Staff Contact: *Shawn Finley, Public Works Director, (386) 676-3292*

12. REPORTS, SUGGESTIONS, REQUESTS

13. ADJOURNMENT

M I N U T E S

Item #1 – Meeting Call to Order

Mayor Partington called the meeting to order at 7:00 p.m.

Item #2 – Invocation

Evangelist John Jayaseelan, Bethel Ministries, provided the invocation.

Item #3 – Pledge of Allegiance

Mayor Partington led the Pledge of Allegiance.

Item #4 – Presentation and Proclamations

Item 4A – Kiwanis READS!

Mayor Partington presented a proclamation to recognize the Kiwanis Ormond Beach READS! Kick-Off Day and summer reading challenge. He urged residents to engage in activities to promote literacy for elementary aged school children.

Mr. Alan Burton, Ormond Beach Kiwanis Representative, thanked the Commission for their support and discussed the program.

Item 4C – Civil Air Patrol Awards

Mayor Partington presented a promotion certificate to Major Kristen Miller for her promotion from Captain to Major.

Major Miller presented certificates of appreciation and certificates of completion to those involved with the Civil Air Patrols Marksmanship Training and the Emergency Response Training Exercises.

Item 4B – 2023 Mayor's Health and Fitness Challenge Awards

Mayor Partington thanked the sponsors of the 2023 Mayor's Health and Fitness Challenge include the Champion Sponsors Advent Health Daytona Beach, Florida Health Care Plans and Revive Fitness & Lifestyle; Gold Sponsor Halifax Health; Silver Sponsor Prime IV Hydration & Wellness; and Bronze Sponsors After Body Meals, Elite Therapeutics Body & Skincare and Michelle Cecchini. He announced the winners from each age group including Mr. Zach Stohner, Ms. Carlee McKiney, Mr. Justin Soard, Mr. Sam West, Mr. Jeff Massey and Ms. Terri Hester.

Item #5 – Audience Remarks

Ms. Debbie Kruck-Forrester, 15 Brookwood Drive, invited the Commission to the One-year Anniversary event for the Veteran Museum and Education Center on June 3, 2023. She discussed the event and tokens that would be provided to all veterans and first responders who attended the event.

Ms. Eva Knipple, 380 North Ridgewood Avenue, discussed concerns regarding the traffic in her neighborhood. She requested the Commission look into adding speed bumps, pedestrian cross walks and signs.

Ms. Judy Dragon, 33 Wilmette Drive, expressed concerns regarding traffic on her street and requested speed bumps and inquired if petitions were needed to assist with the concerns.

Item #6 – Approval of Minutes

Mayor Partington advised the minutes of the May 2, 2023, meeting had been sent to the Commission for review and were posted on the city's website for public viewing. He asked for any corrections, additions, or omissions. He stated hearing no corrections, the minutes would stand approved as presented.

Commissioner Briley moved, seconded by Commissioner Persis, for approval of the May 2, 2023, City Commission meetings minutes.

The motion passed by voice vote.

Item #7 – Community Redevelopment Agency

Mayor Partington advised the following items were Community Redevelopment items. He explained the City Commission served as the Community Redevelopment Agency (CRA) of the city and must review the item and make a recommendation as the CRA.

Mayor Partington recessed the City Commission meeting, called the CRA meeting to order, and opened the public hearings, at 7:38 p.m.

Item #7A – Work Authorization - Zev Cohen & Associates, Inc. for Construction Administration Services, Granada Blvd Streetscape Banding Project

City Clerk Susan C. Dauderis read by title only:

RESOLUTION NO. 2023-89

A RESOLUTION OF THE CITY COMMISSION, ALSO ACTING AS THE COMMUNITY REDEVELOPMENT AGENCY, OF THE CITY OF ORMOND BEACH, FLORIDA ACCEPTING A PROPOSAL FROM ZEV COHEN & ASSOCIATES, INC. TO PROVIDE CONSTRUCTION ADMINISTRATION SERVICES REGARDING THE GRANADA BLVD. STREETSCAPE BANDING PROJECT; AUTHORIZING THE EXECUTION OF A WORK AUTHORIZATION THERETO; AND SETTING FORTH AN EFFECTIVE DATE. **(SEE ITEM 8A)**

Commissioner Persis moved, seconded by Commissioner Sargent, for approval of Resolution No. 2023-89, as read by title only.

The motion passed by voice vote.

Mayor Partington closed the public hearing, adjourned the CRA meeting, and reconvened the City Commission meeting at 7:40 p.m.

Item #8 – Consent Agenda

Mayor Partington advised the actions proposed for the items on the Consent Agenda were so stated on the agenda. He asked if any member of the Commission had questions or wished to discuss any items separately.

Commissioner Sargent requested for Item 8L pulled from the Consent Agenda.

Ms. Joyce Shanahan, City Manager, requested for Item 8F removed from the agenda for staff to bring back at a later meeting.

Commissioner Persis moved, seconded by Commissioner Briley, for approval of the consent agenda, absent Items 8F and 8L.

Call Vote:	Commissioner Sargent	Yes
	Commissioner Persis	Yes
	Commissioner Briley	Yes
	Commissioner Tolland	Yes
Carried.	Mayor Partington	Yes

Item #8L – Auto Renewal - Yellowstone Landscape Agreement for Grounds Maintenance

Commissioner Briley moved, seconded by Commissioner Tolland, for approval of Item 8L.

Commissioner Sargent reviewed the history of the contract with Yellowstone Landscape (Yellowstone) and noted there was a 58 percent increase since the original contract in 2012 and inquired if jail inmates could assist with landscaping and help lower the costs; whereby, Ms. Shanahan stated many facilities and parks were added to the contract since 2012 and noted she believed the jail no longer allowed inmates to assist with the landscaping in the city. Commissioner Sargent requested Yellowstone do a better job with bagging debris, weeding and the excess mulch removed before adding new.

Call Vote:	Commissioner Persis	Yes
	Commissioner Briley	Yes
	Commissioner Tolland	Yes
	Commissioner Sargent	Yes
Carried.	Mayor Partington	Yes

Comments on the Consent Agenda

Commissioner Tolland and Commissioner Briley were supportive of removing the excess mulch as Commission Sargent requested from Item 8L regarding the auto-renewal of the Yellowstone Landscape agreement for grounds maintenance.

Item #9 – Public Hearings

Mayor Partington opened the Public Hearings.

Item #9A – Annexation, 860 Hull Road and 1399 Hull Trail, Halifax Paving

City Clerk Susan C. Dauderis read by title only:

ORDINANCE NO. 2023-24

AN ORDINANCE ANNEXING TWO PARCELS OF REAL PROPERTY INTO THE CITY OF ORMOND BEACH, SAID PROPERTY LOCATED AT 860 HULL ROAD (VOLUSIA COUNTY PARCEL NUMBER: 4238-01-14-0020) AND 1399 HULL TRAIL (VOLUSIA COUNTY PARCEL NUMBER: 4238-01-16-0010); SETTING FORTH ZONING PRIVILEGES AND OBLIGATIONS REGARDING THE PROPERTY; REDEFINING THE TERRITORIAL BOUNDARIES OF THE CITY OF ORMOND BEACH TO INCLUDE THE PROPERTY; REDESIGNATING THE BOUNDARIES OF

ZONE 1 OF THE CITY OF ORMOND BEACH TO INCLUDE THE PROPERTY; PROVIDING FOR TRANSMISSION; PROVIDING FOR SEVERABILITY; AND SETTING FORTH AN EFFECTIVE DATE. **(SECOND READING)**

Commissioner Sargent moved, seconded by Commissioner Briley, for approval of Ordinance No. 2023-24, on second reading, as read by title only.

Call Vote:	Commissioner Briley	Yes
	Commissioner Tolland	Yes
	Commissioner Sargent	Yes
	Commissioner Persis	Yes
Carried.	Mayor Partington	Yes

Item #9B – Zoning Map Amendment, Tymber Creek Apartments

City Clerk Susan C. Dauderis read by title only:

ORDINANCE NO. 2023-09

AN ORDINANCE AMENDING PARAGRAPH C, OFFICIAL ZONING MAP, OF SECTION 2-01, ESTABLISHED, OF ARTICLE 1, ESTABLISHMENT OF ZONING DISTRICTS AND OFFICIAL ZONING MAP, OF CHAPTER 2, DISTRICT AND GENERAL REGULATIONS, OF THE CITY OF ORMOND BEACH LAND DEVELOPMENT CODE, BY AMENDING THE OFFICIAL ZONING MAP TO REZONE TWO PARCELS OF REAL PROPERTY CONSISTING OF APPROXIMATELY 19.62 ACRES LOCATED AT 36 NORTH TYMBER CREEK ROAD (VOLUSIA COUNTY PARCEL NUMBER 4125-00-00-0221) AND 2011 WEST GRANADA BOULEVARD (VOLUSIA COUNTY PARCEL NUMBER 4125-00-00-0243) FROM VOLUSIA COUNTY RC, RESOURCE CORRIDOR, VOLUSIA COUNTY A-2, AGRICULTURE, AND ORMOND BEACH B-8, COMMERCIAL, TO PLANNED BUSINESS DEVELOPMENT; AUTHORIZING REVISION OF OFFICIAL ZONING MAP; REPEALING ALL INCONSISTENT ORDINANCES OR PARTS THEREOF; AND SETTING FORTH AN EFFECTIVE DATE.

Mr. Randy Hayes, City Attorney, stated the Commission was voting on the zoning piece of the development and the next item 9C was for the Development Order.

Mr. Steven Spraker, Planning Director, reviewed the two items and explained the site plan was updated since it was brought before the Planning Board. He reviewed the changes including removal of a building, enlargement of some buildings and reduced the number of units to 270. He discussed the elements of the development that exceeded what the code required including natural preservation and buffers. He noted the correspondence provided in the agenda packet and explained a letter of support was recently received from the Moss Point subdivision. He reviewed the Live Local Act that would go into effect on July 1, 2023. He noted the Planning Board recommended denial.

Commissioner Briley inquired if the Live Local Act was restricted to city limits and would not include the height of the hospital which was in Daytona; whereby, Mr. Spraker stated that was correct.

Commissioner Persis asked how many trees in the resource corridor made up the total percentage of the 28 percent of trees being saved; whereby, Mr. Spraker indicated he was unsure of an exact percentage but noted it would be around 40 to 50 percent. She stated she was in contact with the Moss Point subdivision and worked with them on their concerns and requested the following be clarified; no more than 270 units, access from Tymber Creek Road was emergency access only, make sure the ingress and egress were safe, the height limit was three stories, the natural preservation was 5.44 acres, and setbacks were as generous as they could be. She noted the Moss Point subdivision would like to request a no U-Turn sign be placed at the Moss Point and Tymber Creek Road intersection; whereby, Mr. Spraker explained Tymber Creek Road was a Volsuia County road and staff or the developer could request for a sign but it was not up to the city to decide.

Commissioner Tolland inquired about the wall Indian Springs requested; whereby, Mr. Spraker pointed out where the wall would be on the map displayed, noting the entire property had fencing or a wall.

Commissioner Sargent questioned when an elevator was required and the number of parking spots per unit; whereby, Mr. Spraker indicated with a fourth floor for an elevator requirement and 2 parking spots per unit.

Mr. Mark Watts, Cobb Cole, reviewed the project and the Live local Act, noting the developer was supportive of the commitments made to the community and surrounding subdivisions.

Mr. John Dietz, 10 Moss Point Drive, stated while the Moss Point subdivision supports the project they were not excited about the 270 units. He voiced concerns regarding the infrastructure of the city.

Dr. Richard Weisi, 12 Moss Point Drive, expressed concerns regarding the potential Live Local Act and explained Moss Point was supportive of the proposed project with the conditions and promises Commissioner Persis reviewed.

Mr. Jim Mozo, 74 Caladium Drive, discussed concerns regarding the traffic, Live Local Act and a 30-year commitment from the developer.

Mr. Troy Railsback, 27 Indian Springs Drive, stated he represented the Indian Springs Home Owner Association. He thanked the developer for taking their needs into consideration for the project and expressed support of the project. He noted the Commission should set lasting and managing precedent and expectations for this type of development in the decision-making process.

Commissioner Briley requested Dr. Jeffrey Sharkey speak on the Live Local Act and stated the Commission supported affordable housing inquiring if consideration was given to concurrency related to city infrastructure; whereby, Mr. Sharkey stated the act was an experiment to get developers to think how to incorporate affordability into their developments. Commissioner Briley clarified it was a 13-year experiment which expired in 2035.

Commissioner Tolland inquired if consideration was taken related to the size of the city; whereby, Dr. Sharkey indicated there was discussion but the bill moved very quickly.

Mr. Watts stated the bill would not exempt a project from concurrency, noting the current proposed project met the concurrency standards.

Commissioner Sargent discussed his concerns regarding the density related to the infrastructure.

Commissioner Briley moved, seconded by Commissioner Persis, for approval of Ordinance No. 2023-09, on first reading, as read by title only.

Call Vote:	Commissioner Tolland	Yes
	Commissioner Sargent	Yes
	Commissioner Persis	Yes
	Commissioner Briley	Yes
Carried.	Mayor Partington	Yes

Commissioner Persis stated while she would have been a no vote at the April 18, 2023 City Commission meeting due to the infrastructure issues, she explained she spoke with residents of Moss Point and Indian Springs and was supportive of the project.

Commissioner Tolland explained her vote was not given lightly, and thanked the applicant for honoring and respecting the requests from the residents of Moss Point and Indian Springs. She voiced concerns regarding the density and Live Local Act.

Commissioner Briley disclosed he met with the applicant and with Moss Point and Indian Springs residents. He expressed concerns regarding the density but would approve the project over what could come with the Live Local Act.

<u>Item #9C – Issuance of a Development Order, Tymber Creek Apartments, Planned Business Development</u>

City Clerk Susan C. Dauderis read by title only:

ORDINANCE NO. 2023-10

AN ORDINANCE AUTHORIZING THE EXECUTION AND ISSUANCE OF A DEVELOPMENT ORDER FOR A PLANNED BUSINESS DEVELOPMENT TO BE LOCATED AT 36 NORTH TYMBER CREEK ROAD (VOLUSIA COUNTY PARCEL NUMBER 4125-00-00-0221) AND 2011 WEST GRANADA BOULEVARD (VOLUSIA COUNTY PARCEL NUMBER 4125-00-00-0243), TO BE KNOWN AS THE "TYMBER CREEK APARTMENTS"; AUTHORIZING THE DEVELOPMENT OF 270 MULTI-FAMILY RESIDENTIAL UNITS AND ASSOCIATED SITE IMPROVEMENTS UNDER CERTAIN CONDITIONS; ESTABLISHING CONDITIONS AND EXPIRATIONS OF APPROVAL; AND SETTING FORTH AN EFFECTIVE DATE.

Commissioner Persis moved, seconded by Commissioner Tolland, for approval of Ordinance No. 2023-10, on first reading, as read by title only.

Call Vote:	Commissioner Sargent	No
	Commissioner Persis	Yes
	Commissioner Briley	Yes
	Commissioner Tolland	Yes
Carried.	Mayor Partington	Yes

Item #9D – RidgeHaven Subdivision, Zoning Map Amendment

City Clerk Susan C. Dauderis read by title only:

ORDINANCE NO. 2023-25

AN ORDINANCE AMENDING PARAGRAPH C, OFFICIAL ZONING MAP, OF SECTION 2-01, ESTABLISHED, OF ARTICLE 1, ESTABLISHMENT OF ZONING DISTRICTS AND OFFICIAL ZONING MAP, OF CHAPTER 2, DISTRICT AND GENERAL REGULATIONS, OF THE CITY OF ORMOND BEACH LAND DEVELOPMENT CODE, BY AMENDING THE OFFICIAL ZONING MAP TO REZONE NINE (9) CERTAIN PARCELS OF REAL PROPERTY TOTALING APPROXIMATELY 103.45 ACRES LOCATED SOUTH OF PLANTATION OAKS BOULEVARD, EAST OF ADDISON DRIVE, NORTH OF THE VILLAGE OF PINE RUN SUBDIVISION, AND WEST OF THE PLANTATION OAKS SUBDIVISION (VOLUSIA COUNTY PARCEL NUMBERS: 3136-01-01-0011, 3136-01-01-0012, 3136-01-33-0110, 3136-01-25-0010, 3136-01-24-0060, 3136-01-33-0080, 3136-01-01-0020, 3136-01-23-0060, AND 3136-01-24-0050) FROM VOLUSIA COUNTY R-4, URBAN SINGLE-FAMILY RESIDENTIAL, AND ORMOND BEACH B-8, COMMERCIAL, TO ORMOND BEACH, PLANNED RESIDENTIAL DEVELOPMENT; AUTHORIZING REVISION OF OFFICIAL ZONING MAP; REPEALING ALL INCONSISTENT ORDINANCES OR PARTS THEREOF; AND SETTING FORTH AN EFFECTIVE DATE.

Mr. Spraker the item and next item 9E was for a zoning map amendment and issuance of a development order. He explained the developer was planning on keeping the Volusia County zoning and utilizing the city sewer and water noting now the developer would like a low-density and medium-density residential subdivision. He stated the applicant went through the process and noted the maximum number of units was 298 units based on the land use. He explained the zoning would be to a Planned Residential Development (PRD). He reviewed future steps and current project details including 286 units, types of units including townhomes and duplexes, restricted access and the concurrency analysis. He reviewed the environmental and recreational elements. He noted there was one letter of objection. He stated the Planning Board recommended approval.

Commissioner Briley inquired if the outparcels would remain in Volusia County; whereby, Mr. Spraker stated that was correct, the three parcels would fall under the Interlocal Boundary Agreement (ISBA).

Commissioner Tolland inquired if the project had a baffle box added on Addison Drive canal; whereby, Mr. Spraker stated that was correct, Ormond Lakes subdivision had concerns regarding drainage and that the drainage regarding Ormond Lakes was in the Stormwater Master Plan for year 1.

Mr. Glenn Storch, Storch Firm Law Firm, reviewed the history of the project. He discussed the density, wetlands, natural buffers and vegetation, trees, quality of life, enhanced amenities, irrigation and stormwater, neighboring subdivisions, neighborhood meetings and access to the property.

Commissioner Persis expressed her support of the project including the density, native plants, dog park, buffers, playground, street signs and addition of trees.

Commissioner Briley discussed his support of the project and the drainage to help the area and surrounding neighborhoods.

Commissioner Tolland requested the trees be native; whereby, Mr. Storch stated the attempt was for the trees to be native but the vegetation may not be.

Commissioner Tolland moved, seconded by Commissioner Persis, for approval of Ordinance No. 2023-25, on first reading, as read by title only.

Call Vote:	Commissioner Persis	Yes
	Commissioner Briley	Yes
	Commissioner Tolland	Yes
	Commissioner Sargent	Yes
Carried.	Mayor Partington	Yes

Item #9E – RidgeHaven Subdivision, Issuance of a Development Order

City Clerk Susan C. Dauderis read by title only:

ORDINANCE NO. 2023-26

AN ORDINANCE AUTHORIZING THE EXECUTION AND ISSUANCE OF A PLANNED RESIDENTIAL DEVELOPMENT DEVELOPMENT ORDER FOR THE "RIDGEHAVEN" SUBDIVISION, AUTHORIZING A SUBDIVISION OF 286 LOTS ON APPROXIMATELY 103.45 ACRES TO BE LOCATED SOUTH OF PLANTATION OAKS BOULEVARD, EAST OF ADDISON DRIVE, NORTH OF THE VILLAGE OF PINE RUN SUBDIVISION, AND WEST OF THE PLANTATION OAKS SUBDIVISION; ESTABLISHING CONDITIONS AND EXPIRATION OF APPROVAL; AND SETTING FORTH AN EFFECTIVE DATE.

Commissioner Persis moved, seconded by Commissioner Sargent, for approval of Ordinance No. 2023-26, on first reading, as read by title only.

Mayor Partington discussed his support of the project.

Call Vote:	Commissioner Briley	Yes
	Commissioner Tolland	Yes
	Commissioner Sargent	Yes
	Commissioner Persis	Yes
Carried.	Mayor Partington	Yes

Item #9F – 1755 North U.S. Highway 1, Comprehensive Plan Future Land Use Map Amendment

City Clerk Susan C. Dauderis read by title only:

ORDINANCE NO. 2023-27

AN ORDINANCE AMENDING THE FUTURE LAND USE ELEMENT OF THE COMPREHENSIVE PLAN OF THE CITY OF ORMOND BEACH BY AMENDING THE FUTURE LAND USE MAP TO CHANGE THE DESIGNATION OF ONE PARCEL OF REAL PROPERTY TOTALING 3.06± ACRES LOCATED AT 1755 NORTH U.S. HIGHWAY 1 (VOLUSIA COUNTY PARCEL NUMBER 3126-00-00-0150) FROM "LOW INTENSITY COMMERCIAL" TO "LIGHT INDUSTRIAL/UTILITIES"; PROVIDING FOR CONFLICT; AUTHORIZING TRANSMITTAL; AND SETTING FORTH AN EFFECTIVE DATE.

Mr. Spraker stated the applicant bought the property with the intention of moving Wayne's Solar to the property noting the Land Use was set for Low Intensity Commercial and the item was to change to Light Industrial/Utilities.

Commissioner Sargent moved, seconded by Commissioner Briley, for approval of Ordinance No. 2023-27, on first reading, as read by title only.

Call Vote:	Commissioner Tolland	Yes
	Commissioner Sargent	Yes
	Commissioner Persis	Yes
	Commissioner Briley	Yes
Carried.	Mayor Partington	Yes

Item #9G – 1755 North U.S. Highway 1, Zoning Map Amendment

City Clerk Susan C. Dauderis read by title only:

ORDINANCE NO. 2023-28

AN ORDINANCE AMENDING PARAGRAPH C, OFFICIAL ZONING MAP, OF SECTION 2-01, ESTABLISHED, OF ARTICLE 1, ESTABLISHMENT OF ZONING DISTRICTS AND OFFICIAL ZONING MAP, OF CHAPTER 2, DISTRICT AND GENERAL REGULATIONS, OF THE CITY OF ORMOND BEACH LAND DEVELOPMENT CODE, BY AMENDING THE OFFICIAL ZONING MAP TO REZONE ONE PARCEL OF REAL PROPERTY TOTALING APPROXIMATELY 3.06 ACRES LOCATED AT 1755 NORTH U.S. HIGHWAY 1 (VOLUSIA COUNTY PARCEL NUMBER 3126-00-00-0150), FROM B-7, HIGHWAY TOURIST COMMERCIAL, TO I-1, LIGHT INDUSTRIAL; AUTHORIZING REVISION OF OFFICIAL ZONING MAP; REPEALING ALL INCONSISTENT ORDINANCES OR PARTS THEREOF; AND SETTING FORTH AN EFFECTIVE DATE.

Mr. Spraker stated the item was for a zoning map amendment to Light Industrial to be consistent with the land use map.

Commissioner Briley moved, seconded by Commissioner Persis, for approval of Ordinance No. 2023-26, on first reading, as read by title only.

Call Vote:	Commissioner Sargent	Yes
	Commissioner Persis	Yes
	Commissioner Briley	Yes
	Commissioner Tolland	Yes
Carried.	Mayor Partington	Yes

Item #9H – Land Development Code Amendment, T-2 Zoning District, Special Standards

City Clerk Susan C. Dauderis read by title only:

ORDINANCE NO. 2023-29

AN ORDINANCE AMENDING CHAPTER 2, DISTRICT AND GENERAL REGULATIONS, ARTICLE II, DISTRICT REGULATIONS, SECTION 2-21, T-2, MANUFACTURED HOME ZONING DISTRICT, OF THE CITY OF ORMOND BEACH LAND DEVELOPMENT CODE, BY CREATING SPECIAL STANDARDS FOR PREVIOUSLY EXISTING MANUFACTURED/MOBILE HOME PARKS; REPEALING ALL INCONSISTENT ORDINANCES OR PARTS THEREOF; PROVIDING FOR SEVERABILITY; AND SETTING FORTH AN EFFECTIVE DATE.

Mr. Spraker explained the item was a Land Development Code (LDC) amendment to revise the language to include the T-2 section regarding mobile home setbacks.

Commissioner Sargent moved, seconded by Commissioner Persis, for approval of Ordinance No. 2023-29, on first reading, as read by title only.

Call Vote:	Commissioner Persis	Yes
	Commissioner Briley	Yes
	Commissioner Tolland	Yes
	Commissioner Sargent	Yes
Carried.	Mayor Partington	Yes

Item #9I – Land Development Code Amendment, Connection, Mobility and Impact Fees

City Clerk Susan C. Dauderis read by title only:

ORDINANCE NO. 2023-30

AN ORDINANCE AMENDING SECTION 1-25, RESERVED, OF ARTICLE IV, SCHEDULE OF DEVELOPMENT REVIEW AND IMPACT FEES, OF CHAPTER 1, GENERAL ADMINISTRATION, TO IMPLEMENT THE WATER AND WASTEWATER UTILITY SYSTEM CONNECTION FEE STUDY BY CREATING THE WATER AND WASTEWATER CONNECTION FEE SECTION; AMENDING SECTION 1-26, MOBILITY FEE, OF ARTICLE IV, SCHEDULE OF DEVELOPMENT REVIEW AND IMPACT FEES, OF CHAPTER 1, GENERAL ADMINISTRATION, TO AMEND THE PERSON TRIP MOBILITY FEE PER THE MUNICIPAL IMPACT FEE STUDY; AMENDING SECTION 1-27, IMPACT FEES, OF ARTICLE IV, SCHEDULE OF DEVELOPMENT REVIEW AND IMPACT FEES, OF CHAPTER 1, GENERAL ADMINISTRATION, TO DELETE STORMWATER IMPACT FEES, AMEND LOCAL ROAD IMPACT FEES, AND CREATE POLICE AND FIRE IMPACT FEES PER THE MUNICIPAL IMPACT FEE STUDY AND POLICE AND FIRE IMPACT FEE STUDY; AMENDING SECTION 1-30, CERTIFICATE OF CONCURRENCY REQUIRED, OF ARTICLE V, CONCURRENCY MANAGEMENT, OF CHAPTER 1, GENERAL ADMINISTRATION; AMENDING SECTION 3-57, POTABLE WATER SYSTEM, OF ARTICLE V, UTILITY AND INFRASTRUCTURE DESIGN STANDARDS, OF CHAPTER 3, PERFORMANCE STANDARDS; AMENDING SECTION 3-59, SANITARY SEWER SYSTEMS, OF ARTICLE V, UTILITY AND INFRASTRUCTURE DESIGN STANDARDS, OF CHAPTER 3, PERFORMANCE STANDARDS; AMENDING SECTION 3-60 RECLAIMED WATER SYSTEMS, OF ARTICLE V, UTILITY AND INFRASTRUCTURE DESIGN STANDARDS, OF CHAPTER 3, PERFORMANCE STANDARDS; AMENDING SECTION 3-61, UTILITY LINE EXTENSIONS, OF ARTICLE V, UTILITY AND INFRASTRUCTURE DESIGN STANDARDS, OF CHAPTER 3, PERFORMANCE STANDARDS; AMENDING SECTION 3-62, WHOLESALE SALE OF POTABLE WATER, SEWAGE TREATMENT OR RECLAIMED WATER, OF ARTICLE V, UTILITY AND INFRASTRUCTURE DESIGN STANDARDS, OF CHAPTER 3, PERFORMANCE STANDARDS; AMENDING SECTION 3-65, INTERIM PACKAGE-TYPE WASTEWATER TREATMENT FACILITIES, OF ARTICLE V, UTILITY AND INFRASTRUCTURE DESIGN STANDARDS, OF CHAPTER 3, PERFORMANCE STANDARDS; OF THE CITY OF ORMOND BEACH LAND DEVELOPMENT CODE, TO IMPLEMENT THE RECOMMENDATIONS OF THE WATER AND WASTEWATER UTILITY SYSTEM CONNECTION FEE STUDY, MUNICIPAL IMPACT FEE STUDY, AND POLICE & FIRE IMPACT FEE STUDY; REPEALING ALL INCONSISTENT ORDINANCES OR PARTS THEREOF; AND SETTING FORTH AN EFFECTIVE DATE.

Mr. Spraker explained the item was to amend the LDC due to the Impact Fee study that was previously approved. He discussed the history of the item and noted if approved the fees would be effective starting September 4, 2023. He noted a number of the amendments were terminology. He reviewed the fee changes and discussed the mobility fees and the different options available.

Commissioner Briley stated he could support Options 2 and 3 regarding mobility fees; whereby Commissioner Persis and Commissioner Tolland stated their preference would be Option 1 or 2.

Commissioner Sargent stated he would support Option 2.

Commissioner Briley moved, seconded by Commissioner Persis, for approval of Ordinance No. 2023-30 with Option 2 of the Mobility Fees, on first reading, as read by title only.

Call Vote:	Commissioner Briley	Yes
	Commissioner Tolland	Yes
	Commissioner Sargent	Yes
	Commissioner Persis	Yes

Carried.	Mayor Partington	Yes

Item #9J – Code of Ordinance Amendments, Connection, Mobility and Impact Fees

City Clerk Susan C. Dauderis read by title only:

ORDINANCE NO. 2023-31

AN ORDINANCE AMENDING SECTION 8-10, APPLICATION PROCESSING FEES, OF ARTICLE I, IN GENERAL, OF CHAPTER 8, BUILDINGS AND CONSTRUCTION REGULATIONS; REPEALING SECTION 8-421, PURPOSE AND INTENT, OF ARTICLE IX, IMPACT FEES, OF CHAPTER 8, BUILDINGS AND CONSTRUCTION REGULATIONS; REPEALING SECTION 8-422, FEES IMPOSED, OF ARTICLE IX, IMPACT FEES, OF CHAPTER 8, BUILDINGS AND CONSTRUCTION REGULATIONS; REPEALING SECTION 8-423, IMPACT FEE FINANCING, OF ARTICLE IX, IMPACT FEES, OF CHAPTER 8, BUILDINGS AND CONSTRUCTION REGULATIONS; REPEALING SECTION 22-2, DETERMINATION OF EQUIVALENT LIVING UNITS, OF DIVISION 1, GENERALLY, OF ARTICLE I, WATER, OF CHAPTER 22, WATER AND SEWERS; AMENDING SECTION 22-29, SPECIAL PROVISIONS FOR WATER FOR IRRIGATION AND SWIMMING POOLS, OF DIVISION 2, RATES AND CHARGES, OF ARTICLE I, WATER, OF CHAPTER 22, WATER AND SEWERS; REPEALING SECTION 22-115, FEE IMPOSED; SCHEDULE, OF ARTICLE III, IMPACT FEE FOR SYSTEM EXTENSIONS, OF CHAPTER 22, WATER AND SEWERS; REPEALING SECTION 22-118, PROPERTY SUBJECT TO FEE; METHOD OF PAYMENT, OF ARTICLE III, IMPACT FEE FOR SYSTEM EXTENSIONS, OF CHAPTER 22, WATER AND SEWERS; REPEALING SECTION 22-119, IMPACT FEE FINANCING, OF ARTICLE III, IMPACT FEE FOR SYSTEM EXTENSIONS, OF CHAPTER 22, WATER AND SEWERS; AMENDING SECTION 22-132, LEGISLATIVE FINDINGS; PURPOSE, OF ARTICLE IV, HUNTER'S RIDGE-FLAGLER COUNTY DRI SERVICE AREA, OF CHAPTER 22, WATER AND SEWERS; AMENDING SECTION 22-133, SERVICE AREA, DEFINED, OF ARTICLE IV, HUNTER'S RIDGE-FLAGLER COUNTY DRI SERVICE AREA, OF CHAPTER 22, WATER AND SEWERS; AMENDING SECTION 22-135, RATES FOR WATER AND SEWER SERVICES; IMPACT FEES, OF ARTICLE IV, HUNTER'S RIDGE-FLAGLER COUNTY DRI SERVICE AREA, OF CHAPTER 22, WATER AND SEWERS; AMENDING SECTION 22-140, IMPACT FEES, OF ARTICLE IV, HUNTER'S RIDGE-FLAGLER COUNTY DRI SERVICE AREA, OF CHAPTER 22, WATER AND SEWERS; AMENDING SECTION 22-162, BOUNDARIES AND PURPOSE, OF ARTICLE VI, WEST ORMOND UTILITIES DISTRICT, OF CHAPTER 22, WATER AND SEWERS; AMENDING SECTION 22-165, IMPACT FEES, OF ARTICLE VI, WEST ORMOND UTILITIES DISTRICT, OF CHAPTER 22, WATER AND SEWERS; AMENDING SECTION 22-168, OUTSIDE CITY SERVICE, OF ARTICLE VI, WEST ORMOND UTILITIES DISTRICT, OF CHAPTER 22, WATER AND SEWERS; AND AMENDING SECTION 22-169, CONNECTIONS REQUIRED, OF ARTICLE VI, WEST ORMOND UTILITIES DISTRICT, OF CHAPTER 22, WATER AND SEWERS; OF THE CODE OF ORDINANCES OF THE CITY OF ORMOND BEACH TO IMPLEMENT THE RECOMMENDATIONS OF THE WATER AND WASTEWATER UTILITY SYSTEM CONNECTION FEE STUDY, MUNICIPAL IMPACT FEE STUDY, AND POLICE & FIRE IMPACT FEE STUDY; REPEALING ALL INCONSISTENT ORDINANCES OR PARTS THEREOF; AND SETTING FORTH AN EFFECTIVE DATE.

Mr. Spraker explained the item was to update the Code of Ordinances terminology to be consistent with the LDC.

Commissioner Persis moved, seconded by Commissioner Briley, for approval of Ordinance No. 2023-31, on first reading, as read by title only.

Call Vote:	Commissioner Tolland	Yes
	Commissioner Sargent	Yes
	Commissioner Persis	Yes
	Commissioner Briley	Yes
Carried.	Mayor Partington	Yes

Mayor Partington closed the public hearings.

Item #10 – First Reading of Ordinances

Item #10A – Amendment to Section 2-221 of the Code of Ordinances, Leisure Services Advisory Board - Elimination of positions for Girls' Softball and Ormond Beach Friends of Recreation

City Clerk Susan C. Dauderis read by title only:

ORDINANCE NO. 2023-32

AN ORDINANCE AMENDING SECTION 2-221, LEISURE SERVICES ADVISORY BOARD, OF ARTICLE VI, BOARDS, COMMISSIONS, COMMITTEES AND OTHER AGENCIES, OF CHAPTER 2, ADMINISTRATION, OF THE CODE OF ORDINANCES, BY AMENDING COMPOSITION AND TERMS; PROVIDING TERMS AND CONDITIONS; AND SETTING FORTH AN EFFECTIVE DATE.

Commissioner Briley moved, seconded by Commissioner Persis, for approval of Ordinance No. 2023-32, on first reading, as read by title only.

Call Vote:	Commissioner Sargent	Yes
	Commissioner Persis	Yes
	Commissioner Briley	Yes
	Commissioner Tolland	Yes
Carried.	Mayor Partington	Yes

Item #11 – Discussion and Direction Items

Item #11A – FDOT North A1A Project Update

Mr. Shawn Finley, Public Works Director, reviewed the history of the State Road A1A (A1A) Florida Department of Transportation (FDOT) project.

Mr. Marcus Lisicki, FDOT Project Manager, reviewed the project location, goals and proposed renderings. He reviewed the pedestrian safety improvement locations. He discussed the public meetings and noted there was strong opposition to a six-foot sidewalk on the east side within the residential section south of Standish Drive noting residents suggested to begin the sidewalk on the east side at or north of Standish Drive. He explained the proposed design addresses the concerns and removed the sidewalk in that portion as well as some mid-block crossings. He reviewed the project timeline noting the construction was proposed to begin in the spring or summer of 2024.

Commissioner Briley inquired why there was opposition to the sidewalk starting further south; whereby, Mr. Lisicki stated it was due to the residential area, concerns with impact to decorative driveways, concerns of pedestrian visibility while residential vehicles back out of their driveways and lack of beach access. Commissioner Briley expressed concerns regarding pedestrian safety and noted the sidewalk and mid-block crossings should stay to help improve pedestrian safety.

Commissioner Persis agreed with Commission Briley and discussed her support of the sidewalk starting further south.

Commissioner Sargent stated there was no need for a sidewalk on the east side from Granada Boulevard to Neptune Avenue due to concerns regarding vehicles backing out and having citizens too close to residential homes. He inquired if there would be lights in the ground of the crosswalks; whereby, Mr. Lisicki stated all the crossings would possess the Rectangular Rapid Flashing Beacons and the raised crossings would contain the lights.

Commissioner Tolland agreed with Commissioner Sargent and requested the ten-foot multimodal path contain a designated space for bicycles. She stated the sidewalk would not be needed in that area due to no beach access.

Commissioner Sargent noted the Florida Power and Light poles were very close to the road and would need to be taken into consideration if a sidewalk was added to the residential area.

Commissioner Briley stated some pedestrians may not want to walk on the same path as bicycles noting the extra sidewalk would be welcomed for pedestrian safety.

Ms. Shanahan inquired if there was a consensus regarding the sidewalks; whereby, Mr. Lisicki stated the consensus was for no sidewalks in front of the residential homes and to start north of Standish Drive.

Mayor Partington stated he supported the sidewalk starting at Standish Drive, noting he understood Commissioner Briley's point.

Commissioner Tolland inquired if the area between Neptune Avenue and Standish Drive was a concerning area for pedestrian fatalities; whereby, Mr. Lisicki stated he did not have that data.

Commissioner Briley stated he knew of a couple of fatalities in the last five or six years.

Item #12 – Reports, Suggestions, Requests

Events and Thanks

Ms. Shanahan inquired if the Commission would be available for a Shade meeting on May 30, 2023; whereby, the Commission agreed. She congratulated Ormond Beach Police Chief Jesse Godfrey, Corporal Rhett Summerlot and Officer Rafael Medina for their participation in the Police Unity Tour. She stated it was Reuse Water Week and reviewed upcoming events including the Memorial Day Remembrance Ceremony and Movies on the Halifax.

Commissioner Briley discussed the events he attended including the Police Unity Tour, Walter Bailey tribute, and upcoming Public Works Week and Kiwanis READS! proclamations.

Commissioner Tolland provided updates from an Ormond Beach MainStreet meeting and a Regrow the Loop meeting. She stated Volusia County was updating their landscaping ordinances and noted Mr. Clay Ervin would contact Mr. Spraker to provide details. She discussed the Police Unity Tour and congratulated the participants.

Commissioner Sargent discussed the events he attended including the Police Unity Tour and thanked all the police officers for their work.

Commissioner Persis reviewed the events she attended including the Law Enforcement Memorial Motorcycle Tour and National Night of Prayer. She thanked Ms. Shanahan and Mr. Spraker for all their hard work.

Requests

Commissioner Briley discussed the mental health issues especially with the homeless and requested the city write a letter to the state or county to encourage funding for mental health. He inquired if the Commission had interest in a Citizens Academy for the city; whereby, the entire Commission agreed for staff to look into a Citizens Academy.

Commissioner Tolland inquired if the Commission would be interested in staff getting more information to participate in the Regrow the Loop Program; whereby the Commission agreed. Mayor Partington suggested information be brought back as a discussion item at the end of a City Commission meeting.

Commissioner Sargent requested staff look into the issues discussed during Audience Remarks; whereby, Ms. Shanahan stated some of the issues were addressed and Mr. Finley was working on some of the issues as well.

Item #13 – Adjournment

The meeting was adjourned at 9:55 p.m.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Brian Rademacher, Economic Development Director

Date: June 6, 2023

Subject: Endorsement of City's 2023-2027 Strategic Economic Development Plan

Commission Goal: Economic Development - Other

Introduction

This is a resolution for City Commission endorsement of the proposed five-year 2023-2027 Strategic Economic Development Plan (SEDP).

Background

The Department of Economic Development has been guided by a SEDP since 2007. These plans are used as a guide by the City in implementing a comprehensive program of economic development and have been routinely updated every three years to create a program of work focused on ensuring the economic health and vitality of the City of Ormond Beach through programs aimed to promote business retention, expansion and attraction.

Strategic Planning Group, Inc., (SPG) was retained by the City of Ormond Beach to assist staff in updating the City's SEDP. The updated plan will run for five years (2023-2027). As a part of the work program, SPG developed economic and demographic data on the City of Ormond Beach, Volusia County, and selected other cities for comparative purposes. This work effort was designed to establish a comparative overview of the City. In addition, a focus group workshop session was conducted on February 22, 2023, to obtain input on community issues, goals, and objectives for the new plan. This effort resulted in a general consensus, refinement, and prioritization of objectives.

Discussion

The updated SEDP has been developed to serve the City of Ormond Beach as a guide to identifying key priorities in diversifying the City's economy. The SEDP also identifies key challenges, ensures stakeholder consensus, and formulates recommendations for the implementation of the SEDP. The goals, objectives, and action steps of the SEDP are designed in the three main areas of economic development: business retention and

expansion, business recruitment, and corridor development and visitation. The SEDP is a document that City officials, residents, local businesses, and real estate investors should view as a tool in shaping the community's future financial viability.

Without a proactive approach to economic development, growth may result in the City having low-wage, service-oriented jobs and a lower standard of living. By targeting and attracting firms that produce high-wage, high-value jobs, which are competed for with other communities, prosperity is increased and the standard of living in Ormond Beach and Volusia County is raised. The SEDP outlines the goals, objectives and action steps required to achieve the community's larger goals. By encouraging high levels of capital investment along with high-wage jobs, the tax base is expanded, thereby providing more dollars for local and state governments to provide high quality services. This new tax base will continue to provide a strong return, especially at the local level, for many decades.

Budget Impact

There is no direct budget impact. As the SEDP recommendations are implemented over the next five years, staff will present various economic development initiatives and projects that may require funding consideration.

Citizen Impact

The SEDP was formulated with Ormond Beach citizen participation. The Plan's recommendations are structured to create a strong local economy and provide the residents of Ormond Beach with employment opportunities and a more diverse tax base.

Recommendation

Staff recommends the endorsement of the Strategic Economic Development Plan.

RESOLUTION NO. 2023-96

A RESOLUTION OF THE CITY OF ORMOND BEACH ENDORSING THE CITY'S 2023-2027 STRATEGIC ECONOMIC DEVELOPMENT PLAN; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, the City's Economic Development Department prepared the 2017-2019 Strategic Economic Development Plan ("the Plan") that was unanimously endorsed by the City Commission, and

WHEREAS, the Plan was used as a guide by the City in implementing a comprehensive program of economic development, and

WHEREAS, Strategic Planning Group, Inc. was retained to assist staff in updating the City's Plan, and

WHEREAS, the Plan has been developed to serve the City officials, residents, local businesses, and real estate investors as a guide to a tool in shaping the community's future financial viability, now therefore,

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The City of Ormond Beach endorses the 2023-2027 Strategic Economic Development Plan outlining the goals, objectives and action steps required to achieve the community's economic goals.

SECTION TWO. This Resolution shall take effect immediately upon its adoption.

APPROVED AND AUTHENTICATED this 6th day of June, 2023.

EXECUTIVE SUMMARY

Strategic Economic Development Plan (SEDP)

Introduction

This update to the City's 2017 – 2019 SEDP is the City's fourth SEDP for the following years:

- 2023 - 2027 (current)
- 2017 - 2019
- 2012 - 2014
- 2007 - 2011

The City's Strategic Goal: Economic Development

"To ensure the economic health and vitality of the City of Ormond Beach by providing an environment allowing businesses to thrive through retention, expansion, and attraction."

SEDP Mission Statement

The mission of the Strategic Economic Plan is to influence the existing and future landscape of Ormond Beach by being initiative-taking in business retention, expansion, and attraction.

Macro Goals

- Expand the Ormond Beach non-residential tax base and other revenue sources.
- Provide a variety of employment opportunities in Ormond Beach.
- Maintain and increase the financial wealth of Ormond Beach residents.
- Ensure quality commercial and industrial development.
- Increase participation and regional coordination of economic development efforts to eliminate redundancies.

Plan Summary

The five-year Strategic Economic Development Plan (SEDP) has been developed to serve the City of Ormond Beach as a guide to identifying key priorities in diversifying the City's economy. The SEDP also identifies key challenges, ensures stakeholder consensus, and formulates recommendations for implementation of the SEDP.

The goals, objectives, and policies of the SEDP are designed in the three main areas of economic development: Retaining and expanding "Target Industries", recruitment of jobs and capital investment, and redeveloping major corridors.

The SEDP is a document that City officials, residents, local businesses, and real estate investors should view as a tool for shaping the community's future financial viability.

A summary listing of the SEDP's three goals, 18 objectives, and 78 strategies starts on page 57.

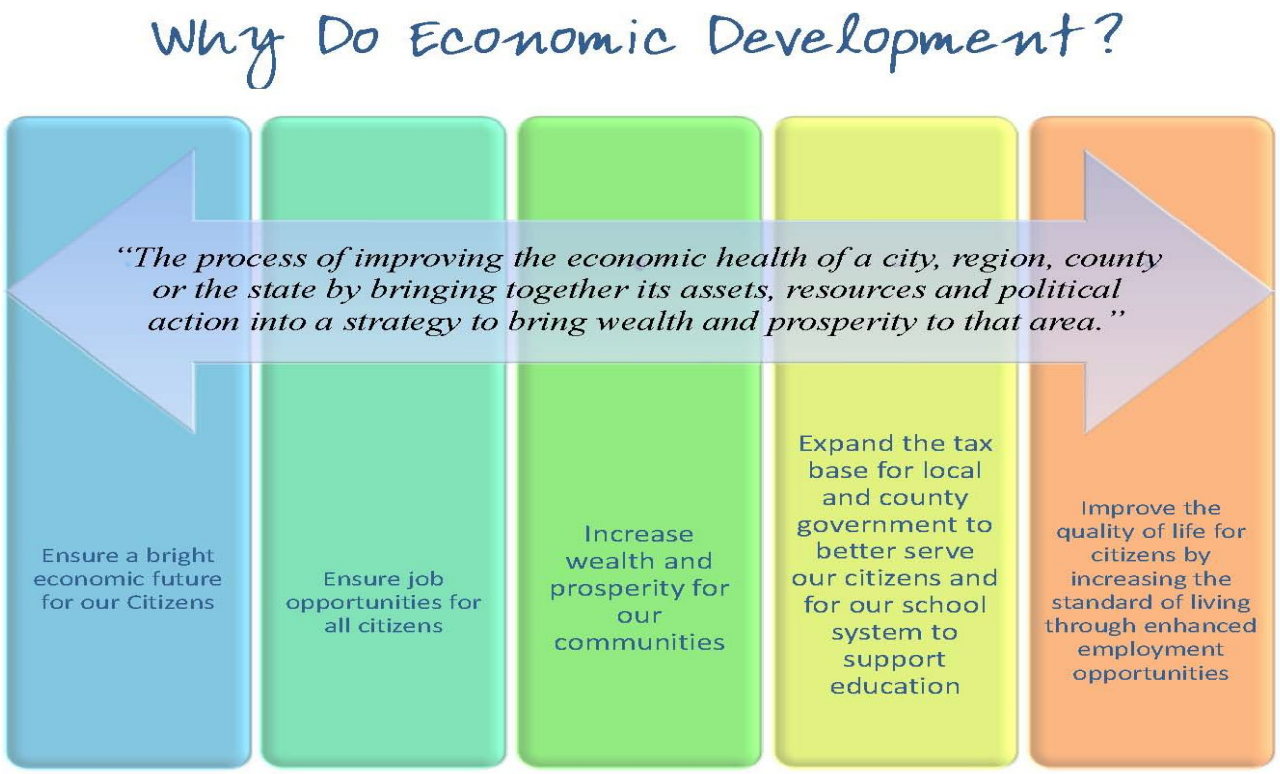
INTRODUCTION

According to the Florida Economic Development Council (FEDC), economic development is:

"The process of improving the economic health of a city, region or the state by bringing together its assets, resources and political action into a strategy to bring wealth and prosperity to that area."

Economic development is fundamentally about enhancing the factors of productive capacity – land, labor, capital, and technology – of a national, state, or local economy. By using its resources and powers to reduce the risks and costs which could prohibit investment, the public sector often has been responsible for setting the stage for employment-generating investment by the private sector.

The public sector seeks to increase incomes, the number of jobs, and the productivity of resources in regions, states, counties, cities, towns, and neighborhoods. Its tools and strategies have often been effective in enhancing a community's:



- labor force (workforce preparation, accessibility, cost).
- infrastructure (accessibility, capacity, and service of basic utilities, as well as transportation and telecommunications).
- business and community facilities (access, capacity, and service to business incubators, industrial/technology/science parks).
- schools/community colleges/universities, sports/tourist facilities.
- environment (physical, psychological, cultural, and entrepreneurial).
- economic structure (composition); and,
- institutional capacity (leadership, knowledge, skills) to support economic development and growth.

However, there can be trade-offs between economic development goals of job creation and wealth generation. Increasing productivity, for instance, may eliminate some types of jobs in the short run.

Why Do Economic Development?

As noted by the International Economic Development Council (IEDC), "Economic development is the intentional practice of improving a community's economic well-being and quality of life. It includes a broad range of activities to attract, create, and retain jobs, and foster a resilient, pro-growth tax base and an inclusive economy. The practice of economic development comprises a collaborative effort involving industry, government, and myriad community stakeholders".

The public sector does not create jobs, its role is to help create the environment and provide the support that encourages business investments which creates jobs. The public sector works to ensure available infrastructure for future industry needs of start-ups, relocation, and expansion projects and collaborates with governmental agencies and industries to address specific workforce skills and educational training issues. The Strategic Economic Development Plan is designed to integrate business retention, expansion, and recruitment with downtown development, visitation, hospitality, and arts and culture with the City's natural resources to form an economic development plan for the future.

Without an economic development program, the community would grow but not always in the way desired. Without an initiative-taking approach to economic development, growth may result in the City having lower-waged, service-oriented jobs and a lower standard of living. By targeting and attracting firms that produce high-wage, high-value jobs, which are competed with other communities, prosperity is increased and the standard of living in Ormond Beach and Volusia County is raised. The Strategic Economic Development Plan will outline the goals, objectives, and action steps required to achieve the community's goals.

By encouraging high levels of capital investment along with high-wage jobs, the tax base is expanded, thereby providing more dollars for local and state governments to provide high-quality services. This new tax base will continue to provide a strong return, especially at the local level, for many decades.

What is a Strategic Economic Development Plan?

While the City has been preparing Strategic Economic Development Plans since 2005, it is important to step back and review the "**What and Why**" the City prepares SEDPs. Strategic Planning is a visionary process of what an organization, place, or group wants to be, at some determined point in time. Strategy is the framework that guides those decisions that determine the nature and direction of the process. Strategic planning is the development of that framework. The following are definitions used in this Plan to define the elements of strategic planning: goal, objective, strategy, and action steps.

Components of the Plan

There are several steps in preparing a Strategic Economic Development Plan. The Economic Development Administration (EDA) defines the strategic planning process in four parts:

- **Analysis, of where we are.**
- **Vision, where we want to be.**
- **Action plan, how do we get there?**
- **Evaluation of how we are doing.**

- **Community Profile**
  - Socioeconomic profile of the City today
- **Goal Development**
  - Identify key City economic development activities.
  - List strategic issues, expressed as questions.
  - Prioritize issues and solutions.
  - Create goals and objectives.

- **Strategic Action Plan (5 years)**
  - Specific action items for each goal and objective.
  - Create a period of the actions.
  - The identification of the resources (people, money) needed for implementing the action items.

- **Evaluate the progress of implementing the Plan**

The first step, **where the City of Ormond Beach is geographically and economically today**, is outlined in the next section of this document.

SECTION I. THE CITY OF ORMOND BEACH DEMOGRAPHIC AND ECONOMIC PROFILE

Location

The City of Ormond Beach is located near the very crossroads of Central Florida's High Tech Corridor, I-95, and I-4, and has become known as Central Florida's preferred business address. The City is almost equidistant to Jacksonville, Orlando, and Merritt Island, as shown in Figure 1, and is well served by Interstate highways, railroad lines, and air and seaports.

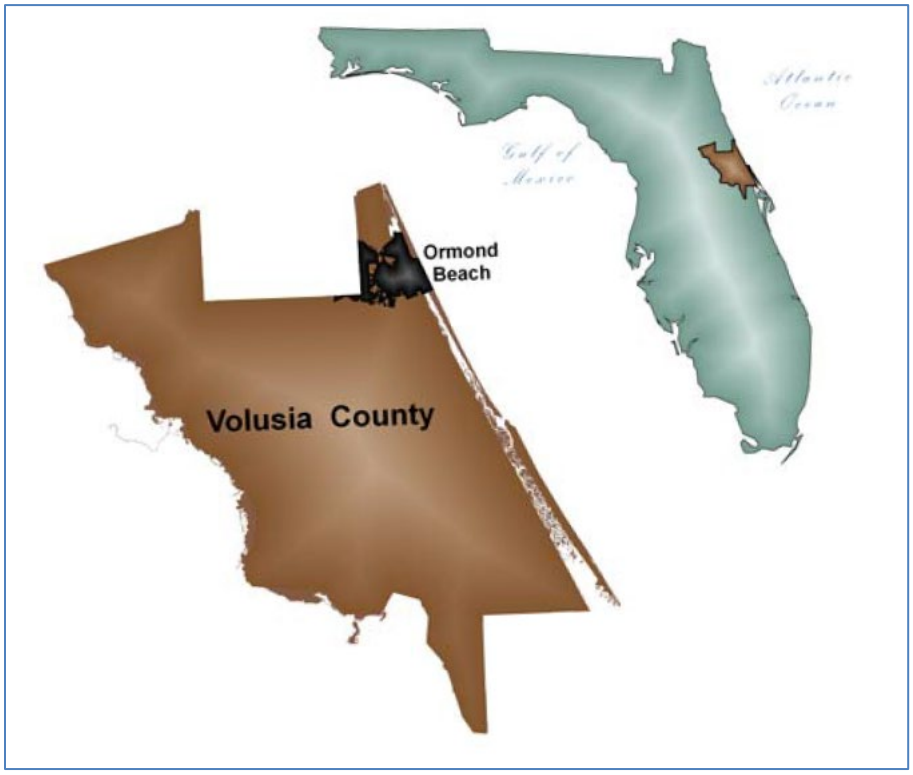


Figure 1. Location Ormond Beach

Source: Ormond Beach Economic Development Office

Ormond Beach is located in the northeastern part of Volusia County. The County is part of the Deltona, Daytona, Ormond Beach Metropolitan Statistical Area (MSA) which in turn is part of the eight-county region: "Orlando, Lakeland, Deltona, FL Consolidated Statistical Area" (CSA).

Figure 2. Ormond Beach Location within Volusia County

Source: Ormond Beach Economic Development Office

Demographic Profile

The following analysis of Ormond Beach's socio-economic metrics focuses on data from 2015 to 2020 as the last SEDP metrics used in 2015 data. Therefore, the data shows the changes since the last SEDP.

Population Characteristics

The Deland-Daytona Beach-Ormond Beach MSA contained approximately 590,289 residents in 2010 growing to a population of 668,921 as of 2020 representing a 13.3% growth rate double the rate of growth since the last SEDP. In terms of growth rate, Flagler County has consistently grown faster than Volusia and experienced a 5.9% 2010-2020 growth rate.

Table 1. Volusia and Flagler Counties, MSA Population, 2020

	1990	2000	2010	2015	2020	2015-2020 Change Change	Annual Percent Change
Daytona Beach MSA *	399,438	493,175	590,289	619,240	668,921	39,695	1.3%
Volusia County	370,737	443,343	494,593	517,887	553,543	35,656	1.4%

Volusia County, as discussed, economically functions as two different sub-county regions separated by what locally is defined as the Palmetto Curtain. As shown above, the western part of the County is intricately linked to the Orlando/Sanford regional market while the eastern subregion represented the older established economic base of the County centered on ocean tourism and car/ motorcycle racing. Today, the eastern region is associated with a new I-95 north/south region connecting Titusville to the south and Palm Coast to the north. The eastern Volusia/Flagler County represents a market exceeding 362,300 residents with expanding manufacturing and logistic sectors.

Age Characteristics

While the City's median age has increased to 52.4 years. Its working-age professional mid-career population (25-59) represents 36.5% of the population. Table 3 shows the Ormond Beach resident age characteristics.

Comparative Analysis of Ormond Beach to Other Cities in the immediate region

The following tables illustrate the socioeconomic profile of Ormond Beach compared to surrounding cities.

Except for Deland, Ormond Beach has a significantly smaller resident population than the County's other cities, but from an economic development perspective, the City's labor force includes a large geographic labor shed covering both Volusia and Flagler Counties. The City's growth is only 1.2 percent annually, reflecting its built-out status (with exception of Ormond Crossing's residential development potential). Both sides of Volusia (East and West) roughly experienced the same level of growth during this period (East @ 1.4% and West @1.5% annually).

As discussed earlier, Ormond Beach's population is significantly smaller than the other cities in the region, except DeLand. That said, its population of persons below 18 years old is the second largest in the region reflecting a growing younger workforce.

Commuting Patterns

The City has a dynamic employment base. Of the 16,177 jobs within the city in 2019, only 3,004 were Ormond Beach residents, while 13,173 employees live outside the city. It is interesting to note that 14,391 Ormond Beach residents leave the city daily to go to work.

Ormond Beach had 16,177 employees (jobs) in 2019 of which only 18.6% of those workers lived in the City and 81.4% of the jobs were held by employees that lived elsewhere. Conversely, 17,395 residents were employed but only 17.3% were employed within the City, and 82.7 % of Ormond Beach employed residents were employed outside the City.

The City has a large labor shed. Most employees who commute into the city are located within an employment shed/region primarily ranging from Palm Coast to the north and Port Orange to the south.

Figure 5. Ormond Beach Employment Flows, 2019

Inflow/Outflow Job Counts (All Jobs)

	2019 Count	2019 Share
Employed in the Selection Area	16,177	100.0%

The following graphic is a "heat" map showing the primary residence of Ormond Beach's job holders. The map shows high concentrations of employee residences in dark blue, followed by lighter blue areas, and finally by individual gray dots.

Sixty-three percent (63.5%) of Ormond Beach workers live within Volusia County, with Flagler County, the next largest, having 11.7% of the City's workers as residents.

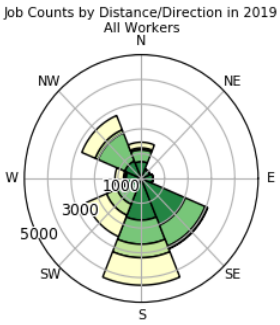

Figure 6. Ormond Beach Labor Shed, 2019

Jobs by Distance - Work Census Block to Home Census Block

	2019 Count	Share
Total All Jobs	16,177	100.0%
Less than 10 miles	7,299	45.1%
10 to 24 miles	4,201	26.0%
25 to 50 miles	1,381	8.5%
Greater than 50 miles	3,296	20.4%

Slightly over 20% of Ormond Beach job holders drive over 50 miles to work within the City. Approximately 65 percent of workers drive over 10 miles to reach their jobs. This is an opportunity for local employers to attract talented resident workers that commute daily. Given increased gasoline and overall automobile expenses as well as congestion this worker-to-job time should decline given additional job opportunities within or close to the City.

Approximately 63.5% of Ormond Beach working residents worked within Volusia County, 7.5% worked in Orange County, 3.9 percent in Flagler County, and 3.3% in Duval County. It is interesting to note that 117 employed Ormond Beach residents work as far south as Miami-Dade County.

Comparison of Citywide Jobs versus Resident Jobs by Industry (NAICS)

As noted, the majority of Ormond Beach employees reside outside of the City while the majority of Ormond Beach residents work outside of the City. As shown below, the distribution of jobs between the two groups is similar although the numbers differ somewhat.

Table 17. Comparison of Ormond Beach jobs to Ormond Beach resident jobs by industry, 2019

2019	City Jobs		Resident Jobs	
	Count	Share	Count	Share

Regional Labor Force Context

Volusia County has an available labor force of 258,996 as of March 2022 and an employed workforce of 251,653 and 7,342 (2.8%) unemployed.

As discussed above and shown in Figure 8, Ormond Beach's regional employment shed contains total non-agricultural employment of 211,600. The region's largest industrial sectors are shown below:

- Education and Health Services
- Retail Trade
- Leisure and Hospitality
- Professional and Business Services

Figure 8. Major Industry Employment, 2022

Major Industry	Q1 2020	Q1 2021	Q1 2022
Education and Health Services	41,367	40,600	39,267

SECTION II TARGET INDUSTRIES

Industrial Clusters

Industry clusters are regional concentrations of related industries. Clusters consist of companies, suppliers, and service providers, as well as government agencies and other institutions that provide education, information, research, and technical support to a regional economy. One might say that clusters are a network of economic relationships that create a competitive advantage in a particular region. This advantage then becomes an enticement for similar industries and suppliers to those industries to develop or relocate to a region. The following graphic demonstrates the Volusia County industry clusters.

Figure 10. Cluster Linkage Diagram

Clusters exist where the economic activities in a set of related industries in a given location reach critical mass. It is at this point that local linkages begin to have a meaningful impact on the performance of companies and that important opportunities for local collaboration among firms and other organizations in the relevant fields arise. Clusters emerge naturally in the market process, providing

productivity benefits to companies as they grow in size. They become attractive to companies looking for a new location and grow through the performance of companies already located there. Companies in clusters gain access to specialized regional suppliers, service providers, and institutions, and can also benefit from deep pools of skilled employees and shared infrastructure dedicated to their needs.

Developing industry clusters has become a key goal for regional economic development as clusters have been shown to strengthen competitiveness by increasing productivity, stimulating innovative new partnerships, even among competitors, and presenting opportunities for entrepreneurial activity.

State of Florida (Enterprise Florida) Target Industries

The State of Florida has identified nine key business industries under the direction of Enterprise Florida, a public-private partnership. These industries range from growing fintech clusters and aviation MRO to semiconductor and medical device manufacturing.

- Aviation & Aerospace
- Cleantech
- Defense & Homeland Security
- Financial & Professional Services
- Headquarters
- Information Technology
- Life Sciences
- Logistics & Distribution
- Manufacturing

Financial & Professional Services is by far the largest of the Major Industries with over 138,000 establishments employing 952,863 with total wages of 77.9 billion. This is followed by Logistics & Distribution and Manufacturing.

Table 20. State of Florida Major Industries

State of Florida Major Industries			
	Establishments	**Employment**	**Total Wages**
Financial & Professional Services	138,739	952,863	$77.9b
Logistics & Distribution	69,759	750,080	$13.4b
Manufacturing	20,933	334,254	$6.5b
Information Technology	34,261	272,548	$6.8b
Aviation & Aerospace	4,425	203,865	$4.0b
Defense & Homeland	22,621	194,828	$5.9b
Cleantech	9,539	105,353	$2.6b
Life Sciences	1,571	28,273	$672.2m

Source: Enterprise Florida; Localintel, Inc.

Financial & Professional Services
Florida is home to the third-largest cluster of insurance and banking companies in the United States. Florida's prominent professional services and finance companies offer fintech, banking, insurance, architecture, accounting, marketing, alternative investments, hedge funds, portfolio management, consulting, and engineering services, among others.

Distribution & Logistics
Florida is home to 20% of all U.S. exporters and the second-largest foreign trade zone network in the nation. As the Western Hemisphere's commercial gateway, Florida is a top choice for any company in search of global access and a direct path to rapidly expanding markets in Latin America and the Caribbean.

Manufacturing
Florida is ranked among the nation's top 10 states for manufacturing. Manufacturers choose Florida for its pro-business policies, strong workforce, and access to domestic and global markets.

Information Technology
Florida's technology industry offers a broad range of expertise, from software to photonics to modeling, simulation, and training.

Aviation & Aerospace
Florida, and especially the Deltona-Daytona Beach, Ormond Beach MSA, is well established within the target sector being the home to Kennedy Space Center, Cecil Spaceport, and Cape Canaveral Air Force Station. Florida has 130 public-use airports and 20 commercial airports. The Sunshine State is a major hub for flight training and MRO and a leading location for manufacturing aircraft and aircraft components.

Cleantech
The State of Florida has over 9,500 cleantech companies, ranging from solar energy to bioplastics to bioremediation thanks in part to its strategic location, natural resources, transportation infrastructure, and skilled labor force.

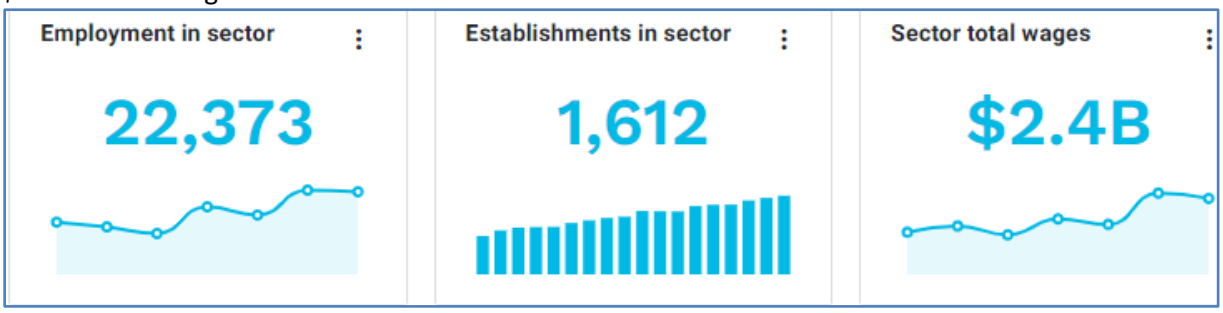
Defense & Homeland Security
Florida is home to 20 major military installations and three unified combatant commands. Virtually every major defense contractor from the U.S. and abroad has significant operations in Florida. The Florida defense and homeland security industry is one of the nation's largest.

Life Sciences
More than 1,440 establishments operate within the Florida biotech, pharmaceutical, and medical development scene, with a foundation of more than 46,000 healthcare establishments. The state offers these companies and R&D centers a broad range of industry expertise. Florida is home to the nation's second-largest medical device manufacturing industry, second-largest pharmaceutical manufacturing industry, and fifth-largest biotech R&D industry.

Orlando Space Coast Region Target Industries

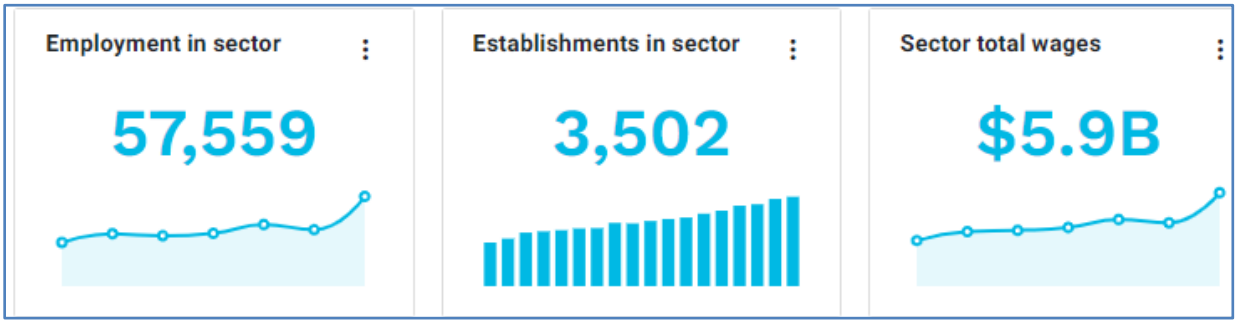
The major industries identified by the State of Florida have varying degrees of concentration based on a region's assets including infrastructure, access to markets, similar companies in the supply chain, etc. Ormond Beach and Volusia County are located within the Orlando Space Coast Region, a marketing region delineated by the State of Florida's public/private economic development agency, Florida Enterprise. The Orlando Space Coast region includes Volusia, Brevard, Osceola, Orange, Seminole, Lake, and Sumter Counties. The Orlando Space Coast Region boasts an advantage within various Major industries identified by the State.

The Orlando-Space Coast region supports innovative industries like Aerospace & Defense, Advanced Manufacturing, and Life Sciences & Health.



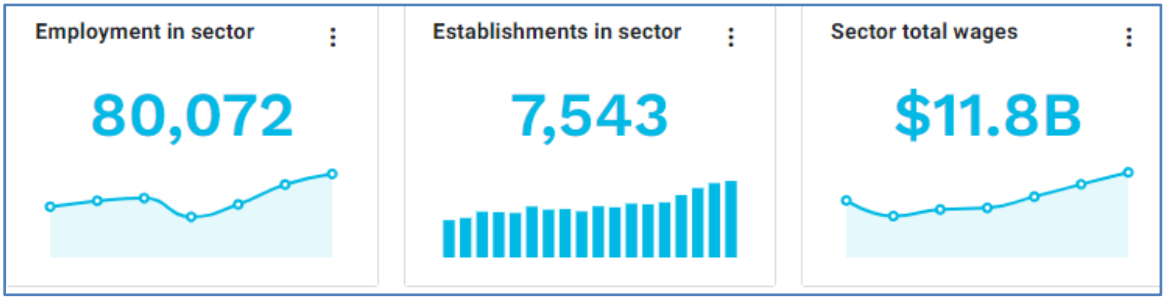
Aviation & Aerospace

The aviation & aerospace target industry currently has employment 62,000 within 634 firms. The sector generates a payroll of $12.1 billion.



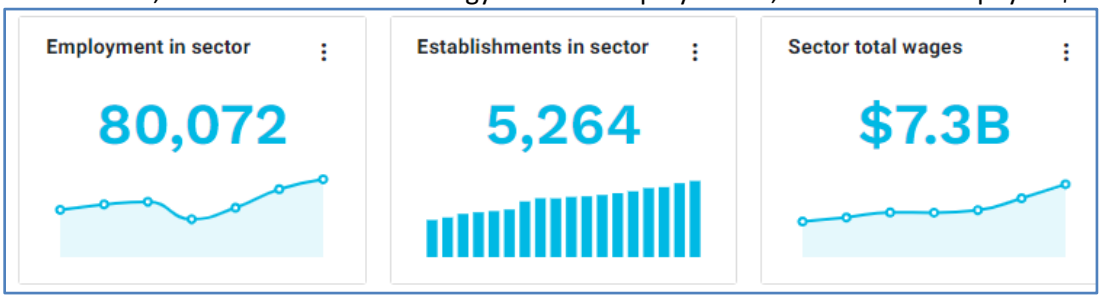
Cleantech

Cleantech currently employs approximately 22,400 workers within 1,612 establishments and generates $2.4 billion in wages.



Defense and Homeland Security

Like Florida as a whole, the region is a major national leader in defense and homeland security employing 57,559 and generating $5.9 billion in total wages.

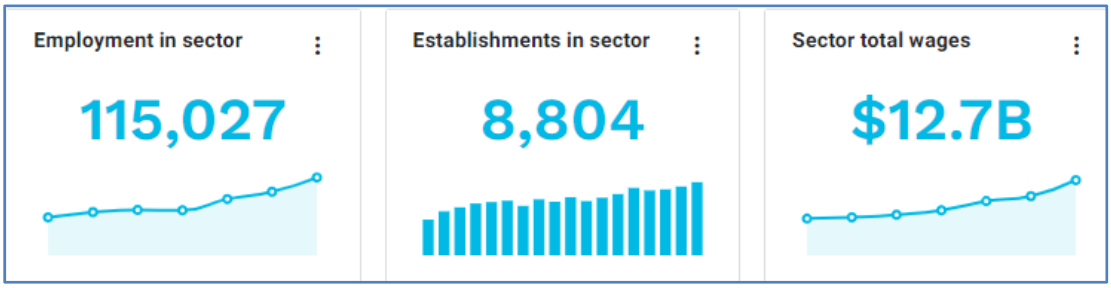


Financial Services

The region is a major financial service hub. There are over 80,000 workers employed in this sector which generates $11.8 billion.

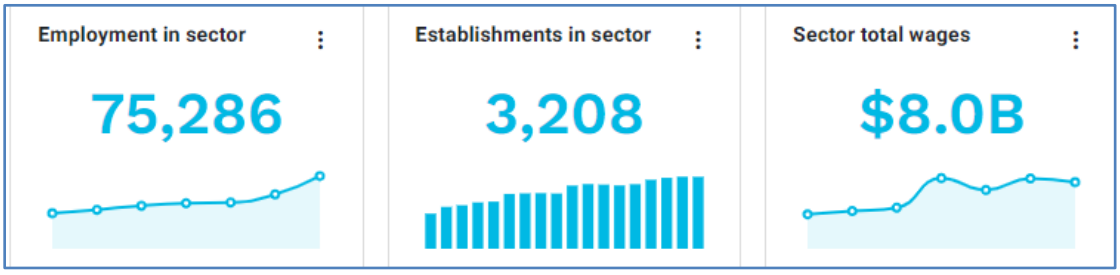
Information Technology

There are 80,000 information technology workers employed in 5,264 firms with a payroll$7.3 billion.



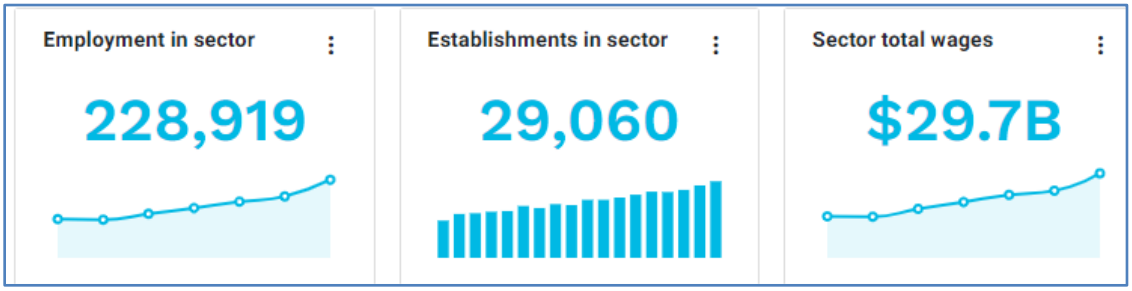
Life Sciences

The Space Coast region has almost 2,500 life science employees. The sector has 191 establishments. No wage data is available.



Logistics & Distribution

The region has a logistics & distribution employment of 115,000 employees within 8,800 firms and a payroll of $12.7 billion.



Manufacturing

The region has over 75,000 manufacturing jobs located in 3,208 establishments. Total wages are estimated at $8.00 billion.

Professional Services

The Space Coast Region contains approximately 229,000 professional service employees within 29,000 establishments and a payroll of $29.7 billion.

Volusia County Target Industries

Volusia is within the Orlando Space Coast Region and the county is aligned to take advantage of these major industries due to proximity, infrastructure, supply chain, and foreign trade.

Aviation & Aerospace

Volusia County employs approximately 1,700 aviation and Aerospace employees. As shown on the next page the County has significant vacant properties well positioned for the aviation and aerospace sector. Sharing the I-95 corridor and located adjacent to Volusia County (south), Brevard County has one of the

largest concentrations of high technology employment in the nation and the highest in Florida. A study by Bryce Technology for Volusia County focused on targeting parts of the Brevard Space Industrial complex.[2]

Advanced Manufacturing

Volusia County is home to more than 450 manufacturing companies within a wide array of specialties including tool-and-die, marine and boat manufacturing, aviation and automotive component manufacturing, medical devices manufacturing, food production, electronic component manufacturing, and apparel manufacturing. Volusia County has manufacturing employment of 9,325.

Financial & Professional Services/Headquarters

Many service companies call Volusia County home. This includes insurers and risk management companies such as Brown & Brown Insurance, Security First, internet technology companies, customer service call centers, and more. Existing building conversions can tailor space to the exacting needs of the companies. And available land is available for new construction, including many sites that are particularly convenient for workers. The County has 13,402 professional service employees.

Headquarters

Volusia County is the home to over 13 corporate headquarters. The State's tax laws are incredibly positive for headquarters. The State has no corporate franchise tax, no state personal income tax, no tax on inventory, and no tax on foreign income.

Life Sciences

From major hospitals and labs to one of the largest global medical device manufacturers in the world, Volusia County is home to several elite industry leaders in life sciences. Volusia County currently has 737 life and science employees.

Logistics & Distribution

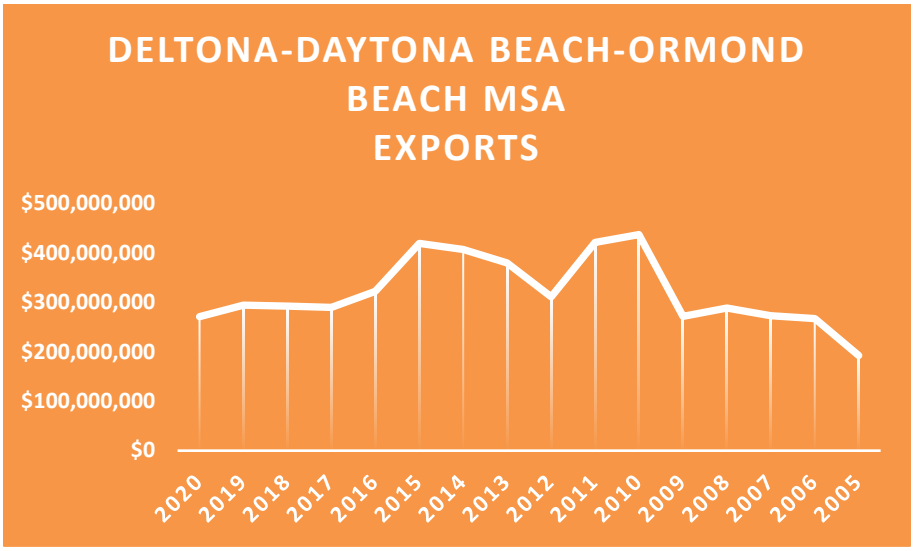
The County has excellent Interstate access. Interstate 95 runs north and south through Volusia County and intersects with Interstate 4 in Daytona Beach. Interstate 95 is the main conduit along the eastern seaboard stretching from Miami to the South and New England to the North. Interstate 4 connects Daytona Beach with Orlando in Central Florida and Florida's west coast connects Interstate 75 in Tampa.

Volusia County is at the center of Florida's growing eastern region. Its proximity to Florida's Interstate Highways, Airports, and the entire eastern seaboard makes Volusia County the ideal location for transport and distribution. The County employs 7,164 logistics and distribution workers.

Volusia County Foreign Trade and Investment

Foreign trade and investment also factor into the equation when focusing on the target industry for expansion and recruitment.

Export/Import Metrics



Industries that export products are leading prospects for economic developers because they cater to the world market and generate the largest economic/fiscal impacts on communities. The region's exports peaked in 2010 declining to $271.4 million in 2020.

[2] Volusia County Commercial Space Supply Chain Characteristics, Bryce Technology, March 27, 2019

Only Ormond Beach company is listed as having exports. Germfree Laboratories, Inc. exported $334,400 worth of exports in 2021. Union Engineering North America had $4.48 million worth of exports, the highest export value in the immediate region (Palm Coast).

Volusia County Import/Export data

Figure 11. Ormond Beach Regional Exports, 2005-2020

Source: View Data: Metro Bulk Table (trade.gov)

A list of the MSA's exports by product type is shown on the following page.

- 314--Textile Mill Products
- 325--Chemicals
- 332--Fabricated Metal Products
- 333--Machinery
- 334--Computer & Electronic Products
- 335--Electrical Equipment
- 336--Transportation Equipment
- 339--Miscellaneous Manufactures
- RESI--Residual - Not in the Top 5

Ormond Beach Target Industries

The 2017-2019 SEDP target industries were:

Advanced Manufacturing

- Aerospace Manufactures: Parts & Components and OEM Supplier
- Computer & Electronic Product Manufacturing: Navigational, Measuring, Electromedical & Control Instruments
- Machine Manufacturing: Agricultural, Construction, and Mining Machinery
- Medical Equipment & Supplies: Medical Machinery, Instrumentation, and Devices

Other Sectors

- Professional & Business Services: Regional Headquarters & Customer Service Centers
- Emerging Technologies: Aerospace Research & Development
- Distribution & Warehouse: Online Retail, Traditional Retail, Food, and Grocery

Current Target Industries

Based in part on data detailed previously, Ormond Beach should focus not only on the Space Coast and Team Volusia target industries but also on the City's current economic development successes as well as considering three specific geographic areas:

- Ormond Crossing and the expanded N US 1 corridor.
- Airport and adjacent properties.
- Commercial Corridors.

The target industries include:

- Manufacturing
- Professional Services
- Aviation & Aerospace
- Logistics & Distribution
- Life Sciences
- Financial & Professional

National Corporate Site Location Criteria

Each year Area Development surveys both corporate leadership and corporate/business site selector consultants to select new sites for new corporate locations or expansion.

The 37th Annual Corporate survey illustrates corporate factors related to location decisions.

Figure 12. Corporate Location Survey, 2021

COMBINED RATINGS* CORPORATE SURVEY

Site Selection Factors	2021	2020
Ranking		
1. Labor costs	96.4	84.2 (5)**
2. Availability of skilled labor	94.9	91.4 (1)
3. Energy availability and costs	94.7	85.3 (3)
4. Inbound/outbound shipping costs	93.2	76.8 (10)
5. Highway accessibility	93.1	88.7 (2)
6. Raw materials availability	87.8	59.1 (21)
7. Corporate tax rate	87.7	80.0 (7)
8. State and local incentives	84.5	77.2 (9)
9. Environmental regulations	82.5	71.6 (13)
10. Tax exemptions	82.4	78.6 (8)

ll figures are percentages and are the total of the "very important" and "important" tings of the Area Development Corporate Survey

As shown, corporate decision-makers ranked labor costs #1, a significant increase from 2020. The other major factors were the availability of skilled labor, energy costs, shipping costs, and highway access.

The latest survey also shows the importance of corporate tax rates, state and local incentives, and environmental regulations.

The 19th Annual Consultant Survey of location factors is usually different that the results of the Corporate survey as shown here. The #1 factor is the proximity of major markets is slightly higher than the availability of skilled labor. The two different surveys list the same overall factors but with available land and available buildings added.

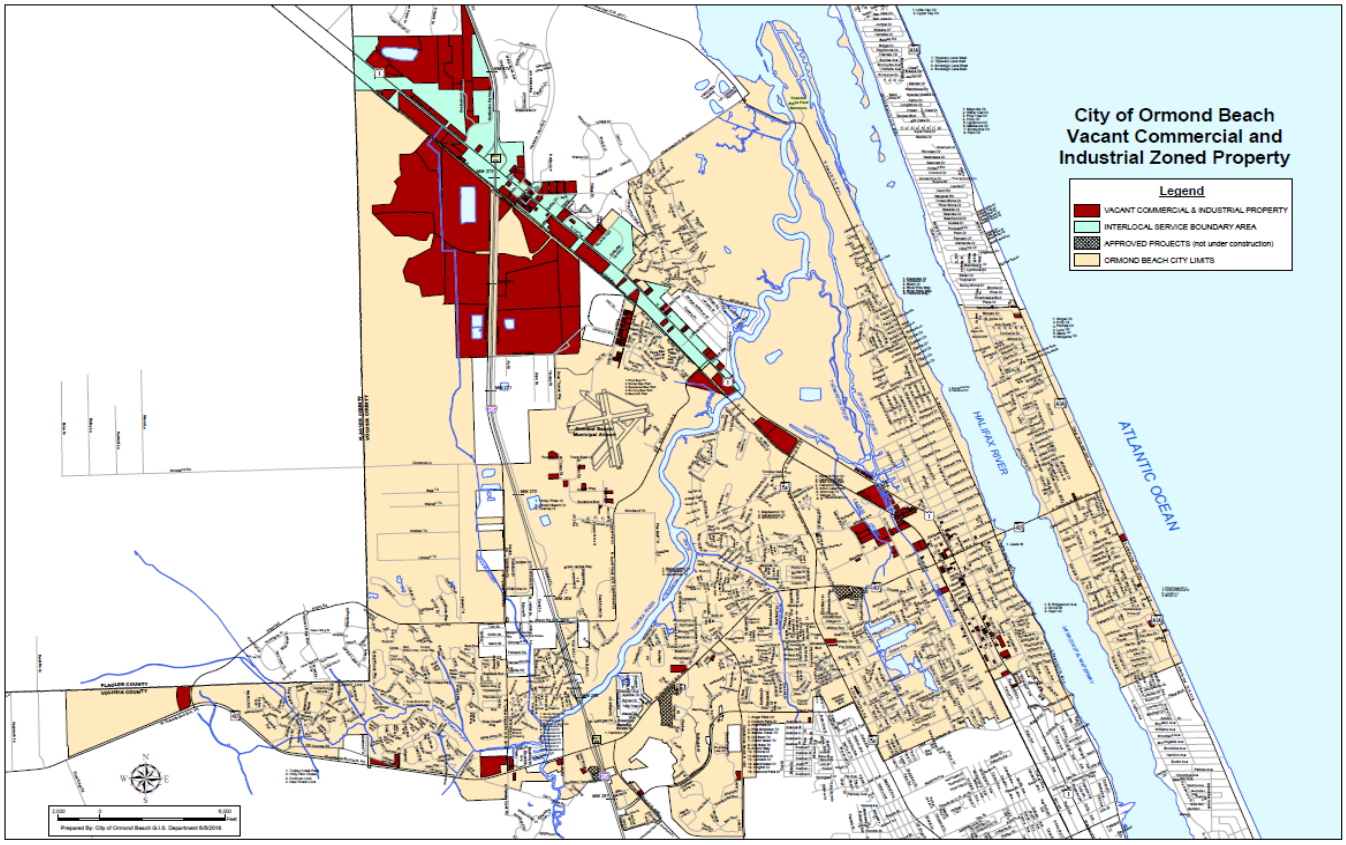
Figure 13. Site Consultant Site Selection Criteria, 2021

Site Selection Factors	2021	2020
Ranking		
1. Proximity to major markets	98.3	89.5 (8)**
2. Availability of skilled labor	98.2	98.3 (2)
3. Highway accessibility	94.8	98.3 (2T)
4T. State and local incentives	93.0	93.0 (5)
4T. Proximity to suppliers	93.0	91.0 (7)
4T. Available land	93.0	89.4 (9)
7. Energy availability and costs	91.2	94.7 (4)
8. Expedited or "fast-track" permitting	89.5	82.5 (14)
9. Occupancy or construction costs	87.5	84.2 (13)
10T. Tax exemptions	86.0	91.2 (6)
10T. Available buildings	86.0	87.7 (10)
10T. Inbound/outbound shipping costs	86.0	86.0 (11T)
13. Labor costs	85.9	100.0 (1)
14. Raw materials availability	79.0	65.0 (21T)
15. Training programs/technical schools	78.9	71.9 (18T)
16. Environmental regulations	76.9	71.9 (18T)
17. Availability of unskilled labor	76.8	65.0 (21T)
18. Quality-of-life	75.4	70.2 (20)
19T. Accessibility to major airport	73.7	80.7 (15)
19T. Water availability	73.7	49.1 (25)
21. Low union profile	70.2	86.0 (11T)
22. Right-to-work state	70.1	77.2 (16)
23. Corporate tax rate	63.1	75.4 (17)
24. Proximity to innovation commercialization/R&D centers	53.6	54.4 (23)
25. Railroad service	43.9	41.9 (26)
26T. Availability of advanced ICT services	42.1	53.6 (24)
26T. Waterway or oceanport accessibility	42.1	35.1 (27)
28. Availability of long-term financing	22.8	29.9 (28)

Both surveys show the importance of incentives in the site selection process.

Figure 14. Importance of Incentives

Source: Area Development Editors <newsletter@areadevelopment.com



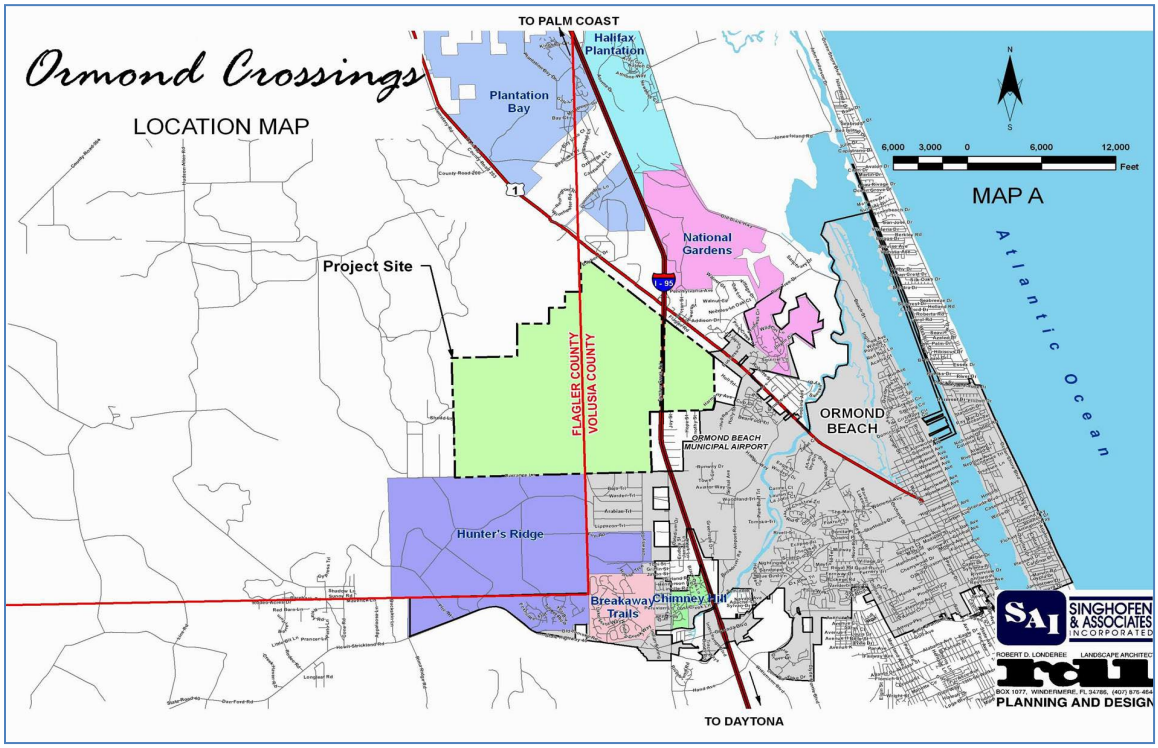
SECTION III INVESTING IN THE CITY'S ECONOMIC DEVELOPMENT FUTURE

A community should spend resources to encourage and support business investment and job creation, especially to diversify the community's tax base. Take for example a manufacturing facility that has a 235,000-square-foot facility that employs about 250 people. The company pays local taxes and fees equivalent to 238 average homes in Ormond Beach. Additionally, the company has created high-paying jobs that require highly skilled employees that live and spend money in the community and region.

Ormond Beach is fortunate to have several economic assets that are driving the City's economic development future and therefore should be a priority for future implementation of the economic development strategic plan.

As shown in the following graphic, land availability is limited within the City. The majority of available land is within the northwest quadrant of the City and along the US 1 corridor.

Figure 15. Vacant Commercial and Industrial Zoned Property

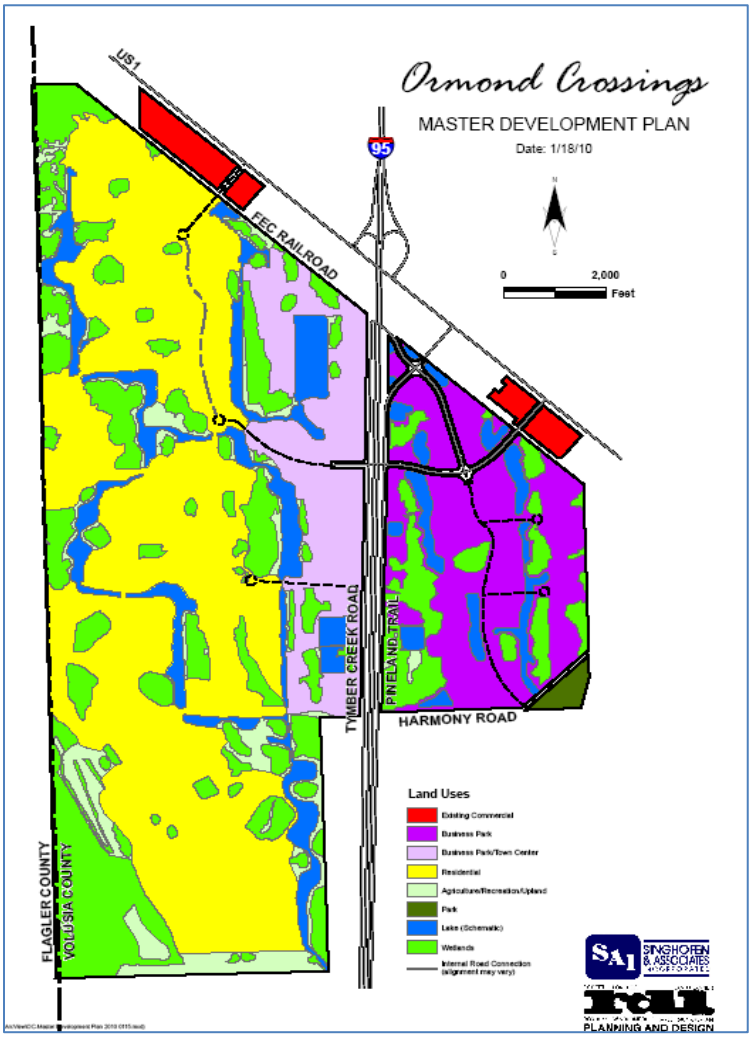


Ormond Crossings

In 2002, the City Commission worked with Volusia County and developer Tomoka Holdings to create a 3,300-acre planned development, including a 570-acre Commerce Park, and provide a land area for job creation and capital investment. It more than doubled the size of the Airport Business Park, which is 173 acres, and its location has two key site selection requirements: visibility and accessibility to a major highway and rail line.

Ormond Crossing is a Community Redevelopment Area (CRA) and on April 21, 2020, the County Council of Volusia County, Florida adopted Resolution 2020-43 amending the CRA for Ormond Crossings again, extending it until the earlier of the following: Completion of payment for Crossing Boulevard Segment 1; or December 31, 2034.

Figure 16. Ormond Crossing Mix Use Development



Ormond Crossings is planned to have 4,870,000 square feet of commercial/industrial usage and 2,950 residential units.

Table 21. Ormond Crossing Land Use

Land Use	Total	
	Sq. Ft.	Units
Retail Commercial	200,000	
Office	900,000	
Business/Flex-space	350,000	
Industrial	800,000	
Storage	240,000	
Warehouse/Distribution	560,000	
Public/Institutional	165,000	
Residential in Ormond		2,950
US 1 Frontage (estimate)	1,655,000	
Total	**4,870,000**	**2,950**

Figure 17. Ormond Crossing

Master Plan

Ormond Crossing is anchored by Security First Insurance Headquarters, a 136,000 sq. ft. building designed to house 750 full-time employees. The building was completed in 2019 and today has over 400 employees. The 2021 appraised value is $19.8 million (2021) and generated a property tax of $347,472.

Figure 18. Security First Insurance Headquarters

Ormond Beach Municipal Airport

The airport facility offers two intersecting runways 9/27 and 17/35, which are 4,004 feet and 3,701 feet respectively, six taxiways that are fully lit, and a 1,000-square-foot passenger terminal building, with 45 on-airport parking spaces. About 50 tie-downs for the

airport's general aviation aircraft and 150 covered parking spaces for aircraft (between the airport's T-hangars and conventional hangars).

About 156 aircraft are based at the airport, with an average of approximately 119,000 annual operations (takeoffs or landings) since 2008. The Airport is owned and operated by the City of Ormond Beach and is designated by the Federal Aviation Administration as a publicly owned, public-use general aviation facility, and by the National Plan of Integrated Airport Systems as a General Aviation (GA) Transport Type (TR) Airport.

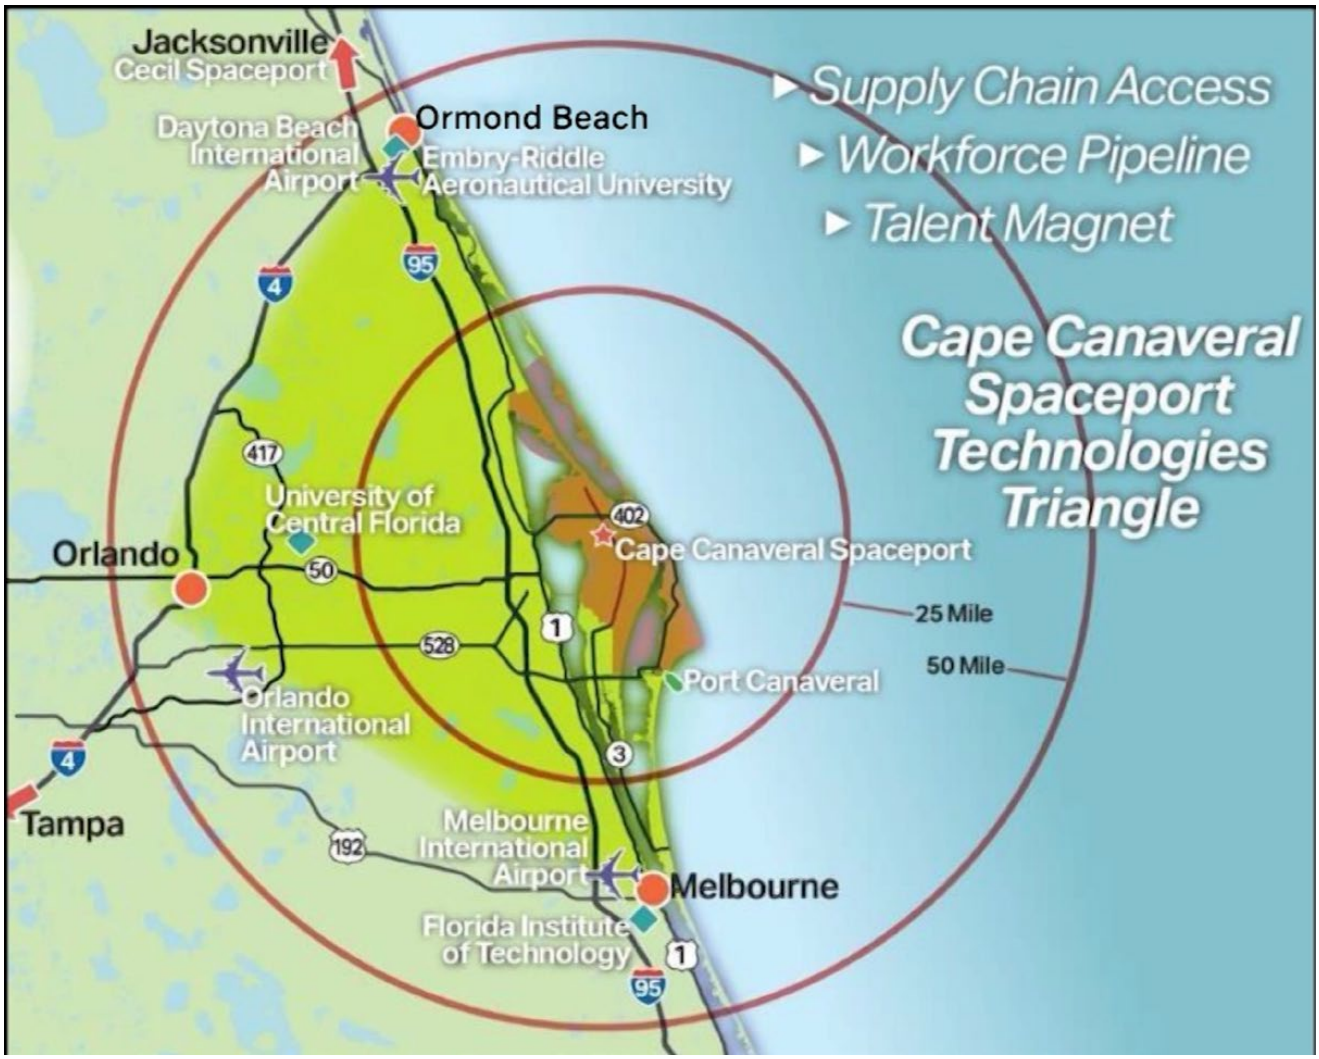
Airports offer economic contributions to the Florida economy locally, regionally, and state-wide. Ormond Beach Municipal Airport is no exception. The airport offers three direct impacts to the community: (1) the provision of aviation services by the businesses at the airport and the jobs and wages they create (2) the capital investment made by the tenants and the capital improvements made by the airport, which facilitates additional revenue and job creation (3) out-of-area spending by businesses and visitors that fly into and through the Ormond Beach Municipal Airport. These direct impacts create indirect impacts within the community and the region. According to the most recent FDOT Statewide aviation impact study, the summation of the direct and indirect impacts generates total regional employment of 426 with total regional payroll of $18.7 million and total regional output or business services of $56 million.

Figure 19. The multiplier effect of general Aviation

The Airport is strategically located between Cecil Spaceport near Jacksonville and Cape Canaveral in Brevard County. The growth and investment in the aerospace industry, particularly surrounding space exploration and emerging technologies like VTOLs (vertical take-off and landing) and UAVs (unmanned aerial vehicles) portend opportunities for growth in supply chain companies located within the region to participate and innovate in this expanding industry cluster.

Figure 20. Ormond Beach near Cape Canaveral

The Ormond Beach airport, as a general aviation facility, has many opportunities to support the growth of this cluster through the use of its facility for business activity as well as for available land for the development of aviation and aerospace-related companies that require immediate access to an airfield. As identified below, the City continues to identify and make important investments in the airport to accommodate this growth.



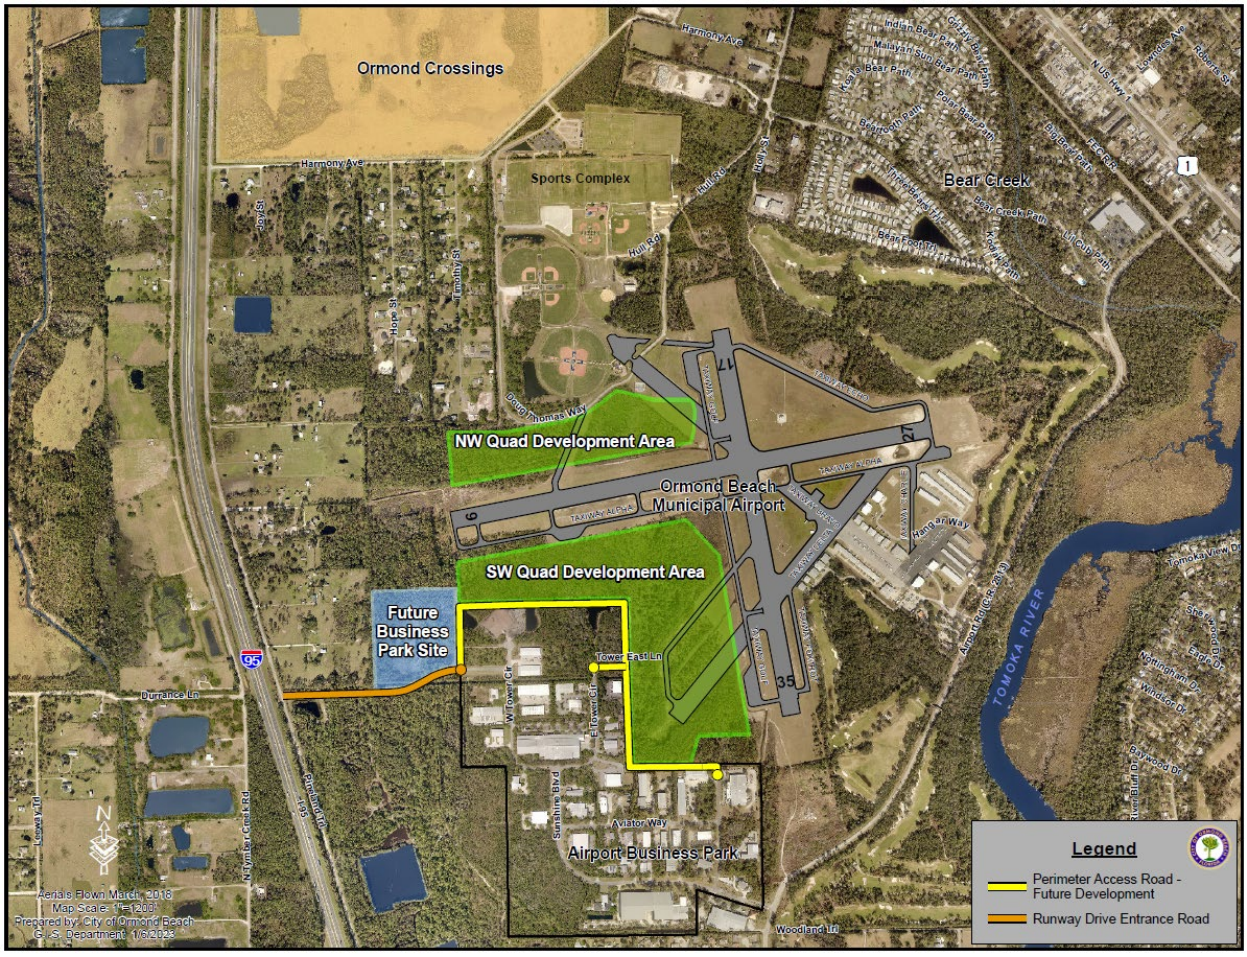


Figure 21. Available Airport Land

Ormond Beach Airport Business Park

The Ormond Beach Airport Business Park is situated on 176 acres and has become a popular address for businesses of all kinds including manufacturing, assembly, back office, communications, engineering, and more. The business park is a major employment center for the city and is home to 48 businesses supporting over 1,000 jobs. A current project underway is the creation of a secondary egress and ingress road to the business park, facilitating a more effective and efficient flow of commerce and employees. As an economic development asset, it will be important for the City to invest in ongoing improvements in the park to accommodate the growth in existing businesses and future businesses that will be attracted to Ormond Beach.

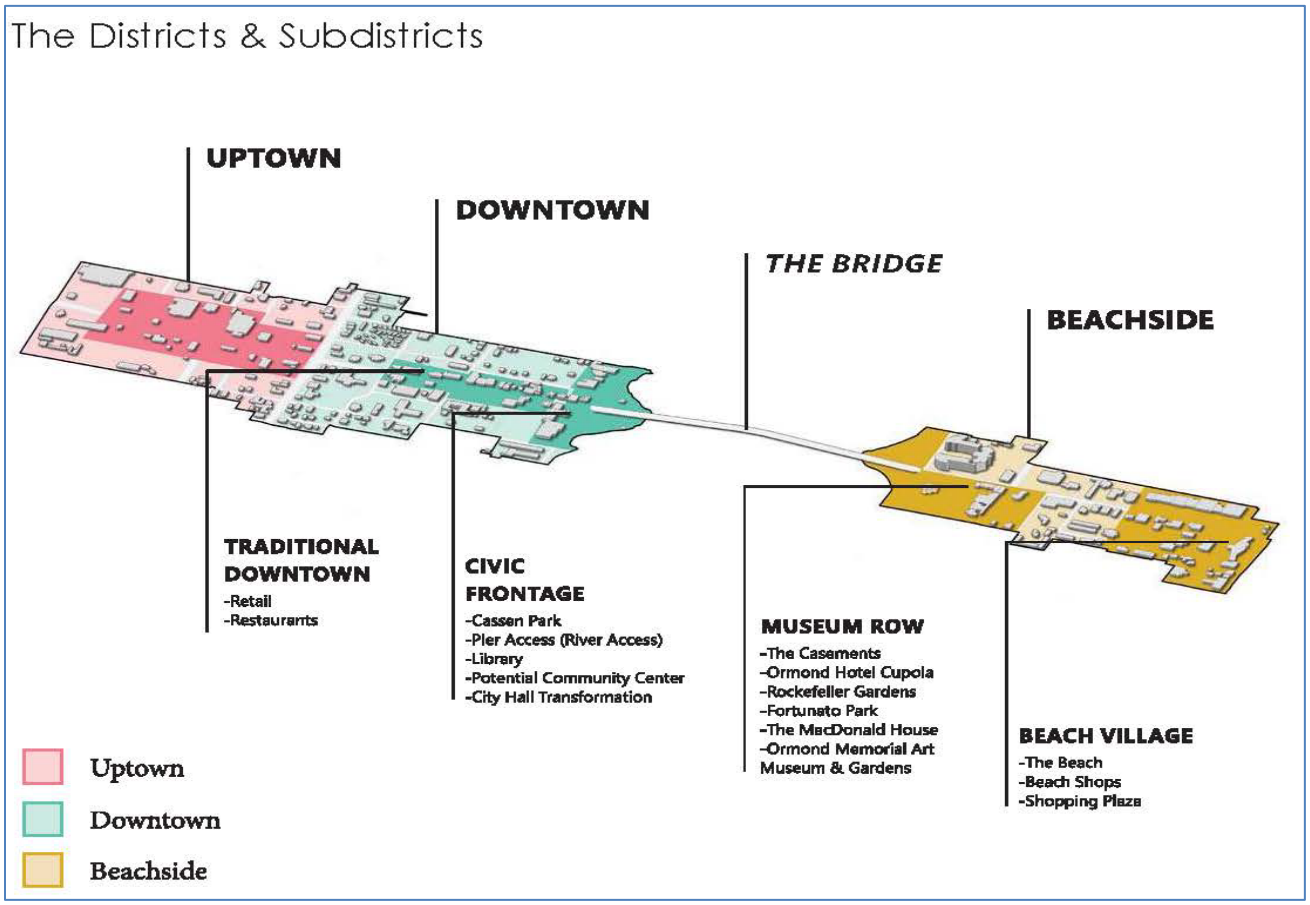
The Ormond Beach Airport Commercial Park is located immediately south and west of the main runway and is home to a large number of tenants as shown below.

Figure 22. Airport Business Park Vicinity Map and List of Tenants.

Historic Ormond Beach

Historic Ormond Beach is a major economic hub. The Downtown is also a Community Redevelopment Area that provides a host of development incentives.

The latest downtown master plan was completed in 2019. In reviewing the Downtown Master Plan and stakeholder input more of the following was desired for this area:



- Walkable streets
- Sidewalk Cafes
- Parking
- Safe Crosswalks
- Mixed-use development
- Arts & cultural events

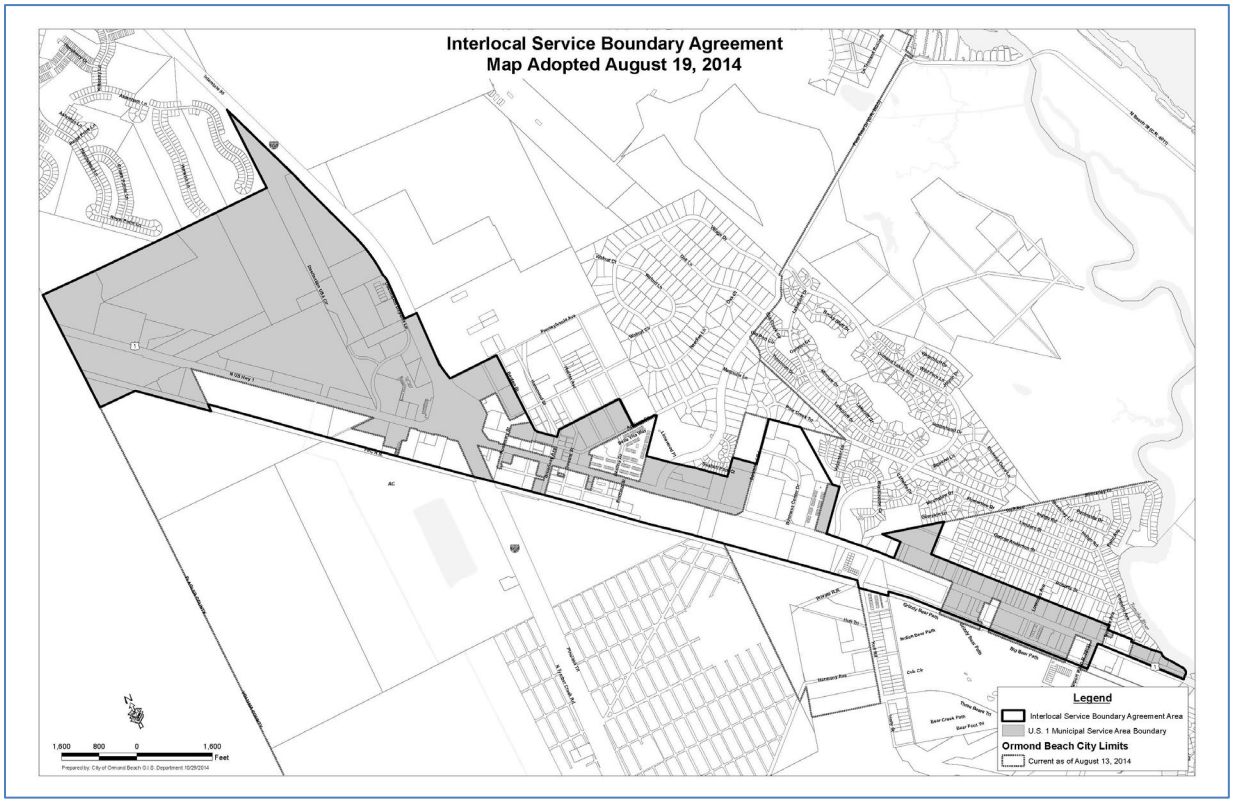
The Master Plan focused on six themes:

1. Economic Development
2. Sense of Place & Appearance
3. Transportation
4. Recreation & Open Space
5. Arts & Culture
6. Residential Neighborhoods

A signature feature of the Ormond Beach CRA is the local flare of the majority of restaurants, retail, and professional and personal services that are offered in the district. The Economic Development Department should continue to work closely with Ormond Main Street to implement the economic development priorities identified in the plan.

Figure 23. Downtown Ormond Planning Districts

Corridors - Economic Development Potential



Except for Ormond Crossing and the Airport, the City's future growth will be through revitalization and infilling within its main arterials (transportation) corridors and through annexation.

North US 1 Investment Corridor

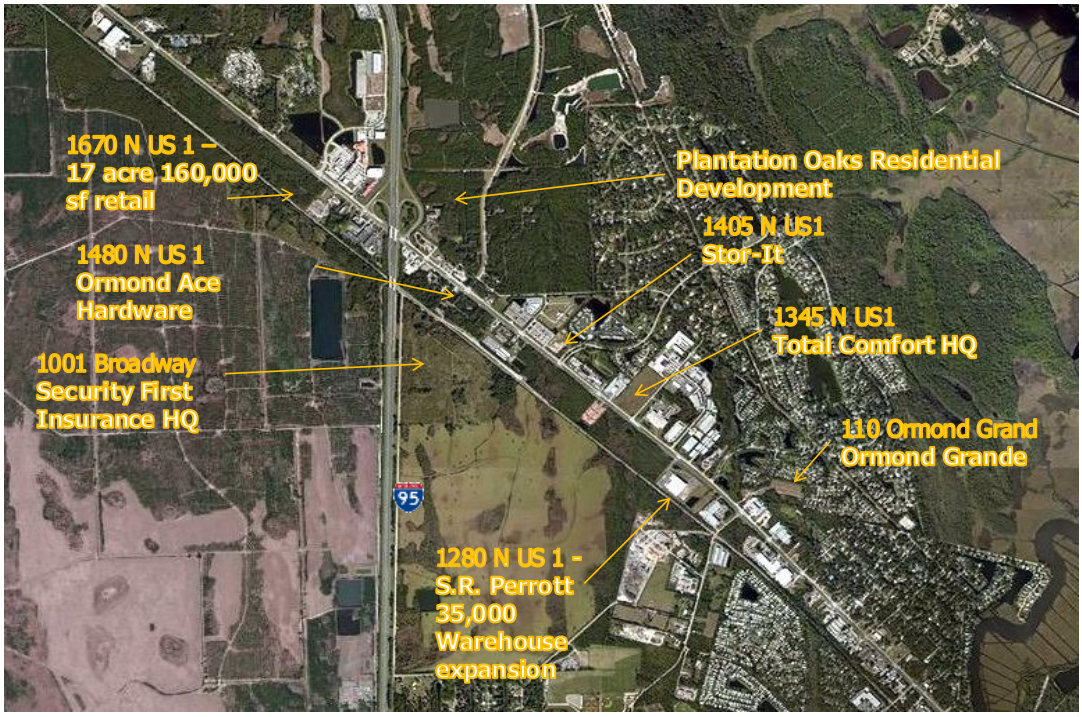
North US1 is the northerly entranceway into the City of Ormond Beach via the interchange at Interstate 95. This north-south transportation corridor has experienced tremendous growth over the past three years, which included industrial, commercial, and residential development. Ormond Beach Commission has for many years encouraged the revitalization of the gateway to eliminate blight and promote economic development, especially the development of Ormond Crossing.

The following graphic shows the overall boundary of the North US 1 corridor.

Figure 25. North US Highway 1 Service Area Boundary

The I-95/US 1 interchange is a major limiting factor in the redevelopment of the corridor and Ormond Crossing. The Florida Department of Transportation (FDOT) is conducting a Project Development and Environment (PD&E) Study for Interstate 95 (I-95) at U.S. 1 interchange (exit 273) in Ormond Beach. The eventual improvement will accommodate the increased traffic demand and support positive economic development growth happening in the corridor.

The City of Ormond Beach and the County of Volusia established a municipal service area for North US Highway 1. The North US Highway 1 corridor serves as the northernmost gateway into the County of Volusia and the cities of Ormond Beach, Holly Hill, and Daytona Beach. Residents, tourists, and business owners utilize the gateway to travel to and from various destination points in the cities.



Ormond Beach Commission has for many years encouraged the revitalization of the gateway to eliminate blight and promote economic development, especially the development of Ormond Crossing.

The I-95/US 1 interchange is a major limiting factor in the redevelopment of the corridor and Ormond Crossing. The Florida Department of Transportation (FDOT) is conducting a Project Development and Environment (PD&E) Study for Interstate 95 (I-95) at U.S. 1 interchange (exit 273) in Ormond Beach.

This study will evaluate improvements to the I-95 interchange as well as the approximately one-mile segment of U.S. 1 between Plantation Oaks Boulevard/Broadway Avenue and Destination Daytona Lane. The purpose of this PD&E Study is to accommodate the existing and future travel demand, improve safety and enhance pedestrian connectivity by developing solutions, known as alternatives, which improve operations at the I-95 interchange and along U.S. 1.

The PD&E study began in August 2021 and is anticipated to take 24 months to complete.

Figure 25. North US1 Development Activity

The following graphic shows some of the development projects that have been or are in the process of being built along North US Highway 1.

According to ESRI data, the North US 1 corridor has 291 businesses with approximately 2,615 employees.

This corridor is home to many long-standing large employers in the City including Edgewell Personal Care, ABB, S.R. Perrott, Hudson Technologies, and Security First Insurance.

Table 22. Businesses within North US 1 Corridor

Data for all businesses in area	
Total Businesses:	291
Total Employees:	2,615
Total Residential Population:	1,410

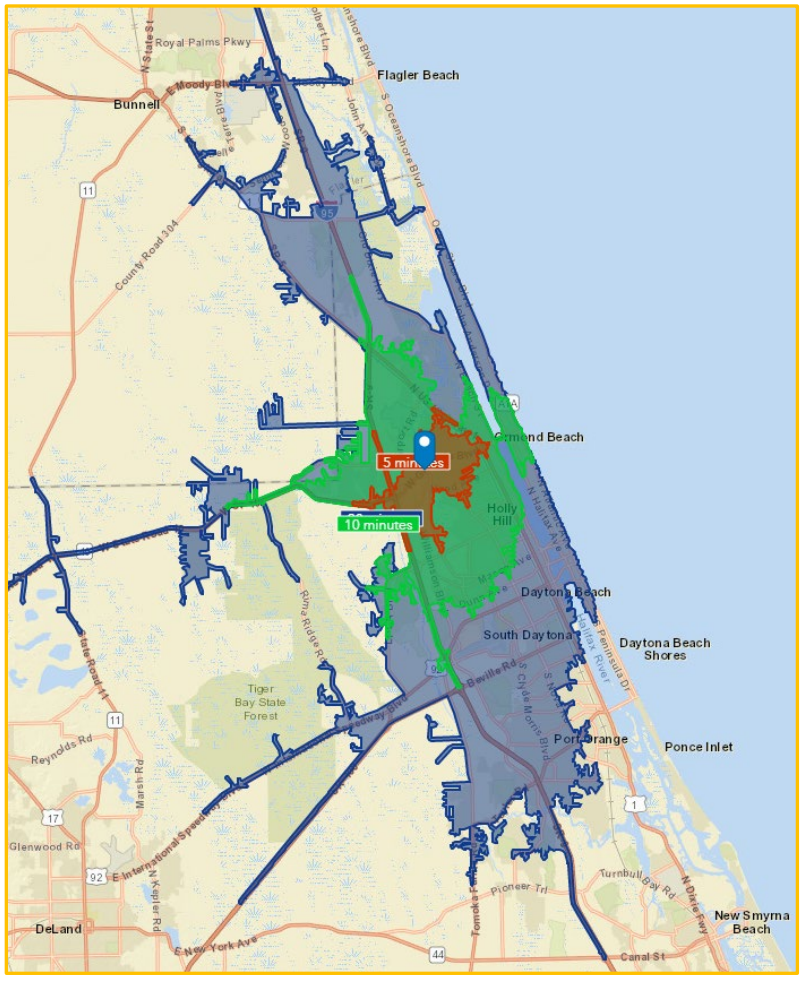
Security First Insurance anchors Ormond Crossing discussed earlier. Ormond Crossing is anchored by Security First Insurance Headquarters, a 136,000 sq. ft. building designed to house 750 full-time employees. The building was completed in 2019 and today has over 400 employees. The 2021 appraised value is $19.8 million (2021) and generated a property tax of $347,472.

Table 23. N US 1 Retail Metrics: 10-minute Radius (green)

Industry Summary	NAICS	Demand (Retail	Supply (Retail Sales)	Retail Gap	Leakage/Surplus Factor	Number of Businesses
Total Retail Trade and Food & Drink	44-45, 722	$701,557,178	$691,927,023	$9,630,155	0.7	509
Total Retail Trade	44-45	$636,219,126	$608,052,555	$28,166,571	2.3	384
Total Food & Drink	722	$65,338,052	$83,874,468	-$18,536,416	-12.4	125
Industry Group	**NAICS**	**Supply (Retail Potential)**	**Retail Gap (Retail Sales)**	**Leakage/ Surplus**	**Leakage/Surplus Factor**	**Number of Businesses**
General Merchandise Stores	452	$101,597,720	$58,150,800	$43,446,920	27.2	17
Nonstore Retailers	454	$17,026,276	$431,722	$16,594,554	95.1	4
Clothing & Clothing Accessories Stores	448	$30,287,645	$18,554,980	$11,732,665	24.0	26
Bldg Materials, Garden Equip. & Supply Stores	444	$46,013,511	$37,505,172	$8,508,339	10.2	41
Electronics & Appliance Stores	443	$17,692,973	$11,473,223	$6,219,750	21.3	14
Gasoline Stations	447,4471	$65,570,985	$61,818,719	$3,752,266	2.9	16
Sporting Goods, Hobby, Book & Music Stores	451	$15,082,730	$11,343,108	$3,739,622	14.2	23
Food & Beverage Stores	445	$110,928,478	$108,135,164	$2,793,314	1.3	39
Miscellaneous Store Retailers	453	$26,179,645	$23,990,718	$2,188,927	4.4	59
Health & Personal Care Stores	446,4461	$44,137,548	$54,219,992	-$10,082,444	-10.3	44
Food Services & Drinking Places	722	$65,338,052	$83,874,468	-$18,536,416	-12.4	125
Furniture & Home Furnishings Stores	442	$22,727,809	$47,470,327	-$24,742,518	-35.2	39
Motor Vehicle & Parts Dealers	441	$138,973,806	$174,958,629	-$35,984,823	-11.5	63

The North US 1 corridor is one of the few areas that still is considered vacant (green) and available for development. As discussed the corridor which includes both Ormond Crossing and the Airport has the greatest potential for future economic development. From a retail industry perspective, several industry stores show growth potential. SPG believes the data below is conservative as it does not include the impacts of the development of either Ormond Crossing or Avalon Daytona Beach.

The corridor does share the market with an estimated 509 retail stores of which 384 are strictly retail trade. The greatest opportunities appear to be General Merchandise, Clothing and Accessories, Building Materials, and Gas Stations.



Retail Sector Update

In light of the infill and development opportunities available in the CRA and along the corridors this SEDP addresses. This SEDP addresses the need for increased retail, both new construction and to fill existing vacancies, particularly in redeveloping Downtown/Main Street. To determine the existing retail market supply and demand, SPG commissioned ESRI, one of the largest providers of retail and marketing statistics in the country to prepare a proprietary retail gap analysis of the city. Most of the major retailers and developers use ESRI data in their site selection studies. The retail gap study identifies total retail expenditures for retail goods (demand) as well as quantifies all merchandise and retail store sales within specified geographic markets (supply). The difference between expenditures (demand) and store sales (supply) indicates that there is a potential for additional merchandise and/or store types or that there is a potential surplus of stores in the market area.

Ormond Beach Citywide Retail Store GAP

Based on the ESRI gap analysis there are existing retail opportunities that the city economic development department can target to bring additional options to residents while at the same time focusing on attracting local and regional retail options that enhance and promote the growth of locally unique options that cannot be found elsewhere. Section III provides more detailed metrics.

Figure 28. Ormond Beach Market Shed, 5,10,20 minute drive time

Finally, the City launched Sizeup Ormond Beach, a free, robust business analytics tool designed to support small and medium-sized businesses in a variety of stages, from entrepreneurs looking to start their first business to seasoned business owners looking to expand their customer base. The tool offers powerful market research and business intelligence that is both industries specific and hyperlocal.

The graphic to the left shows Ormond Beach's primary market service area. Within a 20-minute drive time, its market shed is bounded to the north by Flagler Beach and Port Orange to the south.

The City of Ormond Beach is well positioned to capture the growing commercial needs of the region. With its excellent transportation linkage, oceanfront, and future growth of Avalon Dayton Beach which is located adjacent to the City's western border, and Ormond Crossing located within the City's northern boundary.

Table 24 on the following page documents the Retail GAP found within the boundaries of the City.

Restaurants/Other Eating Places	7225	$55,828,360	$92,709,800	-$36,881,440	-24.8	117

Data Note: Supply (retail sales) estimates sales to consumers by establishments. Sales to businesses are excluded. Demand (retail potential) estimates the expected amount spent by consumers at retail establishments. Supply and demand estimates are in current dollars. The Leakage/Surplus Factor presents a snapshot of retail opportunity. This is a measure of the relationship between supply and demand that ranges from +100 (total leakage) to -100 (total surplus). A positive value represents 'leakage' of retail opportunity outside the trade area. A negative value represents a surplus of retail sales, a market where customers are drawn in from outside the trade area. The Retail Gap represents the difference between Retail Potential and Retail Sales. Esri uses the North American Industry Classification System (NAICS) to classify businesses by their primary type of economic activity. Retail establishments are classified into 27 industry groups in the Retail Trade sector, as well as four industry groups within the Food Services & Drinking Establishments subsector. For more information on the Retail MarketPlace data, please click the link below to view the Methodology Statement.

Entrepreneurship and Small Business Development

The formation of new businesses picked up in 2020, especially here in Ormond Beach. Florida saw an increase of 26.8% in business formation activity and Volusia County now ranks 13th out of 67 Florida counties with a 25% increase over 2019. This "start-up boom" is translating to Ormond Beach and there are programs available to help grow these businesses here. The City, in partnership with the Ormond Beach Chamber of Commerce, continues to create a positive atmosphere for small businesses and entrepreneurs to thrive. Together they re-established and are growing the Ormond Beach Chapter of Startup Grind powered by Google for entrepreneurs. These local events host interactive fireside chats and workshops featuring founders, leaders, and influencers that are changing what entrepreneurship looks like in our community and sharing their journey along the way. The events provide a networking environment where local entrepreneurs can flourish and enhance their business opportunities. Unique opportunities like this are a part of how Ormond Beach and the local community work together in synergy to enhance the knowledge base of our business community.

The City Economic Development Department became an affiliate partner of the Kauffman Foundations FastTRAC program. Offered in partnership with the Volusia/Flagler SCORE, this 10-week program provides entrepreneurs and small businesses an opportunity to grow their idea into a business plans. The course provides information, tips, and exercises in an inviting atmosphere to help aspiring entrepreneurs.

Growth Assistance Program (GAP) Incentives

The City has adopted a Growth Assistance Program (GAP) to provide tax rebate incentives to qualifying developments.

Over that time the City's investment of $1.3 million in incentives created 67 million dollars in capital expenditure by private industry. It also resulted in a 500% increase in taxable value and taxes collected by the City and County.

What is even more impressive is the City's return on investment when looking at projects with Ameritech Die and Mold, Concentrated Aloe, and Padwell Holdings. These are companies that bought land from the City in the airport business park. They built their operations, and the percent change has been outstanding.

Figure 29. Growth Assist Program (GAP)

Growth Assistance Program Projects 2013-2022

The City Ormond Beach businesses in relocation/expansion projects over the last nine years:

Relocation/Expansion	Recruitment
SR Perrott*	VentraHealth (formerly DuvaSawko)*
Valiant Equipment*	Mayhew Tools*
Ameritech Die & Mold*	Future Foods Enterprises*
Edgwell Personal Care*	Super Petrel USA
Germfree	Forte Frozen Foods
Concentrated Aloe*	
Security First Insurance*	
CO2Meter*	

*Projects receiving incentives

Over the course of 9 years, the City has provided local incentives to help companies expand or locate to Ormond Beach.

The City has invested $1,343,542 million into the incentive program.

- The incentives induced private industry to invest $67,079,770 in capital expenditures.
- Taxable value of the properties has increased by over 500%
- Taxes paid to the County has increased by over 500%

Table 25. Summary of the GAP Incentives Program

	Incentive Amount	Capital Expenditure	Taxable Value Before Project *(taxes)*	Taxable Value Current *(taxes)*	Percent Change (%)
TOTAL	$1,343,542	$67,079,770	$7,474,102 *($130,529.55)*	$45,743,674 *($785,178.69)*	512% *(501%)*

It should be noted that the above benefits do not include other revenue generation including utility taxes and franchise fees.

PROGRESS REVIEW OF THE 2017-2019 STRATEGIC ECONOMIC DEVELOPMENT PROGRAM

Progress Review

For the most, part all of the macro goals, objectives, and action steps defined within the 2017-2019 SEDP have been accomplished.

GOALS:

- Retain industrial businesses through visitation programs and assist with expansion projects.
- Conduct an annual Business Retention Survey of the target industry in the City to keep a pulse on business sentiment.
- Work with key target businesses in plant expansion and job creation initiatives.
- Collaborate with economic development partners to market & attract out-of-state businesses/visitors to the City.
- Develop/Implement Main Street economic development initiatives.
- Manage City's Business Park including:
  - Prepare marketing material and promote development opportunities at the airport and business park for attraction and expansion of the target industry.
  - Work closely with businesses on improvements to the electrical and internet infrastructure.
  - Work with Public Works to develop plans and construct the extension of Signal Avenue/Tower Circle East into the Southwest Quadrant of the Airport and construct Runway Drive, a secondary access road for the Airport Business Park.
- Continue to implement programs and initiatives to grow and support entrepreneurs and small businesses in Ormond Beach.
- Publish and distribute quarterly Economic Development newsletter.
- Update the Economic Development Plan Strategic Plan.
- Collaborate closely with Owners to open land in the Ormond Crossings master development project.

ACCOMPLISHMENTS:

- Worked with businesses throughout the City to retain and expand their operations and employment base, including Germfree and Maxton Group.
- Updated economic development marketing material to promote business attraction in the City, Ormond Crossings, Ormond Beach Airport, and Business Park.
- Published four Ormond Beach Economic Development Update Newsletters to the business community.
- Hosted three courses of the Kauffman FastTRAC Program as part of the National League of Cities and Ewing Kauffman Foundation's City Innovation Ecosystems (CIE) program in partnership with the Volusia/Flagler SCORE Chapter.
- Launched SizeUp Ormond Beach, provides business owners and aspiring entrepreneurs with market research and business insights to help them make smarter decisions with data to effectively grow their business.
- In collaboration with the Ormond Chamber published a new edition of "Doing Business in Ormond Beach" a guide to starting and expanding business in Ormond Beach.
- In collaboration with the Ormond Beach Chamber of Commerce, hosted Startup Grind Fireside Chats for the entrepreneur and start-up community.
- The design work for Runway Drive, a collector roadway in the airport business park is complete.
- Provided leadership and consultation to the Ormond Beach Chamber of Commerce, Main Street Inc., and

Team Volusia EDC organizations to improve the business climate in the City.

The following table shows an accounting of the progress made by a specific objective. A YES under status means that the action step has been completed.

Goal 1. Retention/Expansion Existing Manufacturing & Technology

	Action Steps	Year 2017	Year 2018	Year 2019	2022 Status
OBJ. 1.1	**Foster a Healthy Business Environment**				
1.1.1	Conduct business visitation program and related surveys				YES
1.1.2	Continue to perform annual tax rate analysis				YES
1.1.3	Provide business assistance program				YES
1.1.4	Assign coordinator/liason/facilitator to expedite permitting for expansion of manufacturing and high technology buisinesses				YES
OBJ. 1.2	**Assist Businesses with Hiring/Training Skilled Labor Force Programs**				
1.2.1	Work with Career Source employment agency to promote employment assistance programs				YES
1.2.2	Work with local education institutions i.e. Embry Riddle, Daytona State College to promote educational programs for business development				YES
1.2.3	Promote internships with businesses and educational institutions				YES
1.2.4	Work with Volusia manufacturing association to determine manufacturing and technology needs for education programs				YES
OBJ. 1.3	**Assist Businesses with Access to Capital/Financial Incentive Programs**				
1.3.1	Continue the City's Growth Assistance Program of performance based economic development incentives				YES
1.3.2	Maintain informational repository for financial incentive programs				YES
1.3.3	Assist businesses in qualifying for State of Florida economic development funds (Most eliminated)				YES
OBJ. 1.4	**Assist Commercial/Industrial Business Expansion**				
1.4.1	Maintain an inventory of business park and airport properties				YES
1.4.2	Prepare marketing material to recruit businesses/developers to available properties				YES
1.4.3	Work with Volusia County officials to promote trade program opportunites to businesses, improve and distribute				YES
1.4.4	Expand economic development budget				YES
1.4.5	Work with Ormond Crossings developer to determine feasibility to acquire the 570 acre development site and encourage connectivity to Airport				YES
OBJ. 1.5	**Maintain "Open for Business" Expedited Permiting Process**				
1.5.1	Work with City staff to maintain a streamline permitting process and provide a facilitator				YES
1.5.2	Maintain and update business development standards and regulations				YES
OBJ. 1.6	**Development of Municipal Airport**				
1.6.1	Implement 2016 Airport Master Plan				YES
1.6.2	Apply for Federal and State Airport grants				YES
1.6.3	Design and construct runway extention (Runway 8)				NO
1.6.4	Design and construct roadways to SW Quadrant (/Design)				NO
1.6.5	Market Airport properties to Aviation related businesses and tenants				YES
1.6.6	Accelerate construction and development of municipal / FBO				NO
1.6.7	Evaluate the development of perimeter road to link north and south side of Airport				NO

Goal 2. Recruit New Jobs and Capital to City

	Action Steps	Year 2017	Year 2018	Year 2019	2022 Status
OBJ. 2.1	**Create Shovel Ready Sites**				
2.1.1	Ensure available property for business development				YES
2.1.2	Create regional commerce park (Ormond Crossings)				YES
2.1.3	Attract new industries to the Ormond Beach Airport				YES
2.1.4	Identify other sites in Ormond Beach for development				YES
OBJ. 2.2	**Enhance Strategic Economic Development Plan Implementation Process**				
2.2.1	Coordinate SEDP with City's Land Development Plan				YES
2.2.2	Develop competitive business environment				YES
2.2.3	Explore use of non-profit community development organizations (CDO) in economic development				YES
OBJ. 2.3	**Assist Businesses with Workforce Attraction**				YES
2.3.1	Support work based learning (internships)				
2.3.2	Promote an entrprenuerial environment				YES
OBJ. 2.4	**Enhance Quality of Life**				YES
2.4.1	Explore waterfront development (river and ocean) i.e. areas for potential restaurant, etc.				YES
2.4.2	Promote retail development along business corridors				YES
2.4.3	Improve image of bridge i.e. painting and enhancements				
OBJ. 2.5	**Market the City's Economic Development Programs**				
2.5.1	Coordinate marketing strategies with agencies and organizations to attract manufacturing and high tech industries				YES
2.5.2	Provide businesses with information on financial incentive programs				YES

Goal 3. Promote Downtown Redevelopment and Visitation

	Action Steps	Year 1	Year 2	Year 3	2022 Status
OBJ. 3.1	**Faciltiate Downtown Redevelopment Projects**				
3.1.1	Work with property owners and realtors to identify suitable properties for business expansion and recruitment projects				YES
3.1.2	Prepare retail/commercial gap opportunities to Ormond Mainstreet				YES
3.1.3	Create a downtown retail recruitment team				NO
3.1.4	Conduct site specific redevelopment planning				NO
3.1.5	Establish/maintain a downtown property database				NO
3.1.6	Promote mixed use development projects				YES
3.1.7	Incorporate SEDP recommendations to Ormond Mainstreet programs				YES
3.1.8	Implement relevent 2006 Downtown Master Plan redevelopment strategies				YES
OBJ 3.2	**Provide CRA and Economic Development Funds for Downtown Development Projects**				
3.2.1	Promote Community Redevelopment Area grant programs				YES
3.2.2	Research and evaluate Ormond Mainstreet related finance programs				YES
OBJ. 3.3	**Promote Visitor Attraction to the Downtown**				
3.3.1	Work with Ormond Mainstreet and Ormond Chamber to develop a marketing plan to attract visitors				NO
3.3.2	Promote use of The Casements to the business community				NO
3.3.3	Update and maintain Ormond Mainstreet website				YES

3.3.5	Coordinate with Ormond Mainstreet the location of new retail stores, restuarants, and visitor attraction events to the downtown				YES
3.3.6	Provide hoteliers with downtown marketing material				NO
3.3.7	Evaluate downtown public signage program				YES
3.3.8	Promote connectivity/visiability of downtown parking lots and lighting, transit corridors between parking lots and street				YES
3.3.9	Enhance the appearance of the Bridge				YES
OBJ 3.4	**Develop the Downtown Arts District**				
3.4.1	Support Ormond Mainstreet in building an Arts District				YES
3.4.2	Identify properties for arts related retail and studio sites				YES
OBJ 3.5	**Develop and Promote a Downtown/Mainstreet Branding Program**				
3.5.1	Utilize the SEDP recommendations in formualting a downtown branding process				YES
OBJ 3.6	**Create an Economic development plan for A1A - south of Granada Blvd.**				
3.6.1	Evaluate revisions to the Land Development Plan				NO
3.6.2	Create an A1A Hospitality Planning Group				NO
OBJ 3.7	**Obtain Historic designation and signage "museum corridor"**				
3.7.1	Complete research for historic designation				NO
3.7.2	Work with FDOT for Historic District Signage (Brown Sign) placement alon I-95				NO
OBJ 3.8	**Develop a Public Informational & Communications Program**				
3.8.1	Develop presentations to communicate downtown happening to citizens and organizations				YES

PREPARING THE 2023-2027 STRATEGIC ECONOMIC DEVELOPMENT PLAN

Using the 2017-19 SEDP as a starting point, Strategic Planning Group, Inc. (SPG), working with the City's Economic Development Department staff, conducted a workshop on February 22, 2023, that included some participants from business and industry, public agencies, and the general public. Some thirty persons attended the five-hour session. A presentation of economic and demographic data establishing "what and where" the City is at present as well as a review of what was accomplished as it related to the 2017-2019 SEDP, was given by the SPG team.

Strengths, Weaknesses, Threats, Opportunities (SWOT)

The participants on February 22, 2023, Workshop reviewed older SEDPs concerning the City's SWOT about Economic Development.

As shown on the following page, the stakeholders including staff developed a detailed consensus list of the City's strengths, weaknesses, threats, and opportunities as a starting point for the development of the new SEDP.

Figure 26. Ormond Beach SWOT Results (February 22, 2023)

STRENGTHS	WEAKNESSES
Excellent regional location & Proximity to Daytona Beach International Airport Proximity to 8 colleges/universities Airport Business Park Cost Competitive infrastructure Ormond Crossing Quality of life Low Crime/Public Safety/Response Time Stable pro-business government Vibrant Downtown Access to Religious Diversity Organic Growth Entrepreneurship	Traffic Schools (access to academies) Medical Facilities on Beach side Limited air service from Daytona International Lack of independent Identity / Branding Lack of Skilled Labor Force Lack of Workforce Housing Access to fiber Lack of Major Flagship Hotel/conference center Lack of entry-level employment opportunities Limited vacant developable land other than Ormond Crossing Lack of interest in developing industrial projects Perception of parking availability downtown
Ormond Crossing Commerce Park Nurture Industrial Growth at Airport/Park The continued growth of Space Coast Continued redevelopment of Downtown Redevelopment of Major Corridors Improved Infrastructure Overnight Dockage Building a Flagship Motel Annex Land Invest in existing businesses to help infill Create awareness of existing training programs Bring startups (tech) through aggressive marketing Medical Facilities to Beachside	National economy (Recession) Higher Interest Rates Higher Mortgage rates Higher Home prices Proposed Industrial Development within Volusia and Flagler Counties Available Water Lack of developable Land Can not keep up with Florida/Volusia County population growth
OPPORTUNITIES	THREATS

The participants were then divided into three focus groups to provide principal oversight and input as it related to the review of the older SEDP concerning its overall mission, its macro goals, and its objectives. The workshop resulted in changes and refinement to older objectives and adding additional objectives to the new five-year 2023-2027 Strategic Economic Development Plan that will be managed by the City's Economic Development Department.

Mission Statement

The mission of the Strategic Economic Plan is to influence the existing and future landscape of Ormond Beach by being initiative-taking in business retention, expansion, and attraction.

Macro Goals

- Expand the Ormond Beach non-residential tax base and other revenue sources.
- Provide a variety of employment opportunities in Ormond Beach.
- Maintain and increase the financial wealth of Ormond Beach residents.
- Ensure quality commercial and industrial development.

- Increase participation and regional coordination of economic development efforts to eliminate redundancies.

Recommended New Goals, Objectives, and Strategies

After the Strategic Planning Workshop, Strategic Planning Group, Inc., and the City of Ormond Beach Economic Development Department staff prepared the overall 2023-2027 Strategic Economic Development Plan (SEDP) including the strategies required to implement the Plan's objectives as well as the timing of those strategies. This section shows the 2023-2027 SEDP Implementation Plan.

Ormond Beach 2023-2027 Strategic Economic Development Plan Summary

The five-year Strategic Economic Development Plan (SEDP) has been developed to serve the City of Ormond Beach as a guide to identifying key priorities in diversifying the City's economy. The SEDP also identifies key challenges, ensures stakeholder consensus, and formulates recommendations for implementation of the SEDP.

The goals, objectives, and policies of the SEDP are designed in the three main areas of economic development: Retaining and expanding "Target Industries", recruitment of jobs and capital investment, and redeveloping major corridors.

The SEDP is a document that City officials, residents, local businesses, and real estate investors should view as a tool for shaping the community's future financial viability.

A summary listing of the SEDP's three goals, 18 objectives, and 78 strategies is listed below.

Ormond Beach SEDP's Goals, Objectives, and Strategies:

Goal 1. Retain and Expand "Target Industries"

OBJ. 1.1 Foster a Healthy Business Environment

1.1.1 Conduct business visitation program and related surveys
1.1.2 Continue to perform annual tax rate analysis.
1.1.3 Provide technical assistance to businesses.
1.1.4 Continue to function as a liaison to expedite permitting for expansion of manufacturing and high technology businesses.
1.1.5 Build a supportive environment for entrepreneurs.
1.1.6 Improve ease of doing business.

OBJ. 1.2 Assist Businesses with Hiring/Training Skilled Labor Force Programs

1.2.1 Work with Career Source employment agency to promote employment assistance programs.
1.2.2 Work with local education institutions i.e. Embry Riddle, and Daytona State College to promote educational programs for business development.
1.2.3 Promote internships with businesses and educational institutions.
1.2.4 Work with the Volusia manufacturing association to determine manufacturing and technology needs for education programs.

OBJ. 1.3 Assist Businesses with Access to Capital/Financial Incentive Programs

1.3.1 Continue the City's Growth Assistance Program of performance-based economic development incentives.
1.3.2 Maintain an informational repository for financial incentive programs.
1.3.3 Assist businesses in qualifying for the State of Florida economic development funds (Most eliminated).
1.3.4 Promote Industrial Bonds.
1.3.5 Create a revolving loan fund.
1.3.6 Create a startup/angel opportunity fund.
1.3.7 Promote business awareness of Volusia Business Resources (VBR).

OBJ. 1.4 Assist Commercial/Industrial Business Expansion

1.4.1 Maintain and market an inventory of business park and airport properties.
1.4.2 Prepare marketing material to recruit businesses/developers to available properties.
1.4.3 Work with Volusia County officials to promote trade program opportunities to businesses and improve and distribute them.
1.4.4 Expand economic development budget.
1.4.5 Develop incentives to promote the construction of spec space.

OBJ. 1.5 Maintain " Open for Business" " Expedited Permitting Process"

1.5.1 Work with City staff to maintain a streamlined permitting process and provide a facilitator
1.5.2 Maintain and update business development standards and regulations

OBJ. 1.6 Development of Municipal Airport

1.6.1 Implement Airport Master Plan
1.6.2 Apply for Federal and State Airport Grants
1.6.3 Reuse and repurpose golf course on airport property
1.6.4 Design and construct roadways to SW Quadrant (/Design)
1.6.5 Market Airport Properties to Aviation and aerospace businesses
1.6.6 Accelerate construction and development of municipal / FBO
1.6.7 Design and construct airport perimeter access roads

OBJ. 1.7 Assist in the development of Ormond Crossing Commerce Park

1.7.1 Conduct meetings with the Property owner
1.7.2 Work with OCCP real estate brokers
1.7.3 Collaborate with Team Volusia, VCED, Enterprise Florida

Goal 2. Recruit Jobs and Capital Investment

OBJ. 2.1 Create Shovel-Ready Sites

2.1.1 Identify available property for commercial and industrial development.
2.1.2 Create a regional commerce park (Ormond Crossings).
2.1.3 Attract new industries to the Ormond Beach Airport
2.1.4 Identify other sites in Ormond Beach for development.
2.1.5 Lobby for the I95/US 1 Interchange.
2.1.6 Lobby for a bridge over FEC railroad tracks.

OBJ. 2.2 Enhance Strategic Economic Development Plan Implementation Process

2.2.1 Coordinate SEDP with City's Land Development Plan.
2.2.2 Market the City's competitive business environment.
2.2.3 Explore the use of non-profit community development organizations (CDOs) in economic development projects.
2.2.4 Improve ease of doing business.
2.2.5 Develop and monitor SEDP metrics.
2.2.6 Educate and promote Economic Development in the community.

OBJ. 2.3 Assist Businesses with Workforce Attraction

2.3.1 Support work-based learning (internships).
2.3.2 Promote an entrepreneurial environment.
2.3.3 Market the concept of "East Centra Florida" as a new marketing region.
2.3.4 Define and evaluate East Centra Florida workforce attributes.

OBJ. 2.4 Enhance Quality of Life

2.4.1 Explore waterfront development (river and ocean) i.e. areas for potential restaurants, etc.
2.4.2 Promote retail development along business corridors.
2.4.3 Improve the image of the bridge i.e. painting and enhancements.
2.4.4 Promote and assist in the development of attractions for a young workforce.
2.4.5 Promote Eco-Tourism.

OBJ. 2.5 Market the City's Economic Development Programs

2.5.1 Coordinate marketing strategies with agencies and organizations to attract the manufacturing and high-tech industries.
2.5.2 Implement the Marketing Blueprint Strategy.

Goal 3. Redevelop Major Corridors

OBJ. 3.1 Facilitate Redevelopment Projects

3.1.1 Work with property owners and realtors to identify suitable properties for business expansion and recruitment projects.
3.1.2 Prepare retail/commercial gap opportunities for major corridors.
3.1.3 Conduct site-specific redevelopment planning.
3.1.4 Establish/maintain a corridor property database.
3.1.5 Promote mixed-use development projects.
3.1.6 Assist in the development of a downtown boutique hotel (one of the City’s four corners).
3.1.7 Identify an area in need: US 1 corridor to Granada; Wilmette to Old Dixie Hwy.
3.1.8 Support transportation projects that enhance ED.
3.1.9 Evaluate the downtown public signage program.
3.1.10 Promote connectivity/visibility of downtown parking lots and lighting to transit corridors, between parking lots and streets.
3.1.11 Enhance the appearance of the Bridge.
3.1.12 Encourage ER/Medical presence on the Beachside.

OBJ 3.2 Provide Funds for Development Projects

3.2.1 Identify potential funding sources.
3.2.2 Research and evaluate corridor-related finance programs.
3.2.3 Pursue the beautification of the major corridors.

3.2.4 Fund beautification of I 95/Ormond Crossing to Wilmette.

OBJ. 3.3 Collaborate with Partners to Market Corridors

3.3.1 Work with Ormond Mainstreet and Ormond Chamber to develop a marketing plan to attract visitors.
3.3.2 Promote the use of The Casements to the business community.
3.3.3 Coordinate with Ormond Mainstreet the location of new retail stores, restaurants, and visitor attraction events in the corridors.
3.3.4 Provide hoteliers with downtown/corridor marketing material.
3.3.5 Market Activities and Events in Historic Ormond Beach.
3.3.6 Create an A1A Hospitality Planning Group.
3.3.7 Develop presentations to communicate Historic Ormond Beach happenings to citizens and organizations
3.3.8 Create a citywide retail recruitment team

OBJ 3.4 Promote Eco-Tourism

3.4.1 Work with VCED, RD, and Team Volusia to promote Eco-Tourism.
3.4.2 Work with FDOT for Historic District Designation (Brown Sign) placement along I-95.

RECOMMEND NEW GOALS, OBJECTIVES, AND STRATEGIES

After February 22, 2023, the stakeholder Strategic Economic Development (SEDP) workshop Strategic Planning Group, Inc, and City EDD staff prepared the overall 2023-2027 SEDP including the strategies required to implement the Plan's objectives as well as their timing.

Goal 1. Retain and Expand "Target Industries"

	Action Steps	Responsibility	Year 2023	Year 2024	Year 2025	Year 2026	Year 2027
OBJ. 1.1	**Foster a Healthy Business Environment**						
1.1.1	Conduct business visitation program and related surveys	EDD					
1.1.2	Continue to perform annual tax rate analysis	EDD					
1.1.3	Provide technical assistance to the businesses	EDD and other Departments (permit/zoning etc), VBR					
1.1.4	Continue to act as liaison to expedite permitting for expansion of manufacturing and high technology buisinesses	EDD and other City staff					
1.1.5	Build a supportive environment of entrepreneurs	EDD, City, Chamber, CRAs, Develop a Task Force					
1.1.6	Improve ease of doing business	EDD,other City Staff					
OBJ. 1.2	**Assist Businesses with Hiring/Training Skilled Labor Force Programs**

1.2.4	Work with Volusia manufacturing association to determine manufacturing and technology needs for education programs	EDD, VMA					
OBJ. 1.3	**Assist Businesses with Access to Capital/Financial Incentive Programs**						
1.3.1	Continue the City's Growth Assistance Program of performance based economic development incentives	EDD					
1.3.2	Maintain informational repository for financial incentive programs	EDD					
1.3.3	Assist businesses in qualifying for State of Florida economic development funds (Most eliminated)	EDD, Team Volusia					
1.3.4	Promote Industrial Bonds	EDD, VC EconDev					
1.3.5	Create a revolving loan fund	EDD, City					
1.3.6	Create a startup/angel opportunity fund	EDD, Banks, Regional Partners					
1.3.7	Promote business awareness of VBR	EDD					

	Action Steps	Responsibility	Year 2023	Year 2024	Year 2025	Year 2026	Year 2027
OBJ. 1.4	**Assist Commercial/Industrial Business Expansion**						
1.4.1	Maintain and market an inventory of business park and airport properties	EDD, OMN					
1.4.2	Prepare marketing material to recruit businesses/developers to available properties	EDD, Team Volusia					
1.4.3	Work with Volusia County officials to promote trade program opportunites to businesses, improve and distribute	EDD, VCED, Team Volusia					
1.4.4	Expand economic development budget	EDD, City					
1.4.5	Develop incentives to promote construction of spec space	EDD					
OBJ. 1.5	**Maintain "Open for Business" Expedited Permiting Process**						
1.5.1	Work with City staff to maintain a streamline permitting process and provide a facilitator	EDD, Planning Department					
1.5.2	Maintain and update business development standards and regulations	EDD, Planning Department					
OBJ. 1.6	**Development of Municipal Airport**						
1.6.1	Implement Airport Master Plan	Airport Manager					
1.6.2	Apply for Federal and State Airport grants	Airport Manager					
1.6.3	Reuse and repurpose golf course on airport property	Airport Manager, EDD, City					
1.6.4	Design and construct roadways to SW Quadrant (/Design)	Airport Manager					
1.6.5	Market Airport properties to Aviation and aerospace businesses	EDD					
1.6.6	Accelerate construction and development of municipal / FBO	Airport Manager					
1.6.7	Design and construct airport perimeter access roads	Airport Manager, City Staff/consultant					
OBJ. 1.7	**Assist in the development of Ormond Crossing Commerce Park**						
1.7.1	Conduct meetings with Property owner	EDD, City					
1.7.2	Work with OCCP real estate brokers	EDD, City					
1.7.3	Collaborate with Team Volusia, VCED, Enterprise Florida	EDD					

	Action Steps	Responsibility	Year 2023	Year 2024	Year 2025	Year 2026	Year 2027
Goal 2. Recruitment of Jobs and Capital Investment							
OBJ. 2.1	**Create Shovel Ready Sites**						
2.1.1	Identify available property for commercial and industrial development	EDD, Planning Department					
2.1.2	Create regional commerce park (Ormond Crossings)	Property owner					
2.1.3	Attract new industries to the Ormond Beach Airport	EDD, Team Volusia, VCED					
2.1.4	Identify other sites in Ormond Beach for development	EDD, PD					
2.1.5	Lobby for the I95/US 1 Interchange make change from word	EDD, Team Volusia, VCED					
2.1.6	Lobby for bridge over FEC railroad tracks	EDD, Team Volusia, VCED					
OBJ. 2.2	**Enhance Strategic Economic Development Plan Implementation Process**						
2.2.1	Coordinate SEDP with City's Land Development Plan	EDD, PD					
2.2.2	Market the City's competitive business environment	EDD, Team Volusia, VCED					
2.2.3	Explore use of non-profit community development organizations (CDO) in economic development projects	EDD					
2.2.4	Improve ease of doing business	EDD, PD					
2.2.5	Develop and monitor SEDP metrics	EDD					
2.2.6	Educate and promote Economic Development to community	EDD					
OBJ. 2.3	**Assist Businesses with Workforce Attraction**						
2.3.1	Support work based learning (internships)	EDD, Chamber, CareerSource

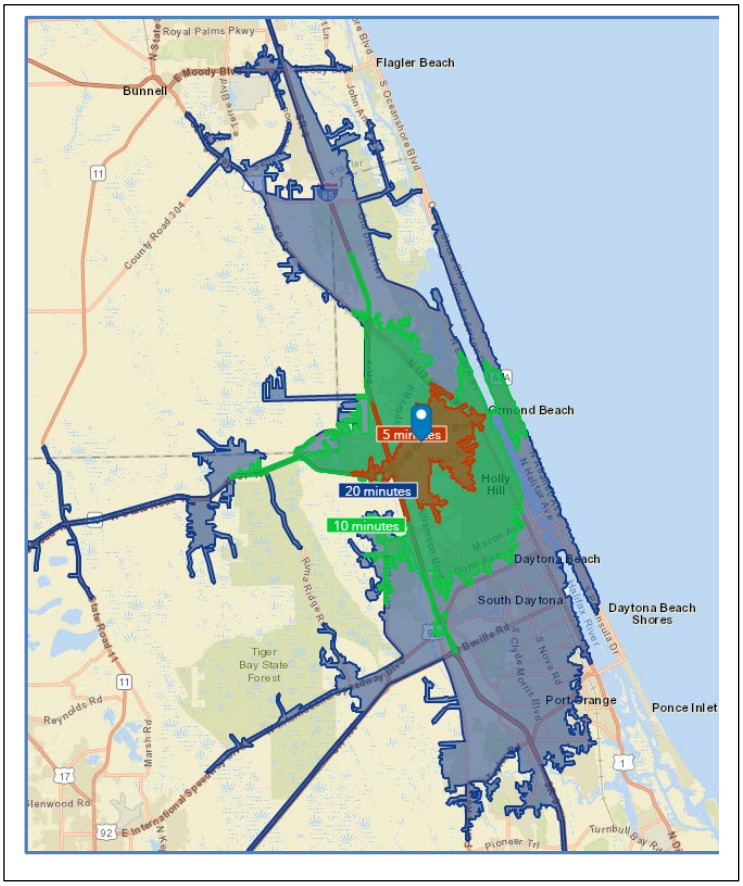
Appendix B Corridor Analysis

Granada Boulevard Corridor

The following graphic shows some of the development projects that have been or are in the process of being built along Granada Boulevard.

Figure 27. Granada Boulevard Activity

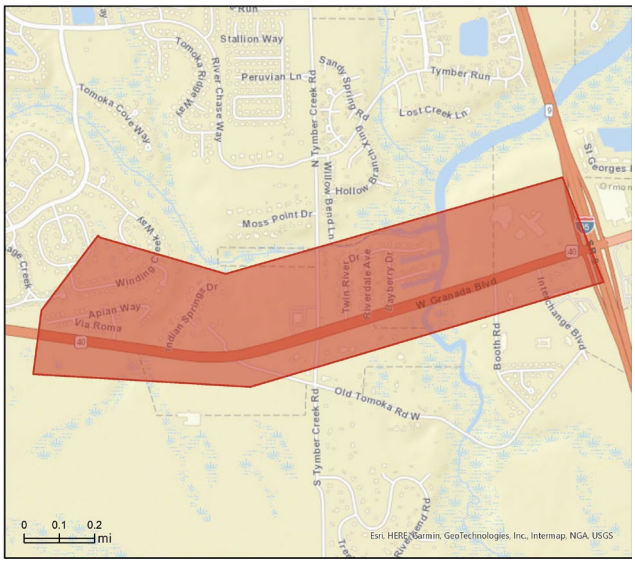


Granada Boulevard is the City's primary east-west transportation corridor and provides sites for a variety of retail, professional, and personal service businesses. The Boulevard's boundaries are the oceanfront to the east and Volusia/Flagler County border to the west.

For purposes of this study, Granada Boulevard has primarily been analyzed in three corridor sections: the easternmost portion which includes the Downtown and CRA; the Center sections which focus on Clyde Morris/Granada corridor and West Granada which covers the I-95 to the Flagler/Volusia border.

West Granada Boulevard

Figure 28. West Granada Boulevard 5, 10, and 20 Drive Time



Market

Granada Boulevard west of the I-95 interchange serves as the northern boundary of the City's western expansion. Just south of the corridor is the future Avalon Daytona new mixed-use development planned to include 3,250 housing units and 200,000 square feet of commercial/office space. Granada Boulevard is considered a major arterial to the southern developments.

The area does not have significant vacant space and its larger parcels are owned by large church congregations.

Figure 29 West Granada Corridor

Business Metrics

ESRI estimated that the West Granada Corridor contains 39 businesses, 250 employees, and a daytime residential count of 630 persons.

Table 30. W Granada Corridor Business Metrics

Data for all businesses in Corridor						
Total Businesses:						39
Total Employees:						250
Total Residential Population		Ratio	(per	100	Residents)	630
Employee/Residential						41

West Granada Boulevard 's (west of I-95) 10-minute drive time market is estimated to contain 58,406 residents. Its daytime population is estimated to be 72,260 of which 37,875 are workers and 34,385 are daytime residents.

The median 2022 household income was estimated at $57,160.

Because this corridor is centered on I-95 and Granada, it has quick access to all the major retailers in the region. Any new store would have to compete with other stores with established primary markets, at least until Avalon and Ormond Crossing start to develop.

Central Granada Boulevard West of US Highway 1

The Central Granada Boulevard Market is centered on Clyde Morris. This market area is well established, and household growth is limited.

According to ESRI data, the Granada corridor has 241 businesses with approximately 1,213 employees. As a corridor that is home to many professional and medical services, there is a great opportunity to add additional compatible services as well as retail that will meet the needs of both residents and the daytime population.

Figure 33. Central Granada Market by Drive Time

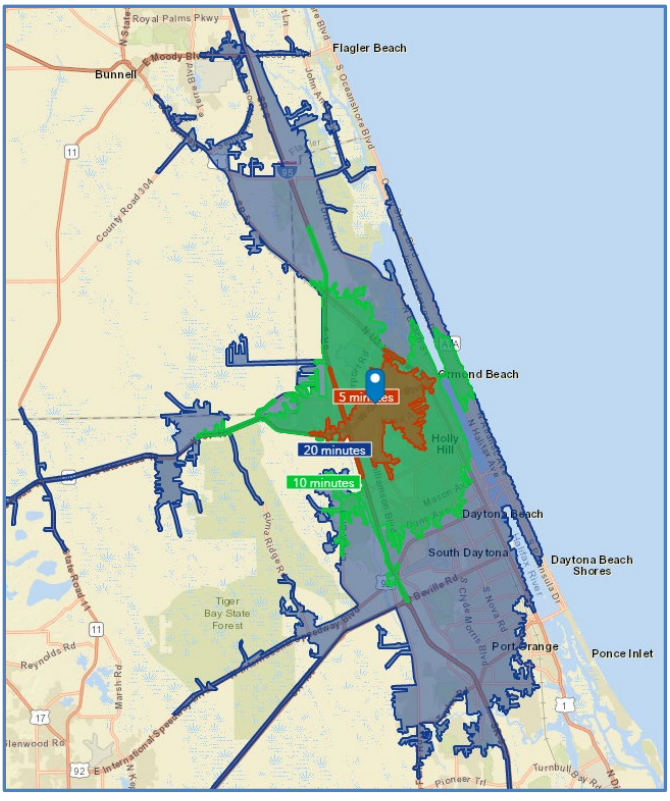

Figure 34. Central Granada Corridor

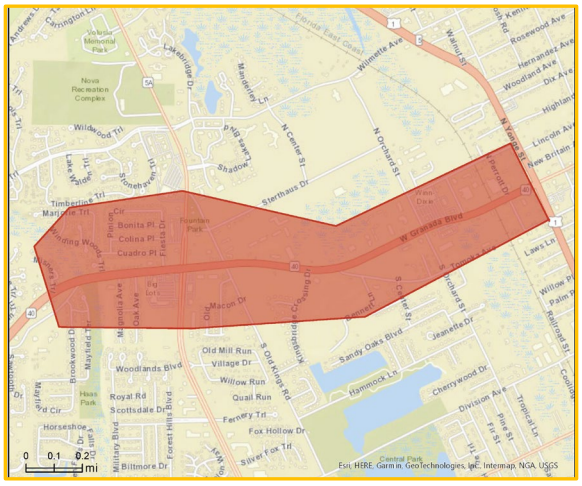

Table 32. Central Granada Blvd. Metrics

Data for all businesses in area	
Total Businesses:	241
Total Employees:	1,213
Total Residential Population:	783
Employee/Residential Population Ratio (per 100 Residents)	155

The Central Granada Boulevard Retail Market (corridor) was analyzed using three radii, 5, 10, and 20-minute drive time. For purposes of this analysis/report, the 10-minute drivetime market metrics are used which is the preferred analytic used for retail feasibility studies. The reader is referred to the Appendix for additional information.

The corridor's 10-minute drivetime market contains a population of approximately 76,000 housed within 33,446 households. The median age is 48.7 percent reflecting its composition of an older labor force and retirees.

Business Metrics

The Central Granada Corridor 10-minute drive time market is estimated to contain 4,698 businesses and 47,573 employees within its 10-minute drive time market.

Table 33. Central Granada Business Metrics

Data for all businesses in area	5 minutes	10 minutes	20 minutes
Total Businesses:	1,361	4,698	11,333
Total Employees:	10,394	47,573	116,460
Total Residential Population:	16,573	75,980	207,790

Retail Opportunity Analysis

Within the 10-minute drive time market place there are an estimated 509 retail stores of which 125 are food and drink establishments. As shown below, the greatest opportunities are for general merchandising, clothing/accessories, building supplies, and electronics stores. That said, most of these opportunities are lost in the 20-minute market.

Table 34. Central Granada (Clyde Morris) Retail Market (10-minute drive time)

Industry Summary	NAICS	Demand (Retail Potential)	Supply (Retail Sales)	Retail Gap	Leakage/ Surplus Factor	Number of Businesses

East Granada Boulevard (Downtown)

ESRI estimates that there are 4,585 businesses within the Downtown's 10-minute drive time market which indicates significant economic competition. The resident population within the 10-minute drive time market is estimated at 69,787 or 15 residents per business unit.

Figure 35. Downtown Market Competitive Summary

Figure 36. Drive Time Market

The Downtown is estimated to have a daytime population of 75,007 which is composed of 35,717 workers and 39,290 daytime residents.

ESRI projected 5-year spending growth within the marketplace as shown below. The largest growth is based on the spending impact of new residents to the market (excluding Ormond Crossing and Avalon Dayton Beach).

Insurance	$12.5	$53.1	$126.0
Transportation	$9.0	$38.2	$91.0
Travel	$2.8	$11.9	$28.6

The estimates show the largest spending growth will be in Financial Services followed by apparel and services, and home purchases including furnishings and food.

Retail Market Place Opportunities

As shown below, Downtown has several industry sectors with opportunities for new stores. ESRI estimates that there are currently 789 retail stores within the 10-minute drive time market.

Table 38. Retail Market Opportunities (GAP)

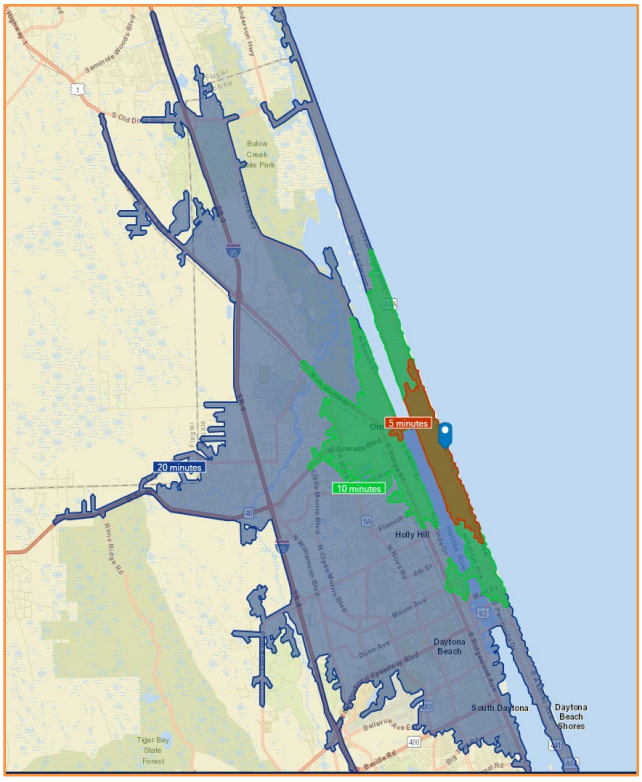
South AIA Corridor



The South A1A corridor is shown below, and it's anchored at River Beach Rd and A1A. The majority of land uses within the corridor are hospitality and supporting retail. The east side (Ocean) of A1A is primarily a hotel and multifamily resort facility capitalizing on the beachfront. Ormond Beach does not have a major higher-end hotel or hotels with significant meeting/conference space. Redevelopment of the oceanfront is limited due to a lack of vacant land and building height restrictions. One parcel oceanfront parcel is vacant as is the land immediately to the west (across the street). There is a discussion that these two parcels (east and west) are being considered for hotel development. It should be noted that there are still numerous parcels oceanfront parcels containing older single-family detached units which might be available in the future for redevelopment.

