the FHFC's down payment assistance (DPA) programs.[59]

Down Payment Assistance

The FHFC administers multiple DPA programs available to first time homebuyers utilizing a FHFC first mortgage loan product. DPA is typically offered as a low- or zero-rate loan, in the form of a second mortgage,[60] to secure funding for down payments, closing costs, mortgage insurance premiums, or principal reduction to the first mortgage.[61] FHFC DPA programs are funded from a mix of sources including documentary stamp tax revenue, special legislative appropriation, and FHFC program income, which is primarily returned loan money. The various programs differ in terms of eligibility, ranging up to 120 percent AMI, requirements, such as also having been approved for a first mortgage through the FHFC, and terms, some including forgivable loans.

Hometown Heroes Program

In 2022, pursuant to the 2022 General Appropriations Act,[62] the FHFC created the Hometown Heroes Program, a new homeownership assistance program.[63] Under the program, eligible purchasers have access to 0-interest rate loans to reduce the amount of down payment and closing costs from $10,000 to a maximum of 5 percent or $25,000, whichever is less. Loans must be repaid when the property is sold, refinanced, rented, or transferred unless otherwise approved by the FHFC.

Such loans are available to those first-time homebuyers seeking first mortgages whose family incomes do not exceed 150 percent of the state or local AMI, whichever is greater, and are employed in certain necessary professions such as law enforcement officers, educators, healthcare professionals, and active military or veterans (combining the previous Salute our Soldiers Program).[64] The requirement to be a first-time homebuyer does not apply to those qualifying as servicemembers or veterans.

The FHFC was appropriated $100 million in 2022 to establish the Hometown Heroes Program.[65] As of February 17, 2023, the program has provided over $58 million in assistance in 3,990 loans.

[65] Supra note 62.

Effect of Proposed Changes:

Section 35 creates s. 420.5096, F.S., to codify the Florida Hometown Heroes Program. The program created by the bill will operate as the current Hometown Heroes program with the following differences:

- Eligibility remains based on income being at or below 150 percent AMI and one's ability to qualify for a first mortgage, however the occupation qualifiers that currently apply to the Hometown Heroes program are omitted. A prospective borrower must be a Florida resident and employed full-time (35 hours or more per week) by a Florida-based employer.
- The maximum amount available per loan is raised from $25,000 to $35,000, while the cap of 5 percent of purchase price is maintained.
- The bill specifies that loans made under this program may be used for the purchase of manufactured homes, as defined by s. 320.01(2)(b), that were constructed after August 1, 1994, and are titled as either real or tangible personal property.

Present Situation:

Additional Provisions Related to the Florida Housing Finance Corporation

Legislative Budget Request

As SAIL funding can be used in several ways (for example new unit production, rehabilitation, and maintenance of affordable units), and is often utilized to draw down federal funding from tax credits and grant funds, the effects of SAIL funding are variable on a per-dollar basis. The amount of funding needed annually to maximize state and local funding toward the production of new affordable units is calculable by analyzing the various sources and matching state funding with federal funding.

The FHFC prepares and submits an annual legislative budget request to the Secretary of the DEO containing a request for operational expenditures and a separate request for other authorized corporation programs.[66]

Effect of Proposed Changes:

Section 29 amends s. 420.507(30), F.S., to require that the FHFC legislative budget requests include, for informational purposes, the amount of state funds necessary to fully utilize all federal housing funds in the fiscal year to maximize the production of new, affordable multifamily housing units.

Section 30 provides that this provision expires July 1, 2033, unless otherwise acted upon by the Legislature.

[66] Section 420.507(30), F.S.

Present Situation:

Qualified Contracts

Of the affordable housing financing options provided by the federal government, Low Income Housing Tax Credits (LIHTC)[67] are among the most commonly used. When a property is financed using LIHTC the federal government typically requires the property be utilized for affordable housing for at least 30 years.[68] This time period is divided into the first 15 years, the "initial compliance period," and the rest, an "extended use period."

After 14 years the owner of an affordable housing development may request that the FHFC seek a purchaser who will continue to operate the affordable portions of the development as affordable housing, what's referred to as the "qualified contract process." Many developments, particularly those who receive the most lucrative LIHTC, waive the right to enter this process, and must remain affordable housing for the duration of the agreed upon time. After a developer requests a qualified contract, if the FHFC is unable to present a buyer during the subsequent 1-year period the extended use period of the property as affordable housing will end, and the property can be utilized for market-rate housing.[69]

This "qualified contract process" relies on the FHFC marketing the property and returning to the owner with a "bona fide contract," showing that they have found a buyer in order to maintain the affordable housing requirement. The price for the affordable housing portion of the sale is set according to a formula designed to give the owner an inflation adjusted return on its original equity contribution.[70] The bona fide contract, as provided by administrative rule is:

> …a contract for sale signed by the purchaser, which states that acceptance of the contract is contingent upon approval by the Corporation, and must provide for an initial earnest money deposit (the initial deposit) from the purchaser in the minimum amount of $50,000 and obligate the purchaser to make a second earnest money deposit (the second deposit) (the initial and second deposits shall be refundable in the event of the seller's failure to deliver insurable title or in the event of seller's default, otherwise the deposits shall be non-refundable) equal to three (3) percent of the qualified contract price.[71]

If the FHFC is able to procure a purchaser and present the owner with such a bona fide contract within the one year period, regardless of whether the owner accepts, rejects, or fails to act upon the contract, the property will continue to be subject to its extended use agreement as affordable housing.[72] If the owner accepts the offer, the property will be sold to the purchaser. If the owner

[67] Low Income Housing Tax Credits are provided by the federal government to rental housing developers in exchange for a commitment to provide affordable rents and are usually sold to investors to raise project equity. The LIHTC program is governed by the U.S. Department of Treasury and Florida's allocation is administered by Florida Housing. Under the LIHTC program, successful applicants are provided with a dollar-for-dollar reduction in federal tax liability in exchange for the development or rehabilitation of units to be occupied by very low- and low-income households.
[68] Internal Revenue Code Section 42(h)(6)(A).
[69] Internal Revenue Code Section 42(h)(6)(E)(i)(II).
[70] Internal Revenue Code Section 42(h)(6)(F).
[71] Fla. Admin. Code R. 67-48.031.
[72] Fla. Admin. Code R. 67-48.031(11).

rejects the offer or fails to act upon the offer, the owner will continue to be subject to the extended use agreement and cannot submit another qualified contract request for the development.

In 2022, the Legislature codified certain definitions and procedures related to the qualified contract process. In doing so, the moment when a bona fide contract becomes a qualified contract shifted from when the purchaser makes the first deposit to when the second earnest money deposit is made.[73] However, under the scenario where the seller refuses to sell after being presented a bona fide offer the second deposit will never be made, making this definition unworkable.

Effect of Proposed Changes:

Section 27 amends s. 420.503(36), F.S., to provide that the FHFC shall deem a bona fide contract to be a qualified contract at the time the bona fide contract is presented to the owner and the initial earnest money deposit is deposited in escrow, as opposed to when the second deposit is made.

Present Situation:

Florida Housing Finance Corporation Structure and Board of Directors

The FHFC is a public corporation created within the DEO as a separate budget entity not subject to control, supervision, or direction by the DEO.[74] The FHFC consists of a board of directors composed of the Secretary of the DEO as an ex officio and voting member, or a senior-level agency employee designated by the secretary, and eight members appointed by the Governor subject to confirmation by the Senate from the following:

(a) One citizen actively engaged in the residential home building industry.
(b) One citizen actively engaged in the banking or mortgage banking industry.
(c) One citizen who is a representative of those areas of labor engaged in home building.
(d) One citizen with experience in housing development who is an advocate for low-income persons.
(e) One citizen actively engaged in the commercial building industry.
(f) One citizen who is a former local government elected official.
(g) Two citizens of the state who are not principally employed as members or representatives of any of the groups specified in paragraphs (a)-(f).[75]

Members are appointed for four-year terms and vacancies are filled for the unexpired term.[76] The Governor may suspend a member for cause, including failure to attend 3 meetings in a 12-month period, and suspended members are subject to removal or reinstatement by the Senate.[77] Members receive no compensation for services, are entitled to necessary expenses, and must file full and public disclosure of financial interests.[78]

[73] Chapter 2022-194, s. 1, Laws of Fla.
[74] Section 420.504, F.S.
[75] Section 420.504(3), F.S.
[76] Section 420.504(4), F.S.
[77] *Id.*
[78] Section 420.504(6), (7), F.S.

Effect of Proposed Changes:

Section 28 amends s. 420.504, F.S., to provide that the board will include two additional members, one appointed by the President of the Senate and one appointed by the Speaker of the House of Representatives. Additionally, vacancies shall be filled by the party who made the original member's appointment.

Present Situation:

State Housing Strategy Act

The State Housing Strategy Act, located in Part I, of ch. 420, F.S., was created by the Legislature in 1992 to guarantee adequate affordable housing for Florida residents.[79] The State Housing Strategy posits the goal of assuring that by the year 2010 each Floridian shall have decent and affordable housing. "Policies," guidelines for state agencies and programs to follow, are divided into sections: housing need, public-private partnerships, preservation of housing stock, public housing, and housing production or rehabilitation programs. This forward-looking and optimistic set of ideas and strategies has not been amended in 30 years.

The State Housing Strategy Act also includes certain provisions implementing state programs in the pursuit of goals outlined. For example, the DEO and the FHFC annually coordinate with the Shimberg Center for Housing Studies at the University of Florida[80] to develop and maintain statewide data on affordable housing needs for specific populations.[81] These studies are then used to review and evaluate existing affordable housing accommodations to ensure that they are consistent with current need assessments and to recommend any improvements or plan modifications.[82]

Effect of Proposed Changes:

Section 26 amends s. 420.003, F.S., to substantially revise and reword the State Housing Strategy, maintaining the goal of assuring that each Floridian has safe, decent, and affordable housing. The bill retains strategies requiring local buy-in to state-funded developments, interlocal coordination, and cost-effective public-private partnerships, while adding language emphasizing the need to avoid sprawl to minimize separation of housing and employment as well as ecological impact.

The State Housing Strategy is separated into the following three categories.

Legislative Intent

This section states that it is the intent of the act to articulate a strategy to carry the state toward assuring that each Floridian has safe, decent, and affordable housing. The strategy must involve

[79] Section 420.0003, F.S.
[80] The Shimberg Center for Housing Studies was established at the University of Florida in 1988 to "facilitate safe, decent and affordable housing throughout the state of Florida" and was named after Jim Shimberg Sr., a Tampa homebuilder dedicated to affordable housing. The Center's Florida Housing Data Clearinghouse provides public information on Florida housing needs, programs and demographics. For more information visit: http://www.shimberg.ufl.edu/aboutUs2.html (last visited on Feb. 19, 2023).
[81] Section 420.0003(4)(c), F.S.
[82] *Id.*

state and local governments working in partnership with communities and the private sector, and must encompass both financial and regulatory commitment.

Policies

- *Housing Production and Rehabilitation Programs*, which enumerates state programs; emphasizes the need to leverage state funds efficiently; and highlights innovative solutions such as utilizing publically held land, community-led planning such as urban infill; maximizing efficiency through promotion of high-density and mixed-use developments; and modern housing concepts such as manufactured or 3D-printed homes.
- *Public Private Partnerships*, which emphasizes the need for cost effective, data driven cooperative efforts.
- *Preservation of Housing Stock*, which calls for the preservation of existing stock through rehabilitation programs and neighborhood revitalization efforts.
- *Unique Housing Needs*, which covers the wide range of need for safe, decent, and affordable housing among the various groups of citizens most in need, including those with disabilities and the elderly.

Implementation

This section, largely maintained from the original State Housing Strategy, incorporates the FHFC and the Shimberg Center for Housing Studies into the state housing strategy. Further, the bill adds a series of studies required to be conducted by OPPAGA. The reports will be conducted on a rotating basis and include studying:

- Innovative affordable housing strategies implemented by other states, their effectiveness, and the potential for implementation in Florida;
- Affordable housing policies enacted by local governments, including interlocal cooperation; and
- Existing state-level housing rehabilitation, production, preservation, and finance programs to determine their consistency with the goals of the state housing strategy, and recommendations for improved program linkages.

Present Situation:

State-Owned Lands

Land Use Plans

All lands held by the Board of Trustees of the Internal Improvement Trust Fund[83] (board) are required to be held in trust for the use and benefit of the people of the state.[84] Each manager of nonconservation lands[85] is required to submit to the division a land use plan at least every 10 years in a form and manner prescribed by rule by the board.[86] All land use plans, whether for single-use or multiple-use properties, must include an analysis of the property to determine the

[83] Consisting of the Governor, as the chair, the Chief Financial Officer, the Attorney General, and the Commissioner of Agriculture. FLA. CONST. art. IV, s. 4.
[84] Section 253.001, F.S.
[85] "Conservation lands" include those held for conservation, recreation, historic preservation, and other uses. Section 253.034(2)(c), F.S. All other lands held by the state, such as those used for government functions, are nonconservation lands.
[86] Section 253.034(5), F.S.

potential use of private land managers to facilitate the restoration or management of these lands.[87]

Effect of Proposed Changes:

Section 23 amends s. 253.034(5), F.S., to provide that a land use plan submitted for nonconservation lands must include an analysis of whether such lands would be more appropriately transferred to a local government for affordable housing related purposes.

Present Situation:

Surplus Lands

The board determines which lands it holds title to may be surplused.[88] Conservation lands may only be surplused if the board, by an affirmative vote of at least two-thirds, determines that the lands are no longer needed for conservation purposes.[89] The board may dispose of all other lands if the board, by an affirmative vote of at least three members, determines whether the lands are no longer needed.[90]

If the board determines that nonconservation lands are no longer needed, it made dispose of such surplus lands by vote.[91] Requests for surplusing lands may be made by any public or private entity or person.[92] County or local government requests for surplus lands through purchase or exchange are expedited throughout the surplusing process.[93] The board is required to consider such requests within 90 days of the board's receipt of the request.[94] Surplus lands conveyed to a local government for affordable housing must be disposed of by the local government pursuant to s. 125.379, F.S., or s. 166.0451, F.S., discussed in further detail below.

Effect of Proposed Changes:

Section 24 amends s. 253.0341(1), F.S., to clarify that local government requests for surplus lands are expedited throughout the process regardless of the means of transfer, to include donation.

Present Situation:

Job Growth Grant Fund

The Florida Job Growth Grant Fund, created by the legislature in 2017, is an economic development program within the DEO designed to promote public infrastructure and workforce training across the state.[95] Eligible projects include state or local public infrastructure projects to promote economic recovery, rehabilitation of the Herbert Hoover Dike, and workforce training

[87] *Id*.

[94] Section 253.0341(10), F.S.
[95] Section 288.101, F.S.

grants that support college and technical center workforce skills programs. Proposals are reviewed by the DEO, the Department of Transportation, and Enterprise Florida, Inc., and chosen by the Governor to meet the demand for workforce or infrastructure needs in the community they are awarded to.[96] Contracts for projects approved by the Governor and funded pursuant to this program must be administered by the DEO.[97]

Effect of Proposed Changes:

Section 25 amends s. 288.101(2), F.S., to provide that public infrastructure projects that support affordable housing are an authorized use of Job Growth Grant Fund funding. This provision sunsets 2033.

Present Situation:

Community Contribution Tax Credit Program

In 1980, the Legislature established the Community Contribution Tax Credit Program (CCTCP) to encourage private sector participation in community revitalization and housing projects.[98] Broadly, the CCTCP offers tax credits to businesses or persons ("taxpayers") anywhere in Florida that contribute[99] to certain projects undertaken by approved CCTCP sponsors.[100] Eligible projects include activities undertaken by an eligible sponsor that are designed to accomplish one of the following purposes:

- To construct, improve, or substantially rehabilitate housing that is affordable to low-income households or very-low-income households as those terms are defined in s. 420.9071;
- To provide commercial, industrial, or public resources and facilities; or
- To improve entrepreneurial and job-development opportunities for low-income persons.[101]

The DEO administers the CCTCP, and its responsibilities include reviewing sponsor project proposals and tax credit applications, periodically monitoring projects, and marketing the CCTCP in consultation with the FHFC and other statewide and regional housing and financial intermediaries.[102] Once approved by the DEO, the taxpayer must claim the community contribution tax credit from the DOR.

The credit is calculated as 50 percent of the taxpayer's annual contribution, but a taxpayer may not receive more than $200,000 in credits in any one year.[103] The taxpayer may use the credit against corporate income tax, insurance premiums tax, or as a refund against sales tax.[104] Unused

[96] Section 288.101(2), F.S.
[97] Section 288.101(4), F.S.
[98] Chapter 80-249, Laws of Fla. The CCTCP is one of the state incentives available under the Florida Enterprise Zone Act, which was partially repealed on December 31, 2015.
[99] Sections 212.08(5)(p)2.a., 220.183(2)(a), and 624.5105(5)(a), F.S., require community contributions to be in the form of cash or other liquid assets, real property, goods or inventory, or other physical resources.
[100] Sections 212.08(5)(p); 220.183; and 624.5105, F.S.
[101] Sections 212.08(5)(p)2.b.; 220.183(2)(d); 624.5105(2)(b); and 220.03(1)(t), F.S.
[102] Sections 212.08(5)(p)4.; 220.183(4); and 624.5105(4), F.S.
[103] Sections 212.08(5)(p)1.; 220.183 (1)(a) and (b); and 624.5105(1), F.S.
[104] Sections 212.08(5)(p); 220.183; and 624.5105, F.S.

credits against corporate income taxes and insurance premium taxes may be carried forward for five years.[105] Unused credits against sales taxes may be carried forward for three years.[106]

The DOR may approve $14.5 million in annual funding for projects that provide homeownership opportunities for low-income and very-low-income households or housing opportunities for persons with special needs and $4.5 million for all other projects. "Persons with special needs" is defined in current statute to include adults requiring independent living services, young adults formerly in foster care, survivors of domestic violence, and people receiving Social Security Disability Insurance, Supplemental Security Income, or veterans' disability benefits.[107]
The Legislature extended the CCTCP in 1984, 1994, 2005, 2014, and 2015,[108] and made the program permanent in 2017.[109] It has also amended the annual tax credit allocation of the CCTCP on numerous occasions.[110] Each time the allocation has been increased, the number of projects has increased to match the larger allocation.

Effect of Proposed Changes:

Sections 12 and 19 amend ss. 212.08 and 220.183, F.S., respectively, to provide that for the 2023-2024 fiscal year $25 million, rather than $14.5 million, is the total amount of tax credits which may be granted for projects that provide homeownership opportunities for low- and very-low income households or housing opportunities for persons with special needs.

Present Situation:

Local Governments and Affordable Housing Development

Consistency with Comprehensive Plans

All development, both public and private, and all development orders[111] approved by local governments must be consistent with the local government's comprehensive plan.[112] The Growth Management Act requires every city and county to create and implement a comprehensive plan to guide future development.[113] A comprehensive plan is intended to provide for the future use of land, which contemplates a gradual and ordered growth, and establishes a long-range maximum limit on the possible intensity of land use.

A locality's comprehensive plan lays out the locations for future public facilities, including roads, water and sewer facilities, neighborhoods, parks, schools, and commercial and industrial developments. A comprehensive plan is made up of 10 required elements, each laying out

[105] Sections 220.183(1)(e) and (g); and 624.5105, F.S.
[106] Sections 212.08(5)(p)1.b. and f., F.S.
[107] Section 420.0004(13), F.S.
[108] Chapters 84-356, 94-136, 2005-282, 2014-38, and 2015-221, Laws of Fla.
[109] Chapter 2017-36, Laws of Fla.
[110] Chapters 94-136, 98-219, 99-265, 2005-282, 2006-78, 2008-153, 2015-221, and 2017-36, Laws of Fla.
[111] "Development order" means any order granting, denying, or granting with conditions an application for a development permit. See s. 163.3164(15), F.S. "Development permit" includes any building permit, zoning permit, subdivision approval, rezoning, certification, special exception, variance, or any other official action of local government having the effect of permitting the development of land. See s. 163.3164(16), F.S.
[112] Section 163.3194(3), F.S
[113] Section 163.3167(2), F.S.

regulations for a different facet of development.[114] Most relevant among them as it pertains to the bill are the Future Land Use Element and the Housing Element.

- The Future Land Use Element designates proposed future general distribution, location, and extent of the uses of land. Specified use designations include those for residential, commercial, industry, agriculture, recreation, conservation, education, and public facilities.[115] The approximate acreage and the general range of density or intensity of use must be provided for each land use category.[116]
- The Housing Element sets forth guidelines and strategies for the creation and preservation of affordable housing for all current and anticipated future residents of the jurisdiction, elimination of substandard housing conditions, provision of adequate sites for future housing, and distribution of housing for a range of incomes and types.[117]

A comprehensive plan is implemented through the adoption of land development regulations[118] that are consistent with the plan, and which contain specific and detailed provisions necessary to implement the plan.[119] Such regulations must, among other prescriptions, regulate the subdivision of land and the use of land for the land use categories in the land use element of the comprehensive plan.[120] Substantially affected persons have the right to maintain administrative actions which assure that land development regulations implement and are consistent with the comprehensive plan.[121]

Development that does not conform to the comprehensive plan may not be approved by a local government unless the local government amends its comprehensive plan first. State law requires a proposed comprehensive plan amendment to receive two public hearings, the first held by the local planning board, and subsequently by the governing board.[122] Following the hearings they must transmit the plan to several statutorily identified reviewing agencies, including the DEO for review.[123] Most plan amendments are placed into the Expedited State Review Process, while plan amendments relating to large-scale developments are placed into the State Coordinated Review Process.[124]

---

[114] Section 163.3177(6), F.S. The 10 required elements include capital improvements; future land use plan; transportation; general sanitary sewer, solid waste, drainage, potable water, and natural groundwater aquifer recharge; conservation; recreation and open space; housing; coastal management; intergovernmental coordination; and property rights. Throughout statutes exist plans and programs that may be added as optional elements.
[115] Section 163.3177(6)(a), F.S.
[116] Section 163.3177(6)(a), F.S.
[117] Section 163.3177(6)(f), F.S.
[118] "Land development regulations" means ordinances enacted by governing bodies for the regulation of any aspect of development and includes any local government zoning, rezoning, subdivision, building construction, or sign regulations or any other regulations controlling the development of land, except that this definition does not apply in s. 163.3213. See s. 163.3164(26), F.S.
[119] Section 163.3202, F.S.
[120] *Id.*
[121] Section 163.3213, F.S.
[122] Sections 163.3174(4)(a) and 163.3184, F.S.
[123] Section 163.3184, F.S.
[124] *See* ss. 163.3184 and 380.06, F.S. In the Expedited State Review Process, DEO reviews and approves or amends the proposed comprehensive plan amendment. This process can take 4 to 6 months. The State Coordinated Review Process is a more thorough, complex, multi-phase process. For more information, *see* Florida Department of Economic Opportunity, *Amendments that Must Follow the State Coordinated Review Process; Procedures and Timeframes*, available at

Zoning Regulations

A comprehensive plan's Future Land Use Element establishes a range of allowable uses and densities and intensities over large areas, and the specific use and intensities for specific parcels within that range are decided by a more detailed, implementing zoning map.[125]

Zoning maps and zoning districts are adopted by a local government for developments within each land use category or sub-category. While land uses are general in nature, one or more zoning districts may apply within each land use designation.[126] Common regulations within the zoning map districts include density,[127] height and bulk of buildings, setbacks, and parking requirements.[128] Regulations for a zoning category in a downtown area may allow for more density and height than allowed in a suburb, for instance.

If a developer or landowner believes that a proposed development may have merit but it does not meet the requirements of a zoning map in a jurisdiction, the developer or landowner can seek a rezoning through a rezoning application which is reviewed by the local government and voted on by the governing body.[129] If a property has unique circumstances or small nonconformities but otherwise meets zoning regulations, local governments may ease restrictions on certain regulations such as building size or setback through an application for a variance.[130] However, any action to rezone or grant a variance must be consistent with the local government's comprehensive plan.

Ordinances or resolutions that change the actual list of permitted, conditional, or prohibited uses within a zoning category or ordinances or resolutions initiated by the local government that change the actual zoning map designation of a parcel or parcels of land must follow additional enhanced notice requirements.[131]

- If the area affected is less than 10 acres, the local government is required to notify by mail each property owner and hold a public meeting to discuss the ordinance or resolution before passage.[132]

[132] *Id.*

- If the area affected is 10 acres or greater the local government must hold two separate meetings at which to discuss the changes, and notice the public through either mail to each property owner or to the public generally by newspaper.[133]

Effect of Proposed Changes:

Section 3, in part, amends s. 125.01055, F.S., to preempt counties on zoning, density, and height for certain multi-family rental developments in commercial and mixed-use areas. Specifically, a county must authorize multifamily and mixed-use residential[134] as allowable uses in any area zoned for commercial or mixed-use if at least 40 percent of the units will be affordable for at least 30 years and serve incomes up to 120% AMI. A county may not require a zoning, land use change, or a comprehensive plan amendment for the building height, zoning, and densities authorized in this bill.

A county may not restrict the density of such development below the highest allowed density on any unincorporated land in the county where residential development is allowed. Additionally, a county may not restrict the height of such development below the highest allowed height for a commercial or residential development in its jurisdiction within 1 mile of the proposed development or 3 stories, whichever is higher.

An application for such development must be administratively approved and no further action is required from the board of county commissioners if the development satisfies the county's land development regulations for multifamily in areas zoned for such use and is otherwise consistent with the jurisdiction's comprehensive plan. A county must consider reducing parking requirements for these developments if they are located within one-half mile of a major transit stop.

These provisions expire on October 1, 2033.

The bill also makes a technical change, correcting an internal cross-reference in subsection (5).

Section 5 amends s. 166.04151, F.S., to make identical changes in section 3, as applied to municipalities.

Present Situation:

Expedited Development Projects for Affordable Housing

In 2019, the Legislature enacted a provision to authorize counties and municipalities to approve the development of housing that is affordable on any parcel zoned for residential, commercial, or industrial use, regardless of any state or local law or regulation that would otherwise preclude such development.[135] At least 10 percent of the units in a project on a commercial or industrial parcel must be affordable and the developer of the project must agree to not seek funding from the FHFC's SAIL program.[136]

[133] *Id.*
[134] At least 65 percent of the total square footage must be used for residential purposes.
[135] Sections 125.01055(6) and 166.04151(6), F.S.
[136] *Id.*

This provision allows local governments to expedite the development of affordable housing by allowing locals to bypass state law and their comprehensive plans and zoning regulations that would otherwise preclude or delay such development.

Effect of Proposed Changes:

Section 3, in part, amends s. 125.01055(6), F.S., to remove a county's ability to approve affordable housing on *residential* parcels by bypassing state and local laws that may otherwise preclude such development. The bill also removes the SAIL restriction to allow SAIL developments to utilize this expedited approval process on commercial and industrial parcels.

Section 5 amends s. 166.04151, F.S., to make identical changes in section 3, as applied to municipalities.

Present Situation:

Local Government-owned Property

Since 2006 counties and cities have been required to prepare an inventory of publically owned real property that would be appropriate for use as affordable housing, and update the inventory every three years.[137] The list must include the address and legal description of each such real property, specifying whether it is vacant or improved. The list must be reviewed and adopted by resolution at public hearing.

Properties identified as appropriate for use as affordable housing may be:
- Sold and the proceeds used to purchase land for the development of affordable housing;
- Sold with a restriction that requires the development of permanent affordable housing on the land;
- Donated to a nonprofit housing organization for the construction of permanent affordable housing; or
- Be otherwise made available for the use for the production and preservation of permanent affordable housing.[138]

Effect of Proposed Changes:

Sections 4 and 7 amend ss. 125.379 and 166.0451, F.S., respectively, to provide that counties and cities must produce their real property inventory lists referenced above by October 1, 2023, and every three years thereafter, and make such list available on the county or city website. Counties and cities must also include real property owned by dependent special districts within their boundaries.

The bill further adds that acceptable uses of property identified as appropriate for affordable housing include utilization through a long-term land lease requiring the development and maintenance of affordable housing.

[137] Sections 125.379 and 166.0451, F.S.
[138] *Id.*

The bill includes certain best practices counties and cities are encouraged to adopt in creating surplus land programs, including:

- Establishing eligibility criteria for the receipt or purchase of surplus land by developers;
- Making the process for requesting surplus lands publicly available; and
- Ensuring long-term affordability through ground leases by retaining the right of first refusal to purchase property that would otherwise be sold or offered at market rate.

Additionally, **Section 36** amends s. 420.531, F.S., to expressly authorize the FHFC to contract with the Florida Housing Coalition, Florida's provider for statewide training and technical assistance funded by the Catalyst Program,[139] to provide assistance to local governments related to surplus lands programs and executing contracts related to bidding for affordable housing projects and land-lease developments.

Present Situation:

Expedited Building Permits

It is the intent of the Legislature that local governments have the power to inspect all buildings, structures, and facilities within their jurisdiction in protection of the public's health, safety, and welfare.[140]

Every local government must enforce the Florida Building Code and issue building permits.[141] It is unlawful for a person, firm, or corporation to construct, erect, alter, repair, secure, or demolish any building without first obtaining a permit from the local government enforcing agency or from such persons as may, by resolution or regulation, be directed to issue such permit, upon the payment of reasonable fees as set forth in a schedule of fees adopted by the enforcing agency.[142]

Any construction work that requires a building permit also requires plans and inspections to ensure the work complies with the building code. The building code requires certain building, electrical, plumbing, mechanical, and gas inspections.[143] Construction work may not be done beyond a certain point until it passes an inspection.

Current law provides a set of deadlines for ordinary processing of a building permit, chief among them that a local government must approve, approve with conditions, or deny an application for a building permit within 120 days following receipt of a completed application.[144] Various laws require or encourage local governments to further expedite the permitting process in certain situations, including for those developments utilizing SAIL funding.[145] These statutes largely leave the nature of such expediting to the local governments, resulting in varied experiences throughout the state.

[139] Section 420.531, F.S.
[140] Section 553.72, F.S.
[141] Sections 125.01(1)(bb), 125.56(1), and 553.80(1), F.S.
[142] Sections 125.56(4)(a), 553.79(1), F.S.
[143] Section 110 Seventh edition of the Florida Building Code (Building).
[144] Section 553.792(1)(a), F.S.
[145] *See* sections 403.973(3), 420.5087(6)(c)8., and 553.80(6)(b)1., F.S.

Effect of Proposed Changes:

Section 38 amends s. 553.792, F.S., to require that a local government maintain on its website a policy containing procedures and expectations for expedited processing of those building permits and development orders required by law to be expedited.

Present Situation:

Rent Control

Counties and municipalities are permitted to pass rent control ordinances under strict circumstances.[146] Florida law provides that local governments may not impose price controls on rent unless the entity finds that such a price control would "eliminate an existing housing emergency which is so grave as to constitute a serious menace to the general public."[147] The measure enacting rent control, in addition to normal requirements for passing an ordinance, must expire in one year and must be approved by the voters in the locality.[148]

Effect of Proposed Changes:

Sections 2 and 6 amend ss. 125.0103 and 166.043, F.S., respectively, to preempt local governments from enacting ordinances controlling the price of rent under any circumstances.

Present Situation:

Keys Workforce Housing Initiative

The Florida Keys Area Protection Act[149] provides, in part, that comprehensive plan amendments within the covered area, which includes the majority of Monroe County, must comply with "goals, objectives and policies to protect public safety and welfare in the event of a natural disaster by maintaining a hurricane evacuation clearance time for permanent residents of no more than 24 hours."[150] Monroe County, applicable municipalities, and the DEO have agreed to use a multi-phase evacuation model and limit residential building permits going forward in order to comply with these standards.[151]

In response to need for affordable housing, the DEO developed, and the Administration Commission approved in 2018, the Keys Workforce Housing Initiative ("Initiative"), which provided for up to 1,300 building permit allocations for deed restricted affordable housing properties agreeing to evacuate at least 48 hours in advance of a hurricane landfall.[152]

[146] Sections 125.0103 and 166.043, F.S.
[147] *Id.*
[148] *Id.*
[149] Section 380.0552, F.S.
[150] *Id.* at (9)(e)2.
[151] *See Mattino v. City of Marathon*, 345 So.3d 939 (Fla. 3d DCA 2022), for detailed background on this section.
[152] These residents would be part of the first evacuation phase, which under most circumstances evacuates in the 48 to 24 hour window before a hurricane. Florida Administration Commission, Exhibit b, Supporting Documentation for Agenda Item 2., Presentation of the Department of Economic Opportunity's Keys Workforce Housing Initiative, *available at* https://www.myflorida.com/myflorida/cabinet/adcom/supportingdocs/20180613/item3b.pdf (last visited Feb. 24, 2023).

In 2022, the Florida Third District Court of Appeal found that the Initiative's conditional approval of those residential building permits did not successfully remove those residents from consideration of the 24-hour evacuation time constraint, and found the comprehensive plan amendments in certain jurisdictions that would have enabled development under the Initiative not in compliance with state law.[153]

Effect of Proposed Changes:

Section 42 provides through chapter law that the Initiative is considered an exception to the evacuation time constraints of s. 380.0552(9)(a)2., F.S., by requiring that workforce housing properties receiving permits through the program agree to evacuate at least 48 hours in advance of hurricane landfall. The section provides that a comprehensive plan amendment approved by the Department of Economic Opportunity to implement the initiative is valid, and local governments may adopt ordinances and regulations to implement such a plan amendment.

Present Situation:

Ad Valorem Taxation

The ad valorem tax or "property tax" is an annual tax levied by counties, municipalities, school districts, and some special districts. The tax is based on the taxable value of property as of January 1 of each year.[154] The property appraiser annually determines the "just value"[155] of property within the taxing jurisdiction and then applies relevant exclusions, assessment limitations, and exemptions to determine the property's "taxable value."[156] Tax bills are mailed in November of each year based on the previous January 1 valuation, and payment is due by March 31 of the following year.

The Florida Constitution prohibits the state from levying ad valorem taxes,[157] and it limits the Legislature's authority to provide for property valuations at less than just value, unless expressly authorized.[158]

The just valuation standard generally requires the property appraiser to consider the highest and best use of property;[159] however, the Florida Constitution authorizes certain types of property to be valued based on their current use (classified use assessments), which often results in lower assessments. Properties that receive classified use treatment in Florida include agricultural land,

[153] *Id*. at 943-46.
[154] Both real property and tangible personal property are subject to tax. Section 192.001(12), F.S., defines "real property" as land, buildings, fixtures, and all other improvements to land. Section 192.001(11)(d), F.S., defines "tangible personal property" as all goods, chattels, and other articles of value capable of manual possession and whose chief value is intrinsic to the article itself.
[155] Property must be valued at "just value" for purposes of property taxation, unless the Florida Constitution provides otherwise. FLA. CONST. art VII, s. 4. Just value has been interpreted by the courts to mean the fair market value that a willing buyer would pay a willing seller for the property in an arm's-length transaction. *See Walter v. Shuler,* 176 So. 2d 81 (Fla. 1965); *Deltona Corp. v. Bailey*, 336 So. 2d 1163 (Fla. 1976); *Southern Bell Tel. & Tel. Co. v. Dade County,* 275 So. 2d 4 (Fla. 1973).
[156] *See* s. 192.001(2) and (16), F.S.
[157] FLA. CONST. art. VII, s. 1(a).
[158] *See* FLA. CONST. art. VII, s. 4.
[159] Section 193.011(2), F.S.

land producing high water recharge to Florida's aquifers, and land used exclusively for noncommercial recreational purposes;[160] land used for conservation purposes;[161] historic properties when authorized by the county or municipality;[162] and certain working waterfront property.[163]

Ad Valorem Exemption for Literary, Scientific, Religious, or Charitable Organizations

The Florida Constitution allows the Legislature to exempt from ad valorem taxation portions of property that are used predominantly for educational, literary, scientific, religious or charitable purposes.[164] The Legislature has implemented these exemptions and set forth criteria to determine whether property is entitled to an exemption.[165]

To determine whether a property's use qualifies for an education, literary, scientific, religious, or charitable exemption, the property appraiser must consider the nature and extent of the qualifying activity compared to other activities or other uses of the property.[166]

Incidental use of property for an exempt purpose will not qualify the property for an exemption nor will the incidental use of the property for a non-exempt purpose impair an exemption.[167, 168]

Property claimed as exempt which is used for profitmaking purposes is not exempt and is subject to ad valorem taxation; however, the Legislature has allowed certain property to remain exempt even when used for profitmaking purposes when the use of the property does not require a business or occupational license and the revenue derived from the profitmaking activity is used wholly for exempt purposes.[169]

Ad Valorem Exemption for Charitable Purposes and Affordable Housing

In 1999, the Legislature authorized a charitable use property tax exemption for property owned by a nonprofit corporation that provides affordable housing.[170, 171] The exemption is limited to only those portions of the property that house persons or families whose income does not exceed

[160] FLA. CONST. art. VII, s. 4(a).
[161] FLA. CONST. art. VII, s. 4(b).
[162] FLA. CONST. art. VII, s. 4(e).
[163] FLA. CONST. art. VII, s. 4(j).
[164] FLA. CONST. art. VII, s. 3(a).
[165] Section 196.196, F.S.
[166] Section 196.196(1), F.S.
[167] Section 196.196(2), F.S.
[168] *Underhill v. Edwards*, 400 So.2d 129, 132 (Fla. 5th DCA 1981). The district court found that trustees of a private not-for profit hospital were not entitled to an exemption on the new wing's first floor, which was used for a private purpose and not for a charitable purpose or other exempt purpose, despite the fact that the portion of the hospital used for a non-exempt purpose represented only a very small percentage of the otherwise exempt property; see also *Central Baptist Church of Miami, Florida Incorporated v. Dade County, Florida, et. al.*, 216 So.2d 4, 6 (Fla 1968). The Supreme Court found that "limited part time rental of a portion of the church lot for commercial parking on weekday business hours is reasonably incidental to the primary use of the church property as a whole for church or religious purposes and is not a sufficiently divergent commercial use that eliminates the exemption as to the commercial parking lot portion of the property."
[169] See section 196.196(4), F.S.
[170] Chapter 99-378, s. 15, Laws of Fla. (creating s. 196.1978, F.S, effective July 1, 1999).
[171] The not-for-profit corporation must qualify as charitable under s. 501(c)(3) of the Internal Revenue Code and other federal regulations. See 26 U.S.C. § 501(c)(3) ("charitable purposes" include relief of the poor, the distressed or the underprivileged, the advancement of religion, and lessening the burdens of government).

120 percent of the median income of the state, the metropolitan area, or the county where the person lives, whichever is greater.

In 2017, the Legislature authorized a charitable use property tax discount for property with an agreement with the FHFC where more than 70 of the units provide affordable housing. The discount is limited to only those portions of the property that house persons or families whose income does not exceed 80 percent of the median income of the state, the metropolitan area, or the county where the person lives, whichever is greater. The tax discount amounted to 50 percent of the taxable value of eligible units and was applicable to taxes assessed after the 15th completed year of an agreement with the FHFC.[172] In 2021, the Legislature increased the 50 percent discount to a full exemption.[173]

Effect of Proposed Changes:

The bill includes three new property tax exemptions:

Nonprofit Land Lease Exemption

Section 8, in part, amends s. 196.1978(1), F.S., to provide that land owned entirely by a nonprofit entity which is leased for at least 99 years for the purpose of and is in fact used for providing affordable housing for extremely-low-, very-low-, low-, or moderate-income persons or families is exempt from ad valorem taxation.

In order to receive this exemption the improvements on the land being used for affordable housing purposes must encompass more than half the square footage of all improvements on the land. This exemption first applies to the 2024 tax roll and is repealed on December 31, 2059.

Exemption for Newly Constructed Units Providing Affordable Housing

Section 8, in part, amends s. 196.1978(3), F.S., to provide a new ad valorem tax exemption for certain property used to provide affordable housing. This exemption applies throughout the state without further action by local governments.

Eligible property includes units in a newly constructed multifamily project containing more than 70 units dedicated to housing natural persons or families below certain income thresholds.

"Newly constructed" is defined as an improvement substantially completed within 5 years before the property owner's first application for this exemption. The units must be occupied by such persons or families and rent limited so as to provide affordable housing at either the 80 or 120 percent AMI threshold. Rent for such units also may not exceed 90 percent of the fair market value rent as determined by a rental market study.

Qualified property used to provide affordable housing at the 80 to 120 percent AMI threshold receives an exemption of 75 percent of the assessed value of the units, while such property providing affordable housing up to the 80 percent AMI threshold receives a complete ad valorem tax exemption.

[172] Section 196.1978(2)(a), F.S. (2018) and ch. 2017-36, s. 6, Laws of Fla.
[173] See ch. 2021-31, s. 10, Laws of Fla.

If an occupied unit qualifies for this exemption and the following year is vacant on January 1, the vacant unit is eligible for the exemption provided it meets the other requirements and a reasonable effort is made to lease the unit to eligible persons or families.

To receive this exemption, a property owner must submit an application by March 1 to the property appraiser, accompanied by a certification notice from the FHFC. To receive a FHFC certification, a property owner must submit a request on a form including the most recent market study, which must have been conducted by an independent certified general appraiser in the preceding 3 years; a list of units for which the exemption is sought; the rent amount received for each unit, and a sworn statement restricting the property for a period of not less than 3 years to provide affordable housing.

The certification process will be administered within the FHFC. Their responsibilities include publishing the deadline for submission, reviewing each request, sending certification notices to both the successful property owner and appropriate property appraiser, notifying unsuccessful property owners with reasons for denial.

If the property appraiser determines that such an exemption has been improperly granted within the last 10 years, the property appraiser must serve the owner with a notice of intent to record a tax lien. Such property will be subject to the taxes improperly exempted, plus a penalty of 50 percent and 15 percent annual interest. Penalty and interest amounts do not apply to exemptions erroneously granted due to clerical mistake or omission by the property appraiser.

Units subject to a recorded agreement with the FHFC under ch. 420, F.S., to provide affordable housing, and property receiving an exemption under s. 196.1979, F.S., as created by the following section of the bill, are not eligible to receive this exemption.

The bill provides the FHFC rulemaking authority to implement this section.

This section first applies to the 2024 tax roll and is repealed December 31, 2059.

Local Option Affordable Housing Exemption

Section 9 creates s. 196.1979, F.S., which provides that the governing body of a county or municipality may adopt by ordinance an ad valorem tax exemption for certain property used for providing affordable housing.

Portions of property eligible for such an exemption must be utilized to house persons or families meeting the extremely-low- or very-low-income limits specified in s. 420.0004, F.S, be contained in a multifamily project of at least 50 units where at least 20 percent are reserved for affordable housing, and have rent set such that it provides affordable housing to people in the target income bracket, or no higher than 90 percent of the fair market rent value as determined by a rental market study, whichever is less. Additionally, the property must not have been cited for three code violations in the preceding 24 months and must not have outstanding code violations or related fines.

In adopting this exemption, a local government may choose to offer either or both an exemption for two income groups: those earning up to 30 percent AMI and those earning between 30 to 60 percent AMI. The value of the exemption is up to 75 percent of the assessed value of each unit if less than 100 percent of the multifamily project's units are used to provide affordable housing, or up to 100 percent of the assessed value if 100 percent of the project's units are used to provide affordable housing.

An ordinance enacting such an exemption must:

- Be adopted under normal non-emergency procedures;
- Designate the local entity under the supervision of the governing body which must develop, receive, and review applications for certification and develop notices of determination of eligibility;
- Require the property owner to apply for certification on a form including the most recent market study, which must have been conducted by an independent certified general appraiser in the preceding three years; a list of units for which the exemption is sought; and the rent amount received for each unit;
- Require the designated entity to verify and certify property as having met the requirements for the exemption, and to notify unsuccessful applicants with the reasons for denial;
- Set out the requirements for each unit discussed above;
- Require the property owner to submit an application for exemption accompanied by certification to the property appraiser by March 1;
- Specify that such exemption only applies to taxes levied by the unit of government granting the exemption;
- Specify that the property may not receive such an exemption after the expiration of the ordinance granting the exemption;
- Identify the percentage of assessed value to be exempted, and whether such exemption applies to very-low-income, extremely-low-income, or both; and
- Require that the deadline to submit an application and a list of certified properties be published on the government's website.

Such an ordinance must expire before the fourth January 1 after adoption, however the governing body may adopt a new ordinance renewing the exemption.

If the property appraiser determines that such an exemption has been improperly granted within the last 10 years, the property appraiser must serve the owner with a notice of intent to record a tax lien. Such property will be subject to the taxes improperly exempted, plus a penalty of 50 percent and 15 percent annual interest. Penalty and interest amounts do not apply to exemptions erroneously granted due to clerical mistake or omission by the property appraiser.

This section first applies to the 2024 tax roll.

Miscellaneous Effects of Proposed Changes

Sections 17, 18, 20 and 22 amend ss. 220.02, 220.13, 220.186, and 220.222 F.S., respectively, to make conforming changes with regards to the Live Local program.

Section 37 amends s. 420.6075, F.S., to make technical changes.

Section 39 amends s. 624.509, F.S., to make technical changes.

Section 40 amends s. 624.5105, F.S., to make technical changes.

Section 43 expressly grants the DOR emergency rulemaking authority as it relates to administering the Live Local Program created by the bill. This authority is repealed July 1, 2026.

Section 48 provides that the Legislature finds and declares that this act fulfills an important state interest.

Section 49 provides that, except as otherwise provided, the bill will take effect July 1, 2023.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(a) of the Florida Constitution provides, in part, that a county or municipality may not be bound by a general law requiring a county or municipality to spend funds or take an action that requires the expenditure of funds unless certain specified exemptions or exceptions are met. Under the bill counties and municipalities may be required to spend funds related to publishing certain policies and documents online, administering new tax exemptions, and updating inventories of publicly owned land.

Article VII, s. 18(b) of the Florida Constitution provides that, except upon the approval of each house of the Legislature by a two-thirds vote of the membership, the Legislature may not enact, amend, or repeal any general law if the anticipated effect of doing so would be to reduce the authority that municipalities or counties have to raise revenue in the aggregate, as such authority existed on February 1, 1989. The portions of the bill alleviating ad valorem taxes under certain circumstances for properties providing affordable housing reduce taxing authority.

If the bill does qualify as a mandate, in order to be binding upon cities and counties the bill must contain a finding of important state interest and be approved by a two-thirds vote of the membership of each house.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

The amount directed to the State Housing Trust Fund from Documentary Stamp Tax collections does not affect the amount received by the Land Acquisition Trust Fund, as required by Article X, s. 28(a) of the Florida Constitution.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference (REC) made the following estimates for the specified bill provisions:

- The sales tax refund for building materials will reduce General Revenue Fund receipts by $31.9 beginning in Fiscal Year 2023-2024, and will reduce local government revenues by $8.9 million beginning in Fiscal Year 2023-2024.
- Increasing the Community Contribution Tax Credit cap will reduce General Revenue Fund receipts by $8.4 million beginning in Fiscal Year 2023-2024, and will reduce local government revenues by $2.1 million beginning in Fiscal Year 2023-2024.
- The Live Local Program will reduce General Revenue receipts by $50 million in Fiscal Year 2023-2024 and by $100 million in future years.
- The property tax exemption for certain lands leased for affordable housing will reduce local property tax revenues by $8.5 million beginning in Fiscal Year 2023-2024.
- The local option affordable housing property tax exemption will have an indeterminate reduction to local property tax revenue due to variations in how many local governments implement the program, but the REC estimates the impact could be a reduction of local property tax revenues by $225.1 million by Fiscal Year 2027-2028.
- The General Revenue service charge redirect will reduce General Revenue Fund receipts by $150 million beginning in Fiscal Year 2023-2024 and will increase State Housing Trust Fund receipts by $150 million beginning in Fiscal Year 2023-2024.
- The property tax exemption for newly constructed or substantially renovated multi-family rental units used to provide affordable housing will reduce local government revenues by $183 million by Fiscal Year 2027-2028, with no impact in Fiscal Year 2023-2024 and increasing rates thereafter.

B. Private Sector Impact:

Developers of multifamily housing should see a reduction in bureaucracy, and an increase in the amount of property available, for residential development relating to housing projects which qualify for the density, height, and zoning preemptions. Developers will also benefit from tax exemption portions of the legislation, and increased funding to the FHFC.

Individuals may benefit from a resulting increase in income-limited units, overall housing production increases, and downpayment assistance eligibility.

C. Government Sector Impact:

Local governments may incur expenditures and lost revenues in implementing the bill with regards to updating inventory lists of publicly owned land, publishing certain procedures and regulations electronically, and administering new ad valorem tax exemptions. Local governments may benefit from the expansion of the Community Contribution Tax Credit Program, the locally held land leasing provisions, and SHIP funding.

Certain components of the bill, specifically the General Revenue service charge redirection and Live Local program, have the neutral effect of reducing general revenue while increasing funding to FHFC programs.

The DOR and the FHFC will face costs related to administration of various provisions of the bill.

The bill makes the following appropriations to the FHFC:

- $100 million in non-recurring funds from the General Revenue Fund to implement the Florida Hometown Heroes Program;
- $252 million in non-recurring funds from the Local Government Housing Trust Fund for the SHIP program;
- $150 million in recurring funds from the State Housing Trust Fund for the purpose of implementing section 30 of the bill, related to SAIL project funding derived from a redirected General Revenue service charge;
- $109 million in non-recurring funds from the State Housing Trust Fund for the SAIL program; and
- $100 million in non-recurring funds from the General Revenue Fund to implement a competitive loan program to alleviate inflation-related cost increases for FHFC-approved multifamily projects that have not yet commenced construction; if not used by December 1, 2023, these funds are allocated to the SAIL program.[174]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

[174] FHFC currently maintains such an effort through a program called the Construction Housing Inflation Response Program (CHIRP), which sets aside funding for projects that were previously awarded SAIL funding but risk failure due to acutely rising construction costs. *See* FHFC, *Construction Housing Inflation Response Program (CHIRP)*, April 29, 2022, available at https://www.floridahousing.org/docs/default-source/programs/competitive/2022/2022--chirp/4-29-22-board-presentation-re-chirp-(1).pdf?sfvrsn=c94cf57b_0 (last visited January 19, 2023). This provision takes effect upon the bill becoming a law.

VIII. Statutes Affected:

This bill substantially amends or creates the following sections of the Florida Statutes: 125.0103, 125.01055, 125.379, 166.04151, 166.043, 166.0451, 196.1978, 196.1979, 201.15, 212.08, 213.053, 215.212, 215.22, 220.02, 220.13, 220.183, 220.186, 220.1878, 220.222, 253.034, 253.0341, 288.101, 420.0003, 420.503, 420.504, 420.507, 420.5087, 420.50871, 420.50872, 420.5096, 420.531, 420.6075, 553.792, 624.509, 624.5105, and 624.51058.

This bill creates undesignated sections of Florida law.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on February 22, 2023:
The committee substitute:

- Clarifies that an affordable housing development does not have to obtain a zoning or land use change and must be otherwise consistent with comprehensive plan requirements except for zoning, height, and density.
- Clarifies for consideration of reduced parking requirements on certain affordable housing developments, that a major transit stop is as defined in local land use regulations.
- Amends the tax exemption for newly constructed affordable housing property by removing reference to statewide adjusted median income, correcting a reference to the income and rent limits utilized to prove affordability, and authorizing the DOR to create an application form for the exemption.
- Amends the local option property tax exemption by increasing the upper qualifying income percentage from 50 to 60 percent of the median income, authorizing local governments to deny or revoke exemptions based on multiple code violations, removing reference to statewide adjusted median income, correcting a reference to the income and rent limits utilized to prove affordability, and authorizing the DOR to create an application form for the exemption.
- Amends the Live Local tax credit donation program by making technical corrections clarifying the DOR's ability to share information with the FHFC, clarifying that a taxpayer can carry forward unused credits for 10 taxable years, rather than calendar years, clarifying that payments under the program are to be incorporated into tax underpayment calculations; and removing the requirement that authorized "projects of regional significance" be 50 percent larger than any development within a 30-mile radius.
- Provides that the building materials sales tax exemption applies to qualifying purchases made on or after July 1, 2023, and removes a related provision requiring the DOR to move a percentage of the exemption from the Local Government Half-Cent Sales Tax Trust Fund.
- Clarifies that loans under the Hometown Heroes program may be made regardless of the purchased property's form of title, be it realty or tangible personal property.

- Provides that the DEO's Keys Workforce Housing Initiative, approved by the Administration Commission in 2018, is an exception to evacuation time requirements and that comprehensive plan and land use amendments approved under that initiative are valid.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

Live Local Act, SB 102

Bill text

Source: https://flsenate.gov/Session/Bill/2023/102/?Tab=BillText

An act relating to housing; providing a short title; amending s. 125.0103, F.S.; deleting the authority of local governments to adopt or maintain laws, ordinances, rules, or other measures that would have the effect of imposing controls on rents; amending s. 125.01055, F.S.; revising applicability for areas of critical state concern; specifying requirements for, and restrictions on, counties in approving certain housing developments; providing for future expiration; amending s. 125.379, F.S.; revising the date by which counties must prepare inventory lists of real property; requiring counties to make the inventory lists publicly available on their websites; authorizing counties to use certain properties for affordable housing through a long-term land lease; revising requirements for counties relating to inventory lists of certain property for affordable housing; providing that counties are encouraged to adopt best practices for surplus land programs; amending s. 166.04151, F.S.; revising applicability for areas of critical state concern; specifying requirements for, and restrictions on, municipalities in approving applications for certain housing developments; providing for future expiration; amending s. 166.043, F.S.; deleting the authority of local governments to adopt or maintain laws, ordinances, rules, or other measures that would have the effect of imposing controls on rents; amending s.

166.0451, F.S.; revising the date by which municipalities must prepare inventory lists of real property; requiring municipalities to make the inventory lists publicly available on their websites; authorizing municipalities to use certain properties for affordable housing through a long-term land lease; revising requirements for municipalities relating to inventory lists of certain property for affordable housing; providing that municipalities are encouraged to adopt best practices for surplus land programs; amending s. 196.1978, F.S.; providing an exemption from ad valorem taxation for land that meets certain criteria; providing applicability; providing for future repeal; defining terms; providing an ad valorem tax exemption for portions of property in a multifamily project if certain conditions are met; providing that vacant units may be eligible for the exemption under certain circumstances; specifying percentages of the exemption for qualified properties; specifying requirements for applying for the exemption with the property appraiser; specifying requirements for requesting certification from the Florida Housing Finance Corporation; specifying requirements for the corporation in reviewing requests, certifying property, and posting deadlines for applications; specifying requirements for property appraisers in reviewing and granting exemptions and for improperly granted exemptions; providing a penalty; providing limitations on eligibility; specifying requirements

for a rental market study; authorizing the corporation to adopt rules; providing applicability; providing for future repeal; creating s. 196.1979, F.S.; authorizing local governments to adopt ordinances to provide an ad valorem tax exemption for portions of property used to provide affordable housing meeting certain requirements; specifying requirements and limitations for the exemption; providing that vacant units may be eligible for the exemption under certain circumstances; specifying requirements for ordinances granting an exemption; specifying requirements for a rental market study; providing that ordinances must expire within a certain timeframe; requiring the property appraiser to take certain action in response to an improperly granted exemption; providing a penalty; providing applicability; amending s. 201.15, F.S.; suspending, for a specified period, the General Revenue Fund service charge on documentary stamp tax collections; providing for specified amounts of such collections to be credited to the State Housing Trust Fund for certain purposes; providing for certain amounts to be credited to the General Revenue Fund under certain circumstances; prohibiting the transfer of such funds to the General Revenue Fund in the General Appropriations Act; providing for the future expiration and reversion of specified statutory text; amending s. 212.08, F.S.; revising the total amount of community contribution tax credits which may be granted for certain projects; defining terms;

providing a sales tax exemption for building materials used in the construction of affordable housing units; defining terms; specifying eligibility requirements; specifying requirements for applying for a sales tax refund with the Department of Revenue; specifying requirements for and limitations on refunds; providing requirements for the department in issuing refunds; authorizing the department to adopt rules; providing applicability; amending s. 213.053, F.S.; authorizing the department to make certain information available to the corporation to administer the Live Local Program; creating s. 215.212, F.S.; prohibiting the deduction of the General Revenue Fund service charge on documentary stamp tax proceeds; providing for future repeal; amending s. 215.22, F.S.; conforming a provision to changes made by the act; providing for the future expiration and reversion of specified statutory text; amending s. 220.02, F.S.; specifying the order of application of Live Local Program tax credits against the state corporate income tax; amending s. 220.13, F.S.; specifying requirements for the addition to adjusted federal income of amounts taken as a credit under the Live Local Program; amending s. 220.183, F.S.; conforming a provision to changes made by the act; amending s. 220.186, F.S.; providing applicability of Live Local Program tax credits to the Florida alternative minimum tax credit; creating s. 220.1878, F.S.; providing a credit against the state corporate income tax under the Live Local

Program; specifying requirements and procedures for making eligible contributions and claiming the credit; amending s. 220.222, F.S.; requiring returns filed in connection with the Live Local Program tax credits to include the amount of certain credits; amending s. 253.034, F.S.; modifying requirements for the analysis included in land use plans; making technical changes; amending s. 253.0341, F.S.; requiring that local government requests for the state to surplus conservation or nonconservation lands for any means of transfer be expedited throughout the surplusing process; amending s. 288.101, F.S.; authorizing the Governor, under the Florida Job Growth Grant Fund, to approve state or local public infrastructure projects to facilitate the development or construction of affordable housing; providing for future repeal; amending s. 420.0003, F.S.; revising legislative intent for, and policies of, the state housing strategy; revising requirements for the implementation of the strategy; revising duties of the Shimberg Center for Housing Studies at the University of Florida; requiring the Office of Program Policy Analysis and Government Accountability to evaluate specified strategies, policies, and programs at specified intervals; specifying requirements for the office's analyses; authorizing rule amendments; amending s. 420.503, F.S.; revising the definition of the term "qualified contract" for purposes of the Florida Housing Finance Corporation Act; amending s.

420.504, F.S.; revising the composition of the corporation's board of directors; providing specifications for filling vacancies on the board of directors; amending s. 420.507, F.S.; specifying a requirement for the corporation's annual budget request to the Secretary of Economic Opportunity; providing for the future expiration and reversion of specified statutory text; amending s. 420.5087, F.S.; revising prioritization of funds for the State Apartment Incentive Loan Program; creating s. 420.50871, F.S.; specifying requirements for, and authorized actions by, the corporation in allocating certain increased revenues during specified fiscal years to finance certain housing projects; providing construction; providing for future repeal; providing a directive to the Division of Law Revision; creating s. 420.50872, F.S.; defining terms; creating the Live Local Program; specifying responsibilities of the corporation; specifying the annual tax credit cap; specifying requirements for applying for tax credits with the department; providing requirements for the carryforward of credits; specifying restrictions on, and requirements for, the conveyance, transfer, or assignment of credits; providing requirements and procedures for the rescindment of credits; specifying procedures for calculating underpayments and penalties; providing construction; authorizing the department and the corporation to develop a cooperative agreement; authorizing the department to

adopt rules; requiring the department to annually notify certain taxpayers of certain information; creating s. 420.5096, F.S.; providing legislative findings; creating the Florida Hometown Hero Program for a specified purpose; authorizing the corporation to underwrite and make certain mortgage loans; specifying terms for such loans and requirements for borrowers; authorizing loans made under the program to be used for the purchase of certain manufactured homes; providing construction; amending s. 420.531, F.S.; authorizing the Florida Housing Corporation to contract with certain entities to provide technical assistance to local governments in establishing selection criteria for proposals to use certain property for affordable housing purposes; amending s. 420.6075, F.S.; making technical changes; amending s. 553.792, F.S.; requiring local governments to maintain on their websites a policy relating to the expedited processing of certain building permits and development orders; amending s. 624.509, F.S.; specifying the order of application of Live Local Program tax credits against the insurance premium tax; amending s. 624.5105, F.S.; conforming a provision to changes made by the act; creating s. 624.51058, F.S.; providing a credit against the insurance premium tax under the Live Local Program; providing a requirement for making eligible contributions; providing construction; providing applicability; exempting a certain initiative from certain evacuation time constraints;

specifying that certain comprehensive plan amendments are valid; authorizing certain local governments to adopt local ordinances or regulations for certain purposes; authorizing the department to adopt emergency rules; providing for future expiration of such rulemaking authority; providing appropriations; providing a declaration of important state interest; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. This act may be cited as the "Live Local Act."

Section 2. Section 125.0103, Florida Statutes, is amended to read:

125.0103 Ordinances and rules imposing price controls~~; findings required; procedures~~.—

(1)(a) Except as hereinafter provided, a ~~no~~ county, municipality, or other entity of local government may not ~~shall~~ adopt or maintain in effect an ordinance or a rule that ~~which~~ has the effect of imposing price controls upon a lawful business activity that ~~which~~ is not franchised by, owned by, or under contract with, the governmental agency, unless specifically provided by general law.

(b) This section does not prevent the enactment by local governments of public service rates otherwise authorized by law, including water, sewer, solid waste, public transportation, taxicab, or port rates, rates for towing of vehicles or vessels from or immobilization of vehicles or vessels on private property, or rates for removal and storage of wrecked or

disabled vehicles or vessels from an accident scene or the removal and storage of vehicles or vessels in the event the owner or operator is incapacitated, unavailable, leaves the procurement of wrecker service to the law enforcement officer at the scene, or otherwise does not consent to the removal of the vehicle or vessel.

(c) Counties must establish maximum rates which may be charged on the towing of vehicles or vessels from or immobilization of vehicles or vessels on private property, removal and storage of wrecked or disabled vehicles or vessels from an accident scene or for the removal and storage of vehicles or vessels, in the event the owner or operator is incapacitated, unavailable, leaves the procurement of wrecker service to the law enforcement officer at the scene, or otherwise does not consent to the removal of the vehicle or vessel. However, if a municipality chooses to enact an ordinance establishing the maximum rates for the towing or immobilization of vehicles or vessels as described in paragraph (b), the county's ordinance does ~~shall~~ not apply within such municipality.

(2) ~~No law, ordinance, rule, or other measure which would have the effect of imposing controls on rents shall be adopted or maintained in effect except as provided herein and unless it is found and determined, as hereinafter provided, that such controls are necessary and proper to eliminate an existing housing emergency which is so grave as to constitute a serious menace to the general public.~~

~~(3) Any law, ordinance, rule, or other measure which has the effect of imposing controls on rents shall terminate and~~

~~expire within 1 year and shall not be extended or renewed except by the adoption of a new measure meeting all the requirements of this section.~~

~~(4) Notwithstanding any other provisions of this section, no controls shall be imposed on rents for any accommodation used or offered for residential purposes as a seasonal or tourist unit, as a second housing unit, or on rents for dwelling units located in luxury apartment buildings. For the purposes of this section, a luxury apartment building is one wherein on January 1, 1977, the aggregate rent due on a monthly basis from all dwelling units as stated in leases or rent lists existing on that date divided by the number of dwelling units exceeds $250.~~

~~(5)~~ A ~~No~~ municipality, county, or other entity of local government may not ~~shall~~ adopt or maintain in effect any law, ordinance, rule, or other measure that ~~which~~ would have the effect of imposing controls on rents ~~unless:~~

~~(a) Such measure is duly adopted by the governing body of such entity of local government, after notice and public hearing, in accordance with all applicable provisions of the Florida and United States Constitutions, the charter or charters governing such entity of local government, this section, and any other applicable laws.~~

~~(b) Such governing body makes and recites in such measure its findings establishing the existence in fact of a housing emergency so grave as to constitute a serious menace to the general public and that such controls are necessary and proper to eliminate such grave housing emergency.~~

~~(c) Such measure is approved by the voters in such municipality, county, or other entity of local government~~.

~~(6) In any court action brought to challenge the validity of rent control imposed pursuant to the provisions of this section, the evidentiary effect of any findings or recitations required by subsection (5) shall be limited to imposing upon any party challenging the validity of such measure the burden of going forward with the evidence, and the burden of proof (that is, the risk of nonpersuasion) shall rest upon any party seeking to have the measure upheld.~~

(3)~~(7)~~ Notwithstanding any other provisions of this section, municipalities, counties, or other entities of local government may adopt and maintain in effect any law, ordinance, rule, or other measure which is adopted for the purposes of increasing the supply of affordable housing using land use mechanisms such as inclusionary housing ordinances.

Section 3. Subsections (5) and (6) of section 125.01055, Florida Statutes, are amended, and subsection (7) is added to that section, to read:

125.01055 Affordable housing.—

(5) Subsection (4) ~~(2)~~ does not apply in an area of critical state concern, as designated in s. 380.0552.

(6) Notwithstanding any other law or local ordinance or regulation to the contrary, the board of county commissioners may approve the development of housing that is affordable, as defined in s. 420.0004, including, but not limited to, a mixed-use residential development, on any parcel zoned for ~~residential,~~ commercial~~,~~ or industrial use~~. If a parcel is zoned for commercial or industrial use, an approval pursuant to this subsection may include any residential development project, including a mixed-use residential development project~~, so long

as at least 10 percent of the units included in the project are for housing that is affordable ~~and the developer of the project agrees not to apply for or receive funding under s. 420.5087~~. The provisions of this subsection are self-executing and do not require the board of county commissioners to adopt an ordinance or a regulation before using the approval process in this subsection.

(7)(a) A county must authorize multifamily and mixed-use residential as allowable uses in any area zoned for commercial, industrial, or mixed use if at least 40 percent of the residential units in a proposed multifamily rental development are, for a period of at least 30 years, affordable as defined in s. 420.0004. Notwithstanding any other law, local ordinance, or regulation to the contrary, a county may not require a proposed multifamily development to obtain a zoning or land use change, special exception, conditional use approval, variance, or comprehensive plan amendment for the building height, zoning, and densities authorized under this subsection. For mixed-use residential projects, at least 65 percent of the total square footage must be used for residential purposes.

(b) A county may not restrict the density of a proposed development authorized under this subsection below the highest allowed density on any unincorporated land in the county where residential development is allowed.

(c) A county may not restrict the height of a proposed development authorized under this subsection below the highest currently allowed height for a commercial or residential development located in its jurisdiction within 1 mile of the proposed development or 3 stories, whichever is higher.

(d) A proposed development authorized under this subsection must be administratively approved and no further action by the board of county commissioners is required if the development satisfies the county's land development regulations for multifamily developments in areas zoned for such use and is otherwise consistent with the comprehensive plan, with the exception of provisions establishing allowable densities, height, and land use. Such land development regulations include, but are not limited to, regulations relating to setbacks and parking requirements.

(e) A county must consider reducing parking requirements for a proposed development authorized under this subsection if the development is located within one-half mile of a major transit stop, as defined in the county's land development code, and the major transit stop is accessible from the development.

(f) For proposed multifamily developments in an unincorporated area zoned for commercial or industrial use which is within the boundaries of a multicounty independent special district that was created to provide municipal services and is not authorized to levy ad valorem taxes, and less than 20 percent of the land area within such district is designated for commercial or industrial use, a county must authorize, as provided in this subsection, such development only if the development is mixed-use residential.

(g) Except as otherwise provided in this subsection, a development authorized under this subsection must comply with all applicable state and local laws and regulations.

(h) This subsection does not apply to property defined as recreational and commercial working waterfront in s.

342.201(2)(b) in any area zoned as industrial.

(i) This subsection expires October 1, 2033.

Section 4. Section 125.379, Florida Statutes, is amended to read:

125.379 Disposition of county property for affordable housing.—

(1) By October 1, 2023 ~~July 1, 2007~~, and every 3 years thereafter, each county shall prepare an inventory list of all real property within its jurisdiction to which the county or any dependent special district within its boundaries holds fee simple title which ~~that~~ is appropriate for use as affordable housing. The inventory list must include the address and legal description of each such real property and specify whether the property is vacant or improved. The governing body of the county must review the inventory list at a public hearing and may revise it at the conclusion of the public hearing. The governing body of the county shall adopt a resolution that includes an inventory list of such property following the public hearing. Each county shall make the inventory list publicly available on its website to encourage potential development.

(2) The properties identified as appropriate for use as affordable housing on the inventory list adopted by the county may be used for affordable housing through a long-term land lease requiring the development and maintenance of affordable housing, offered for sale and the proceeds used to purchase land for the development of affordable housing or to increase the local government fund earmarked for affordable housing, ~~or may be~~ sold with a restriction that requires the development of the property as permanent affordable housing, or ~~may be~~ donated to a

nonprofit housing organization for the construction of permanent affordable housing. Alternatively, the county or special district may otherwise make the property available for use for the production and preservation of permanent affordable housing. For purposes of this section, the term "affordable" has the same meaning as in s. 420.0004(3).

(3) Counties are encouraged to adopt best practices for surplus land programs, including, but not limited to:

(a) Establishing eligibility criteria for the receipt or purchase of surplus land by developers;

(b) Making the process for requesting surplus lands publicly available; and

(c) Ensuring long-term affordability through ground leases by retaining the right of first refusal to purchase property that would be sold or offered at market rate and by requiring reversion of property not used for affordable housing within a certain timeframe.

Section 5. Subsections (5) and (6) of section 166.04151, Florida Statutes, are amended, and subsection (7) is added to that section, to read:

166.04151 Affordable housing.—

(5) Subsection (4) ~~(2)~~ does not apply in an area of critical state concern, as designated by s. 380.0552 or chapter 28-36, Florida Administrative Code.

(6) Notwithstanding any other law or local ordinance or regulation to the contrary, the governing body of a municipality may approve the development of housing that is affordable, as defined in s. 420.0004, including, but not limited to, a mixed-use residential development, on any parcel zoned for

~~residential,~~ commercial~~,~~ or industrial use~~. If a parcel is zoned for commercial or industrial use, an approval pursuant to this subsection may include any residential development project, including a mixed-use residential development project~~, so long as at least 10 percent of the units included in the project are for housing that is affordable ~~and the developer of the project agrees not to apply for or receive funding under s. 420.5087~~. The provisions of this subsection are self-executing and do not require the governing body to adopt an ordinance or a regulation before using the approval process in this subsection.

(7)(a) A municipality must authorize multifamily and mixed-use residential as allowable uses in any area zoned for commercial, industrial, or mixed use if at least 40 percent of the residential units in a proposed multifamily rental development are, for a period of at least 30 years, affordable as defined in s. 420.0004. Notwithstanding any other law, local ordinance, or regulation to the contrary, a municipality may not require a proposed multifamily development to obtain a zoning or land use change, special exception, conditional use approval, variance, or comprehensive plan amendment for the building height, zoning, and densities authorized under this subsection. For mixed-use residential projects, at least 65 percent of the total square footage must be used for residential purposes.

(b) A municipality may not restrict the density of a proposed development authorized under this subsection below the highest allowed density on any land in the municipality where residential development is allowed.

(c) A municipality may not restrict the height of a proposed development authorized under this subsection below the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

highest currently allowed height for a commercial or residential development located in its jurisdiction within 1 mile of the proposed development or 3 stories, whichever is higher.

(d) A proposed development authorized under this subsection must be administratively approved and no further action by the governing body of the municipality is required if the development satisfies the municipality's land development regulations for multifamily developments in areas zoned for such use and is otherwise consistent with the comprehensive plan, with the exception of provisions establishing allowable densities, height, and land use. Such land development regulations include, but are not limited to, regulations relating to setbacks and parking requirements.

(e) A municipality must consider reducing parking requirements for a proposed development authorized under this subsection if the development is located within one-half mile of a major transit stop, as defined in the municipality's land development code, and the major transit stop is accessible from the development.

(f) A municipality that designates less than 20 percent of the land area within its jurisdiction for commercial or industrial use must authorize a proposed multifamily development as provided in this subsection in areas zoned for commercial or industrial use only if the proposed multifamily development is mixed-use residential.

(g) Except as otherwise provided in this subsection, a development authorized under this subsection must comply with all applicable state and local laws and regulations.

(h) This subsection does not apply to property defined as

recreational and commercial working waterfront in s. 342.201(2)(b) in any area zoned as industrial.

(i) This subsection expires October 1, 2033.

Section 6. Section 166.043, Florida Statutes, is amended to read:

166.043 Ordinances and rules imposing price controls~~; findings required; procedures~~.—

(1)(a) Except as hereinafter provided, a ~~no~~ county, municipality, or other entity of local government may not ~~shall~~ adopt or maintain in effect an ordinance or a rule that ~~which~~ has the effect of imposing price controls upon a lawful business activity that ~~which~~ is not franchised by, owned by, or under contract with, the governmental agency, unless specifically provided by general law.

(b) This section does not prevent the enactment by local governments of public service rates otherwise authorized by law, including water, sewer, solid waste, public transportation, taxicab, or port rates, rates for towing of vehicles or vessels from or immobilization of vehicles or vessels on private property, or rates for removal and storage of wrecked or disabled vehicles or vessels from an accident scene or the removal and storage of vehicles or vessels in the event the owner or operator is incapacitated, unavailable, leaves the procurement of wrecker service to the law enforcement officer at the scene, or otherwise does not consent to the removal of the vehicle or vessel.

(c) Counties must establish maximum rates which may be charged on the towing of vehicles or vessels from or immobilization of vehicles or vessels on private property,

removal and storage of wrecked or disabled vehicles or vessels from an accident scene or for the removal and storage of vehicles or vessels, in the event the owner or operator is incapacitated, unavailable, leaves the procurement of wrecker service to the law enforcement officer at the scene, or otherwise does not consent to the removal of the vehicle or vessel. However, if a municipality chooses to enact an ordinance establishing the maximum rates for the towing or immobilization of vehicles or vessels as described in paragraph (b), the county's ordinance established under s. 125.0103 does ~~shall~~ not apply within such municipality.

(2) ~~No law, ordinance, rule, or other measure which would have the effect of imposing controls on rents shall be adopted or maintained in effect except as provided herein and unless it is found and determined, as hereinafter provided, that such controls are necessary and proper to eliminate an existing housing emergency which is so grave as to constitute a serious menace to the general public.~~

~~(3) Any law, ordinance, rule, or other measure which has the effect of imposing controls on rents shall terminate and expire within 1 year and shall not be extended or renewed except by the adoption of a new measure meeting all the requirements of this section.~~

~~(4) Notwithstanding any other provisions of this section, no controls shall be imposed on rents for any accommodation used or offered for residential purposes as a seasonal or tourist unit, as a second housing unit, or on rents for dwelling units located in luxury apartment buildings. For the purposes of this section, a luxury apartment building is one wherein on January~~

~~1, 1977, the aggregate rent due on a monthly basis from all dwelling units as stated in leases or rent lists existing on that date divided by the number of dwelling units exceeds $250.~~

~~(5)~~ A ~~No~~ municipality, county, or other entity of local government may not ~~shall~~ adopt or maintain in effect any law, ordinance, rule, or other measure that ~~which~~ would have the effect of imposing controls on rents ~~unless:~~

~~(a) Such measure is duly adopted by the governing body of such entity of local government, after notice and public hearing, in accordance with all applicable provisions of the Florida and United States Constitutions, the charter or charters governing such entity of local government, this section, and any other applicable laws.~~

~~(b) Such governing body makes and recites in such measure its findings establishing the existence in fact of a housing emergency so grave as to constitute a serious menace to the general public and that such controls are necessary and proper to eliminate such grave housing emergency.~~

~~(c) Such measure is approved by the voters in such municipality, county, or other entity of local government~~.

~~(6) In any court action brought to challenge the validity of rent control imposed pursuant to the provisions of this section, the evidentiary effect of any findings or recitations required by subsection (5) shall be limited to imposing upon any party challenging the validity of such measure the burden of going forward with the evidence, and the burden of proof (that is, the risk of nonpersuasion) shall rest upon any party seeking to have the measure upheld.~~

(3)~~(7)~~ Notwithstanding any other provisions of this

section, municipalities, counties, or other entity of local government may adopt and maintain in effect any law, ordinance, rule, or other measure which is adopted for the purposes of increasing the supply of affordable housing using land use mechanisms such as inclusionary housing ordinances.

Section 7. Section 166.0451, Florida Statutes, is amended to read:

166.0451 Disposition of municipal property for affordable housing.—

(1) By October 1, 2023 ~~July 1, 2007~~, and every 3 years thereafter, each municipality shall prepare an inventory list of all real property within its jurisdiction to which the municipality or any dependent special district within its boundaries holds fee simple title which ~~that~~ is appropriate for use as affordable housing. The inventory list must include the address and legal description of each such property and specify whether the property is vacant or improved. The governing body of the municipality must review the inventory list at a public hearing and may revise it at the conclusion of the public hearing. Following the public hearing, the governing body of the municipality shall adopt a resolution that includes an inventory list of such property. Each municipality shall make the inventory list publicly available on its website to encourage potential development.

(2) The properties identified as appropriate for use as affordable housing on the inventory list adopted by the municipality may be used for affordable housing through a long-term land lease requiring the development and maintenance of affordable housing, offered for sale and the proceeds ~~may be~~

used to purchase land for the development of affordable housing or to increase the local government fund earmarked for affordable housing, ~~or may be~~ sold with a restriction that requires the development of the property as permanent affordable housing, or ~~may be~~ donated to a nonprofit housing organization for the construction of permanent affordable housing. Alternatively, the municipality or special district may otherwise make the property available for use for the production and preservation of permanent affordable housing. For purposes of this section, the term "affordable" has the same meaning as in s. 420.0004(3).

(3) Municipalities are encouraged to adopt best practices for surplus land programs, including, but not limited to:

(a) Establishing eligibility criteria for the receipt or purchase of surplus land by developers;

(b) Making the process for requesting surplus lands publicly available; and

(c) Ensuring long-term affordability through ground leases by retaining the right of first refusal to purchase property that would be sold or offered at market rate and by requiring reversion of property not used for affordable housing within a certain timeframe.

Section 8. Effective January 1, 2024, subsection (1) of section 196.1978, Florida Statutes, is amended, and subsection (3) is added to that section, to read:

196.1978 Affordable housing property exemption.—

(1)(a) Property used to provide affordable housing to eligible persons as defined by s. 159.603 and natural persons or families meeting the extremely-low-income, very-low-income, low-

income, or moderate-income limits specified in s. 420.0004, which is owned entirely by a nonprofit entity that is a corporation not for profit, qualified as charitable under s. 501(c)(3) of the Internal Revenue Code and in compliance with Rev. Proc. 96-32, 1996-1 C.B. 717, is considered property owned by an exempt entity and used for a charitable purpose, and those portions of the affordable housing property that provide housing to natural persons or families classified as extremely low income, very low income, low income, or moderate income under s. 420.0004 are exempt from ad valorem taxation to the extent authorized under s. 196.196. All property identified in this subsection must comply with the criteria provided under s. 196.195 for determining exempt status and applied by property appraisers on an annual basis. The Legislature intends that any property owned by a limited liability company which is disregarded as an entity for federal income tax purposes pursuant to Treasury Regulation 301.7701-3(b)(1)(ii) be treated as owned by its sole member. If the sole member of the limited liability company that owns the property is also a limited liability company that is disregarded as an entity for federal income tax purposes pursuant to Treasury Regulation 301.7701-3(b)(1)(ii), the Legislature intends that the property be treated as owned by the sole member of the limited liability company that owns the limited liability company that owns the property. Units that are vacant and units that are occupied by natural persons or families whose income no longer meets the income limits of this subsection, but whose income met those income limits at the time they became tenants, shall be treated as portions of the affordable housing property exempt under this

subsection if a recorded land use restriction agreement in favor of the Florida Housing Finance Corporation or any other governmental or quasi-governmental jurisdiction requires that all residential units within the property be used in a manner that qualifies for the exemption under this subsection and if the units are being offered for rent.

(b) Land that is owned entirely by a nonprofit entity that is a corporation not for profit, qualified as charitable under s. 501(c)(3) of the Internal Revenue Code and in compliance with Rev. Proc. 96-32, 1996-1 C.B. 717, and is leased for a minimum of 99 years for the purpose of, and is predominantly used for, providing housing to natural persons or families meeting the extremely-low-income, very-low-income, low-income, or moderate-income limits specified in s. 420.0004 is exempt from ad valorem taxation. For purposes of this paragraph, land is predominantly used for qualifying purposes if the square footage of the improvements on the land used to provide qualifying housing is greater than 50 percent of the square footage of all improvements on the land. This paragraph first applies to the 2024 tax roll and is repealed December 31, 2059.

(3)(a) As used in this subsection, the term:

1. "Corporation" means the Florida Housing Finance Corporation.

2. "Newly constructed" means an improvement to real property which was substantially completed within 5 years before the date of an applicant's first submission of a request for certification or an application for an exemption pursuant to this section, whichever is earlier.

3. "Substantially completed" has the same meaning as in s.

192.042(1).

(b) Notwithstanding ss. 196.195 and 196.196, portions of property in a multifamily project are considered property used for a charitable purpose and are eligible to receive an ad valorem property tax exemption if such portions:

1. Provide affordable housing to natural persons or families meeting the income limitations provided in paragraph (d);

2. Are within a newly constructed multifamily project that contains more than 70 units dedicated to housing natural persons or families meeting the income limitations provided in paragraph (d); and

3. Are rented for an amount that does not exceed the amount as specified by the most recent multifamily rental programs income and rent limit chart posted by the corporation and derived from the Multifamily Tax Subsidy Projects Income Limits published by the United States Department of Housing and Urban Development or 90 percent of the fair market value rent as determined by a rental market study meeting the requirements of paragraph (m), whichever is less.

(c) If a unit that in the previous year qualified for the exemption under this subsection and was occupied by a tenant is vacant on January 1, the vacant unit is eligible for the exemption if the use of the unit is restricted to providing affordable housing that would otherwise meet the requirements of this subsection and a reasonable effort is made to lease the unit to eligible persons or families.

(d)1. Qualified property used to house natural persons or families whose annual household income is greater than 80

percent but not more than 120 percent of the median annual adjusted gross income for households within the metropolitan statistical area or, if not within a metropolitan statistical area, within the county in which the person or family resides, must receive an ad valorem property tax exemption of 75 percent of the assessed value.

2. Qualified property used to house natural persons or families whose annual household income does not exceed 80 percent of the median annual adjusted gross income for households within the metropolitan statistical area or, if not within a metropolitan statistical area, within the county in which the person or family resides, is exempt from ad valorem property taxes.

(e) To receive an exemption under this subsection, a property owner must submit an application on a form prescribed by the department by March 1 for the exemption, accompanied by a certification notice from the corporation to the property appraiser.

(f) To receive a certification notice, a property owner must submit a request to the corporation for certification on a form provided by the corporation which includes all of the following:

1. The most recently completed rental market study meeting the requirements of paragraph (m).

2. A list of the units for which the property owner seeks an exemption.

3. The rent amount received by the property owner for each unit for which the property owner seeks an exemption. If a unit is vacant and qualifies for an exemption under paragraph (c),

the property owner must provide evidence of the published rent amount for each vacant unit.

4. A sworn statement, under penalty of perjury, from the applicant restricting the property for a period of not less than 3 years to housing persons or families who meet the income limitations under this subsection.

(g) The corporation shall review the request for certification and certify property that meets the eligibility criteria of this subsection. A determination by the corporation regarding a request for certification does not constitute final agency action pursuant to chapter 120.

1. If the corporation determines that the property meets the eligibility criteria for an exemption under this subsection, the corporation must send a certification notice to the property owner and the property appraiser.

2. If the corporation determines that the property does not meet the eligibility criteria, the corporation must notify the property owner and include the reasons for such determination.

(h) The corporation shall post on its website the deadline to submit a request for certification. The deadline must allow adequate time for a property owner to submit a timely application for exemption to the property appraiser.

(i) The property appraiser shall review the application and determine if the applicant is entitled to an exemption. A property appraiser may grant an exemption only for a property for which the corporation has issued a certification notice.

(j) If the property appraiser determines that for any year during the immediately previous 10 years a person who was not entitled to an exemption under this subsection was granted such

an exemption, the property appraiser must serve upon the owner a notice of intent to record in the public records of the county a notice of tax lien against any property owned by that person in the county, and that property must be identified in the notice of tax lien. Any property owned by the taxpayer and situated in this state is subject to the taxes exempted by the improper exemption, plus a penalty of 50 percent of the unpaid taxes for each year and interest at a rate of 15 percent per annum. If an exemption is improperly granted as a result of a clerical mistake or an omission by the property appraiser, the property owner improperly receiving the exemption may not be assessed a penalty or interest.

(k) Units subject to an agreement with the corporation pursuant to chapter 420 recorded in the official records of the county in which the property is located to provide housing to natural persons or families meeting the extremely-low-income, very-low-income, or low-income limits specified in s. 420.0004 are not eligible for this exemption.

(l) Property receiving an exemption pursuant to s. 196.1979 is not eligible for this exemption.

(m) A rental market study submitted as required by paragraph (f) must identify the fair market value rent of each unit for which a property owner seeks an exemption. Only a certified general appraiser as defined in s. 475.611 may issue a rental market study. The certified general appraiser must be independent of the property owner who requests the rental market study. In preparing the rental market study, a certified general appraiser shall comply with the standards of professional practice pursuant to part II of chapter 475 and use comparable

property within the same geographic area and of the same type as the property for which the exemption is sought. A rental market study must have been completed within 3 years before submission of the application.

(n) The corporation may adopt rules to implement this section.

(o) This subsection first applies to the 2024 tax roll and is repealed December 31, 2059.

Section 9. Section 196.1979, Florida Statutes, is created to read:

196.1979 County and municipal affordable housing property exemption.—

(1)(a) Notwithstanding ss. 196.195 and 196.196, the board of county commissioners of a county or the governing body of a municipality may adopt an ordinance to exempt those portions of property used to provide affordable housing meeting the requirements of this section. Such property is considered property used for a charitable purpose. To be eligible for the exemption, the portions of property:

1. Must be used to house natural persons or families whose annual household income:

a. Is greater than 30 percent but not more than 60 percent of the median annual adjusted gross income for households within the metropolitan statistical area or, if not within a metropolitan statistical area, within the county in which the person or family resides; or

b. Does not exceed 30 percent of the median annual adjusted gross income for households within the metropolitan statistical area or, if not within a metropolitan statistical area, within

the county in which the person or family resides;

2. Must be within a multifamily project containing 50 or more residential units, at least 20 percent of which are used to provide affordable housing that meets the requirements of this section;

3. Must be rented for an amount no greater than the amount as specified by the most recent multifamily rental programs income and rent limit chart posted by the corporation and derived from the Multifamily Tax Subsidy Projects Income Limits published by the United States Department of Housing and Urban Development or 90 percent of the fair market value rent as determined by a rental market study meeting the requirements of subsection (4), whichever is less;

4. May not have been cited for code violations on three or more occasions in the 24 months before the submission of a tax exemption application;

5. May not have any cited code violations that have not been properly remedied by the property owner before the submission of a tax exemption application; and

6. May not have any unpaid fines or charges relating to the cited code violations. Payment of unpaid fines or charges before a final determination on a property's qualification for an exemption under this section will not exclude such property from eligibility if the property otherwise complies with all other requirements for the exemption.

(b) Qualified property may receive an ad valorem property tax exemption of:

1. Up to 75 percent of the assessed value of each residential unit used to provide affordable housing if fewer

than 100 percent of the multifamily project's residential units are used to provide affordable housing meeting the requirements of this section.

2. Up to 100 percent of the assessed value if 100 percent of the multifamily project's residential units are used to provide affordable housing meeting the requirements of this section.

(c) The board of county commissioners of the county or the governing body of the municipality, as applicable, may choose to adopt an ordinance that exempts property used to provide affordable housing for natural persons or families meeting the income limits of sub-subparagraph (a)1.a., natural persons or families meeting the income limits of sub-subparagraph (a)1.b., or both.

(2) If a residential unit that in the previous year qualified for the exemption under this section and was occupied by a tenant is vacant on January 1, the vacant unit may qualify for the exemption under this section if the use of the unit is restricted to providing affordable housing that would otherwise meet the requirements of this section and a reasonable effort is made to lease the unit to eligible persons or families.

(3) An ordinance granting the exemption authorized by this section must:

(a) Be adopted under the procedures for adoption of a nonemergency ordinance by a board of county commissioners specified in chapter 125 or by a municipal governing body specified in chapter 166.

(b) Designate the local entity under the supervision of the board of county commissioners or governing body of a

municipality which must develop, receive, and review applications for certification and develop notices of determination of eligibility.

(c) Require the property owner to apply for certification by the local entity in order to receive the exemption. The application for certification must be on a form provided by the local entity designated pursuant to paragraph (b) and include all of the following:

1. The most recently completed rental market study meeting the requirements of subsection (4).

2. A list of the units for which the property owner seeks an exemption.

3. The rent amount received by the property owner for each unit for which the property owner seeks an exemption. If a unit is vacant and qualifies for an exemption under subsection (2), the property owner must provide evidence of the published rent amount for the vacant unit.

(d) Require the local entity to verify and certify property that meets the requirements of the ordinance as qualified property and forward the certification to the property owner and the property appraiser. If the local entity denies the exemption, it must notify the applicant and include reasons for the denial.

(e) Require the eligible unit to meet the eligibility criteria of paragraph (1)(a).

(f) Require the property owner to submit an application for exemption, on a form prescribed by the department, accompanied by the certification of qualified property, to the property appraiser no later than March 1.

(g) Specify that the exemption applies only to the taxes levied by the unit of government granting the exemption.

(h) Specify that the property may not receive an exemption authorized by this section after expiration or repeal of the ordinance.

(i) Identify the percentage of the assessed value which is exempted, subject to the percentage limitations in paragraph (1)(b).

(j) Identify whether the exemption applies to natural persons or families meeting the income limits of sub-subparagraph (1)(a)1.a., natural persons or families meeting the income limits of sub-subparagraph (1)(a)1.b., or both.

(k) Require that the deadline to submit an application for certification be published on the county's or municipality's website. The deadline must allow adequate time for a property owner to make a timely application for exemption to the property appraiser.

(l) Require the county or municipality to post on its website a list of certified properties for the purpose of facilitating access to affordable housing.

(4) A rental market study submitted as required by paragraph (3)(c) must identify the fair market value rent of each unit for which a property owner seeks an exemption. Only a certified general appraiser, as defined in s. 475.611, may issue a rental market study. The certified general appraiser must be independent of the property owner who requests a rental market study. In preparing the rental market study, a certified general appraiser shall comply with the standards of professional practice pursuant to part II of chapter 475 and use comparable

property within the same geographic area and of the same type as the property for which the exemption is sought. A rental market study must have been completed within 3 years before submission of the application.

(5) An ordinance adopted under this section must expire before the fourth January 1 after adoption; however, the board of county commissioners or the governing body of the municipality may adopt a new ordinance to renew the exemption. The board of county commissioners or the governing body of the municipality shall deliver a copy of an ordinance adopted under this section to the department and the property appraiser within 10 days after its adoption. If the ordinance expires or is repealed, the board of county commissioners or the governing body of the municipality must notify the department and the property appraiser within 10 days after its expiration or repeal.

(6) If the property appraiser determines that for any year during the immediately previous 10 years a person who was not entitled to an exemption under this section was granted such an exemption, the property appraiser must serve upon the owner a notice of intent to record in the public records of the county a notice of tax lien against any property owned by that person in the county, and that property must be identified in the notice of tax lien. Any property owned by the taxpayer and situated in this state is subject to the taxes exempted by the improper exemption, plus a penalty of 50 percent of the unpaid taxes for each year and interest at a rate of 15 percent per annum. If an exemption is improperly granted as a result of a clerical mistake or an omission by the property appraiser, the property

owner improperly receiving the exemption may not be assessed a penalty or interest.

(7) This section first applies to the 2024 tax roll.

Section 10. Section 201.15, Florida Statutes, is amended to read:

201.15 Distribution of taxes collected.—All taxes collected under this chapter are hereby pledged and shall be first made available to make payments when due on bonds issued pursuant to s. 215.618 or s. 215.619, or any other bonds authorized to be issued on a parity basis with such bonds. Such pledge and availability for the payment of these bonds shall have priority over any requirement for the ~~payment of service charges or~~ costs of collection and enforcement under this section. ~~All taxes collected under this chapter, except taxes distributed to the Land Acquisition Trust Fund pursuant to subsections (1) and (2), are subject to the service charge imposed in s. 215.20(1).~~ Before distribution pursuant to this section, the Department of Revenue shall deduct amounts necessary to pay the costs of the collection and enforcement of the tax levied by this chapter. The costs ~~and service charge~~ may not be levied against any portion of taxes pledged to debt service on bonds to the extent that the costs ~~and service charge~~ are required to pay any amounts relating to the bonds. All of the costs of the collection and enforcement of the tax levied by this chapter ~~and the service charge~~ shall be available and transferred to the extent necessary to pay debt service and any other amounts payable with respect to bonds authorized before January 1, 2017, secured by revenues distributed pursuant to this section. All taxes remaining after deduction of costs shall be distributed as

follows:

(1) Amounts necessary to make payments on bonds issued pursuant to s. 215.618 or s. 215.619, as provided under paragraphs (3)(a) and (b), or on any other bonds authorized to be issued on a parity basis with such bonds shall be deposited into the Land Acquisition Trust Fund.

(2) If the amounts deposited pursuant to subsection (1) are less than 33 percent of all taxes collected after first deducting the costs of collection, an amount equal to 33 percent of all taxes collected after first deducting the costs of collection, minus the amounts deposited pursuant to subsection (1), shall be deposited into the Land Acquisition Trust Fund.

(3) Amounts on deposit in the Land Acquisition Trust Fund shall be used in the following order:

(a) Payment of debt service or funding of debt service reserve funds, rebate obligations, or other amounts payable with respect to Florida Forever bonds issued pursuant to s. 215.618. The amount used for such purposes may not exceed $300 million in each fiscal year. It is the intent of the Legislature that all bonds issued to fund the Florida Forever Act be retired by December 31, 2040. Except for bonds issued to refund previously issued bonds, no series of bonds may be issued pursuant to this paragraph unless such bonds are approved and the debt service for the remainder of the fiscal year in which the bonds are issued is specifically appropriated in the General Appropriations Act or other law with respect to bonds issued for the purposes of s. 373.4598.

(b) Payment of debt service or funding of debt service reserve funds, rebate obligations, or other amounts due with

respect to Everglades restoration bonds issued pursuant to s. 215.619. Taxes distributed under paragraph (a) and this paragraph must be collectively distributed on a pro rata basis when the available moneys under this subsection are not sufficient to cover the amounts required under paragraph (a) and this paragraph.

Bonds issued pursuant to s. 215.618 or s. 215.619 are equally and ratably secured by moneys distributable to the Land Acquisition Trust Fund.

(4) After the required distributions to the Land Acquisition Trust Fund pursuant to subsections (1) and (2), the lesser of 8 percent of the remainder or $150 million in each fiscal year shall be paid into the State Treasury to the credit of the State Housing Trust Fund and shall be expended pursuant to s. 420.50871. If 8 percent of the remainder is greater than $150 million in any fiscal year, the difference between 8 percent of the remainder and $150 million shall be paid into the State Treasury to the credit of the General Revenue Fund. ~~and deduction of the service charge imposed pursuant to s. 215.20(1),~~ The remainder shall be distributed as follows:

(a) The lesser of 20.5453 percent of the remainder or $466.75 million in each fiscal year shall be paid into the State Treasury to the credit of the State Transportation Trust Fund. Notwithstanding any other law, the amount credited to the State Transportation Trust Fund shall be used for:

1. Capital funding for the New Starts Transit Program, authorized by Title 49, U.S.C. s. 5309 and specified in s. 341.051, in the amount of 10 percent of the funds;

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

2. The Small County Outreach Program specified in s. 339.2818, in the amount of 10 percent of the funds;

3. The Strategic Intermodal System specified in ss. 339.61, 339.62, 339.63, and 339.64, in the amount of 75 percent of the funds after deduction of the payments required pursuant to subparagraphs 1. and 2.; and

4. The Transportation Regional Incentive Program specified in s. 339.2819, in the amount of 25 percent of the funds after deduction of the payments required pursuant to subparagraphs 1. and 2. The first $60 million of the funds allocated pursuant to this subparagraph shall be allocated annually to the Florida Rail Enterprise for the purposes established in s. 341.303(5).

(b) The lesser of 0.1456 percent of the remainder or $3.25 million in each fiscal year shall be paid into the State Treasury to the credit of the Grants and Donations Trust Fund in the Department of Economic Opportunity to fund technical assistance to local governments.

Moneys distributed pursuant to paragraphs (a) and (b) may not be pledged for debt service unless such pledge is approved by referendum of the voters.

(c) An amount equaling 4.5 percent of the remainder in each fiscal year shall be paid into the State Treasury to the credit of the State Housing Trust Fund. The funds shall be used as follows:

1. Half of that amount shall be used for the purposes for which the State Housing Trust Fund was created and exists by law.

2. Half of that amount shall be paid into the State

Treasury to the credit of the Local Government Housing Trust Fund and used for the purposes for which the Local Government Housing Trust Fund was created and exists by law.

(d) An amount equaling 5.20254 percent of the remainder in each fiscal year shall be paid into the State Treasury to the credit of the State Housing Trust Fund. Of such funds:

1. Twelve and one-half percent of that amount shall be deposited into the State Housing Trust Fund and expended by the Department of Economic Opportunity and the Florida Housing Finance Corporation for the purposes for which the State Housing Trust Fund was created and exists by law.

2. Eighty-seven and one-half percent of that amount shall be distributed to the Local Government Housing Trust Fund and used for the purposes for which the Local Government Housing Trust Fund was created and exists by law. Funds from this category may also be used to provide for state and local services to assist the homeless.

(e) The lesser of 0.017 percent of the remainder or $300,000 in each fiscal year shall be paid into the State Treasury to the credit of the General Inspection Trust Fund to be used to fund oyster management and restoration programs as provided in s. 379.362(3).

(f) A total of $75 million shall be paid into the State Treasury to the credit of the State Economic Enhancement and Development Trust Fund within the Department of Economic Opportunity.

(g) An amount equaling 5.4175 percent of the remainder shall be paid into the Resilient Florida Trust Fund to be used for the purposes for which the Resilient Florida Trust Fund was

created and exists by law. Funds may be used for planning and project grants.

(h) An amount equaling 5.4175 percent of the remainder shall be paid into the Water Protection and Sustainability Program Trust Fund to be used to fund wastewater grants as specified in s. 403.0673.

(5) Notwithstanding s. 215.32(2)(b)4.a., funds distributed to the State Housing Trust Fund and expended pursuant to s. 420.50871 and funds distributed to the State Housing Trust Fund and the Local Government Housing Trust Fund pursuant to paragraphs (4)(c) and (d) ~~paragraph (4)(c)~~ may not be transferred to the General Revenue Fund in the General Appropriations Act.

(6) After the distributions provided in the preceding subsections, any remaining taxes shall be paid into the State Treasury to the credit of the General Revenue Fund.

Section 11. The amendments made by this act to s. 201.15, Florida Statutes, expire on July 1, 2033, and the text of that section shall revert to that in existence on June 30, 2023, except that any amendments to such text enacted other than by this act must be preserved and continue to operate to the extent that such amendments are not dependent upon the portions of the text which expire pursuant to this section.

Section 12. Paragraph (p) of subsection (5) of section 212.08, Florida Statutes, is amended, and paragraph (v) is added to that subsection, to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the

storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(5) EXEMPTIONS; ACCOUNT OF USE.—

(p) *Community contribution tax credit for donations.*—

1. Authorization.—Persons who are registered with the department under s. 212.18 to collect or remit sales or use tax and who make donations to eligible sponsors are eligible for tax credits against their state sales and use tax liabilities as provided in this paragraph:

a. The credit shall be computed as 50 percent of the person’s approved annual community contribution.

b. The credit shall be granted as a refund against state sales and use taxes reported on returns and remitted in the 12 months preceding the date of application to the department for the credit as required in sub-subparagraph 3.c. If the annual credit is not fully used through such refund because of insufficient tax payments during the applicable 12-month period, the unused amount may be included in an application for a refund made pursuant to sub-subparagraph 3.c. in subsequent years against the total tax payments made for such year. Carryover credits may be applied for a 3-year period without regard to any time limitation that would otherwise apply under s. 215.26.

c. A person may not receive more than $200,000 in annual tax credits for all approved community contributions made in any one year.

d. All proposals for the granting of the tax credit require the prior approval of the Department of Economic Opportunity.

e. The total amount of tax credits which may be granted for

all programs approved under this paragraph and ss. 220.183 and 624.5105 is $25 ~~$14.5~~ million in the 2023-2024 ~~2022-2023~~ fiscal year and in each fiscal year thereafter for projects that provide housing opportunities for persons with special needs or homeownership opportunities for low-income households or very-low-income households and $4.5 million in the 2022-2023 fiscal year and in each fiscal year thereafter for all other projects. As used in this paragraph, the term "person with special needs" has the same meaning as in s. 420.0004 and the terms "low-income person," "low-income household," "very-low-income person," and "very-low-income household" have the same meanings as in s. 420.9071.

f. A person who is eligible to receive the credit provided in this paragraph, s. 220.183, or s. 624.5105 may receive the credit only under one section of the person's choice.

2. Eligibility requirements.—

a. A community contribution by a person must be in the following form:

(I) Cash or other liquid assets;

(II) Real property, including 100 percent ownership of a real property holding company;

(III) Goods or inventory; or

(IV) Other physical resources identified by the Department of Economic Opportunity.

For purposes of this sub-subparagraph, the term "real property holding company" means a Florida entity, such as a Florida limited liability company, that is wholly owned by the person; is the sole owner of real property, as defined in s.

192.001(12), located in this ~~the~~ state; is disregarded as an entity for federal income tax purposes pursuant to 26 C.F.R. s. 301.7701-3(b)(1)(ii); and at the time of contribution to an eligible sponsor, has no material assets other than the real property and any other property that qualifies as a community contribution.

b. All community contributions must be reserved exclusively for use in a project. As used in this sub-subparagraph, the term "project" means activity undertaken by an eligible sponsor which is designed to construct, improve, or substantially rehabilitate housing that is affordable to low-income households or very-low-income households; designed to provide housing opportunities for persons with special needs; designed to provide commercial, industrial, or public resources and facilities; or designed to improve entrepreneurial and job-development opportunities for low-income persons. A project may be the investment necessary to increase access to high-speed broadband capability in a rural community that had an enterprise zone designated pursuant to chapter 290 as of May 1, 2015, including projects that result in improvements to communications assets that are owned by a business. A project may include the provision of museum educational programs and materials that are directly related to a project approved between January 1, 1996, and December 31, 1999, and located in an area which was in an enterprise zone designated pursuant to s. 290.0065 as of May 1, 2015. This paragraph does not preclude projects that propose to construct or rehabilitate housing for low-income households or very-low-income households on scattered sites or housing opportunities for persons with special needs. With respect to housing,

contributions may be used to pay the following eligible special needs, low-income, and very-low-income housing-related activities:

(I) Project development impact and management fees for special needs, low-income, or very-low-income housing projects;

(II) Down payment and closing costs for persons with special needs, low-income persons, and very-low-income persons;

(III) Administrative costs, including housing counseling and marketing fees, not to exceed 10 percent of the community contribution, directly related to special needs, low-income, or very-low-income projects; and

(IV) Removal of liens recorded against residential property by municipal, county, or special district local governments if satisfaction of the lien is a necessary precedent to the transfer of the property to a low-income person or very-low-income person for the purpose of promoting home ownership. Contributions for lien removal must be received from a nonrelated third party.

c. The project must be undertaken by an "eligible sponsor," which includes:

(I) A community action program;

(II) A nonprofit community-based development organization whose mission is the provision of housing for persons with special needs, low-income households, or very-low-income households or increasing entrepreneurial and job-development opportunities for low-income persons;

(III) A neighborhood housing services corporation;

(IV) A local housing authority created under chapter 421;

(V) A community redevelopment agency created under s.

163.356;

(VI) A historic preservation district agency or organization;

(VII) A local workforce development board;

(VIII) A direct-support organization as provided in s. 1009.983;

(IX) An enterprise zone development agency created under s. 290.0056;

(X) A community-based organization incorporated under chapter 617 which is recognized as educational, charitable, or scientific pursuant to s. 501(c)(3) of the Internal Revenue Code and whose bylaws and articles of incorporation include affordable housing, economic development, or community development as the primary mission of the corporation;

(XI) Units of local government;

(XII) Units of state government; or

(XIII) Any other agency that the Department of Economic Opportunity designates by rule.

A contributing person may not have a financial interest in the eligible sponsor.

d. The project must be located in an area which was in an enterprise zone designated pursuant to chapter 290 as of May 1, 2015, or a Front Porch Florida Community, unless the project increases access to high-speed broadband capability in a rural community that had an enterprise zone designated pursuant to chapter 290 as of May 1, 2015, but is physically located outside the designated rural zone boundaries. Any project designed to construct or rehabilitate housing for low-income households or

very-low-income households or housing opportunities for persons with special needs is exempt from the area requirement of this sub-subparagraph.

e.(I) If, during the first 10 business days of the state fiscal year, eligible tax credit applications for projects that provide housing opportunities for persons with special needs or homeownership opportunities for low-income households or very-low-income households are received for less than the annual tax credits available for those projects, the Department of Economic Opportunity shall grant tax credits for those applications and grant remaining tax credits on a first-come, first-served basis for subsequent eligible applications received before the end of the state fiscal year. If, during the first 10 business days of the state fiscal year, eligible tax credit applications for projects that provide housing opportunities for persons with special needs or homeownership opportunities for low-income households or very-low-income households are received for more than the annual tax credits available for those projects, the Department of Economic Opportunity shall grant the tax credits for those applications as follows:

(A) If tax credit applications submitted for approved projects of an eligible sponsor do not exceed $200,000 in total, the credits shall be granted in full if the tax credit applications are approved.

(B) If tax credit applications submitted for approved projects of an eligible sponsor exceed $200,000 in total, the amount of tax credits granted pursuant to sub-sub-sub-subparagraph (A) shall be subtracted from the amount of available tax credits, and the remaining credits shall be

granted to each approved tax credit application on a pro rata basis.

(II) If, during the first 10 business days of the state fiscal year, eligible tax credit applications for projects other than those that provide housing opportunities for persons with special needs or homeownership opportunities for low-income households or very-low-income households are received for less than the annual tax credits available for those projects, the Department of Economic Opportunity shall grant tax credits for those applications and shall grant remaining tax credits on a first-come, first-served basis for subsequent eligible applications received before the end of the state fiscal year. If, during the first 10 business days of the state fiscal year, eligible tax credit applications for projects other than those that provide housing opportunities for persons with special needs or homeownership opportunities for low-income households or very-low-income households are received for more than the annual tax credits available for those projects, the Department of Economic Opportunity shall grant the tax credits for those applications on a pro rata basis.

3. Application requirements.—

a. An eligible sponsor seeking to participate in this program must submit a proposal to the Department of Economic Opportunity which sets forth the name of the sponsor, a description of the project, and the area in which the project is located, together with such supporting information as is prescribed by rule. The proposal must also contain a resolution from the local governmental unit in which the project is located certifying that the project is consistent with local plans and

regulations.

b. A person seeking to participate in this program must submit an application for tax credit to the Department of Economic Opportunity which sets forth the name of the sponsor; a description of the project; and the type, value, and purpose of the contribution. The sponsor shall verify, in writing, the terms of the application and indicate its receipt of the contribution, and such verification must accompany the application for tax credit. The person must submit a separate tax credit application to the Department of Economic Opportunity for each individual contribution that it makes to each individual project.

c. A person who has received notification from the Department of Economic Opportunity that a tax credit has been approved must apply to the department to receive the refund. Application must be made on the form prescribed for claiming refunds of sales and use taxes and be accompanied by a copy of the notification. A person may submit only one application for refund to the department within a 12-month period.

4. Administration.—

a. The Department of Economic Opportunity may adopt rules necessary to administer this paragraph, including rules for the approval or disapproval of proposals by a person.

b. The decision of the Department of Economic Opportunity must be in writing, and, if approved, the notification shall state the maximum credit allowable to the person. Upon approval, the Department of Economic Opportunity shall transmit a copy of the decision to the department.

c. The Department of Economic Opportunity shall

periodically monitor all projects in a manner consistent with available resources to ensure that resources are used in accordance with this paragraph; however, each project must be reviewed at least once every 2 years.

d. The Department of Economic Opportunity shall, in consultation with the statewide and regional housing and financial intermediaries, market the availability of the community contribution tax credit program to community-based organizations.

(v) *Building materials used in construction of affordable housing units.*—

1. As used in this paragraph, the term:

a. "Affordable housing development" means property that has units subject to an agreement with the Florida Housing Finance Corporation pursuant to chapter 420 recorded in the official records of the county in which the property is located to provide affordable housing to natural persons or families meeting the extremely-low-income, very-low-income, or low-income limits specified in s. 420.0004.

b. "Building materials" means tangible personal property that becomes a component part of eligible residential units in an affordable housing development. The term includes appliances and does not include plants, landscaping, fencing, and hardscaping.

c. "Eligible residential units" means newly constructed units within an affordable housing development which are restricted under the land use restriction agreement.

d. "Newly constructed" means improvements to real property which did not previously exist or the construction of a new

improvement where an old improvement was removed. The term does not include the renovation, restoration, rehabilitation, modification, alteration, or expansion of buildings already located on the parcel on which the eligible residential unit is built.

e. "Real property" has the same meaning as provided in s. 192.001(12).

f. "Substantially completed" has the same meaning as in s. 192.042(1).

2. Building materials used in eligible residential units are exempt from the tax imposed by this chapter if an owner demonstrates to the satisfaction of the department that the requirements of this paragraph have been met. Except as provided in subparagraph 3., this exemption inures to the owner at the time an eligible residential unit is substantially completed, but only through a refund of previously paid taxes. To receive a refund pursuant to this paragraph, the owner of the eligible residential units must file an application with the department. The application must include all of the following:

a. The name and address of the person claiming the refund.

b. An address and assessment roll parcel number of the real property that was improved for which a refund of previously paid taxes is being sought.

c. A description of the eligible residential units for which a refund of previously paid taxes is being sought, including the number of such units.

d. A copy of a valid building permit issued by the county or municipal building department for the eligible residential units.

e. A sworn statement, under penalty of perjury, from the general contractor licensed in this state with whom the owner contracted to build the eligible residential units which specifies the building materials, the actual cost of the building materials, and the amount of sales tax paid in this state on the building materials, and which states that the improvement to the real property was newly constructed. If a general contractor was not used, the owner must make the sworn statement required by this sub-subparagraph. Copies of the invoices evidencing the actual cost of the building materials and the amount of sales tax paid on such building materials must be attached to the sworn statement provided by the general contractor or by the owner. If copies of such invoices are not attached, the cost of the building materials is deemed to be an amount equal to 40 percent of the increase in the final assessed value of the eligible residential units for ad valorem tax purposes less the most recent assessed value of land for the units.

f. A certification by the local building code inspector that the eligible residential unit is substantially completed.

g. A copy of the land use restriction agreement with the Florida Housing Finance Corporation for the eligible residential units.

3. The exemption under this paragraph inures to a municipality, county, other governmental unit or agency, or nonprofit community-based organization through a refund of previously paid taxes if the building materials are paid for from the funds of a community development block grant, the State Housing Initiatives Partnership Program, or a similar grant or

loan program. To receive a refund, a municipality, county, other governmental unit or agency, or nonprofit community-based organization must submit an application that includes the same information required under subparagraph 2. In addition, the applicant must include a sworn statement signed by the chief executive officer of the municipality, county, other governmental unit or agency, or nonprofit community-based organization seeking a refund which states that the building materials for which a refund is sought were funded by a community development block grant, the State Housing Initiatives Partnership Program, or a similar grant or loan program.

4. The person seeking a refund must submit an application for refund to the department within 6 months after the eligible residential unit is deemed to be substantially completed by the local building code inspector or by November 1 after the improved property is first subject to assessment.

5. Only one exemption through a refund of previously paid taxes may be claimed for any eligible residential unit. A refund may not be granted unless the amount to be refunded exceeds $500. A refund may not exceed the lesser of $5,000 or 97.5 percent of the Florida sales or use tax paid on the cost of building materials as determined pursuant to sub-subparagraph 2.e. The department shall issue a refund within 30 days after it formally approves a refund application.

6. The department may adopt rules governing the manner and format of refund applications and may establish guidelines as to the requisites for an affirmative showing of qualification for exemption under this paragraph.

7. This exemption under this paragraph applies to sales of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

building materials that occur on or after July 1, 2023.

Section 13. Subsection (24) is added to section 213.053, Florida Statutes, to read:

213.053 Confidentiality and information sharing.—

(24) The department may make available to the Florida Housing Finance Corporation, exclusively for official purposes, information for the purpose of administering the Live Local Program pursuant to s. 420.50872.

Section 14. Section 215.212, Florida Statutes, is created to read:

215.212 Service charge elimination.—

(1) Notwithstanding s. 215.20(1), the service charge provided in s. 215.20(1) may not be deducted from the proceeds of the taxes distributed under s. 201.15.

(2) This section is repealed July 1, 2033.

Section 15. Paragraph (i) of subsection (1) of section 215.22, Florida Statutes, is amended to read:

215.22 Certain income and certain trust funds exempt.—

(1) The following income of a revenue nature or the following trust funds shall be exempt from the appropriation required by s. 215.20(1):

(i) Bond proceeds or revenues dedicated for bond repayment~~, except for the Documentary Stamp Clearing Trust Fund administered by the Department of Revenue~~.

Section 16. The amendment made by this act to s. 215.22, Florida Statutes, expires on July 1, 2033, and the text of that section shall revert to that in existence on June 30, 2023, except that any amendments to such text enacted other than by this act must be preserved and continue to operate to the extent

that such amendments are not dependent upon the portions of the text which expire pursuant to this section.

Section 17. Subsection (8) of section 220.02, Florida Statutes, is amended to read:

220.02 Legislative intent.—

(8) It is the intent of the Legislature that credits against either the corporate income tax or the franchise tax be applied in the following order: those enumerated in s. 631.828, those enumerated in s. 220.191, those enumerated in s. 220.181, those enumerated in s. 220.183, those enumerated in s. 220.182, those enumerated in s. 220.1895, those enumerated in s. 220.195, those enumerated in s. 220.184, those enumerated in s. 220.186, those enumerated in s. 220.1845, those enumerated in s. 220.19, those enumerated in s. 220.185, those enumerated in s. 220.1875, those enumerated in s. 220.1876, those enumerated in s. 220.1877, those enumerated in s. 220.1878, those enumerated in s. 220.193, those enumerated in s. 288.9916, those enumerated in s. 220.1899, those enumerated in s. 220.194, those enumerated in s. 220.196, those enumerated in s. 220.198, and those enumerated in s. 220.1915.

Section 18. Paragraph (a) of subsection (1) of section 220.13, Florida Statutes, is amended to read:

220.13 "Adjusted federal income" defined.—

(1) The term "adjusted federal income" means an amount equal to the taxpayer's taxable income as defined in subsection (2), or such taxable income of more than one taxpayer as provided in s. 220.131, for the taxable year, adjusted as follows:

(a) *Additions.*—There shall be added to such taxable income:

1. a. The amount of any tax upon or measured by income, excluding taxes based on gross receipts or revenues, paid or accrued as a liability to the District of Columbia or any state of the United States which is deductible from gross income in the computation of taxable income for the taxable year.

b. Notwithstanding sub-subparagraph a., if a credit taken under s. 220.1875, s. 220.1876, ~~or~~ s. 220.1877, or s. 220.1878 is added to taxable income in a previous taxable year under subparagraph 11. and is taken as a deduction for federal tax purposes in the current taxable year, the amount of the deduction allowed shall not be added to taxable income in the current year. The exception in this sub-subparagraph is intended to ensure that the credit under s. 220.1875, s. 220.1876, ~~or~~ s. 220.1877, or s. 220.1878 is added in the applicable taxable year and does not result in a duplicate addition in a subsequent year.

2. The amount of interest which is excluded from taxable income under s. 103(a) of the Internal Revenue Code or any other federal law, less the associated expenses disallowed in the computation of taxable income under s. 265 of the Internal Revenue Code or any other law, excluding 60 percent of any amounts included in alternative minimum taxable income, as defined in s. 55(b)(2) of the Internal Revenue Code, if the taxpayer pays tax under s. 220.11(3).

3. In the case of a regulated investment company or real estate investment trust, an amount equal to the excess of the net long-term capital gain for the taxable year over the amount of the capital gain dividends attributable to the taxable year.

4. That portion of the wages or salaries paid or incurred

for the taxable year which is equal to the amount of the credit allowable for the taxable year under s. 220.181. This subparagraph shall expire on the date specified in s. 290.016 for the expiration of the Florida Enterprise Zone Act.

5. That portion of the ad valorem school taxes paid or incurred for the taxable year which is equal to the amount of the credit allowable for the taxable year under s. 220.182. This subparagraph shall expire on the date specified in s. 290.016 for the expiration of the Florida Enterprise Zone Act.

6. The amount taken as a credit under s. 220.195 which is deductible from gross income in the computation of taxable income for the taxable year.

7. That portion of assessments to fund a guaranty association incurred for the taxable year which is equal to the amount of the credit allowable for the taxable year.

8. In the case of a nonprofit corporation which holds a pari-mutuel permit and which is exempt from federal income tax as a farmers' cooperative, an amount equal to the excess of the gross income attributable to the pari-mutuel operations over the attributable expenses for the taxable year.

9. The amount taken as a credit for the taxable year under s. 220.1895.

10. Up to nine percent of the eligible basis of any designated project which is equal to the credit allowable for the taxable year under s. 220.185.

11. Any amount taken as a credit for the taxable year under s. 220.1875, s. 220.1876, ~~or~~ s. 220.1877, or s. 220.1878. The addition in this subparagraph is intended to ensure that the same amount is not allowed for the tax purposes of this state as

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

both a deduction from income and a credit against the tax. This addition is not intended to result in adding the same expense back to income more than once.

12. The amount taken as a credit for the taxable year under s. 220.193.

13. Any portion of a qualified investment, as defined in s. 288.9913, which is claimed as a deduction by the taxpayer and taken as a credit against income tax pursuant to s. 288.9916.

14. The costs to acquire a tax credit pursuant to s. 288.1254(5) that are deducted from or otherwise reduce federal taxable income for the taxable year.

15. The amount taken as a credit for the taxable year pursuant to s. 220.194.

16. The amount taken as a credit for the taxable year under s. 220.196. The addition in this subparagraph is intended to ensure that the same amount is not allowed for the tax purposes of this state as both a deduction from income and a credit against the tax. The addition is not intended to result in adding the same expense back to income more than once.

17. The amount taken as a credit for the taxable year pursuant to s. 220.198.

18. The amount taken as a credit for the taxable year pursuant to s. 220.1915.

Section 19. Paragraph (c) of subsection (1) of section 220.183, Florida Statutes, is amended to read:

220.183 Community contribution tax credit.—

(1) AUTHORIZATION TO GRANT COMMUNITY CONTRIBUTION TAX CREDITS; LIMITATIONS ON INDIVIDUAL CREDITS AND PROGRAM SPENDING.—

(c) The total amount of tax credit which may be granted for all programs approved under this section and ss. 212.08(5)(p) and 624.5105 is $25 ~~$14.5~~ million in the 2023-2024 ~~2022-2023~~ fiscal year and in each fiscal year thereafter for projects that provide housing opportunities for persons with special needs as defined in s. 420.0004 and homeownership opportunities for low-income households or very-low-income households as defined in s. 420.9071 and $4.5 million in the 2022-2023 fiscal year and in each fiscal year thereafter for all other projects.

Section 20. Subsection (2) of section 220.186, Florida Statutes, is amended to read:

220.186 Credit for Florida alternative minimum tax.—

(2) The credit pursuant to this section shall be the amount of the excess, if any, of the tax paid based upon taxable income determined pursuant to s. 220.13(2)(k) over the amount of tax which would have been due based upon taxable income without application of s. 220.13(2)(k), before application of this credit without application of any credit under s. 220.1875, s. 220.1876, ~~or~~ s. 220.1877, or s. 220.1878.

Section 21. Section 220.1878, Florida Statutes, is created to read:

220.1878 Credit for contributions to the Live Local Program.—

(1) For taxable years beginning on or after January 1, 2023, there is allowed a credit of 100 percent of an eligible contribution made to the Live Local Program under s. 420.50872 against any tax due for a taxable year under this chapter after the application of any other allowable credits by the taxpayer. An eligible contribution must be made to the Live Local Program

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

on or before the date the taxpayer is required to file a return pursuant to s. 220.222. The credit granted by this section must be reduced by the difference between the amount of federal corporate income tax, taking into account the credit granted by this section, and the amount of federal corporate income tax without application of the credit granted by this section.

(2) A taxpayer who files a Florida consolidated return as a member of an affiliated group pursuant to s. 220.131(1) may be allowed the credit on a consolidated return basis; however, the total credit taken by the affiliated group is subject to the limitation established under subsection (1).

(3) Section 420.50872 applies to the credit authorized by this section.

(4) If a taxpayer applies and is approved for a credit under s. 420.50872 after timely requesting an extension to file under s. 220.222(2):

(a) The credit does not reduce the amount of tax due for purposes of the department's determination as to whether the taxpayer was in compliance with the requirement to pay tentative taxes under ss. 220.222 and 220.32.

(b) The taxpayer's noncompliance with the requirement to pay tentative taxes shall result in the revocation and rescindment of any such credit.

(c) The taxpayer shall be assessed for any taxes, penalties, or interest due from the taxpayer's noncompliance with the requirement to pay tentative taxes.

Section 22. Paragraph (c) of subsection (2) of section 220.222, Florida Statutes, is amended to read:

220.222 Returns; time and place for filing.—

(2)

(c)1. For purposes of this subsection, a taxpayer is not in compliance with s. 220.32 if the taxpayer underpays the required payment by more than the greater of $2,000 or 30 percent of the tax shown on the return when filed.

2. For the purpose of determining compliance with s. 220.32 as referenced in subparagraph 1., the tax shown on the return when filed must include the amount of the allowable credits taken on the return pursuant to s. 220.1878.

Section 23. Subsection (5) of section 253.034, Florida Statutes, is amended to read:

253.034 State-owned lands; uses.—

(5) Each manager of conservation lands shall submit to the Division of State Lands a land management plan at least every 10 years in a form and manner adopted by rule of the board of trustees and in accordance with s. 259.032. Each manager of conservation lands shall also update a land management plan whenever the manager proposes to add new facilities or make substantive land use or management changes that were not addressed in the approved plan, or within 1 year after the addition of significant new lands. Each manager of nonconservation lands shall submit to the Division of State Lands a land use plan at least every 10 years in a form and manner adopted by rule of the board of trustees. The division shall review each plan for compliance with the requirements of this subsection and the requirements of the rules adopted by the board of trustees pursuant to this section. All nonconservation land use plans, whether for single-use or multiple-use properties, shall be managed to provide the greatest benefit to

the state. Plans for managed areas larger than 1,000 acres shall contain an analysis of the multiple-use potential of the property which includes the potential of the property to generate revenues to enhance the management of the property. In addition, the plan shall contain an analysis of the potential use of private land managers to facilitate the restoration or management of these lands and whether nonconservation lands would be more appropriately transferred to the county or municipality in which the land is located for the purpose of providing affordable multifamily rental housing that meets the criteria of s. 420.0004(3). If a newly acquired property has a valid conservation plan that was developed by a soil and conservation district, such plan shall be used to guide management of the property until a formal land use plan is completed.

(a) State conservation lands shall be managed to ensure the conservation of this ~~the~~ state's plant and animal species and to ensure the accessibility of state lands for the benefit and enjoyment of all people of this ~~the~~ state, both present and future. Each land management plan for state conservation lands shall provide a desired outcome, describe both short-term and long-term management goals, and include measurable objectives to achieve those goals. Short-term goals shall be achievable within a 2-year planning period, and long-term goals shall be achievable within a 10-year planning period. These short-term and long-term management goals shall be the basis for all subsequent land management activities.

(b) Short-term and long-term management goals for state conservation lands shall include measurable objectives for the

following, as appropriate:

1. Habitat restoration and improvement.

2. Public access and recreational opportunities.

3. Hydrological preservation and restoration.

4. Sustainable forest management.

5. Exotic and invasive species maintenance and control.

6. Capital facilities and infrastructure.

7. Cultural and historical resources.

8. Imperiled species habitat maintenance, enhancement, restoration, or population restoration.

(c) The land management plan shall, at a minimum, contain the following elements:

1. A physical description of the land.

2. A quantitative data description of the land which includes an inventory of forest and other natural resources; exotic and invasive plants; hydrological features; infrastructure, including recreational facilities; and other significant land, cultural, or historical features. The inventory shall reflect the number of acres for each resource and feature, when appropriate. The inventory shall be of such detail that objective measures and benchmarks can be established for each tract of land and monitored during the lifetime of the plan. All quantitative data collected shall be aggregated, standardized, collected, and presented in an electronic format to allow for uniform management reporting and analysis. The information collected by the Department of Environmental Protection pursuant to s. 253.0325(2) shall be available to the land manager and his or her assignee.

3. A detailed description of each short-term and long-term

land management goal, the associated measurable objectives, and the related activities that are to be performed to meet the land management objectives. Each land management objective must be addressed by the land management plan, and if practicable, a land management objective may not be performed to the detriment of the other land management objectives.

4. A schedule of land management activities which contains short-term and long-term land management goals and the related measurable objective and activities. The schedule shall include for each activity a timeline for completion, quantitative measures, and detailed expense and manpower budgets. The schedule shall provide a management tool that facilitates development of performance measures.

5. A summary budget for the scheduled land management activities of the land management plan. For state lands containing or anticipated to contain imperiled species habitat, the summary budget shall include any fees anticipated from public or private entities for projects to offset adverse impacts to imperiled species or such habitat, which fees shall be used solely to restore, manage, enhance, repopulate, or acquire imperiled species habitat. The summary budget shall be prepared in such manner that it facilitates computing an aggregate of land management costs for all state-managed lands using the categories described in s. 259.037(3).

(d) Upon completion, the land management plan must be transmitted to the Acquisition and Restoration Council for review. The council shall have 90 days after receipt of the plan to review the plan and submit its recommendations to the board of trustees. During the review period, the land management plan

may be revised if agreed to by the primary land manager and the council taking into consideration public input. The land management plan becomes effective upon approval by the board of trustees.

(e) Land management plans are to be updated every 10 years on a rotating basis. Each updated land management plan must identify any conservation lands under the plan, in part or in whole, that are no longer needed for conservation purposes and could be disposed of in fee simple or with the state retaining a permanent conservation easement.

(f) In developing land management plans, at least one public hearing shall be held in any one affected county.

(g) The Division of State Lands shall make available to the public an electronic copy of each land management plan for parcels that exceed 160 acres in size. The division shall review each plan for compliance with the requirements of this subsection, the requirements of chapter 259, and the requirements of the rules adopted by the board of trustees pursuant to this section. The Acquisition and Restoration Council shall also consider the propriety of the recommendations of the managing entity with regard to the future use of the property, the protection of fragile or nonrenewable resources, the potential for alternative or multiple uses not recognized by the managing entity, and the possibility of disposal of the property by the board of trustees. After its review, the council shall submit the plan, along with its recommendations and comments, to the board of trustees. The council shall specifically recommend to the board of trustees whether to approve the plan as submitted, approve the plan with

modifications, or reject the plan. If the council fails to make a recommendation for a land management plan, the Secretary of Environmental Protection, Commissioner of Agriculture, or executive director of the Fish and Wildlife Conservation Commission or their designees shall submit the land management plan to the board of trustees.

(h) The board of trustees shall consider the land management plan submitted by each entity and the recommendations of the Acquisition and Restoration Council and the Division of State Lands and shall approve the plan with or without modification or reject such plan. The use or possession of any such lands that is not in accordance with an approved land management plan is subject to termination by the board of trustees.

(i)1. State nonconservation lands shall be managed to provide the greatest benefit to the state. State nonconservation lands may be grouped by similar land use types under one land use plan. Each land use plan shall, at a minimum, contain the following elements:

a. A physical description of the land to include any significant natural or cultural resources as well as management strategies developed by the land manager to protect such resources.

b. A desired development outcome.

c. A schedule for achieving the desired development outcome.

d. A description of both short-term and long-term development goals.

e. A management and control plan for invasive nonnative

plants.

f. A management and control plan for soil erosion and soil and water contamination.

g. Measureable objectives to achieve the goals identified in the land use plan.

2. Short-term goals shall be achievable within a 5-year planning period and long-term goals shall be achievable within a 10-year planning period.

3. The use or possession of any such lands that is not in accordance with an approved land use plan is subject to termination by the board of trustees.

4. Land use plans submitted by a manager shall include reference to appropriate statutory authority for such use or uses and shall conform to the appropriate policies and guidelines of the state land management plan.

Section 24. Subsection (1) of section 253.0341, Florida Statutes, is amended to read:

253.0341 Surplus of state-owned lands.—

(1) The board of trustees shall determine which lands, the title to which is vested in the board, may be surplused. For all conservation lands, the Acquisition and Restoration Council shall make a recommendation to the board of trustees, and the board of trustees shall determine whether the lands are no longer needed for conservation purposes. If the board of trustees determines the lands are no longer needed for conservation purposes, it may dispose of such lands by an affirmative vote of at least three members. In the case of a land exchange involving the disposition of conservation lands, the board of trustees must determine by an affirmative vote of

at least three members that the exchange will result in a net positive conservation benefit. For all nonconservation lands, the board of trustees shall determine whether the lands are no longer needed. If the board of trustees determines the lands are no longer needed, it may dispose of such lands by an affirmative vote of at least three members. Local government requests for the state to surplus conservation or nonconservation lands, whether for purchase, ~~or~~ exchange, or any other means of transfer, must ~~shall~~ be expedited throughout the surplusing process. Property jointly acquired by the state and other entities may not be surplused without the consent of all joint owners.

Section 25. Subsection (2) of section 288.101, Florida Statutes, is amended to read:

288.101 Florida Job Growth Grant Fund.—

(2) The department and Enterprise Florida, Inc., may identify projects, solicit proposals, and make funding recommendations to the Governor, who is authorized to approve:

(a) State or local public infrastructure projects to promote:

1. Economic recovery in specific regions of this ~~the~~ state;~~,~~

2. Economic diversification;~~,~~ or

3. Economic enhancement in a targeted industry.

(b) State or local public infrastructure projects to facilitate the development or construction of affordable housing. This paragraph is repealed July 1, 2033.

(c) Infrastructure funding to accelerate the rehabilitation of the Herbert Hoover Dike. The department or the South Florida

Water Management District may enter into agreements, as necessary, with the United States Army Corps of Engineers to implement this paragraph.

(d) ~~(c)~~ Workforce training grants to support programs at state colleges and state technical centers that provide participants with transferable, sustainable workforce skills applicable to more than a single employer, and for equipment associated with these programs. The department shall work with CareerSource Florida, Inc., to ensure programs are offered to the public based on criteria established by the state college or state technical center and do not exclude applicants who are unemployed or underemployed.

Section 26. Section 420.0003, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 420.0003, F.S., for present text.)

420.0003 State housing strategy.—

(1) LEGISLATIVE INTENT.—It is the intent of this act to articulate a state housing strategy that will carry the state toward the goal of ensuring that each Floridian has safe, decent, and affordable housing. This strategy must involve state and local governments working in partnership with communities and the private sector and must involve financial, as well as regulatory, commitment to accomplish this goal.

(2) POLICIES.—

(a) *Housing production and rehabilitation programs.*— Programs to encourage housing production or rehabilitation must be guided by the following general policies, as appropriate for the purpose of the specific program:

1. State and local governments shall provide incentives to encourage the private sector to be the primary delivery vehicle for the development of affordable housing. When possible, state funds should be heavily leveraged to achieve the maximum federal, local, and private commitment of funds and be used to ensure long-term affordability. To the maximum extent possible, state funds should be expended to create new housing stock and be used for repayable loans rather than grants. Local incentives to stimulate private sector development of affordable housing may include establishment of density bonus incentives.

2. State and local governments should consider and implement innovative solutions to housing issues where appropriate. Innovative solutions include, but are not limited to:

a. Utilizing publicly held land to develop affordable housing through state or local land purchases, long-term land leasing, and school district affordable housing programs. To the maximum extent possible, state-owned lands that are appropriate for the development of affordable housing must be made available for that purpose.

b. Community-led planning that focuses on urban infill, flexible zoning, redevelopment of commercial property into mixed-use property, resiliency, and furthering development in areas with preexisting public services, such as wastewater, transit, and schools.

c. Project features that maximize efficiency in land and resource use, such as high density, high rise, and mixed use.

d. Mixed-income projects that facilitate more diverse and successful communities.

e. Modern housing concepts such as manufactured homes, tiny homes, 3D-printed homes, and accessory dwelling units.

3. State funds should be available only to local governments that provide incentives or financial assistance for housing. State funding for housing should not be made available to local governments whose comprehensive plans have been found not in compliance with chapter 163 and who have not entered into a stipulated settlement agreement with the department to bring the plans into compliance. State funds should be made available only for projects consistent with the local government's comprehensive plan.

4. Local governments are encouraged to enter into interlocal agreements, as appropriate, to coordinate strategies and maximize the use of state and local funds.

5. State-funded development should emphasize use of developed land, urban infill, and the transformation of existing infrastructure in order to minimize sprawl, separation of housing from employment, and effects of increased housing on ecological preservation areas. Housing available to the state's workforce should prioritize proximity to employment and services.

(b) *Public-private partnerships.*—Cost-effective public-private partnerships must emphasize production and preservation of affordable housing.

1. Data must be developed and maintained on the affordable housing activities of local governments, community-based organizations, and private developers.

2. The state shall assist local governments and community-based organizations by providing training and technical

assistance.

3. In coordination with local activities and with federal initiatives, the state shall provide incentives for public sector and private sector development of affordable housing.

(c) *Preservation of housing stock.*—The existing stock of affordable housing must be preserved and improved through rehabilitation programs and expanded neighborhood revitalization efforts to promote suitable living environments for individuals and families.

(d) *Unique housing needs.*—The wide range of need for safe, decent, and affordable housing must be addressed, with an emphasis on assisting the neediest persons.

1. State housing programs must promote the self-sufficiency and economic dignity of the people of this state, including elderly persons and persons with disabilities.

2. The housing requirements of special needs populations must be addressed through programs that promote a range of housing options bolstering integration with the community.

3. All housing initiatives and programs must be nondiscriminatory.

4. The geographic distribution of resources must provide for the development of housing in rural and urban areas.

5. The important contribution of public housing to the well-being of citizens in need shall be acknowledged through efforts to continue and bolster existing programs. State and local government funds allocated to enhance public housing must be used to supplement, not supplant, federal support.

(3) IMPLEMENTATION.—The state, in carrying out the strategy articulated in this section, shall have the following duties:

(a) State fiscal resources must be directed to achieve the following programmatic objectives:

1. Effective technical assistance and capacity-building programs must be established at the state and local levels.

2. The Shimberg Center for Housing Studies at the University of Florida shall develop and maintain statewide data on housing needs and production, provide technical assistance relating to real estate development and finance, operate an information clearinghouse on housing programs, and coordinate state housing initiatives with local government and federal programs.

3. The corporation shall maintain a consumer-focused website for connecting tenants with affordable housing.

(b) The long-range program plan of the department must include specific goals, objectives, and strategies that implement the housing policies in this section.

(c) The Shimberg Center for Housing Studies at the University of Florida, in consultation with the department and the corporation, shall perform functions related to the research and planning for affordable housing. Functions must include quantifying affordable housing needs, documenting results of programs administered, and inventorying the supply of affordable housing units made available in this state. The recommendations required in this section and a report of any programmatic modifications made as a result of these policies must be included in the housing report required by s. 420.6075. The report must identify the needs of specific populations, including, but not limited to, elderly persons, persons with disabilities, and persons with special needs, and may recommend

statutory modifications when appropriate.

