NOTICE – Pursuant to Section 286.0105 of the Florida Statutes, if any person decides to appeal any decision made by the City Commission with respect to any matter considered at this public meeting, such person will need a record of the proceedings and for such purpose, such person may need to ensure that a verbatim record of the proceedings is made, including the testimony and evidence upon which the appeal is to be based.

For special accommodations, please notify the City Clerk's Office at least 72 hours in advance.
Phone: 386-677-0311

Help for the hearing impaired is available through the Assistive Listening System. Receivers can be obtained from the City Clerk's Office.

In accordance with the Americans with Disabilities Act (ADA), persons with a disability, such as a vision, hearing or speech impairment, or persons needing other types of assistance, and who wish to attend City Commission meetings or any other board or committee meeting may contact the City Clerk's Office in writing, or may call 386-677-0311 for information regarding available aids and services.

**City of Ormond Beach**

**City Commission Agenda**

**Staff Report**

| | | | |
|---|---|---|---|
| **Agenda Date** | July 22, 2025 | **Item No** | 4.A. |
| **Section** | ADOPTION OF FISCAL YEAR 2025-2026 TENTATIVE MILLAGE RATE | **Category** | Resolution |
| **Subject** | Proposed Millage Rates for the 2025-2026 Fiscal Year | | |
| **Recommended Action** | Staff recommends approval of the tentative operating millage rate of 4.5220 and voter-approved debt millage rate of 0.0630. As in the past, the operating and debt rates will be set with a single resolution. | | |
| **Strategic Goal** | Fiscal Transparency | | |
| **Department Staff Contact** | Finance<br>Kelly McGuire, Finance Director | | |

Summary

This is a request for the City Commission to set the proposed millage rate that will be placed on the Truth in Millage (TRIM) notice by the Property Appraiser, and to establish the dates and times for the first public hearing on Wednesday, September 3, 2025 at 7:00 p.m. and the final public hearing on Wednesday, September 17, 2025 at 7:00 p.m.

Financial Impact

The proposed tentative millage rate for FY 2025-2026 is as follows:

| **Purpose** | **Millage Rate** |
|---|---|
| General Fund | 3.7950 |
| Facilities Renewal & Replacement | 0.1650 |
| Capital Improvements | 0.0840 |
| Vehicle & Equipment Renewal & Replacement | 0.0900 |
| Transportation Improvements | 0.1040 |
| Public Safety Fund | 0.1800 |
| Leisure Services Fund | 0.1040 |

| | |
|---|---|
| **Total Operating Millage Rate** | 4.5220 |
| 2010 General Obligation Bond | 0.0630 |
| **Total Millage** | 4.5850 |

The rollback tax rate is 3.9042 mills.

Citizen Impact

The operating rate will provide funding to continue the high level of services currently provided to the community and dedicates funding for continued maintenance of City facilities, roadways, and recreational expenditures.

1. 25-102 FY 2025-26 Tentative Millage Rate (P25-0087G)

**RESOLUTION NO. 2025-102**

A RESOLUTION ADOPTING PROPOSED MILLAGE RATES FOR THE 2025-2026 FISCAL YEAR; ESTABLISHING THE DATE, TIME AND PLACE FOR THE FIRST PUBLIC HEARING ON THE PROPOSED MILLAGE RATES AND THE TENTATIVE BUDGET; DIRECTING COMMUNICATION; EXPRESSING LEGISLATIVE INTENT; AND SETTING FORTH AN EFFECTIVE DATE.

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE.** After careful consideration of the estimate of receipts and the estimate of expenditures of the City of Ormond Beach, Florida ("the City"), it is hereby agreed that the rates of taxation necessary to meet such expenses will be, for each of the hereinafterstated purposes, the amounts estimated, declared and hereby levied, to-wit:

**(a)** in order to meet the estimate of expenses of the City, it is hereby determined and declared that the total operating millage shall be at the rate of 4.5220 mills or $4.5220 per $1,000 of taxable value, and the same is hereby levied and imposed upon all non-exempt taxable property within the corporate limits of the City for those purposes hereinafter described to provide for the expenditures as estimated in the Fiscal Year 2025-2026 Annual Budget;

**(i)** in order to meet the estimate of General Fund, Capital Improvements Fund, Facilities Renewal and Replacement Fund, Vehicle and Equipment Replacement Fund, Public Safety Vehicle and Equipment Replacement Fund, Transportation Improvements Fund, and Leisure Services Fund expenses of the City, it is hereby determined and declared that the operating

millage rate (General Fund, Capital Improvements Fund, Facilities Renewal and Replacement Fund, Vehicle and Equipment Replacement Fund, Public Safety Vehicle and Equipment Replacement Fund, Transportation Improvements Fund, and Leisure Services Fund combined) shall be at the rate of 4.5220 mills or $4.5220 per $1,000 of taxable value, and the same is hereby levied and imposed upon all non-exempt taxable property within the corporate limits of the City for general purposes to provide for the General Fund, Capital Improvements Fund, Facilities Renewal and Replacement Fund, Vehicle and Equipment Replacement Fund, Public Safety Vehicle and Equipment Replacement Fund, Transportation Improvements Fund, and Leisure Services Fund expenditures as estimated in the Fiscal Year 2025-2026 Annual Budget;

**(ii)** the millage rate to be levied, 4.5220 mills, is a 15.82% increase over the "rolled-back" millage rate, which is $3.9042 per $1,000 of taxable value;

**(iii)** in order to pay interest upon and sinking fund requirements for the outstanding 2010 general obligation bond issue of the City, and for the purpose of paying the expenses of servicing such bonds, it is hereby determined and declared that the debt service millage shall be at the rate of 0.0630 mills or 6.30¢ per $1,000 of taxable value, and the same is hereby levied and imposed on all non-exempt taxable property within the corporate limits of the City for the purposes hereinbefore stated in this Subsection.

Voters approved the 2010 general obligation bond issue on August 24, 2010 for the acquisition and development of a beachfront park.

**SECTION TWO.** A public hearing on the aforestated proposed millage rates and on the tentative Fiscal Year 2025-2026 Annual Budget will be held on Wednesday, September 3, 2025 at 7:00 p.m., in the Commission Chambers of the Ormond Beach City Hall, 22 South Beach Street, Ormond Beach, Florida.

**SECTION THREE.** The City Manager is hereby directed to advise the Volusia County Property Appraiser of the City's proposed millage rates as hereinbefore set forth, of its rolled-back millage rate computed pursuant to Section 200.065(1), *Florida Statutes,* and Rule 12D-17.0035, *Fla. Admin. Code,* and of the date, time and place at which the City will hold a public hearing to consider the proposed millage rates and the tentative Fiscal Year 2025-2026 Annual Budget.

**SECTION FOUR.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025.**

***M I N U T E S***

Item #1 – Meeting Call to Order

Mayor Leslie called the meeting to order at 7:00 p.m.

Item #2 – Invocation

Pastor George Ward, Emmanuel Church of the Living God, provided the invocation.

Item #3 – Pledge of Allegiance

Mayor Leslie led the Pledge of Allegiance.

Item #4 – Presentations and Proclamations

Item #4A – Boys State Delegates, American Legion Florida Post 267

Mayor Leslie presented a proclamation to the Boys State Delegates, special guests, and the coordinators from the American Legion Florida Post 267. He reviewed the delegates from Seabreeze High School and the Boys State civic program.

Item #4B – 2025 Citizens Academy

Mayor Leslie presented certificates to the 2025 Citizens Academy participants and thanked them for participating in the program.

Item #5 – Audience Remarks

Ms. Amber Bobak, 397 Collins Street, provided updates on the Circle K project on South Nova Road, including meetings she had and the higher standards she was requesting.

Ms. Carol Kilian, 1218 Champions Drive, Daytona Beach, 32117, stated she was speaking on behalf of Volusia Volunteers in Medicine, noting the name changed to Volusia Free Clinic. She provided details on the program and requested the Commission consider donating to the program. She provided a packet for the Commissioners.

Ms. Judy Robin, 81 Grizzly Bear Path, thanked the city for the free sandbags and self-serve station in preparation of hurricane season. She expressed concerns regarding the flooding in her neighborhood and questioned when the Hull Road drainage improvements would be made. She inquired why the Federal Aviation Administration needed to approve a golf course as a use on airport property when there was previously a golf course.

Mr. Mike Manis, 88 Seton Trail, requested approval to move forward with phase two of the Riverbend Trail System. He reviewed the residents' volunteer time to complete phase one of the trail, thanking them for their continued efforts.

Mr. David Jackson, Representative from American Legion Post 267, presented a check to Barracks of Hope from their Breakfast To-Go fundraiser.

Mr. Alan Burton, 915 Ocean Shore Boulevard, thanked the Commission for passing the landscaping ordinance, which emphasized the need for native plants. He discussed and provided background on monoculture.

Mr. Daniel Bowman, 2 Fernwood Trail, provided facts on the utilization of Riverbend Trail.

Mr. Arthur Armstrong, 77 Emerald Oak Lane, voiced concerns regarding a runway extension, the closed golf course, and the need for a golf course within the city.

Mr. Robert Jones, 46 Sadlers Run, discussed the importance of the trails and outdoor activity. He noted the importance of the expansion of the Riverbend Trail.

Ms. Jennifer Bright, 221 Arlington Way, voiced concerns regarding Items 8C and 8F.

Item #4C – 2025 Home Rule Hero

Mayor Nancy Miller, City of Daytona Beach Shores, stated there were three recipients of the 2025 Home Rule Hero award: Mayor Leslie, Commissioner Tolland, and City Manager Joyce Shanahan. She presented the 2025 Home Rule Hero award to Commissioner Tolland and City Manager Joyce Shanahan, as they were unable to attend the previously held banquet. She thanked them for their continued support.

Item #6 – Approval of Minutes

Mayor Leslie advised the minutes from the May 20, 2025, City Commission meeting were sent to the Commission for review and posted on the city's website for public viewing. He asked if there were any corrections, additions, or omissions. He stated, hearing no corrections, the minutes would stand approved as presented.

**Commissioner Briley moved, seconded by Commissioner Sargent, for approval of the May 20, 2025, City Commission meeting minutes.**

**Motion passed by voice vote.**

Item #7 – Community Redevelopment Agency

Mayor Leslie advised the following item was a Community Redevelopment item. He explained the City Commission served as the Community Redevelopment Agency (CRA) of the city and must review the item and make a recommendation as the CRA.

Mayor Leslie recessed the City Commission meeting, called the CRA meeting to order, and opened the public hearings at 7:46 p.m.

Item #7A – Downtown Master Arts Plan Adoption

City Clerk Susan C. Dauderis read by title only:

RESOLUTION NO. 2025-96

A RESOLUTION OF THE CITY COMMISSION, ALSO ACTING AS THE COMMUNITY REDEVELOPMENT AGENCY, OF THE CITY OF ORMOND BEACH, FLORIDA, APPROVING THE DOWNTOWN MASTER ARTS PLAN; AND SETTING FORTH AN EFFECTIVE DATE. **(SEE ITEM 8A)**

Ms. Bright voiced concerns regarding the price, funds, and proposed plans. She noted issues with traffic calming being included in the item.

Ms. Julia Truilo, 307 John Anderson Drive, stated she was the board president of the Ormond Beach Arts District. She thanked the Commission for their support of the plan and discussed the community builder that was public art.

**Commissioner Briley moved, seconded by Commissioner Deaton, for recommendation of Resolution No. 2025-96, as read by title only.**

**The motion passed by voice vote.**

Mayor Leslie closed the public hearings, adjourned the CRA meeting, and reconvened the City Commission meeting at 7:52 p.m.

Item #8 – Consent Agenda

Mayor Leslie advised the actions proposed for the items on the Consent Agenda were so stated on the agenda. He asked if any member of the Commission had questions or wished to discuss any items separately.

Commissioner Sargent requested Items 8C, 8D, and 8J be pulled from the Consent Agenda.

**Commissioner Briley moved, seconded by Commissioner Sargent, for approval of the Consent Agenda, absent Items 8C, 8D, and 8J.**

| | | |
|---|---|---|
| Call Vote: | Commissioner Sargent | Yes |
| | Commissioner Deaton | Yes |
| | Commissioner Briley | Yes |
| | Commissioner Tolland | Yes |
| Carried. | Mayor Leslie | Yes |

Item #8C – Volusia County Schools SRO Agreement

City Clerk Susan C. Dauderis read by title only:

RESOLUTION NO. 2025-98

A RESOLUTION AUTHORIZING THE EXECUTION OF A CONTRACT RENEWAL OF A SCHOOL RESOURCE OFFICER AGREEMENT BETWEEN THE CITY OF ORMOND BEACH AND THE SCHOOL BOARD OF VOLUSIA COUNTY; AND SETTING FORTH AN EFFECTIVE DATE.

**Commissioner Briley moved, seconded by Commissioner Sargent, to approve Resolution No. 2025-98, as read by title only.**

Commissioner Sargent stated he reached out to the Volusia County Schools inquiring how many other municipalities had a similar agreement in place and explained he had not received an answer. He explained he would not support the item as the School Board should fund the needed position, expressing concerns regarding utilizing taxpayer dollars on school items.

Commissioner Tolland inquired if there was time to table the item while Commissioner Sargent waited for the answer. She noted the contract was not to be renewed until late August.

Ms. Shanahan stated the contract would be in year two of a five-year contract. She expressed her understanding of Commissioner Sargent's concerns and noted the importance of the School Resource Officer (SRO) for safety and the relationship building between the children and police.

Commissioner Sargent agreed with Ms. Shanahan noting its importance. He explained he would not support the taxpayers funding the position.

Mayor Leslie inquired if the item could be tabled until Commissioner Sargent heard back.

**Commissioner Briley and Commissioner Sargent withdrew their motion and second.**

**Commissioner Briley moved, seconded by Commissioner Deaton, to Table Resolution No. 2025-98.**

Item #8D – Intent to Award - 2025 Roadway Resurfacing

City Clerk Susan C. Dauderis read by title only:

RESOLUTION NO. 2025-99

A RESOLUTION ACCEPTING THE BID OF SPARKS CONCRETE, LLC D/B/A SPARKS CONCRETE & ASPHALT REGARDING THE 2025 ROADWAY RESURFACING PROJECT, UNDER BID NO. 2025-35; REJECTING ALL OTHER BIDS; AUTHORIZING THE EXECUTION OF A CONTRACT AND PAYMENT THEREFOR; AND SETTING FORTH AN EFFECTIVE DATE.

**Commissioner Sargent moved, seconded by Commissioner Tolland, to approve Resolution No. 2025-99, as read by title only.**

Commissioner Sargent expressed concern regarding the low price and if the vendor would come back wanting more money. He noted if the vendor came back asking for more money for the project, he would not approve.

Mayor Leslie inquired if there was a stipulation in the contract preventing the vendor from exceeding the bid cost; whereby, Mr. Shawn Finley, Assistant City Manager, explained there was a staff member to verify the project stayed on track as far as timeline and fees.

Mr. Finley stated the contract did cover the city, and staff would hold the vendor to their bid price, noting any amendments would go before the Commission for approval.

Item #8J – Auto Renewal - Yellowstone Landscape Grounds Maintenance Agreement

City Clerk Susan C. Dauderis read:

Disposition Item: Auto Renewal - Yellowstone Landscape Grounds Maintenance Agreement

**Commissioner Sargent moved, seconded by Commissioner Tolland, to approve Disposition Item 8J.**

Commissioner Sargent voiced concerns regarding the lack of updated documentation, including new required forms, updated scope of service, and current Certificate of Insurance. He requested a map of the service areas moving forward to better understand the entire scope of service. He inquired if the contract should go out to bid. He requested the item be tabled until the proper documentation was provided.

Mr. Robert Carolin, Leisure Services Director, noted the contract included in the packet was the original contract from 2012 and explained he could provide the missing documentation.

Commissioner Sargent expressed the need for all related documents for the Commission to make informed decisions.

Mayor Leslie inquired when the contract was set to expire; whereby, Mr. Carolin stated the contract was on an auto-renewal on October 1 every year, meaning it was a year-to-year contract and needed a 90-day notice to the vendor.

Mr. Carolin stated if it was the Commission's desire to bid it out, he requested time to be able to do so properly.

Commissioner Tolland inquired how long it would take to gather all required information to be able to properly bid out the contract, noting she would support bringing the item back once all documentation was received for the renewal and bringing it back next year as a bid item. She voiced support of the current vendor.

**Commissioner Sargent and Commissioner Tolland withdrew their motion and second.**

**Commissioner Sargent moved, seconded by Commissioner Tolland, to Table Disposition Item 8J.**

| | | |

Item #10 – Discussion and Direction Items

Item #10A – Repeal of Plastic Straws Ordinance

Ms. Shanahan stated the item was for the Commission to discuss and provide feedback to staff regarding repealing the straw ordinance.

**Commissioner Deaton moved, seconded by Commissioner Sargent, for staff to bring back an ordinance to repeal the current Plastic Straw Ordinance.**

Commissioner Sargent stated the ordinance was more an educational ban and was unneeded.

Commissioner Deaton explained she did not prefer the paper straws and would like the option for residents and vendors to choose which they would prefer.

Item #11 – Reports, Suggestions, Requests

Events, Updates, and Requests
Ms. Joyce Shanahan, City Manager, provided details on upcoming meetings, workshops, events, and updates on city projects.

Commissioner Sargent requested staff to address Ms. Robin's concerns regarding the flooding off Hull Road; whereby, Mr. Finley explained the city was working with Volusia County and their Transform 386 program. Mr. Finley provided updates as to where the Hull Road project was at and the timeline. Commissioner Sargent discussed events he attended, upcoming events, and updates on city projects. He asked if there was an update on the Wilmette Avenue property he proposed for the city to purchase; whereby, Mr. Finley stated staff was waiting on the second appraisal to be completed. He congratulated Mr. Manis on being Volusia County's Volunteer of the Year.

Commissioner Deaton expressed concerns regarding the traffic around the Nova Community Center near the Magic Rainbow Park. She congratulated the three Home Rule Hero award recipients. She thanked all those who assisted her after her medical leave from the May 20, 2025, City Commission meeting.

Commissioner Briley provided updates from the Transportation and Planning Organization. He briefly commented on Ms. Bobak's zoning concerns; whereby, Mr. Randy Hayes, City Attorney, clarified the matter would be brought before the Commission at a later date.

Commissioner Tolland stated she would no longer discuss the events and meetings she attended for efficiency and would be happy to discuss them with any citizen who requested an update. She congratulated the Boys State Delegates and Citizen's Academy participants. She thanked Mayor Miller for presenting the Home Rule Hero awards at the meeting, noting the entire Commission advocates at the state level for the residents. She expressed her gratitude and support of the Riverbend Trail system volunteers and their hard work on the mountain bike trail. She congratulated Mr. Manis on his award and Mr. Livingston Edwards on his Employee of the Year award from Volusia County. She thanked Ms. Truilo for her comments on Item 7A. She provided updates from a discussion she had with a representative from the Florida Department of Transportation. She announced the Florida League of Cities recently opened applications for their policy committees and encouraged the Commission to apply to any

committee they were interested in. She inquired if there was an update on the letter to Volusia County regarding the lifeguards; whereby, Ms. Shanahan stated there was no update.

Mayor Leslie congratulated the Citizen's Academy participants and the Boys State Delegates. He reviewed the events he attended. He thanked the Riverbend Trail volunteers for their work and congratulated Mr. Manis on his award. He congratulated the Home Rule Hero Award recipients.

Airport Property – Golf Course

Commissioner Sargent inquired if the revised Federal Aviation Administration (FAA) letter from the May 20, 2025, City Commission meeting had been sent; whereby, Ms. Shanahan stated a draft of the letter would be sent to the Commission and sent to the FAA by the end of the week. He asked if the Commission would approve him reaching out to the Florida Golf Coast University's Golf Management Program to ask questions and gather data and research if the airport property was allowed to house a golf course; whereby the Commission agreed he could do research as long as there was no cost to the city and he did not speak on behalf of the Commission.

Technology and Artificial Intelligence Advisory Board

Commissioner Sargent requested staff bring back information on what it would take to create a Technology and Artificial Intelligence (AI) Advisory Board; whereby, Commissioner Tolland expressed support of the idea, noting concerns of underutilization of other advisory boards.

Ms. Shanahan stated staff could research and bring back information on the proposed board; whereby, Mayor Leslie confirmed the Commissions interest for staff to do so.

Tobacco Free Volusia

Commissioner Tolland stated the Commission received an email from Tobacco Free Volusia requesting the city look into their policies of smoking in the city parks and to revise to include vaping as part of the restriction. She inquired if the Commission was agreeable to updating the policy.

Commissioner Briley expressed support of the no vaping, noting it could fall under the no smoking areas.

Commissioner Deaton and Mayor Leslie acknowledged support of the request.

Mr. Hayes stated he would bring something back to the Commission.

Item #12 – Adjournment

The meeting was adjourned at 8:46 p.m.

Summary

On June 3, 2025 the City Commission tabled this item until further financial information could be brought back for their consideration. Additional cost comparisons were gathered from surrounding Volusia County cities and included in the financial impact section below.

This is a request for approval of the first of 4 one-year renewals of the agreement with the Volusia County School Board (VCS) regarding shared funding of the salary and benefits of a School Resource Officer (SRO) position at Ormond Beach Middle School (OBMS).

In 2017, a Memorandum of Understanding (MOU) was established between the City of Ormond Beach and VCS, wherein the City agreed to staff the SRO position at OBMS using a Community Oriented Policing Services (COPS) grant. This grant provided funding for 3 years. As stipulated in the MOU, upon the grant's expiration, the City and VCS negotiated and executed a new agreement on August 20, 2019, Resolution 2019-151, with shared funding between VCS and the City for the SRO position. When the contract expired at the conclusion of the 2023-2024 school year, the current contract between the City and VCS was executed on August 27, 2024, for a period of one year with four one-year renewals.

The SRO plays a crucial role in enhancing the safety and well-being of both OBMS and the broader Ormond Beach community. The services provided by the Ormond Beach Police Department through the SRO ensure continuity and a dedicated presence in the school, facilitating real-time identification and reporting of student issues.

**Benefits for Middle School Students:**

- **Safety & Security:** The SRO ensures a safe learning environment, deterring violence, bullying, and misconduct, allowing students to focus on their education without fear.
- **Positive Role Model:** The SRO serves as a trusted figure, demonstrating positive behavior, ethical decision-making, and respect for the law, thus exemplifying good citizenship.
- **Support & Mentorship:** Beyond their law enforcement duties, SROs act as mentors and counselors, providing advice, guidance, and support to students facing personal or academic challenges.
- **Educational Resource:** SROs participate in classroom activities, helping students understand the consequences of their actions and fostering respect for the legal system.
- **Conflict Resolution:** Trained in conflict resolution, SROs mediate disputes between students, resolving issues peacefully and constructively.

**Benefits for the Police Department:**

- **Efficient Handling of Issues:**With an SRO on-site, many discipline and minor criminal issues can be addressed immediately, reducing the need for external police intervention. This efficiency allows the police department to allocate resources more effectively.
- **Relationship Building:** SROs help build positive relationships between the police department and the community. Students and staff see police officers as approachable and helpful, fostering trust and cooperation.
- **Early Intervention:** SROs can identify and address issues before they escalate into more serious problems, allowing for early intervention strategies that can prevent future criminal behavior.
- **Consistent Presence:** Having a consistent officer in the school creates stability. The SRO becomes familiar with the students, staff, and the specific dynamics of the school, allowing for more personalized and effective policing.

**The Importance of Continuity:**

- **Trust & Familiarity:**When a single SRO serves a school over an extended period, they build strong relationships with the student population. This continuity fosters trust and makes students more likely to seek help and confide in the officer.
- **Understanding Student Needs:** A continuous presence allows the SRO to understand the unique needs and challenges of the student body. This knowledge helps them to provide tailored support and intervention.
- **Role Model & Positive Interaction:** Consistent interaction with a single officer helps students view the police positively. The SRO's regular presence breaks down stereotypes and builds a bridge between young people and law enforcement.
- **Community Cohesion:** A familiar SRO becomes an integral part of the school community, participating in events, activities, and day-to-day school life. This involvement strengthens the bond between the school and the police department.

<u>Financial Impact</u>

The agreement with VCS assists in offsetting the cost of the SRO. The City and VCS have agreed to equally share the cost of the SRO's salary and benefits, which would be adjusted annually to reflect changes in salaries and benefit costs. The current financial details are as follows:

| | |
|---|---|
| Hourly rate, including benefits: | $37.45 per hr |
| Billable Hours (8 hrs per day x 181 days): | 1,448 hrs |
| Total Cost: | $54,227.60 |
| 50% of Cost: | $27,113.80 |

A review of other cities within VCS, where secondary schools are located, was conducted to determine the fees/percentage of their assigned SRO(s) salaries paid by the municipality and VCS.

| City | Paid by Municipality | Paid by School Board |
|---|---|---|
| Ormond Beach | 50% | 50% |
| Daytona Beach | 50% | 50% |
| Deland | 50% | 50% |
| Orange City | 50% | 50% |
| New Smyrna Beach | 50% | 50% |
| South Daytona | 50% | 50% |
| Port Orange | 50%* | 50%* |

*Negotiations are still in progress for the initial contract between Port Orange and VCS.

Citizen Impact

An SRO is a sworn police officer responsible for preventing crime and responding to emergency situations on the school campus. The SRO serves as a community liaison and mentor to the student body. The SRO can provide investigative information to patrol officers and investigators. The SRO builds a rapport with students, allowing them to be more comfortable in a setting with law enforcement in the future.

**RESOLUTION NO. 2025-98**

A RESOLUTION AUTHORIZING THE EXECUTION OF A CONTRACT RENEWAL OF A SCHOOL RESOURCE OFFICER AGREEMENT BETWEEN THE CITY OF ORMOND BEACH AND THE SCHOOL BOARD OF VOLUSIA COUNTY; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS**, by Resolution 2024-106, the City and the School Board of Volusia County entered into a School Resource Officer Agreement with an effective date of July 1, 2024, and

**WHEREAS,** the initial term of the contract was for five years with the option to renew for four additional one-year periods, and

**WHEREAS**, the City's professional staff recommends that the City exercise the first renewal option for the period July 1, 2025 through June 20, 2026, and

**WHEREAS**, the City Commission concurs with the said recommendation, and finds that renewing the School Resource Officer Agreement with the School Board of Volusia County is in the best interest of the health, welfare and safety of the general public, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE.** The Mayor and City Manager are hereby authorized and directed to execute a Contract Renewal for a one-year renewal of the School Resource Officer Agreement with the School Board of Volusia County. A copy of said Contract Renewal is attached hereto and incorporated herein by reference.

**SECTION TWO.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025.**

**CITY OF ORMOND BEACH**
**SRO CONTRACT RENEWAL**

This Agreement is made this _____day of _____2025, between the **CITY OF ORMOND BEACH**, a Florida municipal corporation with a mailing address of 22 S. Beach Street, Ormond Beach, Florida 32174 (hereinafter the "City") and the **SCHOOL BOARD OF VOLUSIA COUNTY, FLORIDA** with a mailing address of Post Office Box 2118, DeLand, Florida 32721- 2118 (hereinafter the "School Board").

**WHEREAS**, the City and the School Board entered into that certain SCHOOL RESOURCE OFFICER AGREEMENT (FY 2024-2029), executed by both parties on August 27, 2024 (hereinafter the "SRO Contract"); and

**WHEREAS**, Section 1 of the SRO Contract stated the term would be one (1) base year with four (4), one (1) year renewal options, upon mutual agreement; and

**WHEREAS**, the City and the School Board desire to renew the SRO Contract for one (1) additional year (FY 2025-2026), with all other provisions of the SRO Agreement remaining unchanged;

**NOW, THEREFORE**, in consideration of the mutual covenants hereinafter contained, the parties agree as follows:

1. **Section 1, Term** of Agreement shall be amended to: The term of this Agreement is five (5) years with one (1) base year and four (4), one (1) year renewal options starting on July 1, 2024, and ending June 30, 2029, for a total of five (5) years. The first year of the five (5) year term has been completed, and the parties have agreed to renew the contract for one (1) year which leaves three (3) additional renewal options remaining. Automatic renewals are not part of this Agreement, and any renewal must be mutually agreed upon by both parties in writing.

2. Except as herein expressly modified, the Agreement for SRO Contract approved on August 27, 2024, shall otherwise remain in full force and effect, subject to all terms and conditions therein.

**RESOLUTION NO. 2024-106**

A RESOLUTION AUTHORIZING AND DIRECTING THE EXECUTION OF AN INTERLOCAL AGREEMENT BETWEEN THE SCHOOL BOARD OF VOLUSIA COUNTY AND THE CITY OF ORMOND BEACH FOR THE JOINT FUNDING OF A SCHOOL RESOURCE OFFICER POSITION AT THE ORMOND BEACH MIDDLE SCHOOL; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS**, the Florida Interlocal Cooperation Act of 1969, *Section 163.01, Florida Statutes*, authorizes any public agency of the State of Florida to exercise jointly with any other public agency, any power, privilege, or authority which said agencies share in common and which each may exercise separately, and

**WHEREAS,** the provision of such power, privilege, or authority includes the provision of services and the use, operation and maintenance of real and personal property, and

**WHEREAS,** the execution of an Interlocal Agreement with the School Board of Volusia County regarding the joint funding of a school resource officer at the Ormond Beach Middle School will benefit the health, safety, and welfare of the citizens (a copy of said Agreement is attached hereto and incorporated herein by reference), and,

**WHEREAS**, the annual compensation for the school resource officer is $54,227,60, and

**WHEREAS**, the City and the School Board of Volusia County have agreed to equally share the cost of the school resource officer's compensation, and

**WHEREAS,** the City Manager has certified that $27,113.80 to cover the city's portion of the compensation has been appropriated to the General Fund and is not appropriated for any other purpose, now therefore,

**BE IT RESOLVED BY THE PEOPLE OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE.** The City Commission hereby authorizes and directs the Mayor and the City Manager to execute an Interlocal Agreement with the School Board of Volusia County regarding the joint funding of a school resource officer at the Ormond Beach Middle School and to pay the cost therefor from the General Fund.

**SECTION TWO.** This Resolution shall take effect immediately upon its adoption.

**VOLUSIA COUNTY SCHOOL BOARD AND THE CITY OF ORMOND BEACH**
**SCHOOL RESOURCE OFFICER AGREEMENT**

**THIS AGREEMENT** is made and entered into between the School Board of Volusia County, hereinafter referred to as **"School Board"** and the City of Ormond Beach, hereinafter referred to as **"City"**.

**RECITALS**

**WHEREAS,** the parties want to enter into an Agreement for the performance of law enforcement functions provided by a School Resource Officer hereinafter described; and

**WHEREAS,** the City agreeable to provide personnel to perform the duties and responsibilities of a School Resource Officer; as described herein; and

**WHEREAS,** the School Board agrees to compensate the City for School Resource Officer (SRO) Program costs; and

**WHEREAS,** the Cityagrees to receive monies from the School Board and to budget such monies to the City Police Department for services rendered to the School Board; and to budget one (1) School Resource Officer to be split funded by the School Board at fifty percent (50%) and the City at fifty percent (50%); and

**WHEREAS,** the parties have approved the School Resource Officer Program as a viable program and their approval is not construed as a permanent obligation;

**WHEREAS,** § 1002.22(2) and § 1002.221, Florida Statutes, provide that education records created, maintained or used by public educational institutions and agencies shall be protected in accordance with the Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g, and the implementing regulations issues pursuant thereto; and § 1002.221 permits a public school, center, institution, or other entity that is part of Florida's education system to release a student's education records without written consent of the student or parent to parties to an interagency agreement; and

**WHEREAS,** the Uninterrupted Scholars Act (USA), 20 USC 1221, amending FERPA, permits access to a student's records by an agency caseworker or other representative of a child, who has the right to access a student's case plan, when such agency is legally responsible in accordance with state law for the care and protection of the student, provided that the student records or information will not be disclosed by such agency except to address the student's

education needs in accordance with the law; and

**WHEREAS,** Title 34 CFR §99.31(a)(5)(i)(B) and §99.38(a) and (b) permit an educational agency or institution to disclose personally identifiable information from an education record of a student without written consent of the parent or eligible student if the disclosure is to state and local officials or authorities to whom this information is specifically allowed to be reported or disclosed pursuant to a state statute adopted after November 19, 1974, and concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records are released; and

**WHEREAS,** §985.04(1), F.S., requires the sheriff, chiefs of police and district school superintendent in each county to enter into an interagency agreement for the purpose of sharing information about juvenile offenders among all parties, to specify the conditions under which summary criminal history information is to be made available to appropriate school personnel, to specify the conditions under which school records are to be made available to appropriate departmental personnel, and to provide for notification to any classroom teacher of assignment to the teacher's classroom of a juvenile who has been placed in a probation or commitment program for a felony offense; and

**WHEREAS,** §1003.53(6), F.S., addresses the exchange of information and/or coordination of services between school districts, and with social service, law enforcement, prosecutorial and juvenile justice agencies and juvenile assessment centers in the school district; and

**WHEREAS,** §1006.13 (4)(a), (b) and (c), F.S., requires each district school board to enter into agreements with the county sheriff's office and local police departments specifying guidelines for ensuring that acts that pose a serious threat to school safety, whether committed by a student or adult, are reported to a law enforcement agency, and addressing the role of school resource officers, if applicable, in handling reported incidents, circumstances in which school officials may handle incidents without filing a report with a law enforcement agency, and a procedure for ensuring that school personnel properly report appropriate delinquent acts and crimes; while creating zero tolerance policies that do not require the reporting of petty acts of misconduct and misdemeanors to law enforcement agencies;

**WHEREAS,** pursuant to §768.28, F.S., neither the School Board or the City waive any defense of sovereign immunity or increase of the limits of its liability upon entering into this Agreement;

**NOW THEREFORE,** in consideration of the foregoing recitals which are incorporated herein by reference, the mutual understandings and covenants set forth herein, and other specific considerations, the parties agree as follows:

1. **Term.** The term of this Agreement is for five (5) years with one base year and four (4) one (1) year renewal options starting from July 1, 2024 through June 30, 2029, for a total of five (5) years. The performance period beginning at the date outlined by the parties, unless earlier terminated as provided herein. The Agreement does not contain provisions for automatic renewal; any renewal option must be mutually agreed upon by both parties and approved in writing.

2. **Purpose.** The purpose of this Agreement is to foster better relations between students and law enforcement personnel; to deter crime on or about school premises by the presence of a law enforcement officer; to enforce local, state and federal laws, and to have a School Resource Officer available for presentations to the students, faculty and parents concerning law enforcement and various subjects related to the law. The School Resource Officer shall maintain a highly visible uniformed presence while on duty at the school sites.

3. **Termination.** This Agreement may be terminated by any party at any time, with or without cause, upon not less than sixty (60) days written notice delivered by Certified Mail, Return Receipt Requested, or in person to the other party; or, otherwise terminated upon any other manner approved in writing by both parties to this Agreement.

4. **Services.**

(a) The City agrees to provide the School Board one (1) full time School Resource Officer, eight (8) hours per day for one hundred eighty-one (181) school contract days, excluding summer school for the compensation described in Paragraph 9 herein. Daily hours for School Resource Officer is primarily 9:00 a.m. to 5:00 p.m. Monday through Friday at the Ormond Beach Middle School. The City will make every effort to have the School Resource Officer position filled at the beginning of the school year and throughout the term of this Agreement, dependent upon staffing availability.

(b) It is agreed that there are occasions when it is not possible to staff a particular school with a School Resource Officer. This may be due to medical reasons, extended training assignments or termination resulting in a position vacancy. It is

also agreed that, whereupon it is determined that filling a temporary School Resource Officer vacancy is critical to maintaining the safe and orderly environment of the school, a School Resource Officer from another location may be reassigned by the City in part or total to fill the vacancy until a replacement can be found.

(c) It is agreed that there are occasions when it is necessary for the School Resource Officer to work in excess of their normal duty assignment, such as providing security details for graduation ceremonies. It is agreed by the City that inclusive of this Agreement there will be a maximum of twenty (20) hours of overtime hours authorized per School Resource Officer during the term of the Agreement. The decision regarding the accumulation of this overtime allocation will be at the discretion of the School Board representative, the principal of the effected school and the City's Police Chief's representative. Advanced approval from the School Board representative will be required for a School Resource Officer to earn overtime. The overtime allocation described herein shall be applicable and consistent with the School Resource Officer's daily responsibilities and/or for after school activities which by mutual agreement may be outside the scope of the School Resource Officer's daily activities performed at his/her assigned school. Such outside detail activities and any hours in excess of the twenty (20) hours prescribed herein will be billed to the School Board at the rate of $45.00 per hour for services provided by the School Resource Officer assigned to Ormond Beach Middle School . All overtime costs shall be funded one hundred (100%) by the school.

(d) The administration of student discipline, including student code of conduct violations and student misbehavior, is the responsibility of the school administrators, unless the violation or misbehavior involves criminal conduct. The School District encourages the use of Civil Citations for eligible students. The school district utilizes the Incident Command structure with established Emergency Operations Plans when responding to an all hazards approach to emergency management.

(e) The City shall develop and expand crime prevention efforts for students and shall serve as a liaison between the school and other first responders, investigative units

and/or juvenile justice authorities when necessary and consistent with applicable civil rights and privacy laws. The School Resource Officer shall be part of the School Multidiscipline School Safety and Security team and shall assist in school responses to emergency issues to include referring students to professional services both within and outside the School Board.

(f) The School Board will share information on an as needed basis to the School Resource Officer to ensure resolution on open investigations being conducted by the Schoo1 Resource Officer. All Federal privacy laws, including Family Educational Rights and Privacy laws, HIPAA and FERPA, will be followed.

(g) The School Resource Officer will follow the City's Police Department's Chain of Command structure or command staff as designated by the City's Chief of Police.

(h) The City agrees to ensure that all School Resource Officer(s) assigned under the terms of this Agreement will be available for, and participate in VCS trainings related to the role of law enforcement on campus and working with students with disabilities. VCS required School Safety Officer trainings applicable to School Resource Officer(s) include: "Understanding Autism: SRO/SRD/Guardians" and "Serving Students with Disabilities: SRO/SRD/Guardians" and "Threat Management Training: SROs/SRDs". VCS shall provide at its expense all school-based trainings for serving students with disabilities. School Resource Officers shall participate in said school-based trainings before interacting with students on campus, or in extreme circumstances within 30-days of appointment."

5. **Other Considerations.** The City Commission, it's Police Chief and the School Board recognize that opportunities may materialize whereby it is in the best interest of City and County taxpayers to modify this Agreement for considerations outside the scope of the School Resource Officer Program.

6. **Cooperation.**

(a) It is agreed that the City shall have all reasonable and necessary cooperation and assistance from the School Board, its officers, agents, and employees so as to facilitate the performance of this Agreement.

(b) It is agreed that the School Board shall have all reasonable and necessary cooperation and assistance from the City, it's officers, agents, and employees so as

to facilitate the performance of this Agreement.

(c) Although School Resource Officers have an assigned school site, they are subject to temporary relocation on an as-needed basis with the concurrence of the District Superintendent or designee, and the Chief of Police or designee.

7. **Personnel/Equipment.** It is understood that any personnel assigned to perform the duties under the terms and conditions of this Agreement are functioning at all times as a member of the City of Ormond Beach Police Department and are subject to City's department supervision and rules and regulation. In addition, all equipment purchased and utilized by the City in performance of this Agreement is and shall remain the property of City of Ormond Beach unless otherwise specified within this Agreement. The School Board shall provide the School Resource Officer with office space to include a desk, phone, computer, and two-way radio utilized by the school site safety and security team members. Access to programs utilized by the school district shall be provided to ensure the sharing of critical information and comply with all laws, rules, and regulations to include HIPAA and FERPA.

8. **Off Campus Activities.** It is recognized that during the course of the school year, the School Resource Officer may be required to attend meetings and training that support their professional certification and/or the School Resource Officer Program. Where possible, training will take place when school is not in session. A School Resource Officer may not elect to participate in additional training activities or other non-mandatory events that take them away from the campus without the approval of the school principal and the Police Chief's representatives. In these cases, the time away from the school will be deducted from the monthly billing.

9. **Compensations and Payment.** The School Board hereby agrees to share to compensate the City at a rate of fifty percent (50%) for all services provided herein at the established rate of $37.45 per billable hour. The total Agreement price for the specified term shall be $27,113.80 numerated as follows:

| | |
|---|---|
| Hourly Rate: | $37.45 |
| Billable Hours: | 1,448 |

| | |
|---|---|
| One (1) SRO at 8 hours, 181 days | $54,227.60 |
| Total Billable | $54,227.60 |
| **Total Agreement Price** | **$27,113.80 (50% of total billable)** |

(a) All payments from the School Board to the City provided herein, for the Base Year, and each renewal option year thereafter shall be subject to adjustment, upon written agreement by the parties, dependent upon changes to City's expenses to provide the services herein.

(b) Payment shall be made in ten (10) monthly payments by the School Board upon receipt of the City Billing invoice.

(c) Upon the completion of the agreement year, the City shall reconcile actual costs and remit to the School Board any monies due (i.e. vacancies,) or request an agreement modification to increase compensation if final costs exceed the amount budgeted. Monthly City employee time records will be submitted to the School Board Representative for payment processing. If the School Resource Officer is absent, the monthly billing will reflect the absence and the monthly billing will reflect a deduction of the hours not worked prior to the billing being sent to the School Board Representative for payment.

10. **Management Reports.** Any reports required under this Agreement shall be discussed and mutually agreed upon by both parties prior to implementation. The City of Ormond Beach shall be responsible for maintaining records related to training in accordance with HB 1473 (2024), Fla. Stat. §30.15 (2024).

11. **Reporting Crimes and Delinquent Acts.** The School Board and the City Police Department shall adhere to F.S. 1006.12 (School Resource Officer and School Safety Officers) and F.S. 1006.13 (Policy of zero tolerance for crime and victimization). Accordingly, it is agreed by the parties that school personnel will report to the School Resource Officer all delinquent acts and crimes occurring whenever students are under the jurisdiction of the school. If a School Resource Officer is not present or available, a report shall be provided to the appropriate law enforcement agency and a copy of such

report shall be provided to the School Resource Officer.

12. **Safeguarding The Confidentiality of Shared Student Records.** The parties acknowledge that Sections 1002.022, 1002.221 and 1002.222, Fla. Stat. and the Family Educational Rights and Privacy Act (FERPA, 20 U.S.C. § 1232g) and its implementing regulations (34 C.F.R. Part 99), protect the privacy rights of students and their parents with respect to information and records created and/or maintained by public schools. The parties further acknowledge that the federal Health Insurance Portability and Accountability Act of 1996 ("HIPAA") and the Health Information Technology for Economic and Clinical Health Act of 2009 ("HITECH Act") (H1PAA and HITECH Act are collectively referred to herein as "HIPAA") protect the privacy of students' individually identifiable health information ("PHI") and may be applicable to student records in certain circumstances. The student personally identifiable information ("PII") may be disclosed only in compliance with FERPA as it applies to the Parties and PHI may be disclosed only in compliance with HIPAA, where required by law. Pursuant to FERPA, the information provided by VCS shall be limited to that which is necessary to effectively serve the student.

Each party participating in this Agreement agrees to:

(a) Hold the student records and information in strict confidence and not use or disclose except as required by this Agreement or required by law and that except when the parent of a student provides prior written consent for its release. All shared student records will be disclosed only to employees of the agency who have a need to access the information in order to perform their official duties as authorized by law. Absent consent from the parent or eligible student, student records and information will not be disclosed except as allowed by the aforementioned laws.

(b) Safeguard the student records through administrative, physical and technological safety standards to ensure adequate controls are in place to protect the student information in accordance with FERPA's privacy requirements and the students' PHI in accordance with HIPAA's privacy requirements.

(c) Continually monitor its operations and take all actions necessary to assure that the student information and records are safeguarded in accordance with the terms of this Interagency Agreement.

(d) To use the shared information to facilitate the collection and analysis of the data in order to track shared clients, better coordinate individual care, and address barriers and needs across systems to better serve the student. Specifically, by sharing

data the parties can identify barriers, leverage existing resources, and coordinate overall care to better serve the student.

(e) Ensure that all employees, appointees or agents of any party who are granted access to shared student records will have successfully completed (1) background screening requirements under Section 435.04, Florida Statutes, under Level 2 screening standards; and (2) A FERPA training webinar, which is available at the U.S. Department of Education, Privacy Technical Assistance Center website: http://www2.ed.gov/policy/gen/guid/ptac/index.html, http://ptac.ed.gov/ including, but not limited to, http://www2.ed.gov/policy/gen/guid/ptac/pdf/slides.pdf

(f) Each party agrees to notify the other party immediately upon discovery of a breach of confidentiality of student information and to take all necessary notification steps as may be required by federal and Florida law. A breach of the confidentiality requirements shall constitute grounds for immediate termination of this Agreement without advance notice.

This section shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until such student records are returned to VCS
or disposed of in compliance with HIPAA and the applicable Florida Statutes.

13. **Indemnification.** Subject to the limitations contained in Fla. Stat. § 768.28, each party agrees to be responsible, to the extent permitted by law, for its acts of negligence, or its agents' acts of negligence when acting within the scope of their employment and agrees to be liable for any damages resulting from said negligence. Nothing contained herein shall be construed to extend liability to the other party for any incidental, consequential, special, exemplary, or punitive damages, however caused under any theory of liability, whether in contract, strict liability, or tort including negligence or otherwise for any matter arising from or relating to the Agreement or the service terms provided herein. This section shall survive the termination of all performance or obligations under this Interagency Agreement and shall be fully binding until such time as any proceeding brought on account of this Interagency Agreement is barred by any applicable statute of limitations.

14. **Notice of Arrests and Citations.**

**A. Arrest and Citation of Students or School Employees on School Grounds During Hours of School Operation**

When a student or school employee is arrested or receive a citation on school

grounds during the time of normal school operation, notification of the arrest or citation will be provided to the building principal or designee on a confidential basis.

**B. Arrest or Citation on Non-Students on School Ground**

When a person other than an enrolled student or school employee is arrested or receives a citation on school property, the building principal or designee will be advised of the circumstances of the offense and the identity of the offender.

**C. Arrests and Citations of Students or School Employee off School Grounds During Operating School Hours**

Where a student or school employee is arrested off of school property during times of normal school operation or under circumstances which would lead the arresting or citing officer to believe that the person arrested is a student or a school employee, and that a school official is responsible for the care or custody of the student at the time of the incident or that the school employee is on duty, the officer shall, as soon as is practicable, provide notification of the incident to the building principal or designee of the school to which the student is enrolled or the school employee is employed.

**D. Confidentiality of Information Provided to Building Principal**

In all instances of building principal notifications described in Sections 4.01, 4.02, and 4.033, above, the principal or designee shall not disseminate the information received from the arresting or citing officer.

15. **General Conditions.**

**A. No Waiver of Sovereign Immunity.** Nothing herein is intended to serve as a waiver of sovereign immunity by any agency or political subdivision to which sovereign immunity may be applicable or of any rights or limits to liability subject to the limited waiver as codified in Section 768.28, Florida Statutes. This section shall survive the termination of all performance or obligations under this Interagency Agreement and shall be fully binding until such time as any proceeding brought on account of this Interagency Agreement is barred by any

applicable statute of limitations.

**B.** **Statement of Non-Discrimination.** The parties agree that no person shall be subjected to discrimination because of age, race, color, disability, gender identity, gender expression marital status, national origin, religion, sex or sexual orientation in the performance of the parties' respective duties, responsibilities and obligations under this Interagency Agreement.

**C.** **Compliance with Laws.** Each party shall comply with all applicable federal and state laws, School Board policies, codes, rules and regulations in performing its duties, responsibilities and obligations pursuant to this Interagency Agreement.

**D.** **Governing Law and Venue.** This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Any controversies or legal matters arising out of this Interagency Agreement and any action involving the enforcement or interpretation of any rights hereunder shall be submitted to the jurisdiction of the State courts of the Seventh Judicial Circuit of Volusia County, Florida.

**E** **Binding Effect.** This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns.

**F.** **Assignment.** Neither this Agreement nor any interest herein may be assigned, transferred, or encumbered by any party without the prior written consent of the other party. There shall be no partial assignments of this Agreement.

**G.** **Captions.** The captions, section designations, section numbers, article numbers, titles and headings appearing in this Agreement are inserted only as a matter of convenience, have no substantive meaning, and in no way, define, limit, construe or describe the scope or intent of such articles or sections of this Agreement, nor in any way effect this Agreement and shall not be construed to create a conflict with the provisions of this Agreement.

**H.** **Severability.** In the event that any one or more of the sections, paragraphs, sentences, clauses or provisions contained in this Agreement is held by a court of competent jurisdiction to be invalid, illegal, unlawful, unenforceable or void in any respect, such shall not affect the remaining portions of this Agreement and the same shall remain in full force and effect as if such invalid, illegal, unlawful, unenforceable or void sections, paragraphs, sentences, clauses or provisions had never been included herein.

**I.** **Preparation of Agreement.** The parties acknowledge that they have sought and obtained whatever competent advice and counsel as was necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to herein expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.

**J.** **Amendments.** No modification, amendment, or alteration in the terms or conditions contained herein shall be effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by each party hereto.

**K.** **Waiver.** The parties agree that each requirement, duty and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement shall not be deemed a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. A written waiver shall only be effective as to the specific instance for which it is obtained and shall not be deemed a continuing or future waiver.

16. **Entire Agreement**.

(a) It is understood and agreed that the entire Agreement of the parties is contained herein and that this Agreement supersedes all oral agreements and negotiations between the parties relating to the subject matter hereof, as well as any previous agreements presently

in effect between the parties, relating to the subject matter hereof.

(b) Any alterations, amendments, deletions, or waivers of the provision of the Agreement shall be valid only when expressed in writing and duly signed by the parties.

17. **Notices.** Whenever any party desires to give notice unto the other, notice may be sent to:

| **For the School Board** | **With Copy To** |
|---|---|
| School District of Volusia County<br>Office of the Superintendent<br>Post Office Box 2118<br>DeLand, FL 32721-2118 | The General Counsel<br>School District of Volusia County<br>Post Office Box 2118<br>DeLand, FL 32721-2118 |

Any of the parties may change by written notice the addresses or persons for receipt of notice.

(a) **Appropriation Contingency.** Notwithstanding any other term or provision of this Agreement, the continuation of this Agreement beyond a single fiscal· year is subject to the appropriation and availability of funds in accordance with Chapter 287.0582, Florida Statutes. Anytime funds are not appropriated for the services provided or to be provided under this Agreement, this Agreement shall be caused to automatically terminate as of the first day following the last month so funded.

(b) **Agreements With Other Agencies:** If the School Board executes an Agreement between the School Board and another municipality within the school district for the provision of the same or substantially the same services, terms and conditions provided in this Agreement and that Agreement provides more favorable cost share split than that which is set forth in paragraph 9 (a) above, the School Board shall increase the City's percentage split so as to be equal to that which is provided to the other municipality.

**SIGNATURES ON NEXT PAGE**

**IN WITNESS WHEREOF,** the parties hereto, by their duly authorized representatives, have made and executed this instrument in three (3) counterparts for the purpose herein expressed on the dates indicated below.

Summary

This is a request to authorize the submittal of an online grant application for drainage improvements to North John Anderson Drive to the Federal Emergency Management Agency (FEMA) Hazard Mitigation Grant Program (HMGP) under Federal Disaster declaration for Hurricane Milton (FEMA-4834-DR-FL). The HMGP provides grants to local governments to implement long-term hazard mitigation measures after major disaster declarations.

Many of the homes along the east side of John Anderson Drive (803-1015) between Standish Drive and Jill Allison Circle are constructed in, or immediately adjacent to, depressional flood prone areas. This project was identified in the City's previous May 2009 Stormwater Master Plan Update and would provide a drainage outlet to existing stormwater infrastructure.

This project is intended to reduce localized flooding in the drainage basin that is bounded by John Anderson Drive (West), Standish Drive (South), N. Halifax Drive (East), and Dormont Drive (North). Twelve properties have been identified that will positively benefit from these improvements including one repetitive loss property located at 825 John Anderson Drive. Claims have also been filed through the NFIP for 815 John Anderson Drive. This project will furnish and install storm inlets at the bottom of four depressional storage areas and connect to the existing storm system for discharge. The project also includes associated driveway repairs and restoration.

Application criteria require that state/local governments have an approved Local Mitigation Strategy (LMS) to be eligible to apply and require that projects submitted are a part of the LMS. The City participates in the Volusia County LMS and these projects were submitted, approved,

and are included in the LMS project listing attached. Since Volusia County was directly affected by Hurricane Milton, projects within Volusia County are eligible for Tier 1 funding. The deadline for application submittal to the Florida Department of Emergency Management (FDEM) is July 25, 2025.

Financial Impact

If approved, FEMA will pay up to 75% of the cost. Cost is estimated to be $417,884.00 (HMGP share $313,413; City share $104,471). Funding is available from project funding in the Capital Improvement Program budget submitted for Fiscal Year 2025-2026, in the estimated amount.

Citizen Impact

This project would help mitigate potential flooding to approximately 12 homes.

**RESOLUTION NO. 2025-103**

A RESOLUTION AUTHORIZING THE SUBMITTAL OF A GRANT APPLICATION TO THE FEDERAL EMERGENCY MANAGEMENT AGENCY UNDER THE HAZARD MITIGATION GRANT PROGRAM FOR FUNDING ASSISTANCE TO PROVIDE DRAINAGE IMPROVEMENTS TO NORTH JOHN ANDERSON DRIVE; AUTHORIZING THE EXECUTION OF ALL DOCUMENTS INCIDENTAL THERETO, INCLUDING ANY CONTRACT NECESSARY FOR THE CITY TO ACCEPT THE GRANT AWARD; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS,** the City Commission desires to provide drainage improvements to North John Anderson Drive at an estimated cost of $417,884.00 ("the Project"), and

**WHEREAS**, the Federal Emergency Management Agency has a current grant cycle open under the Hazard Mitigation Grant Program from which the City can request maximum funding assistance in the amount of $313,413.00 (75% of Project cost), and

**WHEREAS**, the City Commission desires to submit a grant application to the Federal Emergency Management Agency under the Hazard Mitigation Grant Program (a copy of which is attached hereto and incorporated herein by reference) for the purpose of obtaining funding assistance in the amount of $313,413.00 for the Project, and

**WHEREAS**, the City is required to make a matching contribution of at least $104,471.00, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, VOLUSIA COUNTY, FLORIDA, THAT:**

**SECTION ONE.** The City Manager or her designee is hereby authorized and directed to submit a grant application, including any and all documents that are necessary and incidental thereto, to the Federal Emergency Management Agency under the Hazard Mitigation

Grant Program in the amount of $313,413.00 for funding assistance to provide drainage improvements to North John Anderson Drive.

**SECTION TWO.** The Mayor and City Manager are hereby further authorized and directed to execute any contract, including any and all documents that are necessary and incidental thereto, for the City to accept the grant award.

**SECTION THREE.** The City Manager hereby certifies that the City's matching funds in the amount of $104,471.00 will be derived from the Capital Improvement Program Fund.

**SECTION FOUR.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025**.

    **Signature**:

    **Date**:
12. Local Mitigation Strategy (LMS) Compliance
    a. All proposed projects must be included in the county's Local Mitigation Strategy (LMS) Project List, and on file with FDEM's Mitigation Bureau Planning Unit. Does your jurisdiction have a current FEMA Approved Mitigation Plan and this project is listed? ☒ Yes ☐ No
    b. Attached is a letter of endorsement for this project from the county's LMS Coordinator. ☒ Yes ☐ No
    Ensure the LMS endorsement letter contains both the Total Estimated Projects Cost (Section IV. D.), along with the Estimated Federal Share (Section IV. I.1.) allocated to this project.
    c. The LMS project list and endorsement letter both have an estimated cost column and Federal Share amount that is within $500.00 between the two. ☒ Yes ☐ No
13. Has this project been submitted under a previous disaster event? ☐ No
    ☒ Yes, provide the disaster number and project number (as applicable): FEMA-4486-DR-FL; PID-141775

## Section II – Project Description

### A. Hazards to be Mitigated / Level of Protection

1. Select the type of hazards the proposed project will mitigate:
   ☒ Flood ☐ Wind ☐ Storm surge ☐ Wildfire ☐ Other *(list):* _____

2. Identify the type of proposed project:
   ☐ Elevation and retrofitting of residential or non-residential structure
   ☐ Acquisition and Relocation ☐ Acquisition and Demolition
   ☐ Wind retrofit ☒ Drainage project that reduces localized flooding
   ☒ Generator ☐ Other (explain) _____

3. List the total number of persons that will be protected by the proposed project (*include immediate population affected by the project only*):

   **29**

4. List how many acres of "Total Impacted Area" is to be protected by the proposed project (*include immediate area affected by the project only*):

   **5.24**

5. Fill in the level of protection and the magnitude of event the proposed project will mitigate. *(e.g. 23 structures protected against the 100-year storm event (1% chance)*

   **12** structure(s) protected against the **100** -year storm event *(10, 25, 50, 100, or 500 year storm event*)

   _____ structure(s) protected against _____ mile per hour (mph) winds

6. Check **all** item(s) the project may impact:
   ☐ Wetlands ☒ Water Quality ☐ Previously Undisturbed Soil
   ☐ Floodplain ☐ Coastal Zone ☐ Toxic or Hazardous Substances
   ☐ Historic Resources ☐ Fisheries ☐ Threatened & Endangered Species
   ☐ Vegetation Removal ☐ Public Controversy ☐ Potential for Cumulative Impacts
   ☐ Health & Safety ☐ Other _____

7. ***Engineered projects:*** *If* your project has been already designed and engineering information is available, attach to your application **ALL** calculations, H&H study and design plans (e.g. Drainage Improvement, Erosion Control, or other special project types). ☐ No ☐ Yes If so, see Attachment #(s) _____.

### B. Project Description, Scope of Work, and Protection Provided (Must be Completed in Detail)

Describe, in detail, the existing problem, the proposed project, and the scope of work. Explain how the proposed project will ***solve*** the problem(s) and provide the level(s) of protection described in Part A. Also, if available, attach a vendor's estimate and/or a contractor's bid for the scope of work. ***Ensure that each proposed project is mitigation and not maintenance***.

1. Describe the existing problems:
   **This project is intended to reduce localized flooding in the drainage basin that is bounded by John Anderson Drive (West), Standish Drive (South), N. Halifax Drive (East), and Dormont Drive (North). This project, identified in the City's previous May 2009 Stormwater Master Plan Update, would provide a drainage outlet to existing stormwater infrastructure. Twelve properties have been identified that will positively benefit from these improvements including one repetitive loss property located at 825 John Anderson Drive. Claims have also been filed through the NFIP for 815 John Anderson Drive.**

2. Describe the type(s) of protection that the proposed project will provide:
   **This project places storm inlets at the bottom of the depressional storage areas; the inlets will discharge to adjacent stormwater pipes.**

3. Scope of Work (describe in detail what you are planning to do):
   **Furnish and install storm inlets at the bottom of four depressional storage areas, connect to existing storm system via 576 LF of 15-inch RCP; project includes associated driveway repairs and restoration.**

4. Describe any other on-going or proposed projects in the area that may impact, positively or negatively, the proposed HMGP Project:

## Section III – Project Location *(Fully describe the location of the proposed project.)*

### A. Site

1. Describe the physical location of this project, including street numbers (or neighborhoods) and project site zip code(s). Provide precise longitude and latitude coordinates for the site utilizing a hand-held global positioning system (GPS) unit or the equivalent:

   Site Location: **North John Anderson Drive**
   Address(es): _____
   GPS coordinates (decimal degree format): _____
   Project Zip Code(s): **32176**

2. Titleholder: _____

3. Is the project site seaward of the Coastal Construction Control Line (CCCL)? ☐ Yes ☒ No

4. Provide the number of each structure type (listed below) in the project area that will be affected by the project. Include ***all*** structures in project area.

   ☐ Residential property: _____ ☐ Public buildings: _____
   ☐ Businesses/commercial property: _____ ☐ Schools/hospitals/houses of worship: _____
   ☐ Other: _____

### B. Flood Insurance Rate Map (FIRM) Showing Project Site

| | | |
|---|---|---|
| 1. ☒ | Attach one (1) copy of the FIRM map, a copy of the panel information from the FIRM, and, if available, the Floodway Map. ***FIRM maps are required for this application (if published for your area). Also, all attached maps must have the project site and structures clearly marked on the map***. FIRMs are typically available from your local floodplain administrator who may be located in a planning, zoning, or engineering office. Maps can also be ordered from the Map Service Center at 1-800-358-9616. For more information about FIRMs, contact your local agencies or visit the FIRM site on the FEMA Web-page at https://msc.fema.gov/portal. | |
| 2. Using the FIRM, determine the flood zone(s) of the project site (Check all zones in the project area) *(See FIRM legend for flood zone explanations) (A Zone must be identified)* | | |
| ☐ | VE or V 1-30 | ☐ AE or A 1-30 |
| ☐ | AO or AH | ☐ A (no base flood elevation given) |
| ☐ | B or X (shaded) | ☒ C or X (unshaded) |
| ☐ | Floodway | ☐ |
| ☐ | Coastal Barrier Resource Act (CBRA) Zone (Federal regulations strictly limit Federal funding for projects in this Zone; coordinate with your state agency before submitting an application for a CBRA Zone project). | |
| 3. ☐ | **If the FIRM Map for your area is not published**, attach a copy of the Flood Hazard Boundary Map (FHBM) for your area, with the project site and structures clearly marked on the map. | |
| 4. ☐ | Attach a copy of a Model Acknowledgement of Conditions for Mitigation in Special Flood Hazard Area | |

### C. Maps with Project Site and Photographs

1. ☒ Attach a copy of a city or county scale map (large enough to show the entire project area) with the project site and structures marked on the map.
2. ☒ Attach a USGS 1:24,000 TOPO map with project site ***clearly*** marked on the map.
3. ☐ For **acquisition** or **elevation** projects, include copy of Parcel Map (Tax Map, Property Identification Map, etc.) showing each property to be acquired or elevated. Include the Tax ID numbers for each parcel, and Parcel information – including year built and foundation.
4. ☐ Attach photographs (at a minimum 4 photographs) for each project site per application. The photographs should be representative of the project area, including any relevant streams, creeks, rivers, etc. and drainage areas that affect the project site or will be affected by the project, and labeled. For each structure, include the following angles: front, back and both sides.

## Section IV – Budget/Costs

In order to assist applicants with filling out the following Budget section, we have provided the following instructions for your convenience. For this section, we ask that you provide details of all the estimated costs of the project, as it is used for the benefit-costs analysis as well as for the feasibility and effectiveness review.

For the cost sections relating to Materials, Labor, and Fees, it is important to note,

- Lump sums without supporting documentation showing a breakdown of those costs are not acceptable. For those items that will not fit in the spaces provided, attach the appropriate documentation to your application.
- Identify your match sources in sections B and I.
- Sub-Total cells will auto sum the costs in their respective columns.
- Do not factor management costs into parts A-C. If management costs are being requested, see part G.
- Contingency Costs need to be justified and reported as a separate line item in part E of this section. From left to right in that part, enter the desired percentage (maximum 5% of Material/Labor), the amount the percentage is to be applied to, and the resulting amount. **PLEASE NOTE**- These cells will not auto-calculate across the row, but the final cell will be calculated into the Final Project Cost below it. Take care that everything is calculated correctly.
- Pre-Award Costs: costs must be identified as a separate line item, AND a completed HMGP Pre-Award Cost Request Form MUST be submitted with this application, detailing the items/cost and requested start date.
- Mark all In-kind (donated) services with (**); In-house (employee) services with (***), per each line item.
- All funding sources (In-kind, In-house, Global Match, and Other Agencies) must be identified (below) AND identified on the Funding Sources - Section IV I.

For project management costs, in compliance with Disaster Relief and Recovery Act of 2018 (DRRA) and the subsequent FEMA Interim Policy #104-11-1, the Florida Division of Emergency Management has included a section for applicants to request, or refuse, project management funds that are available to them. Under this new policy, HMGP projects awarded under disasters declared on or after August 1, 2017, are eligible for project management costs up to 5 percent of their total project costs.

Applicants choosing to apply for this funding must detail the specific administrative costs in Part G of this section. These costs must be eligible administrative costs, conforming to the requirements set in 2 CFR Part 200 Subpart E. Applicants must ensure that their administrative costs are reasonable, allowable, allocable, and necessary for the performance of the federal award.

The State will allot these management costs on a project-by-project basis per the amount requested by the sub-recipient, up to 5 percent of the total project cost. A sub-recipient may request less than this, but no higher. These management costs will be considered a separate pool of funding, and **WILL NOT** affect a project's benefit-cost analysis.

Management costs will be reimbursed per reimbursement request, and no more than 5 percent of any given reimbursement request amount. All management costs reimbursements will be contingent upon adequate documentation from the sub-recipient.

Management costs will be reimbursed at 100 percent of the amount of management costs requested, so far as they are adequately documented and are no more than 5 percent of the request. Any unused management costs at closeout following the final payment will be de-obligated. If the final total project cost results in an under-run, management costs will be reduced accordingly.

Applicants must make the determination to request or refuse management costs at the time of formal application submittal. The State will accept the initial determination from the applicant. There will be no recourse from the State for applicants wishing to change their initial determination after the application has been formally submitted.

**A. Materials**

| *Item* | *Unit* | *Quantity* | *Cost per Unit* | *Cost* |
|---|---|---|---|---|
| 15-inch RCP | | 210 | $175.00 | $36,750.00 |
| Inlet | | 2 | $10,606.00 | $21,212.00 |
| Connect to Existing | | 1 | $5,000.00 | $5,000.00 |
| Concrete Driveway | | 4 | $1,400.00 | $5,600.00 |
| 15-inch RCP | | 440 | $175.00 | $77,000.00 |
| Inlet | | 2 | $10,606.00 | $21,212.00 |
| Concrete Driveway | | 12 | $1,400.00 | $16,800.00 |
| Asphalt (tons) | | 6 | $120.00 | $720.00 |
| 15-inch RCP | | 340 | $175.00 | $59,500.00 |
| Inlet | | 2 | $10,606.00 | $21,212.00 |
| Manhole | | 3 | 7875 | $23,625.00 |
| 15-inch RCP | | 280 | 175 | $49,000.00 |
| Inlet | | 1 | 10606 | $10,606.00 |
| | | | ***Sub-Total*** | **$348,237.00** |

**B. Labor** Include equipment costs. Indicate all "soft" or in-kind matches (**).

| *Description* | *Hours* | *Rate* | *Cost* |
|---|---|---|---|
| Labor | | | $69,647.40 |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | ***Sub-Total*** | **$69,647.40** |

**C. Fees Paid** Include any other costs associated with the project.

| *Description of Task* | *Hours* | *Rate* | *Cost* |
|---|---|---|---|
| **Pre-Award* | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | ***Sub-Total*** | **$0.00** |

**D.** **Total Estimated Project Cost** **$417,884.40**

**E.** Contingency Costs (maximum 5% of Material/Labor) %

**F.** **Final Project Cost** $417,884.40

***Note:*** *To be eligible for HMGP Pre-Award costs – the costs must be identified as a separate line item in the estimate above, AND a completed HMGP Pre-Award Cost Request Form MUST be submitted with this application, detailing the items/cost requesting.*

*Mark all In-kind (donated) services with (**); In-house (employee) services with (***), per each line item.*

*All funding sources (In-kind, In-house, Global Match, and Other Agencies) must be identified (above) AND identified on the Funding Sources - Section IV I.*

## G. Project Management Costs

Based on the amount of total project cost being requested in Part D (above), your project is eligible for up to an additional 5% of that amount for project management costs. Indicate below whether or not you would like to request these funds and follow the directions for your selected choice.

**Total Estimated Management Costs Available** (5% of Total Project Costs) *$20,894.20*
*Note: This number will be generated automatically after Part I is completed*

☒ **YES**, I would like to requests these funds (Fill out the itemized table below, then continue to Part I)*

☐ **NO**, I do not wish to request these funds. (continue to Part I)*

| *Description* | *Hours* | *Rate* | *Cost* |
|---|---|---|---|
| *City Engineer* | *54* | *$80.00* | *$4,320.00* |
| *Project Manager* | *140* | *$55.00* | *$7,700.00* |
| *Projects Coordinator* | *27* | *$40.00* | *$1,080.00* |
| *Engineering Technician* | *10* | *$45.00* | $450.00 |
| *Engineering Inspector* | *244* | *$30.00* | *$7,320.00* |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |

## H. Total Estimated Management Costs Requested *$20,870.00*

***Note:** By selecting either “yes” or “no” the applicant is acknowledging that they understand what is being offered to them as it is described in this application.

## I. Funding Sources (round figures to the nearest dollar)

***The maximum FEMA share for HMGP projects is 75%.*** The other 25% can be made up of State and Local funds as well as in-kind services. HMGP funds may be packaged with other Federal funds, but other Federal funds (except for Federal funds that lose their Federal identity at the State level, such as CDBG, and certain tribal funds) may not be used for the Non-Federal share of the costs.

| | | | | |
|---|---|---|---|---|
| 1. | ***Estimated Federal Share*** | $313,413.00 | 75 % of Total | (Maximum 75%) |
| 2. | ***Non-Federal Shares*** | | | |
| 3. | Estimated Local Shares | $104,471.00 | 25 % of Total | (Cash) |
| 4. | | | % of Total | (In-Kind**) |
| 5. | | | % of Total | (In-House***) |
| 6. | | | % of Total | (Global Match****) |
| 7. | ***Other Agency Share*** *(Identify Non-Federal Agency and availability date)* | | % of Total | |
| 8. | ***Total Funding sources from above*** | **$417,884.00** | **100.00%** ***Total*** | (Equals 100%) |

☐ **Identify proposed eligible activities directly related to project to be considered for In-Kind services in Section IV.C. Fees

☐ ***Identify proposed eligible activities directly related to project to be considered for In-House services in Section IV.C. Fees

☐ ****Separate project applications must be submitted for each Global Match project.

Global Match Project Number and Title: _____

| | | | | | |
|---|---|---|---|---|---|
| 9. | ***Total Estimated Management Costs*** | ***Requested*** | | | |
| | | ***Available*** | $20,894.20 | 5% of Total | (Max Allowed) |

## J. Project Milestones/Schedule of Work

List the major milestones in this project by providing an estimated time-line for the critical activities not to exceed a period of 3 years (36-months) of performance. ***(e.g. Contracting, Designing, Engineering, Permitting, Inspections, closeout, etc.)***

| ***Milestone(s)*** | ***Number of Months to Complete*** |
|---|---|
| Construction Plan/Technical Specifications | 3 |
| Bidding/Local Procurement | 4 |
| Permitting | 2 |
| Construction/Installation | 6 |
| State Final Inspections/Compliance | 1 |
| Closeout Compliance | 2 |
| | |
| | |
| | |
| | |
| | |
| | |
| | |
| | |
| **Total** | **Months** |

## Section V. Environmental Review and Historic Preservation Compliance

***(NOTE: This application cannot be processed if this section is not completed.)***

Because the HMGP is a federally funded program, all projects are required to undergo an environmental and historic preservation review as part of the grant application process. Moreover, all projects must comply with the National Environmental Policy Act (NEPA) and associated Federal, State, Tribal, and Local statutes to obtain funding. **NO WORK can be done prior to the NEPA review process. If work is done on your proposed project before the NEPA review is completed, it will NOT be eligible for Federal funding.**

**A. The following information is required for the Environmental and Historic Preservation review:**

*All projects must have adequate documentation to determine if the proposed project complies with NEPA and associated statutes. The State Environmental Staff provide comprehensive NEPA technical assistance for Applicants, with their consent, to complete the NEPA review. The type and quantity of NEPA documents required to make this determination varies depending upon the project's size, location, and complexity. However, at a minimum, provide the applicable documentation from this section to facilitate the NEPA compliance process.*

1. ☐ Detailed project description, scope of work, and budget/costs (Section II and Section IV of this application).
2. ☐ Project area maps (Section III, part B & C of this application).
3. ☐ Project area/structure photographs (Section III, part C of this application).
4. ☐ Preliminary project plans.
5. ☐ Project alternatives description and impacts (Section V of the application).
6. ☐ Complete the applicable project worksheets.
   Documentation showing dates of construction are required for all structures.
7. ☐ Environmental Justice – Provide any applicable information or documentation regarding low income or minority populations in the project area. See Section V.B of this application for details.
8. ☐ Provide any applicable information or documentation referenced on the *Information and Documentation Requirements by Project Type* below.

**B. Executive Order 12898; Environmental Justice for Low Income and Minority Population:**

1. Are there low income or minority populations in the project area or adjacent to the project area?
   ☒ No ☐ Yes; describe any disproportionate and adverse effects to these populations:

   _____

2. ☐ To help evaluate the impact of the project, explain below or attach any other information that describes the population, or portion of the population, that would be either disproportionately or adversely affected. Include specific efforts to address the adverse impacts in your proposal narrative and budget.

   _____

## C. Tribal Consultation *(Information Required)*

*Section 106 of the National Historic Preservation Act (NHPA) requires federal agencies to take into account the effect of their undertakings on historic properties. The NHPA requires that agencies must complete this process prior to the expenditure of any Federal funds on the undertaking. A Tribal Consultation is required for any project disturbing ground or moving soil, including but not limited to: drainage projects; demolition; construction; elevation; communication towers; tree removal; utility improvements.*

1. Describe the current and future use of the project location. A land use map may be provided in lieu of a written description.

   Land Use Map Attached

2. Provide information on any known site work or historic uses for project location.

   None

   ☒ Attach a copy of a city or county scale map (large enough to show the entire project area) with the horizontal limits (feet) and vertical depths (square feet) of all anticipated ground disturbance of 3 inches or more.

## D. Alternative Actions *(Information Required)*

The NEPA process requires that at least two alternative actions be considered that address the same problem/issue as the proposed project. In this section, list **two feasible** alternative projects to mitigate the hazards faced in the project area. One alternative is the "No Action Alternative".

**1. No Action Alternative**
Discuss the impacts on the project area if no action is taken.

With the no action alternative, the homes such as 825 John Anderson Drive and 815 John Anderson Drive would continue to experience loss events.

**2. Other Feasible Alternative**
Describe a feasible alternative project that would be the next best solution if the primary alternative is not accomplished. This could be an entirely different mitigation method or a significant modification to the design of the current proposed project. Include a Scope of Work, engineering details (if applicable), estimated budget and the impacts of this alternative. Complete *all* of parts **a-e** (below).

**a. Project Description for the Alternative**
Describe, in detail, the alternative project, and explain how the alternative project will solve the problem(s) and/or provide protection from the hazard(s). Also, provide pros and cons for this alternative and a reason for why it was not selected.

The alternative would be to acquire a 20 foot easement across properties along John Anderson Drive and excavate a swale channeling water to the existing stormwater inlets.

**b. Project Location of the Alternative** (*describe briefly, if different from proposed project*)

Same area.

☐ Attach a map or diagram showing the alternative site in relation to the proposed project site (*if different from proposed project*)

**c. Scope of Work for Alternative Project**

Acquire easements from the property owners, excavate and grade a 15 foot wide swale to a depth of 18 inches and channelize the flow to the existing stormwater structures.

**d. Impacts of Alternative Project**
Discuss the impact of this alternative on the project area. Include comments on these issues as appropriate: Environmental Justice, Endangered Species, Wetlands, Hydrology (Upstream and Downstream Surface Water Impacts), Floodplain/Floodway, Historic Preservation and Hazardous Materials.

Detailed H&H studies have not been performed. Excavating a swale may result in exposing the high ground water table. The drainage easements will reduce the use and enjoyment of their property along John Anderson Drive.

**e. Estimated Budget/Costs for Alternative Project**

In this section, provide details of all the estimated costs of the alternative project (round figures to the nearest dollar). A lump sum budget is acceptable.

| | |
|---|---|
| Materials: | |
| Labor: | |
| Fees: | |
| **Total Estimated Project Cost:** | **$ 0.00** |

**HMGP ENVIRONMENTAL REVIEW**

***Information and Documentation Requirements by Project Type***

| ***Retrofits to Existing Facilities/Structures***<br>***Elevations***<br>***Acquisitions with Demolition*** |
|---|
| ✓ Dates of Construction<br>✓ Ground disturbance map for projects with 3 inches or more of ground disturbance<br>✓ Structure photographs |
| ***Drainage Improvements*** |
| ✓ Engineering plans/drawings<br>✓ Permit or Exemption letter to address any modifications to water bodies and wetlands<br>o Department of Environmental Protection<br>o Water Management District<br>o U.S. Army Corps of Engineers<br>✓ Ground disturbance map for projects with 3 inches or more of ground disturbance.<br>✓ Concurrence from U.S. Fish and Wildlife addressing any impacts to wildlife, particularly endangered and threatened species and their habitats.<br>✓ If the project is in a coastal area, attach a letter from the National Marine Fisheries Service addressing impacts to marine resources.<br>✓ Concurrence from Natural Resource Conservation Service if project is located outside city limits and may impact prime or unique farmland.<br>✓ Concurrence from your Local Floodplain Manager – if project is located in a floodplain. |

*Note: This is a general guideline for most projects. However, there will be exceptions. Consult with state environmental staff on project types not listed.*

## Section VI – Maintenance Agreement

***All applicants whose proposed project involves the retrofit or modification of existing public property or whose proposed project would result in the public ownership or management of property, structures, or facilities, must first sign the following agreement prior to submitting the application to FEMA.***

***(NOTE: Not applicable to projects solely related to residential or private property.)***

The City of Ormond Beach, State of Florida, hereby agrees that if it receives any Federal aid as a result of the attached project application, it will accept responsibility, at its own expense if necessary, for the ***routine*** maintenance of any real property, structures, or facilities acquired or constructed as a result of such Federal aid**.** Routine maintenance shall include, but not be limited to, such responsibilities as keeping vacant land clear of debris, garbage, and vermin; keeping stream channels, culverts, and storm drains clear of obstructions and debris; and keeping detention ponds free of debris, trees, and woody growth.

The purpose of this agreement is to make clear the Sub-recipient's maintenance responsibilities following project award and to show the Sub-recipient's acceptance of these responsibilities. It does not replace, supersede, or add to any other maintenance responsibilities imposed by Federal law or regulation and which are in force on the date of project award.

Signed by Joyce Shanahan the duly authorized representative
(*printed or typed name of signing official*)

City Manager,
(*title*)

This _____(*day*) of _____(*month*), _____ *(year).*

**Signature*** _____

****Note: The above signature must be by an individual with legal signing authority for the respective local government or county (e.g., the Chairperson, Board of County Commissioners or the County Manager, etc.)***

# HMGP Application Completeness Guidance/Checklist

This guidance/checklist contains an explanation, example and/or reference for information requested in the application. Use this list to assure your application is complete and includes the required information for HMGP projects. The appropriate documentation must also be attached. It is important to note that this list is similar to the form that will be used during the application sufficiency review by the HMGP staff.

**Project Title: Water Treatment Plant Generator Replacement**

**Applicant: City of Ormond Beach**

| Application Information | Explanation of Information Required | ✓ |
|---|---|---|
| ***Section I*** | | |
| **B. Applicant Information** | | |
| **FEMA___-DR-FL** | Type in the four digit number FEMA assigned to the disaster that this application is being submitted under. (Example: 4337, 4283) | ☒ |
| **DISASTER NAME** | Type in the Disaster name. (Example: Hurricane Irma, Tropical Storm Fay) | ☒ |
| **Title of Project** | The project title should include: 1) Name of Applicant, 2) Name of Project, 3) Type of Project. (Example: City of Tallahassee, City Hall Building, Wind Retrofit) | ☒ |
| **1. Applicant** | Name of organization applying. Must be an eligible applicant. | ☒ |
| **2. Applicant Type** | State or local government, recognized Native American tribe, or private non-profit organization. If private non-profit, attach documentation showing legal status as a 501(C). (Example: IRS letter, Tax Exempt Certificate) | ☒ |
| **3. County** | Indicate county in which the project is located. | ☒ |
| **4. State Legislative and Congressional District(s)** | Specify the appropriate State Senate, House and Congressional District code for the **project site**. For multiple sites, list codes for each site. http://www.myfloridahouse.gov/sections/representatives/myrepresentative.aspx | ☒ |
| **5. Federal Tax I.D. Number** | List the Federal Employer's Identification Number (FEIN), also known as Federal Tax Identification number, 9-digit code. May be obtained from your finance/accounting department. | ☒ |
| **6. DUNS Number** | Include Data Universal Numbering System (DUNS) number in appropriate location on application. Typically, this number can be obtain through your finance department. If not, use the link below to look up your entity. If none, exists you can use the same link to request one. https://www.dnb.com/duns-number.html | ☒ |
| **7. FIPS Code** | List the Federal Information Processing Standards (FIPS) Code. May be obtained from your finance/accounting/grants department. If none, submit FEMA Form 90-49. See state website under the relevant disaster (https://floridadisaster.org/dem/mitigation/hazard-mitigation-grant-program/) | ☒ |
| **8. NFIP ID Number** | List the National Flood Insurance Program (NFIP) number. You must be a participating NFIP member to be eligible for HMGP funding. Make sure that the number is the same as the panel number on the FIRM provided with the application. | ☒ |
| **9. Point of Contact** | Provide all pertinent information for the point of contact. This person serves as the coordinator of the project. If this information changes once the application is submitted, please contact the HMGP staff immediately. | ☒ |
| **10. Application Prepared By** | Provide the preparer information. May be different from the point of contact (line 9) and/or the applicant's agent (line 11). | ☒ |
| **11. Authorized Applicant Agent** | An authorized agent must sign the application. *"An authorized agent is the chief elected official of a local government who has signature authority, so for a county it would be the Chairman of the Board of County Commissioners and for a municipality it would be the Mayor (the exact title sometimes varies). Any local government may delegate this authority to a subordinate official (like a City or County Manager) by resolution of the governing body (the Board of County Commissioners or Board of City Commissioners). If a local government delegates signature authority, a copy of the resolution by the governing body authorizing the signature authority for the individual signing must be provided."* | ☒ |

| | | |
|---|---|---|
| | For Private Non-Profit: A member of its Board of Directors or whoever has authority to authorize funding for such a project. If this task is delegated down, a copy of a resolution confirming this must be provided. | |
| **12. LMS Compliance** | a) LMS Project List:<br>All proposed projects must be included in the county's Local Mitigation Strategy (LMS) Project List and must be on file with FDEM's Mitigation Bureau Planning Unit.<br>b) LMS Endorsement Letter:<br>All proposed projects must include an endorsement letter from the county's Local Mitigation Strategy Coordinator. You may use 1 letter as long as it includes every proposed project.<br>c) Estimated Costs & Application Costs:<br>The LMS Project List must include an Estimated Cost column and each HMGP project application must be within $500.00 of that Project List's estimated cost. Also ensure that the Federal Cost Share indicated on the LMS Coordinator's Endorsement Letter exactly matches the Federal Cost Share indicated within the application. Ensure the LMS endorsement letter contains both the Total Estimated Projects Cost (Section IV. D.), along with the Estimated Federal Share (Section IV. I.1.) allocated to this project.<br>A letter of endorsement for the project and its priority number from the Local Mitigation Strategy Project List must be included. Refer to **Sample LMS Letter**. Applications without a letter of endorsement will not be processed. *(44 CFR 201.6 Local Mitigation Plans)* | ☒ |
| **13. Previous Submittal** | If the project has been previously submitted under another disaster, provide the disaster number, the project number, and the title of the project. | ☐ |

## ***Section II - Project Description***

### A. Hazards to be Mitigated/Level of Protection

| | | |
|---|---|---|
| **1. Type of Hazards** | **Type of Hazards the Proposed Project will Mitigate**: Identify the hazard(s) that the proposed project will mitigate. More than one hazard may be selected. | ☒ |
| **2. Identify the Type of Project** | **Identify the Type of Proposed Project**: Describe the mitigation project being proposed. (Example: drainage, wind retrofit, generator etc.) | ☒ |
| **3. Number of Persons Protected** | Explain how many people will be protected by or benefit from the proposed project. (Example: A drainage project improving a residential area of 23 homes, with an average household of 2 people = 46 people) | ☒ |
| **4. Total Impacted Area** | Explain how many acres will be impacted from the proposed project: Drainage/Berm/Pond/Culverts/Flood hazard projects: combination of the area to be protected and ground disturbance must not exceed 25 acres. | |
| **5. Level of Protection** | Specify the level of protection and magnitude of the event the proposed project will mitigate. Attach support documentation that verifies the stated level of protection. (Example: In a wind retrofit project, it will be the design wind speed to comply with the Florida Building Code requirements. In a drainage project, it will be the implemented design level, e.g. a 25-year FDOT design standard for culvert.) | ☐ |
| **6. Project Impact** | Identify **all** the items the project may impact or are within the project area. | ☐ |
| **7. Engineered Projects (e.g. Drainage)** | Include available engineering calculations, studies, and designs for the proposed project showing results from applied Recurrence Interval scenarios before and after mitigation. (Number of structures, building replacement value, depth of the water, structural damages, content damages, displacement, road closures, etc.) | ☐ |

### B. Project Description, Scope of Work, and Protection Provided (Must be Completed in Detail)

| | | |
|---|---|---|
| **1. Existing Problem** | Describe the existing problem, location, source of the hazard, and the history and extent of the damage. Include newspaper articles, insurance documentation, photographs, etc. If this project is eligible for PA (406) mitigation activities, describe the 406 activities. | ☐ |
| **2. Type of Protection** | Determine how the funding will solve the existing problem and provide protection. | ☐ |
| **3. Scope of Work:** | **What the Project Proposes to Do**: Determine the work to be done. The scope of work must meet eligibility based on HMGP regulations and guidance. Explain how the proposed problem will be solved. (NOTE: The proposed project must be a | ☐ |

| | | |
|---|---|---|
| | mitigation action, not maintenance.) *Does the proposed project solve a problem independently or constitute a functional part of a solution where there is assurance that the project as a whole will be completed (44 CFR 206.434[c][4])? Does the proposed project address a problem that has been repetitive or that poses a significant risk to public health and safety if left unresolved (44 CFR 206.434[c][5][i])?* Projects that merely identify or analyze hazards or problems are not eligible. | |
| **4. On-Going or Proposed Projects in the Area** | Determine if other projects, zoning changes, etc. are planned (particularly in the same watershed if flooding is being addressed) that may negatively or positively impact the proposed project. If there is a drainage project or downstream issue elsewhere, it may eliminate the current flooding issue, erasing the need for the proposed project. Response applies to drainage and acquisition projects. N/A is appropriate in wind retrofit shutter projects only. If this project is also being considered under the Public Assistance Program (406), describe in detail the 406 mitigation activities and/or services. Do not include project costs associated with this HMGP application. | ☐ |

## ***Section III - Project Location***

### A. Site

| | | |
|---|---|---|
| **1. Physical Location** | List the physical location of the project site(s) including the street number(s), zip code(s) and GPS coordinates (latitude/longitude, in decimal degrees). The physical address must correspond with the address locations specified on maps submitted with the application. | ☒ |
| **2. Titleholder** | Provide the titleholder's name. | ☒ |
| **3. Project Seaward of the CCCL?** | Determine if the project site is located seaward of the Coastal Construction Control Line. https://floridadep.gov/water/coastal-construction-control-line | ☒ |
| **4. Number and Types of Structures Affected** | Specify the number and type of properties affected by the project. (Example: Drainage project that affects 100 homes, 15 businesses and 2 schools.) What does the project protect? Should have a number next to the box that is checked. (See Section II, Item A.5 – detail of these totals) | ☐ |

### B. Flood Insurance Rate Map (FIRM) Showing Project Site

| | | |
|---|---|---|
| **1. Copies of FIRM** | Attach a copy (or copies) of the FIRM and clearly identify the project site. The FIRM Panel number must be included. To obtain a FIRM map, go to https://msc.fema.gov/portal. **See instructions on How to make a FIRMette.** | ☒ |
| **2. Flood Zone Determination** | Specify the flood zone(s) of the project site(s). **If project is located in a Special Flood Hazard Area. Amount of coverage must be equal to or greater than the amount of Federal mitigation funding obligated to the project.** | ☐ |
| **3. Flood Hazard Boundary Map (FHBM)** | Not required if a copy of the FIRM is attached. | ☐ |
| **4. Model Acknowledgement of Conditions form** | The Model Acknowledgement of Conditions for Mitigation in Special Flood Hazard Area form is required for those structures receiving federal funds that will also remain in the special flood hazard area by the close of the project. This form is required at application. It can be found on FEMA's website at https://www.fema.gov/media-library/assets/documents/15677 | ☐ |

### D. C. Maps with Project Site and Photographs

| | | |
|---|---|---|
| **1. City/County Map with Project Site** | The project site and staging location (if applicable) should be clearly marked on a legible City/County map. The map should be large enough to show the project site. More than one map may be required. | ☒ |
| **2. USGS TOPO with Project Site** | The project site should be clearly marked on a legible USGS 1:24,000 TOPO map. To obtain a TOPO map, go to https://ngmdb.usgs.gov/topoview/ | ☒ |
| **3. Parcel/Tax Map** | A Parcel, Tax or Property Identification map is required <u>only</u> for acquisition and elevation projects. The location of the structure must be clearly identified. | ☐ |
| **4. Site Photographs** | At least four photographs are required that clearly identify the project site. The photos must be representative of the project area, including any relevant streams, creeks, rivers, etc., and drainage areas that affect the project site or will be affected by the project. The front, back and both side angles are required for each structure. For acquisition and elevation projects, a photo taken away from the structure (in front toward the street, and in back toward backyard) to show the area along with | ☐ |

| | | |
|---|---|---|
| | photographs of specific elements of the structure affected by the project (windows for shutters or window replacements) should also be provided. Label photographs appropriately. In addition, CDs may be submitted. | |

## ***Section IV - Budget/Costs***

Make sure all calculations are correct. Provide a breakdown of materials, labor and fees for the proposed project. Support documentation must be attached, i.e. vendor's quote, professional estimate (from engineer, architect, local building official, etc.). The proposed budget line items should represent allowable costs associated with the scope of work. Contingency Cost should be included as a line item in the budget section, and justified – Maximum allowed is 5%, and is required to complete this section; it will be used for the Benefit-Cost Analysis (BCA). Costs should be accurate, complete and reasonable compared to industry standards. Make sure the total cost is correct on the entire application.

| | | |
|---|---|---|
| **A. Materials** | List materials and their associated costs. Provide breakdown. | ☐ |
| **B. Labor** | Provide a breakdown of description, hours, rate, and cost or lump sum labor cost. Can use in-kind contribution as part of the 25% match. (Attach support documentation for in-kind, in-house to detail wages and salaries charged for any contribution. No overtime wages can be used to satisfy match contributions). | ☐ |
| **C. Fees Paid** | Provide a breakdown of associated fees i.e., consultants, studies, engineering, permits, and project management. Maintenance is not an allowable cost under HMGP. *Pre-award costs may be requested* **(See Pre-award Costs guidance).** | ☐ |
| **D. Total Estimated Project Cost** | This number includes all project costs without contingency costs included. Make sure all calculations are correct. | ☐ |
| **E. Contingency Cost** | Per FEMA's HMA Guidance (Section VI Part D.3.4), a contingency cost is, "an allowance in the total cost estimate to cover situations that cannot be fully defined at the time the cost estimate is prepared but that will likely result in additional eligible costs. Allowances for major project scope changes, unforeseen risks, or extraordinary events may not be included as contingency costs."<br>The applicant may request up to 5% of material/labor costs. As with other line items, the applicant must justify these contingency costs based on the nature of the project at application.<br>If an applicant wants to include contingency costs, they will need to enter the percentage that they require as well as what amount they want that percentage to be applied to. Type the resulting calculation in the final cell on the right. These cells will **NOT** auto-calculate. Be sure that they are calculated correctly. | ☐ |
| **F. Final Project Cost** | This number includes any contingency costs that were requested. The final BCA will use this number in its final calculation. | ☐ |
| **G. Project Management Costs** | After reading the guidance provided on pg. 5, select either **YES** or **NO** to indicate your need for management costs for this project.<br>If **YES**, provide a breakdown of description, hours, rate and costs for requested management costs.<br>If **NO**, continue to Part I. | ☐ |
| **H. Total Estimated Management Costs Requested** | This will auto complete based on what is entered into the cost cells above. Your request must not exceed 5 percent of the total project cost available for this project. | ☐ |

### I. Funding Sources (round figures to the nearest dollar)

The proposed sources of non-federal matching funds must meet eligibility requirements. (Except as provided by Federal statute, a cost-sharing or matching requirement may not be met by costs borne by another Federal grant.) 2 CFR Part 200.306.

| | | |
|---|---|---|
| **1. Estimated Federal Share** | The estimated Federal share is generally 75%. If the Federal share is not 75%, assure actual amount is entered. It could be 50.1234% or 35.1234%, etc. of the total dollar amount of project depending on county LMS allocation and priority. This figure cannot exceed 75%. | ☒ |
| **2. Non-Federal Share** | May include all 3 sources, i.e. cash, in-kind and global match, as long as the total is a minimum of 25%. Match cannot be derived from a federal agency except Federal funds that lose their federal identity (e.g., CDBG funding and certain tribal funding). | ☒ |
| **3. Cash** | Cash- Local funding will be utilized for the non-federal share. Enter amount of cash and percentage of total that amount represents. | ☒ |
| **4. Total In-Kind** | May use materials, personnel, equipment, and supplies owned, controlled and operated from within governing jurisdiction as an in-kind match. *Third party in-kind contributions would be volunteer services, employee services from other* | ☐ |

| | | |
|---|---|---|
| | *organizations furnished free of charge, donated supplies, and loaned equipment or space. The value placed on these resources must be at a fair market value and must be documented. If in-kind is claimed from outside the applicant jurisdiction, it must be cash only. ** Identify proposed eligible activities in Section IV B. and C. as a separate line with In-kind written as a part of the description.* | |
| **5. Total In-house** | Sub-Recipient employees, equipment, etc. – internal services (must utilize the Personnel Activity Report or the Equipment Activity Report for the Request for Reimbursement) | ☐ |
| **6. Total Project (Global) Match** | Project (global) match must 1) meet all the eligibility requirements of HMGP; and 2) begin after FEMA's approval of the match project. A separate HMGP application must be submitted for global match projects. Indicate which project(s) will be matched. *The global match is not required to be an identical project. Projects submitted as global match for another project must meet the same period of performance time constraints as the HMGP.* | ☐ |
| **7. Other Agency Share** | Identify Non-Federal Agency and availability date; provide the documentation from the agency. (e.g., CDBG funding, and certain tribal funding) | ☐ |
| **8. Total Funding** | Total must represent (100%) of the total estimated project cost. Ensure that percentages match corresponding cost-shares and the total matches the Budget (in Section IV. F. - Total Estimated Project Cost). | ☒ |
| **9.** | Your requested amount must be equal to or less than 5 percent of the total project cost | ☐ |

### J. Project Milestones/Schedule of Work

| | | |
|---|---|---|
| **1. Milestones (Schedule)** | Identify the major milestones in the proposed project and provide an estimated time-line *(e.g. Designing, Engineering – 3 months, Permitting – 6 months, Procurement – 30 days, Installation – 6 months, Contracting – 1 month, Delays, Project Implementation, Inspections, Closeout, etc.)* for the critical activities not to exceed a period of 3 years (36-months) for performance. Milestones should not be grouped together but listed individually. Allot for the appropriate amount of time for final inspection and closeout (about 3 months). | ☐ |

## ***Section V - Environmental Review & Historic Preservation Compliance***

No work can begin prior to the completion of the environmental (NEPA) review. In order for the Environmental staff to conduct the NEPA review, all sections listed below must be completed.

| | | |
|---|---|---|
| **1. Description, SOW & Budget** | Detailed Project Description, Scope of Work & Budget/Costs. Complete Sections II & IV of the application. | ☐ |
| **2. Area Maps** | Project area Maps - Attach a copy of the maps and clearly mark the project site, and place the specific project structure(s) on map(s). Complete Section III, part B & C of the application. | ☐ |
| **3. Project Area/Structure Photographs** | Complete Section III part C of the application. | ☐ |
| **4. Preliminary Project Plans** | For shutters see the scope of work and for drainage & elevation see engineering drawings. | ☐ |
| **5. Project Alternatives** | Complete Section V part D. of this application. | ☐ |
| **6. Project Worksheets** | Dates of construction are required for all structures. See worksheets. | ☐ |
| **7. Environmental Justice Documentation** | See Section V.B for applicable information. | ☐ |
| **8. Information/ Documentation Requirements by Project Type** | Provide any of the required documentation as listed at the end of Section V in the Information and Documentation Requirements by Project Type that may have already been obtained. | ☐ |

### B. Executive Order 12898, Environmental Justice for Low Income and Minority Population

| | | |
|---|---|---|
| **1. Disproportionate Effects** | Determine if there are populations in either the project zip code or city that are characterized as having a minority background or living below the poverty level. If yes, | ☐ |

| | | |
|---|---|---|
| | complete the rest of Section V, part B. Describe any disproportionate effects that these populations would experience if the project were completed. | |
| **2. Population Affected** | Describe the population affected by this project and the portion of the population adversely impacted. Attach any documentation and list the attachments here. | ☐ |

### C. Information required for Tribal Consultation

| | | |
|---|---|---|
| **Documentation for Tribal Consultation** | For all projects with any ground disturbing activities of 3 inches or more, complete Section V part C. | ☐ |

### D. Alternative Actions

| | | |
|---|---|---|
| **1. No Action Alternative** | Discuss the impacts on the project area if no action is taken. | ☐ |
| **2. Other Feasible Alternative Action** | This is a FEMA and FDEM requirement for any Application Review. A narrative discussion of at least three project alternatives (from No Action to the most effective, practical solution) and their impacts, both beneficial and detrimental is required. It is expected that the jurisdiction has completed sufficient analysis to determine the proposed project can be constructed as submitted and it supports the goals and objectives of the FEMA approved hazard mitigation plan. Has the proposed project been determined to be the most practical, effective and environmentally sound alternative after consideration of a range of options? (44 CFR 206.434[c][5][iii]) | ☐ |
| **a. Project Description** | It is very important and a requirement that an Alternative project is submitted. NEPA requires that at least three alternatives must be presented to mitigate the problem. In addition to the proposed action and no action, one other **feasible** alternative must be provided. | ☐ |
| **b. Project Location of the Alternative** | Describe the surrounding environment. Include information regarding both natural (i.e., fish, wildlife, streams, soils, plant life) and built (i.e., public services, utilities, land/shoreline use, population density) environments. | |
| **c. Scope of Work – Alternative Project** | Describe how the alternative project will solve the problem and provide protection from the hazard. Provide enough detail to describe the project for the evaluation panel to decide the best course of action for the state. Include any appropriate diagrams, sketch maps, amount of materials and equipment, dimensions of project, amount of time required to complete, etc. | |
| **d. Impacts of the Alternative Project** | | |
| **e. Estimated Budget/Costs for the Alternative Project** | Total cost is required. | ☐ |
| **Materials, Labor, and Fees Paid** | Detailed line items are not required. Just enter a total amount. | ☐ |
| **Total Estimated Project Costs** | Total cost is required. Vendor quote is not required. A lump sum budget may be submitted as justification to why this alternative was not chosen. | ☐ |

## Section VI – Maintenance Agreement

| | | |
|---|---|---|
| **Maintenance Agreement** | Complete, sign and date the maintenance agreement. The maintenance agreement must be signed by an individual with signature authority, preferably the authorized agent. | ☐ |

## Other Required Documentation

Go to www.floridadisaster.org/dem/mitigation/hazard-mitigation-grant-program/ for additional documents

| | | |
|---|---|---|
| **1. Maps** | All maps must be included with the application. | |
| **2. FFATA Form** | During contracting with the state, complete, sign and date the FFATA Project File Form. Instructions are provided for your convenience in the document provided. **This is not required at the time of application submittal.** | ☐ |
| **3. SFHA Acknowledgement of Conditions** | Required for all projects in the Special Flood Hazard Area. Read and sign the SFHA Acknowledgement of Conditions document. This form must be notarized, signed by the local jurisdiction and the property owner. | ☐ |
| **4. Pre-award Cost Form** | If pre-award costs are being requested with your project, be sure to identify all pre-award costs in the application budget per instructions. The pre-award cost form must be completed and submitted with your application. | ☐ |

| | | |
|---|---|---|
| **5. Request for Public Assistance Form** | Applicable if no FIPS number is assigned to applicant/recipient. | ☐ |
| **6. Model Statement of Assurances for Property Acquisition Projects** | For Acquisition projects only. | ☐ |
| **7. Declaration and Release** | For Acquisition projects only. Must be signed by all persons whose names are on the property deed. | ☐ |
| **8. Notice of Voluntary Interest** | For Acquisition projects only. Two forms are available for your convenience. Use the form that is most appropriate to your situation. Must be signed by all persons whose names are on the property deed. | ☐ |
| **9. Statement of Voluntary Participation for Acquisition of Property for Purpose of Open Space** | For Acquisition projects only. Must be signed by all persons whose names are on the property deed. | ☐ |
| **10. Worksheets** | The appropriate worksheet(s) must be completed and submitted with the application.<br>a. Flood Control – Drainage Improvement<br>b. Generator<br>c. Tornado Safe Room<br>d. Hurricane Safe Room<br>e. Wind Retrofit<br>f. Wildfire<br>g. Drought | ☐ |

*Submit **1 original (signed) and 1 full copy** of the entire application and backup documentation. Include a full copy of the submittal and all documentation on CD or thumb drive.