Numerous vacant parcels exist on the west side of A1A, but redevelopment is hampered by small parcel size, both frontage, and depth. That said, land within the corridor is not being used to its highest and best use and if parcels could be aggregated, the corridor could experience significant redevelopment and provide significant revenue to the City.

Figure 37. South A1A Corridor

Figure 38. S A1A Market Shed at 5, 10, and 20-minute drive time

The overall market shed of A1A is limited due to its eastern oceanfront location and the Intercoastal Waterway which functions as its western boundary.

It is estimated that a total of 2,833 businesses are contained within the corridor, employing 20,985 workers and a resident population of 33,232.

Table 39. Businesses Within Drivetime Radii

Data for all businesses in area	5 minutes	10 minutes	20 minutes
Total Businesses:	638	2,833	9,586

Total Residential Population:	7,988	33,232	150,922

Table 40. 5,10 and 20-minute drive time anchored on River Beach/A1A.

The South A1A corridor supports an estimated population of 33,377 within its 10-minute drive time market. ESRI estimated that the 10-minute market has a daytime population of 38,846 which includes 20,731 workers.

Household income for 2022 is estimated at $53,458.

Retail Opportunities

The 10-mile drive time market for Retail Trade and Food and Drink is negative ($58 million), which is caused by the high level of food and drink in the market. Again, this is not a negative economic indicator as it reflects that the market area is catering to a large regional and tourist market.

There are traditional retail opportunities for motor vehicles, general merchandise, building materials, and gas stations.

Appendix C Hospitality

Hospitality Sector

The City's hospitality industry has declined since the last SEDP. The City currently has an inventory of 1,521 hotel/motel rooms as shown in Table 42. One of the City's 2017-2019 SEDP objectives was to attract a hotel with large conferencing facilities, which has not been accomplished.

While the City has an excellent oceanfront presence, it is underrepresented by major brand hotels.

Based on State of Florida data, the City had 25 hotels with 1,521 rooms in 2022, a loss of 8 hotels and 824 rooms since the last SEDP.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Loretta Moisio, Grants Coordinator

Date: June 6, 2023

Subject: CDBG FY 2023-2024 Annual Plan Approval

Commission Goal: Transportation & Community Development - Other

Introduction

This is a request for the City Commission to retroactively approve the Community Development Block Grant (CDBG) Fiscal Year 2023-2024 Annual Plan (application) as submitted to Volusia County Community Assistance prior to the June 5, 2023 deadline.

Background

Federal CDBG funds are passed through Volusia County Community Assistance to the City of Ormond Beach and the City is required to submit an Annual Plan to Volusia County for the use of FY 2023-2024 CDBG funds.

On January 10, 2023, the City Commission approved the Subrecipient Agreement with Volusia County for CDBG FY 2022-2023 funding with the approval of Resolution 2023-17 which included funding for the North Ridgewood Avenue sidewalk improvement project ($149,403); and, funding to Halifax Urban Ministries for operating costs for salaries and educational materials for Hope Place ($22,500), for a total allocation of $171,903.

Discussion

On May 5, 2023, staff received notification from Volusia County Community Assistance with regard to the City's FY 2023-2024 allocation and Annual Plan submission guidelines and deadlines. The City's FY 2023-2024 allocation is $178,621, an increase of $6,718 from its FY 2022-2023 allocation. The deadline to submit the Annual Plan was June 5, 2023. In the absence of official notification of the allocation amount, the Neighborhood Improvement Advisory Board (NIAB) held a mandatory public hearing on February 16, 2023, to receive citizen input and to hear requests for CDBG funding based upon the FY 2022-2023 funding allocation amount of $171,903. Following the mandatory public hearing meeting, the NIAB held a meeting on March 16, 2023, to

determine its final recommendations to the City Commission and recommends the projects listed below for the City's CDBG FY 2023-2024 Annual Plan. With receipt of notification from Volusia County Community Assistance, the allocation amount provided on May 5 is being used instead of the FY 2022-2023 allocation. NIAB recommended CDBG FY 2023-2024 Annual Plan:

FY 2023-2024	
Public Improvements	
South Ridgewood Avenue Sidewalk (Granada Blvd. to Central Ave. – East Side) – Remove existing 3.5', 4' & 5' wide non-ADA deteriorated sidewalk and replace with a new 5' wide ADA compliant sidewalk. This project also includes ADA compliant detectable mats and curbing. The bid alternate sections will be: 1) Central Avenue to Mound Avenue 2) Mound Avenue to Fairview Avenue	$ 151,828
Public Services	
Hope Place – Funding to be used to pay for greatly increased utility costs to support the facility. The suggested budget is the maximum allowed based on the total estimated allocation (15% of total annual allocation) for public service activities.	$ 26,793
Total	**$ 178,621**

In 2022, Hope Place was able to serve 107 families with children (140 adults, 233 children) and was able to successfully place 92% into permanent housing in addition to serving 31 unaccompanied youth. Unaccompanied youth are aged 18-24 who have aged out of the foster care system and Hope Place provides a safe dormitory for them to live while they pursue their education. For 2023, Hope Place anticipates that it will serve at least 110 families and 30 unaccompanied youth. Since becoming fully operational in the summer of 2018, Hope Place has served 462 families and 103 unaccompanied youth.

Budget Impact

There is no budget impact. CDBG funded activities are reimbursable from the Department of Housing and Urban Development (HUD) via Volusia County.

Citizen Impact

The activities recommended for the CDBG FY 2023-2024 Annual Plan will benefit citizens located within the City's CDBG priority area primarily, and secondarily those who visit the area. The public service activity will provide benefit to the homeless

population.

Recommendation

It is recommended that the City Commission retroactively approve the Community Development Block Grant FY 2023-2024 Annual Plan as submitted as outlined above in order to meet the June 5, 2023 deadline.

RESOLUTION NO. 2023-97

A RESOLUTION APPROVING THE COMMUNITY DEVELOPMENT BLOCK GRANT ANNUAL PLAN FOR THE 2023-2024 FISCAL YEAR; AFFIRMING AND RATIFYING ALL ACTION TAKEN IN FURTHERANCE THEREOF; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, Community Development Block Grant Funds are passed through the Volusia County Community Assistance to the City of Ormond Beach, and

WHEREAS, the City is required to annually review and update, as appropriate, its Annual Plan, and

WHEREAS, all applicable public hearing requirements have been satisfied, and

WHEREAS, the City's professional staff recommends that the Annual Plan Worksheet for fiscal year 2023-2024, a copy of which is attached hereto and incorporated herein by reference, be approved by the City Commission, and

WHEREAS, the City Commission concurs with that recommendation and finds that approval hereof is in the best interest of the health, safety and welfare of the general public, now therefore,

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The City Commission hereby approves the City's Community Development Block Grant Annual Plan for the 2023-2024 Fiscal Year. The City Commission

hereby approves, affirms, and ratifies all action taken in furtherance of the receipt of said CDBG grant funds.

SECTION TWO. This Resolution shall take effect immediately upon its adoption.

APPROVED AND AUTHENTICATED this 6th day of June, 2023.

City of Ormond Beach
Fiscal Year 2023/2024
Non-Housing Community Development Priorities
Annual Plan

The following activities have been identified as priority needs in this community to be funded by CDBG.

ACTIVITY 1	
Activity:	Public Improvements – S. Ridgewood Avenue Sidewalk (East side)
Location:	S. Ridgewood Avenue, Ormond Beach, Florida 32174
Cost Estimate:	$151,828.00

Brief Description:

This project will remove existing 3.5', 4', 5' wide non-ADA deteriorated sidewalk and replace it with a new 5' wide ADA compliant sidewalk. The project also includes ADA compliant detectable mats and curbing.

The bid alternate sections will be:

1) Central Avenue to Mound Avenue
2) Mound Avenue to Fairview Avenue

ACTIVITY 2	
Activity:	Public Services – Hope Place (Halifax Urban Ministries)
Location:	1340 Wright Street, Daytona Beach, Florida 32117
Cost Estimate:	$26,793.00

Brief Description:

Funding to be used to pay for greatly increased utility costs to support the facility. The suggested budget is the maximum allowed based on the total estimated allocation (15% of total annual allocation) for public service activities.

Re: Community Development Block Grant (CDBG) – Revised Letter
FY 2023/24 Allocation and Applications

Dear Ms. Shanahan,

This is a correction to the letter sent on May 5, 2023 that had incorrect amounts listed. Please disregard that notice and utilize this letter instead.

This is to inform the City of Ormond Beach the County of Volusia's Urban County Community Development Block Grant (CDBG) allocation for FY 2023/24 is $1,695,278. Volusia County receives CDBG funds directly from the U.S. Department of Housing and Urban Development (HUD) as a qualified urban county entitlement community through a formula grant. The formula used by HUD to determine funds for the County of Volusia is identified as Formula A. Formula A takes into account three factors of an area; population, poverty, and overcrowding. Each determining factor is weighted: poverty is given a weight of 50 percent while population and overcrowding are weighed at 25 percent.

The same formula used by HUD has been applied to the FY 2023/24 Volusia County award as a method to calculate allocation distributions to the nine participating cities as well as the unincorporated areas of Volusia County. American Community Survey (ACS) five-year estimates data from the U.S. Census Bureau was used for the calculations. A table showing the HUD Formula A calculation for your city is attached to this correspondence as well as a table showing the comparison between the prior year allocation and the FY 2023/24 allocation for your city.

After reserving 20% of the allocation for program administration, the total amount to be allocated among participating cities and unincorporated areas is $1,356,223. Based upon the allocation calculations the City of Ormond Beach will receive a FY 2023/24 allocation of **$178,621.**

A CDBG application and instruction guide was emailed to the City of Ormond Beach's point of contact on **May 5, 2023**. Completed applications must be submitted to Community Assistance by 4:00 p.m. on **June 5, 2023**. Recognizing the short turnaround time, Community Assistance will accept completed applications that have not yet been approved by your city's commission. Cities will however be responsible for receiving approval prior to the County's submission of the Annual Action Plan to HUD in early August.

Community Assistance staff will be available to provide technical assistance to all participating cities having difficulty in preparing their plans. Participating cities are given several choices of the types of activities that they may apply for and use CDBG funding to complete. All activities must be eligible and meet a national objective. Public services are eligible activities; however, HUD

sets a public service cap of 15% of all CDBG expenditures. The **maximum amount that the City of Ormond Beach may allocate for public service activities is $24,710.** This amount should be $26,793 which is 15% of $178,621.

Citizen participation when creating the plan and determining projects is a grant regulation. Each city is required to have a public hearing during the development of the plan to allow for citizen participation and comment. Copies of sign-in sheets and minutes will be submitted with your application. Scheduled approval of the plan at City Commission meeting will not serve to meet the public participation requirements. When advertising for public hearings, consideration must be made to ensure that no groups of people are excluded. Making an effort to include low- and moderate- income residents is an important part of the participation process.

If you have any questions please contact Corry Brown, Operations Manager at (386) 736-5955 ext. 12970 or cabrown@volusia.org.

Sincerely,

Brittany Louis, Manager
Housing and Grants Administration

ORMOND BEACH
NEIGHBORHOOD IMPROVEMENT ADVISORY BOARD
REGULAR MEETING

March 16, 2023 **6:00 P.M.**
Commission Conference Room
22 South Beach Street
Ormond Beach, FL

CALL TO ORDER – ROLL CALL

Members present were: Josh Pringle, David Glasser, and Matthew Shapiro. Excused was: Frank Ganz. Absent was: Margaret Sharifi

Mr. Pringle stated a quorum was met and there were no members from the community in attendance.

Staff present were: Grants Coordinator Loretta Moisio and Recording Secretary Ida Hop.

APPROVAL OF MINUTES – February 16, 2023

Mr. Glasser moved, seconded by Mr. Shapiro to approve the minutes of the February 16, 2023 meeting. The motion passed unanimously.

AUDIENCE REMARKS

None

DISCUSSION ON THE CDBG ANNUAL PLAN FUNDING - FY 2023-2024

Mr. Pringle stated the Board will use the anticipated allocation of $171,903, based on last year's allocation to make funding recommendations for FY 2023-2024. He stated that the maximum allowable for public service projects is 15% of the allocation, or $25,785 and the remainder could be used for capital projects which would be $146,118. He reminded the Board that only one organization, Hope Place (HUM) represented by Mr. Buck James, had requested funding at the mandatory public hearing held in February.

Mr. Shapiro moved, seconded by Mr. Glasser, to recommend $25,785 within the FY 2023-2024 CDBG funding allocation to Hope Place as a public service activity. The motion passed unanimously.

DRAFT

Mr. Pringle reviewed capital projects that were discussed at the mandatory public hearing meeting held in February.

Mr. Shapiro stated the South Ridgewood Avenue Sidewalk Improvements project would benefit the most people especially being near an elementary school whereas some of the other projects were very nice, but were more luxury than necessity.

Mr. Glasser moved, seconded by Mr. Shapiro, to recommend the allocation of $146,118 within CDBG FY 2023-2024 funding for the South Ridgewood Avenue Sidewalk Improvements. The motion passed unanimously.

Discussion among the Board members continued that these two projects would be in the best interest of the City.

Ms. Moisio mentioned that the County has not yet provided information on the Community Development Block Grant (CDBG) for FY 2023-2024, and once received, she will pass it along to the Board.

NEXT MEETING DATES

Meetings will be held at 6:00 p.m.

April 20, 2023

May 18, 2023

ADJOURNMENT

The meeting adjourned at 6:16 p.m.

- ☐ Acquisition of Real Property
- ☐ Clearance/Demolition
- ☐ Public Facility Improvements (General)
- ☐ Senior Centers
- ☐ Neighborhood Facilities
- ☐ Parks, Recreational Facilities
- ☐ Flood/Drainage Improvements
- ☐ Code Enforcement
- ☐ Water/Sewer Improvements
- ☐ Non-Residential Historic Preservation
- ☒ Street/Sidewalk Improvements
- ☐ ADA Accessibility

Exact location/project address:

South Ridgewood Ave. from Granada Blvd. to Central Ave. on the east side of the street, phase 1 (See discussion regarding alternates in summary.)

If applicable please indicate the following:

Address Start: **Granada Blvd.** Address End: **Central Ave.** Linear Feet: **1215**

Summary of project:

This project will remove existing 3.5', 4', 5' wide non-ADA deteriorated sidewalk and replace it with a new 5' wide ADA compliant sidewalk. The project also includes ADA compliant detectable mats and curbing. The bid alternate sections will be: 1) Central Ave. to Mound Ave.; and, 2) Mound Ave. to Fairview Ave. This entire project is located within the City's current CDBG Priority Area.

Project Need and Justification:

(Include demand and location of similar facilities)

This roadway connects residents and visitors to W. Granada Blvd. in the City's downtown area which is comprised of local businesses. Additionally, this sidewalk is used on a daily basis by elementary and middle school students who walk, or ride bikes, to Ormond Beach Elementary School and Ormond Beach Middle School. The sidewalks need to be safe and compliant for the users as South Ridgewood Avenue is a heavily used roadway by both motorists and pedestrians.

Anticipated accomplishments and/or outcomes:

It is anticipated that residents who live on this street, and neighboring streets, along with visitors to the area, will use the sidewalk on a daily basis.

Describe the designated service area and beneficiaries:

(Provide a detailed description and a map that clearly shows the project site and area that will benefit, include photos if applicable)

South Ridgewood Avenue from W. Granada Blvd. to Division Avenue is included within the City's CDBG Priority Area and those residents will be the primary users of the sidewalk.

D. National Objective

Activity will meet a national objective by: *(choose one of the two options)*

☒ **Area Benefit**
(choose one of the two options)
☒ Census tract block group data
or
☐ Income survey conducted by city and approved by county and HUD

☐ **Limited Clientele Benefit**
(choose one of the two options)
☐ Will be income verified
or
☐ Presumed low-income by HUD

Area Benefit: *(if applicable)*

Census Tract	Block Group	Total Population	Low/Mod Population	% Low/Mod Population
080600	2	1885	1015	53.85
	Total			

Limited Clientele Benefit: *(if applicable)*

Qualifying group

Number of persons served

Similar Projects:
(Describe any past similar projects carried out, and the outcomes)
In previous years, CDBG eligible and completed projects have included sidewalks for Halifax Drive (2020, 2011); Ramsey Terrace (2017); Flormond Avenue (2018); and, South Washington Street (2023). We are currently in the process of reviewing bids to recommend a bid award for the North Ridgewood Avenue Sidewalk Project included in CDBG FY 22-23.

Feasibility of Maintaining Project:
(Explain future maintenance as a result of the project)

The sidewalk will be maintained by the City of Ormond Beach.

Citizen Participation:
(Explain what input citizens had in identifying the need, identifying the project, or approving the project)

The project was brought before the Neighborhood Improvement Advisory Board at tis February 16, 2023, mandatory public hearing and was again discussed at its meeting of Marh 16, 2023, at which time the Board recommended that it be included in the CDBG Annual Plan for FY 2023-2024.

E. Project Timeframe

Implementation Responsibility:

☒Subrecipient (City or Department Applying for funds) ☐City or Department Employees ☒Contractor	☐County of Volusia *(If applicant is a city and the proposed project is being implemented by the County of Volusia please provide documentation showing the communication and planning done between the subrecipient and the county department)*

Comments about implementation responsibility (if needed):

Plan of Action:

Plan of Action below will become part of the Subrecipient Agreement if project is approved *(Clearly explain who created the POA provided below (i.e. purchasing analyst, public works director...), what factors were considered, what is unique to this project timeline, and note any potential concerns)*

Cara Culliver, Principal Landscape Architect, prepared the Plan of Action and serves as the project manager for the City's CDBG capital projects.

CDBG FY 2023/24 Plan of Action

F. Project Budget

(Applicants must either fill out the following budget, or attach an additional budget)

Budget Categories	Project Cost Estimate	Sources of Funds		
		CDBG Funds	Applicant Funds	Other:
		AMOUNT	AMOUNT	AMOUNT
Materials Costs	48,228	48,228		
Labor Costs	96,600	96,600		
Engineering Services	0			
Other: Permits/Bonds	5,000			
Other: Concrete Density Testing	2,000			
Other: _____				
SOURCE TOTAL (Column total)		151,828		
TOTAL PROJECT COST (the total project costs, all funding sources)	151,828			

**Please note, due to grant-based accounting method used by HUD, funds cannot be transferred between fiscal years. As a result, remaining program year balances that are less than $1,000 will revert to countywide funds.*

Description of Budget:
(Explain the budget above. Include the resources that will be used for the project prior to reimbursement, any potential funding concerns, completeness of budget given, and estimates used. Backup documentation for the budget amounts should be available upon request. If project is to be implemented by the county, attach correspondence with relevant County of Volusia department stating the budget reasoning.)
The budget was developed by the Engineering Division based on other recent similar projects.

Leveraged Funds:
(Clearly explain what funds, if any, are being used to match CDBG funds for the project)
No matching funds are being proposed. City staff will prepare the bid package and handle all aspects of the bidding process in coordination with Community Assistance. If sealed bids are over the proposed budget, staff will recommend the City fund the difference to construct this sidewalk.

Outstanding Balance:
(Explain any remaining CDBG balances from prior year capital projects)
Currently, the City of Ormond Beach has CDBG funds remaining in FY 20-21 in the amount of $4,115.05 which are excess funds from the completed Central Park (Fleming) Playground project; $33,542.40 in FY 21-22 which are excess funds from the completed South Washington Street Sidewalk project. In CDBG FY 22-23 there is $149,403 allocated to the

North Ridgewood Sidewalk project. This project has been bid and should begin within the next couple of months.

G. § 570.611 Conflict of Interest

Please read and sign at the bottom of the next page, signifying that you have read and agree to adhere to the following policy. Also, please disclose any potential conflicts including any boards or committees currently serving on, any private companies owned by you or members of your Board of Directors, and any other potential conflicts.

(a) ***Applicability.*** (1) In the procurement of supplies, equipment, construction, and services by recipients and by subrecipients, the conflict of interest provisions in 24 CFR 85.36 and 24 CFR 84.42, respectively, shall apply.

(2) In all cases not governed by 24 CFR 85.36 and 84.42, the provisions of this section shall apply. Such cases include the acquisition and disposition of real property and the provision of assistance by the recipient or by its subrecipients to individuals, businesses, and other private entities under eligible activities that authorize such assistance (e.g., rehabilitation, preservation, and other improvements of private properties or facilities pursuant to §570.202; or grants, loans, and other assistance to businesses, individuals, and other private entities pursuant to §570.203, 570.204, 570.455, or 570.703(i)).

(b) ***Conflicts prohibited.*** The general rule is that no persons described in paragraph (c) of this section who exercise or have exercised any functions or responsibilities with respect to CDBG activities assisted under this part, or who are in a position to participate in a decision-making process or gain inside information with regard to such activities, may obtain a financial interest or benefit from a CDBG-assisted activity, or have a financial interest in any contract, subcontract, or agreement with respect to a CDBG-assisted activity, or with respect to the proceeds of the CDBG-assisted activity, either for themselves or those with whom they have business or immediate family ties, during their tenure or for one year thereafter. For the UDAG program, the above restrictions shall apply to all activities that are a part of the UDAG project, and shall cover any such financial interest or benefit during, or at any time after, such person's tenure.

(c) ***Persons covered.*** The conflict of interest provisions of paragraph (b) of this section apply to any person who is an employee, agent, consultant, officer, or elected official or appointed official of the recipient, or of any designated public agencies, or of subrecipients that are receiving funds under this part.

(d) ***Exceptions.*** Upon the written request of the recipient, HUD may grant an exception to the provisions of paragraph (b) of this section on a case-by-case basis when it has satisfactorily met the threshold requirements of (d)(1) of this section, taking into account the cumulative effects of paragraph (d)(2) of this section.

(1) *Threshold requirements.* HUD will consider an exception only after the recipient has provided the following documentation:

(i) A disclosure of the nature of the conflict, accompanied by an assurance that there has been public disclosure of the conflict and a description of how the public disclosure was made; and
(ii) An opinion of the recipient's attorney that the interest for which the exception is sought would not violate State or local law.

(2) *Factors to be considered for exceptions.* In determining whether to grant a requested exception after the recipient has satisfactorily met the requirements of paragraph (d)(1) of this section, HUD shall conclude that such an exception will serve to further the purposes of the Act and the effective and efficient administration of the recipient's program or project, taking into account the cumulative effect of the following factors, as applicable:

(i) Whether the exception would provide a significant cost benefit or an essential degree of expertise to the program or project that would otherwise not be available;
(ii) Whether an opportunity was provided for open competitive bidding or negotiation;
(iii) Whether the person affected is a member of a group or class of low- or moderate-income persons intended to be the beneficiaries of the assisted activity, and the exception will permit such person to receive generally the same interests or benefits as are being made available or provided to the group or class;
(iv) Whether the affected person has withdrawn from his or her functions or responsibilities, or the decision-making process with respect to the specific assisted activity in question;
(v) Whether the interest or benefit was present before the affected person was in a position as described in paragraph (b) of this section;
(vi) Whether undue hardship will result either to the recipient or the person affected when weighed against the public interest served by avoiding the prohibited conflict; and
(vii) Any other relevant considerations.

H. Procurement

Eligible procurement:
Purchases must be handled fairly and in a manner that encourages full and open competition; documentation must be maintained that demonstrates this. Additionally, subrecipients or subgrantees are required to abide by the most strict of the following when purchasing services, supplies, materials, or equipment:

- The municipality or agency purchasing and procurement policy
- All applicable federal procurement rules, most specifically those contained in 24 CFR 85.36
- A Volusia County CDBG entitlement program threshold of $50,000 for small purchases, which will be outlined in the FY 2023/24 Subrecipient Agreement. Purchases above this threshold must be awarded through a formal competitive bid or proposal process, even if the limit established in the subrecipient's or subgrantee's procurement policy allows a higher threshold for a formal competitive bid. In the event that the municipality or agency procurement policy requires a formal bid for purchases less than $50,000, the municipality or agency shall follow their policy.

Please note: Approval of the application including the process outlined below does not eliminate the requirement to approve all steps of the project procurement and implementation with Community Assistance prior to moving forward, this is mandatory to ensure that projects remain compliant and eligible for CDBG reimbursement.

What method of procurement will be used for this project:
Include the name of the procurement method, a brief summary of the steps that will be taken, and a reference to the procurement policy of the municipality or agency implementing the project. Attach the page of the policy that applies to the reference to this submission.

The City will use a formal bidding process.

Procurement Reasoning:
(Clearly explain why the method of procurement noted above is the best choice for this project)

The City's procurement policy requires purchases over $25,000 to use a formal bidding process.

Procurement Management:
(Explain who will be responsible for implementing the procurement method above, including their position.

Cara Culliver, Principal Landscape Architect, will be responsible for procurement. Cara serves as project manager for a variety of City capital projects.

I. Certification of Construction Need

The purpose of this form is to differentiate between the two categories of public facility or infrastructure projects shown below:

- Maintenance of a public facility or infrastructure, and
- Necessary rehabilitation of a public facility or infrastructure.

The jurisdiction that is implementing the proposed capital project must designate an employee to confirm which category, from the two listed above, of which the project best fits. The employee should have the knowledge and experience to make an informed determination and explanation regarding the proposed project, the facility, the past use, and the current condition.

Jurisdictions should exercise reasonable judgment in choosing an employee to certify the construction need of a project. It is not the intent of the entitlement community, County of Volusia, to have the jurisdiction incur any additional costs or to hire outside experts. Due to the vast differences in the organization of different jurisdictions, specific employee positions cannot be defined. A certification completed by the CDBG contact(s) for the jurisdiction would not be appropriate. Please discuss potential certifications with Volusia County if you have any questions or concerns.

Name and Title of Certifying Employee: Alex Schumann, City Engineer

Email Address: Alex.Schumann@ormondbeach.org Phone Number: 386-676-3302

Proposed Project Title: CDBG - South Ridgwood Ave. Sidewalk Construction - East Side Only

Project should be classified as:

☐ Maintenance ☐ Deferred Maintenance ☐ Rehabilitation ☒ New Construction

Reason for determination given: (Attach additional pages or documentation as needed)

City of Ormond Beach Florida — How We Do Business

A Guide for Contractors and Suppliers rev. October 2022	
Introduction	The Purchasing Office should be your first point of contact with the City. Our role is to bring together users and suppliers to ensure that the City receives the best value for the services, materials, supplies and equipment needed to effectively and efficiently operate the City. We are here to help you understand how best to do business with the City of Ormond Beach. As can be expected, there are rules to follow and we will do our best to inform you of these rules, or as we call them, the City's Code of Ordinances. Should you ever have a question or concern we encourage you to contact the Purchasing Coordinator directly at (386) 676-3223. We hope you will find this information helpful. One of the unique things about working with the City is that we are local government; therefore, we are accountable to various elected officials, auditors and most importantly, taxpayers. Consequently, everything we do is considered "public information" and may be subject to public inspection. As a result, we believe the best way to protect the interest of the citizens we serve is to deal ethically, fairly and objectively with all vendors, contractors and suppliers.
Vendor List and Internet-Based Bidding System	The City of Ormond Beach utilizes the services of DemandStar.com to maintain our vendor database and issue all requests for bids and RFP's. Vendors wishing to be placed on the City of Ormond Beach's vendor list and receive automatic notification of bids and RFP's are encouraged to register with DemandStar.com. For more detailed information, please refer to the page titled "Internet Based Bidding," or visit the DemandStar.com website at www.demandstar.com. You may also contact them by phone at (206) 940-0305.
Purchasing Threshholds	The Purchasing Office has the responsibility of conducting City business in a professional manner. Each department has funds allocated to it; however, from a purchasing perspective, there is only one kind of money, the public's money. The City's operating funds comes from local taxpayers, State and Federal governments, various fees, grants, special activities, etc. Therefore, all purchases no matter how large or small must be made in accordance with the City's established Code of Ordinances. The City's Code of Ordinances dictates what method of procurement that must be used for each type of purchase: Purchases from $2,500 - $24,999 — requires 3 Written Quotes Purchases over $25,000 — requires Formal Bid or Request for Proposal It is against the City's Purchasing Ordinance to split a purchase into two or more orders to avoid the $2,500 limit and related requirement for three verbal quotes. Local vendors are provided with a list of City employees who are authorized to make purchases under $2,500 without a purchase order. The list is updated regularly.

Competitive Solicitations	In general, price competition is the best way to make money go further. That is why we advocate competition "wherever practicable" in an effort to promote fairness and better pricing. ***Written Quotes*** are required when the purchase is over $2,500 but less than $24,999. Again, the using department will generally contact the suppliers for quotes and prepare a purchase order for approval by the appropriate authorities. Copies of the written quotes will be attached to the purchase order. ***Formal Solicitation*** is required when the purchase is anticipated to exceed $25,000. There are two basic types of formal solicitations: 1. Invitation to Bid (ITB) 2. Request for Proposal (RFP) Both the ITB and RFP require advertisement in the local newspaper and may also be advertised in other area newspapers and professional trade journals. The intent with these solicitations is to generate as much involvement as possible with qualified suppliers. There are some significant differences between the ITB and RFP. The primary difference is award criteria. Generally, the ITB is awarded to the lowest responsive and responsible bidder. In other words, the bidder who submits a bid that meets all of the requirements and specifications of the ITB at the lowest overall cost. On the other hand, the RFP is typically awarded to the responsive and responsible respondent receiving the highest overall ranking, as decided by a selection committee. During the RFP evaluation process, the top ranked respondents may be asked to give a formal presentation to the committee. Additionally, the price and other terms of agreement may be negotiated with the firm receiving the highest overall ranking by the committee.
Brand Name and Substitute Items	The City is always seeking the best value for the money. Occasionally, a brand name is used in specifications to establish a standard grade or quality and will generally be followed by the words "or equal.'. The City will consider any substitute item(s) that meet or exceed all the requirements of the specifications. It is the supplier's responsibility to provide all the information on any substitute item(s) they use in their bid. The City reserves the right to review and either accept or reject any substitute item(s).
Questions on Specifications	Questions pertaining to an ITB or RFP should be directed to the Purchasing Coordinator at (386) 676-3223, or to the City's Project Manager, if so listed. The City will frequently hold a public "prebid" or "preproposal" meeting to review the specifications and answer any questions prior to the ITB or RFP opening date. When appropriate, a site visit may be conducted following the "prebid' or "preproposal" meeting. We strongly encourage all prospective bidders or respondents to attend these meetings. When revisions or clarifications to the ITB or RFP are necessary, the City will issue an addendum. An addendum is a written document that modifies the ITB or RFP and becomes part of the ITB or RFP documents. Sometimes it is necessary to issue

	more than one addendum. Each bidder on the list of bidders (or plan holders list) will receive a copy of each addendum. All addenda need to be acknowledged on the appropriate page of the ITB or RFP document when submitting a bid or proposal.
Insurance Requirements	The City of Ormond Beach requires anyone who is performing any work on City owned property to provided the following forms of insurance: General Liability Automobile Liability Workers Compensation The amount of the coverage for each of these forms of insurance depends on the total dollar value of the contract. Please read the ITB or RFP specifications and check with your insurance agent to make sure that you comply with all of the City's insurance requirements before submitting your quote, bid or proposal.
Submitting Your Bid	Be sure to read the entire bid package and complete all the required documents. Check the figures to make sure that the unit prices and the extended amounts agree. In the event there is a discrepancy between the unit price and the extended amount, the unit price will prevail. Likewise, if there is a discrepancy between the amount shown in numbers and the amount shown in written words, the written words will prevail. Be sure to SIGN YOUR BID OR PROPOSAL BEFORE YOU SUBMIT IT. ITB and RFP opening times are strictly adhered to. Any bids or proposals submitted after the time specified in the ITB or RFP, or in an addendum, will NOT BE ACCEPTED and will be returned to the bidder unopened. Faxed or other electronically submitted bids or proposals are NOT ACCEPTABLE. All bids or proposals need to be delivered to the City as specified in the bid or proposal specifications.
Mistake in Bidding	If you realize that you have made a mistake in your bid or proposal prior to the bid opening date and time, you may take your bid back and correct it and resubmit it before the bid opening date and time, or you may submit a sealed statement clarifying the error before the bid opening date and time. Bids and proposals CAN NOT be corrected or withdrawn after the bid opening date and time.
What is "Piggybacking?"	In short, "piggybacking" refers to using competitive bids obtained by other governmental entities. The City may utilize a competitive bid solicited by any other municipal, county, state, federal governmental agency, any combination of such agencies or any other competitive bid deemed to be in the best interest of the City. By piggybacking other bids the City can avoid the time consuming process of soliciting bids for the same commodity or service. We also purchase directly off the State Term contract, which, as the name implies, are bids solicited and awarded by the State of Florida, Department of Management Services. The State of Florida also offers a State Negotiated Agreement Price Schedule (SNAPS agreement), which permits, but does not obligate, us to purchase supplies and services without soliciting bids or quotes. Please advise us of any Term contracts or SNAPS agreement you have been awarded by the State of Florida, or of contracts that have been awarded to you by other governmental entities.
Award	Once quotes, bids, or proposals are received, the department requesting the purchase will be involved in evaluating the results. For purchases under $25,000 the

	City Manager or her designee will approve the purchase. For purchases valued at $25,000 or more the City Manager will make a recommendation to the City Commission who, in turn, will vote on the award at a scheduled City Commission Meeting. Once an award is made, a purchase order or a written contract is prepared with all the supporting documentation (i.e. insurance certificates, payment and performance bonds) attached. The appropriate parties then sign the purchase order or written contract document, and the order is placed.
Payment	Payments are made from approved invoices. To avoid delays, submit a complete invoice that includes: the purchase order number, if applicable, a description of the item(s) or service, who received the item(s) or service, and the quantity, unit price, delivery charges and total price, along with any discount terms that may apply. The City will make payments in accordance with the Florida Prompt Payment Act, Florida Statutes, Chapter 218, Part VII. The City usually makes payments within 30 days after receipt of an approved invoice.
Submit Invoices To:	City of Ormond Beach Accounts Payable, Finance Department P.O. Box 277 Ormond Beach, FL 32175-0277

C. Project Description

Please attach additional pages if needed.

Type of Project:

- ☐ Public Service (General)
- ☐ Youth Service
- ☒ Homeless Operating Costs
- ☐ Other _____
- ☐ Senior Service
- ☐ Handicapped Services
- ☐ Employment Training

Exact location/project address:

1340 Wright St., Daytona Beach, Florida 32117

Summary of project:

Hope Place, created and sustained through a public/private collaboration, is a safe refuge for homeless students and families with children and serves as a model for other communities. It offers a safe living environment, three meals a day, case management, mental health counseling, budgeting, life skills, housing counseling and parenting classes to help each guest return to, or achieve, self-sufficiency within 90 days. Each year utility costs continue to rise significantly overall.

Community Impact:

(Describe the need or justification. Include demand and location of similar services)

While Hope Place is not located within the City of Ormond Beach, it benefits Ormond Beach homeless children and families in need. One of five homeless individuals in Volusia County is a child and 27% of Volusia's children live in poverty. Currently, there are 295 homeless children attending Volusia County Schools in Ormond Beach which represents a nearly 100% increase since 2019.

Anticipated accomplishments and/or outcomes:

The goal of Hope Place is to help those in need return to living an independent life. For families with children, homelessness is not a matter of choice. In most instances, it is caused by a financial or medical event causing the loss of a home or residence. Supporting the work of Hope Place pays immediate dividents. As the country has moved past the COVID-19 pandemic, many programs in place to assist during that time have ended, but the impact to children and families in need continues. Halifax Urban Ministries remains poised to address these needs and help families regain independence and anticipates serving at least 110 families and 30 unaccompanied youth in 2023.

D. National Objective

Activity will meet a national objective by: *(choose one of the two options)*

☐ **Area Benefit**
(Offered to all residents of a LMI area)
*Uses census tract data to demonstrate more than 50.35% of beneficiaries are LMI

☒ **Limited Clientele Benefit**
(Offered to a group in the community)

Area Benefit: *(if applicable)*

Census Tract	Block Group	Total Population	Low/Mod Population	% Low/Mod Population
Total				

Limited Clientele Benefit: *(if applicable, choose one of the two options)*

☒ Presumed low-income by HUD

Qualifying group

Number of persons served

☐ Beneficiaries will be income verified (choose an verification method below)

- ☐ Application from beneficiary with third- party income verification performed by staff
- ☐ Evidence of assistance under "as restrictive" program
- ☐ Prior year's IRS transcripts (4506-T)

Describe the beneficiaries:
(Provide a detailed description and a map that clearly shows the project site and area that will benefit, include photos if applicable)

This program will assist families with children who have been displaced as well as unaccompanied youth. In Volusia County, there are approximately 5,500 homeless students, an increase of 3,500 since 2019; nearly 300 are unaccompanied youth, increase of 100 since 2019, who are on their own and continue to attend school without a parent/guardian or a stable home. It is also estimated that there is an additional 600 preschool homeless children and approximately 100 unaccompanied youth attending Daytona State College.

Similar Activities:
(Describe any past similar projects carried out, and the outcomes)

The City of Ormond Beach has a long standing relationship with Halifax Urban Ministries and all activites have been completed timely and as intended.

Citizen Participation:
(Explain what input citizens had in identifying the need, identifying the project, or approving the project)
The Neighborhood Improvement Advisory Board (NIAB) has been a longtime advocate of homeless programs to benefit citizens. Over the past decade, the NIAB has consistently recommended homeless assistance funding to the City Commission for its approval. Homelessness is a common topic of discussion at NIAB meetings.

Proposed activity is a: *(choose one of the two options)*

☐ **New service being provided**

☒ **Improved service being provided**
(with a quantifiable increase)

New service being provided:
(If applicable, clearly explain the new service being provided and why)

Improved service being provided:
(If applicable, clearly explain the new service being provided and why)
In 2022, Hope Place was able to serve 107 families with children (140 adults, 233 children) and was able to successfully place 92% into permanent housing in addition to serving 31 unaccompanied youth. Unaccompanied youth are aged 18-24 who have aged out of the foster care system and Hope Place provides a safe dormitory for them to live while they pursue their education. For 2023, Hope Place anticipates that it will serve at least 110 families and 30 unaccompanied youth. Since becoming fully operational in the summer of 2018, Hope Place has served 462 families and 103 unaccompanied youth.

E. Project Timeframe

Proposed Timeframe

(Please refer to application instructions and guidance for a sample. At no time will proposed dates for public services extend beyond September 30, 2024.)

Date	Action	Responsible Entity
10/1/2023	Authorization to Proceed Issued	Volusia County
10/1/2023-1/31/2024	Execute Agreement with Halifax Urban Ministries	City of Ormond Beach

			Total	

**Please note, public service funds allocated in FY 2023/24 will be for a 12 month term ending on 9/30/2024. Subrecipient agreements for public service activities will not be extended and*

remaining balances will not rollover to the next year. Balances may be transferred to a capital project within the same program year if available. Due to grant-based accounting methods used by HUD funds cannot be transferred between fiscal years. As a result, remaining program year balances that are less than $1,000 will revert to countywide funds.

Description of Budget:
(Completely explain the budget charts shown or attached. Include the resources that will be used for the project prior to reimbursement, any potential funding concerns, completeness of budget given, and estimates used. Backup documentation for the budget amounts should be available upon request.)

Once funding is approved, and the City has an agreement with Halifax Urban Ministries, Hope Place will submit monthly reports for the utility expenses (below).

*UTILITY COSTS INCLUDE: Electric, propane gas, water, phone, internet, and garbage pickup.

Leveraged Funds:
(Clearly explain what funds, if any, are being used to match CDBG funds for the project)

Hope Place funds will also be used in addition to CDBG funding for utility costs as needed.

Outstanding Balance:
(Explain any remaining CDBG balances from prior year public service activities)

Currently, for FY 22-23, $22,500 remains for the housing counseling program and parenting classes. Staff has received a request for reimbursement and is currently reviewing it prior to payment. This activity is expected to be complete by 9/30/2023 with all funding used.

G. § 570.611 Conflict of Interest

Please read and sign at the bottom of the next page, signifying that you have read and agree to adhere to the following policy. Also, please disclose any potential conflicts including any boards or committees currently serving on, any private companies owned by you or members of your Board of Directors, and any other potential conflicts.

(a) ***Applicability.*** (1) In the procurement of supplies, equipment, construction, and services by recipients and by subrecipients, the conflict of interest provisions in 24 CFR 85.36 and 24 CFR 84.42, respectively, shall apply.

(2) In all cases not governed by 24 CFR 85.36 and 84.42, the provisions of this section shall apply. Such cases include the acquisition and disposition of real property and the provision of assistance by the recipient or by its subrecipients to individuals, businesses, and other private entities under eligible activities that authorize such assistance (e.g., rehabilitation, preservation, and other improvements of private properties or facilities pursuant to §570.202; or grants, loans, and other assistance to businesses, individuals, and other private entities pursuant to §570.203, 570.204, 570.455, or 570.703(i)).

(b) ***Conflicts prohibited.*** The general rule is that no persons described in paragraph (c) of this section who exercise or have exercised any functions or responsibilities with respect to CDBG activities assisted under this part, or who are in a position to participate in a decision-making process or gain inside information with regard to such activities, may obtain a financial interest or benefit from a CDBG-assisted activity, or have a financial interest in any contract, subcontract, or agreement with respect to a CDBG-assisted activity, or with respect to the proceeds of the CDBG-assisted activity, either for themselves or those with whom they have business or immediate family ties, during their tenure or for one year thereafter. For the UDAG program, the above restrictions shall apply to all activities that are a part of the UDAG project, and shall cover any such financial interest or benefit during, or at any time after, such person's tenure.

(c) ***Persons covered.*** The conflict of interest provisions of paragraph (b) of this section apply to any person who is an employee, agent, consultant, officer, or elected official or appointed official of the recipient, or of any designated public agencies, or of subrecipients that are receiving funds under this part.

(d) ***Exceptions.*** Upon the written request of the recipient, HUD may grant an exception to the provisions of paragraph (b) of this section on a case-by-case basis when it has satisfactorily met the threshold requirements of (d)(1) of this section, taking into account the cumulative effects of paragraph (d)(2) of this section.

(1) *Threshold requirements.* HUD will consider an exception only after the recipient has provided the following documentation:

(i) A disclosure of the nature of the conflict, accompanied by an assurance that there has been public disclosure of the conflict and a description of how the public disclosure was made; and
(ii) An opinion of the recipient's attorney that the interest for which the exception is sought would not violate State or local law.

(2) *Factors to be considered for exceptions.* In determining whether to grant a requested exception after the recipient has satisfactorily met the requirements of paragraph (d)(1) of this section, HUD shall conclude that such an exception will serve to further the purposes of the Act and the effective and efficient administration of the recipient's program or project, taking into account the cumulative effect of the following factors, as applicable:

(i) Whether the exception would provide a significant cost benefit or an essential degree of expertise to the program or project that would otherwise not be available;
(ii) Whether an opportunity was provided for open competitive bidding or negotiation;
(iii) Whether the person affected is a member of a group or class of low- or moderate-income persons intended to be the beneficiaries of the assisted activity, and the exception will permit such person to receive generally the same interests or benefits as are being made available or provided to the group or class;
(iv) Whether the affected person has withdrawn from his or her functions or responsibilities, or the decision-making process with respect to the specific assisted activity in question;
(v) Whether the interest or benefit was present before the affected person was in a position as described in paragraph (b) of this section;
(vi) Whether undue hardship will result either to the recipient or the person affected when weighed against the public interest served by avoiding the prohibited conflict; and
(vii) Any other relevant considerations.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Shawn Finley, Public Works Director

Date: June 6, 2023

Subject: State of FL DEP - Ormond Beach Septic to Sewer Grant Agreement

Commission Goal: Water Quality & the Environment - Continue septic to sewer conversion starting within the city limits to decrease effluent to the Halifax River

Introduction

This is a request for the City Commission to authorize the City Manager to execute a Grant Agreement with the State of Florida Department of Environmental Protection (FDEP) to provide the City with $532,000 for use in the design and construction of a sanitary sewer system to allow for the conversion of 76 properties from septic tanks to City Sewer.

Background

Included in the 2015 Utility Master Plan as one of the areas of residential sewer retrofit areas, this project proposes the construction of a sanitary sewer collection system including gravity sewers and pressurized forcemain transmission lines to convert 76 residences from septic tanks to City of Ormond Beach sewer on Magnolia Avenue and Oak Avenue south of Granada Boulevard, and Bonita Place North of Granada.

Discussion

For the State of Florida's 2022 Legislative session, City staff prepared requests for funding for a number of high priority projects. One of these projects proposed installing new gravity sewer mains on Oak Ave, Magnolia Ave, and Bonita Place. This request was recommended for funding through the State Legislature and included in the State of Florida's Fiscal Year (FY) 2022-2023 budget for funding through the FDEP. The grant will provide for up to 33% of the project cost including the design and construction of these improvements, up to $532,000.

Budget Impact

The attached grant agreement will provide for up to one third of the anticipated cost for the installation of gravity sewer service on Oak Ave, Magnolia Ave, and Bonita Pl, with a maximum of $532,000. This project was included in the FY 2022-2023 budget with a total cost of $1,600,000. The matching funds will be provided from Fund 435-Wastewater Impact Fees.

Citizen Impact

This project benefits the water quality of Misner's Branch, a tributary of the Tomoka River, by eliminating the flow of effluent water containing nitrogen and phosphorous and improving the water quality of the entire community.

Recommendation

It is recommended that the City Commission authorize the City Manager to execute the Grant Agreement with the FDEP for the Ormond Beach Septic Tank Conversion Project.

RESOLUTION NO. 2023-98

A RESOLUTION AUTHORIZING THE EXECUTION OF A STANDARD GRANT AGREEMENT BETWEEN THE CITY OF ORMOND BEACH AND THE STATE OF FLORIDA, DEPARTMENT OF ENVIRONMENTAL PROTECTION, FOR FUNDING ASSISTANCE REGARDING THE SEPTIC TO SEWER CONVERSION PROJECT; AUTHORIZING THE EXECUTION OF ALL DOCUMENTS NECESSARY AND INCIDENTAL THERETO; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, the City Commission desires to enter into a Standard Grant Agreement with the Florida Department of Environmental Protection ("FDEP") regarding funding assistance for the septic to sewer conversion project for 76 properties in the City ("the Project"), and

WHEREAS, the total cost of the Project is $1,600,000.00, and

WHEREAS, the FDEP will provide grant funds in the amount of $532,000.00, representing thirty-three percent (33%) of the project cost, and

WHEREAS, the City Manager has certified that funds in the amount of $1,068,000.00, representing the remaining sixty-seven (67%) of the total Project cost, will be made available through a bond issue, now therefore,

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The Mayor and the City Manager are hereby authorized and directed to execute a Standard Grant Agreement between the City of Ormond Beach and FDEP for funding assistance regarding the septic to sewer conversion project for 76 properties in the City.

SECTION TWO. The Mayor and the City Manager are hereby further authorized and directed to execute any and all documents necessary and incidental for the City to accept the grant award.

SECTION THREE. This Resolution shall take effect immediately upon its adoption.

APPROVED AND AUTHENTICATED this 6th day of June, 2023.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
STANDARD TERMS AND CONDITIONS
APPLICABLE TO GRANT AGREEMENTS

ATTACHMENT 1

1. Entire Agreement.

This Grant Agreement, including any Attachments and Exhibits referred to herein and/or attached hereto (Agreement), constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements, whether written or oral, with respect to such subject matter. Any terms and conditions included on Grantee's forms or invoices shall be null and void.

2. Grant Administration.

a. Order of Precedence. If there are conflicting provisions among the documents that make up the Agreement, the order of precedence for interpretation of the Agreement is as follows:
   i. Standard Grant Agreement
   ii. Attachments other than Attachment 1, in numerical order as designated in the Standard Grant Agreement
   iii. Attachment 1, Standard Terms and Conditions
   iv. The Exhibits in the order designated in the Standard Grant Agreement

b. All approvals, written or verbal, and other written communication among the parties, including all notices, shall be obtained by or sent to the parties' Grant Managers. All written communication shall be by electronic mail, U.S. Mail, a courier delivery service, or delivered in person. Notices shall be considered delivered when reflected by an electronic mail read receipt, a courier service delivery receipt, other mail service delivery receipt, or when receipt is acknowledged by recipient. If the notice is delivered in multiple ways, the notice will be considered delivered at the earliest delivery time.

c. If a different Grant Manager is designated by either party after execution of this Agreement, notice of the name and contact information of the new Grant Manager will be submitted in writing to the other party and maintained in the respective parties' records. A change of Grant Manager does not require a formal amendment or change order to the Agreement.

d. This Agreement may be amended, through a formal amendment or a change order, only by a written agreement between both parties. A formal amendment to this Agreement is required for changes which cause any of the following:
   (1) an increase or decrease in the Agreement funding amount;
   (2) a change in Grantee's match requirements;
   (3) a change in the expiration date of the Agreement; and/or
   (4) changes to the cumulative amount of funding transfers between approved budget categories, as defined in Attachment 3, Grant Work Plan, that exceeds or is expected to exceed twenty percent (20%) of the total budget as last approved by Department.
   A change order to this Agreement may be used when:
   (1) task timelines within the current authorized Agreement period change;
   (2) the cumulative transfer of funds between approved budget categories, as defined in Attachment 3, Grant Work Plan, are less than twenty percent (20%) of the total budget as last approved by Department;
   (3) changing the current funding source as stated in the Standard Grant Agreement; and/or
   (4) fund transfers between budget categories for the purposes of meeting match requirements.
   This Agreement may be amended to provide for additional services if additional funding is made available by the Legislature.

e. All days in this Agreement are calendar days unless otherwise specified.

3. Agreement Duration.

The term of the Agreement shall begin and end on the dates indicated in the Standard Grant Agreement, unless extended or terminated earlier in accordance with the applicable terms and conditions. The Grantee shall be eligible for reimbursement for work performed on or after the date of execution through the expiration date of this Agreement, unless otherwise specified in Attachment 2, Special Terms and Conditions. However, work performed prior to the execution of this Agreement may be reimbursable or used for match purposes if permitted by the Special Terms and Conditions.

4. Deliverables.

The Grantee agrees to render the services or other units of deliverables as set forth in Attachment 3, Grant Work Plan. The services or other units of deliverables shall be delivered in accordance with the schedule and at the pricing outlined in the Grant Work Plan. Deliverables may be comprised of activities that must be completed prior to Department making payment on that deliverable. The Grantee agrees to perform in accordance with the terms and conditions set forth in this Agreement and all attachments and exhibits incorporated by the Standard Grant Agreement.

5. Performance Measures.

The Grantee warrants that: (1) the services will be performed by qualified personnel; (2) the services will be of the kind and quality described in the Grant Work Plan; (3) the services will be performed in a professional and workmanlike manner in accordance with industry standards and practices; (4) the services shall not and do not knowingly infringe upon the intellectual property rights, or any other proprietary rights, of any third party; and (5) its employees, subcontractors, and/or subgrantees shall comply with any security and safety requirements and processes, if provided by Department, for work done at the Project Location(s). The Department reserves the right to investigate or inspect at any time to determine whether the services or qualifications offered by Grantee meet the Agreement requirements. Notwithstanding any provisions herein to the contrary, written acceptance of a particular deliverable does not foreclose Department's remedies in the event deficiencies in the deliverable cannot be readily measured at the time of delivery.

6. Acceptance of Deliverables.

a. Acceptance Process. All deliverables must be received and accepted in writing by Department's Grant Manager before payment. The Grantee shall work diligently to correct all deficiencies in the deliverable that remain outstanding, within a reasonable time at Grantee's expense. If Department's Grant Manager does not accept the deliverables within 30 days of receipt, they will be deemed rejected.

b. Rejection of Deliverables. The Department reserves the right to reject deliverables, as outlined in the Grant Work Plan, as incomplete, inadequate, or unacceptable due, in whole or in part, to Grantee's lack of satisfactory performance under the terms of this Agreement. The Grantee's efforts to correct the rejected deliverables will be at Grantee's sole expense. Failure to fulfill the applicable technical requirements or complete all tasks or activities in accordance with the Grant Work Plan will result in rejection of the deliverable and the associated invoice. Payment for the rejected deliverable will not be issued unless the rejected deliverable is made acceptable to Department in accordance with the Agreement requirements. The Department, at its option, may allow additional time within which Grantee may remedy the objections noted by Department. The Grantee's failure to make adequate or acceptable deliverables after a reasonable opportunity to do so shall constitute an event of default.

7. Financial Consequences for Nonperformance.

a. Withholding Payment. In addition to the specific consequences explained in the Grant Work Plan and/or Special Terms and Conditions, the State of Florida (State) reserves the right to withhold payment when the Grantee has failed to perform/comply with provisions of this Agreement. None of the financial consequences for nonperformance in this Agreement as more fully described in the Grant Work Plan shall be considered penalties.

b. Invoice reduction

If Grantee does not meet a deadline for any deliverable, the Department will reduce the invoice by 1% for each day the deadline is missed, unless an extension is approved in writing by the Department.

c. Corrective Action Plan. If Grantee fails to correct all the deficiencies in a rejected deliverable within the specified timeframe, Department may, in its sole discretion, request that a proposed Corrective Action Plan (CAP) be submitted by Grantee to Department. The Department requests that Grantee specify the outstanding deficiencies in the CAP. All CAPs must be able to be implemented and performed in no more than sixty (60) calendar days.

   i. The Grantee shall submit a CAP within ten (10) days of the date of the written request from Department. The CAP shall be sent to the Department's Grant Manager for review and approval. Within ten (10) days of receipt of a CAP, Department shall notify Grantee in writing whether the CAP proposed has been accepted. If the CAP is not accepted, Grantee shall have ten (10) days from receipt of Department letter rejecting the proposal to submit a revised proposed CAP. Failure to obtain Department approval of a CAP as specified above may result in Department's termination of this Agreement for cause as authorized in this Agreement.

   ii. Upon Department's notice of acceptance of a proposed CAP, Grantee shall have ten (10) days to commence implementation of the accepted plan. Acceptance of the proposed CAP by Department does not relieve Grantee of any of its obligations under the Agreement. In the event the CAP fails to correct or eliminate performance deficiencies by Grantee, Department shall retain the right to

require additional or further remedial steps, or to terminate this Agreement for failure to perform. No actions approved by Department or steps taken by Grantee shall preclude Department from subsequently asserting any deficiencies in performance. The Grantee shall continue to implement the CAP until all deficiencies are corrected. Reports on the progress of the CAP will be made to Department as requested by Department's Grant Manager.

iii. Failure to respond to a Department request for a CAP or failure to correct a deficiency in the performance of the Agreement as specified by Department may result in termination of the Agreement.

8. Payment.

a. Payment Process. Subject to the terms and conditions established by the Agreement, the pricing per deliverable established by the Grant Work Plan, and the billing procedures established by Department, Department agrees to pay Grantee for services rendered in accordance with Section 215.422, Florida Statutes (F.S.).

b. Taxes. The Department is exempted from payment of State sales, use taxes and Federal excise taxes. The Grantee, however, shall not be exempted from paying any taxes that it is subject to, including State sales and use taxes, or for payment by Grantee to suppliers for taxes on materials used to fulfill its contractual obligations with Department. The Grantee shall not use Department's exemption number in securing such materials. The Grantee shall be responsible and liable for the payment of all its FICA/Social Security and other taxes resulting from this Agreement.

c. Maximum Amount of Agreement. The maximum amount of compensation under this Agreement, without an amendment, is described in the Standard Grant Agreement. Any additional funds necessary for the completion of this Project are the responsibility of Grantee.

d. Reimbursement for Costs. The Grantee shall be paid on a cost reimbursement basis for all eligible Project costs upon the completion, submittal, and approval of each deliverable identified in the Grant Work Plan. Reimbursement shall be requested on Exhibit C, Payment Request Summary Form. To be eligible for reimbursement, costs must be in compliance with laws, rules, and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures, which can be accessed at the following web address: https://www.myfloridacfo.com/Division/AA/Manuals/documents/ReferenceGuideforStateExpenditures.pdf.

e. Invoice Detail. All charges for services rendered or for reimbursement of expenses authorized by Department pursuant to the Grant Work Plan shall be submitted to Department in sufficient detail for a proper pre-audit and post-audit to be performed. The Grantee shall only invoice Department for deliverables that are completed in accordance with the Grant Work Plan.

f. Interim Payments. Interim payments may be made by Department, at its discretion, if the completion of deliverables to date have first been accepted in writing by Department's Grant Manager.

g. Final Payment Request. A final payment request should be submitted to Department no later than sixty (60) days following the expiration date of the Agreement to ensure the availability of funds for payment. However, all work performed pursuant to the Grant Work Plan must be performed on or before the expiration date of the Agreement.

h. Annual Appropriation Contingency. The State's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. This Agreement is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of Department if the Legislature reduces or eliminates appropriations.

i. Interest Rates. All interest rates charged under the Agreement shall be calculated on the prevailing rate used by the State Board of Administration. To obtain the applicable interest rate, please refer to: www.myfloridacfo.com/Division/AA/Vendors/default.htm.

j. Refund of Payments to the Department. Any balance of unobligated funds that have been advanced or paid must be refunded to Department. Any funds paid in excess of the amount to which Grantee or subgrantee is entitled under the terms of the Agreement must be refunded to Department. If this Agreement is funded with federal funds and the Department is required to refund the federal government, the Grantee shall refund the Department its share of those funds.

9. Documentation Required for Cost Reimbursement Grant Agreements and Match.

If Cost Reimbursement or Match is authorized in Attachment 2, Special Terms and Conditions, the following conditions apply. Supporting documentation must be provided to substantiate cost reimbursement or match requirements for the following budget categories:

a. Salary/Wages. Grantee shall list personnel involved, position classification, direct salary rates, and hours spent on the Project in accordance with Attachment 3, Grant Work Plan in their documentation for reimbursement or match requirements.

b. Overhead/Indirect/General and Administrative Costs. If Grantee is being reimbursed for or claiming match for multipliers, all multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by Grantee exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate.

c. Contractual Costs (Subcontractors). Match or reimbursement requests for payments to subcontractors must be substantiated by copies of invoices with backup documentation identical to that required from Grantee. Subcontracts which involve payments for direct salaries shall clearly identify the personnel involved, salary rate per hour, and hours spent on the Project. All eligible multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by any subcontractor exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate. Nonconsumable and/or nonexpendable personal property or equipment costing $5,000 or more purchased for the Project under a subcontract is subject to the requirements set forth in Chapters 273 and/or 274, F.S., and Chapter 69I-72, Florida Administrative Code (F.A.C.) and/or Chapter 69I-73, F.A.C., as applicable. The Grantee shall be responsible for maintaining appropriate property records for any subcontracts that include the purchase of equipment as part of the delivery of services. The Grantee shall comply with this requirement and ensure its subcontracts issued under this Agreement, if any, impose this requirement, in writing, on its subcontractors.

    i. For fixed-price (vendor) subcontracts, the following provisions shall apply: The Grantee may award, on a competitive basis, fixed-price subcontracts to consultants/contractors in performing the work described in Attachment 3, Grant Work Plan. Invoices submitted to Department for fixed-price subcontracted activities shall be supported with a copy of the subcontractor's invoice and a copy of the tabulation form for the competitive procurement process (e.g., Invitation to Bid, Request for Proposals, or other similar competitive procurement document) resulting in the fixed-price subcontract. The Grantee may request approval from Department to award a fixed-price subcontract resulting from procurement methods other than those identified above. In this instance, Grantee shall request the advance written approval from Department's Grant Manager of the fixed price negotiated by Grantee. The letter of request shall be supported by a detailed budget and Scope of Services to be performed by the subcontractor. Upon receipt of Department Grant Manager's approval of the fixed-price amount, Grantee may proceed in finalizing the fixed-price subcontract.

    ii. If the procurement is subject to the Consultant's Competitive Negotiation Act under section 287.055, F.S. or the Brooks Act, Grantee must provide documentation clearly evidencing it has complied with the statutory or federal requirements.

d. Travel. All requests for match or reimbursement of travel expenses shall be in accordance with Section 112.061, F.S.

e. Direct Purchase Equipment. For the purposes of this Agreement, Equipment is defined as capital outlay costing $5,000 or more. Match or reimbursement for Grantee's direct purchase of equipment is subject to specific approval of Department, and does not include any equipment purchased under the delivery of services to be completed by a subcontractor. Include copies of invoices or receipts to document purchases, and a properly completed Exhibit B, Property Reporting Form**.**

f. Rental/Lease of Equipment. Match or reimbursement requests for rental/lease of equipment must include copies of invoices or receipts to document charges.

g. Miscellaneous/Other Expenses. If miscellaneous or other expenses, such as materials, supplies, non-excluded phone expenses, reproduction, or mailing, are reimbursable or available for match or reimbursement under the terms of this Agreement, the documentation supporting these expenses must be itemized and include copies of receipts or invoices. Additionally, independent of Grantee's contract obligations to its subcontractor, Department shall not reimburse any of the following types of charges: cell phone usage; attorney's fees or court costs; civil or administrative penalties; or handling fees, such as set percent overages associated with purchasing supplies or equipment.

h. Land Acquisition. Reimbursement for the costs associated with acquiring interest and/or rights to real property (including access rights through ingress/egress easements, leases, license agreements, or other site access agreements; and/or obtaining record title ownership of real property through purchase) must be supported by the following, as applicable: Copies of Property Appraisals, Environmental Site Assessments, Surveys and Legal

Descriptions, Boundary Maps, Acreage Certification, Title Search Reports, Title Insurance, Closing Statements/Documents, Deeds, Leases, Easements, License Agreements, or other legal instrument documenting acquired property interest and/or rights. If land acquisition costs are used to meet match requirements, Grantee agrees that those funds shall not be used as match for any other Agreement supported by State or Federal funds.

10. Status Reports.

The Grantee shall submit status reports quarterly, unless otherwise specified in the Attachments, on Exhibit A, Progress Report Form**,** to Department's Grant Manager describing the work performed during the reporting period, problems encountered, problem resolutions, scheduled updates, and proposed work for the next reporting period. Quarterly status reports are due no later than twenty (20) days following the completion of the quarterly reporting period. For the purposes of this reporting requirement, the quarterly reporting periods end on March 31, June 30, September 30 and December 31. The Department will review the required reports submitted by Grantee within thirty (30) days.

11. Retainage.

The following provisions apply if Department withholds retainage under this Agreement:

a. The Department reserves the right to establish the amount and application of retainage on the work performed under this Agreement up to the maximum percentage described in Attachment 2, Special Terms and Conditions. Retainage may be withheld from each payment to Grantee pending satisfactory completion of work and approval of all deliverables.

b. If Grantee fails to perform the requested work, or fails to perform the work in a satisfactory manner, Grantee shall forfeit its right to payment of the retainage associated with the work. Failure to perform includes, but is not limited to, failure to submit the required deliverables or failure to provide adequate documentation that the work was actually performed. The Department shall provide written notification to Grantee of the failure to perform that shall result in retainage forfeiture. If the Grantee does not correct the failure to perform within the timeframe stated in Department's notice, the retainage will be forfeited to Department.

c. No retainage shall be released or paid for incomplete work while this Agreement is suspended.

d. Except as otherwise provided above, Grantee shall be paid the retainage associated with the work, provided Grantee has completed the work and submits an invoice for retainage held in accordance with the invoicing procedures under this Agreement.

12. Insurance.

a. Insurance Requirements for Sub-Grantees and/or Subcontractors. The Grantee shall require its sub-grantees and/or subcontractors, if any, to maintain insurance coverage of such types and with such terms and limits as described in this Agreement. The Grantee shall require all its sub-grantees and/or subcontractors, if any, to make compliance with the insurance requirements of this Agreement a condition of all contracts that are related to this Agreement. Sub-grantees and/or subcontractors must provide proof of insurance upon request.

b. Deductibles. The Department shall be exempt from, and in no way liable for, any sums of money representing a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the Grantee providing such insurance.

c. Proof of Insurance. Upon execution of this Agreement, Grantee shall provide Department documentation demonstrating the existence and amount for each type of applicable insurance coverage ***prior to*** performance of any work under this Agreement. Upon receipt of written request from Department, Grantee shall furnish Department with proof of applicable insurance coverage by standard form certificates of insurance, a self-insured authorization, or other certification of self-insurance.

d. Duty to Maintain Coverage. In the event that any applicable coverage is cancelled by the insurer for any reason, or if Grantee cannot get adequate coverage, Grantee shall immediately notify Department of such cancellation and shall obtain adequate replacement coverage conforming to the requirements herein and provide proof of such replacement coverage within ten (10) days after the cancellation of coverage.

e. Insurance Trust. If the Grantee's insurance is provided through an insurance trust, the Grantee shall instead add the Department of Environmental Protection, its employees, and officers as an additional covered party everywhere the Agreement requires them to be added as an additional insured.

13. Termination.

a. Termination for Convenience. When it is in the State's best interest, Department may, at its sole discretion, terminate the Agreement in whole or in part by giving 30 days' written notice to Grantee. The Department shall notify Grantee of the termination for convenience with instructions as to the effective date of termination or the specific stage of work at which the Agreement is to be terminated. The Grantee must submit all invoices for work to be paid under this Agreement within thirty (30) days of the effective date of termination. The Department shall not pay any invoices received after thirty (30) days of the effective date of termination.

b. Termination for Cause. The Department may terminate this Agreement if any of the events of default described in the Events of Default provisions below occur or in the event that Grantee fails to fulfill any of its other obligations under this Agreement. If, after termination, it is determined that Grantee was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Department. The rights and remedies of Department in this clause are in addition to any other rights and remedies provided by law or under this Agreement.
c. Grantee Obligations upon Notice of Termination. After receipt of a notice of termination or partial termination unless as otherwise directed by Department, Grantee shall not furnish any service or deliverable on the date, and to the extent specified, in the notice. However, Grantee shall continue work on any portion of the Agreement not terminated. If the Agreement is terminated before performance is completed, Grantee shall be paid only for that work satisfactorily performed for which costs can be substantiated. The Grantee shall not be entitled to recover any cancellation charges or lost profits.
d. Continuation of Prepaid Services. If Department has paid for any services prior to the expiration, cancellation, or termination of the Agreement, Grantee shall continue to provide Department with those services for which it has already been paid or, at Department's discretion, Grantee shall provide a refund for services that have been paid for but not rendered.
e. Transition of Services Upon Termination, Expiration, or Cancellation of the Agreement. If services provided under the Agreement are being transitioned to another provider(s), Grantee shall assist in the smooth transition of Agreement services to the subsequent provider(s). This requirement is at a minimum an affirmative obligation to cooperate with the new provider(s), however additional requirements may be outlined in the Grant Work Plan. The Grantee shall not perform any services after Agreement expiration or termination, except as necessary to complete the transition or continued portion of the Agreement, if any.

14. Notice of Default.

If Grantee defaults in the performance of any covenant or obligation contained in the Agreement, including, any of the events of default, Department shall provide notice to Grantee and an opportunity to cure that is reasonable under the circumstances. This notice shall state the nature of the failure to perform and provide a time certain for correcting the failure. The notice will also provide that, should the Grantee fail to perform within the time provided, Grantee will be found in default, and Department may terminate the Agreement effective as of the date of receipt of the default notice.

15. Events of Default.

Provided such failure is not the fault of Department or outside the reasonable control of Grantee, the following non-exclusive list of events, acts, or omissions, shall constitute events of default:

a. The commitment of any material breach of this Agreement by Grantee, including failure to timely deliver a material deliverable, failure to perform the minimal level of services required for a deliverable, discontinuance of the performance of the work, failure to resume work that has been discontinued within a reasonable time after notice to do so, or abandonment of the Agreement;
b. The commitment of any material misrepresentation or omission in any materials, or discovery by the Department of such, made by the Grantee in this Agreement or in its application for funding;
c. Failure to submit any of the reports required by this Agreement or having submitted any report with incorrect, incomplete, or insufficient information;
d. Failure to honor any term of the Agreement;
e. Failure to abide by any statutory, regulatory, or licensing requirement, including an entry of an order revoking the certificate of authority granted to the Grantee by a state or other licensing authority;
f. Failure to pay any and all entities, individuals, and furnishing labor or materials, or failure to make payment to any other entities as required by this Agreement;
g. Employment of an unauthorized alien in the performance of the work, in violation of Section 274 (A) of the Immigration and Nationality Act;
h. Failure to maintain the insurance required by this Agreement;
i. One or more of the following circumstances, uncorrected for more than thirty (30) days unless, within the specified 30-day period, Grantee (including its receiver or trustee in bankruptcy) provides to Department adequate assurances, reasonably acceptable to Department, of its continuing ability and willingness to fulfill its obligations under the Agreement:
    i. Entry of an order for relief under Title 11 of the United States Code;
    ii. The making by Grantee of a general assignment for the benefit of creditors;
    iii. The appointment of a general receiver or trustee in bankruptcy of Grantee's business or property; and/or

iv. An action by Grantee under any state insolvency or similar law for the purpose of its bankruptcy, reorganization, or liquidation.

16. Suspension of Work.

The Department may, in its sole discretion, suspend any or all activities under the Agreement, at any time, when it is in the best interest of the State to do so. The Department shall provide Grantee written notice outlining the particulars of suspension. Examples of reasons for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, Grantee shall comply with the notice. Within 90 days, or any longer period agreed to by the parties, Department shall either: (1) issue a notice authorizing resumption of work, at which time activity shall resume; or (2) terminate the Agreement. If the Agreement is terminated after 30 days of suspension, the notice of suspension shall be deemed to satisfy the thirty (30) days' notice required for a notice of termination for convenience. Suspension of work shall not entitle Grantee to any additional compensation.

17. Force Majeure.

The Grantee shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of Grantee or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond Grantee's control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to Grantee. In case of any delay Grantee believes is excusable, Grantee shall notify Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten days after the cause that creates or will create the delay first arose, if Grantee could reasonably foresee that a delay could occur as a result; or (2) if delay is not reasonably foreseeable, within five days after the date Grantee first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE GRANTEE'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY**. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against Department. The Grantee shall not be entitled to an increase in the Agreement price or payment of any kind from Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist Grantee shall perform at no increased cost, unless Department determines, in its sole discretion, that the delay will significantly impair the value of the Agreement to Department, in which case Department may: (1) accept allocated performance or deliveries from Grantee, provided that Grantee grants preferential treatment to Department with respect to products subjected to allocation; (2) contract with other sources (without recourse to and by Grantee for the related costs and expenses) to replace all or part of the products or services that are the subject of the delay, which purchases may be deducted from the Agreement quantity; or (3) terminate Agreement in whole or in part.

18. Indemnification.

a. The Grantee shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless Department and its officers, agents, and employees, from suits, actions, damages, and costs of every name and description arising from or relating to:
   i. personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Grantee, its agents, employees, partners, or subcontractors; provided, however, that Grantee shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of Department;
   ii. the Grantee's breach of this Agreement or the negligent acts or omissions of Grantee.

b. The Grantee's obligations under the preceding paragraph with respect to any legal action are contingent upon Department giving Grantee: (1) written notice of any action or threatened action; (2) the opportunity to take over and settle or defend any such action at Grantee's sole expense; and (3) assistance in defending the action at Grantee's sole expense. The Grantee shall not be liable for any cost, expense, or compromise incurred or made by Department in any legal action without Grantee's prior written consent, which shall not be unreasonably withheld.

c. Notwithstanding sections a. and b. above, the following is the sole indemnification provision that applies to Grantees that are governmental entities: Each party hereto agrees that it shall be solely responsible for the negligent or wrongful acts of its employees and agents. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of Section 768.28, F.S. Further, nothing herein shall be construed as consent by a state agency or subdivision of the State to be sued by third parties in any matter arising out of any contract or this Agreement.

d. No provision in this Agreement shall require Department to hold harmless or indemnify Grantee, insure or assume liability for Grantee's negligence, waive Department's sovereign immunity under the laws of Florida, or otherwise impose liability on Department for which it would not otherwise be responsible. Any provision, implication or suggestion to the contrary is null and void.

19. Limitation of Liability.

The Department's liability for any claim arising from this Agreement is limited to compensatory damages in an amount no greater than the sum of the unpaid balance of compensation due for goods or services rendered pursuant to and in compliance with the terms of the Agreement. Such liability is further limited to a cap of $100,000.

20. Remedies.

Nothing in this Agreement shall be construed to make Grantee liable for force majeure events. Nothing in this Agreement, including financial consequences for nonperformance, shall limit Department's right to pursue its remedies for other types of damages under the Agreement, at law or in equity. The Department may, in addition to other remedies available to it, at law or in equity and upon notice to Grantee, retain such monies from amounts due Grantee as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against it.

21. Waiver.

The delay or failure by Department to exercise or enforce any of its rights under this Agreement shall not constitute or be deemed a waiver of Department's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

22. Statutory Notices Relating to Unauthorized Employment and Subcontracts.

a. The Department shall consider the employment by any Grantee of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If Grantee/subcontractor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of this Agreement. The Grantee shall be responsible for including this provision in all subcontracts with private organizations issued as a result of this Agreement.

b. Pursuant to Sections 287.133, 287.134, and 287.137 F.S., the following restrictions apply to persons placed on the convicted vendor list, discriminatory vendor list, or the antitrust violator vendor list:

   i. Public Entity Crime. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, F.S., for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list.

   ii. Discriminatory Vendors. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

   iii. Antitrust Violator Vendors. A person or an affiliate who has been placed on the antitrust violator vendor list following a conviction or being held civilly liable for an antitrust violation may not submit a bid, proposal, or reply on any contract to provide any good or services to a public entity; may not submit a bid, proposal, or reply on any contract with a public entity for the construction or repair of a public building or public work; may not submit a bid, proposal, or reply on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with a public entity; and may not transact new business with a public entity.

   iv. Notification. The Grantee shall notify Department if it or any of its suppliers, subcontractors, or consultants have been placed on the convicted vendor list, the discriminatory vendor list, or antitrust violator vendor list during the life of the Agreement. The Florida Department of Management Services is responsible for maintaining the discriminatory vendor list and the antitrust violator vendor list and posts the list on its website. Questions regarding the discriminatory vendor list or antitrust violator vendor list may be directed to the Florida Department of Management Services, Office of Supplier Diversity, at (850) 487-0915.

23. Compliance with Federal, State and Local Laws.

a. The Grantee and all its agents shall comply with all federal, state and local regulations, including, but not limited to, nondiscrimination, wages, social security, workers' compensation, licenses, and registration requirements. The Grantee shall include this provision in all subcontracts issued as a result of this Agreement.

b. No person, on the grounds of race, creed, color, religion, national origin, age, gender, or disability, shall be excluded from participation in; be denied the proceeds or benefits of; or be otherwise subjected to discrimination in performance of this Agreement.

c. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida.

d. Any dispute concerning performance of the Agreement shall be processed as described herein. Jurisdiction for any damages arising under the terms of the Agreement will be in the courts of the State, and venue will be in the Second Judicial Circuit, in and for Leon County. Except as otherwise provided by law, the parties agree to be responsible for their own attorney fees incurred in connection with disputes arising under the terms of this Agreement.

24. Build America, Buy America Act (BABA) - Infrastructure Projects with Federal Funding.

This provision does not apply to Agreements that are wholly funded by Coronavirus State and Local Fiscal Recovery Funds under the American Rescue Plan Act. Also, this provision does not apply where there is a valid waiver in place. However, the provision may apply to funds expended before the waiver or after expiration of the waiver.

If applicable, Recipients or Subrecipients of an award of Federal financial assistance from a program for infrastructure are required to comply with the Build America, Buy America Act (BABA), including the following provisions:

a. All iron and steel used in the project are produced in the United States--this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;

b. All manufactured products used in the project are produced in the United States-this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and

c. All construction materials are manufactured in the United States-this means that all manufacturing processes for the construction material occurred in the United States.

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

25. Scrutinized Companies.

a. Grantee certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to Section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.

b. If this Agreement is for more than one million dollars, the Grantee certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. Pursuant to Section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

c. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize these contracting prohibitions then they shall become inoperative.

26. Lobbying and Integrity.

The Grantee agrees that no funds received by it under this Agreement will be expended for the purpose of lobbying the Legislature or a State agency pursuant to Section 216.347, F.S., except that pursuant to the requirements of Section

287.058(6), F.S., during the term of any executed agreement between Grantee and the State, Grantee may lobby the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding that agreement. The Grantee shall comply with Sections 11.062 and 216.347, F.S.

27. Record Keeping.

The Grantee shall maintain books, records and documents directly pertinent to performance under this Agreement in accordance with United States generally accepted accounting principles (US GAAP) consistently applied. The Department, the State, or their authorized representatives shall have access to such records for audit purposes during the term of this Agreement and for five (5) years following the completion date or termination of the Agreement. In the event that any work is subcontracted, Grantee shall similarly require each subcontractor to maintain and allow access to such records for audit purposes. Upon request of Department's Inspector General, or other authorized State official, Grantee shall provide any type of information the Inspector General deems relevant to Grantee's integrity or responsibility. Such information may include, but shall not be limited to, Grantee's business or financial records, documents, or files of any type or form that refer to or relate to Agreement. The Grantee shall retain such records for the longer of: (1) three years after the expiration of the Agreement; or (2) the period required by the General Records Schedules maintained by the Florida Department of State (available at: http://dos.myflorida.com/library-archives/records-management/general-records-schedules/).

28. Audits.

a. Inspector General. The Grantee understands its duty, pursuant to Section 20.055(5), F.S., to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing. The Grantee will comply with this duty and ensure that its sub-grantees and/or subcontractors issued under this Agreement, if any, impose this requirement, in writing, on its sub-grantees and/or subcontractors, respectively.

b. Physical Access and Inspection. Department personnel shall be given access to and may observe and inspect work being performed under this Agreement, with reasonable notice and during normal business hours, including by any of the following methods:
   i. Grantee shall provide access to any location or facility on which Grantee is performing work, or storing or staging equipment, materials or documents;
   ii. Grantee shall permit inspection of any facility, equipment, practices, or operations required in performance of any work pursuant to this Agreement; and,
   iii. Grantee shall allow and facilitate sampling and monitoring of any substances, soils, materials or parameters at any location reasonable or necessary to assure compliance with any work or legal requirements pursuant to this Agreement.

c. Special Audit Requirements. The Grantee shall comply with the applicable provisions contained in Attachment 5, Special Audit Requirements. Each amendment that authorizes a funding increase or decrease shall include an updated copy of Exhibit 1, to Attachment 5. If Department fails to provide an updated copy of Exhibit 1 to include in each amendment that authorizes a funding increase or decrease, Grantee shall request one from the Department's Grants Manager. The Grantee shall consider the type of financial assistance (federal and/or state) identified in Attachment 5, Exhibit 1 and determine whether the terms of Federal and/or Florida Single Audit Act Requirements may further apply to lower tier transactions that may be a result of this Agreement. For federal financial assistance, Grantee shall utilize the guidance provided under 2 CFR §200.331 for determining whether the relationship represents that of a subrecipient or vendor. For State financial assistance, Grantee shall utilize the form entitled "Checklist for Nonstate Organizations Recipient/Subrecipient vs Vendor Determination" (form number DFS-A2-NS) that can be found under the "Links/Forms" section appearing at the following website: https:\\apps.fldfs.com\fsaa.

d. Proof of Transactions. In addition to documentation provided to support cost reimbursement as described herein, Department may periodically request additional proof of a transaction to evaluate the appropriateness of costs to the Agreement pursuant to State guidelines (including cost allocation guidelines) and federal, if applicable. Allowable costs and uniform administrative requirements for federal programs can be found under 2 CFR 200. The Department may also request a cost allocation plan in support of its multipliers (overhead, indirect, general administrative costs, and fringe benefits). The Grantee must provide the additional proof within thirty (30) days of such request.

e. No Commingling of Funds. The accounting systems for all Grantees must ensure that these funds are not commingled with funds from other agencies. Funds from each agency must be accounted for separately. Grantees are prohibited from commingling funds on either a program-by-program or a project-by-project basis. Funds specifically budgeted and/or received for one project may not be used to support another project. Where a Grantee's, or subrecipient's, accounting system cannot comply with this requirement, Grantee, or subrecipient, shall establish a system to provide adequate fund accountability for each project it has been awarded.

i. If Department finds that these funds have been commingled, Department shall have the right to demand a refund, either in whole or in part, of the funds provided to Grantee under this Agreement for non-compliance with the material terms of this Agreement. The Grantee, upon such written notification from Department shall refund, and shall forthwith pay to Department, the amount of money demanded by Department. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. Interest shall be calculated from the date(s) the original payment(s) are received from Department by Grantee to the date repayment is made by Grantee to Department.

ii. In the event that the Grantee recovers costs, incurred under this Agreement and reimbursed by Department, from another source(s), Grantee shall reimburse Department for all recovered funds originally provided under this Agreement and interest shall be charged for those recovered costs as calculated on from the date(s) the payment(s) are recovered by Grantee to the date repayment is made to Department.

iii. Notwithstanding the requirements of this section, the above restrictions on commingling funds do not apply to agreements where payments are made purely on a cost reimbursement basis.

29. Conflict of Interest.

The Grantee covenants that it presently has no interest and shall not acquire any interest which would conflict in any manner or degree with the performance of services required.

30. Independent Contractor.

The Grantee is an independent contractor and is not an employee or agent of Department.

31. Subcontracting.

a. Unless otherwise specified in the Special Terms and Conditions, all services contracted for are to be performed solely by Grantee.

b. The Department may, for cause, require the replacement of any Grantee employee, subcontractor, or agent. For cause, includes, but is not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with an applicable Department policy or other requirement.

c. The Department may, for cause, deny access to Department's secure information or any facility by any Grantee employee, subcontractor, or agent.

d. The Department's actions under paragraphs b. or c. shall not relieve Grantee of its obligation to perform all work in compliance with the Agreement. The Grantee shall be responsible for the payment of all monies due under any subcontract. The Department shall not be liable to any subcontractor for any expenses or liabilities incurred under any subcontract and Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under any subcontract.

e. The Department will not deny Grantee's employees, subcontractors, or agents access to meetings within the Department's facilities, unless the basis of Department's denial is safety or security considerations.

f. The Department supports diversity in its procurement program and requests that all subcontracting opportunities afforded by this Agreement embrace diversity enthusiastically. The award of subcontracts should reflect the full diversity of the citizens of the State. A list of minority-owned firms that could be offered subcontracting opportunities may be obtained by contacting the Office of Supplier Diversity at (850) 487-0915.

g. The Grantee shall not be liable for any excess costs for a failure to perform, if the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is completely beyond the control of both Grantee and the subcontractor(s), and without the fault or negligence of either, unless the subcontracted products or services were obtainable from other sources in sufficient time for Grantee to meet the required delivery schedule.

32. Guarantee of Parent Company.

If Grantee is a subsidiary of another corporation or other business entity, Grantee asserts that its parent company will guarantee all of the obligations of Grantee for purposes of fulfilling the obligations of Agreement. In the event Grantee is sold during the period the Agreement is in effect, Grantee agrees that it will be a requirement of sale that the new parent company guarantee all of the obligations of Grantee.

33. Survival.

The respective obligations of the parties, which by their nature would continue beyond the termination or expiration of this Agreement, including without limitation, the obligations regarding confidentiality, proprietary interests, and public records, shall survive termination, cancellation, or expiration of this Agreement.

34. Third Parties.

The Department shall not be deemed to assume any liability for the acts, failures to act or negligence of Grantee, its agents, servants, and employees, nor shall Grantee disclaim its own negligence to Department or any third party. This

Agreement does not and is not intended to confer any rights or remedies upon any person other than the parties. If Department consents to a subcontract, Grantee will specifically disclose that this Agreement does not create any third-party rights. Further, no third parties shall rely upon any of the rights and obligations created under this Agreement.

35. Severability.

If a court of competent jurisdiction deems any term or condition herein void or unenforceable, the other provisions are severable to that void provision, and shall remain in full force and effect.

36. Grantee's Employees, Subcontractors and Agents.

All Grantee employees, subcontractors, or agents performing work under the Agreement shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Grantee shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under Agreement must comply with all security and administrative requirements of Department and shall comply with all controlling laws and regulations relevant to the services they are providing under the Agreement.

37. Assignment.

The Grantee shall not sell, assign, or transfer any of its rights, duties, or obligations under the Agreement, or under any purchase order issued pursuant to the Agreement, without the prior written consent of Department. In the event of any assignment, Grantee remains secondarily liable for performance of the Agreement, unless Department expressly waives such secondary liability. The Department may assign the Agreement with prior written notice to Grantee of its intent to do so.

38. Compensation Report.

If this Agreement is a sole-source, public-private agreement or if the Grantee, through this agreement with the State, annually receive 50% or more of their budget from the State or from a combination of State and Federal funds, the Grantee shall provide an annual report, including the most recent IRS Form 990, detailing the total compensation for the entities' executive leadership teams. Total compensation shall include salary, bonuses, cashed-in leave, cash equivalents, severance pay, retirement benefits, deferred compensation, real-property gifts, and any other payout. The Grantee must also inform the Department of any changes in total executive compensation between the annual reports. All compensation reports must indicate what percent of compensation comes directly from the State or Federal allocations to the Grantee.

39. Execution in Counterparts and Authority to Sign.

This Agreement, any amendments, and/or change orders related to the Agreement, may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument. In accordance with the Electronic Signature Act of 1996, electronic signatures, including facsimile transmissions, may be used and shall have the same force and effect as a written signature. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Terms and Conditions
AGREEMENT NO. LPA0352

ATTACHMENT 2

These Special Terms and Conditions shall be read together with general terms outlined in the Standard Terms and Conditions, Attachment 1. Where in conflict, these more specific terms shall apply.

1. Scope of Work.
The Project funded under this Agreement is Ormond Beach Septic Tank Conversion. The Project is defined in more detail in Attachment 3, Grant Work Plan.

2. Duration.
a. Reimbursement Period. The reimbursement period for this Agreement begins on July 1, 2022 and ends at the expiration of the Agreement.
b. Extensions. There are extensions available for this Project.
c. Service Periods. Additional service periods are not authorized under this Agreement.

3. Payment Provisions.
a. Compensation. This is a cost reimbursement Agreement. The Grantee shall be compensated under this Agreement as described in Attachment 3.
b. Invoicing. Invoicing will occur as indicated in Attachment 3.
c. Advance Pay. Advance Pay is not authorized under this Agreement.

4. Cost Eligible for Reimbursement or Matching Requirements.
Reimbursement for costs or availability for costs to meet matching requirements shall be limited to the following budget categories, as defined in the Reference Guide for State Expenditures, as indicated:

Reimbursement	Match	Category
☐	☐	Salaries/Wages
		Overhead/Indirect/General and Administrative Costs:
☐	☐	a. Fringe Benefits, N/A.
☐	☐	b. Indirect Costs, N/A.
☒	☐	Contractual (Subcontractors)
☐	☐	Travel, in accordance with Section 112, F.S.
☐	☐	Equipment
☐	☐	Rental/Lease of Equipment
☐	☐	Miscellaneous/Other Expenses
☐	☐	Land Acquisition

5. Equipment Purchase.
No Equipment purchases shall be funded under this Agreement.

6. Land Acquisition.
There will be no Land Acquisitions funded under this Agreement.

7. Match Requirements
There is no match required on the part of the Grantee under this Agreement.

8. Insurance Requirements

Required Coverage. At all times during the Agreement the Grantee, at its sole expense, shall maintain insurance coverage of such types and with such terms and limits described below. The limits of coverage under each policy maintained by the Grantee shall not be interpreted as limiting the Grantee's liability and obligations under the Agreement. All insurance policies shall be through insurers licensed and authorized to issue policies in Florida, or alternatively, Grantee may provide coverage through a self-insurance program established and operating under the laws of Florida. Additional insurance requirements for this Agreement may be required elsewhere in this Agreement, however the minimum insurance requirements applicable to this Agreement are:

a. Commercial General Liability Insurance.
The Grantee shall provide adequate commercial general liability insurance coverage and hold such liability insurance at all times during the Agreement. The Department, its employees, and officers shall be named as an additional insured on any general liability policies. The minimum limits shall be $250,000 for each occurrence and $500,000 policy aggregate.

b. Commercial Automobile Insurance.
If the Grantee's duties include the use of a commercial vehicle, the Grantee shall maintain automobile liability, bodily injury, and property damage coverage. Insuring clauses for both bodily injury and property damage shall provide coverage on an occurrence basis. The Department, its employees, and officers shall be named as an additional insured on any automobile insurance policy. The minimum limits shall be as follows:

$200,000/300,000	Automobile Liability for Company-Owned Vehicles, if applicable
$200,000/300,000	Hired and Non-owned Automobile Liability Coverage

c. Workers' Compensation and Employer's Liability Coverage.
The Grantee shall provide workers' compensation, in accordance with Chapter 440, F.S. and employer liability coverage with minimum limits of $100,000 per accident, $100,000 per person, and $500,000 policy aggregate. Such policies shall cover all employees engaged in any work under the Grant.

d. Other Insurance. None.

9. Quality Assurance Requirements.
There are no special Quality Assurance requirements under this Agreement.

10. Retainage.
No retainage is required under this Agreement.

11. Subcontracting.
The Grantee may subcontract work under this Agreement without the prior written consent of the Department's Grant Manager except for certain fixed-price subcontracts pursuant to this Agreement, which require prior approval. The Grantee shall submit a copy of the executed subcontract to the Department prior to submitting any invoices for subcontracted work. Regardless of any subcontract, the Grantee is ultimately responsible for all work to be performed under this Agreement.

12. State-owned Land.
The work will not be performed on State-owned land.

13. Office of Policy and Budget Reporting.
The Grantee will identify the expected return on investment for this project and provide this information to the Governor's Office of Policy and Budget (OPB) within three months of execution of this Agreement. For each full calendar quarter thereafter, the Grantee will provide quarterly update reports directly to OPB, no later than 20 days after the end of each quarter, documenting the positive return on investment to the state that results from the Grantee's project and its use of funds provided under this Agreement. Quarterly reports will continue until the Grantee is instructed by OPB that no further reports are needed, or until the end of this Agreement, whichever occurs first. All reports shall be submitted electronically to OPB at env.roi@laspbs.state.fl.us, and a copy shall also be submitted to the Department at legislativeaffairs@floridaDEP.gov.

14. Common Carrier.

a. Applicable to contracts with a common carrier – firm/person/corporation that as a regular business transports people or commodities from place to place. If applicable, Contractor must also fill out and return PUR 1808 before contract execution] If Contractor is a common carrier pursuant to section

908.111(1)(a), Florida Statutes, the Department will terminate this contract immediately if Contractor is found to be in violation of the law or the attestation in PUR 1808.

b. Applicable to solicitations for a common carrier – Before contract execution, the winning Contractor(s) must fill out and return PUR 1808, and attest that it is not willfully providing any service in furtherance of transporting a person into this state knowing that the person unlawfully present in the United States according to the terms of the federal Immigration and Nationality Act, 8 U.S.C. ss. 1101 et seq. The Department will terminate a contract immediately if Contractor is found to be in violation of the law or the attestation in PUR 1808

15. Additional Terms.
None

ATTACHMENT 3
GRANT WORK PLAN

PROJECT TITLE: Ormond Beach Septic Tank Conversion

PROJECT LOCATION: The Project will be located in the City of Ormond Beach within Volusia County; Lat/Long (29.2785, -81.0861).

PROJECT BACKGROUND: The City of Ormond Beach's (Grantee) 2015 Utility Master Plan identified the residential area located on Magnolia Drive and Oak Drive, south of Granada Blvd. for a sewer retrofit. The Project proposes the construction of a sanitary sewer collection system, removal of septic tanks and the connection of approximately 76 residences from septic to sewer. The water quality benefitof this project is the elimination of the flow of effluent to the Tomoka and Halifax River.

PROJECT DESCRIPTION: The Grantee will construct approximately 4,000 linear feet of gravity sanitary sewer lines, a pressurized forcemain, transmission lines and 14 manholes to allow for the extension of the municipal sewer for the connection of septic to sewer.

TASKS: All documentation should be submitted electronically unless otherwise indicated.

Task #1: Design and Permitting

Deliverables: The Grantee will complete the design of a sanitary sewer collection system including gravity sewer lines and a pressurized forcemain, transmission lines and obtain all necessary permits for construction of the project.

Documentation: The Grantee will submit: 1) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 2) a summary of design activities to date, indicating the percentage of design completion for the time period covered in the payment request. For the final documentation, the Grantee will also submit a copy of the design completed with the funding provided for this task and a list of all required permits identifying issue dates and issuing authorities.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement or match documentation at the conclusion of the task.

Task #2: Construction

Deliverables: The Grantee will construct a sanitary sewer collection system including gravity sewer lines, a pressurized forcemain, transmission lines, and approximately 14 manholes, in accordance with the construction contract documents.

Documentation: The Grantee will submit 1) a copy of the final design; 2) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 3) a signed Engineer's Certification of Payment Request.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement or match documentation at the conclusion of the task.

Task #3: Project Management

Deliverables: The Grantee will perform project management, to include field engineering services, construction observation, site meetings with construction contractor(s) and design professionals, and overall project coordination and supervision.

Documentation: The Grantee will submit interim progress status summaries including summary of inspection(s), meeting minutes and field notes, as applicable.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement or match documentation at the conclusion of the task.

Task #4: Connection to Central Sewer

Deliverables: The Grantee will properly abandon the septic systems and connect approximately 76 single family residences to a central sanitary sewer system for wastewater treatment by the City of Ormond Beach.

Documentation: The Grantee will submit: 1) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; 2) a list of addresses and types of the properties connected; and 3) proof of septic abandonment and connection for each property, as evidenced by copies of invoices for the abandonments and connections by a licensed plumber, utility contractor, or building contractor.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement or match documentation at the conclusion of the task.

PROJECT TIMELINE & BUDGET DETAIL: The tasks must be completed by, and all documentation received by, the corresponding task end date. Cost reimbursable grant funding must not exceed the budget amounts as indicated below.

Task No.	Task Title	Budget Category	Grant Amount	Task Start Date	Task End Date
1	Design and Permitting	Contractual Services	$30,000	07/01/2022	08/31/2025
2	Construction	Contractual Services	$427,000	07/01/2022	08/31/2025
3	Project Management	Contractual Services	$25,000	07/01/2022	08/31/2025
4	Connection to Central Sewer	Contractual Services	$50,000	07/01/2022	08/31/2025
		Total:	$532,000		

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Public Records Requirements

Attachment 4

1. **Public Records.**

a. If the Agreement exceeds $35,000.00, and if Grantee is acting on behalf of Department in its performance of services under the Agreement, Grantee must allow public access to all documents, papers, letters, or other material, regardless of the physical form, characteristics, or means of transmission, made or received by Grantee in conjunction with the Agreement (Public Records), unless the Public Records are exempt from section 24(a) of Article I of the Florida Constitution or section 119.07(1), F.S.

b. The Department may unilaterally terminate the Agreement if Grantee refuses to allow public access to Public Records as required by law.

2. **Additional Public Records Duties of Section 119.0701, F.S., If Applicable.**
For the purposes of this paragraph, the term "contract" means the "Agreement." If Grantee is a "contractor" as defined in section 119.0701(1)(a), F.S., the following provisions apply and the contractor shall:

a. Keep and maintain Public Records required by Department to perform the service.

b. Upon request, provide Department with a copy of requested Public Records or allow the Public Records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.

c. A contractor who fails to provide the Public Records to Department within a reasonable time may be subject to penalties under section 119.10, F.S.

d. Ensure that Public Records that are exempt or confidential and exempt from Public Records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the Public Records to Department.

e. Upon completion of the contract, transfer, at no cost, to Department all Public Records in possession of the contractor or keep and maintain Public Records required by Department to perform the service. If the contractor transfers all Public Records to Department upon completion of the contract, the contractor shall destroy any duplicate Public Records that are exempt or confidential and exempt from Public Records disclosure requirements. If the contractor keeps and maintains Public Records upon completion of the contract, the contractor shall meet all applicable requirements for retaining Public Records. All Public Records stored electronically must be provided to Department, upon request from Department's custodian of Public Records, in a format specified by Department as compatible with the information technology systems of Department. These formatting requirements are satisfied by using the data formats as authorized in the contract or Microsoft Word, Outlook, Adobe, or Excel, and any software formats the contractor is authorized to access.

f. **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, F.S., TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE CONTRACT, CONTACT THE DEPARTMENT'S CUSTODIAN OF PUBLIC RECORDS AT:**

Telephone: **(850) 245-2118**
Email: public.services@floridadep.gov
Mailing Address: **Department of Environmental Protection**

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Audit Requirements
(State and Federal Financial Assistance)

Attachment 5

The administration of resources awarded by the Department of Environmental Protection *(which may be referred to as the "Department", "DEP", "FDEP" or "Grantor", or other name in the agreement*) to the recipient *(which may be referred to as the "Recipient", "Grantee" or other name in the agreement)* may be subject to audits and/or monitoring by the Department of Environmental Protection, as described in this attachment.

MONITORING

In addition to reviews of audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEP Department staff, limited scope audits as defined by 2 CFR 200.425, or other procedures. By entering into this Agreement, the recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Environmental Protection. In the event the Department of Environmental Protection determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the Department to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in 2 CFR §200.330

1. A recipient that expends $750,000 or more in Federal awards in its fiscal year, must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F. EXHIBIT 1 to this Attachment indicates Federal funds awarded through the Department of Environmental Protection by this Agreement. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from the Department of Environmental Protection. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR 200.502-503. An audit of the recipient conducted by the Auditor General in accordance with the provisions of 2 CFR Part 200.514 will meet the requirements of this part.

2. For the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR 200.508-512.

3. A recipient that expends less than $750,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F-Audit Requirements. If the recipient expends less than $750,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F-Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from other federal entities.

4. The recipient may access information regarding the Catalog of Federal Domestic Assistance (CFDA) via the internet at **www.cfda.gov**

PART II: STATE FUNDED

This part is applicable if the recipient is a nonstate entity as defined by Section 215.97(2), Florida Statutes.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such recipient (for fiscal years ending June 30, 2017, and thereafter), the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT 1 to this form lists the state financial assistance awarded through the Department of Environmental Protection by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

3. If the recipient expends less than $750,000 in state financial assistance in its fiscal year (for fiscal year ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than $750,000 in state financial assistance in its fiscal year, and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the non-state entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).

4. For information regarding the Florida Catalog of State Financial Assistance (CSFA), a recipient should access the Florida Single Audit Act website located at https://apps.fldfs.com/fsaa for assistance. In addition to the above websites, the following websites may be accessed for information: Legislature's Website at http://www.leg.state.fl.us/Welcome/index.cfm, State of Florida's website at http://www.myflorida.com/, Department of Financial Services' Website at http://www.fldfs.com/and the Auditor General's Website at http://www.myflorida.com/audgen/.

PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

PART IV: REPORT SUBMISSION

1. Copies of reporting packages for audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and required by PART I of this form shall be submitted, when required by 2 CFR 200.512, by or on behalf of the recipient directly to the Federal Audit Clearinghouse (FAC) as provided in 2 CFR 200.36 and 200.512

   A. The Federal Audit Clearinghouse designated in 2 CFR §200.501(a) (the number of copies required by 2 CFR §200.501(a) should be submitted to the Federal Audit Clearinghouse), at the following address:

By Mail:

Federal Audit Clearinghouse
Bureau of the Census
1201 East 10th Street
Jeffersonville, IN 47132

Submissions of the Single Audit reporting package for fiscal periods ending on or after January 1, 2008, must be submitted using the Federal Clearinghouse's Internet Data Entry System which can be found at http://harvester.census.gov/facweb/

2. Copies of financial reporting packages required by PART II of this Attachment shall be submitted by or on behalf of the recipient directly to each of the following:

A. The Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

B. The Auditor General's Office at the following address:

Auditor General
Local Government Audits/342
Claude Pepper Building, Room 401
111 West Madison Street
Tallahassee, Florida 32399-1450

The Auditor General's website (http://flauditor.gov/) provides instructions for filing an electronic copy of a financial reporting package.

3. Copies of reports or management letters required by PART III of this Attachment shall be submitted by or on behalf of the recipient directly to the Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

4. Any reports, management letters, or other information required to be submitted to the Department of Environmental Protection pursuant to this Agreement shall be submitted timely in accordance with 2 CFR 200.512, section 215.97, F.S., and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, as applicable.

5. Recipients, when submitting financial reporting packages to the Department of Environmental Protection for audits done in accordance with 2 CFR 200, Subpart F-Audit Requirements, or Chapters 10.550 (local governmental entities) and 10.650 (non and for-profit organizations), Rules of the Auditor General, should indicate the date and the reporting package was delivered to the recipient correspondence accompanying the reporting package.

PART V: RECORD RETENTION

The recipient shall retain sufficient records demonstrating its compliance with the terms of the award and this Agreement for a period of **five (5)** years from the date the audit report is issued, and shall allow the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General access to such records upon request. The recipient shall ensure that audit working papers are made available to the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General upon request for a period of **three (3)** years from the date the audit report is issued, unless extended in writing by the Department of Environmental Protection.

EXHIBIT – 1

FUNDS AWARDED TO THE RECIPIENT PURSUANT TO THIS AGREEMENT CONSIST OF THE FOLLOWING:

Note: If the resources awarded to the recipient represent more than one federal program, provide the same information shown below for each federal program and show total federal resources awarded

Federal Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following:					
Federal Program A	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	
Federal Program B	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	

Note: Of the resources awarded to the recipient represent more than one federal program, list applicable compliance requirements for each federal program in the same manner as shown below:

Federal Program A	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.:(eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	
Federal Program B	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.: (eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	

Note: If the resources awarded to the recipient for matching represent more than one federal program, provide the same information shown below for each federal program and show total state resources awarded for matching.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Matching Resources for Federal Programs:					
Federal Program A	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category
Federal Program B	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category

Note: If the resources awarded to the recipient represent more than one state project, provide the same information shown below for each state project and show total state financial assistance awarded that is subject to section 215.97, F.S.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Resources Subject to Section 215.97, F.S.:						
State Program A	State Awarding Agency	State Fiscal Year[1]	CSFA Number	CSFA Title or Funding Source Description	Funding Amount	State Appropriation Category
Original Agreement	Florida Department of Environmental Protection	2022-2023	37.039	Statewide Water Quality Restoration Projects	$532,000	140047
State Program B	State Awarding Agency	State Fiscal Year[2]	CSFA Number	CSFA Title or Funding Source Description	Funding Amount	State Appropriation Category

Total Award	$532,000	

Note: List applicable compliance requirement in the same manner as illustrated above for federal resources. For matching resources provided by the Department for DEP for federal programs, the requirements might be similar to the requirements for the applicable federal programs. Also, to the extent that different requirements pertain to different amount for the non-federal resources, there may be more than one grouping (i.e. 1, 2, 3, etc.) listed under this category.

For each program identified above, the recipient shall comply with the program requirements described in the Catalog of Federal Domestic Assistance (CFDA) [www.cfda.gov] and/or the Florida Catalog of State Financial Assistance (CSFA) [https://apps.fldfs.com/fsaa/searchCatalog.aspx], and State Projects Compliance Supplement (Part Four: State Projects Compliance Supplement [https://apps.fldfs.com/fsaa/state_project_compliance.aspx]. The services/purposes for which the funds are to be used are included in the Agreement's Grant Work Plan. Any match required by the Recipient is clearly indicated in the Agreement.

Progress Report Form

DEP Agreement No.:	LPA0352
Project Title:	Ormond Beach Septic Tank Conversion
Grantee Name:	City of Ormond Beach
Grantee's Grant Manager:	Loretta Moisio
Reporting Period:	Select reporting period. Select year.

Provide the following information for all tasks identified in the Grant Work Plan:
Summarize the work completed within each task for the reporting period, provide an update on the estimated completion date for each task, and identify any anticipated delays or problems encountered. Use the format provided below and use as many pages as necessary to cover all tasks. Each quarterly progress report is due no later than twenty (20) days following the completion of the quarterly reporting period.

Task 1: Design and Permitting

- **Progress for this reporting period:**
- **Identify delays or problems encountered:**

Task 2: Construction

- **Progress for this reporting period:**
- **Identify delays or problems encountered:**

Task 3: Project Management

- **Progress for this reporting period:**
- **Identify delays or problems encountered:**

Task 4: Connection to Central Sewer

- **Progress for this reporting period:**
- **Identify delays or problems encountered:**

Completion Status for Tasks:
Indicate the completion status for the following tasks, if included in the Grant Work Plan. For construction, the estimated completion percentage should represent the work being funded under this Agreement.

Design (Plans/Submittal): 30% ☐, 60% ☐, 90% ☐, 100% ☐

Permitting (Completed): Yes ☐, No ☐

Construction (Estimated): _____ %

This report is submitted in accordance with the reporting requirements of the above DEP Agreement number and accurately reflects the activities associated with the project.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Bob Preis, Utilities Manager

Date: June 6, 2023

Subject: Bid Award - Pretreatment Effluent Pumps to Service West Ormond Service Area

Commission Goal: Water Quality & the Environment - Other

Introduction

This is a request to award an initial two (2) year contract for the purchase of Pretreatment Effluent Pump (PEP) to the low bidder, Alpha General Services, LLC. of Sebring, Florida, for the unit price of $335 per pump. After the initial term, the contract may be automatically renewed for three (3) additional one-year periods.

Background

The PEP Replacement Project is described in the City's Five Year Capital Improvement Plan and is contained in the Water & Wastewater Renewal & Replacement Budget. The wastewater system in portions of West Ormond (Hunter's Ridge/ Breakaway Trails/ Tymber Crossings/Saddler's Run) utilizes a low pressure pump housed within the PEP tank system for pumping liquid wastewater to a force main collection system after solids settling and biodegradation processes occur in the tank. Approximately 1,600 residential home sites are served by these systems within the described area. Historically, approximately 130 pumps are replaced annually with scheduled and unscheduled tank rehabilitative activities.

Discussion

The City received and opened bids (Bid # 2023-21) for this project on March 31, 2023. Two (2) bids were received, ranging from $335 to $775 per unit as shown on the attached bid tabulation. The apparent low bidder is Alpha General Services, LLC. The company was founded in 1973 and is a major supplier of septic tank, pumping systems and accessories. The City currently purchases PEP tanks from Alpha General Services, LLC. and is pleased with the parts and availability from this vendor.

Budget Impact

Typically, the City purchases approximately 130 PEP pumps annually. The annual cost to purchase these pumps will be approximately $43,550. Sufficient funding for the PEP purchase is available in the Water & Wastewater Renewal & Replacement Fund.

Citizen Impact

These pumps are necessary to provide appropriate reliability standards in the City's low pressure sewer system service area. Advertisement and award of competitively bid contracts is appropriate and efficient for obtaining qualified and specialized vendor products and/or services required to meet defined level of service standards.

Recommendation

Staff recommends award of the PEP Purchase Project to the low bidder, Alpha General Services, LLC. for an initial term of two (2) years for a firm bid price of $335 per pump assembly. Upon completion of the initial two (2) year contract term, the contract may be automatically renewed for three (3) additional one-year periods.

RESOLUTION NO. 2023-99

A RESOLUTION ACCEPTING A BID FROM ALPHA GENERAL SERVICES, LLC FOR THE PURCHASE OF PRETREATMENT EFFLUENT PUMPS ON AN AS-NEEDED BASIS, UNDER BID NO. 2023-21; AUTHORIZING THE EXECUTION OF A CONTRACT AND PAYMENT THEREFOR; REJECTING ALL OTHER BIDS; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, the City advertised for bids (Bid No. 2023-21) regarding the purchase of pretreatment effluent pumps on an as-needed basis ("the Project") pursuant to section 2-300, *Code of Ordinances*, and

WHEREAS, the City's professional staff have reviewed the bids received and have determined that the bid submitted by Alpha General Services, LLC with a bid of $335.00/pump is the lowest responsible and responsive bid (a copy of said bid being incorporated in the contract which is attached hereto and incorporated herein by reference), and

WHEREAS, the City Manager has certified that funds, not to exceed $70,000.00 in any fiscal year, have been appropriated to the credit of the Water & Wastewater Renewal & Replacement Fund for the Project and have not been appropriated for any other purpose, and

WHEREAS, the City Commission concurs with the foregoing recommendations, now therefore,

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The bid submitted by Alpha General Services, LLC to provide pretreatment effluent pumps on an as-needed basis at a cost of $335.00/pump is hereby accepted.

SECTION TWO. All other bids relative to the aforedescribed Project shall be deemed rejected upon the execution of a contract with Alpha General Services, LLC.

SECTION THREE. The Mayor and the City Manager are hereby authorized and directed to execute a contract with Alpha General, LLC for purchase of the pumps at the said price, and to pay the cost thereof from the Water & Wastewater Renewal & Replacement Fund. Said contract is subject to the restrictions that funds appropriated for FY23/24 shall not exceed $70,000.00 and that funding for subsequent years shall be approved by the City Commission.

SECTION FOUR. This Resolution shall take effect immediately upon its adoption.

APPROVED AND AUTHENTICATED this 6th day of June, 2023.

AGREEMENT

THIS AGREEMENT is made and entered into by and between the **City of Ormond Beach** ("City"), a Florida municipal corporation, 22 South Beach Street, Ormond Beach, Volusia County, Florida and **Alpha General Services, LLC** ("Contractor"), a Florida corporation, 1578 Alpha Road E, Sebring, FL 33870, and in consideration of the mutual promises and covenants herein contained, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree to the following:

1. **Scope of Work.** The Bid ("Pretreatment Effluent Pump Purchases", ITB #2023-21) attached hereto as Exhibit "A" is incorporated herein by reference and is a material part of this Agreement. The Contractor shall provide the equipment at the prices set forth therein.

2. **Term.** This Agreement shall be effective on the date it is fully executed by the parties and shall have an initial term of two (2) years. This Agreement shall be automatically renewed for three (3) additional one-year periods unless either party provides at least ninety (90) days prior written notice of its intent not to renew.

3. **Consideration.** Contractor shall prepare and submit invoices to the City at the address set forth in Paragraph 9 of this Agreement. Final payment will be made only after delivery of the equipment and completion of the City's final acceptance inspection. All such invoices shall be paid by the City within thirty (30) days.

4. **Delivery.** Contractor shall deliver the equipment described on Exhibit "A" .

5. **Termination of Agreement**.
   (a) The City Commission shall have the right to terminate the Agreement in the event the Contractor files any petition or proceeding for bankruptcy relief, or is adjudicated to be bankrupt or insolvent, or fails to pay just debts as they ordinarily become due; or for a material breach of this agreement that remains uncured for at least thirty days after prior written receipt of a notice of violation of same.

   (b) This Agreement may not be terminated by the Contractor.

6. **Assignment**. The Contractor shall not assign, convey or transfer all or any part of this Agreement, or all or any part of Contractor's interest herein, or all or any part of any interest in the Contractor, without the prior written consent of the City Commission, which consent shall not be unreasonably withheld.

7. **Complete Agreement**. This Agreement, including the provisions set forth in the exhibits attached hereto and incorporated by reference herein, constitutes the entire and complete agreement of the parties, and the promises and covenants herein contained shall survive the life of this Agreement.

8. **Amendment to Agreement**. Any amendment, change, or modification of this Agreement must be in writing and fully executed by both parties.

9. **Notices**. All notices which are required by this Agreement shall be provided to the parties at the following addresses, or such other addresses as may be requested in writing by either party:

City of Ormond Beach
Joyce Shanahan, City Manager
(copy to City Attorney)
22 South Beach Street
Ormond Beach, FL 32174

Alpha General Services, LLC
Brian Radonski, General Manager
1578 Alpha Road E
Sebring, FL 33870

10. **Sovereign Immunity**. The City expressly retains and reserves all rights, privileges, immunities, and benefits of sovereign immunity. This provision shall be construed broadly in favor of the City.

11. **Venue**. The terms and conditions of this Agreement shall be construed and enforced under the laws of the State of Florida. Any action or proceeding, either at law or in equity, regarding this Agreement shall be brought in the circuit court, Seventh Judicial Circuit in and for Volusia County, Florida. Venue in any other jurisdiction or forum, whether it be any other circuit, state or federal venue, is hereby expressly waived.

12. **Waiver of Conditions**. No waiver by the City of any condition or breach of performance by the Contractor shall constitute an irrevocable, continuing, or subsequent waiver by the City of the same condition or breach of performance, or of any other condition or other breach of performance.

13. **Severability**. If any part of this Agreement is declared to be unenforceable or void by a court of competent jurisdiction, the remaining parts of the Agreement shall remain in full force and effect as long as the services to be provided by the Contractor are not materially affected, altered or impaired as a result of said judicial declaration.

14. **Conflicting Provisions.** In the event of any conflict between the provisions of this Agreement and any exhibits, the provision most favorable to the City shall control and shall be given full force and effect.

15. **Indemnification**. The City, its agents, employees, and officials, both elected and appointed, shall be indemnified and held harmless by Contractor from any and all liabilities, claims, and causes of action which may arise out of the willful, negligent, or unlawful acts or omissions of the Contractor or its subcontractors in the performance of this Agreement, unless such claims are a result of the City's sole negligence, as determined by the final decision maker of such claim.

16. **Duty to Defend.** The Contractor shall defend all suits and administrative actions, including all appellate proceedings, brought against the City, its agents, employees, and officials,

both elected and appointed and shall pay all attorneys' fees and costs associated with the City's legal defense, as may be selected by the City, arising from all claims and causes of action described in Section 15 above. Such payment on behalf of the City shall be in addition to any and all other legal or equitable remedies available to the City and shall not be considered to be the City's exclusive remedy.

17. **Warranty**. All contracted parts shall be supplied with manufacturer's standard warranty. All repairs and service shall be supplied with a standard ninety (90) day warranty for materials and workmanship.

18. **Enforcement of Costs**. If any legal action or other proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default, or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorneys' fees, court costs, and all expenses even if not taxable court costs (including, without limitation, all such fees, costs and expenses incident to arbitration, appellate, bankruptcy, and post-judgment proceedings), incurred in that action or proceeding or any appeal, in addition to any other relief to which the party or parties may be entitled. Attorneys' fees include legal assistant fees, expert witness fees, investigative fees, administrative costs, and all other charges billed by the attorney for the prevailing party.

19. **Compliance With Laws.** Contractor shall comply with all applicable federal, state and local laws and regulations.

20. **Compliance With Florida Public Records Law**. Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.
(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.
(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable

requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.
(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

CITY CLERK
22 SOUTH BEACH STREET
ORMOND BEACH, FLORIDA 32175 (386)677-0311
CITYCLERK@ORMONDBEACH.ORG

Ref: Fla. Stat. §119.0701(2016)

21. **Limitation of Remedy and Liability.** Contractor and Owner expressly waive any claim for consequential damages against the other including but not limited to, a waiver of claims for diminished bonding capacity, loss of financing, loss of business reputation, lost profits on other projects or other lost opportunity damage claims.

Contractor expressly agrees that any claim (tort, contract, claim in equity, or otherwise) by Contractor for damages against Owner shall not exceed the total amount of the contract price, less any amounts actually paid to the Contractor by the Owner.

22. **Waiver of Right to Jury Trial.** THE PARTIES HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVE ANY RIGHT WHICH ANY PARTY MAY HAVE TO TRIAL BY JURY IN RESPECT OF ANY PROCEEDING, LITIGATION OR COUNTERCLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN) OR ACTIONS OF ANY PARTY. IF THE SUBJECT MATTER OF ANY LAWSUIT IS ONE IN WHICH THE WAIVER OF JURY TRIAL IS PROHIBITED, NO PARTY TO THIS AGREEMENT SHALL PRESENT AS A NON-COMPULSORY COUNTERCLAIM IN ANY SUCH LAWSUIT ANY CLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT. FURTHERMORE, NO PARTY TO THIS AGREEMENT SHALL SEEK TO CONSOLIDATE ANY SUCH ACTION IN WHICH A JURY TRIAL CANNOT BE WAIVED.

23. **Verification of Employment Status Using E-Verify System**

(a) Section 448.09, *Florida Statutes*, makes it unlawful for any person to knowingly employ, hire, recruit, or refer, either for herself or himself, or on behalf of another, for private or public employment within the state, an alien who is not duly authorized to work in the United States. Contractor warrants that it is registered with the U.S. Department of Homeland Security's E-Verify system, and is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

(b) Contractor agrees that if the contractor enters into an agreement with a subcontractor, the subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and contractor warrants it shall maintain any such affidavits for the duration of the contract. If the City has a good faith belief that a subcontractor knowingly violated Section 448.09 (1), the City shall promptly notify the contractor and order the contractor to immediately terminate the contract with the subcontractor.

(c) In the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and as provided by statute, the contractor may not be awarded a public contract for at least one (1) year after the date of termination. The contractor may also be held liable for any additional costs incurred by the City as a result of the termination of the contract.

24. **No Conflict of Interest.** The Contractor warrants and agrees that neither it, nor any of its employees, agents, officers, directors, shareholders and independent contractors are, or will become, under contract with or accept compensation from any individual, business, corporation or governmental entity that has the possibility of an adverse interest to those of the City of Ormond Beach. The Contractor and its officers, directors, shareholders, employers, agents and subcontractors, agree not to provide any services or assistance to any entity directly or indirectly relating to the services provided to the City and to immediately notify the City Manager and City Attorney of any contact with any entity that has, or potentially has, a conflict of interest with the City of Ormond Beach. This provision shall be interpreted as broadly as possible to prevent any potential or actual conflict of interest presently or in the future by the Contractor.

25. **Effective Date**. This Agreement shall become effective upon the date last signed by the parties hereto.

IN WITNESS WHEREOF, the undersigned parties have caused this Agreement to be signed on the dates indicated hereinbelow.

GENERAL CONDITIONS

PUBLIC ENTITY CRIMES: A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a Bid on a contract to provide any goods or services to a public entity, may not submit a Bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit Bids on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

DISCRIMINATION: Pursuant to Section 287.134(2)(a), Florida Statutes, an entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid or proposal on a contract to provide any goods or services to a public entity, may not submit a bid or proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit bid or proposal on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

PUBLIC RECORDS/NON-CONFIDENTIALITY OF BIDS AND/OR PROPOSALS. The City of Ormond Beach cannot and does not warrant the confidentiality of any information submitted in response to this solicitation. Florida law provides that municipal records shall at all times be open for personal inspection by any person, Section 119.01, F.S., The Public Records Law. Information and materials received by the City of Ormond Beach in connection with all Proposers' response shall be deemed to be public records subject to public inspection upon award, recommendation for award, or 30 days after bid opening, whichever occurs first. Section 119.071, F.S.

NOTIFICATION OF BIDS AND RFP'S: The City uses the services of DemandStar (www.demandstar.com) for notification of its Bids and RFP's on-line on the Internet. If you have received a copy of this Bid/RFP from any source other than DemandStar, please be aware that you may not have received the latest version of the Bid/RFP or any related addendums.

SUBMISSION OF BIDS: All Bids shall be submitted in a sealed envelope. The Invitation to Bid (ITB) number, title, and opening date shall be clearly displayed on the outside of the sealed envelope. The delivery of said Bid to the Purchasing Office on or before the specified opening date and time is solely and strictly the responsibility of the Bidder. Any Bid received by the Purchasing Office after the specified date and time will not be accepted. Bids must be submitted on forms provided by the City. No other forms will be accepted. Telephone, telefax and telegraph Bids will not be considered. No Bid may be modified after opening. **No Bid may be withdrawn after opening for a period of ninety (90) days unless otherwise specified.**

EXECUTION OF BID: Bid must contain a manual signature of authorized representative in the space(s) provided. Bids must be typed or printed in ink. Use of erasable ink is not permitted. All corrections made by Bidder to any Bid entry must be initialed. The company name and Federal

Employer Identification Number (F.E.I.N.) or Social Security (S.S.) number shall appear in the space(s) provided.

BID OPENING: Bids shall be opened and the name of the Bidders and the bid amounts shall be read publicly. Bid amounts announced at the bid opening are subject to change due to math errors made by Bidders

BID TABULATION: Any Bidder wishing to receive a copy of the Bid tabulation is required to enclose a stamped, self-addressed envelope with their Bid response. Bid opening tabulations will be posted on DemandStar.com.

CLARIFICATION/CORRECTION OF BID ENTRY: The City of Ormond Beach reserves the right to allow for the clarification of questionable entries and for the correction of obvious mistakes.

INTERPRETATION: Any questions concerning conditions and specifications shall be directed to the Purchasing Coordinator. Those interpretations which may affect the eventual outcome of this Bid will be furnished in writing to all prospective Bidders. No interpretation shall be considered binding unless provided in writing by the City of Ormond Beach.

MINORITY POLICIES: The City of Ormond Beach, Florida, encourages the full participation of Disadvantaged and Women Business Enterprises (D&WBE) in the provision of goods and services.

REGISTRATION AND RISK MANAGEMENT REQUIREMENTS: Any Vendor delivering a product or Contractor doing work for the City of Ormond Beach, on City property shall be **registered** to do business in the City of Ormond Beach and shall provide **proof of**, abide by and maintain, for the entire life of the Contractual Agreement, including any and all approved time extensions, such **insurance** as is required by City ordinance, which shall be incorporated in and made part of the contract documents. A vendor using a common carrier is exempt from this requirement. This proof of insurance will be required prior to commencement of any **on-site** work. Refer to **Exhibit A** for the City's registration and risk management requirements.

LICENSES AND PERMITS: The vendor is responsible for obtaining all necessary permits and licenses to comply with all Federal, State, and Local laws, rules and regulations required to perform work in accordance with the specifications.

LOCAL VENDOR PREFERENCE: The City *may* give a local preference in the amount of three percent (3%) of the bid price or $25,000, whichever is less. The bid price shall include not only the base bid price but all alternatives which are part of the bid and actually purchased or awarded. A Local Vendor Affidavit of Eligibility shall accompany the bid submittal to be considered valid.

PRICING: Firm prices shall be proposed and include FOB DESTINATION, all packing, handling, shipping charges and delivery to any point within the City of Ormond Beach to a secure area or inside delivery. Prices shall be valid for ninety (90) days from date of Bid opening. In the event there is a discrepancy between the unit price and the extended amount, the unit price will prevail.

COST OF BID PREPARATION: No reimbursement will be made by the City of Ormond Beach for any costs incurred in the preparation of the Bid, proposal or presentation.

EQUIPMENT: Contractor shall own and have in good repair all equipment necessary to perform the described services in particular and the equipment necessary to complete related tasks. The City will not provide any equipment to do this work.

COST ADJUSTMENTS: No later than June 1, of each contract year, the Contractor may petition the City through the Contract Manager for a rate adjustment to reflect the change in the cost of doing business, as measured by fluctuations in the Consumer Price Index (CPI), All Urban Customers, published by the U.S. Department of Labor, Bureau of Labor Statistics, for the preceding July 1-June 30 period. The maximum increase for any annual period shall be four (4%) percent which will only apply to the future year, increases will not be retroactive. The adjusted rate, if approved shall take effect on October 1, of the year in which approved.

ADDITIONAL TERMS AND CONDITIONS: The City of Ormond Beach reserves the right to reject Bids containing any additional terms or conditions not specifically requested in the original conditions and specifications.

TAXES: The City of Ormond Beach is exempt from Federal Excise Taxes and all sales taxes. The Contractor is responsible for paying any and all taxes associated with this agreement.

DISCOUNTS: All discounts EXCEPT THOSE FOR PROMPT PAYMENT shall be considered in determining the lowest net cost for Bid evaluation purposes. If a Bidder offers a discount, it is understood that the discount time will be computed from the date of satisfactory delivery, at the place of acceptance, and receipt of correct invoice, at the office specified, whichever occurs last.

SILENCE OF SPECIFICATIONS: The apparent silence of any specification and any supplemental specifications as to any details or the omission from same of any detailed description concerning any point shall be regarded as meaning that only the best commercial practices are to prevail and that only materials of first quality and correct type, size, and design are to be used. All workmanship is to be first quality. All interpretations of the specifications shall be made upon the basis of this statement.

ASSIGNMENT: Any purchase order or contract issued pursuant to a Bid and the monies which may become due thereunder are <u>not</u> assignable except with the prior written approval of the City Manager or City Commission, whichever authorized the purchase.

LIABILITY: The vendor shall hold and save the City of Ormond Beach, its officers, agents, and employees harmless against claims by third parties resulting from the vendor's or supplier's breach of contract or negligence, including all attorney's fees and costs, and shall pay any and all damages, fees, and costs assessed on behalf of the City. The City expressly reserves all rights, privileges and benefits of sovereign immunity.

PATENTS AND ROYALTIES: The Bidder, without exception, shall indemnify and save harmless the City of Ormond Beach and its employees from liability of any kind, including cost and expenses for or

on account of any copyrighted, patented, or unpatented invention, process, or article manufactured or used in the performance of the contract, including its use by the City of Ormond Beach. If the Bidder uses any design, device, or materials covered by letters, patent or copyright, it is mutually agreed and understood without exception that the Bid prices shall include all royalties or cost arising from the use of such design, device, or materials in any way involved in the work.

SAFETY WARRANTY: The selling dealer, distributor, supplier, and manufacturer shall be responsible for compliance with all Federal, State and local laws, rules and regulations concerning the equipment and/or service specified and the use thereof, applicable and effective on the date of manufacture including safety and environmental standards as apply to both private industry and governmental agencies.

WARRANTY: The Bidder agrees that, unless otherwise specified, the services furnished under the Bid shall be covered by the most favorable commercial warranty for comparable services, and that the rights and remedies provided herein are in addition to and do not limit any rights afforded to the City of Ormond Beach by other provision of the Bid.

AWARDS: The City reserves the right, in its sole discretion, as the best interest of the City may require, to make award(s) by individual item, group of items, all or none, or a combination thereof; on a geographical basis and/or with one or more vendors or contractors; or to reject any and all Bids or waive any minor irregularity or technicality in the Bids received. The City is not bound to award any contract(s) based solely on lowest quoted price. The City also reserves the right to negotiate separately with competing bidders as deemed to be in the City's best interest.

REJECTIONS RIGHTS: The City of Ormond Beach reserves the right, at any time, to modify, waive or otherwise vary the terms and conditions of this Bid including, but not limited to, the deadlines for submission and submission requirements. The City further reserves the right to reject any or all submittals, to cancel or withdraw this Bid at any time and to negotiate with any party prior to or after submittal of Bid.

TERMINATION: The City of Ormond Beach reserves the right to terminate any contract or agreement resulting from this BID at any time.

PURCHASE ORDERS: Purchase Orders will be issued for all purchases exceeding $2,500.00.

NON-APPROPRIATION OF FUNDS: In the event sufficient budget funds are not available for a new fiscal period, the CITY shall notify the VENDOR/CONTRACTOR of such occurrence and the contract shall terminate on the last day of the current fiscal period, without any penalty or expense to the CITY of any kind whatsoever.

OTHER AGENCIES: All Bidder(s) awarded contracts from this bid or proposal may, permit any municipality or other government agency to participate in the contract under the same prices, terms, and conditions, if agreed to by both parties.

It is understood that at no time will any city, municipality, or other agency be obligated for placing an order for any other city, municipality, or agency: nor will any city, municipality, or agency be obligated for any bills incurred by any other city, municipality, or agency. Further, it is understood that each agency will issue its own purchase orders to the awarded bidder(s).

COMPLIANCE WITH FLORIDA PUBLIC RECORDS LAW:

Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.

(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.

(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.

(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

Ref: Fla. Stat. §119.0701(2016)

THE CITY OF ORMOND BEACH RESERVES THE RIGHT TO REJECT ANY OR ALL BIDS, AND TO WAIVE INFORMALITIES, AS MAY BE DEEMED TO BE IN THE BEST INTEREST OF THE CITY.

DEFINITIONS:

BIDDER - The term used herein refers to any individual, company or other entity submitting a Bid to the CITY in response to an Invitation to Bid (ITB).

CITY/OWNER - The terms CITY or OWNER herein refers to the City of Ormond Beach, Florida, and its duly authorized representatives.

CONTRACT MANAGER - The term refers to the CITY representative(s) who will be acting on the CITY's part to manage all the Contract actions.

FURNISH - The terms "furnish", "furnish and install", "install", and "provide" or words with similar meaning shall be interpreted, unless otherwise specifically stated, to mean "furnish and install, complete in place and ready for service".

PROJECT - The total construction of which the Work to be provided under the Contract Documents may be the whole, or a part as indicated elsewhere in the Contract Documents.

PROJECT MANUAL - The term "Project Manual" includes Bid Requirements, General Conditions, Scope of Work, Specifications, Risk Management requirements and any associated attachments.

SPECIFICATIONS - The term refers to those portions of the Project Manual consisting of written technical descriptions of materials, equipment, construction systems, standards and workmanship as applied to the Work and certain administrative details applicable thereto.

SUPPLIER - The term used herein refers to any individual, company or other entity supplying services pursuant to the terms, conditions, and quotations of a Bid or Proposal.

VENDOR, CONTRACTOR, or VENDOR/CONTRACTOR - The term(s) used herein refers to any individual, company, or other entity that is awarded a contract by the CITY, pursuant to the terms, conditions, and quotations of a bid/proposal.

WORK - The entire, completed job or the various separately identifiable parts thereof, required to be furnished under the Contract Documents. Work is the result of providing goods and/or services, furnishing labor and/or furnishing and incorporating materials and equipment into the construction, as required by the Contract Documents.

City of Ormond Beach

Pretreatment Effluent Pump (PEP) Purchase

Bid 2023-21

BID RESPONSE FORM

THIS BID IS SUBMITTED TO:

(Name and Address of Owner)

Purchasing Coordinator
City of Ormond Beach
22 S. Beach Street
Room 101
Ormond Beach, Florida
32174
Phone: (386) 676-3223

The undersigned BIDDER proposes and agrees, if this Bid is accepted, to enter into an Agreement with the CITY in the form included in the Bid Documents to complete all Work as specified or indicated in the Bid Documents for the Contract Price and within the Contract Time indicated in this Bid and in full accordance with the Bid Documents.

BIDDER certifies that he has investigated the requirements to do business in the jurisdiction where the project is located, and that he is either qualified to do business or will obtain such prequalification prior to award of the contract.

BIDDER accepts all of the terms and conditions of the General Conditions. BIDDER will sign the Agreement (Contract) and submit the Contract security (when applicable) and other documents required by the Contract Documents within ten (10) days after the date of CITY's Notice of Award.

In submitting this Bid, BIDDER represents, as more fully set forth in the Agreement, that:

BIDDER has examined copies of all the Bid Documents and of the following Addenda:

Addendum Date	Addendum Number
_____	_____
_____	_____
_____	_____

Receipt of all of which is hereby acknowledged.

BIDDER has examined the site and locality where the Work is to be performed, when applicable, the legal requirements (federal, state and local laws, ordinances, rules and regulations) and the conditions affecting cost, progress or performance of the Work and has made such independent investigations as BIDDER deems necessary.

This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; BIDDER has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid; BIDDER has not solicited or induced any person, firm or a corporation to refrain from bidding; and BIDDER has not sought by collusion to obtain for himself any advantage over any other Bidder or over the CITY.

THIS BID IS SUBMITTED BY:

The CITY reserves the right to reject any and all bids, to waive informalities, and to accept any bid or parts thereof as the CITY, in its sole discretion, determines to be in the best interest of the CITY.

City of Ormond Beach

Pretreatment Effluent Pump (PEP) Purchase

Bid 2023-21

GENERAL INSTRUCTIONS:

Bid Delivery: Submit one (1) signed and unbound original of the complete Bid packet and one (1) electronic file in pdf format, with all required attachments, by the closing date and time. Deliver Bids to:

Rob Hart
Purchasing Coordinator
Ormond Beach City Hall
Room 101
22 South Beach Street
Ormond Beach, Florida 32174

Make sure the bid number is clearly visible on the outside of the delivery package. Bids delivered after the time and date specified will not be accepted. For any question regarding bid delivery contact the purchasing office at 386-676-3223 or email rob.hart@ormondbeach.org

Technical Questions: Submit all technical questions regarding this Bid to the City's Purchasing Coordinator, Rob Hart, by e-mailing rob.hart@ormondbeach.org.

TERM OF AGREEMENT:

The initial term of this Agreement shall be for a period of **two (2) year beginning October 1, 2023 and ending September 30, 2024** and will be automatically renewed for three additional **one (1) year** periods unless either party provides at least ninety (90) days prior written notice to the other party of their intent not to renew the Agreement.

SCOPE OF WORK:

GENERAL

The City of Ormond Beach invites qualified vendors to submit bids to supply and deliver approximately 130 septic tank effluent pumps on an annual basis to the public works facility located at 501 North Orchard Street. The minimum quantity delivered at one time shall be 20 pumps. Delivery will be accepted when and as needed.

SPECIFICATIONS FOR SEPTIC TANK EFFLUENT PUMPS

PUMP PERFORMANCE REQUIREMENTS

Pumps shall be capable of delivering at or near 20 GPM at 50 TDH, 30 GPM at 40 Feet TDH with a shut off head of 60 TDH. The pump and control assembly shall weigh no more than 60 pounds. The pump(s) shall be designed to pump waste water or effluent containing a minimum 0.75 inch diameter solids without damage during operation The pump(s) shall be designed so that the shaft power shall not exceed the motor rated output throughout the entire operating range of the pump performance curve. The pumps shall be manufactured by a company regularly engaged in the manufacture and assembly of similar units for a minimum of 5 years. Pumps shall be supplied with a (pump on / pump off) water tight level control float. A fused disconnect switch or circuit breaker is all that shall be required above the sump.

Pumps shall be Champion CPEH5A or equivalent.

MATERIALS OF CONSTRUCTION

The upper volute, seal plates and motor housing shall be constructed of high quality ASTM A-48 class 20-30 cast iron or 304 stainless steel. Cast iron pump (s) shall be painted with a water based air dry enamel of 2.0 mil minimum thickness. All exposed hardware shall be 300 stainless steel. Discharge connection shall be a standard 2" inch NPT in the vertical position. Impellers shall be of the vaned enclosed or vortex design made of plastic or equivalent material.

MECHANICAL SEAL

The unit shall utilize a minimum single Type 21 or equal mechanical shaft seal which will operate in an oil atmosphere. The materials of construction shall be carbon for the rotating face and ceramic for the stationary face, 300 series stainless steel hardware, and all elastomer parts to be of Buna-N.

MOTOR

The pump motor shall be 115V, 60 Hz. 3450 RPM , single phase maximum 0.50 Hp and shall be minimum NEMA L rated for submersible operation. Motor(s) shall be rated at full load amps, shall have a 1.15 service factor and shall be rated for 20 starts per hour. Motor(s) shall be oil filled, copper wound, minimum class B insulated with built in over amperage protection. Motor shaft shall be stainless steel and shall be supported by two permanently lubricated or oil bath type, high temperature ball bearings, with a B-10 life rating at best efficiency point of 60,000 hours.

POWER CABLE AND CABLE ENTRANCE

The pump power cable shall be at 20 feet in length and suitable for submersible pump applications. The cable entrance shall incorporate strain relief and shall be sealed to eliminate water incursion into the motor.

DRY RUN CAPABILITY

The pump must be capable of running dry in air for extended periods without damage.

SUBMITTAL REQUIREMENTS

The following documentation is required to be submitted with the bid:

a. Pump catalog data
b. Pump performance curve
c. Typical installation drawing
d. Liquid level float control system

BID SCHEDULE

Description	Unit price
Furnish Pretreatment Effluent Pumps, FOB	$335.00

EQUIPMENT AND SUBCONTRACTORS LIST

List the names of the manufacturers whose product is proposed for use. No more than one manufacturer's name shall be inserted for each item of material and/or equipment listed. Failure to list materials and equipment supplier may result in the Bid being rejected as incomplete and nonresponsive. If any Subcontractors are proposed to be used for any portions of the Work, the names, addresses, phone numbers and work classifications of each such Subcontractor must be listed. The failure to list all Subcontractors proposed for the work may result in the Bid being rejected as incomplete and nonresponsive. If more than one manufacturer or subcontractor is listed, selection will be made by the OWNER. If none is listed, those listed as the "Basis for Design" will be used.

Materials and Equipment:

Item	Supplier
Pumps	Champion Pump Company

BIDS:

All bids submitted shall be a delivered price. Bids shall be F.O.B. the City of Ormond Beach Public Works Department, 501 North Orchard Street, Ormond Beach, Florida. Bidders must comply with the insurance and risk management requirements of the City of Ormond Beach, attached to this specification as Exhibit A.

IN THE EVENT THE SUPPLIER IS UNABLE TO SUPPLY, THE CITY OF ORMOND BEACH RESERVES THE RIGHT TO PURCHASE SUPPLIES FROM THE BEST AVAILABLE SOURCE.

BID 2023-21

VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.

3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.

4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.

5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

CITY OF ORMOND BEACH

DRUG-FREE WORKPLACE CERTIFICATION

IDENTICAL OR "TIE" BID: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more Bids which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a Bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie Bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

Give each employee that engages in providing the commodities or contractual services that are under proposal a copy of the statement specified in subsection (1).

In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under proposal, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) calendar days after such conviction.

Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

LOCAL VENDOR PREFERENCE

The following is taken from the Code of Ordinances, City of Ormond Beach, Chapter 2, Financial Matters, Division 3, Purchasing, Article IX, Section 2-304:

Except where otherwise provided by federal or state law or other funding source restrictions, purchases of goods and services under the Purchasing Code shall give preference to local businesses as follows:

(a) Under a competitive bid solicitation, the City *may* give a local preference in the amount of three percent (3%) of the bid price or $25,000, whichever is less. The bid price shall include not only the base bid price but all alternatives which are part of the bid and actually purchased or awarded.

(b) A *local business* shall mean a vendor that has a valid occupational license issued by the City of Ormond Beach at least one year prior to bid opening, with a physical business address located within the municipal boundaries of the City of Ormond Beach from which the vendor operates or performs business on a day-to-day basis that is a substantial component of the goods or services being offered and has provided a Local Vendor Affidavit of Eligibility at the time the bid is submitted.

(c) A *Local Vendor Affidavit of Eligibility* shall accompany the bid submittal to be considered valid and shall include, but not be limited to, the following information:

- (1) A physical business and location address;
- (2) A copy of current City of Ormond Beach Local Business Tax Receipt (occupational license) to verify the business location;
- (3) Proof of payment of business tax and real property tax due to the City of Ormond Beach;
- (4) A copy of the firm's most recent annual corporation report to the Florida Division of Corporations;
- (5) Any additional information necessary to verify local status.

(d) *Exemptions:* Goods or services provided under a cooperative purchasing agreement, contracts for professional services subject to Consultants' Competitive Negotiation Act, purchases or contracts funded in whole or part by a governmental entity that does not allow local preferences, purchases made under another agency's agreements or contracts (piggybacking), purchases under emergency or sole source situations and procurements subject to formal proposals including but not limited to request for proposals (RFP) or continuing contract, and request for quotes (RFQ) versus straight competitive bids.

(e) This section shall not be deemed to require the granting of a local preference, and nothing herein prohibits the award of a contract to a non-local vendor where such award is in the public interest.

Local Vendor Affidavit of Eligibility

I certify that my company meets all of the following qualifications to be eligible for the local vendor preference:

a. My company has a physical business address located within the municipal boundaries of the City of Ormond Beach which is used to perform business on a day-to-day basis.
b. My company holds any business (occupational) or contractor license required by the City of Ormond Beach at least one year prior to bid opening.
c. Payment of business tax and real property tax due to the City of Ormond Beach is current
d. My company is in compliance with annual reporting to the Florida Division of Corporations

Company Name: _____

Address: _____

Business or Contractor License Number: _____

Phone Number: _____ Fax Number: _____

Owner's Name: _____ Signature: _____

Sworn to before me this _____ day of _____

Notary Public for the State of _____ My Commission Expires _____

Notary Public Signature: _____ Printed Name: _____

To be approved as a local bidder and receive bid preference on an <u>eligible</u> local project, this affidavit of eligibility, a copy of your local business or contractor license, copy of business tax/real property tax and a copy of the firm's most recent annual corporation report must be submitted with your bonafide BID package. Bid preference is provided at the City's sole discretion.

VENDOR DO NOT COMPLETE BELOW

To be verified and completed by an authorized representative of the City of Ormond Beach's Purchasing Department:

Vendor Certified by: _____ **Date:** _____

EXHIBIT "A"

A. Payment and Performance Bonds

1. Except as otherwise provided herein, the Contractor shall, prior to beginning performance, deliver to the City, and the City shall record in the public records of Volusia County, Florida, the Contractor's Payment and Performance Bond in an amount equal to the full amount of the Contract.

2. **(a)** Payment and Performance Bonds shall not be required for any contract except those which are for the construction of a public building, for the prosecution and completion of a public work (as described in Section 180.06, **Florida Statutes,** as amended from time to time) or for repairs upon a public building or public work (as described in Section 180.06, **Florida Statutes**, as amended from time to time).

   (b) With respect to those Contracts for which Payment and Performance Bonds are otherwise required:

      i. Unless the City Manager, or designee, determines such Bond to be necessary to protect the interests of the City, no Contractor shall be required to provide a Payment and Performance Bond for any Contract which is for $25,000.00 or less.

      ii. Upon the request of the contractor, good cause shown by the Contractor, and a determination that the public health, safety and welfare will be sufficiently protected, the City Commission may exempt the contractor from the requirement of providing a Payment and Performance Bond for any Contract which is for more than $25,000.00 but is less than $200,000.00.

3. The Payment and Performance Bond shall list the Contractor as Principal and be issued by a surety insurer authorized to do business in Florida as a surety and listed as an acceptable surety in the Federal Register.

4. The Payment and Performance Bond shall be executed pursuant to Section 255.05, **Florida Statutes**, and be in a form substantially similar to the form set forth in Section 255.05(3), **Florida Statutes.**

5. The Payment and Performance Bond shall specifically provide coverage for delay damages due to a default by the Contractor.

6. The Payment and Performance Bond shall not make the Contract part of the Bond agreement.

7. In lieu of the Payment and Performance Bond, the Contractor may file with the Finance Director of the City, in an amount equal to the full amount of the Contract, cash, a money order, a certified check, a cashier's check, an irrevocable letter of credit, or a security of a type listed in Part II, Chapter 625, **Florida Statutes.**

8. In the event the surety on any Payment and Performance Bond furnished by the Contractor is declared bankrupt or becomes insolvent, or its right to do business in the State of Florida is terminated, the Contractor shall, within five (5) working days thereafter, substitute another Payment and Performance Bond and surety acceptable to the City.

9. The Contractor is totally and solely responsible for keeping its surety informed as to the Base Contract Price as bid, significant changes in the Project Scope, and the overall progress and completion of the Project for the entire life of the Contract.

10. The payment and performance bond requirements stated herein above shall not be applicable to service-related contracts unless otherwise determined by the City Manager in order to protect the health, safety and welfare of the general public.

B. Contractual Provisions Relative to Risk Management

All contracts for any public works to be performed, and service-related contracts, for or on behalf of the City shall include at a minimum, the following, or substantially similar, provisions:

1. Hold Harmless and Indemnity

The Contractor agrees to assume liability for and indemnify, hold harmless, and defend the City, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Contractor, its agents, officers, contractors, subcontractors, employees, or anyone else employed or utilized by the Contractor in the performance of this Contract. The Contractor's liability hereunder shall include all attorney's fees and costs incurred by the City in the enforcement of this provision.

2. Payment on Behalf of City

The Contractor shall pay all costs of the City's legal defense, as may be selected by the City, for all claims described in the Hold Harmless paragraph.

Such payment on behalf of the City shall be in addition to any and all other legal remedies available to the City and shall not be considered to be the City's exclusive remedy.

3. Loss Control/Safety

Precaution shall be exercised at all times by the Contractor for the protection of all persons, including employees and property. The Contractor shall comply with all applicable laws, regulations and ordinances related to safety and health, shall make special efforts to detect hazardous conditions, and shall take prompt action when loss control/safety measures are reasonably necessary.

The City may order work to be stopped if conditions exist that present an immediate danger to persons or property. The Contractor acknowledges that such work stoppage will not shift responsibility for any damages from the Contractor to the City.

4. Service Bond

For Service-related contracts only, the City may require the Contractor to secure a service bond with a minimum $25,000 coverage limit for the period of the service agreement. The service bond covers dishonest acts of the contractor's employees against the City. A copy of the bond shall be provided to the City when the agreement commences.

Service-related contracts include and are not limited to businesses providing janitorial, pest control, general repair, security, carpet cleaning, locksmith, temporary employment, painting, moving services or other contracts as determined in the discretion of the Risk Manager as necessary to minimize loss.

C. Contractor's Insurance

1. General

The Contractor, including service-related contractors, shall purchase and maintain for the entire life of the Project, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under the Contract Documents, whether such operations be by the Contractor, by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

2. Types of Insurance and Limits of Liability

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

(a) Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident

$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for coverage. However, if the contractor subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

(b) Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations
h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)
k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence

$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

(c) Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract.

ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

$1 Million	Combined Single Limit for Bodily Injury and Property Damage

(d) Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,0000 per occurrence.

(e) Builder's Risk

Contractor shall purchase Builder's Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

(f) Professional Liability, Malpractice and/or Errors and Omissions

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

D. Requirements for Certificates of Insurance

1. With the execution of the Contract Documents, the Contractor, including service-related contractors, shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall contain an endorsement that the coverage under the policies will not be canceled, non-renewed or materially changed until at least thirty (30) days' prior written notice of such cancellation, non-renewal or change (except for nonpayment of premium, which shall be ten (10) days) and a copy of the cancellation endorsement signed by an authorized representative of the insurer, be given to the City. The contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACORD FORM 25-S (7/90), or its successor form, and shall be made a part of the Contract Documents.

2. New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

3. If requested by the City, the contractor shall immediately furnish complete copies of the Contractor's insurance policies, forms and endorsements.

4. For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

5. If the Contractor fails to obtain and maintain for the life of the Project the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City form the amount due the Contractor for the work covered by the Contract.

E. Policies of Insurance

1. Except as otherwise provided in this Exhibit, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-), in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carrier; written confirmation is required.

3. All policies of insurance or certificates thereof referred to in this Exhibit shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability including products and completed operations and Automobile Liability policies of insurance and certificates thereof.

REGISTRATION REQUIREMENTS FOR VENDOR/CONTRACTOR WORKING ON CITY PROJECTS

Registration Requirements

VENDORS doing business within the City Limits must be registered with the City.

Requirements for registering a business are as follows:

Copy of City Business Tax Receipt (where your business is located).

Certificate of Insurance showing General Liability and Workers' Comp (or State Workers' Comp Exemption form).

Application Fee: $25.00 For more information, contact the City's Business Tax Receipt official.

State Certified/Registered Contractors

All registered contractors must be registered with Volusia County. Volusia County Contractor Licensing, 123 W. Indiana Ave., Rm 203, Deland, Fl. 32720 (386) 736-5957 Opt. 2 – (386) 740-5215 Fax. Certified Contractors have the option of registering with Volusia County, or providing information directly to the business tax receipt official.

If you have any questions regarding the above requirements, please contact the business tax receipt official at (386) 676-3234.

Champion Pump CPE

4/10 - 1/2HP EFFLUENT

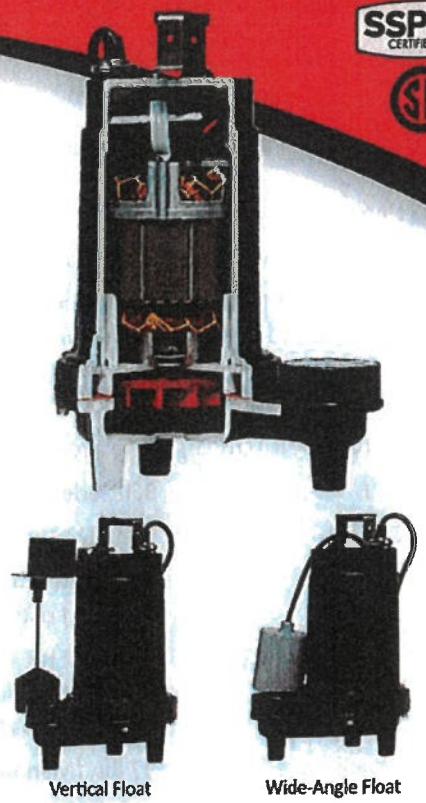
Every pump tested in water to ensure pump meets peformance curve.

FEATURES/BENEFITS

PERFORMANCE
Heads up to 65' TDH
Flows up to 86 GPM

MOTOR
High efficient, 115v or 230v, oil filled, permanent split capacitor motor with upper and lower ball bearings and thermal overload protection
- Constant bearing lubrication
- Maximum motor cooling
- Runs cooler and lasts longer
- Internal overload protection
- Quiet operation
- Fasteners and shaft made from rugged, corrosion resistant stainless steel

SEAL DESIGN
Type 21 inboard seal design with secondary exclusion seal
- Rotating components of seal are in the motor housing, being lubricated by the motor oil preventing foreign matter from wrapping around the seal components
- Seal will last longer if the pump runs dry
- Secondary exclusion seal keeps debris from entering the seal cavity

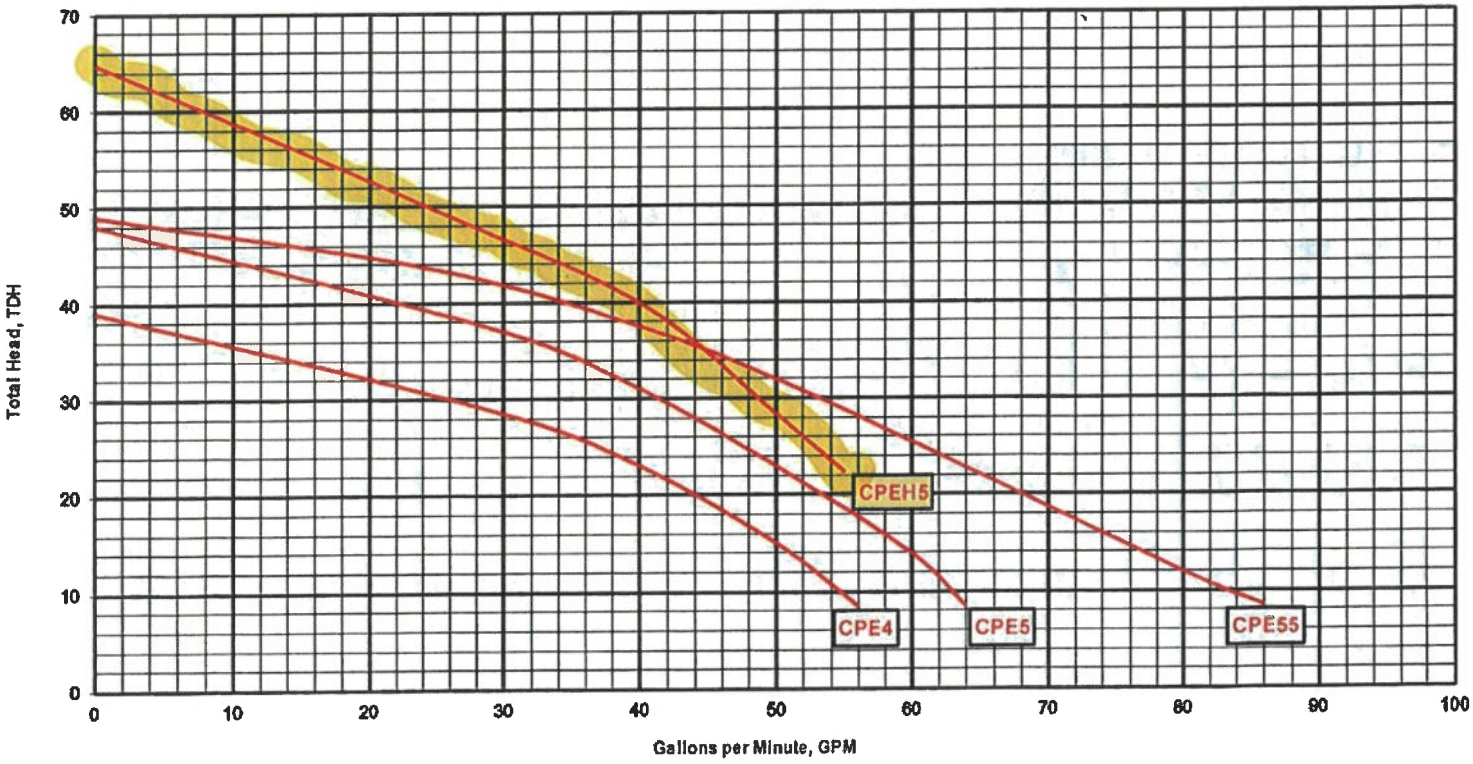


IMPELLER DESIGN
Non-clog style, cast-iron vortex impeller (CPEH Thermoplastic Vortex)
- Designed to help reduce clogging by foreign material

POWER CORD
Sealed entry quick disconnect power cords
- Prevents water from entering the motor housing through a cut cord
- Easy to replace in the field
- Available in lengths up to 100'

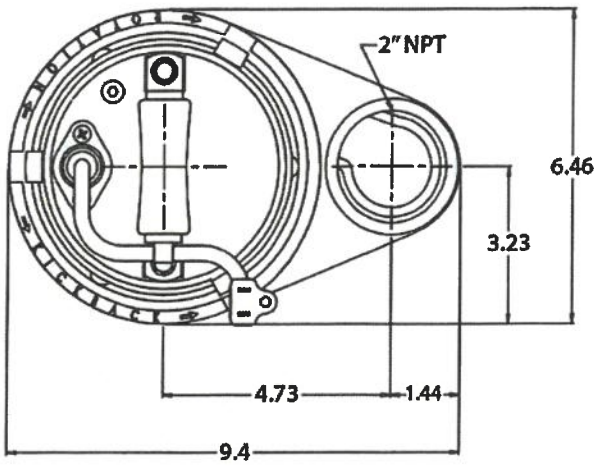
SWITCH
Piggy-back switch design
- Defective switches can be diagnosed over the phone
- Pump can be operated manually or supplied with other piggy-back switches
- Switch can be replaced without having to replace the pump

APPLICATIONS

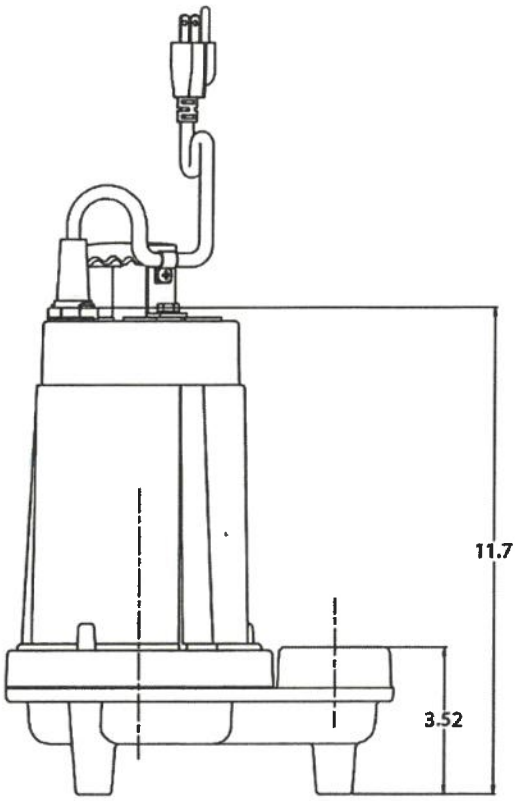


Dewatering, septic systems, residential and commercial developments, elevator pits and STEP systems

Vertical Float | Wide-Angle Float



4/10-1/2 HP submersible pumps that handle up to 3/4" solids with 2" discharge



PERFORMANCE CURVE

TECHNICAL DATA

DISCHARGE	2" NPT. vertical standard
LIQUID TEMPERATURE	140 Degrees F. (Intermittent)
MOTOR HOUSING	Cast Iron
VOLUTE	Cast Iron
SEAL PLATE	Cast Iron
IMPELLER	Cast Iron / Vortex (CPEH thermoplastic vortex)
SOLIDS HANDLING	3/4"
SHAFT	Stainless Steel
SHAFT SEAL (SINGLE SEAL)	Inboard mechanical with secondary exclusion V-Seal, carbon rotating face, ceramic stationary face, Buna-N elastomer, 300 series stainless steel hardware
BEARINGS (UPPER & LOWER)	Single row, ball, oil lubricated
HARDWARE	300 Series stainless steel
O-RINGS	Buna-N
CORD	20' Length standard. Up to 100' available. (UL/CUL) Listed 16 AWG, Type SJTW
MOTOR (SINGLE PHASE)	4/10-1/2 HP 3450 RPM, 60 Hz, NEMA L Includes Overload Protection in the motor, oil filled, class B permanent split capacitor
WEIGHT	37 lbs. (Manual)

Champion Pump

Installation and Operation Manual

Model: CPEH5

Submersible Sump/Effluent

Thank you for purchasing this **CHAMPION PUMP!** The CPEH series pumps are heavy duty cast iron sump/effluent pumps. We back these **Champion** products with **Champion** service and a **Champion** attitude. Please read, save, and follow these instructions to ensure **Champion** performance.

BEFORE OPERATION - Important Product and Safety Information - **WARNINGS** - Personal Injury and/or property damage could result if not adhered to.

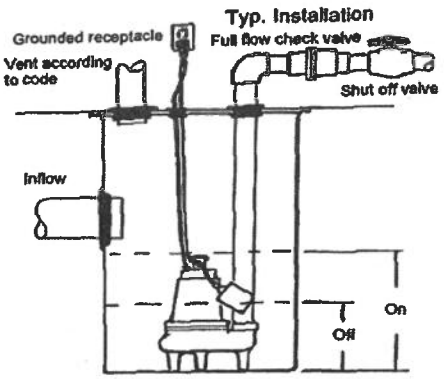
- Risk of Electric Shock - Fatal electric shock could occur. Always disconnect the power source before attempting to install, service, relocate or check the pump. Never touch pump, pump motor, water, or discharge piping when pump is connected to electrical power. Never enter a wet or flooded area, basement, basin, etc. that is in contact with the pump or electrical circuit before power supply has been disconnected.
- Pump has not been investigated for use in swimming pool areas or any area that might reasonably expect aquatic, animal, or human entrance. Precautions should be taken to prevent such entrance during use.
- Connect only to a properly grounded, grounding type receptacle. Use of a ground fault circuit interrupter (GFCI) is required for maximum safety.
- All wiring must be performed by qualified electrician in accordance with all local and national electric code.
- When power source or supply is turned off (in open position) a lock and tag out should be used to prevent accidental power application or activation.
- Do not use extension cord or cut off grounding pin. Should be installed on separate 15 AMP circuit breaker.
- Use only with a properly sized (input AMPS, volts, HP) motor controller.
- Do not use to pump flammable/explosive liquids such as gasoline, fuel oil, kerosene, and /or chemicals, salt water, etc.
- Do not use pump in an explosive atmosphere or classified as hazardous per NEC, ANSI/NFPA 70.
- Make sure pump is on hard level bottom in sump, do not set directly on earth, gravel, or other debris. This could cause excessive wear or possible jamming and flooding.
- Make sure pump is secure in basin and piping is firmly supported so that pump cannot move, not allowing liquid level switch to interfere with basin all or other obstacle preventing proper operation. Flooding or overheating could occur if not prevented.

CHAMPION PUMP COMPANY
1102 Myers Pkwy. Ashland, Oh 44805
Phone: 419-281-4500
Fax: 419-616-1100

All basins or sumps must have covers and installed to meet health and plumbing codes with proper sealing and venting. Before opening or entering sump safety precautions per OSHA requirements should be strictly adhered.

General Information

These pump models are offered without a liquid level motor control switch (manual models) or with attached switches. The manual versions need a liquid level switch for proper operation in the basin. **Champion** pump liquid level vertical switch 28-0007-0010 (10'), 28-0007-0020 (20') or float switch 13-0001-1001 (10'), 13-0002-1001 (20') is recommended. These control switches easily mount to the discharge piping and are adjustable for different basin and liquid levels. Pump plug is plugged into back of piggyback receptacle on switch cord.



Models with attached vertical or float factory preset liquid level switches are:

Pump	Min. basin dia.	On level	Off level
CPE5HV	12"	7 5/8"	3 ½ "
CPE5HA	14"	15 ½"	8 ½"

CPEH series -- Max. solid size -- .75 inch,
NOTE: All pump discharge sizes - 2 NPT

Sump/Effluent Installation

1. Provide proper sump basin size. A larger size is recommended as it allows more reserve, and reduced switching.
2. Make sure level control switch has full motion without possible interference or hang up.
3. Make sure pump is on solid, clean, debris free base.
4. Schedule 40 PVC pipe is recommended, check local code. Hand tighten piping into pump. Install a union or other means of separating discharge line for easy pump removal.
5. A full flow check valve is recommended just above or in place of the union to prevent water backflow. Connect additional piping as needed to direct discharge to desired location. Keep piping as short as possible with minimum number of turns. Secure piping.
6. A ball or gate valve is recommended after the check valve to prevent backflow when removal is necessary.
7. In effluent and sewage applications, check with health and plumbing codes for proper basin size, sealing, and venting requirements.
8. In sewage applications, pumps should not be installed where sludge can build up
9. An audible high water alarm, such as CP Model 1035944 should be installed for additional protection.
10. Check pump system for proper operation once installed and power connected by filling basin with water.

Maintenance and Troubleshooting

Symptom	Possible Cause(s)	Corrective Action
Pump will not start or run	1. Blown fuse, trip breaker	1. If blown, replace with proper sized fuse or reset breaker.
	2. Low line voltage	2. If voltage is under 108 volts, check wiring size.
	3. Defective motor	3. Replace pump
	4. Defective float switch	4. Replace float switch
	5. Impeller bound	5. If impeller will not turn, remove housing and remove blockage
	6. Float obstructed, low water	6. Make sure float moves freely up and down, check level
Pump starts and stops too often	1. Backflow of water from piping	1. Install or replace check valve
	2. Faulty float switch	2. Replace float switch
Pump will not shut off or thermal protector turns off	1. Defective float switch	1. Replace float switch
	2. Obstacle in piping, valve shut	2. Remove pump and clean pump and piping, open valve
	3. Float obstructed	3. Make sure float move freely up and down
	4. Low line voltage	4. If voltage is under 108 volts, check wiring size
	5. Too many appliances on circuit	5. Install pump on dedicated circuit. **IMPORTANT:** Do not use extension cord to power pump
Pump operates but delivers little or no water	1. Plugged impeller	1. Clean out impeller
	2. Check valve installed backwards, or faulty	2. Reverse position of check valve, or replace
	3. Pump air locked	3. Drill 1/8" hole in discharge between pump and check valve

BID OPENING TABULATION

Pretreatment Effluent Pump (PEP) Purchase

Bid Number: 2023-21
Date & Time: March 31, 2023 at 2:00pm

Contractor	Unit Price
Alpha General Services LLC	$335.00
Custom Pump and Controls	$775.00

Please Note: The bid proposals are currently being reviewed. All submittals accepted by the City of Ormond Beach are subject to the City's terms and conditions and any and all additional terms and conditions submitted by the bidders are rejected and shall have no force and effect. Bid documents from the bidders listed herein are the only submittals received timely as of the above opening date and time. All other bid documents submitted in response to this solicitation, if any, are hereby rejected as late.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Alex Schumann, City Engineer

Date: June 6, 2023

Subject: Bid Award - CDBG North Ridgewood Avenue East Side Sidewalk Improvements

Commission Goal: Public Safety - Other

Introduction

This is a request for the City Commission to award a bid to install Community Development Block Grant (CDBG) North Ridgewood Avenue East Side Sidewalk Improvements.

Background

On January 10, 2023, with the approval of Resolution 2023-17, the City Commission approved the Subrecipient Agreement with Volusia County for CDBG Fiscal Year (FY) 2022-2023 funding which included the North Ridgewood Avenue Sidewalk Improvements as a Department of Housing and Urban Development (HUD) approved eligible activity.

Discussion

The North Ridgewood Avenue East Side Sidewalk Improvements work consists of removing an existing 4’ (foot) non-American Disabilities Act (ADA) compliant deteriorated concrete sidewalk and replacing it with a new 5’ foot concrete sidewalk in strict accordance with ADA requirements on the east side of North Ridgewood Avenue from Hernandez Avenue to the south side of New Britain Avenue. This project was advertised on March 26, 2023. On April 25, 2023, six bids were received ranging in cost between $102,624 and $180,000. The low bidder was Sanderson Concrete Construction, who submitted a base bid of $102,624 and, including one (1) bid alternate for $15,600 for a total bid of $118,224. With the bid alternate included, the project scope will be from Wilmette Avenue to New Britain Avenue.

Budget Impact

Funding for this project was included in the FY 2022-2023 budget of Fund 301-Capital Improvement Fund. The project will be funded with CDBG funds and the City intends to include the one bid alternate.

Citizen Impact

The construction of this new sidewalk will provide safer walking paths for the general public. Residents will be notified prior to the project starting to minimize construction impacts.

Recommendation

Staff is recommending awarding the bid to Sanderson Concrete Construction in the amount of $118,224 for the construction of CDBG North Ridgewood Avenue East Side Sidewalk Improvements to be approved.

RESOLUTION NO. 2023-100

A RESOLUTION ACCEPTING THE BID OF SANDERSON CONCRETE CONSTRUCTION, INC. REGARDING THE NORTH RIDGEWOOD AVE. EAST SIDE SIDEWALK IMPROVEMENTS PROJECT, UNDER BID NO. 2023-12; REJECTING ALL OTHER BIDS; AUTHORIZING THE EXECUTION OF A CONTRACT AND PAYMENT THEREFOR; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, the City advertised for bids (Bid No. 2023-12) for construction services regarding the North Ridgewood Ave. east side sidewalk improvements project ("Project") in accordance with Section 2-300, *Code of Ordinances,* and

WHEREAS, the appropriate City staff members have reviewed the six (6) bids received and have determined that the bid submitted by Sanderson Concrete Construction, Inc. with a base bid of $102,624.00, plus bid alternate #1 at $15,600.00, for a total bid in the amount of $118,224.00 is the lowest responsible and responsive bid (a copy of said bid being attached hereto and incorporated herein by reference), and

WHEREAS, the City Manager has certified that funds have been appropriated to the credit of the General Capital Improvement Fund (301) for the Project and have not been appropriated for any other purpose, and

WHEREAS, the City Commission concurs in the said determination and recommendation, now therefore,

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The bid submitted by Sanderson Concrete Construction, Inc. to provide construction services for the Project at a cost not to exceed $118,224.00 is hereby accepted.

SECTION TWO. All other bids to provide services for the Project are hereby rejected upon the execution of a contract with Sanderson Concrete Construction, Inc.

SECTION THREE. The Mayor and the City Manager are hereby authorized and directed to execute a contract between the City and Sanderson Concrete Construction, Inc. for the performance of the Project at the said price, and to pay the cost therefor from the General Capital Improvement Fund.

SECTION FOUR. This Resolution shall take effect immediately upon its adoption.

APPROVED AND AUTHENTICATED this 6th day of June, 2023.

Proposal For:

City of Ormond Beach

CDBG-North Ridgewood Ave. East Sidewalk Improvements

SECTION 00300
BID

CONTRACTORS NAME Sanderson Concrete Construction LICENSE NO. 15091503

PROJECT IDENTIFICATION: **CDBG – NORTH RIDGEWOOD AVE. EAST SIDE SIDEWALK IMPROVEMENTS**

CONTRACT IDENTIFICATION AND NUMBER: Bid No. **2023-12**

THIS BID IS SUBMITTED TO:
(Name and Address of Owner)

City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174

1. The undersigned BIDDER proposes and agrees, if this Bid is accepted, to enter into an Agreement with OWNER in the form included in the Contract Documents to complete all Work as specified or indicated in the Contract Documents for the Contract Price and within the Contract Time indicated in this Bid and in accordance with the Contract Documents.

2. BIDDER certifies that he has investigated the requirements to do business in the jurisdiction where the project is located, and that he is either qualified to do business or will obtain such prequalification prior to award of the contract.

3. BIDDER accepts all of the terms and conditions of the Instructions to Bidders (Section 00100) including, without limitation, those dealing with the disposition of Bid Security, Public Entity Crimes, and Minority Policies. This Bid will remain open for 90 days after the day of Bid opening. BIDDER will sign the Agreement and submit the Contract security and other documents required by the Contract Documents within ten (10) days after the date of OWNER'S Notice of Award.

4. In submitting this Bid, BIDDER represents, as more fully set forth in the Agreement, that:

(a) BIDDER has examined copies of all the Contract Documents and of the following addenda:

Date	Number

(receipt of all of which is hereby acknowledged) and also copies of the Advertisement to Bid and the Instructions to Bidders;

(b) BIDDER has examined the site and locality where the Work is to be performed, the legal requirements (federal, state and local laws, ordinances, rules and regulations) and the conditions affecting cost, progress or performance of the Work and has made such independent investigations as BIDDER deems necessary.