(d) The Office of Program Policy Analysis and Government Accountability (OPPAGA) shall evaluate affordable housing issues pursuant to the schedule set forth in this paragraph. OPPAGA may coordinate with and rely upon the expertise and research activities of the Shimberg Center for Housing Studies in conducting the evaluations. The analysis may include relevant reports prepared by the Shimberg Center for Housing Studies, the department, the corporation, and the provider of the Affordable Housing Catalyst Program; interviews with the agencies, providers, offices, developers, and other organizations related to the development and provision of affordable housing at the state and local levels; and any other relevant data. When appropriate, each report must recommend policy and statutory modifications for consideration by the Legislature. Each report must be submitted to the President of the Senate and the Speaker of the House of Representatives pursuant to the schedule. OPPAGA shall review and evaluate:

1. By December 15, 2023, and every 5 years thereafter, innovative affordable housing strategies implemented by other states, their effectiveness, and their potential for implementation in this state.

2. By December 15, 2024, and every 5 years thereafter, affordable housing policies enacted by local governments, their effectiveness, and which policies constitute best practices for replication across this state. The report must include a review and evaluation of the extent to which interlocal cooperation is used, effective, or hampered.

3. By December 15, 2025, and every 5 years thereafter,

existing state-level housing rehabilitation, production, preservation, and finance programs to determine their consistency with relevant policies in this section and effectiveness in providing affordable housing. The report must also include an evaluation of the degree of coordination between housing programs of this state, and between state, federal, and local housing activities, and shall recommend improved program linkages when appropriate.

(e) The department and the corporation should conform the administrative rules for each housing program to the policies stated in this section, provided that such changes in the rules are consistent with the statutory intent or requirements for the program. This authority applies only to programs offering loans, grants, or tax credits and only to the extent that state policies are consistent with applicable federal requirements.

Section 27. Subsection (36) of section 420.503, Florida Statutes, is amended to read:

420.503 Definitions.—As used in this part, the term:

(36) "Qualified contract" has the same meaning as in 26 U.S.C. s. 42(h)(6)(F) in effect on the date of the preliminary determination certificate for the low-income housing tax credits for the development that is the subject of the qualified contract request, unless the Internal Revenue Code requires a different statute or regulation to apply to the development. The corporation shall deem a bona fide contract to be a qualified contract at the time the bona fide contract is presented to the owner and the initial ~~second earnest money~~ deposit is deposited in escrow in accordance with the terms of the bona fide contract, and, in such event, the corporation is deemed to have

fulfilled its responsibility to present the owner with a qualified contract.

Section 28. Subsection (3) and paragraph (a) of subsection (4) of section 420.504, Florida Statutes, are amended to read:

420.504 Public corporation; creation, membership, terms, expenses.—

(3) The corporation is a separate budget entity and is not subject to control, supervision, or direction by the department ~~of Economic Opportunity~~ in any manner, including, but not limited to, personnel, purchasing, transactions involving real or personal property, and budgetary matters. The corporation shall consist of a board of directors composed of the Secretary of Economic Opportunity as an ex officio and voting member, or a senior-level agency employee designated by the secretary, one member appointed by the President of the Senate, one member appointed by the Speaker of the House of Representatives, and eight members appointed by the Governor subject to confirmation by the Senate from the following:

(a) One citizen actively engaged in the residential home building industry.

(b) One citizen actively engaged in the banking or mortgage banking industry.

(c) One citizen who is a representative of those areas of labor engaged in home building.

(d) One citizen with experience in housing development who is an advocate for low-income persons.

(e) One citizen actively engaged in the commercial building industry.

(f) One citizen who is a former local government elected

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

official.

(g) Two citizens of the state who are not principally employed as members or representatives of any of the groups specified in paragraphs (a)-(f).

(4)(a) Members of the corporation shall be appointed for terms of 4 years, except that any vacancy shall be filled for the unexpired term. Vacancies on the board shall be filled by appointment by the Governor, the President of the Senate, or the Speaker of the House of Representatives, respectively, depending on who appointed the member whose vacancy is to be filled or whose term has expired.

Section 29. Subsection (30) of section 420.507, Florida Statutes, is amended to read:

420.507 Powers of the corporation.—The corporation shall have all the powers necessary or convenient to carry out and effectuate the purposes and provisions of this part, including the following powers which are in addition to all other powers granted by other provisions of this part:

(30) To prepare and submit to the Secretary of Economic Opportunity a budget request for purposes of the corporation, which request must ~~shall~~, notwithstanding the provisions of chapter 216 and in accordance with s. 216.351, contain a request for operational expenditures and separate requests for other authorized corporation programs. The request must include, for informational purposes, the amount of state funds necessary to use all federal housing funds anticipated to be received by, or allocated to, the state in the fiscal year in order to maximize the production of new, affordable multifamily housing units in this state. The request need not contain information on the

number of employees, salaries, or any classification thereof, and the approved operating budget therefor need not comply with s. 216.181(8)-(10). The secretary may include within the department's budget request the corporation's budget request in the form as authorized by this section.

Section 30. The amendment made by this act to s. 420.507(30), Florida Statutes, expires July 1, 2033, and the text of that subsection shall revert to that in existence on June 30, 2023, except that any amendments to such text enacted other than by this act shall be preserved and continue to operate to the extent that such amendments are not dependent upon the portions of text which expire pursuant to this section.

Section 31. Subsection (10) of section 420.5087, Florida Statutes, is amended to read:

420.5087 State Apartment Incentive Loan Program.—There is hereby created the State Apartment Incentive Loan Program for the purpose of providing first, second, or other subordinated mortgage loans or loan guarantees to sponsors, including for-profit, nonprofit, and public entities, to provide housing affordable to very-low-income persons.

(10) The corporation may prioritize a portion of the program funds set aside under paragraph (3)(d) for persons with special needs as defined in s. 420.0004(13) to provide funding for the development of newly constructed permanent rental housing ~~on a campus~~ that provides housing for persons in foster care or persons aging out of foster care pursuant to s. 409.1451. Such housing shall promote and facilitate access to community-based supportive, educational, and employment services and resources that assist persons aging out of foster care to

successfully transition to independent living and adulthood. The corporation must consult with the Department of Children and Families to create minimum criteria for such housing.

Section 32. Section 420.50871, Florida Statutes, is created to read:

420.50871 Allocation of increased revenues derived from amendments to s. 201.15 made by this act.—Funds that result from increased revenues to the State Housing Trust Fund derived from amendments made to s. 201.15 made by this act must be used annually for projects under the State Apartment Incentive Loan Program under s. 420.5087 as set forth in this section, notwithstanding ss. 420.507(48) and (50) and 420.5087(1) and (3). The Legislature intends for these funds to provide for innovative projects that provide affordable and attainable housing for persons and families working, going to school, or living in this state. Projects approved under this section are intended to provide housing that is affordable as defined in s. 420.0004, notwithstanding the income limitations in s. 420.5087(2). Beginning in the 2023-2024 fiscal year and annually for 10 years thereafter:

(1) The corporation shall allocate 70 percent of the funds provided by this section to issue competitive requests for application for the affordable housing project purposes specified in this subsection. The corporation shall finance projects that:

(a) Both redevelop an existing affordable housing development and provide for the construction of a new development within close proximity to the existing development to be rehabilitated. Each project must provide for building the

new affordable housing development first, relocating the tenants of the existing development to the new development, and then demolishing the existing development for reconstruction of an affordable housing development with more overall and affordable units.

(b) Address urban infill, including conversions of vacant, dilapidated, or functionally obsolete buildings or the use of underused commercial property.

(c) Provide for mixed use of the location, incorporating nonresidential uses, such as retail, office, institutional, or other appropriate commercial or nonresidential uses.

(d) Provide housing near military installations in this state, with preference given to projects that incorporate critical services for servicemembers, their families, and veterans, such as mental health treatment services, employment services, and assistance with transition from active-duty service to civilian life.

(2) From the remaining funds, the corporation shall allocate the funds to issue competitive requests for application for any of the following affordable housing purposes specified in this subsection. The corporation shall finance projects that:

(a) Propose using or leasing public lands. Projects that propose to use or lease public lands must include a resolution or other agreement with the unit of government owning the land to use the land for affordable housing purposes.

(b) Address the needs of young adults who age out of the foster care system.

(c) Meet the needs of elderly persons.

(d) Provide housing to meet the needs in areas of rural

opportunity, designated pursuant to s. 288.0656.

(3) Under any request for application under this section, the corporation shall coordinate with the appropriate state department or agency and prioritize projects that provide for mixed-income developments.

(4) This section does not prohibit the corporation from allocating additional funds to the purposes described in this section. In any fiscal year, if the funds allocated by the corporation to any request for application under subsections (1) and (2) are not fully used after the application and award processes are complete, the corporation may use those funds to supplement any future request for application under this section.

(5) This section is repealed June 30, 2033.

Section 33. The Division of Law Revision is directed to replace the phrase "this act" wherever it occurs in s. 420.50871, Florida Statutes, as created by this act, with the assigned chapter number of this act.

Section 34. Section 420.50872, Florida Statutes, is created to read:

420.50872 Live Local Program.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Annual tax credit amount" means, for any state fiscal year, the sum of the amount of tax credits approved under paragraph (3)(a), including tax credits to be taken under s. 220.1878 or s. 624.51058, which are approved for taxpayers whose taxable years begin on or after January 1 of the calendar year preceding the start of the applicable state fiscal year.

(b) "Eligible contribution" means a monetary contribution

from a taxpayer, subject to the restrictions provided in this section, to the corporation for use in the State Apartment Incentive Loan Program under s. 420.5087. The taxpayer making the contribution may not designate a specific project, property, or geographic area of this state as the beneficiary of the eligible contribution.

(c) "Live Local Program" means the program described in this section whereby eligible contributions are made to the corporation.

(d) "Tax credit cap amount" means the maximum annual tax credit amount that the Department of Revenue may approve for a state fiscal year.

(2) RESPONSIBILITIES OF THE CORPORATION.—The corporation shall:

(a) Expend 100 percent of eligible contributions received under this section for the State Apartment Incentive Loan Program under s. 420.5087. However, the corporation may use up to $25 million of eligible contributions to provide loans for the construction of large-scale projects of significant regional impact. Such projects must include a substantial civic, educational, or health care use and may include a commercial use, any of which must be incorporated within or contiguous to the project property. Such a loan must be made, except as otherwise provided in this subsection, in accordance with the practices and policies of the State Apartment Incentive Loan Program. Such a loan is subject to the competitive application process and may not exceed 25 percent of the total project cost. The corporation must find that the loan provides a unique opportunity for investment alongside local government

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

participation that would enable creation of a significant amount of affordable housing. Projects approved under this section are intended to provide housing that is affordable as defined in s. 420.0004, notwithstanding the income limitations in s. 420.5087(2).

(b) Upon receipt of an eligible contribution, provide the taxpayer that made the contribution with a certificate of contribution. A certificate of contribution must include the taxpayer's name; its federal employer identification number, if available; the amount contributed; and the date of contribution.

(c) Within 10 days after issuing a certificate of contribution, provide a copy to the Department of Revenue.

(3) LIVE LOCAL TAX CREDITS; APPLICATIONS, TRANSFERS, AND LIMITATIONS.—

(a) Beginning in the 2023-2024 fiscal year, the tax credit cap amount is $100 million in each state fiscal year.

(b) Beginning October 1, 2023, a taxpayer may submit an application to the Department of Revenue for an allocation of the tax credit cap for tax credits to be taken under either or both of s. 220.1878 or s. 624.51058.

1. The taxpayer shall specify in the application each tax for which the taxpayer requests a credit and the applicable taxable year. For purposes of s. 220.1878, a taxpayer may apply for a credit to be used for a prior taxable year before the date the taxpayer is required to file a return for that year pursuant to s. 220.222. For purposes of s. 624.51058, a taxpayer may apply for a credit to be used for a prior taxable year before the date the taxpayer is required to file a return for that prior taxable year pursuant to ss. 624.509 and 624.5092. The

Department of Revenue shall approve tax credits on a first-come, first-served basis.

2. Within 10 days after approving or denying an application, the Department of Revenue shall provide a copy of its approval or denial letter to the corporation.

(c) If a tax credit approved under paragraph (b) is not fully used for the specified taxable year for credits under s. 220.1878 or s. 624.51058 because of insufficient tax liability on the part of the taxpayer, the unused amount may be carried forward for a period not to exceed 10 taxable years. For purposes of s. 220.1878, a credit carried forward may be used in a subsequent year after applying the other credits and unused carryovers in the order provided in s. 220.02(8).

(d) A taxpayer may not convey, transfer, or assign an approved tax credit or a carryforward tax credit to another entity unless all of the assets of the taxpayer are conveyed, assigned, or transferred in the same transaction. However, a tax credit under s. 220.1878 or s. 624.51058 may be conveyed, transferred, or assigned between members of an affiliated group of corporations if the type of tax credit under s. 220.1878 or s. 624.51058 remains the same. A taxpayer shall notify the Department of Revenue of its intent to convey, transfer, or assign a tax credit to another member within an affiliated group of corporations. The amount conveyed, transferred, or assigned is available to another member of the affiliated group of corporations upon approval by the Department of Revenue.

(e) Within any state fiscal year, a taxpayer may rescind all or part of a tax credit allocation approved under paragraph (b). The amount rescinded must become available for that state

fiscal year to another eligible taxpayer as approved by the Department of Revenue if the taxpayer receives notice from the Department of Revenue that the rescindment has been accepted by the Department of Revenue. Any amount rescinded under this paragraph must become available to an eligible taxpayer on a first-come, first-served basis based on tax credit applications received after the date the rescindment is accepted by the Department of Revenue.

(f) Within 10 days after approving or denying the conveyance, transfer, or assignment of a tax credit under paragraph (d), or the rescindment of a tax credit under paragraph (e), the Department of Revenue shall provide a copy of its approval or denial letter to the corporation.

(g) For purposes of calculating the underpayment of estimated corporate income taxes under s. 220.34 and tax installment payments for taxes on insurance premiums or assessments under s. 624.5092, the final amount due is the amount after credits earned under s. 220.1878 or s. 624.51058 for contributions to eligible charitable organizations are deducted.

1. For purposes of determining if a penalty or interest under s. 220.34(2)(d)1. will be imposed for underpayment of estimated corporate income tax, a taxpayer may, after earning a credit under s. 220.1878, reduce any estimated payment in that taxable year by the amount of the credit.

2. For purposes of determining if a penalty under s. 624.5092 will be imposed, an insurer, after earning a credit under s. 624.51058 for a taxable year, may reduce any installment payment for such taxable year of 27 percent of the

amount of the net tax due as reported on the return for the preceding year under s. 624.5092(2)(b) by the amount of the credit.

(4) PRESERVATION OF CREDIT.—If any provision or portion of this section, s. 220.1878, or s. 624.51058 or the application thereof to any person or circumstance is held unconstitutional by any court or is otherwise declared invalid, the unconstitutionality or invalidity does not affect any credit earned under s. 220.1878 or s. 624.51058 by any taxpayer with respect to any contribution paid to the Live Local Program before the date of a determination of unconstitutionality or invalidity. The credit must be allowed at such time and in such a manner as if a determination of unconstitutionality or invalidity had not been made, provided that nothing in this subsection by itself or in combination with any other provision of law may result in the allowance of any credit to any taxpayer in excess of $1 of credit for each dollar paid to an eligible charitable organization.

(5) ADMINISTRATION; RULES.—

(a) The Department of Revenue and the corporation may develop a cooperative agreement to assist in the administration of this section, as needed.

(b) The Department of Revenue may adopt rules necessary to administer this section, s. 220.1878, and s. 624.51058, including rules establishing application forms, procedures governing the approval of tax credits and carryforward tax credits under subsection (3), and procedures to be followed by taxpayers when claiming approved tax credits on their returns.

(c) By August 15, 2023, and by each August 15 thereafter,

the Department of Revenue shall determine the 500 taxpayers with the greatest total corporate income or franchise tax due as reported on the taxpayer's return filed pursuant to s. 220.22 during the previous calendar year and notify those taxpayers of the existence of the Live Local Program and the process for obtaining an allocation of the tax credit cap. The Department of Revenue shall confer with the corporation in the drafting of the notification. The Department of Revenue may provide this notification by electronic means.

Section 35. Section 420.5096, Florida Statutes, is created to read:

420.5096 Florida Hometown Hero Program.—

(1) The Legislature finds that individual homeownership is vital to building long-term housing and financial security. With rising home prices, down payment and closing costs are often significant barriers to homeownership for working Floridians. Each person in Florida's hometown workforce is essential to creating thriving communities, and the Legislature finds that the ability of Floridians to reside within the communities in which they work is of great importance. Therefore, the Legislature finds that providing assistance to homebuyers in this state by reducing the amount of down payment and closing costs is a necessary step toward expanding access to homeownership and achieving safe, decent, and affordable housing for all Floridians.

(2) The Florida Hometown Hero Program is created to assist Florida's hometown workforce in attaining homeownership by providing financial assistance to residents to purchase a home as their primary residence. Under the program, a borrower may

apply to the corporation for a loan to reduce the amount of the down payment and closing costs paid by the borrower by a minimum of $10,000 and up to 5 percent of the first mortgage loan, not exceeding $35,000. Loans must be made available at a zero percent interest rate and must be made available for the term of the first mortgage. The balance of any loan is due at closing if the property is sold, refinanced, rented, or transferred, unless otherwise approved by the corporation.

(3) For loans made available pursuant to s. 420.507(23)(a)1. or 2., the corporation may underwrite and make those mortgage loans through the program to persons or families who have household incomes that do not exceed 150 percent of the state median income or local median income, whichever is greater. A borrower must be seeking to purchase a home as a primary residence; a first-time homebuyer and a Florida resident; and employed full-time by a Florida-based employer. The borrower must provide documentation of full-time employment, or full-time status for self-employed individuals, of 35 hours or more per week. The requirement to be a first-time homebuyer does not apply to a borrower who is an active duty servicemember of a branch of the armed forces or the Florida National Guard, as defined in s. 250.01, or a veteran.

(4) Loans made under the Florida Hometown Hero Program may be used for the purchase of manufactured homes, as defined in s. 320.01(2)(b), which were constructed after July 13, 1994; which are permanently affixed to real property in this state, whether owned or leased by the borrower; and which are titled and financed as tangible personal property or as real property.

(5) This program is intended to be evergreen, and

repayments for loans made under this program shall be retained within the program to make additional loans.

Section 36. Subsection (3) is added to section 420.531, Florida Statutes, to read:

420.531 Affordable Housing Catalyst Program.—

(3) The corporation may contract with the entity providing statewide training and technical assistance to provide technical assistance to local governments to establish selection criteria and related provisions for requests for proposals or other competitive solicitations for use or lease of government-owned real property for affordable housing purposes. The entity providing statewide training and technical assistance may develop best practices or other key elements for successful use of public property for affordable housing, in conjunction with technical support provided under subsection (1).

Section 37. Section 420.6075, Florida Statutes, is amended to read:

420.6075 Research and planning for affordable housing; annual housing report.—

(1) The research and planning functions of the department shall include the collection of data on the need for affordable housing in this state and the extent to which that need is being met through federal, state, and local programs, in order to facilitate planning to meet the housing needs in this state and to enable the development of sound strategies and programs for affordable housing. To fulfill this function, the Shimberg Center for Housing Studies ~~Affordable Housing~~ at the University of Florida shall perform the following functions:

(a) Quantify affordable housing needs in this ~~the~~ state by

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

analyzing available data, including information provided through the housing elements of local comprehensive plans, and identify revisions in the housing element data requirements that would result in more uniform, meaningful information being obtained.

(b) Document the results since 1980 of all programs administered by the department which provide for or act as incentives for housing production or improvement. Data on program results must include the number of units produced and the unit cost under each program.

(c) Inventory the supply of affordable housing units made available through federal, state, and local programs. Data on the geographic distribution of affordable units must show the availability of units in each county and municipality.

(2) By December 31 of each year, the Shimberg Center for Housing Studies ~~Affordable Housing~~ shall submit to the Legislature an updated housing report describing the supply of and need for affordable housing. This annual housing report shall include:

(a) A synopsis of training and technical assistance activities and community-based organization housing activities for the year.

(b) A status report on the degree of progress toward meeting the housing objectives of the department’s agency functional plan.

(c) Recommended housing initiatives for the next fiscal year and recommended priorities for assistance to the various target populations within the spectrum of housing need.

(3) The Shimberg Center for Housing Studies ~~Affordable Housing~~ shall:

(a) Conduct research on program options to address the need for affordable housing.

(b) Conduct research on training models to be replicated or adapted to meet the needs of community-based organizations and state and local government staff involved in housing development.

Section 38. Paragraph (a) of subsection (1) of section 553.792, Florida Statutes, is amended to read:

553.792 Building permit application to local government.—

(1)(a) Within 10 days of an applicant submitting an application to the local government, the local government shall advise the applicant what information, if any, is needed to deem the application properly completed in compliance with the filing requirements published by the local government. If the local government does not provide written notice that the applicant has not submitted the properly completed application, the application shall be automatically deemed properly completed and accepted. Within 45 days after receiving a completed application, a local government must notify an applicant if additional information is required for the local government to determine the sufficiency of the application, and shall specify the additional information that is required. The applicant must submit the additional information to the local government or request that the local government act without the additional information. While the applicant responds to the request for additional information, the 120-day period described in this subsection is tolled. Both parties may agree to a reasonable request for an extension of time, particularly in the event of a force majeure or other extraordinary circumstance. The local

government must approve, approve with conditions, or deny the application within 120 days following receipt of a completed application. A local government shall maintain on its website a policy containing procedures and expectations for expedited processing of those building permits and development orders required by law to be expedited.

Section 39. Subsection (7) of section 624.509, Florida Statutes, is amended to read:

624.509 Premium tax; rate and computation.—

(7) Credits and deductions against the tax imposed by this section shall be taken in the following order: deductions for assessments made pursuant to s. 440.51; credits for taxes paid under ss. 175.101 and 185.08; credits for income taxes paid under chapter 220 and the credit allowed under subsection (5), as these credits are limited by subsection (6); the credit allowed under s. 624.51057; the credit allowed under s. 624.51058; all other available credits and deductions.

Section 40. Paragraph (c) of subsection (1) of section 624.5105, Florida Statutes, is amended to read:

624.5105 Community contribution tax credit; authorization; limitations; eligibility and application requirements; administration; definitions; expiration.—

(1) AUTHORIZATION TO GRANT TAX CREDITS; LIMITATIONS.—

(c) The total amount of tax credit which may be granted for all programs approved under this section and ss. 212.08(5)(p) and 220.183 is $25 ~~$14.5~~ million in the 2023-2024 ~~2022-2023~~ fiscal year and in each fiscal year thereafter for projects that provide housing opportunities for persons with special needs as defined in s. 420.0004 or homeownership opportunities for low-

income or very-low-income households as defined in s. 420.9071 and $4.5 million in the 2022-2023 fiscal year and in each fiscal year thereafter for all other projects.

Section 41. Section 624.51058, Florida Statutes, is created to read:

624.51058 Credit for contributions to the Live Local Program.—

(1) For taxable years beginning on or after January 1, 2023, there is allowed a credit of 100 percent of an eligible contribution made to the Live Local Program under s. 420.50872 against any tax due for a taxable year under s. 624.509(1) after deducting from such tax deductions for assessments made pursuant to s. 440.51; credits for taxes paid under ss. 175.101 and 185.08; credits for income taxes paid under chapter 220; and the credit allowed under s. 624.509(5), as such credit is limited by s. 624.509(6). An eligible contribution must be made to the Live Local Program on or before the date the taxpayer is required to file a return pursuant to ss. 624.509 and 624.5092. An insurer claiming a credit against premium tax liability under this section is not required to pay any additional retaliatory tax levied under s. 624.5091 as a result of claiming such credit. Section 624.5091 does not limit such credit in any manner.

(2) Section 420.50872 applies to the credit authorized by this section.

Section 42. The Department of Economic Opportunity's Keys Workforce Housing Initiative, approved by the Administration Commission on June 13, 2018, is considered an exception to the evacuation time constraints of s. 380.0552(9)(a)2., Florida Statutes, by requiring deed-restricted affordable workforce

housing properties receiving permit allocations to agree to evacuate at least 48 hours in advance of hurricane landfall. A comprehensive plan amendment approved by the Department of Economic Opportunity to implement the initiative is hereby valid and the respective local governments may adopt local ordinances or regulations to implement such plan amendment.

Section 43. (1) The Department of Revenue is authorized, and all conditions are deemed met, to adopt emergency rules under s. 120.54(4), Florida Statutes, for the purpose of implementing provisions related to the Live Local Program created by this act. Notwithstanding any other law, emergency rules adopted under this section are effective for 6 months after adoption and may be renewed during the pendency of procedures to adopt permanent rules addressing the subject of the emergency rules.

(2) This section expires July 1, 2026.

Section 44. For the 2023-2024 fiscal year, the sum of $100 million in nonrecurring funds from the General Revenue Fund is appropriated to the Florida Housing Finance Corporation to implement the Florida Hometown Hero Housing Program established in s. 420.5096, Florida Statutes, as created by this act.

Section 45. For the 2023-2024 fiscal year, the sum of $252 million in nonrecurring funds from the Local Government Housing Trust Fund is appropriated in the Grants and Aids - Housing Finance Corporation (HFC) - State Housing Initiatives Partnership (SHIP) Program appropriation category to the Florida Housing Finance Corporation.

Section 46. For the 2023-2024 fiscal year, the sum of $150 million in recurring funds and $109 million in nonrecurring

funds from the State Housing Trust Fund is appropriated in the Grants and Aids - Housing Finance Corporation (HFC) - Affordable Housing Programs appropriation category to the Florida Housing Finance Corporation. The recurring funds are appropriated to implement s. 420.50871, Florida Statutes, as created by this act.

Section 47. For the 2022-2023 fiscal year, the sum of $100 million in nonrecurring funds from the General Revenue Fund is appropriated to the Florida Housing Finance Corporation to implement a competitive assistance loan program for new construction projects in the development pipeline that have not commenced construction and are experiencing verifiable cost increases due to market inflation. These funds are intended to support the corporation’s efforts to maintain the viability of projects in the development pipeline as the unprecedented economic factors coupled with the housing crisis makes it of upmost importance to deliver much-needed affordable housing units in communities in a timely manner. Eligible projects are those that accepted an invitation to enter credit underwriting by the corporation for funding during the period of time of July 1, 2020, through June 30, 2022. The corporation may establish such criteria and application processes as necessary to implement this section. The unexpended balance of funds appropriated to the corporation as of June 30, 2023, shall revert and is appropriated to the corporation for the same purpose for the 2023-2024 fiscal year. Any funds not awarded by December 1, 2023, must be used for the State Apartment Incentive Loan Program under s. 420.5087, Florida Statutes. This section is effective upon becoming a law.

Section 48. The Legislature finds and declares that this act fulfills an important state interest.

Section 49. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon becoming a law, this act shall take effect July 1, 2023.

VOLUSIA COUNTY IRRIGATION NOTES:

1. AUTOMATIC IRRIGATION CONTROLLERS, WHEN UTILIZED, SHALL CONTAIN A FUNCTIONAL RAIN SENSOR DEVICE, CAPABLE OF BEING SET TO ONE MINUTE RUN TIMES, AND BATTERY BACKUP CAPABILITY TO RETAIN PROGRAMMING IN THE EVENT OF A POWER FAILURE.
2. A RAIN SENSOR PLACED ON A STATIONARY STRUCTURE, FREE AND CLEAR OF ANY OVERHEAD OBSTRUCTIONS AND ABOVE THE HEIGHT OF THE SPRINKLER COVERAGE.
3. EQUIPMENT WITH CHECK VALVES USED IN LOW-LYING AREAS TO PREVENT LOW HEAD DRAINAGE.
4. BACKFLOW PREVENTION METHODS AND OTHER PROVISIONS PRESCRIBED IN SECTION 74-42.
5. IRRIGATION DESIGN WITH THE APPROPRIATE UNIFORMITY FOR THE TYPE OF PLANT BEING GROWN AND FOR THE TYPE OF SOIL.
6. IRRIGATION SYSTEM EQUIPMENT INSTALLED AS DESIGNED.
7. IRRIGATION ZONES DIVIDED ACCORDING TO: AVAILABLE FLOW RATE, VEGETATED GROUPINGS (I.E., TURF, SHRUBS, NATIVE PLANTS, ETC.), SPRINKLER TYPES (I.E., SPRINKLERS WITH MATCHING PRECIPITATION RATES) AND SOIL CHARACTERISTICS.
8. SPRAY HEADS AND ROTORS NOT MIXED IN SAME ZONE.
9. DISTRIBUTION EQUIPMENT IN A GIVEN ZONE HAVING MATCHED PRECIPITATION RATES.
10. APPLICATION RATES THAT AVOID RUNOFF AND PERMIT UNIFORM WATER INFILTRATION INTO THE SOIL, CONSIDERING LAND SLOPE, SOIL HYDRAULIC PROPERTIES, VEGETATIVE GROUND COVER AND PREVAILING WINDS.
11. A MINIMUM SEPARATION OF FOUR INCHES BETWEEN DISTRIBUTION EQUIPMENT AND PAVEMENT.
12. A MINIMUM SEPARATION OF 12 INCHES BETWEEN DISTRIBUTION EQUIPMENT AND BUILDINGS AND OTHER VERTICAL STRUCTURES.
13. NO DIRECT SPRAY ONTO WALKWAYS, BUILDINGS, ROADWAYS AND DRIVES.
14. LAWN SPRAY PATTERNS PROVIDING HEAD TO HEAD COVERAGE.
15. WATER CONVEYANCE SYSTEMS WITH A FLOW VELOCITY OF FIVE FEET PER SECOND OR LESS.
16. PIPELINES DESIGNED TO PROVIDE THE SYSTEM WITH THE APPROPRIATE PRESSURE REQUIRED FOR MAXIMUM IRRIGATION UNIFORMITY.
17. PRESSURE REGULATING HEADS.
18. A MAINTENANCE CHECKLIST PROVIDED TO THE PROPERTY OWNER BY THE IRRIGATION CONTRACTOR ACCOMPANIED BY A RECOMMENDED MAINTENANCE SCHEDULE, PROPER IRRIGATION SYSTEM SETTINGS ACCORDING TO SEASON, RECOMMENDATIONS FOR CHECKING RAIN SENSOR DEVICE, FILTER CLEANING RECOMMENDATIONS AND INFORMATION ON THE CURRENT WATER RESTRICTIONS.
19. IRRIGATION SYSTEM DESIGN WILL BE PERMITTED THROUGH VOLUSIA COUNTY.

VOLUSIA COUNTY LANDSCAPE REQUIREMENTS:

1. A HIGH VOLUME IRRIGATION AREA SHALL NOT EXCEED 50 PERCENT OF THE LANDSCAPED AREA. LOW OR MEDIUM VOLUME IRRIGATION AREAS MAY BE UTILIZED IN LIEU OF ANY HIGH VOLUME IRRIGATION AREA.
2. A MEDIUM VOLUME IRRIGATION AREA SHALL NOT EXCEED 25 PERCENT OF THE LANDSCAPED AREA. HOWEVER, THE LANDSCAPED AREA MAY CONTAIN UP TO 75 PERCENT MEDIUM VOLUME IRRIGATION AREA, IF NO HIGH VOLUME IRRIGATION AREA IS UTILIZED ON SITE.
3. A LOW VOLUME IRRIGATION AREA MAY BE UTILIZED FOR AN ENTIRE LANDSCAPED AREA WITH THE EXCEPTION OF NATIVE VEGETATION AREAS REGULATED BY SECTION 50-373(b)(4).
4. IN THE ALTERNATIVE TO (1), (2), AND (3) ABOVE, IF 25 PERCENT OF THE PRE-EXISTING NATIVE VEGETATION IS RETAINED ON SITE, THE REMAINING 75 PERCENT OF THE LANDSCAPED AREA MAY BE A HIGH VOLUME IRRIGATION AREA. FOR ALL PRE-EXISTING NATIVE VEGETATION RETAINED ON A PARCEL:
   - NO SUPPLEMENTAL WATER SHALL BE APPLIED TO THE NATIVE VEGETATION AREA.
   - ONLY HAND PRUNING OF NATIVE VEGETATION IS ALLOWED.
   - MECHANICAL MOWING OR CLEARING IS PROHIBITED.

VOLUSIA COUNTY CONTRACTOR LICENSE REQUIREMENTS:

NO PERSON MAY INSTALL OR REPAIR AN IRRIGATION SYSTEM IN VOLUSIA COUNTY UNLESS THEY POSSESS A VALID IRRIGATION CERTIFICATE OF COMPETENCY FROM THE DEPARTMENT. THE FOLLOWING PERSONS ARE EXEMPTED FROM HAVING TO POSSESS A CERTIFICATE OF COMPETENCY:

- LICENSED FLORIDA WATER WELL CONTRACTORS AND FLORIDA STATE CERTIFIED PLUMING CONTRACTORS.
- FLORIDA STATE REGISTERED PLUMBING CONTRACTORS.
- PROPERTY OWNERS WHO PERSONALLY PERFORM CONSTRUCTION, MAINTENANCE OR REPAIRS ON AN IRRIGATION SYSTEM THAT SERVES HIS OR HER OWNER-OCCUPIED SINGLE FAMILY RESIDENCE.

STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION ROADWAY AND TRAFFIC DESIGN STANDARDS - 2020 / 2021 AND QUALIFIED PRODUCTS LIST

INDEX NO.	DESCRIPTION
102	TEMPORARY EROSION AND SEDIMENT CONTROL
425-010	STRUCTURE BOTTOMS - TYPES J AND P
205	PIPE BACKFILL
425-021	CURB INLET TOPS - TYPES 5 & 6
425-024	CURB INLET TOP - TYPE 9
425-052	DITCH BOTTOM INLETS - TYPES C, D, E AND H
430-022	SIDE DRAIN MITERED END SECTION
520-001	CURB & CURB AND GUTTER

SITE AND GENERAL INFORMATION

1. THE PROPERTY AREA BOUNDARY CONSISTS OF 854,635 SF OR 19.620 ACRES. FOR BOUNDARY AND TOPOGRAPHIC SURVEY REFER TO THE SURVEY PERFORMED BY SLIGER AND ASSOCIATES (SEE SHEET No. 2.1, 2.2, 2.3 & 2.4 OF THESE PLANS).
2. THE EXISTING ZONING IS B-8 (COMMERCIAL) AND A-2 (RURAL AGRICULTURE). THE PROPOSED ZONING IS PBD (PLANNED BUSINESS DEVELOPMENT).
3. THE FLUM IS (1) OPEN SPACE / CONSERVATION, (2) RESIDENTIAL, OFFICE RETAIL AND (3) GENERAL COMMERCIAL.
4. THE TAX PARCEL NUMBERS ARE 412500000221 AND 412500000230.
6. THE EXISTING SITE CONDITION IS UNDEVELOPED. THE FLUCFCS LAND USE IS (191) UNDEVELOPED LAND WITHIN URBAN AREAS.
7. PER THE USDA NATURAL RESOURCES CONSERVATION SERVICE FOR VOLUSIA COUNTY, THE SCS SOILS MAP INDICATES THE SITE CONSISTS OF (1) APOPKA FINE SAND, 0 TO 5 PERCENT SLOPES, (19) DELAND FINE SAND, 0 TO 5 PERCENT SLOPES, (22) ELECTRA FINE SAND, 0 TO 5 PERCENT SLOPES, (23) FARMTON FINE SAND AND (51) POMONA-ST. JOHNS COMPLEX.
8. THE SITE IS LOCATED WITHIN ZONE "X" & "AE" PER FEMA MAP PANEL No. 12127C0194 J, DATED FEBRUARY 19, 2014.
9. ELECTRICAL UTILITY SERVICE WILL BE PROVIDED BY FLORIDA POWER & LIGHT. NATURAL GAS WILL BE PROVIDED BY TECO PEOPLES GAS COMPANY. TELEPHONE, CABLE AND INTERNET SERVICE WILL BE PROVIDED BY AT&T. CABLE TV AND INTERNET CAN ALSO BE PROVIDED BY SPECTRUM.
10. SOLID WASTE WILL BE COLLECTED AND DISPOSED OF BY WASTE PRO, INC.
11. THE SITE IS NOT LOCATED WITHIN THE LIMITS OF A WELLHEAD PROTECTION ZONE AND THERE IS NO ORDINARY HIGH WATER (OHW) LINE WITHIN THE SITE.
12. STORMWATER WILL BE PROVIDED BY INTERCONNECTED EXFILTRATION AND DRY RETENTION PRE-TREATMENT TO WET DETENTION POND SYSTEM.
13. POTABLE WATER AND WASTEWATER UTILITIES PROVIDED BY CITY OF ORMOND BEACH.
14. IRRIGATION SERVICE WILL BE PROVIDED BY PRIVATE WELL.
15. ACCESS WILL BE PROVIDED FROM S.R. 40 (GRANADA BOULEVARD) WITH A RIGHT-IN AND RIGHT-OUT DRIVEWAY. EMERGENCY ACCESS WILL BE PROVIDED BY CONNECTION TO WALGREENS.

SITE DEVELOPMENT USAGE

1. SETBACK:

	BUILDING	LANDSCAPE
FRONT (TYMBER CREEK)	25 FEET	20 FEET
REAR (NORTH)	20 FEET	20 FEET
SIDE (WEST)	10 FEET	20 FEET
SIDE (INTERIOR)	10 FEET	6 FEET
SIDE (CORNER)	20 FEET	6 FEET
MAXIMUM BUILDING HEIGHT		45 FEET

* SECTION 2-36(d) STATES, "HEIGHT LIMITS MAY EXCEED THAT ALLOWED BY DISTRICT REGULATIONS BY A MAXIMUM FIFTEEN FEET (15'), PROVIDED THAT THE STRUCTURE IS LOCATED AS TO NOT HAVE AN ADVERSE IMPACT ON ADJOINING PROPERTIES, PARTICULARLY SINGLE-FAMILY HOMES. THIS ADDITIONAL HEIGHT ALLOWANCE WILL NOT BE AWARDED FOR ANY PORTION OF A STRUCTURE LOCATED WITHIN FIFTY FEET (50') OF A SINGLE FAMILY HOME OR FOR A VACANT SITE IN A ZONING DISTRICT DESIGNED PRIMARILY FOR SUCH USE. IN NO CASE SHALL ANY BUILDING HEIGHT EXCEED SEVENTY-FIVE FEET (75') WHEN MEASURED FROM THE AVERAGE MEDIAN LOT ELEVATION TO THE HIGHEST POINT OF ANY STRUCTURE AND/OR ATTACHED SERVICES."

MAXIMUM BUILDING COVERAGE	35%
MAXIMUM IMPERVIOUS LOT COVERAGE	75%

THE B-8 ZONING DISTRICT ALLOWS 10 UNITS PER ACRE. THE LAND USE CATEGORIES ALLOW:
(1) "OPEN SPACE/CONSERVATION" (3.2 ACRES) - 0 UNITS
(2) "RESIDENTIAL, OFFICE RETAIL" (3.2 ACRES) - 48 UNITS
(3) "GENERAL COMMERCIAL" (13.22 ACRES) - 423 UNITS

THE PROPERTY'S LAND USES ALLOW A TOTAL OF 471 UNITS (300 UNITS PROPOSED).
THE UNITS PER ACRE NEED TO BE BASED UPON 16.42 ACRES OR
270 UNITS / 16.42 = 16.44 UNITS PER ACRE

NO STRUCTURE SHALL EXCEED 180 LINEAR FEET IN LENGTH PER LDC SECTION 2-57(22)(f).

2. PROPOSED SITE COVERAGE:

	SQ. FT	ACRE	%
BUILDINGS	120,665	2.770	14.1
PAVEMENT	161,047	3.697	18.8
CONCRETE SIDEWALKS / PADS/ POOL DECK	45,724	1.050	5.4
RESERVED PARKING	11,410	0.262	1.3
EXTERIOR LANDSCAPE	67,254	1.544	7.9
INTERIOR LANDSCAPE	319,004	7.323	37.3
WET DETENTION PONDS	36,353	0.835	4.3
WETLANDS	104,588	2.401	12.2
TOTAL SITE	854,635	19.620	100.0
TOTAL IMPERVIOUS	327,436	7.517	38.3
TOTAL PERVIOUS	527,199	12.103	61.7

3. PARKING REQUIREMENTS

UNIT MIX
1.5 SPACES PER 1 BEDROOM x 114 = 171 SPACES
0.5 SPACES RESERVE PER 1 BEDROOM x 114 = 57 SPACES
2.0 SPACES PER 2 BEDROOM x 144 = 288 SPACES
2.0 SPACES PER 3 BEDROOM x 12 = 24 SPACES
TOTAL REQUIRED PARKING = 540 SPACES

4. PARKING PROVIDED

		%
HANDICAP	11	2.0
STANDARD	489	90.6
RESERVE	40	7.4
TOTAL PARKING PROVIDED	540	100.0

5. BICYCLE PARKING REQUIRED

10% OF TOTAL PARKING = 0.10 x 540 = 54
REQUIRED BICYCLE PARKING = 54 SPACES

6. BICYCLE PARKING PROVIDED

57 BICYCLE SPACES PROVIDED

DRAWING NUMBER

15

PHASE 1 (SITE INFRASTRUCTURE CONSTRUCTION)

1. INSTALL ALL SITE FENCE, TREE BARRICADES AND CONSTRUCTION ENTRANCE.
2. CLEARING AND GRUBBING ENTIRE SITE WITHIN LIMITS OF CONSTRUCTION.
3. EARTHWORK IMPROVEMENTS CONSISTING OF SITE GRADING AND STORMWATER PONDS.
4. INSTALL PUBLIC LIFT STATION AND SANITARY SEWER MAIN, MANHOLES AND SERVICES.
5. INSTALL WATER MAIN, FIRE HYDRANTS, WATER SERVICES AND FIRE SERVICES.
6. INSTALL STORMWATER INLETS, DRAINAGE PIPES, CONTROL STRUCTURES, STORM-TECH EXFILTRATION AND MITERED END SECTIONS.
7. INSTALL SEGMENTAL RETAINING WALL.
8. INSTALL FIRST LIFT OF ASPHALT PAVEMENT CONSISTING OF STABILIZED SUBBASE, BASE AND1 INCH OF ASPHALT PAVEMENT.
9. TYMBER CREEK ROADWAY IMPROVEMENTS CONSISTING OF RIGHT-TURN LANE AND DUEL LEFT TURN LANE EXPANSION.
10. SURVEYOR TO PREPARE AS-BUILTS FOR WATER AND SEWER IMPROVEMENTS.
11. ENGINEER OF RECORD TO PREPARE FDEP WATER AND WASTEWATER CERTIFICATIONS FOR CITY OF ORMOND BEACH APPROVAL. ENGINEER OF RECORD TO SUBMIT FDEP WATER AND WASTEWATER CERTIFICATIONS TO FDEP FOR FINAL APPROVAL.
12. ENGINEER OF RECORD TO CERTIFY TYMBER CREEK ROAD IMPROVEMENTS WITH VOLUSIA COUNTY.

PHASE 2 (CLUBHOUSE, BUILDING 1 & 2)

1. ALL SITE INFRASTRUCTURE IMPROVEMENTS SHALL BE CONSTRUCTED INCLUDING FIRST LIFT OF ASPHALT FOR THE ENTIRE DEVELOPMENT PRIOR TO REQUESTING ANY BUILDING CLEARING FOR OCCUPANCIES.
2. CONSTRUCT CLUBHOUSE AND POOL, BUILDING 1 AND 2 BUILDING IMPROVEMENTS.
3. INSTALL SECOND LIFT OF ASPHALT (1") WITHIN BUILDING PHASE.
4. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
5. INSTALL SIDEWALK CONNECTION TO GRANADA BOULEVARD.
6. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
7. INSTALL PRE-CAST SCREEN WALL.
8. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
9. INSTALL LANDSCAPE, IRRIGATION AND FLOATING FOUNTAIN WITHIN WALGREENS.
10. SURVEYOR TO PREPARE AS-BUILTS FOR THIS BUILDING PHASE.
11. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
12. INSTALL TEMPORARY DUMPSTER.
13. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
14. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
15. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 3 (BUILDING 3)

1. CONSTRUCT BUILDING 3 BUILDING IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (1") WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. INSTALL SIDEWALK CONNECTION TO TYMBER CREEK ROAD.
5. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
6. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
7. INSTALL TEMPORARY DUMPSTER.
8. SURVEYOR TO PREPARE AS-BUILTS FOR THIS BUILDING PHASE.
9. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
10. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
11. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
12. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS A REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 4 (BUILDING 4)

1. CONSTRUCT BUILDING 4 BUILDING IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (1") WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
5. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
6. INSTALL TEMPORARY DUMPSTER.
7. SURVEYOR TO PREPARE AS-BUILTS FOR THIS BUILDING PHASE.
8. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
9. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
10. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
11. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 5 (BUILDING 5, 6, MAINTENANCE BLDG. & TRASH COMPACTOR)

1. CONSTRUCT BUILDING 5, 6, MAINTENANCE BUILDING AND TRASH COMPACTOR IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (1") WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
5. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
6. REMOVE ALL TEMPORARY DUMPSTER'S.
7. SURVEYOR TO PREPARE AS-BUILTS FOR THIS PHASE.
8. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
9. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
10. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
11. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 6 (BUILDING 7, 8 & ENTIRE SITE FINAL RE-INSPECTION)

1. CONSTRUCT BUILDING 7, 8 BUILDING IMPROVEMENTS AND FINAL SITE RE-INSPECTION.
2. INSTALL SECOND LIFT OF ASPHALT (1") WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. IINSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
5. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
6. SURVEYOR TO PREPARE AS-BUILTS FOR THIS PHASE.
7. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
8. INSTALL FLOATING FOUNTAIN IN WET DETENTION POND.
9. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
10. ENGINEER OF RECORD TO CERTIFY STORMWATER SYSTEM WITH SJRWMD.
11. ENGINEER OF RECORD TO CERTIFY FDEP NPDES NOTICE OF TERMINATION.
12. CITY OF ORMOND BEACH PHASE INSPECTION AND RE-INSPECTION OF ENTIRE SITE WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
13. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

CITY OF ORMOND BEACH SPRC NOTE:

THE PHASING OF THE PROJECT MAY BE APPROVED BY SPRC AS A MINOR MODIFICATION TO THE DEVELOPMENT ORDER. THE SPRC MAY ALLOW CERTIFICATE OF OCCUPANCY FOR INDIVIDUAL BUILDINGS THAT ARE COMPLETED IN TERMS OF BUILDING AND SITE IMPROVEMENTS AND THE REMAINDER OF THE SITE IS PROTECTED FOR CONSTRUCTION ACTIVITIES.

SUMMARY OF DRAINAGE:

THE MINIMUM WATER QUALITY TREATMENT VOLUME REQUIRED IS THE GREATER OF 1-INCH OF RUNOFF OVER THE DRAINAGE RETENTION AREA OR 2.5-INCHES OVER THE IMPERVIOUS SURFACE PLUS AN ADDITIONAL 0.5 INCHES FOR ON-LINE STORAGE. AN ADDITIONAL 50% OF THE REQUIRED TREATMENT VOLUME IS REQUIRED FOR DISCHARGE TO OUTSTANDING FLORIDA WATERS. STORMWATER TREATMENT IS PROVIDED BY A DRY POND - STORMTECH EXFILTRATION CHAMBER TO WET POND SYSTEM. THE TREATMENT SYSTEM IS DESIGNED TO ENSURE THE POST DEVELOPMENT DISCHARGE RATE AND VOLUME DOES NOT EXCEED THE PRE-DEVELOPMENT RATE AND VOLUME FOR THE MEAN ANNUAL, 25 YEAR-24 HOUR, AND 100 YEAR-24 HOUR STORM EVENTS.

Design Storm	Rainfall (inches)	Discharge Rate (cfs) North	Discharge Rate (cfs) South	Discharge Rate (cfs) East	Outflow Volume (ft³) North	Outflow Volume (ft³) South	Outflow Volume (ft³) East	Wet Pond Peak Stage (ft)

GENERAL DRAINAGE NOTES:

1. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE TO DRAINAGE SYSTEM AND SHALL RESTORE ANY DAMAGED STRUCTURES.
2. ALL PIPE FROM THE BUILDING DRAINS SHALL BE SMOOTH INTERIOR CORRUGATED EXTERIOR (SICE) HDPE OR PVC SCH 40.
3. ALL STORM PIPE SHALL BE CONSTRUCTED OF HDPE (SICE) PIPE WITH CERTIFIED WATERTIGHT JOINTS BY THE MANUFACTURER. ACCEPTABLE HDPE PIPE SHALL BE HANCOR SUR-LOK WT, ADS SERIES 35, ADS N-12 WITH WT JOINT OR EQUAL.
4. THE CONTRACTOR SHALL SUBMIT SHOP DRAWINGS OF ALL MATERIAL AND STRUCTURES TO THE ENGINEER (NEWKIRK ENGINEERING, INC.) FOR APPROVAL PRIOR TO THE PRECONSTRUCTION MEETING.
5. CONTRACTOR TO PLACE FILTER FABRIC BETWEEN DRAINAGE STRUCTURES AND TOPS TO PREVENT SOIL INTRUSION. THE FABRIC SHALL BE PERIODICALLY CLEANED OF SAND A DEBRIS FABRIC SHALL REMAIN IN PLACE UNTIL PAVING IS COMPLETE.
6. ALL EXISTING STRUCTURES, UNLESS OTHERWISE NOTED TO REMAIN. FENCING TREES, & ETC., WITHIN THE CONSTRUCTION AREA SHALL BE REMOVED AND DISPOSED OF OFFSITE.
7. ALL DRAINAGE STRUCTURES SHALL BE PRE-CAST PER FDOT SPECIFICATIONS.
8. ALL DRAINAGE STRUCTURES AND STORM SEWER PIPES SHALL MEET HEAVY DUTY TRAFFIC (H20) LOADING AND BE INSTALLED ACCORDINGLY PER FDOT STANDARD SPECIFICATIONS AND MANUFACTURES SPECIFICATIONS RESPECTIVELY.
9. ALL DRAINAGE STRUCTURES AND PIPES SHALL BE CLEANED OF SAND AT THE LAST STAGE OF CONSTRUCTION PRIOR TO THE FINAL INSPECTION.
10. ALL STORM INLET GRATES SHALL BE STEEL (TRAFFIC RATED).
11. OVER-EXCAVATE ALL STORM-TECH EXFILTRATION TRENCH AREAS 3-FEET BELOW BOTTOM AND REPLACE SOILS WITH GRANULAR TYPE 'B' SOILS.

1. INSTALL ALL TREE PROTECTION BARRIERS PRIOR TO CONSTRUCTION. LOCATION OF ALL TREE PROTECTION MUST BE APPROVED BY ISA CERTIFIED ARBORIST AND CITY OF NEW SMYRNA BEACH PRIOR TO CONSTRUCTION.
2. ROOT PRUNING METHODS AND MEANS MUST BE IN ACCORDANCE WITH ANSI A300.
3. ROOT PRUNING SHALL BE CONDUCTED WITH THE SUPERVISION OF AN ISA CERTIFIED ARBORIST.
4. ALL ROOT PRUNING MUST BE MADE CLEANLY WITH A SHARP ROOT PRUNING TOOL (SUCH AS A DOSKO OR VERMEER ROOT MECHANICAL ROOT PRUNER EQUIPMENT.
4. ROOTS OVER 1.5" DIAMETER SHALL HAVE A CLEAN CUT MADE BY A CLEAN SAW ON THE SURFACE OF THE ROOT; WHICH IS STILL ATTACHED TO THE TREE. DO NOT PAINT THE CUT ROOT END. IF EXCAVATION IS FOR INSTALLATION OF UNDERGROUND UTILITIES AND DRAINAGE AND ROOTS ARE BROKEN OR CHOPPED; THEN ALL ROOTS SHALL BE CLEANED SAW AT CHOPPED OR BROKEN POINT.

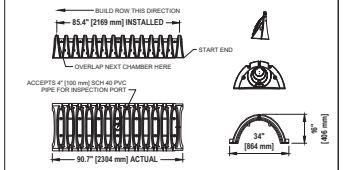
CONNECTION DETAIL
NTS



ACCEPTABLE FILL MATERIALS: STORMTECH SC-740 AND SC-310 CHAMBER SYSTEMS

MATERIAL LOCATION	DESCRIPTION	AASHTO M43 DESIGNATION[1]	COMPACTION/DENSITY REQUIREMENT
D	FILL MATERIAL FOR LAYER D STARTS FROM THE TOP OF THE C LAYER TO THE BOTTOM OF FLEXIBLE PAVEMENT OR UNPAVED FINISH GRADE ABOVE. NOTE THAT PAVEMENT SUB-BASE MAY BE PART OF THIS LAYER.	N/A	PREPARE PER ENGINEER'S PLANS. PAVED INSTALLATIONS MAY HAVE STRINGENT MATERIAL AND PREPARATION REQUIREMENTS.
C	FILL MATERIAL FOR LAYER C STARTS FROM THE TOP OF THE EMBEDMENT STONE (B LAYER) TO 18" [457 mm] ABOVE THE TOP OF THE CHAMBER. NOTE THAT PAVEMENT SUB-BASE MAY BE A PART OF THIS LAYER.	3, 357, 4, 467, 5, 56, 57, 6, 67, 68, 7, 78, 8, 89, 9, 10	BEGIN COMPACTION AFTER 12" [305 mm] OF MATERIAL OVER THE CHAMBERS IS REACHED. COMPACT ADDITIONAL LAYERS IN 6" [152 mm] LIFTS TO A MIN. 95% STANDARD PROCTOR DENSITY [2]. ROLLER GROSS VEHICLE WEIGHT NOT TO EXCEED 12,000 lbs [53 kN]. DYNAMIC FORCE NOT TO EXCEED 20,000 lbs [89 kN].
B	EMBEDMENT STONE SURROUNDING THE CHAMBERS FROM THE FOUNDATION STONE (A LAYER) TO THE C LAYER ABOVE.	3, 357, 4, 467, 5, 56, 57	NO COMPACTION REQUIRED.
A	FOUNDATION STONE BELOW CHAMBERS FROM THE SUBGRADE UP TO THE FOOT (BOTTOM) OF THE CHAMBER.	CLEAN, CRUSHED, ANGULAR STONE. NOMINAL SIZE DISTRIBUTION BETWEEN 3/4 - 2 INCH [19 - 51 mm]	3, 35, 4, 467, 5, 56, 57	PLATE COMPACT OR ROLL TO ACHIEVE A 95% STANDARD PROCTOR DENSITY [2].

PLEASE NOTE:
1. THE LISTED AASHTO DESIGNATIONS ARE FOR GRADATIONS ONLY. THE STONE MUST ALSO BE CLEAN, CRUSHED, ANGULAR. FOR EXAMPLE, A SPECIFICATION FOR NO. 4 STONE WOULD STATE: CLEAN, CRUSHED, ANGULAR NO. 4 (AASHTO M43) STONE.
2. AS AN ALTERNATE TO PROCTOR TESTING AND FIELD DENSITY MEASUREMENTS ON OPEN GRADED STONE, STORMTECH COMPACTION REQUIREMENTS ARE MET FOR 'A' LOCATION MATERIALS WHEN PLACED AND COMPACTED IN 9-INCH (MAX) LIFTS USING TWO FULL COVERAGES WITH AN APPROPRIATE COMPACTOR.

NOTE: ALL DIMENSIONS ARE NOMINAL

*FOR THE SC310EPE12B THE 12" [300 mm] STUB LIES BELOW THE BOTTOM OF THE END CAP APPROXIMATELY 0.25" [6 mm]. BACKFILL MATERIAL SHOULD BE REMOVED FROM BELOW THE N-12 STUB SO THAT THE FITTING SITS LEVEL.

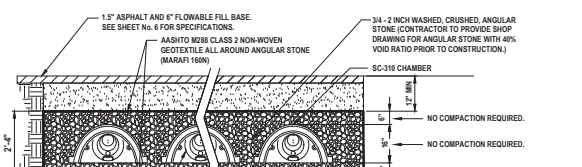
ALL STUBS, EXCEPT FOR THE SC310EPE12B ARE PLACED AT BOTTOM OF END CAP SUCH THAT THE OUTSIDE DIAMETER OF THE STUB IS FLUSH WITH THE BOTTOM OF THE END CAP. FOR ADDITIONAL INFORMATION CONTACT STORMTECH AT 1-888-892-2694.

SC-310 TECHNICAL SPEC.

STORMWATER CHAMBER SPECIFICATIONS

1. CHAMBERS SHALL BE STORMTECH SC-740, SC-310 OR APPROVED EQUAL.
2. CHAMBERS SHALL CONFORM TO THE REQUIREMENTS OF ASTM F2418-05, "STANDARD SPECIFICATION FOR POLYPROPYLENE (PP) CORRUGATED WALL STORMWATER COLLECTION CHAMBERS".
3. CHAMBER ROWS SHALL PROVIDE CONTINUOUS, UNOBSTRUCTED INTERNAL SPACE WITH NO INTERNAL SUPPORT PANELS.
4. THE STRUCTURAL DESIGN OF THE CHAMBERS, THE STRUCTURAL BACKFILL AND THE INSTALLATION REQUIREMENTS SHALL ENSURE THAT THE LOAD FACTORS SPECIFIED IN THE AASHTO LRFD BRIDGE DESIGN SPECIFICATIONS, SECTION 12.12 ARE MET FOR: 1) LONG-DURATION DEAD LOADS AND 2) SHORT-DURATION LIVE LOADS, BASED ON THE AASHTO DESIGN TRUCK WITH CONSIDERATION FOR IMPACT AND MULTIPLE VEHICLE PRESENCE.
5. ONLY CHAMBERS THAT ARE APPROVED BY THE ENGINEER WILL BE ALLOWED. THE CONTRACTOR SHALL SUBMIT (3 SETS) OF THE FOLLOWING TO THE ENGINEER FOR APPROVAL BEFORE DELIVERING CHAMBERS TO THE PROJECT SITE:
   a. A STRUCTURAL EVALUATION BY A REGISTERED STRUCTURAL ENGINEER THAT DEMONSTRATES THAT THE LOAD FACTORS SPECIFIED IN THE AASHTO LRFD BRIDGE DESIGN SPECIFICATIONS, SECTION 12.12 ARE MET. THE 50-YEAR CREEP MODULUS DATA SPECIFIED IN ASTM F2418-05 MUST BE USED AS A PART OF THE AASHTO STRUCTURAL EVALUATION TO VERIFY LONG-TERM PERFORMANCE.
   b. A CERTIFICATION BY THE MANUFACTURER THAT THE CHAMBERS ARE IN ACCORDANCE WITH ASTM F2418-05.
6. CHAMBERS SHALL BE PRODUCED AT AN ISO 9001 CERTIFIED MANUFACTURING FACILITY.
7. ALL DESIGN SPECIFICATIONS FOR CHAMBERS SHALL BE IN ACCORDANCE WITH THE MANUFACTURER'S LATEST DESIGN MANUAL.
8. THE INSTALLATION OF CHAMBERS SHALL BE IN ACCORDANCE WITH THE MANUFACTURER'S LATEST INSTALLATION INSTRUCTIONS.

STORMTECH GENERAL NOTES



1. STORMTECH REQUIRES INSTALLING CONTRACTORS TO USE AND UNDERSTAND STORMTECH'S LATEST INSTALLATION INSTRUCTIONS PRIOR TO BEGINNING SYSTEM INSTALLATION.
2. OUR TECHNICAL SERVICES DEPARTMENT OFFERS INSTALLATION CONSULTATIONS TO INSTALLING CONTRACTORS. CONTACT OUR TECHNICAL SERVICES REPRESENTATIVE AT LEAST 30 DAYS PRIOR TO SYSTEM INSTALLATION TO ARRANGE A PRE-INSTALLATION CONSULTATION. OUR REPRESENTATIVES CAN THEN ANSWER QUESTIONS OR ADDRESS COMMENTS ON THE STORMTECH CHAMBER SYSTEM AND INFORM THE INSTALLING CONTRACTOR OF THE MINIMUM INSTALLATION REQUIREMENTS BEFORE BEGINNING THE SYSTEM'S CONSTRUCTION. CALL **1-888-892-2694** TO SPEAK TO A TECHNICAL SERVICES REPRESENTATIVE OR VISIT **WWW.STORMTECH.COM** TO RECEIVE A COPY OF OUR INSTALLATION INSTRUCTIONS.
3. STORMTECH'S REQUIREMENTS FOR SYSTEMS WITH PAVEMENT DESIGN (ASPHALT, CONCRETE PAVERS, ETC.) MINIMUM COVER IS 18" (457 mm) NOT INCLUDING PAVEMENT; MAXIMUM COVER IS 96" (2438 mm) INCLUDING PAVEMENT. FOR INSTALLATIONS THAT DO NOT INCLUDE PAVEMENT, WHERE RUTTING FROM VEHICLES MAY OCCUR, MINIMUM REQUIRED COVER IS 24" (610 mm), MAXIMUM COVER IS 96" (2438 mm).
4. THE CONTRACTOR MUST REPORT ANY DISCREPANCIES WITH CHAMBER FOUNDATION MATERIALS BEARING CAPACITIES TO THE DESIGN ENGINEER.
5. AASHTO M288 CLASS 2 NON-WOVEN GEOTEXTILE (FILTER FABRIC) MUST BE USED AS INDICATED IN THE PROJECT PLANS.
6. STONE PLACEMENT BETWEEN CHAMBERS ROWS AND AROUND PERIMETER MUST FOLLOW INSTRUCTIONS AS INDICATED IN THE MOST CURRENT VERSION OF STORMTECH'S INSTALLATION INSTRUCTIONS.
7. BACKFILLING OVER THE CHAMBERS MUST FOLLOW REQUIREMENTS AS INDICATED IN THE MOST CURRENT VERSION OF STORMTECH'S INSTALLATION INSTRUCTIONS.
8. THE CONTRACTOR MUST REFER TO STORMTECH'S INSTALLATION INSTRUCTIONS FOR A TABLE OF ACCEPTABLE VEHICLE LOADS AT VARIOUS DEPTHS OF COVER. THIS INFORMATION IS ALSO AVAILABLE AT STORMTECH'S WEBSITE: **WWW.STORMTECH.COM**. THE CONTRACTOR IS RESPONSIBLE FOR PREVENTING VEHICLES THAT EXCEED STORMTECH'S REQUIREMENTS FROM TRAVELING ACROSS OR PARKING OVER THE STORMWATER SYSTEM. TEMPORARY FENCING, WARNING TAPE AND APPROPRIATELY LOCATED SIGNS ARE COMMONLY USED TO PREVENT UNAUTHORIZED VEHICLES FROM ENTERING SENSITIVE CONSTRUCTION AREAS.
9. THE CONTRACTOR MUST APPLY EROSION AND SEDIMENT CONTROL MEASURES TO PROTECT THE STORMWATER SYSTEM DURING ALL PHASES OF SITE CONSTRUCTION PER LOCAL CODES AND DESIGN ENGINEER'S SPECIFICATIONS.
10. STORMTECH PRODUCT WARRANTY IS LIMITED. SEE CURRENT PRODUCT WARRANTY FOR DETAILS. TO ACQUIRE A COPY CALL STORMTECH AT **1-888-892-2694** OR VISIT **WWW.STORMTECH.COM**

INSTALLATION NOTES:

1. **THE CONTRACTOR SHALL BE FAMILIAR AND EXPERIENCED WITH THE PROCEDURES AND INSTALLATION OF SIMILAR TYPE FACILITIES.**
2. **NO SUBSTITUTION OF ALTERNATE MATERIAL IS PERMITTED.**
3. **THE CONTRACTOR SHALL READ AND BECOME FAMILIAR WITH THE STORMTECH "INSTALLATION INSTRUCTIONS" PRIOR TO ANY INSTALLATION WORK.**
4. **THE CONTRACTOR AND ITS CREW MUST ATTEND THE PRECONSTRUCTION MEETING WITH THE ADS REPRESENTATIVE.**
5. **STONE SHALL BE CLEAN, CRUSHED, ANGULAR STONE, NOMINAL SIZE DISTRIBUTION 3/4 - 2 INCH WITH 40% VOID RATIO. CONTRACTOR TO PROVIDE SHOP DRAWING.**
6. **CONTRACTOR TO PROVIDE SHOP DRAWING OF CLASS 1 (MARAFI 180N) AND CLASS 2 (MARAFI 160N) NON-WOVEN FILTER FABRIC OR APPROVED EQUAL.**

STORMTECH STANDARD DETAIL DISCLAIMER
STORMTECH STANDARD DETAILS DEMONSTRATE RECOMMENDATIONS FOR INSTALLATION AND/OR STANDARD DIMENSIONS OF STORMTECH PRODUCTS. STORMTECH DETAILS DO NOT SUPERSEDE ANY STATE OR LOCAL REGULATORY SPECIFICATIONS. IT IS THE RESPONSIBILITY OF THE CONSULTING ENGINEER TO ENSURE COMPLIANCE WITH ALL REGULATORY SPECIFICATIONS. STORMTECH HAS NOT AUTHORIZED, AND IS NOT RESPONSIBLE FOR ANY ALTERATIONS BY OTHERS TO STORMTECH STANDARD DETAILS.

POST-DEVELOPMENT WATER TABLE CALCULATION:

IN THE PRE-DEVELOPED CONDITION ON-SITE GROUNDWATER LEVELS VARY BY 13.9' FROM EL. 18.9 NEAR THE CENTER OF THE SITE TO EL. 5.0 AT THE NORTHERN AREA OF THE SITE WITH THE ADJACENT LITTLE TOMOKA RIVER NORMAL WATER LEVEL AT EL 3.0±. ANALYSIS OF GEOTECHNICAL BORINGS SHOWS THE HIGH WATER TABLE ON SITE IS DUE TO THE PRESENCE OF CONFINING SOIL LAYERS. DESIGN INTENT IS TO DE-WATER THE AREA NATURALLY BY EXCAVATING 340,000± CF OF SOIL FOR THE ON SITE WET POND WITH A CONTROL ELEVATION AT EL. 12.00.

POST-DEVELOPMENT WATER TABLE ELEVATIONS WERE CALCULATED BY DRAWING A LINE CONNECTING KNOWN WATER TABLE ELEVATIONS (SITE WET POND, WALGREENS WET POND, NORTH WET POND, OR SOIL BORING) THROUGH THE PERTINENT STORMWATER FACILITIES. WATER TABLE ELEVATIONS AT POINTS ALONG THE LINE ARE CALCULATED USING STANDARD SLOPE INTERCEPT CALCULATIONS. THE CALCULATED WATER TABLE ELEVATIONS ARE THEN AVERAGED TO PROVIDE THE WATER TABLE ELEVATION FOR EACH SECTION OF STORMWATER FACILITIES.

(SEPARATE SITE PLAN PERMIT)
CITY PERMIT No. PZ-22-038

GENERAL EARTHWORK NOTES:

1. REMOVE ALL ORGANIC OR UNSUITABLE MATERIALS. IF ANY MUCK OR MUCK-LIKE MATERIAL IS DISCOVERED, IT WILL BE REQUIRED TO BE REMOVED, BACKFILLED WITH APPROPRIATE FILL, COMPACTED, AND TESTED USING AASHTO T-180 MODIFIED PROCTOR METHOD.
2. ALL FILLING IS TO BE PERFORMED IN ONE-FOOT LIFTS. THE COMPACTION REQUIREMENT IS 98% FOR PAVED AREAS AND 95% FOR UNPAVED AREAS PER AASHTO T-180 MODIFIED PROCTOR TEST.
3. TEMPORARY FILL STOCKPILING IS NOT PERMITTED IN LIFTS GREATER THAN SIX FEET.
4. SOILS ARE TO BE STABILIZED BY WATER OR OTHER MEANS DURING CONSTRUCTION. THIS IS INTENDED TO REDUCE SOIL EROSION AND THE IMPACT TO NEIGHBORING COMMUNITIES.
5. ONCE AN AREA IS SEEDED OR SODDED, IT MUST BE MAINTAINED TO ALLOW THE GRASS TO GROW.
6. ALL NON-PAVED AREAS MUST BE PLANTED, GRASSED, OR MULCHED.

GENERAL GRADING NOTES:

1. CROSS SLOPES OF ACCESSIBLE PARKING SPACES AND ACCESS AISLE SHALL NOT EXCEED 1:48 IN ACCORDANCE WITH SECTION 502.4 OF FLORIDA ACCESSIBILITY CODE FOR BUILDING CONSTRUCTION (FACBC).
2. THE MAXIMUM ELEVATION CHANGE AT THE ENTRANCE DOOR MAY NOT EXCEED 1/2 INCH.
3. ALL SIDEWALK LANDINGS SHALL HAVE SLOPES NO GREATER THAN 1/4 INCH / 1 FOOT IN MANEUVERING SPACES AT ALL DOORWAYS.
4. ALL SIDEWALKS SHALL HAVE A 1.0% CROSS SLOPE (2.0% MAXIMUM).
5. ALL CURB RAMPS SHALL COMPLY WITH SECTION 406 OF FACBC.
6. ALL IMPROVEMENTS SHALL BE STAKED FOR CONSTRUCTION BY MEANS OF DIGITAL COORDINATES BY SURVEY OR UTILIZING GEODETIC TOTAL STATION. SCALING OF DRAWINGS FOR PURPOSES OF STAKING ARE AT THE SURVEYOR.

BENCHMARK INFORMATION:

Geogrid Installation at Corners

SEGMENTAL RETAINING WALL SPECIFICATIONS:

PART 1: GENERAL

1.01 DESCRIPTION

A. WORK SHALL CONSIST OF FURNISHING AND CONSTRUCTION OF A KEYSTONE COMPAC UNIT RETAINING WALL SYSTEM OR EQUAL IN ACCORDANCE WITH THESE SPECIFICATIONS AND IN REASONABLY CLOSE CONFORMITY WITH THE LINES, GRADES, DESIGN, AND DIMENSIONS SHOWN ON THE PLANS.

B. WORK INCLUDES PREPARING FOUNDATION SOIL, FURNISHING AND INSTALLING LEVELING PAD, UNIT DRAINAGE FILL AND BACKFILL TO THE LINES AND GRADES SHOWN ON THE CONSTRUCTION DRAWINGS.

C. WORK INCLUDES FURNISHING AND INSTALLING GEOGRID SOIL REINFORCEMENT OF THE TYPE, SIZE, LOCATION, AND LENGTHS DESIGNATED ON THE CONSTRUCTION DRAWINGS.

1.02 RELATED SECTIONS

A. SECTION 02300 (31 00 00) - EARTHWORK

1.03 REFERENCE DOCUMENTS

A. AMERICAN SOCIETY FOR TESTING AND MATERIALS (ASTM)

1. ASTM C140 SAMPLING AND TESTING CONCRETE MASONRY UNITS
1. ASTM C1372 SPECIFICATION FOR DRY-CAST SEGMENTAL RETAINING WALL UNITS
2. ASTM D422 PARTICLE-SIZE ANALYSIS OF SOILS
3. ASTM D698 LABORATORY COMPACTION CHARACTERISTICS OF SOIL -STANDARD EFFORT
4. ASTM D1557 LABORATORY COMPACTION CHARACTERISTICS OF SOIL -MODIFIED EFFORT
5. ASTM D3034 POLYVINYL CHLORIDE PIPE (PVC)
6. ASTM D4318 LIQUID LIMIT, PLASTIC LIMIT AND PLASTICITY INDEX OF SOILS
7. ASTM D4475 HORIZONTAL SHEAR STRENGTH OF PULTRUDED REINFORCED PLASTIC RODS
8. ASTM D4476 FLEXURAL PROPERTIES OF FIBER REINFORCED PULTRUDED PLASTIC RODS
9. ASTM D4595 TENSILE PROPERTIES OF GEOTEXTILES - WIDE WIDTH STRIP
10. ASTM D5262 UNCONFINED TENSION CREEP BEHAVIOR OF GEOSYNTHETICS
11. ASTM D5818 EVALUATE INSTALLATION DAMAGE OF GEOSYNTHETICS
12. ASTM D6637 TENSILE PROPERTIES OF GEOGRIDS - SINGLE OR MULTI-RIB
13. ASTM D6638 CONNECTION STRENGTH - REINFORCEMENT/SEGMENTAL UNITS
14. ASTM D6706 GEOSYNTHETIC PULLOUT RESISTANCE IN SOIL
15. ASTM D6916 SHEAR STRENGTH BETWEEN SEGMENTAL CONCRETE UNITS

B. AMERICAN ASSOCIATION OF STATE HIGHWAY AND TRANSPORTATION OFFICIALS (AASHTO)

1. AASHTO M 252 CORRUGATED POLYETHYLENE DRAINAGE PIPE

C. GEOSYNTHETIC RESEARCH INSTITUTE (GRI)

1. GRI-GG4 DETERMINATION OF LONG TERM DESIGN STRENGTH OF GEOGRIDS
2. GRI-GG5 DETERMINATION OF GEOGRID (SOIL) PULLOUT

D. NATIONAL CONCRETE MASONRY ASSOCIATION (NCMA)

1. NCMA SRWU-1 TEST METHOD FOR DETERMINING CONNECTION STRENGTH OF SRW
2. NCMA SRWU-2 TEST METHOD FOR DETERMINING SHEAR STRENGTH OF SRW

1.04 SUBMITTALS/CERTIFICATION

A. CONTRACTOR SHALL SUBMIT A MANUFACTURER'S CERTIFICATION, PRIOR TO START OF WORK, THAT THE RETAINING WALL SYSTEM COMPONENTS MEET THE REQUIREMENTS OF THIS SPECIFICATION AND THE STRUCTURE DESIGN.

B. CONTRACTOR SHALL SUBMIT CONSTRUCTION DRAWINGS AND DESIGN CALCULATIONS FOR THE RETAINING WALL SYSTEM PREPARED AND STAMPED BY A PROFESSIONAL ENGINEER REGISTERED IN THE STATE OF THE PROJECT. THE ENGINEERING DESIGNS, TECHNIQUES, AND MATERIAL EVALUATIONS SHALL BE IN ACCORDANCE WITH THE MANUFACTURER'S DESIGN MANUAL, NCMA DESIGN GUIDELINES FOR SEGMENTAL RETAINING WALLS, OR THE AASHTO STANDARD SPECIFICATIONS FOR HIGHWAY BRIDGES (WHICHEVER IS APPLICABLE TO DESIGNER).

C. CONTRACTOR SHALL SUBMIT A TEST REPORT DOCUMENTING STRENGTH OF SPECIFIC MODULAR CONCRETE UNIT AND GEOGRID REINFORCEMENT CONNECTION. THE MAXIMUM DESIGN TENSILE LOAD OF THE GEOGRID SHALL BE EQUAL TO THE LABORATORY TESTED ULTIMATE STRENGTH OF GEOGRID / FACING UNIT CONNECTION AT A MAXIMUM NORMAL FORCE LIMITED BY THE "HINGE HEIGHT" OF THE STRUCTURE DIVIDED BY A SAFETY FACTOR OF 1.5. THE CONNECTION STRENGTH EVALUATION SHALL BE PERFORMED IN ACCORDANCE WITH ASTM D6638 (NCMA SRWU_1).

1.05 QUALITY ASSURANCE

A. CONTRACTOR SHALL SUBMIT CERTIFICATION, PRIOR TO START OF WORK, THAT THE RETAINING WALL SYSTEM (MODULAR CONCRETE UNITS AND SPECIFIC GEOGRID):

1) HAS BEEN SUCCESSFULLY UTILIZED ON A MINIMUM OF FIVE (5) SIMILAR PROJECTS, I.E., HEIGHT, SOIL FILL TYPES, ERECTION TOLERANCES, ETC.; AND

2) HAS BEEN SUCCESSFULLY INSTALLED ON A MINIMUM OF 1 MILLION (1,000,000) SQUARE FEET OF RETAINING WALLS.

B. CONTRACTOR SHALL SUBMIT A LIST OF FIVE (5) PREVIOUSLY CONSTRUCTED PROJECTS OF SIMILAR SIZE AND MAGNITUDE BY THE WALL INSTALLER WHERE THE SPECIFIC RETAINING WALL SYSTEM HAS BEEN CONSTRUCTED SUCCESSFULLY. CONTACT NAMES AND TELEPHONE NUMBERS SHALL BE LISTED FOR EACH PROJECT.

C. CONTRACTOR SHALL PROVIDE EVIDENCE THAT THE DESIGN ENGINEER HAS A MINIMUM OF FIVE YEARS OF DOCUMENTAL EXPERIENCE IN THE DESIGN FOR REINFORCED SOIL STRUCTURES. THE DESIGN ENGINEER SHALL PROVIDE PROOF OF CURRENT PROFESSIONAL LIABILITY INSURANCE WITH AN AGGREGATE COVERAGE LIMIT OF NOT LESS THAN $2,000,000.

D. OWNER SHALL/MAY PROVIDE SOIL TESTING AND QUALITY ASSURANCE INSPECTION DURING EARTHWORK AND WALL CONSTRUCTION OPERATIONS. CONTRACTOR SHALL PROVIDE ANY QUALITY CONTROL TESTING OR INSPECTION NOT PROVIDED BY THE OWNER. OWNER'S QUALITY ASSURANCE PROGRAM DOES NOT RELIEVE THE CONTRACTOR OF RESPONSIBILITY FOR QUALITY CONTROL AND WALL PERFORMANCE.

1.06 DELIVERY, STORAGE AND HANDLING

A. CONTRACTOR SHALL CHECK ALL MATERIALS UPON DELIVERY TO ASSURE THAT THE PROPER TYPE, GRADE, COLOR, AND CERTIFICATION HAVE BEEN RECEIVED.

B. CONTRACTOR SHALL PROTECT ALL MATERIALS FROM DAMAGE DUE TO JOBSITE CONDITIONS AND IN ACCORDANCE WITH MANUFACTURER'S RECOMMENDATIONS. DAMAGED MATERIALS SHALL NOT BE INCORPORATED INTO THE WORK.

PART 2: PRODUCTS

2.01 DEFINITIONS

A. MODULAR UNIT _ A CONCRETE RETAINING WALL ELEMENT MACHINE MADE FROM PORTLAND CEMENT, WATER, AND AGGREGATES.

B. STRUCTURAL GEOGRID _ A STRUCTURAL ELEMENT FORMED BY A REGULAR NETWORK OF INTEGRALLY CONNECTED TENSILE ELEMENTS WITH APERTURES OF SUFFICIENT SIZE TO ALLOW INTERLOCKING WITH SURROUNDING SOIL, ROCK, OR EARTH AND FUNCTION PRIMARILY AS REINFORCEMENT.

C. UNIT DRAINAGE FILL _ DRAINAGE AGGREGATE, WHICH IS PLACED WITHIN AND IMMEDIATELY BEHIND THE MODULAR CONCRETE UNITS.

D. REINFORCED BACKFILL _ COMPACTED SOIL, WHICH IS PLACED WITHIN THE REINFORCED SOIL VOLUME AS OUTLINED ON THE PLANS.

2.02 MODULAR CONCRETE RETAINING WALL UNITS

A. MODULAR CONCRETE UNITS SHALL CONFORM TO THE FOLLOWING ARCHITECTURAL REQUIREMENTS:

1. FACE COLOR - CONCRETE GRAY, UNLESS OTHERWISE SPECIFIED. THE OWNER MAY SPECIFY STANDARD MANUFACTURERS' COLOR.
2. FACE FINISH _ SCULPTURED ROCK FACE IN ANGULAR TRI-PLANER CONFIGURATION. OTHER FACE FINISHES WILL NOT BE ALLOWED WITHOUT WRITTEN APPROVAL OF OWNER.
3. BOND CONFIGURATION _ RUNNING WITH BONDS NOMINALLY LOCATED AT MIDPOINT VERTICALLY ADJACENT UNITS, IN BOTH STRAIGHT AND CURVED ALIGNMENTS.
4. EXPOSED SURFACES OF UNITS SHALL BE FREE OF CHIPS, CRACKS OR OTHER IMPERFECTIONS WHEN VIEWED FROM A DISTANCE OF 10 FEET UNDER DIFFUSED LIGHTING.

B. MODULAR CONCRETE MATERIALS SHALL CONFORM TO THE REQUIREMENTS OF ASTM C1372 - STANDARD SPECIFICATIONS FOR SEGMENTAL RETAINING WALL UNITS.

C. MODULAR CONCRETE UNITS SHALL CONFORM TO THE FOLLOWING STRUCTURAL AND GEOMETRIC REQUIREMENTS MEASURED IN ACCORDANCE WITH ASTM C140 SAMPLING AND TESTING CONCRETE MASONRY UNITS:

1. COMPRESSIVE STRENGTH: 3000 PSI (21 MPA);
2. ABSORPTION: ≤ 5% (6% IN NORTHERN STATES) FOR STANDARD WEIGHT AGGREGATES;
3. DIMENSIONAL TOLERANCES: ± 1/8" (3 MM) FROM NOMINAL UNIT DIMENSIONS NOT INCLUDING ROUGH SPLIT FACE, ±1/16" (1.5 MM) UNIT HEIGHT - TOP AND BOTTOM PLANES;
4. UNIT SIZE: 8" (203 MM) (H) X 18" (457 MM)(W) X 12" (304 MM)(D) MINIMUM;
5. UNIT WEIGHT: 75-LBS/UNIT (35 KG/UNIT) MINIMUM FOR STANDARD WEIGHT AGGREGATES.

D. MODULAR CONCRETE UNITS SHALL CONFORM TO THE FOLLOWING PERFORMANCE TESTING:

1. INTER_UNIT SHEAR STRENGTH IN ACCORDANCE WITH ASTM D6916 (NCMA SRWU-2): 600-PLF (8 KN/M) MINIMUM AT 3-PSI (13 KPA) NORMAL PRESSURE;
2. GEOGRID/UNIT PEAK CONNECTION STRENGTH IN ACCORDANCE WITH ASTM D6638 (NCMA SRWU-1): 500-PLF (7 KN/M) MINIMUM AT 2-PSI (13 KPA) NORMAL FORCE.

E. MODULAR CONCRETE UNITS SHALL CONFORM TO THE FOLLOWING CONSTRUCTABILITY REQUIREMENTS:

1. VERTICAL SETBACK = 1/8"± (3 MM) PER COURSE (NEAR VERTICAL) OR 1" (25 MM)+ PER COURSE PER THE DESIGN;
2. ALIGNMENT AND GRID POSITIONING MECHANISM _ FIBERGLASS PINS, TWO PER UNIT MINIMUM;
3. MAXIMUM HORIZONTAL GAP BETWEEN ERECTED UNITS SHALL BE 1/2 INCH (13 MM).

2.03 SHEAR CONNECTORS

A. SHEAR CONNECTORS SHALL BE 1/2-INCH (12 MM) DIAMETER THERMOSET ISOPTHALIC POLYESTER RESIN PULTRUDED FIBERGLASS REINFORCEMENT RODS OR EQUIVALENT TO PROVIDE CONNECTION BETWEEN VERTICALLY AND HORIZONTALLY ADJACENT UNITS WITH THE FOLLOWING REQUIREMENTS:

1. FLEXURAL STRENGTH IN ACCORDANCE WITH ASTM D4476: 126,000 PSI (882 MPA) MINIMUM;
2. SHORT BEAM SHEAR IN ACCORDANCE WITH ASTM D4475: 6,400 PSI (44 MPA) MINIMUM.

B. SHEAR CONNECTORS SHALL BE CAPABLE OF HOLDING THE GEOGRID IN THE PROPER DESIGN POSITION DURING GRID PRE_TENSIONING AND BACKFILLING.

2.04 BASE LEVELING PAD MATERIAL

A. MATERIAL SHALL CONSIST OF A COMPACTED CRUSHED STONE BASE OR NON_REINFORCED CONCRETE AS SHOWN ON THE CONSTRUCTION DRAWINGS.

2.05 UNIT DRAINAGE FILL

A. UNIT DRAINAGE FILL SHALL CONSIST OF CLEAN 1" (25 MM) MINUS CRUSHED STONE OR CRUSHED GRAVEL MEETING THE FOLLOWING GRADATION TESTED IN ACCORDANCE WITH ASTM D-422:

SIEVE SIZE	PERCENT PASSING
1 INCH (25 MM)	100
3/4-INCH (19 MM)	75_100
NO. 4	0 _ 10
NO. 50	0 _ 5

B. ONE CUBIC FOOT (0.028 M3), MINIMUM, OF DRAINAGE FILL SHALL BE USED FOR EACH SQUARE FOOT (0.093 M2) OF WALL FACE. DRAINAGE FILL SHALL BE PLACED WITHIN CORES OF, BETWEEN, AND BEHIND UNITS TO MEET THIS REQUIREMENT.

2.06 REINFORCED BACKFILL

A. REINFORCED BACKFILL SHALL BE FREE OF DEBRIS AND MEET THE FOLLOWING GRADATION TESTED IN ACCORDANCE WITH ASTM D-422:

SIEVE SIZE	PERCENT PASSING
2-INCH (50 MM)	100
3/4-INCH (19 MM)	100_75
NO. 40	0_60
NO. 200	0_35

PLASTICITY INDEX (PI) <15 AND LIQUID LIMIT <40 PER ASTM D-4318.

B. THE MAXIMUM AGGREGATE SIZE SHALL BE LIMITED TO 3/4 INCH (19 MM) UNLESS FIELD TESTS HAVE BEEN PERFORMED TO EVALUATE POTENTIAL STRENGTH REDUCTIONS TO THE GEOGRID DESIGN DUE TO DAMAGE DURING CONSTRUCTION.

C. MATERIAL CAN BE SITE-EXCAVATED SOILS WHERE THE ABOVE REQUIREMENTS CAN BE MET. UNSUITABLE SOILS FOR BACKFILL (HIGH PLASTIC CLAYS OR ORGANIC SOILS) SHALL NOT BE USED IN THE BACKFILL OR IN THE REINFORCED SOIL MASS.

D. CONTRACTOR SHALL SUBMIT REINFORCED FILL SAMPLE AND LABORATORY TEST RESULTS TO THE ARCHITECT/ENGINEER FOR APPROVAL PRIOR TO THE USE OF ANY PROPOSED REINFORCED FILL MATERIAL.

2.07 GEOGRID SOIL REINFORCEMENT

A. GEOSYNTHETIC REINFORCEMENT SHALL CONSIST OF GEOGRIDS MANUFACTURED SPECIFICALLY FOR SOIL REINFORCEMENT APPLICATIONS AND SHALL BE MANUFACTURED FROM HIGH TENACITY POLYESTER YARN OR HIGH-DENSITY POLYETHYLENE. POLYESTER GEOGRID SHALL BE KNITTED FROM HIGH TENACITY POLYESTER FILAMENT YARN WITH A MOLECULAR WEIGHT EXCEEDING 25,000 G/M AND A CARBOXYL END GROUP VALUES LESS THAN 30. POLYESTER GEOGRID SHALL BE COATED WITH AN IMPREGNATED PVC COATING THAT RESISTS PEELING, CRACKING, AND STRIPPING.

B. TA, LONG TERM ALLOWABLE TENSILE DESIGN LOAD, OF THE GEOGRID MATERIAL SHALL BE DETERMINED AS FOLLOWS:

TA = TULT / (RFCR*RFD*RFID*FS)
TA SHALL BE EVALUATED BASED ON A 75-YEAR DESIGN LIFE.

1. TULT, SHORT TERM ULTIMATE TENSILE STRENGTH SHALL BE DETERMINED IN ACCORDANCE WITH ASTM D4595 OR ASTM D4837.
TULT IS BASED ON THE MINIMUM AVERAGE ROLL VALUES (MARV).

2. RFCR, REDUCTION FACTOR FOR LONG-TERM TENSION CREEP
RFCR SHALL BE DETERMINED FROM 10,000-HOUR CREEP TESTING PERFORMED IN ACCORDANCE WITH ASTM D5262. REDUCTION VALUE = 1.45 MINIMUM.

3. RFD, REDUCTION FACTOR FOR DURABILITY
RFD SHALL BE DETERMINED FROM POLYMER SPECIFIC DURABILITY TESTING COVERING THE RANGE OF EXPECTED SOIL ENVIRONMENTS. RFD = 1.10 MINIMUM.

4. RFID, REDUCTION FACTOR FOR INSTALLATION DAMAGE
RFID SHALL BE DETERMINED FROM PRODUCT SPECIFIC CONSTRUCTION DAMAGE TESTING PERFORMED IN ACCORDANCE WITH ASTM D5818 (GRI_GG4). TEST RESULTS SHALL BE PROVIDED FOR EACH PRODUCT TO BE USED WITH PROJECT SPECIFIC OR MORE SEVERE SOIL TYPE. RFID = 1.05 MINIMUM.

5. FS, OVERALL DESIGN FACTOR OF SAFETY
FS SHALL BE 1.5 UNLESS OTHERWISE NOTED FOR THE MAXIMUM ALLOWABLE WORKING STRESS CALCULATION.

C. THE MAXIMUM DESIGN TENSILE LOAD OF THE GEOGRID SHALL NOT EXCEED THE LABORATORY TESTED ULTIMATE STRENGTH OF THE GEOGRID/FACING UNIT CONNECTION AS LIMITED BY THE "HINGE HEIGHT" DIVIDED BY A FACTOR OF SAFETY OF 1.5. THE CONNECTION STRENGTH TESTING AND COMPUTATION PROCEDURES SHALL BE IN ACCORDANCE WITH ASTM D6638 CONNECTION STRENGTH BETWEEN GEOSYNTHETIC REINFORCEMENT AND SEGMENTAL CONCRETE UNITS (NCMA SRWU-1).

D. SOIL INTERACTION COEFFICIENT, CI
CI VALUES SHALL BE DETERMINED PER ASTM D6706 (GRI:GG5) AT A MAXIMUM 0.75-INCH (19 MM) DISPLACEMENT.

E. MANUFACTURING QUALITY CONTROL
THE GEOGRID MANUFACTURER SHALL HAVE A MANUFACTURING QUALITY CONTROL PROGRAM THAT INCLUDES QC TESTING BY AN INDEPENDENT LABORATORY.
THE QC TESTING SHALL INCLUDE:
TENSILE STRENGTH TESTING
MELT FLOW INDEX (HDPE)
MOLECULAR WEIGHT (POLYESTER)

2.08 DRAINAGE PIPE

A. IF REQUIRED, THE DRAINAGE PIPE SHALL BE PERFORATED OR SLOTTED PVC PIPE MANUFACTURED IN ACCORDANCE WITH ASTM D-3034 OR CORRUGATED HDPE PIPE MANUFACTURED IN ACCORDANCE WITH AASHTO M252.

2.09 GEOTEXTILE FILTER FABRIC

A. WHEN REQUIRED, GEOTEXTILE FILTER FABRIC SHALL BE 4.0 OZ/SY, POLYPROPYLENE, NEEDLEPUNCHED NONWOVEN FABRIC.

PART 3: EXECUTION

3.01 EXCAVATION

A. CONTRACTOR SHALL EXCAVATE TO THE LINES AND GRADES SHOWN ON THE CONSTRUCTION DRAWINGS. OWNER'S REPRESENTATIVE SHALL INSPECT THE EXCAVATION AND APPROVE PRIOR TO PLACEMENT OF LEVELING MATERIAL OR FILL SOILS. PROOF ROLL FOUNDATION AREA AS DIRECTED TO DETERMINE IF REMEDIAL WORK IS REQUIRED.

B. OVER_EXCAVATION AND REPLACEMENT OF UNSUITABLE FOUNDATION SOILS AND REPLACEMENT WITH APPROVED COMPACTED FILL WILL BE COMPENSATED AS AGREED UPON WITH THE OWNER.

3.02 BASE LEVELING PAD

A. LEVELING PAD MATERIAL SHALL BE PLACED TO THE LINES AND GRADES SHOWN ON THE CONSTRUCTION DRAWINGS, TO A MINIMUM THICKNESS OF 6 INCHES (150 MM) AND EXTEND LATERALLY A MINIMUM OF 6" (150 MM) IN FRONT AND BEHIND THE MODULAR WALL UNIT.

B. SOIL LEVELING PAD MATERIALS SHALL BE COMPACTED TO A MINIMUM OF 95 % STANDARD PROCTOR DENSITY PER ASTM D-698 OR 92% MODIFIED PROCTOR DENSITY PER ASTM D1557.

C. LEVELING PAD SHALL BE PREPARED TO INSURE FULL CONTACT TO THE BASE SURFACE OF THE CONCRETE UNITS.

3.03 MODULAR UNIT INSTALLATION

A. FIRST COURSE OF UNITS SHALL BE PLACED ON THE LEVELING PAD AT THE APPROPRIATE LINE AND GRADE. ALIGNMENT AND LEVEL SHALL BE CHECKED IN ALL DIRECTIONS AND INSURE THAT ALL UNITS ARE IN FULL CONTACT WITH THE BASE AND PROPERLY SEATED.

B. PLACE THE FRONT OF UNITS SIDE-BY-SIDE. DO NOT LEAVE GAPS BETWEEN ADJACENT UNITS. LAYOUT OF CORNERS AND CURVES SHALL BE IN ACCORDANCE WITH MANUFACTURER'S RECOMMENDATIONS.

C. INSTALL SHEAR/CONNECTING DEVICES PER MANUFACTURER'S RECOMMENDATIONS.

D. PLACE AND COMPACT DRAINAGE FILL WITHIN AND BEHIND WALL UNITS. PLACE AND COMPACT BACKFILL SOIL BEHIND DRAINAGE FILL. FOLLOW WALL ERECTION AND DRAINAGE FILL CLOSELY WITH STRUCTURE BACKFILL.

E. MAXIMUM STACKED VERTICAL HEIGHT OF WALL UNITS, PRIOR TO UNIT DRAINAGE FILL AND BACKFILL PLACEMENT AND COMPACTION, SHALL NOT EXCEED TWO COURSES.

3.04 STRUCTURAL GEOGRID INSTALLATION

A. GEOGRID SHALL BE ORIENTED WITH THE HIGHEST STRENGTH AXIS PERPENDICULAR TO THE WALL ALIGNMENT.

B. GEOGRID REINFORCEMENT SHALL BE PLACED AT THE STRENGTHS, LENGTHS, AND ELEVATIONS SHOWN ON THE CONSTRUCTION DESIGN DRAWINGS OR AS DIRECTED BY THE ENGINEER.

C. THE GEOGRID SHALL BE LAID HORIZONTALLY ON COMPACTED BACKFILL AND ATTACHED TO THE MODULAR WALL UNITS. PLACE THE NEXT COURSE OF MODULAR CONCRETE UNITS OVER THE GEOGRID. THE GEOGRID SHALL BE PULLED TAUT, AND ANCHORED PRIOR TO BACKFILL PLACEMENT ON THE GEOGRID.

D. GEOGRID REINFORCEMENTS SHALL BE CONTINUOUS THROUGHOUT THEIR EMBEDMENT LENGTHS AND PLACED SIDE-BY-SIDE TO PROVIDE 100% COVERAGE AT EACH LEVEL. SPLICED CONNECTIONS BETWEEN SHORTER PIECES OF GEOGRID OR GAPS BETWEEN ADJACENT PIECES OF GEOGRID ARE NOT PERMITTED.

3.05 REINFORCED BACKFILL PLACEMENT

A. REINFORCED BACKFILL SHALL BE PLACED, SPREAD, AND COMPACTED IN SUCH A MANNER THAT MINIMIZES THE DEVELOPMENT OF SLACK IN THE GEOGRID AND INSTALLATION DAMAGE.

B. REINFORCED BACKFILL SHALL BE PLACED AND COMPACTED IN LIFTS NOT TO EXCEED 6 INCHES (150 MM) WHERE HAND COMPACTION IS USED, OR 8 _ 10 INCHES (200 TO 250 MM) WHERE HEAVY COMPACTION EQUIPMENT IS USED. LIFT THICKNESS SHALL BE DECREASED TO ACHIEVE THE REQUIRED DENSITY AS REQUIRED.

C. REINFORCED BACKFILL SHALL BE COMPACTED TO A MINIMUM OF 95 % STANDARD PROCTOR DENSITY PER ASTM D-698 OR 92% MODIFIED PROCTOR DENSITY PER ASTM D1557. THE MOISTURE CONTENT OF THE BACKFILL MATERIAL PRIOR TO AND DURING COMPACTION SHALL BE UNIFORMLY DISTRIBUTED THROUGHOUT EACH LAYER AND SHALL BE DRY OF OPTIMUM, + 0%, - 3%.

D. ONLY LIGHTWEIGHT HAND_OPERATED EQUIPMENT SHALL BE ALLOWED WITHIN 3 FEET (1 M) FROM THE TAIL OF THE MODULAR CONCRETE UNIT.

E. TRACKED CONSTRUCTION EQUIPMENT SHALL NOT BE OPERATED DIRECTLY UPON THE GEOGRID REINFORCEMENT. A MINIMUM FILL THICKNESS OF 6 INCHES (150 MM) IS REQUIRED PRIOR TO OPERATION OF TRACKED VEHICLES OVER THE GEOGRID. TRACKED VEHICLE TURNING SHOULD BE KEPT TO A MINIMUM TO PREVENT TRACKS FROM DISPLACING THE FILL AND DAMAGING THE GEOGRID.

F. RUBBER TIRED EQUIPMENT MAY PASS OVER GEOGRID REINFORCEMENT AT SLOW SPEEDS, LESS THAN 10 MPH (15 KPH). SUDDEN BRAKING AND SHARP TURNING SHALL BE AVOIDED.

G. AT THE END OF EACH DAY'S OPERATION, THE CONSTRUCTION SHALL SLOPE THE LAST LIFT OF REINFORCED BACKFILL AWAY FROM THE WALL UNITS TO DIRECT RUNOFF AWAY FROM WALL FACE. THE CONTRACTOR SHALL NOT ALLOW SURFACE RUNOFF FROM ADJACENT AREAS TO ENTER THE WALL CONSTRUCTION SITE.

3.06 CAP INSTALLATION

A. CAP UNITS SHALL BE GLUED TO UNDERLYING UNITS WITH AN ALL-WEATHER ADHESIVE RECOMMENDED BY THE MANUFACTURER.

3.07 AS-BUILT CONSTRUCTION TOLERANCES

A. VERTICAL ALIGNMENT: ± 1.5" (40 MM) OVER ANY 10' (3 M) DISTANCE.

B. WALL BATTER: WITHIN 2 DEGREES OF DESIGN BATTER.

C. HORIZONTAL ALIGNMENT: ± 1.5" (40 MM) OVER ANY 10' (3 M) DISTANCE.
CORNERS, BENDS & CURVES: ± 1 FT (300 MM) TO THEORETICAL LOCATION.

D. MAXIMUM HORIZONTAL GAP BETWEEN ERECTED UNITS SHALL BE 1/2 INCH (13 MM).

3.08 FIELD QUALITY CONTROL

A. QUALITY ASSURANCE - THE OWNER SHALL/MAY ENGAGE INSPECTION AND TESTING SERVICES, INCLUDING INDEPENDENT LABORATORIES, TO PROVIDE QUALITY ASSURANCE AND TESTING SERVICES DURING CONSTRUCTION. THIS DOES NOT RELIEVE THE CONTRACTOR FROM SECURING THE NECESSARY CONSTRUCTION QUALITY CONTROL TESTING.

B. QUALITY ASSURANCE SHOULD INCLUDE FOUNDATION SOIL INSPECTION. VERIFICATION OF GEOTECHNICAL DESIGN PARAMETERS, AND VERIFICATION THAT THE CONTRACTOR'S QUALITY CONTROL TESTING IS ADEQUATE AS A MINIMUM. QUALITY ASSURANCE SHALL ALSO INCLUDE OBSERVATION OF CONSTRUCTION FOR GENERAL COMPLIANCE WITH DESIGN DRAWINGS AND PROJECT SPECIFICATIONS. (QUALITY ASSURANCE IS USUALLY BEST PERFORMED BY THE SITE GEOTECHNICAL ENGINEER.)

C. QUALITY CONTROL - THE CONTRACTOR SHALL ENGAGE INSPECTION AND TESTING SERVICES TO PERFORM THE MINIMUM QUALITY CONTROL TESTING DESCRIBED IN THE RETAINING WALL DESIGN PLANS AND SPECIFICATIONS. ONLY QUALIFIED AND EXPERIENCED TECHNICIANS AND ENGINEERS SHALL PERFORM TESTING AND INSPECTION SERVICES.

D. QUALITY CONTROL TESTING SHALL INCLUDE SOIL AND BACKFILL TESTING TO VERIFY SOIL TYPES AND COMPACTION AND VERIFICATION THAT THE RETAINING WALL IS BEING CONSTRUCTED IN ACCORDANCE WITH THE DESIGN PLANS AND PROJECT SPECIFICATIONS.

LANDSCAPE NOTES:

1. ALL PLANT MATERIAL SHALL CONFORM TO THE STANDARDS FOR FLORIDA #1 OR BETTER AS DESCRIBED IN THE CURRENT "GRADES AND STANDARDS FOR NURSERY PLANTS", STATE OF FLORIDA, DEPARTMENT OF AGRICULTURE, TALLAHASSEE, OR THEIR EQUAL AS DETERMINED BY THE LANDSCAPE ARCHITECT.
2. ALL MULCH SHALL BE ALL NATURAL WOOD (NO CYPRESS).
3. SOD SPECIFIED AS ST. AUGUSTINE "FLORITAM" SHALL BE 95% WEED-FREE. SOD SPECIFIED AS BAHIA SHALL BE 85% WEED-FREE. ALL SOD SHALL BE INSTALLED WITH TIGHT JOINTS, ROLLED AND FERTILIZED.
4. SEED, IF ANY, TO MEET SOUTHERN SEED CERTIFICATION ASSOCIATION.
5. ALL DIMENSIONS SHALL BE FIELD-CHECKED BY THE LANDSCAPE CONTRACTOR PRIOR TO CONSTRUCTION, WITH ANY DISCREPANCIES REPORTED IMMEDIATELY TO THE LANDSCAPE ARCHITECT.
6. THE PLANT MATERIALS SCHEDULE IS PROVIDED FOR THE CONVENIENCE OF THE LANDSCAPE CONTRACTOR; SHOULD THERE BE ANY DISCREPANCY BETWEEN THE PLAN AND THE PLANT LIST, THE PLAN WILL PREVAIL.
7. ALL MATERIALS MUST BE AS SPECIFIED ON THE LANDSCAPE PLAN. IF MATERIALS OR LABOR DO NOT ADHERE TO THE SPECIFICATIONS, THEY WILL BE REJECTED AT NO ADDITIONAL COST TO THE OWNER.
8. NO SUBSTITUTIONS OR CHANGES OF ANY KIND WILL BE ALLOWED AT THE TIME OF BIDDING SO AS TO PROVIDE FOR FAIR COMPARISON.
9. EXISTING IRRIGATION SYSTEM SHALL BE REVAMPED TO PROVIDE 100% COVERAGE.
10. THE CONTRACTOR SHALL VERIFY EXISTENCE AND LOCATION OF ALL EXISTING UTILITIES AND UNDERGROUND CONDITIONS PRIOR TO HIS COMMENCEMENT OF THE ANY WORK.
11. ALL BUILDING MATERIALS AND LABOR SHALL CONFORM TO THE SOUTHERN BUILDING CODE AND ALSO TO ALL LOCAL CODES THAT HAVE JURISDICTION.
12. ALL PERMIT AND VARIANCE APPLICATIONS SHALL BE MADE BY THE CONTRACTOR.
13. PRIOR TO CONSTRUCTION OF PLANTING BEDS, ALL AREAS ARE TO HAVE SOIL TESTS CONDUCTED TO DETERMINE pH AND SOIL FERTILITY. IT IS THE RESPONSIBILITY OF THE LANDSCAPE CONTRACTOR TO AMEND THE SOIL TO MEET ADEQUATE FERTILITY AND pH FOR CORRESPONDING PLANT MATERIAL. ALL TEST RESULTS SHALL BE REPORTED TO THE LANDSCAPE ARCHITECT.
14. EQUIPMENT SHALL BE OPERATED IN A MANNER AS NOT TO INJURE OR DESTROY ANY TREES SHOWN TO REMAIN. CONTRACTOR SHALL NOT CAUSE OR ALLOW THE CLEANING OF EQUIPMENT OR MATERIAL WITHIN THE DRIP LINE OF ANY TREE OR GROUPS OF TREES TO BE RETAINED OR THOSE PROPOSED. NOR SHALL THE CONTRACTOR ALLOW THE DISPOSAL OF WASTE MATERIAL, SUCH AS PAINT, OIL SOLVENTS, ASPHALT, CONCRETE, MORTAR OR ANY OTHER MATERIAL HARMFUL TO THE LIFE OF A TREE WITHIN THE DRIP LINE OF ANY TREE OR GROUP OF TREES. NO ATTACHMENT, WIRES (OTHER THAN PROTECTIVE GUY WIRES), SIGNS, OR PERMITS MAY BE FASTENED TO A TREE.
15. ANY EXISTING TREES CREDITED TOWARDS REQUIRED BUFFERS OR LANDSCAPE REQUIREMENTS REMOVED FOR ANY REASON SHALL BE REPLACED WITH TREES MEETING CITY APPROVAL WITH REGARDS TO SPECIES AND SIZE.
16. ALL QUESTIONS CONCERNING THE PLAN AND/OR SPECIFICATIONS SHALL BE DIRECTED TO THE LANDSCAPE ARCHITECT (386) 872-7794.
17. ALL SHADE TREES AND SINGLE TRUNK UNDERSTORY TREES SHALL BE STAKED USING ARBORGUY STAKING SYSTEM FOR SINGLE STEM TREE AND ALL MULTI-TRUNK UNDERSTORY TREES SHALL BE STAKED WITH ARBORGUY MULTI-TRUNK SYSTEM.
18. ANY CHANGE IN STAKING SYSTEM MUST BE APPROVED IN WRITING BY THE LANDSCAPE ARCHITECT BEFORE BEING INSTALLED.
19. ALL UNIMPROVED AREA NOT OTHERWISE PLANTED OR MULCHED SHALL BE SODDED WITH BAHIA UNLESS OTHERWISE NOTED ON THE LANDSCAPE PLAN.
20. PLANT MATERIAL SHALL BE CLEARLY IDENTIFIED AS FLORIDA #1 OR BETTER ON EITHER LABELS OR INVOICES.
21. ALL PLANT MATERIAL SHALL BE GUARANTEED ONE YEAR AFTER ACCEPTANCE BY OWNER.
22. ALL TREES IN SOD TO BE IN A (4) FOOT MINIMUM-MULCHED RING AROUND.
23. TREES SHALL BE PLANTED SO THAT THE TRUNK FLARE IS EXPOSED AND TOPMOST ROOT IN THE ROOTBALL ORIGINATING FROM THE TRUNK IS AT SOIL SURFACE OR WITHIN THE TOP INCH OF SOIL ON THE ROOTBALL.
24. ALL PLANT SPECIFICATIONS MUST BE MET OR EXCEEDED.
25. PLANT TREE SO THAT ROOTBALL IS 1"-2" ABOVE FINISH GRADE.
26. REMOVAL OF ALL CONSTRUCTION DEBRIS, LIMEROCK, EXCESS OF BUILDERS SAND, CONCRETE AND MORTAR DEBRIS, EXISTING WEEDS AND GRASS, AND ALL FOREIGN MATERIALS IN THE PLANTING BED AND SOD AREAS SHALL BE REMOVED AND A MINIMUM OF 3" OF CLEAN SAND WITH A pH 5.5-6.5 SHALL BE INSTALLED PRIOR TO ANY INSTALLATION OF PLANTS OR TREES.
27. FOR ALL NEW DEVELOPMENT, OR REDEVELOPMENT OF EXISTING PROPERTY, THE APPLICANT SHALL BE REQUIRED TO REMOVE ALL INVASIVE NONNATIVE PLANT SPECIES FROM THE PROPERTY PRIOR TO ISSUANCE OF THE CERTIFICATE OF OCCUPANCY.
28. ALL EXISTING TREES AND PALMS WILL BE PROPERLY PRUNED AND CLEANED OF DEADWOOD, BROKEN BRANCHES, DEAD FROND AND VINES AS NEEDED.
29. PER SECTION 11.01.02.B.4 OF THE LAND DEVELOPMENT CODE, ANY EXPANSION PROJECT SHALL INCLUDE REPLACING PREVIOUSLY PLANTED REQUIRED LANDSCAPING AND REPAIR OF EXISTING IRRIGATION THAT HAS BEEN DAMAGED OR DIED. AS-BUILTS ARE AVAILABLE FROM THE CITY.

Permit Requirements

Property owners who wish to install, expand or substantially modify an irrigation system are required, in advance of such work, to obtain an irrigation permit from the Florida Department of Health in Volusia County. Irrigation installation requirements are described in the following county ordinances:

Landscape Irrigation Ordinance (http://www.volusia.org/services/growth-and-resource-management/environmental-management/pollution-control/waterwise-landscape-irrigation-ordinance/)

Wells, Pumping Facilities & Irrigation Systems - Section 74-31 to 48 County Ordinance (http://volusia.floridahealth.gov/programs-and-services/environmental-health/irrigation-construction/irrigation-forms.html)

We Volusia County Health Department developed an Irrigation Permitting Packet (http://volusia.floridahealth.gov/programs-and-services/environmental-health/irrigation-construction/_documents/irrigation-permit.pdf) in order assist applicants. It includes the application form, a Contractor/Owner Irrigation Self Certification Checklist and a site plan template. Please call our office at 386-274-0694 for more information.

A summary of site specific requirements is as follows:

1. Automatic irrigation controllers, when utilized, shall contain a functional rain sensor device, capable of being set to one minute run times, and battery backup capability to retain programming in the event of a power failure.
2. A rain sensor placed on a stationary structure, free and clear of any overhead obstructions and above the height of the sprinkler coverage.
3. Equipment with check valves used in low-lying areas to prevent low head drainage.
4. Backflow prevention methods and other provisions prescribed in section 74-42.
5. Irrigation design with the appropriate uniformity for the type of plant being grown and for the type of soil.
6. Irrigation system equipment installed as designed.
7. Irrigation zones divided according to: available flow rate, vegetated groupings (i.e., turf, shrubs, native plants, etc.), sprinkler types (i.e., sprinklers with matching precipitation rates) and soil characteristics.
8. Spray heads and rotors not mixed in same zone.
9. Distribution equipment in a given zone having matched precipitation rates.
10. Application rates that avoid runoff and permit uniform water infiltration into the soil, considering land slope, soil hydraulic properties, vegetative ground cover and prevailing winds.
11. A minimum separation of four inches between distribution equipment and pavement.
12. A minimum separation of 12 inches between distribution equipment and buildings and other vertical structures.
13. No direct spray onto walkways, buildings, roadways and drives.
14. Lawn spray patterns providing head to head coverage.
15. Water conveyance systems with a flow velocity of five feet per second or less.
16. Pipelines designed to provide the system with the appropriate pressure required for maximum irrigation uniformity.
17. Pressure regulating heads.
18. A maintenance checklist provided to the property owner by the irrigation contractor accompanied by a recommended maintenance schedule, proper irrigation system settings according to season, recommendations for checking rain sensor device, filter cleaning recommendations and information on the current water restrictions.

Landscape Requirements

1. A high volume irrigation area shall not exceed 50 percent of the landscaped area. Low or medium volume irrigation areas may be utilized in lieu of any high volume irrigation area.
2. A medium volume irrigation area shall not exceed 25 percent of the landscaped area. However, the landscaped area may contain up to 75 percent medium volume irrigation area, if no high volume irrigation area is utilize on site.
3. A low volume irrigation area may be utilized for an entire landscaped area with the exception of native vegetation areas regulated by section 50-373(b)(4).
4. In the alternative to (1), (2), and (3) above, if 25 percent of the pre-existing native vegetation is retained on site, the remaining 75 percent of the landscaped area may be a high volume irrigation area. For all pre-existing native vegetation retained on a parcel:
   - No supplemental water shall be applied to the native vegetation area.
   - Only hand pruning of native vegetation is allowed.
   - Mechanical mowing or clearing is prohibited.

License Requirements

No person may install or repair an irrigation system in Volusia County unless they possess a valid irrigation certificate of competency from the Department. The following persons are exempted from having to possess a certificate of competency:

- Licensed Florida Water Well Contractors and Florida State Certified Pluming Contractors.
- Florida State Registered Plumbing Contractors.
- Property owners who personally perform construction, maintenance or repairs on an irrigation system that serves his or her owner-occupied single family residence.

	STANDARD CONSTRUCTION DETAIL IRRIGATION SYSTEM REQUIREMENTS NTS.	INDEX LS-14A MAY 2020		STANDARD CONSTRUCTION DETAIL IRRIGATION SYSTEM REQUIREMENTS NTS.	INDEX LS-14B MAY 2020

VOLUSIA COUNTY IRRIGATION DESIGN REQUIREMENTS:

1. IRRIGATION SYSTEM TO PROVIDE 1" OF WATER PER WEEK AND TO RUN TWICE A WEEK
2. A HIGH VOLUME IRRIGATION SYSTEM LESS THAN 25 PERCENT.
3. A MEDIUM VOLUME IRRIGATION SYSTEM LESS THAN 25 PERCENT.
4. A LOW VOLUME IRRIGATION SYSTEM 50 PERCENT.

VOLUSIA COUNTY CONTRACTOR LICENSE REQUIREMENTS:

NO PERSON MAY INSTALL OR REPAIR AN IRRIGATION SYSTEM IN VOLUSIA COUNTY UNLESS THEY POSSESS A VALID IRRIGATION CERTIFICATE OF COMPETENCY FROM THE DEPARTMENT. THE FOLLOWING PERSONS ARE EXEMPTED FROM HAVING TO POSSESS A CERTIFICATE OF COMPETENCY:

- LICENSED FLORIDA WATER WELL CONTRACTORS AND FLORIDA STATE CERTIFIED PLUMING CONTRACTORS.
- FLORIDA STATE REGISTERED PLUMBING CONTRACTORS.
- PROPERTY OWNERS WHO PERSONALLY PERFORM CONSTRUCTION, MAINTENANCE OR REPAIRS ON AN IRRIGATION SYSTEM THAT SERVES HIS OR HER OWNER-OCCUPIED SINGLE FAMILY RESIDENCE.

IRRIGATION SCHEDULE:

RUN SYSTEM MONDAY THRU FRIDAY

1. ZONES: 23 , 37 & 51 (BUBBLERS) TO RUN FOR NO MORE THAN 15 MINUTES PER ZONE. (LOW VOLUME)
2. ZONES: 1 - 22 & 24 - 36 TO RUN FOR NO MORE THAN 15 MINUTES PER ZONE. (LOW VOLUME)
3. ZONES: 38 - 50 & 52 - 66 RUN NO MORE THAN 15 MINUTES PER ZONE. (MEDIUM VOLUME)

35-55	2"

PIPE SLEEVE SCHEDULE

PIPE SIZE	SLEEVE SIZE
2 1/2"	6"
1" THRU 2"	4"
1/2" AND 3/4"	3"

NOTE:
AT THE DISCRETION OF THE IRRIGATION CONTRACTOR, THE DIAMETER OF THE SLEEVE PIPE MAY BE REDUCED.

IRRIGATION NOTES:

1. THE CONTRACTOR SHALL VERIFY THE EXISTENCE AND LOCATION OF ALL EXISTING UTILITIES AND CONDITIONS PRIOR TO ITS COMMENCEMENT OF THE IRRIGATION WORK.
2. *CHECK PRESSURE AND GPM OF WATER SUPPLY BEFORE BEGINNING JOB AND REPORT FINDING TO LANDSCAPE ARCHITECT. LANDSCAPE ARCHITECT WILL MAKE ANY ADJUSTMENT NECESSARY TO MAKE SYSTEM WORK AT ITS BEST.*
3. THE PLAN IS SCHEMATIC ONLY. THE CONTRACTOR SHALL INSTALL PIPING IN A MINIMUM NUMBER OF TRENCHES AND SHALL INSTALL PIPE IN A MINIMUM LENGTH.
4. QUANTITIES FOR IRRIGATION MATERIALS ARE NOT GIVEN. THE CONTRACTOR SHALL DETERMINE THIS FROM THE PLAN.
5. INSTALL SLEEVE PIPING WHERE SHOWN ON THE DRAWINGS AT THE PROPER DEPTH.
6. ALL SLEEVE PIPE SHALL BE SCHEDULE 40 PVC PIPE INSTALLED A MINIMUM OF 20" BELOW FINISHED PAVING GRADES.
7. ALL SLEEVES WHEN PLACED IN FIELD ARE TO BE LOCATED BY A METAL PIPE AT EACH END AND LOCATED FROM TWO STATIONARY POINTS BY TAPE MEASUREMENTS.
8. ALL PIPE SHALL BE INSTALLED A MINIMUM OF 20" BELOW GRADE.
9. ALL TRENCHING SHALL BE KEPT OUT OF THE DRIP LINE AREA OF ALL EXISTING TREES. USE RADIAL LINES OR TUNNELING WHEN NECESSARY TO ENCROACH INTO THE DRIP LINE AREA OF TREES.
10. LOCATE ALL VALVES AND OTHER IRRIGATION EQUIPMENT IN PLANT BED AREAS WITHIN THE PROJECT LIMITS FOR CONCEALMENT PURPOSES.
11. RISERS ARE TO BE HIDDEN COMPLETELY IN SHRUBBERY OR PAINTED BLACK AND IN NO CASE BE HIGHER THAN THE SHRUBBERY INSTALLED.
12. ALL PIPE EXPOSED ABOVE GRADE AND TO VIEW SHALL BE SCHEDULE 40 GALVANIZED STEEL PIPE OF THE NOTED SIZE.
13. ALL IRRIGATION EQUIPMENT (PUMP, CONTROLLER, ETC.) SHALL BE PLACED WITHIN FENCED ENCLOSURE.
14. ALL VALVES SHALL BE INSTALLED IN METER TYPE SIZE BOXES EQUAL TO AMETEK POLY-IRON.
15. PROVIDE A 6" GRAVEL SUMP AT THE BOTTOM OF ALL METER BOXES AND INSTALL 1/2" TO 1" DIAMETER GRAVEL AT THE BOTTOM OF THE VALVE PIT.
16. IRRIGATION SHALL MEET ALL APPLICABLE CURRENT MUNICIPAL, COUNTY, STATE OR FEDERAL CODES, ORDINANCES AND REGULATIONS THAT HAVE JURISDICTION.
17. ALL PIPE 1/2" TO 2 1/2" IN SIZE SHALL BE PRESSURE RATED 160 PVC (EXCEPT MAIN).
18. ALL FITTINGS SHALL BE SCHEDULE 40 PVC.
19. ALL SPRAY HEADS ARE TO BE A MINIMUM OF 6" POP-UP AND ALL HEADS IN PLANTING AREAS TO BE 12" POP-UP OR RISERS. RISERS SHALL BE PAINTED GREEN OR BLACK.
20. ELECTRICAL TO CONTROLLER SHALL BE SUPPLIED BY ELECTRICAL CONTRACTOR (NOT IRRIGATION CONTRACTOR).

GENERAL NOTES:

1. THE IRRIGATION CONTRACTOR SHALL BE RESPONSIBLE TO COMPLY WITH THE CITY AND COUNTY WATER WISE ORDINANCE REQUIREMENTS. THE IRRIGATION CONTRACTOR SHALL NOTIFY THE LANDSCAPE ARCHITECT IF THERE ARE ANY DEVIATIONS TO THE DRAWING.
2. IRRIGATION LINES ARE SHOWN DIAGRAMMATICALLY AND ARE INTENDED TO SHOW DISTRIBUTION ZONES ONLY. ALL VALVES SHALL BE LOCATED WITHIN PLANTING AREAS (NOT WITHIN PAVEMENT). LINES LOCATED UNDER PAVEMENT SHALL BE KEPT TO A MINIMUM AND ALL PIPING UNDER PAVED AREAS SHALL BE SLEEVED.
3. WHEN INSTALLING IRRIGATION PIPING IN ISLAND AND OTHER NARROW PLANTING AREAS RUN PIPING CLOSE TO CURB AND NOT DOWN THE MIDDLE OF THE PLANTING AREA. (BEFORE DOING IRRIGATION GET A COPY OF THE LANDSCAPE PLAN AND KEEP IRRIGATION LINES OUT OF PLANTING AREAS WHERE POSSIBLE.)
4. NO SIGNIFICANT IRRIGATION OVERTHROW SHALL BE ALLOWED ONTO IMPERVIOUS SURFACES.
5. 25% OF IRRIGATION IS LOW VOLUME.
6. IRRIGATION HEADS CAN BE INSTALLED NO CLOSER THAN 12" FROM BUILDING FOUNDATION.
7. LANDSCAPE CONTRACTOR TO WATER BAHIA SOD EVERY DAY FOR TWO WEEKS TO HELP ESTABLISH BAHIA SOD.

VOLUSIA COUNTY IRRIGATION NOTES:

1. AUTOMATIC IRRIGATION CONTROLLERS, WHEN UTILIZED, SHALL CONTAIN A FUNCTIONAL RAIN SENSOR DEVICE, CAPABLE OF BEING SET TO ONE MINUTE RUN TIMES, AND BATTERY BACKUP CAPABILITY TO RETAIN PROGRAMMING IN THE EVENT OF A POWER FAILURE.
2. A RAIN SENSOR PLACED ON A STATIONARY STRUCTURE, FREE AND CLEAR OF ANY OVERHEAD OBSTRUCTIONS AND ABOVE THE HEIGHT OF THE SPRINKLER COVERAGE.
3. EQUIPMENT WITH CHECK VALVES USED IN LOW-LYING AREAS TO PREVENT LOW HEAD DRAINAGE.
4. BACKFLOW PREVENTION METHODS AND OTHER PROVISIONS PRESCRIBED IN SECTION 74-42.
5. IRRIGATION DESIGN WITH THE APPROPRIATE UNIFORMITY FOR THE TYPE OF PLANT BEING GROWN AND FOR THE TYPE OF SOIL.
6. IRRIGATION SYSTEM EQUIPMENT INSTALLED AS DESIGNED.
7. IRRIGATION ZONES DIVIDED ACCORDING TO: AVAILABLE FLOW RATE, VEGETATED GROUPINGS (I.E., TURF, SHRUBS, NATIVE PLANTS, ETC.), SPRINKLER TYPES (I.E., SPRINKLERS WITH MATCHING PRECIPITATION RATES) AND SOIL CHARACTERISTICS.
8. SPRAY HEADS AND ROTORS NOT MIXED IN SAME ZONE.
9. DISTRIBUTION EQUIPMENT IN A GIVEN ZONE HAVING MATCHED PRECIPITATION RATES.
10. APPLICATION RATES THAT AVOID RUNOFF AND PERMIT UNIFORM WATER INFILTRATION INTO THE SOIL, CONSIDERING LAND SLOPE, SOIL HYDRAULIC PROPERTIES, VEGETATIVE GROUND COVER AND PREVAILING WINDS.
11. A MINIMUM SEPARATION OF FOUR INCHES BETWEEN DISTRIBUTION EQUIPMENT AND PAVEMENT.
12. A MINIMUM SEPARATION OF 12 INCHES BETWEEN DISTRIBUTION EQUIPMENT AND BUILDINGS AND OTHER VERTICAL STRUCTURES.
13. NO DIRECT SPRAY ONTO WALKWAYS, BUILDINGS, ROADWAYS AND DRIVES.
14. LAWN SPRAY PATTERNS PROVIDING HEAD TO HEAD COVERAGE.
15. WATER CONVEYANCE SYSTEMS WITH A FLOW VELOCITY OF FIVE FEET PER SECOND OR LESS.
16. PIPELINES DESIGNED TO PROVIDE THE SYSTEM WITH THE APPROPRIATE PRESSURE REQUIRED FOR MAXIMUM IRRIGATION UNIFORMITY.
17. PRESSURE REGULATING HEADS.
18. A MAINTENANCE CHECKLIST PROVIDED TO THE PROPERTY OWNER BY THE IRRIGATION CONTRACTOR ACCOMPANIED BY A RECOMMENDED MAINTENANCE SCHEDULE, PROPER IRRIGATION SYSTEM SETTINGS ACCORDING TO SEASON, RECOMMENDATIONS FOR CHECKING RAIN SENSOR DEVICE, FILTER CLEANING RECOMMENDATIONS AND INFORMATION ON THE CURRENT WATER RESTRICTIONS.
19. IRRIGATION SYSTEM DESIGN WILL BE PERMITTED THROUGH VOLUSIA COUNTY.

School Adequate Capacity Determination
Finding of Adequate Capacity Letter

December 16, 2022

Mr. Harry Newkirk
Newkirk Engineering
1230 N US Hwy 1, Suite 3
Ormond Beach, FL 32174

RE : Tymber Creek Apartments – City of Ormond Beach
School Capacity Review #22-11-28-001-A

Dear Mr. Newkirk:

The County Charter requires any Comprehensive Plan Amendment or Rezoning that allows increased residential density to be effective only when adequate public schools can be timely planned and constructed to serve the projected increase in student population. The district uses this requirement as the guiding principle behind the school adequate capacity review.

District staff reviewed the updated information for the proposed Tymber Creek Apartments associated with 19.62+/- acres of property located at or near the intersection of Granada Blvd and N Tymber Creek Rd within Ormond Beach city limits. Proposed project would provide for three hundred (300) multi-family apartment units.

The district uses a county wide Student Generation Rate (SGR) of (0.127) per multi-family dwelling unit to calculate projected students. By applying the SGR to the use types in Table 1 below, the project could generate thirty-nine (39) full time students.

Table 1

UNIT TYPE	SGR	UNIT COUNT	STUDENTS GENERATED
Single Family Dwelling Unit	0.273	0	0
Multifamily Dwelling Unit	0.127	300	39
Manufactured Home Dwelling Unit	0.047	0	0
	Total	**300**	**39**

When performing adequate capacity review district staff evaluates the effects of the proposed change compared to any remaining permanent capacity within the impacted schools, up to 100%, Table 2. The projected increase in student population may be over 100% if there are plans to serve increased student population in that planning area within the long-term planning horizon. A finding of adequate capacity may be issued in either case.

Table 2

Schools	SY 2022/23 Enrollment	% of Permanent Capacity	Plans for Capacity Increase Long-Term	Traditional K-12 students projected
Pathways Elementary	729	114%	No	17
David C. Hinson, Sr. Middle	943	115%	No	10
Halifax CSA (Mainland High)	1,866	105%	No	11
Other				1

The student projections generated by this project **will** increase the existing percentage above 100% permanent capacity at all school levels. However, the level of service (LOS) standard for elementary and middle school is 115% of permanent capacity and 120% for high school concurrency service areas (CSAs). Because of this, the school district has no objections to the proposed development plan. Minimum planning considerations should include pedestrian and vehicular access, safety, connectivity, and buffering.

All future development orders, such as site plans and subdivisions, are subject to school concurrency review. School concurrency will be evaluated at the time when the impact of development is specifically quantified and known. Only funded school improvements and then current capacity will be considered at that time.

No student reservations have been made at this time.

Please note the School Board has the right to adjust the attendance boundaries to balance the student enrollment populations at these area schools. Consequently, students generated from this project may not attend the current assigned schools.

Should you need additional information, please contact me at (386) 947-8786, extension 50709.
Sincerely,

Stephanie B. Doster,
Coordinator, Planning

VOLUSIA COUNTY SCHOOLS

Finding of Adequate School Capacity

VOLUSIA COUNTY SCHOOL BOARD

Project Information	
Project Name	Tymber Creek Apartments
VCSB Project #	**22-11-28-001-A**
Jurisdiction Project #	
Parcel ID Numbers	4125-00-00-0221; 4125-00-00-0230
Project Location	Granada Blvd and N Tymber Creek Rd
Potential Residential Units	300 Multi-Family Apartments
Property Owner/Applicant	Harry Newkirk/Newkirk Engineering
Notes: Additional review will be required at the time of subdivision/site plan submittal(s). No Student Reservations have been made.	

Based upon the Findings of Fact, pursuant to School Board Policy 612 and Section 206 of the County Charter, the school district has determined at this time that school capacity is adequate to serve the proposed increase in residential density. This Finding shall constitute competent substantial evidence that adequate public school capacity is likely to be available at the time it is required to serve the planned new development.

Capacity is <u>not</u> being reserved with this Finding unless otherwise noted on this document. This Finding of Adequate School Capacity allows this subject project to continue through the Comprehensive Plan Amendment and/or rezoning process; however, it may be subject to additional school capacity review in the future.

Hi Susan,

Our internet is out so the best we could do is take screenshots of the text of the petition and the current number of signers. Note, as of 3:30 pm on 1/26/2023 there were 2,333 signers.

It seems people are still signing, as at least two did within the last hour.

Again — here is the link, if you could provide this in the packet, as well, so interested parties can pull up the petition itself to review the details. It's all public.

Petition details Comments Updates

TYMBER CREEK APARTMENTS

2,333 have signed. Let's get to 2,500!

Julie Sipes started this petition to The Mayor and City Commission of Ormond Beach

We have major concerns about the impact of the proposed high-density Tymber Creek Apartments located at the northwest of the intersection of West Granada Boulevard and Tymber Creek Road.

This development is not compatible with adjacent established residential areas of single-family homes and will negatively impact these property owners to the north, east, and west.

We are also concerned about the traffic from such a high-density development.

We request that the density be downsized and only single-family homes be permitted.

Furthermore, we request that Low-Impact Development principles be used, rather than wholesale clear-cutting of trees and large retention ponds. We believe it is important to preserve the natural beauty of the land.

About SB 102 so it sounds like the legislature passed a bill to override Home Rule. I don't see how that was even allowed. Home Rule is in the Florida constitution. SB 102 doesn't say that it negates Home Rule does it? I don't see Home Rule even mentioned. I think it's unconstitutional. This was not put on a ballot for the citizens to change the Florida Constitution.

Can you please pass this on to other commissioners and the Mayor and attorney to evaluate? I know Dana McCool a Deltona commissioner is upset about this as well. The state can't just invalidate home rule and take away all of the municipalities authority in favor of developers.

Good afternoon,

For your information. The Tymber Creek Apartment project has not submitted any updated or modified plans since the project continuance and **has not** been placed onto any City Commission agenda. I have received some correspondence regarding the status of the project and wanted to provide an update. The following would be submittal dates for future City Commission meetings:

- For the April 18, 2023 City Commission meeting – deadline is April 3, 2023 at noon.
- For the May 2, 2023 City Commission meeting – deadline is April 17, 2023 at noon.

Note that April 4th City Commission was canceled.

Once updated plans are received and the City Commission meetings are scheduled the following would occur:

1. Distribution e-mail would be sent;
2. Update would be posted at: https://www.ormondbeach.org/1015/Tymber-Creek-Apartments;
3. Abutter letters would sent; and
4. Newspaper advertisement would be published.

Please contact me with any questions.

Thank you

Subject: RE: Tymber Creek Apartments (PZ-22-008) - distribution list (02.03.2023)

Good afternoon,

The applicant has not submitted any additional site plans or documents since the January 24, 2023 City Commission meeting continuance for the Tymber Creek Apartments project. On January 30, 2023, I received an e-mail indicating that the applicant is going to seek another continuation. No formal request has been provided to city staff to date. Because the Zoning Map Amendment and Issuance of the Development Order agenda items have been advertised, the agenda items are required to be in the City

Commission packet. The City Commission would need to take action on a continuation request if formally made by the applicant at the February 7, 2023 City Commission meeting. Staff did receive additional correspondence regarding a petition and this information has been included as an attachment in the City Commission packet.

The February 7, 2023 City Commission agenda and packet are posted at: www.ormondbeach.org/agenda. Please contact me with any questions. Thank you

Good afternoon,

Please find attached a neighborhood meeting notice for the Tymber Creek Apartments project. The notice states that Mark A. Watts, Esquire shall conduct a neighborhood meeting associated with a Planned Business Development zoning map amendment for the land located at 36 Tymber Creek Road and a portion of 2011 West Granada Boulevard. The neighborhood meeting shall be held on **Wednesday June 8, 2022 starting at 6:00 p.m. at the Coquina Presbyterian Church, located at 2085 West Granada Boulevard, Ormond Beach 32174**. The developer intends to develop the property as a multi-family planned residential development project.

As a reminder, the project submittals have been posted on the city website at: https://www.ormondbeach.org/1015/Tymber-Creek-Apartments.

Please contact me with any questions. Thank you

Subject: Tymber Creek Apartments (PZ-22-008) - distribution list

Good afternoon,

The city Site Plan Review Committee (SPRC) has received a site plan submittal from the Tymber Creek Apartments project (PZ-22-008). Based on the lack of a re-submittal, the previous Tymber Creek Apartments project (PZ-20-063) was expired by the Site Plan Review Committee.

The current application is considered a new application and would be required to conduct a neighborhood meeting. Attached is a flowchart of the application process. No dates for the neighborhood meeting, Planning Board, or City Commission meetings have been set. Staff will provide additional updates on the city's website and via this distribution list. The project information (12.06.2021 submittal) is on the city website at: https://www.ormondbeach.org/247/Development-Projects under residential projects.

If you do not wish to be on this distribution list, please respond **STOP** and staff will remove your e-mail address from the list. Please contact me with any questions. Thank you

Understanding Florida's Home Rule Power

History

The U.S. Constitution makes no mention of the powers related to local governments – the 10th Amendment reserves those powers to the state. During the 18th century, cities, counties and parishes across the nation derived their powers from their state constitutions, and these local governments relied upon their respective state legislatures for all powers. This was upheld in an 1860's court case, called "Dillon's Rule," which held for most states through the end of the 1800s.

An example of the difficulty in a non-Home Rule era would be the issue of traffic control signs: if a city wished to erect signs related to traffic control (horses, wagons, and the newly created automobiles), the city first had to obtain state permission through a special act, or general law of local application. Cities and counties might seek this permission jointly, or by population category ("all cities over 10,000 in population shall…" but still had to petition their legislators for these bills during each legislative session. It was not uncommon in Florida for more than 2,000 special acts to be filed in a session during this era.

In the early 1900s, however, states began to adopt "Home Rule" provisions in which cities and counties were allowed to enact ordinances at the local level without state "blessing" – or without the enactment of special acts, general laws of local application, or similar measures.

In Florida, Home Rule language was proposed in the 1968 Constitutional revision, and was adopted by the people. After several legal challenges, the Legislature adopted the Home Rule Powers Act in 1973, which ended challenges related to city and county powers. The Florida Constitution states in Article VIII, Section 2(b) for municipalities:

"Municipalities shall have governmental, corporate and proprietary powers to enable them to conduct municipal government, perform municipal functions and render municipal services, and may exercise power for municipal purposes except as otherwise provided by law."

These powers do not extend to fiscal Home Rule: the state reserves all taxing authority unto itself.

Application

The most precious powers a city in Florida has are its Home Rule powers. The ability to establish its form of government through its charter, and to then enact ordinances, codes, plans and resolutions without prior state approval is a tremendous authority. To further be able to enforce them "at home" and to make necessary changes as a city grows is a great reflection of the trust that citizens have in their respective city leaders.