# Attachment Index

Use the following template to list any supporting documentation that is **included on the CD or flashdrive**. Clearly and concisely label each attachment on this form to correspond with the file name on the CD or flashdrive. In the first column list which section and item (from the HMGP application) the attachment refers to. *Example: Section 2, Item 1.* **If any required documentation is not included on the CD or flashdrive, the application will be considered incomplete and *will not* be considered for possible funding.**

Volusia County
FLORIDA

**Department of Emergency Services**
**Emergency Management Division**

June 20, 2025

Ms. Laura Dhuwe, State Mitigation Officer
Florida Division of Emergency Management
255 Shumard Oak Boulevard
Tallahassee, Florida 32399-2100

RE: Hazard Mitigation Grant Program (HMGP) applications for FEMA 4834-DR-FL, Hurricane Milton

Dear Ms. Dhuwe:

The Volusia County Local Mitigation Strategy (LMS) working group has approved by vote and prioritized the following projects for HMGP funding from this disaster. These projects align with our LMS goals and objectives as noted, and with the State's mitigation goals and objectives (in accordance with the Code of Federal Regulations 44 § 201.6)

The Volusia County LMS group therefore presents the projects below (or in an attachment) in the order that they are to be considered for funding.

For further information or inquiry, please contact me at 386-671-8807 or bartonjustin@codb.us.

Sincerely,

Justin Barton Digitally signed by Justin Barton

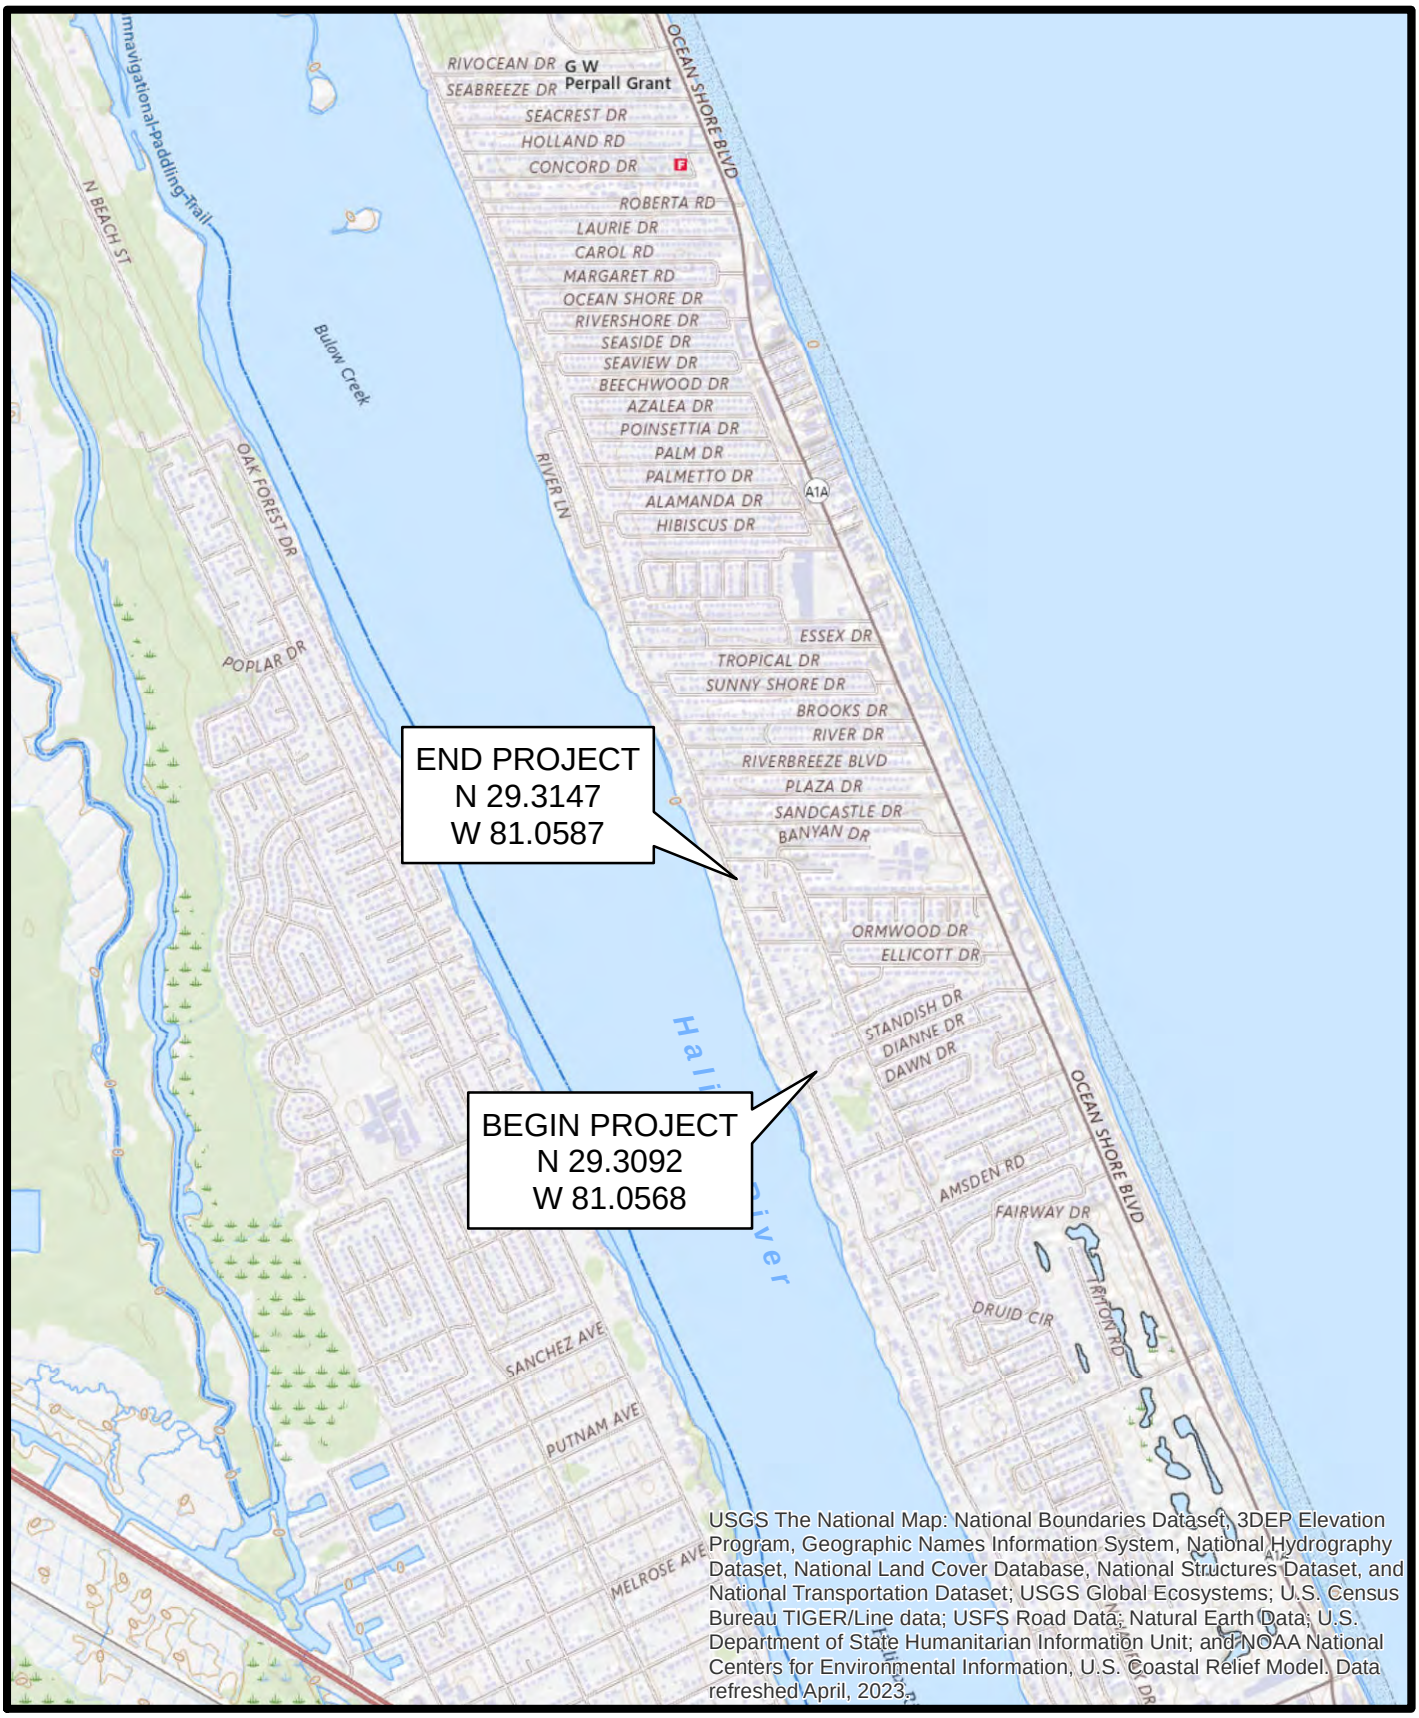
N

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 6/14/2025 at 12:05 AM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.



This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

| 10,000-year MRI | 163 Vmph |
| 100,000-year MRI | 190 Vmph |
| 1,000,000-year MRI | 212 Vmph |

Data Source: ASCE/SEI 7-22, Fig. 26.5-1A and Figs. CC.2-1–CC.2-4, and Section 26.5.2
Date Accessed: Fri Jun 13 2025

Value provided is 3-second gust wind speeds at 33 ft above ground for Exposure C Category, based on linear interpolation between contours. Wind speeds are interpolated in accordance with the 7-22 Standard. Wind speeds correspond to approximately a 15% probability of exceedance in 50 years (annual exceedance probability = 0.00333, MRI = 300 years). Values for 10-year MRI, 25-year MRI, 50-year MRI and 100-year MRI are Service Level wind speeds, all other wind speeds are Ultimate wind speeds.

Site is in a hurricane-prone region as defined in ASCE/SEI 7-22 Section 26.2. Glazed openings need not be protected against wind-borne debris.

The ASCE Hazard Tool is provided for your convenience, for informational purposes only, and is provided “as is” and without warranties of any kind. The location data included herein has been obtained from information developed, produced, and maintained by third party providers; or has been extrapolated from maps incorporated in the ASCE standard. While ASCE has made every effort to use data obtained from reliable sources or methodologies, ASCE does not make any representations or warranties as to the accuracy, completeness, reliability, currency, or quality of any data provided herein. Any third-party links provided by this Tool should not be construed as an endorsement, affiliation, relationship, or sponsorship of such third-party content by or from ASCE.

ASCE does not intend, nor should anyone interpret, the results provided by this Tool to replace the sound judgment of a competent professional, having knowledge and experience in the appropriate field(s) of practice, nor to substitute for the standard of care required of such professionals in interpreting and applying the contents of this Tool or the ASCE standard.

In using this Tool, you expressly assume all risks associated with your use. Under no circumstances shall ASCE or its officers, directors, employees, members, affiliates, or agents be liable to you or any other person for any direct, indirect, special, incidental, or consequential damages arising from or related to your use of, or reliance on, the Tool or any information obtained therein. To the fullest extent permitted by law, you agree to release and hold harmless ASCE from any and all liability of any nature arising out of or resulting from any use of data provided by the ASCE Hazard Tool.

Data Source: ASCE/SEI 7-22, Fig. 26.5-1B and Figs. CC.2-1–CC.2-4, and Section 26.5.2
Date Accessed: Fri Jun 13 2025

Value provided is 3-second gust wind speeds at 33 ft above ground for Exposure C Category, based on linear interpolation between contours. Wind speeds are interpolated in accordance with the 7-22 Standard. Wind speeds correspond to approximately a 7% probability of exceedance in 50 years (annual exceedance probability = 0.00143, MRI = 700 years). Values for 10-year MRI, 25-year MRI, 50-year MRI and 100-year MRI are Service Level wind speeds, all other wind speeds are Ultimate wind speeds.

Site is in a hurricane-prone region as defined in ASCE/SEI 7-22 Section 26.2. Glazed openings shall be protected against wind-borne debris as specified in Section 26.12.3.

The ASCE Hazard Tool is provided for your convenience, for informational purposes only, and is provided “as is” and without warranties of any kind. Any third-party links provided by this Tool should not be construed as an endorsement, affiliation, relationship, or sponsorship of such third-party content by or from ASCE.

ASCE does not intend, nor should anyone interpret, the results provided by this Tool to replace the sound judgment of a competent professional, having knowledge and experience in the appropriate field(s) of practice, nor to substitute for the standard of care required of such professionals in interpreting and applying the contents of this Tool or the ASCE standard.

In using this Tool, you expressly assume all risks associated with your use. Under no circumstances shall ASCE or its officers, directors, employees, members, affiliates, or agents be liable to you or any other person for any direct, indirect, special, incidental, or consequential damages arising from or related to your use of, or reliance on, the Tool or any information obtained therein. To the fullest extent permitted by law, you agree to release and hold harmless ASCE from any and all liability of any nature arising out of or resulting from any use of data provided by the ASCE Hazard Tool.

# Environmental & Historic Preservation Worksheet

For preliminary Environmental and Historic Preservation review conducted by the State Mitigation Technical Team

**Important**: The State of Florida Mitigation Technical Unit will conduct the Environmental and Historic Preservation (EHP) Review for your project and the following information is needed. Once a preliminary review of the application and worksheet is conducted, the assigned Environmental Specialist will reach out with any questions or needs for clarification.

**Note**: A completed EHP Worksheet will expedite the Technical Review. Completion of this worksheet does not guarantee additional information will not be required. If additional information or clarification is needed during application review, the reviewer will contact you.

## Requirements

The following information is the minimum amount of technical information required to complete the EHP review. Data collected in this document will provide reviewers with preliminary information necessary to evaluate potential environmental impacts.

All projects require an EHP review conducted by the technical team in order to achieve funding.

## Section I – Project General Information

| | |
|---|---|
| Project Name: City of Ormond Beach, North John Anderson Drive Drainage Improvements | Worksheet completed by:<br>Name: Shawn Finley<br>Title: Assistant City Manager<br>Phone: 386-676-3582<br>Email: Shawn.Finley@ormondbeach.org |
| Sub-Applicant: | |

**For additional information and resources, please refer to FEMA's Environmental Planning and Historic Preservation checklist for Hazard Mitigation Assistance Application Reviews.**

## Section II – Project Location

*The table below allows data for up to 8 locations. If your project has more than 8 locations, you can either submit a second EHP Worksheet or attach a separate list providing the information requested below and in Section III.*

| ID | Project Location | Coordinates | *Age of Structure | Ground Disturbance? | Critical Action |

## Section IV – Additional Information

Please use this page to expand on the information provided above or to include any additional information relevant to the proposed mitigation project.

## Section V – Minimum Required Supporting Documents Checklist

Below are the minimum supporting documents that each project needs in order to conduct an EHP Review. Please check each item off as they are uploaded into the application.

| | |
|---|---|
| Aerial Map | ✔ |
| Photographs | |
| FIRM/FIRMette | ✔ |
| Age Verification Documentation | |
| 1:24,000 Topographic Map | ✔ |

## Section VI – Additional Supporting Documents Checklist

Below are additional supporting documents that may be required in order to conduct an EHP Review. Please check each item off as they are uploaded into the application as applicable.

| | |
|---|---|
| Ground Disturbance Map | |
| Public Notice Draft | |
| USACE/FDEP Section 404 Permit | |
| Environmental Resource Permit (ERP) | |
| Upstream/Downstream Impact Letter | |

# ENVIRONMENTAL & HISTORIC PRESERVATION WORKSHEET INSTRUCTIONS

Refer to the instructions below to complete the Environmental and Historic Preservation Worksheet using the best available data.

## Section I: Project General Info

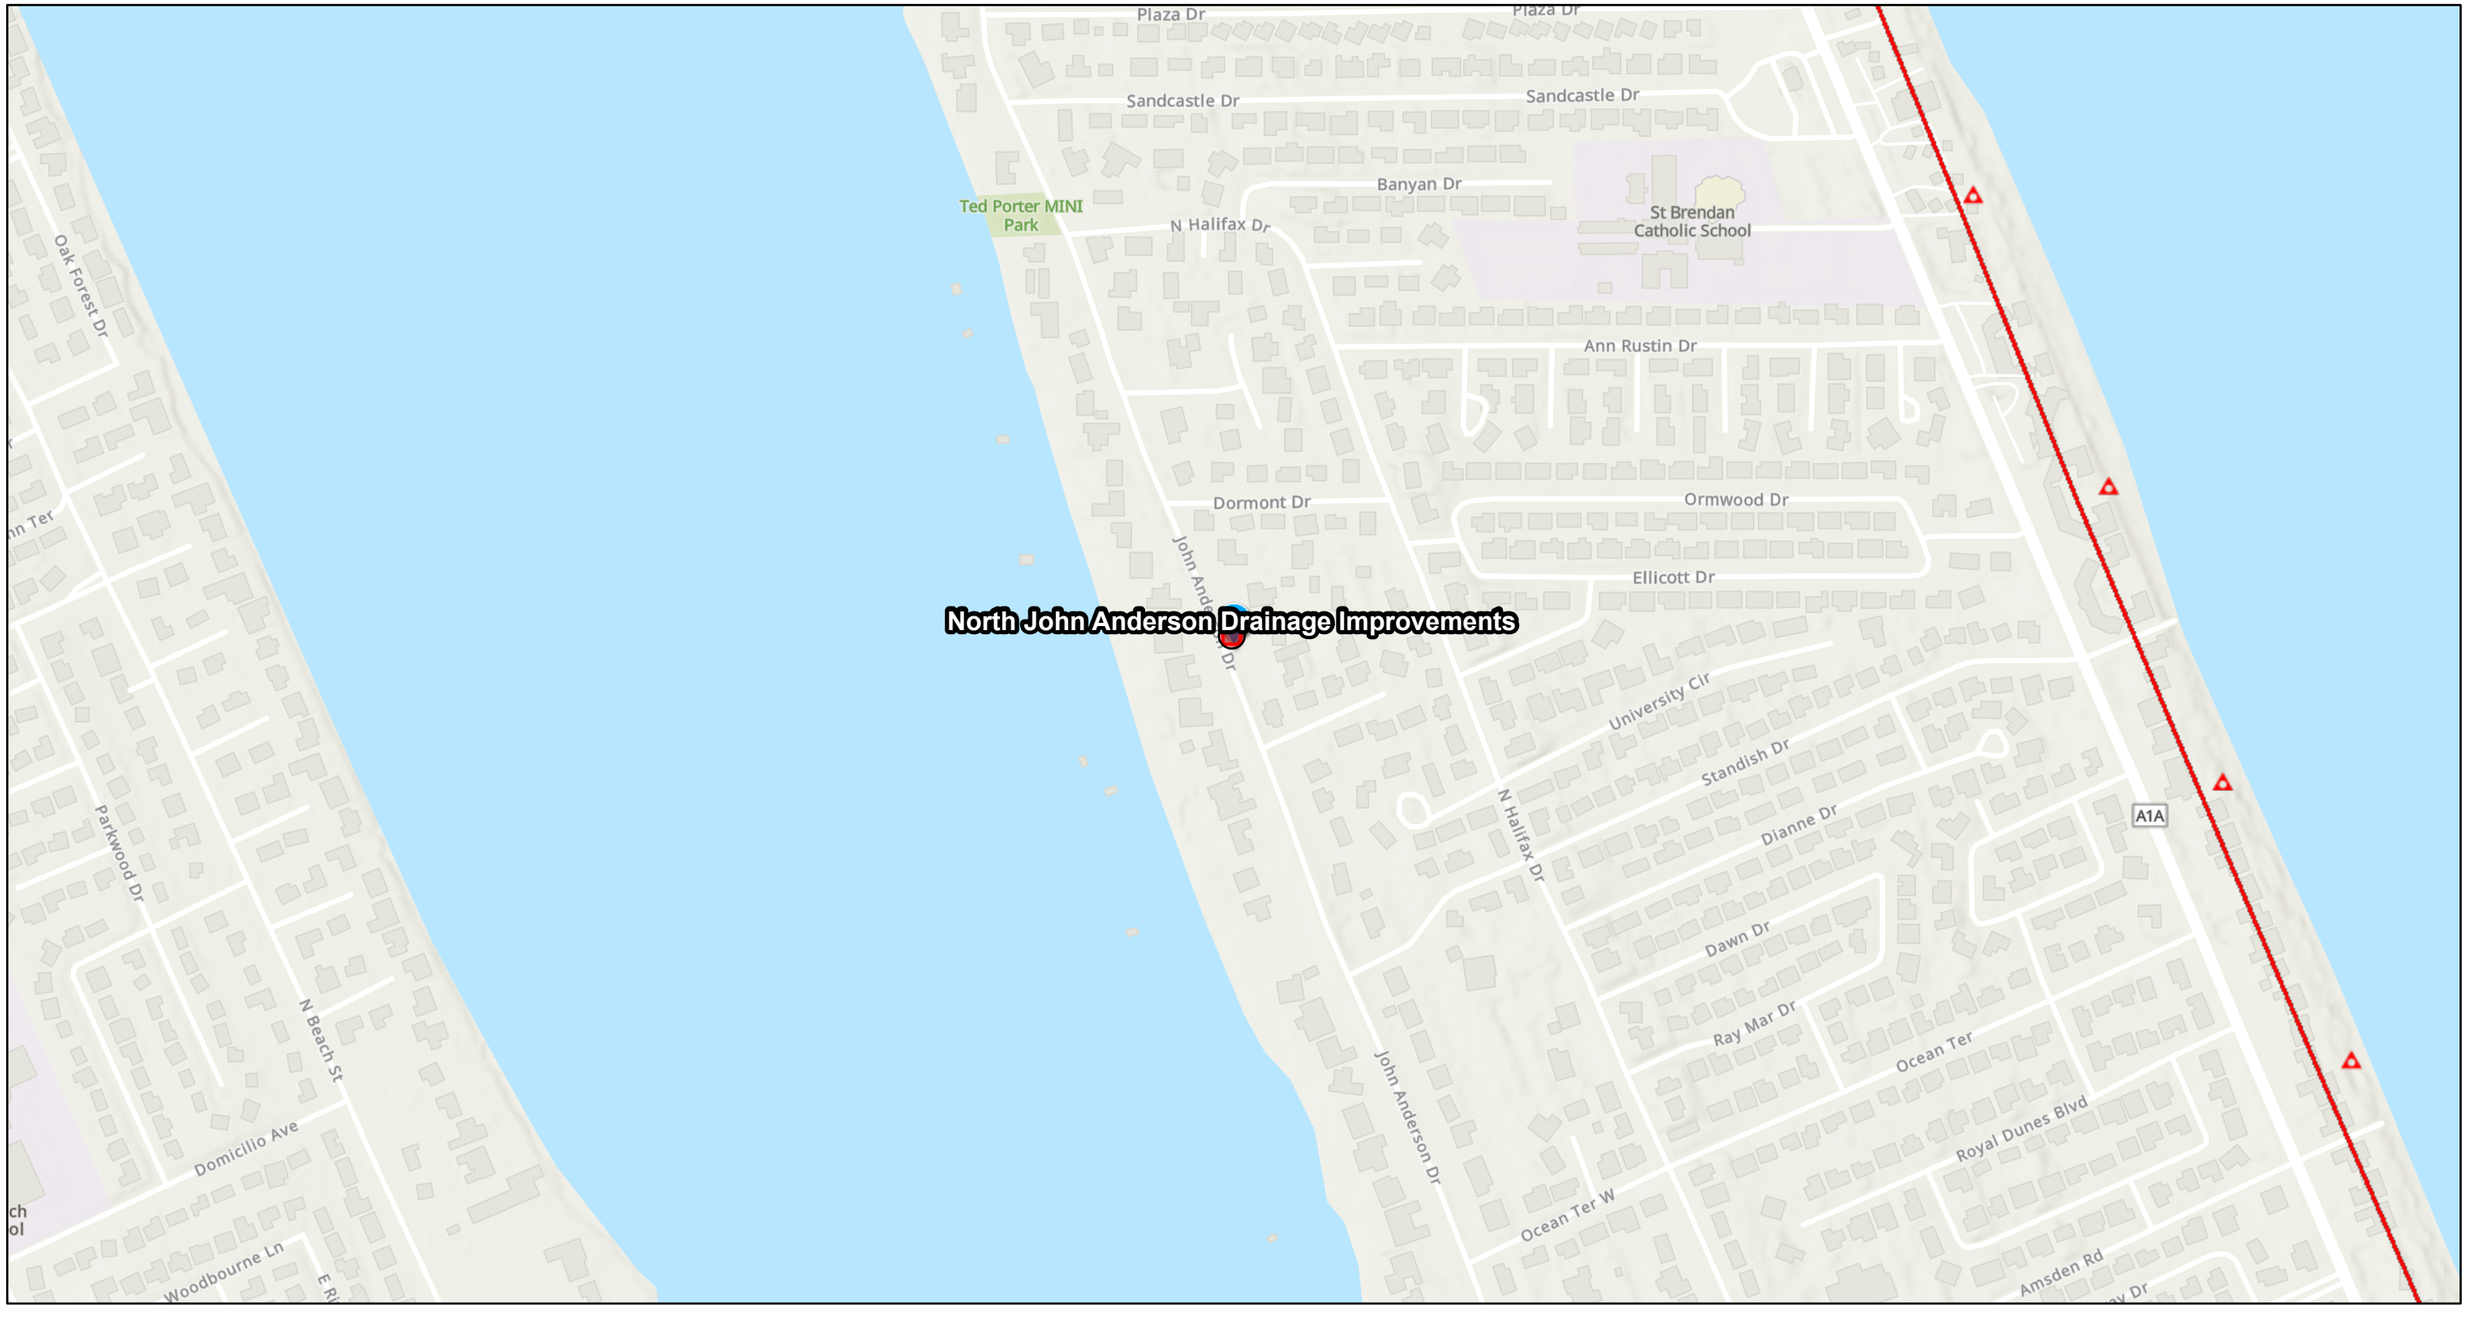
**Project Name:** Enter the name of the project title. This title should be the same as described on the application and other attachments.
**Sub-Applicant:** Enter your organization's legal name.
**Worksheet completed by:** Enter name, title, phone number, and email of the person completing this worksheet.

## Section II: Project Location

**Project Location:** Provide a full description of the specific geographical location(s) such as address(es).
**Coordinates:** Provide latitude and longitude coordinates in decimal degree format (Example: 12.345678, -87.654321) for the location of project activities.
**Age of Structure:** The age of the structure where work will be performed. If no structure is involved, put "N/A."
**Ground Disturbance:** Will any groundwork occur to implement the project? Common ground disturbing activities include installation of concrete pads, site preparations, running electrical conduits, trenching, directional boring, and excavation. If ground disturbing activities are occurring, a Ground Disturbance Map is required to be attached to the application. See Section IV instructions for more details.
**Critical Action**: Is the project a critical action. Critical actions are definite as an action for which even a slight change of flooding is too great. Activities related to a critical action must be protected to against a 500-year (0.2% annual chance) flood event. Examples of critical actions would be eligible generator projects or actions related to critical facilities.

## Section III: Environmental Details

**Flood Zone:** List all flood zones that the project activities will be within. Flood mapper: https://msc.fema.gov/portal/home.
**FIRM Panel:** List all FIRM Panel Number(s) that a location will be in.
**Preliminary Panel Available:** Is there a pending Preliminary FIRM Panel for the project area? Yes or No.
**Preliminary Panel #:** List all Preliminary FIRM Panel Number(s) that a location will be in.
**In a Wetland or Waterbody:** Is the project in a wetland or a body of water? Wetland Mapper: https://fwsprimary.wim.usgs.gov/wetlands/apps/wetlands-mapper/.
**Seaward of CCCL:** Does the project have activities seaward of the Coastal Construction Control Line (CCCL). CCCL Mapper: https://ca.dep.state.fl.us/mapdirect/?webmap=a8c9e92fbad5446d987a8dd4ee5dc5cc.



## Section V: Minimum Required Supporting Documents Checklist

**Aerial Map:** A good aerial map will contain a clear indication of where the project will be occurring and will include coordinates to the project area.
**Photographs:** Photos should be clear and represent the project area. Labels should indicate what the photos contain. Photos should show all sides of a structures if included in project activities.
**FIRM/FIRMette:** Project location should be clearly indicated on the map.
**Age Verification Documentation:** Documentation that shows the year the structure was built. As-builts or property appraiser website information are the most common forms of documentation.
**1:24,000 Topographic Map:** A topographic map with a scale of 1:24,000 with the project location outlined/ indicated.

## Section VI: Additional Supporting Documents Checklist

**Ground Disturbance Map:** Required for project that includes any ground disturbance. The map shall include activities clearly outlined, coordinates for ground disturbance, area dimensions, and depth of disturbance.
**Public Notice Draft:** Required for flood mitigation projects, critical actions in a Shaded X flood zone or greater, or any project type in a Special Flood Hazard Area (SFHA). Only a draft should be submitted with the application, the reviewer will reach out when it is the appropriate time to post. The template can be found under the Application Section at https://www.floridadisaster.org/dem/mitigation/hazard-mitigation-grant-program/.
**USACE/FDEP Section 404 Permit:** A Section 404 Permit or notice of No Permit Required (NPR) is needed for any project that is in or affects a wetland or body of water. Florida has 2 agencies that provide this permit, US Army Corps of Engineers and Florida Department of Environmental Protection. To determine which jurisdiction your project area falls into, use the following link. Please note that projects falling under multiple jurisdictions will require permits or NPRs from both agencies. https://fdep.maps.arcgis.com/apps/webappviewer/index.html?id=2cb8724cfd18408db80c8f2d7bb68a2e.
**Upstream/Downstream Impact Letter:** Drainage projects ready for construction require a letter from the Professional of Record stating if the project will have any upstream or downstream impacts.

# ASSURANCES - CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0042), Washington, DC 20503.

**PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.**

**NOTE:** Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the Awarding Agency. Further, certain Federal assistance awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this application.

2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the assistance; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.

3. Will not dispose of, modify the use of, or change the terms of the real property title, or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the Federal interest in the title of real property in accordance with awarding agency directives and will include a covenant in the title of real property aquired in whole or in part with Federal assistance funds to assure non-discrimination during the useful life of the project.

4. Will comply with the requirements of the assistance awarding agency with regard to the drafting, review and approval of construction plans and specifications.

5. Will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progress reports and such other information as may be required by the assistance awarding agency or State.

6. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.

7. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.

8. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).

9. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.

10. Will comply with all Federal statutes relating to non-discrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.

11. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal and federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.

12. Will comply with the provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

13. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333) regarding labor standards for federally-assisted construction subagreements.

14. Will comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.

15. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).

16. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

17. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).

18. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."

19. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.

# AUTHORIZING AGENT APPROVAL

For those entities applying for the Hazard Mitigation Grant Program (HMGP), assurance is needed to ensure that non-federal funds are, or will be, secured for the proposed action by the project start date. An Authorizing Agent's signature is needed to provide this. An Authorizing Agent is the chief elected official of a local government who has signature authority, such as a Chairperson of the Board of County Commissioners for a County, the Mayor of a municipality, or an elected Board Member for a private non-profit. Any entity may delegate this authority to a subordinate official by resolution of the governing body. If this is the case, Proof of Authorization must be provided as a separate attachment in Section VI of the relevant HMGP application in DEMES. This form must be fully completed, signed, and submitted into DEMES for an application to be received by FDEM. Applicants will be prompted for this form in the final step of the DEMES HMGP application. Ensure that the information provided here matches the relevant DEMES application. For questions, please email DEM_HazardMitigationGrantProgram@em.myflorida.com.

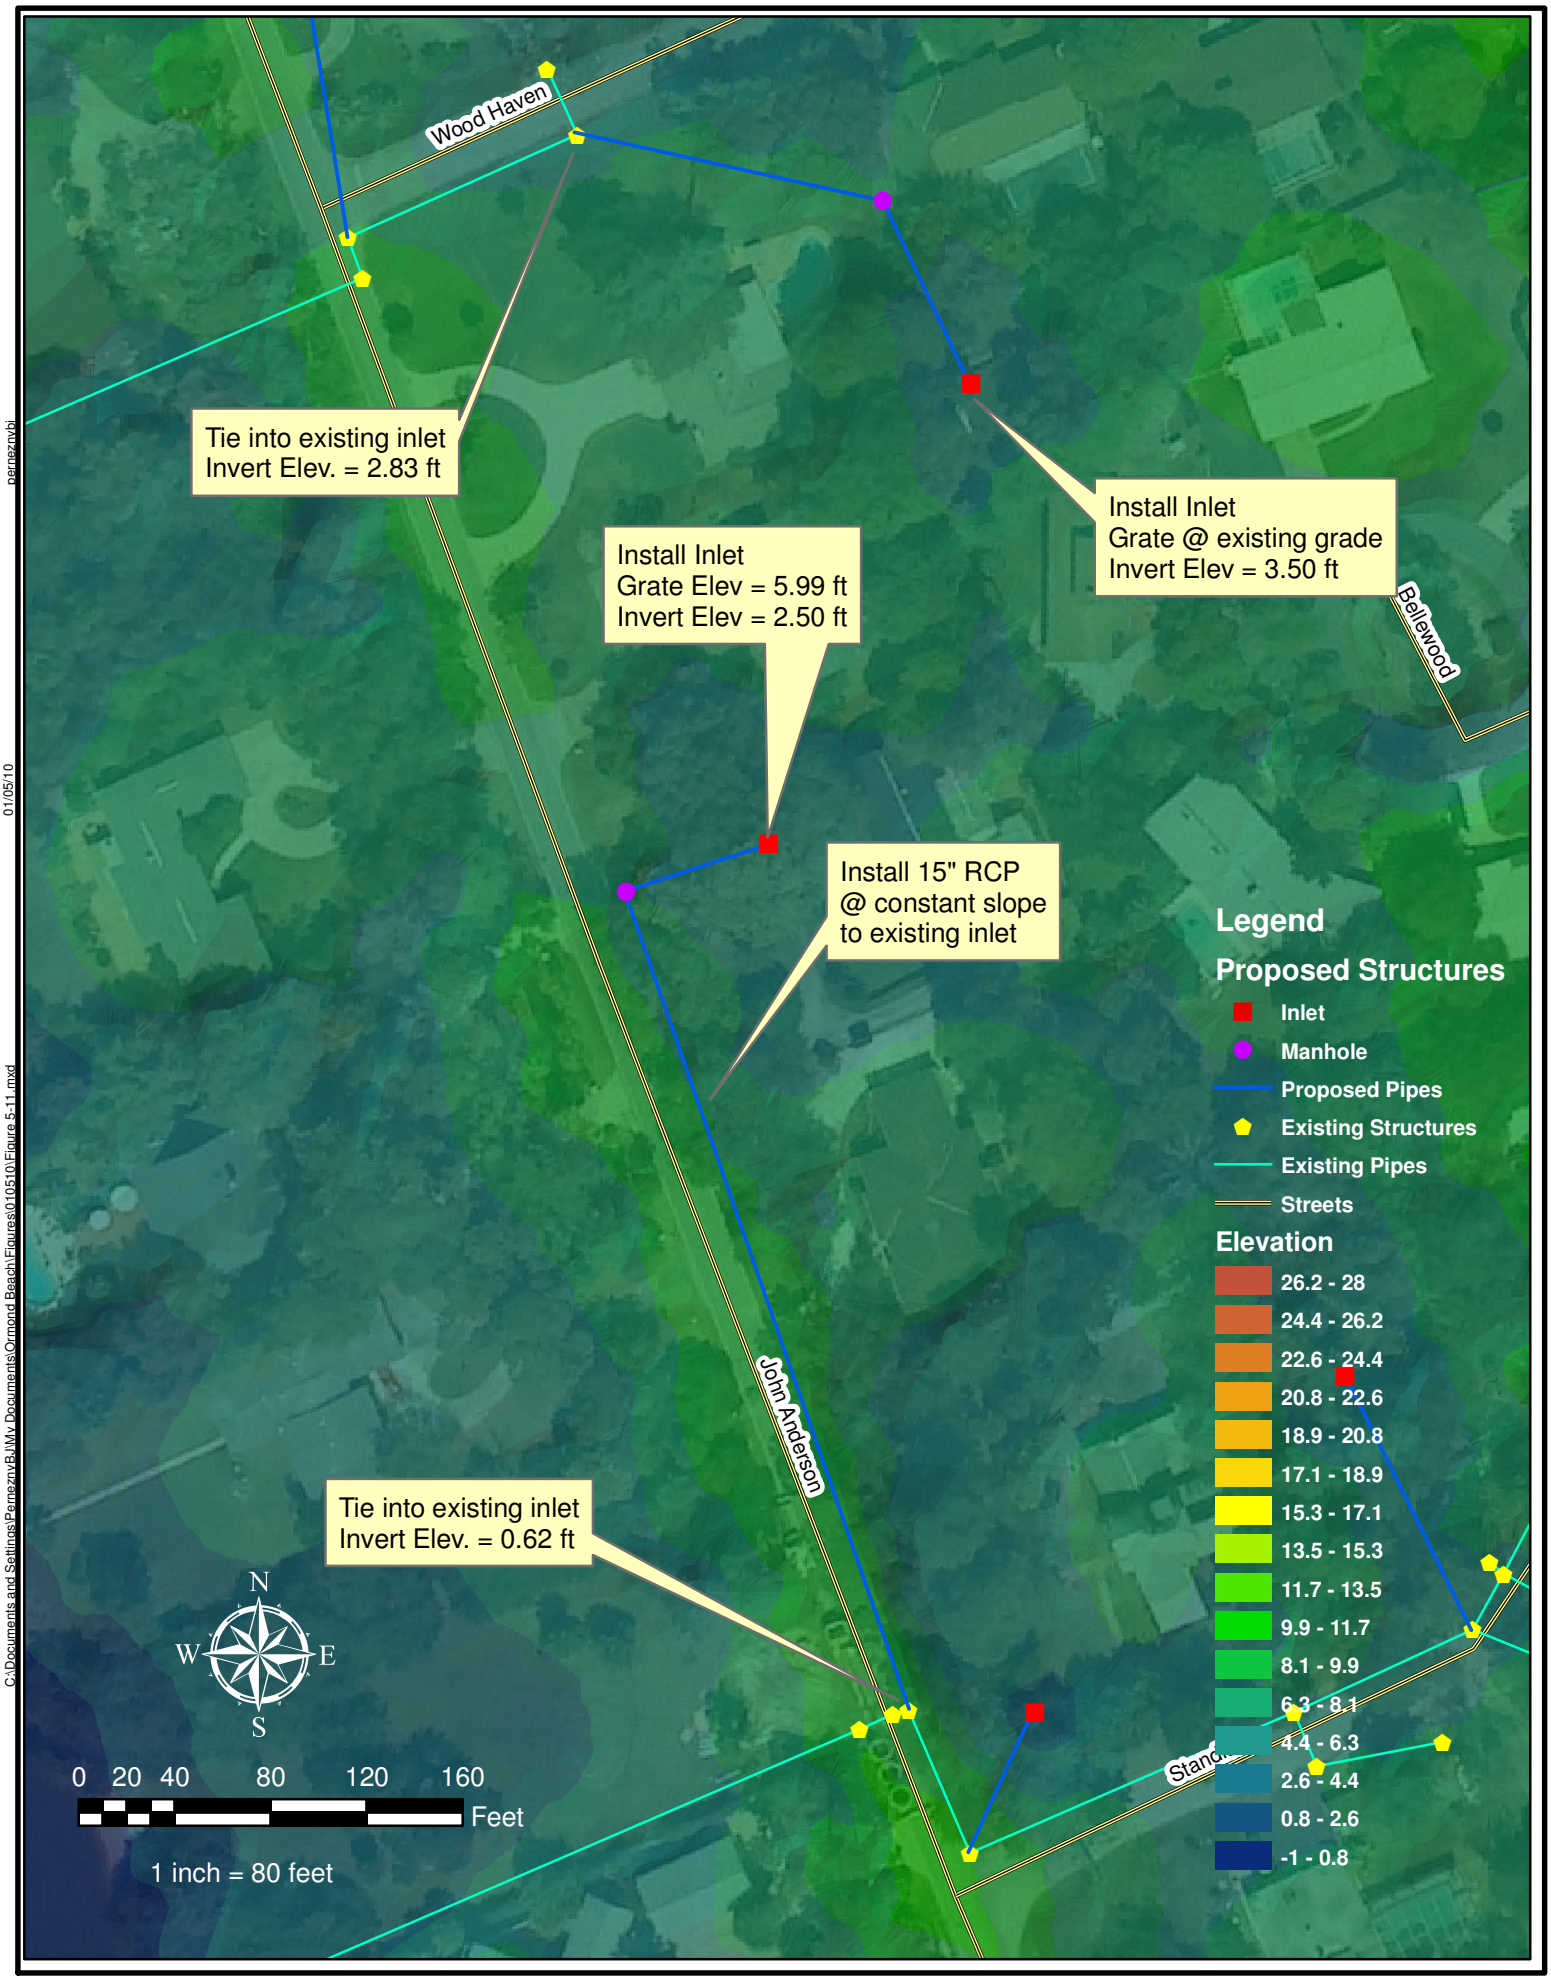
## Stormwater Flooding Investigation Study
## May 2009 Storm

March 2010



- Boundary condition of full 48 inch RCP under Standish is 4.88 feet-NAVD D/S of 5.00 feet-NAVD depression, 4.72 feet-NAVD D/S of 4.00 feet-NAVD depression. Gravity overflow appears if storage allowed in 4.00 feet-NAVD depression.
- Design alternative: Place inlets at bottom of each depression. Set grate elevation to 5.16 feet-NAVD to allow for storage of 0.5-in of runoff over tributary area. Connect with 15 inch RCPs to 48 inch RCP culvert under Standish Dr as shown in **Figure 5.10**.
- Total quantities:
  - 185 feet of 15 inch RCP
  - 2 Inlets
- Cost estimate: $24,600

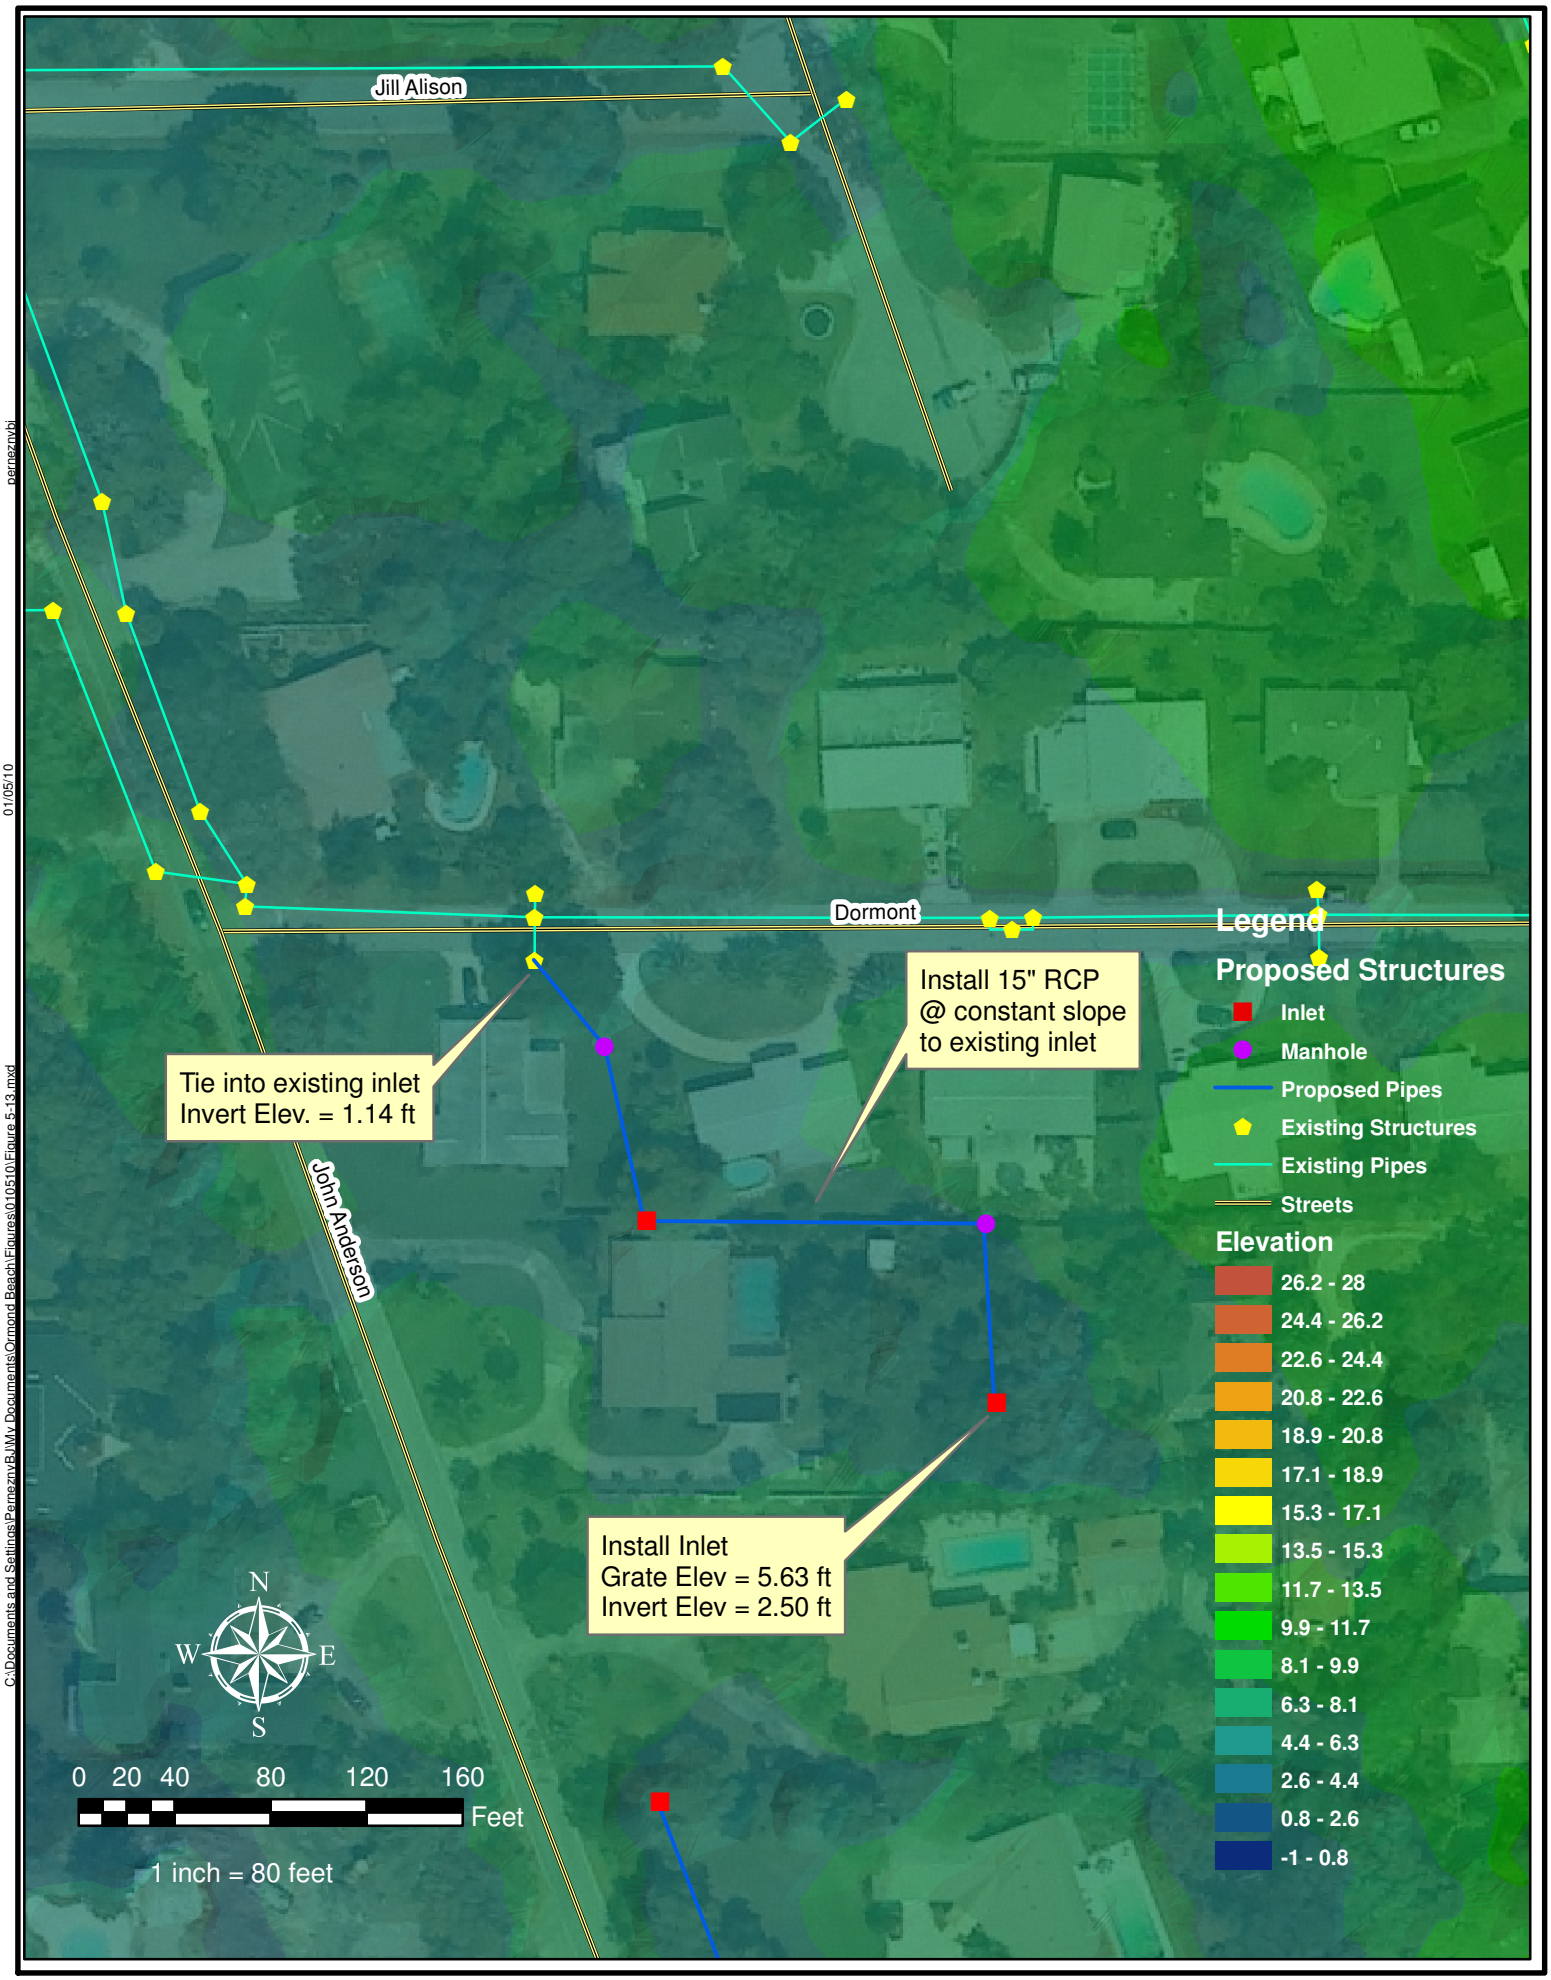
- Problem Area 6 South – Between Standish Dr and Wood Haven Cir
  - Two depressions identified; one at bottom elevation 5.00 feet-NAVD, one at bottom elevation 6.00 feet-NAVD.
  - Boundary conditions:
    - Full 38 inch x 60 inch ERCP at Standish and John Anderson to the south = 3.79 feet-NAVD.
    - Full 18 inch RCP along Wood Haven Circle to the north = 4.33 feet-NAVD.
    - Gravity overflow appears for both depressions.
  - Design alternative:
    - Place inlets at bottom of both depressions. Set grate elevation of inlet in southern depression at 5.99 feet-NAVD to allow for storage of 0.5-in of runoff over tributary area. Set grate elevation in northern depression at existing grade.
    - Connect southern depression with 15 inch RCP to existing 38 inch x 60 inch ERCP culvert near Standish/John Anderson intersection. Connect northern depression to existing 18 inch RCP culvert along Wood Haven Circle. See **Figure 5.11**.

CDM

Figure 5.10
Proposed Improvments - John Anderson Drive - Problem Area 5

CDM

Figure 5.11
Proposed Improvements - John Anderson Drive - Problem Area 6 South



- Total quantities:
  - 630 feet of 15 inch RCP
  - 2 Inlets
  - 2 Manholes
  - Approximately 4 cy concrete to replace driveways after installation.
- Cost estimate: $66,100

- Problem Area 6 North – North of Wood Haven Circle
  - Two depressions identified at bottom elevation 5.00 feet-NAVD.
  - The boundary condition hydraulic grade of a full 18 inch RCP culvert along John Anderson is 2.76 feet-NAVD. Gravity overflow appears feasible.
  - Design alternative: Place inlets at the bottom of each depression. Set grate elevation at 5.66 feet-NAVD to allow for storage of 0.5-in of runoff over tributary area. Connect with 15 inch RCP to existing 18 inch culvert as shown in **Figure 5.12**.
  - Total quantities:
    - 440 feet of 15 inch RCP
    - 2 Inlets
    - Approximately 12 cy of concrete to replace driveways after installation.
    - Approximately 6 tons of asphalt concrete to replace pavement on Wood Haven Circle after installation.
  - Cost estimate: $48,100
- Problem Area 7 – Dormont Drive
  - Two depressions identified at bottom elevation 5.00 feet-NAVD.
  - The boundary condition hydraulic grade of a full 18 inch RCP culvert along Dormont is 2.64 feet-NAVD. Gravity overflow appears feasible.
  - Design alternative: Place inlets at bottom of each depression. Set grate elevation at 5.63 feet-NAVD to allow for storage of 0.5 in of runoff over tributary area. Connect with 15 inch RCP to existing 18 inch RCP culvert as shown in **Figure 5.13**.

CDM

Figure 5.12
Proposed Improvements - John Anderson Drive - Problem Area 6 North

CDM

Figure 5.13
Proposed Improvements - John Anderson Drive - Problem Area 7

- Total quantities:
  - 340 feet of 15 inch RCP.
  - 2 Inlets
  - 2 Manholes
- Cost estimate: $42,600

- Problem Area 8 – Jill Allison Circle
  - Depression identified north of Jill Allison Circle at bottom elevation 5.00 feet-NAVD.
  - The boundary condition hydraulic grade of a full 15 inch RCP culvert under Jill Allison is 3.37 feet-NAVD. Gravity overflow appears feasible.
  - Design alternative: Place inlet at bottom of depression. Set grate elevation at 5.95 feet-NAVD to allow for storage of 0.5-in of runoff over tributary area. Connect with 15 inch RCP to existing 15 inch culvert as shown in **Figure 5.14**.
  - Total quantities:
    - 280 feet of 15 inch RCP
    - 1 Inlet
    - 1 Manhole
  - Cost estimate: $30,400

## 5.4 Hernandez and Dix

There is an existing drain at this location; however, during the May 2009 storm this adjacent house was impacted. City staff requested that CDM review the configuration of this drain volumetrically, to make an estimate of its capacity. Reviewing available data resulted in the following observations:

- Negative slope; invert of drain = 3.00 feet-NGVD, D/S invert of 15 inch culvert under = 3.15 feet-NGVD. Likely getting backflow from street system.
- Hydraulic grade of full flowing 15 inch RCP = 4.40 feet-NGVD.
- Slab elevation of affected house = 7.35 feet-NGVD. Therefore, more than 3 feet of storage is available before flooding occurs. Positive head should be available at this point unless street system is considerably supercharged. City staff indicated that during their investigations during the storm, there was some significant blockage of the drain inlet.

| **Strategic Goal** | Public Safety - Other | | |
| **Department Staff Contact** | Assistant City Manager<br>Shawn Finley, Assistant City Manager | | |

Summary

This is a request to authorize the submittal of an online grant application for the Water Reclamation Facility Influent Pump Station Replacement to the Federal Emergency Management Agency (FEMA) Hazard Mitigation Grant Program (HMGP) under Federal Disaster declaration for Hurricane Milton (FEMA-4834-DR-FL). The HMGP provides grants to local governments to implement long-term hazard mitigation measures after major disaster declarations.

The replacement of the influent pump station will ensure continuity of operations during disaster events and power surges. The existing influent pump station was installed in 1987 as a wet pit and dry pit setup. The City has since added larger pumps to the station, but the station faces challenges when major storm events or unusual rainfall occurs. This project will include design, construction of a new wet pit influent pump station, connection to the existing force main systems, and abandonment of the existing influent pump station.

Application criteria require that state/local governments have an approved Local Mitigation Strategy (LMS) to be eligible to apply and require that projects submitted are a part of the LMS. The City participates in the Volusia County LMS and these projects were submitted, approved, and are included in the LMS project listing attached. Since Volusia County was directly affected by Hurricane Milton, projects within Volusia County are eligible for Tier 1 funding. The deadline for application submittal to the Florida Department of Emergency Management (FDEM) is July 25, 2025.

Financial Impact

If approved, FEMA will pay up to 75% of the cost. Cost is estimated to be $8,300,000 (HMGP share $6,225,000; City share $2,075,000). Funding will be allocated from Fund 409-Water & Wastewater Capital Improvement Fund.

Citizen Impact

This project will ensure continuity of City utility operations during disaster events and power surges.

**RESOLUTION NO. 2025-104**

A RESOLUTION AUTHORIZING THE SUBMITTAL OF A GRANT APPLICATION TO THE FEDERAL EMERGENCY MANAGEMENT AGENCY UNDER THE HAZARD MITIGATION GRANT PROGRAM FOR FUNDING ASSISTANCE FOR THE REPLACEMENT OF AN INFLUENT PUMP STATION AT THE WATER RECLAMATION FACILITY; AUTHORIZING THE EXECUTION OF ALL DOCUMENTS INCIDENTAL THERETO, INCLUDING ANY CONTRACT NECESSARY FOR THE CITY TO ACCEPT THE GRANT AWARD; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS,** the City Commission desires to replace an influent pump station at the Water Reclamation Facility at an estimated cost of $8,300,000.00 ("the Project"), and

**WHEREAS**, the Federal Emergency Management Agency has a current grant cycle open under the Hazard Mitigation Grant Program from which the City can request maximum funding assistance in the amount of $6,225,000.00 (75% of Project cost), and

**WHEREAS**, the City Commission desires to submit a grant application to the Federal Emergency Management Agency under the Hazard Mitigation Grant Program (a copy of which is attached hereto and incorporated herein by reference) for the purpose of obtaining funding assistance in the amount of $6,225,000.00 for the Project, and

**WHEREAS**, the City is required to make a matching contribution of at least $2,075,000.00, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, VOLUSIA COUNTY, FLORIDA, THAT:**

**SECTION ONE.** The City Manager or her designee is hereby authorized and directed to submit a grant application, including any and all documents that are necessary and

incidental thereto, to the Federal Emergency Management Agency under the Hazard Mitigation Grant Program in the amount of $6,225,000.00 for funding assistance to replace an influent pump station at the Water Reclamation Facility.

**SECTION TWO.** The Mayor and City Manager are hereby further authorized and directed to execute any contract, including any and all documents that are necessary and incidental thereto, for the City to accept the grant award.

**SECTION THREE.** The City Manager hereby certifies that the City's matching funds in the amount of $2,075,000.00 will be derived from the Capital Improvement Program Fund.

**SECTION FOUR.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025**.

    **Date**: _____
12. Local Mitigation Strategy (LMS) Compliance
    a. All proposed projects must be included in the county's Local Mitigation Strategy (LMS) Project List, and on file with FDEM's Mitigation Bureau Planning Unit. Does your jurisdiction have a current FEMA Approved Mitigation Plan and this project is listed? ☒ Yes ☐ No
    b. Attached is a letter of endorsement for this project from the county's LMS Coordinator. ☒ Yes ☐ No
    Ensure the LMS endorsement letter contains both the Total Estimated Projects Cost (Section IV. D.), along with the Estimated Federal Share (Section IV. I.1.) allocated to this project.
    c. The LMS project list and endorsement letter both have an estimated cost column and Federal Share amount that is within $500.00 between the two. ☒ Yes ☐ No
13. Has this project been submitted under a previous disaster event? ☒ No
    ☐ Yes, provide the disaster number and project number (as applicable): _____

## Section II – Project Description

### A. Hazards to be Mitigated / Level of Protection

1. Select the type of hazards the proposed project will mitigate:
   ☒ Flood ☐ Wind ☒ Storm surge ☐ Wildfire ☐ Other *(list):* _____

2. Identify the type of proposed project:
   ☐ Elevation and retrofitting of residential or non-residential structure
   ☐ Acquisition and Relocation ☐ Acquisition and Demolition
   ☐ Wind retrofit ☐ Drainage project that reduces localized flooding
   ☐ Generator ☒ Other (explain) Influent Pump Station Replacement

3. List the total number of persons that will be protected by the proposed project (*include immediate population affected by the project only*):

   **51,162**

4. List how many acres of "Total Impacted Area" is to be protected by the proposed project (*include immediate area affected by the project only*):

   **30,252**

5. Fill in the level of protection and the magnitude of event the proposed project will mitigate. *(e.g. 23 structures protected against the 100-year storm event (1% chance)*

   _____ structure(s) protected against the _____ -year storm event *(10, 25, 50, 100, or 500 year storm event*)

   _____ structure(s) protected against _____ mile per hour (mph) winds

6. Check **all** item(s) the project may impact:
   ☐ Wetlands ☒ Water Quality ☐ Previously Undisturbed Soil
   ☐ Floodplain ☐ Coastal Zone ☐ Toxic or Hazardous Substances
   ☐ Historic Resources ☐ Fisheries ☐ Threatened & Endangered Species
   ☐ Vegetation Removal ☐ Public Controversy ☐ Potential for Cumulative Impacts
   ☒ Health & Safety ☐ Other _____

7. ***Engineered projects:*** *If* your project has been already designed and engineering information is available, attach to your application **ALL** calculations, H&H study and design plans (e.g. Drainage Improvement, Erosion Control, or other special project types). ☐ No ☐ Yes If so, see Attachment #(s) _____.

### B. Project Description, Scope of Work, and Protection Provided (Must be Completed in Detail)

Describe, in detail, the existing problem, the proposed project, and the scope of work. Explain how the proposed project will ***solve*** the problem(s) and provide the level(s) of protection described in Part A. Also, if available, attach a vendor's estimate and/or a contractor's bid for the scope of work. ***Ensure that each proposed project is mitigation and not maintenance***.

1. Describe the existing problems:

   **The City of Ormond Beach is seeking replacement of its influent pump station at the Water Reclamation Facility (WRF), located at 550 North Orchard Street, to ensure continuity of operations during disaster events and power surges. The existing influent pump station was installed in 1987 as a wet pit and dry pit setup. Since then, the City has added larger pumps to the station, but the station faces challenges when major storm events or unusual rainfall occurs.**

2. Describe the type(s) of protection that the proposed project will provide:

   _____

3. Scope of Work (describe in detail what you are planning to do):

   **This project will include design, construction of a new wet pit influent pump station, connection to the existing force main systems, abandonment of the existing influent pump station, and closeout activities.**

4. Describe any other on-going or proposed projects in the area that may impact, positively or negatively, the proposed HMGP Project:

## Section III – Project Location *(Fully describe the location of the proposed project.)*

### A. Site

1. Describe the physical location of this project, including street numbers (or neighborhoods) and project site zip code(s). Provide precise longitude and latitude coordinates for the site utilizing a hand-held global positioning system (GPS) unit or the equivalent:

   Site Location: **Water Reclamation Facility**
   Address(es): **550 North Orchard Street**
   GPS coordinates (decimal degree format): **29.289733, -81.075296**
   Project Zip Code(s): **32174**

2. Titleholder: **City of Ormond Beach**

3. Is the project site seaward of the Coastal Construction Control Line (CCCL)? ☐ Yes ☒ No

4. Provide the number of each structure type (listed below) in the project area that will be affected by the project. Include ***all*** structures in project area.

   ☐ Residential property: _____ ☐ Public buildings: _____
   ☐ Businesses/commercial property: _____ ☐ Schools/hospitals/houses of worship: _____
   ☐ Other: _____

### B. Flood Insurance Rate Map (FIRM) Showing Project Site

| | | |
|---|---|---|
| 1. ☒ | Attach one (1) copy of the FIRM map, a copy of the panel information from the FIRM, and, if available, the Floodway Map. ***FIRM maps are required for this application (if published for your area). Also, all attached maps must have the project site and structures clearly marked on the map***. FIRMs are typically available from your local floodplain administrator who may be located in a planning, zoning, or engineering office. Maps can also be ordered from the Map Service Center at 1-800-358-9616. For more information about FIRMs, contact your local agencies or visit the FIRM site on the FEMA Web-page at https://msc.fema.gov/portal. | |
| 2. Using the FIRM, determine the flood zone(s) of the project site (Check all zones in the project area) *(See FIRM legend for flood zone explanations) (A Zone must be identified)* | | |
| ☐ | VE or V 1-30 | ☒ AE or A 1-30 |
| ☐ | AO or AH | ☐ A (no base flood elevation given) |
| ☐ | B or X (shaded) | ☐ C or X (unshaded) |
| ☐ | Floodway | ☐ |
| ☐ | Coastal Barrier Resource Act (CBRA) Zone (Federal regulations strictly limit Federal funding for projects in this Zone; coordinate with your state agency before submitting an application for a CBRA Zone project). | |
| 3. ☐ | **If the FIRM Map for your area is not published**, attach a copy of the Flood Hazard Boundary Map (FHBM) for your area, with the project site and structures clearly marked on the map. | |
| 4. ☐ | Attach a copy of a Model Acknowledgement of Conditions for Mitigation in Special Flood Hazard Area | |

### C. Maps with Project Site and Photographs

1. ☒ Attach a copy of a city or county scale map (large enough to show the entire project area) with the project site and structures marked on the map.
2. ☒ Attach a USGS 1:24,000 TOPO map with project site ***clearly*** marked on the map.
3. ☐ For **acquisition** or **elevation** projects, include copy of Parcel Map (Tax Map, Property Identification Map, etc.) showing each property to be acquired or elevated. Include the Tax ID numbers for each parcel, and Parcel information – including year built and foundation.
4. ☐ Attach photographs (at a minimum 4 photographs) for each project site per application. The photographs should be representative of the project area, including any relevant streams, creeks, rivers, etc. and drainage areas that affect the project site or will be affected by the project, and labeled. For each structure, include the following angles: front, back and both sides.

## Section IV – Budget/Costs

In order to assist applicants with filling out the following Budget section, we have provided the following instructions for your convenience. For this section, we ask that you provide details of all the estimated costs of the project, as it is used for the benefit-costs analysis as well as for the feasibility and effectiveness review.

For the cost sections relating to Materials, Labor, and Fees, it is important to note,

- Lump sums without supporting documentation showing a breakdown of those costs are not acceptable. For those items that will not fit in the spaces provided, attach the appropriate documentation to your application.
- Identify your match sources in sections B and I.
- Sub-Total cells will auto sum the costs in their respective columns.
- Do not factor management costs into parts A-C. If management costs are being requested, see part G.
- Contingency Costs need to be justified and reported as a separate line item in part E of this section. From left to right in that part, enter the desired percentage (maximum 5% of Material/Labor), the amount the percentage is to be applied to, and the resulting amount. **PLEASE NOTE**- These cells will not auto-calculate across the row, but the final cell will be calculated into the Final Project Cost below it. Take care that everything is calculated correctly.
- Pre-Award Costs: costs must be identified as a separate line item, AND a completed HMGP Pre-Award Cost Request Form MUST be submitted with this application, detailing the items/cost and requested start date.
- Mark all In-kind (donated) services with (**); In-house (employee) services with (***), per each line item.
- All funding sources (In-kind, In-house, Global Match, and Other Agencies) must be identified (below) AND identified on the Funding Sources - Section IV I.

For project management costs, in compliance with Disaster Relief and Recovery Act of 2018 (DRRA) and the subsequent FEMA Interim Policy #104-11-1, the Florida Division of Emergency Management has included a section for applicants to request, or refuse, project management funds that are available to them. Under this new policy, HMGP projects awarded under disasters declared on or after August 1, 2017, are eligible for project management costs up to 5 percent of their total project costs.

Applicants choosing to apply for this funding must detail the specific administrative costs in Part G of this section. These costs must be eligible administrative costs, conforming to the requirements set in 2 CFR Part 200 Subpart E. Applicants must ensure that their administrative costs are reasonable, allowable, allocable, and necessary for the performance of the federal award.

The State will allot these management costs on a project-by-project basis per the amount requested by the sub-recipient, up to 5 percent of the total project cost. A sub-recipient may request less than this, but no higher. These management costs will be considered a separate pool of funding, and **WILL NOT** affect a project's benefit-cost analysis.

Management costs will be reimbursed per reimbursement request, and no more than 5 percent of any given reimbursement request amount. All management costs reimbursements will be contingent upon adequate documentation from the sub-recipient.

Management costs will be reimbursed at 100 percent of the amount of management costs requested, so far as they are adequately documented and are no more than 5 percent of the request. Any unused management costs at closeout following the final payment will be de-obligated. If the final total project cost results in an under-run, management costs will be reduced accordingly.

Applicants must make the determination to request or refuse management costs at the time of formal application submittal. The State will accept the initial determination from the applicant. There will be no recourse from the State for applicants wishing to change their initial determination after the application has been formally submitted.

## A. Materials

| *Item* | *Unit* | *Quantity* | *Cost per Unit* | *Cost* |
|---|---|---|---|---|
| Concrete Pump Station (25' x 25' X 20') | LS | 1 | $2,750,000.00 | $2,750,000.00 |
| Soil Stabilization for Pump Station | LS | 1 | $300,000.00 | $300,000.00 |
| Waterproofing Membrane/Epoxy | LS | 1 | $250,000.00 | $250,000.00 |
| 3 mm Stairscreens and Compactors | EA | 2 | $400,000.00 | $800,000.00 |
| Lift Station Pumps | EA | 4 | $65,000.00 | $260,000.00 |
| Odor Control System | LS | 1 | $650,000.00 | $650,000.00 |
| Forcemain Tie-In Configuration | LS | 1 | $80,000.00 | $80,000.00 |
| Gravity Main Tie-In Configuration | LS | 1 | $34,900.00 | $34,900.00 |
| Mechanical and Electrical | LS | 1 | $925,000.00 | $925,000.00 |
| Instrumentation | LS | 1 | $250,000.00 | $250,000.00 |
| | | | | |
| | | | | |
| | | | | |
| | | | ***Sub-Total*** | **$6,299,900.00** |

## B. Labor Include equipment costs. Indicate all "soft" or in-kind matches (**).

| *Description* | *Hours* | *Rate* | *Cost* |
|---|---|---|---|
| Contractor Mobilization | 1 | $450,000.00 | $450,000.00 |
| Demolish Existing Lift Station | 1 | $650,000.00 | $650,000.00 |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | ***Sub-Total*** | **$1,100,000.00** |

## C. Fees Paid Include any other costs associated with the project.

| *Description of Task* | *Hours* | *Rate* | *Cost* |
|---|---|---|---|
| **Pre-Award* | | | |
| CEI - Inspection Engineer | 2400 | $120.00 | $288,000.00 |
| CEI - Principal Engineer | 300 | $220.00 | $66,000.00 |
| | | | |
| Design - Principal Engineer | 250 | $250.00 | $50,000.00 |
| Design - Engineer | 1500 | $160.00 | $240,000.00 |
| Admin Support | 250 | $50.00 | $12,500.00 |
| Design - CADD Design | 2320 | $105.00 | $243,600.00 |
| | | | |
| | | | |
| | | ***Sub-Total*** | **$900,100.00** |

**D.** **Total Estimated Project Cost** **$8,300,000.0**

**E.** Contingency Costs (maximum 5% of Material/Labor) 5.00% $5.00 $357,500.00

**F.** **Final Project Cost** $8,657,500.0

***Note:*** *To be eligible for HMGP Pre-Award costs – the costs must be identified as a separate line item in the estimate above, AND a completed HMGP Pre-Award Cost Request Form MUST be submitted with this application, detailing the items/cost requesting.*

*Mark all In-kind (donated) services with (**); In-house (employee) services with (***), per each line item.*

*All funding sources (In-kind, In-house, Global Match, and Other Agencies) must be identified (above) AND identified on the Funding Sources - Section IV I.*

## G. Project Management Costs

Based on the amount of total project cost being requested in Part D (above), your project is eligible for up to an additional 5% of that amount for project management costs. Indicate below whether or not you would like to request these funds and follow the directions for your selected choice.

**Total Estimated Management Costs Available** (5% of Total Project Costs) *$415,000.00*
*Note: This number will be generated automatically after Part I is completed*

☒ **YES**, I would like to requests these funds (Fill out the itemized table below, then continue to Part I)*

☐ **NO**, I do not wish to request these funds. (continue to Part I)*

| *Description* | *Hours* | *Rate* | *Cost* |
|---|---|---|---|
| *City Engineer* | *715* | *$80.00* | *$57,200.00* |
| *Project Manager* | *3200* | *$55.00* | *$176,000.00* |
| *Project Coordinator* | *1095* | *$40.00* | *$43,800.00* |
| *Engineering Technician* | *1200* | *$45.00* | $54,000.00 |
| *Engineering Inspector* | *2800* | *$30.00* | *$84,000.00* |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |

## H. Total Estimated Management Costs Requested *$415,000.00*

***Note:** By selecting either “yes” or “no” the applicant is acknowledging that they understand what is being offered to them as it is described in this application.

## I. Funding Sources (round figures to the nearest dollar)

***The maximum FEMA share for HMGP projects is 75%.*** The other 25% can be made up of State and Local funds as well as in-kind services. HMGP funds may be packaged with other Federal funds, but other Federal funds (except for Federal funds that lose their Federal identity at the State level, such as CDBG, and certain tribal funds) may not be used for the Non-Federal share of the costs.

| | | | | | |
|---|---|---|---|---|---|
| 1. | ***Estimated Federal Share*** | $6,225,000.00 | 75 | % of Total | (Maximum 75%) |
| 2. | ***Non-Federal Shares*** | | | | |
| 3. | Estimated Local Shares | $2,075,000.00 | 25 | % of Total | (Cash) |
| 4. | | | | % of Total | (In-Kind**) |
| 5. | | | | % of Total | (In-House***) |
| 6. | | | | % of Total | (Global Match****) |
| 7. | ***Other Agency Share*** *(Identify Non-Federal Agency and availability date)* | | | % of Total | |
| 8. | ***Total Funding sources from above*** | **$8,300,000.00** | **100.00%** | ***Total*** | (Equals 100%) |

☐ **Identify proposed eligible activities directly related to project to be considered for In-Kind services in Section IV.C. Fees

☐ ***Identify proposed eligible activities directly related to project to be considered for In-House services in Section IV.C. Fees

☐ ****Separate project applications must be submitted for each Global Match project.

Global Match Project Number and Title: _____

| | | | | | |
|---|---|---|---|---|---|
| 9. | ***Total Estimated Management Costs*** | ***Requested*** | | | |
| | | ***Available*** | $415,000.00 | 5% of Total | (Max Allowed) |

## J. Project Milestones/Schedule of Work

List the major milestones in this project by providing an estimated time-line for the critical activities not to exceed a period of 3 years (36-months) of performance. ***(e.g. Contracting, Designing, Engineering, Permitting, Inspections, closeout, etc.)***

| ***Milestone(s)*** | ***Number of Months to Complete*** |

| | |
| | |
| | |
| | |
| | |
| **Total** | **Months** |

## Section V. Environmental Review and Historic Preservation Compliance

***(NOTE: This application cannot be processed if this section is not completed.)***

Because the HMGP is a federally funded program, all projects are required to undergo an environmental and historic preservation review as part of the grant application process. Moreover, all projects must comply with the National Environmental Policy Act (NEPA) and associated Federal, State, Tribal, and Local statutes to obtain funding. **NO WORK can be done prior to the NEPA review process. If work is done on your proposed project before the NEPA review is completed, it will NOT be eligible for Federal funding.**

**A. The following information is required for the Environmental and Historic Preservation review:**

*All projects must have adequate documentation to determine if the proposed project complies with NEPA and associated statutes. The State Environmental Staff provide comprehensive NEPA technical assistance for Applicants, with their consent, to complete the NEPA review. The type and quantity of NEPA documents required to make this determination varies depending upon the project's size, location, and complexity. However, at a minimum, provide the applicable documentation from this section to facilitate the NEPA compliance process.*

1. ☐ Detailed project description, scope of work, and budget/costs (Section II and Section IV of this application).
2. ☐ Project area maps (Section III, part B & C of this application).
3. ☐ Project area/structure photographs (Section III, part C of this application).
4. ☐ Preliminary project plans.
5. ☐ Project alternatives description and impacts (Section V of the application).
6. ☐ Complete the applicable project worksheets.
   Documentation showing dates of construction are required for all structures.
7. ☐ Environmental Justice – Provide any applicable information or documentation regarding low income or minority populations in the project area. See Section V.B of this application for details.
8. ☐ Provide any applicable information or documentation referenced on the *Information and Documentation Requirements by Project Type* below.

**B. Executive Order 12898; Environmental Justice for Low Income and Minority Population:**

1. Are there low income or minority populations in the project area or adjacent to the project area?
   ☐ No ☒ Yes; describe any disproportionate and adverse effects to these populations:

   The project site is located within the City's Community Development Block Grant (CDBG) priority area.

2. ☐ To help evaluate the impact of the project, explain below or attach any other information that describes the population, or portion of the population, that would be either disproportionately or adversely affected. Include specific efforts to address the adverse impacts in your proposal narrative and budget.

## C. Tribal Consultation *(Information Required)*

*Section 106 of the National Historic Preservation Act (NHPA) requires federal agencies to take into account the effect of their undertakings on historic properties. The NHPA requires that agencies must complete this process prior to the expenditure of any Federal funds on the undertaking. A Tribal Consultation is required for any project disturbing ground or moving soil, including but not limited to: drainage projects; demolition; construction; elevation; communication towers; tree removal; utility improvements.*

1. Describe the current and future use of the project location. A land use map may be provided in lieu of a written description.

   Land Use Map Attached

2. Provide information on any known site work or historic uses for project location.

   _____

   ☒ Attach a copy of a city or county scale map (large enough to show the entire project area) with the horizontal limits (feet) and vertical depths (square feet) of all anticipated ground disturbance of 3 inches or more.

## D. Alternative Actions *(Information Required)*

The NEPA process requires that at least two alternative actions be considered that address the same problem/issue as the proposed project. In this section, list **two feasible** alternative projects to mitigate the hazards faced in the project area. One alternative is the "No Action Alternative".

**1. No Action Alternative**
Discuss the impacts on the project area if no action is taken.

_____

**2. Other Feasible Alternative**
Describe a feasible alternative project that would be the next best solution if the primary alternative is not accomplished. This could be an entirely different mitigation method or a significant modification to the design of the current proposed project. Include a Scope of Work, engineering details (if applicable), estimated budget and the impacts of this alternative. Complete *all* of parts **a-e** (below).

**a. Project Description for the Alternative**
Describe, in detail, the alternative project, and explain how the alternative project will solve the problem(s) and/or provide protection from the hazard(s). Also, provide pros and cons for this alternative and a reason for why it was not selected.

_____

**b. Project Location of the Alternative** (*describe briefly, if different from proposed project*)

_____

☐ Attach a map or diagram showing the alternative site in relation to the proposed project site (*if different from proposed project*)

**c. Scope of Work for Alternative Project**

_____

**d. Impacts of Alternative Project**
Discuss the impact of this alternative on the project area. Include comments on these issues as appropriate: Environmental Justice, Endangered Species, Wetlands, Hydrology (Upstream and Downstream Surface Water Impacts), Floodplain/Floodway, Historic Preservation and Hazardous Materials.

_____

**e. Estimated Budget/Costs for Alternative Project**

In this section, provide details of all the estimated costs of the alternative project (round figures to the nearest dollar). A lump sum budget is acceptable.

| | |
|---|---|
| Materials: | |
| Labor: | |
| Fees: | |
| **Total Estimated Project Cost:** | **$ 0.00** |

**HMGP ENVIRONMENTAL REVIEW**

***Information and Documentation Requirements by Project Type***

| ***Retrofits to Existing Facilities/Structures***<br>***Elevations***<br>***Acquisitions with Demolition*** |
|---|
| ✓ Dates of Construction<br>✓ Ground disturbance map for projects with 3 inches or more of ground disturbance<br>✓ Structure photographs |
| ***Drainage Improvements*** |
| ✓ Engineering plans/drawings<br>✓ Permit or Exemption letter to address any modifications to water bodies and wetlands<br>o Department of Environmental Protection<br>o Water Management District<br>o U.S. Army Corps of Engineers<br>✓ Ground disturbance map for projects with 3 inches or more of ground disturbance.<br>✓ Concurrence from U.S. Fish and Wildlife addressing any impacts to wildlife, particularly endangered and threatened species and their habitats.<br>✓ If the project is in a coastal area, attach a letter from the National Marine Fisheries Service addressing impacts to marine resources.<br>✓ Concurrence from Natural Resource Conservation Service if project is located outside city limits and may impact prime or unique farmland.<br>✓ Concurrence from your Local Floodplain Manager – if project is located in a floodplain. |

*Note: This is a general guideline for most projects. However, there will be exceptions. Consult with state environmental staff on project types not listed.*

## Section VI – Maintenance Agreement

***All applicants whose proposed project involves the retrofit or modification of existing public property or whose proposed project would result in the public ownership or management of property, structures, or facilities, must first sign the following agreement prior to submitting the application to FEMA.***

***(NOTE: Not applicable to projects solely related to residential or private property.)***

The City of Ormond Beach, State of Florida, hereby agrees that if it receives any Federal aid as a result of the attached project application, it will accept responsibility, at its own expense if necessary, for the ***routine*** maintenance of any real property, structures, or facilities acquired or constructed as a result of such Federal aid**.** Routine maintenance shall include, but not be limited to, such responsibilities as keeping vacant land clear of debris, garbage, and vermin; keeping stream channels, culverts, and storm drains clear of obstructions and debris; and keeping detention ponds free of debris, trees, and woody growth.

The purpose of this agreement is to make clear the Sub-recipient's maintenance responsibilities following project award and to show the Sub-recipient's acceptance of these responsibilities. It does not replace, supersede, or add to any other maintenance responsibilities imposed by Federal law or regulation and which are in force on the date of project award.

Signed by Joyce Shanahan the duly authorized representative
(*printed or typed name of signing official*)

City Manager,
(*title*)

This _____(*day*) of _____(*month*), _____ *(year).*

**Signature*** _____

****Note: The above signature must be by an individual with legal signing authority for the respective local government or county (e.g., the Chairperson, Board of County Commissioners or the County Manager, etc.)***

# HMGP Application Completeness Guidance/Checklist

This guidance/checklist contains an explanation, example and/or reference for information requested in the application. Use this list to assure your application is complete and includes the required information for HMGP projects. The appropriate documentation must also be attached. It is important to note that this list is similar to the form that will be used during the application sufficiency review by the HMGP staff.

**Project Title: Water Reclamation Facility Influent Pump Station Replacement**

**Applicant: City of Ormond Beach**

| Application Information | Explanation of Information Required | ✓ |
|---|---|---|
| ***Section I*** | | |
| **B. Applicant Information** | | |
| **FEMA___-DR-FL** | Type in the four digit number FEMA assigned to the disaster that this application is being submitted under. (Example: 4337, 4283) | ☒ |
| **DISASTER NAME** | Type in the Disaster name. (Example: Hurricane Irma, Tropical Storm Fay) | ☒ |
| **Title of Project** | The project title should include: 1) Name of Applicant, 2) Name of Project, 3) Type of Project. (Example: City of Tallahassee, City Hall Building, Wind Retrofit) | ☒ |
| **1. Applicant** | Name of organization applying. Must be an eligible applicant. | ☒ |
| **2. Applicant Type** | State or local government, recognized Native American tribe, or private non-profit organization. If private non-profit, attach documentation showing legal status as a 501(C). (Example: IRS letter, Tax Exempt Certificate) | ☒ |
| **3. County** | Indicate county in which the project is located. | ☒ |
| **4. State Legislative and Congressional District(s)** | Specify the appropriate State Senate, House and Congressional District code for the **project site**. For multiple sites, list codes for each site. http://www.myfloridahouse.gov/sections/representatives/myrepresentative.aspx | ☒ |
| **5. Federal Tax I.D. Number** | List the Federal Employer's Identification Number (FEIN), also known as Federal Tax Identification number, 9-digit code. May be obtained from your finance/accounting department. | ☒ |
| **6. DUNS Number** | Include Data Universal Numbering System (DUNS) number in appropriate location on application. Typically, this number can be obtain through your finance department. If not, use the link below to look up your entity. If none, exists you can use the same link to request one. https://www.dnb.com/duns-number.html | ☒ |
| **7. FIPS Code** | List the Federal Information Processing Standards (FIPS) Code. May be obtained from your finance/accounting/grants department. If none, submit FEMA Form 90-49. See state website under the relevant disaster (https://floridadisaster.org/dem/mitigation/hazard-mitigation-grant-program/) | ☒ |
| **8. NFIP ID Number** | List the National Flood Insurance Program (NFIP) number. You must be a participating NFIP member to be eligible for HMGP funding. Make sure that the number is the same as the panel number on the FIRM provided with the application. | ☒ |
| **9. Point of Contact** | Provide all pertinent information for the point of contact. This person serves as the coordinator of the project. If this information changes once the application is submitted, please contact the HMGP staff immediately. | ☒ |
| **10. Application Prepared By** | Provide the preparer information. May be different from the point of contact (line 9) and/or the applicant's agent (line 11). | ☒ |
| **11. Authorized Applicant Agent** | An authorized agent must sign the application. *"An authorized agent is the chief elected official of a local government who has signature authority, so for a county it would be the Chairman of the Board of County Commissioners and for a municipality it would be the Mayor (the exact title sometimes varies). Any local government may delegate this authority to a subordinate official (like a City or County Manager) by resolution of the governing body (the Board of County Commissioners or Board of City Commissioners). If a local government delegates signature authority, a copy of the resolution by the governing body authorizing the signature authority for the individual signing must be provided."* | ☒ |

| | | |
|---|---|---|
| | For Private Non-Profit: A member of its Board of Directors or whoever has authority to authorize funding for such a project. If this task is delegated down, a copy of a resolution confirming this must be provided. | |
| **12. LMS Compliance** | a) LMS Project List:<br>All proposed projects must be included in the county's Local Mitigation Strategy (LMS) Project List and must be on file with FDEM's Mitigation Bureau Planning Unit.<br>b) LMS Endorsement Letter:<br>All proposed projects must include an endorsement letter from the county's Local Mitigation Strategy Coordinator. You may use 1 letter as long as it includes every proposed project.<br>c) Estimated Costs & Application Costs:<br>The LMS Project List must include an Estimated Cost column and each HMGP project application must be within $500.00 of that Project List's estimated cost. Also ensure that the Federal Cost Share indicated on the LMS Coordinator's Endorsement Letter exactly matches the Federal Cost Share indicated within the application. Ensure the LMS endorsement letter contains both the Total Estimated Projects Cost (Section IV. D.), along with the Estimated Federal Share (Section IV. I.1.) allocated to this project.<br>A letter of endorsement for the project and its priority number from the Local Mitigation Strategy Project List must be included. Refer to **Sample LMS Letter**. Applications without a letter of endorsement will not be processed. *(44 CFR 201.6 Local Mitigation Plans)* | ☒ |
| **13. Previous Submittal** | If the project has been previously submitted under another disaster, provide the disaster number, the project number, and the title of the project. | ☐ |

## ***Section II - Project Description***

### A. Hazards to be Mitigated/Level of Protection

| | | |
|---|---|---|
| **1. Type of Hazards** | **Type of Hazards the Proposed Project will Mitigate**: Identify the hazard(s) that the proposed project will mitigate. More than one hazard may be selected. | ☒ |
| **2. Identify the Type of Project** | **Identify the Type of Proposed Project**: Describe the mitigation project being proposed. (Example: drainage, wind retrofit, generator etc.) | ☒ |
| **3. Number of Persons Protected** | Explain how many people will be protected by or benefit from the proposed project. (Example: A drainage project improving a residential area of 23 homes, with an average household of 2 people = 46 people) | ☒ |
| **4. Total Impacted Area** | Explain how many acres will be impacted from the proposed project: Drainage/Berm/Pond/Culverts/Flood hazard projects: combination of the area to be protected and ground disturbance must not exceed 25 acres. | |
| **5. Level of Protection** | Specify the level of protection and magnitude of the event the proposed project will mitigate. Attach support documentation that verifies the stated level of protection. (Example: In a wind retrofit project, it will be the design wind speed to comply with the Florida Building Code requirements. In a drainage project, it will be the implemented design level, e.g. a 25-year FDOT design standard for culvert.) | ☐ |
| **6. Project Impact** | Identify **all** the items the project may impact or are within the project area. | ☐ |
| **7. Engineered Projects (e.g. Drainage)** | Include available engineering calculations, studies, and designs for the proposed project showing results from applied Recurrence Interval scenarios before and after mitigation. (Number of structures, building replacement value, depth of the water, structural damages, content damages, displacement, road closures, etc.) | ☐ |

### B. Project Description, Scope of Work, and Protection Provided (Must be Completed in Detail)

| | | |
|---|---|---|
| **1. Existing Problem** | Describe the existing problem, location, source of the hazard, and the history and extent of the damage. Include newspaper articles, insurance documentation, photographs, etc. If this project is eligible for PA (406) mitigation activities, describe the 406 activities. | ☐ |
| **2. Type of Protection** | Determine how the funding will solve the existing problem and provide protection. | ☐ |
| **3. Scope of Work:** | **What the Project Proposes to Do**: Determine the work to be done. The scope of work must meet eligibility based on HMGP regulations and guidance. Explain how the proposed problem will be solved. (NOTE: The proposed project must be a | ☐ |

| | | |
|---|---|---|
| | mitigation action, not maintenance.) *Does the proposed project solve a problem independently or constitute a functional part of a solution where there is assurance that the project as a whole will be completed (44 CFR 206.434[c][4])? Does the proposed project address a problem that has been repetitive or that poses a significant risk to public health and safety if left unresolved (44 CFR 206.434[c][5][i])?* Projects that merely identify or analyze hazards or problems are not eligible. | |
| **4. On-Going or Proposed Projects in the Area** | Determine if other projects, zoning changes, etc. are planned (particularly in the same watershed if flooding is being addressed) that may negatively or positively impact the proposed project. If there is a drainage project or downstream issue elsewhere, it may eliminate the current flooding issue, erasing the need for the proposed project. Response applies to drainage and acquisition projects. N/A is appropriate in wind retrofit shutter projects only. If this project is also being considered under the Public Assistance Program (406), describe in detail the 406 mitigation activities and/or services. Do not include project costs associated with this HMGP application. | ☐ |

## ***Section III - Project Location***

### A. Site

| | | |
|---|---|---|
| **1. Physical Location** | List the physical location of the project site(s) including the street number(s), zip code(s) and GPS coordinates (latitude/longitude, in decimal degrees). The physical address must correspond with the address locations specified on maps submitted with the application. | ☒ |
| **2. Titleholder** | Provide the titleholder's name. | ☒ |
| **3. Project Seaward of the CCCL?** | Determine if the project site is located seaward of the Coastal Construction Control Line. https://floridadep.gov/water/coastal-construction-control-line | ☒ |
| **4. Number and Types of Structures Affected** | Specify the number and type of properties affected by the project. (Example: Drainage project that affects 100 homes, 15 businesses and 2 schools.) What does the project protect? Should have a number next to the box that is checked. (See Section II, Item A.5 – detail of these totals) | ☐ |

### B. Flood Insurance Rate Map (FIRM) Showing Project Site

| | | |
|---|---|---|
| **1. Copies of FIRM** | Attach a copy (or copies) of the FIRM and clearly identify the project site. The FIRM Panel number must be included. To obtain a FIRM map, go to https://msc.fema.gov/portal. **See instructions on How to make a FIRMette.** | ☒ |
| **2. Flood Zone Determination** | Specify the flood zone(s) of the project site(s). **If project is located in a Special Flood Hazard Area. Amount of coverage must be equal to or greater than the amount of Federal mitigation funding obligated to the project.** | ☐ |
| **3. Flood Hazard Boundary Map (FHBM)** | Not required if a copy of the FIRM is attached. | ☐ |
| **4. Model Acknowledgement of Conditions form** | The Model Acknowledgement of Conditions for Mitigation in Special Flood Hazard Area form is required for those structures receiving federal funds that will also remain in the special flood hazard area by the close of the project. This form is required at application. It can be found on FEMA's website at https://www.fema.gov/media-library/assets/documents/15677 | ☐ |

### D. C. Maps with Project Site and Photographs

| | | |
|---|---|---|
| **1. City/County Map with Project Site** | The project site and staging location (if applicable) should be clearly marked on a legible City/County map. The map should be large enough to show the project site. More than one map may be required. | ☒ |
| **2. USGS TOPO with Project Site** | The project site should be clearly marked on a legible USGS 1:24,000 TOPO map. To obtain a TOPO map, go to https://ngmdb.usgs.gov/topoview/ | ☒ |
| **3. Parcel/Tax Map** | A Parcel, Tax or Property Identification map is required <u>only</u> for acquisition and elevation projects. The location of the structure must be clearly identified. | ☐ |
| **4. Site Photographs** | At least four photographs are required that clearly identify the project site. The photos must be representative of the project area, including any relevant streams, creeks, rivers, etc., and drainage areas that affect the project site or will be affected by the project. The front, back and both side angles are required for each structure. For acquisition and elevation projects, a photo taken away from the structure (in front toward the street, and in back toward backyard) to show the area along with | ☐ |

| | | |
|---|---|---|
| | photographs of specific elements of the structure affected by the project (windows for shutters or window replacements) should also be provided. Label photographs appropriately. In addition, CDs may be submitted. | |

## ***Section IV - Budget/Costs***

Make sure all calculations are correct. Provide a breakdown of materials, labor and fees for the proposed project. Support documentation must be attached, i.e. vendor's quote, professional estimate (from engineer, architect, local building official, etc.). The proposed budget line items should represent allowable costs associated with the scope of work. Contingency Cost should be included as a line item in the budget section, and justified – Maximum allowed is 5%, and is required to complete this section; it will be used for the Benefit-Cost Analysis (BCA). Costs should be accurate, complete and reasonable compared to industry standards. Make sure the total cost is correct on the entire application.

| | | |
|---|---|---|
| **A. Materials** | List materials and their associated costs. Provide breakdown. | ☐ |
| **B. Labor** | Provide a breakdown of description, hours, rate, and cost or lump sum labor cost. Can use in-kind contribution as part of the 25% match. (Attach support documentation for in-kind, in-house to detail wages and salaries charged for any contribution. No overtime wages can be used to satisfy match contributions). | ☐ |
| **C. Fees Paid** | Provide a breakdown of associated fees i.e., consultants, studies, engineering, permits, and project management. Maintenance is not an allowable cost under HMGP. *Pre-award costs may be requested* **(See Pre-award Costs guidance).** | ☐ |
| **D. Total Estimated Project Cost** | This number includes all project costs without contingency costs included. Make sure all calculations are correct. | ☐ |
| **E. Contingency Cost** | Per FEMA's HMA Guidance (Section VI Part D.3.4), a contingency cost is, "an allowance in the total cost estimate to cover situations that cannot be fully defined at the time the cost estimate is prepared but that will likely result in additional eligible costs. Allowances for major project scope changes, unforeseen risks, or extraordinary events may not be included as contingency costs."<br>The applicant may request up to 5% of material/labor costs. As with other line items, the applicant must justify these contingency costs based on the nature of the project at application.<br>If an applicant wants to include contingency costs, they will need to enter the percentage that they require as well as what amount they want that percentage to be applied to. Type the resulting calculation in the final cell on the right. These cells will **NOT** auto-calculate. Be sure that they are calculated correctly. | ☐ |
| **F. Final Project Cost** | This number includes any contingency costs that were requested. The final BCA will use this number in its final calculation. | ☐ |
| **G. Project Management Costs** | After reading the guidance provided on pg. 5, select either **YES** or **NO** to indicate your need for management costs for this project.<br>If **YES**, provide a breakdown of description, hours, rate and costs for requested management costs.<br>If **NO**, continue to Part I. | ☐ |
| **H. Total Estimated Management Costs Requested** | This will auto complete based on what is entered into the cost cells above. Your request must not exceed 5 percent of the total project cost available for this project. | ☐ |

### I. Funding Sources (round figures to the nearest dollar)

The proposed sources of non-federal matching funds must meet eligibility requirements. (Except as provided by Federal statute, a cost-sharing or matching requirement may not be met by costs borne by another Federal grant.) 2 CFR Part 200.306.

| | | |
|---|---|---|
| **1. Estimated Federal Share** | The estimated Federal share is generally 75%. If the Federal share is not 75%, assure actual amount is entered. It could be 50.1234% or 35.1234%, etc. of the total dollar amount of project depending on county LMS allocation and priority. This figure cannot exceed 75%. | ☒ |
| **2. Non-Federal Share** | May include all 3 sources, i.e. cash, in-kind and global match, as long as the total is a minimum of 25%. Match cannot be derived from a federal agency except Federal funds that lose their federal identity (e.g., CDBG funding and certain tribal funding). | ☒ |
| **3. Cash** | Cash- Local funding will be utilized for the non-federal share. Enter amount of cash and percentage of total that amount represents. | ☒ |
| **4. Total In-Kind** | May use materials, personnel, equipment, and supplies owned, controlled and operated from within governing jurisdiction as an in-kind match. *Third party in-kind contributions would be volunteer services, employee services from other* | ☐ |

| | | |
|---|---|---|
| | *organizations furnished free of charge, donated supplies, and loaned equipment or space. The value placed on these resources must be at a fair market value and must be documented. If in-kind is claimed from outside the applicant jurisdiction, it must be cash only. ** Identify proposed eligible activities in Section IV B. and C. as a separate line with In-kind written as a part of the description.* | |
| **5. Total In-house** | Sub-Recipient employees, equipment, etc. – internal services (must utilize the Personnel Activity Report or the Equipment Activity Report for the Request for Reimbursement) | ☐ |
| **6. Total Project (Global) Match** | Project (global) match must 1) meet all the eligibility requirements of HMGP; and 2) begin after FEMA's approval of the match project. A separate HMGP application must be submitted for global match projects. Indicate which project(s) will be matched. *The global match is not required to be an identical project. Projects submitted as global match for another project must meet the same period of performance time constraints as the HMGP.* | ☐ |
| **7. Other Agency Share** | Identify Non-Federal Agency and availability date; provide the documentation from the agency. (e.g., CDBG funding, and certain tribal funding) | ☐ |
| **8. Total Funding** | Total must represent (100%) of the total estimated project cost. Ensure that percentages match corresponding cost-shares and the total matches the Budget (in Section IV. F. - Total Estimated Project Cost). | ☒ |
| **9.** | Your requested amount must be equal to or less than 5 percent of the total project cost | ☐ |

### J. Project Milestones/Schedule of Work

| | | |
|---|---|---|
| **1. Milestones (Schedule)** | Identify the major milestones in the proposed project and provide an estimated time-line *(e.g. Designing, Engineering – 3 months, Permitting – 6 months, Procurement – 30 days, Installation – 6 months, Contracting – 1 month, Delays, Project Implementation, Inspections, Closeout, etc.)* for the critical activities not to exceed a period of 3 years (36-months) for performance. Milestones should not be grouped together but listed individually. Allot for the appropriate amount of time for final inspection and closeout (about 3 months). | ☐ |

## ***Section V - Environmental Review & Historic Preservation Compliance***

No work can begin prior to the completion of the environmental (NEPA) review. In order for the Environmental staff to conduct the NEPA review, all sections listed below must be completed.

| | | |
|---|---|---|
| **1. Description, SOW & Budget** | Detailed Project Description, Scope of Work & Budget/Costs. Complete Sections II & IV of the application. | ☐ |
| **2. Area Maps** | Project area Maps - Attach a copy of the maps and clearly mark the project site, and place the specific project structure(s) on map(s). Complete Section III, part B & C of the application. | ☐ |
| **3. Project Area/Structure Photographs** | Complete Section III part C of the application. | ☐ |
| **4. Preliminary Project Plans** | For shutters see the scope of work and for drainage & elevation see engineering drawings. | ☐ |
| **5. Project Alternatives** | Complete Section V part D. of this application. | ☐ |
| **6. Project Worksheets** | Dates of construction are required for all structures. See worksheets. | ☐ |
| **7. Environmental Justice Documentation** | See Section V.B for applicable information. | ☐ |
| **8. Information/ Documentation Requirements by Project Type** | Provide any of the required documentation as listed at the end of Section V in the Information and Documentation Requirements by Project Type that may have already been obtained. | ☐ |

### B. Executive Order 12898, Environmental Justice for Low Income and Minority Population

| | | |
|---|---|---|
| **1. Disproportionate Effects** | Determine if there are populations in either the project zip code or city that are characterized as having a minority background or living below the poverty level. If yes, | ☐ |

| | | |
|---|---|---|
| | complete the rest of Section V, part B. Describe any disproportionate effects that these populations would experience if the project were completed. | |
| **2. Population Affected** | Describe the population affected by this project and the portion of the population adversely impacted. Attach any documentation and list the attachments here. | ☐ |

### C. Information required for Tribal Consultation

| | | |
|---|---|---|
| **Documentation for Tribal Consultation** | For all projects with any ground disturbing activities of 3 inches or more, complete Section V part C. | ☐ |

### D. Alternative Actions

| | | |
|---|---|---|
| **1. No Action Alternative** | Discuss the impacts on the project area if no action is taken. | ☐ |
| **2. Other Feasible Alternative Action** | This is a FEMA and FDEM requirement for any Application Review. A narrative discussion of at least three project alternatives (from No Action to the most effective, practical solution) and their impacts, both beneficial and detrimental is required. It is expected that the jurisdiction has completed sufficient analysis to determine the proposed project can be constructed as submitted and it supports the goals and objectives of the FEMA approved hazard mitigation plan. Has the proposed project been determined to be the most practical, effective and environmentally sound alternative after consideration of a range of options? (44 CFR 206.434[c][5][iii]) | ☐ |
| **a. Project Description** | It is very important and a requirement that an Alternative project is submitted. NEPA requires that at least three alternatives must be presented to mitigate the problem. In addition to the proposed action and no action, one other **feasible** alternative must be provided. | ☐ |
| **b. Project Location of the Alternative** | Describe the surrounding environment. Include information regarding both natural (i.e., fish, wildlife, streams, soils, plant life) and built (i.e., public services, utilities, land/shoreline use, population density) environments. | |
| **c. Scope of Work – Alternative Project** | Describe how the alternative project will solve the problem and provide protection from the hazard. Provide enough detail to describe the project for the evaluation panel to decide the best course of action for the state. Include any appropriate diagrams, sketch maps, amount of materials and equipment, dimensions of project, amount of time required to complete, etc. | |
| **d. Impacts of the Alternative Project** | | |
| **e. Estimated Budget/Costs for the Alternative Project** | Total cost is required. | ☐ |
| **Materials, Labor, and Fees Paid** | Detailed line items are not required. Just enter a total amount. | ☐ |
| **Total Estimated Project Costs** | Total cost is required. Vendor quote is not required. A lump sum budget may be submitted as justification to why this alternative was not chosen. | ☐ |

## Section VI – Maintenance Agreement

| | | |
|---|---|---|
| **Maintenance Agreement** | Complete, sign and date the maintenance agreement. The maintenance agreement must be signed by an individual with signature authority, preferably the authorized agent. | ☒ |

## Other Required Documentation

Go to www.floridadisaster.org/dem/mitigation/hazard-mitigation-grant-program/ for additional documents

| | | |
|---|---|---|
| **1. Maps** | All maps must be included with the application. | |
| **2. FFATA Form** | During contracting with the state, complete, sign and date the FFATA Project File Form. Instructions are provided for your convenience in the document provided. **This is not required at the time of application submittal.** | ☐ |
| **3. SFHA Acknowledgement of Conditions** | Required for all projects in the Special Flood Hazard Area. Read and sign the SFHA Acknowledgement of Conditions document. This form must be notarized, signed by the local jurisdiction and the property owner. | ☐ |
| **4. Pre-award Cost Form** | If pre-award costs are being requested with your project, be sure to identify all pre-award costs in the application budget per instructions. The pre-award cost form must be completed and submitted with your application. | ☐ |

| | | |
|---|---|---|
| **5. Request for Public Assistance Form** | Applicable if no FIPS number is assigned to applicant/recipient. | ☐ |
| **6. Model Statement of Assurances for Property Acquisition Projects** | For Acquisition projects only. | ☐ |
| **7. Declaration and Release** | For Acquisition projects only. Must be signed by all persons whose names are on the property deed. | ☐ |
| **8. Notice of Voluntary Interest** | For Acquisition projects only. Two forms are available for your convenience. Use the form that is most appropriate to your situation. Must be signed by all persons whose names are on the property deed. | ☐ |
| **9. Statement of Voluntary Participation for Acquisition of Property for Purpose of Open Space** | For Acquisition projects only. Must be signed by all persons whose names are on the property deed. | ☐ |
| **10. Worksheets** | The appropriate worksheet(s) must be completed and submitted with the application.<br>a. Flood Control – Drainage Improvement<br>b. Generator<br>c. Tornado Safe Room<br>d. Hurricane Safe Room<br>e. Wind Retrofit<br>f. Wildfire<br>g. Drought | ☐ |

*Submit **1 original (signed) and 1 full copy** of the entire application and backup documentation. Include a full copy of the submittal and all documentation on CD or thumb drive.

