Dear Peter,

Thank you for participating in the DMRQA43-WET DMRQA PT Study. Enclosed is your final report, which has been carefully reviewed by the PT specialists at Phenova.

For any analyte falling outside the established acceptance limits, our PT management staff would like to assist you in determining the most appropriate course of corrective action for your facility. Please contact us at any time if we may be of service to you. A final report for your laboratory will be sent to all accrediting agencies you requested at the time of data submittal.

Thank you again for participating in the DMRQA43-WET DMRQA PT Study. We appreciate working with you and look forward to our next study. If you have any questions, please call us at 303-940-0033.

**Report Definitions:**

***Assigned Value*** The Assigned Value is determined from the study mean, gravimetric and volumetric true concentration of an analyte to be analyzed, calculation and/or an appropriate reference value as stipulated in the EPA National Standards for Water Proficiency Testing Studies Criteria Document (current version), the National Environmental Laboratory Accreditation Conference (NELAC) criteria (ref: NELAC FOT tables, NELAC PT Committee) and other documents distributed by accrediting agencies as applicable.

***Evaluation Limits*** Acceptance Limits are derived from fixed limits, coefficients, constants and calculations stipulated in the EPA National Standards for Water Proficiency Testing Studies Criteria Documents (current version), the National Environmental Laboratory Accreditation Conference (NELAC) criteria (ref: NELAC PT FOT tables, NELAC PT Committee) and other documents distributed by accrediting agencies as applicable.

***Evaluation***

| | |
|---|---|
| *Acceptable* | The reported value falls within the Acceptance Limits. |
| *Not Acceptable* | The reported value falls outside the Acceptance Limits. |
| *No Evaluation* | The reported value is non-numeric and can not be evaluated. |
| *NR* | As required by the NELAC standards and requested by state authorities, any analyte purchased but not reported by your facility is listed as NR (Not Reported). |

This report must not be reproduced except in full, without the written approval of Phenova.
This report must not be used to claim product certification, approval, or endorsement by the American Association for Laboratory Accreditation (A2LA) or any agency of the federal government.

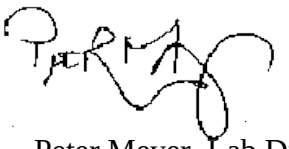
ECOANALYSTS, INC.

October 27, 2023

Dear Client,

This letter will serve as our Corrective Action for the results deemed Not Acceptable for DMR-QA 43.



In short, our in-house organisms are heathier when compared to commercially obtained organisms. Commercially obtained organisms go through a certain amount of stress due to being handled, packaged, shipped, unpacked and handled once again. We have documented a 25-35% difference in LC50 values when using in-house vs commercially-obtained organisms.

We used our in-house organisms the DMR-QA 43 study. The results of the original study show that our organisms did not respond to the toxicant as much as the rest of the industry. The follow-up study was deemed acceptable. As we would expect, we continue to be on the higher end of acceptable since we culture these organisms in house.

Going forward, we will continue to use the healthiest test organisms possible for all our client's studies. We have sent our graded results for the repeat DMR-QA study the state DMR Coordinator.

Achieving the best possible quality in our data is a personal commitment on the part of all members of the bioassay lab. Please call me at 386-462-7889 if you have any questions. Thank you for your patience and understanding in this matter.

Sincerely,

Peter Meyer, Lab Director

# *091423L Final Report*

## QuiK™ Response Proficiency Testing

ERA
A Waters Company

October 13, 2023

Peter R Meyer
Hydrosphere Research Enviro Svc Inc
11842 Research Cir
Alachua, FL 32615

Enclosed is your final report for ERA's QuiK™Response program. Your final report includes an evaluation of all results submitted by your laboratory to ERA. The assigned value(s) and acceptance limits were not available to your laboratory at or before the time of reporting.

All analytes in ERA's QuiK™Response program are evaluated using the following tiered approach. If the analyte is listed in the most current TNI Fields of Proficiency Testing (FoPT) tables the evaluation was completed by comparing the reported result to the acceptance limits generated using the criteria contained in the tables and the evaluation criteria contained in the 2016 TNI Standard, Volume 3. If the analyte is not included in the TNI FoPT tables, the reported result has been evaluated using the procedures outlined in ERA's Standard Operating Procedure for the Generation of Performance Acceptance Limits (SOP 730002268). All analytes are included in ERA's A2LA accreditation, certification number 1539.01.

The Study Dates listed for each standard in the report are the project ship date (open date) and the date the data was submitted for evaluation (close date). Please note there may be different close dates for different standards within a project.

All activities associated with this QuiK™Response project were performed by Waters/ERA with the exception of these samples/products which were manufactured for Waters/ERA by a subcontractor: Microbiology products with the following catalog numbers; 081, 084, 085, 078, 078A, 083, 083A and Volatiles in Gas Cylinder, catalog number 1100.

As part of your accreditation(s), you may be required to identify the root cause of any "Not Acceptable" results, implement the necessary corrective actions, and then satisfy your PT requirements by participating in a supplemental (QuiK™Response) or future ERA PT study. ERA's technical staff is available to help your laboratory resolve any technical issues that may be impairing your PT performance and possibly affecting the quality of your routine data.

The data contained herein are confidential and intended for your use only.

If you are using this report for DMRQA Corrective Action, please note the following: permittees must submit a copy of this report to your DMR-QA Coordinator, along with your corrective action documentation. Contract Laboratories should send a copy of this report to your permittees upon receipt.

Thank you for your participation in ERA's QuiK™Response program. If you have any questions, please contact our Proficiency Testing Department at 1-800-372-0122.

Sincerely,

Craig Huff
Senior Technical Manager

Dear Peter,

Thank you for participating in the DMRQA44-WET DMRQA PT Study. Enclosed is your final report, which has been carefully reviewed by the PT specialists at Phenova.

For any analyte falling outside the established acceptance limits, our PT management staff would like to assist you in determining the most appropriate course of corrective action for your facility. Please contact us at any time if we may be of service to you. A final report for your laboratory will be sent to all accrediting agencies you requested at the time of data submittal.

Thank you again for participating in the DMRQA44-WET DMRQA PT Study. We appreciate working with you and look forward to our next study. If you have any questions, please call us at 303-940-0033.

ECOANALYSTS, INC.

November 4th, 2024

Dear Client,

This letter will serve as our Corrective Action for the results deemed Not Acceptable for DMR-QA 44.

An investigation was conducted using the lab's Corrective Action Reporting system. The associated three reports are here identified as 24002·CAR, 24003·CAR and 24004·CAR. The review conducted did not find any issues with the laboratory systems or personnel.

Quik™Response PTs were purchased from ERA, Golden, CO and testing was conducted.

The test results all came back as "**Acceptable**". The only issue, which was resolved with the vendor, was a data entry error. In the report titled ***101424Q Final Report***, page 8, Test Code 21, test end point, NOEC Reproduction, is listed as "**Not Acceptable**". The error happened when the **IC25** value was entered in the cell for **NOEC** and vice versa. ERA was contacted and asked to amend the report. The report was amended on October 25th, 2024 with the designation of "Ver. 2" noted at the top of all eight pages.

The corrective action reports and Quik™Response reports are attached in the following pages should further review be required.

Achieving the best possible quality in our data is a personal commitment on the part of all members of the bioassay lab. Please call me at 386-462-7889 if you have any questions. Thank you for your patience and understanding in this matter.

Sincerely,

Peter R. Meyer, Florida Laboratory Director

EcoAnalysts, Inc.

# 101024J Final Report

## QuiK™ Response Proficiency Testing

ERA
A Waters Company

October 24, 2024

Peter R Meyer
Hydrosphere Research Enviro Svc Inc
11842 Research Cir
Alachua, FL 32615

Enclosed is your final report for ERA's QuiK™Response program. Your final report includes an evaluation of all results submitted by your laboratory to ERA. The assigned value(s) and acceptance limits were not available to your laboratory at or before the time of reporting.

All analytes in ERA's QuiK™Response program are evaluated using the following tiered approach. If the analyte is listed in the most current TNI Fields of Proficiency Testing (FoPT) tables the evaluation was completed by comparing the reported result to the acceptance limits generated using the criteria contained in the tables and the evaluation criteria contained in the 2016 TNI Standard, Volume 3. If the analyte is not included in the TNI FoPT tables, the reported result has been evaluated using the procedures outlined in ERA's Standard Operating Procedure for the Generation of Performance Acceptance Limits (SOP 730002268). All analytes are included in ERA's A2LA accreditation, certification number 1539.01.

The Study Dates listed for each standard in the report are the project ship date (open date) and the date the data was submitted for evaluation (close date). Please note there may be different close dates for different standards within a project.

All activities associated with this QuiK™Response project were performed by Waters/ERA with the exception of these samples/products which were manufactured for Waters/ERA by a subcontractor: Microbiology products with the following catalog numbers; 081, 084, 085, 078, 078A, 083, 083A and Volatiles in Gas Cylinder, catalog number 1100.

As part of your accreditation(s), you may be required to identify the root cause of any "Not Acceptable" results, implement the necessary corrective actions, and then satisfy your PT requirements by participating in a supplemental (QuiK™Response) or future ERA PT study. ERA's technical staff is available to help your laboratory resolve any technical issues that may be impairing your PT performance and possibly affecting the quality of your routine data.

The data contained herein are confidential and intended for your use only.

If you are using this report for DMRQA Corrective Action, please note the following: permittees must submit a copy of this report to your DMR-QA Coordinator, along with your corrective action documentation. Contract Laboratories should send a copy of this report to your permittees upon receipt.

Thank you for your participation in ERA's QuiK™Response program. If you have any questions, please contact our Proficiency Testing Department at 1-800-372-0122.

Sincerely,

Craig Huff
Senior Technical Manager

View Issues Report

**Date Entered: 9/30/2024**

**Summary:** The results of the bioassay conducted for the DMR-QA 44 PT testing for method 21 were reported as "not accptable" for method 21 CD chronic IC25.

**Status:** Closed

**Priority:** High

**Condition:**

| | | Date |
|---|---|---|
| **Originator:** | Rachel Cox | 10/9/2024 |
| **Approver:** | Peter Meyer | 10/9/2024 |
| **Closer:** | Peter Meyer | 11/3/2024 |

**Is a Root Cause Analysis Justified?** No

**Result of RCA:** No RCA Needed

**Recommended Action:**
1) Review test data and supporting laboratory logs and intrument calibrations.
2) Review procedures used with personnel conducting test.
3) Once the review is completed, make corrections and conduct a Quik™Response test.

**Action Taken & Results:**
1) Test data, logs, calibrations and discussions with personnel were conducted (see notes in comment section below). Nothing was found and no corrective actions were taken,
2) The results of the Quik™Response test was reported to be "acceptable".