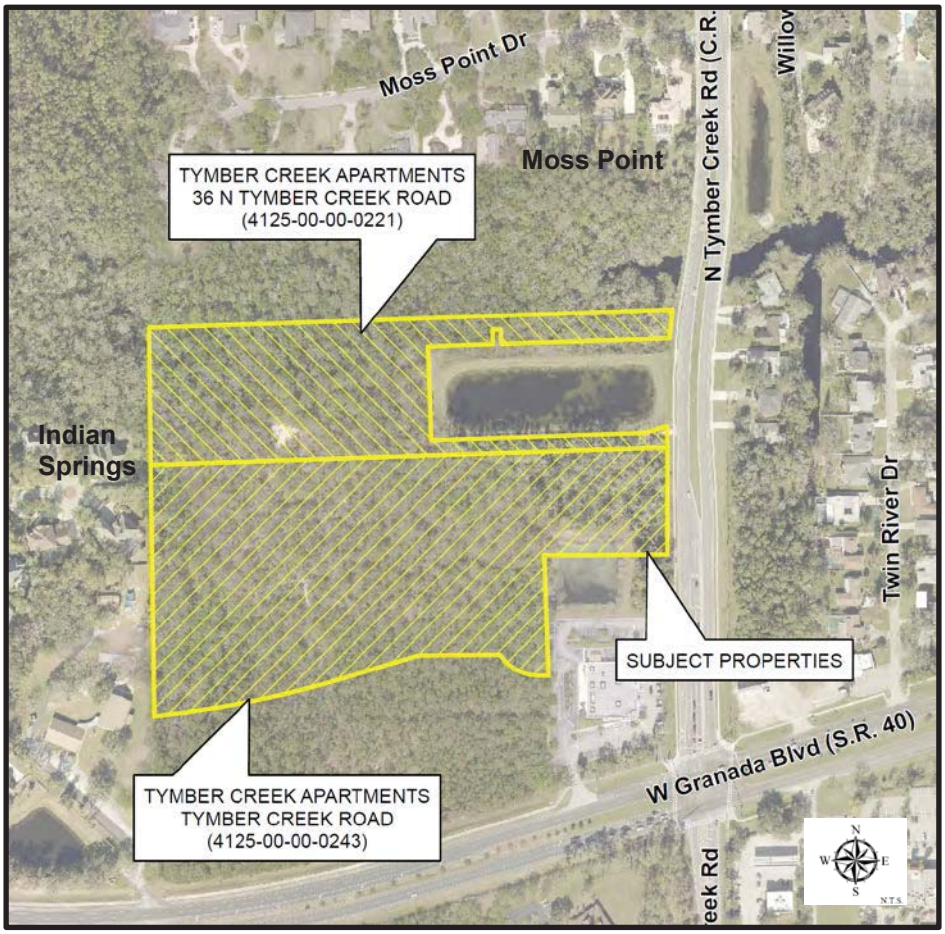
Of course, city laws cannot conflict with state or federal laws. In the metropolitan Miami-Dade County government and in certain chartered county governments, some municipal ordinances and processes are subject to county review. However, for most of Florida's 412 municipalities, Home Rule powers ensure that the cities are effectively and efficiently providing for the wishes of their citizens.

STAFF REPORT

City of Ormond Beach
Department of Planning

MEETING DATE: December 8, 2022

SUBJECT: Tymber Creek Apartments, **Issuance of a Development Order**



APPLICANT: VCP Ormond Beach II, LLC

NUMBER: PBD-2022-008(B)

PROJECT PLANNER: Steven Spraker, AICP, Planning Director

SECTION 1, INTRODUCTION: This is a request from Nika K. Hosseini, Esquire, Cobb Cole, on behalf of the property owner, VCP Ormond Beach II, LLC, for the issuance of a development order. The Tymber Creek Apartments Planned Business Development seeks to allow the construction of 300 multi-family residential units and associated site improvements on 19.62 acres. The subject property is located at 36 North Tymber Creek Road and 2011 West Granada Boulevard. The subject property is shown below.

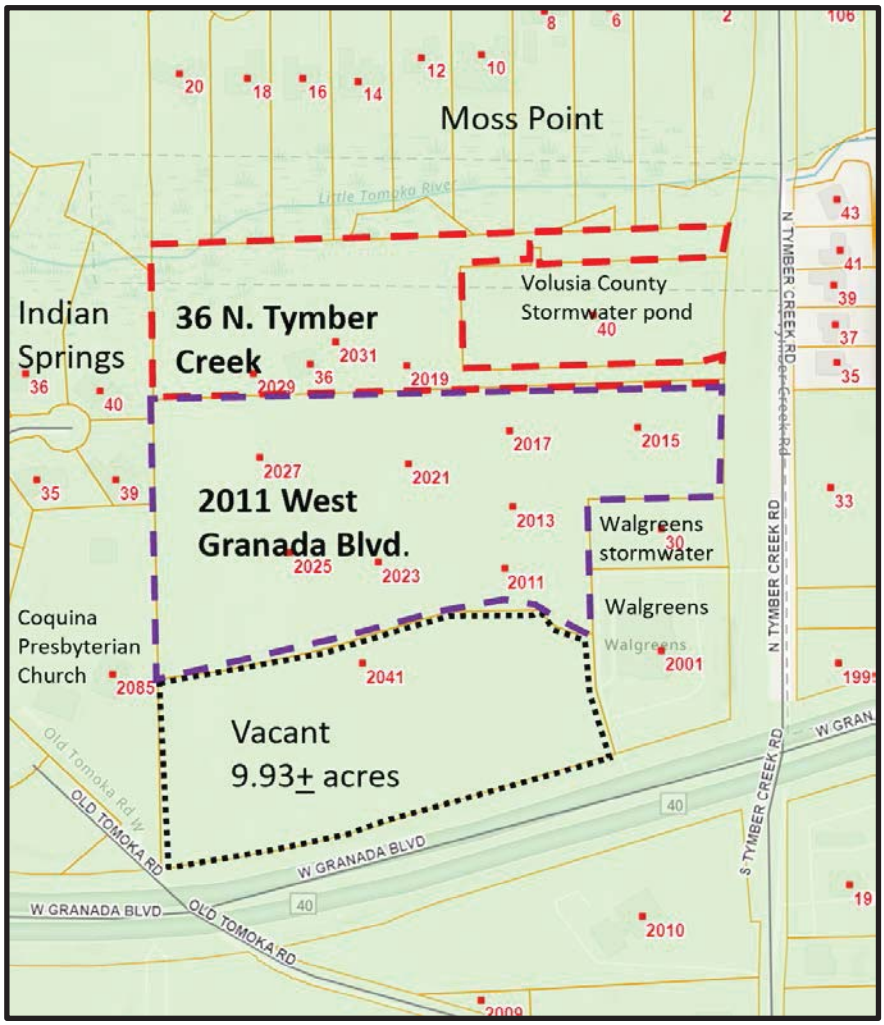


EXHIBIT 1: Project location, 36 North Tymber Creek Road and 2011 West Granada Boulevard

SECTION 2, BACKGROUND: The subject property consists of two parcels at 36 North Tymber Creek Road and 2011 West Granada Boulevard. The property at 36 North Tymber Creek Road is 6.40 acres and was annexed into Ormond Beach on May 26, 2020 with Ordinance 2020-17. On January 5, 2021, a Comprehensive Plan land use map amendment was approved with Ordinance 2020-56 to assign a city land use designation to 36 North Tymber Creek Road. The land use designation was amended from Volusia County "Environmental System Corridor" (ESC) to City of Ormond Beach "Open Space/Conservation" (OS/C) and Volusia County "Urban Low Intensity" (ULI) to Ormond Beach "Residential, Office, Retail" (ROR). No Ormond Beach zoning has been assigned to 36 North Tymber Creek Road and the assignment of zoning is the purpose of this application. The property at 2011 West Granada Boulevard has a land use classification of "General Commercial" and a zoning designation of B-8, Commercial.

Exhibit 2 shows the land area around the proposed Tymber Creek Apartments. The subject property proposes site access through the approximately 9.93-acre property at 2041 West Granada Boulevard that is currently vacant. The property at 2041 West Granada Boulevard has a "General Commercial" land use designation and a B-8, Commercial zoning classification. Walgreens is located at 2001 West Granada Boulevard and 30 North Tymber Creek Road (stormwater pond).

EXHIBIT 2: Abutting land area to Tymber Creek Apartments

There is a Volusia County stormwater pond located at 40 Tymber Creek Road. To the north of the subject property, there is the Moss Point subdivision. To the west of the subject property, there is Coquina Presbyterian Church and the Indian Springs subdivision.

The following are the abutting uses to the subject properties:

EXHIBIT 3: Abutting land use and zoning designations

Land Use and Zoning Designations of Adjacent Property			
Direction	**Current Land Uses**	**Future Land Use Designation**	**Zoning Classification**
North	Volusia County detention pond and Moss Point	"Open Space/Conservation" and "Suburban Low Density Residential"	SE, Special Environmental & SR, Suburban Residential
South	Vacant land and across SR40, Faith Lutheran Church and Riverbend Church	"General Commercial" "Public/Institutional" and "Suburban Low Density Residential"	B-8 (Commercial) & SR, Suburban Residential
East	Across Tymber Creek Road: Vacant Commercial and Single-Family Residential	"General Commercial" & Volusia County "Low Medium Intensity"	B-8 (Commercial) & Volusia County R-4, Urban Single-Family Residential
West	Coquina Presbyterian Church & Indian Springs	"Open Space/Conservation" & "Public/Institutional" and "Low Density Residential"	R-3, Single Family Medium Density

Project description: The project seeks to allow 300 multi-family residential units and associated site improvements. The applicant has provided site plans (ATTACHMENT 7) for the project and a summary (ATTACHMENT 6) of the project. Below is a summary of the project. The items listed in **bold** are items that require the issuance of a development order for the Planned Business Development

1. The site is approximately 19.62 acres. Site maps are included in ATTACHMENT 2
2. Land use density allowed = 471 residential units (28.72 units per acre).
3. Zoning density allowed = 164 units (10 units per acre).
4. **Tymber Creek Apartments density requested = 300 residential units (18.29 units per acre).** The Planned Business Development is required to obtain the density allowed by the land use which is over the zoning density standard of 10 units per acre.
5. Total site impervious area = 39.5%. Allowed impervious area = 75%.

6. Total pervious area = 60.5% including wetlands, natural areas and landscape areas.
7. The project access is proposed through a master access point on West Granada Boulevard (see sheets 21-23, ATTACHMENT 7) that will serve multiple uses including the existing Walgreens. The existing master access point for the commercial uses has an approved site plan to shift to the west from the existing Walgreens access point, in accordance with the approved Florida Department of Transportation permit. The project has been issued Florida Department of Transportation permits that are enclosed in ATTACHMENT 5.
8. Along Tymber Creek Road, the project proposes an emergency access only access point. The emergency access point is designed to allow access from fire station #94. The emergency access point would not allow general traffic to access Tymber Creek Road. The access point to Walgreens will remain unchanged. Based upon the connectivity of the overall parcels, individuals of the Tymber Creek Apartments could access Tymber Creek Road through the Walgreens parking lot. The project is required to install a right-hand turn lane on Tymber Creek Road into the Walgreens project (see sheet 24, ATTACHMENT 7)
9. There are ten (10) residential buildings. The buildings each have 30 units with the exception of building five that has 24 units and building three that has 36 units.
10. Buildings 1, 2, 3, 4, 6, 7, 8 and 9 are 162 linear feet. Building 5 is 175 linear feet. Building 10 is 249 linear feet. **Section 2-57(22)(c) of the Land Development Code requires a Planned Development for any building length exceeding 180 linear feet.**
11. **The proposed building height is 39’3” for the multi-family buildings.** The B-8, Commercial allowed building height is 30’. Section 2-36(d)(3) of the Land Development Code: states, “Height limits may exceed that allowed by district regulations by a maximum of fifteen feet (15'), provided that the structure is so located as to not have an adverse impact on adjoining properties, particularly single-family homes.” The application is seeking a building height of 39’3”.
12. The project proposes a clubhouse with a clubroom, fitness area, and lounge. The clubhouse is next to the project’s pool.
13. The project has 2.40 acres of wetlands. The project impacts are 0.14 acres or 5.7% of the wetland area. The area of wetlands remaining is 2.26 acres. The project has obtained a St. Johns River Water Management District permit for wetlands and stormwater (see ATTACHMENT 4).
14. The city’s Land Development Code requires an average setback of 75 feet from the wetland line. Sheet 86, ATTACHMENT 7 shows the additional wetland setback (over the required St. Johns River Water Management District 25’ wetland setback). The total land area preserved in a conservation easement is 5.04 acres.
15. The landscape buffers required for this project are 20’ foot landscape buffers for the north, west & east sides of this parcel. The north landscape buffer proposed along the Moss Point subdivision in the north western portion varies from 195’ to 130’ and narrows to 70’ in the northeastern portion of the buffer. The proposed west landscape buffer varies from 140’ to 57’ feet. The proposed east landscape

buffer along Tymber Creek Road is 20' feet. The south landscape buffer that abuts the future commercial parcel requires a 6' foot landscape buffer and a 10' buffer is being proposed. The landscape buffers around the Walgreens pond to the north requires a 6' foot which is shown, the west landscape buffer requires a 6' foot and a 10' foot is being proposed. The landscape buffers around the Volusia County pond to the north, west and south sides require a 6' foot buffer and a 11'-6" foot is being proposed.

16. There are 7 historic trees on-site (4 Bald Cypress & 3 Live Oaks) all of which are being saved.
17. The site requires that fifteen percent of the site is designated for tree preservation. Fifteen percent of the total gross area is 2.94 acres. The project provides 4.99 acres of proposed tree preservation which includes the north and west areas of the site.
18. The anticipated average daily potable water and sewer flow rates are 108,960 gallons per day for water and 95,277 gallons of sewer. There is adequate water and sewer capacity to serve the project. The utility plans (sheets 43, 44, ATTACHMENT 7) show the construction of a public lift station to serve this use and other uses at 2041 West Granada Boulevard.
19. Stormwater management is provided by a proposed storm drain system routed to an interconnected StormTech exfiltration and dry retention (pre-treatment) to wet detention pond system. The comparison between the Pre/Post runoff shows the reduction of both rate of flow and volume of flow in accordance with the City of Ormond Beach regulations. The project has received a Saint Johns River Water Management District permit for the project stormwater system (See ATTACHMENT 4)
20. The project includes a dog park, pool area and an amenity area.
21. The project has fencing as follows:
    A. Decorative aluminum open style, 6' high: along Tymber Creek Road, Volusia County stormwater pond, entrance road.
    B. PVC vinyl, 6' high: along interface of north wetland area ("Open Space/Conservation" area) and portion of area abutting Coquina Presbyterian Church.
    C. Masonry wall, 6' high: Along area of Indian Springs, including on top of the retaining wall and abutting the future commercial area of 2041 West Granada Boulevard.

    Fencing screen wall and retaining wall details on Sheets 36, 36.1, and 36, ATTACHMENT 7.
22. The project abuts West Granada Boulevard (Florida Department of Transportation roadway) and Tymber Creek Road (Volusia County roadway). The Florida Department of Transportation roadway permits have been approved (see ATTACHMENT 5).
23. The project has submitted a series of traffic studies (see ATTACHMENT 5). A summary of the traffic studies is provided in the conclusion section of this report. The original traffic study included full access from Tymber Creek Road and an

analysis of the traffic impacts of the property at 2041 West Granada Boulevard. As the project developed, access onto Tymber Creek was restricted to emergency access only and the project only accesses West Granada Boulevard with a right in and right-out access point. The existing Walgreens access point is planned to be moved to the west and expanded to serve Tymber Creek Apartments, Walgreens, and the future commercial development at 2041 West Granada Boulevard.

An updated 2022 traffic analysis was required. This analysis included a review of the U-turn movements for individuals who were seeking to go east bound on West Granada Boulevard. The traffic analysis included the turning movements for the Riverbend Academy school expansion. The traffic impact analysis demonstrated that the residential use generates less trips than a commercial use and that the project meets concurrency requirements. The Florida Department of Transportation has issued permits for the project to access West Granada Boulevard (ATTACHMENT 5).

24. Sheet 88, ATTACHMENT 7 provides a distance exhibit of the proposed multi-family structures to existing residential structures.
25. Phasing (see Sheet 16 of ATTACHMENT 7) of project may be approved by the SPRC as a minor modification to the development order. The SPRC may allow Certificate of Occupancy for individual buildings that re completed in terms of building and site improvements and the reminder of the site is protected for construction activities.
26. The development order would contain hours of allowable outdoor construction of 7 a.m. to 7 p.m., Monday through Saturday.
27. The Planned Business Development would incorporate the uses and dimensional standards of the B-8, Commercial zoning district.

Project process: The Planned Business Development is reviewed and acted upon as two separate actions (1) zoning map amendment and (2) issuance of a development order. The two actions will be discussed together at the public hearing and require separate votes. The project has the following approval process:

1. **Site Plan Review Committee (SPRC).** The Site Plan Review Committee is comprised of city departments who review site plan applications for consistency with the Land Development Code and Comprehensive Plan. This committee provides a technical review of development submittals.
2. **Neighborhood meeting.** The Land Development Code requires a neighborhood meeting where a project abuts a residential zoning district. The neighborhood meeting was conducted on June 8, 2022 and is summarized in the analysis section of this report.
3. **Planning Board.** The Planning Board conducts one public hearing for a zoning map amendment and issuance of a development order. The Planning Board provides a recommendation to the City Commission. Applications, whether recommended for approval or denial, are forwarded to the City Commission for action. The Planning Board is appointed by the City Commission. The Planning Board in its recommendation is required to consider the following:

a. Application submitted by the applicant;
b. Staff report;
c. Written correspondence provided;
d. Testimony presented at the public hearing; and
e. Criteria for rezonings and issuance of a Development Order.

4. **City Commission.** The City Commission is an elected body that provides the final action on zoning map amendments and issuance of development orders. The tentative City Commission dates for this project are January 24, 2023 and February 7, 2023. Section 1-18(e) of the Land Development Code requires the City Commission to consider:

   a. Report and recommendation of the site plan review committee and the planning board.
   b. Report and recommendation of other city departments and advisory boards, as appropriate.
   c. Comments of governmental agencies, utility corporations and individuals, as received.

   Section 1-18 of the Land Development Code also provides the review criteria for development orders listed in the analysis section of this report.

The following exhibit displays the project's history to date:

EXHIBIT 4: Application process

20 Tomoka Avenue	River Bridge	1985	22
596 North Nova Road	Baymeadows	1985	12
671-689 Wellington Station	Wellington Station *(annexed)*	1986	72
1 John Anderson Drive	Ormond Heritage	1994	156
875 Sterthaus Drive	Ormond Renaissance Condo	2017	28
		TOTAL UNITS	**983**

The most recent multi-family developments were constructed in 2010 with Olive Grove (tax credit housing), Madison Glen (senior housing) and Ormond Renaissance Condo (one building). There have also been townhome developments that has been less than 10 units per acre that include the Gardens of Addison (56 units), Ormond Grande (60 units) and the Cupola (12 units).

On August 3, 2022, the City Commission authorized Ordinance 2022-19 that approved a maximum of 312 residential units for the Regal Multi-Family project at 215 Williamson Boulevard. Prior to 2022, the Ormond Renaissance Condominiums was approved with Ordinance 2015-19 on May 5, 2015 for 286 multi-family units. Ormond Renaissance Condominiums has constructed one (1) of the ten (10) buildings with 252 units remaining. Staff is aware of the multi-family development that has occurred within neighboring jurisdictions and Volusia County.

The rate of growth within Ormond Beach is a key Planning item. Staff maintains the table below that includes the number of platted single-family homes, population growth, and permits. The population growth from 2010 to 2020 (census dates) was 4,943 or 1.3% per year. Residential permitting has decreased as the city nears a build out condition. The annexation of lands in the Interlocal Service Boundary Agreement area has provided the city zoning and permitting control of land areas that were in Volusia County (Plantation Oaks and RidgeHaven subdivisions) for residential development.

EXHIBIT 7: Ormond Beach population and permitting information

Notes:

(1) Population estimates from University of Florida Business of Economic and Business Research. 1980, 1990, 2000, 2010 in **bold** are from the U.S. Census.

(2) SFH lots plats are taken from the Volusia County Clerk of Court website, http://app02.clerk.org/or_plats/

(3) Single-Family, multi-family, manufactured and mobile home permits from the Ormond Beach Building Department.

(4) 2022 permitting information as of November 25, 2022.

SECTION 3, ANAYSIS:

Within the Land Development Code there are threshold trigger points that require projects to obtain approval through a public hearing. The philosophy of the Land Development Code is to allow the Site Plan Review Committee, a technical committee of city staff, to review and approve permitted uses. Projects that trigger thresholds are required to be reviewed by the Site Plan Review Committee, Planning Board and City Commission. There are many trigger thresholds within the Land Development Code. The Tymber Creek Apartments have three (3) trigger thresholds within the project submittal as follows:

1. Density. The zoning density allows 10 units per acre and the land use density allows more units per acre. The request for the additional density is not a waiver/variance, but does require a public review and an analysis of the development order criteria.
2. Building height: The Planned Business Development allows additional height over the 30' allowed by the zoning district. The request for the additional building density is not a waiver/variance, but does require a public review and an analysis of the development order criteria.
3. Building length of building 10: The conditional use criteria for dwelling, multifamily requires a Planned Business Development for buildings over 180 linear feet. The request for the building length is not a waiver/variance, but does require a public review and an analysis of the development order criteria.

Planned Business Development:

According to Chapter 2, Article II, Section 2-36 of the Land Development Code, the purpose of the Planned Business Development zoning district

> "is to establish regulatory standards for controlling the location of comprehensively planned business centers accessible to arterial roadways. The PBD is intended to incorporate a flexible management policy which incorporates urban design amenities, including streetscape improvements, and fosters innovative master planning in the design and development of commercial centers. The PBD district provides a diversified mix of permitted, conditional, and special land uses and higher standards of land planning and site design than are available under conventional zoning categories."

One goal of the Planned Business Development is to "provide for a coherent and visually attractive physical environment through the creation of focal points and vistas, as well as coordination and consistency of architectural styles, landscaping designs and other elements of the building environment."

Reason for a Planned Business Development amendment:

1. Density. The project density is a key component of the application. The land uses of the project allow the following density:

EXHIBIT 8: Comprehensive Plan density

Land Use Designation	Acres	Land use allowed density	Maximum number of units allowed
"Open Space/ Conservation"	3.2	0	0
"Residential, Office, Retail"	3.2	15	48
"General Commercial"	13.22	32	423
TOTALS	**19.62**	**NA**	**471**

The zoning designations would allow ten (10) units an acre or 164 residential units. The last major revision to the city's zoning districts occurred in 2009. The amendments allowed the Site Plan Review Committee (SPRC) to approve development that was at a density of ten (10) units per acre or less. Any development that sought a density higher than ten (10) units per acre would need to obtain a Planned Development designation. The Planned Development is a public hearing that allows public notice and an opportunity for a Planning Board recommendation and City Commission action. The request for the additional density is not a waiver/variance, but does require a public review and an analysis of the development order criteria.

2. Building height: Section 2-36(d)(3) of the Land Development Code:

> (3) *Building height.* Height limits may exceed that allowed by district regulations by a maximum of fifteen feet (15'), provided that the structure is so located as to not have an adverse impact on adjoining properties, particularly single-family homes. This additional height allowance will not be awarded for any portion of a structure located within fifty feet (50') of a single-family home or for a vacant site in a zoning district designed primarily for such use. In no case shall any building height exceed seventy-five feet (75') when measured from the average median lot elevation to the highest point of any structure and/or attached services.

The proposed building height is 39'3" for the multi-family buildings. Sheet 88, ATTACHMENT 7 shows the distance from single-family homes to the multi-family buildings. For the two single-family homes within Indian Springs the distance between structures is shown as 176' and 218'. For single-family homes with Moss Point, the distance between structures is shown as 624', 592, 577', 534', 619', and 557'.

28. Building Length. Buildings 1,2,3,4,6,7,8 and 9 are 162 linear feet. Building 5 is 175 linear feet. Building 10 is 249 linear feet. Section 2-57(22)(c) of the Land Development Code requires a Planned Development for any building length exceeding 180 linear feet. Building 10 is located along the Tymber Creek frontage of the property. The Land Development Code does not contain any criteria/conditions for buildings over 180 linear feet, except that a Planned Development is required.

Project public benefits:

Section 2-36(h)(3) of the Land Development Code requires the provisions of public benefits that demonstrate that a project's site plan design is more than the minimum standards required. The applicant previously provided a list of public benefits that would apply to the multi-family project:

1. The site requires that fifteen percent of the site is designated for tree preservation. Fifteen percent of the total gross area is 2.94 acres. The project provides 4.99 acres of proposed tree preservation which includes the north and west areas of the site.
2. The landscape buffers required for this project are 20' foot landscape buffers for the north and west sides of this parcel. The north landscape buffer proposed along the Moss Point subdivision in the north western portion varies from 195' to 130' and narrows to 70' in the north eastern portion of the buffer. The proposed west landscape buffer varies from 140' to 57' feet.
3. Additional plantings of 46 red cedars, 10 feet at planting, along the property line interface of Indian Springs.
4. Restriction of access to Tymber Creek Road to emergency access only.
5. The directional turning of building 8 was based on input from residents in Indian Springs.

Neighborhood meeting:

The project conducted a required neighborhood meeting on June 8, 2022 at the Coquina Presbyterian Church. The project attorney described the request at the neighborhood meeting. Key items discussed were:

1. Access to Tymber Creek Road. The project team described the emergency access onto Tymber Creek Road. There was acknowledgement that individuals from Tymber Creek Apartments could access Tymber Creek Road through the Walgreens parking lot.
2. Traffic. Traffic is heavy in the morning and the project will make it worse.
3. Concerns expressed about the U-turn movements on West Granada Boulevard.
4. Discussion of the project wetlands and buffers.
5. Based on a question, the project team stated that the project was not low income targeted and was a luxury, market rate apartment complex.
6. Discussion of a right-hand turn lane that was removed by the Florida Department of Transportation at the Indian Springs development.
7. Statement provided: Project should be made smaller. Not appropriate for the west Ormond area.
8. Statement provided: Additional density, beyond 10 units per acre is not appropriate.
9. Statement provided: That the project was not appropriate and that the traffic design was not appropriate.

10. Project team stated that residential uses generate less traffic impacts than commercial uses.
11. Statement provided: Apartments were not wanted at this location and that the project would diminish value of existing homes.
12. Statement provided: The project would create additional crime in area.
13. Question asked regarding Votran bus service. There is no Votran bus service west of I-95 currently.

Correspondence received:

ATTACHMENT 3 includes correspondence received on this application. The correspondence received included the following key points or statements provided below:

1. Traffic
   A. Concern of U-turn movements on West Granada Boulevard.
   B. Traffic is awful/horrendous already.
   C. Right turn into Indian Springs is treacherous.
   D. Negative impacts to intersection of West Granada Boulevard and Tymber Creek Road.
2. Incompatible use
   A. Impact to the existing residents in the area of the planned development.
   B. Will make our community less safe.
   C. We are a single-family community!
   D. The project is not compatible with the neighboring subdivisions. Any increase will be detrimental to the quality of life for the surrounding area's residents.
3. Density
   A. Density should be maintained at 10 units per acre.
   B. If the Land Development Code allow 164 now, then why would an increase be of any value to the residence of Ormond Beach.
4. Overdevelopment
   A. Horrible location planning for apartments.
   B. If we do not limit the population growth in Ormond Beach now, we will not be able to undo the consequences in the future.
5. Site design
   A. Desire of a masonry wall along the Indian Springs property line.
   B. The project team should show the building locations and height.
   C. Configuration/location of the buildings – specifically building 8.

6. Quality of Life
   A. Only single-family residential has been approved west of I-95.
   B. Longtime residents of upscale communities deserve better consideration.
   C. The area is already overbuilt and this will do nothing to help the situation.
   D. Future management of complex.

Indian Springs meetings

City staff met with residents of Indian Springs which led to two meetings with the project team and the residents. Residents of Indian Springs presented concerns and comments on the project at an initial meeting on August 15, 2022 and a follow-up meeting on November 16, 2022. Specific items discussed included:

1. The location and height of a buffer wall. Several options were considered and at the meeting on November 16, 2022 the wall was requested to be extended an additional 100 to the south which was added to the current site plan.
2. The project team had the locations of buildings 8 and 9 marked. On November 16, 2022, the residents of Indian Springs, the project team, and city staff walked the site area of buildings 8 and 9. The project team provided a pole that showed the heights of the building. The project team provided revised building elevations to reduce the overall building height from 45’ to 39’3”.
3. Based upon these meetings, the project team added an additional planting of 46 red cedars, 10 feet in height at planting, along the property line interface of Indian Springs.
4. The project developer and the property owner of the house abutting house discussed the concept of adding plantings around the screen enclosure on the Indian Springs property owner’s lot as another layer of buffering.

On November 26, 2022, a letter from the Indian Springs Homeowner’s Association was received that requested:

1. Building 8 and Building 9 be eliminated completely due to compatibility concerns, the visual impacts and proximity to IS HOA.
2. The Residential Block Retaining Wall on north west side of subject property:
   a. Starting in line with the extended property line of 412600000061 (Coquina Presbyterian Church) and 412607000110 (Gary C & Catherine Von Glinow) and extending around the retaining wall radius and ending as shown on the proposed plans.
   b. Be a minimum of 10’ tall.

SECTION 4, PBD CRITERIA:

In considering an application for a Planned Business Development, the Planning Board may recommend to approve, approve with conditions, or disapprove on the extent to which the development offers site amenities above that are normally found for permitted uses in the district with regard to the following:

a) Building form, architecture and appropriateness of materials with regard to long-term maintenance, relation to the surrounding neighborhood, and aesthetics. Architectural drawings shall be approved as part of the Development Order and adhered to in all development phases.

The project seeks 300 multi-family units in ten (10) buildings. The architectural elevations are included in ATTACHMENT 7 and comply with the neo-eclectic architectural style. Design attributes include massing, exterior finishes of lap siding and stone veneer, board and batten siding, roof shingles, color changes, and building variation in the planes of the building.

b) Landscaping and related site amenities.

A landscape plan is provided in ATTACHMENT 7 and the city's Landscape Architect's analysis is included in ATTACHMENT 4. There are 7 historic trees (4 Bald Cypress & 3 Live Oaks) all of which are being saved. The site requires that fifteen percent of the site is designated for tree preservation. Fifteen percent of the total gross area is 2.94 acres. The project provides 4.99 acres of proposed tree preservation which includes the north and west areas of the site. All landscape buffers have been met or exceeded. The project is proposing a clubhouse, pool, and dog park.

c) Mitigation of off-site impacts.

The site plan has sought to eliminate any off-site impacts through (1) natural preservation, (2) landscape plantings, (3) buffer walls, and (4) shifting of building 8. The off-site traffic impacts have been reviewed by professional engineers and the Florida Department of Transportation and determined acceptable. The traffic generation from the multi-family residential use is less than other permitted uses allowed in the zoning districts.

Within the project correspondence, there are requests for denial based upon concerns of compatibility, traffic and density. The Indian Springs Homeowner's Association letter dated November 26, 2022 seeks to eliminate buildings 8 and 9 based on impacts to Indian Springs.

d) Overall lighting plan, particularly in relation to aesthetics and glare.

A lighting plan is provided on Sheets 91 and 92, ATTACHMENT 7 and meets the requirements of the Land Development Code.

e) Overall signage plan, particularly related to aesthetics and readability.

The project signage will be designed in accordance with the city Land Development Code. No signage waivers are being sought.

SECTION 5, CRITERIA FOR APPROVAL: There are certain criteria that must be evaluated before a Planned Business Development amendment can be approved. According to Chapter 1, Article I, Section 1-15. C.3 of the Land Development Code, the Planning Board shall consider the following when making its decision. The Planning Board may (1) approve the project as submitted, (2) deny the project as submitted, or (3) provide conditions/restrictions for approval.

1. The proposed development conforms to the standards and requirements of this code and will not create undue crowding beyond the conditions normally permitted in the zoning district, or adversely affect the public health, safety, welfare or quality of life.

The subject property has land use classification and existing zoning designations that allow multifamily uses. The Land Development Code's framework requires a public hearing for any density above ten (10) units per acre. The project has exceeded landscaping requirements, required setbacks, and site buffering. The project team has met with residents of Indian Springs and added landscaping, turned building 8, and added masonry walls. Along Tymber Creek Road, the project team has voluntarily eliminated resident access to address concerns from residents of Tymber Creek Road area. The trigger thresholds of density, building height, and building length have been granted in other applications. Items such as compatibility, consistency with the Comprehensive Plan and traffic are addressed with other criteria.

Input on the project have asserted that the project is not consistent with the existing development patterns in western Ormond Beach that is primarily single-family residential. There is no multi-family development west of I-95 along West Granada Boulevard, Airport Road or Tymber Creek Road. Section 2-36(d)(3) of the Land Development Code allows applicants to request additional building height. The additional height allowance considers the impact of additional building height on single-family residential uses. A key decision point of the application is the appropriateness of requested density and building height. The Indian Springs Homeowner's Association letter dated November 26, 2022 seeks to eliminate buildings 8 and 9 based on impacts to Indian Springs.

From a technical perspective, the proposed development will not create undue crowding beyond the conditions normally permitted in the zoning district. It is the determination of the Site Plan Review Committee that the public health, safety, welfare or quality of life will not be adversely affected. The existing Land Development Code allows the multifamily use with a 20' landscape buffer and a 50' building setback at two-stories and a density of 10 units per acre. The project submittal has provided additional landscape buffers, building setbacks, and site buffering.

2. The proposed development is consistent with the Comprehensive Plan.

The Comprehensive Plan contains a land use map that provides the vision of uses and residential intensity. The Comprehensive Plan is an overall guide/road map for development within Ormond Beach. The subject property has three land use categories that are defined in the Future Land Use Element as follows:

> **Open Space/Conservation (OS/C) – 3.2 acres**
>
> Purpose: This category includes two (2) subcategories: Parks, which includes public areas used for passive recreation, and Conservation which consists of areas within the City that have significant limitations to development, related to elevations, soils, probability of flooding, relationship to a major water body, wetland characteristics, or similar factors. This category of land use is applicable to all zoning districts.

Density: Not permitted.

Maximum FAR: 0.5

Residential, Office, Retail (ROR) – 3.2 acres

Purpose: A multi-use land use category to provide areas served by transit for use by residential uses, general office, medical and professional uses, restaurants, retail sales and personal services. It is expected that at least 30% of the undeveloped office/professional lands in the City will be developed with multi-family residential uses and adult care/retirement facilities. For projects that propose a mixture of residential and non-residential uses, the minimum FAR should be 0.2.

Density: Maximum: 15 units per acre.

Maximum FAR: Restaurants, retail sales, and personal services shall not exceed a 0.2 FAR. All other uses shall not exceed 0.5.

General Commercial (GC)

Purpose: A multi-use land use category to provide for the sales of retail goods and services, high density multi-family, professional offices and services, and restaurants, depending on the range of population to be served and the availability of transit. For projects that propose a mixture of residential and non-residential uses, the minimum FAR should be 0.2.

Density: Maximum: 32 units per acre.

Maximum FAR: 0.7 (2.0 within the Downtown Community Redevelopment area)

Below is the analysis of maximum development scenarios for residential and commercial uses from a Comprehensive Plan allowance:

EXHIBIT 9: Comprehensive Plan residential and commercial entitlements

Residential Uses						
Land Use Designation	Acres	Land use allowed density	Maximum number of units allowed	Total ITE Trip Generation(1)	Water Generation (2)	Sewer Generation (3)
"Open Space/ Conservation"	3.2	0	0	0	0	0
"Residential, Office, Retail"	3.2	15	48	266	12,288	13,488
"General Commercial"	13.22	32	423	2,343	108,288	118,863
TOTALS	19.62	NA	471	2,609	120,576	132,351

Notes:
(1) ITE Trip Generation, #221, Mid-rise multi-family of 5.54 trips per unit
(2) 256 gallons per day per unit
(3) 281 gallons per day per unit

Commercial Uses						
Land Use Designation	Acres	Land use allowed Floor Area Ratio	Maximum building square footage allowed	Total ITE Trip Generation (1)	Water Generation (2)	Sewer Generation (3)
"Open Space/ Conservation"	3.2	0	0	0	0	0
"Residential, Office, Retail"	3.2	0.2	27,878	1,052	4,182	3,554
"General Commercial"	13.22	0.7	403,104	15,217	60,466	51,396
TOTALS	19.62	NA	430,983	16,270	64,647	54,950
(1) ITE Trip Generation, #820, Retail of 37.75 trips per 1,000 square feet of gross floor area (2) Building square footage/ 100 X 15 (3) Water generation rate X 85%						

The application also supports the following policies in the Future Land Use Element of the Comprehensive Plan:

Future Land Use Element

GOAL 1. LAND USE DISTRIBUTION

FUTURE DEVELOPMENT AND REDEVELOPMENT ACTIVITIES SHOULD BE DIRECTED IN APPROPRIATE AREAS AS DEPICTED ON THE FUTURE LAND USE MAP TO MEET THE LAND USE NEEDS OF THE ANTICIPATED POPULATION, IN A MANNER CONSISTENT WITH SOUND PLANNING PRINCIPLES, THE GOALS, OBJECTIVES AND POLICIES CONTAINED HEREIN, AND THE DESIRED COMMUNITY CHARACTER.

THE FUTURE LAND USE ELEMENT SHOULD ALLOW LIMITED COMMERCIAL EXPANSION, PROMOTE INDUSTRIAL USE, AND MAINTAIN CURRENT RESIDENTIAL DENSITIES IN THE CORE AREA WHILE ESTABLISHING LOWER DENSITIES IN THE PERIMETER AREAS, FOCUSING REDEVELOPMENT IN THE DOWNTOWN COMMUNITY REDEVELOPMENT AREA, US1, AND SRA1A, AND PROVIDING OR A CONTINUED HIGH LEVEL OF OPEN SPACE. FUTURE GROWTH SHALL BE TIMED AND LOCATED TO MAXIMIZE EXISTING PUBLIC INFRASTRUCTURE.

OBJECTIVE 1.1. RESIDENTIAL LAND USE

Ensure the availability of adequate lands to meet the residential land use needs of the community.

POLICY 1.1.3.

Preserve the character of existing neighborhoods by not allowing intrusion of land uses that would threaten to alter the neighborhood character and by encouraging voluntary rehabilitation and sound maintenance programs in viable neighborhoods which are capable of self-renewal and establishing code enforcement or public redevelopment activities in areas not capable of self-renewal.

POLICY 1.1.5.

Encourage innovative design measures for new residential developments and ensure that adequate provision is made for neighborhood facilities suitable to the type of development proposed.

POLICY 1.1.6.

Provide the opportunity, through zoning and other land use controls, for the development of a variety of housing types (i.e., single-family, duplex, townhouse, multi-family) in both conventional, planned unit and cluster type developments, that will meet the varied needs of the citizens of Ormond Beach.

POLICY 1.2.6.

New commercial development shall be required to provide appropriate buffers and landscaping to minimize negative impacts on surrounding uses.

Housing Element

GOAL 1. HOUSING SUPPLY

ENSURE THE AVAILABLITY OF SAFE AND ADEQUATE HOUSING UNITS OF DIFFERENT TYPES, SIZES, AND PRICE RANGES TO MEET THE NEEDS OF ALL CURRENT AND FUTURE RESIDENTS.

OBJECTIVE 1.1. HOUSING SUPPLY

The City shall continue to facilitate the private production of a housing supply, including adequate sites for mobile homes or manufactured housing and low and moderate income housing, which will meet future community needs and offset housing deficiencies as noted in this Element.

OBJECTIVE 1.2. PROVISION OF ADEQUATE SERVICES AND FACILITIES

Each existing housing development and residential neighborhood along with all new housing development shall meet existing adopted level of service standards.

POLICY 1.2.1.

The general residential development pattern in the city should be in accord with the community's growth strategy for residential densities, as stipulated within the Future Land Use Element.

The application submitted is consistent with the Comprehensive Plan this application. The key consideration shall be the appropriate density of the land use can be utilized within the Planned Business Development.

3. The proposed development will not adversely impact environmentally sensitive lands or natural resources, including but not limited to water bodies, wetlands, xeric communities, wildlife habitats, endangered or threatened plants and animal species or species of special concern, wellfields, and individual wells.

The project has 2.40 acres of wetlands. The project impacts are 0.14 acres or 5.7% of the wetland area. The area of wetlands remaining is 2.26 acres. The project has obtained a St. Johns River Water Management District permit for wetlands and stormwater (see ATTACHMENT 4). The project has preserved 25.4% as natural preservation, saving all seven (7) historic trees on-site. The project has provided a Listed Species Report and Environmental Support Document regarding wildlife species and on-site wetlands. There are no wellfields or individual wells on-site. The Site Plan Review Committee concludes that the project will not adversely impact environmentally sensitive lands or natural resources, including but not limited to water bodies, wetlands, xeric communities, wildlife habitats, endangered or threatened plants and animal species or species of special concern, wellfields, and individual wells.

4. The proposed use will not substantially or permanently depreciate the value of surrounding property; create a nuisance; or deprive adjoining properties of adequate light and air; create excessive noise, odor, glare, or visual impacts on the neighborhood and adjoining properties.

The proposed project is consistent with the property's land use designation and zoning classification within the Planned Business Development. The property's land use and zoning are different than many other large parcels that have low density residential land use designations and zoning classifications in the west Ormond Beach area. Based on the location at the intersection of Tymber Creek Road and West Granada Boulevard a commercial land use designation was assigned, including the allowance of multi-family development. The project team has sought to design the project to minimize impact to the abutting residential properties at Indian Springs and Moss Point. Specific site design items include: emergency only access to Tymber Creek Road, addition of landscape plantings, turning of building 8, natural preservation areas that exceed the Land Development Code, and buffer walls and fences.

Through the site plan process, staff has received correspondence, participated in meetings, and attended the neighborhood meeting where individuals have expressed concern regarding the project density, impacts to surrounding properties, and stated that multi-family is not compatible next to single-family residential uses. The Indian Springs Homeowner's Association letter dated November 26, 2022 seeks to eliminate buildings 8 and 9 based on impacts to Indian Springs. Specific correspondence is provided in ATTACHMENT 3.

Staff's analysis focuses on what the Land Development Code allows. The project can gain administrative Site Plan Review Committee approval for 164 units, two stories in height (30'), at 180 linear feet in length, accessed on both Tymber Creek Road and West Granada Boulevard with a 20' landscape buffer and a 50' building setback. Staff is also mindful that commercial uses are permitted uses that would have additional impacts (hours of operation and additional traffic). During the meeting with the project

team and the Indian Springs residents, building 8 has been the focal point of discussion and site redesign. Staff would recommend the elimination of building 8 to address concerns of incompatible uses. Staff concludes that the proposed project is consistent with the property's land use designation and the Planned Business Development classification and will not depreciate the value of surrounding property. The project's site plan will not create excessive noise, odor, glare, or visual impacts on the neighborhood and adjoining properties.

5. **There are adequate public facilities to serve the development, including but not limited to roads, sidewalks, bike paths, potable water, wastewater treatment, drainage, fire and police safety, parks and recreation facilities, schools, and playgrounds.**

   There are adequate public facilities to serve the proposed development, including roads, sidewalks, bike paths, potable water, wastewater treatment, drainage, fire and police safety, parks and recreation facilities, schools, and playgrounds.

6. **Ingress and egress to the property and traffic patterns are designed to protect and promote motorized vehicle and pedestrian/bicycle safety and convenience, allow for desirable traffic flow and control, and provide adequate access in case of fire or catastrophe. This finding shall be based on a traffic report where available, prepared by a qualified traffic consultant, engineer or planner which details the anticipated or projected effect of the project on adjacent roads and the impact on public safety.**

   The project abuts West Granada Boulevard (Florida Department of Transportation roadway) and Tymber Creek Road (Volusia County roadway). Both organizations have participated in the traffic/access review of this project. The project has submitted traffic impact analysis documents that have been reviewed by city staff, independent traffic consultant hired by the city, Volusia County, and the Florida Department of Transportation. ATTACHMENT 5 contains traffic related documents. Some documents only include the main report and attachments can be found at: https://www.ormondbeach.org/1015/Tymber-Creek-Apartments. The documents include:

   A. Florida Department of Transportation driveway and drainage permits for the project. These are the permits that allow the project access to West Granada Boulevard.

   B. Volusia County November 10, 2020 Traffic Impact Analysis approval. This approval was for the original traffic study that included (1) access on Tymber Creek Road and (2) 90,000 square feet of commercial uses on the 2041 West Granada Boulevard parcel. The Tymber Creek Apartments submittals would amend access to West Granada Boulevard only and Volusia County Traffic Engineering stated that no additional Volusia County review was required.

   C. Traffic Engineering Data Solutions, Inc., Site Access Analysis Review. Traffic Engineering Data Solutions, Inc. was hired by city staff to perform a traffic review of the project's traffic study. Traffic Engineering Data Solutions, Inc. reviewed the

August 30, 2022 site access analysis and determined it acceptable for traffic engineering and the city concurrency/traffic requirements.

D. Lassiter Transportation Group, August 30, 2022 – site access analysis. This analysis was required as an update to the original (August 2020) traffic impact analysis. The site access analysis included (1) the approved Florida Department of Transportation access/permits, (2) use current 2022 data and information, (3) incorporate the Riverbend Academy school expansion turning movements, (4) focus solely on the Tymber Creek Apartment multi-family use.

   Key findings included:

   1. Table 4, page 5: Project trip generation. Based upon the Institute of Transportation Engineers (ITE), Trip Generation Manual, 11th edition the total project trips are 1,386. The A.M. peak hour trips are 120 and the P.M. peak hour trips are 117.
   2. Figure 4A, page 9: 2024 A.M. Peak Hour Build-Out Volumes. This figure shows 83 A.M. peak hour trips making a U-turn at the unsignalized intersection of Coquina Presbyterian Church and Riverbend Church.
   3. Figure 4B, page 10: 2024 A.M. Peak Hour Build-Out Volumes. This figure shows 41 P.M. peak hour trips making a U-turn at the unsignalized intersection of Coquina Presbyterian Church and Riverbend Church.
   4. Conclusion, Page 14.
      A. The unsignalized study area intersections will continue to operate with the adopted LOS.
      B. The signalized study area intersections will continue to operate with the adopted LOS.
      C. The study area roadway segments will continue to operate with the adopted LOS.
      D. A 350-foot westbound right-turn lane (includes taper) is warranted at the project driveway, however, there is an existing 150-foot (includes taper) westbound right-turn lane at the driveway which is constrained because of its proximity to the signalized intersection of SR40/Granada Boulevard at Tymber creek Road. It is noted that this project access has been approved by FDOT at the time of this analysis update.

E. Lassiter Transportation Group, October 1, 2021 –access analysis. This analysis was an amendment to the October 2020 Traffic Impact Analysis. The analysis was done to evaluate the adequacy of the existing turn-lane lengths at SR40 at Coquina Presbyterian Church driveway to the west and the intersection of SR40/Tymber Creek Road to the east where project trips will make U-turn maneuvers. The analysis concluded:

   1. The unsignalized study area intersections will continue to operate with the adopted LOS.
   2. The signalized study area intersections will continue to operate with the adopted LOS.

F. Lassiter Transportation Group, October 2020 – Traffic Impact Analysis. This is the original project Traffic Impact Analysis. This study has been amended and updated. It is important to note that this analysis included (1) access onto Tymber Creek Road and the land area of 2041 West Granada Boulevard for the development of 90,000 square feet of commercial on 9.93 acres. Tables 9 and 10, page 11 of the analysis show the following trip generation:

EXHIBIT 10: Trip generation tables

Project Trip Generation

The trip generation for the development was determined using the Institute of Transportation Engineers (ITE) 10th Edition of the *Trip Generation Manual* and is presented in Table 9.

Table 9
Gross Trip Generation
Tymber Creek Apartments

Time Period	Land Use	ITE LUC	Trip Rate Equation	Size	Units	Percent Entering	Percent Exiting	Trips Entering	Trips Exiting	Total Trips
Daily	Mid-Rise Multifamily	221	T=5.45(X)-1.75	300	DU	50%	50%	817	817	1,634
	Shopping Center	820	Ln(T)=0.68Ln(X)+5.57	90	KSF	50%	50%	2,799	2,799	5,598
							Totals:	3,616	3,616	7,232
A.M. Peak-Hour	Mid-Rise Multifamily	221	T=0.36(X)	300	DU	26%	74%	28	80	108
	Shopping Center	820	T = 0.50(X)+151.78	90	KSF	62%	38%	122	75	197
							Totals:	150	155	305
P.M. Peak-Hour	Mid-Rise Multifamily	221	T=0.44(X)	300	DU	61%	39%	81	51	132
	Shopping Center	820	Ln(T)=0.74Ln(X)+2.89	90	KSF	48%	52%	241	262	503
							Totals:	322	313	635

Due to the mixed-use nature of the development, a certain portion of the trips generated is expected to remain internal to the site, known as internal trips. Additionally, a portion of the trips known as pass-by trips (limited to 14% of the adjacent roadway traffic volume for County facilities, and 10% on State facilities) will be attracted to the development from existing traffic on the adjacent roadways. These internal trips were calculated using The National Cooperative Highway Research Program (NCHRP) Report 684 worksheet while pass-by trips were calculated using procedures outlined in the ITE Trip Generation Handbook, 3rd Edition. Internal and pass-by trips were deducted from the gross trip generation and the resulting net new external a.m. and p.m. peak-hour trips are provided in Table 10.

Table 10
Net Trip Generation
Tymber Creek Apartments

Time Period	Land Use	Total Trips			Internal Capture Trips			Pass-by Capture Trips			New External Trips		
		Enter	Exit	Total	Enter	Exit	Total	Enter	Exit	Total	Enter	Exit	Total
A.M. Peak-Hour	Mid-Rise Multifamily	28	80	108	1	1	2	0	0	0	27	78	105

P.M. Peak-Hour	Mid-Rise Multifamily	81	51	132	37	21	57	0	0	0	44	30	74
	Shopping Center	241	262	503	21	37	59	74	77	151	146	148	294
	Totals:	**322**	**313**	**635**	**58**	**58**	**116**	**74**	**77**	**151**	**190**	**178**	**368**

An important aspect of this application is the traffic and trip generation. While this analysis has been updated, it is important to note the trip generation of multi-family residential versus commercial uses. The traffic analysis shows that the residential use has a lower trip generation in the daily trips, a.m. peak hour, and p.m. peak hour. The Tymber Creek Apartments is a larger parcel (19.62 acres versus the 9.93 acres in this analysis) and permitted commercial uses would have greater traffic impacts than the current application.

Based upon the issuance of the Florida Department of Transportation permits and the traffic analysis prepared for this project, staff concludes the ingress and egress to the property and traffic patterns are designed to protect and promote motorized vehicle

and pedestrian/bicycle safety and convenience, allow for desirable traffic flow and control, and provide adequate access in case of fire or catastrophe.

7. **The proposed development is functional in the use of space and aesthetically acceptable.**

   The site design allows a function use of space and is aesthetically acceptable. The project provides recreational area for residents including the clubhouse, pool and dog park area.

8. **The proposed development provides for the safety of occupants and visitors.**

   The proposed development provides for the safety of its occupants and visitors. Pedestrian access has been provided. Fire safety SPRC reviewers have determined that the project is acceptable.

9. **The proposed use of materials and architectural features will not adversely impact the neighborhood and aesthetics of the area.**

   The proposed material and architectural features are compliant with the Land Development Code regulations. The Indian Springs Homeowner's Association letter dated November 26, 2022 seeks to eliminate buildings 8 and 9 based on impacts to Indian Springs.

10. **The testimony provided at public hearings**.

    This application has not been heard and no public testimony has been provided.

SECTION 6, RECOMMENDATION:

The Planning Board has three (3) options in the review of this application:

1. Approve as submitted.
2. Deny as submitted.
3. Approve the project with conditions. An example of the conditions would be the request from the Indian Springs Homeowner's Association to eliminate buildings 8 and 9 based on impacts to Indian Springs.

Key aspects in the review of the application:

1. Multi-family dwellings are an allowed use within the B-8, Commercial zoning designation.
2. The land use density allows 471 residential units and the zoning density allows 164 residential units. In order to exceed 164 residential units, a Planned Business Development is required and the criteria are included in this staff report.
3. The proposed use of multi-family dwellings has a lower trip generation than other commercial uses allowed as permitted uses (no public hearing required).
4. The project has provided public benefits through the Planned Business Development that may or may not occur with a permitted use site plan. These include restricted access onto Tymber Creek Road, larger building setbacks, increase landscape buffers, increase overall land preservation, minimal wetland impacts, turning of a building, and increase fence/wall buffering.
5. The trigger thresholds that require a Planned Business Development are (1) density, (2) building height, and (3) building length.

6. Project correspondence has been included in ATTACHMENT 3 and demonstrate concerns about compatibility, traffic, density, quality of life, and site design. These correspondences generally seek option 2 above to deny the application.
7. Both the project team and Indian Springs have met to discuss the project impacts and potential project alternatives. The project team has been responsive in seeking site design solutions to address the concerns expressed. The Indian Springs Homeowner's Association letter dated November 26, 2022 seeks Option 3 (approve with conditions) above to eliminate buildings 8 and 9 based on impacts to Indian Springs.
8. Florida Department of Transportation permits have been issued for this project.
9. The project has wetland and stormwater permits from the St. Johns River Water Management District.

It is recommended that the Planning Board recommend **APPROVAL** of PBD 2022-008 that approves a Planned Business Development construction of 300 multi-family units on 19.62 acres at 36 North Tymber Creek Road and 2011 West Granada Boulevard with the condition of the elimination of building 8. During the meeting with the project team and the Indian Springs residents, building 8 has been the focal point of discussion. The project is tentatively scheduled for the City Commission on January 24, 2023 (first reading) and if approved on first reading, the second reading on February 7, 2022 (final reading).

Another option available to the Planning Board would be to deny the application. If there is a desire to deny the application, Criteria 4 and 10 could provide the denial framework. A third option is to approve the project with conditions. The Indian Springs Homeowner's Association letter dated November 26, 2022 seeks to eliminate buildings 8 and 9 based on impacts to Indian Springs.

Site Plan Review
Committee comments

Project Name: PZ-22-008
Project Description: Tymber Creek Apartments
Review Comments List Date: 11/27/2022

Ref. # 77, Civil Engineer, David Allen, 11/1/22 2:46 PM, Cycle 6, Unresolved

Markup: Civil-Wall and Building Review, 36.1 WALL DETAILS.pdf

The review of this wall requires the design calculations being reviewed for the structural capability adjacent to the wet detention facility and the building in close proximity. The two structures will require separate building permits. The City of Ormond Beach will require an independent review by a structural engineer for the correlation between the structures. This review will be completed and the cost will be the responsibility of the developer.

Ref. # 78, Civil Engineer, David Allen, 11/1/22 2:46 PM, Cycle 6, Unresolved

Markup: Civil-Building Code, 36.1 WALL DETAILS.pdf

This should reference the 2020 Florida Building Code (7th Edition).

Ref. # 79, Civil Engineer, David Allen, 11/1/22 2:46 PM, Cycle 6, Unresolved

Markup: Civil- Building Location, 36.1 WALL DETAILS.pdf

Show the location of the building foundation on this cross section.

Ref. # 80, Civil Engineer, David Allen, 11/1/22 2:46 PM, Cycle 6, Unresolved

Markup: Civil-Distance, 36.1 WALL DETAILS.pdf

Provide distance from segmental wall to building footprint.

Ref. # 81, Civil Engineer, David Allen, 11/1/22 3:02 PM, Cycle 6, Unresolved

Markup: Civil-Wall Comments, 36 WALL DETAILS.pdf

See the comments on Sheet 36.1 regarding the review of the segmental block walls.

Ref. # 83, Civil Engineer, David Allen, 11/16/22 3:14 PM, Cycle 6, Unresolved

Markup: Civil-Lighting, 91 PHOTOMETRIC.pdf

The details for the lighting includes wall mounted, WSG4L45K, fixtures. However, the photometric plan does not indicate additional foot-candles. Where will the wall mounted lights be placed? Will these light fixtures also need the glare guards?

Ref. # 73, Landscape Architect, Cara Culliver, 7/13/22 11:25 AM, Cycle 4, Unresolved

Markup: Landscape Comment Sheet 67, 67 OVERALL LANDSCAPE.pdf

- The provided ground covers for the front buffer is 153 and not 212, please check the math.

Ref. # 75, Landscape Architect, Cara Culliver, 8/9/22 5:08 PM, Cycle 5, Unresolved

Markup: Total Amount of Tree Provided Chart, 72 LANDSCAPE DETAILS.pdf

- See mark-up regarding the numbers, please correct.

Ref. # 82, Landscape Architect, Cara Culliver, 11/3/22 2:21 PM, Cycle 6, Unresolved

Markup: Sheets 67 & 72, 67 OVERALL LANDSCAPE.pdf

- Sheet #72 was not submitted and has outstanding comments.
- Sheet 67 has not been corrected, comment on project doxs.

Subject:	Additional emails to be provided to the December 8 Planning Board from Gary Von Glinow
Date:	Sunday, November 27, 2022 5:46:55 PM
Attachments:	Emails to be provided to Planning Board members_20221127173832.pdf

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Good Afternoon, Steven,

Attached is a file with 13 additional emails (from me or to me) that I have chosen to accompany this cover email for distribution to the Planning Board members for the December 8 meeting. This array of emails is balanced in that some include high praise for Garrison and his team, but all praise is contingent on "proving" that solutions proposed by Garrison are included in the final site plan and can be field tested by markings in the forest. Of course, it was: a.) the temporal nature of the markings; b.) the insufficient mitigation of Buildings 8 and 9's impact on our house; and c.) the still undelivered, as promised, computer-generated, digital sight lines from my house to Buildings 8 and 9, that gave rise to our HOA request for removal of Buildings 8 and 9.

Steven, thank you once again for providing us with an understanding of the City's review and approval process for the Tymber Creek Apartments.

Garrison,

I agree that you and your team have delivered a plan concept that we all hope mitigates the concerns neighbors voiced in August. By staking the buildings and road, a proof of concept will be established.

It is my individual opinion that you have exhibited a best practice approach to interfacing with my little piece of the community impacted by your apartment development. You traveled to meet with us on our turf and walked the site with us. You and your team have proposed potential solutions to most of our concerns that on-site staking and observation could validate.

My family and I bought our house in order to spend most of our time outside surrounded by an idyllic Florida tropical forest. Any development will alter that. I sincerely appreciate your efforts to reduce the negative impact on Indian Springs. I also recognize that you will undoubtedly incur incremental costs in order to implement the revisions proposed to the original site plan. To date, my wife and I acknowledge and appreciate your willingness to work with us.

Best regards,

Gary

Jonathan,

I would like to add my request that the apartment road be marked behind 40 Indian Springs Drive and 39 Indian Springs Drive. Also, I am also still hopeful that the actual elevation of the buildings behind 40 and 39 Indian Springs Drive can be marked.

I also ask if Garrison has an estimate of the expected decibel level of auto, truck and motorcycle noise emanating from the apartment roadway.

Thank you to you and Garrison in advance for your consideration.

Gary,
Marking the road off the building corners with spray paint shouldn't be a problem at all. It should give a good sense on how the road will layout. For the building elevations, we plan to bring a pole extender and extend it up to the height of each building onsite with everyone.

For the average decibel levels, you can expect 45 decibels for the indoor areas and less than 55 decibels for the outdoor areas.

Please let us know if you need any additional information here.

Thanks,
Jonathon Schrader

Date Nov 3 at 12:56 PM

Good morning,

Yesterday, I spent 30-45 minutes exploring the The Tymber Creek Apartments site. I observed the following:

- Three 3-foot high wood stakes with orange ribbons: one with "Building 8" printed on the stake, one with "Building 9" printed on the stake, and one with no printed information on the stake; and

- Fresh orange, yellow and blue/white striped ribbons tied to trees.

What I did not observe is:

- any markings for the apartment road; and

- any poles marking building heights.

Garrison, is the above consistent with the scope of work you requested of the surveyors and the invoice you received from them? It is certainly possible that I inadvertently missed seeing other markings that I was expecting.

Regarding the meeting on the 9th, I am available but wonder if it will allow us to develop a complete understanding of the project's impact.

Best regards,

Gary Von Glinow

Hi Gary.
The spray painting for the road will done right before the meeting and the pole marking the height will be brought to the meeting. The surveyors simply marked the corners of the buildings as previously requested. Garrison and I will be spray painting for the road off these building corners when we come in town for the meeting.

This meeting will allow everyone to develop a complete understanding of the project's impact.

Thank you,
Jonathon Schrader

Gary – to Jonathon's point I think we can demonstrate where the road will be, & which trees are staying, and which aren't. We can do this in the field with marking paint. My plan is to come down prior to the meeting and measure off from the corners of the buildings with a pull tape and scaling off the plans from the staked surveyed corners we can show approximately where the road (parking lot drive) & privacy wall along that West boundary is located with marking paint. Everything to the west of the barrier wall is non-disturb area, therefore ALL of that said vegetation will stay so I don't think re-taping trees is necessary. I hope that will visually answer your last request.

All,

I believe Michael's email is the last that I've received. There was several overlapping, so I wanted to clarify on the dates for the reschedule. Here is what I received:

Michael Gentry – Tuesday at 2:00 or Wed. at 10:00 or 2:00
Steve Curtis – Monday after 1:30 or Tuesday
Gary Von Glinow – Monday or Tuesday

Mark Watt has changed since I sent my email earlier today. Unfortunately, he is now only available Wednesday at 10:00.

Please let me know if this would work for you.

Thank you,

Steven,
Hope all is well. The Indian Springs of Ormond Homeowners' Association, Inc. (IS HOA) respectfully submits the attached letter for Planning Board and City Commission review/action when considering the Tymber Creek Apartments Planned Development and Rezone submittal.

Please confirm receipt and that it will be part of the review documentation/packet(s).

Thank you sir!

Re: Tymber Creek Apartments (PZ-22-008)

Dear. Mr. Spraker,
As you are aware, The Indian Springs of Ormond Homeowners' Association, Inc. (IS HOA) is immediately adjacent to the northern west side of the subject property that is being considered for a Planned Development and Rezoning to significantly increase allowable density on that parcel.

The IS HOA is respectfully submitting the below requests to the Planning Board and City Commission as requirements should the project be considered for approval:

1. Building 8 and Building 9 be eliminated completely due to compatibility concerns, the visual impacts and proximity to IS HOA.
2. The Residential Block Retaining Wall on northern west side of subject property:
    a. Starting in line with the extended property line of 412600000061 (Coquina Presbyterian Church) and 412607000110 (Gary C & Catherine Von Glinow) and extending around the retaining wall radius and ending as shown on the proposed plans.
    b. Be a minimum of 10' tall.

The IS HOA would like to state and document their lack of support for the required traffic adjustments to State Road 40 (SR 40), as required by FDOT, due to significant safety concerns.

The IS HOA appreciates the opportunity to provide this input and is confident that the Planning Board and City Commission will incorporate the above adjustments to the Planned Development when considering such a significant change in density. Please do not hesitate to contact me with any further clarification or information regarding these requests.

Sincerely,

Troy Railsback
Board President/Secretary
Indian Springs of Ormond Homeowners' Association, Inc.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Steven,

I do support the position of the Indian Springs Homeowner Association as provided via separate correspondence. Regardless, I'm reaching out personally as a Citizen of Ormond Beach and Indian Springs homeowner. After the first public meeting, a group of residents met with Jaffee Corp., at Indian Springs (IS), and requested the developer modify the site plan geometry to increase the apartment building separation from IS in the NW corner of the project. Jaffee Corp. did nothing. Since that time, and on a couple of occasions, the current Developer met with IS residents to further address homeowner concerns. Although the developer made good faith efforts to alleviate the concerns, the reality is that the apartment buildings are separated from the IS boundary by less than the width of a typical IS lot. Aside from separation, my concerns are:

- Building scale relative to IS
- Multiple balconies facing the back of resident's homes
- Building and site lighting bleed into the neighborhood
- Traffic and apartment resident noise
- Vehicle headlights beaming into homes

Although the Traffic Study does contemplate the following movements and the project has FDOT approval, of additional safety concern is that 100% of the proposed apartment traffic will exit on West Bound SR40 creating a U-Turn condition for eastbound apartment traffic at either the Riverbend roadway cut, or, if the Riverbend cut is backed-up, at the next available option which is immediately West of IS. Notwithstanding, with no deceleration lanes, making a right turn into Indian Springs or IL Villaggio is challenging. Speeding SR40 westbound traffic requires relief in the south lane to avoid our right turn movements. Additional south lane congestion created by these U-Turn movements across from the subdivision entrance is dangerous. As a practical matter, the distance from the apartment exit on SR40 to the beginning radius of the deceleration lane into Riverbend is less than 150 feet, not a lot of distance to navigate across 2 lanes of traffic to a backed-up deceleration lane. This condition will only worsen as Riverbend expands.

I respectfully offer the foregoing for consideration as you contemplate approval of the Tymber Creek Apartment project.

Steve Curtis

Subject: Proposed Apartment Development at Tymber Creek Road and Granada Blvd.
Date: Tuesday, November 22, 2022 3:54:16 PM

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear City of Ormond Beach Planning Department,

I'm writing this email to document my concern and objection to increasing the existing unit per acre guidelines concerning the proposed Apartment Development project located at the corner of Tymber Creek Road and Granada Blvd. in Ormond Beach. My family and I have lived in the Moss Point Drive subdivision off Tymber Creek Road for approximately 13 years, and some of the things we value the most living in this small development is the privacy it offers and the preservation of the surrounding natural habitat. The natural beauty, flora and fauna of the strip of land bordered by Tymber Creek and Granada Blvd. should be preserved and protected, with managed development consistent with the preexisting neighborhoods off Tymber Creek Road.

Over the years we have seen how growth and development along Airport Road to the north of us has impacted the traffic along Tymber Creek Road. As traffic and congestion escalates at the Tymber Creek Road and Granada intersection, the difficulty driving out of Moss Point increases and the safety decreases in the area. This is especially evident in the mornings during the work week, where it can be quite hazardous pulling out of Moss Point and crossing Tymber Creek Road to head north, or even just pulling onto Tymber Creek Road heading south during the 7 am to 9 am rush hour time period. The risk is compounded by the increase in number of cars over the years attempting to make a U-turn on Tymber Creek Road at the Moss Point turn lane, intending to pull into the Walgreens parking lot. Making matters worse, it is very common during morning rush hour to see traffic backed up well beyond the eastbound turn lanes along southbound Tymber Creek Road at the intersection with Granada Blvd. To increase the number of units per acre at the Tymber Creek Apartment project would only put more cars and pedestrians on the road, exacerbating the congestion and safety issues in the area.

In conclusion, we have enjoyed living in this area and the quality of life it affords us. Amending current guidelines pertaining to the number of units permitted to be built on this small tract of land will proportionally and dramatically increase the population and number of cars in the area, negatively impacting the quality of life for the homeowners living in the existing subdivisions off Tymber Creek Road. Please do not increase the units per acre ordnance that is currently in place to manage our growth properly.
Thank you,
Mike Willard

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Planning Department Ormond Beach:
We have lived at 20 Moss Point Drive since the Development sold lots and houses built, going on 33 years. We purchased and built because of the development's uniqueness, privacy, and roaming wildlife. We bought and built because of the zoning and restrictions on the surrounding properties. We have just completed an election cycle during which those seeking our vote assured us that beauty of our city would be preserved. That development would be managed and controlled. We look now for those words not to become hallow or manicured but upheld.
I am a resident of this area for 73 years , having been born at Halifax Hospital , raised near Our Lady of Lourdes Church and school, which I attended, then Father Lopez High School, then out of state for college and law school, knowing I would always return "home".
When the Jaffee group held the property, they sought to, and succeeded at, annexing a connected piece of property into the city. Later, we met with many of the city commissioners, showed them our neighborhood and walked to the project, pointing out our concerns. Instead of meeting with us, the mayor suggested that we meet directly with the attorney for, and a representative of, the proposed project. Dr. and Maureen Weiss graciously opened their home for the meeting. Concessions were pitched back and forth, each side conceding, compromising. Though we all left with the belief the project would go forward, with the concessions each pledged- to be put in writing once they got to presenting the project to the mayor and commissioners.
Waiting for the final project to be presented, we learned that the property had been sold, from the local consortium to an out of state group. Next, we were notified that the new group would be seeking the city grant an expansion from the original 10 unit per acre allowance to18 units per acre.
As a native of this area, I am horrified driving down N Clyde Morris Blvd. from Granada into Daytona. Worse is Williamson from Granada to Mason Avenue. No doubt these never-ending apartment complexes generate increased revenue for each's respective cities or the county. But at what cost? I have not spoken with one person who believes they aesthetically add to the community. I fear our elected public servants look at the tax base revenue generator and succumb, rarely foreseeing or admitting the loss, the strain on water supply, the increased traffic congestion, let alone "preserving our community".
Moss Point still has many of the original land purchasers who built their dream home at their dream location, based upon an original pledge that the surrounding areas were restricted to certain growth.
Sometimes I get concerned, as the farthest west developments that will be severely impacted by any extension of this project, we are out of sight, out of mind!
Those of us who remain in these exterior developments have demonstrated we are here for the long haul and because our land, with its attributes of peace, tranquility, and an abundance of wildlife I now get to show my grandchildren, having done the same with their now mom and dads, deeply means something to us.

Respectfully , Michael Lambert

To Planning Department Ormond Beach
Concerning Tymber Creek Apartments

This letter is written regarding the request to expand the Tymber Creek apartment project from 10 units per acre to 18 units per acre allowing for an 80 % increase in the population density as well as allowing for a similar increase in the total number of residents. The builder is entitled to build 10 units per acre as the land was zoned for this number. Building more than this would require an exception to the current zoning and will result in a major impact on the residents of this area. It is the ***exception*** we object to. The reasons are the following:

1: I am a hematologist and oncologist who has practiced for 37 years in this area. Our emergency rooms are filled, hospital beds are not always available and access to physicians in a timely manner is increasingly difficult. This is not just an inconvenience but can potentially be life threatening. You need to make sure that the growth in the population is accompanied by a commensurate growth in the medical community as well. Please do not increase the number of residents in the area without an adequate infrastructure as it is not safe.

2: Most of us moved here to live in a small community and avoid the high population densities of the larger cities. Bringing in large numbers of new residents in Ormond Beach will undermine this and is supported primarily by the few who will make profit and generally opposed by the vast majority who want to live in a more open space. Allowing this to happen is not planning but acquiescence. Please help find a happy medium.

3: The animals: they cannot speak for themselves, yet they gift us their presence. I do not see deer, turkey, turtles and the myriad of other species in our large cities. Let us avoid this becoming our legacy.

If we do not limit the population growth in Ormond Beach now, we will not be able to undo the consequences in the future.

Thanks for listening and sincerely,

Richard Weiss

Subject:	Opposition to Proposed Tymber Creek Apartment Project
Date:	Sunday, November 13, 2022 11:54:30 AM

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Good morning Mr. Spraker,

The purpose of this letter is to express our concern and opposition to the proposed Apartment Development project at the NW corner of Tymber Creek and Granada Blvd. in Ormond Beach, Fl.

As longtime residents of Ormond Beach, living in the Moss Point SubDivision, we have enjoyed a very nice quality of life including privacy, reasonable traffic, safety and abundant wildlife in our surrounding acreages. Additionally, we have benefitted from the local commerce and controlled / managed growth that has occurred during the last 10+ years.

We are not against managed growth! **We are are very concerned that there is consideration to raise the existing unit per acre guidelines** and potentially grant exemptions to the developer. The developers in Ormond Beach and nearby Daytona have a right to build within existing guidelines, and they are currently adding thousands of units in the surrounding area. Please don't increase the number of Units per acre allowed.

To increase the number of units per acre at the Tymber Creek Apartment project would be in direct conflict with the controlled / managed growth program that has been successfully in place for years. Although there are many negatives to increasing the units per acre we will just cite one, **traffic flow and safety near the Tymber Creek and Granada intersection, and subsequent eastbound Granada traffic congestion.**

This is already a known problem during rush hours, particularly in the mornings. It is difficult to drive out of our housing development onto Tymber Creek southbound in the mornings because traffic is frequently backed up from Granada northward all of the way to the lights at the entrance to Break Away Trails. Frequently southbound cars on Tymber Creek that want to turn left onto Granada and head eastbound are instead driving through the intersection and cutting through the neighboring strip mall and skipping the Tymber Creek turn lane altogether! What would several hundred additional cars do to this already congested intersection?

We have pictures of the traffic backed up to the Break Away trails intersection that we will be glad to share with you. Please do not increase the 'units per acre ordnance' that currently is in place to manage our growth properly.

Kind regards, John and Cheryl Dietz

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Please include these in the Planning Board packet:

This project is not compatible with the neighboring subdivisions.

The land development code allows for only 164 units, and any increase in density will be detrimental to the quality-of-life for the surrounding area's residents.

The traffic issue will become horrendous with people racing through the Walgreen's parking lot, making U-Turns in all directions on Granada Blvd., especially with the heavy school traffic in this area (from Riverbend, Calvary, Pathways, Pine Trails).

With the creeks and rivers, flooding concerns also remain an issue for this area.

This is not the right project for this area. We ask that it be rejected.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Planning Board Members:
We are writing as we will be out of town on 12/8/22 when this meeting will take place.

We are asking the OB Planning Board members to deny this apartment project in its current form. Before granting variances to a developer please remember the current residents who live in the area and how this will affect their lives. Evaluate all new projects to ensure our last remaining green spaces are not over built, our roads & schools are not overloaded, and that infrastructure is in place before allowing a project to begin.

As you are all aware the traffic @ Tymber Creek and Granada is already problematic during school and rush hours. There are multiple new approved housing projects that will use this road. Many are ongoing and some (Marshside) have not started & are not part of the Traffic study (and will not be for years.) Aside from the traffic, the wear & tear on our roads, schools, water usage, flooding & the many issues that result in a project of this scale being built on this lot.

Adjacent to Ormond are thousands of new apartments that have been built. Large apartment complexes on Williamson, LPGA, Clyde Morris. All indirectly putting pressure on the resources that we who live in Ormond Beach are affected by daily.

We understand the need to allow new projects, but this is the type of project that should NOT be approved. This land should be bought back by either Ormond Beach or the State of Florida.
In our opinion, in order for Ormond beach to continue to be a desirable place to live not every project needs to be approved or every piece of land be developed. An Apartment complex of this size in this location does not benefit any resident that currently lives in this area.

Please take these concerns in your decision before you allow this project to move forward.
Please ask yourselves this simple question: Will this project enhance the quality of life for existing residents?

Debra & Matt Weinberg

Received 11.07.2022 – From Ron Hoopper

Planning Board

Tymber Creek Apartments

The property now is zoned for 164 units per acre. The density of which should not be increased.

What is best for residences of Ormond Beach especially West of I-95?

If the City's Land Development Code allows for 164 now, then why would and increase be of any value to the residence of Ormond Beach? Greater density is NOT what residence want nor need. This policy decision to increase the density should not be approved. Density has been discussed many times concerning Ormond Beach and it is something few people want.

The owner of the property knew what the Ormond Beach zoning is for this area. There should be NO expectations that the number of units/density should be approved.

This area on the north side of Rt.40 and west along nearby Tymber Creek Rd. have defined established neighborhoods. Residence bought their homes knowing of the present zoning of the property in question. They did not expect that a developer would ever want to increase the density more than doubled the allowed units.

Although these apartments have been referred to by the developer as "luxury apartments", they are no difference then any of the apartments that have been going up in Daytona Beach near Ormond. You can put lipstick on a pig, it's still a pig.

Ingress and egress for the proposed apartments are the same for Walgreen's, off of Rt 40. When people leave this area, they go west onto Rt 40 then, if they need to go into Ormond Beach/I-95 they must make a U turn on Rt 40 approx. 1/10th of a mile from Walgreens. The U turn is in front of Riverbend Academy which has approximately 310 students from preschool to 12th grade. With the continuing

increase in traffic now and especially future traffic from Avalon Park, it makes no sense to approve greater density in this area and create more traffic congestion.

There are traffic issues from Tymber Creek Rd to I-95. Study By FDOT recognized another needed traffic light.

The present design of Rt 40 is not prepared for this increase of density and would need considerable upgrades/redesign first and foremost.

Although there is no proposed ingress/egress onto Tymber Creek Rd all one has to do is travel through Walgreens parking lot to use Walgreen's ingress/egress. That is planning at its worst.

Obviously, the design shown on the site plan leaves little distance between 3 story unit buildings and Indian Springs community.

I believe Ormond Beach can and should do better then to approve more density, greater traffic congestion, possible loss of home values near the area and start to become and extension of Daytona Beach. Requests do not always have to be approved when in good conscience it is in the best interest of Ormond Beach and residence in the area not to approve this request.

Mr. Spraker,

I ask you to take this email seriously. As I am not the only person with the same concern. Ormond Beach cannot handle anymore traffic or people moving in. We need to keep our community "Ormond Beach" not a destination for people moving from other states. It is with great concern that I write to you because, as a native, I've seen so much change within the last 20 year.s And I have 35 years within this beautiful place. Granada cannot handle the traffic. Please stop with more apartments. Keep our wetlands and wild animals safe from new construction. WHERE ARE THE ANIMALS SUPPOSED TO LIVE? Growing the town larger will not do us justice, nor the animals, and the population will turn into a mini Miami. Or worse, a Daytona Beach city corner.

My true message is as follows. PLEASE CONSIDER THIS AS A GREAT CONCERN TO ALL ORMOND BEACH RESIDENCE!

My most sincere gratitude,

Lauren Campbell
29 Oak Ave, Ormond Beach

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Planning Board & City of Ormond Beach:

Please please please do not allow these apartment buildings in our backyard. We are homeowners in Tymber Crossings and our quality of life is already taxed with all the development in Hunters Ridge. Now City Council approved nother 129 homes on Airport Road and Tymber Creek. If anyone on the planning board lives off Tymber Creek road you would see that it takes 30 min to go 2 miles to get to 95 in the morning. There is just no way the intersection of Granada and Tymber Creek can safely handle more traffic. We all bought west of 95 purposely to stay away from rental apartments.

Here are some of the issues

1. Building on the wetlands (yes the out of town developers mitigated the wetlands), right on the little tomoka river, we just had significant flooding, not to mention the chemical runoff from the landscaping straight into the river. Keep those wetlands clear to protect our homes from flooding, wildlife and water quality.
2. Horrible location planning for apartments. They are proposing the apartments share an exit with Walgreens. The renters will need to go west on Granada and make a U-Turn right at the Riverbend church/school exit (which is busy in the mornings), in order to access 95, town and shopping. There will be accidents as approximately 800 cars will be making U-Turns in the morning right where the school's exit is with hundreds of cars as well. Sunday is also extremely busy for Riverbend Church exit.
3. The people in the apartments will naturally become frustrated waiting to cross Granada to make a U-Turn on their way to work and will cut through the Walgreens parking lot to use Tymber Creek to turn left. This will make road rage as residents off Tymber Creek road that back up waiting 20 min + to make that turn will not want to let people cut in from the Walgreens parking lot. It just makes for an angry start to the day and an unhappy community all around.
4. We are a Single Family Home community! Our area is already stressed and there are more single family homes already approved (Tattersall/Avalon/HuntersRidge) that will significantly strain our clean water availability and the Traffic will be horrendous. We do not need or want apartments!

As a Realtor, I understand the owners from St Augustines have rights but not for apartments. Please do not approve this! If they want to use the land for a strip mall/businesses that makes a little more sense as long as it's not on wetlands and a much smaller footprint. Along the river there should be protected.. Our property taxes just went up and now developers want to also take away our quality of life and create guaranteed dangerous driving for all of us including the prospective tenants. Leave the apartments west of 95. I'm on our HOA board and neighbors are seriously discussing moving as a result of the apartment buildings. Look at Port Orange as an example and trust your gut and please vote no.

Thank you,

Renata Rosander and Geraldine DiRodio

Hello Mr. Spraker,
I am writing in regards to the proposed apartments off 40 and Tymber creek road. I am resident of Tymber Creek and find the traffic Already horrible. I cannot fathom what this road will look like when more apartments go in. Sometimes (no kidding) it has taken me 15 minutes just to go 2 miles during school hours. I would like to voice my concern and ask that this complex be axed. I feel like I have been hearing about these apartments for years now?
Thanks for listening,
Kelly Filasky

I am a definately NO vote on this. Our traffic is already horrendous Can't see 600 more cars getting in the mix (assuming 300 units with 2 cars each) Can't they build north off US 1?

Michael,
Thank you for passing along the information and keeping the group input/feedback/responses regarding Indian Springs HOA and more specifically a few of our Indian Springs Property Owners who will be adjacent to the development.

Garrison/Harry/Mark,
Thank you for your gracious efforts in incorporating the Indian Springs HOA's input/requests into this iteration of your site/development(s) plans.

The main focus and open item for me is the traffic impact to the current HWY 40 layout just west of the ingress/egress of your development, and more specifically the lack of turn lanes into our development (Indian Springs) as well as the Coquina Presbyterian Church (just west of your property and the Jaffee parcel on HWY 40) and Il Villaggio (just west of Indian Springs). I will continue to highlight this flaw in the current HWY 40 layout, that will become dangerously/fatally more evident with the traffic impacts of you parcel's requested use at a significantly higher density than zoned/planned. Walgreens has a turn lane (as will you in conjunction with the ingress into your parcel). Breakaway Trails has a turn lane and so does Hunter's Ridge. If having turn lane to ingress into the Tymber Creek Apartments is important and vital to traffic flow into the apartments, then the same should apply for mitigating egress traffic from a significantly higher density use than zoned/planned. Yes it has been mentioned that a longer turn lane(s) (for U turns) will very likely be part of the upgrades to HWY 40, but the weaving drivers and traffic congestion of the egress traffic from Tymber Creek Apartments mixed with Traffic Flow coming west on HWY 40 from the light at Tymber Creek Road will result in distracted, speeding, annoyed drivers (at speeds of 50+ mph) significantly more opportune to be stalled in focus of vehicles slowing down to less than 20 mph to exit HWY 40 to ingress into those above mentioned entrances without turn lanes. So my ask is that you are an advocate/good steward/supporter (vocally and financially?) of the City and State making these suggested improvements (turn lanes into those above mentioned entrances without turn lanes). Please know that Indian Springs did have a turn lane in the past, however traffic into our development and more importantly traffic on HWY 40 has significantly increased.

Steve (Spraker),
The previous paragraph is something that I would like to discuss with you further when the opportunity presents itself in the very near future. I also would like for it to be part of the note(s) reviewed by the Planning Board/Commission/Other Reviewers.

All,
Please do not hesitate to call me on my cellphone (321-663-7301) to discuss further. More later…

Garrison,

I agree that you and your team have delivered a plan concept that we all hope mitigates the concerns neighbors voiced in August. By staking the buildings and road, a proof of concept will be established.

It is my individual opinion that you have exhibited a best practice approach to interfacing with my little piece of the community impacted by your apartment development. You traveled to meet with us on our turf and walked the site with us. You and your team have proposed potential solutions to most of our concerns that on-site staking and observation could validate.

My family and I bought our house in order to spend most of our time outside surrounded by an idyllic Florida tropical forest. Any development will alter that. I sincerely appreciate your efforts to reduce the negative impact on Indian Springs. I also recognize that you will undoubtedly incur incremental costs in order to implement the revisions proposed to the original site plan. To date, my wife and I acknowledge and appreciate your willingness to work with us.

Best regards,

Gary

> Harry – do we have a schedule for the field work contemplated for the surveyor? I'm happy to try and mark that wall contemplated in the site plan in addition to the bldg. corners.
> Gary – I'm not sure that balloons would give you a good representation of the height of the building elevations or not. You would have to do so on a VERY still day with no wind pollution to get the desired outcome. Let us get the staking down in the field first and discuss via an online meeting. Please keep in mind that the existing natural buffer (between the contemplated screening wall and the property line) almost all of that existing vegetation will stay and not be disturbed. We will in addition to what is already there add more rather mature (10-12 foot) EVERGREEN trees that grow upwards of 70ft to additionally screen beyond the existing vegetation that is inside that vegetation buffer. I think you will find that in no time the apartment elevations are going to be totally screened. We also have pivoted the bldgs to adjust the line of sight from the balconies with this revised site plan & added the full fence enclosure of the apartments to make sure that no trespassing is easily contemplated between the apartment tract and the Indian Springs neighborhood without scaling a fence. I hope you can see that our efforts are doing our very best to address your concerns.

> Mark,
> I agree with Michael Gentry's email to you on September 19 regarding the latest site plan for the Tymber Creek Apartment development. Unfortunately, I didn't submit my comments to Michael regarding the site plan until the afternoon of September 19. The purpose of this email is to convey my site plan comments and requests, which I believe are consistent with Michael's.
> First, thank you, Garrison and Harry for meeting with us on August 15 at the development site and my backyard. All three of you listened to our issues and concerns and have now proposed revisions to your site plan that appear to be consistent with what we discussed. As Garrison noted in his August 18 letter to me, staking Buildings 8 and 9 will allow us "to know exactly what we are dealing with from a buffer perspective."
> Regarding the staking, I also ask that balloons or some other form of staking be used to show the actual elevation of Buildings 8 and 9. In addition, the close proximity of the Apartment road to our pool house and outdoor swimming pool, may pose significant headlight and noise (motorcycle) intrusion on us and our neighbors. Therefore, I also request that you stake the west side of the Apartment road/wall that runs parallel with Indian Springs Drive and Circle. I also wonder if the construction and materials of the proposed wall have noise reduction qualities.
> Thank you once again for listening to us and making what I hope will prove to be a significant reduction in our buffer and privacy intrusion concerns. I very much look forward to discussing the revised site plan once the above staking has been completed.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

August 17, 2022

Mr. Spraker,

First, I would like to thank you for your service to our community and your consideration of this letter. I know it takes time and responsibility in achieving your goals for our community.

Secondly, I am writing this letter regarding the projected Tymber Creek Apartment complex to be located next to and behind the Walgreens on the corner of Granada Blvd and Tymber Creek Rd. I believe that this development will have a significant negative impact on the community that I and my family have lived in for over 40 years. Many of our local residents, including myself, attended the meeting at Coquina Church in June regarding this proposed complex. This development in its location and size will make our community much less safe and the traffic volume and traffic pattern will make this area dangerous, especially for school and public transportation as it was discussed at the meeting. As a result, this will make our Ormond Beach area much less desirable.

There is a saying: "**Less is More**" Regarding this development and location, I believe, **less** development results in **more** safety, **more** beauty, and a **more** eco-friendly environment. In my opinion, negating or significantly limiting this development would be the **more** responsible decision.

Please consider this when voting on the advancement of this development. Again, I would like to thank you for your time, your service and your consideration.

Sincerely,

Dr. Roxy Marrese Jr., M.D.

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Mr. Spraker,

My wife and I live in the Moss Point Subdivision. I attended the June meeting at the Coquina Church pertaining to the projected Tymber Creek apartment development. There are several items that were discussed at the meeting that are concerning, not the least of which is the impact to the existing residents in the area of the planned development. Most of the people have significant investments in their properties and enjoy the lifestyle we have become accustomed to over the years, which made Ormond Beach the place we decided to live and raise our families.

Another concern is the desire of the developer to increase the overall size of the project. Allowing an increased size will negatively impact the density of our area and worsen the existing traffic problems on Route 40 and Tymber Creek Road. Currently trying to make a left turn from Tymber Creek Road on to route 40 takes several traffic lights due to the back-up of traffic already existing on route 40 going east. The delays will only get worse due to the residents wanting to exit the apartment complex and go east into Ormond Beach. To do this they must attempt to cross two lanes of west bound traffic on route 40 and then attempt to make a U-turn into east bound traffic. The likely hood of accidents, injuries or worse and further back-ups is heightened.

Another person at the meeting asked the developer if they are going to manage the complex after the project is completed and for how long. The response was they would build it, manage it, and in a year sell it. That attitude does not bode well for our community. This project appears to be nothing more than a money-making proposition for the developer and a detriment to the citizens and the city of Ormond Beach.

My wife and I hope the planning board and commissioners will seriously consider studying existing options in the codes that mitigate the impact to the subdivisions that will be negatively impacted by this development. We are all caring residents of Ormond Beach and are concerned about the future of our properties, the lifestyle we have all come to love and the wellbeing of our city.

Thank you for the opportunity to express some of the concerns that we have about the proposed development.

James and Sylvia Barocas
16 Moss Point Drive

Subject: Tymber Creek Apartments

Dear Steven and David,

First and importantly, thank you for the time you spent meeting with Steve Curtis, Michael Gentry and me at the north cul de sac of the Indian Springs subdivision. Both of you listened very attentively to our comments and concerns and then viewed the developer's property from our backyard and property line.

From a sight line and privacy perspective, my house at 39 Indian Springs Drive is, by far, the most directly impacted, in any subdivision, bordering the proposed apartment development.

Steven, you met with my wife and I several times in your office when the Jaffe Corporation proposed development of the Tymber Creek property. Our questions and potential concerns at that time remain the same regarding the impact on our property, since the current proposal appears identical to the Jaffe proposal regarding location and configuration of the proposed apartment buildings.

The purpose of this letter is to provide some information about my wife and I, and how we came to buy 39 Indian Springs Drive, to express general support for the use of the land behind us, and to list questions, concerns, and immediate requests regarding certain features of the proposed development.

Relevant Background

My wife and I are retired. We will celebrate our 40th wedding anniversary later this year.

For many years, we spent our vacations in or around the Cocoa Beach area. In January 2017, we started our search for a VRBO rental and found everything was booked and, at the last minute, a house on Halifax Avenue in Ormond Beach had a cancellation, and we rented it for 2 months. We had never heard of Ormond Beach.

We fell in love with everything about Ormond Beach. When our lease expired, we rented a condo on the river, began our search for a permanent home, and bought 39 Indian Springs Drive on 6/30/17. We moved in with no furniture...nothing. Later in the year, we sold our house in Lake Forest, IL and physically moved our household. Like many others, our only regret is that we didn't find Ormond Beach sooner.

We have two grown daughters, both are married, both own businesses with their husbands that allow them to work at home, and both have 2 children under the age of 4. One lives in Chicago, and the other in Brooklyn.

We bought 39 Indian Springs Drive specifically because it was configured to easily house our daughters and their families for weeks at a time. As parents and grandparents, we wanted to entice them and our grandchildren to visit often. Last month, both girls and their families spent nearly two weeks with us and one family is returning on August 22nd for a weeks' stay.

Our House

The developer's plans show the corner of our main house, but not the pool and enclosure immediately behind our main house, nor the pool house immediately behind our pool enclosure. Our pool house is the closest structure to our property line and, therefore, closest to the proposed apartment buildings. I have mentioned correcting the misleading depiction of our structures on the developer's plans to both developers or their agents, with no response.

The builder of several homes in Indian Springs, built our house for himself and his family in 2008. They lived here for many years. Naturally, he positioned the house on its property and designed the rear of the house, pool, and pool house to have optimal views of the forest and vegetation now occupying the developer's land behind us. For example, our master bedroom is located at the rear of our house, with sliding doors to the lanai and pool, and a 9' x 7.5' single pane window that faces the developer's property and is the closest portion of our main house to the developer's property.

The Proposed Development

While we had been told by our realtor that the forested land behind us "could never be built on," we also agree that ignorance is no excuse for objecting to the proposed development. In fact, we support the land use for this development and the proposed number of rental units. And, we think the illustration of the proposed buildings are attractive.

Compatibility Concerns and Requests

First, I have no experience in contracting to build a structure of any kind. I don't know how to read the plans that the developer is required to provide us. On the other hand, I challenge any experienced builder, or even a registered surveyor, to use the plans provided to us and, without a GPS or other CAD/CAM aid, to walk out into the forested land to be developed and stake the corners of Buildings 8 and 9.

A. Privacy - We want the impact on our privacy (sight lines, sound, etc.) to be mitigated. The specifics of that mitigation request can be provided only once the following actions are completed:

1. The location of building 8 and 9 are staked with materials that are visible from our property line. The stakes should show buildings directly behind the entire width of our property line.
2. Poles or other identifying objects are positioned to show the height of the 2nd and 3rd floor balconies directly behind the entire width of our property line. Please note: the land on which Buildings 8 and 9 are to be built is significantly higher than our property.
3. New, bright-colored ribbons are placed and visible on all trees that will be removed behind the entire width of our property line. Ribbons originally placed years ago by the Jaffe Corporation have faded or are not visible today.
4. Landscaping - Steven, you mentioned that a landscape designer employed by the city could meet with us to examine and assess current and planned vegetation. I would appreciate it if you would provide me the name and contact information for this landscape designer, or alternately provide my contact information to that person. Landscaping mitigation is particularly crucial to us since much of the current vegetation on the developer's land between our property line and the approximate location of Buildings 8 and 9 is quite short (a few feet high) compared to other areas of the developer's land.
5. Stakes or other objects are placed such that can be seen from our property line along the apartment road beginning prior to the curve around the corner of Building 9 and continuing for the width of our property line. In addition to sound intrusions, we are interested in assessing the impact of vehicle headlights on our property.
6. Parking - Stakes or other objects are placed on all parking spaces, planned and approved (including those not being built by this developer) that face our property line.
7. Configuration of Buildings - The current developer purchased the land and decided to propose the same configuration of buildings as the Jaffe Corporation. I ask that the developer consider positioning Building 8 in a manner that would significantly reduce its undesirable intrusion on our privacy.
8. Urgency - We requested most of the above in person with an employee of the Jaffe Corporation. On June 8, 2022, I made a similar request (primarily focused on 1 and 2 above to an agent of the current developer. My concern is that any delays by the developer in fulfilling our request might prevent us or anyone else from intelligently and thoroughly assessing the impact of this development on the community and its residents and

making that assessment and related mitigation requests known to the developer and those officials who are responsible for reviewing and approving/revising the developer's proposal. In other words, delay or non-compliance with our requests helps the developer and harms impacted Ormond Beach residents. And worse, may prevent approving authorities and commissions from making fully informed decisions.

9. Photoshop technology exists and is available to the developer and, perhaps the City's landscape designer, to provide us with a best effort picture of the impact of the proposed development with and without mitigation. As the owner of the house that is significantly impacted by privacy concerns resulting from the developer's current proposal, I request this support to be provided to us well in advance of any official meeting to review or approve the developer's proposal.

B. Security and Sound - While we view 600+ tenants in 300 units as validation of our decision to decide to live west of Interstate 95, common sense also suggests that density increases the need for increased security. Indian Springs homeowners have suffered break-ins and burglaries in the past. The HOA took steps to increase our security by causing our subdivision to be gated 24/7. The developer's land has provided a natural barrier on our East side.

The construction of a wall or other barrier between the proposed apartment buildings and Indian Springs would strengthen security for all homeowners and tenants and could also provide a sound buffer. My wife and I strongly endorse and support the requests of Steve Curtis and Michael Gentry regarding the need for an effective wall barrier.

C. Traffic Safety - It appears to me that the current developer purchased the land and is proceeding with basically the building plan as was proposed by the Jaffe Corporation. On June 8, 2022 at the meeting at the Coquina Church, I was shocked to learn that the only significant change to the Jaffe plan was to eliminate access to the apartments by tenants from Tymber Creek Road and to require all ingress and egress of tenants to occur west of the Walgreens access on Granada.

I do not understand the reason or benefit of this change or what problem it is attempting to solve. As a reasonable person, causing some large portion of 600+ cars from the apartments to join 100+ parents delivering their children to the Little Blessings School, and hundreds of other parents delivering their children to River Bend Academy within a few hundred linear feet while semi-trucks and other vehicles are joining this same linear space at high speed on Granada through the Tymber Creek intersection is a recipe for disaster. Obviously, FDOT has the expertise to evaluate this and if they approve this without some serious changes to the roadway, I must accept their decision.

What I am requesting now is a written or oral presentation by the developer that describes the reasons and rationale for this dramatic change to the Jaffe proposal.

As I look over the length of the above, one could conclude that my wife and I are strongly opposed to this development. That conclusion would be wrong.

We are generally supportive of growth and development west of I95, and we are specifically in favor of the 300 unit apartment complex that is proposed. Once our requests are met in A and B above, I expect that reasonable mitigation requests arising from a more transparent assessment of the developer's proposal can be agreed upon by all parties.

Finally, I have found this process very frustrating and ineffective due to communication requirements to which developers must comply. A sheet slightly larger than 8.5” x 11”, depicting the location of proposed buildings on forested land covering multiple acres, is not very informative or user friendly for a typical resident. In this situation, knowledge and information equates to power. The information requirements placed on a developer seem to tilt the power equation strongly in favor of the developer. The resident is left largely in the dark, in my opinion. Most of my requests above are my attempt to achieve transparency, a balance of power, and shared facts and information as a basis for reaching agreement on reasonable mitigation solutions.
****

Steven please forward this to whomever you feel is appropriate. I apologize for the length of this note, but felt it was necessary to err on wordiness for those that have never been to our house.

Best regards,

Gary C. Von Glinow

Subject: Tymber Creek Apartment Complex Proposal

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Mr. Spraker,
Upon review of the latest submittal of the Tymber Creek Apartment complex, I was surprised and disappointed. I attended the Neighborhood meeting at Coquina Church in early June which crystalized the concept of the project. Most of the comments were concerning traffic, safety, security, aesthetics of the area and the footprint of the Complex. After the meeting I spoke with both Marc Watts, Attorney for the developer and Garrison McMillan, the developer. I expressed safety concerns with the property being within a few feet of two homes in our development and my desire for a non-penetrable wall, preferably some type of block, brick at least 8' tall. I also invited Garrison to come walk through our development and see firsthand the next time he was in town. It may be he has not been back to Ormond Beach since the meeting, but I have not heard from him or any member of his team. While I felt he understood my concerns about separation and he indicated he would talk to his team about a fortified wall, the concept of a 6' vinyl white fence is egregious to me and erodes any confidence in addressing other concerns voiced by residents during the meeting.
It is interesting the desire to be "good neighbors" was mentioned multiple times. Yet, when Mr. McMillan was asked his company's intentions, he replied they intend to build it, get it leased, operate it for one year and sell it. This leads me to conclude being a good neighbor only applies to getting approval in a manner which is beneficial for Tellus Partners to sell for an acceptable profit and leave the balance of the "good neighbors" to deal with traffic, safety, security and aesthetics beyond a couple of years.
At this point after reviewing the plans, I feel at a minimum the developer should construct a wall of block or brick at least eight foot high on top of the retention wall they show in the schematic around the property and in all other areas along the property line as required to provide an adequate barrier. This would at least provide a level of separation and security from Indian Springs and the Little Blessings School and Coquina Church which also is adjacent to the property. Additionally, I would require the Developer to reposition Building Nine and arrange the balconies to the woods rather than the homes in Indian Springs and the Little Blessings School.
While I recognize the rights of the developers to build what is allowed within regulations and codes, they should not be entitled to ignore what may be more expensive, inconvenient and a significant change in the surrounding neighborhoods.
I thank you for the opportunity to submit my primary concerns and suggestions on this project.
Sincerely,
Michael Gentry

> Regarding the pending Tymber Creek Apartments project, please do not approve the developer's request for an increase from 10 units to 18 units per acre. The absolutely ridiculous and extremely dangerous traffic pattern the developer has planned for the approximately 500 - 600 cars exiting the apartments, going west on 40 and making a U-turn to come back east, combining that with the heavy traffic issues we presently have is a disaster waiting to happen. Our neighborhoods west of 95 are made up of single family homes. A three story, 300 unit apartment building is not compatible with the area. Please vote nay and represent the citizens of Ormond Beach rather than an out-of-town developer who could care less about the residents living here or the mess he will leave after cramming as many units and people and cars he can into a piece of property smack dab in the middle of our community. Thank you.

[External Email-Use Caution] - OB/IT Helpdesk

Hello Mayor Partington

Regarding the pending Tymber Creek Apartments project, please do not approve the developer's request for an increase from 10 units to 18 units per acre. The absolutely ridiculous and extremely dangerous traffic pattern the developer has planned for the approximately 500 - 600 cars exiting the apartments, going west on 40 and making a U-turn to come back east, combining that with the heavy traffic issues we presently have is a disaster waiting to happen. Our neighborhoods west of 95 are made up of single family homes. A three story, 300 unit apartment building is not compatible with the area. Please vote nay and represent the citizens of Ormond Beach rather than an out-of-town developer who could care less about the residents living here or the mess he will leave after cramming as many units and people and cars he can into a piece of property smack dab in the middle of our community. Thank you.

> Hi Bill,
>
> I've met your dad a few times at RCOBA lunches. Nice man!
>
> We need your help going to bat for Ormond Beach residents please. Apartments are just not what we expected when we bought here west of 95. I understand the investor has the right to use it as commercial including multi family apts. But I really urge our city council to stay strong on the 10 units per acres vs the 18 they want. I think people assumed by commercial that it would be restaurants or stores that would bring convenience to our residents like the strip mall by 7-11. Hopefully they listen to your input.
>
> Cobb Cole presented the increase to 18 units per acre like it was a done deal and only when I questioned did he explain that it has not been approved yet. The city doesn't owe special preference to this out of town guy. If he bought it with 10 per acre, that's what it needs to stay at. There's no logical advantage to Ormond Beach residents to increase it. We can't make this change just to bring in more tax money. The long time residents of upscale communities deserve better consideration.
>
> Also can you find out what other properties in Ormond are at risk for apartment development so residents can be more proactive in requesting zoning changes?
>
> It doesn't seem that small town Ormond can take an uptick in density and keep Ormond as the pleasant area that it is. The expansion needs to move west rather than more density where we're already established. Our infrastructure can't take it.
>
> Not looking forward to the Regal turning into apartments either. You can hardly turn out of Publix during rush hour without significant backup on Williams. I think the consensus tonight was that the apartments being built on Clyde Morris

and Williamson makes more sense because we already think of that as commercial. It's east of 95 and it was always a known that it would be developed by commercial. The preference is always condos or townhomes over apartments.

Subject:	Proposed Apartments on Tymber Creek Road
Date:	Friday, February 12, 2021 1:22:32 PM

[External Email-Use Caution] - OB/IT Helpdesk

Please protect neighboring communities west of I-95 and deny the Jaffe Corporation's proposed plan to build a three story, ten building, 300

unit apartment complex on Tymber Creek Road at the busy intersection with State Road 40. The City Commission considering such a large,

incompatible project in a wonderful long-established community of single family homes is questionable at best. The resulting

over-development will negatively impact traffic, the environment, water/sewer use, stormwater runoff into the Tomoka River, and compatibility

with neighboring properties adjacent to the proposed "best use of property luxury apartments" which will be exponentially worse than the

Marshside application that the city commission rejected for the same potential impacts on a much lesser scale. Thank you for denying this

proposed project.

[External Email-Use Caution] - OB/IT Helpdesk

Live in Tymber subdivision on Tymber Creek Road 0.5 miles from Granada and Tymber Creek Road intersection.

Mr Spraker,

I am speaking about the planned apartment building behind Wal HGreens on Tymber Creek. The planning board, in my opinion, has gone nuts with allowing unbridled growth plans all over Ormond Beach. Obviously, and sadly, palms are getting greased. Guess this must be remedied at the voting booth. I am against this apartment complex build.

Sincerely,

Darla Wickham

[External Email-Use Caution] - OB/IT Helpdesk

I can’t even imagine the city thinking about allowing a 300 multi family apartment complex on the corner of timber Creek and West Granada when we all know what’s going to happen two blocks down to the west with Avalon Park. What are we thinking? Granada Boulevard will become a parking lot ! Does anybody care about the quality of life in Ormond Beach anymore? I hope it comes under considerable scrutiny. Betty Lou Geis.

[External Email-Use Caution] - OB/IT Helpdesk

Mr. Spraker

I ask that you do not approve the proposal for apartments at the corner of Tymber Creek Rd and Granada. The area is already overbuilt and this will do nothing to help the situation. There is no housing shortage in Ormond, but there is now an overabundance of traffic. Adding 296 apartments will likely result in an additional 500 cars on the road in this area. From the stoplight on that corner (Tymber Creek / Granada) to the east end of Granada (Rte 1) is 7 miles and there are already 17 traffic lights! That's right, 17 traffic lights! Enough is enough. It's time to come to grips with the overbuilding in Ormond and this would be a great start.

Thank you
Ron and Karen Iseman

SUBJECT: 95674-3
Tymber Creek Apartments

Dear Sir/Madam:

Enclosed is your individual permit issued by the St. Johns River Water Management District on September 16, 2022. This permit is a legal document and should be kept with your other important documents. Permit issuance does not relieve you from the responsibility of obtaining any necessary permits from any federal, state, or local agencies for your project.

Technical Staff Report:
If you wish to review a copy of the Technical Staff Report (TSR) that provides the District's staff analysis of your permit application, you may view the TSR by going to the Permitting section of the District's website at www.sjrwmd.com/permitting. Using the "search applications and permits" feature, you can use your permit number or project name to find information about the permit. When you see the results of your search, click on the permit number and then on the TSR folder.

Noticing Your Permit:
For noticing instructions, please refer to the noticing materials in this package regarding closing the point of entry for someone to challenge the issuance of your permit. Please note that if a timely petition for administrative hearing is filed, your permit will become non-final and any activities that you choose to undertake pursuant to your permit will be at your own risk. Please refer to the attached Notice of Rights to determine any legal rights you may have concerning the District's agency action.

Compliance with Permit Conditions:
To submit your required permit compliance information, go to the District's website at www.sjrwmd.com/permitting. Under the "Apply for a permit or submit compliance data" section, click to sign-in to your existing account or to create a new account. Select the "Compliance Submittal" tab, enter your permit number, and select "No Specific Date" for the Compliance Due Date Range. You will then be able to view all the compliance submittal requirements for your project. Select the compliance item that you are ready to submit and then attach the appropriate information or form. The forms to comply with your permit conditions are available at www.sjrwmd.com/permitting under the section "Handbooks, forms, fees, final orders". Click on forms to view all permit compliance forms, then scroll to the ERP application forms section and

GOVERNING BOARD

Rob Bradley, CHAIR FLEMING ISLAND

J. Chris Peterson, SECRETARY WINTER PARK
Ron Howse, TREASURER COCOA
Ryan Atwood MOUNT DORA
Doug Bournique VERO BEACH
Douglas Burnett ST. AUGUSTINE
Cole Oliver MERRITT ISLAND
Janet Price FERNANDINA BEACH

select the applicable compliance forms. Alternatively, if you have difficulty finding forms or need copies of the appropriate forms, please contact the Bureau of Regulatory Support at (386) 329-4570.

Transferring Your Permit:
Your permit requires you to notify the District within 30 days of any change in ownership or control of the project or activity covered by the permit, or within 30 days of any change in ownership or control of the real property on which the permitted project or activity is located or occurs. You will need to provide the District with the information specified in rule 62-330.340, Florida Administrative Code (F.A.C.). Generally, this will require you to complete and submit Form 62-330.340(1), "Request to Transfer Permit," available at http://www.sjrwmd.com/permitting/permitforms.html.

Please note that a permittee is liable for compliance with the permit before the permit is transferred. The District, therefore, recommends that you request a permit transfer in advance in accordance with the applicable rules. You are encouraged to contact District staff for assistance with this process.

Thank you and please let us know if you have additional questions. For general questions contact e-permit@sjrwmd.com or (386) 329-4570.

Sincerely,

Michelle Reiber

PERMIT NO: 95674-3 **DATE ISSUED:** September 16, 2022

PROJECT NAME: Tymber Creek Apartments

A PERMIT AUTHORIZING:
The District authorizes, as limited by the attached permit conditions, the construction and operation of a Stormwater Management System for a 13.537-acre project known as Tymber Creek Apartments as per plans received by the District on August 31, 2022 and the Wetland Impact / Preservation Plan (Sheet 85) received by the District on April 12, 2022.

LOCATION:
Section(s): 25 Township(s): 14S Range(s): 31E
Volusia County

Receiving Water Body:

Name	Class
Little Tomoka River	III Fresh, OFW, IW

ISSUED TO:
VCP Ormond Beach II, LLC
2120 S Highway A1A
Vero Beach, FL 32963-3119

The permittee agrees to hold and save the St. Johns River Water Management District and its successors harmless from any and all damages, claims, or liabilities which may arise from permit issuance. Said application, including all plans and specifications attached thereto, is by reference made a part hereof.

This permit does not convey to the permittee any property rights nor any rights or privileges other than those specified herein, nor relieve the permittee from complying with any law, regulation or requirement affecting the rights of other bodies or agencies. All structures and works installed by permittee hereunder shall remain the property of the permittee.

This permit may be revoked, modified or transferred at any time pursuant to the appropriate provisions of Chapter 373, Florida Statutes.

PERMIT IS CONDITIONED UPON:

See conditions on attached “Exhibit A”, dated September 16, 2022

AUTHORIZED BY: St. Johns River Water Management District
Division of Regulatory Services

By: Michelle Reiber

Michelle Reiber
Bureau Chief

"EXHIBIT A"
CONDITIONS FOR ISSUANCE OF PERMIT NUMBER 95674-3
Tymber Creek Apartments
DATED September 16, 2022

1. All activities shall be implemented following the plans, specifications and performance criteria approved by this permit. Any deviations must be authorized in a permit modification in accordance with Rule 62-330.315, F.A.C. Any deviations that are not so authorized may subject the permittee to enforcement action and revocation of the permit under Chapter 373, F.S.

2. A complete copy of this permit shall be kept at the work site of the permitted activity during the construction phase, and shall be available for review at the work site upon request by the District staff. The permittee shall require the contractor to review the complete permit prior to beginning construction.

3. Activities shall be conducted in a manner that does not cause or contribute to violations of state water quality standards. Performance-based erosion and sediment control best management practices shall be installed immediately prior to, and be maintained during and after construction as needed, to prevent adverse impacts to the water resources and adjacent lands. Such practices shall be in accordance with the State of Florida Erosion and Sediment Control Designer and Reviewer Manual (Florida Department of Environmental Protection and Florida Department of Transportation June 2007), and the Florida Stormwater Erosion and Sedimentation Control Inspector's Manual (Florida Department of Environmental Protection, Nonpoint Source Management Section, Tallahassee, Florida, July 2008), which are both incorporated by reference in subparagraph 62-330.050(9)(b)5, F.A.C., unless a project-specific erosion and sediment control plan is approved or other water quality control measures are required as part of the permit.

4. At least 48 hours prior to beginning the authorized activities, the permittee shall submit to the District a fully executed Form 62-330.350(1), "Construction Commencement Notice," (October 1, 2013) (http://www.flrules.org/Gateway/reference.asp?No=Ref-02505), incorporated by reference herein, indicating the expected start and completion dates. A copy of this form may be obtained from the District, as described in subsection 62-330.010(5), F.A.C., and shall be submitted electronically or by mail to the Agency. However, for activities involving more than one acre of construction that also require a NPDES stormwater construction general permit, submittal of the Notice of Intent to Use Generic Permit for Stormwater Discharge from Large and Small Construction Activities, DEP Form 62-621.300(4)(b), shall also serve as notice of commencement of construction under this chapter and, in such a case, submittal of Form 62-330.350(1) is not required.

5. Unless the permit is transferred under Rule 62-330.340, F.A.C., or transferred to an operating entity under Rule 62-330.310, F.A.C., the permittee is liable to comply with the plans, terms and conditions of the permit for the life of the project or activity.

6. Within 30 days after completing construction of the entire project, or any independent portion of the project, the permittee shall provide the following to the Agency, as applicable:

    a. For an individual, private single-family residential dwelling unit, duplex, triplex, or quadruplex — "Construction Completion and Inspection Certification for Activities Associated with a Private Single-Family Dwelling Unit" [Form 62-330.310(3)]; or

    b. For all other activities — "As-Built Certification and Request for Conversion to Operation Phase" [Form 62-330.310(1)].

c. If available, an Agency website that fulfills this certification requirement may be used in lieu of the form.

7. If the final operation and maintenance entity is a third party:

   a. Prior to sales of any lot or unit served by the activity and within one year of permit issuance, or within 30 days of as-built certification, whichever comes first, the permittee shall submit, as applicable, a copy of the operation and maintenance documents (see sections 12.3 thru 12.3.4 of Volume I) as filed with the Florida Department of State, Division of Corporations and a copy of any easement, plat, or deed restriction needed to operate or maintain the project, as recorded with the Clerk of the Court in the County in which the activity is located.

   b. Within 30 days of submittal of the as- built certification, the permittee shall submit "Request for Transfer of Environmental Resource Permit to the Perpetual Operation and Maintenance Entity" [Form 62-330.310(2)] to transfer the permit to the operation and maintenance entity, along with the documentation requested in the form. If available, an Agency website that fulfills this transfer requirement may be used in lieu of the form.

8. The permittee shall notify the District in writing of changes required by any other regulatory District that require changes to the permitted activity, and any required modification of this permit must be obtained prior to implementing the changes.

9. This permit does not:

   a. Convey to the permittee any property rights or privileges, or any other rights or privileges other than those specified herein or in Chapter 62-330, F.A.C.;

   b. Convey to the permittee or create in the permittee any interest in real property;

   c. Relieve the permittee from the need to obtain and comply with any other required federal, state, and local authorization, law, rule, or ordinance; or

   d. Authorize any entrance upon or work on property that is not owned, held in easement, or controlled by the permittee.

10. Prior to conducting any activities on state-owned submerged lands or other lands of the state, title to which is vested in the Board of Trustees of the Internal Improvement Trust Fund, the permittee must receive all necessary approvals and authorizations under Chapters 253 and 258, F.S. Written authorization that requires formal execution by the Board of Trustees of the Internal Improvement Trust Fund shall not be considered received until it has been fully executed.

11. The permittee shall hold and save the District harmless from any and all damages, claims, or liabilities that may arise by reason of the construction, alteration, operation, maintenance, removal, abandonment or use of any project authorized by the permit.

12. The permittee shall notify the District in writing:

    a. Immediately if any previously submitted information is discovered to be inaccurate; and

    b. Within 30 days of any conveyance or division of ownership or control of the property or the system, other than conveyance via a long-term lease, and the new owner shall

request transfer of the permit in accordance with Rule 62-330.340, F.A.C. This does not apply to the sale of lots or units in residential or commercial subdivisions or condominiums where the stormwater management system has been completed and converted to the operation phase.

13. Upon reasonable notice to the permittee, District staff with proper identification shall have permission to enter, inspect, sample and test the project or activities to ensure conformity with the plans and specifications authorized in the permit.

14. If prehistoric or historic artifacts, such as pottery or ceramics, projectile points, stone tools, dugout canoes, metal implements, historic building materials, or any other physical remains that could be associated with Native American, early European, or American settlement are encountered at any time within the project site area, the permitted project shall cease all activities involving subsurface disturbance in the vicinity of the discovery. The permittee or other designee shall contact the Florida Department of State, Division of Historical Resources, Compliance Review Section (DHR), at (850) 245-6333, as well as the appropriate permitting agency office. Project activities shall not resume without verbal or written authorization from the Division of Historical Resources. If unmarked human remains are encountered, all work shall stop immediately and the proper authorities notified in accordance with Section 872.05, F.S. For project activities subject to prior consultation with the DHR and as an alternative to the above requirements, the permittee may follow procedures for unanticipated discoveries as set forth within a cultural resources assessment survey determined complete and sufficient by DHR and included as a specific permit condition herein.

15. Any delineation of the extent of a wetland or other surface water submitted as part of the permit application, including plans or other supporting documentation, shall not be considered binding unless a specific condition of this permit or a formal determination under Rule 62-330.201, F.A.C., provides otherwise.

16. The permittee shall provide routine maintenance of all components of the stormwater management system to remove trapped sediments and debris. Removed materials shall be disposed of in a landfill or other uplands in a manner that does not require a permit under Chapter 62-330, F.A.C., or cause violations of state water quality standards.

17. This permit is issued based on the applicant's submitted information that reasonably demonstrates that adverse water resource-related impacts will not be caused by the completed permit activity. If any adverse impacts result, the District will require the permittee to eliminate the cause, obtain any necessary permit modification, and take any necessary corrective actions to resolve the adverse impacts.

18. A Recorded Notice of Environmental Resource Permit may be recorded in the county public records in accordance with Rule 62-330.090(7), F.A.C. Such notice is not an encumbrance upon the property.

19. This permit for construction will expire five years from the date of issuance.

20. At a minimum, all retention and detention storage areas must be excavated to rough grade prior to building construction or placement of impervious surface within the area to be served by those facilities. To prevent reduction in storage volume and percolation rates, all accumulated sediment must be removed from the storage area prior to final grading and stabilization.

21. All wetland areas or water bodies that are outside the specific limits of construction authorized by this permit must be protected from erosion, siltation, scouring or excess turbidity, and dewatering.

22. This permit does not authorize the permittee to cause any adverse impact to or “take” of state listed species and other regulated species of fish and wildlife. Compliance with state laws regulating the take of fish and wildlife is the responsibility of the owner or applicant associated with this project. Please refer to Chapter 68A-27 of the Florida Administrative Code for definitions of “take” and a list of fish and wildlife species. If listed species are observed onsite, FWC staff are available to provide decision support information or assist in obtaining the appropriate FWC permits. Most marine endangered and threatened species are statutorily protected and a “take” permit cannot be issued. Requests for further information or review can be sent to FWCConservationPlanningServices@MyFWC.com.

23. Deed of Conservation Easement

    This permit requires the recording of a conservation easement. Within 30 days of recording, the permittee shall provide the District with: (a) the original recorded easement (including exhibits) showing the date it was recorded and the official records book and page number, (b) a copy of the recorded plat (if applicable), (c) a surveyor's sketch of the easement area plotted on the appropriate USGS topographic map, and (d) the original recorded consent and joinder(s) of mortgagee (if applicable). Before recording them, the permittee shall ensure that these documents are acceptable to the District as described below.

    Description of Conservation Easement Area.
    The permittee shall provide to the District for review and written approval a copy of: (a) the preliminary plat showing the area to be encumbered by the conservation easement, or (b) a surveyor's sketch and legal description of the area to be placed under the conservation easement, per the approved mitigation plan, at least 45 days before (1) dredging, filling, or clearing any wetland or surface water for which mitigation is required; (2) clearing any upland within a Riparian Habitat Protection Zone for which mitigation is required; (3) the sale of any lot or parcel; (4) the recording of the subdivision plat; or (5) use of the infrastructure for its intended use, whichever occurs first.

    If the impacts to an upland within a Riparian Habitat Protection Zone or to a wetland or surface water for which mitigation is required will occur in discrete phases, the areas to be preserved to offset such impacts may be placed under conservation easement in phases such that impacts are offset during each phase. Such phasing of preservation shall only occur if it has been proposed in the mitigation plan and approved by the permit, or if it is approved in writing by the District. A surveyor's sketch and legal description of the area to be placed under conservation easement during each phase must be submitted in accordance with the previous paragraph.

    Recording of Conservation Easement.
    Before (1) dredging, filling, or clearing any wetland or surface water for which mitigation is required, (2) clearing any upland within a Riparian Habitat Protection Zone for which mitigation is required, (3) the sale of any lot or parcel, (4) the recording of the subdivision plat, or (5) use of the infrastructure for its intended use, whichever occurs first, the permittee shall record a conservation easement. The conservation easement shall include restrictions on the real property pursuant to section 704.06, Florida Statutes, and be consistent with section 10.3.8, ERP Applicant's Handbook, Volume I(October 1, 2013) and Fla. Admin. Code R. 62-330.301(6).

    The conservation easement shall be in the form approved in writing by the District and, if no plat has been submitted, the easement shall include the approved legal description and surveyor's sketch. If the District does not provide written comments on the preliminary plat or surveyor's sketch and legal description within 45 days of receipt, then the permittee may record the conservation easement with the legal description and surveyor's sketch or plat

reference previously submitted. If the District provides written disapproval of the preliminary plat or surveyor's sketch and legal description, the permittee shall, within ten (10) days of receipt of the disapproval, correct all errors with the conservation easement, including the preliminary plat or legal description and surveyor's sketch, and record the conservation easement. Pursuant to section 704.06, Florida Statutes, the conservation easement shall prohibit all construction, including clearing, dredging, or filling, except that which is specifically authorized by this permit, within the mitigation areas delineated on the final plans and/or mitigation proposal approved by the District.

The easement may not be amended without written District approval.

Additional Documents Required.
The permittee shall ensure that the conservation easement identifies, and is executed by, the correct grantor, who must hold sufficient record title to the land encumbered by the easement. If the easement's grantor is a partnership, the partnership shall provide to the District a partnership affidavit stating that the person executing the conservation easement has the legal authority to convey an interest in the partnership land. If there exist any mortgages on the land, the permittee shall also have each mortgagee execute a consent and joinder of mortgagee subordinating the mortgage to the conservation easement. The consent and joinder of the mortgagee shall be recorded simultaneously with the conservation easement in the public records of the county where the land is located. Within 30 days of recording, the permittee shall provide the District with: (a) the original recorded easement (including exhibits) showing the date it was recorded and the official records book and page number, (b) a copy of the recorded plat (if applicable), (c) a surveyor's sketch of the easement area plotted on the appropriate USGS topographic map, and (d) the original recorded consent and joinder(s) of mortgagee (if applicable).

24. The operation and maintenance entity shall submit inspection reports to the District one year after the operation phase of the permit becomes effective and every two years thereafter on form 62-330.311(1), "Operation and Maintenance Inspection Certification". The inspection form must be signed and sealed by an appropriate registered professional.

25. The proposed project must be constructed and operated as per plans received by the District on August 31, 2022 and the Wetland Impact / Preservation Plan (Sheet 85) received by the District on April 12, 2022.

26. Proposed impacts to wetlands and upland Riparian Habitat Protection Zone (RHPZ) must be in accordance with the environmental plans received by the District on December 1, 2020.

27. The proposed mitigation plan, which includes preservation of 2.264 acres of wetlands and 2.778 acres of adjacent uplands onsite per Drawing 85 of the plans received by the District on April 12, 2022 and the purchase of 1.89 forested freshwater UMAM credits from Tiger Bay Mitigation Bank per the letter of reservation received by the District on April 12, 2022, is incorporated as a condition of this permit.

28. Before the start of any construction, the permittee must provide the District with documentation demonstrating that 1.89 forested freshwater UMAM mitigation credits have been debited from Basin 17 of the Tiger Bay Mitigation Bank ledger.

29. In the event that the permittee does not successfully complete the transaction to obtain 1.89 forested freshwater UMAM mitigation credits from Basin 17 of Tiger Bay Mitigation Bank, the permittee must obtain a permit modification to provide alternative mitigation.

30. Prior to the sale of any lot or parcel, or use of the infrastructure for its intended use, whichever comes first, the permittee must erect signs on the landward side of the areas

bound by the conservation easement (as depicted on Drawing 85 received by the District on April 12, 2022) that state:

“CONSERVATION AREA: No dumping, land clearing, or other disturbance to vegetation will be permitted beyond this point.”

Notice Of Rights

1. A person whose substantial interests are or may be affected has the right to request an administrative hearing by filing a written petition with the St. Johns River Water Management District (District). Pursuant to Chapter 28-106 and Rule 40C-1.1007, Florida Administrative Code, the petition must be filed (received) either by delivery at the office of the District Clerk at District Headquarters, P. O. Box 1429, Palatka Florida 32178-1429 (4049 Reid St., Palatka, FL 32177) or by e-mail with the District Clerk at Clerk@sjrwmd.com, within twenty-six (26) days of the District depositing the notice of District decision in the mail (for those persons to whom the District mails actual notice), within twenty-one (21) days of the District emailing the notice of District decision (for those persons to whom the District emails actual notice), or within twenty-one (21) days of newspaper publication of the notice of District decision (for those persons to whom the District does not mail or email actual notice). A petition must comply with Sections 120.54(5)(b)4. and 120.569(2)(c), Florida Statutes, and Chapter 28-106, Florida Administrative Code. The District will not accept a petition sent by facsimile (fax), as explained in paragraph no. 4 below.

2. Please be advised that if you wish to dispute this District decision, mediation may be available and that choosing mediation does not affect your right to an administrative hearing. If you wish to request mediation, you must do so in a timely-filed petition. If all parties, including the District, agree to the details of the mediation procedure, in writing, within 10 days after the time period stated in the announcement for election of an administrative remedy under Sections 120.569 and 120.57, Florida Statutes, the time limitations imposed by Sections 120.569 and 120.57, Florida Statutes, shall be tolled to allow mediation of the disputed District decision. The mediation must be concluded within 60 days of the date of the parties' written agreement, or such other timeframe agreed to by the parties in writing. Any mediation agreement must include provisions for selecting a mediator, a statement that each party shall be responsible for paying its pro-rata share of the costs and fees associated with mediation, and the mediating parties' understanding regarding the confidentiality of discussions and documents introduced during mediation. If mediation results in settlement of the administrative dispute, the District will enter a final order consistent with the settlement agreement. If mediation terminates without settlement of the dispute, the District will notify all the parties in writing that the administrative hearing process under Sections 120.569 and 120.57, Florida Statutes, is resumed. Even if a party chooses not to engage in formal mediation, or if formal mediation does not result in a settlement agreement, the District will remain willing to engage in informal settlement discussions.

3. A person whose substantial interests are or may be affected has the right to an informal administrative hearing pursuant to Sections 120.569 and 120.57(2), Florida Statutes, where no material facts are in dispute. A petition for an informal hearing must also comply with the requirements set forth in Rule 28-106.301, Florida Administrative Code.

4. A petition for an administrative hearing is deemed filed upon receipt of the complete petition by the District Clerk at the District Headquarters in Palatka, Florida during the District's regular business hours. The District's regular business hours are 8:00 a.m. – 5:00 p.m., excluding weekends and District holidays. Petitions received by the District Clerk after the District's regular business hours shall be deemed filed as of 8:00 a.m. on the District's next regular business day. The District's acceptance of petitions filed by e-mail is subject to certain conditions set forth in the District's Statement of Agency Organization and Operation (issued pursuant to Rule 28-101.001, Florida Administrative Code), which is available for viewing at *sjrwmd.com*. These conditions include, but are not limited to, the petition being in the form of a PDF or TIFF file and being capable of being stored and printed by the District. Further, pursuant to the District's Statement of Agency Organization and Operation, attempting to file a petition by facsimile is prohibited and shall not constitute filing.

5. Failure to file a petition for an administrative hearing within the requisite timeframe shall constitute a waiver of the right to an administrative hearing. (Rule 28-106.111, Florida Administrative Code).

6. The right to an administrative hearing and the relevant procedures to be followed are governed by Chapter 120, Florida Statutes, Chapter 28-106, Florida Administrative Code, and Rule 40C-1.1007, Florida Administrative Code. Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means the District's final action may be different from the position taken by it in this notice. A person whose substantial interests are or may be affected by the District's final action has the right to become a party to the proceeding, in accordance with the requirements set forth above.

7. Pursuant to Section 120.68, Florida Statutes, a party to the proceeding before the District who is adversely affected by final District action may seek review of the action in the District Court of Appeal by filing a notice of appeal pursuant to Rules 9.110 and 9.190, Florida Rules of Appellate Procedure, within 30 days of the rendering of the final District action.

8. A District action is considered rendered, as referred to in paragraph no. 7 above, after it is signed on behalf of the District and filed by the District Clerk.

9. Failure to observe the relevant timeframes for filing a petition for judicial review as described in paragraph no. 7 above will result in waiver of that right to review.

NOR.Decision.DOC.001
Revised 12.7.11

NOTICING INFORMATION

Please be advised that the St. Johns River Water Management District will not publish a notice in the newspaper advising the public that it has issued a permit for this project.

Newspaper publication, using the District's notice form, notifies members of the public of their right to challenge the issuance of the permit. If proper notice is given by newspaper publication, then there is a 21-day time limit for someone to file a petition for an administrative hearing to challenge the issuance of the permit.

To close the point of entry for filing a petition, you may publish (at your own expense) a one-time notice of the District's decision in a newspaper of general circulation within the affected area as defined in Section 50.011 of the Florida Statutes. If you do not publish a newspaper notice to close the point of entry, the time to challenge the issuance of your permit will not expire and someone could file a petition even after your project is constructed.

A copy of the notice form and a partial list of newspapers of general circulation are attached for your convenience. However, you are not limited to those listed newspapers. If you choose to close the point of entry and the notice is published, the newspaper will return to you an affidavit of publication. In that event, it is important that you either submit a scanned copy of the affidavit by emailing it to *compliancesupport@sjrwmd.com* (preferred method) **or** send a copy of the original affidavit to:

Office of Records and Regulatory Support
4049 Reid Street
Palatka, FL 32177

If you have any questions, please contact the Office of Records and Regulatory Support at (386) 329-4570.

NOTICE OF AGENCY ACTION TAKEN BY THE
ST. JOHNS RIVER WATER MANAGEMENT DISTRICT

Notice is given that the following permit was issued on _____:

(Name and address of applicant)_____
permit#_____. The project is located in _____County, Section _____, Township _____ South, Range _____ East. The permit authorizes a surface water management system on _____ acres for _____ known as _____. The receiving water body is _____.

A person whose substantial interests are or may be affected has the right to request an administrative hearing by filing a written petition with the St. Johns River Water Management District (District). Pursuant to Chapter 28-106 and Rule 40C-1.1007, Florida Administrative Code (F.A.C.), the petition must be filed (received) either by delivery at the office of the District Clerk at District Headquarters, P.O. Box 1429, Palatka FL 32178-1429 (4049 Reid St, Palatka, FL 32177) or by e-mail with the District Clerk at Clerk@sjrwmd.com, within twenty-one (21) days of newspaper publication of the notice of District decision (for those persons to whom the District does not mail or email actual notice). A petition must comply with Sections 120.54(5)(b)4. and 120.569(2)(c), Florida Statutes (F.S.), and Chapter 28-106, F.A.C. The District will not accept a petition sent by facsimile (fax). Mediation pursuant to Section 120.573, F.S., may be available and choosing mediation does not affect your right to an administrative hearing.

A petition for an administrative hearing is deemed filed upon receipt of the complete petition by the District Clerk at the District Headquarters in Palatka, Florida during the District's regular business hours. The District's regular business hours are 8 a.m. – 5 p.m., excluding weekends and District holidays. Petitions received by the District Clerk after the District's regular business hours shall be deemed filed as of 8 a.m. on the District's next regular business day. The District's acceptance of petitions filed by e-mail is subject to certain conditions set forth in the District's Statement of Agency Organization and Operation (issued pursuant to Rule 28-101.001, Florida Administrative Code), which is available for viewing at www.sjrwmd.com. These conditions include, but are not limited to, the petition being in the form of a PDF or TIFF file and being capable of being stored and printed by the District. Further, pursuant to the District's Statement of Agency Organization and Operation, attempting to file a petition by facsimile (fax) is prohibited and shall not constitute filing.

The right to an administrative hearing and the relevant procedures to be followed are governed by Chapter 120, Florida Statutes, Chapter 28-106, Florida Administrative Code, and Rule 40C-1.1007, Florida Administrative Code. Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means the District's final action may be different from the position taken by it in this notice. **Failure to file a petition for an administrative hearing within the requisite time frame shall constitute a waiver of the right to an administrative hearing. (Rule 28-106.111, F.A.C.).**

If you wish to do so, please visit http://www.sjrwmd.com/nor_dec/ to read the complete Notice of Rights to determine any legal rights you may have concerning the District's decision(s) on the permit application(s) described above. You can also request the Notice of Rights by contacting the Director of Office of Records and Regulatory Support, 4049 Reid St., Palatka, FL 32177-2529, tele. no. (386)329-4570.

Memorandum

To: Steven Spraker **Date:** November 4, 2022

Re: **Tymber Creek Apartments – Landscape Analysis**

From: Cara Culliver **CC:**

Steven,

The purpose of this memorandum is to provide tree information for this proposed apartment project which includes landscape buffers, specimen/historic trees, tree mitigation and requirements for natural preservation areas.
The landscape buffers required for this project are 20' foot landscape buffers for the north, west & east sides of this parcel. The north landscape buffer proposed along the Moss Point subdivision in the north western portion varies from 195' to 130' and narrows to 70' in the north eastern portion of the buffer. The proposed west landscape buffer varies from 140' to 57' feet. The proposed east landscape buffer along Tymber Creek Road is 20' feet. The south landscape buffer that abuts the future commercial parcel requires a 6' foot landscape buffer and a 10' buffer is being proposed. The landscape buffers around the Walgreens pond to the north requires a 6' foot which is shown, the west landscape buffer requires a 6' foot and a 10' foot is being proposed. The landscape buffers around the Volusia County pond to the north, west and south sides require a 6' foot buffer and a 11'-6" foot is being proposed.

The site is required to save 78 specimen trees and 207 specimen trees are retained. There are also 7 historic trees (4 Bald Cypress & 3 Live Oaks) all of which are being saved. In addition to specimen/historic trees the site requires that fifteen percent of the site is designated for tree preservation. Fifteen percent of the total gross area is 2.94 acres. The project provides 4.99 acres of proposed tree preservation which includes the north and west areas of the site.

All items concerning, landscape buffers, specimen/historic tree preservation, tree minimum site requirements and protected/specimen tree mitigation have been addressed by the design team.
Sincerely,

Cara L. Culliver

Cara Culliver, R.L.A.

RE: Tymber Creek Apartments
Volusia County, Florida
Listed Species Report
ECS Project No. 801.01.20

Dear Mr. McMillan:

On March 16th, 2020, a listed species survey was conducted on the Tymber Creek Apartments property. The subject property is located north of W Granada Boulevard, south of Moss Point Road, and west of N Tymber Creek Avenue in Ormond Beach, Florida. More specifically, the subject property is located in Section 25 Township 14 South and Range 31 East of Volusia County, Florida.

The subject property contains a large wetland along the northern and western boundary as well as a reservoir in the eastern portion of the project site. The rest of the property is pine dominated uplands.

A survey of the project boundaries was conducted to assess the potential occurrence of flora and fauna listed as threatened or endangered by the United States Fish and Wildlife Service (USFWS), Florida Fish and Wildlife Conservation Commission (FWC), and the Florida Department of Agriculture (FDA). Tables 1 and 2 provide a listing of the species known to occur within Volusia County and their expected occurrence of the project site. The findings and conclusions of the survey are reported in this letter.

The survey was conducted by Ecological Consulting Solutions Inc (ECS) for the purpose of evaluating the site for the presence or absence of wetland habitat and protected flora and fauna or their habitat. The survey was conducted by means of pedestrian transects in the early morning to assure the potential of observing listed fauna as recommended by the FWC and the USFWS.

Longwood Office
235 Hunt Club Blvd., Suite 202
Longwood, FL 32779
Phone: (407) 869-9434
Fax: (407) 869-9436

Tampa Office
419 W. Platt St., Suite 103
Tampa, FL 33606
Phone: (813) 254-5959

The following resources were used for supporting information during the site assessment and letter preparation:

- Color aerial photographs (1" = 300), 2020, Google Earth, Volusia County, Florida.
- United States Geological Survey (USGS) 7.5-minute quadrangle map, Volusia County, Florida, (ArcGIS).
- National Wetlands Inventory Mapping, U.S. Fish and Wildlife Service.
- Official Lists of Endangered and Potentially Endangered Fauna and Flora in Florida (USFWS and FWC).

Pedestrian and vehicular surveys of the proposed project site were conducted in order to qualitatively document the existing vegetation and to assess the present land use patterns according to *the Florida Land Use, Cover and Forms Classification System, Department of Transportation* (FLUCFCS; DOT 1999). Five (05) land-use type was determined for the project site (Figure 2). A brief description of the FLUCFCS community is provided below.

411 – Pine Flatwoods

Located in the southern portion of the project as well as an area in the northeast. The canopy is dominated by longleaf pine (*Pinus palustris*) with some slash pine (*Pinus elliotii*). The understory is dominated by saw palmetto (*Serenoa repens*). Groundcover consists of bahia grass (*Paspalum notatum*) and grapevine (*Vitis spp*.).

436 – Upland Scrub, Pine and Hardwoods

Located in the center of the property, this habitat was heavily vegetated with some open sandy areas. Vegetation observed includes sweetgum (*Liquidambar styraciflua*), loblolly bay (*Gordonia lasianthus*), sand live oak (*Quercus geminata*), live oak (*Quercus virginianna*), crepe myrtle (*Lagerstroemia spp.*), runner oak (*Quercus pumila*), cogon grass (*Imperata cylindrica*), fetter bush (*Lyonia lucida.*), stagger bush (*Lyonia spp.*), galberry (*Ilex glabra*),

530 – Reservoir

This habitat is located on the eastern side of the property. The edge of the habitat is mowed and maintained. Juvenile red maples (*Acer rubrum*) and bald cypress (*Taxodium distichum*) appear to have been planted along the bank. Aquatic vegetation is sparse, some cattail (*Typha spp*.) and algae were observed.

615 – Stream and Lake Swamps (Bottomland)

Found along the northern and western boundary this habitat is defined by low lying areas with a natural creek running through it. Canopy species consist of bald cypress, pond pine (*Pinus serotina*), laurel oak (*Quercus laurifolia*), red maple, and water oak (*Qyercus nigra*). Other vegetation observed includes dogwood (*Cornus florida*), maiden cane (*Panicum hemitomon*), yellow eyed grass (*Xyris spp.*), and spoon flower (*Peltandra sagittifolia*).