# Attachment Index

Use the following template to list any supporting documentation that is **included on the CD or flashdrive**. Clearly and concisely label each attachment on this form to correspond with the file name on the CD or flashdrive. In the first column list which section and item (from the HMGP application) the attachment refers to. *Example: Section 2, Item 1.* **If any required documentation is not included on the CD or flashdrive, the application will be considered incomplete and *will not* be considered for possible funding.**

Volusia County
FLORIDA

**Department of Emergency Services**
**Emergency Management Division**

June 20, 2025

Ms. Laura Dhuwe, State Mitigation Officer
Florida Division of Emergency Management
255 Shumard Oak Boulevard
Tallahassee, Florida 32399-2100

RE: Hazard Mitigation Grant Program (HMGP) applications for FEMA 4834-DR-FL, Hurricane Milton

Dear Ms. Dhuwe:

The Volusia County Local Mitigation Strategy (LMS) working group has approved by vote and prioritized the following projects for HMGP funding from this disaster. These projects align with our LMS goals and objectives as noted, and with the State's mitigation goals and objectives (in accordance with the Code of Federal Regulations 44 § 201.6)

The Volusia County LMS group therefore presents the projects below (or in an attachment) in the order that they are to be considered for funding.

For further information or inquiry, please contact me at 386-671-8807 or bartonjustin@codb.us.

Sincerely,

Justin Barton Digitally signed by Justin Barton

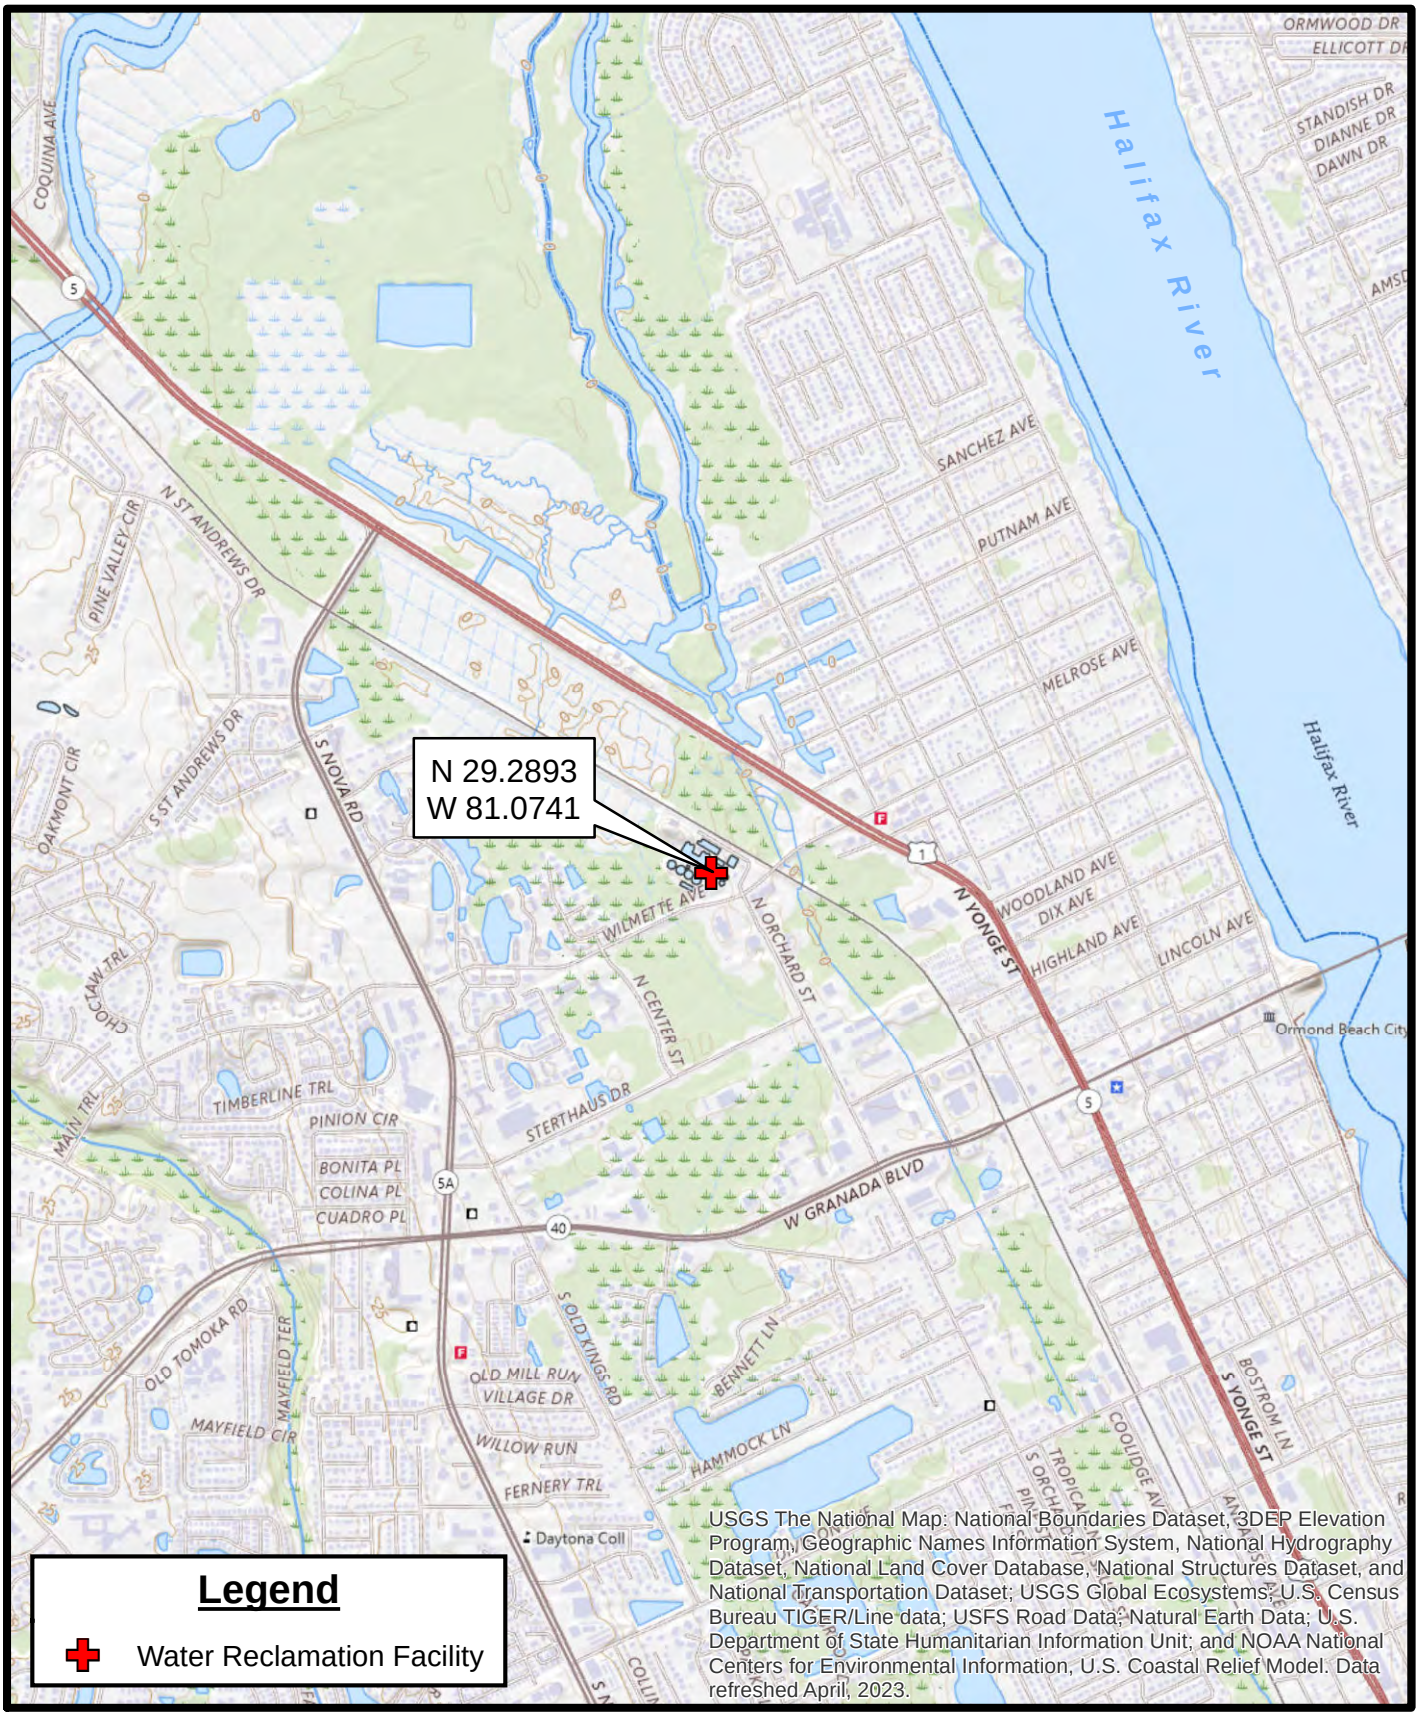
N

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 6/18/2025 at 3:58 PM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.



This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

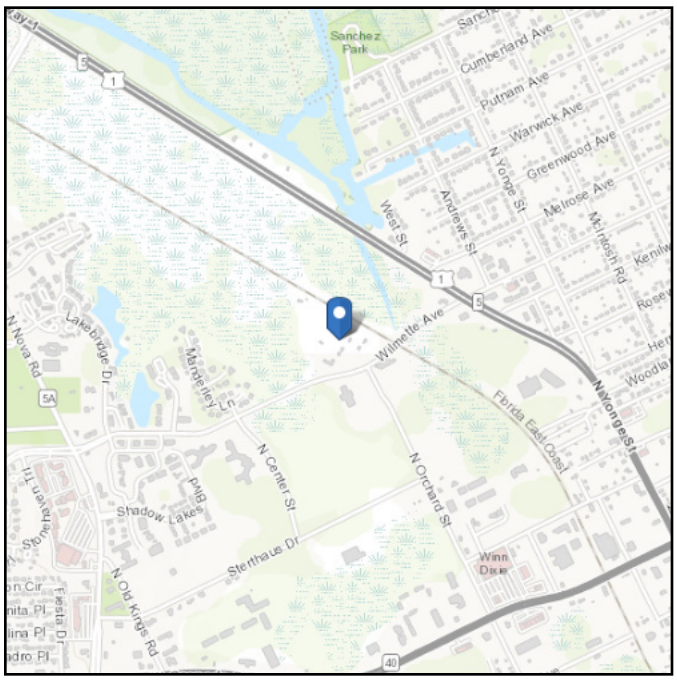
Data Source: ASCE/SEI 7-22, Fig. 26.5-1A and Figs. CC.2-1–CC.2-4, and Section 26.5.2
Date Accessed: Fri Jun 13 2025

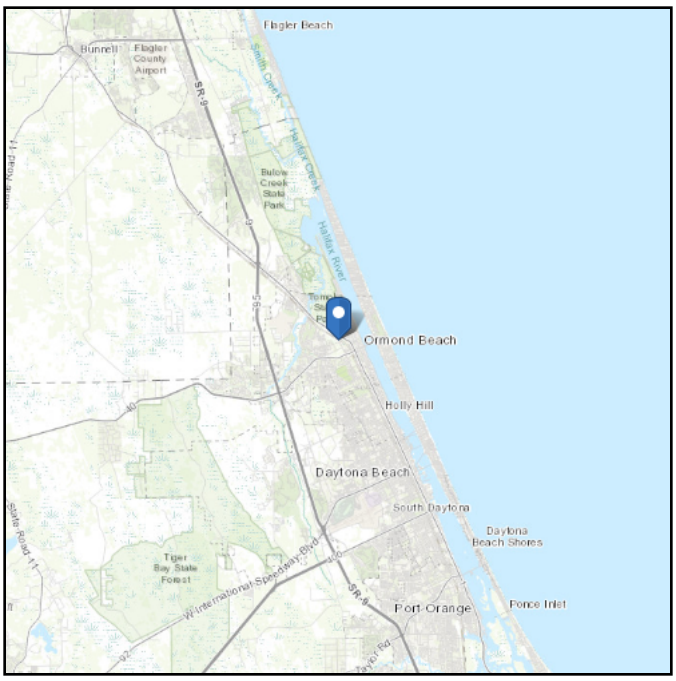
Value provided is 3-second gust wind speeds at 33 ft above ground for Exposure C Category, based on linear interpolation between contours. Wind speeds are interpolated in accordance with the 7-22 Standard. Wind speeds correspond to approximately a 15% probability of exceedance in 50 years (annual exceedance probability = 0.00333, MRI = 300 years). Values for 10-year MRI, 25-year MRI, 50-year MRI and 100-year MRI are Service Level wind speeds, all other wind speeds are Ultimate wind speeds.

Site is in a hurricane-prone region as defined in ASCE/SEI 7-22 Section 26.2. Glazed openings need not be protected against wind-borne debris.

The ASCE Hazard Tool is provided for your convenience, for informational purposes only, and is provided “as is” and without warranties of any kind. The location data included herein has been obtained from information developed, produced, and maintained by third party providers; or has been extrapolated from maps incorporated in the ASCE standard. While ASCE has made every effort to use data obtained from reliable sources or methodologies, ASCE does not make any representations or warranties as to the accuracy, completeness, reliability, currency, or quality of any data provided herein. Any third-party links provided by this Tool should not be construed as an endorsement, affiliation, relationship, or sponsorship of such third-party content by or from ASCE.



ASCE does not intend, nor should anyone interpret, the results provided by this Tool to replace the sound judgment of a competent professional, having knowledge and experience in the appropriate field(s) of practice, nor to substitute for the standard of care required of such professionals in interpreting and applying the contents of this Tool or the ASCE standard.



In using this Tool, you expressly assume all risks associated with your use. Under no circumstances shall ASCE or its officers, directors, employees, members, affiliates, or agents be liable to you or any other person for any direct, indirect, special, incidental, or consequential damages arising from or related to your use of, or reliance on, the Tool or any information obtained therein. To the fullest extent permitted by law, you agree to release and hold harmless ASCE from any and all liability of any nature arising out of or resulting from any use of data provided by the ASCE Hazard Tool.

# Environmental & Historic Preservation Worksheet

For preliminary Environmental and Historic Preservation review conducted by the State Mitigation Technical Team

**Important**: The State of Florida Mitigation Technical Unit will conduct the Environmental and Historic Preservation (EHP) Review for your project and the following information is needed. Once a preliminary review of the application and worksheet is conducted, the assigned Environmental Specialist will reach out with any questions or needs for clarification.

**Note**: A completed EHP Worksheet will expedite the Technical Review. Completion of this worksheet does not guarantee additional information will not be required. If additional information or clarification is needed during application review, the reviewer will contact you.

## Requirements

The following information is the minimum amount of technical information required to complete the EHP review. Data collected in this document will provide reviewers with preliminary information necessary to evaluate potential environmental impacts.

All projects require an EHP review conducted by the technical team in order to achieve funding.

## Section I – Project General Information

| | |
|---|---|
| Project Name: City of Ormond Beach, Water Reclamation Facility Pump Station Replacement | Worksheet completed by:<br>Name: Shawn Finley<br>Title: Assistant City Manager<br>Phone: 386-676-3582<br>Email: Shawn.Finley@ormondbeach.org |
| Sub-Applicant: | |

**For additional information and resources, please refer to FEMA's Environmental Planning and Historic Preservation checklist for Hazard Mitigation Assistance Application Reviews.**

## Section II – Project Location

*The table below allows data for up to 8 locations. If your project has more than 8 locations, you can either submit a second EHP Worksheet or attach a separate list providing the information requested below and in Section III.*

| ID | Project Location | Coordinates | *Age of Structure | Ground Disturbance? | Critical Action |
|---|---|---|---|---|---|
| 1. | 550 North Orchard Street, Ormond Beach, Florida 32174 | 29.289733, -81.075296 | 50 years | -Select- | -Select- |
| 2. | | | | -Select- | -Select- |
| 3. | | | | -Select- | -Select- |

| 7. | | | | -Select- | | | -Select- | -Select- |
| 8. | | | | -Select- | | | -Select- | -Select- |

## Section IV – Additional Information

Please use this page to expand on the information provided above or to include any additional information relevant to the proposed mitigation project.

## Section V – Minimum Required Supporting Documents Checklist

Below are the minimum supporting documents that each project needs in order to conduct an EHP Review. Please check each item off as they are uploaded into the application.

| | |
|---|---|
| Aerial Map | ✔ |
| Photographs | |
| FIRM/FIRMette | ✔ |
| Age Verification Documentation | |
| 1:24,000 Topographic Map | ✔ |

## Section VI – Additional Supporting Documents Checklist

Below are additional supporting documents that may be required in order to conduct an EHP Review. Please check each item off as they are uploaded into the application as applicable.

| | |
|---|---|
| Ground Disturbance Map | |
| Public Notice Draft | |
| USACE/FDEP Section 404 Permit | |
| Environmental Resource Permit (ERP) | |
| Upstream/Downstream Impact Letter | |

# ENVIRONMENTAL & HISTORIC PRESERVATION WORKSHEET INSTRUCTIONS

Refer to the instructions below to complete the Environmental and Historic Preservation Worksheet using the best available data.

## Section I: Project General Info

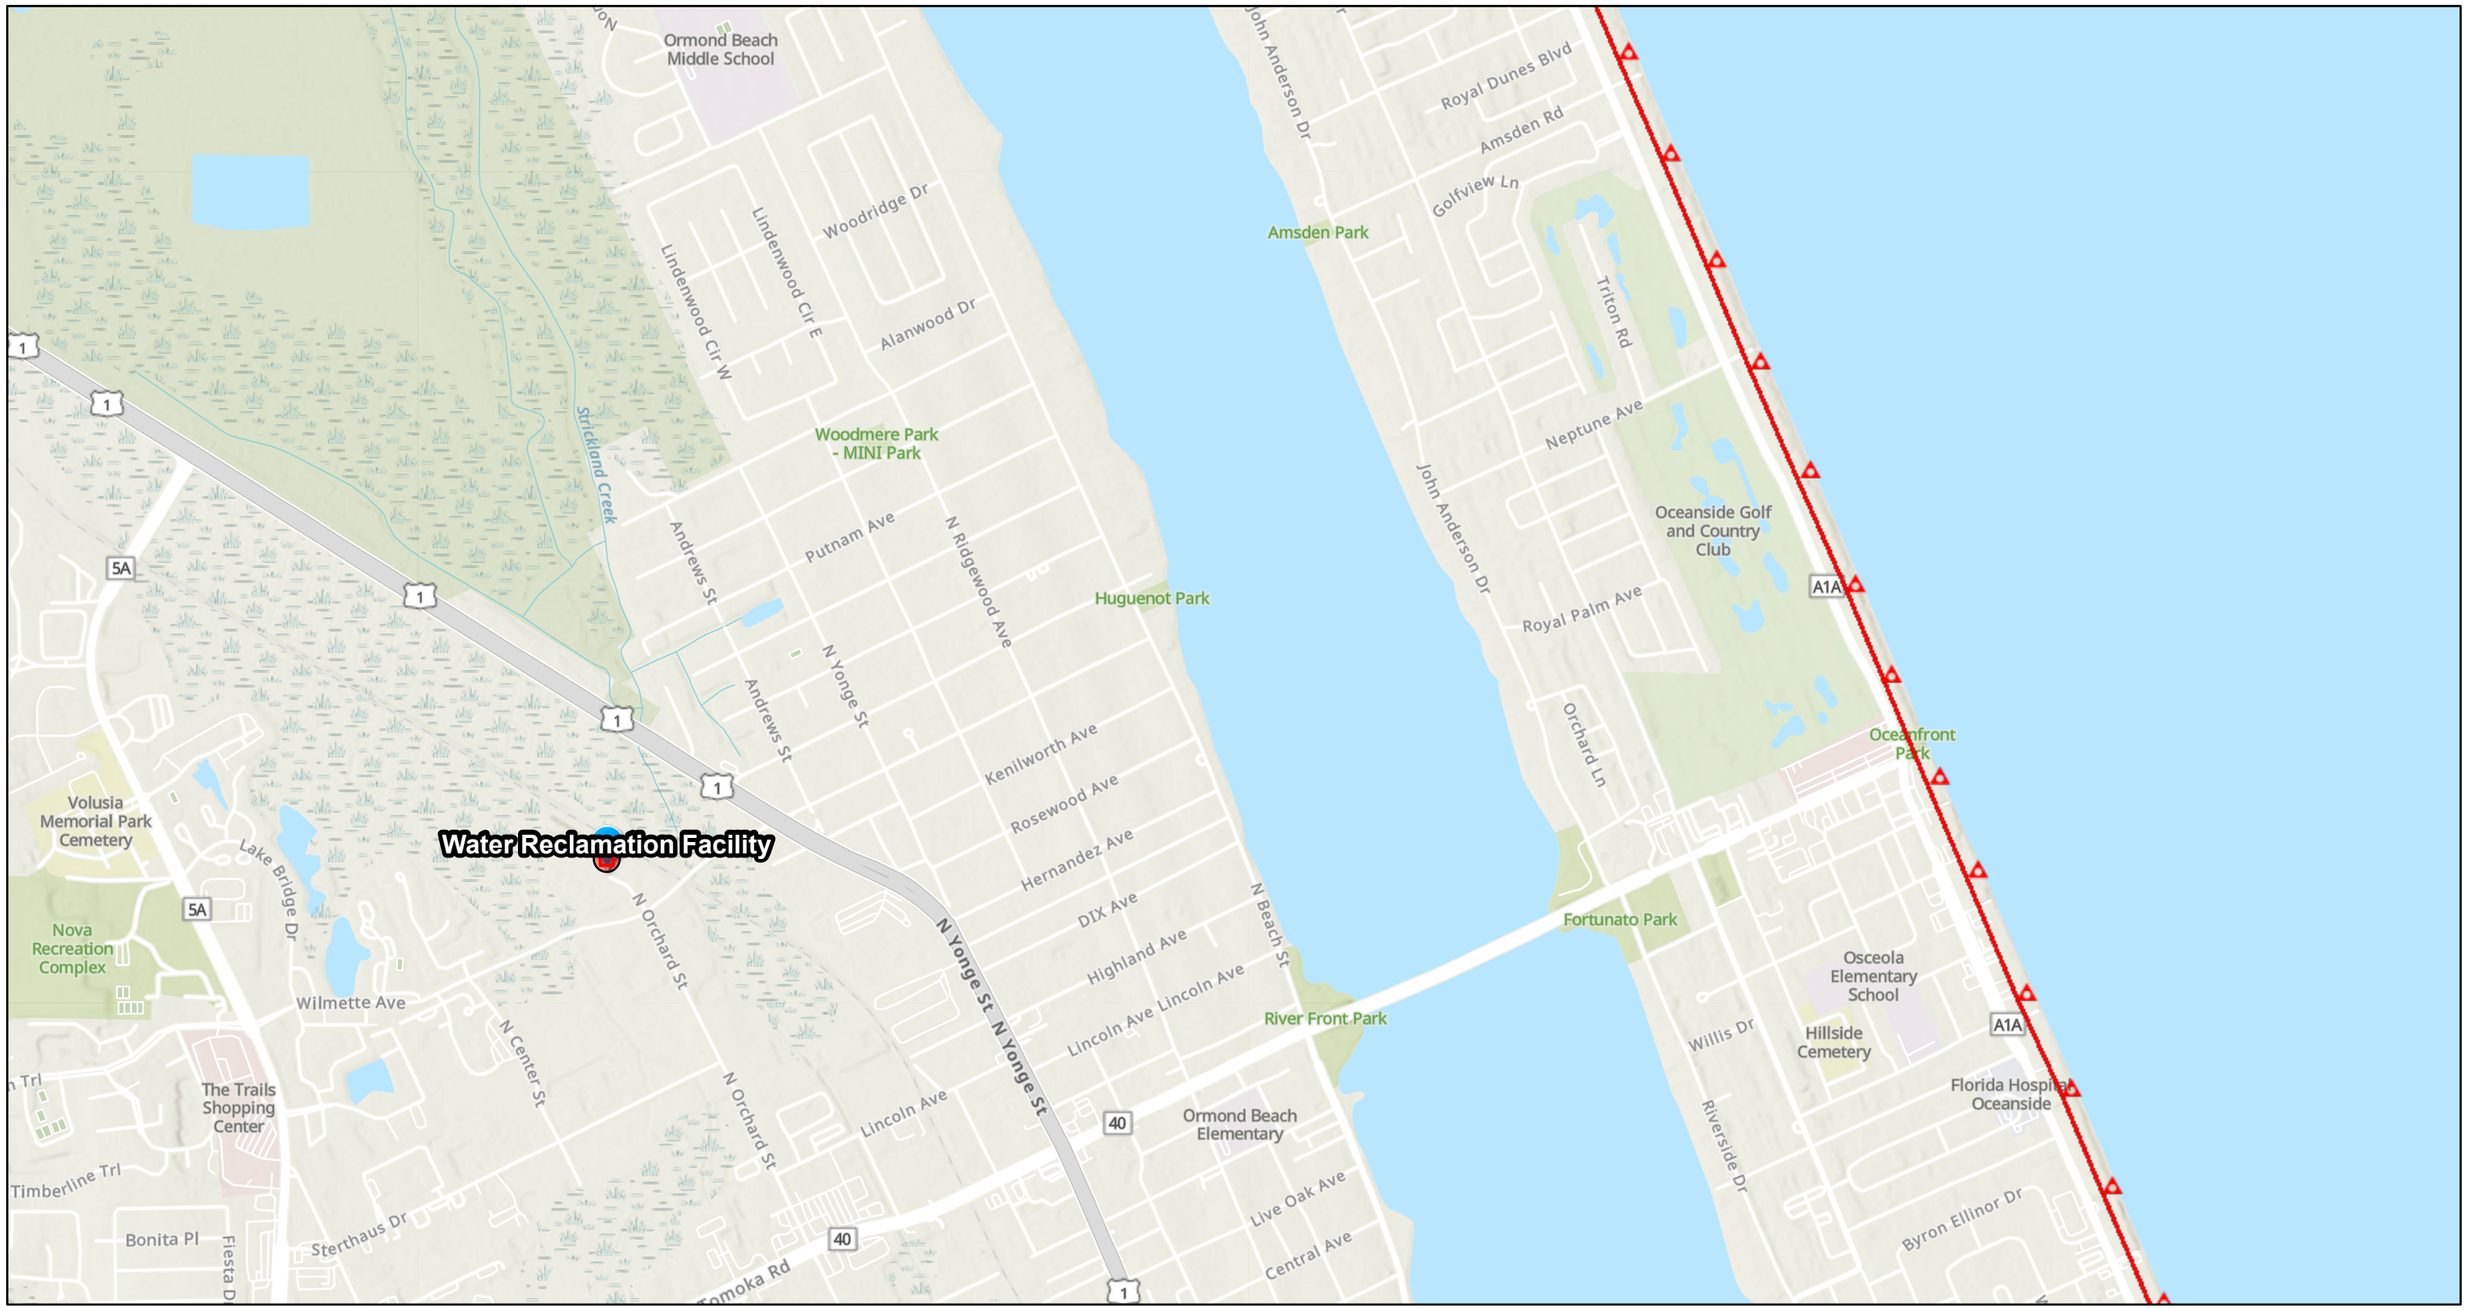
**Project Name:** Enter the name of the project title. This title should be the same as described on the application and other attachments.
**Sub-Applicant:** Enter your organization's legal name.
**Worksheet completed by:** Enter name, title, phone number, and email of the person completing this worksheet.

## Section II: Project Location

**Project Location:** Provide a full description of the specific geographical location(s) such as address(es).
**Coordinates:** Provide latitude and longitude coordinates in decimal degree format (Example: 12.345678, -87.654321) for the location of project activities.
**Age of Structure:** The age of the structure where work will be performed. If no structure is involved, put "N/A."
**Ground Disturbance:** Will any groundwork occur to implement the project? Common ground disturbing activities include installation of concrete pads, site preparations, running electrical conduits, trenching, directional boring, and excavation. If ground disturbing activities are occurring, a Ground Disturbance Map is required to be attached to the application. See Section IV instructions for more details.
**Critical Action**: Is the project a critical action. Critical actions are definite as an action for which even a slight change of flooding is too great. Activities related to a critical action must be protected to against a 500-year (0.2% annual chance) flood event. Examples of critical actions would be eligible generator projects or actions related to critical facilities.

## Section III: Environmental Details

**Flood Zone:** List all flood zones that the project activities will be within. Flood mapper: https://msc.fema.gov/portal/home.
**FIRM Panel:** List all FIRM Panel Number(s) that a location will be in.
**Preliminary Panel Available:** Is there a pending Preliminary FIRM Panel for the project area? Yes or No.
**Preliminary Panel #:** List all Preliminary FIRM Panel Number(s) that a location will be in.
**In a Wetland or Waterbody:** Is the project in a wetland or a body of water? Wetland Mapper: https://fwsprimary.wim.usgs.gov/wetlands/apps/wetlands-mapper/.
**Seaward of CCCL:** Does the project have activities seaward of the Coastal Construction Control Line (CCCL). CCCL Mapper: https://ca.dep.state.fl.us/mapdirect/?webmap=a8c9e92fbad5446d987a8dd4ee5dc5cc.



## Section V: Minimum Required Supporting Documents Checklist

**Aerial Map:** A good aerial map will contain a clear indication of where the project will be occurring and will include coordinates to the project area.
**Photographs:** Photos should be clear and represent the project area. Labels should indicate what the photos contain. Photos should show all sides of a structures if included in project activities.
**FIRM/FIRMette:** Project location should be clearly indicated on the map.
**Age Verification Documentation:** Documentation that shows the year the structure was built. As-builts or property appraiser website information are the most common forms of documentation.
**1:24,000 Topographic Map:** A topographic map with a scale of 1:24,000 with the project location outlined/ indicated.

## Section VI: Additional Supporting Documents Checklist

**Ground Disturbance Map:** Required for project that includes any ground disturbance. The map shall include activities clearly outlined, coordinates for ground disturbance, area dimensions, and depth of disturbance.
**Public Notice Draft:** Required for flood mitigation projects, critical actions in a Shaded X flood zone or greater, or any project type in a Special Flood Hazard Area (SFHA). Only a draft should be submitted with the application, the reviewer will reach out when it is the appropriate time to post. The template can be found under the Application Section at https://www.floridadisaster.org/dem/mitigation/hazard-mitigation-grant-program/.
**USACE/FDEP Section 404 Permit:** A Section 404 Permit or notice of No Permit Required (NPR) is needed for any project that is in or affects a wetland or body of water. Florida has 2 agencies that provide this permit, US Army Corps of Engineers and Florida Department of Environmental Protection. To determine which jurisdiction your project area falls into, use the following link. Please note that projects falling under multiple jurisdictions will require permits or NPRs from both agencies. https://fdep.maps.arcgis.com/apps/webappviewer/index.html?id=2cb8724cfd18408db80c8f2d7bb68a2e.
**Upstream/Downstream Impact Letter:** Drainage projects ready for construction require a letter from the Professional of Record stating if the project will have any upstream or downstream impacts.

# ASSURANCES - CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0042), Washington, DC 20503.

**PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.**

**NOTE:** Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the Awarding Agency. Further, certain Federal assistance awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this application.

2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the assistance; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.

3. Will not dispose of, modify the use of, or change the terms of the real property title, or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the Federal interest in the title of real property in accordance with awarding agency directives and will include a covenant in the title of real property aquired in whole or in part with Federal assistance funds to assure non-discrimination during the useful life of the project.

4. Will comply with the requirements of the assistance awarding agency with regard to the drafting, review and approval of construction plans and specifications.

5. Will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progress reports and such other information as may be required by the assistance awarding agency or State.

6. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.

7. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.

8. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).

9. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.

10. Will comply with all Federal statutes relating to non-discrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.

11. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal and federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.

12. Will comply with the provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

13. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333) regarding labor standards for federally-assisted construction subagreements.

14. Will comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.

15. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).

16. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

17. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).

18. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."

19. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.

# AUTHORIZING AGENT APPROVAL

For those entities applying for the Hazard Mitigation Grant Program (HMGP), assurance is needed to ensure that non-federal funds are, or will be, secured for the proposed action by the project start date. An Authorizing Agent's signature is needed to provide this. An Authorizing Agent is the chief elected official of a local government who has signature authority, such as a Chairperson of the Board of County Commissioners for a County, the Mayor of a municipality, or an elected Board Member for a private non-profit. Any entity may delegate this authority to a subordinate official by resolution of the governing body. If this is the case, Proof of Authorization must be provided as a separate attachment in Section VI of the relevant HMGP application in DEMES. This form must be fully completed, signed, and submitted into DEMES for an application to be received by FDEM. Applicants will be prompted for this form in the final step of the DEMES HMGP application. Ensure that the information provided here matches the relevant DEMES application. For questions, please email DEM_HazardMitigationGrantProgram@em.myflorida.com.

## PROJECT INFORMATION

Summary

This is a request to authorize the submittal of an online grant application for the replacement of the fixed generator at the Water Treatment Plant to the Federal Emergency Management Agency (FEMA) Hazard Mitigation Grant Program (HMGP) under Federal Disaster declaration for Hurricane Milton (FEMA-4834-DR-FL). The HMGP provides grants to local governments to implement long-term hazard mitigation measures after major disaster declarations.

The replacement of the fixed generator at the Water Treatment Plant will ensure continuity of operations during disaster events and power surges. Without continuous power, there is a risk that the community may lose access to treated drinking water during major events. The existing generator, an 1100 KW Cummins, provides power to the lime softening portion of the plant and was installed in 2002. This project will include the design, procurement of a new generator and new automatic switchgear, installation, and construction activities.

Application criteria require that state/local governments have an approved Local Mitigation Strategy (LMS) to be eligible to apply and require that projects submitted are a part of the LMS. The City participates in the Volusia County LMS and these projects were submitted, approved, and are included in the LMS project listing attached. Since Volusia County was directly affected by Hurricane Milton, projects within Volusia County are eligible for Tier 1 funding. The deadline for application submittal to the Florida Department of Emergency Management (FDEM) is July 25, 2025.

Financial Impact

If approved, FEMA will pay up to 75% of the cost. Cost is estimated to be $1,610,000 (HMGP share $1,207,500; City share $402,500). Funding will be derived from Fund 409-Water & Wastewater Capital Improvement Fund.

Citizen Impact

This project will ensure the City's ability to provide continuity of safe drinking water during emergency situations.

**RESOLUTION NO. 2025-105**

A RESOLUTION AUTHORIZING THE SUBMITTAL OF A GRANT APPLICATION TO THE FEDERAL EMERGENCY MANAGEMENT AGENCY UNDER THE HAZARD MITIGATION GRANT PROGRAM FOR FUNDING ASSISTANCE TO REPLACE THE FIXED GENERATOR AT THE WATER TREATMENT PLANT; AUTHORIZING THE EXECUTION OF ALL DOCUMENTS INCIDENTAL THERETO, INCLUDING ANY CONTRACT NECESSARY FOR THE CITY TO ACCEPT THE GRANT AWARD; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS,** the City Commission desires to replace the fixed generator at the Water Treatment Plant at an estimated cost of $1,610,000.00 ("the Project"), and

**WHEREAS**, the Federal Emergency Management Agency has a current grant cycle open under the Hazard Mitigation Grant Program from which the City can request maximum funding assistance in the amount of $1,207,500.00 (75% of Project cost), and

**WHEREAS**, the City Commission desires to submit a grant application to the Federal Emergency Management Agency under the Hazard Mitigation Grant Program (a copy of which is attached hereto and incorporated herein by reference) for the purpose of obtaining funding assistance in the amount of $1,207,500.00 for the Project, and

**WHEREAS**, the City is required to make a matching contribution of at least $402,500.00, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, VOLUSIA COUNTY, FLORIDA, THAT:**

**SECTION ONE.** The City Manager or her designee is hereby authorized and directed to submit a grant application, including any and all documents that are necessary and incidental thereto, to the Federal Emergency Management Agency under the Hazard Mitigation

Grant Program in the amount of $1,207,500.00 for funding assistance to replace the fixed generator at the Water Treatment Plant.

**SECTION TWO.** The Mayor and City Manager are hereby further authorized and directed to execute any contract, including any and all documents that are necessary and incidental thereto, for the City to accept the grant award.

**SECTION THREE.** The City Manager hereby certifies that the City's matching funds in the amount of $402,500.00 will be derived from the Capital Improvement Program Fund.

**SECTION FOUR.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025**.

## Section I – Applicant

**A. Applicant Instruction:** Complete all sections that correspond with the type of proposed project

| | |
|---|---|
| ***Application Sections I-IV*:** | *All* Applicants must complete these sections |
| ***Environmental Review:*** | *All* Applicants must complete these sections |
| ***Maintenance Agreement:*** | *Any* Applications involving public property, public ownership, or management of property |
| ***Flood Control – Drainage Improvement Worksheet:*** | *Acquisition, Elevation, Dry Flood Proofing, Drainage Improvements, Flood Control Measures, Floodplain and Stream Restoration, and Flood Diversion* ***– one worksheet per structure*** |
| ***Generator Worksheet:*** | *Permanent, portable generators, and permanent emergency standby pumps* |
| ***Tornado Safe Room Worksheet:*** | *New Safe Room, Retrofit of existing structure, Community Safe Room, Residential Safe Room* |
| ***Hurricane Safe Room Worksheet:*** | *New Safe Room, Retrofit of existing structure* |
| ***Wind Retrofit Worksheet:*** | *Wind Retrofit projects only – one worksheet per structure* |
| ***Wildfire Worksheet:*** | *Defensible Space, Hazardous Fuels Reduction, Ignition Resistant Construction, other* |
| ***Drought Worksheet:*** | *Aquifers, other* |
| ***Utility Mitigation Worksheet*** | *Upgrades to sewer systems, upgrading electrical components for a utility, undergrounding electrical systems, etc.* |
| ***Request for Public Assistance Form:*** | FEMA Form 90-49 (Request for Public Assistance): *All* applicants must complete, if applicable. |
| ***Acquisition Forms:*** | If project type is Acquisition, these forms must be completed.<br>(Only one of the two *Notice of Voluntary Interest* forms is necessary.)<br>*Model Statement of Assurances for Property Acquisition Projects*<br>*Declaration and Release*<br>*Notice of Voluntary Interest (Town Hall Version)*<br>*Notice of Voluntary Interest (Single Site Version)*<br>*Statement of Voluntary Participation*<br>*FEMA Model Deed Restriction Language* |
| ***Application Completeness Guidance / Checklist :*** | All applicants are recommended to complete this checklist and utilize the guidance for completing the application. |

## B. Applicant Information:

**FEMA-4834-DR-FL** **DISASTER NAME: Hurricane Milton**

**Title of Project: City of Ormond Beach, Water Treatment Plant Generator Replacement**

1. Applicant (Organization): **City of Ormond Beach**
2. Applicant Type: ☒ State or Local Government ☐ Native American Tribe ☐ Private Non-Profit ☐ Special District
3. County: **Volusia**
4. State Legislative Senate District(s): **7**; State Legislative House District(s): **28** ;
   Congressional House District(s): **6**
5. Federal Tax I.D. Number: **59-6000398**
6. Data Universal Numbering System (DUNS): **087320164**
7. Federal Information Processing Standards (FIPS) Code*: **12127** *(*if your FIPS code is not known, see guidance)*
8. National Flood Insurance Program (NFIP) Community Identification Number: **125136**
   *(this number can be obtained from the FIRM map for your area)*
9. **Point of Contact:** (Applicant staff serving as the coordinator of project)

    **Signature**: _____

    **Date**: _____
12. Local Mitigation Strategy (LMS) Compliance
    a. All proposed projects must be included in the county's Local Mitigation Strategy (LMS) Project List, and on file with FDEM's Mitigation Bureau Planning Unit. Does your jurisdiction have a current FEMA Approved Mitigation Plan and this project is listed? ☒ Yes ☐ No
    b. Attached is a letter of endorsement for this project from the county's LMS Coordinator. ☒ Yes ☐ No
    Ensure the LMS endorsement letter contains both the Total Estimated Projects Cost (Section IV. D.), along with the Estimated Federal Share (Section IV. I.1.) allocated to this project.
    c. The LMS project list and endorsement letter both have an estimated cost column and Federal Share amount that is within $500.00 between the two. ☒ Yes ☐ No
13. Has this project been submitted under a previous disaster event? ☒ No
    ☐ Yes, provide the disaster number and project number (as applicable): _____

## Section II – Project Description

### A. Hazards to be Mitigated / Level of Protection

1. Select the type of hazards the proposed project will mitigate:
   ☒ Flood ☒ Wind ☒ Storm surge ☒ Wildfire ☒ Other *(list):* _____

2. Identify the type of proposed project:
   ☐ Elevation and retrofitting of residential or non-residential structure
   ☐ Acquisition and Relocation ☐ Acquisition and Demolition
   ☐ Wind retrofit ☐ Drainage project that reduces localized flooding
   ☒ Generator ☐ Other (explain) _____

3. List the total number of persons that will be protected by the proposed project (*include immediate population affected by the project only*):

   **51,162**

4. List how many acres of "Total Impacted Area" is to be protected by the proposed project (*include immediate area affected by the project only*):

   **30,252**

5. Fill in the level of protection and the magnitude of event the proposed project will mitigate. *(e.g. 23 structures protected against the 100-year storm event (1% chance)*

   _____ structure(s) protected against the _____ -year storm event *(10, 25, 50, 100, or 500 year storm event*)

   _____ structure(s) protected against _____ mile per hour (mph) winds

6. Check **all** item(s) the project may impact:
   ☐ Wetlands ☒ Water Quality ☐ Previously Undisturbed Soil
   ☐ Floodplain ☐ Coastal Zone ☐ Toxic or Hazardous Substances
   ☐ Historic Resources ☐ Fisheries ☐ Threatened & Endangered Species
   ☐ Vegetation Removal ☐ Public Controversy ☐ Potential for Cumulative Impacts
   ☐ Health & Safety ☐ Other _____

7. ***Engineered projects:*** *If* your project has been already designed and engineering information is available, attach to your application **ALL** calculations, H&H study and design plans (e.g. Drainage Improvement, Erosion Control, or other special project types). ☐ No ☐ Yes If so, see Attachment #(s) _____.

### B. Project Description, Scope of Work, and Protection Provided (Must be Completed in Detail)

Describe, in detail, the existing problem, the proposed project, and the scope of work. Explain how the proposed project will ***solve*** the problem(s) and provide the level(s) of protection described in Part A. Also, if available, attach a vendor's estimate and/or a contractor's bid for the scope of work. ***Ensure that each proposed project is mitigation and not maintenance***.

1. Describe the existing problems:

   **The City of Ormond Beach is seeking replacement of a fixed generator at its Water Treatment Plant (WTP), located at 298 Tomoka Avenue, in order to ensure continuity of operations during disaster events and power surges. Without continuous power to the WTP, there is a risk that the community may lose access to treated drinking water during major events. The existing generator, an 1100 KW Cummins, provides power to the lime softening portion of the WTP and was installed in 2002.**

2. Describe the type(s) of protection that the proposed project will provide:

   _____

3. Scope of Work (describe in detail what you are planning to do):

   _____

4. Describe any other on-going or proposed projects in the area that may impact, positively or negatively, the proposed HMGP Project:

   _____

## Section III – Project Location *(Fully describe the location of the proposed project.)*

### A. Site

1. Describe the physical location of this project, including street numbers (or neighborhoods) and project site zip code(s). Provide precise longitude and latitude coordinates for the site utilizing a hand-held global positioning system (GPS) unit or the equivalent:

   Site Location: **Water Treatment Plant**
   Address(es): **298 Tomoka Avenue**
   GPS coordinates (decimal degree format): **29.280560, -81.062826**
   Project Zip Code(s): **32174**

2. Titleholder: **City of Ormond Beach**

3. Is the project site seaward of the Coastal Construction Control Line (CCCL)? ☐ Yes ☒ No

4. Provide the number of each structure type (listed below) in the project area that will be affected by the project. Include ***all*** structures in project area.

   ☐ Residential property: _____ ☐ Public buildings: _____
   ☐ Businesses/commercial property: _____ ☐ Schools/hospitals/houses of worship: _____
   ☐ Other: _____

### B. Flood Insurance Rate Map (FIRM) Showing Project Site

| | | |
|---|---|---|
| 1. ☒ | Attach one (1) copy of the FIRM map, a copy of the panel information from the FIRM, and, if available, the Floodway Map. ***FIRM maps are required for this application (if published for your area). Also, all attached maps must have the project site and structures clearly marked on the map***. FIRMs are typically available from your local floodplain administrator who may be located in a planning, zoning, or engineering office. Maps can also be ordered from the Map Service Center at 1-800-358-9616. For more information about FIRMs, contact your local agencies or visit the FIRM site on the FEMA Web-page at https://msc.fema.gov/portal. | |
| 2. Using the FIRM, determine the flood zone(s) of the project site (Check all zones in the project area) *(See FIRM legend for flood zone explanations) (A Zone must be identified)* | | |
| ☐ | VE or V 1-30 | ☒ AE or A 1-30 |
| ☐ | AO or AH | ☐ A (no base flood elevation given) |
| ☐ | B or X (shaded) | ☐ C or X (unshaded) |
| ☐ | Floodway | ☐ |
| ☐ | Coastal Barrier Resource Act (CBRA) Zone (Federal regulations strictly limit Federal funding for projects in this Zone; coordinate with your state agency before submitting an application for a CBRA Zone project). | |
| 3. ☐ | **If the FIRM Map for your area is not published**, attach a copy of the Flood Hazard Boundary Map (FHBM) for your area, with the project site and structures clearly marked on the map. | |
| 4. ☐ | Attach a copy of a Model Acknowledgement of Conditions for Mitigation in Special Flood Hazard Area | |

### C. Maps with Project Site and Photographs

1. ☒ Attach a copy of a city or county scale map (large enough to show the entire project area) with the project site and structures marked on the map.
2. ☒ Attach a USGS 1:24,000 TOPO map with project site ***clearly*** marked on the map.
3. ☐ For **acquisition** or **elevation** projects, include copy of Parcel Map (Tax Map, Property Identification Map, etc.) showing each property to be acquired or elevated. Include the Tax ID numbers for each parcel, and Parcel information – including year built and foundation.
4. ☐ Attach photographs (at a minimum 4 photographs) for each project site per application. The photographs should be representative of the project area, including any relevant streams, creeks, rivers, etc. and drainage areas that affect the project site or will be affected by the project, and labeled. For each structure, include the following angles: front, back and both sides.

## Section IV – Budget/Costs

In order to assist applicants with filling out the following Budget section, we have provided the following instructions for your convenience. For this section, we ask that you provide details of all the estimated costs of the project, as it is used for the benefit-costs analysis as well as for the feasibility and effectiveness review.

For the cost sections relating to Materials, Labor, and Fees, it is important to note,

- Lump sums without supporting documentation showing a breakdown of those costs are not acceptable. For those items that will not fit in the spaces provided, attach the appropriate documentation to your application.
- Identify your match sources in sections B and I.
- Sub-Total cells will auto sum the costs in their respective columns.
- Do not factor management costs into parts A-C. If management costs are being requested, see part G.
- Contingency Costs need to be justified and reported as a separate line item in part E of this section. From left to right in that part, enter the desired percentage (maximum 5% of Material/Labor), the amount the percentage is to be applied to, and the resulting amount. **PLEASE NOTE**- These cells will not auto-calculate across the row, but the final cell will be calculated into the Final Project Cost below it. Take care that everything is calculated correctly.
- Pre-Award Costs: costs must be identified as a separate line item, AND a completed HMGP Pre-Award Cost Request Form MUST be submitted with this application, detailing the items/cost and requested start date.
- Mark all In-kind (donated) services with (**); In-house (employee) services with (***), per each line item.
- All funding sources (In-kind, In-house, Global Match, and Other Agencies) must be identified (below) AND identified on the Funding Sources - Section IV I.

For project management costs, in compliance with Disaster Relief and Recovery Act of 2018 (DRRA) and the subsequent FEMA Interim Policy #104-11-1, the Florida Division of Emergency Management has included a section for applicants to request, or refuse, project management funds that are available to them. Under this new policy, HMGP projects awarded under disasters declared on or after August 1, 2017, are eligible for project management costs up to 5 percent of their total project costs.

Applicants choosing to apply for this funding must detail the specific administrative costs in Part G of this section. These costs must be eligible administrative costs, conforming to the requirements set in 2 CFR Part 200 Subpart E. Applicants must ensure that their administrative costs are reasonable, allowable, allocable, and necessary for the performance of the federal award.

The State will allot these management costs on a project-by-project basis per the amount requested by the sub-recipient, up to 5 percent of the total project cost. A sub-recipient may request less than this, but no higher. These management costs will be considered a separate pool of funding, and **WILL NOT** affect a project's benefit-cost analysis.

Management costs will be reimbursed per reimbursement request, and no more than 5 percent of any given reimbursement request amount. All management costs reimbursements will be contingent upon adequate documentation from the sub-recipient.

Management costs will be reimbursed at 100 percent of the amount of management costs requested, so far as they are adequately documented and are no more than 5 percent of the request. Any unused management costs at closeout following the final payment will be de-obligated. If the final total project cost results in an under-run, management costs will be reduced accordingly.

Applicants must make the determination to request or refuse management costs at the time of formal application submittal. The State will accept the initial determination from the applicant. There will be no recourse from the State for applicants wishing to change their initial determination after the application has been formally submitted.

## A. Materials

| *Item* | *Unit* | *Quantity* | *Cost per Unit* | *Cost* |
|---|---|---|---|---|
| New 1100 KW Generator | LS | 1 | $750,000.00 | $750,000.00 |
| New Switchgear | LS | 1 | $225,000.00 | $225,000.00 |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | ***Sub-Total*** | **$975,000.00** |

## B. Labor Include equipment costs. Indicate all "soft" or in-kind matches (**).

| *Description* | *Hours* | *Rate* | *Cost* |
|---|---|---|---|
| Mobilizaton | 1 | $100,000.00 | $100,000.00 |
| Demolition of Existing Equipment | 1 | $75,000.00 | $75,000.00 |
| Electrical Install and Modifications | 1 | $250,000.00 | $250,000.00 |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | ***Sub-Total*** | **$425,000.00** |

## C. Fees Paid Include any other costs associated with the project.

| *Description of Task* | *Hours* | *Rate* | *Cost* |
|---|---|---|---|
| **Pre-Award* | 100 | $250.00 | $25,000.00 |
| Enginering Design - Principal Engineer | 400 | $160.00 | $64,000.00 |
| Engineering Design - Engineer | 104 | $50.00 | $5,200.00 |
| Design - Administrative Support | 600 | $105.00 | $63,000.00 |
| Design - CADD Design | | | |
| | | | |
| CEI - Principal Engineer | 36 | $220.00 | $7,920.00 |
| CEI - Inspection Engineer | 204 | $120.00 | $44,880.00 |
| | | | |
| | | | |
| | | ***Sub-Total*** | **$210,000.00** |

**D.** **Total Estimated Project Cost** **$1,610,000.0**

**E.** Contingency Costs (maximum 5% of Material/Labor) 5.00% $70,000.00 $70,000.00

**F.** **Final Project Cost** $1,680,000.0

***Note:*** *To be eligible for HMGP Pre-Award costs – the costs must be identified as a separate line item in the estimate above, AND a completed HMGP Pre-Award Cost Request Form MUST be submitted with this application, detailing the items/cost requesting.*

*Mark all In-kind (donated) services with (**); In-house (employee) services with (***), per each line item.*

*All funding sources (In-kind, In-house, Global Match, and Other Agencies) must be identified (above) AND identified on the Funding Sources - Section IV I.*

## G. Project Management Costs

Based on the amount of total project cost being requested in Part D (above), your project is eligible for up to an additional 5% of that amount for project management costs. Indicate below whether or not you would like to request these funds and follow the directions for your selected choice.

**Total Estimated Management Costs Available** (5% of Total Project Costs) *$80,500.00*
*Note: This number will be generated automatically after Part I is completed*

☒ **YES**, I would like to requests these funds (Fill out the itemized table below, then continue to Part I)*

☐ **NO**, I do not wish to request these funds. (continue to Part I)*

| *Description* | *Hours* | *Rate* | *Cost* |
|---|---|---|---|
| *City Engineer* | *170* | *$80.00* | *$13,600.00* |
| *Project Manager* | *700* | *$55.00* | *$38,500.00* |
| *Project Coordinator* | *131* | *$40.00* | *$5,240.00* |
| *Engineering Technician* | *74* | *$45.00* | $3,330.00 |
| *Engineering Inspector* | *661* | *$30.00* | *$19,830.00* |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |

| | | | |
| | | | |

## H. Total Estimated Management Costs Requested *$80,500.00*

***Note:** By selecting either “yes” or “no” the applicant is acknowledging that they understand what is being offered to them as it is described in this application.

## I. Funding Sources (round figures to the nearest dollar)

***The maximum FEMA share for HMGP projects is 75%.*** The other 25% can be made up of State and Local funds as well as in-kind services. HMGP funds may be packaged with other Federal funds, but other Federal funds (except for Federal funds that lose their Federal identity at the State level, such as CDBG, and certain tribal funds) may not be used for the Non-Federal share of the costs.

| | | | | | |
|---|---|---|---|---|---|
| 1. | ***Estimated Federal Share*** | $1,207,500.00 | 75 | % of Total | (Maximum 75%) |
| 2. | ***Non-Federal Shares*** | | | | |
| 3. | Estimated Local Shares | $402,500.00 | 25 | % of Total | (Cash) |
| 4. | | | | % of Total | (In-Kind**) |
| 5. | | | | % of Total | (In-House***) |
| 6. | | | | % of Total | (Global Match****) |
| 7. | ***Other Agency Share*** *(Identify Non-Federal Agency and availability date)* | | | % of Total | |
| 8. | ***Total Funding sources from above*** | **$1,610,000.00** | **100.00%** | ***Total*** | (Equals 100%) |

☐ **Identify proposed eligible activities directly related to project to be considered for In-Kind services in Section IV.C. Fees

☐ ***Identify proposed eligible activities directly related to project to be considered for In-House services in Section IV.C. Fees

☐ ****Separate project applications must be submitted for each Global Match project.

Global Match Project Number and Title: _____

| | | | | | |
|---|---|---|---|---|---|
| 9. | ***Total Estimated Management Costs*** | ***Requested*** | | | |
| | | ***Available*** | $80,500.00 | 5% of Total | (Max Allowed) |

## J. Project Milestones/Schedule of Work

List the major milestones in this project by providing an estimated time-line for the critical activities not to exceed a period of 3 years (36-months) of performance. ***(e.g. Contracting, Designing, Engineering, Permitting, Inspections, closeout, etc.)***

| ***Milestone(s)*** | ***Number of Months to Complete*** |

| | |
| | |
| | |
| **Total** | **Months** |

## Section V. Environmental Review and Historic Preservation Compliance

***(NOTE: This application cannot be processed if this section is not completed.)***

Because the HMGP is a federally funded program, all projects are required to undergo an environmental and historic preservation review as part of the grant application process. Moreover, all projects must comply with the National Environmental Policy Act (NEPA) and associated Federal, State, Tribal, and Local statutes to obtain funding. **NO WORK can be done prior to the NEPA review process. If work is done on your proposed project before the NEPA review is completed, it will NOT be eligible for Federal funding.**

**A. The following information is required for the Environmental and Historic Preservation review:**

*All projects must have adequate documentation to determine if the proposed project complies with NEPA and associated statutes. The State Environmental Staff provide comprehensive NEPA technical assistance for Applicants, with their consent, to complete the NEPA review. The type and quantity of NEPA documents required to make this determination varies depending upon the project's size, location, and complexity. However, at a minimum, provide the applicable documentation from this section to facilitate the NEPA compliance process.*

1. ☐ Detailed project description, scope of work, and budget/costs (Section II and Section IV of this application).
2. ☐ Project area maps (Section III, part B & C of this application).
3. ☐ Project area/structure photographs (Section III, part C of this application).
4. ☐ Preliminary project plans.
5. ☐ Project alternatives description and impacts (Section V of the application).
6. ☐ Complete the applicable project worksheets.
   Documentation showing dates of construction are required for all structures.
7. ☐ Environmental Justice – Provide any applicable information or documentation regarding low income or minority populations in the project area. See Section V.B of this application for details.
8. ☐ Provide any applicable information or documentation referenced on the *Information and Documentation Requirements by Project Type* below.

**B. Executive Order 12898; Environmental Justice for Low Income and Minority Population:**

1. Are there low income or minority populations in the project area or adjacent to the project area?
   ☐ No ☒ Yes; describe any disproportionate and adverse effects to these populations:

   The project site is located within the City's Community Development Block Grant (CDBG) priority area.

2. ☐ To help evaluate the impact of the project, explain below or attach any other information that describes the population, or portion of the population, that would be either disproportionately or adversely affected. Include specific efforts to address the adverse impacts in your proposal narrative and budget.

## C. Tribal Consultation *(Information Required)*

*Section 106 of the National Historic Preservation Act (NHPA) requires federal agencies to take into account the effect of their undertakings on historic properties. The NHPA requires that agencies must complete this process prior to the expenditure of any Federal funds on the undertaking. A Tribal Consultation is required for any project disturbing ground or moving soil, including but not limited to: drainage projects; demolition; construction; elevation; communication towers; tree removal; utility improvements.*

1. Describe the current and future use of the project location. A land use map may be provided in lieu of a written description.

   Land Use Map Attached

2. Provide information on any known site work or historic uses for project location.

   _____

   ☒ Attach a copy of a city or county scale map (large enough to show the entire project area) with the horizontal limits (feet) and vertical depths (square feet) of all anticipated ground disturbance of 3 inches or more.

## D. Alternative Actions *(Information Required)*

The NEPA process requires that at least two alternative actions be considered that address the same problem/issue as the proposed project. In this section, list **two feasible** alternative projects to mitigate the hazards faced in the project area. One alternative is the "No Action Alternative".

**1. No Action Alternative**
Discuss the impacts on the project area if no action is taken.

_____

**2. Other Feasible Alternative**
Describe a feasible alternative project that would be the next best solution if the primary alternative is not accomplished. This could be an entirely different mitigation method or a significant modification to the design of the current proposed project. Include a Scope of Work, engineering details (if applicable), estimated budget and the impacts of this alternative. Complete *all* of parts **a-e** (below).

**a. Project Description for the Alternative**
Describe, in detail, the alternative project, and explain how the alternative project will solve the problem(s) and/or provide protection from the hazard(s). Also, provide pros and cons for this alternative and a reason for why it was not selected.

_____

**b. Project Location of the Alternative** (*describe briefly, if different from proposed project*)

_____

☐ Attach a map or diagram showing the alternative site in relation to the proposed project site (*if different from proposed project*)

**c. Scope of Work for Alternative Project**

_____

**d. Impacts of Alternative Project**
Discuss the impact of this alternative on the project area. Include comments on these issues as appropriate: Environmental Justice, Endangered Species, Wetlands, Hydrology (Upstream and Downstream Surface Water Impacts), Floodplain/Floodway, Historic Preservation and Hazardous Materials.

_____

**e. Estimated Budget/Costs for Alternative Project**

In this section, provide details of all the estimated costs of the alternative project (round figures to the nearest dollar). A lump sum budget is acceptable.

| | |
|---|---|
| Materials: | |
| Labor: | |
| Fees: | |
| **Total Estimated Project Cost:** | **$ 0.00** |

**HMGP ENVIRONMENTAL REVIEW**

***Information and Documentation Requirements by Project Type***

| ***Retrofits to Existing Facilities/Structures***<br>***Elevations***<br>***Acquisitions with Demolition*** |
|---|
| ✓ Dates of Construction<br>✓ Ground disturbance map for projects with 3 inches or more of ground disturbance<br>✓ Structure photographs |
| ***Drainage Improvements*** |
| ✓ Engineering plans/drawings<br>✓ Permit or Exemption letter to address any modifications to water bodies and wetlands<br>o Department of Environmental Protection<br>o Water Management District<br>o U.S. Army Corps of Engineers<br>✓ Ground disturbance map for projects with 3 inches or more of ground disturbance.<br>✓ Concurrence from U.S. Fish and Wildlife addressing any impacts to wildlife, particularly endangered and threatened species and their habitats.<br>✓ If the project is in a coastal area, attach a letter from the National Marine Fisheries Service addressing impacts to marine resources.<br>✓ Concurrence from Natural Resource Conservation Service if project is located outside city limits and may impact prime or unique farmland.<br>✓ Concurrence from your Local Floodplain Manager – if project is located in a floodplain. |

*Note: This is a general guideline for most projects. However, there will be exceptions. Consult with state environmental staff on project types not listed.*

## Section VI – Maintenance Agreement

***All applicants whose proposed project involves the retrofit or modification of existing public property or whose proposed project would result in the public ownership or management of property, structures, or facilities, must first sign the following agreement prior to submitting the application to FEMA.***

***(NOTE: Not applicable to projects solely related to residential or private property.)***

The City of Ormond Beach, State of Florida, hereby agrees that if it receives any Federal aid as a result of the attached project application, it will accept responsibility, at its own expense if necessary, for the ***routine*** maintenance of any real property, structures, or facilities acquired or constructed as a result of such Federal aid**.** Routine maintenance shall include, but not be limited to, such responsibilities as keeping vacant land clear of debris, garbage, and vermin; keeping stream channels, culverts, and storm drains clear of obstructions and debris; and keeping detention ponds free of debris, trees, and woody growth.

The purpose of this agreement is to make clear the Sub-recipient's maintenance responsibilities following project award and to show the Sub-recipient's acceptance of these responsibilities. It does not replace, supersede, or add to any other maintenance responsibilities imposed by Federal law or regulation and which are in force on the date of project award.

Signed by Joyce Shanahan the duly authorized representative
(*printed or typed name of signing official*)

City Manager,
(*title*)

This _____(*day*) of _____(*month*), _____ *(year).*

**Signature*** _____

***Note: The above signature must be by an individual with legal signing authority for the respective local government or county (e.g., the Chairperson, Board of County Commissioners or the County Manager, etc.)***

# HMGP Application Completeness Guidance/Checklist

This guidance/checklist contains an explanation, example and/or reference for information requested in the application. Use this list to assure your application is complete and includes the required information for HMGP projects. The appropriate documentation must also be attached. It is important to note that this list is similar to the form that will be used during the application sufficiency review by the HMGP staff.

**Project Title: Water Treatment Plant Generator Replacement**

**Applicant: City of Ormond Beach**

| Application Information | Explanation of Information Required | ✓ |
|---|---|---|
| ***Section I*** | | |
| **B. Applicant Information** | | |
| **FEMA___-DR-FL** | Type in the four digit number FEMA assigned to the disaster that this application is being submitted under. (Example: 4337, 4283) | ☒ |
| **DISASTER NAME** | Type in the Disaster name. (Example: Hurricane Irma, Tropical Storm Fay) | ☒ |
| **Title of Project** | The project title should include: 1) Name of Applicant, 2) Name of Project, 3) Type of Project. (Example: City of Tallahassee, City Hall Building, Wind Retrofit) | ☒ |
| **1. Applicant** | Name of organization applying. Must be an eligible applicant. | ☒ |
| **2. Applicant Type** | State or local government, recognized Native American tribe, or private non-profit organization. If private non-profit, attach documentation showing legal status as a 501(C). (Example: IRS letter, Tax Exempt Certificate) | ☒ |
| **3. County** | Indicate county in which the project is located. | ☒ |
| **4. State Legislative and Congressional District(s)** | Specify the appropriate State Senate, House and Congressional District code for the **project site**. For multiple sites, list codes for each site. http://www.myfloridahouse.gov/sections/representatives/myrepresentative.aspx | ☒ |
| **5. Federal Tax I.D. Number** | List the Federal Employer's Identification Number (FEIN), also known as Federal Tax Identification number, 9-digit code. May be obtained from your finance/accounting department. | ☒ |
| **6. DUNS Number** | Include Data Universal Numbering System (DUNS) number in appropriate location on application. Typically, this number can be obtain through your finance department. If not, use the link below to look up your entity. If none, exists you can use the same link to request one. https://www.dnb.com/duns-number.html | ☒ |
| **7. FIPS Code** | List the Federal Information Processing Standards (FIPS) Code. May be obtained from your finance/accounting/grants department. If none, submit FEMA Form 90-49. See state website under the relevant disaster (https://floridadisaster.org/dem/mitigation/hazard-mitigation-grant-program/) | ☒ |
| **8. NFIP ID Number** | List the National Flood Insurance Program (NFIP) number. You must be a participating NFIP member to be eligible for HMGP funding. Make sure that the number is the same as the panel number on the FIRM provided with the application. | ☒ |
| **9. Point of Contact** | Provide all pertinent information for the point of contact. This person serves as the coordinator of the project. If this information changes once the application is submitted, please contact the HMGP staff immediately. | ☒ |
| **10. Application Prepared By** | Provide the preparer information. May be different from the point of contact (line 9) and/or the applicant's agent (line 11). | ☒ |
| **11. Authorized Applicant Agent** | An authorized agent must sign the application. *"An authorized agent is the chief elected official of a local government who has signature authority, so for a county it would be the Chairman of the Board of County Commissioners and for a municipality it would be the Mayor (the exact title sometimes varies). Any local government may delegate this authority to a subordinate official (like a City or County Manager) by resolution of the governing body (the Board of County Commissioners or Board of City Commissioners). If a local government delegates signature authority, a copy of the resolution by the governing body authorizing the signature authority for the individual signing must be provided."* | ☒ |

| | | |
|---|---|---|
| | For Private Non-Profit: A member of its Board of Directors or whoever has authority to authorize funding for such a project. If this task is delegated down, a copy of a resolution confirming this must be provided. | |
| **12. LMS Compliance** | a) LMS Project List:<br>All proposed projects must be included in the county's Local Mitigation Strategy (LMS) Project List and must be on file with FDEM's Mitigation Bureau Planning Unit.<br>b) LMS Endorsement Letter:<br>All proposed projects must include an endorsement letter from the county's Local Mitigation Strategy Coordinator. You may use 1 letter as long as it includes every proposed project.<br>c) Estimated Costs & Application Costs:<br>The LMS Project List must include an Estimated Cost column and each HMGP project application must be within $500.00 of that Project List's estimated cost. Also ensure that the Federal Cost Share indicated on the LMS Coordinator's Endorsement Letter exactly matches the Federal Cost Share indicated within the application. Ensure the LMS endorsement letter contains both the Total Estimated Projects Cost (Section IV. D.), along with the Estimated Federal Share (Section IV. I.1.) allocated to this project.<br>A letter of endorsement for the project and its priority number from the Local Mitigation Strategy Project List must be included. Refer to **Sample LMS Letter**. Applications without a letter of endorsement will not be processed. *(44 CFR 201.6 Local Mitigation Plans)* | ☒ |
| **13. Previous Submittal** | If the project has been previously submitted under another disaster, provide the disaster number, the project number, and the title of the project. | ☐ |

## ***Section II - Project Description***

### A. Hazards to be Mitigated/Level of Protection

| | | |
|---|---|---|
| **1. Type of Hazards** | **Type of Hazards the Proposed Project will Mitigate**: Identify the hazard(s) that the proposed project will mitigate. More than one hazard may be selected. | ☒ |
| **2. Identify the Type of Project** | **Identify the Type of Proposed Project**: Describe the mitigation project being proposed. (Example: drainage, wind retrofit, generator etc.) | ☒ |
| **3. Number of Persons Protected** | Explain how many people will be protected by or benefit from the proposed project. (Example: A drainage project improving a residential area of 23 homes, with an average household of 2 people = 46 people) | ☒ |
| **4. Total Impacted Area** | Explain how many acres will be impacted from the proposed project: Drainage/Berm/Pond/Culverts/Flood hazard projects: combination of the area to be protected and ground disturbance must not exceed 25 acres. | |
| **5. Level of Protection** | Specify the level of protection and magnitude of the event the proposed project will mitigate. Attach support documentation that verifies the stated level of protection. (Example: In a wind retrofit project, it will be the design wind speed to comply with the Florida Building Code requirements. In a drainage project, it will be the implemented design level, e.g. a 25-year FDOT design standard for culvert.) | ☐ |
| **6. Project Impact** | Identify **all** the items the project may impact or are within the project area. | ☐ |
| **7. Engineered Projects (e.g. Drainage)** | Include available engineering calculations, studies, and designs for the proposed project showing results from applied Recurrence Interval scenarios before and after mitigation. (Number of structures, building replacement value, depth of the water, structural damages, content damages, displacement, road closures, etc.) | ☐ |

### B. Project Description, Scope of Work, and Protection Provided (Must be Completed in Detail)

| | | |
|---|---|---|
| **1. Existing Problem** | Describe the existing problem, location, source of the hazard, and the history and extent of the damage. Include newspaper articles, insurance documentation, photographs, etc. If this project is eligible for PA (406) mitigation activities, describe the 406 activities. | ☐ |
| **2. Type of Protection** | Determine how the funding will solve the existing problem and provide protection. | ☐ |
| **3. Scope of Work:** | **What the Project Proposes to Do**: Determine the work to be done. The scope of work must meet eligibility based on HMGP regulations and guidance. Explain how the proposed problem will be solved. (NOTE: The proposed project must be a | ☐ |

| | | |
|---|---|---|
| | mitigation action, not maintenance.) *Does the proposed project solve a problem independently or constitute a functional part of a solution where there is assurance that the project as a whole will be completed (44 CFR 206.434[c][4])? Does the proposed project address a problem that has been repetitive or that poses a significant risk to public health and safety if left unresolved (44 CFR 206.434[c][5][i])?* Projects that merely identify or analyze hazards or problems are not eligible. | |
| **4. On-Going or Proposed Projects in the Area** | Determine if other projects, zoning changes, etc. are planned (particularly in the same watershed if flooding is being addressed) that may negatively or positively impact the proposed project. If there is a drainage project or downstream issue elsewhere, it may eliminate the current flooding issue, erasing the need for the proposed project. Response applies to drainage and acquisition projects. N/A is appropriate in wind retrofit shutter projects only. If this project is also being considered under the Public Assistance Program (406), describe in detail the 406 mitigation activities and/or services. Do not include project costs associated with this HMGP application. | ☐ |

## ***Section III - Project Location***

### A. Site

| | | |
|---|---|---|
| **1. Physical Location** | List the physical location of the project site(s) including the street number(s), zip code(s) and GPS coordinates (latitude/longitude, in decimal degrees). The physical address must correspond with the address locations specified on maps submitted with the application. | ☒ |
| **2. Titleholder** | Provide the titleholder's name. | ☒ |
| **3. Project Seaward of the CCCL?** | Determine if the project site is located seaward of the Coastal Construction Control Line. https://floridadep.gov/water/coastal-construction-control-line | ☒ |
| **4. Number and Types of Structures Affected** | Specify the number and type of properties affected by the project. (Example: Drainage project that affects 100 homes, 15 businesses and 2 schools.) What does the project protect? Should have a number next to the box that is checked. (See Section II, Item A.5 – detail of these totals) | ☐ |

### B. Flood Insurance Rate Map (FIRM) Showing Project Site

| | | |
|---|---|---|
| **1. Copies of FIRM** | Attach a copy (or copies) of the FIRM and clearly identify the project site. The FIRM Panel number must be included. To obtain a FIRM map, go to https://msc.fema.gov/portal. **See instructions on How to make a FIRMette.** | ☒ |
| **2. Flood Zone Determination** | Specify the flood zone(s) of the project site(s). **If project is located in a Special Flood Hazard Area. Amount of coverage must be equal to or greater than the amount of Federal mitigation funding obligated to the project.** | ☐ |
| **3. Flood Hazard Boundary Map (FHBM)** | Not required if a copy of the FIRM is attached. | ☐ |
| **4. Model Acknowledgement of Conditions form** | The Model Acknowledgement of Conditions for Mitigation in Special Flood Hazard Area form is required for those structures receiving federal funds that will also remain in the special flood hazard area by the close of the project. This form is required at application. It can be found on FEMA's website at https://www.fema.gov/media-library/assets/documents/15677 | ☐ |

### D. C. Maps with Project Site and Photographs

| | | |
|---|---|---|
| **1. City/County Map with Project Site** | The project site and staging location (if applicable) should be clearly marked on a legible City/County map. The map should be large enough to show the project site. More than one map may be required. | ☒ |
| **2. USGS TOPO with Project Site** | The project site should be clearly marked on a legible USGS 1:24,000 TOPO map. To obtain a TOPO map, go to https://ngmdb.usgs.gov/topoview/ | ☒ |
| **3. Parcel/Tax Map** | A Parcel, Tax or Property Identification map is required <u>only</u> for acquisition and elevation projects. The location of the structure must be clearly identified. | ☐ |
| **4. Site Photographs** | At least four photographs are required that clearly identify the project site. The photos must be representative of the project area, including any relevant streams, creeks, rivers, etc., and drainage areas that affect the project site or will be affected by the project. The front, back and both side angles are required for each structure. For acquisition and elevation projects, a photo taken away from the structure (in front toward the street, and in back toward backyard) to show the area along with | ☐ |

| | | |
|---|---|---|
| | photographs of specific elements of the structure affected by the project (windows for shutters or window replacements) should also be provided. Label photographs appropriately. In addition, CDs may be submitted. | |

## ***Section IV - Budget/Costs***

Make sure all calculations are correct. Provide a breakdown of materials, labor and fees for the proposed project. Support documentation must be attached, i.e. vendor's quote, professional estimate (from engineer, architect, local building official, etc.). The proposed budget line items should represent allowable costs associated with the scope of work. Contingency Cost should be included as a line item in the budget section, and justified – Maximum allowed is 5%, and is required to complete this section; it will be used for the Benefit-Cost Analysis (BCA). Costs should be accurate, complete and reasonable compared to industry standards. Make sure the total cost is correct on the entire application.

| | | |
|---|---|---|
| **A. Materials** | List materials and their associated costs. Provide breakdown. | ☐ |
| **B. Labor** | Provide a breakdown of description, hours, rate, and cost or lump sum labor cost. Can use in-kind contribution as part of the 25% match. (Attach support documentation for in-kind, in-house to detail wages and salaries charged for any contribution. No overtime wages can be used to satisfy match contributions). | ☐ |
| **C. Fees Paid** | Provide a breakdown of associated fees i.e., consultants, studies, engineering, permits, and project management. Maintenance is not an allowable cost under HMGP. *Pre-award costs may be requested* **(See Pre-award Costs guidance).** | ☐ |
| **D. Total Estimated Project Cost** | This number includes all project costs without contingency costs included. Make sure all calculations are correct. | ☐ |
| **E. Contingency Cost** | Per FEMA's HMA Guidance (Section VI Part D.3.4), a contingency cost is, "an allowance in the total cost estimate to cover situations that cannot be fully defined at the time the cost estimate is prepared but that will likely result in additional eligible costs. Allowances for major project scope changes, unforeseen risks, or extraordinary events may not be included as contingency costs."<br>The applicant may request up to 5% of material/labor costs. As with other line items, the applicant must justify these contingency costs based on the nature of the project at application.<br>If an applicant wants to include contingency costs, they will need to enter the percentage that they require as well as what amount they want that percentage to be applied to. Type the resulting calculation in the final cell on the right. These cells will **NOT** auto-calculate. Be sure that they are calculated correctly. | ☐ |
| **F. Final Project Cost** | This number includes any contingency costs that were requested. The final BCA will use this number in its final calculation. | ☐ |
| **G. Project Management Costs** | After reading the guidance provided on pg. 5, select either **YES** or **NO** to indicate your need for management costs for this project.<br>If **YES**, provide a breakdown of description, hours, rate and costs for requested management costs.<br>If **NO**, continue to Part I. | ☐ |
| **H. Total Estimated Management Costs Requested** | This will auto complete based on what is entered into the cost cells above. Your request must not exceed 5 percent of the total project cost available for this project. | ☐ |

### I. Funding Sources (round figures to the nearest dollar)

The proposed sources of non-federal matching funds must meet eligibility requirements. (Except as provided by Federal statute, a cost-sharing or matching requirement may not be met by costs borne by another Federal grant.) 2 CFR Part 200.306.

| | | |
|---|---|---|
| **1. Estimated Federal Share** | The estimated Federal share is generally 75%. If the Federal share is not 75%, assure actual amount is entered. It could be 50.1234% or 35.1234%, etc. of the total dollar amount of project depending on county LMS allocation and priority. This figure cannot exceed 75%. | ☒ |
| **2. Non-Federal Share** | May include all 3 sources, i.e. cash, in-kind and global match, as long as the total is a minimum of 25%. Match cannot be derived from a federal agency except Federal funds that lose their federal identity (e.g., CDBG funding and certain tribal funding). | ☒ |
| **3. Cash** | Cash- Local funding will be utilized for the non-federal share. Enter amount of cash and percentage of total that amount represents. | ☒ |
| **4. Total In-Kind** | May use materials, personnel, equipment, and supplies owned, controlled and operated from within governing jurisdiction as an in-kind match. *Third party in-kind contributions would be volunteer services, employee services from other* | ☐ |

| | | |
|---|---|---|
| | *organizations furnished free of charge, donated supplies, and loaned equipment or space. The value placed on these resources must be at a fair market value and must be documented. If in-kind is claimed from outside the applicant jurisdiction, it must be cash only. ** Identify proposed eligible activities in Section IV B. and C. as a separate line with In-kind written as a part of the description.* | |
| **5. Total In-house** | Sub-Recipient employees, equipment, etc. – internal services (must utilize the Personnel Activity Report or the Equipment Activity Report for the Request for Reimbursement) | ☐ |
| **6. Total Project (Global) Match** | Project (global) match must 1) meet all the eligibility requirements of HMGP; and 2) begin after FEMA's approval of the match project. A separate HMGP application must be submitted for global match projects. Indicate which project(s) will be matched. *The global match is not required to be an identical project. Projects submitted as global match for another project must meet the same period of performance time constraints as the HMGP.* | ☐ |
| **7. Other Agency Share** | Identify Non-Federal Agency and availability date; provide the documentation from the agency. (e.g., CDBG funding, and certain tribal funding) | ☐ |
| **8. Total Funding** | Total must represent (100%) of the total estimated project cost. Ensure that percentages match corresponding cost-shares and the total matches the Budget (in Section IV. F. - Total Estimated Project Cost). | ☒ |
| **9.** | Your requested amount must be equal to or less than 5 percent of the total project cost | ☐ |

### J. Project Milestones/Schedule of Work

| | | |
|---|---|---|
| **1. Milestones (Schedule)** | Identify the major milestones in the proposed project and provide an estimated time-line *(e.g. Designing, Engineering – 3 months, Permitting – 6 months, Procurement – 30 days, Installation – 6 months, Contracting – 1 month, Delays, Project Implementation, Inspections, Closeout, etc.)* for the critical activities not to exceed a period of 3 years (36-months) for performance. Milestones should not be grouped together but listed individually. Allot for the appropriate amount of time for final inspection and closeout (about 3 months). | ☐ |

## ***Section V - Environmental Review & Historic Preservation Compliance***

No work can begin prior to the completion of the environmental (NEPA) review. In order for the Environmental staff to conduct the NEPA review, all sections listed below must be completed.

| | | |
|---|---|---|
| **1. Description, SOW & Budget** | Detailed Project Description, Scope of Work & Budget/Costs. Complete Sections II & IV of the application. | ☐ |
| **2. Area Maps** | Project area Maps - Attach a copy of the maps and clearly mark the project site, and place the specific project structure(s) on map(s). Complete Section III, part B & C of the application. | ☐ |
| **3. Project Area/Structure Photographs** | Complete Section III part C of the application. | ☐ |
| **4. Preliminary Project Plans** | For shutters see the scope of work and for drainage & elevation see engineering drawings. | ☐ |
| **5. Project Alternatives** | Complete Section V part D. of this application. | ☐ |
| **6. Project Worksheets** | Dates of construction are required for all structures. See worksheets. | ☐ |
| **7. Environmental Justice Documentation** | See Section V.B for applicable information. | ☐ |
| **8. Information/ Documentation Requirements by Project Type** | Provide any of the required documentation as listed at the end of Section V in the Information and Documentation Requirements by Project Type that may have already been obtained. | ☐ |

### B. Executive Order 12898, Environmental Justice for Low Income and Minority Population

| | | |
|---|---|---|
| **1. Disproportionate Effects** | Determine if there are populations in either the project zip code or city that are characterized as having a minority background or living below the poverty level. If yes, | ☐ |

| | | |
|---|---|---|
| | complete the rest of Section V, part B. Describe any disproportionate effects that these populations would experience if the project were completed. | |
| **2. Population Affected** | Describe the population affected by this project and the portion of the population adversely impacted. Attach any documentation and list the attachments here. | ☐ |

### C. Information required for Tribal Consultation

| | | |
|---|---|---|
| **Documentation for Tribal Consultation** | For all projects with any ground disturbing activities of 3 inches or more, complete Section V part C. | ☐ |

### D. Alternative Actions

| | | |
|---|---|---|
| **1. No Action Alternative** | Discuss the impacts on the project area if no action is taken. | ☐ |
| **2. Other Feasible Alternative Action** | This is a FEMA and FDEM requirement for any Application Review. A narrative discussion of at least three project alternatives (from No Action to the most effective, practical solution) and their impacts, both beneficial and detrimental is required. It is expected that the jurisdiction has completed sufficient analysis to determine the proposed project can be constructed as submitted and it supports the goals and objectives of the FEMA approved hazard mitigation plan. Has the proposed project been determined to be the most practical, effective and environmentally sound alternative after consideration of a range of options? (44 CFR 206.434[c][5][iii]) | ☐ |
| **a. Project Description** | It is very important and a requirement that an Alternative project is submitted. NEPA requires that at least three alternatives must be presented to mitigate the problem. In addition to the proposed action and no action, one other **feasible** alternative must be provided. | ☐ |
| **b. Project Location of the Alternative** | Describe the surrounding environment. Include information regarding both natural (i.e., fish, wildlife, streams, soils, plant life) and built (i.e., public services, utilities, land/shoreline use, population density) environments. | |
| **c. Scope of Work – Alternative Project** | Describe how the alternative project will solve the problem and provide protection from the hazard. Provide enough detail to describe the project for the evaluation panel to decide the best course of action for the state. Include any appropriate diagrams, sketch maps, amount of materials and equipment, dimensions of project, amount of time required to complete, etc. | |
| **d. Impacts of the Alternative Project** | | |
| **e. Estimated Budget/Costs for the Alternative Project** | Total cost is required. | ☐ |
| **Materials, Labor, and Fees Paid** | Detailed line items are not required. Just enter a total amount. | ☐ |
| **Total Estimated Project Costs** | Total cost is required. Vendor quote is not required. A lump sum budget may be submitted as justification to why this alternative was not chosen. | ☐ |

## Section VI – Maintenance Agreement

| | | |
|---|---|---|
| **Maintenance Agreement** | Complete, sign and date the maintenance agreement. The maintenance agreement must be signed by an individual with signature authority, preferably the authorized agent. | ☒ |

## Other Required Documentation

Go to www.floridadisaster.org/dem/mitigation/hazard-mitigation-grant-program/ for additional documents

| | | |
|---|---|---|
| **1. Maps** | All maps must be included with the application. | |
| **2. FFATA Form** | During contracting with the state, complete, sign and date the FFATA Project File Form. Instructions are provided for your convenience in the document provided. **This is not required at the time of application submittal.** | ☐ |
| **3. SFHA Acknowledgement of Conditions** | Required for all projects in the Special Flood Hazard Area. Read and sign the SFHA Acknowledgement of Conditions document. This form must be notarized, signed by the local jurisdiction and the property owner. | ☐ |
| **4. Pre-award Cost Form** | If pre-award costs are being requested with your project, be sure to identify all pre-award costs in the application budget per instructions. The pre-award cost form must be completed and submitted with your application. | ☐ |

| | | |
|---|---|---|
| **5. Request for Public Assistance Form** | Applicable if no FIPS number is assigned to applicant/recipient. | ☐ |
| **6. Model Statement of Assurances for Property Acquisition Projects** | For Acquisition projects only. | ☐ |
| **7. Declaration and Release** | For Acquisition projects only. Must be signed by all persons whose names are on the property deed. | ☐ |
| **8. Notice of Voluntary Interest** | For Acquisition projects only. Two forms are available for your convenience. Use the form that is most appropriate to your situation. Must be signed by all persons whose names are on the property deed. | ☐ |
| **9. Statement of Voluntary Participation for Acquisition of Property for Purpose of Open Space** | For Acquisition projects only. Must be signed by all persons whose names are on the property deed. | ☐ |
| **10. Worksheets** | The appropriate worksheet(s) must be completed and submitted with the application.<br>a. Flood Control – Drainage Improvement<br>b. Generator<br>c. Tornado Safe Room<br>d. Hurricane Safe Room<br>e. Wind Retrofit<br>f. Wildfire<br>g. Drought | ☒ |

*Submit **1 original (signed) and 1 full copy** of the entire application and backup documentation. Include a full copy of the submittal and all documentation on CD or thumb drive.

# Attachment Index

Use the following template to list any supporting documentation that is **included on the CD or flashdrive**. Clearly and concisely label each attachment on this form to correspond with the file name on the CD or flashdrive. In the first column list which section and item (from the HMGP application) the attachment refers to. *Example: Section 2, Item 1.* **If any required documentation is not included on the CD or flashdrive, the application will be considered incomplete and *will not* be considered for possible funding.**

Volusia County
FLORIDA

**Department of Emergency Services**
**Emergency Management Division**

June 20, 2025

Ms. Laura Dhuwe, State Mitigation Officer
Florida Division of Emergency Management
255 Shumard Oak Boulevard
Tallahassee, Florida 32399-2100

RE: Hazard Mitigation Grant Program (HMGP) applications for FEMA 4834-DR-FL, Hurricane Milton

Dear Ms. Dhuwe:

The Volusia County Local Mitigation Strategy (LMS) working group has approved by vote and prioritized the following projects for HMGP funding from this disaster. These projects align with our LMS goals and objectives as noted, and with the State's mitigation goals and objectives (in accordance with the Code of Federal Regulations 44 § 201.6)

The Volusia County LMS group therefore presents the projects below (or in an attachment) in the order that they are to be considered for funding.

For further information or inquiry, please contact me at 386-671-8807 or bartonjustin@codb.us.

Sincerely,

Justin Barton Digitally signed by Justin Barton

N

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 6/12/2025 at 11:06 PM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

# Generator(s) Worksheet

For preliminary Benefit Cost Analysis conducted by the State Mitigation Technical Team

Applies for the following mitigation activities: **PERMANENT AND PORTABLE GENERATOR**. For assistance, contact the State of Florida Mitigation Technical Unit.

**IMPORTANT**: This worksheet is required as part of your application. The State of Florida Mitigation Technical Unit will conduct a Benefit Cost Analysis (BCA) for your project and the following information is needed to evaluate cost effectiveness. Once a preliminary BCA is completed, the reviewer will contact you with results and/or to collect support documentation.

**NOTE**: Having a complete worksheet will expedite the Technical Review

## Requirements

To complete a successful project application, a minimum amount of technical information is required for review. Data collected in this worksheet will provide reviewers with preliminary information necessary to evaluate project eligibility, feasibility, and cost effectiveness. Carefully review and confirm that you are aware of the following information.

Permanent Generator(s): The generator(s) shall be protected against a 500-year flood event by implementing specific activities or by locating the generator(s) outside the Special Flood Hazard Area (SFHA), comply with applicable National Flood Insurance Program (NFIP) requirements and shall be protected against wind with a rated enclosure and appropriate anchoring based on its location requirements per ASCE 7 standards. The selected site shall provide sufficient space to maintain and fuel the generator(s) and shall comply with the National Electrical Code working clearance requirements. Activities shall be completed in strict compliance with Federal, State and Local applicable Rules and Regulations.

Portable Generator(s): The portable generator(s) shall be stored at a location protected against a 500-year flood event or located outside the Special Flood Hazard Area (SFHA), comply with applicable National Flood Insurance Program (NFIP) requirements, and shall be protected against wind with a rated enclosure based on their location requirements. Activities shall be completed in strict compliance with Federal, State and Local Rules and Regulations.

Automatic Transfer Switch (ATS): The automatic transfer switch(es) shall be protected against a 500-year flood event by implementing specific activities or by locating the automatic transfer switch(es) outside the Special Flood Hazard Area (SFHA), comply with applicable National Flood Insurance Program (NFIP) requirements and shall be protected against wind with a rated enclosure and appropriate anchoring based on its location requirements per ASCE 7 standards. Activities shall be completed in strict compliance with Federal, State and Local applicable Rules and Regulations

*I confirm that I have reviewed the requirements listed above (signature):* _____

FEMA has approved an approach to demonstrating cost-effectiveness for certain hospital generator projects based on pre-calculated benefits which requires minimal documentation if certain requirements are met.

BEFORE PROCEEDING TO THE NEXT SECTION PLEASE SELECT AN OPTION BELOW:

Does your project meet all the requirements from the below FEMA memorandum?
Pre-Calculated Benefits for Certain Hospital Generators to Demonstrate Cost-Effectiveness

☐ Yes (Only complete Section I of this worksheet) ☑ No (Complete all sections of this worksheet)

**For additional resources, please refer to FEMA Technical Review Job Aid for Generator projects.**

## Section VI – Additional Information

*Please use this page to expand on the information provided above or to include any additional information relevant to the proposed mitigation project.*

The City of Ormond Beach is seeking replacement of a fixed generator at its Water Treatment Plant (WTP), located at 298 Tomoka Avenue, in order to ensure continuity of operations during disaster events and power surges. Without continuous power to the WTP, there is a risk that the community may lose access to treated drinking water during major events. The existing generator, an 1100 KW Cummins, provides power to the lime softening portion of the WTP and was installed in 2002.

# GENERATOR(S) WORKSHEET INSTRUCTIONS

Refer to the instructions below to complete the Generator(s) Worksheet using the best available data.

## Section I – Project General Information

**Project Name:** Enter the name of the project title. The title should be short but descriptive (e.g., City of Orlando, Police Station, Backup Generator).

**Sub-Applicant:** Enter your organization's legal name.

**Worksheet completed by:** Enter name, title, phone number, and email of the person completing this Worksheet. This person must have the knowledge and/or the resources to accurately answer all questions and provide supporting documentation, as needed. Information may come from multiple creditable sources.

## Section II – Project Cost Information

**Mitigation Project Cost:** Enter the total cost of the project. A lump sum on this worksheet is acceptable for preliminary BCA, but a detailed breakdown attached to your application is required.

**Annual Maintenance Cost:** Enter the cost associated with maintaining the effectiveness of the components installed as part of the utility mitigation project.

## Section III – Project Specific Information

**Project Location:** Provide the physical address(es) of the critical facility(es) that will be supported by the proposed generator(s). For multiple locations, please provide information on Section VI of this worksheet.

**Type of proposed generator:** From the dropdown menu option, select the proposed type of generator(s):

- Permanent Generator: A permanently installed generator that provides a secondary source of power by being hard-wired into the facility's main distribution panel and can be started manually or automatically in the event of a power outage.
- Portable Generator: A non-fixed generator that works with stand-alone applications and is meant to temporarily provide a secondary source of power to energize critical functions.

**Proposed Capacity (kW):** The generator's size and specifications should be reasonable, appropriate and necessary to continuing critical functions of the facility. The generator(s) should be sized appropriately such that the facility is able to provide uninterrupted critical functions in the event of future power outages.

**Type of Fuel:** Specify the type of fuel to power the proposed generator (e.g., diesel, propane, natural gas, gasoline, etc.)

**Type of Fuel Tank:** Specify the type of fuel tank, if applicable (e.g., Sub-base, stand-alone above ground, stand-alone underground, etc.)

**Fuel Tank Storage Capacity (gallons) & Duration (hours):** Specify the fuel tank storage capacity and duration, if applicable. The fuel tank storage capacity and duration must be sufficient to mitigate risk from the natural hazard.

**Proposing to install a new ATS?** Select "Yes" if you are proposing to install a new Automatic Transfer Switch (ATS) as part of the proposed mitigation project. Select "No" if a new ATS is not necessary and provide an explanation.

**Constructing a new concrete Pad?** Select "Yes" if you are proposing to construct a new concrete pad to install the new generator. Select "No" if a new concrete pad is not necessary and provide an explanation.

**Is there an existing generator?** Select "Yes" if there is an existing generator at the project site; Otherwise, select "No".

**Specify capacity of the existing Generator (kW):** If there is an existing generator at the project site, please specify its capacity.

## Section IV – Loss of Service

FIRE STATION

**How many people are served by the Fire Station?** Enter the number of people served by the fire station. If only one fire station serves the entire population of a community, that number may be used. For larger communities with multiple fire stations, only the population directly served by the station being mitigated can be used. Documentation for the service population can come from the fire station, local planning office, or other creditable source.

**Does the fire station provide Emergency Medical Services (EMS)?** Select "Yes" if the fire station provides EMS or has EMS trained personnel; Otherwise, select "No".

**Provide the address of the nearest fire station:** The nearest fire station would serve as an alternative station to provide fire protection due to loss of function of the fire station being mitigated.

**Provide the address of the nearest fire station with EMS:** The nearest fire station would serve as an alternative station to provide EMS and fire protection due to loss of function of the

fire station being mitigated. (If the nearest fire station also provides EMS, please provide same address).

POLICE STATION

**How many people are served by this police station?** Enter the number of people served by the police station. If only one police station serves the entire population of a community, that number may be used. For larger communities with multiple police stations, only the population directly served by the station being mitigated can be used. Documentation for the service population can come from the police station, local planning office, or other creditable source.

**How many police officers work or report to this police station?** Enter the number of sworn officers that work or report at this location.

**How many police officers have a designated office space at this police station?** Enter the number of police officers that have a designated office space at this police station. It is assumed that police officers with a designated office space would be restricted to perform their regular duties if the police station were shut down due to a disaster. This information is necessary to estimate the loss of function due to the increased crime caused by a reduction of police officers in service.

HOSPITAL

**How many people are being served by this hospital?** Enter the number of people being served by this hospital. Only the population directly served by the hospital being mitigated can be used. Documentation for the service population can come from the hospital, local planning office, or other creditable source.

**Provide the address of the nearest hospital capable of providing the same type of service:** Identify the nearest hospital capable of providing similar services as the hospital being mitigated.

**How many people are being served by the nearest hospital capable of providing the same type of service?** Enter the number of people served by the nearest hospital capable of providing the same service. Only the population directly served by the alternative hospital can be used. Documentation for the service population can come from the alternative hospital, local planning office, or other creditable source.

UTILITY

**Select the type of utility:** From the dropdown menu, select the type of utility that will be powered by the proposed generator.

**Number of customers directly served by the system:** Enter the number of the customers (people) directly connected to the location(s) that will be mitigated. The number of customers affected by the loss of service can be obtained from the entity, agency, or company providing the utility service. The documentation should be in the form of a letter from the utility on their letterhead. For multiple locations, specify the number of customers connected to each specific location.

OTHER

**Specify Facility Name:** Enter the name of the critical facility that will be mitigated.

**What is the Annual Operational Budget for this critical facility?** Enter the annual budget for the critical facility that is being mitigated. Documentation should include the annual budget for the building that is being mitigated. If the building houses multiple local agencies, the cumulative budget should be used. Alternately, if the annual budget is for an entire school district and one of the buildings is being mitigated, documentation should include how the annual budget was calculated for the single school building.