**Measure of Effectiveness:** Lab results will be found in the acceptable limits

**SOP or Other Documents Affected:**

Comments | History

**Comments:**
Checked conductivies; they were found to be consistent throughout the test.
Checked the chemical/solution log; simulated effluent was made using the same volumes
Checked the alkalinities/hardness of the waters used all were found to be within spec
Checked the expiration date on the waters used, all were found to be within the expiration date.
Checked the ID of the animals, all ages were correct.
Checked the food used for the CDs none were expired
All technicians used proper protocol regarding Grade A glassware for the tests
Nothing was found to be out of specification for the tests, and proper procedures were followed.

|---|---|---|---|
| 1. | TNI V1M2, 4.2.1 – The laboratory is not following the Quality Manual. The laboratory has not performed the annual review of all SOPs as required by Sections 5.1 and 7 of the Quality Manual. There was no annual review for 2021-2022 done on the TST-001.03 SOP (Rev. 3, Effective 1/12/17) which was due in April 2022.<br><br>**AEX Evaluation: The Corrective Action Plan is Accepted.** | | CAR 22027 (attached) Completed 09/15/22 |
| 2. | TNI V1M2, 4.2.8.2 - The Quality Manual is not maintained current by the quality manager.<br>A. Figure 4-1 (organization chart) lists the names of two former employees and does not list two current employees.<br>B. It does not state that hard copies of controlled documents are maintained in binders in the laboratory.<br><br>**AEX Evaluation: The Corrective Action Plan is Accepted.** | | CAR 22028 (attached) Completed 09/15/22 |
| 3. | TNI V1M2, 4.2.8.5, 4.2.8.5(a) – SOPs are not sufficiently detailed such that a similarly qualified individual can reproduce the results, do not accurately reflect procedures used by the laboratory, and/or contain errors. Examples include but are not necessarily limited to:<br>A. The Chronic Toxicity of Saltwater to the Sheepshead Minnow SOP (TST-029.01, Rev. 1, 1/18/22) states Sheepshead Minnow, *Cyprinodon variegatus* in the SOP header, Section 3.1, and Section 5.7.E.1, but incorrectly states mysid silversides, *Mysidopsis bahia* or silversides throughout the rest of the SOP.<br>B. The Acute Toxicity of Saltwater to the Sheepshead Minnow SOP (TST-028.01, Rev. 1, 1/18/22) incorrectly states silversides in multiple places in the SOP.<br><br>**AEX Evaluation: The Corrective Action Plan is Accepted.** | | CAR 22029 (attached) Expected Completion 10/15/22 |
| 4. | TNI V1M2, 4.2.8.5(c) – Each SOP does not clearly indicate the effective date and revision number of the document. Examples include but are not necessarily limited to:<br>A. Some SOPs do not include an effective date in the header or footer (e.g., TST-003.04, TST-006.04, PRO-008.04, PRO-014.01, PRO-019.02, PRO-021.05, PRO-022.02, DAT-001.04, DAT-002.03).<br>B. The laboratory revised SOP PRO-021 and updated the revision number from Revision 4 to Revision 5 in the electronic file name (from PRO-021.04 to PRO-021.05) but did not update the revision number in the SOP header. Revision 5 of this SOP states Revision 4 in the header. | | CAR 22030 (attached) Expected Completion 06/01/23 Revised CAR See Comment section |

| | C. The laboratory revised SOP TST-004 and updated the revision number from Revision 3 to Revision 4 in the SOP header but did not update the effective date. Revision 4 of this SOP has the same effective date as the obsolete Revision 3.<br><br>**AEX Evaluation: The Corrective Action Plan is Not Accepted.** The plan does not address ensuring that when an SOP is revised that its revision number is updated. The plan does not address clearly stating the effective date of the revision in the SOP. The plan indicates that the laboratory will now use the original date of the SOP as the effective date, not the revision date, in the document header. However, the date listed in the header is not defined (e.g., effective date of which version). The plan does not address revising the document control system with the new procedure. The plan does not state that all SOPs applicable to TNI accreditation will be reviewed and revised, as necessary, to follow the updated system for stating the effective date of the original and revised versions. The plan does not address monitoring the corrective action to assure its implementation and effectiveness.<br><br>Please see the AEX Evaluation of Deficiency #7 below. The headers of some of the revised SOPs provided for that deficiency's corrective action plan are not consistent with the revised procedure stated for this deficiency. | |
| 5. | TNI V1M2, 4.2.8.5(e) - The laboratory is accredited for *Chironomus tentans* in Solid and Chemical Materials by EPA/600/R-099/064 (100.5) but does not have and maintain an SOP for this analyte and method.<br><br>**AEX Evaluation: The Corrective Action Plan is Accepted.** | | CAR 22031 (attached) Completed 09/15/22 |
| 6. | TNI V1M2, 4.3.2.1 – The laboratory does not have a master list or equivalent document control procedure identifying the current revision status and distribution of all management system documents. The "Master List of Controlled Documents" spreadsheet that was provided is incomplete. It does not include the MTR-019 YSI Meter SOP.<br><br>**AEX Evaluation: The Corrective Action Plan is Accepted.** | | CAR 22032 (attached) Completed 09/15/22 |
| 7. | TNI V1M2, 4.3.2.2(b), 4.2.8.5 - The laboratory does not periodically review and, where necessary, revise documents to ensure continuing suitability and compliance with applicable requirements. SOPs do not accurately reflect all phases of current laboratory | | CAR 22033 (attached) Expected |

| Hydrosphere Research Environmental Services, Inc. | E82295 | July 13-14, 2022 | Jack Farrell – AEX |

PARAMETERS SURVEYED:

Non-Potable Water – Toxicity; Solid and Chemical Materials - Toxicity

| (1) I.D. PREFIX TAG | (2) SUMMARY STATEMENT OF DEFICIENCIES | (3) LABORATORY'S PLAN OF CORRECTION (Each corrective action should be cross-referenced to the appropriate deficiency) | (4) COMPLETION DATE |
|---|---|---|---|
| | activities. SOPs have incorrect or obsolete Standard references. REPEAT DEFICIENCY. Examples include but are not necessarily limited to:<br>A. SOP PRO-011.01 (Rev. 1, Effective 1/18/17) ("Compliance with NELAC 2003 Standards") is obsolete but was provided for review. The current standard is the 2016 TNI Standard.<br>B. SOP PRO-009.03 (Rev. 3, Effective 2/21/12) - References the obsolete 2003 NELAC Standard.<br>C. SOP PRO-027.00 (Original, Effective 8/30/10) - References the obsolete 2003 NELAC Standard and an obsolete version of the Hydrosphere Research Quality Manual, June 21, 2004, Section 21.<br>D. SOP PRO-033.01 (Rev. 1, Effective 1/29/19) – References the obsolete 2003 NELAC Standard.<br>E. SOP ANL-004.03 (Rev. 3, Effective 3/18/13) - References the obsolete 2003 NELAC Standard.<br><br>**AEX Evaluation: The Corrective Action Plan is Not Accepted.** The root cause analysis in the plan states that many SOPs were changed on the server but were not implemented, but the plan does not state why they were not implemented. The plan does not state what actions the laboratory is taking to ensure that does not reoccur unless it was stated in the truncated "Actions Taken & Results" section of CAR 22033 and not visible. Please provide the complete wording for this section. If the information is not in the truncated section, please provide it also. Please see the comments below for Deficiency Examples 7.A through 7.E and the associated SOPs provided for review:<br>• Example 7.A – The laboratory updated the SOP to reference the 2016 or current TNI Standard and deleted "2003" from the SOP name, but the electronic link in Section 5.1 to the FLDOH website is for the FLDOH checklists based on the obsolete 2003 NELAC Standard. The FLDOH checklists based on the 2016 TNI Standard are not available online. The laboratory is encouraged to contact FLDOH if it wants to obtain them. Note: The effective date of the revised SOP is not consistent with the corrective action plan submitted for Deficiency #4 above. The effective date was updated to 09/06/22 which is not the date of the original version of the SOP.<br>• Examples 7.B, 7.C, and 7.E – The laboratory updated the SOP to reference the 2016 or current TNI Standard.<br>• Example 7.D - The laboratory updated the SOP to reference the 2016 or current TNI Standard, but the laboratory did not update the SOP name and revision number. They are still PRO-033.01, Rev. 1. Please see the AEX Evaluation of Deficiency #4 above. | Completion 06/01/23 Revised CAR See Comment section |

Non-Potable Water – Toxicity; Solid and Chemical Materials - Toxicity

| (1) I.D. PREFIX TAG | (2) SUMMARY STATEMENT OF DEFICIENCIES | (3) LABORATORY'S PLAN OF CORRECTION (Each corrective action should be cross-referenced to the appropriate deficiency) | (4) COMPLETION DATE |
|---|---|---|---|
| | | | |
| 8. | TNI V1M1, 4.3.2.2(c) – The laboratory's document control procedure does not ensure that invalid or obsolete documents are promptly removed from all points of issue or use, or otherwise assured against unintended use. The assessor was able to identify at least one obsolete SOP that was contained in the official SOP binder (i.e. TST-006.03).<br><br>**AEX Evaluation: The Corrective Action Plan is Not Accepted.** The plan does not address fixing the system to ensure that this deficiency does not reoccur. | | CAR 22034 (attached) Expected Completion 06/01/23 Revised CAR See Comment section |
| 9. | TNI V1M2, 4.2.1, 4.13.2.3, 4.13.3(g)(ii) - The laboratory is not implementing proper error correction procedures as required by the Data Correction SOP (PRO-027.00, Initial, Effective 8/30/10) and the TNI Standard. In the data packages reviewed (22036 and 22038), it was observed that there were cross outs on the data sheets (bench sheets) that obliterated the data such that it was unreadable, and on other data entries, there was no reason provided for the change made.<br><br>**AEX Evaluation: The Corrective Action Plan is Not Accepted.** The root cause analysis in the plan states that personnel were not trained to state the reason for the change, but Section 2.5 of the Data Correction SOP requires it. If personnel signed the read and understand list of this SOP, they were trained to state the reason for the change. The plan does not address monitoring the corrective action to assure its implementation and effectiveness. Note: The wording in CAR 22035 is truncated in the "Recommended Action" section. Please provide the complete wording for this section. | | CAR 22035 (attached) Expected Completion 06/01/23 Revised CAR See Comment section |
| 10. | TNI V1M2, 4.3.3.3 – The laboratory's document control system does not address the amendment of documents by hand pending the re-issue of the documents. The laboratory manually amends documents prior to formally revising and re-issuing them, but the procedures and authorities for such amendments are not defined.<br><br>**AEX Evaluation: The Corrective Action Plan is Not Accepted.** The new verbiage in the Quality Manual does not clearly define the authorities allowed to make, sign, and date the amendments to documents. The plan does not state if the handwritten amendments are made to each copy of the current document (official and copies in the laboratory) so they all match or not. The plan does not indicate that personnel are trained on the manual amendments. | | CAR 22036 (attached) Completed 06/01/23 Revised CAR See Comment section |

# STATEMENT OF DEFICIENCIES AND PLAN OF CORRECTION

PLEASE FOLLOW THESE INSTRUCTIONS:

In completing the laboratory's section of this form, you should closely observe the following:

1. Review the instructions.

2. Complete the form legibly.

3. Each deficiency is consecutively numbered with an I.D. Prefix Tag. Your plan of correction should repeat these numbers for identification of each deficiency in the I.D. Prefix Tag Column.

4. Reply to each deficiency cited by reporting the specific action you have taken to effect compliance and enter the corrective action below the deficiency. Use attachments if necessary. Enter the date it was accomplished in the Completion Date Column (4).

5. For any item which has not yet been corrected, report the specific action you intend to take to correct the deficiency. Enter the anticipated date of completion in the Completion Date Column (4).

6. You must present a realistic plan with reasonable time frames based upon the extent and nature of the deficiencies cited.

7. There should be no statements which can be construed as defaming some other party, such as another institution, employees of the institution, etc.

8. You should frame your plan of correction in language that can be readily understood by the lay person.

9. If you do not concur with any of the deficiencies stated, your rationale to support this position must be indicated on the form.

10. The form must be completed, signed and dated by a responsible official.

11. The original must be returned within thirty (30) calendar days. Retain copy for your files.

12. Failure to submit a timely reply will leave the Bureau of Public Health Laboratories no alternative except to submit a finding of non-compliance and deny or revoke certification.

# EcoAnalysts, Inc.

**Ecological Field Sampling, Biological Laboratory, and Consulting Services**

## FLORIDA LOCATION SPOTLIGHT

In 2022 EcoAnalysts acquired Hydrosphere Research, a state-certified bioassay laboratory in Alachua, FL. We specialize in toxicity assessments and offer expertise in various areas, including chronic and acute tests, toxicity identification evaluations, ion imbalance studies, sediment bioassays, and algal growth studies.

Our proficiency extends to product toxicity tests for both the US and European markets, aiding manufacturers in formulating products and ensuring regulatory compliance. EcoAnalysts is renowned for conducting Phase I, II, & III Toxicity Identification Evaluations (TIE), offering tailored solutions based on clients' unique needs and plant operations.

Additionally, we culture organisms in-house, ensuring healthier and more robust specimens for routine toxicity testing. This not only enables quick test setups but also contributes to the overall reliability of results.

EcoAnalysts Employee: 09/14/2023 to present (250530)

205 SE 16TH AVE, APT 31A, GAINESVILLE, FL | 7193571261
grace.albertson.art@gmail.com

## Summary

I am a senior Microbiology and Cell Sciences major within the University of Florida with a high interest in health fields for the scientific aspect and applications in helping others. My past work experience has provided me with a strong work ethic, leadership skills, and communicational skills.