(c) This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; BIDDER has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid; BIDDER has not solicited or induced any person, firm or a corporation to refrain from bidding; and BIDDER has not sought by collusion to obtain for himself any advantage over any other Bidder or over OWNER; and

5. BIDDER will complete the Work for the following price(s):

BID SCHEDULE

Item No.	Description	Unit	Total Estimated Price
1.	Demolition from Hernandez to New Britain Avenue for Existing 4' Sidewalk, Driveway Aprons, Asphalt, concrete pavers & curbing *Approximately 7,490 SF, 646 SF & 122 LF Curbing* Includes Removal and Disposal	LS	$26,839.00
2.	Install from Hernandez to New Britain Avenue 5' ADA Compliant Sidewalk at 4" depth *Approximately 8,162 SF* Includes – Layout, Excavation, Compacted Base, 4" - 3,000 PSI Concrete Complete Restoration (including Bahia sod)	LS	$55,400.00
3.	Install from Hernandez to New Britain Avenue Right of Way Driveway Aprons at 6" depth *Approximately 1,873 SF* Includes – Layout, Excavation, Compacted Base, 6" - 3,000 PSI Concrete Complete Restoration (including Bahia sod)	LS	$7,500.00
4.	Install from Hernandez Avenue to New Britain Avenue for ADA Compliant Curbing Modifications *Approximately 172 LF* Includes – Layout, Excavation, Compacted Base, 4" - 3,000 PSI Concrete Complete Restoration (including Bahia sod)	LS	$7,685.00

5. Install Eleven (11) ADA Detectable Warning Mats (FDOT Approved) from Hernandez Avenue to New Britain	LS		$5,200.00

TOTAL BASE BID $102,624.00

One Hundred and Two Thousand Six Hundred and Four Dollars (Figures)

(Words)

*** Bidder is responsible to verify all takeoffs as this is a lump sum bid. Bid in accordance with the plans, scope and specifications.**

BID ALTERNATE 1:

1. Demolition from Wilmette to Hernandez Avenue for Existing 5' Sidewalk & Curb Modifications (See Detail B) *Approximately 200 SF for Sidewalk & 50 LF for curbing * Includes Removal and Disposal	LS		$2,800.00
2. Demolition from Wilmette to Hernandez Avenue for Existing 5' Sidewalk Cracked Panels *Approximately 377 SF* Includes Removal and Disposal	LS		$2,100.00
3. Install Wilmette to Hernandez Avenue for 5' ADA Sidewalk at 4" depth & Curb Modifications (See Detail B) *Approximately 200 SF for Sidewalk & 50 LF for curbing * Includes – Layout, Excavation, Compacted Base, 4" - 3,000 PSI Concrete Complete Restoration (including Bahia sod)	LS		$3,700.00
4. Install Wilmette to Hernandez Avenue for 5' Sidewalk Cracked Panel Replacement *Approximately 377 SF* Includes – Layout, Excavation, Compacted Base, 4" - 3,000 PSI Concrete Complete Restoration (including Bahia sod)	LS		$4,700.00
5. Install Five (5) ADA Detectable Warning Mats (FDOT Approved) from Wilmette to Hernandez Avenue	LS		$2,300.00

TOTAL BID ALTERNATE 1 $15,600.00

Fifteen Thousand and Six Hundred Dollars (Figures)

(Words)

*** Bidder is responsible to verify all takeoffs as this is a lump sum bid. Bid in accordance with the plans, scope and specifications.**

TOTAL FOR BASE BID: $ 102,624.00

TOTAL BID ALTERNATE 1: $ 15,600.00

GRAND TOTAL FOR BASE BID & BID ALTERNATE 1: $ 118,224.00

Scope of Work

The work consists of removing an existing 4' foot non-ADA deteriorated concrete sidewalk and replacing it with a new 5' foot ADA compliant concrete sidewalk, 4" – 3,000 PSI concrete for sidewalks & & 6" – 3,000 PSI concrete for driveway aprons, including ADA compliant detectable mats and curbing in strict accordance with the American Disabilities Act (ADA) requirements on the east side of North Ridgewood Avenue from Hernandez Avenue to the south side of New Britain Avenue per the approved plans, specifications and Invitation to Bid. A bid alternate #1 section from Wilmette Avenue to Hernandez Avenue will be a part of the bidding process. The sidewalk in this section is in good shape and is 5' wide but it lacks ADA compliant detectable mats and curbing. This bid alternate #1 would include the modification of the sidewalk/curbing and adding detectable mats. If sufficient funding is available, this section will be included. All excavated material must be removed from the project sites. The City will also be responsible to contract with a material testing company but the contractor responsibility to coordinate with them to do the testing. Contractor is responsible to layout/ stake all proposed improvements for City approval **prior** to construction. **Note: Proposed cross-slopes can't exceed 2%, and running slopes must be less than 5%. All new concrete will be flush with; or feathered into existing grade as to not create tripping hazards.**

This is a federally assisted project and is subject to Federal Labor Standards which include, the Davis-Bacon Act (payment of prevailing wage rates) and the Copeland Act (anti-kickback of wages & submission of weekly certified payroll reports), as well as other provisions including 24 CFR 85.36 (bonding requirements), and Section 3 & M/WBE. Laborers and mechanics employed by primary contractors and sub-contractors performing construction work on this project shall be paid wages at rates not less than the prevailing rates as determined by the Secretary of Labor in accordance with the Davis-Bacon Act. The prime contractor is responsible for the enforcement of wage compliance and support documentation for the duration of the project and may be held liable for wage restitution. The applicable information regarding the laws and regulations stated above are included in the bid packet.

BIDDER acknowledges that the quantities are not guaranteed and final payment will be based on actual quantities determined as provided in the Contract Documents.

BIDDER agrees that the Work will be substantially completed within **90** calendar days after the date when the Contract Time commences to run, and completed within **120** calendar days after the date when the Contract Time commences to run.

BIDDER recognizes that time is of the essence to complete this Project and that OWNER will suffer financial loss if the Work is not substantially complete within the time specified above, plus any extensions thereof allowed in accordance with Article 12 of the General Conditions. The BIDDER also recognize the delays, expense and difficulties involved in proving, in a legal or arbitration proceeding, the actual loss suffered by OWNER if the Work is not substantially complete

on time. Accordingly, instead of requiring any such proof, OWNER has determined and BIDDER agrees to accept that as liquidated damages for delay (but not as a penalty) CONTRACTOR shall pay OWNER **Three Hundred Dollars ($300.00)** for each calendar day that expires after the time specified above for substantial completion until the Work is substantially complete. After substantial completion, if CONTRACTOR shall neglect, refuse or fail to complete the remaining Work within the time specified above for completion and readiness for final payment or any proper extension thereof granted by OWNER, CONTRACTOR shall pay the OWNER an amount equal to all actual expenses incurred by the OWNER as a direct result of the CONTRACTOR'S negligence, refusal, or failure to so complete the remaining work. In the event the CONTRACTOR is terminated or abandons the work prior to the scheduled date for final completion, the CONTRACTOR may be liable for both liquidated damages attributable to delay and for excess completion costs.

6. The following documents are attached to and made a condition of this Bid:

   (a) Required Bid Security in the form of

   (1) a certified check drawn in favor of the City of Ormond Beach in the amount of 5 percent of the total bid; or

   (2) a Bid Bond in the amount of 5 percent of the total bid.

   (b) Equipment, Material, and Subcontractors List

   (c) All information required by the Trench Safety Act (Part VI, Chapter 553, Florida Statutes).

   (d) Drug Free Workplace Certificate

   (e) Conflict, Non-Conflict of Interest, Litigation Statement

   (f) Verification of Employment Status Using E-Verify System

   (g) **CDBG Requirements and Supplemental Conditions**

7. Communications to the BIDDER concerning this Bid shall be addressed to:

Mailing Address: 2440 Timberview Dr. New Smyrna Beach, FL 32168
Street Address: 2440 Timberview Dr.
City, State, Zip Code: New Smyrna Beach, FL 32168
Email: bsanderson@cfl.rr.com
Telephone No.: 386-527-3923 Fax No.: 386-409-8118

8. The terms used in this Bid which are defined in the General Conditions of the Construction Contract included as part of the Contract DOCUMENTS have the meanings assigned to them in the General Conditions.

EQUIPMENT AND SUBCONTRACTORS LIST

List the names of the manufacturers whose product is proposed for use. No more than one manufacturer's name shall be inserted for each item of material and/or equipment listed. Failure to list materials and equipment supplier may result in the Bid being rejected as incomplete and nonresponsive. If any Subcontractors are proposed to be used for any portions of the Work, the names, addresses, phone numbers and work classifications of each such Subcontractor must be listed. The failure to list all Subcontractors proposed for the work may result in the Bid being rejected as incomplete and nonresponsive. If more than one manufacturer or subcontractor is listed, selection will be made by the OWNER. If none is listed, those listed as the "Basis for Design" will be used.

Materials and Equipment:

Item	Supplier
Form Boards	White Cap
Limerock Base (as needed)	Not Needed
3,000 PSI Concrete	Titan Florida
ADA Mats (FDOT Approved)	Rolhard South
Bahia Sod	Sula Sod

The City of Ormond Beach reserves the right to require any bidder to submit such evidence of qualifications as it may deem necessary and may consider evidence available concerning the financial and other qualifications and abilities of a Contractor. Failure to provide all required information may result in the proposal being **rejected** as nonresponsive. The minimum qualifications for this project are as follows:

1. The contractor must have a minimum five (5) years experience installing projects of a similar scope in nature with verifiable references in the following areas:

DRUG-FREE WORKPLACE CERTIFICATION

Identical Or "Tie" Bids: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

3) Give each employee that engages in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) calendar days after such conviction.

5) Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.
2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.
3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.
4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.
5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Bob Preis, Utilities Manager

Date: June 6, 2023

Subject: Work Authorization - WTP Filters 5 & 6 and Maintenance Facility Design

Commission Goal: Water Quality & the Environment - Other

Introduction

This item is a request to award a work authorization to Parker Mynchenberg & Associates, Inc., for design services related to the construction of new Filters 5 & 6 and a new maintenance facility at the Water Treatment Plant (WTP).

Background

The lime softening portion of the treatment process at the WTP currently utilizes six (6) filter units in order to provide high quality drinking water to the City's customers. Filters 1 - 4 were constructed in 2006 as part of a large WTP upgrade project, but the existing Filters 5 & 6 were left unchanged and the original WTP operations building was decommissioned as opposed to demolished. Due to the overall advancements in filtration technology, the older steel basin style Filter units, which were installed in 1984 (Filters 5 & 6), are generally considered less efficient and more difficult to maintain, while also producing a lower quality product. City staff desires to replace the older two (2) filter units with newer concrete basin filter units, similar to the existing Filters 1 - 4. Making this change to utilize updated technology will improve filtration efficiency, improve maintenance constraints, and improve overall reliability at the WTP.

Additionally, the proposed services will include the design of a new maintenance facility, up to 2,800 square feet (SF) in size at the WTP to replace the existing decommissioned operations building, which is believed to have been constructed in 1957. The proposed maintenance facility will be a metal building with built-out interior to include offices, storage space, and bathrooms, etc.

In order to construct the new filter units and new maintenance facility, the existing steel basin filters and the existing decommissioned operations building will both need to be demolished as there is not sufficient room available on the WTP site for the proposed structures. Design efforts for this project include, but are not limited to, the following: Verifying existing pipe layouts in the WTP by a licensed surveyor, identifying existing

soil conditions on site by a licensed geotechnical engineer, evaluating the original WTP operations building with regard to asbestos due to the building's age, identifying a cost effective demolition plan that minimizes disturbances to the surrounding area, performing filter media validation testing, installing new pumps and piping to connect the proposed filter units to the existing WTP process, upgrading the existing electrical and instrumentation system at the WTP to accommodate the new equipment, submitting a permit application to the applicable regulatory agencies including the Volusia County Health Department, and overall architectural, structural, and electrical design of the proposed maintenance facility based upon staff's needs to handle emergency response duties.

Discussion

Staff developed a scope of work and negotiated a proposal from Parker Mynchenberg & Associates, Inc. for the design of this project. Parker Mynchenberg & Associates pre-qualified through the RFP process when the City selected professional service providers for its continuing contracts, as provided by Fla. Stat. Sec 287.055 (2) (g). Parker Mynchenberg's experience with the WTP process and experience with designing commercial facilities allows them to provide a well-suited economical design proposal for the needed improvements at the WTP.

Staff negotiated a professional services fee of $382,965 to include design, permitting, bidding services, and construction oversite throughout the duration of the project. Current construction costs are estimated to be $3,800,000. Design, permitting, bidding services, and construction phase services are typically between 12% and 15% of the total construction costs. This proposal, at roughly 10% of the construction cost, is consistent with expected costs and should provide a good value for the City.

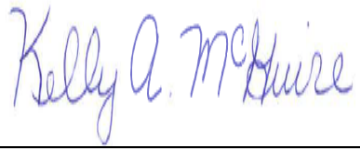
Budget Impact

These design services are included in the budget within Fund 409 - Water and Wastewater Renewal and Replacement Fund in the amount of $382,965. These funds were included in the Fiscal Year 2022-2023 budget.

Citizen Impact

Filtration of raw water is a critical element in the production of drinking water at the WTP. Additionally, providing maintenance staff with a modernized facility will enhance staff's ability to meet the needs and expectations of the City's water customers.

Recommendation



Staff recommends award of the work authorization for engineering services to Parker Mynchenberg & Associates, Inc. for the not-to-exceed amount of $382,965.

RESOLUTION NO. 2023-101

A RESOLUTION ACCEPTING A PROPOSAL FROM PARKER MYNCHENBERG & ASSOCIATES, INC. TO PROVIDE DESIGN SERVICES REGARDING THE CONSTRUCTION OF NEW FILTERS 5 AND 6 AND A NEW MAINTENANCE FACILITY AT THE WATER TREATMENT PLANT; AUTHORIZING THE EXECUTION OF A WORK AUTHORIZATION THERETO; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, the City solicited a proposal from Parker Mynchenberg & Associates, Inc., an engineering firm under continuing contract with the City, to provide design services regarding the construction of new filters 5 and 6 and a new maintenance facility at the water treatment plant ("the Project") in accordance with the provisions of Section 2-300(c) of the *Code of Ordinances*, and

WHEREAS, the appropriate City staff have reviewed the proposal received and determined that the proposal submitted by Parker Mynchenberg & Associates, Inc. to provide design services for the aforedescribed project at a cost not to exceed $382,965.00 is in the best overall interest of the City, and recommends that the said proposal (a copy being attached to the Work Authorization which is attached hereto and incorporated herein by reference) be accepted, and

WHEREAS, the City Commission concurs in the said determination and recommendation, and

WHEREAS, the City Manager has certified that the money for the payment of the Project has been deposited to the credit of the Water and Wastewater Renewal and Replacement Fund (409) and has not been appropriated for any other purpose, now therefore,

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The proposal submitted by Parker Mynchenberg & Associates, Inc. to provide design services regarding the construction of new filters 5 and 6 and a new maintenance facility at the water treatment plant at a cost not to exceed $382,965.00 is hereby accepted.

SECTION TWO. The Mayor and the City Manager are hereby authorized and directed to execute a Work Authorization between the City and Parker Mynchenberg & Associates, Inc. to provide design services for the Project at the said price, and to pay the cost therefor from the Water and Wastewater Renewal and Replacement Fund.

SECTION THREE. This Resolution shall take effect immediately upon its adoption.

APPROVED AND AUTHENTICATED this 6th day of June, 2023.

WORK AUTHORIZATION

In accordance with and incorporating the terms of the Continuing Contract dated March 20, 2017 between the City of Ormond Beach, Florida, and Parker Mynchenberg and Associates, Inc., the following Scope of Work and Schedule of Payments are agreed to by the parties to the Agreement:

Project Title: WTP Filters 5 & 6 and Maintenance Facility - Design

Project Description: Professional engineering services for the design of new filters 5 and 6, and construction of a new maintenance facility at the Water Treatment Plant. The scope of work will include a preliminary design report, design, bidding services, and construction oversight for the duration of the construction project, as detailed in the attached proposal and fee schedule.

Estimated Project Construction Cost: $3,800,000

Schedule of Payments and Fee Basis

Required Work Task	Fee Basis	Fee
Preliminary Design Report	Fixed Fee	$10,975.00
Design	Fixed Fee	$139,470.00
Bidding Services	Fixed Fee	$6,560.00
Construction Administration	Fixed Fee	$41,410.00
Subconsultants	Actual Cost	$181,550.00
Reimbursable Expenses	Actual Cost	$3,000.00
Total Fee Authorized:	**Not To Exceed**	**$382,965.00**

Funding Source: Water/Wastewater Renewal & Replacement Fund (409)

Estimated Time for Completion: 11 Months for Design From Authorization to Proceed

I. COMPLIANCE WITH FLORIDA PUBLIC RECORDS LAW

Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.
(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.
(d) Upon completion of the contract transfer, at no cost to the City, all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.
(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

CITY CLERK
22 SOUTH BEACH STREET
ORMOND BEACH, FLORIDA 32174 (386) 676-3331
CITYCLERK@ORMONDBEACH.ORG

Ref: Fla. Stat. §119.0701(2016)

II. VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Section 448.09, *Florida Statutes*, makes it unlawful for any person to knowingly employ, hire, recruit, or refer, either for herself or himself, or on behalf of another, for private or public employment within the state, an alien who is not duly authorized to work in the United States. Contractor warrants that it is registered with the U.S. Department of Homeland Security's E-Verify system, and is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.
2. Contractor agrees that if the contractor enters into an agreement with a subcontractor, the subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and contractor warrants it shall maintain any such affidavits for the duration of the contract. If the City has a good faith belief that a subcontractor knowingly violated Section 448.09 (1), the City shall promptly notify the contractor and order the contractor to immediately terminate the contract with the subcontractor.
3. In the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and as provided by statute, the contractor may not be awarded a public contract for at least one (1) year after the date of termination. The contractor may also be held liable for any additional costs incurred by the City as a result of the termination of the contract.

Re: CITY OF ORMOND BEACH
WTP Filters 5 & 6 Replacement and Maintenance Building
Professional Engineering Services Proposal

Dear Mr. Stephenson:

We are pleased to offer the Professional Engineering Services for replacement of Filters 5 & 6 and up to a 2,800 SF maintenance building at the WTP. The lime softening portion of the WTP currently has Filters 1-4 that were constructed in 2006 and two (2) older Filters 5 & 6 in round steel basins. The City desires to replace Filter 5 & 6 with two (2) new filters, similar to Filters 1-4, in concrete structures to improve reliability of the WTP.

The project will include demolition of Filters 5 & 6 and the original WTP operations building which includes Filters that were decommissioned in 2006. This area will allow for construction of a new maintenance building up to 2,800 SF. The proposed maintenance building will be a metal building with built-out interior to include offices, storage space, and bathrooms.

The new Filters 5 & 6 will include a concrete basin similar to Filters 1-4. The associated pipe gallery will include electrically actuated valves and an air compressor for the air scour. Backwash water is provided by the existing elevated storage tank and the existing clear well and transfer pumps will be evaluated for use with the new Filters 5 & 6. The electrical and instrumentation scope will include demolition of the old operations building and Filters 5 & 6. The proposed work includes a new control panel for Filters 1-4, the new Filters 5 & 6, and new maintenance building.

A preliminary design report (PDR) will be prepared to gather site data and evaluate conceptual design options for the filters and maintenance building. The scope of the PDR phase is detailed further below.

This Professional Services Proposal includes design, permitting, bidding, and construction phase services.

The Scope of Work is as follows:

PART A – PRELIMINARY DESIGN REPORT

1. Order site survey for project area
2. Environmental consultant to evaluate old operations building and lab to make recommendations on building demolition
3. Prepare conceptual demo plans for filter structures and old operations building
4. Evaluate filter sizing and need for new clear well and pumping
5. Coordinate filter media testing by filter manufacturer and make recommendation in PDR
6. Prepare conceptual site plans and review with the city
7. Prepare cost estimates for alternatives presented
8. Make recommendation for project scope
9. Renderings of proposed maintenance building

PART B – DESIGN PHASE

1. Coordinate with Owner
2. Coordinate with the following Consultants:
    a. Architect
    b. Structural Engineer
    c. Electrical Engineer
    d. Surveyor
    e. Geotechnical Engineer
    f. Environmental Consultant
3. Prepare construction plans and specifications
4. City of Ormond Beach
    a. Prepare for and attend Pre-Application Meeting with City
    b. Prepare Application Paperwork, Submit, and Obtain Site Plan Approval
    c. Respond to Comments from City
    d. Attend Meeting(s) with Staff (as required)
5. Submit plans and specifications to the City for review at 30%, 60% and 90% completion
6. Incorporate City review comments into the bid documents
7. Apply for VCDOH operation permit modification
8. Clear well tank and transfer pumps design and permitting
9. Aluminum screen enclosures over filters design and permitting

PART C – BIDDING ASSISTANCE

1. Prepare bid documents to City standards
2. Attend pre-bid meeting
3. Provide responses to bidder questions
4. Prepare addenda
5. Review and check bids and prepare a bid tabulation
6. Prepare an award recommendation letter

PART D – CONTRACT ADMINISTRATION AND PROJECT CERTIFICATION

1. Contract Administration
    a. Attend Pre-Construction Meeting
    b. Review Shop Drawings
    c. Attend Progress Meetings
    d. Pay Request Review and Approval
    e. RFIs
    f. Field Orders
    g. Change Orders
2. Project Close-out
    a. Review As-builts
    b. Perform Final Inspection
    c. Attend onsite walkthrough with City Staff and Contractor
    d. Create Engineering Punchlist
    e. Re-inspect Site for Completeness

PART E – SUBCONSULTANTS

1. Subconsultant allowance for Architect, Structural Engineer, Electrical Engineer, Environmental Consultant, Survey, and Geotechnical Engineer. Subconsultant cost will be billed at actual cost. Subconsultant proposals are attached for reference

PART F – MISCELLANEOUS

1. Expenses (including reproducibles, postage, etc.)

Not included in the above Scope of Work are as follows:

1. Permit application and fees (to be borne by the Owner).
2. Boundary, topographic, jurisdictional wetland, and tree survey (by a registered land surveyor).
3. Preparation of Easement Sketch and Legal Descriptions (if required).
4. Wetland Jurisdictional determination/flagging (including but not limited to vegetation mapping, on-site endangered or protected species inventory and environmental permitting associated with site plan approval, stormwater and dredge and fill permitting (mitigation plan) (if required) (PMA to provide environmental ACOE consultant, dredge and fill exhibit only). Obtaining the Army Corp of Engineer's Permit for wetlands impacts is the sole responsibility of the environmental consultant. PMA will assist with exhibits etc. However, the wetland jurisdiction impacts, mitigation plan, and obtaining the permit are NOT included in PMA's scope of work.
5. Preparation of Architectural Building Plans and Elevations. (to be prepared by Project Architect).
6. Preparation of Signage Plans (to be provided by architect or sign company).
7. Geotechnical Soil Testing (to be performed by a Geotechnical Engineer) (if required).
8. Cultural Assessment Survey and Report in response to the Division of Historical Resources (if required).
9. Preparation and assistance associated with LEED design certification.
10. Title Opinion.
11. Traffic Studies (to be prepared by Traffic Engineer) (if required).
12. Preparation of Environmental Reports (if required by the County/SJRWMD).
13. Comprehensive Plan, Rezoning Amendments and Future Land Use Modification (if required).
14. Preparation of Structural Permit Applications.
15. Preparation of Colored Renderings.
16. Preparation of a Lighting Plan including Photometric Plan and Lift Station Electrical Service and Electrical Design. (to be prepared by an Electrical Engineer).
17. Gopher Tortoise Survey or Permitting Relocation.
18. Preparation of an Endangered and Threatened Species Report.
19. Onsite Construction supervision.
20. Electrical Service or Distribution Design (by Electrical Engineer).
21. Attendance at Public Hearings, including Neighborhood Meetings, Planning Board, Redevelopment Board and City Commission Meetings unless specially included in the Scope of Work.
22. Coordination of Telephone, Gas, Cable, and Power (PMA to provide plans only to private utilities).
23. Traffic Fair Share Agreement.
24. Sanitary Pump Station Design and Permitting (if required)
25. As-Built of civil, landscaping and irrigation improvements (to be prepared by a registered land surveyor or sub-contractor as part of their contract).
26. Required bacteriological testing in conjunction with water main clearance (if required).
27. FDEP NPDES Notice of Intent (NOI) Permit (To be applied and obtained by the Contractor through the FDEP. PMA will assist but obtaining the NOI is NOT included in PMA's Scope of Work)

I anticipate the Professional Engineering Fee associated with the above Scope of Work not to exceed the following:

PART A – PRELIMINARY DESIGN REPORT:	**$**	**10,975.00**
PART B – DESIGN PHASE:	**$**	**139,470.00**
PART C – BIDDING ASSISTANCE:	**$**	**6,560.00**
PART D – CONTRACT ADMINISTRATION:	**$**	**41,410.00**
PART E – SUBCONSULTANTS:	**$**	**181,550.00**
PART F – MISCELLANEOUS:	**$**	**3,000.00**
TOTAL:	**$**	**382,965.00**

THREE HUNDRED EIGHTY-TWO THOUSAND NINE HUNDRED SIXTY-FIVE DOLLARS AND 00/100

Please note that miscellaneous expenses such as reproducibles, postage, etc. are estimated and included in the above Scope of Work. Billing will be monthly, based on the ***Fee Matrix*** included with this proposal.

Thank you for considering Parker Mynchenberg & Associates, Inc. for your Professional Engineering needs.

Yours truly,

Parker Mynchenberg, P.E., R.L.A.

Re: Architectural / Engineering Fee Proposal for New Pre-Engineered Metal Building for City of Ormond – Water Treatment Plant Facility

Kevin:

Hall & Ogle is pleased to provide you with this fee proposal for A/E services for the above referenced project.

Scope of Work:

- New 2,800 +/- sf building at treatment plant
- Provide new offices / storage require ancillary spaces
- Review / develop program with owner
- Review / set construction budget

Deliverables:

Schematic Documents:

- Building layout - Floor Plan
- Site Plan
- Building Elevations / Sections
- Opinion of Probable Cost

Construction Documents:

Civil Site Plan (By Others):

- Utility Plan
- Grading / Paving Plan
- Landscape / Irrigation Plan
- Misc. Site Details
- Prepare / Submit / Obtain all local / state permits for project.

Architectural Plans:

- Architectural Site Plan
- Existing Plan / Demolition Plan / Project Scope
- Life Safety Plan / Notes
- Floor Plan / Dimension Plan
- Roof Plan / Details / Reflected Ceiling Plan (Roof Equipment)
- Millwork Plans
- Door / Window Schedule / Details
- Finish Schedule / Notes
- Building Sections
- Wall Sections / Details
- Project Specifications (Basic)

Mechanical Plans:

- New A/c Plan / Details
- A/c Details
- Mechanical Notes / Specifications
- Provide FBC Energy Code Compliance documentation (if required)

Electrical / Systems Plans:

- Power Plan - New
- Lighting Plan - New
- Misc. Electrical Details
- Electrical Notes / Specifications
- Systems Layout / Details

Plumbing Plans (New Sinks):

- Sewer / Water Plans
- Fixture Schedule / Notes
- Misc. Details
- Plumbing Notes / Specifications

Bidding / Contractor Selection:

- Answer RFIs
- Attend pre-bid meeting(s)
- Review bids / recommend contractor
- Answer code review comments

Construction Administration:

- Attend pre-bid / pre construction meetings (4) meetings total.
- Respond to contractor's request for information (RFIs) during construction. Issue Field Orders as needed.
- Review architectural submittals.
- Attend required job meetings (8) visits provided, including Substantial and Final Completion Inspections.
- Do Substantial Completion inspection with punchlist.
- Do Final Acceptance Inspection with punchlist.
- Assist with reviewing close-out documents. Project as-builts provided as additional services.

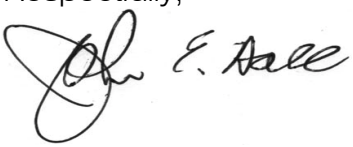
Additional Services:

Additional services when required by owner or contractor shall be provided per Hall & Ogle's Continuing Contract hourly rates.

Architect -	$145/ hr
CAD Technician: -	$75/ hr
Clerical -	$51.75/ hr

Additional Services are defined in AIA Document B101-2007 Ed. Abbreviated Standard Form of Agreement Between Owner and Architect - Article 3 - Additional Services.
Additional Services also include the following:

- Additional project meetings / site visits above what is called for above.
- Document reproduction above what is required for project coordination and required submittals.
- Project 'As-Builts' beyond architectural items of project.
- Cost Estimating services.



- Non-conventional expenses including unanticipated travel / reproduction costs or changes in scope of work past what is defined in this proposal.

Fee for Architectural / Engineering Services: Revised

Schematic Documents:	
Architectural	$5,150
Engineering	$1,950
Construction Documents:	
Architectural	$20,050
Engineering	$7,500
Construction Administration Services:	
Architectural	$8,650
Engineering	$2,850
Geo Tech / Survey	
Total:	$46,150 (revised)

Thank you for this opportunity to provide you with this proposal. If you have any questions, please feel free to call anytime to discuss your concerns. If this proposal is acceptable, provide Letter of Acceptance / Notice to Proceed, and sign below / return.

Respectfully,

John E. Hall, Principal/President

Hall & Ogle Architects, Inc.

PROPOSAL FOR A NEW MAINTENANCE FACILITY AND FILTER REPLACEMENT AT ORMOND BEACH WTP

PROFESSIONAL SERVICES AGREEMENT

Noble Structural Group., Inc. is pleased to present this proposal to its Client, Parker Mynchenberg & Associates, for structural engineering services related to the following at Ormond Beach Water Treatment Plant:

- An approximately 2,800 SF pre-engineered metal building (PEMB) used for offices and maintenance. For the purposes of this proposal, we have assumed:
  - Minimal architectural features
  - Minimal specialized slab work such as grated trenches, vaults and equipment pads
  - Any mezzanines and stairs will be included in the PEMB scope
- A two-cell cast in place concrete filter structure with adjacent pipe gallery to replace existing Filters 5 and 6
- Provide recommended geotechnical boring locations for the above
- Demolition drawings and/or specifications for existing buildings and filters scheduled for removal. It is our understanding that the City requests that any demolition be performed with minimum impact to remaining existing structures.
- A new, approximately 30' x 15' x 10' deep cast in place concrete clearwell structure below the proposed new Filters 5 and 6.
- Covered structural aluminum screen enclosures over the new filters.

SCOPE OF SERVICES

Design Phase

Maintenance Facility

- Based on the project geotechnical report and PEMB column reactions, design foundations and slabs

Filter Structure and Pipe Gallery

- Provide structural design of foundations, walls, flumes, base slabs and related pipe connections and penetrations

Clearwell and Aluminum Screen Enclosure

- Provide structural design of foundations, underground walls, flumes, pipe connections and penetrations
- Provide structural design of screened walls and roof structures, including any required bracing for all new and filters
- Provide connections of above screen structures to filter structures

General Scope at All Structures

- Perform a pre-design site visit to gather design data and assess existing conditions
- Provide structural drawings at deliverables milestones provided by Client
- Provide signed and sealed drawings for Permit and Construction
- Respond to review comments, if required

Construction Phase

- Provide Construction Administration services including review of submittals, responses to requests for information and up to (1) on-site inspection upon substantial completion of each structure.

EXCLUDED SERVICES

NSG's services do not include:

- Services other than structural engineering
- Construction cost estimating

COMPENSATION

Our fee for the Scope of Services herein is as follows:

NEW MAINTENANCE BUILDING AND FILTERS

• Design Phase	$15,000
• Construction Phase	$ 3,000

CLEARWELL STRUCTURE

• Design Phase	$9,000
• Construction Phase	$1,800

FILTER SCREEN ENCLOSURES

• Design Phase	$7,000
• Construction Phase	$1,400

Additionally requested services will be billed at the hourly rates noted below:

Project Engineer, PE	$180/Hour
Engineer Intern	$105/Hour
CAD Designer	$ 90/Hour
Administrative	$ 60/Hour

LIMITATIONS OF LIABILITY

To the maximum extent permitted by law, the Client agrees to limit the Consultant's liability for the Client's damages on an individual claim to a sum not exceeding the Consultant's fee on the individual project. This limitation shall apply regardless of the cause of the action or legal theory pled or asserted.

CHANGED CONDITIONS

If, during the terms of this Agreement, circumstances or conditions that were originally contemplated by or known to the Consultant are revealed, to the extent that they effect the scope of services, compensation, schedule, allocation of risks or other material terms of this Agreement, the Consultant may call for renegotiation of appropriate portions of this Agreement. If terms cannot be agreed to, the parties agree that either party has the absolute right to terminate this Agreement, in accordance with the Termination Provision hereof.

BILLING AND PAYMENT TERMS

PAYMENT DUE. Design phase invoices will be sent to the Client following deliverable milestones based on percentage completion. Construction phase invoices will be sent at 50% and 100% Construction Phase milestones based on the amounts noted herein. Payment for invoices will be due within (30) days of Client receipt.

INTEREST. If payment in full is not received by the consultant within 30 calendar days of the due date, invoices shall bear interest at one-and-one half (1.5) percent (or the maximum rate allowable by law, whichever is less) of the PAST DUE amount per month, which shall be calculated from the invoice due date. Payment thereafter shall first be applied to accrued interest and then to the unpaid principal.

COLLECTION COSTS. If the Client fails to make payments when due and the Consultant incurs any costs in order to collect overdue sums from the Client, the Client agrees that all such collection costs incurred shall immediately become due and payable to the Consultant. Collection costs shall include, without limitation, legal fees, collection agency fees and expenses, court costs, collection bonds and reasonable Consultant staff costs at standard billing rate for the Consultant's time spent in efforts to collect. This obligation of the Client to pay the consultant's collection costs shall survive the term of this Agreement or any earlier termination by either party.

SATISFACTION WITH SERVICES. Payment of any invoice by the Client to the Consultant shall be taken to mean that the Client is satisfied with the Consultant's services to the date of payment and is not aware of any deficiencies in those services.

SUSPENSION OF SERVICES
The Consultant Reserves the right to withhold or suspend services if payment for services rendered is not received in accordance with the terms of this agreement. The Client is not relieved of any outstanding debt during periods of suspended or withheld services by the Consultant.

EXECUTION
Signing below is indication of acceptance of the terms of this Agreement. This proposal is valid until 6/30/23. NSG will begin services upon signed contract or a Purchase Order reflecting the Scope and compensation stated herein.

Authorized Officer **Date**
Parker Mynchenberg & Associates

Re: Ormond WTP Filters
Ormond, FL

Dear Mr. Lee:

We are pleased to submit our proposal for electrical and instrumentation design services for the above project. The following serves to provide an overview of the engineering services Bailey Engineering Consultants, Inc. (BEC) intends to furnish on the above referenced project and provides the agreed upon lump sum fee proposal. Your signature on this agreement will serve as your letter of intent and official notice to proceed with the referenced work. Our scope of work will include the following:

Task 1 - Design Services:

1. Conceptual design and cost estimate during the PDR phase.

2. Electrical and instrumentation design associated with the proposed improvements at the Ormond WTP. The system improvements will include:

   a. A new control panel for Filters 1 thru 6. Work to include electrical and I and C for the following:
      - Actuated valves.
      - Air compressor.
      - Air scour controls (blowers electrical design not included)
      - Control panels. 3 required. Each panel will control 3 filters.
      - Master Control Panel for the filter system.

3. Lighting inside aluminum screen enclosures over existing Filters 1-4 and proposed Filters 5&6. These would be aluminum roofs with screen walls and screen doors and would need lighting suspended from the ceiling.

4. HMI system upgrades to include new filter and pump station system.

5. Clearwell, including 3 transfer/backwash pumps, actuated valves and controls.

10620 GRIFFIN ROAD, SUITE 202, COOPER CITY, FLORIDA 33328
TEL: 954-448-7930 ● FAX: 954-713-9959 ● WEB: www.baileyengineering.com

6. **Work not included**: New electrical main service, new generator or new main controls for plant processes not specifically defined herein.

7. BEC will attend meetings to answer questions relating to our design; see attached man-hour projection.

8. Deliverables:
   a. 60% Drawings and specifications with 60% cost estimate
   b. 90% Drawings and specifications with 90% cost estimate
   c. 100% Drawings and Specifications with 100% cost estimate

9. BEC shall submit up to three (3) complete set of 11" x 17" drawings and up to three (3) complete set of 24" x 36" drawings for bidding submittal. BEC shall submit one (1) electronic copy in AutoCAD Version 2019 and pdf format. All additional reproduction shall be completed by others.

10. BEC shall submit one (1) electronic copy in Word for the project specifications. All additional reproduction shall be completed by others.

Task 2 - Construction Services:

1. Shop Drawing Review - Review and approve (or take other appropriate action in respect of) Shop Drawings and samples, the results of tests and inspections and other data which each Contractor is required to submit, but only for conformance with the design concept of the Project and compliance with the information given in the Contract Documents (but such review and approval or other action shall not exceed to means, methods, sequences, techniques or procedures of construction or to safety precautions and programs incident thereto); and receive and review (for general content as required by the Specifications) maintenance and operating schedules and instruction, guarantees, bonds and certificates of inspection which are to be assembled by Contractor(s) is in accordance with the Contract Documents.

2. Issue Clarifications - Issue all instructions of OWNER to Contractor(s); issue necessary interpretations and clarifications of the Contract Documents; have authority, as OWNER's representative to require special inspection or testing of the work; act as initial interpreter of the requirements of the Contract Documents and judge of the acceptability of the work thereunder, and make decisions on all claims of OWNER and Contractor(s) relating to the acceptability of the work or the interpretation of the requirements of the Contract Documents pertaining to the execution and progress of the work. The ENGINEER shall render all interpretations or decisions in good faith and in accordance with the requirements of the Contract Documents.

3. Site Visits - Make site visits to the site at periods appropriate to the various stages of construction to observe, as an experienced and qualified professional,

the progress and quality of the executed work of Contractor(s) and to determine in general if such work is proceeding in accordance with the Contract Documents. Prepare trip reports to document observations made during these inspections. ENGINEER shall not be responsible for the means, methods, techniques, sequences or procedures of construction selected by Contractor(s) or the safety precautions and programs incident to the work of Contractor(s). ENGINEER's efforts will be directed toward providing a greater degree of confidence for OWNER that the completed work of Contractor(s) will conform to the Contract Drawings, but ENGINEER shall not be responsible for the failure of Contractor(s) to perform the work in accordance with the Contract Drawings. During such visits and on the basis of on-site observations, ENGINEER shall keep OWNER informed of the progress of the work, shall endeavor to guard OWNER against defects and deficiencies in such work and may disapprove or reject work failing to conform to the Contract Documents.

Our scope of work shall be as outlined above and as indicated on the attached estimate of work effort. Services not specifically outlined above are excluded. Our fee for this work shall be billed monthly and shall be payable as follows:

Task 1 - Design Services	$ 47,100.00
Task 2 - Construction Services	$ 35,200.00
Total Project:	**$ 82,300.00**

Very truly yours,

Stephen E. Bailey, P.E.

Attention: Mr. Kevin Lee, P.E.

Reference: **PROPOSAL FOR ASBESTOS EVALUATION (DEMOLITION)**
Water Treatment Plant
Old Filter Building / Lab Building
Ormond Beach, Florida
G&S Proposal No. 2022GS-3717

Dear Mr. Kevin Lee, P.E.:

G&S Good Environmental, Inc. (G&S) is pleased to submit our proposal to conduct an asbestos survey of the referenced site in Ormond Beach, Florida. The purpose of this investigation is to identify the location and condition of suspect Asbestos Containing Building Materials (ACBMs) present in structure. It is our understanding that the structure will be demolished.

SCOPE OF WORK

Our asbestos evaluation will include: 1) a review of available building documents to identify potential locations of Suspect Asbestos Containing Building Materials (SACBMs) which will be disturbed; 2) a visual inspection of the building by a certified facility survey asbestos inspector to identify SACBMs; 3) collection of three samples of each homogeneous SACBM; 4) analysis of collected samples by a NVLAP accredited laboratory using polarized light microscopy; 5) a written report that documents work performed and the results of our asbestos evaluation.

SCHEDULE

We understand the time sensitive nature of this investigation. G&S will submit our completed survey report to your office within 10-12 business days of authorization.

PROPOSAL

We propose to conduct this limited asbestos survey in accordance with our General Conditions for a cost of ***$2,387.00***. If acceptable, please execute the attached proposal

acceptance sheet and return the signed original to us.

G&S Good Environmental, Inc., appreciates this opportunity to offer our services, and we look forward to the assignment. Should you have questions regarding this proposal, please contact me at your earliest convenience.

Respectfully submitted,

G&S Good Environmental, Inc.

Bill W. Good, P.G.
EPA Asbestos Inspector

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Kevin Gray, Deputy Public Works Director

Date: June 6, 2023

Subject: Cost Change - Repairs of Pond Fountains

Commission Goal: Water Quality & the Environment - Other

Introduction

This item provides notification to the City Commission that Edenfield Corporation purchase order 20230175 for pond fountain maintenance and pond fountain repair will exceed the City's purchasing threshold of $25,000.

Background

Yearly, the City of Ormond Beach solicits quotes for the cleaning and maintenance of ten pond fountains for the duration of the fiscal year. In October 2022, City staff requested quotes for Fiscal Year (FY) 2022-2023. Edenfield Corporation submitted the lowest quote at $355 per month. Purchase Order (PO) 20230175 was entered with a line item of $4,260 for the fountain maintenance ($355 per month). In addition, a $20,000 line item was added as a repair allowance for unforeseen replacement parts and pumps as needed. The total amount encumbered for PO 20230175 was $24,260. This amount has typically been sufficient to ensure minimal disruption of operation of the fountains.

Discussion

In November 2022, two fountain repair invoices were received by Edenfield Corporation, one for $430 and one for $10,300. These were applied against the fountain repair allowance line item, leaving $9,270 remaining for repairs. In March 2023, staff received another fountain repair invoice in the amount of $11,230. This was in excess of the amount available to pay for repairs. Increasing the amount encumbered in the fountain repair allowance of the purchase order so staff can pay the invoice will cause the total purchase order to exceed the City's purchasing threshold of $25,000. Staff intends to add $3,460 to the fountain repair allowance line item of PO 20230175, of which $1,960 is to pay the balance needed for the current outstanding invoice of $11,230; and $1,500 will be used in the event additional repairs are needed

this FY. This will increase the encumbered amount of PO 20230175 to $27,720.

Budget Impact

Adequate funds required for the additional amount of $3,460 are allocated in the budget and funded out of the Stormwater Operating Fund (107).

Citizen Impact

Maintenance of the pond fountains is crucial to the overall health of the ponds. Not only are the fountains aesthetically pleasing, the fountains also aerate the water in the ponds. This helps prevent the growth of algae and spreads oxygen to marine life.

Recommendation

Staff recommends the City Commission approve the increase in encumbrance for the fountain maintenance repair line item on PO 20230175 for Edenfield Corporation.

RESOLUTION NO. 2023-102

A RESOLUTION RATIFYING, AFFIRMING AND AUTHORIZING EXPENDITURES FOR POND FOUNTAIN MAINTENANCE AND REPAIRS FROM EDENFIELD CORPORATION; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, in October 2022, the City solicited quotes for services to perform pond fountain maintenance and repairs in accordance with Section 2-300, *Code of Ordinances*, and accepted the quote of Edenfield Corporation and issued a Purchase Order for $24,260.00 for said services, and

WHEREAS, to date, expenditures for the services total $27,720.00 (copies of a Purchase Order and invoices are attached hereto and incorporated herein by reference), and

WHEREAS, in accordance with Sec.2-300(f) *Code of Ordinances,* because the cumulative total for the procurement from one vendor exceeds the City Manager's threshold, City Commission approval is required, and

WHEREAS, the City Manager has certified that the money for the payment of the services is appropriated in the Stormwater Operating Fund (107), now therefore,

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The City Commission hereby ratifies and affirms the purchase of pond fountain repair and maintenance services from Edenfield Corporation in the amount of $27,720.00 and the expenditure from the Stormwater Operating Fund.

SECTION TWO. This Resolution shall take effect immediately upon its adoption.

APPROVED AND AUTHENTICATED this 6th day of June, 2023.

GENERAL CONDITIONS

Acceptance of an order includes all terms, quantities, prices, delivery instructions, specifications and conditions stated in the order. The terms and conditions of an order are not to be changed or modified by any verbal understanding. Any such changes must be made by written agreement. The quantity of materials ordered and the prices specified must not be exceeded without written authority being first obtained from the City. Failure of an awarded Vendor to deliver goods and/or services as specified in the order, or failure to comply with any of the terms and conditions therein, may disqualify Vendor from receiving future orders. In case of default by the Vendor, the City may procure the goods and/or services covered by the order from other sources and hold the Vendor responsible for any additional cost occasioned thereby. Purchases of $2,500.00 or more require a purchase order number. **Invoices must show the purchase order number.** The City endeavors to make payments within thirty (30) days of receipt of invoice in accordance with the Florida Prompt Payment Act, Florida Statutes, Chapter 218, Part VII.

QUALITY

All goods and/or services furnished by an order must be as specified and subject to the City's inspection within a reasonable time after delivery at destination. Variations in goods and/or services from those specified in an order must not be made without written authority from the City. Items rejected by the City will be returned at the Vendor's risk and expense. Unless otherwise stated herein, all materials and equipment furnished by the Vendor shall be new and shall not have been in service at any other installation.

PACKING & DELIVERY

Packages must be plainly marked with shipper's name and order number. Charges are not allowed for boxing or crating unless previously agreed upon in writing. All goods are to be shipped F.O.B. Destination. **The City will pay no freight or expense charges, except by previous agreement.** The delivery must be effected within the time stated in the order. The City reserves the right to cancel this order and purchase elsewhere if the Vendor fails to meet the delivery date specified on Purchase Order. Deliveries shall be made between 8:00 a.m. and 5:00 p.m. on regular working days unless otherwise stated. Transport deliveries must be unloaded and ready for inspection prior to 3:00 p.m. The items will be promptly inspected for damage and defects and conformance with the specifications. Any material or equipment not meeting the specifications, or that has been damaged or injured in the process of transportation, unloading or handling will be rejected and shall be immediately returned to the Vendor at the Vendor's expense.

COMPLIANCE TO LAWS, GUIDELINES, REGULATIONS, ETC.

The Vendor must comply with all applicable state, federal, and local laws, guidelines and regulations, as they pertain to this order. This includes, but is not limited to, DOT, OSHA, EPA, DEP and the City's Registration and Insurance requirements, as applicable. Also, where applicable, the Vendor agrees to furnish the City with a current Material Safety Data Sheet (MSDS) on or before delivery of each and every hazardous chemical or substance purchased which is classified as toxic under Chapter 422, Florida Statutes. Appropriate labels and MSDS's shall be provided for all shipments. Send MSDS's and other pertinent data to the City at the "Ship to" address on the purchase order.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Steven Spraker, Planning Director

Date: June 6, 2023

Subject: Change Order - Universal Engineering Work Authorization for Building Inspections

Commission Goal: Transportation & Community Development - Other

Introduction

This is a request for approval of a work authorization, not to exceed $23,600, for Universal Engineering Sciences, Inc. ("Universal") to provide additional resources for building inspections.

Background

Universal is a continuing contract consultant for the city. The Building Department has executed a Work Authorization for an amount not to exceed $24,900 for Universal. In reviewing the workload and schedules for the remainder of the year, a Work Authorization for an amount not to exceed $23,600 to Universal Engineering Sciences, Inc. is needed. The total not to exceed amount for Universal Engineering Sciences, Inc. would be $48,500 for the fiscal year.

Discussion

The Building Department's budget includes an expenditure category for other contractual services, which includes Universal. Universal provides additional building inspection personnel during heavy inspection days, and while staff inspectors are unavailable due to leave or professional training, Universal also has inspectors with a wide range of building certifications to supplement the city inspectors.

Budget Impact

The Work Authorization not to exceed $23,600, results in an annual not to exceed total of $48,500 for Universal for the current fiscal year. The amount is budgeted within the Building and Planning Department's budget, Fund 001 - General Fund.

Citizen Impact

In order to continue to provide the City's current level of service, next day building inspections, it is necessary to have the ability to provide additional inspection services through Universal. Universal's services have been invaluable in supplementing the City's inspection staff.

Recommendation

It is recommended that the City Commission approve the resolution for the Work Authorization, not to exceed $23,600 for Universal Engineering Sciences, Inc.

RESOLUTION NO. 2023-103

A RESOLUTION AUTHORIZING THE EXECUTION OF A WORK AUTHORIZATION BETWEEN THE CITY OF ORMOND BEACH AND UNIVERSAL ENGINEERING SCIENCES, INC. FOR THE PROVISION OF BUILDING INSPECTION SERVICES ON AN AS-NEEDED BASIS; AUTHORIZING PAYMENT THEREFOR; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, the City and Universal Engineering Sciences, Inc. entered into a Continuing Engineering Services Agreement on March 20, 2017 for the purpose of providing building inspection services on an as-needed basis, and

WHEREAS, the City and Universal Engineering Sciences, Inc. entered into a Work Authorization on October 17, 2022 for an amount not to exceed $24,900.00, and

WHEREAS, additional building inspection services are needed for an amount that is reasonably estimated not-to-exceed $23,600.00 through the end of fiscal year 2022-2023, and

WHEREAS, in accordance with Sec.2-300(f) *Code of Ordinances*, because the accumulated cost of building inspection services from Universal Engineering Services through the end of fiscal year 2022-2023 will not exceed $48,500.00 (i.e. $24,900.00 + $23,600.00) and exceeds the City Manager's threshold, City Commission approval is required, and

WHEREAS, the City Manager has certified that funds have been appropriated to the credit of the credit of the General Fund (001) and have not been appropriated for any other purpose, and

WHEREAS, the City Commission concurs with the foregoing recommendation, now therefore,

BE IT RESOLVED BY THE CITY COMMISION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The City Manager is hereby authorized and directed to execute a Work Authorization, a copy being attached hereto, between the City and Universal Engineering Sciences, Inc. for the provision of building inspection services at a cost not-to-exceed $23,600.00, and to pay the cost thereof from the General Fund (001).

SECTION TWO. The City Commission hereby ratifies and affirms the execution of the Work Authorization dated October 17, 2022 in the amount of $24,900.00, including all actions taken in furtherance thereof.

SECTION THREE. This Resolution shall take effect immediately upon its adoption.

APPROVED AND AUTHENTICATED this 6th day of June, 2023.

I. COMPLIANCE WITH FLORIDA PUBLIC RECORDS LAW

Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.
(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.
(d) Upon completion of the contract transfer, at no cost to the City, all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.
(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

CITY CLERK
22 SOUTH BEACH STREET
ORMOND BEACH, FLORIDA 32174 (386) 676-3331

II. VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Section 448.09, *Florida Statutes*, makes it unlawful for any person to knowingly employ, hire, recruit, or refer, either for herself or himself, or on behalf of another, for private or public employment within the state, an alien who is not duly authorized to work in the United States. Contractor warrants that it is registered with the U.S. Department of Homeland Security's E-Verify system, and is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.
2. Contractor agrees that if the contractor enters into an agreement with a subcontractor, the subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and contractor warrants it shall maintain any such affidavits for the duration of the contract. If the City has a good faith belief that a subcontractor knowingly violated Section 448.09 (1), the City shall promptly notify the contractor and order the contractor to immediately terminate the contract with the subcontractor.
3. In the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and as provided by statute, the contractor may not be awarded a public contract for at least one (1) year after the date of termination. The contractor may also be held liable for any additional costs incurred by the City as a result of the termination of the contract.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Steven Spraker, Planning Director

Date: June 6, 2023

Subject: 362 Riverside Drive, Sewer Easement Vacation

Commission Goal: Transportation & Community Development - Other

Introduction

This is a request from the property owner of 362 Riverside Drive, James Parsons, to vacate an existing sewer easement in the rear yard. The property owner is seeking to (1) vacate the existing sewer easement **(this agenda item)** and (2) dedicate a new sewer easement **(next agenda item)**. The property owner has submitted a utility plan for the relocation of the sewer line which has been reviewed and approved by the Site Plan Review Committee. The Resolutions for the easement vacation and dedication will not be sent for recording until the sewer line has been relocated and inspections approved by the Site Plan Review Committee.

Background

In 1963, a sewer easement was dedicated at 362 Riverside Drive within the rear yard that bisects the property. The current property owner purchased the property in 2022 and desires to make improvements in the rear yard which conflicts with the existing sewer line. The property owner is seeking to (1) vacate the existing sewer easement **(this agenda item)** and (2) dedicate a new sewer easement **(next agenda item)**. The property owner has submitted a utility plan to the Site Plan Review Committee (SPRC) to relocate the existing sewer line.

Discussion

The purpose of this item is to vacate the existing sewer easement as part of the relocation of the sewer line. The Resolution has been conditioned to require the completion of the utility improvements before the Resolution and quitclaim deed are recorded. The next agenda item is the dedication of the new sewer easement. The SPRC has found the proposed sewer vacation, dedication, and relocation acceptable. A key part of this application is the timing of the vacation and dedication of the sewer easements. The Resolution is drafted to withhold any recordation of the easements

until the relocation work is completed and accepted by the SPRC.

Budget Impact

There is no budget impact associated with the requested vacation of the sewer easement. The property owner is responsible for the costs associated with the relocation of the sewer line.

Citizen Impact

There is no citizen impact anticipated with the easement vacation. The relocated sewer line would allow additional use of the rear yard land area of 362 Riverside Drive.

Recommendation

Approval of the vacation of an existing sewer easement in the rear yard of 362 Riverside Dr with the condition that the sewer line relocation occur prior to the recordation of the Resolution and quitclaim deed.

RESOLUTION NO. 2023-104

A RESOLUTION AUTHORIZING THE EXECUTION OF A QUITCLAIM DEED IN FAVOR OF JAMES C. PARSONS AND CARRIE QUINN, RELEASING A SEWER EASEMENT LOCATED WITHIN THE REAR YARD AT 362 RIVERSIDE DRIVE; PROVIDING FOR RECORDATION; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, on January 8, 1963, a sewer easement was dedicated to the City of Ormond Beach on the property at 362 Riverside Drive which is recorded in Official Records Book 506, Page 386 of the Public Records of Volusia County, Florida; and

WHEREAS, the property owners, James C. Parsons and Carrie Quinn, desire to move the existing sewer line on the property at 362 Riverside Drive, requiring an easement vacation and easement dedication; and

WHEREAS, an application has been submitted to the Site Plan Review Committee (SPRC) providing a utility plan showing the relocation of the sewer line and has been determined acceptable; and

WHEREAS, the sewer easement release and dedication shall be conditioned on the construction of the new sewer line and abandonment of the existing sewer line to be permitted and inspected by the SPRC; and

WHEREAS, the easement vacation shall not be recorded until the SPRC has accepted the construction of the new sewer line; now therefore,

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The Mayor and the City Manager are hereby authorized and directed to execute that Quitclaim Deed in favor of James C. Parsons and Carrie Quinn, a copy of which is attached hereto and incorporated herein by reference, for the purpose of releasing the described sewer easement on said property being commonly located at 362 Riverside Drive, Volusia County Parcel ID Number 4223-03-00-0030.

SECTION TWO. The City Clerk is hereby directed to withhold the recordation of a certified copy of this Resolution and the executed Quitclaim Deed in the public records of Volusia County, Florida until the construction of the new sewer line and abandonment of the existing sewer line as determined by the SPRC. The Planning Director on behalf of the SPRC shall provide written correspondence to the City Clerk upon completion and acceptance of the utility improvements to allow the recordation of the Quitclaim Deed.

SECTION THREE. This Resolution shall take effect immediately upon its adoption.

APPROVED AND AUTHENTICATED this 6th day of June, 2023.

BILL PARTINGTON
Mayor

QUITCLAIM DEED

THIS QUITCLAIM DEED, executed this ____ day of _____ 2023, by the **CITY OF ORMOND BEACH**, a Florida municipal corporation, whose post office address is 22 South Beach Street, Ormond Beach, Florida 32174 ("the Grantor"), to **JAMES C. PARSONS AND CARRIE QUINN**, whose post office address is 362 Riverside Drive, Ormond Beach, Florida 32176 ("the Grantees"):

WHEREAS, the Grantees are the owners of certain land by virtue of that Warranty Deed dated April 8, 2022 and recorded at Book 8234, Page 2189 of the Public Records of Volusia County, Florida, said land being legally described within as follows: "That portion of Lot 3 and the Southerly 20 feet of Lot 2, lying Westerly of Riverside Drive, of East Coast Mortgage and Investment Company's Subdivision of Lot 4, Assessor's Lower Ormond Beach, as recorded in Map Book 7, Page 84, Public Records of Volusia County, Florida."

WITNESSETH, that the Grantor, for and in consideration of the sum of $10.00, in hand paid by the Grantees, the receipt whereof is hereby acknowledged, does hereby remise, release and quitclaim unto the Grantees forever, all of the right, title, interest, claim and demand which the Grantor has in and to the sewer easement along the rear yard on a portion of that real property described and depicted on Exhibit "A" attached hereto and incorporated herein by reference (362 Riverside Drive, Ormond Beach, Volusia County, Florida [Parcel ID #4223-03-00-0030]).

THE PURPOSE OF THIS QUITCLAIM DEED IS TO RELEASE ANY INTEREST WHICH THE CITY OF ORMOND BEACH MAY HAVE IN AND TO THE USE OF THE AFOREDESCRIBED REAL PROPERTY OF THE SEWER EASEMENT WITHIN THE REAR YARD.

TO HAVE AND TO HOLD the same together with all and singular the appurtenances thereunto belonging or in any wise appertaining, and all the estate, right, title, interest, lien, equity and claim whatsoever of the Grantor, either in law or equity, to the only proper use, benefit and behoof of the Grantees forever.

IN WITNESS WHEREOF, the Grantor has signed and sealed these presents the day and year first above written.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Steven Spraker, Planning Director

Date: June 6, 2023

Subject: 362 Riverside Drive, Sewer Easement Dedication

Commission Goal: Transportation & Community Development - Other

Introduction

This is a request from the property owner of 362 Riverside Drive, James Parsons, to dedicate a public utility, access, and maintenance easement deed, in the rear yard for a sewer line. The easement deed is to allow the relocation of sewer line within the rear yard of the property. The property owner has submitted a utility plan for the relocation of the sewer line which has been reviewed and approved by the Site Plan Review Committee (SPRC). The Resolutions for the easement vacation and dedication will not be sent for recording until the sewer line has been relocated and inspections approved by the SPRC.

Background

In 1963, a sewer easement was dedicated at 362 Riverside Drive within the rear yard that bisects the property. The current property owner purchased the property in 2022 and desires to make improvements in the rear yard which conflicts with the existing sewer line. The property owner is seeking to (1) vacate the existing sewer easement **(previous agenda item)** and (2) dedicate a new public utility, access, and maintenance easement deed **(this agenda item)**. The property owner has submitted a utility plan to the SPRC to relocate the existing sewer line.

Discussion

The purpose of this item is to dedicate a public utility, access, and maintenance easement deed as part of the relocation of the sewer line. The Resolution has been conditioned to require the completion of the utility improvements before the Resolution and public utility, access, and maintenance easement deed are recorded.

Budget Impact

There is no budget impact associated with the requested public utility, access, and maintenance easement deed acceptance. The property owner is responsible for the costs associated with the relocation of the sewer line.

Citizen Impact

There is no citizen impact anticipated with the proposed public utility, access, and maintenance easement deed. The relocated sewer line would allow additional use of the rear yard land area of 362 Riverside Drive.

Recommendation

It is recommended that the City Commission approve the public utility, access, and maintenance easement deed in the rear yard of 362 Riverside Drive with the condition that the sewer line relocation occur prior to the recordation of the Resolution and public utility, access, and maintenance easement deed.

RESOLUTION NO. 2023-105

A RESOLUTION AUTHORIZING THE ACCEPTANCE OF A PUBLIC UTILITY, ACCESS AND MAINTENANCE EASEMENT FROM JAMES C. PARSONS AND CARRIE QUINN FOR PROPERTY LOCATED AT 362 RIVERSIDE DRIVE, IN CONJUNCTION WITH A SEWER RELOCATION PROJECT; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, on January 8, 1963, a sewer easement was dedicated on the property at 362 Riverside Drive which is recorded in Official Records Book 506, Page 386 of the Public Records of Volusia County, Florida; and

WHEREAS, the property owners, James C. Parsons and Carrie Quinn, desire to move the existing sewer line on the property at 362 Riverside Drive requiring an easement vacation and easement dedication; and

WHEREAS, an application has been submitted to the Site Plan Review Committee (SPRC) providing a utility plan showing the relocation of the sewer line and has been determined acceptable; and

WHEREAS, the sewer easement release and dedication shall be conditioned on the construction of the new sewer line and abandonment of the existing sewer line to be permitted and inspected by the SPRC; and

WHEREAS, the easement dedication shall not be recorded until the SPRC has accepted the construction of the new sewer line; now therefore,

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The City Commission hereby approves and accepts that Public Utility, Access and Maintenance Easement ("Easement") from James C. Parsons and Carrie Quinn, the property owners, on property located at 362 Riverside Drive, Ormond Beach, Volusia County, Florida (Volusia County Parcel ID # 4223-03-00-0030), in conjunction with the relocation of an existing sewer line on a single-family lot, a copy of the Easement is attached hereto and incorporated herein by reference.

SECTION TWO. A certified copy of this Resolution, and the executed original Public Utility, Access and Maintenance Easement, shall be recorded in the public records of Volusia County, Florida once the sewer relocation has been accepted by the Site Plan Review Committee.

SECTION THREE. This Resolution shall take effect immediately upon its adoption.

APPROVED AND AUTHENTICATED this 6th day of June, 2023.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Steven Lichliter, Airport Manager

Date: June 6, 2023

Subject: Authorization of Fixed Base Operator Category 2, Ormond Beach Municipal Airport

Commission Goal: Economic Development - Other

Introduction

This is a Resolution authorizing Fixed Base Operator (FBO) Category 2 status for Low and Slow Aviation, LLC at the Ormond Beach Municipal Airport.

Background

Low and Slow Aviation, LLC (LSA) dba CubFlying.com is a Florida Limited Liability Corporation located at 72 Hangar Way in Ormond Beach. LSA leases and occupies office and classroom space within the hangar facilities of an existing FBO at the airport, Ormond Aircraft Brokers (OAB), including an approved bathroom. LSA is applying for FBO Category 2 status as the company intends to function as a specialized, small scale flight training and aircraft rental business, typically serving only one student at a time. Staff interviewed the applicant, Mr. Daryl Hickman and Mr. Steve Searle of OAB, to assess the ability of LSA to meet the financial and technical ability requirements for FBO Category 2, details of the qualifications of the individuals who will be principally engaged in providing Category 2 services are included with the application.

Discussion

Ormond Beach City Code requires the following for Category 2 FBO status:

Sec. 3.3-61. - Category 2: Flight instruction and aircraft rental.
A fixed base operator in this category shall:

1. Have available on a full-time employment basis a minimum of one (1) currently certified instructor pilot;
2. Provide, and at all times maintain, an aircraft currently certified and continuously airworthy, and owned or leased by and under the exclusive control of this fixed

base operator;
3. Lease or provide, under terms acceptable to the city, for this exclusive use a minimum of five hundred (500) square feet of separated classroom and office space;
4. Provide a public telephone and sanitary public restrooms;
5. Ensure that personnel operating rental equipment obtained from the fixed base operator possess appropriate and current approved Federal Aviation Administration pilot and medical certificates. (Ord. No. 93-50, § 2, 11-3-93)

In addition to the items listed above, the City Code further states that a fixed base operator must meet the following minimum standards:

- Execution of a written lease for not less than three (3) years; and
- Technical and financial ability to perform the proposed services before any lease of airport property for such an operation shall be executed.

A copy of the lease agreement between the City and OAB for the hangar parcel is included with the FBO application. A copy of the lease agreement between LSA and OAB is also included.

Corporate records and financial data provided for LSA, coupled with the hangar parcel lease agreement and the statement of technical ability by the applicant support an assessment that the applicant has met the minimum standards and is capable of proceeding with the FBO business plan, as presented.

In accordance with Section 3.3-48 of the Code of Ordinances, the Airport Manager has determined that LSA meets all of the requirements for FBO Category 2 for their intended use of that designation.

Budget Impact

Approval of this FBO request will have no budgetary impact.

Citizen Impact

Approval of this FBO request will permit a new, Ormond Beach based business to begin small scale, specialized flight training operations. This FBO designation request does not address the subject of aircraft noise abatement, because the City has no legal authority to impose restrictions regarding aircraft noise or noise abatement procedures.

Recommendation

Staff recommends approval of the attached resolution authorizing Fixed Base Operator Category 2 status for Low and Slow Aviation, LLC.

RESOLUTION NO. 2023-106

A RESOLUTION APPROVING THE APPLICATION OF LOW AND SLOW AVIATION LLC d/b/a/ CUBFLYING.COM, TO PROVIDE SERVICES AS A CATEGORY 2 FIXED BASE OPERATOR AT THE ORMOND BEACH MUNICIPAL AIRPORT; ESTABLISHING CONDITIONS OF APPROVAL; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, Low and Slow Aviation LLC, a Florida limited liability company, d/b/a CubFlying.com, has submitted an application to establish an operation at the Ormond Beach Municipal Airport ("the Airport") as a "fixed base operator" in Category 2, as set forth in Division 2, Article IV, Chapter 3.3, *Code of Ordinances*, and

WHEREAS, the Airport Manager has determined that all requirements have been met and recommends approval of the application, and

WHEREAS, the City Commission concurs with the recommendation of Airport Manager, now therefore,

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The application of Low and Slow Aviation LLC, a Florida limited liability company, d/b/a CubFlying.com, to establish an operation at the Airport as a "fixed base operator" in Category 2 Flight instruction and aircraft rental, a copy of said application is attached hereto as Exhibit "A" and incorporated herein by reference, be and the same is hereby approved.

SECTION TWO. Low and Slow Aviation LLC fully complies with all applicable provisions of Chapter 3.3, *Code of Ordinances*, specifically including section 3.3-61 thereof, as the same presently exists or may after be amended.

SECTION THREE. This Resolution shall take effect immediately upon its adoption.

APPROVED AND AUTHENTICATED this 6th day of June, 2023.

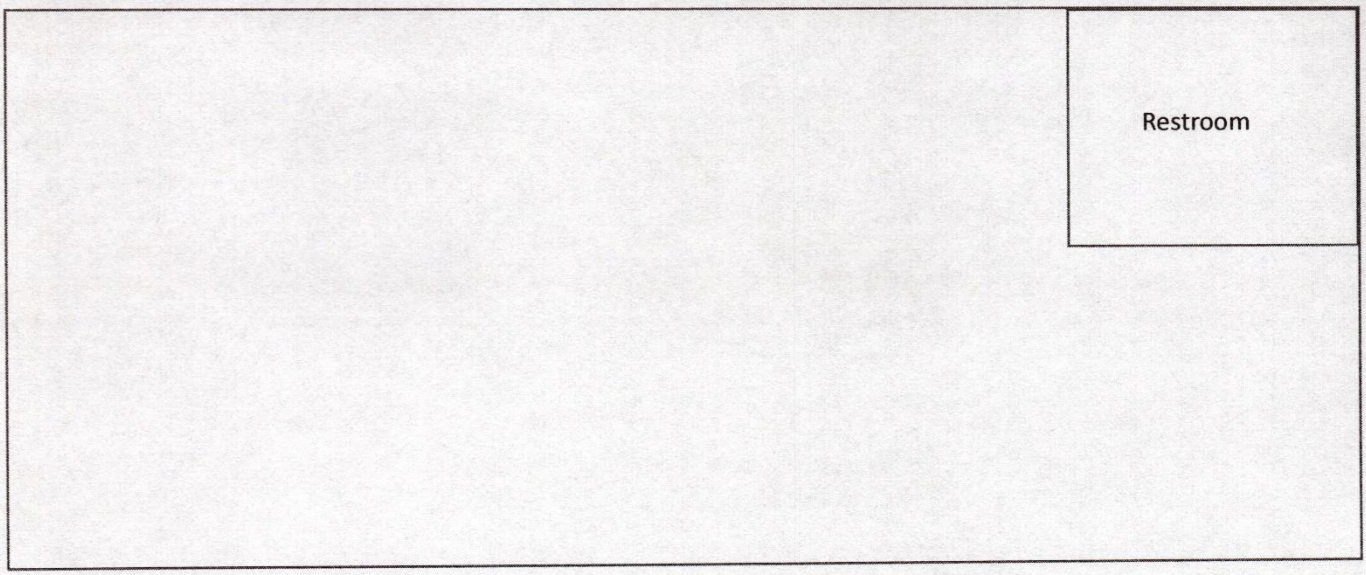
Business Mission

CubFlying.com provides ground and flight instruction to clients seeking tailwheel and advanced training. The entity utilizes a 2015 American Legend Cub that is fully insured to $1,000,000 of liability. Additionally, the applicant has insurance for non-owned aircraft. The aircraft is maintained to FAA standards and receives all required inspections. The business is operated solely by Daryl L. Hickman, FAA-certificated Gold Seal Flight Instructor with Advanced Ground Instructor certificates.

The business works with only one client at a time.

Applicant Background

The applicant is an FAA certificated Gold Seal Flight Instructor with more than 3,200 hours of flight instruction and 4,500 hours of ground instruction given. To date, the applicant has instructed 486 different individuals in airplane and glider operations. The applicant was the 2016 National Instructor of the Year with the Soaring Society of America.



Financial Background

Past 3 Years Gross Income
2020 $25,451.63
2021 $50,724.85
2022 $32,866.92

Project 2 Income
2023 $35,000.00
2024 $35,000.00

FIRST AMENDMENT TO HANGAR LEASE AGREEMENT

BY THIS FIRST AMENDMENT to that certain HANGAR LEASE AGREEMENT dated June 23, 1998, by and between the City of Ormond Beach, Florida, and Stephen B. Searle, Jr. and Diane L. Searle, the undersigned parties do agree as follows:

WITNESSETH:

1. That Article 5, Rental and Other Payments, Paragraph 5.2., Payment of Rentals, Paragraph 5.2.3.2., is hereby amended to hereafter read as follows:

> Beginning on January 1, 2013, in addition to the annual C.P.I. adjustment of the rental payment herein required, the annual rent shall be subject to review and a valuation adjustment every ten years such that the rental payment beginning on January 1, 2013 and every ten years thereafter shall be ten percent (10%) of the appraised value, plus applicable sales tax subject thereto. Such valuation adjustment shall be based upon a reappraisal. The appraisal shall be based on the fair market value of the land, excluding any improvements constructed by the Tenant but including the value of any improvements on the property that the City has constructed and taking into account any restriction on use of the property imposed under the terms of this Lease, or by any governmental authority or agency having jurisdiction over the property and its use. In 2012 the City shall obtain an appraisal at its sole cost and expense for purposes of the initial valuation adjustment and thereafter shall obtain a reappraisal every ten (10) years. The Tenant shall have thirty (30) days from the delivery of the City's appraisal report to notify the City in writing whether it accepts the valuation or desires to obtain its own appraisal at its sole cost and expense. If the Tenant does not advise the City within said thirty (30) day period that it does not accept the appraisal report, said report will be deemed to be accepted by the Tenant and rent will be charged accordingly. If the Tenant obtains its own appraisal and if the two (2) appraisals are within ten percent (10%) of each other, the value will be deemed to be the average of the two (2) appraisals. If the two (2) appraisals are more than ten percent (10%) apart, then the two (2) appraisers will negotiate an acceptable third appraiser, whose appraisal cost will be split equally by the City and the Tenant, who shall value the property at a value which will be no less than the lowest of the two (2) appraisals and no more than the highest appraisal, and which value shall be final and binding on the parties. All appraisals shall be performed by MAI certified appraisers, experienced in the area of airport land appraisals and guided by recognized appraisal standards of the Society of Real Estate Appraisers and standards implemented by the FAA and FDOT relative to airport property.

2. That all remaining provisions of the said Hangar Lease Agreement shall remain in full force and effect.

EXHIBIT TO HANGAR LEASE AGREEMENT

MEMORANDUM OF LEASE AGREEMENT

THIS MEMORANDUM OF LEASE AGREEMENT is made by and between the **CITY OF ORMOND BEACH**, a Florida municipal corporation under the laws of the State of Florida, hereafter referred to as "the City", and **STEPHEN B. SEARLE, JR.** and **DIANE L. SEARLE**, husband and wife ("the Tenants").

W I T N E S S E T H:

1. The City and the Tenants have entered into that certain written Hangar Lease Agreement dated as of June _____, 1998, (the "Lease") concerning certain real property located in Volusia County, Florida, which property is more particularly described on Exhibit A attached hereto and incorporated herein, whereby, for good and adequate consideration, the City leases to the Tenants and the Tenants take from the City the aforedescribed real property, upon the rents, terms, covenants, and conditions therein contained, which Lease is made a part hereof for all purposes as if fully set forth herein.

2. The term of the Lease shall end on September 30, 2024, and is subject to the Tenants' option to extend the term as therein contained.

3. The City's interest in the property described in Exhibit A attached hereto is not subject to liens for improvements made by the Tenants to or upon the real property affected by the Lease, and such liability is expressly prohibited as contemplated by Section 713.10 of the *Florida Statutes*.

4. This Memorandum of Lease Agreement is not a complete summary of the Lease and the provisions hereof shall not be used in interpreting provisions contained in the Lease. In the event of conflict between this Memorandum of Lease Agreement and the provisions of the Lease, the Lease shall control.

IN WITNESS WHEREOF, the parties hereto have executed this Memorandum of Lease Agreement as of the date indicated below.

ASSIGNMENT OF LEASE AND CONSENT TO ASSIGNMENT

This instrument executed this 26th day of April, 1995, by and between BLUE SKY RENTAL, INC., ("Blue Sky"); SUN BANK OF VOLUSIA COUNTY, a Florida Banking corporation ("Sun Bank") and CITY OF ORMOND BEACH, a Florida Municipal corporation ("City").

BACKGROUD FACTS

1. On April 26, 1995, Blue Sky executed and delivered a Promissory Note to Sun Bank in the original principal sum of TWO HUNDRED FORTY THOUSAND DOLLARS 00/100 ($240,000.00) secured by, among other matters, a Mortgage of a leasehold interest owned by Blue Sky arising out of a Lease between Blue Sky and City dated January 4, 1995, and evidenced by that certain Memorandum Of Lease Agreement dated January 4, 1995, filed for record on January 9, 1995 and recorded in Official Records Book 3975 at Page 4318 of the Public Records of Volusia County, Florida (the "Leasehold").

2. The fee title to the real property in respect to the Leasehold is owned by City and pursuant to the terms of the Lease, the City must consent to the Assignment and Mortgage of the Leasehold.

3. The purpose of this instrument is to evidence the Assignment of the Leasehold and consent by the City to the Mortgage and Assignment of the Leasehold.

TERMS OF ASSIGNMENT

FOR VALUABLE CONSIDERATION RECEIVED, the parties to this instrument agree as follows:

4. The facts which are set forth above are true and correct and are incorporated herein by reference.

5. Blue Sky hereby assigns, transfers and sets over unto Sun

Bank, all of the right, title, interest and equity of Blue Sky in and to the Leasehold together with its underlying Lease, as collateral security for repayment of the Promissory Note which is described above and as further evidence by a general Assignment of Rents, Leases and Profits which has been executed and delivered by Blue Sky to Sun Bank.

6. The City hereby consents to the Assignment by Blue Sky of the Leasehold to Sun Bank and agrees to serve the notices which are described in the Lease upon Sun Bank as follows:

Sun Bank of Volusia County
Attention: Lawrence J. McDermott, Vice President
120 South Ridgewood Avenue
Daytona Beach, Florida 32114

7. The Mortgage of the Leasehold interest which is subject of this Agreement is dated April 16, 1995, filed for record on ~~April~~ May 2, 1995 and recorded in Official Records Book 4001 at Page 1755-1758 and the Assignment of Rents Leases and Profits of even date is recorded in Official Records Book 4001 at Page 1759-1761, all in the Public Records of Volusia County, Florida.

8. In witness whereof, the parties to this Agreement have executed this instrument on the dates indicated in the respective acknowledgements.

MEMORANDUM OF LEASE AGREEMENT

THIS MEMORANDUM OF LEASE AGREEMENT is made by and between the **CITY OF ORMOND BEACH**, a Florida municipal corporation under the laws of the State of Florida, hereafter referred to as "the City", and **STEPHEN B. SEARLE, JR.** and **DIANE L. SEARLE**, husband and wife ("the Tenants").

W I T N E S S E T H:

1. The City and the Tenants have entered into that certain written Hangar Lease Agreement dated as of June 23rd, 1998, (the "Lease") concerning certain real property located in Volusia County, Florida, which property is more particularly described on Exhibit A attached hereto and incorporated herein, whereby, for good and adequate consideration, the City leases to the Tenants and the Tenants take from the City the aforedescribed real property, upon the rents, terms, covenants, and conditions therein contained, which Lease is made a part hereof for all purposes as if fully set forth herein.

2. The term of the Lease shall end on September 30, 2024, and is subject to the Tenants' option to extend the term as therein contained.

3. The City's interest in the property described in Exhibit A attached hereto is not subject to liens for improvements made by the Tenants to or upon the real property affected by the Lease, and such liability is expressly prohibited as contemplated by Section 713.10 of the *Florida Statutes*.

4. This Memorandum of Lease Agreement is not a complete summary of the Lease and the provisions hereof shall not be used in interpreting provisions contained in the Lease. In the event of conflict between this Memorandum of Lease Agreement and the provisions of the Lease, the Lease shall control.

IN WITNESS WHEREOF, the parties hereto have executed this Memorandum of Lease Agreement as of the date indicated below.

HANGAR LEASE AGREEMENT

ORMOND BEACH MUNICIPAL AIRPORT

THIS HANGAR LEASE AGREEMENT is entered into by and between the **CITY OF ORMOND BEACH**, a Florida municipal corporation ("the City"), and **STEPHEN B. SEARLE, JR.** and **DIANE L. SEARLE**, husband and wife ("the Tenants").

W I T N E S S E T H :

WHEREAS, the City is the owner and operator of the Ormond Beach Municipal Airport ("the Airport"), and

WHEREAS, within the boundaries of the Airport are located four (4) "Parcels" available for hangar development and designated as such on the approved Airport Layout Plan for the Airport, and

WHEREAS, the City desires to lease one (1) of the "Parcels" to the Tenants for use and development as a corporate aircraft hangar, now therefore,

THE PARTIES HERETO HEREBY COVENANT AND AGREE AS FOLLOWS:

ARTICLE 1

Leased Premises

The City hereby leases to the Tenants that certain parcel of real property situated at the Airport, and being more particularly described and depicted on Exhibit A hereto ("the Property").

ARTICLE 2

Term

2.1. Basic Term. The Basic Term of this Hangar Lease Agreement shall commence on the Effective Date provided in Article 7.8 hereof, and shall end on September 30, 2024.

2.2. Renewal Terms. Subject to not being in default under the terms of this Hangar Lease Agreement, the Tenants is hereby granted an exclusive, first option to renew this Hangar Lease Agreement for two (2) Renewal Terms of thirty (30) consecutive years each. The exercise of the option for one or both of the Renewal Terms must be made by notifying the City Manager of the City, in writing, of the Tenants' intent to renew, which notice must be received by the City Manager at least ninety (90) days prior to the expiration of either the Basic Term or the initial Renewal Term. All existing terms and provisions including, but not limited to, Rent, shall remain in full force and effect throughout each Renewal Term for which the Tenants exercises its option.

ARTICLE 3

Rights and Obligations of the Tenants

3.1. Rights of the Tenants. The Tenants shall have the following rights, subject to the terms, covenants and conditions of this Hangar Lease Agreement:

3.1.1. Construction of Improvements. The Tenants shall have the right to construct upon the Property those structures and other site improvements as set forth

on those documents comprising the final approved site plan, as approved by the City's Site Plan Review Committee, which final approved site plan is incorporated herein by reference.

3.1.2. Permitted Uses and Structures. The Tenants shall be permitted to use the Property and the aforedescribed improvements to be constructed thereon in a manner strictly consistent with the operations of the Airport. All aircraft fueling and maintenance shall be performed solely at the business premises of a Fixed Base Operator doing business on the Airport, or at a duly-licensed location off of the Airport. Any and all use of the Airport by the Tenants, outside of the Property, shall be in strict compliance with all applicable fee schedules and other regulations, rules or policies duly adopted by the City. The Tenants will make no unlawful use of the Property and will strictly comply with all laws governing the operation of the Airport.

3.1.3. Hours of Operation. The Tenants' hours of operation shall be subject to all applicable laws, but shall otherwise be at the sole discretion of the Tenants.

3.1.4. Quiet Enjoyment. The City represents that it is the owner of the Property, and that the Property is free of all encumbrances other than those set forth in the Quitclaim Deed to the Airport, a copy of which is attached hereto and incorporated herein by reference, and that the Tenants shall have the right of quiet enjoyment and peaceful possession of the Property during the term of the Hangar Lease Agreement.

3.1.5. Encumbering Leasehold Estate. The Tenants shall have the right to mortgage, pledge, secure or otherwise encumber its leasehold interest created by this Hangar Lease Agreement. The holder of a mortgage, pledge, security interest or other

encumbrance upon the Tenants' leasehold interest shall have the same rights and benefits of the Tenants to the extent the Tenants may grant or convey them, provided that the City is first given notice of such mortgage, pledge, security interest or other encumbrance, and the City's governing body consents to, or acknowledges, the same, which consent or acknowledgement will not be unreasonably withheld. No mortgage, pledge, security interest or other encumbrance upon the Tenants' leasehold interest shall extend beyond the term of this Hangar Lease Agreement.

The City agrees that it will, upon approval by its governing body and the reasonable request of the Tenants, execute and deliver its consent or acknowledgement (as may be requested from time to time) to the holder of a mortgage, pledge, security interest or other encumbrance of the Tenants' leasehold interest to accommodate the Tenants in obtaining financing for the development and construction of the structures and improvements contemplated herein, provided that this provision will not be deemed to require the City to join in the obligation and, provided further, that no such consent or acknowledgement will in any manner extend the obligation or liability of the City under the present terms of this Hangar Lease Agreement.

In the event the Tenants mortgages, pledges, secures, or otherwise encumbers its leasehold interest in compliance herewith, then so long as any such mortgage, pledge, security interest, or other encumbrance remains unsatisfied, the following provisions shall apply:

3.1.5.1. The City, upon serving any Notice of Default upon the Tenants, in accordance with the terms of this Hangar Lease Agreement, shall also serve

a copy of such Notice upon the holder of such mortgage, pledge, security interest or other encumbrance, at the last address provided to the City by the holder of such mortgage, pledge, security interest or other encumbrance.

3.1.5.2. In the event the Tenants become in default under the terms of this Hangar Lease Agreement, the holder of any such mortgage, pledge, security interest or other encumbrance shall have the right to remedy such default, or cause the same to be remedied, within any applicable specified time period set forth in this Hangar Lease Agreement, and the City shall accept such performance by or at the instance of such holder as if the same had been remedied or performed by the Tenants.

3.1.5.3. For the purposes of this Article, no event of default shall be deemed to exist, under the terms of this Hangar Lease Agreement, with respect to the performance or work required to be performed, or of acts to be done, or of conditions to be remedied, so long as the Tenants shall have taken good faith steps to perform, do, or remedy the same, within any applicable specified time period set forth in this Hangar Lease Agreement, and the same are completed with due diligence and continuity as provided in this Hangar Lease Agreement.

3.1.6. Rights to Improvements Upon Termination. The Tenants shall have the right to remove any and all nonpermanent structures, equipment, fixtures, and personal property installed or placed by it, at its expense, on the Property, so long as such removal can be accomplished without damage to the remaining property. All permanent improvements on the Property, including buildings and utilities and other appurtenances are the

property of the Tenants, but shall become the property of the City upon the termination of this Hangar Lease Agreement, without further action by the City.

3.1.7. Access to Airport. The Tenants and their officers, agents, employees, contractors, and authorized visitors, shall at all times be granted access to the Airport by way of appropriate taxilanes as shown on the approved Airport Layout Plan, as the same now exists or may hereafter be amended, together sufficient for full utilization of the improvements to be constructed by the Tenants at no additional cost or expense, save and except for the rental payments hereafter set forth. In the event the City moves or alters taxilanes in the future, in a manner which effectively precludes access to the Property from either the Airpark or the Airport, any additional expense or cost necessarily incurred by the Tenants to provide access for full utilization of the improvements to be constructed shall be reimbursed to the Tenants within ninety (90) days after the Tenants submit invoices for the expenses or costs so incurred.

3.1.8. Right to Assign and Sublet. Except as provided herein, the Tenants shall not assign, hypothecate, or otherwise transfer its interest in this Hangar Lease Agreement and the estate created by this Hangar Lease Agreement without the prior written consent of the City, which consent shall not be unreasonably withheld.

3.1.8.1. In the event of an assignment of this Hangar Lease Agreement by the Tenants, the Property will be used only for the purposes permitted under this Hangar Lease Agreement.

3.1.8.2. For the purposes of this paragraph, the sale, assignment, transfer, or other disposition of any of the issued and outstanding capital stock of the

Tenants which shall result in changing the control of the Tenants, shall be construed as an assignment of this Hangar Lease Agreement. Control, in provisions of this Hangar Lease Agreement relating to assignment, means 50% or more of the voting power of the Tenants. Neither a transfer of stock that does not result in a change in control of the Tenants, nor a devolution by will or otherwise on death, nor transfer to a member or members of the family of any stockholder, nor transfer to a personal representative on death or incompetence, shall constitute an assignment under this Hangar Lease Agreement.

3.1.8.3. The Tenants shall have the right to sublet all of the Property or any part thereof or the improvements thereon or both to any individual or entity, for purposes related or beneficial to the operation and maintenance of the Property, provided the following provisions are complied with:

3.1.8.3.1. The Tenants shall not let nor sublet all or any part of the Property, or improvements thereon, to any individual or entity without first obtaining the written consent of the City, which consent shall not be unreasonably withheld. Recognizing that it is to the mutual benefit of the City and the Tenants that the Airport acquire and maintain a positive community image, the City shall have the right to withhold such consent with respect to any prospective sublessee whose business operations or practices are deemed by the City to be contrary to the ordinances or policies of the City of Ormond Beach. Should the City consent to the sublease of all or any part of the Property, the Tenants do hereby guarantee payment of the rental payments herein reserved and agrees that no sublease agreement

entered in accordance herewith shall release or relieve the Tenants from its obligations under this Hangar Lease Agreement.

3.1.8.3.2. The length of the term of any sublease shall not exceed the Term of this Hangar Lease Agreement and any extensions thereof. Each sublease shall contain a provision, satisfactory to the City, requiring the sublessee to attorn to the City if the Tenants default under this Hangar Lease Agreement.

3.2. Obligations of the Tenants. The Tenants shall be required to comply with the following obligations, subject to the terms, covenants and conditions of this Hangar Lease Agreement:

3.2.1. Construction and Maintenance of Improvements.

3.2.1.1. The Tenants shall have the obligation to construct upon the Property those structures and other site improvements as set forth on those documents comprising the final approved site plan, as approved by the City's Site Plan Review Committee, which final approved site plan is incorporated herein by reference.

3.2.1.2. Before commencing construction of any of the specified structures or other on-site and off-site improvements, the Tenants shall execute, record in the public records of Volusia County, Florida, and deliver to the City a payment and performance bond with a surety insurer authorized to do business in Florida as a surety. The bond shall be consistent, both in form and content, with the provisions of Section 255.05, *Florida Statutes*, as the same shall exist on the date of execution of this Hangar Lease Agreement.

3.2.1.3. The Tenants will notify the City in writing of the Tenants' intent to commence construction of any or all of the specified structures or other on-site or off-site improvements. Such notice shall be provided at least five (5) business days prior to the commencement of such construction or the delivery of any material. The Notice shall specify the specific location and nature of the proposed structures and/or improvements. The City shall have the right to inspect the Property with respect to any construction work on the Property at any time.

3.2.1.4. The Tenants shall deliver to the City certificates of insurance evidencing coverage for "builders' risk," and coverage for workers' compensation insurance covering all persons employed in relation to any work conducted on the Property and with respect to whom death or bodily injury claims could be assessed against the City, the Property, or both. The Tenants shall maintain and keep in force, and pay all premiums required to maintain and keep in force such insurance at all times during which such work is in progress.

3.2.1.5. The Tenants shall be solely responsible for determining the condition of the soil, subsoil, subsurface, and all other conditions of the Property. The City agrees to make available to the Tenants any and all reports relative thereto which it may have in its possession at the time of execution of this Hangar Lease Agreement.

3.2.1.6. The Tenants may grant to public entities, public service corporations, or other third parties, rights-of-way or easements upon, over, under, and across the Property for purposes of installing and maintaining utilities serving the Property such

as telephone, television, electricity, water, sanitary and storm sewers, and for other purposes which are deemed necessary or desirable by the Tenants for the development, operation, or maintenance of the Property, provided that the City has previously approved the location for such rights-of-way or easements, which approval shall not be unreasonably withheld. The City shall join with the Tenants in granting all such easements.

3.2.1.7. Once construction of the structures and/or improvements commences, the Tenants will, with all due diligence, prosecute such construction to completion. All work shall be performed in a good and workmanlike manner, and shall substantially comply with the final plans and specifications approved by the City. The Tenants shall, from time to time, provide the City with reports describing the progress of construction. Upon substantial completion of the structures and improvements, the Tenants will notify the City in writing of such completion.

3.2.1.8. The Tenants will pay or cause to be paid the total cost and expense of the construction of the structures and improvements, including without limitation all impact fees associated with the development, construction and operation of the Property. The Tenants may apply to the City for a credit against applicable impact fees for off-site work performed by the Tenants on behalf of the City. Any such application will be given due consideration under the terms of all applicable ordinances. Payment of such costs and expenses, or any part thereof, by the Tenants shall not be construed as rent payable hereunder. The Tenants shall not suffer or permit to be enforced against the Airport or the Property, or any part of either, any mechanic's, materialman's, contractor's, or subcontractor's lien arising from

the work. However, the Tenants may in good faith and at its own expense contest the validity of any such asserted lien, claim, or demand, provided it has furnished the bond required by applicable law. The Tenants shall hold harmless and indemnify the City against all liability and loss of any type arising out of any work performed on the Property or elsewhere on the Airport by the Tenants, together with reasonable attorney's fees and all costs and expenses incurred by the City in negotiating, settling, defending, or otherwise protecting against such claims. The City's interest in the Property is not subject to liens resulting or arising in connection with improvements made by the Tenants upon the Property, and such liability is expressly prohibited as contemplated by Section 713.10 of the *Florida Statutes*. The Tenants shall cause a Memorandum of this Hangar Lease Agreement expressly prohibiting such liability to be filed in the public records of Volusia County, Florida, in the form attached hereto and incorporated herein by reference.

3.2.1.9. If the Tenants do not cause to be recorded the bond described under Section 713.23 of the *Florida Statutes*, or otherwise protect the Property and the Airport under any alternative or successor statute, and final judgment is rendered against the Tenants by a court of competent jurisdiction for the foreclosure of a mechanic's, materialman's, contractor's or subcontractor's claim, and if the Tenants fail to stay the execution of the judgment by lawful means or pay the judgment, the City shall have the right, but not the duty, to pay or otherwise discharge, stay, or prevent execution of any such judgment or lien or both. The Tenants shall reimburse the City for all sums paid by the City under this section, together with reasonable attorney's fees and costs incurred by the City.

3.2.1.10. During construction of the structures and improvements, the Tenants shall give the City written notice of any material changes in the final plans and specifications approved by the City, prior to incorporating the changes into the construction of such improvements. The City acknowledges that it is common practice in the construction industry to make minor technical changes during the course of construction on substantial projects. Changes that do not materially alter the final plans and specifications previously approved by the City do not constitute a breach of the Tenants' obligations under this Hangar Lease Agreement. Upon completion of the structures and improvements, the Tenants shall furnish the City with "as built" drawings of such structures and improvements showing all changes in the final plans and specifications made during the course of construction.

3.2.1.11. The Tenants shall, throughout the term of this Hangar Lease Agreement and any extensions thereof, at its own cost and expense, keep and maintain the Property, including all structures and improvements of every kind which may be a part thereof, and all appurtenances thereto or hereafter constructed thereon, in sanitary condition and good repair and, unless otherwise provided herein, restore and rehabilitate any improvements of any kind which may be destroyed or damaged by fire, casualty, or any other cause whatsoever. The City shall not be obligated during the term of this Hangar Lease Agreement or any extension thereof, to make any repairs, replacements, or renewals of any kind, nature, or description, whatsoever to the Property or any structures or improvements thereof.

3.2.2. Taxes, Assessments and Other Charges. The Tenants shall pay all taxes, assessments, whether general or special, and governmental charges of any

kind whatsoever, levied against the Property, against the structures or other improvements, or against the leasehold estate, or all or some thereof. The Tenants shall further pay the full cost of all utilities and other charges incurred in the operation, maintenance, use and occupancy of the Property. All payments required by this paragraph shall be promptly made on or before the date due. The Tenants shall have the right, at its expense and in good faith, to contest any such taxes, assessments and other charges in the manner allowed by law. The Tenants shall furnish to the City receipts or other appropriate evidence of payment of all taxes, assessments and other charges payable by the Tenants.

3.2.3. Insurance and Indemnification.

3.2.3.1. Insurance - General. Through out the term of this Hangar Lease Agreement and any extension thereof, at the Tenants' sole cost and expense, the Tenants shall keep or cause to be kept insured all structures located on or appurtenant to the Property and their contents against loss or damage by fire and such other risks as are now or hereinafter included in an extended coverage insurance policy, including vandalism and malicious mischief, in common with respect to similar facilities. The amount of insurance shall be sufficient to prevent either the City or the Tenants from becoming a co-insurer under the provisions of such insurance policies, but in no event shall the amount be less than one hundred (100%) percent of the actual replacement cost of all structures (herein called the "Full Insurable Value"). The City shall not carry any insurance the effect of which would be to reduce the protection or payment to the Tenants under any insurance that this Hangar Lease Agreement obligates the Tenants to carry. The Full Insurable Value of insured structures shall be

determined by agreement. If any dispute as to the Full Insurable Value cannot be resolved by agreement, the City may, but not more often than once every twelve months, request the carrier of the insurance to determine the Full Insurable Value as defined in this provision, and the resulting determination shall be conclusive between the parties for the purpose of this paragraph. The Tenants may include the holder of any mortgage on the leasehold as a loss payee under such insurance.

3.2.3.1.1. Proceeds of Fire and Extended Coverage Insurance. The City shall, at the Tenants' cost and expense, cooperate fully with the Tenants to obtain the largest possible recovery in the event of a casualty, and all policies of fire and extended coverage insurance required by Paragraph 3.2.3.1 shall provide that the proceeds shall be paid to the Tenants to be held in trust for the purpose of repairing or reconstructing damaged or destroyed improvements. Any insurance proceeds remaining after complying with the provisions of this Hangar Lease Agreement relating to maintenance, repair, and reconstruction of improvements shall be the Tenants' sole property.

3.2.3.1.2. Damage or Destruction of Improvements. The Tenants shall promptly notify the City of any fire or other casualty occurring on the Property which causes substantial damage or destruction to improvements located thereon. In the event any structure or other improvement on the Property is damaged or destroyed by such a casualty, the Tenants shall be obligated to restore such structure or other improvement to a condition comparable to that which existed prior to such casualty, at its sole cost and expense. Insurance proceeds resulting from a casualty shall be first

devoted to the repair or reconstruction of any damage caused by such casualty. The damage or destruction of any structure or other improvement located upon the Property shall not release the Tenants from any obligation to the City hereunder, except that rental payments payable under this Hangar Lease Agreement may be reasonably abated during any period that damage, repairs, or reconstruction prevents the Tenants from utilizing the Property or any substantial portion thereof.

3.2.3.1.3. Builder's Risk Coverage. Before commencement of any construction, the Tenants shall procure and shall maintain in force until completion and acceptance of the work, "all risk" builder's risk insurance, including vandalism and malicious mischief, in a form and with a company reasonably acceptable to the City, covering improvements in place and all materials and equipment at the job site furnished under contract, but excluding contractors, subcontractors, and construction manager's tools and equipment and property owned by contractors' or subcontractors' employees.

3.2.3.1.4. Liability Insurance. Throughout the term of this Hangar Lease Agreement and any extension thereof, at the Tenants' sole cost and expense, the Tenants shall keep or cause to be kept in force, for the mutual benefit of the City and the Tenants, comprehensive broad form general public liability insurance against claims and liability for personal injury, death, or property damage arising from the use, occupancy, or condition of the Property, improvements thereon, or adjoining areas, providing protection of at least $1,000,000 for any one accident or occurrence for death or bodily injury

and at least $250,000 per accident or occurrence for property damage. This protection is to specifically include coverage for contractual liability, including obligations outlined in this Hangar Lease Agreement. Throughout the term and extensions thereof, the Tenants shall keep or cause to be kept in force, workers' compensation insurance covering all its employees and with respect to whom death or bodily injury claims could be assessed against the City or the Property. All coverages required hereunder shall be in a form and amount consistent with the City's adopted minimum insurance requirements as the same now exist or may hereafter be amended and, in the event of any conflict between this Hangar Lease Agreement and the said requirements, the said requirements shall prevail.

3.2.3.1.5. Policy Form and Content. All insurance required by the express provisions of this Hangar Lease Agreement shall be carried only in responsible insurance companies licensed to do business in the State of Florida on an admitted basis and any insuring company is required to have a minimum financial rating of (A), Class VIII, in the latest edition of "Best's Key Rating Guide," published by A. M. Best & Co., Inc. All such policies and certificates of insurance shall contain language, to the extent obtainable, to the effect that (1) no cancellation, non-renewal, nor reduction in coverage or other material change in the terms of the policy shall be effective unless the insurer first gives the City 60 days' prior written notice thereof (except for nonpayment of premium, which shall be 15 days), and (2) the policies are primary and not contributing with any insurance that may be carried by the City. The Tenants shall furnish the City with copies of such policies promptly upon receipt of them, or with certificates evidencing such insurance. The Tenants shall promptly

replace any expired or cancelled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACCORD FORM 25-S (7/90). At the expiration of the lease Term and any extension thereof, provided the City desires to continue in effect the existing insurance coverages and such coverages are assignable, the City shall reimburse the Tenants pro rata for all prepaid premiums on insurance required to be maintained by this Hangar Lease Agreement, and the Tenants shall assign all its right, title, and interest in that insurance to the City. The Tenants may affect for its own account any insurance not required under this Hangar Lease Agreement. The Tenants may provide by blanket insurance covering the Property and any other location or locations any insurance required or permitted under this Hangar Lease Agreement provided it is acceptable to the Tenants' mortgagees and the City. If the Tenants fail or refuse to procure or maintain insurance as required by this Hangar Lease Agreement or fails or refuses to furnish the City with the required proof that the insurance has been procured and is in force and paid for, the City shall have the right, at its election, and on ten (10) days' prior written notice, to procure and maintain such insurance. The premiums paid by the City shall be treated as additional Rent due from the Tenants to be paid with the next succeeding quarterly installment following the date on which such premiums were paid by the City.

3.2.3.2. Indemnification. The Tenants shall indemnify the City and hold the City harmless from and against every claim or demand with respect to bodily injury (including death), property damage, or nuisance caused or alleged to be caused by the Tenants (including the Tenants' officers, employees, agents, representatives, subtenants, and invitees) or otherwise arising out of or connected with the Tenants' use or

occupancy of the Property. The Tenants shall indemnify the City and hold the City harmless from and against any fine, penalty, liability, or cost arising out of the Tenants' violation of any law, ordinance, or governmental regulation applicable to the Tenants' development, use, or occupancy of the Property or the Tenants' activities on, about, or in connection with the Property. The Tenants are not liable to the City for the correction or continuation of any violation of any law, ordinance, or governmental regulation which violation exists on the date hereof and is not created by the Tenants. To the extent allowed by law, the City shall indemnify and hold the Tenants harmless from and against all claims which may be made against the Tenants by reason of any act or omission of the City, its employees, agents, or invitees, except that this indemnification shall not extend to protect the Tenants against the Tenants' own negligence or that of its officers, agents, employees, representatives, subtenants, and invitees.

3.2.4. Construction and Performance Standards. In constructing any structures or other improvements on the Property, or off-site on the Airport, and in its operations on the Property and on the Airport, the Tenants shall strictly comply with all applicable provisions of federal, state, county, and municipal laws, ordinances, regulations, rules, and policies governing the Property and the Airport.

3.2.5. Non-Discrimination. The Tenants agrees and covenants:

3.2.5.1. That no person, on the basis of race, color, gender, national origin, or physical or mental disability, shall be excluded from participation in, denied the benefits of, or otherwise subjected to discrimination in the use of the structures and improvements to be constructed;

3.2.5.2. That in the construction of any structures and improvements on, over or under the Property, and the furnishing of services thereat, no person, on the basis of race, color, gender, national origin, or physical or mental disability, shall be excluded from participation in, denied the benefits of, or otherwise be subjected to discrimination;

3.2.5.3. That it will use the Property in strict compliance with all other requirements imposed by or pursuant to Title 49, *Code of Federal Regulations*, Department of Transportation, Subtitle A, Office of the Secretary, Part 21, non-discrimination in federally-assisted programs of the Department of Transportation-Effectuation of Title VI of the Civil Rights Act of 1964, and as such Regulations may be amended; and

3.2.5.4. That it will conduct its programs and operate its facilities in accordance with the requirements of Section 504 of the Rehabilitation Act of 1973 (29 *U.S.C.* §794), and of the Americans With Disabilities Act, and will assure that no qualified disabled person shall, solely by reason of his or her disability, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination, including discrimination in employment; the Tenants further assure that its programs will be conducted and its facilities operated in compliance with the requirements imposed by or pursuant to 49 *C.F.R.*, Part 27.

3.2.6. Maintenance of the Property. The Tenants, at its sole expense, will cause the Property and all structures and other improvements constructed thereto to be maintained in good order and condition, normal wear and tear excepted, and will make all

necessary repairs, replacements and renewals thereof, including the interior and the exterior, structural and non-structural, ordinary and extraordinary, and foreseen and unforeseen.

3.2.7. Permits. The Tenants shall be responsible for obtaining all licenses, permits and other authorizations necessary in order to develop and utilize the Property for the use contemplated by this Hangar Lease Agreement.

3.2.8. Alterations. The Tenants shall make no alterations or additions to the structures or improvements on the Property until after any and all necessary plans and specifications therefor have been submitted to and approved by the City. Any such alterations or additions shall become the property of the City upon the termination or cancellation of this Hangar Lease Agreement.

3.2.9. Obstruction of Airspace. The Tenants shall restrict the height of structures, objects of natural growth and other obstructions on the Property to such a height so as to strictly comply with *Federal Aviation Regulations*, Part 77, as the same currently exists or as may hereafter be amended.

3.2.10. Airport Interference. The Tenants expressly agrees for itself, its successors and assigns, to prevent any use of the demised premises which would interfere with or adversely affect the operation or maintenance of the Airport or otherwise constitute an Airport hazard.

ARTICLE 4

Rights and Obligations of the City

4.1. Rights of the City.

4.1.1. Right of Entry and Inspection. The City shall have the right to enter the Property and the structures thereon during normal business hours for the purpose of inspecting the same and for performing any and all acts with reference to the Property which the City is obligated or authorized to do as set forth herein. Unless the City determines there to be an immediate threat to life or property, the City shall give the Tenants no less than twenty-four (24) hours' written notice of its intent to enter and inspect. The notice provided by the City shall state the date and approximate time the entry and inspection is to occur. In the event of an immediate threat to life or property, the City may take such action as is reasonably necessary for the protection of persons and property located on or in the immediate vicinity of the Property.

The City shall have the right and the obligation for its own benefit, for the benefit of the Tenants, or for the benefit of other tenants or persons using the Airport, to maintain existing utility, mechanical, electrical and other systems and services as is necessary and, from time to time, to construct or install new systems on or to the Property. Such action will not unreasonably interfere with the use or occupancy of the demised premises by the Tenants. The City shall restore the Property to the condition existing prior to such action at no expense to the Tenants. In the event new systems or expanded systems on or to the Property diminish the fair

market value of the Tenants' leasehold interest, the Tenants shall be entitled to a pro rata reduction in the rental payments otherwise required hereunder.

4.1.2. Right of Entry - Construction. The City shall have the right to inspect the contemplated structures and improvements during construction in order to ascertain that they are in accordance with the approved plans, with standards approved by the City and in compliance with all applicable requirements of law.

4.2. Obligations of the City.

4.2.1. Ingress and Egress. The City shall provide appropriate ingress and egress between the Airport and the Property by existing taxilanes or any future taxilanes as proposed on the approved Airport Layout Plan, as the same currently exists or may be hereafter amended.

4.2.2. Operation and Maintenance of Airport. So long as it shall remain the owner of the Airport, the City shall, either directly or by independent contract, continue to operate and maintain all facilities on and at the Airport, including but not limited to taxilanes, roadways and all facilities in existence at the time of execution hereof.

ARTICLE 5

Rental and Other Payments

5.1. Initial Rent and Annual Increases. The Tenants shall pay rent at an initial rate of ten (10.0%) percent of the appraised value of the property, which amount is currently, seven hundred fifty-seven dollars ($757.00), plus applicable sales tax subject thereto, in accordance with the terms set forth below. Subject to the limitations set forth below, the rental

rate shall be adjusted annually at up to a maximum of four (4.0%) percent of the then-existing rental amount.

5.2. Payment of Rentals.

5.2.1. During the construction of the structures and other improvements, the Tenants shall pay no rent to the City.

5.2.2. Beginning with the first day of the month immediately following the issuance of a Certificate of Occupancy for the structures and other improvements to be constructed, the Tenants shall pay the rent specified in Paragraph 5.1.

5.2.3.1. The rental payment herein required shall be adjusted annually with reference to the Consumer Price Index ("the C.P.I."). The amount by which the rental payment is adjusted shall equal the product of (1) the rental paid for the twelve (12) months immediately preceding the adjustment date and (ii) the percentage change, if any, in the C.P.I. determined by comparing the C.P.I. for the third month preceding the adjustment date to the C.P.I. for the third month preceding the prior adjustment date. In no event, however, shall the rental payment payable in any succeeding year increase or decrease from the prior year's rental by more than four (4%) percent of the rental payment paid during such preceding year, exclusive of sales tax.

5.2.3.2. In addition to the annual adjustment of the rental payment herein required, the parties shall have the land constituting the Property, less the improvements constructed or installed thereon, including without limitation all structures and roads, reappraised by an M.A.I. appraiser each ten (10) years and the rental payment for the

succeeding year adjusted, if necessary, to be at least ten (10%) percent of said appraised value. Said decennial adjustment of the rental payment herein required for the lease year following each such re-appraisal of the Property shall be calculated based upon the rental payment herein required for such year as adjusted with reference to the C.P.I. in accordance with the preceding Paragraph. If the parties are unable to agree on an M.A.I. appraiser, each party shall select one M.A.I. appraiser, who shall then designate an M.A.I. appraiser to perform the work. The cost of the appraisal shall be shared equally between the parties.

5.2.3.3. The City shall use all rental payments paid hereunder exclusively for improvements to the Ormond Beach Municipal Airport, with auditable records being kept by the City. The City's failure to comply with the foregoing shall in no way whatsoever impair or affect the Tenants' tenancy or rights hereunder.

5.2.3.4. As used in this Article, "C.P.I." shall mean the Consumer Price Index for all urban consumers, U.S. city average, all items (1982 = 100) not seasonally adjusted, published and issued by the Bureau of Labor Statistics of the United States Department of Labor (the "Bureau of Labor Statistics"). If the Index in its present form is discontinued or if the basis on which it is now calculated shall be materially revised, the parties hereby shall make an appropriate conversion to such revised Index on the basis of conversion factors published by the Bureau of Labor Statistics; if such conversion factors are not obtainable, either party hereby may request the Bureau of Labor Statistics to provide an appropriate conversion or adjustment which shall be applicable and binding on the parties hereto; if the Bureau of Labor Statistics shall be unable or unwilling to provide such appropriate conversion or

adjustment, then another index recognized as authoritative shall in good faith be substituted by the mutual agreement of the City and the Tenants.

5.2.4.5. The rental payments required herein may be paid either annually, in advance, or in equal monthly installments. If annual advance payments are elected, the first such payment shall be made as required by Paragraph 5.2.2. and shall be on a pro-rata basis for the period of that month through September 30. Subsequent payments shall be due each October 1 and shall be paid by October 15. If monthly installments are elected, the rental payments required herein shall become due and payable on the first day of the month on which payment is due and shall be paid within fifteen (15) days from the due date throughout the term of this Hangar Lease Agreement, including any renewal. If the Tenants fail to timely tender monthly rental payments, the City shall give the Tenants written notice of default and the Tenants shall have thirty (30) days from the date thereof to remedy such default. Notice shall also be given in writing to any holder of any mortgage, pledge, security interest or other encumbrance upon the Tenants' leasehold interest, which holders have been previously identified to the City. Any rental payment tendered more than thirty (30) days past due shall be paid together with a late penalty in the amount of five (5%) percent of said payment, if said late rental payment is accepted by the City.

5.3. No Other Rental Payments. The Tenants shall have no obligation to make any additional rental payments other than those set forth above.

5.4. Non-Waiver. The payment or acceptance of rentals by the parties hereto for any period after default of any of the terms, covenants and conditions herein contained

to be performed, kept and observed by said parties shall not be deemed as a waiver of any rights on the part of either of them to terminate this Hangar Lease Agreement for any subsequent failure or for the continued failure by the other party so to perform, keep and observe the terms, conditions, or covenants hereof to be performed, kept and observed by it. No waiver by either party of any terms of this Hangar Lease Agreement to be kept, performed and observed by the other party shall be construed to be or act as a waiver of any subsequent default of that party.

5.5. Utility Charges. The Tenants shall arrange and pay for all utility services (including, but not limited to, water, wastewater, stormwater, electricity, gas, telecommunications, and solid waste) used or consumed upon the Property by the Tenants or their sublessees, and shall indemnify the City and hold the City harmless from and against any charge, lien, claim or demand arising out of the use or consumption of such utilities by the Tenants or their sublessees.

5.6. Impact Fees. The Tenants shall be responsible for the payment of all applicable City and County impact fees at the time of issuance of a building permit, subject to any credits against such fees for off-site improvements constructed by the Tenants and allowable in accordance with this Hangar Lease Agreement and the relevant impact fee ordinances of the City and County.

ARTICLE 6

Default and Termination

6.1. Default.

6.1.1. Tenants' Default. Each of the following events shall be a default by the Tenants and a breach of this Hangar Lease Agreement:

6.1.1.1. Failure to Perform Lease Covenants. Abandonment or surrender of the Property or of the leasehold estate, or failure or refusal to pay when due any installment of Rent or any other sum required by this Hangar Lease Agreement to be paid by the Tenants, or to perform as required by any other covenant or condition of this Hangar Lease Agreement;

6.1.1.2. Attachment or Other Levy. The subjection of any right or interest of the Tenants to attachment, execution, or other levy, or seizure under legal process, if not released within thirty (30) days;

6.1.1.3. Appointment of Receiver. The appointment of a receiver to take possession of the Property or the structures and/or improvements thereon or of the Tenants' interest in the leasehold estate or of the Tenants' operation of the Property for any reason, including but not limited to, assignment for the benefit of creditors or voluntary or involuntary bankruptcy proceedings, but not including receivership pursuant to any mortgage encumbering the leasehold estate permitted by provisions of this Hangar Lease Agreement or instituted by the City, the event of default being not the appointment of a receiver at the City's instance but the event justifying the receivership, if any;

6.1.1.4. Bankruptcy. The assignment by the Tenants for the benefit of creditors or the filing of a voluntary or involuntary petition by or against the Tenants under any law for the purpose of adjudicating the Tenants as bankrupt; or for extending time for payment, adjustment, or satisfaction of the Tenants' liability; or for reorganization, dissolution, or arrangement on account of or to prevent bankruptcy or insolvency; unless the assignment or proceeding, and all consequent orders, adjudications, custodies, and supervisions are dismissed, vacated, or otherwise permanently stayed or terminated within thirty (30) days after the assignment, filing, or other initial event.

6.1.1.5. Default in Mortgage Payment. Default or delinquency in the payment of any loan secured by a mortgage permitted by this Hangar Lease Agreement to be placed by the Tenants against the leasehold estate created hereunder; and

6.1.1.6. Other Acts. Any other act or omission designated as an event of default under this Hangar Lease Agreement.

6.1.2. Notice and Right to Cure. Notwithstanding any contrary provisions in this Hangar Lease Agreement, it is agreed that as a precondition for pursuing any remedy for an alleged default by the Tenants, the City shall give notice of default to the Tenants and to the holder of any mortgage, or instrument in the nature thereof, encumbering the leasehold estate. Each notice of default shall specify in detail the alleged event of default and the required remedy.

6.1.2.1. Mortgagee's Right to Cure Default. Upon the occurrence of any default hereunder the Tenants, and after expiration of any applicable grace

period provided hereunder for the Tenants to cure such default, the holder of any mortgage or other instrument in the nature thereof encumbering the leasehold estate created hereunder ("the Leasehold Mortgagee"), shall have the right, at its election, but not the obligation, to (i) cure or remedy any such default within an additional grace period equal to the period allowed the Tenants to cure such default; and/or (ii) to exercise its rights under the applicable mortgage instrument to obtain possession of the Property (including by seeking the appointment of a receiver) by instituting, prosecuting, and completing foreclosure proceedings to acquire the Tenants' interest under this Hangar Lease Agreement. Neither the Leasehold Mortgagee's right to cure any such default by the Tenants or the exercise of such right shall constitute an assumption by the Leasehold Mortgagee of the Tenants' obligations to construct structures and other improvements, provided, however, that the Leasehold Mortgagee, upon taking possession of the Property or initiating foreclosure proceedings, shall perform and comply with all other covenants and conditions of this Hangar Lease Agreement requiring the payment of Rent or other sums by the Tenants. Notwithstanding the provisions of Paragraph 6.1.1.5 hereof, in the event of a default under any mortgage or other instrument in the nature thereof encumbering the leasehold estate, the holder of such mortgage or other instrument may succeed to the rights of the Tenants under this Hangar Lease Agreement, either through the prosecution of foreclosure proceedings or the acceptance of foreclosure proceedings or the acceptance of an assignment of this Hangar Lease Agreement from the Tenants in lieu of such foreclosure, at such holder's option.

6.1.2.2. The Tenants' Right to Cure Defaults. If the alleged default is nonpayment of rent, taxes, or other sums to be paid by the Tenants as provided

in this Hangar Lease Agreement, the Tenants shall have thirty (30) days after notice is given to cure the default. For the cure of any other default, the Tenants shall promptly and diligently after notice commence curing the default and shall have sixty (60) days after notice is given to complete such cure plus any additional period that is reasonably required to cure such nonmonetary default.

6.1.2.3. The City's Right to Cure the Tenants' Default. After expiration of any applicable time for curing a particular default or before the expiration of that time in the event of emergency, the City may, at the City's election, make any payment required of the Tenants under this Hangar Lease Agreement or any mortgage encumbering the leasehold estate, or perform or comply with any covenant or condition imposed on the Tenants under this Hangar Lease Agreement or any such mortgage, and the amount so paid, plus the reasonable cost of any such performance or compliance, plus interest on such sum at the annual rate of one (1%) percent above the prevailing rate for commercial loans in effect at the Barnett Bank, Volusia County, Florida, on the day the City elects to make such payment, plus applicable sales tax, shall be deemed to be additional Rent payable by the Tenants with the next succeeding rental installment. No such act shall constitute a waiver of default or any remedy for default or render the City liable for any loss or damage resulting from any such act.

6.1.3. Rights of Subtenants. Any subtenant's possession or use of the Property or any part thereof, shall not be disturbed by the City or by any Leasehold Mortgagee so long as the subtenant is not in default under his sublease and such sublease was

previously approved by the City, and the subtenant attorns to the City and such mortgagee according to their respective interests.

6.1.4. City's Remedies. If any default by the Tenants shall continue uncured, following notice of such default as required by this Hangar Lease Agreement, for the period applicable to such default under the applicable provisions of this Hangar Lease Agreement, the City has the following remedies, in addition to all other remedies and rights provided by law or equity to which the City may resort cumulatively or in the alternative:

6.1.4.1. Termination. The City at its election may terminate this Hangar Lease Agreement by giving the Tenants notice of termination. On giving such notice, all of the Tenants' rights in the Property and all improvements thereon shall terminate. Promptly after notice of termination, the Tenants shall surrender and vacate the Property and all structures and other improvements thereon in favor of the City. The City shall re-enter and take possession of the Property, and all structures and other improvements. No subtenant qualifying under the non-disturbance provision of this Hangar Lease Agreement shall be ejected.

6.1.4.2. Recovery of Rent and Damages. Termination shall not relieve the Tenants from the payment of any sums due to the City or from any claim for damages previously accrued or then accruing against the Tenants. The Tenants may offset against any such sums due to the City or against any such claim for damages the difference between the fair market value of the land underlying the leasehold estate with the structures and other improvements and unburdened by this Hangar Lease Agreement and the fair

market value of such land without the structures and other improvements and unburdened by this Hangar Lease Agreement.

6.1.5. City's Default. The City shall not be considered to be in default under this Hangar Lease Agreement unless (1) the Tenants have given notice specifying the default and (2) the City has failed to cure the default, if curable, or to institute and diligently pursue reasonably corrective or ameliorative acts for noncurable defaults within sixty (60) days after receipt of the Tenants' notice of default. The Tenants shall have the right of termination for the City's default hereunder only after obtaining the consent of all Leasehold Mortgagees. The Tenants shall be entitled to damages consisting of the total cost of all structures and other improvements constructed by the Tenants upon the Property.

6.1.6. Unavoidable Delay or Default. Any prevention, delay, nonperformance, or stoppage in the construction of the structures or other improvements due to any of the following causes shall excuse nonperformance hereunder for a period equal to any such prevention, delay, nonperformance, or stoppage, except and excluding obligations imposed by this Hangar Lease Agreement for the payment of rent, taxes, insurance, or obligations to pay monies that are treated as rent. The causes referred to above are: strikes, lockouts, labor disputes, failure of power, acts of public enemies of the State, or of the United States, riots, insurrections, civil commotion, inability to obtain labor or materials or reasonable substitutes for either, governmental restrictions, regulations or controls, casualties not contemplated by the insurance provisions of this Hangar Lease Agreement, or other causes beyond the reasonable control of the party obligated to perform.

6.2. Termination.

6.2.1. Surrender of Property. At the expiration or earlier termination of the Term, unless otherwise extended as provided in this Hangar Lease Agreement, the Tenants shall surrender to the City the possession of the Property and all structures and other improvements thereon. The Tenants shall not be required to surrender any personal property owned directly by it, except property affixed to the Property, or any structures or other improvements thereon. The Tenants shall surrender the Property in good condition except as provided to the contrary in provisions of this Hangar Lease Agreement. Subject to the rights of any sublessee, all property that the Tenants is required to surrender shall become the City's property upon termination of this Hangar Lease Agreement free from any liens or encumbrances. All property that the Tenants is not required to surrender but that it does abandon shall, at the City's election, become the City's property at termination. If the Tenants fail to surrender the Property at the expiration or sooner termination of this Hangar Lease Agreement, the Tenants shall defend and indemnify the City from all liability and expense resulting from the delay or failure to surrender.

6.2.2. Indemnification. Upon termination of this Hangar Lease Agreement for whatever reason, to the extent allowed by law, the City shall indemnify the Tenants and hold the Tenants harmless from any claim, loss, damage, or expense arising out of the operation or occupation of the Property after the date of termination.

6.2.3. Holding Over. This Hangar Lease Agreement shall terminate without further notice upon expiration of the term unless the term is extended in

accordance herewith. Holding over by the Tenants after such termination shall not constitute a renewal or extension or give the Tenants any rights to the Property except as otherwise expressly provided in this Hangar Lease Agreement.

ARTICLE 7

Miscellaneous Provisions

7.1. Eminent Domain.

7.1.1. That Tenants acknowledge and agree that their relationship with the City under this Hangar Lease Agreement is one of landlord and tenant and no other relationship, either expressed or implied, shall be deemed to apply to the parties under this Hangar Lease Agreement. Termination of this Hangar Lease Agreement for any cause shall not be deemed a taking under any eminent domain or other law so as to entitle the Tenants to compensation for any interest suffered or lost to (i) any residual interest in the Hangar Lease Agreement, or (ii) any other facts or circumstances arising out of or in connection with this Hangar Lease Agreement.

7.1.2. In the event that part of the Property shall be taken or condemned pursuant to applicable law such that:

1. that part so taken includes any structure (or any part thereof) located upon the Property; or

2. the part so taken eliminates or significantly affects access to or by the public or users of the Airport; or

3. the entire Property is taken, then in any of those events, the Tenants shall have the option to terminate this Hangar Lease Agreement by written notice, return receipt requested, to the City as herein provided within thirty (30) days from the date of the taking.

In the event of a taking where the Tenants elect not to terminate or where the Tenants do not have a right of termination, the rental payments shall be reduced pro rata in accordance with the percentage of the Property taken as of the date thereof.

In any event, both parties shall have the right to pursue a condemnation award and shall cooperate with each other to do so with the Tenants being entitled to any award for loss of business, moving expenses and the taking of the structures or other improvements on the Property and the City being entitled to all other amounts including, but not limited to, all amounts awarded for remainderman land value.

7.2. Right of Flight Reserved. The City reserves unto itself, its successors and assigns, to the use and the benefit of the public, the right of flight over or the passage of aircraft in the airspace above the surface of the Property, together with the right to cause in said airspace such noise as may be inherent in the operation of aircraft now known or hereafter used for landing, take off, or operation of the Airport.

7.3. Effluent Irrigation. If, at any time after the Effective Date, the City is ready, willing and able to provide sewage effluent (reclaimed water) to the Property of a quality suitable for landscape irrigation in compliance with all applicable regulations, the City, upon approval by the Tenants, which approval shall not be unreasonably withheld, shall be allowed

access to the Property in order to enable the City to use the Property to provide an irrigation system through the use of such sewage effluent. To the extent possible, utilizing present irrigation technology, the Tenants shall use its best efforts to design the Property's landscape irrigation system so that it is capable of accepting and distributing such sewage effluent.

7.4. Attorney's Fees. In the event it is necessary to employ legal counsel to enforce or construe the provisions hereof, the party prevailing shall be entitled to collect and receive from the opposing party all costs and other expenses including a reasonable attorney's fee, whether litigation is instituted or not, including all costs and reasonable attorney's fees incurred on appeal of any lower court decision.

7.5. Application of Governing Law. This Hangar Lease Agreement shall inure to the benefit of, and is binding on, the heirs, executors, administrators, successors, and assigns of the City and the Tenants. This Hangar Lease Agreement shall be construed under the laws of the State of Florida, and any applicable laws of the United States of America.

7.6. Notices. All notices must be in writing. Notice is considered given either when delivered in person to the recipient or the date shown on the return receipt after deposit in United States mail in a sealed envelope or container, either registered or certified mail, return receipt requested, addressed as follows, or to any other address that the recipient may request in writing:

TO CITY: City of Ormond Beach
Attn.: City Manager
P. O. Box 277
Ormond Beach, FL 32175-0277

TO TENANTS: Stephen B. Searle, Jr. and Diane L. Searle
3949 Tano Drive
Ormond Beach, FL 32174

7.7. Prior Agreements. The Tenants acknowledge that they have reviewed this Hangar Lease Agreement, is familiar with its terms and have had adequate opportunity to review this Hangar Lease Agreement with legal counsel of the Tenants' choosing. The Tenants have entered into this Hangar Lease Agreement freely and voluntarily. This Hangar Lease Agreement contains the complete understanding of the parties with respect to the subject matter hereof. All prior understandings and agreements, oral or written, heretofore made between the parties are merged in this Hangar Lease Agreement, which along, fully and completely express the agreement between the Tenants and the City with respect to the subject matter hereof. No modification, waiver or amendment of this Hangar Lease Agreement or any of its conditions or provisions shall be binding upon the City or the Tenants unless in writing and signed by both such parties.

7.8. Effective Date. This Hangar Lease Agreement shall become effective upon the date executed by both parties hereto.

7.9. Approval. This Hangar Lease Agreement is subject to approval by the Federal Aviation Administration.

7.10. Brokerage Commission. The Tenants represent and warrant to the City that it has not caused any broker, agent, finder, or other party to be entitled to a fee or commission by reason of this Hangar Lease Agreement.

7.11. Governmental Restriction. This Hangar Lease Agreement shall be subordinate to the provisions of any governmental restrictions or records now in effect and shall be subordinate to the provisions of any existing or future agreement entered into between the City and the United States for the improvements or operations and maintenance of the Airport, and execution of which has been or may be required as a condition precedent to the expenditure of federal funds for the development of the Airport, provided, however, that the Tenants shall retain any remedy provided by Florida law and the terms of this Hangar Lease Agreement in the event of damage to the Tenants.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed by their respective authorized officers and their official seals affixed hereto on the date and year as indicated below.

Signed, sealed and delivered in presence of:

CITY OF ORMOND BEACH

EXHIBIT A

OFFICE LEASE

Landlord and Tenant agree to lease the Office in the Premises at the rent and for the term stated:

PREMISES:	72 Hangar Classroom - 512 sq. ft. (combined)	**OFFICE NO.:**	1 and 2
LANDLORD:	Ormond Aircraft Brokers LLC	**TENANT:**	Low and Slow Aviation LLC d.b.a. CubFlying.com
Date of Lease:	5/1/2023 DCH	Annual Rent: $	1,200.00
Lease Term:	~~Yearly~~ Three Years	Monthly Rent: $	100.00
Commencement Date:	5/1/2023	Security Deposit: $	100.00 DCH
Possession Date:	5/1/2023	Termination Date:	~~4/30/2024~~ 4/30/2026

1. Use and Occupancy

Tenant shall only occupy and use the office no. referenced above (the "Office") for Ground Instruction.

2. Inability to Give Possession

The failure of Landlord to give Tenant possession of the Office on the Commencement Date shall not create liability for Landlord. In the event that possession of the Office is not delivered on the Commencement Date due to the holdover of a tenant, or, if a newly constructed building, a final or temporary certificate of occupancy has not been obtained, or for any other reason which is not due to Landlord's acts or negligence, the validity of this Lease shall not be affected. Monthly Rent hereunder shall begin on the date that possession of the Office is delivered to Tenant and shall be prorated for that portion of the month in which possession is delivered. The Termination Date shall in no event be extended if delivery of possession is delayed. If, with Landlord's permission and consent, Tenant is to occupy the Office or another office space prior to the Commencement Date, Tenant's occupancy is subject to all the terms, conditions and provisions of this Lease except for the payment of Rent and Additional Rent. The intent of this Paragraph is to constitute "...an express provision to the contrary..." contained in New York Real Property Law Section 223-a.

3. Rent

A. Tenant shall pay Monthly Rent in full on the first day of each month of the Lease. Monthly Rent shall be paid in advance with no notice being required from Landlord. Tenant shall not deduct any sums from the Monthly Rent unless Landlord consents thereto in writing.

Upon signing this Lease, Tenant shall pay Landlord the first Monthly Rent due and the Security Deposit. The entire amount of rent due for the Lease Term is due upon signing this Lease; however, Landlord consents to the Tenant paying same in monthly installments provided there exists no defaults by Tenant under the terms of this Lease.

B. Additional Rent may include, but is not limited paid by Tenant to Landlord pursuant to this Lease and/or expenses stated hereinafter. Additional Rent is due and payable with the Monthly Rent for the next month after Tenant receives notice form Landlord that Additional Rent is due and payable.

4. Condition of Unit

Tenant acknowledges that Tenant is accepting the Office in its **"as is"** condition. Tenant further acknowledges that Tenant has thoroughly inspected the Office and has found the Office to be in good order.

5. Security

Tenant has deposited with the Landlord the Security Deposit to insure Tenant's compliance with all of the terms, provisions and conditions of this Lease. If Tenant is in default under any of the terms, conditions and provisions of this Lease, Landlord may apply the Security Deposit, in whole or in part, to any sums Tenant owes Landlord, (including Rent and Additional Rent), that Landlord expended or may have to expend due to Tenant's default, including but not limited to damages or insufficiency of rent in re-renting the Office. Within ten (10) days of the Termination Date, provided Tenant has vacated the Office and is not in default under any of the terms, conditions and provisions of this Lease and the physical condition of the Office is acceptable to Landlord upon surrender, the Security Deposit will be returned to Tenant at an address Tenant provides to Landlord.

6. Services

Provided Tenant is not in default of any of the terms, conditions and provisions of this Lease, Landlord shall provide: (a) elevator services on business days from 8 a.m. to 6 p.m., and at all other times, provide one (1) elevator on call; (b) water for ordinary bathroom purposes, however, if Tenant uses water for any other purpose or in high quantities (which decision is in Landlord's sole judgment), a water meter may be installed by Landlord at Tenant's cost and expense, the maintenance and repair of which shall be exclusively that of Tenant, and all charges for water consumption as shown by said meter shall be promptly paid by Tenant; (c) heat to the Office, on business days, as required by law; (d) if Landlord provides air conditioning, such air conditioning will be provided, on business days from 8 a.m. to 6 p.m., from May 15th to September 30th of each year and if Tenant requires air conditioning for other days and for other hours, Landlord will provide Tenant with same at Tenant's sole cost at the rates as per the rider attached (the "Services"). Tenant shall pay for Tenant's use of electricity in the Office directly with the utility company. Landlord reserves the right to interrupt the providing of the Services and other utilities, when Landlord deems it necessary for repairs, alterations, replacements or improvements to such Services or other utilities, the decision for such interruption and the length of such interruption shall be solely Landlord's.

7. Alterations

make no alterations to the Office. With Landlord's written consent, Tenant, at Tenant's sole cost and expense, may make alterations, installations and improvements (the "Alterations") to the Office provided they are non-structural in nature, which do not effect the Services, utilities or other operations or services of the Premises and which are done by contractors and sub-contractors approved by Landlord in every instance. Before making Alterations, Tenant shall obtain all permits, approvals, certificates required by any and all municipal authorities or other agencies having jurisdiction of the Premises and the Alterations and upon receiving same, Tenant shall deliver duplicate or certified copies to Landlord of each and every one. Tenant shall carry and cause to be carried by each contractor and sub-contractor, workmen's compensation, general liability, personal and property damage insurance, in such amounts as Landlord

requires, naming Landlord as insured and Tenant shall deliver evidence of such insurance to Landlord prior to Tenant's commencing the Alterations. Should a mechanic's lien be filed against the Office and/or Premises, for work done or claimed to have been done or materials supplied for Tenant or to the Office, Tenant shall pay or cause to be paid or file a bond in the amount stated in the mechanic's lien within thirty (30) days of said filing at Tenant's sole cost and expense. Any installation of materials, fixtures and the like shall become the property of Landlord upon such installation and shall remain in the Office upon Tenant's surrender of same. However, Landlord may relinquish such right of ownership to the installations by giving Tenant thirty (30) days written notice prior to the Termination Date of such relinquishment of ownership, in which event, they shall become Tenant's and must be removed upon the Termination Date. Nothing herein is meant to give Landlord any ownership rights in and to Tenant's trade fixtures, office furniture and equipment which can be easily moved. Upon the Termination Date and surrender of possession of the Office, Tenant shall remove all personal property and installations to which Landlord's ownership interest has been relinquished and Tenant shall immediately restore and repair the Office to that condition existing on the Commencement Date. Any and all property of Tenant remaining in the Office after the Termination Date shall be deemed abandoned by Tenant and Landlord may either retain such abandoned property or may remove such abandoned property at Tenant's expense

8. Maintenance and Repairs

Tenant shall maintain the Office in good condition. Tenant shall be responsible for any and all damage to the Office or any other part of the Premises resulting from Tenant's willful acts or negligence or the willful acts or negligence of Tenant's agents, employees, invitees or licensees or which may arise from any work done by of for Tenant or by Tenant's business operations. Tenant shall also be responsible for any damage to the Premises caused by Tenant's moving or removal of furniture, fixtures and/or equipment. Tenant shall only use contractor and/or sub-contractors for these repairs which have been approved by Landlord in every instance. In the event that Tenant fails or refuses to make said repairs , Landlord may do so at Tenant's expense which shall be Additional Rent. Landlord shall maintain in proper order and repair the exterior of the Premises as well as the common areas and the utilities servicing the Premises. Tenant shall give immediate notice to Landlord of any defect or interruption of service or condition. The responsibility of Tenant to pay Rent and Additional Rent shall not be reduced or abated by reason of injury to business or annoyance to employees of Tenant caused by repairs, alterations or improvements to the Premises or the Office. Likewise there shall be no liability on the part of the Landlord for such injury or annoyance as aforesaid. Should Landlord be in default under this Paragraph or any other Paragraph of this lease, Tenant's only remedy is to sue Landlord for breach of this Lease.

9. Window Cleaning

Tenant will not clean or caused to be cleaned any window in the Office from outside of the Office in violation of any of the provisions of the Labor Law or any law, provision or rule of any authority having jurisdiction thereof.

10. Damage, Fire or Other Casualty

In the case of fire damage or other damage to the Office not caused by Tenant, its agents, servants, employees, invitees and/or licensees, Tenant shall give Landlord immediate notice of same. (a) If the Office is partially damaged by fire or other casualty, Landlord shall repair the damage and the Rent and Additional Rent shall be apportioned from the day of the damage in relation to the portion of the Office that has been rendered unusable to the day that the Office has been repaired and is fully usable. (b) If the Office is totally damaged and rendered wholly unusable by fire or other casualty, Landlord has the right to either repair the damages or terminate the lease. (I) In the event that Landlord elects to repair the damages, Rent and Additional Rent shall be abated for the period of time from the date of occurrence of the damage to the date that Landlord notifies Tenant that the Office can be re-occupied; (ii) In the event that Landlord elects to terminate this Lease, Landlord may do so upon giving Tenant notice of his intent to do so within the sooner of ninety (90) days of the occurrence of the damages or thirty (30) days from the date that the insurance claim is adjusted which notice shall set forth a date on which the Lease shall expire, which date shall not be more than sixty (60) days from the date of such notice and upon which date this Lease shall terminate and all obligations owed by Landlord and Tenant to each other shall cease and all obligations due shall be paid from one to the other. Should this Lease not be terminated, Landlord shall make all repairs in an expeditious manner subject to delays beyond the control of Landlord. Tenant shall cooperate fully with Landlord after such damage is incurred in all of Landlord's reasonable requests to remove undamaged items in the Office. Before making claim against the other for damages as a result of fire or other casualty, each party shall look first to their respective insurance carrier. To the extent permitted by law and by the respective insurance policies, Landlord and Tenant hereby release and waive rights of discovery with respect to the above against the other or any one claiming through them. If this condition can only be obtained by paying an additional premium, then the one benefiting from such waiver shall pay the additional premium upon ten (10) days written notice and the one obtaining such insurance coverage is free from any other obligation with respect to waiver of subrogation. Tenant acknowledges that Landlord shall not be obligated to carry any insurance for the benefit of Tenant with respect to Tenant's personal property, equipment, inventory or the like and agrees that Landlord is not obligated to repair any damage to them. The provisions of New York Real Property Law Section 227 are waived by both parties and the provisions of this Paragraph shall be controlling.

11. Loss, Damage, Indemnity

Landlord shall not be liable for any loss, damage or expense to any person or property of Tenant or to property of others given to employees of the Premises. Landlord shall also not be liable for any theft of or by other tenants or otherwise, nor for injury or damage to persons or property resulting from any cause whatsoever, unless due to the willful acts of Landlord, it agents, servants and/or employees. Landlord shall not be liable for damages caused by construction in or about the Premises. Landlord shall not be liable for any damages if the windows are permanently or temporarily closed, darkened, covered and Tenant shall not be entitled to any abatement or reduction in rent and Additional Rent as a result thereby nor shall same be grounds for Tenant's claim of eviction nor shall Tenant be released from any of the terms, conditions and provisions of this Lease. Tenant shall indemnify and hold Landlord harmless from all claims, liabilities, costs and expenses, including attorneys' fees, paid or incurred by Landlord as a result of any default by Tenant of the terms, conditions and provisions of this Lease for which Landlord is not covered or paid by insurance. In the event that an action or proceeding is brought against Landlord, Tenant, upon written notice from Landlord, will, at Tenant's sole cost and expense, retain counsel approved by Landlord to defend such action or proceeding.

12. Electricity

Tenant warrants that its use of electrical current will, at all times, not exceed the current capacity of the electrical service into the Premises, or the risers or wiring installation. Tenant will not use or cause to be used equipment which will overload the existing service and installations or interfere with other tenants' electrical service. Any change in the character or nature of electrical service to the Premise s and/or to the Office shall not impose liability on the Landlord for any loss or damage sustained by Tenant as a result thereof.

13. Occupancy

Tenant shall not, at any time, use or occupy the Office in violation of or contrary to the permitted uses contained in the Certificate of Occupancy for the Premises and/or the Office. Tenant has fully inspected

the Office and is accepting the Office in its "as is" condition subject to any work to be performed by either party to this Lease on the Rider annexed hereto and designated Rider N/A. Tenant has performed "due diligence" with respect to the Premises and accepts the Office subject to any and all violations, whether same are of record or not. Landlord makes no representations as to the condition of the Office except as specifically set forth herein and on the Rider to this Paragraph, if any.

14. Landlord's Alterations and Management

Landlord has the right to change the arrangement and/or location of entrances, hallways, passageways, doorways, doors, elevators, stairs or any other part of the Premises used by the general public, including toilets, and to change the name and/or number of the Premises. In the event that Landlord so changes as aforesaid, the same shall not constitute an eviction nor imposes any liability on Landlord for such election. Rent and Additional Rent shall not be diminished or abated in such event as a result of any inconvenience, annoyance or injury to Tenant's business and Landlord shall have o liability therefore. Landlord may impose rules for the access to the Premises by Tenant's social or business guests as Landlord deems proper and necessary for the security of the Premises and Tenant shall not have any claim against Landlord for any damages resulting therefrom.

15. Condemnation

If the whole or any part of the Premises and/or Office is taken by condemnation or otherwise by any governmental authority for public or quasi-public use, this Lease shall be terminated as of the date that title is vested pursuant to said proceeding and Tenant shall not have nay claim for the value of the remaining portion of this Lease and Tenant assigns to Landlord Tenant's interest in any award. Nothing contained herein shall prevent Tenant from making an independent claim to the authority for allowable expenses.

17. Legal Requirements, Insurance, Floor Capacity

Tenant shall, at its sole cost and expense, at all times under this Lease or prior to the Commencement Date if Tenant is in possession of the Office as provided herein, comply promptly with all laws, regulations and orders of all municipalities and their agencies having jurisdiction over the Premises and Office including, but not limited to fire and or insurance offices which shall impose any violation or notice of violation or affirmative obligation upon Landlord and or the Premises, whether or not concerning Tenant's use of the Office or the Premises. Tenant shall not be required to make any structural alterations and/or repairs unless Tenant, as a result of Tenant's unauthorized uses and/or operations of business, violated such laws, regulations and/or rules. Tenant may appeal or object to such violations, fines etc. provided Tenant has, in Landlord's sole judgment, secured Landlord with respect to same by either deposit of sufficient monies or by a surety bond in an amount and by a company satisfactory to Landlord, for all damages, penalties, expenses and interest, including reasonable attorneys' fees provided same does not subject Landlord to criminal liability or create a default under any lease and/or mortgage of Landlord's and does not result in a condemnation or eviction, in whole or in part. Such appeal or objection by Tenant must be undertaken in an expeditious manner and at no cost to Landlord. Tenant shall do or cause to be done any act contrary to all laws, rules and regulations or which would violate any provision of Landlord's policies of insurance or which would subject Landlord to liability to any person or entity for personal and/or property damages. Tenant shall not keep any substance in the Office which is in violation of any law, rule and/or regulation which would result in a cancellation of Landlord's policies of insurance. Tenant shall not use the Office in such a manner that the premiums for Landlord's policies of insurance would be increased over that rate in effect at the time the Tenant obtains possession of the Office. Any cost, expense, fine, damages and/or penalties incurred by Landlord as a result of Tenant's violation of any provision in this Paragraph shall be borne by Tenant and shall be paid by Tenant as Additional Rent. In any action or proceeding, the schedule of premiums issued by Landlord's insurance carrier shall be conclusive evidence of the rate therefore. Tenant shall place a load on the floor of the Office contrary to the maximum floor area load permitted by law and the certificate of occupancy. The placement of heavy machines, mechanical equipment and/or office equipment shall be approved by Landlord and shall be placed in such manner, in Landlord's sole judgment, by Tenant to avoid and prevent vibrations, noise and annoyance to other tenants.

17. No Mortgage or Assignment

Tenant shall not assign, mortgage and/or encumber this Lease or sublet the Office or allow the Office to be used by anyone other than Tenant without the prior written consent of Landlord. The transfer of the majority interest in Tenant shall be deemed an assignment for purposes of this Paragraph. Should this Lease be assigned or the Office sublet or used by anyone other than Tenant without Landlord's written consent, Landlord may collect rent from the persons or entity so occupying and using the Office should Tenant default in the payment of Rent and Additional Rent but such collection by Landlord shall not be deemed a waiver of the provisions of this Paragraph or a consent to such assignment, sublet or use or a release of Tenant's obligations under this Lease. Any consent given by Landlord to Tenant under this Paragraph in one instance shall not act to be a consent or waiver of Landlord's rights in another.

18. No Other Space

Tenant is afforded no other rights to use any space in the Premises other than the Office.

19. Tenant's Defaults

A. If there is a default by Tenant under the terms of this Lease, other than the obligation to pay Rent and Additional Rent, or Tenant vacates the Office prior to the Termination Date, or if an execution has been issued against the property of Tenant or Tenant whereby the Office is used and/or occupied by someone other than Tenant, or if this Lease be rejected in a Bankruptcy proceeding, or should Tenant not take possession of the Office with thirty (30) days from the Possession Date, the Landlord, upon fifteen (15) days prior written notice to Tenant which sets forth Tenant's default(s) and should Tenant fail to completely cure said specified default(s) within said fifteen (15) days, or if the default(s), by its nature cannot be cured within said fifteen (15) days or should Tenant fail to undertake with diligent effort to cure the default(s) within said fifteen (15) days, then , in such event, Landlord may serve upon Tenant, a written five (5) day notice canceling this Lease and Tenant, at the end of said five (5) days shall vacate and surrender the Office and Tenant shall continue to remain liable as set forth under this Lease.

B. If Tenant shall be in default in the payment of Rent and/or Additional Rent, or if the notice given pursuant to "A" hereinabove has expired or if Tenant is in default in payment of any other matter for which Tenant is liable to pay, then Landlord, without notice, **(the giving of notice is hereby expressly waived by Tenant),** may re-enter the Office, by force or otherwise, and dispossess Tenant or other occupant, by any lawful manner, and remove their possessions and retake the Office. Tenant expressly waives the right to receive notice of such re-entry by Landlord and agrees that Landlord shall not be responsible for any damage sustained to the property of Tenant or other occupant. If their be an extension or renewal of this Lease and Tenant shall default under any term, condition and/or provision of this Lease, Landlord may cancel such renewal or extension upon three(3) days prior written notice to Tenant.

20. Bankruptcy

A. This Lease may be cancelled upon Landlord's prior ten (10) day written notice to Tenant if there be commenced a case, whether voluntary or involuntary, by or against Tenant or any other person or entity occupying the Office, in a bankruptcy court in any State, or if Tenant or any other person or entity occupying the Office, should make an assignment for the benefit of creditors under any law. Upon such event, Tenant or any other occupant

shall not be entitled to possession of the Office and shall immediately vacate the Office and surrender same to Landlord.

B. It is expressly agreed that in the event of a termination of this Lease pursuant to "A" above, notwithstanding any other provision contained in this Lease, Landlord shall be entitled to receive from Tenant, as and for liquidated damages, the higher of (1) the maximum amount permitted by law or (2) an amount equal to the difference between the Rent from the date of termination as set forth pursuant to "A" above to the Termination Date and the fair and reasonable market rent for the same period of time. In computing such amount, the same shall be discounted at the rate of three (3%) percent. If the Office shall be re-rented during that period of time, the rent paid under the re-rental agreement shall be conclusive proof of the reasonable market rent.

21. Remedies

In the event of any default, re-entry by Landlord, termination and/or eviction by summary proceedings or otherwise (a) Rent and Additional Rent up to the date of such re-entry and/or eviction or termination shall be due, (b) Landlord may re-rent the Office, in whole or in part, for a term equal to or in excess of the Termination Date, and Landlord may be free to grant such concessions or charge rent in excess of the Rent as the Landlord sees fit, and/or (c) Tenant shall be obligated to Landlord for liquated damages ("Liquidated Damages") for such default, termination and/or eviction in an amount equal to the difference between the Rent and the rent to be charged up to the Termination Date and any charges incurred by Landlord including, but not limited to reasonable attorneys' fees, litigation costs and expenses, brokers' fees, advertising fees, maintenance charges in keeping the Office in good condition and charges incurred in getting the Office in a condition for such re-renting. Landlord's failure to re-rent the Office shall not affect or release Tenant form said liquidated damages. The Liquidated Damages shall be paid in monthly installment when Rent is due prorated over the remaining term of this Lease. Landlord may, in getting the Office in condition for such re-renting, make such alterations, repairs and/or decorations in the Office as in Landlord's sole judgment are necessary and such undertakings by Landlord shall not release Tenant from liability under the terms, conditions and provisions of this Lease. Landlord shall in no way be liable to Tenant for failing to re-let the Office or to collect rent from the new tenant. The rights afforded Landlord under this Paragraph are not exclusive and Landlord may avail itself of any and all remedies available to it under law. Tenant expressly waives any right of redemption Tenant may now have or will have should Tenant be evicted from the Office or dispossessed therefrom.

22. Fees and Expenses

Should Tenant default under any of the terms, conditions and/or provisions of this Lease, Landlord may, after giving notice if required and upon the expiration of any grace period set forth in this Lease, immediately and without prior notice to Tenant perform or cause to be performed Tenant's obligations. If in connection with the aforesaid, Landlord incurs any cost and/or expense or becomes obligated to pay money as a result thereof, including but not limited to legal fees, reasonable attorneys' fees, litigation expenses, Tenant shall pay to Landlord such monies, with interest. The foregoing cost, expense or payment of money by Landlord shall be Additional Rent and shall be paid by Tenant within fifteen (15) days from the date Landlord bills Tenant. Should these billed amounts come subsequent to the Termination Date, Landlord may institute proceedings against Tenant for the recovery of same.

23. Access

Landlord or Landlord's agents, servants and/or employees may enter the Office for emergency purposes at any time and at any other reasonable time in order to make inspections and/or make repairs, alterations or additions as Landlord deems proper and/or necessary to the Office and/or the Premises. Tenant grants Landlord the right to use the Office to replace and/or maintain the HVAC services and facilities. For this purpose, Landlord may bring into the Office all necessary materials and supplies and same shall not be deemed to give Tenant any right to claim an actual or constructive eviction or any right to an abatement of Rent and Additional Rent or to a claim for damages as a result of loss of or interruption of Tenant's business. During the term of this Lease, Landlord shall have the right to enter the Office, at reasonable times and upon reasonable notice, for the purpose of exhibiting same to prospective purchasers and mortgagees. Landlord shall also have the right, within the six months prior to the Termination Date, to enter the Office for the purpose of exhibiting same to prospective tenants. Should Tenant not be present to allow access to the Office, Landlord may enter the Office by using a master key or by force providing Landlord exercises reasonable care to insure Tenant's property and such entry shall not subject Landlord or its agents liable for any damages as result thereof and the obligations of Tenant under the terms, conditions and/or provisions of this Lease shall not be affected thereby. Should Tenant entirely vacate the Office within thirty (30) days of the Termination Date, Landlord may enter the Office and make such alterations, repairs, additions or changes without affecting Tenant's obligations under this Lease, including, but not limited to Tenant's obligation to pay Rent and Additional Rent or creating liability for Landlord to Tenant.

24. Waiver

The failure by Landlord to seek redress or any remedy for Tenant's default under any of the terms, conditions and/or provisions of this Lease or of any rule imposed and declared by Landlord shall not constitute a waiver by Landlord for any future defaults or violations. Landlord's receipt of Rent and Additional Rent at a time when Landlord has knowledge or should have knowledge of any default or violation shall not be deemed a waiver thereof. Only a written waiver signed by Landlord shall be effective and binding upon Landlord. Any Rent and/or Additional Rent received by Landlord which is less than the amount due shall be deemed to be "on account" and any notation or statement on Tenant's check shall be deemed payment in full or accord and satisfaction and Landlord may accept such payment without prejudice to Landlord's right to pursue such available remedy for the balance of same or for any other remedy afforded Landlord under the terms, provisions and/or conditions of this Lease. Only a surrender of the Office in writing signed by Landlord shall be effective and binding upon Landlord and/or Tenant and such surrender must be made to Landlord or Landlord's authorized agent. An acceptance of a surrender of the Office and keys to same by persons other than Landlord or its authorized agent shall be effective as a termination of this Lease.

25. Landlord's Inability To Perform

Tenant's obligation to pay Rent and Additional Rent and/or to comply with any of the terms, provisions and/or conditions of this Lease as well as the Lease itself shall not be affected, impaired, amended or excused due to Landlord's inability to perform any of its obligations contained in this Lease, or to supply any if delayed in supplying any service or item or is unable to make, or is delayed in the making of any repair, alterations, additions, or is unable to supply or is delayed in supplying any equipment, services, fixtures or any other material to be supplied hereunder, provided that Landlord is unable to do so because of labor problems, strife or strike or any other cause whatsoever including, but not limited to war or other emergency.

26. Excavations

In the event that there be an authorized excavation conducted upon lands adjacent to the Premises, Tenant shall allow the parties conducting same entry into the Office for the purpose of performing necessary work as such party deems necessary to shore up and/or preserve the wall of the Premises from damage including but not limited to supporting the existing exterior walls and foundations. Tenant further agrees to waive any right Tenant may have to make a claim for damages caused thereby or indemnity therefore from that party or Landlord or for an abatement of Rent and/or Additional Rent.

27. No Representations by Landlord

Landlord and/or Landlord's agents, servants and/or employees have not made any representations nor promises of any kind to Tenant as to the physical condition of the Premises and/or Office or as to the financial condition and health or as to the operation of the Premises except as specifically set forth in this Lease and Tenant does not acquire any rights, easements or licenses except as specifically set forth in this Lease. Tenant has accepted the Office in its **"as is"** condition after having thoroughly inspecting same and without relying on any representations made by Landlord, its agents, servants and/or employees. Tenant's occupation of the Office is conclusive proof that the Office and Premises are in good and satisfactory condition at the date Tenant first occupies the Office.

28. Non-merger

All prior agreements, understandings and representations are merged in this Lease which fully expresses the parties' agreement and this Lease may only be amended or modified or terminated, other than on the Termination Date, by written agreement signed by Tenant and Landlord.

29. Non-Disturbance

As long as Tenant pays Rent and Additional Rent and complies fully with all of the terms, provisions and conditions of this Lease on Tenant's part to be performed, Tenant may peacefully occupy the Office subject too any mortgage, ground lease or underlying lease.

30. Waiver

Tenant and Landlord hereby waive trial by jury in any action, proceeding or litigation brought by one against the other or in which either party is brought in by a third party, except for personal injury or property damage actions, in which any of the terms, provisions and/or conditions of this Lease or any statutory remedy is involved or the use and/or occupancy of the Office is at issue. Tenant and Landlord agree that in any action seeking possession of the Office, Tenant will not impose any counterclaim or set-off against Landlord of any kind or nature except if mandated by statute.

31. Notices

Any notice, statement or communication which Landlord is to give to Tenant, shall be deemed to be sufficiently given if it is in writing and delivered personally to Tenant or sent by certified mail or overnight courier addressed to Tenant at the Office or other business address of Tenant or at the residence of Tenant or left at any one of the addresses and the time of giving such notice, statement or communication shall be deemed given at the time same are left with or mailed or delivered to the overnight courier. Any notice to be given by Tenant to Landlord must be given by certified mail or overnight courier at Landlord's address above.

32. Rules

Tenant, its agents, servants and/or employees, licensees, business guests or visitors shall comply strictly and faithfully with the Rules that Landlord may adopt, at any time, notice of which shall be given to Tenant. Landlord may choose the manner in which said notice is given. In the event that Tenant disputes the reasonableness of any Rule, Tenant and Landlord agree to submit such dispute to the American Arbitration Association, New York, New York for binding arbitration provided Tenant gives written notice to Landlord within twenty (20) days of receipt of notice of adoption of the Rule or Rules. Notwithstanding the provisions of this Paragraph, Landlord is not under any obligation to enforce the Rules with respect to any other tenant in the Premises or to enforce any term, condition or provision of any other lease. Landlord is not liable to Tenant for any damages caused by another tenant violating the Rules or any term, provision or condition of that tenant's lease.

33. Definitions

Wherever and whenever used in this Lease, the following definitions shall be ascribed to these words:

a) "Business Day" shall mean the days of the week except Saturday and Sunday and except legal holidays observed by either Staten of Federal Governments and those set forth in any union contract which applies to the Premises

b) "Office" or "Offices" shall not mean Premises but shall mean premises other than those utilized for the sale of goods and merchandise or for the display of same, or a restaurant, shop, machine shop, manufacturing plant or other retail establishment.

c) "Landlord" shall mean the owner of the Premises or a lessee thereof, or a mortgagee in possession and should there be a sale or lease of the entire Premises, Landlord is released form all obligations and liabilities under this Lease and it will be conclusively presumed that the purchaser or lessor will perform the obligations and liabilities of Landlord herein.

d) "Re-enter" and "Re-entry" are not to be strictly taken in their legal definitions.

34. Estoppel Certificate

Upon fifteen (15) prior written notice to Tenant, Tenant shall execute and deliver to Landlord or to any other entity that Landlord directs, a certificate, in recordable form, stating that the Lease, as it exists on the date of the certification, is in full force and effect, that it has not be amended, modified or terminated, the date to which Rent and Additional Rent has been paid and setting forth specifically if any defaults exist on the part of Landlord.

35. Subordination

The Lease is subject and subordinate to all existing and future mortgages or ground leases or underlying leases which affects the Premises and to all renewals, modifications or replacements thereof without the necessity of any notice or written instruments and Tenant shall, at Landlord request, execute a document to this effect.

36. Surrender of Office

Upon the Termination Date or other termination of this Lease, Tenant shall vacate and surrender the Office in broom clean condition and in good condition, reasonable wear and tear excepted and free from Tenant's property. All damages which were caused by or on behalf of Tenant shall be repaired by Tenant at Tenant's sole cost and expense prior to the surrender of the Office. This Paragraph survives the Termination Date or the date of other termination of this Lease. Should the Termination Date be a Sunday or legal holiday, the Termination Date shall be the immediate previous day.

37. Parties Bound

This Lease is binding upon Landlord and Tenant and their respective assignees and/or successors in interest. Should Tenant obtain a judgment against Landlord, Tenant shall look only to Landlord's interest in the Premises for the collection of same.

38. Paragraph Headings

Paragraph headings are for reference only.

39. Effectiveness

This Lease shall become effective as of the date when Landlord delivers a fully executed copy hereof to Tenant or Tenant's attorney.

40. Riders

Additional terms are contained in the riders annexed hereto and designated Rider N/A.

This Lease has been entered into as of the Date of Lease.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Steven Spraker, Planning Director

Date: June 6, 2023

Subject: Change Order - Tyler EnerGov, Conversion of Project Dox

Commission Goal: Transportation & Community Development - Other

Introduction

This is a request for the City Commission to approve a change order with Tyler Technologies Incorporated ("Tyler"), the city's enterprise resource system (ERS) provider, who is providing the software implementation and hosting services of the building permitting, licensing, inspection, site plan review, and code enforcement modules. The change order is for a price not to exceed $30,000 to convert the existing permitting data within the existing Project Dox review software into the Tyler system.

Background

An ERS is a computer operating system that connects and supports a wide range of city functions including accounting, budgeting, utility billing, payroll, human resource management, building inspections and permitting, licensing, site plan review, code enforcement liens, public works work order tracking, accounts payable, and cash receipting.

In 2014, the city solicited proposals, through Request for Proposals (RFP) No. 2014-11, for an ERS to replace the Sungard HTE system that was implemented in the 1980's and is no longer compatible with current technology and programs. Tyler was selected as the vendor for the new ERS through Resolution No. 2016-67, and staff executed a contract with Tyler for the implementation (configuration of software), hosting (storage of data), and ongoing service maintenance (future software updates and maintenance) of the system. To date, Tyler has successfully implemented the accounting, budgeting, utility billing, payroll, human resource modules, and parks and recreation modules.

On April 6, 2021, the City Commission authorized Resolution 2021-70 that authorized the implementation of building permitting, licensing, inspection, site plan review, and code enforcement. These functions are currently using Naviline and Project Dox as the software permitting systems. Resolution 2021-70 approved an amendment to the contract that included:

- Conversion and training fee update of $117,414 to bring the overall cost to $496,550.
- Hosting fee of $29,960 (one-time) and $11,632 for fiscal years 2021-2026-27.

Discussion

The Tyler conversion kicked off in February of 2022 and Building, Planning, and Code enforcement staff have been working with Tyler to construct the permitting and code enforcement systems. The anticipated "Go Live" date of the Tyler permitting system is October 2023. In the implementation of the Tyler permitting system, the current permit review software of Project Dox was not included in the 2021 amendment. The purpose of this item is a change order authorization to convert the data within Project Dox into the Tyler permitting system. The fee provided by Tyler is a not to exceed cost of $30,000. It is necessary to convert the Project Dox information (building plans, permitting documents, and site plans) into the Tyler permitting system. The other alternative would be to maintain the contract with Project Dox that has a current annual fee of $84,000.

Budget Impact

Funding for this one-time fee of $30,000 was not specifically included in the adopted budget but can be derived from the General Fund contingency account.

Citizen Impact

There is no direct citizen impact of the requested change order. The Tyler permitting system will provide an update from the existing Naviline system and provide a fully electronic permitting system that has been partially implemented with Project Dox.

Recommendation

It is recommended that the City Commission approve the attached change order with Tyler Technologies Incorporated to convert the Project Dox permitting data into the Tyler permitting system at a cost not to exceed $30,000.

RESOLUTION NO. 2023-107

A RESOLUTION AUTHORIZING THE EXECUTION OF A CHANGE ORDER TO THE EXISTING AGREEMENT WITH TYLER TECHNOLOGIES INC., REGARDING AN ENTERPRISE RESOURCE SYSTEM DOCUMENT MANAGEMENT PROGRAM, INCLUDING IMPLEMENTATION, HOSTING AND MAINTENANCE SERVICES; AUTHORIZING PAYMENT THEREFOR; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, the City and Tyler Technologies, Inc. ("Tyler") are parties to an agreement for an enterprise resource system document management program ("ERP"), including implementation, vendor hosting and maintenance services having an effective date of May 23, 2016 (the "Agreement"), and

WHEREAS, Tyler has completed implementation of the accounting, budgeting, utility billing, payroll, human resource management, and parks and recreation modules, and

WHEREAS, Resolution 2021-70, approved by the City Commission on April 6, 2021, authorized an amendment to the Agreement between the City and Tyler for the implementation of the Tyler enterprise resource system modules for building permitting, inspections, licensing, site plan review, and code enforcement, (the "Amendment"), and

WHEREAS, during the implementation of the Tyler permitting system, it was discovered that the conversion of data from the City's current permit review software, ProjectDox, was not included in the original contract or the Amendment, and

WHEREAS, the City's Professional staff has recommended that the City Commission approve a Change Order to include the conversion of the ProjectDox system (including building plans, permitting documents, and site plans) into the Tyler EnerGov system

(the "Project"), a copy of said Change Order is attached hereto and incorporated herein by reference, and

WHEREAS, the cost to be paid by the City associated with the Tyler Change Order is a one-time fee of $30,000, and

WHEREAS, the City Manager has certified that the money for the payment of services for the Tyler Change Order has been appropriated to the credit of the General Fund contingency account, and is not appropriated for any other purpose, now therefore,

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The City Commission hereby approves the Change Order between the City and Tyler Technologies, Inc. to include the conversion of data from the ProjectDox system into the Tyler EnerGov system.

SECTION TWO. The Mayor and the City Manager are hereby authorized and directed to execute the Change Order between the City and Tyler Technologies Inc., and to pay the cost thereof as provided herein from the General Fund contingency account.

SECTION THREE. This Resolution shall take effect immediately upon its adoption.

APPROVED AND AUTHENTICATED this 6th day of June, 2023.

Ormond Beach (City of) - External Change Order: TY-EG-2023-755

Tyler Technologies

Title: Additional Conversion Source

Contract/PO: 2019-73600

Date: 3/23/2023

Client Project Manager:

Tyler Project Manager: Lenehan, Maureen

PROPOSED CHANGE

Change Description

Addition of a second data source for conversion, Project Dox. Tyler Technologies conversion staff will prepare to convert data from the City's Project Dox Legacy System to the Tyler system, as outlined in section 4.3.4 of the current statement of work. Tyler conversion staff will also work with the City to provide the most efficient data conversion possible, as outlined in section 4.4.2 of the current statement of work. Finally, Tyler conversion staff will execute a final and complete conversion during the Production Cutover stage of the project, as outlined in section 4.6.1 of the current statement of work.

In an amendment between Tyler Technologies and the City of Ormond Beach (attached) dated April 22, 2021, the agreement to interface with Project Dox was removed from the original contract and the City agreed to cease the use of Project Dox with the implementation of Tyler EnerGov. The 2021 amendment did not contain any allowances for the conversion building and site plans within Project Dox into the Tyler EnerGov system and the scope of work would convert Project Dox information into Tyler EnerGov.

AMENDMENT

This amendment ("Amendment") is effective as of the date of signature of the last party to sign as indicated below ("Amendment Effective Date"), by and between Tyler Technologies, Inc. with offices at One Tyler Drive, Yarmouth, Maine 04096 ("Tyler") and the City of Ormond Beach with offices at 22 South Beach Street, Ormond Beach, FL 32174 ("Client").

WHEREAS, Tyler and the Client are parties to an agreement dated May 23, 2016 ("Agreement"); and

WHEREAS, Tyler and Client desire to amend the terms of the Agreement as provided herein.

NOW THEREFORE, in consideration of the mutual promises hereinafter contained, Tyler and the Client agree as follows:

1. As of the Amendment Effective Date, Exhibit 2, "EnerGov Investment Summary", of the Agreement is hereby replaced with the new EnerGov Investment Summary attached hereto as Exhibit 1.

2. The Interface (Project Dox) Tyler product is hereby removed from the Agreement as of Amendment Effective Date. Upon such date, Client's license for such software is terminated, as are Tyler's obligations to support, maintain, and update such product. Should Client wish to again use such product, Client shall first pay Tyler the then-current license fee(s), as well as fees for any required services, support, or 3rd party products.

3. As of the Amendment Effective Date, Exhibit 10, Sections H ("EnerGov Project Scope) and I ("EnerGov Implementation") are removed from the Agreement and replaced by the new EnerGov Statement of Work attached hereto as Exhibit 2.

4. This Amendment shall be governed by and construed in accordance with the terms and conditions of the Agreement.

5. Except as expressly indicated in this Amendment, all other terms and conditions of the Agreement shall remain in full force and effect.

SIGNATURES APPEAR ON THE NEXT PAGE

IN WITNESS WHEREOF, the parties hereto have executed this Amendment as of the dates set forth below.

Comments

***EnerGov Adv. Server Extensions Bundle includes: Intelligent Automation Agent, Social IO Extension, EnerGov Open Data Service, EnerGov Decision Engine.**

Methodology Details:

- EnerGov Implementation: Tyler leads and owns the configuration of 30 business transactions, 5 geo-rules, and 5 automation events included in the application. Configuration elements beyond this will be owned by the client.
- Tyler Technologies' EnerGov implementation team will be primarily responsible for the following implementation tasks:
- EnerGov Case Type Setup (and all associated items required to configure)
- Training on how to use EnerGov
- Setup of EnerGov GIS Map
- Setup of EnerGov GIS Live Link
- Setup of CSS GIS Map (as applicable, based on contract)
- Setup of CSS ArcGIS Integration (as applicable, based on contract)
- Setup of CSS Payments (as applicable, based on contract and client having secured an appropriate payment gateway)
- Setup and testing of Tyler-to-Tyler integrations (Munis, Tyler Cashiering, Tyler Content Management, Tyler Incident Management, as applicable based on contract)
- Setup of iG Workforce licenses (as applicable, based on contract)
- EnerGov Automation Events (Intelligent Objects, standard Intelligent Queries). This covers automation tasks like E-mails, Tasks, Geo Rules, etc.
- EnerGov Case Type Setup (and all associated items required to configure)
- EnerGov System Setup Configuration (Holidays, Zones, Hold Types, Hearing Types, etc.)
- EnerGov Report Setup's dynamic custom fields
- EnerGov User/User Role Setup
- EnerGov Workflow/Workflow Template Setup (WF Actions, Steps, Templates, Submittal Types, Item Reviews etc.)
- CSS Experience (CSS Case Types, CSS Geo Rules, CSS Themes, Headers, Menus, Security Settings, etc.)
- The City's EnerGov implementation team will be responsible for the following implementation tasks:
- Work with EnerGov personnel to Assess & Define in-scope transactions, geo-rules, automation events, reports, and integrations
- Provide consumable GIS data to EnerGov
- Complete validation testing of all configured business transactions, geo-rules, and automation events within scope
- Complete validation testing of CSS experience (CSS Case Types, CSS Geo Rules, CSS Themes, Headers, Menus, Security Settings, etc.)
- Complete User Acceptance Testing of all configured business transactions, geo-rules, and automation events within scope
- Complete User Acceptance Testing of CSS experience (CSS Case Types, CSS Geo Rules, CSS Themes, Headers, Menus, Security Settings, etc.)
- Participate in all scheduled EnerGov training
- Assist EnerGov data conversion personnel as necessary

1 Executive Summary

1.1 Project Overview

The Statement of Work (SOW) documents the Project Scope, methodology, roles and responsibilities, implementation Stages, and deliverables for the implementation of Tyler products.

The Project goals are to offer the City of Ormond Beach the opportunity to make the City more accessible and responsive to external and internal customer needs and more efficient in its operations through:

- Streamlining, automating, and integrating business processes and practices
- Providing tools to produce and access information in a real-time environment
- Enabling and empowering users to become more efficient, productive and responsive
- Successfully overcoming current challenges and meeting future goals

1.2 Product Summary

Below, is a summary of the products included in this Project, as well as reference to the City's functional area utilizing the Tyler product(s). Refer to the Implementation Stages section of this SOW for information containing detailed service components.

[PRODUCT]	[APPLICATION]
EnerGov	Community Development
EnerGov	Business Management
EnerGov	IG Workforce Apps
EnerGov	Citizen Self Service – Community Development
EnerGov	Citizen Self Service – Business Management

1.3 Project Timeline

The Project Timeline establishes a start and end date for each Phase of the Project. Developed during the Initiate & Plan Stage and revised as mutually agreed to, if needed, the timeline accounts for resource availability, business goals, size and complexity of the Project, and task duration requirements.

1.4 Project Methodology Overview

Tyler bases its implementation methodology on the Project Management Institute's (PMI) Process Groups (Initiating, Planning, Executing, Monitoring & Controlling, and Closing). Using this model, Tyler developed a 6-stage process specifically designed to focus on critical project success measurement factors.

Tailored specifically for Tyler's public sector clients, the project methodology contains Stage Acceptance Control Points throughout each Phase to ensure adherence to Scope, budget, timeline controls, effective communications, and quality standards. Clearly defined, the project methodology repeats consistently across Phases, and is scaled to meet the City's complexity, and organizational needs.

2 Project Governance

The purpose of this section is to define the resources required to adequately establish the business needs, objectives, and priorities for the Project; communicate the goals to other project participants; and provide support and guidance to accomplish these goals. Project governance also defines the structure for issue escalation and resolution, Change Control review and authority, and organizational Change Management activities.