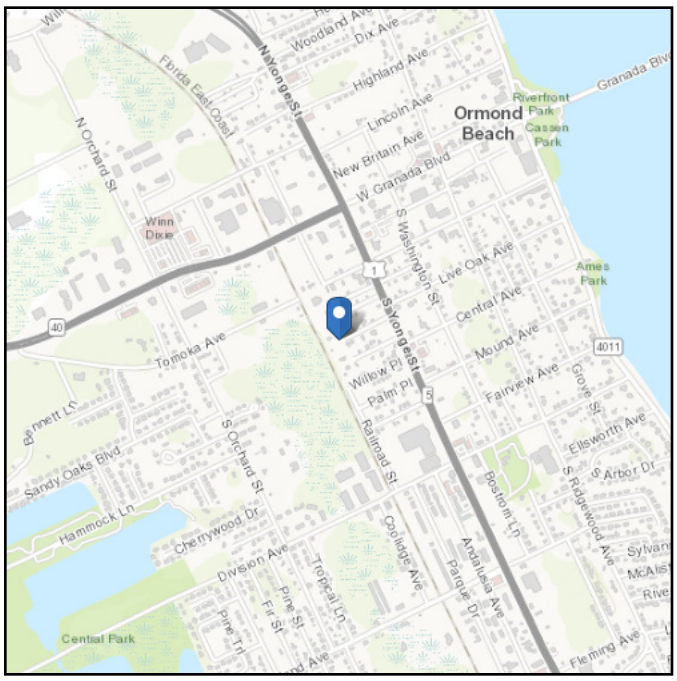
## Section V – Historical Damage Information

**Date of Event:** Enter the date of historical outage event.

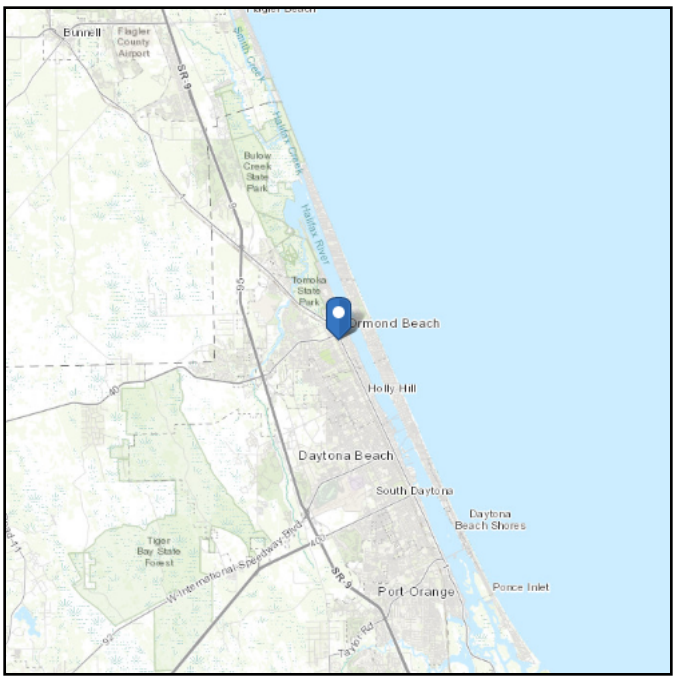
**Storm Name:** Enter the name given to the natural hazard event when damage occurred.

**Power Outage Duration (Days):** Enter the number of days the critical facility was impacted by the loss of service due to a power outage. Documentation should be in the form of a letter from the utility on their letterhead or from the entity or agency reporting the outages.

**Expense Description:** Describe any additional expenses incurred by the City or County while attending the emergency during each historic damage event. Documented expenses may include but are not limited to renting portable generators, chillers, overtime paid to personnel to attend the emergency, etc.



**Expense Cost ($):** Enter the total cost of the additional expenses incurred by the County or City.



# ASCE Hazards Report

**Address:**

## Wind

**Results:**

| | |
|---|---|
| Wind Speed | 126 Vmph |
| 10-year MRI | 79 Vmph |
| 25-year MRI | 91 Vmph |
| 50-year MRI | 101 Vmph |
| 100-year MRI | 111 Vmph |
| 300-year MRI | 126 Vmph |
| 700-year MRI | 136 Vmph |
| 1,700-year MRI | 146 Vmph |
| 3,000-year MRI | 152 Vmph |
| 10,000-year MRI | 163 Vmph |
| 100,000-year MRI | 189 Vmph |
| 1,000,000-year MRI | 211 Vmph |

Data Source: ASCE/SEI 7-22, Fig. 26.5-1A and Figs. CC.2-1–CC.2-4, and Section 26.5.2
Date Accessed: Fri Jun 13 2025

Value provided is 3-second gust wind speeds at 33 ft above ground for Exposure C Category, based on linear interpolation between contours. Wind speeds are interpolated in accordance with the 7-22 Standard. Wind speeds correspond to approximately a 15% probability of exceedance in 50 years (annual exceedance probability = 0.00333, MRI = 300 years). Values for 10-year MRI, 25-year MRI, 50-year MRI and 100-year MRI are Service Level wind speeds, all other wind speeds are Ultimate wind speeds.

Site is in a hurricane-prone region as defined in ASCE/SEI 7-22 Section 26.2. Glazed openings need not be protected against wind-borne debris.

The ASCE Hazard Tool is provided for your convenience, for informational purposes only, and is provided “as is” and without warranties of any kind. # Environmental & Historic Preservation Worksheet

For preliminary Environmental and Historic Preservation review conducted by the State Mitigation Technical Team

**Important**: The State of Florida Mitigation Technical Unit will conduct the Environmental and Historic Preservation (EHP) Review for your project and the following information is needed. Once a preliminary review of the application and worksheet is conducted, the assigned Environmental Specialist will reach out with any questions or needs for clarification.

**Note**: A completed EHP Worksheet will expedite the Technical Review. Completion of this worksheet does not guarantee additional information will not be required. If additional information or clarification is needed during application review, the reviewer will contact you.

## Requirements

The following information is the minimum amount of technical information required to complete the EHP review. Data collected in this document will provide reviewers with preliminary information necessary to evaluate potential environmental impacts.

All projects require an EHP review conducted by the technical team in order to achieve funding.

## Section I – Project General Information

| | |
|---|---|
| Project Name: City of Ormond Beach, Water Treatment Plant Generator Replacement | Worksheet completed by:<br>Name: Shawn Finley<br>Title: Assistant City Manager<br>Phone: 386-676-3582<br>Email: Shawn.Finley@ormondbeach.org |
| Sub-Applicant: | |

**For additional information and resources, please refer to FEMA's Environmental Planning and Historic Preservation checklist for Hazard Mitigation Assistance Application Reviews.**

## Section II – Project Location

*The table below allows data for up to 8 locations. If your project has more than 8 locations, you can either submit a second EHP Worksheet or attach a separate list providing the information requested below and in Section III.*

| ID | Project Location | Coordinates | *Age of Structure | Ground Disturbance? | Critical Action |
|---|---|---|---|---|---|
| 1. | 298 Tomoka Avenue, Ormond Beach, Florida 32174 | 29.280560, -81.062826 | 55 years | -Select- | -Select- |

## Section IV – Additional Information

Please use this page to expand on the information provided above or to include any additional information relevant to the proposed mitigation project.

## Section V – Minimum Required Supporting Documents Checklist

Below are the minimum supporting documents that each project needs in order to conduct an EHP Review. Please check each item off as they are uploaded into the application.

| | |
|---|---|
| Aerial Map | ✔ |
| Photographs | |
| FIRM/FIRMette | ✔ |
| Age Verification Documentation | |
| 1:24,000 Topographic Map | ✔ |

## Section VI – Additional Supporting Documents Checklist

Below are additional supporting documents that may be required in order to conduct an EHP Review. Please check each item off as they are uploaded into the application as applicable.

| | |
|---|---|
| Ground Disturbance Map | |
| Public Notice Draft | |
| USACE/FDEP Section 404 Permit | |
| Environmental Resource Permit (ERP) | |
| Upstream/Downstream Impact Letter | |

# ENVIRONMENTAL & HISTORIC PRESERVATION WORKSHEET INSTRUCTIONS

Refer to the instructions below to complete the Environmental and Historic Preservation Worksheet using the best available data.

## Section I: Project General Info

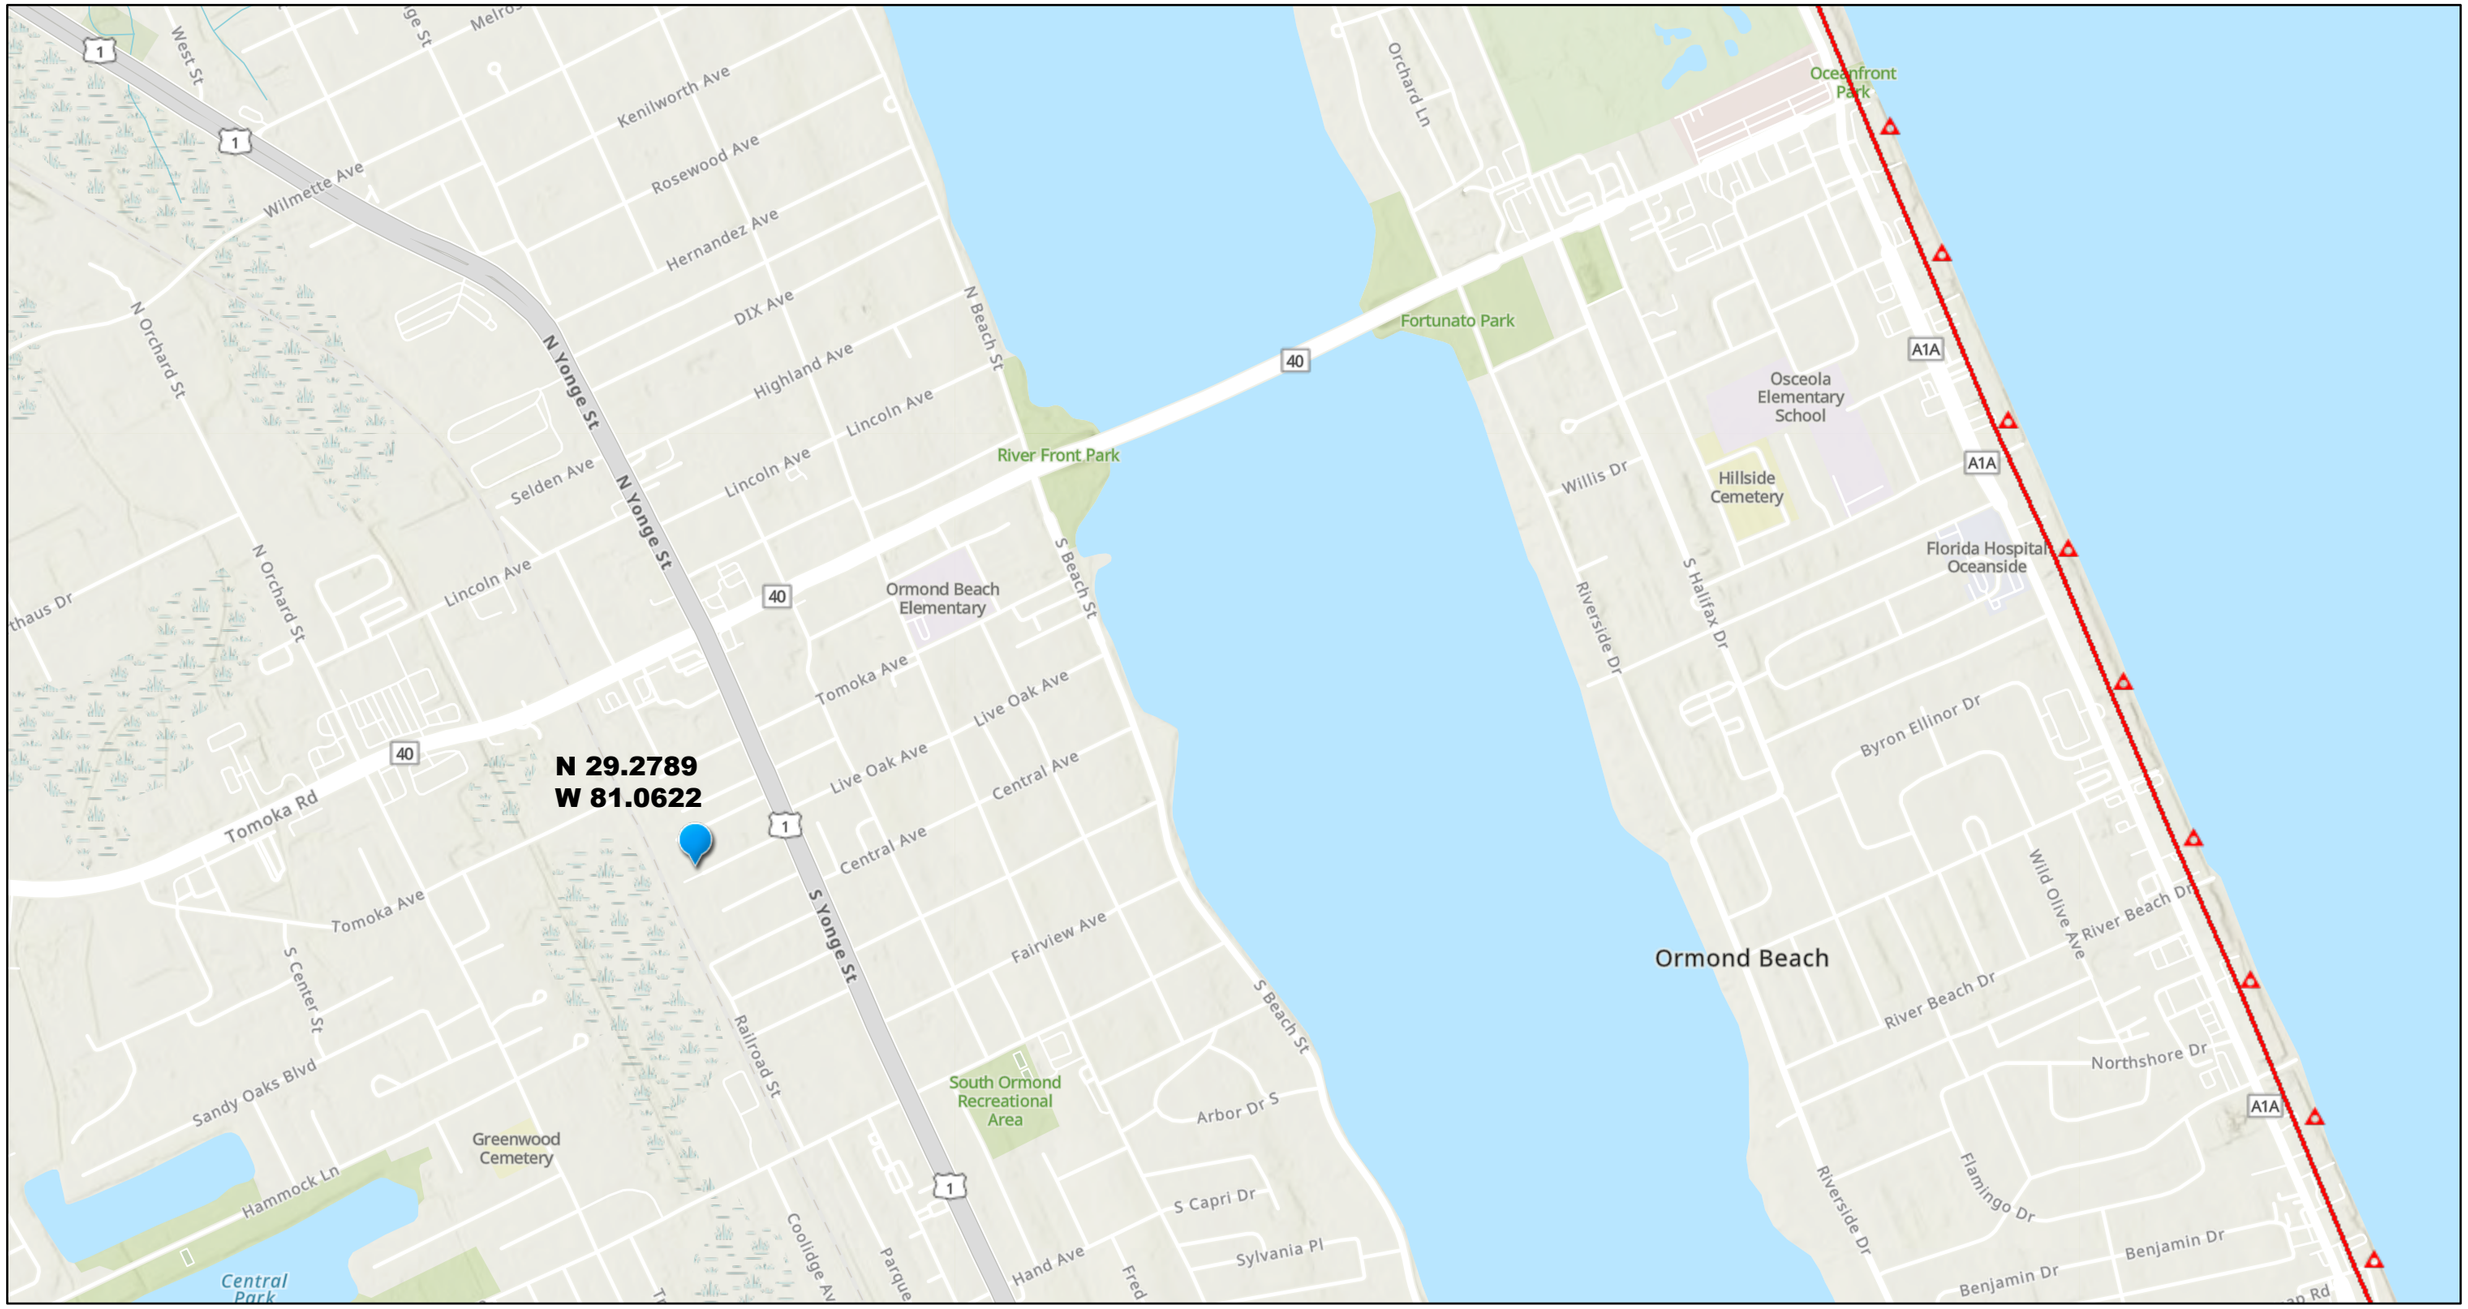
**Project Name:** Enter the name of the project title. This title should be the same as described on the application and other attachments.
**Sub-Applicant:** Enter your organization's legal name.
**Worksheet completed by:** Enter name, title, phone number, and email of the person completing this worksheet.

## Section II: Project Location

**Project Location:** Provide a full description of the specific geographical location(s) such as address(es).
**Coordinates:** Provide latitude and longitude coordinates in decimal degree format (Example: 12.345678, -87.654321) for the location of project activities.
**Age of Structure:** The age of the structure where work will be performed. If no structure is involved, put "N/A."
**Ground Disturbance:** Will any groundwork occur to implement the project? Common ground disturbing activities include installation of concrete pads, site preparations, running electrical conduits, trenching, directional boring, and excavation. If ground disturbing activities are occurring, a Ground Disturbance Map is required to be attached to the application. See Section IV instructions for more details.
**Critical Action**: Is the project a critical action. Critical actions are definite as an action for which even a slight change of flooding is too great. Activities related to a critical action must be protected to against a 500-year (0.2% annual chance) flood event. Examples of critical actions would be eligible generator projects or actions related to critical facilities.

## Section III: Environmental Details

**Flood Zone:** List all flood zones that the project activities will be within. Flood mapper: https://msc.fema.gov/portal/home.
**FIRM Panel:** List all FIRM Panel Number(s) that a location will be in.
**Preliminary Panel Available:** Is there a pending Preliminary FIRM Panel for the project area? Yes or No.
**Preliminary Panel #:** List all Preliminary FIRM Panel Number(s) that a location will be in.
**In a Wetland or Waterbody:** Is the project in a wetland or a body of water? Wetland Mapper: https://fwsprimary.wim.usgs.gov/wetlands/apps/wetlands-mapper/.
**Seaward of CCCL:** Does the project have activities seaward of the Coastal Construction Control Line (CCCL). CCCL Mapper: https://ca.dep.state.fl.us/mapdirect/?webmap=a8c9e92fbad5446d987a8dd4ee5dc5cc.



## Section V: Minimum Required Supporting Documents Checklist

**Aerial Map:** A good aerial map will contain a clear indication of where the project will be occurring and will include coordinates to the project area.
**Photographs:** Photos should be clear and represent the project area. Labels should indicate what the photos contain. Photos should show all sides of a structures if included in project activities.
**FIRM/FIRMette:** Project location should be clearly indicated on the map.
**Age Verification Documentation:** Documentation that shows the year the structure was built. As-builts or property appraiser website information are the most common forms of documentation.
**1:24,000 Topographic Map:** A topographic map with a scale of 1:24,000 with the project location outlined/ indicated.

## Section VI: Additional Supporting Documents Checklist

**Ground Disturbance Map:** Required for project that includes any ground disturbance. The map shall include activities clearly outlined, coordinates for ground disturbance, area dimensions, and depth of disturbance.
**Public Notice Draft:** Required for flood mitigation projects, critical actions in a Shaded X flood zone or greater, or any project type in a Special Flood Hazard Area (SFHA). Only a draft should be submitted with the application, the reviewer will reach out when it is the appropriate time to post. The template can be found under the Application Section at https://www.floridadisaster.org/dem/mitigation/hazard-mitigation-grant-program/.
**USACE/FDEP Section 404 Permit:** A Section 404 Permit or notice of No Permit Required (NPR) is needed for any project that is in or affects a wetland or body of water. Florida has 2 agencies that provide this permit, US Army Corps of Engineers and Florida Department of Environmental Protection. To determine which jurisdiction your project area falls into, use the following link. Please note that projects falling under multiple jurisdictions will require permits or NPRs from both agencies. https://fdep.maps.arcgis.com/apps/webappviewer/index.html?id=2cb8724cfd18408db80c8f2d7bb68a2e.
**Upstream/Downstream Impact Letter:** Drainage projects ready for construction require a letter from the Professional of Record stating if the project will have any upstream or downstream impacts.

# ASSURANCES - CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0042), Washington, DC 20503.

**PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.**

**NOTE:** Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the Awarding Agency. Further, certain Federal assistance awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this application.

2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the assistance; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.

3. Will not dispose of, modify the use of, or change the terms of the real property title, or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the Federal interest in the title of real property in accordance with awarding agency directives and will include a covenant in the title of real property aquired in whole or in part with Federal assistance funds to assure non-discrimination during the useful life of the project.

4. Will comply with the requirements of the assistance awarding agency with regard to the drafting, review and approval of construction plans and specifications.

5. Will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progress reports and such other information as may be required by the assistance awarding agency or State.

6. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.

7. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.

8. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).

9. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.

10. Will comply with all Federal statutes relating to non-discrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.

11. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal and federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.

12. Will comply with the provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

13. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333) regarding labor standards for federally-assisted construction subagreements.

14. Will comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.

15. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).

16. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

17. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).

18. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."

19. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.

# AUTHORIZING AGENT APPROVAL

For those entities applying for the Hazard Mitigation Grant Program (HMGP), assurance is needed to ensure that non-federal funds are, or will be, secured for the proposed action by the project start date. An Authorizing Agent's signature is needed to provide this. An Authorizing Agent is the chief elected official of a local government who has signature authority, such as a Chairperson of the Board of County Commissioners for a County, the Mayor of a municipality, or an elected Board Member for a private non-profit. Any entity may delegate this authority to a subordinate official by resolution of the governing body. If this is the case, Proof of Authorization must be provided as a separate attachment in Section VI of the relevant HMGP application in DEMES. This form must be fully completed, signed, and submitted into DEMES for an application to be received by FDEM. Applicants will be prompted for this form in the final step of the DEMES HMGP application. Ensure that the information provided here matches the relevant DEMES application. For questions, please email DEM_HazardMitigationGrantProgram@em.myflorida.com.

Summary

This is a request for the City Commission to award a bid to install CDBG Division Avenue North Side Sidewalk Improvements.

On January 7, 2025, with the approval of Resolution 2025-21, the City Commission approved amendments (fully executed 2/7/25) to the City's Subrecipient Agreements with Volusia County for CDBG FY 2021-22 and FY 2022-23 to redirect excess funding to the Division Avenue Sidewalk Improvements project as a Department of Housing and Urban Development (HUD) approved eligible activity.

This sidewalk project includes removing an existing 4' foot non-American Disabilities Act (ADA) deteriorated concrete sidewalk and replacing it with a new 5' foot ADA-compliant concrete sidewalk, including ADA-compliant detectable mats and curbing. This project will be in strict accordance with ADA requirements, the approved plans, specifications and Invitation to Bid. This project is located on the north side of Division Avenue from Bostrom Lane to South Ridgewood Avenue.

This project was advertised on April 20, 2025. On May 28, 2025, four bids were received, ranging from $56,100 to $140,070. The lowest bid was All Construction Group of North Florida, Inc., who submitted a base bid of $19,550 and included 2 bid alternates at $36,550, for a total bid of $56,100. The bid alternates provide for the project scope to be from Bostrom Lane to South Ridgewood Avenue.

Financial Impact

Funding for this project will come from CDBG FY 2022-23 and 2021-22 funds, in the amount of $40,305, which will be reimbursed by Volusia County. The remaining $15,795 will be funded from Fund 308-Transportation Fund. A budget amendment will be required if this item is approved.

Citizen Impact

The construction of this new sidewalk will have short-term impacts on the residents and the public while the project is being completed. Residents will be notified prior to the project starting. Following the project, citizens and visitors will be able to enjoy and utilize this walkway.

**RESOLUTION NO. 2025-106**

A RESOLUTION ACCEPTING THE BID OF ALL CONSTRUCTION GROUP OF NORTH FLORIDA, INC. REGARDING THE DIVISION AVENUE NORTH SIDE SIDEWALK IMPROVEMENTS PROJECT, UNDER BID NO. 2025-17; REJECTING ALL OTHER BIDS; AUTHORIZING THE EXECUTION OF A CONTRACT AND PAYMENT THEREFOR; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS,** the City advertised for bids (Bid No. 2025-17) regarding the Division Avenue north side (from Bostrom Lane to South Ridgewood Avenue) sidewalk improvements project ("Project") in accordance with Section 2-300, *Code of Ordinances,* and

**WHEREAS**, the appropriate City staff members have reviewed the four (4) bids received and have determined that the bid submitted by All Construction Group of North Florida, Inc. with a base bid of $19,550.00 plus bid alternate #1 at $14,400.00, plus bid alternate #2 at $22,150.00 for a total bid in the amount of $56,100.00 is the lowest responsible and responsive bid (a copy of said bid being attached hereto and incorporated herein by reference), and

**WHEREAS,** the City Manager has certified that funds have been appropriated to the credit of the Sidewalk Repair Fund for the Project and have not been appropriated for any other purpose, and

**WHEREAS,** the City Commission concurs in the said determination and recommendation, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE.** The bid submitted by All Construction Group of North Florida, Inc. to provide services for the Project at a cost not to exceed $56,100.00 is hereby accepted.

**SECTION TWO.** All other bids to provide services for the Project are hereby rejected upon the execution of a contract with

**SECTION THREE.** The Mayor and the City Manager are hereby authorized and directed to execute a contract between the City and All Construction Group of North Florida, Inc. for the performance of the Project at the said price, and to pay the cost therefor from the Sidewalk Repair Fund.

**SECTION FOUR.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025.**

**BID**

CONTRACTORS NAME All Construction Group of North FL, Inc. LICENSE NO. PROJECT

IDENTIFICATION: **CDBG – DIVISION AVENUE NORTH SIDE SIDEWALK IMPROVEMENTS**

CONTRACT IDENTIFICATION AND NUMBER: Bid No. **2025-17**

THIS BID IS SUBMITTED TO:
(Name and Address of Owner)

City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174

1. The undersigned BIDDER proposes and agrees, if this Bid is accepted, to enter into an Agreement with OWNER in the form included in the Contract Documents to complete all Work as specified or indicated in the Contract Documents for the Contract Price and within the Contract Time indicated in this Bid and in accordance with the Contract Documents.

2. BIDDER certifies that he has investigated the requirements to do business in the jurisdiction where the project is located, and that he is either qualified to do business or will obtain such prequalification prior to award of the contract.

3. BIDDER accepts all of the terms and conditions of the Instructions to Bidders (Section 00100) including, without limitation, those dealing with the disposition of Bid Security, Public Entity Crimes, and Minority Policies. This Bid will remain open for 90 days after the day of Bid opening. BIDDER will sign the Agreement and submit the Contract security and other documents required by the Contract Documents within ten (10) days after the date of OWNER'S Notice of Award.

4. In submitting this Bid, BIDDER represents, as more fully set forth in the Agreement, that:

(a) BIDDER has examined copies of all the Contract Documents and of the following addenda:

| Date | Number |
|---|---|
| 5/19/2025 | Addendum No.1 |
| | |
| | |
| | |

(receipt of all of which is hereby acknowledged) and also copies of the Advertisement to Bid and the Instructions to Bidders;

(b) BIDDER has examined the site and locality where the Work is to be performed, the legal requirements (federal, state and local laws, ordinances, rules and regulations) and the conditions affecting cost, progress or performance of the Work and has made such independent investigations as BIDDER deems necessary.

(c) This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; BIDDER has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid; BIDDER has not solicited or induced any person, firm or a corporation to refrain from bidding; and BIDDER has not sought by collusion to obtain for himself any advantage over any other Bidder or over OWNER; and

5. BIDDER will complete the Work for the following price(s):

3. Install from Roosevelt Drive to South Ridgewood Avenue Right of Way Driveway Aprons at 6" depth *Approximately 225 SF* Includes – Layout, Excavation, Compacted Base, 6" - 3,000 PSI Concrete Complete Restoration (including Bahia sod) — LS — $ 3,607.75

4. Install Two (2) ADA Detectable Warning Mats (FDOT Approved) from Roosevelt Drive to South Ridgewood Avenue — LS — $ 679.89

TOTAL BID ALTERNATE 2 $ 22,150.00 (Figures)

twenty two thousand one hundred fifty dollars and no cents (Words)

*** Bidder is responsible to verify all takeoffs as this is a lump sum bid. Bid in accordance with the plans, scope and specifications.**

**TOTAL FOR BASE BID:** $ 19,550.00

**TOTAL BID ALTERNATE 1:** $ 14,400.00

**TOTAL BID ALTERNATE 2:** $ 22,150.00

**Scope of Work**

The work consists of removing an existing 4' foot non-ADA deteriorated concrete sidewalk and replacing it with a new 5' foot ADA compliant concrete sidewalk, including ADA compliant detectable mats and curbing in strict accordance with the American Disabilities Act (ADA) requirements on the north side of Division Avenue from Bostrom Lane to South Ridgewood Avenue per the approved plans, specifications and Invitation to Bid. A bid alternate #1 section from east side of South Washington Street sidewalk to Roosevelt Drive and bid alternate #2 section from Roosevelt Drive to South Ridgewood Avenue, will be included if sufficient funding is available. All excavated material must be removed from the project sites. The City will also be responsible to contract with a material testing company but the contractor responsibility to coordinate with them to do the testing. Contractor is responsible to layout/ stake all proposed improvements for City approval **prior** to construction. **Note: Proposed cross-slopes can't exceed 2%, and running slopes must be less than 5%. All new concrete will be flush with; or feathered into existing grade as to not create tripping hazards.**

*This is a federally assisted project and is subject to Federal Labor Standards which include, the Davis-Bacon Act (payment of prevailing wage rates) and the Copeland Act (anti-kickback of wages & submission of weekly certified payroll reports), as well as other provisions including 24 CFR 85.36 (bonding requirements), and Section 3 & M/WBE. Laborers and mechanics employed by primary contractors and sub-contractors performing construction work on this project shall be paid wages at rates not less than the prevailing rates as determined by the Secretary of Labor in accordance with the Davis-Bacon Act. The prime contractor is responsible for the enforcement of wage compliance and support documentation for the duration of the project and may be held liable for wage restitution. The applicable information regarding the laws and regulations stated above are included in the bid packet.*

BIDDER acknowledges that the quantities are not guaranteed and final payment will be based on actual quantities determined as provided in the Contract Documents.

BIDDER agrees that the Work will be substantially completed within **60** calendar days after the date when the Contract Time commences to run, and completed within **90** calendar days after the date when the Contract Time commences to run.

BIDDER recognizes that time is of the essence to complete this Project and that OWNER will suffer financial loss if the Work is not substantially complete within the time specified above, plus any extensions thereof allowed in accordance with Article 12 of the General Conditions. The BIDDER also recognizes the delays, expense and difficulties involved in proving, in a legal or arbitration proceeding, the actual loss suffered by OWNER if the Work is not substantially complete on time. Accordingly, instead of requiring any such proof, OWNER has determined and BIDDER agrees to accept that as liquidated damages for delay (but not as a penalty) CONTRACTOR shall pay OWNER **Three Hundred Dollars ($300.00)** for each calendar day that expires after the time specified above for substantial completion until the Work is substantially complete. After substantial completion, if CONTRACTOR shall neglect, refuse or fail to complete the remaining Work within the time specified above for completion and readiness for final payment or any proper extension thereof granted by OWNER, CONTRACTOR shall pay the OWNER an amount equal to all actual expenses incurred by the OWNER as a direct result of the CONTRACTOR'S negligence, refusal, or failure to so complete the remaining work. In the event the CONTRACTOR is terminated or abandons the work prior to the scheduled date for final completion, the CONTRACTOR may be liable for both liquidated damages attributable to delay and for excess completion costs.

6. The following documents are attached to and made a condition of this Bid:

   (a) Required Bid Security in the form of

   (1) a certified check drawn in favor of the City of Ormond Beach in the amount of 5 percent of the total bid; or

   (2) a Bid Bond in the amount of 5 percent of the total bid.

   (b) Equipment, Material, and Subcontractors List

   (c) All information required by the Trench Safety Act (Part VI, Chapter 553, Florida Statutes).

   (d) Drug Free Workplace Certificate

   (e) Conflict, Non-Conflict of Interest, Litigation Statement

   (f) Verification of Employment Status Using E-Verify System

   (g) Affidavit of Compliance F.S. 287.138 Contracting with Foreign Entities of Concern

   (h) Human Trafficking Affidavit, Section 787.06, Florida Statutes

(i) **CDBG Requirements and Supplemental Conditions**

7. Communications to the BIDDER concerning this Bid shall be addressed to:

EQUIPMENT AND SUBCONTRACTORS LIST

List the names of the manufacturers whose product is proposed for use. No more than one manufacturer's name shall be inserted for each item of material and/or equipment listed. Failure to list materials and equipment supplier may result in the Bid being rejected as incomplete and nonresponsive. If any Subcontractors are proposed to be used for any portions of the Work, the names, addresses, phone numbers and work classifications of each such Subcontractor must be listed. The failure to list all Subcontractors proposed for the work may result in the Bid being rejected as incomplete and nonresponsive. If more than one manufacturer or subcontractor is listed, selection will be made by the OWNER. If none is listed, those listed as the "Basis for Design" will be used.

Materials and Equipment:

| Item | Supplier |
|---|---|
| Form Boards | Home Depot |
| Limerock Base (as needed) | Gravelshop.com |
| 3,000 PSI Concrete | SMR Concrete |
| ADA Mats (FDOT Approved) | Ferguson Waterworks |
| Bahia Sod | A1-Sod |
| | |
| | |
| | |

The City of Ormond Beach reserves the right to require any bidder to submit such evidence of qualifications as it may deem necessary and may consider evidence available concerning the financial and other qualifications and abilities of a Contractor. Failure to provide all required information may result in the proposal being **rejected** as nonresponsive. The minimum qualifications for this project are as follows:

1. The contractor must have a minimum five (5) years-experience installing projects of a similar scope in nature with verifiable references in the following areas:

## TRENCH SAFETY STANDARDS

If this project includes trench excavation in excess of five (5) feet in depth, the following trench safety standards will be in effect during the period of construction of the project:

The Occupational Safety and Health Administration's excavation safety standards, 29 C.F.R.s. 1926.650 Subpart P, and any regulation promulgated there under are hereby incorporated as the standard for this project.

The Bidder hereby certifies that the Contractor performing the trench excavation will comply with the applicable trench safety standards.

The Bidder further certifies that the cost (which is included in his unit cost) of compliance with applicable trench safety standards is:

| ITEM | Estimated Quantity | Units | Unit Price | Total Estimated Price |
|---|---|---|---|---|
| 1. Trench Excavation | N/A | L.F. | | |
| 2. Sheeting/Shoring | N/A | S.F. | | |

## DRUG-FREE WORKPLACE CERTIFICATION

**Identical Or "Tie" Bids**: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

3) Give each employee that engages in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5 ) calendar days after such conviction.

5) Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

## VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.
2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.
3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.
4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.
5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

Summary

This is a request for the City Commission to award a bid to install the CDBG Central Park Trail project.

An application was submitted in September 2024 to Volusia County during an open CDBG cycle. In December 2024, Volusia County approved the application for funding in the amount of $343,259, with a total budget estimate of $410,000, and issued an amendment adding the project to the City's CDBG FY 2024-25 program year. Resolution 2025-21, adopted by the City Commission on January 7, 2025, approved the execution of the amendment adding the project to the City's CDBG FY 2024-25 program.

The project is located at Ormond Beach Environmental Discovery Center at 601 Division Avenue in Ormond Beach. The proposed 8' foot-wide concrete trail (270' lineal feet) will be on the north side of the existing retention pond and connect to the existing sidewalk near the Discovery Center. From the east end of the concrete trail, an 8 foot-wide wood boardwalk system (820 lineal feet) will allow visitors to walk through the wooded areas before connecting to Division Avenue. This boardwalk will line up with the existing stripped crosswalk and existing southern boardwalk trail (map attached). A new concrete American Disabilities Act (ADA) curb transition will also be installed. This project will be in strict accordance with the ADA requirements, and per the approved plans, specifications and Invitation to Bid.

This project was advertised on May 11, 2025. On June 10, 2025, eleven bids were received, ranging from $220,925 to $397,040. The lowest bidder was AJ General Construction Services, Inc.; however, their project references only listed 3 sidewalk projects and 80% of this project is the construction of a wood boardwalk. The City requested additional projects with references

relating to wood boardwalk construction and 1 project was submitted relating to a stormwater pond weir with steel sheet pile and no project references. Due to the information provided, the staff recommends the next lowest bidder, Paul Culver Construction, Inc., who submitted a base bid of $232,163.

Financial Impact

Funding for this project will come from CDBG FY 2024-25 funds, in the amount of $232,163, which will be reimbursed by Volusia County.

Citizen Impact

The construction of this new sidewalk and wood boardwalk will have no impact on the residents and the public while the project is being completed. Afterwards, it will be available for the citizens and residents to enjoy and utilize these walk ways.

**RESOLUTION NO. 2025-107**

A RESOLUTION ACCEPTING A BID FROM PAUL CULVER CONSTRUCTION, INC. FOR CONSTRUCTION SERVICES REGARDING THE CENTRAL PARK TRAIL PROJECT, UNDER BID NO. 2025-48; AUTHORIZING THE EXECUTION OF A CONTRACT AND PAYMENT THEREFOR; REJECTING ALL OTHER BIDS; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS**, the City advertised for bids (Bid No. 2025-48) regarding construction of a boardwalk in Central Park ("the Project") pursuant to section 2-300, *Code of Ordinances*, and

**WHEREAS**, the City's professional staff have reviewed the eleven bids received and have determined that the lowest bid submitted by AJ General Construction Services, Inc. in the amount of $220,925.00 was non responsive as it did not list any project experience for construction of a wood boardwalk, and

**WHEREAS,** Paul Culver Construction, Inc. with a bid in the amount of $232,163.00 is the next lowest responsible and responsive bid (a copy of said bid being attached hereto and incorporated herein by reference), and

**WHEREAS,** the City Manager has certified that this Project will be paid for using Community Development Block Grant funds and that these funds have not been appropriated for any other purpose, and

**WHEREAS,** the City Commission concurs with the foregoing recommendations, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE.** The bid submitted by Paul Culver Construction, Inc. to provide the service in the amount of $232,163.00 is hereby accepted.

**SECTION TWO.** All other bids relative to the aforedescribed Project shall be deemed rejected upon the execution of a contract with Paul Culver Construction, Inc.

**SECTION THREE.** The Mayor and the City Manager are hereby authorized and directed to execute a contract with Paul Culver Construction, Inc. for construction services at the said price and to pay the cost thereof using Community Development Block Grant funds.

**SECTION FOUR.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025.**

**BID**

CONTRACTORS NAME Paul Culver Construction LICENSE NO. CGC059149

PROJECT IDENTIFICATION: **CDBG –CENTRAL PARK TRAIL**

CONTRACT IDENTIFICATION AND NUMBER: Bid No. **2025-48**

THIS BID IS SUBMITTED TO:
(Name and Address of Owner)

City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174

1. The undersigned BIDDER proposes and agrees, if this Bid is accepted, to enter into an Agreement with OWNER in the form included in the Contract Documents to complete all Work as specified or indicated in the Contract Documents for the Contract Price and within the Contract Time indicated in this Bid and in accordance with the Contract Documents.

2. BIDDER certifies that he has investigated the requirements to do business in the jurisdiction where the project is located, and that he is either qualified to do business or will obtain such prequalification prior to award of the contract.

3. BIDDER accepts all of the terms and conditions of the Instructions to Bidders (Section 00100) including, without limitation, those dealing with the disposition of Bid Security, Public Entity Crimes, and Minority Policies. This Bid will remain open for 90 days after the day of Bid opening. BIDDER will sign the Agreement and submit the Contract security and other documents required by the Contract Documents within ten (10) days after the date of OWNER'S Notice of Award.

4. In submitting this Bid, BIDDER represents, as more fully set forth in the Agreement, that:

(a) BIDDER has examined copies of all the Contract Documents and of the following addenda:

| Date | Number |
|---|---|
| 5/30/2025 | 1 |
| 6/4/2025 | 2 |
| | |
| | |

(receipt of all of which is hereby acknowledged) and also copies of the Advertisement to Bid and the Instructions to Bidders;

(b) BIDDER has examined the site and locality where the Work is to be performed, the legal requirements (federal, state and local laws, ordinances, rules and regulations) and the conditions affecting cost, progress or performance of the Work and has made such independent investigations as BIDDER deems necessary.

(c) This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; BIDDER has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid; BIDDER has not solicited or induced any person, firm or a corporation to refrain from bidding; and BIDDER has not sought by collusion to obtain for himself any advantage over any other Bidder or over OWNER; and

5. BIDDER will complete the Work for the following price(s):

## BID SCHEDULE

| Item No. | Description | Unit | Total Estimated Price |
|---|---|---|---|
| 1. | Removal of vegetation, 11-foot width for Installation of the proposed wood boardwalk, site preparations for the installation of the 8-foot-wide concrete sidewalk & removal of existing concrete curb transition Includes Removal and Disposal | LS | $ 52,875.00 |
| 2. | Install 8-foot-wide ADA concrete sidewalk at 4" depth *Approximately 2,160 SF for Sidewalk* Includes – Layout, Excavation, Compacted Base, 4" - 3,000 PSI Concrete | LS | $ 28,200.00 |
| 3. | Install 8-foot-wide wood boardwalk Per Detail on sheet 4 of 4 *Approximately 820 LF* Includes – Layout, Materials, Installation | LS | $ 138,423.00 |
| 4. | Install on ADA concrete curb transition With ADA mat, see Drawing Sheet 2 of 4 Includes – Layout, Excavation, Compacted | LS | $ 5,300.00 |
| 5. | Install Bahia Sod & Includes Complete Restoration of all disturbed sod areas | LS | $ 7,365.00 |
| TOTAL BASE BID | | | $ 232,163.00 |

Two Hundred Thirty Two Thousand, One Hundred Sixty Three Dollars 00/100 (Figures)

(Words)

*** Bidder is responsible to verify all takeoffs as this is a lump sum bid. Bid in accordance with the plans, scope and specifications.**

## Scope of Work

The project is located at Ormond Beach Environmental Discovery Center at 601 Division Avenue in Ormond Beach. The proposed 8' foot wide concrete trail (270' lineal feet) will be on the north side of the existing retention pond and connect to the existing sidewalk near the Discovery Center. From the east end of the concrete trail an 8' foot wide wood boardwalk system (820 lineal feet) will snake through the woods and will connect to Division Avenue. This boardwalk will line up with the existing stripped crosswalk and existing southern boardwalk trail, see drawing sheet 2 of 4. A new concrete ADA curb transition will be installed per the plans. This project will be in strict accordance with the American Disabilities Act (ADA) requirements, and per the approved plans, specifications and Invitation to Bid. All excavated material must be removed from the project sites. The City will also be responsible to contract with a material testing company but the contractor responsibility to coordinate with them to do the testing. Contractor is responsible to layout/ stake all proposed improvements for City approval **prior** to construction. **Note: Proposed cross-slopes can't exceed 2%, and running slopes must be less than 5%. All new concrete will be flush with; or feathered into existing grade as to not create tripping hazards.**

*This is a federally assisted project and is subject to Federal Labor Standards which include, the Davis-Bacon Act (payment of prevailing wage rates) and the Copeland Act (anti-kickback of wages & submission of weekly certified payroll reports), as well as other provisions including 24 CFR 85.36 (bonding requirements), and Section 3 & M/WBE. Laborers and mechanics employed by primary contractors and sub-contractors performing construction work on this project shall be paid wages at rates not less than the prevailing rates as determined by the Secretary of Labor in accordance with the Davis-Bacon Act. The prime contractor is responsible for the enforcement of wage compliance and support documentation for the duration of the project and may be held liable for wage restitution. The applicable information regarding the laws and regulations stated above are included in the bid packet.*

BIDDER acknowledges that the quantities are not guaranteed and final payment will be based on actual quantities determined as provided in the Contract Documents.

BIDDER agrees that the Work will be substantially completed within **90** calendar days after the date when the Contract Time commences to run, and completed within **120** calendar days after the date when the Contract Time commences to run.

BIDDER recognizes that time is of the essence to complete this Project and that OWNER will suffer financial loss if the Work is not substantially complete within the time specified above, plus any extensions thereof allowed in accordance with Article 12 of the General Conditions. The BIDDER also recognizes the delays, expense and difficulties involved in proving, in a legal or arbitration proceeding, the actual loss suffered by OWNER if the Work is not substantially complete on time. Accordingly, instead of requiring any such proof, OWNER has determined and BIDDER agrees to accept that as liquidated damages for delay (but not as a penalty) CONTRACTOR shall pay OWNER **Three Hundred Dollars ($300.00)** for each calendar day that expires after the time specified above for substantial completion until the Work is substantially complete. After substantial completion, if CONTRACTOR shall neglect, refuse or fail to complete the remaining Work within the time specified above for completion and readiness for final payment or any proper extension

thereof granted by OWNER, CONTRACTOR shall pay the OWNER an amount equal to all actual expenses incurred by the OWNER as a direct result of the CONTRACTOR'S negligence, refusal, or failure to so complete the remaining work. In the event the CONTRACTOR is terminated or abandons the work prior to the scheduled date for final completion, the CONTRACTOR may be liable for both liquidated damages attributable to delay and for excess completion costs.

6. The following documents are attached to and made a condition of this Bid:

   (a) Required Bid Security in the form of

   (1) a certified check drawn in favor of the City of Ormond Beach in the amount of 5 percent of the total bid; or

   (2) a Bid Bond in the amount of 5 percent of the total bid.

   (b) Equipment, Material, and Subcontractors List

   (c) All information required by the Trench Safety Act (Part VI, Chapter 553, Florida Statutes).

   (d) Drug Free Workplace Certificate

   (e) Conflict, Non-Conflict of Interest, Litigation Statement

   (f) Verification of Employment Status Using E-Verify System

   (g) Affidavit of Compliance F.S. 287.138 Contracting with Foreign Entities of Concern

   (h) Human Trafficking Affidavit, Section 787.06, Florida Statutes

   (i) **CDBG Requirements and Supplemental Conditions**

7. Communications to the BIDDER concerning this Bid shall be addressed to:

EQUIPMENT AND SUBCONTRACTORS LIST

List the names of the manufacturers whose product is proposed for use. No more than one manufacturer's name shall be inserted for each item of material and/or equipment listed. Failure to list materials and equipment supplier may result in the Bid being rejected as incomplete and nonresponsive. If any Subcontractors are proposed to be used for any portions of the Work, the names, addresses, phone numbers and work classifications of each such Subcontractor must be listed. The failure to list all Subcontractors proposed for the work may result in the Bid being rejected as incomplete and nonresponsive. If more than one manufacturer or subcontractor is listed, selection will be made by the OWNER. If none is listed, those listed as the "Basis for Design" will be used.

Materials and Equipment:

| Item | Supplier |
|---|---|
| Form Boards | Manning Supply |
| Limerock Base (as needed) | Drewry Site Development |
| 3,000 PSI Concrete | Titan |
| ADA Mats (FDOT Approved) | White Cap |
| Bahia Sod | R&R Sod Farm |
| Pressure Treated Lumber | Manning Supply |
| Stainless Steel Hardware | Manning Supply |
| | |

The City of Ormond Beach reserves the right to require any bidder to submit such evidence of qualifications as it may deem necessary and may consider evidence available concerning the financial and other qualifications and abilities of a Contractor. Failure to provide all required information may result in the proposal being **rejected** as nonresponsive. The minimum qualifications for this project are as follows:

1. The contractor must have a minimum five (5) years-experience installing projects of a similar scope in nature with verifiable references in the following areas:

## TRENCH SAFETY STANDARDS

If this project includes trench excavation in excess of five (5) feet in depth, the following trench safety standards will be in effect during the period of construction of the project:

The Occupational Safety and Health Administration's excavation safety standards, 29 C.F.R.s. 1926.650 Subpart P, and any regulation promulgated there under are hereby incorporated as the standard for this project.

The Bidder hereby certifies that the Contractor performing the trench excavation will comply with the applicable trench safety standards.

The Bidder further certifies that the cost (which is included in his unit cost) of compliance with applicable trench safety standards is:

| ITEM | Estimated Quantity | Units | Unit Price | Total Estimated Price |
|---|---|---|---|---|
| 1. Trench Excavation | n/a | L.F. | | |
| 2. Sheeting/Shoring | n/a | S.F. | | |

## DRUG-FREE WORKPLACE CERTIFICATION

**Identical Or "Tie" Bids**: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

3) Give each employee that engages in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5 ) calendar days after such conviction.

5) Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

## VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.
2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.
3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.
4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.
5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

**POWER OF ATTORNEY**

# Great Midwest Insurance Company

KNOW ALL MEN BY THESE PRESENTS, that **GREAT MIDWEST INSURANCE COMPANY**, a Texas Corporation, with its principal office in Houston, TX, does hereby constitute and appoint: Dale A. Belis, Marilyn Ann Blome, Donald Bramlage, Edward M. Clark, Christian Collins, F. Danny Gann, David R. Hoover, Jarrett Merlucci, Laura D. Mosholder, Charles J. Nielson, Jessica P. Reno, Audria R. Ward, Edward T. Ward, Kevin Wojtowicz, Richard Zimmerman, Charles D. Nielson, Brett M. Rosenhaus

its true and lawful Attorney(s)-In-Fact to make, execute, seal and deliver for, and on its behalf as surety, any and all bonds, undertakings or other writings obligatory in nature of a bond.

This authority is made under and by the authority of a resolution which was passed by the Board of Directors of **GREAT MIDWEST INSURANCE COMPANY**, on the 1st day of April, 2025 as follows:

Resolved, that the President, or any officer, be and hereby is, authorized to appoint and empower any representative of the Company or other person or persons as Attorney-In-Fact to execute on behalf of the Company any bonds, undertakings, policies, contracts of indemnity or other writings obligatory in nature of a bond not to exceed One-Hundred Million dollars ($100,000,000.00), which the Company might execute through its duly elected officers, and affix the seal of the Company thereto. Any said execution of such documents by an Attorney-In-Fact shall be as binding upon the Company as if they had been duly executed and acknowledged by the regularly elected officers of the Company. Any Attorney-In-Fact, so appointed, may be removed in the Company's sole discretion and the authority so granted may be revoked as specified in the Power of Attorney.

Resolved, that the signature of the President and the seal of the Company may be affixed by electronic mail on any power of attorney granted, and the signature of the Secretary, and the seal of the Company may be affixed by electronic mail to any certificate of any such power and any such power or certificate bearing such electronic signature and seal shall be valid and binding on the Company. Any such power so executed and sealed and certificate so executed and sealed shall, with respect to any bond of undertaking to which it is attached, continue to be valid and binding on the Company.

IN WITNESS THEREOF, **GREAT MIDWEST INSURANCE COMPANY**, has caused this instrument to be signed by its President, and its Corporate Seal to be affixed this 8th day of April, 2025.

Summary

This is a request for the City Commission to award a bid to install CDBG Military Boulevard Sidewalk Improvements.

On June 4, 2024, Resolution 2024-88, the City Commission approved the Annual Plan and the subsequent execution of the Subrecipient Agreement with Volusia County (fully executed 12/5/2024) for CDBG FY 2024-25 funding, which included the Military Boulevard Sidewalk Improvements as a Department of Housing and Urban Development (HUD) approved eligible activity.

The Military Boulevard sidewalk project consists of removing an existing 2'-6" non-American Disabilities Act (ADA) deteriorated concrete sidewalk and replacing it with a new 5' foot ADA-compliant concrete sidewalk, including ADA-compliant detectable mats and curbing on the west & east sides of Military Boulevard, from Woodlands Boulevard to Vanderbilt Drive. Certain sections of Military Boulevard do not have continuous sidewalks, and these areas will be added to provide a continuous sidewalk connection where applicable. This project will be in strict accordance with ADA requirements, the approved plans, specifications and Invitation to Bid.

This project was advertised on April 20, 2025. On May 22, 2025, nine bids were received, ranging from $218,651.49 to $491,000. The low bidder was Drewry Site Development, who submitted a base bid of $218,651.49.

Financial Impact

Funding for this project will come from CDBG FY 2024-25 funds, in the amount $169,544, which will be reimbursed by Volusia County. The remaining $49,107.49 will come from Fund 308-Transportation Fund.

Citizen Impact

The construction of this new sidewalk will have short-term impacts on the residents and the public while the project is being completed. Residents will be notified prior to the project starting. Following the project, citizens and visitors will be able to enjoy and utilize this walkway.

**RESOLUTION NO. 2025-108**

A RESOLUTION ACCEPTING A BID FROM DREWRY SITE DEVELOPMENT, LLC FOR CONSTRUCTION SERVICES REGARDING THE MILITARY BOULEVARD SIDEWALK IMPROVEMENTS PROJECT, UNDER BID NO. 2025-32; AUTHORIZING THE EXECUTION OF A CONTRACT AND PAYMENT THEREFOR; REJECTING ALL OTHER BIDS; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS**, the City advertised for bids (Bid No. 2025-32) regarding construction services for the Military Boulevard sidewalk improvements project ("the Project") pursuant to section 2-300, *Code of Ordinances*, and

**WHEREAS**, the City's professional staff have reviewed the bids received and have determined that the bid submitted by Drewry Site Development, LLC with a bid in the amount of $218,651.49 is the lowest responsible and responsive bid (a copy of said bid being attached hereto and incorporated herein by reference), and

**WHEREAS,** the City Manager has certified that funds for the Project have been appropriated to the credit of the Sidewalk Repair Fund and that these funds have not been appropriated for any other purpose, and

**WHEREAS,** the City Commission concurs with the foregoing recommendations, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE.** The bid submitted by Drewry Site Development, LLC to perform the Project at a total cost not to exceed $218,651.49 is hereby accepted.

**SECTION TWO.** All other bids relative to the aforedescribed Project shall be deemed rejected upon the execution of a contract with Drewry Site Development, LLC.

**SECTION THREE.** The Mayor and the City Manager are hereby authorized and directed to execute a contract with Drewry Site Development, LLC for the performance of the Project at the said price, and to pay the cost thereof from the Sidewalk Repair Fund.

**SECTION FOUR.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025.**

**BID**

CONTRACTORS NAME Drewry Site Development LICENSE NO. CGC1532583

PROJECT IDENTIFICATION: **CDBG –MILITARY BOULEVARD SIDEWALK IMPROVEMENTS**

CONTRACT IDENTIFICATION AND NUMBER: Bid No. **2025-32**

THIS BID IS SUBMITTED TO:
(Name and Address of Owner)

City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174

1. The undersigned BIDDER proposes and agrees, if this Bid is accepted, to enter into an Agreement with OWNER in the form included in the Contract Documents to complete all Work as specified or indicated in the Contract Documents for the Contract Price and within the Contract Time indicated in this Bid and in accordance with the Contract Documents.

2. BIDDER certifies that he has investigated the requirements to do business in the jurisdiction where the project is located, and that he is either qualified to do business or will obtain such prequalification prior to award of the contract.

3. BIDDER accepts all of the terms and conditions of the Instructions to Bidders (Section 00100) including, without limitation, those dealing with the disposition of Bid Security, Public Entity Crimes, and Minority Policies. This Bid will remain open for 90 days after the day of Bid opening. BIDDER will sign the Agreement and submit the Contract security and other documents required by the Contract Documents within ten (10) days after the date of OWNER'S Notice of Award.

4. In submitting this Bid, BIDDER represents, as more fully set forth in the Agreement, that:

(a) BIDDER has examined copies of all the Contract Documents and of the following addenda:

| Date | Number |
|---|---|
| 05/14/2025 | 1 |
| | |
| | |
| | |

(receipt of all of which is hereby acknowledged) and also copies of the Advertisement to Bid and the Instructions to Bidders;

(b) BIDDER has examined the site and locality where the Work is to be performed, the legal requirements (federal, state and local laws, ordinances, rules and regulations) and the conditions affecting cost, progress or performance of the Work and has made such independent investigations as BIDDER deems necessary.

(c) This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; BIDDER has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid; BIDDER has not solicited or induced any person, firm or a corporation to refrain from bidding; and BIDDER has not sought by collusion to obtain for himself any advantage over any other Bidder or over OWNER; and

5. BIDDER will complete the Work for the following price(s):

## BID SCHEDULE

| Item No. | Description | Unit | Total Estimated Price |
|---|---|---|---|
| 1. | Demolition of Military Blvd. from Woodlands Boulevard to Vanderbilt Drive for Existing 2'-6" Sidewalk, Driveway Aprons, Curbing & Vegetation removals (see drawings for complete removals) *Approximately 9,812 SF & 394 LF Curbing* Includes Removal and Disposal | LS | $ 48,077.82 |
| 2. | Install on Military Blvd. from Woodlands Boulevard to Vanderbilt Drive for 5' ADA Sidewalk at 4" depth *Approximately 17,712 SF for Sidewalk & 315 LF for curbing modifications* Includes – Layout, Excavation, Compacted Base, 4" - 3,000 PSI Concrete | LS | $ 117,750.79 |
| 3. | Install on Military Blvd. from Woodlands Boulevard to Vanderbilt Drive, Driveway Aprons at 6" depth *Approximately 3,451 SF* Includes – Layout, Excavation, Compacted Base, 6" - 3,000 PSI Concrete | LS | $ 29,282.12 |
| 4. | Install on Military Blvd. from Woodlands Boulevard to Vanderbilt Drive Header & "F" Type Curbing *Approximately 408 LF for Header & 106 LF for Type "F"* Includes – Layout, Excavation, Compacted | LS | $ 10,722.60 |
| 5. | Install on Military Blvd. from Woodlands Boulevard to Vanderbilt Drive New Storm Inlet Aprons & grate *Approximately (4) Inlet Aprons & (1) grate* Includes – Layout, Excavation, Compacted | LS | $ 4,036.50 |

6. Install Thirty (30) ADA Detectable Warning Mats (FDOT Approved) on Military Blvf. from Woodlands Boulevard to Vanderbilt Drive — LS — $ 1,863.00

7. Install Bahia Sod & Includes Complete Restoration on Military Blvd. from Woodlands Boulevard to Vanderbilt Drive *Approximately 6,438 SF plus Including All Disturbed Areas* — LS — $ 6,918.66

TOTAL BASE BID $ 218,651.49 (Figures)

Two hundred eighteen thousand six hundred fifty-one dollars and forty-nine cents. (Words)

*** Bidder is responsible to verify all takeoffs as this is a lump sum bid. Bid in accordance with the plans, scope and specifications.**

**Scope of Work**

The work consists of removing an existing 2'-6" foot non-ADA deteriorated concrete sidewalk and replacing it with a new 5' foot ADA compliant concrete sidewalk, including ADA compliant detectable mats and curbing in strict accordance with the American Disabilities Act (ADA) requirements on the west & east sides of Military Boulevard from Woodlands Boulevard to Vanderbilt Drive per the approved plans, specifications and Invitation to Bid. All excavated material must be removed from the project sites. The City will also be responsible to contract with a material testing company but the contractor responsibility to coordinate with them to do the testing. Contractor is responsible to layout/ stake all proposed improvements for City approval **prior** to construction. **Note: Proposed cross-slopes can't exceed 2%, and running slopes must be less than 5%. All new concrete will be flush with; or feathered into existing grade as to not create tripping hazards.**

*This is a federally assisted project and is subject to Federal Labor Standards which include, the Davis-Bacon Act (payment of prevailing wage rates) and the Copeland Act (anti-kickback of wages & submission of weekly certified payroll reports), as well as other provisions including 24 CFR 85.36 (bonding requirements), and Section 3 & M/WBE. Laborers and mechanics employed by primary contractors and sub-contractors performing construction work on this project shall be paid wages at rates not less than the prevailing rates as determined by the Secretary of Labor in accordance with the Davis-Bacon Act. The prime contractor is responsible for the enforcement of wage compliance and support documentation for the duration of the project and may be held liable for wage restitution. The applicable information regarding the laws and regulations stated above are included in the bid packet.*

BIDDER acknowledges that the quantities are not guaranteed and final payment will be based on actual quantities determined as provided in the Contract Documents.

BIDDER agrees that the Work will be substantially completed within **90** calendar days after the date when the Contract Time commences to run, and completed within **120** calendar days after the date when the Contract Time commences to run.

BIDDER recognizes that time is of the essence to complete this Project and that OWNER will suffer financial loss if the Work is not substantially complete within the time specified above, plus any extensions thereof allowed in accordance with Article 12 of the General Conditions. The

BIDDER also recognizes the delays, expense and difficulties involved in proving, in a legal or arbitration proceeding, the actual loss suffered by OWNER if the Work is not substantially complete on time. Accordingly, instead of requiring any such proof, OWNER has determined and BIDDER agrees to accept that as liquidated damages for delay (but not as a penalty) CONTRACTOR shall pay OWNER **Three Hundred Dollars ($300.00)** for each calendar day that expires after the time specified above for substantial completion until the Work is substantially complete. After substantial completion, if CONTRACTOR shall neglect, refuse or fail to complete the remaining Work within the time specified above for completion and readiness for final payment or any proper extension thereof granted by OWNER, CONTRACTOR shall pay the OWNER an amount equal to all actual expenses incurred by the OWNER as a direct result of the CONTRACTOR'S negligence, refusal, or failure to so complete the remaining work. In the event the CONTRACTOR is terminated or abandons the work prior to the scheduled date for final completion, the CONTRACTOR may be liable for both liquidated damages attributable to delay and for excess completion costs.

6. The following documents are attached to and made a condition of this Bid:

   (a) Required Bid Security in the form of

   (1) a certified check drawn in favor of the City of Ormond Beach in the amount of 5 percent of the total bid; or

   (2) a Bid Bond in the amount of 5 percent of the total bid.

   (b) Equipment, Material, and Subcontractors List

   (c) All information required by the Trench Safety Act (Part VI, Chapter 553, Florida Statutes).

   (d) Drug Free Workplace Certificate

   (e) Conflict, Non-Conflict of Interest, Litigation Statement

   (f) Verification of Employment Status Using E-Verify System

   (g) Affidavit of Compliance F.S. 287.138 Contracting with Foreign Entities of Concern

   (h) Human Trafficking Affidavit, Section 787.06, Florida Statutes

   (i) **CDBG Requirements and Supplemental Conditions**

7. Communications to the BIDDER concerning this Bid shall be addressed to:

## EQUIPMENT AND SUBCONTRACTORS LIST

List the names of the manufacturers whose product is proposed for use. No more than one manufacturer's name shall be inserted for each item of material and/or equipment listed. Failure to list materials and equipment supplier may result in the Bid being rejected as incomplete and nonresponsive. If any Subcontractors are proposed to be used for any portions of the Work, the names, addresses, phone numbers and work classifications of each such Subcontractor must be listed. The failure to list all Subcontractors proposed for the work may result in the Bid being rejected as incomplete and nonresponsive. If more than one manufacturer or subcontractor is listed, selection will be made by the OWNER. If none is listed, those listed as the "Basis for Design" will be used.

Materials and Equipment:

| Item | Supplier |
|---|---|
| Form Boards | Home Depot |
| Limerock Base (as needed) | M.J Strovola Industries |
| 3,000 PSI Concrete | Titan America |
| ADA Mats (FDOT Approved) | White Cap |
| Bahia Sod | Sula Sod |
| Storm Inlet Aprons & Grate | Titan America/ Mack Industries |
| | |
| | |

The City of Ormond Beach reserves the right to require any bidder to submit such evidence of qualifications as it may deem necessary and may consider evidence available concerning the financial and other qualifications and abilities of a Contractor. Failure to provide all required information may result in the proposal being **rejected** as nonresponsive. The minimum qualifications for this project are as follows:

1. The contractor must have a minimum five (5) years-experience installing projects of a similar scope in nature with verifiable references in the following areas:

## TRENCH SAFETY STANDARDS

If this project includes trench excavation in excess of five (5) feet in depth, the following trench safety standards will be in effect during the period of construction of the project:

The Occupational Safety and Health Administration's excavation safety standards, 29 C.F.R.s. 1926.650 Subpart P, and any regulation promulgated there under are hereby incorporated as the standard for this project.

The Bidder hereby certifies that the Contractor performing the trench excavation will comply with the applicable trench safety standards.

The Bidder further certifies that the cost (which is included in his unit cost) of compliance with applicable trench safety standards is:

## DRUG-FREE WORKPLACE CERTIFICATION

**Identical Or "Tie" Bids**: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

3) Give each employee that engages in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5 ) calendar days after such conviction.

5) Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

## VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.
2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.
3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.
4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.
5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

MERCHANTS BONDING COMPANY™

# POWER OF ATTORNEY

Know All Persons By These Presents, that MERCHANTS BONDING COMPANY (MUTUAL) and MERCHANTS NATIONAL BONDING, INC., both being corporations of the State of Iowa, d/b/a Merchants National Indemnity Company (in California only) (herein collectively called the "Companies") do hereby make, constitute and appoint, individually,

Pamela J Thompson; Steve P Farmer; Tyler D DeBord

their true and lawful Attorney(s)-in-Fact, to sign its name as surety(ies) and to execute, seal and acknowledge any and all bonds, undertakings, contracts and other written instruments in the nature thereof, on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

This Power-of-Attorney is granted and is signed and sealed by facsimile under and by authority of the following By-Laws adopted by the Board of Directors of Merchants Bonding Company (Mutual) on April 23, 2011 and amended August 14, 2015 and April 27, 2024 and adopted by the Board of Directors of Merchants National Bonding, Inc., on October 16, 2015 and amended on April 27, 2024.

"The President, Secretary, Treasurer, or any Assistant Treasurer or any Assistant Secretary or any Vice President shall have power and authority to appoint Attorneys-in-Fact, and to authorize them to execute on behalf of the Company, and attach the seal of the Company thereto, bonds and undertakings, recognizances, contracts of indemnity and other writings obligatory in the nature thereof."

"The signature of any authorized officer and the seal of the Company may be affixed by facsimile or electronic transmission to any Power of Attorney or Certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligations of the Company, and such signature and seal when so used shall have the same force and effect as though manually fixed."

In connection with obligations in favor of the Florida Department of Transportation only, it is agreed that the power and aut hority hereby given to the Attorney-in-Fact includes any and all consents for the release of retained percentages and/or final estimates on engineering and construction contracts required by the State of Florida Department of Transportation. It is fully understood that consenting to the State of Florida Department of Transportation making payment of the final estimate to the Contractor and/or its assignee, shall not relieve this surety company of any of its obligations under its bond.

In connection with obligations in favor of the Kentucky Department of Highways only, it is agreed that the power and authority hereby given to the Attorney-in-Fact cannot be modified or revoked unless prior written personal notice of such intent has been given to the Commissioner-Department of Highways of the Commonwealth of Kentucky at least thirty (30) days prior to the modification or revocation.

Summary

The purpose of this item is for the City Commission to approve the replacement of Fred Heyne as an alternate on the Board of Adjustments and Appeals Advisory Board. This position is appointed by the Zone 1 Commissioner.

Zone 1 Commissioner Tolland has nominated Amber Bobak to replace Mr. Heyne on the board. This is for the remainder of the current 2-year term, set to expire the day prior to the first regularly scheduled City Commission meeting in January 2027.

The Board of Adjustments and Appeals consists of 5 members and 5 alternate members. The board is responsible for hearing and deciding requests for variances from zoning and land use regulations, as well as appeals of decisions made by city staff regarding zoning matters. This board ensures that the application of the City's codes does not create unnecessary hardships while maintaining the intent of the regulations. The Board of Adjustments and Appeals meets as needed, typically on the first Wednesday of the month.

Financial Impact

None

Citizen Impact

City advisory boards are a critical component of municipal government. The City benefits by bringing a variety of perspectives together to provide recommendations on various subjects, ensuring increased transparency, and facilitating community engagement. It is beneficial for the City's advisory boards to be fully appointed.

Summary

The purpose of this item is for the City Commission to approve the replacement of Fred Heyne on the Brownfield Advisory Board (BFAB). This position is appointed by the Mayor.

Mayor Leslie has nominated Kenneth Smith to replace Mr. Heyne on the board. This is for the remainder of the current 2-year term, set to expire the day prior to the first regularly scheduled City Commission meeting in January 2027.

The Brownfield Advisory Board consists of 7 members and is established by the Brownfield's Redevelopment Act. Since the grant's completion, the board is responsible for reviewing the Brownfield draft plan for site rehabilitation and holding a public meeting to hear the findings and recommendations in the site assessment report. The properties in designated Brownfield areas (all of Ormond Beach) are potentially eligible for the tax credit program. This board meets as needed, typically quarterly on the second Tuesday of the month.

| **Strategic Goal** | Governance - Other | | |
| **Department Staff Contact** | Support Services<br>Susan Dauderis, City Clerk | | |

Summary

Per Florida Statute, the Mayor appoints the 5 Housing Authority commissioners with the approval of the City Commission. Terms of commissioners are 4 years. Mayor Leslie is appointing Lindsey Wolf to fill the position previously held by Joe Daniels, who has resigned. This appointment is to complete the reminder of the unexpired term to October 5, 2026. The Mayor is the only person who can make nominations to the housing authority and the Mayor is only required to present one nominee.

The Housing Authority is governed by Chapter 421, Florida Statutes. It was established to provide public housing for individuals with low incomes at affordable rental rates. The Authority leases and operates the housing project at 100 New Britain Avenue, as well as other low-income rentals within the City. Its responsibilities include overseeing repairs and rental rates, investigating living conditions, and studying issues related to public housing.

The Housing Authority must have at least 1 commissioner who is a resident of one of the housing projects and is current on rent, or is a person of very low income who receives a rent subsidy and lives within the Authority's jurisdiction. Another member of the Housing Authority meets this requirement.

Financial Impact

None

Citizen Impact

This appointment will serve to allow the Ormond Beach Housing Authority to continue to fulfill its mission of serving the housing needs of low-income citizens in the community.

July 16, 2025

Dear Mayor Jason Leslie,

Please accept this letter as my formal resignation from the Ormond Beach Housing Authority effective May 31, 2025. It was my intent to resign following the May 30th Housing Authority meeting.

I want to express my sincere appreciation to Joyce Shanahan, City Manager, former Mayor Partington, and you for the opportunity to serve on the board. It has been an honor to contribute to the important work being done, and I am confident the board is in good hands and will continue to make meaningful progress.

With gratitude,

Joe Daniels

Summary

This is the renewal of the annual contract for services agreement with the Ormond Memorial Art Museum (OMAM).

OMAM provides an important service to the community historically and culturally. The museum provides year-round art exhibits, tributes, classes, and cultural events that are professionally created, organized, and managed by the OMAM staff.

The contract has been renewed annually since 2008, and remains in effect through September 30, 2025. Per the agreement, the contract may be renewed for additional one-year periods based on the City's fiscal calendar. The annual funding assists OMAM in providing free admittance 7 days a week, and supports the free art outreach programs for veterans.

Financial Impact

The OMAM agreement is included in the Fiscal Year 2025-26 General Fund proposed budget at the current year's amount of $75,150.

Citizen Impact

OMAM is a critical cultural addition to the downtown area and has consistently provided excellent service to the City, residents, and visitors.

**RESOLUTION NO. 2025-112**

A RESOLUTION AUTHORIZING EXECUTION OF A SERVICE AGREEMENT BETWEEN THE CITY AND THE ORMOND MEMORIAL ART MUSEUM, INC.; AUTHORIZING THE EXPENDITURE OF FUNDING; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS**, the City Commission desires to enter into an agreement with the Ormond Memorial Art Museum, Inc. regarding the activities and functions connected with the maintenance and operation of the museum, and

**WHEREAS**, the City Manager has certified that the City's $75,150.00 funding contribution has been appropriated in the General Fund (001) and has not been appropriated for any other purpose, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE.** The Mayor and the City Manager are hereby authorized and directed to execute a Service Agreement between the City of Ormond Beach and the Ormond Memorial Art Museum, Inc. regarding the activities and functions connected with the maintenance and operation of the museum, a copy of said Agreement being attached hereto and incorporated herein by reference.

**SECTION TWO.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this ____ day of _____, 2025.**

**SERVICE AGREEMENT**
**FOR ORMOND MEMORIAL ART MUSEUM, INC.**

**THIS AGREEMENT** is entered into by and between the **CITY OF ORMOND BEACH ("CITY"),** a Florida municipal corporation, and **ORMOND MEMORIAL ART MUSEUM, INC. ("MUSEUM"),** a Florida non-profit corporation, in consideration of the terms and conditions described as follows.

1. **Recitals.** The parties agree that the foregoing recitals are true and correct and are incorporated herein by reference and are part of this Agreement.

2. **Term.** This Agreement shall be effective on the date it is last signed by the undersigned parties and shall continue in effect through and including September 30, 2026. Thereafter, this Agreement may be renewed for additional one (1) year periods beginning on October 1st and ending on September 30th of the following year.

3. **Responsibilities of the Respective Parties.**

*The MUSEUM shall be responsible for the following:*

*a)* Administering a professional Art Museum, including programs and exhibitions, that shall be open and free to the public Monday through Saturday, 10:00 a.m. to 4:00 p.m.; and Sunday, 12:00 p.m. to 4:00 p.m. Closed major holidays and between exhibitions.

b) Hosting monthly pop-up professionally curated Art Exhibitions in the museum galleries as well as in different locations throughout the City.

c) Conducting both in person and online educational art enrichment and outreach programs in the museum classroom(s) and offsite to support underserved Ormond

Beach population with *Free Family Art Nights,* programs for veterans, programs for visitors with limited or no vision, and to those with medical conditions.

d) Participating and representing Ormond Beach at Volusia County Cultural Alliance and participate in ECHO Ranger Children's Program.

e) Offering online art and nature education classes for adults and children, including a summer camp for 2026.

f) Collaborating and partnering with the City of Ormond Beach and Ormond Beach Main Street to host Art in the Park Art Show, and other community cultural events.

g) Hosting a Veteran's Day Tribute reception or event annually.

h) Maintaining an active presence for Ormond Beach and Ormond Memorial Art Museum in the Florida Association of Museums and the American Alliance of Museums.

i) Stewarding and professionally maintaining and marketing the Malcolm Fraser collection of paintings.

j) Maintaining the preservation of the Gardens by providing the labor, material and maintenance for the formal planting of flower beds with annuals, providing change of color with each season as per attached Memorial Gardens Care Plan.

k) Operating under the Art Museum Advisory Board derived from the Ormond Memorial Art Museum, Inc.

l) Collecting and disseminating data, providing assistance to City committees, Quality of Life Board, Leisure Services Advisory Board, Ormond Memorial Art Board, and attending various meetings relative to such tasks.

m) Providing information to the City of Ormond Beach webpage in regards to programming information as it relates to the Ormond Memorial Art Museum and Gardens.

n) Maintaining an Art Museum Director.

o) Scheduling and providing rental opportunities for weddings and social functions in the Museum, gazebo and the gardens. The fees charged shall be consistent with the City's Fee Schedule as approved annually. Museum shall be entitled to retain all rental fees collected. It is the Museum's responsibility to ensure that the renting parties execute use agreements, provide insurance, and execute a release of liability and indemnity agreement (requirements are more specifically described in the Ormond Memorial Lease Agreement). The Museum shall permit use of meeting rooms by City staff or officials without charge when such use is for City purposes and does not conflict with another previously scheduled event.

*The CITY shall be responsible for the following:*

a) The City shall make an annual contribution to the Ormond Art Museum in the total sum of seventy five thousand one hundred fifty and 00/100 ($75,150.00), payable in quarterly installments of eighteen thousand seven hundred eighty seven and 50/100 dollars ($18,787.50).

b) The parties shall be responsible for maintenance and repair of the structures and facilities as provided in the Ormond Memorial Art Museum Lease Agreement. Janitorial services shall be provided by the Museum.

c) The City shall provide regular grounds maintenance services in coordination with the Museum Gardener's duties and as provided in the attached Memorial Gardens Care Plan.

d) The City shall be responsible for the payment of all electrical and water charges in the Gardens.

e) Any proposed capital improvements shall be approved by, and at the discretion of, the Ormond Beach City Commission.

f) The City shall have oversight for the garden memorials, with garden benches and specific plants, donated by local residents as tributes to family members and friends.

g) The City shall allow Museum non-exclusive use of the grassy area located behind the St. James church as overflow parking. Reservations for use of the overflow parking area must be made with the City's designated representative. The parking area is depicted on Exhibit "A" which is attached hereto and incorporated herein by reference. The Museum shall ensure that its liability insurance policy is updated to reflect insurance coverage for this additional parking lot area.

**4. Art Museum Advisory Board.** The responsibilities of the parties delineated in this Agreement are consistent with the purpose of the Art Museum Advisory Board set forth in Section 2-219, City of Ormond Beach *Code of Ordinances*.

The City Manager, or designee, and the chairman of the Quality of Life advisory board shall be ex officio voting members of the board of directors of the MUSEUM, in accordance with Section 2-219, *Code of Ordinances*.

5. **Termination of Agreement.** Either party may terminate this Agreement without cause upon giving the other party at least sixty (60) days prior written notice of the intention to terminate this Agreement.

6. **Relationship of Parties.** Neither the CITY (including any of its elected or appointed officers, employees, agents or other representatives) nor MUSEUM (including any of its directors, officers, employees, agents or other representatives) are the employee, agent, or other representative of the other party; and all activity performed by either party pursuant to and in furtherance of this Agreement, whether directly or indirectly related to this Agreement, shall constitute the separate and independent act of the respective party performing said act.

7. **Liability and Indemnification.** MUSEUM shall fully defend, indemnify, save, and hold the CITY (including its elected and appointed officers, employees, agents, and other representatives) harmless from and against all suits, action, claims, proceedings, demands, or liability of any nature whatsoever (including attorney's fees through and including all appeals), arising from injury, loss, or damage to any person or property, which is directly or indirectly caused by or results from any act or negligence of MUSEUM (including its directors, officers, employees, agents and other representatives).

8. **Miscellaneous.** MUSEUM shall:

**a)** Obtain and maintain at its sole expense, all applicable licenses, permits and certificates which are necessary to discharge MUSEUM'S duties under this Agreement.

**b)** Be solely responsible for paying all costs relative to the discharge of its duties under this Agreement, except as otherwise indicated herein.

c) Comply with all applicable federal, state, and local laws, rules, and regulations.

d) Have the option to serve beer, wine and liquor under the following conditions:

- Any profits of the sale of alcohol at the MUSEUM shall directly benefit MUSEUM operations.
- The MUSEUM must ensure that the MUSEUM and any vendors comply with state liquor licensing, and all state and local regulations.
- The MUSEUM shall maintain liquor liability insurance of no less than 1 million per occurrence naming the CITY as an additional insured, and shall require any vendors selling alcohol to provide proof of liquor liability insurance in the same amount.
- The MUSEUM shall indemnify and hold the CITY harmless from any liability resulting from any personal injury or property damage occurring as a result of any service or sale of alcohol at the MUSEUM.
- The MUSEUM is ultimately responsible for maintaining appropriate safety and security at any event where alcohol is served or sold. At any event in which alcohol is served, supervision by MUSEUM staff is mandatory.
- All applications for use of the MUSEUM by third parties shall state whether alcohol will be sold or served.
- All records of alcohol sales shall be provided by the MUSEUM to the CITY as part of the annual report accounting of the Museum's

revenues from events and operation of concessions as required by the Ormond Memorial Art Museum Lease Agreement

- The City shall have the right to terminate alcohol sales or service at the MUSEUM if any of the above conditions are not met.

9. **Assignment.** Neither this Agreement nor any part thereof may be assigned to any other person or entity without the prior written consent of the City Commission.

10. **Sovereign Immunity.** The CITY expressly retains all rights, privileges, immunities, and benefits of sovereign immunity. This provision shall be construed broadly in favor of the CITY.

11. **Complete Agreement.** The terms of this Service Agreement are incorporated into the Lease of the Ormond Memorial Art Museum and Building effective October 1, 2019, and together, these Agreements constitute the entire and complete agreement by and between the parties.

12. **Amendments.** This Agreement may not be amended unless such changes are reduced to writing, which amendments must be approved by the City Commission, and signed by both parties.

13. **Public Purpose.** The allocation and expenditure of public funds herein provided are intended to serve clearly identifiable and concrete public purposes as the primary objective of this agreement, with a reasonable expectation that such public purposes will be substantially and effectively accomplished, and that the public funds provided herein are not to be used for general functions or purposes of MUSEUM. The parties determine that the use of the public funds are intended to satisfy the "public purpose" principles established in O'*Neill v. Burns,* 198 So.2d 1 (Fla. 1967) and Florida Attorney General Opinion 75-221 (July 24, 1975).

14. **Compliance With Florida Public Records Law.** MUSEUM expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records that ordinarily and necessarily would be required by the City in order to perform the contracted service.

(b) Provide the public with access to public records on the same terms and conditions that the City would provide the records and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

(d) Meet all requirements for retaining public records and transfer, at no cost, to the City all public records in possession of the MUSEUM upon termination of the contract and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the City in a format that is compatible with the information technology systems of the City.

(e) Failure of MUSEUM to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Agreement to termination for cause by the City.

**IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:**

Joyce Shanahan, City Manager
Robert Carolin, Parks & Recreation Director
City of Ormond Beach, Florida

Dear Mrs. Shanahan and Mr. Carolin,

In May 2025 we celebrate three years since our grand re-opening! It has been an incredible three years as we have increased community participation and engagement year over year. We could not be more pleased with our partnership with the city of Ormond Beach and would like to formally request the continuation of our annual agreement for services for the 2025-2026 year, with no conditional or financial changes to the approved agreement currently in effect through September 30, 2025.

This month OMAM's partnership with the city will be highlighted with the addition of self-guided audio tours and educational wayfinding signage in the gardens. This project, two years in the making, was made possible through a financial grant from the Daytona Beach Racing and Recreational Facilities District and the pledge of support from the City of Ormond Beach Parks and Recreation.

Another milestone for the museum was reached this month when OMAM accessioned 34 pieces of artwork into our permanent collection. The pieces are graphic, modular art panels created by artist Dr. John Wilton. The collection is perfectly suited for the unique stairwell gallery. Although OMAM has not officially changed our designation from a non-collecting to a collecting museum, this accession was one of several recommendations made in the Museum Assessment Report generated the by the American Alliance of Museums.

This year the OMAM Board of Directors created a five-year strategic plan that has identified five strategic goals that align with our mission and will drive everything we do.

| | |
|---|---|
| **Venue & Visitor Experience** | Goal 1<br>Provide superior visitor experiences through engaging and relevant exhibitions, gardens and facilities. |
| **Financial Stewardship and Strength** | Goal 2<br>Enhance financial resources to ensure sustainability and growth to advance our mission. |
| **Programming** | Goal 3<br>Offer diverse and unique opportunities that encourage, inspire and engage audiences through art and nature with an additional focus on Veterans. |
| **Outreach and Awareness** | Goal 4<br>Build awareness by strengthening strategic partnerships and collaborations and positioning OMAM as a cultural leader in Ormond Beach. |
| **Organizational Excellence** | Goal 5<br>Ensure excellence through a commitment to our mission, best practices and industry standards. |

An annual business plan was created with specific benchmarks and goals for this year. Both plans are attached for your reference. We are happy to report that we have already achieved many of our annual goals and as reflected in the attached P&L we on target to reach our financial goals as well.

We are proud to be a part of our thriving Ormond Beach community and appreciative of our partnership with the city.

Please contact me by phone at 386-871-7873 or email at smt@ormondartmuseum.org if you have any questions or would like to discuss the museum or our request.

Thank you,

Stephanie

Ormond Memorial Art Museum & Gardens
HONORING OUR VETERANS

# STRATEGIC PLAN 2025-2030

**Approved: September 10, 2024**

| Mission | Vision | Strategic goals |
|---|---|---|
| Inspiring our community through art and nature while honoring those who fought for freedom. | Position OMAM as a cultural leader, to facilitate a connected community through engaging and diverse exhibitions and activities and leverage strategic partnerships to provide resources for families, veterans and lifelong learners. | OMAM has identified five strategic goals that align with our mission and will drive everything we do.<br><br>**Core Values**<br>Creativity<br>Community<br>Quality<br>Inspiration |

# PLANNING PROCESS

| | |
|---|---|
| **Phase 1: Planning** | Began in 2022 with recommendations from the MAP assessment report from the AAM. Interviews were conducted with community members, past and present board members, museum members and class participants and city leadership. |
| **Phase 2: Process** | The Strategic Planning committee led a workshop with the full board and created the core values statements, and discussed their vision for the future. The Museum Director then prepared this draft. |
| **Phase 3: Approval** | After review by the Strategic Planning Committee, the plan will be presented to the full BOD for approval and adoption. **Approved by the BOD – September 10, 2024.** |

# STRATEGIC GOALS 2025-2030

| | |
|---|---|
| **Venue & Visitor Experience** | Goal 1<br>Provide superior visitor experiences through engaging and relevant exhibitions, gardens and facilities. |
| **Financial Stewardship and Strength** | Goal 2<br>Enhance financial resources to ensure sustainability and growth to advance our mission. |
| **Programming** | Goal 3<br>Offer diverse and unique opportunities that encourage, inspire and engage audiences through art and nature with an additional focus on Veterans. |
| **Outreach and Awareness** | Goal 4<br>Build awareness by strengthening strategic partnerships and collaborations and positioning OMAM as a cultural leader in Ormond Beach. |
| **Organizational Excellence** | Goal 5<br>Ensure excellence through a commitment to our mission, best practices and industry standards. |

# Venue and Visitor Experience:

Goal 1

Provide superior visitor experiences through engaging and relevant exhibitions, gardens and facilities.

OBJECTIVE A:  EXHIBITIONS - Increase the diversity and artistic scope of gallery exhibitions.

Tasks & Activities:

- Better engage the Exhibition Committee and local artists.
- Secure and feature groundbreaking national exhibitions and collections.
- Develop collection management policies to protect our collection(s) and share them with an increasing number of visitors.
- Determine stairwell gallery exhibition status: Accession or loan.
- Create Fraser collection catalog to monitor care, maintenance, and repairs.
- Grow docent tour offerings.

OBJECTIVE B: GARDENS – Develop and enhance garden tours, programs and amenities.

Tasks & Activities:

- Improve accessibility and educational offerings with interactive signage, self-guided tours.
- Grow docent tour offerings.
- Enhance the turtle sanctuary (large pond) with feeding station and educational signage.
- Engage youth with “virtual” turtle adoptions.
- Develop butterfly observation and educational zones within the gardens.
- Consider an enclosed butterfly garden feature within our existing gardens.
- Begin discussion of gardener succession planning.
- Consider garden apprentice to create working garden care manual.

OBJECTIVE C: FACILITIES – Customer service and private event rentals.

Tasks & Activities:

- Maximize rentals of OMAM spaces for a variety of events.
- Develop key relationships with vendors and purchase items frequently used to limit outsourcing.
- Implement customer service training for staff and volunteers.
- Conduct regular visitor and participant surveys to measure satisfaction.

# Financial Stewardship and Strength:

Goal 2

Enhance financial resources to ensure sustainability and growth to advance our mission.

OBJECTIVE A: STAFFING AND BOARD OF DIRECTORS – Ensure a workforce with appropriate skills and training that are dedicated to best practices and standards.

Tasks & Activities:

- Recruit and retain professional, qualified, and engaged staff, Board of Directors, and volunteers dedicated to the fulfillment of the OMAM mission.
- Leverage board members to support fundraising and awareness efforts.
- Assess financial controls and compliance measures, ensuring exemplary budget management.

OBJECTIVE B:  – CONTRIBUTED INCOME – Grow revenue opportunities and the OMAM endowment and investment initiatives while reducing the reliance on government grants.

Tasks & Activities:

- Strive to reach a contributed income level of 60% of operating funds annually.
- Reinvigorate the annual Art in the Garden fundraiser and add a second event in the fall.
- Leverage BOD member relationships to increase annual exhibition and program sponsors.
- Develop a planned giving program with the goal of adding $100,000 to endowment funds annually.

OBJECTIVE C: - EARNED INCOME - Develop Museum membership and educational programs as well as venue rental and gift shop offerings.

Tasks & Activities:

- Reinforce new branding and increase marketing and advertising to reach new audiences.
- Develop educational offerings to include new mediums and art and wellness programs.
- Implement facilities enhancements to expand and fine tune venue rental income.
- Utilize OMAM guild to manage and expand gift shop merchandise and sales.
- Introduce memorial tile and brick sales initiatives.
- Strive to reach and maintain earned revenue of 40% of operating funds annually.

# Programming:

Goal 3

Offer diverse and unique opportunities that encourage, inspire and engage audiences through art and nature with an additional focus on Veterans.

OBJECTIVE A: EDUCATIONAL PROGRAMS – Enhance programs for youth and adults and consider the needs of special populations. Youth programs will utilize the Florida state Sunshine Standards for art education

Tasks & Activities:

- Utilize artistic contractors to provide opportunities for varied skill levels and across multiple mediums.
- Incorporate ceramics classes and perfect kiln operations.
- Enrich monthly Art of Healing program and develop additional arts and wellness programs.
- Complete educational, interactive garden wayfinding signage that incorporates tactile features for sight impaired and early learning guests.
- Establish a relationship with Center for Autism and Related Disorders (CARD).
- Develop tuition-based classes for after-hours and weekends to reach a wider audience.
- Enhance garden programs with a focus on the conservation and care of the flora and fauna and the biology and habitat of our turtles and butterflies.
- Upgrade the design and functionality of the gazebo labyrinth.

OBJECTIVE B: VETERANS PROGRAMS – Develop programs to connect, engage, and honor US Veterans.

Tasks & Activities:

- Leverage connections with local Veterans organizations to grow participation.
- Develop monthly Veterans Creative Workshops.
- Identify guest teachers to magnify the quarterly Lunch and Learn program.

OBJECTIVE C: SIGNATURE PROGRAMS – Continue to offer the programs our community has grown to love and add new engagement opportunities.

Tasks & Activities:

- Boost Free Family Art night by featuring a family each month in a press release.
- Enhance quarterly member socials to engage and grow our membership base.
- Leverage partnerships to augment annual Starry, Starry Night and Art in the Park.
- Lead the effort to celebrate and honor veterans with the annual Veteran’s Day tribute.
- Enrich monthly Art Walk participation with inspiring pop-up exhibitions.
- Grow visiting artists talks and workshop offerings.

# Outreach and Awareness

Goal 4

Build awareness by strengthening strategic partnerships and collaborations and positioning OMAM as a cultural leader in Ormond Beach.

OBJECTIVE A: STRATEGIC PARTNERSHIPS – Develop private and public partnerships to advance the Museum's mission.

Tasks & Activities:

- Strengthen the relationship with the city of Ormond Beach and new staff members.
- Grow collaboration with the Early Learning Coalition to develop the Pavilion area as a dedicated early learning space and strengthen the quarterly Little Artists Workshop.
- Develop the relationship with the Division of Blind Services to serve and support their residents and record garden wayfinding information for placement on the OMAM website.
- Grow the relationship with the Center for Autism and Related Disorders (CARD).
- Enhance community partnerships benefiting from the OMAM art kit program.

OBJECTIVE B: VETERAN'S OUTREACH – Strengthen ongoing dialogue with Veterans and Veteran organizations on the best way to serve their needs and tell their stories.

Tasks & Activities:

- Conduct grassroots networking and relationship building with local Veteran's organizations.
- Participate as an exhibitor at Veteran's events.
- Secure speaking opportunities at Veteran's organizations.
- Distribute Veterans program flyers throughout the community.

OBJECTIVE C: MARKETING AND MEDIA RELATIONS – Utilize a paid and grassroots strategy to increase attendance, participation, group tours, event rentals and membership.

Tasks & Activities:

- Leverage Google analytics and advertising to reach a new audience.
- Continue and fine tune a robust social media presence.
- Identify print advertising opportunities and develop an advertising campaign.
- Develop relationships with schools and organizations seeking group tours.
- Engage with local radio and TV for PSA placement.
- Budget advertising support for other community non-profit organizations.
- Seek public speaking opportunities to share OMAM's story.
- Leverage BOD relationships to conduct annual new member drive annually.
- Grow relationships with Visit Florida and the Convention and Visitors Bureau.

# Organizational Excellence

Goal 5

Ensure excellence through a commitment to our mission, best practices and industry standards.

OBJECTIVE A: BEST PRACTICES – Identify and develop best practices for leading nonprofit organizations with a commitment to a pledge of excellence.

Tasks & Activities:

- Create BOD operating plan with committee benchmarks and annual work plans.
- Establish an OMAM guild

OBJECTIVE B: CORE DOCUMENTS – Develop and evaluate organizational core documents as recommended by the American Alliance of Museum.

Tasks & Activities:

- Adopt 5-year strategic plan with implementation milestones.
- Create and approve a Disaster Preparedness and Emergency Response Plan.
- Create and approve a Collections Management Policy.
- Establish institutional code of ethics.

OBJECTIVE C: MUSEUM ACCREDITATION – Discuss and evaluate seeking accreditation.

Tasks & Activities:

- Regularly consider pursuing accreditations with the American Alliance of Museums.
- Develop core documents that are consistent with the level necessary for accreditation.

# Annual Business

# Plan

***Sept. 30, 2025***

## TABLE OF CONTENTS

1. Executive Summary ..... 3
2. Museum Overview ..... 4
3. Museum & Garden Programs..... 6
4. Administrative Personnel ..... 8
5. Operating Plan…..……14
6. PR & Marketing Plan……...17
7. Operating Budget……..18

# 1. EXECUTIVE SUMMARY

- **Opportunity:**. Serve the residents and visitors to Ormond Beach by providing superior art and nature experiences and diverse and unique programs while ensuring financial stewardship, strength and organizational excellence.

- **Mission Statement**

  Inspiring our community through art and nature while honoring those who fought for freedom.

- **Vision Statement**

  Position OMAM as a cultural leader, to facilitate a connected community through engaging and diverse exhibitions and activities and leverage strategic partnerships to provide resources for families, veterans and lifelong learners.

- **Core Values**

  **Creativity** – We will be true to our role as an artistic center for Ormond Beach

  **Community** – We will create opportunities and listen to the needs of our community

  **Quality** – We will provide programs and events befitting the stature of our Museum

  **Inspiring** – We will engage our community through Art and Nature

- **Solution:** Engage our community through fine art exhibitions, wellness and art therapy initiatives and a varied intergenerational educational programs in visual arts and environmental awareness. Our goal is to increase both earned and contributed income and continue to nurture future generations of art and nature lovers while honoring freedom. Earned revenue will be generated through tuition-based programs, membership dues, the rental of non-exhibiting spaces and increased gift shop activities. Contributed revenue will come from fundraising efforts and be increased through the growth of the annual Exhibition and Program Sponsors opportunity as well as the OMAM Endowment campaign.

# 2. MUSEUM OVERVIEW & HISTORY

## 78 years old and still vibrant: 1946 – 2024

Just as WWII came to an end, one artist with a vision and the people of Ormond Beach worked together to create something magical. Artist Malcolm Fraser offered a collection of his life's work to any town along the east coast that would create an art museum that paid tribute to veterans. Ormond Beach and her residents rose to the occasion and worked together to create a living monument to the creative freedom and equality of all people, and to commemorate the service of World War I and World War II veterans who fought valiantly for that ideal. The Ormond War Memorial Gallery opened its doors in 1946. In 1963, the name was changed to the Ormond Memorial Art Museum, and has been registered and operated as a 501 ( C)(3) non-profit arts organization continuously since that time.

In May 2022, the museum reopened to the public after an 18 month, four-million-dollar renovation. The renovation was paid for in full through fundraising efforts by the Capital Campaign Committee of the Museum and funds from the Volusia County ECHO program. The renovated facility features 30% more exhibition space and double the previous educational classroom space. Administrative offices were moved to the second floor that also includes a 40-person multipurpose boardroom complete with smart technology. The two-story building is topped with a rooftop terrace overlooking 2.5 acres of lush garden oasis with a gazebo, labyrinth and the Emmons Cottage, an 1885 historic Florida Cracker cottage. In late fall of 2022, a magical new garden feature was installed, a Free Little Art Gallery. Visitors are encouraged to create and share a small piece of art. The Monaco Garden Cottage, a garden style storage cottage was added in the spring of 2023 for use by the master gardener to facilitate her efforts to care for the gardens. The entire design plan was created to have as little impact on the gardens as possible.

Along the garden's main path is a stainless-steel memorial piece to honor Korean War Veterans. Created by artist Mark Chew and dedicated in 2010. A second memorial piece, a bronze and granite sculpture by artist Gregory Johnson honoring veterans of the Vietnam War was dedicated in 2011. Additional plaques honoring veterans from WWI and WWII are inside the Museum building.

Visitors are welcomed to the new building by larger-than-life illuminated butterflies. An installation designed and installed by artist Matthew Placzek in 2022. A kaleidoscope of butterflies is installed on the south facing wall and another on the east facing exterior wall of the Museum building.

Relocated five feet from the original location is our beloved peacock fountain. The bronze peacocks were made by sculptor Mary Aldrich Fraser in memory of her husband, Malcolm Fraser. The memorial was unveiled on March 5, 1950. Prior to re-installation after the short move in 2022, the birds had a patina face-lift.

One of our most popular events, ***Art in the Garden*** has become to be known as “The best party of the spring”. This annual Board of Directors led fundraiser provides nearly 20% of the Museum’s operating funds. Annually In April the Museum parking lot is transformed into a magical destination for dinner and live music for more than 300 guests. Through a partnership with AdventHealth and an all-volunteer board, over 80% of the funds raised go directly to support the Museum. A second fundraiser is planned annually in the fall.

OMAM has a partnership arrangement with the city of Ormond Beach dating back 74 years to our founding in 1946. The city owns the building and land and OMAM operates the non-profit Museum and Botanical Gardens. The city has granted OMAM a fifty-year rent-free lease. The Museum work cooperatively with the city to maintain the building and grounds to the highest standards while still retaining our unique “quaint charm”.

Museum admission is free to members and veterans with a suggested donation of $2 per person for others. The Malcolm Fraser collection, the collection owned by the Museum, will stay in continuous exhibition. OMAM has added additional staff and contracted with new teachers and partners to facilitate community demand.

# 3. MUSEUM & GARDEN PROGRAMS

OMAM strives to offer relevant and vibrant programs to our community with a focus on three distinct areas:

**EXHIBITIONS:**

Each year through the collaboration of OMAM curatorial staff and a professional advisory committee, six to eight rotating exhibits are displayed in the four main galleries. Each exhibition includes a free public opening reception and often includes gallery talks with participating artists.

The increased gallery space in the newly renovated museum includes the opportunity to continue the Pop-Up style exhibits that have become a community favorite. Pop-up exhibits are scheduled monthly to coincide with the community Art Walk. Pop-Up exhibits offer emerging artists the opportunity to exhibit their works.

While the museum strives to showcase a variety of original works and mediums, pieces from the Malcolm Fraser collection are always on display.