## Experience

**Le Macaron French Pastries | FL, Gainesville**
**Assitant Manager | 07/2022 - Present**

- Maintained inventory and organization of goods within the store.
- Communicated with employees to build a strong team and handle problems efficiently.
- Managed events and networked to create a strong customer basis
- Trained incoming staff and organized employee schedules
- Food Safety Certified

**Le Macaron French Pastries | FL, Gainesville**
**Sales Associate | 06/2021 - 07/2022**

- Stocked items and completed both food sales and made coffees.
- Responsibly handled food with care, following safety guidelines.
- Established personal connections with customers, exceeding customer service expectations

## Skills

Leadership, Organizational skills, Computer literacy, Problem-solving

## Education

**University of Florida | Gainesville, FL**
**Bachelor of Science in Microbiology & Cell Science | 12/2023**

- 3.66 GPA
- Completed courses in microbiology, plant molecular genetics, human parasitology, organic chemistry, and python programming for bioinformatics.
- Volunteered in the Florida Museum of Natural History with fossil excavation.
- Experience within microbiology lab with gram staining, DNA amplification, microscopy, ELISA, and rudimentary diagnostics.
- Blood-borne pathogens training
- Biosafety training (CITI)

**Osceola County School for the Arts | Kissimmee, FL**
**High-School Diploma | 05/2021**

- 3.87 Unweighted GPA
- AP Capstone Scholar
- Dual Enrollment Student
- Arts Ambassador Volunteer
- President of the National Art Honor's Society
- Bright Futures Scholar

## Summary:

Strong background in laboratory techniques, microbiology analysis, biomass solid tests, and protein extraction and analysis. Familiarized with standard laboratory equipment and aseptic techniques during culture preparation and media/stock solution preparation. I also have experience in field water sampling and analysis, record keeping, and data analysis. I'm an open-minded person, bilingual (Spanish and English), responsible, punctual, have good interpersonal skills with a positive and friendly attitude, can work under pressure, quick learner who enjoy challenges and multitask. Flexible work schedule, including nightshift and weekends. I like to bring ideas to the team and have good work ethics. Good computer skills in both hardware and software.

## Education:

University of Puerto Rico, Humacao Campus (Dec 2015)

- *Bachelor Degree in Science with a major in Microbiology.*

## Job History:

**Deibel Laboratories** Gainesville, FL
*Microbiology Lab Manager* (Sep 2020 –2022)

- Contact clients about the testing and release of results.
- Manage and supervise the processing of client samples.
- Data entering using the LIMS system.
- Perform revisions and help maintain proper documentation.
- Perform training sessions.
- Perform pathogenic detection with the use of IQ check Prep Biorad PCR, Thermocycler PCR, BAX Hygiena PCR and BioMerieux Vidas 30 equipment.
- Perform validation testing on food processing plants.

*Microbiology Tech II* (Dec 2018 – Sep 2020)

- Perform daily laboratory equipment calibrations and environmental monitoring.
- Receive, document and test client samples for detection of pathogenic and indicator bacteria.
- Media preparation and use.
- Perform sensory analysis on samples.
- Perform water activity and moisture analysis.
- Perform sterility checks and efficacy on media.
- Perform plate reading on results.
- Inventory checking.

**Parabel USA** Fellsmere, FL

*Quality Control Technician* (Feb 2017 – May 2018)

- Measure moisture percentages using Loss-on Drying methods.
- Measure protein percentages using Near Infrared analyzers.
- Perform microbial inoculations and incubations for Aerobic Bacteria, Yeats & Mold and Coliforms analysis.
- Perform sanitizer testing.
- Biomass Total Solid and Ash analysis.
- Prepare SOPs.
- Perform air, swab and surface contact environmental tests.
- Perform lab equipment calibrations.
- Perform observations and analysis using the microscope.
- Sample preparation for sensory analysis.
- Perform quality control, record keeping, and data analysis.
- Water activity monitoring
- Pre-Operational and Post-Operational Inspections.
- ATP monitoring for Cleanliness

*Growth/Engineering Team Assistant* (Jan 2017 – Feb 2017)

- Preparation of Lemna samples and perform quality control tests.
- Perform water quality tests such as: pH, temperature, alkalinity, EC, TDS, DO and ORP.
- Measure wind speed and temperature using the anemometer.
- Fertilizer add-backs and inventory.
- Assist in Lemna harvesting.
- Assist in plumbing installation
- Assist in Automation and Control installation

**Proterro** Orlando, FL

*Microbiologist Laboratory Technician* (Jun 2016 – Nov 2016 )

- Biomass Total Solid and Ash determination, Protein Extraction and Analysis using Spectrophotometer.
- Algae bench scale photo bioreactor operation and sampling.
- Outdoor algae pilot plant photo bioreactor media and biomass sample collection and analysis.
- Performed water quality and media analysis such as: pH, alkalinity, EC, TDS, turbidity, nitrate, iron, copper, and ORP.
- Preparation of culture media and stock solutions.
- Sample preparation and preservation using the Cryopreservation method.
- Use of ozonation and autoclave techniques for sterilization.
- Sample preparation, observation and analysis using the microscope.
- Nutrient agar and plate preparation.
- Performed quality control, record keeping, and data analysis.
- GMP trained.

***McNeil (Pharmaceutics)*** Humacao, PR
*Business Improvement & Transformation* (Aug 2015 – Dec 2015)

- Prepare reports and graphs using collected data.
- Improve Time Usage and efficiency of SOPs.
- Prepare Power Point Presentations of results.

# INVITATION TO BID

## BIDDER ACKNOWLEDGEMENT FORM

**THIS FORM MUST BE COMPLETED AND RETURNED WITH YOUR BID**

**Bid Title: Laboratory Testing Services**

**Bid Number: 2025-47**

**Bid Opening Date & Time: 06/12/2025 @ 2:00 PM**

**Bid Opening Location: City Hall Training Room (breezeway)**

**Pre-Bid Meeting Date & Time: NA**

**Pre-Bid Meeting location: NA**

**Deadline for questions: 06/02/2025 @ 4:00 PM**

**Bids received after the above date and time will not be accepted.**

**Bidder's Name:** Pace Analytical Services, LLC

**Bidder's Mailing Address:** 8 East Tower Circle

**City, State, Zip Code:** Ormond Beach, FL 32174

**F.E.I.N:** 41-1821617

**Phone Number:** 386-672-5668 Office, cell 813-340-8100

**Email:** Mike.Valder@pacelabs.com

**If returning as "No Bid", please state the reason(s):**

I certify that this Bid is made without prior understanding, agreement, or connection with any corporation, firm, or person submitting a Bid for the same materials, supplies, or equipment, and is in all respects fair and made without collusion or fraud. I agree to abide by all conditions of this Bid and certify that I am authorized to sign this Bid for the Bidder. In submitting a Bid to the City of Ormond Beach, the Bidder offers and agrees that if the Bid is accepted, the Bidder will convey, assign or transfer to the City of Ormond Beach all rights, title, and interest in and to all causes of action it may

now or hereafter acquire under the Antitrust laws of the United States and the State of Florida for price fixing relating to the particular commodities or services purchased or acquired by the City of Ormond Beach. At the City's discretion, such assignment shall be made and become effective at the time the City tenders final payment to the Bidder.

## GENERAL CONDITIONS

**PUBLIC ENTITY CRIMES:** A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a Bid on a contract to provide any goods or services to a public entity, may not submit a Bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit Bids on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

**DISCRIMINATION:** Pursuant to Section 287.134(2)(a), Florida Statutes, an entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid or proposal on a contract to provide any goods or services to a public entity, may not submit a bid or proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit bid or proposal on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

**PUBLIC RECORDS/NON-CONFIDENTIALITY OF BIDS AND/OR PROPOSALS.** The City of Ormond Beach cannot and does not warrant the confidentiality of any information submitted in response to this solicitation. Florida law provides that municipal records shall at all times be open for personal inspection by any person, Section 119.01, F.S., The Public Records Law. Information and materials received by the City of Ormond Beach in connection with all Proposers' response shall be deemed to be public records subject to public inspection upon award, recommendation for award, or 30 days after bid opening, whichever occurs first. Section 119.071, F.S.

**NOTIFICATION OF BIDS AND RFP'S:** The City uses the services of DemandStar (www.demandstar.com) for notification of its Bids and RFP's on-line on the Internet. If you have received a copy of this Bid/RFP from any source other than DemandStar, please be aware that you may not have received the latest version of the Bid/RFP or any related addendums.

**SUBMISSION OF BIDS:** All Bids shall be submitted in a sealed envelope. The Invitation to Bid (ITB) number, title, and opening date shall be clearly displayed on the outside of the sealed envelope. The delivery of said Bid to the Purchasing Office on or before the specified opening date and time is solely and strictly the responsibility of the Bidder. Any Bid received by the Purchasing Office after the specified date and time will not be accepted. Bids must be submitted on forms provided by the City. No other forms will be accepted. Telephone, telefax and telegraph Bids will not be considered. No Bid may be modified after opening. **No Bid may be withdrawn after opening for a period of ninety (90) days unless otherwise specified.**

**EXECUTION OF BID:** Bid must contain a manual signature of authorized representative in the space(s) provided. Bids must be typed or printed in ink. Use of erasable ink is not permitted. All corrections made by Bidder to any Bid entry must be initialed. The company name and Federal

Employer Identification Number (F.E.I.N.) or Social Security (S.S.) number shall appear in the space(s) provided.

**BID OPENING:** Bids shall be opened and the name of the Bidders and the bid amounts shall be read publicly. Bid amounts announced at the bid opening are subject to change due to math errors made by Bidders

**BID TABULATION:** Any Bidder wishing to receive a copy of the Bid tabulation is required to enclose a stamped, self-addressed envelope with their Bid response. Bid opening tabulations will be posted on DemandStar.com.

**CLARIFICATION/CORRECTION OF BID ENTRY:** The City of Ormond Beach reserves the right to allow for the clarification of questionable entries and for the correction of obvious mistakes.

**INTERPRETATION:** Any questions concerning conditions and specifications shall be directed to the Purchasing Coordinator. Those interpretations which may affect the eventual outcome of this Bid will be furnished in writing to all prospective Bidders. No interpretation shall be considered binding unless provided in writing by the City of Ormond Beach.

**MINORITY POLICIES:** The City of Ormond Beach, Florida, encourages the full participation of Disadvantaged and Women Business Enterprises (D&WBE) in the provision of goods and services.

**RESPONSIBILITY DETERMINATION:** Pursuant to the provisions of Florida Statutes Chapter 287.05701, the City does not request or consider a vendor's social, political, or ideological interests in making a responsibility determination.

**REGISTRATION AND RISK MANAGEMENT REQUIREMENTS:** Any Vendor delivering a product or Contractor doing work for the City of Ormond Beach, on City property shall be **registered** to do business in the City of Ormond Beach and shall provide **proof of**, abide by and maintain, for the entire life of the Contractual Agreement, including any and all approved time extensions, such **insurance** as is required by City ordinance, which shall be incorporated in and made part of the contract documents. A vendor using a common carrier is exempt from this requirement. This proof of insurance will be required prior to commencement of any **on-site** work. Refer to **Exhibit A** for the City's registration and risk management requirements.

**LICENSES AND PERMITS:** The vendor is responsible for obtaining all necessary permits and licenses to comply with all Federal, State, and Local laws, rules and regulations required to perform work in accordance with the specifications.

**LOCAL VENDOR PREFERENCE:** The City *may* give a local preference in the amount of three percent (3%) of the bid price or $25,000, whichever is less. The bid price shall include not only the base bid price but all alternatives which are part of the bid and actually purchased or awarded. A Local Vendor Affidavit of Eligibility shall accompany the bid submittal to be considered valid.

**PRICING:** Firm prices shall be proposed and include FOB DESTINATION, all packing, handling, shipping charges and delivery to any point within the City of Ormond Beach to a secure area or inside

delivery. Prices shall be valid for ninety (90) days from date of Bid opening. In the event there is a discrepancy between the unit price and the extended amount, the unit price will prevail.

**COST OF BID PREPARATION:** No reimbursement will be made by the City of Ormond Beach for any costs incurred in the preparation of the Bid, proposal or presentation.

**EQUIPMENT:** Contractor shall own and have in good repair all equipment necessary to perform the described services in particular and the equipment necessary to complete related tasks. The City will not provide any equipment to do this work.

**ADDITIONAL TERMS AND CONDITIONS:** The City of Ormond Beach reserves the right to reject Bids containing any additional terms or conditions not specifically requested in the original conditions and specifications.