617 – Mixed Wetland Hardwoods

Found in the areas that surround the creek habitat. The canopy here is a mixture of species including slash pine, southern magnolia (*Magnolia grandiflora*), pig nut hickory (*Carya glabra*), cabbage palm (*Sabal palmetto*), sweetgum, laurel oak, Carolina laurel cherry (*Prunus caroliniana*), water oak, and turkey oak (*Quercus laevis*). Ground cover was minimal and consists of bahia grass, blackberry, and some cogon grass.

Listed Species Survey

A survey was conducted using pedestrian transects throughout the site to assess the occurrence, or potential for occurrence, of flora and fauna listed as threatened, endangered, or as species of special concern (SSC) by the Florida Fish and Wildlife Conservation Commission (FWC), United States Fish and Wildlife Service (USFWS), and Florida Department of Agriculture (FDA).

ECS biologists searched the USFWS database at http://endangered.fws.gov for the presence of critical habitats within the proposed project site. There are no critical habitats within the project boundaries.

On January 11, 2017, the FWC State listing status changes, originally proposed back in 2010, became official after the approval of Florida's Imperiled Species Management Plan by FWC Commissioners.

• 15 species were removed from Florida's Endangered and Threatened Species List: Eastern chipmunk, Florida mouse, brown pelican, limpkin, snowy egret, white ibis, peninsula ribbon snake (Lower Keys population), red rat snake Lower Keys population), striped mud turtle (Lower Keys population), Suwannee cooter, gopher frog, Pine Barrens tree frog, Lake Eustis pupfish, mangrove rivulus, and Florida tree snail.

• 23 species changed from State-designated Species of Special Concern to State-designated Threatened species: Sherman's short-tailed shrew, Sanibel rice rat, little blue heron, tricolored heron, reddish egret, roseate spoonbill, American oystercatcher, black skimmer, Florida burrowing owl, Marian's marsh wren, Worthington's Marsh wren, Scott's seaside sparrow, Wakulla seaside sparrow, Barbour's map turtle, Florida Keys mole skink, Florida pine snake, Georgia blind salamander, Florida bog frog, bluenose shiner, saltmarsh top minnow, Southern tessellated darter, Santa Fe crayfish, and Black Creek crayfish.

• 14 species keep their State-designated Threatened status: Everglades mink, Big Cypress fox squirrel, Florida sandhill crane, snowy plover, least tern, white-crowned pigeon, Southeastern American kestrel, Florida brown snake (Lower Keys population), Key ringneck snake, short-tailed snake, rim rock crowned snake, Key silverside, blackmouth shiner, and crystal darter.

• Five species listed as State-designated Species of Special Concern: (list species): Homosassa shrew, Sherman's fox squirrel, osprey (Monroe County population), alligator snapping turtle, and harlequin darter.

Birds

Approximately 35 species (and sub-species) of birds found in Florida are protected by the FWC and/or the USFWS. Overall, about fifteen (15) are expected to occur in central Florida.

Approximately 35 species (and sub-species) of birds found in Florida are protected by the FWC and/or the USFWS. For Volusia County, the USFWS federally lists five (5) bird species. Only about fifteen (15) are expected to occur in central Florida. No listed birds were observed at this site (Table 1).

Florida scrub jays (*Aphelocoma c. coerulescens)* were not observed on the project site. This species is listed as threatened at the state and federal levels. The property does not contain scrub habitat. There were no open sandy patches of groundcover. The guidelines outlined in the *Ecology & Development-Related Habitat Requirements of the Florida Scrub Jay (April 1991)* were reviewed prior to the site visit to aid with the habitat assessment. No scrub jays were observed or vocalizations heard.

ECS reviewed the mapped locations of Florida scrub jays and the mapped habitat areas per Volusia County. The project is not within or adjacent to known occupied habitat or potential habitat. The scrub habitat onsite is a wetland scrub and not considered habitat for scrub jays.

Red-cockaded woodpeckers (*Picoides borealis*) are listed as endangered (USFWS) and endangered (FWC). No red-cockaded woodpeckers were observed and the upland habitat type is suitable. There was open pine flatwood habitat with old-growth pines that characterize RCW nesting and foraging habitat.

Listed wading birds such as limpkin (*Aramus guarauna),* little blue heron (*Egretta caerulea),* tricolored heron (*Egretta tricolor),* white ibis (*Eudocimus albus)* and wood stork *(Mycteria americana)* were not observed. The onsite wetlands do provide wading bird habitat. No wading birds or nests were observed.

Bald eagles (*Haliaeetus leucocephalus*) or their nests were not observed on the site. Bald eagles are protected under the Bald and Golden Eagle Protection Act and the Migratory Bird Treaty Act. The USFWS has established a 660-foot protection zone around a bald eagle nest.

ECS searched the FWC website to determine if any documented bald eagle nests are within 660 feet of the project site. There is one reported bald eagle nest in close proximity to the project site located over 1,000ft from the property boundary. ECS did not observe any bald eagle nests anywhere within the property boundaries. Therefore, the project site is outside of the 660-foot eagle nest protection zone and the development will not affect any bald eagle nests.

No other listed raptors such as Southeastern American kestrels (*Falco sparverius paulus*) or Arctic peregrine falcons (*Falco peregrinus tundrius*) were observed on or around the site. There is no foraging habitat for kestrels. No birds were observed on or offsite at the time of the survey.

Florida sandhill cranes (*Grus canadensis pratensis*), a Threatened Species, were not observed within the project boundaries.

Amphibians and Reptiles

About thirty (30) species of Florida's amphibians and reptiles are protected. For Volusia County, the USFWS federally lists four (4) reptile species. Only a few could occur on this site. Only a few could occur on this site. No listed reptile or amphibian species were observed within the project boundaries.

The sand skink (*Neoseps reynoldsi*) is listed as threatened by both FWS and FWC. The sand skink is primarily found in rosemary scrub, sand pine and oak scrub. Sand skinks require loose sand with large area of no groundcover or canopy cover. The property is not within the sand skink consultation area.

Gopher Tortoise

A cursory survey was conducted throughout the property for gopher tortoises (*Gopherus polyphemus)*, a species listed by the FWC as a Threatened. During the cursory survey, five (05) active and inactive gopher tortoise burrows were observed within the project site. Several commensal species associated with gopher tortoise burrows, including the gopher frog (*Rana capito)* and eastern indigo snake (*Drymarchon corais couperi)* also receive protection, but were not observed.

Currently, there are 4 suitable options to conduct activities that may adversely impact tortoises. The options are to:

1. Avoid developing the area occupied by the tortoises.

2. Avoid individual burrow entrances to ensure the protection of the entire burrow, usually a distance of 50 feet.

3. Capture and relocate the tortoises to a separate onsite location.

4. Capture and relocate the tortoises to an offsite FWC-approved recipient site.

Tortoises may be relocated to an on-site preserve at a density of up to 4 tortoises per acre of suitable upland habitat. Onsite recipient sites must be suitable set-aside areas that are not disturbed by construction activities, that provide a safe environment, and that exclude (through temporary fencing or other means) tortoises from development areas until such development activities have been completed.

Gopher tortoises need access to the following: 1) sufficient areas of forage (herbaceous and low-growing plants including native broadleaf grasses, legumes [bean/pea family], asters, blackberries and other fruits, prickly pear cactus, and a variety of other non-native grasses, except cogon grass); 2) sandy, well-drained, open (uncanopied), sunny sites for burrows and basking; 3) protection from dogs, cats, other exotic predators, human harassment, and busy roads. Such general conditions must remain after development, outside the built footprint on the site.

Small sites typically have gopher tortoises that normally "roam" between adjoining neighboring parcels to forage or burrow, so this should be considered as well. The herbaceous vegetation must be maintained (mowing, burning, etc.), and pesticides/herbicides should not be used in the recipient area.

A permanent FWC-approved easement must also be placed over the onsite recipient area to be maintained in perpetuity.

If the project site does not have a dedicated onsite preserve for tortoises, then offsite relocation will be necessary. In this event, tortoises can be relocated by biologists to an FWC approved recipient site. ECS biologists are authorized by the FWC to relocate gopher tortoises by various means including backhoe extraction. ECS also manages five (5) gopher tortoise recipient sites which are long-term protected sites.

The tasks associated with conducting an offsite relocation of tortoises would include reserving as yet to be determined number of acres at the recipient site, submitting an application to the FWC for the relocation, removing the tortoises from the donor site to the recipient site and reporting the results of the relocation to the FWC. It typically takes 14 to 30 days to obtain the permit to relocate the onsite gopher tortoise population to an approved recipient site. Once the relocation permit is received, ECS can complete the relocation using either the backhoe or bucket trapping extraction methods.

Eastern Indigo Snake

Concerning the eastern indigo snake, ECS conducted survey transects to identify potential aboveground and underground refugia, which eastern indigo snakes may inhabit. Underground refugia includes active or inactive gopher tortoise burrows, mammal burrows, hollows at the base of trees and other similar formations. Above ground refugia includes thick shrub formations, stumps, the base of thick palmetto, ground litter, brush piles, trash piles, and abandoned structures, and crevices of rock-lined ditch walls and other similar refugia.

Surveys for eastern indigo snakes are recommended by the USFWS during the time of October 01st through April 30th. There were little suitable refugia for the eastern indigo snake onsite. No eastern indigo snakes were observed.

The USFWS has established new programmatic effect determination key (Key) as part of the eastern indigo snake management. The Key allows the USFWS to require mitigation for eastern indigo snake habitat if 25 or more acres of suitable habitat will be impacted for development.

The mitigation fee is $7,500 for 50 acres which equates to $150 per acre of habitat. Therefore, the acreage determined to be eastern indigo snake habitat can be multiplied by $150 to determine the mitigation fee.

The USFWS has established a fund that a developer can pay into for mitigation.

A developer can pay up front and then no surveys for the eastern indigo snakes are required. The survey is a minimum 5-day survey. To save time and monies associated with the surveys, the developer can pay a fee and expedite the permitting process.

To determine if the site has eastern indigo snake habitat will be up to the USFWS reviewer assigned to the project.

The Key only applies if a project has Army Corps of Engineers jurisdictional wetlands. It was designed to speed up the permitting process for indigo snakes when there are Army Corps of Engineers jurisdictional wetlands onsite. The idea is a developer pays into the fund and gets a permit quickly.

If a project site does not have Army Corps of Engineers jurisdictional wetlands, then the programmatic key cannot be used. Under this circumstance, formal consultation with the USFWS would have to be conducted which can take up to 6 months to obtain a permit to impact eastern indigo snake habitat.

The USFWS requires the developer to notify the local field office via email at least **30 days prior** to any clearing/land alteration activities.

The notification has to include an eastern indigo snake protection/education plan. This notification can occur via email with the protection/education plan attached.

As long as the signatory of the e-mail certifies compliance with the protection/education plan (including use of the USFWS informational poster and brochure), no further written confirmation or "approval" from the USFWS is needed and the applicant may move forward with the project.

Mammals

Thirty-three (33) mammals are currently protected in Florida. For Volusia County, the USFWS federally lists no mammal species.

ECS searched for the presence of fox squirrels (*Sciurus niger shermani*) and the Florida mouse (*Podomys floridanus)* and their possible den or nest sites. The presence of gopher tortoise burrows increases the likelihood for the Florida mouse.

No mammal species were observed.

Listed Plants

There were no protected plant species found on the project site (Table 2).

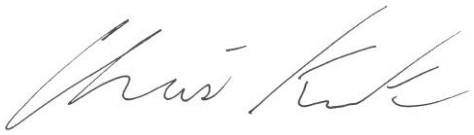
Currently, there are no technical reports available by the state or federal agencies mentioned in this letter report for the survey of the nearly 400 protected plant species. None of the agencies require relocation or mitigation for protected plant species.

The Department of Agriculture and Consumer Services (DACS) designates and regulates plants listed as "endangered", "commercially exploited" and "threatened".

There is no statutory prohibition against a landowner from harvesting an endangered or threatened plant from his property. However, it is unlawful for an individual to harvest an endangered or threatened species from the private land of another or any public land without first obtaining written permission of that landowner and a permit from DACS. Additionally, harvesting three or more commercially exploited plants from the private land of another or any public land will also require a DACS permit.

Summary

In summary, one listed species the gopher tortoise was observed within the project site. A 100% gopher tortoise survey will be necessary to determine the onsite gopher tortoise population. Once the survey is complete, a cost estimate can be prepared to relocate the onsite gopher tortoise population.



There wetlands and a stormwater ponds present on site.

Prior to any land clearing or construction activities, the USFWS must be provided with an eastern indigo snake protection/education plan. The USFWS must approve the protection/education plan prior to construction. There were no other environmental concerns observed for this project.

Ecological Consulting Solutions Inc. appreciates the opportunity to provide you with our services. Should you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

ECOLOGICAL CONSULTING SOLUTIONS INC

TABLES

TABLE 1: PROTECTED FAUNA FOUND IN VOLUSIA COUNTY, FLORIDA AND THEIR EXPECTED OCCURRENCE ON THE TYMBER CREEK APARTMENTS PROPERTY.

SPECIES	FWC STATUS (1)	USFWS STATUS (2)	PREFERRED HABITAT (3)	PROBABILITY OF OCCURRENCE (4)
REPTILES				
Drymarchon corais couperi Eastern indigo snake	T	T	Dry habitats bordered by water; often occupy *G. polyphemus* burrows	Medium: some habitat available, gopher tortoise burrows observed
Gopherus polyphemus Gopher tortoise	SSC	_	Well drained soil; xeric pine-oak hammocks and scrub; pine flatwoods	High: habitat available, burrows observed
Neoseps reynoldsii Sand Skink	T	T	Well drained sandy soil, open areas, sand pine-rosemary scrub	Low: habitat not available, none sighted, outside of known range
Pituophis melanoleucus mugitus Florida pine snake	SSC	_	Dry, sandy barrens in xeric oak and pine-wooded sandhills	Low: some habitat present, none observed
Stilosoma extenuatum Short-tailed snake	T	_	Sandy upland ridges; xeric oak pine woods; xeric oak hammocks	Low: habitat not present, none sighted
AMPHIBIANS				
Rana areolata aesopus Florida gopher frog	SSC	-	Dry, xeric habitats with wetlands such as isolated permanent ponds and cypress domes	Low: habitat not available, gopher tortoise burrows observed
BIRDS				
Aphelocoma coerulescens Florida scrub jay	T	T	Level, sterile, white sand with low, xeric oak scrub	Low: scrub habitat available on site, none sighted
Aramus guarauna Limpkin	SSC	_	Densely vegetated swamps, lakeshores and slow streams	Low: open water habitat unavailable on site, none sighted
Egretta caerulea Little blue heron	SSC	_	Lake littorus; shallow ponds and marshes	Low: foraging habitat available, no birds sighted
Egretta thula Snowy egret	SSC	_	Lake littorus; shallow ponds and marshes	Low: foraging habitat available, no birds sighted

TABLE 1: PROTECTED FAUNA FOUND IN VOLUSIA COUNTY, FLORIDA AND THEIR EXPECTED OCCURRENCE ON THE TYMBER CREEK APARTMENTS PROPERTY.

SPECIES	FWC STATUS (1)	USFWS STATUS (2)	PREFERRED HABITAT (3)	PROBABILITY OF OCCURRENCE (4)
BIRDS (cont..)				
Egretta tricolor Tricolored heron	SSC	_	Lake littorus; shallow ponds and marshes	Low: foraging habitat available, none sighted
Eudocimus albus White ibis	SSC	-	Beaches, mudflats, wet fields and prairies, forested wetlands and marshes	Low: foraging habitat available, none sighted
Falco peregrinus tundrius Peregrine falcon	E	_	Coastal beaches, prairies, and marshes	Low: no habitat available, none sighted.
Falco sparverius paulus Southeastern American kestrel	T	_	Forest edges, and clearings; nests in mature pines	Low: habitat marginal, none sighted
Grus canadensis pratensis Florida sandhill crane	T	_	Marshes, wet prairies, pastures, and open herbaceous rangeland	Low: habitat not available, no birds sighted
Haliaeetus leucocephalus Bald eagle	T	T	Open (<60% canopy cover), mature pine forests < 2 km from expansive open waters	Low: habitat unavailable, nest search was negative
Mycteria americana Wood stork	E	E	Nests is cypress swamps; forage sites range from shallow marshes to roadway borrow pits	Low: habitat not available, none sighted
Picoides borealis Red-cockaded Woodpecker	E	E	Old-growth pine flatwoods with regular fire occurrence are required for nesting	Low: habitat not available, none sighted
MAMMALS				
Podomys floridanus Florida mouse	SSC	_	Sand pine scrub; xeric oak-pine flatwoods; often associated with *G. polyphemus* burrows	Low: habitat limited, none sighted
Sciurus niger shermani Sherman's fox squirrel	SSC	_	Mature flatwoods of sandhills; occasional in tall cypress-bay forests	Low: no habitat available, none sighted
Ursus americanus floridanus Florida black bear	T	_	Nearly-impenetrable wooded thickets and swamps	Low: habitat not available, none sighted

TYMBER CREEK APARTMENTS
VOLUSIA COUNTY, FLORIDA

1.0 INTRODUCTION

The 19.62-acre Tymber Creek Apartments project site is located north of W Granada Boulevard, south of Moss Point Road, and west of N Tymber Creek Avenue in Ormond Beach, Florida. More specifically, the subject property is located in Section 25 Township 14 South and Range 31 East of Volusia County, Florida (Figure 1).

The subject property contains a large wetland along the northern and western boundary, a small isolated wetland on the east side of the property as well as a reservoir in the eastern portion of the project site. The rest of the property is pine dominated uplands.

The purpose of this application is to obtain a permit for wetland impacts associated with a proposed apartment complex (Figure 2). The site plan proposes a 300-unit apartment complex consisting of 10 apartment buildings, clubhouse with pool, maintenance building, trash compactor and dog park.

This application is based on the attached site plan (Figure 2). The total project area is $\pm$ 19.62 acres, with wetlands totaling 2.401 acres. ECS did not delineate the onsite wetlands. Two wetlands are present within the project boundaries.

Proposed wetland impacts total 0.137 acres (5,957 s.f.) of onsite wetlands. These impacts consist of six separate impact areas. Impacts to the isolated wetland on the east side of the property is proposed as well as five very small impacts to the western wetland. As compensation, the applicant proposes to provide onsite wetland preservation. Figure 2 depicts the proposed wetland impacts.

This project site is within the Halifax River hydrologic basin.

The project site was reviewed to determine the geological features of the landscape (e.g. soils and topography), to identify the remaining vegetative communities that occur within the project boundary, and to determine the occurrence of threatened and endangered flora and fauna within the parcel. The findings and conclusions of these studies are presented within this document.

2.0 SITE CHARACTERISTICS

2.1 TOPOGRAPHY

According to the U.S.G.S. 7.5 Minute Topographic Map, the project site elevations range from 5 feet to 20 feet above sea level. The highest elevations are found on the central and south sides of the property. The elevations decrease towards the large onsite wetland strand located on the north and west portions of the property. The wetland strand is associated with the Tomoka River. The isolated wetland is not depicted. Overall, the property appeared well drained. The upland portion of the property appeared relatively flat.

2.2 SOILS

Soil composition information for the subject site was obtained from the *Soils Survey of Volusia County, Florida*, United States Department of Agriculture; Soil Conservation Service. Six (6) soil type lies within the subject site of which, one (1) soil type (Pomona-St. Johns complex) is considered hydric.

2.3 VEGETATIVE COMMUNITY ANALYSIS

Pedestrian surveys of the project site were conducted in order to qualitatively document the existing vegetation and to assess the present land use patterns according to th*e Florida Land Use, Cover and Forms Classification System, Department of Transportation* (FLUCFCS; DOT 1999). Five (5) land-use types were determined for the project site. A brief description of each FLUCFCS community is provided below (Figure 3).

411 – Pine Flatwoods

Located in the southern portion of the project as well as an area in the northeast. The canopy is dominated by longleaf pine (*Pinus palustris*) with some slash pine (*Pinus elliotii*). The understory is dominated by saw palmetto (*Serenoa repens*). Groundcover consists of bahia grass (*Paspalum notatum*) and grapevine (*Vitis spp*.).

436 – Upland Scrub, Pine and Hardwoods

Located in the center of the property, this habitat was heavily vegetated with some open sandy areas. Vegetation observed includes sweetgum (*Liquidambar styraciflua*), loblolly bay (*Gordonia lasianthus*), sand live oak (*Quercus geminata*), live oak (*Quercus virginiana*), crepe myrtle (*Lagerstroemia spp.*), runner oak (*Quercus pumila*), cogon grass (*Imperata cylindrica*), fetter bush (*Lyonia lucida.*), stagger bush (*Lyonia spp.*) and gallberry (*Ilex glabra*).

530 – Reservoir

This habitat is located on the eastern side of the property. The edge of the habitat is mowed and maintained. Juvenile red maples (*Acer rubrum*) and bald cypress (*Taxodium distichum*) appear to have been planted along the bank. Aquatic vegetation is sparse, some cattail (*Typha spp*.) and algae were observed.

615 – Stream and Lake Swamps (Bottomland)

Found along the northern and western boundary this habitat is defined by low lying areas with a natural creek running through it. Canopy species consist of bald cypress, pond pine (*Pinus serotina*), laurel oak (*Quercus laurifolia*), red maple, and water oak (*Quercus nigra*). Other vegetation observed includes dogwood (*Cornus florida*), maiden cane (*Panicum hemitomon*), yellow eyed grass (*Xyris spp.*), and spoon flower (*Peltandra sagittifolia*).

617 – Mixed Wetland Hardwoods

Found in the areas that surround the creek habitat. The canopy here is a mixture of species including slash pine, southern magnolia (*Magnolia grandiflora*), pig nut hickory (*Carya glabra*), cabbage palm (*Sabal palmetto*), sweetgum, laurel oak, Carolina laurel cherry (*Prunus caroliniana*), water oak, and turkey oak (*Quercus laevis*). Ground cover was minimal and consists of bahia grass, blackberry, and some cogon grass

3.0 THREATENED AND ENDANGERED SPECIES

3.1 METHODOLOGY

Pedestrian and vehicular transects were conducted throughout 100% of the site to assess the occurrence, or potential for occurrence, of flora and fauna listed as threatened, endangered, or as species of special concern by the Florida Fish and Wildlife Conservation Commission (FWC) and the U. S. Fish and Wildlife Services (USFWS). Various resources were employed to assist with the survey. These resources included ArcGIS aerial maps; Florida Natural Areas Inventory and Official Lists of Endangered and Potentially Endangered Fauna and Flora in Florida (FWC).

3.2 Fauna

Approximately 35 species (and sub-species) of birds found in Florida are protected by the FWC and/or the USFWS. Overall, about fifteen (15) are expected to occur in central Florida. For Volusia County, the USFWS federally lists five bird species. No listed bird species were observed at this site (Table 1).

Florida scrub jays (*Aphelocoma c. coerulescens)* were not observed on the project

site. This species is listed as threatened at the state and federal levels. The onsite upland habitat does contain scrub habitat. The guidelines outlined in the *Ecology & Development-Related Habitat Requirements of the Florida Scrub Jay (April 1991)* were reviewed prior to the site visit. No scrub jays were observed or vocalizations heard.

ECS reviewed the mapped locations of Florida scrub jays and the mapped habitat areas per Volusia County. The project is not within or adjacent to known occupied habitat or potential habitat. The scrub habitat onsite is a wetland scrub and not considered habitat for scrub jays.

Red-cockaded woodpeckers (*Picoides borealis*) are listed as endangered (USFWS) and endangered (FWC). No red-cockaded woodpeckers were observed and the upland habitat type is suitable. There was open pine flatwood habitat with old-growth pines that characterize RCW nesting and foraging habitat.

Listed wading birds such as limpkin (*Aramus guarauna),* little blue heron (*Egretta caerulea),* tricolored heron (*Egretta tricolor),* white ibis (*Eudocimus albus)* and wood stork *(Mycteria americana)* were not observed. The large onsite wetland does provide wading bird habitat. No wading birds or nests were observed.

Bald eagles (*Haliaeetus leucocephalus*) or their nests were not observed on the site. Bald eagles are protected under the Bald and Golden Eagle Protection Act and the Migratory Bird Treaty Act. The USFWS has established a 660 foot protection zone around a bald eagle nest.

ECS searched the FWC website to determine if any documented bald eagle nests are within 660 feet of the project site. There is one reported bald eagle nest in close proximity to the project site and is located over 1,000ft from the property boundary. ECS did not observe any bald eagle nests anywhere within the property boundaries. Therefore, the project site is outside of the 660-foot eagle nest protection zone and the development will not affect any bald eagle nests.

No other listed raptors such as Southeastern American kestrels (*Falco sparverius paulus*) or Arctic peregrine falcons (*Falco peregrinus tundrius*) were observed on or around the site. There is little foraging habitat for kestrels. No birds were observed on or offsite at the time of the survey.

Amphibians and Reptiles

About thirty (30) species of Florida's amphibians and reptiles are protected. For Volusia County, the USFWS federally lists seven reptile species. Only a few could occur on this site. No listed reptile or amphibian species were observed within the project boundaries.

A cursory survey was conducted throughout the property for gopher tortoises (*Gopherus polyphemus)*, a species listed by the FWC as a Threatened. During the cursory survey, five (05) active and inactive gopher tortoise burrows were observed within the project site. Several commensal species associated with gopher tortoise burrows, including the gopher frog (*Rana capito)* and eastern indigo snake (*Drymarchon corais couperi)* also receive protection, but were not observed. A permit will be obtained from the FWC to relocate the onsite gopher tortoise population.

Concerning the eastern indigo snake, ECS conducted survey transects to identify potential aboveground and underground refugia, which eastern indigo snakes may inhabit. Underground refugia includes active or inactive gopher tortoise burrows, mammal burrows, hollows at the base of trees and other similar formations. Above ground refugia includes thick shrub formations, stumps, the base of thick palmetto, ground litter, brush piles, trash piles, and abandoned structures, and crevices of rock-lined ditch walls and other similar refugia.

Surveys for eastern indigo snakes are recommended by the USFWS during the time period of October 01st through April 30th. There were little suitable refugia for the eastern indigo snake onsite. No eastern indigo snakes were observed.

On August 1, 2017, the USFWS has revised their programmatic key for the eastern indigo snake. The changes allow the USFWS to ask for mitigation for impacts to eastern indigo snake habitat if 25 or more acres of suitable habitat will be impacted for development. The USFWS has established a fund that a developer can pay into for mitigation. This change is only for south Florida and does not include Volusia County.

Mammals

Thirty-three (33) mammals are currently protected in Florida. For Volusia County, the USFWS federally lists one mammal species. An estimated two (2) State listed mammal species occur within Volusia County. None were observed on this site.

ECS focused our search on fox squirrels (*Sciurus niger shermani*) and the Florida mouse (*Podomys floridanus)* and their possible den or nest sites. We did not observe any listed mammals or their potential den sites. The presence of gopher tortoise burrows increases the probability of the Florida mouse occurring onsite.

3.3 Flora

There were no protected plant species found on the project site. Currently, there are no technical reports available by the state or federal agencies, mentioned in this report, for the survey of protected plant species.

The Department of Agriculture and Consumer Services (DACS) designates and

regulates plants listed as "endangered", "commercially exploited" and "threatened". There is no statutory prohibition against a landowner from harvesting an endangered or threatened plant from his property. However, it is unlawful for an individual to harvest an endangered or threatened species from the private land of another or any public land without first obtaining written permission of that landowner and a permit from DACS.

3.4 REGULATORY REVIEW

U. S. Fish and Wildlife Service

The U.S. Fish and Wildlife Service (USFWS) is the federal agency responsible for protecting the nation's fish and wildlife resources through implementation of the Endangered Species Act of 1973, as amended ("ESA"), 16 U.S.G. 1531-1543. The USFWS has responsibility for terrestrial and fresh water species. In Florida, 104 species are federally listed as threatened and endangered.

Florida Fish and Wildlife Conservation Commission

Article IV, Section 9 of the Florida Constitution authorizes the Florida Fish and Wildlife Conservation Commission (FWC) to "exercise the regulatory and executive powers in the state with regard to the wild animal life and fresh water aquatic life..." The FWC regulates the taking of individuals listed as endangered, threatened, or of special concern and their nests. The FWC also provides technical assistance to other agencies that have regulatory authority over activities, which may affect fish and wildlife and their habitat. The regulatory role of the FWC is currently restricted to protecting animals, not their habitats. However, current FWC policies allow for habitat protection as compensation for the "taking" of individuals of the species. The FWC Office of Environmental Services (OES) provides technical assistance to other agencies that regulate development activities. These agencies include the Department of Community Affairs, the Department of Environmental Protection, the U.S. Army Corps of Engineers, water management districts, regional planning councils and local governments. Currently, the FWC lists 106 species of animals.

Florida Department of Agriculture and Consumer Services

In Section 581.185, F. S., the Florida Legislature delegated to the Department of Agriculture and Consumer Services (FDA) authority to designate and regulate plants listed as "endangered", "commercially exploited" and "threatened". There is no statutory prohibition against a landowner from harvesting an endangered or threatened plant from its own property. It is unlawful for an individual to harvest from the private land of another or any public land without first obtaining written permission of the landowner and a permit from FDA. Harvesting three or more commercially exploited plants will also require a FDA permit.

4.0 WETLAND ANALYSIS

The wetland strand located on the west and north sides of the property is part of a larger wetland system associated with the Tomoka River. The wetland portion along the northern property boundary is characterized by sudden decrease in elevation, standing water with a forested edge adjacent to the standing water and visible flow. Overall, the wetland is considered good quality. The uplands are forested with a dense saw palmetto understory. There were no signs of historic cattle grazing or disturbance of this wetland other than small amounts of trash which may have floating into the property under high water conditions.

The wetland located along the western property boundary is much narrower than the north wetland. It is more of a wetland strand in appearance. The side slopes are not as steep and standing water was only present in small pools on the northwest portion of the property. Single family homes border this strand to the west. This wetland also exhibited minimal signs of disturbance. The wetland groundcover is mostly pine duff with some scattered fern species.

The isolated wetland located on the east side of the property is forested. It has previously been impacted by the construction of Tymber Creek Road. The east side of this wetland has a heavy shrub component. This wetland is less than 0.5 acres in size and has no connections with offsite wetlands. Only a portion of this wetland is onsite. The previous consultant delineated the entirety of this wetland.

Overall, the lack of management has played an important role in eliminating natural processes such as fire and natural regeneration. There were no observed ditches present.

4.1 IMPACT AVOIDANCE AND MINIMIZATION ANALYSIS

Complete avoidance and minimization (reduction of wetland impacts) to the onsite wetlands cannot be achieved due to the shape of the property combined with the location of the onsite wetland habitats. Wetland impacts are unavoidable. The proposed wetland impacts are necessary for pad construction and stormwater pond construction.

The site has been designed to impact the isolated wetland while limiting impacts to five small areas along the western strand wetland. No impacts are proposed to the wetland along the north property boundary. Development is proposed to the upland habitats, maximizing usage of the available upland habitat.

Impact Areas 1,2,3,4 and 5 are necessary for sloping from the proposed parking area. As the edge of the parking area slopes from the construction grade, down towards the wetland, five small impacts are necessary.

The proposed wetland preservation will continue to provide habitat for wildlife

species. The proposed impact to wildlife and fish is considered minimal. The applicant does propose mitigation that provides regional ecological value.

4.1.1 Wetland Impacts

The wetland impacts associated with the proposed development is shown in Figure 2. Approximately 0.137 acres of impacts are proposed. The individual wetland impacts are detailed below.

Wetland Impact Area 1 – 0.005 acres (220 sf.)
Wetland Impact Area 2 – 0.006 acres (287 sf.)
Wetland Impact Area 3 – 0.001 acres (27 sf.)
Wetland Impact Area 4 – 0.001 acres (28 sf.)
Wetland Impact Area 5 – 0.002 acres (87 sf.)
Wetland Impact Area 6 – 0.122 acres (5,308 sf.)

Wetland Impact Areas 1 through 5 are to the narrow wetland strand located on the west side of the property. The impacts are to the extreme wetland perimeter and are necessary for a uniform curvature of the parking for the apartments. The impact areas are forested.

Impact Area 6 is to an isolated wetland, less than 0.5 acres in size with no connection to offsite wetlands.

The higher quality wetland habitat with standing water, water flow, will be preserved.

Mitigation is proposed for the 0.015 acres of wetland impacts (Wetland Impact Areas 1 through 5). These impacts will be compensated for by onsite wetland preservation.

4.2 SECONDARY AND CUMULATIVE IMPACTS

The criteria within Sections 4.2.7 and 4.2.8 of the SFWMD Applicants Handbook could be reviewed to provide reasonable assurances that any proposed wetland impacts would not result in adverse secondary or cumulative impacts to the water resources associated with this project.

Secondary impacts were assessed for the proposed 0.015 acres of wetland impacts. The distance of each impact area and a depth of 100 feet was used to determine the limits of secondary impacts and is discussed under Section 5.3.

No listed species were identified within or adjacent to the project area. Impacts to the upland-nesting habitat of listed species that are aquatic or wetland dependent are not expected to occur.

Upland buffers as well as additional upland preservation will also be provided.

The proposed mitigation offsets the project's adverse impacts and it is in the same drainage basin; therefore, the project complies with 12.2.8, ERP A.H.

5.0 UNIFORM MITIGATION ASSESSMENT METHOD

Per subsection 373.414(18), F.S., a uniform mitigation assessment method (UMAM) was employed to determine the amount of mitigation needed to offset adverse impacts to wetlands and other surface waters and\or to award and deduct mitigation bank credits.

The standardized procedures for assessing the functions provided by wetlands and other surface waters, the amount that those functions are reduced by a proposed impact and the amount of mitigation necessary to offset wetland and surface water loss, were adhered to as outlined in Chapter 62-345.

A qualitative description, per Section 62-345.00.400, F.A.C. (referred to as Part I) and quantification of assessment areas, per Sections 62-345.500 and .600, F.A.C. (referred to as Part II) was conducted for the onsite wetland. Reasonable scientific judgment was used when applying this method.

5.1 Part I – Qualitative Description of Impact Area

The information provided on the data sheets (Appendix B) has been previously discussed in this document. Please refer to the vegetative descriptions under Section 2.3 “Vegetative Community Analysis” and Section 3.3 “Listed Species Survey Results” for detailed information as summarized on the data sheet.

5.2 Part II – Quantification of Impact Assessment Area

The five (5) impact areas were assessed as a single impact area since they are so small, all to the same wetland and identical in habitat type. The assessment areas were analyzed to determine the degree to which the assessment area provides the functions identified in Part I and the amount of function lost or gained by the project for the impacted jurisdictional onsite wetlands. The areas chosen represent wetland vegetation, soils and hydrology of the onsite wetland and upland buffer, and also include existing sub-canopy and groundcover vegetative species. The assessment area represents current conditions of the existing onsite wetland and upland buffer. Three categories of indicators of wetland function were scored to the extent that they affect the ecological value of the assessment areas. These indicators include: 1) location and landscape support, 2) water environment and 3) community structure.

Wetland Assessment Area is the five impact areas on the west side of the property, totaling 0.115 acres. The current condition of the impact area was

assessed and a delta of 0.7 was determined. Multiplying the delta (0.7) with the impact acreage (0.015) yielded a functional loss (FL) of 0.0105. Please see the data sheet for the individual information determined for the three indicators of wetland function (Appendix B).

5.3 Secondary Impacts

Secondary impacts were assessed for the five impact areas. Please see the attached secondary impact map.

More specifically, secondary impacts were assessed along the boundary of each wetland impact area. The linear feet by an average depth of 100 feet was assessed for secondary impacts or 0.115 acres.

The secondary impact areas are as follows;

Wetland Impact Area 1 – 0.016 acres
Wetland Impact Area 2 – 0.034 acres
Wetland Impact Area 3 – 0.015 acres
Wetland Impact Area 4 – 0.014 acres
Wetland Impact Area 5 – 0.036 acres

The current condition of the secondary impact area was assessed and a score of 0.63 was determined. A score of 0.7 was determined for the without condition. The difference is a delta of 0.07. Multiplying the delta (0.07) with the impact secondary acreage (0.115) yielded a functional loss (FL) of 0.008. Please see the data sheet for the individual information determined for the three indicators of wetland function (Appendix B).

The combined functional loss is 0.019.

6.0 PROPOSED MITIGATION

The loss of wetland function due to the proposed impacts can be sufficiently mitigated with onsite wetland preservation. The proposed mitigation plan will more than compensate for the loss of the aforementioned wetlands. The total functional loss (direct impacts and secondary impacts) is 0.019.

Wetland Preservation Areas 1 and 2 is the 1.797 acres of the northern onsite wetland.

The current condition of the preservation area was assessed and a delta of 0.03 was determined. A preservation adjustment factor of 0.6 was determined. This preservation adjustment factor was based on a proposed management plan, the ecological and hydrological relationship to the onsite preservation area and to the offsite wetlands associated with the Tomoka River and the floodplain habitat the

onsite wetlands provide. Multiplying the adjusted mitigation delta (0.018) with the preservation acreage (1.797) yielded a regional functional gain (RFG) of 0.032. Please see the data sheet for the individual information determined for the three indicators of wetland function (Appendix B).

Wetland Preservation Area 3 is the 0.467 acres of the northern onsite wetland.

The current condition of the preservation area was assessed and a delta of 0.03 was determined. A preservation adjustment factor of 0.5 was determined. This preservation adjustment factor was based on a proposed management plan, the ecological and hydrological relationship to the onsite preservation area and to the offsite wetlands associated with the Tomoka River. Multiplying the adjusted mitigation delta (0.015) with the preservation acreage (0.467) yielded a regional functional gain (RFG) of 0.007. Please see the data sheet for the individual information determined for the three indicators of wetland function (Appendix B).

The combined regional functional gain for the onsite preservation areas is 0.039.

Subtracting the regional functional gain score from the total functional loss score (0.019 – 0.039) results in surplus of 0.02. Upland buffers will also be provided as well as additional upland preservation. The eight (8) upland preservation areas are labeled on the site plan. The upland preservation areas were not assessed with UMAM as they were not necessary to offset the proposed wetland impacts.

7.0 SUMMARY

As previously discussed, approximately 0.137 acres of wetland impacts are proposed. Mitigation is proposed for 0.115 acres of proposed wetland impacts. Secondary impacts were estimated. A combined functional loss of 0.019 was determined for the direct impacts and the anticipated secondary impacts to onsite wetlands.

Mitigation will be provided through 2.264 acres of onsite wetland preservation. Upland preservation will consist of 2.599 acres.

PART I – Qualitative Description
(See Section 62-345.400, F.A.C.)

Site/Project Name	Application Number	Assessment Area Name or Number
Tymber Creek Apartments		Wetland Impact Area 1,2,3,4,5

FLUCCs code	Further classification (optional)	Impact or Mitigation Site?	Assessment Area Size
FLUCFCS 611		Impact	0.015 acres

Basin/Watershed Name/Number	Affected Waterbody (Class)	Special Classification (i.e.OFW, AP, other local/state/federal designation of importance)
.....	Class I	

Geographic relationship to and hydrologic connection with wetlands, other surface water, uplands

The subject property is 19.62 acres located north of W Granada Boulevard, south of Moss Point Road, and west of N Tymber Creek Avenue in Ormond Beach, Florida. More specifically, the subject property is located in Section 25 Township 14 South and Range 31 East of Volusia County, Florida. The subject property contains a large wetland along the northern and western boundary as well as a reservoir in the eastern portion of the project site. The total amount of wetlands on site totals 2.401 acres. The rest of the property is pine dominated uplands.

Assessment area description

The assessment area consists of an impact to a mixed wetland hardwoods located on the eastern part of the property. The canopy consists of predominately slash pines (Pinus elliottii), sweet bay (Magnolia virginiana with red maple (Acer rubrum) and sweetgum (Liquidambar styraciflua). Understory species include dahoon holly and wax myrtle (Myrica cerifera). The groundcover consists of Virginia chain fern (Woodwardia virginica), cinnamon fern (Osmunda cinnamomea), dog fennel (Eupatorium capillifolium), royal fern (Osmunda regalis) and redroot (Lachnanthes caroliana). Standing water is not present.

Significant nearby features	Uniqueness (considering the relative rarity in relation to the regional landscape.)
the Tomoka River is due north of the project site	This impact area (wetland habitat) not unique or rare in relation to the regional landscape.

Functions	Mitigation for previous permit/other historic use
Provides wildlife habitat for local species, water quality from runoff	none

Anticipated Wildlife Utilization Based on Literature Review (List of species that are representative of the assessment area and reasonably expected to be found)	Anticipated Utilization by Listed Species (List species, their legal classification (E, T, SSC), type of use, and intensity of use of the assessment area)
amphibians, reptiles, songbirds and mammals	none found in Volusia County

Observed Evidence of Wildlife Utilization (List species directly observed, or other signs such as tracks, droppings, casings, nests, etc.):

none

Scoring Guidance
The scoring of each indicator is based on what would be suitable for the type of wetland or surface water assessed

Optimal (10)	Moderate(7)	Minimal (4)	Not Present (0)
Condition is optimal and fully supports wetland/surface water functions	Condition is less than optimal, but sufficient to maintain most wetland/surface waterfunctions	Minimal level of support of wetland/surface water functions	Condition is insufficient to provide wetland/surface water functions

.500(6)(a) Location and Landscape Support	w/o pres or current: 7	with: 0	Support for wildlife species outside of Assessment Area is moderate. Provides some benefits, adverse impacts from upland land uses outside of Assessment Area, natural connection to offsite wetlands, upland provides protection, uplands to be developed.
.500(6)(b)Water Environment (n/a for uplands)	w/o pres or current: 7	with: 0	Standing water is not present in the AA, uplands undeveloped, no evidence of flow rates, no ditching observed, no evidence of fire, nuisance and some exotic species in low numbers, no wading birds observed in Assessment Area, some native desirable wetland plant species. Light penetration is sufficient for herbaceous species.
.500(6)(c)Community structure 1. Vegetation and/or 2. Benthic Community	w/o pres or current: 7	with: 0	Canopy cover dominated by red maple, slash pine, some shrub cover, some desirable wetland species. Adjacent uplands are undeveloped pine and scrub, some snags, low lying topographic area. no evident land management practices. Encourages recruitment of invasive exotics.

Score = sum of above scores/30 (if uplands, divide by 20)	
current or w/o pres: 0.7	with: 0

If preservation as mitigation,
Preservation adjustment factor =
Adjusted mitigation delta =

For impact assessment areas
FL = delta x acres = 0.7 X 0.015=0.0105

Delta = [with-current]

FLUCFCS 615 / 617		Mitigation	1.797acres

Basin/Watershed Name/Number	Affected Waterbody (Class)	Special Classification (i.e.OFW, AP, other local/state/federal designation of importance)
.....	Class I	

Geographic relationship to and hydrologic connection with wetlands, other surface water, uplands

The subject property is 19.62 acres located north of W Granada Boulevard, south of Moss Point Road, and west of N Tymber Creek Avenue in Ormond Beach, Florida. More specifically, the subject property is located in Section 25 Township 14 South and Range 31 East of Volusia County, Florida. The subject property contains a large wetland along the northern and western boundary as well as a reservoir in the eastern portion of the project site. The total amount of wetlands on site totals 2.401 acres. The rest of the property is pine dominated uplands.

Assessment area description

Found along the northern boundary this habitat is defined by low lying areas with a natural creek running through it. Canopy species consist of bald cypress, pond pine (Pinus serotina), laurel oak (Quercus laurifolia), red maple, and water oak (Qyercus nigra). Other vegetation observed includes dogwood (Cornus florida), maiden cane (Panicum hemitomon), yellow eyed grass (Xyris spp.), and spoon flower (Peltandra sagittifolia). The upper banks consist of slash pine, southern magnolia (Magnolia grandiflora), pig nut hickory (Carya glabra), cabbage palm (Sabal palmetto), sweetgum, laurel oak, Carolina laurel cherry (Prunus caroliniana), water oak, and turkey oak (Quercus laevis). Ground cover was minimal and consists of bahia grass, blackberry, and some cogon grass. Water flows through this area.

Significant nearby features	Uniqueness (considering the relative rarity in relation to the regional landscape.)
the Tomoka River is due north of the project site	This impact area (wetland habitat) not unique or rare in relation to the regional landscape.

Functions	Mitigation for previous permit/other historic use
Provides wildlife habitat for local species, water quality from runoff	none

Anticipated Wildlife Utilization Based on Literature Review (List of species that are representative of the assessment area and reasonably expected to be found)	Anticipated Utilization by Listed Species (List species, their legal classification (E, T, SSC), type of use, and intensity of use of the assessment area)
fish, amphibians, reptiles, songbirds and mammals	none found in Volusia County

Observed Evidence of Wildlife Utilization (List species directly observed, or other signs such as tracks, droppings, casings, nests, etc.):

raccoon and white-tailed deer tracks

PART 3: PERMIT APPROVAL

The above application has been reviewed and is hereby approved subject to all Provisions as attached.

Permit Number: 2021-A-591-00078
Department of Transportation

Signature: Scott Kirts Title: OPERATIONS PROGRAM ENGINEER

Department Representative's Printed Name Scott Kirts

Temporary Permit ☐ YES ☑ NO (If temporary, this permit is only valid for 6 months)

Special provisions attached ☐ YES ☑ NO

Date of Issuance: 7/19/2022

If this is a normal (non-temporary) permit it authorizes construction for one year from the date of issuance. This can only be extended by the Department as specified in 14-96.007(6).

Approved
2021-A-591-00078

See following pages for General and Special Provisions

PART 4: GENERAL PROVISIONS

1. Notify the Department of Transportation Maintenance Office at least 48 hours in advance of starting proposed work.
   Phone: 3867403420 , Attention: Christopher Engels
2. A copy of the approved permit must be displayed in a prominent location in the immediate vicinity of the connection construction.
3. Comply with Rule 14-96.008(1), F.A.C., Disruption of Traffic.
4. Comply with Rule 14-96.008(7), F.A.C., on Utility Notification Requirements.
5. All work performed in the Department's right of way shall be done in accordance with the most current Department standards, specifications and the permit provisions.
6. The permittee shall not commence use of the connection prior to a final inspection and acceptance by the Department.
7. Comply with Rule 14-96.003(3)(a), F.A.C., Cost of Construction.
8. If a Significant Change of the permittee's land use, as defined in Section 335.182, Florida Statutes, occurs, the Permittee must contact the Department.
9. Medians may be added and median openings may be changed by the Department as part of a Construction Project or Safety Project. The provision for a median might change the operation of the connection to be for right turns only.
10. All conditions in NOTICE OF INTENT WILL APPLY unless specifically changed by the Department.
11. All approved connection(s) and turning movements are subject to the Department's continuing authority to modify such connection(s) or turning movements in order to protect safety and traffic operations on the state highway or State Highway System.
12. **Transportation Control Features and Devices in the State Right of Way.** Transportation control features and devices in the Department's right of way, including, but not limited to, traffic signals, medians, median openings, or any other transportation control features or devices in the state right of way, are operational and safety characteristics of the State Highway and are not means of access. The Department may install, remove or modify any present or future transportation control feature or device in the state right of way to make changes to promote safety in the right of way or efficient traffic operations on the highway.
13. The Permittee for him/herself, his/her heirs, his/her assigns and successors in interest, binds and is bound and obligated to save and hold the State of Florida, and the Department, its agents and employees harmless from any and all damages, claims, expense, or injuries arising out of any act, neglect, or omission by the applicant, his/her heirs, assigns and successors in interest that may occur by reason of this facility design, construction, maintenance, or continuing existence of the connection facility,except that the applicant shall not be liable under this provision for damages arising from the sole negligence of the Department.
14. The Permittee shall be responsible for determining and notify all other users of the right of way.
15. Starting work on the State Right of Way means that I am accepting all conditions on the Permit.

Approved
2021-A-591-00078

7/19/2022

PART 5: SPECIAL PROVISIONS

NON-CONFORMING CONNECTIONS: ☐ YES ☑ NO

If this is a non-conforming connection permit, as defined in Rule Chapters 14-96 and 14-97, then the following shall be a part of this permit.

1. The non-conforming connection(s) described in this permit is (are) not permitted for traffic volumes exceeding the Permit Category on page 1 of this permit, or as specified in "Other Special Provisions" below.

2. All non-conforming connections will be subject to closure or relocation when reasonable access becomes available in the future.

OTHER SPECIAL PROVISIONS:

PART 6: APPEAL PROCEDURES

You may petition for an administrative hearing pursuant to sections 120.569 and 120.57, Florida Statutes. If you dispute the facts stated in the foregoing Notice of Intended Department Action (hereinafter Notice), you may petition for a formal administrative hearing pursuant to section 120.57 (1), Florida Statutes. If you agree with the facts stated in the Notice, you may petition for an informal administrative hearing pursuant to section 120.57(2), Florida Statutes. You must file the petition with:

Clerk of Agency Proceedings
Department of Transportation
Haydon Burns Building
605 Suwannee Street, M.S. 58
Tallahassee, Florida 32399-0458

The petition for an administrative hearing must conform to the requirements of Rule 28-106.201(2) or Rule 28-106.301(2), Florida Administrative Code, and be filed with the Clerk of Agency Proceedings by 5:00 p.m. no later than 21 days after you received the Notice. The petition must include a copy of the Notice, be legible, on 8 1/2 by 11 inch white paper, and contain:

1. Your name, address, telephone number, any Department of Transportation identifying number on the Notice, if known, the name and identification number of each agency affected, if known, and the name, address, and telephone number of your representative, if any, which shall be the address for service purposes during the course of the proceeding.
2. An explanation of how your substantial interests will be affected by the action described in the Notice;
3. A statement of when and how you received the Notice;
4. A statement of all disputed issues of material fact. If there are none, you must so indicate;
5. A concise statement of the ultimate facts alleged, including the specific facts you contend warrant reversal or modification of the agency's proposed action, as well as an explanation of how the alleged facts relate to the specific rules and statutes you contend require reversal or modification of the agency's proposed action;
6. A statement of the relief sought, stating precisely the desired action you wish the agency to take in respect to the agency's proposed action.

If there are disputed issues of material fact a formal hearing will be held, where you may present evidence and argument on all issues involved and conduct cross-examination. If there are no disputed issues of material fact an informal hearing will be held, where you may present evidence or a written statement for consideration by the Department.

Mediation, pursuant to section 120.573, Florida Statutes, may be available if agreed to by all parties, and on such terms as may be agreed upon by all parties. The right to an adminstrative hearing is not affected when mediation does not result in a settlement.

Your petition for an administrative hearing shall be dismissed if it is not in substantial compliance with the above requirements of Rule 28-106.201(2) or Rule 28-106.301(2), Florida Administrative Code. If you fail to timely file your petition in accordance with the above requirements, you will have waived your right to have the intended action reviewed pursuant to chapter 120, Florida Statutes, and the action set forth in the Notice shall be conclusive and final.

Brief description of facility and proposed connection:
Stormwater management facility for a proposed apartment complex access road. Access road basin is 0.426 acres with 0.313 acres proposed impervious. System discharges to an existing roadside ditch along the north side of the SR 40 ROW.

Briefly describe why this activity requires a Drainage Connection Permit (Include where the stormwater will discharge to FDOT right of way):
Site drains to the FDOT ROW in the pre & post-development condition.

PART 6 – Permit General Conditions

1. This permit is a license for permissive use only and does not convey any property rights either in real estate or material, or any exclusive privilege and it does not authorize any injury to private property or invasion of private rights, or any infringement of Federal, State or local laws, rules or regulations; nor does it obviate the necessity of obtaining any required state or local approvals.

2. The drainage connection as authorized herein shall be constructed and thereafter maintained in accordance with the documents attached hereto and incorporated by reference herein. All work performed in the Department's right of way shall be done in accordance with the most current Department standards, specifications and the permit provisions. Such construction shall be subject to the inspection and approval of the Department, and the Department may at any time make such inspections as it deems necessary to assure that the drainage connection is in compliance with this permit.

3. The entire expense of construction within the Department right of way, including replacement of existing pavement or other existing features, shall be borne by the permittee.

4. The permittee shall maintain that portion of the drainage connection authorized herein located on permittee's property in good condition. The Department shall maintain that portion of the drainage connection authorized herein located within its right of way.

5. If the drainage connection is not constructed, operated or maintained in accordance with this permit, the permit may be suspended or revoked. In this event modification or removal of any portion of the drainage connection from the Department's right of way shall be at the permittee's expense.

6. The Department reserves the right to modify or remove the drainage connection to prevent damage or in conjunction with road improvements.

7. It is understood and agreed that the rights and privileges herein set out are granted only to the extent of the Department's right, title, and interest in the land to be entered upon and used by the permittee, and the permittee will, at all times, assume all risk of and indemnify, defend and save harmless the Department from and against any and all loss, damage, cost or expense arising in any manner on account of the exercise or attempted exercises by said permittee of these rights and privileges, regardless of the respective degrees of fault of the parties.

8. Utilities, including gas lines, may exist within the right of way. Prior to beginning work the permittee shall contact Sunshine State One Call of Florida, Inc at 811 or 800-432-4770, who will notify all utility owners near the scheduled project. The utility owners have two (2) full business days to provide locations of their respective facilities. The permittee shall be solely responsible for any damage to or conflicts with gas lines, utilities and/or third persons.

9. The permittee shall notify the Department of Transportation Maintenance Office located at Kepler [DeLand] Operations
Phone (386) 740-3422 ext. _____ 48 hours in advance of starting any work on the drainage connection authorized by this permit and also 24 hours prior to any work within the Department's right of way. Construction of any work on the right of way shall be completed within 30 days after such notification. If such construction is not completed within 2 days after such notification, the permittee shall notify the Department of the anticipated completion date.

10. This permit shall expire if construction on the drainage connection is not begun within one year from the date of approval and if construction on the drainage connection is not completed by (Date) 7/19/2023.

11. A permittee may request an extension of the Drainage Connection Permit expiration date by filing a written request for a permit time extension. All requests for time extensions must be received by the Department 15 working days prior to the expiration date.

12. All the provisions of this permit shall be binding on any assignee or successor in interest of the permittee.

PART 3 – Certification by Applicant

I hereby certify that the information in this submittal is complete and accurate to the best of my knowledge.

Applicant's Signature: Shamus Schroeder Date: 3-30-2022

Name (Printed): Shamus Schroeder

Title and Company: Newkirk Engineering, Inc.

Address: 1230 N US Highway 1, Suite 3 Ormond Beach, Florida 32174

Phone Number: (386) 872-7794 ext. _____ E-mail address: shamus@newkirk-engineering.com

PART 4 – Owner's Authorization of a Representative

I (we), the owner, Richard Jaffe, J-11 Land Partners LLLP , do hereby authorize the following person, or entity, as my representative:

Name (Printed): Shamus Schroeder

Title and Company: Newkirk Engineering, Inc.

Address: 1230 N US Highway 1, Suite 3 Ormond Beach, Florida 32174

Phone Number: (386) 872-7794 ext. _____ E-mail address: shamus@newkirk-engineering.com

Part 5 – Affidavit of Property Ownership or Control and Statement of Contiguous Interest

I, Richard Jaffe, J-11 Land Partners LLLP, certify that I own or lawfully control the following described property:

A portion of the southwest 1/4 of Section 25, Township 14 South, Range 31 East. Please see survey for full legal description

Does the property owner own or have any interests in any adjacent property?

☐ No ☑ Yes If yes, please describe.

Property owner owns the adjacent parcel to the north, Property ID No. 41250000230

Owner's Signature required for Parts 4 and/or 5

We will not begin on the drainage connection until I receive the Permit and I understand all the conditions of the Permit. When work begins on the connection, I am accepting all conditions listed in the Permit.

Name (Printed): Richard Jaffee

Address: 300 N Nova Rd, Ormond Beach, FL 32174

Phone Number: 386-673-4403

Signature: David R. Jaffee Date: 3-30-2022

Approved

Subject: Site Access Analysis Review – Tymber Creek Apartments
Ormond Beach, Florida

Date: November 10, 2022

We have reviewed the Site Access Analysis Memorandum (dated August 30, 2022) as prepared by Lassiter Transportation Group, Inc. for the Tymber Creek Apartments development in Ormond Beach, Florida. We also reviewed the supplemental information provided in response to our comments from October 7, 2022. We find the analysis to be sufficient and have no comments. Should you have any questions, please contact me at (386) 753-0558.

80 Spring Vista Drive ● DeBary, Fl 32713 ● Phone 386.753.0558 ● Fax 386.753.0778

Volusia County
Traffic Engineering

Traffic Impact Analysis (TIA) Approval*

TIA Title:	Tymber Creek Apartments (Ormond Beach)
Applicant Name:	Tellus Partners
Date of Approval:	November 10, 2020
Conditions:	The TIA (including the Proportionate Fair Share (PFS) amount if applicable) is approved by the county provided the developer agrees to complete mitigation/pay PFS. If all or a portion of the PFS is to be paid to Volusia County in exchange for impact fees, an executed PFS agreement with the city *or* city and county is required within one year of the date of TIA approval. If the PFS agreement is executed past one year, recalculation of the PFS amount will be required.

Disclaimer:

**Volusia County reviewed the TIA to ensure it conformed to/complied with the River to Sea TPO TIA Guidelines and Florida Statutes. It should be noted that Volusia County approval of the TIA and any associated mitigation agreement, of which the county is a party, should not be misconstrued as county support for the project, rezoning, or land use amendment. Rather, TIA approval should be considered confirmation that the county has determined all necessary criteria have been satisfied with regard to evaluation/identification of project-related traffic impacts and, to the extent the county is a party of a mitigation agreement, that project-related mitigation meets the necessary criteria/standards. Where roadway segment and/or intersection deficiencies have been identified, the city is ultimately the responsible agency that approves concurrency and ensures mitigation of project impacts will be adequately addressed through associated mitigation agreements (proportionate-fair share agreement, construction improvement(s), etc.).*

The conceptual plans used as exhibits in TIA methodologies and TIAs are considered supplemental information. Conceptual plans' driveway locations, design, access improvements, etc. are also considered conceptual and are not approved with the TIA's approval or TIA methodology's approval. Coordination of the TIA and site plan review does not constitute final driveway approval. Any access control will occur independent of the TIA review and will be determined only through the actual plans review process.

Approval Signature:

Subject: Tymber Creek Apartments – Site Access Analysis

Date: August 30, 2022

INTRODUCTION

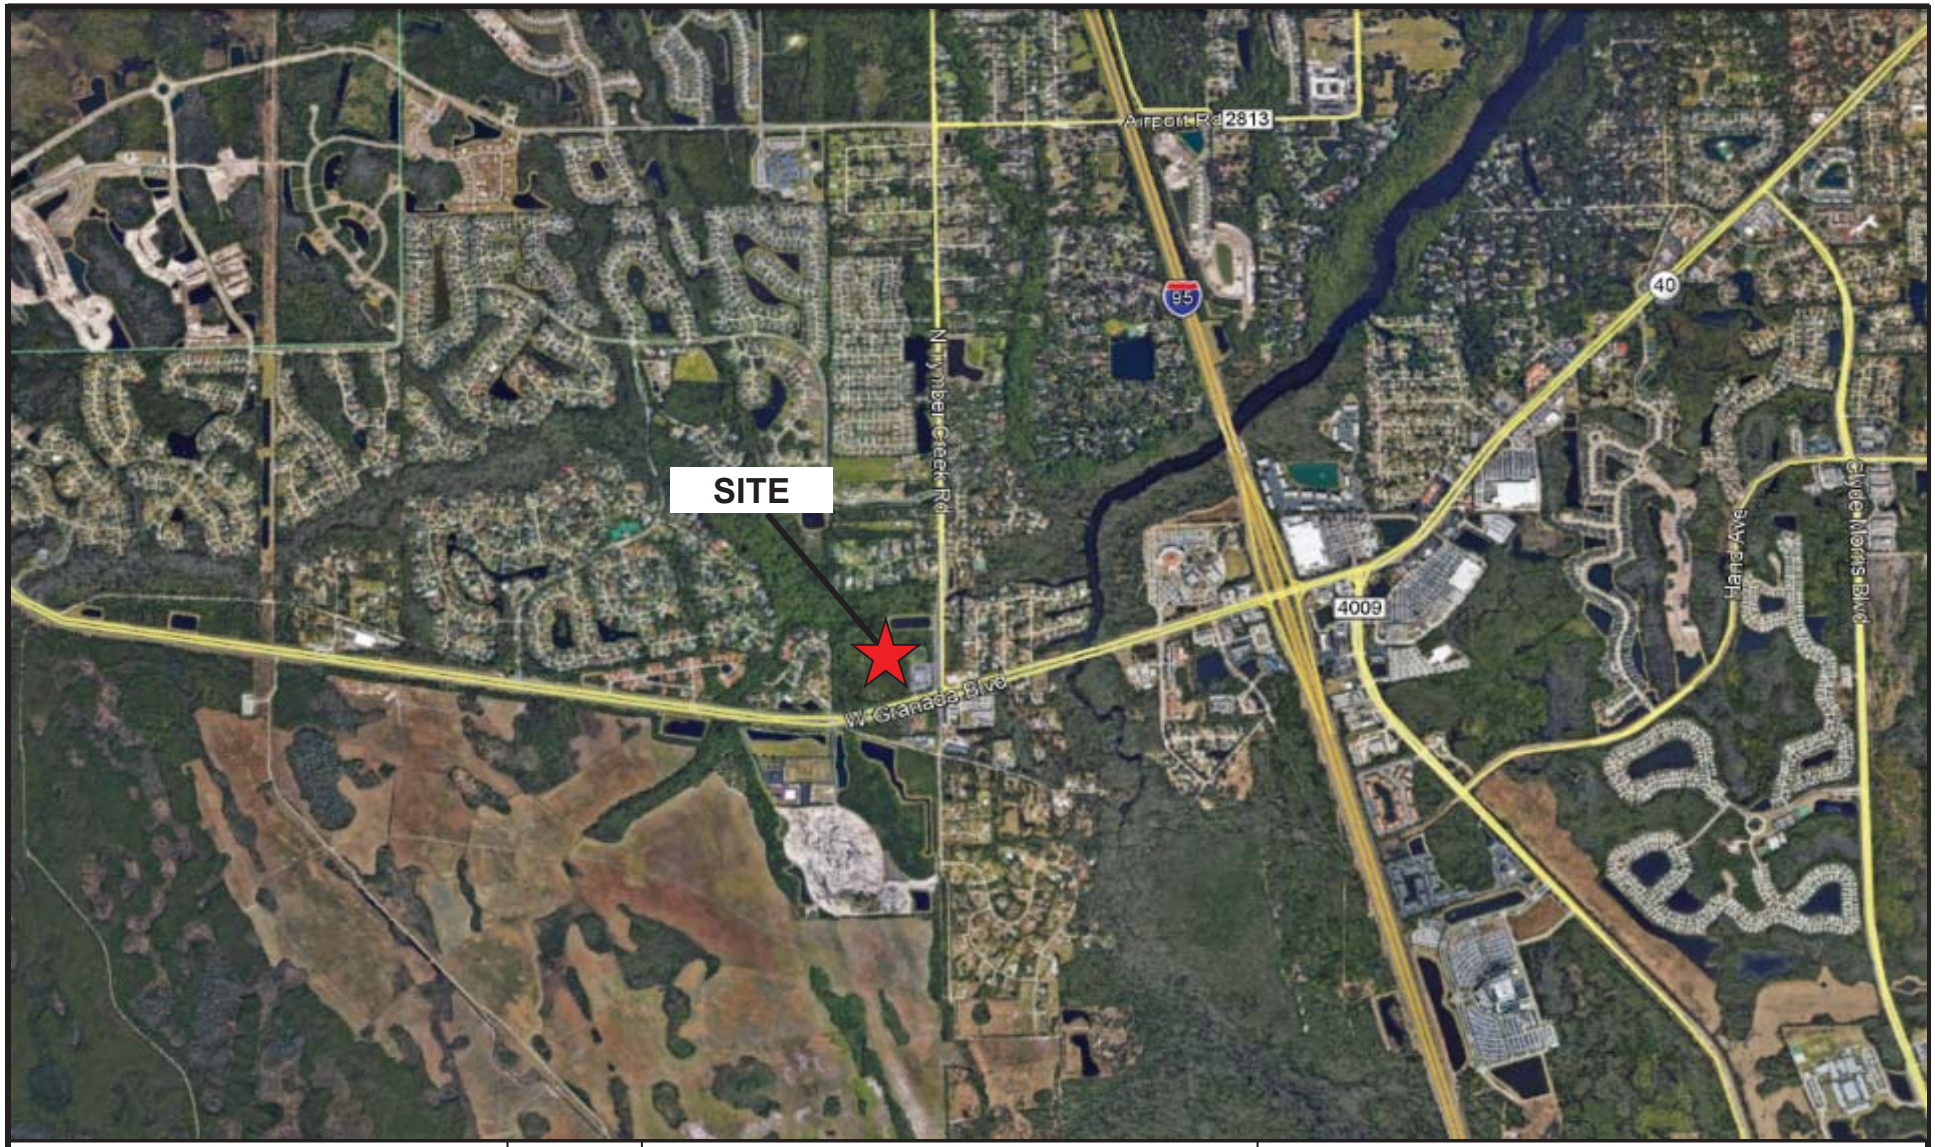
LTG, Inc. (LTG) has been retained by Tellus Partners to prepare an Access Analysis for the proposed Tymber Creek Apartments, consisting of 300 mid-rise multifamily dwelling units, located in the northwest quadrant of the SR 40/Granada Boulevard and Tymber Creek Road in the City of Ormond Beach, Florida. **Figure 1** graphically depicts the location of the study area within the surrounding network. Build-out is anticipated by year 2024.

A Traffic Impact Analysis (TIA) was previously conducted and approved in October 2020, followed by supplemental access analysis in May of 2021. The proposed access via the existing right-in/right-out driveway at the Walgreens on SR 40 has since been approved by Florida Department of Transportation (FDOT). The intent of this additional supplemental analysis is to reflect the evaluation of the approved driveway and adjacent intersections using the most current 2022 data and information. Due to the delayed timing of the proposed development, the anticipated build-out year has also been moved from 2023 to 2024 for the purpose of this analysis update. Additionally, only the residential component of the total development analyzed in the approved 2020 TIA is included in this update as proposed for build-out by the year 2024.

The intersections and road segments included for analyses are as follows:

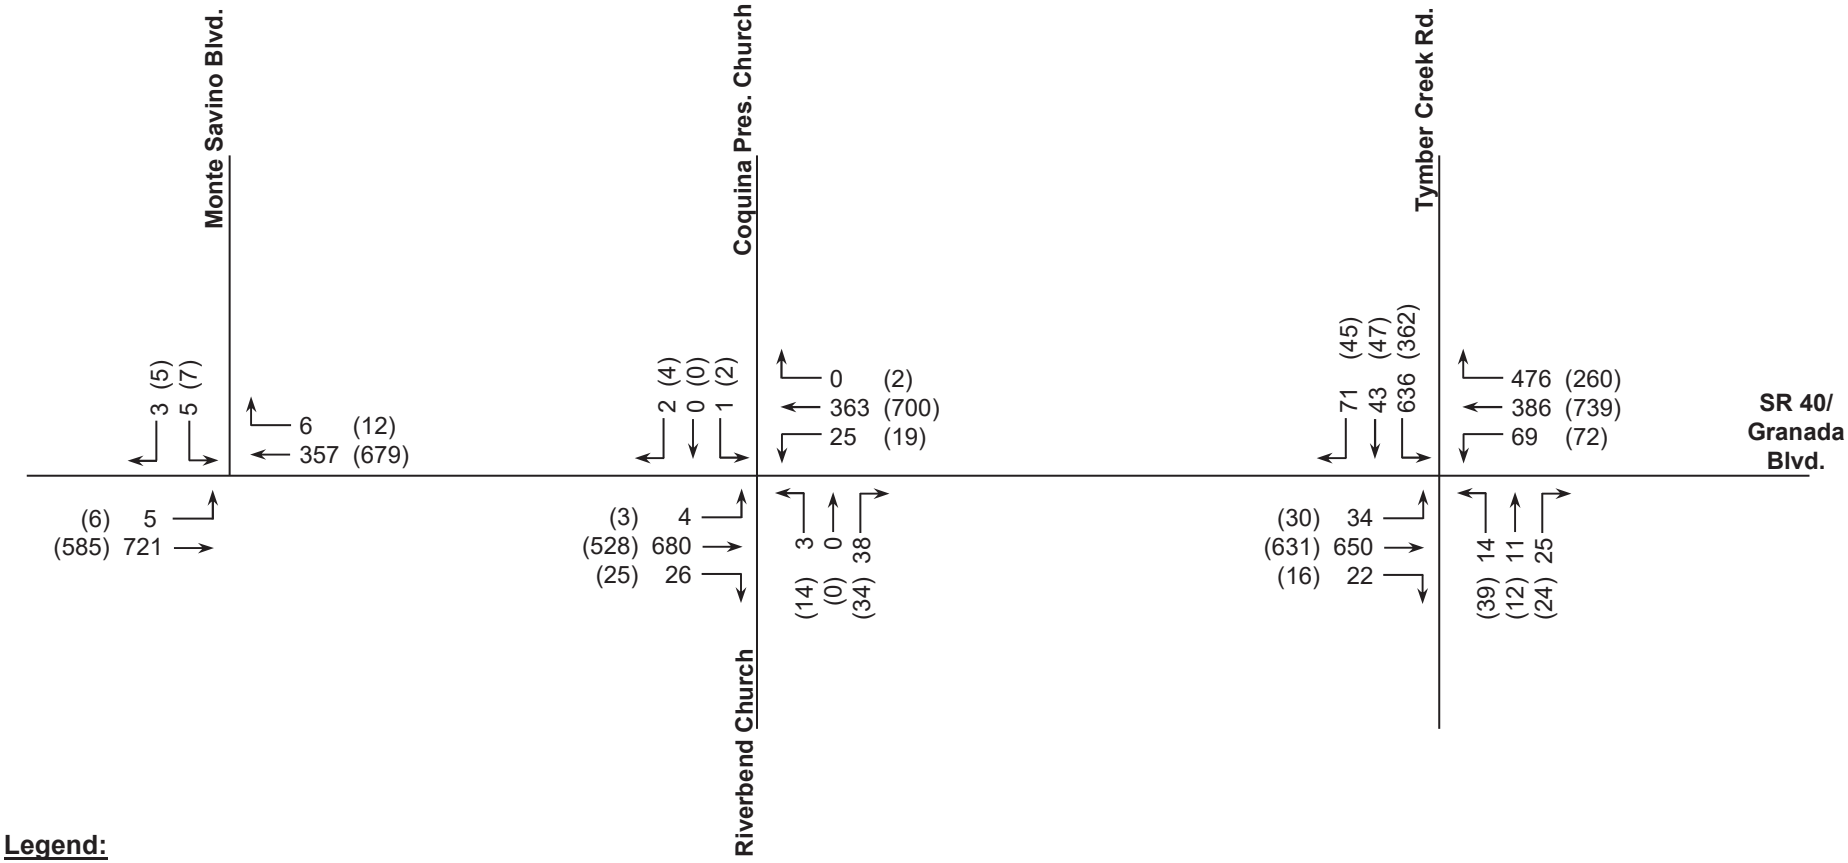
Intersections:

- Tymber Creek Road at SR 40/Granada Boulevard
- SR 40/Granada Boulevard at Coquina Presbyterian Church Driveway
- SR 40/Granada Boulevard at Monte Salvo Boulevard
- SR 40/Granada Boulevard at Walgreens Right-in/Right-out Driveway (future conditions only)



Segments:

- SR 40/Granada Boulevard from Rima Ridge Road to Tymber Creek Road
- Tymber Creek Road from Tymber Run to SR 40



A concept plan is attached as **Exhibit A**.

EXISTING CONDITIONS

Turning movement counts (TMCs) were originally conducted during the a.m. and p.m. peak-hours on September 12th, 2019, and February 23, 2020 at the study area intersections. Additional turning movement counts were conducted at the subject intersections on August 2, 2022, for the purpose of comparing 2022 post-pandemic traffic to those original values. A comparison of these values indicated that area traffic has generally grown at a rate consistent with the historical annual growth rate along the adjacent segment of SR 40. Therefore, to remain conservative, the 2019 turning movement counts were projected to 2022 conditions via application of the historical growth rate. The referenced count data is attached as **Exhibit B**. The seasonally adjusted and projected 2022 a.m. and p.m. peak-hour traffic volumes used in the analysis are presented in **Figure 2**.

UNSIGNALIZED INTERSECTION ANALYSIS – EXISITING CONDITIONS

The existing operating conditions at the unsignalized intersections were analyzed using the *Highway Capacity Software, Version 2022* (HCS). This software utilizes the procedures outlined in Chapter 20 of the *Highway Capacity Manual (6th Edition)* titled, "Two-Way Stop-Controlled Intersections". **Table 1** shows the existing a.m. and p.m. peak-hour level of service (LOS) at the study area intersections. The HCS summary sheets are attached as **Exhibit C**. As indicated, the unsignalized intersections currently operate within the adopted LOS.

Table 1
2022 Existing A.M. and P.M. Peak-Hour LOS – Unsignalized Intersections
Tymber Creek Apartments

Intersection	Adopted LOS	AM Peak-Hour			PM Peak-Hour		
		Critical Approach	Delay	LOS	Critical Approach	Delay	LOS
SR 40 at Coquina Presbyterian/ Riverbend Community Church	D	NB	11.9	B	SB	13.5	B
SR 40 at Monte Savino Blvd	D	SB	12.3	B	SB	15.2	C

SIGNALIZED INTERSECTION ANALYSIS – EXISITING CONDITIONS

The LOS at a signalized intersection is based on the average control delay per vehicle for the various movements within the intersection. The operating conditions at the signalized intersection was analyzed using Synchro 10 which utilizes the procedures outlined in Chapter 19 of the *Highway Capacity Manual (6th Edition)*, titled "Signalized Intersections". **Table 2** shows the existing LOS and volume to capacity ratio (v/c) at the study area intersections. The signal timings are provided in **Exhibit D** and the Synchro summary sheets are provided in **Exhibit E**.

Table 2
2022 Existing A.M. and P.M. Peak-Hour LOS - Signalized Intersection
Tymber Creek Apartments

Intersection	Adopted LOS	AM Peak-Hour			PM Peak-Hour		
		Delay (sec.)	LOS	V/C greater than 1.0?	Delay (sec.)	LOS	V/C greater than 1.0?
SR 40 at Tymber Creek Rd.	D	38.3	D	No	35.8	D	No

As indicated in **Table 2**, the signalized study area intersection currently operates within the adopted LOS.

Roadway LOS describes the operating condition determined from the number of vehicles passing over a given section of roadway during a specified time period. It is a qualitative measure of several factors which include speed, travel time, traffic interruptions, freedom to maneuver, driver comfort, convenience, safety, and vehicle operating costs. Six LOS categories have been established as standards by which to gauge roadway performance, designated by the letters A through F. The LOS categories are defined as follows:

Level of Service A: *Free flow, individual users virtually unaffected by the presence of others*
Level of Service B: *Stable flow with a high degree of freedom to select operating conditions*
Level of Service C: *Flow remains stable, but with significant interactions with others*
Level of Service D: *High-density stable flow in which the freedom to maneuver is severely restricted*
Level of Service E: *This condition represents the capacity level of the road*
Level of Service F: *Forced flow in which the traffic exceeds the amount that can be served*

The existing LOS for the study area road segment during the p.m. peak-hour is shown in **Table 3**.

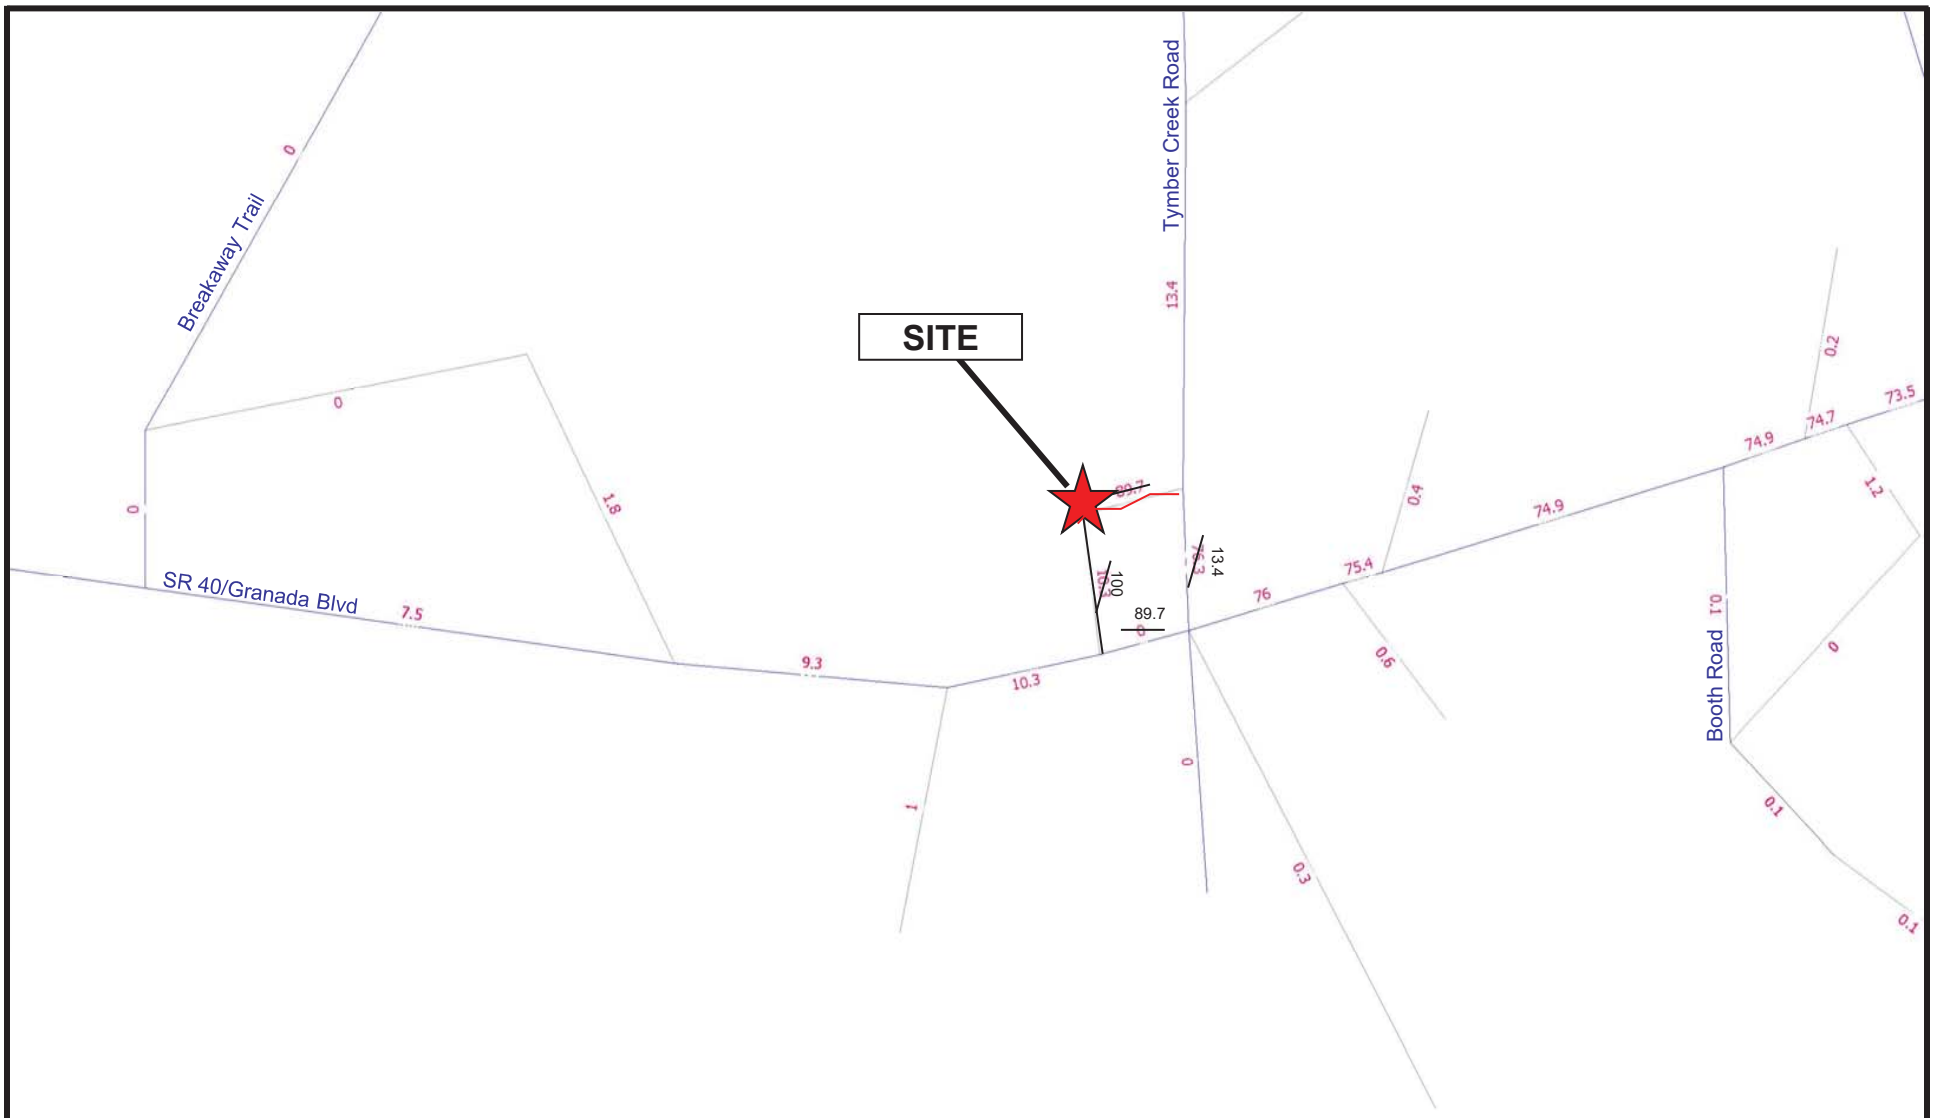
Table 3
Existing P.M. Peak-Hour LOS - Roadway Segments
Tymber Creek Apartments

Roadway	Limits		No. of Lanes	Adopted LOS*	Peak-Hour Two-Way Capacity at Adopted LOS	2021 AADT	Existing P.M. Peak-Hour Two-Way Volume	Existing Volume Exceed Adopted LOS?
	From	To						
SR 40/Granada Blvd.	Rima Ridge Rd.	Tymber Creek Rd.	4	D	3,580	13,300	1,197**	No
Tymber Creek Rd.	SR 40/Granada Blvd.	Tymber Run	4	E	3,410	10,940	940	No

**Adopted LOS and existing AADT obtained from the Volusia County 2021 Historical AADT Spreadsheet*
***Existing PM Peak-Hour Two-Way Volume determined using K-factor*

As indicated in **Table 3**, the study area roadway segments are currently operating within the adopted LOS.

PROJECT TRIP GENERATION



The daily, a.m. and p.m. project trip generation for the proposed development was determined using the Institute of Transportation Engineers (ITE), *Trip Generation Manual, 11th Edition*. The project trip generation is presented in **Table 4**.

Table 4
Project Trip Generation
Tymber Creek Apartments

Time Period	Land Use	ITE LUC	Trip Rate Equation	Size	Units	Percent Entering	Percent Exiting	Trips Entering	Trips Exiting	Total Trips
Daily	Mid-Rise Multifamily	221	T=4.77(X)-46.46	300	DU	50%	50%	693	693	1,386
A.M. Peak-Hour			T=0.44(X)-11.61			23%	77%	28	92	120
P.M. Peak-Hour			T=0.39(X)+0.34			61%	39%	71	46	117

PROJECT TRIP DISTRIBUTION

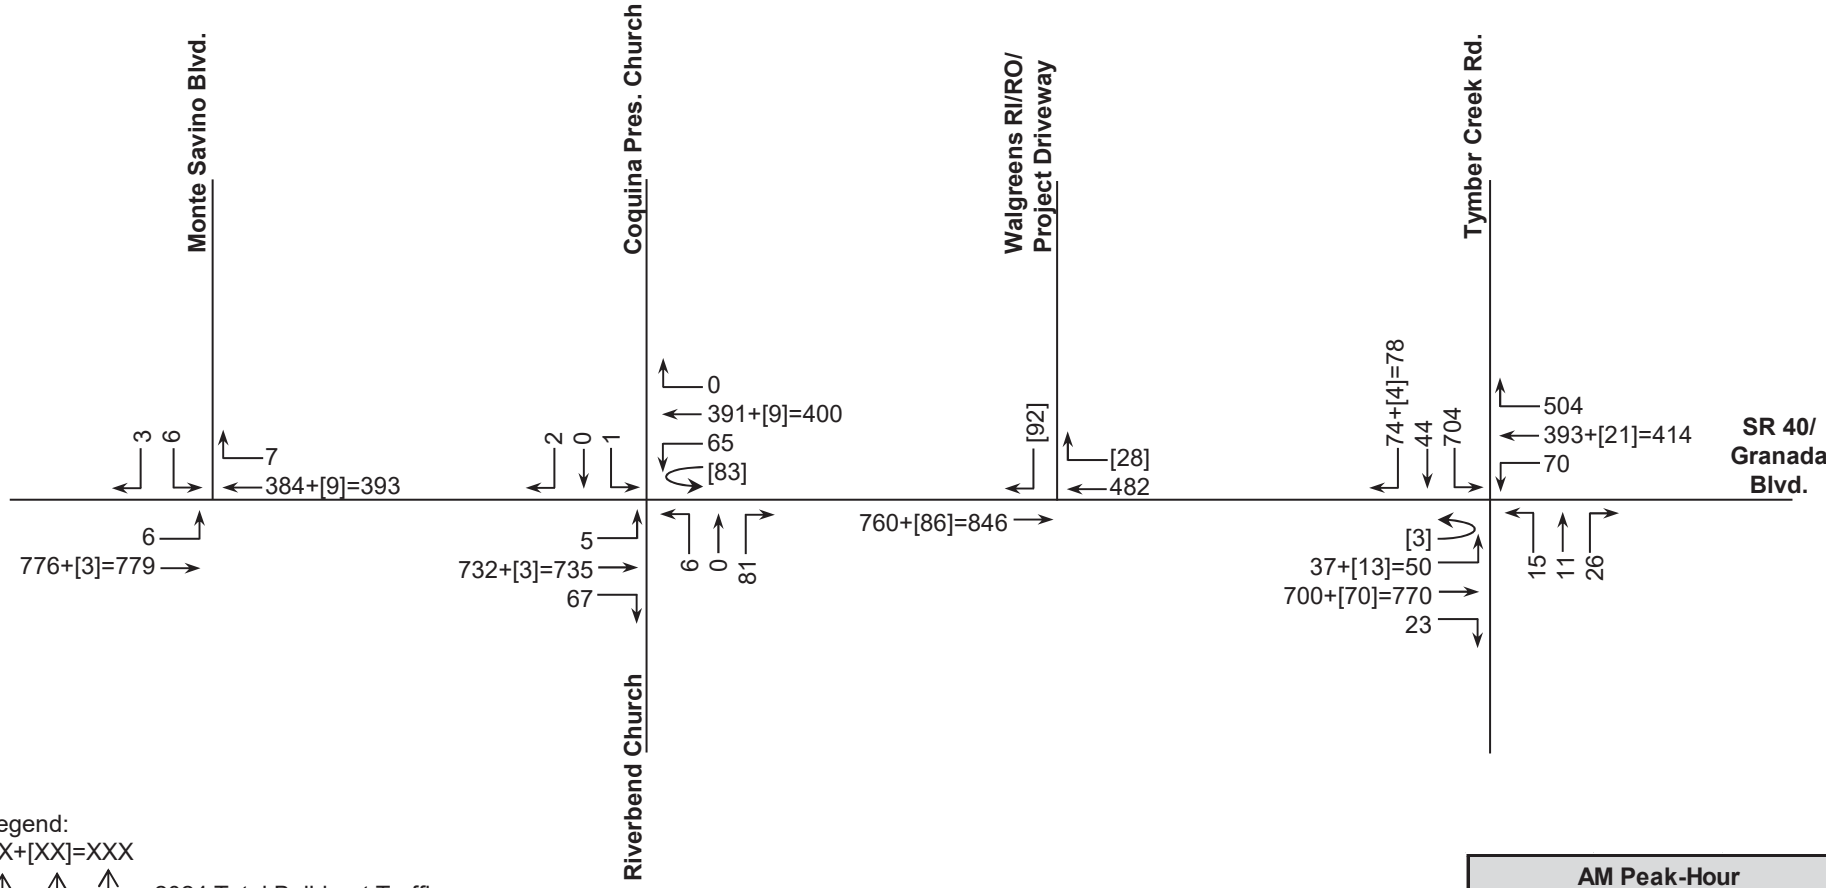
The process of determining the directional flow of traffic associated with a new development is called trip distribution. The Central Florida Regional Planning Model (CFRPM), version 6.1 was used to determine the primary project trip distribution. Using the trip distribution, the a.m. and p.m. peak-hour project trips were assigned to the study area roadway network. Due to the elimination of access on Tymber Creek Road that was included in the original model run, the model distribution was manually modified to reflect the removal of trips accessing the site via Tymber Creek Road. The manually modified distribution is shown in **Figure 3**.

Tymber Creek Apartments	N NTS	**Project Trip Distribution**		LTG Engineering & Planning
		Project No.: 5003.08	Figure: 3	1450 W. Granada Blvd, Suite 2 – Ormond Beach, Florida 32174 Telephone: 386.257.2571 Fax: 386.257.6996 EB# 0009227

2024 BACKGROUND GROWTH

Traffic in the area is expected to grow due to local government approvals. The following section documents the methods used to project future 2024 traffic conditions by using either historical growth rates and/or vested trip information and anticipated project traffic. The growth rates for each study area roadway segment were determined using the following method:

- Historic growth trends calculated based upon the last five years of historic count data to determine a roadway segment's applicable trend growth rate using the best fitted regression analysis.
- If the R^2 value is less than 0.70, then ten (10) years of historical traffic data will be used to determine the trends growth rate using the best fitted regressions analysis.
- If the R^2 is still less than 0.70, the R^2 for the adjoining northbound and southbound segments will be analyzed to determine the average growth rate of adjoining segments can be utilized.
- Then the growth rate shall be determined by the trend fitted curve. If the overall trend fitted curve is positive, 2% shall be used. If the overall trend fitted curve is negative, then a 1% growth rate will be applied.
- In no case shall the growth rate be negative.
- Vested trips will be applied in addition to growth rates where applicable.
- If the R^2 value is greater than 70%, and the growth rate is greater than 3%, the background growth will be determined using either vested trips or the growth rate, whichever is more conservative.
- If the R^2 value is greater than 70%, and the growth rate is greater than 3%, and there is a high number of vested trips to be applied by multiple vested projects with various land uses, a request may be made to reduce vested traffic by 30% if the vested traffic is 30% of the total background growth.
- At the request of Volusia County, Exponential Regression will not be used to determine the growth of a roadway segment.



The growth comparison and applied growth used in the analysis are provided in **Table 5**. The Traffic Trends analysis worksheets are contained in **Exhibit F**. As requested by the City of Ormond Beach, anticipated additional student traffic from the Riverbend Academy (private School connected to Riverbend Church) expansion was included in the a.m. peak-hour analysis, using estimated trip generation for an additional 140 students, totaling 450 students. It should be noted that any additional growth of the Riverbend Academy would be reflected in future background growth.

PROJECT TRIP ASSIGNMENT

Using the project trip distribution and trip generation, the a.m. and p.m. peak-hour project trips were assigned to the study area roadway network. **Figures 4A and 4B** graphically depict the 2024 background and project trips assigned to the study area intersections.

UNSIGNALIZED INTERSECTION ANALYSIS – BUILD-OUT CONDITIONS

The study area intersections were analyzed to determine the operational LOS during the a.m. and p.m. peak-hours under 2024 build-out conditions. The results of the build-out conditions analysis are summarized in **Table 6**. The HCS summary sheets are attached as **Exhibit G**.

As indicated in **Table 6**, the study area intersections are anticipated to operate within the adopted LOS under build-out conditions.

Table 6
2024 Build-Out A.M. and P.M. Peak-Hour LOS - Unsignalized Intersections
Tymber Creek Apartments

Intersection	Adopted LOS	AM Peak-Hour			PM Peak-Hour		
		Critical Approach	Delay	LOS	Critical Approach	Delay	LOS
SR 40 at Coquina Presbyterian/ Riverbend Community Church	D	SB	15.0	C	SB	15.4	C
SR 40 at Monte Savino Blvd	D	SB	13.0	B	SB	15.0	C
SR 40 at Walgreens/Project Driveway RI/RO	D	SB	10.6	B	SB	12.0	B

SIGNALIZED INTERSECTION ANALYSIS – BUILD-OUT CONDITIONS

The signalized intersection was analyzed to determine the operational LOS under build-out conditions and the results are presented in **Table 7**. The Synchro summary sheets are also contained in **Exhibit H**.

As indicated in **Table 7**, the signalized study area intersection is anticipated to operate within the adopted LOS under build-out conditions. It is noted that, although build-out intersection analysis indicates that the subject signalized intersection is anticipated to operate acceptably with no adverse impacts due to project traffic from the proposed development, the Developer intends to improve the geometry of the existing eastbound approach by extending the eastbound left-turn lane by 25 feet (See **Exhibit A**).

Table 7
2024 Build-Out A.M. and P.M. Peak-Hour LOS - Signalized Intersection

ROADWAY SEGMENT ANALYSIS – BUILD-OUT CONDITIONS

The traffic analysis for the roadway segments involves the comparison of the future peak-hour two-way volumes to available capacity. **Table 8** presents the results of the p.m. peak-hour two-way road segment analyses for the study area roadway segment under 2024 build-out conditions. As indicated in the table, the study area roadway segments are anticipated to operate within the adopted LOS.

Table 8

ACCESS ANALYSIS

SR 40 adjacent to the proposed development is a four-lane divided urban arterial with a posted speed limit of 50 miles per hour (mph). The FDOT access management class of SR 40 is Access Class 3. Access Class 3 allows full median openings, including traffic signals, every 2,640-ft. (1/2-mile), directional median openings every 1,320-ft. (1/4-mile), and driveway connections every 660-ft.

An analysis was conducted using National Cooperative Highway Research Program Report 457 (NCHRP 457) standards to determine if turn lanes are warranted at the right-in/right-out project driveway under build-out conditions. The NCHRP 457 summary sheets are included in **Exhibit I**. Based on the NCHRP 457 reports, the 2022-2023 FDOT FDM Exhibit 212-1 and the posted speed limit of 50-mph, a 350-foot westbound right-turn lane (includes taper) is warranted, however, there is an existing 150-foot (includes taper) westbound right-turn lane at the driveway, which is constrained because of its proximity to the signalized intersection of SR 40/Granada Boulevard at Tymber Creek Road. It is noted that this project access has been approved by FDOT at the time of this analysis update.

CONCLUSION

A full TIA was conducted for Tymber Creek Apartments in October 2020. Since the submittal and approval of that analysis by the City of Ormond Beach in 2020, the proposed access has been reduced to SR 40 only via the existing right-in/right-out Walgreen's driveway and only the residential component of the previously analyzed development is being proposed for build-out in 2024. The intent of this traffic assessment is to provide update of the analyses that reflects the current proposed access, development program, and traffic data. The results of the analysis are summarized below:

Existing Conditions

- The unsignalized study area intersections currently operate within the adopted LOS.
- The signalized study area intersection currently operates within the adopted LOS.
- The study area roadway segments are currently operating within the adopted LOS.

Build-out Conditions

- The unsignalized study area intersections will continue to operate with the adopted LOS.
- The signalized study area intersection will continue to operate within the adopted LOS.
- The study area roadway segments will continue to operate within the adopted LOS.
- Based on the NCHRP 457 reports, the 2022-2023 FDOT FDM Exhibit 212-1 and the posted speed limit of 50-mph, a 350-foot westbound right-turn lane (includes taper) is warranted at the project driveway, however, there is an existing 150-foot (includes taper) westbound right-turn lane at the driveway, which is constrained because of its proximity to the signalized intersection of SR 40/Granada Boulevard at Tymber Creek Road. It is noted that this project access has been approved by FDOT at the time of this analysis update.

There have been no adverse changes to the results of the previously approved TIA due to updates reflected in these analyses.

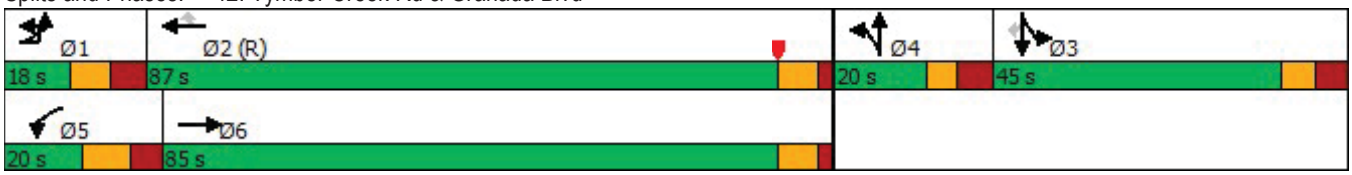

EXHIBIT I
NCHRP 457 Reports

Figure 2 - 6. Guideline for determining the need for a major-road right-turn bay at a two-way stop-controlled intersection.

INPUT

Roadway geometry:	4-lane roadw ay
Variable	Value
Major-road speed, mph:	50
Major-road volume (one direction), veh/h:	510
Right-turn volume, veh/h:	28

OUTPUT

Variable	Value
Limiting right-turn volume, veh/h:	51
Guidance for determining the need for a major-road right-turn bay for a 4-lane roadway:	
Do NOT add right-turn bay.	

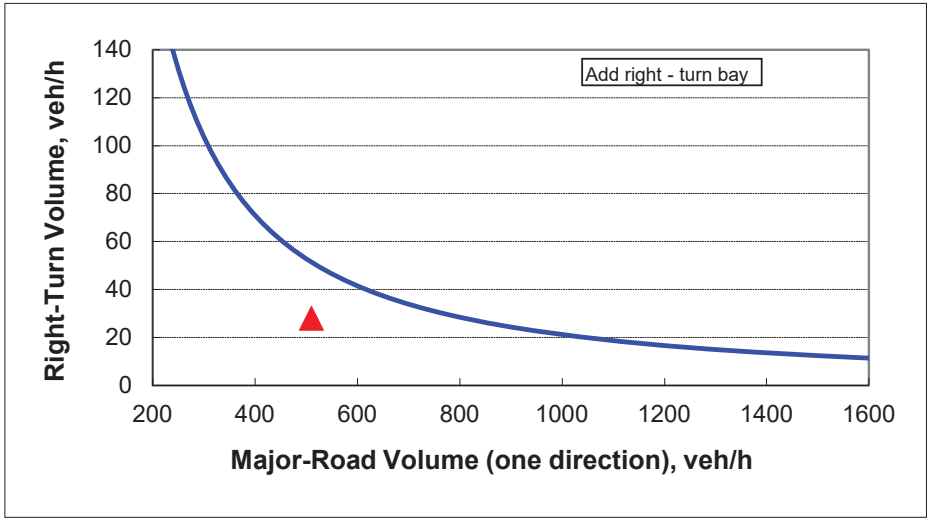

Figure 2 - 6. Guideline for determining the need for a major-road right-turn bay at a two-way stop-controlled intersection.

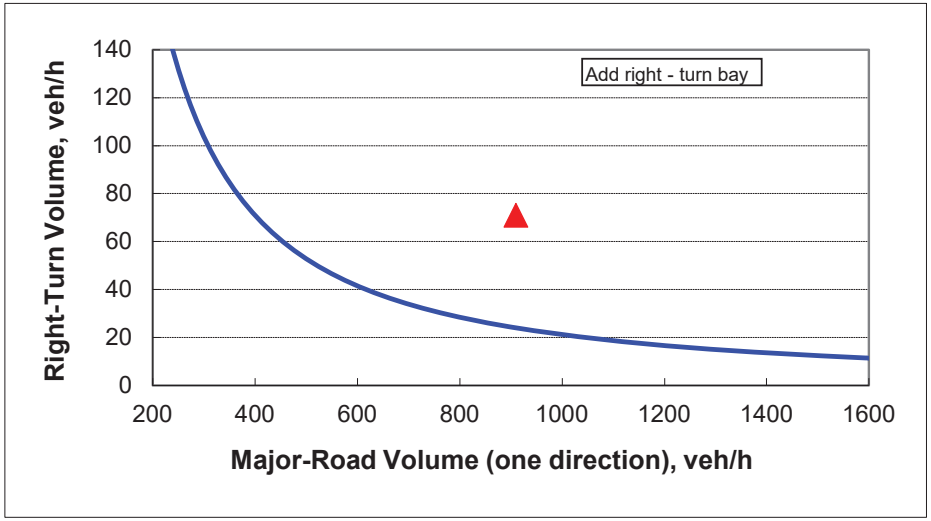

INPUT

Roadway geometry:	4-lane roadw ay

Variable	Value
Major-road speed, mph:	50
Major-road volume (one direction), veh/h:	910
Right-turn volume, veh/h:	71

OUTPUT

Variable	Value
Limiting right-turn volume, veh/h:	24
Guidance for determining the need for a major-road right-turn bay for a 4-lane roadway:	
Add right-turn bay.

TECHNICAL MEMORANDUM

To: Thomas Russ, FDOT D5 Contracts/Permits Coordinator

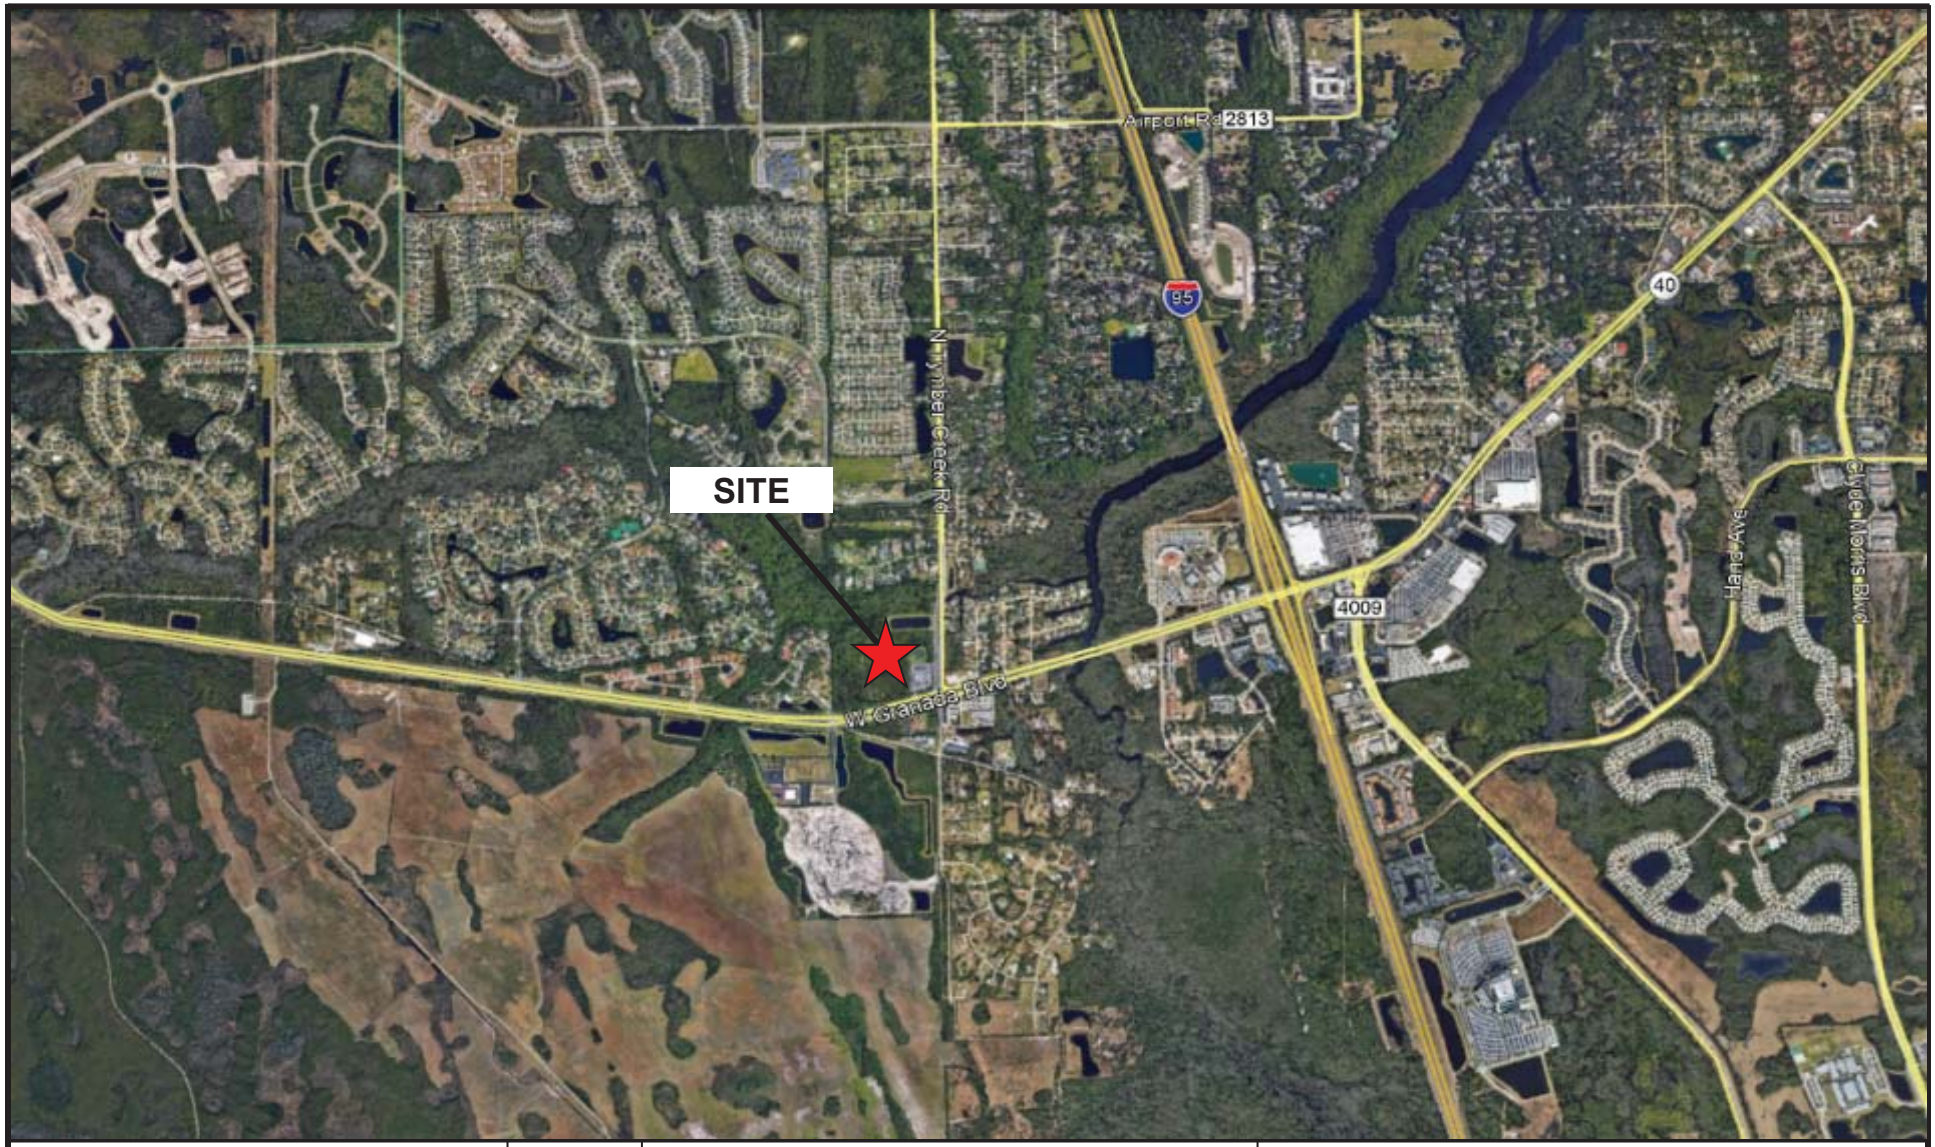
From: George A. Galan, P.E.

Subject: Tymber Creek Apartments – Access Analysis

Date: October 1, 2021

INTRODUCTION

LTG, Inc. (LTG) has been retained by Tellus Partners to prepare an Access Analysis for the proposed Tymber Creek Apartments, consisting of 300 mid-rise multifamily dwelling units and a 90,000 square-foot (sq.ft.) commercial development, located in the northwest quadrant of the Granada Boulevard (SR 40) and Tymber Creek Road in the City of Ormond Beach, Florida. Figure 1 graphically depicts the location of the study area within the surrounding network. Build-out is anticipated by year 2023. Access to the development will be provided via one right-in/right-out driveway along SR 40, approximately 300 ft. west of the SR 40/Tymber Creek Road intersection. This driveway will be shared with the existing Walgreens development, which is currently served by its own driveway that will be closed upon construction of the new driveway. The reconfigured driveway plan is attached as Exhibit A.



This analysis is subsequent to approval of an October 2020 Traffic Impact Analysis (TIA) also prepared by LTG for Tymber Creek Apartments, which reflected a full project access on Tymber Creek Road and a right-in/right-out access via the existing Walgreens Driveway on SR 40. The intent of this memorandum is to evaluate the adequacy of existing turn-lane lengths at SR 40 at Coquina Presbyterian Church Driveway to the west and the intersection of SR 40/Tymber Creek Road to the east where project trips will make U-turn maneuvers. The analyses in this report will reflect 2023 build-out future conditions only (see October 2020 TIA for analyses of existing conditions).

Study Area

The study area includes the following two intersections that will accommodate U-turn maneuvers from project trips:

Intersections

- SR 40 at Coquina Presbyterian Church Driveway
- SR 40 at Tymber Creek Road

Tymber Creek Apartments	N NTS	**Location Map**	LTG Engineering & Planning
		Project No.: 5003.03 / Figure: 1	1450 W. Granada Blvd, Suite 2 – Ormond Beach, Florida 32174 Telephone: 386.257.2571 Fax: 386.257.6996 EB# 0009227

2023 BUILD-OUT FUTURE ROADWAY ANALYSIS

The following documents the procedures used to determine the future traffic.

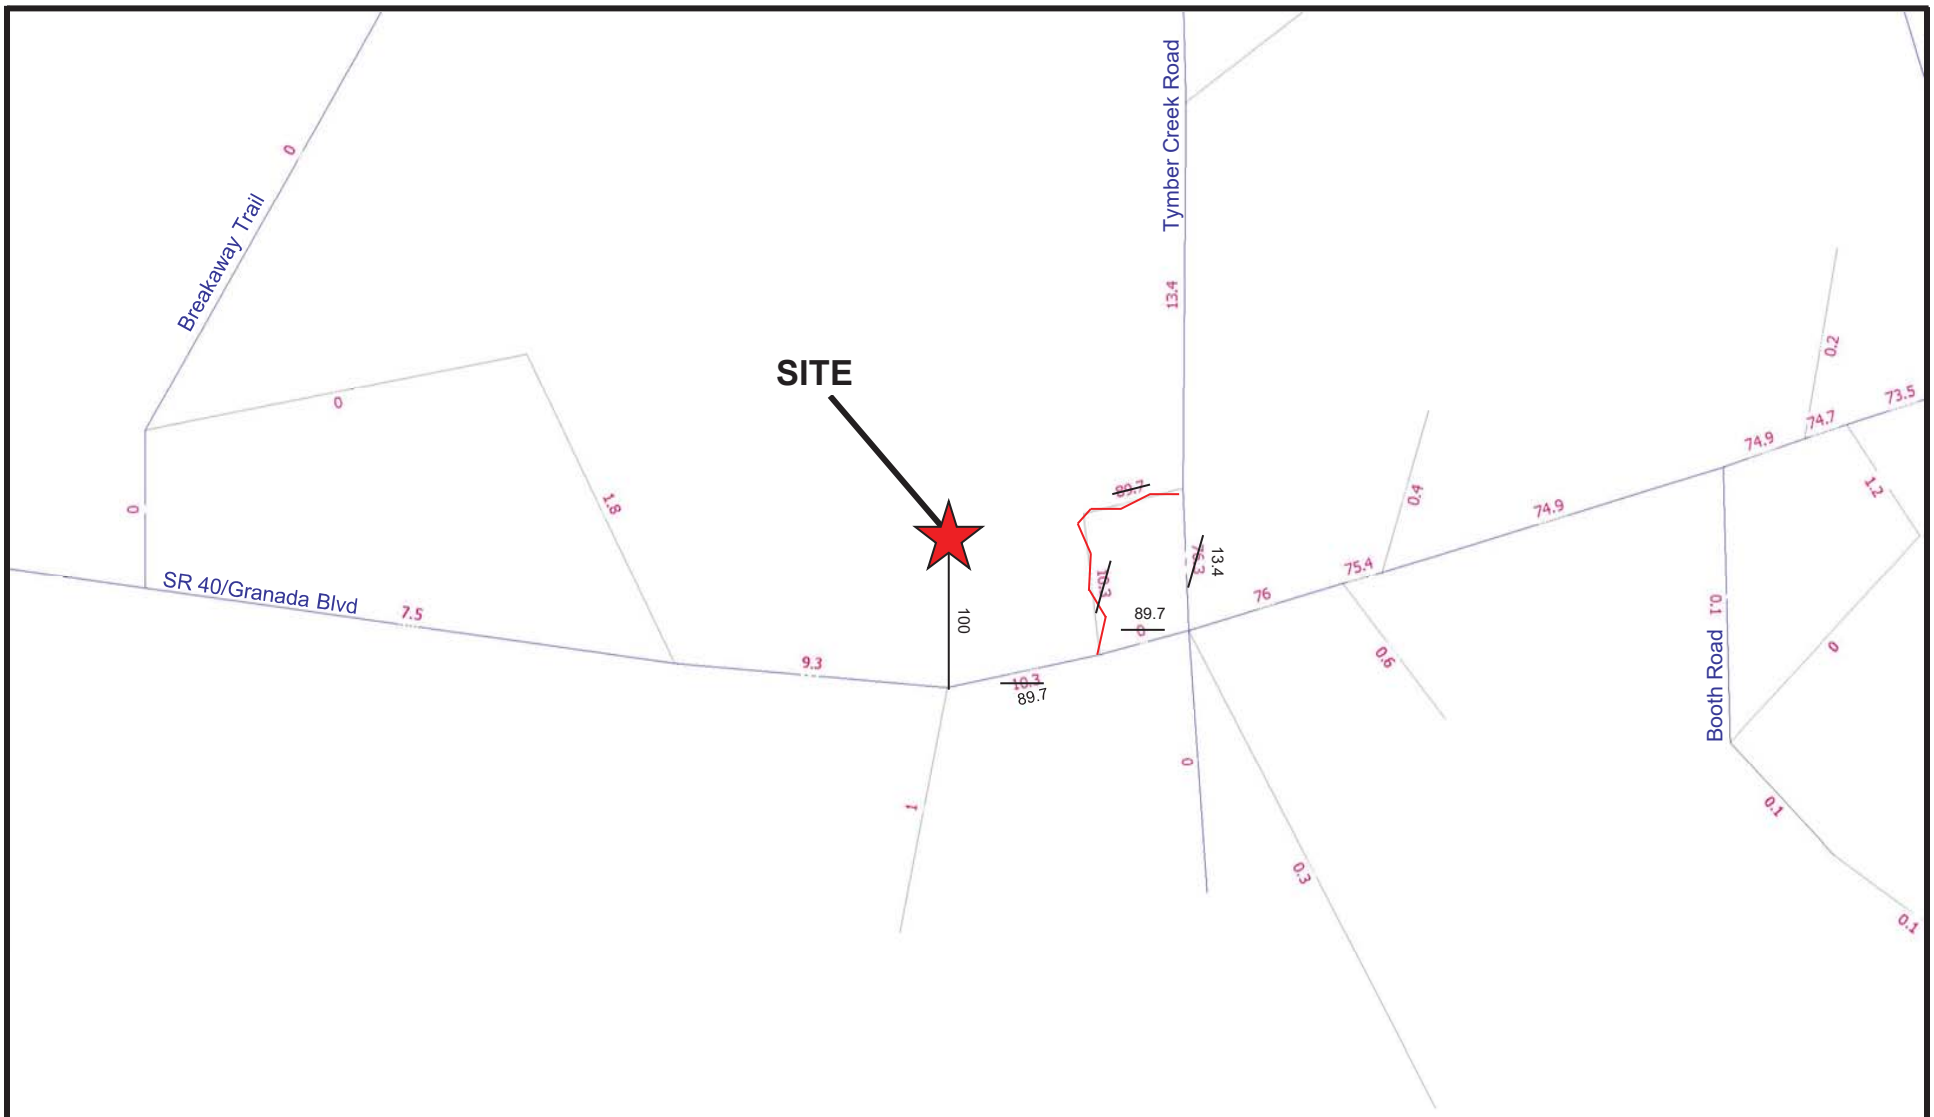
2023 Background Growth

Based on methodology outlined in the October 2020 TIA, background traffic growth was projected using a growth rate of two percent per year.

Project Trip Generation

The net external trip generation for the development was determined using the trip generation rates published by the Institute of Transportation Engineers (ITE) in the document *Trip Generation Manual, 10th Edition* , and procedures outlined in the National Cooperative Highway Research Program (NCHRP) Report 684 worksheet and the ITE Trip Generation Handbook, 3rd Edition. The net external trip generation, as included in the October 2020 TIA, is shown in Table 1 below.

Table 1
Net Trip Generation
Tymber Creek Apartments



Time Period	Land Use	Total Trips			Internal Capture Trips			Pass-by Capture Trips			New External Trips		
		Enter	Exit	Total	Enter	Exit	Total	Enter	Exit	Total	Enter	Exit	Total

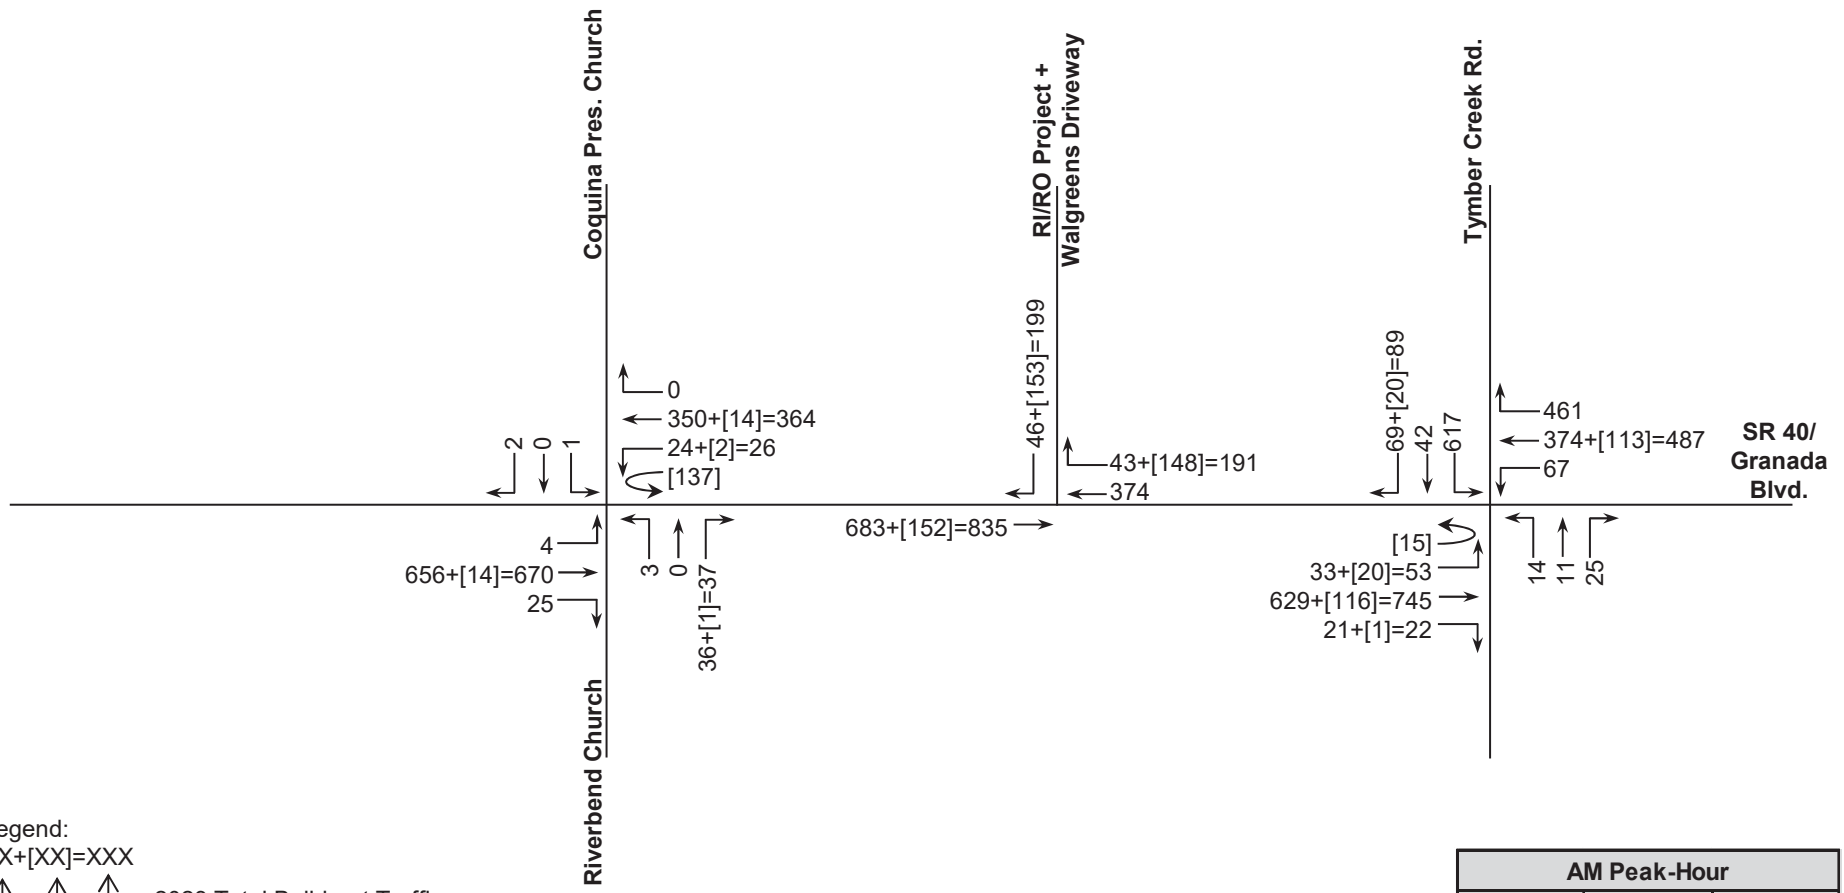
Project Trip Distribution & Trip Assignment



The original project distribution, which was determined using the Central Florida Regional Planning Model, version 6.1 (CFRPM) was obtained from the October 2020 TIA. Manual modifications were made to the model output to account for the modified access being proposed. The manually modified distribution is shown in Figure 2.

Trip Assignment

Using the trip distribution, the a.m. and p.m. peak-hour project trips were assigned to the study area intersections. Figures 3A and 3B graphically depict the 2023 background traffic, peak-hour project trips, and resulting 2023 build-out traffic during the a.m. and p.m. peak-hours. The existing turning movement counts for these intersections are included in Exhibit B.

Unsignalized Intersection Analysis – Build-Out

The operating conditions at the unsignalized intersection was analyzed using the Highway Capacity Software, Version 7.9.5 (HCS). This software utilizes the procedures outlined in Chapter 20 of the Highway Capacity Manual (6th Edition) titled, "Two-Way Stop-Controlled Intersections". Table 2 shows the 2023 build-out level of service (LOS) at the study area intersection. The HCS summary sheets are attached as Exhibit C. As indicated in Table 2, the unsignalized intersection is anticipated to operate within the adopted LOS at build-out.

Table 2
2023 Build-Out A.M. and P.M. Peak-Hour LOS – Unsignalized Intersection
Tymber Creek Apartments

Intersection	Adopted LOS	AM Peak-Hour			PM Peak-Hour		
		Critical Approach	Delay	LOS	Critical Approach	Delay	LOS
SR 40 at Coquina Presbyterian Church Dr.	D	SB	14.4	B	SB	19.2	C

Signalized Intersections Analysis – Build-Out

The operating conditions at the signalized intersection was analyzed using *Synchro 10*, which utilizes the procedures outlined in Chapter 19 of the *Highway Capacity Manual 6th Edition*, titled "Signalized Intersections". Table 3 shows the 2023 build-out LOS and volume to capacity ratios (v/c) at the signalized intersection. The Synchro summary sheets are provided in Exhibit D. As indicated in Table 3, the signalized intersection is anticipated to operate within the adopted LOS at build-out.

Table 3

SR 40 at Tymber Creek Rd.	D	42.7	D	No	35.5	D	No

SITE ACCESS & QUEUE LENGTH ANALYSIS

SR 40 adjacent to the proposed development driveway is a four-lane divided urban arterial with a posted speed limit of 50 miles per hour (mph).

Under existing conditions, a westbound left-turn lane is provided at SR 40 at Coquina Presbyterian Church Driveway and an eastbound left-turn lane is in place at SR 40 at Tymber Creek Road. These existing turn lanes were evaluated against the anticipated build-out queue demand based on the 95th percentile queues obtained from the p.m. peak-hour intersection analyses. It should be noted that the HCS signalized intersection results for the a.m. peak-hour reflect timings that have been optimized within the 160 second cycle length currently in use.

The queue length needs, and provisions are summarized in Table 4 below. As indicated in Table 4 , the storage provided under existing conditions is adequate to serve projected future demand at SR 40 at Coquina Presbyterian Church Drive and deficient by approximately five ft. at SR 40 at Tymber Creek Road. Therefore, it is recommended that the eastbound let-turn lane at SR 40/Tymber Creek Road be extended by 25 ft. (one standard vehicle length).

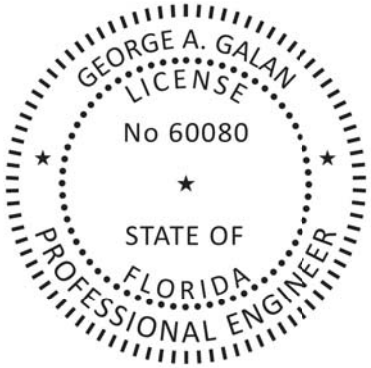
Table 4
Turn Lane Length
Tymber Creek Apartments

Intersection	Turn Lane	95th Percentile Queue Length (ft.)	No. of Vehicles	Storage Needed (ft.)	Required Deceleration (ft.)*	Total Turn-Lane Length Needed	Total Turn-Lane Length Provided (ft.)*	Lane Length Deficiency (ft.)
SR 40/Coquina Presbyterian Church Dr.	WB left	50	2	50	350	400	790	0
SR 40/Tymber Creek Road	EB left	141	6	150	350	500	495	5

**Includes 50-ft. taper*

CONCLUSION

The intent of this traffic assessment is to evaluate the adequacy of existing turn-lane lengths at SR 40 at Coquina Presbyterian Church Driveway to the west and the intersection of SR 40/Tymber Creek Road to the east where project trips will make U-turn maneuvers. The results of these analyses are summarized below:



- Under build-out conditions, the unsignalized intersection of SR 40 at Coquina Presbyterian Church Driveway will continue to operate with the adopted LOS.
- Under build-out conditions, the signalized intersection of SR 40 at Tymber Creek Road will continue to operate within the adopted LOS.
- The build-out intersection analyses results indicate a 95th percentile queue demand of two vehicles for the westbound left-turn lane at SR 40/Coquina Presbyterian Church Driveway and six vehicles for the eastbound left-turn lane at SR 40/Tymber Creek Road. The storage provided under existing conditions is adequate to serve projected future demand at SR 40 at Coquina Presbyterian Church Drive and deficient by approximately five ft. at SR 40 at Tymber Creek Road. Therefore, it is recommended that the eastbound let-turn lane at SR 40/Tymber Creek Road be extended by 25 ft. (one standard vehicle length).

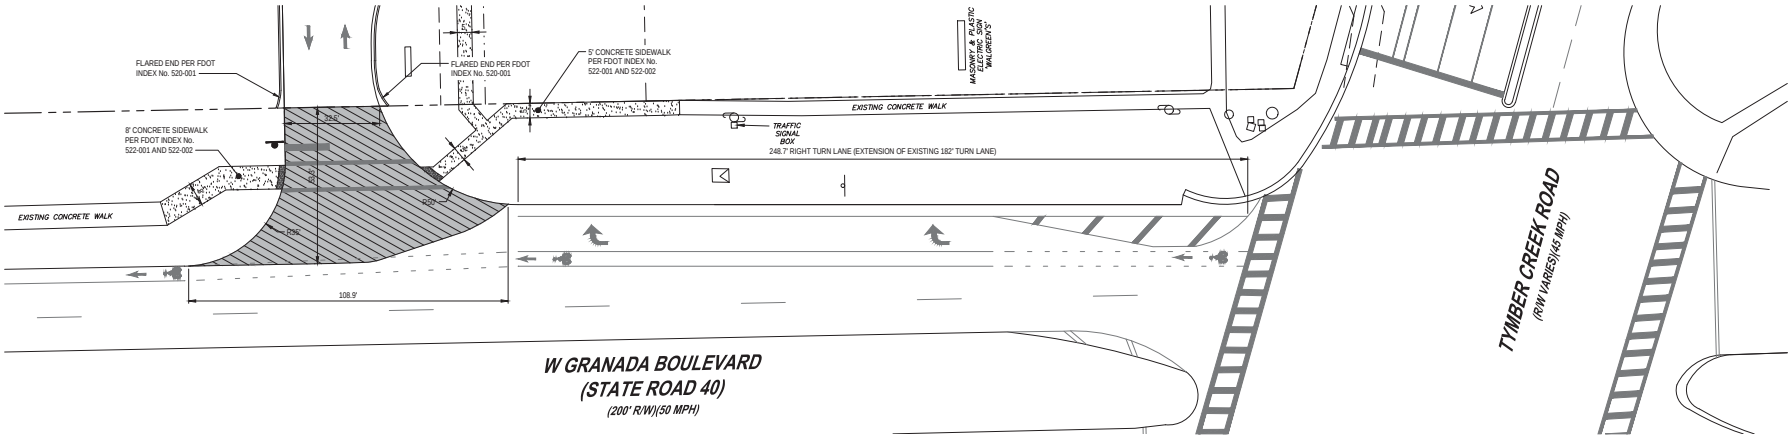
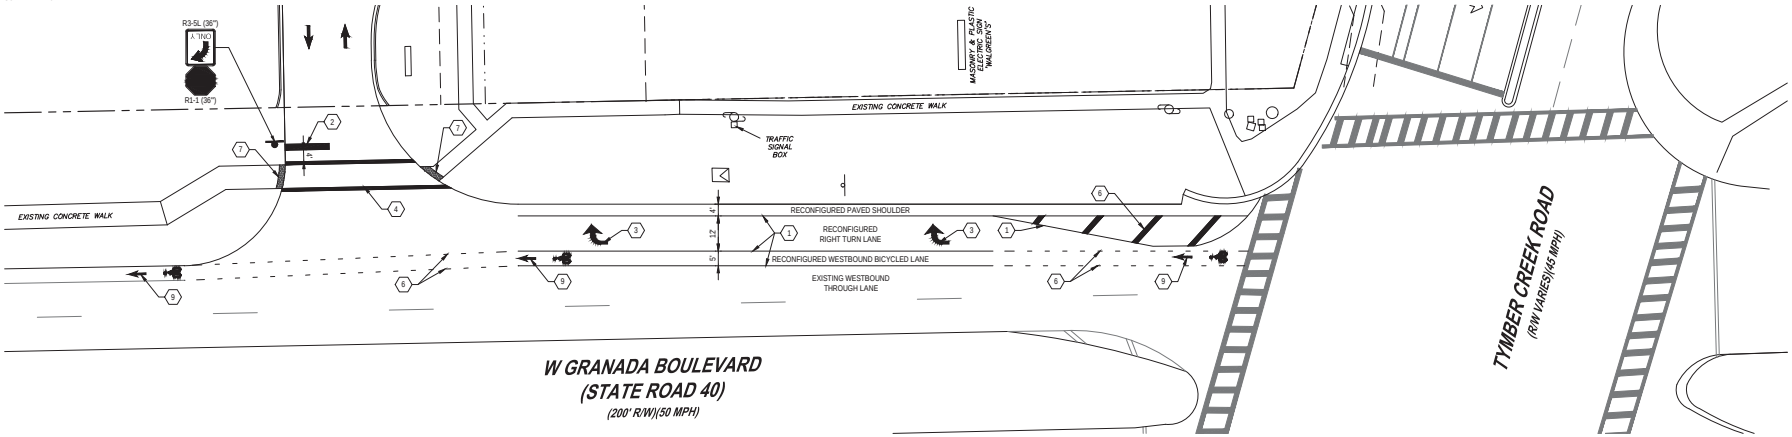
8. 6" SOLID DOUBLE YELLOW LINE
9. WHITE DIRECTIONAL ARROW, WHITE HELMETED BICYCLIST SYMBOL PER FDOT INDEX No. 711-002

SEE SHEET No. 45 FOR FDOT INDEX No. 711-001



NOTE:
1. RPM'S SHALL BE PROVIDED FOR ALL CONSTRUCTION WITH PUBLIC RIGHTS-OF-WAY OF ALL THOROUGHFARES AND SHALL BE INSTALLED IN ACCORDANCE WITH FDOT STANDARD INDEX No. 706-001.
2. ALL STRIPING WITHIN PUBLIC RIGHT OF WAY SHALL BE THERMOPLASTIC AND INSTALLED IN ACCORDANCE TO FDOT INDEX No. 711-001.