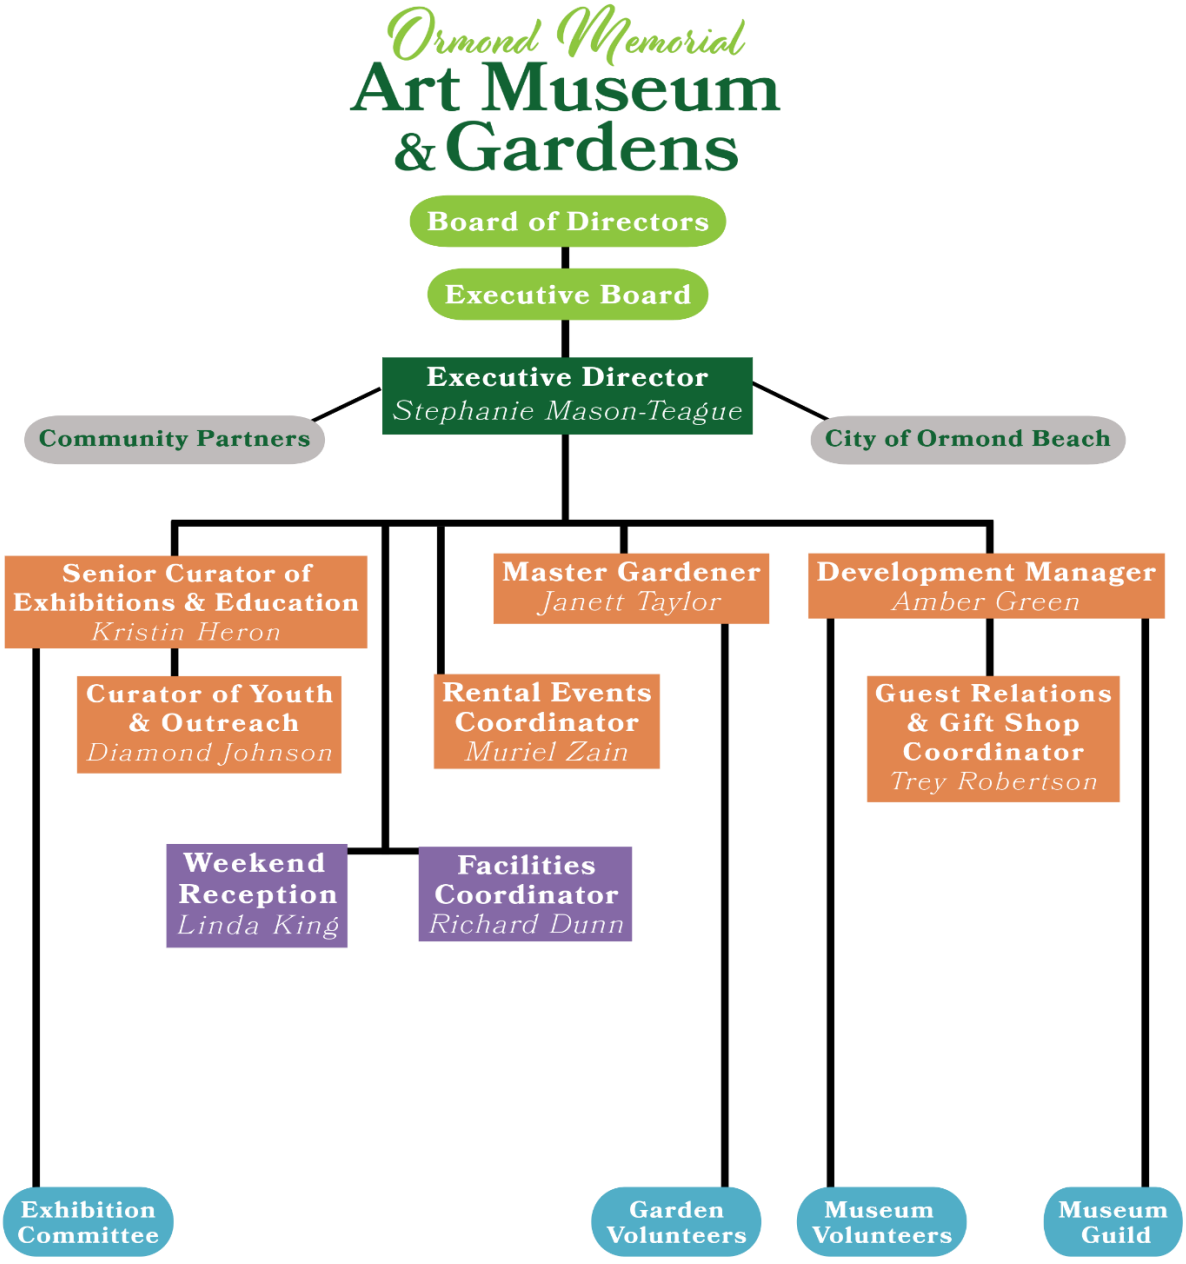
**EDUCATION:**

Educational programing at the museum includes classes and workshops for adults and children in our classroom and in our gardens. Class curriculum includes fine arts, crafts, wellness, and environmental learning opportunities. This year new ceramics classes will be added. OMAM educators and interdisciplinary professionals work together to provide quality and unique learning opportunities. OMAM is proud to offer youth scholarships to students in need through a gift from artists Nina Masters and Pamela Bleakney. Veteran scholarships are offered to Veterans and are sponsored in part by the Farmer Family Trust.

**OUTREACH / PUBLIC PROGRAMS:**

**Adult programs**: The ability to serve our community “where they are” has been an important aspect of OMAM outreach programs. Through partnerships with the VA wellness center and other veterans’ organizations, OMAM offers onsite and offsite classes for veterans. One of our most popular wellness and art programs “Art of Healing” is offered free of charge to anyone in a medical situation, their family members, or caregivers.

**Youth programs**: On the first Friday of every month, OMAM offers a community Free Family Art Night in our classroom. This intergenerational art program is often filled and a wonderful opportunity to share the entire museum with members of our community that may have never seen an art exhibition. Tuition-based youth programs include S.O.F.A – Schools Out For Art, and Little Artists Workshop for pre-school age children. This year two new programs, Little Notes & Narratives (ages 3-5) and Art Wave (ages 10-14) have been added as well as an additional week of summer camp. Seven weeks of summer camp (ages 6-13) is the highlight of the summer.



**Garden Programs:** OMAM's full-time professional gardener provides garden tours for youth and adult groups. Tours include a "seek and find" of points of interest in the garden with stops at the waterfall and one of three turtle ponds. The garden gazebo hosts yoga and wellness classes, as well as lectures and horticultural programs. While in the gardens, individuals can reflect along the labyrinth path in the garden gazebo and create or take a piece of art from the Free Little Art Gallery. Interactive garden maps are available on-line and at the reception desk.

**Starry, Starry, Night.** Presented annually in partnership with the Casements Cultural Center and the Ormond Beach Historical Society. Celebrating 34 years in January 2024, the evening boasts a gallery stroll under the stars. Each venue presents an exhibition and often includes live music, food, and beverages.

**Art in the Park.** Presented annually in partnership with the City of Ormond Beach. Celebrating 50 years in May of 2024, the festival attracts over 100 fine arts and crafts vendors and 3,000 visitors to the banks of the Halifax River in Rockefeller Gardens. Art in the Park is a juried show with prizes and awards totaling $3,500.

**Veterans Programs.** Several programs are offered exclusively for Veterans including the monthly Creative Expressions Workshop and the quarterly Lunch & Learn that includes an exhibition and garden tour. **Annual Veterans Day Tribute. 11/11 at 11am.** On the eleventh day of the eleventh month at eleven in the morning, OMAM invites the community to gather and honor veterans. This free community program includes dignitaries from local and state government and guest speakers from all branches of the military. Community partners help to create a meaningful and inspirational event with live music and refreshments.

# 4. ADMINISTRATIVE PERSONNELL

## 2024-2025 Executive Committee

- Lauren Dye — Ormond Beach, President
- Allison Miller — Ormond Beach, Vice President
- Jessica Scott — Ormond Beach, Treasurer
- Melissa Frankel — Ormond Beach, Secretary
- Audrey Butler — Ormond Beach, Past President

## 2024-2025 Board of Directors

- Oscar Carbonnell, MD — Ormond Beach
- Stacy Cunningham Welch — Daytona Beach
- Herbert “Skip” Dailey — Ormond Beach
- Siobhan Daly — Ormond Beach
- Shae Davis Williams — Ormond Beach
- Amanda Frick — Ormond Beach
- Roosevelt Harris — Ormond Beach
- Karen Holmay — Ormond Beach
- Nancy Munier — Ormond Beach
- Tammy Navarra — Ormond Beach

## 2024-2025 Board of Directors Continued

- Alicia Scott — Ormond Beach
- Dr. Philip Shapiro — Ormond Beach
- Nancy Suah — Ormond Beach
- Chirs Wickersham — Daytona Beach

## Key Administrative Personnel:

**Stephanie Mason-Teague, Executive Director** – paid full time.

Stephanie has been a long-time Volusia County resident with a professional background of more than 20 years in non-profit management. Experience includes Director of Operations and Director of Development for the Museum of Arts and Sciences, Executive Director of the Daytona Beach Film Festival and founding Director of the Cinematique of Daytona Art House Cinema. She earned her BA from the University of Central Florida and is a past member of the Cultural Council of Volusia County and is a current member of the Volusia County ECHO Advisory committee. Stephanie is responsible for the day-to-day operations of the Museum, personnel hiring, development, fundraising, organizational planning, budgeting, grant writing, and gift shop and rental event management.

**Amber Green, Development Manager** – paid full time.

Amber is a Daytona Beach native who has a passion for telling stories. Experience includes Web Designer with the Daytona Beach News-Journal, Media Specialist / Web Administrator with East Park Research, Digital Coordinator with Lohman Funeral Homes. Her past nonprofit experience includes serving as a board member and volunteer with Cinematique of Daytona. Amber is responsible for administering the annual fundraising plan for the Museum. She oversees the customer relationship management system including membership coordination, sponsorship coordination, gift processing, and tuition-based programs and fundraising / auction platforms. She also manages the Museum's website.

***Treyvon Robertson – Guest Relations & Gift Shop Coordinator*** *– paid full time.*

Trey is responsible for managing guests' experiences, greeting guests as they arrive, and ensuring they have a pleasant experience. He is often the first point of contact and is talented with making guests feel comfortable. Responsibilities include overseeing the daily operations of the telephones and deliveries as well as the Museum gift shop. Trey works closely with the Development Manager. Treyvon has an AA from Daytona State College.

**Muriel Zain – Rental Events Coordinator** – paid full time.

Muriel is an experienced hospitality professional with a proven track record at high paced local establishments including Zen Bistro, Wild Rabbit, and Barnes and Noble. A graduate of Daytona State College, she is also a Volusia County Master Gardener. Muriel is responsible for coordinating the sales, planning and execution of facility rentals, and assists with Museum socials and events. Muriel has an AS from Daytona State College.

**Richard Dunn – Facilities Coordinator** – paid part time.

Richard has decades of experience in janitorial and facilities maintenance. Locally with Berns Supply and Pictona in Holly Hill. He is responsible for maintaining a clean facility, preventative maintenance of Museum systems and assisting in the gardens and with rental events as needed.

## Key Program/ Artistic Personnel:

**Janett Taylor, Garden Artisan** – paid full time.

Janett has cultivated and cared for the Memorial Gardens adjacent to the Museum since 1980, first as a full-time employee of the City of Ormond Beach and then in October of 2008, she joined the Museum staff to continue to oversee the care of the gardens and to assist in cultivating OMAM's environmental art education programs. Recipient of the Garden Club of America Significant Contribution to Horticulture through the Garden Club of the Halifax Country, 2001. And in 2005 received a Lifetime Achievement award from the Citizens of Ormond Beach.

**Kristin Heron, Senior Curator of Exhibitions and Education** - paid full time.

Kristin joined the Museum staff in June of 2014. As Senior Curator of Exhibitions she is responsible for working with the Exhibition Committee to select and maintain a master exhibition schedule of owned collections and rotating exhibitions. She manages all logistics related to exhibition planning and installation. As Curator of Education, she oversees all educational programs and supervision of the Curator of Youth Programs and Outreach. She works closely with teachers and artists to implement a unique schedule of classes and workshops that showcase a variety of artistic expertise. She has a BA in Studio Art & Music from Rollins College, and her professional background includes exhibiting as a visual artist and teaching in a wide variety of settings.

**Diamond Johnson, Curator of Youth Programs & Outreach –** paid full time.

Diamond has a passion for bringing the community together with art and nature. Experience includes Art Consultant, Gallery 500, Art Educator, Stetson Baptist Christian School, VPK Facilitator, Wadsworth Elementary. She has a BA in Latin American Studies from the University of Central Florida and an AA in Fine Arts from Daytona State College. Diamond is responsible for developing and leading youth programs, Veterans programs and adult outreach programs for the museum.

**Linda King,** Weekend Reception and Educational Programs Instructor – paid part time

Linda holds a B.F.A. from Carnegie-Mellon University, Pittsburgh, PA in Graphic Design. She is a certified art teacher and has worked for OMAM as a weekend staff member and children's studio art teacher since July of 1998. Ms. King facilitates Free Family Art Night and other youth and adult classes.

- In August 2024, The Museum Director led a workshop with the staff generating a SOAR analysis prompted by the following questions and producing the results below:

1. **STRENGTHS**: Where are we now, and what can we build on? What makes us proud, unique and serves our mission?
2. **OPPORTUNITIES**: Where do we want to be? Where should we focus our efforts? Do we need new skills or tools, more stakeholders & members, to reframe challenges?
3. **ASPIRATIONS**: How will we get there? What are we deeply passionate about? Most compelling, programs that support this, what we do best.
4. **RESULTS:** How do we know if we are succeeding? Meaningful measures? Are more resources needed?

### STRENGTHS

- Team Synergy
- Exhibitions & Programs
- Gardens & Turtles
- Building / Location
- FFAN
- Fraser Collection
- Rooftop Events
- Museums 4 All

### OPPORTUNITIES

- Community Sponsorships
- Endowment Funding
- Diversity of Programming
- Wellness initiatives
- Digital presence
- Evenings & Weekend Programs
- Shared History
- Loss of Grant Funds
- Economic Challenges

### ASPIRATIONS

- Community Engagement
- Exceptional Exhibitions
- Customer Service
- Garden Tours and Signage
- Turtles and Butterflies
- Early Learning Programs
- Veterans Programs
- Museum Guild

### RESULTS

- Meeting Financial Goals
- Testimonials
- Membership Growth
- Tuition Growth
- Increased donations
- New Partnerships
- Rack Card Distribution
- Survey Kiosk
- Visitor Identifiers

# 5. OPERATING PLAN

The annual operating plan will quantify the strategic goals outlined in the 2025-2030 Strategic Plan and include the five areas of:

**Venue & visitor Experience**: Provide superior visitor experience through engaging and relevant exhibitions, gardens and facilities.

**Financial Stewardship and Strength**: Enhance financial resources to ensure sustainability and growth to advance our mission.

**Programming**: Offer diverse and unique opportunities that encourage, inspire and engage audiences through art and nature with an additional focus on Veterans.

**Outreach and Awareness**: Build awareness by strengthening strategic partnerships and collaborations and positioning OMAM as a cultural leader in Ormond Beach.

**Organizational Excellence**: Ensure excellence through commitment to our mission, best practices and industry standards.

**VENUE & VISITOR ACTIVITIES:**

- Select 8-10 main gallery exhibitions from submissions received. Release the call on Café and meet with the exhibition committee in January. Complete the FY 24-25 exhibition calendar by September 2024 – in advance of the new year.
- Schedule 10-12 Pop-Up exhibitions to coincide with the monthly community Art Walks. A call for submissions will be ongoing and posted on the OMAM website and collected through JotForm. OMAM Senior Curator will select the artists / exhibitions and coordinate the logistics.
- Create a catalog of the Malcolm Fraser Collection. The Senior Curator will coordinate this effort with the assistance of a qualified intern. The catalog will rank pieces in need of repair and the cost of the repairs.
- Consider stairwell gallery exhibition status.
- Install tactile garden signage by March 2025. Graphic design has been completed. A grant will be submitted to the Daytona Racing and Recreational Facilities for the cost of sign manufacturing ($10,000) The city of Ormond Beach will assist with installation.
- Interview for the contract position of Garden Apprentice. $10K has been budgeted for 10 hours per week.

- Develop the large pond “Turtle Sanctuary” to include feeding station with signage. A sponsor has expressed support for this initiative. Grow the symbolic turtle adoption program.

- Host members socials quarterly to engage our community and reach new audiences. Planned programs include, cake decorating, food and wine pairings, a Valentines Day wedding extravaganza! And celebration for Mother’s Day.

**FINANCIAL & OUTREACH ACTIVITIES:**

- Leverage BOD member relationships to increase annual exhibition and program sponsorship by $23,000 over last year (reach goal of $75,675). Begin solicitation of sponsors in October and communicate with sponsors at least three times per year.

- Identify new grants to offset the loss of the state grant. Confirm at a minimum of $7,400 in new funding.

- Reinvigorate the annual Art in the Garden fundraiser increasing attendance to 320 and gross income to $115,500.

- Raise $12,000 gross income with the new Gallery of Trees fall fundraising event.

- Add a “donate now” QR code in the gardens to track attendance and increase donations when the museum is not open.

  Grow the Museum membership revenue to $48,000 through increased engagement and transitioning to a digital membership card. The BOD will coordinate a new member drive in February. Staff will coordinate membership appreciation in March

  Utilize the Museum Guild to manage and expand gift shop sales to reach the goal of $30,00 in gross annual sales.

- Maximize outside rentals and bar sales with new venue packages. Utilize print advertising and social media boost to reach a larger potential renter audience and reach our goal of $43,300 in gross outside rentals and $18,000 in gross bar sales.

- Conduct grassroots relationship building with Veterans organizations to distribute OMAM rack cards and secure speaking opportunities to share our programs and increase participation.

- Grow our relationship with the Early Learning Coalition of Flagler and Volusia and solidify the presenting partnership of four Little Artists Workshops and three Little Notes and Narratives workshops. Continue the development of the dedicated early learning space in the OMAM Pavilion.

- Continue our relationship with the Family Renew Community by providing new families with an OMAM Art Kit.

- Establish a relationship with the Council on Aging and their Meals on Wheels Program to distribute OMAM Art Kits.

- Establish and grow our relationship with the Atlantic Center for the Arts and Monica Vidal, a licensed and trained art therapist, through the presentation of the wellness program Art it Through.

**PROGRAMMING & EXCELLENCE ACTIVITIES:**

- Continue the robust schedule of professional, diverse, engaging adult tuition-based classes to include 12 offerings per quarter (classes reduced in the summer) and reach our goal of $25,000 in adult tuition income. Offerings will include classes on Saturday afternoons and some evenings. New Classes will be offered in ceramics to utilize the kiln.

- Continue the successful youth art programs S.O.F.A – School's Out For Art on public school holidays, and Blooming Buddies held on spring break. Two new programs; Little Notes and Narratives and Youth Art Wave (monthly for ages 10-14) will be added in January and help us to reach our goal of $5,000 in youth-tuition income.

- Increase summer camp to seven weeks and reach our goal of $16,800 in tuition income.

- Enhance the popular Art of Healing program by including guest teachers and vocalists and musicians. Although a free program, wellness is a big part of our community service.

- Tuition-based classes in the garden will be offered four times per year. Twice in the fall and twice in the summer. Classes will vary between conservation and care of the flora and fauna of Florida and the biology and habitat of our turtles and butterflies.

OMAM is known for several signature programs that are beloved by our community. Most programming is free and open to the public. We will continue to offer:

- Monthly Art Walk pop-up exhibitions and quarterly live music social on the rooftop
- Monthly Free Family Art Night in the classroom
- Annual tribute to Veterans in November
- Annual Starry, Starry Night Gallery Stroll in January.
- Annual Art in the Park – Arts and Crafts Festival in May

Nature's Art Box – a partnership with the Garden Club of the Halifax Country. Local elementary students participate in an environmentally themed art project in the gardens led by club volunteers.

# 6. PR & MARKETING PLAN

The focus of the PR marketing and advertising plan will be to increase paid engagement with the Museum through increased sponsorship, membership, outside rental events, and tuition-based programs. OMAM will contract with Carter Creative for PR & marketing services and RBA Advertising for Google SEO and add management. Staff will coordinate social media.

- **Key messages:**

  At OMAM, we believe that art, culture, and education should be accessible to all who seek inspiration and knowledge. Membership supports this ideal and provides exclusive access to unique experiences.

  At OMAM we recognize the power of collaboration. Our Sponsorship Program is designed for businesses and individuals that share our commitment to inspiring creativity, education, and cultural enrichment in our community.

  At OMAM we believe in the power of art and nature to transform lives. The serenity of the botanical gardens and unique attributes of our rooftop terrace provide the perfect venue for weddings, celebrations and other special gatherings.

- **Activities:**

  - Print advertising in the Ormond Beach Observer and Stroll Magazine.
  - Direct mailing of quarterly Museum programs and exhibitions guide to members.
  - Direct mailing of exhibit opening invitations, special event invitations and announcements to Premier Members, Sponsors, and Elected Officials.
  - Digital marketing on social media with Google SEO and ad-words promotions.
  - Printed rack cards and garden maps for community distribution and OMAM lobby display.
  - Large outdoor display poster of museum programs and events. Monthly.
  - E-mail marketing; monthly newsletters to all members, weekly newsletters to segments for workshops, classes, youth programs and garden programs and special events.
  - Printed Annual Report for distribution at the annual dinner and beyond.

# GENERAL LIABILITY DELUXE ENDORSEMENT: CULTURAL INSTITUTIONS

This endorsement modifies insurance provided under the following:

**COMMERCIAL GENERAL LIABILITY COVERAGE**

It is understood and agreed that the following extensions only apply in the event that no other specific coverage for the indicated loss exposure is provided under this policy. If such specific coverage applies, the terms, conditions and limits of that coverage are the sole and exclusive coverage applicable under this policy, unless otherwise noted on this endorsement. The following is a summary of the Limits of Insurance and additional coverages provided by this endorsement. For complete details on specific coverages, consult the policy contract wording.

| Coverage Applicable | Limit of Insurance | Page # |
|---|---|---|
| Extended Property Damage | Included | 2 |
| Non-Owned Watercraft | Less than 58 feet | 2 |
| Damage to Premises Rented to You | $1,000,000 | 2 |
| Personal and Advertising Injury – Televised or Videotaped Publication | Included | 3 |
| Medical Payments | $20,000 | 4 |
| Medical Payments – Extended Reporting Period | 3 years | 4 |
| Athletic Activities | Amended | 4 |
| Supplementary Payments – Bail Bonds | $5,000 | 4 |
| Supplementary Payment – Loss of Earnings | $1,000 per day | 4 |
| Employee Indemnification Defense Coverage | $25,000 | 5 |
| Additional Insured – Managers and Supervisors (with Fellow Employee Coverage) | Included | 5 |
| Additional Insured – Broadened Named Insured | Included | 5 |
| Additional Insured – Funding Source | Included | 5 |
| Additional Insured – Managers, Landlords, or Lessors of Premises | Included | 5 |
| Additional Insured – Lessor of Leased Equipment | Included | 5 |
| Additional Insured – Vendor | Included | 6 |
| Additional Insured – As Required by Contract | Included | 7 |
| Additional Insured – State or Political Subdivisions | Included | 7 |
| General Aggregate Per Location | Included | 7 |
| Duties in the Event of Occurrence, Claim or Suit | Included | 7 |
| Unintentional Failure to Disclose Hazards | Included | 8 |
| Transfer of Rights of Recovery Against Others To Us | Clarification | 8 |
| Liberalization | Included | 8 |
| Bodily Injury – includes Mental Anguish | Included | 8 |
| Personal and Advertising Injury – includes Abuse of Process, Discrimination | Included | 8 |

**A. Extended Property Damage**

**SECTION I – COVERAGES**, **COVERAGE A BODILY INJURY AND PROPERTY DAMAGE LIABILITY**, Subsection **2. Exclusions**, Paragraph **a.** is deleted in its entirety and replaced by the following:

**a. Expected or Intended Injury**

"Bodily injury" or "property damage" expected or intended from the standpoint of the insured. This exclusion does not apply to "bodily injury" or "property damage" resulting from the use of reasonable force to protect persons or property.

**B. Non-Owned Watercraft**

**SECTION I – COVERAGES**, **COVERAGE A BODILY INJURY AND PROPERTY DAMAGE LIABILITY**, Subsection **2. Exclusions,** Paragraph **g.** (2) is deleted in its entirety and replaced by the following:

(2) A watercraft you do not own that is:

(a) Less than 58 feet long; and

(b) Not being used to carry persons or property for a charge;

This provision applies to any person, who with your consent, either uses or is responsible for the use of a watercraft. This insurance is excess over any other valid and collectible insurance available to the insured whether primary, excess or contingent.

**C. Damage to Premises Rented to You**

**1.** If damage by fire to premises rented to you is not otherwise excluded from this Coverage Part, the word "fire" is changed to "fire, lightning, explosion, smoke, or leakage from automatic fire protective systems" where it appears in:

**a.** The last paragraph of **SECTION I – COVERAGES**, **COVERAGE A BODILY INJURY AND PROPERTY DAMAGE LIABILITY**, Subsection **2. Exclusions**; is deleted in its entirety and replaced by the following:

Exclusions **c.** through **n.** do not apply to damage by fire, lightning, explosion, smoke, or leakage from automatic fire protective systems to premises while rented to you or temporarily occupied by you with permission of the owner. A separate limit of insurance applies to this coverage as described in **SECTION III – LIMITS OF INSURANCE**.

**b. SECTION III – LIMITS OF INSURANCE**, Paragraph 6. is deleted in its entirety and replaced by the following:

Subject to Paragraph 5. above, the Damage To Premises Rented To You Limit is the most we will pay under Coverage A for damages because of "property damage" to any one premises, while rented to you, or in the case of damage by fire, lightning, explosion, smoke, or leakage from automatic fire protective systems while rented to you or temporarily occupied by you with permission of the owner.

**c. SECTION V – DEFINITIONS**, Paragraph 9.a., is deleted in its entirety and replaced by the following.

Includes copyrighted material of Insurance Services Office, Inc., with permission.
© 2012 Philadelphia Indemnity Insurance Company

A contract for a lease of premises. However, that portion of the contract for a lease of premises that indemnifies any person or organization for damage by fire, lightning, explosion, smoke, or leakage from automatic fire protective systems to premises while rented to you or temporarily occupied by you with permission of the owner is not an "insured contract";

2. **SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS**, Subsection **4. Other Insurance**, Paragraph **b. Excess Insurance**, **(1)(a)(ii)** is deleted in its entirety and replaced by the following:

   That is insurance for fire, lightning, explosion, smoke, or leakage from automatic fire protective systems for premises rented to you or temporarily occupied by you with permission of owner;

3. The Damage To Premises Rented To You Limit section of the Declarations is amended to the greater of:

   **a.** $1,000,000; or

   **b.** The amount shown in the Declarations as the Damage to Premises Rented to You Limit.

   This is the most we will pay for all damage proximately caused by the same event, whether such damage results from fire, lightning, explosion, smoke, or leaks from automatic fire protective systems or any combination thereof.

**D. Personal and Advertising Injury – Televised or Videotaped Publication**

1. **SECTION I – COVERAGES, COVERAGE B PERSONAL AND ADVERTISING INJURY LIABILITY**, Subsection **2. Exclusions**, Paragraphs **b.** and **c.** are deleted in their entirety and replaced by the following:

   **b. Material Published With Knowledge Of Falsity**

   "Personal and advertising injury" arising out of oral, written, televised, or videotaped publication of material, if done by or at the direction of the insured with knowledge of its falsity.

   **c. Material Published Prior To Policy Period**

   "Personal and advertising injury" arising out of oral, written, televised, or videotaped publication of material whose first publication took place before the beginning of the policy period.

2. **SECTION V – DEFINITIONS**, Paragraph **14.** Is deleted in its entirely and replaced by the following.

   "Personal and advertising injury" means injury, including consequential "bodily injury", arising out of one or more of the following offenses:

   **a.** False arrest, detention or imprisonment;

   **b.** Malicious prosecution;

   **c.** The wrongful eviction from, wrongful entry into, or invasion of the right of private occupancy of a room, dwelling or premises that a person occupies, committed by or on behalf of its owner, landlord or lessor;

Includes copyrighted material of Insurance Services Office, Inc., with permission.
© 2012 Philadelphia Indemnity Insurance Company

**d.** Oral, written, televised, or videotaped publication, in any manner, of material that slanders or libels a person or organization or disparages a person's or organization's goods, products or services;

**e.** Oral, written, televised, or videotaped publication, in any manner, of material that violates a person's right of privacy;

**f.** The use of another's advertising idea in your "advertisement"; or

**g.** Infringing upon another's copyright, trade dress, slogan, title, or slogan in your "advertisement."

**E. Medical Payments – Limit Increased to $20,000, Extended Reporting Period**

If **COVERAGE C MEDICAL PAYMENTS** is not otherwise excluded from this Coverage Part:

**1.** The Medical Expense Limit is changed subject to all of the terms of **SECTION III – LIMITS OF INSURANCE** to the greater of:

**a.** $20,000; or

**b.** The Medical Expense Limit shown in the Declarations of this Coverage Part.

**2. SECTION I – COVERAGE**, **COVERAGE C MEDICAL PAYMENTS,** Subsection **1. Insuring Agreement**, a. (3) (b) is deleted in its entirety and replaced by the following:

(b) The expenses are incurred and reported to us within three years of the date of the accident.

**F. Athletic Activities**

**SECTION I – COVERAGES**, **COVERAGE C MEDICAL PAYMENTS**, Subsection **2. Exclusions**, Paragraph **e. Athletic Activities** is deleted in its entirely and replaced with the following:

**e. Athletic Activities**

To a person injured while taking part in athletics.

**G. Supplementary Payments**

**SECTION I – COVERAGES, SUPPLEMENTARY PAYMENTS – COVERAGE A AND B** are amended as follows.

**1. b.** is deleted in its entirety and replaced by the following:

**1. b.** Up to $5000 for cost of bail bonds required because of accidents or traffic law violations arising out of the use of any vehicle to which the Bodily Injury Liability Coverage applies. We do not have to furnish these.

**1.d.** is deleted in its entirety and replaced by the following:

**1. d.** All reasonable expenses incurred by the insured at our request to assist us in the investigation or defense of the claim or "suit", including actual loss of earnings up to $1,000 a day because of time off from work.

Includes copyrighted material of Insurance Services Office, Inc., with permission.
© 2012 Philadelphia Indemnity Insurance Company

**H. Employee Indemnification Defense Coverage**

**SECTION I – COVERAGES, SUPPLEMENTARY PAYMENTS – COVERAGES A AND B** the following is added:

We will pay, on your behalf, defense costs incurred by an "employee" in a criminal proceeding occurring in the course of employment.

The most we will pay for any "employee" who is alleged to be directly involved in a criminal proceeding is $25,000 regardless of the numbers of "employees," claims or "suits" brought or persons or organizations making claims or bringing "suits."

**I. Additional Insureds**

**SECTION II – WHO IS AN INSURED** is amended as follows:

Each of the following is also an insured:

1. **Managers and Supervisors** – Your managers and supervisors are also insureds, but only with respect to their duties as your managers and supervisors. Managers and supervisors who are your "employees" are also insureds for "bodily injury" to a co-"employee" while in the course of his or her employment by your or performing duties related to the conduct of your business.

   This provision does not change Item 2.a.(1)(a) as it applies to managers of a limited liability company.

2. **Broadened Named Insured –** Any organization and subsidiary thereof which you control and actively manage on the effective date of this Coverage Part. However, coverage does not apply to any organization or subsidiary not named in the Declarations as Named Insured, if they are also insured under another similar policy, but for its termination or the exhaustion of its limits of insurance.

3. **Funding Source** – Any person or organization with respect to their liability arising out of:

   **a.** Their financial control of you; or

   **b.** Premises they own, maintain or control while you lease or occupy these premises.

   This insurance does not apply to structural alterations, new construction and demolition operations performed by or for that person or organization.

4. **Managers, Landlords, or Lessors of Premises** – Any person or organization with respect to their liability arising out of the ownership, maintenance or use of that part of the premises leased or rented to you subject to the following additional exclusions:

   This insurance does not apply to:

   **a.** Any "occurrence" which takes place after you cease to be a tenant in that premises; or

   **b.** Structural alterations, new construction or demolition operations performed by or on behalf of that person or organization.

5. **Lessor of Leased Equipment – Automatic Status When Required in Lease Agreement With You –** Any person or organization from whom you lease equipment when you and such person or organization have agreed in writing in a contract or agreement that such person or

Includes copyrighted material of Insurance Services Office, Inc., with permission.
© 2012 Philadelphia Indemnity Insurance Company

organization is to be added as an additional insured on your policy. Such person or organization is an insured only with respect to liability for “bodily injury,” “property damage” or “personal and advertising injury” caused, in whole or in part, by your maintenance, operation or use of equipment leased to you by such person or organization.

A person’s or organization’s status as an additional insured under this endorsement ends when their contract or agreement with you for such leased equipment ends.

With respect to the insurance afforded to these additional insureds, this insurance does not apply to any “occurrence” which takes place after the equipment lease expires.

**6.** **Vendors** – Any person(s) or organization(s) (referred to below as vendor), but only with respect to "bodily injury" or "property damage" arising out of "your products" which are distributed or sold in the regular course of the vendor's business, subject to the following additional exclusions:

**a.** The insurance afforded the vendor does not apply to:

**(1)** “Bodily injury" or "property damage" for which the vendor is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages that the vendor would have in the absence of the contract or agreement;

**(2)** Any express warranty unauthorized by you;

**(3)** Any physical or chemical change in the product made intentionally by the vendor;

**(4)** Repackaging, except when unpacked solely for the purpose of inspection, demonstration, testing, or the substitution of parts under instructions from the manufacturer, and then repackaged in the original container;

**(5)** Any failure to make such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products;

**(6)** Demonstration, installation, servicing or repair operations, except such operations performed at the vendor's premises in connection with the sale of the product;

**(7)** Products which, after distribution or sale by you, have been labeled or relabeled or used as a container, part or ingredient of any other thing or substance by or for the vendor; or

**(8)** "Bodily injury" or "property damage" arising out of the sole negligence of the vendor for its own acts or omissions or those of its employees or anyone else acting on its behalf. However, this exclusion does not apply to:

**(a)** The exceptions contained in Sub-paragraphs **(4)** or **(6)**; or

**(b)** Such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products.

**b.** This insurance does not apply to any insured person or organization, from whom you have acquired such products, or any ingredient, part or container, entering into, accompanying or containing.

Includes copyrighted material of Insurance Services Office, Inc., with permission.
© 2012 Philadelphia Indemnity Insurance Company

7. **As Required by Contract** – Any person or organization where required by a written contract executed prior to the occurrence of a loss. Such person or organization is an additional insured for "bodily injury," "property damage" or "personal and advertising injury" but only for liability arising out of the negligence of the named insured. The limits of insurance applicable to these additional insureds are the lesser of the policy limits or those limits specified in a contract or agreement. These limits are included within and not in addition to the limits of insurance shown in the Declarations

8. **State or Political Subdivisions –** Any state or political subdivision as required, subject to the following provisions:

   **a.** This insurance applies only with respect to operations performed by you or on your behalf for which the state or political subdivision has issued a permit, and is required by contract.

   **b.** This insurance does not apply to:

      **(1)** "Bodily injury," "property damage" or "personal and advertising injury" arising out of operations performed for the state or municipality; or

      **(2)** "Bodily injury" or "property damage" included within the "products-completed operations hazard."

**J. General Aggregate Per Location**

**SECTION III – LIMITS OF INSURANCE**, Paragraph **2.** Is amended to include the following additional provision:

The General Aggregate Limit applies separately to each of your "locations" owned by or rented to you.

"Location" means premises involving the same or connecting lots, or premises whose connection is interrupted only by a street, roadway, waterway or right-of-way of a railroad.

**K. Duties in the Event of Occurrence, Claim or Suit**

**SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS**, Paragraph **2.** is amended as follows:

Item **a.** is amended to include:

This condition applies only when the “occurrence” or offense is known to:

**(1)** You, if you are an individual;

**(2)** A partner, if you are a partnership; or

**(3)** An executive officer or insurance manager, if you are a corporation.

Item **b.** is amended to include:

This condition will not be considered breached unless the breach occurs after such claim or “suit” is known to:

**(1)** You, if you are an individual;

**(2)** A partner, if you are a partnership; or

Includes copyrighted material of Insurance Services Office, Inc., with permission.
© 2012 Philadelphia Indemnity Insurance Company

**(3)** An executive officer or insurance manager, if you are a corporation.

**L. Unintentional Failure To Disclose Hazards**

**SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS, 6. Representations** is amended to include the following:

It is agreed that, based on our reliance on your representations as to existing hazards, if you should unintentionally fail to disclose all such hazards prior to the beginning of the policy period of this Coverage Part, we shall not deny coverage under this Coverage Part because of such failure.

**M. Transfer of Rights of Recovery Against Others To Us**

**SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS, 8. Transfer of Rights of Recovery Against Others To Us** is deleted in its entirety and replaced by the following:

If the insured has rights to recover all or part of any payment we have made under this Coverage Part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request, the insured will bring "suit" or transfer those rights to us and help us enforce them.

Therefore, the insured can waive the insurer's Rights of Recovery prior to the occurrence of a loss, provided the waiver is made in a written contract.

**N. Liberalization**

**SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS,** is amended to include the following:

If we revise this endorsement to provide more coverage without additional premium charge, we will automatically provide the additional coverage to all endorsement holders as of the day the revision is effective in your state.

**O. Bodily Injury – Mental Anguish**

**SECTION V – DEFINITIONS**, Paragraph **3.** is deleted in its entirety and replaced by the following:

"Bodily injury":

**a.** Means bodily injury, sickness or disease sustained by a person, and includes mental anguish resulting from any of these; and

**b.** Except for mental anguish, includes death resulting from the foregoing (Item **a.** above) at any time.

**P. Personal and Advertising Injury – Abuse of Process, Discrimination**

If **COVERAGE B PERSONAL AND ADVERTISING INJURY LIABILITY COVERAGE** is not otherwise excluded from this Coverage Part, the definition of "personal and advertising injury" is amended as follows:

1. **SECTION V – DEFINITIONS**, Paragraph **14.b.** is deleted in its entirety and replaced by the following:

   b. Malicious prosecution or abuse of process;

2. **SECTION V – DEFINITIONS**, Paragraph **14.** is amended to include the following:

Includes copyrighted material of Insurance Services Office, Inc., with permission.
© 2012 Philadelphia Indemnity Insurance Company

Discrimination based on race, color, religion, sex, age or national origin, except when:

**a.** Done intentionally by or at the direction of, or with the knowledge or consent of:

**(1)** Any insured; or

**(2)** Any executive officer, director, stockholder, partner or member of the insured;

**b.** Directly or indirectly related to the employment, former or prospective employment, termination of employment, or application for employment of any person or persons by an insured;

**c.** Directly or indirectly related to the sale, rental, lease or sublease or prospective sales, rental, lease or sub-lease of any room, dwelling or premises by or at the direction of any insured; or

**d.** Insurance for such discrimination is prohibited by or held in violation of law, public policy, legislation, court decision or administrative ruling.

The above does not apply to fines or penalties imposed because of discrimination.

**RESOLUTION NO. 2024-135**

A RESOLUTION AUTHORIZING EXECUTION OF A SERVICE AGREEMENT BETWEEN THE CITY AND THE ORMOND MEMORIAL ART MUSEUM, INC.; AUTHORIZING THE EXPENDITURE OF FUNDING; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS**, the City Commission desires to enter into an agreement with the Ormond Memorial Art Museum, Inc. regarding the activities and functions connected with the maintenance and operation of the museum, and

**WHEREAS**, the City Manager has certified that the City's $75,150.00 funding contribution has been appropriated in the General Fund (001) and has not been appropriated for any other purpose, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE.** The Mayor and the City Manager are hereby authorized and directed to execute a Service Agreement between the City of Ormond Beach and the Ormond Memorial Art Museum, Inc. regarding the activities and functions connected with the maintenance and operation of the museum, a copy of said Agreement being attached hereto and incorporated herein by reference.

**SECTION TWO.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 4th day of September, 2024.**

Bill Partington

**BILL PARTINGTON**
Mayor

**ATTEST:**

**SUSAN CARROLL DAUDERIS**
City Clerk

**SERVICE AGREEMENT**
**FOR ORMOND MEMORIAL ART MUSEUM, INC.**

**THIS AGREEMENT** is entered into by and between the **CITY OF ORMOND BEACH ("CITY"),** a Florida municipal corporation, and **ORMOND MEMORIAL ART MUSEUM, INC. ("MUSEUM"),** a Florida non-profit corporation, in consideration of the terms and conditions described as follows.

1. **Recitals.** The parties agree that the foregoing recitals are true and correct and are incorporated herein by reference and are part of this Agreement.

2. **Term.** This Agreement shall be effective on the date it is last signed by the undersigned parties and shall continue in effect through and including September 30, 2025. Thereafter, this Agreement may be renewed for additional one (1) year periods beginning on October 1st and ending on September 30th of the following year.

3. **Responsibilities of the Respective Parties.**

*The MUSEUM shall be responsible for the following:*

*a)* Administering a professional Art Museum, including programs and exhibitions, that shall be open and free to the public Monday through Saturday, 10:00 a.m. to 4:00 p.m.; and Sunday, 12:00 p.m. to 4:00 p.m. Closed major holidays and between exhibitions.

b) Hosting monthly pop-up professionally curated Art Exhibitions in the museum galleries as well as in different locations throughout the City.

c) Conducting both in person and online educational art enrichment and outreach programs in the museum classroom(s) and offsite to support underserved Ormond

Beach population with *Free Family Art Nights,* programs for veterans, programs for visitors with limited or no vision, and to those with medical conditions.

d) Participating and representing Ormond Beach at Volusia County Cultural Alliance and participate in ECHO Ranger Children's Program.

e) Offering online art and nature education classes for adults and children, including a summer camp for 2025.

f) Collaborating and partnering with the City of Ormond Beach and Ormond Beach Main Street to host Art in the Park Art Show, and other community cultural events.

g) Hosting a Veteran's Day Tribute reception or event annually.

h) Maintaining an active presence for Ormond Beach and Ormond Memorial Art Museum in the Florida Association of Museums and the American Alliance of Museums.

i) Stewarding and professionally maintaining and marketing the Malcolm Fraser collection of paintings.

j) Maintaining the preservation of the Gardens by providing the labor, material and maintenance for the formal planting of flower beds with annuals, providing change of color with each season as per attached Memorial Gardens Care Plan.

k) Operating under the Art Museum Advisory Board derived from the Ormond Memorial Art Museum, Inc.

l) Collecting and disseminating data, providing assistance to City committees, Quality of Life Board, Leisure Services Advisory Board, Ormond Memorial Art Board, and attending various meetings relative to such tasks.

m) Providing information to the City of Ormond Beach webpage in regards to programming information as it relates to the Ormond Memorial Art Museum and Gardens.

n) Maintaining an Art Museum Director.

o) Scheduling and providing rental opportunities for weddings and social functions in the Museum, gazebo and the gardens. The fees charged shall be consistent with the City's Fee Schedule as approved annually. Museum shall be entitled to retain all rental fees collected. It is the Museum's responsibility to ensure that the renting parties execute use agreements, provide insurance, and execute a release of liability and indemnity agreement (requirements are more specifically described in the Ormond Memorial Lease Agreement). The Museum shall permit use of meeting rooms by City staff or officials without charge when such use is for City purposes and does not conflict with another previously scheduled event.

*The CITY shall be responsible for the following:*

a) The City shall make an annual contribution to the Ormond Art Museum in the total sum of seventy five thousand one hundred fifty and 00/100 ($75,150.00), payable in quarterly installments of eighteen thousand seven hundred eighty seven and 50/100 dollars ($18,787.50).

b) The parties shall be responsible for maintenance and repair of the structures and facilities as provided in the Ormond Memorial Art Museum Lease Agreement. Janitorial services shall be provided by the Museum.

c) The City shall provide regular grounds maintenance services in coordination with the Museum Gardener's duties and as provided in the attached Memorial Gardens Care Plan.

d) The City shall be responsible for the payment of all electrical and water charges in the Gardens.

e) Any proposed capital improvements shall be approved by, and at the discretion of, the Ormond Beach City Commission.

f) The City shall have oversight for the garden memorials, with garden benches and specific plants, donated by local residents as tributes to family members and friends.

g) The City shall allow Museum non-exclusive use of the grassy area located behind the St. James church as overflow parking. Reservations for use of the overflow parking area must be made with the City's designated representative. The parking area is depicted on Exhibit "A" which is attached hereto and incorporated herein by reference. The Museum shall ensure that its liability insurance policy is updated to reflect insurance coverage for this additional parking lot area.

4. **Art Museum Advisory Board.** The responsibilities of the parties delineated in this Agreement are consistent with the purpose of the Art Museum Advisory Board set forth in Section 2-219, City of Ormond Beach *Code of Ordinances*.

The City Manager, or designee, and the chairman of the Quality of Life advisory board shall be ex officio voting members of the board of directors of the MUSEUM, in accordance with Section 2-219, *Code of Ordinances*.

5. **Termination of Agreement.** Either party may terminate this Agreement without cause upon giving the other party at least sixty (60) days prior written notice of the intention to terminate this Agreement.

6. **Relationship of Parties.** Neither the CITY (including any of its elected or appointed officers, employees, agents or other representatives) nor MUSEUM (including any of its directors, officers, employees, agents or other representatives) are the employee, agent, or other representative of the other party; and all activity performed by either party pursuant to and in furtherance of this Agreement, whether directly or indirectly related to this Agreement, shall constitute the separate and independent act of the respective party performing said act.

7. **Liability and Indemnification.** MUSEUM shall fully defend, indemnify, save, and hold the CITY (including its elected and appointed officers, employees, agents, and other representatives) harmless from and against all suits, action, claims, proceedings, demands, or liability of any nature whatsoever (including attorney's fees through and including all appeals), arising from injury, loss, or damage to any person or property, which is directly or indirectly caused by or results from any act or negligence of MUSEUM (including its directors, officers, employees, agents and other representatives).

8. **Miscellaneous.** MUSEUM shall:

   **a)** Obtain and maintain at its sole expense, all applicable licenses, permits and certificates which are necessary to discharge MUSEUM'S duties under this Agreement.

   **b)** Be solely responsible for paying all costs relative to the discharge of its duties under this Agreement, except as otherwise indicated herein.

c) Comply with all applicable federal, state, and local laws, rules, and regulations.

d) Have the option to serve beer, wine and liquor under the following conditions:

- Any profits of the sale of alcohol at the MUSEUM shall directly benefit MUSEUM operations.
- The MUSEUM must ensure that the MUSEUM and any vendors comply with state liquor licensing, and all state and local regulations.
- The MUSEUM shall maintain liquor liability insurance of no less than 1 million per occurrence naming the CITY as an additional insured, and shall require any vendors selling alcohol to provide proof of liquor liability insurance in the same amount.
- The MUSEUM shall indemnify and hold the CITY harmless from any liability resulting from any personal injury or property damage occurring as a result of any service or sale of alcohol at the MUSEUM.
- The MUSEUM is ultimately responsible for maintaining appropriate safety and security at any event where alcohol is served or sold. At any event in which alcohol is served, supervision by MUSEUM staff is mandatory.
- All applications for use of the MUSEUM by third parties shall state whether alcohol will be sold or served.
- All records of alcohol sales shall be provided by the MUSEUM to the CITY as part of the annual report accounting of the Museum's

revenues from events and operation of concessions as required by the Ormond Memorial Art Museum Lease Agreement

- The City shall have the right to terminate alcohol sales or service at the MUSEUM if any of the above conditions are not met.

**9. Assignment.** Neither this Agreement nor any part thereof may be assigned to any other person or entity without the prior written consent of the City Commission.

**10. Sovereign Immunity.** The CITY expressly retains all rights, privileges, immunities, and benefits of sovereign immunity. This provision shall be construed broadly in favor of the CITY.

**11. Complete Agreement.** The terms of this Service Agreement are incorporated into the Lease of the Ormond Memorial Art Museum and Building effective October 1, 2019, and together, these Agreements constitute the entire and complete agreement by and between the parties.

**12. Amendments.** This Agreement may not be amended unless such changes are reduced to writing, which amendments must be approved by the City Commission, and signed by both parties.

**13. Public Purpose.** The allocation and expenditure of public funds herein provided are intended to serve clearly identifiable and concrete public purposes as the primary objective of this agreement, with a reasonable expectation that such public purposes will be substantially and effectively accomplished, and that the public funds provided herein are not to be used for general functions or purposes of MUSEUM. The parties determine that the use of the public funds are intended to satisfy the "public purpose" principles established in O'*Neill v. Burns,* 198 So.2d 1 (Fla. 1967) and Florida Attorney General Opinion 75-221 (July 24, 1975).

14. **Compliance With Florida Public Records Law.** MUSEUM expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records that ordinarily and necessarily would be required by the City in order to perform the contracted service.

(b) Provide the public with access to public records on the same terms and conditions that the City would provide the records and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

(d) Meet all requirements for retaining public records and transfer, at no cost, to the City all public records in possession of the MUSEUM upon termination of the contract and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the City in a format that is compatible with the information technology systems of the City.

(e) Failure of MUSEUM to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Agreement to termination for cause by the City.

**IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:**

# AGENDA ITEM

September 4, 2024 - City Commission

**Number:** 8.A

| | | | |
|---|---|---|---|
| **Section:** | CONSENT AGENDA | | |
| **Item Category:** | Consent - Resolution | **Res./Ord. No:** | 2024-135 |
| **Strategic Goal:** | Quality of Life - Other | | |
| **Department:** | Leisure Services | | |
| **Subject:** | Ormond Beach Memorial Art Museum Service Agreement | | |
| **Summary:** | This is the renewal of the annual contract for services agreement with the Ormond Memorial Art Museum (OMAM). The contract has been renewed annually since 2008, and remains in effect through September 30, 2024. Per the agreement, the contract may be renewed for additional one-year periods based upon the City's fiscal calendar. OMAM is a critical cultural addition to the downtown area and has consistently provided excellent service to the City, residents, and visitors.<br><br>Ormond Memorial Art Museum (OMAM) is requesting a 3% increase, totaling $2,190, in the annual contribution from the City of Ormond Beach from $72,960 to $75,150. The increase will help offset higher costs of providing services, such as programming, marketing, cleaning, security, and maintenance, to reflect current market rates and support additional visitors, programming, and expanded operational hours. | | |
| **Financial Impact:** | OMAM is requesting a 3% increase to the annual contribution from the City of Ormond Beach from $72,960 to $75,150. The annual funding assists OMAM in providing free admittance 7 days a week, and supports the free art outreach programs for veterans. In addition to the annual funding, City staff maintains the following at the OMAM:<br><br>• Flags - replacement<br>• Fountain - operational issues, piping issues, pump replacement when required<br>• Bathrooms - faucets, toilets, drains<br>• Water bubblers<br>• Elevator maintenance coordination<br>• Air conditioning troubleshooting and repairs<br>• Pest control | | |

| | |
|---|---|
| | • General repairs - outside faucets, outside plumbing, waterfall troubleshooting<br>• Gazebo repairs<br>• Parking area wall repairs<br>• Electrical issues - lighting, resets, parking area<br>• Doors - closers, handles, locks<br>• Moving furniture<br>• Pressure washing<br>• Roof issues when required<br>• Painting if requested<br><br>Yellowstone Landscape provides landscape and lawn mowing services with 39 visits per year. Services include irrigation maintenance and repair, fertilization, mulch and detail services. Additionally, Yellowstone Landscape blows the garden paths off 3 times per week. Annual costs for all landscape and lawn mowing services is $16,793.15. This is in addition to the annual OMAM contribution. |
| **Citizen Impact:** | OMAM provides an important service to the community historically and culturally. The various tributes to local war veterans located at the facility are a meaningful feature of the museum. The museum provides year-round art exhibits, classes, and cultural events that are professionally created, organized, and managed by the OMAM staff. |
| **Recommended Action (Staff, Advisory Board and/or Other):** | Staff is recommending approval of the renewal agreement for services with the OMAM for an additional year, with the effective date of October 1, 2024. |

July 8, 2024

Joyce Shanahan, City Manager
Robert Carolin, Leisure Services Director
City of Ormond Beach, Florida

Hello Joyce and Robert,

Thank you for your support of OMAM! We are proud to be a part of our thriving Ormond Beach community and value our 78-year partnership very much. We are pleased to share our programs and successes with you.

Our new beautiful building's location at the highly visibly intersection of east Granada Blvd. and Halifax Ave positions OMAM as an anchor to the cultural community in Ormond Beach. We have seen a steady increase in daily museum and garden attendance and have added several new programs and opportunities for engagement.

This year we set out to offer relevant and vibrant programs to our community with a focus on three distinct areas: Exhibitions, Education and Outreach. To reach these goals, we have hired additional staff and extended our weekend and evening hours and program offerings. Please follow this link to our website to see our quarterly program guides.

https://www.ormondartmuseum.org/classes-programs/quarterly-guides.html

We are happy to report that we have already met or exceeded many of our goals with third quarter numbers still outstanding.

**Exhibition goals highlights**: In May, our Curatorial staff and exhibition committee reviewed over 200 artists submissions! More submissions were received than ever before representing artists of varying mediums and from across the country. We are excited to feature never before seen artists and exhibitions to our community in 2025-2026. Our Malcolm Fraser art collection is now in museum quality storage in the museum rather than in an offsite storage facility. Additionally, OMAM is proud to offer local and regional artists the opportunity to exhibit their art through our monthly Pop-Up exhibitions.

**Education goals highlights**: The OMAM botanical gardens have been a resource for our community for many years. This year we added wellness programs in the garden gazebo, two visiting master gardener talks and two musical performances! Our Curator of Youth Programs and Outreach has been busy! We added *S.O.F.A - School's Out for Art* to serve our students on school vacation days and a new partnership with the Early Learning Coalition to reach pre-kindergarten youth and families. We are proud to continue our partnership with the Garden Club of the Halifax Country and offer the program *Natures Art Box* to local elementary students.

**Outreach goals highlights**: The outreach goals for this year were very board centric and focused on museum sustainability. You may remember when County Cultural Grants were threatened last year, and the more recent announcement that the State of Florida will not fund the cultural arts grant this year. The OMAM board realized we must be proactive and develop other sources of revenue and launched an annual program to solicit philanthropic sponsors. This program has been successful and has ensured OMAM will not operate in a deficit this year, although, 2023-2024 has been financially challenging in other ways due to increased operating costs related to inflation and necessary wage increases.

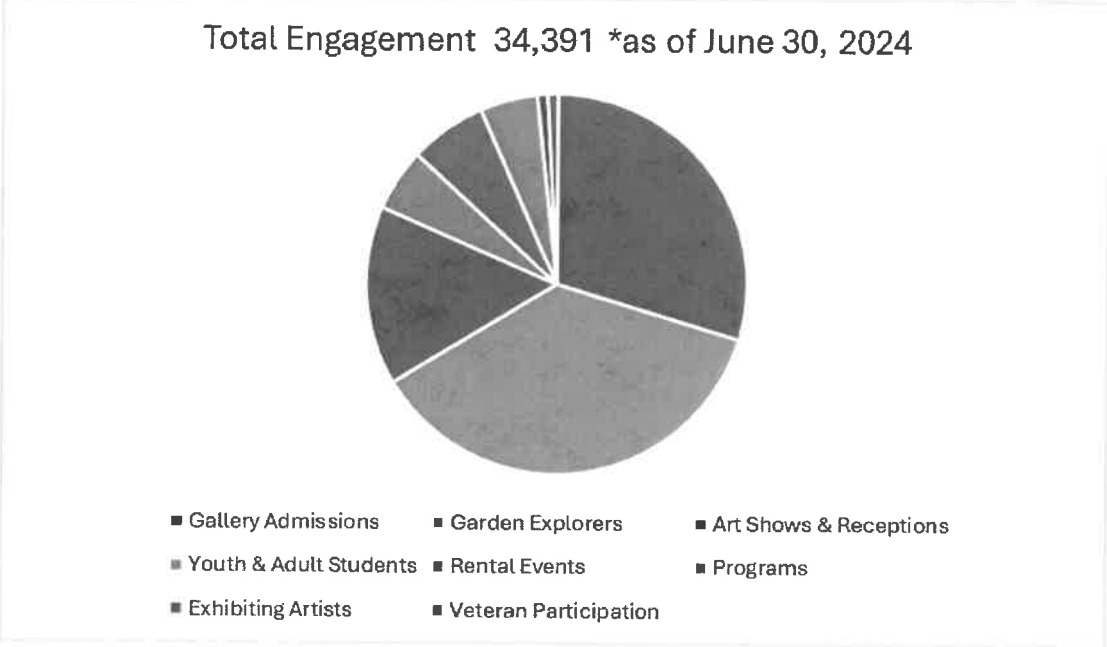
We would like to request the continuation of our annual agreement for services and a 3% increase to the annual contribution from the city from $72,960 to $75,150. This increase will primarily help to offset the higher costs of providing services, cleaning and security to accommodate more visitors.

May we also request the following updates to the service agreement:

**The Museum shall be responsible for the following:**
* Item 3(a) the museum is now open Monday - Saturday from 10am - 4pm and noon to 4pm on Sundays.

* Item 3(b) hosting monthly pop-up professionally curated Art Exhibitions each month in the museum galleries as well as in different locations throughout the city.

* Item 3(c) Conducting both in person and online educational art enrichment and outreach programs in the museum classroom(s) and offsite to support underserved Ormond Beach residents with *Free Family Art Nights*, programs for Veterans, programs for visitors with limited or no vision, and those in medical situations.



* Item 3(h) - American Alliance of Museums (correct name)

**The City shall be responsible for the following:**
* Item 3(a) OMAM has requested an increase in funding.

**Memorial Gardens Care Plan:**
Museum Gardener: funding: City of Ormond Beach $11,640 (included in annual contribution); OMAM $26,148 (includes proposed 3% increase for FY2024-25)

We are pleased to share with you how OMAM has served and engaged with the community so far this year. The cornerstone of our programming is access and outreach with creative and environmental education which is exemplified in our mission: "Inspiring our community through art and nature while honoring those who fought for freedom".

The chart and table below reflect our fiscal year to date: October 1, 2023 - June 30, 2024.

| | |
|---|---|
| Gallery Admissions | 10,201 |
| Garden Explorers | 12,600 |
| Art Show & Receptions | 5,236 |
| Youth & Adult Students | 1,833 |
| Rental Events | 2,246 |
| Programs | 1,685 |
| Exhibiting Artists | 291 |
| Veterans Participation | 299 |

Please don't hesitate to contact me if you have any questions or need additional information. I can be reached by phone at 386-676-3347, or 386-871-7873 (cell) or email at smt@ormondartmuseum.org.

Thank you,
Stephanie Mason-Teague

Summary

This is a Resolution to authorize the execution of a license agreement between the City of Ormond Beach and the Florida Department of Transportation (FDOT) to establish a temporary basecamp location at the Ormond Beach Municipal Airport to provide space, resources, facilities and other necessary supplies and provisions that may be needed to support human resources and vehicular resources necessary to respond to emergency events in Ormond Beach and the surrounding region. FDOT has a duty to the people of the State of Florida to respond in emergency situations with readiness, to ensure the safety of the traveling public. FDOT has identified the location of a suitable basecamp at the Ormond Beach Municipal Airport (OMN). OMN recognizes the need to aid FDOT in providing a swift response in the face of an emergency in order to safeguard the traveling public and is able to provide FDOT with a location for the above-mentioned basecamp without impacting normal airport operations.

Financial Impact

The proposed agreement will have no budgetary impact on the City or the Airport.

Citizen Impact

This agreement will have no impact upon the City's general population, other than to afford enhanced emergency response capabilities in the event of an emergency or disaster.

**RESOLUTION NO. 2025-113**

A RESOLUTION AUTHORIZING THE EXECUTION OF A LICENSE AGREEMENT BETWEEN THE CITY AND THE FLORIDA DEPARTMENT OF TRANSPORTATION REGARDING A TEMPORARY BASECAMP AT THE ORMOND BEACH MUNICIPAL AIRPORT; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS**, the City Commission desires to enter into a License Agreement with the Florida Department of Transportation (FDOT) to establish a temporary basecamp location at the Ormond Beach Municipal Airport for FDOT to utilize to support its emergency response team activities in the event of a declared state of emergency, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE.** The Mayor and the City Manager are hereby authorized and directed to execute a License Agreement between the City of Ormond Beach and the Florida Department of Transportation to establish a temporary basecamp location for FDOT at the Ormond Beach Municipal Airport, a copy of said License Agreement being attached hereto and incorporated herein by reference.

**SECTION TWO.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025.**

**LICENSE AGREEMENT**
**BY AND BETWEEN**
**THE CITY OF ORMOND BEACH**
**AND**
**THE FLORIDA DEPARTMENT OF TRANSPORTATION**

This LICENSE AGREEMENT ("Agreement") is executed and effective this _____ day of _____, 2025 ("Effective Date"), by and between the City of Ormond Beach ("Authority"), and The Florida Department of Transportation, an executive agency of the State of Florida ("Licensee") and both Authority and Licensee together referred to as the "Parties."

**RECITALS:**

**WHEREAS,** the Authority owns and operates the Ormond Beach Municipal Airport, located in Volusia County, Florida; and

**WHEREAS,** Licensee is desirous of utilizing a location at Ormond Beach Municipal Airport to support its emergency response team activities in the event Licensee needs to mobilize during a declared state of emergency; and

**WHEREAS,** the Authority is amenable to licensing a portion of land at Ormond Beach Municipal Airport to Licensee as defined herein and, inasmuch as Licensee is a public entity, this Agreement is exempt from competition pursuant to Section 2.05(A)(10) of Authority's Procurement Code;

**NOW THEREFORE,** in consideration of the mutual covenants and agreements herein contained, Authority and Licensee do hereby acknowledge the above recitals as true, and mutually undertake and agree to the following terms and conditions:

**1. Premises:** Authority hereby licenses to Licensee use of approximately 11.3 acres of land as depicted on the attached Exhibit A ("Premises"). Licensee shall have exclusive rights to a portion of the Premises when in use for staging, fueling and/or other base camps functions. Authority will deliver said Premises in "AS IS" condition and Authority grants no warranties or representations, express or implied, with regard to such.

**2. Rights and Uses:** The Premises will be available and utilized by Licensee into response to a state of emergency declared by the Governor or the President for the limited purpose of establishing and operating base camp facilities. Base camp facilities, include, without limitation, sleeping quarters, dining facilities, meeting rooms, communications equipment, latrines, showers, hand-washing stations, vehicle parking and temporary storage of equipment, materials and tools utilized by Licensee's employees and contractors. No other uses of the Premises are permitted unless agreed to in writing by the Parties prior to said use. Authority will not be liable for Licensee's use of the Premises, authorized or otherwise, nor will Authority be liable for the suitability of the Premises for Licensee's intended and/or contemplated use thereof.

**3. Initial Term:** The term of this Agreement ("Term") shall be for one (1) year, beginning on the Effective Date.

**4. Renewal Options:** The Term of this Agreement may be renewed for up to four (4) additional one (1) year periods (each an "Additional Term") upon mutual agreement of both Parties by giving written notice to the other party at least 90 days in advance of the expiration of the Initial Term or any Additional Term.

Notwithstanding the foregoing, the Term of this agreement, including Additional Terms, shall not exceed five (5) years without formal approval of Authority's Board.

All reports and other correspondence should be addressed as indicated in the Article hereof entitled, "Notices and Communications."

**5. Notices and Communications:** All notices required or permitted hereunder shall be in writing and shall be served on the Parties at the addresses set forth below. Any such notices shall be either (a) sent by overnight delivery using a nationally recognized overnight courier, in which case notice shall be deemed delivered one business day after deposit with such courier, (b) sent by email, in which case notice shall be deemed delivered upon receipt of confirmation of transmission of such email notice, or (c) sent by personal delivery, in which case notice shall be deemed delivered upon receipt.

**To Authority:**

Address for written notices:

Airport Manager
Ormond Beach Municipal Airport
P.O. Box 277
Ormond Beach, FL 32175-0277

Addresses for email notices:

Steven.Lichliter@ormondbeach.org

using the subject line—Re: FDOT/Ormond Beach Municipal Airport and reason for the notice (e.g., emergency response, base camp mobilizing, request for improvements)

**To Licensee:**

Ronald J. Meade
District Emergency Management Coordinator
Florida Department of Transportation
719 S Woodland Blvd, Deland, FL 32720
ron.meade@dot.state.fl.us
andrew.jenkins@dot.state.fl.us

or to such other address as the addressee may designate in writing by notice to the other party delivered in accordance with the provisions of this Article.

**6. Obligations of Licensee:** Licensee shall:

A. Provide no less than 72-hour notice prior to occupying and using the Premises. In the event less than 72-hour notice is provided, Licensee must contact Airport Management for access accommodations.
B. Be responsible for maintaining the Premises and ensuring safe parking and storage conditions for its employees and subcontractors. Licensee, its employees, and subcontractors will abide by all security protocols and operating procedures directed by Authority.
C. Remove all vehicles, equipment, and materials upon termination of this Agreement or upon request from Authority.
D. Conduct its operation hereunder in a safe, orderly and proper manner, as to not disrupt other users and operations at the Airport.
E. Not commit any nuisance, waste, or damage to the Premises and shall not do or permit to be done anything that may result in the creation, commission, or maintenance of such nuisance, waste, it damage to the Premises.

Additionally, upon termination of this Agreement, Authority reserves the right to require the Licensee to return the Premises to its original condition, defined as the condition of the Premises prior to the use and occupancy by Licensee. including leveling and grading to ensure proper drainage, along with the application of grass seed or sod.

Upon termination or expiration of this Agreement, Authority reserves the right to remove and dispose of any and all vehicles, equipment, supplies, materials and/or other items abandoned by Licensee, at Licensee's expense, which expense will include but may not be limited to removal, clean-up and disposal fees and costs, as well as costs associated with the application of grass sod or seed. The Authority shall provide the Licensee with a minimum of ten (10) clays prior written notice identifying what vehicles, equipment, supplies, materials and/or other items it deems abandoned arid indicating its intent to remove and dispose of the same.

**7. Obligations of Authority:** Authority will provide a designated means of access to the Premises and will not unreasonably interfere with Licensee's use and enjoyment of the Premises.

**8. Authority's Rights:** Authority will not be liable for, or required to make, any repairs or perform any maintenance upon the Premises. Notwithstanding the foregoing, any and all requests for maintenance upon the Premises by Licensee must have prior written approval from the Authority.

**9. Leasehold Improvements:** Notwithstanding any requirements or obligations contained herein, Licensee will make no alterations or improvements to the Premises without the prior written consent of the Authority. Any improvements or alterations made by Licensee and approved by the Authority, either to the Premises or within the Airport, as required to support operations within the Premises. Any changes or additions to Licensee Improvements shall require further Authority review and approval.

**10. Compliance With Laws, Regulations, Ordinances, Rules:** Licensee will at all times comply with applicable federal, state, and local laws and regulations, Airport Rules and Regulations, Airport Minimum Standards, and the Authority Leasehold Development Standards and other mandates whether existing or as promulgated from time to time by the federal, state, or local government, Authority or Airport Management including but not limited to permitted and restricted activities, security matters, parking,

ingress and egress, environmental and storm water regulations, and any other operational matters related to the operation of the Airport. This will include but not be limited to Licensee precluding its employees, subcontractors, customers, or invitees from entering upon any restricted area of the Airport as noted in procedures, rules, or regulations of the federal, state, or local governments or the Authority.

**11. Hold Harmless/Indemnification:** Only to the extent permissible under applicable Florida Law, not to exceed the limitations of liability for tort actions set forth In §768.28, Florida Statutes, and subject to specific appropriation from the Legislature, Licensee will fully indemnify, defend, and hold Authority harmless from and against all claims or actions and all expenses incidental thereto based upon or arising out of the damages or injuries of every description whatsoever to persons or property due to the use by Licensee of the Premises under this Agreement excluding only the negligence or willful misconduct of Authority, its officers, agents, or employees. The undersigned on behalf of Licensee hereby waive any and all claims, causes of action, rights, or privileges it may have against the Authority resulting from the permitted use under this Agreement and access to the Premises excluding only the negligence or willful misconduct of the Authority, its officers, agents, or employees. The Parties are public entities existing under the laws of the State of Florida and are, therefore, protected by the provisions of Florida Statute 768.28 and related statutes. Any indemnification, attorneys' fees, or related obligations assigned hereunder are limited to the provisions of Florida Statute 768.28 and related statutes. Nothing in this Agreement will be deemed or otherwise interpreted as a waiver of either Party's sovereign immunity protections, or as increasing the limits of liability set forth in Florida Statute 768.28 and related statutes, as the same may be amended from time to time**.**

**12. Compliance with Environmental Laws:** Licensee will comply with all applicable Environmental Laws insofar as they relate to Licensee's operations at the Airport and Licensee accepts full responsibility and liability for such compliance.

**13. Environmental Representations:** The term "Hazardous Materials" will be defined to include any substance identified as "hazardous substances" in the Comprehensive Enforcement Response, Compensation and Liability Act of 1980, 42 U.S.C. Section 9601 et seq., as amended ("CERCLA") or identified as "hazardous waste" in the Resource Conservation and Recovery Act, 42 U.S. C. Section 6901 et seq., as amended ("RCRA") or other similar applicable federal or state laws and regulations (collectively, "Environmental Laws"), including but not limited to materials such as asbestos PCB's and urea-formaldehyde.

The term "Hazardous Waste" will be defined to include any substance identified as "hazardous waste" in 40 C.F.R. Parts 2260-265 and appendices, promulgated pursuant to the RCRA and Rule 62-730, Florida Administrative Code, as amended.

Notwithstanding any other provisions of this Agreement, and in addition to any and all other Agreement requirements, and any other covenants and warranties of Licensee. Licensee hereby expressly warrants, guarantees, and represents to Authority, upon which Authority expressly relies that:

A. Licensee is knowledgeable of any and all federal, state, regional, and local governmental laws, ordinances, regulations, orders, and rules, without limitation, which govern or which in any way apply to the direct or indirect results and impacts to the environmental and natural resources due to, or in any way resulting from, the conduct by Licensee of its operations pursuant to or upon the Premises. Licensee will keep informed of future changes in environmental laws.

B. Licensee will comply with all applicable federal, state, regional, and local laws, regulations, and ordinances protecting the environmental and natural resources and all rules and regulations promulgated or adapted as some may from time to time be amended and accepts full responsibility

and liability for such compliance.

C. Licensee will, prior to commencement of any such operations pursuant to this License, secure any and all permits, and properly make all necessary notifications as may be required by any and all governmental agencies having jurisdiction over parties or the subject matter hereof.

D. Licensee, its employees, agents, contractors, and all persons working for, or on behalf of Licensee, have been fully and properly trained in the handling and storage of all such hazardous waste materials and other pollutants and contaminants; and such training complies with any and all applicable federal, state, and local laws, ordinances, regulations, rulings, orders, and standards which are now or are hereinafter promulgated.

E. Licensee will neither handle nor store any toxic waste or unsuitable materials on the Premises.

F. Licensee will provide Authority satisfactory documentary evidence of all such requisite legal permits and notifications as hereinabove required.

G. Licensee will cooperate with any investigation, audit, or inquiry by Authority or any governmental agency regarding possible violation of any environmental law or regulation.

**14. Environmental Remediation:** With regard to any contamination caused by Licensee or arising by reason of Licensee's use or occupancy of the Premises, Licensee will immediately take such action as is necessary to cleanup and remediate the Premises at its own expense in accordance with applicable Environmental Laws. The remediation must continue until the Governmental Authorities with jurisdiction have determined that no further action is necessary; it being understood and agreed that Licensee will be obligated to clean up and remediate the Premises to achieve such standards or clean up levels as are reasonably required by the Authority for properties at the Airport. If the Authority is unable to lease the Premises during the period of clean up and remediation due to the environmental condition or clean-up work being performed, in addition to any other damages, Licensee will pay to Authority lost rent and/or costs associated with lost use of the Premises.

**15. Federal Storm Water Reputations:** Licensee acknowledges that certain properties and uses of properties within the Airport or on Authority owned land are subject to federal storm water regulations as set forth in 40 CFR Part 122. Licensee will observe and abide by said regulations as applicable to the Premises thereof.

Licensee will participate in any Authority-organized task force or other work group established to coordinate storm water activities at the Airport. In addition, Licensee will participate in Authority's Environmental Compliance Program and is subject to and agrees to periodic inspections conducted by Airport staff to monitor the management, handling, storage, and disposal practices associated with any vehicle, substances, hazardous substances, or waste materials.

Licensee will be strictly liable for, and hereby expressly assumes all responsibility for all citations, fines, environmental controls and monitoring, clean-up and disposal, restoration and corrective measures to the extent resulting from the improper use, handling, storage, or disposal of all pollutants or contaminated materials, as same are defined by law, by Licensee or by Licensee's employees, invitees, suppliers, or service providers regardless of whether or not a default notice has been issued and notwithstanding any other obligations imposed upon Licensee pursuant to the terms of this Agreement.

**16. Rights Reserved to Authority:** Rights not specifically granted to Licensee by this Agreement are expressly and independently reserved to Authority. Authority expressly reserves the right to prevent any use of the described Premises which would interfere with or adversely affect the operation or maintenance of the Airport and Authority's tenants, or otherwise constitute an Airport or general hazard.

Summary

This item provides public notice of the City's intent to award a contract to Pace Analytical Services, Bid No. 2025-47, for the laboratory testing services.

Laboratory services are required to perform testing on groundwater, potable water, treated and untreated wastewater, and reclaimed water to verify compliance with the state and federal requirements outlined in the City's Florida Department of Environmental Protection (FDEP), Volusia County Health Department (VCHD), and Saint Johns River Water Management District (SJRWMD) permits. Monitoring and testing these parameters on a regular basis helps the City meet permitting requirements and assists with maintaining high standards of quality for the City's utility customers. This contract provides for testing beyond the capabilities of City staff and provides redundancy and backup to the City's testing abilities.

On June 18, 2025, bids were received and opened. Three companies submitted bids and the bids ranged from $130,759 to $80,376.25. The lowest responsible and responsive bidder for this project was Pace Analytical Services.

Financial Impact

Laboratory testing service fees are currently budgeted in Fund 401 - Water/Wastewater Operating fund. Approximately $80,000 is spent per year on testing services.

Citizen Impact

Proper monitoring and testing of water quality is essential for the City to meet permit obligations and to maintain standards for the City's utility customers.

**RESOLUTION NO. 2025-114**

A RESOLUTION ACCEPTING A BID FROM PACE ANALYTICAL SERVICES, LLC FOR LABORATORY SERVICES REGARDING WATER SAMPLE TESTING AND LAB ANALYSIS, UNDER BID NO. 2025-47; AUTHORIZING THE EXECUTION OF A CONTRACT AND PAYMENT THEREFOR; REJECTING ALL OTHER BIDS; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS**, the City advertised for bids (Bid No. 2025-47) for laboratory services regarding sample collection and testing of the City's groundwater, potable water, treated and untreated wastewater and reclaimed water ("the Project") pursuant to section 2-300, *Code of Ordinances*, and

**WHEREAS**, the City's professional staff have reviewed the bids received and have determined that the bid submitted by Pace Analytical Services, LLC in the amount of $80,376.25/year is the lowest responsible and responsive bid (a copy of the bid being incorporated in the contract which is attached hereto and incorporated herein by reference), and

**WHEREAS,** the City Manager has certified that the money for the payment of the Project is appropriated in the Water and Wastewater Fund (401), and

**WHEREAS,** the City Commission concurs with the foregoing recommendations, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE.** The bid submitted by Pace Analytical Services, LLC to provide laboratory testing services in the amount of $80,376.25/year is hereby accepted.

**SECTION TWO.** All other bids relative to the aforedescribed Project shall be deemed rejected upon the execution of a contract with Pace Analytical Services, LLC.

**SECTION THREE.** The Mayor and the City Manager are hereby authorized and directed to execute a contract with Pace Analytical Services, LLC to provide the services for an initial one-year term at $80,376.25 plus four possible renewal periods of $80,376.25 per year for a total of $401,881.25 over a five-year period, and to pay the cost thereof from the Water and Wastewater Fund.

**SECTION FOUR.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025.**

# AGREEMENT

**THIS AGREEMENT** is made and entered into by and between the **City of Ormond Beach** ("City"), a Florida municipal corporation, 22 South Beach Street, Ormond Beach, Volusia County, Florida and **Pace Analytic Services, LLC** ("Contractor"), 8 East Tower Circle, Ormond Beach, FL 32174, and in consideration of the mutual promises and covenants herein contained, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree to the following:

1. **Scope of Work.** The Invitation to Bid ("Laboratory Testing Services" Bid No. 2025-47) attached hereto as Exhibit "A", is incorporated herein by reference and is a material part of this Agreement. The Contractor shall fully comply with the terms and conditions described in the attached exhibit.

2. **Term.** This Agreement shall be effective on the date it is fully executed by the parties and shall have an initial term of one year. This Agreement will be automatically renewed for four (4) additional one-year periods unless either party provides at least ninety (90) days written notice of their intent not to renew.

3. **Consideration.** Contractor shall provide the equipment and perform the services at the prices set forth on Exhibit "A". Contractor shall prepare and submit invoices to the City at the address set forth in Paragraph 9 of this Agreement. All such invoices shall be paid by the City within thirty (30) days.

4. **Delivery.** Contractor shall complete the project within the time frame set forth on Exhibit "A".

5. **Termination of Agreement**.
   (a) The City Commission shall have the right to terminate the Agreement in the event the Contractor files any petition or proceeding for bankruptcy relief, or is adjudicated to be bankrupt or insolvent, or fails to pay just debts as they ordinarily become due; or for a material breach of this agreement that remains uncured for at least thirty days after prior written receipt of a notice of violation of same.

   (b) This Agreement may not be terminated by the Contractor.

6. **Assignment**. The Contractor shall not assign, convey or transfer all or any part of this Agreement, or all or any part of Contractor's interest herein, or all or any part of any interest in the Contractor, without the prior written consent of the City Commission, which consent shall not be unreasonably withheld.

7. **Complete Agreement**. This Agreement, including the provisions set forth in the exhibit attached hereto and incorporated by reference herein, constitutes the entire and complete agreement of the parties, and the promises and covenants herein contained shall survive the life of this Agreement.

8. **Amendment to Agreement**. Any amendment, change, or modification of this Agreement must be in writing and fully executed by both parties.

9. **Notices**. All notices which are required by this Agreement shall be provided to the parties at the following addresses, or such other addresses as may be requested in writing by either party:

| | |
|---|---|
| **City of Ormond Beach**<br>Joyce Shanahan, City Manager<br>(copy to City Attorney)<br>22 South Beach Street<br>Ormond Beach, FL 32174 | **Pace Analytical Services, LLC**<br>Michael Valder, Sr. Account Exec.<br>8 East Tower Circle<br>Ormond Beach, FL 32174 |

10. **Sovereign Immunity**. The City expressly retains and reserves all rights, privileges, immunities, and benefits of sovereign immunity. This provision shall be construed broadly in favor of the City.

11. **Venue**. The terms and conditions of this Agreement shall be construed and enforced under the laws of the State of Florida. Any action or proceeding, either at law or in equity, regarding this Agreement shall be brought in the circuit court, Seventh Judicial Circuit in and for Volusia County, Florida. Venue in any other jurisdiction or forum, whether it be any other circuit, state or federal venue, is hereby expressly waived.

12. **Waiver of Conditions**. No waiver by the City of any condition or breach of performance by the Contractor shall constitute an irrevocable, continuing, or subsequent waiver by the City of the same condition or breach of performance, or of any other condition or other breach of performance.

13. **Severability**. If any part of this Agreement is declared to be unenforceable or void by a court of competent jurisdiction, the remaining parts of the Agreement shall remain in full force and effect as long as the services to be provided by the Contractor are not materially affected, altered or impaired as a result of said judicial declaration.

14. **Conflicting Provisions.** In the event of any conflict between the provisions of this Agreement and any exhibits, the provision most favorable to the City shall control and shall be given full force and effect.

15. **Indemnification**. The City, its agents, employees, and officials, both elected and appointed, shall be indemnified and held harmless by Contractor from any and all liabilities, claims, and causes of action which may arise out of the willful, negligent, or unlawful acts or omissions of the Contractor or its subcontractors in the performance of this Agreement, unless such claims are a result of the City's sole negligence, as determined by the final decision maker of such claim.

16. **Duty to Defend.** The Contractor shall defend all suits and administrative actions, including all appellate proceedings, brought against the City, its agents, employees, and officials, both elected and appointed and shall pay all attorneys' fees and costs associated with the City's legal defense, as may be selected by the City, arising from all claims and causes of action described in Section 15 above. Such payment on behalf of the City shall be in addition to any and all other legal or equitable remedies available to the City and shall not be considered to be the City's exclusive remedy.

17. **Contractor's Insurance**. The Contractor shall purchase and maintain for the entire life of this Agreement, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under this Agreement, whether such operations be by the Contractor, or by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

18. **Types of Insurance and Limits of Liability**

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

**(a)** Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident
$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for coverage. However, if the contractor subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

**(b)** Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations
h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)
k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence
$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

**(c)** Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract.

ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

| | |
|---|---|
| $1 Million | Combined Single Limit for Bodily Injury and Property Damage |

**(d)** Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,000 per occurrence.

**(e)** Builder's Risk

Contractor shall purchase Builder's Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

**(f)** Professional Liability, Malpractice and/or Errors and Omissions

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

19. **Requirements for Certificates of Insurance.**

(a) With the execution of this Agreement, the Contractor shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall contain a provision that the coverage under the policies will not be canceled, non-renewed or materially changed until at least **thirty (30)** days' prior written notice of such cancellation, non-renewal or change [except for nonpayment of premium, which shall be **ten (10)** days] has been given to the City. The Contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACCORD

FORM 25-S (7/90), or its successor form, and shall be made a part of this Agreement.

(b) New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

(c) If requested by the City, the Contractor shall furnish complete copies of the Contractor's insurance policies, forms and endorsements.

(d) For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

(e) If the Contractor fails to obtain and maintain for the life of the Agreement the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City from the amount due the Contractor for the work covered by the Agreement.

(f) **Policies of Insurance**

1. Except as otherwise provided herein, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-) in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carriers; written confirmation is required.

3. All policies of insurance or certificates thereof referred to herein shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability and Automobile Liability policies of insurance and certificates thereof.

20. **Enforcement of Costs.** If any legal action or other proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default, or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorneys' fees, court

costs, and all expenses even if not taxable court costs (including, without limitation, all such fees, costs and expenses incident to arbitration, appellate, bankruptcy, and post-judgment proceedings), incurred in that action or proceeding or any appeal, in addition to any other relief to which the party or parties may be entitled. Attorneys' fees include legal assistant fees, expert witness fees, investigative fees, administrative costs, and all other charges billed by the attorney for the prevailing party.

21. **Compliance With Laws.** Contractor shall comply with all applicable federal, state and local laws and regulations.

22. **Compliance With Florida Public Records Law**. Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.
(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.
(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.
(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

**IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:**

**CITY CLERK**
**22 SOUTH BEACH STREET**
**ORMOND BEACH, FLORIDA 32175. (386)677-0311**
**CITYCLERK@ORMONDBEACH.ORG**

Ref: Fla. Stat. §119.0701(2016)

23. **Limitation of Remedy and Liability.** Contractor and Owner expressly waive any claim for consequential damages against the other including but not limited to, a waiver of claims for diminished bonding capacity, loss of financing, loss of business reputation, lost profits on other projects or other lost opportunity damage claims.

Contractor expressly agrees that any claim (tort, contract, claim in equity, or otherwise) by Contractor for damages against Owner shall not exceed the total amount of the contract price, less any amounts actually paid to the Contractor by the Owner.

24. **Waiver of Right to Jury Trial.** THE PARTIES HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVE ANY RIGHT WHICH ANY PARTY MAY HAVE TO TRIAL BY JURY IN RESPECT OF ANY PROCEEDING, LITIGATION OR COUNTERCLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN) OR ACTIONS OF ANY PARTY. IF THE SUBJECT MATTER OF ANY LAWSUIT IS ONE IN WHICH THE WAIVER OF JURY TRIAL IS PROHIBITED, NO PARTY TO THIS AGREEMENT SHALL PRESENT AS A NON-COMPULSORY COUNTERCLAIM IN ANY SUCH LAWSUIT ANY CLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT. FURTHERMORE, NO PARTY TO THIS AGREEMENT SHALL SEEK TO CONSOLIDATE ANY SUCH ACTION IN WHICH A JURY TRIAL CANNOT BE WAIVED.

25. **Verification of Employment Status Using E-Verify System**

(a) Section 448.09, *Florida Statutes*, makes it unlawful for any person to knowingly employ, hire, recruit, or refer, either for herself or himself, or on behalf of another, for private or public employment within the state, an alien who is not duly authorized to work in the United States. Contractor warrants that it is registered with the U.S. Department of Homeland Security's E-Verify system, and is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

(b) Contractor agrees that if the contractor enters into an agreement with a subcontractor, the subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and contractor warrants it shall maintain any such affidavits for the duration of the contract. If the City has a good faith belief that a subcontractor knowingly violated Section 448.09 (1), the City shall promptly notify the contractor and order the contractor to immediately terminate the contract with the subcontractor.

(c) In the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and as provided by statute, the contractor may not be awarded a public contract for at least one (1) year after the date of termination. The contractor may also be held liable for any additional costs incurred by the City as a result of the termination of the contract.

26. **No Conflict of Interest.** The Contractor warrants and agrees that neither it, nor any of its employees, agents, officers, directors, shareholders and independent contractors are, or will become, under contract with or accept compensation from any individual, business, corporation or governmental entity that has the possibility of an adverse interest to those of the City of Ormond Beach. The Contractor and its officers, directors, shareholders, employers, agents and subcontractors, agree not to provide any services or assistance to any entity directly or indirectly relating to the services provided to the City and to immediately notify the City Manager and City Attorney of any contact with any entity that has, or potentially has, a conflict of interest with the City of Ormond Beach. This provision shall be interpreted as broadly as possible to prevent any potential or actual conflict of interest presently or in the future by the Contractor.

27. **Effective Date**. This Agreement shall become effective upon the date last signed by the parties hereto.

IN WITNESS WHEREOF, the undersigned parties have caused this Agreement to be signed on the dates indicated hereinbelow.

## GENERAL CONDITIONS

**PUBLIC ENTITY CRIMES:** A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a Bid on a contract to provide any goods or services to a public entity, may not submit a Bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit Bids on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

**DISCRIMINATION:** Pursuant to Section 287.134(2)(a), Florida Statutes, an entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid or proposal on a contract to provide any goods or services to a public entity, may not submit a bid or proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit bid or proposal on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

**PUBLIC RECORDS/NON-CONFIDENTIALITY OF BIDS AND/OR PROPOSALS.** The City of Ormond Beach cannot and does not warrant the confidentiality of any information submitted in response to this solicitation. Florida law provides that municipal records shall at all times be open for personal inspection by any person, Section 119.01, F.S., The Public Records Law. Information and materials received by the City of Ormond Beach in connection with all Proposers' response shall be deemed to be public records subject to public inspection upon award, recommendation for award, or 30 days after bid opening, whichever occurs first. Section 119.071, F.S.

**NOTIFICATION OF BIDS AND RFP'S:** The City uses the services of DemandStar (www.demandstar.com) for notification of its Bids and RFP's on-line on the Internet. If you have received a copy of this Bid/RFP from any source other than DemandStar, please be aware that you may not have received the latest version of the Bid/RFP or any related addendums.

**SUBMISSION OF BIDS:** All Bids shall be submitted in a sealed envelope. The Invitation to Bid (ITB) number, title, and opening date shall be clearly displayed on the outside of the sealed envelope. The delivery of said Bid to the Purchasing Office on or before the specified opening date and time is solely and strictly the responsibility of the Bidder. Any Bid received by the Purchasing Office after the specified date and time will not be accepted. Bids must be submitted on forms provided by the City. No other forms will be accepted. Telephone, telefax and telegraph Bids will not be considered. No Bid may be modified after opening. **No Bid may be withdrawn after opening for a period of ninety (90) days unless otherwise specified.**

**EXECUTION OF BID:** Bid must contain a manual signature of authorized representative in the space(s) provided. Bids must be typed or printed in ink. Use of erasable ink is not permitted. All corrections made by Bidder to any Bid entry must be initialed. The company name and Federal

Employer Identification Number (F.E.I.N.) or Social Security (S.S.) number shall appear in the space(s) provided.

**BID OPENING:** Bids shall be opened and the name of the Bidders and the bid amounts shall be read publicly. Bid amounts announced at the bid opening are subject to change due to math errors made by Bidders

**BID TABULATION:** Any Bidder wishing to receive a copy of the Bid tabulation is required to enclose a stamped, self-addressed envelope with their Bid response. Bid opening tabulations will be posted on DemandStar.com.

**CLARIFICATION/CORRECTION OF BID ENTRY:** The City of Ormond Beach reserves the right to allow for the clarification of questionable entries and for the correction of obvious mistakes.

**INTERPRETATION:** Any questions concerning conditions and specifications shall be directed to the Purchasing Coordinator. Those interpretations which may affect the eventual outcome of this Bid will be furnished in writing to all prospective Bidders. No interpretation shall be considered binding unless provided in writing by the City of Ormond Beach.

**MINORITY POLICIES:** The City of Ormond Beach, Florida, encourages the full participation of Disadvantaged and Women Business Enterprises (D&WBE) in the provision of goods and services.

**RESPONSIBILITY DETERMINATION:** Pursuant to the provisions of Florida Statutes Chapter 287.05701, the City does not request or consider a vendor's social, political, or ideological interests in making a responsibility determination.

**REGISTRATION AND RISK MANAGEMENT REQUIREMENTS:** Any Vendor delivering a product or Contractor doing work for the City of Ormond Beach, on City property shall be **registered** to do business in the City of Ormond Beach and shall provide **proof of**, abide by and maintain, for the entire life of the Contractual Agreement, including any and all approved time extensions, such **insurance** as is required by City ordinance, which shall be incorporated in and made part of the contract documents. A vendor using a common carrier is exempt from this requirement. This proof of insurance will be required prior to commencement of any **on-site** work. Refer to **Exhibit A** for the City's registration and risk management requirements.

**LICENSES AND PERMITS:** The vendor is responsible for obtaining all necessary permits and licenses to comply with all Federal, State, and Local laws, rules and regulations required to perform work in accordance with the specifications.

**LOCAL VENDOR PREFERENCE:** The City *may* give a local preference in the amount of three percent (3%) of the bid price or $25,000, whichever is less. The bid price shall include not only the base bid price but all alternatives which are part of the bid and actually purchased or awarded. A Local Vendor Affidavit of Eligibility shall accompany the bid submittal to be considered valid.

**PRICING:** Firm prices shall be proposed and include FOB DESTINATION, all packing, handling, shipping charges and delivery to any point within the City of Ormond Beach to a secure area or inside

delivery. Prices shall be valid for ninety (90) days from date of Bid opening. In the event there is a discrepancy between the unit price and the extended amount, the unit price will prevail.

**COST OF BID PREPARATION:** No reimbursement will be made by the City of Ormond Beach for any costs incurred in the preparation of the Bid, proposal or presentation.

**EQUIPMENT:** Contractor shall own and have in good repair all equipment necessary to perform the described services in particular and the equipment necessary to complete related tasks. The City will not provide any equipment to do this work.

**ADDITIONAL TERMS AND CONDITIONS:** The City of Ormond Beach reserves the right to reject Bids containing any additional terms or conditions not specifically requested in the original conditions and specifications.

**TAXES:** The City of Ormond Beach is exempt from Federal Excise Taxes and all sales taxes. The Contractor is responsible for paying any and all taxes associated with this agreement.

**DISCOUNTS:** All discounts EXCEPT THOSE FOR PROMPT PAYMENT shall be considered in determining the lowest net cost for Bid evaluation purposes. If a Bidder offers a discount, it is understood that the discount time will be computed from the date of satisfactory delivery, at the place of acceptance, and receipt of correct invoice, at the office specified, whichever occurs last.

**SILENCE OF SPECIFICATIONS:** The apparent silence of any specification and any supplemental specifications as to any details or the omission from same of any detailed description concerning any point shall be regarded as meaning that only the best commercial practices are to prevail and that only materials of first quality and correct type, size, and design are to be used. All workmanship is to be first quality. All interpretations of the specifications shall be made upon the basis of this statement.

**ASSIGNMENT:** Any purchase order or contract issued pursuant to a Bid and the monies which may become due thereunder are <u>not</u> assignable except with the prior written approval of the City Manager or City Commission, whichever authorized the purchase.

**LIABILITY:** The vendor shall hold and save the City of Ormond Beach, its officers, agents, and employees harmless against claims by third parties resulting from the vendor's or supplier's breach of contract or negligence, including all attorney's fees and costs, and shall pay any and all damages, fees, and costs assessed on behalf of the City. The City expressly reserves all rights, privileges and benefits of sovereign immunity.

**PATENTS AND ROYALTIES:** The Bidder, without exception, shall indemnify and save harmless the City of Ormond Beach and its employees from liability of any kind, including cost and expenses for or on account of any copyrighted, patented, or unpatented invention, process, or article manufactured or used in the performance of the contract, including its use by the City of Ormond Beach. If the Bidder uses any design, device, or materials covered by letters, patent or copyright, it is mutually agreed and understood without exception that the Bid prices shall include all royalties or cost arising from the use of such design, device, or materials in any way involved in the work.

**SAFETY WARRANTY:** The selling dealer, distributor, supplier, and manufacturer shall be responsible for compliance with all Federal, State and local laws, rules and regulations concerning the equipment and/or service specified and the use thereof, applicable and effective on the date of manufacture including safety and environmental standards as apply to both private industry and governmental agencies.

**WARRANTY:** The Bidder agrees that, unless otherwise specified, the services furnished under the Bid shall be covered by the most favorable commercial warranty for comparable services, and that the rights and remedies provided herein are in addition to and do not limit any rights afforded to the City of Ormond Beach by other provision of the Bid.

**AWARDS:** The City reserves the right, in its sole discretion, as the best interest of the City may require, to make award(s) by individual item, group of items, all or none, or a combination thereof; on a geographical basis and/or with one or more vendors or contractors; or to reject any and all Bids or waive any minor irregularity or technicality in the Bids received. The City is not bound to award any contract(s) based solely on lowest quoted price. The City also reserves the right to negotiate separately with competing bidders as deemed to be in the City's best interest.

**REJECTIONS RIGHTS:** The City of Ormond Beach reserves the right, at any time, to modify, waive or otherwise vary the terms and conditions of this Bid including, but not limited to, the deadlines for submission and submission requirements. The City further reserves the right to reject any or all submittals, to cancel or withdraw this Bid at any time and to negotiate with any party prior to or after submittal of Bid.

**TERMINATION:** The City of Ormond Beach reserves the right to terminate any contract or agreement resulting from this BID at any time.

**PURCHASE ORDERS:** Purchase Orders will be issued for all purchases exceeding $2,500.00.

**NON-APPROPRIATION OF FUNDS:** In the event sufficient budget funds are not available for a new fiscal period, the CITY shall notify the VENDOR/CONTRACTOR of such occurrence and the contract shall terminate on the last day of the current fiscal period, without any penalty or expense to the CITY of any kind whatsoever.

**OTHER AGENCIES:** All Bidder(s) awarded contracts from this bid or proposal may, permit any municipality or other government agency to participate in the contract under the same prices, terms, and conditions, if agreed to by both parties.

It is understood that at no time will any city, municipality, or other agency be obligated for placing an order for any other city, municipality, or agency: nor will any city, municipality, or agency be obligated for any bills incurred by any other city, municipality, or agency. Further, it is understood that each agency will issue its own purchase orders to the awarded bidder(s).

**COMPLIANCE WITH FLORIDA PUBLIC RECORDS LAW:**

Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.

(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.

(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.

(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

**IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:**

Ref: Fla. Stat. §119.0701(2016)

**THE CITY OF ORMOND BEACH RESERVES THE RIGHT TO REJECT ANY OR ALL BIDS, AND TO WAIVE INFORMALITIES, AS MAY BE DEEMED TO BE IN THE BEST INTEREST OF THE CITY.**

**DEFINITIONS:**

**BIDDER** - The term used herein refers to any individual, company or other entity submitting a Bid to the CITY in response to an Invitation to Bid (ITB).

**CITY/OWNER** - The terms CITY or OWNER herein refers to the City of Ormond Beach, Florida, and its duly authorized representatives.

**CONTRACT MANAGER** - The term refers to the CITY representative(s) who will be acting on the CITY's part to manage all the Contract actions.

**FURNISH** - The terms "furnish", "furnish and install", "install", and "provide" or words with similar meaning shall be interpreted, unless otherwise specifically stated, to mean "furnish and install, complete in place and ready for service".

**PROJECT** - The total construction of which the Work to be provided under the Contract Documents may be the whole, or a part as indicated elsewhere in the Contract Documents.

**PROJECT MANUAL** - The term "Project Manual" includes Bid Requirements, General Conditions, Scope of Work, Specifications, Risk Management requirements and any associated attachments.

**SPECIFICATIONS** - The term refers to those portions of the Project Manual consisting of written technical descriptions of materials, equipment, construction systems, standards and workmanship as applied to the Work and certain administrative details applicable thereto.

**SUPPLIER** - The term used herein refers to any individual, company or other entity supplying services pursuant to the terms, conditions, and quotations of a Bid or Proposal.

**VENDOR, CONTRACTOR, or VENDOR/CONTRACTOR** - The term(s) used herein refers to any individual, company, or other entity that is awarded a contract by the CITY, pursuant to the terms, conditions, and quotations of a bid/proposal.

**WORK** - The entire, completed job or the various separately identifiable parts thereof, required to be furnished under the Contract Documents. Work is the result of providing goods and/or services, furnishing labor and/or furnishing and incorporating materials and equipment into the construction, as required by the Contract Documents.

### VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.

3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.

4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.

5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

**CITY OF ORMOND BEACH**

**DRUG-FREE WORKPLACE CERTIFICATION**

**IDENTICAL OR "TIE" BID**: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more Bids which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a Bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie Bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

Give each employee that engages in providing the commodities or contractual services that are under proposal a copy of the statement specified in subsection (1).

In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under proposal, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) calendar days after such conviction.

Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

LOCAL VENDOR PREFERENCE

The following is taken from the Code of Ordinances, City of Ormond Beach, Chapter 2, Financial Matters, Division 3, Purchasing, Article IX, Section 2-304:

Except where otherwise provided by federal or state law or other funding source restrictions, purchases of goods and services under the Purchasing Code shall give preference to local businesses as follows:

(a) Under a competitive bid solicitation, the City *may* give a local preference in the amount of three percent (3%) of the bid price or $25,000, whichever is less. The bid price shall include not only the base bid price but all alternatives which are part of the bid and actually purchased or awarded.

(b) A *local business* shall mean a vendor that has a valid occupational license issued by the City of Ormond Beach at least one year prior to bid opening, with a physical business address located within the municipal boundaries of the City of Ormond Beach from which the vendor operates or performs business on a day-to-day basis that is a substantial component of the goods or services being offered and has provided a Local Vendor Affidavit of Eligibility at the time the bid is submitted.

(c) A *Local Vendor Affidavit of Eligibility* shall accompany the bid submittal to be considered valid and shall include, but not be limited to, the following information:

(1) A physical business and location address;

(2) A copy of current City of Ormond Beach Local Business Tax Receipt (occupational license) to verify the business location;

(3) Proof of payment of business tax and real property tax due to the City of Ormond Beach;

(4) A copy of the firm's most recent annual corporation report to the Florida Division of Corporations;

(5) Any additional information necessary to verify local status.

(d) *Exemptions:* Goods or services provided under a cooperative purchasing agreement, contracts for professional services subject to Consultants' Competitive Negotiation Act, purchases or contracts funded in whole or part by a governmental entity that does not allow local preferences, purchases made under another agency's agreements or contracts (piggybacking), purchases under emergency or sole source situations and procurements subject to formal proposals including but not limited to request for proposals (RFP) or continuing contract, and request for quotes (RFQ) versus straight competitive bids.

(e) This section shall not be deemed to require the granting of a local preference, and nothing herein prohibits the award of a contract to a non-local vendor where such award is in the public interest.

## Local Vendor Affidavit of Eligibility

I certify that my company meets all of the following qualifications to be eligible for the local vendor preference:

a. My company has a physical business address located within the municipal boundaries of the City of Ormond Beach which is used to perform business on a day-to-day basis.
b. My company holds any business (occupational) or contractor license required by the City of Ormond Beach at least one year prior to bid opening.
c. Payment of business tax and real property tax due to the City of Ormond Beach is current
d. My company is in compliance with annual reporting to the Florida Division of Corporations

## EXHIBIT "A"

**A. Payment and Performance Bonds**

1. Except as otherwise provided herein, the Contractor shall, prior to beginning performance, deliver to the City, and the City shall record in the public records of Volusia County, Florida, the Contractor's Payment and Performance Bond in an amount equal to the full amount of the Contract.

2. **(a)** Payment and Performance Bonds shall not be required for any contract except those which are for the construction of a public building, for the prosecution and completion of a public work (as described in Section 180.06, **Florida Statutes,** as amended from time to time) or for repairs upon a public building or public work (as described in Section 180.06, **Florida Statutes**, as amended from time to time).