**TAXES:** The City of Ormond Beach is exempt from Federal Excise Taxes and all sales taxes. The Contractor is responsible for paying any and all taxes associated with this agreement.

**DISCOUNTS:** All discounts EXCEPT THOSE FOR PROMPT PAYMENT shall be considered in determining the lowest net cost for Bid evaluation purposes. If a Bidder offers a discount, it is understood that the discount time will be computed from the date of satisfactory delivery, at the place of acceptance, and receipt of correct invoice, at the office specified, whichever occurs last.

**SILENCE OF SPECIFICATIONS:** The apparent silence of any specification and any supplemental specifications as to any details or the omission from same of any detailed description concerning any point shall be regarded as meaning that only the best commercial practices are to prevail and that only materials of first quality and correct type, size, and design are to be used. All workmanship is to be first quality. All interpretations of the specifications shall be made upon the basis of this statement.

**ASSIGNMENT:** Any purchase order or contract issued pursuant to a Bid and the monies which may become due thereunder are <u>not</u> assignable except with the prior written approval of the City Manager or City Commission, whichever authorized the purchase.

**LIABILITY:** The vendor shall hold and save the City of Ormond Beach, its officers, agents, and employees harmless against claims by third parties resulting from the vendor's or supplier's breach of contract or negligence, including all attorney's fees and costs, and shall pay any and all damages, fees, and costs assessed on behalf of the City. The City expressly reserves all rights, privileges and benefits of sovereign immunity.

**PATENTS AND ROYALTIES:** The Bidder, without exception, shall indemnify and save harmless the City of Ormond Beach and its employees from liability of any kind, including cost and expenses for or on account of any copyrighted, patented, or unpatented invention, process, or article manufactured or used in the performance of the contract, including its use by the City of Ormond Beach. If the Bidder uses any design, device, or materials covered by letters, patent or copyright, it is mutually agreed and understood without exception that the Bid prices shall include all royalties or cost arising from the use of such design, device, or materials in any way involved in the work.

**SAFETY WARRANTY:** The selling dealer, distributor, supplier, and manufacturer shall be responsible for compliance with all Federal, State and local laws, rules and regulations concerning the equipment and/or service specified and the use thereof, applicable and effective on the date of manufacture including safety and environmental standards as apply to both private industry and governmental agencies.

**WARRANTY:** The Bidder agrees that, unless otherwise specified, the services furnished under the Bid shall be covered by the most favorable commercial warranty for comparable services, and that the rights and remedies provided herein are in addition to and do not limit any rights afforded to the City of Ormond Beach by other provision of the Bid.

**AWARDS:** The City reserves the right, in its sole discretion, as the best interest of the City may require, to make award(s) by individual item, group of items, all or none, or a combination thereof; on a geographical basis and/or with one or more vendors or contractors; or to reject any and all Bids or waive any minor irregularity or technicality in the Bids received. The City is not bound to award any contract(s) based solely on lowest quoted price. The City also reserves the right to negotiate separately with competing bidders as deemed to be in the City's best interest.

**REJECTIONS RIGHTS:** The City of Ormond Beach reserves the right, at any time, to modify, waive or otherwise vary the terms and conditions of this Bid including, but not limited to, the deadlines for submission and submission requirements. The City further reserves the right to reject any or all submittals, to cancel or withdraw this Bid at any time and to negotiate with any party prior to or after submittal of Bid.

**TERMINATION:** The City of Ormond Beach reserves the right to terminate any contract or agreement resulting from this BID at any time.

**PURCHASE ORDERS:** Purchase Orders will be issued for all purchases exceeding $2,500.00.

**NON-APPROPRIATION OF FUNDS:** In the event sufficient budget funds are not available for a new fiscal period, the CITY shall notify the VENDOR/CONTRACTOR of such occurrence and the contract shall terminate on the last day of the current fiscal period, without any penalty or expense to the CITY of any kind whatsoever.

**OTHER AGENCIES:** All Bidder(s) awarded contracts from this bid or proposal may, permit any municipality or other government agency to participate in the contract under the same prices, terms, and conditions, if agreed to by both parties.

It is understood that at no time will any city, municipality, or other agency be obligated for placing an order for any other city, municipality, or agency: nor will any city, municipality, or agency be obligated for any bills incurred by any other city, municipality, or agency. Further, it is understood that each agency will issue its own purchase orders to the awarded bidder(s).

**COMPLIANCE WITH FLORIDA PUBLIC RECORDS LAW:**

Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.

(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.

(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.

(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

**IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:**

Ref: Fla. Stat. §119.0701(2016)

**THE CITY OF ORMOND BEACH RESERVES THE RIGHT TO REJECT ANY OR ALL BIDS, AND TO WAIVE INFORMALITIES, AS MAY BE DEEMED TO BE IN THE BEST INTEREST OF THE CITY.**

**DEFINITIONS:**

**BIDDER** - The term used herein refers to any individual, company or other entity submitting a Bid to the CITY in response to an Invitation to Bid (ITB).

**CITY/OWNER** - The terms CITY or OWNER herein refers to the City of Ormond Beach, Florida, and its duly authorized representatives.

**CONTRACT MANAGER** - The term refers to the CITY representative(s) who will be acting on the CITY's part to manage all the Contract actions.

**FURNISH** - The terms "furnish", "furnish and install", "install", and "provide" or words with similar meaning shall be interpreted, unless otherwise specifically stated, to mean "furnish and install, complete in place and ready for service".

**PROJECT** - The total construction of which the Work to be provided under the Contract Documents may be the whole, or a part as indicated elsewhere in the Contract Documents.

**PROJECT MANUAL** - The term "Project Manual" includes Bid Requirements, General Conditions, Scope of Work, Specifications, Risk Management requirements and any associated attachments.

**SPECIFICATIONS** - The term refers to those portions of the Project Manual consisting of written technical descriptions of materials, equipment, construction systems, standards and workmanship as applied to the Work and certain administrative details applicable thereto.

**SUPPLIER** - The term used herein refers to any individual, company or other entity supplying services pursuant to the terms, conditions, and quotations of a Bid or Proposal.

**VENDOR, CONTRACTOR, or VENDOR/CONTRACTOR** - The term(s) used herein refers to any individual, company, or other entity that is awarded a contract by the CITY, pursuant to the terms, conditions, and quotations of a bid/proposal.

**WORK** - The entire, completed job or the various separately identifiable parts thereof, required to be furnished under the Contract Documents. Work is the result of providing goods and/or services, furnishing labor and/or furnishing and incorporating materials and equipment into the construction, as required by the Contract Documents.

### VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.

3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.

4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.

5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

**CITY OF ORMOND BEACH**

**DRUG-FREE WORKPLACE CERTIFICATION**

**IDENTICAL OR "TIE" BID**: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more Bids which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a Bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie Bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

Give each employee that engages in providing the commodities or contractual services that are under proposal a copy of the statement specified in subsection (1).

In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under proposal, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) calendar days after such conviction.

Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

## LOCAL VENDOR PREFERENCE

The following is taken from the Code of Ordinances, City of Ormond Beach, Chapter 2, Financial Matters, Division 3, Purchasing, Article IX, Section 2-304:

Except where otherwise provided by federal or state law or other funding source restrictions, purchases of goods and services under the Purchasing Code shall give preference to local businesses as follows:

(a) Under a competitive bid solicitation, the City *may* give a local preference in the amount of three percent (3%) of the bid price or $25,000, whichever is less. The bid price shall include not only the base bid price but all alternatives which are part of the bid and actually purchased or awarded.

(b) A *local business* shall mean a vendor that has a valid occupational license issued by the City of Ormond Beach at least one year prior to bid opening, with a physical business address located within the municipal boundaries of the City of Ormond Beach from which the vendor operates or performs business on a day-to-day basis that is a substantial component of the goods or services being offered and has provided a Local Vendor Affidavit of Eligibility at the time the bid is submitted.

(c) A *Local Vendor Affidavit of Eligibility* shall accompany the bid submittal to be considered valid and shall include, but not be limited to, the following information:

(1) A physical business and location address;

(2) A copy of current City of Ormond Beach Local Business Tax Receipt (occupational license) to verify the business location;

(3) Proof of payment of business tax and real property tax due to the City of Ormond Beach;

(4) A copy of the firm's most recent annual corporation report to the Florida Division of Corporations;

(5) Any additional information necessary to verify local status.

(d) *Exemptions:* Goods or services provided under a cooperative purchasing agreement, contracts for professional services subject to Consultants' Competitive Negotiation Act, purchases or contracts funded in whole or part by a governmental entity that does not allow local preferences, purchases made under another agency's agreements or contracts (piggybacking), purchases under emergency or sole source situations and procurements subject to formal proposals including but not limited to request for proposals (RFP) or continuing contract, and request for quotes (RFQ) versus straight competitive bids.

(e) This section shall not be deemed to require the granting of a local preference, and nothing herein prohibits the award of a contract to a non-local vendor where such award is in the public interest.

# Local Vendor Affidavit of Eligibility

I certify that my company meets all of the following qualifications to be eligible for the local vendor preference:

a. My company has a physical business address located within the municipal boundaries of the City of Ormond Beach which is used to perform business on a day-to-day basis.
b. My company holds any business (occupational) or contractor license required by the City of Ormond Beach at least one year prior to bid opening.
c. Payment of business tax and real property tax due to the City of Ormond Beach is current
d. My company is in compliance with annual reporting to the Florida Division of Corporations

TaxSys

**PLEASE DO NOT WRITE ON THIS STUB**

## Important information – Please read carefully

The statement, **"Prior year taxes are due. Please call (386) 736-5938."** indicates that the parcel has delinquent prior year taxes. Certified funds are required.

**Current year taxes become delinquent on April 1.** On April 1, all delinquent parcels are assessed a minimum charge of 3% in accordance with Florida Statute. Delinquent real estate parcels will incur advertising and auction listing fees. **A tax certificate (lien) also will be sold by June 1.** Payment must be made in certified funds after a tax certificate is issued. Delinquent tangible parcels will incur an advertising fee, the cost of collection will be assessed, and **a warrant will be issued by June 1**. If the tangible bill remains unpaid, the property will become subject to **seizure and sale at public auction.**

If this parcel or tangible personal property has been sold, please send this bill to the new owner or return it to the Volusia County Tax Collector. For tangible personal property, **if you were the owner as of January 1 of the tax year**, you may be responsible for paying the taxes **even if you have closed the business**.

**Notice to taxpayers entitled to homestead exemption:** If your income is low enough to meet certain conditions, and the total mortgages and liens against the parcel are low enough, **you may qualify for a deferred tax payment plan** on homestead property. Deferral of taxes does not excuse the debt. The deferred amount will earn interest and **must be paid at a later date.** Information and application to determine eligibility are available at any Tax Collector office location.

**Prepayment of estimated tax by installment method:** Under certain conditions, taxes may be prepaid for the **future tax year** by quarterly installments billed in June, September, December, and March. If interested, please submit an application to the Tax Collector office by **April 30**. Installment applications can be found online at vctaxcollector.org/pay. To obtain a paper application, please visit vctaxcollector.org/taxes or visit any Tax Collector office location. It is not necessary to reapply if you participated in the plan during the previous tax year and made timely payments.

The **taxing authorities** are responsible for setting the ad valorem millage rates. The levying authorities are responsible for setting non-ad valorem assessments.

The **Volusia County Property Appraiser** is responsible for the preparation of the current ad valorem tax roll, including the assessed value, exemptions, taxable value, assessed owner(s) name and mailing address, property address and legal description. You may reach the Property Appraiser's Office at (386) 736-5901 or vcpa@volusia.org.

The **Tax Collector** is responsible for the preparation and mailing of tax notices based on the information contained on the current tax roll certified by the Volusia County Property Appraiser and non-ad valorem assessments provided by the levying authorities, and for the collection and distribution of tax dollars to the various taxing authorities.

## Important dates to remember

**March 1** Deadline to file for exemptions for the next tax year. Application is filed with the Volusia County Property Appraiser's office.

**March 31** Deadline for Working Waterfront, Affordable Rental Housing, or Homestead Tax Deferral applications for the current tax year. The application is filed with the Tax Collector.

**March 31** Last day for full payment without penalty. Also the final day for making partial payments. Unpaid balances become delinquent April 1.