FDOT GENERAL NOTES:



1. MAINTENANCE OF TRAFFIC TO BE SUPERVISED BY A CERTIFIED PERSON (ON SITE).
2. THE CONTRACTOR SHALL NOTIFY THE DEPARTMENT A MINIMUM OF 48 HOURS PRIOR TO BEGINNING ANY WORK WITH IN THE FDOT R/W.
3. ALL WORK PERFORMED WITH IN THE FDOT R/W SHALL BE IN ACCORDANCE WITH THE 2019 EDITION OF THE FDOT DESIGN STANDARDS & SPECIFICATIONS FOR ROAD & BRIDGE CONSTRUCTION, 2017 EDITION OF THE FDOT UTILITY ACCOMMODATION MANUAL AND FDOT STANDARD PLANS FY 2019-20.
4. IT IS THE RESPONSIBILITY OF THE PERMITTEE TO REPAIR ANY DAMAGE TO FDOT FACILITIES CAUSED BY THE CONSTRUCTION OF THIS PROJECT.
5. ANY TEST RESULTS TAKEN DURING CONSTRUCTION OF THE PERMITTED WORK SHALL BE PROVIDED TO THE DEPARTMENT UPON REQUEST.
6. ALL CONCRETE TO BE REMOVED SHALL BE SAW CUT TO NEAREST JOINT IN GOOD CONDITION, SO A CONNECTION THAT IS FREE OF CRACKS, DEFORMITIES OR VOIDS & IRREGULARITIES ARE NOT DEFECTIVE.
7. ALL STRIPING WITHIN THE FDOT RIGHT-OF-WAY SHALL BE PREFORMED THERMOPLASTIC.
8. ALL CONCRETE SHALL BE AN APPROVED FDOT MIX DESIGN OF 3,000 PSI.
9. ALL MATERIALS INSTALLED INSIDE FDOT R/W SHALL BE ON THE QUALIFIED PRODUCTS LIST OR APPROVED PRODUCTS LIST.
10. ALL CONSTRUCTION SHALL BE STAKED FOR CONSTRUCTION BY MEANS OF DIGITAL COORDINATES BY SURVEYOR UTILIZING GEODETIC TOTAL STATION. SCALING OF DRAWINGS FOR PURPOSES OF STAKING ARE AT THE SURVEYOR'S RISK.
11. THE CONTRACTOR SHALL SUBMIT A MAINTENANCE OF TRAFFIC AND BARRICADE PLAN TO THE ENGINEER FOR APPROVAL WITH THE BID. INCLUDE THE MOT PLAN AT THE PRECONSTRUCTION MEETING.
12. ALL TRAFFIC CONTROL DEVICES SHALL BE IN PLACE PRIOR TO CONSTRUCTION AND THE FDOT INSPECTOR NOTIFIED FOR APPROVAL.
13. ALL BARRICADES AND POSTED SIGNAGE SHALL REMAIN IN PLACE UNTIL PAVING WORK IS COMPLETE. ALL BARRICADES SHALL BE VERIFIED IN PLACE BY THE CONTRACTOR AT THE END OF EACH WORK DAY.
14. SOD ALL DISTURBED AREAS IN RIGHT-OF-WAY WITH BAHIA.
15. THE CONTRACTOR SHALL ENSURE THAT ALL SIDEWALKS AND CROSSWALKS CONFORM TO THE CURRENT REQUIREMENTS OF THE AMERICANS WITH DISABILITY ACT (ADA).
16. ALL SIGNS AND PAVEMENT MARKINGS THAT ARE REMOVED OR DAMAGED BY CONSTRUCTION ACTIVITIES RELATED TO THIS PROJECT ARE TO BE REPLACED TO THEIR PRECONSTRUCTION CONDITIONS.
17. ALL SIGNAGE AND PAVEMENT MARKINGS SHALL CONFORM TO FDOT STANDARD INDEX No. 711-001.
18. IN THE EVENT PERMANENT VEHICLE DETECTION IS DISRUPTED, PROVIDE AN ALTERNATIVE MEANS OF DETECTION TO ALL LANES APPROACHING THE INTERSECTION, SEPARATING EACH MOVEMENT WHICH PREVIOUSLY HAD DETECTION. THE TYPE OF DETECTOR SHALL BE APPROVED BY THE ENGINEER PRIOR TO INSTALLATION. EQUIPMENT SHALL ONLY DETECT THE INTENDED MOVEMENT.
19. THERE SHALL BE NO SR 44 LANE CLOSURES DURING 7 A.M. TO 7 P.M. MONDAY TO SUNDAY.
20. THERE SHALL BE NO WORK WITHIN THE VICINITY OF THE SIGNALIZED INTERSECTION DURING 7 A.M. TO 7 P.M. MONDAY TO SUNDAY.
21. CONTRACTOR TO PROVIDE TEMPORARY VIDEO DETECTION FOR SIGNAL WHILE LOOPS ARE DISTURBED DURING MILLING AND RESURFACING.

1

INTRODUCTION

LTG, Inc. (LTG) has been retained by Tellus Partners to prepare a Traffic Impact Analysis (TIA) for the proposed development known as Tymber Creek Apartments. The 300-apartment unit development, which is a part of a parent tract that will ultimately include 90,000 square feet (sq. ft.) of commercial use, is located at the northwest quadrant of the Granada Boulevard (SR 40) and Tymber Creek Road intersection in the City of Ormond Beach.

Access is proposed on SR 40 via an existing right-in/right-out driveway at the adjacent Walgreens, and an existing right-in/right-out driveway on Tymber Creek Road with an additional proposed right-out northern driveway on Tymber Creek Road. Build-out of the proposed development is anticipated by 2023. Figure 1 shows the location of the project relative to the surrounding road network. This analysis is being completed as a Parent-Tract analysis. A preliminary site plan is attached in Appendix A.

Study Procedures

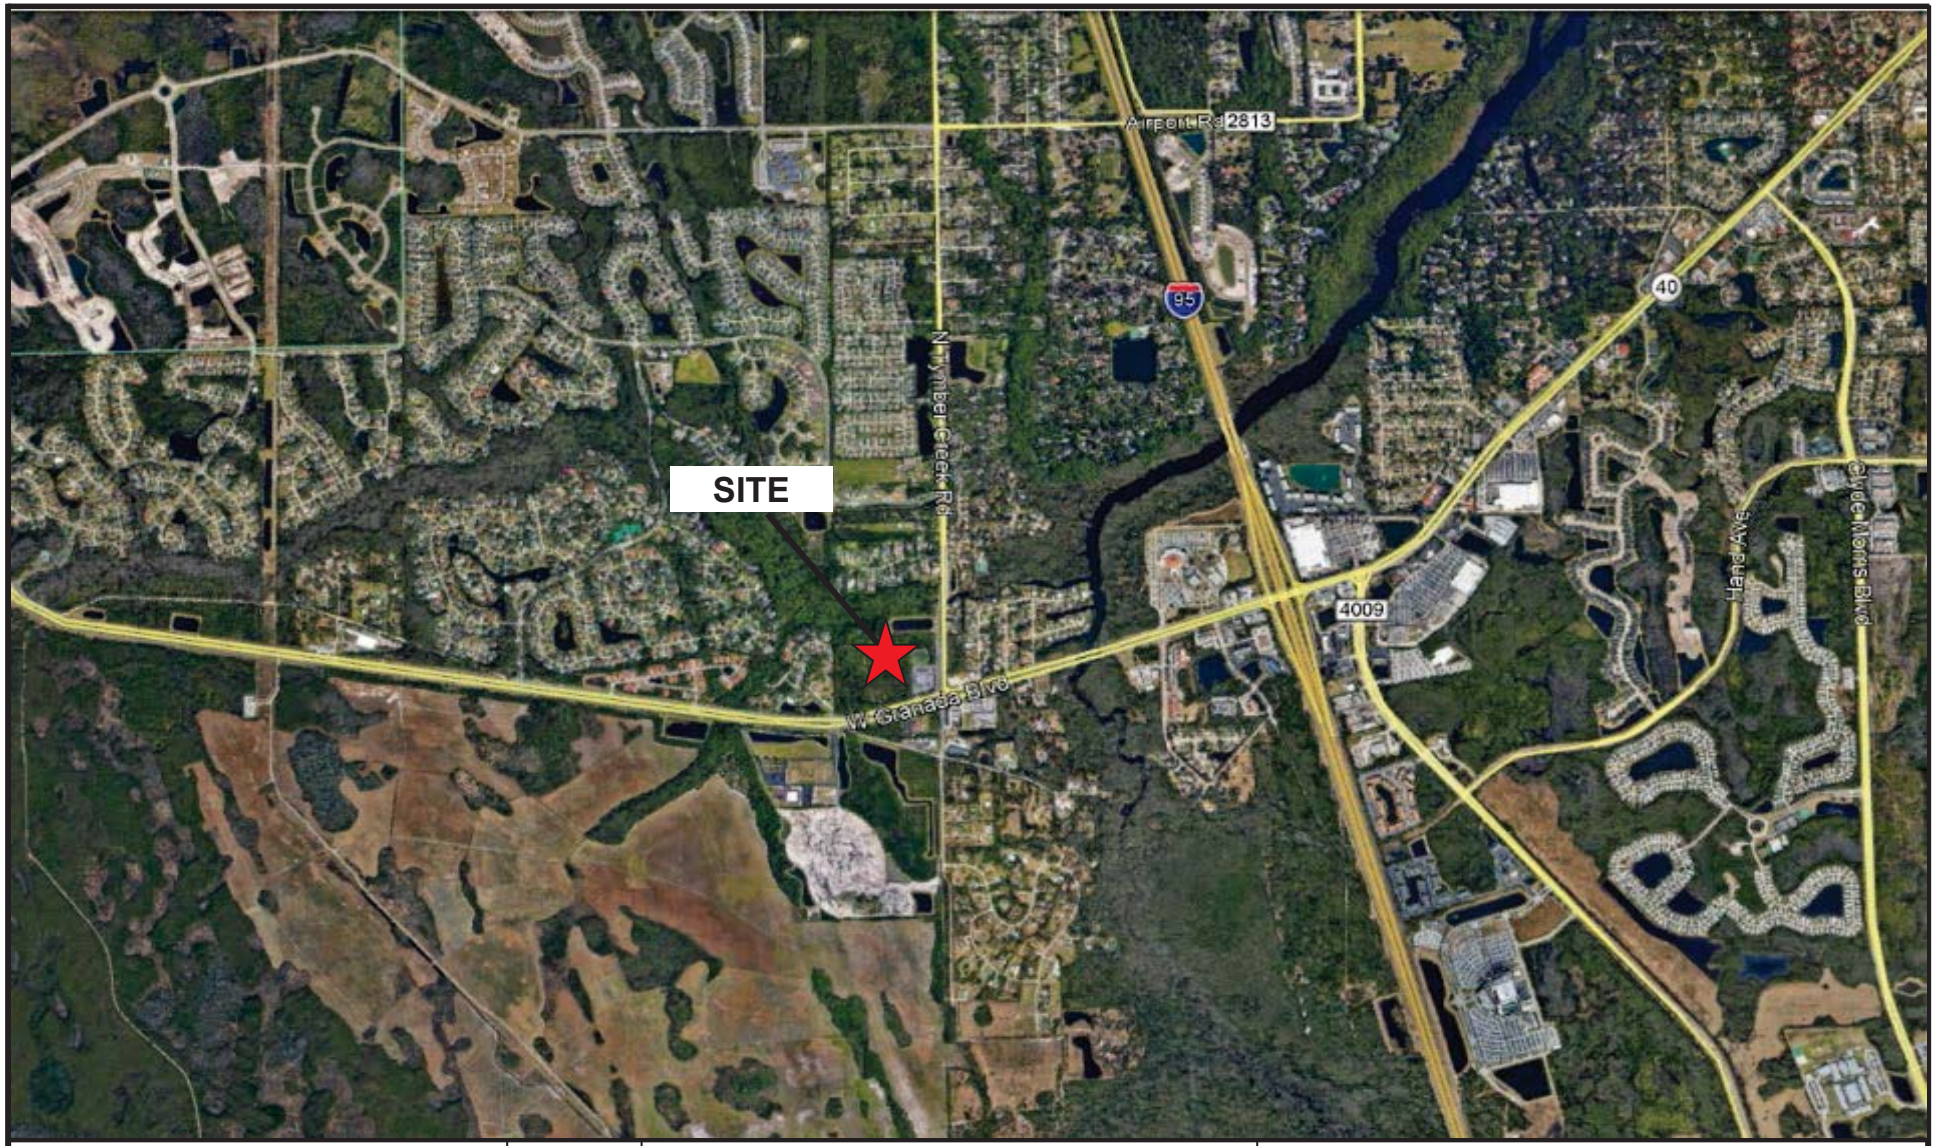
Standard engineering and planning procedures were used to determine the impacts of the proposed project. Reference data was obtained from the Florida Department of Transportation (FDOT), the Volusia County Traffic Engineering Department, the City of Ormond Beach Public Works, the Institute of Transportation Engineers (ITE), and the River to Sea Transportation Planning Organization (R2CTPO).

Study Area

The study area includes those roadway segments that provide direct access to the project, are within a 3-mile radius, and/or impacted by the project to within three percent or greater of the peak-hour two-way adopted level of service (LOS) capacity. Major intersections along the significant segments, and roadway segments that have been designated as "critical" or "near critical" within a three-mile travel distance of the site have also been included. The approved methodology identifying the study parameters is attached as Appendix B. The following roadway segments and intersections are included in the analysis:

Roadway Segments:

- SR 40 from Tymber Creek Road to Clyde Morris Boulevard
- Tymber Creek Road from Tymber Run to SR 40
- Williamson Boulevard from Hand Avenue to Strickland Range Road
- Hand Avenue from Clyde Morris Boulevard to Nova Road (Critical)
- SR 40 from I-95 to Clyde Morris Boulevard (Near-Critical)
- Williamson Boulevard from Hand Avenue to Strickland Boulevard (Vested Critical)
- LPGA Boulevard from Tymber Creek Rd. to Clyde Morris Boulevard (Vested Critical)



Intersections:

- SR 40 at Tymber Creek Road
- SR 40 at Booth Road
- SR 40 at I-95 Southbound Ramps
- SR 40 at I-95 Northbound Ramps
- SR 40 at Williamson Boulevard
- SR 40 at Clyde Morris Boulevard
- Tymber Creek Road at Project Driveway (Future Conditions)
- SR 40 at Project Driveway (Future Conditions)
- Tymber Creek Road at Tymber Run
- Williamson Boulevard at Hand Avenue
- Williamson Boulevard at Strickland Range Road
- Williamson Boulevard at LPGA Boulevard

Planned Roadway Improvements

Information on programmed or planned roadway improvements in the area of interest were obtained from the FDOT Five-Year Work Program, Volusia County, the River to Sea Transportation Planning Organization (TPO) Long Range Transportation Plan, and previously approved projects. These improvements are considered to be in place by this development's future build-out year of 2023. The planned roadway improvements to be included in the future condition analyses are listed below and are projected to be implemented by 2019:

- Williamson Boulevard widening from Strickland Range Road to LPGA Boulevard (2 to 4 lanes)
    - Please note, the assumption was made that the widening project will taper from 4 lanes to 2 lanes south of Strickland Range Road.
- LPGA Boulevard widening from I-95 Southbound Off-Ramp to Williamson Boulevard (4 to 6 lanes)

2

EXISTING ROADWAY ANALYSIS

Turning movement counts (TMCs) were conducted during the a.m. and p.m. peak-hours on April 4th, September 10th, September 11th, and September 12th of 2019 at the study area intersections (see Appendix C). The FDOT's 2019 Seasonal Factor (SF) for the time the TMCs were collected dictates SF values ranging from 0.95-1.02. For a more conservative analysis, the SF was not applied to the existing counts when less than 1.0. The existing a.m. and p.m. volumes were projected to 2020 using the growth rates for each intersection. The seasonally adjusted and projected 2020 a.m. and p.m. peak-hour traffic volumes used in the analysis are presented in Figures 2A and 2B.

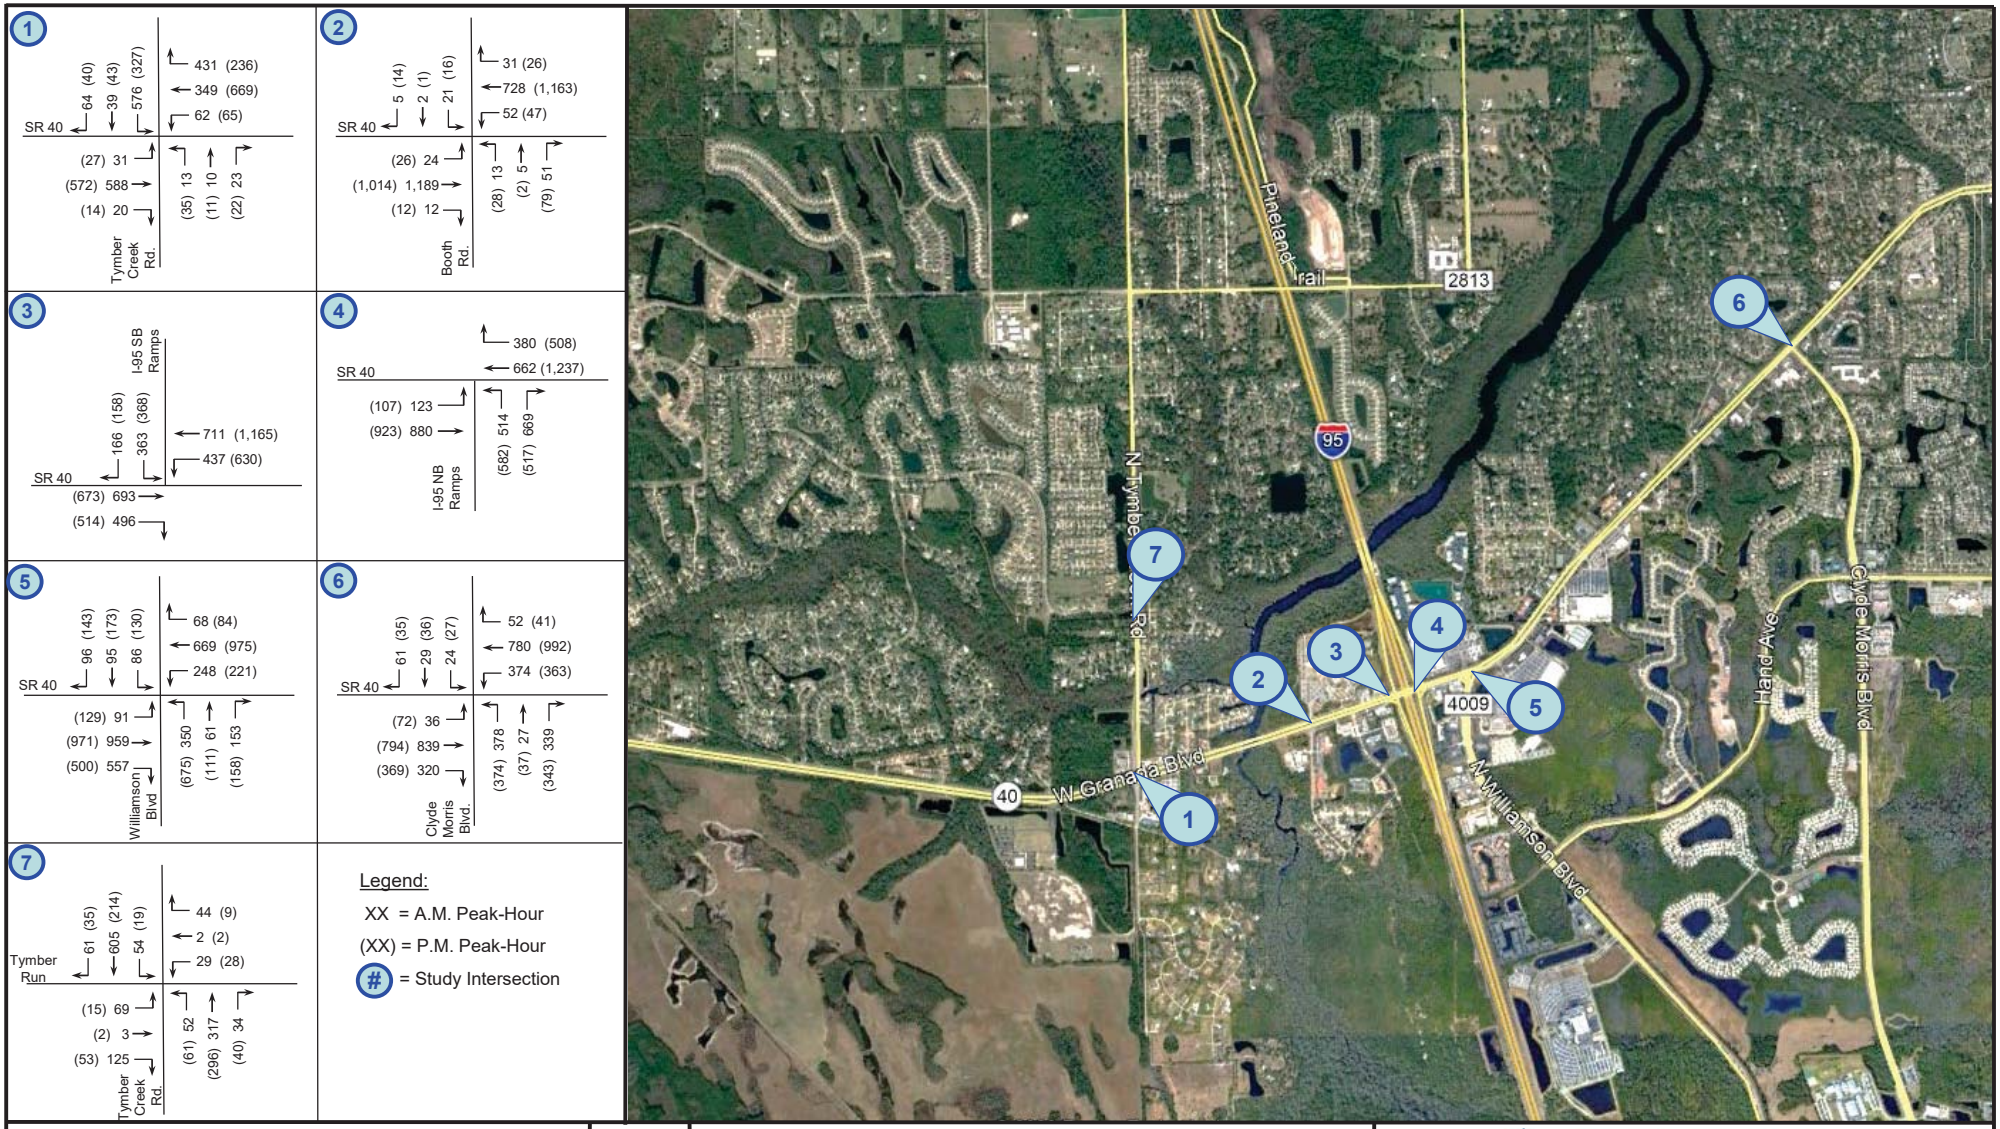
Unsignalized Intersection Analysis

The existing operating conditions at the unsignalized intersection were analyzed using the *Highway Capacity Software 2010, Version 7.85* (HCS). This software utilizes the procedures outlined in Chapter 20 of the Highway Capacity Manual (6th Edition) titled, "Two-Way Stop-Controlled Intersections." Table 1 shows the existing a.m. and p.m. peak-hour LOS at the study area intersection. The HCS summary sheets are attached as Appendix D.

Table 1
Existing A.M. and P.M. Peak-Hour LOS – Unsignalized Intersection
Tymber Creek Apartments

Intersection	Adopted LOS	AM Peak-Hour			PM Peak-Hour		
		Critical Approach	Delay	LOS	Critical Approach	Delay	LOS
Williamson Blvd. at Strickland Range Rd.	E	WB	46.3	E	WB	53.5	F

As indicated in Table 1, the study area intersection currently does not operate within the adopted LOS during the p.m. peak-hour.



Signalized Intersection Analysis

The LOS at a signalized intersection is based on the average stop delay per vehicle for the various movements within the intersection. The operating conditions at the signalized intersections were analyzed using *Synchro 10* which utilizes the procedures outlined in Chapter 19 of the *Highway Capacity Manual 6th Edition*, titled "Signalized Intersections". Table 2 shows the existing LOS and volume to capacity ratio (v/c) at the study area intersections. The signal timings are provided in Appendix E and the Synchro summary sheets are provided in Appendix F.

Table 2
Existing A.M. and P.M. Peak-Hour LOS - Signalized Intersections
Tymber Creek Apartments

Intersection	Adopted LOS	AM Peak-Hour			PM Peak-Hour		
		Delay (sec.)	LOS	V/C greater than 1.0?	Delay (sec.)	LOS	V/C greater than 1.0?
SR 40 at Tymber Creek Rd.	D	42.1	D	No	32.0	C	No
SR 40 at Booth Rd.	D	8.0	A	No	8.5	A	No
SR 40 at I-95 SB Ramps	D	33.5	C	No	52.2	D	No
SR 40 at I-95 NB Ramps	D	24.8	C	No	26.3	C	No
SR 40 at Williamson Blvd.	D	55.7	E	Yes	56.0	E	Yes
SR 40 at Clyde Morris Blvd.	D	52.3	D	No	65.0	E	Yes
Tymber Creek Rd. at Tymber Run	E	11.2	B	No	7.4	A	No
Williamson Blvd. at Hand Ave.	E	12.1	B	No	14	B	No
Williamson Blvd. at LPGA Blvd.	E	70.7	E	Yes	68.1	E	No

As indicated, the intersections of SR 40 at Williamson Boulevard, SR 40 at Clyde Morris Boulevard and Williamson Boulevard at LPGA Boulevard currently operate with a v/c ratio greater than 1.0.

Roadway Segment Analysis

Roadway LOS describes the operating condition determined from the number of vehicles passing over a given section of roadway during a specified time period. It is a qualitative measure of several factors which include speed, travel time, traffic interruptions, freedom to maneuver, driver comfort, convenience, safety and vehicle operating costs. Six LOS categories have been established as standards by which to gauge roadway performance, designated by the letters A through F. The LOS categories are defined as follows:

Level of Service A: *Free flow, individual users virtually unaffected by the presence of others*
Level of Service B: *Stable flow with a high degree of freedom to select operating conditions*
Level of Service C: *Flow remains stable, but with significant interactions with others*
Level of Service D: *High-density stable flow in which the freedom to maneuver is severely restricted*
Level of Service E: *This condition represents the capacity level of the road*
Level of Service F: *Forced flow in which the traffic exceeds the amount that can be served*

The existing LOS for the study area road segments during the p.m. peak-hour are shown in Table 3.

Table 3
Existing P.M. Peak-Hour LOS - Roadway Segments

Roadway	Limits		No. of Lanes	Adopted LOS	Peak-Hour Two-Way Capacity at Adopted LOS	2018 AADT	Existing P.M. Peak-Hour Two-Way Volume	Existing Volume Exceed Adopted LOS?
	From	To						
SR 40	Tymber Creek Rd. Ext.	I 95	4	D	3,580	31,500	2,470	No
	I 95	Clyde Morris Blvd.	4	D	3,580	34,500	3,100	No
Tymber Creek Rd.	Tymber Run	SR 40	4	E	1,540	11,520	950	No
Hand Ave.	Clyde Morris Blvd.	Shangri La Dr.	2	E	1,540	17,010	1,380	No
	Shangri La Dr.	Nova Rd.	4	E	3,410	18,250	1,490	No
Williamson Blvd.	Hand Ave.	Strickland Range Rd.	2	E	1,540	18,020	1,480	No
LPGA Blvd.	Tymber Creek Rd.	Tomoka Farms Rd.	2	E	1,540	13,730	1,110	No
	Tomoka Farms Rd.	I-95	4	E	3,410	30,500	2,060	No
	I-95	Williamson Blvd.	4	E	3,410	38,400	2,060	No
	Williamson Blvd.	Clyde Morris Blvd.	4	E	3,410	26,740	2,190	No

As indicated, all roadway segments currently operate within the adopted LOS.

3

FUTURE TRAFFIC CONDITIONS

2023 Background Traffic

Traffic growth rates from historic Volusia County's 2018 Average Annual Daily Traffic (AADT) counts from the past five years were determined for each study area roadway segment using FDOT's *Traffic Trends* software. Table 4 presents the average annual growth rates and the growth rate applied to the factored existing traffic volumes to project background traffic to the year 2023. When the Trends Analysis provided an R^2 value less than 70%, the Trends Analysis was revised using 10 years of historical data. If the revised trends analysis still provides a R^2 value less than 70%, then the growth rate was determined by the fitted curve. If the overall fitted curve is positive, a minimum average annual growth rate of 2.00% percent was used. The Traffic Trends analysis worksheets are contained in Appendix G.

Table 4
2023 Growth Comparison
Tymber Creek Apartments

Roadway	Segment		Historical Growth		
			Average Annual Rate (%)	R^2 Value	Applied Average Annual Rate (%)
SR 40	Tymber Creek Rd. Ext	I-95	1.90%	45.30%	2.00%

	Williamson Blvd.	Clyde Morris Blvd.	5.00%	83.50%	5.00%

Vested Traffic

Due to approvals previously issued for developments within the immediate study area, the vested traffic within the study are was included in the background traffic. Vested traffic information for intersections and segments used in the study are located in Appendix H. Note that where TIAs or traffic statement data was available for each project, the vested trips were applied to the associated intersections and roadway segments. For those projects without data available, the Volusia County spreadsheet of vested projects was used to apply vested trips to the associated roadway segments only.

Please note, background growth at the intersection of Williamson Boulevard and LPGA Boulevard has been determined via the application of vested trips only, due to the significant growth represented at this intersection by vested trips. Application of vested trips and growth at this location is believed to double count actual anticipated future growth.

4

2023 BACKGROUND - FUTURE ROADWAY ANALYSIS

The study area intersections were analyzed based on the future roadway conditions to determine potential impacts and to investigate mitigation requirements. The study area roadway segments were analyzed under 2023 background and build-out conditions. The 2023 background results of the analysis are presented below.

2023 Background Unsignalized Intersection Analysis

The unsignalized study area intersection was analyzed to determine the operating conditions under 2023 background conditions and the results are presented in Table 5. The HCS summary sheets are attached as Appendix I.

Table 5
Background A.M. and P.M. Peak-Hour LOS – Unsignalized Intersection
Tymber Creek Apartments

Intersection	Adopted LOS	Background Conditions					
		A.M. Peak-Hour			P.M. Peak-Hour		
		Critical Approach	Delay (sec.)	LOS	Critical Approach	Delay (sec.)	LOS
Williamson Blvd. at Strickland Range Rd.	E	WB	75.1	F	WB	110.8	F

As indicated in Table 5, the intersection of Williamson Boulevard at Strickland Range Road is expected to operate outside of the adopted LOS and/or with a v/c ratio greater than 1.0. The following improvements are recommended to achieve acceptable levels of service and a v/c ratio less than 1.0 at all intersections:

- Williamson Boulevard at Strickland Range Road:
  - Add exclusive westbound right-turn lane

The analysis of the intersections with the proposed improvements is provided in Table 6. Please note that the improvements listed above are not funded by the County at this time. The HCS summary sheets are located in Appendix J.

Williamson Blvd. at Hand Ave.	E	12.7	B	No	17.2	B	No
Williamson Blvd. at LPGA Blvd.	E	98.0	F	Yes	126.3	F	Yes

As indicated, under background conditions, the intersections of SR 40 at Williamson Boulevard, SR 40 at Clyde Morris Boulevard, and Williamson Boulevard at LPGA Boulevard are anticipated to operate outside the adopted LOS and/or with v/c ratio greater than 1.0.

The following improvements are recommended to achieve acceptable levels of service and a v/c ratio less than 1.0 at all intersections:

- SR 40 at Williamson Boulevard:
  - Optimize signal timing splits
- SR 40 at Clyde Morris Boulevard:
  - Add northbound right-turn overlap phase;
  - Optimize signal timing splits
- Williamson Boulevard at LPGA Boulevard:
  - Add exclusive northbound right-turn lane with overlap phase;
  - Add exclusive southbound right-turn lane with overlap phase;
  - Add additional westbound through lane;
  - Add eastbound right-turn overlap phase;
  - Optimize signal timing splits

The analysis of the intersections with the proposed improvements is provided in Table 8. Please note that the improvements listed above are not funded by the County at this time. The Synchro summary sheets are located in Appendix L.

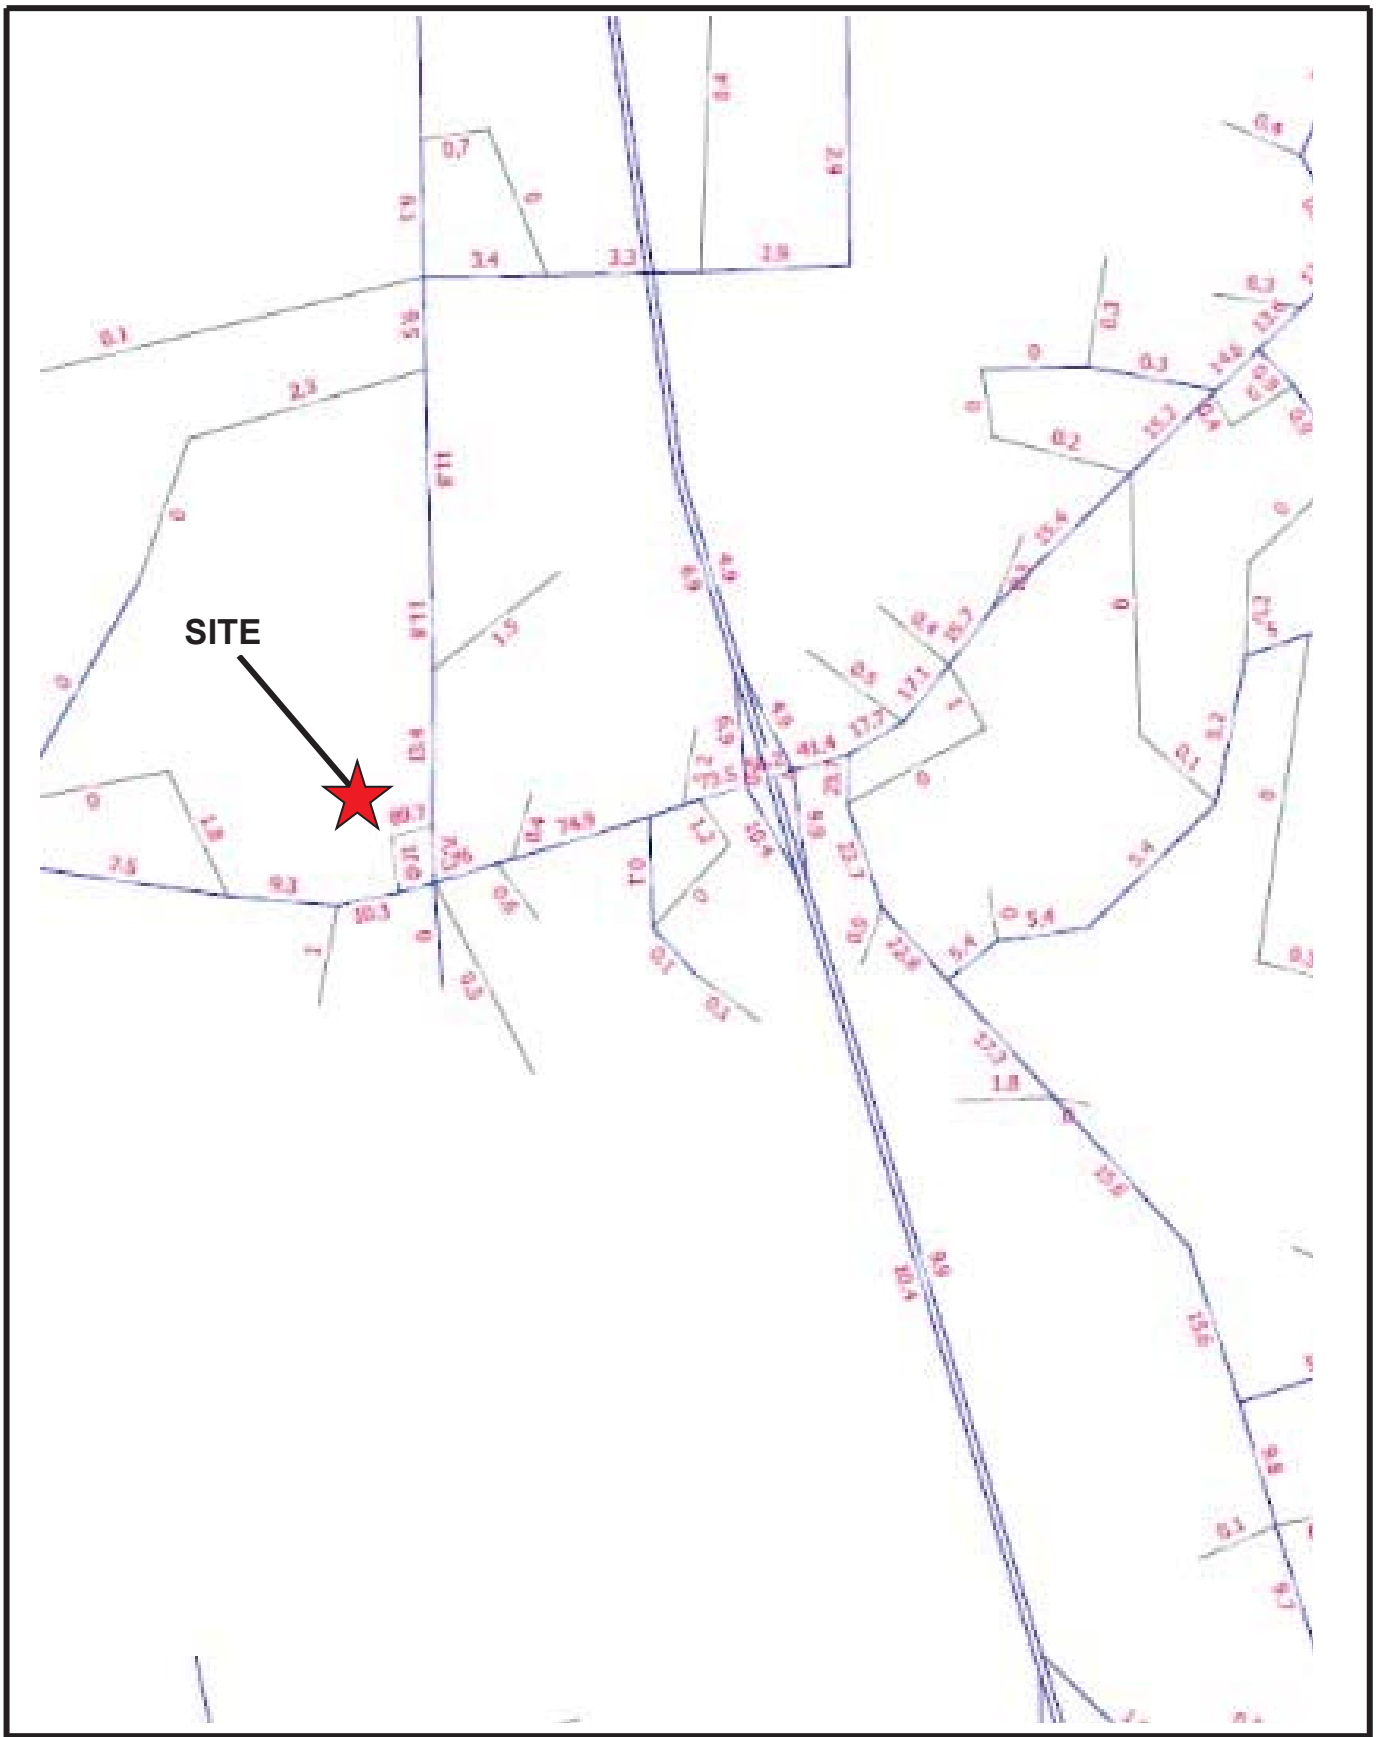
Project Trip Generation

The trip generation for the development was determined using the Institute of Transportation Engineers (ITE) 10th Edition of the *Trip Generation Manual* and is presented in Table 9.

Table 9
Gross Trip Generation
Tymber Creek Apartments

Time Period	Land Use	ITE LUC	Trip Rate Equation	Size	Units	Percent Entering	Percent Exiting	Trips Entering	Trips Exiting	Total Trips
Daily	Mid-Rise Multifamily	221	T=5.45(X)-1.75	300	DU	50%	50%	817	817	1,634
	Shopping Center	820	Ln(T)=0.68Ln(X)+5.57	90	KSF	50%	50%	2,799	2,799	5,598
							Totals:	3,616	3,616	7,232
A.M. Peak-Hour	Mid-Rise Multifamily	221	T=0.36(X)	300	DU	26%	74%	28	80	108
	Shopping Center	820	T = 0.50(X)+151.78	90	KSF	62%	38%	122	75	197
							Totals:	150	155	305
P.M. Peak-Hour	Mid-Rise Multifamily	221	T=0.44(X)	300	DU	61%	39%	81	51	132
	Shopping Center	820	Ln(T)=0.74Ln(X)+2.89	90	KSF	48%	52%	241	262	503
							Totals:	322	313	635



Due to the mixed-use nature of the development, a certain portion of the trips generated is expected to remain internal to the site, known as internal trips. Additionally, a portion of the trips known as pass-by trips (limited to 14% of the adjacent roadway traffic volume for County facilities, and 10% on State facilities) will be attracted to the development from existing traffic on the adjacent roadways. These internal trips were calculated using The National Cooperative Highway Research Program (NCHRP) Report 684 worksheet while pass-by trips were calculated using procedures outlined in the ITE Trip Generation Handbook, 3rd Edition. Internal and pass-by trips were deducted from the gross trip generation and the resulting net new external a.m. and p.m. peak-hour trips are provided in Table 10.

Table 10

Project Trip Distribution

The process of determining the directional flow of traffic associated with a new development is called trip distribution. The Central Florida Regional Planning Model (CFRPM), version 6.1 was used to determine the primary project trip distribution and is presented in Figure 3. Using the trip distribution, the a.m. and p.m. peak-hour project trips were assigned to the study area roadway network. Figures 4A, 4B, 4C, and 4D graphically depicts the 2023 total background traffic and 2023 a.m. and p.m. build-out peak-hour project trips at the study area intersections.

5

BUILD-OUT - FUTURE ROADWAY ANALYSIS

The study area intersections and roadway segments were analyzed based on the roadway conditions at the time of project build-out to determine potential impacts of project-generated trips and investigate mitigation requirements. The improvements recommended in background conditions have been included in the 2023 build-out analysis for those applicable intersections and roadway segments.

2023 Build-Out Unsignalized Intersection Analysis

The unsignalized intersections were analyzed to determine the operational LOS under build-out conditions, including the improvements identified during 2023 background conditions, and the results are presented in Table 11. The HCS summary sheets are also contained in Appendix M.

Table 11
2023 Build-Out A.M. and P.M. Peak-Hour LOS – Unsignalized Intersections
Tymber Creek Apartments

Intersection	Adopted LOS	AM Peak-Hour			PM Peak-Hour		
		Critical Approach	Delay	LOS	Critical Approach	Delay	LOS
Williamson Blvd. at Strickland Range Rd.	E	WB	18.8	C	WB	19.3	C
Tymber Creek Rd. at RIRO Project Driveway	E	EB	12.1	B	EB	10.3	A
Tymber Creek Rd. at Exit Only Project Driveway	E	EB	11.3	B	EB	10.0	B
SR 40 at Project Driveway	D	SB	10.7	B	SB	14.6	B
SR 40 at Full Median Opening	D	NB	13.7	B	SB	22.1	C

As indicated in the table, the unsignalized intersections are anticipated to operate within the adopted LOS with the proposed improvements.

2023 Build-Out Signalized Intersections

The signalized intersections were analyzed to determine the operational LOS under build-out conditions, including the improvements identified during 2023 background conditions, and the results are presented in Table 12. The Synchro summary sheets are also contained in Appendix N.

Table 12
2023 Build-Out A.M. and P.M. Peak-Hour LOS - Signalized Intersections
Tymber Creek Apartments

Intersection	Adopted LOS	AM Peak-Hour			PM Peak-Hour		
		Delay (sec.)	LOS	V/C greater than 1.0?	Delay (sec.)	LOS	V/C greater than 1.0?
SR 40 at Tymber Creek Rd.	D	47.0	D	No	38.4	D	No
SR 40 at Booth Rd.	D	8.4	A	No	8.7	A	No
SR 40 at I-95 SB Ramps	D	33.5	C	No	51.0	D	No
SR 40 at I-95 NB Ramps	D	27.8	C	No	27.9	C	No
SR 40 at Williamson Blvd.	D	51.8	D	No	54.2	D	Yes
SR 40 at Clyde Morris Blvd.	D	48.5	D	No	51.1	D	No
Tymber Creek Rd. at Tymber Run	E	12.6	B	No	7.8	A	No
Williamson Blvd. at Hand Ave.	E	12.9	B	No	18.2	B	No
Williamson Blvd. at LPGA Blvd.	E	41.6	D	No	61.0	E	No

As indicated in Table 9, all of the study area intersections are expected to operate within the adopted LOS and with a v/c ratio less than 1.0 under 2023 build-out conditions, with the exception of SR 40 at Williamson Boulevard. The following improvements are recommended to achieve acceptable levels of service and a v/c ratio less than 1.0 at all intersections:

- SR 40 at Williamson Boulevard:
  - Optimize signal timing splits in the p.m. peak-hour

The analysis of the intersections with the proposed improvements is provided in Table 13. The Synchro summary sheets are located in Appendix O.

Table 13
2023 Build-Out A.M. and P.M. Peak-Hour LOS - Signalized Intersections - Improved
Tymber Creek Apartments

Intersection	Adopted LOS	AM Peak-Hour			PM Peak-Hour		
		Delay (sec.)	LOS	V/C greater than 1.0?	Delay (sec.)	LOS	V/C greater than 1.0?
SR 40 at Williamson Blvd.	D	-	-	-	52.6	D	No

2023 Build-out Roadway Segment Analysis

The study area roadway segments were analyzed under 2023 build-out conditions to determine the expected LOS and the results are shown in Table 14. As indicated, six roadway segments will not operate within an acceptable LOS. The following improvements are recommended in order to achieve acceptable levels of service at the deficient roadway segments:

- SR 40 from I-95 to Clyde Morris Boulevard:
  - Widen from 4-lanes to 6-lanes
- Hand Avenue from Clyde Morris Boulevard to Shangri La Drive:
  - Widen from 2-lanes to 4-lanes
- Williamson Boulevard from Hand Avenue to Strickland Range Road:
  - Widen from 2-lanes to 4-lanes
- LPGA Boulevard from Tymber Creek Road to Tomoka Farms Road:
  - Widen from 2-lanes to 4-lanes
- LPGA Boulevard from Tomoka Farms Road to I-95 Southbound Ramps:
  - Widen from 4-lanes to 8-lanes
- LPGA Boulevard from I-95 Southbound Ramps to Williamson Boulevard:
  - Widen from 6-lanes to 8-lanes
- LPGA Boulevard from Williamson Boulevard to Clyde Morris Boulevard:
  - Widen from 4-lanes to 6-lanes

The roadway segments were evaluated with the above mentioned improvements and the results are presented at the lower part of Table 14. Please note that these improvements are not yet funded for construction. As indicated by Table 14, LPGA Boulevard from I-95 Northbound ramps to Outlet Boulevard continues to operate over the improved capacity during the p.m. peak-hour even after implementing an 8-lane improvement. Additional analysis is recommended to determine whether the future background vested traffic is overstated, or to determine additional feasible improvements.

**Includes improvements funded for construction within the next three years*
***Improved 4-Lane capacity based upon capacity of comparable roadway segments reported in Volusia County's AADT Table.*
****All recommended improvements are not currently funded for construction.*

Please note, the recommended improvements for LPGA Boulevard from Tomoka Farms Road to Williamson Boulevard and SR 40 from I-95 to Clyde Morris Boulevard in Table 14 are not shown in the 2025 Future Number of Lanes Map found in the transportation element of Volusia County's Comprehensive Plan. Per Volusia County request, the project impacts from the segment of LPGA Boulevard have been reassigned to the future Dunn Avenue Extension, and the project impacts from the segment of SR 40 have been reassigned to Hand Avenue. The cost for the improvement will be reflected in the proportionate share calculation.

Queue Length and Turn Lane Analysis

A queue length analysis was conducted to determine recommended storage lengths for existing turn lanes at the study area intersections. The background and build-out Synchro/HCS results were used to obtain the 95th percentile queue lengths anticipated for each exclusive turn lane during the a.m. and p.m. peak-hours that were affected by project trips. Turn lane requirements were evaluated using the Volusia County LDC Section 72-619, Table VI and FDOT Design Manual Exhibit 212-1. The resulting recommended turn lane lengths for the intersections are provided in Table 15. As indicated in the table, the following turn-lane extensions are recommended:

- SR 40 at Tymber Creek Road
  - Extend southbound left-turn lanes by 100-feet
- SR 40 at I-95 Northbound Ramps
  - Extend eastbound left-turn lane by 100-feet
- SR 40 at Williamson Boulevard
  - Extend northbound left-turn lanes by 25-feet
- SR 40 at Clyde Morris Boulevard
  - Extend eastbound right-turn lane by 25-feet
- Williamson Boulevard at Hand Avenue
  - Extend southbound left-turn lane by 15-feet
- Williamson Boulevard at LPGA Boulevard
  - Extend westbound right-turn lane by 25-feet

**Based upon Volusia County LDC Section 72-619 Table VI and FDOT Design Manual 212-1*

Alternate Mode Analysis

An alternative mode analysis has been conducted to determine existing and proposed alternate modes of transportation within the immediate project study area.

VOTRAN, Volusia County's public transportation system, provides transportation alternatives to all urban areas of the county via fixed route buses and paratransit vehicles. The frequency of most routes is one hour, with a few operating on the half-hour. Standard daily service is provided from 6 a.m. – 7 p.m., Monday through Saturday, with a limited fixed route service at night and on Sunday. At this time, VOTRAN does not operate a fixed route near the location of the proposed development.

There are 5-foot and 8-foot sidewalks currently along both sides of Tymber Creek Road and adjacent to the proposed development along SR 40. There are bicycle lanes present along SR 40 and Tymber Creek Road adjacent to proposed development. A sidewalk network internal to the development will provide access to the commercial development and connect to the external sidewalk along Tymber Creek Road, providing connectivity for pedestrians. Within the 2-mile walk zone for schools near the development, sidewalks adjacent to the proposed development along Tymber Creek Road continue north, providing continuous access to Pathways Elementary School. For pedestrians to have continuous access to Pine Trails Elementary, sidewalk installation along Airport Road, east of Tymber Creek Road, is required.

Site Access Analysis

Access is proposed on SR 40 via an existing right-in/right-out driveway at the adjacent Walgreens, and an existing right-in/right-out driveway on Tymber Creek Road and an additional proposed right-out northern driveway on Tymber Creek Road. Based on the proposed site plan and number of peak-hour trips anticipated at the Tymber Creek Road driveway, the access point is classified as intermediate driveway. Tymber Creek Road is currently maintained by Volusia County with a speed limit of 45 miles per hour (mph) and is therefore required to meet current driveway criteria provided within Volusia County Land Development Code (LDC).

Section 72-619 states that a right-turn lane shall be required for an intermediate driveway adjacent to a thoroughfare with a speed limit greater than 35 mph. Therefore, a 385-foot (includes 50-foot taper) southbound right-turn lane is required at the southern Tymber Creek Road project driveway. Currently, there is no right turn lane at this driveway for the existing Walgreens development. Since the northern driveway along Tymber Creek Road is an exit only driveway, there are no turn lanes required.

SR 40 is maintained by FDOT as a state facility. There is an existing channelized right-turn lane into the project driveway that services the existing Walgreens driveway.

Proportionate Share (PS)

Based on Florida Statue and procedures outlined in the R2CTPO TIA guidelines, the proportionate Share (PS) shall be calculated using projects trips divided by the change in roadway capacity provided by the recommended improvements providing the projects PS percentage for the improvement. The total estimated construction cost for the improvement is multiplied by the PS percentage to determine the applicant's PS contribution.

The recommended improvements eligible for PS determination, the estimated improvements costs and PS calculation will be provided with the response to agency comments letter.

6

CONCLUSION AND RECOMMENDATIONS

This study was conducted to evaluate the impact the proposed Tymber Creek Apartments development would have on the surrounding roadway network in the City of Ormond Beach. The development will generate 301 new external a.m. peak-hour trips and 368 p.m. new external peak-hour trips. The results of the study are summarized in Tables 16 and 17, below.

Table 16
Recommended Improvements - Roadway Segments
Tymber Creek Apartments

Roadway	Segment		When Improvement Required	
	To	From	2023 Background	2023 Build-Out
SR 40	I-95	Clyde Morris Blvd.		6L
Hand Ave	Clyde Morris Blvd	Shangri La Dr	4L	
Williamson Blvd.	Hand Ave	Strickland Range Rd	4L	
LPGA Blvd	Tymber Creek Rd.	Tomoka Farms Rd.	4L	
	Tomoka Farms Rd.	I-95 SB Ramps	8L	
	I-95 SB Ramps	I-95 NB Ramps	8L	
	I-95 NB Ramps	Outlet Blvd.	8L	
	Outlet Blvd.	Williamson Blvd.	8L	
	Williamson Blvd.	Clyde Morris Blvd.	6L	

Please note, the recommended improvements for LPGA Boulevard from Tomoka Farms Road to Williamson Boulevard and SR 40 from I-95 to Clyde Morris Boulevard in Table 14 are not shown in the 2025 Future Number of Lanes Map found in the transportation element of Volusia County's Comprehensive Plan. Per Volusia County request, for the purpose of proportionate share costs, the project impacts from the segment of LPGA Boulevard have been reassigned to the future Dunn Avenue Extension, and the project impacts from the segment of SR 40 have been reassigned to Hand Avenue. The cost for the improvement will be reflected in the proportionate share calculation.

Table 17
Recommended Improvements - Intersections
Tymber Creek Apartments

Intersection	When Improvement Required	
	2023 Background	2023 Build-Out
Williamson Blvd. at Strickland Range Rd.	• Add exclusive westbound right-turn lane	
SR 40 at Williamson Blvd.	• Optimize timings	• Optimize timings in the p.m. peak-hour
SR 40 at Clyde Morris Blvd.	• Add northbound right-turn overlap phase • Optimize timings	
Williamson Blvd. at LPGA Blvd.	• Add exclusive northbound right-turn lane • Add exclusive southbound right-turn lane • Add additional westbound through-lane • Add eastbound, northbound, and southbound right-turn overlap phases • Optimize timings	

Based on the Volusia County Land Development Code (LDC), a southbound right-turn lane of 385-feet (includes 50-foot taper) is required at the southern Tymber Creek Road project driveway.

Based on the results of the TIA and the recommended improvements, the proposed Tymber Creek Apartments development is recommended for approval.

Re: Tymber Creek Apartments
Parcel ID No(s).: 4125-00-00-0243 and 4125-00-00-0221

Dear Steve:

Our office has the pleasure of representing VCP Ormond Beach II, LLC, owner and developer of the above-referenced properties in Ormond Beach, Florida. This proposed project consists of 300 multifamily units within ten buildings and associated amenities. As outlined herein, this project is consistent with the directives contained in the Ormond Beach Comprehensive Plan and the requirements for the Planned Business Development zoning overlay and provides the following:

a. Innovative site design.

The Tymber Creek Apartments project encompasses approximately 19.620 acres of land with a proposed density of 18.27 residential units per acre. As a result, the goal of this development is to provide significant open areas and active recreation areas for the residents of the development to use and enjoy as well as timeless elevations and designs. The PD Plan, attached to the development agreement as Exhibit "B" demonstrates the innovative nature of the project design as a whole, with expansive open and green space, and interconnected street and sidewalk features.

b. Efficient location and utilization of infrastructure.

The Tymber Creek Apartments development provides for unique and thoughtful elevations for the multifamily structures, to provide the residents of Ormond Beach a beautiful residence and community to reside and work in. The development also provides for distinctive and classic entry features and signage, as further detailed in the attached

exhibits. Seventy-one (71) bicycle spaces are provided throughout the development with integrated sidewalks throughout the project connected to courtyards with additional plantings and landscaping. This development is contiguous to an existing commercial development as well as single-family residential development and as a result, provides for a mix of uses and housing types, as encouraged by the comprehensive plan.

The development also includes significant entry features, buffering, and landscape features as specifically innovated for this project by the landscape architects and engineers at Newkirk. The exhibits to the development agreement illustrate the interconnected elements of the cohesive streetscape in addition to connecting sidewalks surrounding the proposed development.

c. Open space, recreation, common areas.

The development offers acres of open space areas, active recreation, and amenity areas for the residents of the development to enjoy as part of an active lifestyle in Ormond Beach. The development also preserves over 2.4 acres of wetlands, and includes almost an acre of beautiful wet ponds throughout the development. The development also includes bicycle parking spaces, courtyards, a clubhouse and pool, and a dog park.

d. Usable and suitable located civic spaces, recreational facilities, open spaces and scenic areas.

The development provides for courtyards for the residents, a dog park for residents to walk their dogs and meet up with their fellow neighbors, and also provides for a gathering place in a club house and pool where residents can come together and enjoy the facilities the club house has to offer.

e. Coherent and visually attractive physical environment.

The enhanced buffers of the project paired with the modern yet subtle design style of the proposed buildings and floating fountains provides for a cohesive and aesthetically pleasing development for all residents and neighbors to enjoy.

f. Ensure compatibility with adjacent neighborhoods.

The project includes large tree preservation areas, landscape buffers, retaining walls and screening around the perimeter of the project boundaries to provide for separation with other uses.

Moreover, the project includes certain parking areas located on the side and rear of the buildings, a combination of retaining walls, screening such as fences, and buffers to define the project perimeter, a trash disposal area that is integrated into the site and aesthetically matches the project as a whole, and outdoor amenities such as courtyards and a dog park. We are also continuing to work with Newkirk on advancing this project and site plan forward based on feedback and comments from City staff and the community.

Based on the responses above, we are excited to move the proposed Tymber Creek Apartments project forward for the residents of Ormond Beach with a request for additional density. As always, should you have any questions, please do not hesitate to contact me.

Sincerely,

Nika K. Hosseini

Re: PBD Public Hearing Application - Tymber Creek Apartments
Parcel ID No(s).: 4125-00-00-0243 and 4125-00-00-0221

Dear Steve:

Our office has the pleasure of representing VCP Ormond Beach II, LLC, owner and developer of the above-referenced properties in Ormond Beach, Florida. This proposed project consists of 300 multifamily units within ten buildings and associated amenities. Enclosed please find the following documents for this application.

- PBD Public Hearing application;
- Authorization of Owner;
- Proof of Ownership (property cards);
- Special Warranty Deed;
- Letter regarding description of project, requests & public benefits; and
- PBD Development Order with exhibits.

We are excited to move the proposed Tymber Creek Apartments project forward for the residents of Ormond Beach with a request for additional density. As always, should you have any questions, please do not hesitate to contact me.

Sincerely,

Nika K. Hosseini

BEFORE THE
CITY COMMISSION
OF THE
CITY OF ORMOND BEACH

IN RE: Application of: VCP Ormond Beach II, LLC, owner and developer
Application No: 2022-___
Project Name: Tymber Creek Apartments
Property Address: North Tymber Creek Road, Ormond Beach, FL 32174
Parcel ID Number(s): 4125-00-00-0243 and 4125-00-00-0221

PLANNED BUSINESS DEVELOPMENT
DEVELOPMENT ORDER

This matter having come on for public hearing before the City Commission of the City of Ormond Beach, Florida, on _____, 2022 and _____, 2022 and the City Commission having considered those items as required by 1-18(D) of the *Land Development Code*, and having heard testimony and evidence from all affected persons, the City Commission hereby finds that:

1. The proposed land use conforms to the standards and requirements of the *Land Development Code* and will not create undue crowding beyond the conditions normally permitted in the PBD, Planned Business Development, zoning district, or adversely affect the public health, safety, welfare or quality of life;

2. The proposed development is consistent with the *Comprehensive Plan;*

3. The proposed development will not adversely impact environmentally sensitive lands or natural resources, including but not limited to waterbodies, wetlands, xeric communities, wildlife habitats, endangered or threatened plants and animal species or species of special concern, wellfields, and individual wells;

4. The proposed use will not substantially or permanently depreciate the value of surrounding property; create a nuisance; deprive adjoining properties of adequate light and air; or create excessive noise, odor, glare or visual impacts on the neighborhood and adjoining properties;

5. There are adequate public facilities to serve the development, including but not limited to roads, sidewalks, bike paths, potable water, wastewater treatment, drainage, fire and police safety, parks and recreation facilities, schools, and playgrounds, as amended;

6. Ingress and egress to the property and traffic patterns are designed to protect and promote motorized vehicle and pedestrian/bicycle safety and convenience, allow for desirable traffic flow and control, and provide adequate access in case of fire or catastrophe, as amended;

7. The proposed development is functional in the use of space and aesthetically acceptable;

8. The proposed development provides for the safety of occupants and visitors;

9. The proposed used of materials and architectural features will not adversely impact the neighborhood and aesthetics of the area; and

10. The testimony provided at public hearings.

Thereupon and in consideration thereof, the City Commission hereby orders that:

A. The application of VCP Ormond Beach II, LLC, a Florida limited liability company, the owner and developer of that property consisting of approximately +/- 19.620 acres located at the intersection of Granada Boulevard and Tymber Creek Road (Volusia County parcel numbers: 4125-00-00-0243 and 4125-00-00-0221) (the "Property"), for a Development Order for a Planned Business Development to be known as "Tymber Creek Apartments", to allow the construction of a residential community consisting of 300 multifamily units, and associated site improvements, on that Property more particularly described and depicted in Exhibit "A" and which plan is illustrated in Exhibit "B", which are respectively attached hereto and incorporated herein by reference, is hereby granted, subject to the following conditions:

1. All applicable provisions of Chapter 2, District and General Regulations, Article II, District Regulations, Section 2-36, Planned Business Development, of the City of Ormond Beach *Land Development Code*, except as otherwise specifically modified hereby, shall at all times by strictly complied with.

2. Incorporate the uses and dimensional standards of the B-8 (Commercial) zoning district, except as otherwise provided in the development order.

3. *Signage.* Signage for the development shall meet Section 2-36(g)(1) of the City of Ormond Beach *Land Development Code*.

4. *Fences.* The developer may implement perimeter fencing on the Property as part of the development.

5. *Phasing.* The development may be built in one or more phases and in any order, in substantial accordance with the phasing plan, attached as

as Exhibit "C". Any revisions to the phasing plan may be processed as a minor amendment to this PBD Development Order.

6. *Lot Layout.* The actual count, location, and layout of the developed areas within the development shall be determined during site plan review and may be modified based on responses from and requirements of applicable permitting agencies and identified environmental conditions.

B. The final plans for the development project shall be consistent with all the conditions listed in this Development Order and as depicted in the plans that are attached hereto and incorporated herein by reference as Exhibit "B".

C. No material changed shall be made to the final plan for the development project without further review by the Planning Board and approval by the City Commission in accordance with the procedures for the approval or modification of development orders.

D. All site construction activity shall be performed in strict compliance with the terms and conditions of this Planned Business Development Order approved for this development project, and of the *Land Development Code*.

E. If the final plan approval lapses under the provisions of Section 1-14(C)(2) of the *Land Development Code* before the planned development permit can be established, a new application for a Planned Business Development Order must be submitted for consideration in accordance with the requirements of the *Land Development Code.*

F. In the event the use of the land approved by this Planned Business Development Order is abandoned for a period of three (3) years any permit issued hereunder and this Planned Business Development Order shall automatically become void and a Notice of Final Plan Revocation shall be filed under the provisions of Section 1-14(C)(2) of the *Land Development Code,* and a new application for a Planned Business Development Order must be submitted for consideration in accordance with the requirements of the *Land Development Code.*

G. The Neighborhood Improvement Officer shall semi-annually prepare a report indicating which planned developments are not in compliance with Section 1-14. In the event a Neighborhood Improvement Officer determines there to be any violation, such Officer shall initiate appropriate code enforcement action for hearing before the City's Special Master.

H. In the event a building permit has not been issued within thirty-six (36) months, which date shall be _____, then this Development Order shall automatically become void and shall have no further legal effect per Chapter 1, Article II,

Section 1-14(C)(2), of the *Land Development Code.* If a building permit is issued on or before _____the project shall be vested.

I. This Planned Business Development Order shall be recorded in the public records of Volusia County, Florida, at the expense of VCP Ormond Beach II, LLC, a Florida limited liability company, the owner and developer, and its successors and assigns, and shall run with the real property described in Exhibit "A" attached hereto.

ORDERED this ____day of _____ 2022.

CONTAINING 19.62 ACRES, MORE OR LESS.

Exhibit B
Overall Development Plan

SITE DEVELOPMENT USAGE

1. SETBACK:

	BUILDING	LANDSCAPE
FRONT (TYMBER CREEK)	25 FEET	20 FEET
REAR (NORTH)	20 FEET	20 FEET
SIDE (WEST)	10 FEET	20 FEET
SIDE (INTERIOR)	10 FEET	6 FEET
SIDE (CORNER)	20 FEET	6 FEET
MAXIMUM BUILDING HEIGHT		45 FEET

* SECTION 3-36(d) STATES, "HEIGHT LIMITS MAY EXCEED THAT ALLOWED BY DISTRICT REGULATIONS BY A MAXIMUM FIFTEEN FEET (15'), PROVIDED THAT THE STRUCTURE IS LOCATED AS TO NOT HAVE AN ADVERSE IMPACT ON ADJOINING PROPERTIES, PARTICULARLY SINGLE-FAMILY HOMES. THIS ADDITIONAL HEIGHT ALLOWANCE WILL NOT BE AWARDED FOR ANY PORTION OF A STRUCTURE LOCATED WITHIN FIFTY FEET (50') OF A SINGLE FAMILY HOME OR FOR A VACANT SITE IN A ZONING DISTRICT DESIGNED PRIMARILY FOR SUCH USE. IN NO CASE SHALL ANY BUILDING HEIGHT EXCEED SEVENTY-FIVE FEET (75') WHEN MEASURED FROM THE AVERAGE MEDIAN LOT ELEVATION TO THE HIGHEST POINT OF ANY STRUCTURE AND/OR ATTACHED SERVICES."

MAXIMUM BUILDING COVERAGE	35%
MAXIMUM IMPERVIOUS LOT COVERAGE	75%

THE B-8 ZONING DISTRICT ALLOWS 10 UNITS PER ACRE, THE LAND USE CATEGORIES ALLOW:
(1) "OPEN SPACE/CONSERVATION" (3.2 ACRES) - 0 UNITS
(2) "RESIDENTIAL, OFFICE RETAIL" (3.2 ACRES) - 48 UNITS
(3) "GENERAL COMMERCIAL" (13.22 ACRES) - 423 UNITS

THE PROPERTY'S LAND USES ALLOW A TOTAL OF 471 UNITS (300 UNITS PROPOSED).
THE UNITS PER ACRE NEED TO BE BASED UPON 16.42 ACRES OR
300 UNITS / 16.42 = 18.27 UNITS PER ACRE

NO STRUCTURE SHALL EXCEED 180 LINEAR FEET IN LENGTH PER LDC SECTION 3-57(22)(f).

2. PROPOSED SITE COVERAGE:

	SQ. FT	ACRE	%
BUILDINGS	127,446	2.926	14.9
PAVEMENT	164,109	3.767	19.2
CONCRETE SIDEWALKS / PADS/ POOL DECK	46,260	1.062	5.4
RESERVED PARKING	18,810	0.432	2.2
EXTERIOR LANDSCAPE	67,254	1.544	7.9
INTERIOR LANDSCAPE	312,116	7.165	36.5
WET DETENTION PONDS	32,862	0.754	3.8
WETLANDS	104,588	2.402	12.2
TOTAL SITE	854,635	19.620	100.0
TOTAL IMPERVIOUS	337,815	7.755	39.5
TOTAL PERVIOUS	516,820	11.865	60.5

3. PARKING REQUIREMENTS

UNIT MIX	
1.5 SPACES PER 1 BEDROOM x 168	= 252 SPACES
0.5 SPACES RESERVE PER 2 BEDROOM x 120	= 84 SPACES
2.0 SPACES PER 2 BEDROOM x 120	= 240 SPACES
2.0 SPACES PER 3 BEDROOM x 12	= 24 SPACES
TOTAL REQUIRED PARKING	= 600 SPACES

4. PARKING PROVIDED

		%

Exhibit C
Phasing Plan

PHASING NOTE:
THE PHASING OF THE PROJECT MAY BE APPROVED BY THE SPRC AS A MINOR MODIFICATION TO THE DEVELOPMENT ORDER. THE SPRC MAY ALLOW CERTIFICATE OF OCCUPANCY FOR INDIVIDUAL BUILDINGS THAT ARE COMPLETED IN TERMS OF BUILDING AND SITE IMPROVEMENTS AND THE REMAINDER OF THE SITE IS PROTECTED FOR CONSTRUCTION ACTIVITIES.

PHASE 1 (SITE INFRASTRUCTURE CONSTRUCTION)

1. INSTALL ALL SITE FENCE, TREE BARRICADES AND CONSTRUCTION ENTRANCE.
2. CLEARING AND GRUBBING ENTIRE SITE WITHIN LIMITS OF CONSTRUCTION.
3. EARTHWORK IMPROVEMENTS CONSISTING OF SITE GRADING AND STORMWATER PONDS.
4. INSTALL PUBLIC LIFT STATION AND SANITARY SEWER MAIN, MANHOLES AND SERVICES.
5. INSTALL WATER MAIN, FIRE HYDRANTS, WATER SERVICES AND FIRE SERVICES.
6. INSTALL STORMWATER INLETS, DRAINAGE PIPES, CONTROL STRUCTURES, STORM-TECH EXFILTRATION AND MITERED END SECTIONS.
7. INSTALL SEGMENTAL RETAINING WALL.
8. INSTALL 20-FEET WIDE STABILIZED ACCESS ROAD TO LIFT STATION.
9. INSTALL FIRST LIFT OF ASPHALT PAVEMENT CONSISTING OF STABILIZED SUBBASE, BASE, 3/4 INCH OF ASPHALT AND CURBING.
10. TYMBER CREEK ROADWAY IMPROVEMENTS CONSISTING OF RIGHT-TURN LANE AND DUEL LEFT TURN LANE EXPANSION.
11. SURVEYOR TO PREPARE AS-BUILTS FOR WATER AND SEWER IMPROVEMENTS.
12. ENGINEER OF RECORD TO PREPARE FDEP WATER AND WASTEWATER CERTIFICATIONS FOR CITY OF ORMOND BEACH APPROVAL. ENGINEER OF RECORD TO SUBMIT FDEP WATER AND WASTEWATER CERTIFICATIONS TO FDEP FOR FINAL APPROVAL.
13. ENGINEER OF RECORD TO CERTIFY TYMBER CREEK ROAD IMPROVEMENTS WITH VOLUSIA COUNTY.

PHASE 2 (CLUBHOUSE, BUILDING 1 & 2)

1. ALL SITE INFRASTRUCTURE IMPROVEMENTS SHALL BE CONSTRUCTED INCLUDING FIRST LIFT OF ASPHALT FOR THE ENTIRE DEVELOPMENT PRIOR TO REQUESTING ANY BUILDING CLEARING FOR OCCUPANCIES.
2. CONSTRUCT CLUBHOUSE AND POOL, BUILDING 1 AND 2 BUILDING IMPROVEMENTS.
3. INSTALL SECOND LIFT OF ASPHALT (SM') WITHIN BUILDING PHASE.
4. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
5. INSTALL SIDEWALK CONNECTION TO GRANADA BOULEVARD.
6. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
7. INSTALL PRE-CAST SCREEN WALL.
8. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
9. INSTALL LANDSCAPE, IRRIGATION AND FLOATING FOUNTAIN WITHIN WALGREENS.
10. SURVEYOR TO PREPARE AS-BUILTS FOR THIS BUILDING PHASE.
11. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
12. INSTALL TEMPORARY DUMPSTER.
13. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
14. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
15. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 3 (BUILDING 3 & 4)

1. CONSTRUCT BUILDING 3 AND 4 BUILDING IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (SM') WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. INSTALL SIDEWALK CONNECTION TO TYMBER CREEK ROAD.
5. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
6. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
7. INSTALL TEMPORARY DUMPSTER.
8. SURVEYOR TO PREPARE AS-BUILTS FOR THIS BUILDING PHASE.
9. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
10. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
11. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
12. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS A REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 4 (BUILDING 5 & 6)

1. CONSTRUCT BUILDING 5 AND 6 BUILDING IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (SM') WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
5. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
6. INSTALL TEMPORARY DUMPSTER.
7. SURVEYOR TO PREPARE AS-BUILTS FOR THIS BUILDING PHASE.
8. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
9. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
10. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
11. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 5 (BUILDING 7, 8, MAINTENANCE BLDG. & TRASH COMPACTOR)

1. CONSTRUCT BUILDING 7, 8, MAINTENANCE BUILDING AND TRASH COMPACTOR IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (SM') WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
5. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
6. REMOVE ALL TEMPORARY DUMPSTERS.
7. SURVEYOR TO PREPARE AS-BUILTS FOR THIS PHASE.
8. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
9. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
10. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
11. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 6 (BUILDING 9, 10 & ENTIRE SITE FINAL RE-INSPECTION)

1. CONSTRUCT BUILDING 9, 10 AND WET DETENTION POND IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (SM') WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
5. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
6. SURVEYOR TO PREPARE AS-BUILTS FOR THIS PHASE.
7. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
8. INSTALL FLOATING FOUNTAIN IN WET DETENTION POND.
9. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
10. ENGINEER OF RECORD TO CERTIFY STORMWATER SYSTEM WITH SJRWMD.
11. ENGINEER OF RECORD TO CERTIFY FDEP NOREC NOTICE OF TERMINATION.
12. CITY OF ORMOND BEACH PHASE INSPECTION AND RE-INSPECTION OF ENTIRE SITE WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
13. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

RE: Tymber Creek Apartments – Ormond Beach
School Capacity Review #20-07-27-001-R

School Concurrency Determination
Concurrency Letter

Dear Mr. Newkirk,

The District has reviewed the updated information for the residential project known as Tymber Creek Apartments, associated with 19.62+/- acres of property. The property is located at 2011 W. Granada Boulevard., located within the city limits of Ormond Beach. Information provided within the school concurrency application indicates the development activity will consist of three hundred (300) multifamily units.

The district uses a county wide Student Generation Rate (SGR) of (0.273) per single family and (0.127) per multi-family dwelling unit to calculate projected students[1]. By applying the SGRs to the unit types in Table 1 below, we find the project could generate thirty-four (39) full time students.

Table 1

UNIT TYPE	SGR	UNIT COUNT	STUDENTS GENERATED
Single Family Dwelling Unit	.273	0	0
Multi Family Dwelling Unit	.127	300	38.1
Mobile/ Manufactured Home Dwelling Unit	.047	0	0
	Total		39

The schools impacted by this development are Pathways Elementary, David C. Hinson Middle School, and Mainland High School.

[1] Most recent student generation rates are found in the School Impact Fee Update dated February 19, 2019. Study performed by Tindale Oliver.

Tymbe4r Creek Apartments – Ormond Beach
July 27, 2020

The Concurrency Analysis (Table 2) adjusts for impacts to the Concurrency Service Areas (CSAs) by accounting for current school year enrollments, existing reservations at the impacted schools, and the projected students generated by the applicant. These factors give an associated utilization or Level of Service (LOS) percentage for each CSA.

Concurrency Analysis

Table 2

Schools	Adopted LOS	SY 19/20 Enrollment	Active Reservations	Existing LOS w/ Res	Students Generated by Request	Result LOS
Pathways Elementary	115%	761	0	105%	17	107%
David C. Hinson Middle School	115%	1040	70	104%	10	105%
Halifax CSA (Mainland HS)	120%	7326	248	100%	11	100%
Other					1	

The adopted LOS standard at elementary and middle school is (115%) of permanent student stations, and (120%) for high school CSAs. This projected increase in students **will not** exceed the adopted LOS at the any school level; therefore, the school district does not have an objection to the proposed site plan. Minimum planning considerations should include pedestrian and vehicular access, safety, connectivity, and buffering

Please note that the School Board has the right to adjust the attendance boundaries to balance the student enrollment populations at these area schools. Therefore, students generated from this project may not attend the current assigned schools.

If you should have additional questions or require more information, please feel free to contact me at extension 50709.
Sincerely,

Stephanie B. Doster

SURVEYORS NOTES

1. NOTICE: THERE MAY BE ADDITIONAL RESTRICTIONS AND/OR OTHER MATTERS THAT ARE NOT SHOWN ON THIS PLAT OF SURVEY THAT MAY BE FOUND IN THE PUBLIC RECORDS OF THIS COUNTY. THIS SURVEY PREPARED WITHOUT BENEFIT OF ABSTRACT.

2. DIMENSIONS ARE SHOWN IN FEET AND DECIMALS THEREOF.

3. BEARING STRUCTURE BASED ON STATE PLANE GRID, NAD 83, FL EAST ZONE WITH THE BEARING OF THE SOUTH LINE OF THE NORTHWEST 1/4 OF THE SOUTHWEST 1/4 OF SECTION 25, TOWNSHIP 14 SOUTH, RANGE 31 EAST BEING S88°04'42"W.

4. ELEVATIONS REFER FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION BENCHMARK MONUMENT D-477 1999, ELEVATION=19.92 FEET, NAVD 1988 DATUM.

5. THIS PROPERTY IS LOCATED IN F.I.R.M. ZONE "X" AND "AE" (B.F.E. = 11'), THIS LOCATION IS DETERMINED BY SCALING FROM F.I.R.M. COMMUNITY PANEL 12127C0194J, MAP EFFECTIVE DATE FEBRUARY 19, 2014, APPROXIMATE SCALE 1"=500 FEET.

6. "NOT VALID WITHOUT THE SIGNATURE AND THE ORIGINAL RAISED SEAL OR AN ELECTRONIC SIGNATURE OF A FLORIDA LICENSED SURVEYOR AND MAPPER."

7. UNDERGROUND FOUNDATIONS, IF ANY, NOT LOCATED.

8. DESCRIPTION PREPARED BY SLIGER & ASSOCIATES, INC..

DESCRIPTION OF SURVEYED PROPERTY: (BY SLIGER & ASSOCIATES, INC., JOB NO. 20-0211)

A PORTION OF THE SOUTHWEST 1/4 OF SECTION 25, TOWNSHIP 14 SOUTH, RANGE 31 EAST, VOLUSIA COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEGIN AT THE INTERSECTION OF THE SOUTH LINE OF THE NORTHWEST 1/4 OF THE SOUTHWEST 1/4 OF SAID SECTION 25 WITH THE WESTERLY RIGHT OF WAY LINE OF N. TYMBER CREEK ROAD AS NOW LAID OUT AND IN USE; THENCE RUN ALONG SAID WESTERLY RIGHT OF WAY LINE S00°34'36"E, 251.98 FEET; THENCE DEPARTING SAID WESTERLY RIGHT OF WAY LINE, S89°41'08"W, 294.01 FEET; THENCE S01°55'12"E, 288.06 FEET; THENCE S89°24'30"W, 21.05 FEET TO THE BEGINNING OF A CURVE, CONCAVE NORTHEASTERLY, HAVING A RADIUS OF 114.00 FEET AND CENTRAL ANGLE OF 56°32'40"; THENCE IN A NORTHWESTERLY DIRECTION ALONG THE ARC OF SAID CURVE, 112.50 FEET; THENCE S89°24'30"W, 196.16 FEET; THENCE S73°06'38"W, 181.26 FEET TO THE BEGINNING OF A CURVE, CONCAVE NORTHERLY, HAVING A RADIUS OF 2396.93 FEET AND CENTRAL ANGLE OF 11°08'38"; THENCE IN A SOUTHWESTERLY DIRECTION ALONG THE ARC OF SAID CURVE, 466.20 FEET TO THE WEST LINE OF SAID SECTION 25; THENCE N00°43'37"W ALONG SAID WEST LINE, 930.26 FEET TO THE SOUTH LINE OF THE NORTH 3/4 OF THE NORTHWEST 1/4 OF THE SOUTHWEST 1/4 OF SAID SECTION 25; THENCE N88°04'47"E ALONG SAID SOUTH LINE, 1251.97 FEET TO THE WESTERLY RIGHT OF WAY LINE OF SAID N. TYMBER CREEK ROAD AND THE BEGINNING OF A NON TANGENT CURVE, CONCAVE EASTERLY, HAVING A RADIUS OF 2143.48 FEET, A CENTRAL ANGLE OF 01°49'56" AND A CHORD BEARING S05°22'45"W; THENCE SOUTHERLY ALONG SAID RIGHT OF WAY LINE AND THE ARC OF SAID CURVE, 68.55 FEET TO A POINT ON THE BOUNDARY OF THAT PROPERTY DESCRIBED AS PARCEL NUMBER: 103-POND 1, IN OFFICIAL RECORDS BOOK 6966, PAGE 0009, OF THE PUBLIC RECORDS OF VOLUSIA COUNTY, FLORIDA; THENCE ALONG SAID BOUNDARY THE FOLLOWING EIGHT (8) CALLS: S88°04'48"W, 402.56 FEET; THENCE N01°55'12"W, 35.00 FEET; THENCE S88°04'48"W, 20.00 FEET; THENCE S01°55'12"E, 35.00 FEET; THENCE S88°04'48"W, 155.00 FEET; THENCE S01°55'12"E, 225.00 FEET; THENCE N88°04'48"E, 512.51 FEET; THENCE N73°33'09"E, 53.79 FEET TO THE WESTERLY RIGHT OF WAY LINE OF SAID N. TYMBER CREEK ROAD; THENCE ALONG SAID WESTERLY RIGHT OF WAY LINE, S00°34'36"E, 49.53 FEET TO THE POINT OF BEGINNING.

CONTAINING 1854,635 SQ. FT. OR 19.62 ACRES, MORE OR LESS.

NOTE ALL 4 SHEETS MUST BE INCLUDED FOR THE SURVEY TO BE COMPLETE

UTILITY STATEMENT:

THE INACCESSIBLE UNDERGROUND UTILITIES SHOWN ON THIS SURVEY HAVE BEEN LOCATED FROM ABOVE GROUND FIELD UTILITY LOCATIONS PROVIDED BY SUNSHINE NETWORK, TICKET #_____ ON OR ABOUT 8-30-99 AND/OR EXISTING AS-BUILTS DRAWINGS PROVIDED BY THE CLIENT. SLIGER AND ASSOCIATES, INC. (S&A) MAKES NO GUARANTEES THAT THE UNDERGROUND UTILITIES SHOWN COMPRISE ALL SUCH UTILITIES IN THE AREA, EITHER IN-SERVICE OR ABANDONED. LIKEWISE S&A DOES NOT WARRANT THAT THE UNDERGROUND UTILITIES SHOWN ARE IN THE EXACT LOCATION INDICATED. ONLY THAT S&A HAS LOCATED THE UTILITIES AS ACCURATELY AS POSSIBLE FROM SAID FIELD LOCATIONS AND/OR AS-BUILTS PROVIDED BY OTHERS. S&A HAS NOT PHYSICALLY LOCATED THE ACTUAL INACCESSIBLE UNDERGROUND UTILITIES, EXCEPT AS SPECIFICALLY NOTED AND DEPICTED ON THIS DRAWING.

TYMBER CREEK APARTMENTS
ORMOND BEACH, FLORIDA
FOR: TELLUS PARTNERS
SHEET NO. 4 OF 4

GENERAL CONSTRUCTION NOTES

1. GOVERNING SPECIFICATIONS: CITY OF ORMOND BEACH LAND DEVELOPMENT CODE, CITY OF ORMOND BEACH STANDARD CONSTRUCTION DETAILS AND SPECIFICATIONS, CURRENT EDITION. CITY OF ORMOND BEACH STANDARD CONSTRUCTION DETAILS AND SPECIFICATIONS, CURRENT EDITION.
2. ALL CONSTRUCTION WITHIN THE FOOT RIGHT-OF-WAY SHALL CONFORM TO THE 2021 / 2022 EDITION OF THE FDOT DESIGN STANDARD INDEXES, THE 2017 EDITION OF THE FOOT STANDARD SPECIFICATION FOR ROAD AND BRIDGE CONSTRUCTION AND THE 2010 EDITION OF THE FDOT UTILITY ACCOMMODATIONS MANUAL.
3. ALL UTILITY MATERIAL, CONSTRUCTION AND TESTING COVERED BY THESE DRAWINGS SHALL COMPLY WITH THE CITY OF ORMOND BEACH STANDARD CONSTRUCTION DETAILS AND SPECIFICATIONS, LATEST EDITION. ALL UTILITY WORK AND CONNECTIONS SHALL BE COORDINATED WITH THE CITY OF ORMOND BEACH INSPECTORS.
4. CONSTRUCTION SHALL BE IN ACCORDANCE WITH ALL REQUIRED PERMITS. THE CONTRACTOR SHALL MAINTAIN COPIES OF ALL PERMITS AVAILABLE ON THE JOB SITE AT ALL TIMES.
5. THE CONTRACTOR SHALL MAINTAIN AT THE JOB SITE A RECORD COPY OF ALL CONSTRUCTION DRAWINGS AND SPECIFICATIONS ON WHICH ALL FIELD CHANGES ARE TO BE SHOWN. ALL CHANGES TO PLANS SHALL BE INCORPORATED IN THE "AS-BUILT" RECORD DRAWINGS SURVEY PROVIDED BY CONTRACTOR FOR REVIEW AND APPROVAL FROM ENGINEER OF RECORD.
6. THE CITY OF ORMOND BEACH WILL OWN AND MAINTAIN ALL WATER, SEWER AND RECLAIM MAINS LOCATED WITHIN THE RIGHT-OF-WAY.
7. THE CONTRACTOR SHALL PAY FOR AND OBTAIN A SITE ENGINEERING BUILDING PERMIT. THE ENGINEER WILL SCHEDULE THE PRE-CONSTRUCTION CONFERENCE BEFORE THE CONTRACTOR'S START OF WORK. THE CONTRACTOR SHALL CONTACT THE BUILDING DEPARTMENT AT (386) 673-3238 FOR INFORMATION ON ISSUANCE OF CITY PERMITS AND / OR OTHER REQUIREMENTS.
8. SEPARATE BUILDING PERMIT APPLICATIONS ARE REQUIRED FOR: NEW BUILDINGS, CLUBHOUSE, TRASH COMPACTOR, RETAINING WALL, FENCE, SWIMMING POOL, GAZEBO, PLAYGROUND, LIGHT POLES AND SIGNS. CONTACT THE ORMOND BEACH BUILDING DEPARTMENT AT (386) 673-3238.
9. ALL WATER SERVICE CONSTRUCTION SHALL BE IN ACCORDANCE WITH "CITY OF ORMOND BEACH UTILITY SPECIFICATIONS AND STANDARD UTILITY DETAILS, CURRENT EDITION.
10. ALL SANITARY SEWER CONSTRUCTION SHALL BE IN ACCORDANCE WITH "DESIGN AND CONSTRUCTION STANDARDS", CITY OF ORMOND BEACH UTILITIES DEPARTMENT, CURRENT EDITION.
11. ALL RECLAIMED WATER CONSTRUCTION SHALL BE IN ACCORDANCE WITH "DESIGN AND CONSTRUCTION STANDARDS", CITY OF ORMOND BEACH UTILITIES DEPARTMENT, CURRENT EDITION.
12. ALL ROADWAY SIGNAGE AND MARKINGS SHALL BE IN CONFORMANCE WITH THE MANUAL OF UNIFORM TRAFFIC CONTROL DEVICES, CURRENT EDITION.
13. THE CONTRACTOR SHALL CONTACT ALL CONCERNED UTILITIES AT LEAST FORTY-EIGHT (48) HOURS IN ADVANCE OF CONSTRUCTION OPERATIONS.
14. LAND CLEARING OF THE PROJECT IS NOT ALLOWED UNTIL THE CITY ENGINEER AND/OR PLANNING DEPARTMENT ISSUES A LAND CLEARING PERMIT.
15. SHOP DRAWINGS AND CERTIFICATIONS FOR ALL MATERIALS AND STRUCTURES ARE REQUIRED. THE CONTRACTOR SHALL REVIEW AND SIGN ALL SHOP DRAWINGS. THE CONTRACTOR TO SUBMIT REVIEWED SHOP DRAWINGS TO THE ENGINEER FOR APPROVAL PRIOR TO ORDERING THE MATERIALS REQUIRED FOR CONSTRUCTION.
16. THE LOCATION OF EXISTING UTILITIES HAS BEEN OBTAINED FROM THE MOST RELIABLE INFORMATION AVAILABLE TO THE ENGINEER. THIS INFORMATION IS NOT GUARANTEED AND IT SHALL BE EACH CONTRACTOR'S RESPONSIBILITY TO DETERMINE THE EXACT NATURE OF ALL UTILITIES PRIOR TO COMMENCEMENT OF CONSTRUCTION AND TO NOTIFY NEWKIRK ENGINEERING, INC. AS TO DISCREPANCIES, IF ANY EXIST.
17. ALL SURVEY AND TOPOGRAPHICAL INFORMATION BASED ON SURVEY INFORMATION PROVIDED BY A1A SURVEYING INC.; CONTRACTOR TO COORDINATE WITH SURVEYOR FOR ALL CONSTRUCTION BENCHMARK INFORMATION.
18. ALL SURVEY AND TOPOGRAPHICAL INFORMATION IS BASED ON THE NAVD 1988 DATUM. ALL PROPOSED CONSTRUCTION ELEVATIONS ARE BASED ON THE NAVD 1988 DATUM. ALL PROPOSED ELEVATIONS REFER TO FINISH GRADES.
19. THESE DRAWINGS AND THE PROJECT MANUAL ARE COMPLEMENTARY, AND ANY REQUIREMENT OF ONE SHALL BE A REQUIREMENT OF THE OTHER. IT IS THE CONTRACTOR'S RESPONSIBILITY TO CAREFULLY EXAMINE THE DRAWINGS AND SPECIFICATIONS AND TO COMPARE THE REQUIREMENTS OF EACH DIVISION AND ENSURE THAT EACH TRADE OR SUBCONTRACTOR IS MAKING THE ALLOWANCES NECESSARY TO PROVIDE THE OWNER A COMPLETE FACILITY, OPERATIONAL IN ALL RESPECTS, UNLESS OTHERWISE SPECIFICALLY STATED IN THE DRAWINGS.
20. THE ENGINEER ASSUMES NO RESPONSIBILITY FOR INSTRUCTING THE CONTRACTOR IN THE METHODS OF CONSTRUCTION. IT IS THE CONTRACTOR'S RESPONSIBILITY TO DETERMINE THE METHOD TO CONSTRUCT THE IMPROVEMENTS AS SHOWN ON THE PLANS.
21. ANY CHANGES TO THE APPROVED PLANS REQUIRE COMPLETION OF THE CHANGE ORDER PROCESS.
22. LITTER CONTROL MEASURES TO PREVENT WIND-DRIVEN DEBRIS SHALL BE IMPLEMENTED THROUGHOUT THE DURATION OF CONSTRUCTION. ALL DEBRIS SHALL BE REMOVED AND THE PROJECT SITE CLEANED WITHIN 30 DAYS OF COMPLETION OF CONSTRUCTION.
23. AT NO TIME SHALL EXCAVATIONS BE LEFT UNCOVERED AFTER WORKING HOURS. CONTRACTOR SHALL SECURE THE WORK AREA AT THE END OF EACH DAY'S WORK.
24. AT ALL TIMES, THE CONTRACTOR SHALL TAKE PRECAUTIONS TO PROTECT UNDERGROUND UTILITIES, STRUCTURES AND OTHER ASSOCIATED FACILITIES FROM DAMAGE DURING CONSTRUCTION. IT IS THE CONTRACTOR'S RESPONSIBILITY TO DETERMINE THE MEASURES OF PROTECTION. ANY DAMAGED FACILITIES SHALL BE REPAIRED OR REPLACED AS DIRECTED BY THE CITY OR ENGINEER AT THE CONTRACTORS EXPENSE.
25. THERE SHALL BE NO DEVIATIONS FROM THESE PLANS UNLESS APPROVED IN WRITING BY THE ENGINEER AND THE OWNER.
26. ALL DISTURBED AREAS SHALL BE FULLY SODDED.
27. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROVIDING CERTIFIED MATERIAL TEST RESULTS TO THE ENGINEER OF THE RECORD PRIOR TO THE RELEASE OF FINAL CERTIFICATION BY THE ENGINEER. TEST RESULTS MUST INCLUDE, BUT MAY NOT BE LIMITED TO, DENSITIES FOR SUBGRADE AND BASE DENSITIES AT UTILITY CROSSINGS, MANHOLES, INLETS, STRUCTURES. TEST SHALL INCLUDE ASPHALT GRADATION REPORTS, CONCRETE CYLINDERS, WATER MAIN TESTING, SANITARY SEWER TESTING, RECLAIM MAIN TESTING, ETC.
28. A MINIMUM OF 13'-0" OF VERTICAL CLEARANCE IS TO BE PROVIDED AND MAINTAINED FOR ALL ROADWAYS.
29. ALL ROADWAYS MUST HAVE A MINIMUM 25-FEET INSIDE AND 50-FEET OUTSIDE TURNING RADIUS.
30. WHERE NEW ASPHALT MEETS EXISTING ASPHALT, THE EXISTING ASPHALT SHALL BE SAW CUT TO PROVIDE A STRAIGHT EVEN LINE.
31. PRIOR TO REMOVING CURB OR GUTTER, THE ADJACENT ASPHALT SHALL BE SAW CUT TO PROVIDE A STRAIGHT EVEN LINE.
32. IF ANY MUCK-LINE MATERIAL IS DISCOVERED, IT WILL BE REQUIRED TO BE REMOVED, BACKFILLED WITH APPROPRIATE FILL, COMPACTED, AND TESTED USING AASHTO T-180 MODIFIED PROCTOR METHOD.
33. FILL MATERIAL IS TO BE PLACED IN ONE FOOT LIFTS AND COMPACTED TO THE APPROPRIATE DENSITY (98% FOR PAVED AREAS AND 95% FOR BUILDING PADS AND ALL OTHER AREAS AS PER AASHTO T-180).
34. ROAD CLOSURES ARE SEPARATE FROM THE PERMIT AND REQUIRE PLAN REVIEW AND APPROVAL WITH 7 DAY ADVANCE NOTICE FROM THE OWNER OF THE AFFECTED RIGHT-OF-WAY PRIOR TO ANY ROAD CLOSURES. A MAINTENANCE OF TRAFFIC PLAN IS REQUIRED FOR ALL SITE CONSTRUCTION ZONES.
35. DURING CONSTRUCTION, AN H-20 LOAD RATED ALL WEATHER ACCESSIBLE ROADWAY SHALL BE MAINTAINED AT ALL TIMES FOR FIRE ACCESS AND EMERGENCY SERVICES.
36. ALL REQUIRED FIRE MAINS AND HYDRANTS SHALL BE INSTALLED AND OPERATIONAL PRIOR TO THE START OF VERTICAL BUILDING CONSTRUCTION.
37. NO BURYING OF ANY ORGANIC MATERIAL IS ALLOWED.
38. THERE WILL BE NO PROPOSED OVERHEAD UTILITY AND SERVICE LINES ASSOCIATED WITH THIS PROJECT. ALL UTILITY LINES AND SERVICES WILL BE INSTALLED UNDERGROUND.

EROSION CONTROL AND DEMOLITION CONSTRUCTION NOTES:

1. CONTRACTOR SHALL SCHEDULE A PRE-CONSTRUCTION MEETING AT THE CITY PRIOR TO COMMENCE OF CONSTRUCTION.
2. LAND DISTURBING ACTIVITIES SHALL NOT COMMENCE UNTIL APPROVAL TO DO SO HAS BEEN RECEIVED BY GOVERNING AUTHORITIES. THE GENERAL CONTRACTOR SHALL STRICTLY ADHERE TO THE SWPPP DURING CONSTRUCTION OPERATIONS.
3. NO LAND CLEARING OR GRADING SHALL BEGIN UNTIL ALL EROSION CONTROL DEVICES HAVE BEEN INSTALLED.
4. ALL REASONABLE EFFORT SHALL BE TAKEN DURING CONSTRUCTION TO CONTROL AND PREVENT EROSION AND TRANSPORT OF SEDIMENT MATERIAL TO INLETS, SURFACE DRAINS, WETLAND AND LAKE AREAS. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL RESTORATION EFFORTS THAT MAY BE REQUIRED.
5. THE INSTALLATION OF TEMPORARY EROSION CONTROL BARRIERS SHALL BE COORDINATED WITH THE CONSTRUCTION OF THE PERMANENT EROSION CONTROL FEATURES TO THE EXTENT NECESSARY TO ASSURE ECONOMICAL, EFFECTIVE AND CONTINUOUS CONTROL OF EROSION AND WATER POLLUTION THROUGHOUT THE LIFE OF THE CONSTRUCTION PHASE.
6. THE TYPE OF EROSION CONTROL BARRIERS USED SHALL BE GOVERNED BY THE NATURE OF THE CONSTRUCTION OPERATION AND SOIL TYPE THAT WILL BE EXPOSED. SILTY AND CLAYEY MATERIAL USUALLY REQUIRE SOLID SEDIMENT BARRIERS TO PREVENT TURBID WATER DISCHARGE, WHILE SANDY MATERIAL MAY NEED ONLY SILT SCREENS TO PREVENT EROSION. DIVERSION DITCHES OR SWALES MAY BE REQUIRED TO PREVENT TURBID STORMWATER RUNOFF FROM BEING DISCHARGED TO OTHER WATER BODIES. IT MAY BE NECESSARY TO EMPLOY A COMBINATION OF BARRIERS, DITCHES, AND OTHER EROSIONTURBIDITY CONTROL MEASURES IF CONDITIONS WARRANT.
7. THE CONTRACTOR SHALL PROVIDE ROUTINE MAINTENANCE OF PERMANENT AND TEMPORARY EROSION CONTROL FEATURES UNTIL THE PROJECT IS COMPLETE AND ALL BARED SOIL STABILIZED. SILTATION ACCUMULATIONS GREATER THAN THE LESSER OF 12 INCHES OR ONE-HALF THE DEPTH OF THE SILTATION BARRIER SHALL BE IMMEDIATELY REMOVED AND REPLACED IN UPLAND AREAS.
8. THE CONTRACTOR SHALL SWEEP ALL ADJACENT ROADWAYS AND PARKING AREAS THAT ARE AFFECTED BY THE CONSTRUCTION PROCESS ON A DAILY BASIS OR AS REQUIRED.
9. THE CONTRACTOR IS TO CONTROL ALL FUGITIVE DUST ORIGINATING ON THIS PROJECT BY WATERING OR OTHER METHODS AS REQUIRED.
10. IT IS THE CONTRACTOR'S RESPONSIBILITY TO INSPECT AND MAINTAIN ALL EROSION CONTROL DEVICES AND KEEP THEM IN GOOD CONDITION. ANY IMPACTS DUE TO EROSION OR FAILURE OF ANY EROSION CONTROL DEVICES SHALL BE REPORTED TO THE ENGINEER IMMEDIATELY. CORRECTIVE MEASURES WILL BE THE CONTRACTOR'S RESPONSIBILITY.
11. ANY DISCHARGE OF STORMWATER RUNOFF FROM THIS SITE SHALL BE THROUGH A CONTROL DEVICE TO CONTROL TURBIDITY AND SEDIMENT TRANSPORT. THIS INCLUDES THE DISCHARGE FROM ANY DEWATERING OPERATIONS.
12. THE CONTRACTOR IS RESPONSIBLE FOR FOLLOWING ALL CRITERIA AS SET FORTH UNDER THE NPDES PERMITTING PROGRAM FOR CONSTRUCTION SITES OF THIS SIZE INCLUDING BUT NOT LIMITED TO THE ADHERENCE TO THE APPROVED POLLUTION PREVENTION CONTROL PLAN, TIMELY INSPECTIONS, PROJECT REPORTING AND DOCUMENTATION.
13. NO DEBRIS SHALL BE ALLOWED TO ENTER THE EXISTING STORM OR SANITARY SEWER SYSTEMS.
14. THE CONTRACTOR SHALL BECOME FAMILIAR WITH AND COMPLY WITH ALL REQUIREMENTS OF THE STATE PERMITS FOR THIS PROJECT. THE CONTRACTOR SHALL COMPLY WITH THE STORMWATER POLLUTION PREVENTION PLAN OF BOTH ON-SITE AND OFF-SITE IMPROVEMENTS. A SIGNED COPY OF THE STORMWATER POLLUTION PREVENTION PLAN IS TO BE KEPT ON THE PROJECT PREMISES AT ALL TIMES.
15. NO WORK WITHIN THE CITY RIGHT-OF-WAY, VOLUSIA COUNTY OR FLORIDA DEPARTMENT OF TRANSPORTATION SHALL BE COMMENCED WITHOUT 48 HOURS ADVANCE NOTICE TO THE CITY, COUNTY OR FDOT.
16. THE CONTRACTOR SHALL BE RESPONSIBLE FOR CONTACTING THE CITY OF ORMOND BEACH PUBLIC WORKS / UTILITY DEPARTMENT, "811" AND EMERGENCY SERVICES FOR RESPECTIVE UTILITY LOCATIONS AND "NOTICE" OF CONSTRUCTION ACTIVITY.
17. THE CONTRACTOR SHALL POST "NO TRESPASSING" SIGNAGE AT ALL SITE ENTRANCES PRIOR TO CONSTRUCTION.
18. THE CONTRACTOR SHALL OBTAIN A TREE REMOVAL PERMIT FROM THE LOCAL JURISDICTION PRIOR REMOVING ANY TREES FROM THIS PROJECT.
19. ALL REMOVED MATERIAL SHALL BE HAULED OFF-SITE TO AN APPROVED LANDFILL. TREES MAY BE LOGGED OR MULCHED FOR OFF-SITE DISPOSAL AT THE CONTRACTOR'S DISCRETION.
20. THE CONTRACTOR SHALL NOT ALLOW DEBRIS AND RUBBISH TO ACCUMULATE ONT THE SITE.
21. THE CONTRACTOR SHALL CLEAN UP THE JOB SITE AREAS MISTAKENLY USED BY THE CONTRACTOR FOLLOWING DEMOLITION. THE CONTRACTOR SHALL REMOVE ALL DEBRIS, RUBBISH, TEMPORARY FACILITIES, AND EQUIPMENT. THE CONTRACTOR SHALL LEVEL SURFACE IRREGULARITIES AND LEAVE THE WORK IN A NEAT AND PRESENTABLE CONDITION.
22. CONTRACTOR SHALL ROUGH GRADE STORMWATER SWALES AND RETENTION PONDS PRIOR TO CONSTRUCTION OF SITE IMPROVEMENTS.
23. SITE PREPARATION AND FILL OPERATIONS SHALL BE IN ACCORDANCE WITH THE GEOTECHNICAL REPORT AND RECOMMENDATIONS.
24. EXISTING STORM DRAINAGE TO REMAIN IN OPERATION AT ALL TIMES. CONTRACTOR TO MAINTAIN EXISTING, NEW OR TEMPORARY PIPING.
25. RELOCATION OF UTILITY POLES AND LINES SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR. ALL WORK SHALL BE COORDINATED WITH THE APPROPRIATE UTILITY COMPANY AND SHALL BE INCLUDED AS PART OF THE PROJECT SCOPE AND COST.
26. ALL ASPHALT PAVEMENT REMOVALS SHALL BE VERTICAL SAWCUT. ALL CONCRETE PAVEMENT REMOVALS SHALL BE EITHER AT EXISTING JOINTS OR VERTICAL SAWCUT. ACTIVE SERVICES SHALL BE SEVERED WITH PROPER NOTICE GIVEN TO LOCAL UTILITY COMPANIES HAVING JURISDICTION.
27. THE CONTRACTOR SHALL PROVIDE THE ENGINEER, CITY A MOT PLAN AT PRECONSTRUCTION MEETING. TRAFFIC SHALL BE ALLOWED TO CONTINUE DURING WORK. PROVIDE MEASURES TO DETOUR TRAFFIC AROUND OPEN EXCAVATION WITH ADEQUATE BARRICADES, SIGNAGE AND FLAGPERSON TO DIRECT TRAFFIC. EMERGENCY SERVICES SHALL BE NOTIFIED 48 HOUR IN ADVANCE.
28. IF ANY DEWATERING IS TO OCCUR DURING ANY PHASE OF CONSTRUCTION THEN DEWATERING ACTIVITY SHALL ADHERE TO CHAPTER 40C-22 FAC MORE SPECIFICALLY AS FOLLOWS. PER 40C-22.030(3) A "NOTICED GENERAL SHORT-TERM DEWATERING PERMIT" IS REQUIRED "ONLY IF" DEWATERING EXCEEDS 4 MILLION GALLONS DER DAY, EXCEPT DURING THE FIRST 120 HOURS OF DEWATERING WHEN THE DAILY AND INSTANTANEOUS PUMPAGE RATES SHALL NOT EXCEED 6 MILLION GALLONS PER DAY. AVERAGE DAILY WITHDRAWAL SHALL NOT EXCEED 2 MILLION GALLONS PER DAY FOR THE FIRST 60 DAYS OF THE DEWATERING ACTIVITY AND SHALL NOT EXCEED ONE MILLION GALLONS PER DAY OF A 180 DAY DURATION. EACH SPECIFIC DEWATERING PROJECT SHALL NOT EXCEED 180 DAYS. THE CONTRACTOR SHALL BE RESPONSIBLE TO ENSURE ANY DEWATERING ACTIVITY IS BELOW THE SPECIFIED THRESHOLD. OTHERWISE A PERMIT WILL BE REQUIRED AT THE EXPENSE OF THE CONTRACTOR. THE CONTRACTOR SHALL FAMILIARIZE ITSELF WITH CHAPTER 40C-22 FAC AND BE SOLELY RESPONSIBLE FOR OBTAINING AND SUBMITTING FORM RDS-50 TO SWIFT A MINIMUM OF 10 DAYS PRIOR TO ANY DEWATERING ACTIVITY. SUBMITTAL OF FORM RDS-50 IS NOT REQUIRED IF DEWATERING IS 300,000 GALLONS PER DAY OR LESS AND WILL NOT EXCEED 30 DAYS IN DURATION.

SWPPP INSPECTIONS AND RECORD KEEPING:

INSPECTIONS ARE REQUIRED AT LEAST EVERY SEVEN (7) CALENDAR DAYS AND WITHIN 24 HOURS FOLLOWING A RAINFALL EVENT OF ONE-HALF (½) OF AN INCH OF RAINFALL OR GREATER AND SHALL CONTINUE UNTIL THE SITE COMPLIES WITH FINAL STABILIZATION (NOTICE OF TERMINATION). INSPECTIONS MUST BE CONDUCTED BY A "QUALIFIED" INSPECTOR. "QUALIFIED" IS DEFINED AS A PERSON THAT A). HAS SUCCESSFULLY COMPLETED AND MET ALL REQUIREMENTS NECESSARY TO BE FULLY CERTIFIED THROUGH THE FDEP STORMWATER, EROSION AND SEDIMENTATION CONTROL INSPECTOR TRAINING PROGRAM; B). HAS SUCCESSFULLY COMPLETED AN EQUIVALENT FORMAL TRAINING PROGRAM, OR C). THAT IS QUALIFIED BY OTHER TRAINING OR PRACTICAL EXPERIENCE IN THE FIELD OF STORMWATER POLLUTION PREVENTION AND EROSION AND SEDIMENTATION CONTROL. EACH INSPECTION MUST BE FOLLOWED UP BY A REPORT DOCUMENTING THE INSPECTOR'S FINDINGS AND REQUIRED THE REQUIRED MAINTENANCE AND/OR REPAIR FOR THE EROSION AND SEDIMENTATION CONTROL MEASURES. THESE RECORDS ARE USED TO PROVE THAT THE REQUIRED INSPECTION AND MAINTENANCE WERE PERFORMED AND SHALL BE PLACED IN THE SWPPP LEGGER. IN ADDITION TO INSPECTION AND MAINTENANCE REPORTS, RECORDS SHOULD BE KEPT OF CONSTRUCTION ACTIVITIES THAT OCCUR ON THE SITE. THE CONTRACTOR SHALL RETAIN COPIES OF THE SWPPP, ALL REPORTS AND DATA FOR A MINIMUM OF FIVE (5) YEARS AFTER THE PROJECT IS COMPLETE IN PAPER AND CD FORMAT.

SITE CLEARING AND GRADING CONSTRUCTION NOTES:

THE FOLLOWING MEASURES REPRESENT MINIMUM STANDARDS TO BE ADHERED TO BY THE CONTRACTOR THROUGHOUT THE CONSTRUCTION OF A PROJECT. THE CITY RESERVES THE RIGHT TO REQUIRE ADDITIONAL MEASURES TO BE EMPLOYED WHEN WARRANTED BY EXTREME CONDITIONS AND/OR THE FAILURE OF THE CONTRACTOR TO EMPLOY THE APPROPRIATE EROSION CONTROL BEST MANAGEMENT PRACTICES. FAILURE TO COMPLY WITH THESE PROVISIONS SHALL RESULT IN THE ISSUANCE OF A "STOP WORK ORDER".

1. HOURS OF OUTSIDE CONSTRUCTION SHALL BE FROM 7 AM TO 7 PM MONDAY TO SATURDAY WITH NO OUTSIDE CONSTRUCTION ALLOWED ON SUNDAY.
2. 6-FEET TALL SCREENED CONSTRUCTION FENCING TO BE INSTALLED ALONG NORTH TYMBER CREEK ROAD PRIOR TO SITE CLEARING.
3. NO DISTURBANCE OF PROPOSED CONSERVATION EASEMENTS, NATURAL BUFFERS, OR WATER BODIES IS PERMITTED. THE CONTRACTOR SHALL LOCATE THESE AREAS ON SITE AND BARRICADE THEM TO AVOID ANY UNAUTHORIZED CLEARING. BARRICADES AND OTHER PROTECTIVE FENCING ARE TO BE LOCATED AT THE DRIP LINE OF EXISTING NATIVE TREES OR AT THE EDGE OF THE NATIVE UNDER- STORY HABITAT, WHICHEVER IS NEAREST TO THE CONSTRUCTION ACTIVITY.
4. SPECIMEN AND HISTORIC TREES, CONSERVATION EASEMENTS, NATURAL VEGETATION BUFFERS, AND SIMILAR AREAS MUST BE PROTECTED BY BARRICADES OR FENCING PRIOR TO CLEARING. BARRICADES ARE TO BE SET AT THE DRIP LINE OF THE TREES AND MAINTAINED THROUGHOUT THE DURATION OF THE PROJECT. BARBED WIRE IS NOT PERMITTED AS A PROTECTIVE BARRIER.
5. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO HAVE ALL PROTECTIVE VEGETATION BARRICADES AND EROSION CONTROL STRUCTURES AND MEASURES IN PLACE PRIOR TO THE COMMENCEMENT OF ANY EARTHWORK, INCLUDING PRELIMINARY GRUBBING. THESE MEASURES INCLUDE, BUT ARE NOT LIMITED TO, TEMPORARY CONSTRUCTION FENCES, SYNTHETIC JUTE BALES, SILT FENCES, FLOATING TURBIDITY BARRIERS AND OTHER APPROVED BEST MANAGEMENT PRACTICES (BMP's). FURTHER, IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO MAINTAIN ALL EROSION CONTROL DEVICES THROUGHOUT THE DURATION OF THE ENTIRE PROJECT. MAINTENANCE SHALL INCLUDE PERIODIC INSPECTION AND REMOVAL OF DEBRIS ABUTTING EROSION CONTROL DEVICES.
6. PRIOR TO THE INSTALLATION OF ANY FILL MATERIALS ON SUBJECT SITE, SILT FENCES SHALL BE INSTALLED (1) ALONG SUBJECT SITE BOUNDARY AND PROPERTY LINES, (2) AT THE EDGE OF CONSERVATION EASEMENTS AND WETLANDS, (3) ADJACENT TO NATURAL LANDSCAPE BUFFERS, (4) AROUND THE PERIMETER OF EXISTING STORM WATER TREATMENT FACILITIES. THESE CONDITIONS SHALL APPLY IN ALL INSTANCES WHERE FILL MATERIAL IS BEING INSTALLED WITHIN 25 FEET OF ANY OF THE AFOREMENTIONED LOCATIONS.
7. WHERE FILL MATERIAL IS INTENDED TO BE INSTALLED ADJACENT TO EXISTING VEGETATION WHICH IS INTENDED TO REMAIN NATURAL. THE CONTRACTOR MAY INSTALL SILT FENCING AS A TREE PROTECTION MEASURE, IN LIEU OF INSTALLING EITHER WOOD BRACING OR ORANGE MESH FENCING. THIS PRACTICE IS ENCOURAGED BY THE CITY. IF THE SILT FENCE FAILS TO PROVIDE ADEQUATE PROTECTION FROM IMPACT DUE TO CONSTRUCTION, THEN ADDITIONAL CONSTRUCTION FENCING OR WOOD BRACING SHALL BE REQUIRED.
8. AT A MINIMUM, THE CONTRACTOR SHALL SEED AND MULCH ALL DISTURBED AREAS. SUFFICIENT GRASS COVERAGE IS TO BE ESTABLISHED WITHIN TWO WEEKS.
9. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR THROUGH SCHEDULING, TO MINIMIZE THE DISTURBANCE OF SITE AREAS THAT HAVE BEEN BROUGHT TO THEIR PROPOSED FINAL GRADE WITHIN SEVEN (7) DAYS OF BRINGING A SUBJECT AREA TO ITS FINAL GRADE OR INACTIVITY IN CONSTRUCTION, THE CONTRACTOR SHALL INSTALL SEED AND MULCH OR SOD, AS REQUIRED.
10. ONCE AN AREA IS SEEDED OR SODDED, IT MUST BE MAINTAINED BY THE CONTRACTOR TO ALLOW THE GRASS TO BECOME ESTABLISHED.IF THE GRASS IS NOT ESTABLISHED WITHIN TWO WEEKS THE CITY MAY REQUIRE THE CONTRACTOR TO RE-SEED OR A NON-VEGETATIVE OPTION MAY BE EMPLOYED.
11. ABSOLUTELY NO BURYING OF CLEARED MATERIALS IS PERMITTED.
12. THE REMOVAL OF ALL VEGETATION AND TOPSOIL ON THE FUTURE ROADWAY, PARKING AND BUILDING LOT AREAS IS REQUIRED TO BE COMPLETED PRIOR TO THE PLACEMENT OF FILL ON THOSE AREAS. THE TOPSOIL MAY BE TEMPORARILY STOCKPILED AND USED AS TOPSOIL OVER OVER PROPOSED GREEN AREAS SUCH AS PLANT BEDS, SODDED AREAS, AND WHERE TREES ARE TO BE INSTALLED OR RELOCATED.
13. A SIGNED, DATED, AND SEALED LETTER FROM A SOILS ENGINEER OR THE ENGINEER OF RECORD CERTIFYING THAT THE AREAS TO BE FILLED HAVE BEEN STRIPPED OF ORGANIC MATERIALS, MUST BE SUBMITTED TO THE CITY PRIOR TO FILLING.
14. FILL MATERIAL IS TO BE PLACED IN ONE FOOT LIFTS AND COMPACTED TO THE APPROPRIATE DENSITY 98% FOR PAVED AREAS AND 95% FOR BUILDING PADS AND ALL OTHER AREAS AS PER AASHTO T-180).
15. IF ANY MUCK MATERIAL IS DISCOVERED, IT SHALL BE REQUIRED TO BE REMOVED AND REPLACED WITH A SUITABLE MATERIAL THAT IS PROPERLY BACKFILLED, COMPACTED AND TESTED USING AASHTO T-180 MODIFIED PROCTOR METHOD.
16. STOCKPILING IS NOT GENERALLY PERMITTED BY THE CITY. WHEN ALLOWED, STOCKPILES SHALL NOT EXCEED SIX FEET IN HEIGHT MEASURED FROM THE ORIGINAL GRADE. AT A MINIMUM, STOCK PILES THAT WILL REMAIN IN PLACE IN EXCESS OF TWENTY DAYS SHOULD BE SEEDED AND MULCHED IMMEDIATELY UPON PLACEMENT OF THE FINAL LIFT.
17. SOILS ARE TO BE STABILIZED BY WATER OR OTHER MEANS DURING CONSTRUCTION. THIS IS INTENDED TO REDUCE SOIL EROSION AND THE IMPACT TO NEIGHBORING COMMUNITIES. ADEQUATE WATERING METHODS SHOULD BE EMPLOYED TO ALLOW DAILY COVERAGE OF THE ENTIRE LIMITS OF ALL AREAS THAT DO NOT HAVE AN ESTABLISHED VEGETATIVE COVER. METHODS TO BE EMPLOYED INCLUDE, BUT ARE NOT LIMITED TO, WATER TRUCKS, PERMANENT IRRIGATION SYSTEMS, TEMPORARY SPRINKLER SYSTEMS OPERATED BY PUMPING UNITS CONNECTED TO WET RETENTION PONDS, WATER CANNONS, TEMPORARY IRRIGATION SYSTEMS MOUNTED ATOP STOCKPILE AREAS, AND OTHER METHODS AS DEEMED NECESSARY BY THE CITY.
18. ALL FILL MATERIALS LOCATED BENEATH STRUCTURES AND PAVEMENT SHALL CONSIST OF CLEAN GRANULAR SAND FREE FROM ORGANICS AND SIMILAR MATERIAL "THAT COULD DECOMPOSE.
19. FILL TO BE PLACED IN LANDSCAPED AREAS SHALL HAVE A Ph RANGE BETWEEN 5.5 AND 7.5, BE ORGANIC IN NATURE, FREE OF ROCKS AND DEBRIS, OR MATCH NATIVE EXISTING SOILS.
20. A 6' TALL CONSTRUCTION FENCING WITH FABRIC SCREEN TO BE INSTALLED ALONG MAJOR ROADWAYS (TYMBER CREEK ROAD). THE CONSTRUCTION FENCING NEEDS TO BE INSTALLED PRIOR TO SITE CLEARING.

TEMPORARY SEEDING SPECIFICATION:

GENERAL
SEEDING CAN BE USED FOR TEMPORARY STABILIZATION. DISTURBED AREAS OF THE SITE WHERE CONSTRUCTION ACTIVITY HAS CEASED FOR MORE THAN 7 DAYS SHALL BE TEMPORARILY SEEDED AND WATERED. AREAS WHERE FINAL GRADING HAS BEEN COMPLETED FOR MORE THAN 7 DAYS SHALL BE TEMPORARILY SEEDED. TEMPORARY SEED MIXTURE IS SPECIFIED BELOW.
SEEDING MIXTURES
SEED MIXTURE SHALL BE BERMUDA COMMON 90 LB PURE LIVE SEED PER ACRE, FIBER 2000 LB PER ACRE, STABILIZER 120 LB PER ACRE AND FERTILIZER 300 LB PER ACRE.
ALL SLOPES AND FLAT GRADE
APPLY 6-20-20 COMMERCIAL ORGANIC FERTILIZER AT A RATE OF 300 LB PER ACRE AND SEED IN ACCORDANCE WITH THE FOLLOWING SCHEDULE:
TEMPORARY SEEDING

PLANTING DATES	SEED VARIETY	APPLICATION RATE
MARCH 15 -	PENSACOLA BAHIA (SCARIFIED)	90
OCTOBER 15	BERMUDA COMMON (50% HULLED)	25
OCTOBER 16 -	PENSACOLA BAHIA (SCARIFIED)	100
MARCH 14	BERMUDA COMMON (50% HULLED)	35
	ANNUAL RYE GRASS	10
	RYE GRAIN	30

MULCH SEEDED AREA WITH 2 TONS PER ACRE CLEAN GRAIN STRAW. ANCHOR STRAW WITH HYDRAULIC WOOD FIBER MULCH AT THE RATE OF 1000 LB PER ACRE, OR 150-200 POUNDS OF ORGANIC MULCH TACKIFIER PER ACRE, OR USE NETTING.
HYDRO FIBER MULCH MIXTURE SHALL BE PERFORMED IN A TANK WITH A CONTINUOUS AGITATION AND RECIRCULATION SYSTEM WITH SUFFICIENT OPERATING CAPACITY TO PRODUCE A HOMOGENOUS SLURRY AND DISCHARGE SYSTEM WHICH WILL APPLY THE SLURRY AT A CONTINUOUS AND UNIFORM RATE. MIXTURE SHALL CONTAIN A GREEN FUGITIVE DYE AS AN APPLICATION INDICATOR.

FDOT GENERAL NOTES:

1. MAINTENANCE OF TRAFFIC TO BE SUPERVISED BY A CERTIFIED PERSON (ON SITE).
2. THE CONTRACTOR SHALL NOTIFY THE DEPARTMENT A MINIMUM OF 48 HOURS PRIOR TO BEGINNING ANY WORK WITH IN THE FDOT R/W.
3. ALL WORK PERFORMED WITH IN THE FDOT R/W SHALL BE IN ACCORDANCE WITH THE 2019 EDITION OF THE FDOT DESIGN STANDARDS & SPECIFICATIONS FOR ROAD & BRIDGE CONSTRUCTION, 2017 EDITION OF THE FDOT UTILITY ACCOMMODATION MANUAL AND FOOT STANDARD PLANS FY 2019-20.
4. IT IS THE RESP

VOLUSIA COUNTY IRRIGATION NOTES:

1. AUTOMATIC IRRIGATION CONTROLLERS, WHEN UTILIZED, SHALL CONTAIN A FUNCTIONAL RAIN SENSOR DEVICE, CAPABLE OF BEING SET TO ONE MINUTE RUN TIMES, AND BATTERY BACKUP CAPABILITY TO RETAIN PROGRAMMING IN THE EVENT OF A POWER FAILURE.
2. A RAIN SENSOR PLACED ON A STATIONARY STRUCTURE, FREE AND CLEAR OF ANY OVERHEAD OBSTRUCTIONS AND ABOVE THE HEIGHT OF THE SPRINKLER COVERAGE.
3. EQUIPMENT WITH CHECK VALVES USED IN LOW-LYING AREAS TO PREVENT LOW HEAD DRAINAGE.
4. BACKFLOW PREVENTION METHODS AND OTHER PROVISIONS PRESCRIBED IN SECTION 74-42.
5. IRRIGATION DESIGN WITH THE APPROPRIATE UNIFORMITY FOR THE TYPE OF PLANT BEING GROWN AND FOR THE TYPE OF SOIL.
6. IRRIGATION SYSTEM EQUIPMENT INSTALLED AS DESIGNED.
7. IRRIGATION ZONES DIVIDED ACCORDING TO: AVAILABLE FLOW RATE, VEGETATED GROUPINGS (I.E., TURF, SHRUBS, NATIVE PLANTS, ETC.), SPRINKLER TYPES (I.E., SPRINKLERS WITH MATCHING PRECIPITATION RATES) AND SOIL CHARACTERISTICS.
8. SPRAY HEADS AND ROTORS NOT MIXED IN SAME ZONE.
9. DISTRIBUTION EQUIPMENT IN A GIVEN ZONE HAVING MATCHED PRECIPITATION RATES.
10. APPLICATION RATES THAT AVOID RUNOFF AND PERMIT UNIFORM WATER INFILTRATION INTO THE SOIL, CONSIDERING LAND SLOPE, SOIL HYDRAULIC PROPERTIES, VEGETATIVE GROUND COVER AND PREVAILING WINDS.
11. A MINIMUM SEPARATION OF FOUR INCHES BETWEEN DISTRIBUTION EQUIPMENT AND PAVEMENT.
12. A MINIMUM SEPARATION OF 12 INCHES BETWEEN DISTRIBUTION EQUIPMENT AND BUILDINGS AND OTHER VERTICAL STRUCTURES.
13. NO DIRECT SPRAY ONTO WALKWAYS, BUILDINGS, ROADWAYS AND DRIVES.
14. LAWN SPRAY PATTERNS PROVIDING HEAD TO HEAD COVERAGE.
15. WATER CONVEYANCE SYSTEMS WITH A FLOW VELOCITY OF FIVE FEET PER SECOND OR LESS.
16. PIPELINES DESIGNED TO PROVIDE THE SYSTEM WITH THE APPROPRIATE PRESSURE REQUIRED FOR MAXIMUM IRRIGATION UNIFORMITY.
17. PRESSURE REGULATING HEADS.
18. A MAINTENANCE CHECKLIST PROVIDED TO THE PROPERTY OWNER BY THE IRRIGATION CONTRACTOR ACCOMPANIED BY A RECOMMENDED MAINTENANCE SCHEDULE, PROPER IRRIGATION SYSTEM SETTINGS ACCORDING TO SEASON, RECOMMENDATIONS FOR CHECKING RAIN SENSOR DEVICE, FILTER CLEANING RECOMMENDATIONS AND INFORMATION ON THE CURRENT WATER RESTRICTIONS.
19. IRRIGATION SYSTEM DESIGN WILL BE PERMITTED THROUGH VOLUSIA COUNTY.

VOLUSIA COUNTY LANDSCAPE REQUIREMENTS:

1. A HIGH VOLUME IRRIGATION AREA SHALL NOT EXCEED 50 PERCENT OF THE LANDSCAPED AREA. LOW OR MEDIUM VOLUME IRRIGATION AREAS MAY BE UTILIZED IN LIEU OF ANY HIGH VOLUME IRRIGATION AREA.
2. A MEDIUM VOLUME IRRIGATION AREA SHALL NOT EXCEED 25 PERCENT OF THE LANDSCAPED AREA. HOWEVER, THE LANDSCAPED AREA MAY CONTAIN UP TO 75 PERCENT MEDIUM VOLUME IRRIGATION AREA, IF NO HIGH VOLUME IRRIGATION AREA IS UTILIZED ON SITE.
3. A LOW VOLUME IRRIGATION AREA MAY BE UTILIZED FOR AN ENTIRE LANDSCAPED AREA WITH THE EXCEPTION OF NATIVE VEGETATION AREAS REGULATED BY SECTION 50-373(b)(4).
4. IN THE ALTERNATIVE TO (1), (2), AND (3) ABOVE, IF 25 PERCENT OF THE PRE-EXISTING NATIVE VEGETATION IS RETAINED ON SITE, THE REMAINING 75 PERCENT OF THE LANDSCAPED AREA MAY BE A HIGH VOLUME IRRIGATION AREA. FOR ALL PRE-EXISTING NATIVE VEGETATION RETAINED ON A PARCEL:
   - NO SUPPLEMENTAL WATER SHALL BE APPLIED TO THE NATIVE VEGETATION AREA.
   - ONLY HAND PRUNING OF NATIVE VEGETATION IS ALLOWED.
   - MECHANICAL MOWING OR CLEARING IS PROHIBITED.

VOLUSIA COUNTY CONTRACTOR LICENSE REQUIREMENTS:

NO PERSON MAY INSTALL OR REPAIR AN IRRIGATION SYSTEM IN VOLUSIA COUNTY UNLESS THEY POSSESS A VALID IRRIGATION CERTIFICATE OF COMPETENCY FROM THE DEPARTMENT. THE FOLLOWING PERSONS ARE EXEMPTED FROM HAVING TO POSSESS A CERTIFICATE OF COMPETENCY:

- LICENSED FLORIDA WATER WELL CONTRACTORS AND FLORIDA STATE CERTIFIED PLUMING CONTRACTORS.
- FLORIDA STATE REGISTERED PLUMBING CONTRACTORS.
- PROPERTY OWNERS WHO PERSONALLY PERFORM CONSTRUCTION, MAINTENANCE OR REPAIRS ON AN IRRIGATION SYSTEM THAT SERVES HIS OR HER OWNER-OCCUPIED SINGLE FAMILY RESIDENCE.

SITE AND GENERAL INFORMATION

1. THE PROPERTY AREA BOUNDARY CONSISTS OF 854,635 SF OR 19.620 ACRES. FOR BOUNDARY AND TOPOGRAPHIC SURVEY REFER TO THE SURVEY PERFORMED BY SLIGER AND ASSOCIATES (SEE SHEET No. 2.1, 2.2, 2.3 & 2.4 OF THESE PLANS).
2. THE EXISTING ZONING IS B-8 (COMMERCIAL) AND A-2 (RURAL AGRICULTURE). THE PROPOSED ZONING IS PBD (PLANNED BUSINESS DEVELOPMENT).
3. THE FLUM IS (1) OPEN SPACE / CONSERVATION, (2) RESIDENTIAL, OFFICE RETAIL AND (3) GENERAL COMMERCIAL.
4. THE TAX PARCEL NUMBERS ARE 412500000221 AND 412500000230.
6. THE EXISTING SITE CONDITION IS UNDEVELOPED. THE FLUCFCS LAND USE IS (191) UNDEVELOPED LAND WITHIN URBAN AREAS.
7. PER THE USDA NATURAL RESOURCES CONSERVATION SERVICE FOR VOLUSIA COUNTY, THE SCS SOILS MAP INDICATES THE SITE CONSISTS OF (1) APOPKA FINE SAND, 0 TO 5 PERCENT SLOPES, (19) DELAND FINE SAND, 0 TO 5 PERCENT SLOPES, (22) ELECTRA FINE SAND, 0 TO 5 PERCENT SLOPES, (23) FARMTON FINE SAND AND (51) POMONA-ST. JOHNS COMPLEX.
8. THE SITE IS LOCATED WITHIN ZONE "X" & "AE" PER FEMA MAP PANEL No. 12127C0194 J, DATED FEBRUARY 19, 2014.
9. ELECTRICAL UTILITY SERVICE WILL BE PROVIDED BY FLORIDA POWER & LIGHT. NATURAL GAS WILL BE PROVIDED BY TECO PEOPLES GAS COMPANY. TELEPHONE, CABLE AND INTERNET SERVICE WILL BE PROVIDED BY AT&T. CABLE TV AND INTERNET CAN ALSO BE PROVIDED BY SPECTRUM.
10. SOLID WASTE WILL BE COLLECTED AND DISPOSED OF BY WASTE PRO, INC.
11. THE SITE IS NOT LOCATED WITHIN THE LIMITS OF A WELLHEAD PROTECTION ZONE AND THERE IS NO ORDINARY HIGH WATER (OHW) LINE WITHIN THE SITE.
12. STORMWATER WILL BE PROVIDED BY INTERCONNECTED EXFILTRATION AND DRY RETENTION PRE-TREATMENT TO WET DETENTION POND SYSTEM.
13. POTABLE WATER AND WASTEWATER UTILITIES PROVIDED BY CITY OF ORMOND BEACH.
14. IRRIGATION SERVICE WILL BE PROVIDED BY PRIVATE WELL.
15. ACCESS WILL BE PROVIDED FROM S.R. 40 (GRANADA BOULEVARD) WITH A RIGHT-IN AND RIGHT-OUT DRIVEWAY. EMERGENCY ACCESS WILL BE PROVIDED BY CONNECTION TO WALGREENS.

SITE DEVELOPMENT USAGE

1. SETBACK:

	BUILDING	LANDSCAPE
FRONT (TYMBER CREEK)	25 FEET	20 FEET
REAR (NORTH)	20 FEET	20 FEET
SIDE (WEST)	10 FEET	20 FEET
SIDE (INTERIOR)	10 FEET	6 FEET
SIDE (CORNER)	20 FEET	6 FEET
MAXIMUM BUILDING HEIGHT		45 FEET

* SECTION 2-36(d) STATES, "HEIGHT LIMITS MAY EXCEED THAT ALLOWED BY DISTRICT REGULATIONS BY A MAXIMUM FIFTEEN FEET (15'), PROVIDED THAT THE STRUCTURE IS LOCATED AS TO NOT HAVE AN ADVERSE IMPACT ON ADJOINING PROPERTIES, PARTICULARLY SINGLE-FAMILY HOMES. THIS ADDITIONAL HEIGHT ALLOWANCE WILL NOT BE AWARDED FOR ANY PORTION OF A STRUCTURE LOCATED WITHIN FIFTY FEET (50') OF A SINGLE FAMILY HOME OR FOR A VACANT SITE IN A ZONING DISTRICT DESIGNED PRIMARILY FOR SUCH USE. IN NO CASE SHALL ANY BUILDING HEIGHT EXCEED SEVENTY-FIVE FEET (75') WHEN MEASURED FROM THE AVERAGE MEDIAN LOT ELEVATION TO THE HIGHEST POINT OF ANY STRUCTURE AND/OR ATTACHED SERVICES."

MAXIMUM BUILDING COVERAGE	35%
MAXIMUM IMPERVIOUS LOT COVERAGE	75%

THE B-8 ZONING DISTRICT ALLOWS 10 UNITS PER ACRE. THE LAND USE CATEGORIES ALLOW:
(1) "OPEN SPACE/CONSERVATION" (3.2 ACRES) - 0 UNITS
(2) "RESIDENTIAL, OFFICE RETAIL" (3.2 ACRES) - 48 UNITS
(3) "GENERAL COMMERCIAL" (13.22 ACRES) - 423 UNITS

THE PROPERTY'S LAND USES ALLOW A TOTAL OF 471 UNITS (300 UNITS PROPOSED).
THE UNITS PER ACRE NEED TO BE BASED UPON 16.42 ACRES OR
300 UNITS / 16.42 = 18.27 UNITS PER ACRE

NO STRUCTURE SHALL EXCEED 180 LINEAR FEET IN LENGTH PER LDC SECTION 2-57(22)(f).

2. PROPOSED SITE COVERAGE:

	SQ. FT	ACRE	%
BUILDINGS	127,446	2.926	14.9
PAVEMENT	164,109	3.767	19.2
CONCRETE SIDEWALKS / PADS/ POOL DECK	46,260	1.062	5.4
RESERVED PARKING	18,810	0.432	2.2
EXTERIOR LANDSCAPE	67,254	1.544	7.9
INTERIOR LANDSCAPE	312,116	7.165	36.5
WET DETENTION PONDS	32,862	0.754	3.8
WETLANDS	104,588	2.402	12.3
TOTAL SITE	854,635	19.620	100.0
TOTAL IMPERVIOUS	337,815	7.755	39.5
TOTAL PERVIOUS	516,820	11.865	60.5

3. PARKING REQUIREMENTS

UNIT MIX
1.5 SPACES PER 1 BEDROOM x 168 = 252 SPACES
0.5 SPACES RESERVE PER 2 BEDROOM x 120 = 84 SPACES
2.0 SPACES PER 2 BEDROOM x 120 = 240 SPACES
2.0 SPACES PER 3 BEDROOM x 12 = 24 SPACES
TOTAL REQUIRED PARKING = 600 SPACES

4. PARKING PROVIDED

		%
HANDICAP	11	1.9
STANDARD	506	84.3
RESERVE	83	13.8
TOTAL PARKING PROVIDED	600	100.0

5. BICYCLE PARKING REQUIRED

10% OF TOTAL PARKING = 0.10 x 600 = 60
REQUIRED BICYCLE PARKING = 60 SPACES

6. BICYCLE PARKING PROVIDED

71 BICYCLE SPACES PROVIDED

VOLUSIA COUNTY NOTES:

1. NOTIFY VOLUSIA COUNTY DEVELOPMENT ENGINEERING DIVISION AT (386) 736-5926 A MINIMUM OF 24 HOURS PRIOR TO THE START OF CONSTRUCTION. FAILURE OF THE PERMITTEE TO OBTAIN THE APPROPRIATE INSPECTIONS PRIOR TO PROCEEDING WITH WORK SHALL NOT RELIEVE THE PERMITTEE FROM REEXCAVATION OR OTHER MEASURES NECESSARY FOR THE INSPECTION OF WORK.
2. VOLUSIA COUNTY TRAFFIC ENGINEERING (386) 736-5968 IS NOT A MEMBER OF SUNSHINE ONE CALL. WHEN REQUESTING LOCATES, PLEASE PROVIDE A MINIMUM ADVANCED NOTIFICATION OF TWO (2) BUSINESS DAYS PRIOR TO PROPOSED WORK.
3. COORDINATION WITH VOLUSIA COUNTY TRAFFIC OPERATIONS (386) 239-6535 IS REQUIRED WITH A MINIMUM ADVANCED NOTICE OF SEVEN (7) DAYS PRIOR TO ANY SIDEWALK, LANE OR ROAD CLOSURE (INCLUDING FLAGGING OPERATIONS).
4. OPERATIONS WITHIN THE COUNTY RIGHT-OF-WAY SHALL NORMALLY BE CONDUCTED 7:00 AM TO 7:00 PM, MONDAY THROUGH FRIDAY. ANY DEVIATION FROM THESE HOURS REQUIRES PRIOR APPROVAL FROM THE COUNTY DEVELOPMENT ENGINEER. EMERGENCY REPAIRS ARE EXCLUDED FROM THIS TIME RESTRICTION.
5. ALL EXISTING SIDEWALKS WITHIN COUNTY RIGHT-OF-WAY SHALL EITHER REMAIN OPEN OR BE PROVIDED A TEMPORARY WALKWAY IN ACCORDANCE WITH THE CURRENT VERSION OF FLORIDA DEPARTMENT OF TRANSPORTATION STANDARD INDEX NO. 660. ANY DAMAGE TO SIDEWALKS SHALL BE REPAIRED AND/OR REPLACED IN LIKE KIND BY THE CONTRACTOR. NEW SIDEWALKS AND SECTIONS THROUGH DRIVEWAYS MUST BE AT A 1.5% CROSS SLOPE AND 2% MAXIMUM CROSS SLOPE PER ADA STANDARDS.
6. DRIVING OR STAGING OF CONSTRUCTION VEHICLES OR MATERIALS IS NOT PERMITTED WITHIN THE COUNTY RIGHT-OF-WAY OR ON PEDESTRIAN WALKWAYS AND PATHS. THERE SHALL BE NO OVERNIGHT CONSTRUCTION VEHICLE RELATED PARKING, CONSTRUCTION MATERIAL PLACEMENT OR STORAGE OF ANY KIND PERMITTED WITHIN THE COUNTY RIGHT-OF-WAY.
7. NO TRENCH OR EXCAVATION SHALL BE LEFT OPEN OR UNATTENDED OVERNIGHT, UNLESS APPROVED BY THE COUNTY DEVELOPMENT ENGINEERING INSPECTOR. EXCAVATIONS SHALL MEET THE DROP OFF PROTECTION REQUIREMENTS OF THE LATEST FDOT DESIGN STANDARD INDEX NO. 600.
8. RESTORATION SHALL BE REQUIRED FOR ANY DAMAGE TO SIDEWALKS, CURBS, OR OTHER EXISTING STRUCTURES IN THE RIGHT-OF-WAY. ALL DISTURBED AREAS WITHIN THE COUNTY RIGHT OF WAY SHALL BE RE-GRADED AND SODDED. SEED AND MULCH IS NOT AN ACCEPTABLE ALTERNATIVE TO SODDING.