   **(b)** With respect to those Contracts for which Payment and Performance Bonds are otherwise required:

      **i.** Unless the City Manager, or designee, determines such Bond to be necessary to protect the interests of the City, no Contractor shall be required to provide a Payment and Performance Bond for any Contract which is for $25,000.00 or less.

      **ii.** Upon the request of the contractor, good cause shown by the Contractor, and a determination that the public health, safety and welfare will be sufficiently protected, the City Commission may exempt the contractor from the requirement of providing a Payment and Performance Bond for any Contract which is for more than $25,000.00 but is less than $200,000.00.

3. The Payment and Performance Bond shall list the Contractor as Principal and be issued by a surety insurer authorized to do business in Florida as a surety and listed as an acceptable surety in the Federal Register.

4. The Payment and Performance Bond shall be executed pursuant to Section 255.05, **Florida Statutes**, and be in a form substantially similar to the form set forth in Section 255.05(3), **Florida Statutes**.

5. The Payment and Performance Bond shall specifically provide coverage for delay damages due to a default by the Contractor.

6. The Payment and Performance Bond shall not make the Contract part of the Bond agreement.

7. In lieu of the Payment and Performance Bond, the Contractor may file with the Finance Director of the City, in an amount equal to the full amount of the Contract, cash, a money order, a certified check, a cashier's check, an irrevocable letter of credit, or a security of a type listed in Part II, Chapter 625, **Florida Statutes**.

8. In the event the surety on any Payment and Performance Bond furnished by the Contractor is declared bankrupt or becomes insolvent, or its right to do business in the State of Florida is terminated, the Contractor shall, within five (5) working days thereafter, substitute another Payment and Performance Bond and surety acceptable to the City.

9. The Contractor is totally and solely responsible for keeping its surety informed as to the Base Contract Price as bid, significant changes in the Project Scope, and the overall progress and completion of the Project for the entire life of the Contract.

10. The payment and performance bond requirements stated herein above shall not be applicable to service-related contracts unless otherwise determined by the City Manager in order to protect the health, safety and welfare of the general public.

## B. Contractual Provisions Relative to Risk Management

All contracts for any public works to be performed, and service-related contracts, for or on behalf of the City shall include at a minimum, the following, or substantially similar, provisions:

### 1. Hold Harmless and Indemnity

The Contractor agrees to assume liability for and indemnify, hold harmless, and defend the City, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Contractor, its agents, officers, contractors, subcontractors, employees, or anyone else employed or utilized by the Contractor in the performance of this Contract. The Contractor's liability hereunder shall include all attorney's fees and costs incurred by the City in the enforcement of this provision.

### 2. Payment on Behalf of City

The Contractor shall pay all costs of the City's legal defense, as may be selected by the City, for all claims described in the Hold Harmless paragraph.

Such payment on behalf of the City shall be in addition to any and all other legal remedies available to the City and shall not be considered to be the City's exclusive remedy.

### 3. Loss Control/Safety

Precaution shall be exercised at all times by the Contractor for the protection of all persons, including employees and property. The Contractor shall comply with all applicable laws, regulations and ordinances related to safety and health, shall make special efforts to detect hazardous conditions, and shall take prompt action when loss control/safety measures are reasonably necessary.

The City may order work to be stopped if conditions exist that present an immediate danger to persons or property. The Contractor acknowledges that such work stoppage will not shift responsibility for any damages from the Contractor to the City.

### 4. Service Bond

For Service-related contracts only, the City may require the Contractor to secure a service bond with a minimum $25,000 coverage limit for the period of the service agreement. The service bond covers dishonest acts of the contractor's employees against the City. A copy of the bond shall be provided to the City when the agreement commences.

Service-related contracts include and are not limited to businesses providing janitorial, pest control, general repair, security, carpet cleaning, locksmith, temporary employment, painting, moving services or other contracts as determined in the discretion of the Risk Manager as necessary to minimize loss.

## C. Contractor's Insurance

### 1. General

The Contractor, including service-related contractors, shall purchase and maintain for the entire life of the Project, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under the Contract Documents, whether such operations be by the Contractor, by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

### 2. Types of Insurance and Limits of Liability

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

(a) Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident

$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for coverage. However, if the contractor subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

**(b)** Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations
h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)
k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence

$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

**(c)** Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract.

ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

| | |
|---|---|
| $1 Million | Combined Single Limit for Bodily Injury and Property Damage |

**(d)** Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,0000 per occurrence.

**(e)** Builder's Risk

Contractor shall purchase Builder's Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

**(f)** Professional Liability, Malpractice and/or Errors and Omissions

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

**D. Requirements for Certificates of Insurance**

1. With the execution of the Contract Documents, the Contractor, including service-related contractors, shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall contain an endorsement that the coverage under the policies will not be canceled, non-renewed or materially changed until at least thirty (30) days' prior written notice of such cancellation, non-renewal or change (except for nonpayment of premium, which shall be ten (10) days) and a copy of the cancellation endorsement signed by an authorized representative of the insurer, be given to the City. The contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACORD FORM 25-S (7/90), or its successor form, and shall be made a part of the Contract Documents.

2. New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

3. If requested by the City, the contractor shall immediately furnish complete copies of the Contractor's insurance policies, forms and endorsements.

4. For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

5. If the Contractor fails to obtain and maintain for the life of the Project the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City form the amount due the Contractor for the work covered by the Contract.

**E. Policies of Insurance**

1. Except as otherwise provided in this Exhibit, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-), in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carrier; written confirmation is required.

3. All policies of insurance or certificates thereof referred to in this Exhibit shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability including products and completed operations and Automobile Liability policies of insurance and certificates thereof.

## REGISTRATION REQUIREMENTS FOR VENDOR/CONTRACTOR WORKING ON CITY PROJECTS

**Registration Requirements**

VENDORS doing business within the City Limits must be registered with the City.

Requirements for registering a business are as follows:

Copy of City Business Tax Receipt (where your business is located).

Certificate of Insurance showing General Liability and Workers' Comp (or State Workers' Comp Exemption form).

Application Fee: $25.00 For more information, contact the City's Business Tax Receipt official at 386-676-3233 or btonline@ormondbeach.org You can apply online here: https://ormondbeachfl-energovweb.tylerhost.net/apps/selfservice#/home

**State Certified/Registered Contractors**

All registered State contractors must be registered with Volusia County. Volusia County Contractor Licensing, 123 W. Indiana Ave., Rm 203, Deland, Fl. 32720 (386) 736-5957 contractorlicensing@volusia.org https://connectlivepermits.org/citizenportal/app/landing

State certified contractors have the option of registering with Volusia County, or providing information directly to the business tax receipt official, to include copy of State license, certificate of insurance and copy of local business tax receipt. This information is provided with the permit application.

If you have any questions regarding the above requirements, please contact the business tax receipt official at (386) 676-3233 or btonline@ormondbeach.org

BIDDER has examined the site and locality where the Work is to be performed, when applicable, the legal requirements (federal, state and local laws, ordinances, rules and regulations) and the conditions affecting cost, progress or performance of the Work and has made such independent investigations as BIDDER deems necessary.

This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; BIDDER has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid; BIDDER has not solicited or induced any person, firm or a corporation to refrain from bidding; and BIDDER has not sought by collusion to obtain for himself any advantage over any other Bidder or over the CITY.

THIS BID IS SUBMITTED BY:

The initial term of this Agreement shall be for a period of **one (1) year a**nd will be automatically renewed for **four (4) additional one (1) year** periods unless either party provides at least ninety (90) days prior written notice to the other party of their intent not to renew the Agreement.

**COST ADJUSTMENTS:**

No later than June 1, of each contract year, the Contractor may petition the City through the Contract Manager for a rate adjustment to reflect the change in the cost of doing business, as measured by fluctuations in the Consumer Price Index (CPI), All Urban Customers, published by the U.S. Department of Labor, Bureau of Labor Statistics, for the preceding July 1-June 30 period. The maximum increase for any annual period shall be four (4%) percent which will only apply to the future year, increases will not be retroactive. The adjusted rate, if approved shall take effect on October 1, of the year in which approved.

## SCOPE OF WORK:

### GENERAL

The City of Ormond Beach invites qualified laboratories to submit Bid for an annual contract for Laboratory Testing Services. The successful contractor will be required to provide not less than 90% of the analyses noted in the Bid. **Lab results provided in this contract must be from a laboratory certified by the State of Florida.**

### 1. Minimum Requirements for the Contract Laboratory

Interested laboratories are requested to specifically meet or exceed the following minimum specifications:

a. The cost of all sample containers, paperwork, coolers, shipping kits, and preservatives will be included in the cost of the sample analysis.

b. The Contract Laboratory will pay shipping charges to and from designated City pickup locations. A local contact shall be designated for pickup of samples if requested.

c. The Contract Laboratory shall be required to provide pickup of samples 7 days per week with a minimum of 8 hours of advance notification from the City. There shall be no additional charge for meeting these requirements.

d. The Contract Laboratory shall be available a minimum of 7 days per week.

e. The report delivery times for routine parameter testing must not exceed 14 calendar days. Electronic reporting in PDF or any similar format is acceptable for meeting this turn-around requirement. Hard copies of reports are to be provided upon request for wastewater test results in addition to electronic reports. Water test results will require hard copies and electronic copies. Exceptions would be granted for those analytes that require more than 14 calendar days for the analyses to be completed.

f. Report formats are to be in a standard lab format that meets NELAC requirements. In addition, special report formats include EPA, Florida Department of Environmental Protection, and Volusia County Health Department formats. The laboratory may be asked to also furnish copies of raw data records sheets, result calculations, etc. for any samples submitted. All reports are to include a copy of the Chain-of-Custody (COC) form submitted with the samples. The laboratory and any of its subcontractors must participate in EPA's Annual DMR-QA studies and report required analytes corresponding to the Ormond Beach water reclamation facility (WRF).

g. The City of Ormond Beach is to be notified prior to sending any parameter to any subcontract laboratory. It is the intent of the City that all analysis be performed by the contract laboratory to the maximum extent feasible. PERCENTAGE OF SUBCONTRACTED WORK MAY NOT EXCEED TEN PERCENT (10%) of the samples **(the 10% limit refers to the number of samples, not to the cost per sample)**.

h. All analytical methods used for analysis will be state and EPA approved methodologies as specified in NELAC requirements. These methodologies can be, but are not limited to "Standard Methods", "Manual for the Certification of Laboratories Analyzing Drinking Water", "Test Methods for the Evaluation of Solid Waste (SE-846)", "EPA POTW Sludge Sampling and Analysis Guidance Document", and Radiochemical methodologies as stated in Federal Register 40 CFR 141. Methodologies used and the MDL must be accepted by the regulatory agency requiring the samples. Oil and Grease must be analyzed using the Hexane Extraction Method.

i. A specific person shall be designated for contact with the City of Ormond Beach for consultation services either by phone or in person, if necessary.

j. Laboratory personnel must be qualified in giving testimony, depositions or court appearances if requested by the City.

k. The laboratory will have the capability to analyze samples with the following matrices: potable water, reclaimed water, wastewater, groundwater, surface water and liquid/cake biosolids.

l. At a minimum, all analytical runs of the City of Ormond Beach samples will be required to include QC checks on 10% of the samples analyzed. The QC checks must meet the stricter of method, and/or NELAC quality assurance criteria. The QC generated will be submitted with the sample report. Contract laboratory QC will be monitored using these reports as well.

m. The laboratory shall have no service contracts that were cancelled in the previous five years due to failure to provide accurate testing results.

n. The City of Ormond Beach and its staff reserve the right to visit the Contract Laboratory for a tour of the facility, both prior to the award and during the duration of the contract. Prior to visiting the Laboratory facility, the City shall provide no less than 4 days, but no more than 7 days, advance notice to the facility.

In the event the Laboratory fails to comply with the reporting and analytical requirements set forth herein, the City of Ormond Beach shall issue to the Laboratory a written warning describing such failure. Should the Laboratory's noncompliance continue for four (4) consecutive weeks, with written warnings, the City of Ormond Beach will have the option to deduct from the invoice of reports not meeting the requirement an amount equal to 10% of the invoice total. If non-compliance with the 14 calendar day turn-around time continues for eight (8) consecutive weeks, with written warnings, the City of Ormond Beach will have the option to deduct from the invoice of reports an amount equal to 20% of the invoice total. Persistent and repeated failure of the

laboratory to comply with this 14 calendar day turn-around time in any 3 month interval may be interpreted as default for the purposes of this section.

**2. Bid Requirements/Information to be Provided with Bidder's Submission**

a. Copies of current State, NELAP, and EPA certifications or other documentation that firmly establishes, to the satisfaction of the City, the certification status of the laboratory for all listed parameters must be submitted with your Bid.

b. A price list must be submitted with your Bid showing individual parameter prices (for all listed parameters), method numbers, and method detection limits. Costs listed be shall be firm for the duration of the contract.

c. One (1) copy of the laboratory NELAC compliant "Quality Manual" shall be provided with your Bid.

d. A statement indicating the percentage of work to be subcontracted. Additionally, the statement shall also confirm that the laboratory has sufficient staffing to assume the responsibility for the testing to be performed on behalf of the City of Ormond Beach.

e. The results from the most recent previous two WP/WA/NELAC Proficiency Testing studies are to be included in your submittal.

f. Copies of the last two FDOH laboratory assessments with corrective actions taken are to be included in your submittal.

g. A description of the laboratory and its relevant prior experience, specifically as related to governmental agencies.

h. A list of four references who shall confirm instances of comparable testing performed for governmental entities. If these cannot be provided, please explain.

i. The name and resume, including employment history with the Company, of the **senior staff** individuals who will perform the testing. If the successful provider subcontracts work under this contract, the same information will be provided for the subcontract laboratory.

j. Documentation which establishes the length of time in business in the State of Florida (at least four (4) years required).

k. Laboratories with service contracts cancelled within the previous five years due to failure to provide accurate testing results are not eligible to bid.

Subcontract labs, if any, shall be required to submit information in items "a - c" and "e - g."

# City of Ormond Beach
## LABORATORY TESTING SERVICES
## Bid No. 2025-47

The BIDDER will fill in the MDL listed on the bid sheets and complete the Work, as described herein, for the following price(s):

### Reuse Effluent Analysis

| PARAMETERS | Methods | Matrix | No. of Samples | Unit Cost | Subtotal |
|---|---|---|---|---|---|
| Primary & Secondary Drinking Water Standards, including: 504.1,508.1 | Various | WW | 3 | $ 1,196.76 | $ 3,590.25 |
| 515.3, 524.2,Hg,As,Ba,Cd,Cr,Cu, | | | | | |
| Fe, Mn,Ag,Na,Zn,An,Pb,Se,Cl,F,NO3, | | | | | |
| SO4,MBAS,pH,TDS,Radium | | | | | |
| 226/228,Gross Alpha | | | | SEE PERMIT | |
| | | | | | |
| **Effluent Analysis Subtotal** | | | | $ 3,590.25 | |

### Industrial Pre Treatment

| PARAMETERS | Methods | Matrix | MDL | No. of Samples | Unit Cost | Subtotal |
|---|---|---|---|---|---|---|
| As, Cd, Cr, Cu, Pb, Mo, Ni, Se, Ag, Zn | 200.7 | WW | See MDL/PQL sheet provided in bid | 5 | $ 47.50 | $ 237.50 |

## A. Florida Certifications for Pace

The Reminder of this page is left intentionally blank.

State of Florida
Department of Health, Bureau of Public Health Laboratories
This is to certify that

E83079

PACE ANALYTICAL SERVICES, LLC - ORMOND BEACH FL
8 EAST TOWER CIRCLE
ORMOND BEACH, FL 32174

has complied with Florida Administrative Code 64E-1,
for the examination of environmental samples in the following categories

DRINKING WATER - GROUP I UNREGULATED CONTAMINANTS, DRINKING WATER - GROUP II UNREGULATED CONTAMINANTS, DRINKING WATER - OTHER REGULATED CONTAMINANTS, DRINKING WATER - GROUP III UNREGULATED CONTAMINANTS, DRINKING WATER - MICROBIOLOGY, DRINKING WATER - PRIMARY INORGANIC CONTAMINANTS, DRINKING WATER - SECONDARY INORGANIC CONTAMINANTS, DRINKING WATER - RADIOCHEMISTRY, DRINKING WATER - SYNTHETIC ORGANIC CONTAMINANTS, NON-POTABLE WATER - EXTRACTABLE ORGANICS, NON-POTABLE WATER - GENERAL CHEMISTRY, NON-POTABLE WATER - METALS, NON-POTABLE WATER - MICROBIOLOGY, NON-POTABLE WATER - PESTICIDES-HERBICIDES-PCB'S, NON-POTABLE WATER - VOLATILE ORGANICS, SOLID AND CHEMICAL MATERIALS - EXTRACTABLE ORGANICS, SOLID AND CHEMICAL MATERIALS - GENERAL CHEMISTRY, SOLID AND CHEMICAL MATERIALS - METALS, SOLID AND CHEMICAL MATERIALS - MICROBIOLOGY, SOLID AND CHEMICAL MATERIALS - PESTICIDES-HERBICIDES-PCB'S, SOLID AND CHEMICAL MATERIALS - VOLATILE ORGANICS, BIOLOGICAL TISSUE - METALS

Continued certification is contingent upon successful on-going compliance with the NELAC Standards and FAC Rule 64E-1 regulations. Specific methods and analytes certified are cited on the Laboratory Scope of Accreditation for this laboratory and are on file at the Bureau of Public Health Laboratories, P. O. Box 210, Jacksonville, Florida 32231. Clients and customers are urged to verify with this agency the laboratory's certification status in Florida for particular methods and analytes.

Date Issued: April 18, 2025 Expiration Date: June 30, 2025

This is to certify that

E871184

PACE ANALYTICAL SERVICES, LLC - BOSTON
22 CUMMINGS PARK
WOBURN, MA 01801

has complied with Florida Administrative Code 64E-1,
for the examination of environmental samples in the following categories

DRINKING WATER - PRIMARY INORGANIC CONTAMINANTS

Continued certification is contingent upon successful on-going compliance with the NELAC Standards and FAC Rule 64E-1 regulations. Specific methods and analytes certified are cited on the Laboratory Scope of Accreditation for this laboratory and are on file at the Bureau of Public Health Laboratories, P. O. Box 210, Jacksonville, Florida 32231. Clients and customers are urged to verify with this agency the laboratory's certification status in Florida for particular methods and analytes.

Date Issued: July 01, 2024 Expiration Date: June 30, 2025

Marie-Claire Rowlinson, PhD, D(ABMM)
Bureau of Public Health Laboratories
DH Form 1697, 7/04
NON-TRANSFERABLE E871184-03-07/01/2024
Supersedes all previously issued certificates

Ron DeSantis
Governor

has complied with Florida Administrative Code 64E-1,
for the examination of environmental samples in the following categories

DRINKING WATER - DIOXIN, DRINKING WATER - PRIMARY INORGANIC CONTAMINANTS, DRINKING WATER - SECONDARY INORGANIC CONTAMINANTS, NON-POTABLE WATER - EXTRACTABLE ORGANICS, NON-POTABLE WATER - PESTICIDES-HERBICIDES-PCB'S, SOLID AND CHEMICAL MATERIALS - EXTRACTABLE ORGANICS, SOLID AND CHEMICAL MATERIALS - PESTICIDES-HERBICIDES-PCB'S, BIOLOGICAL TISSUE - EXTRACTABLE ORGANICS, BIOLOGICAL TISSUE - PESTICIDES-HERBICIDES-PCB'S, AIR AND EMISSIONS - EXTRACTABLE ORGANICS

Continued certification is contingent upon successful on-going compliance with the NELAC Standards and FAC Rule 64E-1 regulations. Specific methods and analytes certified are cited on the Laboratory Scope of Accreditation for this laboratory and are on file at the Bureau of Public Health Laboratories, P. O. Box 210, Jacksonville, Florida 32231. Clients and customers are urged to verify with this agency the laboratory's certification status in Florida for particular methods and analytes.

Date Issued: January 24, 2025 Expiration Date: June 30, 2025

Marie-Claire Rowlinson, PhD, D(ABMM)
Bureau of Public Health Laboratories
DH Form 1697, 7/04
NON-TRANSFERABLE E87605-59-01/24/2025
Supersedes all previously issued certificates

State of Florida
Department of Health, Bureau of Public Health Laboratories
This is to certify that

E87627

PACE ANALYTICAL SERVICES, LLC-HUNTERSVILLE NC
9800 KINCEY AVE., SUITE 100
HUNTERSVILLE, NC 28078

has complied with Florida Administrative Code 64E-1,
for the examination of environmental samples in the following categories

DRINKING WATER - GROUP I UNREGULATED CONTAMINANTS, DRINKING WATER - GROUP II UNREGULATED CONTAMINANTS, DRINKING WATER - OTHER REGULATED CONTAMINANTS, DRINKING WATER - SYNTHETIC ORGANIC CONTAMINANTS, NON-POTABLE WATER - EXTRACTABLE ORGANICS, NON-POTABLE WATER - GENERAL CHEMISTRY, NON-POTABLE WATER - PESTICIDES-HERBICIDES-PCB'S, NON-POTABLE WATER - VOLATILE ORGANICS, SOLID AND CHEMICAL MATERIALS - EXTRACTABLE ORGANICS, SOLID AND CHEMICAL MATERIALS - GENERAL CHEMISTRY, SOLID AND CHEMICAL MATERIALS - PESTICIDES-HERBICIDES-PCB'S, SOLID AND CHEMICAL MATERIALS - VOLATILE ORGANICS

Continued certification is contingent upon successful on-going compliance with the NELAC Standards and FAC Rule 64E-1 regulations. Specific methods and analytes certified are cited on the Laboratory Scope of Accreditation for this laboratory and are on file at the Bureau of Public Health Laboratories, P. O. Box 210, Jacksonville, Florida 32231. Clients and customers are urged to verify with this agency the laboratory's certification status in Florida for particular methods and analytes.

Date Issued: July 01, 2024 Expiration Date: June 30, 2025

Marie-Claire Rowlinson, PhD, D(ABMM)
Bureau of Public Health Laboratories
DH Form 1697, 7/04
NON-TRANSFERABLE E87627-42-07/01/2024
Supersedes all previously issued certificates

Greensburg, PA 15601

Dear Laboratory Director:

For granting and maintaining reciprocal certification, the Florida Department of Health considers the current scope of accreditation issued by the NELAP-recognized primary accreditation body as the basis for that certification. Notification from the state of Pennsylvania, Department of Environmental Protection, that some Fields of Accreditation (FOAs) have been suspended due to Proficiency Testing (PTs) failure. Therefore, reciprocal certification has been suspended for the following FOAs:

**Drinking Water**

| | |
|---|---|
| Strontium-90 | EPA 905.0 |

Please be advised that the Department of Health has made the necessary changes to the scope of your laboratory's certification final as of March 13, 2025. The enclosed Certificate and Laboratory Scope of Accreditation reflects the Fields of Accreditation for which the laboratory is now certified.

The Department of Health will reinstate the affected certifications when the department receives a current copy of the unexpired certification and analyte sheet for your laboratory from the primary NELAP accrediting authority that demonstrate compliance with the provisions of *Florida Administrative Code Rule 64E-1.102(4)(a)*.

If there are any questions regarding this action, please contact the Environmental Laboratory Certification Program immediately at 904-791-1599 or e-mail me at paul.legge@flhealth.gov.

Sincerely,

Paul Legge
Program Administrator
Environmental Laboratory Certification Program

PL\mmm

Enclosures: Certificate and associated Laboratory Scope of Accreditation

State of Florida
Department of Health, Bureau of Public Health Laboratories
This is to certify that

E87683

PACE ANALYTICAL SERVICES, LLC-GREENSBURG, PA
1638 ROSEYTOWN ROAD SUITES 2, 3 & 4
GREENSBURG, PA 15601

has complied with Florida Administrative Code 64E-1,
for the examination of environmental samples in the following categories

DRINKING WATER - RADIOCHEMISTRY, NON-POTABLE WATER - RADIOCHEMISTRY, SOLID AND CHEMICAL MATERIALS - RADIOCHEMISTRY

Continued certification is contingent upon successful on-going compliance with the NELAC Standards and FAC Rule 64E-1 regulations. Specific methods and analytes certified are cited on the Laboratory Scope of Accreditation for this laboratory and are on file at the Bureau of Public Health Laboratories, P. O. Box 210, Jacksonville, Florida 32231. Clients and customers are urged to verify with this agency the laboratory's certification status in Florida for particular methods and analytes.

Date Issued: March 13, 2025 Expiration Date: June 30, 2025

Marie-Claire Rowlinson, PhD, D(ABMM)
Bureau of Public Health Laboratories
DH Form 1697, 7/04
NON-TRANSFERABLE E87683-40-03/13/2025
Supersedes all previously issued certificates

State of Florida
Department of Health, Bureau of Public Health Laboratories
This is to certify that

E87648

PACE ANALYTICAL SERVICES, LLC-ASHEVILLE NC
2225 RIVERSIDE DRIVE
ASHEVILLE, NC 28804

has complied with Florida Administrative Code 64E-1,
for the examination of environmental samples in the following categories

DRINKING WATER - PRIMARY INORGANIC CONTAMINANTS, NON-POTABLE WATER - GENERAL CHEMISTRY, NON-POTABLE WATER - METALS, SOLID AND CHEMICAL MATERIALS - GENERAL CHEMISTRY, SOLID AND CHEMICAL MATERIALS - METALS

Continued certification is contingent upon successful on-going compliance with the NELAC Standards and FAC Rule 64E-1 regulations. Specific methods and analytes certified are cited on the Laboratory Scope of Accreditation for this laboratory and are on file at the Bureau of Public Health Laboratories, P. O. Box 210, Jacksonville, Florida 32231. Clients and customers are urged to verify with this agency the laboratory's certification status in Florida for particular methods and analytes.

Date Issued: July 01, 2024 Expiration Date: June 30, 2025

Marie-Claire Rowlinson, PhD, D(ABMM)
Bureau of Public Health Laboratories
DH Form 1697, 7/04
NON-TRANSFERABLE E87648-32-07/01/2024
Supersedes all previously issued certificates

# City of Ormond Beach
## LABORATORY TESTING SERVICES
## Bid No. 2025-47

The BIDDER will fill in the MDL listed on the bid sheets and complete the Work, as described herein, for the following price(s):

## Reuse Effluent Analysis

| PARAMETERS | Methods | Matrix | No. of Samples | Unit Cost | Subtotal |
|---|---|---|---|---|---|
| Primary & Secondary Drinking Water Standards, including: 504.1,508.1 | Various | WW | 3 | $ 1,196.76 | $ 3,590.25 |
| 515.3, 524.2,Hg,As,Ba,Cd,Cr,Cu, | | | | | |
| Fe, Mn,Ag,Na,Zn,An,Pb,Se,Cl,F,NO3, | | | | | |
| SO4,MBAS,pH,TDS,Radium | | | | | |
| 226/228,Gross Alpha | | | | SEE PERMIT | |
| | | | | | |
| **Effluent Analysis Subtotal** | | | | $ 3,590.25 | |

## Industrial Pre Treatment

| PARAMETERS | Methods | Matrix | MDL | No. of Samples | Unit Cost | Subtotal |
|---|---|---|---|---|---|---|
| As, Cd, Cr, Cu, Pb, Mo, Ni, Se, Ag, Zn | 200.7 | WW | See MDL/PQL sheet provided in bid | 5 | $ 47.50 | $ 237.50 |
| Cyanide | 335.3 | WW | See MDL/PQL sheet provided in bid | 5 | $ 18.00 | $ 90.00 |
| Mercury | 1631E | WW | See MDL/PQL sheet provided in bid | 5 | $ 59.00 | $ 295.00 |
| TSS | 160.1 | WW | See MDL/PQL sheet provided in bid | 5 | $ 9.00 | $ 45.00 |
| BOD | 405.1 | WW | See MDL/PQL sheet provided in bid | 5 | $ 16.00 | $ 80.00 |
| TTO (including:624,625,608) | Various | WW | See MDL/PQL sheet provided in bid | 5 | $ 245.00 | $ 1,225.00 |
| | | | | | | |
| **Pre Treatment Subtotal** | | | | | $ 1,972.50 | |

# Wastewater

| PARAMETERS | Methods | Matrix | MDL | No. of Samples | Unit Cost | Subtotal |
|---|---|---|---|---|---|---|
| Priority Pollutants for Effluent and Influent | Various | WW | See MDL/PQL sheet provided in bid | 2 | $442.00 | $ 884.00 |
| (including: 608, 624, 625, Cyanide, phenolics, Hg,Sb,As,Be,Cd,Cr,Cu,Pb,Ni, Se,Ag,Tl,Zn, Oil & Grease | SEE PERMIT | | | | | |
| 503 Sludge | Various | WW | See MDL/PQL sheet provided in bid | 4 | $ 140.00 | $ 560.00 |
| Cryptosporidium and Giardia | 1623 | WW | See MDL/PQL sheet provided in bid | 1 | $ 865.00 | $ 865.00 |
| Acute Bioassay | EPA 821-R-02-012 (FW acute) (2000.0) | WW | See MDL/PQL sheet provided in bid | 2 | $ 3,560.00 | $ 7,120.00 |
| Low Level Mercury | 1631E | WW | See MDL/PQL sheet provided in bid | 2 | $ 59.00 | $ 118.00 |
| Sampling Disposal Fee for Mercury | | WW | See MDL/PQL sheet provided in bid | 2 | $ 9.00 | $ 18.00 |
| Nickel | 200.8 | WW | See MDL/PQL sheet provided in bid | 12 | $ 4.75 | $ 57.00 |
| Copper | 200.8 | WW | See MDL/PQL sheet provided in bid | 12 | $ 4.75 | $ 57.00 |
| Dichlorobromomethane | 524.2 | WW | See MDL/PQL sheet provided in bid | 12 | $ 29.00 | $ 348.00 |
| Zinc | 200.8 | WW | See MDL/PQL sheet provided in bid | 12 | $ 4.75 | $ 57.00 |
| Sodium | 200.7 | WW | See MDL/PQL sheet provided in bid | 52 | $ 4.75 | $ 247.00 |
| Magnesium | 200.7 | WW | See MDL/PQL sheet provided in bid | 52 | $ 4.75 | $ 247.00 |
| Calcium | 200.7 | WW | See MDL/PQL sheet provided in bid | 52 | $ 4.75 | $ 247.00 |
| Chloride | 300.0 | WW | See MDL/PQL sheet provided in bid | 52 | $ 8.00 | $ 416.00 |
| TDS | 2540C | WW | See MDL/PQL sheet provided in bid | 52 | $ 10.00 | $ 520.00 |
| Fluoride | 300.0 | WW | See MDL/PQL sheet provided in bid | 52 | $ 8.00 | $ 416.00 |
| CBOD | SM5210B | WW | See MDL/PQL sheet provided in bid | 540 | $ 16.00 | $ 8,640.00 |
| TSS | 2540D | WW | See MDL/PQL sheet provided in bid | 644 | $ 9.00 | $ 5,796.00 |

| | | | | | | |
| **CUP Water Subtotal** | | | | | $ 1,636.00 | |

Occasionally it may be necessary to receive sample results before the normal turn around time. Insert the proposed rush charges in the following matrix as a percentage surcharge over the normal contract price.

| **Turnaround Time** | **Rush Surcharges** |
|---|---|
| **6-7 Working Days** | 1.1X |
| **5 Working Days** | 1.25X |
| **4 Working Days** | 1.5X |
| **3 Working Days** | 1.75X |
| **1-2 Working Days** | 2.5X |

The bid basis for the contract award is the sum of the individual parameters.

**TOTAL BID FOR CONTRACT** **$** 80,376.25
(Figures)

Eighty Thousand three hundred seventy six dollars and twenty five cents

# Quality Manual Approver Information – Ormond Beach

The individuals listed below are approvers of this manual and are responsible for implementing the PAS Quality Management System (QMS) and upholding the requirements of this manual at the location(s) for which this manual was prepared, at the time this version of the manual was made effective.

The manual is not revised and released under an updated version when there is a change to personnel. Personnel information is updated during the manual's normal review and revision cycle.

If an approver changes positions, leave the company, or is on extended leave of absence, the responsibility to implement and uphold the PAS QMS automatically transfers to the primary or alternate deputy for the position until the approver is replaced and/or the approver returns to work. The individual replacing the approver automatically accepts the responsibilities associated with the original approver's attestation. Refer to Section 4.1.5.1.1 of this manual to view the deputies assigned to key personnel job titles.

| Name | Job Title | Address, City, State, ZIP | Phone |

# 1.0 PURPOSE AND SCOPE

## 1.1 Purpose

This quality manual (manual) outlines the quality management system (QMS) and management structure of Pace® Analytical Services, LLC. Throughout this manual, Pace® Analytical Services, LLC is also referred to by the acronyms PAS or ENV. The acronyms PAS and ENV are interchangeable.

The QMS is also called the quality program throughout this manual and other PAS documents. "Quality Management System" and "Quality Program" are synonymous and inferred by the acronym QMS.

The QMS is the collection of policies and processes established by the senior leaders of PAS (top management) to ensure the services and products provided by PAS consistently meet relevant requirements and achieves the goal of Pace® to provide customers with high quality, cost-effective, analytical measurements, and services.

The QMS is planned to establish conformance[1] and compliance with the current published versions of these international and national quality system Standards:

- ISO/IEC 17025: *General requirements for the competence of testing and calibration laboratories*
- NELAC/TNI Standard Volume 1: *Management and Technical Requirements for Laboratories Performing Environmental Analysis*

[1]The statement of conformity to these Standards pertains only to testing and sampling activities carried out by the laboratory at its physical address, in temporary or mobile facilities, in-network, or by laboratory personnel at a customer's facility.

The QMS is also planned to achieve regulatory compliance with the various federal and state programs for which PAS locations provide compliance testing and/or holds certification or accreditation. Federal or state requirements that do not apply to all PAS locations, are provided in addendum to this manual or in other documents that supplement the manual. Customer-specific project and program requirements are not included in the manual in order to maintain client confidentiality.

- A list of accreditation and certifications held by each location associated with this manual is provided in Appendix A.
- A list of analytical testing capabilities offered by each location associated with this manual is provided in Appendix B.

## 1.2 Scope and Application

This manual applies to each location listed on the Title Page of this manual:

For purposes of the PAS QMS the term "location" refers to laboratories and/or service centers.

- The term "laboratory" refers to any PAS location, however named by Pace® that provides testing, collects samples (sampling), or conducts field measurement services in a fixed building, mobile unit, or in-situ (field).
- The phrase "service center" refers to any PAS location, however named by Pace® that does not perform any testing, sampling, or field measurements.

PAS locations are defined by their physical address and other information:

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

- Laboratories are defined by physical address and certification/accreditation ID.
- Mobile units are defined by the address of the location to which they are assigned, by VIN (vehicle identification number), or by certification/accreditation ID.
- The phrase "satellite laboratory" is used by PAS to refer to a limited-service laboratory affiliated with a larger PAS business unit or location. Some PAS business groups refer to satellite laboratories as service centers for accounting purposes. This designation is not consistent with the definitions specified in this manual orthroughout the supporting documents associated with the QMS. Regardless of any internal reference or jargon, any PAS location that generates a test result is a "laboratory" and all laboratories must comply with all requirements specified in this manual for analytical testing services.

### 1.2.1 Quality Manual Template

This manual was prepared from the PAS Quality Manual Template (template) created by the PAS Corporate Quality Director (CQD).

The template, known as document ID ENV-TMP-CORQ-0007, specifies the minimum requirements that every PAS location must abide by, regardless of scope of services or number of personnel, in order to achieve the objectives of the PAS Quality Policy (See Section 4.2.2).

The template is the mechanism used by top management[1] to communicate their commitment to continuously develop and improve the QMS for effectiveness, to meet customer expectations, and to comply with any statutory and regulatory requirements. Their signature of approval for the template is the mechanism used to document their responsibility.

[1]Top Management is the phrase in the TNI Standard that refers to the leaders of an organization that develop and/or release the PAS Quality Policy Statement and manual under their authority. For PAS, top management includes the Pace® Chief Executive Officer (CEO) and Chief Compliance Officer (CCO) and the PAS President, Corporate Quality Director, Senior Vice President of Operations (Sr. VPO), and the Chief Technical Officer (CTO.

The template and instructions for use of the template are released by corporate quality personnel to the local quality managers responsible for each location (Local QM). The local QM uses the template to prepare the location's manual by following the instructions provided to them. The local QM may not alter the font, structure, or content of the template, except where specified by instruction to do so.

The template is reviewed by corporate quality personnel annually and updated, if needed. More frequent review and revision may occur to manage change, to maintain conformance and compliance to relevant standards or to improve the QMS.

See standard operating procedure (SOP) ENV-SOP-CORQ-00015 *Document Management and Control* for more information.

### 1.2.2 Quality Manual

The quality manual is created from template ENV-TMP-CORQ-0007 by local quality personnel, who are also responsible for maintenance and management of the local manual.

- PAS locations are not permitted to alter content of the template when preparing their manual, except where specified in the template. Control of content in the manual is

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

necessary to ensure consistency of implementation of the PAS quality program across the network.

- If additions or changes to the manual are needed to maintain regulatory compliance or conformance to relevant standards and these changes cannot be covered by addendum to the manual, the need for change must be raised to the PAS Corporate Quality Director, who will decide how to resolve the need.

The manual is approved for release by the individuals listed on manual approval page. The person's electronic signature affirms their commitment to implement and uphold the requirements, processes, and procedures of the PAS QMS at each location for which the manual was prepared.

The manual is updated with each release of a new version of the template, and as needed to update appendices and addendum. More frequent review and revision may be necessary when there are significant changes to the capabilities, and resources of the laboratory during the calendar year.

See SOP ENV-SOP-CORQ-00015 *Document Management and Control* for more information.

### 1.2.3 References to Supporting Documents

The template and the manual include references to other organization documents that support the QMS such as policies and standard operating procedures (SOPs).

These references may include the document's document control number (DC#) and the document title. This information is subject to change at the discretion of PAS. The manual and/or template are updated to reflect the editorial change during the manual's next scheduled review/revision cycle or the next time a version of the manual is released, whichever is sooner.

Each location maintains a current list of documents used by the location to support the QMS. This list, known as the controlled document or master list is readily available to personnel for their use and it provides a cross reference to the legacy document ID, where applicable. Parties external to PAS may contact the location of interest to obtain the most current version of controlled document list if desired.

## 3.0 TERMS AND DEFINITIONS

Refer to Appendix C for terms, acronyms, and definitions used in this manual and in other documents used by PAS to support the QMS.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

# 4.0 MANAGEMENT REQUIREMENTS

## 4.1 Organization

### 4.1.1 Legal Identity

Pace® Analytical Services, LLC (PAS) is the responsible entity authorized by the State of Minnesota to do business as a limited liability company, under the parent company, PAS Parent, Inc.

#### 4.1.1.1 Change of Ownership

If there is a change of ownership, if a PAS location goes out of business, or if the entire organization ceases to exist, PAS management must notify regulatory authorities of the change within the time required by each state agency for which the location is certified or accredited.

Specifications for retention of records and other business information are addressed in the ownership transfer agreement and in accordance with appropriate regulatory requirements. These details are not included in this manual because each situation is specific to the change event.

### 4.1.2 Compliance Responsibility

PAS management has the responsibility and authority to establish and implement procedures and to maintain resources necessary to assure its testing activities are carried out in such a way to meet applicable federal and statutory requirements in addition to the requirements specified in this manual and QMS supporting documents.

### 4.1.3 Scope of the Quality Management System

The QMS applies to work carried out at each location covered by this manual including permanent facilities, at sites away from its permanent facilities, or in associated temporary or mobile facilities.

The permanent and mobile facilities to which this manual applies are listed on the Title Page of this manual.

### 4.1.4 Organization History and Information

Founded in 1978, Pace® Analytical Services, LLC (PAS) is a privately held scientific services firm operating one of the largest full-service contract laboratory and service center networks in the United States.

The business purpose of PAS is to deliver the highest standard of testing and scientific services in the market. We offer the most advanced solutions in the industry, backed by transparent data, a highly trained team, and the service and support that comes from over four decades of experience.

#### 4.1.4.1 Organization Structure

Each PAS location is led by a management team referred to as local management[1]. Local management is responsible for making day-to-day decisions regarding the operations of the facility and implementing, and sustaining the requirements, policies, and procedures of the PAS quality program.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

[1] The term "local management" does not mean "on-site" management. Some of the roles included in the local management team, work off site or from a different PAS location.

For purpose of the QMS, the job titles associated with the local management team include Vice President of Operations (VPO), General Manager (GM), Director of Laboratory Operations (DLO), Quality Program Manager (QPM), and Quality Manager (QM).

The local management team is supported by department supervisors and team leaders, and business groups that support the organization such as HR, IT, Sales & Marketing, Finance, and EHS (Environmental Health & Safety).

Technical oversight for each location is provided by local personnel with support and guidance from the PAS Chief Technical Officer (CTO). Locations that hold TNI accreditation, also have personnel appointed to serve as the "acting technical manager for TNI, however named" to perform the duties and responsibilities of this designation per the TNI Standard. See Section 4.1.5.2.1 for more information on this TNI requirement.

The reporting relationships and responsibilities of quality personnel are independent of operations in order to safeguard impartiality. See Section 4.1.5.2 for more information.

Refer to the organization charts provided in Appendix D to view the organization structure, reporting relationships, and the interrelationships between positions.

### 4.1.5 Management Requirements

#### 4.1.5.1 Personnel

Each PAS location is staffed with administrative and/or technical personnel who perform and verify work under the supervision of their direct line supervisor.

All personnel are required to perform their duties in accordance with the policies and processes outlined in this manual and in accordance with standard operating procedures (SOPs) and other quality system documents. PAS policies and procedures are designed for impartiality and integrity. When these procedures are fully implemented, personnel remain free from undue pressure and other influences that adversely impact the quality of their work or data.

##### 4.1.5.1.1 Key Personnel

Key personnel are management positions that have the authority and responsibility to plan, direct, and control activities related to the QMS for the entire division (PAS Corporate), or for one or more PAS locations (Local).

PAS job titles classified as key personnel are as follows:

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

**PAS Key Personnel Positions & Deputy Assignments by Role**

| Job Title | Acronym | Primary / Alternate Deputy |
|---|---|---|
| Chief Executive Officer | CEO | President |
| Chief Compliance Officer | CCO | CQD / As Assigned |
| President | NA | CEO / Sr. VPO |
| Corporate Quality Director | CQD | CCO or CTO |
| Quality Program Manager | QPM | CQD / Peer QPM / As Assigned |
| Chief Technical Officer | CTO | CQD / As Assigned |
| Sr. VP of Operations | Sr. VPO | President / VPO |
| Vice President of Operations | VPO | Sr. VPO / Peer VPO |
| Director of Lab Operations[1] | DLO | VPO / Peer DLO or Sr. VPO |
| Health and Safety Director | NA | As Assigned |
| IT Director | NA | CIO |
| Quality Manager | QM | QPM /Peer QM / QAA |
| General Manager[1] | GM | VPO / Sr. VPO or Peer GM |
| Operations Manager[1] | OM | GM / DL or VPO |
| Technical Manager[1] | TM | CTO / Peer TM |
| TNI Approved TM[2] | TNI TM | Another Qualified Employee |

[1:] Position is not in place at all locations.

[2:] The TNI TM is not a PAS position. See Section 4.1.5.2.1 for more information.

Some certification and accreditation programs require notification any time there is a change in key personnel. Notification requirements are tracked and upheld by the local QM, when these requirements apply.

#### 4.1.5.2 Roles and Responsibilities

The qualifications, duties, and responsibilities for each position at Pace® are detailed in job descriptions maintained by the Pace® Human Resource personnel (HR).

The following sections provide a general overview of various management and supervisory roles and are presented in no particular order.

**Chief Executive Officer (CEO):** Provides leadership for overall operations; development of growth strategies; and long-range capital and strategic planning for Pace®.

**Chief Compliance Officer (CCO):** Provides leadership for compliance related activities.

**President:** Provides leadership for overall operations; oversight of regulatory and compliance standards; development of growth strategies; and long-range capital and strategic planning for PAS.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

**Chief Technical Officer (CTO):** Provides technical oversight and leadership to all PAS locations. Responsible for innovation and standardization of technical activities.

**Corporate Director of Quality (CQD):** Responsible for developing the PAS quality program and the policies and procedures that support the QMS. The CQD leads the quality team, establishing functions, responsibilities, duties, and organization structure for PAS.

**Corporate Quality Program Manager (QPM):** Responsible for helping local management implement, monitor, maintain and improve the PAS quality program for one or more locations in the network and for direct supervision of Quality Manager(s).

**Director of Information Technology:** Oversees and delivers the systems and processes of information technology used by PAS. These systems include Laboratory Information Management Systems (LIMS); data acquisition, reduction, and reporting software; virus-protection, communication tools, and ensuring the integrity, security of electronic data, and associated policies and procedures.

**Sr. Vice President of Operations (Sr VPO):** Provides leadership, direction, and insight necessary to achieve strategic initiatives. Develops and improves processes, structure, and allocation of resources for operations for all PAS.

**Vice-President of Operations (VPO):** Provides leadership, guidance, and resources, including allocation of personnel, necessary to achieve the strategic goals of the organization and the PAS quality program to one or more PAS locations.

**Director of Laboratory Operations (DLO):** See descriptions for VPO and General Manager. The DLO is an intermediary management position that provides leadership and resources to one or more locations.

**General Manager (GM):** The GM is responsible for overall administration and operation of one or more PAS locations. Although task duties associated with this responsibility may be delegated, the GM is responsible for ensuring all duties and activities of the locations they oversee comply with the PAS QMS, the PAS EHS program, and with any applicable statutory, regulatory requirements or program requirements. If a GM is not assigned to the location, these responsibilities are transferred to the Operations Manager (OM) or DLO. If no DLO, to the VPO.

Any GM of a TNI Accredited laboratory is also responsible for the designation of technical personnel to serve as acting technical managers for TNI for the fields of accreditation held by the laboratory (See Section 4.1.5.2.1) and for notifying the accreditation body (AB) of any extended absence or reassignment of these designations.

**Quality Manager (QM):** The QM oversees and monitors the implementation, compliance, and improvement of the QMS and communicates gaps, deviations, and opportunities for improvement to local and corporate laboratory management. The QM is independent of the operation and analytical activities for which they provide oversight and has the authority to carry out the roles and responsibilities of their position without outside influence.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

The QM:

- serves as the focal point for QA/QC protocol decisions and oversees review of QC data for trend analysis;
- evaluates data objectively and performs assessments without outside influence;
- has documented training and experience in QA/QC procedures and the PAS quality system;
- has a general knowledge of the analytical methods offered by the laboratory;
- coordinates and conducts internal systems and technical audits;
- notifies laboratory management of deficiencies in the quality system;
- monitors corrective actions;
- provides support to technical personnel and may serve as the primary deputy for the acting TNI Technical Manager(s).

**Manager-Client Services (CSM):** This position is responsible for the training and supervision of project manager(s) and/or shipping, receiving and courier personnel. The primary responsibility of the CSM is to ensure projects are successfully managed to meet the expectations and needs of PAS customers.

**Department Managers/Supervisors/Team Lead):** These positions are responsible for administrative and operations management and implementation of the QMS in the work area he/she oversees. These responsibilities include but are not limited to: training and supervision of personnel, monitoring work activity to maintain compliance with this manual, SOPs, policies and other instructional documents that support the QMS; method development, validation and the establishment and implementation of SOPs to assure regulatory compliance and suitability for the intended purpose; monitoring QA/QC performance, proper handling and reporting of nonconforming work; purchasing of supplies and equipment adequate for use; maintaining instrumentation and equipment in proper working order and calibration; and general maintenance of administrative and technical processes and procedures established by the laboratory.

**Operations Manager (OM):** The OM is responsible for management of production and/or other duties assigned by the GM.

#### 4.1.5.2.1 Approved Technical Manager (TNI Accreditation Only)

The requirements in this subsection apply only to PAS locations that are NELAC/TNI accredited.

The TNI Standard specifies requirements for the qualification and duties of technical personnel. The TNI Standard lists these duties under the reference "technical manager(s), however named."

At PAS, these duties closely correlate with the responsibilities and duties outlined in the PAS job descriptions for managers, supervisors, team leads, and/or scientists. However, these duties do not need to be associated with

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

any specific job title and can be assigned to any one or more PAS employees that meets the qualifications specified in the TNI Standard.

Refer to the applicable version of the TNI Standard to view the required qualifications for each discipline.

PAS locations that are TNI accredited must designate one or more employees to perform these duties and submit these qualifications to the TNI accreditation body (AB) for approval.

Employees approved by the TNI AB, to perform these duties retain their Pace® assigned job title.

When TNI Accreditation Bodies (AB) refer to these employees as 'technical manager' or 'technical director' on the official certificate or the scope of accreditation, this reference is referring to their approval to perform duties of the 'technical manager, however named' as specified in the TNI Standard and not to a PAS job title.

The duties of any approved technical manager for TNI, however named, can be completed in person or remotely. If an employee that is an approved technical manager for TNI is completely absent from work or on a leave of absence for more than 15 calendar days, the duties and responsibilities specified in the TNI Standard are temporarily reassigned to another employee that meets the qualifications for the technology or field of accreditation. If the employee's absence exceeds 35 calendar days, the local QM must formally notify the TNI primary AB of the absence and the details of reassignment of duties in writing.

#### 4.1.5.3 Conflict of Interest

A conflict of interest is a situation where a person has competing interests that may affect impartiality. It is the policy of Pace® to ensure business relationships, decisions and transactions do not place personal interest ahead of the organization, customers, colleagues, job responsibilities or the public we serve. Conflict of interest is avoided by making personnel aware of circumstances that conflict or appear to conflict with impartiality and/or designing process and procedures to include checks and balances to prevent conflict and ensure impartiality.

See the current version of policy COR-POL-0004 *Code of Ethics and Professional Conduct* for more information.

#### 4.1.5.4 Confidentiality

PAS management is committed to preserving the confidentiality of Pace® customers and confidentiality of Pace® business information.

Client information obtained or created during work activities is considered confidential and is protected from intentional release to any person or entity other than the client or the client's authorized representative, except when Pace® is required by law to release confidential information to another party, such as a regulatory agency or for litigation purposes. In which case, Pace® will notify the client

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

of the release of information and the information provided, unless notification is prohibited by law.

When Pace® obtains information about the customer from a source other than the customer, Pace® will keep the source of the information confidential unless disclosure is agreed upon by the source.

The terms of client confidentiality are included in PAS Standard Terms and Conditions (T&C). With the acceptance of the T&C and/or the implicit contract for analytical services that occurs when the client sends samples to PAS for testing, the client authorizes Pace® to release confidential information when required. Other procedures used by PAS to maintain confidentiality include:

- A Code of Ethics and Professional Conduct policy that covers this topic (COR-POL-0004);
- A Confidentiality Agreement which supervisory and sales personnel and other positions are required to sign at the time of employment and abide by the conditions of throughout employment;
- Record retention and disposal procedures that assure confidentiality is maintained; and
- Physical access controls and encryption of electronic data.

See policy COR-POL-0004 *Code of Ethics and Professional Conduct* for more information.

#### 4.1.5.5 Communication

Communication is defined as the imparting or exchanging of news and information. Effective (good) communication occurs when the people included in the communication gets the point and understands it.

##### 4.1.5.5.1 Workplace Communication

Effective communication in the workplace is necessary to assure work is performed correctly, efficiently, and in accordance with client specifications.

Instructions for how to conduct testing and other work activities are communicated to personnel via written policies, standard operating procedures, and other work instructions.

Information about PAS performance (positive and negative) and ideas for improvement are communicated to personnel using various communication channels such as face to face meetings, video conferencing, conference calls, email, memoranda, written reports, and posters.

##### 4.1.5.5.2 External Communication

Communication with external parties such as customers, vendors, business partners, and regulatory agencies takes place every day.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

PAS management is responsible for training personnel to communicate in professional and respectful ways to build strong relationships and to avoid misunderstanding.

## 4.2 Quality Management System

### 4.2.1 Quality Management System Objectives

The objectives of the PAS QMS are to provide clients with consistent, exemplary professional service, and objective work product that is of known and documented quality that meets their requirements for data usability and regulatory compliance.

Objective work products are analytical services, data, test results, and information that is not influenced by personal feeling or opinions. The quality of being objective is also known as 'impartiality.'

#### 4.2.1.1 Impartiality

PAS achieves and maintains impartiality by establishing an organizational structure that safeguards impartiality (See 4.1.4.1) and implementing and adhering to the policies and processes of the QMS outlined in this manual, which are based on industry accepted standards and methodologies.

PAS procedures for handling nonconforming work (See 4.9), corrective and preventive actions (See 4.11, 4.12) and management review (See 4.15) are the primary mechanisms used to identify risk to impartiality and to prompt actions necessary to eliminate or reduce the threat when risk to impartiality is suspected or confirmed.

#### 4.2.1.2 Risk and Opportunity Assessment

Risks are variables that make achieving the goals and objectives of the QMS uncertain.

An opportunity is something that has potential positive consequences for the organization.

PAS personnel manage risks and opportunities on a daily basis by following policies, procedures and processes that support the QMS. Some ways in which the QMS is designed to identify, minimize, or eliminate risk on a daily basis include but are not limited to:

- Capability and capacity reviews of each analytical service request to assure the laboratory can meet the customer's requirements;
- Maintenance of accreditation and certification for test methods in multiple states and programs to cover a broad range of authority for regulatory compliance;
- SOPs and other controlled instructional documents are provided to personnel to eliminate variability in the process. These documents include actions to counter risk factors inherent in the process and are reviewed on a regular basis for on-going suitability and relevancy;
- Participation in proficiency testing programs and auditing activities to verify on-going competency and comparability in performance;

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

- Provision of on-the-job training and established protocol for quality control (QC) corrective action for nonconforming events;
- An established program for ethics, and data integrity;
- Tiered data review process;
- Culture of continuous improvement;
- Monitoring activities to assess daily and long-term performance; and
- Annual critical review of the effectiveness of the QMS.

PAS also promotes a continuous improvement culture based on the principles of lean manufacturing. These principles include 3P (Process, Productivity, Performance) and Kaizen. 3P is a platform used by PAS to share best practices and standardization across the network to achieve operational excellence. Kaizen is a team-based process used to implement tools and philosophies of lean to reduce waste and achieve flow with the purpose of improving both external and internal customer satisfaction. The PAS lean program and activities help to mitigate risk because they generate a collective understanding of vulnerabilities and utilize group-effort to develop and implement solutions at all levels.

Risk and opportunities may also be formally identified using specific risk and opportunity assessment methods such as SWOT Analysis (Strength, Weakness, Opportunity, Threats) and 3-Stage Impact/Probability Grids.

#### 4.2.1.3 Communication of the Quality Management System

This manual is the primary mechanism used by PAS management to communicate the QMS to personnel.

To assure personnel understand and implement the quality program outlined in the manual:

- PAS personnel are required to sign a Read and Acknowledgement Statement to confirm the employee has:

  1) been informed of the manual by management;

  2) has access to the manual;

  3) has read the manual;

  4) understands the content of the manual; and

  5) agrees to abide by the requirements, policies, and procedures therein.

- Personnel are informed that the manual provides the "what" of the QMS. The "how to" implementation of the QMS is provided in policy, SOPs, standard work instructions, and other instructional documents.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

- This manual and supporting policies and procedures are made readily accessible to personnel in the area where the work activity is performed.

### 4.2.2 Quality Policy Statement

The quality policy of PAS is to provide customers with data of known and documented quality fit for their intended purpose. PAS achieves this policy by implementing the QMS defined in this manual, by following industry accepted protocol for analytical testing and quality assurance and quality control (QA/QC) activities, by conformance with published and industry accepted testing methodologies, and by compliance with international and national standards for the competency and/or accreditation of testing laboratories.

Intrinsic to this policy statement is each of the following principles:

- PAS will provide customers with reliable, consistent, and professional service. This is accomplished by making sure each PAS location has the resources necessary to maintain capability and capacity; that staff are trained and competent to perform the tasks they are assigned; that client-facing staff are trained and prepared to find solutions to problems and to assist customers with their needs for analytical services. Customer feedback, both positive and negative, is shared with personnel and used to identify opportunities for improvement.
- PAS maintains a quality program that complies with applicable state, federal, and industry standards for analytical testing and competency.
- PAS management provides training to personnel so that all personnel are familiar with the QMS outlined in this manual and that they understand that implementation of the QMS is achieved by adherence to the Pace® and PAS policies and procedures.
- PAS management continuously evaluates and improves the effectiveness of the QMS by responding to customer feedback, and other measures of performance, such as but not limited to the results of internal/external audits, proficiency testing, metrics, trend reports, and annual and periodic management reviews.

#### 4.2.2.1 Ethics Policy / Data Integrity Program

Pace® has established a comprehensive ethics and data integrity program that is communicated to all Pace® employees so that they understand what is expected of them. The program is designed to promote a mindset of ethical behavior and professional conduct that is applied to all work activities.

The key elements of the Pace® Ethics / Data Integrity Program include:

- Ethics Policy (COR-POL-0004);
- Standardized data integrity training course taken by all new employees on hire and a yearly refresher data integrity training course for all existing employees;
- Policy Acknowledgement Statements that all Pace® personnel, including contract and temporary, are required to sign at the time of employment and again during annual refresher training to document the employee's commitment and obligation to abide by the company's standards for ethics, data integrity and confidentiality;

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

- SOPs that provide instructions for how to carry out a test method or process to assure tasks are done correctly and consistently by each employee;
- On the Job Training;
- Data integrity monitoring activities which include, but are not limited to: primary, secondary and completeness data reviews, internal technical and system audits, data audits, data surveillance, and proficiency testing; and
- Confidential reporting process for alleged ethics and data integrity issues.

All PAS managers and supervisors are expected to provide a work environment where personnel feel safe and can report unethical or improper behavior in complete confidence without fear of retaliation. Retaliation against any employee that reports a concern is not tolerated.

Pace® has engaged Lighthouse Services, Inc. to provide personnel with an anonymous reporting process available to them 24 hours a day/7 days per week. The alert line may be used by any employee to report potential violations of the company's ethics and data integrity program. Reports are forwarded toPace® leadership to investigate and resolve the matter. Investigations concerning data integrity are kept confidential.

See COR-POL-0001 *Compliance Alertline* for more information.

Posters and flyers with the compliance alert line information must be prominently posted in each PAS location for personnel reference.

### 4.2.3 Management Commitment: Quality Management System

Evidence of management's commitment for the development, maintenance, and on-going improvement of the QMS is provided by the application of their signature of approval to the template and/or manual. Their signature confirms they understand their responsibility to implement the QMS outlined in this manual, to communicate the quality program to personnel, and to uphold requirements of the program during work activities.

### 4.2.4 Management Commitment: Customer Service

Management communicates the importance of meeting customer and regulatory requirements to personnel by training personnel on the QMS outlined in this manual, implementing the QMS outlined in this manual, and upholding these requirements for all work activities.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

### 4.2.5 Supporting Procedures

References to processes and procedures that support the QMS are included throughout this manual. The structure of the document management system is outlined in SOP ENV-SOP-CORQ-0015 *Document Management* and summarized in the following subsections.

#### 4.2.5.1 Quality Management System Document Structure

Documents associated with the QMS are classified into document types that identify the purpose of the document and establish how the document is managed and /or controlled.

**Examples: Types of PAS Internally Created Documents**

| Document Type | Purpose |
|---|---|
| Quality Manual | Outlines the PAS QMS and structure and how it works for a system including policy, goals, objectives and detailed explanation of the system and the requirements for implementation of system. Includes roles and responsibilities, relationships, procedures, systems, and other information necessary to meet the objectives of the system described. |
| Policy | Provide requirements and rules for a process and is used to set course of actions and to guide and influence decisions. Policy describes the "what," not the "how." |
| Standard Operating Procedure | Provide written and consistent set of instructions or steps for execution of a routine process, method, or set of tasks performed. Assures that activities are performed properly in accordance with applicable requirements. |
| Standard Work Instruction | Provide step by step visual and/or written instruction to perform a specific task to improve competency, minimize variability, reduce work injury and strain, or to boost efficiency and quality of work (performance). SWI are associated with an SOP unless the task described is unrelated to generation of or contribution to environmental data or analytical results. |
| Template | Pre-formatted document that serves as a starting point for a new document. |
| Guide | Assists users in using a particular product; or a technical interpretation of a method or process by which PAS locations must abide. |
| Form / Worksheet | Used for a variety of purposes such as to provide a standardized format to record observations, to provide information to supplement an SOP. |

**Examples: Types of External Documents used by PAS**

| | |
|---|---|
| Certificate | Lists parameters, methods, and matrices for which the location is certified/accredited to perform within the authority of the issuing regulatory agency or accreditation body. |
| Reference Document | Provide information, protocol, instructions, and/or requirements. Issued by the specifier. Examples include ISO/IEC, TNI, DoD/DOE and published referenced methods such as Standard Methods, ASTM, SW846, EPA, and federal and state regulatory bodies. |
| Project Document | Provides requirements necessary to meet individual client expectations for intended use of data. Examples include project quality assurance plans (QAPP), client-program technical specifications, contracts, and other agreements. |

Project documents are managed as external documents and any requirements for work specified is followed when work for the project is performed. If the project document is less stringent than the PAS QMS, policies, or SOPs, and/or is less stringent than applicable federal or state requirements, PAS locations are still required to meet the minimum requirements of the PAS QMS and any applicable statutory or federal requirements in addition to the requirements specified in the project

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

document. Information and requirements from project documents are not incorporated into PAS policy or SOPs in order to maintain client confidentiality.

Document types are ranked to identify which documents takes precedence when there is an actual or perceived conflict between documents and to establish the hierarchal relationships between documents. The ranking system also provides information to document writers and reviewers to assure downline documents agree with documents of higher rank.

**PAS Document Hierarchy**

| Rank | Document Type |
|---|---|
| 1 | External Reference Documents (Standards, Test Methods) |
| 2 | Quality Manual Template |
| 3 | Corporate & Division Policy |
| 4 | Corporate & Division SOP |
| 5 | Division SWI, Guides, Forms/Worksheets |
| 6 | Local Quality Manual |
| 7 | Local SOP |
| 8 | Local SWI, Guides, Forms/Worksheets |

#### 4.2.6 Roles and Responsibilities

The roles and responsibilities for technical management and the quality manager is provided in section 4.1.5.2.

#### 4.2.7 Change Management

When significant changes to the PAS QMS are planned, these changes are managed by corporate quality personnel to assure that the integrity of the QMS is maintained.

### 4.3 Document Control

#### 4.3.1 General

PAS uses electronic document management software (eDMS) to control documents that support the PAS QMS. eDMS provides centralized distribution and access to all documents used by PAS. All PAS locations must use the PAS eDMS system unless an exemption to this requirement has been granted by the PAS Corporate Quality Director.

eDMS automates the process for unique document identification, version control, approval, access, and archival and restricts access to archived documents except to authorized users to prevent the use of obsolete documents.

The local QM maintains a master list of controlled documents used at each location. The master list minimally includes the document control number, document title, and current revision status and is made available to personnel for their reference.

See SOP ENV-SOP-CORQ-0015 *Document Management* for more information.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

#### 4.3.2 Document Approval and Issue

Documents that support the QMS are reviewed by qualified personnel and approved by management prior to release for use.

Only the approved versions of documents are available to personnel for use unless a draft document is authorized by management.

The managers responsible for authorization of each document is specific to the document type.

See SOP ENV-SOP-CORQ-0015 *Document Management* for more information.

#### 4.3.3 Document Review and Change

Unless a more frequent review is required by regulatory, certification or accreditation program documents are reviewed at least every two years to ensure the documents remain current, appropriate, and relevant.

Documents are also informally reviewed every time the document is used. Personnel are expected to refer to and follow instructions in controlled documents when they conduct their work activities. Consequently, any concerns or problems with the document should be caught and brought to the attention of management on an on-going basis.

Documents are revised whenever necessary to ensure the document remains usable and correct. Older document versions and documents no longer needed are made obsolete and archived for historical purposes.

PAS does not allow hand-edits of documents. If an interim change is needed pending re-issue of the document, the interim change is communicated to those that use the document using a formal communication channel, such as change in progress form, email, or memorandum.

The document review, revision, and archival process is managed by quality personnel at the location from which the document was released using the procedures established in SOP ENV-SOP-CORQ-0015 *Document Management.*

### 4.4 Analytical Service Request, Tender, and Contract Review

PAS management and/or client service personnel perform thorough reviews of requests and contracts for analytical services to verify the location(s) performing the work has the capability, capacity, and resources necessary to successfully meet the customer's needs. These review procedures are described in SOP ENV-SOP-ORB1-0128 *Review of Analytical Requests.*

The procedures in this SOP(s) are established to ensure:

- The PAS location(s) performing the work understand the purpose of data collection in order to ensure the test methods requested are appropriate for the intended use of the data and capable of meeting the client's data quality objectives;
- PAS locations and any external subcontractor(s) have the capability, capacity, and resources to meet the project requirements and expectations within the requested time for delivery of work product;
- Any concerns that arise from review are discussed and resolved with the client;

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

- Any discrepancies between the PAS QMS, statutory or regulatory requirements and the client request are resolved; and
- The results of review and any correspondence with the client related to this process and/or any changes made to the contract are recorded and retained for historical purposes.

Capability review confirms that the PAS locations contracted to perform the work and any internal or external subcontractors hold required certification/accreditation for the test method, matrix, and analyte and verifies the location can achieve the client's target compound list and data quality objectives (DQOs) for analytical sensitivity and reporting limits, QA/QC protocol, and hardcopy test report and electronic data deliverable (EDD) formats.

Capacity review verifies that the in-network locations and any potential subcontractors are able to manage the sample load and deliver work production within the delivery time requested.

Resource review verifies that the location and any potential subcontractors have adequate qualified personnel with the skills and competency to perform the test methods and services requested and sufficient and proper equipment and instrumentation needed to perform the services requested.

Customers must be notified when there is a deviation from the contract after acceptance of the contract by both parties. Instructions for this notification process must be included in the laboratory's SOP for this process.

## 4.5 Subcontracting (Internal and External)

The terms 'subcontract' and "subcontracting" refers to analytical work done by an organization external to Pace® (External Subcontracting) or by a Pace® location with an address different than the address listed on the cover page of the test report (Internal Subcontracting).

The PAS network offers comprehensive analytical capability and capacity to ensure Pace® can meet a diverse range of client needs for any type of project. If a PAS laboratory receives a request for analytical services and it cannot fulfill the project specifications, the location's client services team will collaborate with the client to place the work within the PAS network.

When it is not possible to place the work within network, the location will, with documented client approval, subcontract the work to a subcontractor that has the capabilities to meet the project specifications and can meet the same commitment agreed on between the location and the client.

Whenever work is subcontracted, the PAS location responsible for management of the project verifies each of these qualifications:

- The internal or external subcontractor has the proper accreditation/certifications required for the project and these are current; and
- The use of the internal or external subcontractor is approved by the client and/or regulatory agency when such approval is required by the customer. Record of customer approval is retained in the project record.

External subcontractors selected by Pace® must be pre-qualified by quality personnel to verify their QMS is similar to Pace® and complies with all relevant Standards such, as ISO/IEC 17025 and the TNI Standard(s) and/or federal and state regulatory requirements. The list of approved subcontractors for each location is maintained by local quality personnel. Pre-qualification of a subcontractor does not eliminate the requirement for the PAS location placing work to verify the

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

subcontractor has the certifications, capability, capacity, and resources to perform work on behalf of Pace® on a project-specific basis.

For all subcontracted work, the PAS location placing the work internally or externally is responsible to ensure project specifications are always communicated to and understood by the subcontractor.

## 4.6 Purchasing Services and Supplies

Vendors that provide services and supplies to PAS are qualified to meet the needs of Pace®. These needs include but are not limited to competitive pricing, capacity to fill purchase orders, quality of product, customer service, and business reputation and stability. Evidence of this qualification is the availability to purchase services and supplies from the vendor in the corporate purchasing system.

PAS locations may purchase goods and services from any supplier in the purchasing system.

The specifications (type, class, grade, tolerance, purity, etc.) of supplies, equipment, reagents, standard reference materials and other consumables used in the testing process are specified in SOPs. The SOP specifications are based on the governing requirements of the approved reference methods and any additional program driven regulatory specification, such as drinking water compliance.

All requisitions for materials and consumables are approved by local management who is responsible for ensuring the services and supplies procured and received are fit for intended use.

## 4.7 Customer Service

Project details and management is managed by PAS client services personnel.

### 4.7.1 Commitment to Meet Customer Expectations

PAS personnel collaborate closely with our customers to ensure their needs are met and to establish their confidence in the capability of PAS to meet their needs for analytical services and expectations for service.

The project manager (PM) is the customer's primary point of contact for each analytical service request (work order). The PM gathers information from the customer to ensure the details of their request are understood. After samples are received, the PM monitors the progress of the project and alerts the customer of any delays or excursions that may adversely impact data usability. Supervisors are expected to keep the PM informed of project status and any delays or key issues, so that the PM can keep the client informed.

PAS encourages customers to visit our locations to learn more about the capabilities, observe performance and to meet personnel.

PAS customers expect confidentiality. Personnel will not divulge or release information to a third party without proper authorization unless the information is required for litigation purposes. See Section 4.1.5.4 of this manual and policy COR-POL-0004 *Code of Ethics and Professional Conduct* for more information on the policy for client confidentiality.

### 4.7.2 Customer Feedback

PAS actively seeks positive and negative feedback from customers through surveys and direct communication. Information from the client about their experience working with PAS and their satisfaction with work product is used to enhance processes and practices and to improve decision making. Customer feedback is reviewed to identify risk and opportunity. Corrective,

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

preventive, or continuous improvement actions are taken based on nature of and/or feedback trends.

Also see sections 4.9, 4.10, 4.11, 4.12, 4.14, and 4.15 for more information about how customer feedback is managed by PAS and used to enhance the QMS.

## 4.8 Complaints

Per ISO/IEC 17025:2017, a complaint is a formal expression of dissatisfaction with the performance of a service or product originating from a party external to the organization. PAS believes complaints provide opportunities to improve processes and/or build stronger working relationships with our clients.

The PAS complaint resolution process is specified in corporate SOP ENV-SOP-CORQ-0020 and all PAS locations are required to use this SOP as their process.

Complaints are thoroughly reviewed to determine if it is valid. If the complaint is valid, action is taken to resolve the situation with the customer. In accordance with ISO/IEC 17025 requirements, the response to the customer is independently reviewed before it is given to ensure the response from PAS is thorough and proper for the situation.

Complaint information is captured in a centralized database and the data is used by PAS management personnel to identify trends and opportunities for improvement during Annual Management Review - See Section 4.15 for more information about annual management review.

## 4.9 Nonconforming Work

### 4.9.1 Definition of Nonconforming Work

Nonconforming work is work that does not conform to customer requirements, standard specifications, policies, and procedures, or that does not meet acceptance criteria.

The discovery of non-conforming work comes from various sources which include, but are not limited to:

- results of quality control samples and instrument calibrations;
- quality checks on consumables and materials;
- general observations of personnel;
- data review;
- proficiency testing;
- internal and external audits;
- complaints and feedback;
- management review and reports; and
- regulatory and certification and accreditation actions.

The way in which the laboratory or service center manages nonconforming work depends on the significance and impact (risk) of the issue. Some issues may simply require correction, others may require investigation, corrective action (See 4.11) and/or data recall (See 4.16).

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

When the location releases data and test results associated with nonconforming QC and acceptance criteria, test results are qualified, or non-conformances are noted in the final analytical report to apprise the data user of the situation. (See 5.10)

Nonconforming work also includes unauthorized departure from policies, procedures, and test methods. Authorized departures are explained in the following subsections. Situations that do not conform to these conditions are considered unauthorized departure(s).

#### 4.9.1.1 Authorized Departure from SOPs

Departures from an SOP may sometimes be necessary to correct an error in an SOP or to resolve a complex problem. For example, to mitigate complex matrix interference.

An authorized departure from a test method SOP is one that has been reviewed and approved by the department leader, however named, of the work area in which the test method is performed. The leader, when authorizing a departure from an SOP, accepts full responsibility to ensure the departure does not conflict with Pace® or PAS policy or procedure, does not affect statutory, regulatory or program compliance and does not adversely affect data integrity or usability.

Departure from administrative or process-oriented SOPs must be approved by the local QM.

Documentation of the reason for the SOP departures must be retained with management approval. Approved departures from test method SOPs should be noted in the final test report to advise the data user.

See SOP ENV-SOP-CORQ-0016 *SOP for SOPs and SWI*, for more information.

#### 4.9.1.2 Authorized Departure from Test Methods (Method Modifications)

When test results are associated to a published reference test method, the location's test method SOP must be consistent with the test method. If the test method is mandated for use by a specific regulatory program such as drinking water, wastewater or a certification or accreditation program, such as TNI/NELAC, the SOP must comply with or include these requirements, or the resulting data and test results cannot be used for regulatory compliance purposes.

If the procedures in the SOP are modified from the test method, these modifications must be clearly identified in the SOP. The conditions under which the location may establish an SOP that is modified from these reference methods or regulatory program and what is considered a modification are specified in ENV-SOP-CORQ-0011 *Method Validation and Instrument Verification*.

Client requests to deviate from the test method are managed as client requests to depart from the test method SOP since it is the SOP that the location follows when performing work.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

#### 4.9.1.3 Stop Work Authority

Stop Work Authority provides PAS personnel with capability to temporarily stop work when there is a perceived unsafe condition or situation that may affect data integrity or the safety of personnel.

All personnel have the authority to initiate and request a stop work order when necessary to preserve data integrity or safety of workers.

The need for the stop work order and resolution of the problem must be confirmed by subject matter experts and resumption of work must be approved as follows:

- For stop work orders related to environmental health and safety (EHS) and/or waste management, the decision to stop work may be made in real time to protect the safety of the worker. Actions taken to correct the problem and lift the stop work order are made by the EHS Director, or the deputies assigned to these positions.
- Any employee may request a temporary stop work order for concerns related to data integrity. However, the request must be reviewed and the need to stop work affirmed by the Quality Manager to confirm the concern is valid. The decision to uphold the stop work order must be made jointly by the local QM, the QPM, the GM or DLO, and the VPO. The Corporate Quality Director and Chief Technical Officer, and other members of PAS management are consulted as needed. The actions taken to correct the problem and authorization to lift the stop work order are made by the same management team.

## 4.10 Continuous Improvement

The PAS QMS is designed to achieve continuous improvement through the implementation of the quality policy and objectives outlined in this manual. Information about laboratory and service center activities and performance is gained from sources such as customer feedback, audits, QC, trend analysis, business analytics, management reports, proficiency testing, and management systems review. This information is subsequently used during the corrective action (see section 4.11) and preventive action (see section 4.12) processes and during annual review of the management system (see section 4.15) to establish goals and objectives for improvement.

PAS also promotes a continuous improvement culture based on the principles of lean manufacturing. These principles include 3P (Process, Productivity, Performance) and Kaizen. 3P is a platform used by Pace to share best practices and standardization across the network to achieve operational excellence. Kaizen is a team-based process used to implement tools and philosophies of lean to reduce waste and achieve flow with the purpose of improving both external and internal customer satisfaction. All activities of 3P and Lean must conform with the requirements of this quality manual and supporting policies and procedures.

## 4.11 Corrective Action

Corrective action is a process used to eliminate the cause of a detected nonconformity. It is different from a correction. A correction is an action taken to fix an immediate problem but that does not resolve the underlying cause of why the problem occurred. The objective of corrective action is to find the underlying cause(s) of the problem and to put in place fixes to prevent the problem from

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

happening again. The corrective action process, referred to as CAPA, is one of the most effective tools used by PAS to prevent nonconforming work, identify risk and opportunity, and improve service to our customers.

PAS has two general processes for corrective action, the application of which process is used depends on the type of nonconformity.

Quality control (QC) exceptions (nonconformance) that occur during routine testing is investigated through troubleshooting and required actions for correction is specified in policies and SOPs. When action is not taken, cannot be taken, or is not successful, test results associated with the nonconforming work are qualified in the final test report. Documentation of the nonconformance and corrective action taken is documented in the analytical record.

A 7-stage corrective action process is used when there is a recurring problem. These problems are identified through various activities such as but not limited to quality control trends, internal and external audits, management review, customer feedback, and general observation.

The 7 Stage CAPA Process for PAS includes:

1) Identification and Containment
2) Evaluation
3) Investigation
4) Cause Analysis
5) Action Plan
6) Implementation
7) Follow Up and Effectiveness Review

PAS procedures for corrective action are specified in corporate SOP ENV-SOP-CORQ-0018, *Procedure for Corrective and Preventive Action*. Some key concepts and activities related to the PAS corrective action process is provided in the next three subsections.

### 4.11.1 Cause Analysis (AKA Root Cause Analysis)

Cause analysis is the process of investigation used to identify the underlying cause(s) of the problem. After causal factors are identified, ways to mitigate the causal factors are identified and action(s) most likely to eliminate these factors are taken.

PAS uses different methods to conduct cause analysis. The most common approach is 5-Why, 4M, Fishbone Diagrams, or brainstorming may be appropriate depending on the situation. The method used is case specific and is documented in the CAPA record.

### 4.11.2 Effectiveness Review

Monitoring corrective actions for effectiveness is an essential part of the corrective action process. Effectiveness means the actions taken were appropriate and sustainable. Appropriate means the action(s) taken prevented recurrence of the problem since the time corrective action was taken and sustainable means the actions taken are still in place.

The data from CAPA records are used by PAS to identify opportunities for preventive action or to gain lessons learned when actions taken were not adequate to solve the problem. See Section 4.12 (Preventive Action) and 4.15 (Management Review) for more information.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

#### 4.11.3 Additional Audits

When cause analysis and investigation of a problem casts doubt on compliance with PAS policies, procedures, or to regulatory requirements; a special audit of the area of activity may be performed as part of the corrective action process. These special audits are used to determine the scope of the problem and to provide information for the CAPA process. Additional full-scale audits are done when a grave issue or risk to the business is identified.

## 4.12 Preventive Action

Preventive action(s) are actions taken to eliminate the cause of a potential nonconformity before it happens.

Some examples of preventive action include, but are not limited to:

- Routine instrument maintenance (Preventive maintenance)
- Addition of Staff and Equipment
- Professional Development Activities
- Implementation of New Technology

PAS looks for opportunities for preventive action from a variety of sources including employee idea's, customer feedback, business partners input, trend analysis, business analytics, management reviews, proficiency testing results, and risk-benefit analysis.

PAS management evaluates the success of preventive actions taken in any given year during annual management review. See Section 4.15 for more information.

#### 4.12.1 Change Management

Preventive actions may sometimes result in significant changes to processes and procedures used by PAS locations. PAS management evaluates the risks and benefits of change and includes in its implementation of change process, actions to minimize or eliminate any risk. The types of changes for which risk are considered and managed include infrastructure change, change in analytical service offerings, certification or accreditation status, instrumentation, LIMS changes, and changes in key personnel.

## 4.13 Control of Records

PAS records document activities and provide evidence of conformity to the requirements established in the QMS. These records may be hardcopy or electronic on any form of media.

#### 4.13.1 General Requirements

##### 4.13.1.1 Procedure

PAS requirements for control of records are specified in corporate policy ENV-POL-CORQ-0013 *Record Managemen*t.

The policy was established to assure quality and technical records are identified, retained, indexed, and filed to allow for retrieval during the entire retention time. During storage, records are kept secure and protected from deterioration. At the end

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

of the retention time, the records are disposed of properly in order to maintain client confidentiality and to protect the interests of the company.

In general, PAS records fall into three categories: quality, technical, and administrative.

Examples of each are provided in the following table:

| Record Type | Includes Records of: |
|---|---|
| Quality | Audits: Internal and External<br>Certificates and Scopes of Accreditation<br>Corrective & Preventive Action<br>Management Review<br>Data Investigations<br>Method Validation<br>Instrument Verification<br>Training Records |
| Technical | Raw Data<br>Logbooks<br>Certificates of Traceability<br>Analytical Record<br>Test Reports & Project Information<br>Technical Training Records & Demonstration of Capability |
| Administrative | Personnel Records<br>Finance/Business |

#### 4.13.1.2 Record Legibility and Storage

Records are designed to clearly identify the information recorded. Manual entries are made in indelible ink; automated entries are in a typeface and of sufficient resolution to be read. The records identify personnel that performed the activity or entered the information. Records are archived and stored in a way that they are retrievable. Access to archived records is controlled and managed.

For records stored electronically, the capability to restore or retrieve the electronic record is maintained for the entire retention period. Hardcopy records are filed and stored in a suitable environment to protect from damage, deterioration, or loss. Hardcopy records may be scanned to PDF for retention. Scanned records must be checked against the hardcopy to verify the scan is complete and legible.

Administrative records are kept for a minimum of 5 years and technical and quality records are kept for 10 years unless otherwise specified by the client or regulatory program.

The date from which retention time is calculated depends on the record. In general, the retention time of technical records of original observation and measurement is calculated from the date the record is created. If the technical record is kept in a chronological logbook, the date of retention may be calculated from the date the logbook is archived. The retention time of test reports and project records, which are considered technical records, is calculated from the date the test report was issued.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

The retention time of quality records is usually calculated from the date the record is archived.

Refer to the record management policy and the location specific SOP for more information.

#### 4.13.1.3 Security

PAS locations are secure facilities and access to records is restricted to authorized personnel.

#### 4.13.1.4 Electronic Records

The data systems used to store electronic records is backed up in accordance with SOP ENV-SOP-ORB1-0129 *Data & Records Archival*. Access to archived records stored electronically is maintained by personnel responsible for management of the electronic system.

#### 4.13.1.5 Electronic Signature Policy

Work done by PAS locations include activities that require the application of a signature. Some work products are in electronic format and signatures are applied electronically.

The Electronic Signatures in Global and National Commerce Act (E-Sign Act) clarifies that electronic signatures are legally valid and enforceable under United States law.

See guide ENV-GUI-CORQ-0007 *Electronic Signatures* for more information.

### 4.13.2 Technical Records

In addition to the requirements specified in subsections 4.13.1.1 through 4.13.1.5, the requirements in the following subsections also apply to technical records.

#### 4.13.2.1 Description

Technical records are the accumulation of data and information generated from the analytical process. These records may include forms, worksheets, workbooks, checklists, notes, raw data, calibration records, final test reports, and project records. The accumulated record needs to provide adequate detail to historically reconstruct the process and identify the personnel that performed the tasks associated with a test result.

#### 4.13.2.2 Real Time Recordkeeping

Personnel are instructed and expected to always record observations, data, and calculations at the time they are made. PAS managers are responsible for ensuring that data entries, whether made electronically or on hardcopy, are identifiable to the task.

#### 4.13.2.3 Error Correction

Errors in records must never be erased, deleted, or made illegible. Use of correction fluid, such as white-out is prohibited. In hardcopy records, the error is corrected by a

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

single strike through the original entry and the new entry recorded alongside or footnoted to allow for readability. Corrections are initialed and dated by the person making the correction. If the correction is not self-explanatory, a reason for the correction is recorded. Maintenance of proper practices for error correction is monitored through the tiered data review process described in Section 5.9.3.

For electronic records, equivalent measures of error correction or traceability of changes made is kept. For example, audit trails provide records of change.

## 4.14 Audits

Quality personnel, or their designees, perform internal systems and technical audits to assess implementation of the QMS and compliance to this manual, policy, and procedures that make up the QMS.

PAS locations are also audited by external parties such as regulatory agencies, customers, consultants, and non-government assessment bodies (NGAB).

Information from internal and external audits is used by local and corporate PAS management to address deficiencies and to identify opportunities to improve customer service and quality of work, including reliability and usability of data and test results.

Deficiencies, observations, and recommendations from audits are managed by the local QM using the CAPA process. See Section 4.11 for more information.

### 4.14.1 Internal Audit

Internal audits are conducted to ensure laboratory and business practices match what we say we do and what we say we do is compliant with the PAS QMS and relevant standards and requirements.

The internal audit program is managed by the local QM who prepares an audit plan at the beginning of each calendar year. The schedule is prepared to assure that all work areas are reviewed over the course of the year and test methods are audited every two years, unless a more frequent test method audit is required by program. Conformance to the schedule is monitored on a monthly basis.

PAS management is responsible for ensuring the audit schedule is maintained. PAS supervisors are expected to cooperate with the quality personnel to provide them with complete access to the work area, personnel, and records needed to conduct the audit.

Internal audits may be performed by non-quality personnel when the auditor is approved by the local QM. Non-quality personnel may not audit their own work activities unless it can be demonstrated that an effective and objective audit will be conducted. The person conducting the audit must be trained, qualified, and familiar enough with the objectives and policies of the PAS QMS and knowledgeable with process and test method SOPs related to the activities audited. The auditor should be trained in auditing practices in order to perform a thorough and effective evaluation.

Test method audits include reviews of test reports to verify the product is consistent with customer/project requirements, the work was conducted in accordance with policy and SOPs, the SOP complies with the cited reference method, test results are accurate, and of known and documented quality and properly qualified, when necessary.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

Special audits are performed as needed to follow up on a specific issue such as a client complaint, negative feedback, concerns of data integrity or ethics, or a problem identified through other audits. Special audits may be scheduled or unscheduled. Unscheduled internal audits are conducted whenever doubts are cast on compliance with regulatory requirements or its own policies and procedures. These unscheduled internal audits may be conducted at any time and may be performed without an announcement to the location or work area audited.

When observations and findings from any audit (internal or external) cast doubt on the validity of testing results, the location takes immediate action to investigate the problem and take corrective action. (Also see 4.11 and 4.16)

#### 4.14.1.1 Corporate Compliance Audit

PAS locations may also be audited by Pace® corporate personnel at discretion. The purpose of the corporate compliance audit is to assess whether the location's practices, processes and procedures conform with the PAS QMS and to identify risk and opportunity.

## 4.15 Management Review

Local management conducts an annual business review of each location under their purview to assess performance and to establish goals, objectives, and action plans for the upcoming year.

The procedure used to conduct this review is specified in corporate SOP ENV-SOP-CORQ-0005 *Management Review*.

At a minimum, the following topics are reviewed and discussed during annual management review:

- Changes in internal and external issues relevant to the location;
- Fulfillment of objectives and initiatives;
- suitability of policies and procedures, including EHS and waste management;
- status of actions from previous performance reviews;
- The outcome of recent internal audits;
- Corrective and preventive actions;
- Assessments by external bodies;
- The results of interlaboratory comparisons or proficiency tests;
- Changes in the volume and type of the work;
- Customer and personnel feedback, including complaints;
- Effectiveness of improvements / preventive actions made since last review;
- Adequacy of resources;
- results of risk identification;

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

- Proficiency testing performance and other measures related to the assurance of validity of test results; other relevant factors, such as QC trends and training status.

The discussion and results of this review are documented in a report prepared by local management. This report includes a determination of the effectiveness of the management system and its processes, goals, and objectives for improvements in the coming year with timelines and responsibilities, and any other need for change.

Goals and action items from annual management systems review are shared with local employees and with corporate management to highlight focus areas for improvement in addition to areas in which the location has excelled.

### 4.16 Data Integrity

PAS procedures for the investigation and response to events that may affect data integrity are described in the PAS corporate SOP ENV-SOP-CORQ-0017 *Data Impact Assessment*s.

Customers whose data are affected by the problem are notified in a timely manner, usually within 30 days after the impact of the problem is understood. Some accreditation programs also require notification to the accreditation body (AB) within a certain timeframe from date of discovery. PAS locations must follow any program or project specific requirements for notification, when applicable.

# 5.0 TECHNICAL REQUIREMENTS

## 5.1 General

Multiple factors contribute to the correctness and reliability of the technical work performed by PAS.

These factors fall under these broad categories:

- Human Performance
- Facility and Environmental Conditions
- Test Method Performance and Validation
- Measurement Traceability
- Handling of Samples

The impact of each of these factors varies based on the type of work performed. To minimize negative effects from each of these factors, PAS accounts for the contribution from each of these categories when developing test method and process (administrative) SOPs, evaluating personnel qualifications and competence, and in the selection of equipment and supplies used.

## 5.2 Personnel

### 5.2.1 Personnel Qualifications

PAS personnel are qualified and competent to perform the roles and responsibilities of their position based on education, experience, and training.

Qualifications, duties, responsibilities, and authorities of each position are specified in job descriptions maintained by corporate HR (See Section 5.2.4). These job descriptions provide the general basis for the selection of personnel for hire and are used by the location to

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

communicate to personnel the duties, responsibilities, and authorities of their position. Qualification records may include but are not limited to diploma, transcripts, and curriculum vitae (CV).

The term "personnel" refers to individuals employed by PAS or a PAS subsidiary directly as full-time, part-time, or temporary, and individuals employed by PAS by contract, such as through an employment agency. The term "personnel" is used interchangeably with the term "employee" throughout this manual. For the purposes of this manual, these terms are equivalent.

#### 5.2.1.1 Competence

Competence is the ability to apply a skill or series of skills to complete a task or series of tasks correctly within defined expectations.

PAS requirements for competence of personnel (education, qualification, work experience, technical skills, and responsibilities) are specified in job descriptions created by management and kept by human resources (HR). The job description provides the basis for the selection of personnel for each position.

An employee is considered competent when they have completed the required training specified in Section 5.2.2.

### 5.2.2 Required Training

Training requirements are outlined in Pace® policies COR-POL-0023 *Mandatory Training Policy,* COR-POL-0004 *Code of Ethics and Professional Conduct* and this Quality Manual.

#### 5.2.2.1 Training Program

The PAS training program includes these elements:

- Scheduling
- Execution
- Documentation
- Evaluation of Effectiveness

Training is scheduled by corporate personnel, local quality personnel, and the employee's direct supervisor.

Training is delivered using various methods that incorporate techniques that appeal to the four main learning styles: visual, aural, linguistic, and kinesthetic. Delivery methods include, on-the-job (OJT), instructor-led, self-study, eLearning, and blended.

Training must be documented with a training record to prove training occurred. Required training (Section 5.2.2.1.1-5.2.2.1.5) must be complete before the employee is authorized to work independently on client samples. Complete means the employee has successfully completed training and evidence of training is filed in the employees training record maintained by the corporate training group, the corporate group that assigned training, such as IT, HR, or EHS, and/or and the local quality department.

The employee's direct supervisor is responsible for monitoring completion of the employee's required training program and for providing adequate time to the

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

employee to complete training assignments. The supervisor and employee are jointly responsible to ensure the employee's training status and training records for all required training is current, complete, documented and the training records are accessible.

Until the required training is complete, the employee's direct supervisor is responsible and accountable for all work produced by the employee under their supervision.

Training status is tracked by local quality personnel and made readily available to all employees so they can access and monitor their status in real time.

The following subsections specify the required PAS training for new hires and requirements for on-going training.

#### 5.2.2.1.1 New Hire Required Training

New hire training requirements apply to personnel new to Pace® and to existing employees starting in a new position or different work area.

Required new hire training includes each of the following topics:

- Ethics and Data Integrity (5.2.2.1.3)
- Quality Management System Policy and Procedure (5.2.2.1.4)
- Environmental Health and Safety (EHS)
- Demonstration of Capability (DOC) (5.2.2.1.5): Employees that prepare and test samples may also be required to successfully complete a DOC for the test method they are assigned before working independently on customer samples and to verify capability on a routine basis thereafter. Independent means without direct supervision of the work activity by the supervisor or a qualified trainer.

#### 5.2.2.1.2 On-Going Required Training

All personnel receive on-going training on each of the following topics:

- Ethics and Data Integrity
- Quality Management System Policy and Procedure
- EHS

#### 5.2.2.1.3 Ethics and Data Integrity

Ethics and data integrity training is provided to all new personnel upon hire and refresher training is provided to all employees minimally on an annual basis and more frequently as needed.

The training materials emphasize expectations, what to do, what not to do and the potential consequences that result from scientific misconduct and improper practices. Employees are informed that Pace® has a Zero Tolerance Policy for scientific misconduct, improper practices, and fraud. The employment of any employee found to have conducted, sanctioned,

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

or instructed an employee to engage in these infractions will be terminated and the employee may be subject to debarment, and civil/criminal prosecution.

The following topics are covered:

- Pace® Policy for honest, transparent, and objective reporting of test results and data;
- Practices that are considered scientific misconduct, fraudulent and improper;
- How and when to report data integrity concerns or ethical violations;
- Record Keeping. The training emphasizes the importance of accurate, complete, and legible documentation of work activities;
- Procedures used by Pace® to prevent and monitor for infractions;
- Specific examples of breaches of ethical behavior such as improper data manipulations, adjustments of instrument time clocks, and inappropriate changes in concentrations of standards.

See COR-POL-0004 for more information.

#### 5.2.2.1.4 Management System Documents Training

The primary documents that support the PAS QMS include the Quality Manual, policies, and SOPs.

These documents specify what we do, how, and why and are the documents all employees must abide. The employee's commitment to abide by these documents is acknowledged with a Read and Acknowledgement Attestation (R&A). PAS employees must have a R&A on record for the local Quality Manual, and the policies and SOPs relevant to their job responsibilities. The R&A acknowledges the employee has received, read, and understands the content of the management system document, the employee agrees to follow any instructions and requirements specified in the document when carrying out their work tasks; and the employee understands that unauthorized changes or departure from procedures and requirements specified in the documents not allowed unless authorized, documented and disclosed.

Other documents that support the management system include forms and worksheets that record original observations and/or calculate test results, guides, project-specific documents, or other reference materials. Employees are not required to have a R&A for these types of documents – how to use the document is learned on the job.

Employee understanding, application, and adherence to the content specified in management system documents is continuously reinforced by

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

on-the-job (OJT) training and routine checks and balances, such as secondary data review and internal audits.

#### 5.2.2.1.5 Demonstration of Capability (DOC) Requirements

A DOC is a procedure that establishes the ability of the analyst to perform a test procedure and obtain test results with acceptable accuracy and/or precision.

Newly hired employees that prepare or test samples are required to successfully complete an initial demonstration of capability (IDOC) for the test method before they are permitted to work independently on real world samples.

On-going demonstration of capability (ODOC) must be demonstrated on an annual basis thereafter.

The procedure for IDOC and ODOC can differ based on technology, analyte group and/or the regulatory or accreditation/certification program requirements that apply. In general, the options for ODOC are more flexible than for an IDOC on the premise that the analyst has routinely analyzed samples by the test method during the calendar year.

When more than 365 days (1 Year) has passed since the employee last analyzed real world samples by the test method; the employee must successfully redemonstrate capability with an IDOC to remain authorized to independently test real world samples.

A successfully complete DOC (IDOC or ODOC) is one where:

1) The DOC study data has been compiled, reviewed, and verified to meet acceptance criteria;

2) The DOC record has been approved by the department supervisor;

3) The DOC record has been verified complete by local quality personnel; and

4) The DOC record has been archived in the employee's training file for accessibility and reference.

If any of the above conditions is not met, the DOC is not complete.

Until the required training is complete, the employee's direct supervisor is responsible and accountable for all work produced by the employee under their supervision.

DOC procedures and acceptance criteria vary by program, technology, analyte group - therefore all options are not specified in this manual.

PAS locations must put in place a local DOC program appropriate for the testing services offered and that complies with relevant regulatory and/or accreditation/certification program requirements.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

For example – an acceptable DOC program for laboratories accredited to the TNI Standard might look like this:

- A DOC for chemistry test methods where spiking is an option is based on the employee's capability to achieve acceptable precision and accuracy for each analyte accredited from a series (usually 4) of replicates that were spiked at a specific concentration, and prepared and analyzed using the laboratory's test method SOPs.
- A DOC for a test method where spiking is not an option is based on an employee's capability to achieve comparable results to a peer.
- Specific instructions and acceptance criteria for DOCs for each test method may be specified in the test method SOP or a stand-alone SOP for DOC.

#### 5.2.2.2 Effectiveness of Training

Training effectiveness is measured by the employee's demonstrated ability to comprehend the training material and apply knowledge and skills gained to their job task. These evaluations include but are not limited to:

- Testing of the employee's knowledge of the QMS, policies, and technical and administrative procedures through various mechanisms, such as quizzes, and interviews.
- Demonstrated ability to convey information correctly and factually in written and verbal communication.
- Demonstrated ability to follow instructions and adhere to policy and procedure.
- Demonstrated ability to make sound decisions based on guidance and information available and to defend decisions made.
- Demonstrated initiative to seek help or guidance when the employee is unsure of how to proceed.

#### 5.2.2.3 Supplemental Learning

Supplemental learning objectives may be established for newly hired personnel to aid in their development of administrative and technical skills. These learning objectives and materials, referred to as Learning Plans (LP), are managed by the employee's direct supervisor.

Pace® also offers a wide variety of supplemental learning courses that are made available to all employees for professional development. The learning may be self-initiated based on an employee's interest or may be assigned to the employee at the discretion of management as professional development as part of an employee's annual goals.

Supplemental learning assignments are not prerequisites for competency (Section 5.2.1.1) and are not included in the required training program.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

#### 5.2.3 Personnel Supervision

Every employee is assigned a direct supervisor, however named, who is responsible for their supervision.

General supervisory responsibilities may include but are not limited to:

- Hiring Employees
- Training Employees
- Performance Management
- Development, oversight, and execution of personnel training plans
- Monitoring personnel work product to assure the work is conducted in accordance with this quality manual, policies, SOPs, and other documents that support the QMS.

#### 5.2.4 Job Descriptions

Job Descriptions that define the required education, qualifications, experience, skills, roles and responsibilities, and reporting relationships for each Pace® position are established by top management and kept by corporate HR. The job descriptions apply to employees who are directly employed by Pace®, part-time, temporary, technical, and administrative and by those that are under contract with Pace® through other means.

The job descriptions include the education, expertise, and experience required for the position and the responsibilities and duties, including any supervisory or managerial duties assigned to the position.

#### 5.2.5 Authorization of Technical Personnel

Technical personnel are authorized to perform the technical aspects of their position after laboratory management has verified that the employee meets the qualifications for the position, and has successfully completed required training (Section 5.2.2.1). After initial authorization, technical personnel are expected to maintain a current and complete training record, demonstrate on-going capability at least annually for each test method performed, and produce reliable results through accurate analysis of certified reference materials, proficiency testing samples, and/or routine quality control samples in order to remain authorized to continue to perform their duties.

Records used to support authorization which may include but are not limited to, transcripts, resumes, training records, experience, training, and certificates are kept by the PAS location or business function to which the employee is assigned, if the employee is in a role that support more than one location or business unit.

### 5.3 Accommodations and Facilities

#### 5.3.1 Facilities

PAS facilities are designed to support the activity performed. Access to PAS facilities is controlled by various measures, such as card access, locked doors, and staffed main entry.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

#### 5.3.2 Environmental Conditions

Each location is equipped with energy sources, lighting, heating, and ventilation necessary to facilitate proper and safe performance of calibrations and tests. Local management ensures that housekeeping, electromagnetic interference, humidity, line voltage, temperature, sound, and vibration levels are appropriately controlled to ensure the integrity of specific measurement results and to prevent adverse effects on accuracy or increases in the uncertainty of each measurement.

Environmental conditions are monitored, controlled, and recorded as required by the relevant specifications, methods, and procedures. Operations are stopped if it is discovered that the environmental conditions would jeopardize the integrity of analytical results or other work products.

#### 5.3.3 Separation of Incompatible Activities

The layout and infrastructure of each work area including air handling systems, power supplies, and gas supplies of each work area are designed for the type of analytical activity performed. Effective separation between incompatible work activities is maintained. For example, sample storage, preparation, and chemical handling for volatile organic analysis (VOA) is kept separate from semi-volatile organic analysis (SVOA).

Samples known or suspected to contain high concentration of analytes are separated from other samples to avoid the possibility for cross-contamination. If contamination is found, the source of contamination is investigated and resolved.

#### 5.3.4 Security

Security is maintained by controlled access to the building and by surveillance of work areas by authorized personnel. Access to each area may be controlled depending on the required personnel, the sensitivity of the operations performed, and potential safety concerns.

#### 5.3.5 Good Housekeeping

Local management must maintain good housekeeping practices in their facilities and maintain a standard of cleanliness necessary for analytical integrity and personnel health and safety.

### 5.4 Test Methods

#### 5.4.1 General Requirements

PAS locations must use test methods and procedures that are appropriate for the scope of analytical test services the laboratory offers.

Instructions on the use and operation of equipment and sample handling, preparation, and analysis of samples must be specified in SOPs. The instructions in SOPs may be supplemented with other documents including, but not limited to, standard work instructions (SWI), manuals, guides, project documents, and other reference materials.

#### 5.4.2 Method Selection

The test methods offered by PAS are primarily industry accepted published reference test methods. Each PAS laboratory bases its test method SOP on the latest version of the reference method unless regulatory requirements specify an earlier version must be used.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

The laboratory confirms that it can perform the test method and achieve desired outcome before analyzing samples following method validation protocols specified in Section 5.4.5.