**April 30** Deadline for new quarterly installment plan applications for the next tax year. Must be filed with the Tax Collector. No need to reapply if you participated in the plan during the previous tax year and made timely payments.

## Important payment information

- Please do not staple, tape, or paperclip your payment to this stub.
- Verify that the legal written line and the numerical amount of your check match and reflect the exact amount due for the period in which you are paying.
- Verify that you have signed the check made payable to: **Will Roberts - Tax Collector.**
- Please use the enclosed return envelope if you choose to mail your payment or mail to:

**Will Roberts - Tax Collector 123 W. Indiana Avenue Room 103 DeLand, FL 32720**

TaxSys

**PLEASE DO NOT WRITE ON THIS STUB**

## Important information – Please read carefully

The statement, **"Prior year taxes are due. Please call (386) 736-5938."** indicates that the parcel has delinquent prior year taxes. Certified funds are required.

**Current year taxes become delinquent on April 1.** On April 1, all delinquent parcels are assessed a minimum charge of 3% in accordance with Florida Statute. Delinquent real estate parcels will incur advertising and auction listing fees. **A tax certificate (lien) also will be sold by June 1.** Payment must be made in certified funds after a tax certificate is issued. Delinquent tangible parcels will incur an advertising fee, the cost of collection will be assessed, and **a warrant will be issued by June 1.** If the tangible bill remains unpaid, the property will become subject to **seizure and sale at public auction.**

If this parcel or tangible personal property has been sold, please send this bill to the new owner or return it to the Volusia County Tax Collector. For tangible personal property, **if you were the owner as of January 1 of the tax year**, you may be responsible for paying the taxes **even if you have closed the business.**

**Notice to taxpayers entitled to homestead exemption:** If your income is low enough to meet certain conditions, and the total mortgages and liens against the parcel are low enough, **you may qualify for a deferred tax payment plan** on homestead property. Deferral of taxes does not excuse the debt. The deferred amount will earn interest and **must be paid at a later date.** Information and application to determine eligibility are available at any Tax Collector office location.

**Prepayment of estimated tax by installment method:** Under certain conditions, taxes may be prepaid for the **future tax year** by quarterly installments billed in June, September, December, and March. If interested, please submit an application to the Tax Collector office by **April 30**. Installment applications can be found online at vctaxcollector.org/pay. To obtain a paper application, please visit vctaxcollector.org/taxes or visit any Tax Collector office location. It is not necessary to reapply if you participated in the plan during the previous tax year and made timely payments.

The **taxing authorities** are responsible for setting the ad valorem millage rates. The levying authorities are responsible for setting non-ad valorem assessments.

The **Volusia County Property Appraiser** is responsible for the preparation of the current ad valorem tax roll, including the assessed value, exemptions, taxable value, assessed owner(s) name and mailing address, property address and legal description. You may reach the Property Appraiser's Office at (386) 736-5901 or vcpa@volusia.org.

The **Tax Collector** is responsible for the preparation and mailing of tax notices based on the information contained on the current tax roll certified by the Volusia County Property Appraiser and non-ad valorem assessments provided by the levying authorities, and for the collection and distribution of tax dollars to the various taxing authorities.

## Important dates to remember

**March 1** Deadline to file for exemptions for the next tax year. Application is filed with the Volusia County Property Appraiser's office.

**March 31** Deadline for Working Waterfront, Affordable Rental Housing, or Homestead Tax Deferral applications for the current tax year. The application is filed with the Tax Collector.

**March 31** Last day for full payment without penalty. Also the final day for making partial payments. Unpaid balances become delinquent April 1.

**April 30** Deadline for new quarterly installment plan applications for the next tax year. Must be filed with the Tax Collector. No need to reapply if you participated in the plan during the previous tax year and made timely payments.

## Important payment information

- Please do not staple, tape, or paperclip your payment to this stub.
- Verify that the legal written line and the numerical amount of your check match and reflect the exact amount due for the period in which you are paying.
- Verify that you have signed the check made payable to: **Will Roberts - Tax Collector.**
- Please use the enclosed return envelope if you choose to mail your payment or mail to:

**Will Roberts - Tax Collector 123 W. Indiana Avenue Room 103 DeLand, FL 32720**

## Have your bill sent directly to your inbox!

## EXHIBIT "A"

**A. Payment and Performance Bonds**

1. Except as otherwise provided herein, the Contractor shall, prior to beginning performance, deliver to the City, and the City shall record in the public records of Volusia County, Florida, the Contractor's Payment and Performance Bond in an amount equal to the full amount of the Contract.

2. **(a)** Payment and Performance Bonds shall not be required for any contract except those which are for the construction of a public building, for the prosecution and completion of a public work (as described in Section 180.06, **Florida Statutes,** as amended from time to time) or for repairs upon a public building or public work (as described in Section 180.06, **Florida Statutes**, as amended from time to time).

   **(b)** With respect to those Contracts for which Payment and Performance Bonds are otherwise required:

      **i.** Unless the City Manager, or designee, determines such Bond to be necessary to protect the interests of the City, no Contractor shall be required to provide a Payment and Performance Bond for any Contract which is for $25,000.00 or less.

      **ii.** Upon the request of the contractor, good cause shown by the Contractor, and a determination that the public health, safety and welfare will be sufficiently protected, the City Commission may exempt the contractor from the requirement of providing a Payment and Performance Bond for any Contract which is for more than $25,000.00 but is less than $200,000.00.

3. The Payment and Performance Bond shall list the Contractor as Principal and be issued by a surety insurer authorized to do business in Florida as a surety and listed as an acceptable surety in the Federal Register.

4. The Payment and Performance Bond shall be executed pursuant to Section 255.05, **Florida Statutes**, and be in a form substantially similar to the form set forth in Section 255.05(3), **Florida Statutes**.

5. The Payment and Performance Bond shall specifically provide coverage for delay damages due to a default by the Contractor.

6. The Payment and Performance Bond shall not make the Contract part of the Bond agreement.

7. In lieu of the Payment and Performance Bond, the Contractor may file with the Finance Director of the City, in an amount equal to the full amount of the Contract, cash, a money order, a certified check, a cashier's check, an irrevocable letter of credit, or a security of a type listed in Part II, Chapter 625, **Florida Statutes**.

8. In the event the surety on any Payment and Performance Bond furnished by the Contractor is declared bankrupt or becomes insolvent, or its right to do business in the State of Florida is terminated, the Contractor shall, within five (5) working days thereafter, substitute another Payment and Performance Bond and surety acceptable to the City.

9. The Contractor is totally and solely responsible for keeping its surety informed as to the Base Contract Price as bid, significant changes in the Project Scope, and the overall progress and completion of the Project for the entire life of the Contract.

10. The payment and performance bond requirements stated herein above shall not be applicable to service-related contracts unless otherwise determined by the City Manager in order to protect the health, safety and welfare of the general public.

## B. Contractual Provisions Relative to Risk Management

All contracts for any public works to be performed, and service-related contracts, for or on behalf of the City shall include at a minimum, the following, or substantially similar, provisions:

### 1. Hold Harmless and Indemnity

The Contractor agrees to assume liability for and indemnify, hold harmless, and defend the City, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Contractor, its agents, officers, contractors, subcontractors, employees, or anyone else employed or utilized by the Contractor in the performance of this Contract. The Contractor's liability hereunder shall include all attorney's fees and costs incurred by the City in the enforcement of this provision.

### 2. Payment on Behalf of City

The Contractor shall pay all costs of the City's legal defense, as may be selected by the City, for all claims described in the Hold Harmless paragraph.

Such payment on behalf of the City shall be in addition to any and all other legal remedies available to the City and shall not be considered to be the City's exclusive remedy.

### 3. Loss Control/Safety

Precaution shall be exercised at all times by the Contractor for the protection of all persons, including employees and property. The Contractor shall comply with all applicable laws, regulations and ordinances related to safety and health, shall make special efforts to detect hazardous conditions, and shall take prompt action when loss control/safety measures are reasonably necessary.

The City may order work to be stopped if conditions exist that present an immediate danger to persons or property. The Contractor acknowledges that such work stoppage will not shift responsibility for any damages from the Contractor to the City.

**4. Service Bond**

For Service-related contracts only, the City may require the Contractor to secure a service bond with a minimum $25,000 coverage limit for the period of the service agreement. The service bond covers dishonest acts of the contractor's employees against the City. A copy of the bond shall be provided to the City when the agreement commences.

Service-related contracts include and are not limited to businesses providing janitorial, pest control, general repair, security, carpet cleaning, locksmith, temporary employment, painting, moving services or other contracts as determined in the discretion of the Risk Manager as necessary to minimize loss.

## C. Contractor's Insurance

### 1. General

The Contractor, including service-related contractors, shall purchase and maintain for the entire life of the Project, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under the Contract Documents, whether such operations be by the Contractor, by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

### 2. Types of Insurance and Limits of Liability

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

**(a)** Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident

$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for coverage. However, if the contractor subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

**(b)** Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations
h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)
k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence

$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

**(c)** Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract.

ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

| | |
|---|---|
| $1 Million | Combined Single Limit for Bodily Injury and Property Damage |

**(d)** Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,0000 per occurrence.

**(e)** Builder's Risk

Contractor shall purchase Builder's Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

**(f)** Professional Liability, Malpractice and/or Errors and Omissions

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

**D. Requirements for Certificates of Insurance**

1. With the execution of the Contract Documents, the Contractor, including service-related contractors, shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall contain an endorsement that the coverage under the policies will not be canceled, non-renewed or materially changed until at least thirty (30) days' prior written notice of such cancellation, non-renewal or change (except for nonpayment of premium, which shall be ten (10) days) and a copy of the cancellation endorsement signed by an authorized representative of the insurer, be given to the City. The contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACORD FORM 25-S (7/90), or its successor form, and shall be made a part of the Contract Documents.

2. New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

3. If requested by the City, the contractor shall immediately furnish complete copies of the Contractor's insurance policies, forms and endorsements.

4. For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

5. If the Contractor fails to obtain and maintain for the life of the Project the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City form the amount due the Contractor for the work covered by the Contract.

**E. Policies of Insurance**

1. Except as otherwise provided in this Exhibit, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-), in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carrier; written confirmation is required.

3. All policies of insurance or certificates thereof referred to in this Exhibit shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability including products and completed operations and Automobile Liability policies of insurance and certificates thereof.

## REGISTRATION REQUIREMENTS FOR VENDOR/CONTRACTOR WORKING ON CITY PROJECTS

### Registration Requirements

VENDORS doing business within the City Limits must be registered with the City.

Requirements for registering a business are as follows:

Copy of City Business Tax Receipt (where your business is located).

Certificate of Insurance showing General Liability and Workers' Comp (or State Workers' Comp Exemption form).

Application Fee: $25.00 For more information, contact the City's Business Tax Receipt official at 386-676-3233 or btonline@ormondbeach.org You can apply online here: https://ormondbeachfl-energovweb.tylerhost.net/apps/selfservice#/home

### State Certified/Registered Contractors

All registered State contractors must be registered with Volusia County. Volusia County Contractor Licensing, 123 W. Indiana Ave., Rm 203, Deland, Fl. 32720 (386) 736-5957 contractorlicensing@volusia.org https://connectlivepermits.org/citizenportal/app/landing

State certified contractors have the option of registering with Volusia County, or providing information directly to the business tax receipt official, to include copy of State license, certificate of insurance and copy of local business tax receipt. This information is provided with the permit application.

If you have any questions regarding the above requirements, please contact the business tax receipt official at (386) 676-3233 or btonline@ormondbeach.org

# City of Ormond Beach

## Laboratory Testing Services

## Bid 2025-47

# BID RESPONSE FORM

THIS BID IS SUBMITTED TO:

Pace Analytical Services, LLC

8 East Tower Circle

Ormond Beach, FL 32174

Purchasing Coordinator
City of Ormond Beach
22 S. Beach Street
Room 101
Ormond Beach, Florida
32174
Phone: (386) 676-3223

The undersigned BIDDER proposes and agrees, if this Bid is accepted, to enter into an Agreement with the CITY in the form included in the Bid Documents to complete all Work as specified or indicated in the Bid Documents for the Contract Price and within the Contract Time indicated in this Bid and in full accordance with the Bid Documents.

BIDDER certifies that he has investigated the requirements to do business in the jurisdiction where the project is located, and that he is either qualified to do business or will obtain such prequalification prior to award of the contract.