The preliminary governance structure establishes a clear escalation path when issues and risks require escalation above the project manager level. Further refinement of the governance structure, related processes, and specific roles and responsibilities occurs during the Initiate & Plan Stage.

The path below illustrates an overall team perspective where Tyler and the City collaborate to resolve project challenges according to defined escalation paths. In the event project managers do not possess authority to determine a solution, resolve an issue, or mitigate a risk, Tyler implementation management and the City steering committee become the escalation points to triage responses prior to escalation to the City and Tyler executive sponsors. As part of the escalation process, each project governance tier presents recommendations and supporting information to facilitate knowledge transfer and issue resolution. The City and Tyler executive sponsors serve as the final escalation point.

2.1 Client Governance

Depending on the City's organizational structure and size, the following governance roles may be filled by one or more people:

2.1.1 Client Project Manager

The City's project manager(s) coordinate project team members, subject matter experts, and the overall implementation schedule and serves as the primary point of contact with Tyler. The City project manager(s) will be responsible for reporting to the City steering committee and determining appropriate escalation points.

2.1.2 Steering Committee

The City steering committee understands and supports the cultural change necessary for the Project and fosters an appreciation of the Project's value throughout the organization. Oversees the City project manager(s) and the Project and through participation in regular internal meetings, the City steering committee remains updated on all project progress, project decisions, and achievement of project milestones. The City steering committee also provides support to the City project manager(s) by communicating the importance of the Project to all impacted departments. The City steering committee is responsible for ensuring the Project has appropriate resources, provides strategic direction to the project team, for making timely decisions on critical project issues or policy decisions. The City steering committee also serves as primary level of issue resolution for the Project.

2.1.3 Executive Sponsor(s)

The City's executive sponsor provides support to the Project by allocating resources, providing strategic direction, and communicating key issues about the Project and the Project's overall importance to the organization. When called upon, the executive sponsor also acts as the final authority on all escalated project issues. The executive sponsor engages in the Project, as needed, in order to provide necessary support, oversight, guidance, and escalation, but does not participate in day-to-day project activities. The executive sponsor empowers the City steering committee, project manager(s), and functional leads to make critical business decisions for the City.

2.2 Tyler Governance

2.2.1 Tyler Project Manager

The Tyler project manager(s) have direct involvement with the Project and coordinates Tyler project team members, subject matter experts, the overall implementation schedule, and serves as the primary point of contact with the City. As requested by the City, the Tyler project manager(s) provide regular updates to the City's steering committee and other Tyler governance members.

2.2.2 Tyler Implementation Management

Tyler implementation management has indirect involvement with the Project and is part of the Tyler escalation process. Tyler project manager(s) consult implementation management on issues and outstanding decisions critical to the Project. Implementation management works toward a solution with the Tyler project manager(s) or with the City management, as appropriate. Tyler executive management is the escalation point for any issues not resolved at this level. The name(s) and contact information for this resource will be provided and available to the project team.

2.2.3 Tyler Executive Management

Tyler executive management has indirect involvement with the Project and is part of the Tyler escalation process. This team member offers additional support to the project team and collaborates with other Tyler department managers, as needed, in order to escalate and facilitate implementation project tasks and decisions. The name(s) and contact information for this resource will be provided and available to the project team.

2.3 Acceptance and Acknowledgment Process

All Deliverables and Control Points must be accepted or acknowledged following the process below. Acceptance requires a formal sign-off while acknowledgement may be provided without formal sign-off at the time of delivery. The following process will be used for accepting or acknowledging Deliverables and Control Points:

- The City shall have five (5) business days from the date of delivery, or as otherwise mutually agreed upon by the parties in writing, to accept or acknowledge each Deliverable or Control Point. If the City does not provide acceptance or acknowledgement within five (5) business days, or the otherwise agreed upon timeframe, not to be unreasonably withheld, Tyler deems the Deliverable or Control Point as accepted.

- If the City does not agree the particular Deliverable or Control Point meets requirements, the City shall notify Tyler project manager(s), in writing, with reasoning within five (5) business days, or the otherwise agreed-upon timeframe, not to be unreasonably withheld, of receipt of the Deliverable.

- Tyler shall address any deficiencies and redeliver the Deliverable or Control Point. The City shall then have two (2) business days from receipt of the redelivered Deliverable or Control Point to accept or again submit written notification of reasons for rejecting the milestone. If the City does not provide acceptance or acknowledgement within two (2) business days, or the otherwise agreed upon timeframe, not to be unreasonably withheld, Tyler deems the Deliverable or Control Point as accepted.

3 Overall Project Assumptions

3.1 Project, Resources and Scheduling

- Project activities will begin after the Agreement has been fully executed.
- The City has the ability to allocate additional internal resources if needed. The City also ensures the alignment of their budget and Scope expectations.
- The City and Tyler ensure that the assigned resources are available, they buy-into the change process, and they possess the required business knowledge to complete their assigned tasks successfully. Should there be a change in resources, the replacement resource should have a comparable level of availability, buy-in, and knowledge.
- Tyler and City provide adequate resources to support the efforts to complete the Project as scheduled and within the constraints of the Project budget.
- Abbreviated timelines and overlapped Phases can result in Project delays if there are not sufficient resources assigned to complete all required work as scheduled.
- Changes to Project Plan, availability of resources or changes in Scope may result in schedule delays, which may result in additional charges to the Project.
- Tyler provides a written agenda and notice of any prerequisites to the City project manager(s) ten (10) business days prior to any scheduled on site or remote sessions.
- Tyler provides notice of any prerequisites to the City project manager(s) a minimum of ten (10) business days prior to any key deliverable due dates.
- City users complete prerequisites prior to applicable scheduled activities.
- Tyler provides guidance for configuration and processing options available within the Tyler software. The City is responsible for making decisions based on the options available.
- In the event the City may elect to add and/or modify current business policies during the course of this Project, such policy changes are solely the City's responsibility to define, document, and implement.
- The City makes timely Project related decisions in order to achieve scheduled due dates on tasks and prepare for subsequent training sessions. Decisions left unmade may affect the schedule, as each analysis and implementation session builds on the decisions made in prior sessions.
- Tyler considers additional services out of Scope and requires additional time and costs be requested via Change Request approved through the Change Control process.

- The City will respond to information requests in a comprehensive and timely manner, in accordance with the Project Plan.

3.2 Data Conversion

- The City is readily able to produce the data files needed for conversion from the Legacy System in order to provide them to Tyler on the specified due date(s).
- Each Legacy System data file submitted for conversion includes all associated records in a single approved file layout.
- The City understands the Legacy System data extract(s) must be provided to Tyler in the same format each time unless changes are mutually agreed upon in advance. If not, negative impacts to the schedule, budget, and resource availability may occur and/or data in the new system may be incorrect.
- During this process, the City may need to correct data scenarios in the Legacy System prior to the final data pull. This is a complex activity and requires due diligence by the City to ensure all data pulled includes all required data and the Tyler system contains properly mapped data.

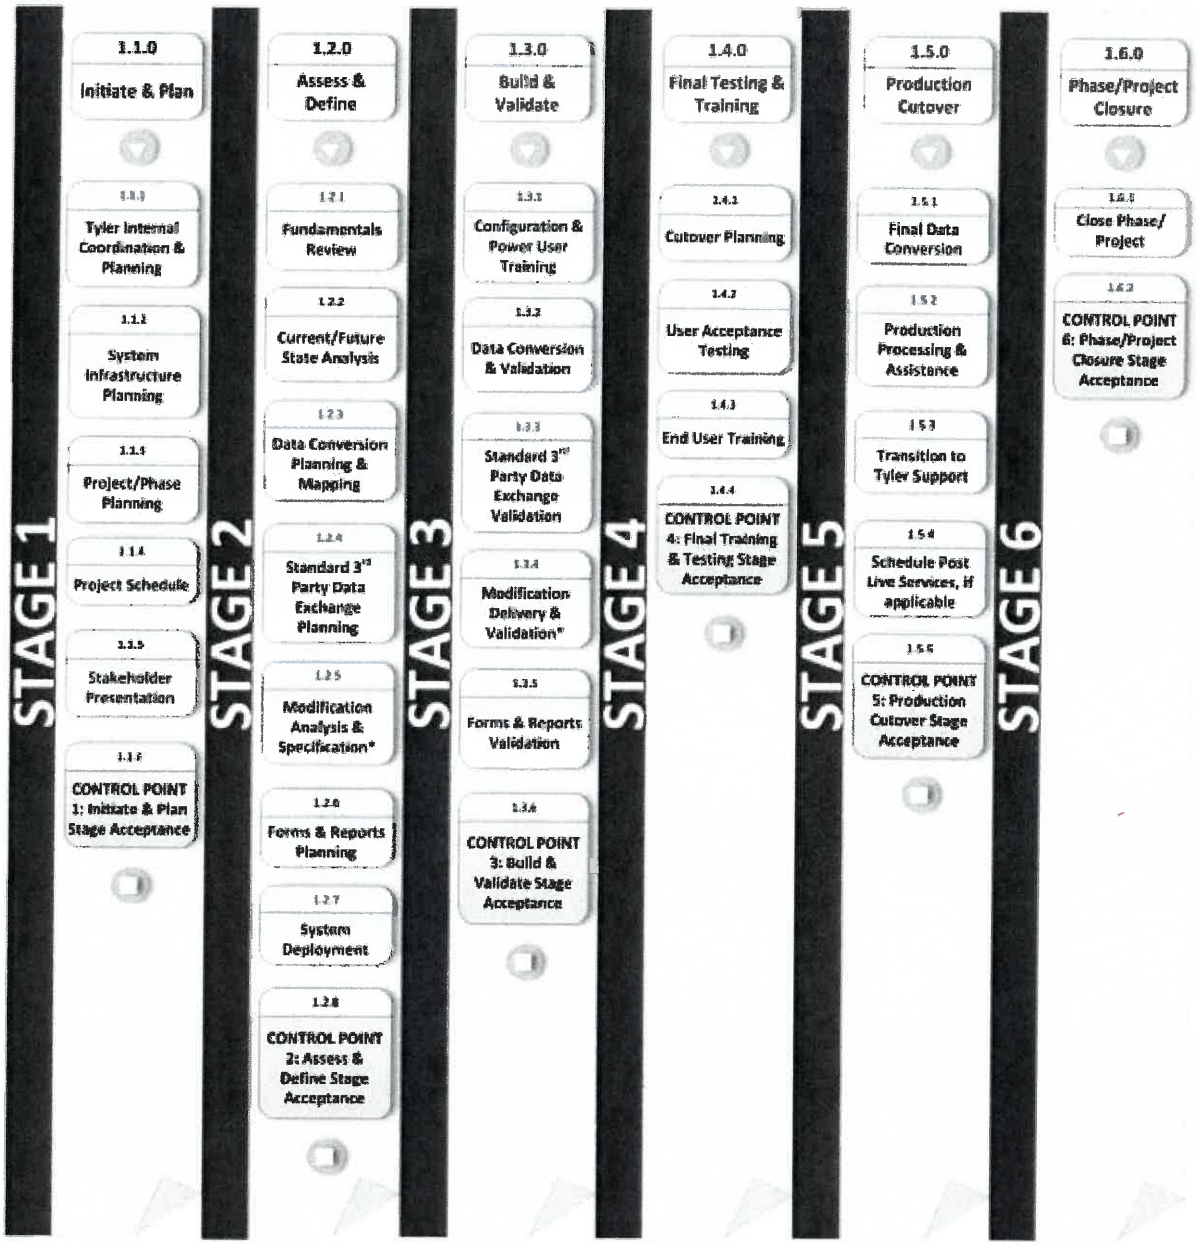
3.3 Data Exchanges, Modifications, Forms and Reports

- The City ensures the 3rd party data received conforms to a Tyler standard format.
- The 3rd party possesses the knowledge of how to program their portion of the interaction and understands how to manipulate the data received.
- Client is on a supported, compatible version of the 3rd party software or Tyler standard Data Exchange tools may not be available.
- The City is willing to make reasonable business process changes rather than expecting the product to conform to every aspect of their current system/process.
- Any Modification requests not expressly stated in the contract are out of Scope. Modifications requested after contract signing have the potential to change cost, Scope, schedule, and production dates for project Phases. Modification requests not in Scope must follow the Project Change Request process.

3.4 Hardware and Software

- Tyler will initially Install the most current generally available version of the purchased Tyler software.
- The City will provide network access for Tyler modules, printers, and Internet access to all applicable City and Tyler project staff.

- The City has in place all hardware, software, and technical infrastructure necessary to support the Project.
- The City's system hardware and software meet Tyler standards to ensure sufficient speed and operability of Tyler software. Tyler will not support use of software if the City does not meet minimum standards of Tyler's published specifications.



3.5 Education

- Throughout the Project lifecycle, the City provides a training room for Tyler staff to transfer knowledge to the City's resources, for both onsite and remote sessions. The City will provide staff with a location to practice what they have learned without distraction. If Phases overlap, the City will provide multiple training facilities to allow for independent sessions scheduling without conflict.
- The training room is set up in a classroom setting. The City determines the number of workstations in the room. Tyler recommends every person attending a scheduled session with a Tyler Consultant or Trainer have their own workstation. However, Tyler requires there be no more than two (2) people at a given workstation.
- The City provides a workstation which connects to the Tyler system for the Tyler trainer conducting the session. The computer connects to a City provided projector, allowing all attendees the ability to actively engage in the training session.
- The City testing database contains the Tyler software version required for delivery of the Modification prior to the scheduled delivery date for testing.
- The City is responsible for verifying the performance of the Modification as defined by the specification.
- Users performing user acceptance testing (UAT) have attended all applicable training sessions prior to performing UAT.

4 Implementation Stages

4.1 Work Breakdown Structure (WBS)

The Work Breakdown Structure (WBS) is a hierarchical representation of a Project or Phase broken down into smaller, more manageable components. The top-level components are called "Stages" and the second level components are called "work packages." The work packages, shown below each Stage, contain the high-level work to be done. The detailed Project Plan, developed during Initiate & Plan and finalized during Assess & Define, will list the tasks to be completed within each work package. Each Stage ends with a "Control Point", confirming the work performed during that Stage of the Project.

* - If included in project scope

4.2 Initiate & Plan (Stage 1)

The Initiate & Plan Stage creates a foundation for the Project through identification of City and Tyler Project management teams, development of implementation management plans, and the provision and discussion of system infrastructure requirements. City participation in gathering information is critical. Tyler Project management teams present initial plans to stakeholder teams at Stage end.

4.2.1 Tyler Internal Coordination & Planning

Prior to Project commencement, Tyler management staff assigns Project Manager(s). Tyler provides the City with initial Project documents used in gathering basic information, which aids in preliminary planning and scheduling. City participation in gathering requested information by provided deadlines ensures the Project moves forward in a timely fashion. Internally, the Tyler Project Manager(s) coordinate with Sales to ensure transfer of vital information from the sales process prior to scheduling a Project Planning Meeting with the City's team. During this step, Tyler will work with the Client to establish the date(s) for the Project/Phase Planning session.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 1	Tyler Internal Coordination & Planning																					
	TYLER									CLIENT												
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Assign Tyler Project Manager	A	R	I						I			I								
Provide initial Project documents to Client	A	I	R						C			I								
Sales to Implementation knowledge transfer	A	I	R						C											
Internal planning and phase coordination		A	R					C												

4.2.2 System Infrastructure Planning

The City provides, purchases or acquires hardware according to hardware specifications provided by Tyler and ensures it is available at the City's site. The City completes the system infrastructure audit, ensuring vital system infrastructure information is available to the Tyler implementation team, and verifies all hardware compatibility with Tyler solutions.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 1	System Infrastructure Planning																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Provide system hardware specifications			I					R	A			I						C		
Make hardware available for Installation			I					C				A						R		
Install system hardware, if applicable			I					C				A						R		
Complete system infrastructure audit			I					C				A						R		

4.2.3 Project/Phase Planning

Project and Phase planning provides an opportunity to review the contract, software, data conversions and services purchased, identify Applications to implement in each Phase (if applicable), and discuss implementation timeframes. The Tyler Project Manager(s) deliver an Implementation Management Plan, which is mutually agreeable by City and Tyler.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 1	Project/Phase Planning																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Perform Project/Phase Planning		A	R								I	C	C			I				
Deliver implementation management plan		A	R									C	C	I						

4.2.4 Project Schedule

Client and Tyler will mutually develop an initial Project schedule. The initial schedule includes, at minimum, enough detail to begin Project activities while the detailed Project Plan/schedule is being developed and refined.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 1	Project Schedule																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Develop initial Project schedule		A	R	I								C	I	I						
Deliver Project Plan and schedule for Project Phase		A	R	I						I	I	C	C	I	I	I				
Client reviews Project Plan & initial schedule			C							I	A	R	C	C		C				
Client approves Project Plan & initial schedule			I							I	A	R	C	C	I	I		I	I	I

4.2.5 Stakeholder Presentation

City stakeholders join Tyler Project Management to communicate successful Project criteria, Project goals, Deliverables, a high-level milestone schedule, and roles and responsibilities of Project participants.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 1	Stakeholder Presentation																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Present overview of Project Deliverables, project schedule and roles and responsibilities		A	R	I					I	I	I	C	I	I	I	I		I	I	I
Communicate successful Project criteria and goals			I							R	C	A	C	I	I	C	I	I		

4.2.6 Control Point 1: Initiate & Plan Stage Acceptance

Acceptance criteria for this Stage includes completion of all criteria listed below. Advancement to the Assess & Define Stage is dependent upon Tyler's receipt of the Stage Acceptance.

4.2.6.1 Initiate & Plan Stage Deliverables

- Implementation Management Plan
    - Objective: Update and deliver baseline management plans to reflect the approach to the City's Project.
    - Scope: The Implementation Management addresses how communication, quality control, risks/issues, resources and schedules, and Software Upgrades (if applicable) will be managed throughout the lifecycle of the Project.
    - Acceptance criteria: City reviews and acknowledges Implementation Management Plan
- Project Plan/Schedule
    - Objective: Provide a comprehensive list of tasks, timelines and assignments related to the Deliverables of the Project.
    - Scope: Task list, assignments and due dates
    - Acceptance criteria: City acceptance of schedule based on City resource availability and Project budget and goals.

4.2.6.2 Initiate & Plan Stage Acceptance Criteria

- Hardware Installed
- System infrastructure audit complete and verified
- Implementation Management Plan delivered
- Project Plan/Schedule delivered; dates confirmed
- Stakeholder Presentation complete
-

4.3 Assess & Define (Stage 2)

The primary objective of Assess & Define is to gather information about current City business processes and translate the material into future business processes using Tyler Applications. Tyler uses a variety of methods for obtaining the information, all requiring City collaboration. The City shall provide complete and accurate information to Tyler staff for analysis and understanding of current workflows and business processes.

4.3.1 Fundamentals Review

Fundamentals Review provides functional leads and Power Users an overall understanding of software capabilities prior to beginning current and future state analysis. The primary goal is to provide a basic understanding of system functionality, which provides a foundation for upcoming conversations regarding future state processing. Tyler utilizes a variety of methods for completing fundamentals training including the use of eLearning, videos, documentation, and walkthroughs.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 2	Fundamentals Review																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Schedule fundamentals review & provide fundamentals materials & prerequisites, if applicable		A	R	I								C	I		I				I	
Complete fundamentals materials review and prerequisites			I									A	R		I				C	
Ensure all scheduled attendees are present			I	I							A	R	C		I					
Facilitate fundamentals review			A	R								I	I		I					

4.3.3 Current/Future State Analysis

City and Tyler evaluate current state processes, options within the new software, pros and cons of each option based on current or desired state, and make decisions about future state configuration and processing.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 2	Current/Future State Analysis																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Provide Current/Future State analysis materials to the City, as applicable		A	R	I								C	I		I					
Conduct Current & Future State analysis			A	R								I	C	I	C					
Provide pros and cons of Tyler software options			A	R								I	C	I	C					
Make Future State Decisions according to due date in the Project Plan			I	I							C	A	R	I	C	I				
Record Future State decisions			A	R								I	C	I	C					

4.3.4 Data Conversion Planning & Mapping

This entails the activities performed to prepare to convert data from the City's Legacy System Applications to the Tyler system. Tyler staff and the City work together to complete Data Mapping for each piece of data (as outlined in the Agreement) from the Legacy System to a location in the Tyler system.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 2	Data Conversion Planning & Mapping																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Review contracted data conversion(s) options			A	R	I							C	C		C			C		
Map data from Legacy System to Tyler system			I	C	I							A	C		C			R		
Pull conversion data extract			I		I							A	C		C			R		
Run balancing Reports for data pulled and provide to Tyler			I		I							A	C		R			I		
Review and approve initial data extract		A	I	C	R							I						I		
Correct issues with data extract, if needed			I	C	C							A	C		C			R		

4.3.5 Standard 3rd Party Data Exchange Planning

Standard Data Exchange tools are available to allow clients to get data in and out of the Tyler system with external systems. Data exchange tools can take the form of Imports and Exports, and Interfaces.

A Standard Interface is a real-time or automated exchange of data between two systems. This could be done programmatically or through an API. It is Tyler's responsibility to ensure the Tyler programs operate correctly. It is the City's responsibility to ensure the third party program operates or accesses the data correctly.

The City and Tyler Project Manager(s) will work together to define/confirm which Data Exchanges are needed (if not outlined in the Agreement). Tyler will provide a file layout for each Standard Data Exchange.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 2	Standard 3rd Party Data Exchange Planning																					
	TYLER									CLIENT												
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Review Standard or contracted Data Exchanges			A	R								C	I		I			C		
Define or confirm needed Data Exchanges			I	C								A	C		C			R		

4.3.6 Modification Analysis & Specification, if contracted

Tyler staff conducts additional analysis and develops specifications based on information discovered during this Stage. The City reviews the specifications and confirms they meet City's needs prior to acceptance. Out of Scope items or changes to specifications after acceptance may require a Change Request.

Tyler's intention is to minimize Modifications by using Standard functionality within the Application, which may require a City business process change. It is the responsibility of the City to detail all of their needs during the Assess and Define Stage. Tyler will write up specifications (for City approval) for contracted program Modifications. Upon approval, Tyler will make the agreed upon Modifications to the respective program(s). Once the Modifications have been delivered, the City will test and approve those changes during the Build and Validate Stage.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 2	Modification Analysis & Specification, if contracted																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Analyze contracted modified program requirements			A	C			R					C	C	I	C			C		
Develop specification document(s)	A		I	C			R					I	I		I			I		
Review specification document(s); provide changes to Tyler, if applicable			I	C			C					A	R	I	C			C		
Sign-off on specification document(s) and authorize work			I				I				A	R	C	I	I			C		

4.3.7 Forms & Reports Planning

City and Tyler Project Manager(s) review Forms and Reporting needs. Items that may be included in the Agreement are either Standard Forms and Reports or known/included Modification(s). Items not included in the Agreement could be either City-developed Reports or a newly discovered Modification that will require a Change Request.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 2	Forms & Reports Planning																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Review required Forms output			A	R									C	I	C			I		
Review and complete Forms options and submit to Tyler			I			I						A	R		C					
Review in Scope Reports			A	R								I	C		C					
Identify additional Report needs			I	C								A	R		C					
Add applicable tasks to Project schedule		A	R	I		C						C	I		I			I		

4.3.8 System Deployment

The Tyler Technical Services team installs Tyler Applications on the server (hosted or client-based) and ensures the platform operates as expected.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 2	Tyler Internal Coordination & Planning																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Install contracted software on server	A		I					R				I						C		
Ensure platform operates as expected	A		I					R				I						C		

4.3.9 Control Point 2: Assess & Define Stage Acceptance

Acceptance criteria for this Stage includes completion of all criteria listed below. Advancement to the Build & Validate Stage is dependent upon Tyler's receipt of the Stage Acceptance.

4.3.9.1 Assess & Define Stage Deliverables

- Completed analysis Questionnaire
    - Objective: Gather and document information related to City business processes for current/future state analysis as it relates to Tyler approach/solution.
    - Scope: Provide comprehensive answers to all questions on Questionnaire(s).
    - Acceptance criteria: City acceptance of completed Questionnaire based on thoroughness of capturing all City business practices to be achieved through Tyler solution.
- Data conversion summary and specification documents
    - Objective: Define data conversion approach and strategy
    - Scope: Data conversion approach defined, data extract strategy, conversion and reconciliation strategy.
    - Acceptance criteria: Data conversion document(s) delivered to the City, reflecting complete and accurate conversion decisions.
- Modification specification documents, if contracted
    - Objective: Provide comprehensive outline of identified gaps, and how the modified program meets the City's needs
        - Scope: Design solution for Modification
    - Acceptance criteria: City accepts Modified Specification Document(s) and agrees that the proposed solution meets their requirements
- Completed Forms options and/or packages
    - Objective: Provide specifications for each City in Scope form, Report and output requirements
    - Scope: Complete Forms package(s) included in agreement and identify Reporting needs.
    - Acceptance criteria: Identify Forms choices and receive supporting documentation
- Installation checklist
    - Objective: Installation of purchased Tyler software
    - Scope: Tyler will conduct an initial coordination call, perform an installation of the software included in the Agreement, conduct follow up to ensure all tasks are complete, and complete server system administration training, unless the City is hosted.
    - Acceptance criteria: Tyler software is successfully installed and available to authorized users, City team members are trained on applicable system administration tasks.

4.3.9.2 Assess & Define Stage Acceptance Criteria

- Tyler software is installed
- Fundamentals review is complete

- Required Form information complete and provided to Tyler
- Current/Future state analysis completed; Questionnaires delivered and reviewed
- Data conversion mapping and extractions completed and provided to Tyler

4.4 Build & Validate (Stage 3)

The objective of the Build & Validate Stage is to prepare the software for use in accordance with the City's needs identified during the Assess and Define Stage, preparing the City for Final Testing and Training.

4.4.1 Configuration & Power User Training

Tyler staff collaborates with the City to complete software configuration based on the outputs of the future state analysis performed during the Assess and Define Stage. Tyler staff will train the City Power Users to prepare them for the Validation of the software. The City collaborates with Tyler staff iteratively to Validate software configuration.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 3	Configuration & Power User Training																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Perform configuration			A	R								I	R		I					
Power User process and Validation training			A	R								I	C	I	C				I	
Validate configuration			I	C								A	C		R			C		

4.4.2 Data Conversion & Validation

Tyler completes an initial review of the converted data for errors. With assistance from the City, the Tyler Data Conversion Team addresses items within the conversion program to provide the most efficient data conversion possible. With guidance from Tyler, the City reviews specific data elements within the system and identifies and Reports discrepancies in writing. Iteratively, Tyler collaborates with the City to address conversion discrepancies prior to acceptance.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 3	Data Conversion & Validation																					
	TYLER									CLIENT												
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Write and run data conversion program against Client data		A	I	C	R													C		
Complete initial review of data errors		A	I	C	R							I	I					C		
Review data conversion and submit needed corrections			I	C	I							A	C		R			C		
Revise conversion program(s) to correct error(s)		A	I	C	R							I	I		C			C		

4.4.3 Standard 3rd Party Data Exchange Validation

Tyler provides training on Data Exchange(s) and the City tests each Data Exchange.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 3	Standard 3rd Party Data Exchange Validation																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Train Data Exchange(s) processing in Tyler software			A	R								C	I	I	I			C	I	
Coordinate 3rd Party Data Exchange activities			I	I								A	C		C			R		
Test all Standard 3rd party Data Exchange(s)			I	C								A	C	I	R			C		

4.4.4 Modification Delivery & Validation, if contracted

Tyler delivers in Scope Modification(s) to the City for preliminary testing. Final acceptance will occur during the Final Testing and Training Stage.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 3	Modification Delivery & Validation, if contracted																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Develop and deliver contracted modified program(s)		A	I	C	I		R					I	C	I	C			I		C
Test contracted modified program(s) in isolated database			I	C			C					A	C		R			C		
Report discrepancies between specification and delivered contracted modified program(s)			I	I			I					A	R		C			C		
Make corrections to contracted modified program(s) as required		A	I	C	I		R					I	C		C			I		

4.4.5 Forms & Reports Validation

Tyler provides training on Standard Forms/Reports and the City tests each Standard Form/Report.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 3	Forms & Reports Validation																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Standard Forms & Report Training			A	R								I	C		C			I		
Test Standard Forms & Reports			I	C		C						A	C		R			C		

4.4.6 Control Point 3: Build & Validate Stage Acceptance

Acceptance criteria for this Stage includes all criteria listed below. Advancement to the Final Testing & Training Stage is dependent upon Tyler's receipt of the Stage Acceptance.

4.4.6.1 Build & Validate Stage Deliverables

- Initial data conversion
    - Objective: Convert Legacy System data into Tyler system
    - Scope: Data conversion program complete; deliver converted data for review
    - Acceptance criteria: Initial error log available for review
- Data conversion verification document
    - Objective: Provide instructions to the City to verify converted data for accuracy
    - Scope: Provide self-guided instructions to verify specific data components in Tyler system
    - Acceptance criteria: City accepts data conversion delivery; City completes data issues log
- Installation of Modifications on the City's server(s) *except for hosted Clients
    - Objective: Deliver Modification(s) in Tyler software
    - Scope: Program for Modification is complete and available in Tyler software, Modification testing
    - Acceptance criteria: Delivery of Modification(s) results in objectives described in the City-signed specification.
- Standard Forms & Reports Delivered
    - Objective: Provide Standard Forms & Reports for review
    - Scope: Installation of all Standard Forms & Reports included in the Agreement
    - Acceptance criteria: Standard Forms & Reports available in Tyler software for testing in Stage 4

4.4.6.2 Build & Validate Stage Acceptance Criteria

- Application configuration completed
- Standard Forms & Reports delivered and available for testing in Stage 4
- Data conversions (except final pass) delivered
- Standard 3rd party Data Exchange training provided
- Modifications delivered and available for testing in Stage 4
- The City and Tyler have done a review of primary configuration areas to Validate completeness and readiness for testing and acceptance in Stage 4.

4.5 Final Testing & Training (Stage 4)

During Final Testing and Training, Tyler and the City review the final Cutover plan. A critical Project success factor is the City understanding the importance of Final Testing and Training and dedicating the resources required for testing and training efforts in order to ensure a successful Production Cutover.

4.5.1 Cutover Planning

City and Tyler Project Manager(s) discuss final preparations and critical dates for Production Cutover. Tyler delivers a Production Cutover Checklist to outline Cutover tasks to help prepare the City for success.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 4	Cutover Planning																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Cutover Planning Session		A	R	C							I	C	C	C	C			C	C	
Develop Production Cutover Checklist		A	R	C						I	I	C	C	I	I			C		

4.5.2 User Acceptance Testing (UAT)

The City performs User Acceptance Testing to verify software readiness for day-to-day business processing. Tyler provides a Test Plan for users to follow to ensure proper Validation of the system.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 4	User Acceptance Testing (UAT)																					
	TYLER									CLIENT												
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Deliver Test Plan for User Acceptance Testing		A	R	C								I	I							
Perform User Acceptance Testing			I	C							A	R	C	C	C	I	I	C	I	
Accept modified program(s), if applicable			I	I			I				A	R	C	I	C			C		
Validate Report performance			I	C		C						A	C		R			C		

4.5.3 End User Training

End Users attend training sessions to learn how to utilize Tyler software. Training focuses primarily on day-to-day City processes that will be delivered via group training, webinar, eLearnings and/or live training sessions.

Unless stated otherwise in the Agreement, Tyler provides one occurrence of each scheduled training or implementation topic with up to the maximum number of users as defined in the Agreement, or as otherwise mutually agreed. City users who attended the Tyler sessions may train any City users not able to attend the Tyler sessions or additional sessions may be contracted at the applicable rates for training.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 4	End User Training																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Conduct user training sessions			A	R								C	I		I	I		I	I	
Conduct additional End User training sessions			I								I	A	C	I	R	I	I	I	I	

4.5.4 Control Point 4: Final Testing & Training Stage Acceptance

Acceptance criteria for this Stage includes all criteria listed below. Advancement to the Production Cutover Stage is dependent upon Tyler's receipt of the Stage Acceptance.

4.5.4.1 Final Testing & Training Stage Deliverables

- Production Cutover checklist
    - Objective: Provide a detailed checklist outlining tasks necessary for production Cutover
    - Scope: Dates for final conversion, date(s) to cease system processing in Legacy System, date(s) for first processing in Tyler system, contingency plan for processing
    - Acceptance criteria: Definition of all pre-production tasks, assignment of owners and establishment of due dates
- User Acceptance Test Plan
    - Objective: Provide testing steps to guide users through testing business processes in Tyler software.
    - Scope: Testing steps for Standard business processes.
    - Acceptance criteria: Testing steps have been provided for Standard business processes.

4.5.4.2 Final Testing & Training Stage Acceptance Criteria

- Production Cutover Checklist delivered and reviewed
- Modification(s) tested and accepted, if applicable
- Standard 3rd party Data Exchange programs tested and accepted
- Standard Forms & Reports tested and accepted
- User acceptance testing completed
- End User training completed

4.6 Production Cutover (Stage 5)

City and Tyler resources complete tasks as outlined in the Production Cutover Plan and the City begins processing day-to-day business transactions in the Tyler software. Following production Cutover, the City transitions to the Tyler support team for ongoing support of the Application.

4.6.1 Final Data Conversion, if applicable

The City provides final data extract and Reports from the Legacy System for data conversion and Tyler executes final data conversion. The City may need to manually enter into the Tyler system any data added to the Legacy System after final data extract.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 5	Final Data Conversion, if applicable																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Provide final data extract			C		I						I	A	C	I	I	I	I	R		
Provide final extract balancing Reports			I		I							A	C		R			I		
Convert and deliver final pass of data		A	I	I	R							I	I		I			C		
Validate final pass of data			I	C	C						I	A	C		R			C		
Load final conversion pass to Production environment			I		I						I	A	C	I	C			R		

4.6.2 Production Processing & Assistance

Tyler staff collaborates with the City during Production Cutover activities. The City transitions to Tyler software for day-to day business processing.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 5	Production Processing & Assistance																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Production processing			C	C						I	I	A	R	R	R	R	R	R	I	I
Provide production assistance			A	R				C				I	C	C	C	C	C	C		

4.6.3 Transition to Tyler Support

Tyler Project Manager(s) introduce the City to the Tyler Support team, who provides the City with day-to-day assistance following Production Cutover.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 5	Transition to Tyler Support																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Develop internal support plan			I								A	R	C	C	C	C		C	C	C
Conduct transfer to Support meeting	A	I	C					R				C	C	C	C	I	I	C	I	I

4.6.4 Schedule Post-Production Services, if applicable

Tyler provides post-production services if included in the Agreement. Prior to scheduling services, the Tyler Project Manager(s) collaborate with City Project Manager(s) to identify needs.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 5	Schedule Post-Production Services, if applicable																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Identify topics for post-production services			C	C								A	R	I	C				I	
Schedule services for post-production topics		A	R	I								C	C	I	C				I	

4.6.5 Control Point 5: Production Cutover Stage Acceptance

Acceptance criteria for this Stage includes all criteria listed below. Advancement to the Phase/Project Closure Stage is dependent upon Tyler's receipt of this Stage Acceptance.

4.6.5.1 Production Cutover Stage Deliverables

- Final data conversion, if applicable
    - Objective: Ensure (in Scope) Legacy System data is available in Tyler software in preparation for production processing.
    - Scope: Final passes of all conversions completed in this Phase
    - Acceptance criteria: Data is available in production environment
- Support transition documents
    - Objective: Define strategy for on-going Tyler support
    - Scope: Define support strategy for day-to-day processing, conference call with City Project Manager(s) and Tyler support team, define roles and responsibilities, define methods for contacting support
    - Acceptance criteria: The City receives tools to contact support and understands proper support procedures.

4.6.5.2 Production Cutover Stage Acceptance Criteria

- Final data conversion(s) delivered
- Processing is being done in Tyler production
- Transition to Tyler support is completed
- Post-live services have been scheduled, if applicable

4.7 Phase/Project Closure (Stage 6)

Project or Phase closure signifies full implementation of all products purchased and encompassed in the Phase or Project. The City moves into the next cycle of their relationship with Tyler (next Phase of implementation or long-term relationship with Tyler Support).

4.7.1 Close Phase/Project

The City and Tyler Project Manager(s) review the list of outstanding Project activities and develop a plan to address them. The Tyler Project Manager(s) review the Project budget and status of each contract Deliverable with the City Project Manager(s) prior to closing the Phase or Project.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 6	Close Phase/Project																				
	TYLER									CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Modification Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Review outstanding Project activities and develop action plan		A	R	C								C	C	I	C	I		C		
Review Project budget and status of contract Deliverables		A	R							I	I	C								

4.7.2 Control Point 6: Phase/Project Closure Stage Acceptance

Acceptance criteria for this Stage includes all criteria listed below. This is the final acceptance for the Phase/Project.

4.7.2.1 Phase/Project Closure Stage Deliverables

- Phase/Project reconciliation report
    - Objective: Provide comparison of contract Scope and Project budget
    - Scope: Contract Scope versus actual, analysis of services provided and remaining budget, identify any necessary Change Requests or Project activity.
    - Acceptance criteria: Acceptance of services and budget analysis and plan for changes, if needed.

4.7.2.2 Phase/Project Closure Stage Acceptance Criteria

- Outstanding Phase or Project activities have been documented and assigned
- Phase/final Project budget has been reconciled
- Tyler Deliverables for the Phase/Project are complete

5 Roles and Responsibilities

5.1 Tyler Roles and Responsibilities

Tyler assigns project manager(s) prior to the start of each Phase of the Project. The project manager(s) assign additional Tyler resources as the schedule develops and as needs arise. One person may fill multiple project roles.

5.1.1 Tyler Executive Management

- Provides clear direction for Tyler staff on executing on the Project Deliverables to align with satisfying the City's overall organizational strategy.
- Authorizes required project resources.
- Resolves all decisions and/or issues not resolved at the implementation management level as part of the escalation process.
- Offers additional support to the project team and is able to work with other Tyler department managers in order to escalate and facilitate implementation project tasks and decisions.
- Acts as the counterpart to the City's executive sponsor.

5.1.2 Tyler Implementation Management

- Acts as the counterpart to the City steering committee.
- Assigns initial Tyler project personnel.
- Works to resolve all decisions and/or issues not resolved at the Project Management level as part of the escalation process.
- Attends City steering committee meetings as necessary.
- Provides support for the project team.
- Provides management support for the Project to ensure it is staffed appropriately and staff have necessary resources.
- Monitors project progress including progress towards agreed upon goals and objectives.

5.1.3 Tyler Project Manager

The Tyler project manager(s) provides oversight of the Project, coordination of resources between departments, management of the project budget and schedule, effective risk and issue management, and is the primary point of contact for all Project related items.

- Contract Management
    - Validates contract compliance throughout the Project.
    - Ensures Deliverables meet contract requirements.
    - Acts as primary point of contact for all contract and invoicing questions.
    - Prepares and presents contract milestone sign-offs for acceptance by City project manager(s).
    - Coordinates Change Requests, if needed, to ensure proper Scope and budgetary compliance.
- Planning

- Update and deliver Implementation Management Plan.
- Defines project tasks and resource requirements.
- Develops initial project schedule and full scale Project Plan.
- Collaborates with City project manager(s) to plan and schedule project timelines to achieve on-time implementation.

- Implementation Management

  - Tightly manages Scope and budget of Project; establishes process and approval matrix with the City to ensure Scope changes and budget planned versus actual are transparent and handled effectively and efficiently.
  - Establishes and manages a schedule and resource plan that properly supports the Project Plan that is also in balance with Scope/budget.
  - Establishes risk/issue tracking/reporting process between the City and Tyler and takes all necessary steps to proactively mitigate these items or communicates with transparency to the City any items that may impact the outcomes of the Project.
  - Collaborates with the City's project manager(s) to establish key business drivers and success indicators that will help to govern project activities and key decisions to ensure a quality outcome of the project.
  - Sets a routine communication plan that will aide all project team members, of both the City and Tyler, in understanding the goals, objectives, current status and health of the project.

- Team Management

  - Acts as liaison between project team and Tyler manager(s).
  - Identifies and coordinates all Tyler resources across all applications, Phases, and activities including development, forms, installation, reports, implementation, and billing.
  - Provides direction and support to project team.
  - Builds partnerships among the various stakeholders, negotiating authority to move the Project forward.
  - Manages the appropriate assignment and timely completion of tasks as defined in the Project Plan, task list, and Production Cutover Checklist.
  - Assesses team performance and adjusts as necessary.
  - Interfaces closely with Tyler developers to coordinate program Modification activities.
  - Coordinates with in Scope 3rd party providers to align activities with ongoing project tasks.

5.1.4 Tyler Implementation Consultant

- Completes tasks as assigned by the Tyler project manager(s).
- Performs problem solving and troubleshooting.
- Follows up on issues identified during sessions.
- Documents activities for on site services performed by Tyler.
- Provides conversion Validation and error resolution assistance.
- Recommends guidance for testing Forms and Reports.
- Tests software functionality with the City following configuration.
- Assists during Production Cutover process and provides production support until the City transitions to Tyler Support.
- Provides product related education.

- Effectively facilitates training sessions and discussions with City and Tyler staff to ensure adequate discussion of the appropriate agenda topics during the allotted time.
- Conducts training (configuration, process, conversion Validation) for Power Users and the City's designated trainers for End Users.
- Clearly documents homework tasks with specific due dates and owners, supporting and reconciling with the final Project Plan.
- Keeps Tyler project manager(s) proactively apprised of any and all issues which may result in the need for additional training, change in schedule, change in process decisions, or which have the potential to adversely impact the success of the Project prior to taking action.

5.1.5 Tyler Sales

- Provide sales background information to Implementation during Project initiation.
- Support Sales transition to Implementation.
- Provide historical information, as needed, throughout implementation.

5.1.6 Tyler Software Support

- Manages incoming client issues via phone, email, and online customer incident portal.
- Documents and prioritizes issues in Tyler's Customer Relationship Management (CRM) system.
- Provides issue analysis and general product guidance.
- Tracks issues and tickets to timely and effective resolution.
- Identifies options for resolving reported issues.
- Reports and escalates defects to Tyler Development.
- Communicates with the City on the status and resolution of reported issues.

5.1.7 Tyler Subject Matter Expert

- Possesses both a broad and deep understanding of the functionality within Tyler software products for his/her functional area(s).
- Provides confident recommendations regarding configuration decisions and business process best practices using Tyler's products based on his/her experience and expertise implementing Tyler software products with similar organizations.
- Provides conversion consulting and mapping assistance.
- Follows up on issues identified during sessions.
- Documents activities for on site services.
- Clearly documents homework tasks with specific due dates and owners, supporting and reconciling with the final Project schedule.
- Keeps Tyler project manager(s) proactively apprised of any and all issues which may result in the need for additional training needs, change in schedule, change in process decisions, or which have the potential to adversely impact the success of the Project prior to taking action.
- Performs gap analysis and documents non-contracted Modifications requests.

5.1.8 Tyler Data Conversion Experts

- Validates client data files are in proper format.

- Develops customized conversion programs to convert Legacy System data into the Tyler database for production use according to defined mapping.
- Provides error Reports on unsupported data conditions and the merging or normalization of data fields.
- Assists the City with understanding and interpreting error Reports.
- Performs changes and corrections to customized conversion programs as the City discovers data anomalies and exception conditions.

5.1.9 Tyler Reports/Forms Experts

- Provides specifications for all Forms & Reports in Scope.
- Reviews requirements for Peripherals and Consumables, if applicable.
- Conducts review of City's form mockup sheets.
- Develops final form designs.
- Configures and installs Forms software and approved Forms.

5.1.10 Tyler Trainer

- Provides product related education.
- Effectively facilitates training sessions and discussions with City and Tyler staff to ensure adequate discussion of the appropriate agenda topics during the allotted time.
- Conducts training (configuration, process, conversion Validation) for Power Users and the City's designated trainers for End Users.

5.2 City Roles and Responsibilities

City resources will be assigned prior to the start of each Phase of the project. One person may be assigned to multiple project roles.

5.2.1 City Executive Sponsor

- Provides clear direction for the Project and how the Project applies to the organization's overall strategy.
- Champions the Project at the executive level to secure buy-in.
- Authorizes required Project resources.
- Resolves all decisions and/or issues not resolved at the City steering committee level as part of the escalation process.
- Actively participates in organizational change communications.

5.2.2 City Steering Committee

- Works to resolve all decisions and/or issues not resolved at the project manager level as part of the escalation process.
- Attends all scheduled steering committee meetings.
- Provides support for the project team.
- Assists with communicating key project messages throughout the organization.
- Prioritizes the project within the organization.

- Provides management support for the project to ensure it is staffed appropriately and staff have necessary resources.
- Monitors project progress including progress towards agreed upon goals and objectives.
- Has the authority to approve or deny changes impacting the following areas:
    - Cost
    - Scope
    - Schedule
    - Project Goals
    - City Policies

5.2.3 City Project Manager

The City shall assign project manager(s) prior to the start of this Project with overall responsibility and authority to make decisions related to project Scope, scheduling, and task assignment, and communicates decisions and commitments to the Tyler project manager(s) in a timely and efficient manner. When the City project manager(s) do not have the knowledge or authority to make decisions, he or she engages the correct resources from City to participate in discussions and make decisions in a timely fashion to avoid Project delays.

- Contract Management
    - Validates contract compliance throughout the Project.
    - Ensures invoicing and Deliverables meet contract requirements.
    - Acts as primary point of contact for all contract and invoicing questions.
    - Signs off on contract milestone acknowledgment documents.
    - Collaborates on and approves Change Requests, if needed, to ensure proper Scope and budgetary compliance.
- Planning
    - Review and acknowledge Implementation Management Plan.
    - Defines project tasks and resource requirements for City project team.
    - Collaborates in the development and approval of the initial Project Plan and Project Plan.
    - Collaborates with Tyler project manager(s) to plan and schedule Project timelines to achieve on-time implementation.
- Implementation Management
    - Tightly manages Project budget and Scope and collaborates with Tyler project manager(s) to establish a process and approval matrix to ensure Scope changes and budget planned versus actual are transparent and handled effectively and efficiently.
    - Collaborates with Tyler project manager to establish and manage a schedule and resource plan that properly supports the Project Plan, as a whole, that is also in balance with Scope/budget.
    - Collaborates with Tyler Project manager(s) to establishes risk/issue tracking/reporting process between the City and Tyler and takes all necessary steps to proactively mitigate these items or communicates with transparency to Tyler any items that may impact the outcomes of the Project.

- Collaborates with Tyler Project manager(s) to establish key business drivers and success indicators that will help to govern Project activities and key decisions to ensure a quality outcome of the Project.
- Routinely communicates with both City staff and Tyler, aiding in the understanding of goals, objectives, current status, and health of the Project by all team members.

- Team Management
  - Acts as liaison between project team and stakeholders.
  - Identifies and coordinates all City resources across all modules, Phases, and activities including data conversions, forms design, hardware and software installation, reports building, and satisfying invoices.
  - Provides direction and support to project team.
  - Builds partnerships among the various stakeholders, negotiating authority to move the Project forward.
  - Manages the appropriate assignment and timely completion of tasks as defined in the Project Plan, task list, and Production Cutover Checklist.
  - Assesses team performance and takes corrective action, if needed.
  - Provides guidance to City technical teams to ensure appropriate response and collaboration with Tyler Technical Support Teams to ensure timely response and appropriate resolution.
  - Coordinates in Scope 3rd party providers to align activities with ongoing Project tasks.

5.2.4 City Functional Leads

- Makes business process change decisions under time sensitive conditions.
- Communicates existing business processes and procedures to Tyler consultants.
- Assists in identifying business process changes that may require escalation.
- Attends and contributes business process expertise for current/future state analysis sessions.
- Identifies and includes additional subject matter experts to participate in Current/Future State Analysis sessions.
- Provides business process change support during Power User and End User training.
- Completes performance tracking review with client project team on End User competency on trained topics.
- Provides Power and End Users with dedicated time to complete required homework tasks.
- Act as an ambassador/champion of change for the new process.
- Identifies and communicates any additional training needs or scheduling conflicts to City project manager.
- Prepares and Validates Forms.
- Actively participates in all aspects of the implementation, including, but not limited to, the following key activities:
  - Task completion
  - Stakeholder Presentation
  - Implementation Management Plan development
  - Schedule development
  - Maintenance and monitoring of risk register
  - Escalation of issues
  - Communication with Tyler project team
  - Coordination of City resources

- Attendance at scheduled sessions
- Change Management activities
- Modification specification, demonstrations, testing and approval assistance
- Conversion Analysis and Verification Assistance
- Decentralized End User Training
- Process Testing
- User Acceptance Testing

5.2.5 City Power Users

- Participate in Project activities as required by the project team and project manager(s).
- Provide subject matter expertise on City business processes and requirements.
- Act as subject matter experts and attend current/future state and validation sessions as needed.
- Attend all scheduled training sessions.
- Participate in all required post-training processes as needed throughout Project.
- Participate in Conversion Validation.
- Test all Application configuration to ensure it satisfies business process requirements.
- Become Application experts.
- Participate in User Acceptance Testing.
- Adopt and support changed procedures.
- Complete all Deliverables by the due dates defined in the Project Plan.
- Demonstrate competency with Tyler products processing prior to Production Cutover.
- Provide knowledge transfer to City staff during and after implementation.

5.2.6 City End Users

- Attend all scheduled training sessions.
- Become proficient in Application functions related to job duties.
- Adopt and utilize changed procedures.
- Complete all Deliverables by the due dates defined in the Project Plan.
- Utilize software to perform job functions at and beyond Production Cutover.

5.2.7 City Technical Support

- Coordinates updates and releases with Tyler as needed.
- Coordinates the copying of source databases to training/testing databases as needed for training days.
- Extracts and transmits conversion data and control reports from City's Legacy System per the conversion schedule set forth in the Project Plan.
- Coordinates and adds new users and printers and other Peripherals as needed.
- Validates all users understand log-on process and have necessary permission for all training sessions.
- Coordinates Interface development for City third party Data Exchanges.
- Develops or assists in creating Reports as needed.
- Ensures onsite system hardware meets specifications provided by Tyler.
- Assists with software Installation as needed.

5.2.8 City Upgrade Coordinator

- Becomes familiar with the Software Upgrade process and required steps.
- Becomes familiar with Tyler's releases and updates.
- Utilizes Tyler Community to stay abreast of the latest Tyler releases and updates, as well as the latest helpful tools to manage the City's Software Upgrade process.
- Assists with the Software Upgrade process during implementation.
- Manages Software Upgrade activities post-implementation.
- Manages Software Upgrade plan activities.
- Coordinates Software Upgrade plan activities with City and Tyler resources.
- Communicates changes affecting users and department stakeholders.
- Obtains department stakeholder sign-offs to upgrade production environment.

5.2.9 City Project Toolset Coordinator

- Ensures users have appropriate access to Tyler project toolsets such as Tyler University, Tyler Community, Tyler Product Knowledgebase, SharePoint, etc.
- Conducts training on proper use of toolsets.
- Validates completion of required assignments using toolsets.

5.2.10 City Change Management Lead

- Validates users receive timely and thorough communication regarding process changes.
- Provides coaching to supervisors to prepare them to support users through the project changes.
- Identifies the impact areas resulting from project activities and develops a plan to address them proactively.
- Identifies areas of resistance and develops a plan to reinforce the change.
- Monitors post-production performance and new process adherence.

6 Glossary

Word or Term	Definition
Application	A computer program designed to perform a group of coordinated functions, tasks or activities for the benefit of the user.
Change Control	A systematic approach for managing change governing how Change Requests will be received, assessed and acted on.
Change Management	An approach for ensuring that changes are thoroughly and smoothly implemented and that the lasting benefits of change are achieved. The focus is on the global impact of change with an intense focus on people and how individuals and teams move from the current situation to the new one.
Change Request	A form used as part of the Change Control process whereby changes in the Scope of work, timeline, resources, and/or budget are revised and agreed upon by participating parties.
Consumables	Items that are used on a recurring basis, usually by Peripherals. Examples: paper stock or scanner cleaning kits.
Control Point	Occurring at the end of each Stage, the Control Point serves as a formal client review point. Project progress cannot continue until the client acknowledges the agreed upon Deliverables of the Stage have been met or agree on an action plan to make the Deliverable acceptable and move to next Stage while executing final steps of current Stage.
Cutover	The point when a client begins using Tyler software in production.
Data Exchange	A term used to reference Imports and Exports, and Interfaces which allow data to be exchanged between an external system and Tyler software.
Data Mapping	The process of mapping fields from the Legacy System to the appropriate location in the new system from one or more sources.
Deliverable	A tangible or intangible object/document produced as a result of the Project that is intended to be delivered to a client (either internal or external) or vendor at a specific time.
End User	The person for whom the software is designed to use on a day-to-day basis.
Forms	A document which is typically printed on a template background and only captures data for one record per page. Forms are provided to entity customers whether internal (employees) or external (citizens).
Imports and Exports	A process within the system that a user is expected to run to consume (Import) or produce (Export) a specifically defined file format/layout.
Interface	A real-time or automated exchange of data between two systems.

Install	References the initial installation of software files on client services and preparing the software for use during configuration. The version currently available for general release will always be used during the initial install.
Legacy System	The system from which a client is converting.
Modification	Modification of software program package to provide individual client requirements documented within the Scope of the Agreement.
Peripherals	An auxiliary device that connects to and works with the computer in some way. Examples: mouse, keyboard, scanner, external drive, microphone, speaker, webcam, and digital camera.
Phase	A portion of the Project in which specific set of related products are typically implemented. Phases each have an independent start, Production Cutover and closure dates but use the same Implementation Plans as other Phases within the Project. Phases may overlap or be sequential and may have the same Tyler project manager and Tyler project team or different individuals assigned.
Power User	An experienced client person or group who is (are) an expert(s) in the client business processes, as well as knowledgeable in the requirements and acceptance criteria.
Project	The Project includes all implementation activity from Plan & Initiate to Closure for all products, Applications and functionality included in a single Agreement. The Project may be broken down into multiple Phases.
Project Plan	The Project Plan serves as the master blueprint for the Project. As developed, the Project schedule will become a part of the Project Plan and outline specific details regarding tasks included in the Project Plan.
Project Planning Meeting	Occurs during the Plan & Initiate Stage to coordinate with the Client project manager to discuss Scope, information needed for project scheduling and resources.
Questionnaire	A document containing a list of questions to be answered by the client for the purpose of gathering information needed by Tyler to complete the implementation.
RACI	A chart describing level of participation by various roles in completing tasks or Deliverables for a Project or process. Also known as a responsibility assignment matrix (RAM) or linear responsibility chart (LRC).
Reports	Formatted to return information related to multiple records in a structured format. Information is typically presented in both detail and summary form for a user to consume.
Scope	Products and services that are included in the Agreement.

Software Upgrade	References the act of updating software files to a newer software release.
Stage	The top-level components of the WBS. Each Stage is repeated for individual Phases of the Project and requires acknowledgement before continuing to the next Stage. Some tasks in the next Stage may begin before the prior Stage is complete.
Stakeholder Presentation	Representatives of the Tyler implementation team will meet with key client representatives to present high level Project expectations and outline how Tyler and the Client can successfully partner to create an environment for a successful implementation.
Standard	Included in the base software (out of the box) package.
Statement of Work (SOW)	Document which will provide supporting detail to the Agreement defining Project -specific activities and Deliverables Tyler will provide to the client.
Test Plan	Describes the testing process. Includes "Test Cases" to guide the users through the testing process. Test cases are meant to be a baseline for core processes; the client is expected to supplement with client specific scenarios and processes.
Validation (or to validate)	The process of testing and approving that a specific Deliverable, process, program or product is working as expected.
Work Breakdown Structure (WBS)	A hierarchical representation of a Project or Phase broken down into smaller, more manageable components.

7 Tyler Resources Purchased

Tyler's complete EnerGov proposal as set forth in the Investment Summary have been defined within the project as follows:

- Estimated Timeline of 12 months

7.1.1 Business Scope (Transactions and Automation)

- Please refer to the Investment summary for hours and scope of the project

7.1.2 "Business transaction" is defined by:

- Unique workflow or business process steps & actions (including output actions)
- Unique Automation logic (IO logic etc)
- Unique Fee assessment / configuration definition
- Unique Custom fields/forms definition

Uniqueness of any of these mentioned parameters regulates the need for a unique business case transaction design document and configuration event

7.1.3 "Template" transaction is defined by:

- A pre-defined and pre-configured EnerGov best management business process.

7.1.4 "Geo-Rule" is defined by:

- An automation event that is triggered by a condition configured around the source Esri geodatabase. Current geo-rule events are:

• **Alert**	• **Displays a pop-up with a custom message to the user, notifying them of certain spatial data (i.e. noise abatement zones; flood zones; etc.).**
• **Block**	• **Places a block on the case and prevents any progress or updates from occurring on the record (i.e. no status changes can be completed, no fees can be paid, the workflow cannot be managed, etc.)**
• **Block with Override**	• **Places a block on the case and prevents any progress or updates from occurring on the record (i.e. no status changes can be completed, no fees can be paid, the workflow cannot be managed, etc.) However, the block can be overridden by end-users who have been given the proper securities.**
• **Fee Date**	• **Populates the CPI vesting date on the record if vesting maps are used by the jurisdiction.**

• **Filed Mapping**	• A custom field or any field inherent in the EnerGov application can automatically populate with information based on spatial data.
• **Required Action**	• A workflow action can automatically populate in the workflow details for the particular record (i.e. plan, permit, code case, etc.) that requires the action based on certain spatial data related to the case.
• **Required Step**	• A workflow step can automatically populate in the workflow details for the particular record (i.e. plan, permit, code case, etc.) that requires the step based on certain spatial data related to the case.
• **Zone Mapping**	• The zone(s) automatically populate on the "Zones" tab of the record (i.e. plan, permit, code case, etc.).

7.1.5 "Intelligent Object (IO)" is defined by:

- Key components for automatically and reactively triggering geo-rules, computing fees, and generating emails, alerts and other notifications.

7.1.6 "Intelligent Automation Agent (IAA)" is defined by:

- A tool designed to automate task in a proactive manner by setting values and generating emails and other tasks. On a nightly basis, a Windows service sweeps the EnerGov system looking for IAA conditions that have been met, and the associated actions are then performed. The IAA does not generate alerts or errors.

7.1.7 "EnerGov SDK API (Toolkits)" are defined by:

- API's developed by Tyler Technologies for the purpose of extending the EnerGov Framework and functionality to external agencies and systems. Full documentation is available for each toolkit upon request.

Note: The EnerGov toolkits and related documentation are simply tools that allow clients to create applications and integrations. The purchase of a toolkit does not imply any development related services from Tyler Technologies. The client is responsible for working with their IT staff and VAR's to develop any necessary applications and integrations except as otherwise noted in the Investment Summary for any "in-scope" integrations.

8 EnerGov Conversion Summary

8.1 Community Development: Permits

- Permit master basic information
- Permit Contacts
- Contacts – Unique (keyed) contacts converted to global contacts
- Non-keyed contacts converted to a Memo Custom Field or a standard note
- Parcels and Addresses
- Reviews and Approvals – Converted to Activity
- Inspections and Inspection Cases
- Sub-Permit Associations – Visible in workflow and attached records section
- Fees
- Meetings and Hearings
- Bonds and Escrow
- Activities and Actions

Meeting Date: 6/6/2023	**AGENDA ITEM**		**Number:** 7.M
Section:	CONSENT AGENDA		
Item Category:	Consent - Disposition Item	**Res./Ord. No:**	
Strategic Goal:	Water Quality & the Environment - Other		
Department :	Public Works - Utilities Management		
Subject:	Intent to Bid - Annual Supply of Chemicals for Water and Wastewater		
Budget Impact:	The bid award will reflect the vendor provided unit pricing for the desired unit of measure for each of the chemicals listed. Funding for annual water and wastewater treatment plant chemical costs is contained in Fund 401-Water and Wastewater Operating Fund and is estimated at $800,000 for Fiscal Year 2023-2024.		
Summary:	This item is of staff's intent to go out to bid on various chemicals required in the water and wastewater treatment process.		
Recommended Action:	This item serves as public notification of the intent to utilize the aforementioned and attached bid documents for advertisement and the eventual award for pertinent chemical provision and delivery. No action is required by the City Commission at this time. Subsequent action will be requested in the future for recommendation of bid award to the lowest most responsive vendor as determined upon review of bids received as a result of this bid advertisement.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Bob Preis, Utilities Manager

Date: June 6, 2023

Subject: Intent to Bid - Annual Supply of Chemicals for Water and Wastewater

Commission Goal: Water Quality & the Environment - Other

Introduction

This is a disposition item notifying the City Commission of staff's intent to utilize the attached documents for purposes of securing bids from interested companies to provide and deliver chemicals for use at the City's Water and Wastewater Treatment Facilities for a two (2) year fixed rate period, with an automatic price increase in the third (3rd) year, based on the Producer Price Index (PPI) for Water Treatment Chemicals.

Background

Each year, the City's Water and Wastewater Utilities Division is required to prepare bid specifications and contract conditions for desired chemicals delivered and utilized at the City's water and wastewater treatment facilities.

Staff has prepared the attached bid documents for advertisement following the City's unique procurement conditions, chemical specifications and insurance provisions for the types and quantities of products necessary for compliant plant operations.

Discussion

Under existing policy, the project manager is required to provide a copy of all in-house prepared bid documents for City Commission review prior to advertisement of the proposed services. Specifications define product criteria, estimated annual quantities for use and pertinent delivery conditions and locations. The bid advertisement is scheduled for June 11, 2023 with a receipt of bids on July 11, 2023. Upon receipt of bids, City staff will conduct an evaluation of the bids to determine the lowest and most responsive vendor. Upon staff determination of the lowest responsive bidder, a recommendation for award will be provided to the City Commission.

Budget Impact

The bid award will reflect the vendor provided unit pricing for the desired unit of measure for each of the chemicals listed. Funding for annual water and wastewater treatment plant chemical costs is contained in Fund 401-Water and Wastewater Operating Fund and is estimated at $800,000 for Fiscal Year 2023-2024.

Citizen Impact

The public advertisement and eventual award of services to the most responsive bidder insures vendors supplying essential products that meet the City's qualifications standards and pricing obtained is competitively based.

Recommendation

This item serves as public notification of the intent to utilize the aforementioned and attached bid documents for advertisement and the eventual award for pertinent chemical provision and delivery. No action is required by the City Commission at this time. Subsequent action will be requested in the future for recommendation of bid award to the lowest most responsive vendor as determined upon review of bids received as a result of this bid advertisement.

AGREEMENT

THIS AGREEMENT is made and entered into by and between the **City of Ormond Beach** ("City"), a Florida municipal corporation, 22 South Beach Street, Ormond Beach, Volusia County, Florida and _____("Contractor"), _____, and in consideration of the mutual promises and covenants herein contained, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree to the following:

1. **Scope of Work.** The Bid ("Water and Wastewater Chemicals", ITB 2024-01) attached hereto as Exhibit "A", is incorporated herein by reference and is a material part of this Agreement. The Contractor shall fully comply with the terms and conditions described in the attached exhibit.

   A. **Authorization for Purchases.**
      1. The purchase of chemicals will be on an as-needed basis using Purchase Orders for orders exceeding $2,500.00.

      2. Each Purchase Order shall contain the chemical name, cost per unit, number of units purchased and total cost.

      3. The Purchase Orders will be issued under and shall incorporate the terms of this Agreement. City makes no covenant or promise as to the amount of chemicals that will be purchased during the life of this Agreement. City reserves the right to contract with other parties for the products contemplated by this Agreement when it is determined by City to be in the best interest of City to do so.

2. **Term.** This Agreement shall be effective on October 1, 2023 and shall have an initial term of two (2) years. This Agreement will be automatically renewed for one (1) additional one-year period unless either party provides at least ninety (90) days prior written notice of its intent not to renew.

3. **Consideration.**
   A. Contractor shall provide the chemicals at the prices set forth on Exhibit "A". Contractor shall prepare and submit invoices to the City at the address set forth in Paragraph 9 of this Agreement. All such invoices shall be paid by the City within thirty (30) days.

   B. Cost Adjustments: Bidder agrees that prices quoted will be firm for the initial term of the contract. No cost increases shall be accepted in the initial contract term. On or before October 1, 2025, the City Commission will provide for a cost of living rate adjustment to reflect the percentage increase, if any, in the Producer Price Index (PPI) for "Chemicals and Allied Products (WPU06)" as published by the Bureau of Labor Statistics, U.S. Dep't. of Labor, determined by comparing the PPI for the March immediately preceding the PPI for March of the prior year. The maximum increase for any annual period shall be the actual posted PPI increase referenced above and shall be

documented by a Resolution and will take effect on October 1 of the year in which it was approved.

Any extraordinary cost adjustments requested outside of these parameters may require additional documentation in addition to a presentation being made to City Staff or the City Commission at the requestor's expense.

4. **Delivery.** Contractor shall deliver the chemicals within the time frame set forth on Exhibit "A".

5. **Termination of Agreement**.

(a) The City Commission shall have the right to terminate the Agreement in the event the Contractor files any petition or proceeding for bankruptcy relief, or is adjudicated to be bankrupt or insolvent, or fails to pay just debts as they ordinarily become due; or for a material breach of this agreement that remains uncured for at least thirty days after prior written receipt of a notice of violation of same.

(b) This Agreement may not be terminated by the Contractor.

6. **Assignment**. The Contractor shall not assign, convey or transfer all or any part of this Agreement, or all or any part of Contractor's interest herein, or all or any part of any interest in the Contractor, without the prior written consent of the City Commission, which consent shall not be unreasonably withheld.

7. **Complete Agreement**. This Agreement, including the provisions set forth in the exhibit attached hereto and incorporated by reference herein, constitutes the entire and complete agreement of the parties, and the promises and covenants herein contained shall survive the life of this Agreement.

8. **Amendment to Agreement**. Any amendment, change, or modification of this Agreement must be in writing and fully executed by both parties.

9. **Notices**. All notices which are required by this Agreement shall be provided to the parties at the following addresses, or such other addresses as may be requested in writing by either party:

City of Ormond Beach	**Contractor**
Joyce Shanahan, City Manager	_____
(copy to City Attorney)	_____
22 South Beach Street	_____
Ormond Beach, FL 32174	_____

10. **Sovereign Immunity**. The City expressly retains and reserves all rights, privileges, immunities, and benefits of sovereign immunity. This provision shall be construed broadly in favor of the City.

11. **Venue**. The terms and conditions of this Agreement shall be construed and enforced under the laws of the State of Florida. Any action or proceeding, either at law or in equity, regarding this Agreement shall be brought in the circuit court, Seventh Judicial Circuit in and for Volusia County, Florida. Venue in any other jurisdiction or forum, whether it be any other circuit, state or federal venue, is hereby expressly waived.

12. **Waiver of Conditions**. No waiver by the City of any condition or breach of performance by the Contractor shall constitute an irrevocable, continuing, or subsequent waiver by the City of the same condition or breach of performance, or of any other condition or other breach of performance.

13. **Severability**. If any part of this Agreement is declared to be unenforceable or void by a court of competent jurisdiction, the remaining parts of the Agreement shall remain in full force and effect as long as the services to be provided by the Contractor are not materially affected, altered or impaired as a result of said judicial declaration.

14. **Conflicting Provisions.** In the event of any conflict between the provisions of this Agreement and any exhibits, the provision most favorable to the City shall control and shall be given full force and effect.

15. **Indemnification**. The City, its agents, employees, and officials, both elected and appointed, shall be indemnified and held harmless by Contractor from any and all liabilities, claims, and causes of action which may arise out of the willful, negligent, or unlawful acts or omissions of the Contractor or its subcontractors in the performance of this Agreement, unless such claims are a result of the City's sole negligence, as determined by the final decision maker of such claim.

16. **Duty to Defend.** The Contractor shall defend all suits and administrative actions, including all appellate proceedings, brought against the City, its agents, employees, and officials, both elected and appointed and shall pay all attorneys' fees and costs associated with the City's legal defense, as may be selected by the City, arising from all claims and causes of action described in Section 15 above. Such payment on behalf of the City shall be in addition to any and all other legal or equitable remedies available to the City and shall not be considered to be the City's exclusive remedy.

17. **Contractor's Insurance**. The Contractor shall purchase and maintain for the entire life of this Agreement, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under this Agreement, whether such operations be by the Contractor, or by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may

be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

18. **Types of Insurance and Limits of Liability**

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

(a) Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident
$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for coverage. However, if the contractor subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

(b) Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations

h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)
k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence
$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

(c) Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract.

ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

$1 Million	Combined Single Limit for Bodily Injury and Property Damage

(d) Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,0000 per occurrence.

(e) Builder’s Risk

Contractor shall purchase Builder’s Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include

coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

(f) Professional Liability, Malpractice and/or Errors and Omissions

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

19. **Requirements for Certificates of Insurance**.

(a) With the execution of this Agreement, the Contractor shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall contain a provision that the coverage under the policies will not be canceled, non-renewed or materially changed until at least **thirty (30)** days' prior written notice of such cancellation, non-renewal or change [except for nonpayment of premium, which shall be **ten (10)** days] has been given to the City. The Contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACORD FORM 25-S (7/90), or its successor form, and shall be made a part of this Agreement.

(b) New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

(c) If requested by the City, the Contractor shall furnish complete copies of the Contractor's insurance policies, forms and endorsements.

(d) For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

(e) If the Contractor fails to obtain and maintain for the life of the Agreement the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City from the amount due the Contractor for the work covered by the Agreement.

(f) **Policies of Insurance**

1. Except as otherwise provided herein, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-) in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carriers; written confirmation is required.

3. All policies of insurance or certificates thereof referred to herein shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability and Automobile Liability policies of insurance and certificates thereof.

20. **Enforcement of Costs**. If any legal action or other proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default, or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorneys' fees, court costs, and all expenses even if not taxable court costs (including, without limitation, all such fees, costs and expenses incident to arbitration, appellate, bankruptcy, and post-judgment proceedings), incurred in that action or proceeding or any appeal, in addition to any other relief to which the party or parties may be entitled. Attorneys' fees include legal assistant fees, expert witness fees, investigative fees, administrative costs, and all other charges billed by the attorney for the prevailing party.

21. **Compliance With Laws.** Contractor shall comply with all applicable federal, state and local laws and regulations.

22. **Compliance With Florida Public Records Law**. Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.
(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by

law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.
(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.
(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

CITY CLERK
22 SOUTH BEACH STREET
ORMOND BEACH, FLORIDA 32175. (386)677-0311
CITYCLERK@ORMONDBEACH.ORG

Ref: Fla. Stat. §119.0701(2016)

23. **Limitation of Remedy and Liability.** Contractor and Owner expressly waive any claim for consequential damages against the other including but not limited to, a waiver of claims for diminished bonding capacity, loss of financing, loss of business reputation, lost profits on other projects or other lost opportunity damage claims.

Contractor expressly agrees that any claim (tort, contract, claim in equity, or otherwise) by Contractor for damages against Owner shall not exceed the total amount of the contract price, less any amounts actually paid to the Contractor by the Owner.

24. **Waiver of Right to Jury Trial.** THE PARTIES HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVE ANY RIGHT WHICH ANY PARTY MAY HAVE TO TRIAL BY JURY IN RESPECT OF ANY PROCEEDING, LITIGATION OR COUNTERCLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN) OR

ACTIONS OF ANY PARTY. IF THE SUBJECT MATTER OF ANY LAWSUIT IS ONE IN WHICH THE WAIVER OF JURY TRIAL IS PROHIBITED, NO PARTY TO THIS AGREEMENT SHALL PRESENT AS A NON-COMPULSORY COUNTERCLAIM IN ANY SUCH LAWSUIT ANY CLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT. FURTHERMORE, NO PARTY TO THIS AGREEMENT SHALL SEEK TO CONSOLIDATE ANY SUCH ACTION IN WHICH A JURY TRIAL CANNOT BE WAIVED.

25. **Verification of Employment Status Using E-Verify System**

(a) Section 448.09, *Florida Statutes*, makes it unlawful for any person to knowingly employ, hire, recruit, or refer, either for herself or himself, or on behalf of another, for private or public employment within the state, an alien who is not duly authorized to work in the United States. Contractor warrants that it is registered with the U.S. Department of Homeland Security's E-Verify system, and is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

(b) Contractor agrees that if the contractor enters into an agreement with a subcontractor, the subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and contractor warrants it shall maintain any such affidavits for the duration of the contract. If the City has a good faith belief that a subcontractor knowingly violated Section 448.09 (1), the City shall promptly notify the contractor and order the contractor to immediately terminate the contract with the subcontractor.

(c) In the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and as provided by statute, the contractor may not be awarded a public contract for at least one (1) year after the date of termination. The contractor may also be held liable for any additional costs incurred by the City as a result of the termination of the contract.

26. **No Conflict of Interest.** The Contractor warrants and agrees that neither it, nor any of its employees, agents, officers, directors, shareholders and independent contractors are, or will become, under contract with or accept compensation from any individual, business, corporation or governmental entity that has the possibility of an adverse interest to those of the City of Ormond Beach. The Contractor and its officers, directors, shareholders, employers, agents and subcontractors, agree not to provide any services or assistance to any entity directly or indirectly relating to the services provided to the City and to immediately notify the City Manager and City Attorney of any contact with any entity that has, or potentially has, a conflict of interest with the City of Ormond Beach. This provision shall be interpreted as broadly as possible to prevent any potential or actual conflict of interest presently or in the future by the Contractor.

27. **Effective Date**. This Agreement shall become effective upon the date last signed by the parties hereto.

IN WITNESS WHEREOF**,** the undersigned parties have caused this Agreement to be signed on the dates indicated hereinbelow.

GENERAL CONDITIONS

PUBLIC ENTITY CRIMES: A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a Bid on a contract to provide any goods or services to a public entity, may not submit a Bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit Bids on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

DISCRIMINATION: Pursuant to Section 287.134(2)(a), Florida Statutes, an entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid or proposal on a contract to provide any goods or services to a public entity, may not submit a bid or proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit bid or proposal on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

PUBLIC RECORDS/NON-CONFIDENTIALITY OF BIDS AND/OR PROPOSALS. The City of Ormond Beach cannot and does not warrant the confidentiality of any information submitted in response to this solicitation. Florida law provides that municipal records shall at all times be open for personal inspection by any person, Section 119.01, F.S., The Public Records Law. Information and materials received by the City of Ormond Beach in connection with all Proposers' response shall be deemed to be public records subject to public inspection upon award, recommendation for award, or 30 days after bid opening, whichever occurs first. Section 119.071, F.S.

NOTIFICATION OF BIDS AND RFP'S: The City uses the services of DemandStar (www.demandstar.com) for notification of its Bids and RFP's on-line on the Internet. If you have received a copy of this Bid/RFP from any source other than DemandStar, please be aware that you may not have received the latest version of the Bid/RFP or any related addendums.

SUBMISSION OF BIDS: All Bids shall be submitted in a sealed envelope. The Invitation to Bid (ITB) number, title, and opening date shall be clearly displayed on the outside of the sealed envelope. The delivery of said Bid to the Purchasing Office on or before the specified opening date and time is solely and strictly the responsibility of the Bidder. Any Bid received by the Purchasing Office after the specified date and time will not be accepted. Bids must be submitted on forms provided by the City. No other forms will be accepted. Telephone, telefax and telegraph Bids will not be considered. No Bid may be modified after opening. **No Bid may be withdrawn after opening for a period of ninety (90) days unless otherwise specified.**

EXECUTION OF BID: Bid must contain a manual signature of authorized representative in the space(s) provided. Bids must be typed or printed in ink. Use of erasable ink is not permitted. All corrections made by Bidder to any Bid entry must be initialed. The company name and Federal

Employer Identification Number (F.E.I.N.) or Social Security (S.S.) number shall appear in the space(s) provided.

BID OPENING: Bids shall be opened and the name of the Bidders and the bid amounts shall be read publicly. Bid amounts announced at the bid opening are subject to change due to math errors made by Bidders

BID TABULATION: Any Bidder wishing to receive a copy of the Bid tabulation is required to enclose a stamped, self-addressed envelope with their Bid response. Bid opening tabulations will be posted on DemandStar.com.

CLARIFICATION/CORRECTION OF BID ENTRY: The City of Ormond Beach reserves the right to allow for the clarification of questionable entries and for the correction of obvious mistakes.

INTERPRETATION: Any questions concerning conditions and specifications shall be directed to the Purchasing Coordinator. Those interpretations which may affect the eventual outcome of this Bid will be furnished in writing to all prospective Bidders. No interpretation shall be considered binding unless provided in writing by the City of Ormond Beach.

MINORITY POLICIES: The City of Ormond Beach, Florida, encourages the full participation of Disadvantaged and Women Business Enterprises (D&WBE) in the provision of goods and services.

REGISTRATION AND RISK MANAGEMENT REQUIREMENTS: Any Vendor delivering a product or Contractor doing work for the City of Ormond Beach, on City property shall be **registered** to do business in the City of Ormond Beach and shall provide **proof of**, abide by and maintain, for the entire life of the Contractual Agreement, including any and all approved time extensions, such **insurance** as is required by City ordinance, which shall be incorporated in and made part of the contract documents. A vendor using a common carrier is exempt from this requirement. This proof of insurance will be required prior to commencement of any **on-site** work. Refer to **Exhibit A** for the City's registration and risk management requirements.

LICENSES AND PERMITS: The vendor is responsible for obtaining all necessary permits and licenses to comply with all Federal, State, and Local laws, rules and regulations required to perform work in accordance with the specifications.

LOCAL VENDOR PREFERENCE: The City *may* give a local preference in the amount of three percent (3%) of the bid price or $25,000, whichever is less. The bid price shall include not only the base bid price but all alternatives which are part of the bid and actually purchased or awarded. A Local Vendor Affidavit of Eligibility shall accompany the bid submittal to be considered valid.

PRICING: Firm prices shall be proposed and include FOB DESTINATION, all packing, handling, shipping charges and delivery to any point within the City of Ormond Beach to a secure area or inside delivery. Prices shall be valid for ninety (90) days from date of Bid opening. In the event there is a discrepancy between the unit price and the extended amount, the unit price will prevail.

COST OF BID PREPARATION: No reimbursement will be made by the City of Ormond Beach for any costs incurred in the preparation of the Bid, proposal or presentation.

EQUIPMENT: Contractor shall own and have in good repair all equipment necessary to perform the described services in particular and the equipment necessary to complete related tasks. The City will not provide any equipment to do this work.

COST ADJUSTMENTS: Bidder agrees that prices quoted will be firm for the initial term of the contract. No cost increases shall be accepted in the initial contract term. On or before October 1, 2025, the City Commission will provide for a cost of living rate adjustment to reflect the percentage increase, if any, in the Producer Price Index (PPI) for "Chemicals and Allied Products (WPU06)" as published by the Bureau of Labor Statistics, U.S. Dep't. of Labor, determined by comparing the PPI for the March immediately preceding the PPI for March of the prior year. The maximum increase for any annual period shall be the actual posted PPI increase referenced above and shall be documented by a Resolution and will take effect on October 1 of the year in which it was approved.

Any extraordinary cost adjustments requested outside of these parameters may require additional documentation in addition to a presentation being made to City Staff or the City Commission at the requestor's expense.

ADDITIONAL TERMS AND CONDITIONS: The City of Ormond Beach reserves the right to reject Bids containing any additional terms or conditions not specifically requested in the original conditions and specifications.

TAXES: The City of Ormond Beach is exempt from Federal Excise Taxes and all sales taxes. The Contractor is responsible for paying any and all taxes associated with this agreement.

DISCOUNTS: All discounts EXCEPT THOSE FOR PROMPT PAYMENT shall be considered in determining the lowest net cost for Bid evaluation purposes. If a Bidder offers a discount, it is understood that the discount time will be computed from the date of satisfactory delivery, at the place of acceptance, and receipt of correct invoice, at the office specified, whichever occurs last.

SILENCE OF SPECIFICATIONS: The apparent silence of any specification and any supplemental specifications as to any details or the omission from same of any detailed description concerning any point shall be regarded as meaning that only the best commercial practices are to prevail and that only materials of first quality and correct type, size, and design are to be used. All workmanship is to be first quality. All interpretations of the specifications shall be made upon the basis of this statement.

ASSIGNMENT: Any purchase order or contract issued pursuant to a Bid and the monies which may become due thereunder are <u>not</u> assignable except with the prior written approval of the City Manager or City Commission, whichever authorized the purchase.

LIABILITY: The vendor shall hold and save the City of Ormond Beach, its officers, agents, and employees harmless against claims by third parties resulting from the vendor's or supplier's breach of contract or negligence, including all attorney's fees and costs, and shall pay any and all damages, fees,

and costs assessed on behalf of the City. The City expressly reserves all rights, privileges and benefits of sovereign immunity.

PATENTS AND ROYALTIES: The Bidder, without exception, shall indemnify and save harmless the City of Ormond Beach and its employees from liability of any kind, including cost and expenses for or on account of any copyrighted, patented, or unpatented invention, process, or article manufactured or used in the performance of the contract, including its use by the City of Ormond Beach. If the Bidder uses any design, device, or materials covered by letters, patent or copyright, it is mutually agreed and understood without exception that the Bid prices shall include all royalties or cost arising from the use of such design, device, or materials in any way involved in the work.

SAFETY WARRANTY: The selling dealer, distributor, supplier, and manufacturer shall be responsible for compliance with all Federal, State and local laws, rules and regulations concerning the equipment and/or service specified and the use thereof, applicable and effective on the date of manufacture including safety and environmental standards as apply to both private industry and governmental agencies.

WARRANTY: The Bidder agrees that, unless otherwise specified, the services furnished under the Bid shall be covered by the most favorable commercial warranty for comparable services, and that the rights and remedies provided herein are in addition to and do not limit any rights afforded to the City of Ormond Beach by other provision of the Bid.

AWARDS: The City reserves the right, in its sole discretion, as the best interest of the City may require, to make award(s) by individual item, group of items, all or none, or a combination thereof; on a geographical basis and/or with one or more vendors or contractors; or to reject any and all Bids or waive any minor irregularity or technicality in the Bids received. The City is not bound to award any contract(s) based solely on lowest quoted price. The City also reserves the right to negotiate separately with competing bidders as deemed to be in the City's best interest.

REJECTIONS RIGHTS: The City of Ormond Beach reserves the right, at any time, to modify, waive or otherwise vary the terms and conditions of this Bid including, but not limited to, the deadlines for submission and submission requirements. The City further reserves the right to reject any or all submittals, to cancel or withdraw this Bid at any time and to negotiate with any party prior to or after submittal of Bid.

TERMINATION: The City of Ormond Beach reserves the right to terminate any contract or agreement resulting from this BID at any time.

PURCHASE ORDERS: Purchase Orders will be issued for all purchases exceeding $2,500.00.

NON-APPROPRIATION OF FUNDS: In the event sufficient budget funds are not available for a new fiscal period, the CITY shall notify the VENDOR/CONTRACTOR of such occurrence and the contract shall terminate on the last day of the current fiscal period, without any penalty or expense to the CITY of any kind whatsoever.

OTHER AGENCIES: All Bidder(s) awarded contracts from this bid or proposal may, permit any municipality or other government agency to participate in the contract under the same prices, terms, and conditions, if agreed to by both parties.

It is understood that at no time will any city, municipality, or other agency be obligated for placing an order for any other city, municipality, or agency: nor will any city, municipality, or agency be obligated for any bills incurred by any other city, municipality, or agency. Further, it is understood that each agency will issue its own purchase orders to the awarded bidder(s).

COMPLIANCE WITH FLORIDA PUBLIC RECORDS LAW:

Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.

(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.

(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.

(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

Ref: Fla. Stat. §119.0701(2016)

THE CITY OF ORMOND BEACH RESERVES THE RIGHT TO REJECT ANY OR ALL BIDS, AND TO WAIVE INFORMALITIES, AS MAY BE DEEMED TO BE IN THE BEST INTEREST OF THE CITY.

DEFINITIONS:

BIDDER - The term used herein refers to any individual, company or other entity submitting a Bid to the CITY in response to an Invitation to Bid (ITB).

CITY/OWNER - The terms CITY or OWNER herein refers to the City of Ormond Beach, Florida, and its duly authorized representatives.

CONTRACT MANAGER - The term refers to the CITY representative(s) who will be acting on the CITY's part to manage all the Contract actions.

FURNISH - The terms "furnish", "furnish and install", "install", and "provide" or words with similar meaning shall be interpreted, unless otherwise specifically stated, to mean "furnish and install, complete in place and ready for service".

PROJECT - The total construction of which the Work to be provided under the Contract Documents may be the whole, or a part as indicated elsewhere in the Contract Documents.

PROJECT MANUAL - The term "Project Manual" includes Bid Requirements, General Conditions, Scope of Work, Specifications, Risk Management requirements and any associated attachments.

SPECIFICATIONS - The term refers to those portions of the Project Manual consisting of written technical descriptions of materials, equipment, construction systems, standards and workmanship as applied to the Work and certain administrative details applicable thereto.

SUPPLIER - The term used herein refers to any individual, company or other entity supplying services pursuant to the terms, conditions, and quotations of a Bid or Proposal.

VENDOR, CONTRACTOR, or VENDOR/CONTRACTOR - The term(s) used herein refers to any individual, company, or other entity that is awarded a contract by the CITY, pursuant to the terms, conditions, and quotations of a bid/proposal.

WORK - The entire, completed job or the various separately identifiable parts thereof, required to be furnished under the Contract Documents. Work is the result of providing goods and/or services, furnishing labor and/or furnishing and incorporating materials and equipment into the construction, as required by the Contract Documents.

BID 2024-01

VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.

3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.

4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.

5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

CITY OF ORMOND BEACH

DRUG-FREE WORKPLACE CERTIFICATION

IDENTICAL OR "TIE" BID: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more Bids which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a Bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie Bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

Give each employee that engages in providing the commodities or contractual services that are under proposal a copy of the statement specified in subsection (1).

In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under proposal, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) calendar days after such conviction.

Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

LOCAL VENDOR PREFERENCE

The following is taken from the Code of Ordinances, City of Ormond Beach, Chapter 2, Financial Matters, Division 3, Purchasing, Article IX, Section 2-304:

Except where otherwise provided by federal or state law or other funding source restrictions, purchases of goods and services under the Purchasing Code shall give preference to local businesses as follows:

(a) Under a competitive bid solicitation, the City *may* give a local preference in the amount of three percent (3%) of the bid price or $25,000, whichever is less. The bid price shall include not only the base bid price but all alternatives which are part of the bid and actually purchased or awarded.

(b) A *local business* shall mean a vendor that has a valid occupational license issued by the City of Ormond Beach at least one year prior to bid opening, with a physical business address located within the municipal boundaries of the City of Ormond Beach from which the vendor operates or performs business on a day-to-day basis that is a substantial component of the goods or services being offered and has provided a Local Vendor Affidavit of Eligibility at the time the bid is submitted.

(c) A *Local Vendor Affidavit of Eligibility* shall accompany the bid submittal to be considered valid and shall include, but not be limited to, the following information:
    (1) A physical business and location address;
    (2) A copy of current City of Ormond Beach Local Business Tax Receipt (occupational license) to verify the business location;
    (3) Proof of payment of business tax and real property tax due to the City of Ormond Beach;
    (4) A copy of the firm's most recent annual corporation report to the Florida Division of Corporations;
    (5) Any additional information necessary to verify local status.

(d) *Exemptions:* Goods or services provided under a cooperative purchasing agreement, contracts for professional services subject to Consultants' Competitive Negotiation Act, purchases or contracts funded in whole or part by a governmental entity that does not allow local preferences, purchases made under another agency's agreements or contracts (piggybacking), purchases under emergency or sole source situations and procurements subject to formal proposals including but not limited to request for proposals (RFP) or continuing contract, and request for quotes (RFQ) versus straight competitive bids.

(e) This section shall not be deemed to require the granting of a local preference, and nothing herein prohibits the award of a contract to a non-local vendor where such award is in the public interest.

Local Vendor Affidavit of Eligibility

I certify that my company meets all of the following qualifications to be eligible for the local vendor preference:

a. My company has a physical business address located within the municipal boundaries of the City of Ormond Beach which is used to perform business on a day-to-day basis.
b. My company holds any business (occupational) or contractor license required by the City of Ormond Beach at least one year prior to bid opening.
c. Payment of business tax and real property tax due to the City of Ormond Beach is current
d. My company is in compliance with annual reporting to the Florida Division of Corporations

EXHIBIT "A"

A. Payment and Performance Bonds

1. Except as otherwise provided herein, the Contractor shall, prior to beginning performance, deliver to the City, and the City shall record in the public records of Volusia County, Florida, the Contractor's Payment and Performance Bond in an amount equal to the full amount of the Contract.

2. **(a)** Payment and Performance Bonds shall not be required for any contract except those which are for the construction of a public building, for the prosecution and completion of a public work (as described in Section 180.06, **Florida Statutes,** as amended from time to time) or for repairs upon a public building or public work (as described in Section 180.06, **Florida Statutes**, as amended from time to time).

(b) With respect to those Contracts for which Payment and Performance Bonds are otherwise required:

i. Unless the City Manager, or designee, determines such Bond to be necessary to protect the interests of the City, no Contractor shall be required to provide a Payment and Performance Bond for any Contract which is for $25,000.00 or less.

ii. Upon the request of the contractor, good cause shown by the Contractor, and a determination that the public health, safety and welfare will be sufficiently protected, the City Commission may exempt the contractor from the requirement of providing a Payment and Performance Bond for any Contract which is for more than $25,000.00 but is less than $200,000.00.

3. The Payment and Performance Bond shall list the Contractor as Principal and be issued by a surety insurer authorized to do business in Florida as a surety and listed as an acceptable surety in the Federal Register.

4. The Payment and Performance Bond shall be executed pursuant to Section 255.05, **Florida Statutes**, and be in a form substantially similar to the form set forth in Section 255.05(3), **Florida Statutes**.

5. The Payment and Performance Bond shall specifically provide coverage for delay damages due to a default by the Contractor.

6. The Payment and Performance Bond shall not make the Contract part of the Bond agreement.

7. In lieu of the Payment and Performance Bond, the Contractor may file with the Finance Director of the City, in an amount equal to the full amount of the Contract, cash, a money order, a certified check, a cashier's check, an irrevocable letter of credit, or a security of a type listed in Part II, Chapter 625, **Florida Statutes**.

8. In the event the surety on any Payment and Performance Bond furnished by the Contractor is declared bankrupt or becomes insolvent, or its right to do business in the State of Florida is terminated, the Contractor shall, within five (5) working days thereafter, substitute another Payment and Performance Bond and surety acceptable to the City.

9. The Contractor is totally and solely responsible for keeping its surety informed as to the Base Contract Price as bid, significant changes in the Project Scope, and the overall progress and completion of the Project for the entire life of the Contract.

10. The payment and performance bond requirements stated herein above shall not be applicable to service-related contracts unless otherwise determined by the City Manager in order to protect the health, safety and welfare of the general public.

B. Contractual Provisions Relative to Risk Management

All contracts for any public works to be performed, and service-related contracts, for or on behalf of the City shall include at a minimum, the following, or substantially similar, provisions:

1. Hold Harmless and Indemnity

The Contractor agrees to assume liability for and indemnify, hold harmless, and defend the City, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Contractor, its agents, officers, contractors, subcontractors, employees, or anyone else employed or utilized by the Contractor in the performance of this Contract. The Contractor's liability hereunder shall include all attorney's fees and costs incurred by the City in the enforcement of this provision.

2. Payment on Behalf of City

The Contractor shall pay all costs of the City's legal defense, as may be selected by the City, for all claims described in the Hold Harmless paragraph.

Such payment on behalf of the City shall be in addition to any and all other legal remedies available to the City and shall not be considered to be the City's exclusive remedy.

3. Loss Control/Safety

Precaution shall be exercised at all times by the Contractor for the protection of all persons, including employees and property. The Contractor shall comply with all applicable laws, regulations and ordinances related to safety and health, shall make special efforts to detect hazardous conditions, and shall take prompt action when loss control/safety measures are reasonably necessary.

The City may order work to be stopped if conditions exist that present an immediate danger to persons or property. The Contractor acknowledges that such work stoppage will not shift responsibility for any damages from the Contractor to the City.

4. Service Bond

For Service-related contracts only, the City may require the Contractor to secure a service bond with a minimum $25,000 coverage limit for the period of the service agreement. The service bond covers dishonest acts of the contractor's employees against the City. A copy of the bond shall be provided to the City when the agreement commences.

Service-related contracts include and are not limited to businesses providing janitorial, pest control, general repair, security, carpet cleaning, locksmith, temporary employment, painting, moving services or other contracts as determined in the discretion of the Risk Manager as necessary to minimize loss.

C. Contractor's Insurance

1. General

The Contractor, including service-related contractors, shall purchase and maintain for the entire life of the Project, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under the Contract Documents, whether such operations be by the Contractor, by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

2. Types of Insurance and Limits of Liability

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

(a) Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident

$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for coverage. However, if the contractor subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

(b) Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations
h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)
k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence

$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

(c) Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract.

ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

$1 Million	Combined Single Limit for Bodily Injury and Property Damage

(d) Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,0000 per occurrence.

(e) Builder's Risk

Contractor shall purchase Builder's Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

(f) Professional Liability, Malpractice and/or Errors and Omissions

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

D. Requirements for Certificates of Insurance

1. With the execution of the Contract Documents, the Contractor, including service-related contractors, shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall contain an endorsement that the coverage under the policies will not be canceled, non-renewed or materially changed until at least thirty (30) days' prior written notice of such cancellation, non-renewal or change (except for nonpayment of premium, which shall be ten (10) days) and a copy of the cancellation endorsement signed by an authorized representative of the insurer, be given to the City. The contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACORD FORM 25-S (7/90), or its successor form, and shall be made a part of the Contract Documents.

2. New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

3. If requested by the City, the contractor shall immediately furnish complete copies of the Contractor's insurance policies, forms and endorsements.

4. For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

5. If the Contractor fails to obtain and maintain for the life of the Project the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City form the amount due the Contractor for the work covered by the Contract.

E. Policies of Insurance

1. Except as otherwise provided in this Exhibit, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-), in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carrier; written confirmation is required.

3. All policies of insurance or certificates thereof referred to in this Exhibit shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability including products and completed operations and Automobile Liability policies of insurance and certificates thereof.

REGISTRATION REQUIREMENTS FOR VENDOR/CONTRACTOR WORKING ON CITY PROJECTS

Registration Requirements

VENDORS doing business within the City Limits must be registered with the City.

Requirements for registering a business are as follows:

Copy of City Business Tax Receipt (where your business is located).

Certificate of Insurance showing General Liability and Workers' Comp (or State Workers' Comp Exemption form).

Application Fee: $25.00 For more information, contact the City's Business Tax Receipt official.

State Certified/Registered Contractors

All registered contractors must be registered with Volusia County. Volusia County Contractor Licensing, 123 W. Indiana Ave., Rm 203, Deland, Fl. 32720 (386) 736-5957 Opt. 2 – (386) 740-5215 Fax. Certified Contractors have the option of registering with Volusia County, or providing information directly to the business tax receipt official.

If you have any questions regarding the above requirements, please contact the business tax receipt official at (386) 676-3234.

City of Ormond Beach

Water and Wastewater Chemicals

Bid 2024-01

BID RESPONSE FORM

THIS BID IS SUBMITTED TO:

(Name and Address of Owner)

Purchasing Coordinator
City of Ormond Beach
22 S. Beach Street
Room 102
Ormond Beach, Florida
32174
Phone: (386) 676-3223

The undersigned BIDDER proposes and agrees, if this Bid is accepted, to enter into an Agreement with the CITY in the form included in the Bid Documents to complete all Work as specified or indicated in the Bid Documents for the Contract Price and within the Contract Time indicated in this Bid and in full accordance with the Bid Documents.

BIDDER certifies that he has investigated the requirements to do business in the jurisdiction where the project is located, and that he is either qualified to do business or will obtain such prequalification prior to award of the contract.

BIDDER accepts all of the terms and conditions of the General Conditions. BIDDER will sign the Agreement (Contract) and submit the Contract security (when applicable) and other documents required by the Contract Documents within ten (10) days after the date of CITY's Notice of Award.

In submitting this Bid, BIDDER represents, as more fully set forth in the Agreement, that:

BIDDER has examined copies of all the Bid Documents and of the following Addenda:

Addendum Date	Addendum Number
_____	_____
_____	_____
_____	_____

Receipt of all of which is hereby acknowledged.

BIDDER has examined the site and locality where the Work is to be performed, when applicable, the legal requirements (federal, state and local laws, ordinances, rules and regulations) and the conditions affecting cost, progress or performance of the Work and has made such independent investigations as BIDDER deems necessary.

This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; BIDDER has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid; BIDDER has not solicited or induced any person, firm or a corporation to refrain from bidding; and BIDDER has not sought by collusion to obtain for himself any advantage over any other Bidder or over the CITY.

THIS BID IS SUBMITTED BY:

COMPANY NAME: _____

VENDOR/CONTRACTOR LICENSE NUMBER: _____

ADDRESS: _____

_____

_____

_____

PHONE NO.: _____ EMAIL: _____

SUBMITTER'S NAME: _____

(Typed or Printed in Ink)

TITLE: _____

AUTHORIZED SIGNATURE: I, _____ hereby

(Original Signature)

declare that I have read and fully understand the Invitation to Bid, including the General Conditions, Specifications and Drawings (when applicable) and that I am duly authorized to sign and submit this bid.

The CITY reserves the right to reject any and all bids, to waive informalities, and to accept any bid or parts thereof as the CITY, in its sole discretion, determines to be in the best interest of the CITY.

City of Ormond Beach

Water and Wastewater Chemicals

Bid 2024-01

GENERAL INSTRUCTIONS:

Bid Delivery: Submit one (1) signed and unbound original of the complete Bid packet and one (1) electronic file in pdf format, with all required attachments, by the closing date and time. Deliver Bids to:

Rob Hart
Purchasing Coordinator
Ormond Beach City Hall
Room 102
22 South Beach Street
Ormond Beach, Florida 32174

Make sure the bid number is clearly visible on the outside of the delivery package. Bids delivered after the time and date specified will not be accepted. For any question regarding bid delivery contact the purchasing office at 386-676-3223 or email rob.hart@ormondbeach.org

Technical Questions: Submit all technical questions regarding this Bid to the City's Purchasing Coordinator, Rob Hart, by e-mailing rob.hart@ormondbeach.org.

TERM OF AGREEMENT:

The initial term of this Agreement shall be for a period of **two (2) years beginning October 1, 2023 and ending September 30, 2025** and will be automatically renewed for one additional **one (1) year** period unless either party provides at least ninety (90) days prior written notice to the other party of their intent not to renew the Agreement.

SCOPE OF WORK:

GENERAL

The City of Ormond Beach invites qualified vendors to submit bids to furnish the estimated annual requirements of chemicals used for the treatment of water and wastewater. The successful vendors will be required to provide chemicals that meet the specifications noted in the bid. Specifications for the chemicals are included in the Invitation to Bid documents. Chemicals shall meet or exceed the specific requirements identified in the bid documents.

Suppliers may submit bids for one, more than one, or all of the following chemicals.

Please indicate which chemicals in submittal:

Chemical WTP – Water Treatment Plant WRF – Water Reclamation Facility	Complete Corresponding Page Number(s) along with all preceding pages 1-25 and bid bond if required	Check here
Caustic Soda - WTP	Pages 27-28	
Corrosion Inhibitor - WTP	Pages 29-30	
High Calcium Bulk Quicklime - WTP	Pages 31-32	
Liquid Carbon Dioxide - WTP	Pages 33-34	
Liquid Sodium Hypochlorite – WTP & WRF	Pages 35-37	
Scale Inhibitor - WTP	Pages 38-40	
Solid Anionic Polymer (3333) - WTP	Pages 41-42	
Hydroflorosilicic Acid 23% - WTP	Pages 43-44	
Anhydrous Ammonia - WTP	Pages 45-46	
Sodium Bisulfite - WRF	Pages 47-48	
Polymer (SE-1188) - WRF	Pages 49-50	
Liquid Aluminum Sulfate (ALUM) - WRF	Pages 51-52	
Calcium Hypochlorite	Pages 53-54	

The bidder, hereby declares that they have carefully examined the specifications for the **Water and Wastewater Chemicals** and agrees to furnish the same, as specified, in accordance with the terms and conditions of the bid documents. Estimated quantities are for bidding purposes only and do not guarantee the quantities that will be purchased as a result of this bid. **This bid constitutes the offer in its entirety and includes only those exceptions indicated on the Bid Form.** No further changes or exceptions to the terms, conditions, and response to this bid will be offered or accepted. **The undersigned further states that this/these product(s) will be delivered F.O.B. point of use.**

IN THE EVENT THE SUPPLIER IS UNABLE TO SUPPLY, THE CITY OF ORMOND BEACH, RESERVES THE RIGHT TO PURCHASE SUPPLIES FROM THE BEST AVAILABLE SOURCE.

Caustic Soda
Quantity: approximately 3 – 4 drums

General Description of Services

Caustic Soda shall be supplied for use at the City of Ormond Beach Water Treatment Plant, 298 Tomoka Avenue, Ormond Beach, FL 32174. The Caustic Soda shall be in liquid form and shall conform to the latest, approved edition of one or more of the following the standards adopted in Rule 62-555.320(3), F.A.C.: NSF for the ANSI/NSF - 60 Standard at a maximum use level in drinking water of 200 mg/l. Caustic soda provided shall be in accordance with the following general list of physical properties:

• NaOH content	49.0% minimum
• Specific Gravity	1.51 minimum
• Appearance	Clear and Particle free
• NaCL, wt.%	1.10 maximum
• Fe, ppm	7.0 maximum

Caustic Soda will be delivered as liquid (price per drum)

Bidders shall provide an affidavit of compliance with one or more of the standards adopted in Rule 62-555.320(3), F.A.C., product specifications.

The bidder must submit a certified analysis, as to the composition of the product with the bid.

The successful bidder must supply S.D.S. (Safety Data Sheets) on the product.

The successful bidder's shipper is responsible for matching our receiving tank equipment with the proper tank truck discharge system.

The successful bidder will supply copies of the manufacturer's shipping and handling safety procedures.

Deliveries will be between the business hours of 7:30 AM and 3:00 PM Monday through Friday with exception of holidays. F.O.B. Ormond Beach, Florida.

Delivery Requirements

Delivery quantities shall vary between two (2) to three (3) drums for a total of 110 to 165 gallons. Containers shall be non-ferrous 55 gallon drums. Chemical shall be delivered at the above referenced facility, on an as needed basis. The supplier shall provide 24 hours' notice prior to delivery and be responsible for unloading at the delivery site.

Contractor shall make "normal" deliveries within three (3) days after receipt of order and must make "emergency" deliveries within 24 hours. An emergency delivery is defined as a delivery which is necessary in order to prevent the Purchaser from running out of referenced chemical in less than 36 hours. Purchaser shall endeavor to minimize the number of "emergency" deliveries.

The Contractor shall be responsible for any spills resulting from the failure of its or its subcontractor's delivery equipment or from failure of attendant delivery personnel in the proper performance of their duties. Proper performance shall require attendant delivery personnel's constant inspection and observation of unloading operations and knowledgeable response to problems or emergencies, which would most commonly be expected to occur. The Purchaser reserves the right to refuse any and all deliveries made with equipment that is poorly maintained and/or leaking Caustic Soda.
The tanks or trailers shall be clean and free of residue that may contaminate the Contractor's product or impede the unloading process. It is the Contractor's responsibility to verify the cleanliness of the transporting equipment before loading. All appurtenant valves, pumps, and discharge hoses used for the delivery of referenced chemical shall be

supplied by the Contractor and shall be clean and free from contaminating material. The Purchaser may reject a load if the equipment is not properly cleaned. The Contractor shall furnish a Purchaser approved, leak-free connection device between the trailer and the Purchaser's intake receptacle. The Contractor shall observe the entire filling operation at each delivery site and shall immediately report any spills caused during the filling operations. The Contractor shall take immediate and appropriate actions to clean up any spilled Caustic Soda. If the spill is not cleaned up, the Purchaser will hire a certified hazardous material handling company to clean up the spill, and the cost of such service will be charged to the Contractor and deducted from the amount due to the Contractor. If the Purchaser's unloading equipment such as pipe, valves or level indication and alarms should fail and the spillage is not the fault of the Contractor or its subcontractor, the Contractor shall be relieved of cleanup of the spill.

Because of security and safety concerns, all delivery vehicle drivers shall be U.S. citizens and have a proper commercial driver's license with a Hazardous Material endorsement. Contractor's drivers shall display its driver's license and whenever challenged by Purchaser during the delivery. In addition, Contractor shall supply purchaser a "CD" with digital photographs of all of its delivery drivers with names imposed and shall send out an updated CD within 24 hours of any changes to its drivers. Purchaser shall use the CD to verify whether driver is actually an employee of the Contractor. Failure to show proper license or failure of driver to be listed on the CD provided to Purchaser shall result in rejection of delivery and could result in termination of the Contractor's supply agreement.

A certificate of compliance and certified analysis as to the composition of the product must be provided with each delivery.

Bidders must comply with the insurance and risk management requirements of the City of Ormond Beach, attached to this specification as Attachment A.

IN THE EVENT THE SUPPLIER IS UNABLE TO SUPPLY, THE CITY OF ORMOND BEACH, RESERVES THE RIGHT TO PURCHASE SUPPLIES FROM THE BEST AVAILABLE SOURCE.

BID SCHEDULE

Description	Unit of Measure	Unit price
CAUSTIC SODA - approx. 3 – 4 drums	**55 gal/drum**	

Corrosion Inhibitor
Quantity: approximately 18 – 23 totes

General Description of Services

Corrosion inhibitor shall be supplied for use at the City of Ormond Beach Water Treatment Plant, 298 Tomoka Avenue, Ormond Beach, FL 32174. The corrosion inhibitor shall be in liquid form and shall conform to the latest, approved edition of one or more of the following: the standards adopted in Rule 62-555.320(3), F.A.C., NSF International Standard 60, Water Chemicals Codex, Food Chemicals Codex, and certified to meet AWWA standard B502-83.

The corrosion inhibitor provided shall be in accordance with the following general list of physical properties:

• Polyphosphate/Orthophosphate Blend Ratio	30%/70%
• Active Ingredients (Total PO4)	33% minimum
• Appearance	Clear and slightly hazy
• pH	4 to 7
• Specific Gravity	1.31 to 1.44

Corrosion inhibitor will be delivered as liquid (price per tote)

Bidders shall provide an affidavit of compliance with one or more of the standards adopted in Rule 62-555.320(3), F.A.C., product specifications.

The bidder must submit a certified analysis, as to the composition of the product with the bid.

The successful bidder must supply S.D.S. (Safety Data Sheets) on the product.

The successful bidder will supply copies of the manufacturer's shipping and handling safety procedures.

Deliveries will be between the business hours of 7:30 AM and 3:00 PM Monday through Friday with exception of holidays. F.O.B. Ormond Beach, Florida.

Delivery Requirements

Delivery shall be in non-ferrous 275 gallon tote bins provided at the expense of the supplier and shall be accepted by the City of Ormond Beach when, and as, needed. A typical order ranges between 2 and 4 totes. The supplier shall provide 24 hours' notice prior to delivery. City personnel will be responsible for unloading at the delivery site.

Contractor shall make "normal" deliveries within three (3) days after receipt of order and must make "emergency" deliveries within 24 hours. An emergency delivery is defined as a delivery which is necessary in order to prevent the Purchaser from running out of referenced chemical in less than 36 hours. Purchaser shall endeavor to minimize the number of "emergency" deliveries.

The Contractor shall be responsible for any spills resulting from the failure of its or its subcontractor's delivery equipment or from failure of attendant delivery personnel in the proper performance of their duties. Proper performance shall require attendant delivery personnel's constant inspection and observation of unloading operations and knowledgeable response to problems or emergencies, which would most commonly be expected to occur. The Purchaser reserves the right to refuse any and all deliveries made with equipment that is poorly maintained.

Because of security and safety concerns, all delivery vehicle drivers shall be U.S. citizens and have a proper commercial driver's license with a Hazardous Material endorsement. Contractor's drivers shall display its driver's license and whenever challenged by Purchaser during the delivery. In addition, Contractor shall supply purchaser a

"CD" with digital photographs of all of its delivery drivers with names imposed and shall send out an updated CD within 24 hours of any changes to its drivers. Purchaser shall use the CD to verify whether driver is actually an employee of the Contractor. Failure to show proper license or failure of driver to be listed on the CD provided to Purchaser shall result in rejection of delivery and could result in termination of the Contractor's supply agreement.

A certificate of compliance and certified analysis as to the composition of the product must be provided with each delivery.

Bidders must comply with the insurance and risk management requirements of the City of Ormond Beach, attached to this specification as Attachment A.

IN THE EVENT THE SUPPLIER IS UNABLE TO SUPPLY, THE CITY OF ORMOND BEACH, RESERVES THE RIGHT TO PURCHASE SUPPLIES FROM THE BEST AVAILABLE SOURCE.

BID SCHEDULE

Description	Unit of Measure	Unit price
CORROSION INHIBITOR - approx. 18 - 23 totes	275 Gallon tote	

High Calcium Bulk Quicklime
Quantity: approximately 900 – 1,100 tons

General Description of Services

High calcium bulk quicklime shall be supplied for use at the City of Ormond Beach Water Treatment Plant, 298 Tomoka Avenue, Ormond Beach, FL 32174. The high calcium bulk quicklime shall be in solid form and shall conform to the latest, approved edition of one or more of the following the standards adopted in Rule 62-555.320(3), F.A.C.: NSF International Standard 60, Water Chemicals Codex, and Food Chemicals Codex.

Also to be furnished in accordance with the following general specifications and shall conform to the standards as set forth by the latest edition of AWWA B202-02 regarding quicklime except as amended by the City of Ormond Beach, in the following manner:

The standards shall read 91% available Calcium Oxide instead of 90% available Calcium Oxide.
Section 1.4.1 through 1.4.2 shall be omitted.

High calcium bulk quicklime will be delivered as solid (price per ton)

Bidders shall provide an affidavit of compliance with one or more of the standards adopted in Rule 62-555.320(3), F.A.C., product specifications.

The bidder must submit a certified analysis, as to the composition of the product with the bid.
The successful bidder must supply S.D.S. (Safety Data Sheets) on the product.

Each shipment will be accompanied by a chemical analysis indicating the availability of calcium oxide, temperature rise in 3 min., and insoluble matter.

The successful bidder will supply copies of the manufacturer's shipping and handling safety procedures.

Deliveries will be between the business hours of 7:30 AM and 3:00 PM Monday through Friday with exception of holidays. F.O.B. Ormond Beach, Florida.

Delivery Requirements

The quicklime shall be delivered into two 50 ton lime storage bins by truck and shall be accepted by the City of Ormond Beach when, and as, needed. Delivery quantities requested may vary between 20 tons to 26 tons to the above referenced facility. Delivery shall be made within 48 hours of notification of need. The supplier shall provide 24 hours' notice prior to delivery and be responsible for unloading on site.

Contractor shall make "normal" deliveries within two (2) days after receipt of order and must make "emergency" deliveries within 24 hours. An emergency delivery is defined as a delivery which is necessary in order to prevent the Purchaser from running out of referenced chemical in less than 36 hours. Purchaser shall endeavor to minimize the number of "emergency" deliveries.

The Contractor shall be responsible for any spills resulting from the failure of its or its subcontractor's delivery equipment or from failure of attendant delivery personnel in the proper performance of their duties. Proper performance shall require attendant delivery personnel's constant inspection and observation of unloading operations and knowledgeable response to problems or emergencies, which would most commonly be expected to occur. The Purchaser reserves the right to refuse any and all deliveries made with equipment that is poorly maintained.

Because of security and safety concerns, all delivery vehicle drivers shall be U.S. citizens and have a proper commercial driver's license with a Hazardous Material endorsement. Contractor's drivers shall display its driver's

license and whenever challenged by Purchaser during the delivery. In addition, Contractor shall supply purchaser a "CD" with digital photographs of all of its delivery drivers with names imposed and shall send out an updated CD within 24 hours of any changes to its drivers. Purchaser shall use the CD to verify whether driver is actually an employee of the Contractor. Failure to show proper license or failure of driver to be listed on the CD provided to Purchaser shall result in rejection of delivery and could result in termination of the Contractor's supply agreement.

The City of Ormond Beach reserves the right to inspect and make laboratory analysis of each load. Should the lime fail to meet the specifications and standards as amended and set forth by the City of Ormond Beach and the latest edition of A.W.W.A. B202, it shall be rejected. If it is necessary for the City to reject more than five (5) loads, it shall be grounds for the termination of said contract. It shall also be terminated if it is determined that any chemical or physical quality of the lime renders it incompatible with the water treatment process or equipment in use at the water treatment plant and it is necessary to purchase more than 5 loads from an alternate source due to this incompatibility.

A certificate of compliance and certified analysis as to the composition of the product must be provided with each delivery.

Bidders must comply with the insurance and risk management requirements of the City of Ormond Beach, attached to this specification as Attachment A.

IN THE EVENT THE SUPPLIER IS UNABLE TO SUPPLY, THE CITY OF ORMOND BEACH, RESERVES THE RIGHT TO PURCHASE SUPPLIES FROM THE BEST AVAILABLE SOURCE.

BID SCHEDULE

Description	Unit of Measure	Unit price
HIGH CALCIUM BULK QUICKLIME - approx. 900 - 1,100 tons	**ton**	

Liquid Carbon Dioxide
Quantity: approximately 170,000 – 200,000 pounds

General Description of Services

Liquid Carbon Dioxide shall be supplied for use at the City of Ormond Beach Water Treatment Plant, 298 Tomoka Avenue, Ormond Beach, FL 32174. The product shall be in liquid form and shall conform to standards prescribed by the standard ANSI/AWWA B510-00. Liquid Carbon Dioxide provided shall be in accordance with the following general list of physical properties.

• minimum purity:	99.5%
• water:	< 200 ppm
• nonvolatile residues:	< 10 ppm

Liquid Carbon Dioxide will be delivered as liquid (price per pound)

Bidders shall provide an affidavit of compliance with the requirements of ANSI/AWWA B510-00 standard

The bidder must submit a certified analysis, as to the composition of the product with the bid.
The successful bidder must supply S.D.S. (Safety Data Sheets) on the product.

The successful bidder's shipper is responsible for matching our receiving tank equipment with the proper tank truck discharge system.

The successful bidder will supply copies of the manufacturer's shipping and handling safety procedures.

Deliveries will be between the business hours of 7:30 AM and 3:00 PM Monday through Friday with exception of holidays. F.O.B. Ormond Beach, Florida.

Delivery Requirements

Delivery shall be in "bulk" quantities between 9,000 pounds and 25,000 pounds to an existing on-site bulk storage facility consisting of one (1) 43,000 pound storage tank located at above referenced facility, on an as needed basis. The supplier shall provide 24 hours' notice prior to delivery and shall be responsible for unloading on site.

Contractor shall make "normal" deliveries within three (3) days after receipt of order and must make "emergency" deliveries within 24 hours. An emergency delivery is defined as a delivery which is necessary in order to prevent the Purchaser from running out of referenced chemical in less than 36 hours. Purchaser shall endeavor to minimize the number of "emergency" deliveries.

The Contractor shall be responsible for any spills resulting from the failure of its or its subcontractor's delivery equipment or from failure of attendant delivery personnel in the proper performance of their duties. Proper performance shall require attendant delivery personnel's constant inspection and observation of unloading operations and knowledgeable response to problems or emergencies, which would most commonly be expected to occur. The Purchaser reserves the right to refuse any and all deliveries made with equipment that is poorly maintained and/or leaking Liquid Carbon Dioxide.

The tanks or trailers shall be clean and free of residue that may contaminate the Contractor's product or impede the unloading process. It is the Contractor's responsibility to verify the cleanliness of the transporting equipment before loading. All appurtenant valves, pumps, and discharge hoses used for the delivery of referenced chemical shall be supplied by the Contractor and shall be clean and free from contaminating material. The Purchaser may reject a load if the equipment is not properly cleaned. The Contractor shall furnish a Purchaser approved, leak-free connection device between the trailer and the Purchaser's intake receptacle. The Contractor shall observe the entire filling

operation at each delivery site and shall immediately report any spills caused during the filling operations. The Contractor shall take immediate and appropriate actions to stop the source of the leak. If the leak is not stopped, the Purchaser will hire a certified hazardous material handling company to clean up the spill, and the cost of such service will be charged to the Contractor and deducted from the amount due to the Contractor. If the Purchaser's unloading equipment such as pipe, valves or level indication and alarms should fail and the spillage is not the fault of the Contractor or its subcontractor, the Contractor shall be relieved of cleanup of the spill.

Because of security and safety concerns, all delivery vehicle drivers shall be U.S. citizens and have a proper commercial driver's license with a Hazardous Material endorsement. Contractor's drivers shall display its driver's license and whenever challenged by Purchaser during the delivery. In addition, Contractor shall supply purchaser a "CD" with digital photographs of all of its delivery drivers with names imposed and shall send out an updated CD within 24 hours of any changes to its drivers. Purchaser shall use the CD to verify whether driver is actually an employee of the Contractor. Failure to show proper license or failure of driver to be listed on the CD provided to Purchaser shall result in rejection of delivery and could result in termination of the Contractor's supply agreement.

A certificate of compliance and certified analysis as to the composition of the product must be provided with each delivery.

Bidders must comply with the insurance and risk management requirements of the City of Ormond Beach, attached to this specification as Attachment A.

IN THE EVENT THE SUPPLIER IS UNABLE TO SUPPLY, THE CITY OF ORMOND BEACH, RESERVES THE RIGHT TO PURCHASE SUPPLIES FROM THE BEST AVAILABLE SOURCE.

BID SCHEDULE

Description	Unit of Measure	Unit price
LIQUID CARBON DIOXIDE - approx. 170,000 - 200,000 pounds	**pound**	

Liquid Sodium Hypochlorite
Quantity: approximately 280,000 gallons – 320,000 gallons

General Description of Services

Sodium Hypochlorite is used at the City of Ormond Beach Water Reclamation Facility located at 550 North Orchard Street and the Water Treatment Plant located at 298 Tomoka Avenue, Ormond Beach, FL 32174. The product shall be furnished in accordance with the following general specifications and shall conform to the standards as set forth by ANSI/NSF the American National Standards Institute/National Sanitation Foundation Standard 60 and AWWA B300-04. In addition, the material must be filtered 2 or more times before shipment.
The Sodium Hypochlorite shall be in liquid form and shall meet the following general list of physical properties:

• Sodium Hypochlorite by weight	≥ 10.85 per cent
• Hypochlorite	≥ 120 g/L
• Iron	< 0.3 mg/L
• Copper	< 0.03 mg/L
• Nickel	< 0.03 mg/L
• Chlorate	< 2,000 mg/L
• Bromate	< 15 mg/L
• Sodium Hydroxide Between	.15% by weight and .45% by weight

Sodium Hypochlorite will be delivered as liquid (price per gallon)

Bidders shall provide an affidavit of compliance with the requirements of ANSI/AWWA B300-04 standard

Each Bidder shall submit a list of at least ten (10) references to include phone numbers that use or have used its sodium hypochlorite at water or wastewater treatment plants (at least five of each type) in the past three years. The Reference List shall list actual users at the water and wastewater plants and not purchasing agents.

Each Bidder shall provide the names of any customers where its contract was terminated early (e.g., debarred) for safety, quality, or service issues for sodium hypochlorite over the past five (5) years.
The Bidder shall also provide a detailed listing of all accidents, incidents, releases, spills, and National Response Center Notifications (“safety incidents”) for sodium hypochlorite it delivers or manufactures for the past five (5) years.

The bidder must submit a certified analysis, as to the composition of the product with the bid.
The bidder must supply S.D.S. (Safety Data Sheets) on the product.

Each Bidder shall submit a 1500 ml “chilled” sample of their product representative of their manufacturing process from Bidder’s manufacturing facility which would serve the customer to one of the approved testing laboratories listed in this Specification for analysis within the past ninety (90) days. The laboratory shall ascertain whether the Contractor’s product is in compliance with this specification for available chlorine, % sodium hypochlorite, excess caustic, iron, copper, nickel, chlorate, bromate and suspended solids (based on Filter Test time). The cost of the analysis shall be borne by the Bidder. The results of the analysis shall be submitted with the bid. Failure to submit a sample or meet the requirements of the specification shall result in disqualification of the bid.

Sampling and testing shall be in accordance with EPA and AWWA B300-04 standards and in accordance with the documents titled: “The Weight Percent Determination of Sodium Hypochlorite, Sodium Hydroxide, And Sodium Chlorate in Liquid Bleach” and “Suspended Solids Quality Test for Bleach Using Vacuum Filtration”, distributed by Powell Fabrication and Manufacturing, Inc. and available at http://www.powellfab.com. The approved laboratories are listed below. Contactor may use another laboratory, but that laboratory must be certified by the National Environmental Laboratory Accreditation Conference (NELAC) and must be able to meet the following Minimum Detection Limits (MDL): (1) Metals .02 mg/L; (2) Bromate .1 mg/L; (3) Chlorate 20 mg/L; and (4) Chlorine/Excess Caustic 0.1%. Contractor shall provide proof of current NELAC certification and laboratory analysis shall specify the MDL if a non-approved laboratory is used.

Fax: 813-223-9332
Attn: Steve Thickett

The successful bidder's shipper is responsible for matching our receiving tank equipment with the proper tank truck discharge system.

The successful bidder will supply copies of the manufacturer's shipping and handling safety procedures.

Deliveries will be between the business hours of 7:30 AM and 3:00 PM Monday through Friday with exception of holidays. F.O.B. Ormond Beach, Florida.

Delivery Requirements

Contractor shall make "normal" deliveries within three (3) calendar (i.e., not "working" days) days after receipt of order and must make "emergency" deliveries within 24 hours. Delivery will be accepted when and as needed at each location. An emergency delivery is defined as a delivery which is necessary in order to prevent Ormond Beach from running out of sodium hypochlorite in less than 36 hours. Ormond Beach shall endeavor to minimize the number of "emergency" deliveries.

Each shipment shall be accompanied by a certified chemical analysis report to show the following:

Date and time of manufacture
Percent by weight sodium hypochlorite
Excess Sodium Hydroxide
Specific Gravity (at a referenced temperature)
Suspended solids test time

The Contractor shall be responsible for any spills resulting from the failure of its or its subcontractor's delivery equipment or from failure of attendant delivery personnel in the proper performance of their duties. Proper performance shall require attendant delivery personnel's constant inspection and observation of unloading operations and knowledgeable response to problems or emergencies, which would most commonly be expected to occur. The Purchaser reserves the right to refuse any and all deliveries made with equipment that is poorly maintained and/or leaking.

The tanks or trailers shall be clean and free of residue that may contaminate the Contractor's product or impede the unloading process. It is the Contractor's responsibility to verify the cleanliness of the transporting equipment before loading. All appurtenant valves, pumps, and discharge hoses used for the delivery of referenced chemical shall be supplied by the Contractor and shall be clean and free from contaminating material. The Purchaser may reject a load if the equipment is not properly cleaned. The Contractor shall furnish a Purchaser approved, leak-free connection device between the trailer and the Purchaser's intake receptacle. The Contractor shall observe the entire filling operation at each delivery site and shall immediately report any spills caused during the filling operations. The Contractor shall take immediate and appropriate actions to clean up any spilled sodium hypochlorite. If the spill is not cleaned up, the Purchaser will hire a certified hazardous material handling company to clean up the spill, and the cost of such service will be charged to the Contractor and deducted from the amount due to the Contractor. If the Purchaser's unloading equipment such as pipe, valves or level indication and alarms should fail and the spillage is not the fault of the Contractor or its subcontractor, the Contractor shall be relieved of cleanup of the spill.

Because of security and safety concerns, all delivery vehicle drivers shall be U.S. citizens and have a proper commercial driver's license with a Hazardous Material endorsement. Contractor's drivers shall display its driver's license and whenever challenged by Purchaser during the delivery. In addition, Contractor shall supply purchaser a "CD" with digital photographs of all of its delivery drivers with names imposed and shall send out an updated CD within 24 hours of any changes to its drivers. Purchaser shall use the CD to verify whether driver is actually an employee of the Contractor. Failure to show proper license or failure of driver to be listed on the CD provided to Purchaser shall result in rejection of delivery and could result in termination of the Contractor's supply agreement.

Ormond Beach reserves the right to subject samples of the hypochlorite to complete analyses to ensure that it meets EPA specifications, AWWA B300-04 specifications, and the supplemental specifications included with this document. A combination of two failures to comply with these specifications from either rejections of a shipment or from a subsequent complete laboratory analysis may result in termination of the supply contract for the sodium hypochlorite.

Further, Ormond Beach reserves the right to take samples from Bidder's other customers to ensure that the product's sample is in compliance with all the requirements of this specification and such a sample shall be judged representative of the product's quality. In such event, Ormond Beach shall bear the cost of any analysis. Based on this compliance check, failure to meet the requirements of the specification shall result in disqualification of the bid.

A certificate of compliance and certified analysis as to the composition of the product must be provided with each delivery.

Delivery Location:

The liquid hypochlorite shall be delivered into three (3) 2,500-gallon storage tanks at the City's Water Reclamation Facility located at 550 N. Orchard St., Ormond Beach, FL. 32174, and (2) 1,500 gallon storage tanks located at the Water Treatment Plant located at 298 Tomoka Avenue. Quantities requested for delivery can range between 2,000 gallons up to a full tanker truck load.

Bidders must comply with the insurance and risk management requirements of the City of Ormond Beach, attached to this specification as Attachment A.

IN THE EVENT THE SUPPLIER IS UNABLE TO SUPPLY, THE CITY OF ORMOND BEACH, RESERVES THE RIGHT TO PURCHASE SUPPLIES FROM THE BEST AVAILABLE SOURCE.

BID SCHEDULE

Description	Unit of Measure	Unit price
LIQUID SODIUM HYPOCHLORITE - approx. 280,000 – 320,000 gallons	**gallon**	

Scale Inhibitor
Quantity: approximately 12 – 14 totes

General Description of Services

Scale inhibitor shall be supplied for use at the City of Ormond Beach Water Treatment Plant, 298 Tomoka Avenue, Ormond Beach, FL 32174. The Plant contains four (4) Hydranautics ESPA 3 low pressure reverse osmosis skids rated at 1.25 Million Gallons per Day (MGD) per skid. The recovery rate is 85%, feed pump capacity is 1,250 gallons per minute (gpm) and the chemical feed pump is rated at 71 gallons per hour. Scale inhibitor shall be liquid, able to effectively prevent fouling of the membranes using the equipment described in the paragraph above for the reverse osmosis system at the City of Ormond Beach Water Treatment Plant.

Bids will be accepted only for those products approved for use by the membrane manufacturer. A list of approved products is attached to this specification as Exhibit A. The product must be approved for use in potable water in the State of Florida and must be certified by NSF as compliant with NSF ANSI Standard 60.

A qualified technician must be available within 24 hours' notice for troubleshooting should there be any scaling problems with the RO system.

Should scaling occur, the scale inhibitor supplier must have the capability of cleaning one of the scaled membranes off-site to determine the best cleaning chemicals and best cleaning procedures. The element should be returned with a report showing performance prior to cleaning and post cleaning. A free membrane autopsy should be provided once per year should any problems arise while the supplier's scale inhibitor is being used.

Feed (Raw) Water quality at the treatment plant is approximately:

pH	7.0
M Alkalinity	287 mg/L
Total Hardness	301 mg/L as CaCO3
Calcium Hardness	285 mg/L as CaCO3
Turbidity	4.5 NTUs
Chlorides	82 mg/L
Conductivity	742 µS/cm

The product shall also meet the following parameters:

The scale inhibitor provided shall be in accordance with the following general list of physical properties:

• pH	3-5
• S.G	1.1–1.2
• Dosage Rate	≤ 3 mg/L pH
• Color	transparent light yellow

• Must be resistant to biological growth while stored in the original container or day tank for up to 2 years.
• Must control Calcium Carbonate up to an LSI of 2.6
• Must control calcium sulfate, barium sulfate, strontium sulfate, calcium fluoride and calcium phosphate scale.
• Must disperse silica and colloidal iron.

Scale Inhibitor will be delivered as liquid (price per tote)
Bidders shall provide documentation that the product is approved for use in potable water in the State of Florida and is certified by NSF as compliant with NSF ANSI Standard 60.

The successful bidder must supply S.D.S. (Safety Data Sheets) on the product.

The successful bidder will supply copies of the manufacturer's shipping and handling safety procedures.

Deliveries will be between the business hours of 7:30 AM and 3:00 PM Monday through Friday with exception of holidays. F.O.B. Ormond Beach, Florida.

Delivery Requirements

Delivery shall be in non-ferrous 300 gallon tote bins to the referenced facility provided at the expense of the supplier and shall be accepted by the City of Ormond Beach when, and as, needed. The minimum order ranges is one (1) tote. The supplier shall provide 24 hours' notice prior to delivery and will be responsible for unloading at the delivery site.

Contractor shall make "normal" deliveries within three (3) days after receipt of order and must make "emergency" deliveries within 24 hours. An emergency delivery is defined as a delivery which is necessary in order to prevent the Purchaser from running out of referenced chemical in less than 36 hours. Purchaser shall endeavor to minimize the number of "emergency" deliveries.

The Contractor shall be responsible for any spills resulting from the failure of its or its subcontractor's delivery equipment or from failure of attendant delivery personnel in the proper performance of their duties. Proper performance shall require attendant delivery personnel's constant inspection and observation of unloading operations and knowledgeable response to problems or emergencies, which would most commonly be expected to occur. The Purchaser reserves the right to refuse any and all deliveries made with equipment that is poorly maintained.

Because of security and safety concerns, all delivery vehicle drivers shall be U.S. citizens and have a proper commercial driver's license with a Hazardous Material endorsement. Contractor's drivers shall display its driver's license and whenever challenged by Purchaser during the delivery. In addition, Contractor shall supply purchaser a "CD" with digital photographs of all of its delivery drivers with names imposed and shall send out an updated CD within 24 hours of any changes to its drivers. Purchaser shall use the CD to verify whether driver is actually an employee of the Contractor. Failure to show proper license or failure of driver to be listed on the CD provided to Purchaser shall result in rejection of delivery and could result in termination of the Contractor's supply agreement.

A certificate of compliance and certified analysis as to the composition of the product must be provided with each delivery.

Bidders must comply with the insurance and risk management requirements of the City of Ormond Beach, attached to this specification as Attachment A.

IN THE EVENT THE SUPPLIER IS UNABLE TO SUPPLY, THE CITY OF ORMOND BEACH, RESERVES THE RIGHT TO PURCHASE SUPPLIES FROM THE BEST AVAILABLE SOURCE.

ACCEPTABLE SCALE INHIBITORS

Antiscalants and Dispersants Compatible with LEWABRANE RO B400ULPASD Hydranautics Membranes: CPA, ESPA, ESNA, LFC, SWC

Supplier Name Product Name

American Engineering Services AWC A-102 Plus; or
American Water Chemicals AWC A-102 Plus; or
Approved equal

Note: **This is a partial list** of membrane-compatible chemical products that Hydranautics has indicated is acceptable as part of the membrane supplier honoring the warranty on the units. It is the City's understanding that Hydranautics is aware of and has not received any complaints from the field regarding their compatibility. Hydranautics relies on the supplier of the chemical to have performed all membrane compatibility and process efficacy tests, and makes no claim and accepts no responsibility for the effectiveness of these chemicals.

To be considered an approved equal, suppliers must provide data and evidence that the product has worked successfully in similar applications with Hydranautic membranes. Additionally, Hydranautic must indicate their concurrence so as to keep the membrane warranty in effect.

Solid Anionic Polymer
Quantity: approximately 4,000 – 5,500 pounds

General Description of Services

Polymer shall be used as a coagulant aide at the City of Ormond Beach Water Treatment Plant, 298 Tomoka Avenue, Ormond Beach, Florida. Polymer shall be solid and equal to Clarifloc A-3333P.
Bids will be accepted only for those pre-qualified products, which have demonstrated to the satisfaction of the City that the product improves turbidity after lime softening. All products shall be tested and qualified at the location of intended use. The product bid shall be the same as the product tested; however, the city reserves the right to use a different product if tests show that a significant improvement in performance may be realized and the product will be supplied at the same bid price or less. All testing shall be at plant scale level for a one-time test period of five (5) consecutive days. All persons interested in pre-qualifying shall e-mail Brad.Bowman@ormondbeach.org.

Polymer will be delivered as solid (price per pound).

The supplier shall supply documentation that the product is approved for use in potable water in the State of Florida.

The bidder must submit a certified analysis, as to the composition of the product with the bid.

The successful bidder must supply S.D.S. (Safety Data Sheets) on the product.

The successful bidder will supply copies of the manufacturer's shipping and handling safety procedures.

Deliveries will be between the business hours of 7:30 AM and 3:00 PM Monday through Friday with exception of holidays. F.O.B. Ormond Beach, Florida.

Delivery Requirements

The polymer shall be delivered to the referenced facility. Delivery shall be accepted by the City of Ormond Beach when, and as, needed. The quantity delivered at one time is one pallet containing 30 fifty pound bags. Delivery shall be made within 72 hours of notification of need. The supplier shall provide 24 hours' notice prior to delivery and be responsible for unloading on site.

Contractor shall make "normal" deliveries within three (3) days after receipt of order and must make "emergency" deliveries within 24 hours. An emergency delivery is defined as a delivery which is necessary in order to prevent the Purchaser from running out of referenced chemical in less than 36 hours. Purchaser shall endeavor to minimize the number of "emergency" deliveries.

The Contractor shall be responsible for any spills resulting from the failure of its or its subcontractor's delivery equipment or from failure of attendant delivery personnel in the proper performance of their duties. Proper performance shall require attendant delivery personnel's constant inspection and observation of unloading operations and knowledgeable response to problems or emergencies, which would most commonly be expected to occur. The Purchaser reserves the right to refuse any and all deliveries made with equipment that is poorly maintained.

Because of security and safety concerns, all delivery vehicle drivers shall be U.S. citizens and have a proper commercial driver's license with a Hazardous Material endorsement. Contractor's drivers shall display its driver's license and whenever challenged by Purchaser during the delivery. In addition, Contractor shall supply purchaser a "CD" with digital photographs of all of its delivery drivers with names imposed and shall send out an updated CD within 24 hours of any changes to its drivers. Purchaser shall use the CD to verify whether driver is actually an employee of the Contractor. Failure to show proper license or failure of driver to be listed on the CD provided to Purchaser shall result in rejection of delivery and could result in termination of the Contractor's supply agreement.

BID SCHEDULE

Description	Unit of Measure	Unit price
SOLID ANIONIC POLYMER - approx. 4,000 - 5,500 pounds	**pound**	

Hydroflorosilicic Acid
Quantity: approximately 15-25 tons

General Description of Services

Hydroflorosilicic Acid (HFS) shall be supplied for use at the City of Ormond Beach Water Treatment Plant, 298 Tomoka Avenue, Ormond Beach, FL 32174. The HSF product shall be in liquid form and shall conform to the latest, approved edition of one or more of the following: the standards adopted in Rule 62-555.320(3), F.A.C., NSF International Standard 60, Water Chemicals Codex, Food Chemicals Codex, and certified to meet AWWA Standard B703.

The Hydroflorosilicic Acid provided shall be in accordance with the following general list of physical properties:

- Percent mixture as H_2SiF_6 22%-24%
- Active Ingredients (Fluoride) 18% minimum
- Appearance (Color) water white and <10 units of color
- pH of a 1% solution @ 25degrees C <2.0
- Specific Gravity 1.19 to 1.23
- Arsenic concentration, % 0.001 maximum
- Heavy Metals, expressed % as Pb 0.02 maximum

Hydroflorosilicic Acid will be delivered as liquid (price per ton) and shall be final filtered through no greater than 1 micron filter to support removal of contaminants.

Vendor shall be prepared to provide the owner with a sample of HFS product for delivery prior to offloading to ascertain product clarity. The owner reserves the right to reject the delivery based upon clarity of sample. The owner also reserves the right to test a sample taken from the delivered product for any and all physical properties listed above with a third party laboratory for determination of specification compliance. Deliveries found to be out of compliance with one or more physical properties tested shall be subject to rejection. Vendor shall be responsible for removal and disposal of rejected project and replacement with compliant product within 1 week of notification by owner.

Bidders shall provide an affidavit of compliance with one or more of the standards adopted in Rule 62-555.320(3), F.A.C., product specifications and certified to meet AWWA Standard B703.

Regulated metals, Single Product Allowable Concentration (SPAC) shall not exceed those listed in NSF/ANSI 60 – 2004, Table D1 – U.S. Environmental Protection Agency and Health Canada NSF/ANSI 60 drinking water criteria.

The bidder must submit a certified analysis, as to the composition of the product with the bid.

The successful bidder must supply M.S.D.S. (Material Safety Data Sheets) on the product.

The successful bidder’s shipper is responsible for matching our receiving tank equipment with the proper tank truck discharge system.

The successful bidder will supply copies of the manufacturer’s shipping and handling safety procedures.

Deliveries will be between the business hours of 7:30 AM and 3:00 PM Monday through Friday with exception of holidays. F.O.B. Ormond Beach, Florida.

Delivery Requirements

Delivery shall be in bulk at the expense of the supplier and shall, upon acceptance by the City of Ormond Beach, be delivered in bulk into two (2) tanks, having capacity of 1,500 gallons per each tank. Maximum delivery volume due to

storage constraints is twelve (12) Tons of Hydroflorosilicic acid. Delivery will be scheduled when and as needed. The supplier shall provide 24 hours notice prior to delivery.

Contractor shall make “normal” deliveries within three (3) days after receipt of order and must make “emergency” deliveries within 24 hours. An emergency delivery is defined as a delivery which is necessary in order to prevent the Purchaser from running out of referenced chemical in less than 36 hours. Purchaser shall endeavor to minimize the number of “emergency” deliveries.

The Contractor shall be responsible for any spills resulting from the failure of its or its subcontractor’s delivery equipment or from failure of attendant delivery personnel in the proper performance of their duties. Proper performance shall require attendant delivery personnel’s constant inspection and observation of unloading operations and knowledgeable response to problems or emergencies, which would most commonly be expected to occur. The Purchaser reserves the right to refuse any and all deliveries made with equipment that is poorly maintained.

Because of security and safety concerns, all delivery vehicle drivers shall be U.S. citizens and have a proper commercial driver’s license with a Hazardous Material endorsement. Contractor’s drivers shall display its driver’s license and whenever challenged by Purchaser during the delivery. In addition, Contractor shall supply purchaser a “CD” with digital photographs of all of its delivery drivers with names imposed and shall send out an updated CD within 24 hours of any changes to its drivers. Purchaser shall use the CD to verify whether driver is actually an employee of the Contractor. Failure to show proper license or failure of driver to be listed on the CD provided to Purchaser shall result in rejection of delivery and could result in termination of the Contractor’s supply agreement.

Bid Evaluation:

The Proposal Evaluation shall consider many factors including price, product quality, previous performance, safety, reliability, and reference checks. Because of the hazardous nature of the product and the relatively short shelf-life of the product, strong consideration shall be given to the Bidder’s quality, safety record, reliability, and previous performance in awarding the contract for the product.

A certificate of compliance and certified analysis as to the composition of the product must be provided to the City prior to each delivery.

Bidders must comply with the insurance and risk management requirements of the City of Ormond Beach, attached to this specification as Attachment A.

IN THE EVENT THE SUPPLIER IS UNABLE TO SUPPLY, THE CITY OF ORMOND BEACH, RESERVES THE RIGHT TO PURCHASE SUPPLIES FROM THE BEST AVAILABLE SOURCE.

Description	Unit of Measure	Unit price
HYDROFLUOSILICIC ACID – approx. 15-25 tons	**ton**	

Anhydrous Ammonia
Quantity: approximately 20,000 – 25,000 pounds

General Description of Services

Anhydrous ammonia shall be supplied for chloramine production at the City of Ormond Beach Water Treatment Plant for potable water disinfection, 298 Tomoka Avenue, Ormond Beach, FL 32174. The product shall be in gaseous form and shall conform to the latest, approved edition of one or more of the following the standards adopted in Rule 62-555.320(3), F.A.C.: NSF International Standard 60, Water Chemicals Codex, and Food Chemicals Codex. Anhydrous ammonia provided shall be in accordance with the following general list of physical properties.

- Ammonia (NH3) content: 99.99% minimum
- Oil: 2 parts per million (ppm) maximum

Anhydrous Ammonia will be delivered as gas (price per pound)

Bidders shall provide an affidavit of compliance with one or more of the standards adopted in Rule 62-555.320(3), F.A.C., product specifications.

The bidder must submit a certified analysis, as to the composition of the product with the bid.

The successful bidder must supply S.D.S. (Safety Data Sheets) on the product.

The successful bidder's shipper is responsible for matching our receiving tank equipment with the proper tank truck discharge system.

The successful bidder will supply copies of the manufacturer's shipping and handling safety procedures.

Deliveries will be between the business hours of 7:30 AM and 3:00 PM Monday through Friday with exception of holidays. F.O.B. Ormond Beach, Florida.

Delivery Requirements

Delivery shall be in "bulk" quantities of 2,000 to 4,000 pounds per delivery to an existing on-site bulk storage facility consisting of one (1) 1,000 gallon storage tank located at above referenced facility, on an as needed basis. The supplier shall provide 24 hours' notice prior to delivery and shall be responsible for unloading on site.
Contractor shall make "normal" deliveries within three (3) days after receipt of order and must make "emergency" deliveries within 24 hours. An emergency delivery is defined as a delivery which is necessary in order to prevent the Purchaser from running out of referenced chemical in less than 36 hours. Purchaser shall endeavor to minimize the number of "emergency" deliveries.

The Contractor shall be responsible for any spills resulting from the failure of its or its subcontractor's delivery equipment or from failure of attendant delivery personnel in the proper performance of their duties. Proper performance shall require attendant delivery personnel's constant inspection and observation of unloading operations and knowledgeable response to problems or emergencies, which would most commonly be expected to occur. The Purchaser reserves the right to refuse any and all deliveries made with equipment that is poorly maintained and/or leaking anhydrous ammonia.

The tanks or trailers shall be clean and free of residue that may contaminate the Contractor's product or impede the unloading process. It is the Contractor's responsibility to verify the cleanliness of the transporting equipment before loading. All appurtenant valves, pumps, and discharge hoses used for the delivery of referenced chemical shall be supplied by the Contractor and shall be clean and free from contaminating material. The Purchaser may reject a load if the equipment is not properly cleaned. The Contractor shall furnish a Purchaser approved, leak-free connection device between the trailer and the Purchaser's intake receptacle. The Contractor shall observe the entire filling

operation at each delivery site and shall immediately report any spills caused during the filling operations. The Contractor shall take immediate and appropriate actions to stop the source of the leak. If the leak is not stopped, the Purchaser will hire a certified hazardous material handling company to clean up the spill, and the cost of such service will be charged to the Contractor and deducted from the amount due to the Contractor. If the Purchaser's unloading equipment such as pipe, valves or level indication and alarms should fail and the spillage is not the fault of the Contractor or its subcontractor, the Contractor shall be relieved of cleanup of the spill.

Because of security and safety concerns, all delivery vehicle drivers shall be U.S. citizens and have a proper commercial driver's license with a Hazardous Material endorsement. Contractor's drivers shall display its driver's license and whenever challenged by Purchaser during the delivery. In addition, Contractor shall supply purchaser a "CD" with digital photographs of all of its delivery drivers with names imposed and shall send out an updated CD within 24 hours of any changes to its drivers. Purchaser shall use the CD to verify whether driver is actually an employee of the Contractor. Failure to show proper license or failure of driver to be listed on the CD provided to Purchaser shall result in rejection of delivery and could result in termination of the Contractor's supply agreement.

A certificate of compliance and certified analysis as to the composition of the product must be provided with each delivery.

Bidders must comply with the insurance and risk management requirements of the City of Ormond Beach, attached to this specification as Attachment A.

IN THE EVENT THE SUPPLIER IS UNABLE TO SUPPLY, THE CITY OF ORMOND BEACH, RESERVES THE RIGHT TO PURCHASE SUPPLIES FROM THE BEST AVAILABLE SOURCE.

BID SCHEDULE

Description	Unit of Measure	Unit price
ANHYDROUS AMMONIA - approx. 20,000 - 25,000 pounds	**pound**	

Sodium Bisulfite
Quantity: Approximately 15,000 – 28,000 gallons

General Description of Services

Sodium bisulfite is used for the purpose of dechlorination at the City of Ormond Beach Wastewater Treatment Plant, 550 North Orchard Street, Ormond Beach, FL 32174. The sodium bisulfite shall be in liquid form and shall meet the following minimum chemical specifications:

- Sodium Bisulfite Solution: 38% to 42% Solution strength
- Sulfur dioxide equivalent: 23.4% to 24.8%
- Specific Gravity: 1.31 to 1.36 @ room temperature of 60 F
- pH: 4.0 to 4.8
- Fe content shall not exceed 3 parts per million (ppm) and heavy metals shall not exceed 5 ppm

Sodium Bisulfite Solution will be delivered as liquid (price per gallon).

The bidder must submit a certificate of compliance and a certified analysis, as to the composition of the product with the bid.

The successful bidder's shipper is responsible for matching our receiving tank equipment with the proper tank truck discharge system.

The successful bidder must supply M.S.D.S. (Material Safety Data Sheets) on the product.

The successful bidder will supply copies of the manufacturer's shipping and handling safety procedures.

Deliveries will be between the business hours of 7:30 AM and 3:00 PM Monday through Friday with exception of holidays. F.O.B. Ormond Beach, Florida.

Delivery Requirements

Delivery shall be in "bulk" quantities of 2,500 gallons per delivery or less to an existing on-site bulk storage facility consisting of two (2) 2,500 gallon storage tanks located at above referenced facility, on an as needed basis. The supplier shall provide 24 hours notice prior to delivery and be responsible for unloading on site to a two (2) inch PVC male Cam Lock quick coupling connection.

Contractor shall make "normal" deliveries within three (3) days after receipt of order and must make "emergency" deliveries within 24 hours. An emergency delivery is defined as a delivery which is necessary in order to prevent the Purchaser from running out of referenced chemical in less than 36 hours. Purchaser shall endeavor to minimize the number of "emergency" deliveries.

Each shipment shall carry with it some means of identification. The following information shall be legibly marked on each package, drum, other container or bulk shipment:

- Contents: Sodium Bisulfite
- Net weight
- Name of manufacturer
- Brand name, if any

The Contractor shall be responsible for any spills resulting from the failure of its or its subcontractor's delivery equipment or from failure of attendant delivery personnel in the proper performance of their duties. Proper

performance shall require attendant delivery personnel's constant inspection and observation of unloading operations and knowledgeable response to problems or emergencies, which would most commonly be expected to occur. The Purchaser reserves the right to refuse any and all deliveries made with equipment that is poorly maintained and/or leaking.

The tanks or trailers shall be clean and free of residue that may contaminate the Contractor's product or impede the unloading process. It is the Contractor's responsibility to verify the cleanliness of the transporting equipment before loading. All appurtenant valves, pumps, and discharge hoses used for the delivery of referenced chemical shall be supplied by the Contractor and shall be clean and free from contaminating material. The Purchaser may reject a load if the equipment is not properly cleaned. The Contractor shall furnish a Purchaser approved, leak-free connection device between the trailer and the Purchaser's intake receptacle. The Contractor shall observe the entire filling operation at each delivery site and shall immediately report any spills caused during the filling operations. The Contractor shall take immediate and appropriate actions to clean up any spilled aluminum sulfate. If the spill is not cleaned up, the Purchaser will hire a certified hazardous material handling company to clean up the spill, and the cost of such service will be charged to the Contractor and deducted from the amount due to the Contractor. If the Purchaser's unloading equipment such as pipe, valves or level indication and alarms should fail and the spillage is not the fault of the Contractor or its subcontractor, the Contractor shall be relieved of cleanup of the spill.

Because of security and safety concerns, all delivery vehicle drivers shall be U.S. citizens and have a proper commercial driver's license with a Hazardous Material endorsement. Contractor's drivers shall display its driver's license and whenever challenged by Purchaser during the delivery. Description	Unit of Measure	Unit price
SODIUM BISULFITE - approx. 15,000 – 28,000 gallons	**gallon**	

Polymer (Biosolids Dewatering)
Quantity: Approximately 42 - 48 Totes

General Description of Services

Polymer shall be a high cationic type liquid emulsion used as a flocculent for the purpose of optimizing dewatering of wastewater sludge at the City of Ormond Beach Water Reclamation Facility located at 550 North Orchard Street, Ormond Beach, FL 32174. The polymer shall be in liquid form having a minimum shelf life of three (3) months for any unopened tote bins and shall meet the following minimum performance requirements:

- Percent Free Solids: 1% to 1.5%
- Cake, percent dry solids: 18% minimum
- Capture, percentage: 95% – 98 %
- Minimum & maximum feed rates: 65 gallons per minute (gpm) to 150 gpm
- Maximum Polymer dosage: 30 pounds/ dry ton

Bids will be accepted only for those pre-qualified products, which have demonstrated to the satisfaction of the City that the product improves sludge dewatering. All products shall be tested and qualified at the location of intended use. The product bid shall be the same as the product tested; however, the city reserves the right to use a different product if tests show that a significant improvement in performance may be realized and the product will be supplied at the same bid price or less. All testing shall be at plant scale level for a one-time test period of three (3) consecutive eight (8) hour days (subject to early cancellation at no expense to owner if product is not performing to owner's satisfaction). Polymer shall be equal to Clarifloc SE-1188 single component emulsion polymer to condition waste activated sludge for dewatering in centrifuges at the wastewater treatment facility. All persons interested in pre-qualifying shall contact Al Waitt, Wastewater Plant Chief Operator, via e-mail at Al.Waitt@ormondbeach.org

Polymer Solution will be delivered as liquid in non-ferrous 275 gallon tote bins (price per tote)

The bidder must submit a certificate of compliance and a certified analysis, as to the composition of the product with the bid.

The successful bidder must supply S.D.S. (Safety Data Sheets) on the product.

The successful bidder will supply copies of the manufacturer's shipping and handling safety procedures.

Deliveries will be between the business hours of 7:30 AM and 3:00 PM Monday through Friday with exception of holidays. F.O.B. Ormond Beach, Florida.

Delivery Requirements
Delivery shall be in non-ferrous 275 gallon tote bins to above referenced facility at the expense of the supplier on an as-needed basis as requested by the City. The minimum delivery requirement is two totes. The supplier shall provide 24 hours' notice prior to delivery and be responsible for unloading on site.

Contractor shall make "normal" deliveries within three (3) days after receipt of order and must make "emergency" deliveries within 24 hours. An emergency delivery is defined as a delivery which is necessary in order to prevent the Purchaser from running out of referenced chemical in less than 36 hours. Purchaser shall endeavor to minimize the number of "emergency" deliveries.
Each shipment shall carry with it some means of identification. The following information shall be legibly marked on each package, drum, other container or bulk shipment:

- Contents: Polymer
  - Net weight
  - Name of manufacturer
  - Brand name, if any

The Contractor shall be responsible for any spills resulting from the failure of its or its subcontractor's delivery equipment or from failure of attendant delivery personnel in the proper performance of their duties. Proper performance shall require attendant delivery personnel's constant inspection and observation of unloading operations and knowledgeable response to problems or emergencies, which would most commonly be expected to occur. The Purchaser reserves the right to refuse any and all deliveries made with equipment that is poorly maintained and/or leaking.

The tanks or trailers shall be clean and free of residue that may contaminate the Contractor's product or impede the unloading process. It is the Contractor's responsibility to verify the cleanliness of the transporting equipment before loading. All appurtenant valves, pumps, and discharge hoses used for the delivery of referenced chemical shall be supplied by the Contractor and shall be clean and free from contaminating material. The Purchaser may reject a load if the equipment is not properly cleaned. The Contractor shall furnish a Purchaser approved, leak-free connection device between the trailer and the Purchaser's intake receptacle. The Contractor shall observe the entire filling operation at each delivery site and shall immediately report any spills caused during the filling operations. The Contractor shall take immediate and appropriate actions to clean up any spilled aluminum sulfate. If the spill is not cleaned up, the Purchaser will hire a certified hazardous material handling company to clean up the spill, and the cost of such service will be charged to the Contractor and deducted from the amount due to the Contractor. Description	Unit of Measure	Unit price
LIQUID ALLUMINUM SULFATE - approx. 40,000 – 50,000 gallons	**gallon**	

Calcium Hypochlorite
Quantity: approximately 7 – 8 pallets

General Description of Services

Calcium Hypochlorite is used at the City of Ormond Beach Water Reclamation Facility located at 550 North Orchard Street, Ormond Beach, FL 32174. The product shall be furnished in accordance with the following general specifications and shall conform to the latest, approved edition of one or more of the following the standards for the ANSI/NSF. The Calcium Hypochlorite shall be in solid form and shall meet the following general list of physical properties:

• Ca(OCl)2 content	65.0% minimum
• Specific Gravity	(H2O=1) 0.98@680F minimum
• Appearance	Solid White Granule

Calcium Hypochlorite will be delivered as solid (price per pallet)

Bidders shall provide an affidavit of compliance with one or more of the standards adopted in Rule 62-555.320(3), F.A.C., product specifications.

The bidder must submit a certified analysis, as to the composition of the product with the bid.

The successful bidder must supply S.D.S. (Safety Data Sheets) on the product.

The successful bidder will supply copies of the manufacturer's shipping and handling safety procedures.

Deliveries will be between the business hours of 7:30 AM and 3:00 PM Monday through Friday with exception of holidays. F.O.B. Ormond Beach, Florida.

Delivery Requirements

Delivery shall be in pallets. Each pallet shall have 10 non-ferrous buckets with each bucket containing 100 pounds of chemical. Buckets shall be provided at the expense of the supplier and shall be accepted by the City of Ormond Beach when, and as, needed. Delivery quantities shall vary between one (1) and two (2) pallets delivered to the above referenced facility. Delivery shall be made within 72 hours of notification of need. The supplier shall provide 24 hours' notice prior to delivery and be responsible for unloading on site.

Contractor shall make "normal" deliveries within three (3) days after receipt of order and must make "emergency" deliveries within 24 hours. An emergency delivery is defined as a delivery which is necessary in order to prevent the Purchaser from running out of referenced chemical in less than 36 hours. Purchaser shall endeavor to minimize the number of "emergency" deliveries.

The Contractor shall be responsible for any spills resulting from the failure of its or its subcontractor's delivery equipment or from failure of attendant delivery personnel in the proper performance of their duties. Proper performance shall require attendant delivery personnel's constant inspection and observation of unloading operations and knowledgeable response to problems or emergencies, which would most commonly be expected to occur. The Purchaser reserves the right to refuse any and all deliveries made with equipment that is poorly maintained.

Because of security and safety concerns, all delivery vehicle drivers shall be U.S. citizens and have a proper commercial driver's license with a Hazardous Material endorsement. Contractor's drivers shall display its driver's license and whenever challenged by Purchaser during the delivery. In addition, Contractor shall supply purchaser a "CD" with digital photographs of all of its delivery drivers with names imposed and shall send out an updated CD within 24 hours of any changes to its drivers. Purchaser shall use the CD to verify whether driver is actually an employee of the Contractor. Failure to show proper license or failure of driver to be listed on the CD provided to Purchaser shall result in rejection of delivery and could result in termination of the Contractor's supply agreement.

A certificate of compliance and certified analysis as to the composition of the product must be provided with each delivery.

Bidders must comply with the insurance and risk management requirements of the City of Ormond Beach, attached to this specification as Attachment A.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Alex Schumann, City Engineer

Date: June 6, 2023

Subject: Intent to Bid - Doug Thomas Way Extension

Commission Goal: Quality of Life - Complete Doug Thomas Way

Introduction

This disposition item provides public notice of the City's intent to issue an invitation to bid for the Doug Thomas Way Extension project, bid number 2023-22.

Background

It has been a priority of this and past commissions to improve access and convenience in the Ormond Beach Sport Complex (OBSC). This project proposes to extend Doug Thomas Way, to complete the loop road around the OBSC. This looped road will allow bikers, walkers and joggers to exercise within the confines of the park, and allow visitors of the park access to all amenities within the park without leaving the park.

Discussion

The proposed design for the Doug Thomas Way Extension consists of extending the existing road approximately 2,150 ft to the East and South and making the connection near the Hull Road front gate. This project will provide for an access road of approximately 350 LF to the existing City maintenance building. The project was designed by Upham, Inc. and costs are estimated at $792,000.

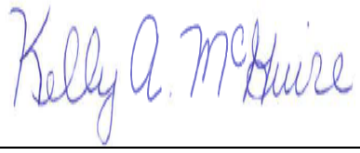
Budget Impact

This project was included in the Fiscal Year (FY) 2021-2022 budget of Fund 308-Transportation Fund. A budget amendment will be needed to reallocate the funding to the current fiscal year.

Citizen Impact

This project will greatly improve the interconnectivity and usability of the park. The

disruptions to the OBSC during construction will be minimal.



Recommendation

The City intends to publicly advertise this project for competitive bidding, unless otherwise directed by the City Commission.

DOUG THOMAS WAY EXTENSION

Bid No. 2023-22

City of Ormond Beach

Project Manual

PREPARED BY:

UPHAM, INC.
265 Kenilworth Avenue
Ormond Beach, FL 32174

SECTION 00030
ADVERTISEMENT FOR BIDS

Sealed bids for furnishing all labor, materials and equipment necessary for constructing the **Doug Thomas Way Extension, Bid No. 2023-22** for the City of Ormond Beach, Florida, will be received at the Office of the Purchasing Coordinator, City Hall, Ormond Beach, Florida, until **July 17, 2023 at 2:00 pm**, at which time bids will be opened and publicly read aloud in the Training Room located in the breezeway between City Hall and the Public Library. Bids received after the above time and date will be returned unopened.

The work consists of: **There are two separate project locations within the City of Ormond Beach Sports Complex located off of Hull Road. Construction of approximately 2,156 lineal feet of a two-lane 24-foot roadway with drainage swale retention and culvert crossing with associated earthwork clearing and grading and grassing of the disturbed and retention areas. Construction of approximately 350 lineal feet of a two-lane 20-foot drive to the City Maintenance Building with associated earthwork clearing and grading and grassing of the disturbed and retention areas**. The work is shown on the Drawings and specified in the Project Manual. The project Drawings, Specifications and related Bidding documents are available on-line at **www.demandstar.com**, or by calling DemandStar at (206) 940-0305. If you have difficulty obtaining these documents, please contact the City's purchasing office at (386) 676-3223.

A **pre-bid conference** to discuss the details and requirements of the contract will be held on **June 14, 2023 at 10:00 am**, in the Training Room at City Hall. All prospective bidders are strongly encouraged to attend. The deadline for submitting questions is **July 10, 2023 at 5:00pm**.

END OF SECTION

SECTION 00100
INSTRUCTION TO BIDDERS

00101. Defined Terms

Terms used in these Instructions to Bidders are defined in the General Conditions of the Construction Contract and have the meanings assigned to them in the General Conditions. The term "Successful Bidder" means the lowest, qualified, responsible Bidder to whom OWNER (on the basis of OWNER's evaluation as hereinafter provided) makes an award.

The OWNER for this project is:

The City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174

The ENGINEER for this project is:

Upham, Inc.
Roger W. Strcula, PE, CPESC
265 Kenilworth Avenue, Ormond Beach, FL 32174
Voice: 386.762.9515

00102. Copies of Bidding Documents

2.1 The City uses the services of DemandStar (www.demandstar.com) to advertise/distribute its bids and RFP's via the internet.

2.2 Complete sets of the Bidding Documents may be obtained from the issuing office designated in the Advertisement for Bids.

2.3 Complete sets of Bidding Documents shall be used in preparing Bids; neither OWNER nor ENGINEER assume any responsibility for errors or misinterpretations resulting from the use of incomplete sets of Bidding Documents.

2.4 OWNER and ENGINEER in making copies of Bidding Documents available, on the above terms, do so only for the purpose of obtaining Bids on the Work and do not confer a license or grant for any other use.

00102.1 COMPLIANCE WITH FLORIDA PUBLIC RECORDS LAW

Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.

(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.

(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.

(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

CITY CLERK
22 SOUTH BEACH STREET
ORMOND BEACH, FLORIDA 32174 (386) 676-3297
CITYCLERK@ORMONDBEACH.ORG

Ref: Fla. Stat. §119.0701(2016)

00102.2 Public Records/Non-Confidentiality of Bids

The City of Ormond Beach cannot and does not warrant the confidentiality of any information submitted in response to this bid solicitation. Florida law provides that municipal records shall at all times be open for personal inspection by any person, Section 119, F.S., the Public Records Act. Information and materials received by the City of Ormond Beach in connection with responsive bids shall be deemed to be public records subject to public inspection upon award, recommendation of award, or 30 days after bid opening, whichever occurs first.

00103. Qualifications of Bidders

To demonstrate qualifications to perform the Work, each Bidder must be prepared to submit, within seven days after the OWNER's request, written evidence of his ability to perform the work, such as financial data, previous experience, and evidence of authority to conduct business in the jurisdiction where the Project is located. Each Bid must contain evidence of Bidder's qualification to do business in the state where the Project is located or covenant to obtain such qualification prior to award of the contract.

00104. Public Entity Crimes:

A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a Proposal on a contract to provide any goods or services to a public entity, may not submit a Proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit Proposals on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

4.1 Discrimination Pursuant to Section 287.134(2)(a), Florida Statutes, an entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

00105. Examination of Contract Documents and Site

5.1 Before submitting a Bid, each Bidder must (a) examine the Contract Documents thoroughly, (b) visit the site to familiarize himself with local conditions that may in any manner affect cost, progress or performance of the Work, (c) familiarize himself with federal, state and local laws, ordinances, rules and regulations that may in any manner affect cost, progress or performance of the Work; and (d) study and carefully correlate Bidder's observations with the Contract Documents.

5.2 Reference is made to the Supplementary Conditions for the identification of those reports of investigations and tests for subsurface and latent physical conditions at the site or otherwise affecting cost, progress or performance of the Work which have been relied upon by ENGINEER in preparing the Drawings and Specifications. OWNER will make such reports available for inspection to any Bidder or copies may be obtained from the ENGINEER by the Bidder at reproduction cost. These reports are not guaranteed as to accuracy or completeness, nor are they part of the Contract Documents. Before submitting his Bid each Bidder will, at his own expense, make such additional investigations and tests as the Bidder may deem necessary to determine his Bid for performance of

the Work in accordance with the time, price and other terms and conditions of the Contract Documents.

5.3 On request OWNER will provide each Bidder access to the site to conduct such investigations and tests as each Bidder deems necessary for submission of his Bid. Bidders making such investigations shall return site to original condition and shall pay for any damages resulting therefrom.

5.4 The lands upon which the Work is to be performed, rights-of-way for access thereto and other lands designated for use by CONTRACTOR in performing the Work are identified in the Supplementary Conditions, General Requirements, or Drawings.

5.5 The submission of a Bid will constitute an incontrovertible representation by the Bidder that he has complied with every requirement of this Article 4 and that the Contract Documents are sufficient in Scope and detail to indicate and convey understanding of all terms and conditions for performance of the Work.

00106. Clarification/Correction of Proposal

The City of Ormond Beach reserves the right to allow for the clarification of questionable entries and for the correction of obvious mistakes.

00107. Interpretations

All questions about the meaning or intent of the Contract Documents shall be submitted in writing to the Purchasing Coordinator via email to Rob.Hart@ormondbeach.org. Replies will be issued by Addenda mailed or delivered to all parties recorded by ENGINEER as having received the Bidding Documents. Only questions answered by formal written Addenda will be binding. Oral and other interpretations or clarifications will be without legal effect.

00108. Minority Policies

The City of Ormond Beach, Florida, encourages the full participation of Disadvantaged and Women Business Enterprises (D&WBE) in the provision of goods and services.

00109. Bid Security

9.1 Bids shall be accompanied by a Bid Security. The Security shall be made payable to OWNER, in the amount of five percent (5%) of the total bid, and in the form of a certified or cashier's check or a Bid Bond issued by a Surety meeting the requirements of paragraph 5.1 of the General Conditions. The Bid Security shall be irrevocable after the time and date set for the opening of bids, and for a period of ninety (90) days thereafter.

9.2 The Bid Security of the Successful Bidder will be retained until such Bidder has executed the Agreement and furnished the required Contract Security, whereupon it will be returned; if the successful Bidder fails to execute and deliver the Agreement and furnish the required Contract

Security within fifteen (15) days of the Notice of Award, OWNER may annul the Notice of Award and the Bid Security of that Bidder will be forfeited. The Bid Security of any Bidder whom OWNER believes to have a reasonable chance of receiving the award may be retained by OWNER until the seventh day after the "effective date of the Agreement" or the first day after the expiration of the period that Bids are specified to remain open in the Advertisement for Bids. Bid Security of other Bidders will be returned within seven (7) days of the Bid opening.

00110. Contract Time

The number of days within which, or the date by which, the Work is to be completed (the Contract Time) is set forth in the Bid Form and will be included in the Agreement.

00111. Liquidated Damages

Provisions for liquidated damages, if any, are set forth in the Bid Form and Agreement.

00112. Subcontractors

12.1 If the Supplementary Conditions, Bid Form and/or Specifications require the identity of certain subcontractors to be submitted to the OWNER with the bid, the bidder will list in his bid all subcontractors proposed for those portions of the work for which such identification is so required. When requested, an experience statement, pertinent information as to similar projects satisfactorily completed and other evidence of qualifications for each listed subcontractor shall be submitted within seven (7) days after the bid. If the OWNER after due investigation has reasonable objection to any proposed subcontractor, OWNER may before giving the Notice of Award request the apparent low bidder to submit an acceptable substitute without an increase in his bid price. If the apparent Successful Bidder declines to make any such substitution, the contract shall not be awarded to such Bidder, but his declining to make any such substitution will not constitute grounds for sacrificing his Bid Security. Any Subcontractor so listed and to whom OWNER does not make written objection prior to the giving of the Notice of Award will be deemed acceptable to OWNER.

12.2 In contracts where the Contract Price is on the basis of Cost-of-the-Work Plus a Fee, the apparent Successful Bidder, prior to the Notice of Award, shall identify in writing to OWNER those portions of the Work that such Bidder proposes to subcontract and after the Notice of Award may only subcontract other portions of the Work with OWNER's written consent.

00113. Material and Equipment List (Manufacturers)

If the Supplementary Conditions, Bid Form and/or Specifications require the identity of certain material and equipment manufacturers be submitted to the OWNER with the bid, the bidder will list in his bid all material and equipment manufacturers proposed for those portions of the work for which such identification is so required. Such list shall be supplemented by product descriptions for each listed material and equipment item. Supplemental information will be submitted with the bid unless it has been prefiled with the ENGINEER. In this latter case, the bid shall state that the information has been prefiled. Equipment manufacturers/suppliers must agree to OWNER'S terms of purchase. In no event will OWNER accept terms of sale that limit OWNER'S ability to

reasonably recover in the event of equipment failure/defect such as, but not limited to; mandatory arbitration clauses, venue of court proceedings and applicable law outside of Volusia County, Florida, or damage limitations that preclude recovery for failed or defective equipment that would be less than full compensation for OWNER's loss. If the OWNER after due investigation has reasonable objection to any proposed material or equipment item, OWNER may before giving the Notice of Award request the apparent low bidder to submit an acceptable substitute without an increase in his bid price. If the apparent Successful Bidder declines to make any such substitution, the contract may not be awarded to such Bidder, but his declining to make any such substitution will not constitute grounds for sacrificing his Bid Security. Any material or equipment manufacturer so listed and to whom OWNER does not make written objection prior to the giving of the Notice of Award will be deemed acceptable to OWNER. This acceptance of a material or equipment manufacturer does not relieve the CONTRACTOR from the responsibility of submitting shop drawings in accordance with Section 01300 before incorporating said material and/or equipment into the Work.

00114. Material and Equipment Substitutions

Excluding items called for in the bidders Equipment and Subcontractors List in the Bid, Section 00300, whenever it is indicated on the Drawings or specified in the Specifications that a substitute or "or equivalent" item of material or equipment may be furnished or used by CONTRACTOR if acceptable to ENGINEER, application for such acceptance will not be considered by ENGINEER until after the "effective date of the Agreement". The procedure for submittal of any such application by CONTRACTOR and consideration by ENGINEER is set forth in Section 01630 - Substitutions and Product Options.