The test methods used by the laboratory to test real world samples must meet the needs of the customer, be appropriate for the intended use of the data, and must conform with applicable federal, statutory, or program requirements.

When a customer does not specify the test method(s) to be used, the laboratory may suggest test methods that are appropriate for the intended use of the data and the type of samples to be tested. The laboratory will also inform customers when test methods requested are considered inappropriate for their purpose and/or out of date. This discourse takes place during review of analytical service requests (See Section 4.4).

### 5.4.3 Laboratory Developed Methods

A laboratory developed method is a test method developed wholly by PAS or a modification to a published method that is substantially modified from the specifications and procedures of a published test method.

Laboratory developed methods must be validated prior to use (see section 5.4.5) and the procedure documented in a test method SOP.

The requirements for non-standard methods (Section 5.4.4) also apply to PAS developed methods.

### 5.4.4 Non-standard Methods

A non-standard method is a testing protocol that is not published or approved for use by conventional industry standards.

Use of a non-standard method for testing must be agreed upon with the customer. The agreement, which is retained by the laboratory in the project record, must include the specifications of the client's requirements, the purpose of testing, and their authorization for use of the non-standard method.

### 5.4.5 Method Validation

The laboratory confirms that it can successfully perform the test method before analyzing samples through a process called method validation. Method validation is partially or fully repeated when there is a change in the published reference method or a change in the way the laboratory performs the test method that may affect selectivity, sensitivity, accuracy, precision, or general performance of the method.

#### 5.4.5.1 Validation Description

Validation is the process of confirmation and the provision of objective evidence that the stated requirements for a specific method/procedure are fulfilled.

The laboratory's requirements and procedures for method validation are outlined in SOP ENV-SOP-CORQ-0011 *Method Validation and Instrument Verification*.

#### 5.4.5.2 Validation Summary

All test methods offered by the laboratory are validated before use to confirm the procedure works as expected and the data and test results are accurate and precise.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

The record of validation is retained and kept in accordance with method validation SOP and PAS corporate policy ENV-CORQ-POL-0013 *Record Management*.

#### 5.4.5.3 Validation of Customer Need

The laboratory's validation process includes measures to assess accuracy, precision, sensitivity, selectivity, linearity, repeatability, reproducibility, robustness, and cross-sensitivity of the laboratory's procedure against general customer expectations for data usability.

The following subsections describe some of these concepts in relation to organic and inorganic chemistry (chemical testing). These descriptions and the requirements specified are pertinent to chemical testing and may not apply in the same context to other testing services offered by PAS such as radiochemistry, whole effluent toxicity (WET), asbestos, and microbiology. For more information about validation measures for these testing services, refer to the laboratory's test method SOPs.

##### 5.4.5.3.1 Accuracy

Accuracy is the degree to which the result of a measurement, calculation, or specification conforms to the correct value or a standard. When the result is within a range from the known value (control limit); the result is considered accurate.

##### 5.4.5.3.2 Precision

Precision refers to the closeness of two or more measurements to each other. It is measured by calculating the relative percent difference (RPD) or relative standard deviation (RSD) of results from separate analysis of the same sample. Precision provides information about repeatability, reproducibility, and robustness of the laboratory's procedure.

##### 5.4.5.3.3 Sensitivity

Sensitivity refers to the smallest amount of substance in a sample that can accurately be measured.

In chemical testing, this threshold is commonly known as the detection limit (DL) or method detection limit (MDL).

The DL is defined as the minimum measured concentration of a substance that can be reported with 99% confidence that the measured concentration is distinguishable from method blank results.

The DL is either a statistically derived value obtained by multiplying the standard deviation from a series of spiked replicates by the student-T value that correlates to the number of replicates analyzed or it is set to the concentration greater than found in a population of method blanks.

Detections of target analytes below the DL are not reported – unless specified by regulatory program protocol, because presence of target analytes at this level cannot be differentiated from noise.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

Limits of Quantitation represent the threshold of the laboratory's procedure for quantitative sensitivity.

- The LOQ is the minimum level, concentration, or quantity of a target analyte that can be reported with a specified degree of confidence.
- The LLOQ is simply the concentration of the lowest calibration standard included in the calibration curve.

Although the LOQ and LLOQ may be and often are the same value; the definitions are not the same.

The LOQ is static – it is set when the DL is determined. The LOQ value must be routinely verified to confirm the laboratory can detect the concentration within a range of accuracy.

The LLOQ fluctuates based on the series of standards included in each calibration curve – the LLOQ is always the concentration of the lowest calibration standard included in the curve fit and for which samples are quantitated against. The LLOQ is not the concentration of the lowest standard analyzed, if the lowest concentration standard is not included in the curve, it is not relevant to sample quantitation. Unless otherwise specified by test method, regulatory program or project-specific protocol, accuracy at the LLOQ does not need to be verified independent of the evaluation of relative error or relative standard error.

Target analytes detected at concentrations between the DL and LOQ are known as estimated values – they are within the range of qualitative identification and outside the range of quantitative accuracy. If reported, the results must be qualified to indicate the test result is estimated.

The meaning of Limit of Detection (LOD) varies based on the context by which the term is used. Outside of the DoD program, LOD is another term used to refer to the DL or MDL.

PAS laboratories that are accredited for DoD, must also establish an LOD. The DoD defines the LOD as the smallest concentration of a substance that must be present in a sample in order to be detected at the DL with 99% confidence. This definition is different from the definition of DL - the DL represents the theoretical value at which a detection is distinguishable from a blank.

For DoD, the LOD is a value between the DL and the LOQ. Specifically, it must be 2-4X greater than the DL but less than the LLOQ or LOQ. The value of the LOD set by the laboratory must meet all criteria for qualitative identification and quantitative accuracy based on the signal to noise ratio.

For DoD/DOE project work, target analytes that are not detected at the DL are reported as undetected at the LOD and results between the DL and the LOQ are reported as estimated values.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

The reporting limit (RL) is the value to which test results are reported as detected or not detected. The RL may be project-defined based on project data quality objectives (DQO) and it may be above or below the LOQ or LLOQ. In the absence of project specific requirements, the RL is usually the same value as the LLOQ. The RL is also called the practical quantitation limit (PQL) – but this can be misleading if the RL is less than the LLOQ or LOQ.

In general, the RL should always be greater than or equal to the value that establishes the threshold for quantitative sensitivity, but it is common for clients to request laboratories to report undetected target analytes at the DL value. This instruction has evolved as an acceptable reporting practice; however, data users should understand the DL is a statistically derived value that does not represent the limit of quantitation.

Unless otherwise specified by regulatory program or test method, detection, quantitation, and reporting limits are adjusted for the amount of sample used (preparation factor) and the dilution factor and are adjusted for percent moisture when samples are reported on a dry weight basis.

To ensure detection and quantitation limits are sound and defensible, the procedures that PAS laboratories use to establish detection, quantitation and reporting limits for chemical testing must comply with the current version of each of the following documents:

- EPA document EPA-821-R-16-006 Definition and Procedure for the Determination of the Method Detection Limit;
- 2016 TNI Standard V1M4; and
- TNI GUID-3-109-Rev. 0, V1M4 2016 Standard Update Guidance on Detection and Quantitation.

#### 5.4.5.3.4 Selectivity

Selectivity refers to the ability of a method to correctly determine an analyte without interference from other compounds.

#### 5.4.5.3.5 Linearity

Linearity is a mathematical concept applied to calibration models that employ multiple points to establish a calibration range used for quantitative analysis. Linearity is measured differently based on the calibration model. In general, if linearity is demonstrated then the slope of the response of standards are sufficiently close to one another. The accuracy of the linear regression and non-linear curves is verified by checking percent error or relative standard error (RSE), which is the process of refitting calibration data back to the model to determine if the results are accurate. For linear curves that use average calibration or response factor, error is measured by relative standard difference (RSD).

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

Linearity also establishes the range of quantitation for the test method used which directly impacts the sensitivity of the test method and uncertainty in measurement results. As previously noted, the LLOQ establishes the lower limit of quantitation. The upper range of linearity establishes the upper limit of quantitation. For most technologies, results outside of this range are considered qualitative values. However, some inorganic test methods allow the linear range to be extended above the upper limit of quantitation when accuracy at this level is verified.

Linearity can also be used to establish repeatability, reproducibility, and robustness of the laboratory's test method. When linearity is demonstrated using a specific calibration model during method validation, then use of this same calibration model to achieve linearity on a day-to-day basis confirms the laboratory's method is repeatable, reproducible, and robust.

### 5.4.6 Measurement Uncertainty

PAS provides an estimate of uncertainty with analytical results on request, or when required. For example, for radiochemistry testing, uncertainty is always reported with the test result.

For chemistry the uncertainty of the test method is embedded in the control limits used to assess performance of quality control (QC) samples. Language in ISO/IEC 17025 clarifies that measurement uncertainty is satisfied when a well-recognized test method specifies limits that account for source of bias, the laboratory has satisfied the requirements on analytical uncertainty by following the test method and reporting instructions. See Section 5.9.1.1.9 for more information.

### 5.4.7 Control of Data

PAS has policies and processes in place to assure that reported data is free from calculation and transcription errors, manual changes to data are thoroughly reviewed for need and correctness, and software systems used to generate or store data is secure.

#### 5.4.7.1 Calculations, Data Transfer, Reduction and Review

Data reduction is performed using commercially available data processing/reduction software, the LIMS (Laboratory Information Management System) and/or programs and worksheets created by PAS.

PAS does not permit manual calculation of results – that is the calculation of a test result by pen and paper or calculator. When there is no commercial software or LIMS option, PAS laboratories must create a worksheet from a spreadsheet program, such as Excel, to calculate results based on raw inputs and original observations. Spreadsheets for these purposes must be validated and controlled in accordance with policy ENV-CORQ-POL-0015 *Spreadsheet Validation.*

##### 5.4.7.1.1 Manual Integration

The PAS policy and procedures for manual integration are specified in PAS SOP ENV-SOP-CORQ-0006 *Manual Integration*.

This SOP includes the conditions under which manual integration is allowed and the requirements for documentation.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

Required documentation of manual integration minimally includes:

- complete audit trail to permit reconstruction of before and after results;
- identification of the analyst that performed the integration and the reason the integration was performed; and
- identification of the individual(s) that reviewed the integration and verified the integration was done and documented in compliance with the SOP.

#### 5.4.7.2 Use of Computers and Automated Acquisition

Whenever possible, PAS uses software and automation for the acquisition, processing, recording, reporting, storage, and/or retrieval of data.

In-house developed software is validated by Pace® corporate IT for adequacy before release for routine use. Commercial off the shelf software is considered sufficiently validated when the location follows the manufacturer or vendor's manual for set-up and use. Records of validation are kept by the corporate information technology (IT) group or by the group that performed the validation.

The PAS process for the protection of data stored in electronic systems includes:

- Individual usernames and passwords for Laboratory Information Management Systems (LIMS) and auxiliary systems used to store or process data.
- Employee Training in Computer Security Awareness
- Validation of spreadsheets used for calculations to verify formulas and logic yield correct results and protection of these cells to prevent unauthorized change.
- Operating system and file access safeguards
- Protection from Computer Viruses
- Regular system backup; and testing of retrieved data
- Verification the software application works as expected and is adequate for use and fulfills compliance requirements, such as the need to record date/time of data generation.
- Change control to assure requests for changes are reviewed and approved by management before the change is made.
- Communication channels to assure all staff are aware of changes made.
- Version Control and maintenance of historical records.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

## 5.5 Calibration Requirements

### 5.5.1 Availability of Equipment

Local management ensures the laboratory is furnished with all equipment and instrumentation necessary to correctly perform the tests offered in compliance with the specifications of the test method and to achieve the accuracy and sensitivity required.

### 5.5.2 Calibration

Equipment and instrumentation are checked prior to use to verify it performs within tolerance for its intended application.

#### 5.5.2.1 Support Equipment

Support equipment is verified to be in proper working order, and to meet the tolerance specifications for the purpose(s) for which it will be used prior to placement in service. Thereafter, periodic checks are performed to verify on-going performance per a schedule maintained by local quality personnel. Support equipment that does not meet specifications is removed from service and either repaired or replaced. Records of repair and maintenance activities are maintained.

Procedures used to conduct and record these checks are outlined in SOP ENV-SOP-ORB1-0105 *Support Equipment*.

#### 5.5.2.2 Analytical Instruments

Analytical instruments are checked prior to placement in service in accordance with SOP ENV-SOP-CORQ-0011 *Method Validation and Instrument Verification*. After the initial service date, the calibration of instruments and verification of calibration is performed in accordance with local test method SOPs.

The calibration procedures in the test method SOPs must comply with the requirements for acceptable calibration practices outlined in corporate policy ENV-POL-CORQ-0005 *Acceptable Calibration Practices*, the reference methods, and any applicable regulatory or program requirements.

### 5.5.3 Equipment Use and Operation

Up-to-date instructions and procedures for the use and maintenance of analytical equipment are included in SOPs and/or supplemental documents such as standard work instructions (SWI) or instrument manuals which are made readily accessible in the work area to all laboratory personnel.

### 5.5.4 Equipment Identification

Each piece of equipment is uniquely identified by serial number or any other unique ID system. The identifier is included in the equipment list maintained by the quality department and may not be reused or used interchangeably. New equipment and replacement equipment are assigned a new unique ID.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

### 5.5.5 Equipment Lists and Records

#### 5.5.5.1 Equipment List

Each PAS location maintains a list of equipment that includes information about the equipment including a description, manufacturer, serial number, date placed in service, condition when received, identity, and the work area where the equipment is used. The equipment list(s) for each location covered by this manual is provided in Appendix E.

#### 5.5.5.2 Equipment Records

In addition to the equipment list, other equipment records maintained by PAS include:

- Verification that equipment conforms with specifications.
- Calibration records including dates, results, acceptance criteria, and next calibration dates.
- Maintenance plan and records.
- Records of damage, malfunction, or repair.

The laboratory follows an equipment maintenance program designed to optimize performance and to prevent instrument failure which is described in SOP SOP-ENV-ORB1-0109 *Preventive Maintenance,* or in individual test method SOPs.

The maintenance program includes routine maintenance activities which are performed as recommended by the manufacturer at the frequency recommended and non-routine maintenance, which is performed to resolve a specific problem such as degradation of peak resolution, shift in calibration relationship, loss of sensitivity, or repeat failure of instrument performance checks and quality control samples.

Maintenance is performed by PAS personnel or by outside service providers.

All maintenance activities performed by PAS personnel are recorded by the individual(s) that performed the activity at the time the maintenance was performed in an instrument maintenance log.

The maintenance record minimally includes the date of maintenance, the initials of the person(s) performing maintenance, a description of the activity performed, why (when the maintenance is non-routine), and the return to analytical control. When maintenance is performed by an external vendor, the service record must be maintained and accessible for easy retrieval. The location must provide personnel with unrestricted access to instrument maintenance logs in order to promote good instrument maintenance and recordkeeping practices.

If an instrument must be moved, the location will use safe practices for handling and transport to minimize damage and contamination.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

### 5.5.6 Out of Service Protocol

Equipment that has been subjected to overloading, mishandling, gives suspect results, has been shown to be defective, or is performing outside of specified limits is taken out of service and either removed from the work area or labeled to prevent accidental use until it has been repaired and verified to perform correctly.

When analytical equipment is taken out of service because it no longer meets tolerance specifications, the potential effect the nonconformity may have had on previously reported analytical results is evaluated.

### 5.5.7 Calibration Status

Support equipment is labeled to identify its calibration status.

The calibration status of analytical instruments is identified in the instrument run log, in the data processing software or other systems the laboratory may use for processing of data. Analysts verify on-going acceptability of calibration status prior to use and with instrument performance check standards. These procedures are described in test method SOPs.

### 5.5.8 Returned Equipment Checks

When equipment or an instrument is sent out for service, the function and calibration status of the equipment must be rechecked and shown to be satisfactory before the equipment is returned to service. This requirement must be included in the laboratory's protocols for servicing equipment.

### 5.5.9 Intermediate Equipment Checks

PAS performs intermediate checks on equipment to verify the on-going calibration status. For example, most test methods require some form of continuing calibration verification check, and these procedures are included in the test method SOP. Periodic checks of support equipment are also performed; see SOP ENV-SOP-ORB1-0105, *Support Equipment* for more information.

### 5.5.10 Safeguarding Equipment Integrity

Equipment integrity in maintained by:

- Following manufacturer's specification for instrument use so that settings do not exceed manufacturer's recommendation or stress the performance of the equipment;
- Established maintenance programs;
- Transparent maintenance records and unrestricted access to maintenance logs;
- Validation and approval of software before use;
- Audits to confirm instrument settings are consistent with SOPs; and
- On-the-job training for safe and proper use of laboratory equipment.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

## 5.6 Measurement Traceability

### 5.6.1 General

Measurement traceability is best described as the way to ensure measurements take into consideration all uncertainties and are representative of the most accurate measurement captured. Traceability is accomplished with the recording of the lot numbers of materials and equipment used in the testing process and by purchasing materials traceable to the international standards of units (SI), International Bureau of Weights and Measures (BIPM) and/or National Measures Institute NMI).

When traceability to SI units, BIPM, or NMI cannot be achieved, traceability is accomplished with the use of reference standards and equipment obtained from competent suppliers that provide calibration certificates and/or certificates of analysis (COA).

### 5.6.2 Equipment Correction Factors

Measurements are adjusted by the correction factor when the equipment used for the measurement has a correction factor.

#### 5.6.2.1 Requirements for Calibration Laboratories

PAS does not offer calibration services, therefore, the ISO/IEC 17025 for calibration laboratories do not apply.

#### 5.6.2.2 Requirements for Testing Laboratories

Requirements to verify equipment is calibrated prior to being put into service and to maintain measurement traceability are described in in sections 5.5.2 and 5.6, respectively.

### 5.6.3 Reference Standards and Reference Materials

#### 5.6.3.1 Reference Standards

The laboratory uses measurement reference standards to verify adequacy of working weights and thermometers. The working weights are the weight(s) used for daily balance calibration checks and the working thermometers are used for daily temperature measurements.

Working weights and thermometers are periodically checked to verify on-going adequacy for use between the calibrations performed by an external calibration laboratory using reference standards traceable to SI or a national standard and that are used solely for verification purposes.

For example:

- An acceptable reference standard to verify working thermometers is a NIST Certified thermometer or a NIST Traceable thermometer that is not used for any other purpose other than to check the adequacy of the working thermometer.
- An acceptable reference standard for the working weights is a set of Class S weights that is not used for any other purpose than to verify the weights used daily.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

The working weights are checked against the reference standard annually and recertified by an ISO accredited calibration body every 5 years. "Annually" means within thirteen (13) months from the date of the last check.

Working thermometers are checked against the reference thermometer prior to placement in service to establish a correction factor (CF) and then re-checked annually (± 13 months from date of last check) or if electronic, every three (3) months (± 100 days from date of last check).

Exceptions to the 3-month recheck for battery operated sensors are allowed when the sensor is embedded in a unit and the manufacturer/vendor has evidence to show that the accuracy of the sensor is not affected by battery life.

Liquid in Glass NIST Certified reference thermometers must be recertified by an ISO/IEC accredited calibration laboratory every 5 years. If the reference thermometer is NIST Traceable or is a digital NIST Certified thermometer, the reference thermometer must be recertified annually by an ISO/IEC 17025 accredited calibration laboratory or service provider that provides traceability to a national standard.

#### 5.6.3.2 Reference Materials

PAS purchases chemical reference materials (also known as stock standards) from vendors that are accredited to ISO 17034 or Guide 34. Purchased reference materials must be received with a Certificate of Analysis (COA) where available. If a reference material cannot be purchased with a COA, it must be verified by analysis and comparison to a certified reference material and/or there must be a demonstration of capability for characterization. COA are reviewed for adequacy and retained by the laboratory for future reference.

All prepared standards, reference materials, and reagents are verified to meet the requirements of the test method through routine analyses of quality control samples.

The laboratory procedure for traceability and use of these materials is provided in SOP ENV-SOP-ORB1-0107 *Standard Reagent Preparation & Traceability*.

This SOP must minimally include each of the following requirements:

- Procedures for receipt and tracking of reference and working standards to ensure the record includes material name, name of the material, lot number, receipt date, and manufacturer's expiration date.

- Storage conditions and the requirement that reference standards are stored separately from samples, extracts, and digestates.

- Requirements to assure that preparation of intermediate or working solutions are recorded and assigned a unique identification number for tracking. Records of preparation include the lot number of the stock standard(s) used, the type and lot number of the solvent, the formulation, date, new expiration date, and the preparer's initials. The lot number of working standards is recorded in the analytical record to provide traceability to the standard preparation record. The

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

preparation record provides traceability to the COA, which is traceable to SI or the national measurement standard.

- A requirement that the expiration dates of prepared standards may not exceed the expiration date of the parent standard. Standards, reference materials, and reagents are not used after their expiration dates unless it is not possible to procure a new standard and the reliability of the expired material is verified and documented by the location using a procedure approved by corporate quality personnel. Otherwise, the expired material is promptly removed from the work area or clearly labeled as acceptable for qualitative/troubleshooting purposes only.

- The second source materials used for verification of instrument calibration are obtained from a different manufacturer or may be a different lot from the same manufacturer, when only one vendor or manufacturer provides the standard.

- Procedures to check reference materials for degradation and replacement of material if degradation or evaporation is suspected.

- Procedures for labeling. At a minimum, the container must identify the material, the ID of the material and the expiration date. Original containers should also be labeled with date opened.

#### 5.6.3.3 Intermediate Checks

Checks to confirm the acceptability of reference standards and materials is specified in test method SOPs and are appropriate for the purpose for which the standard is used. For example, a second source standard analyzed after an initial calibration may help the analyst identify if degradation of the standards used for calibration has occurred.

#### 5.6.3.4 Transport and Storage

PAS handles, transports and stores reference standards in a manner that protects the integrity of the materials. The integrity of the reference standard is protected by segregation from incompatible materials and/or minimizing exposure to degrading environments or materials. As previously stated, standards and reference materials are stored separately from samples, extracts, and digestates to prevent contamination. All standards are stored according to the manufacturer's recommended conditions. Temperatures colder than the manufacturer's recommendation are acceptable if it does not compromise the integrity of the material (e.g., remains in liquid state and does not freeze solid).

Specific requirements are provided in test method SOPs.

## 5.7 Sampling

Sampling refers to both the field collection of samples and to subsamples taken by the laboratory for analysis.

Subsampling procedures are included in each test method SOP or a stand-alone SOP to assure the aliquot used for testing is representative of the field collected sample.

The requirements in the following subsections apply when sampling is performed by PAS.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

#### 5.7.1 Sampling Plans and SOPs

When PAS performs field collection of samples, the sampling is conducted in accordance with a project sampling plan and sampling SOPs to ensure representative samples are collected.

#### 5.7.2 Customer Requested Deviations

When the customer requests deviations, additions, or exclusions from the project sampling plan and/or the SOP, the laboratory records the client's change request in detail with the sampling record, communicates the change to sampling personnel, and includes this information in the final test report.

#### 5.7.3 Recordkeeping

PAS assures the sampling record includes the sampling procedure used, any deviations from the procedure, the date and time of sampling, the identification of the sampler, environmental conditions (if relevant), and the sampling location.

### 5.8 Sample Management & Handling

#### 5.8.1 Procedures

The procedures for sample management and handling are outlined in SOP ENV-SOP-ORB1-0120 *Sample Management*. The procedures in the local SOP must meet the requirements specified in this quality manual to guarantee the integrity of the sample from receipt to disposal.

##### 5.8.1.1 Chain of Custody

All samples received by PAS must be accompanied with a Chain of Custody (COC). The COC is the legal record that documents the collection of samples and the transfer of samples to the laboratory. The COC provides PAS with information about the samples collected and tests requested.

The COC is completed by the sample collector and must minimally include the following information:

- Client name, address, phone number;
- Project Reference;
- Client Sample Identification (Client ID);
- Date, Time, and Location of Sampling;
- Sampler's Name or Initials;
- Matrix;
- Type of container, and total number collected;
- Preservative;
- Analyses Requested;
- Mode of collection;

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

- Any special instructions; and
- The date and time and signature of sample transfer from collection to PAS. When samples are shipped to the laboratory by a 3rd party such as UPS or Fed EX, the COC is placed inside the sealed shipping container at time of collection and the container is not opened until it is received by PAS. Thus, the intermediate courier does not sign the COC. The shipping manifest and/or air bill is the record of possession of samples during transport to the laboratory. The shipping manifest and/or air bill is part of the COC record and must be retained and provided in the test report with the COC record, when required. (See Section 5.10.3).

A complete and legible COC is required. When the COC is incomplete, illegible, or cannot be understood, the client is contacted for resolution.

Hand entries on the COC must be made in indelible ink and errors corrected by drawing a single line through the original entry, so the original entry is not obscured and entering the correct information with the date the change was made and the initials of the person making the change.

#### 5.8.1.2 Legal Chain of Custody

Legal chain of custody (Legal COC) is an industry defined protocol that is sometimes used for evidentiary or legal purposes that establishes an intact, continuous record of the physical possession, storage, and disposal of samples, including sample aliquots and prepared samples.

The legal COC record accounts for all time periods associated with the samples and identifies all individuals who physically handled them from the point established by legal authority, which is usually at the time the sample containers are provided for sample collection or at the time of sample collection.

A sample is in someone's legal custody if:

- It is in one's physical possession;
- It is in one's view after being in one's physical possession;
- It has been in one's physical possession and then locked or sealed so that no one can tamper with it; and/or
- It is kept in a secure area, restricted to authorized personnel only.

Legal COC is not a common request, but if it is requested and the laboratory agrees to the project specification; the laboratory must maintain a procedure or process to guarantee all aspects of the protocol are met.

### 5.8.2 Unique Identification

Each sample received by PAS is assigned a unique identification number (Lab ID) after the sample has been accepted by PAS in accordance with the PAS sample acceptance policy (See 5.8.3). The Lab ID is affixed to the sample container using a durable label.

The lab ID is linked to the field ID (client ID) in the sample receipt and log-in record so that both IDs are traceable to testing activities performed.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

### 5.8.3 Sample Receipt Checks and Sample Acceptance Policy

The condition and integrity of samples is checked on receipt and the samples received are verified to match the COC. Any problem with the samples or discrepancy between the COC is recorded. If the problem impacts the suitability of the sample for analysis or if the CoC is incomplete, the client is notified for resolution and decisions and instructions from the client regarding the samples are maintained in the project record.

#### 5.8.3.1 Sample Receipt Checks

The following checks are performed:

- The COC is complete and legible;
- Sample container labels include the client sample ID, the date and time of collection, and the preservative used;
- The container type and preservative are appropriate for the test requested;
- The required volume is received for each test requested;
- There is no evidence of damage or tampering;
- There is no headspace in VOA vials greater than 5-6 mm (the size of a pea);
- Thermal Preservation, when required. When thermal preservation is required, temperature on receipt is typically considered acceptable if the temperature is within 0-6°C and the samples are not frozen solid unless otherwise specified by federal, statutory, program or test method. If samples are received on the same day of collection, there must be evidence that the chilling process has begun, such as arrival of the samples on ice.
- Chemical Preservation, as required.
- Holding Time. When the holding time for the test method is longer than 15 minutes from time of collection and samples are received out of hold, the client is notified of the situation so they can make a decision to proceed or cancel analysis. Tests with a holding time of 15 minutes or less from time of collection are those where the method specifies the holding time as "immediate" are excluded from the notification requirement because the customer is aware that the holding time cannot be met unless the test is performed in the field (in situ).

#### 5.8.3.2 Sample Acceptance Policy

PAS maintains a sample acceptance policy to clearly establish the circumstances in which samples are accepted.

When these conditions are not met, the exception must be documented, and the client notified. Decisions to accept or reject the samples are documented and when required, test results are qualified in the test report.

Criteria for Sample Acceptance:

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

- All samples received must be listed on the COC and information provided must include the client ID of the sample, date and time of collection, collector's name, preservation type and type of sample;
- The sample containers must be properly labeled to uniquely identify the sample; and the label must be both durable and legible;
- The sample container must be appropriate for the tests requested;
- Samples must be received within holding time. Exceptions are made for samples where the test method specifies a holding time of "immediate or immediately" – which is translated to within 15 minutes from sample collection. For these test methods, samples are always received out of hold and/or there is no expectation that the laboratory perform the test within the 15-minute holding time.
- Sufficient sample volume must be provided to perform the test method per the laboratory's SOP. If the test is performed for regulatory compliance and the method requested is mandated; the volume provided must be adequate for the laboratory to perform the test per the test method without modification.
- Be received within appropriate temperature ranges unless program requirements or customer contractual obligations mandate otherwise.
- Be free of evidence of tampering or signs of contamination; and
- Meet applicable requirements for thermal and chemical preservation.

Additional conditions may also apply depending on the services offered. For example, some PAS locations will not accept samples known to be radioactive.

### 5.8.4 Sample Control and Tracking

Samples received by PAS are tracked using the laboratory's Laboratory Information Management System (LIMS).

After the sample receipt process is complete, samples are logged into the LIMS and a Lab ID is assigned and affixed to each container with a durable label. The Lab ID is used to track the samples through the testing process through test report generation and sample disposal.

Minimally, the following information is included in the log-in for each sample:

- Client Name and Contact Information;
- The laboratory ID linked to the client ID;
- Date and time of sample collection;
- Date and time of sample receipt;
- Matrix; and
- Tests Requested.

After log-in is complete, the log-in record must be independently reviewed by the PAS Project Manager (PM) responsible for the work order to verify the log-in is complete and correct per

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

the testing agreement with the customer and the chain-of-custody so that any log-in errors or questions about the samples received are corrected and resolved before work begins.

Documentation of the log-in record, called a Sample Acknowledgement Form (SRF) is provided to customers per their request. The SRF provides information necessary for the customer to verify that there are no errors with the information provided to PAS with the sample shipment.

As previously stated in this manual, the customer must be notified of any problems or discrepancies between the information expected and information received and/or nonconformances observed during the sample receipt and log-in process. Authorization to proceed with testing and/or instructions to correct the problem must be retained for historical recordkeeping purposes. How the notification requirement is achieved must be included in a laboratory SOP.

### 5.8.5 Sample Storage, Handling, and Disposal

#### 5.8.5.1 Sample Storage

The samples are stored according to the specification in the test method and any appliable program and regulatory requirements. Samples are stored separately from standards, reagents, or other potential sources of contamination and in a manner that prevents cross contamination. All sample fractions, extracts, leachates, and other sample preparation products are stored in the same manner as actual samples or as specified by the analytical method.

Refrigerated storage areas are maintained at 4°C ±2 (but not frozen) and freezer storage areas are maintained at <-10°C, unless otherwise required per method or regulatory program. The temperature of each storage area is checked and documented at least once for each day of use. If the temperature falls outside the acceptable limits, corrective actions are taken and documented.

Samples are placed in the storage location immediately after sample receipt and log-in procedures are completed. All sample storage areas have limited access. Samples are removed from storage areas by designated personnel and returned to the storage areas as soon as possible after the required sample quantity has been taken.

#### 5.8.5.2 Sample Retention and Disposal

The procedures used by the location for sample retention and disposal are detailed in SOP ENV-SOP-ORB1-0120 *Sample Management* and ENV-SOP-ORB1-0131 *Waste Handling and Management*.

In general, PAS retains unused sample volume and prepared samples such as extracts, digestates, distillates and leachates (samples) per Pace® Terms & Conditions.

After analysis, samples may be stored at ambient temperature until time of sample disposal, unless otherwise specified by regulation or agreed upon contract specifications.

After the retention time has expired non-hazardous samples are properly disposed. Hazardous samples are returned to the customer, unless other arrangements for disposal have been made with the laboratory.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

## 5.9 Assuring the Quality of Test Results

### 5.9.1 Quality Control (QC) Procedures

PAS monitors the validity and reliability of test results using quality control (QC) samples that are prepared and analyzed concurrently with and in the same manner as field samples. QC results are always associated to and reported with the field samples they were prepared and analyzed with.

When the results are not within acceptance criteria correction and corrective action(s) are taken. These actions may include retesting or qualification of test results and/or disclosure of the situation in the test report to alert the data user of the situation.

Other control measures to maintain quality of test results include the use of certified reference materials (see 5.6.3), participation in interlaboratory proficiency testing (see 5.9.1.2), verification that formulae used for reduction of data and calculation of results is accurate (see 5.9.3), on-going monitoring of environmental conditions that could impact test results (see 5.3.2), and evaluation and verification of method selectivity and sensitivity (see 5.4.5).

QC results are also used for trend analysis and to establish acceptance criteria when no method or regulatory criteria exist. (See 5.9.1.1.9).

#### 5.9.1.1 Essential QC

QC protocol is technology and test method specific and is specified in test method SOPs. The SOP includes the type of QC required, frequency for analysis, acceptance criteria, recommended corrective actions, and procedures for reporting test results associated with QC exceptions.

PAS ensures the QC requirements in the SOP conform to the reference method and applicable regulations for which results of the test are used and to any program requirements for the process required by the certification/accreditation program required for testing.

- When a project requires more stringent QC protocol than specified in PAS policy or the test method SOP, the project specification is followed.
- When the project requires less stringent QC protocol than PAS policy or the SOP, the project specification may be followed as an authorized departure if the project specification still meet the requirements in the test method and any applicable regulatory and certification/accreditation requirements.

The following sections describe essential QC for chemistry. These QC types may not apply to other technologies and disciplines such as microbiology, radiochemistry, whole effluent toxicity, and/or asbestos. For essential QC for these test offerings, refer to test method SOPs.

##### 5.9.1.1.1 Calibration Verification (Second Source)

A second source standard is a standard from a different vendor or from a different lot than the standards used for initial calibration. A different lot from the same vendor is permissible, when the standard is only available from a single vendor.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

It is a positive control used to verify the accuracy of instrument calibration relative to the purity of the standards used for calibration. This check may be referred to in published test methods and quality system standards as the initial calibration verification (ICV) or a quality control sample (QCS). For most test methods, it is analyzed immediately after the calibration and before analysis of any samples. When the ICV is not within acceptance criteria, a problem with the purity or preparation of the standards may be indicated. The source of the problem should be investigated and corrected prior to use of the calibration/instrument for sample analysis.

#### 5.9.1.1.2 Calibration Verification (CCV)

The CCV is used to determine if the analytical response has significantly changed since calibration. The CCV is usually made from the same standards used for initial calibration, but a second source standard may be used.

When the response of the CCV is within criteria, the calibration is considered valid. If not, there may be a problem that requires further investigation and correction. The actions taken are technology and method specific.

It is sometimes acceptable to report test results associated with a CCV that does not meet criteria.

For example, when a CCV exceeds criteria above the limit; high bias is suspected in the measurement system. If the analyte is not detected in the sample; then the high bias has no impact on the validity of the test result. If the analyte is detected in sample, then corrective action to bring the CCV within criteria is expected to eliminate the possibility that the detection is biased.

#### 5.9.1.1.3 Blanks

Blanks are negative controls used to assess for contamination.

The method blank (MB) is a clean matrix similar to the associated samples that is known to be free of analytes of interest. The MB, unless otherwise specified by the test method, is processed with, and carried through all preparation and analytical steps as the associated samples.

The criteria used to assess for contamination depends on the intended use of data. In general, detections in the MB above the RL or ½ the RL indicate contamination. When contamination is indicated, the source is investigated, and corrections are taken to reduce or eliminate it. Analytical results associated with MB that do not meet criteria are qualified in the final test report.

Other types of blanks that serve as negative controls in the process may include:

- Trip Blanks (VOA)

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

- Storage Blanks
- Equipment Blanks
- Field Blanks
- Calibration Blanks
- Cleanup Blanks
- Instrument Blanks

#### 5.9.1.1.4 Laboratory Control Sample (LCS)

The LCS is a positive control used to measure the accuracy. The LCS is a blank matrix spiked with standard solution that includes target analytes or it may be a pre-made certified reference standard. Like the MB, unless otherwise specified in the test method, the LCS is processed with and carried through all preparation and analytical steps as the associated samples.

When the percent recovery (%R) of the LCS is within the established control limit, the test is within control. If not, the cause of the problem is investigated and corrected, and the procedure may be repeated. Analytical results associated with LCS that does not meet criteria are qualified in the final test report.

#### 5.9.1.1.5 Matrix Spike (MS) and Matrix Spike Duplicate (MSD)

The MS and MSD are replicates of a client sample that is spiked with known amount of target analyte. When there is not a client-designated matrix spike on any sample in the batch, the MS/MSD may be performed on a randomly selected sample and these MS/MSD are called "batch" MS/MSD.

MS/MSD results provide information about the effects the sample matrix has on recovery and reproducibility of target analytes on site samples. MS/MSD results are not used to control performance of the preparation or analytical batch because the way in which the matrix impacts efficiency and robustness of the test cannot be mitigated or controlled by the laboratory.

The heterogeneity of the sample submatrix influences accuracy and precision. For example, MS/MSD results for a sample that is mostly sand will not be the same for a sediment sample even though both matrices are "soil" and both samples subjected to the same test procedure in the same batch. For this reason, batch MS/MSD results may not be representative of the effect the matrix has on accuracy and precision on test results for all samples in the batch – except when all samples in the batch are from the same collection site and are identical in composition.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

#### 5.9.1.1.6 Sample Duplicate (SD)

A sample duplicate is a second replicate of sample taken through the testing process used to measure precision and/or homogeneity of samples collected.

The relative percent difference (RPD) between replicates are evaluated against the established acceptance criteria and if the RPD is not met, associated test results are reported with qualification.

#### 5.9.1.1.7 Surrogates

Surrogates are compounds not normally found in the environment but that have similar physical and chemical properties of target analytes that are added to environmental samples, QC, and calibration standards prior to preparation and analysis. They are used to evaluate extraction efficiency and matrix interference on a sample specific basis.

The percent recovery of surrogates is evaluated against method-specified limits or statistically derived in-house limits. Project-specific limits and/or program-specific limits are used when required. Results with surrogate recovery out of limits in samples are reported with qualification. Samples with surrogate failures can also be re-extracted and/or re-analyzed to confirm that the out-of-control value was caused by the matrix of the sample and not by some other systematic error.

#### 5.9.1.1.8 Internal Standards

Internal Standards are compounds not expected to occur naturally in field samples. They are added to every standard and sample at a known concentration prior to analysis for the purpose of adjusting the response factor used in quantifying target analytes. The location follows specific guidelines for the treatment of internal standard recoveries and further information can be found in the applicable test method SOP.

#### 5.9.1.1.9 QC Acceptance Criteria and Control Limits

QC acceptance criteria are specified in test method SOPs. The criteria in the SOP are based on the requirements in the published test method or regulatory program. When there are no established acceptance criteria, the location develops acceptance criteria in accordance with recognized industry standards.

Some methods and programs require the laboratory to establish control limits for LCS, MS/MSD, and surrogate evaluation using historical data. PAS developed limits are referred to as "in-house" control limits. In-house control limits represent ± 3 Standard Deviations (99% confidence level) from the average recovery of at least 20 data points generated using the same preparation and analytical procedure in a similar matrix.

See SOP ENV-SOP-ORB1-0116 *Control Chart Generation* for more information about the procedures used to establish in-house control limits.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

#### 5.9.1.2 Proficiency Testing (PT)

PAS participates in interlaboratory proficiency testing (PT) studies to measure our performance of the test method.

PT participation is based on the certification and accreditation requirements held by the laboratory. The PT samples are obtained from accredited proficiency testing providers (PTP) and treated as field samples which means they are incorporated into our normal analytical processes and do not receive extraordinary attention due to their nature.

PAS locations do not share PT samples with other PAS locations, does not communicate with other PAS locations regarding current PT sample results during the duration of the study, and does not attempt to obtain the assigned value of any PT sample from the PT provider.

PT results scored unacceptable are investigated and correction action taken, when necessary.

Refer to corporate policy ENV-POL-CORQ-0002, *PT Policy* for more information.

### 5.9.2 QC Corrective Action

When the results of QC are not within acceptance criteria or expectations for method performance, correction and corrective action(s) are taken per the specifications in the test method SOP. These actions may include retesting or reporting of data with qualification to alert the end user of the situation.

### 5.9.3 Data Review

PAS uses a tiered system for data review. The tiered process includes as series of sequential checks to verify data transfer is complete; manual calculations, if performed, are correct, manual integrations are appropriate and documented, calibration and QC requirements are met, appropriate corrective action was taken when required, test results are properly qualified, process and test method SOPs were followed, project specific requirements were met, when applicable, and the test report is complete.

The sequential process includes three tiers referred to as primary review, secondary review, and administrative/completeness review.

Detailed procedures for the data review process are described in SOP ENV-SOP-ORB1-0119 *Data Review Process*. General expectations for the tiered data review process are specified in the following sections:

#### 5.9.3.1 Primary Review

Primary review is performed by the individual that performed the task. All PAS personnel are responsible for the review of their own work to assure it is complete, accurate, documented, and consistent with PAS policy and SOPs.

Checks performed during primary review include but are not limited to:

- Verification that data transfer and acquisition is complete;
- Manual calculations, if performed, are documented and accurate;

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

- Manual integrations, if performed, are documented, and comply with SOP ENV-SOP-CORQ-006 *Manual Integration;*
- Calibration and QC criteria were met, instrument calibration conforms with policy ENV-POL-CORQ-005 *Acceptable Calibration Practices*, and/or proper correction and corrective actions were taken, and data and test results associated with QC and criteria exceptions are properly qualified;
- Work is consistent with SOPs and any other relevant instructional document such as SWI, program requirements, or project quality assurance plans (QAPP).

#### 5.9.3.2 Secondary Review

Secondary review is an independent review of the data set performed by a qualified peer or supervisor. Secondary review includes a repeat of the checks performed during primary review in addition to chromatography review to verify the accuracy of quantitative analyte identification.

#### 5.9.3.3 Completeness Review

Completeness review is an administrative review that is performed prior to release of the test report to the customer to verify the final test report is complete and meets project specifications. This review also assures that information necessary for the client's interpretation of results are explained in the case narrative or footnoted in the test report.

#### 5.9.3.4 Data Audits

Test reports are randomly audited by local quality personnel to verify compliance with SOPs and to check for data integrity, technical accuracy, and compliance with the PAS QMS and any applicable federal, statutory, and program requirements. These audits are not part of the tertiary data review process that is performed prior to release of the test report. These audits are performed on test reports that have been previously released to the customer to avoid potential risks to impartiality and other factors that may influence thoroughness of review.

If any problems with the data or test results are found during the data audit, the impact of the nonconforming work is evaluated using the process described in Section 4.9.

Also see Section 4.14 for internal audits.

### 5.9.4 Calibration Certificates

PAS does not perform calibration activities for its customers and calibration certificates are not offered or issued.

### 5.9.5 Opinions and Interpretations

PAS provides objective data and information to its customers of sufficient detail for their interpretation and decision making. Objective data and information are based solely on fact and PAS does not attempt to explain the meaning (interpret) or offer a view or judgement (opinion) on usability of data.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

PAS personnel are not permitted to provide opinion on how a nonconformance impacts the usability of results or how test results and information should be used, or suggestions or guidance to the customer for improvement..

#### 5.9.6 Subcontractor Reports

When analytical work is subcontracted to an organization external to PAS or its subsidiaries, PAS includes the test report from the subcontractor in its entirety as an amendment to the final test report.

Test results performed by multiple locations within the PAS network (internal subcontracting) may be merged into a single test report so long as the test report issued clearly identifies the location and address of each network location that performed testing, and which tests each PAS location performed. (See 5.10.2)

#### 5.9.7 Electronic Transmission of Results

When test results and/or reports are submitted to the customer through electronic transmission, the procedures established in this manual for confidentiality and protection of data apply.

#### 5.9.8 Format of Test Reports

The test formats offered by PAS are designed to accommodate each type of analytical test method performed and to minimize the possibility of misunderstanding or misuse of analytical results. The format of electronic data deliverables (EDD) follows the specifications for the EDD.

#### 5.9.9 Amendments to Test Reports

Test reports that are revised or amended by the location after date of release of the original final test report to the customer are issued as a new test report that is clearly identified as an amendment or revision and that includes a reference to the originally issued final test report.

The customer is the organization doing business with PAS external to PAS.

Changes made to test results and data before the final test report is issued to the customer are not amendments or revisions and do not need to be tracked or marked as such, these changes are simply corrections to errors found during data review.

The procedure for report amendments and revision are outlined in SOP ENV-SOP-ORB1-0130 *Final Report and Data Deliverable Contents*.

### 5.10 Reporting

#### 5.10.1 General Requirements

PAS offers a wide variety of test report formats to meet project needs of Pace® customers and federal and state regulatory program requirements

The type and level of deliverable, including the electronic data deliverable (EDD) format are established between PAS and the customer during the contracting process. The report specifications include the test report format, protocol for the reporting limit (RL), conventions for the reporting of results less than the limit of quantitation (LOQ), and specification for the

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

use of project or program specific data qualifiers. Information about review of analytical service requests is provided in Section 4.4.

### 5.10.2 Test Reports: Required Items

Regardless of deliverable or report requested, every test report issued by PAS and its subsidiaries includes each of the following items:

a) A Title;

b) The name and address of the location issuing the test report and for each location where testing was performed if different than address of the location issuing the report. When testing is done at multiple PAS locations, the report must also clearly identify which PAS location performed each test method;

c) Unique identification of the test report and on each page an identification number to link each page to the test report, and clear identification of the end of the report;

d) The name and address of the customer;

e) Identification of test methods used. When testing is done at multiple PAS locations, the report must also clearly identify which PAS location performed each test method;

f) Cross reference between client sample identification number (Sample ID) and the identification number for the sample (Lab ID) to provide unambiguous identification of samples;

g) The date of receipt of samples, condition of samples on receipt, and identification of any instance where receipt of the samples did not meet sample acceptance criteria;

h) Date and times of sample collection, receipt, preparation, and analysis;

i) Test results and units of measurement, and qualification of results associated with QC criteria exceptions, and identification of reported results outside of the calibration range;

j) All chains of custody (COC) including records of internal transfer between locations within PAS;

k) Name, title, signature of the person(s) authorizing release of the test report and date of release;

l) A statement that the results in the test report relate only to the items tested; and

m) Statement that the test report may not be reproduced except in full without written approval from PAS.

### 5.10.3 Test Reports: Supplemental Items

#### 5.10.3.1 Supplemental Requirements

The following items are included in the test report when required or relevant:

a) Shipping manifests/bill of ladings as applicable when common couriers are utilized for shipment of samples,

b) Explanation of departure from test method SOPs including, what the departure was and why it was necessary.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

c) Statistical methods used. (Required for Whole Effluent Toxicity)

d) For solid samples, specification that results are reported on a dry weight or wet weight basis.

e) Signed Affidavit, when required by client or regulatory agency.

f) A statement of compliance/non-compliance with requirements or specifications (client, program, or standard) that includes identification of test results that did not meet acceptance criteria.

g) When requested by the client, statement of estimated measurement uncertainty. In general, for environmental testing, estimated uncertainty of measurement is extrapolated from LCS control limits. Control limits incorporate the expected variation of the data derived from the laboratory's procedure. When the control limits are specified by the test method or regulatory program, the control limits represent the expected variation of the test method and/or matrices for which the test method was designed.

h) If a claim of accreditation/certification is included in the test report, identification of any test methods or analytes for which accreditation/certification is not held by the location if the accrediting body offers accreditation/certification for the test method/analyte. The fields of accreditation/certification vary between agencies, and it cannot be presumed that because accreditation/certification is not held that it is offered or required.

i) Certification Information, including certificate number and issuing body.

For PAS locations accredited to ISO/IEC 17025:2017:

- Data included in the test report provided by a customer should be clearly identified.
- A statement that the test results apply only to the samples as received.

PAS does not provide opinion or interpretations about usability of data or test results in order to maintain impartiality with the testing services provided.

**5.10.3.2 Test Reports: Sampling Information**

The following items are included in the test report when samples are collected by PAS or when this information is necessary for the interpretation of test results:

a) Date of Sampling.

b) Unambiguous identification of material samples.

c) Location of sampling including diagrams, sketches, or photographs.

d) Reference to the sampling plan and procedures used.

e) Details of environmental conditions at time of sample that may impact test results.

f) Any standard or other specification for the sampling method or procedure, and deviations, additions to or exclusions from the specification concerned.

# 6.0 REVISION HISTORY

This Version (Version 6):

| SECTION | DESCRIPTION OF CHANGE |
|---|---|
| Management Approval Page | Created a new cover page for management approval date / time stamps to allow room for signatories. This information was previously on the Title Page. |
| Header | Updated Copyright |
| Title Page | Simplified options for laboratory name based on legal entity. |
| Approval Page | Revised language for clarity, added spot for TNI accredited laboratories to list the AB approved "TNI Technical Manager, however named" – this description is not a job title, it refers to the individual designated by the laboratory and approved by the AB to provide technical oversight for a specific discipline. |
| All Sections | Updated format where needed. |
| 4.1.5.1.1 | Updated deputies for key personnel. |
| 4.4 | Added TNI requirement to notify customers when PAS is proposing or has made a deviation to a contract previously approved by both parties. |
| 4.8 | Added reference to the PAS Corporate SOP for Client Complaints |
| 4.9.1.3 | Added "Temporary" to "Stop Work Order" to clarify that a stop work is temporary and distinct from permanent discontinuation of a testing service, which is called a reduction in capabilities. Updated content to clearly identify the roles authorized to lift the stop work order. |
| 4.13.15 | Deleted the reference to an obsolete policy and inserted a reference to the technical guide that replaced the policy. |
| 4.13.2.3 | Replaced last paragraph with a reference to another section to eliminate redundancy. |
| 4.14 | Rewrote entire section to refine language; no change in requirements made. |
| 4.16 | Added reference to PAS Corporate SOP for Data Impact Assessments |
| 5.2.1 | Updated definition for competency. Added roles authorized to provide opinion or consult on usability of test results. |
| 5.2.2 | Rewrote entire section to refine language; no change in requirements made. |
| 5.4 | Rewrote entire section to refine language; no change in requirements made. |
| 5.5 | Rewrote entire section to refine language; no change in requirements made. |
| 5.6 | Rewrote entire section to refine language; no change in requirements made. |
| 5.8 | Rewrote entire section to refine language; no change in requirements made. |
| 5.8.1.1 -1.2 | Clarified that a CoC is a legal record for sample collection and "legal COC" is an industry-defined protocol for tracking possession of samples. |
| 5.9 | Rewrote section and re-organized content to be more concise. |
| Glossary | Updated Definition List and Definitions |
| Section 8.0 | Added Suggested Addendum for AIHA and NVLAP |

This document supersedes the following documents:

# 7.0 APPENDICES

## 7.1 Appendix A: Certification / Accreditation Listing

**Disclaimer:** The certifications / accreditation lists provided in this Appendix are those that were held by the PAS location on the effective date of this manual. This information is subject to change without notice and must not be considered valid proof of certification or accreditation status. This manual is not updated with each change made. Current certificates are accessible via the eDMS Portal for PAS employees. External parties should contact the location for the most current information.

## 7.3 Appendix C: Glossary

This glossary provides common terms and definitions used in environmental testing; it is not intended to be a complete list of all terms and definitions used; some terms are defined in the context of the document or application. The definitions have been compiled mostly from the TNI Standard and DoD QSM. Although this information has been reproduced with care, errors cannot be entirely excluded.

| Term | Definition |
|---|---|
| Acceptance Criteria | Specified limits placed on characteristics of an item, process, or service defined in requirement documents. |
| Accreditation | The process by which an agency or organization evaluates and recognizes a laboratory as meeting certain predetermined qualifications or standards, thereby accrediting the laboratory. |
| Accreditation Body | The organization having responsibility and accountability for environmental laboratory accreditation, and which grants accreditation. |
| Accuracy | The degree of agreement between an observed value and an accepted reference value. Accuracy includes a combination of random error (precision) and systematic error (bias) components that are due to sampling and analytical operations; a data quality indicator. |
| Aliquot | A discrete, measured, representative portion of a sample taken for analysis. |
| Analysis | A combination of sample preparation and instrument determination. |
| Analysis Sequence | A compilation of all samples, standards and quality control samples run during a specific amount of time on a particular instrument in the order they are analyzed. |
| Analyte | A substance, organism, physical parameter, property, or chemical constituent(s) for which an environmental sample is being analyzed. |
| Analytical Method | A formal process that identifies and quantifies the chemical components of interest in a sample. |
| Analytical Uncertainty | A subset of Measurement Uncertainty that includes all laboratory activities performed as part of the analysis. |
| Annual (or annually) | Defined by PAS as every 12 months ± 30 days. |
| Assessment | The evaluation process used to measure or establish the performance, effectiveness, and conformance of an organization and/or its system to defined criteria (to the standards and requirements of laboratory accreditation). |
| Atomic Absorption Spectrometer | Instrument used to measure concentration in metals samples. |
| Audit | A systematic and independent examination of facilities, equipment, personnel, training, procedures, record-keeping, data validation, data management, and reporting aspects of a system to determine whether QA/QC and technical activities are being conducted as planned and whether these activities will effectively achieve quality objectives. |
| Batch | Environmental samples that are prepared and/or analyzed together with the same process and personnel, using the same lot(s) of reagents. A **preparation batch** is composed of one to 20 environmental samples of the same quality systems matrix, meeting the above-mentioned criteria and with a maximum time between the start of processing of the first and last sample in the batch to be 24 hours or the time specified by the regulatory program. An **analytical batch** is composed of prepared environmental samples (extracts, digestates or concentrates) which are analyzed together as a group. An analytical batch can include prepared samples originating from various quality system matrices and can exceed 20 samples. |
| Bias | The systematic or persistent distortion of a measurement process, which causes errors in one direction (i.e., the expected sample measurement is different from the sample's true value). |
| Blank | A sample that has not been exposed to the analyzed sample stream in order to monitor contamination during sampling, transport, storage, or analysis. The blank is subjected to the usual analytical and measurement process to establish a zero baseline or background value and is sometimes used to adjust or correct routine analytical results (See Method Blank). |

| | |
|---|---|
| Blind Sample | A sub-sample for analysis with a composition known to the submitter. The analyst/laboratory may know the identity of the sample but not its composition. It is used to test the analyst's or laboratory's proficiency in the execution of the measurement process. |
| Calibration | A set of operations that establish, under specified conditions, the relationship between values of quantities indicated by a measuring instrument or measuring system, or values represented by a material measure or a reference material, and the corresponding values realized by standards. |
| Calibration Curve | The mathematical relationship between the known values, such as concentrations, of a series of calibration standards and their instrument response. |
| Calibration Method | A defined technical procedure for performing a calibration. |
| Calibration Range | The range of values (concentrations) between the lowest and highest calibration standards of a multi-level calibration curve. |
| Calibration Standard | A substance or reference material used for calibration. |
| Certified Reference Material | Reference material accompanied by a certificate, having a value, measurement uncertainty, and stated metrological traceability chain to a national metrology institute. |
| Chain of Custody | An unbroken trail of accountability that verifies the physical security of samples, data, and records. |
| Client /Customer | Any individual or organization external to Pace for whom items or services are furnished or work performed in response to defined requirements and expectations. |
| Code of Federal Regulations (CFR) | A codification of the general and permanent rules published in the Federal Register by agencies of the federal government. |
| Comparability | An assessment of the confidence with which one data set can be compared to another. |
| Completeness | The percentage of valid data obtained from a measurement system compared to the amount of valid data expected under normal conditions. This attribute is always calculated by the end data user, not by the laboratory. |
| Confirmation | Verification of the identity of a component through the use of an approach with a different scientific principle from the original method. |
| Continuing Calibration Blank (CCB) | A blank sample used to monitor the cleanliness of an analytical system at a frequency determined by the analytical method. |
| Continuing Calibration Check Compounds (CCC) | Compounds listed in mass spectrometry methods are used to evaluate an instrument calibration from the standpoint of the integrity of the system. |
| Continuing Calibration Verification (CCV) Standard | A standard used to verify the initial calibration of compounds in an analytical method. May be referred to as a CCC in some programs, such as UCMR. |
| Control Limit | A range within which specified measurement results must fall to verify that the analytical system is in control. |
| Correction | Action taken to eliminate a detected non-conformity. |
| Corrective Action | The action taken to eliminate the causes of an existing non-conformity, defect, or other undesirable situation in order to prevent recurrence. |
| Data Integrity | The condition that exists when data are sound, correct, and complete, and accurately reflect activities and requirements. |
| Data Quality Objective (DQO) | Strategic planning tool that identifies and defines the type, quality, and quantity of data needed to satisfy a specified use or end user. |
| Data Reduction | The process of transforming the number of data items by arithmetic or statistical calculation, standard curves, and concentration factors, and collating them into a more usable form. |
| Demonstration of Capability (DOC) | A procedure to establish the ability of the analyst to generate analytical results of acceptable accuracy and precision. |
| Detection Limit (DL) | The minimum measured concentration of a substance that can be reported with 99% confidence that the measured concentration is distinguishable from the method blank results. |
| Dry Weight | The percent of sample that is not water, which may be used to adjust the reported results. |

| | |
|---|---|
| Electronic Data Deliverable (EDD) | A summary of environmental data which clients request for ease of data review and comparison to historical results. |
| Environmental Protection Agency (EPA) | An agency of the federal government of the United States which was created for the purpose of protecting human health and the environment by writing and enforcing regulations based on laws passed by Congress. |
| Equipment Blank | A sample of analyte-free media used to rinse common sampling equipment to check effectiveness of decontamination procedures. |
| Extracted Internal Standard Analyte | Isotopically labeled analogs of analytes of interest added to all standards, blanks and samples analyzed. Added to samples and batch QC samples prior to the first step of sample extraction and to standards and instrument blanks prior to analysis. Used for isotope dilution methods. |
| False Negative | A result that fails to identify (detect) an analyte to be present. |
| False Positive | A result that erroneously identifies (detects) an analyte to be present. |
| Field Blank | A blank sample prepared in the field by filling a clean container with reagent water and appropriate preservative, if any, for the specific sampling activity being undertaken. |
| Field Measurement | Testing performed in the field outside of a fixed-laboratory or outside of an enclosed structure that meets the requirements of a mobile laboratory. |
| Flame Atomic Absorption Spectrometer (FAA) | Instrumentation used to measure the concentration of metals in an environmental sample based on the fact that ground state metals absorb light at different wavelengths. Metals in a solution are converted to the atomic state by use of a flame. |
| Flame Ionization Detector (FID) | A type of gas detector used in GC analysis where samples are passed through a flame which ionizes the sample so that various ions can be measured. |
| Gas Chromatography (GC) | Instrumentation which utilizes a mobile carrier gas to deliver an environmental sample across a stationary phase with the intent to separate compounds out and measure their retention times. |
| Gas Chromatograph/ Mass Spectrometry (GC/MS) | In conjunction with a GC, this instrumentation utilizes a mass spectrometer which measures fragments of compounds and determines their identity by their fragmentation patterns (mass spectra). |
| Gasoline Range Organics (GRO) | A range of compounds that denote all the characteristic compounds that make up gasoline (range can be state or program specific). |
| Graphite Furnace Atomic Absorption Spectrometry (GFAA) | Instrumentation used to measure the concentration of metals in an environmental sample based on the absorption of light at different wavelengths that are characteristic of different analytes. |
| High Pressure Liquid Chromatography (HPLC) | Instrumentation used to separate, identify, and quantitate compounds based on retention times which are dependent on interactions between a mobile phase and a stationary phase. |
| Holding Time | The maximum time specified in a reference method that can elapse between analytical activities. |
| Homogeneity | The degree to which a property or substance is uniformly distributed throughout a sample. |
| Incremental Sampling Method (ISM) | A sampling method designed to provide an accurate characterization of contamination in soils at a site through collection of numerous portions of soil that are combined, processed, and subsampled in order to reduce the effects of soil heterogeneity. |
| Inductively Coupled Plasma Atomic Emission Spectrometry (ICP-AES) | Analytical technique used for the detection of trace metals which uses plasma to produce excited atoms that emit radiation of characteristic wavelengths. |
| Inductively Coupled Plasma- Mass Spectrometry (ICP/MS) | An ICP that is used in conjunction with a mass spectrometer so that the instrument is not only capable of detecting trace amounts of metals and non-metals but is also capable of monitoring isotopic speciation for the ions of choice. |
| Infrared Spectrometer (IR) | An instrument that uses infrared light to identify compounds of interest. |

| | |
|---|---|
| Initial Calibration (ICAL) | The process of analyzing standards, prepared at specified concentrations, to define the quantitative response relationship of the instrument to the analytes of interest. |
| Initial Calibration Blank (ICB) | A blank sample used to monitor the cleanliness of an analytical system at a frequency determined by the analytical method. |
| Initial Calibration Verification (ICV) | A standard obtained or prepared from a source independent of the source of the initial calibration standards to verify the initial calibration. |
| Instrument Blank | An analyte free matrix processed through the instrumental steps of the measurement process; use to determine instrument contamination. |
| Interference | The suppression or elevation of result of an analyte of interest due to the presence of other compounds. |
| Internal Standard | A known amount of standard added to a test portion of a sample as a reference for evaluating and controlling the precision and bias of the applied analytical method. |
| International Organization for Standardization (ISO) | An international standard-setting body composed of representatives from various national standards organizations. |
| Intermediate Standard Solution | Reference solutions prepared by dilution of the stock solutions with an appropriate solvent. |
| International System of Units (SI) | The coherent system of units adopted and recommended by the General Conference on Weights and Measures. |
| Ion Chromatography (IC) | Instrumentation or process that allows the separation of ions and molecules based on the charge properties of the molecules. |
| Isomer | One of two or more compounds, radicals, or ions that contain the same number of atoms of the same element but differ in structural arrangement and properties. For example, hexane (C6H14) could be n-hexane, 2-methylpentane, 3-methylpentane, 2,3-dimethylbutane, 2,2-dimethylbutane. |
| Laboratory | A facility that performs testing, whether in-house or in the field. |
| Laboratory Control Sample (LCS) | Also known as laboratory fortified blank (LFB): A sample matrix, free from the analytes of interest, spiked with verified known amounts of analytes or a material containing known and verified amounts of analytes, which is taken through all sample preparation and analytical steps of the procedure. |
| Laboratory Information Management System (LIMS) | The entirety of an electronic data system (including hardware and software) that collects, analyzes, stores, and archives electronic records and documents. |
| Legal Chain-of-Custody Protocols | Industry defined protocol that is sometimes used for evidentiary or legal purposes that establishes an intact, continuous record of the physical possession, storage, and disposal of samples, including sample aliquots and prepared samples. |
| Limit(s) of Detection (LOD) | The smallest concentration of a substance that must be present in a sample in order to be detected at the DL with 99% confidence. |
| Limit(s) of Quantitation (LOQ) | The minimum level, concentration, or quantity of a target analyte that can be reported with a specified degree of confidence. |
| Lower Limit of Quantitation (LLOQ) | The concentration of the lowest calibration standard included in the calibration curve. |
| Linear Dynamic Range | Concentration range where the instrument provides a linear response. |
| Liquid chromatography/ tandem mass spectrometry (LC/MS/MS) | Instrumentation that combines the physical separation techniques of liquid chromatography with the mass analysis capabilities of mass spectrometry. |
| Lot | A definite amount of material produced during a single manufacturing cycle and intended to have uniform character and quality. |
| Matrix | The substrate of a test sample. |

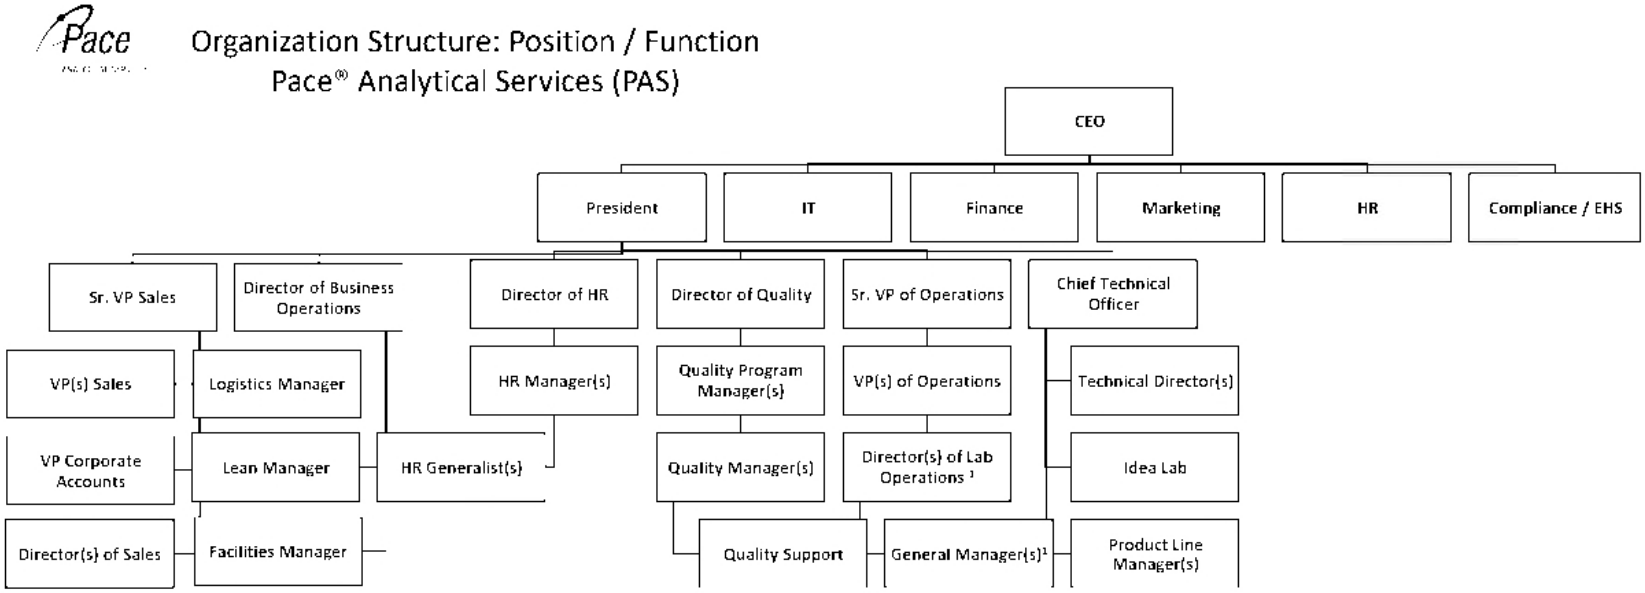
COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

| | |
|---|---|
| Matrix Duplicate | A replicate matrix prepared in the laboratory and analyzed to obtain a measure of precision. |
| Matrix Spike (MS) | A sample prepared, taken through all sample preparation and analytical steps of the procedure, to which a known amount of target analyte is added to a specified amount of sample for which an independent test result of target analyte concentration is available. |
| Matrix Spike Duplicate (MSD) | A replicate matrix spike prepared in the laboratory and analyzed to obtain a measure of the precision of the recovery for each analyte. |
| Measurement System | A method, as implemented at a particular laboratory, and which includes the equipment used to perform the test and the operator(s). |
| Measurement Uncertainty | An estimate of the error in a measurement often stated as a range of values that contain the true value within a certain confidence level. |
| Method | A body of procedures and techniques for performing an activity (e.g., sampling, chemical analysis, quantification). |
| Method Blank | A sample of a matrix similar to the batch of associated samples (when available) that is free from the analytes of interest and is processed simultaneously with and under the same conditions as samples through all steps of the analytical procedures. |
| Method Detection Limit (MDL) | The minimum concentration of a substance that can be measured and reported with 99% confidence that the analyte concentration is greater than zero and is determined from analysis of a sample in a given matrix containing the analyte. |
| Method of Standard Additions | A set of procedures adding one or more increments of a standard solution to sample aliquots of the same size in order to overcome inherent matrix effects. |
| Minimum Detectable Activity (MDA) | Estimate of the smallest true activity that ensures a specified high confidence, $1 - \beta$, of detection above the Critical Value, and a low probability $\beta$ of false negatives below the Critical Value. For radiometric methods, $\beta$ is often set at 0.05. |
| Negative Control | A sample included in the method that is treated the same as all others but is expected to have a detection of analytes of interest. |
| Nonconformance | An indication or judgment that a product or service has not met the requirement of the relevant specifications, contract, or regulation; also, the state of failing to meet the requirements. |
| Positive Control | A sample included in the method that is treated the same as all others and is expected to have a detection of the analytes of interest. |
| Practical Quantitation Limit (PQL) | Another term for a method reporting limit. |
| Precision | The degree to which a set of observations or measurements of the same property, obtained under similar conditions, conform to themselves. |
| Preservation | Any conditions under which a sample must be kept in order to maintain chemical, physical, and/or biological integrity prior to analysis. |
| Primary Accreditation Body (Primary AB) | The TNI-approved state agency responsible for assessing a laboratory's total quality system, on-site assessment, and PT performance tracking for fields of accreditation. |
| Procedure | Written instructions detailing the performance of a task, process, or other laboratory activity. |
| Proficiency Testing (PT) | A means to evaluate a laboratory's performance under controlled conditions relative to a given set of criteria, through analysis of unknown samples provided by an external source. |
| Proficiency Testing Reporting Limit (PTRL) | A statistically derived value that represents the lowest acceptable concentration for an analyte in a PT sample, if the analyte is spiked into the PT sample. The PTRLs are specified in the TNI FoPT tables. |
| Qualitative Analysis | Analysis designed to identify the components of a substance or mixture. |
| Quality Assurance (QA) | An integrated system of management activities involving planning, implementation, assessment, reporting, and quality improvement to ensure that a process, item, or service is of the type and quality needed and expected by the client. |
| Quality Assurance Project Plan (QAPP) | A formal document describing the detailed quality control procedures by which the quality requirements defined for the data and decisions pertaining to a specific project are to be achieved. |

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

| | |
|---|---|
| Quality Control (QC) | The overall system of technical activities that measures the attributes and performance of a process, item, or service against defined standards to verify that they meet the stated requirements established by the customer; operational techniques and activities that are used to fulfill requirements for quality; also the system of activities and checks used to ensure that measurement systems are maintained within prescribed limits, providing protection against "out of control" conditions and ensuring that the results are of acceptable quality. |
| Quality Control Sample (QCS) | A sample used to assess the performance the measurement system. |
| Quality Manual | A document stating the management policies, objectives, principles, organizational structure and authority, responsibilities, accountability, and implementation of an agency, organization, or laboratory, to ensure the quality of its product and the utility of its product to its users. |
| Quality Management System | A structured and documented management system describing the policies, objectives, principles, organizational authority, responsibilities, accountability, and implementation plan of an organization for ensuring quality in its work processes, products (items), and services. The quality system provides the framework for planning, implementing, and assessing work performed by the organization and for carrying out required quality assurance and quality control activities. |
| Quantitation Range | The upper and lower limit to which values can be reported without being qualified as estimated. |
| Quantitative Analysis | Analysis designed to determine the amounts or proportions of the components of a substance. |
| Raw Data | The documentation generated during sampling and analysis. This documentation includes, but is not limited to, field notes, electronic data, magnetic tapes, untabulated sample results, QC sample results, print outs of chromatograms, instrument outputs, and handwritten records. |
| Record | Documentation, data, or other records constituting a piece of evidence about the past, especially an account of an act or occurrence kept in writing or some other permanent form. Records may be in electronic or hardcopy media. Unless otherwise specified, the term "record" refers to both electronic and hardcopy media. |
| Reference Material | Material or substance one or more of whose property values are sufficiently homogenized and well established to be used for the calibration of an apparatus, the assessment of a measurement method, or for assigning values to materials. |
| Reference Method | A published method issued by an organization recognized as competent to do so. (When the ISO language refers to a "standard method," that term is equivalent to "reference method"). |
| Reference Standard | Standard used for the calibration of working measurement standards in a given organization or at a given location. |
| Relative Percent Difference (RPD) | A measure of precision defined as the difference between two measurements divided by the average concentration of the two measurements. |
| Reporting Limit (RL) | The value to which test results are reported as detected or not detected. |
| Representativeness | A quality element related to the ability to collect a sample reflecting the characteristics of the part of the environment to be assessed. |
| Retention Time | The time between sample injection and the appearance of a solute peak at the detector. |
| Sample | The item submitted for testing. |
| Sampling | Activity related to obtaining a representative sample for analysis. |
| Selected Ion Monitoring (SIM) | A mode of analysis in mass spectrometry where the detector is set to scan over a very small mass range, typically one mass unit. |
| Selectivity | The ability of a method to correctly determine an analyte without interference from other compounds. |
| Sensitivity | The smallest amount of substance in a sample that can accurately be measured. |
| Serial Dilution | The stepwise dilution of a substance in a solution. |
| Standard Operating Procedure (SOP) | A written document that details the method for an operation, analysis, or action with thoroughly prescribed techniques and steps. |
| Standard Reference Material (SRM) | A certified reference material produced by the US NIST or other equivalent organization and characterized for absolute content, independent of analytical method. |

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.



| | |
|---|---|
| Stock Standard | A concentrated reference solution containing one or more analytes prepared in the laboratory using an assayed reference compound or purchased from a reputable commercial source. |
| Storage Blank | A sample of analyte-free media prepared by the laboratory and retained in the sample storage area. |
| Suitability | The quality of being appropriate for a particular purpose. |
| Surrogate | A substance with properties that mimic the analyte of interest, and unlikely to be found in environmental samples. |
| Systems Audit | An on-site inspection or assessment of a laboratory's quality system. |
| Target Analytes | Analytes or chemicals of primary concern identified by the customer on a project-specific basis. |
| Technology | A specific arrangement of analytical instruments, detection systems, and/or preparation techniques. |
| Traceability | The ability to trace the history of measuring equipment to national or international standards, primary standards, basic physical conditions or properties, or reference materials. |
| Trip Blank | A cleaned sample container filled with laboratory reagent water that is stored, shipped, and analyzed with its associated samples to detect sample contamination during transport and storage of the sample. |
| Tuning | A check and/or adjustment of instrument performance for mass spectrometry as required by the method. |
| Validation | The confirmation by examination and provision of objective evidence that the particular requirements for a specific intended use are fulfilled. |
| Verification | Confirmation by examination and objective evidence that specified requirements have been met. In connection with the management of measuring equipment, verification provides a means for checking that the deviations between values indicated by a measuring instrument and corresponding known values of a measured quantity are consistently smaller than the maximum allowable error defined in a standard, regulation, or specification peculiar to the management of the measuring equipment. |
| Working Standard | Dilution made of a stock or intermediate standard used in the analytical process. |

# 8.0 ADDENDUM: PROGRAM REQUIREMENTS

Section 8.0 provides additional requirements the locations covered by this manual are required to follow when performing work under the program. Only requirements that are not covered by the main body of the manual are listed in addendum.

## 8.1 DoD/DOE

PAS-Ormond Beach maintains accreditation for DoD/DoE Environmental Laboratory Approval Program (ELAP)

This addendum outlines additional policies and processes established by this laboratory to maintain compliance with DoD/DOE program specific requirements as outlined in the DoD/DOE Consolidated Quality Systems Manual (QSM) for Environmental Laboratories. The QSM incorporates ISO/IEC 17025 and the TNI Standard and includes additional program-specific requirements for laboratories that perform analytical testing services for DoD and DOE, and which must be followed for DoD / DOE projects.

**Section 4.2.5: Supporting Documents**

In addition to the requirements specified in Section 4.2.5, technical SOPs used for DoD/DOE testing must also include instructions for equipment and instrument maintenance, computer software/hardware, and troubleshooting.

The review frequency for technical SOPs used for DoD/DOE testing is annual, instead of every 2 years.

**Section 4.4: Review of Analytical Service Requests**

If the DoD/DOE customer requests a statement of conformity, the standard used for the decision rule must be communicated to and agreed on with the customer and identified in the final test report.

Laboratory requests to deviate from the requirements specified in the DoD/DOE QSM must be requested on a project-basis and include technical justifications for the deviation. These requests are submitted to and approved by the DoD/DOE project chemist or contractor, however name, in addition to the PAS client.

For DoD / DOE projects, will also seek clarification from the customer when the customer has requested an incorrect, obsolete, or improper method for the intended use of data; the laboratory needs to depart from its test method SOP in order to meet project-specific data quality objectives; information in project planning documents is missing or is unclear.

**Section 4.5: Subcontracting**

In addition to written client approval of any subcontractor for testing, the customer is notified of the laboratory's intent to use a subcontractor for any management system element (such as data review, data processing, project management or IT support) and consent for subcontracting is obtained approved in writing by the DoD/DOE customer and record of consent kept in the project record.

**Section 4.6: Purchasing and Supplies**

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

The laboratory procedure for records of receipt of materials and supplies used in testing also include a specification to record the date opened (DOE only).

**Section 4.9.3: Nonconforming Work**

The laboratory's procedure for client notification includes the 15-business day DoD /DOE time for notification of the problem and the 30-business day timeframe for submission of the corrective action plan or corrective actions taken. This procedure also includes the DoD/DOE requirement for AB notification of discovery.

**Section 4.13: Control of Records**

Technical Records: The laboratory's procedure for logbooks includes measures to prevent the removal of or addition of pages to the logbook (applies to both hardcopy and electronic). Hardcopy logbooks are version controlled, pre-numbered and bound. Initials and entries are signed or initialed and dated by the person making the entry and the entry is made at the time the activity is performed and in chronological order. Each page of the logbook must be closed by the last person making the entry on the page. Closure is recorded by the initial and date of the person making the last entry.

**Section 5.4.5.3.3: Limit of Detection**

For DoD/DOE the LOD is an estimate of the minimum amount of an analyte that can be reliably detected by an analytical process. For clarification, the LOD is the analyte concentration necessary to distinguish its presence from its absence. The LOD may be used as the lowest concentration for reliably reporting a non-detect (ND). The LOD is specific to each suite of analyte, matrix, and method including sample preparation.

After each DL determination, the laboratory establishes the LOD by spiking a quality system matrix at a concentration of least 2X but no greater than 4X the DL (i.e., 2X DL ≤ LOD Spike ≤ 4X DL). The spike concentration establishes the LOD and the concentration at which the LOD is verified.

The LOD is established during method validation and after major changes to the analytical system or procedure that affects sensitivity of analysis or how the procedure is performed.

An LOD study is not required for any component for which spiking solutions or quality control samples are not available. Additionally, an LOD study is not required if the laboratory does not report data below the LOQ.

The LOD must be verified on a quarterly basis. Each preparation method listed on the scope of accreditation must have quarterly LOD verifications; however, verification of all combinations of preparation and clean-up techniques is not required. Where LOD verifications are not performed on all combinations, the LOD verification is based on the worst-case combination (preparation method with all applicable cleanup steps).

The laboratory's procedure for LOD determination and verification is detailed in SOP ENV-SOP-ORB1-0124 *Determination of LOD and LOQ, most recent revision or replacement.*

**Section 5.4.5.3.4: Limit of Quantitation**

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

For DoD/DOE, the LOQ is established for each analyte-matrix-method combination, including surrogates. When an LOD is determined or verified by the laboratory, the LOQ must be above the LOD [DL<LOD<LOQ].

At a minimum, the LOQ must be verified quarterly; however, verification of all combinations of preparation and clean-up techniques is not required. Where LOQ verifications are not performed on all combinations, the LOQ verification on the worst-case combination (preparation method with all applicable cleanup steps).

The laboratory's procedure for LOQ determination and verification is detailed in laboratory SOP INSERT LOCAL SOP REFERENCE.

**Section 5.4.7: Control of Data**

The laboratory will ensure LIMS passwords are changed at least once per year.

An audit of the LIMS will be incorporated into the laboratory's annual internal audit schedule.

The laboratory will have procedures in place to notify DoD/DOE customers of changes to LIMS software or hardware configurations that may impact the customer's integrity of electronic data

**Section 5.9.1: Quality Control**

For DoD/DOE, storage blanks are essential QC to monitor the storage of samples for volatile organic analysis (VOA). The SOP for storage of VOA samples must include a contamination monitoring program based on the performance of storage blanks. (See QSM 5.3.3)

**Section 5.8.5: Sample Disposal**

For DOE projects, the record of disposal must also include how the sample was disposed and the name of the person that performed the task.

**Appendix E: Support Equipment Calibration**

Mechanical Volumetric Pipette: In addition to the quarterly verification check, pipettes used for DoD/DOE projects are checked daily before use using the same procedure and criteria specified for the quarterly check.

Water Purification System: The performance of the water purification system is checked daily prior to use in accordance with SOP ENV-SOP-ORB1-0108 *Water and Bottle Lot Testing* most recent revision or replacement.

Radiological Survey Equipment: The performance of the radiological survey equipment is checked daily prior to use is not applicable.

**Additional: (DOE):** Section 6.0 of the QSM outlines additional management system requirements for the management of hazardous and radioactive materials management and health and safety practices. The laboratory, if approved for DOE, will consult with the PAS Health and Safety Director to establish plans, policies and procedures that conform to these comprehensive specifications and incorporate these documents into the QMS.

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

## 8.2 UCMR 5

This addendum outlines additional policies and processes established by this laboratory to maintain compliance with UCMR 5 program specific requirements. These requirements are outlined in the UCMR 5 Laboratory Approval Requirements and Information Document. Data may not be uploaded to the Safe Drinking Water Accession and Review System (SDWARS) if it does not comply with these requirements.

**Section 5.8.3: Sample Receipt Checks and Sample Acceptance Policy**

Samples that are not received in a secure manner, are received in inappropriate containers, are received outside the required temperature range, are received outside the recognized holding time, are received with inadequate identification on sample containers and/or COC or are improperly preserved cannot be reported to SDWARS for UCMR compliance.

**Section 5.8.3.1: Sample Receipt Checks - Thermal Preservation**

Samples must be received at the laboratory within 48 hours of collection and must be ≤ 10oC. After arrival or within 48 hours of collection, whichever is sooner, the samples must be refrigerated at ≤ 6°C. Samples received more than 48 hours after collection are valid only if they are received at ≤ 6°C and the laboratory can obtain documentation from the client to verify that they were refrigerated between collection and shipment. Temperature requirements apply to all UCMR samples with the exception of metals by EPA 200.8.

**Section 5.9.1.1.3: Method Blank**

The method blank will be considered contaminated if the concentration of any target analyte in the method blank is greater than 1/3 the MRL for that analyte. If samples cannot be re-processed, then samples must be re-collected. Data with a failing method blank cannot be reported to SDWARS.

**Section 5.9.1.1.4: Laboratory Control Sample (LCS)**

If the LCS recovery fails, then all data for the problem analyte are considered invalid for all samples in the Extraction or Digestion Batch. Data associated with a failing LCS must not be reported to SDWARS. If the LCS surrogate or internal standard fails QC criteria, all data for the Extraction or Digestion Batch must not be reported to SDWARS.

**Section 5.9.1.1.5: Matrix Spikes (MS/MSD)**

A UCMR sample must be used as the parent sample for the MS/MSD in batches containing UCMR samples. The spike concentration of the MS/MSD must be alternated between a low- and mid-level concentration.

There are no method analyte recovery acceptance criteria specific for MS/MSD results. Data should not be rejected based on the recovery of the fortified target analytes or on the precision between the MS and MSD, provided internal standard and surrogate standard recoveries and all other QC results are valid. If surrogate or internal standard recovery fails criteria in the MS and MSD, do not report results. If one of the fortified samples fails QC, the results of the fortified sample that passes,

COPYRIGHT © 2019-2023 Pace® Analytical Services, LLC.

should be reported as the MS. The entire analysis batch does not need to be reanalyzed because of a failure of a surrogate or internal standard in MS or MSD. Recollection of the field sample is not required with a surrogate or internal standard fails criteria in the MS/MSD.

**Section 5.9.1.1.7: Surrogates**

A sample that fails QC criteria for surrogate recovery should be rerun in case a mis-injection occurred. If the sample continues to fail surrogate QC criteria, the laboratory should process a new aliquot of the sample. Typically, data for samples with failed surrogate recovery must not be reported to SDWARS.

If the surrogate recovery fails the acceptance criteria in a MB or LCS, the MB or LCS may be reanalyzed later in the Analysis Batch. If surrogate recovery fails again, all field sample results for the associated Extraction Batch are invalid and must not be reported. If the surrogate recovery fails in an MB that is needed to pass an Analysis Batch, all data for that Analysis Batch are invalid and must not be reported. If possible, the laboratory should process new aliquots of the affected samples; if this is not possible, the affected field samples must be recollected. One LCS must pass surrogate recovery within a 24-h period of analysis. If not, the samples in the Analysis Batches that correspond to that required LCS, cannot be reported.

**Section 5.9.1.1.8: Internal Standards**

If the internal standard recovery in a sample fails the acceptance criteria, then the results for the analytes that are associated with the internal standard in that sample are invalid. Data that fail internal standard criteria must not be reported to SDWARS. If possible, the laboratory should process a new aliquot of the sample; if this is not possible, the field sample must be recollected.

For an Extraction Batch or Digestion Batch, if the internal standard recoveries in a MB or LCS fail the acceptance criteria, all data for the analytes that are associated with that internal standard in that Extraction Batch or Digestion Batch are invalid and must not be reported. If the internal standard recoveries in a MB or LCS fail the acceptance criteria in an Analysis Batch, all data for the analytes that are associated with that internal standard in the Analysis Batch are invalid and must not be reported. If possible, the laboratory should process new aliquots of the affected samples.

**D. Statement of the amount of sub lab work, and staffing discussion**

The amount of subcontract Laboratory work is kept to a minimum on this ITB. Since the definition of the subcontract work is based on the number of samples we find there to be ~4900 samples on the pricing sheet. Pace will be subcontracting the following:

Giardia/Cryptosporidium to BCS Laboratory 1 Sample
Acute Bioassay to EcoAnalysts 2 samples.

Pace will clearly be below the 10 % requirement based on sample number as described in the Scope of Work section 1g on page 28 of 34 of the ITB document. This calculates <0.05% subcontract.

Pace Florida has been the incumbent laboratory for the City of Ormond beach and has plenty of capacity to continue the work under this contract as stated in ITB 2025-47. This has been proven over the years as Pace is very familiar with the needs of the City of Ormond Beach. The anticipated amount of work, by revenue, from this contract is <1% of our total workload and will be processed on time to the City of Ormond Beach.

# *WP-360 Final Report*

## WatR™ Pollution Proficiency Testing

## WatR™ Pollution Study

## Open Date: 01/21/2025

## Close Date: 03/07/2025

## Report Issued Date: 03/11/2025

ERA
A Waters Company

March 11, 2025

Lynn Baylor
Pace Analytical Services LLC - Ormond Beach
8 East Tower Circle
Ormond Beach, FL 32174

Enclosed is your final report for ERA's WP-360 WatR™Pollution Proficiency Testing (PT) study. Your final report includes an evaluation of all results submitted by your laboratory to ERA.

Data Evaluation Protocols: All analytes in ERA's WP-360 WatR™Pollution Proficiency Testing study have been evaluated using the following tiered approach. If the analyte is listed in the most current TNI Fields of Proficiency Testing (FoPT) table the evaluation was completed by comparing the reported result to the acceptance limits generated using the criteria contained in the table and the evaluation criteria contained in the 2016 TNI Standard, Volume 3. If the analyte is not included in the TNI FoPT table, the reported result has been evaluated using the procedures outlined in ERA's Standard Operating Procedure for the Generation of Performance Acceptance Limits (SOP 730002268).

Corrective Action Help: As part of your accreditation(s), you may be required to identify the root cause of any "Not Acceptable" results, implement the necessary corrective actions, and then satisfy your PT requirements by participating in a Supplemental (QuiK™Response) or future ERA PT study. ERA's technical staff is available to help your laboratory resolve any technical issues that may be impairing your PT performance and possibly affecting your routine data quality. Our laboratory and technical staff have many years of collective experience in performing the full range of environmental analyses. As part of our technical support, ERA offers QC samples that can be useful in helping you work through your technical issues.

Thank you for your participation in ERA's WP-360 WatR™Pollution Proficiency Testing study. If you have any questions, please contact our Proficiency Testing Department at 1-800-372-0122.

Sincerely,

Craig Huff
Senior Technical Manager

# WP-360 Definitions & Study Discussion

**Study Dates: 01/21/2025 - 03/07/2025** **Report Issued: 03/11/2025**

## WP Study Definitions

The Reported Value is the value that the laboratory reported to ERA.

The ERA Assigned Values are compliant with the most current TNI Fields of Proficiency Testing (FoPT) table. A parameter not added to the standard is given an Assigned Value of "< PTRL" per the guidelines contained in the 2016 TNI Standard. The assigned values are directly traceable to the commercially prepared starting materials used to manufacture the PT standards.

The Acceptance Limits are established per the criteria contained in the most current TNI FoPT table or ERA's SOP for the Generation of Performance Acceptance Limits™ as applicable.

The Performance Evaluation:

| | |
|---|---|
| Acceptable | = Reported Value falls within the Acceptance Limits. |
| Not Acceptable | = Reported Value falls outside the Acceptance Limits. |
| No Evaluation | = Reported Value cannot be evaluated. |
| Not Reported | = No Value reported. |

The Method Description is the method the laboratory reported to ERA.

## WP Study Discussion

ERA's WP-360 WatR™Pollution Proficiency Testing study has been reviewed by ERA senior management and certified compliant with the requirements of the 2016 TNI Standard and the criteria contained in the most current TNI Fields of Proficiency Testing (FoPT) table.

ERA's WP-360 WatR™Pollution study standards were examined for any anomalies. A full review of all homogeneity, stability and accuracy verification data was completed. All analytical verification data for all analytes met the acceptance criteria contained in the 2016 TNI Standard and the criteria contained in the most current TNI FoPT table.

All activities associated with this proficiency testing study were performed by Waters/ERA with the exception of those noted below. The following physical samples/products were manufactured for Waters/ERA by a subcontractor:

Microbiology products with the following catalog numbers:
880, 935, 079, 077, 080, 595, 595A, 576, 576A

The data submitted by participating laboratories was also examined for study anomalies. There were no anomalies observed during the statistical review of the data.

ERA's WP-360 WatR™Pollution study reports shall not be reproduced except in their entirety and not without the permission of the participating laboratories. The report must not be used by the participating laboratories to claim product endorsement by any agency of the U. S. government.

The data contained herein are confidential and intended for your use only.

If you have any questions or concerns regarding your assessment in ERA's WatR™Pollution Proficiency Testing program, please contact our Proficiency Testing Department at 1-800-372-0122.

# CERTIFICATE OF EXCELLENCE

In recognition of the quality of your laboratory in proficiency testing for

## WP-360

## Pace Analytical Services LLC - Ormond Beach

is issued this certificate of achievement by ERA. This laboratory has been recognized as a Laboratory of Excellence for achieving 100% acceptable data in this study which included 776 participating laboratories. This achievement is a demonstration of the superior quality of the laboratory in evaluation of the standards listed below.

| | | | | |
|---|---|---|---|---|
| 1,4-Dioxane | Acids | Base/Neutrals | Bromide | Chlordane |

Lynn Baylor
Pace Analytical Services LLC - Ormond Beach
8 East Tower Circle
Ormond Beach, FL 32174

Enclosed is your final report for ERA's WS-342 WatR™Supply Proficiency Testing (PT) study. Your final report includes an evaluation of all results submitted by your laboratory to ERA.

Data Evaluation Protocols: All analytes in ERA's WS-342 WatR™Supply Proficiency Testing (PT) study have been evaluated using the following tiered approach. If the analyte is listed in the most current TNI Fields of Proficiency Testing (FoPT) table the evaluation was completed by comparing the reported result to the acceptance limits generated using the criteria contained in the table and the evaluation criteria contained in the 2016 TNI Standard, Volume 3. If the analyte is not included in the TNI FoPT table, the reported result has been evaluated using the procedures outlined in ERA's Standard Operating Procedure for the Generation of Performance Acceptance Limits (SOP 730002268).

Corrective Action Help: As part of your accreditation(s), you may be required to identify the root cause of any "Not Acceptable" results, implement the necessary corrective actions, and then satisfy your PT requirements by participating in a Supplemental (QuiK™Response) or future ERA PT study. ERA's technical staff is available to help your laboratory resolve any technical issues that may be impairing your PT performance and possibly affecting your routine data quality. Our laboratory and technical staff have many years of collective experience in performing the full range of environmental analyses. As part of our technical support, ERA offers QC samples that can be useful in helping you work through your technical issues.

Thank you for your participation in ERA's WS-342 WatR™Supply Proficiency Testing study. If you have any questions, please contact our Proficiency Testing Department at 1-800-372-0122.

Sincerely,

Craig Huff
Senior Technical Manager

# WS-342 Definitions & Study Discussion

**Study Dates: 01/13/2025 - 02/27/2025** **Report Issued: 03/03/2025**

## WS Study Definitions

The Reported Value is the value that the laboratory reported to ERA.

The ERA Assigned Values are compliant with the most current TNI Fields of Proficiency Testing (FoPT) table. A parameter not added to the standard is given an Assigned Value of "< PTRL" per the guidelines contained in the 2016 TNI Standard. The assigned values are directly traceable to the commercially prepared starting materials used to manufacture the PT standards.

The Acceptance Limits are established per the criteria contained in the most current TNI FoPT table or ERA's SOP for the Generation of Performance Acceptance Limits™ as applicable.

The Performance Evaluation:

| | |
|---|---|
| Acceptable | = Reported Value falls within the Acceptance Limits. |
| Not Acceptable | = Reported Value falls outside the Acceptance Limits. |
| No Evaluation | = Reported Value cannot be evaluated. |
| Not Reported | = No Value reported. |

The Method Description is the method the laboratory reported to ERA.

## WS Study Discussion

ERA's WS-342 WatR™Supply Proficiency Testing study has been reviewed by ERA senior management and certified compliant with the requirements of the 2016 TNI Standard and the criteria contained in the most current TNI Fields of Proficiency Testing (FoPT) table.

ERA's WS-342 WatR™Supply study standards were examined for any anomalies. A full review of all homogeneity, stability and accuracy verification data was completed. All analytical verification data for all analytes in the standards met the acceptance criteria contained in the 2016 TNI Standard and the criteria contained in the most current TNI FoPT table.

All activities associated with this proficiency testing study were performed by Waters/ERA with the exception of those noted below. The following physical samples/products were manufactured for Waters/ERA by a subcontractor:

Microbiology products with the following catalog numbers:
880, 935, 079, 077, 080, 595, 595A, 576, 576A

The data submitted by participating laboratories was also examined for study anomalies. There were no anomalies observed during the statistical review of the data.

ERA's WS-342 WatR™Supply study reports shall not be reproduced except in their entirety and not without the permission of the participating laboratories. The report must not be used by the participating laboratories to claim product endorsement by any agency of the U. S. government.

The data contained herein are confidential and intended for your use only.

If you have any questions or concerns regarding your assessment in ERA's WatR™Supply Proficiency Testing program, please contact our Proficiency Testing Department at 1-800-372-0122.

## Report of Findings and Plans of Correction

1. ***TNI V1M2 4.13.13.a -*** The laboratory shall establish a record keeping system that allows the history of the sample and associated data to be readily understood through the documentation. This system shall produce unequivocal, accurate records that document all laboratory activities such as laboratory facilities, equipment, analytical methods, and related laboratory activities, such as sample receipt, sample preparation, or data verification, and inter-laboratory transfers of samples and/or extracts.

    *a.* The laboratory is not recording the lot number of the disposable volumetric tubes (15 mL) used to prepare the LCS, MS/MSD and sample dilutions for EPA 353.2, EPA 351.2 TKN, EPA 350.1 NH3 and EPA 365.3.
    *b.* The pH preservation verifications for SM 5310B TOC are not recorded as performed. The laboratory is only documenting when the pH preservation is not acceptable and adjusted

    REPEAT DEFICICENCY from the 2/2020 on-site assessment.

**Root Cause:**

*a.* The laboratory felt since the tubes are being volume verified prior to use that recording the lot number of the tubes used was not necessary. The finding in the 2020 audit pertained to not volume verifying the tubes. This is not a repeat deficiency from the 2020 assessment.
*b.* The laboratory was recording when the pH was out of method requirements and felt this was adequate. This is not a repeat deficiency from the 2020 assessment.

**Corrective Action Plan:**

*a.* Relevant eLog templates have been updated to allow a field to enter the lot number of the dilution tubes. For groups that do not use the eLog, the lot number will be recorded on the Batch Checklist. Laboratory personnel have been trained on this requirement.
*b.* The eLog will be updated to include a column to record the pH of each sample. The run log will be used to document the pH until the eLog can be updated by IT.

**Completion Date:** 04/30/2022

**Monitoring and Follow-up:**

The local Quality Department will follow up in 60-90 days to verify that all corrective actions have been implemented and continue to monitor the lab to ensure the information is being recorded during internal audits.

2. ***TNI V1M2 5.5.8 -*** Whenever practicable, all equipment under the control of the laboratory and requiring calibration shall be labelled, coded, or otherwise identified to indicate the date or expiration criteria when recalibration is due and the date when last calibrated.

a. The Spectrophotometer 35WTA7 used for EPA 410.4 COD and Dionex IC used for EPA 300.1, which are calibrated every 3 months, do not have a calibration label to identify the calibration status.
b. Thermometers T-88 and T-313 were labeled with an incorrect calibration status. The label indicated calibration verification was due 7 months from the last verification check.

REPEAT DEFICIENCY from the 2/2020 on-site assessment

**Root Cause:**

a. The analyst was unaware of the requirement. The information was not relayed during training. The SOP does not include the requirement for labeling the instrument.
b. There is a spreadsheet for thermometer calibrations which contained the correct reverification date. There is currently no review process for the label documentation.

**Corrective Action Plan:**

a. Calibration status labels have been added to the instruments. Relevant SOPs will be updated to document this requirement.
b. The expiration dates were corrected during the audit. A review of the current and potentially future software packages will be conducted to determine if the expiration date can be automatically calculated for the label. Until then, a review process for the labels has been instituted. The reviewer will document the review on the label.

**Completion Date:** 04/30/2022

**Monitoring and Follow-up:**

The local Quality Department will follow up in 60-90 days to verify that all corrective actions have been implemented and continue to monitor the lab to ensure continued implementation during internal audits

3. ***TNI V1M2 5.9.3.c -*** The laboratory shall ensure that the essential standards outlined in Technical Modules or mandated methods or regulations (whichever are more stringent) are incorporated into their method manuals. When it is not apparent which is more stringent, the QC in the mandated method or regulations is to be followed.

a. EPA 1311 TCLP Extraction Section 8.1 requires that a minimum of one blank (using the same extraction fluid as used for the samples) must be analyzed for every 20 extractions that have been conducted in an extraction vessel. The laboratory is not monitoring the number of extractions in each ZHE and running a blank every 20 samples.

b. The rotation of 30 ± 2 rpm required by EPA 1311 TCLP Extractions for volatiles is not being verified when used for the ZHE Rotary leaching apparatus.
c. The laboratory did not perform the Monthly HPC Air Monitoring for the month of July – October 2021 as required in SM 9020B.
d. The laboratory did not perform the Quanti-Tray sealer performance check from February 2021 through July 2021. (Standard Methods 9020 Section 5 e)

REPEAT DEFICIENCY for 3C and 3D from the 2/2020 on-site assessment

**Root Cause:**

a. The laboratory is recording the vessel used in the eLog for each batch. They are rotating the MB vessel with each batch and felt this was adequate for the requirement.
b. The laboratory assumed that the RPM was verified initially and was unaware that the RPM needed to be verified each time.
c. During the referenced time period, the media needed to perform the test was on backorder and a new technician was hired.
d. The technician performing the test at this time did not follow the procedure. There is an erasable checklist in the lab for monthly requirements and it was assumed that completing this checklist was adequate.

**Corrective Action Plan:**

a. A logbook has been created to track the MB rotation in the vessels. The SOP will be revised to include this requirement.
b. A visual aid has been created and placed on the ZHE tumbler to remind the staff to count the RPM each time the tumbler is used. The SOP will be revised to include this requirement.
c. Media was received for this test in December 2021. The technician has already been retrained and has performed this test monthly since December 2021.
d. A new technician was hired in August 2021. The technician was trained on the documentation requirements and the monthly sealer check has been performed each month since.

**Completion Date:** 04/30/2022

**Monitoring and Follow-up:**

The local Quality Department will follow up in 60-90 days to verify that all corrective actions have been implemented and continue to monitor the lab to ensure continued implementation during internal audits.

4. ***TNI V1M2 4.3.2.2.a -*** The laboratory's adopted document control procedures shall ensure that authorized editions of appropriate documents are available at all locations where operations essential to the effective functioning of the laboratory are performed.

The container for the TCLP Fluid 2 in the semi volatiles/metals extraction lab and the TCLP Fluid 1 in the volatiles extraction, both used for TCLP EPA 1311, had the fluid preparation instructions handwritten on the container.

REPEAT DEFICIENCY from the 2/2020 on-site assessment.

**Root Cause:**

The analyst thought that including the amount of each reagent used to prepare the solution would be a more accurate way of labelling its contents. The amounts are accurate per the SOP.

**Corrective Action Plan:**

The two containers in question have had the instructions removed. The Standard and Reagent Preparation SOP will be updated to document this requirement. Staff will be trained regarding this requirement.