BIDDER accepts all of the terms and conditions of the General Conditions. BIDDER will sign the Agreement (Contract) and submit the Contract security (when applicable) and other documents required by the Contract Documents within ten (10) days after the date of CITY's Notice of Award.

In submitting this Bid, BIDDER represents, as more fully set forth in the Agreement, that:

BIDDER has examined copies of all the Bid Documents and of the following Addenda:

| Addendum Date | Addendum Number |
|---|---|
| June 4th 2025 | No. 1 |
| June 11th 2025 | No. 2 |
| | |

Receipt of all of which is hereby acknowledged.

BIDDER has examined the site and locality where the Work is to be performed, when applicable, the legal requirements (federal, state and local laws, ordinances, rules and regulations) and the conditions affecting cost, progress or performance of the Work and has made such independent investigations as BIDDER deems necessary.

This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; BIDDER has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid; BIDDER has not solicited or induced any person, firm or a corporation to refrain from bidding; and BIDDER has not sought by collusion to obtain for himself any advantage over any other Bidder or over the CITY.

THIS BID IS SUBMITTED BY:

COMPANY NAME: Pace Analytical Services, LLC

VENDOR/CONTRACTOR LICENSE NUMBER: _____

ADDRESS: 8 East Tower Circle, Ormond Beach, FL 32174

PHONE NO.: 386-672-5668 EMAIL: David.Chaffman@pacelabs.com

SUBMITTER'S NAME: David Chaffman
(Typed or Printed in Ink)

TITLE: Director of Sales

**AUTHORIZED SIGNATURE**: I, _____ hereby
(Original Signature)

declare that I have read and fully understand the Invitation to Bid, including the General Conditions, Specifications and Drawings (when applicable) and that I am duly authorized to sign and submit this bid.

The CITY reserves the right to reject any and all bids, to waive informalities, and to accept any bid or parts thereof as the CITY, in its sole discretion, determines to be in the best interest of the CITY.

# City of Ormond Beach

## Laboratory Testing Services

## Bid 2025-47

**GENERAL INSTRUCTIONS:**

**Bid Delivery:** Submit one (1) signed and unbound original of the complete Bid packet and one (1) electronic file in pdf format, with all required attachments, by the closing date and time. Deliver Bids to:

Rob Hart
Purchasing Coordinator
Ormond Beach City Hall
Room 101
22 South Beach Street
Ormond Beach, Florida 32174

**Make sure the bid number is clearly visible on the outside of the delivery package. Bids delivered after the time and date specified will not be accepted.** For any question regarding bid delivery contact the purchasing office at 386-676-3223 or email rob.hart@ormondbeach.org

**Technical Questions:** Submit all technical questions regarding this Bid to the City's Purchasing Coordinator, Rob Hart, by e-mailing rob.hart@ormondbeach.org.

**TERM OF AGREEMENT:**

The initial term of this Agreement shall be for a period of **one (1) year a**nd will be automatically renewed for **four (4) additional one (1) year** periods unless either party provides at least ninety (90) days prior written notice to the other party of their intent not to renew the Agreement.

**COST ADJUSTMENTS:**

No later than June 1, of each contract year, the Contractor may petition the City through the Contract Manager for a rate adjustment to reflect the change in the cost of doing business, as measured by fluctuations in the Consumer Price Index (CPI), All Urban Customers, published by the U.S. Department of Labor, Bureau of Labor Statistics, for the preceding July 1-June 30 period. The maximum increase for any annual period shall be four (4%) percent which will only apply to the future year, increases will not be retroactive. The adjusted rate, if approved shall take effect on October 1, of the year in which approved.

## SCOPE OF WORK:

### GENERAL

The City of Ormond Beach invites qualified laboratories to submit Bid for an annual contract for Laboratory Testing Services. The successful contractor will be required to provide not less than 90% of the analyses noted in the Bid. **Lab results provided in this contract must be from a laboratory certified by the State of Florida.**

### 1. Minimum Requirements for the Contract Laboratory

Interested laboratories are requested to specifically meet or exceed the following minimum specifications:

a. The cost of all sample containers, paperwork, coolers, shipping kits, and preservatives will be included in the cost of the sample analysis.

b. The Contract Laboratory will pay shipping charges to and from designated City pickup locations. A local contact shall be designated for pickup of samples if requested.

c. The Contract Laboratory shall be required to provide pickup of samples 7 days per week with a minimum of 8 hours of advance notification from the City. There shall be no additional charge for meeting these requirements.

d. The Contract Laboratory shall be available a minimum of 7 days per week.

e. The report delivery times for routine parameter testing must not exceed 14 calendar days. Electronic reporting in PDF or any similar format is acceptable for meeting this turn-around requirement. Hard copies of reports are to be provided upon request for wastewater test results in addition to electronic reports. Water test results will require hard copies and electronic copies. Exceptions would be granted for those analytes that require more than 14 calendar days for the analyses to be completed.

f. Report formats are to be in a standard lab format that meets NELAC requirements. In addition, special report formats include EPA, Florida Department of Environmental Protection, and Volusia County Health Department formats. The laboratory may be asked to also furnish copies of raw data records sheets, result calculations, etc. for any samples submitted. All reports are to include a copy of the Chain-of-Custody (COC) form submitted with the samples. The laboratory and any of its subcontractors must participate in EPA's Annual DMR-QA studies and report required analytes corresponding to the Ormond Beach water reclamation facility (WRF).

g. The City of Ormond Beach is to be notified prior to sending any parameter to any subcontract laboratory. It is the intent of the City that all analysis be performed by the contract laboratory to the maximum extent feasible. PERCENTAGE OF SUBCONTRACTED WORK MAY NOT EXCEED TEN PERCENT (10%) of the samples **(the 10% limit refers to the number of samples, not to the cost per sample)**.

h. All analytical methods used for analysis will be state and EPA approved methodologies as specified in NELAC requirements. These methodologies can be, but are not limited to "Standard Methods", "Manual for the Certification of Laboratories Analyzing Drinking Water", "Test Methods for the Evaluation of Solid Waste (SE-846)", "EPA POTW Sludge Sampling and Analysis Guidance Document", and Radiochemical methodologies as stated in Federal Register 40 CFR 141. Methodologies used and the MDL must be accepted by the regulatory agency requiring the samples. Oil and Grease must be analyzed using the Hexane Extraction Method.

i. A specific person shall be designated for contact with the City of Ormond Beach for consultation services either by phone or in person, if necessary.

j. Laboratory personnel must be qualified in giving testimony, depositions or court appearances if requested by the City.

k. The laboratory will have the capability to analyze samples with the following matrices: potable water, reclaimed water, wastewater, groundwater, surface water and liquid/cake biosolids.

l. At a minimum, all analytical runs of the City of Ormond Beach samples will be required to include QC checks on 10% of the samples analyzed. The QC checks must meet the stricter of method, and/or NELAC quality assurance criteria. The QC generated will be submitted with the sample report. Contract laboratory QC will be monitored using these reports as well.

m. The laboratory shall have no service contracts that were cancelled in the previous five years due to failure to provide accurate testing results.

n. The City of Ormond Beach and its staff reserve the right to visit the Contract Laboratory for a tour of the facility, both prior to the award and during the duration of the contract. Prior to visiting the Laboratory facility, the City shall provide no less than 4 days, but no more than 7 days, advance notice to the facility.

In the event the Laboratory fails to comply with the reporting and analytical requirements set forth herein, the City of Ormond Beach shall issue to the Laboratory a written warning describing such failure. Should the Laboratory's noncompliance continue for four (4) consecutive weeks, with written warnings, the City of Ormond Beach will have the option to deduct from the invoice of reports not meeting the requirement an amount equal to 10% of the invoice total. If non-compliance with the 14 calendar day turn-around time continues for eight (8) consecutive weeks, with written warnings, the City of Ormond Beach will have the option to deduct from the invoice of reports an amount equal to 20% of the invoice total. Persistent and repeated failure of the

laboratory to comply with this 14 calendar day turn-around time in any 3 month interval may be interpreted as default for the purposes of this section.

**2. Bid Requirements/Information to be Provided with Bidder's Submission**

a. Copies of current State, NELAP, and EPA certifications or other documentation that firmly establishes, to the satisfaction of the City, the certification status of the laboratory for all listed parameters must be submitted with your Bid.

b. A price list must be submitted with your Bid showing individual parameter prices (for all listed parameters), method numbers, and method detection limits. Costs listed be shall be firm for the duration of the contract.

c. One (1) copy of the laboratory NELAC compliant "Quality Manual" shall be provided with your Bid.

d. A statement indicating the percentage of work to be subcontracted. Additionally, the statement shall also confirm that the laboratory has sufficient staffing to assume the responsibility for the testing to be performed on behalf of the City of Ormond Beach.

e. The results from the most recent previous two WP/WA/NELAC Proficiency Testing studies are to be included in your submittal.

f. Copies of the last two FDOH laboratory assessments with corrective actions taken are to be included in your submittal.

g. A description of the laboratory and its relevant prior experience, specifically as related to governmental agencies.

h. A list of four references who shall confirm instances of comparable testing performed for governmental entities. If these cannot be provided, please explain.

i. The name and resume, including employment history with the Company, of the **senior staff** individuals who will perform the testing. If the successful provider subcontracts work under this contract, the same information will be provided for the subcontract laboratory.

j. Documentation which establishes the length of time in business in the State of Florida (at least four (4) years required).

k. Laboratories with service contracts cancelled within the previous five years due to failure to provide accurate testing results are not eligible to bid.

Subcontract labs, if any, shall be required to submit information in items "a - c" and "e - g."

Pace® PEOPLE ADVANCING SCIENCE

## RESOLUTION

THE UNDERSIGNED, Secretary of Pace Analytical Services, LLC, a limited liability company duly organized and existing under the laws of the State of Minnesota, does hereby certify that, at a duly convened meeting of the Board of Directors of said company on February 25, 2019, at which meeting a quorum was present, the following resolution was duly promulgated and unanimously adopted:

"RESOLVED, that, by order and consent of the Board of Directors, **David Chaffman, Director of Sales & Marketing,** shall henceforth be empowered, authorized and directed for and on behalf of the Company to in all negotiations, bidding, concerns and transactions or any of it's agencies, departments, employees or agents."

I further certify that the foregoing Resolution has not been repealed, annulled, altered, or amended in any respect, but remains in full force and effect, and that the same was adopted pursuant to the strict provisions of the by-laws, the Certificate of Incorporation, and the law.

IN WITNESS WHEREOF, the undersigned has affixed his signature on behalf of the Company on this 27th day of October 2023.

Gregory C. Whitman
Secretary of Pace Analytical® Services, LLC

State of Minnesota, County of Hennepin

ANALYTICAL SERVICES

Addendum No. 1

June 04, 2025

**TO:** Perspective Bidders and Others Concerned

**SUBJECT:** Laboratory Testing Services, Bid No. 2025-47

**TO ALL BIDDERS:** You are requested to make all changes and/or additions contained in this Addendum to the Bidding Documents. Failure to acknowledge this Addendum in Proposal may result in rejection of bid.

**Questions and answers:**

**Q1: Does this bid require a bid bond?**

**A1:** No Bid Bond is required with this Bid.

**Q2: Can the city please provide the permit for the Reuse Effluent Analysis?**

**Can the city please provide the permit for the Wastewater analysis?**

**For the Reuse Effluent Analysis is asbestos required?**

**For the Reuse Effluent Analysis is dioxin required?**

**For the TTO is dioxin required?**

**For the Priority Pollutant is the Dioxin required?**

**For the Priority Pollutants is the asbestos required?**

**A2:** Permits have been attached to this Addendum.

Thle Reuse effluent analysis does not require asbestos. P-Dioxin is required in the Reuse effluent analysis.

Dioxin is not required for TTO.

Dioxin and asbestos are not required for Priority Pollutants.

**Q3: What is the annual Spend and how much has the city paid out on the contract annually for the last three years?**

**A3:** The annual expenditure for this contract is approximately $75K. The City has spent approximately $220K over the past three years.

**Q4: Please provide the current contract pricing or rate sheet for the incumbent laboratory.**

**A4:** Pace Analytical is the current Lab Services provider. A copy of their Unit Price submittal from the original bid award has been attached.