00115. Bid Form

15.1 Bids shall be submitted on standard forms which are furnished in this Project Manual.

15.2 Bid Forms must be completed in ink or by typewriter. All blank spaces must be filled. Where indicated on the Bid Form, the Bid price of each item on the form must be stated in words and numerals; in case of a conflict, words will take precedence.

15.3 The estimate of the various quantities of work applicable to unit price items as shown on the Bid Form is approximate and is intended solely to provide the basis of comparison upon which the award of contract is made. Final payment will be made on the basis of the actual completed quantities of each item.

15.4 Bids by corporations must be executed in the corporate name by the president or a vice president (or other corporate officer accompanied by evidence of authority to sign) and the corporate seal must be affixed and attested by the secretary or an assistant secretary. The corporate address and state of incorporation shall be shown below the signature.

15.5 Bids by partnerships must be executed in the partnership name and signed by a partner, whose title must appear under the signature and the official address of the partnership must be shown below the signature.

15.6 Bids by a Joint Venture must be executed by all individuals, Partners, or Corporations interested in the Joint Venture in the same manner that bids by these separate entities are required to be executed.

15.7 All names must be typed or printed below the signature.

15.8 The Bid shall contain an acknowledgment of receipt of all Addenda (the numbers of which shall be filled in on the Bid Form).

15.9 The address to which communications regarding the Bid are to be directed must be shown.

15.10 Only one bid from any individual, firm, partnership or corporation under the same or different names, will be considered. Should it appear to the OWNER that any Bidder is interested in more than one bid, all bids in which such Bidder is interested will be rejected.

00116. Submission of Bids

Bids shall be submitted at the time and place indicated in the Advertisement for Bids and shall be included in an opaque sealed envelope, marked with the Bid Number, Project Title, and Bidder's Name and Address, accompanied by the Bid Security and other required documents. Include one (1) original bid form and (1) electronic file (thumb/flash drive or CD). If the Bid is sent through the mail or other delivery system, the sealed Bid shall be sent in a separate envelope with the notation "BID ENCLOSED" as well as the Bid Number, Project Title, and Bid Opening Date clearly displayed on the shipping envelope/package.

Submit bids to:

City of Ormond Beach
Purchasing Coordinator
22 South Beach Street, Room 102
Ormond Beach, FL 32174

00117. Modification and Withdrawal of Bids

Bids may be modified or withdrawn by an appropriate document duly executed (in the manner that a Bid must be executed) and delivered to the place where Bids are to be submitted at any time prior to the opening of Bids.

00118. Opening of Bids

Bids will be opened publicly and read aloud and an abstract of the amounts of the base Bids and major alternates (if any) will be made available after the opening of Bids.

00119. Bids to Remain Open

All Bids shall remain open for ninety (90) days after the day of the Bid opening, but OWNER may, in his sole discretion, release any Bid and return the Bid Security prior to that date.

00120. Award of Contract

20.1 OWNER reserves the right to reject any and all Bids, to waive any and all informalities and to negotiate contract terms with the Successful Bidder, and the right to disregard all nonconforming, nonresponsive or conditional Bids. Discrepancies between words and figures will be resolved in favor of words. Discrepancies between the indicated product of quantities and unit prices and the correct product thereof will be resolved in favor of the correct product. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum.

20.2 In evaluating Bids, OWNER shall consider the qualifications of the Bidders, whether or not the Bids comply with the prescribed requirements, and alternates and unit prices if requested in the Bid forms. It is OWNER's intent to accept alternates (if any are accepted) in the order in which they are listed in the Bid form but OWNER may accept them in any order or combination.

20.3 OWNER may consider the qualifications and experience of Subcontractors and other persons and organizations (including those who are to furnish the principal items or material or equipment) proposed for those portions of the Work as to which the identity of Subcontractors and other persons and organizations must be submitted as provided in the Supplementary Conditions. Operating costs, maintenance considerations, performance data and guarantees of materials and equipment may also be considered by OWNER.

20.4 Irregular bids may be rejected. Irregular bids are defined as those containing serious omissions, unauthorized alternative bids, incomplete bids or unbalanced bids. Failure to provide all of the information required to accompany the bid will be considered to be a serious omission.

20.5 OWNER may conduct such investigations as he deems necessary to assist in the evaluation of any Bid.

20.6 OWNER reserves the right to reject the Bid of any Bidder who does not pass any such evaluation to OWNER's satisfaction.

20.7 If the contract is to be awarded it will be awarded to the lowest responsible Bidder whose evaluation by OWNER indicates that the award will be in the best interests of the Project. The low bid will be based on the total cost of the Base Bid and, when applicable, any Additive or Deductive Alternates that are to be included in the Contract, as decided by the OWNER.

20.8 If the contract is to be awarded, OWNER will give the Successful Bidder a Notice of Award within the number of days after the day of the Bid opening specified in the Advertisement for Bids to remain open.

00121. Performance and Other Bonds

Paragraph 5.1 of the General Conditions and the Supplementary Conditions set forth OWNER's requirements as to performance and other Bonds. When the Successful Bidder delivers the executed Agreement to OWNER it shall be accompanied by the required Contract Security.

00122. Signing of Agreement

When OWNER gives a Notice of Award to the Successful Bidder, it will be accompanied by at least five (5) unsigned counterparts of the Agreement and all other Contract Documents. Within ten (10) days thereafter CONTRACTOR shall sign all and deliver at least five (5) counterparts of the Agreement to OWNER with other Contract Documents attached. Within ten (10) days thereafter OWNER will deliver fully signed counterparts to CONTRACTOR.

00123. Special Requirements

23.1 Financing. Funds will be available for payment of estimate draws as they become due.

23.2 Prohibited Interests. No official of the OWNER who is authorized in such capacity, and on behalf of the OWNER to negotiate, make, accept or approve, or to take part in negotiating, making, accepting, or approving any architectural, engineering, inspection, construction or material supply contract or any subcontract in connection with the construction of the project shall become directly or indirectly interested, personally, in this Contract or in any part thereof. No officer, employee, architect, attorney, engineer, or inspector of or for the OWNER who is authorized in such capacity and on behalf of the OWNER to exercise legislative, executive, supervisory, or other similar functions in connection with the construction of the project, shall become directly or indirectly interested personally, in this Contract or in any part thereof, any material supply contract, subcontract, insurance contract, or any other contract pertaining to the project.

23.3 Performance of Work by CONTRACTOR:

Contract Assignment. The successful Bidder (or Bidders) will be required to perform the work as a prime contractor.

The CONTRACTOR shall not sublet, sell, transfer, assign or otherwise dispose of the contract or any portion thereof, or of his right, title or interest therein, without written consent of the OWNER.

END OF INSTRUCTION TO BIDDERS

SECTION 00300
BID

CONTRACTORS NAME _____ LICENSE NO. _____

PROJECT IDENTIFICATION: **DOUG THOMAS WAY EXTENSION**

CONTRACT IDENTIFICATION AND NUMBER: Bid No. 2023-22

THIS BID IS SUBMITTED TO:
(Name and Address of Owner)

City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174

1. The undersigned BIDDER proposes and agrees, if this Bid is accepted, to enter into an Agreement with OWNER in the form included in the Contract Documents to complete all Work as specified or indicated in the Contract Documents for the Contract Price and within the Contract Time indicated in this Bid and in accordance with the Contract Documents.

2. BIDDER certifies that he has investigated the requirements to do business in the jurisdiction where the project is located, and that he is either qualified to do business or will obtain such prequalification prior to award of the contract.

3. BIDDER accepts all of the terms and conditions of the Instructions to Bidders (Section 00100) including, without limitation, those dealing with the disposition of Bid Security, Public Entity Crimes, and Minority Policies. This Bid will remain open for 90 days after the day of Bid opening. BIDDER will sign the Agreement and submit the Contract security and other documents required by the Contract Documents within ten (10) days after the date of OWNER'S Notice of Award.

4. In submitting this Bid, BIDDER represents, as more fully set forth in the Agreement, that:

(a) BIDDER has examined copies of all the Contract Documents and of the following addenda:

Date	Number
_____	_____
_____	_____
_____	_____
_____	_____

(receipt of all of which is hereby acknowledged) and also copies of the Advertisement to Bid and the Instructions to Bidders;

(b) BIDDER has examined the site and locality where the Work is to be performed, the legal requirements (federal, state and local laws, ordinances, rules and regulations) and the conditions affecting cost, progress or performance of the Work and has made such independent investigations as BIDDER deems necessary.

(c) This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; BIDDER has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid; BIDDER has not solicited or induced any person, firm or a corporation to refrain from bidding; and BIDDER has not sought by collusion to obtain for himself any advantage over any other Bidder or over OWNER; and

5. BIDDER will complete the Work for the following price(s):

BIDDER acknowledges that the quantities are not guaranteed and final payment will be based on actual quantities determined as provided in the Contract Documents.

BIDDER agrees that the Work will be substantially completed within **120** calendar days after the date when the Contract Time commences to run, and completed within **150** calendar days after the date when the Contract Time commences to run.

BIDDER recognizes that time is of the essence to complete this Project and that OWNER will suffer financial loss if the Work is not substantially complete within the time specified above, plus any extensions thereof allowed in accordance with Article 12 of the General Conditions. The BIDDER also recognize the delays, expense and difficulties involved in proving, in a legal or arbitration proceeding, the actual loss suffered by OWNER if the Work is not substantially complete on time. Accordingly, instead of requiring any such proof, OWNER has determined and BIDDER agrees to accept that as liquidated damages for delay (but not as a penalty) CONTRACTOR shall pay OWNER **Five Hundred** Dollars (**$500.00**) for each calendar day that expires after the time specified above for substantial completion until the Work is substantially complete. After substantial completion, if CONTRACTOR shall neglect, refuse or fail to complete the remaining Work within the time specified above for completion and readiness for final payment or any proper extension thereof granted by OWNER, CONTRACTOR shall pay the OWNER an amount equal to all actual expenses incurred by the OWNER as a direct result of the CONTRACTOR'S negligence, refusal, or failure to so complete the remaining work. In the event the CONTRACTOR is terminated or abandons the work prior to the scheduled date for final completion, the CONTRACTOR may be liable for both liquidated damages attributable to delay and for excess completion costs.

6. The following documents are attached to and made a condition of this Bid:

   (a) Required Bid Security in the form of

   (1) a certified check drawn in favor of the City of Ormond Beach in the amount of 5 percent of the total bid; or

   (2) a Bid Bond in the amount of 5 percent of the total bid.

   (b) Equipment, Material, and Subcontractors List

   (c) All information required by the Trench Safety Act (Part VI, Chapter 553, Florida Statutes).

   (d) Drug Free Workplace Certificate

   (e) Conflict, Non-Conflict of Interest, Litigation Statement

   (f) Local Vendor Preference

   (g) Verification of Employment Status Using E-Verify System

EQUIPMENT AND SUBCONTRACTORS LIST

List the names of the manufacturers whose product is proposed for use. No more than one manufacturer's name shall be inserted for each item of material and/or equipment listed. Failure to list materials and equipment supplier may result in the Bid being rejected as incomplete and nonresponsive. If any Subcontractors are proposed to be used for any portions of the Work, the names, addresses, phone numbers and work classifications of each such Subcontractor must be listed. The failure to list all Subcontractors proposed for the work may result in the Bid being rejected as incomplete and nonresponsive. If more than one manufacturer or subcontractor is listed, selection will be made by the OWNER. If none is listed, those listed as the "Basis for Design" will be used.

TRENCH SAFETY STANDARDS

If this project includes trench excavation in excess of five (5) feet in depth, the following trench safety standards will be in effect during the period of construction of the project:

The Occupational Safety and Health Administration's excavation safety standards, 29 C.F.R.s. 1926.650 Subpart P, and any regulation promulgated there under are hereby incorporated as the standard for this project.

The Bidder hereby certifies that the Contractor performing the trench excavation will comply with the applicable trench safety standards.

The Bidder further certifies that the cost (which is included in his unit cost) of compliance with applicable trench safety standards is:

ITEM	Estimated Quantity	Units	Unit Price	Total Estimated Price

DRUG-FREE WORKPLACE CERTIFICATION

Identical Or "Tie" Bids: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

3) Give each employee that engages in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) calendar days after such conviction.

5) Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

LOCAL VENDOR PREFERENCE

The following is taken from the Code of Ordinances, City of Ormond Beach, Chapter 2, Financial Matters, Division 3, Purchasing, Article IX, Section 2-304:

Except where otherwise provided by federal or state law or other funding source restrictions, purchases of goods and services under the Purchasing Code shall give preference to local businesses as follows:

(a) Under a competitive bid solicitation, the City *may* give a local preference in the amount of three percent (3%) of the bid price or $25,000, whichever is less. The bid price shall include not only the base bid price but all alternatives which are part of the bid and actually purchased or awarded.

(b) A *local business* shall mean a vendor that has a valid occupational license issued by the City of Ormond Beach at least one year prior to bid opening, with a physical business address located within the municipal boundaries of the City of Ormond Beach from which the vendor operates or performs business on a day-to-day basis that is a substantial component of the goods or services being offered and has provided a Local Vendor Affidavit of Eligibility at the time the bid is submitted.

(c) A *Local Vendor Affidavit of Eligibility* shall accompany the bid submittal to be considered valid and shall include, but not be limited to, the following information:
   (1) A physical business and location address;
   (2) A copy of current City of Ormond Beach Local Business Tax Receipt (occupational license) to verify the business location;
   (3) Proof of payment of business tax and real property tax due to the City of Ormond Beach;
   (4) A copy of the firm's most recent annual corporation report to the Florida Division of Corporations;
   (5) Any additional information necessary to verify local status.

(d) *Exemptions:* Goods or services provided under a cooperative purchasing agreement, contracts for professional services subject to Consultants' Competitive Negotiation Act, purchases or contracts funded in whole or part by a governmental entity that does not allow local preferences, purchases made under another agency's agreements or contracts (piggybacking), purchases under emergency or sole source situations and procurements subject to formal proposals including but not limited to request for proposals (RFP) or continuing contract, and request for quotes (RFQ) versus straight competitive bids.

(e) This section shall not be deemed to require the granting of a local preference, and nothing herein prohibits the award of a contract to a non-local vendor where such award is in the public interest.

LOCAL VENDOR AFFIDAVIT OF ELIGIBILITY

I certify that my company meets all of the following qualifications to be eligible for the local vendor preference:

a. My company has a physical business address located within the municipal boundaries of the City of Ormond Beach which is used to perform business on a day-to-day basis.
b. My company holds any business (occupational) or contractor license required by the City of Ormond Beach at least one year prior to bid opening.
c. Payment of business tax and real property tax due to the City of Ormond Beach is current
d. My company is in compliance with annual reporting to the Florida Division of Corporations

VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.
2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.
3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.
4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.
5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

18SECTION 00500
FORM OF AGREEMENT

THIS AGREEMENT is by and between City of Ormond Beach, a Municipal Corporation in the State of Florida (hereinafter called OWNER) and

_____

(hereinafter called CONTRACTOR)

The bid for this contract was approved by the City Commission on _____, 2023.

Article 1. WORK

CONTRACTOR shall complete all Work as specified or indicated in the Contract Documents. The Work is generally described as follows:

There are two separate project locations within the City of Ormond Beach Sports Complex located off of Hull Road. Construction of approximately 2,156 lineal feet of a two-lane 24-foot roadway with drainage swale retention and culvert crossing with associated earthwork clearing and grading and grassing of the disturbed and retention areas. Construction of approximately 350 lineal feet of a two-lane 20-foot drive to the City Maintenance Building with associated earthwork clearing and grading and grassing of the disturbed and retention areas.

The Project for which the Work under the Contract Documents may be the whole or only a part is generally described as follows:

DOUG THOMAS WAY EXTENSION
and **BID NUMBER 2023-22**

Article 2. ENGINEER

The Project has been designed by Upham, Inc. of 265 Kenilworth Avenue, Ormond Beach, FL 32174 who is hereinafter called ENGINEER and who will assume all duties and responsibilities and will have the rights and authority assigned to ENGINEER in the Contract Documents in connection with completion of the Work in accordance with the Contract Documents.

Article 3. CONTRACT TIME

3.1 The Work will be substantially completed within **120** calendar days after the date when the Contract Time commences to run as provided in paragraph 2.3 of the General Conditions, and completed and ready for final payment in accordance with paragraph 14.10 of the General Conditions within **150** calendar days after the date when the Contract Time commences to run.

3.2 Liquidated Damages. OWNER and CONTRACTOR recognize that time is of the essence of this Agreement and that OWNER will suffer financial loss if the Work is not substantially complete within the time specified in paragraph 3.1 above, plus any extensions thereof allowed in accordance with Article 12 of the General Conditions. They also recognize the delays, expense and difficulties involved in proving in a legal or arbitration proceeding the

actual loss suffered by OWNER if the Work is not substantially complete on time. Accordingly, instead of requiring any such proof, OWNER and CONTRACTOR agree that as liquidated damages for delay (but not as a penalty) CONTRACTOR shall pay OWNER **two hundred fifty** Dollars **($ 250.00)** for each calendar day that expires after the time specified in paragraph 3.1 for Substantial Completion until the Work is substantially complete. After Substantial Completion, if CONTRACTOR shall neglect, refuse or fail to complete the remaining Work within the time specified in paragraph 3.1 for completion and readiness for final payment or any proper extension thereof granted by OWNER, CONTRACTOR shall pay the OWNER an amount equal to all actual expenses incurred by the OWNER as a direct result of the CONTRACTOR'S negligence, refusal, or failure to so complete the remaining work. In the event the Contractor is terminated or abandons the Work prior to the scheduled date for final completion, the Contractor may be liable for both liquidated damages attributable to delay and for excess completion costs.

Article 4. CONTRACT PRICE

OWNER shall pay CONTRACTOR for completion of the Work, in accordance with the Contract Documents, an amount in current funds equal to the unit price of the TOTAL BID of **$**_____, as listed in the Bid Form. Payment shall be for the actual completed work, as specified in the Measurement and Payment section of the project Manual and in accordance with Article 14 of the General Conditions.

Article 5. PAYMENT PROCEDURES

CONTRACTOR shall submit Applications for Payment in accordance with Article 14 of the General Conditions. Applications for Payment will be processed by ENGINEER as provided in the General Conditions.

5.1 Progress Payments. OWNER shall make progress payments on account of the Contract Price on the basis of CONTRACTOR'S Applications for Payment as recommended by ENGINEER, on or about the **15th** day of each month during construction as provided below, provided Applications for Payment are timely delivered pursuant to Article 14.1 of the General Conditions. All progress payments will be on the basis of the progress of the Work measured by the schedule of values provided for in paragraph 14.1 of the General Conditions.

5.1.1 When applicable, all progress payments shall be in an amount equal to:

Ninety-Five percent (95%) of the Work completed.

Ninety-Five percent (95%) of materials and equipment not incorporated in the Work but delivered and suitably stored, less in each case the aggregate of payments previously made and less such amounts as ENGINEER shall determine in accordance with paragraph 14.4 of the General Conditions.

5.2 Final Payment. Upon final completion and acceptance of the Work in accordance with paragraph 14.10 of the General Conditions, OWNER shall pay the remainder of the Contract Price as recommended by ENGINEER as provided in said paragraph 14.10.

Article 6. CONTRACTOR'S REPRESENTATIONS

In order to induce OWNER to enter into this Agreement CONTRACTOR makes the following representations:

6.1 CONTRACTOR has familiarized himself with the nature and extent of the Contract Documents, Work, locality, and with all local conditions and federal, state and local laws, ordinances, rules and regulations that in any manner may affect cost, progress or performance of the Work.

6.2 CONTRACTOR has studied carefully all reports of investigations and tests of subsurface and latent physical conditions at the site or otherwise affecting cost, progress or performance of the Work which were relied upon by ENGINEER in the preparation of the Drawings and Specifications and which have been identified in the Supplementary Conditions.

6.3 CONTRACTOR has made or caused to be made examinations, investigations and tests and studies of such reports and related data in addition to those referred to in paragraph 6.2 as he deems necessary for the performance of the Work at the Contract Price, within the Contract Time and in accordance with the other terms and conditions of the Contract Documents, and no additional examinations, investigations, tests, reports or similar data are or will be required by CONTRACTOR for such purposes.

6.4 CONTRACTOR has correlated the results of all such observations, examinations, investigations, tests, reports and data with the terms and conditions of the Contract Documents.

6.5 CONTRACTOR has given ENGINEER written notice of all conflicts, errors or discrepancies that he has discovered in the Contract Documents and the written resolution thereof by ENGINEER is acceptable to CONTRACTOR.

Article 7. CONTRACT DOCUMENTS

The Contract Documents which comprise the entire agreement between OWNER and CONTRACTOR are attached to this Agreement, made a part hereof and consists of the following:

7.1 This Agreement (pages 1 to 5 , inclusive).

7.2 Exhibits to this Agreement (pages ___ to ___ , inclusive).

7.3 Performance and other Bonds, identified as exhibits 00610 AND 00615 and consisting of 4 pages.

7.4 Notice of Award.

7.5 General Conditions (pages 1 to 35 , inclusive).

7.6 Supplementary Conditions (pages 1 to 7 , inclusive).

7.7 Specifications bearing the title:

DOUG THOMAS WAY EXTENSION

and consisting of **3** divisions, as listed in table of contents thereof.

7.8 Drawings, consisting of **18** sheets numbered **CV-1** through **C-3.2** inclusive and bearing the following general title:

DOUG THOMAS WAY EXTENSION

7.9 Addenda numbers ___ to ____ , inclusive.

7.10 CONTRACTOR'S Bid (pages 1 to 18 , inclusive) marked exhibit _____ (Attach Bid Form only in special circumstances).

7.11 Documentation submitted by CONTRACTOR prior to Notice of Award (pages ____ to ____ , inclusive).

7.12 Any Modification, including Change Orders, duly delivered after execution of Agreement.

There are no Contract Documents other than those listed above in this Article 7. The Contract Documents may only be altered, amended or repealed by a Modification (as defined in Section 1 of the General Conditions).

Article 8. MISCELLANEOUS

8.1 Terms used in this Agreement which are defined in Article 1 of the General Conditions shall have the meanings indicated in the General Conditions.

8.2 No assignment by a party hereto of any rights under or interests in the Contract Documents will be binding on another party hereto without the written consent of the party sought to be bound; and specifically but without limitation, moneys that may become due and moneys that are due may not be assigned without such consent (except to the extent that the effect of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment no assignment will release or discharge the assignor from any duty or responsibility under the Contract Documents.

8.3 OWNER and CONTRACTOR each binds himself, his partners, successors, assigns and legal representatives to the other party hereto, his partners, successors, assigns and legal representatives in respect to all covenants, agreements and obligations contained in the Contract Documents.

IN WITNESS WHEREOF, the parties hereto have signed this Agreement. One counterpart each has been delivered to OWNER and CONTRACTOR, and to ENGINEER as applicable. All portions of the Contract Documents have been signed by OWNER and CONTRACTOR or identified by ENGINEER on their behalf.

This Agreement will be effective on _____, 2023

END OF SECTION

SECTION 00700
GENERAL CONDITIONS OF THE CONSTRUCTION CONTRACT

ARTICLE 1 - DEFINITIONS

Whenever used in these General Conditions or in the other Contract Documents, the following terms have the meanings indicated which are applicable to both the singular and plural thereof.

1.01. Addenda -Written or graphic instruments issued prior to the opening of Bids which clarify, correct or change the bidding documents of the Contract Documents.

1.02. Agreement - The written agreement between OWNER and CONTRACTOR covering the Work to be performed; other Contract Documents are attached to the Agreement and made a part thereof as provided therein.

1.03. Application for Payment - The form accepted by ENGINEER which is to be used by CONTRACTOR in requesting progress or final payment and which is to include such supporting documentation as required by the Contract Documents.

1.04. Approve - The word approve is defined to mean review of the material, equipment or methods for general compliance with the design concepts and with the information given in the Contract Documents. It does not imply a responsibility on the part of the ENGINEER to verify in every detail conformance with the Drawings and Specifications.

1.05. Bid -The offer or proposal of the Bidder submitted on the prescribed form setting forth the prices for the Work to be performed.

1.06. Bonds - Bid, Performance and Payment Bonds and other instruments of security.

1.07. Change Order - A written order to CONTRACTOR signed by OWNER authorizing an addition, deletion or revision in the Work, or an adjustment in the Contract Price or the Contract Time issued after the effective date of the Agreement.

1.08. Contract - The Agreement.

1.09. Contract Documents - The Agreement, Addenda (which pertain to the Contract Documents), CONTRACTOR's Bid (including documentation accompanying the bid and any post-Bid documentation submitted prior to the Notice of Award) when attached as an exhibit to the Agreement, Notice of Award, the Bonds, these General Conditions, the Supplementary Conditions, the Specifications and the Drawings as the same are more specifically identified in the Agreement, any other exhibits identified in the Agreement, together with all Modifications issued after the execution of the Agreement.

1.10. Contract Price - The Contract Price constitutes the total compensation (subject to authorized adjustments) payable by OWNER to CONTRACTOR for performing the Work.

1.11. Contract Time - The number of days (computed as provided in paragraph 16.2) or the

date stated in the Agreement for the completion of the Work.

1.12. CONTRACTOR - The person, firm or corporation with whom OWNER has entered into the Agreement.

1.13. Day - A calendar day of twenty-four hours measured from midnight to the next midnight.

1.14. Defective - Work that is unsatisfactory, faulty or deficient, or does not conform to the Contract Documents or does not meet the requirements of any inspection, test or approval referred to in the Contract Documents, or has been damaged prior to ENGINEER's recommendation of final payment.

1.15. Drawings - The drawings, which will be identified in the Agreement, which show the character and scope of the Work to be performed and which have been prepared or approved by ENGINEER and are referred to in the Contract Documents.

1.16. Effective Date of the Agreement - The date indicated in the Agreement on which it becomes effective, but if no such date is indicated it means the date on which the Agreement is signed and delivered by the last of the two parties to sign and deliver.

1.17. ENGINEER – Upham, Inc. of 265 Kenilworth Avenue, Ormond Beach, Florida, or the designee of such Engineer.

1.18. Engineering Order - A written request issued by ENGINEER to CONTRACTOR requesting a cost for certain modifications to the Work. An Engineering Order is not an authorization to perform the modifications.

1.19. Field Order - A written order issued by ENGINEER which clarifies or interprets the Contract Documents or orders minor changes in the Work in accordance with paragraph 10.2, but which does not involve a change in the Contract Price or the Contract Time.

1.20. Furnish - The words "furnish", "furnish and install", "install", and "provide" or words with similar meaning shall be interpreted, unless otherwise specifically stated, to mean "furnish and install complete in place and ready for service".

1.21. General Requirements - Sections of Division 1 of the Specifications.

1.22. Inspection - The term "Inspection" and the act of inspecting as used in these Contract Documents is defined to mean examination of construction to ensure that it conforms to the design concept expressed in the Drawings and Specifications. These terms shall not be construed to mean supervision, superintending and/or overseeing.

1.23. Modification - (a) A written amendment of the Contract Documents signed by both parties, (b) a Change Order, or (c) a Field Order. A modification may only be issued after the effective date of the Agreement and must be in writing to be effective.

1.24. Notice of Award - The written notice by OWNER to the apparent successful Bidder stating that upon compliance by the apparent successful Bidder with the conditions precedent enumerated therein, within the time specified, OWNER will sign and deliver the Agreement.

1.25. Notice to Proceed - A written notice given by OWNER to CONTRACTOR (with a copy to ENGINEER) fixing the date on which the Contract Time will commence to run and on which CONTRACTOR shall start to perform his obligation under the Contract Documents.

1.26. OWNER - The City of Ormond Beach, Florida.

1.27. Product - Materials, systems, and equipment provided by the CONTRACTOR.

1.28. Project - The total construction of which the Work to be provided under the Contract Documents may be the whole, or a part as indicated elsewhere in the Contract Documents.

1.29. Project Manual - The term "Project Manual" includes Bidding Requirements, Conditions of the Contract, Specifications, and Drawings.

1.30. Project Representative - The authorized representative of ENGINEER who is assigned to the site or any part thereof.

1.31. Shop Drawings - All drawings, diagrams, illustrations, schedules and other data which are specifically prepared by CONTRACTOR, a Subcontractor, manufacturer, fabricator, supplier or distributor to illustrate some portion of the Work and all illustrations, brochures, standard schedules, performance charts, instructions, diagrams and other information prepared by a manufacturer, fabricator, supplier or distributor and submitted by CONTRACTOR to illustrate material or equipment for some portion of the Work.

1.32. Specifications - Those portions of the Contract Documents consisting of written technical descriptions of materials, equipment, construction systems, standards and workmanship as applied to the Work and certain administrative details applicable thereto.

1.33. Subcontractor - An individual, firm or corporation having a contract with CONTRACTOR or with any other Subcontractor for the performance of a part of the Work at the site.

1.34. Substantial Completion - The point reached when the Work (or a specified part thereof), in the opinion of ENGINEER as evidenced by his final certificate of Substantial Completion, is sufficiently complete, in accordance with the Contract Documents, so that the Work (or specified part) can be utilized for the purposes for which it was intended; or if there be no such certificate issued, when final payment is due in accordance with paragraph 14.10. The terms "substantially complete" and "substantially completed" as applied to any Work refer to Substantial Completion thereof.

1.35. Surety - Any person, firm or corporation which is bound with CONTRACTOR and which engages to be responsible for CONTRACTOR and his acceptable performance of the Work by a Performance or Payment Bond, or by a Public Construction Bond.

1.36. Work - The entire completed construction or the various separately identifiable parts thereof required to be furnished under the Contract Documents. Work is the result of performing services, furnishing labor and furnishing and incorporating materials and equipment into the construction, all as required by the Contract Documents.

ARTICLE 2 - PRELIMINARY MATTERS

Delivery of Bonds:

2.1. When CONTRACTOR delivers the executed Agreements to OWNER, CONTRACTOR shall also deliver to OWNER such Bonds as CONTRACTOR may be required to furnish in accordance with paragraph 5.1.

Copies of Documents:

2.2. OWNER shall furnish to CONTRACTOR, at OWNER's expense, up to three copies of the Contract Documents. Additional copies will be furnished, upon request, at the cost of reproduction.

Commencement of Contract Time; Notice to Proceed:

2.3. The Contract Time will commence on the day indicated in the Notice to Proceed.

Starting the Project:

2.4. CONTRACTOR shall start to perform the work on the date when the Contract Time commences to run, but no work shall be done at the site prior to the date on which the Contract Time commences to run, and no work shall be done at the site before the Payment and Performance Bond is executed, delivered to the OWNER, and recorded in the public records of Volusia County, Florida.

Before Starting Construction:

2.5. Before undertaking each part of the Work, CONTRACTOR shall carefully study and compare the Contract Documents and check and verify pertinent figures shown thereon and all applicable field measurements. CONTRACTOR shall promptly report in writing to ENGINEER any conflict, error or discrepancy which CONTRACTOR may discover; however, CONTRACTOR shall not be liable to OWNER for failure to report any conflict, error or discrepancy in the Drawings or Specifications, unless CONTRACTOR had actual knowledge thereof or should reasonably have known thereof. No verbal agreement or conversation with any officer, agent or employee of OWNER, either before or after the execution of this Contract, shall affect or modify any of the terms or obligations herein contained.

2.6. Before any Work at the site is started, CONTRACTOR shall deliver to OWNER certificates (and other evidence of insurance requested by OWNER) which CONTRACTOR is required to purchase and maintain in accordance with paragraphs 5.3, 5.4, 5.6 and 5.7.

2.7. CONTRACTOR shall not allow any on-site Subcontractor to commence work on his subcontract until insurance required of the Subcontractor has been obtained and approved by the CONTRACTOR. Failure to obtain this insurance will be the sole responsibility of the CONTRACTOR.

ARTICLE 3 - CONTRACT DOCUMENTS; INTENT AND REUSE

3.1. The Contract Documents comprise the entire Agreement between OWNER and CONTRACTOR concerning the Work. They may be altered only by a Modification.

3.2. The Contract Documents are complementary; a requirement contained in one is applicable to all. If, during the performance of the Work, CONTRACTOR finds a conflict, error or discrepancy in the Contract Documents, he shall report it to ENGINEER in writing at once and before proceeding with the Work affected thereby; however, CONTRACTOR shall not be liable to OWNER for failure to report any conflict, error or discrepancy in the Specifications or Drawings unless CONTRACTOR had actual knowledge thereof or should reasonably have known thereof. The various Contract Documents shall be given precedence, in case of conflict, error or discrepancy, as follows: Modifications, Agreement, Addenda, Supplementary Conditions, General Conditions, Drawings and Specifications. In a series of Modifications or Addenda the latest will govern.

3.3. It is the intent of the Specifications and Drawings to describe a complete project (or part thereof) to be constructed in accordance with the Contract Documents. Any Work that may reasonably be inferred from the Specifications or Drawings as being required to produce the intended results shall be supplied whether or not it is specifically called for. When words which have well-known technical or trade meaning are used to describe Work, materials or equipment such words shall be interpreted in accordance with such meaning. Reference to standard specifications, manuals or codes of any technical society, organization or association, or to the code of any governmental authority, whether such reference be specific or by implication, shall mean the latest standard specification, manual or code in effect at the time of opening of Bids (or, on the effective date of the Agreement if there were no Bids), except as may be otherwise specifically stated. However, no provision of any referenced standard specification, manual or code (whether or not specifically incorporated by reference in the Contract Documents) shall change the duties and responsibilities of OWNER, CONTRACTOR or ENGINEER, or any of their agents or employees from those set forth in the Contract Documents. Clarifications and interpretations of the Contract Documents shall be issued by ENGINEER as provided for in paragraph 9.2.

3.4. The Contract Documents will be governed by the law of the State of Florida, and venue for any action brought thereunder shall lie solely and exclusively in the Circuit Court in and for Volusia County, Florida.

Reuse of Documents:

3.5. Neither CONTRACTOR nor any Subcontractor, manufacturer, fabricator, supplier or distributor shall have or acquire any title to or ownership rights in any of the Drawings,

Specifications or other documents (or copies of any thereof) prepared by or bearing the seal of ENGINEER; and they shall not reuse any of them on extensions of the Project or any other project without written consent of OWNER and ENGINEER and specific written verification or adaptation by ENGINEER.

ARTICLE 4 - AVAILABILITY OF LANDS; PHYSICAL CONDITIONS; REFERENCE POINTS

4.1. OWNER shall furnish, as indicated in the Contract Documents, the lands upon which the Work is to be performed, rights-of-way for access thereto, and such other lands which are designated for the use of CONTRACTOR. Easements for permanent structures or permanent changes in existing facilities will be obtained and paid for by OWNER, unless otherwise provided in the Contract Documents. If CONTRACTOR believes that any delay in OWNER's furnishing these lands or easements entitles him to an extension of the Contract Time, CONTRACTOR may make a claim therefor as provided in Article 12. CONTRACTOR shall provide for all additional lands and access thereto that may be required for temporary construction facilities or storage of materials and equipment.

Physical Conditions - Investigations and Reports:

4.2. Reference is made to the Supplementary Conditions for identification of those reports of investigations and tests of subsurface and latent physical conditions at the site or otherwise affecting cost, progress or performance of the Work which have been relied upon by ENGINEER in preparation of the Drawings and Specifications. Such reports are not guaranteed as to accuracy or completeness and are not part of the Contract Documents.

Unforeseen Physical Conditions:

4.3. CONTRACTOR shall promptly, after becoming aware of and before further disturbing conditions affected thereby or performing any work in connection therewith, notify ENGINEER in writing of any subsurface or latent physical conditions at the site or in an existing structure differing materially from those indicated or referred to in the Contract Documents. CONTRACTOR, upon discovering and notifying OWNER of such subsurface or latent conditions, shall not perform work in the affected area until authorized to do so by OWNER. ENGINEER will promptly review those conditions and determine if further investigation or tests are necessary. If so determined by the ENGINEER, OWNER shall promptly obtain the necessary additional investigations and tests and furnish copies to CONTRACTOR. If ENGINEER finds that the results of such investigations or tests indicate that there are subsurface or latent physical conditions which differ materially from those intended in the Contract Documents, and which could not reasonably have been anticipated by CONTRACTOR, a Change Order authorizing CONTRACTOR to perform the additional work may be issued incorporating the necessary revisions.

Reference Points:

4.4. OWNER shall provide engineering surveys for construction to establish reference points which in his judgment are necessary to enable CONTRACTOR to proceed with the Work.

CONTRACTOR shall be responsible for laying out the Work (unless otherwise specified in the General Requirements), shall protect and preserve the established reference points and shall make no changes or relocations without the prior written approval of OWNER. CONTRACTOR shall report to ENGINEER whenever any reference point is lost or destroyed or requires relocation because of necessary changes in grades or locations, and shall be responsible for replacement or relocation of such reference points by professionally qualified personnel.

ARTICLE 5 - BONDS AND INSURANCE

Performance and Other Bonds:

5.1. CONTRACTOR shall furnish Performance and Payment Bonds, each in an amount at least equal to the Contract Price as security for the faithful performance and payment of all CONTRACTOR's obligations under the Contract Documents. The City will record the bonds in the public records at the CONTRACTOR's expense. These Bonds shall remain in effect at least until one (1) year after the date of final payment, except as otherwise provided by law. All bonds shall be deemed to contain all of the Conditions of Section 255.05, Florida Statutes, even if such language is not directly contained within the bond. CONTRACTOR shall also furnish such other Bonds as are required by the Supplementary Conditions. All Bonds shall be in the forms prescribed by the bidding documents or Supplementary Conditions and be executed by such Sureties as (i) are licensed to conduct business in the State of Florida, and (ii) are named in the current list of "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies" as published in Circular 570 (amended) by the Audit Staff Bureau of Accounts, U.S. Treasury Department. All Bonds signed by an agent must be accompanied by a certified copy of the authority to act.

5.2. If the Surety on any Bond furnished by CONTRACTOR is declared bankrupt or becomes insolvent or its right to do business is terminated in the State of Florida or it ceases to meet the requirements of clauses (i) and (ii) of paragraph 5.1, CONTRACTOR shall within five (5) days after notice thereof, substitute another Bond and Surety, both of which shall meet the requirements of clauses (i) and (ii) of paragraph 5.1.

CONTRACTOR's Liability Insurance:

5.3. CONTRACTOR and on-site Subcontractors shall purchase and maintain such Commercial General Liability and other insurance as will provide protection from claims set forth below which may arise out of or result from CONTRACTOR's performance of the Work and CONTRACTOR's other obligations under the Contract Documents, whether such performance is by CONTRACTOR, by any Subcontractor, by anyone directly or indirectly employed by any of them, or by anyone for whose acts any of them may be liable;

5.3.1. Claims under workers' compensation, disability benefits and other similar employee benefit acts;

5.3.2. Claims for damages because of bodily injury, occupational sickness or disease, or death of CONTRACTOR's employees;

5.3.3. Claims for damages because of bodily injury, sickness or disease, or death of any person other than CONTRACTOR's employees.

5.3.4. Claims for damages insured by personal injury liability coverage which are sustained (i) by any person as a result of an offense directly or indirectly related to the employment of such person by CONTRACTOR, or (ii) by any other person for any other reason.

5.3.5. Claims for damages, other than to the Work itself, because of injury to or destruction of tangible property, including loss of use resulting therefrom; and

5.3.6. Claims for damages because of bodily injury or death of any person or property damage arising out of the ownership, maintenance or use of any motor vehicle.

The insurance required by this paragraph 5.3 shall include the specific coverages and be written for not less than the limits of liability and coverages provided in the **Supplementary Conditions**, or required by law, whichever is greater. The Commercial General Liability insurance shall include completed operations insurance. All such insurance shall contain a provision that the coverage afforded will not be canceled, materially changed or renewal refused until at least **sixty** (60) days prior written notice of such cancellation, non-renewal or change (except for nonpayment of premium, which shall be fifteen (15) days) has been given to OWNER. All such insurance shall remain in effect until final payment and at all times thereafter when CONTRACTOR may be correcting, removing or replacing defective Work in accordance with paragraph 13.12. In addition, CONTRACTOR shall maintain such completed operations insurance for at least two years after final payment and furnish OWNER with evidence of continuation of such insurance at final payment and one year thereafter.

Contractual Liability Insurance:

5.4. The Commercial General Liability insurance required by paragraph 5.3 will include contractual liability insurance applicable to CONTRACTOR's obligations under paragraphs 6.15 and 6.16. The OWNER shall be named as “Additionally Insured” under the CONTRACTOR's Commercial General Liability insurance policy.

Owner's Liability Insurance:

5.5. OWNER may, at its option, purchase and maintain its own liability insurance and, at its option, may purchase and maintain such insurance as will protect OWNER against claims which may arise from operations under the Contract Documents.

Property Insurance:

5.6. CONTRACTOR shall purchase and maintain property insurance upon the Work at the site to the full insurable value thereof (subject to such deductible amounts as may be provided in the Supplementary Conditions or required by law). This insurance shall include the interests of OWNER, CONTRACTOR, and Subcontractors in the Work, shall insure against the perils of fire and extended coverage and shall include "all risk" insurance for physical loss and damage including theft, vandalism and malicious mischief, collapse and water damage, and such other

perils as may be provided in the Supplementary Conditions, and shall include damages, losses and expenses arising out of or resulting from any insured loss or incurred in the repair or replacement of any insured property (including fees and charges of engineers, architects, attorneys and other professionals). If not covered under the "all risk" insurance or otherwise provided in the Supplementary Conditions, CONTRACTOR shall purchase and maintain similar property insurance on portions of the Work stored on and off the site or in transit when such portions of the Work are to be included in the Application for Payment. The policies of insurance required to be purchased and maintained by CONTRACTOR in accordance with paragraphs 5.6 and 5.7 shall contain provisions that the coverage afforded will not be canceled or materially changed until at least **sixty** (60) days prior written notice has been given to OWNER.

5.7. CONTRACTOR shall purchase and maintain such boiler and machinery insurance as may be required by the Supplementary Conditions or by law. This insurance shall include the interests of OWNER, CONTRACTOR and Subcontractors in the Work.

5.8. OWNER shall not be responsible for purchasing and maintaining any property insurance to protect the interests of CONTRACTOR or Subcontractors in the Work to the extent of any deductible amounts that are provided in the Supplementary Conditions. If CONTRACTOR wishes property insurance coverage within the limits of such amounts, CONTRACTOR may purchase and maintain it at his own expense.

5.9. If CONTRACTOR requests in writing that other special insurance be included in the property insurance policy, OWNER shall, if possible, include such insurance, and the cost thereof shall be charged to CONTRACTOR by appropriate Change Order. Prior to commencement of the Work at the site, OWNER shall in writing advise CONTRACTOR whether or not such other insurance has been procured by OWNER.

Waiver of Rights:

5.10. OWNER and CONTRACTOR waive all rights against each other and the Subcontractors and their agents and employees and separate contractors (if any) and their subcontractors' agents and employees, for damages caused by fire or other perils to the extent covered by insurance provided under paragraphs 5.6 and 5.7, inclusive, or any other property insurance applicable to the Work, except such rights as they may have to the proceeds of such insurance held by OWNER as trustee. OWNER shall require similar written waivers from each separate contractor, and CONTRACTOR shall require similar written waivers from each Subcontractor (in accordance with paragraph 6.8 as applicable); each such waiver will be in favor of all other parties enumerated in this paragraph 5.10.

Receipt and Application of Proceeds:

5.11. Any insured loss under the policies of insurance required by paragraphs 5.6 and 5.7 shall be adjusted with CONTRACTOR and made payable to CONTRACTOR as trustee for the insured, as their interests may appear, subject to the requirements of paragraph 5.12. CONTRACTOR shall deposit in a separate account any money so received, and shall distribute it in accordance with such agreement as the parties in interest may reach. If no other special agreement is reached the damaged Work shall be repaired or replaced, the moneys so received applied on account thereof

and the Work and the cost thereof covered by an appropriate Change Order.

5.12. CONTRACTOR as trustee shall have power to adjust and settle any loss with the insurers unless one of the parties in interest shall object in writing within fifteen days after the occurrence of loss to CONTRACTOR's exercise of this power. If such objection be made, CONTRACTOR as trustee shall make settlement with the insurers in accordance with such agreement as the parties in interest may reach. If required in writing by any party in interest, CONTRACTOR as trustee shall upon the occurrence of an insured loss, give bond for the proper performance of his duties.

Acceptance of Bonds and Insurance:

5.13. If OWNER has any objection to the coverage afforded by or other provisions of the Bonds or Insurance required to be purchased and maintained by CONTRACTOR in accordance with Article 5 on the basis of non-conformance with the Contract Documents, OWNER shall so notify CONTRACTOR in writing within ten days after receipt of the certificates (or other evidence requested) required by paragraph 2.6. CONTRACTOR shall provide to OWNER such additional information in respect of insurance provided as OWNER may reasonably request. If CONTRACTOR does not purchase or maintain all of the Bonds and Insurance required of CONTRACTOR by the Contract Documents, CONTRACTOR shall notify OWNER in writing of such failure to purchase prior to the start of the Work, or such failure to maintain prior to any change in the required coverage. Without prejudice to any other right or remedy, OWNER may elect to obtain equivalent Bonds or Insurance to protect OWNER's interests at the expense of CONTRACTOR, and a Change Order shall be issued to adjust the Contract Price accordingly.

Partial Utilization - Property Insurance:

5.14. If OWNER finds it necessary to occupy or use a portion or portions of the Work prior to Substantial Completion of all the Work, such use or occupancy may be accomplished in accordance with paragraph 14.7; provided that no such use or occupancy shall commence before the insurers providing the property insurance have acknowledged notice thereof and in writing effected the changes in coverage necessitated thereby. The insurers providing the property insurance shall consent by endorsement on the policy or policies that the property insurance shall not be canceled or lapse on account of any such partial use of occupancy.

ARTICLE 6 - CONTRACTOR'S RESPONSIBILITIES

Supervision and Superintendence:

6.1. CONTRACTOR shall supervise and direct the Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents. CONTRACTOR shall be solely responsible for the means, methods, techniques, sequences and procedures of construction. CONTRACTOR shall be responsible to see that the finished Work complies accurately with the Contract Documents.

6.2. CONTRACTOR shall keep on the Work at all times during its progress a competent resident superintendent, who shall not be replaced without written notice to OWNER except under extraordinary circumstances. The superintendent will be CONTRACTOR's representative at the site and shall have authority to act on behalf of CONTRACTOR. All communications given to the superintendent shall be as binding as if given to CONTRACTOR.

Materials and Equipment:

6.3. All materials and equipment installed in the Work shall be of good quality and new, except as otherwise provided in the Contract Documents. If required by ENGINEER, CONTRACTOR shall furnish satisfactory evidence (including reports of required tests) as to the kind and quality of materials and equipment.

Equipment manufacturers/suppliers must agree to OWNER'S terms of purchase. In no event will OWNER accept terms of sale that limit OWNER'S ability to reasonably recover in the event of equipment failure/defect such as, but not limited to; mandatory arbitration clauses, venue of court proceedings and applicable law outside of Volusia County, Florida, or damage limitations that preclude recovery for failed or defective equipment that would be less than full compensation for OWNER's loss.

6.4. All materials and equipment shall be applied, installed, connected, erected, used, cleaned and conditioned in accordance with the instructions of the applicable manufacturer, fabricator, supplier or distributor, except as otherwise provided in the Contract Documents.

Concerning Subcontractors:

6.5. CONTRACTOR shall not employ any Subcontractor or other person or organization (including those who are to furnish the principal items of materials or equipment), whether initially or as a substitute, to which OWNER may have any reasonable objection. CONTRACTOR shall submit with his Bid in writing the names, mailing addresses, and work classifications of all Subcontractors proposed for the Work. The failure to list all Subcontractors proposed for the Work may result in the Bid being rejected as incomplete and nonresponsive. A Subcontractor or other person or organization identified in writing to OWNER by CONTRACTOR prior to the Notice of Award and not objected to in writing by OWNER prior to the Notice of Award will be deemed acceptable to OWNER. Acceptance of any Subcontractor, other person or organization of OWNER shall not constitute a waiver of any right of OWNER to reject defective Work. If OWNER after due investigation has reasonable objection to any Subcontractor, other person or organization proposed by CONTRACTOR after the Notice of Award because the qualifications and experience of the Subcontractor, other person or organization indicate that he cannot perform or provide work, materials or equipment which will perform the specified functions, CONTRACTOR shall submit an acceptable substitute and the Contract Price shall be increased or decreased by the difference in cost occasioned by such substitution, and an appropriate Change Order may be issued. CONTRACTOR shall not be required to employ any Subcontractor, other person or organization to which CONTRACTOR has any reasonable objection. Whether objections are reasonable shall be determined as specified in paragraph 9.8.

6.6. CONTRACTOR shall be fully responsible for all acts and omissions of his Subcontractors and of persons and organizations directly or indirectly employed by them and of persons and organizations for whose acts any of them may be liable to the same extent that CONTRACTOR is responsible for the acts and omissions of persons directly employed by CONTRACTOR. Nothing in the Contract Documents shall create any contractual relationship between OWNER and any Subcontractor or other person or organization having a direct contact with CONTRACTOR, nor shall it create any obligation on the part of OWNER to pay or to see to the payment of any moneys due any Subcontractor or other person or organization, except as may otherwise be required by law. OWNER may furnish to any Subcontractor or other person or organization, to the extent practicable, evidence of amounts paid to CONTRACTOR on account of specific Work done.

6.7. The divisions and sections of the Specifications and the identifications of any Drawings shall not control CONTRACTOR in dividing the Work among Subcontractors or delineating the Work to be performed by any specific trade.

6.8. All Work performed for CONTRACTOR by a Subcontractor will be pursuant to an appropriate agreement between CONTRACTOR and the Subcontractor which specifically binds the Subcontractor to the applicable terms and conditions of the Contract Documents for the benefit of OWNER and contains waiver provisions as required by paragraph 5.10. CONTRACTOR shall pay each Subcontractor an appropriate share of any insurance proceeds received by CONTRACTOR on account of losses under policies issued pursuant to paragraphs 5.6 through 5.8.

6.9. Neither the OWNER nor the ENGINEER will undertake to settle any differences between CONTRACTOR and his Subcontractors or between Subcontractors.

Patent Fees and Royalties:

6.10. CONTRACTOR shall pay all license fees and royalties and assume all costs incident to the use in the performance of the Work or the incorporation in the Work of any invention, design, process, product or device which is the subject of patent rights or copyrights held by others. If a particular invention, design, process, product or device is specified in the Contract Documents for use in the performance of the Work and if to the actual knowledge of OWNER its use is subject to patent rights or copyrights calling for the payment of any license fee or royalty to others, the existence of such rights shall be disclosed by OWNER in the Contract Documents. CONTRACTOR shall **indemnify** and **hold harmless** OWNER and anyone directly or indirectly employed by either of them from and against all claims, damages, losses and expenses (including attorneys' fees) arising out of any infringement of patent rights or copyrights incident to the use in the performance of the Work or resulting from the incorporation in the Work of any invention, design, process, product or device not specified in the Contract Documents, and shall defend all such claims in connection with any alleged infringement of such rights. OWNER will promptly notify CONTRACTOR of any such allegation of infringement of such rights.

Safety and Protection:

6.11. Precaution shall be exercised at all times by the CONTRACTOR for the protection of all persons, including employees, and property. The CONTRACTOR shall comply with all laws, regulations or ordinances related to safety and health, shall make special effort to detect hazardous conditions, and shall take prompt action where loss control/safety measures are reasonably expected. The OWNER may order work to be stopped if conditions exist that present on immediate danger to persons or property. The CONTRACTOR acknowledges that such stoppage will not shift responsibility for any damages from the CONTRACTOR to the OWNER.

6.12. CONTRACTOR be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work. CONTRACTOR shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:

6.12.1. All employees on the Work and other persons who may be affected thereby.

6.12.2. All the Work and all materials or equipment to be incorporated therein, whether in storage on or off the site, and

6.12.3. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of construction.

CONTRACTOR shall comply with all applicable laws, ordinances, rules, regulations and orders of any public body having jurisdiction for the safety of persons or property or to protect them from damage, injury or loss; and shall erect and maintain all necessary safeguards for such safety and protection. CONTRACTOR shall notify owners of adjacent property and utilities when prosecution of the Work may affect them. All damage, injury or loss to any property referred to in paragraph 6.12.2 or 6.12.3 caused, directly or indirectly, in whole or in part, by CONTRACTOR, any Subcontractor or anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, shall be remedied by CONTRACTOR. CONTRACTOR's duties and responsibilities for the safety and protection of the Work shall continue until such time as all the Work is completed and ENGINEER has issued a notice to OWNER and CONTRACTOR in accordance with paragraph 14.12 that the Work is acceptable.

6.13. CONTRACTOR shall designate a responsible member of his organization at the site whose duty shall be the prevention of accidents. This person shall be CONTRACTOR's superintendent unless otherwise designated in writing by CONTRACTOR to OWNER.

Emergencies:

6.14. In emergencies affecting the safety or protection of persons or the Work or property at the site or adjacent thereto, CONTRACTOR, without special instruction or authorization from OWNER, is obligated to act to prevent threatened damage, injury or loss. CONTRACTOR shall give OWNER prompt written notice of any significant changes in the Work or deviations from the Contract Documents caused thereby.

Indemnification/Hold Harmless:

6.15 The parties recognize that the CONTRACTOR is an independent contractor. The CONTRACTOR agrees to assume liability for and indemnify, hold harmless, and defend the CITY, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the CONTRACTOR, its agents, officers, contractors, subcontractors, employees, or anyone else utilized by the CONTRACTOR in the performance of this Agreement. The CONTRACTOR's liability hereunder shall include all attorney's fees and costs incurred by the CITY in the enforcement of this indemnification provision. This includes claims made by the employees of the CONTRACTOR against the CITY and the CONTRACTOR hereby waives its entitlement, if any, to immunity under Section 440.11, Florida Statutes. Such obligations contained in this provision shall survive termination of this Agreement and shall not be limited by the amount of any insurance required to be obtained or maintained under this Agreement.

In the event of any claim arising out of the paragraph above, the CITY will elect, in its sole discretion, that either:

1) The CONTRACTOR assume control of the defense of any claim asserted by a third party against the CITY and, in connection with such defense, shall appoint lead counsel, in each case at the CONTRACTOR's expense. The CITY shall have the right, at its option, to participate in the defense of any third party claim, without relieving CONTRACTOR of any of its obligations hereunder. If the CONTRACTOR assumes control of the defense of any third party claim in accordance with this paragraph, the CONTRACTOR shall obtain the prior written consent of the CITY before entering into any settlement of such claim. If the CONTRACTOR assumes control of the defense and the CONTRACTOR has failed or is failing to prosecute or defend vigorously the third party claim, the CITY may assume the control of the defense as provided by sub (2); or

2) The CITY will assume control of the defense of any third party claim, but CONTRACTOR shall pay the fees of counsel retained by the CITY and all expenses, including experts' fees.

Each party shall cooperate, and cause its agents to cooperate, in the defense or prosecution of any third party claim and shall furnish or cause to be furnished such records and information, and attend such conferences, discovery proceedings, hearings, trials, or appeals, as may be reasonably requested in connection therewith. It is further the specific intent and agreement of said parties that all the Contract Documents on this Project are hereby amended to include the foregoing indemnification. CONTRACTOR expressly agrees that it will not claim, and waives any claim, that this indemnification violates Section 725.06, Florida Statutes or is unenforceable pursuant to Section 725.06, Florida Statutes.

Nothing contained in the foregoing indemnification shall be construed as a waiver of any immunity or limitation of liability the CITY may have under the doctrine of sovereign immunity or Section 768.28, Florida Statutes.

Precaution shall be exercised at all times by the CONTRACTOR for the protection of all persons, including employees and property. The CONTRACTOR shall comply with all applicable laws, regulation and ordinances related to safety and health, shall make special efforts to detect hazardous conditions, and shall take prompt action with loss control/safety measures as are reasonably necessary. The CITY may order work to be stopped if conditions exist that present an immediate danger to persons or property. The CONTRACTOR acknowledges that such work stoppage will not shift responsibility for any damages from the CONTRACTOR to the CITY.

Payment on Behalf of OWNER:

6.16. The CONTRACTOR agrees to pay on behalf of the OWNER, and to pay the cost of the OWNER's legal defense, as may be selected by the OWNER, for all claims described in 6.15 Indemnification/Hold Harmless. Such payment on behalf of the OWNER shall be in addition to any and all other legal remedies available to the OWNER and shall not be considered to be the OWNER's exclusive remedy.

ARTICLE 7 - WORK BY OTHERS

7.1. OWNER may perform additional work related to the Project by itself, or have additional work performed by utility service companies, or let other direct contracts therefor which shall contain General Conditions similar to these. CONTRACTOR shall afford the utility service companies and the other contractors who are parties to such direct contracts (or OWNER, if OWNER is performing the additional work with OWNER's employees) reasonable opportunity for the introduction and storage of materials and equipment and the execution of work, and shall properly connect and coordinate his Work with theirs.

7.2. If any part of CONTRACTOR's Work depends for proper execution or results upon the work of any such other contractor or utility service company (or OWNER), CONTRACTOR shall inspect and promptly report to ENGINEER in writing any patent or apparent defects or deficiencies in such work that render it unsuitable for such proper execution and results. CONTRACTOR's failure so to report shall constitute an acceptance of the work as fit and proper for integration with CONTRACTOR's Work except for latent or non-apparent defects and deficiencies in the other work.

7.3. If the performance of additional work by other contractors or utility service companies or OWNER was not noted in the Contract Documents, written notice thereof shall be given to CONTRACTOR prior to starting any such additional work. If CONTRACTOR believes that the performance of such additional work by OWNER or others involves additional expense to CONTRACTOR or requires an extension of the Contract Time, CONTRACTOR may make a claim therefor as provided in Articles 11 and 12.

7.4. Should any other contractor having, or who shall hereafter have, a contract with

OWNER for the performance of work upon the site of the Work to be performed hereunder sustain any damage through any act or omission of CONTRACTOR hereunder or through any act or omission of any Sub-contractor of CONTRACTOR, CONTRACTOR agrees to reimburse such other contractor for all such damages and to indemnify, defend and hold OWNER harmless from all such claims.

ARTICLE 8 - OWNER'S RESPONSIBILITIES

8.1. OWNER shall issue all communications to CONTRACTOR through ENGINEER.

8.2. OWNER shall furnish the data required of OWNER under the Contract Documents promptly and shall make payments to CONTRACTOR promptly after they are due as provided in paragraphs 14.3 and 14.10.

8.3. OWNER's duties with respect to providing lands and easements and providing engineering surveys to establish reference points are set forth in paragraphs 4.1 and 4.4. Paragraph 4.2 refers to OWNER's identifying and making available to CONTRACTOR copies of reports of investigations and tests of subsurface and latent physical conditions at the site or otherwise affecting performance of the Work which have been relied upon by ENGINEER in preparing the Drawings and Specifications.

8.4. OWNER's responsibilities with respect to the purchase and maintenance of liability insurance are set forth in paragraph 5.5.

8.5. In connection with OWNER's rights to request changes in the Work in accordance with Article 10, OWNER (especially in certain instances as provided in paragraph 10.4) may execute Change Orders.

8.6. OWNER's responsibility with respect to certain inspections, tests and approvals is set forth in paragraph 13.4.

8.7. The provisions relative to the OWNER's right to stop Work or suspend Work are set forth in paragraphs 6.11, 13.10 and 15.1.

ARTICLE 9 - ENGINEER'S STATUS DURING CONSTRUCTION

9.1. ENGINEER will be OWNER's representative during the construction period. The authority of ENGINEER shall, under no circumstances, relieve CONTRACTOR from CONTRACTOR's responsibilities to perform the Work in accordance with this Contract.

Clarifications and Interpretations:

9.2. ENGINEER will issue with reasonable promptness such written clarifications or interpretations of the Contract Documents (in the form of Drawings or otherwise) as ENGINEER may determine necessary, which shall be consistent with or reasonably inferable from the overall

intent of the Contract Documents. If CONTRACTOR believes that a written clarification or interpretation justifies an increase in the Contract Price or Contract Time, CONTRACTOR may make a claim therefor as provided in Article 11 or Article 12.

Rejecting Defective Work:

9.3. ENGINEER will have authority to disapprove or reject WORK which is defective, and will also have authority to require special inspection or testing of the Work as provided in paragraph 13.9, whether or not the Work is fabricated, installed or completed.

Change Orders and Payments:

9.4. In connection with ENGINEER's responsibilities as to Change Orders, see Articles 10, 11 and 12.

9.5 In connection with ENGINEER's responsibilities as to Applications for Payment, etc., see Article 14.

Project Representation:

9.6. ENGINEER may designate a Project Representative to assist ENGINEER in inspecting the performance of the Work. The duties, responsibilities and limitations of authority of any such Project Representative and assistants will be as provided in paragraphs 9.6.1 through 9.6.3.

9.6.1. General: Project Representative is ENGINEER's Agent. He shall have the authority to do anything which the ENGINEER could do. His dealings in matters pertaining to the on-site work will in general be only with OWNER, ENGINEER and CONTRACTOR. His dealings with subcontractors will only be through or with the full knowledge of CONTRACTOR or his superintendent.

9.6.2. Duties and Responsibilities: Project Representative shall:

9.6.2.1. Schedules: Review the progress schedule, schedule of Shop Drawing submissions, schedule of values and other schedules prepared by CONTRACTOR and consult with ENGINEER concerning their acceptability.

9.6.2.2. Conferences: Attend preconstruction conferences.

9.6.2.3. Liaison: Serve as ENGINEER's liaison with CONTRACTOR, working principally through CONTRACTOR's superintendent, and assist him in understanding the intent of the Contract Documents. Assist in obtaining from OWNER additional details or information, when required at the job site for proper execution of the Work.

9.6.2.4. Shop Drawings and Samples: Receive and record date of receipt of Shop Drawings and samples which have been furnished by CONTRACTOR. Review the Shop Drawings for conformance with the information given in the Contract Documents. Provide office review and approval of Shop Drawings (as that term is defined in Article 1) and samples, the results of tests

and inspections and other data which any contractor is required to submit, but only for conformance with the design concept of the project and compliance with the information given in the Contract Documents; determine the acceptability of substitute materials and equipment proposed by CONTRACTOR(S); and receive and review (for general content as required by the Specifications) maintenance and operating instructions, schedules, guarantees, bonds and certificates of inspection which are to be assembled by CONTRACTOR(S) in accordance with the Contract Documents.

9.6.2.5. Review of Work, Rejection of Defective Work, Inspections and Tests: Conduct on-site inspections of the Work in progress to assist ENGINEER in determining that the Project is proceeding in accordance with the Contract Documents and that completed Work will conform to the Contract Documents. Report to ENGINEER whenever he believes that any Work is unsatisfactory, faulty or defective or does not conform to the Contract Documents, or has been damaged, or does not meet the requirements of any inspections, tests or approvals required to be made; and advise ENGINEER when he believes Work should be corrected or rejected or should be uncovered for observation, or requires special testing or inspection. Verify that tests, equipment and systems start-ups and operating and maintenance instructions are conducted as required by the Contract Documents and in the presence of the required personnel, and that CONTRACTOR maintains adequate records thereof; observe, record and report appropriate details relative to the test procedures and start-ups.

9.6.2.6. Modifications: Consider and evaluate CONTRACTOR's suggestions for modifications in Drawings or Specifications and report them to ENGINEER with recommendations. Prepare change orders as required; he may, as OWNER's representative, require special inspection or testing of the work; he shall act as interpreter of the requirements of the Contract Documents, judge of the performance thereunder by the parties thereto, and transmitter of clarification and interpretation of the Contract Documents. Process contract change orders to reflect final measured contract quantities and to reflect changes in the contract Drawings and Specifications.

9.6.2.7. Payment Requisitions: Based on his on-site observations and on his review of CONTRACTOR(S) applications for payment and the accompanying data and schedules, determine the amounts owed the CONTRACTOR(S). The ENGINEER will then approve in writing payments to CONTRACTOR(S) in such amounts; such approvals of payment will constitute a presentation to OWNER, based on such observations and review, that the Work has progressed to the point indicated and that, to the best of his knowledge, information and belief, the quality of the Work is in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning Project upon Substantial Completion, to the results of any subsequent tests called for in the Contract Documents, and to any qualifications stated in his approval).

9.6.2.8. Guarantees, Certificates, Maintenance and Operation Manuals: During the course of the Work verify that guarantees, certificates, maintenance and operation manuals and other data required to be assembled and furnished by CONTRACTOR are applicable to the items actually installed; and deliver this data to ENGINEER for his review prior to final acceptance of the Project.

9.6.2.9. Completion: Before ENGINEER issues a Certificate of Substantial Completion, submit to CONTRACTOR a list of observed items requiring correction. Conduct final inspection in the company of CONTRACTOR and prepare a final list of items to be corrected. Verify that all items

on final list have been corrected and make recommendations to ENGINEER concerning acceptance.

9.6.3. Limitations of Authority: The Project Representative; shall not undertake any of the responsibilities of CONTRACTOR, subcontractors or CONTRACTOR's superintendent; shall not expedite Work for CONTRACTOR; shall not advise on or issue directions as to safety precautions and programs in connection with the Work; and shall not assist CONTRACTOR in maintaining up-to-date copies of Record Drawings.

Decisions on Disagreements:

9.7. ENGINEER will be the initial interpreter of the requirements of the Contract Documents and judge of the acceptability of the Work thereunder. Claims, disputes and other matters relating to the acceptability of the Work or the interpretation of the requirements of the Contract Documents pertaining to the execution and progress of the Work shall be referred initially to ENGINEER in writing with a request for a formal decision in accordance with this paragraph, which ENGINEER will render in writing within a reasonable time. Written notice of each such claim, dispute and other matter shall be delivered by the claimant to ENGINEER and the other party to the Agreement within fifteen days of the occurrence of the event giving rise thereto, and written supporting data will be submitted to ENGINEER and the other party within forty-five days of such occurrence unless ENGINEER allows an additional period of time to ascertain more accurate data. Failure to give the required notice constitutes a waiver of the claim.

9.8. The rendering of a decision by ENGINEER pursuant to paragraph 9.7 with respect to any such claim, dispute or other matter (except any which have been waived by the making or acceptance of final payment as provided in paragraph 14.13) will be a condition precedent to any exercise by OWNER or CONTRACTOR of such rights or remedies as either may otherwise have under the Contract Documents or at law in respect of any such claim, dispute or other matter. If the Owner agrees to pay all or part of a claim for which notice was not timely made, such agreement shall not be deemed a waiver of the right to enforce notice requirements in connection with any other claim.

Limitations on ENGINEER's Responsibilities:

9.9. Neither ENGINEER's authority to act under this Article 9 or elsewhere in the Contract Documents nor any decision made by ENGINEER in good faith either to exercise or not exercise such authority shall give rise to any duty or responsibility of ENGINEER to CONTRACTOR, any Subcontractor, any manufacturer, fabricator, supplier or distributor, or any of their agents or employees or any other person performing any of the Work.

9.10. Whenever in the Contract Documents the terms "as ordered", "as directed", "as required", "as allowed" or terms of like effect or import are used, or the adjective "reasonable", "suitable" , "acceptable", "proper" or "satisfactory" or adjectives of like effect or import are used, to describe requirements, decision, review or judgment of ENGINEER as to the Work, it is intended that such requirement, direction, review or judgment will be solely to evaluate the Work for compliance with the Contract Documents (unless there is a specific statement indicating otherwise). The use of any such term or adjective never indicates that ENGINEER shall have

authority to supervise or direct performance of the Work or authority to undertake responsibility contrary to the provisions of paragraphs 9.11 or 9.12.

9.11. ENGINEER will not be responsible for CONTRACTOR's means, methods, techniques, sequences or procedures of construction, or the safety precautions and programs incident thereto, and ENGINEER will not be responsible for CONTRACTOR's failure to perform the Work in accordance with the Contract Documents.

9.12. ENGINEER will not be responsible for the acts or omissions of CONTRACTOR or of any Subcontractors, or of the agents or employees of any CONTRACTOR or Subcontractor, or of any other persons at the site or otherwise performing any of the Work.

ARTICLE 10 - CHANGES IN THE WORK

10.1. Without invalidating the Agreement, OWNER may, at any time or from time to time, order additions, deletions or revisions in the Work; these will be authorized by Change Orders. Upon receipt of a Change Order, CONTRACTOR shall proceed with the Work involved. All such Work shall be executed under the applicable conditions of the Contract Documents. If any Change Order causes an increase or decrease in the Contract Price or an extension or shortening of the Contract Time, an equitable adjustment will be made as provided in Article 11 or Article 12 on the basis of a claim made by either party.

10.2. ENGINEER may authorize minor changes in the Work not involving an adjustment in the Contract Price of the Contract Time, which are consistent with the overall intent of the Contract Documents. These may be accomplished by a Field Order and shall be binding on OWNER, and also on CONTRACTOR who shall perform the change promptly. If CONTRACTOR believes that a Field Order justifies an increase in the Contract Price or Contract Time, CONTRACTOR may make a claim therefor as provided in Article 11 or Article 12.

10.3. Additional Work performed without authorization of a Change Order will not entitle CONTRACTOR to an increase in the Contract Price or an extension of the Contract Time, except in the case of an emergency as provided in paragraph 6.14 and except as provided in paragraphs 10.2 and 13.9.

10.4. OWNER may execute appropriate Change Orders covering changes in the Work which are required by OWNER, or required because of unforeseen physical conditions or emergencies, or because of uncovering Work found not to be defective or as provided in paragraph 11.9, or because of any other claim of CONTRACTOR for a change in the Contract Time or the Contract Price which is recommended by ENGINEER.

10.5. If notice of any change affecting the general scope of the Work or change in the Contract Price is required by the provisions of any Bond to be given to the Surety, it will be CONTRACTOR's responsibility to so notify the Surety, and the amount of each applicable Bond shall be adjusted accordingly. CONTRACTOR shall furnish proof of such adjustment to OWNER.

ARTICLE 11 - CHANGE OF CONTRACT PRICE

11.1. The Contract Price constitutes the total compensation (subject to authorized adjustments) payable by OWNER to CONTRACTOR for performing the Work. All duties, responsibilities and obligations assigned to or undertaken by CONTRACTOR shall be at his expense without change in the Contract Price.

11.2. The Contract Price may only be changed by a Change Order. Any claim for an increase in the Contract Price shall be based on written notice delivered to ENGINEER within fifteen days of the occurrence of the event giving rise to the claim. Notice of the amount of the claim with supporting data shall be delivered within forty-five days of such occurrence unless ENGINEER allows an additional period of time to ascertain accurate cost data.

11.3. The value of any Work covered by a Change Order or of any claim for an increase or decrease in the Contract Price shall be determined in one of the following ways:

11.3.1. Where the Work involved is covered by unit prices contained in the Contract Documents, by application of unit prices to the quantities of the items involved (subject to the provisions of paragraph 11.9).

11.3.2. By mutual acceptance of a lump sum.

11.3.3. On the basis of the Cost of the Work (determined as provided in paragraphs 11.4 and 11.5) plus a Contractor's Fee for overhead and profit (determined as provided in paragraph 11.6).

Cost of the Work:

11.4. The term Cost of the Work means the sum of all costs necessarily incurred and paid by CONTRACTOR in the proper performance of the Work. Except as otherwise may be agreed to in writing by OWNER, such costs shall be in amounts no higher than those prevailing in the locality of the Project, shall include only the following items and shall not include any of the costs itemized in paragraph 11.5:

11.4.1. Payroll costs for employees in the direct employ of CONTRACTOR in the performance of the Work under schedules of job classifications agreed upon in advance by OWNER and CONTRACTOR. Payroll costs for employees not employed full time on the Work shall be apportioned on the basis for their time spent on the Work. Payroll cost shall include, but not be limited to, salaries and wages plus the cost of fringe benefits which shall include social security contributions, unemployment, excise and payroll taxes, workers' compensation, health and retirement benefits, sick leave, vacation and holiday pay applicable thereto. Such employees shall include superintendents and foremen at the site.

11.4.2. Cost of all materials and equipment furnished and incorporated in the Work, including costs of transportation and storage thereof, and manufacturers' field services required in connection therewith. All cash discounts shall accrue to CONTRACTOR unless OWNER deposits funds with CONTRACTOR with which to make payments, in which case the cash discounts shall accrue to OWNER. All trade discounts, rebates and refunds, and all returns from sale of surplus materials

and equipment shall accrue to OWNER and CONTRACTOR shall make provisions so that they may be obtained.

11.4.3. Payments made by CONTRACTOR to the Subcontractors for Work performed by Subcontractors. CONTRACTOR shall obtain competitive bids from Subcontractors acceptable to CONTRACTOR and shall deliver such bids to OWNER who will then determine which bids will be accepted. If a subcontract provides that the Subcontractor is to be paid on the basis of Cost of the Work Plus a Fee, the Subcontractor's Cost of the Work shall be determined in the same manner as CONTRACTOR's Cost of the Work. All subcontracts shall be subject to the other provisions of the Contract Documents insofar as applicable.

11.4.4. Costs of special consultants (including, but not limited to, engineers, architects, testing laboratories, surveyors, lawyers and accountants) employed for services specifically related to the Work. Any such special consultants covered by the Consultants' Competitive Negotiations Act (Section 287.055, Florida Statutes), shall be selected in accordance with such Act.

11.4.5. Supplemental costs including the following:

11.4.5.1. The proportion of necessary transportation, travel and subsistence expenses of CONTRACTOR's employees incurred in discharge of duties connected with the Work.

11.4.5.2. Cost, including transportation and maintenance, of all materials, supplies, equipment, machinery, appliances, office and temporary facilities at the site and hand tools not owned by the workmen, which are consumed in the performance of the Work, and cost less market value of such items used but not consumed which remain the property of CONTRACTOR.

11.4.5.3. Rentals of all construction equipment and machinery and the parts thereof whether rented from CONTRACTOR or others in accordance with rental agreements approved by OWNER, and the costs of transportation, loading, unloading, installation, dismantling and removal thereof - all in accordance with terms of said rental agreements. The rental of any such equipment, machinery or parts shall cease when the use thereof is no longer necessary for the Work.

11.4.5.4. Sales, use or similar taxes related to the Work, and for which CONTRACTOR is liable, imposed by any government authority.

11.4.5.5. Deposits lost for causes other than CONTRACTOR's negligence, royalty payments and fees for permits and licenses.

11.4.5.6. Losses and damages (and related expenses), not compensated by insurance or otherwise, to the Work or otherwise sustained by CONTRACTOR in connection with the execution of the Work, provided they have resulted from causes other than the negligence of CONTRACTOR, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable. Such losses shall include settlements made with the written consent and approval of OWNER. No such losses, damages and expenses shall be included in the Cost of the Work for the purpose of determining Contractor's Fee. If, however, any such loss or damage requires construction and CONTRACTOR is placed in charge thereof, CONTRACTOR shall be paid for services a fee proportionate to that stated in paragraph 11.6.2.

11.4.5.7. The cost of utilities, fuel and sanitary facilities at the site.

11.4.5.8. Minor expenses such as telegrams, long distance telephone calls, telephone service at the site, expressage and similar petty cash items in connection with the Work.

11.4.5.9. Cost of premiums for additional Bonds and insurance required because of changes in the Work.

11.5. The term Cost of the Work shall not include any of the following:

11.5.1. Payroll costs and other compensation of CONTRACTOR's officers, executives, principals (of partnership and estimators, lawyers, auditors, accountants, purchasing and contracting agents, expediters, timekeepers, clerks and other personnel employed by CONTRACTOR whether at the site or in his principal or a branch office for general administration of the Work and not specifically included in the agreed upon schedule of job classifications referred to in subparagraph 11.4.1. - all of which are to be considered administrative costs covered by the Contractor's Fee.

11.5.2. Expenses of CONTRACTOR's principal and branch offices other than CONTRACTOR's office at the site.

11.5.3. Any part of CONTRACTOR's capital expenses, including interest on CONTRACTOR's capital employed for the Work and charges against CONTRACTOR for delinquent payments.

11.5.4. Cost of premiums for all Bonds and for all insurance whether or not CONTRACTOR is required by the Contract Documents to purchase and maintain the same (except for additional Bonds and insurance required because of changes in the Work).

11.5.5. Costs, including damages, due to the negligence of intentional acts of CONTRACTOR, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable, including but not limited to, the correction of defective Work, disposal of materials or equipment wrongly supplied and making good any damage to property.

11.5.6. Other overhead or general expense costs of any kind and the costs of any item not specifically and expressly included in paragraph 11.4.

Contractor's Fee:

11.6. The Contractor's Fee allowed to CONTRACTOR for overhead and profit shall be determined as follows:

11.6.1. A mutually acceptable fixed fee; or if none can be agreed upon,

11.6.2. A fee based on the following percentages of the various portions of the Cost of the Work;

11.6.2.1. For costs incurred under paragraphs 11.4.1. and 11.4.2., the Contractor's Fee shall be

ten percent,

11.6.2.2. For costs incurred under paragraph 11.4.3., the Contractor's Fee shall be five percent; and if a subcontract is on the basis of Cost of the Work Plus a Fee, the maximum allowable to the Subcontractor as a fee for overhead and profit shall be ten percent, and

11.6.2.3. No fee shall be payable on the basis of costs itemized under paragraphs 11.4.4., 11.4.5. and 11.5.

11.7. The amount of credit to be allowed by CONTRACTOR to OWNER for any such change which results in a net decrease in costs, will be the amount of the actual net decrease. When both additions and credits are involved in any one change, the combined overhead and profit shall be figured on the basis of the net increase, if any.

Adjustment of Unit Prices:

11.8. Whenever the cost of any Work is to be determined pursuant to paragraphs 11.4. and 11.5., CONTRACTOR will submit in form acceptable to ENGINEER an itemized cost breakdown together with supporting data.

11.9. Where the quantity of Work with respect to any item that is covered by a unit price differs materially and significantly from the quantity of such Work indicated in the Contract Documents, an appropriate Change Order may be issued on recommendation of ENGINEER to adjust the unit price.

ARTICLE 12 - CHANGE OF THE CONTRACT TIME

12.1. The Contract Time may only be changed by a written Change Order. Any claim for an extension in the Contract Time shall be based on written notice delivered to ENGINEER within fifteen days of the occurrence of the event giving rise to the claim. Notice of the extent of the claim with supporting data shall be delivered within forty-five days of such occurrence unless ENGINEER allows an additional period of time to ascertain more accurate data. All claims for adjustment in the Contract Time shall be determined by ENGINEER if OWNER and CONTRACTOR cannot otherwise agree. Any change in the Contract Time resulting from any such claim shall be incorporated in a written Change Order.

12.2. The Contract Time will be extended in an amount equal to time lost due to delays beyond the control of CONTRACTOR if a claim is made therefor as provided in paragraph 12.1. Such delays shall include, but not be limited to, acts or neglect by OWNER or others performing additional Work as contemplated by Article 7, or fires, floods, labor disputes, epidemics, abnormal weather conditions, or acts of God.

12.3. All time limits stated in the Contract Documents are of the essence of the Agreement. The CONTRACTOR shall not be entitled to any claim for damages on account of hindrances or delays from any cause whatsoever, but if occasioned by an act of God, or by any act or omission on the part of the Owner, such act, hindrance or delay may entitle the CONTRACTOR to an

extension of time in which to complete the work which shall be determined by the ENGINEER, provided that the CONTRACTOR will give notice in writing of the cause of such act, hindrance or delay within ten (10) days after its occurrence.

ARTICLE 13 - WARRANTY AND GUARANTEE; TESTS AND INSPECTIONS; CORRECTION, REMOVAL OR ACCEPTANCE OF DEFECTIVE WORK

Warranty and Guarantee:

13.1. CONTRACTOR warrants and guarantees to OWNER that all Work will be in accordance with the Contract Documents and will not be defective. Prompt notice of all defects shall be given to CONTRACTOR. All defective Work, whether or not in place, may be rejected, corrected or accepted as provided in this Article 13.

Access to Work:

13.2. ENGINEER and ENGINEER's representatives, other representatives of OWNER, testing agencies and governmental agencies with jurisdictional interests will have access to the Work at reasonable times for their observation, inspection and testing. CONTRACTOR shall provide proper and safe conditions for such access.

Tests and Inspections:

13.3. CONTRACTOR shall give ENGINEER timely notice of readiness of the Work for all required inspections, tests or approvals.

13.4. If any law, ordinance, rule, regulation, code, or order of any public body having jurisdiction requires any Work (or part thereof) to specifically be inspected, tested or approved, CONTRACTOR shall assume full responsibility therefor, pay all costs in connection therewith and furnish ENGINEER the required certificates of inspection, testing or approval. CONTRACTOR shall also be responsible for and shall pay all costs in connection with any inspection or testing required in connection with OWNER's acceptance of a manufacturer, fabricator, supplier, or distributor of materials or equipment proposed to be incorporated in the Work, or of materials or equipment submitted for approval prior to CONTRACTOR's purchase thereof for incorporation in the Work. The cost of all other inspections, tests and approvals required by the Contract Documents shall be paid by OWNER (unless otherwise specified).

13.5. All inspections, tests or approvals other than those required by law, ordinance, rule, regulation, code or order of any public body having jurisdiction shall be performed by organizations acceptable to OWNER and CONTRACTOR.

13.6. If any Work that is to be inspected, tested or approved is covered without written concurrence of ENGINEER, it must, if requested by ENGINEER, be uncovered for observation. Such uncovering shall be at CONTRACTOR's expense unless CONTRACTOR has given ENGINEER timely notice of CONTRACTOR's intention to cover such Work and ENGINEER has not acted with reasonable promptness in response to such notice.

13.7. Neither observations by ENGINEER, nor inspections, tests or approvals by others shall relieve CONTRACTOR from his obligations to perform the Work in accordance with the Contract Documents, and in all events in no less than a workmanlike manner.

Uncovering Work:

13.8. If any Work is covered contrary to the written request of ENGINEER, it must, if requested by ENGINEER, be uncovered for ENGINEER's observation and replaced at CONTRACTOR's expense.

13.9. If ENGINEER considers it necessary or advisable that covered Work be observed by ENGINEER or inspected or tested by others, CONTRACTOR, at ENGINEER's request, shall uncover, expose or otherwise make available for observation, inspection or testing as ENGINEER may require, that portion of the Work in question, furnishing all necessary labor, material and equipment. If it is found that such Work is defective, CONTRACTOR shall bear all the expenses of such uncovering, exposure, observation, inspection and testing and of satisfactory reconstruction, including compensation for additional professional services, and an appropriate deductive Change Order shall be issued. If, however, such Work is not found to be defective, CONTRACTOR shall be allowed an increase in the Contract Price or an extension of the Contract Time, or both, directly attributable to such uncovering, exposure, observation, inspection, testing and reconstruction if he makes a claim therefor as provided in Articles 11 and 12.

Owner May Stop the Work:

13.10. If the Work is defective, or CONTRACTOR fails to supply sufficient skilled workmen or suitable materials or equipment, OWNER may order CONTRACTOR to stop the Work, or any portion thereof, until the cause of such order has been eliminated; however, this right of OWNER to stop the Work shall not give rise to any duty on the part of OWNER to exercise this right for the benefit of CONTRACTOR or any other party.

Correction or Removal of Defective Work:

13.11. If required by ENGINEER, CONTRACTOR shall promptly, without cost to OWNER and as specified by ENGINEER, either correct any defective Work, whether or not fabricated, installed or completed, or, if the Work has been rejected by ENGINEER, remove it from the site and replace it with nondefective Work.

One Year Correction Period:

13.12. If within one year after the date of Substantial Completion or such longer period of time as may be prescribed by law or by the terms of any applicable special guarantee required by the Contract Documents, any Work is found to be defective, CONTRACTOR shall promptly, without cost to OWNER and in accordance with OWNER's written instructions, either correct such defective Work, or, if it has been rejected by OWNER, remove it from the site and replace it with nondefective Work. If CONTRACTOR does not promptly comply with the terms of such instructions, or in an emergency where delay would cause serious risk of loss or damage, OWNER may have the defective Work corrected or the rejected Work removed and replaced, and all direct

and indirect costs of such removal and replacement, including compensation for additional professional services, shall be paid by CONTRACTOR.

Acceptance of Defective Work:

13.13. If, instead of requiring correction or removal and replacement of defective Work, OWNER prefers to accept it, OWNER may do so. In such case, if acceptance occurs prior to ENGINEER's recommendation of final payment, a Change Order shall be issued incorporating the necessary revisions in the Contract Documents, including appropriate reduction in the Contract Price; or, if the acceptance occurs after such recommendation, an appropriate amount shall be paid by CONTRACTOR to OWNER.

OWNER May Correct Defective Work:

13.14. If CONTRACTOR fails, within a reasonable time after written notice of ENGINEER to proceed, to correct and to correct defective Work or to remove and replace rejected Work as required by ENGINEER in accordance with paragraph 13.11., or if CONTRACTOR fails to perform the Work in accordance with the Contract Documents (including any requirements of the progress schedule), OWNER may, after seven days' written notice to CONTRACTOR, correct and remedy any such deficiency. In exercising his rights under this paragraph OWNER shall proceed expeditiously. To the extent necessary to complete corrective and remedial action, OWNER may exclude CONTRACTOR from all or part of the site, take possession of all or part of the Work, and suspend CONTRACTOR's services related thereto, take possession of CONTRACTOR's tools, appliances, construction equipment and machinery at the site and incorporate in the Work all materials and equipment stored at the site or for which OWNER has paid CONTRACTOR but which are stored elsewhere. CONTRACTOR shall allow OWNER, OWNER's representatives, agents and employees such access to the site as may be necessary to enable OWNER to exercise his rights under this paragraph. All direct and indirect costs of OWNER in exercising such rights shall be charged against CONTRACTOR in an amount verified by ENGINEER, and a Change Order shall be issued incorporating the necessary revisions in the Contract Documents and a reduction in the Contract Price. Such direct and indirect costs shall include, in particular but without limitation, compensation for additional professional services required and all costs of repair and replacement of work of others destroyed or damaged by correction, removal or replacement of CONTRACTOR's defective Work. CONTRACTOR shall not be allowed an extension of the Contract Time because of any delay in performance of the Work attributable to the exercise by OWNER of OWNER's rights hereunder.

ARTICLE 14 - PAYMENTS TO CONTRACTOR AND COMPLETION

Application for Progress Payment:

14.1. At least ten days before each progress payment falls due (but not more often than once a month), CONTRACTOR shall submit to ENGINEER for review an Application for Payment filled out and signed by CONTRACTOR covering the Work completed as of the date of the Application and accompanied by such supporting documentation as is required by the Contract Documents and also as ENGINEER may reasonably require. If payment is requested on the basis

of materials and equipment not incorporated in the Work but delivered and suitably stored at the site or at another location agreed to in writing, the Application for Payment shall also be accompanied by such data, satisfactory to OWNER, as will establish OWNER's title to the material and equipment and protect OWNER's interest therein, including applicable insurance. Each subsequent Application for Payment shall include an affidavit of CONTRACTOR stating that all previous progress payments received on account of the Work have been applied to discharge in full all of CONTRACTOR's obligations reflected in prior Applications for Payment. The amount of retainage with respect to progress payments will be as stipulated in the Form of Agreement, Article 5.

CONTRACTOR's Warranty of Title:

14.2. CONTRACTOR warrants and guarantees that title to all Work, materials and equipment covered by an Application for Payment, whether incorporated in the project or not, will pass to OWNER at the time of payment free and clear of all liens, claims, security interests and encumbrances (hereafter in these General Conditions referred to as "Liens").

Review of Applications for Progress Payment:

14.3. ENGINEER will, within ten days after receipt of each Application for Payment, either indicate in writing a recommendation of payment, or return the Application to CONTRACTOR indicating in writing ENGINEER's reasons for refusing to recommend payment. In the latter case, CONTRACTOR may make the necessary corrections and resubmit the Application. OWNER shall, within ten days of presentation to him of the ENGINEER's recommendation of payment, pay CONTRACTOR the amount recommended.

14.4. ENGINEER may refuse to recommend the whole or any part of any payment if, in his opinion, it would be incorrect to make such representations to OWNER. He may also refuse to recommend any such payment, or, because of subsequently discovered evidence or the results of subsequent inspections or tests, nullify any such payment previously recommended to such extent as may be necessary in ENGINEER's opinion to protect OWNER from loss because:

14.4.1. The Work is defective, or completed Work has been damaged requiring correction or replacement;

14.4.2. Written claims have been made against OWNER or Liens have been filed in connection with the Work;

14.4.3. The Contract Price has been reduced because of Modifications;

14.4.4. OWNER has been required to correct defective Work or complete the Work in accordance with paragraph 13.14;

14.4.5. Of CONTRACTOR's unsatisfactory prosecution of the Work in accordance with the Contract Documents, including failure to clean up;

14.4.6. Of liquidated damages payable by CONTRACTOR; or

14.4.7. CONTRACTOR's failure to make payment to Subcontractors, or for labor, materials or equipment.

Substantial Completion:

14.5. When CONTRACTOR considers the entire Work ready for its intended use CONTRACTOR shall, in writing to ENGINEER, certify that the entire Work is substantially complete and request that ENGINEER issue a certificate of Substantial Completion. Within a reasonable time thereafter, CONTRACTOR and ENGINEER shall make an inspection of the Work to determine the status of completion. If ENGINEER does not consider the Work substantially complete, ENGINEER will notify CONTRACTOR in writing giving his reasons therefor. If ENGINEER considers the Work substantially complete, ENGINEER will prepare a certificate of Substantial Completion which shall fix the date of Substantial Completion. There shall be attached to the certificate a list of items to be completed or corrected before final payment.

14.6. OWNER shall have the right to exclude CONTRACTOR from the Work after the date of Substantial Completion, but OWNER shall allow CONTRACTOR reasonable access to complete or correct items on the list.

Partial Utilization:

14.7. Use by OWNER of completed portions of the Work may be accomplished prior to Substantial Completion of all the Work subject to the following:

14.7.1. OWNER at any time may request CONTRACTOR in writing to permit OWNER to use any part of the Work which OWNER believes to be substantially complete and which may be so used without significant interference with construction of the other parts of the Work. If CONTRACTOR agrees, CONTRACTOR will certify to ENGINEER that said part of the Work is substantially complete and request ENGINEER to issue a certificate of Substantial Completion for that part of the Work. Within a reasonable time thereafter CONTRACTOR and ENGINEER shall make an inspection of that part of the Work to determine its status of completion. If ENGINEER does not consider that part of the Work to be substantially complete, ENGINEER will notify CONTRACTOR in writing giving his reasons therefor. If ENGINEER considers that part of the Work to be substantially complete, ENGINEER will execute and deliver to CONTRACTOR a certificate to that effect, fixing the date of Substantial Completion as to that part of the Work, attaching thereto a list of items to be completed or corrected before final payment. OWNER shall have the right to exclude CONTRACTOR from any part of the Work which ENGINEER has so certified to be substantially complete, but OWNER shall allow CONTRACTOR reasonable access to complete or correct items on the list.

14.7.2. In lieu of the issuance of a certificate of Substantial Completion as to part of the Work, OWNER may take over operation of a facility constituting part of the Work whether or not it is substantially complete if such facility is functionally and separately usable; provided that prior to any such takeover, OWNER and CONTRACTOR have agreed as to the division of responsibilities between OWNER and CONTRACTOR for security, operation, safety, maintenance, correction period, heat, utilities and insurance with respect to such facility.

14.7.3. No occupancy of part of the Work or taking over of operations of a facility will be accomplished prior to compliance with the requirements of paragraph 5.14 with regard to property insurance.

Final Inspection:

14.8. Upon written notice from CONTRACTOR that the work is complete, ENGINEER will make a final inspection with CONTRACTOR and will notify CONTRACTOR in writing of all particulars in which this inspection reveals that the Work is incomplete or defective. CONTRACTOR shall immediately take such measures as are necessary to remedy such deficiencies.

Final Application for Payment:

14.9. After CONTRACTOR has completed all such corrections to the satisfaction of ENGINEER and delivered all maintenance and operating instructions, schedules, guarantees, Bonds, certificates of inspection, marked-up record documents and other documents - all as required by the Contract Documents, and after ENGINEER has indicated that the Work is acceptable (subject to the provisions of paragraph 14.13), CONTRACTOR may make application for final payment following the procedure for progress payments. The final Application for Payment shall be accompanied by all documentation called for in the Contract Documents and such other data and schedules as ENGINEER may reasonably require, together with complete and legally effective releases or waivers (satisfactory to OWNER) of all Liens arising out of or filed in connection with the Work. In lieu thereof and as approved by OWNER, CONTRACTOR may furnish receipts or releases in full; an affidavit of CONTRACTOR that the releases and receipts include all labor, services, material and equipment for which a Lien could be filed, and that all payrolls, material and equipment bills, and other indebtedness connected with the Work for which OWNER or his property might in any way be responsible, have been paid or otherwise satisfied; and consent of the Surety, if any, to final payment. If any Subcontractor, manufacturer, fabricator, supplier or distributor fails to furnish a release or receipt in full, CONTRACTOR may furnish a Bond or other collateral satisfactory to OWNER to indemnify OWNER against any Lien.

Final Payment and Acceptance:

14.10. If, on the basis of ENGINEER's observation of the Work during construction and final inspection, and ENGINEER's review of the final Application for Payment and accompanying documentation - all as required by the Contract Documents, ENGINEER is satisfied that the Work has been completed and CONTRACTOR has fulfilled all of his obligations under the Contract Documents, ENGINEER will, within ten days after receipt of the final Application for Payment, indicate in writing his recommendation of payment and present the Application for payment. Thereupon ENGINEER will give written notice to CONTRACTOR that the Work is acceptable subject to the provisions of paragraph 14.13. Otherwise, ENGINEER will return the Application to CONTRACTOR, indicating in writing the reasons for refusing to recommend final payment, in which case CONTRACTOR shall make the necessary corrections and resubmit the Application. If the Application and accompanying documentation are appropriate as to form and substance, OWNER shall, within thirty days after receipt thereof pay CONTRACTOR the amount recommended by ENGINEER.

14.11. If, through no fault of CONTRACTOR, final completion of the Work is significantly delayed and if ENGINEER so confirms, OWNER shall, upon receipt of CONTRACTOR's final Application for Payment and recommendation of ENGINEER, and without terminating the Agreement, make payment of the balance due for that portion of the Work fully completed and accepted. If the remaining balance to be held by OWNER for Work not fully completed or corrected is less than the retainage stipulated in the Agreement, and if Bonds have been furnished as required in paragraph 5.1, the written consent of the Surety to the payment of the balance due for that portion of the Work fully completed and accepted shall be submitted by CONTRACTOR to ENGINEER with the Application for such payment. Such payment shall be made under the terms and conditions governing final payment, except that it shall not constitute a waiver of claims.

CONTRACTOR's Continuing Obligation:

14.12. CONTRACTOR's obligation to perform and complete the Work in accordance with the Contract Documents shall be absolute. Neither recommendation of any progress or final payment by ENGINEER, nor the issuance of a certificate of Substantial Completion, nor any payment by OWNER to CONTRACTOR under the Contract Documents, nor any use or occupancy of the Work or any part thereof by OWNER, nor any act of acceptance by OWNER nor any failure to do so, nor the issuance of a notice of acceptability by ENGINEER pursuant to paragraph 14.10, nor any correction of defective Work by OWNER shall constitute an acceptance of Work not in accordance with the Contract Documents or a release of CONTRACTOR's obligation to perform the Work in accordance with the Contract Documents.

Waiver of Claims:

14.13. The making and acceptance of final payment shall constitute:

14.13.1. A waiver of all claims by OWNER against CONTRACTOR, except claims arising from unsettled or unfiled Liens, from defective Work appearing after final inspection pursuant to paragraph 14.8 or from failure to comply with the Contract Documents or the terms of any special guarantees specified therein; however, it shall not constitute a waiver by OWNER of any rights in respect of CONTRACTOR's continuing obligations under the Contract Documents; and

14.13.2. A waiver of all claims by CONTRACTOR against OWNER other than those previously made in writing and still unsettled or unfiled.

ARTICLE 15 - SUSPENSION OF WORK AND TERMINATION

Owner May Suspend Work:

15.1. OWNER may, at any time and without cause, suspend the Work or any portion thereof for a period of not more than ninety days by notice in writing to CONTRACTOR and Surety which shall fix the date on which Work shall be resumed. CONTRACTOR shall resume the Work on the date so fixed. CONTRACTOR may be allowed an increase in the Contract Price or an extension of the Contract Time, or both, directly attributable to any suspension of work at OWNER's request if he makes a claim therefor as provided in Articles 11 and 12.

Owner May Terminate:

15.2. Upon the occurrence of any one or more of the following events:

15.2.1. If CONTRACTOR is adjudged a bankrupt or insolvent;

15.2.2. If CONTRACTOR makes a general assignment for the benefit of creditors;

15.2.3. If a trustee or receiver is appointed for CONTRACTOR or for any of CONTRACTOR's property;

15.2.4. If CONTRACTOR files a petition to take advantage of any debtor's act, or to reorganize under the bankruptcy or similar laws;

15.2.5. If CONTRACTOR repeatedly fails to supply sufficient skilled workmen or suitable materials or equipment;

15.2.6. If CONTRACTOR repeatedly fails to make prompt payments to Subcontractors or for labor, materials or equipment;

15.2.7. If CONTRACTOR violates any laws, ordinances, rules, regulations or orders of any public body having jurisdiction;

15.2.8. If CONTRACTOR disregards the authority of ENGINEER; or

15.2.9. If CONTRACTOR otherwise violates in any substantial way any provisions of the Contract Documents.

OWNER may after giving CONTRACTOR and his Surety seven (7) days' written notice, terminate the services of CONTRACTOR, exclude CONTRACTOR from the site and take possession of the Work and of all CONTRACTOR's tools, appliances, construction equipment and machinery at the site and demand the Surety to finish the Work by whatever methods he may deem expedient but subject to the approval of OWNER. The Surety shall use the same to the full extent they could be used by CONTRACTOR (without liability to CONTRACTOR for trespass or conversion), incorporate in the Work all materials and equipment stored at the site or for which OWNER has paid CONTRACTOR but which are stored elsewhere, and finish the Work as OWNER may require. In such case CONTRACTOR shall not be entitled to receive any further payment until the Work is finished. If the unpaid balance of the Contract Price exceeds the direct and indirect costs of completing the Work, including compensation for additional professional services, such excess shall be paid to CONTRACTOR. If such costs exceed such unpaid balance, CONTRACTOR and the Surety shall be jointly and severely liable to pay the difference to OWNER. Such costs incurred by OWNER shall be incorporated in a Change Order, but in finishing the Work OWNER shall not be required to accept the lowest figure for the Work to be performed by the Surety.

15.3. Where CONTRACTOR's services have been so terminated by OWNER, the termination shall not affect any rights of OWNER against CONTRACTOR or the Surety then existing or which

may thereafter accrue. Any retention or payment of moneys due CONTRACTOR by OWNER will not release CONTRACTOR from liability.

15.4. Upon seven (7) days' written notice to CONTRACTOR and Surety, OWNER may, without cause and without prejudice to any other right or remedy, elect to abandon the Work and terminate the Agreement. In such case, CONTRACTOR shall be paid for all Work executed, any expense sustained plus reasonable termination expenses.

CONTRACTOR May Stop Work or Terminate:

15.5. If, through no act or fault of CONTRACTOR, the Work is suspended for a period of more than ninety (90) days by OWNER or under an order of court or other public authority, or ENGINEER fails to act on any Application for Payment within thirty (30) days after it is submitted, or OWNER fails for thirty days to pay CONTRACTOR any sum finally determined to be due, the CONTRACTOR may, upon seven (7) days' written notice to OWNER, terminate the Agreement and recover from OWNER payment for all Work executed and any expense sustained plus reasonable termination expenses. In addition and in lieu of terminating the Agreement, if ENGINEER has failed to act on an Application for Payment or OWNER has failed to make any payment as aforesaid, CONTRACTOR may upon seven (7) days' notice to OWNER stop the Work until payment of all amounts then due. The provisions of this paragraph shall not relieve CONTRACTOR of his obligations to carry on the Work in accordance with the progress schedule and without delay during disputes and disagreements with OWNER.

ARTICLE 16 - MISCELLANEOUS

Giving Notice:

16.1. Whenever any provision of the Contract Documents requires the giving of written notice it shall be deemed to have been validly given if delivered in person to the individual or to a member of the firm or to an officer of the corporation for whom it is intended, or if delivered at or sent by registered or certified mail, postage prepaid, to the last business address known to the giver of the notice.

Computation of Time:

16.2. When any period of time is referred to in the Contract Documents by days, it shall be computed to exclude the first and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day shall be omitted from the computation.

General:

16.3. The duties and obligations imposed by these General Conditions and the rights and remedies available hereunder to the parties hereto, and, in particular but without limitation, the warranties, guarantees and obligations imposed upon CONTRACTOR by paragraphs 6.15, 13.1, 13.11, 13.14, 14.2, and 15.2, and all of the rights and remedies available to OWNER thereunder,

shall be in addition to, and not in limitation of, any rights and remedies available to any or all of them which are otherwise imposed or available by law or contractor, by special warranty or guarantee or by other provisions of the Contract Documents, and the provisions of this paragraph shall be as effective as if repeated specifically in the contract Documents in connection with each particular duty, obligation, right and remedy to which they apply. All representations, warranties and guarantees made in the Contract Documents shall survive final payment and termination or completion of this Agreement.

Liquidated Damages:

16.4. OWNER and CONTRACTOR recognize that time is of the essence to complete this Project and that OWNER will suffer financial loss if the Work is not substantially complete within the time specified in Agreement, plus any extensions thereof allowed in accordance with Article 12. They also recognize the delays, expense and difficulties involved in proving in a legal proceeding the actual loss suffered by OWNER if the Work is not substantially complete on time. Accordingly, instead of requiring any such proof, OWNER and CONTRACTOR agree that as liquidated damages for delay (but not as a penalty) CONTRACTOR shall pay OWNER the amount stated in the Contract for each day that expires after the time specified in the Contract for Substantial Completion until the Work is substantially complete. After Substantial Completion, if CONTRACTOR shall neglect, refuse or fail to complete the remaining Work within the time specified in the Contract or any proper extension thereof granted by OWNER, CONTRACTOR shall pay the OWNER an amount equal to all actual expenses incurred by the OWNER as a direct result of the CONTRACTOR'S negligence, refusal, or failure to so complete the remaining Work. In the event the CONTRACTOR is terminated or abandons the Work prior to the scheduled date for final completion, the CONTRACTOR may be liable for both liquidated damages attributable to delay and for excess completion costs.

Reports of Investigations and Tests of Subsurface and Latent Physical Conditions:

16.5. Reports of investigations and tests of subsurface and latent physical conditions at the site or otherwise affecting cost, progress or performance of the work which have been relied upon by ENGINEER in preparing the Drawings and Specifications are as listed in the Supplementary Conditions. OWNER will make such reports available for inspection to any Bidder or copies may be obtained from the ENGINEER by the Bidder at reproduction cost. These reports are not guaranteed as to accuracy or completeness, nor are they part of the Contract Documents.

Performance of Work by CONTRACTOR:

16.6. Contract Assignment. The successful bidder (or bidders) will be required to perform the work as a prime contractor. CONTRACTOR shall not sublet, sell, transfer, assign or otherwise dispose of the contract or any portion thereof, or of his right, title, or interest therein. CONTRACTOR shall perform on the site and with his own organization work equivalent to not less than fifty (50%) percent of the total dollar value of the work to be performed under this contract except that work designated in the Supplementary Conditions as specialty work may be performed by subcontractors and the cost of any such specialty work so performed by subcontracts may be deducted from the total contract amount before computing the amount of work required to be performed by CONTRACTOR with his own organization.

Limitation of Remedy and Liability:

16.7 Contractor and Owner expressly waive any claim for consequential damages against the other including but not limited to, a waiver of claims for diminished bonding capacity, loss of financing, loss of business reputation, lost profits on other projects or other lost opportunity damage claims.

Contractor expressly agrees that any claim (tort, contract, claim in equity, or otherwise) by Contractor for damages against Owner shall not exceed the total amount of the contract price, less any amounts actually paid to the Contractor by the Owner (or by an insurer of the Owner).

All liability of the City allegedly resulting from, arising out of or connected with this Agreement, or from the performance or breach thereof, shall terminate three years from the termination of this Agreement.

Waiver of Right to Jury Trial:

16.8 THE PARTIES HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVE ANY RIGHT WHICH ANY PARTY MAY HAVE TO TRIAL BY JURY IN RESPECT OF ANY PROCEEDING, LITIGATION OR COUNTERCLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN) OR ACTIONS OF ANY PARTY. IF THE SUBJECT MATTER OF ANY LAWSUIT IS ONE IN WHICH THE WAIVER OF JURY TRIAL IS PROHIBITED, NO PARTY TO THIS AGREEMENT SHALL PRESENT AS A NON-COMPULSORY COUNTERCLAIM IN ANY SUCH LAWSUIT ANY CLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT. FURTHERMORE, NO PARTY TO THIS AGREEMENT SHALL SEEK TO CONSOLIDATE ANY SUCH ACTION IN WHICH A JURY TRIAL CANNOT BE WAIVED.

END OF SECTION

SECTION 00800
SUPPLEMENTARY CONDITIONS

The following supplements modify, change, delete from, or add to the General Conditions of the Construction Contract (Section 00700). Where any article of the General Conditions is modified or any paragraph, subparagraph or clause thereof is modified or deleted by these supplements, the unaltered provisions of that article, paragraph, subparagraph or clause shall remain in effect.

ARTICLE 16 - MISCELLANEOUS

Section 16.5 – Reports of Investigations and Test of Subsurface and Latent Physical Conditions

Add the following subparagraph:

16.5.1 The list of reports of investigations and tests of subsurface and latent physical conditions as referred to in General Conditions Section 16.5 are as follows:

Geotechnical Evaluation Doug Thomas way Extension by Universal Engineering Sciences, Inc. Report No. 139666 dated February 3, 2022

Add the following:

16.7 Minimum Requirements for the provision and maintenance of Payment and Performance Bonds, and Contractor's Insurance

In accordance with Resolution 2021-144 as it presently exists or may hereafter change, or applicable state, federal or local law, whichever is stricter, the following minimum requirements have been established:

A. Payment and Performance Bonds

1. Except as otherwise provided herein, the Contractor shall, prior to beginning performance, deliver to the City, and the City shall record in the public records of Volusia County, Florida, the Contractor's Payment and Performance Bond in an amount equal to the full amount of the Contract.

2. **(a)** Payment and Performance Bonds shall not be required for any contract except those which are for the construction of a public building, for the prosecution and completion of a public work (as described in Section 180.06, **Florida Statutes,** as amended from time to time) or for repairs upon a public building or public work (as described in Section 180.06, **Florida Statutes**, as amended from time to time).

(b) With respect to those Contracts for which Payment and Performance Bonds are otherwise required:

i. Unless the City Manager, or designee, determines such Bond to be necessary to protect the interests of the City, no Contractor shall be required to provide a Payment and Performance Bond for any Contract which is for $25,000.00 or less.

ii. Upon the request of the contractor, good cause shown by the Contractor, and a determination that the public health, safety and welfare will be sufficiently protected, the City Commission may exempt the contractor from the requirement of providing a Payment and Performance Bond for any Contract which is for more than $25,000.00 but is less than $200,000.00.

3. The Payment and Performance Bond shall list the Contractor as Principal and be issued by a surety insurer authorized to do business in Florida as a surety and listed as an acceptable surety in the Federal Register.

4. The Payment and Performance Bond shall be executed pursuant to Section 255.05, **Florida Statutes**, and be in a form substantially similar to the form set forth in Section 255.05(3), **Florida Statutes**.

5. The Payment and Performance Bond shall specifically provide coverage for delay damages due to a default by the Contractor.

6. The Payment and Performance Bond shall not make the Contract part of the Bond agreement.

7. In lieu of the Payment and Performance Bond, the Contractor may file with the Finance Director of the City, in an amount equal to the full amount of the Contract, cash, a money order, a certified check, a cashier's check, an irrevocable letter of credit, or a security of a type listed in Part II, Chapter 625, **Florida Statutes**.

8. In the event the surety on any Payment and Performance Bond furnished by the Contractor is declared bankrupt or becomes insolvent, or its right to do business in the State of Florida is terminated, the Contractor shall, within five (5) working days thereafter, substitute another Payment and Performance Bond and surety acceptable to the City.

9. The Contractor is totally and solely responsible for keeping its surety informed as to the Base Contract Price as bid, significant changes in the Project Scope, and the overall progress and completion of the Project for the entire life of the Contract.

10. The payment and performance bond requirements stated herein above shall not be applicable to service-related contracts unless otherwise determined by the City Manager in order to protect the health, safety and welfare of the general public.

B. Contractual Provisions Relative to Risk Management

All contracts for any public works to be performed, and service-related contracts, for or on behalf of the City shall include at a minimum, the following, or substantially similar, provisions:

1. Hold Harmless and Indemnity

The Contractor agrees to assume liability for and indemnify, hold harmless, and defend the City, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Contractor, its agents, officers, contractors, subcontractors, employees, or anyone else employed or utilized by the Contractor in the performance of this Contract. The Contractor's liability hereunder shall include all attorney's fees and costs incurred by the City in the enforcement of this provision.

2. Payment on Behalf of City

The Contractor shall pay all costs of the City's legal defense, as may be selected by the City, for all claims described in the Hold Harmless paragraph.

Such payment on behalf of the City shall be in addition to any and all other legal remedies available to the City and shall not be considered to be the City's exclusive remedy.

3. Loss Control/Safety

Precaution shall be exercised at all times by the Contractor for the protection of all persons, including employees and property. The Contractor shall comply with all applicable laws, regulations and ordinances related to safety and health, shall make special efforts to detect hazardous conditions, and shall take prompt action when loss control/safety measures are reasonably necessary.

The City may order work to be stopped if conditions exist that present an immediate danger to persons or property. The Contractor acknowledges that such work stoppage will not shift responsibility for any damages from the Contractor to the City.

4. Service Bond

For Service-related contracts only, the City may require the Contractor to secure a service bond with a minimum $25,000 coverage limit for the period of the service agreement. The service bond covers dishonest acts of the contractor's employees

against the City. A copy of the bond shall be provided to the City when the agreement commences.

Service-related contracts include and are not limited to businesses providing janitorial, pest control, general repair, security, carpet cleaning, locksmith, temporary employment, painting, moving services or other contracts as determined in the discretion of the Risk Manager as necessary to minimize loss.

C. Contractor's Insurance

1. General

The Contractor, including service-related contractors, shall purchase and maintain for the entire life of the Project, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under the Contract Documents, whether such operations be by the Contractor, by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

2. Types of Insurance and Limits of Liability

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

(a) Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident
$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for coverage. However, if the contractor subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

(b) Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations
h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)
k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence
$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

(c) Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract.

ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

$1 Million	Combined Single Limit for Bodily Injury and Property Damage

(d) Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,0000 per occurrence.

(e) Builder's Risk

Contractor shall purchase Builder's Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

(f) Professional Liability, Malpractice and/or Errors and Omissions (N/A for construction contracts)

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

D. Requirements for Certificates of Insurance

1. With the execution of the Contract Documents, the Contractor, including service-related contractors, shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall contain an endorsement that the coverage under the policies will not be canceled, non-renewed or materially changed until at least thirty (30) days' prior written notice of such cancellation, non-renewal or change (except for nonpayment of premium, which shall be ten (10) days) and a copy of the cancellation endorsement signed by an authorized

representative of the insurer, be given to the City. The contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACORD FORM 25-S (7/90), or its successor form, and shall be made a part of the Contract Documents.

2. New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

3. If requested by the City, the contractor shall immediately furnish complete copies of the Contractor's insurance policies, forms and endorsements.

4. For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

5. If the Contractor fails to obtain and maintain for the life of the Project the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City form the amount due the Contractor for the work covered by the Contract.

E. Policies of Insurance

1. Except as otherwise provided in this Exhibit, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-), in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carrier; written confirmation is required.

3. All policies of insurance or certificates thereof referred to in this Exhibit shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability including products and completed operations and Automobile Liability policies of insurance and certificates thereof.

C-2.9	PAVEMENT MARKING & SIGNAGE PLAN
C-3.0 TO C3.2	CITY OF ORMOND BEACH STANDARD DETAILS & NOTES

ATTENTION IS DIRECTED TO THE FACT THAT THESE PLANS MAY HAVE BEEN REDUCED IN SIZE BY REPRODUCTION. THIS MUST BE CONSIDERED WHEN OBTAINING SCALED DATA

GOVERNING SPECIFICATIONS CITY OF ORMOND BEACH, STANDARD CONSTRUCTION AND UTILITY DETAILS AND THE PROJECT MANUAL IN REFERENCE TO STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION, SPECIFICATIONS, AND SUPPLEMENTS THERETO IF NOTED IN THE SPECIAL PROVISIONS FOR THIS PROJECT.

PROJECT STATEMENT OF INTENT:
CONSTRUCTION OF APPROXIMATELY 2,156 LF OF COLLECTOR ROADWAY FROM EXISTING ROADWAY EXTENSION CONNECTION ON "DOUG THOMAS WAY" NORTH AND EASTWARD FOR CONNECTION TO EXISTING "HULL ROAD" AND APPROXIMATELY 350 LF OF DRIVE TO THE EXISTING MAINTENANCE BUILDING. IMPROVEMENTS WILL CONSISTS OF CONSTRUCTION OF THE ROADWAY AND ROADSIDE CONVEYANCE SWALES TO TREAT AND ATTENUATE RUNOFF FROM THE NEW ROADWAY.

MANDATORY PRECONSTRUCTION MEETING NOTE:
NO CONSTRUCTION ON THE PROPOSED PORTIONS OF THIS PROJECT MAY COMMENCE UNTIL A MANDATORY PRECONSTRUCTION MEETING IS HELD WITH THE CITY.

FLORIDA DEPARTMENT OF HISTORICAL RESOURCES

1. IF PREHISTORIC OR HISTORIC ARTIFACTS, SUCH AS POTTERY OR CERAMICS, PROJECTILE POINTS, DUGOUT CANOES, METAL IMPLEMENTS, HISTORIC BUILDING MATERIALS, OR ANY OTHER PHYSICAL REMAINS THAT COULD BE ASSOCIATED WITH NATIVE AMERICAN, EARLY EUROPEAN, OR AMERICAN SETTLEMENT ARE ENCOUNTERED AT ANY TIME WITHIN THE PROJECT SITE AREA, THE PERMITTED PROJECT SHALL CEASE ALL ACTIVITIES INVOLVING SUBSURFACE DISTURBANCE IN THE IMMEDIATE VICINITY OF THE DISCOVERY. THE APPLICANT SHALL CONTACT THE FLORIDA DEPARTMENT OF STATE, DIVISION OF HISTORICAL RESOURCES COMPLIANCE REVIEW SECTION AT (850) 245-6333. PROJECT ACTIVITIES SHALL NOT RESUME WITHOUT VERBAL AND/OR WRITTEN AUTHORIZATION.
2. IN THE EVENT THAT UNMARKED HUMAN REMAINS ARE ENCOUNTERED DURING PERMITTING ACTIVITIES, ALL WORK SHALL STOP IMMEDIATELY AND THE PROPERTY AUTHORITIES NOTIFIED IN ACCORDANCE WITH SECTION 872.05, FLORIDA STATUTES.

NOTE:
THESE DRAWINGS AND THE PROJECT MANUAL ARE COMPLEMENTARY, AND ANY REQUIREMENT OF ONE SHALL BE A REQUIREMENT OF THE OTHER. IT IS THE CONTRACTOR'S RESPONSIBILITY TO EXAMINE THE DRAWINGS AND SPECIFICATIONS AND TO COMPARE THE REQUIREMENTS OF EACH DIVISION AND ENSURE THAT EACH TRADE OR SUBCONTRACTOR IS MAKING THE ALLOWANCES NECESSARY TO PROVIDE THE OWNER A COMPLETE FACILITY, OPERATIONAL IN ALL RESPECTS, UNLESS OTHERWISE SPECIFICALLY STATED IN THE DRAWINGS OR PROJECT MANUAL.

IT IS ALSO THE CONTRACTOR'S RESPONSIBILITY TO NOTIFY THE ENGINEER OF ANY DEFICIENCIES OR DISCREPANCIES AMONG THE DIVISIONS OF THE DRAWING AND SPECIFICATIONS PRIOR TO THE BID DATE. NEITHER THE OWNER OR ENGINEER WILL BE RESPONSIBLE FOR ANY DEFICIENCIES OR DISCREPANCIES RAISED AFTER THE BID OPENING. ACCORDINGLY, IN LIGHT OF THESE OBLIGATIONS, THE ENGINEER IS OBLIGATED TO INTERPRET THE DRAWINGS SPECIFICATIONS IN A MANNER THAT WILL PROVIDE THE OWNER WITH A COMPLETE, FUNCTIONING FACILITY FOR THE BID PRICE.

JURISDICTIONAL AGENCY:	PERMIT No.
ST. JOHN RIVER WATER MANAGEMENT DISTRICT	186289-1

COVER SHEET
DOUG THOMAS WAY EXTENSION
CITY OF ORMOND BEACH
ORMOND BEACH, FLORIDA 32174

PROJECT No:	210509
DATE:	APRIL 23, 2023
DESIGN BY:	RWS
DRAWN BY:	KEH
CHECKED BY:	RWS
SCALE:	AS SHOWN

SHEET NUMBER:
CV-1

GENERAL NOTES:

1. EXISTING TOPOGRAPHY WAS PERFORMED BY UPHAM AND IS BELIEVED TO BE ACCURATE,
2. ALL STORM SEWER LINES AND INLETS SHALL BE CLEANED OF DEBRIS AND ERODED MATERIALS AT LAST STAGES OF CONSTRUCTION
3. ANY DRAINAGE PROBLEMS CREATED BY CONSTRUCTION OR EXISTING BEFORE CONSTRUCTION AND NOT ALLEVIATED SHOULD BE BROUGHT TO THE ATTENTION OF THE CITY OF ORMOND BEACH DEPARTMENT OF PUBLIC WORKS.
4. CONTRACTOR SHALL BE RESPONSIBLE FOR RAISING ALL EXISTING SANITARY MANHOLES AND STORM INLETS TO ELEVATION OF PROPOSED PAVEMENT.
5. ALL UTILITY WORK SHALL ADHERE TO THE CITY OF ORMOND BEACH "STANDARD CONSTRUCTION DETAILS".
6. CONTRACTOR SHALL TAKE PRECAUTIONS TO PROTECT EXISTING TREES SHOWN TO REMAIN. SOME TREES ARE SHOWN TO BE REMOVED. HOWEVER, THE CONTRACTOR SHALL BE RESPONSIBLE AND USE HIS DISCRETION TO DETERMINE THE EXTENT OF REMOVING TREES. ALL AREAS DISTURBED DURING CONSTRUCTION SHALL BE RESTORED TO ORIGINAL CONDITION. TREES TO REMAIN SHALL BE BARRICADED WITH ORANGE FENCING (VISI-BARRIER OR EQUAL).
7. CONTRACTOR SHALL ALLOW ONE LANE OF TRAFFIC DURING CONSTRUCTION. ALL OPEN EXCAVATIONS SHALL BE BARRICADED AND "CONSTRUCTION" SIGNAGE POSTED ON EITHER END OF THE ROAD PRIOR TO STARTING
8. CONTRACTOR SHALL PROVIDE AN AS-BUILT SURVEY PERFORMED BY A REGISTERED SURVEYOR. SURVEY SHALL INDICATE AS-BUILT OF IMPROVEMENTS AS SPECIFIED IN THE PROJECT MANUAL SECTION 01500.
9. ALL CONCRETE DEBRIS ENCOUNTERED IN UTILITY INSTALLATIONS SHALL BE SUFFICIENTLY REMOVED AROUND PIPE BEDDING. CLEAN GRANULAR BACKFILL SHALL BE PLACED AND COMPACTED AS SPECIFIED.
10. THE CONTRACTOR SHALL SUBMIT TO THE ENGINEER AT THE PRECONSTRUCTION MEETING THE MEETING THE PROPOSED SCHEDULE OF CONSTRUCTION AND HIS PROPOSED CONSTRUCTION PROCEDURES. THE SCHEDULE SHALL INCLUDE THE SEQUENCE OF CONSTRUCTION OF ALL WORK.
11. THE ENGINEER ASSUMES NO RESPONSIBILITY FOR INSTRUCTING THE CONTRACTOR IN THE METHODS OF CONSTRUCTION. IT IS THE CONTRACTOR'S RESPONSIBILITY TO DETERMINE THE METHOD TO CONSTRUCT THE IMPROVEMENTS AS SHOWN ON THE PLANS.
12. AT ALL TIMES, THE CONTRACTOR SHALL TAKE PRECAUTIONS TO PROTECT UNDERGROUND UTILITIES, STRUCTURES AND OTHER ASSOCIATED FACILITIES FROM DAMAGE DURING CONSTRUCTION. IT IS THE CONTRACTOR'S RESPONSIBILITY TO DETERMINE THE MEASURES OF PROTECTION. ANY DAMAGED FACILITIES SHALL BE REPAIRED OR REPLACED AS DIRECTED BY THE CITY OR ENGINEER AT THE CONTRACTORS EXPENSE.
13. THERE SHALL BE NO DEVIATIONS FROM THESE DRAWINGS UNLESS APPROVED IN WRITING BY THE ENGINEER AND THE CITY OF ORMOND BEACH.
14. ALL EROSION CONTROL DEVICES (SEDIMENT C) SHALL BE PLACED PRIOR TO STARTING ANY WORK. ALL DEVICES SHALL REMAIN IN PLACE UNTIL ALL WORK IS COMPLETE. REFER TO INDIVIDUAL DRAWINGS FOR SPECIFIC LOCATIONS AND TYPES OF DEVICES.
15. CONTRACTOR SHALL BE RESPONSIBLE FOR PERIODIC INSPECTION AND REMOVAL OF DEBRIS AND SILT BEHIND EROSION CONTROL DEVICES.

GENERAL DRAINAGE NOTES:

1. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY AND ALL DAMAGE TO DRAINAGE SYSTEM AND SHALL RESTORE ANY DAMAGED STRUCTURES OR PIPES.
2. ALL "ROUND" STORM PIPE SHALL BE CONSTRUCTED OF REINFORCED CONCRETE CLASS III WITH BUTYL MASTIC SEALANT WITH CERTIFIED WATERTIGHT JOINTS BY THE MANUFACTURER WHERE SPECIFICALLY INDICATED ON THE DRAWING. RCP JOINTS SHALL BE WRAPPED WHERE APPLICABLE PER FDOT SPECIFICATIONS.
3. THE CONTRACTOR SHALL SUBMIT SHOP DRAWINGS OF ALL MATERIAL AND STRUCTURES TO THE ENGINEER (UPHAM, INC.) FOR APPROVAL PRIOR TO THE PRECONSTRUCTION MEETING. THE CONTRACTOR SHALL BE RESPONSIBLE AT ITS OWN RISK AND COST IF PRECAST STRUCTURES OR MATERIALS ARE ORDERED OR DELIVERED TO THE SITE PRIOR TO THE ENGINEER'S APPROVAL AND FOUND NOT TO BE ACCEPTABLE.
4. ALL DRAINAGE STRUCTURES SHALL BE PRECAST PER FDOT SPECIFICATIONS.
5. ALL DRAINAGE STRUCTURES AND STORM SEWER PIPES SHALL MEET HEAVY DUTY TRAFFIC (H20) LOADING AND BE INSTALLED ACCORDINGLY PER FDOT STANDARD SPECIFICATIONS AND MANUFACTURER'S SPECIFICATIONS RESPECTIVELY.
6. ALL DRAINAGE STRUCTURES AND PIPES SHALL BE CLEANED OF SAND AT THE LAST STAGE OF CONSTRUCTION PRIOR TO THE FINAL INSPECTION.

PAVEMENT MARKING & SIGNAGE NOTES:

1. ALL MARKINGS SHALL COMPLY WITH F.D.O.T. STANDARD PLANS FOR ROAD AND BRIDGE CONSTRUCTION INDEX No. 711-001.
2. PAVEMENT MARKINGS SHALL BE APPLIED AFTER PAVEMENT SURFACE HAS CURED. SURFACE SHALL BE FREE OF FINE SAND AND DEBRIS PRIOR TO APPLICATIONS.
3. ALL SITE PAVEMENT MARKINGS SHALL BE PAINTED COLOR AS INDICTED. PAINT SHALL BE SHERWIN WILLIAMS LOW-VOC ACRYLIC PRO PARK PAINT, APPLY PER MANUFACTURER'S RECOMMENDATIONS. REFER TO DRAWINGS FOR LOCATIONS OF SPECIFIC COLORS. ALL LINE PAVEMENT MARKINGS SHALL BE 6" MINIMUM WIDTH.
4. LOCATION OF SIGNS SHOWN HEREON ARE APPROXIMATE ONLY AND SUBJECT TO CHANGE AS DIRECTED BY THE ENGINEER. ALL SIGNS SHALL BE PLACED IN ACCORDANCE WITH INDEX NO. 700-101 AND THE "MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES FOR STREETS AND HIGHWAYS". FOR ADDITIONAL DETAILS SEE INDEX NO. 700-010, 700-101 AND 711-001.
5. ALL TRAFFIC CONTROL SIGNALS OR DEVICES MUST COMPLY WITH THE FLORIDA STATE STATUTES REGARDING THE INSTALLATION. ALL TRAFFIC CONTROL SIGNALS OR DEVICES MUST CONFORM TO THE MANUAL AND SPECIFICATIONS PUBLISHED BY THE FLORIDA DEPARTMENT OF TRANSPORTATION, TO INCLUDE BUT NOT LIMITED TO SIGNS SIZE AND HEIGHT.
6. ALL TRAFFIC CONTROL SIGNS SHALL BE FABRICATED USING 3M BRAND "SCOTCHLITE" SHEETING (ENGINEER GRADE) ON MINIMUM .08 GA ALUMINUM BLANKS.
7. SPEED LIMIT SIGNS SHALL BE INSTALLED WHERE INDICATED.

GENERAL EARTHWORK NOTES:

1. IF ANY MUCK OR MUCK-LIKE MATERIAL IS DISCOVERED, IT WILL BE REQUIRED TO BE REMOVED, BACKFILLED WITH APPROPRIATE FILL, COMPACTED, AND TESTED USING AASHTO T-180 MODIFIED PROCTOR METHOD.
2. ALL FILLING IS TO BE PERFORMED IN ONE-FOOT LIFTS. THE COMPACTION REQUIREMENT IS 98% FOR PAVED AREAS AND 95% FOR UNPAVED AREAS PER AASHTO T-180 MODIFIED PROCTOR TEST.
3. TEMPORARY FILL STOCKPILING IS NOT PERMITTED IN LIFTS GREATER THAN SIX FEET.
4. SOILS ARE TO BE STABILIZED BY WATER OR OTHER MEANS DURING CONSTRUCTION, THIS IS INTENDED TO REDUCE SOIL EROSION AND THE IMPACT TO NEIGHBORING COMMUNITIES.

PROJECT DATES:

OUT TO BID:	MAY 21, 2023
MANDATORY PREBID MEETING:	JUNE 14, 2023 10:00 AM CITY HALL
LAST DAY FOR QUESTIONS	JUNE 16, 2023 5:00 PM
BIDS DUE:	JUNE 21, 2023 2:00 PM CITY HALL
CALENDAR DAYS TO CONSTRUCT	120
CALENDAR DAYS TO SUBSTANTIAL COMPLETION	150

DESIGN BY:	RWS
DRAWN BY:	KEH
CHECKED BY:	RWS
SCALE:	AS SHOWN

SHEET NUMBER:

CV-2

SWPPP AND GENERAL NOTES:

1. THE CONTRACTOR SHALL ATTEND THE PRECONSTRUCTION AND SWPPP MEETING AS SPECIFIED PRIOR TO THE START OF ANY CONSTRUCTION ACTIVITY.
2. ALL EROSION CONTROL DEVICES AND VISIBLE BARRICADES SHALL BE INSTALLED AND APPROVED BY THE ENGINEER PRIOR TO THE START OF CLEARING AND GRUBBING. ALL DEVICES SHALL BE ROUTINELY INSPECTED AND REMAIN IN PLACE UNTIL ALL WORK IS COMPLETE.
3. A 24' WIDE 8" MINIMUM COMPACTED STONE DRIVE LANE TO THE CONSTRUCTION ENTRANCE THAT SHALL BE PLACED AFTER THE CLEARING AND GRUBBING IS COMPLETE. THE APPROXIMATE LOCATION IS INDICATED ON THE DRAWING.
4. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PERIODIC INSPECTION AND REMOVAL OF DEBRIS AND SEDIMENT BEHIND EROSION CONTROL DEVICES, REFER TO THE SWPPP DRAWINGS.
5. INLET PROTECTION DEVICES SHALL BE INSPECTED DAILY AND ALL SEDIMENT AND DEBRIS REMOVED TO A TRASH DUMPSTER.
6. SEDIMENT SHALL BE REMOVED FROM BEHIND SEDIMENT FENCE BEFORE HEIGHT IS 25% FULL.
7. ALL INLETS AND PIPE SHALL BE PROTECTED DURING CONSTRUCTION BY INLET PROTECTION MEASURES TO PREVENT SEDIMENTATION FROM ENTERING THE DRAINAGE SYSTEM. THE ENTIRE DRAINAGE SYSTEM SHALL BE CLEANED OF ALL DEBRIS PRIOR TO FINAL ACCEPTANCE.
8. SOILS ARE TO BE STABILIZED BY WATER, SOIL ADDITIVES OR OTHER MEANS DURING CONSTRUCTION. THIS IS INTENDED TO REDUCE SOIL EROSION, BLOWING SAND AND THE IMPACT TO NEIGHBORING PROPERTIES.
9. THE CONTRACTOR SHALL MAINTAIN A WEEKLY SWPPP INSPECTION REPORT ON-SITE FROM THE "NOI" TO THE "NOT" AND STRICTLY ADHERE TO THE FDEP NPDES GENERIC PERMIT CONDITIONS.
10. THE CONTRACTOR SHALL BE RESPONSIBLE TO ENSURE THAT THE BEST MANAGEMENT PRACTICES ARE UTILIZED TO PREVENT TURBID WATER FROM LEAVING THE SITE.
11. THE CONTRACTOR SHALL TAKE MEASURES TO MAINTAIN EXISTING DRAINAGE FACILITIES DURING CONSTRUCTION UNTIL NEW STRUCTURES AND PIPES ARE CONSTRUCTED.
12. A POSITIVE DRAINAGE CONVEYANCE SHALL REMAIN FUNCTIONING THROUGHOUT THE CONSTRUCTION THAT WILL NOT CAUSE DOWNSTREAM FLOODING.
13. THE CONTRACTOR SHALL PROVIDE EMERGENCY TELEPHONE NUMBERS TO THE CITY AND ENGINEER OF AT LEAST TWO INDIVIDUALS THAT ARE CAPABLE OF CORRECTING ANY DRAINAGE PROBLEMS THAT MAY OCCUR AFTER WORK HOURS.

EROSION AND SEDIMENT CONTROL NOTES:

1. LAND DISTURBING ACTIVITIES SHALL NOT COMMENCE UNTIL APPROVAL TO DO SO HAS BEEN RECEIVED BY GOVERNING AUTHORITIES.
2. THE CONTRACTOR SHALL STRICTLY ADHERE TO THE STORMWATER POLLUTION PREVENTION PLAN (SWPPP) DURING CONSTRUCTION OPERATIONS.
3. NO LAND CLEARING OR GRADING SHALL BEGIN UNTIL ALL PERIMETER EROSION AND SEDIMENT CONTROL MEASURES HAVE BEEN INSTALLED.
4. ALL EXPOSED AREAS SHALL BE SEEDED AS SPECIFIED WITHIN 7 DAYS (OR SHORTER DURATION IF REQUIRED BY GOVERNING NPDES PERMIT) OF FINAL GRADING.
5. SHOULD CONSTRUCTION STOP FOR LONGER THAN 7 DAYS (OR SHORTER DURATION IF REQUIRED BY GOVERNING NPDES PERMIT), THE SITE SHALL BE SEEDED AS SPECIFIED.
6. SEDIMENT AND EROSION CONTROL MEASURES SHALL BE INSPECTED AT LEAST ONCE EVERY SEVEN (7) CALENDAR DAYS AND WITHIN 24 HOURS OF 0.5 INCHES RAINFALL OR GREATER DURING A 24-HOUR PERIOD. ALL MAINTENANCE REQUIRED BY INSPECTION SHALL COMMENCE WITHIN 24 HOURS AND BE COMPLETED WITHIN 48 HOURS OF REPORT.
7. THIS PLAN SHALL NOT BE CONSIDERED ALL INCLUSIVE IT SHALL BE THE GENERAL CONTRACTOR'S RESPONSIBILITY TO TAKE ALL NECESSARY PRECAUTIONS TO PREVENT SEDIMENT FROM LEAVING THE SITE.
8. THE CONTRACTOR SHALL COMPLY WITH ALL STATE AND LOCAL ORDINANCES THAT APPLY.
9. ADDITIONAL EROSION AND SEDIMENT CONTROL MEASURES WILL BE INSTALLED AS DEEMED NECESSARY BY SITE INSPECTIONS.
10. THE CONTRACTOR SHALL BE RESPONSIBLE TO TAKE WHATEVER MEANS NECESSARY TO ESTABLISH PERMANENT SOIL STABILIZATION.

INLET SILT PROTECTION DETAIL

UTILIZE WHEN TOP AND GRATE ARE INSTALLED WITH STRUCTURE

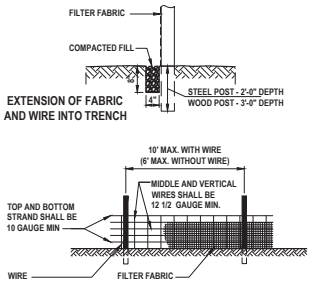
NOT TO SCALE

NOTES:

1. SEDIMENT CONTROL STONE SHALL BE 3/4" WASHED STONE.
2. WIRE MESH SHALL BE HARDWARE CLOTH 23 GAUGE MIN. AND SHALL HAVE 1/4 INCH MESH OPENINGS.
3. TOP OF WIRE MESH SHALL BE A MINIMUM OF ONE FOOT BELOW THE SHOULDER OR ANY DIVERSION POINT.
4. STEEL POST SHALL BE 5 FT. IN HEIGHT, BE INSTALLED 1.5 FT. DEEP MINIMUM, AND BE OF THE SELF-FASTENER ANGLE STEEL TYPE.
5. WOOD POST SHALL BE 6 FT. IN HEIGHT, BE INSTALLED TO 1.5 FT. DEEP MINIMUM, AND BE 3 INCHES IN DIAMETER.
6. POST SPACING SHALL BE A MAXIMUM OF 2 FT.

INLET PROTECTION

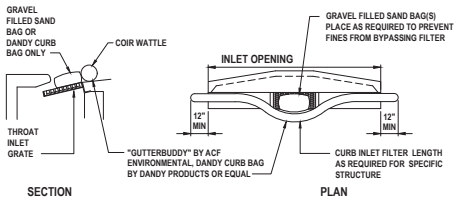
UTILIZE WHEN TOP AND GRATE ARE NOT INSTALLED WITH STRUCTURE



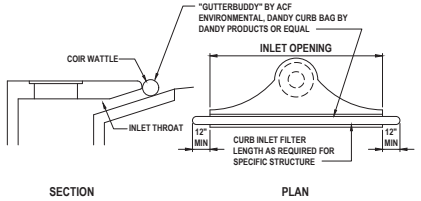
NOT TO SCALE

SWPPP NOTES:

1. MEASURES SHALL BE IMPLEMENTED AT THE CONTRACTOR'S DISCRETION TO VISIBLY BARRICADE THE WORK AREA AND PROVIDE SAFE MEANS OF INGRESS AND EGRESS AROUND THE CONSTRUCTION SITE.
2. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE TO EXISTING FACILITIES AND SHALL RESTORE ALL AREAS DAMAGED DUE TO CONSTRUCTION ACTIVITIES
3. PAVEMENT EDGES SHALL BE NEAT AND FREE OF DAMAGE OR BROKEN EDGES AT TIME OF PLACEMENT OF NEW ASPHALTIC PAVEMENT.
4. UPON COMPLETION OF ALL WORK, THE AREA SHALL BE SWEPT CLEAN OF ALL SAND AND DEBRIS.
5. UPON COMPLETION OF WORK, THE CONTRACTOR SHALL CONTACT THE ENGINEER FOR ITS FINAL INSPECTION AND ACCEPTANCE.
6. REMOVAL OF ALL CONSTRUCTION DEBRIS, LIMEROCK, EXCESS OF BUILDERS SAND, CONCRETE AND MORTAR DEBRIS, EXISTING WEEDS AND GRASSES, AND ALL FOREIGN MATERIALS IN THE PLANTING BED AND SOD AREAS SHALL BE REMOVED PRIOR TO ANY INSTALLATION OF PLANTS OR TREES.
7. IT IS THE CONTRACTOR'S RESPONSIBILITY TO NOTIFY THE ENGINEER OF ANY DEFICIENCIES OR DISCREPANCIES AMONG THE DIVISIONS OF THE DRAWING AND SPECIFICATIONS PRIOR TO THE BID DATE. NEITHER THE OWNER OR ENGINEER WILL BE RESPONSIBLE FOR ANY DEFICIENCIES OR DISCREPANCIES RAISED AFTER THE BID OPENING. ACCORDINGLY, IN LIGHT OF THESE OBLIGATIONS, THE ENGINEER IS OBLIGATED TO INTERPRET THE DRAWINGS AND SPECIFICATIONS IN A MANNER THAT WILL PROVIDE THE OWNER WITH A COMPLETE, FUNCTIONING FACILITY FOR THE BID PRICE.
8. THESE DRAWINGS AND THE PROJECT MANUAL ARE COMPLEMENTARY, AND ANY REQUIREMENT OF ONE SHALL BE A REQUIREMENT OF THE OTHER. IT IS THE CONTRACTOR'S RESPONSIBILITY TO CAREFULLY EXAMINE THE DRAWINGS AND SPECIFICATIONS AND TO COMPARE THE REQUIREMENTS OF EACH DIVISION AND ENSURE THAT EACH TRADE OR SUBCONTRACTOR IS MAKING THE ALLOWANCES NECESSARY TO PROVIDE THE OWNER A COMPLETE FACILITY, OPERATIONAL IN ALL RESPECTS, UNLESS OTHERWISE SPECIFICALLY STATED IN THE DRAWINGS.
9. THE ENGINEER ASSUMES NO RESPONSIBILITY FOR INSTRUCTING THE CONTRACTOR IN THE METHODS OF CONSTRUCTION. IT IS THE CONTRACTOR'S RESPONSIBILITY TO DETERMINE THE METHOD TO CONSTRUCT THE IMPROVEMENTS AS SHOWN ON THE DRAWINGS.
10. LITTER CONTROL MEASURES TO PREVENT WIND-DRIVEN DEBRIS SHALL BE IMPLEMENTED THROUGHOUT THE DURATION OF CONSTRUCTION. ALL DEBRIS SHALL BE REMOVED AND THE PROJECT SITE CLEANED WITHIN 5 DAYS OF COMPLETION OF CONSTRUCTION.
11. AT NO TIME SHALL EXCAVATIONS BE LEFT UNCOVERED AFTER WORKING HOURS. CONTRACTOR SHALL SECURE THE WORK AREA AT THE END OF EACH DAY'S WORK.
12. AT ALL TIMES, THE CONTRACTOR SHALL TAKE PRECAUTIONS TO PROTECT UNDERGROUND UTILITIES, STRUCTURES AND OTHER ASSOCIATED FACILITIES FROM DAMAGE DURING CONSTRUCTION. IT IS THE CONTRACTOR'S RESPONSIBILITY TO DETERMINE THE MEASURES OF PROTECTION. ANY DAMAGED FACILITIES SHALL BE REPAIRED OR REPLACED AS DIRECTED BY THE AUTHORITY HAVING JURISDICTION OR ENGINEER AT THE CONTRACTOR'S EXPENSE.
13. THERE SHALL BE NO DEVIATIONS FROM THESE DRAWINGS UNLESS APPROVED IN WRITING BY THE ENGINEER AND THE OWNER.
14. THE CONTRACTOR SHALL CONTACT ALL CONCERNED UTILITIES AT LEAST FORTY-EIGHT (48) HOURS IN ADVANCE OF CONSTRUCTION OPERATIONS.
15. CONTRACTOR SHALL COORDINATE AND COMPLY WITH ALL UTILITY COMPANIES INVOLVED IN PROJECT AND PAY ALL REQUIRED FEES AND COST.
16. WHERE NEW ASPHALT MEETS EXISTING ASPHALT, THE EXISTING ASPHALT SHALL BE SAW CUT TO PROVIDE A STRAIGHT EVEN LINE.
17. PRIOR TO REMOVING CURB OR GUTTER, THE ADJACENT ASPHALT SHALL BE SAW CUT TO PROVIDE A STRAIGHT EVEN LINE.



NOTES:



1. WWM MINIMUM OF 32" WIDTH WITH A MINIMUM OF 6 LINE WIRES WITH 12" STAY SPACING.
2. FILTER FABRIC SHALL BE 36" WIDE AND SHALL BE FASTENED ADEQUATELY TO THE WIRE.
3. STEEL POST SHALL BE 5'-0" IN HEIGHT AND BE OF THE SELF-FASTENER ANGLE STEEL TYPE.
4. WOOD POST SHALL BE 5'-0" IN HEIGHT AND 2" IN DIAMETER.
5. SUPPORT POST SHALL BE INSTALLED ON THE DOWNHILL SIDE OF THE SEDIMENT FENCE (DOWNSTREAM FROM EXPECTED FLOWS)
6. ACCUMULATED SEDIMENT SHALL BE REMOVED WHEN 25% THE HEIGHT OF FENCE.
7. MAXIMUM DRAINAGE AREA 10,000 SF PER 100' OF FENCE.

SEDIMENT FENCE DETAIL

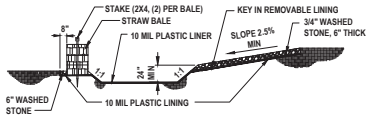
NOT TO SCALE

NOTE:
THE CONTRACTOR HAS THE DISCRETION TO UTILIZE THIRD PARTY PROPRIETARY EROSION AND SEDIMENTATION CONTROL PRODUCTS AND DEVICES AND IS NOT LIMITED TO THE DETAILS ON THIS SHEET.

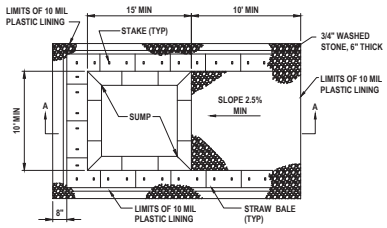
NOTES:

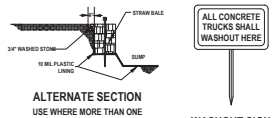
1. INSTALL FILTER PRIOR TO BEGINNING CONSTRUCTION.
2. INSPECT ONCE EACH WEEK AND AFTER ANY RAIN EVENT. REMOVE ANY FINES AND DEBRIS THAT MAY HAVE ACCUMULATED AND DISPOSE OF PROPERLY.

CURB INLET SEDIMENT PREVENTION DETAIL



NOT TO SCALE





NOTES:

1. MAINTENANCE - THE ENTRANCE SHALL BE MAINTAINED IN A CONDITION WHICH WILL PREVENT TRACKING OR FLOWING OF SEDIMENT ONTO PUBLIC RIGHTS-OF-WAY. ALL SEDIMENT SPILLED, DROPPED, WASHED OR TRACKED ONTO PUBLIC RIGHTS-OF-WAY MUST BE REMOVED IMMEDIATELY.
2. WASHING - WHEELS SHALL BE CLEANED TO REMOVE SEDIMENT PRIOR TO ENTRANCE ONTO PUBLIC RIGHTS-OF-WAY. WHEN WASHING IS REQUIRED, WASHING SHALL BE DONE ON AN AREA STABILIZED WITH AGGREGATE WHICH DRAINS INTO AN APPROVED SEDIMENT POND OR SWALE.
3. INSPECTION AND NEEDED MAINTENANCE SHALL BE PROVIDED AFTER EACH RAIN OR WEEKLY AT A MINIMUM.

CONSTRUCTION ENTRANCE DETAIL (RUMBLE TRACK OR EQUAL)

NOTES:

1. PIT IS SPECIFICALLY DESIGNATED, DIKED AND IMPERVIOUS CONTAINMENT TO PREVENT CONTACT BETWEEN CONCRETE WASH AND STORMWATER.
2. WASH WATER SHALL NOT BE ALLOWED TO FLOW TO SURFACE WATER.
3. FACILITY MUST HOLD SUFFICIENT VOLUME TO CONTAIN CONCRETE WASTE WITH A MINIMUM FREEBOARD OF 12."
4. FACILITY SHALL NOT BE FILLED BEYOND 95% CAPACITY UNLESS A NEW FACILITY IS CONSTRUCTED.
5. SAW CUT PORTLAND CEMENT CONCRETE, RESIDUE FROM SAWCUT & GRINDING TO BE DISPOSED OF IN THE PIT.
6. CONCRETE WASHOUTS SHALL BE LOCATED A MINIMUM OF 100' FROM DRAINAGE WAYS, INLETS, & SURFACE WATERS.
7. MANUFACTURED CONCRETE WASHOUT DEVICES MAY BE USED IF REMOVED FROM THE SITE WHEN 95% FULL CAPACITY.
8. WASHOUT AREA(S) SHALL BE INSTALLED IN A LOCATION EASILY ACCESSIBLE BY CONCRETE TRUCKS.
9. ONE OR MORE AREAS MAY BE INSTALLED ON THE CONSTRUCTION SITE AND MAY BE RELOCATED AS CONSTRUCTION PROGRESSES.
10. AT LEAST WEEKLY REMOVE ACCUMULATION OF SAND AND AGGREGATE AND DISPOSE OF PROPERLY.

CONCRETE WASHOUT AREA

NOT TO SCALE

SWPPP DETAILS AND NOTES

DOUG THOMAS WAY
CITY OF ORMOND BEACH
ORMOND BEACH, FLORIDA 32174

PROJECT No:	210509
DATE:	APRIL 23, 2023
DESIGN BY:	RWS
DRAWN BY:	KEH
CHECKED BY:	RWS
SCALE:	AS SHOWN

SHEET NUMBER:

C-1.1

PROJECT SITE INFORMATION:

PROJECT NAME: DOUG THOMAS WAY ROAD EXTENSION

DEVELOPER: CITY OF ORMOND BEACH
22 SOUTH BEACH STREET
ORMOND BEACH, FLORIDA 32174

PROJECT LOCATION: CITY OF ORMOND BEACH SPORTS COMPLEX

	DOUG THOMAS WAY	SERVICE ROAD
LATITUDE:	N 29°18'57"	N 29°18'33"
LONGITUDE:	W 81°07'24"	W 81°07'1"

AHJ: CITY OF ORMOND BEACH
WMD JURISDICTION: SJRWMD
FDEP NOI: -

	DOUG THOMAS WAY	SERVICE ROAD
PROJECT AREA:	3.95± ACRES	0.44± ACRES

DISTURBED AREA: 4.39± ACRES

FLUCCS CODE:
320 - SHRUB BRUSHLAND
411 - PINE FLATWOODS
434 - HARDWOOD-CONIFER MIXED
441 - CONIFEROUS PLANTATIONS
513 - DITCH
625 - HYDRIC PINE FLATWOODS

ULTIMATE RECEIVING WATER BODY: GROOVER BRANCH > TOMOKA RIVER
CLASS: 3F
OFW: YES
WBID #: 2634
TMDLs: YES

SOILS / GEOTECH DATA:
(PER USDA NRCS WEB SOIL SURVEY)

SOIL NUMBER	SOIL NAME	HSG
17	DAYTONA SAND	A
29	IMMOKALEE SAND	B/D
30	IMMOKALEE SAND, DEPRESSIONAL	B/D
32	MYAKKA-MYAKKA, WET	A/D
-	-	-
-	-	-

CONSTRUCTION INFORMATION:

A) DESCRIPTION OF ACTIVITIES

CONSTRUCTION ACTIVITIES INCLUDE: CLEARING AND GRUBBING, MASS EARTHWORK GRADING AND EXCAVATION / FILL, CULVERT, ENDWALL, ASPHALTIC PAVEMENT, RESODDING, FINAL STABILIZATION AND RESTORATION.

SOIL DISTURBING ACTIVITIES INCLUDE: INSTALLING STABILIZED CONSTRUCTION ENTRANCES, INSTALLATION OF EROSION AND SEDIMENT CONTROLS, STRIPPING EXISTING GROUND COVER AND MASS EARTHWORK GRADING.

B) SEQUENCE OF MAJOR ACTIVITIES AND CONTROL MEASURES:

1. THE CONTRACTOR SHALL SCHEDULE AND ATTEND THE PRECONSTRUCTION MEETING WITH APPROPRIATE JURISDICTIONAL AGENCIES AS SPECIFIED PRIOR TO START OF CONSTRUCTION.
2. THE CONTRACTOR SHALL PROVIDE EMERGENCY TELEPHONE NUMBERS TO THE CITY AND/OR COUNTY AND ENGINEER OF AT LEAST TWO INDIVIDUALS THAT ARE CAPABLE OF CORRECTING ANY DRAINAGE PROBLEMS THAT MAY OCCUR AFTER WORK HOURS.
3. THE CONTRACTOR SHALL PROVIDE THE ENGINEER, COUNTY AND CITY A MOT PLAN AT PRECONSTRUCTION MEETING. TRAFFIC SHALL BE ALLOWED TO CONTINUE DURING WORK. PROVIDE MEASURES TO DETOUR TRAFFIC AROUND CONSTRUCTION ACTIVITIES WITH ADEQUATE BARRICADES, SIGNAGE AND FLAGPERSON TO DIRECT TRAFFIC. EMERGENCY SERVICES SHALL BE NOTIFIED 48 HOUR IN ADVANCE.
4. THE CONTRACTOR SHALL BE RESPONSIBLE FOR CONTACTING THE APPROPRIATE UTILITY DEPARTMENT, FLORIDA SUNSHINE AND EMERGENCY SERVICES FOR RESPECTIVE UTILITY LOCATIONS AND "NOTICE" OF CONSTRUCTION ACTIVITY.
5. ALL EROSION CONTROL DEVICES AND VISIBLE BARRICADES SHALL BE INSTALLED AND APPROVED BY THE ENGINEER PRIOR TO THE START OF CLEARING AND GRUBBING.
6. ALL EROSION CONTROL DEVICES SHALL BE PLACED PRIOR TO THE START OF WORK AND REMAIN IN PLACE UNTIL ALL WORK IS COMPLETE. IF INSTALLATION OF STORM DRAINAGE SYSTEM SHOULD BE INTERRUPTED BY WEATHER OR NIGHTFALL, THE PIPE ENDS SHALL BE COVERED WITH FILTER FABRIC.
7. A 24' WIDE 6" MINIMUM COMPACTED STONE DRIVE LANE TO THE CONSTRUCTION ENTRANCE THAT SHALL BE PLACED PRIOR TO THE CLEARING AND GRUBBING. THE APPROXIMATE LOCATION IS INDICATED ON THE DRAWING. THE ELEVATION SHALL BE APPROXIMATELY PER THE GRADING PLAN. PROVIDE ACCESS ACROSS DRIVE LANE FOR EMERGENCY VEHICLES, COORDINATE WITH FIRE CHIEF.
8. THE SITE SHALL BE CLEARED AND GRUBBED OF ALL VEGETATION AND DEBRIS WITHIN THE APPROXIMATE LIMITS OF CLEARING AS INDICATED ON THE DRAWING.
9. SOILS ARE TO BE STABILIZED BY WATER OR OTHER MEANS DURING CONSTRUCTION. THIS IS INTENDED TO REDUCE SOIL EROSION, BLOWING SAND AND THE IMPACT TO NEIGHBORING PROPERTIES.
10. AREAS WHERE CONSTRUCTION ACTIVITY TEMPORARILY CEASES FOR MORE THAN 21 DAYS WILL BE STABILIZED WITH A TEMPORARY GRASS AND MULCH WITHIN 5 DAYS OF THE LAST DISTURBANCE.
11. ALL REMOVED MATERIAL SHALL BE HAULED OFF-SITE TO AN APPROVED LANDFILL. TREES MAY BE LOGGED OR MULCHED FOR OFF-SITE DISPOSAL AT THE CONTRACTOR'S DISCRETION.
12. ALL OFF-SITE AREAS DISTURBED DURING CONSTRUCTION ACTIVITY SHALL BE IMMEDIATELY RESTORED TO PRIOR CONDITION UPON COMPLETION OF WORK.
13. THE SITE CONTRACTOR SHALL ONLY BE PERMITTED TO REMOVE ALL EROSION PROTECTION DEVICES WITHIN EACH CONTRIBUTING AREA FOLLOWING REMOVAL OF SEDIMENT AND DEBRIS AND PERMANENT STABILIZATION OF ALL DISTURBED AREAS.

SEDIMENT, EROSION AND POLLUTANT CONTROL MEASURES:

1. BEST MANAGEMENT PRACTICES IN ACCORDANCE WITH PART 5 OF FDEP DOCUMENT NO. 62-621.300(4)(a) SHALL BE USED FOR THIS PROJECT TO CONTROL EROSION AND TURBIDITY CAUSED BY STORMWATER RUNOFF. THE LOCATION AND DETAILS OF EROSION CONTROL METHODS ARE SHOWN ON PLANS. THE CONTRACTOR IS RESPONSIBLE FOR PLACING AND MAINTAINING THESE CONTROL METHODS AS SHOWN ON THE PLANS OR AS REQUIRED. CONTRACTOR SHALL ALSO PROVIDE THE REQUIRED EROSION PROTECTION AS REQUIRED BY LOCAL, STATE AND FEDERAL LAWS.
2. STORMWATER MANAGEMENT STORMWATER COLLECTION SHALL BE PROVIDED BY CATCH BASINS. THE SITE WILL DISCHARGE TO THE EXISTING MASTER STORMWATER POND FOR TREATMENT.
3. STABILIZATION PRACTICES

   WIND EROSION STABILIZATION: THE CONTRACTOR SHALL DENUDE ONLY ARES WHERE IT IS EXPECTED TO BE GRADED OR ALTERED WITHIN A 2 WEEK TIME-FRAME. FINAL GRADES SHALL BE PERFORMED AND TEMPORARY OR PERMANENT SOIL STABILIZATION SHALL BE APPLIED. AREAS WHERE CONSTRUCTION OPERATIONS WILL BE CONTINUOUS, FUGITIVE DUST SHALL BE MANAGED BY APPLYING A WATER SPRAY TO SATURATE THE SURFACE SOILS ON A DAILY BASIS, OR AS NEEDED TO MAINTAIN MINIMAL DUST TRANSPORT. FUGITIVE DUST SHALL MONITORED CONTINUOUSLY AND ADDITIONAL MEASURES MAY NEED TO BE TAKEN TO CONTROL OFF-SITE TRANSPORT OF UNACCEPTABLE LEVELS OF DUST.

   TEMPORARY STABILIZATION: TOP OF SOIL STOCK PILES AND DISTURBED PORTIONS OF THE SITE WHERE CONSTRUCTION ACTIVITY TEMPORARILY CEASES FOR 21 DAYS WILL BE STABILIZED WITH TEMPORARY GRASS AND MULCH NO LATER THAN 5 DAYS FROM THE LAST CONSTRUCTION ACTIVITY. GRASS SEED SHALL BE MIXTURE OF 20 PARTS OF BERMUDA SEED AND 80 PARTS OF PENSACOLA BAHIA. THE SEPARATE TYPES OF SEED USED SHALL BE THOROUGHLY DRY MIXED IMMEDIATELY BEFORE SOWING. SEED WHICH HAS BECOME WET SHALL NOT BE USED, THE MULCH MATERIAL USED SHALL NORMALLY BE DRY MULCH. DRY MULCH SHALL BE STRAW OR HAY, CONSISTING OF OAT, RYE OR WHEAT STRAW, OR OF PANGOLA, PEANUT, COASTAL BERMUDA OR BAHIA GRASS HAY. ONLY UNDETERIORATED MULCH WHICH CAN BE READILY CUT INTO THE SOIL SHALL BE USED. AREAS OF THE SITE WHICH ARE TO BE PAVED WILL BE TEMPORARILY STABILIZED BY APPLYING STABILIZATION AND BASE.

   PERMANENT STABILIZATION: DISTURBED PORTIONS OF THE SITE WHERE CONSTRUCTION ACTIVITIES PERMANENTLY CEASES SHALL BE STABILIZED WITH SOD NO LATER THAN 5 DAYS AFTER THE LAST CONSTRUCTION ACTIVITY.
4. STRUCTURAL PRACTICES

   STAKED SILT FENCES: THE STAKED SILT FENCES WILL BE CONSTRUCTED ALONG THE PERIMETER AS SPECIFIED IN THE DRAWINGS. STAKED FENCE SHALL BE CLEARED OF SEDIMENT WHEN IF REACHES ONE-THIRD HEIGHT OF THE FENCE.

   EARTH DIKE: IF REQUIRED, AN EARTH DIKE SHALL BE CONSTRUCTED ALONG THE SITE PERIMETER. A PORTION OF THE DIKE SHALL DIVERT RUN-ON AROUND THE CONSTRUCTION SITE. THE REMAINING PORTION OF THE DIKE SHALL COLLECT RUNOFF FROM THE DISTURBED AREA AND DIRECT THE RUNOFF TO THE SEDIMENT BASIN.

   SEDIMENT BASIN: A EXISTING STORMWATER POND TO BE USED. BEST MANAGEMENT PRACTICES SUCH AS REMOVAL OF SEDIMENT FROM INLET PROTECTION DEVICES, PROPER WASTE DISPOSAL AND SWEEPING TO REDUCE AMOUNT OF SEDIMENT DISCHARGED INTO POND SHALL BE CONTINUOUSLY IMPLEMENTED.
5. WASTE DISPOSAL

   WASTE MATERIALS: ALL WASTE MATERIALS SHALL BE COLLECTED AND STORED IN A METAL DUMPSTER WITH SECURE LID IN ACCORDANCE WITH ALL LOCAL AND STATE LAWS. ALL TRASH AND CONSTRUCTION DEBRIS FROM THE SITE SHALL BE DEPOSITED IN THE DUMPSTER. THE SUPERINTENDENT SHALL COORDINATE WITH LOCAL UTILITIES TO HAVE THE DUMPSTER EMPTIED AT LEAST TWICE A WEEK AND WASTE TAKEN TO AN APPROPRIATE LANDFILL. NO CONSTRUCTION WASTE MATERIALS SHALL BE BURIED ON SITE. THE SUPERINTENDENT SHALL ORGANIZE TRAINING FOR EMPLOYEES IN THE PROPER PRACTICES WHEN DEALING WITH WASTE MATERIALS. THE SUPERINTENDENT SHALL BE RESPONSIBLE FOR POSTING AND ENFORCING WASTE MATERIAL PROCEDURES.

   HAZARDOUS WASTE: HAZARDOUS WASTE MATERIALS SHALL BE DISPOSED OF IN ACCORDANCE WITH LOCAL AND STATE LAWS OR AS DIRECTED BY THE MANUFACTURER. THE SUPERINTENDENT SHALL ORGANIZE THE PROPER TRAINING FOR EMPLOYEES IN THE PROPER PRACTICES WHEN DEALING WITH HAZARDOUS WASTE MATERIALS. THESE PROCEDURES SHALL BE RESPONSIBLE FOR ENFORCING THE PROCEDURES.

   SANITARY WASTE: SANITARY WASTE SHALL BE COLLECTED AND DISPOSED OF IN ACCORDANCE WITH ALL LOCAL AND STATE LAWS. THE SUPERINTENDENT SHALL COORDINATE WITH LOCAL UTILITY FOR COLLECTION OF SANITARY WASTE AT LEAST THREE TIMES A WEEK TO PREVENT SPILLAGE ONTO THE SITE.
6. DUST CONTROL

   TO PREVENT OFF-SITE VEHICULAR TRACKING OF SEDIMENTS AND DUST GENERATION, A STABILIZED CONSTRUCTION ENTRANCE SHALL BE ESTABLISHED BY THE SITE CONTRACTOR. SEE DRAWINGS FOR DETAILS AND LOCATION(S).
7. NON-STORMWATER DISCHARGES

   IT IS EXPECTED THAT THE FOLLOWING NON-STORMWATER DISCHARGES WILL OCCUR FROM THE SITE DURING THE CONSTRUCTION PERIOD:

   WATER FROM FIRE FIGHTING ACTIVITIES, FIRE HYDRANT FLUSHING, WATER LINE FLUSHING, WATER USED TO SPRAY OFF LOOSE SOILS FROM VEHICLES, DUST CONTROL, PAVEMENT WASH WATERS (WHERE NO SPILLS OR LEAKS OF TOXIC OR HAZARDOUS MATERIALS HAVE OCCURRED). ALL NON-STORMWATER DISCHARGES WILL BE DIRECTED TO THE EXISTING STORMWATER POND.

   DISCHARGE OF UNCONTAMINATED GROUNDWATER FROM CONSTRUCTION-RELATED DEWATERING OPERATIONS IS PERMITTED IN ACCORDANCE WITH PART 3.4 OF THE FDEP DOCUMENT NO. 62-621.300(4)(a)

ITEMS REQUIRING POLLUTION PREVENTION
THE MATERIALS OR SUBSTANCES LISTED BELOW ARE EXPECTED, BUT NOT LIMITED, TO BE PRESENT ON-SITE DURING CONSTRUCTION:

CONCRETE	WOOD	ROOFING SHINGLES	ASPHALT
GLASS	SAND / DIRT	METAL STUDS	LIMEROCK
STONE	CLEANING SOLVENTS	MASONRY BLOCK	PRECAST STRUCTURES
PAINT	PETROLEUM / FUELS	FERTILIZERS	PIPES

STORMWATER POLLUTION PREVENTION PLAN CERTIFICATION

I CERTIFY UNDER PENALTY OF LAW THAT THESE CONSTRUCTION PLANS, THIS DOCUMENT AND ALL ATTACHMENTS WERE PREPARED UNDER MY DIRECTION OR SUPERVISION IN ACCORDANCE WITH A SYSTEM, AS SHOWN ON THESE CONSTRUCTION PLANS, DESIGNED TO ASSURE THAT APPROPRIATE POLLUTION PREVENTION MEASURES ARE IMPLEMENTED DURING CONSTRUCTION AND TO ASSURE THAT THE QUALIFIED PERSONNEL PROPERLY GATHERED AND EVALUATED THE INFORMATION SUBMITTED BASED ON MY INQUIRY OF THE PERSON OR PERSONS WHO MANAGE THE SYSTEM, OR THE PERSONS DIRECTLY RESPONSIBLE FOR GATHERING THE INFORMATION. THE INFORMATION SUBMITTED IS, TO THE BEST OF MY KNOWLEDGE AND BELIEF TRUE, ACCURATE AND COMPLETE. I AM AWARE THAT THERE ARE SIGNIFICANT PENALTIES FOR SUBMITTING FALSE INFORMATION, INCLUDING THE POSSIBILITY OF FINE AND IMPRISONMENT FOR KNOWING VIOLATIONS.

MAINTENANCE AND INSPECTION PROCEDURES:

1. INSPECTOR QUALIFICATIONS
   INSPECTIONS MUST BE CONDUCTED BY A "QUALIFIED" INSPECTOR. "QUALIFIED" IS DEFINED AS A PERSON THAT A). HAS SUCCESSFULLY COMPLETED AND MET ALL REQUIREMENTS NECESSARY TO BE FULLY CERTIFIED THROUGH THE FDEP STORMWATER, EROSION AND SEDIMENTATION CONTROL INSPECTOR TRAINING PROGRAM; B). HAS SUCCESSFULLY COMPLETED AN EQUIVALENT FORMAL TRAINING PROGRAM; OR C). THAT IS QUALIFIED BY OTHER TRAINING OR PRACTICAL EXPERIENCE IN THE FIELD OF STORMWATER POLLUTION PREVENTION AND EROSION AND SEDIMENTATION CONTROL.
2. DISTURBED AREAS
   ALL DISTURBED AREAS AND AREAS USED FOR MATERIAL STORAGE SHALL BE INSPECTED FOR POLLUTANTS ENTERING THE STORMWATER SYSTEM. THE STORMWATER MANAGEMENT SYSTEM AND EROSION AND SEDIMENT CONTROL MEASURES IDENTIFIED IN THE PLAN SHALL BE INSPECTED REGULARLY TO ENSURE THEY ARE OPERATING CORRECTLY. LOCATIONS WHERE VEHICLES ENTER AND EXIT THE SITE SHALL BE INSPECTED FOR EVIDENCE OF OFF-SITE SEDIMENT TRACKING.
3. MONITORING INSPECTIONS
   ARE REQUIRED TO BE PERFORMED BY A QUALIFIED INSPECTOR AT LEAST EVERY SEVEN (7) CALENDAR DAYS AND WITHIN 24 HOURS FOLLOWING A RAINFALL EVENT OF ONE-HALF (1/2) OF AN INCH OF RAINFALL OR GREATER AND SHALL CONTINUE UNTIL THE SITE COMPLIES WITH FINAL STABILIZATION (NOTICE OF TERMINATION).
4. REPORTING
   EACH INSPECTION MUST BE FOLLOWED UP BY A REPORT DOCUMENTING THE INSPECTOR'S FINDINGS AND REQUEST THE REQUIRED MAINTENANCE AND/OR REPAIR FOR THE EROSION AND SEDIMENTATION CONTROL MEASURES. THESE RECORDS ARE USED TO PROVE THAT THE REQUIRED INSPECTION AND MAINTENANCE WERE PERFORMED AND SHALL BE PLACED IN THE SWPPP LEDGER.
5. RECORD KEEPING
   IN ADDITION TO INSPECTION AND MAINTENANCE REPORTS, RECORDS SHOULD BE KEPT OF CONSTRUCTION ACTIVITIES THAT OCCUR ON THE SITE. THE CONTRACTOR SHALL RETAIN COPIES OF THE SWPPP, ALL REPORTS AND DATA FOR A MINIMUM OF FIVE (5) YEARS AFTER THE PROJECT IS COMPLETE IN PAPER AND CD FORMAT.