**Completion Date:** 5/30/2022

**Monitoring and Follow-up:**

The local Quality Department will follow up in 60-90 days to verify that all corrective actions have been implemented and continue to monitor the lab to ensure continued implementation during internal audits

5. ***TNI V1M2 5.5.13.1.d -*** Temperature measuring devices shall be calibrated or verified at least annually. Calibration or verification shall be performed using a recognized National Metrology Institute traceable reference, such as NIST, when available.

The ATC probe WC-146 associated with the Mantech Auto-titrator for Alkalinity has not been verified annually for temperature accuracy.

**Root Cause:**

The thermometer for this instrument had not been calibrated. This was an oversight and miscommunication between the lab and QA.

**Corrective Action Plan:**

The thermometer has already been calibrated and has been added to the thermometer calibration spreadsheet.

**Completion Date:** 01/27/22

**Monitoring and Follow-up:**

The Quality Department will follow up in 60-90 days to confirm the thermometer is being calibrated quarterly.

6. ***TNI V1M2 5.6.4.2.d -*** All containers of prepared standards, reference materials, and reagents shall bear a unique identifier and an expiration date.

    a. The volumetric flask containing the LCS/CCV for EPA 300.0 was not labeled with an expiration date.
    b. The container of the color reagent for EPA was not labeled with an expiration date.

**Root Cause:**

a. The analyst was printing the labels out and placing them on the side. The analyst felt that this was sufficient
b. The analyst had inadvertently forgotten to place the label on the container.

**Corrective Action Plan:**

a. Staff training will be conducted to indicate the requirement of placing the labels on all containers. The Reagent and Standards Preparation SOP will be revised to include this requirement.
b. Staff training will be conducted to indicate the requirement of placing the labels on all containers. The Reagent and Standards Preparation SOP will be revised to include this requirement.

**Completion Date:** 04/30/2022

**Monitoring and Follow-up:**

The Quality Department will follow-up in 60-90 days to verify completion of the training assignment and continue to monitor the lab for labeling containers during internal audits.

7. ***TNI V1M5 1.7.3.7.b.ii.a.3 -*** The laboratory shall maintain records of autoclave operations for every cycle. Records shall include date, contents, maximum temperature reached, pressure, time in sterilization mode, total run time (may be recorded as time in and time out) and analyst's initials.

The laboratory does not consistently record the temperature for every autoclave cycle. Days where the max temperature reading was not recorded include 11/1/21, 12/9/21, 1/7/22 and 1/22/22.

**Root Cause:**

The team misinterpreted the requirement in the SOP. They felt it was only necessary to record the temperature when the thermometer changed positions (front, middle, back).

**Corrective Action Plan:**

Training has occurred to ensure that the autoclave temperature is completed each time it is used.

**Completion Date:** 03/31/2022

**Monitoring and Follow-up:**

The Quality Department will follow-up in 60-90 days to verify completion of the training assignment and continue to monitor the lab to ensure the temperature is recorded in the autoclave log during internal audits.

8. ***TNI V1M4 1.7.2.1.a -*** The method blank shall be processed along with and under the same conditions as the associated samples to include all steps of the analytical procedure.

The method blanks are not processed along with and under the same conditions as the associated sample when samples are filtered for EPA 300.0 and EPA 353. 2.

**Root Cause:**

The group was unaware of the requirement to filter the method blanks. There was no documentation in the SOP.

**Corrective Action Plan:**

The relevant SOPs are being updated to add this requirement and the team will be trained for this requirement.

**Completion Date:** **5**/30/2022

**Monitoring and Follow-up:**

The Quality Department will follow-up in 60-90 days to verify completion of the training assignment and the updating of the SOPs and continue to monitor the lab to ensure the method blanks are being filtered during internal audits.
.

9. ***TNI V1M4 1.7.2.2.1 -*** The LCS is used to evaluate the performance of the total analytical system, including all preparation and analysis steps.

The laboratory control samples are not processed along with and under the same conditions as the associated sample when samples are filtered for EPA 300.0 and EPA 353.2

**Root Cause:**

The group was unaware of the requirement to filter the laboratory control samples. There was no documentation in the SOP.

**Corrective Action Plan:**

The relevant SOPs are being updated to add this requirement and the team will be trained for this requirement.

**Completion Date:** 5/30/2022

**Monitoring and Follow-up:**

The Quality Department will follow-up in 60-90 days to verify completion of the training assignment and the updating of the SOPs and continue to monitor the lab to ensure the method blanks are being filtered during internal audits.

10. ***TNI V1M2 5.4.1*** Deviation from test and calibration methods shall occur only if the deviation has been documented, technically justified, authorized, and accepted by the customer.

When performing matrix spikes and matrix spike duplicates for EPA 504.1/EPA 8011 the laboratory uses only 20 mL of sample. This deviation is not called out in the SOP and not technically justified, authorized, or accepted by the customer.

**Root Cause:**

Insufficient volume is collected to perform the MS/MSD with the full volume of sample, so the sample was split for the QC.

**Corrective Action Plan:**

Pace SOP ENV-SOP-ORB1-0161 allows for the preparation of an MSD or Field Duplicate. Due to the lack of sample volume the process will change from MS/MSD to MS and Dup.

**Completion Date:** 03/31/2022

**Monitoring and Follow-up:**

The Quality Department will follow-up in 60-90 days to verify the prep process is including a Duplicate and MS.

11. ***TNI V1M2 5.5.13.1.c -*** On each day the equipment is used, balances, ovens, refrigerators, freezers, incubators, and water baths shall be checked and documented. The acceptability for use or continued use shall be according to the needs of the analysis or application for which the equipment is being used.

    a. Balance 35BALF was used on 12/7/21 to weigh soil samples for FL PRO. It was not checked that day for acceptability.
    b. Balance 35BALP was used on 12/14/21 to weigh soils samples for EPA 8081B. It was not checked that day for acceptability.
    c. The refrigerated trailer adjacent to the laboratory has a WiFi temperature monitoring device. The daily temperatures are supposed to be recorded in the Daily Temperature Verification Log. No entries have made since 11/27/21.

**Root Cause:**

a. Technicians were not following procedure.
b. Technicians were not following procedure.
c. The sample receiving team has many new staff members. The refrigerated trailer was used mainly for storing soil samples that have been run. The new staff incorrectly assumed it did have to have the temperature recorded. The trailer is on the continuous monitoring system.

**Corrective Action Plan:**

a. Technicians will be retrained, primary and backup technicians will be assigned for daily calibration checks, and visual signs will be placed by the balances to remind technicians each time they use the balance.
b. Technicians will be retrained, primary and backup technicians will be assigned for daily calibration checks, and visual signs will be placed by the balances to remind technicians each time they use the balance.
c. The sample receiving team will be trained regarding completing the logbook for the trailer, including accessing the continuous monitor log, if necessary.

**Completion Date: 04/30/2022**

**Monitoring and Follow-up:**

The local Quality Department will follow up in 60-90 days to verify that all corrective actions have been implemented.

12. ***V1M2 5.5.13.1.e.iii -*** Mechanical devices shall be verified prior to first use and on a quarterly basis; mechanical devices used at more than one volume shall be verified at volumes bracketing the range of use, and at the mid-point of the volumes used by the device.

Pipettor P-124 used in the extractions area had an expired volume verification. Verification was due 1/14/22.

**Root Cause:**

The technician attempted to calibrate the pipettor. The calibration failed the criteria. The technician did not follow the proper protocol for tagging the pipettor and notifying QA.

**Corrective Action Plan:**

A new pipettor will be ordered. The laboratory will be re-trained on the proper protocol.

**Completion Date:** 04/30/2022

**Monitoring and Follow-up:**

The Quality Department will follow up in 60-90 days to ensure this corrective action was completed. The calibrating of support equipment will be monitored by QA during routine internal audits.

13. ***TNI V1M2 5.5.13.1.f -*** All other support equipment shall be calibrated or verified at least annually, using a recognized National Metrology Institute, such as NIST, traceable reference when available, bracketing the range of use.

Three 1L plastic graduated cylinders were in use in the organic extractions area for measuring sample volumes. They were not uniquely identified and could not be traced to their volume verifications.

REPEAT DEFICIENCY from the 2/2020 on-site assessment.

**Root Cause:**

The laboratory did not follow the procedure stated in ENV-SOP-ORB1-0105 and as such were unaware of the requirements for identifying and calibrating the graduated cylinders.

**Corrective Action Plan:**

The graduated cylinders, P-169, P-170. And P-171, have been identified and volume calibrated.

**Completion Date:** 03/30/2022

**Monitoring and Follow-up:**

The Quality Department will follow up in 60-90 days to verify the corrective action was completed and monitor the identifying and calibrating of any new pieces of support equipment during routine internal audits.

March 18 2022

Vanessa Soto Contreras, Administrator

Re: Review of Corrective Action Plan. Recommended for Approval. Pace Analytical Services, LLC – Ormond Beach, FL CAP#1 review:

The laboratory submitted the corrective action plan (CAP1) via email on 3/11/22. The laboratory audit report was sent 2/14/22.

The CAP review included the following:

- Review of root cause (Basic root cause provided)
- Completion dates (Dates within 6 months of assessment provided)
- Follow-up to assure actions remain effective (Follow-up activities mentioned)
- Training when applicable (Included in response when applicable).

Actions for the following findings related to the report issued on 2/14/22 were reviewed:

| Finding # | Status |
|---|---|
| 1A | **Approved** |
| 1B | **Approved** |
| 2A | **Approved** |
| 2B | **Approved** |
| 3A | **Approved** |
| 3B | **Approved** |

| Finding # | Status |
|---|---|
| 3C | **Approved** |
| 3D | **Approved** |
| 4 | **Approved** |
| 5 | **Approved** |
| 6A | **Approved** |
| 6B | **Approved** |
| 7 | **Approved** |
| 8 | **Approved** |
| 9 | **Approved** |
| 10 | **Approved** |
| 11A | **Approved** |
| 11B | **Approved** |
| 11C | **Approved** |
| 12 | **Approved** |
| 13 | **Approved** |

The laboratory is recommended for approval by Paul LeBlanc.

Sincerely,

Lead Assessor

Environmental Programs, Lead Assessor

NATIONAL ENVIRONMENTAL LABORATORY
ACCREDITATION PROGRAM
ON-SITE LABORATORY ASSESSMENT REPORT
Bureau of Public Health Laboratories
Florida Department of Health
Revision 3

| | |
|---|---|
| Laboratory: | Pace Analytical Services, LLC – Ormond Beach, FL |
| Address: | 8 East Tower Circle<br>Ormond Beach, FL 32174 |
| Mailing Address<br>(if different from physical address) | same as above |
| I. D. Number: | E83079 |
| Dates of Assessment: | January 8-12, 2024 |
| Categories Assessed: | BIOLOGICAL TISSUES- Metals<br>DRINKING WATER- Group I Unregulated Contaminants, Group II Unregulated Contaminants, Other Regulated Contaminants, Group III Unregulated Contaminants, Microbiology, Primary Inorganic Contaminants, Secondary Inorganic Contaminants, Synthetic Organic Contaminants, Radiochemistry.<br>NON-POTABLE WATER- Extractable Organics, General Chemistry, Metals, Microbiology, Pesticides-Herbicides-PCBs, Volatile Organics.<br>SOLID / CHEMICAL MATERIALS- Extractable Organics, General Chemistry, Metals, Microbiology, Pesticides-Herbicides-PCBs, Volatile Organics. |
| Assessors: | Carolyn Elmore, Labtopia Inc., celmore@labtopiainc.com |

I. INTRODUCTION:

This laboratory was inspected on-site to verify compliance with Florida Administrative Code (FAC) Rule 64E-1, Certification of Environmental Testing Laboratories, which incorporates by reference the 2016 Environmental Laboratory standards adopted at The NELAC Institute (National Environmental Laboratory Accreditation Conference).

II. DEFICIENCIES:

See the accompanying DH Form 1137. Proposed corrective action plans, estimated completion dates, and original signatures and dates from responsible laboratory officials must be returned on this form to this office within 30 days of receipt of this report.

III. LABORATORY TECHNICAL DIRECTORS (Name & Title):

| | |
|---|---|
| Jeff Baylor | Project Manager 2/Technical Director |
| Mark Rustler | Technical Specialist/Technical Director |

IV. COMMENTS:

1. This on-site assessment was conducted to fulfill biennial requirements for accreditation. The laboratory's next regular on-site assessment will be due on or before January 8, 2026.

2. In addition to the Technical Directors listed above, the following staff also participated in this on-site assessment.

| | |
|---|---|
| Thomas Widera | Manager - Quality |
| Tina Buttermore | Quality Corporate |
| Megan Stacy | Client Services Manager |
| Lorraine Noronha | Client Service Manager |
| Kim Hazelwood | Supervisor- Organic Extractions |
| Rebecca Summerlot | Supervisor – DW Organic Prep |
| Jeff Dunster | SVOA DW |
| Lynn Baylor | QA Analyst |
| Trisha Kelly | General Manager |
| Jennifer Reed | VOA Supervisor |
| Mike Vader | Sales |
| Ryan Brown | QA Analyst |
| Abigail Szczepanek | VOA Analyst |
| Kaitlynn Pike | SVOA LC Analyst |
| Dondi Tabora | Organic Extractions |
| Kieran Willams | Organic Extractions |
| Derek Campbell | Organic Extractions |
| Thomas Lindsey | Organic Extractions |
| Henry Agudelo | Organic Extractions |
| Ed Osgood | SVOA Dept Manager |
| Patricia Cooper | SVOA Analyst |
| Connie Ketzeback | SVOA Analyst |
| Sean Lyons | SVOA Analyst |
| Steven Mosher | SVOA Analyst |
| Tristan Robb | Organic Extractions |
| Wriley White | SVOA Analyst |
| Brittany Holland | SVOA Analyst |
| Thomas Cevallos | SVOA Analyst |
| Scott Rampenthal | SVOC PFAS Analyst |
| Anna Duhaime | VOA Analyst |
| Mercedes Berekvist | Operations Manager |
| Stearly Bethune | Wet Chem Analyst |
| Adam Smith | Wet Chem Analyst |
| Melisa Dickson | Wet Chem Analyst |
| Jill Knazur | Wet Chem Analyst |
| Lela Crandell | Metals |
| Kevin Chen | Metals |
| Nick Connors | Metals Digestions |
| Jackie Kamenszky | Metals |
| Hazel Aranda | Metals Supervisor |
| Cherise Bideau-Lead | Wet Chem Analyst |
| Amber Fluri | TCLP Extractions |
| Jennifer Romero | TCLP Extractions |

| | |
|---|---|
| Lindsey Levesque | Wet Chem Analyst |
| Jordan Holmes | Wet Chem Analyst |
| Adam Smith | Wet Chem Analyst |
| Heath Vincent | Wet Chem Analyst |
| Jesse Bateman | Wet Chem Analyst |
| Nicole Torres | Wet Chem Supervisor |

3. The Quality Manual reviewed at the laboratory during this assessment was revision 5, with an effective date of January 31, 2023.

4. The qualifications and documentation including transcripts, curriculum vitae and work history were reviewed at the laboratory for Jeff Baylor and Mark Rustler. They were determined to meet the NELAC requirements to be the Technical Directors for this laboratory facility.

5. At the laboratory's request, certification has been relinquished voluntarily for the following analytes and test methods that are no longer in routine use, effective on January 12, 2024:

| ANAYTES | TEST METHODS | MATRIX |
|---|---|---|
| n-Hexane | PACE SOP S-FL-O-037/GC-MS | Non-Potable Water |
| n-Hexane | PACE SOP S-FL-O-037/GC-MS | Solid and Chemical Materials |
| Tetrahydrofuran (THF) | EPA 8260D | Solid and Chemical Materials |
| Methoxychlor | SM 6630 C | Non-Potable Water |

6. Based on application to the Florida Department of Health dated November 28, 2023, acceptable proficiency testing, and this on-site assessment, certification can be recommended for the following analytes and test methods. Effective date of their certification will be no earlier than when acceptable Plans of Correction to deficiencies cited in this report and payments of on-site assessment expense fees are received:

| ANAYTES | TEST METHODS | MATRIX |
|---|---|---|
| Phosphorus, total | EPA 6010D | Solid and Chemical Materials |

7. The laboratory is accredited for Drinking Water Total coliforms and E. coli, however, they are not sure the program/rule they are reporting the results. The laboratory should be familiar with the reporting requirements of all clients receiving its' results/reports.

8. The deficiencies that were identified during the previous on-site assessment were found to be corrected during this on-site assessment except for findings #1 and # 2 listed in the attached FL DH Form 1137.

   Deficiencies #1 and # 2 constitute repeat occurrences of deficiencies that were cited during the previous on-site assessment(s) that was conducted on January 25 - 27, 2022. Failure to correct deficiencies with corrective action plans and to maintain correction of such deficiencies constitutes violations of Sections 403.0625(4) and 403.863(4) of the Florida Statutes, from which fines and administrative penalties may be imposed.

Along with the proposed Plans of Correction to Deficiencies #1 and # 2 to be submitted on FL DH Form 1137 (included with this report), the laboratory must submit supporting documentation to this office within 30 days to demonstrate that each of these repeat deficiencies is now corrected. Failure to submit this documentation within the indicated deadline jeopardizes the laboratory's certification for all the Fields of Accreditation that are affected. At a minimum this supporting documentation must include the following:

#1-Please submit evidence of completed corrective action and training.

#2-Please submit evidence of temperature verification for the SV-6 ATC probe.

V. CONCLUSIONS:

With the exception of repeat deficiencies documented in Comment 8 of this report, the laboratory's personnel, procedures, equipment, facilities, and quality system are currently in compliance with the requirements of FAC Rule 64E-1 and the 2016 NELAC Standards. If the deficiencies listed in Section II are corrected and the supporting documentation required in Comment 7 are submitted within 30 days of this report and are determined acceptable, certification and data acceptance are recommended for Fields of Accreditation in the following categories:

BIOLOGICAL TISSUES- Metals
DRINKING WATER- Group I Unregulated Contaminants, Group II Unregulated Contaminants, Other Regulated Contaminants, Group III Unregulated Contaminants, Microbiology, Primary Inorganic Contaminants, Secondary Inorganic Contaminants, Synthetic Organic Contaminants, Radiochemistry.
NON-POTABLE WATER- Extractable Organics, General Chemistry, Metals, Microbiology, Pesticides-Herbicides-PCBs, Volatile Organics.
SOLID AND CHEMICAL MATERIALS- Extractable Organics, General Chemistry, Metals, Microbiology, Pesticides-Herbicides-PCBs, Volatile Organics.

The above categories are referenced in 64E-1.007, Florida Administrative Code.

**Instructions for Providing Corrective Actions Related to FL DH1137**
**Supplied by Labtopia Solutions**

Please Read and Follow these instructions.

1. Corrective actions are to be competed and submitted to Labtopia Solutions to the lead assessor and to FLAUDIT@labtopiainc.com by email. All information is to be sent electronically. If there is a problem with file size, email the assessor.
2. Acknowledge receipt of the report and findings by email to the lead assessor and to FLAUDIT@labtopiainc.com within **7 days** of receipt. This does not mean you agree with the findings but simply received the report.
3. For each finding provide the following in your response:
    a. Root cause analysis
    b. Identification of impacted client data, if applicable
    c. Corrective Action
    d. Scheduled corrective action plan, if applicable
    e. Training of applicable personnel regarding the corrective action
    f. Proof of completion for any repeat findings. Proof is not needed for first time findings. Proof of correction of all findings will be examined during the next FLDOH assessment.
    g. Follow-up to ensure the corrective action is effective.
4. Two copies of the DH 1137 are provided. One is a pdf and the other in Word. The Word form can be used to enter the information. The following **must be on the DH1137:**
    - Signature of the laboratory representative on each page of DH1137. Electronic signatures are acceptable. The form must be signed by the responsible laboratory representative.
    - Dates of completion of the corrective actions entered into column #4. Dates cannot be longer than 6 months from the last day of the audit without special state dispensation.
    - **Either** the root cause/corrective action chosen **or** a 'see attachment' with the completed form/spreadsheet/document used by your laboratory to document the full corrective action process to include but not limited to: root cause, action selected, training as applicable, follow-up at a later date after actions are implement to assure the corrective action solved the problem. Ensure all pages of the attachment are identified with the audit date and finding number (e.g., Audit 01-12-2014, Finding #1, page x of y)
5. Do **NOT** renumber findings. Use the finding # in Pre-fix tag, column #1 of DH1137. The corrective action plan (CAP) must use these numbers on any forms, proof of correction or reference to the finding.
6. Only **two (2) attempts** to address findings are allowed per TNI. The first CAP response must be received within **30 days** of receipt of the report. Please send via email to FLAUDIT@Labtopiainc.com and the assessor. Include Laboratory Name, E# and "CAP1 or CAP2 Response".
7. Reply to each finding. If the same proof is used for two or more findings, say see previous finding #XXX to refer to other finding attachments.
8. You must present reasonable dates for completion and time frames. Per TNI all actions must be completed within 6 months of the receipt of the assessment report.
9. If you do not concur with any of the findings stated, present rationale to support this position either on the form or in the attachment with the applicable finding #.
10. Labtopia Solutions will review your responses; provide any feedback via letter emailed to you. If a second response is needed, title the email CAP2 in the subject and title all file names to begin with CAP2.
11. Labtopia Solutions does not make the accreditation decisions. FLDOH makes the decisions based on the reports and CAPS and any other information needed.
12. You will be copied on the CAP review letters sent to FLDOH.

If you have questions email the assessor and JMensingh@labtopiainc.com

## Report of Findings and Plans of Correction

1. ***TNI V1M2 5.6.4.2.d –*** All containers of prepared standards, reference materials, and reagents shall bear a unique identifier and an expiration date.

   The volatiles GCMS 35MSVG autosampler Internal Standard/Surrogate reservoirs are not labeled with the identification and expiration date of its contents.

   REPEAT DEFICICENCY from the 1/2022 on-site assessment.

**Root Cause:**

The current staff responsible for making the standards did not know that a label needed to be placed on the instrument. The trainer did not pass this knowledge on.
.

**Corrective Action Plan:**

The current staff will be trained on the requirement. This requirement will be added to both the 524.2 and 8260 SOPs to ensure future staff will also know the requirement.

**Completion Date:** 04/30/2024

**Monitoring and Follow-up:**

The local Quality Department will follow up in 60-90 days to verify that all corrective actions have been implemented and continue to monitor the lab to ensure the information is being recorded during internal audits.

2. ***TNI V1M2 5.5.13.1.d –*** Temperature measuring devices shall be calibrated or verified at least annually. Calibration or verification shall be performed using a recognized National Metrology Institute traceable reference, such as NIST, when available

   The ATC probe associated with pH meter SV-6 has not been verified annually for temperature accuracy.

   REPEAT DEFICIENCY from the 1/2022 on-site assessment

**Root Cause:**

The analyst was unaware of the requirement and did not properly request QA to add the pH meter and probe to the equipment list when received. This would have alerted QA to temperature check the ATC.

**Corrective Action Plan:**

The lab staff will be trained on the proper procedure for requesting new equipment be added to the equipment list, so QA will then know if there is an ATC that needs to be calibrated.

**Completion Date:** 04/30/2024

**Monitoring and Follow-up:**

The local Quality Department will follow up in 60-90 days to verify that all corrective actions have been implemented and continue to monitor the lab to ensure continued implementation during internal audits.

3. ***TNI V1M2 4.14.5.c –*** The internal audit schedule shall be completed annually.

   The technical observation portion of the EPA 533 internal audit for September 2023 was not performed or rescheduled.

**Root Cause:**

The internal auditor had difficulty scheduling with the lab to have the analysis observed and then it fell off the radar and was not rescheduled.

**Corrective Action Plan:**

The internal auditors will be retrained on monitoring the internal audit schedule for audits to be completed and to alert the QM if the schedule cannot be met. The QM will monitor the internal audit schedule monthly to ensure all assigned audits have been completed or are rescheduled.

**Completion Date:** 04/30/2024

**Monitoring and Follow-up:**

The QM will monitor the internal audit schedule monthly to ensure all scheduled audits are completed or rescheduled if necessary.

4. ***TNI V1M2 4.13.3.a -*** The laboratory shall establish a record keeping system that allows the history of the sample and associated data to be readily understood through the documentation. This system shall produce unequivocal, accurate records that document all laboratory activities such as laboratory facilities, equipment, analytical methods, and related laboratory activities, such as sample receipt, sample preparation, or data verification, and inter-laboratory transfers of samples and/or extracts.

   a. The batch preparation does not include the record of the residual chlorine test result, only the lot number of the chlorine strips is recorded. It does not indicate whether residual chlorine was present or absent.
   b. The identification of the pH probe associated with pH meter SV-6 is not recorded in the calibration log, equipment log, or LIMS.
   c. The GC column serial numbers are not recorded for Semivolatiles for instruments 35MSSL, 35MSSC, and 35MSSH.

d. The TCLP EPA 1311 preparation record and extraction log for lot 351806 did not include the final pH of Fluid #1 on the date prepared or the date used. The pH was listed on the container but not included in a permanent record.

**Root Cause:**

a. The laboratory was only documenting if the chlorine was positive on the run log. They thought this was sufficient.
b. The analyst was unaware of the requirement and did not properly request QA to add the pH meter and probe to the equipment list when received.
c. The analysts knew that new columns needed to be documented in the maintenance log but were not aware that the serial number needed to be included.
d. The staff felt it was sufficient to only record the initial pH on the carboy and that the subsequent pH checks were placed in the eLog.

**Corrective Action Plan:**

a. Each test of chlorine will be manually documented on the run log, whether absent or present. An investigation will be done to see if a column can be added in Target for the chlorine result.
b. The lab staff will be trained on the proper procedure for requesting new equipment be added to the equipment list, so QA will then know to add the equipment and produce labels for the equipment.
c. The staff will be trained on the requirement to add the serial number in the maintenance log for when a new column is installed.
d. The initial pH will be recorded in the notes section of the Standard log.

**Completion Date:** 04/30/2024

**Monitoring and Follow-up:**

The local Quality Department will follow up in 60-90 days to verify that all corrective actions have been implemented and continue to monitor the lab to ensure continued implementation during internal audits.

***5. TNI V1M4 1.7.1.1.n –*** Initial Calibration Verification (ICV): All initial calibrations shall be verified with a standard obtained from a second manufacturer or a separate lot prepared independently by the same manufacturer.

The calibration for EPA 515.3 analysis on 12/28/23 was not verified with a standard from a second source or preparation lot. The standard log record traces the stock of both the ICAL and ICV to stock standard 3513060.

**Root Cause:**

Due to low stock for one source, the sources used for calibration and ICV were switched, but the containers were not relabeled which resulted in wrong vials being used.

**Corrective Action Plan:**

Staff will be trained on the requirement for using separate sources for calibration and ICV. Secondary review will be performed on the preparation of the standards prior to use.

**Completion Date:** **4**/30/2024

**Monitoring and Follow-up:**

The local Quality Department will follow up in 60-90 days to verify that all corrective actions have been implemented and continue to monitor the lab to ensure continued implementation during internal audits.

6. ***TNI V1M2 4.2.8.5 –*** Laboratories shall maintain SOPs that accurately reflect all phases of current laboratory activities, such as data integrity, corrective actions, handling customer complaints, and ll methods.

   The laboratory SOP ENV-SOP-ORB1-0165 v02 for FL-PRO states that the retention time window studies will be performed on an annual basis, however, there are no records of annual RT studies for 2022 and 2023.

**Root Cause:**

This was an oversight by the laboratory.

**Corrective Action Plan:**

A tracking template for the retention time window studies will be created to allow for easy tracking and oversight of this process.

**Completion Date:** 04/30/24

**Monitoring and Follow-up:**

The local Quality Department will follow up in 60-90 days to verify that all corrective actions have been implemented and continue to monitor the lab to ensure continued implementation during internal audits.

7. ***TNI V1M2 5.4.1 –*** Deviation from test and calibration methods shall occur only if the deviation has been documented, technically justified, authorized, and accepted by the customer.

During the TSS SM2540 D demonstration, the analyst did not rinse the filter with 3 successive volumes of ≥ 10 mL of DI water, allowing complete drainage between washings at stated in ENV-SOP-ORB1-0101 v04. The analyst only rinsed with a single 10 mL volume of DI water.

**Root Cause:**

The technician was not following the process detailed in the SOP.

**Corrective Action Plan:**

Training will occur to detail the exact process for filtering and rinsing for TSS analysis. The SOP R&A will be reassigned to all technicians doing TSS analysis. An internal audit will be performed for this analysis in March, where additional training by QA will take place.

**Completion Date:** 04/30/2024

**Monitoring and Follow-up:**

The local Quality Department will follow up in 60-90 days to verify that all corrective actions have been implemented and continue to monitor the lab to ensure continued implementation during internal audits.

.

March 21 2024

Vanessa Soto Contreras, Administrator
Florida DOH Environmental Laboratory Certification Program
Bureau of Public Health Laboratories
Division of Disease Control and Health Protection

Re: Review of Corrective Action Plan. Recommended for Approval. Pace Analytical Services, LLC – Ormond Beach, FL E83079: CAP#1 review:

The laboratory submitted the corrective action plan (CAP) via email on March 7, 2024. The laboratory audit report was sent February 9, 2024.

The CAP review included the following:

- Review of root cause (Basic root cause provided)
- Completion dates (Dates within 6 months of assessment provided)
- Follow-up to assure actions remain effective (Follow-up activities mentioned)
- Training when applicable (Included in response when applicable).

Actions for the following findings related to the report issued on February 9, 2024 were reviewed:

| Finding # | Status |
|---|---|
| 1 | **Approved** |
| 2 | **Approved** |
| 3 | **Approved** |
| 4 | **Approved** |
| 5 | **Approved** |
| 6 | **Approved** |

| Finding # | Status |
|---|---|
| 7 | **Approved** |

The laboratory is recommended for approval by Carolyn Elmore.

Sincerely,

Carolyn Elmore

Environmental Programs, Lead Assessor

## G. description of the laboratory and relevant experience

## Statement of Capabilities

Pace Florida has been incumbent for >10 years with great service to the City of Ormond Beach and would be pleased to continue this service. The City of Ormond Beach required project management, sample courier, field sampling, and short hold-time analytical services will be provided by the Pace Ormond Beach Laboratory located at 8 East Tower Circle, Ormond Beach, FL 32174. This laboratory is located a few miles from the City's water and Wastewater plants. Samples are received by Pace Ormond Beach daily and logged into its Laboratory Information Management System (LIMS). The Ormond Beach laboratory is open 24/5 Monday-Friday and 12/2 Saturday/Sunday, so when samples arrive they go right into sample preparation/extraction for processing. Pace Analytical maintains a comprehensive list of certifications and methodologies throughout its 50 laboratories. 21 Pace laboratories are certified by FDOH/NELAP, providing significant back-up laboratory capacity in the event of an emergency response or major up surge in City requirements. Since all Pace labs operate on the same Laboratory Information Management system (LIMS) when work is shared between Pace labs the client receives one report, EDD, and its primary lab PM remains its sole source of contact.

Pace Analytical Services, LLC (Pace Analytical) was established in 1978. We are a privately held, full service sampling and analytical services firm operating a network of 50 environmental laboratories and 48 service centers nationwide, plus 8 Life Sciences laboratories. All of our full-service environmental laboratories are NELAC accredited. Our laboratories utilize U.S. EPA, ASTM, Standard Methods, NIOSH, and other accepted test procedures and methods, in accordance with federal and state regulations.

The company consists of two divisions: Environmental and Life Sciences. Analytical testing and related services include analytical chemistry, on-site field sampling, product and material testing, microbiology services, medical device and drug-device combination product testing, professional laboratory staffing, and lab equipment sales and services. Pace Analytical Services, LLC maintains a comprehensive list of certifications and methodologies throughout our laboratories. In addition to offering full service environmental analytical services, Pace Analytica Services, LLC provides specialty environmental testing services.

Pace Florida provides comprehensive environmental laboratory services from its Ormond Beach location. The Pace Florida laboratory was expanded to 20,000 square feet and completely renovated in 2010 and expanded again to add 10,000 more square feet in 2017. In addition, at that time the operation began operating on a 24 hour a day schedule Monday through Friday, and 12 hour a day schedule on Saturday and Sunday. As a result the average turnaround time for mainstream parameters is less than our industry competitors.

Pace Florida provides field sampling and laboratory testing services to numerous Municipal and Solid Waste facilities around the state. All analytical services and field services associated with the City of Ormond Beach will be completed at our Ormond Beach, FL facility to include support from our sister labs and subcontractor labs.

Pace agrees to the Scope of Services section and requirements of this ITB with the following exceptions.

1) Radiochemistry may take 4-6 weeks for completed data depending on the workload of the PA lab.
2) Dioxin may take up to 3 weeks for complete data.

In addition to offering full service environmental analytical services, Pace Analytical provides the following specialty environmental testing services:

- Dioxin / Furan
- Biota
- Air Toxics
- Mobile Lab
- Microbiological
- Mixed Waste Characterization
- Field Sampling and Analysis
- Environmental Forensics
- PFAS by 537.1 and 533 for DW
- Aquatic Toxicity / Bioassay
- Radiochemistry
- Low Level Mercury Analysis
- Vapor Intrusion
- PCB Congeners
- On-Site Gas Phase FTIR
- Drinking Water Analysis
- Stack Testing
- PFAS by 1633 for all NP matrices and solids

Pace is currently the lab contractor for, among others:

- Palm Beach County
- Miami-Dade County
- Martin County
- Brevard County
- Collier County
- Palm Beach County
- Volusia County
- Sarasota County
- Lake County

Pace Florida Instrumentation:

- 25 Gas Chromatograph/Mass Spectrometer Systems
- 17 Gas Chromatograph Systems
- 5 High Pressure Liquid Chromatographs
- 3 Liquid Chromatograph-Mass Spectrometer/Mass Spectrometer System
- 7 Lachat Automated Analyzers
- 3 Inductively Coupled Plasma/Mass Spectrometer Systems
- 4 Inductively Coupled Plasma Systems
- 1 Mercury Analyzers
- 10 Ion Chromatographs
- 2 TOC Analyzers

A strength of Pace's is the production of Florida Drinking Water forms and Electronic Data Deliverables (EDDs). Pace has automated this process as much as it can be automated and delivers EDDs within a day of final report generation. Pace is the only national laboratory company that has every lab operating on a uniform Laboratory Information Management System (LIMS). This system coupled with PacePort enables clients and Pace Project Managers to accurately schedule and modify client accounts and projects. PacePort is Pace's password protected website that provides clients with access 24/7 to their data and other tools:

- Access to all records such as final reports, drinking water forms, chain-of-custodies, invoices, and preliminary data
- Automated and customized container ordering, and COC creation
- Immediate notification of sample receipt and itemized sample log-in information
- Automated notification of exceedances of action and permit limits
- Automated creation of EDDs such as ADaPT customized to your specifications and formats
- Rush project tracking
- Automated delivery of reports and EDD's via email to multiple addresses
- Indefinite historical retention of all data

Our Management Team and Department Managers have on average at least 20 years of experience in the analytical testing arena, which gives us a clear understanding of how to work with clients like City of Ormond Beach with environmental needs in multiple disciplines.

Pace Florida has been the incumbent laboratory for the City of Ormond beach and has plenty of capacity to continue the work under this contract as in the ITB.

## I. Org Chart and Resumes of key staff

Pace's primary Project Manager for the City of Lauderhill will be Matthew Cichon. City personnel will call and/or email Mr. Cichon for any requirements regarding sample courier and field sampling service, sample status, rapid turnaround time requirements, quality assurance questions, report and invoice questions, and any other questions related to Pace performance under the contract. Pace's customer services are second to none. Our dedicated PM will handle all your needs when they arise and if he needs help, he can rely on his boss Lorraine Noronha, whose resume is included later in this document, our Customer Service Manager in the Florida lab. Lorraine has also assigned teams of Pace PM's that support each other when Mr. Cichon is out of the office, so you are never left alone. Complaints can be made directly to Mr. Cichon but if they are not resolved to your satisfaction, you can always call Mike Valder, the Senior Account Executive who is preparing this RFP, for additional support. We will involve the Management team to gain a proper resolution. Mr. Cichon's resume is below:

# 35 – Pace Florida

VP Sales = Justin Hall
Director Sales = Dave Chaffman
Sr. Account Exec = Michael Valder
Account Exec = Open
Account Exec (Inbound) = DJ Kapadia

Director Sales = David Chaffman
Sales Manager= David Chaffman
Sr. Account Exec = Neshmah Castaneda
Sr. Account Exec = Megan Lantry

Rev: 03/01/2024

**Mathew Cichon**
**Project Manager, Florida**

**Education**
Bachelor of Science, Biology, University of Pittsburgh, 2020

**Experience**

Mr. Cichon has several years of environmental analytical experience in Wet Chemistry methods; he is well versed in Drinking and Waste Waters methods. His expertise includes Cyanide, Total Phosphorus, Total Organic Carbon, and many short hold tests. As an analyst, he was responsible for prioritizing multiple methods for regulated holding times and project required turnaround times. The analytical experience provided a solid foundation as Mr. Cichon transitioned from operations to a client services role as a Project Manager.

In his current role, Mr. Cichon serves as the primary point of contact for clients; he works with all aspects of the project's flow, from project inception, sample kits, field sampling, sample receipt, reporting, and final deliverables. As a Project Manager, he provides project updates, communicates technical or logistics issues as a conduit to both the client and Pace operations, works on resolutions, and meets client and project expectations. He is experienced with managing projects across the country for a variety of matrices and a wide analytical scope. Mr. Cichon is well versed with the quality, certification, and regulatory needs of projects, thus providing technical support to clients for the duration of the project.

**LORRAINE NORONHA**
**CLIENT SERVICES MANAGER, FLORIDA**

## EDUCATION

BA, Chemistry, Florida Atlantic University, 1993
MBA, Georgia Southern University, 1999
CPC, American Association of Professional Coders, 2015
DHSc, Nova Southeastern University, 2022

## EXPERIENCE

Ms. Noronha has extensive experience in analytical and environmental chemistry, serving in multiple capacities, including positions as a bench Chemist and Operations Manager, Technical and Corporate Quality Director, Director of Business Development, Sales Manager, and as President of a national DoD laboratory. Her 24-year plus broad industry knowledge and experience includes method development and analysis; development, expansion, and implementation of training programs; oversight of corporate quality systems; leadership and management of sales and client facing teams; mentoring and developing key staff and personnel; and strategic planning and implementation of best practices across various departments and levels.

From 2015 to 2022, Ms. Noronha worked in the health care industry in a variety of leadership and client facing roles and most recently as the VP of Operations; she returned to her core passion for environmental chemistry and her prior employer Pace in November of 2022 as the Client Services Manager for Pace Florida, which includes offices in Ormond Beach, Tampa, Pompano Beach, Jacksonville, and Tuscaloosa. In her current role, Ms. Noronha strategically works to recruit, manage, train, and retain personnel within the client services team and collaborates with all internal and external stakeholders in best practices and logistics related to excellence in the delivery of products to clients.

To the Pace team, Ms. Noronha brings many years of knowledge and expertise in environmental methods, regulatory and compliance protocols, leadership and management skills, a customer centric approach to client services, a passion for effective and efficient production operations systems, and relevant educational and professional experiences across industries and companies.

**TRISHA L. KELLY**
**General Manager**

## EDUCATION

B.S. Biology (Radford University, 2003)

## RELEVANT EXPERIENCE

Ms. Kelly is responsible for overseeing the management of the entire laboratory to include client services, semi-volatiles, volatiles, wet chemistry, metals, and extractions. She is responsible for adhering to quality protocol as well as P&L for the Florida Business Unit.
Other responsibilities include engaging staff; Presenting meaningful information to stakeholders; Continuously looking for ways to improve quality and or efficiency; Working closely with sales for new business opportunities and growth; Assisting the lab as well as clients with any specific issues or needs that may arise.

Ms. Kelly has over 21 years of environmental laboratory experience. This includes work as an analyst in Wet Chemistry and Microbiology as well as prepping samples in metals; Inorganic manager, where she managed both Wet Chemistry and Metals; Semi volatiles / UCMR manager, where she managed the UCMR program and the DW methods in Semi- Volatiles; and Operations manager, where she had oversight over the Ormond Beach Laboratory Operations, managing 9 direct supervisors/managers, and approximately 130 indirect staff. She is knowledgeable in many analytical protocols and methods, as well as lab management. In April 2022, she became the General Manager of the Florida Business Unit.

**MERCEDES BERGKVIST**
**OPERATIONS MANAGER**

## EDUCATION

California State University, Sacramento: 2012

## EXPERIENCE

Ms. Bergkvist joined Pace Analytical Services in 2018 and has more than 10 years of laboratory experience. She is currently serving as the Operations Manager, responsible for all laboratory operations. She is responsible for providing or overseeing various areas of the laboratory including sample analysis, testing services, budget management, and laboratory policies and practices. She is also responsible for providing feedback, direction, and guidance to employees and management, using professional and technical knowledge of environmental, biological, chemical, and related sciences. Her job duties include:

- Oversees and supervises laboratory staff including hiring, training, performance evaluation, and performance management.
- Manages broad areas of the operations including sample testing, scheduling, inventories, communication, and overall coordination of the lab.
- Responsible for overseeing laboratory operations for the Wet Chemistry, Metals, Semi-volatiles, Volatiles, and Organic Extractions departments and methods.

**Instrumentation/methodologies:** Gas Chromatography, IC, ICP, ICPMS, GCMS, LCMSMS, and High Performance Liquid Chromatography.

**THOMAS WIDERA**
**QUALITY MANAGER, FLORIDA**

## EDUCATION

B.A. in Chemistry (SUNY Potsdam, 1988)

## EXPERIENCE

Mr. Widera has over 33 years of experience in the environmental industry in both the analytical and regulatory sectors. He is currently Pace's Quality Manager for the Florida Region. This includes maintaining regulatory compliance, data validation, laboratory analytical protocols, quality assurance documentation and conformance to quality criteria. He serves as a liaison between Pace Analytical-Florida and state/federal regulatory agencies on quality control and compliance issues. Mr. Widera provides technical support to laboratory operations and clients regarding methodology and project QA/QC requirements.

Mr. Widera is an experienced chemist. His background includes roles as Product Manager and Technical Manager for a Proficiency Testing Provider; Metals Manager, Laboratory Manager, and Analyst for laboratories performing microbiological, inorganic, and organic methods; data validator, QAPP writer, lab auditor, and field sampler for the EPA Region 1 ESAT Team.

Mr. Widera has a B.A. Degree in Chemistry from SUNY Potsdam. He currently maintains membership with The NELAC Institute and the Florida Society for Environmental Analysts.

**Kimberly Hazelwood**
**Organic Prep Supervisor**

**Education**
BS in Fish and Wildlife conversation (University of Illinois)

**Experience**
Kimberly Hazelwood has 6 ½ years of experience in the environmental industry. She has worked in organic prep and the project management group. She has worked through multiple UCMR programs and method development. She has been in her current position for 2 years.

**REBECCA SUMMERLOT**
**ORGANIC EXTRACTIONS SUPERVISOR**

## EDUCATION

B.S., Biology (Stetson University, 2015)

## EXPERIENCE

Ms. Summerlot joined Pace in 2017. She started as a laboratory tech 1 for 1 year, moved to a laboratory tech 2 for a few months, then was promoted to a team leader until January 2020 when she was promoted to the drinking water organic extractions supervisor. She has also been the Extraction's safety officer since 2018 and in charge of all ordering for the Organic Extractions department (both environmental and drinking waters) since 2019. She has experience extracting 515.3, 549.2, 548.1, 525.2, 508.1, 505, 608.3, 8270 Full list, 8270 PAH, FL-PRO, 8141, 8081, 8082, and
6630C.

rebecca.summerlot@pacelabs.com
8 East Tower Circle, Ormond Beach, FL 32174

**Scott Rampenthal**
**Lab Analyst 3**

**EDUCATION**
BS, University of Miami (FL), 1973

**RELEVANT EXPERIENCE**
Mr. Rampenthal joined Pace Analytical Services in 2018 He is currently serving as the Lab Analyst 3. He is responsible for the analysis of organic samples. His job duties include:
LC/MS/MS analysis for UCMR4
GC/MS analysis for UCMR4
Data Review and Validation

**Previous Experience**
Prior to joining Pace, Mr. Rampenthal worked at Orange County Utilities. His job duties included:
Management of TNI accredited environmental laboratory in support of Orange County Utilities operations
Developed methods using GC/MS/MS and LC/MS/MS instrumentation

**Instrumentation** Agilent 7890/5975, Agilent Intuvo 9000/5977B, Agilent 7010 QQQ, Thermo Electron Vantage LC/MS, Dionex 5000+ Ion Chromatograph

**JENNIFER REED**
**SUPERVISOR, ORMOND BEACH VOLATILES LAB**

**EDUCATION**
A.A Biology (Daytona State University, 2000)

**EXPERIENCE**
Mrs. Reed has over 15 years of experience in the environmental industry as both a technician and an analytical scientist. She is currently Supervisor of the Ormond Beach Volatiles lab. This includes maintaining SOPs, MDLs and DOCs, data validation, laboratory analytical protocols, quality assurance documentation and conformance to quality criteria. Mrs. Reed provides support and guidance to laboratory operations and helps to maintain instrumentation in the lab.

Mrs. Reed started her career in the environmental industry as a technician in organics prep, after which she moved on to be a semi-volatiles analytical scientist, and eventually into volatiles also as a scientist. The varied training she has received during this time helped to prepare her for her current leadership role.

Mrs. Reed has a A.A. degree with focus hours in Biology from Daytona State University.

**EDWARD OSGOOD**
**SEMI-VOLATILES ENVIRONMENTAL MANAGER**

## EDUCATION

B.S. Chemistry (Rollins College, 2006)

## EXPERIENCE

Mr. Osgood has been in the environmental industry since 2006 when he started working for ELAB, Inc. as part of the Semi-Volatiles department. He joined Pace Analytical in 2008 and continued his work in the same department. In this role, Mr. Osgood was responsible for the evaluation and processing of client samples as well as instrumental troubleshooting and routine maintenance. As needed his responsibilities also included the development and establishment of in-house testing parameters for new methodology and instrument technology. Instrumental experience includes GC with ECD, FID, and NPD variances though he is predominantly proficient in GC-MS experience with testing in SW-846 methodology as well as drinking water and UCMR3 testing methods. He has also served as both the Safety and Hazardous Waste Officer within the laboratory ensuring compliance with all company, state, and federal regulations.

In July 2017 Mr. Osgood transitioned into the Quality Assurance Manager position and had the responsibility to ensure that the Quality Systems in the Ormond Beach laboratory of Pace Analytical Services, LLC. was fully implemented and followed in order for the laboratory to achieve established standards of quality. He provided guidance and direction to the laboratory in conjunction with corporate goals and guidelines set by the EPA, NELAC, and various other state and federal agencies. This included maintaining regulatory compliance, data validation, laboratory analytical protocols, quality assurance documentation and conformance to quality criteria. He aided the Senior Quality Assurance Manager as a liaison between Pace Analytical-Florida and state/federal regulatory agencies on quality control issues. Mr. Osgood also provided technical support to laboratory operations and clients regarding methodology and project QA/QC requirements and is responsible for performing internal performance audits as well as systems audits on a regular basis.

In January 2019 Mr. Osgood accepted the position as manager of the environmental section of the Semi-Volatiles department. In this role his responsibilities include management of staff and departmental budgeting as well as data validation and review. Mr. Osgood is able to apply his years of technical experience towards method development as well as provide technical support for instrumentation.

**HAZEL ARANDA**
**METALS**
**MANAGER**

## EDUCATION

B.S., Biology, (University of Central Florida, 2006)

## EXPERIENCE

Ms. Aranda joined Pace Analytical Services in 2008. She is currently serving as the Metals Manager. She is responsible for the daily management of the metals department. Her job duties include: Planning, coordinating, and directing operations of the department to meet holding times, provide data of appropriate quality, and to deliver analytical reports on time.

Prior to assuming the position of Metals Manager with Pace in 2014, Ms. Aranda worked in both the Wet Chemistry and Metals departments on the analytical bench. She is knowledgeable and proficient in a number of analytical protocols, including: ICP, ICP-MS, CVAA instrumentation, IC, Lachat, and UV-Vis.

**Ryan Brown**
**Supervisor,**
**Wet Chemistry**

## EDUCATION

B.S. Information Technology (Daytona State University, 2019)

## EXPERIENCE

Mr. Brown joined Pace Analytical in 2019 and has 6 years of experience in the environmental industry. He worked in the Sample Receiving department for 2 years The Wet Chemistry department for 2 years, the Quality department for 2 years, and is now the Supervisor of the Wet Chemistry department. He served as a Quality Assurance Analyst conducting all inorganic audits for 2 years before taking over the Wet Chemistry department as his current position. He brings an overall knowledge of operations and combines it with his quality assurance experience to ensure the operations of the department are adept.

Mr. Brown has experience in a vast number of environmental testing methods including nutrients, chromatography, spectrography, gravimetric, plus others. He also served as the lead sample receiving technician for a year assisting project managers with proper communication regarding client needs. His experience allows him to help project managers communicate with clients regarding technical questions, advance logistics of operations, ensure the timely completion of projects, and reinforce compliance. He has been responsible for ensuring analytical data and quality objectives are met, the expansion of analytical capability, troubleshooting instrumentation / method problems through resolution, and maintaining professional relations with third party vendors and support teams to better advance the departments' capabilities.

**MEGAN STACY**
**CLIENT SERVICE SUPERVISOR-ORMOND BEACH**

**EDUCATION**
High School Diploma
Daytona State College

**EXPERIENCE**
Ms. Stacy joined Pace Analytical Services in 2014. Ms. Stacy is responsible for the direction and coordination of the daily staff and activities in the Sample Receiving department in Ormond Beach. Her job duties include: primary point of contact for Project Managers and Sample Receiving, the daily triaging incoming client samples, work closely with the lab to priorities Short Holds/Rushes, logging in samples in a timely manner, subcontracting samples, and managing the day to day operations of the Sample Receiving Department.

**J. Length of business in the State of Florida**

Pace has been operational in Florida since early 2008 as Pace Analytical Services, Inc. and in October 1, 2016 had a name change to Pace Analytical Services, LLC.

FLORIDA DEPARTMENT OF STATE
Division of Corporations

PACE ANALYTICAL SERVICES, INC.
7901 XERXES AVE. SOUTH, SUITE 201
MINNEAPOLIS, MN 55431

Qualification documents for PACE ANALYTICAL SERVICES, INC. were filed on July 29, 2008 and assigned document number F08000003333. Please refer to this number whenever corresponding with this office.

Your corporation is now qualified and authorized to transact business in Florida as of the file date.

The certification you requested is enclosed. To be official, the certification for a certified copy must be attached to the original document that was electronically submitted and filed under FAX audit number H08000183578.

A corporation annual report/uniform business report will be due this office between January 1 and May 1 of the year following the calendar year of the file date. A Federal Employer Identification (FEI) number will be required before this report can be filed. If you do not already have an FEI number, please apply NOW with the Internal Revenue by calling 1-800-829-4933 and requesting form SS-4.

Please be aware if the corporate address changes, it is the responsibility of the corporation to notify this office.

Should you have any questions regarding this matter, please contact this office at (850) 245-6995.

Wanda Cunningham
Regulatory Specialist II
New Filing Section
Division of Corporations

Letter Number: 008A00043820

# State of Florida

## Department of State

I certify from the records of this office that PACE ANALYTICAL SERVICES, INC., is a corporation organized under the laws of Minnesota, authorized to transact business in the State of Florida, qualified on July 29, 2008.

The document number of this corporation is F08000003333.

I further certify that said corporation has paid all fees due this office through December 31, 2008, and its status is active.

I further certify that said corporation has not filed a Certificate of Withdrawal.

I further certify that this is an electronically transmitted certificate authorized by section 15.16, Florida Statutes, and authenticated by the code, 008A00043820-073008-F08000003333-1/1, noted below.

Authentication Code: 008A00043820-073008-F08000003333-1/1

Given under my hand and the
Great Seal of the State of Florida,
at Tallahassee, the Capital, this the
Thirtieth day of July, 2008

Kurt S. Browning
Secretary of State

**APPLICATION BY FOREIGN CORPORATION FOR AUTHORIZATION TO TRANSACT BUSINESS IN FLORIDA**

*IN COMPLIANCE WITH SECTION 607.1503, FLORIDA STATUTES, THE FOLLOWING IS SUBMITTED TO REGISTER A FOREIGN CORPORATION TO TRANSACT BUSINESS IN THE STATE OF FLORIDA.*

1. Pace Analytical Services, Inc.
(Enter name of corporation; must include "INCORPORATED," "COMPANY," "CORPORATION," "Inc.," "Co.," "Corp," "Inc," "Co," or "Corp.")

(If name unavailable in Florida, enter alternate corporate name adopted for the purpose of transacting business in Florida)

2. Minnesota
(State or country under the law of which it is incorporated)

3. 41-1821617
(FEI number, if applicable)

4. October 16, 1995
(Date of incorporation)

5. Perpetual
(Duration: Year corp. will cease to exist or "perpetual")

6. N/A
(Date first transacted business in Florida, if prior to registration)
(SEE SECTIONS 607.1501 & 607.1502, F.S., to determine penalty liability)

7. 7901 Xerxes Avenue South, Suite 201, Minneapolis, MN 55431
(Principal office address)

7901 Xerxes Avenue South, Suite 201, Minneapolis, MN 55431
(Current mailing address)

8. analytical laboratory and any lawful act or activity for which corporations may be organized to do business under the laws of Florida
(Purpose(s) of corporation authorized in home state or country to be carried out in state of Florida)

9. Name and street address of Florida registered agent: (P.O. Box NOT acceptable)

Name: CT Corporation System

Office Address: 1200 South Pine Island Road

Plantation (City), Florida 33324 (Zip code)

10. **Registered agent's acceptance:**
***Having been named as registered agent and to accept service of process for the above stated corporation at the place designated in this application, I hereby accept the appointment as registered agent and agree to act in this capacity. I further agree to comply with the provisions of all statutes relative to the proper and complete performance of my duties, and I am familiar with and accept the obligations of my position as registered agent.***

Corine Bay [illegible]
(Registered agent's signature)

11. Attached is a certificate of existence duly authenticated, not more than 90 days prior to delivery of this application to the Department of State, by the Secretary of State or other official having custody of corporate records in the jurisdiction under the law of which it is incorporated.

12. Names and business addresses of officers and/or directors:

**A. DIRECTORS**

Chairman: Rodney P. Burwell

Address: 7901 Xerxes Avenue South, Suite 201, Minneapolis, MN 55431

Vice Chairman:

Address:

Director: Rodney P. Burwell

Address: 7901 Xerxes Avenue South, Suite 201, Minneapolis, MN 55431

Director: Steve A. Vanderboom

Address: 1700 Elm Street, Suite 200, Minneapolis, MN 55414

**B. OFFICERS**

President: Steve A. Vanderboom

Address: 1700 Elm Street, Suite 200, Minneapolis, MN 55414

Vice President:

Address:

Secretary: Janet R. Leuman

Address: 7901 Xerxes Avenue South, Suite 201, Minneapolis, MN 55431

Treasurer: Janet R. Leuman

Address: 7901 Xerxes Avenue South, Suite 201, Minneapolis, MN 55431

**NOTE:** If necessary, you may attach an addendum to the application listing additional officers and/or directors.

13. Janet R. Leuman
(Signature of Director or Officer listed in number 12 of the application)

14. Janet R. Leuman, Secretary and Treasurer
(Typed or printed name and capacity of person signing application)

State of Florida
Department of Health, Bureau of Public Health Laboratories
This is to certify that

E82924

BCS LABORATORIES, INC. - GAINESVILLE
4609 NW 6TH STREET, BUILDING A
GAINESVILLE, FL 32609

has complied with Florida Administrative Code 64E-1,
for the examination of environmental samples in the following categories

DRINKING WATER - MICROBIOLOGY, NON-POTABLE WATER - MICROBIOLOGY, SOLID AND CHEMICAL MATERIALS - MICROBIOLOGY

Continued certification is contingent upon successful on-going compliance with the NELAC Standards and FAC Rule 64E-1 regulations. Specific methods and analytes certified are cited on the Laboratory Scope of Accreditation for this laboratory and are on file at the Bureau of Public Health Laboratories, P. O. Box 210, Jacksonville, Florida 32231. Clients and customers are urged to verify with this agency the laboratory's certification status in Florida for particular methods and analytes.

Date Issued: July 01, 2024 Expiration Date: June 30, 2025

ANAB ACCREDITED ISO/IEC 17043 PROFICIENCY TESTING PROVIDER

# WI State Laboratory of Hygiene
# *Cryptosporidium* Proficiency Testing Program

06/05/2024

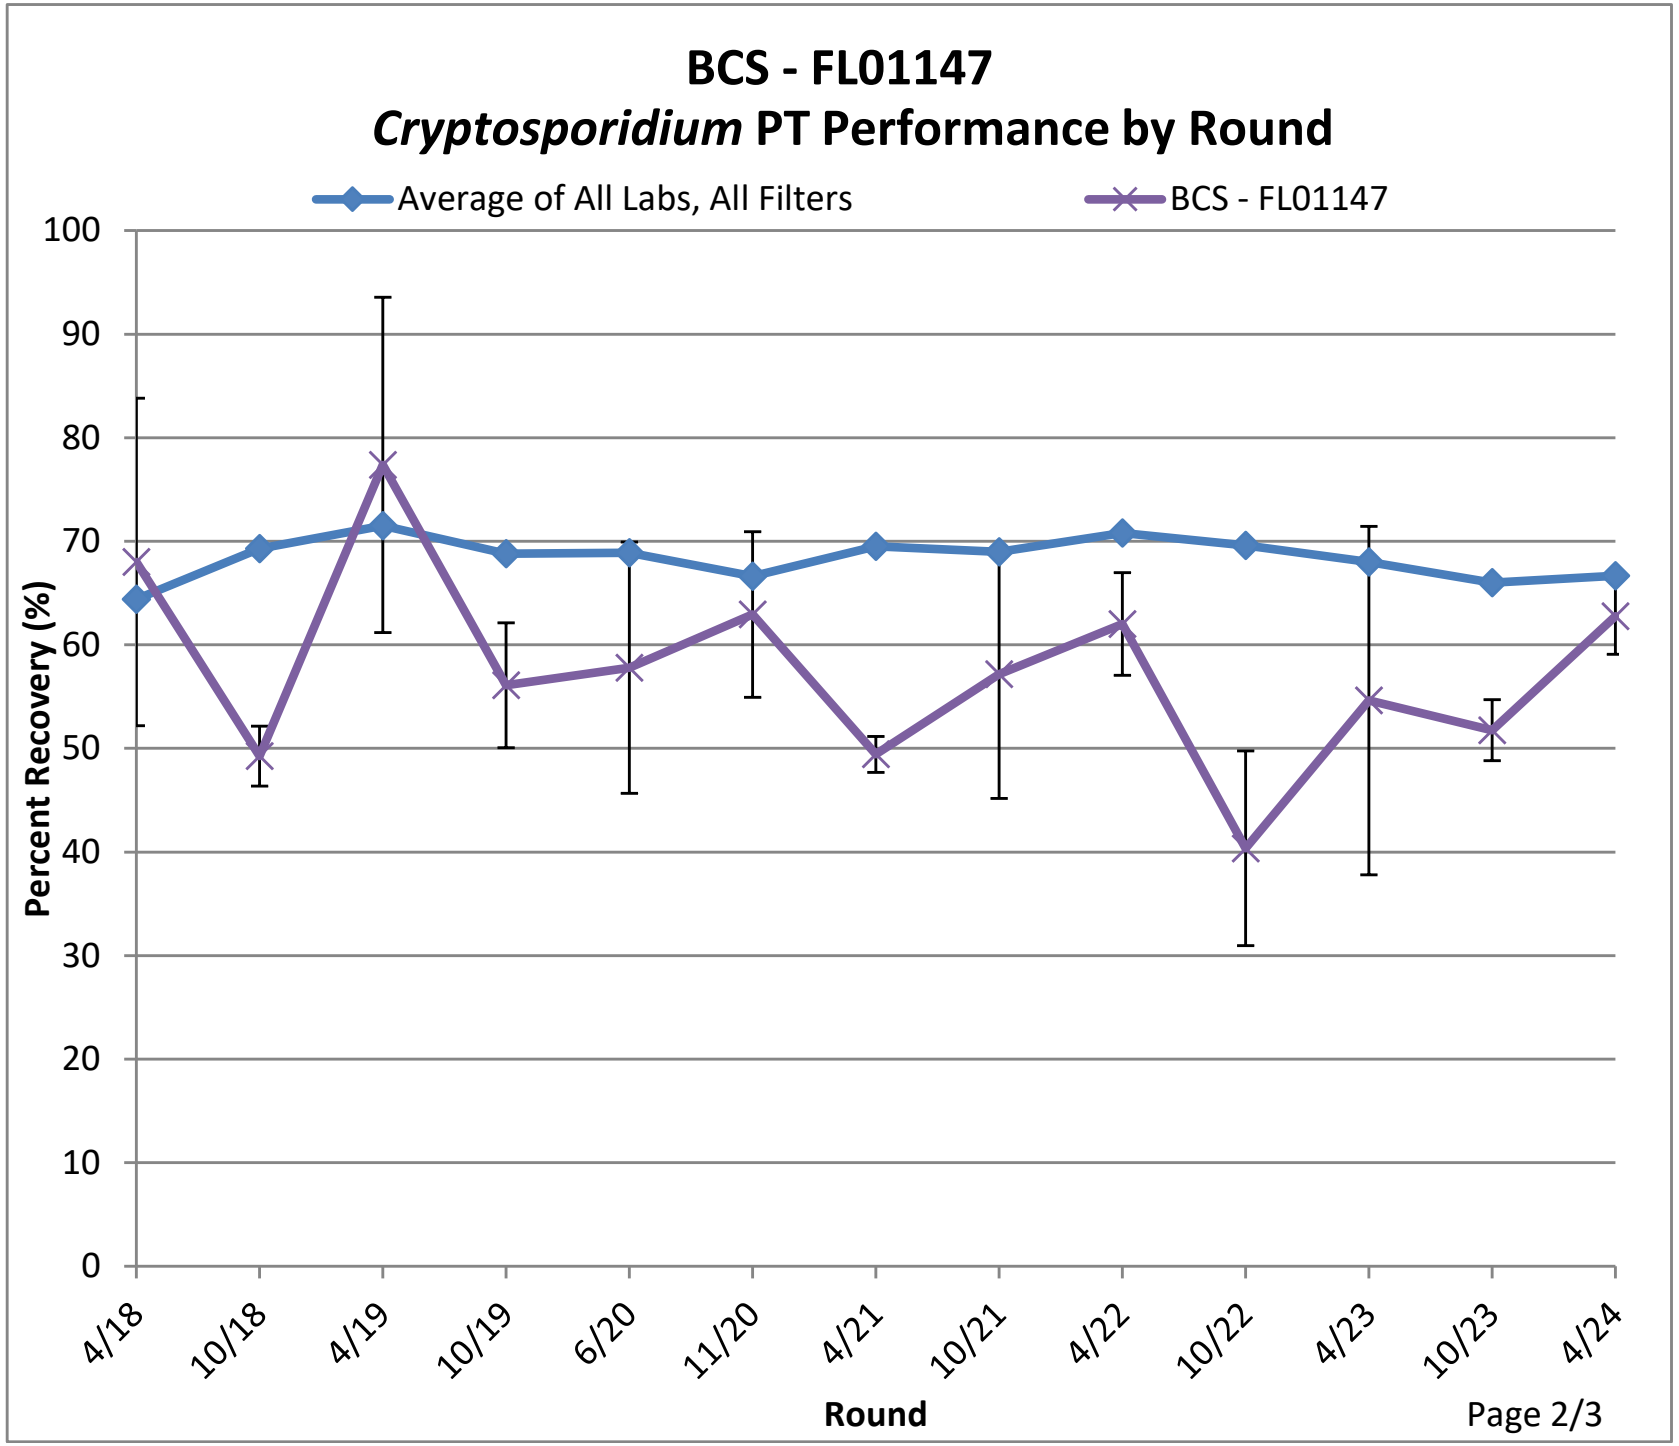
Ms. Bonnie Mull
4609 NW 6th Street
Suite A
Gainesville, FL 32609

**Report #: FL01147-1623.1-202404-01**

Dear Ms. Mull:

Thank you for participating in the April 2024 round of the *Cryptosporidium* Proficiency Testing (PT) Program. You are receiving two reports for this round. This first report is specific to your laboratory's performance using Method 1623.1 and includes this letter, a table showing your laboratory's recovery values, and a chart illustrating your laboratory's mean recovery by PT round. The second report, also included in this correspondence, includes the PT General Summary Report.

The acceptable mean percent recovery range for the April 2024 round was 45.2 - 88.2%. **Your laboratory's mean recovery percentage falls within this acceptable range and therefore, your laboratory has passed the April 2024 PT event.**



Your proficiency testing results are confidential. They will not be released without written authorization from your laboratory. The general summary of participant performance may be disclosed however, any unique identifiers will be removed.

Please note that reports are not to be used as an endorsement of your laboratory by the University of Wisconsin or the Wisconsin State Laboratory of Hygiene.

If you have any questions, please contact Marty Collins at the PT program email: CryptoPT@slh.wisc.edu or (608) 224-6260.

Sincerely,

Marty Collins
WSLH *Cryptosporidium* PT Program Coordinator

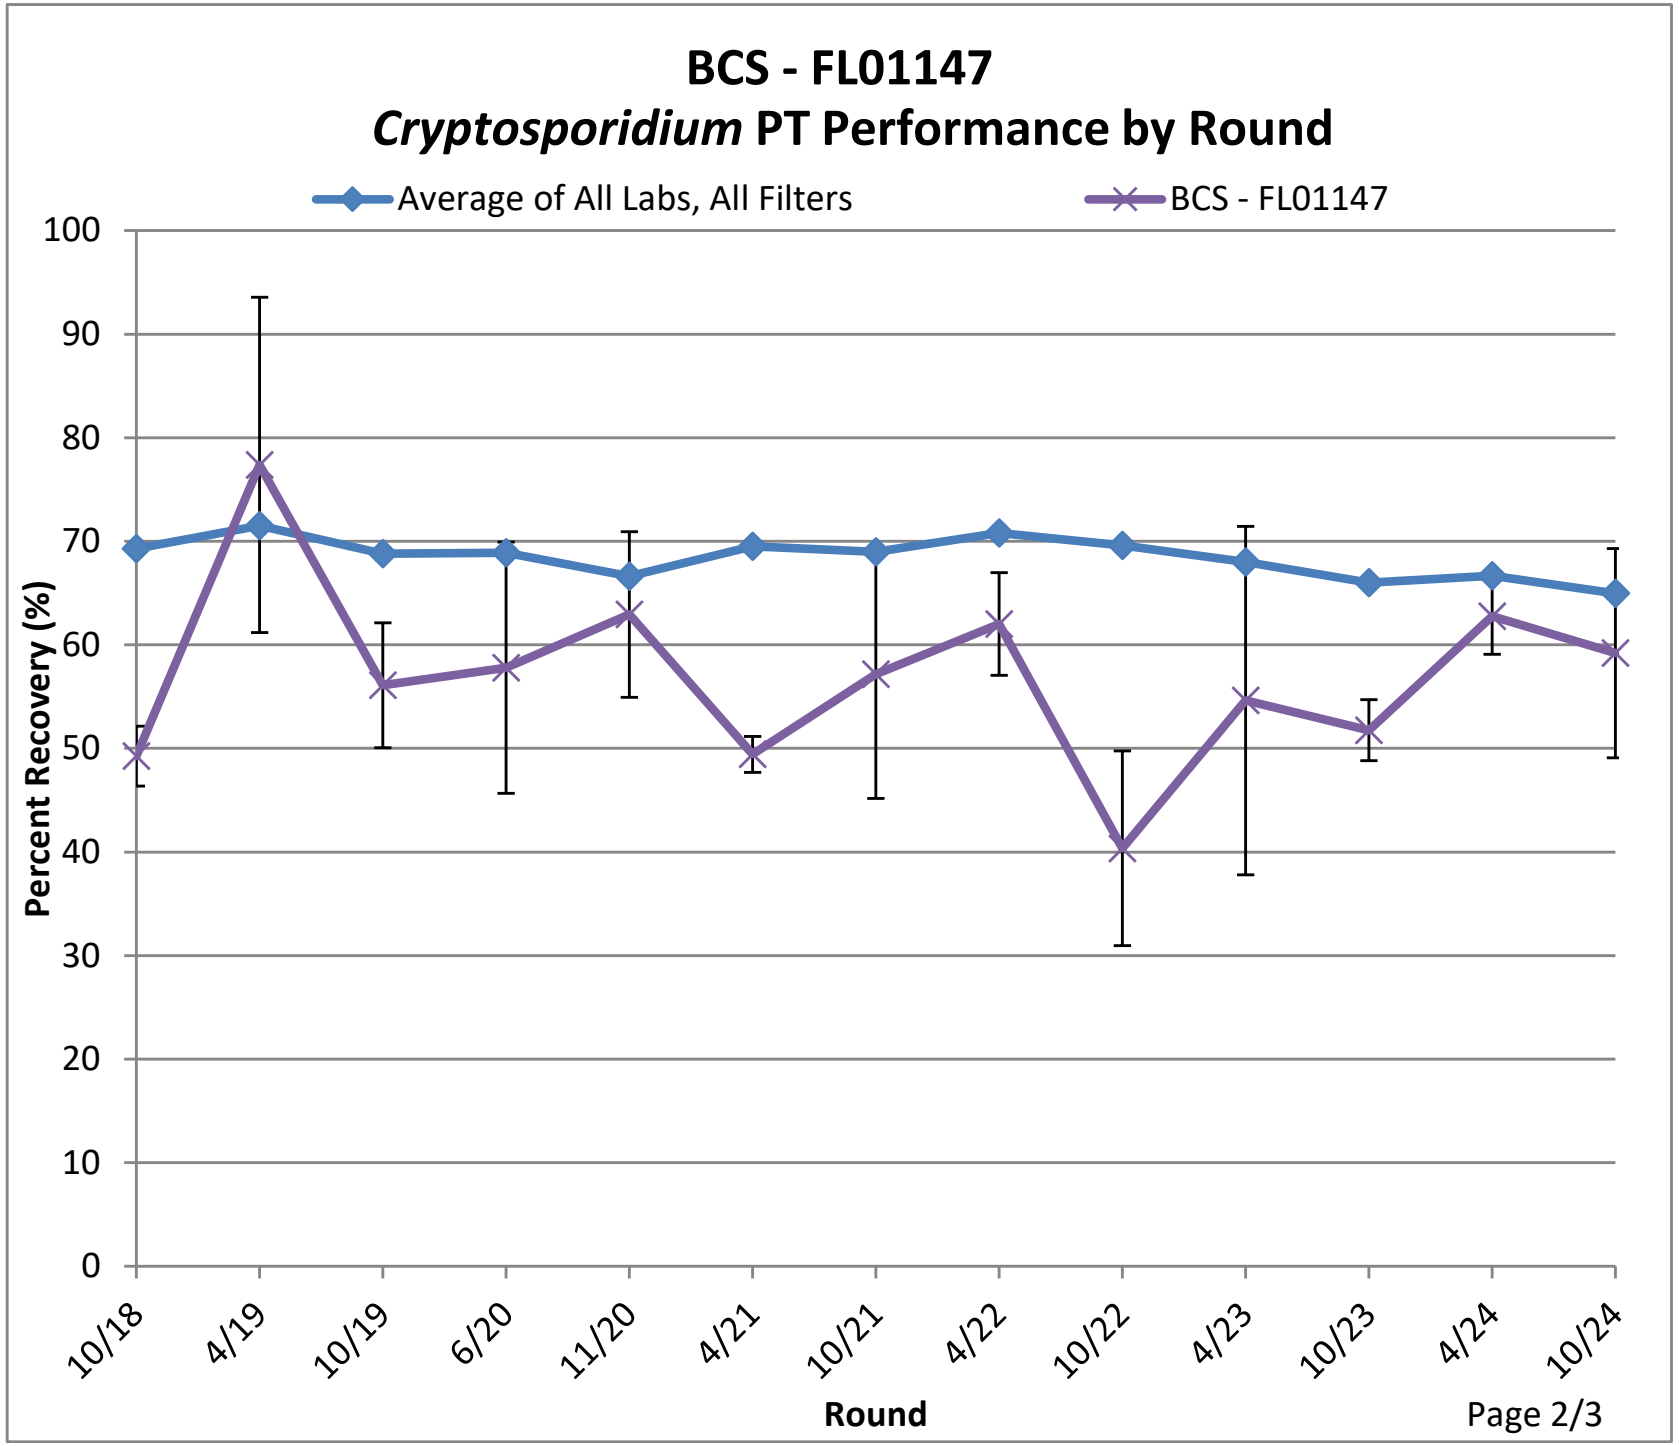
**Report #: FL01147-1623.1-202410-01**

Dear Ms. Mull:

Thank you for participating in the October 2024 round of the *Cryptosporidium* Proficiency Testing (PT) Program. You are receiving two reports for this round. This first report is specific to your laboratory's performance using Method 1623.1 and includes this letter, a table showing your laboratory's recovery values, and a chart illustrating your laboratory's mean recovery by PT round. The second report, also included in this correspondence, includes the PT General Summary Report.

The acceptable mean percent recovery range for the October 2024 round was 43.8 - 86.1%. **Your laboratory's mean recovery percentage falls within this acceptable range and therefore, your laboratory has passed the October 2024 PT event.**



Your proficiency testing results are confidential. They will not be released without written authorization from your laboratory. The general summary of participant performance may be disclosed however, any unique identifiers will be removed.

Please note that reports are not to be used as an endorsement of your laboratory by the University of Wisconsin or the Wisconsin State Laboratory of Hygiene.

If you have any questions, please contact Marty Collins at the PT program email: CryptoPT@slh.wisc.edu or (608) 224-6260.

Sincerely,

Marty Collins

NATIONAL ENVIRONMENTAL LABORATORY
ACCREDITATION PROGRAM
ON-SITE LABORATORY ASSESSMENT REPORT
Bureau of Public Health Laboratories
Florida Department of Health

| | |
|---|---|
| Laboratory: | BCS Laboratories, Inc. - Gainesville |
| Physical Address: | 4609 NW Sixth Street, Bldg. A<br>Gainesville, FL 32609 |
| I. D. Number: | E82924 |
| Date of Assessment: | April 26-28, 2023 |
| Categories Assessed: | DRINKING WATER Microbiology; NON-POTABLE WATER Microbiology; SOLID / CHEMICAL MATERIALS Microbiology |
| Assessor: | Carl C. Kircher, Ph.D. |

I. INTRODUCTION:

This laboratory was inspected on-site to verify compliance with Florida Administrative Code (FAC) Rule 64E-1, Certification of Environmental Testing Laboratories, which now incorporates by reference the 2016 standards adopted at the National Environmental Laboratory Accreditation Conference (NELAC).

II. DEFICIENCIES:

See the accompanying DH Form 1137. Proposed corrective action plans, estimated completion dates, and original signatures & dates from responsible laboratory officials must be returned on this form to this office within 30 days of receipt of this report.

III. LABORATORY TECHNICAL DIRECTORS (Name & Title):

| | |
|---|---|
| George Lukasik, Ph.D. | Technical Director |
| Bonnie Mull | QA Officer and Operations Manager |

IV. COMMENTS:

1. This on-site assessment was the regular biennial on-site assessment, but it was performed by Florida Department of Health personnel after the appointed third-party assessor from the selected contract Provider became unable to perform this function. This assessment included the U.S. Environmental Protection Agency's (EPA) Cryptosporidium and Giardia auditing activities that were specified for the Long-Term Stage 2 Enhanced Surface Water Treatment Rule requirements, which included analysis of a supplied audit sample that had an expiration date. The next regular assessment will be due on or before April 26, 2025.

2. The Quality Manual reviewed during this assessment was signed by the current laboratory Technical Managers on 2/1/2019. This date is the Effective Date of the document.

3. The one non-conformity noted from the previous on-site assessment did not recur during this assessment.

4. The following personnel also participated in this on-site assessment: Kristin Baecher, Wei-yea Hsu, and Erika DePasquale.

5. At the time of this assessment, it was not known whether EPA is continuing the “internet analyst verification” portion of the audit. Otherwise, Dr. Lukasik, Kristin Baecher, and Erika DePasquale have met the qualifications and experience required to be considered “Principal Analysts” for the EPA Cryptosporidium and Giardia testing.

6. At the time of this on-site assessment, the laboratory requested relinquishment of certification for the following analytes and test methods, effective on April 28, 2023:

| ANALYTES | TEST METHODS |
|---|---|
| DRINKING WATER MATRIX | |
| Enterococci | EPA 1600 |
| Escherichia coli | BCS SOP B-2 EPA1603 |
| SOLID AND CHEMICAL MATERIALS MATRIX | |
| Heterotrophic Plate Count | BCS SOP M-7 (MF) |
| Heterotrophic Plate Count | BCS SOP M-7 (pour-plate) |

The Florida Department of Health has made these relinquishments final with the issuance of this on-site assessment report. An updated Certificate and Analyte Sheet are included in this report.

7. The laboratory is currently not analyzing any Drinking Water samples under the Total Coliform Rule or for any program where the test results are qualitatively reported as “Present” or “Absent.” All sample analyses and proficiency testing are performed on a quantitative basis. As a result, the laboratory submitted an application and application fee during this on-site assessment to convert the following certifications:

| ANALYTES | TEST METHODS |
|---|---|
| DRINKING WATER MATRIX | |
| Total Coliforms | SM 9223 B / QUANTI-TRAY (replacing SM 9223 B) |
| Escherichia coli | SM 9223 B / QUANTI-TRAY (replacing SM 9223 B) |

Certification effective date will be no sooner than when the laboratory submits acceptable plans of correction to the non-conformances identified during this on-site assessment.

Unfortunately, there was no convenient way to document whether SM 9222 B or SM 9222 G in the Drinking Water matrix could be differentiated on a quantitative versus qualitative basis on the analyte sheet. Those certifications will remain as currently listed on the Analyte Sheet. It is noted in this report, and for proficiency testing purposes, that all membrane filter analyses for Total Coliform with m-Endo medium are reported numerically and quantitatively, along with numerical results for E. coli in the Nutrient Agar + MUG medium.

8. The laboratory is not analyzing any samples or reporting data to the Florida Department of Environmental Protection for compliance with the Clean Water Act. Consequently, it is not seeking any certifications for the year-end designations to its Standard Methods certifications at this time.

9. Many of the laboratory’s test method Standard Operating Procedures (SOPs) specify the analysis of sample matrix spikes from each sample source initially and at least every 20$^{th}$ sample submitted thereafter. These analyses are currently not being performed. The laboratory should revise the current SOPs in case, during its management review of the quality system, unless the reference methods specify otherwise, it is determined that the matrix spike quality control practice is not useful or beneficial for ensuring data quality.

10. The laboratory’s submitted counts for the EPA 1623.1 audit sample were 87 Cryptosporidium oocysts and 76 Giardia cysts. The cytometry enumerated values for Lot #230403 supplied by the Wisconsin State Laboratory of Hygiene were 160.3 oocysts and 160.4 cysts, respectively, with a relative standard deviation of 0.8% in each

case. As a result, the laboratory's recoveries were 54.2% for Cryptosporidium and 47.4% for Giardia. These values are within the current BCS Laboratories' control chart limits for on-going precision and recovery (OPR), and these values are above the 33% percent recovery limits that US EPA expects for the analyses of Cryptosporidium and Giardia under the Safe Drinking Water Act.

11. The Wisconsin State Laboratory of Hygiene also performed an independent counting of the Cryptosporidium oocysts and Giardia cysts on the OPR slide from the May 1, 2023 weekly OPR analysis, which was submitted by the laboratory (Slide Number "BCS OPR 5.1.23"). Wisconsin's counts were 53.0 oocysts +/- 1.4 standard deviation, and 43.5 cysts +/- 0.7 standard deviation. The counts from BCS Laboratories, Inc. were 52 and 42, respectively. The results thus agree within the BCS control charts for Relative Percent Difference in each case, for verified counts.

## V. CONCLUSIONS:

The laboratory's personnel, procedures, equipment, facilities, and quality system are in compliance with the requirements of FAC Rule 64E-1 and the 2016 NELAC Standards. When the deficiencies listed in Form DH1137 as referenced in Section II are corrected, certification and data acceptance are recommended for Fields of Accreditation in the following categories:

DRINKING WATER Microbiology, Primary Inorganic Contaminants, Secondary Inorganic Contaminants; NON-POTABLE WATER Microbiology, General Chemistry; SOLID / CHEMICAL MATERIALS General Chemistry

The above categories are referenced in Rule 64E-1.007, Florida Administrative Code.

| BCS Laboratories, Inc. – Gainesville | E82924 | April 26-28, 2023 | Carl C. Kircher, Ph.D. |

PARAMETERS SURVEYED:

DRINKING WATER Microbiology; NON-POTABLE WATER Microbiology; SOLID / CHEMICAL MATERIALS Microbiology

| (1) I.D. PREFIX TAG | (2) SUMMARY STATEMENT OF DEFICIENCIES | (3) LABORATORY'S PLAN OF CORRECTION (Each corrective action should be cross-referenced to the appropriate deficiency) | (4) COMPLETION DATE |
|---|---|---|---|
| 1. | TNI V1M5, 1.7.3.6(b) – Target organism identity has not been verified as specified in the test method for Microbiology (SM9222B membrane filter colonies have not been confirmed as Total Coliforms with the selective BGLB medium, along with LTB). | *BGLB media will be used for confirmation of total coliforms. The SOP and bench sheet is corrected to reflect the use of BGLB.* | 06/09/2023 |
| 2. | NI V1M5, 1.7.3.2(b) – Method blanks for the membrane filtration procedure are not conducted as prescribed in the analytical method (distilled, de-ionized water is being used at the beginning and end of the membrane filtration series instead of the dilution rinse water specified in SM9222B and SM9050C). | *Dilution Rinse water will be used for all Method Blanks in future MF assays as per SM. The SOP and bench sheet is corrected to reflect the use of dilution water instead of sterile de-ionized water.* | 06/09/2023 |
| 3. | TNI V1M2, 5.5.13.1(e) – If quantitative results are dependent on their accuracy, mechanical volumetric measuring devices are not verified prior to first use and on a quarterly basis, at volumes bracketing the range of use and at the midpoint of the volumes used by the device (calibrations were missing for some quarters in year-2022 for pipettes #P-53 and P-54). | *We will ensure that all pipettes are quarterly calibrated so that no ones are missed. The QA officer will closely monitor that quarterly validations are performed and recorded in LIMS.* | 06/09/2023 |
| 4. | TNI V1M5, 1.7.3.1(d)(iv) – The laboratory does not conduct the Bacteriological Water Quality test on its reagent water used for Microbiology annually (silica content is not on file in order to apply an exemption for meeting the ASTM requirements for Type II water quality). | *Annually the reagent water will be submitted to a certified vendor for silica analysis. We will ensure that ASTM requirements for type II water are met annually* | 06/09/2023 |

# STATEMENT OF DEFICIENCIES AND PLAN OF CORRECTION

PLEASE FOLLOW THESE INSTRUCTIONS:

In completing the laboratory's section of this form, you should closely observe the following:

1. Review the instructions.

2. Complete the form legibly.

3. Each deficiency is consecutively numbered with an I.D. Prefix Tag. Your plan of correction should repeat these numbers for identification of each deficiency in the I.D. Prefix Tag Column.

4. Reply to each deficiency cited by reporting the specific action you have taken to effect compliance and enter the corrective action below the deficiency. Use attachments if necessary. Enter the date it was accomplished in the Completion Date Column (4).

5. For any item which has not yet been corrected, report the specific action you intend to take to correct the deficiency. Enter the anticipated date of completion in the Completion Date Column (4).

6. You must present a realistic plan with reasonable time frames based upon the extent and nature of the deficiencies cited.

7. There should be no statements which can be construed as defaming some other party, such as another institution, employees of the institution, etc.

8. You should frame your plan of correction in language that can be readily understood by the lay person.

9. If you do not concur with any of the deficiencies stated, your rationale to support this position must be indicated on the form.

10. The form must be completed, signed and dated by a responsible official.

11. The original must be returned within thirty (30) calendar days. Retain copy for your files.

12. Failure to submit a timely reply will leave the Bureau of Public Health Laboratories no alternative except to submit a finding of non-compliance and deny or revoke certification.

## EVALUATION OF ASSESSORS

*To improve the quality and receptiveness of our service to you and to maintain the quality of the laboratory inspection process, we request you complete the following evaluation. Since your comments are very important, please use the reverse side of this form to discuss issues not addressed in the items listed below:*

Please return this evaluation to:

Susanne Crowe, MHA

Dear Laboratory Director:

Attached is a copy of the April 26-28, 2023 On-Site Assessment Report, and the Statement of Deficiencies and Plan of Correction, DH Form 1137.

Please complete the Statement of Deficiencies and Plan of Correction per instructions on the form, sign and date, and return the original to this office along with any additional documentation required by this report within thirty (30) days of receipt.

A primary function of this agency is to assist facilities in maintaining standards consistent with good laboratory practice through compliance with minimum standards. If you have questions as to what is necessary to establish compliance with the rules for laboratory certification or if this agency may be of assistance in meeting these requirements, please feel free to call me at (904) 791-1574.

Sincerely,

Carl C. Kircher

## I. Laboratory Description

Founded in 2000, Biological Consulting Services of North Florida, Inc. (BCS Laboratories) is an established microbiological research and testing facility that incorporates a multidisciplinary team of scientists. BCS Laboratories is a full-scale 8,600 square foot laboratory dedicated to the advanced microbiological testing of environmental samples and client devices and processes.

BCS Laboratories is an ISO17025:2017 accredited facility and is also accredited by the State of Florida Department of Health as per The National Environmental Laboratory Accreditation Conference (NELAC / NELAP) and The NELAC Institute (TNI). BCS Laboratories is a member of the US EPA Environmental Response Laboratory Network (ERLN). Additionally, we are a USDA approved facility for the analysis of pathogens in soil (USDA Facility ID 2949). BCS holds permit P526 for the receipt and analysis of foreign soil and biosolids samples for pathogens (Animal Health and Plant Inspection Service Permit P526P-13-01699). We also hold NELAP accreditations in Louisiana, Pennsylvania, Puerto Rico, Texas, and Virginia.

BCS Laboratories provides routine analysis to numerous private, state and government agencies, and universities. Our staff has closely collaborated with various state and government agencies on pathogen detection and environmental pollution and remediation projects. These agencies include the CDC, EPA, US Department of Agriculture, US Department of Energy, US Geological Survey, and the National Oceanic and Atmospheric Administration (NOAA).

As part of BCS Laboratory's mission to continuously improve and excel, we regularly increase our accreditations and abide by a higher set of standards in order to provide fully defensible analytical data. BCS Laboratories has been accredited by NELAP for the detection and enumeration of *Cryptosporidium* and *Giardia* in Water by EPA Method 1623/ 1623.1 since 2004. We gained ISO17025:2005 accreditation in March 2015.

## II. Laboratory Services

BCS offers a wide range of services including, but not limited to: pathogen analysis, detection and enumeration, biosolids pathogen compliance, fecal contamination sourcing, and pathogen reduction and control. We are accredited for the analysis of various indicators and pathogens in water and solids. We regularly test environmental liquid and solid samples for enteric microorganisms that are fecally shed, including Heterotrophic Plate Count (HPC), total and fecal coliforms, Enterococci, fecal strep, *Salmonella*, *E. coli*, Helminth ova, parasites (*Cryptosporidium* and *Giardia*), and human enteric viruses.

BCS Laboratories complies with all scientific standards including those formulated for unique samples and analytical requirements. Our laboratory specializes in the testing of environmental

samples for pathogenic contaminants not tested by other laboratories, including human enteric viruses, protozoans, and helminths. Our services are tailored to provide customers with the most informative answers based on available methodologies.

BCS Laboratories provides clients with the information and supplies necessary to ensure samples are collected and transferred to our laboratory intact and well preserved as per method requirements. Upon analysis completion, a final report is generated and will be submitted electronically on BCS letterhead to the client. The report clearly includes all required information so that data is valid, complete, and comprehensible. Our staff is extremely knowledgeable about the science behind the methods and readily available to assist with any questions or concerns that may arise at any point in the process.

## III. Team Experience and Qualifications

BCS Laboratories currently has a staff of 11 and focuses its services on the analysis of enteric pathogens including viruses, parasites, helminth ova, bacteria and fungi associated with waterborne disease outbreaks. Six of our staff members hold a Master of Science degree or higher in biological fields. All staff have a minimum of 3 years' experience in the laboratory setting and extensive experience analyzing a variety of environmental samples.

BCS Laboratories participated in all phases of the LT2 cycle and has been assisting many utilities in achieving their analysis and reporting needs since 2008. BCS has four EPA approved primary analysts for the analysis of *Cryptosporidium* and *Giardia*. Analysts diligently perform all Quality Assurance and Quality Control (QA/QC) measures mandated by the EPA Long Term 2 Enhanced Surface Water Treatment Rule. Our laboratory currently processes an average of 20-30 *Cryptosporidium* and *Giardia* samples per week with a capacity for approximately 60 samples. All equipment and reagents are validated and backup instruments and supplies are on hand at all times. BCS is prepared to accept and process all samples for the proposed project. Samples will be analyzed by a member of BCS Laboratory's highly trained staff and will be reported in a timely manner as required. All method QC requirements and associated data are readily available upon clients' request.

## VI. Quality Assurance/Quality Control

BCS Laboratories has written Standard Operating Procedures (SOPs) in place for all analytical methods described in this proposal. Additionally, strict quality control guidelines are in place and adhered to. All QA/QC and operating procedures are outlined in the laboratory's QA/QC Manual, which is reviewed regularly and certified to be in compliance with all NELAP requirements.

BCS Laboratories will utilize a Laboratory Information Management System (LIMS) uniquely created for the lab for sample management and report generation. Samples are designated a unique identifier which is retained throughout the life of the sample in the lab. Upon receipt of a sample, the condition, including abnormalities or departures from normal or specified conditions are recorded. When suitability is in doubt, or when a sample does not conform to the description provided, or the environmental test required is not specified in sufficient detail, the client is consulted for further instructions before proceeding and such communication is documented.

For quality control purposes, positive and negative controls will be analyzed with each sample. Matrix spikes will be created and the percent recovery is compared to the acceptance criterion. If the percent recovery meets the acceptance criterion, system performance is acceptable and analysis is valid. If the percent recovery is outside the acceptable range for recoveries, a laboratory director must be immediately informed and the system performance must be evaluated. Should the system performance be deemed unacceptable, the client whose samples are run during the time of "out of range" must be notified and analysis must be repeated on fresh samples after the problem is identified and fixed. Problems are typically identified by evaluating each step of the analysis, media, reagents, and controls. Once the problem is identified and corrected, the IPR must be repeated and the results must be acceptable.

We look forward to serving your testing needs. Please see below references for similar contracts. Should you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

George Lukasik, Ph.D.
Laboratory Director

PROFESSIONAL EXPERIENCE

**Laboratory Operations Manager/QA Officer** May 2016 to current
**Biological Consulting Services of North Central Florida, Inc**

- Coordinate and direct daily laboratory operations to deliver services accurately and efficiently to clients.
- Ensure compliance with NELAC in seven states and ISO17025 standards through routine QA monitoring and audits and perform corrective actions as needed.
- Provide strategic oversight for all laboratory operations including accounting, training personnel, bid preparation and submission, and ordering supplies.
- Communicate with clients on services including billing, sample submission, and results reporting.
- Oversaw methods optimization and successful completion of the WRF Project 4989 Pathogen Monitoring in Untreated Wastewater including developing a method for SARS-CoV-2.
- Analyze water for the presence of viable enteric viruses using mammalian cell culture and real-time RT-qPCR according to EPA method 1615.
- Certified EPA LT2 Protozoan Parasite Primary Analyst; analysis of water and waste-water samples for *Cryptosporidium* and *Giardia* using EPA method 1623.1.
- Perform sample processing, culture, microscopic identification, and PCR for *Naegleria fowleri.*
- Perform pathogen enumeration and confirmation procedures on biosolid and water samples using standard EPA methods.
- Assist as needed with daily procedures including preparation of media and solutions, recording data, QA/QC compliance, and hazardous waste management.

**Regional Environmental Epidemiologist** January 2014 to May 2016
**Food & Waterborne Disease Program, Bureau of Epidemiology**
**Florida Department of Health**

- Conducted food and waterborne outbreak investigations by assisting with onsite review of facilities and procedures; interviewed cases/controls, health-care providers, and others.
- Case reviewer for all Legionellosis cases and outbreaks for the state of Florida.
- Performed epidemiological and statistical analyses on data and interpreted results.
- Produced written and oral reports and presentations to policymakers, practitioners, and the public.
- Developed and disseminated health educational materials to county health departments for disease education for medical community partners and the consumer public.
- Entered and analyzed surveillance data using Florida's numerous surveillance system databases.
- Identified and proposed corrective action/interventions to prevent or alleviate public health problems.
- Developed and conducted trainings for county health department staff in the conduct of investigations.

**Environmental Microbiologist** August 2007 to January 2014
**Water, Sanitation and Hygiene Laboratory Team, Waterborne Disease Prevention Branch**
**Centers for Disease Control and Prevention, Atlanta, GA**

| | |
|---|---|
| February 2012- January 2014 | Associate Service Fellow, CDC/DHHS |
| October 2010- February 2012 | Contractor at IHRC, Inc. |
| August 2008- October 2010 | Contractor at Atlanta Research and Education Foundation |
| August 2007- August 2008 | APHL/CDC Emerging Infectious Disease Training Fellow |

- Assisted in creating environmental microbiology testing capacity and trained staff at the Haiti Laboratoire National de Sante Publique (LNSP) in Port-au-Prince, Haiti on fecal indicator and *Vibrio cholerae* methods.
- Managed environmental surveillance and large volume sampling method evaluation for *Vibrio cholerae* in Haitian water resources.
- Conducted an inventory involving knowledge and practices survey and microbial water quality testing of all private water kiosks in Port-au-Prince, Haiti.
- Developed a detection method for *Schistosoma mansoni* cercariae in large volume water samples including filtration and PCR assay then evaluated the method in Kenya.
- Analyzed water and other environmental samples for various state departments for pathogens and fecal indicator microbes during waterborne outbreak investigations.
- Trained state health department staff and international laboratorians on outbreak response water sampling, graduate students and guest faculty researchers on ultrafiltration methods, and provided oversight of an Emory graduate student thesis work.
- Developed an improved sample processing and molecular methods for detection of *Naegleria fowleri* in recreational freshwater and conducted an environmental surveillance study for *Naegleria fowleri* presence in Florida lakes in Orange County, Florida.
- Carried out disinfection efficiency experiments on enteroviruses, including mammalian cell propagation, cell infectivity assays, plate staining techniques, and plaque assay quantitation.
- Designed and conducted experiments to evaluate ultrafiltration methods recovery of viruses, bacteria and parasites including but not limited to norovirus, *E. coli* O157:H7, and *Cryptosporidium parvum* oocysts.
- Purified and enumerated *Cryptosporidium parvum* oocysts from experimentally infected calf feces utilizing density gradient centrifugation.
- Conducted chemical water quality tests including: total organic carbon, free chlorine and monochloramine presence, alkalinity, total hardness, and total suspended solids.

May 2005 to January 2006 /January 2006 to December 2006
**Lab Technician /Lab Manager**
Biological Consulting Services of North Florida, Inc

- Certified EPA LT2 Protozoan Parasite Primary Analyst; analysis of water and waste-water samples for *Cryptosporidium*, *Giardia*, and *E. coli* using EPA method 1623.
- Performed bacterial pathogen enumeration and confirmation procedures on solid and water samples using standard and molecular biology methods, including DNA typing, PCR, and probe hybridization.
- Analyzed water and solids for the presence of viable enteric viruses using mammalian cell culture and molecular detection methods per EPA ICR methodology.
- Completed general and specialized laboratory procedures with minimal supervision and worked as part of the team to attain the research and development goals.
- Engaged in general laboratory operation and daily procedures including preparation of time-sensitive media and solutions, recording data, ensuring lab compliance, and hazardous waste management.

EDUCATION

**Master in Public Health, Epidemiology concentration** **University of Florida, May 2007**

**Bachelor of Science, Microbiology and Cell Science** **University of Florida, May 2005**

## EDUCATION

**MAY 2015**
**MASTER OF SCIENCE,** EASTERN KENTUCKY UNIVERSITY
Major: Biology; VP of Biological Organization of Graduate Students; GPA: 4.0/4.0

**MAY 2013**
**B.S. IN FORESTRY & NATURAL RESOURCES,** UNIVERSITY OF GEORGIA
Major: Wildlife and Fisheries; GPA: 3.90/4.0

## WORK/RESEARCH EXPERIENCE

**SEPT 2020 – PRESENT**
**SENIOR BIOLOGICAL SCIENTIST,** BCS LABORATORIES

- Processes environmental samples and tests for the presence of various pathogens, identifies parasites in samples following EPA method 1623.1 and 625
- **Skills:** Principal Analyst for EPA method 1623.1, fluorescent microscopy, cell staining, RT-qPCR

**NOV 2019 – SEPT 2020**
**BIOLOGICAL SCIENTIST II,** UNIVERSITY OF FLORIDA

- Facilitated invasive plant ecology research, perform typical lab manager duties (i.e., purchase lab supplies and equipment, track account spending, maintain field and laboratory spaces, recruit and hire interns, orient new members to lab procedures and protocols)

**JUNE 2016 – OCT 2019**
**RESEARCH TECHNICIAN,** MEMPHIS ZOO

- Conducted reproductive research, developed experiments, compiled and analyzed data, produced progress reports for governmental/granting agencies, prepares manuscripts
- **Skills:** sperm cryopreservation, assisted reproductive technologies, cell staining, ultrasonography of amphibians, microscopy, DNA extraction/PCR/genotyping, grant writing, securing federal and state permits

**NOV 2015–JUNE 2016**
**BIOLOGICAL SCIENCE TECHNICAN (GS-0404-07),** USDA ARS

- Collected, recorded, organized, and analyzed data from laboratory, greenhouse, and field trials
- **Skills:** DNA extraction from plant material, real-time PCR, bioassays, cloning, plant grafting

**JUNE 2015–OCT 2015**
**WETLAND RESEARCH TECHNICIAN,** EASTERN KENTUCKY UNIVERSITY

- Assisted in managing a project that involves the statewide validation of the Kentucky Wetland Rapid Assessment Method (KY-WRAM)
- **Skills:** amphibian surveys, vegetation surveys, Program R, GIS software, grant budgeting, technical report writing

**AUG 2013–MAY 2015**

### **GRADUATE ASSISTANT,** EASTERN KENTUCKY UNIVERSITY

- Served as a teaching assistant for introductory Biology lab and Cell and Molecular Biology Lab
- Maintained herpetological museum specimens
- Designed and carried out a thesis project assessing the genetic variation and effective population size of the endangered dusky gopher frog (*Lithobates sevosus*) over 15 years
- **Skills:** DNA extraction, PCR, genotyping, grant writing, preparation of lab solutions, operation and maintenance of ABI 3130 Genetic Analyzer, NanoDrop, and Quibit.

**SEPT 2013–APR 2015**

### **RESEARCH ASSISTANT,** EASTERN KENTUCKY UNIVERSITY

- Assisted in various amphibian surveys
- **Skills:** minnow trapping, egg count surveys, stream salamander sampling, identification of larval and adult amphibians, macroinvertebrate sampling, macroinvertebrate identification, visible implant elastomer tagging, water quality measurements

**MAY–AUG 2014**

### **RESEARCH ASSISTANT,** SAVANNAH RIVER ECOLOGY LABORATORY

- Collected data for a region-wide study assessing the genetic variation in the gopher frog (*Lithobates capito*) across the southeastern United States
- **Skills:** DNA extraction, PCR, genotyping, preparation of lab solutions, operation and maintenance of ABI 3130 Genetic Analyzer, NanoDrop, and Quibit

**MAY–JULY 2013**

### **RESEARCH ASSISTANT,** UNIVERSITY OF GEORGIA

- Collected data for study examining geographic patterns of genetic variation in sea turtles
- **Skills:** DNA extraction, organization and maintenance of sample repository for tissue samples

**JAN–MAY 2013**

### **UNDERGRADUATE TEACHING ASSISTANT,** UNIVERSITY OF GEORGIA

- Aided in Herpetology 4040 lab
- **Skills:** communication of scientific material and animal identification

**MAY–AUGUST 2012**

### **RESEARCH ASSISTANT & ENVIRONMENT EDUCATOR,** ST KITTS SEA TURTLE MONITORING NETWORK

- Conducted nightly beach surveys of nesting leatherback sea turtles
- Guided ecotours, created educational activities, and gave lectures on sea turtle biology
- **Skills:** planning and organizing field logistics, delegating tasks, animal rehabilitation, environmental outreach