LEGEND:

- PROPOSED SILT FENCE (SEE DETAIL, SHEET No. 14)
- PROPOSED TREE PROTECTION (SEE DETAIL, SHEET No. 14)

SITE DEVELOPMENT USAGE

1. SETBACK:

	BUILDING	LANDSCAPE
FRONT (TYMBER CREEK)	25 FEET	20 FEET
REAR (NORTH)	20 FEET	20 FEET
SIDE (WEST)	10 FEET	20 FEET
SIDE (INTERIOR)	10 FEET	6 FEET
SIDE (CORNER)	20 FEET	6 FEET
MAXIMUM BUILDING HEIGHT		45 FEET

* SECTION 2-36(d) STATES, "HEIGHT LIMITS MAY EXCEED THAT ALLOWED BY DISTRICT REGULATIONS BY A MAXIMUM FIFTEEN FEET (15'), PROVIDED THAT THE STRUCTURE IS LOCATED AS TO NOT HAVE AN ADVERSE IMPACT ON ADJOINING PROPERTIES, PARTICULARLY SINGLE-FAMILY HOMES. THIS ADDITIONAL HEIGHT ALLOWANCE WILL NOT BE AWARDED FOR ANY PORTION OF A STRUCTURE LOCATED WITHIN FIFTY FEET (50') OF A SINGLE FAMILY HOME OR FOR A VACANT SITE IN A ZONING DISTRICT DESIGNED PRIMARILY FOR SUCH USE. IN NO CASE SHALL ANY BUILDING HEIGHT EXCEED SEVENTY-FIVE FEET (75') WHEN MEASURED FROM THE AVERAGE MEDIAN LOT ELEVATION TO THE HIGHEST POINT OF ANY STRUCTURE AND/OR ATTACHED SERVICES."

MAXIMUM BUILDING COVERAGE	35%
MAXIMUM IMPERVIOUS LOT COVERAGE	75%

THE B-8 ZONING DISTRICT ALLOWS 10 UNITS PER ACRE. THE LAND USE CATEGORIES ALLOW:
(1) "OPEN SPACE/CONSERVATION" (3.2 ACRES) - 0 UNITS
(2) "RESIDENTIAL, OFFICE RETAIL" (3.2 ACRES) - 48 UNITS
(3) "GENERAL COMMERCIAL" (13.22 ACRES) - 423 UNITS

THE PROPERTY'S LAND USES ALLOW A TOTAL OF 471 UNITS (300 UNITS PROPOSED).
THE UNITS PER ACRE NEED TO BE BASED UPON 16.42 ACRES OR
300 UNITS / 16.42 = 18.27 UNITS PER ACRE

NO STRUCTURE SHALL EXCEED 180 LINEAR FEET IN LENGTH PER LDC SECTION 2-57(22)(f).

2. PROPOSED SITE COVERAGE:

	SQ. FT	ACRE	%
BUILDINGS	127,446	2.926	14.9

PHASING NOTE:
THE PHASING OF THE PROJECT MAY BE APPROVED BY THE SPRC AS A MINOR MODIFICATION TO THE DEVELOPMENT ORDER. THE SPRC MAY ALLOW CERTIFICATE OF OCCUPANCY FOR INDIVIDUAL BUILDINGS THAT ARE COMPLETED IN TERMS OF BUILDING AND SITE IMPROVEMENTS AND THE REMAINDER OF THE SITE IS PROTECTED FOR CONSTRUCTION ACTIVITIES.

PHASE 1 (SITE INFRASTRUCTURE CONSTRUCTION)

1. INSTALL ALL SITE FENCE, TREE BARRICADES AND CONSTRUCTION ENTRANCE.
2. CLEARING AND GRUBBING ENTIRE SITE WITHIN LIMITS OF CONSTRUCTION.
3. EARTHWORK IMPROVEMENTS CONSISTING OF SITE GRADING AND STORMWATER PONDS.
4. INSTALL PUBLIC LIFT STATION AND SANITARY SEWER MAIN, MANHOLES AND SERVICES.
5. INSTALL WATER MAIN, FIRE HYDRANTS, WATER SERVICES AND FIRE SERVICES.
6. INSTALL STORMWATER INLETS, DRAINAGE PIPES, CONTROL STRUCTURES, STORM-TECH EXFILTRATION AND MITERED END SECTIONS.
7. INSTALL SEGMENTAL RETAINING WALL.
8. INSTALL FIRST LIFT OF ASPHALT PAVEMENT CONSISTING OF STABILIZED SUBBASE, BASE AND1 INCH OF ASPHALT PAVEMENT.
9. TYMBER CREEK ROADWAY IMPROVEMENTS CONSISTING OF RIGHT-TURN LANE AND DUEL LEFT TURN LANE EXPANSION.
10. SURVEYOR TO PREPARE AS-BUILTS FOR WATER AND SEWER IMPROVEMENTS.
11. ENGINEER OF RECORD TO PREPARE FDEP WATER AND WASTEWATER CERTIFICATIONS FOR CITY OF ORMOND BEACH APPROVAL. ENGINEER OF RECORD TO SUBMIT FDEP WATER AND WASTEWATER CERTIFICATIONS TO FDEP FOR FINAL APPROVAL.
12. ENGINEER OF RECORD TO CERTIFY TYMBER CREEK ROAD IMPROVEMENTS WITH VOLUSIA COUNTY.

PHASE 2 (CLUBHOUSE, BUILDING 1 & 2)

1. ALL SITE INFRASTRUCTURE IMPROVEMENTS SHALL BE CONSTRUCTED INCLUDING FIRST LIFT OF ASPHALT FOR THE ENTIRE DEVELOPMENT PRIOR TO REQUESTING ANY BUILDING CLEARING FOR OCCUPANCIES.
2. CONSTRUCT CLUBHOUSE AND POOL, BUILDING 1 AND 2 BUILDING IMPROVEMENTS.
3. INSTALL SECOND LIFT OF ASPHALT (3/4") WITHIN BUILDING PHASE.
4. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
5. INSTALL SIDEWALK CONNECTION TO GRANADA BOULEVARD.
6. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
7. INSTALL PRE-CAST SCREEN WALL.
8. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
9. INSTALL LANDSCAPE, IRRIGATION AND FLOATING FOUNTAIN WITHIN WALGREENS.
10. SURVEYOR TO PREPARE AS-BUILTS FOR THIS BUILDING PHASE.
11. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
12. INSTALL TEMPORARY DUMPSTER.
13. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
14. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
15. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 3 (BUILDING 3 & 4)

1. CONSTRUCT BUILDING 3 AND 4 BUILDING IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (3/4") WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. INSTALL SIDEWALK CONNECTION TO TYMBER CREEK ROAD.
5. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
6. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
7. INSTALL TEMPORARY DUMPSTER.
8. SURVEYOR TO PREPARE AS-BUILTS FOR THIS BUILDING PHASE.
9. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
10. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
11. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
12. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS A REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 4 (BUILDING 5 & 6)

1. CONSTRUCT BUILDING 5 AND 6 BUILDING IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (3/4") WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
5. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
6. INSTALL TEMPORARY DUMPSTER.
7. SURVEYOR TO PREPARE AS-BUILTS FOR THIS BUILDING PHASE.
8. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
9. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
10. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
11. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 5 (BUILDING 7, 8, MAINTENANCE BLDG. & TRASH COMPACTOR)

1. CONSTRUCT BUILDING 7, 8, MAINTENANCE BUILDING AND TRASH COMPACTOR IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (3/4") WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. INSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
5. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
6. REMOVE ALL TEMPORARY DUMPSTER'S.
7. SURVEYOR TO PREPARE AS-BUILTS FOR THIS PHASE.
8. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
9. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
10. CITY OF ORMOND BEACH PHASE INSPECTION WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
11. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

PHASE 6 (BUILDING 9, 10 & ENTIRE SITE FINAL RE-INSPECTION)

1. CONSTRUCT BUILDING 9, 10 AND WET DETENTION POND IMPROVEMENTS.
2. INSTALL SECOND LIFT OF ASPHALT (3/4") WITHIN BUILDING PHASE.
3. INSTALL SIDEWALKS AND HANDICAP RAMPS WITHIN BUILDING PHASE.
4. IINSTALL STRIPING AND SIGNAGE WITHIN BUILDING PHASE.
5. INSTALL LANDSCAPE AND IRRIGATION WITHIN BUILDING PHASE.
6. SURVEYOR TO PREPARE AS-BUILTS FOR THIS PHASE.
7. LANDSCAPE ARCHITECT TO PREPARE LANDSCAPE AS-BUILTS.
8. INSTALL FLOATING FOUNTAIN IN WET DETENTION POND.
9. ENGINEER OF RECORD TO FINAL INSPECT ALL PHASE IMPROVEMENTS, REVIEW AS-BUILT SURVEYS AND PREPARE FINAL CERTIFICATION SUBMITTAL TO CITY OF ORMOND BEACH FOR FINAL APPROVAL.
10. ENGINEER OF RECORD TO CERTIFY STORMWATER SYSTEM WITH SJRWMD.
11. ENGINEER OF RECORD TO CERTIFY FDEP NPDES NOTICE OF TERMINATION.
12. CITY OF ORMOND BEACH PHASE INSPECTION AND RE-INSPECTION OF ENTIRE SITE WITH GENERAL CONTRACTOR AND NEWKIRK ENGINEERING.
13. CONTRACTOR TO ADDRESS ALL CITY OF ORMOND BEACH CONSTRUCTION PUNCHLIST ITEMS AND REQUEST RE-INSPECTION FOR CLEARED FOR OCCUPANCY.

CITY OF ORMOND BEACH SPRC NOTE:

THE PHASING OF THE PROJECT MAY BE APPROVED BY SPRC AS A MINOR MODIFICATION TO THE DEVELOPMENT ORDER. THE SPRC MAY ALLOW CERTIFICATE OF OCCUPANCY FOR INDIVIDUAL BUILDINGS THAT ARE COMPLETED IN TERMS OF BUILDING AND SITE IMPROVEMENTS AND THE REMAINDER OF THE SITE IS PROTECTED FOR CONSTRUCTION ACTIVITIES.

FDOT GENERAL NOTES:

1. MAINTENANCE OF TRAFFIC TO BE SUPERVISED BY A CERTIFIED PERSON (ON SITE).
2. THE CONTRACTOR SHALL NOTIFY THE DEPARTMENT A MINIMUM OF 48 HOURS PRIOR TO BEGINNING ANY WORK WITH IN THE FDOT R/W.
3. ALL WORK PERFORMED WITH IN THE FDOT R/W SHALL BE IN ACCORDANCE WITH THE 2019 EDITION OF THE FDOT DESIGN STANDARDS & SPECIFICATIONS FOR ROAD & BRIDGE CONSTRUCTION, 2017 EDITION OF THE FDOT UTILITY ACCOMMODATION MANUAL AND FDOT STANDARD PLANS FY 2021-22.
4. IT IS THE RESPONSIBILITY OF THE PERMITTEE TO REPAIR ANY DAMAGE TO FDOT FACILITIES CAUSED BY THE CONSTRUCTION OF THIS PROJECT.
5. ANY TEST RESULTS TAKEN DURING CONSTRUCTION OF THE PERMITTED WORK SHALL BE PROVIDED TO THE DEPARTMENT UPON REQUEST.
6. ALL CONCRETE TO BE REMOVED SHALL BE SAW CUT TO NEAREST JOINT IN GOOD CONDITION, SO A CONNECTION THAT IS FREE OF CRACKS, DEFORMITIES OR VOIDS & IRREGULARITIES ARE NOT DEFECTIVE.
7. ALL STRIPING WITHIN THE FDOT RIGHT-OF-WAY SHALL BE PREFORMED THERMOPLASTIC.
8. ALL CONCRETE SHALL BE AN APPROVED FDOT MIX DESIGN OF 3,000 PSI.
9. ALL MATERIALS INSTALLED INSIDE FDOT R/W SHALL BE ON THE QUALIFIED PRODUCTS LIST OR APPROVED PRODUCTS LIST.
10. ALL CONSTRUCTION SHALL BE STAKED FOR CONSTRUCTION BY MEANS OF DIGITAL COORDINATES BY SURVEYOR UTILIZING GEODETIC TOTAL STATION. SCALING OF DRAWINGS FOR PURPOSES OF STAKING ARE AT THE SURVEYOR'S RISK.
11. THE CONTRACTOR SHALL SUBMIT A MAINTENANCE OF TRAFFIC AND BARRICADE PLAN TO THE ENGINEER FOR APPROVAL WITH THE BID. INCLUDE THE MOT PLAN AT THE PRECONSTRUCTION MEETING.
12. ALL TRAFFIC CONTROL DEVICES SHALL BE IN PLACE PRIOR TO CONSTRUCTION AND THE FDOT INSPECTOR NOTIFIED FOR APPROVAL.
13. ALL BARRICADES AND POSTED SIGNAGE SHALL REMAIN IN PLACE UNTIL PAVING WORK IS COMPLETE. ALL BARRICADES SHALL BE VERIFIED IN PLACE BY THE CONTRACTOR AT THE END OF EACH WORK DAY.
14. SOD ALL DISTURBED AREAS IN RIGHT-OF-WAY WITH BAHIA.
15. THE CONTRACTOR SHALL ENSURE THAT ALL SIDEWALKS AND CROSSWALKS CONFORM TO THE CURRENT REQUIREMENTS OF THE AMERICANS WITH DISABILITY ACT (ADA).
16. ALL SIGNS AND PAVEMENT MARKINGS THAT ARE REMOVED OR DAMAGED BY CONSTRUCTION ACTIVITIES RELATED TO THIS PROJECT ARE TO BE REPLACED TO THEIR PRECONSTRUCTION CONDITIONS.
17. ALL SIGNAGE AND PAVEMENT MARKINGS SHALL CONFORM TO FDOT STANDARD INDEX No. 711-001.
18. IN THE EVENT PERMANENT VEHICLE DETECTION IS DISRUPTED, PROVIDE AN ALTERNATIVE MEANS OF DETECTION TO ALL LANES APPROACHING THE INTERSECTION, SEPARATING EACH MOVEMENT WHICH PREVIOUSLY HAD DETECTION. THE TYPE OF DETECTOR SHALL BE APPROVED BY THE ENGINEER PRIOR TO INSTALLATION. EQUIPMENT SHALL ONLY DETECT THE INTENDED MOVEMENT.
19. THERE SHALL BE NO SR 40 (W GRANADA BOULEVARD) CLOSURES DURING 7 A.M. TO 7 P.M. MONDAY TO SUNDAY.
20. THERE SHALL BE NO WORK WITHIN THE VICINITY OF THE SIGNALIZED INTERSECTION DURING 7 A.M. TO 7 P.M. MONDAY TO SUNDAY.
21. CONTRACTOR TO PROVIDE TEMPORARY VIDEO DETECTION FOR SIGNAL WHILE LOOPS ARE DISTURBED DURING MILLING AND RESURFACING.

VOLUSIA COUNTY NOTES:

1. NOTIFY VOLUSIA COUNTY DEVELOPMENT ENGINEERING DIVISION AT (386) 736-5926 A MINIMUM OF 24 HOURS PRIOR TO THE START OF CONSTRUCTION. FAILURE OF THE PERMITTEE TO OBTAIN THE APPROPRIATE INSPECTIONS PRIOR TO PROCEEDING WITH WORK SHALL NOT RELIEVE THE PERMITTEE FROM REEXCAVATION OR OTHER MEASURES NECESSARY FOR THE INSPECTION OF WORK.
2. VOLUSIA COUNTY TRAFFIC ENGINEERING (386) 736-5968 IS NOT A MEMBER OF SUNSHINE ONE CALL. WHEN REQUESTING LOCATES, PLEASE PROVIDE A MINIMUM ADVANCED NOTIFICATION OF TWO (2) BUSINESS DAYS PRIOR TO PROPOSED WORK.
3. COORDINATION WITH VOLUSIA COUNTY TRAFFIC OPERATIONS (386) 239-5535 IS REQUIRED WITH A MINIMUM ADVANCED NOTICE OF SEVEN (7) DAYS PRIOR TO ANY SIDEWALK, LANE OR ROAD CLOSURE (INCLUDING FLAGGING OPERATIONS).
4. OPERATIONS WITHIN THE COUNTY RIGHT-OF-WAY SHALL NORMALLY BE CONDUCTED 7:00 AM TO 7:00 PM, MONDAY THROUGH FRIDAY. ANY DEVIATION FROM THESE HOURS REQUIRES PRIOR APPROVAL FROM THE COUNTY DEVELOPMENT ENGINEER. EMERGENCY REPAIRS ARE EXCLUDED FROM THIS TIME RESTRICTION.
5. ALL EXISTING SIDEWALKS WITHIN COUNTY RIGHT-OF-WAY SHALL EITHER REMAIN OPEN OR BE PROVIDED A TEMPORARY WALKWAY IN ACCORDANCE WITH THE CURRENT VERSION OF FLORIDA DEPARTMENT OF TRANSPORTATION STANDARD INDEX NO. 660. ANY DAMAGE TO SIDEWALKS SHALL BE REPAIRED AND/OR REPLACED IN LIKE KIND BY THE CONTRACTOR. NEW SIDEWALKS AND SECTIONS THROUGH DRIVEWAYS MUST BE AT A 1.5% CROSS SLOPE AND 2% MAXIMUM CROSS SLOPE PER ADA STANDARDS.
6. DRIVING OR STAGING OF CONSTRUCTION VEHICLES OR MATERIALS IS NOT PERMITTED WITHIN THE COUNTY RIGHT-OF-WAY OR ON PEDESTRIAN WALKWAYS AND PATHS. THERE SHALL BE NO OVERNIGHT CONSTRUCTION VEHICLE RELATED PARKING, CONSTRUCTION MATERIAL PLACEMENT OR STORAGE OF ANY KIND PERMITTED WITHIN THE COUNTY RIGHT-OF-WAY.
7. NO TRENCH OR EXCAVATION SHALL BE LEFT OPEN OR UNATTENDED OVERNIGHT, UNLESS APPROVED BY THE COUNTY DEVELOPMENT ENGINEERING INSPECTOR. EXCAVATIONS SHALL MEET THE DROP OFF PROTECTION REQUIREMENTS OF THE LATEST FOOT DESIGN STANDARD INDEX NO. 600.
8. RESTORATION SHALL BE REQUIRED FOR ANY DAMAGE TO SIDEWALKS, CURBS, OR OTHER EXISTING STRUCTURES IN THE RIGHT-OF-WAY. ALL DISTURBED AREAS WITHIN THE COUNTY RIGHT OF WAY SHALL BE RE-GRADED AND SODDED. SEED AND MULCH IS NOT AN ACCEPTABLE ALTERNATIVE TO SODDING.

SUMMARY OF DRAINAGE:

THE MINIMUM WATER QUALITY TREATMENT VOLUME REQUIRED IS THE GREATER OF 1-INCH OF RUNOFF OVER THE DRAINAGE RETENTION AREA OR 2.5-INCHES OVER THE IMPERVIOUS SURFACE PLUS AN ADDITIONAL 0.5 INCHES FOR ON-LINE STORAGE. AN ADDITIONAL 50% OF THE REQUIRED TREATMENT VOLUME IS REQUIRED FOR DISCHARGE TO OUTSTANDING FLORIDA WATERS. STORMWATER TREATMENT IS PROVIDED BY A DRY POND - STORMTECH EXFILTRATION CHAMBER TO WET POND SYSTEM. THE TREATMENT SYSTEM IS DESIGNED TO ENSURE THE POST DEVELOPMENT DISCHARGE RATE AND VOLUME DOES NOT EXCEED THE PRE-DEVELOPMENT RATE AND VOLUME FOR THE MEAN ANNUAL, 25 YEAR-24 HOUR, AND 100 YEAR-24 HOUR STORM EVENTS.

Design Storm	Rainfall (inches)	Discharge Rate (cfs)			Outflow Volume (ft³)			Wet Pond Peak Stage (ft)
		North	South	East	North	South	East	
Mean Annual, 24-Hour PRE	5.0	4.40	0.62	0.81	56,649	2,836	7,010	15.94
Mean Annual, 24-Hour POST		0.78	0.00	0.00	36,320	0	0	
25 Year, 24-Hour PRE	9.0	15.08	1.28	2.76	173,975	5,704	21,454	17.60
25 Year, 24-Hour POST		4.32	0.00	0.00	138,746	0	0	
100 Year, 24-Hour PRE	11.0	21.19	1.62	3.88	241,282	7,210	29,731	18.08
100 Year, 24-Hour POST		10.24	0.00	0.00	227,609	0	0	

TREATMENT VOLUME REQUIRED (AC-FT)	TREATMENT VOLUME PROVIDED (AC-FT)	HALF-TREATMENT VOLUME RECOVERY (HOURS)
4.452	6.317	25.0

STORM EVENT	PRE-DEVELOPMENT DISCHARGE VOLUME	POST-DEVELOPMENT DISCHARGE VOLUME	VOLUME RETAINED
MA	1.527 Ac-Ft	0.834 Ac-Ft	0.693 Ac-Ft
25Y-24H	4.617 Ac-Ft	3.185 Ac-Ft	1.432 Ac-Ft
100Y-24H	6.387 Ac-Ft	5.225 Ac-Ft	1.162 Ac-Ft

GENERAL DRAINAGE NOTES:

1. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE TO DRAINAGE SYSTEM AND SHALL RESTORE ANY DAMAGED STRUCTURES.
2. ALL PIPE FROM THE BUILDING DRAINS SHALL BE SMOOTH INTERIOR CORRUGATED EXTERIOR (SICE) HDPE OR PVC SCH 40.
3. ALL STORM PIPE SHALL BE CONSTRUCTED OF HDPE (SICE) PIPE WITH CERTIFIED WATERTIGHT JOINTS BY THE MANUFACTURER. ACCEPTABLE HDPE PIPE SHALL BE HANCOR SUR-LOK WT, ADS SERIES 35, ADS N-12 WITH WT JOINT OR EQUAL.
4. THE CONTRACTOR SHALL SUBMIT SHOP DRAWINGS OF ALL MATERIAL AND STRUCTURES TO THE ENGINEER (NEWKIRK ENGINEERING, INC.) FOR APPROVAL PRIOR TO THE PRECONSTRUCTION MEETING.
5. CONTRACTOR TO PLACE FILTER FABRIC BETWEEN DRAINAGE STRUCTURES AND TOPS TO PREVENT SOIL INTRUSION. THE FABRIC SHALL BE PERIODICALLY CLEANED OF SAND A DEBRIS.FABRIC SHALL REMAIN IN PLACE UNTIL PAVING IS COMPLETE.
6. ALL EXISTING STRUCTURES, UNLESS OTHERWISE NOTED TO REMAIN. FENCING TREES, & ETC., WITHIN THE CONSTRUCTION AREA SHALL BE REMOVED AND DISPOSED OF OFFSITE.
7. ALL DRAINAGE STRUCTURES SHALL BE PRE-CAST PER FDOT SPECIFICATIONS.
8. ALL DRAINAGE STRUCTURES AND STORM SEWER PIPES SHALL MEET HEAVY DUTY TRAFFIC (H20) LOADING AND BE INSTALLED ACCORDINGLY PER FDOT STANDARD SPECIFICATIONS AND MANUFACTURES SPECIFICATIONS RESPECTIVELY.
9. ALL DRAINAGE STRUCTURES AND PIPES SHALL BE CLEANED OF SAND AT THE LAST STAGE OF CONSTRUCTION PRIOR TO THE FINAL INSPECTION.
10. ALL STORM INLET GRATES SHALL BE STEEL (TRAFFIC RATED).
11. OVER-EXCAVATE ALL STORM-TECH EXFILTRATION TRENCH AREAS 3-FEET BELOW BOTTOM AND REPLACE SOILS WITH GRANULAR TYPE 'B' SOILS.

STORMWATER LEGEND

GENERAL EARTHWORK NOTES:

1. REMOVE ALL ORGANIC OR UNSUITABLE MATERIALS. IF ANY MUCK OR MUCK-LIKE MATERIAL IS DISCOVERED, IT WILL BE REQUIRED TO BE REMOVED, BACKFILLED WITH APPROPRIATE FILL, COMPACTED, AND TESTED USING AASHTO T-180 MODIFIED PROCTOR METHOD.
2. ALL FILLING IS TO BE PERFORMED IN ONE-FOOT LIFTS. THE COMPACTION REQUIREMENT IS 98% FOR PAVED AREAS AND 95% FOR UNPAVED AREAS PER AASHTO T-180 MODIFIED PROCTOR TEST.
3. TEMPORARY FILL STOCKPILING IS NOT PERMITTED IN LIFTS GREATER THAN SIX FEET.
4. SOILS ARE TO BE STABILIZED BY WATER OR OTHER MEANS DURING CONSTRUCTION. THIS IS INTENDED TO REDUCE SOIL EROSION AND THE IMPACT TO NEIGHBORING COMMUNITIES.
5. ONCE AN AREA IS SEEDED OR SODDED, IT MUST BE MAINTAINED TO ALLOW THE GRASS TO GROW.
6. ALL NON-PAVED AREAS MUST BE PLANTED, GRASSED, OR MULCHED.

GENERAL GRADING NOTES:

1. CROSS SLOPES OF ACCESSIBLE PARKING SPACES AND ACCESS AISLE SHALL NOT EXCEED 1:48 IN ACCORDANCE WITH SECTION 502.4 OF FLORIDA ACCESSIBILITY CODE FOR BUILDING CONSTRUCTION (FACBC).
2. THE MAXIMUM ELEVATION CHANGE AT THE ENTRANCE DOOR MAY NOT EXCEED 1/2 INCH.
3. ALL SIDEWALK LANDINGS SHALL HAVE SLOPES NO GREATER THAN 1/4 INCH / 1 FOOT IN MANEUVERING SPACES AT ALL DOORWAYS.
4. ALL SIDEWALKS SHALL HAVE A 1.0% CROSS SLOPE (2.0% MAXIMUM).
5. ALL CURB RAMPS SHALL COMPLY WITH SECTION 406 OF FACBC.
6. ALL IMPROVEMENTS SHALL BE STAKED FOR CONSTRUCTION BY MEANS OF DIGITAL COORDINATES BY SURVEY OR UTILIZING GEODETIC TOTAL STATION. SCALING OF DRAWINGS FOR PURPOSES OF STAKING ARE AT THE SURVEYOR.

36.1

SEGMENTAL RETAINING WALL SPECIFICATIONS:

PART 1: GENERAL

1.01 DESCRIPTION

A. WORK SHALL CONSIST OF FURNISHING AND CONSTRUCTION OF A KEYSTONE COMPAC UNIT RETAINING WALL SYSTEM OR EQUAL IN ACCORDANCE WITH THESE SPECIFICATIONS AND IN REASONABLY CLOSE CONFORMITY WITH THE LINES, GRADES, DESIGN, AND DIMENSIONS SHOWN ON THE PLANS.

B. WORK INCLUDES PREPARING FOUNDATION SOIL, FURNISHING AND INSTALLING LEVELING PAD, UNIT DRAINAGE FILL AND BACKFILL TO THE LINES AND GRADES SHOWN ON THE CONSTRUCTION DRAWINGS.

C. WORK INCLUDES FURNISHING AND INSTALLING GEOGRID SOIL REINFORCEMENT OF THE TYPE, SIZE, LOCATION, AND LENGTHS DESIGNATED ON THE CONSTRUCTION DRAWINGS.

1.02 RELATED SECTIONS

A. SECTION 02300 (31 00 00) - EARTHWORK

1.03 REFERENCE DOCUMENTS

A. AMERICAN SOCIETY FOR TESTING AND MATERIALS (ASTM)

1. ASTM C140 SAMPLING AND TESTING CONCRETE MASONRY UNITS
1. ASTM C1372 SPECIFICATION FOR DRY-CAST SEGMENTAL RETAINING WALL UNITS
2. ASTM D422 PARTICLE-SIZE ANALYSIS OF SOILS
3. ASTM D698 LABORATORY COMPACTION CHARACTERISTICS OF SOIL -STANDARD EFFORT
4. ASTM D1557 LABORATORY COMPACTION CHARACTERISTICS OF SOIL -MODIFIED EFFORT
5. ASTM D3034 POLYVINYL CHLORIDE PIPE (PVC)
6. ASTM D4318 LIQUID LIMIT, PLASTIC LIMIT AND PLASTICITY INDEX OF SOILS
7. ASTM D4475 HORIZONTAL SHEAR STRENGTH OF PULTRUDED REINFORCED PLASTIC RODS
8. ASTM D4476 FLEXURAL PROPERTIES OF FIBER REINFORCED PULTRUDED PLASTIC RODS
9. ASTM D4595 TENSILE PROPERTIES OF GEOTEXTILES - WIDE WIDTH STRIP
10. ASTM D5262 UNCONFINED TENSION CREEP BEHAVIOR OF GEOSYNTHETICS
11. ASTM D5818 EVALUATE INSTALLATION DAMAGE OF GEOSYNTHETICS
12. ASTM D6637 TENSILE PROPERTIES OF GEOGRIDS - SINGLE OR MULTI-RIB
13. ASTM D6638 CONNECTION STRENGTH - REINFORCEMENT/SEGMENTAL UNITS
14. ASTM D6706 GEOSYNTHETIC PULLOUT RESISTANCE IN SOIL
15. ASTM D6916 SHEAR STRENGTH BETWEEN SEGMENTAL CONCRETE UNITS

B. AMERICAN ASSOCIATION OF STATE HIGHWAY AND TRANSPORTATION OFFICIALS (AASHTO)

1. AASHTO M 252 CORRUGATED POLYETHYLENE DRAINAGE PIPE

C. GEOSYNTHETIC RESEARCH INSTITUTE (GRI)

1. GRI-GG4 DETERMINATION OF LONG TERM DESIGN STRENGTH OF GEOGRIDS
2. GRI-GG5 DETERMINATION OF GEOGRID (SOIL) PULLOUT

D. NATIONAL CONCRETE MASONRY ASSOCIATION (NCMA)

1. NCMA SRWU-1 TEST METHOD FOR DETERMINING CONNECTION STRENGTH OF SRW
2. NCMA SRWU-2 TEST METHOD FOR DETERMINING SHEAR STRENGTH OF SRW

1.04 SUBMITTALS/CERTIFICATION

A. CONTRACTOR SHALL SUBMIT A MANUFACTURER'S CERTIFICATION, PRIOR TO START OF WORK, THAT THE RETAINING WALL SYSTEM COMPONENTS MEET THE REQUIREMENTS OF THIS SPECIFICATION AND THE STRUCTURE DESIGN.

B. CONTRACTOR SHALL SUBMIT CONSTRUCTION DRAWINGS AND DESIGN CALCULATIONS FOR THE RETAINING WALL SYSTEM PREPARED AND STAMPED BY A PROFESSIONAL ENGINEER REGISTERED IN THE STATE OF THE PROJECT. THE ENGINEERING DESIGNS, TECHNIQUES, AND MATERIAL EVALUATIONS SHALL BE IN ACCORDANCE WITH THE MANUFACTURER'S DESIGN MANUAL, NCMA DESIGN GUIDELINES FOR SEGMENTAL RETAINING WALLS, OR THE AASHTO STANDARD SPECIFICATIONS FOR HIGHWAY BRIDGES (WHICHEVER IS APPLICABLE TO DESIGNER).

C. CONTRACTOR SHALL SUBMIT A TEST REPORT DOCUMENTING STRENGTH OF SPECIFIC MODULAR CONCRETE UNIT AND GEOGRID REINFORCEMENT CONNECTION. THE MAXIMUM DESIGN TENSILE LOAD OF THE GEOGRID SHALL BE EQUAL TO THE LABORATORY TESTED ULTIMATE STRENGTH OF GEOGRID / FACING UNIT CONNECTION AT A MAXIMUM NORMAL FORCE LIMITED BY THE "HINGE HEIGHT" OF THE STRUCTURE DIVIDED BY A SAFETY FACTOR OF 1.5. THE CONNECTION STRENGTH EVALUATION SHALL BE PERFORMED IN ACCORDANCE WITH ASTM D6638 (NCMA SRWU_1).

1.05 QUALITY ASSURANCE

A. CONTRACTOR SHALL SUBMIT CERTIFICATION, PRIOR TO START OF WORK, THAT THE RETAINING WALL SYSTEM (MODULAR CONCRETE UNITS AND SPECIFIC GEOGRID):

1) HAS BEEN SUCCESSFULLY UTILIZED ON A MINIMUM OF FIVE (5) SIMILAR PROJECTS, I.E., HEIGHT, SOIL FILL TYPES, ERECTION TOLERANCES, ETC.; AND

2) HAS BEEN SUCCESSFULLY INSTALLED ON A MINIMUM OF 1 MILLION (1,000,000) SQUARE FEET OF RETAINING WALLS.

B. CONTRACTOR SHALL SUBMIT A LIST OF FIVE (5) PREVIOUSLY CONSTRUCTED PROJECTS OF SIMILAR SIZE AND MAGNITUDE BY THE WALL INSTALLER WHERE THE SPECIFIC RETAINING WALL SYSTEM HAS BEEN CONSTRUCTED SUCCESSFULLY. CONTACT NAMES AND TELEPHONE NUMBERS SHALL BE LISTED FOR EACH PROJECT.

C. CONTRACTOR SHALL PROVIDE EVIDENCE THAT THE DESIGN ENGINEER HAS A MINIMUM OF FIVE YEARS OF DOCUMENTAL EXPERIENCE IN THE DESIGN FOR REINFORCED SOIL STRUCTURES. THE DESIGN ENGINEER SHALL PROVIDE PROOF OF CURRENT PROFESSIONAL LIABILITY INSURANCE WITH AN AGGREGATE COVERAGE LIMIT OF NOT LESS THAN $2,000,000.

D. OWNER SHALL MAY PROVIDE SOIL TESTING AND QUALITY ASSURANCE INSPECTION DURING EARTHWORK AND WALL CONSTRUCTION OPERATIONS. CONTRACTOR SHALL PROVIDE ANY QUALITY CONTROL TESTING OR INSPECTION NOT PROVIDED BY THE OWNER. OWNER'S QUALITY ASSURANCE PROGRAM DOES NOT RELIEVE THE CONTRACTOR OF RESPONSIBILITY FOR QUALITY CONTROL AND WALL PERFORMANCE.

1.06 DELIVERY, STORAGE AND HANDLING

A. CONTRACTOR SHALL CHECK ALL MATERIALS UPON DELIVERY TO ASSURE THAT THE PROPER TYPE, GRADE, COLOR, AND CERTIFICATION HAVE BEEN RECEIVED.

B. CONTRACTOR SHALL PROTECT ALL MATERIALS FROM DAMAGE DUE TO JOBSITE CONDITIONS AND IN ACCORDANCE WITH MANUFACTURER'S RECOMMENDATIONS. DAMAGED MATERIALS SHALL NOT BE INCORPORATED INTO THE WORK.

PART 2: PRODUCTS

2.01 DEFINITIONS

A. MODULAR UNIT _ A CONCRETE RETAINING WALL ELEMENT MACHINE MADE FROM PORTLAND CEMENT, WATER, AND AGGREGATES.

B. STRUCTURAL GEOGRID _ A STRUCTURAL ELEMENT FORMED BY A REGULAR NETWORK OF INTEGRALLY CONNECTED TENSILE ELEMENTS WITH APERTURES OF SUFFICIENT SIZE TO ALLOW INTERLOCKING WITH SURROUNDING SOIL, ROCK, OR EARTH AND FUNCTION PRIMARILY AS REINFORCEMENT.

C. UNIT DRAINAGE FILL _ DRAINAGE AGGREGATE, WHICH IS PLACED WITHIN AND IMMEDIATELY BEHIND THE MODULAR CONCRETE UNITS.

D. REINFORCED BACKFILL _ COMPACTED SOIL, WHICH IS PLACED WITHIN THE REINFORCED SOIL VOLUME AS OUTLINED ON THE PLANS.

2.02 MODULAR CONCRETE RETAINING WALL UNITS

A. MODULAR CONCRETE UNITS SHALL CONFORM TO THE FOLLOWING ARCHITECTURAL REQUIREMENTS:

1. FACE COLOR - CONCRETE GRAY, UNLESS OTHERWISE SPECIFIED. THE OWNER MAY SPECIFY STANDARD MANUFACTURERS' COLOR.
2. FACE FINISH _ SCULPTURED ROCK FACE IN ANGULAR TRIPLANER CONFIGURATION. OTHER FACE FINISHES WILL NOT BE ALLOWED WITHOUT WRITTEN APPROVAL OF OWNER.
3. BOND CONFIGURATION _ RUNNING WITH BONDS NOMINALLY LOCATED AT MIDPOINT VERTICALLY ADJACENT UNITS, IN BOTH STRAIGHT AND CURVED ALIGNMENTS.
4. EXPOSED SURFACES OF UNITS SHALL BE FREE OF CHIPS, CRACKS OR OTHER IMPERFECTIONS WHEN VIEWED FROM A DISTANCE OF 10 FEET UNDER DIFFUSED LIGHTING.

B. MODULAR CONCRETE MATERIALS SHALL CONFORM TO THE REQUIREMENTS OF ASTM C1372 - STANDARD SPECIFICATIONS FOR SEGMENTAL RETAINING WALL UNITS.

C. MODULAR CONCRETE UNITS SHALL CONFORM TO THE FOLLOWING STRUCTURAL AND GEOMETRIC REQUIREMENTS MEASURED IN ACCORDANCE WITH ASTM C140 SAMPLING AND TESTING CONCRETE MASONRY UNITS:

1. COMPRESSIVE STRENGTH: 3000 PSI (21 MPA);
2. ABSORPTION: 8 % (6% IN NORTHERN STATES) FOR STANDARD WEIGHT AGGREGATES;
3. DIMENSIONAL TOLERANCES: ± 1/8" (3 MM) FROM NOMINAL UNIT DIMENSIONS NOT INCLUDING ROUGH SPLIT FACE, ±1/16" (1.5 MM) UNIT HEIGHT - TOP AND BOTTOM PLANES;
4. UNIT SIZE: 8" (203 MM) (H) X 18" (457 MM)(W) X 12" (304 MM)(D) MINIMUM;
5. UNIT WEIGHT: 75-LBS(UNIT (35 KG/UNIT) MINIMUM FOR STANDARD WEIGHT AGGREGATES.

D. MODULAR CONCRETE UNITS SHALL CONFORM TO THE FOLLOWING PERFORMANCE TESTING:

1. INTER_UNIT SHEAR STRENGTH IN ACCORDANCE WITH ASTM D6916 (NCMA SRWU-2): 600-PLF (8 KNM) MINIMUM AT 2-PSI (13 KPA) NORMAL PRESSURE;
2. GEOGRID/UNIT PEAK CONNECTION STRENGTH IN ACCORDANCE WITH ASTM D6638 (NCMA SRWU-1): 550-PLF (7 KNM) MINIMUM AT 2-PSI (13 KPA) NORMAL FORCE.

E. MODULAR CONCRETE UNITS SHALL CONFORM TO THE FOLLOWING CONSTRUCTABILITY REQUIREMENTS:

1. VERTICAL SETBACK = 1/8"± (3 MM) PER COURSE (NEAR VERTICAL) OR 1" (25 MM)+ PER COURSE PER THE DESIGN;
2. ALIGNMENT AND GRID POSITIONING MECHANISM _ FIBERGLASS PINS, TWO PER UNIT MINIMUM;
3. MAXIMUM HORIZONTAL GAP BETWEEN ERECTED UNITS SHALL BE 1/2 INCH (13 MM).

2.03 SHEAR CONNECTORS

A. SHEAR CONNECTORS SHALL BE 1/2-INCH (12 MM) DIAMETER THERMOSET ISOPTHALIC POLYESTER RESIN, PULTRUDED FIBERGLASS REINFORCEMENT RODS OR EQUIVALENT TO PROVIDE CONNECTION BETWEEN VERTICALLY AND HORIZONTALLY ADJACENT UNITS WITH THE FOLLOWING REQUIREMENTS:

1. FLEXURAL STRENGTH IN ACCORDANCE WITH ASTM D4476: 128,000 PSI (882 MPA) MINIMUM;
2. SHORT BEAM SHEAR IN ACCORDANCE WITH ASTM D4475: 6,400 PSI (44 MPA) MINIMUM.

B. SHEAR CONNECTORS SHALL BE CAPABLE OF HOLDING THE GEOGRID IN THE PROPER DESIGN POSITION DURING GRID PRE_TENSIONING AND BACKFILLING.

2.04 BASE LEVELING PAD MATERIAL

A. MATERIAL SHALL CONSIST OF A COMPACTED CRUSHED STONE BASE OR NON_REINFORCED CONCRETE AS SHOWN ON THE CONSTRUCTION DRAWINGS.

2.05 UNIT DRAINAGE FILL

A. UNIT DRAINAGE FILL SHALL CONSIST OF CLEAN 1" (25 MM) MINUS CRUSHED STONE OR CRUSHED GRAVEL MEETING THE FOLLOWING GRADATION TESTED IN ACCORDANCE WITH ASTM D-422:

SIEVE SIZE	PERCENT PASSING
1 INCH (25 MM)	100
3/4-INCH (19 MM)	75_100
NO. 4	0 _ 10
NO. 50	0 _ 5

B. ONE CUBIC FOOT (0.028 M3), MINIMUM, OF DRAINAGE FILL SHALL BE USED FOR EACH SQUARE FOOT (0.093 M2) OF WALL FACE. DRAINAGE FILL SHALL BE PLACED WITHIN CORES OF, BETWEEN, AND BEHIND UNITS TO MEET THIS REQUIREMENT.

2.06 REINFORCED BACKFILL

A. REINFORCED BACKFILL SHALL BE FREE OF DEBRIS AND MEET THE FOLLOWING GRADATION TESTED IN ACCORDANCE WITH ASTM D-422:

SIEVE SIZE	PERCENT PASSING
2-INCH (50 MM)	100
3/4-INCH (19 MM)	100_75
NO. 40	0_60
NO. 200	0_35

PLASTICITY INDEX (PI) <15 AND LIQUID LIMIT <40 PER ASTM D-4318.

B. THE MAXIMUM AGGREGATE SIZE SHALL BE LIMITED TO 3/4 INCH (19 MM) UNLESS FIELD TESTS HAVE BEEN PERFORMED TO EVALUATE POTENTIAL STRENGTH REDUCTIONS TO THE GEOGRID DESIGN DUE TO DAMAGE DURING CONSTRUCTION.

C. MATERIAL CAN BE SITE-EXCAVATED SOILS WHERE THE ABOVE REQUIREMENTS CAN BE MET. UNSUITABLE SOILS FOR BACKFILL (HIGH PLASTIC CLAYS OR ORGANIC SOILS) SHALL NOT BE USED IN THE BACKFILL OR IN THE REINFORCED SOIL MASS.

D. CONTRACTOR SHALL SUBMIT REINFORCED FILL SAMPLE AND LABORATORY TEST RESULTS TO THE ARCHITECT/ENGINEER FOR APPROVAL PRIOR TO THE USE OF ANY PROPOSED REINFORCED FILL MATERIAL.

2.07 GEOGRID SOIL REINFORCEMENT

A. GEOSYNTHETIC REINFORCEMENT SHALL CONSIST OF GEOGRIDS MANUFACTURED SPECIFICALLY FOR SOIL REINFORCEMENT APPLICATIONS, AND SHALL BE MANUFACTURED FROM HIGH TENACITY POLYESTER YARN OR HIGH-DENSITY POLYETHYLENE. POLYESTER GEOGRID SHALL BE KNITTED FROM HIGH TENACITY POLYESTER FILAMENT YARN WITH A MOLECULAR WEIGHT EXCEEDING 25,000 GM AND A CARBOXYL END GROUP VALUES LESS THAN 30. POLYESTER GEOGRID SHALL BE COATED WITH AN IMPREGNATED PVC COATING THAT RESISTS PEELING, CRACKING, AND STRIPPING.

B. TA, LONG TERM ALLOWABLE TENSILE DESIGN LOAD, OF THE GEOGRID MATERIAL SHALL BE DETERMINED AS FOLLOWS:

TA = TULT / (RFCR*RFDR*RFID*FS)
TA SHALL BE EVALUATED BASED ON A 75-YEAR DESIGN LIFE.

1. TULT, SHORT TERM ULTIMATE TENSILE STRENGTH SHALL BE DETERMINED IN ACCORDANCE WITH ASTM D4595 OR ASTM D6637.
   TULT IS BASED ON THE MINIMUM AVERAGE ROLL VALUES (MARV).
2. RFCR, REDUCTION FACTOR FOR LONG TERM TENSION CREEP
   RFCR SHALL BE DETERMINED FROM 10,000-HOUR CREEP TESTING PERFORMED IN ACCORDANCE WITH ASTM D5262. REDUCTION VALUE = 1.45 MINIMUM.
3. RFD, REDUCTION FACTOR FOR DURABILITY
   RFD SHALL BE DETERMINED FROM POLYMER SPECIFIC DURABILITY TESTING COVERING THE RANGE OF EXPECTED SOIL ENVIRONMENTS. RFD = 1.10 MINIMUM.
4. RFID, REDUCTION FACTOR FOR INSTALLATION DAMAGE
   RFID SHALL BE DETERMINED FROM PRODUCT SPECIFIC CONSTRUCTION DAMAGE TESTING PERFORMED IN ACCORDANCE WITH ASTM D5818 (GRI_GG4). TEST RESULTS SHALL BE PROVIDED FOR EACH PRODUCT TO BE USED WITH PROJECT SPECIFIC OR MORE SEVERE SOIL TYPE. RFID = 1.05 MINIMUM.
5. FS, OVERALL DESIGN FACTOR OF SAFETY
   FS SHALL BE 1.5 UNLESS OTHERWISE NOTED FOR THE MAXIMUM ALLOWABLE WORKING STRESS CALCULATION.

C. THE MAXIMUM DESIGN TENSILE LOAD OF THE GEOGRID SHALL NOT EXCEED THE LABORATORY TESTED ULTIMATE STRENGTH OF THE GEOGRID/FACING UNIT CONNECTION AS LIMITED BY THE "HINGE HEIGHT" DIVIDED BY A FACTOR OF SAFETY OF 1.5. THE CONNECTION STRENGTH TESTING AND COMPUTATION PROCEDURES SHALL BE IN ACCORDANCE WITH ASTM D6638 CONNECTION STRENGTH BETWEEN GEOSYNTHETIC REINFORCEMENT AND SEGMENTAL CONCRETE UNITS (NCMA SRWU-1).

D. SOIL INTERACTION COEFFICIENT, CI
   CI VALUES SHALL BE DETERMINED PER ASTM D6706 (GRI:GG5) AT A MAXIMUM 0.75-INCH (19 MM) DISPLACEMENT.

E. MANUFACTURING QUALITY CONTROL
   THE GEOGRID MANUFACTURER SHALL HAVE A MANUFACTURING QUALITY CONTROL PROGRAM THAT INCLUDES QC TESTING BY AN INDEPENDENT LABORATORY.
   THE QC TESTING SHALL INCLUDE:
   TENSILE STRENGTH TESTING
   MELT FLOW INDEX (HDPE)
   MOLECULAR WEIGHT (POLYESTER)

2.08 DRAINAGE PIPE

A. IF REQUIRED, THE DRAINAGE PIPE SHALL BE PERFORATED OR SLOTTED PVC PIPE MANUFACTURED IN ACCORDANCE WITH ASTM D-3034 OR CORRUGATED HDPE PIPE MANUFACTURED IN ACCORDANCE WITH AASHTO M252.

2.09 GEOTEXTILE FILTER FABRIC

A. WHEN REQUIRED, GEOTEXTILE FILTER FABRIC SHALL BE 4.0 OZ/SY, POLYPROPYLENE, NEEDLEPUNCHED NONWOVEN FABRIC.

PART 3: EXECUTION

3.01 EXCAVATION

A. CONTRACTOR SHALL EXCAVATE TO THE LINES AND GRADES SHOWN ON THE CONSTRUCTION DRAWINGS. OWNER'S REPRESENTATIVE SHALL INSPECT THE EXCAVATION AND APPROVE PRIOR TO PLACEMENT OF LEVELING MATERIAL OR FILL SOILS. PROOF ROLL FOUNDATION AREA AS DIRECTED TO DETERMINE IF REMEDIAL WORK IS REQUIRED.

B. OVER_EXCAVATION AND REPLACEMENT OF UNSUITABLE FOUNDATION SOILS AND REPLACEMENT WITH APPROVED COMPACTED FILL WILL BE COMPENSATED AS AGREED UPON WITH THE OWNER.

3.02 BASE LEVELING PAD

A. LEVELING PAD MATERIAL SHALL BE PLACED TO THE LINES AND GRADES SHOWN ON THE CONSTRUCTION DRAWINGS, TO A MINIMUM THICKNESS OF 6 INCHES (150 MM) AND EXTEND LATERALLY A MINIMUM OF 6" (150 MM) IN FRONT AND BEHIND THE MODULAR WALL UNIT.

B. SOIL LEVELING PAD MATERIALS SHALL BE COMPACTED TO A MINIMUM OF 95 % STANDARD PROCTOR DENSITY PER ASTM D-698 OR 92% MODIFIED PROCTOR DENSITY PER ASTM D1557.

C. LEVELING PAD SHALL BE PREPARED TO INSURE FULL CONTACT TO THE BASE SURFACE OF THE CONCRETE UNITS.

3.03 MODULAR UNIT INSTALLATION

A. FIRST COURSE OF UNITS SHALL BE PLACED ON THE LEVELING PAD AT THE APPROPRIATE LINE AND GRADE. ALIGNMENT AND LEVEL SHALL BE CHECKED IN ALL DIRECTIONS AND INSURE THAT ALL UNITS ARE IN FULL CONTACT WITH THE BASE AND PROPERLY SEATED.

B. PLACE THE FRONT OF UNITS SIDE-BY-SIDE. DO NOT LEAVE GAPS BETWEEN ADJACENT UNITS. LAYOUT OF CORNERS AND CURVES SHALL BE IN ACCORDANCE WITH MANUFACTURER'S RECOMMENDATIONS.

C. INSTALL SHEAR/CONNECTING DEVICES PER MANUFACTURER'S RECOMMENDATIONS.

D. PLACE AND COMPACT DRAINAGE FILL WITHIN AND BEHIND WALL UNITS. PLACE AND COMPACT BACKFILL SOIL BEHIND DRAINAGE FILL. FOLLOW WALL ERECTION AND DRAINAGE FILL CLOSELY WITH STRUCTURE BACKFILL.

E. MAXIMUM STACKED VERTICAL HEIGHT OF WALL UNITS, PRIOR TO UNIT DRAINAGE FILL AND BACKFILL PLACEMENT AND COMPACTION, SHALL NOT EXCEED TWO COURSES.

3.04 STRUCTURAL GEOGRID INSTALLATION

A. GEOGRID SHALL BE ORIENTED WITH THE HIGHEST STRENGTH AXIS PERPENDICULAR TO THE WALL ALIGNMENT.

B. GEOGRID REINFORCEMENT SHALL BE PLACED AT THE STRENGTHS, LENGTHS, AND ELEVATIONS SHOWN ON THE CONSTRUCTION DESIGN DRAWINGS OR AS DIRECTED BY THE ENGINEER.

C. THE GEOGRID SHALL BE LAID HORIZONTALLY ON COMPACTED BACKFILL AND ATTACHED TO THE MODULAR WALL UNITS. PLACE THE NEXT COURSE OF MODULAR CONCRETE UNITS OVER THE GEOGRID. THE GEOGRID SHALL BE PULLED TAUT, AND ANCHORED PRIOR TO BACKFILL PLACEMENT ON THE GEOGRID.

D. GEOGRID REINFORCEMENTS SHALL BE CONTINUOUS THROUGHOUT THEIR EMBEDMENT LENGTHS AND PLACED SIDE-BY-SIDE TO PROVIDE 100% COVERAGE AT EACH LEVEL. SPLICED CONNECTIONS BETWEEN SHORTER PIECES OF GEOGRID OR GAPS BETWEEN ADJACENT PIECES OF GEOGRID ARE NOT PERMITTED.

3.05 REINFORCED BACKFILL PLACEMENT

A. REINFORCED BACKFILL SHALL BE PLACED, SPREAD, AND COMPACTED IN SUCH A MANNER THAT MINIMIZES THE DEVELOPMENT OF SLACK IN THE GEOGRID AND INSTALLATION DAMAGE.

B. REINFORCED BACKFILL SHALL BE PLACED AND COMPACTED IN LIFTS NOT TO EXCEED 6 INCHES (150 MM) WHERE HAND COMPACTION IS USED, OR 8 - 10 INCHES (200 TO 250 MM) WHERE HEAVY COMPACTION EQUIPMENT IS USED. LIFT THICKNESS SHALL BE DECREASED TO ACHIEVE THE REQUIRED DENSITY AS REQUIRED.

C. REINFORCED BACKFILL SHALL BE COMPACTED TO A MINIMUM OF 95 % STANDARD PROCTOR DENSITY PER ASTM D-698 OR 92% MODIFIED PROCTOR DENSITY PER ASTM D1557. THE MOISTURE CONTENT OF THE BACKFILL MATERIAL PRIOR TO AND DURING COMPACTION SHALL BE UNIFORMLY DISTRIBUTED THROUGHOUT EACH LAYER AND SHALL BE DRY OF OPTIMUM, + 0%, - 3%.

D. ONLY LIGHTWEIGHT HAND_OPERATED EQUIPMENT SHALL BE ALLOWED WITHIN 3 FEET (1 M) FROM THE TAIL OF THE MODULAR CONCRETE UNIT.

E. TRACKED CONSTRUCTION EQUIPMENT SHALL NOT BE OPERATED DIRECTLY UPON THE GEOGRID REINFORCEMENT. A MINIMUM FILL THICKNESS OF 6 INCHES (150 MM) IS REQUIRED PRIOR TO OPERATION OF TRACKED VEHICLES OVER THE GEOGRID. TRACKED VEHICLE TURNING SHOULD BE KEPT TO A MINIMUM TO PREVENT TRACKS FROM DISPLACING THE FILL AND DAMAGING THE GEOGRID.

F. RUBBER TIRED EQUIPMENT MAY PASS OVER GEOGRID REINFORCEMENT AT SLOW SPEEDS, LESS THAN 10 MPH (15 KPH). SUDDEN BRAKING AND SHARP TURNING SHALL BE AVOIDED.

G. AT THE END OF EACH DAY'S OPERATION, THE CONTRACTOR SHALL SLOPE THE LAST LIFT OF REINFORCED BACKFILL AWAY FROM THE WALL UNITS TO DIRECT RUNOFF AWAY FROM WALL FACE. THE CONTRACTOR SHALL NOT ALLOW SURFACE RUNOFF FROM ADJACENT AREAS TO ENTER THE WALL CONSTRUCTION SITE.

3.06 CAP INSTALLATION

A. CAP UNITS SHALL BE GLUED TO UNDERLYING UNITS WITH AN ALL-WEATHER ADHESIVE RECOMMENDED BY THE MANUFACTURER.

3.07 AS-BUILT CONSTRUCTION TOLERANCES

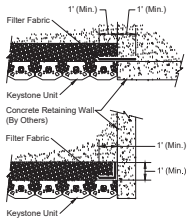
A. VERTICAL ALIGNMENT: ± 1.5" (40 MM) OVER ANY 10' (3 M) DISTANCE.

B. WALL BATTER: WITHIN 2 DEGREES OF DESIGN BATTER.

C. HORIZONTAL ALIGNMENT: ± 1.5" (40 MM) OVER ANY 10' (3 M) DISTANCE.
   CORNERS, BENDS & CURVES: ± 1 FT (300 MM) TO THEORETICAL LOCATION.

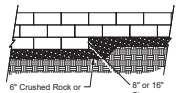
D. MAXIMUM HORIZONTAL GAP BETWEEN ERECTED UNITS SHALL BE 1/2 INCH (13 MM).

3.08 FIELD QUALITY CONTROL



A. QUALITY ASSURANCE - THE OWNER SHALL MAY ENGAGE INSPECTION AND TESTING SERVICES, INCLUDING INDEPENDENT LABORATORIES, TO PROVIDE QUALITY ASSURANCE AND TESTING SERVICES DURING CONSTRUCTION. THIS DOES NOT RELIEVE THE CONTRACTOR FROM SECURING THE NECESSARY CONSTRUCTION QUALITY CONTROL TESTING.

B. QUALITY ASSURANCE SHOULD INCLUDE FOUNDATION SOIL INSPECTION, VERIFICATION OF GEOTECHNICAL DESIGN PARAMETERS, AND VERIFICATION THAT THE CONTRACTOR'S QUALITY CONTROL TESTING IS ADEQUATE AS A MINIMUM. QUALITY ASSURANCE SHALL ALSO INCLUDE OBSERVATION OF CONSTRUCTION FOR GENERAL COMPLIANCE WITH DESIGN DRAWINGS AND PROJECT SPECIFICATIONS. (QUALITY ASSURANCE IS USUALLY BEST PERFORMED BY THE SITE GEOTECHNICAL ENGINEER.)



C. QUALITY CONTROL - THE CONTRACTOR SHALL ENGAGE INSPECTION AND TESTING SERVICES TO PERFORM THE MINIMUM QUALITY CONTROL TESTING DESCRIBED IN THE RETAINING WALL DESIGN PLANS AND SPECIFICATIONS. ONLY QUALIFIED AND EXPERIENCED TECHNICIANS AND ENGINEERS SHALL PERFORM TESTING AND INSPECTION SERVICES.

D. QUALITY CONTROL TESTING SHALL INCLUDE SOIL AND BACKFILL TESTING TO VERIFY SOIL TYPES AND COMPACTION AND VERIFICATION THAT THE RETAINING WALL IS BEING CONSTRUCTED IN ACCORDANCE WITH THE DESIGN PLANS AND PROJECT SPECIFICATIONS.

REQUIRED FIRE FLOW:

"SITE DESIGNED IN ACCORDANCE TO THE NEW FIRE PREVENTION CODE AND NFPA EFFECTIVE JANUARY 1, 2015.

FLORIDA BUILDING CODE CONSTRUCTION TYPE:	VA - PROTECTED
FIRE AREA:	45,195 SF
REQUIRED FIRE FLOW:	3,750 GPM @ 3 HOURS
FIRE SPRINKLER SYSTEM REDUCTION (75%)	2,812 GPM
REQUIRED FIRE FLOW (3,750 - 2,812)	938 GPM @ 3 HOURS
	USE 1,200 GPM @ 3 HOURS

BASED ON NFPA 18.4.5.2.1, REDUCTION IN REQUIRED FIRE FLOW OF 75% SHALL BE PERMITTED WHEN THE BUILDING IS PROTECTED THROUGHOUT BY AN APPROVED SPRINKLER SYSTEM. THE RESULTING FIRE FLOW SHALL NOT BE LESS THAN 1,000 GPM.

PROVIDED FIRE FLOW:

THE PROPOSED WATER MAIN SYSTEM WAS MODELED AND TESTED WITH THE REQUIRED 1,200 GPM FIRE FLOW IN ADDITION TO THE MAXIMUM DAILY FLOW DEMAND TO ENSURE MINIMUM 20 PSI UNDER FIRE FLOW CONDITIONS. SIMULATIONS WERE RUN WITH FIRE DEMAND AT THE CENTER AND OUTERMOST BUILDINGS IN THE SYSTEM.

	FIRE LOCATION	PSI
SCENARIO 2	BUILDING 8	48.15 PSI
SCENARIO 3	BUILDING 3	53.28 PSI

WARNING !!

CONTRACTOR SHALL TAKE ALL PRECAUTIONS DURING CONSTRUCTION TO AVOID CONTACT WITH EXISTING UNDERGROUND UTILITIES, GAS MAINS AND OVERHEAD ELECTRIC IN THE RIGHT-OF-WAY.

LANDSCAPE NOTES:

1. ALL PLANT MATERIAL SHALL CONFORM TO THE STANDARDS FOR FLORIDA #1 OR BETTER AS DESCRIBED IN THE CURRENT "GRADES AND STANDARDS FOR NURSERY PLANTS", STATE OF FLORIDA, DEPARTMENT OF AGRICULTURE, TALLAHASSEE, OR THEIR EQUAL AS DETERMINED BY THE LANDSCAPE ARCHITECT.
2. ALL MULCH SHALL BE ALL NATURAL WOOD (NO CYPRESS).
3. SOD SPECIFIED AS ST. AUGUSTINE "FLORITAM" SHALL BE 95% WEED-FREE. SOD SPECIFIED AS BAHIA SHALL BE 85% WEED-FREE. ALL SOD SHALL BE INSTALLED WITH TIGHT JOINTS, ROLLED AND FERTILIZED.
4. SEED, IF ANY, TO MEET SOUTHERN SEED CERTIFICATION ASSOCIATION.
5. ALL DIMENSIONS SHALL BE FIELD-CHECKED BY THE LANDSCAPE CONTRACTOR PRIOR TO CONSTRUCTION, WITH ANY DISCREPANCIES REPORTED IMMEDIATELY TO THE LANDSCAPE ARCHITECT.
6. THE PLANT MATERIALS SCHEDULE IS PROVIDED FOR THE CONVENIENCE OF THE LANDSCAPE CONTRACTOR; SHOULD THERE BE ANY DISCREPANCY BETWEEN THE PLAN AND THE PLANT LIST, THE PLAN WILL PREVAIL.
7. ALL MATERIALS MUST BE AS SPECIFIED ON THE LANDSCAPE PLAN. IF MATERIALS OR LABOR DO NOT ADHERE TO THE SPECIFICATIONS, THEY WILL BE REJECTED AT NO ADDITIONAL COST TO THE OWNER.
8. NO SUBSTITUTIONS OR CHANGES OF ANY KIND WILL BE ALLOWED AT THE TIME OF BIDDING SO AS TO PROVIDE FOR FAIR COMPARISON.
9. EXISTING IRRIGATION SYSTEM SHALL BE REVAMPED TO PROVIDE 100% COVERAGE.
10. THE CONTRACTOR SHALL VERIFY EXISTENCE AND LOCATION OF ALL EXISTING UTILITIES AND UNDERGROUND CONDITIONS PRIOR TO HIS COMMENCEMENT OF THE ANY WORK.
11. ALL BUILDING MATERIALS AND LABOR SHALL CONFORM TO THE SOUTHERN BUILDING CODE AND ALSO TO ALL LOCAL CODES THAT HAVE JURISDICTION.
12. ALL PERMIT AND VARIANCE APPLICATIONS SHALL BE MADE BY THE CONTRACTOR.
13. PRIOR TO CONSTRUCTION OF PLANTING BEDS, ALL AREAS ARE TO HAVE SOIL TESTS CONDUCTED TO DETERMINE pH AND SOIL FERTILITY. IT IS THE RESPONSIBILITY OF THE LANDSCAPE CONTRACTOR TO AMEND THE SOIL TO MEET ADEQUATE FERTILITY AND pH FOR CORRESPONDING PLANT MATERIAL. ALL TEST RESULTS SHALL BE REPORTED TO THE LANDSCAPE ARCHITECT.
14. EQUIPMENT SHALL BE OPERATED IN A MANNER AS NOT TO INJURE OR DESTROY ANY TREES SHOWN TO REMAIN. CONTRACTOR SHALL NOT CAUSE OR ALLOW THE CLEANING OF EQUIPMENT OR MATERIAL WITHIN THE DRIP LINE OF ANY TREE OR GROUPS OF TREES TO BE RETAINED OR THOSE PROPOSED. NOR SHALL THE CONTRACTOR ALLOW THE DISPOSAL OF WASTE MATERIAL, SUCH AS PAINT, OIL SOLVENTS, ASPHALT, CONCRETE, MORTAR OR ANY OTHER MATERIAL HARMFUL TO THE LIFE OF A TREE WITHIN THE DRIP LINE OF ANY TREE OR GROUP OF TREES. NO ATTACHMENT, WIRES (OTHER THAN PROTECTIVE GUY WIRES), SIGNS, OR PERMITS MAY BE FASTENED TO A TREE.
15. ANY EXISTING TREES CREDITED TOWARDS REQUIRED BUFFERS OR LANDSCAPE REQUIREMENTS REMOVED FOR ANY REASON SHALL BE REPLACED WITH TREES MEETING CITY APPROVAL WITH REGARDS TO SPECIES AND SIZE.
16. ALL QUESTIONS CONCERNING THE PLAN AND/OR SPECIFICATIONS SHALL BE DIRECTED TO THE LANDSCAPE ARCHITECT (386) 872-7794.
17. ALL SHADE TREES AND SINGLE TRUNK UNDERSTORY TREES SHALL BE STAKED USING ARBORGUY STAKING SYSTEM FOR SINGLE STEM TREE AND ALL MULTI-TRUNK UNDERSTORY TREES SHALL BE STAKED WITH ARBORGUY MULTI-TRUNK SYSTEM.
18. ANY CHANGE IN STAKING SYSTEM MUST BE APPROVED IN WRITING BY THE LANDSCAPE ARCHITECT BEFORE BEING INSTALLED.
19. ALL UNIMPROVED AREA NOT OTHERWISE PLANTED OR MULCHED SHALL BE SODDED WITH BAHIA UNLESS OTHERWISE NOTED ON THE LANDSCAPE PLAN.
20. PLANT MATERIAL SHALL BE CLEARLY IDENTIFIED AS FLORIDA #1 OR BETTER ON EITHER LABELS OR INVOICES.
21. ALL PLANT MATERIAL SHALL BE GUARANTEED ONE YEAR AFTER ACCEPTANCE BY OWNER.
22. ALL TREES IN SOD TO BE IN A (4) FOOT MINIMUM-MULCHED RING AROUND.
23. TREES SHALL BE PLANTED SO THAT THE TRUNK FLARE IS EXPOSED AND TOPMOST ROOT IN THE ROOTBALL ORIGINATING FROM THE TRUNK IS AT SOIL SURFACE OR WITHIN THE TOP INCH OF SOIL ON THE ROOTBALL.
24. ALL PLANT SPECIFICATIONS MUST BE MET OR EXCEEDED.
25. PLANT TREE SO THAT ROOTBALL IS 1"-2" ABOVE FINISH GRADE.
26. REMOVAL OF ALL CONSTRUCTION DEBRIS, LIMEROCK, EXCESS OF BUILDERS SAND, CONCRETE AND MORTAR DEBRIS, EXISTING WEEDS AND GRASS, AND ALL FOREIGN MATERIALS IN THE PLANTING BED AND SOD AREAS SHALL BE REMOVED AND A MINIMUM OF 3" OF CLEAN SAND WITH A pH 5.5-6.5 SHALL BE INSTALLED PRIOR TO ANY INSTALLATION OF PLANTS OR TREES.
27. FOR ALL NEW DEVELOPMENT, OR REDEVELOPMENT OF EXISTING PROPERTY, THE APPLICANT SHALL BE REQUIRED TO REMOVE ALL INVASIVE NONNATIVE PLANT SPECIES FROM THE PROPERTY PRIOR TO ISSUANCE OF THE CERTIFICATE OF OCCUPANCY.
28. ALL EXISTING TREES AND PALMS WILL BE PROPERLY PRUNED AND CLEANED OF DEADWOOD, BROKEN BRANCHES, DEAD FROND AND VINES AS NEEDED.
29. PER SECTION 11.01.02.B.4 OF THE LAND DEVELOPMENT CODE, ANY EXPANSION PROJECT SHALL INCLUDE REPLACING PREVIOUSLY PLANTED REQUIRED LANDSCAPING AND REPAIR OF EXISTING IRRIGATION THAT HAS BEEN DAMAGED OR DIED. AS-BUILTS ARE AVAILABLE FROM THE CITY.

LEGEND

WETLAND AREAS ABOVE EL 12.0 WITHIN RADIUS OF INFLUENCE

RADIUS OF INFLUENCE LIMIT

WETLAND DRAWDOWN ANALYSIS

THE PROPOSED WET POND IS DESIGNED TO PASSIVELY DEWATER THE PROJECT SITE BY SETTING THE CONTROL ELEVATION BELOW THE AVERAGE GROUNDWATER TABLE ELEVATION. TO ENSURE DEWATERING THE SITE WILL NOT CREATE ADVERSE HYDROLOGIC IMPACTS TO ADJACENT WETLANDS THE WET POND RADIUS OF INFLUENCE MUST BE DETERMINED.

USING SICHARDT'S EQUATION THE POND RADIUS OF INFLUENCE WAS DETERMINED TO BE 324 FT. WETLAND DRAWDOWN WAS CALCULATED FOR THE TWO POINTS NEAREST TO THE WET POND. WETLAND AREAS BELOW EL 12.0 (POND NWL) WERE NOT CONSIDERED AS THEY ARE BELOW THE PROPOSED WATER TABLE. THE MAXIMUM DRAWDOWN IN ADJACENT WETLANDS WAS FOUND TO BE 0.00436 FT OR 0.05 INCHES. DUE TO THE NEGLIGIBLE CHANGE IN GROUND WATER LEVELS IT CAN BE CONCLUDED THAT ADJACENT WETLANDS WILL NOT BE ADVERSELY IMPACTED BY THE DRAWDOWN OF THE GROUNDWATER TABLE CAUSED BY THE POND.

CALCULATIONS ARE SHOWN IN THE TABLE BELOW.

Radius of Influence (Sichardt's Equation) & Dewatering Volumes

Project Name:	**Tymber Creek Apartments**
Location :	**Ormond Beach, Volusia County**

Variable	Value	US Units	Value	Metric Units
Hydraulic Conductivity (k)	14	ft/day	0.000049	m/sec
Aquifer Thickness (H)	100	ft	30.48	m
Depth to Groundwater	0	ft	0.00	m
Excavation Depth	10	ft	3.05	m
Pond Length (a)	266	ft	81.08	m
Pond Width (b)	150	ft	45.72	m
Number of Extraction Points (n)	1		1	
Time	1440	min	1440	min

Calculation of Radius of Influence (R_0) for an open hole

$$R_0 = 3000 \times (H - h) \times \sqrt{K}$$

h = H-(Excavation Depth - Depth to Water) =	27.43	m
H - h =	3.05	m
Radius of Influence (R_0) =	64.26	m

Calculation of Effective Radius (R_e) for rectangular excavation areas

$$r_e = \sqrt{(a \times b)/\pi}$$

r_e =	34.34997886	m

Calculation of Max Total Influence ($R_0 + r_e$) =	98.61	m
	324	ft

Drawdown at Distance (s_0)

$$s_2 = \left(\frac{Kh}{2\pi Kh \times \frac{Q}{}}\right) \times \ln\left(\frac{R}{r_2}\right)$$

r_2 (1)	249	ft
s_2 (1)	0.00417	ft
r_2 (2)	246	ft
s_2 (2)	0.00436	ft

POLE TYPE: 5" X 5" STRAIGHT SQUARE DIRECT BURIAL LIGHT POLE
STRENSBERG LIGHTING - URBANLINE
POLE HEIGHT: 20' MAXIMUM HEIGHT WITH 5' MINIMUM BURIAL
FINISH: SMOOTH BLACK OR SATIN ALUMINUM
MATERIAL: ALUMINUM

1. CONTRACTOR MUST OBTAIN CITY OF ORMOND BEACH BUILDING PERMIT FOR LIGHT POLES. CONTRACTOR SHALL BE RESPONSIBLE FOR SUBMITTING APPROPRIATE INFORMATION (ENGINEERING, SPECIFICATIONS, ETC...) FOR LIGHT FIXTURES AT TIME OF PERMIT REVIEW.
2. DESIGNED TO HANDLE A MINIMUM 140 MPH WIND SPEED, EXPOSURE B.
3. MAKE THE HOLE, GENERALLY HOLES SHALL BE ROUND WITH SMOOTH VERTICAL SIDES CONSISTING OF UNDISTURBED SOIL FOR BEST COMPACTION AND STABILITY OF POLES. DIAMETER OF POLE SHALL BE ABOUT TWICE THE DIAMETER OF THE POLE AT ITS BASE. HOLES SHALL BE AUGURED.
4. WIRE THE POLE UTILIZING APPROVED METHODS.
5. INSTALL THE POLE, IN MANY CASES COMPOSITE POLES CAN BE MANUALLY LIFTED INTO PLACE AND INSERTED INTO THE HOLE.
6. ALIGN AND LEVEL THE POLE.
7. BACKFILL THE HOLE, FILL AND TAMP EVERY 6 TO 8 INCHES OF BACKFILL, FREQUENT TAMPING IS IMPORTANT FOR INSTALLATION.

ITEM:

PBD 2022-008(A) – Zoning Map amendment, Tymber Creek Apartments, 2011 West Granada Boulevard and 36 North Tymber Creek Road

IV. NOTICE REGARDING ADJOURNMENT

NEW ITEMS WILL NOT BE HEARD BY THE PLANNING BOARD AFTER 9:00 PM UNLESS AUTHORIZED BY A MAJORITY VOTE OF THE BOARD MEMBERS PRESENT. ITEMS WHICH HAVE NOT BEEN HEARD BEFORE 9:00 PM MAY BE CONTINUED TO THE FOLLOWING THURSDAY OR TO THE NEXT REGULAR MEETING, AS DETERMINED BY AFFIRMATIVE VOTE OF THE MAJORITY OF THE BOARD MEMBERS PRESENT (PER PLANNING BOARD RULES OF PROCEDURE, SECTION 2.7).

V. PLANNING DIRECTOR'S REPORT

There was no Planning Director's report.

VI. PUBLIC HEARINGS

A. PBD 2022-008(A) – Zoning Map amendment, Tymber Creek Apartments, 2011 West Granada Boulevard and 36 North Tymber Creek Road

Mr. Steven Spraker, Planning Director, explained the applications for Items A and B submitted by Nika K. Hosseini, Esquire Cobb Cole Attorneys at Law, for:
(1) The zoning map amendment from Volusia County, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial to Planned Business Development (PBD). The subject property is approximately 19.62 acres and is located at 2011 West Granada Boulevard and 36 North Tymber Creek Road. Mr. Spraker stated that Moss Pointe is to the north of the property and to the west of the property is Indian Springs and Coquina Presbyterian Church. To the south of it is a commercial vacant parcel of 9.93 acres, and then Walgreens and their stormwater are located to the east and the south of the Volusia County stormwater pond at 40 N. Tymber Creek. He concluded that to the east of the property are single-family properties and vacant Commercial.

Mr. Spraker explained the land use and zoning process for properties. The B-8 zoning district allows a variety of commercial land uses such as retail, office, medical office, restaurants with and without drive-through windows, shopping centers and multi-family.

(2) Regarding the issuance of a development order, it was explained that the Tymber Creek Apartments Planned Business Development (PBD) seeks to allow the construction of 300 multi-family residential units and associated site improvements on 19.62 acres. Mr. Spraker detailed the application in a PowerPoint presentation.

Mr. Spraker further explained the development order process for the density of the project which starts with the Site Plan Review Committee (SPRC), and added that the neighborhood meeting for it was held on June 8, 2022. He expressed that tonight the Planning Board hears the testimony from staff, the applicants and audience members, and added that as with all agenda items, Planning Board can approve it, approve it with conditions, or deny it, and either way it will still go to City Commission on January 24, 2023, for the tentative first reading and February 7, 2023, for the second reading. Mr. Spraker explained the three thresholds where the Land Development Code (LDC) is set up so that if going over a threshold, a public hearing is required to be held. The SPRC can only approve up to 10 units per acre, and over that up to 32 has to go through the public hearing process. He continued that the density is the first threshold, the building height over 30 feet is the second threshold,

and the building length of building #10 is the third threshold trigger. The land use allows up to 471 units, the zoning allows 164 units, therefore it requires the public hearing authorization. Mr. Spraker stated that the request is for 18.29 units per acre in which does not include the Recreation/Open Space. The second threshold, the building height, allows up to 15 feet above what the zoning district allows. The last threshold explained was that the LDC states that you cannot have a multi-family building greater than 180 feet in length without obtaining a Planned Business Development. All of the other buildings are less than that, other than building #10 which is at 249 feet in length.

Mr. Spraker reviewed the traffic concerns. The access off of Tymber Creek Road was pulled. An updated traffic analysis was done in August 2022. An independent traffic reviewer was hired that said that it met the concurrency standards. Mr. Spraker reviewed the tree preservation with 7 historic trees on site that have been preserved. Fifteen (15) percent of the site is required to be saved, or 2.94 acres, and the project has preserved 25.4 percent at approximately 4.99 acres. The landscape buffers to the north and west have been exceeded over the required 20 feet. There are 2.4 acres of wetlands on site and the project has impacted under 6 percent of it. Mr. Spraker reviewed the fences and walls for the project with decorative aluminum-railing fence, PVC-vinyl fencing and masonry walls. In one of the meetings there was a comment about the balcony on building #8 overlooking into Indian Springs, therefore they rotated that building and reduced the overall building height and provided additional landscaping to shield the project.

Mr. Spraker reviewed the public benefits in the natural preservation, landscape buffers, additional plantings, restriction of access onto Tymber Creek Road and the directional turning of building #8.

Mr. Spraker reviewed the correspondence received on the project consisting of traffic, the project being an incompatible use, density concerns, project over-development, site design issues and the negative impacts on the quality of life in the west Ormond area. Mr. Spraker stated that with the elimination of building #8, staff recommends approval.

Chairman Thomas opened it up to the Board for discussion and questions.

Board questions

Ms. Shull asked for details of what would happen if the PBD was denied. Mr. Spraker replied that 36 N. Tymber Creek Road has a Volusia County zoning, therefore the land use was changed but the zoning was not changed after annexation due to the project going for a Planned Development. If the PBD is denied, it has to be assigned city-zoning by state law. He continued that within the "Residential Office Retail" land use, there are certain zoning categories that would be appropriate such as the B-1, B-9 and B-10 zoning districts which allow 10 units per acre. The "Open Space Conservation" land use designation would go to a Special Environmental zoning.

Mr. Scudiero asked for further information about the land use maximums. Mr. Spraker explained that they would not be able to meet the land use maximum and would have to ask for exceptions to height and parking and a five or six-story building would not be approved there. The height would determine the land use maximum. Mr. Spraker continued that the B-8 is a General Commercial zoning district which allows other uses by right that could go up to 430,000 square feet of commercial uses.

Mr. Galloway asked for additional explanation on the land area calculation. Mr. Spraker replied that the entire property is 19.62 acres, with the breakdown calculation at 3.20 acres of "Open Space/Conservation", 3.20 acres of "Residential/Office Retail" and the remainder at 13.22 acres of "General Commercial".

Mr. Jorczak inquired if the city has the ability to alter the zoning to Suburban Low-Density if the application is denied. Mr. Spraker answered that the application has to be consistent with the "Residential/Office Retail" land use designation and the compatible zoning designations are B-1, B-9 and B-10.

Chairman Thomas asked Mr. Spraker to explain what can go in the B-8 zoning districts. Mr. Spraker replied that the B-8 zoning district allows retail sales, shopping centers, office/retail, hair salons, and both dine-in restaurants and drive-through restaurants.

Applicant's presentation

Mr. Mark Watts, Esq., Cobb Cole Attorneys at Law, 231 N. Woodland Blvd., DeLand, explained the proposed project, stating that it has a lot of history alongside the owner of the property, Mr. Garrison McMillan, Tellus Partners, to sort through the issues of concern. Mr. Watts reviewed the proposal in a presentation and explained how on the northern piece of the property 6.40 acres was annexed in 2020 but ever assigned city-zoning and the southern piece, 13.22 acres is zoned B-8. He explained the overall proposed plan and benefits to the public including doubling the preservation area to name one. Mr. Watts reiterated the restriction on the access points with the Tymber Creek connection restriction with the Planned Business Development (PBD) so that there is not exit traffic where the right-in and right-out traffic is with Department of Transportation (DOT) approval. The proposed setbacks, buffers, and environmental considerations were detailed with 0.14 acres of impact to the 2.40 acres of existing wetlands and 7 out of 7 historic trees being preserved. Mr. Watts reviewed the parks and amenities for the proposed project.

Mr. Watts described the high level of architectural detail and redesign of the buildings to lower overall roof height from 45 feet to 39.3 feet. The applicant addressed the concerns of the line of sight of the original building design from the adjacent neighborhood, and have since redesigned to reduce the pitch of the roof and building height. Mr. Watts referenced the concern with building #8 in relativity to the proximity to the closest house to that and how a retaining wall was designed in the plan to keep it up at a certain elevation with multiple layers of screening for both buildings 8 and 9, including a landscape buffer, masonry screening wall and cedar trees along the property boundary. Mr. Watts explained how the applicants have met most of staffs' and residents' concerns where possible as well as met the traffic standards. The attempt to address the State Road 40 access concerns and a U-turn or signal strategy at the church was unsuccessful, but the proposed configuration in the staff report and Board packet was permitted through DOT.

Mr. Watts referenced staff's recommendation to remove building #8 in which the applicant agrees to do so and reduce density for the site. He added that a building farther to the east would then be the 30-unit standard, updating the overall count to 276.

Mr. Galloway asked for clarification of the height of the retaining wall and screening wall specifics. Mr. Watts stated that it was 6 feet with a 6-foot masonry screening wall, for a total of 12 to 14 feet from the existing grade for the screening and retaining

wall. The concept for the masonry screening wall, vinyl and aluminum fencing was further detailed.

Chairman Thomas opened it up to the Board for discussion where questions were answered by the Planning Director. The Avalon project was discussed and referenced in comparison with this proposal.

Chairman Thomas opened the public hearing for audience comments.

Audience Comments

Mr. Troy Railsback, 27 Indian Springs Drive, explained that he and his wife are part of the Indian Springs Homeowners' Association (HOA), which is adjacent to the northwest portion of the proposed development. He added that he is the HOA President and submitted a letter on behalf of the HOA to the Planning Board as part of the submittal packet explaining the concerns with the proposed project. Mr. Railsback asked how many apartment complexes are west of Interstate 95 in Ormond Beach. He also asked the percentage increase in density from the current City of Ormond Beach zoning to what is being proposed. He asked if the planning and development rezoning request in the overall proposed layout is solely based off highest and best used metrics for maximum development and density for this type of use on the proposed subject property.

Mr. Railsback commented that working with city staff and the developer through multiple meetings, it was identified that both buildings 8 and 9 have a severe and significant, lasting impact to the community and are not conforming to the current B-8 zoning descriptions. He added that the site layout of the buildings being close to the property lines have an overwhelming and nonconforming lasting impact to the community as proposed with the current zoning calling for natural buffering between the adjacent parcels, and added that if the current zoning and density applied, that there would be plenty of opportunity to accomplish such. He inquired what is at stake and asks what is being contemplated. Mr. Railsback stated that it is a use that is evolving within the overall area and the west side of the Interstate 95 area of Ormond Beach as well as the multi-family apartments being considered at a significantly higher density than established in the current city zoning. Mr. Railsback requested that the Planning Board and City Commission carefully set lasting and management precedent in expectations for this type of development in their decision-making process for this submittal as well as future submittals. Mr. Railsback stated that he has a significant vested interest in his home and neighborhood and feels that the Planning Board should recommend the elimination of both buildings 8 and 9 as they tower over Indian Springs just as the Granada Bridge does just outside the City Commissions home here at 22 S. Beach Street. He concluded that building 9 will be the most significantly visible building to the community of Indian Springs.

Dr. Richard Weiss, 12 Moss Point Drive, spoke to the request of expanding the Tymber Creek Apartment project from 10 units per acre to 18 units per acre, allowing for an 80 percent increase in the population density and allowing for a similar increase in the total number of residents. He continued that the land was zoned for 10 units per acre and building more would require an exception to the current zoning and will result in a major impact on the residents of the area. Dr. Weiss explained his objections beginning with what he says he has seen with the emergency rooms filled, at times unavailable hospital beds, and less access to physicians in a timely manner and the difficulty and inconvenience of that, resulting in what he calls 'life-threatening'. Dr. Weiss expressed importance on making sure that growth and the

population is accompanied by growth in the medical community as well. He pleaded to the Board not to increase the number of residents in the area without an adequate infrastructure as it is not safe. Dr. Weiss commented that most of the residents moved to the area to live in a small community to avoid the high population densities of the larger cities. He added that bringing in large number of new residents in Ormond Beach will undermine that and is supported primarily by the few who will make profit and generally opposed by the vast majority who want to live in a more open space.

Dr. Weiss added that the animals cannot speak for themselves although gifting us with their presence. He commented that he does not see deer, turkey, turtles and the myriad of other species in the large cities and urges to avoid allowing it to become their legacy. He remarked that the argument that the additional units, residents and traffic will not impact the citizens of Ormond Beach is naïve and misleading and stated that the additional automobiles, owners and renters will have unlimited consequences for the residents and spoke on the beach, roads and house erosions during storms. Dr. Weiss concluded that growth needs to be managed responsibly.

Mr. Mike Lambert, 20 Moss Point Drive, stated he has lived on Moss Pointe Drive for thirty-two years and has lived in the community of Ormond Beach his whole life, expressing to the Board that he did want them to grant the amendment. He spoke on the growth and changes over the years in the city and on the beach. In high school he was a lifeguard and surfer when he says at that time suntan oil was made locally in a bathtub and people were encouraged to go out in the sun for looks and health. Mr. Lambert exhibited his tenth nose skin cancer surgery from heeding and accepting the advice given. Mr. Lambert spoke on the Planning Boards positions and noted that their time on it is temporary although their decisions are permanent, adding his hopes for them making the right decisions. He added that the community's quality of life in the area of Moss Point, Indian Creek and Tymber Creek would change with the proposed development. Mr. Lambert stated that the traffic on Tymber Creek Road is already horrific and does not want the community further altered.

Mr. John Dietz, 10 Moss Point Drive, expressed understanding that something is going be developed on the land and how the developer has the right to build apartments. He added that he wants the developer, Planning Board, City Commission, as well as the neighborhood to be successful, but has concerns with traffic. Mr. Dietz showed the Board a traffic exhibit photograph taken Tuesday, December 6, 2022, at 7:40 a.m. He stated that he was unable to get out of the neighborhood and captured the photographs from the median. He explained that the traffic backs up southbound on Tymber Creek Road to the traffic light, filling up the double-turn lane, backing up traffic back to Breakaway Trails into the Tymber Creek development traffic light. Mr. Dietz relayed information that he heard that a new turn lane will be put on Tymber Creek on the west side to help southbound traffic. He said that drivers are impatient in the morning and speed down past the line and dive into the turn lane, suggesting an accident will occur. Mr. Dietz also mentioned that they have issues with U-turns and asked for a no U-turn sign to be placed at the intersection of Moss Pointe and Tymber Creek. He added that he understands the need for an emergency exit gate and urged to leave it locked unless there is an emergency and asked for the Board not to increase the density per the acreage guidelines.

Ms. Marian Marrese, 6 Moss Point Drive, questioned if the development would improve the welfare of the current citizens or improve the environment. She stated that she has lived in Moss Point for 32 years and commented that the road was

widened due to the people and traffic. She remarked on the numerous apartment units going in on Williamson Boulevard, from Granada Boulevard to LPGA, and how Avalon Park will be going in near Moss Point, and pleaded that the Board look out for the citizens of Ormond Beach. Ms. Marrese expressed concern with increasing the density for the proposed project.

Mr. Gary Von Glinow, 39 Indian Spring Drive, commented that he and his wife are right behind the proposed building #8 and remarked that their house is the most severely impacted by the 300-unit Tymber Creek Apartment project and buildings 8 and 9. He explained additional compatibility issues between the proposed project and Indian Springs. Buildings 8 and 9 are 45 feet tall sitting on ground much higher than Indian Springs. Building #8 looks directly down onto their pool, pool house, lanai and bedroom window. He continued that the trees occupying the land for buildings 8 and 9 and the proposed road in front of them will be removed, offering more unobstructed site lines, sounds, etc. Building #9 faces the north side of their home and can be seen from at least five other houses in Indian Springs. Mr. Von Glinow credited Mr. McMillan and his team for meeting with residents and offering field tests and solutions where possible, including rotating building #8, mitigating the compatibility concerns. Mr. Von Glinow referenced his August 11, 2022 e-mail to staff that was included in the Board staff report and suggested that whatever solutions are proposed to mitigate compatibility be field-tested by the rotation and staked positions of building #8. The field-test observation led Indian Springs residents that were present at the meeting with Mr. Garrison three weeks ago, to conclude that buildings 8 and 9 are not and cannot become compatible with Indian Springs. Mr. Von Glinow expressed his support for the project in general but expressed concern with the capability and other HOA requests in which he supports.

Mr. Michael Gentry, 10 Indian Springs Drive, referenced meetings held with the developer, Mr. Newkirk and city staff and remarked that prior to the meeting today, that he was not aware of everything in the submission proposal. He was not aware that the developer was proposing to rotate building #8. Mr. Gentry stated that if you are on the property area of the woods and walk the area of the buildings, you are able to see two houses today. He asked if citizens have rights to review the staff comments and understand what is being communicated. He referenced meetings that go on regarding the happenings of the proposal and suggested that the item be tabled until there is another neighborhood meeting with the developer, city staff, the attorney and engineer to understand the proposal for final approval.

Mr. Watts addressed the comments that were raised. In summary, he confirmed that upon resubmittal, the changes for the proposed project were included in the report posted on the City of Ormond Beach website and sent to those involved. Mr. Watts referenced the staff report where it outlines goals met by the applicant including keeping pace with demands of the housing element and future land use element to provide multi-family as a component of the growth in the City of Ormond Beach. He commented that college graduates have to have opportunity to come back into the community that they are from by offering diversified housing to be productive citizens of Ormond Beach. Mr. Watts reiterated the benefits and changes that the proposal has gone through and concluded that more intense uses can go in the subject area and asked for support of the application.

Additional Audience Comments

Chairman Thomas opened the public hearing back up for audience comments.

Mr. Troy Railsback, 27 Indian Springs Drive, requested that building #9 be eliminated or shifted as part of the consideration if it does not get eliminated. If building #8 is gone, there is area to shift building #9 to minimize its visual impacts to Indian Springs. He added that when looking through the property lines, at the site line at the end of the cul-de-sac, there are properties that are wide open, that will see the development and that will be as significant as the Granada Bridge is outside of the City Hall Chambers windows.

Mr. Watts replied that they prefer to keep the extra building because density is important for the financial aspects, but are happy to continue meeting with the Indian Springs neighborhood to work on relocating the additional building, the new building #8, and to reduce impacts.

Planning Board discussion

Chairman Thomas opened it up to the Board for discussion.

Mr. Galloway remarked that the State of Florida is growing by at least 1,000 people a day and spoke on his support property rights. He prefers elevator access over stairs but does not have a problem with apartments. Mr. Galloway advised that he will not support the proposal because of the density standpoint at the number of units requested. He warned homeowners to be careful of what could be built on the property based on the current zoning. Mr. Galloway urged to try and work something out with the existing applicant to make it better for all.

Mr. Jorczak recognized the need of diversified housing and touched on the recent recommendation on North U.S. Highway 1 for townhome construction near the Interstate 95 interchange and Plantation Oaks development, and expressed the positive development pattern in comparison to surrounding communities, credit of City Commission, staff and advisory groups. Mr. Jorczak commented on how the developer has gone above and beyond in attempting to mitigate the issues with respect to the borders and visibility issues and zoning setbacks. He added that the builder has the right to develop within the existing parameters of the density. Mr. Jorczak concurred with Mr. Galloway in not being able to support the proposal to increase the allowable density, knowing the growth that is to come out of the area to the west with the Avalon Park development.

Ms. Shull asked what zoning the property would be classified as if denied and what those zoning restrictions would be. Mr. Spraker answered likely the B-1, Professional Office-Hospital zoning district. This would allow for uses such as Office, Retail, Hospital, Multi-Family (10 units per acre), and added that the analysis had not been done as of yet. He remarked that the Planning Board would have the opportunity to discuss and decide on that matter as well. All of the possible zoning categories allow multi-family and retail uses. Mr. Spraker reiterated that there are other more intensive uses that are allowed on the property by right. Ms. Shull expressed her concern with traffic issues, knowing the area well, but does like the project itself.

Mr. Scudiero concurred with the Board and expressed the same concerns.

Chairman Thomas explained that 136 additional units are being asked for, which is among the many reasons, including traffic, of why he cannot support it. Chairman Thomas delivered reassurance that the Board is not against the apartments in general.

Board discussion ensued regarding the two schools in close proximity and a third on its way being the source of the traffic congestion.

Chairman Thomas entertained a motion.

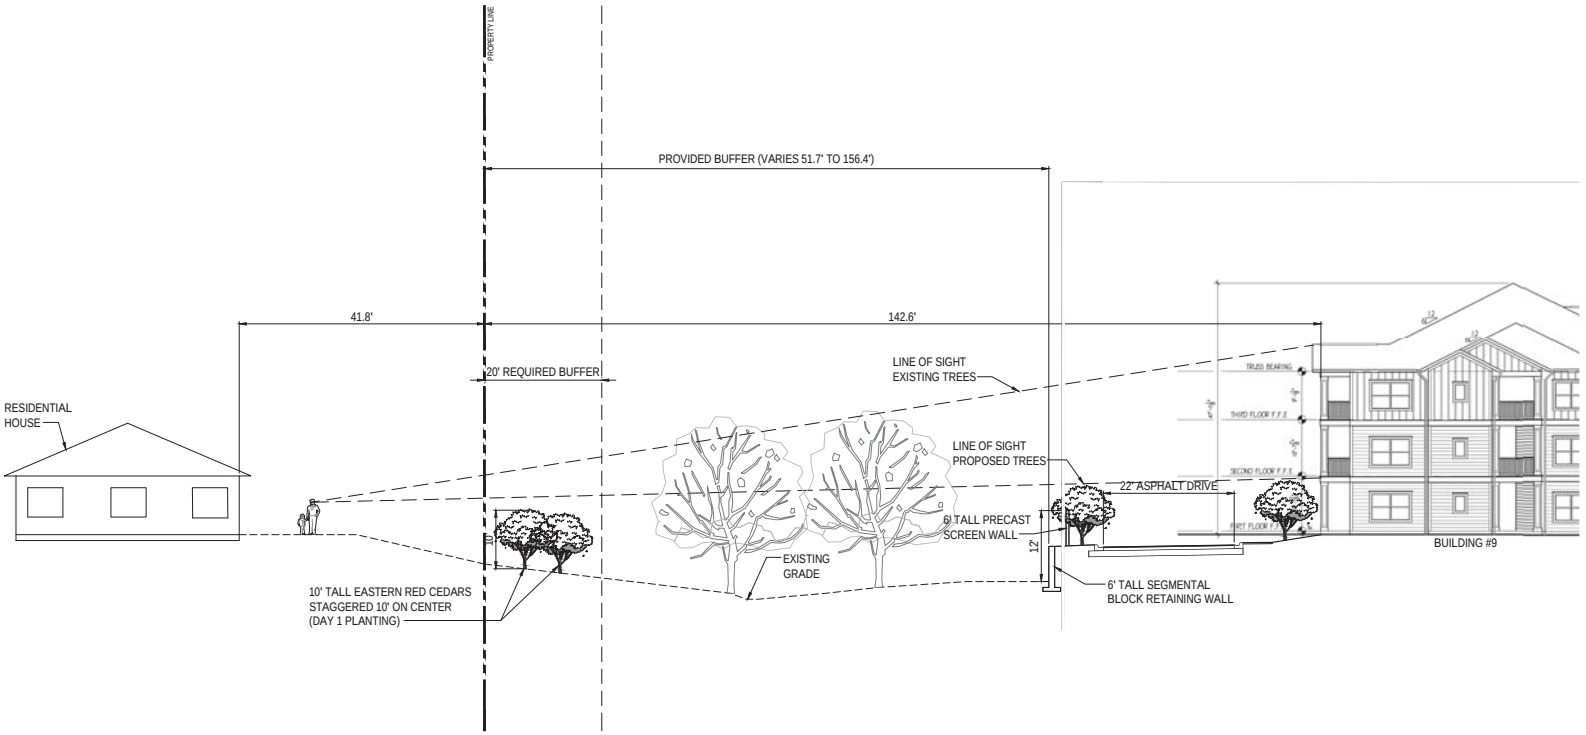
Mr. Scudiero motioned to deny PBD 2022-008(A) – Zoning Map amendment, Tymber Creek Apartments, 2011 West Granada Boulevard and North Tymber Creek Road. Mr. Galloway seconded it. Vote was called, and the motion was approved (5-0).

B. PBD 2022-008(B) – Issuance of a Development Order, Tymber Creek Apartments, 2011 West Granada Boulevard and 36 North Tymber Creek Road

Chairman Thomas concurred and entertained a motion.

Mr. Jorczak motioned to deny PBD 2022-008(B) – Issuance of a Development Order, Tymber Creek Apartments, 2011 West Granada Boulevard and 36 Tymber Creek Road. Ms. Shull seconded it. Vote was called, and the motion was approved (5-0).

Chairman Thomas called for a five (5) minute recess.



C. PBD 2022-092 – Planned Business Development, Development Order Amendment, Ormond Central Self-Storage, 1 South Old Kings Road, 760 West Granada Boulevard, no address (Volusia County parcel number: 4241-01-11-0130), and no address (Volusia County parcel number: 4241-01-11-0120)

Mr. Steven Spraker, Planning Director, explained the request submitted by the property owner, Ormond Central Investors, LLC, for a Planned Business Development amendment (PBD) which seeks to allow two amendments; (1) a three-story indoor self-storage use with a building of 106, 140 square feet and associated site improvements as an allowed use within the Ormond Central property, and two (2) to amend the allowed Floor Area Ratio (FAR) from 55,000 square feet to 131,140 square feet for the entire Ormond Central Property. The subject property is approximately 8.73 acres. Mr. Spraker stated that it already has a Planned Development zoning and has gone through SPRC, two neighborhood meetings, and now goes through the Planning Board with the recommendation going on to City Commission. The land use is Residential/Office Retail with a zoning of Planned Business Development (PBD). Mr. Spraker added that in 2017 there was a PBD that approved a master planned development including a spine road and a master storm water system including four lots for development. The development order included the B-9 uses and retail, pharmacy, bowling center and restaurant types with detailed conditions of no truck traffic on Old Kings Road. The 75-foot building height was brought down to 45 feet and established a Floor Area Ratio (FAR) for a maximum of 55,000 square feet. Mr. Spraker stated that the project is underway for the infrastructure improvements currently with the spine road, stormwater pond, and now getting the lots ready for the infrastructure.

Mr. Spraker stated that the landscape plan has been upgraded as a result of the neighborhood meeting. Regarding traffic, it was advised that the original development order approved a 24,000-square-foot retail building in unit 1, the traffic study allowed 2,700 daily average trips, and when taking the passerby and internal capture, leaves 1,777 average new daily trips. He added that the project civil engineer provided a trip generation of 265 trips which is an 85 percent reduction based on the self-storage use.

Anyone who lives in this area realizes adding more density to vacant land is a huge mistake. Traffic in the area has increased drastically already. All the building in nearby Daytona is going to make it worse. Then throw in Avalon Park for a stand still Granada Blvd.

Because of the clear cutting of land, our environment is declining. Trees provide us with needed cleaning of our air and so much more. Where are the poor animals going to live?

So, why does our area need this apartment complex? It does NOT fit our area. All the homes around here are single family. Why can't that be considered instead of hordes of apartments? That would minimize impact. Where are the trees to absorb the rain and prevent flooding? Where will the animals live to keep nature in balance?

And when is Volusia County going to become concerned about the environment instead of more money in the coffers. We need more green space, not less. We voted for more Green Space.

Seems like no one cares about destroying Ormond Beach. Please DO NOT approve this project.

Thank you for reading my concerns.

To Whom it may concern
Being a resident of Ormond Beach for over thirty years I am disheartened by all the development that has been allowed in our community.
Now someone is wanting to build apartments in an area that is all homes?? WHY!!??
That area does NOT need 300 hundred more cars in and out on Tymber Creek and SR40. To me that is ridiculous. Please take into consideration the impact that building apartments in this area will have on the value of the homes in the area. I do NOT believe that this is in the best interest of our community.
Building these apartments is a very bad idea. If it were up to me to put my vote in it would definitely be NO!!
Thank You

I am totally against the building of apartments at the timber Creek project. The resident density and increased traffic is unreasonable for our area, not to mention the strain on our water supplies and infrastructure. I urge the board to turn this project down.

Subject: 101 Fiesta Drive, Small-Scale Land Use Map Amendment and Zone Change Request
Date: Wednesday, December 7, 2022 1:14:04 PM

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello, Steven -

I'm a fairly new resident of Fiesta Heights, having moved to 111 Pinion Circle two years ago. I became aware of the land use and zone change request for 101 Fiesta Drive when my neighbor notified me about it a few days ago, and today I read over the staff reports and applications and walked to the property to do an onsite visit.

First off, thank you for the very thorough and thoughtful research regarding both requests. You presented both sides of the equation quite well and I appreciated that. Because I'm relatively new to the area, I don't have the institutional memory that many of my neighbors have about this subdivision and the adjoining office building. At the same time I do have some concerns which are largely based on my understanding that zone changes cannot be approved with conditions. In other words, even though the applicant is proposing that 101 Fiesta Drive be used for a parking lot, they could still be entitled to all the uses allowed in the proposed B-1 rezoning category. They are certainly stating that they only intend to construct a parking lot on the site, but are there any legally mandated guarantees that would preclude another office building from being constructed on the property in the future?

Aside from the potential for the rezoning to open up the lot to other uses in the B-1 zoning district, my concerns focus on the proposed parking lot's access, lighting, landscaping, and drainage. I am very glad to see that there would be a required neighborhood meeting and Site Plan Committee review before any lot development can occur, assuming the requests are approved. There is definitely a need for conversations among all parties before this moves forward: residents, Site Plan Committee, and the applicant. I would ask that these items be addressed:

Access: Looking at the site plan, it does not appear that the proposed parking lot will have access to Fiesta Drive. This must be confirmed, because we live in a residential neighborhood that is 100 percent built out. That corner does not need additional traffic on it that is not related to the subdivision itself.

Lighting: This is a critical issue, because no one wants parking lot lights shining into their windows at all hours of the night. Plans for lighting, if any, needs to be worked out with adjoining neighbors.

Landscaping: The site plan proposes several trees, vegetation, and fencing. This should help decrease vehicle noise to nearby residents. How are they enforced, and is there a timeline for their completion? Is there a requirement for the type of fencing that would be constructed to separate the parking lot from adjoining residential land uses?

Drainage: With the amount of storms and rain this area experiences, how will drainage be managed since the lot will be largely paved?

To sum up, this is a well established neighborhood that has been in existence since 1960 and upward (my house was built in 1978, which I believe was the last filing timeframe for the subdivision). The existing residential land use has been in place since before The Trails was developed, other area commercial development occurred, and perhaps before the office building at 801 West Granada was constructed. There is considerable concern that the proposed map amendment and zone change will have negative impacts on the residential subdivision due to further encroachment of nonresidential uses into the neighborhood. This must be carefully considered as part of the Planning Board and City Council discussions. If the requests are approved, there must be protections in place for the adjoining homes so that this subdivision continues to have the feel and character of a residential community.

Thank you for your consideration.

Subject: Proposed Tymber Creek Apartment Complex
Date: Thursday, December 8, 2022 12:45:16 PM

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Mr. Spraker

I am writing to you to have my thoughts shared with the members of the Planning Board regarding the proposed apartment complex.

My husband and I grew up in the Coral Gables/Coconut Grove area of Miami, Fl. In the mid-80's we watched the area boom and also become the home of the "cocaine cowboys". As a real estate broker there, our clients were no longer the move up or downsize for retirement in the area....no they were the sell and move out clients. After researching different areas of the state, we chose Ormond Beach as our home to relocate to, start our business over and raise our 2 sons, 3 and 5, at the time. This area reminded us of the community minded area we had grown up in.

The proposed development into a 300 unit apartment complex behind Walgreens will essentially change that quality of life for many residents on the west side of Ormond Beach. With rents being on the unaffordable side, you have the potential of 4 adults living in a 2 bedroom unit creating the potential for not just 600 additional cars on the road but much more than that. impacting Tymber Creek Road, Airport Road and SR 40. You have the potential of overcrowding Pathways Elementary which already has a student:teacher ratio of 14:1. Yes, that is higher than the state average of 17:1 but remember Miami, Orlando, Ft Lauderdale, Jacksonville & Tampa are included and they are densely populated cities. I do not believe the residents of Ormond Beach want to become another Orlando or Miami.

What about our infracstructure impact? What about the additional services that will be needed?

This proposal may be for the highest use of this property but it is not the best use. We are sorely lacking in a nice Trails North Forty or South Forty style of home here ....I understand the property is currently zoned for a much lower density.....let's stick with that!

Thank you for your time.

Sincerely,

Maria Lewis

Subject: RidgeHaven Subdivision, Zoning Map Amendment (SECOND READING)

Commission Goal: Transportation & Community Development - Other

Introduction

This is a request from RidgeHaven, LLC, with authorization of the property owner, Snilloc Family Limited Partnership Number One, for a zoning map amendment from Volusia County R-4, Urban Single-Family Residential and Ormond Beach B-8, Commercial to Ormond Beach PRD, Planned Residential Development, for 103.45 acres. The proposed RidgeHaven subdivision is located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision and includes the following Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020,3136-01-23-0060, and 3136-01-24-0050.

Background

The RidgeHaven subdivision includes nine parcels (Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050) that total 103.45 acres. Within the RidgeHaven subdivision land area there are eight (8) parcels individually owned (not owned by RidgeHaven) totaling approximately 5.7 acres. Seven (7) parcels are vacant and one parcel fronting Plantation Oaks Boulevard is developed with a single-family home. The RidgeHaven subdivision was located in unincorporated Volusia County with a desire to construct a subdivision. Representatives of the RidgeHaven subdivision had two options for subdivision development: (1) remain in unincorporated Volusia County and have Ormond Beach provide the project utilities or (2) become part of the North U.S. Highway 1 Interlocal Service Boundary Agreement (ISBA) area and develop the subdivision in Ormond Beach. The ISBA allows the annexation of land while creating enclaves that remain in unincorporated Volusia County. The City Commission adopted the original North U.S. 1 ISBA on August 19, 2014 per Ordinance 2014-27. Concurrently, the Volusia County Council adopted the ISBA on August 21, 2014 by Volusia County Ordinance 2014-12.

The original ISBA established the Municipal Service Area (MSA) and joint planning and service delivery agreement to the North U.S. Highway 1 area. The first amendment to the North U.S. 1 ISBA was approved to add the land associated with Plantation Oaks Subdivision and the 13 enclaves surrounding the subdivision to the adopted MSA. On August 20, 2019, the City Commission adopted the first amendment to the North U.S. Highway 1 ISBA. The Volusia County Council subsequently adopted the agreement on September 17, 2019. The City of Ormond Beach (December 7, 2021 with Ordinance 2021-43) and Volusia County (February 15, 2022 with Ordinance 2022-9) approved the second amendment to the North U.S. Highway 1 ISBA to add the land associated with the RidgeHaven subdivision and the individually owned parcels not owned by RidgeHaven to the adopted MSA. During the County Council presentation and discussion, the RidgeHaven representative and city staff committed to establishing a limitation of 298 dwelling units for the entire RidgeHaven area. On March 22, 2022, the City Commission approved Ordinance 2022-05 that annexed the RidgeHaven subdivision. With the ISBA and annexation approved, the next step for the RidgeHaven project was the assignment of a city land use designation.

For the existing land use entitlements, Volusia County staff analysis calculated a range of residential development of 716 to 1,052 dwelling units. The existing land use required a minimum of four units per acre. The city land use designation occurred with three separate actions.

Ordinance 2022-14 adopted July 19, 2022: The Ordinance amended the Future Land Use Element of the Comprehensive Plan to incorporate the second ISBA and provide a text limitation within Policy 9.1.4 that states the RidgeHaven land area shall not exceed 3 units per acre and no more than 298 dwelling units for the entire RidgeHaven property. The maximum theoretical residential density was reduced by 754 residential units. For the non-RidgeHaven properties, the Ordinance included the text restriction that these parcels would maintain a maximum gross residential density of eight (8) units per acre – the same density that existed in unincorporated Volusia County.

Ordinance 2022-18, adopted August 3, 2022: The Ordinance authorized the following actions:
Amended the Future Land Use Map designation for the RidgeHaven subdivision property (totaling 84.26 acres) from Volusia County “Urban Medium Intensity” (UMI) to Ormond Beach “Low Density Residential” (LDR). The Ordinance included the map annotation that the RidgeHaven subdivision would have a density restriction of three (3) units per acre and shall not exceed 298 residential units for the entire RidgeHaven subdivision; and

Amended the Future Land Use Map designation of the properties not associated with the RidgeHaven development from UMI to Ormond Beach “Medium Density Residential” (MDR). The Ordinance included the map annotation that these parcels would maintain a maximum gross residential density of eight (8) units per acre – the same density that existed in unincorporated Volusia County.

Ordinance 2022-12, adopted August 3, 2022: This Ordinance was for 19.19 acres owned by the RidgeHaven subdivision applicant that was part of the original ISBA area. The Ordinance amended the Future Land Use for the property from “Low Intensity

Commercial" (LIC) to MDR. The Ordinance contained a condition that the density shall be restricted to eight (8) units per acre within the 19.19 acres and the RidgeHaven subdivision including the 84.26 acres shall not exceed 298 residential units.

In summary, the project has:
-Amended the ISBA to allow annexation and development under Ormond Beach development standards;
-Annexed 103.45 acres, which is the RidgeHaven subdivision.
-Amended the land uses of two land areas from Volusia County "Urban Medium Intensity" (UMI) to "Low Density Residential" (LDR) and Ormond Beach "Low Intensity Commercial" (LIC) to "Medium Density Residential" (MDR) with a maximum development scenario of 298 residential units.
-Reduced the potential maximum residential development as allowed under the Volusia County "Urban Medium Intensity" (UMI).
-The ISBA land use amendment has amended the land use of the non-RidgeHaven outparcels to the same density (8 units per acre) as allowed under the Volusia County land use.

Discussion

The application seeks to allow 286 residential units as a Planned Residential Development. The Planned Residential Development is reviewed and acted upon as two (2) separate actions:

1. **Zoning map amendment from Volusia County R-4, Urban Single-Family Residential and Ormond Beach B-8, Commercial to Ormond Beach PRD, Planned Residential Development. The zoning map amendment is the action sought for this staff report; and**
2. Issuance of a development order to construct 286 residential units and associated site improvements on 103.45 acres.

The two (2) actions will be discussed together at the public hearing and will require separate votes. The zoning map amendment is the application under consideration in this report. The zoning map amendment does not approve any specific development, but instead the framework for the issuance of the development order. The issuance of a development order contains site plans and project reports that detail the specific development. The items are intertwined and if there is a desire to approve or approve with conditions the issuance of the development order, then the zoning map amendment needs approval first. If there is a desire to deny the issuance of the development order, then the zoning map amendment should also be denied.

There are two other applications related to the project that are scheduled for the June 6, 2023 City Commission agenda:

1. Preliminary Plat. Section 1-22 of the Land Development Code defines a preliminary plat as "a proposed subdivision plan that in an exact and precise manner in which it may be evaluated pursuant to this Land Development Code and the comprehensive plan." Preliminary plats are not required with a planned development, however, this application has developed and submitted the preliminary plat with the zoning action. The preliminary plat contains the plat

document and the detailed subdivision engineering plan.

2. Partial plat vacation. The project is located with a 1926 plat with existing street layouts. The partial plat vacation would vacate portions of the 1926 plat and update to the RidgeHaven subdivision plat. The outparcels within the RidgeHaven subdivision would always have access to their property.

Chapter 1, Article II, Section 1-18(e)(3) of the Land Development Code states that the City Commission shall consider rezonings based on the consistency with the Comprehensive Plan. The zoning map amendment is consistent based upon the following points:

- The impacts on facilities and services will not increase as a result of the requested zoning amendment from Volusia County R-4, Urban Single-Family Residential and Ormond Beach B-8, Commercial to Ormond Beach PRD, Planned Residential Development for 103.45 acres; and
- The zoning request is consistent with the compatibility matrix outlined in the Land Development Code for the Future Land Use Plan Map designation of “Low Density Residential” and “Medium Density Residential”.

Planning Board

The Planning Board reviewed the zoning map amendment at the April 13, 2023 meeting and recommended approval with a 5-1 vote. There were three individuals who spoke before the Planning Board regarding the subdivision development. One individual sought additional screening of their property abutting a cul-de-sac which the applicant agreed with and the Planning Board made part of the approving motion for the issuance of the development order. Two individuals addressed the Planning Board expressing concern regarding the project and the potential impacts on the Ormond Lakes stormwater system. The applicant detailed how the stormwater management plan reduces both the rate and volume of stormwater discharge post site development compared to the pre-development conditions. The project engineer stated that stormwater has been re-directed into the Plantation Oaks stormwater system versus the pre-development condition of discharge to the Village of Pine Run and eventually through the Ormond Lakes stormwater system. City staff also verified that the adopted Stormwater Master Plan has a planned stormwater study of the Ormond Lakes area. There were no specific comments on the zoning map amendment. The Planning Board minutes are attached to this item.

Budget Impact

There is no budget impact as the result of this zoning map amendment.

Citizen Impact

The project has undergone a substantial path in order to develop in Ormond Beach versus unincorporated Volusia County. The project has voluntarily reduced the density of what was allowed under the Volusia County land use and zoning entitlements. It is not anticipated that the zoning map amendment would have negative citizen impacts because the agenda item only provides a framework of zoning for the issuance of the development order.

Recommendation

The Planning Board recommended the City Commission APPROVE the zoning map amendment from Volusia County R-4, Urban Single-Family Residential and Ormond Beach B-8, Commercial to Ormond Beach PRD, Planned Residential Development for 103.45 acres. The proposed RidgeHaven subdivision is located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision and includes the following Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020,3136-01-23-0060, and 3136-01-24-0050

ORDINANCE NO. 2023-25

AN ORDINANCE AMENDING PARAGRAPH C, OFFICIAL ZONING MAP, OF SECTION 2-01, ESTABLISHED, OF ARTICLE 1, ESTABLISHMENT OF ZONING DISTRICTS AND OFFICIAL ZONING MAP, OF CHAPTER 2, DISTRICT AND GENERAL REGULATIONS, OF THE CITY OF ORMOND BEACH LAND DEVELOPMENT CODE, BY AMENDING THE OFFICIAL ZONING MAP TO REZONE NINE (9) CERTAIN PARCELS OF REAL PROPERTY TOTALING APPROXIMATELY 103.45 ACRES LOCATED SOUTH OF PLANTATION OAKS BOULEVARD, EAST OF ADDISON DRIVE, NORTH OF THE VILLAGE OF PINE RUN SUBDIVISION, AND WEST OF THE PLANTATION OAKS SUBDIVISION (VOLUSIA COUNTY PARCEL NUMBERS: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, AND 3136-01-24-0050) FROM VOLUSIA COUNTY R-4, URBAN SINGLE-FAMILY RESIDENTIAL, AND ORMOND BEACH B-8, COMMERCIAL, TO ORMOND BEACH, PLANNED RESIDENTIAL DEVELOPMENT; AUTHORIZING REVISION OF OFFICIAL ZONING MAP; REPEALING ALL INCONSISTENT ORDINANCES OR PARTS THEREOF; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, Ridgehaven, LLC, a Florida Limited Liability Company, and Snilloc Family Limited Partnership Number One, a Florida Limited Partnership, are the owners of parcels of real properties ("Property Owners") located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision (Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-

01-23-0060, and 3136-01-24-0050), as more particularly described and depicted in Exhibit "A" attached hereto and incorporated herein ("Property"), and

WHEREAS, RidgeHaven, LLC, with authorization of Snilloc Family Limited Partnership Number One, has submitted an application to the city for a zoning map amendment for the Property from Volusia County R-4, Urban Single-Family Residential, and Ormond Beach B-8, Commercial, to Ormond Beach Planned Residential Development (PRD), and

WHEREAS, the Property to be re-zoned is more than ten contiguous acres, consisting of approximately 103.45 contiguous acres, and

WHEREAS, the Planning Board held a public hearing regarding this matter as required by Chapter 1, Article II, Section 1-15(d)(3), of the *Land Development Code*, and

WHEREAS, the City Commission held a public hearing regarding this matter as required by Section 166.041(3)(c)(2), *Florida Statutes*, and

WHEREAS, all applicable legal notice requirements have been complied with, and

WHEREAS, the City Commission finds the proposed rezoning to be consistent with the Future Land Use Element, and the Future Land Use Map, of the City's adopted *Comprehensive Plan*, now therefore,

BE IT ENACTED BY THE PEOPLE OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The foregoing recitals are incorporated herein as the findings of the City Commission.

SECTION TWO. Paragraph C, Official Zoning Map, of Section 2-01, Established, of Article I, Establishment of Zoning Districts and Official Zoning Map, of Chapter 2, District and General Regulations, of the *Land Development Code* of the City of Ormond Beach, Florida is hereby amended by amending the Official Zoning Map, to change the zoning designation of the property described and depicted on Exhibit "A" (Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050) from Volusia County R-4, Urban Single-Family Residential, and Ormond Beach B-8, Commercial, to Ormond Beach Planned Residential Development (PRD), as shown and depicted in Exhibit "B".

SECTION THREE. All Ordinances or parts of Ordinances in conflict herewith are hereby repealed to the extent of such conflict.

SECTION FOUR. This Ordinance shall be effective immediately upon its adoption.

PASSED UPON at the first reading of the City Commission, this 16th day of May, 2023.

PASSED UPON at the second and final reading of the City Commission, this 6th day of June, 2023.

RIDGEHAVEN DESCRIPTION:
ALL OF BLOCKS 1, 2, 23, 26, 27, 28, 29, 30, 31, 32, 33, 40, 41, 42, 43 AND 44, AND THOSE PORTIONS OF BLOCKS 3, 4, 5, 6, 22, 24, 25 AND 39 AND THE PUBLIC AND VACATED ROADS AND ALLEYS, REVISED PLAT OF NATIONAL GARDENS, AS RECORDED IN MAP OR PLAT BOOK 10, PAGES 250 THROUGH 253, PUBLIC RECORDS OF VOLUSIA COUNTY, FLORIDA, IN SECTION 36, TOWNSHIP 13 SOUTH, RANGE 31 EAST, VOLUSIA COUNTY, FLORIDA, LYING WITHIN THE FOLLOWING DESCRIBED BOUNDARY:

BEGIN AT THE NORTHEAST CORNER OF SAID REVISED PLAT OF NATIONAL GARDENS, BEING ALSO THE NORTHEAST CORNER OF SECTION 36, TOWNSHIP 13 SOUTH, RANGE 31 EAST; THENCE RUN S02°04'17"E ALONG THE EASTERLY LINE OF SAID REVISED PLAT OF NATIONAL GARDENS AND THE EAST LINE OF SAID SECTION 36, A DISTANCE OF 2615.20 FEET TO THE NORTHERLY RIGHT OF WAY LINE OF ADDISON DRIVE; 60.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE S87°52'25"W ALONG SAID NORTHERLY RIGHT OF WAY LINE, 1804.88 FEET TO THE NORTHERLY RIGHT OF WAY LINE OF ATLANTIC ROAD, A 60.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N49°49'07"W ALONG SAID NORTHERLY RIGHT OF WAY LINE, 149.89 FEET TO THE EASTERLY RIGHT OF WAY LINE OF GOWER STREET, 60.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N40°10'53"E ALONG SAID EASTERLY RIGHT OF WAY, 256.33 FEET TO THE EASTERLY EXTENSION OF THE SOUTHWESTERLY LINE OF LOT 1, BLOCK 39, SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N50°41'00"W ALONG SAID EASTERLY EXTENSION AND ALONG THE SOUTHWESTERLY LINE OF SAID LOT 1, A DISTANCE OF 426.00 FEET TO THE BEGINNING OF A NON-TANGENT CURVE AND A POINT ON THE EASTERLY RIGHT OF WAY LINE OF PLANTATION OAKS BOULEVARD, FORMERLY BROADWAY, 100.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; SAID NON TANGENT CURVE BEING CONCAVE NORTHWESTERLY, HAVING A RADIUS OF 763.96 FEET, A CENTRAL ANGLE OF 18° 21'39" AND A CHORD BEARING OF N07°02'04"E; THENCE NORTHERLY ALONG SAID EASTERLY RIGHT OF WAY LINE AND THE ARC OF SAID CURVE, 244.82 FEET TO THE POINT OF TANGENCY; THENCE N02°08'46"W ALONG SAID EASTERLY RIGHT OF WAY LINE, 874.48 FEET TO THE MONUMENTED SOUTHERLY LINE OF LOT 3, BLOCK 22, SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N87°48'07"E ALONG SAID SOUTHERLY LINE, 345.12 FEET TO THE MONUMENTED SOUTHEAST CORNER OF SAID LOT 3; THENCE N02°07'59"W ALONG THE EASTERLY LINE OF SAID LOT 3, A DISTANCE OF 90.47 FEET TO THE MONUMENTED NORTHEAST CORNER OF SAID LOT 3; THENCE S87°51'51"W ALONG THE MONUMENTED NORTHERLY LINE OF SAID LOT 3, A DISTANCE OF 345.14 FEET TO THE EASTERLY RIGHT OF WAY LINE OF SAID PLANTATION OAKS BOULEVARD; THENCE N02°08'46"W ALONG SAID EASTERLY RIGHT OF WAY LINE, 20.19 FEET TO A BEING THE BEGINNING OF A TANGENT CURVE, CONCAVE EASTERLY, HAVING A RADIUS OF 1096.00 FEET, A CENTRAL ANGLE OF 26°52'48" AND A CHORD BEARING N11°17'38"E; THENCE NORTHERLY ALONG SAID EASTERLY RIGHT OF WAY LINE AND ALONG THE ARC OF SAID CURVE, 514.18 FEET TO THE POINT OF TANGENCY ; THENCE N24°44'02"E ALONG SAID EASTERLY RIGHT OF WAY LINE, 31.37 FEET TO THE SOUTHERLY LINE OF TRACT "W", SAID PLANTATION OAKS OF ORMOND BEACH – UNIT 1, RECORDED ON MAP BOOK 59, PAGES 138–154; THENCE N87°55'16"E ALONG SAID SOUTHERLY LINE, 1308.48 FEET TO THE EASTERLY LINE OF SAID TRACT "W" AS NOW MONUMENTED; THENCE N02°05'34"W ALONG SAID MONUMENTED EASTERLY LINE, 298.88 FEET TO THE NORTHERLY LINE OF SAID REVISED PLAT OF NATIONAL GARDENS AND THE NORTH LINE OF SAID SECTION 36; THENCE N88°20'29"E ALONG SAID NORTHERLY LINE, 585.53 FEET TO THE POINT OF BEGINNING.

LESS AND EXCEPT LOTS 1, 2 AND 3, BLOCK 24 AND LOTS 3, 4, 5 AND 6, BLOCK 25, SAID REVISED PLAT OF NATIONAL GARDENS, MORE PARTICULARLY DESCRIBED AS THE FOLLOWING:
BEGIN AT THE NORTHWEST CORNER OF SAID LOT 1, BLOCK 24; THENCE RUN N88°21'33"E, 345.20 FEET TO THE NORTHEAST CORNER OF SAID LOT 1; THENCE S02°06'23"E, 180.76 FEET TO THE SOUTHEAST CORNER OF SAID LOT 2, BLOCK 24, BEING THE NORTHWEST CORNER OF SAID LOT 3, BLOCK 25; THENCE N88°19'26"E, 345.16 FEET TO THE NORTHEAST CORNER OF SAID LOT 3; THENCE S02°05'34"E, 361.11 FEET TO THE SOUTHEAST CORNER OF SAID LOT 6, BLOCK 25; THENCE S88°15'13"W, 345.07 FEET TO THE SOUTHWEST CORNER OF SAID LOT 6; THENCE N02°06'23"W, 271.15 FEET TO THE NORTHWEST CORNER OF SAID LOT 4, BLOCK 25, BEING THE SOUTHEAST CORNER OF SAID LOT 3, BLOCK 24; THENCE S88°18'23"W, 345.14 FEET TO THE SOUTHWEST CORNER OF SAID LOT 3; THENCE N02°07'12"W, 271.46 FEET TO THE POINT OF BEGINNING.

THE NET AREA OF THE ABOVE DESCRIBED BEING 103.450 ACRES, MORE OR LESS.

SURVEYORS NOTES

1. NOTICE: THIS SURVEY WAS PREPARED WITH BENEFIT OF A COMMITMENT FOR TITLE INSURANCE ISSUED BY OLD REPUBLIC NATIONAL TITLE INSURANCE COMPANY, COMMITMENT #1016422; ISSUING OFFICE #3714601, FILE #2832–17 DATED FEBRUARY 10, 2021 AT 11:00 PM..
2. DIMENSIONS ARE SHOWN IN FEET AND DECIMALS THEREOF.
3. BEARING STRUCTURE BASED ON NAD 83, FLORIDA STATE PLANE, EAST ZONE, U.S. SURVEY FOOT, WITH THE BEARING ON THE EAST LINE OF SECTION 36 BEING S02°04'46E.
4. UNDERGROUND FOUNDATIONS, IF ANY, NOT LOCATED.
5. ELEVATIONS REFER TO N.A.V.D. OF 1988, PER NGS MONUMENT DESIGNATION X–226 HAVING A PUBLISHED ELEVATION OF 28.48' NAVD 88. (NGVD 30.573 FEET)
6. THIS PROPERTY IS LOCATED IN FLOOD INSURANCE RATE MAP (F.I.R.M.) ZONE "X". THIS LOCATION IS DETERMINED BY SCALING FROM F.I.R.M. MAP NO. 12127C0203K. MAP EFFECTIVE DATE: SEPTEMBER 29, 2017. APPROXIMATE SCALE: 1"=500'.
7. "NOT VALID WITHOUT THE SIGNATURE AND THE ORIGINAL RAISED SEAL OR ELECTRONIC SIGNATURE OF A FLORIDA LICENSED SURVEYOR AND MAPPER."
8. UNLESS OTHERWISE SHOWN, RECORD DISTANCES AND DIRECTIONS AND FIELD MEASURED DISTANCES AND DIRECTIONS ARE THE SAME.
9. THE PORTION OF PENNSYLVANIA AVENUE SHOWN HEREON AS VACATED (PER ORB 5498, PAGE 1745)(VOLUSIA COUNTY RESOLUTION 2005–15) HAS BEEN INCLUDED IN THIS BOUNDARY SURVEY ALTHOUGH IT WAS NOT INCLUDED IN THE DESCRIPTION PROVIDED BY THE TITLE COMPANY IN THE COMMITMENT SHOWN IN NOTE #1 ABOVE.
10. THE VERTICAL RELIEF SHOWN HEREON IS BASED ON A GROUND SURVEY PERFORMED BY SLIGER & ASSOCIATES, INC.

ZONING MAP
RIDGEHAVEN

Prepared By: The City of Ormond Beach
G.I.S. Department - March 15, 2023

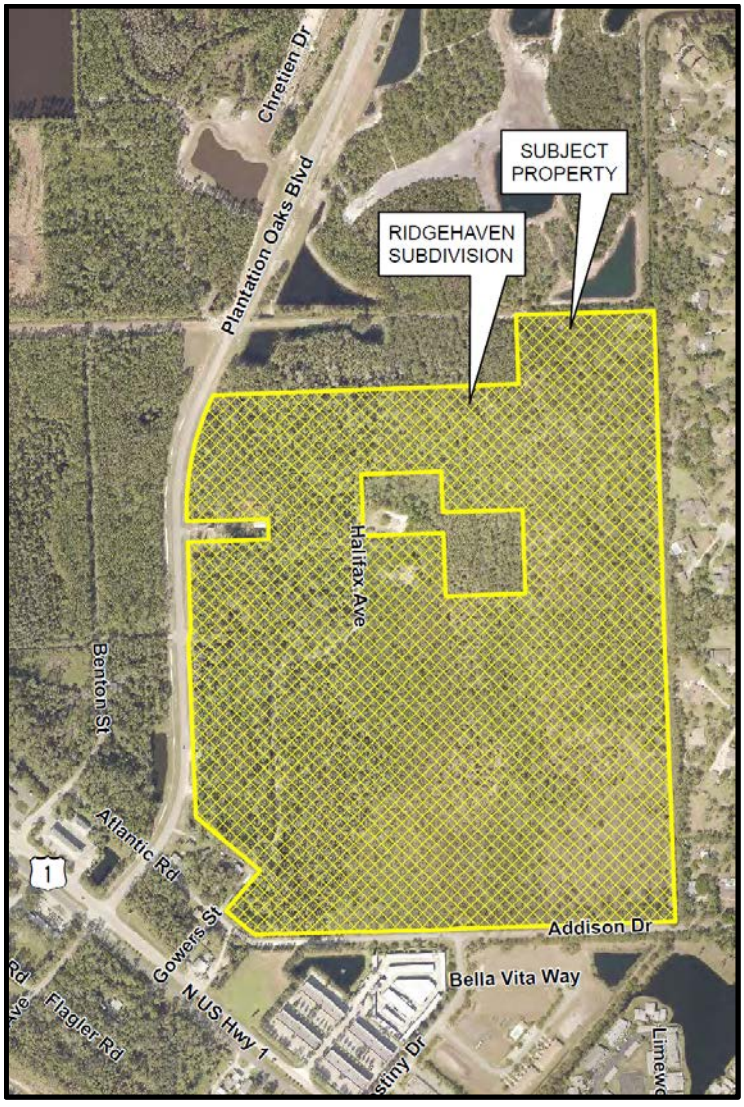
N.T.S.

STAFF REPORT

City of Ormond Beach
Department of Planning

MEETING DATE: April 13, 2023

SUBJECT: RidgeHaven Subdivision: **Zoning Map Amendment to Planned Residential Development**



APPLICANT: RidgeHaven, LLC, with authorization of the property owner, Snilloc Family Limited Partnership Number One

NUMBER: ZMA 2022-061(A)

PROJECT PLANNER: Steven Spraker, AICP, Planning Director

SECTION 1: INTRODUCTION: This is a request from RidgeHaven, LLC, with authorization of the property owner, Snilloc Family Limited Partnership Number One, for a zoning map amendment from Volusia County R-4, Urban Single-Family Residential and Ormond Beach B-8, Commercial to Ormond Beach PRD, Planned Residential Development, for 103.45 acres. The proposed RidgeHaven subdivision is located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision and includes the following Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020,3136-01-23-0060, and 3136-01-24-0050. The subject property is shown in Exhibit 1.

EXHIBIT 1: RidgeHaven subdivision location map

SECTION 2, BACKGROUND: The RidgeHaven subdivision includes nine parcels (Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050) that total 103.45 acres. Within the RidgeHaven subdivision land area there are eight (8) parcels individually owned (not owned by RidgeHaven) totaling approximately 5.7 acres. Seven (7) parcels are vacant and one parcel fronting Plantation Oaks Boulevard is developed with a single-family home. The RidgeHaven subdivision was located in unincorporated Volusia County with a desire to construct a subdivision. Representatives of the RidgeHaven subdivision had two options for subdivision development: (1) remain in unincorporated Volusia County and have Ormond Beach provide the project utilities or (2) become part of the North U.S. Highway 1 Interlocal Service Boundary Agreement (ISBA) area and develop the subdivision in Ormond Beach. The Interlocal Service Boundary Agreement allows the annexation of land while creating enclaves that remain in unincorporated Volusia County.

The City Commission adopted the original North U.S. 1 Interlocal Service Boundary Agreement on August 19, 2014 per Ordinance 2014-27. Concurrently, the Volusia County Council adopted the Interlocal Service Boundary Agreement on August 21, 2014 by Volusia County Ordinance 2014-12. The original Interlocal Service Boundary Agreement established the Municipal Service Area (MSA) and joint planning and service delivery agreement to the North U.S. Highway 1 area. The first amendment to the North U.S. 1 Interlocal Service Boundary Agreement was approved to add the land associated with Plantation Oaks Subdivision and the 13 enclaves surrounding the subdivision to the adopted Municipal Service Area. On August 20, 2019, the City Commission adopted the first amendment to the North U.S. Highway 1 Interlocal Service Boundary Agreement. The Volusia County Council subsequently adopted the agreement on September 17, 2019. The City of Ormond Beach (December 7, 2021 with Ordinance 2021-43) and Volusia County (February 15, 2022 with Ordinance 2022-9) approved the second amendment to the North U.S. Highway 1 Interlocal Service Boundary Agreement to add the land associated with the RidgeHaven subdivision and the individually owned parcels not owned by RidgeHaven to the adopted Municipal Service Area. During the County Council presentation and discussion, the RidgeHaven representative and city staff committed to establishing a limitation of 298 dwelling units for the entire RidgeHaven area. On March 22, 2022, the City Commission approved Ordinance 2022-05 that annexed the RidgeHaven subdivision.

With the Interlocal Service Boundary Agreement and annexation approved, the next step for the RidgeHaven project was the assignment of a city land use designation. For the existing land use entitlements, Volusia County staff analysis calculated a range of residential development of 716 to 1,052 dwelling units. The existing land use required a minimum of four units per acre. The city land use designation occurred with three separate actions:

1. Ordinance 2022-14 adopted July 19, 2022: The Ordinance amended the Future Land Use Element of the Comprehensive Plan to incorporate the second Interlocal Service Boundary Agreement and provide a text limitation within Policy 9.1.4 that states the RidgeHaven land area shall not exceed 3 units per acre and no more than 298 dwelling units for the entire RidgeHaven property. The maximum theoretical residential density was reduced by 754 residential units. For the non-

RidgeHaven properties, the Ordinance included the text restriction that these parcels would maintain a maximum gross residential density of eight (8) units per acre – the same density that existed in unincorporated Volusia County.

2. Ordinance 2022-18, adopted August 3, 2022: The Ordinance authorized the following actions:

   A. Amended the Future Land Use Map designation for the RidgeHaven subdivision property (totaling 84.26 acres) from Volusia County "Urban Medium Intensity" (UMI) to Ormond Beach "Low Density Residential" (LDR). The Ordinance included the map annotation that the RidgeHaven subdivision would have a density restriction of three (3) units per acre and shall not exceed 298 residential units for the entire RidgeHaven subdivision; and

   B. Amended the Future Land Use Map designation of the properties not associated with the RidgeHaven development from "Urban Medium Intensity" (UMI) to Ormond Beach "Medium Density Residential" (MDR). The Ordinance included the map annotation that these parcels would maintain a maximum gross residential density of eight (8) units per acre – the same density that existed in unincorporated Volusia County.