SPILL PREVENTION PRACTICES AND CONTROL MEASURES:

1. GOOD HOUSEKEEPING
   - SUPERINTENDENT SHALL INSPECT PROJECT AREA DAILY FOR FOR PROPER STORAGE, USE, AND DISPOSAL OF CONSTRUCTION MATERIALS.
   - STORE ONLY ENOUGH MATERIAL ON SITE FOR PROJECT COMPLETION.
   - ALL SUBSTANCES SHOULD BE USED BEFORE DISPOSAL OF CONTAINER.
   - ALL CONSTRUCTION MATERIALS STORED SHALL BE ORGANIZED AND IN THE PROPER CONTAINER AND IF POSSIBLE, STORED UNDER A ROOF OR PROTECTIVE COVER.
   - PRODUCTS SHALL NOT BE MIXED UNLESS DIRECTED BY THE MANUFACTURER.
   - ALL PRODUCTS SHALL BE USED AND DISPOSED OF ACCORDING TO THE MANUFACTURER'S RECOMMENDATIONS.
2. HAZARDOUS PRODUCTS
   - MATERIALS SHOULD BE KEPT IN ORIGINAL CONTAINER WITH LABELS UNLESS THE ORIGINAL CONTAINERS CANNOT BE RESEALED. IF ORIGINAL CONTAINERS CANNOT BE USED, LABELS AND PRODUCT INFORMATION SHALL BE SAVED.
   - PROPER DISPOSAL PRACTICES SHALL ALWAYS BE FOLLOWED IN ACCORDANCE WITH MANUFACTURER AND LOCAL/STATE REGULATIONS.
3. PRODUCT SPECIFIC PRACTICES
   - PETROLEUM PRODUCTS MUST BE STORED IN PROPER CONTAINERS AND CLEARLY LABELED. VEHICLES CONTAINING PETROLEUM PRODUCTS SHALL BE PERIODICALLY INSPECTED FOR LEAKS. PRECAUTIONS SHALL BE TAKEN TO AVOID LEAKAGE OF PETROLEUM PRODUCTS ON SITE.
   - THE MINIMUM AMOUNT OF FERTILIZER SHALL BE USED AND MIXED INTO SOIL IN ORDER TO LIMIT EXPOSURE TO STORMWATER. FERTILIZERS SHALL BE STORED IN COVERED AREA. THE CONTENTS OF ANY PARTIALLY USED BAGS OF FERTILIZER SHALL BE TRANSFERRED TO SEALABLE PLASTIC BIN TO AVOID SPILLS.
   - PAINT CONTAINERS SHALL BE SEALED AND STORED WHEN NOT IN USE. EXCESS PAINT MUST BE DISPOSED OF IN APPROVED MANNER.
   - CONCRETE TRUCKS SHALL NOT BE ALLOWED TO WASH OUT OR DISCHARGE SURPLUS CONCRETE OR DRUM WASH WATER ON THE SITE.
4. SPILL CONTROL AND CLEANUP RESPONSIBILITIES
   - SPILL CLEANUP INFORMATION SHALL BE POSTED ON SITE TO INFORM EMPLOYEES ABOUT CLEANUP PROCEDURES AND RESOURCES.
   - THE FOLLOWING CLEAN-UP EQUIPMENT MUST BE KEPT ON-SITE NEAR THE MATERIAL STORAGE AREA: GLOVES, MOPS, RAGS, BROOMS, DUST PANS, SAND, SAWDUST, LIQUID ABSORBER, GOGGLES, AND TRASH CONTAINERS.
   - ALL SPILLS SHALL BE CLEANED UP AS SOON AS POSSIBLE.
   - WHEN CLEANING A SPILL, THE AREA SHOULD BE WELL VENTILATED AND THE EMPLOYEE SHALL WEAR PROPER PROTECTIVE COVERING TO PREVENT INJURY.
   - TOXIC SPILLS MUST BE REPORTED TO THE PROPER AUTHORITY REGARDLESS OF THE SIZE OF THE SPILL.
   - AFTER A SPILL, THE PREVENTION PLAN SHALL BE REVIEWED AND CHANGED TO PREVENT FURTHER SIMILAR SPILLS FROM OCCURRING. THE CAUSE OF THE SPILL, MEASURES TO PREVENT IT, AND HOW TO CLEAN THE SPILL UP SHALL BE RECORDED.
   - THE SUPERINTENDENT SHALL BE THE SPILL PREVENTION AND CLEANUP COORDINATOR AND IS RESPONSIBLE FOR THE DAY TO DAY SITE OPERATIONS THE SUPERINTENDENT ALSO OVERSEES THE SPILL PREVENTION PLAN AND SHALL BE RESPONSIBLE FOR EDUCATING THE EMPLOYEES ABOUT SPILL PREVENTION AND CLEANUP PROCEDURES.

NOTICE OF INTENT (NOI) / NOTICE OF TERMINATION (NOT)

1. NOI: THE NOTICE OF INTENT (NOI), DEP FORM 62-621.300(4)(b), IS TO BE COMPLETED AND SUBMITTED TO THE FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION (FDEP) BEFORE USE OF THE GENERIC PERMIT FOR STORMWATER DISCHARGE FROM LARGE AND SMALL CONSTRUCTION ACTIVITIES PROVIDED IN SUBSECTION 62-621.300(4), F.A.C.
2. NOT: WHERE A SITE HAS BEEN FINALLY STABILIZED AND ALL STORMWATER DISCHARGES AUTHORIZED BY THIS PERMIT ARE ELIMINATED, THE PERMITTEE SHALL SUBMIT A NOTICE OF TERMINATION, DEP FORM 62-621.300(6), SIGNED IN ACCORDANCE WITH PART 7.C OF FDEP DOCUMENT NO. 62-621.300(4)(a), WITHIN 14 DAYS OF FINAL STABILIZATION OF THE SITE TO TERMINATE COVERAGE UNDER THIS PERMIT.

CONTRACTOR'S CERTIFICATION

I CERTIFY UNDER PENALTY OF LAW THAT I UNDERSTAND THE TERMS AND CONDITIONS OF THE GENERIC STORMWATER PERMIT ISSUED PURSUIT TO SECTION 403.0885, F.S., THAT AUTHORIZES THE STORMWATER DISCHARGES ASSOCIATED WITH INDUSTRIAL ACTIVITY FROM THE CONSTRUCTION SITE IDENTIFIED AS PART OF THIS CERTIFICATION.

CONTRACTOR REQUIREMENTS FOR SITE CLEARING, GRADING, AND EROSION CONTROL DESIGN AND CONSTRUCTION NOTES

THE FOLLOWING MEASURES REPRESENT MINIMUM STANDARDS TO BE ADHERED TO BY THE CONTRACTOR THROUGHOUT THE CONSTRUCTION OF A PROJECT. THE CITY RESERVES THE RIGHT TO REQUIRE ADDITIONAL MEASURES TO BE EMPLOYED WHEN WARRANTED BY EXTREME CONDITIONS AND/OR THE FAILURE OF THE CONTRACTOR TO EMPLOY THE APPROPRIATE EROSION CONTROL BEST MANAGEMENT PRACTICES. FAILURE TO COMPLY WITH THESE PROVISIONS SHALL RESULT IN THE ISSUANCE OF A "STOP WORK ORDER".

1. NO DISTURBANCE OF PROPOSED CONSERVATION EASEMENTS, NATURAL BUFFERS, OR WATER BODIES IS PERMITTED. THE CONTRACTOR SHALL LOCATE THESE AREAS ON SITE AND BARRICADE THEM TO AVOID ANY UNAUTHORIZED CLEARING. BARRICADES AND OTHER PROTECTIVE FENCING ARE TO BE LOCATED AT THE DRIP LINE OF EXISTING NATIVE TREES OR AT THE EDGE OF THE NATIVE UNDER- STORY HABITAT, WHICHEVER IS NEAREST TO THE CONSTRUCTION ACTIVITY.
2. SPECIMEN AND HISTORIC TREES, CONSERVATION EASEMENTS, NATURAL VEGETATION BUFFERS, AND SIMILAR AREAS MUST BE PROTECTED BY BARRICADES OR FENCING PRIOR TO CLEARING. BARRICADES ARE TO BE SET AT THE DRIP LINE OF THE TREES AND MAINTAINED THROUGHOUT THE DURATION OF THE PROJECT. BARBED WIRE IS NOT PERMITTED AS A PROTECTIVE BARRIER.
3. WHERE A CHANGE OF GRADE OCCURS AT THE DRIP LINE OF A SPECIMEN TREE, SILT FENCES WILL BE REQUIRED DURING CONSTRUCTION AND RETAINING WALLS MUST BE INSTALLED PRIOR TO FINAL ACCEPTANCE BY THE CITY.
4. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO HAVE ALL PROTECTIVE VEGETATION BARRICADES AND EROSION CONTROL STRUCTURES AND MEASURES IN PLACE PRIOR TO THE COMMENCEMENT OF ANY EARTHWORK, INCLUDING PRELIMINARY GRUBBING. THESE MEASURES INCLUDE, BUT ARE NOT LIMITED TO, TEMPORARY CONSTRUCTION FENCES, SYNTHETIC JUTE BALES, WATTLES, &/OR HAVE BEST MANAGEMENT PRACTICES (BMP'S) AS REQUIRED. SILT FENCES, AND FLOATING TURBIDITY BARRIERS. FURTHER, IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO MAINTAIN ALL EROSION CONTROL DEVICES THROUGHOUT THE DURATION OF THE ENTIRE PROJECT. MAINTENANCE SHALL INCLUDE PERIODIC INSPECTION AND REMOVAL OF DEBRIS ABUTTING EROSION CONTROL DEVICES.
5. PRIOR TO THE INSTALLATION OF ANY FILL MATERIALS ON SUBJECT SITE, SILT FENCES SHALL BE INSTALLED (1) ALONG SUBJECT SITE BOUNDARY AND PROPERTY LINES, (2) AT THE EDGE OF CONSERVATION EASEMENTS AND WETLANDS, (3) ADJACENT TO NATURAL LANDSCAPE BUFFERS, (4) AROUND THE PERIMETER OF EXISTING STORM WATER TREATMENT FACILITIES, AND (5) AT ANY ADDITIONAL AREAS THAT THE CITY DEEMS NECESSARY TO BE PROTECTED FROM POTENTIAL EROSION IMPACTS DURING CONSTRUCTION. THESE CONDITIONS SHALL APPLY IN ALL INSTANCES WHERE FILL MATERIAL IS BEING INSTALLED WITHIN 25 FEET OF ANY OF THE AFOREMENTIONED LOCATIONS. WHILE THESE ITEMS REPRESENT THE MINIMUM REQUIREMENTS, THE CITY RESERVES THE RIGHT TO IMPOSE ADDITIONAL PROTECTIVE MEASURES, AS DETERMINED DURING ACTUAL SITE VISITS CONDUCTED AS PART OF THE STANDARD REVIEW OF THE SITE THROUGHOUT PROJECT CONSTRUCTION.
6. AT A MINIMUM, THE CONTRACTOR SHALL SEED AND MULCH ALL DISTURBED AREAS. SUFFICIENT GRASS COVERAGE IS TO BE ESTABLISHED WITHIN TWO WEEKS.
7. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR THROUGH SCHEDULING, TO MINIMIZE THE DISTURBANCE OF SITE AREAS THAT HAVE BEEN BROUGHT TO THEIR PROPOSED FINAL GRADE. WITHIN SEVEN (7) DAYS OF BRINGING A SUBJECT AREA TO ITS FINAL GRADE OR INACTIVITY IN CONSTRUCTION, THE CONTRACTOR SHALL INSTALL SOD AND/OR SOD, AS REQUIRED. ANY PROJECT THAT IS INACTIVE FOR A PERIOD OF 30 DAYS OR MORE THE AREA SHALL BE STABILIZED TO THE SATISFACTION OF THE CITY OF ORMOND BEACH
8. ONCE AN AREA IS SEEDED OR SODDED, IT MUST BE MAINTAINED BY THE CONTRACTOR TO ALLOW THE GRASS TO BECOME ESTABLISHED. IF THE GRASS IS NOT ESTABLISHED WITHIN TWO WEEKS THE CITY MAY REQUIRE THE CONTRACTOR TO RE-SEED OR A NON-VEGETATIVE OPTION MAY BE EMPLOYED.

A. 9. ABSOLUTELY NO BURYING OF CLEARED MATERIALS IS PERMITTED.

STANDARD CONSTRUCTION DETAIL
CONTRACTOR REQUIREMENTS FOR SITE CLEARING, GRADING, AND EROSION CONTROL DESIGN AND CONSTRUCTION NOTES
NTS

INDEX M-16A
MAY 2020

CONTRACTOR REQUIREMENTS FOR SITE CLEARING, GRADING, AND EROSION CONTROL DESIGN AND CONSTRUCTION NOTES

10. THE REMOVAL OF ALL VEGETATION AND TOPSOIL ON THE FUTURE ROADWAY, PARKING AND BUILDING LOT AREAS IS REQUIRED TO BE COMPLETED PRIOR TO THE PLACEMENT OF FILL ON THOSE AREAS. THE TOPSOIL MAY BE TEMPORARILY STOCKPILED AND USED AS TOPSOIL OVER OVER PROPOSED GREEN AREAS SUCH AS PLANT BEDS, SODDED AREAS, AND WHERE TREES ARE TO BE INSTALLED OR RELOCATED.
11. A SIGNED, DATED, AND SEALED LETTER FROM A SOILS ENGINEER OR THE ENGINEER OF RECORD CERTIFYING THAT THE AREAS TO BE FILLED HAVE BEEN STRIPPED OF ORGANIC MATERIALS, MUST BE SUBMITTED TO THE CITY PRIOR TO FILLING.
10. FILL MATERIAL IS TO BE PLACED IN ONE FOOT LIFTS AND COMPACTED TO THE APPROPRIATE DENSITY (98% FOR PAVED AREAS AND 95% FOR BUILDING PADS AND ALL OTHER AREAS AS PER AASHTO T-180).
11. DURING SUBDIVISION DEVELOPMENT WHEN FUTURE BUILDING LOTS ARE FILLED AS PART OF THE OVERALL SUBDIVISION IMPROVEMENTS, COMPACTION TEST REPORTS MUST BE PERFORMED ON THE BUILDING LOTS AT 300 FOOT INTERVALS. THESE TESTS ARE TO BE PERFORMED IN ONE-FOOT VERTICAL INCREMENTS. THE RESULTS OF THESE TESTS ARE TO BE SUBMITTED TO THE CITY UPON COMPLETION OF THE TESTS.
12. IF ANY MUCK MATERIAL IS DISCOVERED, IT SHALL BE REQUIRED TO BE REMOVED AND REPLACED WITH A SUITABLE MATERIAL THAT IS PROPERLY BACKFILLED, COMPACTED AND TESTED USING AASHTO T-180 MODIFIED PROCTOR METHOD.
13. STOCKPILING IS NOT GENERALLY PERMITTED BY THE CITY. WHEN ALLOWED, STOCKPILES SHALL NOT EXCEED SIX FEET IN HEIGHT MEASURED FROM THE ORIGINAL GRADE AT A MINIMUM. STOCK PILES THAT WILL REMAIN IN PLACE IN EXCESS OF TWENTY DAYS SHOULD BE SEEDED AND MULCHED IMMEDIATELY UPON PLACEMENT OF THE FINAL LIFT. STOCKPILE AREA IS TO BE SURROUNDED BY SILT FENCE FROM THE INITIAL LIFT.
14. SOILS ARE TO BE STABILIZED BY WATER OR OTHER MEANS DURING CONSTRUCTION. THIS IS INTENDED TO REDUCE SOIL EROSION AND THE IMPACT TO NEIGHBORING COMMUNITIES. ADEQUATE WATERING METHODS SHOULD BE EMPLOYED TO ALLOW DAILY COVERAGE OF THE ENTIRE LIMITS OF ALL AREAS THAT DO NOT HAVE AN ESTABLISHED VEGETATIVE COVER. METHODS TO BE EMPLOYED INCLUDE, BUT ARE NOT LIMITED TO, WATER TRUCKS, PERMANENT IRRIGATION SYSTEMS, TEMPORARY SPRINKLER SYSTEMS OPERATED BY PUMPING UNITS CONNECTED TO WET RETENTION PONDS, WATER CANNONS, TEMPORARY IRRIGATION SYSTEMS MOUNTED ATOP STOCKPILE AREAS, AND OTHER METHODS AS DEEMED NECESSARY BY THE CITY.
15. ALL FILL MATERIALS LOCATED BENEATH STRUCTURES AND PAVEMENT SHALL CONSIST OF CLEAN GRANULAR SAND FREE FROM ORGANICS AND SIMILAR MATERIAL THAT COULD DECOMPOSE.
16. ALL FILL TO BE PLACED IN LANDSCAPED AREAS SHALL HAVE A Ph RANGE BETWEEN 5.5 AND 7.5, BE ORGANIC IN NATURE, FREE OF ROCKS AND DEBRIS, OR MATCH NATIVE EXISTING SOILS.
17. OWNER SHALL FILE A "NOTICE OF INTENT TO USE GENERIC PERMIT FOR STORM WATER DISCHARGE FROM LARGE AND SMALL CONSTRUCTION ACTIVITIES" WITH THE FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION AS REQUIRED BY DEP. CONTRACTOR SHALL BE REQUIRED TO COMPLY WITH ALL PROVISIONS OF THE GENERIC PERMIT INCLUDING BUT NOT LIMITED TO:
   A. PROVIDE SUCH EROSION AND SEDIMENT CONTROL MEASURES AS MAY BE NECESSARY TO PREVENT DISCHARGE OF POLLUTANTS FROM THE SITE FROM THE START OF CONSTRUCTION UNTIL THE FINAL GROUND COVER HAS BEEN ESTABLISHED.
   B. EMPLOY A DEP CERTIFIED INSPECTOR TO MAKE WEEKLY INSPECTIONS / REPORTS OF THE CONDITION OF EROSION AND SEDIMENT CONTROL MEASURES.
   C. EMPLOY A DEP CERTIFIED INSPECTOR TO MAKE INSPECTIONS / REPORTS OF THE CONDITION OF EROSION AND SEDIMENT CONTROL MEASURES WITHIN 24 HOURS OF EVERY RAINFALL EVENT EXCEEDING ONE-HALF INCH.
   D. MAINTAIN ALL EROSION AND SEDIMENT CONTROL MEASURES THROUGHOUT CONSTRUCTION.
   E. ADD EROSION AND SEDIMENT CONTROL MEASURES AS SITE CONDITIONS CHANGE.

INDEX M-16B
MAY 2020

IN ORDER TO ENSURE THAT NEW DEVELOPMENTS WITHIN THE CITY ARE CONSTRUCTED SUBSTANTIALLY IN ACCORDANCE WITH CITY REGULATIONS AND THE APPROVED DRAWINGS "AS-BUILT" DRAWINGS ARE REQUIRED:

THE FOLLOWING INFORMATION IS REQUIRED ON ALL PAVING AND DRAINAGE "AS-BUILT" DRAWINGS:

1. PAVEMENT AND CURB WIDTHS SHALL BE VERIFIED AND DIMENSIONED FOR EACH STREET AT EACH BLOCK. ALL RADII AT INTERSECTIONS SHALL BE VERIFIED AND DIMENSIONED. THIS INFORMATION TO CLEARLY INDICATE IT AS AS BEING "AS-BUILT" INFORMATION.
2. ROADWAY ELEVATIONS SHALL BE RECORDED AT ALL GRADE CHANGES OR OTHER INTERVALS AS NEEDED ALONG ALL STREETS. STREET CENTERLINE AND CURB INVERT ELEVATIONS SHALL BE RECORDED AS NOTED. THE "AS-BUILT" CENTERLINE PROFILE OF ALL STREETS SHALL ALSO BE SHOWN ON THE PLAN AND PROFILE SO IT MAY BE COMPARED TO THE EXISTING AND DESIGNED PROFILE GRADE LINES. ALL STREET CENTERLINES ON "AS-BUILTS" SHALL BE LABELED WITH STREET NAME AND RIGHT-OF-WAY WIDTH ON EVERY PAGE.
3. STORM DRAINAGE STRUCTURES SHALL BE LOCATED AND/OR DIMENSIONED FROM CENTERLINES OR LOT LINES AS APPROPRIATE.
4. STORM DRAINAGE PIPE INVERT AND STRUCTURE TOP AND BOTTOM ELEVATIONS SHALL BE RECORDED AND CLEARLY DENOTED AS "AS-BUILT" INFORMATION. DESIGN ELEVATIONS SHALL BE CROSSED OUT AND "AS-BUILT" INFORMATION WRITTEN NEXT TO IT.
5. STORM DRAINAGE PIPE MATERIAL, LENGTH, AND SIZE SHALL BE MEASURED AND/OR VERIFIED. THIS INFORMATION TO CLEARLY INDICATE IT AS BEING "AS-BUILT" INFORMATION.
6. ALL APPLICABLE TOPOGRAPHIC INFORMATION, PERTINENT TO THE ON SITE DRAINAGE SYSTEM SUCH AS DITCHES, LAKES, CANALS, ETC. THAT ARE DEEMED APPROPRIATE BY THE CITY SHALL BE NOTED. NORMALLY, RECORDING ELEVATIONS EVERY 100 FEET AT THE TOP OF BANK AND TOE OF SLOPE WILL BE REQUIRED. MEASUREMENTS SHALL BE TAKEN AND RECORDED IN ORDER TO ACCURATELY DOWN THESE FEATURES TO THE ROADWAY CENTERLINE AND TO PLAT LINES. WHENEVER POSSIBLE, CONTOUR LINES SHALL BE UTILIZED TO GRAPHICALLY DESCRIBE THESE TOPOGRAPHIC FEATURES.
7. RETENTION AREAS SHALL HAVE THEIR TOP-OF-BANK AND BOTTOM ELEVATIONS RECORDED. ACTUAL MEASUREMENTS SHALL BE TAKEN AND DIMENSIONS RECORDED OF THE SIZE OF ALL RETENTION AREAS. MEASUREMENTS SHALL BE DONE FROM TOP-OF-BANK TO TOP-OF-BANK WITH SIDE SLOPES INDICATED. SEPARATE CALCULATIONS SHALL BE SUBMITTED TO INDICATE REQUIRED AND PROVIDED RETENTION VOLUMES.
8. STORM DRAINAGE SWALE CENTERLINES SHALL BE LOCATED AND ELEVATIONS OF FLOW LINE SHALL BE RECORDED EVERY 100 FEET.
9. ANY SPECIAL FEATURES SUCH AS CONCRETE FLUMES, LAKE BANKS, WALLS, FENCING, ETC., WHICH WERE A PART OF THE APPROVED CONSTRUCTION DRAWINGS SHOULD ALSO BE LOCATED AND DIMENSIONED.
10. ACTUAL MATERIALS USED AND ELEVATIONS AND DIMENSIONS OF OVERFLOW WEIR STRUCTURES AND SKIMMERS SHALL BE NOTED ON THE "AS-BUILT".

THE FOLLOWING INFORMATION IS REQUIRED ON ALL WATER AND SEWER "AS-BUILT" DRAWINGS:

11. SANITARY SEWER MANHOLES SHALL BE VERIFIED AND DIMENSIONED FROM STREET CENTERLINES OR LOT LINES AS APPROPRIATE. ALL RIM AND INVERT ELEVATIONS SHALL BE VERIFIED AND RECORDED. THIS INFORMATION TO CLEARLY INDICATE IT AS BEING "AS-BUILT" INFORMATION.
12. SANITARY SEWER LINE LENGTHS, SIZES, MATERIAL, SLOPE, ETC., SHALL BE VERIFIED AND RECORDED. THIS INFORMATION TO CLEARLY INDICATE IT AS BEING "AS-BUILT" INFORMATION.

STANDARD CONSTRUCTION DETAIL
REQUIREMENTS FOR "AS-BUILT" DRAWINGS

INDEX M-1A
MAY 2020

13. SEWER LATERALS SHALL BE VERIFIED AND RECORDED AT THEIR CLEAN-OUT LOCATIONS. STATIONING AND OFFSET DISTANCES SHALL BE MEASURED FROM DOWNSTREAM MANHOLES TOWARDS UPSTREAM MANHOLES.
14. LIFT STATIONS AND FORCE MAINS SHALL BE VERIFIED AND DIMENSIONED FROM STREET CENTERLINES OR LOT LINES AS APPROPRIATE. FORCE MAIN DEPTH AND LOCATION INCLUDING VALVES WILL BE PROVIDED AND TIED TO PERMANENT ABOVE GRADE FEATURES EVERY 500 FEET. DIMENSIONAL AND ELEVATION INFORMATION INDICATED ON THE APPROVED PLAN SHALL BE VERIFIED AND RECORDED. THIS INFORMATION TO CLEARLY INDICATE IT AS BEING "AS-BUILT" INFORMATION. BURIED ELECTRICAL SERVICE LINE SHALL BE CLEARLY DIMENSIONED, LOCATED AND LABELLED.
15. CURB CUTS OR METAL TABS, USED TO MARK SEWER LATERALS, WATER SERVICES AND WATER VALVES, SHALL BE VERIFIED FOR PRESENCE AND ACCURACY OF LOCATION.
16. WATER MAIN LINES SHALL BE DIMENSIONED OFF THE BACK OF CURB OR EDGE OF PAVEMENT IF NO CURB IS PRESENT. WATER MAIN LINE MATERIAL, SIZE, LENGTH AND DEPTH PLACED SHALL ALSO BE NOTED. THIS INFORMATION TO CLEARLY INDICATE IT AS BEING "AS-BUILT" INFORMATION.
17. WATER VALVES, TEES, ALL SERVICES, BLOW – OFFS AND FIRE HYDRANTS SHALL BE LOCATED BY TYING THEM TO SANITARY SEWER MANHOLES. STATIONING AND OFFSET DISTANCES SHALL BE MEASURED FROM DOWNSTREAM MANHOLES TO UPSTREAM MANHOLES.

THE FOLLOWING INFORMATION IS GENERAL REQUIREMENTS OF ALL "AS-BUILT" DRAWINGS:

18. FOR PERPENDICULAR CROSSINGS OF STORM WATER, SANITARY SEWER, POTABLE WATER, OR RECLAIMED WATER, THE "AS-BUILT" PLANS SHALL CLEARLY INDICATE WHICH UTILITIES ARE LOCATED OVER OR UNDER OTHER UTILITIES, AS NECESSARY.
19. WHEN STORM WATER, POTABLE WATER, RECLAIMED WATER, OR SANITARY SEWER IMPROVEMENTS ARE LOCATED WITHIN AN EASEMENT, THE "AS-BUILT" SHALL ACCURATELY DEPICT THE LOCATION OF THE EASEMENT ITSELF AS WELL AS THE EXACT LOCATION OF THE IMPROVEMENTS WITHIN THE EASEMENT. THIS IS REQUIRED IN ORDER TO VERIFY THAT THE IMPROVEMENTS HAVE BEEN PROPERLY LOCATED AND TO ENSURE THAT FUTURE SUBSURFACE EXCAVATION TO PERFORM REMEDIAL REPAIR CAN BE ACCOMPLISHED WITHOUT DISTURBANCE BEYOND THE EASEMENT. SUCH DOCUMENTATION AND THE ASSOCIATED PROPOSED EASEMENT DOCUMENT WITH LEGAL DESCRIPTION SHALL BE SUBMITTED FOR CITY REVIEW AND APPROVAL PRIOR TO RECORDING OF SAID EASEMENT. UPON CITY APPROVAL, THE EASEMENT SHALL BE RECORDED VIA A SEPARATE LEGAL INSTRUMENT AND SHALL NOT BE INCLUDED AS PART OF HOMEOWNER COVENANTS AND RESTRICTIONS.
20. SUBMIT CERTIFIED PAPER PRELIMINARY "AS-BUILT" (24"x36") WITH REQUEST FOR FINAL INSPECTION. SUBMIT 3 SETS SHOWING WATER FACILITIES, 3 SETS WITH SEWER FACILITIES, AND 3 SETS WITH PAVING AND DRAINAGE FACILITIES. PRELIMINARY "AS-BUILT" MAY BE SUBMITTED IN DIGITAL FORMAT. FOLLOWING FINAL INSPECTION AND COMMENTS, THE CONTRACTOR SHALL REVISE AS-BUILTS TO ADDRESS CITY COMMENTS AND SUBMIT 3 SETS CERTIFIED FINAL "AS-BUILTS" ALONG WITH 1 SET CERTIFIED MYLARS AND 1 CD-ROM CONTAINING AUTO-CAD FILES AND PDF VERSIONS SHOWING ALL "AS-BUILT" SHEETS. ALL "AS-BUILT" DRAWINGS SHALL BE CERTIFIED BY A REGISTERED LAND SURVEYOR AND ENGINEER OF RECORD. ALL DIGITAL FILES SHALL HAVE A DIGITAL SIGNATURE OF SURVEYOR AND/OR ENGINEER OF RECORD.
21. INDICATE VERTICAL DATUM REFERENCE ON ALL SHEETS.
22. CAD FILE OF "AS-BUILTS" SHALL BE IN STATE PLANE COORDINATES; FILE SHOULD INCLUDE REFERENCE TO PROJECTION. (FLORIDA EAST, NAD83)
23. ALL "AS-BUILT" DRAWINGS SHALL BE PREPARED BY A FLORIDA REGISTERED LAND SURVEYOR USING THE FINAL APPROVED SITE DESIGN PREPARED BY THE ENGINEER OF RECORD. LINE WEIGHTS, LINETYPES, AND ANNOTATION SHALL BE MANAGED IN A MANNER THAT CLEARLY DISTINGUISHES DESIGN INFORMATION FROM "AS-BUILT" INFORMATION.
24. "AS-BUILT" SHEETS SHALL INCLUDE A TITLE BLOCK AND CLEARLY STATE PROJECT NAME, PROJECT SURVEYOR, DATE OF FIELD WORK, AS WELL AS PROJECT CERTIFICATION BLOCK FROM THE ENGINEER OF RECORD.

NOTE: REFERENCES TO WATER SHALL MEAN BOTH POTABLE AND RECLAIMED WATER.

STANDARD CONSTRUCTION DETAIL
REQUIREMENTS FOR AS BUILT DRAWINGS

INDEX M-1B
MAY 2020

GENERAL NOTES:

1. ALL CONSTRUCTION SHALL BE IN ACCORDANCE WITH THE CITY OF ORMOND BEACH'S LAND DEVELOPMENT CODE REQUIREMENTS, AND THE STANDARD CONSTRUCTION DETAILS AND CONSTRUCTION SPECIFICATIONS (SCDCS). AN ENGINEERING PERMIT AND TREE REMOVAL PERMIT IS REQUIRED PRIOR TO STARTING CONSTRUCTION.
2. NO LAND SHALL BE CLEARED, EXCAVATED OR FILLED AND NO STRUCTURE SHALL BE ERECTED, REPAIRED OR DEMOLISHED WITHOUT PROPER PERMIT(S) AS REQUIRED BY THE CITY OF ORMOND BEACH.
3. NOTIFY THE CITY OF ORMOND BEACH AT COMDEV@ORMONDBEACH.ORG 48 HOURS PRIOR TO THE START OF CONSTRUCTION.
4. ANY CONSTRUCTION CHANGES TO APPROVED PLANS SHALL BE SUBMITTED TO THE CITY OF ORMOND BEACH FOR APPROVAL PRIOR TO PERFORMING THE WORK.
5. ROAD CONSTRUCTION AND PIPE INSTALLATION COMPACTION AND DENSITY TESTING SHALL CONFORM TO THE CITY OF ORMOND BEACH'S MINIMUM REQUIREMENTS. CERTIFIED COPIES OF TEST REPORTS SHALL BE SUBMITTED TO THE CITY INSPECTOR AND THE CITY'S ENGINEERING DIVISION.
6. A PRE-PAVING UTILITY INSPECTION MUST BE REQUESTED AND COMPLETED PRIOR TO THE PAVING OF ALL ROADS, STREETS, AND PARKING AREAS.
7. A FINAL INSPECTION, TO BE CONDUCTED BY THE CITY OF ORMOND BEACH, SHALL BE PERFORMED ON ALL CONSTRUCTION. THE DESIGN ENGINEER SHALL NOTIFY THE CITY OF ORMOND BEACH AT COMDEV@ORMONDBEACH.ORG WHEN REQUESTING A FINAL INSPECTION.
8. THREE COMPLETE SETS OF AS-BUILT DRAWINGS (5 FOR SUBDIVISIONS) ARE REQUIRED TO BE SUBMITTED TO THE CITY OF ORMOND BEACH PRIOR TO REQUESTING A FINAL INSPECTION. AS-BUILT DRAWINGS MAY BE SUBMITTED IN DIGITAL FORMAT WITH DIGITAL SIGNATURE OF SURVEYOR AND/OR ENGINEER OF RECORD.
9. THE CITY HAS A CONTRACTOR FOR ROLL OFF SERVICE. NO OTHER CONTRACTOR SHALL BE PERMITTED TO PROVIDE THIS SERVICE. VERIFY COMPANY UNDER CONTRACT WITH THE CITY.
10. CONSTRUCTION SITES THAT DISTURB ONE ACRE OR MORE WILL BE REQUIRED TO SEEK COVERAGE UNDER THE GENERIC PERMIT FOR STORM WATER DISCHARGE FROM LARGE AND SMALL CONSTRUCTION ACTIVITIES. IN ACCORDANCE WITH THIS REQUIREMENT, A STORM WATER POLLUTION PREVENTION PLAN (SWPP) MUST BE SUBMITTED TO THE CITY OF ORMOND BEACH AT COMDEV@ORMONDBEACH.ORG PRIOR TO CONSTRUCTION TO BE IN COMPLIANCE WITH THE PERMIT.
11. CONTRACTOR WILL FOLLOW REQUIRED WASTE MANAGEMENT PRACTICES
12. SEEDING OR SODDING SHALL BE INITIATED FOR EROSION AND SEDIMENT CONTROL ON DISTURBED AREAS AS SOON AS PRACTICABLE IN PORTIONS OF THE SITE WHERE CONSTRUCTION ACTIVITIES HAVE TEMPORARILY OR PERMANENTLY CEASED.
13. ANY FIELD MODIFICATIONS OR DEVIATIONS TO THIS CONSTRUCTION PLAN REQUIRES WRITTEN APPROVAL BY BOTH THE ENGINEER OF RECORD AND THE CITY OF ORMOND BEACH.

DRAWN BY:	KEH
CHECKED BY:	RWS
SCALE:	AS SHOWN

SHEET NUMBER:
C-3.0

ES BMP 1.01

TEMPORARY GRAVEL CONSTRUCTION ENTRANCE

DEFINITION

A STONE STABILIZED PAD LOCATED AT POINTS OF VEHICULAR INGRESS AND EGRESS ON A CONSTRUCTION SITE.

PURPOSE

TO REDUCE THE AMOUNT OF SEDIMENT TRANSPORTED ONTO PUBLIC ROADS BY MOTOR VEHICLES OR RUNOFF.

CONDITIONS WHERE PRACTICE APPLIES

WHEREVER TRAFFIC WILL BE LEAVING A CONSTRUCTION SITE AND MOVES DIRECTLY ONTO A PUBLIC ROAD OR OTHER PAVED AREA.

PLANNING CONSIDERATIONS

CONSTRUCTION ENTRANCES PROVIDE AN AREA WHERE MUD CAN BE REMOVED FROM CONSTRUCTION VEHICLE TIRES BEFORE THE ENTER A PUBLIC ROAD. IF THE ACTION OF THE VEHICLE TRAVELING OVER THE PAD DOES NOT REMOVE THE MUD, THEN THE TIRES MUST BE WASHED. IF THE TIRES MUST BE WASHED BEFORE THE VEHICLE ENTERS A PUBLIC ROAD, IF WASHING IS USED, PROVISIONS MUST BE MADE TO INTERCEPT THE WASH WATER AND TRAP THE SEDIMENT BEFORE IT IS CARRIED OFF-SITE. CONSTRUCTION ENTRANCES SHOULD BE USED IN CONJUNCTION WITH SOME STABILIZATION OF CONSTRUCTION ROADS TO REDUCE THE AMOUNTS OF MUD PICKED UP BY CONSTRUCTION VEHICLES.

DESIGN CRITERIA

AGGREGATE SIZE

FDOT AGGREGATE NO. 1 (1.5 – 3.5 INCH STONE) SHOULD BE USED.

ENTRANCE DIMENSIONS

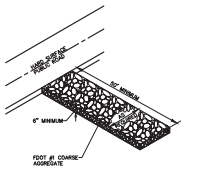
AGGREGATE LAYER MUST BE AT LEAST 6 INCHES THICK. IT MUST EXTEND THE FULL WIDTH OF VEHICULAR INGRESS AND EGRESS AREA. THE LENGTH OF THE ENTRANCE MUST BE AT LEAST 50 FEET. (SEE DETAIL).

WASHING

IF CONDITIONS OF THE SITE ARE SUCH THAT THE MAJORITY OF THE MUD IS NOT REMOVED BY THE VEHICLES TRAVELING OVER THE GRAVEL, THEN THE TIRES OF THE VEHICLES MUST BE WASHED BEFORE ENTERING A PUBLIC ROAD. WASH WATER MUST BE CARRIED AWAY FROM THE ENTRANCE TO A SETTLING AREA TO REMOVE SEDIMENT. A WASH RACK MAY BE USED TO MAKE WASHING MORE CONVENIENT AND EFFECTIVE. SEE DETAIL.

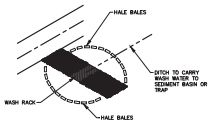
LOCATION

THE ENTRANCE SHOULD BE LOCATED TO PROVIDE FOR MAXIMUM UTILITY BY ALL CONSTRUCTION VEHICLES.



INDICATE PROPOSED LOCATION OF GRAVEL CONSTRUCTION ENTRANCE ON THE GRADING PLAN.

CONSTRUCTION SPECIFICATIONS

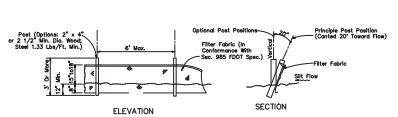


THE AREA OF THE ENTRANCE SHOULD BE CLEARED OF ALL VEGETATION, ROOTS AND OTHER OBJECTIONABLE MATERIAL. THE GRAVEL SHALL BE PLACED TO THE SPECIFIED DIMENSIONS. ANY DRAINAGE FACILITIES REQUIRED BECAUSE OF WASHING SHOULD BE CONSTRUCTED ACCORDING TO SPECIFICATIONS. IF WASH RACKS ARE USED, THEY SHOULD BE CONSTRUCTED ACCORDING TO SPECIFICATIONS. IF WASH RACKS ARE TO MANUFACTURER'S SPECIFICATIONS.

MAINTENANCE

THE ENTRANCE SHALL BE MAINTAINED IN A CONDITION WHICH WILL PREVENT TRACKING OR FLOW OF MUD ONTO PUBLIC RIGHTS-OF-WAY. THIS MAY REQUIRE PERIODIC TOP DRESSING WITH 2-INCH STONE, AS CONDITIONS DEMAND AND REPAIR AND/OR CLEANOUT OF ANY STRUCTURES USED TO TRAP SEDIMENT. ALL MATERIALS SPILLED, DROPPED, WASHED OR TRACKED FROM VEHICLES ONTO ROADWAYS OR INTO STORM DRAINS MUST BE REMOVED IMMEDIATELY.

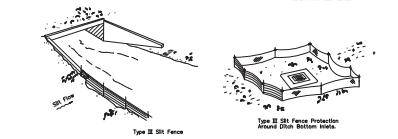
GRAVEL CONSTRUCTION ENTRANCE
N.T.S.



GRAVEL CONSTRUCTION ENTRANCE
W/ WASH RACK (IF REQUIRED)

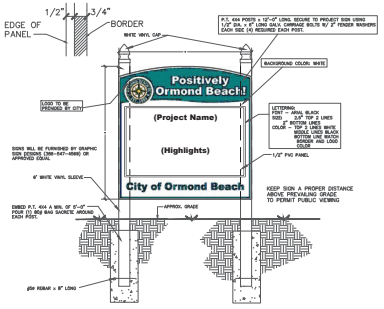
NOTE: COMPLY WITH FDOT REQUIREMENTS FOR SOIL TRACKING PREVENTION DEVICE IN FDOT ROADWAY ROW (INDEX NO. 106)

STANDARD CONSTRUCTION DETAIL	INDEX
TEMPORARY GRAVEL CONSTRUCTION ENTRANCE NTS	M–13
	MAY 2020



Note: Silt Fence to be paid for under the contract unit price for Staked Silt Fence (LF).

TYPE III SILT FENCE



Note: Spacing for Type III Fence to be in accordance with FDOT Design Index No. 102, Chart 1, Sheet 1 of 3 and ditch installations at drainage structures Sheet 2 of 3.

Do not deploy in a manner that silt fences will act as a dam across permanent flowing watercourses. Silt fences are to be used at upland locations and turbidity barriers used at permanent bodies of water.

EROSION CONTROL – SILT FENCE NTS	M–15
	MAY 2020

PROJECT NAME: DOUG THOMAS WAY EXTENSION

BID No. 2023-22

HIGHLIGHTS: ENGINEER: UPHAM, INC.

CONTRACTOR: tdb

NOTICE: PLACE SIGN AT EACH END OF PROJECT

STANDARD CONSTRUCTION DETAIL	INDEX
CIP CONSTRUCTION SIGN NTS.	M–20
	MAY 2020

1. CONSTRUCTION STANDARDS FOR ALL DRAINAGE SYSTEM COMPONENTS SHALL CONFORM TO THE LATEST EDITION OF THE "FDOT STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION" AND AS SPECIFIED HEREIN.
2. ALL STORM WATER PIPES AND STRUCTURES SHALL BE INSTALLED ON A FIRM FOUNDATION WITH ALL UNSUITABLE MATERIAL (MUCK, ROCK, COQUINA, ETC.) REMOVED AND REPLACED WITH CLEAN GRANULAR MATERIAL.
3. DEWATERING SHALL BE PROVIDED TO KEEP GROUNDWATER ELEVATION A MINIMUM OF 6 INCHES BELOW THE COMPONENT BEING INSTALLED.
4. ALL PIPES AND STRUCTURES SHALL BE PLACED TRUE TO LINES AND GRADES AS DEPICTED ON THE APPROVED PLANS.
5. ALL PIPE JOINTS SHALL BE PROPERLY HONED AND FILTER FABRIC LINED USING A METHOD TO HOLD THE FABRIC IN PLACE DURING BACKFILL.
6. BACKFILL AND COMPACT TO THE SPRING–LINE (CENTER OF PIPE) ELEVATION AND REQUEST CITY INSPECTION AND APPROVAL BEFORE CONTINUING.
7. ALL WORK COVERED WITHOUT CITY INSPECTION WILL BE REQUIRED TO BE EXCAVATED AND INSPECTED AT THE CONTRACTOR'S EXPENSE.
8. TRENCHES SHALL BE BACKFILLED AND COMPACTED WITH CLEAN GRANULAR MATERIAL IN MAX 6" LIFTS WITH A MINIMUM COMPACTION OF 98 PERCENT (AASHTO–T180) IN PAVED AREAS AND 95 PERCENT (AASHTO–T180) IN UNPAVED AREAS.
9. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO ENSURE THAT TRENCH COMPACTION TESTS AT POINTS 1' ABOVE THE PIPE AND AT A MAX. 1' VERTICAL INTERVALS TO FINISH GRADE, AT A MAXIMUM SPACING OF 100 FEET, AND TO FURNISH COPIES OF TEST REPORTS PROMPTLY TO THE CITY'S INSPECTOR.
10. ALL STORM SEWER PIPE SHALL BE REINFORCED CONCRETE (RCP), HIGH DENSITY POLYETHYLENE (HDPE), POLYVINYL CHLORIDE (PVC) OR ALUMINUM CORRUGATED METAL PIPE (ACMP), AS SHOWN ON THE PLANS.
11. STORM DRAINAGE PIPES WITHIN PUBLIC RIGHT–OF–WAY SHALL BE A MINIMUM OF FIFTEEN (15) INCH RCP DIAMETER OR EQUIVALENT.
12. STORM INLETS, MANHOLES, AND CATCH BASINS SHALL BE EITHER POURED IN PLACE OR PRECAST REINFORCED CONCRETE. STRUCTURES SHALL BE REQUIRED AT EACH CHANGE OF PIPE SIZE OR CHANGE IN PIPE DIRECTION.

STANDARD CONSTRUCTION DETAIL	INDEX
STORM DRAINAGE CONSTRUCTION NOTES	ST–1A
	MAY 2020

13. STORM INLETS SHALL BE SPACED IN SUCH A MANNER AS TO ACCEPT ONE HUNDRED (100) PERCENT OF THE DESIGN STORM RUNOFF.
14. WET DETENTION PONDS SHALL BE EIGHT (8) FEET MINIMUM TO TWELVE (12) FEET MAXIMUM DEPTH BELOW THE DESIGN LOW OR NORMAL WATER STAGE.
15. MAXIMUM DISTANCES BETWEEN INLETS AND/OR JUNCTION BOXES:

PIPES SIZE (INCHES)	LENGTH OF RUN (FEET)
15	150
18	300
24 OR GREATER	400

16. ALL SWALES, DITCHES, AND DRY RETENTION POND SIDE SLOPES SHALL BE NO STEEPER THAT 4:1 (H:V) AND SHALL BE SODDED.
17. ALL RETENTION POND BACKSLOPES SHALL BE NO STEEPER THAN 3:1 (H:V) AND SHALL BE SODDED.
18. NORMAL ROADSIDE SWALES SHALL BE CONSTRUCTED TO A MAXIMUM DEPTH OF 18" BELOW THE OUTSIDE EDGE OF PAVEMENT OR CONCRETE CURB.
19. CONCRETE EROSION CONTROL MUST BE PROVIDED WHERE SWALES OR CULVERTS INTERCEPT DRAINAGE DITCHES.
20. A MINIMUM ONE FOOT (1') FREEBOARD ABOVE THE DESIGN HIGH WATER ELEVATION IS REQUIRED AT ALL POINTS AROUND WET RETENTION PONDS.
21. A MINIMUM SIX INCH (6") FREEBOARD ABOVE THE DESIGN HIGH WATER ELEVATION IS REQUIRED AT ALL POINTS AROUND DRY RETENTION PONDS.
22. POND INFLOW SHALL GENERALLY BE CONSTRUCTED WITH REINFORCED CONCRETE AND SHALL BE SUBJECT TO THE APPROVAL OF THE CITY.
23. OUTLET STRUCTURES ARE REQUIRED ON ALL PONDS. ALL OUTLET STRUCTURES SHALL BE PERMANENT CONCRETE OVERFLOW WEIRS OR CONCRETE OUTLET CONTROL STRUCTURES. NO SODDED WEIRS OR OTHER NON–PERMANENT OVERFLOW STRUCTURES SHALL BE ALLOWED.
24. SOIL EROSION CONTROL MEASURES SATISFACTORY TO THE CITY, SHALL BE EMPLOYED DURING CONSTRUCTION AND UPON COMPLETION OF THE POND.
25. THE CITY MAY REQUEST THAT THE DEVELOPER SUBMIT A REPORT BY A QUALIFIED HYDROLOGIST ON THE IMPACT THE POND WILL HAVE ON NEIGHBORING WATER TABLE ELEVATIONS BOTH DURING CONSTRUCTION AND AFTER POND COMPLETION. THE CITY MAY REQUIRE GROUNDWATER MONITORING DURING THE POND EXCAVATION.

STANDARD CONSTRUCTION DETAIL	INDEX
STORM DRAINAGE CONSTRUCTION NOTES	ST–1B
	MAY 2020

26. ADEQUATE MAINTENANCE ACCESS AS APPROVED BY THE CITY SHALL BE PROVIDED AROUND THE ENTIRE PERIMETER OF ALL PONDS AND ASSOCIATED OUTFALLS DISCHARGING INTO AND OUT OF PONDS.
27. IN GENERAL, ALL RETENTION/DETENTION PONDS MUST BE CONSTRUCTED PRIOR TO ANY ROAD, PARKING LOT, OR BUILDING CONSTRUCTION COMMENCING OR AS CURRENT PERMIT CONDITIONS DICTATE.
28. THE CONTRACTOR SHALL BE RESPONSIBLE TO OBTAIN ANY DEWATERING PERMITS THAT MAY BE REQUIRED.
29. CULVERTS CROSSING RIGHT–OF–WAYS SHALL EXTEND FROM RIGHT–OF–WAY LINE TO RIGHT–OF–WAY LINE UNDER THE ROADWAY.
30. ALL STORM WATER DISCHARGE FROM RETENTION/DETENTION PONDS ARE REQUIRED TO BE CHANNELED INTO DEFINED DRAINAGE PATHS TO EXISTING WATER BODIES, WETLANDS, DITCHES, ETC.
31. THE CITY OF ORMOND BEACH REQUIRES THE DEVELOPER TO TELEVISE ANY AND ALL STORM SEWER PIPE SYSTEMS IN THE PRESENCE OF THE CITY INSPECTOR BY A REPUTABLE COMPANY THAT ENGAGES IN THIS TYPE OF WORK. THE DVD SHALL BE IN HIGH QUALITY STANDARD RESOLUTION USING A CAMERA WITH SUITABLE LIGHTING TO ALLOW A CLEAR FOCUSED PICTURE OF THE ENTIRE INSIDE PIPE CIRCUMFERENCE. THE DVD SHALL BE NON–STOP WITH AUDIO DESCRIBING WHAT IS BEING VIEWED. COPIES OF DVD SHALL BE SUBMITTED IN DVD FORMAT ACCOMPANIED BY WRITTEN LOGS DESCRIBING THE CONDITION OF THE LINES AT LEAST FORTY–EIGHT (48) HOURS PRIOR TO REQUESTING FINAL INSPECTIONS. ANY DEFECTS NOTED SHALL BE CORRECTED PRIOR TO ACCEPTANCE BY THE CITY OR ISSUANCE OF CERTIFICATE OF OCCUPANCY.
32. IN ACCORDANCE WITH SECTION 3–58(F) ALL WET DETENTION PONDS SHALL INCLUDE AN AERATION FOUNTAIN TO ENSURE PROPER WATER QUALITY, ENHANCE MAINTENANCE, AND IMPROVE AESTHETICS. PONDS SHALL BE DESIGNED TO APPEAR NATURAL AND NON–GEOMETRIC.

DRAWN BY:	KEH
CHECKED BY:	RWS
SCALE:	AS SHOWN

SHEET NUMBER:

C-3.1

ROADWAY CONSTRUCTION NOTES

1. ALL RIGHT OF WAY OTHER THAN ROADWAY AREAS SHALL BE SEEDED AND MULCHED OR SODDED. ALL SLOPES GREATER THAN 6% SHALL BE SODDED. THE CITY RESERVES THE RIGHT TO REQUIRE SODDING IN SPECIAL AREAS WHERE EROSION IS A CONCERN.
2. THE FOLLOWING WILL BE THE STANDARD PROTECTION FOR DITCHES UNLESS DRAINAGE CALCULATIONS INDICATE OTHERWISE:

SWALE PROFILE GRADES	PROTECTION REQUIRED
0.2% – 1.0%	SEEDING AND MULCHING
1.0% – 4.0%	SODDING
4.0% AND GREATER	DITCH PAVING

3. ALL FRANCHISE UTILITY CROSSINGS, INCLUDING BUT NOT LIMITED TO FPL, BELLSOUTH AND CABLE SHALL BE INSTALLED PRIOR TO INSTALLATION AND COMPACTION OF THE ROAD SUB BASE. ANY CROSSINGS AFTER INSTALLATION OF THE SUB BASE SHALL BE BY DIRECTIONAL BORE.
4. THE LIMITS OF STABILIZED SUB BASE SHALL EXTEND TO A DEPTH OF SIX INCHES (6") BELOW THE BOTTOM OF THE BASE AND OUTWARD TO TWELVE INCHES (12") BEYOND THE CURB.
5. THE STABILIZING MATERIAL, IF REQUIRED, SHOULD BE A HIGH BEARING VALUE SOIL, SAND–CLAY, LIMEROCK, RECYCLED CONCRETE, SHELL OR OTHER MATERIAL AS APPROVED BY THE CITY AND A LICENSED SOILS ENGINEER.
6. THE SUB BASE SHALL BE STABILIZED NOT LESS THAN FORTY (40) POUNDS LIMEROCK BEARING RATIO (LBR). A COMPACTION OF NO LESS THAN NINETY–EIGHT (98%) PERCENT DENSITY BASED ON AASHTO T–180 SHALL BE REQUIRED.
7. TESTS FOR SUB BASE BEARING CAPACITY AND COMPACTION SHALL BE DONE AT A MINIMUM OF EVERY 300 FEET AND SHALL BE STAGGERED TO THE LEFT, RIGHT AND AT CENTER LINE OF THE ROADWAY.
8. BASES FOR ALL STREETS SHALL HAVE A MINIMUM SIX INCH (6") DEPTH. PRIMING AND SANDING SHALL BE REQUIRED AS SOON AS BEARING CAPACITY AND COMPACTION HAS BEEN ACHIEVED.
9. MAXIMUM DENSITY BASED ON AASHTO T–180 MODIFIED PROCTOR TEST. RECYCLED CONCRETE OR LIMEROCK BASES SHALL BE COMPACTED TO (98%)
10. MATERIAL DELIVERY TICKETS SHALL BE PROVIDED TO THE CITY AT THE TIME OF PLACEMENT.
11. TESTING OF THE IN–PLACE BASE SHALL BE DONE AT INTERVALS EQUIVALENT TO SUB BASE TESTING AND SHALL CONSIST OF, AS A MINIMUM, MOISTURE CONTENT AND COMPACTION TEST.
12. DESIGN MIXES SHALL BE SUBMITTED TO THE CITY FOR THEIR APPROVAL NO LESS THAN THREE (3) WORKING DAYS PRIOR TO ANY ROADWAY CONSTRUCTION.
13. ASPHALT SPECIFICATIONS SHALL BE SUBMITTED BY THE DESIGN ENGINEER WITH FINAL PLANS TO THE CITY. FLORIDA STATE CERTIFIED BATCH PLANTS MUST THEN CERTIFY THAT THESE APPROVED SPECIFICATIONS HAVE BEEN MET.
14. EXTRACTION AND GRADATION TESTS ON ASPHALT MIXES SHALL BE PROVIDED TO THE CITY TO INSURE THAT DESIGN MIXES MEET THE CITY STANDARD SPECIFICATIONS.
15. THE ROADWAY CROWN SHALL HAVE A STANDARD ONE QUARTER INCH (1/4") PER FOOT SLOPE.
16. ALL ROADWAYS WITH CURB AND GUTTER SECTIONS SHALL HAVE AS A STANDARD A MINIMUM LONGITUDINAL SLOPE OF 0.30%.
17. THE FINISHED PAVEMENT EDGE SHALL BE WITHIN ONE QUARTER INCH (1/4") OF THE ADJACENT CONCRETE CURB.
18. CONCRETE CURBS SHALL BE PROVIDED ON BOTH SIDES OF ALL STREETS AND CONSTRUCTED WITH 2500 PSI CONCRETE AT 28 DAYS.
19. CONCRETE CURBS SHALL BE SAW CUT TO A DEPTH EQUAL TO 1/4 OF CURB THICKNESS AT INTERVALS OF TEN FEET (10') WITH EXPANSION JOINTS AT STREET INTERSECTIONS, STRUCTURES AND ALONG CURVES AT SIXTY FEET (60') INTERVALS. ALL EXPANSION JOINT MATERIAL IS REQUIRED TO BE INSTALLED THROUGH THE ENTIRE DEPTH OF THE CONCRETE CURB.
20. AN "X" SHALL BE CUT IN THE CURB TO MARK THE LOCATION OF WATER DISTRIBUTION SYSTEM VALVE.
21. AN "↑" SHALL BE CUT INTO THE CURB TO MARK THE LOCATION OF ALL VALVES OTHER THAN WATER DISTRIBUTION VALVES.
22. A "V" SHALL BE CUT IN THE CURB TO MARK THE LOCATION OF ALL SEWER SERVICES.
23. A "L" SHALL BE CUT IN THE CURB TO MARK THE LOCATION OF ALL RECLAIMED WATER SERVICES.
24. A "A" SHALL BE CUT IN THE CURB TO MARK THE LOCATION OF ALL WATER SERVICES.
25. THREE (3) CONCRETE CYLINDERS SHALL BE TAKEN AND TESTED FOR EVERY THREE HUNDRED (300) FEET OF ROADWAY CONSTRUCTED. TEST RESULTS SHALL THEN BE PROVIDED TO THE CITY AS THEY BECOME AVAILABLE.
26. THE DEVELOPER SHALL PROVIDE ALL REQUIRED PAVEMENT MARKINGS ON ALL ROADWAYS PER CITY, COUNTY AND STATE REQUIREMENTS. CENTERLINE STRIPES SHALL BE PROVIDED ON EXTENSIONS OF CITY COLLECTOR OR ARTERIAL ROADS, COUNTY ROADS AND STATE HIGHWAYS ONLY.
27. STOP BARS SHALL BE PLACED AT ALL SUBDIVISION ENTRANCES AND INTERSECTIONS CONTAINING CITY COLLECTOR AND ARTERIAL ROADS, COUNTY ROADS AND STATE HIGHWAYS.
28. ALL TRAFFIC CONTROL DEVICES PLACED AT INTERSECTIONS, PRIVATE STREETS, PUBLIC STREETS, COUNTY ROADS AND STATE HIGHWAYS WITHIN THE CITY LIMITS SHALL BE INSTALLED ACCORDING TO THE MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES, LATEST EDITION.
29. THE DEVELOPER IS RESPONSIBLE FOR PAYING FEES FOR ALL STREET LIGHTS PRIOR TO ACCEPTANCE OF THE PROJECT BY THE CITY.
30. STANDARD TURNING RADII FOR INTERSECTIONS:

2–LANE ACCESS OR FEEDER	35'
LOCAL TO COLLECTOR	35'
LOCAL OR COLLECTOR TO ARTERIAL	40'
ARTERIAL TO ARTERIAL	50'

31. CITY INSPECTOR SHALL BE PRESENT DURING PAVING OF ALL PUBLIC AND PRIVATE ROADS. PAVING SHALL BE PERFORMED DURING NORMAL BUSINESS HOURS, MONDAY THROUGH FRIDAY. PAVING DURING WEEKENDS IS NOT PERMITTED.
32. CONSTRUCTION METHODS AND DESIGN FOR CONCRETE PAVEMENT SHALL CONFORM TO FDOT STANDARD SPECIFICATION FOR ROAD AND BRIDGE CONSTRUCTION, LATEST EDITION.
33. ALL CONTRACTORS THAT ARE PERFORMING THE CONSTRUCTION OF PUBLIC IMPROVEMENTS (WATER MAIN, SANITARY SEWER MAIN, RECLAIMED WATER MAIN, STORM WATER PIPES AND INLETS AND ALSO CONSTRUCTION OF ROADWAYS) SHALL BE CERTIFIED WITH THE FLORIDA STATE DEPARTMENT OF PROFESSIONAL REGULATIONS (DPR) FOR THE TYPE OF WORK THAT THEY PERFORM. A COPY OF THE VALID LICENSE IS REQUIRED AT PRE CONSTRUCTION MEETING.
34. UTILITY DEPTH:
    – HIGH VOLTAGE UTILITIES SUCH AS POWER (FEEDER, SERVICE AND DROPS) SHALL BE BURIED A MINIMUM OF 30 INCHES IN DEPTH.
    – LOW VOLTAGE UTILITIES SUCH AS PHONE AND CABLE TV SHALL BE BURIED A MINIMUM OF 12 INCHES IN DEPTH FOR FEEDER AND SERVICES. SERVICE DROPS SHALL BE BURIED A MINIMUM OF 6 INCHES IN DEPTH.
    – HIGH VOLTAGE UTILITIES INSTALLED PARALLEL TO PRESSURE MAINS SHALL MAINTAIN A MINIMUM FIVE FOOT SEPARATION.
35. GEOTECHNICAL TESTING REPORTS SIGNED AND SEALED BY A PROFESSIONAL ENGINEER SHALL BE SUBMITTED TO THE CITY OF ORMOND BEACH PRIOR TO FINAL SIGN OFF. REPORTS SHALL CLEARLY LABEL PROJECT NAME AND PHASE.

ROADWAY COMPACTION AND DENSITY TESTING REQUIREMENTS

ITEM	TEST	FREQUENCY	STANDARD	TEST METHOD
ROADWAY SUBBASE (BOTTOM OF SUBBASE DOWN 1 FOOT)	IN–PLACE DENSITY	ONE (1) TEST/300 LF	95% MODIFIED PROCTOR (ASTM D–1557 OR AASHTO T–180)	ASTM D–2937 D–2922 D–1556
STABILIZED SUBBASE	IN–PLACE DENSITY	ONE (1) TEST/300 LF	95% MODIFIED PROCTOR (ASTM D–1557 OR AASHTO T–180)	ASTM D–2937 D–2922 D–1556
STABILIZED SUBBASE	FLORIDA BEARING VALUE (FBV)	ONE (1) TEST/300 LF	FBV = 75	
STABILIZED SUBBASE	LIMEROCK BEARING RATIO (LBR)	ONE (1) TEST/SOIL TYPE	LBR = 40	
LIMEROCK BASE	IN–PLACE DENSITY	ONE (1) TEST/300 LF	98% MODIFIED PROCTOR (ASTM D–1557 OR AASHTO T–180)	ASTM D–2937 D–2922 D–1556
LIMEROCK BASE	LIMEROCK BEARING RATIO (LBR)	PROVIDE CERTIFICATE FROM PLANT	LBR 100	FM 5–515
CRUSHED CONCRETE BASE	IN–PLACE DENSITY	ONE (1) TEST/300 LF	98% MODIFIED PROCTOR (ASTM D–1557 OR AASHTO T–180)	ASTM D–2937 D–1556

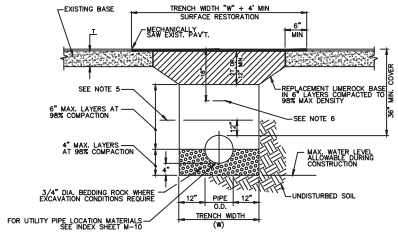
PIPED UTILITY INSTALLATION REQUIREMENTS

ITEM	TEST	FREQUENCY	STANDARD	TEST METHOD
PIPE TRENCH SUBBASE (IF SPECIFIED)	IN–PLACE DENSITY	ONE (1) TEST/300 LF	98% MODIFIED PROCTOR	ASTM D–2937 D–2922 D–1556
PIPED BACKFILL IN PAVED AREAS	IN–PLACE DENSITY	ONE (1) TEST/300 LF PER ONE (1) FOOT VERTICAL LIFT OF FILL	98% MODIFIED PROCTOR	ASTM D–2937 D–2922 D–1556
PIPED BACKFILL IN GREEN AREAS	IN–PLACE DENSITY	ONE (1) TEST/300 LF PER ONE (1) FOOT VERTICAL LIFT OF FILL	90% MODIFIED PROCTOR	ASTM D–2937 D–2922 D–1556
SOIL OPTIMUM MOISTURE/DENSITY	PROCTOR TEST	ONE (1) PER SOIL OR BASE TYPE		ASTM D–2937 (MODIFIED) ASTM D–558 (STANDARD) AASHTO T–180 (MODIFIED) AASHTO T–99 (STD.)

A. SCOPE OF WORK – THE WORK IN THIS SECTION CONSISTS OF FURNISHING AND COMPLETELY INSTALLING SEED AND MULCH OVER THE LIMITS CALLED FOR ON THE CONSTRUCTION DRAWINGS.

B. MATERIALS – GRASS SEED SHALL BE A MIXTURE OF:

PENSACOLA BAHIA (50% SCARIFIED SEED)	50%
HULLED BERMUDA	25%
BROWN TOP MILLET	25%

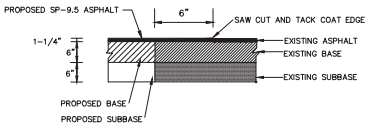


SEED SHALL BE PREMIXED BY A SEED COMPANY TO THE PERCENTAGES DESCRIBED ABOVE, WITH CERTIFICATION FROM THE SUPPLIER PROVIDED TO THE CITY, PRIOR TO USE.

CONTRACTOR MAY REQUEST OPTION TO INSTALL HYDRO–SEEDING, SUBJECT TO THE APPROVAL OF THE CITY ENGINEER AND/OR CITY LANDSCAPE ARCHITECT.

C. MULCH – MULCH USED SHALL BE STRAW OR HAY CONSISTING OF OATS, RYE OR WHEAT STRAW OF PANGOLA, PEANUT, COASTAL BERMUDA OR BAHIA GRASS HAY. MULCH SHALL BE FREE FROM UNDESIRABLE WEED AND OTHER UNDESIRABLE GRASS, APPROXIMATELY TWO INCHES (2"), LOOSE THICKNESS, OF MULCH MATERIAL SHALL BE APPLIED INFORMALLY OVER THE GRASSED AREAS (APPROXIMATELY 1 1/2 BALES PER 1000 SQUARE FEET). THE MULCH MATERIAL SHALL BE CUT INTO THE SOIL WITH A DISC HARROW OR OTHERWISE ANCHORED DOWN.

D. METHODS – GRASSING SHALL BE DONE IMMEDIATELY UPON COMPLETION OF THE FINE GRADING OPERATION. HOWEVER, NO SEEDING SHALL BE DONE WHEN THE GROUND IS FROZEN OR UNDULY WET. THE RATE OF SPREAD FOR THE SEED MATERIAL SHALL BE ONE HUNDRED AND THIRTY (130) POUNDS PER ACRE.



E. STORMWATER PONDS – SLOPES OF STORMWATER PONDS SHALL BE COVERED WITH SOD. NO SEEDING & MULCHING IS ALLOWED ON SLOPES.

PAVEMENT CUT AND PATCH DETAIL

NOTES:

1. WHERE SOIL CONDITIONS CAN NOT BE MAINTAINED AS SHOWN ABOVE, PROVIDE APPROVED METHOD OF CONSTRUCTION.
2. SHEETING WILL BE REQUIRED AS DETERMINED IN THE FIELD.
3. NEW SURFACING MATERIALS SHALL BE CONSISTENT WITH EXISTING AND SHALL HAVE LAPPED & FEATHERED JOINTS (1 1/2" MIN. THK.)
4. COMPACTION PERCENTAGES SHOWN REFER TO A.A.S.H.T.O. T–180. PROVIDE COMPACTION TEST REPORTS TO CITY INSPECTOR.
5. MECHANICAL COMPACTION NOT ALLOWED BELOW THIS LEVEL.
6. INSTALL METALLIC TAPE OVER FULL LENGTH OF PIPE.
7. EIGHT INCHES (8") OF HIGH EARLY–STRENGTH CONCRETE MAY BE SUBSTITUTED FOR LIMEROCK UPON APPROVAL BY CITY ENGINEER.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Alex Schumann, City Engineer

Date: June 6, 2023

Subject: Intent to Bid - Arbor Drive Drainage Improvements

Commission Goal: Water Quality & the Environment - Other

Introduction

This disposition item provides public notice of the City's intent to issue an invitation to bid for the Arbor Drive drainage improvement project, bid number 2023-30.

Background

Each year, the Capital Improvement Plan (CIP) allocates funds through the Stormwater Construction Project to address localized stormwater flooding, conveyance and water quality issues; for Fiscal Year (FY) 2022-2023, $250,000 was allocated to address smaller scale projects that are able to be designed (often in-house), bid, and constructed in the same FY. The Arbor Drive drainage improvement project is one such project that will be constructed under this CIP item to upgrade stormwater facilities in the David Point neighborhood (Arbor Drive/Grove Street area). Due to the topography and age of the original stormwater system, localized flooding has increased in frequency and duration in recent years, most notably after significant storm events including Hurricanes Ian and Nicole. Staff has received and verified numerous complaints over the years from adjacent property owners indicating their streets and driveways have standing water during the wet season; this was further verified during the update to the Stormwater Master Plan, which identified this as a priority stormwater project.

Discussion

The proposed Arbor Drive drainage improvement project consists of constructing approximately 750 feet of reinforced concrete pipe (RCP), replacement of 5 storm inlets, installation of 2 new inlets, and a new headwall structure at the Halifax River. It is expected that this project will alleviate the flooding conditions in this area.

Budget Impact

Funding for this project in the amount of $125,200 is available from 107 Stormwater Fund.

Citizen Impact

This project will greatly improve the existing stormwater system in the area. It should reduce the standing water in the right-of-way which will reduce the areas for mosquitoes to breed and transmit diseases. The impacts from construction will be minimized to the extent practicable.

Recommendation

The City intends to publicly advertise this project for competitive bidding, unless otherwise directed by the City Commission.

SECTION 00030
ADVERTISEMENT FOR BIDS

Sealed bids for furnishing all labor, materials and equipment necessary for constructing the Arbor Drive Drainage Improvements**, Bid No. 2023-29** for the City of Ormond Beach, Florida, will be received at the Office of the Purchasing Coordinator, City Hall, Ormond Beach, Florida, until **July 11, 2023 at 2:00pm**, at which time bids will be opened and publicly read aloud in the Training Room located in the breezeway between City Hall and the Public Library. Bids received after the above time and date will be returned unopened.

The work consists of: Removing and replacing approximately 750 LF of Storm piping, Inlets and associated work**.** The work is shown on the Drawings and specified in the Project Manual. The project Drawings, Specifications and related Bidding documents are available on-line at **www.demandstar.com**, or by calling DemandStar at (206) 940-0305. If you have difficulty obtaining these documents, please contact the City's purchasing office at (386) 676-3223.

A **pre-bid conference** to discuss the details and requirements of the contract will be held on June 28, 2023 at 10:00am, in the Training Room at City Hall. All prospective bidders are strongly encouraged to attend. The deadline for submitting questions is **July 6, 2023** at 5:00pm.

INSTRUCTION TO BIDDERS

00101. Defined Terms

Terms used in these Instructions to Bidders are defined in the General Conditions of the Construction Contract and have the meanings assigned to them in the General Conditions. The term "Successful Bidder" means the lowest, qualified, responsible Bidder to whom OWNER (on the basis of OWNER's evaluation as hereinafter provided) makes an award.

The OWNER for this project is:

The City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174

The ENGINEER for this project is:

The City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174

00102. Copies of Bidding Documents

2.1 The City uses the services of DemandStar (www.demandstar.com) to advertise/distribute its bids and RFP's via the internet.

2.2 Complete sets of the Bidding Documents may be obtained from the issuing office designated in the Advertisement for Bids.

2.3 Complete sets of Bidding Documents shall be used in preparing Bids; neither OWNER nor ENGINEER assume any responsibility for errors or misinterpretations resulting from the use of incomplete sets of Bidding Documents.

2.4 OWNER and ENGINEER in making copies of Bidding Documents available, on the above terms, do so only for the purpose of obtaining Bids on the Work and do not confer a license or grant for any other use.

00102.1 COMPLIANCE WITH FLORIDA PUBLIC RECORDS LAW

Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.

(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.

(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.

(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

CITY CLERK
22 SOUTH BEACH STREET
ORMOND BEACH, FLORIDA 32174 (386) 676-3297
CITYCLERK@ORMONDBEACH.ORG

Ref: Fla. Stat. §119.0701(2016)

00102.2 Public Records/Non-Confidentiality of Bids

The City of Ormond Beach cannot and does not warrant the confidentiality of any information submitted in response to this bid solicitation. Florida law provides that municipal records shall at all times be open for personal inspection by any person, Section 119, F.S., the Public Records Act. Information and materials received by the City of Ormond Beach in connection with responsive bids shall be deemed to be public records subject to public inspection upon award, recommendation of award, or 30 days after bid opening, whichever occurs first.

00103. Qualifications of Bidders

To demonstrate qualifications to perform the Work, each Bidder must be prepared to submit, within seven days after the OWNER's request, written evidence of his ability to perform the work, such as financial data, previous experience, and evidence of authority to conduct business in the jurisdiction where the Project is located. Each Bid must contain evidence of Bidder's qualification to do business in the state where the Project is located or covenant to obtain such qualification prior to award of the contract.

00104. Public Entity Crimes:

A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a Proposal on a contract to provide any goods or services to a public entity, may not submit a Proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit Proposals on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

4.1 Discrimination Pursuant to Section 287.134(2)(a), Florida Statutes, an entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

00105. Examination of Contract Documents and Site

5.1 Before submitting a Bid, each Bidder must (a) examine the Contract Documents thoroughly, (b) visit the site to familiarize himself with local conditions that may in any manner affect cost, progress or performance of the Work, (c) familiarize himself with federal, state and local laws, ordinances, rules and regulations that may in any manner affect cost, progress or performance of the Work; and (d) study and carefully correlate Bidder's observations with the Contract Documents.

5.2 Reference is made to the Supplementary Conditions for the identification of those reports of investigations and tests for subsurface and latent physical conditions at the site or otherwise affecting cost, progress or performance of the Work which have been relied upon by ENGINEER in preparing the Drawings and Specifications. OWNER will make such reports available for inspection to any Bidder or copies may be obtained from the ENGINEER by the Bidder at reproduction cost. These reports are not guaranteed as to accuracy or completeness, nor are they part of the Contract Documents. Before submitting his Bid each Bidder will, at his own expense, make such additional investigations and tests as the Bidder may deem necessary to determine his Bid for performance of

the Work in accordance with the time, price and other terms and conditions of the Contract Documents.

5.3 On request OWNER will provide each Bidder access to the site to conduct such investigations and tests as each Bidder deems necessary for submission of his Bid. Bidders making such investigations shall return site to original condition and shall pay for any damages resulting therefrom.

5.4 The lands upon which the Work is to be performed, rights-of-way for access thereto and other lands designated for use by CONTRACTOR in performing the Work are identified in the Supplementary Conditions, General Requirements, or Drawings.

5.5 The submission of a Bid will constitute an incontrovertible representation by the Bidder that he has complied with every requirement of this Article 4 and that the Contract Documents are sufficient in Scope and detail to indicate and convey understanding of all terms and conditions for performance of the Work.

00106. Clarification/Correction of Proposal

The City of Ormond Beach reserves the right to allow for the clarification of questionable entries and for the correction of obvious mistakes.

00107. Interpretations

All questions about the meaning or intent of the Contract Documents shall be submitted in writing to the Purchasing Coordinator via email to Rob.Hart@ormondbeach.org. Replies will be issued by Addenda mailed or delivered to all parties recorded by ENGINEER as having received the Bidding Documents. Only questions answered by formal written Addenda will be binding. Oral and other interpretations or clarifications will be without legal effect.

00108. Minority Policies

The City of Ormond Beach, Florida, encourages the full participation of Disadvantaged and Women Business Enterprises (D&WBE) in the provision of goods and services.

00109. Bid Security

9.1 Bids shall be accompanied by a Bid Security. The Security shall be made payable to OWNER, in the amount of five percent (5%) of the total bid, and in the form of a certified or cashier's check or a Bid Bond issued by a Surety meeting the requirements of paragraph 5.1 of the General Conditions. The Bid Security shall be irrevocable after the time and date set for the opening of bids, and for a period of ninety (90) days thereafter.

9.2 The Bid Security of the Successful Bidder will be retained until such Bidder has executed the Agreement and furnished the required Contract Security, whereupon it will be returned; if the successful Bidder fails to execute and deliver the Agreement and furnish the required Contract

Security within fifteen (15) days of the Notice of Award, OWNER may annul the Notice of Award and the Bid Security of that Bidder will be forfeited. The Bid Security of any Bidder whom OWNER believes to have a reasonable chance of receiving the award may be retained by OWNER until the seventh day after the "effective date of the Agreement" or the first day after the expiration of the period that Bids are specified to remain open in the Advertisement for Bids. Bid Security of other Bidders will be returned within seven (7) days of the Bid opening.

00110. Contract Time

The number of days within which, or the date by which, the Work is to be completed (the Contract Time) is set forth in the Bid Form and will be included in the Agreement.

00111. Liquidated Damages

Provisions for liquidated damages, if any, are set forth in the Bid Form and Agreement.

00112. Subcontractors

12.1 If the Supplementary Conditions, Bid Form and/or Specifications require the identity of certain subcontractors to be submitted to the OWNER with the bid, the bidder will list in his bid all subcontractors proposed for those portions of the work for which such identification is so required. When requested, an experience statement, pertinent information as to similar projects satisfactorily completed and other evidence of qualifications for each listed subcontractor shall be submitted within seven (7) days after the bid. If the OWNER after due investigation has reasonable objection to any proposed subcontractor, OWNER may before giving the Notice of Award request the apparent low bidder to submit an acceptable substitute without an increase in his bid price. If the apparent Successful Bidder declines to make any such substitution, the contract shall not be awarded to such Bidder, but his declining to make any such substitution will not constitute grounds for sacrificing his Bid Security. Any Subcontractor so listed and to whom OWNER does not make written objection prior to the giving of the Notice of Award will be deemed acceptable to OWNER.

12.2 In contracts where the Contract Price is on the basis of Cost-of-the-Work Plus a Fee, the apparent Successful Bidder, prior to the Notice of Award, shall identify in writing to OWNER those portions of the Work that such Bidder proposes to subcontract and after the Notice of Award may only subcontract other portions of the Work with OWNER's written consent.

00113. Material and Equipment List (Manufacturers)

If the Supplementary Conditions, Bid Form and/or Specifications require the identity of certain material and equipment manufacturers be submitted to the OWNER with the bid, the bidder will list in his bid all material and equipment manufacturers proposed for those portions of the work for which such identification is so required. Such list shall be supplemented by product descriptions for each listed material and equipment item. Supplemental information will be submitted with the bid unless it has been prefiled with the ENGINEER. In this latter case, the bid shall state that the information has been prefiled. Equipment manufacturers/suppliers must agree to OWNER'S terms of purchase. In no event will OWNER accept terms of sale that limit OWNER'S ability to

reasonably recover in the event of equipment failure/defect such as, but not limited to; mandatory arbitration clauses, venue of court proceedings and applicable law outside of Volusia County, Florida, or damage limitations that preclude recovery for failed or defective equipment that would be less than full compensation for OWNER's loss. If the OWNER after due investigation has reasonable objection to any proposed material or equipment item, OWNER may before giving the Notice of Award request the apparent low bidder to submit an acceptable substitute without an increase in his bid price. If the apparent Successful Bidder declines to make any such substitution, the contract may not be awarded to such Bidder, but his declining to make any such substitution will not constitute grounds for sacrificing his Bid Security. Any material or equipment manufacturer so listed and to whom OWNER does not make written objection prior to the giving of the Notice of Award will be deemed acceptable to OWNER. This acceptance of a material or equipment manufacturer does not relieve the CONTRACTOR from the responsibility of submitting shop drawings in accordance with Section 01300 before incorporating said material and/or equipment into the Work.

00114. Material and Equipment Substitutions

Excluding items called for in the bidders Equipment and Subcontractors List in the Bid, Section 00300, whenever it is indicated on the Drawings or specified in the Specifications that a substitute or "or equivalent" item of material or equipment may be furnished or used by CONTRACTOR if acceptable to ENGINEER, application for such acceptance will not be considered by ENGINEER until after the "effective date of the Agreement". The procedure for submittal of any such application by CONTRACTOR and consideration by ENGINEER is set forth in Section 01630 - Substitutions and Product Options.

00115. Bid Form

15.1 Bids shall be submitted on standard forms which are furnished in this Project Manual.

15.2 Bid Forms must be completed in ink or by typewriter. All blank spaces must be filled. Where indicated on the Bid Form, the Bid price of each item on the form must be stated in words and numerals; in case of a conflict, words will take precedence.

15.3 The estimate of the various quantities of work applicable to unit price items as shown on the Bid Form is approximate and is intended solely to provide the basis of comparison upon which the award of contract is made. Final payment will be made on the basis of the actual completed quantities of each item.

15.4 Bids by corporations must be executed in the corporate name by the president or a vice president (or other corporate officer accompanied by evidence of authority to sign) and the corporate seal must be affixed and attested by the secretary or an assistant secretary. The corporate address and state of incorporation shall be shown below the signature.

15.5 Bids by partnerships must be executed in the partnership name and signed by a partner, whose title must appear under the signature and the official address of the partnership must be shown below the signature.

15.6 Bids by a Joint Venture must be executed by all individuals, Partners, or Corporations interested in the Joint Venture in the same manner that bids by these separate entities are required to be executed.

15.7 All names must be typed or printed below the signature.

15.8 The Bid shall contain an acknowledgment of receipt of all Addenda (the numbers of which shall be filled in on the Bid Form).

15.9 The address to which communications regarding the Bid are to be directed must be shown.

15.10 Only one bid from any individual, firm, partnership or corporation under the same or different names, will be considered. Should it appear to the OWNER that any Bidder is interested in more than one bid, all bids in which such Bidder is interested will be rejected.

00116. Submission of Bids

Bids shall be submitted at the time and place indicated in the Advertisement for Bids and shall be included in an opaque sealed envelope, marked with the Bid Number, Project Title, and Bidder's Name and Address, accompanied by the Bid Security and other required documents. Include one (1) original bid form and (1) electronic file (thumb/flash drive or CD). If the Bid is sent through the mail or other delivery system, the sealed Bid shall be sent in a separate envelope with the notation "BID ENCLOSED" as well as the Bid Number, Project Title, and Bid Opening Date clearly displayed on the shipping envelope/package.

Submit bids to:

City of Ormond Beach
Purchasing Coordinator
22 South Beach Street, Room 101
Ormond Beach, FL 32174

00117. Modification and Withdrawal of Bids

Bids may be modified or withdrawn by an appropriate document duly executed (in the manner that a Bid must be executed) and delivered to the place where Bids are to be submitted at any time prior to the opening of Bids.

00118. Opening of Bids

Bids will be opened publicly and read aloud and an abstract of the amounts of the base Bids and major alternates (if any) will be made available after the opening of Bids.

00119. Bids to Remain Open

All Bids shall remain open for ninety (90) days after the day of the Bid opening, but OWNER may, in his sole discretion, release any Bid and return the Bid Security prior to that date.

00120. Award of Contract

20.1 OWNER reserves the right to reject any and all Bids, to waive any and all informalities and to negotiate contract terms with the Successful Bidder, and the right to disregard all nonconforming, nonresponsive or conditional Bids. Discrepancies between words and figures will be resolved in favor of words. Discrepancies between the indicated product of quantities and unit prices and the correct product thereof will be resolved in favor of the correct product. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum.

20.2 In evaluating Bids, OWNER shall consider the qualifications of the Bidders, whether or not the Bids comply with the prescribed requirements, and alternates and unit prices if requested in the Bid forms. It is OWNER's intent to accept alternates (if any are accepted) in the order in which they are listed in the Bid form but OWNER may accept them in any order or combination.

20.3 OWNER may consider the qualifications and experience of Subcontractors and other persons and organizations (including those who are to furnish the principal items or material or equipment) proposed for those portions of the Work as to which the identity of Subcontractors and other persons and organizations must be submitted as provided in the Supplementary Conditions. Operating costs, maintenance considerations, performance data and guarantees of materials and equipment may also be considered by OWNER.

20.4 Irregular bids may be rejected. Irregular bids are defined as those containing serious omissions, unauthorized alternative bids, incomplete bids or unbalanced bids. Failure to provide all of the information required to accompany the bid will be considered to be a serious omission.

20.5 OWNER may conduct such investigations as he deems necessary to assist in the evaluation of any Bid.

20.6 OWNER reserves the right to reject the Bid of any Bidder who does not pass any such evaluation to OWNER's satisfaction.

20.7 If the contract is to be awarded it will be awarded to the lowest responsible Bidder whose evaluation by OWNER indicates that the award will be in the best interests of the Project. The low bid will be based on the total cost of the Base Bid and, when applicable, any Additive or Deductive Alternates that are to be included in the Contract, as decided by the OWNER.

20.8 If the contract is to be awarded, OWNER will give the Successful Bidder a Notice of Award within the number of days after the day of the Bid opening specified in the Advertisement for Bids to remain open.

00121. Performance and Other Bonds

Paragraph 5.1 of the General Conditions and the Supplementary Conditions set forth OWNER's requirements as to performance and other Bonds. When the Successful Bidder delivers the executed Agreement to OWNER it shall be accompanied by the required Contract Security.

00122. Signing of Agreement

When OWNER gives a Notice of Award to the Successful Bidder, it will be accompanied by at least five (5) unsigned counterparts of the Agreement and all other Contract Documents. Within ten (10) days thereafter CONTRACTOR shall sign all and deliver at least five (5) counterparts of the Agreement to OWNER with other Contract Documents attached. Within ten (10) days thereafter OWNER will deliver fully signed counterparts to CONTRACTOR.

00123. Special Requirements

23.1 Financing. Funds will be available for payment of estimate draws as they become due.

23.2 Prohibited Interests. No official of the OWNER who is authorized in such capacity, and on behalf of the OWNER to negotiate, make, accept or approve, or to take part in negotiating, making, accepting, or approving any architectural, engineering, inspection, construction or material supply contract or any subcontract in connection with the construction of the project shall become directly or indirectly interested, personally, in this Contract or in any part thereof. No officer, employee, architect, attorney, engineer, or inspector of or for the OWNER who is authorized in such capacity and on behalf of the OWNER to exercise legislative, executive, supervisory, or other similar functions in connection with the construction of the project, shall become directly or indirectly interested personally, in this Contract or in any part thereof, any material supply contract, subcontract, insurance contract, or any other contract pertaining to the project.

23.3 Performance of Work by CONTRACTOR:

Contract Assignment. The successful Bidder (or Bidders) will be required to perform the work as a prime contractor.

The CONTRACTOR shall not sublet, sell, transfer, assign or otherwise dispose of the contract or any portion thereof, or of his right, title or interest therein, without written consent of the OWNER.

END OF INSTRUCTION TO BIDDERS

SECTION 00300
BID

CONTRACTORS NAME _____ LICENSE NO. _____

PROJECT IDENTIFICATION: **Arbor Drive Drainage Improvements**

CONTRACT IDENTIFICATION AND NUMBER: Bid No. 2023-29

THIS BID IS SUBMITTED TO:
(Name and Address of Owner)

City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174

1. The undersigned BIDDER proposes and agrees, if this Bid is accepted, to enter into an Agreement with OWNER in the form included in the Contract Documents to complete all Work as specified or indicated in the Contract Documents for the Contract Price and within the Contract Time indicated in this Bid and in accordance with the Contract Documents.

2. BIDDER certifies that he has investigated the requirements to do business in the jurisdiction where the project is located, and that he is either qualified to do business or will obtain such prequalification prior to award of the contract.

3. BIDDER accepts all of the terms and conditions of the Instructions to Bidders (Section 00100) including, without limitation, those dealing with the disposition of Bid Security, Public Entity Crimes, and Minority Policies. This Bid will remain open for 90 days after the day of Bid opening. BIDDER will sign the Agreement and submit the Contract security and other documents required by the Contract Documents within ten (10) days after the date of OWNER'S Notice of Award.

4. In submitting this Bid, BIDDER represents, as more fully set forth in the Agreement, that:

(a) BIDDER has examined copies of all the Contract Documents and of the following addenda:

Date	Number
_____	_____
_____	_____
_____	_____
_____	_____

(receipt of all of which is hereby acknowledged) and also copies of the Advertisement to Bid and the Instructions to Bidders;

(b) BIDDER has examined the site and locality where the Work is to be performed, the legal requirements (federal, state and local laws, ordinances, rules and regulations) and the conditions affecting cost, progress or performance of the Work and has made such independent investigations as BIDDER deems necessary.

(c) This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; BIDDER has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid; BIDDER has not solicited or induced any person, firm or a corporation to refrain from bidding; and BIDDER has not sought by collusion to obtain for himself any advantage over any other Bidder or over OWNER; and

5. BIDDER will complete the Work for the following price(s):

BID SCHEDULE

Item	Item Description	Item Quantity	Units	Unit Cost	Total Estimated Price
1	Furnish & Install 24" RCP Pipe	340	LF		
2	Furnish & Install 18" RCP Pipe	135	LF		
3	Furnish & Install 12" PVC Pipe	85	LF		
4	Type C Inlet	5	EA		
5	Headwall	1	EA		
6	Furnish and Install 24-Inch Inline Check Valve	1	EA		
7	Asphalt Cut and Patch	180	SY		
8	MOT	1	LS		
9	Curb and Gutter	175	LF		
10	Miscellaneous Driveway	50	SY		
11	Restoration	1	LS		

TOTAL BID $_____
(Figures)

_____
(Words)

BIDDER acknowledges that the quantities are not guaranteed and final payment will be based on actual quantities determined as provided in the Contract Documents.

BIDDER agrees that the Work will be substantially completed within **60** calendar days after the date when the Contract Time commences to run, and completed within **90** calendar days after the date when the Contract Time commences to run.

BIDDER recognizes that time is of the essence to complete this Project and that OWNER will suffer financial loss if the Work is not substantially complete within the time specified above, plus any extensions thereof allowed in accordance with Article 12 of the General Conditions. The BIDDER also recognize the delays, expense and difficulties involved in proving, in a legal or arbitration proceeding, the actual loss suffered by OWNER if the Work is not substantially complete on time. Accordingly, instead of requiring any such proof, OWNER has determined and BIDDER agrees to accept that as liquidated damages for delay (but not as a penalty) CONTRACTOR shall pay OWNER Three Hundred Dollars ($300) for each calendar day that expires after the time specified above for substantial completion until the Work is substantially complete. After substantial completion, if CONTRACTOR shall neglect, refuse or fail to complete the remaining Work within the time specified above for completion and readiness for final payment or any proper extension thereof granted by OWNER, CONTRACTOR shall pay the OWNER an amount equal to all actual expenses incurred by the OWNER as a direct result of the CONTRACTOR'S negligence, refusal, or failure to so complete the remaining work. In the event the CONTRACTOR is terminated or abandons the work prior to the scheduled date for final completion, the CONTRACTOR may be liable for both liquidated damages attributable to delay and for excess completion costs.

6. The following documents are attached to and made a condition of this Bid:

   (a) Required Bid Security in the form of

   (1) a certified check drawn in favor of the City of Ormond Beach in the amount of 5 percent of the total bid; or

   (2) a Bid Bond in the amount of 5 percent of the total bid.

   (b) Equipment, Material, and Subcontractors List

   (c) All information required by the Trench Safety Act (Part VI, Chapter 553, Florida Statutes).

   (d) Drug Free Workplace Certificate

   (e) Conflict, Non-Conflict of Interest, Litigation Statement

   (f) Local Vendor Preference

   (g) Verification of Employment Status Using E-Verify System

7. Communications to the BIDDER concerning this Bid shall be addressed to:

EQUIPMENT AND SUBCONTRACTORS LIST

List the names of the manufacturers whose product is proposed for use. No more than one manufacturer's name shall be inserted for each item of material and/or equipment listed. Failure to list materials and equipment supplier may result in the Bid being rejected as incomplete and nonresponsive. If any Subcontractors are proposed to be used for any portions of the Work, the names, addresses, phone numbers and work classifications of each such Subcontractor must be listed. The failure to list all Subcontractors proposed for the work may result in the Bid being rejected as incomplete and nonresponsive. If more than one manufacturer or subcontractor is listed, selection will be made by the OWNER. If none is listed, those listed as the "Basis for Design" will be used.

TRENCH SAFETY STANDARDS

If this project includes trench excavation in excess of five (5) feet in depth, the following trench safety standards will be in effect during the period of construction of the project:

The Occupational Safety and Health Administration's excavation safety standards, 29 C.F.R.s. 1926.650 Subpart P, and any regulation promulgated there under are hereby incorporated as the standard for this project.

The Bidder hereby certifies that the Contractor performing the trench excavation will comply with the applicable trench safety standards.

The Bidder further certifies that the cost (which is included in his unit cost) of compliance with applicable trench safety standards is:

DRUG-FREE WORKPLACE CERTIFICATION

Identical Or "Tie" Bids: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

3) Give each employee that engages in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) calendar days after such conviction.

5) Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

LOCAL VENDOR PREFERENCE

The following is taken from the Code of Ordinances, City of Ormond Beach, Chapter 2, Financial Matters, Division 3, Purchasing, Article IX, Section 2-304:

Except where otherwise provided by federal or state law or other funding source restrictions, purchases of goods and services under the Purchasing Code shall give preference to local businesses as follows:

(a) Under a competitive bid solicitation, the City *may* give a local preference in the amount of three percent (3%) of the bid price or $25,000, whichever is less. The bid price shall include not only the base bid price but all alternatives which are part of the bid and actually purchased or awarded.

(b) A *local business* shall mean a vendor that has a valid occupational license issued by the City of Ormond Beach at least one year prior to bid opening, with a physical business address located within the municipal boundaries of the City of Ormond Beach from which the vendor operates or performs business on a day-to-day basis that is a substantial component of the goods or services being offered and has provided a Local Vendor Affidavit of Eligibility at the time the bid is submitted.

(c) A *Local Vendor Affidavit of Eligibility* shall accompany the bid submittal to be considered valid and shall include, but not be limited to, the following information:
   (1) A physical business and location address;
   (2) A copy of current City of Ormond Beach Local Business Tax Receipt (occupational license) to verify the business location;
   (3) Proof of payment of business tax and real property tax due to the City of Ormond Beach;
   (4) A copy of the firm's most recent annual corporation report to the Florida Division of Corporations;
   (5) Any additional information necessary to verify local status.

(d) *Exemptions:* Goods or services provided under a cooperative purchasing agreement, contracts for professional services subject to Consultants' Competitive Negotiation Act, purchases or contracts funded in whole or part by a governmental entity that does not allow local preferences, purchases made under another agency's agreements or contracts (piggybacking), purchases under emergency or sole source situations and procurements subject to formal proposals including but not limited to request for proposals (RFP) or continuing contract, and request for quotes (RFQ) versus straight competitive bids.

(e) This section shall not be deemed to require the granting of a local preference, and nothing herein prohibits the award of a contract to a non-local vendor where such award is in the public interest.

LOCAL VENDOR AFFIDAVIT OF ELIGIBILITY

I certify that my company meets all of the following qualifications to be eligible for the local vendor preference:

a. My company has a physical business address located within the municipal boundaries of the City of Ormond Beach which is used to perform business on a day-to-day basis.
b. My company holds any business (occupational) or contractor license required by the City of Ormond Beach at least one year prior to bid opening.
c. Payment of business tax and real property tax due to the City of Ormond Beach is current
d. My company is in compliance with annual reporting to the Florida Division of Corporations

To be verified and completed by an authorized representative of the City of Ormond Beach's Purchasing Department:

Vendor Certified by: _____ Date: _____

VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes.*
2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.
3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.
4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.
5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes,* the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

SECTION 00410
BID BOND

KNOW ALL MEN BY THESE PRESENTS, that we _____

_____
(*hereinafter called Principal*) and

_____
(hereinafter called the Surety) a corporation chartered and existing under the Laws of the State _____ of with its principal offices in the County of _____ and authorized to do business in the State of Florida, in the full and just sum of _____
_____Dollars ($_____) good and lawful money of the United States of America, to be paid upon demand of the _____, Florida, to which payment well and truly to be made we bind ourselves, our heirs, executors, administrators, and assigns, jointly and severally and firmly by these presents,

WHEREAS, the Principal is about to submit, or has submitted to the City of Ormond Beach, Florida, a bid for work to be done on the **Arbor Drive Drainage Improvements (Bid No. 2023-29)** in, and for the City and

WHEREAS, the Principal desires to file this bond in accordance with law, in lieu of a certified or cashier's check otherwise required to accompany this Bid.

NOW, THEREFORE: the conditions of this obligation are such that if the Bid be accepted the Principal shall within ten (10) days after the receipt of notification of the acceptance thereof execute a contract in accordance with the Bid and upon the terms, conditions and unit or lump sum prices set forth therein, in the form and manner required by the Owner, and execute a sufficient and satisfactory Contract Bond payable to the Owner, in an amount not less than the total contract price, as indicated by the approximate quantities shown in the Bid, in form and with security satisfactory to the said City, then this obligation to be void; otherwise to be and remain in full force and virtue in law; and the Surety shall upon the failure of the Principal to comply with any or all of the foregoing requirements within the time specified above, immediately pay to the aforesaid City upon demand the amount hereof in good and lawful money of the United States of America, not as a penalty, but as liquidated damages.

IN TESTIMONY WHEREOF, the Principal and Surety have caused these presents to be duly signed and sealed this _____ day _____, 20_____.

END OF SECTION
00410 - 1

SECTION 00500
FORM OF AGREEMENT

THIS AGREEMENT is by and between City of Ormond Beach, a Municipal Corporation in the State of Florida (hereinafter called OWNER) and

_____

(hereinafter called CONTRACTOR)

The bid for this contract was approved by the City Commission on _____, 2023.

Article 1. WORK

CONTRACTOR shall complete all Work as specified or indicated in the Contract Documents. The Work is generally described as follows:

Removing and replacing approximately 750 LF of Storm piping, Inlets and associated work.

The Project for which the Work under the Contract Documents may be the whole or only a part is generally described as follows:

Arbor Drive Drainage Improvements
2023-29

Article 2. ENGINEER

The Project has been designed by City Engineer, 22 South Beach Street, Ormond Beach, FL 32174, who is hereinafter called ENGINEER and who will assume all duties and responsibilities and will have the rights and authority assigned to ENGINEER in the Contract Documents in connection with completion of the Work in accordance with the Contract Documents.

Article 3. CONTRACT TIME

3.1 The Work will be substantially completed within **60** calendar days after the date when the Contract Time commences to run as provided in paragraph 2.3 of the General Conditions, and completed and ready for final payment in accordance with paragraph 14.10 of the General Conditions within **90** calendar days after the date when the Contract Time commences to run.

3.2 Liquidated Damages. OWNER and CONTRACTOR recognize that time is of the essence of this Agreement and that OWNER will suffer financial loss if the Work is not substantially complete within the time specified in paragraph 3.1 above, plus any extensions thereof allowed in accordance with Article 12 of the General Conditions. They also recognize the delays, expense and difficulties involved in proving in a legal or arbitration proceeding the actual loss suffered by OWNER if the Work is not substantially complete on time. Accordingly, instead of requiring any such proof, OWNER and CONTRACTOR agree that as liquidated damages for delay (but not as a penalty) CONTRACTOR shall pay OWNER Three Hundred Dollars ($300) for each calendar day that expires after the time specified in paragraph 3.1 for Substantial Completion until the Work is substantially complete. After Substantial Completion, if CONTRACTOR shall neglect, refuse or fail to complete the remaining Work within the time

specified in paragraph 3.1 for completion and readiness for final payment or any proper extension thereof granted by OWNER, CONTRACTOR shall pay the OWNER an amount equal to all actual expenses incurred by the OWNER as a direct result of the CONTRACTOR'S negligence, refusal, or failure to so complete the remaining work. In the event the Contractor is terminated or abandons the Work prior to the scheduled date for final completion, the Contractor may be liable for both liquidated damages attributable to delay and for excess completion costs.

Article 4. CONTRACT PRICE

OWNER shall pay CONTRACTOR for completion of the Work, in accordance with the Contract Documents, an amount in current funds equal to the unit price TOTAL BID of $_____, as listed in the Bid Form. Payment shall be for the actual completed work, as specified in the Measurement and Payment section of the project Manual and in accordance with Article 14 of the General Conditions.

Article 5. PAYMENT PROCEDURES

CONTRACTOR shall submit Applications for Payment in accordance with Article 14 of the General Conditions. Applications for Payment will be processed by ENGINEER as provided in the General Conditions.

5.1 Progress Payments. OWNER shall make progress payments on account of the Contract Price on the basis of CONTRACTOR'S Applications for Payment as recommended by ENGINEER, on or about the 15th day of each month during construction as provided below, provided Applications for Payment are timely delivered pursuant to Article 14.1 of the General Conditions. All progress payments will be on the basis of the progress of the Work measured by the schedule of values provided for in paragraph 14.1 of the General Conditions.

5.1.1 When applicable, all progress payments shall be in an amount equal to:

Ninety-Five percent (95%) of the Work completed.

Ninety-Five percent (95%) of materials and equipment not incorporated in the Work but delivered and suitably stored, less in each case the aggregate of payments previously made and less such amounts as ENGINEER shall determine in accordance with paragraph 14.4 of the General Conditions.

5.2 Final Payment. Upon final completion and acceptance of the Work in accordance with paragraph 14.10 of the General Conditions, OWNER shall pay the remainder of the Contract Price as recommended by ENGINEER as provided in said paragraph 14.10.

Article 6. CONTRACTOR'S REPRESENTATIONS

In order to induce OWNER to enter into this Agreement CONTRACTOR makes the following representations:

6.1 CONTRACTOR has familiarized himself with the nature and extent of the Contract Documents, Work, locality, and with all local conditions and federal, state and local laws, ordinances, rules and regulations that in any manner may affect cost, progress or performance of the Work.

6.2 CONTRACTOR has studied carefully all reports of investigations and tests of subsurface and latent physical conditions at the site or otherwise affecting cost, progress or performance of the Work which were relied upon by ENGINEER in the preparation of the Drawings and Specifications and which have been identified in the Supplementary Conditions.

6.3 CONTRACTOR has made or caused to be made examinations, investigations and tests and studies of such reports and related data in addition to those referred to in paragraph 6.2 as he deems necessary for the performance of the Work at the Contract Price, within the Contract Time and in accordance with the other terms and conditions of the Contract Documents, and no additional examinations, investigations, tests, reports or similar data are or will be required by CONTRACTOR for such purposes.

6.4 CONTRACTOR has correlated the results of all such observations, examinations, investigations, tests, reports and data with the terms and conditions of the Contract Documents.

6.5 CONTRACTOR has given ENGINEER written notice of all conflicts, errors or discrepancies that he has discovered in the Contract Documents and the written resolution thereof by ENGINEER is acceptable to CONTRACTOR.

Article 7. CONTRACT DOCUMENTS

The Contract Documents which comprise the entire agreement between OWNER and CONTRACTOR are attached to this Agreement, made a part hereof and consists of the following:

7.1 This Agreement (pages 1 to 5 , inclusive).

7.2 Exhibits to this Agreement (pages ___ to ___ , inclusive).

7.3 Performance and other Bonds, identified as exhibits 00610 AND 00615 and consisting of 4 pages.

7.4 Notice of Award.

7.5 General Conditions (pages 1 to 35 , inclusive).

7.6 Supplementary Conditions (pages 1 to 7 , inclusive).

7.7 Specifications bearing the title:

Arbor Drive Drainage Improvements

and consisting of 16 divisions, as listed in table of contents thereof.

7.8 Drawings, consisting of __ sheets numbered 1 through ___ inclusive and bearing the following general title:

Arbor Drive Drainage Improvements

7.9 Addenda numbers ___ to ____ , inclusive.

7.10 CONTRACTOR'S Bid (pages 1 to 15 , inclusive) marked exhibit ____ (Attach Bid Form only in special circumstances).

7.11 Documentation submitted by CONTRACTOR prior to Notice of Award (pages ____ to ____ , inclusive).

7.12 Any Modification, including Change Orders, duly delivered after execution of Agreement.

There are no Contract Documents other than those listed above in this Article 7. The Contract Documents may only be altered, amended or repealed by a Modification (as defined in Section 1 of the General Conditions).

Article 8. MISCELLANEOUS

8.1 Terms used in this Agreement which are defined in Article 1 of the General Conditions shall have the meanings indicated in the General Conditions.

8.2 No assignment by a party hereto of any rights under or interests in the Contract Documents will be binding on another party hereto without the written consent of the party sought to be bound; and specifically but without limitation, moneys that may become due and moneys that are due may not be assigned without such consent (except to the extent that the effect of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment no assignment will release or discharge the assignor from any duty or responsibility under the Contract Documents.

8.3 OWNER and CONTRACTOR each binds himself, his partners, successors, assigns and legal representatives to the other party hereto, his partners, successors, assigns and legal representatives in respect to all covenants, agreements and obligations contained in the Contract Documents.

IN WITNESS WHEREOF, the parties hereto have signed this Agreement. One counterpart each has been delivered to OWNER and CONTRACTOR, and to ENGINEER as applicable. All portions of the Contract Documents have been signed by OWNER and CONTRACTOR or identified by ENGINEER on their behalf.

This Agreement will be effective on _____, 2023

hereinafter called OWNER, in the penal sum of _____

_____ Dollars, ($_____) in lawful money of the United States, for the payment of which sum will and truly to be made, we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION is such that whereas, the Principal entered into a certain contract with OWNER, dated _____ day of _____, 20____, for the construction of:

Arbor Drive Drainage Improvements
Bid No. 2023-29

NOW, THEREFORE, if the Principal shall well, truly and faithfully perform its duties, all the undertakings, covenants, terms, conditions, and agreements of said contract during the original term thereof, and any extensions thereof which may be granted by the OWNER, with or without notice to the Surety and during the one-year guaranty period, and if he shall satisfy all claims and demands incurred under such contract, and shall fully indemnify and save harmless the OWNER from all costs and damages which it may suffer by reason of failure to do so, and shall reimburse and repay the OWNER all outlay and expense which the OWNER may incur in making good any default, then this obligation shall be void; otherwise to remain in full force and effect.

PROVIDED, FURTHER, that the said Surety, for value received hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the contract or to WORK to be performed thereunder or the SPECIFICATIONS accompanying the same shall in any wise affect its obligation on this BOND, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the contract or to the WORK or to the SPECIFICATIONS The Surety agrees that modifications and changes to the terms and conditions of the Contract that increase the total amount to be paid the Principal shall automatically increase the obligation of the Surety on this bond and notice to Surety is not required for such increased obligation.

PROVIDED, FURTHER, that no final settlement between the OWNER and the CONTRACTOR shall abridge the right of any beneficiary hereunder, whose claim may be unsatisfied.

IN WITNESS WHEREOF, this instrument is executed in _____ (number) counterparts, each one of which shall be deemed an original, this _____ day of _____, 20_____.

END OF SECTION

SECTION 00700
GENERAL CONDITIONS OF THE CONSTRUCTION CONTRACT

ARTICLE 1 - DEFINITIONS

Whenever used in these General Conditions or in the other Contract Documents, the following terms have the meanings indicated which are applicable to both the singular and plural thereof.

1.01. Addenda -Written or graphic instruments issued prior to the opening of Bids which clarify, correct or change the bidding documents of the Contract Documents.

1.02. Agreement - The written agreement between OWNER and CONTRACTOR covering the Work to be performed; other Contract Documents are attached to the Agreement and made a part thereof as provided therein.

1.03. Application for Payment - The form accepted by ENGINEER which is to be used by CONTRACTOR in requesting progress or final payment and which is to include such supporting documentation as required by the Contract Documents.

1.04. Approve - The word approve is defined to mean review of the material, equipment or methods for general compliance with the design concepts and with the information given in the Contract Documents. It does not imply a responsibility on the part of the ENGINEER to verify in every detail conformance with the Drawings and Specifications.

1.05. Bid -The offer or proposal of the Bidder submitted on the prescribed form setting forth the prices for the Work to be performed.

1.06. Bonds - Bid, Performance and Payment Bonds and other instruments of security.

1.07. Change Order - A written order to CONTRACTOR signed by OWNER authorizing an addition, deletion or revision in the Work, or an adjustment in the Contract Price or the Contract Time issued after the effective date of the Agreement.

1.08. Contract - The Agreement.

1.09. Contract Documents - The Agreement, Addenda (which pertain to the Contract Documents), CONTRACTOR's Bid (including documentation accompanying the bid and any post-Bid documentation submitted prior to the Notice of Award) when attached as an exhibit to the Agreement, Notice of Award, the Bonds, these General Conditions, the Supplementary Conditions, the Specifications and the Drawings as the same are more specifically identified in the Agreement, any other exhibits identified in the Agreement, together with all Modifications issued after the execution of the Agreement.

1.10. Contract Price - The Contract Price constitutes the total compensation (subject to authorized adjustments) payable by OWNER to CONTRACTOR for performing the Work.

1.11. Contract Time - The number of days (computed as provided in paragraph 16.2) or the

date stated in the Agreement for the completion of the Work.

1.12. CONTRACTOR - The person, firm or corporation with whom OWNER has entered into the Agreement.

1.13. Day - A calendar day of twenty-four hours measured from midnight to the next midnight.

1.14. Defective - Work that is unsatisfactory, faulty or deficient, or does not conform to the Contract Documents or does not meet the requirements of any inspection, test or approval referred to in the Contract Documents, or has been damaged prior to ENGINEER's recommendation of final payment.

1.15. Drawings - The drawings, which will be identified in the Agreement, which show the character and scope of the Work to be performed and which have been prepared or approved by ENGINEER and are referred to in the Contract Documents.

1.16. Effective Date of the Agreement - The date indicated in the Agreement on which it becomes effective, but if no such date is indicated it means the date on which the Agreement is signed and delivered by the last of the two parties to sign and deliver.

1.17. ENGINEER - The City Engineer of the City of Ormond Beach, Florida, or the designee of such Engineer.

1.18. Engineering Order - A written request issued by ENGINEER to CONTRACTOR requesting a cost for certain modifications to the Work. An Engineering Order is not an authorization to perform the modifications.

1.19. Field Order - A written order issued by ENGINEER which clarifies or interprets the Contract Documents or orders minor changes in the Work in accordance with paragraph 10.2, but which does not involve a change in the Contract Price or the Contract Time.

1.20. Furnish - The words "furnish", "furnish and install", "install", and "provide" or words with similar meaning shall be interpreted, unless otherwise specifically stated, to mean "furnish and install complete in place and ready for service".

1.21. General Requirements - Sections of Division 1 of the Specifications.

1.22. Inspection - The term "Inspection" and the act of inspecting as used in these Contract Documents is defined to mean examination of construction to ensure that it conforms to the design concept expressed in the Drawings and Specifications. These terms shall not be construed to mean supervision, superintending and/or overseeing.

1.23. Modification - (a) A written amendment of the Contract Documents signed by both parties, (b) a Change Order, or (c) a Field Order. A modification may only be issued after the effective date of the Agreement and must be in writing to be effective.

1.24. Notice of Award - The written notice by OWNER to the apparent successful Bidder stating that upon compliance by the apparent successful Bidder with the conditions precedent enumerated therein, within the time specified, OWNER will sign and deliver the Agreement.

1.25. Notice to Proceed - A written notice given by OWNER to CONTRACTOR (with a copy to ENGINEER) fixing the date on which the Contract Time will commence to run and on which CONTRACTOR shall start to perform his obligation under the Contract Documents.

1.26. OWNER - The City of Ormond Beach, Florida.

1.27. Product - Materials, systems, and equipment provided by the CONTRACTOR.

1.28. Project - The total construction of which the Work to be provided under the Contract Documents may be the whole, or a part as indicated elsewhere in the Contract Documents.

1.29. Project Manual - The term "Project Manual" includes Bidding Requirements, Conditions of the Contract, Specifications, and Drawings.

1.30. Project Representative - The authorized representative of ENGINEER who is assigned to the site or any part thereof.

1.31. Shop Drawings - All drawings, diagrams, illustrations, schedules and other data which are specifically prepared by CONTRACTOR, a Subcontractor, manufacturer, fabricator, supplier or distributor to illustrate some portion of the Work and all illustrations, brochures, standard schedules, performance charts, instructions, diagrams and other information prepared by a manufacturer, fabricator, supplier or distributor and submitted by CONTRACTOR to illustrate material or equipment for some portion of the Work.

1.32. Specifications - Those portions of the Contract Documents consisting of written technical descriptions of materials, equipment, construction systems, standards and workmanship as applied to the Work and certain administrative details applicable thereto.

1.33. Subcontractor - An individual, firm or corporation having a contract with CONTRACTOR or with any other Subcontractor for the performance of a part of the Work at the site.

1.34. Substantial Completion - The point reached when the Work (or a specified part thereof), in the opinion of ENGINEER as evidenced by his final certificate of Substantial Completion, is sufficiently complete, in accordance with the Contract Documents, so that the Work (or specified part) can be utilized for the purposes for which it was intended; or if there be no such certificate issued, when final payment is due in accordance with paragraph 14.10. The terms "substantially complete" and "substantially completed" as applied to any Work refer to Substantial Completion thereof.

1.35. Surety - Any person, firm or corporation which is bound with CONTRACTOR and which engages to be responsible for CONTRACTOR and his acceptable performance of the Work by a Performance or Payment Bond, or by a Public Construction Bond.

1.36. Work - The entire completed construction or the various separately identifiable parts thereof required to be furnished under the Contract Documents. Work is the result of performing services, furnishing labor and furnishing and incorporating materials and equipment into the construction, all as required by the Contract Documents.

ARTICLE 2 - PRELIMINARY MATTERS

Delivery of Bonds:

2.1. When CONTRACTOR delivers the executed Agreements to OWNER, CONTRACTOR shall also deliver to OWNER such Bonds as CONTRACTOR may be required to furnish in accordance with paragraph 5.1.

Copies of Documents:

2.2. OWNER shall furnish to CONTRACTOR, at OWNER's expense, up to three copies of the Contract Documents. Additional copies will be furnished, upon request, at the cost of reproduction.

Commencement of Contract Time; Notice to Proceed:

2.3. The Contract Time will commence on the day indicated in the Notice to Proceed.

Starting the Project:

2.4. CONTRACTOR shall start to perform the work on the date when the Contract Time commences to run, but no work shall be done at the site prior to the date on which the Contract Time commences to run, and no work shall be done at the site before the Payment and Performance Bond is executed, delivered to the OWNER, and recorded in the public records of Volusia County, Florida.

Before Starting Construction:

2.5. Before undertaking each part of the Work, CONTRACTOR shall carefully study and compare the Contract Documents and check and verify pertinent figures shown thereon and all applicable field measurements. CONTRACTOR shall promptly report in writing to ENGINEER any conflict, error or discrepancy which CONTRACTOR may discover; however, CONTRACTOR shall not be liable to OWNER for failure to report any conflict, error or discrepancy in the Drawings or Specifications, unless CONTRACTOR had actual knowledge thereof or should reasonably have known thereof. No verbal agreement or conversation with any officer, agent or employee of OWNER, either before or after the execution of this Contract, shall affect or modify any of the terms or obligations herein contained.

2.6. Before any Work at the site is started, CONTRACTOR shall deliver to OWNER certificates (and other evidence of insurance requested by OWNER) which CONTRACTOR is

required to purchase and maintain in accordance with paragraphs 5.3, 5.4, 5.6 and 5.7.

2.7. CONTRACTOR shall not allow any on-site Subcontractor to commence work on his subcontract until insurance required of the Subcontractor has been obtained and approved by the CONTRACTOR. Failure to obtain this insurance will be the sole responsibility of the CONTRACTOR.

ARTICLE 3 - CONTRACT DOCUMENTS; INTENT AND REUSE

3.1. The Contract Documents comprise the entire Agreement between OWNER and CONTRACTOR concerning the Work. They may be altered only by a Modification.

3.2. The Contract Documents are complementary; a requirement contained in one is applicable to all. If, during the performance of the Work, CONTRACTOR finds a conflict, error or discrepancy in the Contract Documents, he shall report it to ENGINEER in writing at once and before proceeding with the Work affected thereby; however, CONTRACTOR shall not be liable to OWNER for failure to report any conflict, error or discrepancy in the Specifications or Drawings unless CONTRACTOR had actual knowledge thereof or should reasonably have known thereof. The various Contract Documents shall be given precedence, in case of conflict, error or discrepancy, as follows: Modifications, Agreement, Addenda, Supplementary Conditions, General Conditions, Drawings and Specifications. In a series of Modifications or Addenda the latest will govern.

3.3. It is the intent of the Specifications and Drawings to describe a complete project (or part thereof) to be constructed in accordance with the Contract Documents. Any Work that may reasonably be inferred from the Specifications or Drawings as being required to produce the intended results shall be supplied whether or not it is specifically called for. When words which have well-known technical or trade meaning are used to describe Work, materials or equipment such words shall be interpreted in accordance with such meaning. Reference to standard specifications, manuals or codes of any technical society, organization or association, or to the code of any governmental authority, whether such reference be specific or by implication, shall mean the latest standard specification, manual or code in effect at the time of opening of Bids (or, on the effective date of the Agreement if there were no Bids), except as may be otherwise specifically stated. However, no provision of any referenced standard specification, manual or code (whether or not specifically incorporated by reference in the Contract Documents) shall change the duties and responsibilities of OWNER, CONTRACTOR or ENGINEER, or any of their agents or employees from those set forth in the Contract Documents. Clarifications and interpretations of the Contract Documents shall be issued by ENGINEER as provided for in paragraph 9.2.

3.4. The Contract Documents will be governed by the law of the State of Florida, and venue for any action brought thereunder shall lie solely and exclusively in the Circuit Court in and for Volusia County, Florida.

Reuse of Documents:

3.5. Neither CONTRACTOR nor any Subcontractor, manufacturer, fabricator, supplier or distributor shall have or acquire any title to or ownership rights in any of the Drawings, Specifications or other documents (or copies of any thereof) prepared by or bearing the seal of ENGINEER; and they shall not reuse any of them on extensions of the Project or any other project without written consent of OWNER and ENGINEER and specific written verification or adaptation by ENGINEER.

ARTICLE 4 - AVAILABILITY OF LANDS; PHYSICAL CONDITIONS; REFERENCE POINTS

4.1. OWNER shall furnish, as indicated in the Contract Documents, the lands upon which the Work is to be performed, rights-of-way for access thereto, and such other lands which are designated for the use of CONTRACTOR. Easements for permanent structures or permanent changes in existing facilities will be obtained and paid for by OWNER, unless otherwise provided in the Contract Documents. If CONTRACTOR believes that any delay in OWNER's furnishing these lands or easements entitles him to an extension of the Contract Time, CONTRACTOR may make a claim therefor as provided in Article 12. CONTRACTOR shall provide for all additional lands and access thereto that may be required for temporary construction facilities or storage of materials and equipment.

Physical Conditions - Investigations and Reports:

4.2. Reference is made to the Supplementary Conditions for identification of those reports of investigations and tests of subsurface and latent physical conditions at the site or otherwise affecting cost, progress or performance of the Work which have been relied upon by ENGINEER in preparation of the Drawings and Specifications. Such reports are not guaranteed as to accuracy or completeness and are not part of the Contract Documents.

Unforeseen Physical Conditions:

4.3. CONTRACTOR shall promptly, after becoming aware of and before further disturbing conditions affected thereby or performing any work in connection therewith, notify ENGINEER in writing of any subsurface or latent physical conditions at the site or in an existing structure differing materially from those indicated or referred to in the Contract Documents. CONTRACTOR, upon discovering and notifying OWNER of such subsurface or latent conditions, shall not perform work in the affected area until authorized to do so by OWNER. ENGINEER will promptly review those conditions and determine if further investigation or tests are necessary. If so determined by the ENGINEER, OWNER shall promptly obtain the necessary additional investigations and tests and furnish copies to CONTRACTOR. If ENGINEER finds that the results of such investigations or tests indicate that there are subsurface or latent physical conditions which differ materially from those intended in the Contract Documents, and which could not reasonably have been anticipated by CONTRACTOR, a Change Order authorizing CONTRACTOR to perform the additional work may be issued incorporating the necessary revisions.

Reference Points:

4.4. OWNER shall provide engineering surveys for construction to establish reference points which in his judgment are necessary to enable CONTRACTOR to proceed with the Work. CONTRACTOR shall be responsible for laying out the Work (unless otherwise specified in the General Requirements), shall protect and preserve the established reference points and shall make no changes or relocations without the prior written approval of OWNER. CONTRACTOR shall report to ENGINEER whenever any reference point is lost or destroyed or requires relocation because of necessary changes in grades or locations, and shall be responsible for replacement or relocation of such reference points by professionally qualified personnel.

ARTICLE 5 - BONDS AND INSURANCE

Performance and Other Bonds:

5.1. CONTRACTOR shall furnish Performance and Payment Bonds, each in an amount at least equal to the Contract Price as security for the faithful performance and payment of all CONTRACTOR's obligations under the Contract Documents. The City will record the bonds in the public records at the CONTRACTOR's expense. These Bonds shall remain in effect at least until one (1) year after the date of final payment, except as otherwise provided by law. All bonds shall be deemed to contain all of the Conditions of Section 255.05, Florida Statutes, even if such language is not directly contained within the bond. CONTRACTOR shall also furnish such other Bonds as are required by the Supplementary Conditions. All Bonds shall be in the forms prescribed by the bidding documents or Supplementary Conditions and be executed by such Sureties as (i) are licensed to conduct business in the State of Florida, and (ii) are named in the current list of "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies" as published in Circular 570 (amended) by the Audit Staff Bureau of Accounts, U.S. Treasury Department. All Bonds signed by an agent must be accompanied by a certified copy of the authority to act.

5.2. If the Surety on any Bond furnished by CONTRACTOR is declared bankrupt or becomes insolvent or its right to do business is terminated in the State of Florida or it ceases to meet the requirements of clauses (i) and (ii) of paragraph 5.1, CONTRACTOR shall within five (5) days after notice thereof, substitute another Bond and Surety, both of which shall meet the requirements of clauses (i) and (ii) of paragraph 5.1.

CONTRACTOR's Liability Insurance:

5.3. CONTRACTOR and on-site Subcontractors shall purchase and maintain such Commercial General Liability and other insurance as will provide protection from claims set forth below which may arise out of or result from CONTRACTOR's performance of the Work and CONTRACTOR's other obligations under the Contract Documents, whether such performance is by CONTRACTOR, by any Subcontractor, by anyone directly or indirectly employed by any of them, or by anyone for whose acts any of them may be liable;

5.3.1. Claims under workers' compensation, disability benefits and other similar employee benefit acts;

5.3.2. Claims for damages because of bodily injury, occupational sickness or disease, or death of CONTRACTOR's employees;

5.3.3. Claims for damages because of bodily injury, sickness or disease, or death of any person other than CONTRACTOR's employees.

5.3.4. Claims for damages insured by personal injury liability coverage which are sustained (i) by any person as a result of an offense directly or indirectly related to the employment of such person by CONTRACTOR, or (ii) by any other person for any other reason.

5.3.5. Claims for damages, other than to the Work itself, because of injury to or destruction of tangible property, including loss of use resulting therefrom; and

5.3.6. Claims for damages because of bodily injury or death of any person or property damage arising out of the ownership, maintenance or use of any motor vehicle.

The insurance required by this paragraph 5.3 shall include the specific coverages and be written for not less than the limits of liability and coverages provided in the **Supplementary Conditions**, or required by law, whichever is greater. The Commercial General Liability insurance shall include completed operations insurance. All such insurance shall contain a provision that the coverage afforded will not be canceled, materially changed or renewal refused until at least **sixty** (60) days prior written notice of such cancellation, non-renewal or change (except for nonpayment of premium, which shall be fifteen (15) days) has been given to OWNER. All such insurance shall remain in effect until final payment and at all times thereafter when CONTRACTOR may be correcting, removing or replacing defective Work in accordance with paragraph 13.12. In addition, CONTRACTOR shall maintain such completed operations insurance for at least two years after final payment and furnish OWNER with evidence of continuation of such insurance at final payment and one year thereafter.

Contractual Liability Insurance:

5.4. The Commercial General Liability insurance required by paragraph 5.3 will include contractual liability insurance applicable to CONTRACTOR's obligations under paragraphs 6.15 and 6.16. The OWNER shall be named as "Additionally Insured" under the CONTRACTOR's Commercial General Liability insurance policy.

Owner's Liability Insurance:

5.5. OWNER may, at its option, purchase and maintain its own liability insurance and, at its option, may purchase and maintain such insurance as will protect OWNER against claims which may arise from operations under the Contract Documents.

Property Insurance:

5.6. CONTRACTOR shall purchase and maintain property insurance upon the Work at the site to the full insurable value thereof (subject to such deductible amounts as may be provided in the Supplementary Conditions or required by law). This insurance shall include the interests of

OWNER, CONTRACTOR, and Subcontractors in the Work, shall insure against the perils of fire and extended coverage and shall include "all risk" insurance for physical loss and damage including theft, vandalism and malicious mischief, collapse and water damage, and such other perils as may be provided in the Supplementary Conditions, and shall include damages, losses and expenses arising out of or resulting from any insured loss or incurred in the repair or replacement of any insured property (including fees and charges of engineers, architects, attorneys and other professionals). If not covered under the "all risk" insurance or otherwise provided in the Supplementary Conditions, CONTRACTOR shall purchase and maintain similar property insurance on portions of the Work stored on and off the site or in transit when such portions of the Work are to be included in the Application for Payment. The policies of insurance required to be purchased and maintained by CONTRACTOR in accordance with paragraphs 5.6 and 5.7 shall contain provisions that the coverage afforded will not be canceled or materially changed until at least **sixty** (60) days prior written notice has been given to OWNER.

5.7. CONTRACTOR shall purchase and maintain such boiler and machinery insurance as may be required by the Supplementary Conditions or by law. This insurance shall include the interests of OWNER, CONTRACTOR and Subcontractors in the Work.

5.8. OWNER shall not be responsible for purchasing and maintaining any property insurance to protect the interests of CONTRACTOR or Subcontractors in the Work to the extent of any deductible amounts that are provided in the Supplementary Conditions. If CONTRACTOR wishes property insurance coverage within the limits of such amounts, CONTRACTOR may purchase and maintain it at his own expense.

5.9. If CONTRACTOR requests in writing that other special insurance be included in the property insurance policy, OWNER shall, if possible, include such insurance, and the cost thereof shall be charged to CONTRACTOR by appropriate Change Order. Prior to commencement of the Work at the site, OWNER shall in writing advise CONTRACTOR whether or not such other insurance has been procured by OWNER.

Waiver of Rights:

5.10. OWNER and CONTRACTOR waive all rights against each other and the Subcontractors and their agents and employees and separate contractors (if any) and their subcontractors' agents and employees, for damages caused by fire or other perils to the extent covered by insurance provided under paragraphs 5.6 and 5.7, inclusive, or any other property insurance applicable to the Work, except such rights as they may have to the proceeds of such insurance held by OWNER as trustee. OWNER shall require similar written waivers from each separate contractor, and CONTRACTOR shall require similar written waivers from each Subcontractor (in accordance with paragraph 6.8 as applicable); each such waiver will be in favor of all other parties enumerated in this paragraph 5.10.

Receipt and Application of Proceeds:

5.11. Any insured loss under the policies of insurance required by paragraphs 5.6 and 5.7 shall be adjusted with CONTRACTOR and made payable to CONTRACTOR as trustee for the insured, as their interests may appear, subject to the requirements of paragraph 5.12. CONTRACTOR shall

deposit in a separate account any money so received, and shall distribute it in accordance with such agreement as the parties in interest may reach. If no other special agreement is reached the damaged Work shall be repaired or replaced, the moneys so received applied on account thereof and the Work and the cost thereof covered by an appropriate Change Order.

5.12. CONTRACTOR as trustee shall have power to adjust and settle any loss with the insurers unless one of the parties in interest shall object in writing within fifteen days after the occurrence of loss to CONTRACTOR's exercise of this power. If such objection be made, CONTRACTOR as trustee shall make settlement with the insurers in accordance with such agreement as the parties in interest may reach. If required in writing by any party in interest, CONTRACTOR as trustee shall upon the occurrence of an insured loss, give bond for the proper performance of his duties.

Acceptance of Bonds and Insurance:

5.13. If OWNER has any objection to the coverage afforded by or other provisions of the Bonds or Insurance required to be purchased and maintained by CONTRACTOR in accordance with Article 5 on the basis of non-conformance with the Contract Documents, OWNER shall so notify CONTRACTOR in writing within ten days after receipt of the certificates (or other evidence requested) required by paragraph 2.6. CONTRACTOR shall provide to OWNER such additional information in respect of insurance provided as OWNER may reasonably request. If CONTRACTOR does not purchase or maintain all of the Bonds and Insurance required of CONTRACTOR by the Contract Documents, CONTRACTOR shall notify OWNER in writing of such failure to purchase prior to the start of the Work, or such failure to maintain prior to any change in the required coverage. Without prejudice to any other right or remedy, OWNER may elect to obtain equivalent Bonds or Insurance to protect OWNER's interests at the expense of CONTRACTOR, and a Change Order shall be issued to adjust the Contract Price accordingly.

Partial Utilization - Property Insurance:

5.14. If OWNER finds it necessary to occupy or use a portion or portions of the Work prior to Substantial Completion of all the Work, such use or occupancy may be accomplished in accordance with paragraph 14.7; provided that no such use or occupancy shall commence before the insurers providing the property insurance have acknowledged notice thereof and in writing effected the changes in coverage necessitated thereby. The insurers providing the property insurance shall consent by endorsement on the policy or policies that the property insurance shall not be canceled or lapse on account of any such partial use of occupancy.

ARTICLE 6 - CONTRACTOR'S RESPONSIBILITIES

Supervision and Superintendence:

6.1. CONTRACTOR shall supervise and direct the Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents. CONTRACTOR shall be solely responsible for the means, methods, techniques, sequences and procedures of construction.

CONTRACTOR shall be responsible to see that the finished Work complies accurately with the Contract Documents.

6.2. CONTRACTOR shall keep on the Work at all times during its progress a competent resident superintendent, who shall not be replaced without written notice to OWNER except under extraordinary circumstances. The superintendent will be CONTRACTOR's representative at the site and shall have authority to act on behalf of CONTRACTOR. All communications given to the superintendent shall be as binding as if given to CONTRACTOR.

Materials and Equipment:

6.3. All materials and equipment installed in the Work shall be of good quality and new, except as otherwise provided in the Contract Documents. If required by ENGINEER, CONTRACTOR shall furnish satisfactory evidence (including reports of required tests) as to the kind and quality of materials and equipment.

Equipment manufacturers/suppliers must agree to OWNER'S terms of purchase. In no event will OWNER accept terms of sale that limit OWNER'S ability to reasonably recover in the event of equipment failure/defect such as, but not limited to; mandatory arbitration clauses, venue of court proceedings and applicable law outside of Volusia County, Florida, or damage limitations that preclude recovery for failed or defective equipment that would be less than full compensation for OWNER's loss.

6.4. All materials and equipment shall be applied, installed, connected, erected, used, cleaned and conditioned in accordance with the instructions of the applicable manufacturer, fabricator, supplier or distributor, except as otherwise provided in the Contract Documents.

Concerning Subcontractors:

6.5. CONTRACTOR shall not employ any Subcontractor or other person or organization (including those who are to furnish the principal items of materials or equipment), whether initially or as a substitute, to which OWNER may have any reasonable objection. CONTRACTOR shall submit with his Bid in writing the names, mailing addresses, and work classifications of all Subcontractors proposed for the Work. The failure to list all Subcontractors proposed for the Work may result in the Bid being rejected as incomplete and nonresponsive. A Subcontractor or other person or organization identified in writing to OWNER by CONTRACTOR prior to the Notice of Award and not objected to in writing by OWNER prior to the Notice of Award will be deemed acceptable to OWNER. Acceptance of any Subcontractor, other person or organization of OWNER shall not constitute a waiver of any right of OWNER to reject defective Work. If OWNER after due investigation has reasonable objection to any Subcontractor, other person or organization proposed by CONTRACTOR after the Notice of Award because the qualifications and experience of the Subcontractor, other person or organization indicate that he cannot perform or provide work, materials or equipment which will perform the specified functions, CONTRACTOR shall submit an acceptable substitute and the Contract Price shall be increased or decreased by the difference in cost occasioned by such substitution, and an appropriate Change Order may be issued. CONTRACTOR shall not be required to employ any Subcontractor, other person or organization to which CONTRACTOR has any reasonable objection. Whether

objections are reasonable shall be determined as specified in paragraph 9.8.

6.6. CONTRACTOR shall be fully responsible for all acts and omissions of his Subcontractors and of persons and organizations directly or indirectly employed by them and of persons and organizations for whose acts any of them may be liable to the same extent that CONTRACTOR is responsible for the acts and omissions of persons directly employed by CONTRACTOR. Nothing in the Contract Documents shall create any contractual relationship between OWNER and any Subcontractor or other person or organization having a direct contact with CONTRACTOR, nor shall it create any obligation on the part of OWNER to pay or to see to the payment of any moneys due any Subcontractor or other person or organization, except as may otherwise be required by law. OWNER may furnish to any Subcontractor or other person or organization, to the extent practicable, evidence of amounts paid to CONTRACTOR on account of specific Work done.

6.7. The divisions and sections of the Specifications and the identifications of any Drawings shall not control CONTRACTOR in dividing the Work among Subcontractors or delineating the Work to be performed by any specific trade.

6.8. All Work performed for CONTRACTOR by a Subcontractor will be pursuant to an appropriate agreement between CONTRACTOR and the Subcontractor which specifically binds the Subcontractor to the applicable terms and conditions of the Contract Documents for the benefit of OWNER and contains waiver provisions as required by paragraph 5.10. CONTRACTOR shall pay each Subcontractor an appropriate share of any insurance proceeds received by CONTRACTOR on account of losses under policies issued pursuant to paragraphs 5.6 through 5.8.

6.9. Neither the OWNER nor the ENGINEER will undertake to settle any differences between CONTRACTOR and his Subcontractors or between Subcontractors.

Patent Fees and Royalties:

6.10. CONTRACTOR shall pay all license fees and royalties and assume all costs incident to the use in the performance of the Work or the incorporation in the Work of any invention, design, process, product or device which is the subject of patent rights or copyrights held by others. If a particular invention, design, process, product or device is specified in the Contract Documents for use in the performance of the Work and if to the actual knowledge of OWNER its use is subject to patent rights or copyrights calling for the payment of any license fee or royalty to others, the existence of such rights shall be disclosed by OWNER in the Contract Documents. CONTRACTOR shall **indemnify** and **hold harmless** OWNER and anyone directly or indirectly employed by either of them from and against all claims, damages, losses and expenses (including attorneys' fees) arising out of any infringement of patent rights or copyrights incident to the use in the performance of the Work or resulting from the incorporation in the Work of any invention, design, process, product or device not specified in the Contract Documents, and shall defend all such claims in connection with any alleged infringement of such rights. OWNER will promptly notify CONTRACTOR of any such allegation of infringement of such rights.

Safety and Protection:

6.11. Precaution shall be exercised at all times by the CONTRACTOR for the protection of all persons, including employees, and property. The CONTRACTOR shall comply with all laws, regulations or ordinances related to safety and health, shall make special effort to detect hazardous conditions, and shall take prompt action where loss control/safety measures are reasonably expected. The OWNER may order work to be stopped if conditions exist that present on immediate danger to persons or property. The CONTRACTOR acknowledges that such stoppage will not shift responsibility for any damages from the CONTRACTOR to the OWNER.

6.12. CONTRACTOR be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work. CONTRACTOR shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:

6.12.1. All employees on the Work and other persons who may be affected thereby.

6.12.2. All the Work and all materials or equipment to be incorporated therein, whether in storage on or off the site, and

6.12.3. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of construction.

CONTRACTOR shall comply with all applicable laws, ordinances, rules, regulations and orders of any public body having jurisdiction for the safety of persons or property or to protect them from damage, injury or loss; and shall erect and maintain all necessary safeguards for such safety and protection. CONTRACTOR shall notify owners of adjacent property and utilities when prosecution of the Work may affect them. All damage, injury or loss to any property referred to in paragraph 6.12.2 or 6.12.3 caused, directly or indirectly, in whole or in part, by CONTRACTOR, any Subcontractor or anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, shall be remedied by CONTRACTOR. CONTRACTOR's duties and responsibilities for the safety and protection of the Work shall continue until such time as all the Work is completed and ENGINEER has issued a notice to OWNER and CONTRACTOR in accordance with paragraph 14.12 that the Work is acceptable.

6.13. CONTRACTOR shall designate a responsible member of his organization at the site whose duty shall be the prevention of accidents. This person shall be CONTRACTOR's superintendent unless otherwise designated in writing by CONTRACTOR to OWNER.

Emergencies:

6.14. In emergencies affecting the safety or protection of persons or the Work or property at the site or adjacent thereto, CONTRACTOR, without special instruction or authorization from OWNER, is obligated to act to prevent threatened damage, injury or loss. CONTRACTOR shall give OWNER prompt written notice of any significant changes in the Work or deviations from the Contract Documents caused thereby.

Indemnification/Hold Harmless:

6.15 The parties recognize that the CONTRACTOR is an independent contractor. The CONTRACTOR agrees to assume liability for and indemnify, hold harmless, and defend the CITY, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the CONTRACTOR, its agents, officers, contractors, subcontractors, employees, or anyone else utilized by the CONTRACTOR in the performance of this Agreement. The CONTRACTOR's liability hereunder shall include all attorney's fees and costs incurred by the CITY in the enforcement of this indemnification provision. This includes claims made by the employees of the CONTRACTOR against the CITY and the CONTRACTOR hereby waives its entitlement, if any, to immunity under Section 440.11, Florida Statutes. Such obligations contained in this provision shall survive termination of this Agreement and shall not be limited by the amount of any insurance required to be obtained or maintained under this Agreement.

In the event of any claim arising out of the paragraph above, the CITY will elect, in its sole discretion, that either:

1) The CONTRACTOR assume control of the defense of any claim asserted by a third party against the CITY and, in connection with such defense, shall appoint lead counsel, in each case at the CONTRACTOR's expense. The CITY shall have the right, at its option, to participate in the defense of any third party claim, without relieving CONTRACTOR of any of its obligations hereunder. If the CONTRACTOR assumes control of the defense of any third party claim in accordance with this paragraph, the CONTRACTOR shall obtain the prior written consent of the CITY before entering into any settlement of such claim. If the CONTRACTOR assumes control of the defense and the CONTRACTOR has failed or is failing to prosecute or defend vigorously the third party claim, the CITY may assume the control of the defense as provided by sub (2); or

2) The CITY will assume control of the defense of any third party claim, but CONTRACTOR shall pay the fees of counsel retained by the CITY and all expenses, including experts' fees.

Each party shall cooperate, and cause its agents to cooperate, in the defense or prosecution of any third party claim and shall furnish or cause to be furnished such records and information, and attend such conferences, discovery proceedings, hearings, trials, or appeals, as may be reasonably requested in connection therewith. It is further the specific intent and agreement of said parties that all the Contract Documents on this Project are hereby amended to include the foregoing indemnification. CONTRACTOR expressly agrees that it will not claim, and waives any claim, that this indemnification violates Section 725.06, Florida Statutes or is unenforceable pursuant to Section 725.06, Florida Statutes.

Nothing contained in the foregoing indemnification shall be construed as a waiver of any immunity or limitation of liability the CITY may have under the doctrine of sovereign immunity or Section 768.28, Florida Statutes.

Precaution shall be exercised at all times by the CONTRACTOR for the protection of all persons, including employees and property. The CONTRACTOR shall comply with all applicable laws, regulation and ordinances related to safety and health, shall make special efforts to detect hazardous conditions, and shall take prompt action with loss control/safety measures as are reasonably necessary. The CITY may order work to be stopped if conditions exist that present an immediate danger to persons or property. The CONTRACTOR acknowledges that such work stoppage will not shift responsibility for any damages from the CONTRACTOR to the CITY.

Payment on Behalf of OWNER:

6.16. The CONTRACTOR agrees to pay on behalf of the OWNER, and to pay the cost of the OWNER's legal defense, as may be selected by the OWNER, for all claims described in 6.15 Indemnification/Hold Harmless. Such payment on behalf of the OWNER shall be in addition to any and all other legal remedies available to the OWNER and shall not be considered to be the OWNER's exclusive remedy.

ARTICLE 7 - WORK BY OTHERS

7.1. OWNER may perform additional work related to the Project by itself, or have additional work performed by utility service companies, or let other direct contracts therefor which shall contain General Conditions similar to these. CONTRACTOR shall afford the utility service companies and the other contractors who are parties to such direct contracts (or OWNER, if OWNER is performing the additional work with OWNER's employees) reasonable opportunity for the introduction and storage of materials and equipment and the execution of work, and shall properly connect and coordinate his Work with theirs.

7.2. If any part of CONTRACTOR's Work depends for proper execution or results upon the work of any such other contractor or utility service company (or OWNER), CONTRACTOR shall inspect and promptly report to ENGINEER in writing any patent or apparent defects or deficiencies in such work that render it unsuitable for such proper execution and results. CONTRACTOR's failure so to report shall constitute an acceptance of the work as fit and proper for integration with CONTRACTOR's Work except for latent or non-apparent defects and deficiencies in the other work.

7.3. If the performance of additional work by other contractors or utility service companies or OWNER was not noted in the Contract Documents, written notice thereof shall be given to CONTRACTOR prior to starting any such additional work. If CONTRACTOR believes that the performance of such additional work by OWNER or others involves additional expense to CONTRACTOR or requires an extension of the Contract Time, CONTRACTOR may make a claim therefor as provided in Articles 11 and 12.

7.4. Should any other contractor having, or who shall hereafter have, a contract with

OWNER for the performance of work upon the site of the Work to be performed hereunder sustain any damage through any act or omission of CONTRACTOR hereunder or through any act or omission of any Sub-contractor of CONTRACTOR, CONTRACTOR agrees to reimburse such other contractor for all such damages and to indemnify, defend and hold OWNER harmless from all such claims.

ARTICLE 8 - OWNER'S RESPONSIBILITIES

8.1. OWNER shall issue all communications to CONTRACTOR through ENGINEER.

8.2. OWNER shall furnish the data required of OWNER under the Contract Documents promptly and shall make payments to CONTRACTOR promptly after they are due as provided in paragraphs 14.3 and 14.10.

8.3. OWNER's duties with respect to providing lands and easements and providing engineering surveys to establish reference points are set forth in paragraphs 4.1 and 4.4. Paragraph 4.2 refers to OWNER's identifying and making available to CONTRACTOR copies of reports of investigations and tests of subsurface and latent physical conditions at the site or otherwise affecting performance of the Work which have been relied upon by ENGINEER in preparing the Drawings and Specifications.

8.4. OWNER's responsibilities with respect to the purchase and maintenance of liability insurance are set forth in paragraph 5.5.

8.5. In connection with OWNER's rights to request changes in the Work in accordance with Article 10, OWNER (especially in certain instances as provided in paragraph 10.4) may execute Change Orders.

8.6. OWNER's responsibility with respect to certain inspections, tests and approvals is set forth in paragraph 13.4.

8.7. The provisions relative to the OWNER's right to stop Work or suspend Work are set forth in paragraphs 6.11, 13.10 and 15.1.

ARTICLE 9 - ENGINEER'S STATUS DURING CONSTRUCTION

9.1. ENGINEER will be OWNER's representative during the construction period. The authority of ENGINEER shall, under no circumstances, relieve CONTRACTOR from CONTRACTOR's responsibilities to perform the Work in accordance with this Contract.

Clarifications and Interpretations:

9.2. ENGINEER will issue with reasonable promptness such written clarifications or interpretations of the Contract Documents (in the form of Drawings or otherwise) as ENGINEER may determine necessary, which shall be consistent with or reasonably inferable from the overall

intent of the Contract Documents. If CONTRACTOR believes that a written clarification or interpretation justifies an increase in the Contract Price or Contract Time, CONTRACTOR may make a claim therefor as provided in Article 11 or Article 12.

Rejecting Defective Work:

9.3. ENGINEER will have authority to disapprove or reject WORK which is defective, and will also have authority to require special inspection or testing of the Work as provided in paragraph 13.9, whether or not the Work is fabricated, installed or completed.

Change Orders and Payments:

9.4. In connection with ENGINEER's responsibilities as to Change Orders, see Articles 10, 11 and 12.

9.5 In connection with ENGINEER's responsibilities as to Applications for Payment, etc., see Article 14.

Project Representation:

9.6. ENGINEER may designate a Project Representative to assist ENGINEER in inspecting the performance of the Work. The duties, responsibilities and limitations of authority of any such Project Representative and assistants will be as provided in paragraphs 9.6.1 through 9.6.3.

9.6.1. General: Project Representative is ENGINEER's Agent. He shall have the authority to do anything which the ENGINEER could do. His dealings in matters pertaining to the on-site work will in general be only with OWNER, ENGINEER and CONTRACTOR. His dealings with subcontractors will only be through or with the full knowledge of CONTRACTOR or his superintendent.

9.6.2. Duties and Responsibilities: Project Representative shall:

9.6.2.1. Schedules: Review the progress schedule, schedule of Shop Drawing submissions, schedule of values and other schedules prepared by CONTRACTOR and consult with ENGINEER concerning their acceptability.

9.6.2.2. Conferences: Attend preconstruction conferences.

9.6.2.3. Liaison: Serve as ENGINEER's liaison with CONTRACTOR, working principally through CONTRACTOR's superintendent, and assist him in understanding the intent of the Contract Documents. Assist in obtaining from OWNER additional details or information, when required at the job site for proper execution of the Work.

9.6.2.4. Shop Drawings and Samples: Receive and record date of receipt of Shop Drawings and samples which have been furnished by CONTRACTOR. Review the Shop Drawings for conformance with the information given in the Contract Documents. Provide office review and approval of Shop Drawings (as that term is defined in Article 1) and samples, the results of tests

and inspections and other data which any contractor is required to submit, but only for conformance with the design concept of the project and compliance with the information given in the Contract Documents; determine the acceptability of substitute materials and equipment proposed by CONTRACTOR(S); and receive and review (for general content as required by the Specifications) maintenance and operating instructions, schedules, guarantees, bonds and certificates of inspection which are to be assembled by CONTRACTOR(S) in accordance with the Contract Documents.

9.6.2.5. Review of Work, Rejection of Defective Work, Inspections and Tests: Conduct on-site inspections of the Work in progress to assist ENGINEER in determining that the Project is proceeding in accordance with the Contract Documents and that completed Work will conform to the Contract Documents. Report to ENGINEER whenever he believes that any Work is unsatisfactory, faulty or defective or does not conform to the Contract Documents, or has been damaged, or does not meet the requirements of any inspections, tests or approvals required to be made; and advise ENGINEER when he believes Work should be corrected or rejected or should be uncovered for observation, or requires special testing or inspection. Verify that tests, equipment and systems start-ups and operating and maintenance instructions are conducted as required by the Contract Documents and in the presence of the required personnel, and that CONTRACTOR maintains adequate records thereof; observe, record and report appropriate details relative to the test procedures and start-ups.

9.6.2.6. Modifications: Consider and evaluate CONTRACTOR's suggestions for modifications in Drawings or Specifications and report them to ENGINEER with recommendations. Prepare change orders as required; he may, as OWNER's representative, require special inspection or testing of the work; he shall act as interpreter of the requirements of the Contract Documents, judge of the performance thereunder by the parties thereto, and transmitter of clarification and interpretation of the Contract Documents. Process contract change orders to reflect final measured contract quantities and to reflect changes in the contract Drawings and Specifications.

9.6.2.7. Payment Requisitions: Based on his on-site observations and on his review of CONTRACTOR(S) applications for payment and the accompanying data and schedules, determine the amounts owed the CONTRACTOR(S). The ENGINEER will then approve in writing payments to CONTRACTOR(S) in such amounts; such approvals of payment will constitute a presentation to OWNER, based on such observations and review, that the Work has progressed to the point indicated and that, to the best of his knowledge, information and belief, the quality of the Work is in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning Project upon Substantial Completion, to the results of any subsequent tests called for in the Contract Documents, and to any qualifications stated in his approval).

9.6.2.8. Guarantees, Certificates, Maintenance and Operation Manuals: During the course of the Work verify that guarantees, certificates, maintenance and operation manuals and other data required to be assembled and furnished by CONTRACTOR are applicable to the items actually installed; and deliver this data to ENGINEER for his review prior to final acceptance of the Project.

9.6.2.9. Completion: Before ENGINEER issues a Certificate of Substantial Completion, submit to CONTRACTOR a list of observed items requiring correction. Conduct final inspection in the company of CONTRACTOR and prepare a final list of items to be corrected. Verify that all items

on final list have been corrected and make recommendations to ENGINEER concerning acceptance.

9.6.3. Limitations of Authority: The Project Representative; shall not undertake any of the responsibilities of CONTRACTOR, subcontractors or CONTRACTOR's superintendent; shall not expedite Work for CONTRACTOR; shall not advise on or issue directions as to safety precautions and programs in connection with the Work; and shall not assist CONTRACTOR in maintaining up-to-date copies of Record Drawings.

Decisions on Disagreements:

9.7. ENGINEER will be the initial interpreter of the requirements of the Contract Documents and judge of the acceptability of the Work thereunder. Claims, disputes and other matters relating to the acceptability of the Work or the interpretation of the requirements of the Contract Documents pertaining to the execution and progress of the Work shall be referred initially to ENGINEER in writing with a request for a formal decision in accordance with this paragraph, which ENGINEER will render in writing within a reasonable time. Written notice of each such claim, dispute and other matter shall be delivered by the claimant to ENGINEER and the other party to the Agreement within fifteen days of the occurrence of the event giving rise thereto, and written supporting data will be submitted to ENGINEER and the other party within forty-five days of such occurrence unless ENGINEER allows an additional period of time to ascertain more accurate data. Failure to give the required notice constitutes a waiver of the claim.

9.8. The rendering of a decision by ENGINEER pursuant to paragraph 9.7 with respect to any such claim, dispute or other matter (except any which have been waived by the making or acceptance of final payment as provided in paragraph 14.13) will be a condition precedent to any exercise by OWNER or CONTRACTOR of such rights or remedies as either may otherwise have under the Contract Documents or at law in respect of any such claim, dispute or other matter. If the Owner agrees to pay all or part of a claim for which notice was not timely made, such agreement shall not be deemed a waiver of the right to enforce notice requirements in connection with any other claim.

Limitations on ENGINEER's Responsibilities:

9.9. Neither ENGINEER's authority to act under this Article 9 or elsewhere in the Contract Documents nor any decision made by ENGINEER in good faith either to exercise or not exercise such authority shall give rise to any duty or responsibility of ENGINEER to CONTRACTOR, any Subcontractor, any manufacturer, fabricator, supplier or distributor, or any of their agents or employees or any other person performing any of the Work.

9.10. Whenever in the Contract Documents the terms "as ordered", "as directed", "as required", "as allowed" or terms of like effect or import are used, or the adjective "reasonable", "suitable" , "acceptable", "proper" or "satisfactory" or adjectives of like effect or import are used, to describe requirements, decision, review or judgment of ENGINEER as to the Work, it is intended that such requirement, direction, review or judgment will be solely to evaluate the Work for compliance with the Contract Documents (unless there is a specific statement indicating otherwise). The use of any such term or adjective never indicates that ENGINEER shall have

authority to supervise or direct performance of the Work or authority to undertake responsibility contrary to the provisions of paragraphs 9.11 or 9.12.

9.11. ENGINEER will not be responsible for CONTRACTOR's means, methods, techniques, sequences or procedures of construction, or the safety precautions and programs incident thereto, and ENGINEER will not be responsible for CONTRACTOR's failure to perform the Work in accordance with the Contract Documents.

9.12. ENGINEER will not be responsible for the acts or omissions of CONTRACTOR or of any Subcontractors, or of the agents or employees of any CONTRACTOR or Subcontractor, or of any other persons at the site or otherwise performing any of the Work.

ARTICLE 10 - CHANGES IN THE WORK

10.1. Without invalidating the Agreement, OWNER may, at any time or from time to time, order additions, deletions or revisions in the Work; these will be authorized by Change Orders. Upon receipt of a Change Order, CONTRACTOR shall proceed with the Work involved. All such Work shall be executed under the applicable conditions of the Contract Documents. If any Change Order causes an increase or decrease in the Contract Price or an extension or shortening of the Contract Time, an equitable adjustment will be made as provided in Article 11 or Article 12 on the basis of a claim made by either party.

10.2. ENGINEER may authorize minor changes in the Work not involving an adjustment in the Contract Price of the Contract Time, which are consistent with the overall intent of the Contract Documents. These may be accomplished by a Field Order and shall be binding on OWNER, and also on CONTRACTOR who shall perform the change promptly. If CONTRACTOR believes that a Field Order justifies an increase in the Contract Price or Contract Time, CONTRACTOR may make a claim therefor as provided in Article 11 or Article 12.

10.3. Additional Work performed without authorization of a Change Order will not entitle CONTRACTOR to an increase in the Contract Price or an extension of the Contract Time, except in the case of an emergency as provided in paragraph 6.14 and except as provided in paragraphs 10.2 and 13.9.

10.4. OWNER may execute appropriate Change Orders covering changes in the Work which are required by OWNER, or required because of unforeseen physical conditions or emergencies, or because of uncovering Work found not to be defective or as provided in paragraph 11.9, or because of any other claim of CONTRACTOR for a change in the Contract Time or the Contract Price which is recommended by ENGINEER.

10.5. If notice of any change affecting the general scope of the Work or change in the Contract Price is required by the provisions of any Bond to be given to the Surety, it will be CONTRACTOR's responsibility to so notify the Surety, and the amount of each applicable Bond shall be adjusted accordingly. CONTRACTOR shall furnish proof of such adjustment to OWNER.

ARTICLE 11 - CHANGE OF CONTRACT PRICE

11.1. The Contract Price constitutes the total compensation (subject to authorized adjustments) payable by OWNER to CONTRACTOR for performing the Work. All duties, responsibilities and obligations assigned to or undertaken by CONTRACTOR shall be at his expense without change in the Contract Price.

11.2. The Contract Price may only be changed by a Change Order. Any claim for an increase in the Contract Price shall be based on written notice delivered to ENGINEER within fifteen days of the occurrence of the event giving rise to the claim. Notice of the amount of the claim with supporting data shall be delivered within forty-five days of such occurrence unless ENGINEER allows an additional period of time to ascertain accurate cost data.

11.3. The value of any Work covered by a Change Order or of any claim for an increase or decrease in the Contract Price shall be determined in one of the following ways:

11.3.1. Where the Work involved is covered by unit prices contained in the Contract Documents, by application of unit prices to the quantities of the items involved (subject to the provisions of paragraph 11.9).

11.3.2. By mutual acceptance of a lump sum.

11.3.3. On the basis of the Cost of the Work (determined as provided in paragraphs 11.4 and 11.5) plus a Contractor's Fee for overhead and profit (determined as provided in paragraph 11.6).

Cost of the Work:

11.4. The term Cost of the Work means the sum of all costs necessarily incurred and paid by CONTRACTOR in the proper performance of the Work. Except as otherwise may be agreed to in writing by OWNER, such costs shall be in amounts no higher than those prevailing in the locality of the Project, shall include only the following items and shall not include any of the costs itemized in paragraph 11.5:

11.4.1. Payroll costs for employees in the direct employ of CONTRACTOR in the performance of the Work under schedules of job classifications agreed upon in advance by OWNER and CONTRACTOR. Payroll costs for employees not employed full time on the Work shall be apportioned on the basis for their time spent on the Work. Payroll cost shall include, but not be limited to, salaries and wages plus the cost of fringe benefits which shall include social security contributions, unemployment, excise and payroll taxes, workers' compensation, health and retirement benefits, sick leave, vacation and holiday pay applicable thereto. Such employees shall include superintendents and foremen at the site.

11.4.2. Cost of all materials and equipment furnished and incorporated in the Work, including costs of transportation and storage thereof, and manufacturers' field services required in connection therewith. All cash discounts shall accrue to CONTRACTOR unless OWNER deposits funds with CONTRACTOR with which to make payments, in which case the cash discounts shall accrue to OWNER. All trade discounts, rebates and refunds, and all returns from sale of surplus materials

and equipment shall accrue to OWNER and CONTRACTOR shall make provisions so that they may be obtained.

11.4.3. Payments made by CONTRACTOR to the Subcontractors for Work performed by Subcontractors. CONTRACTOR shall obtain competitive bids from Subcontractors acceptable to CONTRACTOR and shall deliver such bids to OWNER who will then determine which bids will be accepted. If a subcontract provides that the Subcontractor is to be paid on the basis of Cost of the Work Plus a Fee, the Subcontractor's Cost of the Work shall be determined in the same manner as CONTRACTOR's Cost of the Work. All subcontracts shall be subject to the other provisions of the Contract Documents insofar as applicable.

11.4.4. Costs of special consultants (including, but not limited to, engineers, architects, testing laboratories, surveyors, lawyers and accountants) employed for services specifically related to the Work. Any such special consultants covered by the Consultants' Competitive Negotiations Act (Section 287.055, Florida Statutes), shall be selected in accordance with such Act.

11.4.5. Supplemental costs including the following:

11.4.5.1. The proportion of necessary transportation, travel and subsistence expenses of CONTRACTOR's employees incurred in discharge of duties connected with the Work.

11.4.5.2. Cost, including transportation and maintenance, of all materials, supplies, equipment, machinery, appliances, office and temporary facilities at the site and hand tools not owned by the workmen, which are consumed in the performance of the Work, and cost less market value of such items used but not consumed which remain the property of CONTRACTOR.

11.4.5.3. Rentals of all construction equipment and machinery and the parts thereof whether rented from CONTRACTOR or others in accordance with rental agreements approved by OWNER, and the costs of transportation, loading, unloading, installation, dismantling and removal thereof - all in accordance with terms of said rental agreements. The rental of any such equipment, machinery or parts shall cease when the use thereof is no longer necessary for the Work.

11.4.5.4. Sales, use or similar taxes related to the Work, and for which CONTRACTOR is liable, imposed by any government authority.

11.4.5.5. Deposits lost for causes other than CONTRACTOR's negligence, royalty payments and fees for permits and licenses.

11.4.5.6. Losses and damages (and related expenses), not compensated by insurance or otherwise, to the Work or otherwise sustained by CONTRACTOR in connection with the execution of the Work, provided they have resulted from causes other than the negligence of CONTRACTOR, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable. Such losses shall include settlements made with the written consent and approval of OWNER. No such losses, damages and expenses shall be included in the Cost of the Work for the purpose of determining Contractor’s Fee. If, however, any such loss or damage requires construction and CONTRACTOR is placed in charge thereof, CONTRACTOR shall be paid for services a fee proportionate to that stated in paragraph 11.6.2.

11.4.5.7. The cost of utilities, fuel and sanitary facilities at the site.

11.4.5.8. Minor expenses such as telegrams, long distance telephone calls, telephone service at the site, expressage and similar petty cash items in connection with the Work.

11.4.5.9. Cost of premiums for additional Bonds and insurance required because of changes in the Work.

11.5. The term Cost of the Work shall not include any of the following:

11.5.1. Payroll costs and other compensation of CONTRACTOR's officers, executives, principals (of partnership and estimators, lawyers, auditors, accountants, purchasing and contracting agents, expediters, timekeepers, clerks and other personnel employed by CONTRACTOR whether at the site or in his principal or a branch office for general administration of the Work and not specifically included in the agreed upon schedule of job classifications referred to in subparagraph 11.4.1. - all of which are to be considered administrative costs covered by the Contractor's Fee.

11.5.2. Expenses of CONTRACTOR's principal and branch offices other than CONTRACTOR's office at the site.

11.5.3. Any part of CONTRACTOR's capital expenses, including interest on CONTRACTOR's capital employed for the Work and charges against CONTRACTOR for delinquent payments.

11.5.4. Cost of premiums for all Bonds and for all insurance whether or not CONTRACTOR is required by the Contract Documents to purchase and maintain the same (except for additional Bonds and insurance required because of changes in the Work).

11.5.5. Costs, including damages, due to the negligence of intentional acts of CONTRACTOR, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable, including but not limited to, the correction of defective Work, disposal of materials or equipment wrongly supplied and making good any damage to property.

11.5.6. Other overhead or general expense costs of any kind and the costs of any item not specifically and expressly included in paragraph 11.4.

Contractor's Fee:

11.6. The Contractor's Fee allowed to CONTRACTOR for overhead and profit shall be determined as follows:

11.6.1. A mutually acceptable fixed fee; or if none can be agreed upon,

11.6.2. A fee based on the following percentages of the various portions of the Cost of the Work;

11.6.2.1. For costs incurred under paragraphs 11.4.1. and 11.4.2., the Contractor's Fee shall be ten percent,

11.6.2.2. For costs incurred under paragraph 11.4.3., the Contractor's Fee shall be five percent; and if a subcontract is on the basis of Cost of the Work Plus a Fee, the maximum allowable to the Subcontractor as a fee for overhead and profit shall be ten percent, and

11.6.2.3. No fee shall be payable on the basis of costs itemized under paragraphs 11.4.4., 11.4.5. and 11.5.

11.7. The amount of credit to be allowed by CONTRACTOR to OWNER for any such change which results in a net decrease in costs, will be the amount of the actual net decrease. When both additions and credits are involved in any one change, the combined overhead and profit shall be figured on the basis of the net increase, if any.

Adjustment of Unit Prices:

11.8. Whenever the cost of any Work is to be determined pursuant to paragraphs 11.4. and 11.5., CONTRACTOR will submit in form acceptable to ENGINEER an itemized cost breakdown together with supporting data.

11.9. Where the quantity of Work with respect to any item that is covered by a unit price differs materially and significantly from the quantity of such Work indicated in the Contract Documents, an appropriate Change Order may be issued on recommendation of ENGINEER to adjust the unit price.

ARTICLE 12 - CHANGE OF THE CONTRACT TIME

12.1. The Contract Time may only be changed by a written Change Order. Any claim for an extension in the Contract Time shall be based on written notice delivered to ENGINEER within fifteen days of the occurrence of the event giving rise to the claim. Notice of the extent of the claim with supporting data shall be delivered within forty-five days of such occurrence unless ENGINEER allows an additional period of time to ascertain more accurate data. All claims for adjustment in the Contract Time shall be determined by ENGINEER if OWNER and CONTRACTOR cannot otherwise agree. Any change in the Contract Time resulting from any such claim shall be incorporated in a written Change Order.

12.2. The Contract Time will be extended in an amount equal to time lost due to delays beyond the control of CONTRACTOR if a claim is made therefor as provided in paragraph 12.1. Such delays shall include, but not be limited to, acts or neglect by OWNER or others performing additional Work as contemplated by Article 7, or fires, floods, labor disputes, epidemics, abnormal weather conditions, or acts of God.

12.3. All time limits stated in the Contract Documents are of the essence of the Agreement. The CONTRACTOR shall not be entitled to any claim for damages on account of hindrances or delays from any cause whatsoever, but if occasioned by an act of God, or by any act or omission

on the part of the Owner, such act, hindrance or delay may entitle the CONTRACTOR to an extension of time in which to complete the work which shall be determined by the ENGINEER, provided that the CONTRACTOR will give notice in writing of the cause of such act, hindrance or delay within ten (10) days after its occurrence.

ARTICLE 13 - WARRANTY AND GUARANTEE; TESTS AND INSPECTIONS; CORRECTION, REMOVAL OR ACCEPTANCE OF DEFECTIVE WORK

Warranty and Guarantee:

13.1. CONTRACTOR warrants and guarantees to OWNER that all Work will be in accordance with the Contract Documents and will not be defective. Prompt notice of all defects shall be given to CONTRACTOR. All defective Work, whether or not in place, may be rejected, corrected or accepted as provided in this Article 13.

Access to Work:

13.2. ENGINEER and ENGINEER's representatives, other representatives of OWNER, testing agencies and governmental agencies with jurisdictional interests will have access to the Work at reasonable times for their observation, inspection and testing. CONTRACTOR shall provide proper and safe conditions for such access.

Tests and Inspections:

13.3. CONTRACTOR shall give ENGINEER timely notice of readiness of the Work for all required inspections, tests or approvals.

13.4. If any law, ordinance, rule, regulation, code, or order of any public body having jurisdiction requires any Work (or part thereof) to specifically be inspected, tested or approved, CONTRACTOR shall assume full responsibility therefor, pay all costs in connection therewith and furnish ENGINEER the required certificates of inspection, testing or approval. CONTRACTOR shall also be responsible for and shall pay all costs in connection with any inspection or testing required in connection with OWNER's acceptance of a manufacturer, fabricator, supplier, or distributor of materials or equipment proposed to be incorporated in the Work, or of materials or equipment submitted for approval prior to CONTRACTOR's purchase thereof for incorporation in the Work. The cost of all other inspections, tests and approvals required by the Contract Documents shall be paid by OWNER (unless otherwise specified).

13.5. All inspections, tests or approvals other than those required by law, ordinance, rule, regulation, code or order of any public body having jurisdiction shall be performed by organizations acceptable to OWNER and CONTRACTOR.

13.6. If any Work that is to be inspected, tested or approved is covered without written concurrence of ENGINEER, it must, if requested by ENGINEER, be uncovered for observation. Such uncovering shall be at CONTRACTOR's expense unless CONTRACTOR has given ENGINEER timely notice of CONTRACTOR's intention to cover such Work and ENGINEER

has not acted with reasonable promptness in response to such notice.

13.7. Neither observations by ENGINEER, nor inspections, tests or approvals by others shall relieve CONTRACTOR from his obligations to perform the Work in accordance with the Contract Documents, and in all events in no less than a workmanlike manner.

Uncovering Work:

13.8. If any Work is covered contrary to the written request of ENGINEER, it must, if requested by ENGINEER, be uncovered for ENGINEER's observation and replaced at CONTRACTOR's expense.

13.9. If ENGINEER considers it necessary or advisable that covered Work be observed by ENGINEER or inspected or tested by others, CONTRACTOR, at ENGINEER's request, shall uncover, expose or otherwise make available for observation, inspection or testing as ENGINEER may require, that portion of the Work in question, furnishing all necessary labor, material and equipment. If it is found that such Work is defective, CONTRACTOR shall bear all the expenses of such uncovering, exposure, observation, inspection and testing and of satisfactory reconstruction, including compensation for additional professional services, and an appropriate deductive Change Order shall be issued. If, however, such Work is not found to be defective, CONTRACTOR shall be allowed an increase in the Contract Price or an extension of the Contract Time, or both, directly attributable to such uncovering, exposure, observation, inspection, testing and reconstruction if he makes a claim therefor as provided in Articles 11 and 12.

Owner May Stop the Work:

13.10. If the Work is defective, or CONTRACTOR fails to supply sufficient skilled workmen or suitable materials or equipment, OWNER may order CONTRACTOR to stop the Work, or any portion thereof, until the cause of such order has been eliminated; however, this right of OWNER to stop the Work shall not give rise to any duty on the part of OWNER to exercise this right for the benefit of CONTRACTOR or any other party.

Correction or Removal of Defective Work:

13.11. If required by ENGINEER, CONTRACTOR shall promptly, without cost to OWNER and as specified by ENGINEER, either correct any defective Work, whether or not fabricated, installed or completed, or, if the Work has been rejected by ENGINEER, remove it from the site and replace it with nondefective Work.

One Year Correction Period:

13.12. If within one year after the date of Substantial Completion or such longer period of time as may be prescribed by law or by the terms of any applicable special guarantee required by the Contract Documents, any Work is found to be defective, CONTRACTOR shall promptly, without cost to OWNER and in accordance with OWNER's written instructions, either correct such defective Work, or, if it has been rejected by OWNER, remove it from the site and replace it with nondefective Work. If CONTRACTOR does not promptly comply with the terms of such

instructions, or in an emergency where delay would cause serious risk of loss or damage, OWNER may have the defective Work corrected or the rejected Work removed and replaced, and all direct and indirect costs of such removal and replacement, including compensation for additional professional services, shall be paid by CONTRACTOR.

Acceptance of Defective Work:

13.13. If, instead of requiring correction or removal and replacement of defective Work, OWNER prefers to accept it, OWNER may do so. In such case, if acceptance occurs prior to ENGINEER's recommendation of final payment, a Change Order shall be issued incorporating the necessary revisions in the Contract Documents, including appropriate reduction in the Contract Price; or, if the acceptance occurs after such recommendation, an appropriate amount shall be paid by CONTRACTOR to OWNER.

OWNER May Correct Defective Work:

13.14. If CONTRACTOR fails, within a reasonable time after written notice of ENGINEER to proceed, to correct and to correct defective Work or to remove and replace rejected Work as required by ENGINEER in accordance with paragraph 13.11., or if CONTRACTOR fails to perform the Work in accordance with the Contract Documents (including any requirements of the progress schedule), OWNER may, after seven days' written notice to CONTRACTOR, correct and remedy any such deficiency. In exercising his rights under this paragraph OWNER shall proceed expeditiously. To the extent necessary to complete corrective and remedial action, OWNER may exclude CONTRACTOR from all or part of the site, take possession of all or part of the Work, and suspend CONTRACTOR's services related thereto, take possession of CONTRACTOR's tools, appliances, construction equipment and machinery at the site and incorporate in the Work all materials and equipment stored at the site or for which OWNER has paid CONTRACTOR but which are stored elsewhere. CONTRACTOR shall allow OWNER, OWNER's representatives, agents and employees such access to the site as may be necessary to enable OWNER to exercise his rights under this paragraph. All direct and indirect costs of OWNER in exercising such rights shall be charged against CONTRACTOR in an amount verified by ENGINEER, and a Change Order shall be issued incorporating the necessary revisions in the Contract Documents and a reduction in the Contract Price. Such direct and indirect costs shall include, in particular but without limitation, compensation for additional professional services required and all costs of repair and replacement of work of others destroyed or damaged by correction, removal or replacement of CONTRACTOR's defective Work. CONTRACTOR shall not be allowed an extension of the Contract Time because of any delay in performance of the Work attributable to the exercise by OWNER of OWNER's rights hereunder.

ARTICLE 14 - PAYMENTS TO CONTRACTOR AND COMPLETION

Application for Progress Payment:

14.1. At least ten days before each progress payment falls due (but not more often than once a month), CONTRACTOR shall submit to ENGINEER for review an Application for Payment filled out and signed by CONTRACTOR covering the Work completed as of the date of the

Application and accompanied by such supporting documentation as is required by the Contract Documents and also as ENGINEER may reasonably require. If payment is requested on the basis of materials and equipment not incorporated in the Work but delivered and suitably stored at the site or at another location agreed to in writing, the Application for Payment shall also be accompanied by such data, satisfactory to OWNER, as will establish OWNER's title to the material and equipment and protect OWNER's interest therein, including applicable insurance. Each subsequent Application for Payment shall include an affidavit of CONTRACTOR stating that all previous progress payments received on account of the Work have been applied to discharge in full all of CONTRACTOR's obligations reflected in prior Applications for Payment. The amount of retainage with respect to progress payments will be as stipulated in the Form of Agreement, Article 5.

CONTRACTOR's Warranty of Title:

14.2. CONTRACTOR warrants and guarantees that title to all Work, materials and equipment covered by an Application for Payment, whether incorporated in the project or not, will pass to OWNER at the time of payment free and clear of all liens, claims, security interests and encumbrances (hereafter in these General Conditions referred to as "Liens").

Review of Applications for Progress Payment:

14.3. ENGINEER will, within ten days after receipt of each Application for Payment, either indicate in writing a recommendation of payment, or return the Application to CONTRACTOR indicating in writing ENGINEER's reasons for refusing to recommend payment. In the latter case, CONTRACTOR may make the necessary corrections and resubmit the Application. OWNER shall, within ten days of presentation to him of the ENGINEER's recommendation of payment, pay CONTRACTOR the amount recommended.