**Q5: Please share all relevant permits referenced.**

**A5:** Permits have been attached to this Addendum.

**Q6: Can the city confirm whether service, performance, or payment bonds are required for this contract?**

**A6:** Service, performance, or payment bonds are not required for this contract.

**Q7: Does the Bid Delivery require hard copy delivery of the bid Packet? (pg. 26)**

**A7:** To assist Bidders and reduce replication costs, the vendors shall have the option of supplying a paper copy of the “large documents” listed in the Scope of Work, 2. Bid Requirements/Information to be Provided with the Bidder’s Submission, as appearing on page 29, Item “a” and Items “c” through “k” inclusive. Bidders shall still submit a paper copy of Item 2.b. which states “A price list must be submitted with your Bid showing individual parameter prices (for all listed parameters), method numbers, and method detection limits. Costs shall firm for the duration of the contract.” While bidders have the option of supplying a paper copy of the items as noted, this addendum does not relieve the bidder of supplying the required documents in a digital format. In addition, should the bidder choose to omit submittal of certain documents in paper format, then it shall be he responsibility of the bidder to provide one copy of a “Table of Contents” or “List of Attachments” or “List of Exhibits” or other appropriately titled paper submittal that clearly identifies and lists each of the documents that are only provided in a digital format.

**Q8: Regarding the 10–20% invoice deductions, are those penalties assessed per sample/event or applied to the entire monthly invoice which may include on-time reports?**

**A8:** Invoice deductions are intended to be per sample/event.

**Q9: Do the reuse effluent primary and secondary drinking water standards include any other parameters not listed in parenthesis? If so, please list all tests needed.**

**A9:** See attached permit for required parameters.

**Q10: Does the industrial pretreatment TTO include any other methods not listed in parenthesis? E.g., Dioxin. If so, please list all required methods.**

**A10:** No other items are required for TTO.

**Q11: Does the Wastewater- Priority Pollutants include any other parameters not listed in Parenthesis? If so, please list all requirements.**

**A11:** No items outside the parameters listed in the parenthesis are included at this time.

**Q12: Does the 503.13 Sludge Rule include any other parameters not listed in parenthesis? If so, please list any additional requirements.**

**A12:** No items outside the parameters listed in the parenthesis are included at this time.

**Q13: Does the Water – Primary inorganics include Asbestos? Please list all tests required, as well as for Secondary Inorganics.**

**A13:** Asbestos testing is not required or included.

**Q14: Does the Water – Regulated SOCs include Dioxin? Please list all required tests.**

**A14:** Yes, Dioxin is included.

**Q15: Will PFAS NPDWR be included in the bid?**

**A15:** No.

**Q16: Can the City confirm all sample collection will be performed by the City.**

**A16:** City collects all samples besides cryptosporidium and Giardia. Prospective bidders to include sample collection for cryptosporidium and Giardia in their bid pricing.

**Q17: Will DO and or pH be measured by City in the field? Or done by lab out of hold.**

**A17:** Yes, DO and pH is measured by the City in the field for City collected samples when necessary.

**Q18: In addition to PDF reports, are any specific data (EDD) formats required?**

**A18:** No other specific data formats are required at this time.

**Q19: Does Fecal Coliform additional costs for weekend work include testing or just labor surcharge? Are the 104 samples a subset of the 365?**

**A19:** The line item for 104 samples of fecal coliform sampling is intended to be surcharge for labor and/or other items associated with performing work outside of standard hours. As such, the 104 samples is intended to be a subset of the 365.

**Q20: What is the frequency of the wastewater Enterococci sampling? I.e., would the 260 Samples be 5 days per week?**

**A20:** Correct, the enterococci sampling is scheduled for five (5) days per week.

**Q21: Would it benefit the city to add the following to the pricing sheet for PFAS for this bid:**

**533 for DW**

**537.1 for DW**

**and**

**1633 for biosolids**

**1633 for non potable water?**

**A21:** No, this is not being added to the sampling list at this time.

**Q22: In the water section of the pricing sheet is 200.9 for Thallium required or will 200.8 ICP-MS suffice?**

**A22:** 200.8 for Thallium will be accepted as long as it meets the regulatory limits.

**Q23: Are any methods on the pricing sheet required or will the laboratory certs suffice?**

**A23:** Methods on the pricing sheet and laboratory certificates are required.

**Q24: Is odor, color , dioxin and asbestos required in the Reuse analysis?**

**A24:** P-dioxin is required in the Reuse analysis. Odor, color, and Asbestos is not required for reuse analysis.

**Q25: DO should be a field parameter. In the water section is this required as it will be out of hold for the analysis? Is this a FDEP reportable parameter?**

**A25:** DO is typically sampled by City staff in the field when applicable, the pricing listed for DO is intended for unusual situations which may arise. The City understands the hold time.

**Q26: Does City of Ormond Beach allow for the proposal of alternate analytical methods, from those provided on the bid table?**

**A26:** Bidders are to use the methodologies shown in the pricing list or in the Addendums for formulating their pricing. Bidder is not to assume alternate methods will be approved.

**Q27: Does the city wish to have Dioxin and Asbestos testing included in the requested Primary Drinking Water list of analyses?**

**A27:** Dioxin is currently listed in the Water bid list. Asbestos testing is not required.

**Q28: What has been the frequency of City of Ormond Beach's need for weekend and emergency pickup and analytical services?**

**A28:** Weekend and emergency pickups are typically only done during extreme events (i.e. hurricanes, major utility line breaks) or in the case of unexpected personnel shortages. Average is approximately five (5) times per year.

**Q29: Please provide a copy of the current contract with pricing.**

**A29:** Pace Analytical is the current Lab Services provider. A copy of their Unit Price submittal from the original bid award has been attached.

**Q30: What has been the annual expenditures over the past 3 years of this contract?**

**A30:** The annual expenditure for this contract is approximately $75K. The City has spent approximately $220K over the past three years.

**Q31: The bid table instructs bidders to "See Permit" in multiple places. Will the city provide a copy of the related permit for bidders to reference when completing responses?**

**A31:** Yes. Permits have been attached to this addendum.

**Q32: Not all of the SOCs are listed in the request for Primary and Secondary drinking water standards. Are all of the SOCs required or just those methods listed?**

**A32:** All SOCs regulated by the department of health and FDEP are to be included for primary and secondary drinking water.

**Q33: From the pricing table, it looks like compliance samples are taken 7 days a week (each and every week). Is it accurate to assume that fecal coliform is needed over the weekend, every weekend, for permit compliance or is this just a rare occurrence that requires occasional support?**

**A33:** Fecal coliform samples are currently taken every day of the year for permit compliance.

**Q34: Question for 503 sludge: Will the city provide the permitted requirements for 503 sludge?**

**A34:** 503 sludge is included in the FDEP Water Reclamation Facility permit.

**Q35: The line item for the HAA5 method lists 522.1. Can a substituted method of 552.3 be used? The listed method is for 1,4 Dioxane.**

**A35:** Yes, please utilize 552 for HAA5.

**Q36: Is the groundwater sampling performed by the city, the bidder or another subcontractor?**

**A36:** Groundwater samples are collected by City staff.

**Q37: In the pricing document, a line item exists for "sample disposal fee for mercury". Is this related to routine environmental samples or perhaps mercury standards or elemental mercury? Ideally we'd like to know what the mercury waste matrix will be.**

**A37:** The disposal fee for mercury is intended to correspond to the disposal of the sample collected for the "Low level Mercury" with associated test method of 1631E.

**Q38: In the pricing document, the line item for acute bioassay does not specify the species needed. Is there permit that the city can provide? If not, please define which species are needed?**

**A38:** Permit has been attached to this addendum.

**The following attachments have been included with this Addendum:**

- **The City's current laboratory contract with Pace Analytical**
- **The City's current Consumptive Use Permit (CUP)**
- **The City's current Water Reclamation Facility (WRF) Permit**

Addendum No. 1

**The last day for questions has been revised to be 4:00 pm on June 10th, 2025.**

**The date and time for the bid opening has been revised to be June 18th, 2025 at 2:00 PM. Bid opening location is the City Hall Training Room (breezeway)**

The foregoing changes are hereby incorporated into the Bidding Contract Documents for the City of Ormond Beach – Laboratory Testing Services, Bid No. 2025-47 for the City of Ormond Beach.

City of Ormond Beach, Florida

City of Ormond Beach
22 S Beach St
Ormond Beach, FL 32174

SUBJECT: Consumptive Use Permit Number 2-127-8932-14
City of Ormond Beach

Dear Sir/Madam:

Enclosed is your permit as authorized by the St. Johns River Water Management District on June 13, 2012.

Please be advised that the period of time within which a third party may request an administrative hearing on this permit may not have expired by the date of issuance. A potential petitioner has twenty-six (26) days from the date on which the actual notice is deposited in the mail, or twenty-one (21) days from publication of this notice when actual notice is not provided, within which to file a petition for an administrative hearing pursuant to Sections 120.569 and 120.57, Florida Statutes. Receipt of such a petition by the District may result in this permit becoming null and void.

Permit issuance does not relieve you from the responsibility of obtaining permits from any federal, state and/or local agencies asserting concurrent jurisdiction over this work.

The enclosed permit is a legal document and should be kept with your other important records. Please read the permit and conditions carefully since the referenced conditions may require submittal of additional information. All information submitted as compliance with permit conditions must be submitted to the nearest District Service Center and should include the above referenced permit number.

Sincerely,

Victor Castro, Director
Bureau of Regulatory Support

PERMIT NO. 2-127-8932-14 DATE ISSUED: June 13, 2012
PROJECT NAME: City of Ormond Beach

A PERMIT AUTHORIZING:

This is a 5-year compliance review of a permit issued on May 11, 2004. The District proposes to authorize the use of 2,985.33 million gallons per year (mgy) (8.179 million gallons per day (mgd) average) of groundwater from the Floridan aquifer for public supply type use to serve a proposed population of 56,890 in 2024, and 105.1 mgy (0.29 mgd average) of surface water for landscape irrigation.

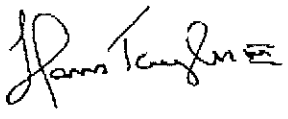
ISSUED TO:

City of Ormond Beach
22 S Beach St
Ormond Beach, FL 32174

Permittee agrees to hold and save the St. Johns River Water Management District and its successors harmless from any and all damages, claims, or liabilities which may arise from permit issuance. Said application, including all maps and specifications attached thereto, is by reference made a part hereof.



This permit does not convey to permittee any property rights nor any rights or privileges other than those specified herein, nor relieve the permittee from complying with any law, regulation or requirement affecting the rights of other bodies or agencies. All structures and works installed by permittee hereunder shall remain the property of the permittee.

This permit may be revoked, modified or transferred at any time pursuant to the appropriate provisions of Chapter 373, Florida Statutes and 40C-1, Florida Administrative Code.

PERMIT IS CONDITIONED UPON:

See conditions on attached "Exhibit A", dated June 13, 2012

AUTHORIZED BY: St. Johns River Water Management District
Division of Regulatory Services

By: 

Hans Tanzler
Executive Director

**"EXHIBIT A"**
**CONDITIONS FOR ISSUANCE OF PERMIT NUMBER 8932**
**City of Ormond Beach**
**DATED JUNE 13, 2012**

1. District authorized staff, upon proper identification, will have permission to enter, inspect, and observe permitted and related facilities in order to determine compliance with the approved plans, specifications, and conditions of this permit.

2. Nothing in this permit should be construed to limit the authority of the St. Johns River Water Management District to declare a water shortage and issue orders pursuant to Section 373.175, Florida Statutes, or to formulate a plan for implementation during periods of water shortage, pursuant to Section 373.246, Florida Statutes. In the event a water shortage is declared by the District Governing Board, the permittee must adhere to the water shortage restrictions as specified by the District, even though the specified water shortage restrictions may be inconsistent with the terms and conditions of this permit.

3. Prior to the construction, modification, or abandonment of a well, the permittee must obtain a Water Well Construction Permit from the St. Johns River Water Management District, or the appropriate local government pursuant to Chapter 40C-3, Florida Administrative Code. Construction, modification, or abandonment of a well will require modification of the consumptive use permit when such construction, modification, or abandonment is other than that specified and described on the consumptive use permit application form.

4. Leaking or inoperative well casings, valves, or controls must be repaired or replaced as required to eliminate the leak or make the system fully operational.