3. Ordinance 2022-18, adopted August 3, 2022: This Ordinance was for 19.19 acres owned by the RidgeHaven subdivision applicant that was part of the original Interlocal Service Boundary Agreement area. The Ordinance amended the Future Land Use for the property from "Low Intensity Commercial" (LIC) to "Medium Density Residential" (MDR). The Ordinance contained a condition that the density shall be restricted to eight (8) units per acre within the 19.19 acres and the RidgeHaven subdivision including the 84.26 acres shall not exceed 298 residential units.

In summary, the project has:

1. Amended the Interlocal Service Boundary Agreement to allow annexation and development under Ormond Beach development standards;
2. Annexed 103.45 acres that is the RidgeHaven subdivision.
3. Amended the land uses of two land areas from Volusia County "Urban Medium Intensity" (UMI) to "Low Density Residential" (LDR) and Ormond Beach "Low Intensity Commercial" (LIC) to "Medium Density Residential" (MDR) with a maximum development scenario of 298 residential units.
4. Reduced the potential maximum residential development as allowed under the Volusia County "Urban Medium Intensity" (UMI).
5. The Interlocal Service Boundary Agreement land use amendment has amended the land use of the non-RidgeHaven outparcels to the same density (8 units per acre) as allowed under the Volusia County land use.

The following are the abutting uses to the subject properties:

North	Plantation Oaks PRD	"Low Density Residential"	PRD, Planned Residential Development
South	Across Addison Drive, Gardens of Bella Vita & MBA Business Center	"Medium Density Residential" and "Low Intensity Commercial"	PRD, Planned Residential Development and B-8, Commercial
East	Village of Pine Run	Volusia County "Rural"	Volusia County RR (Rural Residential)
West	Across Plantation Oaks Boulevard	"Medium Density Residential"	R4, Single-Family Cluster and townhouse

SECTION 3, APPLICATION PROCESS:

Application process

The application seeks to allow 286 residential units as a Planned Residential Development. The Planned Residential Development is reviewed and acted upon as two (2) separate actions:

A. Zoning map amendment from Volusia County R-4, Urban Single-Family Residential and Ormond Beach B-8, Commercial to Ormond Beach PRD, Planned Residential Development. The zoning map amendment is the action sought for this staff report; and

B. Issuance of a development order to construct 286 residential units and associated site improvements on 103.45 acres.

The two (2) actions will be discussed together at the public hearing and will require separate votes. The zoning map amendment is the application under consideration in this report. The zoning map amendment does not approve any specific development, but instead the framework for the issuance of the development order. The issuance of a development order contains site plans and project reports that detail the specific development. The items are intertwined and if there is a desire to approve or approve with conditions the issuance of the development order, then the zoning map amendment needs approval first. If there is a desire to deny the issuance of the development order, then the zoning map amendment should also be denied.

Other applications:

1. Preliminary Plat. Section 1-22 of the Land Development Code defines a preliminary plat as "a proposed subdivision plan that in an exact and precise

manner in which it may be evaluated pursuant to this Land Development Code and the comprehensive plan". Preliminary plats are not required with a planned development, however, this application has developed and submitted the preliminary plat with the zoning action. The preliminary plat contains the plat document and the detailed subdivision engineering plan.

There are two options for development once a Preliminary Plat has been approved:

Option 1 - Proceed with the application for construction for completion of the required improvements prior to recording the final plat per Section 4-18(8)(a) of the Land Development Code. When the required off-site and on-site improvements are complete, the final plat along with the records and data would be submitted by the applicant to the City Engineer and reviewed by the Site Plan Review Committee (SPRC). The final plat would be approved by the City Commission and recorded.

Option 2 - Proceed with final plat review and approval, with the completion of required improvements after recording the plat per Section 4-18(b) of the Land Development Code. With this option, the applicant files surety documents guaranteeing that such improvements will be installed. All guarantees are incorporated in a bonded agreement for the construction of the required improvements in the form acceptable to the City Attorney. The final plat would be recorded and the applicant would then construct the improvements.

2. Partial plat vacation. The project is located with a 1926 plat with existing street layouts. The partial plat vacation would vacate portions of the 1926 plat and update to the RidgeHaven subdivision plat. The outparcels within the RidgeHaven subdivision would always have access to their property.

Project process: The Planned Business Development is reviewed and acted upon as two separate actions: (1) zoning map amendment and (2) issuance of a development order. The two actions will be discussed together at the public hearing and require separate votes. The project has the following approval process:

1. **Site Plan Review Committee (SPRC).** The Site Plan Review Committee is comprised of city departments who review site plan applications for consistency with the Land Development Code and Comprehensive Plan. This committee provides a technical review of development submittals.

2. **Neighborhood meeting.** The Land Development Code requires a neighborhood meeting where a project abuts a residential zoning district. The neighborhood meeting was conducted on July 26, 2022 and is summarized in the analysis section of this report.

3. **Planning Board.** The Planning Board conducts one public hearing for a zoning map amendment and issuance of a development order. The Planning Board provides a recommendation to the City Commission. Applications, whether recommended for approval or denial, are forwarded to the City Commission for action. The Planning Board in its recommendation is required to consider the following:

   a. Application submitted by the applicant;

b. Staff report;
c. Written correspondence provided;
d. Testimony presented at the public hearing; and
e. Criteria for rezonings and issuance of a Development Order.

4. **City Commission.** The City Commission, as the elected body, provides the final action on zoning map amendments and issuance of development orders. The tentative City Commission dates for this project are May 16, 2023 and June 6, 2023. Section 1-18(e) of the Land Development Code requires the City Commission to consider:

   a. Report and recommendation of the Site Plan Review Committee and the Planning Board.
   b. Report and recommendation of other city departments and advisory boards, as appropriate.
   c. Comments of governmental agencies, utility corporations and individuals, as received.

   Section 1-18 of the Land Development Code also provides the review criteria for development orders listed in the analysis section of this report. Exhibit 3 below shows a summary of the application process.

EXHIBIT 3: Application process

PZ-22-061		
Action	**Date**	**Notes**
1st SPRC submittal	May 23, 2022	SPRC review: June 13, 2022
Neighborhood meeting	July 26, 2022	Letter - 600' mail radius; newspaper ad
2nd SPRC submittal	September 23, 2022	SPRC review: October 14, 2022
3rd SPRC submittal	November 22, 2022	SPRC review: December 20, 2022

City Commission, 2nd	June 6, 2023	Newspaper ad
SPRC final review	To be determined	

The project has also been posted on the city website under the Planning Department at: (1) Development Reports, https://www.ormondbeach.org/1019/RidgeHaven and (2) Public Hearing Advertisements and Notices, https://www.ormondbeach.org/1000/Public-Hearing-Advertisements-and-Notice.

SECTION 4, ANALYSIS:

Comprehensive Plan

The Comprehensive Plan contains a land use map that provides the vision of uses and residential density and nonresidential intensity. The Comprehensive Plan is an overall guide/roadmap for development within Ormond Beach. The subject property has a land use category of "Low Density Residential" and "Medium Density Residential" as defined in the Future Land Use Element as follows:

Low Density Residential (LDR) – 84.26 acres

Purpose: To protect and encourage the continued development of typical single-family residential areas and stabilize and protect the character of such neighborhoods. Institutional uses may be permitted in accordance with the maximum floor area ratio.

Density: up to 4.3 units per acre

Maximum FAR: 0.2

Medium Density Residential (MDR) – 19.19 acres

Purpose: To allow a variety of highly aesthetic dwelling units, encouraging the establishment of recreation areas and open space and discouraging look-alike rows of dwellings. MDR also allows the development of relatively low-density duplex, townhouse and multi-family projects which emphasize open space and maintain a low profile, thus maximizing the compatibility with single-family areas. Institutional uses may be permitted in accordance with the maximum floor area ratio.

Density: Minimum 5-12 units per acre except in the Downtown Community Redevelopment Area where 5 - 15 units shall be allowed.

Maximum FAR: 0.3

The "Low Density Residential" and "Medium Density Residential" land uses would typically allow a maximum theoretical city land use density of 515 residential units. The map annotation included in the land use amendments for the project limits that maximum residential density to 298 units.

Existing Zoning Districts: The subject property has two (2) existing zoning classifications: (1) R-4, Urban Single-Family Residential and Ormond Beach B-8, Commercial. The R-4, Urban Single-Family Residential zoning district purpose and intent "is to provide medium-density residential developments, preserving the character of existing or proposed residential neighborhoods." The Volusia County R-4, Urban Single-Family Residential zoning district allows cluster and zero lot line subdivisions, houses of worship, and single-family standard or manufactured modular dwellings.

The Ormond Beach B-8, Commercial zoning districts purpose:

> "is to provide for the establishment of general commercial activities, other than automotive or heavy commercial uses, on properties that abut arterial roads. Due to the proximity of lands in the district to residential areas, these district regulations are intended to promote the preservation of natural vegetation, increase

> opportunities for beautification and provide extensive buffering between nonresidential and residential uses not otherwise separated from each other by a collector or arterial road. Multifamily, governmental and institutional uses are also encouraged in such corridors as a relief from extensive strip commercial development, and allowable uses are restricted to those most compatible with residential uses. When used in conjunction with the Planned Business Development District, these regulations are intended to encourage the establishment of totally planned, multiuse, community-level centers having a variety of retail, office, restaurant, recreation and institutional uses." Ormond Beach B-8, Commercial zoning district allows retail, restaurants, offices, and multi-family uses."

Proposed zoning district: Planned Residential Development

The project application seeks to obtain a Planned Residential Development zoning designation. According to Chapter 2, Article II, Section 2-35 of the Land Development Code the purpose of the Planned Business Development zoning district:

> "is to provide more flexibility with regard to land use, density and dimensional standards, and other requirements of this Land Development Code, to encourage developments that incorporate innovative concepts of site planning, coordinated architectural and functional design, higher level of amenities, increased amounts of open space, recreation and landscaping, and a better living environment overall."

The Planned Residential Development zoning district allows a site-specific development plan to be developed. This zoning district requires a holding capacity analysis, common open space, recreation areas, and additional natural preservation. The site-specific development plan is part of the issuance of the development order.

Neighborhood meeting

The project conducted a required neighborhood meeting on July 26, 2022. The project team presented the development plan. Items discussed at the neighborhood meeting included:

1. Density reduction from Volusia County zoning;
2. No access proposed from Addison Drive;
3. Interface with Village of Pine Run;
4. Easement required for existing Volusia County ditch abutting Village of Pine Run;
5. Types of residential uses proposed;
6. Stormwater; and
7. Connection to city water and sewer.

SECTION 5, CRITERIA FOR APPROVAL: There are certain criteria that must be evaluated before a Planned Business Development amendment can be approved. **It is important to note that this item is solely for the zoning map amendment and not the detailed site plan development order**. According to Chapter 1, Article I, Section 1-15. C.3 of the Land Development Code, the Planning Board shall consider the following when making its decision:

1. **The proposed development conforms to the standards and requirements of this Code and will not create undue crowding beyond the conditions normally**

permitted in the zoning district, or adversely affect the public health, safety, welfare or quality of life.

The proposed action is a zoning map amendment from Volusia County R-4, Urban Single-Family Residential and Ormond Beach B-8, Commercial to Ormond Beach PRD, Planned Residential Development for 103.45 acres. This item does not approve a specific development plan which is reviewed with the development order item. The zoning map amendment will not adversely affect public health, safety, welfare or the quality of life.

2. The proposed development is consistent with the Comprehensive Plan.

The subject property has two (2) land uses of "Low Density Residential" and "Medium Density Residential". The location is appropriate for residential uses and is consistent with the Comprehensive Plan. The land use designations and allowable density and intensity was discussed in the analysis section of the report. The Comprehensive Plan contains the following Goals, Objectives and Polices related to the zoning map amendment:

Future Land Use Element

GOAL 1. LAND USE DISTRIBUTION

FUTURE DEVELOPMENT AND REDEVELOPMENT ACTIVITIES SHOULD BE DIRECTED IN APPROPRIATE AREAS AS DEPICTED ON THE FUTURE LAND USE MAP TO MEET THE LAND USE NEEDS OF THE ANTICIPATED POPULATION, IN A MANNER CONSISTENT WITH SOUND PLANNING PRINCIPLES, THE GOALS, OBJECTIVES AND POLICIES CONTAINED HEREIN, AND THE DESIRED COMMUNITY CHARACTER.

THE FUTURE LAND USE ELEMENT SHOULD ALLOW LIMITED COMMERCIAL EXPANSION, PROMOTE INDUSTRIAL USE, AND MAINTAIN CURRENT RESIDENTIAL DENSITIES IN THE CORE AREA WHILE ESTABLISHING LOWER DENSITIES IN THE PERIMETER AREAS, FOCUSING REDEVELOPMENT IN THE DOWNTOWN COMMUNITY REDEVELOPMENT AREA, US1, AND SRA1A, AND PROVIDING OR A CONTINUED HIGH LEVEL OF OPEN SPACE. FUTURE GROWTH SHALL BE TIMED AND LOCATED TO MAXIMIZE EXISTING PUBLIC INFRASTRUCTURE.

OBJECTIVE 1.1. RESIDENTIAL LAND USE

Ensure the availability of adequate lands to meet the residential land use needs of the community.

POLICY 1.1.3.

Preserve the character of existing neighborhoods by not allowing intrusion of land uses that would threaten to alter the neighborhood character and by encouraging voluntary rehabilitation and sound maintenance programs in viable neighborhoods which are capable of self-renewal and establishing code enforcement or public redevelopment activities in areas not capable of self-renewal.

POLICY 1.1.5.

Encourage innovative design measures for new residential developments and ensure that adequate provision is made for neighborhood facilities suitable to the type of development proposed.

POLICY 1.1.6.

Provide the opportunity, through zoning and other land use controls, for the development of a variety of housing types (i.e., single-family, duplex, townhouse, multi-family) in both conventional, planned unit and cluster type developments, that will meet the varied needs of the citizens of Ormond Beach.

Housing Element

GOAL 1. HOUSING SUPPLY

ENSURE THE AVAILABLITY OF SAFE AND ADEQUATE HOUSING UNITS OF DIFFERENT TYPES, SIZES, AND PRICE RANGES TO MEET THE NEEDS OF ALL CURRENT AND FUTURE RESIDENTS.

OBJECTIVE 1.1. HOUSING SUPPLY

The City shall continue to facilitate the private production of a housing supply, including adequate sites for mobile homes or manufactured housing and low- and moderate-income housing, which will meet future community needs and offset housing deficiencies as noted in this Element.

OBJECTIVE 1.2. PROVISION OF ADEQUATE SERVICES AND FACILITIES

Each existing housing development and residential neighborhood along with all new housing development shall meet existing adopted level of service standards.

POLICY 1.2.1.

The general residential development pattern in the city should be in accord with the community's growth strategy for residential densities, as stipulated within the Future Land Use Element.

The zoning map amendment is consistent with the Comprehensive Plan.

3. The proposed development will not adversely impact environmentally sensitive lands or natural resources, including but not limited to water bodies, wetlands, xeric communities, wildlife habitats, endangered or threatened plants and animal species or species of special concern, wellfields, and individual wells.

The zoning action does not approve a specific development plan and this criterion would be reviewed as part of the issuance of the development order.

4. The proposed use will not substantially or permanently depreciate the value of surrounding property; create a nuisance; or deprive adjoining properties of adequate light and air; create excessive noise, odor, glare, or visual impacts on the neighborhood and adjoining properties.

The zoning map amendment establishes the framework for the development order (next agenda item) that details the specific development approval. The zoning map

amendment seeks to allow the framework for uses consistent with the land use designation.

5. **There are adequate public facilities to serve the development, including but not limited to roads, sidewalks, bike paths, potable water, wastewater treatment, drainage, fire and police safety, parks and recreation facilities, schools, and playgrounds.**

   The zoning map amendment establishes the framework for the development order (next agenda item) that details the specific development approval.

6. **Ingress and egress to the property and traffic patterns are designed to protect and promote motorized vehicle and pedestrian/bicycle safety and convenience, allow for desirable traffic flow and control, and provide adequate access in case of fire or catastrophe. This finding shall be based on a traffic report where available, prepared by a qualified traffic consultant, engineer or planner which details the anticipated or projected effect of the project on adjacent roads and the impact on public safety.**

   The zoning map amendment establishes the framework for the development order (next agenda item) that details the specific development approval. A traffic study is provided with the issuance of the development order item.

7. **The proposed development is functional in the use of space and aesthetically acceptable.**

   The zoning map amendment establishes the framework for the development order (next agenda item) that details the specific development approval. The functional use of space would be reviewed as part of the development order agenda item.

8. **The proposed development provides for the safety of occupants and visitors.**

   The zoning map amendment establishes the framework for the development order (next agenda item) that details the specific development approval. The site plan (development order item) would review the safety of occupants and visitors.

9. **The proposed use of materials and architectural features will not adversely impact the neighborhood and aesthetics of the area.**

   The zoning map amendment establishes the framework for the development order (next agenda item) that details the specific development approval. The site plan (development order item) would review the use of materials and architectural features.

10. **The testimony provided at public hearings**.

    There has not been a public hearing at this time. The comments from the Planning Board meeting will be incorporated into the City Commission packet.

Section 1-15(D)(3)(b) of the Land Development Code states that the Planning Board shall consider rezoning applications based on the consistency with the Comprehensive Plan. The zoning map amendment is consistent based upon the following points:

- The impacts on facilities and services will not increase as a result of the requested zoning amendment from Volusia County R-4, Urban Single-Family Residential and Ormond Beach B-8, Commercial to Ormond Beach PRD, Planned Residential Development for 103.45 acres; and

- The zoning request is consistent with the compatibility matrix outlined in the Land Development Code for the Future Land Use Plan Map designation of “Low Density Residential” and “Medium Density Residential”.

SECTION 6, RECOMMENDATION: This agenda item seeks to allow a zoning map amendment to PRD, Planned Residential Development. The agenda item does not approve any specific development approval, but instead a framework for these zoning actions. It is recommended that the Planning Board recommend **APPROVAL** of the zoning map amendment from Volusia County R-4, Urban Single-Family Residential and Ormond Beach B-8, Commercial to Ormond Beach PRD, Planned Residential Development for 103.45 acres. The proposed RidgeHaven subdivision is located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision and includes the following Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020,3136-01-23-0060, and 3136-01-24-0050. The project is tentatively scheduled for the City Commission on May 16, 2023 (first reading) and if approved on first reading, the second reading will be on June 6, 2023 (final reading).

DRAFT

Planning Board minutes from April 13, 2023

ITEM:

ZMA-2022-061(A)

RidgeHaven subdivision

Zoning Map Amendment

V. APPROVAL OF MINUTES

March 09, 2023

Mr. Scudiero moved to approve the March 09, 2023 Minutes. Mr. Railsback seconded the motion. Vote was called, and the motion was approved (6-0).

VI. PLANNING DIRECTOR'S REPORT

No report.

VII. PUBLIC HEARINGS

A. ZMA 2022-061(A), RidgeHaven subdivision, Zoning Map Amendment

Mr. Spraker explained that all three RidgeHaven agenda items will be shared together and suggested that the Board vote on one at a time.

Mr. Spraker, Planning Director, reviewed the first request from RidgeHaven, LLC., with authorization of the property owner, Snilloc Family Limited Partnership Number One, for a zoning map amendment from Volusia County R-4, Urban Single-Family Residential and Ormond Beach B-8, Commercial to Ormond Beach PRD, Planned Residential Development, for 103.45 acres. Mr. Spraker continued that the proposed RidgeHaven subdivision is located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision and included the following Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050.

Mr. Spraker stated that this property went through a Land Use Amendment where the majority of the property was in unincorporated Volusia County. There was a minimum of four residential units per acre (337 units) and allowed up to eight residential units per acre (674 units). He added that there were already 19.19 acres that were already in the city that allowed eight residential units per acre. The total residential units for the project was 827 units under previous land uses. Mr. Spraker continued that as the project moved on it had to be decided on whether to develop in unincorporated Volusia County and get utilities from the City of Ormond Beach or annex into the City of Ormond Beach for the entire subdivision process. It was decided to go through the City of Ormond Beach for the process and as part of the Land Use Amendment and the residential units were decreased to 298 residential units. Mr. Spraker noted that the existing land use today is "Low Density Residential" and "Medium Density Residential" is along Addison Drive. He explained that there are outparcels in which the RidgeHaven subdivision owners do not own, therefore they are not part of the zoning map amendment. They have designated zoning through the Interlocal Service Boundary Agreement (ISBA) process. Mr. Spraker stated that the zoning map does not approve any site plans, as it is the framework to allow the process for a development order.

Mr. Spraker concluded that the Site Plan Review Committee (SPRC) is recommending approval of the zoning map amendment and reviewed the tentative

DRAFT

City Commission meeting dates May 16, 2023 for first reading and June 6, 2023 for second reading.

B. <u>DO 2022-061(B), RidgeHaven subdivision, Issuance of a Development Order</u>

Mr. Spraker, Planning Director, continued with an explanation of the next RidgeHaven request, the issuance of a development order for 286 residential lots on 103.45 acres and associated site improvements. He expounded on the development order and how it is a zoning document, and expressed how unique RidgeHaven is as they have done both the zoning document and the preliminary plat together as well as provided detailed construction drawings. Mr. Spraker commented how the project started with the Site Plan Review Committee (SPRC), they had a neighborhood meeting in July 2022, it is now before the Planning Board, an advisory board appointed by the City Commission and then will go before the City Commission May 16, 2023 and June 6, 2023. He reviewed past applications that the project has gone through from the ISBA amendment, land use map amendment, and annexation.

Mr. Spraker stated that the gross density is 2.76 units per acre for the proposed subdivision. Taking out the wetlands, the net density is 2.95 units per acre. He added that the applicants have done an innovative design that has mixed housing types with duplex units along Addison Drive, consistent with the Gardens of Bella Vita, and they have done 136 interior lots of 50' wide, and 66 larger lots at 75' wide, along the Village of Pine Run. Mr. Spraker showed where the outparcels are and reiterated that they are not part of the overall plan. Outparcels will have platted access to their property. Mr. Spraker stated that the access points are along Plantation Oaks Boulevard. There is no access on Addison Drive. Mr. Spraker added that the project has provided school concurrency, a traffic analysis was provided, and a proportionate fair share agreement is required. He continued that stormwater was analyzed and the project will have less stormwater rate and volume post-development than in pre-development conditions. A St. Johns permit was issued for both the wetlands and the stormwater. The stormwater will be used for irrigation of the subdivision. A master irrigation will be done out of the stormwater with no individual wells. Mr. Spraker added that there is a ditch partially located along the interface of the Village of Pine Run that will be placed in the easement. It is 10' on the RidgeHaven property and then goes off onto the Village of Pine Run property.

Mr. Spraker continued that the three historic trees onsite are being preserved. The Village of Pine Run property interface has a 35' natural landscape buffer, and the LDC requires a 6' landscape buffer. The project design also exceeded the buffer requirements along Plantation Oaks Boulevard, Addison Drive and on the third phase of Plantation Oaks. Mr. Spraker stated that the project has proposed 24.67 percent of the site as natural preservation. The LDC requires only 15 percent under straight zoning and 20 percent under the Planned Development. He added that there are approximately 8 acres of wetlands of which they are impacting 1.75 acres. Sidewalks are being put in on both sides internally and also connecting to U.S. Highway 1. Mr. Spraker stated that the project has recreational improvements including a 33,000 square foot outdoor amenity area including a pool and pool deck, a dog park, playground and activity field. Walking trails are also part of the recreational improvements.

Mr. Spraker went over the development order waivers. One of them is for outdoor recreation in lieu of indoor recreation, which he explained is allowed in a Planned

Residential Development. A wet detention of the depth for the pond, to maintain the fill onsite for the stormwater irrigation. A 40' buffer building setback is also required. Mr. Spraker reviewed the development order benefits from the reduction in density, the innovative site design, natural preservation, landscape buffers, and additional recreation of amenities.

Mr. Spraker reviewed the two notices of concern; one from Mr. Lehman, 1135 Benton Street, who is not in support of the application; and a neighbor to the property, Mr. Rodriguez, who is interested in screening from the project.

Mr. Spraker concluded that the SPRC is recommending approval of this application. It is planned that the item will go before the City Commission for first reading on May 16, 2023 and second reading on June 6, 2023.

C. PP 2022-061(C), RidgeHaven subdivision, Preliminary Plat

Mr. Spraker, Planning Director, continued with the RidgeHaven request for a preliminary plat for 286 residential lots on 103.45 acres and associated site improvements. He explained that a preliminary plat is a document that subdivides land. The SPRC recommends approval of the preliminary plat.

Applicant's presentation

Mr. Glenn Storch, P.A., Storch Law Firm, 420 S. Nova Road, Daytona Beach, Representative, reviewed the history of other applications this project went through. The annexation of the project now allows reduction in permitted density, clustering, preservation of wetlands, municipal utilities and creative design. Mr. Storch explained that the applicant for the project stipulated for the Comprehensive Plan Amendment that was approved by the City and DEO. The limited number of units was limited to 298 for the entire parcel, no more than 3 units per acre. The PRD reduces the number now to 286 units. This reduced the density by 754 units and from 8 units per acre. Mr. Storch explained the diversity of the residential community further by detailing the plan for 84 duplex lots, 135 single-family 50' wide lots, and 66 single-family 75' wide estate lots.

Mr. Storch reviewed the environmental quality of life goal for the project stating that they will preserve a large wetland and upland buffer area in the center of the community, natural vegetation and tree preservation area, and explained how they are exceeding the required tree preservation. He added that most of the lots will have connections to natural vegetation in the community. Twenty-five percent of the land will remain untouched. Mr. Storch reiterated the inclusion of over 50,000 square feet of outdoor recreation area, in which the 33,000 square feet that was aforementioned is included..

Mr. Storch reviewed the effective water management part of the project with the minimization of water use. He covered that the irrigation will be from the use of the stormwater retention ponds, explained the aquifer recharge, and no groundwater wells or septic tanks, as the project will utilize the City of Ormond Beach potable water and sanitary sewer services. Mr. Storch stated that there will be no impact to the adjacent residential potable wells (Village of Pine Run) caused by a draw down or septic pollution of groundwater. He noted that the project is not within the 100-

year floodplain. In regards to protecting the adjoining neighbors, Mr. Storch mentioned that to the east of the project there will be a natural wooded buffer of at least 35', adjacent to the Village of Pine Run, and coupled with the existing canal, neighboring residents will be at least 100' to 150' away from new homes in RidgeHaven. He continued that to the south on Addison Drive, there is no access and only a vegetated buffer. To the north, there is a common area and wetlands and to the west is Plantation Oaks Boulevard. The entrances direct traffic towards the U.S. Highway 1 signal and away from existing residential.

Mr. Storch touched on some of the design of the community and displayed a landscaped entry sign and added that there will be ornamental streetlights and sign poles to provide an up-scale aesthetic. 298 street trees will be planted throughout the development along the streets, and in addition every lot will have trees planted, totaling 1,552 new trees in addition to the preserved trees. Mr. Storch added that the Homeowners' Association (HOA) will maintain and manage the natural areas and remove invasive species, and also added that there will be retention of more stormwater onsite than existing conditions – *more retention than required*. There will be less stormwater going off the site than what is on there presently.

Ms. Shull opened it up to the Board.

Board Questions

Mr. Railsback asked if the outparcels are vacant and if there are any improvements on them. Mr. Storch replied that there is a house on one of them and their access will be maintained and will provide them an easement. He added that they will have a paved road for the project portion and suggests that in the future it would be beneficial to them to annex into city water and sewer.

Mr. du Moulin expressed concern with guarantee of the HOA's responsibility with governing the irrigation system for the retention ponds. He referenced his experience with being part of an HOA and how they are mostly run by the members of the community. Mr. Storch replied that St. John's River Water Management District (SJRWMD) manages the permitting of the ponds and sets requirements through their permitting process. He commented that HOAs typically contract a company to maintain the ponds. He added that the ponds will be nice with fountains in them, which requires less maintenance. It was said that if the ponds are not maintained, the City, SJRWMD and homeowners have rights to take action. Mr. Storch stated that the invasive species are analyzed annually and taken care of. The HOA document is being drafted to address the matters and inform the home purchasers.

Mr. Railsback concurred with the comments and suggested that the responsibilities be clear in the covenants.

Mr. Jorczak questioned what the lot sizes are on the adjacent developments of Village of Pine Run and Plantation Oaks. Mr. Storch replied that Plantation Oaks are 50' by 100' which is consistent with what is being built. It was mentioned that there are smaller parcels and multi-family townhouses off of Addison Drive. There are also townhouses to the west of the development. Mr. Storch added that Village of Pine Run are approximately one acre and they have septic tanks and wells.

Mr. Scudiero inquired about the recreation areas planned for the development and why there is not more of a focus on indoor recreation area, like that of the outdoor recreation. Mr. Storch answered that the size of any recreation area is bases off of the number of units, therefore the indoor recreation area would have to be vast. He concluded that there would be no need for a fitness center with the amount of outdoor area, the pool and walking trails.

Mr. Scudiero asked if the natural areas on the map presented showed area that has been clear-cut. It was confirmed by Mr. Storch that the project was not clear-cutting due to clustering.

Mr. Jorczak inquired about the target-market price range of the homes. Mr. Storch replied that there will be a diverse market of approximately $300,000 for a duplex, and $400,000, $500,000, $600,000, and up to $700, 000 for the homes.

Ms. Shull asked if the property was out of flood zone X. Mr. Storch confirmed it is. Ms. Shull inquired about the rental restrictions for short-term rentals for the HOA. Mr. Storch will work on creating rental restrictions that reflect not allowing short-term rentals in the covenants and restrictions. There was discussion about rental communities and how it is not the goal for this project to be one.

Mr. du Moulin inquired about the stormwater. Mr. Storch stated that there will be less stormwater post-development and explained how the project will maintain more stormwater on the site than presently goes off of the property.

Mr. Storch addressed the earlier inquiry regarding a property on the cul-de-sac with a lighting concern, and requested a vinyl fence or hedge be installed and stated that the request will be adhered to.

Audience Comments

Mr. Luis Rodriguez, 1155 Plantation Oaks Boulevard, commented in regards to him being the individual who requested the fence. He stated that he prefers both the vinyl fence and vegetation (hedges). He stated that he worked at Sea Ray Boats and referenced a similar situation take place there where a parking lot was cleared out and at 5:00 a.m., the headlights came in. Mr. Rodriguez expressed concern with the pesticides being close to his home and family. He noted that he has a well. He requested that it not be possible for "drifters" and RVs to park close to him. He asked if the lot at the upside of the cul-de-sac can be eliminated, allowing the cul-de-sac to move back further for more safety and privacy. Mr. Luis explained that he hopes the water does not go his way in the event of a storm and hopes it is worked out in the .elevation planning. He concluded that he hopes that no one else can live on the cul-de-sac.

Mr. Charles Genter, 58 Indianhead Drive, Ormond Lakes, stated that he is a board member and Past President of the Ormond Lakes HOA. He noted that he wants to address the dilemma that Ormond Lakes faces with increasing amount of stormwater resulting from continuing land development and water shed. Mr. Genter continued that Ormond Lakes has no control over how much stormwater is being sent to them. Ormond Lakes is working diligently to optimize their stormwater system by spending $145,000 on a stormwater system since the storms in October and November 2022.

He added that the estuaries were back-washing that overwhelmed the Ormond Lakes storm distribution culverts. As a result, raw sewage was in the street due to lift station and street flooding. Several residents had water reach their garage. He continued that the Ormond Beach water shed is 5 square miles from the north and west and is expanding through development. Mr. Genter stated that there are six new developments and several more in the planning stage and each new project will send water downhill to the Ormond Lakes system using the open ditch system. Ormond Lakes is the last stop for stormwater before the estuaries. Mr. Genter emphasized that water runs downhill and a significant amount of stormwater enters their system. He asks how much water is coming and if a study has been done. He remarked that he asked that question in 2019 and 2020 and the answer is the same then as it is today, no one knows. He expressed frustration with the Planning Board, city engineers and City Commissioners for their misunderstanding of the problem stormwater management is. He pleaded for assistance from the City of Ormond Beach.

Mr. Tom Gaynor, 22 Rocky Bluff Drive, Ormond Lakes, concurred with Mr. Genter, commenting that Ormond Lakes has problems. He continued that each new development will affect the flooding as all of the surrounding areas to Ormond Lakes do. He added that during a 100 or 500-year storm the flood will become one, according to Mr. Gaynor. He stated that when North Beach Street floods, the water backs up to the Ormond Lakes exit. Last November the estuaries overran the exits and back flushed the area. Mr. Gaynor commented that when the engineers look at it, the data looks fine but when there is a big storm there is a problem. He inquired about the directional flow of the water and noted that they are at 8' above sea level, and that the ponds are at 29' above sea level. Mr. Gaynor stated that they need help from the City as they are out of money.

Ms. Shull asked Mr. Spraker if staff has met with the Ormond Lakes HOA before. Mr. Spraker replied that he and Mr. David Allen, Civil Engineer, met with them after the hurricane. He stated that there is a Stormwater Master Plan that has a study for the Ormond Lakes areas and that the Ormond Lakes complaints are not being ignored. The RidgeHaven subdivision is discharging less in the post development stage, in terms of rate and volume, then the pre-development condition. Mr. Spraker concluded that the applicant will give additional information on the matter and Mr. Allen will follow with his stormwater observations.

Mr. Parker Mynchenberg, Parker Mynchenberg & Associates, 1729 Ridgewood Avenue, stated that when the ponds are dug deeper, it does not create additional storage. It is when the area gets bigger that you get the additional storage. He explained that a wetland is being preserved in Plantation Oaks that abuts the site to the north. He further explained that when Plantation Oaks Boulevard was built, a new outfall was created that runs along the Village of Pine Run, easterly to 2,000 acres in the natural gardens that was sold to the state. There is a discharge easement to the park at 8' to 9' elevation. Mr. Mynchenberg remarked that he knows the area and drainage well, being that he designed Ormond Lakes, Halifax Plantation and Plantation Oaks. He added that he met with Mr. Allen regarding the RidgeHaven impacts to Ormond Lakes and Pine Run and did some research. There is a big ditch along Addison Boulevard and between the subject property and the Village of Pine Run. A ditch was built along the north property line on Plantation Oaks Boulevard. Mr. Mynchenberg stated that when it rains on the current site, it drains in all three directions. The initial design had outfalls to the lakes to the various ditches. It has

since been redesigned so that the runoff that leaves the site, goes into the outfall ditch on Plantation Oaks Boulevard, leaving 15 percent more storage than what is required. The 25-year and the 100-year storm event were analyzed and it demonstrated that the existing pre-development conditions are not exceeded. In a 500 year storm, the Tomoka Basin comes up to elevation 8.

Mr. Mychenberg added that the big lake in Ormond Lakes was preserved as well as wetlands. The wetlands hold water during the summer though and he mentioned that he has been working with Ormond Lakes for 20 years to resolve things for them. He concluded that the stormwater is directed to the east away from Ormond Lakes.

Mr. David Allen, Civil Engineer, City of Ormond Beach, remarked that upon receipt of the subject property project, they were already working with Ormond Lakes, their two ponds and entrance off of Pine Tree Drive. He commented that he was concerned about the water that makes its way to the two lakes and the canal off of Addison Drive, going north, and the swale behind the first row of houses on Addison Drive. He added that the predeveloped site has a significant number of depressions that hold water and that he found out through Mr. Mynchenberg's Stormwater Plan that the predeveloped rate that left the site was after the depressions were filled up. There is a small amount of storage volume in it predevelopment, therefore when starting with the design, Mr. Allen noted that he was looking at how the predeveloped storage was increased in the three ponds. He said that he discussed wetland concerns and changing how much flow goes directly toward Village of Pine Run with Mr. Mychenberg and found that as the design is now, after the area is filled, the back of the lots on Addison Drive will drain to the interior of the project. The water will be controlled in how it is ran through the three ponds, and the wetland, prior to going into the larger pond, and will go into the east-west ditch along the northern property line. Mr. Allen stated that staff has gone through significant review about the ditch and what the capacity of it is, as well as the ditch that runs north along the western edge of Village of Pine Run.

Mr. Allen added that when he met with Ormond Lakes, they referenced the ditch between Village of Pine Run and RidgeHaven flows to the south to the ditch behind the first interior of lots in Village of Pine Run, and as aforementioned the area that goes that way has been decreased. There are additional plans in review from Mr. Mynchenberg, received early this week on Monday to ensure that there is a blockage of the ditch at the corner so that no water will go south to Village of Pine Run unless there is a huge rain. Mr. Allen stated that engineers for the state have to design to certain standards. He referenced a storm event like that of what happened in Fort Lauderdale where they received 23" in 24 hours, in which no one can design for, but assured that they look at 100-year storm, 11.5" inches in a 24-hour period. Mr. Allen explained that they have attempted to force the water to go north, then along the northern edge of Village of Pine Run, into the wetland. He addressed the inquiry of when the Planning Board will address stormwater and take action, and answered that he informed Ormond Lakes that the master stormwater plan was approved in February 2023 with two studies for the northern U.S. 1 area and another for Ormond Lakes and the entrance at Pine Tree Drive. He further explained that in the stormwater master plan, they were scheduled for year two and was told that it recently changed and it is to be done in the first year.

Ms. Shull opened it up to the Board for discussion and entertained a motion.

Mr. du Moulin asked Mr. Allen who maintains the ditches and canals over time. Mr. Allen replied that the County maintains the ditch between Village of Pine Run and RidgeHaven, the Addison canal and once it gets to a certain point in Plantation Oaks, it will then be managed by Plantation Oaks HOA.

Mr. Storch addressed Mr. Rodriguez's request and replied that it will be noted as a stipulation for the arrangement of his fencing and hedges installation to be taken care of.

Mr. Galloway inquired about Mr. Rodriguez's desire to connect or not connect to city sewer and septic.

Mr. Mynchenberg stated that there is a 12" waterline that runs in the right-of-way (ROW). He added that Mr. Rodriguez has potable water that can be tapped into. Regarding gravity sewer, there is a proposed lift station as well as another lift station for the townhouse project across the street on Destiny Drive, where the sewer was stubbed. Mr. Mychenberg further explained that the duplexes work by gravity into the existing lift station that service that project. A new lift station is also by the cul-de-sac, and the project would have to be designed to provide gravity sewer to an outparcel. Mr. Mynchenberg concluded that Mr. Rodriguez could connect if he wanted to.

Mr. Jorczak asked about the trees being planted and inquired about trees that are lost. Mr. Storch answered that there are guarantees on the trees that they will live for a year, until being well-established. A provision can be included that specifies that the trees will be maintained.

Mr. Scudiero commented that he will support the unique project that it is not clear-cut. The project is consistent to the area in terms of greenery and the townhome portion. He noted the reduction in density to what can go in there. The County-version could have been almost 1,000 units, and under the City-standard could have been 515 units, and the proposed project is now down to 286 units.

Mr. Railsback concurred with Mr. Scudiero and commented that he appreciates the increase in effort from the developer to not further impact the stormwater issues in the area.

Mr. du Moulin noted that he appreciates the reduction of density but cannot support due to HOA concerns as well as other aspects.

Mr. Jorczak concurs that the project is unique and expressed that it is well thought-out. He noted that he also likes the clustering and reduction of density, as well as the different housing to provide a diverse environment. He added that the rental issues is also of concern to him as well. Mr. Jorczak urged when writing the covenants and restrictions to guarantee that the vegetation is not lost after three to four years. Mr. Storch replied that the City regulates it.

Mr. Jorczak commented that the developer and staff have done an admirable job redirecting the water away from Ormond Lakes as well as the work being done in the

stormwater management plan. He concluded that he likes the project for the diversity and how it fits with the surrounding communities and will support.

Mr. Galloway expressed the importance of the input from the neighbors. He directed his compassionate comments at Mr. Genter and Mr. Gaynor regarding flooding and expressed satisfaction that staff is working on a stormwater master plan for the growing community. He referenced Mirror Lakes and Chelsea Place and ensured that the developer at that time corrected the problem. Mr. Galloway commented that he hopes that the redirection of the water now going north, uphill will resolve the issue. He concluded that he is in support of the project now after the third time, as everything that was asked for regarding improvements was done.

Ms. Shull agreed with Mr. Galloway and commented that the Board has to work with the developers and do the best that they can with it. People are moving to Florida by the thousands. She commended the developer for working with the Board and staff on the drainage and greenspace. She reiterated her concern regarding rentals and the HOA not allowing *short-term* rentals. Ms. Shull concluded that she is in support of the project. She asked Mr. Spraker to explain the three waivers.

Mr. Spraker reiterated that there is three separate items, the first being the zoning map. Waivers are a part of the issuance of a development order. One waiver is the outdoor recreation in lieu of the indoor recreation. A lot of outdoor recreation is being proposed in place of indoor recreation. The detention pond is to allow the fill to be onsite as to not import fill which will provide greater stormwater management for the property. He concluded that there are areas that will not meet the 40' buffer. Not every space will have the 40' buffer, therefore they are asking for a waiver of that requirement in return for providing the benefits that were listed in the staff report and provided earlier.

Mr. Jorczak motioned to approve ZMA 2022-061(A), RidgeHaven subdivision, Zoning Map Amendment. Mr. Railsback seconded it. Vote was called, and the motion was approved (5-1), with Mr. du Moulin against.

Board discussion ensued.

Mr. Storch added that regarding the next vote, that he will provide language that will include the vinyl fencing and landscaping for it at the end of the cul-de-sac.

There was Board-City Attorney discussion explaining the item B vote further.

Mr. Scudiero motioned to approve DO 2022-061(B), RidgeHaven subdivision, Issuance of a Development Order, including the three waivers and the additional provision for the fence and landscaping at the end of the cul-de-sac. Mr. Jorczak seconded it. Vote was called, and the motion was approved (5-1), with Mr. du Moulin against.

Mr. Railsback motioned to approve PP 2022-061(C), RidgeHaven subdivision, Preliminary Plat. Mr. Scudiero seconded it. Vote was called, and the motion was approved (5-1), with Mr. du Moulin against.

DRAFT

Board Comments

Mr. Galloway commented that he hopes that the applicant/developer go the extra mile to take care of any concerns aforementioned.

Mr. Railsback reflected on HOA responsibility with short-term rentals and his experience with his HOA and short-term/Airbnb rentals and its effect. There was no language in his HOA contract regarding any rentals and urged that this be addressed so that it does not happen with RidgeHaven. He added the provision about the tree and parking matters in the contract as well.

Mr. du Moulin commended Mr. Storch on his presentation and noted that the developer is exceeding what most developers do.

Attorney Hayes touched on the rental matter, and explained that the City of Ormond Beach generally does not allow rentals in residential areas, but that there has been a push in the Florida Legislature to allow short-term rentals in every jurisdiction, regardless of whether or not those jurisdictions have an ordinance that has been grandfathered in, that prohibits rentals. He urged not to be surprised if in a year, or two, or three if there is a law that preempts the ability to do so. Attorney Hayes stated that the request will be treated as a voluntary concession by the applicant and not an imposition by the City. In the document it will be reflected that it is not being required as a condition for approval, but that the applicant has voluntarily agreed to take care of it.

Mr. Railsback added that in the last few sessions, the Legislature has excluded deed-restricted communities from the aforementioned home-rule, the roll back of the grandfathering of rentals. He emphasized the importance of capturing the specifics in the deed-restrictions in the contract as it is binding and will not be bound to Legislature addressing something in a municipality area.

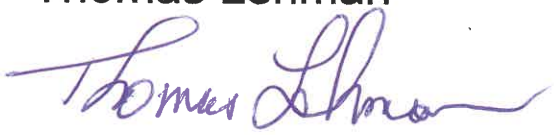
D. FLUM 2023-032, 1755 North U.S. Highway 1, Future Land Use Map Amendment

Mr. Spraker, Planning Director, explained the request from Wayne's Solar, Inc. for a Land Use Map Amendment from LIC, "Low Intensity Commercial" to "Light/Industrial/Utilities" for a 3.06 acre parcel located at 1755 North U.S. Highway 1. It is currently a vacant parcel of land. He reviewed the wide range of commercial uses that the land use allows. Mr. Spraker stated that the property owner has indicated a desire to construct a business warehouse. Mr. Spraker stated the use is consistent with the surrounding area and staff recommends approval.

Applicant's presentation

Mr. Richard Hardy, Representative, 975 S. Ponce de Leon Blvd., St. Augustine, stated that he is a builder and developer and explained that Wayne's Solar is desiring to move to the proposed location.

Ms. Shull opened it up to the Board for discussion and entertained a motion.



Mr. Galloway asked if this property would be the business site for Wayne's Solar and Mr. Hardy confirmed that is the plan.

Dear Steven Spraker, Planning Director

I will not be able to attend the zoning amendment hearing on Thursday, April 13, 2023 at 6:00PM. But I still want my position on this important issue be communicated and heard publicly and my vote counted if there is a vote tally for or against amending in the chambers. I am enclosing two copies of my letter presentation.

Sincerely Yours.

Thomas Lehman

Mr. Steven Spraker, Planning Director

Ormond City Hall

22 South Beach Street

Ormond Beach, Fl. 32174

Just before writing this letter presentation, I made a tour of my neighborhood as it stands today. I started by driving through the Lakes and Village of Pine Run communities and was impressed that even after decades of use they are fresh, clean, well maintained, where the mature coastal hammock and pine flatwood communities still exists within the developments. Individual lots are spacious, homes are quality built to hold up against seasonal strong winds, heavy rains, and flooding conditions. Volusia County got the zoning and development plans right for the area; the density is just right to create a living space that people enjoy living their lives out and raising families.

After making a tour of the new development areas behind me and to the North of my property I personally think all the qualities I just mentioned that appeal to me above do not exist within these new developmental areas and that the habits of development are destructive to the life support systems that remain here. Therefore, I do not endorse, and I would never approve a zoning change that would allow Ridge Haven to be built in a flood prone area.

I fail to see the ridge in Ridge Haven, since the development site is low flat Pine Flatwoods that floods six to eight months out of the year with an average height of 31 feet above sea level dotted by lower wetlands in the form of swamps and wet grassy marshes. So, I assume 80% of the site will be denuded and an artificial ridge will be created to make a hot, arid desert-like sand box for people to live in. The high density will produce large amounts of waste in various forms to mix with seasonal flood waters lowering the quality of life as the water has to be dumped somewhere in the nearby surroundings fouling the nest. Many issues concerning this development need to be addressed and I hope they are being discussed at this hearing that keep me from supporting this zoning change.

A better use of this 130-acre plot would be for all parties involved is to use the current Volusia County rural zoning and create a Village of Pine Run II extension. Building construction that harmonizes with what is already here and that has a lesser environmental impact and more human appeal. Or have Ormond Beach city hall authorize the design of another Central Park to create a natural barrier relief for storing flood waters and recharging the aquafer, while creating a recreational complex that buffers the area from the commercial to the residential use zones that transition here.

So, there you have my own personal response to this special exception zoning request, I see the Ridge Haven plans as undesirable urban sprawl in a flat, flood prone area not suitable for a sustainable community without special restrictions that are simply being omitted or not being addressed before any development order should be issued. What's the big hurry, push city hall? Let's talk and debate what is best for my neighborhood. Another way to state my position is to view the Volusia County Zoning Classification on the second page of the City of Ormond Beach mailing, no change is needed, no amending is required because this zoning is in the best interest for this locale. I would like to see the stewardship for this development turned back over to Volusia County so they can complete the good works they started over fifty years ago with less impact and more balance between neighboring communities.

Respectfully Yours.

Thomas Lehman

Meeting Date: 6/6/2023	**AGENDA ITEM**		**Number:** 8.D
Section:	PUBLIC HEARINGS		
Item Category:	Public Hearing - Ordinances	**Res./Ord. No:**	2023-26
Strategic Goal:	Transportation & Community Development - Other		
Department :	Planning & Building		
Subject:	RidgeHaven Subdivision, Issuance of a Development Order (SECOND READING)		
Budget Impact:	There is no budget impact as the result of the issuance of a development order.		
Summary:	This is a request from RidgeHaven, LLC, with authorization of the property owner Snilloc Family Limited Partnership Number One, for the issuance of a development order for 286 residential lots on 103.45 acres and associated site improvements. The proposed RidgeHaven subdivision is located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision. The Planning Board reviewed the issuance of a development order at the April 13, 2023 meeting and recommended approval with a 5-1 vote.		
Recommended Action:	The Planning Board recommended the City Commission APPROVE the issuance of a development order to allow 286 residential lots on 103.45 acres and associated site improvements, located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision and includes the following Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050, including the following items: 1. Resolution of the outstanding comments of the Site Plan Review Committee; 2. The utilization of additional outdoor recreational square footage in lieu of indoor recreational facilities as permitted under a Planned Residential Development; 3. Allowance of stormwater pond depths of 15+ feet; 4. Allowance of a minimum perimeter setback of: 15 feet next to lot 285, 20 feet next to lots 157-163, 213, and 214, and 30 feet to lot 227; and 5. Allowance of a five-year expiration date for phase one of the project from the date of City Commission approval.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Steven Spraker, Planning Director

Date: June 6, 2023

Subject: RidgeHaven Subdivision, Issuance of a Development Order (SECOND READING)

Commission Goal: Transportation & Community Development - Other

Introduction

This is a request from RidgeHaven, LLC, with authorization of the property owner Snilloc Family Limited Partnership Number One, for the issuance of a development order for 286 residential lots on 103.45 acres and associated site improvements. The proposed RidgeHaven subdivision is located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision and includes the following Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050.

Background

The RidgeHaven subdivision includes nine parcels (Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050) that total 103.45 acres. Within the RidgeHaven subdivision land area there are eight (8) parcels individually owned (not owned by RidgeHaven) totaling approximately 5.7 acres. Seven (7) parcels are vacant and one parcel fronting Plantation Oaks Boulevard is developed with a single-family home. The RidgeHaven subdivision was located in unincorporated Volusia County with a desire to construct a subdivision. Representatives of the RidgeHaven subdivision had two options for subdivision development: (1) remain in unincorporated Volusia County and have Ormond Beach provide the project utilities or (2) become part of the North U.S. Highway 1 Interlocal Service Boundary Agreement (ISBA) area and develop the subdivision in Ormond Beach. The ISBA allows the annexation of land while creating enclaves that remain in unincorporated Volusia County. The City Commission adopted the original North U.S. 1 ISBA on August 19, 2014 per Ordinance 2014-27. Concurrently, the Volusia County Council adopted the ISBA on August 21, 2014 by Volusia County Ordinance 2014-12. The original ISBA established the Municipal Service Area (MSA) and joint planning and

service delivery agreement to the North U.S. Highway 1 area. The first amendment to the North U.S. 1 ISBA was approved to add the land associated with Plantation Oaks Subdivision and the 13 enclaves surrounding the subdivision to the adopted MSA. On August 20, 2019, the City Commission adopted the first amendment to the North U.S. Highway 1 ISBA. The Volusia County Council subsequently adopted the agreement on September 17, 2019. The City of Ormond Beach (December 7, 2021 with Ordinance 2021-43) and Volusia County (February 15, 2022 with Ordinance 2022-9) approved the second amendment to the North U.S. Highway 1 ISBA to add the land associated with the RidgeHaven subdivision and the individually owned parcels not owned by RidgeHaven to the adopted MSA. During the County Council presentation and discussion, the RidgeHaven representative and city staff committed to establishing a limitation of 298 dwelling units for the entire RidgeHaven area. On March 22, 2022, the City Commission approved Ordinance 2022-05 that annexed the RidgeHaven subdivision. With the ISBA and annexation approved, the next step for the RidgeHaven project was the assignment of a city land use designation. For the existing land use entitlements, Volusia County staff analysis calculated a range of residential development of 716 to 1,052 dwelling units. The existing land use required a minimum of four units per acre.

The city land use designation occurred with three separate actions:

Ordinance 2022-14 adopted July 19, 2022: The Ordinance amended the Future Land Use Element of the Comprehensive Plan to incorporate the second ISBA and provide a text limitation within Policy 9.1.4 that states the RidgeHaven land area shall not exceed 3 units per acre and no more than 298 dwelling units for the entire RidgeHaven property. The maximum theoretical residential density was reduced by 754 residential units. For the non-RidgeHaven properties, the Ordinance included the text restriction that these parcels would maintain a maximum gross residential density of eight (8) units per acre – the same density that existed in unincorporated Volusia County.

Ordinance 2022-18, adopted August 3, 2022: The Ordinance authorized the following actions:
Amended the Future Land Use Map designation for the RidgeHaven subdivision property (totaling 84.26 acres) from Volusia County “Urban Medium Intensity” (UMI) to Ormond Beach “Low Density Residential” (LDR). The Ordinance included the map annotation that the RidgeHaven subdivision would have a density restriction of three (3) units per acre and shall not exceed 298 residential units for the entire RidgeHaven subdivision; and

Amended the Future Land Use Map designation of the properties not associated with the RidgeHaven development from UMI to Ormond Beach “Medium Density Residential” (MDR). The Ordinance included the map annotation that these parcels would maintain a maximum gross residential density of eight (8) units per acre – the same density that existed in unincorporated Volusia County.

Ordinance 2022-18, adopted August 3, 2022: This Ordinance was for 19.19 acres owned by the RidgeHaven subdivision applicant that was part of the original ISBA. The Ordinance amended the Future Land Use for the property from “Low Intensity Commercial” (LIC) to MDR. The Ordinance contained a condition that the density shall

be restricted to eight (8) units per acre within the 19.19 acres and the RidgeHaven subdivision including the 84.26 acres shall not exceed 298 residential units.

In summary, the project has:
-Amended the ISBA to allow annexation and development under Ormond Beach development standards;
-Annexed 103.45 acres that is the RidgeHaven subdivision.
-Amended the land uses of two land areas from Volusia County "Urban Medium Intensity" (UMI) to "Low Density Residential" (LDR) and Ormond Beach "Low Intensity Commercial" (LIC) to "Medium Density Residential" (MDR) with a maximum development scenario of 298 residential units.
-Reduced the potential maximum residential development as allowed under the Volusia County "Urban Medium Intensity" (UMI).
-The ISBA land use amendment has amended the land use of the non-RidgeHaven outparcels to the same density (8 units per acre) as allowed under the Volusia County land use.

Discussion

There are two other applications related to the project that are scheduled for the June 6, 2023 City Commission agenda:

1. Preliminary Plat. Section 1-22 of the Land Development Code defines a preliminary plat as "a proposed subdivision plan that in an exact and precise manner in which it may be evaluated pursuant to this Land Development Code and the comprehensive plan". Preliminary plats are not required with a planned development, however, this application has developed and submitted the preliminary plat with the zoning action. The preliminary plat contains the plat document and the detailed subdivision engineering plan.
2. Partial plat vacation. The project is located with a 1926 plat with existing street layouts. The partial plat vacation would vacate portions of the 1926 plat and update to the RidgeHaven subdivision plat. The outparcels within the RidgeHaven subdivision would always have access to their property.

The project has the following attributes:

1. The total project size is 103.45 acres.
2. The development of consists of 286 lots. Any subdivision phasing may be reviewed and approved of the Site Plan Review Committee as a minor amendment.
3. The project's gross density is 2.76 units per acre.
4. The project's net density (project acreage of 103.45 minus 6.49 acres of wetlands divided by 286 residential lots) is 2.95 units per acre.
5. The subdivision features three residential types: (a) duplex lots – 84 lots with a 35-foot lot frontage along the boundary of Addison Drive. These are allocated on the former B-8, Commercial land area that has a land use of "Medium Density Residential", (b) 50-foot lots – 136 lots that are located in the interior of the subdivision, and (c) 75-foot lots - 66 lots that are located at the rear of the subdivision, abutting the 35' natural area that abuts the Village of Pine Run.

6. There are two subdivision access points from Plantation Oaks Boulevard. No access is proposed from Addison Drive.
7. A traffic study was performed and is included the applicant package and a proportionate fair share agreement is required.
8. The project proposes internal sidewalks on both sides of the streets within the RidgeHaven subdivision. The project proposes a sidewalk connection off-site to connect to North U.S. Highway 1.
9. An Environmental Assessment Analysis performed by Ecological Consulting Solutions, Inc. A total of 8.04 acres of wetlands exists on the subject property. As designed, the project would have 1.75 acres of direct impacts to on-site wetlands.
10. Recreational improvements include a 33,000 square foot outdoor amenity area including a pool and pool deck, including a dog park, playground and activity field. The project also includes two walking trails in the southeast corner of the property and along a lake and buffer area at the northeast corner.
11. The project proposes to preserve a total of 25.52 acres as natural preservation or 24.67% of the subject property. The Land Development Code requirement for natural preservation is 15% of the property and the Planned Residential Development standard is 20% of the property.
12. There is a 35-foot natural preservation area and existing ditch between the Ridgehaven subdivision and the Village of Pine Run. The Land Development Code requirement for a landscape buffer is six (6') feet.
13. Irrigation for the subdivision will be drawn from the stormwater ponds.
14. A street tree plan has been designed with 298 street trees.
15. A five-year expiration date for phase one of the project from the date of City Commission approval is proposed.
16. For the project stormwater, the site is surrounded on three (3) sides by ditches that ultimately flow to the east. The drainage pattern of the pre-developed site flows to the Addison Canal, the canal between this project and the Village of Pine Run Subdivision, the wetland and a ditch on the north side of the project.
17. The proposed stormwater treatment methodology is wet detention with stormwater harvesting. The wet detention system has multiple ponds with equalizer pipe system that will maintain the normal water elevation for all ponds. The drainage patterns for the post developed site includes the landscape/natural preservation that will continue to drain into the Addison Canal and the canal between Ridgehaven and Village of Pine Run. This acreage of this area has been significantly decreased. The area that drains to the north also has been decreased in the post development condition. The interior of the project will be directed onto the proposed stormwater treatment facility noted above. The stormwater wet detention will have an ultimate outfall to the swale along the northern border. This swale will intersect to the swale along the western edge of Village of Pine Run that flows to the north in the Plantation Oaks Phase III. By directing the surface water runoff into the stormwater facility, there will be a delay in the surface flow exiting the site as well as reduction of the actual volume entering the canal/pipe system through the Village of Pine Run.
18. All three (3) historic trees on-site have been preserved.
19. The project buffers are as follows:

    A. Abutting Addison Drive. Required: 10'. Provided: ranges from 12' to 22'.

B. Abutting Plantation Oaks Boulevard. Required 20'. Provided: ranges from 30', 40, and 125' depending on the buffer location.

C. Abutting Plantation Oaks, Phase 3. Required 6'. Provided: Ranges with a minimum of 40'.

D. Abutting Village of Pine Run. Required: 6'. Provided: 35' natural area.

Planning Board

The Planning Board reviewed the zoning map amendment at the April 13, 2023 meeting and recommended approval with a 5-1 vote. There were three individuals who spoke before the Planning Board regarding the subdivision development. One individual sought additional screening of their property abutting a cul-de-sac which the applicant agreed with and the Planning Board made part of the approving motion for the issuance of the development order. Two individuals addressed the Planning Board expressing concern regarding the project and the potential impacts on the Ormond Lakes stormwater system. The applicant detailed how the stormwater management plan reduces both the rate and volume of stormwater discharge post site development compared to the pre-development conditions. The project engineer stated that stormwater has been re-directed into the Plantation Oaks stormwater system versus the pre-development condition of discharge to the Village of Pine Run and eventually through the Ormond Lakes stormwater system. City staff also verified that the adopted Stormwater Master Plan has a planned stormwater study of the Ormond Lakes area. There were no specific comments on the zoning map amendment. The Planning Board minutes are attached to this item.

Budget Impact

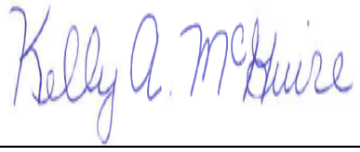
There is no budget impact as the result of the issuance of a development order.

Citizen Impact

The project has undergone a substantial path in order to develop in Ormond Beach versus unincorporated Volusia County. The project has voluntarily reduced density of what was allowed under the Volusia County land use and zoning entitlements. It is not anticipated that the issuance of a development order would have negative citizen impacts.

Recommendation

The Planning Board recommended the City Commission APPROVE the issuance of a development order to allow 286 residential lots on 103.45 acres and associated site improvements, located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision and includes the following Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050, including the following items:



1. Resolution of the outstanding comments of the Site Plan Review Committee;

2. The utilization of additional outdoor recreational square footage in lieu of indoor recreational facilities as permitted under a Planned Residential Development;
3. Allowance of stormwater pond depths of 15+ feet;
4. Allowance of a minimum perimeter setback of: 15 feet next to lot 285, 20 feet next to lots 157-163, 213, and 214, and 30 feet to lot 227; and
5. Allowance of a five-year expiration date for phase one of the project from the date of City Commission approval.

ORDINANCE NO. 2023-26

AN ORDINANCE AUTHORIZING THE EXECUTION AND ISSUANCE OF A PLANNED RESIDENTIAL DEVELOPMENT DEVELOPMENT ORDER FOR THE "RIDGEHAVEN" SUBDIVISION, AUTHORIZING A SUBDIVISION OF 286 LOTS ON APPROXIMATELY 103.45 ACRES TO BE LOCATED SOUTH OF PLANTATION OAKS BOULEVARD, EAST OF ADDISON DRIVE, NORTH OF THE VILLAGE OF PINE RUN SUBDIVISION, AND WEST OF THE PLANTATION OAKS SUBDIVISION; ESTABLISHING CONDITIONS AND EXPIRATION OF APPROVAL; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, Ridgehaven, LLC, a Florida Limited Liability Company, and Snilloc Family Limited Partnership Number One, a Florida Limited Partnership, are the owners of nine parcels of real properties ("Property Owners") consisting of approximately 103.45 acres located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision (Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050), as more particularly described and depicted in Exhibit "A" to the Planned Residential Development (PRD) Development Order attached hereto and incorporated herein ("Property"), and

WHEREAS, RidgeHaven, LLC, with authorization of Snilloc Family Limited Partnership Number One, has submitted an application for the issuance of a Development Order for a Planned Residential Development to allow the development of a subdivision of 286 lots on the Property to be known as "RidgeHaven", as described and depicted in Exhibit "A" to the PRD Development Order attached hereto and incorporated herein, and

WHEREAS, the Property has been rezoned from Volusia County R-4, Urban Single-Family Residential, and Ormond Beach B-8, Commercial, to Ormond Beach, Planned Residential Development (PRD), and

WHEREAS, the Planning Board held a public hearing on April 13, 2023, as required by Section 1-15(d)(2), of the *Land Development Code*, and has recommended approval, and

WHEREAS, the City Commission has held a public hearing in accordance with Section 166.041(3)(c)(2), *Florida Statutes* and has considered the following:

(1) The report and recommendations of the Planning Board;

(2) The report and recommendations of the Site Plan Review Committee;

(3) The comments of governmental agencies, utility corporations and individuals, as received, and

(4) The testimony of the City's planning staff, the Applicant, expert witnesses, persons that may be affected as a result of the application, and documentary evidence pertaining thereto, if any, and

WHEREAS, the City Commission further finds that there is competent substantial evidence to support the following:

(1) The proposed land use conforms to the standards and requirements of the *Land Development Code* and will not create undue crowding beyond the conditions normally permitted in the PRD, Planned Residential Development, zoning district, or adversely affect the public health, safety, welfare or quality of life;

(2) The proposed development is consistent with the *Comprehensive Plan*;

(3) The proposed development will not adversely impact environmentally sensitive lands or natural resources, including but not limited to waterbodies, wetlands, xeric communities, wildlife habitats, endangered or threatened plants and animal species or species of special concern, wellfields, and individual wells;

(4) The proposed use will not substantially or permanently depreciate the value of surrounding property; create a nuisance; or deprive adjoining properties of adequate light and air; create excessive noise, odor, glare, or visual impacts on the neighborhood and adjoining properties;

(5) There are adequate public facilities to serve the development, including but not limited to roads, sidewalks, bike paths, potable water, wastewater treatment, drainage, fire and police safety, parks and recreation facilities, schools, and playgrounds;

(6) Ingress and egress to the property and traffic patterns are designed to protect and promote motorized vehicle and pedestrian/bicycle safety and convenience, allow for desirable traffic flow and control, and provide adequate access in case of fire or catastrophe;

(7) The proposed development is functional in the use of space and aesthetically acceptable;

(8) The proposed development provides for the safety of occupants and visitors; and

(9) The proposed use of materials and architectural features

will not adversely impact the neighborhood and aesthetics of the area; now therefore,

BE IT ENACTED BY THE PEOPLE OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The foregoing recitals are incorporated herein as the findings of the City Commission.

SECTION TWO. The application of the Property Owners for the issuance of a Planned Residential Development Development Order for the "Ridgehaven" project is hereby approved. The Mayor and the City Manager are authorized and directed to execute and issue the attached Development Order for the "Ridgehaven" Planned Residential Development to allow the development of 286 lots on approximately 103.45 acres located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision (Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050).

SECTION THREE. The project shall consist of three housing types that include as follows: Duplex lots - 84 lots, 50-foot-wide lots - 136 lots, and 75-foot-wide lots - 66 lots. The subdivision phasing may be modified with review and approval of the Site Plan Review Committee.

SECTION FOUR. Section 2-35(h)(3)(a) of the Land Development Code allows additional outdoor recreational areas to be provided in lieu of indoor recreation area. The project

is required to provide 26,820 square feet of outdoor recreational area. The project proposes (1) a 33,000 square foot outdoor recreation area to include a pool, dog park, playground and activity fields; (2) a 50,921 square foot walking trial at the southeast corner of the property; and (3) an 8,500 square foot walking trail along a lake and natural buffer at the northeast corner of the property. These outdoor recreational areas exceed the *Land Development Code* requirements and are hereby accepted.

SECTION FIVE. The city's standard stormwater detail number five provides an allowed stormwater depth of eight to twelve feet. The applicant is requesting a pond depth of 15± feet. The additional stormwater pond depth is hereby accepted.

SECTION SIX. Section 2-35(d)(3) of the Land Development Code requires a forty-foot perimeter buffer building setback. The subject property has existing outparcels and seeks to allow a minimum perimeter setback of: fifteen-feet next to lot 285; twenty-feet next to lots 157-163, 213, and 214; and thirty-feet next to lot 227. The minimum setbacks of fifteen-feet next to lot 285; twenty-feet next to lots 157-163, 213, and 214; and thirty-feet next to lot 227, are hereby accepted.

SECTION SEVEN. The applicant shall construct sidewalk along Plantation Oaks Boulevard along the project's boundary and beyond the property's boundary to connect with North U.S. Highway 1.

SECTION EIGHT. Per the Planning Board's recommendation, a PVC vinyl fence and an additional hedge row shall be installed on the Greenhaven Place cul-de-sac, between lots

215 and 216, to screen the existing single-family house at 1155 Plantation Oaks Boulevard. The RidgeHaven HOA shall be responsible for the maintenance of the hedge and fence.

SECTION NINE. The Applicant, including the Applicant's successors and assigns, shall at all times fully comply with the terms and conditions of the PRD Development Order.

SECTION TEN. All Ordinances or parts of Ordinances in conflict herewith are hereby repealed to the extent of such conflict.

SECTION ELEVEN. This Ordinance shall take effect immediately upon its adoption.

PASSED UPON at the first reading of the City Commission this 16th day of May, 2023.

PASSED UPON at the second and final reading of the City Commission this 6th day of June, 2023.

	Planned Residential Development	PRD 2022-061
	Project Name:	RidgeHaven
	Location:	South of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision
	Parcel ID Nos.	3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050

PLANNED RESIDENTIAL DEVELOPMENT DEVELOPMENT ORDER

This matter having come on for public hearing before the City Commission of the City of Ormond Beach, Florida, on May 16, 2023 and June 6, 2023, and the City Commission having considered those items as required by Chapter 1, Article II, Section 1-18(e) of the *Land Development Code*, and having heard testimony and evidence from all affected persons, the City Commission hereby finds that:

1. The proposed land use conforms to the standards and requirements of the *Land Development Code* and will not create undue crowding beyond the conditions normally permitted in the PRD, Planned Residential Development, zoning district, or adversely affect the public health, safety, welfare or quality of life;

2. The proposed development is consistent with the *Comprehensive Plan*;

3. The proposed development will not adversely impact environmentally sensitive lands or natural resources, including but not limited to waterbodies, wetlands, xeric communities, wildlife habitats, endangered or threatened plants and animal species or species of special concern, wellfields, and individual wells;

4. The proposed use will not substantially or permanently depreciate the value of surrounding property; create a nuisance; or deprive adjoining properties of adequate light and air; create excessive noise, odor, glare, or visual impacts on the neighborhood and adjoining properties;

5. There are adequate public facilities to serve the development, including but not limited to roads, sidewalks, bike paths, potable water, wastewater treatment, drainage, fire and police safety, parks and recreation facilities, schools, and playgrounds;

6. Ingress and egress to the property and traffic patterns are designed to protect and promote motorized vehicle and pedestrian/bicycle safety and convenience, allow for desirable traffic flow and control, and provide adequate access in case of fire or catastrophe;

7. The proposed development is functional in the use of space and aesthetically acceptable;

8. The proposed development provides for the safety of occupants and visitors; and

9. The proposed use of materials and architectural features will not adversely impact the neighborhood and aesthetics of the area;

Thereupon and in consideration thereof, the City Commission hereby orders that:

A. The application of RidgeHaven, LLC, a Florida Limited Liability Company, with authorization of Snilloc Family Limited Partnership Number One, a Florida Limited Partnership (the "Property Owners"), for a Planned Residential Development ("PRD") Development Order authorizing the development and construction of a residential subdivision of 286 lots to be known as "RidgeHaven", to be located on approximately 103.45 acres located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision (Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020,3136-01-23-0060, and 3136-01-24-0050) on that real property described in Exhibit "A" attached hereto and incorporated herein by reference, is hereby granted, subject to the following conditions:

1. All applicable provisions of Chapter 2, District and General Regulations, Article II, District Regulations, Section 2-35, Planned Residential Development, of the City of Ormond Beach *Land Development Code*, except as otherwise specifically modified are hereby made a part of this Development Order;

2. All outstanding Site Plan Review Committee comments shall need to be resolved prior to the issuance of an engineering permit described in Exhibit "B";

3. Full and complete compliance with the Applicant's Site Plan attached as Exhibit "C";

4. Full and complete compliance with the Special Conditions described in Exhibit "D";

B. The final plans for the development project shall be consistent with all of the conditions listed in this Development Order and as depicted in the plans attached hereto as Exhibit "C" and incorporated herein by reference.

C. No material change shall be made to the final plan for the development project without further review by the Planning Board and approval by the City Commission in accordance with the procedures for the approval or modification of development orders.

D. All site construction activity shall be performed in strict compliance with the terms and conditions of this Development Order approved for this development project, and of the *Land Development Code.*

E. There shall be no site preparation including clearing, filling, dredging, or excavation, nor shall any construction begin until the Preliminary Plat site plans are approved. If construction has not begun within five years (June 6, 2028) from the date of City Commission approval of this Development Order with the subdivision plat processed in accordance with Sections 4-17 or 4-18 of the *Land Development Code*, this Development Order shall automatically become void and shall have no further effect. Before the planned development permit can be re-established, a new PRD Development Order application must be filed shall be reviewed and approved by the Planning Board and the City Commission under the provisions of Chapter 1, Article II, Section 1-14(3)(b), of the *Land Development Code*.

F. In the event the use of the land approved by this Planned Residential Development Order is abandoned for a period of two (2) years or there has been no construction activity during that period, any permit shall be void and a Notice of Final Plan Revocation shall be filed under the provisions of Chapter 1, Article II, Section 1-14(3)(b)(2) of the *Land Development Code,* and a new application for a PRD Development Order must be submitted for consideration in accordance with the requirements of the *Land Development Code*.

G. The Neighborhood Improvement Officer shall semi-annually prepare a report indicating which planned developments are not in compliance with Chapter 1, Article II, Section 1-14, or with the conditions provided in the Planned Residential Development Order. In the event a Neighborhood Improvement Officer determines there to be any violation, such Officer shall initiate appropriate code enforcement action for hearing before the City's Special Master.

H. This Development Order shall be recorded in the public records of Volusia County, Florida, at the expense of the Property Owners and shall be binding upon the Property Owners and their successors and assigns, and shall run with the real property described in Exhibit "A" attached hereto and incorporated herein by reference. (Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050).

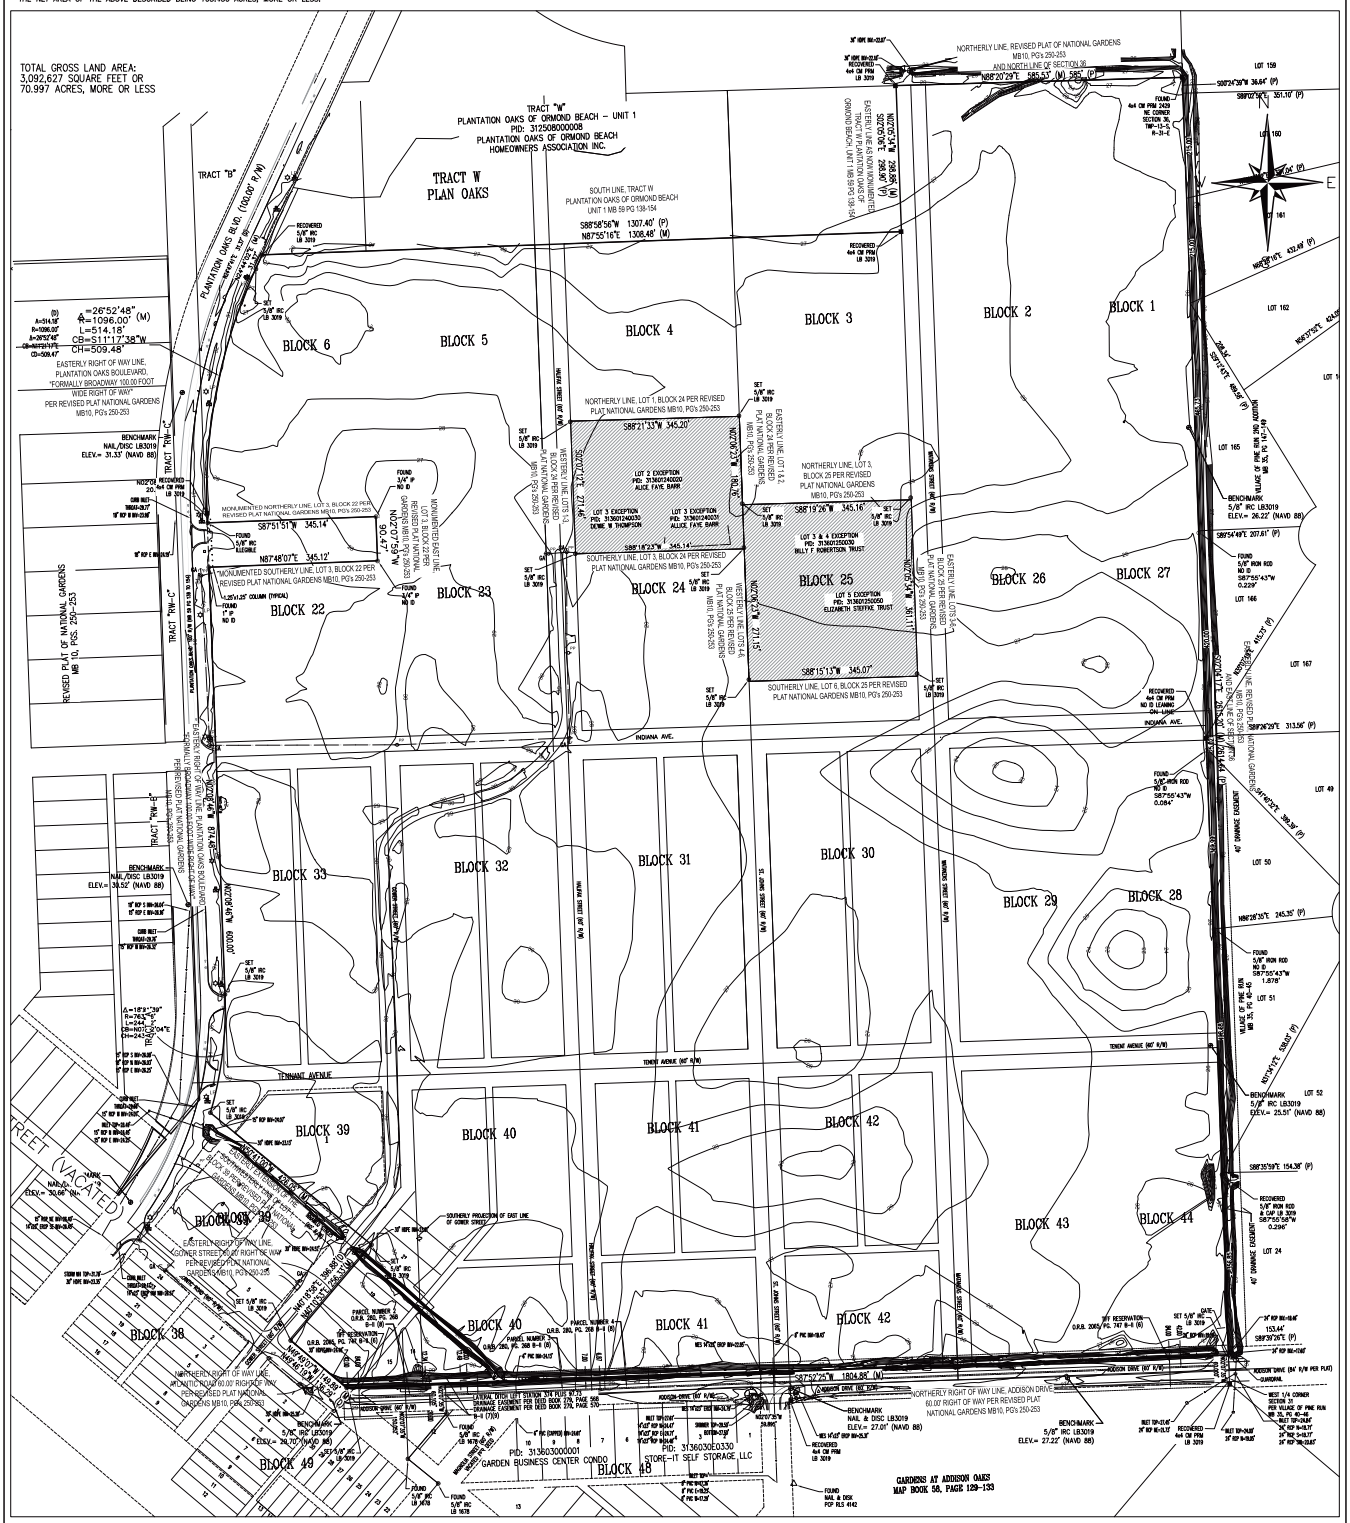
BEGIN AT THE NORTHEAST CORNER OF SAID REVISED PLAT OF NATIONAL GARDENS, BEING ALSO THE NORTHEAST CORNER OF SECTION 36, TOWNSHIP 13 SOUTH, RANGE 31 EAST; THENCE RUN S02°04'17"E ALONG THE EASTERLY LINE OF SAID REVISED PLAT OF NATIONAL GARDENS AND THE EAST LINE OF SAID SECTION 36, A DISTANCE OF 2615.20 FEET TO THE NORTHERLY RIGHT OF WAY LINE OF ADDISON DRIVE; 60.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE S87°52'25"W ALONG SAID NORTHERLY RIGHT OF WAY LINE, 1804.88 FEET TO THE NORTHERLY RIGHT OF WAY LINE OF ATLANTIC ROAD, A 60.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N49°49'07"W ALONG SAID NORTHERLY RIGHT OF WAY LINE, 149.89 FEET TO THE EASTERLY RIGHT OF WAY LINE OF GOWER STREET, 60.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N40°10'53"E ALONG SAID EASTERLY RIGHT OF WAY, 256.33 FEET TO THE EASTERLY EXTENSION OF THE SOUTHWESTERLY LINE OF LOT 1, BLOCK 39, SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N50°41'00"W ALONG SAID EASTERLY EXTENSION AND ALONG THE SOUTHWESTERLY LINE OF SAID LOT 1, A DISTANCE OF 426.00 FEET TO THE BEGINNING OF A NON-TANGENT CURVE AND A POINT ON THE EASTERLY RIGHT OF WAY LINE OF PLANTATION OAKS BOULEVARD, FORMERLY BROADWAY, 100.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; SAID NON TANGENT CURVE BEING CONCAVE NORTHWESTERLY, HAVING A RADIUS OF 763.96 FEET, A CENTRAL ANGLE OF 18° 21'39" AND A CHORD BEARING OF N07°02'04"E; THENCE NORTHERLY ALONG SAID EASTERLY RIGHT OF WAY LINE AND THE ARC OF SAID CURVE, 244.82 FEET TO THE POINT OF TANGENCY; THENCE N02°08'46"W ALONG SAID EASTERLY RIGHT OF WAY LINE, 874.48 FEET TO THE MONUMENTED SOUTHERLY LINE OF LOT 3, BLOCK 22, SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N87°48'07"E ALONG SAID SOUTHERLY LINE, 345.12 FEET TO THE MONUMENTED SOUTHEAST CORNER OF SAID LOT 3; THENCE N02°07'59"W ALONG THE EASTERLY LINE OF SAID LOT 3, A DISTANCE OF 90.47 FEET TO THE MONUMENTED NORTHEAST CORNER OF SAID LOT 3; THENCE S87°51'51"W ALONG THE MONUMENTED NORTHERLY LINE OF SAID LOT 3, A DISTANCE OF 345.14 FEET TO THE EASTERLY RIGHT OF WAY LINE OF SAID PLANTATION OAKS BOULEVARD; THENCE N02°08'46"W ALONG SAID EASTERLY RIGHT OF WAY LINE, 20.19 FEET TO A BEING THE BEGINNING OF A TANGENT CURVE, CONCAVE EASTERLY, HAVING A RADIUS OF 1096.00 FEET, A CENTRAL ANGLE OF 26°52'48" AND A CHORD BEARING N11°17'38"E; THENCE NORTHERLY ALONG SAID EASTERLY RIGHT OF WAY LINE AND ALONG THE ARC OF SAID CURVE, 514.18 FEET TO THE POINT OF TANGENCY ; THENCE N24°44'02"E ALONG SAID EASTERLY RIGHT OF WAY LINE, 31.37 FEET TO THE SOUTHERLY LINE OF TRACT "W", SAID PLANTATION OAKS OF ORMOND BEACH – UNIT 1, RECORDED ON MAP BOOK 59, PAGES 138–154; THENCE N87°55'16"E ALONG SAID SOUTHERLY LINE, 1308.48 FEET TO THE EASTERLY LINE OF SAID TRACT "W" AS NOW MONUMENTED; THENCE N02°05'34"W ALONG SAID MONUMENTED EASTERLY LINE, 298.88 FEET TO THE NORTHERLY LINE OF SAID REVISED PLAT OF NATIONAL GARDENS AND THE NORTH LINE OF SAID SECTION 36; THENCE N88°20'29"E ALONG SAID NORTHERLY LINE, 585.53 FEET TO THE POINT OF BEGINNING.



LESS AND EXCEPT LOTS 1, 2 AND 3, BLOCK 24 AND LOTS 3, 4, 5 AND 6, BLOCK 25, SAID REVISED PLAT OF NATIONAL GARDENS, MORE PARTICULARLY DESCRIBED AS THE FOLLOWING:
BEGIN AT THE NORTHWEST CORNER OF SAID LOT 1, BLOCK 24; THENCE RUN N88°21'33"E, 345.20 FEET TO THE NORTHEAST CORNER OF SAID LOT 1; THENCE S02°06'23"E, 180.76 FEET TO THE SOUTHEAST CORNER OF SAID LOT 2, BLOCK 24, BEING THE NORTHWEST CORNER OF SAID LOT 3, BLOCK 25; THENCE N88°19'26"E, 345.16 FEET TO THE NORTHEAST CORNER OF SAID LOT 3; THENCE S02°05'34"E, 361.11 FEET TO THE SOUTHEAST CORNER OF SAID LOT 6, BLOCK 25; THENCE S88°15'13"W, 345.07 FEET TO THE SOUTHWEST CORNER OF SAID LOT 6; THENCE N02°06'23"W, 271.15 FEET TO THE NORTHWEST CORNER OF SAID LOT 4, BLOCK 25, BEING THE SOUTHEAST CORNER OF SAID LOT 3, BLOCK 24; THENCE S88°18'23"W, 345.14 FEET TO THE SOUTHWEST CORNER OF SAID LOT 3; THENCE N02°07'12"W, 271.46 FEET TO THE POINT OF BEGINNING.

THE NET AREA OF THE ABOVE DESCRIBED BEING 103.450 ACRES, MORE OR LESS.

TOTAL GROSS LAND AREA:
3,092,627 SQUARE FEET OR
70.997 ACRES, MORE OR LESS

SURVEYORS NOTES

1. NOTICE: THIS SURVEY WAS PREPARED WITH BENEFIT OF A COMMITMENT FOR TITLE INSURANCE ISSUED BY OLD REPUBLIC NATIONAL TITLE INSURANCE COMPANY, COMMITMENT #1016422; ISSUING OFFICE #3714601, FILE #2832–17 DATED FEBRUARY 10, 2021 AT 11:00 PM..
2. DIMENSIONS ARE SHOWN IN FEET AND DECIMALS THEREOF.
3. BEARING STRUCTURE BASED ON NAD 83, FLORIDA STATE PLANE, EAST ZONE, U.S. SURVEY FOOT, WITH THE BEARING ON THE EAST LINE OF SECTION 36 BEING S02°04'46E.
4. UNDERGROUND FOUNDATIONS, IF ANY, NOT LOCATED.
5. ELEVATIONS REFER TO N.A.V.D. OF 1988, PER NGS MONUMENT DESIGNATION X–226 HAVING A PUBLISHED ELEVATION OF 28.48' NAVD 88. (NGVD 30.573 FEET)
6. THIS PROPERTY IS LOCATED IN FLOOD INSURANCE RATE MAP (F.I.R.M.) ZONE "X". THIS LOCATION IS DETERMINED BY SCALING FROM F.I.R.M. MAP NO. 12127C0203K. MAP EFFECTIVE DATE: SEPTEMBER 29, 2017. APPROXIMATE SCALE: 1"=500'.
7. "NOT VALID WITHOUT THE SIGNATURE AND THE ORIGINAL RAISED SEAL OR ELECTRONIC SIGNATURE OF A FLORIDA LICENSED SURVEYOR AND MAPPER."
8. UNLESS OTHERWISE SHOWN, RECORD DISTANCES AND DIRECTIONS AND FIELD MEASURED DISTANCES AND DIRECTIONS ARE THE SAME.
9. THE PORTION OF PENNSYLVANIA AVENUE SHOWN HEREON AS VACATED (PER ORB 5498, PAGE 1745)(VOLUSIA COUNTY RESOLUTION 2005–15) HAS BEEN INCLUDED IN THIS BOUNDARY SURVEY ALTHOUGH IT WAS NOT INCLUDED IN THE DESCRIPTION PROVIDED BY THE TITLE COMPANY IN THE COMMITMENT SHOWN IN NOTE #1 ABOVE.
10. THE VERTICAL RELIEF SHOWN HEREON IS BASED ON A GROUND SURVEY PERFORMED BY SLIGER & ASSOCIATES, INC.

Project Name: PZ-22-061
Project Description: RidgeHaven subdivision, PRD & Preliminary Plat (298 units on 103.45 acres)
Review Comments List Date: 3/31/2023

Ref. # 164, Civil Engineer, David Allen, Cycle 3
Markup: Civil-Tailwater, Stormwater Calculations.pdf
In the review of the plans and stormwater design, it appears that the existing swale invert is well above the invert to the discharge pipe from the stormwater pond in the north east corner of the site. What is any modifications to the canal will be done to ensure the flow is not impeded.

Ref. # 171, Civil Engineer, David Allen, Cycle 3
Markup: Civil-Post Basin B, Stormwater Calculations.pdf
What is the criteria for an overflow outlet for this land-locked basin. What impacts will this design have on the parcels not part of this project.

Ref. # 198, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Pipe Systems, Hydraulic Grade Line Calculations.pdf
Identify the runs of pipe on a site plan to determine the actual location.

Ref. # 199, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Pipe Runs-2, Hydraulic Grade Line Calculations.pdf
Identify the runs on this overall plan. Identify the nodes that appear in more than one run, such as structures at 41 and 53. Show the hydraulic grade line from both runs.

Ref. # 200, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Color Code, Hydraulic Grade Line Calculations.pdf
When trying to identify the different runs, the color code on this sheet, did not match the individual runs shown on the following pages.

Ref. # 201, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Wetland, Hydraulic Grade Line Calculations.pdf
In our meeting this basin was discussed, where are the connections for any overflow from this basin to the stormwater system?

Ref. # 202, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Run #6, Hydraulic Grade Line Calculations.pdf
Please identify this run on the overall plan. I was unable to identify it.

Ref. # 203, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Run #7, Hydraulic Grade Line Calculations.pdf
Please identify this run on the overall plan. I was unable to identify it.

Ref. # 204, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Wetland Stage, Stormwater Calculations.pdf
In previous comments, this basin was noted as land-locked. Response was that there were outlets for the basin. Please indicate the stage that this wetland will reach prior to the discharge. Will this stage adversely affect the two outparcels.?
The location of the outlets appear to be on the other side of the out parcels.

Ref. # 205, Civil Engineer, David Allen, Cycle 4

Markup: Civil-Post-Tree-Pres, Stormwater Calculations.pdf
This basin appears to have multiple discharge points i.e.: north, south and east. Should this basin be divided by discharge points?

Ref. # 206, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Wetland-Post Basin 'B', Stormwater Calculations.pdf
In the predeveloped condition an irregular weir separates portions of the basin. Was this removed? If not how does this affect the surface flow to the outlet structures?

Ref. # 207, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Overall Stormwater, Stormwater Calculations.pdf
In our meeting, we requested the impacts to the adjacent and down stream properties be evaluated. Provide documentation that there will not be adverse impacts to the adjacent properties. Second, the drainage swale/ditch that will be the ultimate discharge appears to be less than adequate for the proposed flows.

Ref. # 215, Civil Engineer, David Allen, Cycle 5
Markup: Civil-Grading, C011-CIVIL.pdf
Flow arrows indicate a flow to the west and Inlet 110A. However, there are no grades to provide documentation of this flow.Provide information on the flow pattern of the non-paved portion of Cliffhaven Court. This area has no existing grades on the profile for Cliffhaven Court.
Will there be any grading in this area?

Ref. # 216, Civil Engineer, David Allen, Cycle 5
Markup: Civil Grading C-011, C011-CIVIL.pdf
The existing grades in this area indicate the flow to the west. How will the proposed inlet drain this area/
Will the two areas stage up to the elevation of the roadway?

Ref. # 217, Civil Engineer, David Allen, Cycle 5
Markup: Civil-Out parcels, C012-CIVIL.pdf
Provide additional grading information on the out parcels to ensure the safety of the parcel
Will the two areas hashed stage to a point of merging ? The western connecting point appears to be the low point at the 28 contour.
Are there any existing elevations available in these areas?

Ref. # 218, Civil Engineer, David Allen, Cycle 5
Markup: Civil-Ridgehave Ave., C012-CIVIL.pdf
Provide any existing elevations for the unpaved limits of Ridgehaven Ave. How will this profile make the connection between the two asphalt sections.?

Ref. # 219, Civil Engineer, David Allen, Cycle 5
Markup: Civil-H2O main, C017-UTILITY.pdf
It appears that this water main extension passes under the proposed structure for Lot 52. Please re-route this main into the open area to the west. keeping the minimum distance between H2O and sanitary sewer mains.
Relocate the valves associated with the tee connection.

Ref. # 220, Civil Engineer, David Allen, Cycle 5
Markup: Civil-Overall Questions on HGL Calc-Stormwater-Ponds and Basins, C013-CIVIL.pdf

Stormwater Management Questions

1. The hydraulic grade line calculations should begin with the tailwater of the peak stage for 25yr/24hr storm event.
2. The 25 year 24 hour stage of the ponds is elevation 28.52 or 28.53. The top of the inlets noted as the overflow for the large wetland in the interior of the project range anywhere from elevation 26.00 to 27.50. The hydraulic grade line for the pipe system that end at these inlets will be above the top of the inlet. Please model the wetland and provide a peak stage for this basin.
3. When evaluating the overall plan, Sheet 2, the only inlet directly connected to the interior wetland is 113A at elevation 27.50 top. Show how the other inlets, 31, 14, 28, 110A, 114A will accept flow without crossing the roadway or the outparcels.
4. The stage of the ponds, elev. 28.52 when compared to the rear yard elevations there could be water within the lots.
5. Run No. 5 ends at Inlet 113A, the HGL appears well above the top of the inlet. Even with out the flow area including the entire interior wetland.
6. Basin 110A, shows flow arrows from the east to the west. However, there are no grades to provide evidence that this is the actual flow pattern.
7. Post Development Drainage Basins Plan

a. Post-Tree-Pres basin should be split at the north-eastern corner to allow for the flow through Lakes of Pine Run to be shown verse the existing flow pattern. Post Basin C and the Addison Canal and the eastern boundary canal appear to drain to the canal in Lakes of Pine Run.

b. In Post Basin A-there are two depressions, between the tier of lots on west side of Brookhaven Trail and the lots on the east side of Ridgehaven Avenue. Do either of these depressions stage up during the major storm events? If so, what would be the peak stage and would the rear of the lots be in danger of water encroachment?

c. There does not seems to be any information available for Lake E. Provide any stage information.

8. Comment Regarding questions above- In comparing the Pre-Basins and the Post Development basins, it appears that the interior wetland previously drained through Pre-DEP-D which has now been severed by the filling of the lots.

Ref. # 231, Civil Engineer, David Allen, Cycle 5
Markup: Civil--Swale, C012-CIVIL.pdf
The swale appears to be on the adjacent property, please provide written authorization for the connection from Ridgehaven to swale. As well as permission for the flow to now proceed to the north in the swale.
Has the County been notified of the connection to the existing ditch and the change to the surface water flow?

Ref. # 188, Landscape Architect, Cara Culliver, Cycle 4
Markup: 14" Oak Missed, C004-EC.pdf
- Please add this missing 14" specimen Oak to the removal chart & calculations.

Ref. # 194, Landscape Architect, Cara Culliver, Cycle 4
Markup: Specimen Tree Chart, C048A-LANDSCP INFO.pdf
- Specimen trees removed = 89

- Specimen trees to remain = 56, please correct the chart.

Ref. # 210, Landscape Architect, Cara Culliver, Cycle 5
Markup: Missing 14" Oak, C004-EC.pdf
- See red cloud for missing 14" Oak.

Ref. # 211, Landscape Architect, Cara Culliver, Cycle 5
Markup: 14" Oak Missed, C048A-LANDSCP INFO.pdf
Please add the missing 14" specimen Oak to the removal chart, the H3 is the 15" Oak. Add letter L3 for 14" Oak.

Ref. # 212, Landscape Architect, Cara Culliver, Cycle 5
Markup: 20' Landscape Buffer Calculation, C048-TREE PLANTING.pdf
- The total buffer length is 651.05' (see plat) subtracting driveway (99.42) = 551.63' = 22 Required Trees, 221 Shrubs & 221 Ground Covers and not 500'.

Ref. # 213, Landscape Architect, Cara Culliver, Cycle 5
Markup: Buffers Along Outparcel, C048-TREE PLANTING.pdf
- Please add the (3) buffers sides along the outparcel.

Ref. # 214, Landscape Architect, Cara Culliver, Cycle 5
Markup: Changemark note #03, C048-TREE PLANTING.pdf
- Please add the (3) buffers sides along the parcel edges, see lineal footage for each side.

Ref. # 137, Planning Director, Steven Spraker, Cycle 2
Markup: Planning, ROW vacation, RW Vacation Exhibit.pdf
Please provide a sketch and legal description for the ROW to be vacated.

Ref. # 223, Utility 1, Mike Stephenson, Cycle 5
Markup: Eastern Channel Modifications?, C012-CIVIL.pdf
Please advise of any proposed construction activities on the eastern side of RidgeHaven within the existing channel. Verbally I have heard discussion regarding modifying the channel with the intent to prevent stormwater from the RidgeHaven outfall from traveling toward the existing channel serving the Village of Pine Run, but I have not seen any proposed plans to date.

Ref. # 224, Utility 1, Mike Stephenson, Cycle 5
Markup: RCP and CMP in Channel, C012-CIVIL.pdf
Please provide design documentation showcasing how the existing 36-inch CMP in the channel to west of RidgeHaven was sized and please advise how the 60-inch RCP under Plantation Oaks was sized.

Ref. # 225, Utility 1, Mike Stephenson, Cycle 5
Markup: WM Re-route, C017-UTILITY.pdf
Please revise the proposed water main routing under unit 52 to be out from under the unit and in the right of way.

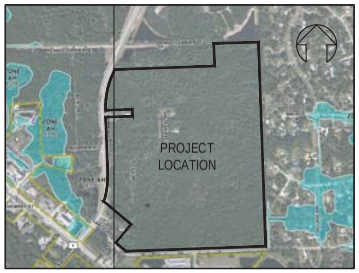
Ref. # 226, Utility 1, Mike Stephenson, Cycle 5
Markup: Sizing of Channel to Outfall Point, C012-CIVIL.pdf
Please provide design documentation showcasing how the channel leading to the outfall point was sized.

Assumptions on my end: Q = (K/n) * ((A/P)^(2/3)) * S^(1/2) * A ; K = 1.49 ; n = 0.03 ; S = 0.0005 ; A = 67.3 Ft^2 ; P = 22.8 Ft. Values of A, P, and S were calculated utilizing as-built documentation of the existing channel. Utilizing these values, I calculate a theoretical max flow rate of 154 CFS for the channel leading to the outfall point.

The current stormwater report for RidgeHaven lists the peak discharge for the 25YR-24HR event as

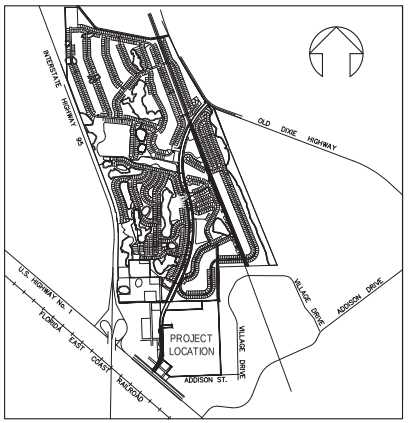
139.69 CFS. The Plantation Oaks storwmater report lists the peak discharge for DITCH-POST in the 25YR-24HR event as 156.59 CFS. The peak discharge for RidgeHaven West will likely be somewhere around 100 CFS for the 25YR-24HR event (assumption made by me based off of acreage). All total, this suggests the channel conveying flow to the outfall would need to be able to accommodate 396.3 CFS, which is above my assumed calculations. Please advise if my assumptions have been made in error while reviewing your supplied documentation.

Ref. # 227, Utility 1, Mike Stephenson, Cycle 5
Markup: Sizing of RidgeHaven Discharge Channel, C012-CIVIL.pdf
Please provide design documentation showcasing how the outfall channel discharge on the northside of RidgeHaven was sized.



Assumptions on my end: Q = (K/n) * ((A/P)^(2/3)) * S^(1/2) * A ; K = 1.49 ; n = 0.030 ; S = 0.0005 ; A = 54.5 Ft^2 ; P = 26.1 Ft. Values of A, P, and S were calculated utilizing as-built documentation of the existing channel. Utilizing these values, I calculate a theoretical max flow rate of 98.9 CFS for the channel.

The current stormwater report for RidgeHaven showcases a peak discharge of 139.69 CFS for the existing channel in the 25YR-24HR event, which is above my theoretical calculations. Please advise if my assumptions have been made in error while reviewing your supplied documentation.



RidgeHaven
PRELIMINARY PLAT & CONSTRUCTION PLANS
ORMOND BEACH, FLORIDA

GENERAL NOTES

1.) ALL WATER MAINS TO BE P.V.C. DR-18, C-900.
2.) ALL SANITARY SEWER MAINS SHOWN ARE PVC SDR 26 @ 0.40% FOR 8", 0.30% FOR 10" UNLESS OTHERWISE NOTED.
SANITARY SERVICES ARE 4" SDR 26 @ MINIMUM 2.0% RESIDENTIAL CONNECTION.
SANITARY FORCE MAIN TO BE PVC, DR-18, C-900.
3.) CABLE T.V., TELEPHONE AND ELECTRIC SERVICES TO BE UNDERGROUND.
4.) CONTRACTOR TO VERIFY EXISTING UTILITIES PRIOR TO CONSTRUCTION AND TO REPORT ANY DISCREPANCIES TO DESIGN ENGINEER.
5.) WATER AND SEWER IMPROVEMENTS TO MEET CITY OF ORMOND BEACH STANDARDS.
6.) DOWNLIGHTS (STREET LIGHTS) TO BE FP&L STANDARD & CONTEMPORARY LIGHTS TO BE FP&L STANDARD LED, (CONTEMPORARY LIGHT) AND BLACK FIBERGLASS POLES, STREET LIGHTS AND POLES TO BE PROVIDED BY FPL.
7.) ELEVATIONS REFER TO MEAN SEA LEVEL NAVD 1988 DATUM.
8.) MINIMUM FINISH FLOOR GRADE PER CITY OF ORMOND BEACH REQUIREMENTS.
9.) SHOP DRAWINGS FOR POTABLE WATER AND SEWER TO BE SUBMITTED TO AND APPROVED BY CITY OF ORMOND BEACH AND DESIGN ENGINEER PRIOR TO CONSTRUCTION.
10.) POTABLE WATER SERVICE TO BE SUPPLIED BY CITY OF ORMOND BEACH.
11.) SANITARY SEWER SERVICE TO BE PROVIDED BY CITY OF ORMOND BEACH.
12.) ALL DISTURBED AREAS TO BE SEEDED AND MULCHED.
13.) WHERE SANITARY FORCE MAINS CROSS POTABLE WATER LINES, THE FORCE MAIN IS TO BE CONSTRUCTED OF PVC SDR-18 FOR 20 FEET CENTERED ON THE POTABLE WATER MAIN.
14.) OFFSITE UTILITIES WILL BE CONSTRUCTED UNDER THE APPROPRIATE PHASE AND MUST BE COMPLETE PRIOR TO ISSUANCE OF CERTIFICATE OF OCCUPANCY. PROJECT TO BE BUILT IN ONE PHASE.
15.) PRIOR TO CERTIFICATE OF OCCUPANCY ALL OFFSITE EASEMENTS (IF REQUIRED) NEED TO BE RECORDED AND REFERENCED BY PLAT OR O.R. BOOK AND PAGE AND RECORDED UNDER SEPARATE INSTRUMENT.
16.) ONSITE SEWER AND POTABLE WATER INFRASTRUCTURE TO BE OWNED AND MAINTAINED BY THE CITY OF ORMOND BEACH.
OFFSITE SYSTEM WILL BE OWNED AND MAINTAINED BY THE CITY OF ORMOND BEACH (UNLESS OTHERWISE NOTED).
17.) ALL STOP SIGNS, SPEED LIMIT AND STREET SIGNS REQUIRED TO BE PROVIDED BY DEVELOPER TO CITY OF ORMOND BEACH SPECIFICATIONS. ALL TRAFFIC CONTROL SIGNS SHALL BE FABRICATED IN ACCORDANCE WITH THE MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES USING 3M BRAND "SCOTCHLITE" SHEETING (ENGINEER GRADE) ON MINIMUM 0.080 GAUGE 5052-H38 ALUMINUM BLANKS. ALL STOP SIGNS SHALL BE HIGH INTENSITY 30" OR 36" OCTAGON INSTALLED ON 3"x 12" ROUND ALUMINUM POSTS. "U" CHANNEL POSTS MAY BE USED FOR ALL SIGNS SMALLER THAN 36" x 48". ALL WARNING SIGNS SHALL BE 30" X 30". ALL STREET NAME SIGNS SHALL BE 9" IN HEIGHT WITH 5" HIGH UPPER & LOWER CASE WHITE LETTERS ON A GREEN BACKGROUND WITH A MIN. 30" LENGTH. PROVIDE 24" WIDE WHITE THERMOPLASTIC STOP BARS ADJACENT TO ALL LOCAL STREET 30" STOP SIGNS, WHERE 12" WIDE WHITE CROSSWALK STRIPING IS PROVIDED, THE STOP BAR AND 30" STOP SIGN MUST BE 4' IN ADVANCE OF THE CROSSWALK IN ACCORDANCE WITH FDOT STANDARD INDEX #17346. IN ALL LOCATIONS, THE 30" STOP SIGN AND 24" WIDE WHITE STOP BARS SHOULD BE LOCATED 10' IN ADVANCE OF THE EDGE OF THE TRAVELED WAY AT THE STREET INTERSECTION. SEE DETAIL SHEETS FOR PROPOSED ORNAMENTAL POLES.
18.) ALL MAINTENANCE OF ALL COMMON AREAS, LAKES, AMENITY AREAS, LANDSCAPE AND IRRIGATION TO BE THE SOLE RESPONSIBILITY OF RidgeHaven H.O.A. INC.
19.) OUTDOOR CONSTRUCTION ACTIVITY SHALL ONLY OCCUR FROM 7 AM TO 7 PM MONDAY THROUGH SATURDAY.
20.) EXCEPT WITHIN THE EXISTING FPL EASEMENT, ALL UTILITIES ARE TO BE INSTALLED UNDERGROUND, INCLUDING THE SERVICE DROPS TO INDIVIDUAL BUILDINGS OUTSIDE OF ALL REQUIRED LANDSCAPE BUFFERS, WETLANDS AND WETLAND BUFFER AREAS.
21.) DRIVING AND/OR STAGING OF CONSTRUCTION VEHICLES IS NOT PERMITTED ON ANY SIDEWALKS IN THE RIGHT-OF-WAY. ANY DAMAGE TO SIDEWALKS WILL BE REPAIRED AND/OR REPLACED IN THE LIKE KIND BY THE CONTRACTOR.

POOL PAVILION PARKING:
PAVILION.....748 SF
POOL.....3,750 SF
DOG PARK.....2,400 SF

PARKING PROVIDED:
STANDARD.....21
HANDICAPPED.....2
TOTAL.....23

TREE PRESERVATION AREA CALCULATION:

TREE PRESERVATION AREA REQUIRED = 15%
103.45 AC X 0.15 = 15.52 AC
TREE PRESERVATION AREA PROVIDED:
INCLUDING WETLANDS AND UPLAND BUFFERS = 17.153 AC + 8.370 AC = 25.523 AC = 24.672%

NATURAL OPEN SPACE CALCULATION:

NATURAL OPEN SPACE REQUIRED = 20%
ADJUSTED SITE AREA = SITE AREA - WETLAND AREA (TO REMAIN),
103.45 AC - 6.49 AC = 96.96 AC
REQUIRED OPEN SPACE = 96.96 AC X 0.20 = 19.39 AC
NATURAL OPEN SPACE PROVIDED = 19.76 AC = 20.38%

LEGAL DESCRIPTION

RIDGEHAVEN DESCRIPTION:
ALL OF BLOCKS 1, 2, 23, 24, 27, 28, 29, 30, 31, 32, 33 AND 41, 42, 43 AND 44, AND THOSE PORTIONS OF BLOCKS 3, 4, 5, 6, 22, 25, 26 AND 39 AND THE PUBLIC AND VACATED ROADS AND ALLEYS, REVISED PLAT OF NATIONAL GARDENS, AS RECORDED IN MAP OR PLAT BOOK 10, PAGES 200 THROUGH 203, PUBLIC RECORDS OF VOLUSIA COUNTY, FLORIDA, IN SECTION 35, TOWNSHIP 13 SOUTH, RANGE 31 EAST, VOLUSIA COUNTY, FLORIDA, LYING WITHIN THE FOLLOWING DESCRIBED BOUNDARY:

BEGIN AT THE NORTHEAST CORNER OF SAID REVISED PLAT OF NATIONAL GARDENS, BEING ALSO THE NORTHEAST CORNER OF SECTION 35, TOWNSHIP 13 SOUTH, RANGE 31 EAST; THENCE RUN S07°04'17"E ALONG THE EASTERLY LINE OF SAID REVISED PLAT OF NATIONAL GARDENS AND THE EAST LINE OF SAID SECTION 35, A DISTANCE OF 2615.82 FEET TO THE NORTHWEST RIGHT OF WAY LINE OF ADDISON DRIVE, 80.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE S87°53'25"W ALONG SAID NORTHERLY RIGHT OF WAY LINE, 1934.88 FEET TO THE NORTHERLY RIGHT OF WAY LINE OF ATLANTIC ROAD, A 80.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N02°06'35"W ALONG SAID NORTHERLY RIGHT OF WAY LINE, 1.00 FEET TO THE SOUTHERLY EXTENSION OF THE EASTERLY RIGHT OF WAY LINE OF ATLANTIC ROAD, A 60.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N87°53'25"E ALONG SAID EASTERLY RIGHT OF WAY LINE EXTENDED, 294.53 FEET TO THE EASTERLY EXTENSION OF THE NORTHERLY RIGHT OF WAY LINE OF ATLANTIC ROAD, A 60.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N87°47'35"W ALONG SAID EASTERLY EXTENSION AND ALONG THE SOUTHWESTERLY LINE OF SAID LOT 1, A DISTANCE OF 439.08 FEET TO THE BEGINNING OF A NON-TANGENT CURVE AND A POINT ON THE EASTERLY RIGHT OF WAY LINE OF PLANTATION OAKS BOULEVARD, FORMERLY PLANTATION DRIVE, 100.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE NORTHWESTERLY, ALONG A CURVE TO THE LEFT, CONCAVE NORTHWESTERLY, HAVING A RADIUS OF 750.00 FEET, A CENTRAL ANGLE OF 29°52'46" AND A CHORD BEARING N17°17'28"E, THENCE NORTHERLY ALONG SAID EASTERLY RIGHT OF WAY LINE AND THE ARC OF SAID CURVE, 234.62 FEET TO THE POINT OF TANGENCY; THENCE N02°21'05"W ALONG SAID EASTERLY RIGHT OF WAY LINE, 1,134.78 FEET TO THE NORTHWESTERLY CORNER OF SAID LOT 1, BLOCK 23, SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N87°47'35"E, ALONG THE NORTHERLY LINE OF SAID LOT 1, BLOCK 23, SAID REVISED PLAT OF NATIONAL GARDENS, THENCE N87°47'35"E ALONG SAID NORTHERLY LINE, 845.13 FEET TO THE NORTHWESTERLY CORNER OF SAID LOT 3, THENCE S07°03'17"E ALONG THE WESTERLY LINE OF SAID LOT 3, A DISTANCE OF 80.14 FEET TO THE MONUMENTED NORTHERLY CORNER OF SAID LOT 3; THENCE S87°53'19"W ALONG THE MONUMENTED NORTHERLY LINE OF SAID LOT 4, A DISTANCE OF 1,320.00 FEET TO THE MONUMENTED NORTHWESTERLY CORNER OF SAID LOT 4; THENCE S07°03'17"E ALONG THE MONUMENTED WESTERLY LINE OF SAID LOT 4, A DISTANCE OF 1,320.00 FEET TO THE BEGINNING OF A NON-TANGENT CURVE AND A POINT ON THE NORTHERLY RIGHT OF WAY LINE OF PLANTATION OAKS BOULEVARD, FORMERLY PLANTATION DRIVE, 100.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE NORTHWESTERLY, ALONG A CURVE TO THE LEFT, CONCAVE SOUTHWESTERLY, HAVING A RADIUS OF 1,000.00 FEET, A CENTRAL ANGLE OF 29°52'46" AND A CHORD BEARING N17°17'28"W, THENCE NORTHERLY ALONG SAID EASTERLY RIGHT OF WAY LINE AND ALONG THE ARC OF SAID CURVE, 514.19 FEET TO THE POINT OF TANGENCY; THENCE N02°21'05"W ALONG SAID EASTERLY RIGHT OF WAY LINE, 51.27 FEET TO THE SOUTHERLY LINE OF TRACT "K", SAID PLANTATION OAKS OF ORMOND BEACH - UNIT 1, RECORDED ON MAY BOOK 59, PAGES 138-194; THENCE N87°53'19"E ALONG SAID SOUTHERLY LINE, 1,324.68 FEET TO THE EASTERLY LINE OF SAID TRACT "K", AS NOW MONUMENTED; THENCE N02°03'34"W ALONG SAID MONUMENTED EASTERLY LINE, 288.88 FEET TO THE NORTHERLY LINE OF SAID REVISED PLAT OF NATIONAL GARDENS AND THE NORTH LINE OF SAID SECTION 35; THENCE N89°26'26"E ALONG SAID NORTHERLY LINE, 585.53 FEET TO THE POINT OF BEGINNING.

LESS AND EXCEPT LOTS 1, 2 AND 3, BLOCK 24 AND LOTS 3, 4, 5 AND 6, BLOCK 25, SAID REVISED PLAT OF NATIONAL GARDENS, MORE PARTICULARLY DESCRIBED AS THE FOLLOWING:
BEGIN AT THE NORTHWEST CORNER OF SAID LOT 1, BLOCK 24, THENCE RUN N89°51'33"E, 345.20 FEET TO THE NORTHEAST CORNER OF SAID LOT 2, BLOCK 24, BEING THE NORTHWEST CORNER OF SAID LOT 3, BLOCK 25; THENCE N89°19'26"E, 345.14 FEET TO THE NORTHEAST CORNER OF SAID LOT 3, BLOCK 25; THENCE S88°19'13"W, 345.07 FEET TO THE SOUTHWEST CORNER OF SAID LOT 6; THENCE N03°39'27"W, 271.15 FEET TO THE NORTHWEST CORNER OF SAID LOT 6, BLOCK 25, BEING ON THE SOUTHERLY CURVE OF SAID LOT 4, BLOCK 24; THENCE WESTERLY, ALONG SAID SOUTHERLY CURVE OF SAID LOT 4, BLOCK 24, HAVING A RADIUS OF 1,000.00 FEET, A CENTRAL ANGLE OF 19°49'34" AND A CHORD BEARING N77°17'26"W, 344.14 FEET TO THE SOUTHWEST CORNER OF SAID LOT 3; THENCE N63°51'13"W, 271.46 FEET TO THE POINT OF BEGINNING.

THE NET AREA OF THE ABOVE DESCRIBED BEING 103.450 ACRES, MORE OR LESS.

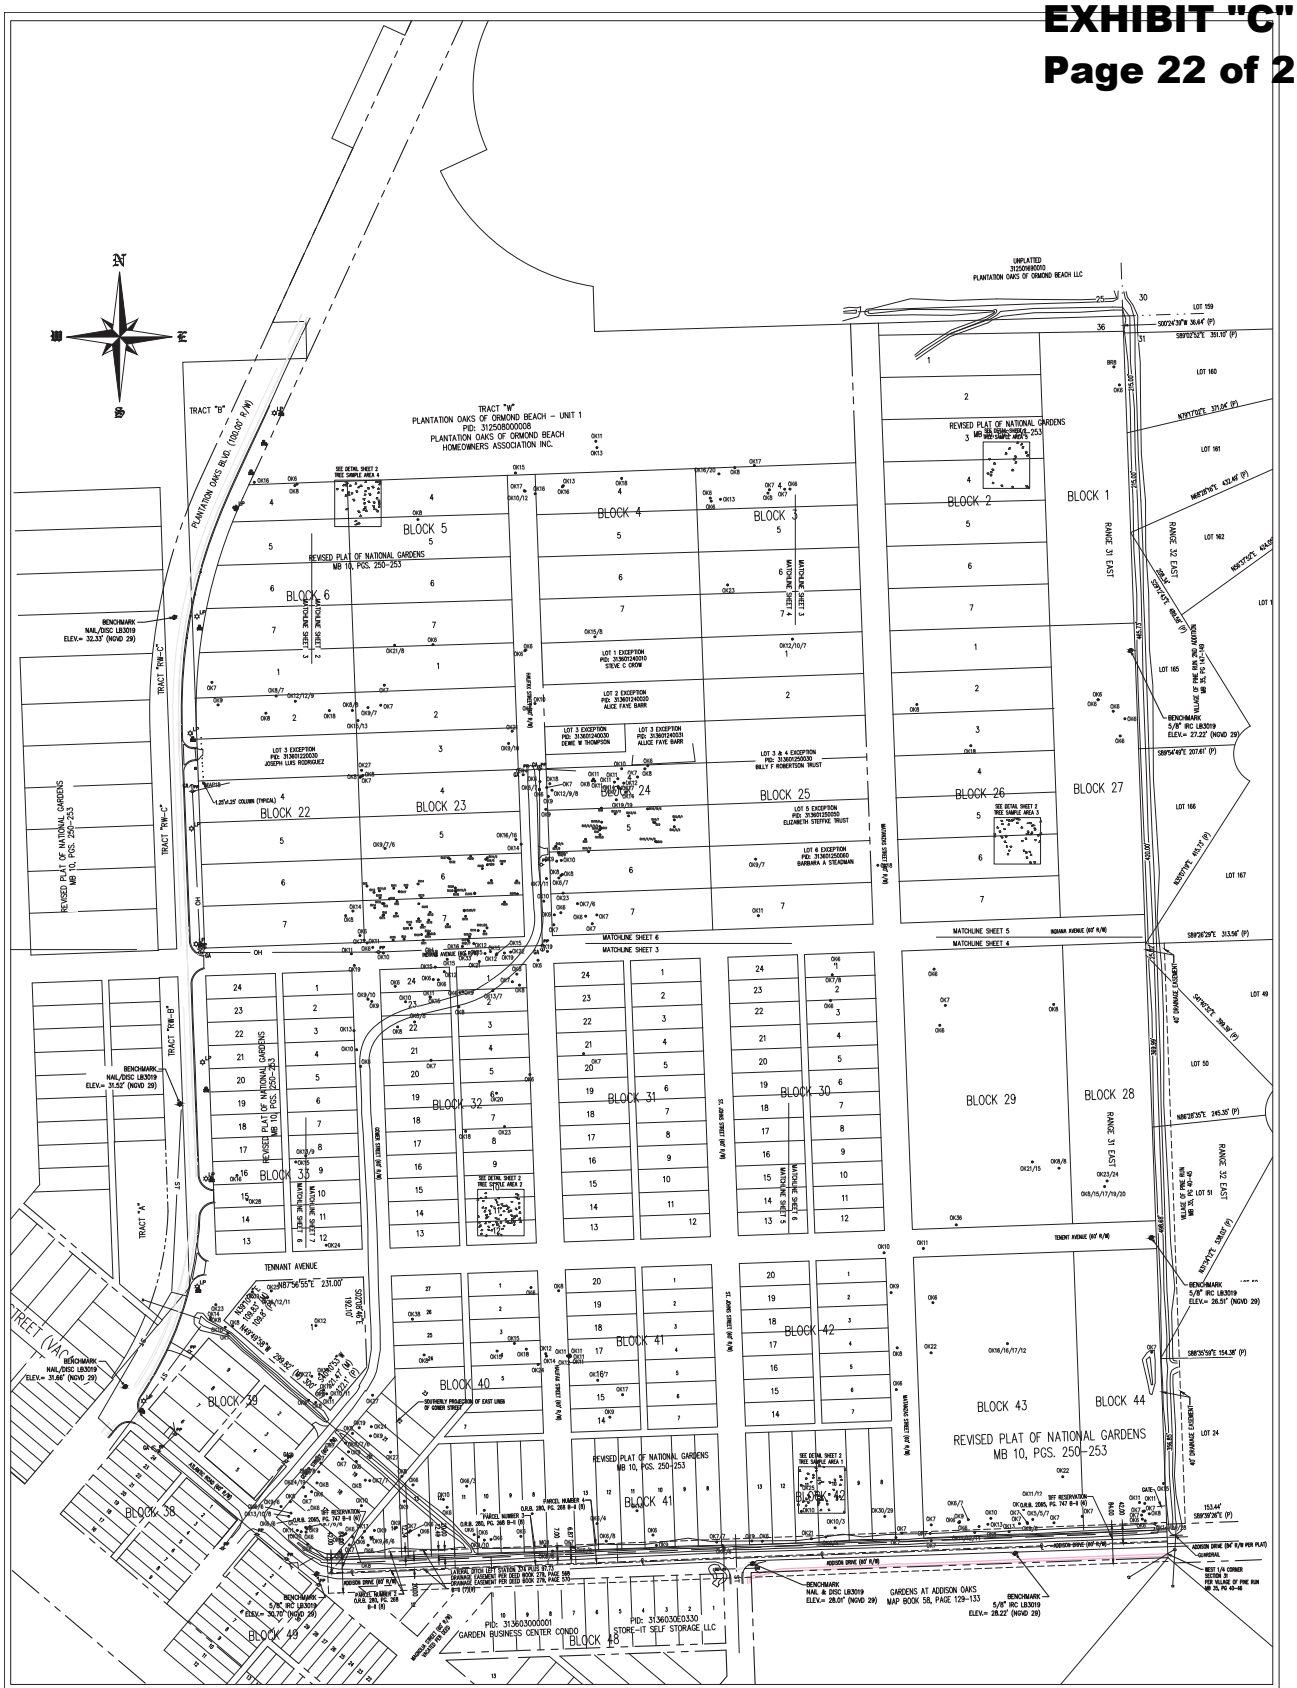
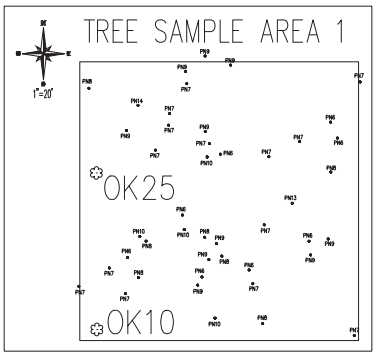
BEGIN AT THE NORTHEAST CORNER OF SAID REVISED PLAT OF NATIONAL GARDENS, BEING ALSO THE NORTHWEST CORNER OF SECTION 36, TOWNSHIP 13 SOUTH, RANGE 31 EAST; THENCE RUN S02°04'17"E ALONG THE EASTERLY LINE OF SAID REVISED PLAT OF NATIONAL GARDENS AND THE EAST LINE OF SAID SECTION 36, A DISTANCE OF 2615.20 FEET TO THE NORTHERLY RIGHT OF WAY LINE OF ADDISON DRIVE; 60.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE S87°52'25"W ALONG SAID NORTHERLY RIGHT OF WAY LINE, 1804.88 FEET TO THE NORTHERLY RIGHT OF WAY LINE OF ATLANTIC ROAD, A 60.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N49°49'07"W ALONG SAID NORTHERLY RIGHT OF WAY LINE, 149.89 FEET TO THE EASTERLY RIGHT OF WAY LINE OF GOWER STREET, 60.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N40°10'53"E ALONG SAID EASTERLY RIGHT OF WAY, 256.33 FEET TO THE EASTERLY EXTENSION OF THE SOUTHWESTERLY LINE OF LOT 1, BLOCK 39, SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N50°41'00"W ALONG SAID EASTERLY EXTENSION AND ALONG THE SOUTHWESTERLY LINE OF SAID LOT 1, A DISTANCE OF 426.05 FEET TO THE BEGINNING OF A NON-TANGENT CURVE AND A POINT ON THE EASTERLY RIGHT OF WAY LINE OF PLANTATION OAKS BOULEVARD, FORMERLY BROADWAY, 100.00 FOOT WIDE RIGHT OF WAY PER SAID REVISED PLAT OF NATIONAL GARDENS; SAID NON TANGENT CURVE BEING CONCAVE NORTHWESTERLY, HAVING A RADIUS OF 763.96 FEET, A CENTRAL ANGLE OF 18° 21'39" AND A CHORD BEARING OF N07°02'04"E; THENCE NORTHERLY ALONG SAID EASTERLY RIGHT OF WAY LINE AND THE ARC OF SAID CURVE, 244.82 FEET TO THE POINT OF TANGENCY; THENCE N02°08'46"W ALONG SAID EASTERLY RIGHT OF WAY LINE, 874.48 FEET TO THE MONUMENTED SOUTHERLY LINE OF LOT 3, BLOCK 22, SAID REVISED PLAT OF NATIONAL GARDENS; THENCE N87°48'07"E ALONG SAID SOUTHERLY LINE, 345.12 FEET TO THE MONUMENTED SOUTHEAST CORNER OF SAID LOT 3; THENCE N02°07'59"W ALONG THE EASTERLY LINE OF SAID LOT 3, A DISTANCE OF 90.47 FEET TO THE MONUMENTED NORTHERLY LINE OF SAID LOT 3, A DISTANCE OF 345.14 FEET TO THE EASTERLY RIGHT OF WAY LINE OF SAID PLANTATION OAKS BOULEVARD; THENCE N02°08'46"W ALONG SAID EASTERLY RIGHT OF WAY LINE, 20.19 FEET TO A BEING THE BEGINNING OF A TANGENT CURVE, CONCAVE EASTERLY, HAVING A RADIUS OF 1096.00 FEET, A CENTRAL ANGLE OF 26°52'48" AND A CHORD BEARING N11°17'38"E; THENCE NORTHERLY ALONG SAID EASTERLY RIGHT OF WAY LINE AND ALONG THE ARC OF SAID CURVE, 514.18 FEET TO THE POINT OF TANGENCY; THENCE N24°44'02"E ALONG SAID EASTERLY RIGHT OF WAY LINE, 31.37 FEET TO THE SOUTHERLY LINE OF TRACT "W", SAID PLANTATION OAKS OF ORMOND BEACH – UNIT 1, RECORDED ON MAP BOOK 59, PAGES 138–154; THENCE N87°55'16"E ALONG SAID SOUTHERLY LINE, 1308.48 FEET TO THE EASTERLY LINE OF SAID TRACT "W" AS NOW MONUMENTED; THENCE N02°05'34"W ALONG SAID MONUMENTED EASTERLY LINE, 298.88 FEET TO THE NORTHERLY LINE OF SAID REVISED PLAT OF NATIONAL GARDENS AND THE NORTH LINE OF SAID SECTION 36; THENCE N88°20'29"E ALONG SAID NORTHERLY LINE, 585.53 FEET TO THE POINT OF BEGINNING.

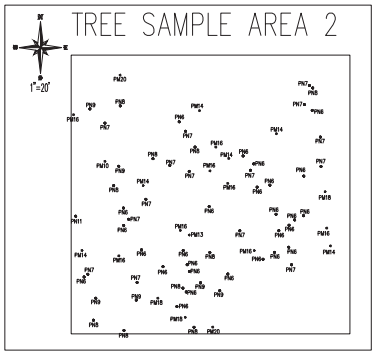


LESS AND EXCEPT LOTS 1, 2 AND 3, BLOCK 24 AND LOTS 3, 4, 5 AND 6, BLOCK 25, SAID REVISED PLAT OF NATIONAL GARDENS, MORE PARTICULARLY DESCRIBED AS THE FOLLOWING:
BEGIN AT THE NORTHWEST CORNER OF SAID LOT 1, BLOCK 24; THENCE RUN N88°21'33"E, 345.20 FEET TO THE NORTHEAST CORNER OF SAID LOT 1; THENCE S02°06'23"E, 180.76 FEET TO THE SOUTHEAST CORNER OF SAID LOT 2, BLOCK 24, BEING THE NORTHWEST CORNER OF SAID LOT 3, BLOCK 25; THENCE S88°19'26"E, 345.16 FEET TO THE NORTHEAST CORNER OF SAID LOT 3; THENCE S02°05'34"E, 361.11 FEET TO THE SOUTHEAST CORNER OF SAID LOT 6, BLOCK 25; THENCE S88°15'13"W, 345.07 FEET TO THE SOUTHWEST CORNER OF SAID LOT 6; THENCE N02°06'23"W, 271.15 FEET TO THE NORTHWEST CORNER OF SAID LOT 4, BLOCK 25, BEING THE SOUTHEAST CORNER OF SAID LOT 3, BLOCK 24; THENCE S88°18'23"W, 345.14 FEET TO THE SOUTHWEST CORNER OF SAID LOT 3; THENCE N02°07'12"W, 271.46 FEET TO THE POINT OF BEGINNING.

THE NET AREA OF THE ABOVE DESCRIBED BEING 103.450 ACRES, MORE OR LESS.



SURVEYORS NOTES



1. NOTICE: THIS SURVEY WAS PREPARED WITH BENEFIT OF A COMMITMENT FOR TITLE INSURANCE ISSUED BY OLD REPUBLIC NATIONAL TITLE INSURANCE COMPANY, COMMITMENT #1074422; ISSUING OFFICE #2855-17 DATED FEBRUARY 10, 2021 AT 11:00 PM.
2. DIMENSIONS ARE SHOWN IN FEET AND DECIMALS THEREOF.
3. BEARING STRUCTURE BASED ON NAD 83, FLORIDA STATE PLANE, EAST ZONE, U.S. SURVEY FOOT, WITH THE BEARING ON THE EAST LINE OF SECTION 36 BEING S02°04'46E.
4. UNDERGROUND FOUNDATIONS, IF ANY, NOT LOCATED.
5. ELEVATIONS REFER TO N.A.V.D. OF 1988, PER NGS MONUMENT DESIGNATION X-226 HAVING A PUBLISHED ELEVATION OF 29.48' NAVD 88. (NAVD 30.573 FEET)
6. THIS PROPERTY IS LOCATED IN FLOOD INSURANCE RATE MAP (F.I.R.M.) ZONE "X". THIS LOCATION IS DETERMINED BY SCALING FROM F.I.R.M. MAP NO. 12127C0203K. MAP EFFECTIVE DATE: SEPTEMBER 29, 2017. APPROXIMATE SCALE: 1"=500'.
7. "NOT VALID WITHOUT THE SIGNATURE AND THE ORIGINAL RAISED SEAL OR ELECTRONIC SIGNATURE OF A FLORIDA LICENSED SURVEYOR AND MAPPER."
8. UNLESS OTHERWISE SHOWN, RECORD DISTANCES AND DIRECTIONS AND FIELD MEASURED DISTANCES AND DIRECTIONS ARE THE SAME.
9. THE PORTION OF PENNSYLVANIA AVENUE SHOWN HEREON AS VACATED (PER ORB 5498, PAGE 1745)(VOLUSIA COUNTY RESOLUTION 2005-15) HAS BEEN INCLUDED IN THIS BOUNDARY SURVEY ALTHOUGH IT WAS NOT INCLUDED IN THE DESCRIPTION PROVIDED BY THE TITLE COMPANY IN THE COMMITMENT SHOWN IN NOTE #1 ABOVE.
10. THE VERTICAL RELIEF SHOWN HEREON IS BASED ON A GROUND SURVEY PERFORMED BY SLIGER & ASSOCIATES, INC.

SURVEYORS NOTES

1. NOTICE: THIS SURVEY WAS PREPARED WITH BENEFIT OF A COMMITMENT FOR TITLE INSURANCE ISSUED BY OLD REPUBLIC NATIONAL TITLE INSURANCE COMPANY, COMMITMENT #1016422; ISSUING OFFICE #3714601, FILE #2832-17 DATED FEBRUARY 10, 2021 AT 11:00 PM..
2. DIMENSIONS ARE SHOWN IN FEET AND DECIMALS THEREOF.
3. BEARING STRUCTURE BASED ON NAD 83, FLORIDA STATE PLANE, EAST ZONE, U.S. SURVEY FOOT, WITH THE BEARING ON THE EAST LINE OF SECTION 36 BEING S02°04'46E.
4. UNDERGROUND FOUNDATIONS, IF ANY, NOT LOCATED.
5. ELEVATIONS REFER TO N.G.V.D. OF 1929, PER NGS MONUMENT DESIGNATION X-226 HAVING A PUBLISHED ELEVATION OF 30.573 FEET (29.48' NAVD 88).
6. THIS PROPERTY IS LOCATED IN FLOOD INSURANCE RATE MAP (F.I.R.M.) ZONE "X". THIS LOCATION IS DETERMINED BY SCALING FROM F.I.R.M. MAP NO. 12127C0203K. MAP EFFECTIVE DATE: SEPTEMBER 29, 2017. APPROXIMATE SCALE: 1"=500'.
7. "NOT VALID WITHOUT THE SIGNATURE AND THE ORIGINAL RAISED SEAL OR ELECTRONIC SIGNATURE OF A FLORIDA LICENSED SURVEYOR AND MAPPER."
8. UNLESS OTHERWISE SHOWN, RECORD DISTANCES AND DIRECTIONS AND FIELD MEASURED DISTANCES AND DIRECTIONS ARE THE SAME.
9. THE PORTION OF PENNSYLVANIA AVENUE SHOWN HEREON AS VACATED (PER ORB 5498, PAGE 1745)(VOLUSIA COUNTY RESOLUTION 2005-15) HAS BEEN INCLUDED IN THIS BOUNDARY SURVEY ALTHOUGH IT WAS NOT INCLUDED IN THE DESCRIPTION PROVIDED BY THE TITLE COMPANY IN THE COMMITMENT SHOWN IN NOTE #1 ABOVE.
10. LOT 7, BLOCK 4 IS NOT MENTIONED IN TITLE COMMITMENT DESCRIPTION. PER THE VOLUSIA COUNTY TAX ASSESSOR, THE TITLE IS VESTED IN SNILLOC FAMILY LP NUMBER ONE AS A PORTION OF PARCEL 2 (TAX ID #3136010101011 - LOTS 4 TO 7 INCLUSIVE, BLOCK 4) AND HAS BEEN INCLUDED IN THIS SURVEY PER CLIENT DIRECTION.
11. THE VERTICAL RELIEF SHOWN HEREON IS BASED ON A GROUND SURVEY PERFORMED BY SLIGER & ASSOCIATES, INC.

Special Conditions – RidgeHaven

Plan sheets are included in Exhibit "C" and shall be complied with at all times. Specific conditions include:

1. ***Use.*** Single-Family Residential and Duplex units and accessory uses.
2. ***Project information***. The total project size is 103.45 acres. The development of consists of 286 lots. Any subdivision phasing may be reviewed and approved of the Site Plan Review Committee as a minor amendment. The project's gross density is 2.76 units per acre.
3. ***Residential types.*** The subdivision features three residential types: (a) duplex lots – 84 lots with a 35-foot lot frontage along the boundary of Addison Drive. These are allocated on the former B-8, Commercial land area that has a land use of "Medium Density Residential", (b) 50-foot lots – 136 lots that are located in the interior of the subdivision, and (c) 75 foot lots - 66 lots that are located at the rear of the subdivision, abutting the 35' natural area that abuts the Village of Pine Run.
4. ***Dimensional standards.***

5. ***Planned Residential Development waivers.***

A. Section 2-35(h)(3)(a) of the Land Development Code allows additional outdoor recreational areas to be provided in lieu of indoor recreation area. The project is

required to provide 26,820 square feet of outdoor recreational area. The project proposes (1) a 33,000 square foot outdoor recreation area to include a pool, dog park, playground and activity fields, (2) a 50,921 square foot walking trial at the southeast corner of the property, and (3) 8,500 square feet walking trail along a lake and natural buffer at the northeast corner of the property. These outdoor recreational areas exceeds the Land Development Code requirements and is hereby accepted.

B. The city's standard stormwater detail number 5 provides an allowed stormwater depth of 8 to 12 feet. The applicant is requesting a pond depth of 15+ feet. The additional stormwater pond depth is hereby accepted.

C. Section 2-35(d)(3) of the Land Development Code requires a 40-foot perimeter buffer building setback. The subject property has existing outparcels and seeks to allow a minimum perimeter setback of: 15 feet next to lot 285, 20 feet next to lots 157-163, 213, and 214, and 30 feet to lot 227. The minimum setbacks of 15 feet next to lot 285, 20 feet next to lots 157-163, 213, and 214, and 30 feet to lot 227 is hereby accepted.