14.4. ENGINEER may refuse to recommend the whole or any part of any payment if, in his opinion, it would be incorrect to make such representations to OWNER. He may also refuse to recommend any such payment, or, because of subsequently discovered evidence or the results of subsequent inspections or tests, nullify any such payment previously recommended to such extent as may be necessary in ENGINEER's opinion to protect OWNER from loss because:

14.4.1. The Work is defective, or completed Work has been damaged requiring correction or replacement;

14.4.2. Written claims have been made against OWNER or Liens have been filed in connection with the Work;

14.4.3. The Contract Price has been reduced because of Modifications;

14.4.4. OWNER has been required to correct defective Work or complete the Work in accordance with paragraph 13.14;

14.4.5. Of CONTRACTOR's unsatisfactory prosecution of the Work in accordance with the Contract Documents, including failure to clean up;

14.4.6. Of liquidated damages payable by CONTRACTOR; or

14.4.7. CONTRACTOR's failure to make payment to Subcontractors, or for labor, materials or equipment.

Substantial Completion:

14.5. When CONTRACTOR considers the entire Work ready for its intended use CONTRACTOR shall, in writing to ENGINEER, certify that the entire Work is substantially complete and request that ENGINEER issue a certificate of Substantial Completion. Within a reasonable time thereafter, CONTRACTOR and ENGINEER shall make an inspection of the Work to determine the status of completion. If ENGINEER does not consider the Work substantially complete, ENGINEER will notify CONTRACTOR in writing giving his reasons therefor. If ENGINEER considers the Work substantially complete, ENGINEER will prepare a certificate of Substantial Completion which shall fix the date of Substantial Completion. There shall be attached to the certificate a list of items to be completed or corrected before final payment.

14.6. OWNER shall have the right to exclude CONTRACTOR from the Work after the date of Substantial Completion, but OWNER shall allow CONTRACTOR reasonable access to complete or correct items on the list.

Partial Utilization:

14.7. Use by OWNER of completed portions of the Work may be accomplished prior to Substantial Completion of all the Work subject to the following:

14.7.1. OWNER at any time may request CONTRACTOR in writing to permit OWNER to use any part of the Work which OWNER believes to be substantially complete and which may be so used without significant interference with construction of the other parts of the Work. If CONTRACTOR agrees, CONTRACTOR will certify to ENGINEER that said part of the Work is substantially complete and request ENGINEER to issue a certificate of Substantial Completion for that part of the Work. Within a reasonable time thereafter CONTRACTOR and ENGINEER shall make an inspection of that part of the Work to determine its status of completion. If ENGINEER does not consider that part of the Work to be substantially complete, ENGINEER will notify CONTRACTOR in writing giving his reasons therefor. If ENGINEER considers that part of the Work to be substantially complete, ENGINEER will execute and deliver to CONTRACTOR a certificate to that effect, fixing the date of Substantial Completion as to that part of the Work, attaching thereto a list of items to be completed or corrected before final payment. OWNER shall have the right to exclude CONTRACTOR from any part of the Work which ENGINEER has so certified to be substantially complete, but OWNER shall allow CONTRACTOR reasonable access to complete or correct items on the list.

14.7.2. In lieu of the issuance of a certificate of Substantial Completion as to part of the Work, OWNER may take over operation of a facility constituting part of the Work whether or not it is substantially complete if such facility is functionally and separately usable; provided that prior to any such takeover, OWNER and CONTRACTOR have agreed as to the division of responsibilities

between OWNER and CONTRACTOR for security, operation, safety, maintenance, correction period, heat, utilities and insurance with respect to such facility.

14.7.3. No occupancy of part of the Work or taking over of operations of a facility will be accomplished prior to compliance with the requirements of paragraph 5.14 with regard to property insurance.

Final Inspection:

14.8. Upon written notice from CONTRACTOR that the work is complete, ENGINEER will make a final inspection with CONTRACTOR and will notify CONTRACTOR in writing of all particulars in which this inspection reveals that the Work is incomplete or defective. CONTRACTOR shall immediately take such measures as are necessary to remedy such deficiencies.

Final Application for Payment:

14.9. After CONTRACTOR has completed all such corrections to the satisfaction of ENGINEER and delivered all maintenance and operating instructions, schedules, guarantees, Bonds, certificates of inspection, marked-up record documents and other documents - all as required by the Contract Documents, and after ENGINEER has indicated that the Work is acceptable (subject to the provisions of paragraph 14.13), CONTRACTOR may make application for final payment following the procedure for progress payments. The final Application for Payment shall be accompanied by all documentation called for in the Contract Documents and such other data and schedules as ENGINEER may reasonably require, together with complete and legally effective releases or waivers (satisfactory to OWNER) of all Liens arising out of or filed in connection with the Work. In lieu thereof and as approved by OWNER, CONTRACTOR may furnish receipts or releases in full; an affidavit of CONTRACTOR that the releases and receipts include all labor, services, material and equipment for which a Lien could be filed, and that all payrolls, material and equipment bills, and other indebtedness connected with the Work for which OWNER or his property might in any way be responsible, have been paid or otherwise satisfied; and consent of the Surety, if any, to final payment. If any Subcontractor, manufacturer, fabricator, supplier or distributor fails to furnish a release or receipt in full, CONTRACTOR may furnish a Bond or other collateral satisfactory to OWNER to indemnify OWNER against any Lien.

Final Payment and Acceptance:

14.10. If, on the basis of ENGINEER's observation of the Work during construction and final inspection, and ENGINEER's review of the final Application for Payment and accompanying documentation - all as required by the Contract Documents, ENGINEER is satisfied that the Work has been completed and CONTRACTOR has fulfilled all of his obligations under the Contract Documents, ENGINEER will, within ten days after receipt of the final Application for Payment, indicate in writing his recommendation of payment and present the Application for payment. Thereupon ENGINEER will give written notice to CONTRACTOR that the Work is acceptable subject to the provisions of paragraph 14.13. Otherwise, ENGINEER will return the Application to CONTRACTOR, indicating in writing the reasons for refusing to recommend final payment, in which case CONTRACTOR shall make the necessary corrections and resubmit the Application.

If the Application and accompanying documentation are appropriate as to form and substance, OWNER shall, within thirty days after receipt thereof pay CONTRACTOR the amount recommended by ENGINEER.

14.11. If, through no fault of CONTRACTOR, final completion of the Work is significantly delayed and if ENGINEER so confirms, OWNER shall, upon receipt of CONTRACTOR's final Application for Payment and recommendation of ENGINEER, and without terminating the Agreement, make payment of the balance due for that portion of the Work fully completed and accepted. If the remaining balance to be held by OWNER for Work not fully completed or corrected is less than the retainage stipulated in the Agreement, and if Bonds have been furnished as required in paragraph 5.1, the written consent of the Surety to the payment of the balance due for that portion of the Work fully completed and accepted shall be submitted by CONTRACTOR to ENGINEER with the Application for such payment. Such payment shall be made under the terms and conditions governing final payment, except that it shall not constitute a waiver of claims.

CONTRACTOR's Continuing Obligation:

14.12. CONTRACTOR's obligation to perform and complete the Work in accordance with the Contract Documents shall be absolute. Neither recommendation of any progress or final payment by ENGINEER, nor the issuance of a certificate of Substantial Completion, nor any payment by OWNER to CONTRACTOR under the Contract Documents, nor any use or occupancy of the Work or any part thereof by OWNER, nor any act of acceptance by OWNER nor any failure to do so, nor the issuance of a notice of acceptability by ENGINEER pursuant to paragraph 14.10, nor any correction of defective Work by OWNER shall constitute an acceptance of Work not in accordance with the Contract Documents or a release of CONTRACTOR's obligation to perform the Work in accordance with the Contract Documents.

Waiver of Claims:

14.13. The making and acceptance of final payment shall constitute:

14.13.1. A waiver of all claims by OWNER against CONTRACTOR, except claims arising from unsettled or unfiled Liens, from defective Work appearing after final inspection pursuant to paragraph 14.8 or from failure to comply with the Contract Documents or the terms of any special guarantees specified therein; however, it shall not constitute a waiver by OWNER of any rights in respect of CONTRACTOR's continuing obligations under the Contract Documents; and

14.13.2. A waiver of all claims by CONTRACTOR against OWNER other than those previously made in writing and still unsettled or unfiled.

ARTICLE 15 - SUSPENSION OF WORK AND TERMINATION

Owner May Suspend Work:

15.1. OWNER may, at any time and without cause, suspend the Work or any portion thereof for a period of not more than ninety days by notice in writing to CONTRACTOR and Surety which

shall fix the date on which Work shall be resumed. CONTRACTOR shall resume the Work on the date so fixed. CONTRACTOR may be allowed an increase in the Contract Price or an extension of the Contract Time, or both, directly attributable to any suspension of work at OWNER's request if he makes a claim therefor as provided in Articles 11 and 12.

Owner May Terminate:

15.2. Upon the occurrence of any one or more of the following events:

15.2.1. If CONTRACTOR is adjudged a bankrupt or insolvent;

15.2.2. If CONTRACTOR makes a general assignment for the benefit of creditors;

15.2.3. If a trustee or receiver is appointed for CONTRACTOR or for any of CONTRACTOR's property;

15.2.4. If CONTRACTOR files a petition to take advantage of any debtor's act, or to reorganize under the bankruptcy or similar laws;

15.2.5. If CONTRACTOR repeatedly fails to supply sufficient skilled workmen or suitable materials or equipment;

15.2.6. If CONTRACTOR repeatedly fails to make prompt payments to Subcontractors or for labor, materials or equipment;

15.2.7. If CONTRACTOR violates any laws, ordinances, rules, regulations or orders of any public body having jurisdiction;

15.2.8. If CONTRACTOR disregards the authority of ENGINEER; or

15.2.9. If CONTRACTOR otherwise violates in any substantial way any provisions of the Contract Documents.

OWNER may after giving CONTRACTOR and his Surety seven (7) days' written notice, terminate the services of CONTRACTOR, exclude CONTRACTOR from the site and take possession of the Work and of all CONTRACTOR's tools, appliances, construction equipment and machinery at the site and demand the Surety to finish the Work by whatever methods he may deem expedient but subject to the approval of OWNER. The Surety shall use the same to the full extent they could be used by CONTRACTOR (without liability to CONTRACTOR for trespass or conversion), incorporate in the Work all materials and equipment stored at the site or for which OWNER has paid CONTRACTOR but which are stored elsewhere, and finish the Work as OWNER may require. In such case CONTRACTOR shall not be entitled to receive any further payment until the Work is finished. If the unpaid balance of the Contract Price exceeds the direct and indirect costs of completing the Work, including compensation for additional professional services, such excess shall be paid to CONTRACTOR. If such costs exceed such unpaid balance, CONTRACTOR and the Surety shall be jointly and severely liable to pay the difference to OWNER. Such costs incurred by OWNER shall be incorporated in a Change Order, but in

finishing the Work OWNER shall not be required to accept the lowest figure for the Work to be performed by the Surety.

15.3. Where CONTRACTOR's services have been so terminated by OWNER, the termination shall not affect any rights of OWNER against CONTRACTOR or the Surety then existing or which may thereafter accrue. Any retention or payment of moneys due CONTRACTOR by OWNER will not release CONTRACTOR from liability.

15.4. Upon seven (7) days' written notice to CONTRACTOR and Surety, OWNER may, without cause and without prejudice to any other right or remedy, elect to abandon the Work and terminate the Agreement. In such case, CONTRACTOR shall be paid for all Work executed, any expense sustained plus reasonable termination expenses.

CONTRACTOR May Stop Work or Terminate:

15.5. If, through no act or fault of CONTRACTOR, the Work is suspended for a period of more than ninety (90) days by OWNER or under an order of court or other public authority, or ENGINEER fails to act on any Application for Payment within thirty (30) days after it is submitted, or OWNER fails for thirty days to pay CONTRACTOR any sum finally determined to be due, the CONTRACTOR may, upon seven (7) days' written notice to OWNER, terminate the Agreement and recover from OWNER payment for all Work executed and any expense sustained plus reasonable termination expenses. In addition and in lieu of terminating the Agreement, if ENGINEER has failed to act on an Application for Payment or OWNER has failed to make any payment as aforesaid, CONTRACTOR may upon seven (7) days' notice to OWNER stop the Work until payment of all amounts then due. The provisions of this paragraph shall not relieve CONTRACTOR of his obligations to carry on the Work in accordance with the progress schedule and without delay during disputes and disagreements with OWNER.

ARTICLE 16 - MISCELLANEOUS

Giving Notice:

16.1. Whenever any provision of the Contract Documents requires the giving of written notice it shall be deemed to have been validly given if delivered in person to the individual or to a member of the firm or to an officer of the corporation for whom it is intended, or if delivered at or sent by registered or certified mail, postage prepaid, to the last business address known to the giver of the notice.

Computation of Time:

16.2. When any period of time is referred to in the Contract Documents by days, it shall be computed to exclude the first and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day shall be omitted from the computation.

General:

16.3. The duties and obligations imposed by these General Conditions and the rights and remedies available hereunder to the parties hereto, and, in particular but without limitation, the warranties, guarantees and obligations imposed upon CONTRACTOR by paragraphs 6.15, 13.1, 13.11, 13.14, 14.2, and 15.2, and all of the rights and remedies available to OWNER thereunder, shall be in addition to, and not in limitation of, any rights and remedies available to any or all of them which are otherwise imposed or available by law or contractor, by special warranty or guarantee or by other provisions of the Contract Documents, and the provisions of this paragraph shall be as effective as if repeated specifically in the contract Documents in connection with each particular duty, obligation, right and remedy to which they apply. All representations, warranties and guarantees made in the Contract Documents shall survive final payment and termination or completion of this Agreement.

Liquidated Damages:

16.4. OWNER and CONTRACTOR recognize that time is of the essence to complete this Project and that OWNER will suffer financial loss if the Work is not substantially complete within the time specified in Agreement, plus any extensions thereof allowed in accordance with Article 12. They also recognize the delays, expense and difficulties involved in proving in a legal proceeding the actual loss suffered by OWNER if the Work is not substantially complete on time. Accordingly, instead of requiring any such proof, OWNER and CONTRACTOR agree that as liquidated damages for delay (but not as a penalty) CONTRACTOR shall pay OWNER the amount stated in the Contract for each day that expires after the time specified in the Contract for Substantial Completion until the Work is substantially complete. After Substantial Completion, if CONTRACTOR shall neglect, refuse or fail to complete the remaining Work within the time specified in the Contract or any proper extension thereof granted by OWNER, CONTRACTOR shall pay the OWNER an amount equal to all actual expenses incurred by the OWNER as a direct result of the CONTRACTOR'S negligence, refusal, or failure to so complete the remaining Work. In the event the CONTRACTOR is terminated or abandons the Work prior to the scheduled date for final completion, the CONTRACTOR may be liable for both liquidated damages attributable to delay and for excess completion costs.

Reports of Investigations and Tests of Subsurface and Latent Physical Conditions:

16.5. Reports of investigations and tests of subsurface and latent physical conditions at the site or otherwise affecting cost, progress or performance of the work which have been relied upon by ENGINEER in preparing the Drawings and Specifications are as listed in the Supplementary Conditions. OWNER will make such reports available for inspection to any Bidder or copies may be obtained from the ENGINEER by the Bidder at reproduction cost. These reports are not guaranteed as to accuracy or completeness, nor are they part of the Contract Documents.

Performance of Work by CONTRACTOR:

16.6. Contract Assignment. The successful bidder (or bidders) will be required to perform the work as a prime contractor. CONTRACTOR shall not sublet, sell, transfer, assign or otherwise dispose of the contract or any portion thereof, or of his right, title, or interest therein. CONTRACTOR shall perform on the site and with his own organization work equivalent to not

less than fifty (50%) percent of the total dollar value of the work to be performed under this contract except that work designated in the Supplementary Conditions as specialty work may be performed by subcontractors and the cost of any such specialty work so performed by subcontracts may be deducted from the total contract amount before computing the amount of work required to be performed by CONTRACTOR with his own organization.

Limitation of Remedy and Liability:

16.7 Contractor and Owner expressly waive any claim for consequential damages against the other including but not limited to, a waiver of claims for diminished bonding capacity, loss of financing, loss of business reputation, lost profits on other projects or other lost opportunity damage claims.

Contractor expressly agrees that any claim (tort, contract, claim in equity, or otherwise) by Contractor for damages against Owner shall not exceed the total amount of the contract price, less any amounts actually paid to the Contractor by the Owner (or by an insurer of the Owner).

All liability of the City allegedly resulting from, arising out of or connected with this Agreement, or from the performance or breach thereof, shall terminate three years from the termination of this Agreement.

Waiver of Right to Jury Trial:

16.8 THE PARTIES HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVE ANY RIGHT WHICH ANY PARTY MAY HAVE TO TRIAL BY JURY IN RESPECT OF ANY PROCEEDING, LITIGATION OR COUNTERCLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN) OR ACTIONS OF ANY PARTY. IF THE SUBJECT MATTER OF ANY LAWSUIT IS ONE IN WHICH THE WAIVER OF JURY TRIAL IS PROHIBITED, NO PARTY TO THIS AGREEMENT SHALL PRESENT AS A NON-COMPULSORY COUNTERCLAIM IN ANY SUCH LAWSUIT ANY CLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT. FURTHERMORE, NO PARTY TO THIS AGREEMENT SHALL SEEK TO CONSOLIDATE ANY SUCH ACTION IN WHICH A JURY TRIAL CANNOT BE WAIVED.

END OF SECTION

SECTION 00800
SUPPLEMENTARY CONDITIONS

The following supplements modify, change, delete from, or add to the General Conditions of the Construction Contract (Section 00700). Where any article of the General Conditions is modified or any paragraph, subparagraph or clause thereof is modified or deleted by these supplements, the unaltered provisions of that article, paragraph, subparagraph or clause shall remain in effect.

ARTICLE 16 - MISCELLANEOUS

Section 16.5 – Reports of Investigations and Test of Subsurface and Latent Physical Conditions

Add the following subparagraph:

16.5.1 The list of reports of investigations and tests of subsurface and latent physical conditions as referred to in General Conditions Section 16.5 are as follows:

None

Add the following:

16.7 Minimum Requirements for the provision and maintenance of Payment and Performance Bonds, and Contractor's Insurance

In accordance with Resolution 2021-144 as it presently exists or may hereafter change, or applicable state, federal or local law, whichever is stricter, the following minimum requirements have been established:

A. Payment and Performance Bonds

1. Except as otherwise provided herein, the Contractor shall, prior to beginning performance, deliver to the City, and the City shall record in the public records of Volusia County, Florida, the Contractor's Payment and Performance Bond in an amount equal to the full amount of the Contract.

2. **(a)** Payment and Performance Bonds shall not be required for any contract except those which are for the construction of a public building, for the prosecution and completion of a public work (as described in Section 180.06, **Florida Statutes,** as amended from time to time) or for repairs upon a public building or public work (as described in Section 180.06, **Florida Statutes**, as amended from time to time).

(b) With respect to those Contracts for which Payment and Performance Bonds are otherwise required:

i. Unless the City Manager, or designee, determines such Bond to be necessary to protect the interests of the City, no Contractor shall be

required to provide a Payment and Performance Bond for any Contract which is for $25,000.00 or less.

ii. Upon the request of the contractor, good cause shown by the Contractor, and a determination that the public health, safety and welfare will be sufficiently protected, the City Commission may exempt the contractor from the requirement of providing a Payment and Performance Bond for any Contract which is for more than $25,000.00 but is less than $200,000.00.

3. The Payment and Performance Bond shall list the Contractor as Principal and be issued by a surety insurer authorized to do business in Florida as a surety and listed as an acceptable surety in the Federal Register.

4. The Payment and Performance Bond shall be executed pursuant to Section 255.05, **Florida Statutes**, and be in a form substantially similar to the form set forth in Section 255.05(3), **Florida Statutes**.

5. The Payment and Performance Bond shall specifically provide coverage for delay damages due to a default by the Contractor.

6. The Payment and Performance Bond shall not make the Contract part of the Bond agreement.

7. In lieu of the Payment and Performance Bond, the Contractor may file with the Finance Director of the City, in an amount equal to the full amount of the Contract, cash, a money order, a certified check, a cashier's check, an irrevocable letter of credit, or a security of a type listed in Part II, Chapter 625, **Florida Statutes**.

8. In the event the surety on any Payment and Performance Bond furnished by the Contractor is declared bankrupt or becomes insolvent, or its right to do business in the State of Florida is terminated, the Contractor shall, within five (5) working days thereafter, substitute another Payment and Performance Bond and surety acceptable to the City.

9. The Contractor is totally and solely responsible for keeping its surety informed as to the Base Contract Price as bid, significant changes in the Project Scope, and the overall progress and completion of the Project for the entire life of the Contract.

10. The payment and performance bond requirements stated herein above shall not be applicable to service-related contracts unless otherwise determined by the City Manager in order to protect the health, safety and welfare of the general public.

B. Contractual Provisions Relative to Risk Management

All contracts for any public works to be performed, and service-related contracts, for or on behalf of the City shall include at a minimum, the following, or substantially similar, provisions:

1. Hold Harmless and Indemnity

The Contractor agrees to assume liability for and indemnify, hold harmless, and defend the City, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Contractor, its agents, officers, contractors, subcontractors, employees, or anyone else employed or utilized by the Contractor in the performance of this Contract. The Contractor's liability hereunder shall include all attorney's fees and costs incurred by the City in the enforcement of this provision.

2. Payment on Behalf of City

The Contractor shall pay all costs of the City's legal defense, as may be selected by the City, for all claims described in the Hold Harmless paragraph.

Such payment on behalf of the City shall be in addition to any and all other legal remedies available to the City and shall not be considered to be the City's exclusive remedy.

3. Loss Control/Safety

Precaution shall be exercised at all times by the Contractor for the protection of all persons, including employees and property. The Contractor shall comply with all applicable laws, regulations and ordinances related to safety and health, shall make special efforts to detect hazardous conditions, and shall take prompt action when loss control/safety measures are reasonably necessary.

The City may order work to be stopped if conditions exist that present an immediate danger to persons or property. The Contractor acknowledges that such work stoppage will not shift responsibility for any damages from the Contractor to the City.

4. Service Bond

For Service-related contracts only, the City may require the Contractor to secure a service bond with a minimum $25,000 coverage limit for the period of the service agreement. The service bond covers dishonest acts of the contractor's employees against the City. A copy of the bond shall be provided to the City when the agreement commences.

Service-related contracts include and are not limited to businesses providing janitorial, pest control, general repair, security, carpet cleaning, locksmith,

temporary employment, painting, moving services or other contracts as determined in the discretion of the Risk Manager as necessary to minimize loss.

C. Contractor's Insurance

1. General

The Contractor, including service-related contractors, shall purchase and maintain for the entire life of the Project, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under the Contract Documents, whether such operations be by the Contractor, by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

2. Types of Insurance and Limits of Liability

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

(a) Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident
$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for coverage. However, if the contractor subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

(b) Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations
h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)
k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence
$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

(c) Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract.

ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

$1 Million	Combined Single Limit for Bodily Injury and Property Damage

(d) Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,0000 per occurrence.

(e) Builder's Risk

Contractor shall purchase Builder's Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

(f) Professional Liability, Malpractice and/or Errors and Omissions (N/A for construction contracts)

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

D. Requirements for Certificates of Insurance

1. With the execution of the Contract Documents, the Contractor, including service-related contractors, shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall contain an endorsement that the coverage under the policies will not be canceled, non-renewed or materially changed until at least thirty (30) days' prior written notice of such cancellation, non-renewal or change (except for nonpayment of premium, which shall be ten (10) days) and a copy of the cancellation endorsement signed by an authorized representative of the insurer, be given to the City. The contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACORD FORM

25-S (7/90), or its successor form, and shall be made a part of the Contract Documents.

2. New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

3. If requested by the City, the contractor shall immediately furnish complete copies of the Contractor's insurance policies, forms and endorsements.

4. For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

5. If the Contractor fails to obtain and maintain for the life of the Project the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City form the amount due the Contractor for the work covered by the Contract.

E. Policies of Insurance

1. Except as otherwise provided in this Exhibit, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-), in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carrier; written confirmation is required.

3. All policies of insurance or certificates thereof referred to in this Exhibit shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability including products and completed operations and Automobile Liability policies of insurance and certificates thereof.

END OF SECTION

LIEN WAIVER

The undersigned does hereby certify that through _____, 2023, the undersigned has performed labor and/or furnished materials for the construction of the _____ located at _____ owned by _____, at a price of $_____, and in consideration of the payment to the undersigned of such sum, the receipt of which is hereby acknowledged, the undersigned does hereby release and waive all liens and claims to liens which the undersigned may have as a result of the performance of such labor and/or the furnishing of such materials, and that the undersigned has paid in full for all materials purchased by the undersigned in connection with such project and for all labor furnished by the undersigned in connection with such project. The undersigned further certifies that the last date on which the undersigned furnished such labor and/or materials was _____, 2023.

SECTION 01010
SUMMARY OF WORK

PART 1 - GENERAL

1.01 DESCRIPTION OF WORK

Work Covered by Contract Documents:

Work under this Contract is described as: **Arbor Drive Drainage Improvements**
Bid Number 2023-29

Removing and replacing approximately 750 LF of Storm piping, Inlets and associated work

The Specification Divisions and Drawings are an integrated part of the Contract Documents and as such will not stand alone if used independently as individual Sections, Divisions or Drawings sheets.

The Specifications and Drawings establish minimum standards of quality for this project. They do not purport to cover all details entering into the design and construction of materials or equipment.

The CONTRACTOR is advised that the equipment arrangements as shown on the drawings may vary with different manufacturers and the CONTRACTOR is responsible at no cost to the OWNER for making the changes necessary to accommodate the specific equipment installed.

Omission of a specific item or component part of a system obviously necessary for the proper functioning of the system shall not relieve the CONTRACTOR of the responsibility of furnishing the item as part of the work at no additional cost to the OWNER.

Contracts:

Construct work under a single, unit price contract.

1.02 QUALITY ASSURANCE

Laws and Regulations:

The CONTRACTOR shall give all notices and comply with all laws, ordinances, rules and regulations applicable to the work. If the CONTRACTOR observes that the Specifications or Drawings are at variance therewith, the CONTRACTOR shall give the ENGINEER prompt written notice thereof, and any necessary changes shall be adjusted by an appropriate modification. If the CONTRACTOR performs any work knowing or having reason to know that it is contrary to such laws, ordinances, rules and regulations, and without such notice to ENGINEER, the CONTRACTOR shall bear all costs arising therefrom; however, it shall not be the CONTRACTOR's primary responsibility to make certain that the Specifications and Drawings are in accordance with such laws, ordinances, rules and regulations.

1.03 JOB CONDITIONS

Taxes:

The CONTRACTOR shall pay all sales, consumer, use and other similar taxes required to be paid by him in accordance with the law of the place of the project.

Permits and Business Tax Receipts:

The CONTRACTOR shall obtain and pay for all construction permits and business tax receipts. The OWNER shall assist the CONTRACTOR, when necessary, in obtaining such permits and business tax receipts. The CONTRACTOR shall provide OWNER with copies of all permits prior to commencing work.

The CONTRACTOR shall pay all charges of utility service companies for connections to the work, and the OWNER shall pay all charges of such companies for capital costs related thereto.

It shall be the responsibility of the CONTRACTOR to verify the existence of all necessary permits and business tax receipts prior to the start of work. The OWNER will obtain permits involving interagency agreements, i.e., State Highway Crossing Permits, Railroad Crossing Permits, and similar permits.

Fees for building permits and impact fees are the responsibility of CONTRACTOR.

The CONTRACTOR and each Subcontractor must be Registered with Volusia County or with the City of Ormond Beach. Requirements for registering a business are as follows:

STATE CERTIFIED CONTRACTORS

1. Register with Volusia County Contractor Licensing (386-248-8158)

OR

2. Provide City with:
   Copy of local business tax receipt (where your business is located)
   Copy of State License (if applicable)
   Certificate of Insurance

For additional information regarding registration, permits or business tax receipts, please call: (386) 676-3233

Labor, Materials and Equipment:

The CONTRACTOR shall provide competent, suitably qualified personnel to survey and lay out the work and perform construction as required by the Contract Documents. The CONTRACTOR shall at all times maintain good discipline and order at the site. Except in connection with the safety or protection of persons or the work or property at the site or adjacent thereto, and except as otherwise indicated in the Supplementary Conditions, all work at the site shall be performed during regular working hours, and the CONTRACTOR will not permit overtime work or the performance of work on Saturday, Sunday or any legal holiday without the OWNER's written consent given after prior written notice to the ENGINEER.

Unless otherwise shown, the CONTRACTOR shall furnish all materials, equipment, labor transportation, construction equipment and machinery, tools, appliances, fuel, power, light, heat, telephone, water and sanitary facilities and all other facilities and incidentals necessary for the execution, testing, initial operation and completion of the work.

The CONTRACTOR shall be responsible for all materials furnished by him and shall replace at his own expense all such material found to be defective in manufacture or damaged in handling. This shall include the furnishing of all material and labor required for the replacement of installed material discovered defective prior to the final acceptance of the work.

Contractor Use of Premises:

The CONTRACTOR shall confine construction equipment, the storage of materials and equipment and the operations of workmen to areas permitted by law, ordinances, permits or the requirements of the Contract Documents, and shall not unreasonably encumber the premises with construction equipment or other materials or equipment.

The CONTRACTOR shall not enter upon private property for any purpose without first securing the permission of the property owner in writing and furnishing the ENGINEER with a copy of said permission. This requirement will be strictly enforced, particularly with regard to such vacant properties as may be utilized for material storage.

The CONTRACTOR shall conduct his work in such a manner as to avoid damage to adjacent private or public property. Any damage to existing structures or work of any kind, including permanent reference markers or property corner markers, or the interruption of utility service, shall be repaired or restored promptly at no additional expense to the OWNER.

The CONTRACTOR shall preserve and protect all existing vegetation such as trees, shrubs and grass on or adjacent to the site which do not reasonably interfere with the construction, as determined by the ENGINEER. The CONTRACTOR will be responsible for all unauthorized cutting or damaging of trees and shrubs, including damage due to careless operation of equipment, stockpiling of materials or tracking of grass by equipment. The CONTRACTOR will be liable for, or will be required to replace or restore at no additional expense to the OWNER, all vegetation not protected or preserved as required herein that may be destroyed or damaged.
The CONTRACTOR will not be required to move or remove any utilities except as specifically required by the Drawings and Specifications.

During the progress of the work, the CONTRACTOR shall keep the premises free from accumulations of waste materials, rubbish and other debris resulting from work. At the completion of the work, the CONTRACTOR shall remove all waste materials, rubbish and debris from and about the premises as well as all tools, appliances, construction equipment and machinery, and surplus materials, and shall leave the site clean and ready for occupancy by the OWNER. The CONTRACTOR shall restore to their original condition those portions of the site not designated for alteration by the Contract Documents.

The CONTRACTOR shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall the CONTRACTOR subject any part of the work or adjacent property to stresses or pressures that will endanger it.

Subsurface Reports:

[None]

Notification of Construction:

The CONTRACTOR shall notify, in writing, all residents and businesses adjacent to the project work area of pending construction no later than 48 hours prior to commencement of actual construction. Copies of the written Notice shall be provided to the ENGINEER for approval of wording prior to public distribution.

Notification of Street Closure:

The CONTRACTOR is required to obtain permission from the City Engineer prior to initiating street closures.

In the event a street closure is required, the CONTRACTOR shall notify, in writing, all emergency services and agencies, residents and businesses directly effected by any partial or full street closure caused by the construction no later than 48 hours prior to actual closure.

Below is a list of the agencies that are required to be notified in the event of a street closure:

Agency:	Contact phone number:
EVAC Ambulance Service	(386) 252-4911
Ormond Beach City Hall	(386) 677-0311
Ormond Beach Fire Dept. Administration	(386) 676-3255
Ormond Beach Police Dept. Dispatch	(386) 676-3508
Ormond Beach Public Works Department	(386) 676-3220
Ormond Beach Postmaster (US Postal Service)	(386) 676-0693
Volusia County School Board - Transportation	(386) 258-4677
Volusia County VOTRAN	(386) 756-7496

If a **County** or **State Road** is to be closed, add the following agencies to the list:

Volusia County Department of Public Works	(386) 239-6535
Volusia County Emergency Management	(386) 254-1500
Volusia County Fire Services	(386) 254-4657
Florida Highway Patrol Dispatch	(407) 737-2200

If the closure will last longer than 5 days, the CONTRACTOR shall also notify the general public of such closures by placing an advertisement in the "Area" section of the local newspaper no later than 48 hours prior to the closure. The advertisement shall include information describing the extent of the closure (i.e. between which streets; detour routes, etc.), the date the closure will begin, and estimated date the road will be reopened. Provide a copy of the proposed notification, for approval by the ENGINEER, before placing the advertisement.

The CONTRACTOR shall maintain full compliance with the traffic regulations found in Paragraph 1.06, Section 01500 of this Contract.

Contractor's Hours of Operation:

Except in the event of an emergency, no work shall be done between the hours of 7:00 P.M. and 7:00 A.M., or on Saturdays and Sundays. If the proper and efficient execution of the work requires operations during the night or on week-ends, the written permission of the ENGINEER shall be obtained prior to starting such items of the work.

PART 2 - PRODUCTS

(Not Applicable)

PART 3 - EXECUTION

(Not Applicable)

END OF SECTION

SECTION 01025
MEASUREMENT AND PAYMENT

PART 1 - GENERAL

1.01 DESCRIPTION OF WORK

This section defines the method which will be used to determine the quantities of work performed or materials supplied and establishes the basis upon which payment will be made.

1.02 ESTIMATED QUANTITIES

Where quantities are shown they are approximate and are given only as a basis of calculation upon which the award of the Contract is to be made. OWNER or ENGINEER do not assume any responsibility that the final quantities, nor shall CONTRACTOR claim misunderstanding because of such estimate of quantities. Final payment will be made only for the satisfactorily completed quantity of each item.

1.03 MEASUREMENT STANDARDS

All work completed under the Contract shall be measured according to United States Standard Methods.

1.04 METHOD OF MEASUREMENT

Measurement of Length:

Unless otherwise specified for the particular items involved, all measurements of distance for items to be paid for on the basis of length shall be taken horizontally or vertically.

Measurement of Area:

In the measurement of items paid for on the basis of area of finished work, the lengths and/or widths to be used in the calculations shall be the actual dimensions measured along the surface of the completed work within the neat lines shown or designated. At intersections, the measurement used for length of side area will be measured from the outside edge of the width allowed along the main trench.

1.05 PAYMENT

Lump Sum Items:

Where payment for items is shown to be paid for on a lump sum basis, no separate payment will be made for any item of work required to complete the lump sum item within the limits of work shown or specified.

Unit Price Items:

Where payment for items is shown to be paid for on a unit price basis, separate payment will be made for the items of work described herein and listed on the Bid Form. Any related work not specifically listed, but required for satisfactory completion of the work, shall be considered to be included in the scope of the appropriate listed work items.

1.06 COSTS INCLUDED IN PAYMENT ITEMS

No separate payment will be made for the following items and the cost of such work shall be included in the applicable pay items of work.

Clearing and grubbing (including disposal of material).
Trench excavation, including necessary pavement removal and removal of vegetative surfaces.
Dewatering and disposal of surplus water.
Structural fill, backfill, and grading.
Replacement of unpaved roadways, grass and shrubbery plots.
Cleanup.
Foundation and borrow materials, except as hereinafter specified.
Testing and placing system in operation.
Any material and equipment required to be installed and utilized for tests.
Pipe, structures, pavement replacement, restoration and/or appurtenances included within the limits of lump sum work, unless otherwise shown.
Maintaining or detouring of the traffic.
Appurtenant work as required for a complete and operable system.
Surface restoration including removal and replacement of trees (under 4-inch diameter), shrubs, and sod disturbed by construction activities.
Relocation and/or replacement of irrigation systems disturbed by construction.
Relocation and/or replacement of mail boxes disturbed by construction.
Furnishing adequate sanitary facilities for workers.
Adjustment of valve boxes.
Supporting of existing utilities during construction

Cleanup:

CONTRACTOR's attention is called to the fact that cleanup is considered a part of the work of construction. No payment will be made until cleanup is essentially complete.

At the end of each week of construction, the CONTRACTOR shall perform cleaning of the work site, to the satisfaction of the Owner, before proceeding to the next week’s scheduled work.

Work Outside Authorized Limits:

No payment will be made for work constructed outside the authorized limits of work.

1.07 APPLICATIONS FOR PAYMENT

Applications for payment shall be prepared by the CONTRACTOR and submitted to the ENGINEER in accordance with the schedule established by the Conditions of the Contract and the Agreement. The applications for payment shall be submitted in the number and form established by the ENGINEER at the Preconstruction Conference. The form shall be completely filled out and executed by an authorized representative of the CONTRACTOR. Supporting data such as schedules of stored materials shall be attached to each copy of the application.

1.08 CHANGE ORDER PROCEDURE

As defined in the General Conditions, a Change Order is a written order to the CONTRACTOR signed by the OWNER authorizing an addition, deletion or revision in the Work, or an adjustment in the Contract Price or the Contract Time which is issued after the execution of the Agreement.

The following procedure shall be used in processing Change Orders:

For Additions to the Work:

The OWNER shall issue a written order to the CONTRACTOR directing him to accomplish the additional work. The CONTRACTOR shall review the order and if he feels that the additional work entitles him to additional payment or additional time, he may submit a claim as prescribed in the Conditions of the Contract.

For Deletions From the Work:

The OWNER shall issue a written order to the CONTRACTOR directing him to make the change. If the OWNER feels that the Contract price should be reduced as a result of the change, the OWNER shall make a claim for the reduction as provided in the Conditions of the Contract.

Cost of the changes in the work shall be determined in accordance with the requirements spelled out in the Conditions of the Contract. Modifications to incorporate the changes in cost will be made as the amount of any change is determined.

PART 2 - PRODUCTS

(Not Applicable)

PART 3 - EXECUTION

3.01 BID ITEMS

Bid Item No. 1&2 **Furnish & Install Class III Reinforced Concrete Pipe (RCP)**

Measurement: Measurement under this item shall be furnishing and installing Class III Reinforced Concrete Pipe (RCP) as shown on the Drawings and listed in the Bid Form.

Payment: Payment of the applicable unit price per linear foot shall be full compensation for furnishing all plant, labor, materials and equipment necessary to furnishing and install various size class III reinforced concrete pipe (RCP).

Bid Item No.3 **Furnish & Install Polyvinyl Chloride (PVC) Pipe**

Measurement: Measurement under this item shall be furnishing and installing Polyvinyl Chloride (PVC) Pipe as shown on the Drawings and listed in the Bid Form.

Payment: Payment of the applicable unit price per linear foot shall be full compensation for furnishing all plant, labor, materials and equipment necessary to furnishing and install PVC Pipe.

Bid Item No. 4 **Furnish and Install FDOT Type "C" Inlet**

Measurement: Measurement under this item shall be for the construction of the number of new FDOT Type "C" inlet, complete with grate as shown on the Drawings and listed in the Bid Form.

Payment: Payment of the Contract unit price per each shall be full compensation for furnishing all plant, labor materials and equipment necessary to construct the FDOT Type "C" inlet. Measurement under this item will be for the number of new FDOT Type "C" inlets, complete with grates, satisfactorily installed as shown on the Drawings and listed in the Bid Form.

Bid Item No. 5 **Furnish and Install FDOT Headwall**

Measurement: Measurement under this item shall be for the construction of the number of new FDOT Headwall, complete with grate as shown on the Drawings and listed in the Bid Form.

Payment: Payment of the Contract unit price per each shall be full compensation for furnishing all plant, labor materials and equipment necessary to construct the FDOT Headwall. Measurement under this item will be for the number of new FDOT Headwall, complete with grates, satisfactorily installed as shown on the Drawings and listed in the Bid Form.

Bid Item No. 6 **Indemnification**

Measurement. The quantity for payment shall be for proper installation of each WAPRO WASTOP INLINE CHECK VALVE or RED VALVE TIDEFLEX CHECKMATE ULTRAFLEX INLINE CHECK VALVE.

Payment. Payment for this item shall be per item contract unit price and shall be full compensation for all labor, material, and equipment. **This includes any pipe cleaning that may be required to install the device.**

Bid Item No. 7 **Asphalt Cut & Patch**

Measurement: The quantity to be paid for shall be the number of square yards of cutting and patching completed and accepted. In determining the quantity, the length to be used in the calculation shall be the actual length measured along the surface of the asphalt, and the width

shall be the width measured along the surface of the asphalt. The material used for asphalt, base course and sub-base shall be as shown on the plans and approved by the ENGINEER.

Payment: Payment for removing of existing asphalt, base course and sub-grade within the existing driveways and replacing with new asphalt, base course and sub-base, as shown on the Drawings and listed in the bid items, shall be made at the Contract unit price per square yard and shall be full compensation for all labor, material and equipment necessary to complete the work. Payment shall include full compensation for saw cutting, excavation, and removal, and grading, mixing, compaction, preparation of base course, sub-base and construction of asphalt.

Bid Item No. 8 **Temporary Traffic Control**

Measurement: Maintenance of traffic shall include furnishing all plant, labor, materials and equipment in good condition and of high quality necessary to provide the maintenance of traffic (MOT) required by the Florida Department of Transportation and the City of Ormond Beach and to provide all other maintenance of traffic required as shown in the Contract Documents, including electronic message signs, detour routes, notifications, etc. as required by the City of Ormond Beach Traffic Division.
Payment: Partial payments for this item will be made in accordance with the following schedule:

Percent of Original Contract Amount Earned	Allowable Percent of the Lump Sum Price for the Item
10	25
25	50
50	75
75.	100

Bid Item No. 9 **Concrete Curb and Gutter**

Measurement: Measurement of curb & gutter shall be in linear feet (LF) along gutter flowline for properly formed and consolidated concrete, the length of which is determinable by measuring wheel and/or measuring tape.

Payment: Payment for Miscellaneous curb & gutter shall be base upon linear feet (LF) of installed item and shall include: removal of existing curb, subgrade preparation, base course preparation and site restoration. Unit price for this item shall be independent of curb type, which shall be determined by the Owner's representative for each location curb & gutter is placed or otherwise replaced in kind. Curb & gutter shall be constructed in accordance with City standards.

Bid Item No. 10 **Miscellaneous Concrete Driveway**

Measurement: Constructed Driveway shall be measured in square yards (SY) of actual surface area of properly formed and consolidated concrete at a minimum thickness of six (6) inches, including construction and expansion joints and which area is determinable by measuring wheel and/or measuring tape. Driveway shall be rated at a minimum 4000 psi compressive strength in a maximum of 28 days after placement.

Payment: Payment for Miscellaneous Driveway shall be based upon the contract unit price of square yards (SY) measured of driveway surface placed and shall include: removal of existing driveway, subgrade preparation and site restoration. Sidewalk removal and placement shall be approved by the Owner's.

Bid Item No.11 **Restoration**

Payment: Payment shall be made at the applicable lump sum price must be full compensation for all plant, labor, materials and equipment necessary for restoration of the site to pre-construction conditions. Work shall include all sod and surface restoration within the project area including grading of disturbed areas within the right-of-way or within the area disturbed by construction, outside of the pavement; repair and replacement of residential sprinkler system piping and sprinkler heads disturbed by construction. Work shall also include removal and replacement of mail boxes, and yard lights disturbed by construction as well as removal and replacement of any wooden, metal, or plastic fencing disturbed by construction.

END OF SECTION

SECTION 01040
COORDINATION

PART 1 - GENERAL

1.01 PROJECT COORDINATION

A. The Contractor shall provide for the complete coordination of the construction efforts. This shall include, but not necessarily be limited to, coordination of the following:

1. the work of subcontractors
2. the flow of material and equipment from suppliers
3. the interrelated work with public utilities companies
4. the interrelated work with the Owner where tie-ins to existing facilities are required
5. the effort of independent testing agencies.

B. The Contractor will be allowed the widest practicable latitude in establishing his work plan. Contractor shall submit a plan of work to Owner and Engineer.

1.02 CUTTING AND PATCHING

A. The Contractor shall do all cutting, fitting and patching of his work that may be required to make its several parts come together properly and integrate with such other work. The Contractor shall not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter their work with the written consent of the Engineer and the others whose work will be affected.

PART 2 - MATERIALS AND EQUIPMENT

(Not Applicable)

PART 3 - EXECUTION

(Not Applicable)

END OF SECTION

SECTION 01200
PROJECT MEETINGS

PART 1 - GENERAL

1.01 DESCRIPTION OF WORK

Project meetings shall be scheduled as needed throughout the progress of the work. Those responsible for scheduling the meetings shall prepare the agenda, distribute written notice of each meeting not less than four days in advance of the meeting date, make physical arrangements for the meeting, preside at the meeting, record the minutes (include all significant proceedings and decisions), and reproduce and distribute copies of the minutes to all participants, all parties affected by decisions made, and the Engineer.

Representatives attending the meetings shall be qualified and authorized to act on behalf of the entities they represent.

1.02 PRE CONSTRUCTION CONFERENCE

Before the Contractor starts the work at the site, the Engineer will schedule a preconstruction conference which will be held for review and acceptance of the schedules referred to in Section 01300, to establish procedures for handling shop drawings and other submittals and for processing Applications for Payment, and to establish a working understanding among the parties as to the work.

The date for the start of construction shall be established at this conference.

PART 2 - PRODUCTS

(Not Applicable)

PART 3 - EXECUTION

(Not Applicable)

END OF SECTION

SECTION 01300
SUBMITTALS

PART 1 - GENERAL

1.01 DESCRIPTION OF REQUIREMENTS

The type of submittal requirements specified in this section include the following:

Progress Schedules and Reports
Product Data
Shop Drawings
Manufacturer's Data
Miscellaneous

Submittals shall be clear and legible, printed or typed. Submittals received that are not so, shall be returned to be resubmitted when in legible form.

1.02 PROGRESS SCHEDULES AND REPORTS

Within 10 days after the effective date of the Agreement, the Contractor shall submit to the Engineer for review and acceptance an estimated progress schedule indicating the starting and completion dates of the various stages of the work, a preliminary schedule of shop drawing submissions, and a preliminary schedule of values of the work. Include subschedules of related activities which are essential to its progress.

Revised schedules shall be submitted periodically as changes become apparent.

Unless other format or use of a network analysis system is required, schedules shall be prepared in the form of a horizontal bar chart. A separate horizontal bar shall be provided for each trade or operation. The first work day of each week shall be identified on the horizontal time scale. Scale and spacing will be such as to allow space for notations and revisions.

Schedules shall show the complete sequence of construction by activity with dates for the beginning and completion of each major element of construction. Projected percentage of completion for each item as of the first day of each month shall be shown.

Progress Reports:

The Contractor shall prepare and submit a monthly progress report. The report shall indicate the progress at the date of submission of each activity shown on his progress schedule. It shall show changes occurring since previous submissions, activities modified since previous submissions, and revised projections of progress and completion. The submittal shall include a narrative report to define: problem areas, anticipated delays, and the impact on the schedule, and corrective action recommended and its effect.

1.03 PRODUCT DATA (Shop Drawings and Manufacturer's Data)

The Contractor shall prepare and submit to the Engineer a schedule of the shop drawings, product data and samples which are required for the work together with anticipated submittal time. Any drawings which require critical timing for maintaining delivery or construction schedules shall be so noted. Shop drawing submittal schedule shall be coordinated with the requirements of construction progress schedules.

Those submittals required under various sections of the specifications, but not listed on the Contract Submittal List shall be submitted as "RECORD SUBMITTALS" and given to the Engineer along with the Record Drawings as specified in Section 01700 - Contract Closeout.

Product data submitted for substitutions shall be handled as specified in Section 01630 - Substitutions and Product Options.

Definitions:

Work-related submittals of this section are categorized for convenience as follows:

> Shop drawings include specially-prepared technical data for this project, including drawings, diagrams, performance curves, data sheets, schedules, templates, patterns, reports, calculations, instructions, measurements and similar information not in standard printed form for general application to several projects.
>
> Product data include standard printed information on materials, products and systems; not specially-prepared for this project, other than the designation of selections from among available choices printed in the information.
>
> Miscellaneous submittals related directly to the work (non-administrative) include warranties, maintenance agreements, workmanship bonds, project photographs, survey data and reports, physical work records, quality testing and certifying reports, copies of industry standard, record drawings, field measurement data, operating and maintenance materials, overrun stock, and similar information, devices and materials applicable to the work and not processed as shop drawings, product data or samples.

1.04 GENERAL SUBMITTAL REQUIREMENTS

After checking and verifying all field measurements, the Contractor shall submit to the Engineer for review and approval, in accordance with the accepted schedule of shop drawing submissions, five copies of all shop drawings, which shall have been checked by and stamped with the approval of the Contractor and identified as the Engineer may require. The data shown on the shop drawings will be complete with respect to dimensions, design criteria, materials of construction and like information to enable the Engineer to review the information as required.

The Contractor shall also submit to the Engineer for review and approval with such promptness as to cause no delay in work, all samples required by the Contract Documents. All samples will have

been checked by and stamped with the approval of the Contractor, identified clearly as to material, manufacturer, and pertinent catalog numbers and the use for which intended. At the time of each submission, the Contractor shall, in writing, call the Engineer's attention to any deviations that the shop drawings or samples may have from the requirements of the Contract Documents.

The Engineer will review and approve with reasonable promptness shop drawings and samples, but the Engineer's review and approval shall be only for conformance with the design concept of the project and for compliance with the information given in the Contract Documents and shall not extend to means, methods, sequences, techniques or procedures of construction or to safety precautions or programs incident to the work. The review and approval of a separate item as such will not indicate approval of the assembly in which the item functions. The Contractor shall make any corrections required by the Engineer and shall return the required number of corrected copies of shop drawings and resubmit new samples for review and approval. The Contractor shall direct specific attention, in writing, to revisions other than the corrections called for by the Engineer on previous submittals. The Contractor's stamp of approval on any shop drawing or sample shall constitute a representation to the Owner and the Engineer that the Contractor has either determined and verified all quantities, dimension, field construction criteria, materials, catalog numbers, and similar data or assumes full responsibility for doing so, and that the Contractor has reviewed or coordinated each shop drawing or sample with the requirements of the work and the Contract Documents.

Where a shop drawing or sample is required by the Specifications, no related work shall be commenced until the submittal has been reviewed and approved by the Engineer.

The Engineer's review and approval of shop drawings or samples shall not relieve the Contractor from responsibility for any deviations from the Contract Documents unless the Contractor has in writing called the Engineer's attention to such deviations at the time of submission and the Engineer has given written concurrence and approval to the specific deviation, nor shall any concurrence or approval by the Engineer relieve the Contractor from responsibility for errors or omissions in the shop drawings.

Systems to be submitted in the shop drawing submittal shall include but not necessarily be limited to:

1. Each item of equipment and/or materials listed in the project equipment and material schedules;

Certifications:

Whenever a standard of quality is established by a reference specification, the Contractor shall submit a certificate by the manufacturer that the material supplied meets the requirements of both the project and reference specification.

Schedule of Values:

At least 10 days prior to submitting the first Application for a progress payment, the Contractor shall submit to the Engineer a schedule of values of the work. This schedule shall be satisfactory in form and substance to the Engineer. The schedule of values shall include quantities and unit prices aggregating the contract price, and shall subdivide the work into component parts in sufficient detail to serve as the basis for progress payments during construction. Upon acceptance of the schedule of values by the Engineer, it shall be incorporated into a form of Application for Payment acceptable to the Engineer.

Where estimated quantities and unit prices are shown in the Bid Form as the basis of payment, the quantities shown in the Bid Form are approximate and are given only as a basis of calculation upon which the award of the contract is to be made. The Owner or Engineer do not assume any responsibility that the final quantities will remain in accordance with estimated quantities, nor shall the Contractor claim misunderstanding or deception because of such estimate of quantities. Final payment will be made on the basis of the actual completed quantities of each item.

PART 2 - PRODUCTS

(Not Applicable)

PART 3 - EXECUTION

(Not Applicable)

END OF SECTION

SECTION 01340
SHOP DRAWINGS

PART 1 -GENERAL

1.01 REQUIREMENTS INCLUDED

A. The Contractor shall submit to the Engineer for review and approval, such working drawings, shop drawings, test reports and data on materials and equipment, and certificates and affidavits as are required for the proper control of work, including but not limited to those working drawings, shop drawings, data and samples for materials and equipment specified elsewhere in the Specifications and in the Contract Drawings.

B. Within twenty (20) calendar days after the effective date of the agreement, The Contractor shall submit to the Engineer a complete materials list of preliminary data on items for which shop drawings are to be submitted. Included in this materials list shall be the names of all proposed manufacturers furnishing specified items. Review of this list by the Engineer shall in no way be expressed or implied relief to the Contractor from submitting complete shop drawings and providing material, equipment, etc., fully in accordance with the specifications. This procedure is required in order to expedite final review of shop drawings.

C. The Contractor shall maintain an accurate updated submittal log and will bring this log to each scheduled progress meeting with the Owner and the Engineer. This log shall include the following items:

1. Submittal – Description and Number assigned.
2. Date to Engineer
3. Date returned to Contractor (from Engineer).
4. Status of Submittal (Approved, Approved as Noted, Not Approved/Resubmit).
5. Date of resubmittal and return (as applicable).
6. Date material release (for fabrication).
7. Projected date of fabrication.
8. Projected date of delivery to site.
9. Status of O&M manuals submitted.
10. Specification Section.
11. Drawings Sheet Number.

1.02 CONTRACTOR'S RESPONSIBILITY

A. It is the duty of the Contractor to check all drawings, data and samples prepared by or for him before submitting them to the Engineer for review. Each and every copy of the drawings and data shall bear Contractor's stamp and signature showing that they have been so checked. Shop drawings submitted to the Engineer without the Contractor's stamp and signature will be returned to the Contractor for conformance with this requirement. Shop drawings shall indicate any deviations in the submittal from requirements of the Contract Documents. If the Contractor takes exception to the specifications, the Contractor shall note the exception in the letter of transmittal to the Engineer. Shop drawings submittals shall not be used as a vehicle for requesting approval of substitute or alternative equipment and materials. Substitution requests will be considered only when submitted in accordance with the applicable provisions of Section 01600.

B. Determine and Verify:

1. Field measurements

2. Field construction criteria

3. Catalog numbers and similar data

4. Conformance with Specifications

C. The Contractor shall furnish the Engineer a schedule of Shop Drawing submittals fixing the respective dates for the submission of shop and working drawings, the beginning of manufacture, testing and installation of materials, supplies and equipment. This schedule shall indicate those that are critical to the progress schedule.

D. The Contractor shall not begin any of the work covered by a drawing, data, or a sample returned for correction until a revision or correction thereof has been reviewed and returned to him, by the Engineer, with approval.

E. The Contractor shall submit to the Engineer all drawings and schedules sufficiently in advance of construction requirements to provide no less than thirty (30) calendar days for checking and appropriate action from the time the Engineer receives them.

F. All submittals shall be accompanied by a transmittal letter prepared in duplicate containing the following information:

1. Date

2. Project title and number

3. Contractor's name and address

4. The number of each shop drawing, product data, and sample submitted

5. Notification of deviations from contract documents

6. Submittal log number conforming to specification section numbers.

G. The Contractor shall submit four (4) copies of descriptive or product data submittals to complete shop drawings for the Engineer plus the number of copies which the Contractor requires returned. The Engineer will retain four (4) sets.

H. The Contractor shall be responsible for and bear all costs of damages which may result from the ordering of any material or from proceeding with any part of work prior to the completion of the review by Engineer of the necessary shop drawings.

I. The Contractor shall be fully responsible for observing the need for and making any changes in the arrangement of piping, connections, wiring, manner of installation, etc., which may be required by the materials/equipment he proposed to supply both as pertaining to his own work and any work affected under other parts, headings, or divisions of Drawings and Specifications.

1.03 ENGINEER'S REVIEW OF SHOP DRAWINGS

A. The Engineer's review of drawings, data and samples submitted by the Contractor will cover only general conformity to the specifications, external connections, and dimensions which affect the installation. The Engineer's review and exceptions, if any, will not constitute an approval of dimensions, quantities, and details of the material, equipment, device or item shown.

B. The review of drawings and schedules will be general, and shall not be construed:

1. as permitting any departure from the Contract requirements;

2. as relieving the Contractor of responsibility of any errors, including details, dimensions and materials;

3. As approving departures from details furnished by the Engineer, except as otherwise provided herein.

C. If the drawings or schedules as submitted describe variations and show a departure from the contract requirements which Engineer finds to be in the interest of the Owner and to be so minor as not to involve a change in contract price or time for performance, the Engineer may return the reviewed drawings without noting an exception.

D. When reviewed by the Engineer, each of the shop drawings will be identified as having received such review being so stamped and dated. Shop drawings stamped "NOT APPROVED/RESUBMIT" and with required corrections shown will be returned to the Contractor for correction and resubmittal.

E. Resubmittals will be handled in the same manner as first submittals. On resubmittals the Contractor shall direct specific attention, in writing or on resubmitted shop drawings, to revisions other than the corrections requested by the Engineer on previous submissions. The Contractor shall make any corrections required by the Engineer.

F. If the Contractor considers any correction indicated on the drawings to constitute a change to the contract drawings or specifications, the Contractor shall give written notice thereof to the Engineer.

G. Shop drawings and submittal data shall be reviewed by the Engineer for each original submittal and first resubmittal; thereafter review time for subsequent resubmittals shall be charged to the Contractor in accordance with the terms of the Engineer's agreement with the Owner.

H. When the shop drawings have been completed to the satisfaction of the Engineer, the Contractor shall carry out the construction in accordance therewith and shall make not further changes therein except upon written instructions from the Engineer.

I. No partial submittals will be reviewed. Submittals not complete will be returned to the Contractor for resubmittal. Unless otherwise specifically permitted by the Engineer, make all submittals in groups containing all associated items for:

1. Systems

2. Processes

3. As indicated in the specifications sections. All drawings, schematics, manufacturer's product data, certifications and other shop drawing submittals required by a system specification shall be submitted at one time as a package to facilitate interface checking.

1.04 SHOP DRAWINGS

A. When used in the Contract Documents, the term "shop drawings" shall be considered to mean Contractor's plans for materials and equipment which become an integral part of the project. These drawings shall be completed and detailed. Shop drawings shall consist of fabrication, erection and setting drawings and schedule drawings, manufacturer's scale drawing, and wiring and control diagrams. Cuts, catalogs, pamphlets, descriptive literature, and performance and test data, shall be considered only as supportive to required shop drawings as defined above. As used herein, the term "manufactured" applied to standard units usually mass produced; and "fabricate" means items specifically assembled or made out of selected materials to meet individual design requirements.

B. Manufacturer's catalog sheets, brochures, diagrams, illustrations and other standard descriptive data shall be clearly marked to identify pertinent materials, product or models. Delete information which is not applicable to the work by striking or cross-hatching.

C. Drawings and schedules shall be checked and coordinated with the work of all trades involved, before they are submitted for review by the Engineer and shall bear the Contractor's stamp of approval as evidence of such checking and coordination. Drawings or schedules submitted without this stamp of approval shall be returned to the Contractor for resubmission.

D. Each shop drawing shall have a blank area located adjacent to the title block. The title block shall display the following:

1. Project title and number

2. Name of project building or structure

3. Number and title of the shop drawing

4. Date of shop drawing or revision

5. Name of Contractor and subcontractor submitting drawing

6. Supplier/manufacturer

7. Separate detailer when pertinent

8. Specification section

10. Drawing number

E. If drawings show variations from contract requirements because of standard shop practice or for other reasons, the Contractor shall describe such variations in his letter of transmittal. If acceptable, proper adjustment in the contract shall be implemented where appropriate. If the Contractor fails to describe such variations, he shall not be relieved of the responsibility for executing the work in accordance with the contract, even though such drawings have been reviewed.

F. Data on materials and equipment include, without limitation, materials and equipment lists, catalog data sheets, cuts, performance curves, diagrams materials of construction and similar descriptive material. Materials and equipment lists shall give, for each item thereon, the name and location of the supplier or manufacturer, trade name, catalog reference, size, finish and all other pertinent data.

G. For all mechanical and electrical equipment furnished, the Contractor shall provide a list including the equipment name, and address and telephone number of the manufacturer's representative and service company so that service and/or spare parts can be readily obtained.

H. All manufacturers or equipment suppliers who are proposed to furnish equipment or products shall submit an installation list to the Engineer along with the required shop drawings. The installation list shall include at least five (5) installations where identical equipment has been installed and has been in operation for a period of at least (1) year.

I. Only the Engineer will utilize the color "red" in marking shop drawing submittals.

J. Final, approved shop drawings shall be provided in pdf format.

PART 2 – PRODUCTS (NOT USED)

PART 3 – EXECUTION (NOT USED)

END OF SECTION

SECTION 01400
QUALITY CONTROL

PART 1 - GENERAL

1.01 TESTING LABORATORY SERVICES

Arrangements for testing laboratory services will be made by the Owner. Payment for testing to show compliance with specified requirements will be paid for by the Owner. The cost for tests, when materials and workmanship fail to meet specified requirements (failed tests), will be billed directly to the Contractor by the soils testing laboratory, or deducted from monies due the Contractor.

1.02 INSPECTION SERVICES

The authorized representative of all applicable Federal and/or State agencies, including Environmental Protection Agency, Corps of Engineers and Department of Environmental Regulation, shall be permitted to inspect all work, materials, payrolls, records of personnel, invoice of materials, and other relevant data and records. The Owner and his authorized representatives shall be permitted free access and every reasonable facility for the inspection of all work and materials, including the removal or uncovering of such portions of the finished work as may be directed. The Owner and his authorized representative shall also be permitted to inspect payrolls, invoices of materials and other relevant data and records.

1.03 INSPECTION OF WORK AWAY FROM SITE

If work to be done away from the construction site is to be inspected on behalf of the Owner during its fabrication, manufacture or testing or before shipment, the Contractor shall give notice to the Engineer of the time and place where such fabrication, manufacturing, testing or shipping is to be done. Such notice shall be in writing and delivered to the Engineer in ample time so that the necessary arrangements for the inspection can be made.

PART 3 - EXECUTION

(Not Applicable)

END OF SECTION

SECTION 01500
TEMPORARY FACILITIES AND CONTROLS

PART 1 - GENERAL

1.01 DESCRIPTION OF REQUIREMENTS

This section specifies the minimum requirements for temporary facilities, utilities to be brought to the site, refuse/waste collection and control required to enable the construction of the project to progress adequately. The providing of adequate facilities at every stage of performing the work is the Contractor's sole responsibility, and is not limited by the requirement of this section.

Except as otherwise indicated, the Contractor may, at his option, provide stand-alone utility plants to provide needed services, in lieu of connected services from available public utilities, provided such stand-along plant facilities comply with governing regulations. Prior to availability of temporary utility services, provide trucked-in/trucked-out containerized or unitized services for startup of construction operations at the site.

Except as otherwise indicated, the costs of providing and using temporary utility services are included in the Contract Sum.

1.02 TEMPORARY FACILITIES

The types of utility services required for general temporary use at the project site include the following (other specific services may be required for specific construction methods or operations):

Electrical Power Service
Water Service (potable for certain uses)
Sanitary
Storm Sewer or Open Drainage/Run-off Control
Refuse/Waste Collection

Temporary Electricity:

The Contractor shall make necessary applications and arrangements and pay all fees and charges for electrical energy for power and light necessary for proper completion of the work and during its entire progress up to time of final acceptance by the Owner. The Contractor shall provide and pay for all temporary switches, connections and meters.

Temporary Water:

The Contractor shall make all necessary application and arrangements, and pay all fees and charges for water necessary for the proper completion of the project up to the time of final acceptance. The Contractor shall provide and pay for any temporary piping and connections.

Temporary Sanitary Facilities:

The Contractor shall provide adequate sanitary facilities for the use of those employed on the work. Such facilities shall be made available when the first employees arrive on the site of the work, shall be properly secluded from public observation, and shall be constructed and maintained during the progress of the work in suitable numbers and at such points and in such manner as may be required or approved.

The Contractor shall provide these portable sanitary facilities "on-site" for use by workers. Transporting workers to the nearest "public" sanitary facility will not be considered an acceptable alternative to these requirements.

The Contractor shall maintain the sanitary facilities in a satisfactory and sanitary condition at all times and shall enforce their use. He shall rigorously prohibit the committing of nuisances on the site of the work, on the lands of the Owner, or on adjacent property. The cost of providing these sanitary facilities shall be included in the Contractor's applicable pay items of work and no separate payment shall be made thereof.

Temporary Refuse/Waste Collection

The Contractor shall provide for adequate refuse/waste collection and disposal. City Ordinance requires that all rental open-top rolloff container units or rental cubic-yard container units must be procured from one of the City's franchised construction and demolition debris providers. For a list of the City's current Franchised Providers, please call Public Works at 386-676-3220.

It will be the Contractor's responsibility to make all necessary arrangements for refuse/waste collection and disposal. The cost of providing for such refuse/waste collection and disposal shall be included in the Contractor's applicable pay items of work and no separate payment shall be made thereof.

Termination and Removal:

At the time the need for temporary utility service or a substantial portion thereof has ended, or when its service has been replaced by use of permanent services, or not later than the time of substantial completion, promptly remove the installation unless requested by the Engineer to retain it for a longer period. Complete and restore work which may have been delayed or affected by the installation and use of the temporary utility, including repairs to construction and grades and restoration and cleaning of exposed surfaces. Replace work damaged beyond acceptable restoration.

1.03 TEMPORARY CONTROLS

Noise Control:

The Contractor shall provide adequate protection against objectionable noise levels caused by the operation of construction equipment.

Dust Control:

The Contractor shall provide for adequate protection against raising objectionable dust clouds caused by moving construction equipment, high winds or any other cause.

Water Control:

The Contractor shall provide for satisfactory disposal of surplus water and shall submit a plan to the Engineer for his review prior to initiation and implementation of the plan. Prior approval shall be obtained from the proper authorities for the use of public or private lands or facilities for such disposal.

Pollution Control:

The Contractor shall provide for adequate protection against polluting any public or private lands, lakes, ponds, rivers, streams, creeks, and other such areas, by the disposal of surplus material in the form of solids, liquids, or gases or from any other cause. The Contractor shall provide for adequate refuse/waste collection and disposal as described in Part 1, paragraph 1.02 of this Section.

The Contractor shall evaluate and assess the impact of any adverse effects on the natural environment which may result from construction operations and shall operate to minimize pollution of air, ground or surface waters vegetation, and afford the neighboring community the maximum protection during and up to completion of the construction project.

The Contractor shall take sufficient precautions to prevent pollution of streams, lakes and reservoirs with fuels, oils, bitumens, calcium chloride or other harmful materials. He shall conduct and schedule his operations so as to avoid or otherwise prevent pollution of siltation of streams, lakes and reservoirs and to avoid interference with movement of migratory fish.

All chemicals used during project construction or furnished for project operation, whether herbicide, pesticide, disinfectant, polymer, reactant or of other classification, must show approval of either EPA or USDA. Use of all such chemicals and disposal of residues shall be in strict conformance with instructions.

Erosion Control:

The Contractor shall not expose, by construction operations, a larger area of erosive land at any one time than the minimum necessary for efficient construction operations, and the duration of exposure of the uncompleted construction to the elements shall be as short as practicable.

Erosion control features shall be constructed concurrently with other work and at the earliest practicable time.

1.04 STORAGE FACILITIES

All products, materials and equipment shall be stored in accordance with the manufacturer's instructions, with seals and labels intact and legible. Products subject to damage by the elements shall be stored in weathertight enclosures. Temperature and humidity shall be maintained within the ranges required by the manufacturer's instructions. Fabricated products shall be stored above the

ground on blocking or skids. Products which are subject to deterioration shall be covered with impervious coatings with adequate ventilation to avoid condensation. Loose granular materials shall be stored in a well-drained area on solid surfaces to prevent mixing with foreign matter. Any products which will come in contact with potable water shall be stored off the ground so as to prevent contamination.

Storage shall be arranged in such a manner to provide easy access for inspection. Periodic inspections shall be made of all stored products to assure that they are maintained under specified conditions, and free from damage or deterioration.
After installation, Contractor shall provide substantial coverings as necessary to installed products to protect from damage from traffic and subsequent construction operations. Coverings shall be removed when no longer needed.

1.05 PRESERVATION OF PROPERTY

Preserve from damage all property along the line of the work, or which is in the vicinity of or in any wise affected by the work, the removal or destruction of which is not called for by the plans. Wherever such property is damaged due to the activities of the Contractor, it shall be immediately restored to its original condition by the Contractor at no cost to the Owner.

In case of failure on the part of the Contractor to restore such property, or make good such damage or injury, the Owner may, after 48 hours notice to the Contractor, proceed to repair, rebuild or otherwise restore such property as may be deemed necessary and the cost thereof will be deducted from any monies due or which may become due the Contractor under this Contract.

The Contractor shall be responsible for the protection of property, in the areas in the vicinity of the project; and for the protection of his equipment, supplies, materials and work, against any damage resulting from the elements, such as flooding, by rainstorm, wind damage, or other elemental cause resulting from the project configuration. The Contractor shall take all precautions against any such damage occurrence, and shall be responsible for damage resulting from same. The Contractor shall provide adequate drainage facilities, tie-downs, or other protection, throughout the Contract period, for the protection of his, the Owner's, and other properties from such damage.

1.06 TRAFFIC REGULATION

Signs, marking barricades and procedures shall conform to the requirements of the Florida Department of Transportation Manual on Traffic Controls and Safe Practices for Street and Highway Construction, Maintenance and Utility Operations.

The Contractor shall maintain one-lane, two-way traffic at all times and maintain customer access to local businesses at all times throughout the course of the work.

The Contractor shall provide and maintain adequate barricades, construction signs, torches, flashers, guards and flagmen as required in pedestrian and vehicular traffic areas. Regulations of local authorities shall be complied with.

The contractor shall provide suitable crossings at street intersections and driveways, and supply such aid as may be required for pedestrians and motorists, including delivery vehicles, to safely negotiate the construction areas.

The Contractor shall carry on the work in a manner that will cause the least interruption in traffic. Closing to through travel of more than two consecutive blocks, including the cross streets intersected will not be permitted without specific authorization from the local authorities. Where traffic must cross open trenches, the Contractor shall provide suitable bridges at street intersections and driveways and provide adequate ingress and egress to dwellings, business facilities, utilities and services. At any time the streets are required to be closed, the Contractor shall notify, in writing, law enforcement agencies, fire departments, and parties operating emergency vehicles before the street is closed and again as soon as it is opened. Access to fire hydrants and other fire extinguishing equipment shall be provided and maintained at all times. Refer to Section 01010 of these Specifications for "Notification of Construction" and "Notification of Street Closure" requirements.

On completion of work, the Contractor shall remove all debris, excess materials, barricades and temporary work leaving walkways and road clear of obstructions.

PART 2 - PRODUCTS

(Not Applicable)

PART 3 - EXECUTION

(Not Applicable)

END OF SECTION

SECTION 01600
MATERIALS AND EQUIPMENT

PART 1 - GENERAL

1.01 DESCRIPTION OF REQUIREMENTS

Materials and equipment furnished by CONTRACTOR shall be new and shall not have been in service at any other installation unless otherwise provided. Materials and equipment shall conform to applicable specifications and standards and comply with the size, make, type and quality specified, or as specifically approved in writing by ENGINEER.

Manufactured and fabricated items shall be designed, fabricated and assembled in accordance with the best engineering and shop practices. Like parts of duplicate units shall be manufactured to standard sizes and gauges to be interchangeable.

Two or more things of the same kind shall be identical, by the same manufacturer.

Materials and equipment shall be suitable for service conditions shown or specified.

Equipment which requires auxiliary devices or equipment in order to operate properly shall have such auxiliary devices or equipment included as a part of its system.

Equipment sizes, capacities and dimensions shown or specified shall be adhered to unless variations are specifically approved in writing.

Materials and equipment shall not be used for any purpose other than that for which it is designed or is specified.

Where existing materials or equipment is specifically shown or specified to be reused in the work, special care shall be used in removal, handling, storage, and reinstallation, to assure proper function in the completed work.

CONTRACTOR shall arrange for transportation, storage and handling of products which require off-site storage, restoration or renovation.

Salvaged Materials. In the absence of special provisions to the contrary, salvaged materials, equipment or supplies are the property of OWNER and shall be cleaned and stored as directed by ENGINEER.

Manufacturer's Instructions. The installation of all work shall comply with manufacturer's written instructions. CONTRACTOR shall obtain and distribute copies of such instructions to parties involved in the installation including two copies to ENGINEER. One complete set of instructions shall be maintained at the job site during installation and until completion All products and equipment shall be handled, installed, connected, cleaned, conditioned and adjusted in accordance with the manufacturers instructions and specified requirements. Should job

conditions or specified requirements conflict with manufacturers instructions, such conflicts shall be called to ENGINEER'S attention for resolution and revised instructions.

Equipment Guarantee. All mechanical and electrical equipment, together with devices of whatever nature and all components, which are furnished and/or installed by CONTRACTOR shall be guaranteed. The guarantee shall be against manufacturing and/or design inadequacies, materials and workmanship, improper assembly, hidden damage, failure of devices and/or components, excessive leakage or other circumstances which would cause the equipment to fail under normal design and/or specific operating conditions for a period of one year or such longer period as may be shown and/or specified from and after the date of acceptance of the equipment by OWNER. Each piece of equipment, device or component which shall fail within the above specified term shall be replaced with reasonable promptness by CONTRACTOR without cost to OWNER.

Operating Characteristics. Rotating machinery shall be designed and fabricated to provide satisfactory operation without excessive wear and without excessive maintenance during its operating life. Rotating parts shall be statically and dynamically balanced and shall operate without excessive vibration.

Lubrication System. The minimum design criteria for lubrication of moving parts of the equipment shall include one week of continuous operation during which no lubricants shall be added to the system. The system shall also be designed to receive lubricants whether in operation or shut down, and shall not leak or waste lubricants under either condition. The manufacturer's recommendations of grade and quality and a supply of the lubricants so recommended in quantities sufficient to conduct startup and testing operations shall be furnished with the equipment.

Safety Requirements. Screens, guards or cages shall be provided for all exposed, rotating or moving parts in accordance with accepted practices of applicable governmental agencies.

Nameplates. Each major component of equipment shall have the manufacturers name, catalog and/or model number, serial number and applicable performance requirements and characteristics embossed, stamped, or engraved on a stainless steel plate securely attached to the item of equipment.

Anchor Bolts. The manufacturer shall provide stainless steel anchor bolts for each piece of equipment furnished.

1.02 TRANSPORTATION AND HANDLING

Materials and equipment shall be loaded and unloaded by methods affording adequate protection against damage. Every precaution shall be taken to prevent injury to the materials or equipment during transportation and handling. Suitable power equipment will be used and the materials or equipment shall be under control at all times. Under no condition shall the materials or equipment be dropped, bumped or dragged. When a crane is used, a suitable hook or lift sling shall be used. The crane shall be so placed that all lifting is done in a vertical plane. Materials or equipment skid loaded, palletized or handled on skidways shall not be skidded or rolled against materials or equipment already unloaded.

Materials and equipment shall be delivered to the job site by means that will adequately support it and not subject it to undue stresses. Contractor shall promptly inspect the products for damage and defects and conformance with the specification. Materials and equipment damaged or injured in the process of transportation, unloading or handling will be rejected and shall be immediately removed from the site.

1.03 STORAGE AND PROTECTION

All materials and equipment shall be stored in accordance with the manufacturer's instructions, with seals and labels intact and legible. Items subject to damage by the elements shall be stored in weathertight enclosures. Temperature and humidity shall be maintained within the ranges required by the manufacturers instructions. Fabricated items shall be stored above the ground on blocking or skids. Items which are subject to deterioration shall be covered with impervious coatings with adequate ventilation to avoid condensation. Loose granular materials shall be stored in a well-drained area on solid surfaces to prevent mixing with foreign matter. Any items which will come in contact with potable water shall be stored off the ground so as to prevent contamination.

Storage shall be arranged in such a manner to provide easy access for inspection. Periodic inspections shall be made of all stored items to assure that they are maintained under specified conditions, and free from damage or deterioration.

After installation, CONTRACTOR shall provide substantial coverings as necessary to protect installed items from damage, from traffic, and subsequent construction operations. Coverings shall be removed when no longer needed.

PART 2 - MATERIALS AND EQUIPMENT

(Not Applicable)

PART 3 - EXECUTION

(Not Applicable)

END OF SECTION

SECTION 01630
SUBSTITUTIONS AND PRODUCT OPTIONS

PART 1 - GENERAL

1.01 REQUESTS FOR REVIEW

A. Requests to review substitute items of material and equipment will not be accepted by the Engineer from anyone other than the Contractor. If the Contractor wishes to furnish or use a substitute or equivalent item of material or equipment, the Contractor shall make written application to the Engineer for acceptance, certifying that the proposed substitute will perform adequately the functions called for by the general design, be similar and of equivalent substance to that specified and be suited to the same use and capable of performing the same function as that specified. The application will state whether or not acceptance of the substitute for use in the work will require a change in Drawings or Specifications to adapt the design to the substitute and whether or not incorporation or use of the substitute in connection with the work is subject to payment of any license fee or royalty. All variations of the proposed substitute from that specified shall be identified in the application and available maintenance, repair and replacement service will be indicated. The application will also contain an itemized estimate of all costs that will result directly or indirectly from acceptance of such substitute, including costs of redesign and claims of other contractors affected by the resulting change, all of which shall be considered by the Engineer in evaluating the proposed substitute. The Engineer may require the Contractor to furnish at the Contractor's expense additional data about the proposed substitute. The Engineer will be the sole judge of acceptability, and no substitute will be ordered or installed without the Engineer's prior written acceptance. The Owner may require the Contractor to furnish at the Contractor's expense, a special performance guarantee or other surety with respect to any substitute.

1.02 SUBSTITUTION AFTER EXECUTION OF AGREEMENT

A. After execution of the Agreement, substitution of materials or equipment supplied by manufacturers or suppliers other than those listed, will be considered only if it is demonstrated by the Contractor that:

1. the material or equipment proposed for substitution is superior in design, construction and/or efficiency to that of the listed manufacturer or supplier;

2. the material proposed for substitution is in every way equal to that of the listed supplier, and that availability and/or delivery of listed materials within the time frame scheduled cannot be met; or

3. the material proposed for substitution is in every way equal to that of the listed

supplier and is available at a lower cost. In the event such a substitution is allowed, the Contractor shall accept and execute a Change Order reducing the Contract Price by an amount equal to the cost differential.

1.03 EQUIVALENT MATERIALS AND EQUIPMENT

A. Whenever materials or equipment are specified or described in the Drawings or Specifications by using the name of a proprietary item or the name of a particular manufacturer, fabricator, supplier or distributor, the naming of the item is intended to establish the type, function, and quality required. Unless the name is followed by words indicating that no substitution is permitted, materials or equipment of other manufacturers, fabricators, suppliers or distributors may be accepted by the Engineer to determine that the material or equipment proposed is equivalent to that named.

B. It is not the intent of the Contract Documents to function as proprietary specifications. Where a particular manufacturer make and model are cited and specifically required for interchangeability of parts and/or match existing equipment, this has been so stated in the Specifications.

C. The standard products of manufacturers other than those specified may be considered when it is demonstrated to the ENGINEER that they are equal in quality, composition, durability, usefulness and convenience for the purpose intended. Requests for substitutions will only be considered, provided the following minimum conditions are met:

1. The proposed coating system shall use an equal or greater number of separate coats to achieve the required dry film thickness.

2. The proposed coating system shall use coatings of the same generic type.

3. All requests for substitutions shall have the directions for application and descriptive literature which includes generic type, nonvolatile content by volume and information confirming that the substitution is equal to the specified coating system.

4. The CONTRACTOR shall provide Certified Laboratory Data Sheets showing the results of complete spectrographic and durability tests performed on the proposed substitute. Tests shall be performed by a laboratory which conforms to the provisions of the American Society for Testing and Materials (ASTM E329) and which is a member of the American Council of Independent Laboratories. Costs incurred in the testing program shall be borne by the CONTRACTOR.

5. The cost of all testing and analyzing of the proposed substitute materials that may be required by the ENGINEER, shall be paid by the CONTRACTOR. If the proposed substitution requires changes in the contract work, the CONTRACTOR shall bear all such costs involved and the costs of allied trades affected by the substitution.

PART 2 - PRODUCTS

(Not Applicable)

PART 3 - EXECUTION

(Not Applicable)

END OF SECTION

SECTION 01700
CONTRACT CLOSEOUT

PART 1 - GENERAL

1.01 DESCRIPTION OF REQUIREMENTS

Definition:

Closeout is defined to include general requirements near end of Contract Time, in preparation for final acceptance, final payment, normal termination of contract, occupancy by OWNER and similar actions evidencing completion of the work. Specific requirements for individual units of work are specified in sections of Division 2 through 16. Time of closeout is directly related to "Substantial Completion", and therefore may be either a single time period for entire work or a series of time periods for individual parts of the work which have been certified as substantially complete at different dates. That time variation (if any) shall be applicable to other provisions of this section.

1.02 PREREQUISITES TO SUBSTANTIAL COMPLETION

When the CONTRACTOR considers the work to be substantially complete, he shall submit to the ENGINEER: a written notice that the work, or designated portion thereof, is substantially complete; and a list of items to be completed or corrected.

Within a reasonable time after receipt of such notice, the ENGINEER will make an inspection to determine the status of completion.

Should the ENGINEER determine that the work is not substantially complete, the ENGINEER will promptly notify the CONTRACTOR, in writing, giving the reasons. The CONTRACTOR shall remedy the deficiencies in the work and send a second written notice of substantial completion to the ENGINEER. The ENGINEER will reinspect the work.

When the ENGINEER finds that the work is substantially complete, he will prepare and deliver to the OWNER a tentative Certificate of Substantial Completion with a tentative list of items to be completed or corrected before final payment. After consideration of any objections made by the OWNER as provided in Conditions of the Contract, and when the ENGINEER considers the work substantially complete, the ENGINEER will execute and deliver to the OWNER and the CONTRACTOR a definite Certificate of Substantial Completion with a revised tentative list of items to be completed or corrected.

When the CONTRACTOR considers the work complete, he shall submit written certification that the Contract Documents have been reviewed, the work has been inspected for compliance with the Contract Documents, the work has been completed in accordance with the Contract Documents, equipment and systems have been tested in the presence of the OWNER's representative and are operational, and the work is completed and ready for final inspection.

With reasonable promptness after receipt of such certification, the ENGINEER will make an inspection to verify the status of completion. Should the ENGINEER consider that the work is

incomplete or defective, he will promptly notify the CONTRACTOR, in writing, listing the incomplete or defective work. The CONTRACTOR shall take immediate steps to remedy the stated deficiencies and send a second written certification to the ENGINEER that the work is complete. The ENGINEER will reinspect the work.

Should the ENGINEER perform reinspections due to failure of the Work to comply with the claims of status of completion made by the CONTRACTOR, the OWNER will compensate the ENGINEER for such additional services, and the OWNER will deduct the amount of such compensation from the final payment to the CONTRACTOR.

1.03 CLOSEOUT SUBMITTALS

When the ENGINEER finds that the work is acceptable under the Contract Documents, he shall request the CONTRACTOR to make closeout submittals.

The CONTRACTOR's closeout submittals shall include:

1. Evidence of compliance with requirements of governing authorities.
2. Project Record Documents.
3. Evidence of Payment and Release of Liens.
4. Certificate of Insurance for Products and Completed Operations.
5. Warranties and Bonds.

1.04 ADDITIONAL CLOSEOUT REQUIREMENTS

Project Record Documents:

The CONTRACTOR shall keep one Record copy of all specifications, drawings, addenda, modifications, shop drawings, field test records, and samples at the site in good order and annotated in red to show all changes made during the construction process. These shall be available to the ENGINEER for examination and shall be delivered to the ENGINEER for the OWNER upon completion of the work.

Documents and samples shall be stored in the CONTRACTOR's field office apart from documents used for construction. The CONTRACTOR shall provide files and racks for storage of documents, and a locked cabinet or secure storage space for storage of samples. Documents shall be maintained in a clean, dry, legible condition and in good order.

Record Documents shall not be used for construction purposes.
Each Document shall be labeled "PROJECT RECORD" in neat, large printed letters.

Information shall be recorded by the CONTRACTOR, on a daily basis, concurrently with construction progress. No work shall be concealed until required information is recorded on the CONTRACTOR’s Record Drawings.

Drawings shall be legibly marked to record actual construction information on: depths of various elements of foundation in relation to finish first floor datum; horizontal and vertical locations of underground utilities and appurtenances, referenced to permanent surface improvements; location of internal utilities and appurtenances concealed in the construction, referenced to visible and accessible features of the structure; field changes of dimension and detail; changes made by Field Order or by Change Order; and details not on original contract drawings.

Specifications and Addenda shall have each section legibly marked to record: manufacturer, trade name, catalog number, and supplier of each product and item of equipment actually installed; and changes made by Field Order or by Change Order.

At contract closeout Record Documents shall be delivered to the ENGINEER for the OWNER. The submittal shall be accompanied with a transmittal letter in duplicate, containing:

1. Date
2. Project title and number
3. CONTRACTOR's name and address
4. Title and number of each Record Document
5. Signature of CONTRACTOR or his authorized representative

As-Built Survey Requirements:

(Not Applicable)

Operating and Maintenance Data:

The CONTRACTOR shall compile product data and related information appropriate for OWNER's maintenance and operation of products furnished under the Contract.
The submittals shall include but not necessarily be limited to:

Manufacturer's specifications.

Directions and instructions relating to assembly, installation, operation and maintenance.

Parts list with catalog numbers and other data necessary for ordering replacements.

1.05 WARRANTIES AND BONDS

The CONTRACTOR shall compile and submit to the ENGINEER in duplicate, for review and transmittal to the OWNER, warranties, bonds, service and maintenance contracts as specified in the respective sections of Specifications. Submittal shall be made within ten days after Substantial Completion and prior to final request for payment.

1.06 FINAL STATEMENT OF ACCOUNTING

The CONTRACTOR shall submit a final statement of accounting to the ENGINEER. The statement shall reflect all adjustments to the Contract Sum:

1. The original Contract Sum

2. Additions and deductions resulting from:
   Previous Change Orders
   Deductions for uncorrected work
   Deductions for liquidated damages
   Deductions for reinspection payments
   Other adjustments
3. Total Contract Sum, as adjusted
4. Previous payments
5. Sum remaining due

1.07 FINAL CHANGE ORDER

The ENGINEER will prepare a final Change Order, if required, reflecting approved adjustments to the Contract Sum which were not previously made by Change Orders.

1.08 FINAL APPLICATION FOR PAYMENT

The CONTRACTOR shall submit the final Application for Payment in accordance with procedures and requirements stated in the Conditions of the Contract.

PART 2 - PRODUCTS

(Not Applicable)

PART 3 - EXECUTION

(Not Applicable)

END OF SECTION

SECTION 01710
FINAL CLEANING

PART 1 - GENERAL

1.01 DESCRIPTION OF REQUIREMENTS

The CONTRACTOR shall execute cleaning, during progress of the work, and at the completion of the work, as required by General Conditions.

Cleaning and disposal operations shall comply with all applicable codes, ordinances, regulations, and anti-pollution laws.

Refer to Section 01500 - Temporary Facilities And Controls for additional requirements.

PART 2 - MATERIALS

The CONTRACTOR shall:

Use only those materials which will not create hazards to health or property and which will not damage surfaces.

Use only those cleaning materials and methods recommended by manufacturer of the surfaces to be cleaned.

Use cleaning materials only on surfaces recommended by cleaning material manufacturer.

PART 3 - EXECUTION

3.01 CLEANING DURING CONSTRUCTION

The CONTRACTOR shall:

Execute periodic cleaning to keep the work, the site and adjacent properties free from accumulations of waste materials, rubbish and windblown debris, resulting from construction operations.

Provide on-site containers for the collection of waste materials, debris and rubbish. Rental of refuse/waste containers must fully comply with the requirements of Section 01500 - Temporary Facilities And Controls.

Remove waste materials, debris and rubbish from the site at least once a week and dispose of at legal disposal areas away from the site.

Prior to final completion, CONTRACTOR shall conduct an inspection of work areas, to verify that the entire work is clean.

3.02 FINAL CLEANING

The CONTRACTOR shall:

Employ skilled workmen for final cleaning.

Remove grease, mastic, adhesives, dust, dirt, stains, and other foreign materials from sight-exposed surfaces.

Broom clean exterior paved surface; rake clean other surfaces of the grounds.

Except as otherwise indicated or requested by the ENGINEER, remove temporary protection devices and facilities which were installed during the course of the work to protect previously completed work during the remainder of the construction project.

Prior to final completion, CONTRACTOR shall conduct an inspection of work areas, to verify that the entire work is clean.

Where extra materials of value remaining after completion of the associated work have become the OWNER's property, dispose or store at the site, as directed by the ENGINEER.

END OF SECTION

SECTION 01740
WARRANTIES

PART 1 - GENERAL

1.01 DESCRIPTION OF REQUIREMENTS

All work performed under this contract shall be warranted for labor and materials for a minimum period of one year after date of completion and acceptance of the project. Specific warranties are noted in specific sections.

Standard product warranties are preprinted written warranties published by individual manufacturers for particular products and are specifically endorsed by the manufacturer to the Owner.

Special warranties are written warranties required by or incorporated in the Contract Documents, either to extend time limits provided by standard warranties or to provide greater rights for the Owner.

1. Refer to the General Conditions for terms of the Contractor's period for correction of the work.

Disclaimers and Limitations: Manufacturer's disclaimers and limitations on product warranties do not relieve the Contractor of the warranty on the Work that incorporates the products. Manufacturer's disclaimers and limitations on product warranties do not relieve suppliers, manufacturers and subcontractors required to countersign special warranties with the Contractor.

Related Damages and Losses: When correcting failed or damaged warranted construction, remove and replace construction that has been damaged as a result of such failure or must be removed and replaced to provide access for correction of warranted construction.

Reinstatement of Warranty: When work covered by a warranty has failed and been corrected by replacement or rebuilding, reinstate the warranty by written endorsement. The reinstated warranty shall be equal to the original warranty with an equitable adjustment for depreciation.

Replacement Cost: Upon determination that work covered by a warranty has failed, replace or rebuild the work to an acceptable condition complying with the requirements of the Contract Documents. The Contractor is responsible for the cost of replacing or rebuilding defective work regardless of whether the owner has benefited from use of the work through a portion of its anticipated useful service life.

Owner's Recourse: Expressed warranties made to the Owner are in addition to implied warranties and shall not limit the duties, obligations, rights, and remedies otherwise available under the law. Expressed warranty periods shall not be interpreted as limitations on the time in which the Owner can enforce such other duties, obligations, rights or remedies.

1. Rejection of Warranties: The Owner reserves the right to reject warranties and to limit selection to products with warranties not in conflict with requirements of the Contract Documents.

2. Where the Contract Documents require a special warranty, or similar commitment, the Owner reserves the right to refuse to accept the work, until the Contractor presents evidence that entities required to countersign such commitments are willing to do so.

Submit written warranties to the Engineer prior to the date certified for Substantial Completion. If the Engineer's Certificate of Substantial Completion designates a commencement date for warranties other than the date of Substantial Completion, submit written warranties upon request of the Engineer.

END OF SECTION

SECTION 02050
DEMOLITION

PART 1 - GENERAL

1.01 DESCRIPTION OF WORK

A. The work includes, but is not limited to, demolition and removal of the top slabs for lift station valve vaults and wet wells, removal of concrete pavement, removal of pumps, piping, electrical controls, wiring and lighting within grassed and landscaped dedicated easements as shown on the drawings.

1.02 QUALITY ASSURANCE

A. Accomplish all demolition work so there is no injury to any persons and no damage to adjacent structures or property. All demolition methods shall be in full compliance with municipal, county, state, and federal ordinances. Demolition work shall comply with the requirements of the Occupational Safety and Health Administration (OSHA).

B. The Contractor shall comply with all municipal, county, state, and federal ordinances regarding the disposal of rubble, scrap metal, and refuse.

C. Demolition procedures shall provide for safe conduct of the work, protection of property which is to remain undisturbed, and coordination with other work in progress.

1.03 JOB CONDITIONS

A. General:

1. It shall be the responsibility of the Contractor to visit the site and inspect the nature and condition of the items to be removed and salvaged before submitting his bid.

B. Dust Control:

1. Control the amount of dust resulting from demolition to prevent the spread of dust to occupied portions of buildings and to avoid creation of a nuisance in the surrounding area. Do not use water when it will result in, or create, hazardous or objectionable conditions such as flooding and pollution.

C. Protection of Existing Work:

1. Protect existing work. Work damaged by the Contractor shall be repaired to match existing work.

1.04 PERMITS AND NOTICES

A. Permits and Licenses: Contractor shall obtain all necessary permits and licenses for

performing the work and shall furnish a copy of same to the Engineer prior to commencing the work. The contractor shall comply with the requirements of the permits.

B. Notices: Contractor shall issue written notices of planned demolition to Owner, Engineer and businesses or local residents located in the vicinity of the project site. Notices shall be received at least 48 hours in advance of the planned demolition activity.

C. Utility Services: Contractor shall notify utility companies or local authorities furnishing gas, sewer, water, electrical or telephone to remove any equipment owned by them in structures to be demolished and to remove, disconnect, cap or plug their services to facilitate demolition.

1.05 TRAFFIC AND ACCESS

A. Conduct demolition and modification operation, and removal of piping and debris to ensure minimum interference with roads, streets and sidewalks both onsite and off site and to ensure minimum interference with occupied or used facilities.

B. Contractor shall at all times maintain safe and convenient access to the existing site.

C. Do not close or obstruct streets or walks without permission from the Owner and Engineer. Provide alternate traffic routes around closed or obstructed access ways.

1.06 UTILITIES

A. Existing utilities to remain in service and protected against damage during demolition operations. This may include the installation/construction of bypass piping where necessary.

B. Do not interrupt existing utilities serving occupied or used facilities, except when authorized by the Owner and Engineer. Provide temporary services during interruption to existing utilities as required by the Owner.

C. The Contractor shall cooperate with the Owner to shut off utilities serving the existing facilities as required by demolition operations. If service must be cut off to existing customers, the Owner must have at least three (3) days notice to make necessary preparations.

D. The Contractor shall be solely responsible for making all necessary arrangements and for performing any necessary work involved in connection with the discontinuance or interruption of all public and private utilities or services under this jurisdiction of utility companies.

1.07 POLLUTION CONTROL

A. For pollution control, use water sprinkling, temporary enclosures and other suitable methods as necessary to limit the amount of dust and dirt rising and scattering in the air to the lowest level of air pollution practical for the conditions or work. Comply with the governing regulations.

B. Clean structures and improvements of all dust, dirt and debris caused by demolition operations as directed by the Engineer. Return areas to conditions existing prior to the start of work.

1.08 QUALITY CONTROL

A. Protect all existing materials and equipment to be salvaged or reused from damage.

B. Cap or plug all lines to be abandoned.

C. Leave all exposed ends of all pipe covered and safe.

PART 2 - PRODUCTS

NONE

PART 3 - EXECUTION

3.01 DISPOSAL

A. Equipment, piping, and materials which are designated to remain the property of the Owner shall be moved to a location designated by the Owner.

B. All removed materials not specifically designated to remain the property of the Owner shall become the property of the Contractor and shall be removed from the site and disposed of in a lawful manner.

C. Do not allow debris and rubbish to accumulate on the site. Remove debris and rubbish from the site.

3.02 CLEAN-UP

A. Clean-up in areas where other work is to be done following demolition shall be as specified in the applicable Sections.

B. Clean-up the job site in areas where no other work is to be done under this Contract following demolition. Remove all debris and rubbish, temporary facilities, and equipment. Level surface irregularities to eliminate depressions. Leave the work in a neat and presentable condition.

END OF SECTION

SECTION 02140
DEWATERING

PART 1 - GENERAL

1.01 DESCRIPTION OF WORK

A. Scope: In general, the work specified in this section of the specifications shall consist of supplying labor, materials, and plant, and performing all work necessary to lower and control the groundwater levels and hydrostatic pressures to permit all excavations and construction specified under this Contract to be performed in the dry.

B. Examination of Site: The Contractor shall take all steps that he considers necessary to familiarize himself with the site conditions, the ground conditions and the groundwater conditions. It is expressly understood that neither the Owner nor the Engineer will be held responsible for any interpretations or conclusions drawn by the Contractor.

PART 2 - PRODUCT

2.01 METHOD AND EQUIPMENT

A. The Contractor may use any dewatering method he deems feasible so long as it results in working in the dry and in stable soil conditions. It is the intent of these specifications that an adequate dewatering system be installed to lower and control the groundwater in order to permit excavation, construction of the structures, construction of pipelines, and the placement of the fill materials, all to be performed under dry conditions. The dewatering system shall be adequate to pre-drain the water-bearing strata above and below the bottom of the foundations, the drains, the sewers and all other excavations. An adequate weight of fill material shall be in place prior to discontinuing operation of dewatering to prevent buoyancy of the structure.

PART 3 - EXECUTION

3.01 GENERAL

A. The Contractor shall be solely responsible for the arrangement, location and depths of the dewatering system necessary to accomplish the work described under this section of the specifications. The dewatering shall be accomplished in a manner that will reduce the hydrostatic head below any excavation to the extent that the water level and piezometric water levels in the construction area are below the prevailing excavation surface; will prevent the loss of fines, seepage, boils, quick conditions, or softening of the foundation strata; will maintain stability of the sides and bottom of the excavation; and will result in all construction operations being performed in the dry.

B. Disposal of Water: The Contractor shall promptly dispose of all water removed from the excavations in such a manner as will not endanger public health, damage public or private property, or affect adversely any portion of the work under construction or completed by him or any other Contractor. Contractor shall obtain written permission from the Owner of any property involved before digging ditches or constructing water courses for the removal of water.

C. Siltation and Erosion:

1. The Contractor shall take steps and make suitable provisions to minimize siltation and erosion which may result from, or as a result of, his operations during the course of construction of this project.

2. The methods and provisions utilized by the Contractor to minimize siltation and erosion shall be approved by the Engineer and shall be in conformance with current Florida Department of Environmental Protection and St. Johns River Water Management District practices and regulations.

D. Inadequate System: If the dewatering requirements are not satisfied due to inadequacy or failure of the dewatering system, then loosening of the foundation strata, or instability of the slopes, or damage to the foundations or structures may occur. The supply of all labor, materials, and plant, and the performance of all work necessary to carry out additional work for reinstatement of the structures of foundation soil resulting from such inadequacy or failure shall be undertaken by the Contractor to the approval of the Engineer, and at no additional expense to the Owner.

END OF SECTION

SECTION 02200
EARTHWORK

PART 1 - GENERAL

1.01 DESCRIPTION OF WORK

A. The extent of earthwork is shown on the drawings.

B. Related Work Specified Elsewhere:

Section 02222 - Trenching, Backfilling and Compacting.

1.02 QUALITY ASSURANCE

A. Codes and Standards:

1. Perform earthwork in compliance with applicable requirements of governing authorities having jurisdiction.

B. Testing and Inspection Service:

1. The Owner will engage a testing and inspection service, to include testing soil materials proposed for use in the work and field facilities for quality control testing during earthwork operations.

2. Soil survey for satisfactory soil materials and samples of soil materials shall be furnished to the testing service by the Contractor.

3. All test reports must be signed by a licensed engineer.

1.03 JOB CONDITIONS

A. Existing Utilities:

1. Locate existing underground utilities in the areas of work before starting earthwork operations. Where utilities are to remain in place, provide adequate means of protection during earthwork operations.

2. Should uncharted, or incorrectly charted, piping or other utilities be encountered during excavation, consult the utility owner immediately for directions. Cooperate with the Owner and public and private utility companies in keeping their respective services and facilities in operation. Repair damaged utilities to the satisfaction of the utility owner.

3. Do not interrupt existing utilities serving facilities occupied and used by the Owner or others, except when permitted in writing by the Engineer and then only after acceptable

temporary utility services have been provided.

4. Demolish and completely remove from the site underground utilities indicated to be removed. Coordinate with local utility companies for shut-off of services if lines are active.

B. Use of Explosives:

1. The use of explosives is not permitted.

C. Temporary Protection:

1. Barricade open excavations made as a part of earthwork operations and post with warning lights. Operate warning lights as recommended by authorities having jurisdiction.

2. Protect structures, utilities, sidewalks, pavements, and other facilities from damages caused by settlement, lateral movement, undermining, washout, and other hazards created by earthwork operations.

PART 2 - PRODUCTS

2.01 SOIL MATERIALS

A. Backfill and Fill Materials:

1. Soil materials for use as backfill and fill shall be free of rock or gravel larger than 2-inches in any dimension, debris, waste, vegetable, and other deleterious matter.

2. Use excavated or borrows material that has been sampled, tested and certified as satisfactory soil material.

B. Subbase Material:

1. Properly graded mixture of natural and crushed gravel, crushed stone, crushed slag, natural or processed sand that will readily compact to the required density.

2. Use material complying with AASHTO M147, Grade A, unless otherwise indicated or acceptable to the Engineer.

PART 3 - EXECUTION

3.01 INSPECTION

A. Examine the areas and conditions under which earthwork is to be performed and notify the Engineer in writing of conditions detrimental to the proper and timely completion of the work. Do not proceed with the work until unsatisfactory conditions have been corrected in an acceptable manner.

3.02 EXCAVATION

A. Excavation consists of the removal and disposal of materials encountered when establishing the required grade elevations.

1. Where it is necessary to cut roots projecting into an excavation or to trim branches for equipment clearance, all severed root ends or cuts to branches over 1/2-inch diameter shall be treated with an asphalt base pruning paint. Backfill over exposed roots as soon as possible.

B. Excavation Classifications:

1. The following classifications of excavation will be made when unanticipated rock excavation is encountered in the work. Do not perform such work until material to be excavated has been cross-sectioned and classified by the Engineer. Such excavation will be paid for under the appropriate bid item in the Bid Proposal.

a. Earth excavation includes the removal and disposal of pavements and other obstructions visible on the ground surface, underground structures and utilities indicated to be demolished and removed, material of any classification indicated in data on subsurface conditions, and all other materials encountered that are not classified as rock excavation or unauthorized excavation.

b. Rock excavation consists of the removal and disposal of materials encountered that cannot be excavated with a 3/4 cubic yard capacity power shovel without drilling and blasting, or continuous use of a ripper or other special equipment, except such materials that are classified as earth excavation. Typical of materials classified as rock are boulders 1/2 cu. yd. or more in volume, solid rock, rock in ledges, and rock-hard cementitious aggregate deposits.

c. Intermittent drilling that may be performed to increase production and is not necessary to permit excavation of the material encountered will be classified as earth excavation.

C. Rock shall be removed to the following limits:

1. Two feet outside of concrete work for which forms are required, except footings. One foot outside the perimeters of footings.

2. In pipe trenches, a minimum of 4-inches below invert elevation of pipe and 2-feet wider than the inside diameter of pipe, but not less than 3-foot minimum trench width.

3. Neat outside dimensions of concrete work where no forms are required.

4. Under slabs on grade, 6-inches below bottoms of concrete slab.

D. Unauthorized excavation consists of removal of materials beyond indicated elevations without the specific direction of the Engineer. Replace unauthorized excavation by backfilling and compacting as specified for authorized excavations of the same classification, unless otherwise directed by the Engineer.

E. Additional Excavation:

1. When excavation has reached required subgrade elevations, notify the Engineer who will make an inspection of conditions.

2. If unsuitable materials are encountered at the required subgrade elevations, carry excavations deeper and replace the excavated material as directed by the Engineer.

3. Removal of unsuitable material and its replacement as directed will be paid for under the appropriate bid item in the Bid Proposal.

F. Dewatering:

1. Prevent surface water and subsurface or groundwater from flowing into excavations, and flooding the project site and surrounding area.

2. Do not allow water to accumulate in excavations. Remove water from excavations to prevent softening of foundation bottoms, undercutting footings, and soil changes detrimental to the stability of subgrades and foundations. Provide and maintain pumps, well points, sumps, suction and discharge lines, and other dewatering system components necessary to convey the water away from the site.

3. Convey water removed from excavations and rainwater to collecting or run-off areas. Do not use trench excavations for site utilities as temporary drainage ditches.

4. Contractor shall be required to obtain any demolition permits as may be required due to dewatering volume requirements set by local and state agencies.

G. Material Storage:

1. Stockpile excavated materials classified as satisfactory soil material where directed, until required for fill. Place, grade, and shape stockpiles for proper drainage.

2. Dispose of excess unsatisfactory soil material, trash and debris, as specified.

3.03 BACKFILL AND FILL

A. Ground Surface Preparation:

1. Remove vegetation, debris, unsatisfactory soil materials, obstructions, and deleterious materials from ground surface prior to placement of fills. Plow, strip, or break-up sloped

surfaces steeper than one vertical to four horizontal so that fill material will bond with existing surface.

2. When the existing ground surface has a density less than that specified under "Compaction" for the particular area classification, break-up the ground surface, pulverize, moisture-condition to the optimum moisture content, and compact to the required depth and percentage of maximum density.

B. Placement and Compaction:

1. Place backfill and fill materials in layers not more than 8-inches in loose depth for material compacted by heavy compaction equipment, and not more than 4-inches loose depth for material compacted by hand-operated equipment.

2. Before compaction, moisten or aerate each layer as necessary to provide the optimum moisture content of the soil material. Compact each layer to the required percentage of maximum dry density or relative dry density for each area classification. Do not place backfill or fill material on surfaces that are muddy, frozen, or contain frost or ice.

a. Backfill excavations as promptly as the work permits, but not until completion of inspection, testing, approval, and recording location of underground utilities, as required.

3.04 COMPACTION

A. General:

1. Control soil compaction during construction, providing the minimum percentage of density specified for each area classification.

2. Percentage of Maximum Density Requirement:

a. Lawn Areas: Compact each layer of backfill or fill material at 85% maximum density (optimum moisture).

b. Walkways: Compact top 6-inches of subgrade and each layer of backfill or fill material at 95% maximum density (optimum moisture).

B. Moisture Control:

1. Where the subgrade or layer of soil materials must be moisture conditioned before compaction, uniformly apply water to the surface of subgrade, or layer of soil material, to prevent free water appearing on the surface during or subsequent to compaction operations. Remove and replace, or scarify and air dry, soil material that is too wet to permit compaction to specified density.

2. Soil material that has been removed because it is too wet to permit compaction may be stockpiled or spread and allowed to dry. Assist drying by disking, harrowing or pulverizing, until the moisture content is reduced to a satisfactory value.

3.05 FIELD QUALITY CONTROL

A. Quality Control Testing During Construction:

1. Testing service must inspect and approve subgrades and fill layers before further construction work is performed thereon.

2. Secure representative samples of the fill material and determine the Standard Density and required moisture content to be maintained by the Moisture-Density Relation Test ASTM D-1557.

3. Make in-place soil density tests during compaction operations in accordance with ASTM D-1556.

4. If, in the opinion of the Engineer, based on reports of the testing service and inspection, the subgrade or fills which have been placed are below the specified density, additional compaction and testing will be required until satisfactory results are obtained.

a. The results of density tests of soil-in-place will be considered satisfactory if the average of any four consecutive density tests which may be selected are in each instance equal to or greater than the specified density, and if not more than one density test out of five has a value more than 2% below the required density.

3.06 MAINTENANCE

A. Reconditioning Compacted Areas:

1. Where completed compacted areas are disturbed by subsequent construction operations or adverse weather, scarify the surface, re-shape, and compact to the required density prior to further construction.

3.07 DISPOSAL OF EXCESS AND WASTE MATERIALS

A. Removal from Owner's Property:

1. Remove waste materials, including excavated material classified as unsatisfactory soil material, trash and debris, and dispose of it off the Owner's property in a lawful manner.

END OF SECTION

SECTION 02222
TRENCHING, BACKFILLING AND COMPACTING

PART 1 - GENERAL

1.01 DESCRIPTION OF WORK

A. The extent of trenching, backfilling and compacting is shown on the drawings.

B. This section includes furnishing equipment, labor and materials, and performing all operations necessary and incidental to perform the required work.

PART 2 - PRODUCTS

(Not Applicable)

PART 3 - EXECUTION

3.01 CLEARING OF THE SITE

A. The site of the work shall be cleared of all trees, shrubs, paving and objectionable material which interfere with the prosecution of the proposed work. Trees and shrubs which will not interfere with construction shall be protected from damage. Clearing shall be considered as an incidental item of excavation.

3.02 EXCAVATION

A. General:

1. Perform excavation described of whatever substance encountered to the dimensions and depths specified or shown on the drawings. Undercutting will not be permitted, except when ordered by the ENGINEER. Material suitable for backfill shall be stockpiled near the site. Rock or other material undesirable for backfill shall be spoiled outside the area in a neat manner, as directed by the ENGINEER. Where it is necessary to cut roots projecting into an excavation or where it is necessary to trim branches for equipment clearance, all severed root ends or cuts to branches over 1/2-inch diameter shall be treated with an asphalt base pruning paint. Backfill over exposed roots as soon as possible.

B. Rock:

1. Where encountered in the trench bed, rock shall be excavated to a depth of 1/4 of the pipe diameter below the bottom of the pipe but in no case less than 4-inches. All undercut trench excavation shall be backfilled and tamped with materials as specified in the following paragraphs under Unstable Subgrade.

C. Unstable Subgrade:

1. In the event that unsuitable material is encountered at or below the excavation depth specified or shown on the drawings, the ENGINEER shall be notified. Such material shall be removed and replaced with suitable material. Methods and materials used for replacement shall be one of the following as directed by the ENGINEER in writing.

a. Suitable earth or sand, compacted in the trench. Materials shall be furnished as a part of the Bid Proposal item covering excavation and backfill.

b. Gravel or crushed limerock, compacted in the trench and paid for under the appropriate item.

c. Existing materials, stabilized after removal and then replaced and compacted in the trench at no additional cost to the OWNER.

2. The ENGINEER shall determine the methods and materials to be used, based upon the condition of the excavation, the pipe structure to be supported, and the availability and character of stabilizing materials.

D. Trenches:

1. Keep pipe laying operation as close to the excavation operation as possible during the prosecution of the work. The ENGINEER reserves the right to stop the excavation at any time when, in his opinion, the excavation is opened too far in advance of the pipe laying.

2. Pipe trenches shall be only of sufficient width to provide a free working space on each side of the pipe. To prevent excess pressure on the pipe, the maximum width of trench at the top of the pipe and at the bottom of the trench shall not be greater than 2-feet more than the greatest exterior diameter of the pipe. If this maximum width is exceeded, it shall be the CONTRACTOR's responsibility to provide, at no additional cost to the OWNER, such additional bedding or select backfill materials as the ENGINEER may require. The excavation below the spring line shall be made to conform as near as possible to the shape of the lower third of the pipe. To protect the pipe lines from unusual stresses, all work shall be done in open trenches. Excavation shall be made for bells of all pipes and of sufficient depth to permit access to the joint for construction and inspections. In no case will the bells be used to support the body of the pipe.

3. In order to avoid existing utilities, at times it may be necessary for the pipe to be laid deeper than the minimum cover specified in the preceding paragraph. At such time the CONTRACTOR will not be allowed extra compensation for additional excavation involved.

4. In case excavation has been made deeper than necessary, a layer of concrete, fine gravel or other material satisfactory to the ENGINEER shall be placed, at no extra cost, to secure a firm foundation for the lower third of each pipe. Where possible, excavated material shall be placed so as not to interfere with public travel. Bridging shall be

provided to afford necessary access to public or private premises. Bridging shall be considered as part of the excavation operation and shall be supplied at no additional cost to the OWNER.

E. Structural: (For inlets, manholes, and similar structures)

1. Remove sufficient material to allow proper space for erecting and removing forms. The elevations of the bottoms of footings, if shown on the drawings, shall be considered as approximate only, and the ENGINEER may order, in writing, such changes in dimensions or elevations of footings as may be deemed necessary to secure a satisfactory foundation. Excavation for structures shall be sufficient to leave at least 12-inches in the clear between their outer surfaces and the embankment or timber that may be used to protect them. Backfill of earth under structures will not be permitted. Excess excavation for structures shall be filled with thoroughly compacted sand, gravel, or concrete at the expense of the CONTRACTOR.

2. After excavation for a structure is completed, the CONTRACTOR shall notify the ENGINEER to that effect. No concrete or reinforcing steel shall be placed until the ENGINEER has approved the depth of the excavation and the character of the foundation material.

F. Sheeting and Shoring:

1. The CONTRACTOR shall provide all trench and structural bracing, sheeting or shoring necessary to construct and protect the excavation, existing utilities, structures and private property of all types and as required for the safety of the employees. Sheeting shall be removed or cut off by the CONTRACTOR during backfilling operations as directed by the ENGINEER. Removal of shoring for structures shall be done in such a manner as not to disturb or mar finished masonry or concrete surfaces.

3.03 DRAINAGE

A. Grading shall be controlled in the vicinity of excavations so that the surface of the ground will be properly sloped to prevent water from running into trenches or other excavated areas. Any water which accumulates in the excavations shall be removed promptly by well point or by other means satisfactory to the ENGINEER in such a manner as to not create a nuisance to adjacent property or public thoroughfare. Trenches shall be kept dry while pipe is being laid. Bridging of dewatering pipe shall be provided where necessary. Pumps and engines for well point systems shall be operated with mufflers, and at a minimum noise level suitable to a residential area. The CONTRACTOR will not be allowed to discharge water into the OWNER's storm drainage system without the written approval of the ENGINEER. Approval will be subject to the condition that the storm sewer be returned to its original condition.

B. The CONTRACTOR is responsible for carrying the water to the nearest ditch or body of water and for obtaining the necessary permission to use same. The CONTRACTOR shall be financially responsible for any nuisance created due to carrying off water from his drainage system.

3.04 BACKFILL

A. Trenches:

1. Trenches shall be backfilled immediately after the pipe is laid unless other protection for the pipe line is provided. Clean earth, sand, crushed limerock or other material approved by the ENGINEER shall be used for backfill. Backfill material shall be selected, deposited and compacted (simultaneously on both sides of the pipe) so as to eliminate the possibility of lateral displacement of the pipe. Backfill material shall be solidly tamped around the pipes in layers to a level at least 1-foot above the top of the pipe. Each layer shall be compacted to a maximum thickness of 6-inches.

2. In unpaved areas, the remainder of the backfill shall be deposited and then compacted by puddling, water flooding or mechanical tampers. Mechanical tamping of layers in unpaved areas shall be to a maximum thickness of 12-inches. In areas to be paved or repaved, the entire depth of backfill shall be deposited in layers and compacted by hand or mechanical tampers to a maximum thickness of 6-inches. Compaction shall be carried out to achieve a density of at least 98% of the maximum density as determined by AASHTO, Method T-180. Under areas to be paved, puddling may be used for backfill consolidation after tamping to 1-foot over the pipe, as specified, provided the method is first approved by the ENGINEER and the density requirements are met.

3. In areas to be paved, density tests for determination of the specified compaction shall be made by a testing laboratory and spaced one in every 300-feet of trench cut. It is the intent of this specification to secure a condition where no further settlement of trenches will occur. When backfilling is completed, the roadway base for pavement replacement may be placed immediately. It will be the responsibility of the CONTRACTOR to restore the surface to the original grade wherever settlement occurs.

B. Structural:

1. After completion of foundation footings and walls and other construction below the elevation of the final grades, and prior to backfilling, forms shall be removed and the excavation shall be cleared of all trash and debris. Material for backfilling shall consist of the excavation, borrow sand or other approved materials, and shall be free of trash, lumber or other debris. Backfill shall be placed in horizontal layers not in excess of 9-inches in thickness, and have a moisture content such that a density may be obtained to prevent excessive settlement or shrinkage. Each layer shall be compacted by hand or approved machine tampers with extreme care being exerted not to damage pipe or structures. Backfill shall be placed and compacted evenly against the exposed surfaces to prevent undue stress on any surface.

3.05 RESTORATION OF SURFACE IMPROVEMENTS

A. Roadways, including shoulders, alleys and driveways of shell, limerock, stabilized soil or gravel, grass plots, sod, shrubbery, ornamental trees, signs, fences, or other surface improvements on public or private property which have been damaged or removed in

excavating, shall be restored to conditions equal to or better than conditions existing prior to beginning work. Restoration of shoulders shall consist of sodding, seeding and mulching, or stabilizing with limerock as selected by the ENGINEER. The cost of doing this work shall be included in the cost of the various applicable items.

B. Materials for unpaved roadways, road shoulders, alleys, or drive-ways, shall be compacted to a minimum of 98% of the maximum density as determined by AASHTO, Method T-180. The cost of this work and furnishing new materials shall be included in the cost of the applicable items of work as no separate payment will be made, unless a separate bid item is provided.

3.06 FINE GRADING

A. Finished areas around structures shall be graded smooth and hand raked and shall meet the elevations and contours shown on the drawings. Lumber, earth clods, rocks and other undesirable materials shall be removed from the site.

3.07 DISPOSAL OF MATERIAL

A. Such portions of the excavated materials as needed and as suitable, shall be used for backfilling and grading about the completed work to the elevations as shown on the drawings or as directed. Excavated material in excess of the quantity required for this purpose shall be disposed of by the CONTRACTOR. The CONTRACTOR shall leave the earth over the trenches or other excavations in a neat and uniform condition acceptable to the OWNER.

3.08 TESTS

A. The CONTRACTOR shall furnish facilities for making all density tests and make such restorations as may be necessary due to test operations. All density tests on backfill or base replacement will be made by a commercial testing laboratory employed by the OWNER and at such locations as may be recommended by the ENGINEER. The CONTRACTOR shall pay for all tests where the densities, as determined by the specified tests, fall below the required minimums (failed tests).

END OF SECTION

SECTION 02500
PAVING

PART 1 - GENERAL

1.01 DESCRIPTION

This Section provides paving requirements (by reference) and base and curbing requirements for the roadway resurfacing project.

1.02 QUALITY ASSURANCE

CONTRACTOR shall be responsible for employing an independent testing laboratory to prepare required design mixes and to monitor his quality control procedures. CONTRACTOR shall be responsible for all asphalt plant testing.

CONTRACTOR shall provide a certificate that all materials and workmanship provided by him conform to Contract Requirements.

OWNER will retain an independent testing laboratory to field verify quality of materials used in paving work.

Where the "Standard Specifications" require that materials be from a source approved by the Department of Transportation, CONTRACTOR may provide proof of such source approval or he may employ an independent testing laboratory to perform necessary sampling and testing and to certify that all source meets requirements for Department approval.

1.03 REFERENCE STANDARDS

The "Standard Specifications" referred to in this Section are the Florida Department of Transportation, Standard Specifications for Road and Bridge Construction. The most current edition shall be used unless a specific edition is referred to. Those paragraphs in the "Standard Specifications" referring to Measurement and Payment are not applicable to work under this contract.

References to AASHTO shall mean the American Association of State Highway and Transportation Officials.

1.04 SUBMITTALS

Submit Certificate of Compliance with specified requirements in duplicate for OWNER's and ENGINEER's file.
Design mixes, complete with back-up data, shall be submitted before paving begins in quadruplicate for use by OWNER, ENGINEER, Quality Control Laboratory and field inspector.

1.05 JOB CONDITIONS

Alignment and Elevations. Establish and maintain alignment and elevations as shown or specified.

Weather Limitations. Conform to weather limitations specified for each component of the paving system.

PART 2 - MATERIALS AND EQUIPMENT

2.01 STABILIZED SUBGRADE

Materials for use in constructing the stabilized subgrade shall conform to the requirements of Section 160 of the "Standard Specifications".

2.02 MATERIALS FOR CRUSHED CONCRETE BASE COURSE

The minimum percentage of carbonate of calcium and magnesium in the crushed concrete material shall be 60. The maximum percentage of water-sensitive clay mineral shall be 3. Determination shall be at the option of the ENGINEER.

Crushed concrete material shall not contain cherty or other extremely hard pieces, or lumps, balls, or pockets of sand or clay size material in sufficient quantity as to be deleterious to the proper bonding, finishing, or strength of the crushed concrete base.

2.03 MATERIALS FOR ASPHALTIC CONCRETE MIXTURES

Materials for use in asphaltic concrete mixtures shall conform to the requirements listed in "Standard Specifications", of Florida Department of Transportation.

The use of recycled asphaltic concrete may be allowed, given that the mix design submitted by the Contractor which is intended to be used on this project, conform to the technical provisions (based on Florida Department of Transportation, unless stated otherwise) for the type of mix specified in the drawings, bid or other sections of the specifications.

CONTRACTOR shall employ an independent testing laboratory to test materials and prepare a design mix for the type of mix to be used on the project and to monitor plant asphalt production for quality control, as specified by OWNER.

The asphaltic concrete manufacturing plant, used for the asphaltic concrete mixture, shall be a maximum of fifty (50) miles from the project site.

2.04 MATERIALS FOR PRIME AND TACK COATS FOR BASE COURSES

Materials used for prime and tack coats shall conform to the requirements of Section 300 of the "Standard Specifications", Latest Edition.

2.05 CONCRETE CURB AND CURB AND GUTTER

Concrete for use in concrete curb and curb and gutter shall be non structural concrete conforming to the requirements of Section 520 of the "Standard Specifications".

PART 3 - EXECUTION

3.01 INSPECTION

Examine areas where pavements are to be constructed. Ensure that clearing and grubbing has been satisfactorily completed. Verify that subgrade has been constructed to proper elevations and that fill in embankment has been properly compacted.

3.02 STABILIZED SUBGRADE

The stabilized subgrade shall be constructed in accordance with the requirements of Section 160 of the "Standard Specifications", Latest Edition, for a Type B Stabilized Subgrade.

At least 3-inches (loose measurement) of a suitable commercial or local stabilizing material, as described in the "Standard Specifications", Section 914, shall be mixed into the subgrade for stabilization in accordance with the "Standard Specifications", Sections 160-1, 3 and 8. The Limerock Bearing Ratio (LBR) shall be 40. Density tests will be paid for by the OWNER except that all retests required due to failure to meet specifications shall be paid for by the CONTRACTOR.

After the subgrade has been prepared, it shall be kept free from ruts, depressions and any damage resulting from the hauling or handling of tools and equipment.

3.03 CRUSHED CONCRETE BASE COURSE

Samples of base course material shall be supplied by the CONTRACTOR at his expense, and all materials shall be approved by the ENGINEER prior to use in the work. Additional samples of base course materials shall be furnished during construction as required by the ENGINEER.

The material shall be transported to the point where it is to be used, over material previously placed, and dumped on the end of the preceding spread. No hauling shall be done over the subgrade.

At least 97% (by weight) of the material shall pass a 3 ½-inch sieve and the material shall be graded uniformly down to dust. The fine materials shall consist entirely of dust or fracture. All crushing or breaking-up which might be necessary in order to meet such size requirements shall be done before the material is placed on the road. The base shall be bladed and shaped to conform to the typical sections shown on the Drawings. The base shall then be compacted by rolling with a combination of steel wheel and rubber tired rollers until an average density of 98%

of the maximum density obtainable under AASHTO Method T-180 is reached. The base shall have an average LBR of not less than 100. The LBR value of material produced at a particular source shall be determined in accordance with an approved quality control procedure.

3.04 ASPHALTIC CONCRETE PAVING

Asphaltic concrete mixtures for use in leveling and surface courses shall be prepared, placed, compacted and finished in compliance with "Standard Specifications", Latest Edition.

3.05 PRIME AND TACK COATS

Equipment for application, preparation of surfaces, weather limitations, methods and rates of application shall conform to the requirements of section 300-3 through 300-7 of the "Standard Specifications", Latest Edition.

3.07 CONCRETE CURB AND CURB AND GUTTER

Concrete curb and curb and gutter shall be constructed in compliance with the requirements of Section 520 of the "Standard Specifications", Latest Edition.

3.08 STREET RECONSTRUCTION

Where street reconstruction is indicated on the Drawings it shall require complete removal of street surface and base and replacement with materials to the limits shown on the Drawings. If existing base and surface contain strips of concrete or asphaltic base used in prior street repairs these materials shall be completely removed and disposed of by the CONTRACTOR. Where curb and gutter removal is called for on the Drawings, complete removal and disposal shall be accomplished by the CONTRACTOR.

After removal of base material the subgrade shall be tested for bearing value as specified. If the subgrade does not have adequate bearing value it shall be stabilized in accordance with Section 160 of the "Standard Specifications" Latest Edition. Materials removed from existing base may be used in stabilizing subgrade with the approval of the ENGINEER. No separate payment will be made for stabilizing the subgrade.

END OF SECTION

SECTION 02605
PRECAST CONCRETE MANHOLES AND STRUCTURES

PART 1 GENERAL

1.01 SCOPE OF WORK

A. Furnish all labor, materials and equipment required and install precast concrete stormwater manholes, stormwater structures, frames and covers, access hatches, manhole rungs, ladders and appurtenances as shown on the Drawings and as specified herein.

1.02 RELATED WORK

A. Excavation and backfill is included in Section 02220 and 02222.

B. Drainage structures and piping are included in Section 02720.

1.03 SUBMITTALS

A. Submit to the ENGINEER, in accordance with Section 01300, shop drawings, product data, materials of construction, and details of installation. Submittals shall include at least the following:

1. Base sections, riser sections, eccentric and concentric conical top sections, flat slab tops, grade rings with notarized certificate indicating compliance with ASTM C478.

2. Pipe connection to manhole.

3. Manhole rungs, including method of installation and notarized certificate indicating compliance with pull-out resistance test specified herein.

4. Manhole frame and cover with notarized certificate indicating compliance with ASTM A48, Class 30.

5. Method of repair for minor damage to precast concrete sections.

6. Building brick with notarized certificate indicating compliance with ASTM C62.

B. Samples

C. Design Data

1. Precast concrete structures:

a. Six copies of sectional plan(s) and elevations showing dimensions and reinforcing-steel placement.

b. Six copies of structural calculations including assumptions.

c. Six copies of concrete design mix.

D. Test Reports

1. Precast concrete structures:

a. Six copies of concrete test cylinder reports from an approved testing laboratory certifying conformance with this Section.

E. Certificates

F. Manufacturers Installation (or Application) Instructions

G. Statement of Qualifications

H. Manufacturer's Field Report

I. Project Record Documents

J. Operation and Maintenance Data

K. Warranties

1.04 REFERENCE STANDARDS

A. American Society for Testing and Materials (ASTM)

1. ASTM A48 - Standard Specification for Gray Iron Castings.

2. ASTM A615 - Standard Specification for Deformed and Plain Billet-Steel Bars for Concrete Reinforcement.

3. ASTM C32 - Standard Specification for Sewer and Manhole Brick (Made from Clay or Shale).

4. ASTM C33 - Standard Specification for Concrete Aggregates.

5. ASTM C62 - Standard Specification for Building Brick (Solid Masonry Units Made from Clay or Shale)

6. ASTM C 150 - Standard Specification for Portland Cement

7. ASTM C207 - Standard Specification for Hydrated Lime for Masonry Purposes

8. ASTM C443 - Standard Specification for Joints for Circular Concrete Sewer and Culvert Pipe, Using Rubber Gaskets

9. ASTM C478 - Standard Specification for Precast Reinforced Concrete Manhole Sections

10. ASTM D4101 - Standard Specification for Propylene Plastic Injection and Extrusion Materials.

B. American Concrete Institute (ACI)

1. ACI 318 - Building Code Requirements for Reinforced Concrete

2. ACI 350R - Environmental Engineering Concrete Structures

C. American Association of State Highway and Transportation Officials (AASHTO)

1. Standard Specifications for Highway Bridges

D. Occupational Safety and Health Administration (OSHA)

E. Where reference is made to one of the above standards, the revision in effect at the time of bid opening shall apply.

1.05 QUALITY ASSURANCE

A. All material shall be new and unused.

B. Materials' quality, manufacturing process and finished sections are subject to inspection and approval by ENGINEER or other OWNER representative. Inspection may be made at place of manufacture, at work site following delivery, or both.

C. Materials will be examined for compliance with ASTM standards, this Section and approved manufacturer's drawings. Additional inspection criteria shall include: appearance, dimensions(s), blisters, cracks and soundness.

D. Materials shall be rejected for failure to meet any requirements specified herein. Rejection may occur at place of manufacture, at work site, or following installation. Mark for identification rejected materials and remove from work site immediately. Rejected materials shall be replaced at no cost to OWNER.

E. Repair minor damage to precast concrete sections by approved method, if repair is authorized by ENGINEER.

PART 2 PRODUCTS

2.01 GENERAL

A. Reference to a manufacturer's name and model or catalog number is for the purpose of establishing the standard of quality and general configuration desired.

B. Like items of materials/equipment shall be the end products of one manufacturer in order to provide standardization for appearance, operation, maintenance, spare parts and

manufacturer's service.

C. Provide lifting lugs or holes in each precast section for proper handling.

2.02 PRECAST CONCRETE MANHOLE SECTIONS

A. Precast concrete base sections, riser sections, transition top sections, flat slab tops and grade rings shall conform to ASTM C478 and shall be in accordance with FDOT standards.

1. Top section shall be eccentric cone where cover over pipe exceeds 4-ft. Top section shall be a flat slab where cover over top of pipe is 4-ft or less. Top section shall be a plastic lined flat slab where manhole riser sections are to be plastic lined.

2. Base, riser and transition top sections shall have tongue and groove joints.

3. Sections shall be cured by an approved method.

4. Precast concrete sections shall be shipped after concrete has attained 3000 psi compressive strength.

5. Design precast concrete base, riser, transition top, flat slab top and grade ring for a minimum H-20 loading plus earth load. Calculate earth load with a unit weight of 130 pcf.

6. Mark date of manufacture, name and trademark of manufacturer on the inside of each precast section.

7. Construct and install precast concrete base as shown on the Drawings and specified in FDOT standards.

8. Provide integrally cast knock-out panels in precast concrete manhole sections at locations, and with sizes shown on Drawings. Knock-out panels shall have no steel reinforcing.

2.03 PRECAST CONCRETE STRUCTURES

A. Refer to FDOT Standards for inside dimensions, headroom requirements and minimum thickness of concrete.

B. Manufacturer shall notify ENGINEER at least 5 working days prior to placing concrete during manufacturing process. ENGINEER may inspect reinforcing steel placement prior to placing concrete.

C. Structural design calculations and Drawings shall be prepared and stamped by a professional engineer registered in Florida.

D. Design Criteria
1. Precast concrete

a. Minimum compressive strength shall be 5,000 psi at 28 days.

b. Maximum water-to-cement ratio shall be 0.40 by weight.

c. Minimum cement content shall be 600 lbs of cement per cubic yard of concrete.

2. Manufactured products

a. Conform to ACI 318 and ACI 350R.

b. Analyze walls and slabs using accepted engineering principals.

c. When "fy" exceeds 40,000 psi, "z" (ACI 318) shall not exceed 95,000 psi. "fs" shall not exceed 50 percent of "fy".

d. Design products to support their own weight, weight of soil at 120 pcf, and a live load equal to AASHTO HS-20 applied to top slab.

e. Cast base slab and walls together to form a monolithic base section.

f. Design structure walls for a water pressure of 90 psf. Originate pressure diagram at finished ground surface. Include lateral pressure from vehicles in accordance with AASHTO.

g. Consider discontinuities in structure produced by openings and joints. Provide additional reinforcing around openings. Frame openings to carry full design loads to support walls.

h. Prevent flotation, with ground water level at finished ground surface, by dead weight of structure and soil load above structure. Do not consider skin friction, soil friction, or weight of equipment in structure.

i. Locate horizontal wall joints 18-in minimum from horizontal centerline of wall openings.

j. Design structure with a minimum number of joints. Maximum number of structure sections, including top slab, shall be four.

k. Provide lifting hooks for top slab.

1. Locate access openings, wall sleeves and pipe penetrations as shown on Drawings.

m. Wall sleeves shall be provided by the precast concrete manufacturer.

2.04 BRICK MASONRY

A. Bricks shall be sound, hard, uniformly burned, regular and uniform in shape and size. Underburned or salmon brick shall not be acceptable. Only whole brick shall be used.

1. Bricks for channels and shelves shall conform to ASTM C32, Grade SS except that the mean of five tests for absorption shall not exceed 8 percent and no individual brick exceed 11 percent.

2. Bricks for raising manhole frames to finished grade shall conform to ASTM C62.

B. Mortar shall be composed of 1 part portland cement, 2 parts sand, and hydrated lime not to exceed 10-lbs to each bag of cement. Portland cement shall be ASTM C150, Type II; hydrated lime shall conform to ASTM C207.

C. Sand shall be washed, cleaned, screened, well graded with all particles passing a No.4 sieve and conform to ASTM C33.

2.05 JOINTING PRECAST MANHOLE SECTIONS AND STRUCTURES

A. Seal tongue and groove joints of precast manhole and structure sections with either rubber O-ring gasket or preformed flexible joint sealant. O-ring gasket shall conform to ASTM C443. Preformed flexible joint sealant shall be Kent Seal No.2 by Hamilton-Kent; Ram-Nek by K. T. Snyder Company or equal.

B. Completed joint shall withstand 15 psi internal water pressure without leakage or displacement of gasket or sealant.

2.06 PIPE CONNECTIONS TO MANHOLE

A. Connect pipe to manhole in the following ways:

1. Grout in place - Precast manhole section shall have a formed, tapered circular opening larger than the pipe outside diameter. Grout shall be non-shrink and waterproof equal to Hallemite, Waterplug or Embeco. Plastic pipe shall have a waterstop gasket secured to pipe with a stainless steel clamp.

2. Flexible sleeve - Integrally cast sleeve in precast manhole section or install sleeve in a formed or cored opening. Fasten pipe in sleeve with stainless steel clamp(s). Coat stainless steel clamp(s) with bituminous material to protect from corrosion. Flexible sleeve shall be Lock Joint Flexible Manhole Sleeve; Kor-N-Seal connector; PSX Press-Seal Gasket or equal.

3. Compression gasket - Integrally cast compression gasket in precast manhole section. Insert pipe into compression gasket. Compression gasket shall be A-Lok or equal.

2.07 DAMPPROOFING

A. Dampproofing shall be Hydrocide 648 by Sonneborn Building Products; Dehydratine 4 by A. C. Horn Inc; RIW Marine Liquid by Toch Brothers or equal.

PART 3 EXECUTION

3.01 INSTALLATION

A. Manhole and Structure Installation.

1. Manhole and structure shall be constructed to the dimensions shown on the Drawings and as specified in FDOT standards. Protect all work against flooding and flotation. Construct cast-in-place bases in accordance with the requirements of Division 3 and the details shown on the Drawings.

2. Place manhole base on a bed of 12-in screened gravel as shown on the Drawings. Set manhole base grade so that a maximum grade adjustment of 8-in is required to bring the manhole frame and cover to final grade.

    a. Use precast concrete grade rings or brick and non-shrink mortar to adjust manhole frame and cover to final grade.

3. Set precast concrete barrel sections and structures plumb with a 1/4-in maximum out of plumb tolerance allowed. Seal joints of precast barrel sections with either a rubber O-ring set in a recess or preformed flexible joint sealant in sufficient quantity to fill 75 percent of the joint cavity. Fill the outside and inside joint with non-shrink mortar and finished flush with the adjoining surfaces. Caulk the inside of any leaking barrel section joint with lead wool or non-shrink grout to the satisfaction of the ENGINEER.

4. Allow joints to set for 14 hours before backfilling unless a shorter period is specifically approved by the ENGINEER.

5. Plug holes in the concrete barrel sections required for handling with a non-shrinking grout or non-shrinking grout in combination with concrete plugs. Finish flush on the inside.

6. Cut holes in precast sections to accommodate pipes prior to setting manhole sections in place to prevent jarring which may loosen the mortar joints.

7. Backfill carefully and evenly around manhole sections.

B. Manhole Pipe Connections

1. Construct manhole pipe connections, including pipe stubs, as specified above. Close or seal pipe stubs for future connections with a gasketed watertight plug.

C. Manhole Rung Installation

1. Aluminum Manhole Rungs

a. Grout aluminum manhole rungs into precast sections, on 12-in centers. Preform holes in riser and cone sections for rungs during casting. Holes for rungs shall be 1-1/8-inch in diameter and a minimum of 3-1/2-in deep.

b. Grout rungs into precast sections immediately after casting and placing in the curing area, or immediately after coring holes for manhole rungs into base section. Fill holes with grout consisting of Portland Type II cement and mortar sand in a 1 to 1/2 ratio mixed to a putty consistency.

c. Paint those parts of the rungs which are embedded with a heavy coating of zinc chromate or other approved paint.

2. Steel Reinforced Polypropylene Plastic Manhole Rungs

a. Preform holes for manhole rungs during casting of the riser and cone sections, using tapered form pins specifically made for preforming manhole rung holes.

b. Drive manhole rungs into preformed holes after concrete has developed a compressive strength of 3,000 psi.

c. Alternatively, cast manhole rungs into riser and cone sections when concrete is placed.

d. Drilling holes for manhole rungs may be used to accommodate field conditions when approved by the ENGINEER. Drill holes of diameter, spacing and depth required by manhole rung manufacturer.

3. Pull-out resistance test

a. All manhole rung installation methods shall withstand a pull-out resistance test of 1,500 pounds.

D. Brickwork

1. Mix mortar only in such quantity as may be required for immediate use. Use mortar before initial set has taken place. Mortar shall be used within 1-1/2 hours and shall be constantly worked with hoe or shovel until used. Anti-freeze mixtures shall not be included in the mortar. Install masonry when the outside temperature is above 40 degrees F unless provisions are made to protect the mortar, bricks and finished work from frost by heating and enclosing the work with tarpaulins or other suitable material. ENGINEER's decision regarding the adequacy of protection against freezing shall be final.

2. Construct channels and shelves of brick and concrete as shown on the Drawings and as specified in FDOT standards. Brick lined channels shall correspond in shape with the lower half of the pipe. Set shelf elevation at crown of highest pipe and slope 1-in/ft to drain toward the flow through channel. Construct brick surfaces exposed to

sewage flow with nominal 2-in by 8-in face exposed (i.e. bricks on edge).

E. Setting Manhole Frame and Cover

1. Set manhole covers and frames in a full mortar bed. Utilize bricks or precast concrete grade rings, a maximum of 8-in thick, to assure frame and cover are set to the finished grade. Set manhole frame and cover to final grade prior to placement of permanent paving.

F. Dampproofing

1. Paint outer surfaces of precast and cast-in-place manholes and structures with two coats of bituminous dampproofing at the rate of 30 to 60 sq ft per gallon, in accordance with manufacturer's instructions.

3.02 LEAKAGE TESTS

A. Test each manhole for leakage. ENGINEER shall observe each test. Perform exfiltration test as described below:

B. Assemble manhole in place; fill and point all lifting holes and exterior joints within 6-ft of the ground surface with an approved non-shrinking mortar. Test prior to placing the shelf and invert and before filling and pointing the horizontal joints below 6-ft of depth. Lower ground water table below bottom of the manhole for the duration of the test. Plug all pipes and other openings into the manhole and brace to prevent blow out.

C. Fill manhole with water to the top of the cone section. If the excavation has not been backfilled and no water is observed moving down the surface of the manhole, the manhole is satisfactorily water-tight. If the test, as described above is unsatisfactory as determined by the ENGINEER, or if the manhole excavation has been backfilled, continue the test. A period of time may be permitted to allow for absorption. Following this period, refill manhole to the top of the cone, if necessary and allow at least 8 hours to pass. At the end of the test period, refill the manhole to the top of the cone again, measuring the volume of water added. Extrapolate the refill amount to a 24-hour leakage rate. The leakage for each manhole shall not exceed one gallon per vertical foot for a 24-hour period. If the manhole fails this requirement, but the leakage does not exceed three gallons per vertical foot per day, repairs by approved methods may be made as directed by the ENGINEER. If leakage due to a defective section of joint exceeds three gallons per vertical foot per day, the manhole shall be rejected. Uncover the rejected manhole as necessary and to disassemble, reconstruct or replace it as directed by the ENGINEER. Retest the manhole and, if satisfactory, fill and paint the interior joints.

D. No adjustment in the leakage allowance will be made for unknown causes such as leaking plugs, absorptions, etc. It will be assumed that all loss of water during the test is a result of leaks through the joints or through the concrete.

E. An infiltration test may be substituted for an exfiltration test if the ground water table is above the highest joint in the manhole. If there is no leakage into the manhole as determined by the ENGINEER, the manhole will be considered water-tight. If the ENGINEER is not satisfied, testing shall be performed as described hereinbefore.

F. Leakage Tests for Structures

1. The ENGINEER will visually inspect structure(s) for possible leaks before backfilling of structures is allowed. Seal all joints to the satisfaction of the ENGINEER.

2. The ENGINEER may require an exfiltration test as described for manholes on any structure for which he/she deems the test appropriate.

3.03 CLEANING

A. Thoroughly clean all new manholes of all silt, debris and foreign matter of any kind, prior to final inspections.

END OF SECTION

SECTION 02611
REINFORCED CONCRETE PIPE FOR GRAVITY SERVICE

PART 1 - GENERAL

1.01 DESCRIPTION OF WORK

A. This section covers materials and methods of installation of Reinforced Concrete Pipe for non-pressure or gravity service in Piped Utility Systems.

1.02 HANDLING AND STORAGE

A. Pipe, fittings, and accessories shall be loaded and unloaded by lifting with hoists or skidding in order to avoid shock or damage. Under no circumstances shall such material be dropped. Pipe handled on skidways shall not be rolled or skidded against pipe on the ground. Slings, hooks or pipe tongs shall be padded and used in such a manner as to prevent damage to the exterior surface or internal lining of the pipes.

B. Materials, if stored, shall be kept safe from damage. The interior of all pipe, fittings, and other appurtenances shall be kept free from dirt or foreign matter at all times.

C. Gaskets for joints shall be placed in a cool location out of direct sunlight. Gaskets shall not come in contact with petroleum products. Gaskets shall be used on a first-in, first-out basis.

D. Inspection:

1. Pipe and appurtenances shall be inspected at the point of delivery. Material found to be defective due to manufacture or damage in shipment shall be rejected. Tests as specified in the applicable material standard may be performed to ensure conformance with the standard.

PART 2 - PRODUCTS

2.01 ROUNDED PIPE

A. Pipe shall be cast vibrated, machine-made or flat bed concrete pipe that is designed, manufactured, cured, tested and marked in accordance with the requirements of ASTM Designation C-76. Pipe shall be equivalent to Class III, unless otherwise noted on plans, and Wall B or C of the proper strength for the depth of cover required. Pipe shall be manufactured in lengths no longer than 16-feet nor shorter than 8-feet, except that shorter lengths as required at closures or junctions of structures will be permitted. Pipe with elliptical reinforcing shall be adequately marked to prevent improper placement in the trench. Lift holes or eyes may be provided in each pipe for the purpose of handling.

B. Joints shall be of either a bell and spigot or double spigot and sleeve design using round rubber gaskets. The joint shall be so designed and fabricated that when the pipe is laid it shall be self-centering, and when the joint completed, the gasket will be enclosed on all four surfaces. The gasket shall not be required to support the weight of the pipe, but shall keep the joint tight under all normal conditions of service, including expansion, contraction and earth settlement.

C. Joints and gaskets shall conform to the requirements of ASTM C443.

2.02 ELLIPTICAL PIPE

A. Pipe shall be cast vibrated, machine made or flat bed elliptically shaped concrete pipe designed, manufactured, cured, tested and marked in accordance with ASTM C507.

B. Pipe shall be of the proper strength for the depth of cover involved and shall be manufactured in lengths not longer than 16-feet nor shorter than 8-feet, except that shorter lengths as required at closures or junctions with structures will be permitted.

C. Pipe designed for placement with the major axis horizontal shall be designated as "Vertical Elliptical" and shall be so marked.

D. Joints for elliptical pipe shall be cold adhesive, pre-formed plastic gaskets conforming to Standard Specifications for Road and Bridge Construction of Florida Department of Transportation, Section 942, paragraph 942-2.

2.03 EXTERNAL CONCRETE JOINT WRAP

All concrete pipe joints and pipe connections to structures shall be wrapped with an approved filter fabric joint wrap product. Joint material and installation shall be in accordance with Section 430 of the FDOT Standard Specifications, latest edition.

PART 3 - EXECUTION

3.01 UNDERGROUND STRUCTURES AND CONFLICTS

A. Prior to excavation, investigation shall be made to the extent necessary to determine the location of existing underground structures and conflicts. Care shall be exercised to avoid damage to existing structures. When obstructions that are not shown on the drawings are encountered during the progress of work and interfere so that an alteration of the plans is required, the Engineer will alter the drawings or order a deviation in line and grade or arrange for removal, relocation, or reconstruction of the obstructions. When crossing existing pipelines or other structure, alignment and grade shall be adjusted as necessary, with the approval of the Engineer to provide clearance as required by federal, state or local regulations or as deemed necessary by the Engineer to prevent future damage or contamination of either structure.

3.02 ALIGNMENT AND GRADE

A. The pipelines shall be laid and maintained to the lines and grades established by the drawings and specifications, with manholes, service connections, fittings, and appurtenances at the required locations unless otherwise approved by the Engineer.

3.03 TRENCH CONSTRUCTION

A. The trench shall be excavated to the required alignment, depth, and width. Trench preparation shall proceed in advance of pipe installation for only as far as necessary to allow proper pipe installation. The width of the trench at the top of the pipe shall be ample to permit the pipe to be laid and joined properly and allow the backfill to be placed as specified. Trenches shall be of such extra width, when required, to permit the placement of timber supports, sheeting, bracing and appurtenances.

B. Holes for the bells shall be provided at each joint but shall not be larger than necessary for joint assembly and assurance that the pipe barrel will lie flat on the trench bottom. Other than noted previously, the trench bottom shall be true and even in order to provide support for the full length of the pipe barrel, except that slight depression may be provided to allow withdrawal of pipe slings or other lifting tackle.

C. When excavation of rock is encountered, all rock shall be removed to provide a clearance of at least 6-inches below and on each side of all pipe for pipe sizes 24-inches or smaller, and 9-inches for pipe sizes 30-inches and larger. When excavation is completed, a bed of sand, crushed stone, or earth that is free from stones, large clods, or frozen earth, shall be placed on the bottom of the trench to the previously mentioned depths, leveled, and tamped. These clearances and bedding procedures shall also be observed for pieces of concrete or masonry and other debris or subterranean structures, such as masonry walls, piers, or foundations that may be encountered during excavation. This installation procedure shall be followed when gravel formation containing loose boulders greater than 8-inches in diameter are encountered. In all cases, the specified clearances shall be maintained between the bottom of all pipe and appurtenances and any part, projection, or point or rock, boulder, or stones of sufficient size and placement which, in the opinion of the Engineer could cause a fulcrum point.

D. Should the trench pass over a sewer or other previous excavation, the trench bottom shall be sufficiently compacted to provide support equal to that of the native soil or conform to other regulatory requirements in a manner that will prevent damage to the existing installation.

E. When the subgrade is found to be unstable or to include ashes, cinders, refuse, organic material, or other unsuitable material, such material shall be removed, to a minimum of at least 3-inches, or to the depth ordered by the Engineer and replaced under the directions of the Engineer with clean, stable backfill material. The bedding shall be consolidated and leveled in order that the pipe may be installed as specified.

F. When the bottom of the trench or the subgrade is found to consist of material that is unstable to such a degree that, in the judgment of the Engineer, it cannot be removed, a foundation for the pipe and/or appurtenance shall be constructed using piling, timber, concrete, or other materials at the direction of the Engineer.

G. Pipe cutting for the insertion of fittings, or closure pieces shall be done in neat, workmanlike manner without creating damage to the pipe or lining.

END OF SECTION

SECTION 02720
DRAINAGE STRUCTURES AND PIPING

PART 1 - GENERAL

1.01 DESCRIPTION OF WORK

A. The extent of drainage structures and piping is shown on the drawings.

B. Related Work Specified Elsewhere:

Section 02200 - Earthwork.
Section 02222 - Trenching, Backfilling and Compacting.
Section 02611 - Reinforced Concrete Pipe for Gravity Service

1.02 SUBMITTALS

A. Submit shop drawings of precast manholes, inlets, grating, frames and lids, and pipe.

B. Submit cut sheets 24-hours in advance of pipe excavation for ENGINEER approval.

1.03 QUALITY ASSURANCE

A. All material shall be new and unused.

B. Materials' quality, manufacturing process and finished sections are subject to inspection and approval by ENGINEER or other OWNER representative. Inspection may be made at place of manufacture, at work site following delivery, or both.

C. Materials will be examined for compliance with ASTM standards, this Section and approved manufacturer's drawings. Additional inspection criteria shall include: appearance, dimensions(s), blisters, cracks and soundness.

D. Materials shall be rejected for failure to meet any requirements specified herein. Rejection may occur at place of manufacture, at work site, or following installation. Mark for identification rejected materials and remove from work site immediately. Rejected materials shall be replaced at no cost to OWNER.

E. Repair minor damage to precast concrete sections by approved method, if repair is authorized by ENGINEER.

PART 2 - PRODUCTS

2.01 GENERAL

A. Reference to a manufacturer's name and model or catalog number is for the purpose of establishing the standard of quality and general configuration desired.

B. Like items of materials/equipment shall be the end products of one manufacturer in order to provide standardization for appearance, operation, maintenance, spare parts and manufacturer's service.

C. Provide lifting lugs or holes in each precast section for proper handling.

2.02 PRECAST CONCRETE MANHOLE SECTIONS

A. Precast concrete base sections, riser sections, transition top sections, flat slab tops and grade rings shall conform to ASTM C478 and shall be in accordance with FDOT standards.

1. Top section shall be eccentric cone where cover over pipe exceeds 4-ft. Top section shall be a flat slab where cover over top of pipe is 4-ft or less. Top section shall be a plastic lined flat slab where manhole riser sections are to be plastic lined.

2. Base, riser and transition top sections shall have tongue and groove joints.

3. Sections shall be cured by an approved method.

4. Precast concrete sections shall be shipped after concrete has attained 3000 psi compressive strength.

5. Design precast concrete base, riser, transition top, flat slab top and grade ring for a minimum H-20 loading plus earth load. Calculate earth load with a unit weight of 130 pcf.

6. Mark date of manufacture, name and trademark of manufacturer on the inside of each precast section.

7. Construct and install precast concrete base as shown on the Drawings and specified in FDOT standards.

8. Provide integrally cast knock-out panels in precast concrete manhole sections at locations, and with sizes shown on Drawings. Knock-out panels shall have no steel reinforcing.

2.03 PRECAST CONCRETE STRUCTURES

A. Refer to FDOT Standards for inside dimensions, headroom requirements and minimum thickness of concrete.

B. Manufacturer shall notify ENGINEER at least 5 working days prior to placing concrete during manufacturing process. ENGINEER may inspect reinforcing steel placement prior to placing concrete.

C. Structural design calculations and Drawings shall be prepared and stamped by a professional engineer registered in Florida.

D. Design Criteria

1. Precast concrete

   a. Minimum compressive strength shall be 5,000 psi at 28 days.

   b. Maximum water-to-cement ratio shall be 0.40 by weight.

   c. Minimum cement content shall be 600 lbs of cement per cubic yard of concrete.

2. Manufactured products

   a. Conform to ACI 318 and ACI 350R.

   b. Analyze walls and slabs using accepted engineering principals.

   c. When "fy" exceeds 40,000 psi, "z" (ACI 318) shall not exceed 95,000 psi. "fs" shall not exceed 50 percent of "fy".

   d. Design products to support their own weight, weight of soil at 120 pcf, and a live load equal to AASHTO HS-20 applied to top slab.

   e. Cast base slab and walls together to form a monolithic base section.

   f. Design structure walls for a water pressure of 90 psf. Originate pressure diagram at finished ground surface. Include lateral pressure from vehicles in accordance with AASHTO.

   g. Consider discontinuities in structure produced by openings and joints. Provide additional reinforcing around openings. Frame openings to carry full design loads to support walls.

   h. Prevent flotation, with ground water level at finished ground surface, by dead weight of structure and soil load above structure. Do not consider skin friction, soil friction, or weight of equipment in structure.

   i. Locate horizontal wall joints 18-in minimum from horizontal centerline of wall openings.

   j. Design structure with a minimum number of joints. Maximum number of structure sections, including top slab, shall be four.

   k. Provide lifting hooks for top slab.

      1. Locate access openings, wall sleeves and pipe penetrations as shown on Drawings.

   m. Wall sleeves shall be provided by the precast concrete manufacturer.

2.04 BRICK MASONRY

A. Bricks shall be sound, hard, uniformly burned, regular and uniform in shape and size. Underburned or salmon brick shall not be acceptable. Only whole brick shall be used.

1. Bricks for channels and shelves shall conform to ASTM C32, Grade SS except that the mean of five tests for absorption shall not exceed 8 percent and no individual brick exceed 11 percent.

2. Bricks for raising manhole frames to finished grade shall conform to ASTM C62.

B. Mortar shall be composed of 1 part portland cement, 2 parts sand, and hydrated lime not to exceed 10-lbs to each bag of cement. Portland cement shall be ASTM C150, Type II; hydrated lime shall conform to ASTM C207.

C. Sand shall be washed, cleaned, screened, well graded with all particles passing a No.4 sieve and conform to ASTM C33.

2.05 JOINTING PRECAST MANHOLE SECTIONS AND STRUCTURES

A. Seal tongue and groove joints of precast manhole and structure sections with either rubber O-ring gasket or preformed flexible joint sealant. O-ring gasket shall conform to ASTM C443. Preformed flexible joint sealant shall be Kent Seal No.2 by Hamilton-Kent; Ram-Nek by K. T. Snyder Company or equal.

B. Completed joint shall withstand 15 psi internal water pressure without leakage or displacement of gasket or sealant.

2.06 MANHOLE FRAMES AND COVERS

A. Manhole frames and covers shall be in accordance with FDOT Standard Index No. 201 for the type of manhole or inlet required. Covers shall have 2” raised letter identification: “Storm Sewer” cast into top.

2.07 PIPE CONNECTIONS TO MANHOLE

A. Connect pipe to manhole in the following ways:

1. Grout in place - Precast manhole section shall have a formed, tapered circular opening larger than the pipe outside diameter. Grout shall be non-shrink and waterproof equal to Hallemite, Waterplug or Embeco. Plastic pipe shall have a waterstop gasket secured to pipe with a stainless steel clamp.

2. Flexible sleeve - Integrally cast sleeve in precast manhole section or install sleeve in a formed or cored opening. Fasten pipe in sleeve with stainless steel clamp(s). Coat stainless steel clamp(s) with bituminous material to protect from corrosion. Flexible sleeve shall be Lock Joint Flexible Manhole Sleeve; Kor-N-Seal connector; PSX Press-Seal Gasket or equal.

3. Compression gasket - Integrally cast compression gasket in precast manhole section. Insert pipe into compression gasket. Compression gasket shall be A-Lok or equal.

2.08 EXTERNAL CONCRETE JOINT WRAP

All concrete pipe joints and pipe connections to structures shall be wrapped with an approved filter fabric joint wrap product. Joint material and installation shall be in accordance with Section 430 of the FDOT Standard Specifications, latest edition.

2.09 DAMPPROOFING

A.. Dampproofing shall be Hydrocide 648 by Sonneborn Building Products; Dehydratine 4 by A. C. Horn Inc; RIW Marine Liquid by Toch Brothers or equal.

2.10 PIPING

A.. Reinforced Concrete Pipe (RCP)

1. RCP pipe shall comply with the requirements of ASTM Designation C-76, as specified in Section 02611, Reinforced Concrete Pipe for Gravity Service.

B. High Density Polyethylene Pipe (HDPE):

1. HDPE pipe shall be smooth interior walled corrugated polyethylene pipe conforming to AASHTO M 294 and minimum cell classification 335420C as specified in ASTM D 3350.

   Subject to compliance with requirements, HDPE manufacturers include, but are not limited to, the following:

   a. Advanced Drainage Systems (ADS), Inc.

   b. Hancor, Inc.

PART 3 - EXECUTION

1.01 INSTALLATION

A. Manhole and Structure Installation.

1. Manhole and structure shall be constructed to the dimensions shown on the Drawings and as specified in FDOT standards. Protect all work against flooding and flotation. Construct cast-in-place bases in accordance with the requirements of Division 3 and the details shown on the Drawings.

2. Place manhole base on a bed of 12-in screened gravel as shown on the Drawings. Set manhole base grade so that a maximum grade adjustment of 8-in is required to bring the manhole frame and cover to final grade.

a. Use precast concrete grade rings or brick and non-shrink mortar to adjust manhole frame and cover to final grade.

3. Set precast concrete barrel sections and structures plumb with a 1/4-in maximum out of plumb tolerance allowed. Seal joints of precast barrel sections with either a rubber O-ring set in a recess or preformed flexible joint sealant in sufficient quantity to fill 75 percent of the joint cavity. Fill the outside and inside joint with non-shrink mortar and finished flush with the adjoining surfaces. Caulk the inside of any leaking barrel section joint with lead wool or non-shrink grout to the satisfaction of the ENGINEER.

4. Allow joints to set for 14 hours before backfilling unless a shorter period is specifically approved by the ENGINEER.

5. Plug holes in the concrete barrel sections required for handling with a non-shrinking grout or non-shrinking grout in combination with concrete plugs. Finish flush on the inside.

6. Cut holes in precast sections to accommodate pipes prior to setting manhole sections in place to prevent jarring which may loosen the mortar joints.

7. Backfill carefully and evenly around manhole sections.

B. Manhole Pipe Connections

1. Construct manhole pipe connections, including pipe stubs, as specified above. Close or seal pipe stubs for future connections with a gasketed watertight plug.

C. Brickwork

1. Mix mortar only in such quantity as may be required for immediate use. Use mortar before initial set has taken place. Mortar shall be used within 1-1/2 hours and shall be constantly worked with hoe or shovel until used. Anti-freeze mixtures shall not be included in the mortar. Install masonry when the outside temperature is above 40 degrees F unless provisions are made to protect the mortar, bricks and finished work from frost by heating and enclosing the work with tarpaulins or other suitable material. ENGINEER's decision regarding the adequacy of protection against freezing shall be final.

2. Construct channels and shelves of brick and concrete as shown on the Drawings and as specified in FDOT standards. Brick lined channels shall correspond in shape with the lower half of the pipe. Set shelf elevation at crown of highest pipe and slope 1-in/ft to drain toward the flow through channel. Construct brick surfaces exposed to sewage flow with nominal 2-in by 8-in face exposed (i.e. bricks on edge).

D. Setting Manhole Frame and Cover

1. Set manhole covers and frames in a full mortar bed. Utilize bricks or precast concrete grade rings, a maximum of 8-in thick, to assure frame and cover are set to the finished grade. Set manhole frame and cover to final grade prior to placement of permanent paving.

E. Dampproofing

1. Paint outer surfaces of precast and cast-in-place manholes and structures with two coats of bituminous dampproofing at the rate of 30 to 60 sq ft per gallon, in accordance with manufacturer's instructions.

1.02 LEAKAGE TESTS

A. Test each manhole for leakage. ENGINEER shall observe each test. Perform exfiltration test as described below:

B. Assemble manhole in place; fill and point all lifting holes and exterior joints within 6-ft of the ground surface with an approved non-shrinking mortar. Test prior to placing the shelf and invert and before filling and pointing the horizontal joints below 6-ft of depth. Lower ground water table below bottom of the manhole for the duration of the test. Plug all pipes and other openings into the manhole and brace to prevent blow out.

C. Fill manhole with water to the top of the cone section. If the excavation has not been backfilled and no water is observed moving down the surface of the manhole, the manhole is satisfactorily water-tight. If the test, as described above is unsatisfactory as determined by the ENGINEER, or if the manhole excavation has been backfilled, continue the test. A period of time may be permitted to allow for absorption. Following this period, refill manhole to the top of the cone, if necessary and allow at least 8 hours to pass. At the end of the test period, refill the manhole to the top of the cone again, measuring the volume of water added. Extrapolate the refill amount to a 24-hour leakage rate. The leakage for each manhole shall not exceed one gallon per vertical foot for a 24-hour period. If the manhole fails this requirement, but the leakage does not exceed three gallons per vertical foot per day, repairs by approved methods may be made as directed by the ENGINEER. If leakage due to a defective section of joint exceeds three gallons per vertical foot per day, the manhole shall be rejected. Uncover the rejected manhole as necessary and to disassemble, reconstruct or replace it as directed by the ENGINEER. Retest the manhole and, if satisfactory, fill and paint the interior joints.

D. No adjustment in the leakage allowance will be made for unknown causes such as leaking plugs, absorptions, etc. It will be assumed that all loss of water during the test is a result of leaks through the joints or through the concrete.

E. An infiltration test may be substituted for an exfiltration test if the ground water table is above the highest joint in the manhole. If there is no leakage into the manhole as

determined by the ENGINEER, the manhole will be considered water-tight. If the ENGINEER is not satisfied, testing shall be performed as described hereinbefore.

F. Leakage Tests for Structures

1. The ENGINEER will visually inspect structure(s) for possible leaks before backfilling of structures is allowed. Seal all joints to the satisfaction of the ENGINEER.

2. The ENGINEER may require an exfiltration test as described for manholes on any structure for which he/she deems the test appropriate.

1.03 CLEANING

A. Thoroughly clean all new manholes of all silt, debris and foreign matter of any kind, prior to final inspections.

END OF SECTION

SECTION 02801
RESTORATION OF SURFACE IMPROVEMENTS

PART 1 - GENERAL

1.01 DESCRIPTION OF WORK

The work includes the restoration of driveways, lawn areas, trees and plants, roadways, sprinkler systems, walks and any other existing improvement affected by the proposed work.

This section includes furnishing equipment, labor and materials, and performing all necessary and incidental operations to perform the required work.

1.02 QUALITY ASSURANCE

Standards. Florida Grades and Standards for Nursery Plants, Part 1:

Irrigation Contractor Qualifications. Irrigation Competency Card is required for contractor or sub-contractor doing any irrigation repair, including relocation of heads, lines or valves, or any new irrigation work.

PART 2 - MATERIALS AND EQUIPMENT

2.01 SOD

Sod used for restoration shall match the existing sod in the area. St. Augustine sod shall be replaced with St. Augustine Floratam. In areas without irrigation, Argentina Bahia sod shall be used, unless otherwise directed by the Engineer/Landscape Architect.

Sod shall have well matted roots.

The sod shall be sufficiently thick to secure a dense stand of live grass, with a minimum thickness of two-inches. The sod shall be live, fresh and uninjured at the time of planting. It shall be planted as soon as possible after being dug and shall be shaded and kept moist from the time it is dug until it is planted.

The sod shall be commercial size rectangles measuring 12-inches by 24-inches or larger, except where 6-inch strip sodding is called for on the drawings.

Sod shall be planted as soon as possible after being harvested and shall be shaded and kept moist from the time of harvesting until it is planted.

The source of the sod may be inspected and approved by the Engineer/Architect prior to construction.

2.02 PLANTS

Existing damaged plants shall be replaced by plants of equal type, quality and size whenever possible. All new plants shall be sound, healthy, vigorous and free from defects, decay, disfiguring, bark abrasions, plant diseases, insect pests, their eggs or larvae. The new plants shall be approved by the Engineer/Landscape Architect before placing.

Existing plants may be removed, preserved, and replaced at the Contractors option, in which case, the plants shall be handled and maintained by approved nursery staff.

Plants shall be watered and cared for until new growth appears. Dead and dying plants shall be immediately replaced.

Plants used shall be in accordance with the standards for Florida No. 1 or better, as given in the current "Grades and Standards for Nursery Plants," State of Florida, Department of Agriculture, or their equal as approved by the Engineer/Landscape Architect.

Plants shall conform to the sizes indicated by the Owner.

2.03 MULCH

Mulch for all planter areas shall be shredded cypress or eucalyptus, clean, bright and free from weeds, moss, sticks, and other debris.

2.04 WATER

The water used in the performance of this Contract shall be of drinking water quality, clean and free from injurious amounts of oil, acid, alkali, organic matter, or any substance which might be harmful to plant growth or obnoxious to traffic.

2.05 PLANTING MIXTURE

The planting mixture, when required, shall consist of a thorough mixture of 40% peat and 60% sand. The peat shall be Florihome peat or equivalent and the sand shall be clean and free from debris of any kind.

2.06 FERTILIZER

Fertilizer shall be granular 8-8-8, or equivalent.

Commercial fertilizers shall comply with the State fertilizer laws.

Fertilizer may, at the discretion of the Engineer/Architect, upon satisfactory evidence of its feasibility from the manufacturer, be applied in liquid form.

2.07 ASPHALTIC CONCRETE

Asphaltic concrete for surface and base course applications shall be Type S-9.5 as specified in the Florida Department of Transportation's Standard Specifications for Road and Bridge Construction and shall be in accordance with the project specifications and plans.

2.08 PORTLAND CEMENT CONCRETE

Portland cement concrete used in the performance of this Contract shall have a compressive strength of 3000 psi at 28 days and shall conform to the requirements of Section 03300.

PART 3 - EXECUTION

3.01 LANDSCAPING RESTORATION

All grass areas disturbed by construction shall be restored with the same type of sod as was existing prior to disturbance.

Lawn Areas. Any lawn area affected by the required work shall be restored to a condition equal or better than the conditions existing before the commencement of work.

Balled Plants. Plants where required shall be adequately balled with firm natural balls of soil, sized as set forth in "Grades and Standards". Balls shall be firmly wrapped with burlap or equally approved strong cloth. No balled plant will be planted if the ball is cracked or broken before or during the process of planting.

Option. Plants may be furnished as container grown instead of balled if all other requirements are met.

Preparation of Plant Pits. All plant pits shall be circular in outline and have vertical sides. Tree pits shall be two feet wider than the width of the ball and one foot deeper than the depth of the ball. Shrubs that are either B&B or in 3 gallon and under containers shall have pits that are one foot wider than the width of the plant ball and 6-inches deeper than the depth of the ball.

Setting Plants. All plants except as otherwise specified, shall be centered in pits. Deep planting shall be avoided and unless otherwise specified, plants shall be set at such a level that after settlement they will bear the same relation to the required grade as they have to the natural grade before being transplanted.

Balled and burlapped plants and palms shall be placed on 6-inches to 12-inches of tamped planting mixture and adjusted so as to be at the proper level. The rope and burlap shall be cut away and the burlap folded down to the bottom of the pit. Very large B&B plants shall remain wrapped until fully backfilled and then just the upper portion of the burlap shall be removed. Backfill of planting mix shall be placed halfway up the pit and then water tamped. After this water has drained away, backfill around the edge of the pit to form a saucer and fill area three times with water.

Water. Water to be used initially during plant installation shall be furnished by the Contractor. The existing irrigation system, where damaged, shall be promptly repaired after the installation of the plants.

Sod Placement. The provisions for the preparation of the area to be sodded shall include scarifying and loosening the soil and application of fertilizer.
Sodding shall not be performed when weather and soil conditions are, in the Engineer's opinion, unsuitable for proper results.

The sod shall be placed on the prepared surface with edges in close contact, and shall be firmly and smoothly embedded by light tamping with appropriate tools.

Where sodding is used in drainage ditches or ponds, the setting of the pieces shall be staggered, such as to avoid a continuous seam along the line of flow. Along the edges of such staggered areas, the offsets of individual strips shall not exceed 6-inches.

In order to prevent erosion caused by vertical edges at the outer limits, the outer pieces of sod shall be tamped so as to produce a featheredge effect.

On areas where the sod may slide, due to height and slopes, it shall be pegged, with pegs driven through the sod blocks into firm soil and at intervals as shown on the drawings or as directed by the Engineer/Architect.

Any pieces of sod which, after placing, show appearance of extreme dryness shall be removed from the work.

The sod shall be kept in a moist condition after planting and for the duration of the Contract.

Maintenance. Contractor shall maintain the planted areas in a satisfactory condition until final acceptance of the project. Such maintenance shall include mowing, edging, weed control, watering, filling, leveling and repairing of any washed or eroded areas as may be necessary.

3.02 PAVEMENT REPLACEMENT

Asphalt pavement shall be removed by saw cutting on a straight line with edges as vertical as possible. Concrete pavement or asphalt surfaced concrete shall be removed by cutting with a concrete saw in as straight a line and vertically as possible.