6. ***Planned Residential Development benefits.***

A. Reduction in density from Volusia County entitlements;

B. Reduction of density from the approved land use allowance of 298 units to 286 residential units;

C. Innovative site design with the mixing of housing types based on the surrounding uses. This includes development of duplex units along the Addison Drive boundary near a townhome development and larger lot homes next to the Village of Pine Run;

D. Provision of more natural preservation area than required. The project will provide 25.52 acres or 24.67% of the site in natural preservation, exceeding both the standards 15% requirement and the 20% Planned Residential Development requirement;

E. Provision of a 35 natural buffer in addition to the existing ditch area along the property interface with the Village of Pine Run. The landscape buffer requirement in this property interface is 6 feet;

F. The project has provided additional recreational amenities than the Land Development Code requires;

G. The project is utilizing the stormwater management system for project irrigation; and

H. Stormwater management that reduces the rate and volume of stormwater that enters the canal/pipe system through the Village of Pine Run.

7. ***Sidewalks.*** The project shall provide internal sidewalks on both sides of the streets within the RidgeHaven subdivision. The project proposes a sidewalk connection off-site to connect to North U.S. Highway 1.

8. ***Access.*** There are two subdivision access points from Plantation Oaks Boulevard. No access is allowed from Addison Drive.

9. ***Traffic Impact Analysis.*** The proportionate fair share agreement that was identified by the Traffic Impact Analysis shall be in place prior to the issuance of a Final Plat.

10. ***Recreation improvements.*** Recreational improvements include a 33,000 square foot outdoor amenity area including a pool and pool deck, including a dog park, playground and activity field. The project also includes two walking trails in the southeast corner of the property and along a lake and buffer area at the northeast corner

11. ***Natural preservation.*** The project proposes to preserve a total of 25.52 acres as natural preservation or 24.67% of the subject property. The buffer areas along the project boundaries are designed to be a natural buffer. A 35-foot natural preservation area shall be maintained between the Ridgehaven subdivision and the Village of Pine Run. If no vegetation exist in areas of the natural buffer, the vacant area shall be planted at the direction of the city Landscape Architect to a type 1 landscape buffer.

12. ***Landscaping.*** The project buffers are as follows:

    A. Abutting Addison Drive. Required: 10'. Provided: ranges from 12' to 22'.

    B. Abutting Plantation Oaks Boulevard. Required 20'. Provided: ranges from 30', 40, and 125' depending on the buffer location.

    C. Abutting Plantation Oaks, Phase 3. Required 6'. Provided: Ranges with a minimum of 40'.

    D. Abutting Village of Pine Run. Required: 6'. Provided: 35' natural area.

    The three (3) historic trees on-site shall be preserved. A street tree plan has been designed with 298 street trees and is included in Exhibit "C".

13. ***Architecture and fencing.*** Subdivision architectural attributes and an overall fencing plan shall be required to the start of subdivision construction. All fencing along Plantation Oaks Boulevard and Addison Drive shall have a comment fence style.

    Per the Planning Board's recommendation, a PVC vinyl fence and an additional hedge row shall be installed on the Greenhaven Place cul-de-sac, between lots 215 and 216, to screen the existing single-family house at 1155 Plantation Oaks Boulevard. The RidgeHaven HOA shall be responsible for the maintenance of the hedge and fence.

14. ***Entry Features***. Development entry features shall have a maximum height of 8 feet. Signage for the development shall be similar to the examples attached as Exhibit "C"

15. ***Model Homes and Temporary Sales Offices***. The developer may designate and construct up to 10 lots as model homes and 2 lots as temporary sales offices for each phase of development. Construction of a model home or temporary sales office for a particular phase may commence in conjunction with the construction of infrastructure improvements for said phase, however, a final certificate of occupancy for said model home or temporary sales office shall not be issued until final plat approval for said phase. No model home shall

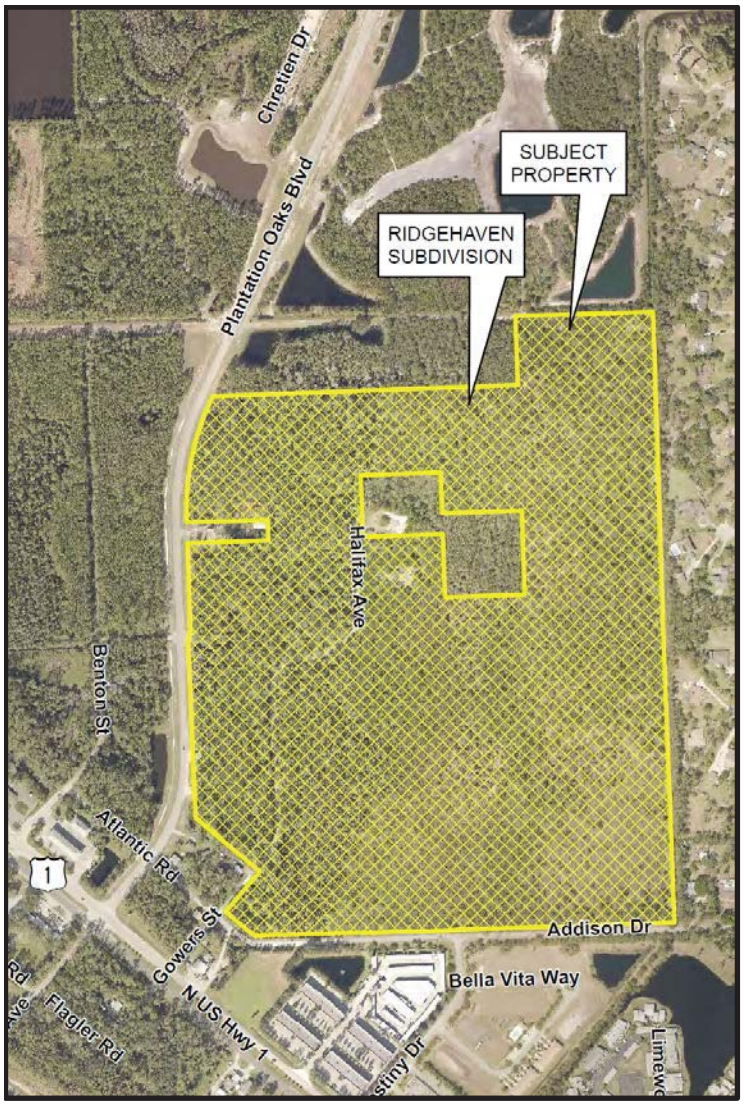
be constructed until the water and sewer lines have been constructed and are operational. Developer may also install and maintain a temporary construction trailer on a designated lot and must include electric. The construction trailer shall not be open to the public and shall not require paved parking or other applicable requirements of a temporary sales office but shall provide temporary stabilized off-street employee parking.

STAFF REPORT

City of Ormond Beach
Department of Planning

MEETING DATE: April 13, 2023

SUBJECT: RidgeHaven subdivision– **Issuance of a development order**



APPLICANT: RidgeHaven, LLC, with authorization of the property owner Snilloc Family Limited Partnership Number One

NUMBER: PRD 2022-061(B)

PROJECT PLANNER: Steven Spraker, AICP, Planning Director

SECTION 1, INTRODUCTION: This is a request from RidgeHaven, LLC, with authorization of the property owner Snilloc Family Limited Partnership Number One, for the issuance of a development order for 286 residential lots on 103.45 acres and associated site improvements. The proposed RidgeHaven subdivision is located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision and includes the following Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050. The project's location is shown in Exhibit 1.

EXHIBIT 1: RidgeHaven subdivision location map

SECTION 2, BACKGROUND: The RidgeHaven subdivision includes nine parcels (Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050) that total 103.45 acres. Within the RidgeHaven subdivision land area there are eight (8) parcels individually owned (not owned by RidgeHaven) totaling approximately 5.7 acres. Seven (7) parcels are vacant and one parcel fronting Plantation Oaks Boulevard is developed with a single-family home. The RidgeHaven subdivision was located in unincorporated Volusia County with a desire to construct a subdivision. Representatives of the RidgeHaven subdivision had two options for subdivision development: (1) remain in unincorporated Volusia County and have Ormond Beach provide the project utilities or (2) become part of the North U.S. Highway 1 Interlocal Service Boundary Agreement (ISBA) area and develop the subdivision in Ormond Beach. The Interlocal Service Boundary Agreement allows the annexation of land while creating enclaves that remain in unincorporated Volusia County.

The City Commission adopted the original North U.S. 1 Interlocal Service Boundary Agreement on August 19, 2014 per Ordinance 2014-27. Concurrently, the Volusia County Council adopted the Interlocal Service Boundary Agreement on August 21, 2014 by Volusia County Ordinance 2014-12. The original Interlocal Service Boundary Agreement established the Municipal Service Area (MSA) and joint planning and service delivery agreement to the North U.S. Highway 1 area. The first amendment to the North U.S. 1 Interlocal Service Boundary Agreement was approved to add the land associated with Plantation Oaks Subdivision and the 13 enclaves surrounding the subdivision to the adopted Municipal Service Area. On August 20, 2019, the City Commission adopted the first amendment to the North U.S. Highway 1 Interlocal Service Boundary Agreement. The Volusia County Council subsequently adopted the agreement on September 17, 2019. The City of Ormond Beach (December 7, 2021 with Ordinance 2021-43) and Volusia County (February 15, 2022 with Ordinance 2022-9) approved the second amendment to the North U.S. Highway 1 Interlocal Service Boundary Agreement to add the land associated with the RidgeHaven subdivision and the individually owned parcels not owned by RidgeHaven to the adopted Municipal Service Area. During the County Council presentation and discussion, the RidgeHaven representative and city staff committed to establishing a limitation of 298 dwelling units for the entire RidgeHaven area. On March 22, 2022, the City Commission approved Ordinance 2022-05 that annexed the RidgeHaven subdivision.

With the Interlocal Service Boundary Agreement and annexation approved, the next step for the RidgeHaven project was the assignment of a city land use designation. For the existing land use entitlements, Volusia County staff analysis calculated a range of residential development of 716 to 1,052 dwelling units. The existing land use required a minimum of four units per acre. The city land use designation occurred with three separate actions:

1. Ordinance 2022-14 adopted July 19, 2022: The Ordinance amended the Future Land Use Element of the Comprehensive Plan to incorporate the second Interlocal Service Boundary Agreement and provide a text limitation within Policy 9.1.4 that states the RidgeHaven land area shall not exceed 3 units per acre and no more than 298 dwelling units for the entire RidgeHaven property. The maximum

theoretical residential density was reduced by 754 residential units. For the non-RidgeHaven properties, the Ordinance included the text restriction that these parcels would maintain a maximum gross residential density of eight (8) units per acre – the same density that existed in unincorporated Volusia County.

2. Ordinance 2022-18, adopted August 3, 2022: The Ordinance authorized the following actions:

   A. Amended the Future Land Use Map designation for the RidgeHaven subdivision property (totaling 84.26 acres) from Volusia County "Urban Medium Intensity" (UMI) to Ormond Beach "Low Density Residential" (LDR). The Ordinance included the map annotation that the RidgeHaven subdivision would have a density restriction of three (3) units per acre and shall not exceed 298 residential units for the entire RidgeHaven subdivision; and

   B. Amended the Future Land Use Map designation of the properties not associated with the RidgeHaven development from "Urban Medium Intensity" (UMI) to Ormond Beach "Medium Density Residential" (MDR). The Ordinance included the map annotation that these parcels would maintain a maximum gross residential density of eight (8) units per acre – the same density that existed in unincorporated Volusia County.

3. Ordinance 2022-18, adopted August 3, 2022: This Ordinance was for 19.19 acres owned by the RidgeHaven subdivision applicant that was part of the original Interlocal Service Boundary Agreement area. The Ordinance amended the Future Land Use for the property from "Low Intensity Commercial" (LIC) to "Medium Density Residential" (MDR). The Ordinance contained a condition that the density shall be restricted to eight (8) units per acre within the 19.19 acres and the RidgeHaven subdivision including the 84.26 acres shall not exceed 298 residential units.

In summary, the project has:

1. Amended the Interlocal Service Boundary Agreement to allow annexation and development under Ormond Beach development standards.
2. Annexed 103.45 acres that is the RidgeHaven subdivision.
3. Amended the land uses of two land areas from Volusia County "Urban Medium Intensity" (UMI) to "Low Density Residential" (LDR) and Ormond Beach "Low Intensity Commercial" (LIC) to "Medium Density Residential" (MDR) with a maximum development scenario of 298 residential units.
4. Reduced the potential maximum residential development as allowed under the Volusia County "Urban Medium Intensity" (UMI).
5. The Interlocal Service Boundary Agreement land use amendment has amended the land use of the non-RidgeHaven outparcels to the same density (8 units per acre) as allowed under the Volusia County land use.

The following are the abutting uses to the subject properties:

EXHIBIT 2: Abutting land use and zoning designations

Land Use and Zoning Designations of Adjacent Property			
	Current Land Uses	**Future Land Use Designation**	**Zoning Classification**
North	Plantation Oaks PRD	"Low Density Residential"	PRD, Planned Residential Development
South	Across Addison Drive, Gardens of Bella Vita & MBA Business Center	"Medium Density Residential" and "Low Intensity Commercial"	PRD, Planned Residential Development and B-8, Commercial
East	Village of Pine Run	Volusia County "Rural"	Volusia County RR (Rural Residential)
West	Across Plantation Oaks Boulevard	"Medium Density Residential"	R4, Single-Family Cluster and townhouse

SECTION 3, APPLICATION PROCESS:

Application process

The application seeks to allow 286 residential units as a Planned Residential Development. The Planned Residential Development is reviewed and acted upon as two (2) separate actions:

A. Zoning map amendment from Volusia County R-4, Urban Single-Family Residential and Ormond Beach B-8, Commercial to Ormond Beach PRD, Planned Residential Development.

B. Issuance of a development order to construct 286 residential units and associated site improvements on 103.45 acres. The issuance of the development order is the action sought for this staff report.

The two (2) actions are being discussed together at the public hearing and will require separate votes. The issuance of a development order is the application under consideration in this report. and is intertwined with the zoning map amendment previously discussed. If there is a desire to approve or approve with conditions the issuance of the development order, then the zoning map amendment needs approval first. If there is a desire to deny the issuance of the development order, then the zoning map amendment should also be denied.

Other applications:

1. Preliminary Plat. Section 1-22 of the Land Development Code defines a preliminary plat as "a proposed subdivision plan that in an exact and precise manner in which it may be evaluated pursuant to this Land Development Code and the Comprehensive Plan." Preliminary plats are not required with a Planned

Development, however, this application has developed and submitted the preliminary plat with the zoning action. The preliminary plat contains the plat document and the detailed subdivision engineering plan.

There are two options for development once a Preliminary Plat has been approved:

Option 1 - Proceed with the application for construction for completion of the required improvements prior to recording the final plat per Section 4-18(8)(a) of the Land Development Code. When the required off-site and on-site improvements are complete, the final plat along with the records and data would be submitted by the applicant to the City Engineer and reviewed by the Site Plan Review Committee (SPRC). The final plat would be approved by the City Commission and recorded.

Option 2 - Proceed with final plat review and approval, with the completion of required improvements after recording the plat per Section 4-18(b) of the Land Development Code. With this option, the applicant files surety documents guaranteeing that such improvements will be installed. All guarantees are incorporated in a bonded agreement for the construction of the required improvements in the form acceptable to the City Attorney. The final plat would be recorded and the applicant would then construct the improvements.

2. Partial plat vacation. The project is located with an existing 1926 plat with existing street layouts. The partial plat vacation would vacate portions of the 1926 plat and update to the RidgeHaven subdivision plat. The outparcels within the RidgeHaven subdivision would always have access to their property.

Project process: The Planned Business Development is reviewed and acted upon as two separate actions: (1) zoning map amendment and (2) issuance of a development order. The two actions will be discussed together at the public hearing and require separate votes. The project has the following approval process:

1. **Site Plan Review Committee (SPRC).** The Site Plan Review Committee is comprised of city departments who review site plan applications for consistency with the Land Development Code and Comprehensive Plan. This committee provides a technical review of development submittals.

2. **Neighborhood meeting.** The Land Development Code requires a neighborhood meeting where a project abuts a residential zoning district. The neighborhood meeting was conducted on July 26, 2022 and is summarized in the analysis section of this report.

3. **Planning Board.** The Planning Board conducts one public hearing for a zoning map amendment and issuance of a development order. The Planning Board provides a recommendation to the City Commission. Applications, whether recommended for approval or denial, are forwarded to the City Commission for action. The Planning Board in its recommendation is required to consider the following:

   a. Application submitted by the applicant;

   b. Staff report;

c. Written correspondence provided;
d. Testimony presented at the public hearing; and
e. Criteria for rezonings and issuance of a development order.

4. **City Commission.** The City Commission, as an elected body, provides the final action on zoning map amendments and issuance of development orders. The tentative City Commission dates for this project are May 16, 2023 and June 6, 2023. Section 1-18(e) of the Land Development Code requires the City Commission to consider:

   a. Report and recommendation of the Site Plan Review Committee and the Planning Board.
   b. Report and recommendation of other city departments and advisory boards, as appropriate.
   c. Comments of governmental agencies, utility corporations and individuals, as received.

   Section 1-18 of the Land Development Code also provides the review criteria for development orders listed in the analysis section of this report. Exhibit 3 below shows a summary of the application process.

EXHIBIT 3: Application process

PZ-22-061		
Action	**Date**	**Notes**
1st SPRC submittal	May 23, 2022	SPRC review: June 13, 2022
Neighborhood meeting	July 26, 2022	Letter - 600' mail radius; newspaper ad
2nd SPRC submittal	September 23, 2022	SPRC review: October 14, 2022
3rd SPRC submittal	November 22, 2022	SPRC review: December 20, 2022
4th SPRC submittal	January 17, 2023	SPRC review: February 3, 2022
5th SPRC submittal	March 3, 2023	SPRC review: March 27, 2023
Planning Board	April 13, 2023	Letter - 300' mail radius; newspaper ad; site posting
City Commission, 1st	May 16, 2023	Letter - 300' mail radius; newspaper ad
City Commission, 2nd	June 6, 2023	Newspaper ad
SPRC final review	To be determined	

The project has also been posted on the city website under the Planning Department at: (1) Development Reports, https://www.ormondbeach.org/1019/RidgeHaven and (2) Public Hearing Advertisements and Notices, https://www.ormondbeach.org/1000/Public-Hearing-Advertisements-and-Notice.

Neighborhood meeting

The project conducted a required neighborhood meeting on July 26, 2022. The project team presented the development plan. Items discussed at the neighborhood meeting included:

1. Density reduction from Volusia County zoning;
2. No access proposed from Addison Drive;
3. Interface with Village of Pine Run;
4. Easement required for existing Volusia County ditch abutting Village of Pine Run;
5. Types of residential uses proposed;
6. Stormwater; and
7. Connection to city water and sewer.

SECTION 4, PROJECT DESCRIPTION:

The project has the following attributes:

1. The total project size is 103.45 acres.
2. The development of consists of 286 lots. Any subdivision phasing may be reviewed and approved of the Site Plan Review Committee as a minor amendment.
3. The project's gross density is 2.76 units per acre.
4. The project's net density (project acreage of 103.45 minus 6.49 acres of wetlands divided by 286 residential lots) is 2.95 units per acre.
5. The subdivision features three residential types: (a) duplex lots – 84 lots with a 35-foot lot frontage along the boundary of Addison Drive. These are allocated on the former B-8, Commercial land area that has a land use of "Medium Density Residential", (b) 50-foot lots – 136 lots that are located in the interior of the subdivision, and (c) 75 foot lots - 66 lots that are located at the rear of the subdivision, abutting the 35' natural area that abuts the Village of Pine Run.
6. The project lots are proposed as follows:

Standards	**Single-family, 50' by 110'**	**Single-family, 75' by 110'**	**Duplex, 35' by 110'**
Number:	136	66	84
Minimum floor area:	1,400 SF	1,500 SF	1,400 SF
Maximum building coverage:	60%	60%	60%
Maximum lot impervious area:	80%	80%	80%
Maximum building height:	35 feet	35 feet	35 feet
Setbacks:			
Front:	20 feet	20 feet	20 feet
Front (no garage access):	10 feet	15 feet	15 feet
Side:	5 feet	7.5 feet	5 feet, (0' common wall)

Rear:	20 feet	20 feet, 10 feet (lots 233-254)	10 feet
Waterfront:	20 feet	20 feet	10 feet
Accessory Structure setbacks:			
Side yard:	5 feet	7.5 feet	NA
Side yard corner:	15 feet	15 feet	NA
Rear yard:	5 feet	5 feet	NA

7. There are two subdivision access points from Plantation Oaks Boulevard. No access is proposed from Addison Drive.
8. School concurrency for the project is provided in ATTACHMENT 3.
9. A traffic study was performed and is included in ATTACHMENT 5 and discussed in the analysis section of this report.
10. The project proposes internal sidewalks on both sides of the streets within the RidgeHaven subdivision.
11. The project proposes a sidewalk connection off-site to connect to North U.S. Highway 1.
12. ATTACHMENT 4 provides an Environmental Assessment Analysis performed by Ecological Consulting Solutions, Inc. A total of 8.04 acres of wetlands exists on the subject property. As designed, the project would have 1.75 acres of direct impacts to on-site wetlands.
13. St. Johns River Water Management District has issued permit #185591-1 for the RidgeHaven subdivision for stormwater management and proposed wetland impacts. This information is included with ATTACHMENT 4.
14. Recreational improvements include a 33,000 square foot outdoor amenity area including a pool and pool deck, including a dog park, playground and activity field. The project also includes two walking trails in the southeast corner of the property and along a lake and buffer area at the northeast corner.
15. The project proposes to preserve a total of 25.52 acres as natural preservation or 24.67% of the subject property. The Land Development Code requirement for natural preservation is 15% of the property and the Planned Residential Development standard is 20% of the property.
16. There is a 35-foot natural preservation area and existing ditch between the Ridgehaven subdivision and the Village of Pine Run. The Land Development Code requirement for a landscape buffer is six (6') feet.
17. Irrigation for the subdivision will be drawn from the stormwater ponds.
18. A street tree plan has been designed with 298 street trees.
19. The applicant has provided draft covenants and restrictions (ATTACHMENT 7) that include a coordinated plan for fences. The final covenants and restrictions will be developed with the final plat. For the purposed of the Planned Development, it

is desired that any fencing along the right-of-way have a common architectural pattern.

20. Architectural examples have been provided and are included in ATTACHMENT 7.

21. A five-year expiration date for phase one of the project from the date of City Commission approval is proposed.

22. The project is expected to generate a water demand of 73,502 gallons per day and a sewer demand of 80,366 gallons per day based on the Level of Service standards in the Capital Improvements Element of the Comprehensive Plan. There is existing capacity to provide the RidgeHaven subdivision utility services. No septic tanks are proposed. Irrigation for the project is planned from the stormwater ponds.

23. For the project stormwater, the site is surrounded on three (3) sides by ditches that ultimately flow to the east. The drainage pattern of the pre-developed site flows to the Addison Canal, the canal between this project and the Village of Pine Run Subdivision, the wetland and a ditch on the north side of the project.

24. The proposed stormwater treatment methodology is wet detention with stormwater harvesting. The wet detention system has multiple ponds with equalizer pipe system that will maintain the normal water elevation for all ponds. The drainage patterns for the post developed site includes the landscape/natural preservation that will continue to drain into the Addison Canal and the canal between Ridgehaven and Village of Pine Run. This acreage of this area has been significantly decreased. The area that drains to the north also has been decreased in the post development condition. The interior of the project will be directed onto the proposed stormwater treatment facility noted above. The stormwater wet detention will have an ultimate outfall to the swale along the northern border. This swale will intersect to the swale along the western edge of Village of Pine Run that flows to the north in the Plantation Oaks Phase III. By directing the surface water runoff into the stormwater facility, there will be a delay in the surface flow exiting the site as well as reduction of the actual volume entering the canal/pipe system through the Village of Pine Run.

25. All three (3) historic trees on-site have been preserved.

26. The project buffers are as follows (see ATTACHMENT 8):

    A. Abutting Addison Drive. Required: 10’. Provided: ranges from 12’ to 22’.

    B. Abutting Plantation Oaks Boulevard. Required 20’. Provided: ranges from 30’, 40, and 125’ depending on the buffer location.

    C. Abutting Plantation Oaks, Phase 3. Required 6’. Provided: Ranges with a minimum of 40’.

    D. Abutting Village of Pine Run. Required: 6’. Provided: 35’ natural area.

SECTION 5, ANALYSIS:

The following are the review criteria for Planned Residential Developments from the Land Development Code:

Planned Residential Development Criteria

Section 2-35, Chapter 2, Article II of the Land Development Code details the requirements of a Planned Residential Development:

1. Section 2-35.H.3, Chapter 2, Article II states, "Thirty (30) square feet of indoor recreation floor area, including exercise rooms, all-purpose space, dining areas and similar uses shall be provided for each dwelling unit, unless waived by the City Commission and replaced at a minimum as provided below:
   a. Subdivisions of 200 dwelling units or less may provide, at a minimum, an additional 30 square feet per unit of outdoor active recreation space in compliance with this Section in lieu of the indoor recreation floor area requirement.
   b. Subdivisions that do not provide indoor recreational facilities are not eligible for park and recreation impact fee credits.
   c. The open space and/or additional outdoor facilities must be compatible with adjacent properties and the recreational facilities must be consistent with the needs of the project.
   d. The Development Review Board and City Commission determine, after reviewing the proposed development plan, that the preservation of natural resources and/or provision of additional recreation facilities is appropriate and that indoor recreational facilities can be waived."

   The applicant is providing additional square footage as outdoor recreation as permitted under Subsection 1a (above) in lieu of the indoor recreation requirement. The conversion of required indoor recreation to outdoor recreation has been permitted in other Planned Residential Developments such as Creekside, Southern Pines, Pineland, and Tattersall.

2. Section 2-35.H.4, Chapter 2, Article II of the Land Development Code states, "Sixty (60) square feet of outdoor active recreation space (exclusive of parking, landscaping, retention/detention ponds and other site features), including pools, pool decks, shuffleboard courts, tennis courts, and fishing piers and similar uses, shall be provided for each dwelling unit. Impact fee credits for any specific outdoor recreation site shall be limited to three hundred (300) dwelling units."

   The project is required to provide a total of 17,880 (60 square feet per lot for indoor recreational area) square feet of recreation area. The additional 30 square feet of outdoor recreation area in lieu of the indoor recreation, requires an additional area of 8,940 square feet of outdoor recreation area to total 26,820 square feet. The project is proposing:
   a. 33,000 square foot outdoor recreation area to include a pool, dog park, playground and activity fields;
   b. 50,921 square foot walking trial at the southeast corner of the property; and

c. 8,500 square feet walking trail along a lake and natural buffer at the northeast corner of the property.

3. Section 2-35.H.7., Chapter 2, Article II of the Land Development Code states, "Thirty (30) square feet of common accessible, open space shall be provided for each dwelling unit.

   a. Common open space shall be available to all the residents of the development. At the option of the developer, subject to the approval of the City Commission, common open space may be dedicated to the use of the general public.

   b. Common open space must be adequately landscaped and irrigated.

   c. Natural features worthy of preservation shall be left in a natural state.

   d. Water bodies may be utilized to meet twenty-five percent (25%) of the available open space requirement, provided significant recreational use of the waterbody can be demonstrated. Water retention and wetlands areas may not be included in this calculation."

   The approved project was required to provide 8,940 square feet of common space. The applicant has provided the common open space with additional area within the recreation amenity area.

4. Section 2-35.H.8., Chapter 2, Article II of the Land Development Code states, "Twenty percent (20%) of the project shall be left in a natural state. This may include designated conservation areas within lots or common areas, but shall not include classified wetlands and required upland buffers."

   The project is proposing that 19.79 acres (20.41%) of the site is to remain in a natural state that meets the Land Development Code requirement. There is an additional land area that brings the total natural preserved area to be 25.52 acres or 24.67 acres of natural preservation.

5. Other Uses. Section 2-35.B.2., Chapter 2, Article II of the Land Development Code allows other uses within planned residential developments.

   The only use proposed is single-family residential. No other uses are proposed.

In considering the issuance of a development order for a Planned Residential Development, the Planning Board may recommend approval, approval with conditions, or denial of the application on the extent to which the development offers site amenities above that normally found for permitted uses in the district with regard to the following:

a) Innovative Site Design

In ATTACHMENT 7, the applicant notes that the project has reduced the overall allowed density from what existed under the Volusia County entitlements. The applicant discusses in the March 27, 2023 letter that the project seeks several different housing types and lot sizes that allows for a variety of different price points and will result in different types of sizes of families living in RidgeHaven. Staff concurs that the project has located the duplex lots where the "Medium Density Residential" land use exists and across the street from a townhome development. In the rear of the proposed subdivision property, there are larger lot homes planned to be built that will abut, with a natural buffer area and ditch in between to the Villages of Pine Run

subdivision. The project has also built around a wetland and upland buffer in the central part of the property. Finally, the project has provided low impact development techniques such as irrigation from the stormwater management system.

b) Coordinated Architectural Design

The RidgeHaven subdivision shall have an Architectural Control Committee tasked with enforcing the architectural design guidelines detailed in the plan set. In ATTACHMENT 7, the applicant provides the architectural vision of the project.

c) Open Space, Recreation, Common Areas

The project has exceeded the space required for open space, recreation and common areas. The project has preserved 25,52 acres of the project land area where the Land Development Code requires 15.52. As discussed under the Planned Residential Development section, the applicant is providing a recreation area and common open space that exceeds the requirements of the subdivision regulations.

d) Coordinated Streetscape Elements

In ATTACHMENT 7 the applicant describes that the project will have coordinated streetscape elements including: (1) entry signage, (2) FPL approved ornamental street lights, (3) street trees throughout the development, and (4) internal sidewalks and walking paths.

PRD waivers/allowances:

In ATTACHMENT 7, the applicant has provided a Waivers and Benefits letter for the project. The Planned Development is a negotiated zoning district and waivers/allowances are allowed if approved as part of the public hearing process. The waivers/allowances are as follows:

1. Section 2-35(h) of the Land Development Code – outdoor recreation in lieu of indoor recreation

   The Land Development Code allows a process to provide additional outdoor recreational area in lieu of indoor recreation. The project shows a 750-pool cabana with restrooms as indoor recreation. As discussed under the Planned Residential Development requirements, the following outdoor recreation amenities are planned:

   a. 33,000 square foot outdoor recreation area to include a pool, dog park, playground and activity fields;
   b. 50,921 square foot walking trial at the southeast corner of the property; and
   c. 8,500 square feet walking trail along a lake and natural buffer at the northeast corner of the property.

   Staff has no objection to the provision of additional outdoor recreational area in lieu of required indoor recreation requirement.

2. Standard detail 5, wet detention pond depth

   The city's standard stormwater detail provides an allowed stormwater depth of 8 to 12 feet. The applicant is requesting a pond depth of 15+ feet. The project is

seeking the additional pond depth for fill material for the project improvements. Using on-site fill would reduce the need to import fill from off-site sources. The applicants letter also states that the additional pond depth would aid the irrigation of the subdivision from the stormwater ponds.

Staff has no objection to the request to increase the stormwater pond depths for the project.

3. Section 2-35(d)(3) of the Land Development Code – 40-foot perimeter buffer building setback

   In ATTACHMENT 7, the applicant describes this request as: minimum perimeter setback of: 15 feet next to lot 285, 20 feet next to lots 157-163, 213, and 214, and 30 feet to lot 227. The applicant details the justification for this waiver in the Waivers and Benefits letter. The applicant states that the existing outparcels and proposed subdivision are both residential and areas remaining will be a natural buffer.

   The subdivision design for this project is unique and the applicant has sought to exceed the subdivision regulations. Staff has no objections to this request.

PRD benefits:

The Planned Residential Development does not require the provision of public benefits, unlike the Planned Business Development. However, it is important to note that the project has exceeded development standards in certain areas:

1. Reduction in density from Volusia County entitlements;
2. Reduction of density from the approved land use allowance of 298 units to 286 residential units;
3. Innovative site design with the mixing of housing types based on the surrounding uses. This includes development of duplex units along the Addison Drive boundary near a townhome development and larger lot homes next to the Village of Pine Run;
4. Provision of more natural preservation area than required. The project will provide 25.52 acres or 24.67% of the site in natural preservation, exceeding both the standards 15% requirement and the 20% Planned Residential Development requirement;
5. Provision of a 35 natural buffer in addition to the existing ditch area along the property interface with the Village of Pine Run. The landscape buffer requirement in this property interface is 6 feet;
6. The project has provided additional recreational amenities than the Land Development Code requires;
7. The project is utilizing the stormwater management system for project irrigation; and
8. Stormwater management that reduces the rate and volume of stormwater that enters the canal/pipe system through the Village of Pine Run.

The Planning Board is required to review the issuance of a development order request using the following criteria established in the Land Development Code to approve, approve with conditions, or deny the rezoning amendment:

1. **The proposed development conforms to the standards and requirements of this Code and will not create undue crowding beyond the conditions normally permitted in the zoning district, or adversely affect the public health, safety, welfare or quality of life.**

   The proposed application meets or exceeds the Planned Residential Development requirements contained within the Land Development Code (see list of items where the Land Development is exceeded in the analysis section). The applicant has provided the required information in terms of lot sizes and layout, street locations, buffer requirements, traffic impacts, and stormwater planning and Planned Residential Development requirements. The Site Plan Review Committee has reviewed the application and concluded that it conforms to the requirements of the Land Development Code. The Site Plan Review Committee concludes that the zoning related application will not adversely affect public health, safety, or welfare. It is important to note that this project has also provided not only the zoning documents for the subdivision but also the construction site plans of a preliminary plat.

2. **The proposed development is consistent with the Comprehensive Plan.**

   The Comprehensive Plan contains a land use map that provides the vision of uses and residential density and nonresidential intensity. The Comprehensive Plan is an overall guide/roadmap for development within Ormond Beach. The subject property has a land use category of “Low Density Residential” and “Medium Density Residential” as defined in the Future Land Use Element as follows:

   Low Density Residential (LDR) – 84.26 acres

   Purpose: To protect and encourage the continued development of typical single-family residential areas and stabilize and protect the character of such neighborhoods. Institutional uses may be permitted in accordance with the maximum floor area ratio.

   Density: up to 4.3 units per acre

   Maximum FAR: 0.2

   Medium Density Residential (MDR) – 19.19 acres

   Purpose: To allow a variety of highly aesthetic dwelling units, encouraging the establishment of recreation areas and open space and discouraging look-alike rows of dwellings. MDR also allows the development of relatively low-density duplex, townhouse and multi-family projects which emphasize open space and maintain a low profile, thus maximizing the compatibility with single-family areas. Institutional uses may be permitted in accordance with the maximum floor area ratio.

   Density: Minimum 5-12 units per acre except in the Downtown Community Redevelopment Area where 5 - 15 units shall be allowed.

   Maximum FAR: 0.3

The “Low Density Residential” and “Medium Density Residential” land uses would typically allow a maximum theoretical land use density of 515 residential units. The map annotation included in the land use amendments limits the maximum residential density to 298 units.

The following is a list of the Comprehensive Plan Objectives and Policies pertaining to the proposed development order:

Future Land Use Element

GOAL 1. LAND USE DISTRIBUTION

FUTURE DEVELOPMENT AND REDEVELOPMENT ACTIVITIES SHOULD BE DIRECTED IN APPROPRIATE AREAS AS DEPICTED ON THE FUTURE LAND USE MAP TO MEET THE LAND USE NEEDS OF THE ANTICIPATED POPULATION, IN A MANNER CONSISTENT WITH SOUND PLANNING PRINCIPLES, THE GOALS, OBJECTIVES AND POLICIES CONTAINED HEREIN, AND THE DESIRED COMMUNITY CHARACTER.

THE FUTURE LAND USE ELEMENT SHOULD ALLOW LIMITED COMMERCIAL EXPANSION, PROMOTE INDUSTRIAL USE, AND MAINTAIN CURRENT RESIDENTIAL DENSITIES IN THE CORE AREA WHILE ESTABLISHING LOWER DENSITIES IN THE PERIMETER AREAS, FOCUSING REDEVELOPMENT IN THE DOWNTOWN COMMUNITY REDEVELOPMENT AREA, US1, AND SRA1A, AND PROVIDING OR A CONTINUED HIGH LEVEL OF OPEN SPACE. FUTURE GROWTH SHALL BE TIMED AND LOCATED TO MAXIMIZE EXISTING PUBLIC INFRASTRUCTURE.

OBJECTIVE 1.1. RESIDENTIAL LAND USE

Ensure the availability of adequate lands to meet the residential land use needs of the community.

POLICY 1.1.3.

Preserve the character of existing neighborhoods by not allowing intrusion of land uses that would threaten to alter the neighborhood character and by encouraging voluntary rehabilitation and sound maintenance programs in viable neighborhoods which are capable of self-renewal and establishing code enforcement or public redevelopment activities in areas not capable of self-renewal.

POLICY 1.1.5.

Encourage innovative design measures for new residential developments and ensure that adequate provision is made for neighborhood facilities suitable to the type of development proposed.

POLICY 1.1.6.

Provide the opportunity, through zoning and other land use controls, for the development of a variety of housing types (i.e., single-family, duplex, townhouse, multi-family) in both conventional, planned unit and cluster type developments, that will meet the varied needs of the citizens of Ormond Beach.

Housing Element

GOAL 1. HOUSING SUPPLY

ENSURE THE AVAILABLITY OF SAFE AND ADEQUATE HOUSING UNITS OF DIFFERENT TYPES, SIZES, AND PRICE RANGES TO MEET THE NEEDS OF ALL CURRENT AND FUTURE RESIDENTS.

OBJECTIVE 1.1. HOUSING SUPPLY

The City shall continue to facilitate the private production of a housing supply, including adequate sites for mobile homes or manufactured housing and low- and moderate-income housing, which will meet future community needs and offset housing deficiencies as noted in this Element.

OBJECTIVE 1.2. PROVISION OF ADEQUATE SERVICES AND FACILITIES

Each existing housing development and residential neighborhood along with all new housing development shall meet existing adopted level of service standards.

POLICY 1.2.1.

The general residential development pattern in the city should be in accord with the community's growth strategy for residential densities, as stipulated within the Future Land Use Element.

The development is within the required holding capacity, and the gross density range, and the lot area is consistent and furthers the intent of the Comprehensive Plan policies.

3. **The proposed development will not adversely impact environmentally sensitive lands or natural resources, including but not limited to waterbodies, wetlands, xeric communities, wildlife habitats, endangered or threatened plants and animal species or species of special concern, wellfields, and individual wells.**

   The project has prepared an environmental assessment included in ATTACHMENT 4. The assessment reviews the project soils, vegetative community, wetlands, protected species, and floodplains. The project has also obtained approval from the Saint Johns River Water Management District. The applicant's letter dated March 27, 2023 states that the project would not utilize any potable water wells or septic systems. Additionally, irrigation for landscaping would come from stormwater ponds, eliminating the need for irrigation wells.

   The Site Plan Review Committee staff conclude that the proposed development will not adversely impact beyond what is allowed in the Land Development Code for environmentally sensitive lands or natural resources, including but not limited to waterbodies, wetlands, xeric communities, wildlife habitats, endangered or threatened plants and animal species or species of special concern, wellfields, and individual wells.

4. **The proposed use will not substantially or permanently depreciate the value of surrounding property; create a nuisance; or deprive adjoining properties of adequate light and air; create excessive noise, odor, glare, or visual impacts on the neighborhood and adjoining properties.**

The site plan implements the land use designations of “Low Density Residential” and “Medium Density Residential” with a gross density of 2.76 units per acre and a net density of 2.95 units per acre. The project has sought to provide natural buffers next to existing residentially zoned properties including the Village of Pine Run and the outparcels within the RidgeHaven subdivision area. The applicant’s letter dated March 27, 2023 states, “Coupled with the existing canal in a 40-foot easement on the Village of Pine Run property adjacent to the RidgeHaven property, neighboring residents will be at least 100 to 150 feet away from the new homes in Ridgehaven, which should be difficult to see due to the remaining trees and natural vegetation."

The Site Plan Review Committee concludes that proposed use will not substantially or permanently depreciate the value of surrounding property; create a nuisance; or deprive adjoining properties of adequate light and air; create excessive noise, odor, glare, or visual impacts on the neighborhood and adjoining properties.

5. **There are adequate public facilities to serve the development, including but not limited to roads, sidewalks, bike paths, potable water, wastewater treatment, drainage, fire and police safety, parks and recreation facilities, schools, and playgrounds.**

   There are adequate public facilities to serve the development. The proposed subdivision is required to install water and sewer facilities, sidewalks, recreational areas, and stormwater management. The development of homes would be subject to water and sewer connection fees and local road, park and recreation, police and fire impact fees. The project was reviewed by the Volusia County School Board for impacts and a determination of concurrency is provided in ATTACHMENT 3. The Site Plan Review Committee concludes that there are adequate public facilities to serve the development, including but not limited to roads, sidewalks, bike paths, potable water, wastewater treatment, drainage, fire and police safety, parks and recreation facilities, schools, and playgrounds.

6. **Ingress and egress to the property and traffic patterns are designed to protect and promote motorized vehicle and pedestrian/bicycle safety and convenience, allow for desirable traffic flow and control, and provide adequate access in case of fire or catastrophe. This finding shall be based on a traffic report where available, prepared by a qualified traffic consultant, engineer or planner which details the anticipated or projected effect of the project on adjacent roads and the impact on public safety.**

   The applicant was required to perform a traffic impact study which followed the methodology adopted by the River to Sea Transportation Planning Organization. City staff obtained the review of a 3rd party traffic engineer who has provided comments on the traffic impact analysis. The study analysis was based on 298 residential units. The subdivision lot number was decreased to 286 through the site plan process. Table 9 of the traffic impact analysis shows the project trips as follows:

   a. Daily trips = 2,608

   b. AM peak hour trips = 185

   c. PM peak hour tips = 256

The trip distribution map (Figure 4) show 93.24% of the trips going towards west towards U.S. Highway 1 and 6.76% going east to Old Dixie Highway. The traffic analysis concluded with the need for turning improvements on Plantation Oaks Boulevard and a proportionate fair agreement.

The project has provided a traffic impact analysis prepared by professional engineer. City staff has contracted to have the traffic study reviewed by a traffic engineer. The RidgeHaven subdivision meets the traffic requirements of the Land Development Code.

7. **The proposed development is functional in the use of space and aesthetically acceptable.**

   The development philosophy of the subdivision has been discussed in this report. The subdivision design provides for several housing types, exceeds landscaping standards, provides natural areas as buffers, includes entry features, contains stormwater management ponds with fountains, and provides a coordinated architectural theme. The Site Plan Review Committee concludes the proposed development is functional in the use of space and aesthetically acceptable.

8. **The proposed development provides for the safety of occupants and visitors.**

   The overall design indicates safe movement on the site. The proposed road and access layouts conform to the dimensional standards in the Land Development Code.

9. **The proposed use of materials and architectural features will not adversely impact the neighborhood and aesthetics of the area.**

   The project is required to utilize a Homeowners Association (HOA), which will institute an Architectural Control Committee to review construction plans within the development. The site plan exhibits outline regulations governing the construction of buildings and landscaping on individual lots, in order to encourage aesthetics and harmony within the development.

10. **The testimony provided at public hearings**.

    The project has not been reviewed at a public hearing and no testimony has been provided. Any testimony at the Planning Board meeting would be provided in the meeting minutes for the City Commission review.

SECTION 6, RECOMMENDATION:

The City's Comprehensive Plan has established the Planned Residential Development zoning classification to implement the goals of the "Low Density Residential" and "Medium Density Residential" land use categories. These goals include performing a site specific holding capacity analysis to determine density, requiring less density than in the City core areas, providing recreational, common, and natural areas, and clustering units to preserve environmentally sensitive areas. The proposed application achieves the goals of the land use and zoning designations.

Key considerations for deliberation for the issuance of the development order are subdivision design, lots sizes, perimeter setbacks, stormwater and traffic impacts. The

traffic impacts of this project have been analyzed and determined to be within the Level of Services adopted by the City Comprehensive Plan. Staff is recommending approval based upon the criteria of the Land Development Code and Comprehensive Plan. If there is a belief that the application failed to meet the established criteria, then the application should either be recommended for revisions or denied.

It is recommended that the Planning Board recommend **APPROVAL** of the issuance of a development order to allow 286 residential lots on 103.45 acres and associated site improvements, located south of Plantation Oaks Boulevard, east of Addison Drive, north of the Village of Pine Run subdivision, and west of the Plantation Oaks subdivision and includes the following Volusia County parcel numbers: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, and 3136-01-24-0050, including the following items:

a. Resolution of the outstanding comments of the Site Plan Review Committee;
b. The utilization of additional outdoor recreational square footage in lieu of indoor recreational facilities as permitted under a Planned Residential Development;
c. Allowance of stormwater pond depths of 15± feet;
d. Allowance of a minimum perimeter setback of: 15 feet next to lot 285, 20 feet next to lots 157-163, 213, and 214, and 30 feet to lot 227; and
e. Allowance of a five-year expiration date for phase one of the project from the date of City Commission approval.

The project is tentatively scheduled for the City Commission on May 16, 2023 (first reading) and if approved on first reading, the second reading will be on June 6, 2023 (final reading).

Site Plan Review
Committee comments

Project Name: PZ-22-061
Project Description: RidgeHaven subdivision, PRD & Preliminary Plat (298 units on 103.45 acres)
Review Comments List Date: 3/31/2023

Ref. # 164, Civil Engineer, David Allen, Cycle 3
Markup: Civil-Tailwater, Stormwater Calculations.pdf
In the review of the plans and stormwater design, it appears that the existing swale invert is well above the invert to the discharge pipe from the stormwater pond in the north east corner of the site. What is any modifications to the canal will be done to ensure the flow is not impeded.

Ref. # 171, Civil Engineer, David Allen, Cycle 3
Markup: Civil-Post Basin B, Stormwater Calculations.pdf
What is the criteria for an overflow outlet for this land-locked basin. What impacts will this design have on the parcels not part of this project.

Ref. # 198, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Pipe Systems, Hydraulic Grade Line Calculations.pdf
Identify the runs of pipe on a site plan to determine the actual location.

Ref. # 199, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Pipe Runs-2, Hydraulic Grade Line Calculations.pdf
Identify the runs on this overall plan. Identify the nodes that appear in more than one run, such as structures at 41 and 53. Show the hydraulic grade line from both runs.

Ref. # 200, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Color Code, Hydraulic Grade Line Calculations.pdf
When trying to identify the different runs, the color code on this sheet, did not match the individual runs shown on the following pages.

Ref. # 201, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Wetland, Hydraulic Grade Line Calculations.pdf
In our meeting this basin was discussed, where are the connections for any overflow from this basin to the stormwater system?

Ref. # 202, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Run #6, Hydraulic Grade Line Calculations.pdf
Please identify this run on the overall plan. I was unable to identify it.

Ref. # 203, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Run #7, Hydraulic Grade Line Calculations.pdf
Please identify this run on the overall plan. I was unable to identify it.

Ref. # 204, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Wetland Stage, Stormwater Calculations.pdf
In previous comments, this basin was noted as land-locked. Response was that there were outlets for the basin. Please indicate the stage that this wetland will reach prior to the discharge. Will this stage adversely affect the two outparcels.?
The location of the outlets appear to be on the other side of the out parcels.

Ref. # 205, Civil Engineer, David Allen, Cycle 4

Markup: Civil-Post-Tree-Pres, Stormwater Calculations.pdf
This basin appears to have multiple discharge points i.e.: north, south and east. Should this basin be divided by discharge points?

Ref. # 206, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Wetland-Post Basin 'B', Stormwater Calculations.pdf
In the predeveloped condition an irregular weir separates portions of the basin. Was this removed? If not how does this affect the surface flow to the outlet structures?

Ref. # 207, Civil Engineer, David Allen, Cycle 4
Markup: Civil-Overall Stormwater, Stormwater Calculations.pdf
In our meeting, we requested the impacts to the adjacent and down stream properties be evaluated. Provide documentation that there will not be adverse impacts to the adjacent properties. Second, the drainage swale/ditch that will be the ultimate discharge appears to be less than adequate for the proposed flows.

Ref. # 215, Civil Engineer, David Allen, Cycle 5
Markup: Civil-Grading, C011-CIVIL.pdf
Flow arrows indicate a flow to the west and Inlet 110A. However, there are no grades to provide documentation of this flow.Provide information on the flow pattern of the non-paved portion of Cliffhaven Court. This area has no existing grades on the profile for Cliffhaven Court.
Will there be any grading in this area?

Ref. # 216, Civil Engineer, David Allen, Cycle 5
Markup: Civil Grading C-011, C011-CIVIL.pdf
The existing grades in this area indicate the flow to the west. How will the proposed inlet drain this area/
Will the two areas stage up to the elevation of the roadway?

Ref. # 217, Civil Engineer, David Allen, Cycle 5
Markup: Civil-Out parcels, C012-CIVIL.pdf
Provide additional grading information on the out parcels to ensure the safety of the parcel
Will the two areas hashed stage to a point of merging ? The western connecting point appears to be the low point at the 28 contour.
Are there any existing elevations available in these areas?

Ref. # 218, Civil Engineer, David Allen, Cycle 5
Markup: Civil-Ridgehave Ave., C012-CIVIL.pdf
Provide any existing elevations for the unpaved limits of Ridgehaven Ave. How will this profile make the connection between the two asphalt sections.?

Ref. # 219, Civil Engineer, David Allen, Cycle 5
Markup: Civil-H2O main, C017-UTILITY.pdf
It appears that this water main extension passes under the proposed structure for Lot 52. Please re-route this main into the open area to the west. keeping the minimum distance between H2O and sanitary sewer mains.
Relocate the valves associated with the tee connection.

Ref. # 220, Civil Engineer, David Allen, Cycle 5
Markup: Civil-Overall Questions on HGL Calc-Stormwater-Ponds and Basins, C013-CIVIL.pdf

Stormwater Management Questions

1. The hydraulic grade line calculations should begin with the tailwater of the peak stage for 25yr/24hr storm event.
2. The 25 year 24 hour stage of the ponds is elevation 28.52 or 28.53. The top of the inlets noted as the overflow for the large wetland in the interior of the project range anywhere from elevation 26.00 to 27.50. The hydraulic grade line for the pipe system that end at these inlets will be above the top of the inlet. Please model the wetland and provide a peak stage for this basin.
3. When evaluating the overall plan, Sheet 2, the only inlet directly connected to the interior wetland is 113A at elevation 27.50 top. Show how the other inlets, 31, 14, 28, 110A, 114A will accept flow without crossing the roadway or the outparcels.
4. The stage of the ponds, elev. 28.52 when compared to the rear yard elevations there could be water within the lots.
5. Run No. 5 ends at Inlet 113A, the HGL appears well above the top of the inlet. Even with out the flow area including the entire interior wetland.
6. Basin 110A, shows flow arrows from the east to the west. However, there are no grades to provide evidence that this is the actual flow pattern.
7. Post Development Drainage Basins Plan

a. Post-Tree-Pres basin should be split at the north-eastern corner to allow for the flow through Lakes of Pine Run to be shown verse the existing flow pattern. Post Basin C and the Addison Canal and the eastern boundary canal appear to drain to the canal in Lakes of Pine Run.
b. In Post Basin A-there are two depressions, between the tier of lots on west side of Brookhaven Trail and the lots on the east side of Ridgehaven Avenue. Do either of these depressions stage up during the major storm events? If so, what would be the peak stage and would the rear of the lots be in danger of water encroachment?
c. There does not seems to be any information available for Lake E. Provide any stage information.

8. Comment Regarding questions above- In comparing the Pre-Basins and the Post Development basins, it appears that the interior wetland previously drained through Pre-DEP-D which has now been severed by the filling of the lots.

Ref. # 231, Civil Engineer, David Allen, Cycle 5
Markup: Civil--Swale, C012-CIVIL.pdf
The swale appears to be on the adjacent property, please provide written authorization for the connection from Ridgehaven to swale. As well as permission for the flow to now proceed to the north in the swale.
Has the County been notified of the connection to the existing ditch and the change to the surface water flow?

Ref. # 188, Landscape Architect, Cara Culliver, Cycle 4
Markup: 14" Oak Missed, C004-EC.pdf
- Please add this missing 14" specimen Oak to the removal chart & calculations.

Ref. # 194, Landscape Architect, Cara Culliver, Cycle 4

Please provide a sketch and legal description for the ROW to be vacated.

Ref. # 223, Utility 1, Mike Stephenson, Cycle 5
Markup: Eastern Channel Modifications?, C012-CIVIL.pdf
Please advise of any proposed construction activities on the eastern side of RidgeHaven within the existing channel. Verbally I have heard discussion regarding modifying the channel with the intent to prevent stormwater from the RidgeHaven outfall from traveling toward the existing channel serving the Village of Pine Run, but I have not seen any proposed plans to date.

Ref. # 224, Utility 1, Mike Stephenson, Cycle 5
Markup: RCP and CMP in Channel, C012-CIVIL.pdf
Please provide design documentation showcasing how the existing 36-inch CMP in the channel to west of RidgeHaven was sized and please advise how the 60-inch RCP under Plantation Oaks was sized.

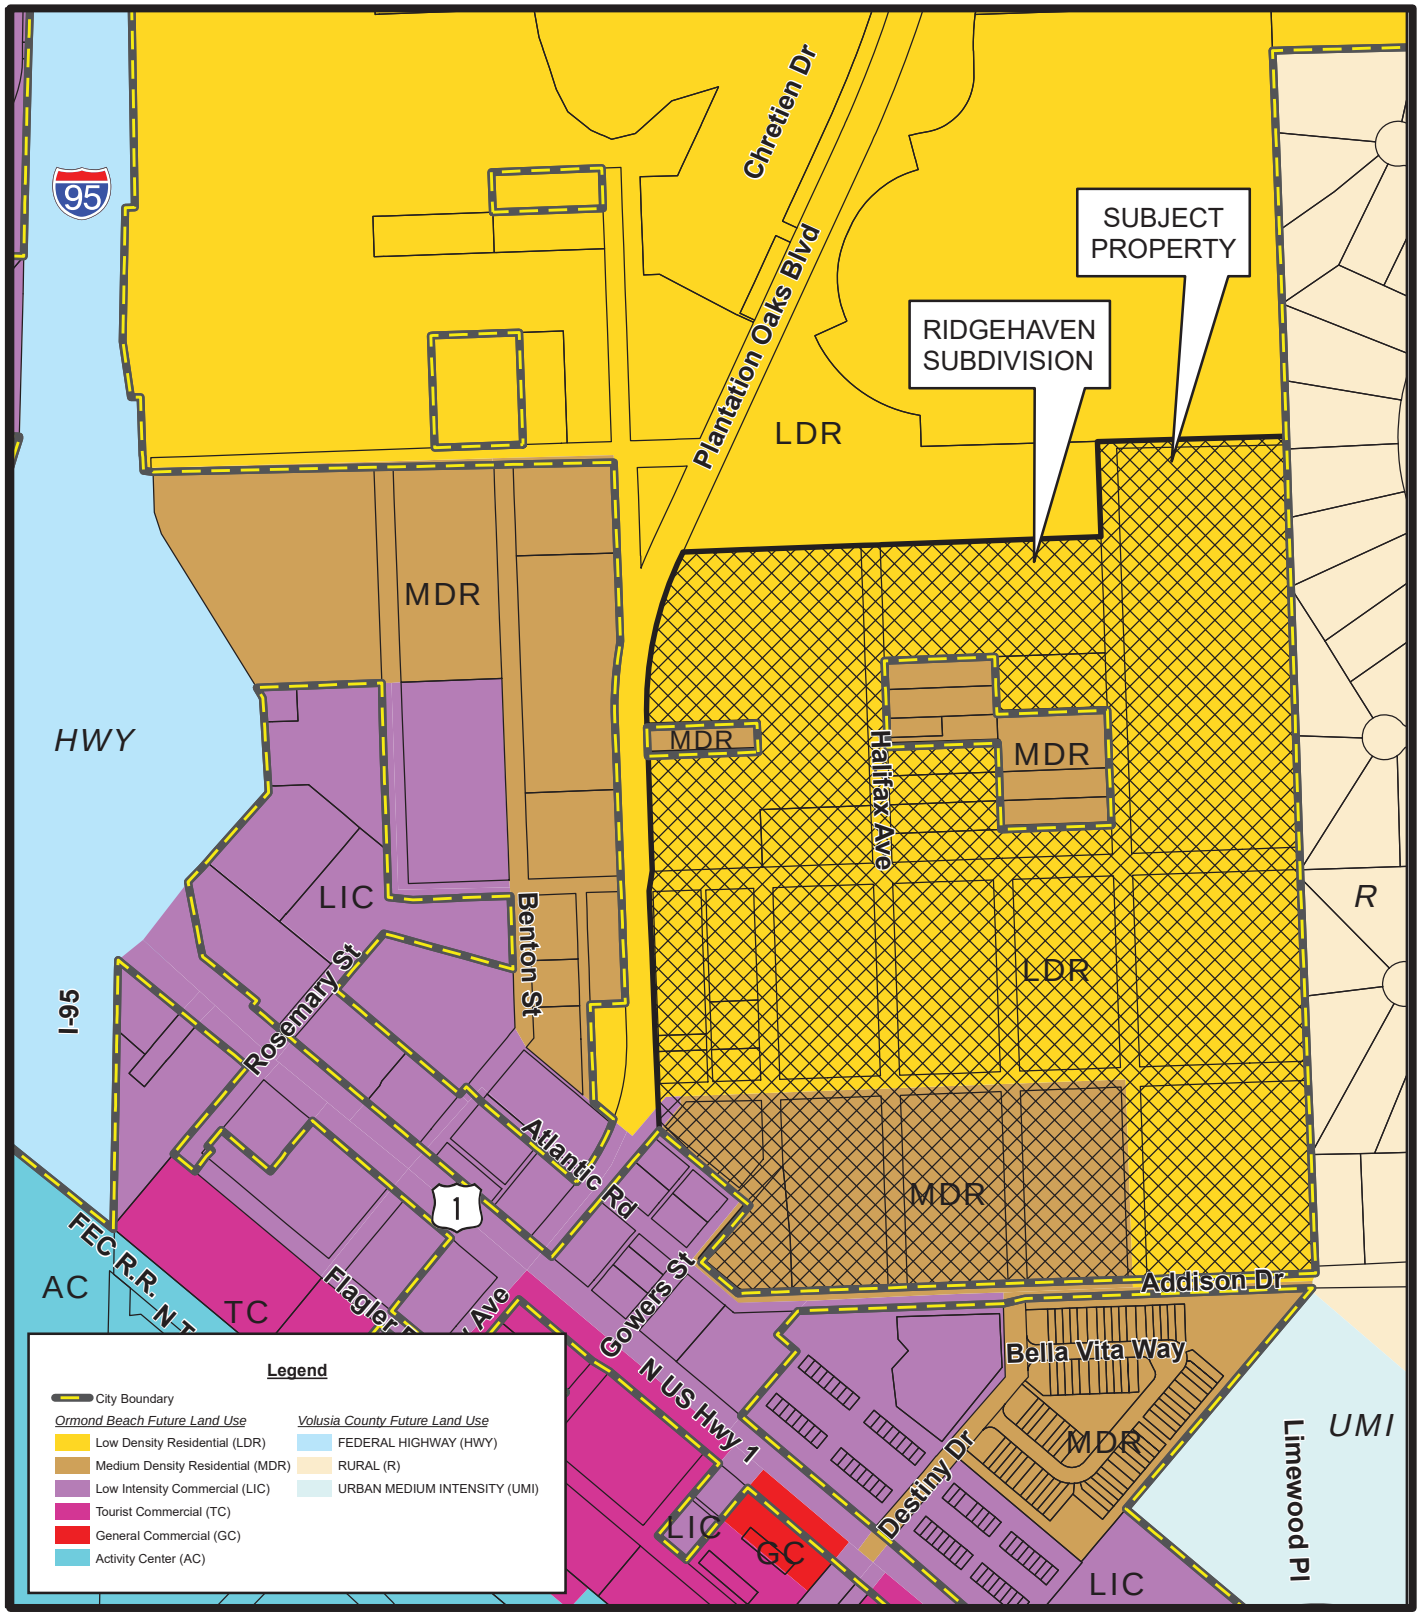
Ref. # 225, Utility 1, Mike Stephenson, Cycle 5
Markup: WM Re-route, C017-UTILITY.pdf
Please revise the proposed water main routing under unit 52 to be out from under the unit and in the right of way.

Ref. # 226, Utility 1, Mike Stephenson, Cycle 5
Markup: Sizing of Channel to Outfall Point, C012-CIVIL.pdf
Please provide design documentation showcasing how the channel leading to the outfall point was sized.

Assumptions on my end: Q = (K/n) * ((A/P)^(2/3)) * S^(1/2) * A ; K = 1.49 ; n = 0.03 ; S = 0.0005 ; A = 67.3 Ft^2 ; P = 22.8 Ft. Values of A, P, and S were calculated utilizing as-built documentation of the existing channel. Utilizing these values, I calculate a theoretical max flow rate of 154 CFS for the channel leading to the outfall point.

The current stormwater report for RidgeHaven lists the peak discharge for the 25YR-24HR event as

139.69 CFS. The Plantation Oaks storwmater report lists the peak discharge for DITCH-POST in the 25YR-24HR event as 156.59 CFS. The peak discharge for RidgeHaven West will likely be somewhere around 100 CFS for the 25YR-24HR event (assumption made by me based off of acreage). All total, this suggests the channel conveying flow to the outfall would need to be able to accommodate 396.3 CFS, which is above my assumed calculations. Please advise if my assumptions have been made in error while reviewing your supplied documentation.



Ref. # 227, Utility 1, Mike Stephenson, Cycle 5
Markup: Sizing of RidgeHaven Discharge Channel, C012-CIVIL.pdf
Please provide design documentation showcasing how the outfall channel discharge on the northside of RidgeHaven was sized.

Assumptions on my end: Q = (K/n) * ((A/P)^(2/3)) * S^(1/2) * A ; K = 1.49 ; n = 0.030 ; S = 0.0005 ; A = 54.5 Ft^2 ; P = 26.1 Ft. Values of A, P, and S were calculated utilizing as-built documentation of the existing channel. Utilizing these values, I calculate a theoretical max flow rate of 98.9 CFS for the channel.

The current stormwater report for RidgeHaven showcases a peak discharge of 139.69 CFS for the existing channel in the 25YR-24HR event, which is above my theoretical calculations. Please advise if my assumptions have been made in error while reviewing your supplied documentation.

1729 Ridgewood Ave
Holly Hill, FL 32117

RE : Ridgehaven – City of Ormond Beach
School Capacity Review #22-11-28-003-A

Dear Mr. Mynchenberg:

The County Charter requires any Comprehensive Plan Amendment or Rezoning that allows increased residential density to be effective only when adequate public schools can be timely planned and constructed to serve the projected increase in student population. The district uses this requirement as the guiding principle behind the school adequate capacity review.

District staff reviewed the updated information for the proposed Ridgehaven associated with 103.45+/- acres of property located at or near the intersection of N US Hwy 1 and I-95 within Ormond Beach city limits. Proposed project would provide for two hundred and two (202) single family home units and ninety-six (96) multi-family duplex units.

The district uses a county wide Student Generation Rate (SGR) of (0.273) per single family dwelling unit and (0.127) per multi-family dwelling unit to calculate projected students. By applying the SGR to the use types in Table 1 below, the project could generate sixty-nine (69) full time students.

Table 1

UNIT TYPE	SGR	UNIT COUNT	STUDENTS GENERATED
Single Family Dwelling Unit	0.273	202	56
Multifamily Dwelling Unit	0.127	96	13
Manufactured Home Dwelling Unit	0.047	0	0
	Total	**298**	**69**

When performing adequate capacity review district staff evaluates the effects of the proposed change compared to any remaining permanent capacity within the impacted schools, up to 100%, Table 2. The projected increase in student population may be over 100% if there are plans to serve increased student population in that planning area within the long-term planning horizon. A finding of adequate capacity may be issued in either case.

FACILITIES SERVICES
3750 OLSON DRIVE • DAYTONA BEACH, FL 32124
PHONE: (386) 947-8786 • FAX (386) 506-5056

An Equal Opportunity Employer

Table 2

Schools	SY 2022/23 Enrollment	% of Permanent Capacity	Plans for Capacity Increase Long-Term	Traditional K-12 students projected
Pine Trail Elementary	690	105%	No	29
Ormond Beach Middle	989	85%	No	17
Halifax CSA (Seabreeze High)	1,679	105%	No	20
Other				3

The student projections generated by this project **will** increase the existing percentage above 100% permanent capacity at the elementary and high school levels. However, the level of service (LOS) standard for elementary school concurrency is 115% and 120% for high school concurrency service areas (CSAs). Additionally, Pine Trail Elementary is included in a rezoning effort in the near term. Based on this, the school district has no objections to the proposed development plan. Minimum planning considerations should include pedestrian and vehicular access, safety, connectivity, and buffering.

All future development orders, such as site plans and subdivisions, are subject to school concurrency review. School concurrency will be evaluated at the time when the impact of development is specifically quantified and known. Only funded school improvements and then current capacity will be considered at that time.

No student reservations have been made at this time.

Please note the School Board has the right to adjust the attendance boundaries to balance the student enrollment populations at these area schools. Consequently, students generated from this project may not attend the current assigned schools.

Should you need additional information, please contact me at (386) 947-8786, extension 50709.
Sincerely,

Stephanie B. Doster,
Coordinator, Planning

Finding of Adequate School Capacity

VOLUSIA COUNTY SCHOOL BOARD

Project Information	
Project Name	Ridgehaven
VCSB Project #	**22-11-28-003-A**
Jurisdiction Project #	
Parcel ID Numbers	3136-01-01-0011; 3136-01-01-0012; 3136-01-33-0110; 3136-01-25-0010; 3136-01-24-0060; 3136-01-33-0080; 3136-01-01-0020; 3136-01-23-0060; 3136-01-24-0050
Project Location	N US Hwy 1 and I-95
Potential Residential Units	202 Single Family Homes and 96 Multi-Family Duplex Homes
Property Owner/Applicant	Parker Mynchenberg & Associates, Inc
Notes: Additional review will be required at the time of subdivision/site plan submittal(s). No Student Reservations have been made.	

Based upon the Findings of Fact, pursuant to School Board Policy 612 and Section 206 of the County Charter, the school district has determined at this time that school capacity is adequate to serve the proposed increase in residential density. This Finding shall constitute competent substantial evidence that adequate public school capacity is likely to be available at the time it is required to serve the planned new development.

Capacity is <u>not</u> being reserved with this Finding unless otherwise noted on this document. This Finding of Adequate School Capacity allows this subject project to continue through the Comprehensive Plan Amendment and/or rezoning process; however, it may be subject to additional school capacity review in the future.

ENVIRONMENTAL SUPPORT DOCUMENT

RIDGEHAVEN
VOLUSIA COUNTY, FLORIDA

1.0 INTRODUCTION

The ±103.69-acre Ridgehaven Property is located immediately north of Addison Drive and east of Plantation Oaks Boulevard in Ormond Beach, Florida (Figure 1). More specifically, the subject property is located within Section 36 Township 13 South and Range 31 East of Volusia County, Florida.

The subject property contains mostly pine flatwood uplands with three forested wetland habitats on site.

The purpose of this application is to obtain a permit for wetland impacts associated with a residential development and stormwater management system consisting of five stormwater ponds.

This application is based on the attached site plan (Figure 6). The total project area is 103.69 acres, with wetlands totaling 8.04 acres. Three wetlands are present onsite and are located along the northern and western boundaries as well as in the center of the property.

Proposed wetland impacts total 1.745 acres and consists of four impact areas. As compensation, the applicant proposes to purchase mitigation bank credits. Figure 6 depicts the proposed wetland impacts.

This project site is within the Tomoka River hydrologic basin.

The project site was reviewed to determine the geological features of the landscape (e.g., soils and topography), to identify the remaining vegetative communities that occur within the project boundary, and to determine the occurrence of threatened and endangered flora and fauna within the parcel. The findings and conclusions of these studies are presented within this document.

2.0 SITE CHARACTERISTICS

2.1 TOPOGRAPHY

According to the U.S.G.S. 7.5 Minute Topographic Map, the project site elevations between 25 and 30 feet above sea level. The central wetland is depicted as well as an existing road that terminates within the central portion of the property (Figure 2).

2.2 SOILS

Soil composition information for the subject site was obtained from the *Soils Survey of Volusia County, Florida*, United States Department of Agriculture; Soil Conservation Service (Figure 3). Five (05) soil types lie within the subject site of which, two (02) soil type (Basinger fine sand, frequently ponded and Pomona-St. Johns complex) are considered hydric.

2.3 VEGETATIVE COMMUNITY ANALYSIS

Pedestrian surveys of the project site were conducted in order to qualitatively document the existing vegetation and to assess the present land use patterns according to the *Florida Land Use, Cover and Forms Classification System, Department of Transportation* (FLUCFCS; DOT 1999). Four (04) land-use types were determined for the project site. A brief description of each FLUCFCS community is provided below (Figure 4).

411 – Pine Flatwoods

Theis is the largest habitat type found within the project site and is densely forested. Canopy species are dominated by longleaf pine (*Pinus palustris*) and slash pine (*Pinus elliottii*). Groundcover consisted of dense saw palmetto (*Serenoa repens*), wire grass (*Aristida stricta*), and bracken fern (*Pteridium aquilinum*).

513 – Ditch

Located along the southern boundary there is a roadside ditch. Vegetation observed includes soft rush (*Juncus effuses*), wax myrtle (Myrica cerifera), primrose willow (*Ludwigia peruviana*), slash pine, and some cattail (*Typha spp*.).

625 – Hydric Pine Flatwoods

Found throughout the project site, these wetlands are isolated. The largest of these habitats is located within the center of the project site. During the site visit these wetlands contained little to no standing water. Vegetation observed consists of slash pine, wax myrtle, red maple (*Acer rubrum*), cabbage palm (*Sabal palmetto*), cinnamon fern (*Osmunda cinnamomea*), red root (*Lachnanthes caroliana*) and little blue maiden cane (*Amphicarpum muehlenbergianum*).

814 – Roads and Highways

There is a paved road running from the south to the north that terminates at the out parcel located within the center of the subject property.

3.0 THREATENED AND ENDANGERED SPECIES

3.1 METHODOLOGY

Pedestrian and vehicular transects were conducted throughout 100% of the site to assess the occurrence, or potential for occurrence, of flora and fauna listed as threatened, endangered, or as species of special concern by the Florida Fish and Wildlife Conservation Commission (FWC) and the U. S. Fish and Wildlife Services (USFWS). Various resources were employed to assist with the survey. These resources included ArcGIS aerial maps; Florida Natural Areas Inventory and Official Lists of Endangered and Potentially Endangered Fauna and Flora in Florida (FWC).

3.2 Fauna

Approximately 35 species (and sub-species) of birds found in Florida are protected by the FWC and/or the USFWS. For Volusia County, the USFWS federally lists five (5) bird species. No listed birds were observed at this site (Table 1).

Florida scrub jays (*Aphelocoma c. coerulescens*) were not observed on the project site. This species is listed as threatened at the state and federal levels. The property does not contain scrub habitat. The guidelines outlined in the Ecology & Development-Related Habitat Requirements of the Florida Scrub Jay (April 1991) were reviewed prior to the site visit to aid with the habitat assessment. No scrub jays were observed, or vocalizations heard.

ECS reviewed both the mapped locations of known Florida scrub jays and the mapped areas of habitat per Volusia County. The project is not within the mapped scrub jay habitat range or adjacent to known occupied habitat.

Red-cockaded woodpeckers (*Picoides borealis*) are listed as endangered (USFWS) and endangered (FWC). No red-cockaded woodpeckers were observed, and the upland habitat type is not suitable. The onsite pines are not considered old-growth pines that characterize RCW nesting and foraging habitat. In addition, the understory vegetation is too tall and dense.

Listed wading birds such as limpkin (*Aramus guarauna*), little blue heron (*Egretta caerulea*), tricolored heron (*Egretta tricolor*), white ibis (*Eudocimus albus*) and wood stork (*Mycteria americana*) were not observed. There are wetlands present onsite. The onsite wetland habitats provide poor wading bird habitat. No wading bird nests were observed.

Bald eagles (*Haliaeetus leucocephalus*) or their nests were not observed on the site. Bald eagles are protected under the Bald and Golden Eagle Protection Act and the Migratory Bird Treaty Act.

The USFWS has established a 660-foot protection zone around a bald eagle nest.

ECS searched the FWC website and the Audubon's Eagle Watch website to determine if any documented bald eagle nests are within 660 feet of the project site. There are no reported bald eagle nest in close proximity to the project site. ECS did not observe any bald eagle nests anywhere within the property boundaries. Therefore, the project site is outside of the 660-foot eagle nest protection zone and the development will not affect any bald eagle nests.

No other listed raptors such as Southeastern American kestrels (*Falco sparverius paulus*) or Arctic peregrine falcons (*Falco peregrinus tundrius*) were observed on or around the site. There is no foraging habitat for kestrels. No birds were observed on or offsite at the time of the survey.

Florida sandhill cranes (*Grus canadensis pratensis*), a Threatened Species, were not observed within the project boundaries.

About thirty (30) species of Florida's amphibians and reptiles are protected. For Volusia County, the USFWS federally lists four (4) reptile species. No listed reptile or amphibian species were observed within the project boundaries.

A 100% survey was conducted throughout the property for gopher tortoises (*Gopherus polyphemus*), a species listed by the FWC as a Threatened. Eight (08) gopher tortoise burrows were observed throughout the property. The applicant will obtain a conservation permit to relocate the onsite gopher tortoise population to an approved longterm protected gopher tortoise recipient site.

Several commensal species associated with gopher tortoise burrows, including the gopher frog (*Rana capito*) and eastern indigo snake (*Drymarchon corais couperi*) also receive protection, but were not observed.

Thirty-three (33) mammals are currently protected in Florida. For Volusia County, the USFWS federally lists no mammal species.

ECS searched for the presence of the Southern fox squirrels (*Sciurus niger niger*) and the Florida mouse (*Podomys floridanus*) and their possible den or nest sites. The presence of gopher tortoise burrows increases the likelihood for the Florida mouse.

3.3 Flora

There were no protected plant species found on the project site (Table 2).

Currently, there are no technical reports available by the state or federal agencies mentioned in this letter report for the survey of the nearly 400 protected plant species.

None of the agencies require relocation or mitigation for protected plant species.

The Department of Agriculture and Consumer Services (DACS) designates and regulates plants listed as "endangered," "commercially exploited" and "threatened."

There is no statutory prohibition against a landowner from harvesting an endangered or threatened plant from his property.

However, it is unlawful for an individual to harvest an endangered or threatened species from the private land of another or any public land without first obtaining written permission of that landowner and a permit from DACS.

3.4 REGULATORY REVIEW

U. S. Fish and Wildlife Service

The U.S. Fish and Wildlife Service (USFWS) is the federal agency responsible for protecting the nation's fish and wildlife resources through implementation of the Endangered Species Act of 1973, as amended ("ESA"), 16 U.S.G. 1531-1543. The USFWS has responsibility for terrestrial and freshwater species. In Florida, 104 species are federally listed as threatened and endangered.

Florida Fish and Wildlife Conservation Commission

Article IV, Section 9 of the Florida Constitution authorizes the Florida Fish and Wildlife Conservation Commission (FWC) to "exercise the regulatory and executive powers in the state with regard to the wild animal life and freshwater aquatic life..." The FWC regulates the taking of individuals listed as endangered, threatened, or of special concern and their nests. The FWC also provides technical assistance to other agencies that have regulatory authority over activities, which may affect fish and wildlife and their habitat. The regulatory role of the FWC is currently restricted to protecting animals, not their habitats. However, current FWC policies allow for habitat protection as compensation for the "taking" of individuals of the species. The FWC Office of Environmental Services (OES) provides technical assistance to other agencies that regulate development activities. These agencies include the Department of Community Affairs, the Department of Environmental Protection, the U.S. Army Corps of Engineers, water management districts, regional planning councils and local governments. Currently, the FWC lists 106 species of animals.

Florida Department of Agriculture and Consumer Services

In Section 581.185, F. S., the Florida Legislature delegated to the Department of Agriculture and Consumer Services (FDA) authority to designate and regulate

plants listed as “endangered,” “commercially exploited” and “threatened.” There is no statutory prohibition against a landowner from harvesting an endangered or threatened plant from its own property. It is unlawful for an individual to harvest from the private land of another or any public land without first obtaining written permission of the landowner and a permit from FDA. Harvesting three or more commercially exploited plants will also require an FDA permit.

4.0 WETLAND ANALYSIS

A total of three wetlands are present onsite. The onsite wetlands consist of shallow hydric pine flatwoods that were historically isolated, flowing together only over low upland flow ways during the wet season. Isolated pools of water were observed during the site visit. There is a large ditch system present along the roadside to the south. Hydroperiods have been reduced to the extent that most portions of the wetlands do not flood deeply or persistently. Deep roadside ditches likely divert groundwater influxes that historically contributed to wetland hydroperiods.

Wetland No. 1 (6.76 acres), located on the center of the property boundary, is of moderate quality and typical of the wetlands found in inner Volusia County. It contained little to no standing water, with limited amounts of vegetation. Hydric soils were observed. This wetland is isolated.

Wetland No. 2 (0.25 acres), located along the northern boundary of the project site, consists of a small portion of a much larger wetland that extends offsite to the north. This is the highest quality wetland located on site. Native wetland vegetation was present throughout. Standing water was present. Although this wetland extends offsite, it is, overall, isolated.

Wetland No. 3 (0.977 acres), located on the western boundary of the project site, is of moderate quality and typical of the wetlands found in inner Volusia County. It contained little to no standing water, with limited amounts of vegetation. Hydric soils were observed. This wetland is isolated.

All of the wetlands are naturally occurring wetlands with very few nuisance or exotic species present.

4.1 IMPACT AVOIDANCE AND MINIMIZATION ANALYSIS

Avoidance and minimization (reduction of wetland impacts) to the onsite wetlands has been achieved by the design of site plan. Proposed wetland impacts have been limited to the perimeters of the centrally located wetland as well as the wetland that extends into the north property boundary. Additionally, a small, isolated wetland located on the west side of the property is also proposed for impacts. The applicant has avoided the higher quality wetland habitats while limiting impacts to the wetland edge habitat.

Due to the location and shape of the onsite wetlands, impacts are unavoidable. Proposed wetland impacts to Wetland No. 1 (interior wetland) are necessary for lot development. The interior road, adjacent to the south side of Wetland No. 1 cannot be shifted or the six lots contoured to avoid impacting the wetland. Two additional lots will impact a small portion of the east side of Wetland No. 1.

A small impact area is proposed to the southern perimeter of Wetland No. 2. Again, the applicant considered alternative designs to shift interior roads to avoid wetland impacts, however the is no opportunity since there are outparcels within the center of the property that must be avoided, and road safety standards and setbacks requirements must be met per City requirements. The location of Wetland No 2 combined with the outparcels, limits the available developable area.

The impacts to Wetland No. 3 are necessary for access into the residential development.

Development of the subdivision is proposed in the upland portion of the property. Interior roads and stormwater ponds (a total of five) have all been designed to avoid the highest quality onsite wetland habitats. Approximately 6.15 acres of onsite wetlands will be preserved. There are four wetland impacts proposed.

The remaining onsite wetland habitat and corresponding upland buffers will continue to provide habitat for wildlife species.

The proposed impact to wildlife and fish is considered minimal. The applicant does propose mitigation that provides regional ecological value.

4.1.1 Wetland Impacts

The wetland impacts associated with the proposed development are shown in Figure 6. Approximately 1.745 acres of impacts are proposed.

Wetland Impact Area 1 – 0.065 acres (2,831.4 sf.)
Wetland Impact Area 2 – 0.453 acres (19,715 sf.)
Wetland Impact Area 3 – 0.25 acres (10,890 sf.)
Wetland Impact Area 4 – 0.977 acres (42,571 sf.)

Wetland Impact Area 1 is located on the east side of Wetland No. 1. This impact is necessary for construction of a dry retention as well as two lots. The impact area has poor hydrology. Vegetation species consisting of slash pine, laurel oak, cabbage palm, little blue maiden cane, red root.

Wetland Impact Area 2 is located on the south side of Wetland No. 1. This impact is necessary for construction of a dry retention as well as six townhome lots. The impact area has poor hydrology. Vegetation species consisting of slash pine, laurel oak, cabbage palm, little blue maiden cane,

red root.

Wetland Impact Area 3 is located on the south side of Wetland No. 2. This impact is necessary for construction of a dry retention. This wetland contains native wetland vegetation as well as standing water. Vegetation species consisting of slash pine, laurel oak, red maple, and little blue maiden cane.

Wetland Impact Area 4 is to the entirety of Wetland No. 3. This impact is necessary for construction of an entrance road as well as seven lots. This wetland contains a dense tree canopy consisting of slash pine and laurel oak.

Mitigation is proposed for the 1.745 acres of wetland impacts (Wetland Impact Areas 1-4). These impacts will be compensated for by credits from a mitigation bank.

4.2 SECONDARY AND CUMULATIVE IMPACTS

The criteria within Sections 4.2.7 and 4.2.8 of the SJRWMD Applicants Handbook could be reviewed to provide reasonable assurances that any proposed wetland impacts would not result in adverse secondary or cumulative impacts to the water resources associated with this project.

Secondary impacts were assessed for Wetland Impact Areas 1,2 and 3. Secondary impacts were not assessed for Wetland Impact Area 4 since the entirety of this wetland is proposed for impacts. Therefore, secondary impacts were assessed for 0.768 acres of wetland impacts. The distance of the impact areas and a depth of 100 feet was used to determine the limits of secondary impacts and is discussed under Section 5.3.

Secondary impact items are addressed below according to their corresponding 12.2.7, A.H., subsection.

(a). The applicant proposed to preserve an upland buffer around the remaining onsite wetland perimeters to preclude secondary impacts as allowed by Section 12.2.7 (a), A.H.

(b). No on-site uplands could be considered to provide significant habitat for listed species.

(c). No historical and archaeological resources are known or likely to occur on the site (previous FL Division of Historical Resources, December 27, 2004, for a previously permitted portion of the subject property); and

(d). This permit application and subsequent Environmental Resource Permit addresses all impacts within the project.

No listed species were identified within or adjacent to the project area. Impacts to the upland-nesting habitat of listed species that are aquatic or wetland dependent are not expected to occur.

The proposed mitigation offsets the project's adverse impacts, and it is in the same drainage basin; therefore, the project complies with 12.2.8, ERP A.H.

5.0 UNIFORM MITIGATION ASSESSMENT METHOD

Per subsection 373.414(18), F.S., a uniform mitigation assessment method (UMAM) was employed to determine the amount of mitigation needed to offset adverse impacts to wetlands and other surface waters and\or to award and deduct mitigation bank credits.

The standardized procedures for assessing the functions provided by wetlands and other surface waters, the amount that those functions are reduced by a proposed impact and the amount of mitigation necessary to offset wetland and surface water loss, were adhered to as outlined in Chapter 62-345.

A qualitative description, per Section 62-345.00.400, F.A.C. (referred to as Part I) and quantification of assessment areas, per Sections 62-345.500 and .600, F.A.C. (referred to as Part II) was conducted for the onsite wetland. Reasonable scientific judgment was used when applying this method.

5.1 Part I – Qualitative Description of Impact Area

The information provided on the data sheets (Appendix B) has been previously discussed in this document. Please refer to the vegetative descriptions under Section 2.3 “Vegetative Community Analysis” and Section 3.3 “Listed Species Survey Results” for detailed information as summarized on the data sheet.

5.2 Part II – Quantification of Impact Assessment Area

Four (04) assessment area was analyzed to determine the degree to which the assessment area provides the functions identified in Part I and the amount of function lost or gained by the project for the impacted jurisdictional onsite wetlands. The areas chosen represent wetland vegetation, soils and hydrology of the onsite wetland and upland buffer and include existing sub-canopy and groundcover vegetative species. The assessment area represents current conditions of the existing onsite wetland and upland buffer. Three categories of indicators of wetland function were scored to the extent that they affect the ecological value of the assessment areas. These indicators include: 1) location and landscape support, 2) water environment and 3) community structure.

Wetland Assessment Area 1 is the 0.065 acres of impact to the perimeter of the on-site wetland (Wetland No. 1). The current condition of the impact area was

assessed and a delta of 0.67 was determined. Multiplying the delta (0.67) with the impact acreage (0.065) yielded a functional loss (FL) of 0.044. Please see the data sheet for the individual information determined for the three indicators of wetland function (Appendix B).

Wetland Assessment Area 2 is the 0.453 acres of impact to the perimeter of the on-site wetland (Wetland No. 1). The current condition of the impact area was assessed and a delta of 0.67 was determined. Multiplying the delta (0.67) with the impact acreage (0.453) yielded a functional loss (FL) of 0.304. Please see the data sheet for the individual information determined for the three indicators of wetland function (Appendix B).

Wetland Assessment Area 3 is the 0.25 acres of impact to the perimeter of the on-site wetland (Wetland No. 2). The current condition of the impact area was assessed and a delta of 0.63 was determined. Multiplying the delta (0.63) with the impact acreage (0.25) yielded a functional loss (FL) of 0.158. Please see the data sheet for the individual information determined for the three indicators of wetland function (Appendix B).

Wetland Assessment Area 4 is the 0.977 acres of impact to Wetland No. 3. The current condition of the impact area was assessed and a delta of 0.6 was determined. Multiplying the delta (0.6) with the impact acreage (0.977) yielded a functional loss (FL) of 0.586. Please see the data sheet for the individual information determined for the three indicators of wetland function (Appendix B).

The functional loss for the proposed wetland impacts is 1.092.

5.3 Secondary Impacts

Secondary impacts were assessed for Wetland No. 1 & 2. Since the entirety of Wetland No. 3 will be impacted and is isolated, no secondary impacts were assessed.

More specifically, secondary impacts were assessed along the boundary of each wetland impact area. Approximately 813 linear feet by an average depth of 100 feet was assessed for secondary impacts or 2.24 acres.

The current condition of the secondary impact area (Wetland No.1) was assessed and a score of 0.67 was determined. A score of 0.6 was determined for the without condition. The difference is a delta of 0.07. Multiplying the delta (0.07) with the impact secondary acreage (0.992) yielded a functional loss (FL) of 0.069. Please see the data sheet for the individual information determined for the three indicators of wetland function (Appendix B).

The current condition of the secondary impact area (Wetland No.2) was assessed and a score of 0.67 was determined. A score of 0.6 was determined for the

without condition. The difference is a delta of 0.07. Multiplying the delta (0.07) with the impact secondary acreage (1.247) yielded a functional loss (FL) of 0.087. Please see the data sheet for the individual information determined for the three indicators of wetland function (Appendix B).

The functional loss for the proposed secondary wetland impact is 0.156.

The combined functional loss for the direct and secondary impacts is 1.248.

6.0 PROPOSED MITIGATION

The loss of wetland function due to the proposed impacts can be sufficiently mitigated with the purchase of mitigation credits. The proposed mitigation plan will more than compensate for the loss of the aforementioned wetland areas. The onsite wetlands are not proposed as mitigation since the largest wetland (Wetland No. 1) is isolated and will be surrounded by development.

Approximately 1.248 freshwater forested mitigation bank credits will be purchased from the Farmton Mitigation Bank.

7.0 SUMMARY

As previously discussed, approximately 1.745 acres of wetland impacts are proposed. Mitigation is proposed for 1.745 acres of proposed wetland impacts, and 2.24 acres of proposed secondary impacts. A total functional loss of 1.248 was determined for the direct impacts and secondary impacts to onsite wetlands.

Mitigation will be provided through the purchase of 1.248 credits from Farmton Mitigation Bank. Once District staff has approved the credit amount, a reservation letter will be obtained from the mitigation bank and provide to District staff.

PART I – Qualitative Description
(See Section 62-345.400, F.A.C.)

Site/Project Name	Application Number	Assessment Area Name or Number
RidgeHaven		Wetland Impact Area 1

FLUCCs code	Further classification (optional)	Impact or Mitigation Site?	Assessment Area Size
FLUCFCS 625		Impact	0.065 acres

Basin/Watershed Name/Number	Affected Waterbody (Class)	Special Classification (i.e.OFW, AP, other local/state/federal designation of importance)
Palatlakaha River Nested	Class III	

Geographic relationship to and hydrologic connection with wetlands, other surface water, uplands

The ±103.69-acre Ridgehaven Property is located immediately north of Addison Drive and east of Plantation Oaks Boulevard in Ormond Beach, Volusia County Florida. The subject property contains mostly pine flatwood uplands with three forested wetland habitats on site.

The onsite wetlands consist of shallow hydric pine flatwoods that were historically isolated, flowing together only over low upland flow ways during the wet season.

The Tomoka River is located to the east of the property.

Assessment area description

Wetland No. 1, located on the center of the property boundary, is of moderate quality and typical of the wetlands found in inner Volusia County. It contained little to no standing water, with limited amounts of vegetation. Hydric soils were observed. This wetland is isolated. Wetland Impact Area 1 is located on the east side of Wetland No. 1. This impact is necessary for construction of a dry retention as well as two lots. The impact area has poor hydrology.

Significant nearby features	Uniqueness (considering the relative rarity in relation to the regional landscape.)
The Tomoka River is located to the east of the property.	This impact area (wetland habitat) not unique or rare in relation to the regional landscape.

Functions	Mitigation for previous permit/other historic use
Provides wildlife habitat for local species, water quality from runoff	none

Anticipated Wildlife Utilization Based on Literature Review (List of species that are representative of the assessment area and reasonably expected to be found)	Anticipated Utilization by Listed Species (List species, their legal classification (E, T, SSC), type of use, and intensity of use of the assessment area)
reptiles, songbirds, and mammals	none found in Volusia County

Observed Evidence of Wildlife Utilization (List species directly observed, or other signs such as tracks, droppings, casings, nests, etc.):

none

Wetland Impact - 0.065 acres	Chris Krack	12-January-22

Scoring Guidance
The scoring of each indicator is based on what would be suitable for the type of wetland or surface water assessed

Optimal (10)	Moderate(7)	Minimal (4)	Not Present (0)
Condition is optimal and fully supports wetland/surface water functions	Condition is less than optimal, but sufficient to maintain most wetland/surface waterfunctions	Minimal level of support of wetland/surface water functions	Condition is insufficient to provide wetland/surface water functions

.500(6)(a) Location and Landscape Support	w/o pres or current: **7**	with: 0
Support for wildlife species outside of Assessment Area is moderate. Provides some benefits, adverse impacts from upland land uses outside of Assessment Area, no connection to offsite wetlands, uplands provides habitat for protection, uplands to be developed.		
.500(6)(b)Water Environment (n/a for uplands)	w/o pres or current: **7**	with: 0
Standing water was not present in the AA (wetland fringe), shallow standing water is present in the wetland interior, uplands are dense pine flatwoods, no alteration to points of discharge, no evidence of flow rates, no evidence of fire, nuisance and exotic species in small numbers, no wading birds observed in Assessment Area, some native desirable wetland plant species. Canopy dense, light penetration is poor for herbaceous and shrubby species.		
.500(6)(c)Community structure 1. Vegetation and/or 2. Benthic Community	w/o pres or current: **6**	with: 0
Canopy is dense, some shrub cover, some desirable wetland species, some nuisance and exotic species. Adjacent uplands consist of dense pine and saw palmetto, reduction of regeneration/recruitment, age, size and distribution, some snags present, topo features show this as a low lying area within the project site, no evident land management practices.		

Score = sum of above scores/30 (if uplands, divide by 20)	current or w/o pres	with
	0.67	0

If preservation as mitigation,

Form 62-345.900(2), F.A.C. [effective date 02-04-2004]

PART I – Qualitative Description
(See Section 62-345.400, F.A.C.)

Site/Project Name	Application Number	Assessment Area Name or Number
RidgeHaven		Wetland Impact Area 3

FLUCCs code	Further classification (optional)	Impact or Mitigation Site?	Assessment Area Size
FLUCFCS 625		Impact	0.25 acres

Basin/Watershed Name/Number	Affected Waterbody (Class)	Special Classification (i.e.OFW, AP, other local/state/federal designation of importance)
Palatlakaha River Nested	Class III	

Geographic relationship to and hydrologic connection with wetlands, other surface water, uplands

The ±103.69-acre Ridgehaven Property is located immediately north of Addison Drive and east of Plantation Oaks Boulevard in Ormond Beach, Volusia County Florida. The subject property contains mostly pine flatwood uplands with three forested wetland habitats on site.

The onsite wetlands consist of shallow hydric pine flatwoods that were historically isolated, flowing together only over low upland flow ways during the wet season.

The Tomoka River is located to the east of the property.

Assessment area description

Wetland No. 3, located on the western boundary of the project site, is of moderate quality and typical of the wetlands found in inner Volusia County. It contained little to no standing water, with limited amounts of vegetation. Hydric soils were observed. This wetland is isolated. Wetland Impact Area 3 is located on the south side of Wetland No. 2. This impact is necessary for construction of a dry retention. This wetland contains native wetland vegetation as well as standing water.

Significant nearby features	Uniqueness (considering the relative rarity in relation to the regional landscape.)
The Tomoka River is located to the east of the property.	This impact area (wetland habitat) not unique or rare in relation to the regional landscape.

Functions	Mitigation for previous permit/other historic use
Provides wildlife habitat for local species, water quality from runoff	none

Anticipated Wildlife Utilization Based on Literature Review (List of species that are representative of the assessment area and reasonably expected to be found)	Anticipated Utilization by Listed Species (List species, their legal classification (E, T, SSC), type of use, and intensity of use of the assessment area)
reptiles, songbirds, and mammals	none found in Volusia County

Observed Evidence of Wildlife Utilization (List species directly observed, or other signs such as tracks, droppings, casings, nests, etc.):

none

St. Johns River
Water Management District
Michael A. Register, P.E., Executive Director

4049 Reid Street • P.O. Box 1429 • Palatka, FL 32178-1429 • 386-329-4500 • www.sjrwmd.com

February 09, 2023

John Collins
Snilloc Family Limited Partnership Number One
2249 Old Dixie Hwy
Ormond Beach, FL 32174-9250

SUBJECT: 185591-1
RidgeHaven

Dear Sir/Madam:

Enclosed is your individual permit issued by the St. Johns River Water Management District on February 09, 2023. This permit is a legal document and should be kept with your other important documents. Permit issuance does not relieve you from the responsibility of obtaining any necessary permits from any federal, state, or local agencies for your project.

Technical Staff Report:
If you wish to review a copy of the Technical Staff Report (TSR) that provides the District's staff analysis of your permit application, you may view the TSR by going to the Permitting section of the District's website at www.sjrwmd.com/permitting. Using the "search applications and permits" feature, you can use your permit number or project name to find information about the permit. When you see the results of your search, click on the permit number and then on the TSR folder.

Noticing Your Permit:
For noticing instructions, please refer to the noticing materials in this package regarding closing the point of entry for someone to challenge the issuance of your permit. Please note that if a timely petition for administrative hearing is filed, your permit will become non-final and any activities that you choose to undertake pursuant to your permit will be at your own risk. Please refer to the attached Notice of Rights to determine any legal rights you may have concerning the District's agency action.

Compliance with Permit Conditions:
To submit your required permit compliance information, go to the District's website at www.sjrwmd.com/permitting. Under the "Apply for a permit or submit compliance data" section, click to sign-in to your existing account or to create a new account. Select the "Compliance Submittal" tab, enter your permit number, and select "No Specific Date" for the Compliance Due Date Range. You will then be able to view all the compliance submittal requirements for your project. Select the compliance item that you are ready to submit and then attach the appropriate information or form. The forms to comply with your permit conditions are available at www.sjrwmd.com/permitting under the section "Handbooks, forms, fees, final orders". Click on forms to view all permit compliance forms, then scroll to the ERP application forms section and select the applicable compliance forms. Alternatively, if you have difficulty finding forms or need

GOVERNING BOARD

Rob Bradley, CHAIR FLEMING ISLAND
Maryam H. Ghyabi-White, VICE CHAIR ORMOND BEACH
J. Chris Peterson, SECRETARY WINTER PARK
Ron Howse, TREASURER COCOA
Ryan Atwood MOUNT DORA
Doug Bournique VERO BEACH
Douglas Burnett ST. AUGUSTINE
Cole Oliver MERRITT ISLAND
Janet Price FERNANDINA BEACH

copies of the appropriate forms, please contact the Bureau of Regulatory Support at (386) 329-4570.

Transferring Your Permit:
Your permit requires you to notify the District within 30 days of any change in ownership or control of the project or activity covered by the permit, or within 30 days of any change in ownership or control of the real property on which the permitted project or activity is located or occurs. You will need to provide the District with the information specified in rule 62-330.340, Florida Administrative Code (F.A.C.). Generally, this will require you to complete and submit Form 62-330.340(1), "Request to Transfer Permit," available at http://www.sjrwmd.com/permitting/permitforms.html.

Please note that a permittee is liable for compliance with the permit before the permit is transferred. The District, therefore, recommends that you request a permit transfer in advance in accordance with the applicable rules. You are encouraged to contact District staff for assistance with this process.

Thank you and please let us know if you have additional questions. For general questions contact e-permit@sjrwmd.com or (386) 329-4570.

Sincerely,

Michelle Reiber, Bureau Chief
Division of Regulatory Services

PERMIT NO: 185591-1 **DATE ISSUED:** February 09, 2023

PROJECT NAME: RidgeHaven

A PERMIT AUTHORIZING:
Construction and operation of a Stormwater Management System for a 103.45 acre project known as RidgeHaven as per plans received by the District on January 10, 2023 and as amended by Sheets 7, 11, and 33A received by the District on January 23, 2023.

LOCATION:
Section(s): 36 Township(s): 13S Range(s): 31E
Volusia County

Receiving Water Body:

Name	Class
Halifax River Tributary	III Fresh, OFW, IW

ISSUED TO:
Snilloc Family Limited Partnership Number One
2249 Old Dixie Hwy
Ormond Beach, FL 32174-9250

The permittee agrees to hold and save the St. Johns River Water Management District and its successors harmless from any and all damages, claims, or liabilities which may arise from permit issuance. Said application, including all plans and specifications attached thereto, is by reference made a part hereof.

This permit does not convey to the permittee any property rights nor any rights or privileges other than those specified herein, nor relieve the permittee from complying with any law, regulation or requirement affecting the rights of other bodies or agencies. All structures and works installed by permittee hereunder shall remain the property of the permittee.

This permit may be revoked, modified or transferred at any time pursuant to the appropriate provisions of Chapter 373, Florida Statutes.

PERMIT IS CONDITIONED UPON:

See conditions on attached “Exhibit A”, dated February 09, 2023

AUTHORIZED BY: St. Johns River Water Management District
Division of Regulatory Services

By: Marjorie D. Cook

Marjorie Cook
Supervising Professional Engineer

"EXHIBIT A"
CONDITIONS FOR ISSUANCE OF PERMIT NUMBER 185591-1
RidgeHaven
DATED February 09, 2023

1. All activities shall be implemented following the plans, specifications and performance criteria approved by this permit. Any deviations must be authorized in a permit modification in accordance with Rule 62-330.315, F.A.C. Any deviations that are not so authorized may subject the permittee to enforcement action and revocation of the permit under Chapter 373, F.S.

2. A complete copy of this permit shall be kept at the work site of the permitted activity during the construction phase, and shall be available for review at the work site upon request by the District staff. The permittee shall require the contractor to review the complete permit prior to beginning construction.

3. Activities shall be conducted in a manner that does not cause or contribute to violations of state water quality standards. Performance-based erosion and sediment control best management practices shall be installed immediately prior to, and be maintained during and after construction as needed, to prevent adverse impacts to the water resources and adjacent lands. Such practices shall be in accordance with the State of Florida Erosion and Sediment Control Designer and Reviewer Manual (Florida Department of Environmental Protection and Florida Department of Transportation June 2007), and the Florida Stormwater Erosion and Sedimentation Control Inspector's Manual (Florida Department of Environmental Protection, Nonpoint Source Management Section, Tallahassee, Florida, July 2008), which are both incorporated by reference in subparagraph 62-330.050(9)(b)5, F.A.C., unless a project-specific erosion and sediment control plan is approved or other water quality control measures are required as part of the permit.

4. At least 48 hours prior to beginning the authorized activities, the permittee shall submit to the District a fully executed Form 62-330.350(1), "Construction Commencement Notice," (October 1, 2013) (http://www.flrules.org/Gateway/reference.asp?No=Ref-02505), incorporated by reference herein, indicating the expected start and completion dates. A copy of this form may be obtained from the District, as described in subsection 62-330.010(5), F.A.C., and shall be submitted electronically or by mail to the Agency. However, for activities involving more than one acre of construction that also require a NPDES stormwater construction general permit, submittal of the Notice of Intent to Use Generic Permit for Stormwater Discharge from Large and Small Construction Activities, DEP Form 62-621.300(4)(b), shall also serve as notice of commencement of construction under this chapter and, in such a case, submittal of Form 62-330.350(1) is not required.

5. Unless the permit is transferred under Rule 62-330.340, F.A.C., or transferred to an operating entity under Rule 62-330.310, F.A.C., the permittee is liable to comply with the plans, terms and conditions of the permit for the life of the project or activity.

6. Within 30 days after completing construction of the entire project, or any independent portion of the project, the permittee shall provide the following to the Agency, as applicable:

    a. For an individual, private single-family residential dwelling unit, duplex, triplex, or quadruplex — "Construction Completion and Inspection Certification for Activities Associated with a Private Single-Family Dwelling Unit" [Form 62-330.310(3)]; or

    b. For all other activities — "As-Built Certification and Request for Conversion to Operation Phase" [Form 62-330.310(1)].

c. If available, an Agency website that fulfills this certification requirement may be used in lieu of the form.

7. If the final operation and maintenance entity is a third party:

   a. Prior to sales of any lot or unit served by the activity and within one year of permit issuance, or within 30 days of as-built certification, whichever comes first, the permittee shall submit, as applicable, a copy of the operation and maintenance documents (see sections 12.3 thru 12.3.4 of Volume I) as filed with the Florida Department of State, Division of Corporations and a copy of any easement, plat, or deed restriction needed to operate or maintain the project, as recorded with the Clerk of the Court in the County in which the activity is located.

   b. Within 30 days of submittal of the as- built certification, the permittee shall submit "Request for Transfer of Environmental Resource Permit to the Perpetual Operation and Maintenance Entity" [Form 62-330.310(2)] to transfer the permit to the operation and maintenance entity, along with the documentation requested in the form. If available, an Agency website that fulfills this transfer requirement may be used in lieu of the form.

8. The permittee shall notify the District in writing of changes required by any other regulatory District that require changes to the permitted activity, and any required modification of this permit must be obtained prior to implementing the changes.

9. This permit does not:

   a. Convey to the permittee any property rights or privileges, or any other rights or privileges other than those specified herein or in Chapter 62-330, F.A.C.;

   b. Convey to the permittee or create in the permittee any interest in real property;

   c. Relieve the permittee from the need to obtain and comply with any other required federal, state, and local authorization, law, rule, or ordinance; or

   d. Authorize any entrance upon or work on property that is not owned, held in easement, or controlled by the permittee.

10. Prior to conducting any activities on state-owned submerged lands or other lands of the state, title to which is vested in the Board of Trustees of the Internal Improvement Trust Fund, the permittee must receive all necessary approvals and authorizations under Chapters 253 and 258, F.S. Written authorization that requires formal execution by the Board of Trustees of the Internal Improvement Trust Fund shall not be considered received until it has been fully executed.

11. The permittee shall hold and save the District harmless from any and all damages, claims, or liabilities that may arise by reason of the construction, alteration, operation, maintenance, removal, abandonment or use of any project authorized by the permit.

12. The permittee shall notify the District in writing:

    a. Immediately if any previously submitted information is discovered to be inaccurate; and

    b. Within 30 days of any conveyance or division of ownership or control of the property or the system, other than conveyance via a long-term lease, and the new owner shall

request transfer of the permit in accordance with Rule 62-330.340, F.A.C. This does not apply to the sale of lots or units in residential or commercial subdivisions or condominiums where the stormwater management system has been completed and converted to the operation phase.

13. Upon reasonable notice to the permittee, District staff with proper identification shall have permission to enter, inspect, sample and test the project or activities to ensure conformity with the plans and specifications authorized in the permit.

14. If prehistoric or historic artifacts, such as pottery or ceramics, projectile points, stone tools, dugout canoes, metal implements, historic building materials, or any other physical remains that could be associated with Native American, early European, or American settlement are encountered at any time within the project site area, the permitted project shall cease all activities involving subsurface disturbance in the vicinity of the discovery. The permittee or other designee shall contact the Florida Department of State, Division of Historical Resources, Compliance Review Section (DHR), at (850) 245-6333, as well as the appropriate permitting agency office. Project activities shall not resume without verbal or written authorization from the Division of Historical Resources. If unmarked human remains are encountered, all work shall stop immediately and the proper authorities notified in accordance with Section 872.05, F.S. For project activities subject to prior consultation with the DHR and as an alternative to the above requirements, the permittee may follow procedures for unanticipated discoveries as set forth within a cultural resources assessment survey determined complete and sufficient by DHR and included as a specific permit condition herein.

15. Any delineation of the extent of a wetland or other surface water submitted as part of the permit application, including plans or other supporting documentation, shall not be considered binding unless a specific condition of this permit or a formal determination under Rule 62-330.201, F.A.C., provides otherwise.

16. The permittee shall provide routine maintenance of all components of the stormwater management system to remove trapped sediments and debris. Removed materials shall be disposed of in a landfill or other uplands in a manner that does not require a permit under Chapter 62-330, F.A.C., or cause violations of state water quality standards.

17. This permit is issued based on the applicant's submitted information that reasonably demonstrates that adverse water resource-related impacts will not be caused by the completed permit activity. If any adverse impacts result, the District will require the permittee to eliminate the cause, obtain any necessary permit modification, and take any necessary corrective actions to resolve the adverse impacts.

18. A Recorded Notice of Environmental Resource Permit may be recorded in the county public records in accordance with Rule 62-330.090(7), F.A.C. Such notice is not an encumbrance upon the property.

19. This permit for construction will expire five years from the date of issuance.

20. All wetland areas or water bodies that are outside the specific limits of construction authorized by this permit must be protected from erosion, siltation, scouring or excess turbidity, and dewatering.

21. The operation and maintenance entity shall inspect the stormwater or surface water management system once within two years after the completion of construction and every two years thereafter to determine if the system is functioning as designed and permitted. The operation and maintenance entity must maintain a record of each required inspection, including the date of the inspection, the name and contact information of the inspector, and

whether the system was functioning as designed and permitted, and make such record available for inspection upon request by the District during normal business hours. If at any time the system is not functioning as designed and permitted, then within 30 days the entity shall submit a report electronically or in writing to the District using Form 62-330.311(1), “Operation and Maintenance Inspection Certification,” describing the remedial actions taken to resolve the failure or deviation.

22. This permit does not authorize the permittee to cause any adverse impact to or “take” of state listed species and other regulated species of fish and wildlife. Compliance with state laws regulating the take of fish and wildlife is the responsibility of the owner or applicant associated with this project. Please refer to Chapter 68A-27 of the Florida Administrative Code for definitions of “take” and a list of fish and wildlife species. If listed species are observed onsite, FWC staff are available to provide decision support information or assist in obtaining the appropriate FWC permits. Most marine endangered and threatened species are statutorily protected and a “take” permit cannot be issued. Requests for further information or review can be sent to FWCConservationPlanningServices@MyFWC.com.

23. Before the start of any construction, the permittee must provide the District with documentation demonstrating that 1.24 forested freshwater UMAM mitigation credits have been debited from the Tiger Bay Mitigation Bank ledger.

24. In the event that the permittee does not successfully complete the transaction to obtain 1.24 forested freshwater UMAM mitigation credits from Tiger Bay Mitigation Bank, the permittee must obtain a permit modification to provide alternative mitigation.

25. Prior to the construction of the activities authorized in this permit, per the approved plans, the permittee must install permanent conservation area signs along the landward side of the upland buffer abutting the offsite wetlands as indicated on the Horizontal Control Plans received by the District on January 10, 2023 and as amended by Sheets 7, 11, and 33A received by the District on January 23, 2023, and as detailed on Sheet C33 received by the District on January 10, 2023 .
    X

26. The proposed project must be constructed and operated as per plans received by the District on January 10, 2023 and as amended by Sheets 7, 11, and 33A received by the District on January 23, 2023.

Notice Of Rights

1. A person whose substantial interests are or may be affected has the right to request an administrative hearing by filing a written petition with the St. Johns River Water Management District (District). Pursuant to Chapter 28-106 and Rule 40C-1.1007, Florida Administrative Code, the petition must be filed (received) either by delivery at the office of the District Clerk at District Headquarters, P. O. Box 1429, Palatka Florida 32178-1429 (4049 Reid St., Palatka, FL 32177) or by e-mail with the District Clerk at Clerk@sjrwmd.com, within twenty-six (26) days of the District depositing the notice of District decision in the mail (for those persons to whom the District mails actual notice), within twenty-one (21) days of the District emailing the notice of District decision (for those persons to whom the District emails actual notice), or within twenty-one (21) days of newspaper publication of the notice of District decision (for those persons to whom the District does not mail or email actual notice). A petition must comply with Sections 120.54(5)(b)4. and 120.569(2)(c), Florida Statutes, and Chapter 28-106, Florida Administrative Code. The District will not accept a petition sent by facsimile (fax), as explained in paragraph no. 4 below.

2. Please be advised that if you wish to dispute this District decision, mediation may be available and that choosing mediation does not affect your right to an administrative hearing. If you wish to request mediation, you must do so in a timely-filed petition. If all parties, including the District, agree to the details of the mediation procedure, in writing, within 10 days after the time period stated in the announcement for election of an administrative remedy under Sections 120.569 and 120.57, Florida Statutes, the time limitations imposed by Sections 120.569 and 120.57, Florida Statutes, shall be tolled to allow mediation of the disputed District decision. The mediation must be concluded within 60 days of the date of the parties' written agreement, or such other timeframe agreed to by the parties in writing. Any mediation agreement must include provisions for selecting a mediator, a statement that each party shall be responsible for paying its pro-rata share of the costs and fees associated with mediation, and the mediating parties' understanding regarding the confidentiality of discussions and documents introduced during mediation. If mediation results in settlement of the administrative dispute, the District will enter a final order consistent with the settlement agreement. If mediation terminates without settlement of the dispute, the District will notify all the parties in writing that the administrative hearing process under Sections 120.569 and 120.57, Florida Statutes, is resumed. Even if a party chooses not to engage in formal mediation, or if formal mediation does not result in a settlement agreement, the District will remain willing to engage in informal settlement discussions.

3. A person whose substantial interests are or may be affected has the right to an informal administrative hearing pursuant to Sections 120.569 and 120.57(2), Florida Statutes, where no material facts are in dispute. A petition for an informal hearing must also comply with the requirements set forth in Rule 28-106.301, Florida Administrative Code.

4. A petition for an administrative hearing is deemed filed upon receipt of the complete petition by the District Clerk at the District Headquarters in Palatka, Florida during the District's regular business hours. The District's regular business hours are 8:00 a.m. – 5:00 p.m., excluding weekends and District holidays. Petitions received by the District Clerk after the District's regular business hours shall be deemed filed as of 8:00 a.m. on the District's next regular business day. The District's acceptance of petitions filed by e-mail is subject to certain conditions set forth in the District's Statement of Agency Organization and Operation (issued pursuant to Rule 28-101.001, Florida Administrative Code), which is available for viewing at *sjrwmd.com*. These conditions include, but are not limited to, the petition being in the form of a PDF or TIFF file and being capable of being stored and printed by the District. Further, pursuant to the District's Statement of Agency Organization and Operation, attempting to file a petition by facsimile is prohibited and shall not constitute filing.

5. Failure to file a petition for an administrative hearing within the requisite timeframe shall constitute a waiver of the right to an administrative hearing. (Rule 28-106.111, Florida Administrative Code).

6. The right to an administrative hearing and the relevant procedures to be followed are governed by Chapter 120, Florida Statutes, Chapter 28-106, Florida Administrative Code, and Rule 40C-1.1007, Florida Administrative Code. Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means the District's final action may be different from the position taken by it in this notice. A person whose substantial interests are or may be affected by the District's final action has the right to become a party to the proceeding, in accordance with the requirements set forth above.

7. Pursuant to Section 120.68, Florida Statutes, a party to the proceeding before the District who is adversely affected by final District action may seek review of the action in the District Court of Appeal by filing a notice of appeal pursuant to Rules 9.110 and 9.190, Florida Rules of Appellate Procedure, within 30 days of the rendering of the final District action.

8. A District action is considered rendered, as referred to in paragraph no. 7 above, after it is signed on behalf of the District and filed by the District Clerk.

9. Failure to observe the relevant timeframes for filing a petition for judicial review as described in paragraph no. 7 above will result in waiver of that right to review.

NOR.Decision.DOC.001
Revised 12.7.11

NOTICING INFORMATION

Please be advised that the St. Johns River Water Management District will not publish a notice in the newspaper advising the public that it has issued a permit for this project.

Newspaper publication, using the District's notice form, notifies members of the public of their right to challenge the issuance of the permit. If proper notice is given by newspaper publication, then there is a 21-day time limit for someone to file a petition for an administrative hearing to challenge the issuance of the permit.

To close the point of entry for filing a petition, you may publish (at your own expense) a one-time notice of the District's decision in a newspaper of general circulation within the affected area as defined in Section 50.011 of the Florida Statutes. If you do not publish a newspaper notice to close the point of entry, the time to challenge the issuance of your permit will not expire and someone could file a petition even after your project is constructed.

A copy of the notice form and a partial list of newspapers of general circulation are attached for your convenience. However, you are not limited to those listed newspapers. If you choose to close the point of entry and the notice is published, the newspaper will return to you an affidavit of publication. In that event, it is important that you either submit a scanned copy of the affidavit by emailing it to *compliancesupport@sjrwmd.com* (preferred method) **or** send a copy of the original affidavit to:

Office of Records and Regulatory Support
4049 Reid Street
Palatka, FL 32177

If you have any questions, please contact the Office of Records and Regulatory Support at (386) 329-4570.

NOTICE OF AGENCY ACTION TAKEN BY THE
ST. JOHNS RIVER WATER MANAGEMENT DISTRICT

Notice is given that the following permit was issued on _____:

(Name and address of applicant)_____
permit#_____. The project is located in _____County, Section _____, Township _____ South, Range _____ East. The permit authorizes a surface water management system on _____ acres for _____ known as _____. The receiving water body is _____.

A person whose substantial interests are or may be affected has the right to request an administrative hearing by filing a written petition with the St. Johns River Water Management District (District). Pursuant to Chapter 28-106 and Rule 40C-1.1007, Florida Administrative Code (F.A.C.), the petition must be filed (received) either by delivery at the office of the District Clerk at District Headquarters, P.O. Box 1429, Palatka FL 32178-1429 (4049 Reid St, Palatka, FL 32177) or by e-mail with the District Clerk at Clerk@sjrwmd.com, within twenty-one (21) days of newspaper publication of the notice of District decision (for those persons to whom the District does not mail or email actual notice). A petition must comply with Sections 120.54(5)(b)4. and 120.569(2)(c), Florida Statutes (F.S.), and Chapter 28-106, F.A.C. The District will not accept a petition sent by facsimile (fax). Mediation pursuant to Section 120.573, F.S., may be available and choosing mediation does not affect your right to an administrative hearing.

A petition for an administrative hearing is deemed filed upon receipt of the complete petition by the District Clerk at the District Headquarters in Palatka, Florida during the District's regular business hours. The District's regular business hours are 8 a.m. – 5 p.m., excluding weekends and District holidays. Petitions received by the District Clerk after the District's regular business hours shall be deemed filed as of 8 a.m. on the District's next regular business day. The District's acceptance of petitions filed by e-mail is subject to certain conditions set forth in the District's Statement of Agency Organization and Operation (issued pursuant to Rule 28-101.001, Florida Administrative Code), which is available for viewing at www.sjrwmd.com. These conditions include, but are not limited to, the petition being in the form of a PDF or TIFF file and being capable of being stored and printed by the District. Further, pursuant to the District's Statement of Agency Organization and Operation, attempting to file a petition by facsimile (fax) is prohibited and shall not constitute filing.

The right to an administrative hearing and the relevant procedures to be followed are governed by Chapter 120, Florida Statutes, Chapter 28-106, Florida Administrative Code, and Rule 40C-1.1007, Florida Administrative Code. Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means the District's final action may be different from the position taken by it in this notice. **Failure to file a petition for an administrative hearing within the requisite time frame shall constitute a waiver of the right to an administrative hearing. (Rule 28-106.111, F.A.C.).**

If you wish to do so, please visit http://www.sjrwmd.com/nor_dec/ to read the complete Notice of Rights to determine any legal rights you may have concerning the District's decision(s) on the permit application(s) described above. You can also request the Notice of Rights by contacting the Director of Office of Records and Regulatory Support, 4049 Reid St., Palatka, FL 32177-2529, tele. no. (386)329-4570.

Acres Owned: 103.45
Project Acreage: 103.45
County: Volusia
STR:

Section(s):	Township(s):	Range(s):
36	13S	31E

Receiving Water Body:

Name	Class
Halifax River Tributary	III Fresh, OFW, IW

Authority:	62-330.020 (2)(c) , 62-330.020 (2)(a), 62-330.020 (2)(b), 62-330.020 (2)(d)
Existing Land Use:	Hydric Pine Flatwood(6250), Pine Flatwoods(4110), Roads and Highways(8140)
Mitigation Drainage Basin:	Halifax River
Special Regulatory Basin:	Tomoka River Basin
Final O&M Entity:	RidgeHaven Homeowners Association, Inc.
ERP Conservation Easements/Restrictions:	No
Interested Parties:	No
Objectors:	No

Authorization Statement:

Construction and operation of a Stormwater Management System for a 103.45 acre project known as RidgeHaven as per plans received by the District on January 10, 2023 and as amended by Sheets 7, 11, and 33A received by the District on January 23, 2023.

Recommendation: Approval
Reviewers: Richard Lee; Justin Dahl

Staff Comments

Project Applicant and Sufficient Real Property Interest:
The permit applicant is the record title holder over the property on which the proposed activities will be conducted.

Project Location and Brief Description:
The project is centered roughly 2500 feet east of the US Highway 1 - Interstate Highway 95 interchange, north Ormond Beach, Volusia County. The project includes the construction of a subdivision consisting of single-family and duplex lots with associated stormwater management system.

Permitting History:
Conceptual Permit No. 4-127-92550-1 was approved on October 9, 2007 and expired on October 9, 2013. No work was initiated.

Coastal Zone Management
Issuance of this authorization also constitutes a finding of consistency with Florida's Coastal Zone Management Program, as required by Section 307 of the Coastal Zone Management Act.

Engineering

Description of Project (Surface Water Management System):
The existing site is primarily undeveloped with drainage towards an existing canal along the east property line that is perpendicular to Addison Drive, and discharges to the north. The proposed development consists of 202 single family homes and 96 duplex lots with roadway, drainage infrastructure, and four interconnected stormwater harvesting pond systems. The discharge from the site is the same as predevelopment.

Water Quality:
Submitted plans and calculations show that the stormwater system is designed to provide water quality treatment in accordance with Sections 4.1, 8.0, and 21.0 A.H. Vol II for discharge to Class III, Outstanding Florida Water, and impaired waters.

Water Quality Certification
This permit also constitutes a water quality certification under Section 401 of the Clean Water Act, 33 U.S.C. 1341

Flood Protection:
Calculations were provided demonstrating that the post-development peak rate of discharge will not exceed the pre-development peak rate of discharge generated by the 25 Year 24 Hour storm event.

Special Basin Criteria:
The project is located within the Tomoka River Hydrologic Basin. As part of the standards and design criteria described in 62-330.301 and 62-330.302, F.A.C., systems within the Tomoka River Hydrologic Basin must meet the following standard and criteria:

Recharge Standard - The project is not located in within the Most Effective Recharge Area that contains Type A soils.

Flood Plain Criteria - The system is not located within the 100 year floodplain of the Tomoka River or any of its tributaries.

Stormwater Management Standard - The stormwater system is greater than 10 acres but is not designed with detention with filtration. Additionally, a wet detention / stormwater harvesting system is proposed, which is demonstrated to be equivalent to retention, or wet detention in accordance with Part V Applicant Handbook Volume II.

Operation and Maintenance:
The applicant has proposed that the project will be operated and maintained by RidgeHaven Homeowners Association, Inc and has provided draft articles of incorporation and a draft declaration of covenants and restrictions that meet the requirements of Section 12.3.1, A.H. Vol I.

Environmental

Site Description:
The site contains mostly pine flatwood uplands with three hydric pine flatwoods wetlands on-site. The wetlands are isolated shallow swamps, flowing only over low upland flow ways during the wet season. Canals adjacent the east and north property limits may divert groundwater influxes that historically contributed to wetland hydroperiods. Nonetheless, the on-site wetlands provide good quality habitat for diverse wildlife that require ephemeral, fishless pools.

Impacts:
The project proposes a total of 1.745 acres of direct impact to wetlands. These impacts are considered adverse and require mitigation as described below. Wetlands 1 (0.518 acres impacted) and 2 (0.250 acres impacted) are being partially impacted, where as the entirety of Wetland 3 (0.977 acres) is being impacted.

Secondary impacts:

The project meets the secondary impact criteria of subsection 10.2.7, A.H., Volume I, as:

a. the proposed activities were assessed for the potential to result in unacceptable secondary impacts, as defined in section 10.2.7(a), ERP A.H. Volume I. The applicant has designated a 25-foot average, 15-foot minimum undisturbed upland buffer directly abutting portions of the onsite wetlands and has proposed conservation area signage along the landward side of the upland buffer. In those areas without an upland buffer, the secondary impact areas total 2.242 acres and will be offset through mitigation provided by the purchase of mitigation bank credits as stated below;
b. no evidence was observed that the upland portions of the site are being utilized by bald eagles, and aquatic and wetland dependent listed species for nesting and denning;
c. no adverse impacts to cultural resources are anticipated; and
d. there are no known future phases or expansion, or very closely linked and causally related on-site or off-site activities that would result in adverse impacts

Elimination/Reduction of Impacts:
The impacts proposed here were minimized to the greatest extent practicable to achieve lot density and road access to the development. In any case, the applicant will obtain credits from a regionally significant in-basin mitigation bank that will suffice to meet the 10.2.1.2.b. *ERP A.H. Vol. I* criterion, i.e., the proposed mitigation implements all or part of a plan that provides regional ecological value and provides greater long-term ecological value than the impacted wetlands/surface waters.

Mitigation:
The applicant proposes to mitigate for the direct and secondary impacts to the wetlands through the total purchase of 1.24 forested freshwater UMAM credits from Tiger Bay Mitigation Bank.

Financial Assurance Mechanism:
None

Off-Site Mitigation:
None

Cumulative Impacts:
The proposed mitigation fully offsets the proposed impacts and is located within the same drainage basin as the impacted wetlands, so no unacceptable cumulative impacts will occur, pursuant to Section 10.2.8, ERP A.H. Vol. I.

Conclusion:
The applicant has provided reasonable assurance that the proposed project meets the conditions for issuance of permits specified in rules 62-330.301 and 62-330.302, F.A.C.

Conditions

1. All activities shall be implemented following the plans, specifications and performance criteria approved by this permit. Any deviations must be authorized in a permit modification in accordance with Rule 62-330.315, F.A.C. Any deviations that are not so authorized may subject the permittee to enforcement action and revocation of the permit under Chapter 373, F.S.

2. A complete copy of this permit shall be kept at the work site of the permitted activity during the construction phase, and shall be available for review at the work site upon request by the District staff. The permittee shall require the contractor to review the complete permit prior to beginning construction.

3. Activities shall be conducted in a manner that does not cause or contribute to violations of state water quality standards. Performance-based erosion and sediment control best management practices shall be installed immediately prior to, and be maintained during and after construction as needed, to prevent adverse impacts to the water resources and adjacent lands. Such practices shall be in accordance with the State of Florida Erosion and Sediment Control Designer and Reviewer Manual (Florida Department of Environmental Protection and Florida Department of Transportation June 2007), and the Florida Stormwater Erosion and Sedimentation Control Inspector's Manual (Florida Department of Environmental Protection, Nonpoint Source Management Section, Tallahassee, Florida, July 2008), which are both incorporated by reference in subparagraph 62-330.050(9)(b)5, F.A.C., unless a project-specific erosion and sediment control plan is approved or other water quality control measures are required as part of the permit.

4. At least 48 hours prior to beginning the authorized activities, the permittee shall submit to the District a fully executed Form 62-330.350(1), "Construction Commencement Notice," (October 1, 2013) (http://www.flrules.org/Gateway/reference.asp?No=Ref-02505), incorporated by reference herein, indicating the expected start and completion dates. A copy of this form may be obtained from the District, as described in subsection 62-330.010(5), F.A.C., and shall be submitted electronically or by mail to the Agency. However, for activities involving more than one acre of construction that also require a NPDES stormwater construction general permit, submittal of the Notice of Intent to Use Generic Permit for Stormwater Discharge from Large and Small Construction Activities, DEP Form 62-621.300(4)(b), shall also serve as notice of commencement of construction under this chapter and, in such a case, submittal of Form 62-330.350(1) is not required.

5. Unless the permit is transferred under Rule 62-330.340, F.A.C., or transferred to an operating entity under Rule 62-330.310, F.A.C., the permittee is liable to comply with the plans, terms and conditions of the permit for the life of the project or activity.

6. Within 30 days after completing construction of the entire project, or any independent portion of the project, the permittee shall provide the following to the Agency, as applicable:

    a. For an individual, private single-family residential dwelling unit, duplex, triplex, or quadruplex — "Construction Completion and Inspection Certification for Activities Associated with a Private Single-Family Dwelling Unit" [Form 62-330.310(3)]; or

    b. For all other activities — "As-Built Certification and Request for Conversion to Operation Phase" [Form 62-330.310(1)].

c. If available, an Agency website that fulfills this certification requirement may be used in lieu of the form.

7. If the final operation and maintenance entity is a third party:

   a. Prior to sales of any lot or unit served by the activity and within one year of permit issuance, or within 30 days of as-built certification, whichever comes first, the permittee shall submit, as applicable, a copy of the operation and maintenance documents (see sections 12.3 thru 12.3.4 of Volume I) as filed with the Florida Department of State, Division of Corporations and a copy of any easement, plat, or deed restriction needed to operate or maintain the project, as recorded with the Clerk of the Court in the County in which the activity is located.

   b. Within 30 days of submittal of the as- built certification, the permittee shall submit “Request for Transfer of Environmental Resource Permit to the Perpetual Operation and Maintenance Entity” [Form 62-330.310(2)] to transfer the permit to the operation and maintenance entity, along with the documentation requested in the form. If available, an Agency website that fulfills this transfer requirement may be used in lieu of the form.

8. The permittee shall notify the District in writing of changes required by any other regulatory District that require changes to the permitted activity, and any required modification of this permit must be obtained prior to implementing the changes.

9. This permit does not:

   a. Convey to the permittee any property rights or privileges, or any other rights or privileges other than those specified herein or in Chapter 62-330, F.A.C.;

   b. Convey to the permittee or create in the permittee any interest in real property;

   c. Relieve the permittee from the need to obtain and comply with any other required federal, state, and local authorization, law, rule, or ordinance; or

   d. Authorize any entrance upon or work on property that is not owned, held in easement, or controlled by the permittee.

10. Prior to conducting any activities on state-owned submerged lands or other lands of the state, title to which is vested in the Board of Trustees of the Internal Improvement Trust Fund, the permittee must receive all necessary approvals and authorizations under Chapters 253 and 258, F.S. Written authorization that requires formal execution by the Board of Trustees of the Internal Improvement Trust Fund shall not be considered received until it has been fully executed.

11. The permittee shall hold and save the District harmless from any and all damages, claims, or liabilities that may arise by reason of the construction, alteration, operation, maintenance, removal, abandonment or use of any project authorized by the permit.

12. The permittee shall notify the District in writing:

    a. Immediately if any previously submitted information is discovered to be inaccurate; and

    b. Within 30 days of any conveyance or division of ownership or control of the property or the system, other than conveyance via a long-term lease, and the new owner shall request transfer of the permit in accordance with Rule 62-330.340, F.A.C. This does not apply to the sale of lots or units in residential or commercial subdivisions or condominiums where the stormwater management system has been completed and converted to the operation phase.

13. Upon reasonable notice to the permittee, District staff with proper identification shall have permission to enter, inspect, sample and test the project or activities to ensure conformity with the plans and specifications authorized in the permit.

14. If prehistoric or historic artifacts, such as pottery or ceramics, projectile points, stone tools, dugout canoes, metal implements, historic building materials, or any other physical remains that could be associated with Native American, early European, or American settlement are encountered at any time within the project site area, the permitted project shall cease all activities involving subsurface disturbance in the vicinity of the discovery. The permittee or other designee shall contact the Florida Department of State, Division of Historical Resources, Compliance Review Section (DHR), at (850) 245-6333, as well as the appropriate permitting agency office. Project activities shall not resume without verbal or written authorization from the Division of Historical Resources. If unmarked human remains are encountered, all work shall stop immediately and the proper authorities notified in accordance with Section 872.05, F.S. For project activities subject to prior consultation with the DHR and as an alternative to the above requirements, the permittee may follow procedures for unanticipated discoveries as set forth within a cultural resources assessment survey determined complete and sufficient by DHR and included as a specific permit condition herein.

15. Any delineation of the extent of a wetland or other surface water submitted as part of the permit application, including plans or other supporting documentation, shall not be considered binding unless a specific condition of this permit or a formal determination under Rule 62-330.201, F.A.C., provides otherwise.

16. The permittee shall provide routine maintenance of all components of the stormwater management system to remove trapped sediments and debris. Removed materials shall be disposed of in a landfill or other uplands in a manner that does not require a permit under Chapter 62-330, F.A.C., or cause violations of state water quality standards.

17. This permit is issued based on the applicant's submitted information that reasonably demonstrates that adverse water resource-related impacts will not be caused by the completed permit activity. If any adverse impacts result, the District will require the permittee to eliminate the cause, obtain any necessary permit modification, and take any necessary corrective actions to resolve the adverse impacts.

18. A Recorded Notice of Environmental Resource Permit may be recorded in the county public records in accordance with Rule 62-330.090(7), F.A.C. Such notice is not an encumbrance upon the property.

19. This permit for construction will expire five years from the date of issuance.

20. All wetland areas or water bodies that are outside the specific limits of construction authorized by this permit must be protected from erosion, siltation, scouring or excess turbidity, and dewatering.

21. The operation and maintenance entity shall inspect the stormwater or surface water management system once within two years after the completion of construction and every two years thereafter to determine if the system is functioning as designed and permitted. The operation and maintenance entity must maintain a record of each required inspection, including the date of the inspection, the name and contact information of the inspector, and whether the system was functioning as designed and permitted, and make such record available for inspection upon request by the District during normal business hours. If at any time the system is not functioning as designed and permitted, then within 30 days the entity shall submit a report electronically or in writing to the District using Form 62-330.311(1), "Operation and Maintenance Inspection Certification," describing the remedial actions taken to resolve the failure or deviation.

22. This permit does not authorize the permittee to cause any adverse impact to or "take" of state listed species and other regulated species of fish and wildlife. Compliance with state laws regulating the take of fish and wildlife is the responsibility of the owner or applicant associated with this project. Please refer to Chapter 68A-27 of the Florida Administrative Code for definitions of "take" and a list of fish and wildlife species. If listed species are observed onsite, FWC staff are available to provide decision support information or assist in obtaining the appropriate FWC permits. Most marine endangered and threatened species are statutorily protected and a "take" permit cannot be issued. Requests for further

information or review can be sent to FWCConservationPlanningServices@MyFWC.com.

23. Before the start of any construction, the permittee must provide the District with documentation demonstrating that 1.24 forested freshwater UMAM mitigation credits have been debited from the Tiger Bay Mitigation Bank ledger.

24. In the event that the permittee does not successfully complete the transaction to obtain 1.24 forested freshwater UMAM mitigation credits from Tiger Bay Mitigation Bank, the permittee must obtain a permit modification to provide alternative mitigation.

25. Prior to the construction of the activities authorized in this permit, per the approved plans, the permittee must install permanent conservation area signs along the landward side of the upland buffer abutting the offsite wetlands as indicated on the Horizontal Control Plans received by the District on January 10, 2023 and as amended by Sheets 7, 11, and 33A received by the District on January 23, 2023, and as detailed on Sheet C33 received by the District on January 10, 2023 .
X

26. The proposed project must be constructed and operated as per plans received by the District on January 10, 2023 and as amended by Sheets 7, 11, and 33A received by the District on January 23, 2023.

INTRODUCTION

LTG, Inc. (LTG) has been retained by Ridgehaven, LLC. to prepare a Traffic Impact Analysis (TIA) for the proposed Ridgehaven Residential development. The development is located north of Addison Drive and east of Plantation Oaks Boulevard in the City of Ormond Beach, Florida. Figure 1 shows the location of the project relative to the surrounding road network. The development will consist of 202 single-family detached housing dwelling units and 96 single-family attached housing dwelling units. A preliminary site plan is attached as **Appendix A.**

Access to the site is proposed via two (2) full access driveways along Plantation Oaks Boulevard. Build-out of the proposed development is anticipated by 2027.

Study Area

The following roadway segments and intersections are included in the analysis per the approved methodology (**Appendix B**):

Intersections:

1. US 1 at Plantation Oaks Boulevard
2. Old Dixie Highway at Plantation Oaks Boulevard
3. Plantation Oaks Boulevard at Project Driveway #1
4. Plantation Oaks Boulevard at Project Driveway #2

Roadway Segments:

- Plantation Oaks Boulevard from US 1 to Old Dixie Highway
- Old Dixie Highway from Pine Tree Drive to Walter Boardman Lane

Study Procedures

Standard engineering and planning procedures were used to determine the impacts of the proposed project. Reference data was obtained from the Florida Department of Transportation (FDOT), the Volusia County Traffic Engineering Department, the City of Ormond Beach Planning Department, the Institute of Transportation Engineers (ITE), and the River to Sea Transportation Planning Organization (R2CTPO).

Planned Roadway Improvements

Information on programmed or planned roadway improvements in the area of interest were obtained from the FDOT Five-Year Work Program, Volusia County, the R2CTPO Long Range Transportation Plan, and previously approved projects. At this time there are no capacity enhancing improvements within the study area.

Ridgehaven Residential	N NTS	**Project Location Map** Project No.: 5740.02 | Figure 1	LTG Engineering & Planning 1450 W. Granada Blvd, Suite 2 – Ormond Beach, Florida 32174 Telephone: 386.257.2571 Fax: 386.257.6996 EB# 0009227

2

EXISTING ROADWAY ANALYSIS

Turning movement counts (TMCs) were conducted during the AM and PM peak-hours on September 15th of 2022 at the study area intersections (see **Appendix C**). FDOT's 2021 Seasonal Factors (SF) for the corresponding dates (1.03) were applied to the existing counts. The spreadsheet used to develop the existing, background and build-out traffic volumes is also located in **Appendix C**. The factored existing AM and PM peak-hour traffic volumes used in the analysis are depicted in **Figure 2**.

Unsignalized Intersection Analysis

The existing operating conditions at the unsignalized intersection was analyzed using *Highway Capacity Software 2010, Version 2027* (HCS). This software utilizes the procedures outlined in Chapter 20 of the Highway Capacity Manual (6th Edition) titled, "Two-Way Stop-Controlled Intersections". **Table 1** shows the existing AM and PM peak-hour level of service (LOS) at the study area intersections. The HCS summary sheets are attached as **Appendix D**.

Table 1
Existing AM and PM Peak-Hour LOS - Unsignalized Intersection
Ridgehaven Residential

Intersection	Adopted LOS	AM Peak-Hour			PM Peak-Hour		
		Critical Approach	Delay	LOS	Critical Approach	Delay	LOS
Old Dixie Highway at Plantation Oaks Boulevard	E	NB	9.5	A	NB	9.5	A

As indicated, the unsignalized intersection is currently operating outside the adopted level of service during the a.m. and p.m. peak-hours.