Prior to replacing concrete or asphalt pavement replacement, a limerock base shall be laid. The base for concrete pavement shall be six (6) inches of compacted thickness, and that for asphalt pavement shall be twelve (12) inches of compacted thickness for City roadways. The base course for each shall be compacted in two equal layers to a minimum of 98% of the maximum density as determined by AASHTO, Method T-180. The Owner will have tests made by an independent testing laboratory to verify compaction results.

Non-asphalt pavement replacement shall be replaced of like material and thickness. Asphalt or built-up asphalt pavement replacement shall be replaced with like material or concrete as directed by the Engineer/Architect. Where asphalt or built-up asphalt pavement is replaced by concrete,

the concrete shall have a minimum of six (6) inches in thickness and be reinforced with 6 by 6 No. 6 gage welded wire fabric. Where the pavement replacement is of like material, it shall be replaced in thickness equal to or better than that existing at the time of removal.

Unless the base is sealed or other temporary paving applied over driveway areas to be repaved, pavement shall be replaced not later than three weeks after completion of backfill.

3.03 CURB REMOVAL AND REPLACEMENT

Curb removal and replacement required in the construction of this work shall be done by the Contractor. Reasonable care shall be exercised in removing the curb, and the Contractor shall either stockpile or dispose of this material as directed by the Engineer/Architect. Curb shall be replaced of like material in a manner and condition equal to or better than that existing at the time of removal.

3.04 TESTS

The Contractor shall furnish facilities for making all density tests and make such restorations as may be necessary due to test operations. All density tests on backfill or base replacement will be made by a commercial testing laboratory employed by the Owner and at such locations as may be recommended by the Engineer/Architect. If the densities as determined by the specified tests fall below the required minimums, the Contractor shall pay for all retests.

END OF SECTION

SECTION 02930
GRASSING

PART 1 - GENERAL

1.01 DESCRIPTION OF WORK

A. The extent of grassing consists of supplying and planting grass seed and/or sod in the locations shown on the drawings and in those areas where construction activity has damaged or destroyed the ground cover.

B. The grassing work shall include, but not be limited to, supplying all labor, materials, and equipment necessary to perform seeding, sodding, fertilizing, liming when specified, mulching, watering, mowing, and clean-up.

1.02 QUALITY ASSURANCE

A. Seeds shall meet the requirements of the State Department of Agriculture and Consumer Services and all applicable State laws.

B. The Engineer/Architect reserves the right to test, reject or approve all materials before application.

1.03 DELIVERY, STORAGE, AND HANDLING

A. Deliver grass seed in original containers showing analysis of seed mixture, percentage of pure seed, year of production, net weight, date of packaging, and location of packaging. Damaged packages will not be accepted.

B. Deliver fertilizer in water proof bags showing weight, chemical analysis, and name of manufacturer.

C. The Contractor shall, at the time of delivery, furnish the Engineer/Architect invoices of all materials received in order that the minimum application rate of materials may be determined. Failure to supply invoices at the time of delivery will warrant that payment for those items be delayed until proper submittal of invoices are obtained and the minimum application rates of material can be verified.

D. Mixtures of different types of seed called for in these specifications shall be mixed in the proper proportions at the site of the work in the presence of the Engineer/Architect or his representative.

PART 2 - PRODUCTS

2.01 SEED

A. Unless otherwise provided for on the drawings, the Contractor shall conform to the following seed schedule. The total pounds of seed per acre shall be the sum total shown for all the varieties of seed opposite the schedule number.

SEEDING SCHEDULE

Schedule Number	Common Name of Seed	Rate Lbs. Acre	Planting Dates
1.	Pensacola Bahia (scarified)	90	March 15-
	Bermuda Common (50% hulled)	25	October 15
2.	Pensacola Bahia (scarified)	100	October 16 -
	Bermuda Common (50% hulled)	35	March 14
	Annual Rye Grass	10	
	Rye Grain	30	

B. The Bermuda seed shall be an equal mixture of hulled and unhulled seed.

C. The Pensacola Bahia seed shall be scarified seed, having a minimum active germination of 40 percent and a total germination of 85 percent.

D. Quick-growing type grass seed shall be a species approved by the Engineer/Architect which will provide an early ground cover during the particular season when planting is done and will not later compete with permanent grass.

****

CHOOSE TYPE OF SOD AS APPROPRIATE.

A. FOR PROJECTS INVOLVING COUNTY OR DEPARTMENT OF TRANSPORTATION (DOT) ROAD RIGHTS-OF-WAY, SPECIFY EITHER PENSACOLA BAHIA OR ARGENTINE BAHIA. GENERALLY DOT SPECIFIES PENSACOLA; HOWEVER, ARGENTINE IS LESS SCRAGGLY AND IS MORE AESTHETICALLY PLEASING.

B. FOR PROJECTS INVOLVING SODDING ADJACENT TO EXISTING GRASS, SPECIFY THE SAME TYPE AS THE EXISTING GRASS.

****

2.02 SOD

A. Sod shall be [Centipede] [Pensacola Bahia] [Argentine Bahia] [Bermuda] [St. Augustine] with well matted roots.

B. The sod shall be commercial size rectangles measuring 12-inches by 24-inches or larger, except where 6-inch strip sodding is called for on the drawings.

C. The sod shall be sufficiently thick to secure a dense stand of live grass, with a minimum thickness of 2-inches. The sod shall be live, fresh, and uninjured at the time of planting. It shall have a soil mat of sufficient thickness adhering firmly to the roots to withstand all necessary handling. It shall be reasonably free of weeds and other grasses.

D. Sod shall be planted as soon as possible after being harvested and shall be shaded and kept moist from the time of harvesting until it is planted.

E. The source of the sod may be inspected and approved by the Engineer/Architect prior to construction.

2.03 MULCH

A. Dry Mulch:

1. Dry mulch shall be straw or hay, consisting of oat, rye, or wheat straw, or of Pangola, Peanut, Coastal Bermuda or Bahia grass hay. Only undeteriorated mulch which can readily be cut into the soil shall be used.

B. Manufactured Mulch:

1. Manufactured mulches may consist of jute, cotton, or other fiber materials, plastic sheeting, netting, chemical adhesive soil stabilizers, or other approved coverings. Manufactured mulch shall only be used when specifically called for on the drawings and shall be as approved by the Engineer/ Architect.

****

CHOOSE ONE FERTILIZER AS APPROPRIATE. THE APPLICATION RATES THAT ARE INDICATED IN PARAGRAPH 3.02 ARE WRITTEN FOR DOT SPECIFICATIONS WHICH USE A FERTILIZER CHEMICAL DESIGNATION OF 12-8-8. ON APPLICATIONS NOT INVOLVING HIGHWAY RIGHTS-OF-WAY, SPECIFY 16-4-8, 20-5-10, OR THAT DESIGNATED IN A SOIL

ANALYSIS REPORT. ADJUST APPLICATION RATES AS INDICATED IN THE INSTRUCTIONS FOR PARAGRAPH 3.02 OR AS INDICATED ON THE SOIL ANALYSIS REPORT. ANALYSIS OF SOILS MAY BE OBTAINED BY SUBMITTAL OF SAMPLES TO VOLUSIA COUNTY AGRICULTURAL DEPARTMENT 258-7000
****

2.04 FERTILIZER

A. The fertilizer shall be a commercial granular type with a chemical designation of [12-8-8] [16-4-8] [20-5-10] [ ]

B. The numerical designations for fertilizer indicate the minimum percentages (respectively) of (1) total nitrogen, (2) available phosphoric acid, and (3) water-soluble potash, contained in the fertilizer.

1. At least 50 percent of the phosphoric acid shall be from a normal super phosphate or an equivalent source which will provide a minimum of two units of sulfur.

2. The amount of sulfur shall be indicated on the quantitative analysis card attached to each bag or container.

C. Commercial fertilizers shall comply with the State fertilizer laws.

D. Fertilizer may, at the discretion of the Engineer/Architect, upon satisfactory evidence of its feasibility from the manufacturer, be applied in liquid form.

2.05 LIME

A. Lime shall be agricultural grade, ground limestone minimum 80 percent passing No. 8 sieve, calcium carbonate equivalent minimum 80 percent and shall conform to the requirements of the State Department of Agriculture and Consumer Affairs.

2.06 WATER

A. The water used in the grassing operations may be obtained from any approved spring, pond, lake, stream, or municipal water system.

B. The water shall be free of excess and harmful chemicals, acids, alkalis, or any substance which might be harmful to plant growth or obnoxious to traffic.

C. Salt water shall not be used.

2.07 GRAVEL BED

A. In the locations shown on the drawings, provide a 3-inch deep bed of river-run gravel of rounded particles ranging in size from 1/2-inch to 2-inches. Gravel shall be as obtained from the vicinity of Montgomery, Alabama, or Chattahoochee, Florida, or equal.

B. Where gravel is not kept in place by walls or sidewalk, an edging strip shall be used. The edging strip shall be of 1" x 6" cypress, and extend 1/2-inch above the gravel surface.

PART 3 - EXECUTION

3.01 GENERAL

A. Grassing operations will not be permitted when wind velocities exceed 15 miles per hour. Grassing will be accomplished only when the soil is moist and in proper condition to induce growth. No grassing shall be done when the ground is frozen, unduly wet, or otherwise not in a tillable condition.

B. Before acceptance of the seeding performed for the establishment of permanent vegetation, the Contractor will be required to produce a satisfactory stand of perennial grass whose root system shall be developed sufficiently to survive dry periods and winter weather and be capable of reestablishment in the spring.

3.02 GRASSING BY SEEDING

A. Sequence of Operations:

1. The several operations involved in the work shall proceed in the following sequence: grading, fertilizing (and/or application of lime) and preparation of the ground, spreading of the mulch, seeding, cutting in mulch, and rolling.

B. Preparation of Area to be Seeded:

1. The ground over which the seed is to be sown shall be prepared by disk-harrowing and thoroughly pulverizing the soil to a depth of 4-inches. The prepared soil shall be loose and reasonably smooth. The area shall be reasonably free of large clods, roots, and other material which will interfere with the work or subsequent mowing and maintenance operations.

****

THE FOLLOWING APPLICATION RATES ARE APPLICABLE WITH A CHEMICAL DESIGNATION OF 12-8-8 FOR DOT AND COUNTY RIGHTS-OF-WAY. WHEN 16-4-8 CHEMICAL DESIGNATION IS USED, CHANGE THE APPLICATION RATE TO 275 LBS. PER ACRE. WHEN 20-5-10 CHEMICAL DESIGNATION IS USED, CHANGE THE APPLICATION RATE TO 220 LBS. PER ACRE. WHEN FERTILIZER IS APPROVED TO BE APPLIED IN LIQUID FORM, INCREASE THE FREQUENCY OF APPLICATION BY A FACTOR OF 2. APPLICATION OF LIME IS RECOMMENDED ONLY FOR EXTREMELY ACID SOILS.

****

C. Application of Fertilizer:

1. The fertilizer (and/or lime) shall be spread uniformly in one or more applications as specified below.

    a. An initial application of 500 lbs. per acre.

2. Unless otherwise directed, a second application of 500 lbs. per acre shall be applied within 90 calendar days after the initial application on projects which have not been accepted prior to this time.

3. Unless otherwise directed, a third application of 500 lbs. per acre shall be applied within 270 to 360 calendar days after the initial application on projects which have not been accepted prior to this time.

4. Lime shall be spread at a minimum uniform rate of 250 lbs. per acre and thoroughly mixed with the soil to a depth of 4-inches.

D. Dry Mulching:

1. Approximately 2-inches, loose thickness, of the dry mulch material shall be applied uniformly over the area to be seeded. After the area has been seeded, the mulch material shall be cut into the soil so as to produce a loose mulched thickness of 3- to 4-inches. Care shall be exercised that the materials are not cut too deeply into the soil.

E. While the soil is still loose and moist, the seed shall be scattered uniformly over the area to be grassed. The application rates of the various types of seed shall be as described in Paragraph 2.01.

F. Rolling:

1. Immediately after completion of the seeding, the entire grassed or mulched area shall be rolled with a cultipacker, traffic roller, or other suitable equipment. At least two trips over the entire area will be required.

G. Watering:

1. The seeded areas shall be watered so as to provide optimum growth conditions for the establishment of the grass. The period for maintaining such moisture conditions shall not be less than two weeks after planting.

3.03 GRASSING BY HYDRO-SEEDING

A. General:

1. This method of grassing generally consists of distributing materials over the area to be grassed by spraying a slurry composed of water, seed, fertilizer, and mulch (wood cellulose fiber mulch for hydro-seeding applications).

B. Ground Preparation:

1. The provisions for the preparation of the seeding areas and for the subsequent maintaining of the moisture condition shall be as specified in Paragraphs 3.02 B, C and G.

C. Equipment:

1. Equipment used in hydro-seeding shall have a built-in agitation system with an operating capacity sufficient to agitate, suspend, and homogeneously mix a slurry of the specified amount of fiber, fertilizer, seed, and water. The slurry distribution lines shall be large enough to prevent stoppage. The discharge line shall be equipped with a set of hydraulic spray nozzles which will provide even distribution of the slurry on the various areas to be grassed. The slurry tank shall have a minimum capacity of 1,000 gallons.

D. Application:

1. Wood cellulose fiber mulch shall be applied at the rate of 1,500 lbs. per acre in a mixture of seed, fertilizer, and water. The seed, fertilizer, mulch, and water shall be combined into the slurry tank for distribution of all ingredients in one operation. The materials shall be combined in a manner recommended by the mulch manufacturer. The slurry mixture shall be so regulated that the amounts and rates of application shall result in a uniform application of all materials at rates not less than the amounts specified herein. Using the color of the mulch as a guide, the equipment operator shall spray the prepared seed-bed with a uniform visible coat. The slurry shall be applied in a sweeping motion, in an arched stream, so as to fall like rain, allowing the mulch fibers to build upon each other until an even coat is achieved.

3.04 SODDING

A. Ground Preparation:

1. The provisions for the preparation of the area to be sodded shall include scarifying and loosening the soil and application of fertilizer as described in Paragraphs 3.02 B. and C.

B. Inclement Weather and Unsuitable Conditions:

1. Sodding shall not be performed when weather and soil conditions are, in the Engineer/Architect's opinion, unsuitable for proper results.

C. Sod Placement:

1. The sod shall be placed on the prepared surface with edges in close contact, and shall be firmly and smoothly embedded by light tamping with appropriate tools.

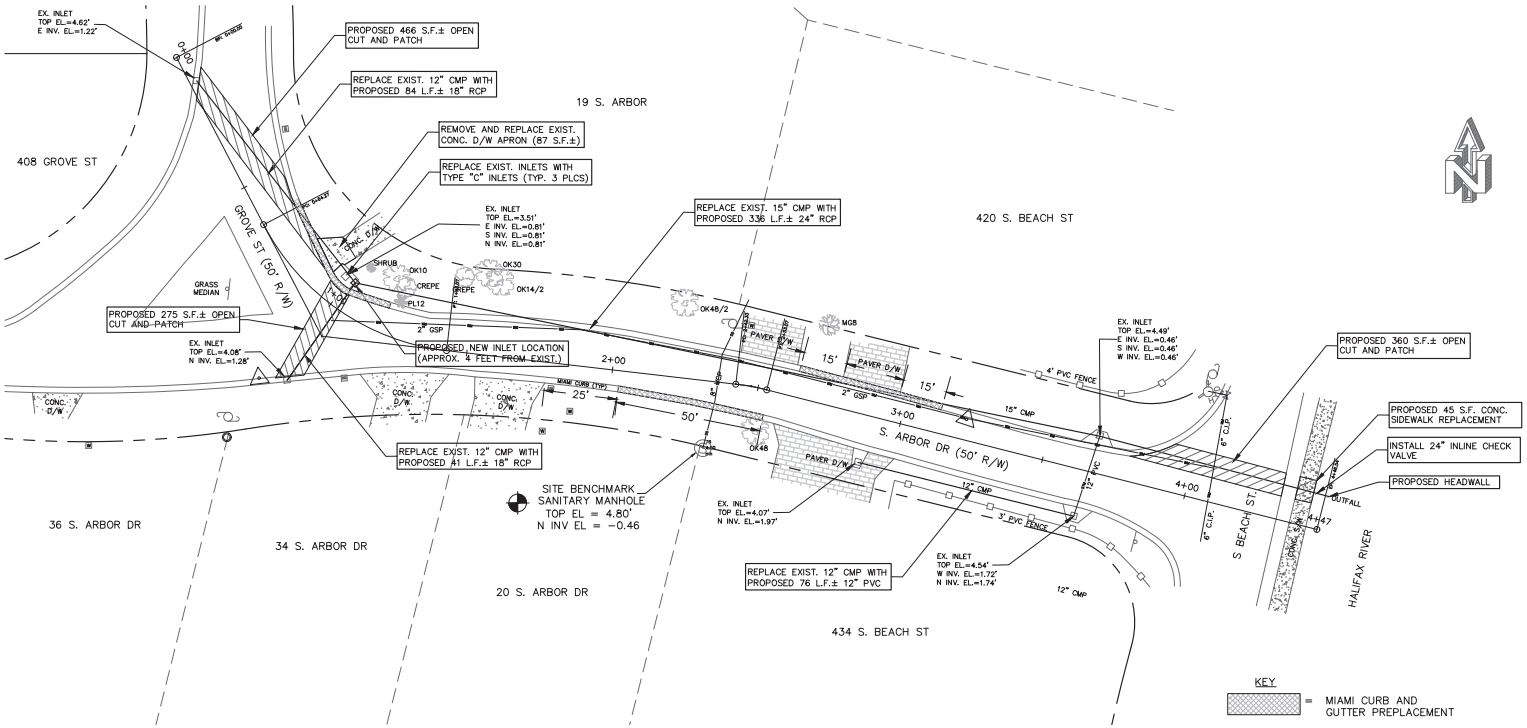
2. Where sodding is used in drainage ditches or ponds, the setting of the pieces shall be staggered, such as to avoid a continuous seam along the line of flow. Along the edges of such staggered areas, the offsets of individual strips shall not exceed 6-inches.

3. In order to prevent erosion caused by vertical edges at the outer limits, the outer pieces of sod shall be tamped so as to produce a featheredge effect.

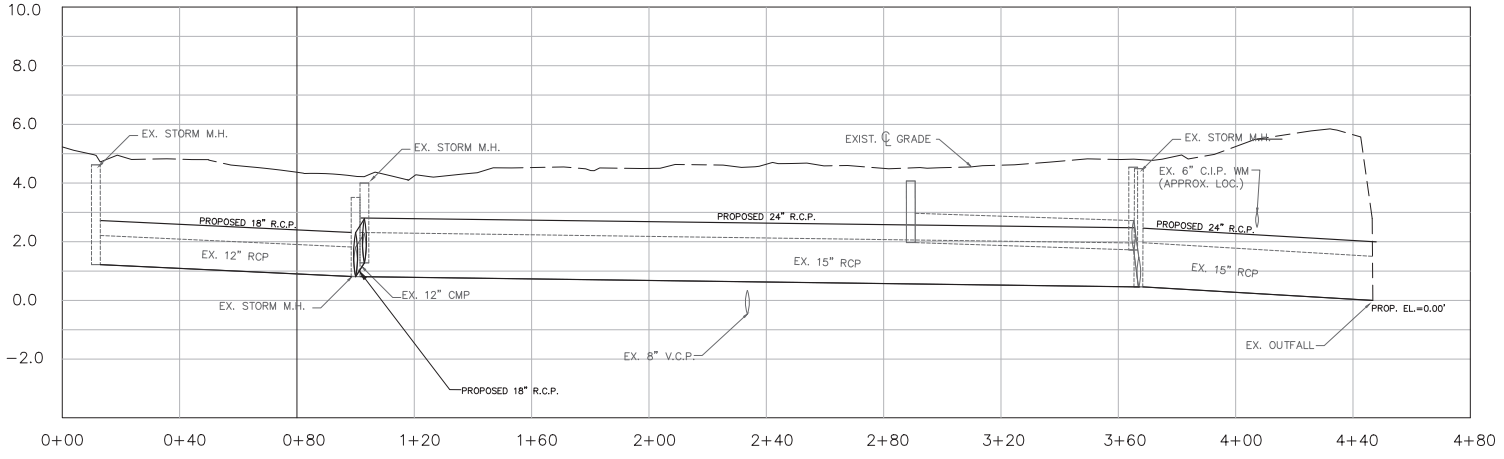
4. On areas where the sod may slide, due to height and slopes, it shall be pegged, with pegs driven through the sod blocks into firm soil and at intervals as shown on the drawings or as directed by the Engineer/Architect.

5. Any pieces of sod which, after placing, show appearance of extreme dryness shall be removed from the work.

D. Watering:



1. The sod shall be kept in a moist condition after planting and for the duration of the Contract. Water shall not be applied between the hours of 8:00 A.M. and 4:00 P.M.



3.05 MAINTENANCE

A. The Contractor shall, at his expense, maintain the planted areas in a satisfactory condition until final acceptance. Such maintenance shall include watering, filling, leveling, and repairing of any washed or eroded areas and additional seed, fertilizer, and mulch or sod applied to areas where a satisfactory stand of grass has not been achieved.

B. Immediately prior to final inspection, the Contractor shall mow and remove clippings from the areas grassed under this Contract.

CITY MANAGER MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Bob Preis, Utilities Manager

Date: June 6, 2023

Subject: Bid Rejection for 2022 WTP Improvements

Commission Goal: Water Quality & the Environment - Other

Introduction

This is a disposition item to inform the City Commission of staff's intent to reject all bids received for the 2022 Water Treatment Plant Improvements Project, Bid Number 2022-15.

Background

On February 21, 2023, staff informed the City Commission of their intent to solicit bids for the 2022 Water Treatment Plant Improvement Project. On April 06, 2023, two bids were received and opened. The apparent low bid was from Ferreira Construction. See attached Bid Tabulation.

Discussion

The cost estimate of $3,000,000 was generated by the City's design consultant, McKim & Creed, during the project's design process. The lowest bid received of $3,643,710 was approximately $640,000 over the allocated funds. Additionally, several days after the bids were opened, the purchasing coordinator received an email from the low bidder, Ferreira Construction, requesting that their bid be withdrawn due to a calculation error.

McKim and Creed recommended rejecting all bids and rebidding the project using smaller components to reduce project complexity, attract more contractors, and reduce the overall costs.

Budget Impact

In order to promote more competitive contractor pricing, staff is rejecting the bids and redesigning the project into smaller tasks.

Citizen Impact

Rejecting the bids of the 2022 Water Treatment Plant Improvements project and redesigning the project to increase the number of prospective bidders would lead to better bid prices, thus making better use of City funds to support the needed improvements for the Water Treatment Plant.

Recommendation

Unless otherwise directed by the City Commission, staff intends to reject all bids received for the 2022 Water Treatment Plant Improvements Project, Bid No. 2022-15.

RE: 2022 Water Treatment Plant Improvements
Bid No. 2022-15
City of Ormond Beach, FL

Dear Mr. Stephenson:

Following our meeting of April 14, 2023, and review of the bids for the 2022 Water Treatment Plant, we recommend the City of Ormond Beach reject all bids for the subject project.

Bids for the subject project were received April 6, 2023 with two bids received. The recommendation to reject all bids is made based on the bids being much higher than the estimated cost of the project and irregularities of the apparent low bidder submitting a different bid number manually versus the bid submitted electronically. It is also due to the apparent low bidder requesting to be relieved of their bid submission.

Please contact us if you have any questions.

Sincerely,

McKIM & CREED, INC.

Strategic Goal:	Transportation & Community Development - Other		
Department :	Planning & Building		
Subject:	Zoning Map Amendment, Tymber Creek Apartments (SECOND READING)		
Budget Impact:	There is no budget impact as the result of this zoning map amendment.		
Summary:	This is an application submitted by Nika K. Hosseini, Esquire, Cobb Cole, on behalf of the property owner, VCP Ormond Beach II, LLC, for a (1) zoning map amendment from Volusia County RC, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial to PBD, Planned Business Development and (2) the issuance of a development order. This item is solely for the zoning map amendment to allow the framework for the development order.		
Recommended Action:	Planning Board recommended the City Commission deny the zoning map amendment for a 19.62± acre property from Volusia County RC, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial to Planned Business Development with a 5-0. The project has a 6.4-acre parcel that lacks a city zoning designation. If this zoning map amendment is denied, staff will process an administrative zoning map amendment for the parcel to ensure it has a zoning designation.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Steven Spraker, Planning Director

Date: June 6, 2023

Subject: Zoning Map Amendment, Tymber Creek Apartments (SECOND READING)

Commission Goal: Transportation & Community Development - Other

Introduction

This is an application submitted by Nika K. Hosseini, Esquire, Cobb Cole, on behalf of the property owner, VCP Ormond Beach II, LLC, for a (1) zoning map amendment from Volusia County RC, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial to PBD, Planned Business Development and (2) the issuance of a development order. The Tymber Creek Apartments Planned Business Development seeks to allow the construction of 270 multi-family residential units and associated site improvements on 19.62 acres. The subject property is located at 36 North Tymber Creek Road and 2011 West Granada Boulevard. This staff report, item A, is for the zoning map amendment and the next agenda item, item B, is for the issuance of the development order. This item has been continued since the January 24, 2023 City Commission meeting. The project team has resubmitted site plans that reduce the number of residential units from 300 to 270 and provided additional buffering to Indian Springs as part of the issuance of the development order item (next agenda item).

Background

The subject property consists of two parcels at 36 North Tymber Creek Road and 2011 West Granada Boulevard. The property at 36 North Tymber Creek Road is 6.40 acres and was annexed into Ormond Beach on May 26, 2020 with Ordinance 2020-17. On January 5, 2021, a Comprehensive Plan land use map amendment was approved with Ordinance 2020-56 to assign a city land use designation to 36 North Tymber Creek Road. The land use designation was amended from Volusia County “Environmental System Corridor” (ESC) to City of Ormond Beach “Open Space/Conservation” (OS/C) and Volusia County “Urban Low Intensity” (ULI) to Ormond Beach “Residential, Office, Retail” (ROR). No Ormond Beach zoning has been assigned to 36 North Tymber Creek Road and the assignment of zoning is the purpose of this application. The property at 2011 West Granada Boulevard has a land use classification of “General Commercial”

and a zoning designation of B-8, Commercial.

The subject property proposes site access through the approximately 9.93-acre property at 2041 West Granada Boulevard that is currently vacant. Walgreens is located at 2001 West Granada Boulevard and 30 North Tymber Creek Road (stormwater pond). There is a Volusia County stormwater pond located at 40 Tymber Creek Road. To the north of the subject property, there is the Moss Point subdivision. To the west of the subject property, is the Coquina Presbyterian Church and the Indian Springs subdivision.

The application seeks to allow 270 multi-family residential units as a Planned Business Development. The Planned Business Development is reviewed and acted upon as two (2) separate actions:

1. **Zoning map amendment from Volusia County RC, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial to PBD, Planned Business Development. The zoning map amendment is the action sought for this agenda item.**
2. Issuance of a development order to construct 270 multi-family residential units and associated site improvements on 19.62 acres.

The two actions (2) will be discussed together at the public hearing and will require separate votes. The zoning map amendment is the application under consideration in this report. The zoning map amendment does not approve any specific development, but instead the **framework** for the issuance of the development order. The issuance of a development order contains site plans and project reports that detail the specific development. The items are intertwined and if there is a desire to approve or approve with conditions the issuance of the development order, then the zoning map amendment needs approval first. If there is a desire to deny the issuance of the development order, then the zoning map amendment should also be denied.

Discussion

The subject property has three (3) land use categories: (1) “Open Space/Conservation”, (2) “Residential, Office, Retail”, and (3) “General Commercial”. The maximum development entitlements of the land use categories would allow 471 residential units or 430,983 square feet of commercial uses. Based on land development regulations (building height, landscaping, and stormwater), these maximums would not be achievable. The Land Development Code establishes thresholds for density, height, and building length that require public hearing approval.

The subject property has three (3) existing zoning classifications: (1) Volusia County RC, Resource Corridor, (2) Volusia County A-2, Agriculture, and (3) Ormond Beach B-8. The Volusia County zoning classifications are maintained through annexation until an Ormond Beach zoning classification is assigned. Based on the assignment of Ormond Beach land uses, there are certain zoning districts that are compatible with the adopted land uses. If the zoning map amendment to Planned Business Development is denied, city staff would proceed with a zoning map amendment to provide city zoning

classifications.

Input has been received through the neighborhood meeting and correspondence received that includes the following concerns regarding the overall project:

1. Traffic

    A. Concern about U-turn movements on West Granada Boulevard.
    B. Traffic is awful/horrendous already.
    C. The right-hand turn into Indian Springs is treacherous.
    D. Negative impacts at the intersection of West Granada Boulevard and Tymber Creek Road.

2. Incompatible use

    A. Impact on the existing residents in the area of the planned development.
    B. Will make our community less safe.
    C. We are a single-family community!
    D. The project is not compatible with the neighboring subdivisions. Any increase will be detrimental to the quality of life for the surrounding area's residents.

3. Density

    A. Density should be maintained at 10 units per acre.
    B. If the Land Development Code allows 164 units now, then why would an increase be of any value to the residents of Ormond Beach?

4. Overdevelopment

    A. Horrible location planning for apartments.
    B. If we do not limit the population growth in Ormond Beach now, we will not be able to undo the consequences in the future.

5. Site Design

    A. Desire of a masonry wall along the Indian Springs property line.
    B. The project team should show the building locations and height.
    C. Configuration/location of the buildings – specifically building 8.

6. Quality of Life

    A. Only single-family residential has been approved west of I-95.
    B. Longtime residents of upscale communities deserve better consideration.
    C. The area is already overbuilt and this will do nothing to help the situation.
    D. Future management of complex.

<u>Planning Board</u>

The Planning Board reviewed the zoning map amendment at the December 5, 2022 meeting and recommended denial with a 5-0 vote. A summary of key points of individuals who spoke at the Planning Board include:

1. The Indian Springs Homeowners' Association representative requested the

deletion of buildings 8 and 9.
2. Expressed concern with the proposed increase in density over the zoning designation allowances.
3. No apartment complexes exist west of I-95 in Ormond Beach.
4. Expressed concerns that residential growth should not be approved until there are adequate medical facilities including hospital beds and emergency room capacity.
5. The existing resident's quality of life will be negatively impacted.
6. Expressed concern regarding the increase in traffic and proposed U-turn movements.

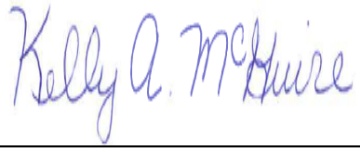
Planning Board members stated that they could not support the zoning map amendment that allowed additional density and increased traffic. A Planning Board member noted that developers have gone above and beyond in attempting to mitigate the issues with respect to the borders and visibility issues and zoning setbacks. The Planning Board minutes are attached to this item.

Budget Impact

There is no budget impact as the result of this zoning map amendment.

Citizen Impact

The City Commission packet includes input from the neighborhood meeting, correspondence received, and the Planning Board meeting. The citizen's concerns include traffic, incompatible use, density increase, overdevelopment, site design, and decreased quality of life. The Planning Board recommended against the requested zoning map amendment.



Recommendation

Planning Board recommended the City Commission deny the zoning map amendment for a 19.62± acre property from Volusia County RC, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial to Planned Business Development with a 5-0. The project has a 6.4-acre parcel that lacks a city zoning designation. If this zoning map amendment is denied, staff will process an administrative zoning map amendment for the parcel to ensure it has a zoning designation.

ORDINANCE NO. 2023-09

AN ORDINANCE AMENDING PARAGRAPH C, OFFICIAL ZONING MAP, OF SECTION 2-01, ESTABLISHED, OF ARTICLE 1, ESTABLISHMENT OF ZONING DISTRICTS AND OFFICIAL ZONING MAP, OF CHAPTER 2, DISTRICT AND GENERAL REGULATIONS, OF THE CITY OF ORMOND BEACH LAND DEVELOPMENT CODE, BY AMENDING THE OFFICIAL ZONING MAP TO REZONE TWO PARCELS OF REAL PROPERTY CONSISTING OF APPROXIMATELY 19.62 ACRES LOCATED AT 36 NORTH TYMBER CREEK ROAD (VOLUSIA COUNTY PARCEL NUMBER 4125-00-00-0221) AND 2011 WEST GRANADA BOULEVARD (VOLUSIA COUNTY PARCEL NUMBER 4125-00-00-0243) FROM VOLUSIA COUNTY RC, RESOURCE CORRIDOR, VOLUSIA COUNTY A-2, AGRICULTURE, AND ORMOND BEACH B-8, COMMERCIAL, TO PLANNED BUSINESS DEVELOPMENT; AUTHORIZING REVISION OF OFFICIAL ZONING MAP; REPEALING ALL INCONSISTENT ORDINANCES OR PARTS THEREOF; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, VCP Ormond Beach II, LLC, a Florida limited liability company, is the owner of real property ("Property Owner") located at 36 North Tymber Creek Road (Volusia County parcel number 4125-00-00-0221) and 2011 West Granada Boulevard (Volusia County parcel number 4125-00-00-0243), as more particularly described and depicted in Exhibit "A" attached hereto and incorporated herein ("Property"), and

WHEREAS, the Property Owner has submitted an application to the city to re-zone the Property from Volusia County RC, Resource Corridor, Volusia County A-2,

Agriculture, and Ormond Beach B-8, Commercial, to Planned Business Development (PBD), and

WHEREAS, the Property to be re-zoned is more than ten contiguous acres, consisting of approximately 19.62 contiguous acres, and

WHEREAS, the Planning Board held a public hearing regarding this matter as required by Chapter 1, Article II, Section 1-15(d)(3), of the *Land Development Code*, and

WHEREAS, the City Commission held a public hearing regarding this matter as required by Section 166.041(3)(c)(2), *Florida Statutes*, and

WHEREAS, all applicable legal notice requirements have been complied with, and

WHEREAS, the City Commission finds the proposed rezoning to be consistent with the Future Land Use Element, and the Future Land Use Map, of the City's adopted *Comprehensive Plan*, now therefore,

BE IT ENACTED BY THE PEOPLE OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The foregoing recitals are incorporated herein as the findings of the City Commission.

SECTION TWO. Paragraph C, Official Zoning Map, of Section 2-01, Established, of Article I, Establishment of Zoning Districts and Official Zoning Map, of Chapter 2, District and General Regulations, of the *Land Development Code* of the City of Ormond Beach, Florida, is hereby amended by amending the Official Zoning Map, to change the zoning designation of the property described and depicted on Exhibit "A" from Volusia County RC, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial, to Planned Business Development (PBD), as shown and depicted in Exhibit "B".

SECTION THREE. All Ordinances or parts of Ordinances in conflict herewith are hereby repealed to the extent of such conflict.

SECTION FOUR. This Ordinance shall be effective immediately upon its adoption.

PASSED UPON at the first reading of the City Commission, this 16th day of May, 2023.

PASSED UPON at the second and final reading of the City Commission, this 6th day of June, 2023.

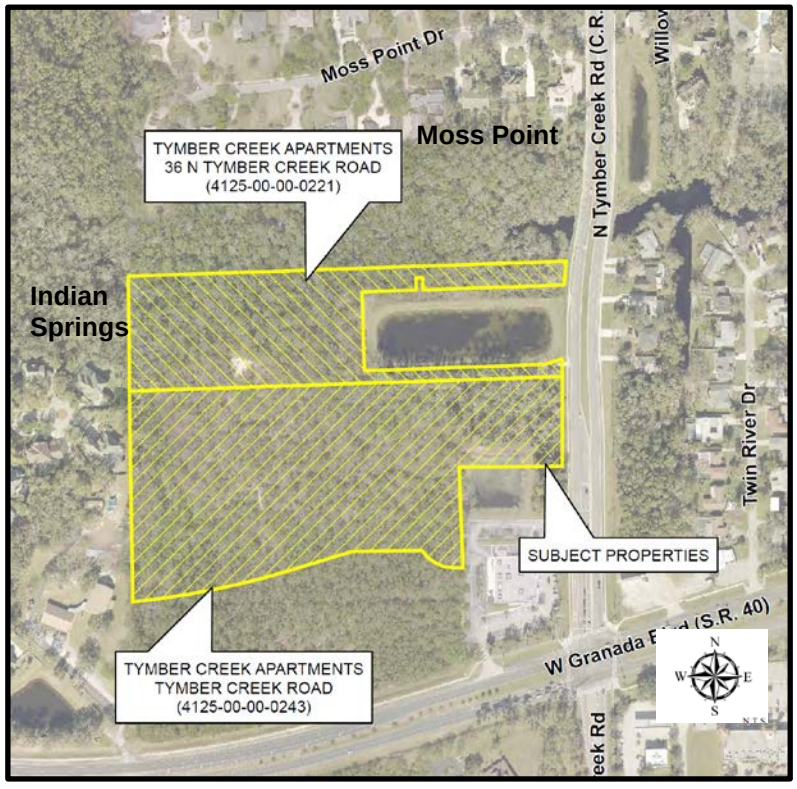
STAFF REPORT

City of Ormond Beach
Department of Planning

DATE: December 8, 2022

SUBJECT: Tymber Creek Apartments: **Zoning Map Amendment to Planned Business Development**



APPLICANT: VCP Ormond Beach II, LLC

NUMBER: PBD 2022-008(A)

PROJECT PLANNER: Steven Spraker, AICP, Planning Director

SECTION 1, INTRODUCTION: This is an application submitted by Nika K. Hosseini, Esquire, Cobb Cole, on behalf of the property owner, VCP Ormond Beach II, LLC, for a (1) zoning map amendment from Volusia County RC, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial to PBD, Planned Business Development and (2) the issuance of a development order. The Tymber Creek Apartments Planned Business Development seeks to allow the construction of 300 multi-family residential units and associated site improvements on 19.62 acres. The subject property is located at 36 North Tymber Creek Road and 2011 West Granada Boulevard. This staff report, item A, is for the zoning map amendment and the next staff report, item B, is for the issuance of the development order. The subject property is shown below.

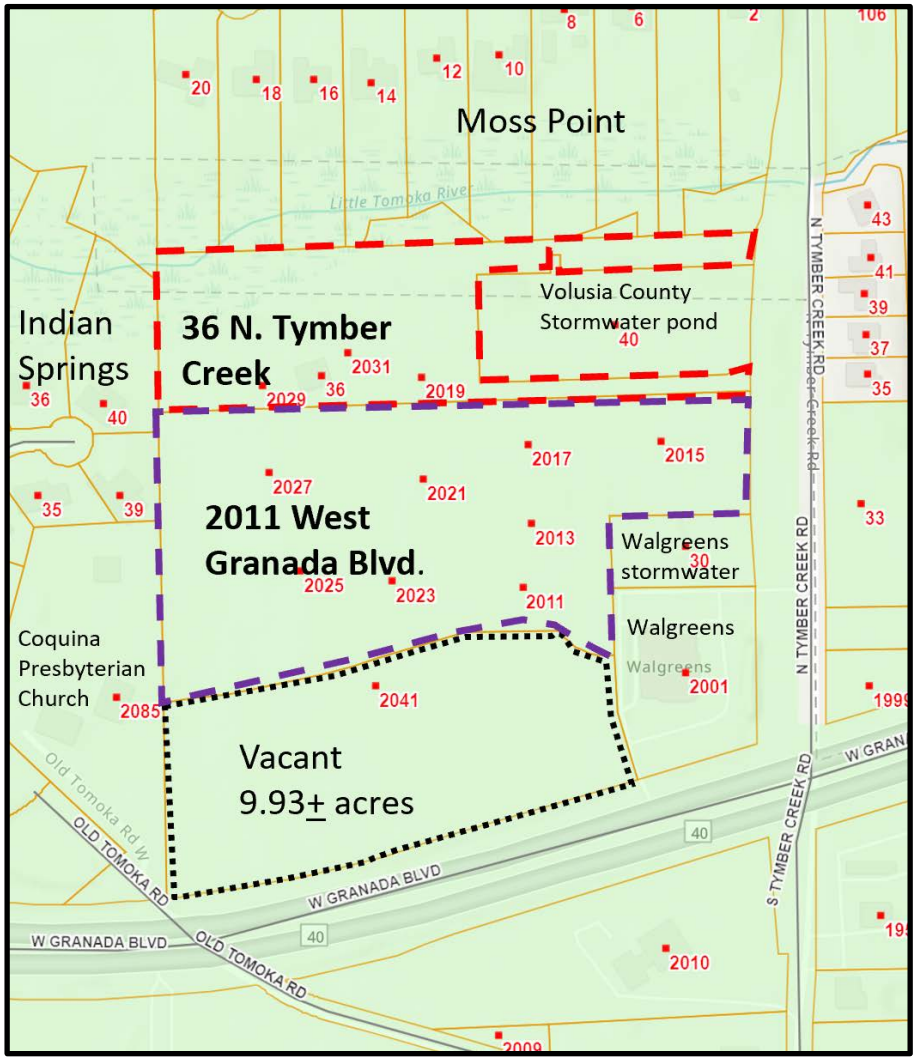


EXHIBIT 1: Project location, 36 North Tymber Creek Road and 2011 West Granada Boulevard

SECTION 2, BACKGROUND: The subject property consists of two parcels at 36 North Tymber Creek Road and 2011 West Granada Boulevard. The property at 36 North Tymber Creek Road is 6.40 acres and was annexed into Ormond Beach on May 26, 2020 with Ordinance 2020-17. On January 5, 2021, a Comprehensive Plan land use map amendment was approved with Ordinance 2020-56 to assign a city land use designation to 36 North Tymber Creek Road. The land use designation was amended from Volusia County "Environmental System Corridor" (ESC) to City of Ormond Beach "Open Space/Conservation" (OS/C) and Volusia County "Urban Low Intensity" (ULI) to Ormond Beach "Residential, Office, Retail" (ROR). No Ormond Beach zoning has been assigned to 36 North Tymber Creek Road and the assignment of zoning is the purpose of this application. The property at 2011 West Granada Boulevard has a land use classification of "General Commercial" and a zoning designation of B-8, Commercial.

Exhibit 2 shows the land area around the proposed Tymber Creek Apartments. The subject property proposes site access through the approximately 9.93-acre property at 2041 West Granada Boulevard that is currently vacant. Walgreens is located at 2001 West Granada Boulevard and 30 North Tymber Creek Road (stormwater pond).

EXHIBIT 2: Abutting land area to Tymber Creek Apartments

There is a Volusia County stormwater pond located at 40 Tymber Creek Road. To the north of the subject property, there is the Moss Point subdivision. To the west of the subject property, is the Coquina Presbyterian Church and the Indian Springs subdivision.

The following are the abutting uses to the subject properties:

EXHIBIT 3: Abutting land use and zoning designations

Land Use and Zoning Designations of Adjacent Property			
	Current Land Uses	**Future Land Use Designation**	**Zoning Classification**
North	Volusia County detention pond and Moss Point	"Open Space/Conservation" and "Suburban Low Density Residential"	SE, Special Environmental & SR, Suburban Residential
South	Vacant land and Across SR40, Faith Lutheran Church and Riverbend Church	"General Commercial" "Public/Institutional" and "Suburban Low Density Residential"	B-8 (Commercial) & SR, Suburban Residential
East	Across Tymber Creek Road: Vacant Commercial and Single-Family Residential	"General Commercial" & Volusia County "Low Medium Intensity"	B-8 (Commercial) & Volusia County R-4, Urban Single-Family Residential
West	Coquina Presbyterian Church & Indian Springs	"Open Space/Conservation" & "Public/Institutional" and "Low Density Residential"	R-3, Single Family Medium Density

SECTION 3, ANALYSIS:

Application process

The application seeks to allow 300 multi-family residential units as a Planned Business Development. The Planned Business Development is reviewed and acted upon as two (2) separate actions:

A. **Zoning map amendment from Volusia County RC, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial to PBD, Planned Business Development. The zoning map amendment is the action sought for this staff report.**

B. Issuance of a development order to construct 300 multi-family residential units and associated site improvements on 19.62 acres.

The two actions (2) will be discussed together at the public hearing and will require

separate votes. The zoning map amendment is the application under consideration in this report. The zoning map amendment does not approve any specific development, but instead the framework for the issuance of the development order. The issuance of a development order contains site plans and project reports that detail the specific development. The items are intertwined and if there is a desire to approve or approve with conditions the issuance of the development order, then the zoning map amendment needs approval first. If there is a desire to deny the issuance of the development order, then the zoning map amendment should also be denied.

Project process: The Planned Business Development is reviewed and acted upon as two separate actions: (1) zoning map amendment and (2) issuance of a development order. The two actions will be discussed together at the public hearing and require separate votes. The project has the following approval process:

1. **Site Plan Review Committee (SPRC).** The Site Plan Review Committee is comprised of city departments who review site plan applications for consistency with the Land Development Code and Comprehensive Plan. This committee provides a technical review of development submittals.
2. **Neighborhood meeting.** The Land Development Code requires a neighborhood meeting where a project abuts a residential zoning district. The neighborhood meeting was conducted on June 8, 2022 and is summarized in the analysis section of this report.
3. **Planning Board.** The Planning Board conducts one public hearing for a zoning map amendment and issuance of a development order. The Planning Board provides a recommendation to the City Commission. Applications, whether recommended for approval or denial, are forwarded to the City Commission for action. The Planning Board is appointed by the City Commission. The Planning Board in its recommendation is required to consider the following:
    a. Application submitted by the applicant;
    b. Staff report;
    c. Written correspondence provided;
    d. Testimony presented at the public hearing; and
    e. Criteria for rezonings and issuance of a Development Order.
4. **City Commission.** The City Commission is an elected body that provides the final action on zoning map amendments and issuance of development orders. The tentative City Commission dates for this project are January 24, 2023 and February 7, 2023. Section 1-18(e) of the Land Development Code requires the City Commission to consider:
    a. Report and recommendation of the site plan review committee and the planning board.
    b. Report and recommendation of other city departments and advisory boards, as appropriate.

c. Comments of governmental agencies, utility corporations and individuals, as received.

Section 1-18 of the Land Development Code also provides the review criteria for development orders listed in the analysis section of this report.

The project has also been posted on the city website under the Planning Department at: (1) Development Reports, https://www.ormondbeach.org/1015/Tymber-Creek-Apartments and (2) Public Hearing Advertisements and Notices, https://www.ormondbeach.org/1000/Public-Hearing-Advertisements-and-Notice.

Comprehensive Plan

The Comprehensive Plan contains a land use map that provides the vision of uses and residential intensity. The Comprehensive Plan is an overall guide/roadmap for development within Ormond Beach. The subject property has three land use categories that are defined in the Future Land Use Element as follows:

Open Space/Conservation (OS/C) – 3.2 acres

Purpose: This category includes two (2) subcategories: Parks, which includes public areas used for passive recreation, and Conservation which

consists of areas within the City that have significant limitations to development, related to elevations, soils, probability of flooding, relationship to a major water body, wetland characteristics, or similar factors. This category of land use is applicable to all zoning districts.

Density: Not permitted.

Maximum FAR: 0.5

Residential, Office, Retail (ROR) – 3.2 acres

Purpose: A multi-use land use category to provide areas served by transit for use by residential uses, general office, medical and professional uses, restaurants, retail sales and personal services. It is expected that at least 30% of the undeveloped office/professional lands in the City will be developed with multi-family residential uses and adult care/retirement facilities. For projects that propose a mixture of residential and non-residential uses, the minimum FAR should be 0.2.

Density: Maximum: 15 units per acre.

Maximum FAR: Restaurants, retail sales, and personal services shall not exceed a 0.2 FAR. All other uses shall not exceed 0.5.

General Commercial (GC)

Purpose: A multi-use land use category to provide for the sales of retail goods and services, high density multi-family, professional offices and services, and restaurants, depending on the range of population to be served and the availability of transit. For projects that propose a mixture of residential and non-residential uses, the minimum FAR should be 0.2.

Density: Maximum: 32 units per acre.

Maximum FAR: 0.7 (2.0 within the Downtown Community Redevelopment area)

Below is the analysis of maximum development scenarios for residential and commercial uses based upon the approved Comprehensive Plan designations:

EXHIBIT 5: Comprehensive Plan residential and commercial entitlements

Residential Uses						
Land Use Designation	Acres	Land use allowed density	Maximum number of units allowed	Total ITE Trip Generation(1)	Water Generation (2)	Sewer Generation (3)
"Open Space/ Conservation"	3.2	0	0	0	0	0
"Residential, Office, Retail"	3.2	15	48	266	12,288	13,488
"General Commercial"	13.22	32	423	2,343	108,288	118,863
TOTALS	19.62	NA	471	2,609	120,576	132,351

Notes:
(1) ITE Trip Generation, #221, Mid-rise multi-family of 5.54 trips per unit
(2) 256 gallons per day per unit

(3) 281 gallons per day per unit

Commercial Uses						
Land Use Designation	Acres	Land use allowed Floor Area Ratio	Maximum building square footage allowed	Total ITE Trip Generation (1)	Water Generation (2)	Sewer Generation (3)
"Open Space/ Conservation"	3.2	0	0	0	0	0
"Residential, Office, Retail"	3.2	0.2	27,878	1,052	4,182	3,554
"General Commercial"	13.22	0.7	403,104	15,217	60,466	51,396
TOTALS	19.62	NA	430,983	16,270	64,647	54,950

(1) ITE Trip Generation, #820, Retail of 37.75 trips per 1,000 square feet of gross floor area

(2) Building square footage/ 100 X 15

(3) Water generation rate X 85%

Zoning: The subject property has three (3) existing zoning classifications: (1) Volusia County RC, Resource Corridor, (2) Volusia County A-2, Agriculture, and (3) Ormond Beach B-8. The Volusia County zoning classifications are maintained through the annexation until an Ormond Beach zoning classification is assigned. Based upon the assignment of Ormond Beach land uses, there are certain zoning districts that are compatible with the adopted land uses. If the zoning map amendment to Planned Business Development is denied, city staff would proceed with a zoning map amendment to provide city zoning classifications.

Zoning districts contain three (3) types of uses:

1. Permitted uses: means the specific purposes for which lands or buildings are maintained in accordance with the land use district regulations of this Code. These uses are allowed with no conditions. The Site Plan Review Committee (SPRC) would review and approve permitted uses provided that they meet all regulations of the Land Development Code.

   Conditional uses: means the need for staff approval for a use permitted in a particular zoning district that may be compatible within part of a district but not throughout the district and is permitted only upon successful demonstration by an applicant that the use as proposed on a specific site will comply with all the conditional use criteria and standards for location, design and/or operation. These uses are allowed uses and have conditions within Section 2-57 of the Land Development Code that the use is required to meet. The Site Plan Review Committee (SPRC) would review and approve conditional uses provided that they meet all conditions and regulations of the Land Development Code.

2. Special Exception uses: means a use permitted in a particular zoning district that generally may have an impact that transcends an area, neighborhood, or subdivision. Such use may be compatible within part of a district but not throughout

the district and is permitted only after a public hearing and only upon demonstration by the applicant that the use as proposed on a specific site will comply with all the special use criteria and standards for location, design and/or operation. These uses require public hearing approval and may be appropriate, but there is an additional layer of public hearing reviews. Special Exception uses have conditions within Section 2-57 of the Land Development Code that the use is required to meet.

Tymber Creek Apartments zoning classifications

1. *Volusia County RC, Resource Corridor – corresponding city zoning classification if PBD is not approved– Special Environmental: Acreage = 3.2*

   Section 2-08 of the Land Development Code states the purpose of the Special Environmental zoning district is

   > "To protect persons and private property from the hazards of floodwater inundation and to conserve important natural, ecological, historic, or unique resources for the enjoyment and education of current and future residents, while providing for limited public or commercial outdoor activities and facilities such as equestrian trails, campgrounds, commercial recreation facilities and other centralized outdoor facilities. This classification is primarily intended to be applied to environmentally sensitive lands, public lands, lands held in trust for future open space use or lands held by nonprofit organizations or homeowners' associations and intended for open space uses."

   Zoning Characteristics:

   - No residential density.
   - Permitted uses include: (1) Wildlife Management Area, Fishing and Hunting and (2) Wetland Preservation Area.

2. *Volusia County A-2, Agriculture– corresponding city zoning classification if PBD is not approved – B-1, Professional Office/Hospital: Acreage = 3.2*

Section 2-22 of the Land Development Code states the purpose of the B-1, Professional Office/Hospital zoning district is

> "to provide areas primarily for professional offices, institutional uses, also allowing multifamily residential, and retail uses with special emphasis given to sound architectural design practices, site planning, landscaping and sign location"

Zoning Characteristics:

- Residential density: 10 units per acre if 2 stories.
- Key Permitted Uses: (1) Business/Professional Office, (2) Financial Institutional, (3) Hospital, (4) Pharmacy, (5) Veterinarian.
- Key Conditional Uses: (1) Dwelling, Multifamily, Personal Services, (2) Restaurants A &B, and (3) Retail Sales and Service.

3. Ormond Beach B-8, Commercial: Acreage = 13.20

Section 2-29 of the Land Development Code states the purpose of the B-8, Commercial zoning district is

> "to provide for the establishment of general commercial activities, other than automotive or heavy commercial uses, on properties that abut arterial roads. Due to the proximity of lands in the district to residential areas, these district regulations are intended to promote the preservation of natural vegetation, increase opportunities for beautification and provide extensive buffering between nonresidential and residential uses not otherwise separated from each other by a collector or arterial road. Multifamily, governmental and institutional uses are also encouraged in such corridors as a relief from extensive strip commercial development, and allowable uses are restricted to those most compatible with residential uses. When used in conjunction with the Planned Business Development District, these regulations are intended to encourage the establishment of totally planned, multiuse, community-level centers having a variety of retail, office, restaurant, recreation and institutional uses."

Zoning Characteristics:

- Residential density: 10 units per acre.
- Key Permitted Uses: (1) Business/Professional Office, (2) Financial Institutional, (3) Retail Sales and Services
- Key Conditional Uses: (1) Convenience Store, Type B & C, (2) Dwelling, Multifamily, Personal Services, (3) Restaurants A, B, and C, (4) Shopping Center

<u>Planned Business Development</u>

The project application seeks to obtain a Planned Business Development zoning designation. According to Chapter 2, Article II, Section 2-36 of the Land Development Code the purpose of the Planned Business Development zoning district:

> "is to establish regulatory standards for controlling the location of comprehensively planned business centers accessible to arterial roadways. The PBD is intended to incorporate a flexible management policy which incorporates urban design amenities, including streetscape improvements, and fosters innovative master planning in the design and development of commercial centers. The PBD district provides a diversified mix of permitted, conditional, and special land uses and higher standards of land planning and site design than are available under conventional zoning categories."

One goal of the Planned Business Development is to "provide for a coherent and visually attractive physical environment through the creation of focal points and vistas, as well as coordination and consistency of architectural styles, landscaping designs and other elements of the building environment."

Specific regulations of the Planned Business Development applicable to this application include:

Section 2-36(d)(3) of the Land Development Code:

> (3) *Building height.* Height limits may exceed that allowed by district regulations by a maximum of fifteen feet (15'), provided that the structure is so located as to not have an adverse impact on adjoining properties, particularly single-family homes. This additional height allowance will not be awarded for any portion of a structure located within fifty feet (50') of a single-family home or for a vacant site in a zoning district designed primarily for such use. In no case shall any building height exceed seventy-five feet (75') when measured from the average median lot elevation to the highest point of any structure and/or attached services.

Section 2-57(22)(c) of the Land Development Code

> No structure shall exceed one hundred eighty feet (180') in length, unless a planned development is obtained

The issuance of the development order has public input including the neighborhood meeting and correspondence received. While the information is oriented towards the actual site development, the information and input are useful for the zoning map amendment. It is important to note that the zoning map amendment does not include the detailed site plans, but instead provides the framework for the issuance of the development order.

Neighborhood meeting:

The project conducted a required neighborhood meeting on June 8, 2022 at the Coquina Presbyterian Church. The project attorney described the project at the neighborhood meeting. Key items discussed were:

1. Access to Tymber Creek Road. The project team described the emergency access onto Tymber Creek Road. There was acknowledgement that individuals from Tymber Creek Apartments could access Tymber Creek Road through the Walgreens parking lot.
2. Traffic. Traffic is heavy in the morning and the project will make it worse.
3. Concerns were expressed about the U-turn movements on West Granada Boulevard.
4. Discussion of the project wetlands and buffers.
5. Based on a question, the project team stated that the project was not low income targeted and was a luxury, market rate apartment complex.
6. Discussion of a right-hand turn lane that was removed by the Florida Department of Transportation at the Indian Springs development.
7. Statement provided: Project should be made smaller. Not appropriate for the west Ormond area.
8. Statement provided: Additional density, beyond 10 units per acre is not appropriate.
9. Statement provided: That the project was not appropriate and that the traffic design was not appropriate.

10. Project team stated that residential uses generate less traffic impacts than commercial uses.
11. Statement provided: Apartments were not wanted at this location and that the project would diminish value of existing homes.
12. Statement provided: The project would create additional crime in area.
13. Question asked regarding Votran bus service. There is no Votran bus service west of I-95 currently.

Correspondence received:

ATTACHMENT 3 includes correspondence received on this application. The correspondence received included the following key points or statements provided below:

1. Traffic
   A. Concern of U-turn movements on West Granada Boulevard.
   B. Traffic is awful/horrendous already.
   C. Right turn into Indian Springs is treacherous.
   D. Negative impacts to intersection of West Granada Boulevard and Tymber Creek Road.
2. Incompatible use
   A. Impact to the existing residents in the area of the planned development.
   B. Will make our community less safe.
   C. We are a single-family community!
   D. The project is not compatible with the neighboring subdivisions. Any increase will be detrimental to the quality of life for the surrounding area's residents.
3. Density
   A. Density should be maintained at 10 units per acre.
   B. If the Land Development Code allows 164 units now, then why would an increase be of any value to the residents of Ormond Beach.
4. Overdevelopment
   A. Horrible location planning for apartments.
   B. If we do not limit the population growth in Ormond Beach now, we will not be able to undo the consequences in the future.
5. Site design
   A. Desire of a masonry wall along the Indian Springs property line.
   B. The project team should show the building locations and height.
   C. Configuration/location of the buildings – specifically building 8.
6. Quality of Life
   A. Only single-family residential has been approved west of I-95.

B. Longtime residents of upscale communities deserve better consideration.

C. The area is already overbuilt and this will do nothing to help the situation.

D. Future management of complex.

Indian Springs meetings

City staff met with residents of Indian Springs which led to two meetings with the project team and the residents. Residents of Indian Springs presented concerns and comments on the project at an initial meeting on August 15, 2022 and a follow-up meeting on November 16, 2022. Specific items discussed included:

1. The location and height of a buffer wall. Several options were considered and at the meeting on November 16, 2022 the wall was requested to be extended an additional 100 feet to the south which was added to the current site plan.
2. The project team had the locations of buildings 8 and 9 marked. On November 16, 2022, the residents of Indian Springs, the project team, and city staff walked the site area of buildings 8 and 9. The project team provided a pole that showed the heights of the building. The project team provided revised building elevations to reduce the overall building height from 45' to 39'3".
3. Based upon these meetings, the project team added an additional planting of 46 red cedars, 10 feet in height at planting, along the property line interface of Indian Springs.
4. The project developer and the property owner of the Indian Springs house abutting the Tymber Creek Apartments property line discussed the concept of adding plantings around the screen enclosure on the Indian Springs property owner's lot as another layer of buffering.

On November 26, 2022, a letter (ATTACHMENT 3) from the Indian Springs Homeowner's Association was received that requested:

1. Building 8 and Building 9 be eliminated completely due to compatibility concerns, the visual impacts and proximity to Indian Springs HOA.
2. The Residential Block Retaining Wall on north west side of subject property:
   a. Starting in line with the extended property line of 412600000061 (Coquina Presbyterian Church) and 412607000110 (Gary C & Catherine Von Glinow) and extending around the retaining wall radius and ending as shown on the proposed plans.
   b. Be a minimum of 10' tall.

SECTION 4, CRITERIA FOR APPROVAL: There are certain criteria that must be evaluated before a Planned Business Development amendment can be approved. **It is important to note that this item is solely for the zoning map amendment and not the detailed site plan development order**. According to Chapter 1, Article I, Section 1-15. C.3 of the Land Development Code, the Planning Board shall consider the following when making its decision:

1. The proposed development conforms to the standards and requirements of this Code and will not create undue crowding beyond the conditions normally permitted in the zoning district, or adversely affect the public health, safety,

welfare or quality of life.

The proposed action is a zoning map amendment from Volusia County RC, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial to PBD, Planned Business Development. This item does not approve a specific development plan which is reviewed with the development order item. The zoning map amendment will not adversely affect public health, safety, welfare or the quality of life.

2. The proposed development is consistent with the Comprehensive Plan.

The subject property has three (3) land use designations: (1) "OpenSpace/Conservation", (2) "Residential/Office/Retail", and (3) "General Commercial". The location is appropriate for commercial uses and is consistent with the Comprehensive Plan. The land use designations and allowable density and intensity was discussed in the analysis section of the report. The Comprehensive Plan contains the following Goals, Objectives and Polices related to the zoning map amendment:

Future Land Use Element

GOAL 1. LAND USE DISTRIBUTION

FUTURE DEVELOPMENT AND REDEVELOPMENT ACTIVITIES SHOULD BE DIRECTED IN APPROPRIATE AREAS AS DEPICTED ON THE FUTURE LAND USE MAP TO MEET THE LAND USE NEEDS OF THE ANTICIPATED POPULATION, IN A MANNER CONSISTENT WITH SOUND PLANNING PRINCIPLES, THE GOALS, OBJECTIVES AND POLICIES CONTAINED HEREIN, AND THE DESIRED COMMUNITY CHARACTER.

THE FUTURE LAND USE ELEMENT SHOULD ALLOW LIMITED COMMERCIAL EXPANSION, PROMOTE INDUSTRIAL USE, AND MAINTAIN CURRENT RESIDENTIAL DENSITIES IN THE CORE AREA WHILE ESTABLISHING LOWER DENSITIES IN THE PERIMETER AREAS, FOCUSING REDEVELOPMENT IN THE DOWNTOWN COMMUNITY REDEVELOPMENT AREA, US1, AND SRA1A, AND PROVIDING OR A CONTINUED HIGH LEVEL OF OPEN SPACE. FUTURE GROWTH SHALL BE TIMED AND LOCATED TO MAXIMIZE EXISTING PUBLIC INFRASTRUCTURE.

OBJECTIVE 1.1. RESIDENTIAL LAND USE

Ensure the availability of adequate lands to meet the residential land use needs of the community.

POLICY 1.1.3.

Preserve the character of existing neighborhoods by not allowing intrusion of land uses that would threaten to alter the neighborhood character and by encouraging voluntary rehabilitation and sound maintenance programs in viable neighborhoods which are capable of self-renewal and establishing code enforcement or public redevelopment activities in areas not capable of self-renewal.

POLICY 1.1.5.

Encourage innovative design measures for new residential developments and ensure that adequate provision is made for neighborhood facilities suitable to the type of development proposed.

POLICY 1.1.6.

Provide the opportunity, through zoning and other land use controls, for the development of a variety of housing types (i.e., single-family, duplex, townhouse, multi-family) in both conventional, planned unit and cluster type developments, that will meet the varied needs of the citizens of Ormond Beach.

POLICY 1.2.6.

New commercial development shall be required to provide appropriate buffers and landscaping to minimize negative impacts on surrounding uses.

Housing Element

GOAL 1. HOUSING SUPPLY

ENSURE THE AVAILABLITY OF SAFE AND ADEQUATE HOUSING UNITS OF DIFFERENT TYPES, SIZES, AND PRICE RANGES TO MEET THE NEEDS OF ALL CURRENT AND FUTURE RESIDENTS.

OBJECTIVE 1.1. HOUSING SUPPLY

The City shall continue to facilitate the private production of a housing supply, including adequate sites for mobile homes or manufactured housing and low and moderate income housing, which will meet future community needs and offset housing deficiencies as noted in this Element.

OBJECTIVE 1.2. PROVISION OF ADEQUATE SERVICES AND FACILITIES

Each existing housing development and residential neighborhood along with all new housing development shall meet existing adopted level of service standards.

POLICY 1.2.1.

The general residential development pattern in the city should be in accord with the community's growth strategy for residential densities, as stipulated within the Future Land Use Element.

The zoning map amendment is consistent with the Comprehensive Plan.

3. The proposed development will not adversely impact environmentally sensitive lands or natural resources, including but not limited to water bodies, wetlands, xeric communities, wildlife habitats, endangered or threatened plants and animal species or species of special concern, wellfields, and individual wells.

The zoning action does not approve a specific development plan and this criterion would be reviewed as part of the issuance of the development order.

4. **The proposed use will not substantially or permanently depreciate the value of surrounding property; create a nuisance; or deprive adjoining properties of adequate light and air; create excessive noise, odor, glare, or visual impacts on the neighborhood and adjoining properties.**

   The zoning map amendment establishes the framework for the development order (next agenda item) that details the specific development approval. The zoning map amendment seeks to allow the framework for uses consistent with the land use designation.

5. **There are adequate public facilities to serve the development, including but not limited to roads, sidewalks, bike paths, potable water, wastewater treatment, drainage, fire and police safety, parks and recreation facilities, schools, and playgrounds.**

   The zoning map amendment establishes the framework for the development order (next agenda item) that details the specific development approval.

6. **Ingress and egress to the property and traffic patterns are designed to protect and promote motorized vehicle and pedestrian/bicycle safety and convenience, allow for desirable traffic flow and control, and provide adequate access in case of fire or catastrophe. This finding shall be based on a traffic report where available, prepared by a qualified traffic consultant, engineer or planner which details the anticipated or projected effect of the project on adjacent roads and the impact on public safety.**

   The zoning map amendment establishes the framework for the development order (next agenda item) that details the specific development approval. Detail traffic studies are provided with the issuance of the development order item.

7. **The proposed development is functional in the use of space and aesthetically acceptable.**

   The zoning map amendment establishes the framework for the development order (next agenda item) that details the specific development approval. The functional use of space would be reviewed as part of the development order agenda item.

8. **The proposed development provides for the safety of occupants and visitors.**

   The zoning map amendment establishes the framework for the development order (next agenda item) that details the specific development approval. The site plan (development order item) would review the safety of occupants and visitors.

9. **The proposed use of materials and architectural features will not adversely impact the neighborhood and aesthetics of the area.**

   The zoning map amendment establishes the framework for the development order (next agenda item) that details the specific development approval. The site plan (development order item) would review the use of materials and architectural features.

10. **The testimony provided at public hearings**.

    There has not been a public hearing at this time. The comments from the Planning Board meeting will be incorporated into the City Commission packet.

Section 1-18.E.3 of the Land Development Code states that the City Commission shall consider rezonings based on the consistency with the Comprehensive Plan. The zoning map amendment is consistent based upon the following points:

- The impacts on facilities and services will not increase as a result of the requested zoning amendment from Volusia County RC, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial to Planned Business Development; and
- The zoning request is consistent with the compatibility matrix outlined in the Land Development Code for the Future Land Use Plan Map designation of "Commercial".

SECTION 5, RECOMMENDATION: This agenda item seeks to allow a zoning map amendment to Planned Business Development. The agenda item does not approve any specific development approval, but instead a framework for these zoning actions. It is recommended that the Planning Board recommend **APPROVAL** of the zoning map amendment for a 19.62± acre property from Volusia County RC, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial to Planned Business Development. The project is tentatively scheduled for the City Commission on January 24, 2023 (first reading) and if approved on first reading, the second reading will be on February 7, 2023 (final reading).

This agenda item is related to the issuance of a development order. If there is a desire to approve or approve with conditions the issuance of a development order, then the zoning map amendment should be approved. If there is a desire to deny the issuance of a development order, then the zoning map amendment should be denied.

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Good Afternoon, Steven,

Attached is a file with 13 additional emails (from me or to me) that I have chosen to accompany this cover email for distribution to the Planning Board members for the December 8 meeting. This array of emails is balanced in that some include high praise for Garrison and his team, but all praise is contingent on "proving" that solutions proposed by Garrison are included in the final site plan and can be field tested by markings in the forest. Of course, it was: a.) the temporal nature of the markings; b.) the insufficient mitigation of Buildings 8 and 9's impact on our house; and c.) the still undelivered, as promised, computer-generated, digital sight lines from my house to Buildings 8 and 9, that gave rise to our HOA request for removal of Buildings 8 and 9.

Steven, thank you once again for providing us with an understanding of the City's review and approval process for the Tymber Creek Apartments.

Garrison,

I agree that you and your team have delivered a plan concept that we all hope mitigates the concerns neighbors voiced in August. By staking the buildings and road, a proof of concept will be established.

It is my individual opinion that you have exhibited a best practice approach to interfacing with my little piece of the community impacted by your apartment development. You traveled to meet with us on our turf and walked the site with us. You and your team have proposed potential solutions to most of our concerns that on-site staking and observation could validate.

My family and I bought our house in order to spend most of our time outside surrounded by an idyllic Florida tropical forest. Any development will alter that. I sincerely appreciate your efforts to reduce the negative impact on Indian Springs. I also recognize that you will undoubtedly incur incremental costs in order to implement the revisions proposed to the original site plan. To date, my wife and I acknowledge and appreciate your willingness to work with us.

Best regards,

Gary

Jonathan,

I would like to add my request that the apartment road be marked behind 40 Indian Springs Drive and 39 Indian Springs Drive. Also, I am also still hopeful that the actual elevation of the buildings behind 40 and 39 Indian Springs Drive can be marked.

I also ask if Garrison has an estimate of the expected decibel level of auto, truck and motorcycle noise emanating from the apartment roadway.

Thank you to you and Garrison in advance for your consideration.

Gary,
Marking the road off the building corners with spray paint shouldn't be a problem at all. It should give a good sense on how the road will layout. For the building elevations, we plan to bring a pole extender and extend it up to the height of each building onsite with everyone.

For the average decibel levels, you can expect 45 decibels for the indoor areas and less than 55 decibels for the outdoor areas.

Please let us know if you need any additional information here.

Thanks,
Jonathon Schrader

Date Nov 3 at 12:56 PM

Good morning,

Yesterday, I spent 30-45 minutes exploring the The Tymber Creek Apartments site. I observed the following:

- Three 3-foot high wood stakes with orange ribbons: one with "Building 8" printed on the stake, one with "Building 9" printed on the stake, and one with no printed information on the stake; and

- Fresh orange, yellow and blue/white striped ribbons tied to trees.

What I did not observe is:

- any markings for the apartment road; and

- any poles marking building heights.

Garrison, is the above consistent with the scope of work you requested of the surveyors and the invoice you received from them? It is certainly possible that I inadvertently missed seeing other markings that I was expecting.

Regarding the meeting on the 9th, I am available but wonder if it will allow us to develop a complete understanding of the project's impact.

Best regards,

Gary Von Glinow

Hi Gary.
The spray painting for the road will done right before the meeting and the pole marking the height will be brought to the meeting. The surveyors simply marked the corners of the buildings as previously requested. Garrison and I will be spray painting for the road off these building corners when we come in town for the meeting.

This meeting will allow everyone to develop a complete understanding of the project's impact.

Thank you,
Jonathon Schrader

Gary – to Jonathon's point I think we can demonstrate where the road will be, & which trees are staying, and which aren't. We can do this in the field with marking paint. My plan is to come down prior to the meeting and measure off from the corners of the buildings with a pull tape and scaling off the plans from the staked surveyed corners we can show approximately where the road (parking lot drive) & privacy wall along that West boundary is located with marking paint. Everything to the west of the barrier wall is non-disturb area, therefore ALL of that said vegetation will stay so I don't think re-taping trees is necessary. I hope that will visually answer your last request.

All,

I believe Michael's email is the last that I've received. There was several overlapping, so I wanted to clarify on the dates for the reschedule. Here is what I received:

Michael Gentry – Tuesday at 2:00 or Wed. at 10:00 or 2:00
Steve Curtis – Monday after 1:30 or Tuesday
Gary Von Glinow – Monday or Tuesday

Mark Watt has changed since I sent my email earlier today. Unfortunately, he is now only available Wednesday at 10:00.

Please let me know if this would work for you.

Thank you,

Steven,
Hope all is well. The Indian Springs of Ormond Homeowners' Association, Inc. (IS HOA) respectfully submits the attached letter for Planning Board and City Commission review/action when considering the Tymber Creek Apartments Planned Development and Rezone submittal.

Please confirm receipt and that it will be part of the review documentation/packet(s).

Thank you sir!

Ormond Beach, FL 32174

Re: Tymber Creek Apartments (PZ-22-008)

Dear. Mr. Spraker,
As you are aware, The Indian Springs of Ormond Homeowners' Association, Inc. (IS HOA) is immediately adjacent to the northern west side of the subject property that is being considered for a Planned Development and Rezoning to significantly increase allowable density on that parcel.

The IS HOA is respectfully submitting the below requests to the Planning Board and City Commission as requirements should the project be considered for approval:

1. Building 8 and Building 9 be eliminated completely due to compatibility concerns, the visual impacts and proximity to IS HOA.
2. The Residential Block Retaining Wall on northern west side of subject property:
    a. Starting in line with the extended property line of 412600000061 (Coquina Presbyterian Church) and 412607000110 (Gary C & Catherine Von Glinow) and extending around the retaining wall radius and ending as shown on the proposed plans.
    b. Be a minimum of 10' tall.

The IS HOA would like to state and document their lack of support for the required traffic adjustments to State Road 40 (SR 40), as required by FDOT, due to significant safety concerns.

The IS HOA appreciates the opportunity to provide this input and is confident that the Planning Board and City Commission will incorporate the above adjustments to the Planned Development when considering such a significant change in density. Please do not hesitate to contact me with any further clarification or information regarding these requests.

Sincerely,

Troy Railsback
Board President/Secretary
Indian Springs of Ormond Homeowners' Association, Inc.

Steven,

I do support the position of the Indian Springs Homeowner Association as provided via separate correspondence. Regardless, I'm reaching out personally as a Citizen of Ormond Beach and Indian Springs homeowner. After the first public meeting, a group of residents met with Jaffee Corp., at Indian Springs (IS), and requested the developer modify the site plan geometry to increase the apartment building separation from IS in the NW corner of the project. Jaffee Corp. did nothing. Since that time, and on a couple of occasions, the current Developer met with IS residents to further address homeowner concerns. Although the developer made good faith efforts to alleviate the concerns, the reality is that the apartment buildings are separated from the IS boundary by less than the width of a typical IS lot. Aside from separation, my concerns are:

- Building scale relative to IS
- Multiple balconies facing the back of resident's homes
- Building and site lighting bleed into the neighborhood
- Traffic and apartment resident noise
- Vehicle headlights beaming into homes

Although the Traffic Study does contemplate the following movements and the project has FDOT approval, of additional safety concern is that 100% of the proposed apartment traffic will exit on West Bound SR40 creating a U-Turn condition for eastbound apartment traffic at either the Riverbend roadway cut, or, if the Riverbend cut is backed-up, at the next available option which is immediately West of IS. Notwithstanding, with no deceleration lanes, making a right turn into Indian Springs or IL Villaggio is challenging. Speeding SR40 westbound traffic requires relief in the south lane to avoid our right turn movements. Additional south lane congestion created by these U-Turn movements across from the subdivision entrance is dangerous. As a practical matter, the distance from the apartment exit on SR40 to the beginning radius of the deceleration lane into Riverbend is less than 150 feet, not a lot of distance to navigate across 2 lanes of traffic to a backed-up deceleration lane. This condition will only worsen as Riverbend expands.

I respectfully offer the foregoing for consideration as you contemplate approval of the Tymber Creek Apartment project.

Steve Curtis

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear City of Ormond Beach Planning Department,

I'm writing this email to document my concern and objection to increasing the existing unit per acre guidelines concerning the proposed Apartment Development project located at the corner of Tymber Creek Road and Granada Blvd. in Ormond Beach. My family and I have lived in the Moss Point Drive subdivision off Tymber Creek Road for approximately 13 years, and some of the things we value the most living in this small development is the privacy it offers and the preservation of the surrounding natural habitat. The natural beauty, flora and fauna of the strip of land bordered by Tymber Creek and Granada Blvd. should be preserved and protected, with managed development consistent with the preexisting neighborhoods off Tymber Creek Road.

Over the years we have seen how growth and development along Airport Road to the north of us has impacted the traffic along Tymber Creek Road. As traffic and congestion escalates at the Tymber Creek Road and Granada intersection, the difficulty driving out of Moss Point increases and the safety decreases in the area. This is especially evident in the mornings during the work week, where it can be quite hazardous pulling out of Moss Point and crossing Tymber Creek Road to head north, or even just pulling onto Tymber Creek Road heading south during the 7 am to 9 am rush hour time period. The risk is compounded by the increase in number of cars over the years attempting to make a U-turn on Tymber Creek Road at the Moss Point turn lane, intending to pull into the Walgreens parking lot. Making matters worse, it is very common during morning rush hour to see traffic backed up well beyond the eastbound turn lanes along southbound Tymber Creek Road at the intersection with Granada Blvd. To increase the number of units per acre at the Tymber Creek Apartment project would only put more cars and pedestrians on the road, exacerbating the congestion and safety issues in the area.

In conclusion, we have enjoyed living in this area and the quality of life it affords us. Amending current guidelines pertaining to the number of units permitted to be built on this small tract of land will proportionally and dramatically increase the population and number of cars in the area, negatively impacting the quality of life for the homeowners living in the existing subdivisions off Tymber Creek Road. Please do not increase the units per acre ordnance that is currently in place to manage our growth properly.
Thank you,
Mike Willard

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Planning Department Ormond Beach:
We have lived at 20 Moss Point Drive since the Development sold lots and houses built, going on 33 years. We purchased and built because of the development's uniqueness, privacy, and roaming wildlife. We bought and built because of the zoning and restrictions on the surrounding properties. We have just completed an election cycle during which those seeking our vote assured us that beauty of our city would be preserved. That development would be managed and controlled. We look now for those words not to become hallow or manicured but upheld.
I am a resident of this area for 73 years , having been born at Halifax Hospital , raised near Our Lady of Lourdes Church and school, which I attended, then Father Lopez High School, then out of state for college and law school, knowing I would always return "home".
When the Jaffee group held the property, they sought to, and succeeded at, annexing a connected piece of property into the city. Later, we met with many of the city commissioners, showed them our neighborhood and walked to the project, pointing out our concerns. Instead of meeting with us, the mayor suggested that we meet directly with the attorney for, and a representative of, the proposed project. Dr. and Maureen Weiss graciously opened their home for the meeting. Concessions were pitched back and forth, each side conceding, compromising. Though we all left with the belief the project would go forward, with the concessions each pledged- to be put in writing once they got to presenting the project to the mayor and commissioners.
Waiting for the final project to be presented, we learned that the property had been sold, from the local consortium to an out of state group. Next, we were notified that the new group would be seeking the city grant an expansion from the original 10 unit per acre allowance to18 units per acre.
As a native of this area, I am horrified driving down N Clyde Morris Blvd. from Granada into Daytona. Worse is Williamson from Granada to Mason Avenue. No doubt these never-ending apartment complexes generate increased revenue for each's respective cities or the county. But at what cost? I have not spoken with one person who believes they aesthetically add to the community. I fear our elected public servants look at the tax base revenue generator and succumb, rarely foreseeing or admitting the loss, the strain on water supply, the increased traffic congestion, let alone "preserving our community".
Moss Point still has many of the original land purchasers who built their dream home at their dream location, based upon an original pledge that the surrounding areas were restricted to certain growth.
Sometimes I get concerned, as the farthest west developments that will be severely impacted by any extension of this project, we are out of sight, out of mind!
Those of us who remain in these exterior developments have demonstrated we are here for the long haul and because our land, with its attributes of peace, tranquility, and an abundance of wildlife I now get to show my grandchildren, having done the same with their now mom and dads, deeply means something to us.

Respectfully , Michael Lambert

To Planning Department Ormond Beach
Concerning Tymber Creek Apartments

This letter is written regarding the request to expand the Tymber Creek apartment project from 10 units per acre to 18 units per acre allowing for an 80 % increase in the population density as well as allowing for a similar increase in the total number of residents. The builder is entitled to build 10 units per acre as the land was zoned for this number. Building more than this would require an exception to the current zoning and will result in a major impact on the residents of this area. It is the ***exception*** we object to. The reasons are the following:

1: I am a hematologist and oncologist who has practiced for 37 years in this area. Our emergency rooms are filled, hospital beds are not always available and access to physicians in a timely manner is increasingly difficult. This is not just an inconvenience but can potentially be life threatening. You need to make sure that the growth in the population is accompanied by a commensurate growth in the medical community as well. Please do not increase the number of residents in the area without an adequate infrastructure as it is not safe.

2: Most of us moved here to live in a small community and avoid the high population densities of the larger cities. Bringing in large numbers of new residents in Ormond Beach will undermine this and is supported primarily by the few who will make profit and generally opposed by the vast majority who want to live in a more open space. Allowing this to happen is not planning but acquiescence. Please help find a happy medium.

3: The animals: they cannot speak for themselves, yet they gift us their presence. I do not see deer, turkey, turtles and the myriad of other species in our large cities. Let us avoid this becoming our legacy.

If we do not limit the population growth in Ormond Beach now, we will not be able to undo the consequences in the future.

Thanks for listening and sincerely,

Richard Weiss

Subject: Opposition to Proposed Tymber Creek Apartment Project
Date: Sunday, November 13, 2022 11:54:30 AM

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Good morning Mr. Spraker,

The purpose of this letter is to express our concern and opposition to the proposed Apartment Development project at the NW corner of Tymber Creek and Granada Blvd. in Ormond Beach, Fl.

As longtime residents of Ormond Beach, living in the Moss Point SubDivision, we have enjoyed a very nice quality of life including privacy, reasonable traffic, safety and abundant wildlife in our surrounding acreages. Additionally, we have benefitted from the local commerce and controlled / managed growth that has occurred during the last 10+ years.

We are not against managed growth! **We are are very concerned that there is consideration to raise the existing unit per acre guidelines** and potentially grant exemptions to the developer. The developers in Ormond Beach and nearby Daytona have a right to build within existing guidelines, and they are currently adding thousands of units in the surrounding area. Please don't increase the number of Units per acre allowed.

To increase the number of units per acre at the Tymber Creek Apartment project would be in direct conflict with the controlled / managed growth program that has been successfully in place for years. Although there are many negatives to increasing the units per acre we will just cite one, **traffic flow and safety near the Tymber Creek and Granada intersection, and subsequent eastbound Granada traffic congestion.**

This is already a known problem during rush hours, particularly in the mornings. It is difficult to drive out of our housing development onto Tymber Creek southbound in the mornings because traffic is frequently backed up from Granada northward all of the way to the lights at the entrance to Break Away Trails. Frequently southbound cars on Tymber Creek that want to turn left onto Granada and head eastbound are instead driving through the intersection and cutting through the neighboring strip mall and skipping the Tymber Creek turn lane altogether! What would several hundred additional cars do to this already congested intersection?

We have pictures of the traffic backed up to the Break Away trails intersection that we will be glad to share with you. Please do not increase the 'units per acre ordnance' that currently is in place to manage our growth properly.

Kind regards, John and Cheryl Dietz

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Please include these in the Planning Board packet:

This project is not compatible with the neighboring subdivisions.

The land development code allows for only 164 units, and any increase in density will be detrimental to the quality-of-life for the surrounding area's residents.

The traffic issue will become horrendous with people racing through the Walgreen's parking lot, making U-Turns in all directions on Granada Blvd., especially with the heavy school traffic in this area (from Riverbend, Calvary, Pathways, Pine Trails).

With the creeks and rivers, flooding concerns also remain an issue for this area.

This is not the right project for this area. We ask that it be rejected.

Dear Planning Board Members:
We are writing as we will be out of town on 12/8/22 when this meeting will take place.

We are asking the OB Planning Board members to deny this apartment project in its current form. Before granting variances to a developer please remember the current residents who live in the area and how this will affect their lives. Evaluate all new projects to ensure our last remaining green spaces are not over built, our roads & schools are not overloaded, and that infrastructure is in place before allowing a project to begin.

As you are all aware the traffic @ Tymber Creek and Granada is already problematic during school and rush hours. There are multiple new approved housing projects that will use this road. Many are ongoing and some (Marshside) have not started & are not part of the Traffic study (and will not be for years.) Aside from the traffic, the wear & tear on our roads, schools, water usage, flooding & the many issues that result in a project of this scale being built on this lot.

Adjacent to Ormond are thousands of new apartments that have been built. Large apartment complexes on Williamson, LPGA, Clyde Morris. All indirectly putting pressure on the resources that we who live in Ormond Beach are affected by daily.

We understand the need to allow new projects, but this is the type of project that should NOT be approved. This land should be bought back by either Ormond Beach or the State of Florida.
In our opinion, in order for Ormond beach to continue to be a desirable place to live not every project needs to be approved or every piece of land be developed. An Apartment complex of this size in this location does not benefit any resident that currently lives in this area.

Please take these concerns in your decision before you allow this project to move forward.
Please ask yourselves this simple question: Will this project enhance the quality of life for existing residents?

Debra & Matt Weinberg

Planning Board

Tymber Creek Apartments

The property now is zoned for 164 units per acre. The density of which should not be increased.

What is best for residences of Ormond Beach especially West of I-95?

If the City's Land Development Code allows for 164 now, then why would and increase be of any value to the residence of Ormond Beach? Greater density is NOT what residence want nor need. This policy decision to increase the density should not be approved. Density has been discussed many times concerning Ormond Beach and it is something few people want.

The owner of the property knew what the Ormond Beach zoning is for this area. There should be NO expectations that the number of units/density should be approved.

This area on the north side of Rt.40 and west along nearby Tymber Creek Rd. have defined established neighborhoods. Residence bought their homes knowing of the present zoning of the property in question. They did not expect that a developer would ever want to increase the density more than doubled the allowed units.

Although these apartments have been referred to by the developer as "luxury apartments", they are no difference then any of the apartments that have been going up in Daytona Beach near Ormond. You can put lipstick on a pig, it's still a pig.

Ingress and egress for the proposed apartments are the same for Walgreen's, off of Rt 40. When people leave this area, they go west onto Rt 40 then, if they need to go into Ormond Beach/I-95 they must make a U turn on Rt 40 approx. 1/10th of a mile from Walgreens. The U turn is in front of Riverbend Academy which has approximately 310 students from preschool to 12th grade. With the continuing

increase in traffic now and especially future traffic from Avalon Park, it makes no sense to approve greater density in this area and create more traffic congestion.

There are traffic issues from Tymber Creek Rd to I-95. Study By FDOT recognized another needed traffic light.

The present design of Rt 40 is not prepared for this increase of density and would need considerable upgrades/redesign first and foremost.

Although there is no proposed ingress/egress onto Tymber Creek Rd all one has to do is travel through Walgreens parking lot to use Walgreen's ingress/egress. That is planning at its worst.

Obviously, the design shown on the site plan leaves little distance between 3 story unit buildings and Indian Springs community.

I believe Ormond Beach can and should do better then to approve more density, greater traffic congestion, possible loss of home values near the area and start to become and extension of Daytona Beach. Requests do not always have to be approved when in good conscience it is in the best interest of Ormond Beach and residence in the area not to approve this request.

Mr. Spraker,

I ask you to take this email seriously. As I am not the only person with the same concern. Ormond Beach cannot handle anymore traffic or people moving in. We need to keep our community "Ormond Beach" not a destination for people moving from other states. It is with great concern that I write to you because, as a native, I've seen so much change within the last 20 year.s And I have 35 years within this beautiful place. Granada cannot handle the traffic. Please stop with more apartments. Keep our wetlands and wild animals safe from new construction. WHERE ARE THE ANIMALS SUPPOSED TO LIVE? Growing the town larger will not do us justice, nor the animals, and the population will turn into a mini Miami. Or worse, a Daytona Beach city corner.

My true message is as follows. PLEASE CONSIDER THIS AS A GREAT CONCERN TO ALL ORMOND BEACH RESIDENCE!

My most sincere gratitude,

Lauren Campbell
29 Oak Ave, Ormond Beach

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Planning Board & City of Ormond Beach:

Please please please do not allow these apartment buildings in our backyard. We are homeowners in Tymber Crossings and our quality of life is already taxed with all the development in Hunters Ridge. Now City Council approved nother 129 homes on Airport Road and Tymber Creek. If anyone on the planning board lives off Tymber Creek road you would see that it takes 30 min to go 2 miles to get to 95 in the morning. There is just no way the intersection of Granada and Tymber Creek can safely handle more traffic. We all bought west of 95 purposely to stay away from rental apartments.

Here are some of the issues

1. Building on the wetlands (yes the out of town developers mitigated the wetlands), right on the little tomoka river, we just had significant flooding, not to mention the chemical runoff from the landscaping straight into the river. Keep those wetlands clear to protect our homes from flooding, wildlife and water quality.
2. Horrible location planning for apartments. They are proposing the apartments share an exit with Walgreens. The renters will need to go west on Granada and make a U-Turn right at the Riverbend church/school exit (which is busy in the mornings), in order to access 95, town and shopping. There will be accidents as approximately 800 cars will be making U-Turns in the morning right where the school's exit is with hundreds of cars as well. Sunday is also extremely busy for Riverbend Church exit.
3. The people in the apartments will naturally become frustrated waiting to cross Granada to make a U-Turn on their way to work and will cut through the Walgreens parking lot to use Tymber Creek to turn left. This will make road rage as residents off Tymber Creek road that back up waiting 20 min + to make that turn will not want to let people cut in from the Walgreens parking lot. It just makes for an angry start to the day and an unhappy community all around.
4. We are a Single Family Home community! Our area is already stressed and there are more single family homes already approved (Tattersall/Avalon/HuntersRidge) that will significantly strain our clean water availability and the Traffic will be horrendous. We do not need or want apartments!

As a Realtor, I understand the owners from St Augustines have rights but not for apartments. Please do not approve this! If they want to use the land for a strip mall/businesses that makes a little more sense as long as it's not on wetlands and a much smaller footprint. Along the river there should be protected.. Our property taxes just went up and now developers want to also take away our quality of life and create guaranteed dangerous driving for all of us including the prospective tenants. Leave the apartments west of 95. I'm on our HOA board and neighbors are seriously discussing moving as a result of the apartment buildings. Look at Port Orange as an example and trust your gut and please vote no.

Thank you,

Hello Mr. Spraker,
I am writing in regards to the proposed apartments off 40 and Tymber creek road. I am resident of Tymber Creek and find the traffic Already horrible. I cannot fathom what this road will look like when more apartments go in. Sometimes (no kidding) it has taken me 15 minutes just to go 2 miles during school hours. I would like to voice my concern and ask that this complex be axed. I feel like I have been hearing about these apartments for years now?
Thanks for listening,

Michael,
Thank you for passing along the information and keeping the group input/feedback/responses regarding Indian Springs HOA and more specifically a few of our Indian Springs Property Owners who will be adjacent to the development.

Garrison/Harry/Mark,
Thank you for your gracious efforts in incorporating the Indian Springs HOA's input/requests into this iteration of your site/development(s) plans.

The main focus and open item for me is the traffic impact to the current HWY 40 layout just west of the ingress/egress of your development, and more specifically the lack of turn lanes into our development (Indian Springs) as well as the Coquina Presbyterian Church (just west of your property and the Jaffee parcel on HWY 40) and Il Villaggio (just west of Indian Springs). I will continue to highlight this flaw in the current HWY 40 layout, that will become dangerously/fatally more evident with the traffic impacts of you parcel's requested use at a significantly higher density than zoned/planned. Walgreens has a turn lane (as will you in conjunction with the ingress into your parcel). Breakaway Trails has a turn lane and so does Hunter's Ridge. If having turn lane to ingress into the Tymber Creek Apartments is important and vital to traffic flow into the apartments, then the same should apply for mitigating egress traffic from a significantly higher density use than zoned/planned. Yes it has been mentioned that a longer turn lane(s) (for U turns) will very likely be part of the upgrades to HWY 40, but the weaving drivers and traffic congestion of the egress traffic from Tymber Creek Apartments mixed with Traffic Flow coming west on HWY 40 from the light at Tymber Creek Road will result in distracted, speeding, annoyed drivers (at speeds of 50+ mph) significantly more opportune to be stalled in focus of vehicles slowing down to less than 20 mph to exit HWY 40 to ingress into those above mentioned entrances without turn lanes. So my ask is that you are an advocate/good steward/supporter (vocally and financially?) of the City and State making these suggested improvements (turn lanes into those above mentioned entrances without turn lanes). Please know that Indian Springs did have a turn lane in the past, however traffic into our development and more importantly traffic on HWY 40 has significantly increased.

Steve (Spraker),
The previous paragraph is something that I would like to discuss with you further when the opportunity presents itself in the very near future. I also would like for it to be part of the note(s) reviewed by the Planning Board/Commission/Other Reviewers.

All,
Please do not hesitate to call me on my cellphone (321-663-7301) to discuss further. More later…

Garrison,

I agree that you and your team have delivered a plan concept that we all hope mitigates the concerns neighbors voiced in August. By staking the buildings and road, a proof of concept will be established.

It is my individual opinion that you have exhibited a best practice approach to interfacing with my little piece of the community impacted by your apartment development. You traveled to meet with us on our turf and walked the site with us. You and your team have proposed potential solutions to most of our concerns that on-site staking and observation could validate.

My family and I bought our house in order to spend most of our time outside surrounded by an idyllic Florida tropical forest. Any development will alter that. I sincerely appreciate your efforts to reduce the negative impact on Indian Springs. I also recognize that you will undoubtedly incur incremental costs in order to implement the revisions proposed to the original site plan. To date, my wife and I acknowledge and appreciate your willingness to work with us.

Best regards,

Gary

> Harry – do we have a schedule for the field work contemplated for the surveyor? I'm happy to try and mark that wall contemplated in the site plan in addition to the bldg. corners.
> Gary – I'm not sure that balloons would give you a good representation of the height of the building elevations or not. You would have to do so on a VERY still day with no wind pollution to get the desired outcome. Let us get the staking down in the field first and discuss via an online meeting. Please keep in mind that the existing natural buffer (between the contemplated screening wall and the property line) almost all of that existing vegetation will stay and not be disturbed. We will in addition to what is already there add more rather mature (10-12 foot) EVERGREEN trees that grow upwards of 70ft to additionally screen beyond the existing vegetation that is inside that vegetation buffer. I think you will find that in no time the apartment elevations are going to be totally screened. We also have pivoted the bldgs to adjust the line of sight from the balconies with this revised site plan & added the full fence enclosure of the apartments to make sure that no trespassing is easily contemplated between the apartment tract and the Indian Springs neighborhood without scaling a fence. I hope you can see that our efforts are doing our very best to address your concerns.
> Kind Regards,

> Mark,
> I agree with Michael Gentry's email to you on September 19 regarding the latest site plan for the Tymber Creek Apartment development. Unfortunately, I didn't submit my comments to Michael regarding the site plan until the afternoon of September 19. The purpose of this email is to convey my site plan comments and requests, which I believe are consistent with Michael's.
> First, thank you, Garrison and Harry for meeting with us on August 15 at the development site and my backyard. All three of you listened to our issues and concerns and have now proposed revisions to your site plan that appear to be consistent with what we discussed. As Garrison noted in his August 18 letter to me, staking Buildings 8 and 9 will allow us "to know exactly what we are dealing with from a buffer perspective."
> Regarding the staking, I also ask that balloons or some other form of staking be used to show the actual elevation of Buildings 8 and 9. In addition, the close proximity of the Apartment road to our pool house and outdoor swimming pool, may pose significant headlight and noise (motorcycle) intrusion on us and our neighbors. Therefore, I also request that you stake the west side of the Apartment road/wall that runs parallel with Indian Springs Drive and Circle. I also wonder if the construction and materials of the proposed wall have noise reduction qualities.
> Thank you once again for listening to us and making what I hope will prove to be a significant reduction in our buffer and privacy intrusion concerns. I very much look forward to discussing the revised site plan once the above staking has been completed.
> Best regards,
> Gary Von Glinow

August 17, 2022

Mr. Spraker,

First, I would like to thank you for your service to our community and your consideration of this letter. I know it takes time and responsibility in achieving your goals for our community.

Secondly, I am writing this letter regarding the projected Tymber Creek Apartment complex to be located next to and behind the Walgreens on the corner of Granada Blvd and Tymber Creek Rd. I believe that this development will have a significant negative impact on the community that I and my family have lived in for over 40 years. Many of our local residents, including myself, attended the meeting at Coquina Church in June regarding this proposed complex. This development in its location and size will make our community much less safe and the traffic volume and traffic pattern will make this area dangerous, especially for school and public transportation as it was discussed at the meeting. As a result, this will make our Ormond Beach area much less desirable.

There is a saying: "**Less is More**" Regarding this development and location, I believe, **less** development results in **more** safety, **more** beauty, and a **more** eco-friendly environment. In my opinion, negating or significantly limiting this development would be the **more** responsible decision.

Please consider this when voting on the advancement of this development. Again, I would like to thank you for your time, your service and your consideration.

Sincerely,

Dr. Roxy Marrese Jr., M.D.
6 Moss Point Drive
Ormond Beach, FL 32174

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Mr. Spraker,

My wife and I live in the Moss Point Subdivision. I attended the June meeting at the Coquina Church pertaining to the projected Tymber Creek apartment development. There are several items that were discussed at the meeting that are concerning, not the least of which is the impact to the existing residents in the area of the planned development. Most of the people have significant investments in their properties and enjoy the lifestyle we have become accustomed to over the years, which made Ormond Beach the place we decided to live and raise our families.

Another concern is the desire of the developer to increase the overall size of the project. Allowing an increased size will negatively impact the density of our area and worsen the existing traffic problems on Route 40 and Tymber Creek Road. Currently trying to make a left turn from Tymber Creek Road on to route 40 takes several traffic lights due to the back-up of traffic already existing on route 40 going east. The delays will only get worse due to the residents wanting to exit the apartment complex and go east into Ormond Beach. To do this they must attempt to cross two lanes of west bound traffic on route 40 and then attempt to make a U-turn into east bound traffic. The likely hood of accidents, injuries or worse and further back-ups is heightened.

Another person at the meeting asked the developer if they are going to manage the complex after the project is completed and for how long. The response was they would build it, manage it, and in a year sell it. That attitude does not bode well for our community. This project appears to be nothing more than a money-making proposition for the developer and a detriment to the citizens and the city of Ormond Beach.

My wife and I hope the planning board and commissioners will seriously consider studying existing options in the codes that mitigate the impact to the subdivisions that will be negatively impacted by this development. We are all caring residents of Ormond Beach and are concerned about the future of our properties, the lifestyle we have all come to love and the wellbeing of our city.

Thank you for the opportunity to express some of the concerns that we have about the proposed development.

James and Sylvia Barocas
16 Moss Point Drive

Subject: Tymber Creek Apartments

Dear Steven and David,

First and importantly, thank you for the time you spent meeting with Steve Curtis, Michael Gentry and me at the north cul de sac of the Indian Springs subdivision. Both of you listened very attentively to our comments and concerns and then viewed the developer's property from our backyard and property line.

From a sight line and privacy perspective, my house at 39 Indian Springs Drive is, by far, the most directly impacted, in any subdivision, bordering the proposed apartment development.

Steven, you met with my wife and I several times in your office when the Jaffe Corporation proposed development of the Tymber Creek property. Our questions and potential concerns at that time remain the same regarding the impact on our property, since the current proposal appears identical to the Jaffe proposal regarding location and configuration of the proposed apartment buildings.

The purpose of this letter is to provide some information about my wife and I, and how we came to buy 39 Indian Springs Drive, to express general support for the use of the land behind us, and to list questions, concerns, and immediate requests regarding certain features of the proposed development.

Relevant Background

My wife and I are retired. We will celebrate our 40th wedding anniversary later this year.

For many years, we spent our vacations in or around the Cocoa Beach area. In January 2017, we started our search for a VRBO rental and found everything was booked and, at the last minute, a house on Halifax Avenue in Ormond Beach had a cancellation, and we rented it for 2 months. We had never heard of Ormond Beach.

We fell in love with everything about Ormond Beach. When our lease expired, we rented a condo on the river, began our search for a permanent home, and bought 39 Indian Springs Drive on 6/30/17. We moved in with no furniture...nothing. Later in the year, we sold our house in Lake Forest, IL and physically moved our household. Like many others, our only regret is that we didn't find Ormond Beach sooner.

We have two grown daughters, both are married, both own businesses with their husbands that allow them to work at home, and both have 2 children under the age of 4. One lives in Chicago, and the other in Brooklyn.

We bought 39 Indian Springs Drive specifically because it was configured to easily house our daughters and their families for weeks at a time. As parents and grandparents, we wanted to entice them and our grandchildren to visit often. Last month, both girls and their families spent nearly two weeks with us and one family is returning on August 22nd for a weeks' stay.

Our House

The developer's plans show the corner of our main house, but not the pool and enclosure immediately behind our main house, nor the pool house immediately behind our pool enclosure. Our pool house is the closest structure to our property line and, therefore, closest to the proposed apartment buildings. I have mentioned correcting the misleading depiction of our structures on the developer's plans to both developers or their agents, with no response.

The builder of several homes in Indian Springs, built our house for himself and his family in 2008. They lived here for many years. Naturally, he positioned the house on its property and designed the rear of the house, pool, and pool house to have optimal views of the forest and vegetation now occupying the developer's land behind us. For example, our master bedroom is located at the rear of our house, with sliding doors to the lanai and pool, and a 9' x 7.5' single pane window that faces the developer's property and is the closest portion of our main house to the developer's property.

The Proposed Development

While we had been told by our realtor that the forested land behind us "could never be built on," we also agree that ignorance is no excuse for objecting to the proposed development. In fact, we support the land use for this development and the proposed number of rental units. And, we think the illustration of the proposed buildings are attractive.

Compatibility Concerns and Requests

First, I have no experience in contracting to build a structure of any kind. I don't know how to read the plans that the developer is required to provide us. On the other hand, I challenge any experienced builder, or even a registered surveyor, to use the plans provided to us and, without a GPS or other CAD/CAM aid, to walk out into the forested land to be developed and stake the corners of Buildings 8 and 9.

A. Privacy - We want the impact on our privacy (sight lines, sound, etc.) to be mitigated. The specifics of that mitigation request can be provided only once the following actions are completed:

1. The location of building 8 and 9 are staked with materials that are visible from our property line. The stakes should show buildings directly behind the entire width of our property line.
2. Poles or other identifying objects are positioned to show the height of the 2nd and 3rd floor balconies directly behind the entire width of our property line. Please note: the land on which Buildings 8 and 9 are to be built is significantly higher than our property.
3. New, bright-colored ribbons are placed and visible on all trees that will be removed behind the entire width of our property line. Ribbons originally placed years ago by the Jaffe Corporation have faded or are not visible today.
4. Landscaping - Steven, you mentioned that a landscape designer employed by the city could meet with us to examine and assess current and planned vegetation. I would appreciate it if you would provide me the name and contact information for this landscape designer, or alternately provide my contact information to that person. Landscaping mitigation is particularly crucial to us since much of the current vegetation on the developer's land between our property line and the approximate location of Buildings 8 and 9 is quite short (a few feet high) compared to other areas of the developer's land.
5. Stakes or other objects are placed such that can be seen from our property line along the apartment road beginning prior to the curve around the corner of Building 9 and continuing for the width of our property line. In addition to sound intrusions, we are interested in assessing the impact of vehicle headlights on our property.
6. Parking - Stakes or other objects are placed on all parking spaces, planned and approved (including those not being built by this developer) that face our property line.
7. Configuration of Buildings - The current developer purchased the land and decided to propose the same configuration of buildings as the Jaffe Corporation. I ask that the developer consider positioning Building 8 in a manner that would significantly reduce its undesirable intrusion on our privacy.
8. Urgency - We requested most of the above in person with an employee of the Jaffe Corporation. On June 8, 2022, I made a similar request (primarily focused on 1 and 2 above to an agent of the current developer. My concern is that any delays by the developer in fulfilling our request might prevent us or anyone else from intelligently and thoroughly assessing the impact of this development on the community and its residents and

making that assessment and related mitigation requests known to the developer and those officials who are responsible for reviewing and approving/revising the developer's proposal. In other words, delay or non-compliance with our requests helps the developer and harms impacted Ormond Beach residents. And worse, may prevent approving authorities and commissions from making fully informed decisions.

9. Photoshop technology exists and is available to the developer and, perhaps the City's landscape designer, to provide us with a best effort picture of the impact of the proposed development with and without mitigation. As the owner of the house that is significantly impacted by privacy concerns resulting from the developer's current proposal, I request this support to be provided to us well in advance of any official meeting to review or approve the developer's proposal.

B. Security and Sound - While we view 600+ tenants in 300 units as validation of our decision to decide to live west of Interstate 95, common sense also suggests that density increases the need for increased security. Indian Springs homeowners have suffered break-ins and burglaries in the past. The HOA took steps to increase our security by causing our subdivision to be gated 24/7. The developer's land has provided a natural barrier on our East side.

The construction of a wall or other barrier between the proposed apartment buildings and Indian Springs would strengthen security for all homeowners and tenants and could also provide a sound buffer. My wife and I strongly endorse and support the requests of Steve Curtis and Michael Gentry regarding the need for an effective wall barrier.

C. Traffic Safety - It appears to me that the current developer purchased the land and is proceeding with basically the building plan as was proposed by the Jaffe Corporation. On June 8, 2022 at the meeting at the Coquina Church, I was shocked to learn that the only significant change to the Jaffe plan was to eliminate access to the apartments by tenants from Tymber Creek Road and to require all ingress and egress of tenants to occur west of the Walgreens access on Granada.

I do not understand the reason or benefit of this change or what problem it is attempting to solve. As a reasonable person, causing some large portion of 600+ cars from the apartments to join 100+ parents delivering their children to the Little Blessings School, and hundreds of other parents delivering their children to River Bend Academy within a few hundred linear feet while semi-trucks and other vehicles are joining this same linear space at high speed on Granada through the Tymber Creek intersection is a recipe for disaster. Obviously, FDOT has the expertise to evaluate this and if they approve this without some serious changes to the roadway, I must accept their decision.

What I am requesting now is a written or oral presentation by the developer that describes the reasons and rationale for this dramatic change to the Jaffe proposal.

As I look over the length of the above, one could conclude that my wife and I are strongly opposed to this development. That conclusion would be wrong.

We are generally supportive of growth and development west of I95, and we are specifically in favor of the 300 unit apartment complex that is proposed. Once our requests are met in A and B above, I expect that reasonable mitigation requests arising from a more transparent assessment of the developer's proposal can be agreed upon by all parties.

Finally, I have found this process very frustrating and ineffective due to communication requirements to which developers must comply. A sheet slightly larger than 8.5” x 11”, depicting the location of proposed buildings on forested land covering multiple acres, is not very informative or user friendly for a typical resident. In this situation, knowledge and information equates to power. The information requirements placed on a developer seem to tilt the power equation strongly in favor of the developer. The resident is left largely in the dark, in my opinion. Most of my requests above are my attempt to achieve transparency, a balance of power, and shared facts and information as a basis for reaching agreement on reasonable mitigation solutions.
****

Steven please forward this to whomever you feel is appropriate. I apologize for the length of this note, but felt it was necessary to err on wordiness for those that have never been to our house.

Best regards,

Gary C. Von Glinow

Subject: Tymber Creek Apartment Complex Proposal

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Mr. Spraker,
Upon review of the latest submittal of the Tymber Creek Apartment complex, I was surprised and disappointed. I attended the Neighborhood meeting at Coquina Church in early June which crystalized the concept of the project. Most of the comments were concerning traffic, safety, security, aesthetics of the area and the footprint of the Complex. After the meeting I spoke with both Marc Watts, Attorney for the developer and Garrison McMillan, the developer. I expressed safety concerns with the property being within a few feet of two homes in our development and my desire for a non-penetrable wall, preferably some type of block, brick at least 8' tall. I also invited Garrison to come walk through our development and see firsthand the next time he was in town. It may be he has not been back to Ormond Beach since the meeting, but I have not heard from him or any member of his team. While I felt he understood my concerns about separation and he indicated he would talk to his team about a fortified wall, the concept of a 6' vinyl white fence is egregious to me and erodes any confidence in addressing other concerns voiced by residents during the meeting.
It is interesting the desire to be "good neighbors" was mentioned multiple times. Yet, when Mr. McMillan was asked his company's intentions, he replied they intend to build it, get it leased, operate it for one year and sell it. This leads me to conclude being a good neighbor only applies to getting approval in a manner which is beneficial for Tellus Partners to sell for an acceptable profit and leave the balance of the "good neighbors" to deal with traffic, safety, security and aesthetics beyond a couple of years.
At this point after reviewing the plans, I feel at a minimum the developer should construct a wall of block or brick at least eight foot high on top of the retention wall they show in the schematic around the property and in all other areas along the property line as required to provide an adequate barrier. This would at least provide a level of separation and security from Indian Springs and the Little Blessings School and Coquina Church which also is adjacent to the property. Additionally, I would require the Developer to reposition Building Nine and arrange the balconies to the woods rather than the homes in Indian Springs and the Little Blessings School.
While I recognize the rights of the developers to build what is allowed within regulations and codes, they should not be entitled to ignore what may be more expensive, inconvenient and a significant change in the surrounding neighborhoods.
I thank you for the opportunity to submit my primary concerns and suggestions on this project.
Sincerely,
Michael Gentry

[External Email-Use Caution] - OB/IT Helpdesk

Hello Mayor Partington

Regarding the pending Tymber Creek Apartments project, please do not approve the developer's request for an increase from 10 units to 18 units per acre. The absolutely ridiculous and extremely dangerous traffic pattern the developer has planned for the approximately 500 - 600 cars exiting the apartments, going west on 40 and making a U-turn to come back east, combining that with the heavy traffic issues we presently have is a disaster waiting to happen. Our neighborhoods west of 95 are made up of single family homes. A three story, 300 unit apartment building is not compatible with the area. Please vote nay and represent the citizens of Ormond Beach rather than an out-of-town developer who could care less about the residents living here or the mess he will leave after cramming as many units and people and cars he can into a piece of property smack dab in the middle of our community. Thank you.

> Hi Bill,
>
> I've met your dad a few times at RCOBA lunches. Nice man!
>
> We need your help going to bat for Ormond Beach residents please. Apartments are just not what we expected when we bought here west of 95. I understand the investor has the right to use it as commercial including multi family apts. But I really urge our city council to stay strong on the 10 units per acres vs the 18 they want. I think people assumed by commercial that it would be restaurants or stores that would bring convenience to our residents like the strip mall by 7-11. Hopefully they listen to your input.
>
> Cobb Cole presented the increase to 18 units per acre like it was a done deal and only when I questioned did he explain that it has not been approved yet. The city doesn't owe special preference to this out of town guy. If he bought it with 10 per acre, that's what it needs to stay at. There's no logical advantage to Ormond Beach residents to increase it. We can't make this change just to bring in more tax money. The long time residents of upscale communities deserve better consideration.
>
> Also can you find out what other properties in Ormond are at risk for apartment development so residents can be more proactive in requesting zoning changes?
>
> It doesn't seem that small town Ormond can take an uptick in density and keep Ormond as the pleasant area that it is. The expansion needs to move west rather than more density where we're already established. Our infrastructure can't take it.
>
> Not looking forward to the Regal turning into apartments either. You can hardly turn out of Publix during rush hour without significant backup on Williams. I think the consensus tonight was that the apartments being built on Clyde Morris

and Williamson makes more sense because we already think of that as commercial. It's east of 95 and it was always a known that it would be developed by commercial. The preference is always condos or townhomes over apartments.

[External Email-Use Caution] - OB/IT Helpdesk

Please protect neighboring communities west of I-95 and deny the Jaffe Corporation's proposed plan to build a three story, ten building, 300

unit apartment complex on Tymber Creek Road at the busy intersection with State Road 40. The City Commission considering such a large,

incompatible project in a wonderful long-established community of single family homes is questionable at best. The resulting

over-development will negatively impact traffic, the environment, water/sewer use, stormwater runoff into the Tomoka River, and compatibility

with neighboring properties adjacent to the proposed "best use of property luxury apartments" which will be exponentially worse than the

Marshside application that the city commission rejected for the same potential impacts on a much lesser scale. Thank you for denying this

proposed project.

[External Email-Use Caution] - OB/IT Helpdesk

Live in Tymber subdivision on Tymber Creek Road 0.5 miles from Granada and Tymber Creek Road intersection.

Mr Spraker,

I am speaking about the planned apartment building behind Wal HGreens on Tymber Creek. The planning board, in my opinion, has gone nuts with allowing unbridled growth plans all over Ormond Beach. Obviously, and sadly, palms are getting greased. Guess this must be remedied at the voting booth. I am against this apartment complex build.

Sincerely,

Darla Wickham

[External Email-Use Caution] - OB/IT Helpdesk

I can’t even imagine the city thinking about allowing a 300 multi family apartment complex on the corner of timber Creek and West Granada when we all know what’s going to happen two blocks down to the west with Avalon Park. What are we thinking? Granada Boulevard will become a parking lot ! Does anybody care about the quality of life in Ormond Beach anymore? I hope it comes under considerable scrutiny. Betty Lou Geis.

[External Email-Use Caution] - OB/IT Helpdesk

Mr. Spraker

I ask that you do not approve the proposal for apartments at the corner of Tymber Creek Rd and Granada. The area is already overbuilt and this will do nothing to help the situation. There is no housing shortage in Ormond, but there is now an overabundance of traffic. Adding 296 apartments will likely result in an additional 500 cars on the road in this area. From the stoplight on that corner (Tymber Creek / Granada) to the east end of Granada (Rte 1) is 7 miles and there are already 17 traffic lights! That's right, 17 traffic lights! Enough is enough. It's time to come to grips with the overbuilding in Ormond and this would be a great start.

Thank you
Ron and Karen Iseman

Hi Susan,

Our internet is out so the best we could do is take screenshots of the text of the petition and the current number of signers. Note, as of 3:30 pm on 1/26/2023 there were 2,333 signers.

It seems people are still signing, as at least two did within the last hour.

Again — here is the link, if you could provide this in the packet, as well, so interested parties can pull up the petition itself to review the details. It's all public.

Petition details Comments Updates

TYMBER CREEK APARTMENTS

2,333 have signed. Let's get to 2,500!

Julie Sipes started this petition to The Mayor and City Commission of Ormond Beach

We have major concerns about the impact of the proposed high-density Tymber Creek Apartments located at the northwest of the intersection of West Granada Boulevard and Tymber Creek Road.

This development is not compatible with adjacent established residential areas of single-family homes and will negatively impact these property owners to the north, east, and west.

We are also concerned about the traffic from such a high-density development.

We request that the density be downsized and only single-family homes be permitted.

Furthermore, we request that Low-Impact Development principles be used, rather than wholesale clear-cutting of trees and large retention ponds. We believe it is important to preserve the natural beauty of the land.

Planning Board minutes from December 8, 2022

ITEM:

PBD 2022-008(A) – Zoning Map amendment, Tymber Creek Apartments, 2011 West Granada Boulevard and 36 North Tymber Creek Road

IV. NOTICE REGARDING ADJOURNMENT

NEW ITEMS WILL NOT BE HEARD BY THE PLANNING BOARD AFTER 9:00 PM UNLESS AUTHORIZED BY A MAJORITY VOTE OF THE BOARD MEMBERS PRESENT. ITEMS WHICH HAVE NOT BEEN HEARD BEFORE 9:00 PM MAY BE CONTINUED TO THE FOLLOWING THURSDAY OR TO THE NEXT REGULAR MEETING, AS DETERMINED BY AFFIRMATIVE VOTE OF THE MAJORITY OF THE BOARD MEMBERS PRESENT (PER PLANNING BOARD RULES OF PROCEDURE, SECTION 2.7).

V. PLANNING DIRECTOR'S REPORT

There was no Planning Director's report.

VI. PUBLIC HEARINGS

A. PBD 2022-008(A) – Zoning Map amendment, Tymber Creek Apartments, 2011 West Granada Boulevard and 36 North Tymber Creek Road

Mr. Steven Spraker, Planning Director, explained the applications for Items A and B submitted by Nika K. Hosseini, Esquire Cobb Cole Attorneys at Law, for:
(1) The zoning map amendment from Volusia County, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial to Planned Business Development (PBD). The subject property is approximately 19.62 acres and is located at 2011 West Granada Boulevard and 36 North Tymber Creek Road. Mr. Spraker stated that Moss Pointe is to the north of the property and to the west of the property is Indian Springs and Coquina Presbyterian Church. To the south of it is a commercial vacant parcel of 9.93 acres, and then Walgreens and their stormwater are located to the east and the south of the Volusia County stormwater pond at 40 N. Tymber Creek. He concluded that to the east of the property are single-family properties and vacant Commercial.

Mr. Spraker explained the land use and zoning process for properties. The B-8 zoning district allows a variety of commercial land uses such as retail, office, medical office, restaurants with and without drive-through windows, shopping centers and multi-family.

(2) Regarding the issuance of a development order, it was explained that the Tymber Creek Apartments Planned Business Development (PBD) seeks to allow the construction of 300 multi-family residential units and associated site improvements on 19.62 acres. Mr. Spraker detailed the application in a PowerPoint presentation.

Mr. Spraker further explained the development order process for the density of the project which starts with the Site Plan Review Committee (SPRC), and added that the neighborhood meeting for it was held on June 8, 2022. He expressed that tonight the Planning Board hears the testimony from staff, the applicants and audience members, and added that as with all agenda items, Planning Board can approve it, approve it with conditions, or deny it, and either way it will still go to City Commission on January 24, 2023, for the tentative first reading and February 7, 2023, for the second reading. Mr. Spraker explained the three thresholds where the Land Development Code (LDC) is set up so that if going over a threshold, a public hearing is required to be held. The SPRC can only approve up to 10 units per acre, and over that up to 32 has to go through the public hearing process. He continued that the density is the first threshold, the building height over 30 feet is the second threshold,

and the building length of building #10 is the third threshold trigger. The land use allows up to 471 units, the zoning allows 164 units, therefore it requires the public hearing authorization. Mr. Spraker stated that the request is for 18.29 units per acre in which does not include the Recreation/Open Space. The second threshold, the building height, allows up to 15 feet above what the zoning district allows. The last threshold explained was that the LDC states that you cannot have a multi-family building greater than 180 feet in length without obtaining a Planned Business Development. All of the other buildings are less than that, other than building #10 which is at 249 feet in length.

Mr. Spraker reviewed the traffic concerns. The access off of Tymber Creek Road was pulled. An updated traffic analysis was done in August 2022. An independent traffic reviewer was hired that said that it met the concurrency standards. Mr. Spraker reviewed the tree preservation with 7 historic trees on site that have been preserved. Fifteen (15) percent of the site is required to be saved, or 2.94 acres, and the project has preserved 25.4 percent at approximately 4.99 acres. The landscape buffers to the north and west have been exceeded over the required 20 feet. There are 2.4 acres of wetlands on site and the project has impacted under 6 percent of it. Mr. Spraker reviewed the fences and walls for the project with decorative aluminum-railing fence, PVC-vinyl fencing and masonry walls. In one of the meetings there was a comment about the balcony on building #8 overlooking into Indian Springs, therefore they rotated that building and reduced the overall building height and provided additional landscaping to shield the project.

Mr. Spraker reviewed the public benefits in the natural preservation, landscape buffers, additional plantings, restriction of access onto Tymber Creek Road and the directional turning of building #8.

Mr. Spraker reviewed the correspondence received on the project consisting of traffic, the project being an incompatible use, density concerns, project over-development, site design issues and the negative impacts on the quality of life in the west Ormond area. Mr. Spraker stated that with the elimination of building #8, staff recommends approval.

Chairman Thomas opened it up to the Board for discussion and questions.

Board questions

Ms. Shull asked for details of what would happen if the PBD was denied. Mr. Spraker replied that 36 N. Tymber Creek Road has a Volusia County zoning, therefore the land use was changed but the zoning was not changed after annexation due to the project going for a Planned Development. If the PBD is denied, it has to be assigned city-zoning by state law. He continued that within the "Residential Office Retail" land use, there are certain zoning categories that would be appropriate such as the B-1, B-9 and B-10 zoning districts which allow 10 units per acre. The "Open Space Conservation" land use designation would go to a Special Environmental zoning.

Mr. Scudiero asked for further information about the land use maximums. Mr. Spraker explained that they would not be able to meet the land use maximum and would have to ask for exceptions to height and parking and a five or six-story building would not be approved there. The height would determine the land use maximum. Mr. Spraker continued that the B-8 is a General Commercial zoning district which allows other uses by right that could go up to 430,000 square feet of commercial uses.

Mr. Galloway asked for additional explanation on the land area calculation. Mr. Spraker replied that the entire property is 19.62 acres, with the breakdown calculation at 3.20 acres of "Open Space/Conservation", 3.20 acres of "Residential/Office Retail" and the remainder at 13.22 acres of "General Commercial".

Mr. Jorczak inquired if the city has the ability to alter the zoning to Suburban Low-Density if the application is denied. Mr. Spraker answered that the application has to be consistent with the "Residential/Office Retail" land use designation and the compatible zoning designations are B-1, B-9 and B-10.

Chairman Thomas asked Mr. Spraker to explain what can go in the B-8 zoning districts. Mr. Spraker replied that the B-8 zoning district allows retail sales, shopping centers, office/retail, hair salons, and both dine-in restaurants and drive-through restaurants.

Applicant's presentation

Mr. Mark Watts, Esq., Cobb Cole Attorneys at Law, 231 N. Woodland Blvd., DeLand, explained the proposed project, stating that it has a lot of history alongside the owner of the property, Mr. Garrison McMillan, Tellus Partners, to sort through the issues of concern. Mr. Watts reviewed the proposal in a presentation and explained how on the northern piece of the property 6.40 acres was annexed in 2020 but ever assigned city-zoning and the southern piece, 13.22 acres is zoned B-8. He explained the overall proposed plan and benefits to the public including doubling the preservation area to name one. Mr. Watts reiterated the restriction on the access points with the Tymber Creek connection restriction with the Planned Business Development (PBD) so that there is not exit traffic where the right-in and right-out traffic is with Department of Transportation (DOT) approval. The proposed setbacks, buffers, and environmental considerations were detailed with 0.14 acres of impact to the 2.40 acres of existing wetlands and 7 out of 7 historic trees being preserved. Mr. Watts reviewed the parks and amenities for the proposed project.

Mr. Watts described the high level of architectural detail and redesign of the buildings to lower overall roof height from 45 feet to 39.3 feet. The applicant addressed the concerns of the line of sight of the original building design from the adjacent neighborhood, and have since redesigned to reduce the pitch of the roof and building height. Mr. Watts referenced the concern with building #8 in relativity to the proximity to the closest house to that and how a retaining wall was designed in the plan to keep it up at a certain elevation with multiple layers of screening for both buildings 8 and 9, including a landscape buffer, masonry screening wall and cedar trees along the property boundary. Mr. Watts explained how the applicants have met most of staffs' and residents' concerns where possible as well as met the traffic standards. The attempt to address the State Road 40 access concerns and a U-turn or signal strategy at the church was unsuccessful, but the proposed configuration in the staff report and Board packet was permitted through DOT.

Mr. Watts referenced staff's recommendation to remove building #8 in which the applicant agrees to do so and reduce density for the site. He added that a building farther to the east would then be the 30-unit standard, updating the overall count to 276.

Mr. Galloway asked for clarification of the height of the retaining wall and screening wall specifics. Mr. Watts stated that it was 6 feet with a 6-foot masonry screening wall, for a total of 12 to 14 feet from the existing grade for the screening and retaining

wall. The concept for the masonry screening wall, vinyl and aluminum fencing was further detailed.

Chairman Thomas opened it up to the Board for discussion where questions were answered by the Planning Director. The Avalon project was discussed and referenced in comparison with this proposal.

Chairman Thomas opened the public hearing for audience comments.

Audience Comments

Mr. Troy Railsback, 27 Indian Springs Drive, explained that he and his wife are part of the Indian Springs Homeowners' Association (HOA), which is adjacent to the northwest portion of the proposed development. He added that he is the HOA President and submitted a letter on behalf of the HOA to the Planning Board as part of the submittal packet explaining the concerns with the proposed project. Mr. Railsback asked how many apartment complexes are west of Interstate 95 in Ormond Beach. He also asked the percentage increase in density from the current City of Ormond Beach zoning to what is being proposed. He asked if the planning and development rezoning request in the overall proposed layout is solely based off highest and best used metrics for maximum development and density for this type of use on the proposed subject property.

Mr. Railsback commented that working with city staff and the developer through multiple meetings, it was identified that both buildings 8 and 9 have a severe and significant, lasting impact to the community and are not conforming to the current B-8 zoning descriptions. He added that the site layout of the buildings being close to the property lines have an overwhelming and nonconforming lasting impact to the community as proposed with the current zoning calling for natural buffering between the adjacent parcels, and added that if the current zoning and density applied, that there would be plenty of opportunity to accomplish such. He inquired what is at stake and asks what is being contemplated. Mr. Railsback stated that it is a use that is evolving within the overall area and the west side of the Interstate 95 area of Ormond Beach as well as the multi-family apartments being considered at a significantly higher density than established in the current city zoning. Mr. Railsback requested that the Planning Board and City Commission carefully set lasting and management precedent in expectations for this type of development in their decision-making process for this submittal as well as future submittals. Mr. Railsback stated that he has a significant vested interest in his home and neighborhood and feels that the Planning Board should recommend the elimination of both buildings 8 and 9 as they tower over Indian Springs just as the Granada Bridge does just outside the City Commissions home here at 22 S. Beach Street. He concluded that building 9 will be the most significantly visible building to the community of Indian Springs.

Dr. Richard Weiss, 12 Moss Point Drive, spoke to the request of expanding the Tymber Creek Apartment project from 10 units per acre to 18 units per acre, allowing for an 80 percent increase in the population density and allowing for a similar increase in the total number of residents. He continued that the land was zoned for 10 units per acre and building more would require an exception to the current zoning and will result in a major impact on the residents of the area. Dr. Weiss explained his objections beginning with what he says he has seen with the emergency rooms filled, at times unavailable hospital beds, and less access to physicians in a timely manner and the difficulty and inconvenience of that, resulting in what he calls 'life-threatening'. Dr. Weiss expressed importance on making sure that growth and the

population is accompanied by growth in the medical community as well. He pleaded to the Board not to increase the number of residents in the area without an adequate infrastructure as it is not safe. Dr. Weiss commented that most of the residents moved to the area to live in a small community to avoid the high population densities of the larger cities. He added that bringing in large number of new residents in Ormond Beach will undermine that and is supported primarily by the few who will make profit and generally opposed by the vast majority who want to live in a more open space.

Dr. Weiss added that the animals cannot speak for themselves although gifting us with their presence. He commented that he does not see deer, turkey, turtles and the myriad of other species in the large cities and urges to avoid allowing it to become their legacy. He remarked that the argument that the additional units, residents and traffic will not impact the citizens of Ormond Beach is naïve and misleading and stated that the additional automobiles, owners and renters will have unlimited consequences for the residents and spoke on the beach, roads and house erosions during storms. Dr. Weiss concluded that growth needs to be managed responsibly.

Mr. Mike Lambert, 20 Moss Point Drive, stated he has lived on Moss Pointe Drive for thirty-two years and has lived in the community of Ormond Beach his whole life, expressing to the Board that he did want them to grant the amendment. He spoke on the growth and changes over the years in the city and on the beach. In high school he was a lifeguard and surfer when he says at that time suntan oil was made locally in a bathtub and people were encouraged to go out in the sun for looks and health. Mr. Lambert exhibited his tenth nose skin cancer surgery from heeding and accepting the advice given. Mr. Lambert spoke on the Planning Boards positions and noted that their time on it is temporary although their decisions are permanent, adding his hopes for them making the right decisions. He added that the community's quality of life in the area of Moss Point, Indian Creek and Tymber Creek would change with the proposed development. Mr. Lambert stated that the traffic on Tymber Creek Road is already horrific and does not want the community further altered.

Mr. John Dietz, 10 Moss Point Drive, expressed understanding that something is going be developed on the land and how the developer has the right to build apartments. He added that he wants the developer, Planning Board, City Commission, as well as the neighborhood to be successful, but has concerns with traffic. Mr. Dietz showed the Board a traffic exhibit photograph taken Tuesday, December 6, 2022, at 7:40 a.m. He stated that he was unable to get out of the neighborhood and captured the photographs from the median. He explained that the traffic backs up southbound on Tymber Creek Road to the traffic light, filling up the double-turn lane, backing up traffic back to Breakaway Trails into the Tymber Creek development traffic light. Mr. Dietz relayed information that he heard that a new turn lane will be put on Tymber Creek on the west side to help southbound traffic. He said that drivers are impatient in the morning and speed down past the line and dive into the turn lane, suggesting an accident will occur. Mr. Dietz also mentioned that they have issues with U-turns and asked for a no U-turn sign to be placed at the intersection of Moss Pointe and Tymber Creek. He added that he understands the need for an emergency exit gate and urged to leave it locked unless there is an emergency and asked for the Board not to increase the density per the acreage guidelines.

Ms. Marian Marrese, 6 Moss Point Drive, questioned if the development would improve the welfare of the current citizens or improve the environment. She stated that she has lived in Moss Point for 32 years and commented that the road was

widened due to the people and traffic. She remarked on the numerous apartment units going in on Williamson Boulevard, from Granada Boulevard to LPGA, and how Avalon Park will be going in near Moss Point, and pleaded that the Board look out for the citizens of Ormond Beach. Ms. Marrese expressed concern with increasing the density for the proposed project.

Mr. Gary Von Glinow, 39 Indian Spring Drive, commented that he and his wife are right behind the proposed building #8 and remarked that their house is the most severely impacted by the 300-unit Tymber Creek Apartment project and buildings 8 and 9. He explained additional compatibility issues between the proposed project and Indian Springs. Buildings 8 and 9 are 45 feet tall sitting on ground much higher than Indian Springs. Building #8 looks directly down onto their pool, pool house, lanai and bedroom window. He continued that the trees occupying the land for buildings 8 and 9 and the proposed road in front of them will be removed, offering more unobstructed site lines, sounds, etc. Building #9 faces the north side of their home and can be seen from at least five other houses in Indian Springs. Mr. Von Glinow credited Mr. McMillan and his team for meeting with residents and offering field tests and solutions where possible, including rotating building #8, mitigating the compatibility concerns. Mr. Von Glinow referenced his August 11, 2022 e-mail to staff that was included in the Board staff report and suggested that whatever solutions are proposed to mitigate compatibility be field-tested by the rotation and staked positions of building #8. The field-test observation led Indian Springs residents that were present at the meeting with Mr. Garrison three weeks ago, to conclude that buildings 8 and 9 are not and cannot become compatible with Indian Springs. Mr. Von Glinow expressed his support for the project in general but expressed concern with the capability and other HOA requests in which he supports.

Mr. Michael Gentry, 10 Indian Springs Drive, referenced meetings held with the developer, Mr. Newkirk and city staff and remarked that prior to the meeting today, that he was not aware of everything in the submission proposal. He was not aware that the developer was proposing to rotate building #8. Mr. Gentry stated that if you are on the property area of the woods and walk the area of the buildings, you are able to see two houses today. He asked if citizens have rights to review the staff comments and understand what is being communicated. He referenced meetings that go on regarding the happenings of the proposal and suggested that the item be tabled until there is another neighborhood meeting with the developer, city staff, the attorney and engineer to understand the proposal for final approval.

Mr. Watts addressed the comments that were raised. In summary, he confirmed that upon resubmittal, the changes for the proposed project were included in the report posted on the City of Ormond Beach website and sent to those involved. Mr. Watts referenced the staff report where it outlines goals met by the applicant including keeping pace with demands of the housing element and future land use element to provide multi-family as a component of the growth in the City of Ormond Beach. He commented that college graduates have to have opportunity to come back into the community that they are from by offering diversified housing to be productive citizens of Ormond Beach. Mr. Watts reiterated the benefits and changes that the proposal has gone through and concluded that more intense uses can go in the subject area and asked for support of the application.

Additional Audience Comments

Chairman Thomas opened the public hearing back up for audience comments.

Mr. Troy Railsback, 27 Indian Springs Drive, requested that building #9 be eliminated or shifted as part of the consideration if it does not get eliminated. If building #8 is gone, there is area to shift building #9 to minimize its visual impacts to Indian Springs. He added that when looking through the property lines, at the site line at the end of the cul-de-sac, there are properties that are wide open, that will see the development and that will be as significant as the Granada Bridge is outside of the City Hall Chambers windows.

Mr. Watts replied that they prefer to keep the extra building because density is important for the financial aspects, but are happy to continue meeting with the Indian Springs neighborhood to work on relocating the additional building, the new building #8, and to reduce impacts.

Planning Board discussion

Chairman Thomas opened it up to the Board for discussion.

Mr. Galloway remarked that the State of Florida is growing by at least 1,000 people a day and spoke on his support property rights. He prefers elevator access over stairs but does not have a problem with apartments. Mr. Galloway advised that he will not support the proposal because of the density standpoint at the number of units requested. He warned homeowners to be careful of what could be built on the property based on the current zoning. Mr. Galloway urged to try and work something out with the existing applicant to make it better for all.

Mr. Jorczak recognized the need of diversified housing and touched on the recent recommendation on North U.S. Highway 1 for townhome construction near the Interstate 95 interchange and Plantation Oaks development, and expressed the positive development pattern in comparison to surrounding communities, credit of City Commission, staff and advisory groups. Mr. Jorczak commented on how the developer has gone above and beyond in attempting to mitigate the issues with respect to the borders and visibility issues and zoning setbacks. He added that the builder has the right to develop within the existing parameters of the density. Mr. Jorczak concurred with Mr. Galloway in not being able to support the proposal to increase the allowable density, knowing the growth that is to come out of the area to the west with the Avalon Park development.

Ms. Shull asked what zoning the property would be classified as if denied and what those zoning restrictions would be. Mr. Spraker answered likely the B-1, Professional Office-Hospital zoning district. This would allow for uses such as Office, Retail, Hospital, Multi-Family (10 units per acre), and added that the analysis had not been done as of yet. He remarked that the Planning Board would have the opportunity to discuss and decide on that matter as well. All of the possible zoning categories allow multi-family and retail uses. Mr. Spraker reiterated that there are other more intensive uses that are allowed on the property by right. Ms. Shull expressed her concern with traffic issues, knowing the area well, but does like the project itself.

Mr. Scudiero concurred with the Board and expressed the same concerns.

Chairman Thomas explained that 136 additional units are being asked for, which is among the many reasons, including traffic, of why he cannot support it. Chairman Thomas delivered reassurance that the Board is not against the apartments in general.

Board discussion ensued regarding the two schools in close proximity and a third on its way being the source of the traffic congestion.

Chairman Thomas entertained a motion.

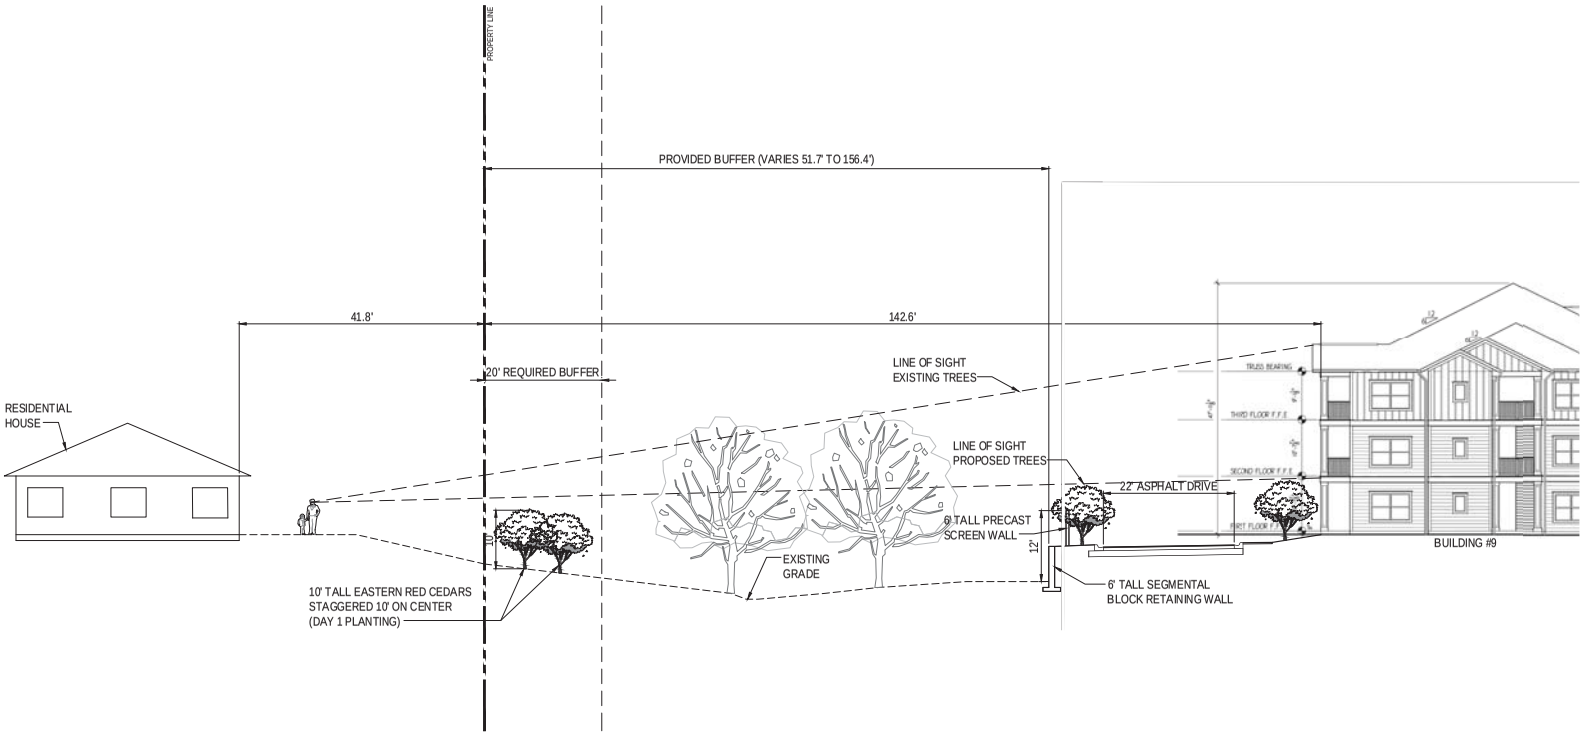
Mr. Scudiero motioned to deny PBD 2022-008(A) – Zoning Map amendment, Tymber Creek Apartments, 2011 West Granada Boulevard and North Tymber Creek Road. Mr. Galloway seconded it. Vote was called, and the motion was approved (5-0).

B. PBD 2022-008(B) – Issuance of a Development Order, Tymber Creek Apartments, 2011 West Granada Boulevard and 36 North Tymber Creek Road

Chairman Thomas concurred and entertained a motion.

Mr. Jorczak motioned to deny PBD 2022-008(B) – Issuance of a Development Order, Tymber Creek Apartments, 2011 West Granada Boulevard and 36 Tymber Creek Road. Ms. Shull seconded it. Vote was called, and the motion was approved (5-0).

Chairman Thomas called for a five (5) minute recess.



C. PBD 2022-092 – Planned Business Development, Development Order Amendment, Ormond Central Self-Storage, 1 South Old Kings Road, 760 West Granada Boulevard, no address (Volusia County parcel number: 4241-01-11-0130), and no address (Volusia County parcel number: 4241-01-11-0120)

Mr. Steven Spraker, Planning Director, explained the request submitted by the property owner, Ormond Central Investors, LLC, for a Planned Business Development amendment (PBD) which seeks to allow two amendments; (1) a three-story indoor self-storage use with a building of 106, 140 square feet and associated site improvements as an allowed use within the Ormond Central property, and two (2) to amend the allowed Floor Area Ratio (FAR) from 55,000 square feet to 131,140 square feet for the entire Ormond Central Property. The subject property is approximately 8.73 acres. Mr. Spraker stated that it already has a Planned Development zoning and has gone through SPRC, two neighborhood meetings, and now goes through the Planning Board with the recommendation going on to City Commission. The land use is Residential/Office Retail with a zoning of Planned Business Development (PBD). Mr. Spraker added that in 2017 there was a PBD that approved a master planned development including a spine road and a master storm water system including four lots for development. The development order included the B-9 uses and retail, pharmacy, bowling center and restaurant types with detailed conditions of no truck traffic on Old Kings Road. The 75-foot building height was brought down to 45 feet and established a Floor Area Ratio (FAR) for a maximum of 55,000 square feet. Mr. Spraker stated that the project is underway for the infrastructure improvements currently with the spine road, stormwater pond, and now getting the lots ready for the infrastructure.

Mr. Spraker stated that the landscape plan has been upgraded as a result of the neighborhood meeting. Regarding traffic, it was advised that the original development order approved a 24,000-square-foot retail building in unit 1, the traffic study allowed 2,700 daily average trips, and when taking the passerby and internal capture, leaves 1,777 average new daily trips. He added that the project civil engineer provided a trip generation of 265 trips which is an 85 percent reduction based on the self-storage use.

Anyone who lives in this area realizes adding more density to vacant land is a huge mistake. Traffic in the area has increased drastically already. All the building in nearby Daytona is going to make it worse. Then throw in Avalon Park for a stand still Granada Blvd.

Because of the clear cutting of land, our environment is declining. Trees provide us with needed cleaning of our air and so much more. Where are the poor animals going to live?

So, why does our area need this apartment complex? It does NOT fit our area. All the homes around here are single family. Why can't that be considered instead of hordes of apartments? That would minimize impact. Where are the trees to absorb the rain and prevent flooding? Where will the animals live to keep nature in balance?

And when is Volusia County going to become concerned about the environment instead of more money in the coffers. We need more green space, not less. We voted for more Green Space.

Seems like no one cares about destroying Ormond Beach. Please DO NOT approve this project.

Thank you for reading my concerns.

To Whom it may concern
Being a resident of Ormond Beach for over thirty years I am disheartened by all the development that has been allowed in our community.
Now someone is wanting to build apartments in an area that is all homes?? WHY!!??
That area does NOT need 300 hundred more cars in and out on Tymber Creek and SR40. To me that is ridiculous. Please take into consideration the impact that building apartments in this area will have on the value of the homes in the area. I do NOT believe that this is in the best interest of our community.
Building these apartments is a very bad idea. If it were up to me to put my vote in it would definitely be NO!!
Thank You

I am totally against the building of apartments at the timber Creek project. The resident density and increased traffic is unreasonable for our area, not to mention the strain on our water supplies and infrastructure. I urge the board to turn this project down.

Subject: 101 Fiesta Drive, Small-Scale Land Use Map Amendment and Zone Change Request
Date: Wednesday, December 7, 2022 1:14:04 PM

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello, Steven -

I'm a fairly new resident of Fiesta Heights, having moved to 111 Pinion Circle two years ago. I became aware of the land use and zone change request for 101 Fiesta Drive when my neighbor notified me about it a few days ago, and today I read over the staff reports and applications and walked to the property to do an onsite visit.

First off, thank you for the very thorough and thoughtful research regarding both requests. You presented both sides of the equation quite well and I appreciated that. Because I'm relatively new to the area, I don't have the institutional memory that many of my neighbors have about this subdivision and the adjoining office building. At the same time I do have some concerns which are largely based on my understanding that zone changes cannot be approved with conditions. In other words, even though the applicant is proposing that 101 Fiesta Drive be used for a parking lot, they could still be entitled to all the uses allowed in the proposed B-1 rezoning category. They are certainly stating that they only intend to construct a parking lot on the site, but are there any legally mandated guarantees that would preclude another office building from being constructed on the property in the future?

Aside from the potential for the rezoning to open up the lot to other uses in the B-1 zoning district, my concerns focus on the proposed parking lot's access, lighting, landscaping, and drainage. I am very glad to see that there would be a required neighborhood meeting and Site Plan Committee review before any lot development can occur, assuming the requests are approved. There is definitely a need for conversations among all parties before this moves forward: residents, Site Plan Committee, and the applicant. I would ask that these items be addressed:

Access: Looking at the site plan, it does not appear that the proposed parking lot will have access to Fiesta Drive. This must be confirmed, because we live in a residential neighborhood that is 100 percent built out. That corner does not need additional traffic on it that is not related to the subdivision itself.

Lighting: This is a critical issue, because no one wants parking lot lights shining into their windows at all hours of the night. Plans for lighting, if any, needs to be worked out with adjoining neighbors.

Landscaping: The site plan proposes several trees, vegetation, and fencing. This should help decrease vehicle noise to nearby residents. How are they enforced, and is there a timeline for their completion? Is there a requirement for the type of fencing that would be constructed to separate the parking lot from adjoining residential land uses?

Drainage: With the amount of storms and rain this area experiences, how will drainage be managed since the lot will be largely paved?

To sum up, this is a well established neighborhood that has been in existence since 1960 and upward (my house was built in 1978, which I believe was the last filing timeframe for the subdivision). The existing residential land use has been in place since before The Trails was developed, other area commercial development occurred, and perhaps before the office building at 801 West Granada was constructed. There is considerable concern that the proposed map amendment and zone change will have negative impacts on the residential subdivision due to further encroachment of nonresidential uses into the neighborhood. This must be carefully considered as part of the Planning Board and City Council discussions. If the requests are approved, there must be protections in place for the adjoining homes so that this subdivision continues to have the feel and character of a residential community.

Thank you for your consideration.

Subject: Proposed Tymber Creek Apartment Complex
Date: Thursday, December 8, 2022 12:45:16 PM

[External Email-Use Caution] - OB/IT Helpdesk

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Mr. Spraker

I am writing to you to have my thoughts shared with the members of the Planning Board regarding the proposed apartment complex.

My husband and I grew up in the Coral Gables/Coconut Grove area of Miami, Fl. In the mid-80's we watched the area boom and also become the home of the "cocaine cowboys". As a real estate broker there, our clients were no longer the move up or downsize for retirement in the area....no they were the sell and move out clients. After researching different areas of the state, we chose Ormond Beach as our home to relocate to, start our business over and raise our 2 sons, 3 and 5, at the time. This area reminded us of the community minded area we had grown up in.

The proposed development into a 300 unit apartment complex behind Walgreens will essentially change that quality of life for many residents on the west side of Ormond Beach. With rents being on the unaffordable side, you have the potential of 4 adults living in a 2 bedroom unit creating the potential for not just 600 additional cars on the road but much more than that. impacting Tymber Creek Road, Airport Road and SR 40. You have the potential of overcrowding Pathways Elementary which already has a student:teacher ratio of 14:1. Yes, that is higher than the state average of 17:1 but remember Miami, Orlando, Ft Lauderdale, Jacksonville & Tampa are included and they are densely populated cities. I do not believe the residents of Ormond Beach want to become another Orlando or Miami.

What about our infracstructure impact? What about the additional services that will be needed?

This proposal may be for the highest use of this property but it is not the best use. We are sorely lacking in a nice Trails North Forty or South Forty style of home here ....I understand the property is currently zoned for a much lower density.....let's stick with that!

Thank you for your time.

Sincerely,

Maria Lewis

Meeting Date: 6/6/2023	**AGENDA ITEM**		**Number:** 8.B
Section:	PUBLIC HEARINGS		
Item Category:	Public Hearing - Ordinances	**Res./Ord. No:**	2023-10
Strategic Goal:	Transportation & Community Development - Other		
Department :	Planning & Building		
Subject:	Issuance of a Development Order, Tymber Creek Apartments, Planned Business Development (SECOND READING)		
Budget Impact:	There is no budget impact as the result of the issuance of a development order.		
Summary:	This is a request from Nika K. Hosseini, Esquire, Cobb Cole, on behalf of the property owner, VCP Ormond Beach II, LLC, for the issuance of a development order. The Tymber Creek Apartments Planned Business Development seeks to allow construction of 300 multi-family residential units and associated site improvements on 19.62 acres located at 36 North Tymber Creek Road and 2011 West Granada Boulevard. The Planning Board recommended the City Commission deny the issuance of a development order based on concerns regarding traffic and density.		
Recommended Action:	The City Commission has three (3) options in the review of this application: 1. Approve as submitted; 2. Deny as submitted (Planning Board recommendation); or 3. Approve the project with conditions. This option would approve the development with a unit number somewhere between the requested 270 units and allowed 164 units. This option could maintain the public benefits offered (limitation of access on Tymber Creek Road, additional landscape buffers, additional preservation, and larger than required building setbacks). This option would lock in a lower traffic generation than other potential uses on the developable land area of 16.42 acres. The Planning Board recommended that the City Commission deny the issuance of a development order to allow construction of multi-family units on 19.62 acres at 36 North Tymber Creek Road and 2011 West Granada Boulevard. The Planning Board's original site plan application for review was for 300 units that staff recommended approval of 270 units with the removal of former building 8.

CITY MANAGER
MEMORANDUM

To: The Honorable Mayor Partington and City Commissioners

Through: Joyce Shanahan, City Manager

From: Steven Spraker, Planning Director

Date: June 6, 2023

Subject: Issuance of a Development Order, Tymber Creek Apartments, Planned Business Development (SECOND READING)

Commission Goal: Transportation & Community Development - Other

Introduction

This is a request from Nika K. Hosseini, Esquire, Cobb Cole, on behalf of the property owner, VCP Ormond Beach II, LLC, for the issuance of a development order. The Tymber Creek Apartments Planned Business Development seeks to allow the construction of 270 multi-family residential units and associated site improvements on 19.62 acres. The subject property is located at 36 North Tymber Creek Road and 2011 West Granada Boulevard. This item has been continued since the January 24, 2023 City Commission meeting. The project team has resubmitted site plans that reduce the number of residential units from 300 to 270 and provided additional buffering to Indian Springs as part of the issuance of the development order.

Background

The subject property consists of two parcels at 36 North Tymber Creek Road and 2011 West Granada Boulevard. The property at 36 North Tymber Creek Road is 6.40 acres and was annexed into Ormond Beach on May 26, 2020 with Ordinance 2020-17. On January 5, 2021, a Comprehensive Plan land use map amendment was approved with Ordinance 2020-56 to assign a city land use designation to 36 North Tymber Creek Road. The land use designation was amended from Volusia County “Environmental System Corridor” (ESC) to City of Ormond Beach “Open Space/Conservation” (OS/C) and Volusia County “Urban Low Intensity” (ULI) to Ormond Beach “Residential, Office, Retail” (ROR). No Ormond Beach zoning has been assigned to 36 North Tymber Creek Road and the assignment of zoning is the purpose of this application. The property at 2011 West Granada Boulevard has a land use classification of “General Commercial” and a zoning designation of B-8, Commercial.

The subject property proposes site access through the approximately 9.93-acre property at 2041 West Granada Boulevard that is currently vacant. Walgreens is located at 2001 West Granada Blvd and 30 North Tymber Creek Road (stormwater

pond). There is a Volusia County stormwater pond located at 40 Tymber Creek Road. To the north of the subject property, there is the Moss Point subdivision. To the west of the subject property, is the Coquina Presbyterian Church and the Indian Springs subdivision.

The application seeks to allow 270 multi-family residential units as a Planned Business Development. The Planned Business Development is reviewed and acted upon as two (2) separate actions:

1. Zoning map amendment from Volusia County RC, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial to PBD, Planned Business Development. The zoning map amendment is the action sought for this agenda item.
2. **Issuance of a development order to construct 270 multi-family residential units and associated site improvements on 19.62 acres.**

The two actions (2) will be discussed together at the public hearing and will require separate votes. The zoning map amendment is the application under consideration in this report. The items are intertwined and if there is a desire to approve or approve with conditions the issuance of the development order, then the zoning map amendment needs approval first. If there is a desire to deny the issuance of the development order, then the zoning map amendment should also be denied.

Discussion

Within the Land Development Code there are threshold trigger points that require projects to obtain approval through a public hearing. The philosophy of the Land Development Code is to allow the Site Plan Review Committee (SPRC), a technical committee of city staff, to review and approve permitted uses. Projects that trigger thresholds are required to be reviewed by the SPRC, Planning Board, and City Commission. There are many trigger thresholds within the Land Development Code. The Tymber Creek Apartments have three (3) trigger thresholds within the project submittal as follows:

1. Density. The zoning density allows 10 units per acre and the land use density allows more units per acre. The request for the additional density is not a waiver/variance, but does require a public review and an analysis of the development order criteria.
2. Building Height: The Planned Business Development allows additional height over the 30’ allowed by the zoning district. The request for the additional building density is not a waiver/variance, but does require a public review and an analysis of the development order criteria.
3. Building Length of Buildings 3, 4 and 8: The conditional use criteria for dwelling, multifamily requires a Planned Business Development for buildings over 180 linear feet. The request for the building length is not a waiver/variance, but does require a public review and an analysis of the development order criteria.

The project is not seeking waivers of any development standard.

Site plan updates since the January 24, 2023 City Commission packet:
On April 3, 2023, a site plan submittal was made to the Site Plan Review Committee. Staff's summary of the changes are as follows:

1. Decrease of residential units from 300 to 270.
2. Site plan amended to delete former building 8 and relocate/reallocate the residential units to create additional buffering and setbacks to the Indian Springs properties.
3. The proposed density was 18.27 under the original submittal and is now proposed at 16.44 units per acre with a total of 270 units.
4. The parking spaces have been reduced from 600 parking spaces to 540 parking spaces.
5. On Sheet 15, former building 8 has been deleted.
6. On Sheet 15, the two buildings on the north area of the property have been combined into proposed building 8 with 48 residential units.
7. On Sheet 15, the proposed building 8 is 351.5' linear feet and building 4 is 249' linear feet. Building 3, as originally shown, remains at 249' in length. Buildings exceeding 180 linear feet require approval through the planned development process.
8. On Sheet 84, the tree preservation area was 4.99 acres (25.5% of the site). Tree preservation proposed with the site redesign is 5.44 acres (27.8% of the site). Note the required tree preservation is 2.94 acres (15% of the site).
9. On Sheet 88, the existing building to building distance to 39 Indian Springs was 218.1'. The April 3, 2023 site redesign is now proposed at 265.1'. The existing building to building distance to 40 Indian Springs was 176'. The April 3, 2023 site redesign is now proposed at 298.5'.
10. On Sheet 18, the natural buffer distance is now 136' to 146'. Note that the Land Development Code requires a 20' buffer area.

Key project attributes include:

1. Density: Land use density allowed = 471 residential units (28.72 units per acre). Zoning density allowed = 164 units (10 units per acre). **Tymber Creek Apartments density requested = 270 residential units (16.44 units per acre).** The Planned Business Development is required to obtain the density allowed by the land use, which is over the zoning density standard of 10 units per acre.
2. Traffic: The project has been issued Florida Department of Transportation permits. The traffic impacts have been reviewed by the Florida Department of Transportation, Volusia County, a traffic consultant retained by the city and meets applicable traffic requirements. It is important to note that the existing land uses and zoning allow uses that could generate more traffic than the proposed use.
3. Stormwater/Wetlands: The project has obtained a Saint Johns River Water Management District permit. The project has 2.40 acres of wetlands. The project impacts are 0.14 acres or 5.7% of the wetland area. The remaining area of

wetlands is 2.26 acres.

4. There are 7 historic trees on-site (4 Bald Cypress & 3 Live Oaks), all of which are being saved.
5. The site requires that fifteen percent of the site is designated for tree preservation. Fifteen percent of the total gross area is 2.94 acres. The project provides 5.44 acres or 27.8% of the site which is proposed tree preservation, which includes the north and west areas of the site. The project redesign increased the tree preservation from 4.99 acres to 5.44 acres.
6. The landscape buffers required for this project are 20-foot landscape buffers for the north, west & east sides of this parcel. The northern landscape buffer proposed along the Moss Point subdivision in the northwestern portion varies from 195' to 130' and narrows to 70' in the northeastern portion of the buffer. The proposed west landscape buffer, abutting Indian Springs, varies from 176' to 218' based on the updated re-design of the site. The previous west buffer was 140' to 57' feet in the original design. The proposed east landscape buffer along Tymber Creek Road is 20 feet. The south landscape buffer that abuts the future commercial parcel requires a 6' foot landscape buffer and a 10' buffer is being proposed. The landscape buffer around the Walgreens pond to the north requires 6' foot, which is shown, the west landscape buffer requires 6' foot and a 10' foot is being proposed. The landscape buffers around the Volusia County Pond to the north, west and south sides require a 6' foot buffer and an 11'-6" foot is being proposed.
7. Buildings 1, 2, 4, 6, 7, 8 and 9 are 162 linear feet. Building 5 is 175 linear feet. Buildings 3 and 4 are 249 linear feet and building 8 is 351.5 linear feet in width. **Section 2-57(22)(c) of the Land Development Code requires Planned Development for any building length exceeding 180 linear feet.**
8. **The proposed building height is 39'5" for the multi-family buildings.** The B-8, Commercial allowed building height is 30'. Section 2-36(d)(3) of the Land Development Code states, "Height limits may exceed that allowed by district regulations by a maximum of fifteen feet (15'), provided that the structure is so located as to not have an adverse impact on adjoining properties, particularly single-family homes." The application is seeking a building height of 39'5"The project has provided public benefits through the Planned Business Development that may or may not occur with a permitted use site plan. These include restricted access onto Tymber Creek Road, larger building setbacks, increased landscape buffers, increased overall land preservation, minimal wetland impacts, turning of a building, and increased fence/wall buffering.

Input has been received through the neighborhood meeting and correspondence received that includes the following concerns regarding the overall project:

<u>Traffic</u>

1. Concerns about U-turn movements on West Granada Boulevard.
2. Traffic is awful/horrendous already.
3. The right-hand turn into Indian Springs is treacherous.
4. Negative impacts at the intersection of West Granada Boulevard and Tymber

Creek Road.

Incompatible use

1. Impact to the existing residents in the area of the planned development.
2. Will make our community less safe.
3. We are a single-family community!
4. The project is not compatible with the neighboring subdivisions. Any increase will be detrimental to the quality of life for the surrounding area's residents.

Density

1. Density should be maintained at 10 units per acre.
2. If the Land Development Code allows 164 units now, then why would an increase be of any value to the residents of Ormond Beach?

Overdevelopment

1. Horrible location planning for apartments.
2. If we do not limit the population growth in Ormond Beach now, we will not be able to undo the consequences in the future.

Site design

1. Desire of a masonry wall along the Indian Springs property line.
2. The project team should show the building locations and height.
3. Configuration/location of the buildings – specifically building 8.

Quality of Life

1. Only single-family residential has been approved west of I-95.
2. Longtime residents of upscale communities deserve better consideration.
3. The area is already overbuilt and this will do nothing to help the situation.
4. Future management of complex.

Indian Springs

City staff met with residents of Indian Springs, which led to two meetings with the project team and the residents. Residents of Indian Springs presented concerns and comments on the project at an initial meeting on August 15, 2022 and a follow-up meeting on November 16, 2022. The applicant amended the project submittal to extend the location of the masonry wall, lower the building heights, and add additional plantings. On November 26, 2022, a letter from the Indian Springs Homeowner's Association was received that requested deletion of buildings 8 and 9 and additional wall modifications.

Staff is aware that additional meetings have occurred between the project team and

residents of Indian Springs. Staff has not received any additional written information from Indian Springs residents. The updated design submitted April 3, 2023 removes the former building eight and redistributes the units into the current buildings 4 and 8.

The updated design provides additional natural buffering and creates a bigger setback of proposed buildings 7 and 8.

Update from the April 18, 2023 City Commission meeting:
The Tymber Creek Apartment item was continued at the April 18, 2023 City Commission meeting until the May 16, 2023 City Commission meeting. Discussion during the item focused on the Live Local Act, SB 102 and the potential impacts on the proposed project. The Live Local Act was summarized in a disposition item that is included in this packet. Key parts of the Live Local Act include:

1. A municipality must authorize multifamily and mixed-use residential as allowable uses in any area zoned for commercial, industrial, or mixed use if at least 40 percent of the residential units in a proposed multifamily rental development are, for a period of at least 30 years, affordable as defined in s. 420.0004. Notwithstanding any other law, local ordinance, or regulation to the contrary, a municipality may not require a proposed multifamily development to obtain a zoning or land use change, special exception, conditional use approval, variance, or comprehensive plan amendment for the building height, zoning, and densities authorized under this subsection.
2. A municipality may not restrict the density of a proposed development authorized under this subsection below the highest allowed density on any land in the municipality where residential development is allowed.
3. A municipality may not restrict the height of a proposed development authorized under this subsection below the highest currently allowed height for a commercial or residential development located in its jurisdiction within 1 mile of the proposed development or 3 stories, which is higher.
4. A proposed development authorized under this subsection must be administratively approved and no further action by the governing body of the municipality is required if the development satisfies the municipality's land development regulations for multifamily developments in areas zoned for such use and is otherwise consistent with the comprehensive plan, with the exception of the provisions establishing allowable densities, height, and land use.

In summary, under the Live Local Act the project could provide at least 40% of the units as affordable housing, utilize a density of up to 32 units per acre, and be 50' in height (maximum height within one mile) as an administrative site plan. The Live Local Act did not exempt out parking requirements, landscape buffers, building setbacks and other local development standards. The actual number of units would depend on the property owner's willingness to amend the existing plan. Development plans such as the Regal Center (interior units) or Ormond Renaissance Condominiums (parking under the buildings) would lead to additional units. These alternative plans also have an increase in construction costs.

A staff comparison of the 270 units plans and a non-planned development is provided

below:

Standard	270 unit proposed plan	Non-planned development standards
Units:	270 units.	164 units allowed by zoning prior to the Live Local Act; 525 units maximum allowed after Live Local Act.
Affordable housing requirement:	None.	40% of units for 30 years under the Live Local Act.
Project access from Tymber Creek Road:	Restricted to emergency access only.	Right in and right out allowed.
Height:	39.5' (3 stories).	50' - based upon the highest height allowed within one mile of the property - B-7 zoning allows a 50' building height.
Approval process:	City Commission.	Site Plan Review Committee (SPRC)
Natural preservation:	5.44 acres proposed; 27.8% of the site.	2.95 acres required; 15% of the site.
Building setbacks:	Moss Point subdivision: ranges from 70' to 195'. Indian Springs subdivision: ranges from 176' to 218'.	The required buffer is 20'. Staff believes that areas that contain wetlands would likely remain.
Traffic*, note 2011 Community Planning Act states projects are not responsible for any existing deficiencies:	270 units = 1,247 average daily trips (4.62 trips average per unit, ITE #221 – see Table 4 of 08.20.2022 traffic analysis from the project traffic engineer).	350 units = 1,617 average daily trips. 400 units = 1,848 average daily trips. 450 units = 2,079 average daily trips.

Planning Board

The Planning Board reviewed the issue of the development order at the December 8, 2022 meeting and recommended **denial with a 5-0 vote.** A summary of key points of individuals who spoke at the Planning Board include:

1. The Indian Springs Homeowners' Association representative requested the

deletion of buildings 8 and 9.
2. Expressed concern with the proposed increase in density over the zoning designation allowances.
3. No apartment complexes exist west of I-95 in Ormond Beach.
4. Expressed concerns that residential growth should not be approved until there are adequate medical facilities including hospital beds and emergency room capacity.
5. The existing resident's quality of life will be negatively impacted.
6. Expressed concern regarding the increase in traffic and proposed U-turn movements.

Planning Board members stated that they could not support the zoning map amendment that allowed additional density and increased traffic. A Planning Board member noted that developers have gone above and beyond in attempting to mitigate the issues with respect to the borders and visibility issues and zoning setbacks. The Planning Board minutes are attached to this item. It is important to note that the Planning staff recommendation (which the project team consented to at the meeting) before the Planning Board was 270 residential units. The April 3, 2023 updated plan is the same number of units as the Planning Board reviewed, but has relocated/reallocated the units to create additional buffering and setbacks to the Indian Springs properties.

Budget Impact

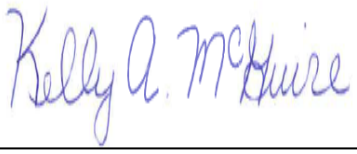
There is no budget impact as the result of the issuance of a development order.

Citizen Impact

The City Commission packet included input from the neighborhood meeting, correspondence received, and the Planning Board meeting. The citizen's concerns include traffic, incompatible use, density increase, overdevelopment, site design, and decreased quality of life. The Planning Board recommended against the requested issuance of a development order.

Recommendation

The City Commission has three (3) options in the review of this application:



1. Approve as submitted;
2. Deny as submitted (Planning Board recommendation); or
3. Approve the project with conditions. This option would approve the development with a unit number somewhere between the requested 270 units and allowed 164 units. This option could maintain the public benefits offered (limitation of access on Tymber Creek Road, additional landscape buffers, additional preservation, and larger than required building setbacks). This option would lock in a lower traffic generation than other potential uses on the developable land area of 16.42 acres.

The Planning Board recommended that the City Commission deny the issuance of a development order to allow construction of multi-family units on 19.62 acres at 36 North Tymber Creek Road and 2011 West Granada Boulevard. The Planning Board's original site plan application for review was for 300 units that staff recommended approval of 270 units with the removal of former building 8.

ORDINANCE NO. 2023-10

AN ORDINANCE AUTHORIZING THE EXECUTION AND ISSUANCE OF A DEVELOPMENT ORDER FOR A PLANNED BUSINESS DEVELOPMENT TO BE LOCATED AT 36 NORTH TYMBER CREEK ROAD (VOLUSIA COUNTY PARCEL NUMBER 4125-00-00-0221) AND 2011 WEST GRANADA BOULEVARD (VOLUSIA COUNTY PARCEL NUMBER 4125-00-00-0243), TO BE KNOWN AS THE "TYMBER CREEK APARTMENTS"; AUTHORIZING THE DEVELOPMENT OF 270 MULTI-FAMILY RESIDENTIAL UNITS AND ASSOCIATED SITE IMPROVEMENTS UNDER CERTAIN CONDITIONS; ESTABLISHING CONDITIONS AND EXPIRATIONS OF APPROVAL; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, VCP Ormond Beach II, LLC, a Florida limited liability company, is the owner of real property ("Property Owner") located at 36 North Tymber Creek Road (Volusia County parcel number 4125-00-00-0221) and 2011 West Granada Boulevard (Volusia County parcel number 4125-00-00-0243), as more particularly described and depicted in Exhibit "A" to the Planned Business Development (PBD) Development Order attached hereto and incorporated herein ("Property"), and

WHEREAS, the Property Owner has initiated this Ordinance for the issuance of a Development Order for a Planned Business Development to allow 270 multi-family residential units and associated site improvements under certain conditions on the Property, consisting of approximately 19.62 acres, to be known as the "Tymber Creek Apartments" as described and depicted in the PBD Development Order attached hereto and incorporated herein, and

WHEREAS, the Property has been rezoned from Volusia County RC, Resource Corridor, Volusia County A-2, Agriculture, and Ormond Beach B-8, Commercial, to Planned Business Development (PBD), and

WHEREAS, the proposed Project shall maintain the uses and dimensional standards of the B-8, Commercial, zoning district except as otherwise provided in the PBD Development Order, and

WHEREAS, the Planning Board held a public hearing in accordance with Section 1-15(d)(2) of the *Land Development Code*, and has recommended denial of the proposed Development Order for the project, and

WHEREAS, the City Commission has held a public hearing in accordance with Section 166.041(3)(c)(2), *Florida Statutes* and has considered the following:

(1) The report and recommendations of the Planning Board;

(2) The report and recommendations of the Site Plan Review Committee;

(3) The comments of governmental agencies, utility corporations and individuals, as received, and

(4) The testimony provided at public hearings, including from the City's planning staff, the Applicant, expert witnesses, and persons that may be affected as a result of the application, and documentary evidence pertaining thereto, if any, and

WHEREAS, the City Commission further finds that there is competent substantial evidence to support the following:

(1) The proposed land use conforms to the standards and requirements of the *Land Development Code* and will not create undue crowding beyond the conditions normally permitted in the PBD, Planned Business Development, zoning district, or adversely affect the public health, safety, welfare or quality of life;

(2) The proposed development is consistent with the *Comprehensive Plan*;

(3) The proposed development will not adversely impact environmentally sensitive lands or natural resources, including but not limited to waterbodies, wetlands, xeric communities, wildlife habitats, endangered or threatened plants and animal species or species of special concern, wellfields, and individual wells;

(4) The proposed use will not substantially or permanently depreciate the value of surrounding property; create a nuisance; or deprive adjoining properties of adequate light and air; create excessive noise, odor, glare, or visual impacts on the neighborhood and adjoining properties;