5. The permittee's consumptive use of water as authorized by this permit shall not interfere with legal uses of water existing at the time of permit application. If interference occurs, the District shall revoke the permit, in whole or in part, to curtail or abate the interference, unless the interference associated with the permittee's consumptive use of water is mitigated by the permittee pursuant to a District-approved plan.

6. The permittee's consumptive use of water as authorized by this permit shall not have significant adverse hydrologic impacts to off-site land uses existing at the time of permit application. If significant adverse hydrologic impacts occur, the District shall revoke the permit, in whole or in part, to curtail or abate the adverse impacts, unless the impacts associated with the permittee's consumptive use of water are mitigated by the permittee pursuant to a District-approved plan.

7. The permittee's consumptive use of water as authorized by this permit shall not significantly and adversely impact wetlands, lakes, rivers, or springs. If significant adverse impacts occur, the District shall revoke the permit, in whole or in part, to curtail or abate the adverse impacts, unless the impacts associated with the permittee's consumptive use of water are mitigated by the permittee pursuant to a District-approved plan.

8. The permittee's consumptive use of water as authorized by this permit shall not reduce a flow or level below any minimum flow or level adopted in Chapter 40C-8, F.A.C. If the permittee's use of water causes or contributes to such a reduction, then the District shall revoke the permit, in whole or in part, unless the permittee implements all provisions applicable to the permittee's use in a District-approved recovery or prevention strategy.

9. The permittee's consumptive use of water as authorized by the permit shall not cause or contribute to significant saline water intrusion. If significant saline water intrusion occurs, the District shall revoke the permit, in whole or in part, to curtail or abate the saline water intrusion, unless the saline water intrusion associated with the permittee's consumptive use of water is mitigated by the permittee pursuant to a District-approved plan.

10. The permittee's consumptive use of water as authorized by the permit shall not cause or contribute to flood damage. If the permittee's consumptive use causes or contributes to flood damage, the District shall revoke the permit, in whole or in part, to curtail or abate the flood damage, unless the flood damage associated with the permittee's consumptive use of water is mitigated by the permittee pursuant to a District-approved plan.

11. The District must be notified, in writing, within 30 days of any sale, conveyance, or other transfer of a well or facility from which the permitted consumptive use is made or with in 30 days of any transfer of ownership or control of the real property at which the permitted consumptive use is located. All transfers of ownership or transfers of permits are subject to the provisions of section 40C-1.612.

12. A District issued identification tag shall be prominently displayed at each withdrawal site by permanently affixing such tag to the pump, headgate, valve, or other withdrawal facility as provided by Section 40C-2.401, Florida Administrative Code. Permittee shall notify the District in the event that a replacement tag is needed.

13. All submittals made to demonstrate compliance with this permit shall have the CUP number 8932 plainly labeled on the submittal.

14. This permit will expire on May 11, 2024.

15. If the permittee does not serve a new projected demand located within the service area upon which the annual allocation was calculated, the annual allocation will be subject to modification by the District.

16. The permittee shall meter all service connections.

17. The permittee shall use the lowest quality water source, such as reclaimed water, surface/storm water, or alternative water supply, to supply the needs of the project when deemed feasible under District rules and applicable state law.

18. All irrigation shall be in conformity with the requirements set forth in subsection 40C-2.042(2), F.A.C.

19. The maximum annual groundwater withdrawals from the Floridan Aquifer System must not exceed:

    2,606.1 million gallons (7.140 million gallons per day average) in 2012,
    2,633.5 million gallons (7.215 million gallons per day average) in 2013,
    2,579.1 million gallons (7.066 million gallons per day average) in 2014,
    2,606.5 million gallons (7.141 million gallons per day average) in 2015,
    2,644.1 million gallons (7.244 million gallons per day average) in 2016,
    2,672.2 million gallons (7.321 million gallons per day average) in 2017,
    2,729.1 million gallons (7.477 million gallons per day average) in 2018,
    2,757.9 million gallons (7.556 million gallons per day average) in 2019,
    2,805.8 million gallons (7.687 million gallons per day average) in 2020,
    2,845.2 million gallons (7.795 million gallons per day average) in 2021,
    2,894.5 million gallons (7.930 million gallons per day average) in 2022,
    2,935.0 million gallons (8.041 million gallons per day average) in 2023, and

2,985.3 million gallons (8.179 million gallons per day average) in 2024.

20. The annual surface water allocation for urban landscape irrigation at Breakaway Trails is 105.1 million gallons (0.29 million gallons per day). More stormwater may be used when available.

21. The average daily water withdrawals (in millions of gallons) from each water source for each year indicated below must not exceed:

| Year | Division Avenue | State Route 40 | Hudson | Rima Ridge | Breakaway Trails |
|---|---|---|---|---|---|
| 2012 | 1.65 | 0.56 | 1.46 | 3.04 | 0.562 |
| 2013 | 1.65 | 0.57 | 1.49 | 3.08 | 0.562 |
| 2014 | 1.65 | 0.58 | 1.51 | 3.15 | 0.312 |
| 2015 | 1.65 | 0.59 | 1.58 | 3.15 | 0.312 |
| 2016 | 1.65 | 0.60 | 1.69 | 3.15 | 0.312 |
| 2017 | 1.65 | 0.61 | 1.76 | 3.15 | 0.312 |
| 2018 | 1.65 | 0.61 | 1.93 | 3.15 | 0.312 |
| 2019 | 1.65 | 0.61 | 2.01 | 3.15 | 0.312 |
| 2020 | 1.65 | 0.61 | 2.16 | 3.15 | 0.312 |
| 2021 | 1,65 | 0.61 | 2.28 | 3.15 | 0.312 |
| 2022 | 1.65 | 0.61 | 2.43 | 3.15 | 0.312 |
| 2023 | 1.65 | 0.61 | 2.45 | 3.15 | 0.312 |
| 2024 | 1.65 | 0.61 | 2.45 | 3.15 | 0.312 |

Surface water withdrawals from internal stormwater ponds and reclaimed water must result in a reduction in the withdrawal of groundwater for irrigation at Breakaway Trails beginning in 2014. The groundwater use for irrigation must not exceed an application rate of 32.2 inches/year.

22. Prior to use, all proposed wells must be equipped with totalizing flow meters. All flowmeters must maintain 95% accuracy, be verifiable and be installed according to the manufacturer's specifications.

23. The permittee must maintain the flow meters. In case of failure or breakdown of any meter, the District must be notified in writing within 5 days of its discovery. The defective meter must be repaired or replaced within 30 days of its discovery.

24. Total withdrawal from existing wells 21SR (District ID 17230), 22H (District ID 17231), 23H (District ID 17232), 24H (District ID 17233), 25H (District ID 17234), 26H (District ID 17235), 27H (District ID 17236), 28H (District ID 17237), 29H (District 17238), 30H (District ID 17239), 31H (District ID 17240), 32H (District ID 17241), 33H (District ID 17242), 34H (District ID 17243), 35R (District ID 17244), 36R (District ID 17245), 37R (District ID 17246), 38R (District ID 17247), 5D (District ID 17255), 6D (District ID 17256), 7D (District ID 17257), 9D (District ID 17258), 10D (District ID 17260), 16D (District ID 17266), 18SR (District ID 17269), 19SR (District 17271), 2 Breakaway Trails (District 17799), 3 Breakaway Trails (District ID 17800), 4 Breakaway Trails (District ID 17801), 8D (District ID 34004), 11D (District ID 34005), 12D (District ID 34006), 17D (District ID 34009), 39R (District ID 34010), 40R (District ID 34011), 41R (District ID 34012), 4D (District ID 137840), 15D (District 137841), and the Breakaway pump (District ID 34003) must be recorded continuously, totaled monthly, and reported to the District at least every six months for the duration of this permit using District Form No. EN-50. The reporting dates each year will be as follows:

Reporting Period Report Due Date

| | |
|---|---|
| January - June | July 31 |
| July - December | January 31 |

25. The permittee must have the flow meters calibrated once every 10 years within 30 days of the anniversary date of permit issuance, and recalibrated if the difference between the actual flow and the meter reading is greater than 5%. District Form No. EN-51 must be submitted to the District within 10 days of the inspection or calibration.

26. The permittee shall implement the reuse of reclaimed water to the maximum extent when technically, economically, and environmentally feasible.

27. Either the Annual Reuse Report or monthly wastewater flow records must be collected and submitted to the District's Palm Bay Service Center annually. All available reclaimed water and stormwater must be distributed for use, or used, by the permittee in place of higher quality water sources when deemed feasible under District rules and applicable state law.

28. The permittee must continue to conduct hydrologic and photographic monitoring at each of the ten wetland locations (R1 (ID 244110), R2 (ID 24111), R3 (ID 244109), R4 (ID 244038), R5 (ID 244112), Cypress Dome near P54, R6 (ID 244113), Chain Fern Marsh near P55, R7 (ID244114), Bayheard Near P56, RC1 (ID 244108), RC2 (ID 244107), and RC3 (ID 244106)) currently monitored by the permittee.

    If another agency or utility is monitoring the same water body, then the same monitoring equipment or data can, upon written approval by the District, be used with the owner's consent. A staff gauge may substitute for a shallow monitoring well if District staff determine that the substitution would be capable of capturing a complete range of water fluctuation.

29. Wetland Monitoring Data must be submitted electronically every six months in a District-approved computer accessible format. Specifically, data collected January through June must be submitted on or before July 31st of each year and data collected July through December must be submitted on or before January 31st of each year. Water level data (measured weekly without data loggers or daily at noon with data loggers) must be recorded by the permittee for each wetland monitoring site and must be reported as elevation relative to the North American Vertical Datum (NAVD) of 1988.

30. The permittee must calibrate and maintain in working order all data loggers and probes used for measuring water levels in monitor wells. Documentation of calibration data must be submitted to the District on January 31st of each year. A defective data logger and/or probe must be reported to the District and repaired or replaced and recalibrated within 30 days of its discovery.

31. By March 31st of each year, the permittee must submit a Wetland Annual Report summarizing the wetland monitoring efforts and comparing all of the wetland monitoring data recorded for the last calendar year and previous years. The report must include panoramic photographs taken in September at the established photo stations and graphs summarizing the water level data and available District radar rainfall data. The elevation of the upland/wetland interface must be indicated on the graphs. In addition, the report will include a brief analysis and discussion of trends and wetland health.

32. If the permittee is unable to obtain or maintain legal access to any of the monitoring sites referenced above, the permittee must notify SJRWMD in writing within 15 days of concluding that access to any specific site is not possible. Within 45 days of this notification, the permittee must submit an alternative site to modify the monitoring

network. Within six months of SJRWMD approval of the monitoring network modification, the permittee must implement the approved change(s).

33. The permittee must provide a report to the Palm Bay Service Center on an annual basis on January 31 that addresses irrigation use at Breakaway Trails. The report must include an updated map of the area irrigated by the Breakaway Trails irrigation system, the application rate, and the amount of ground water and surface water utilized for irrigation for the previous year.

34. The permittee must have groundwater samples collected and analyzed annually each May for the duration of the permit from permitted production wells 12D (34006), 16D (17266), 24H (17233), 36R (17245), 21SR (17230) and 3P (17253); monitor wells C-1 (244401) and RM-1D (244402); and saltwater interface monitor wells SWMW1 (244397), SWMW-2 (244398), SWMW-3 (244399) and SWMW-4 (244400).

    Sample Collection
    All groundwater samples must be collected in accordance with the Florida Department of Environmental Protection (DEP) standard operating procedures (SOP) (DEP-SOP-001/01) set forth in DEP Quality Assurance Rule 62-160, F.A.C.

    Wells must be purged in accordance with the appropriate procedure in DEP-SOP-001/01, as necessary to evacuate water from the well column and induce groundwater representative of the hydrogeologic formation into the well prior to sampling. Purged water must be sampled and analyzed in the field for the following parameters:

    Water Temperature (°C)
    pH (SU)
    Specific Conductance (umhos/cm or uS/cm)
    Turbidity (NTU)

    Purging must be documented using the Groundwater Sampling Log form referenced in the FDEP SOP or equivalent.

    Water samples must be stored on ice immediately after collection, and remain on ice until received by the laboratory. It is recommended that sample duplicates be taken to allow for laboratory errors or data loss, and these samples be stored by the laboratory for a minimum of 60 days to ensure backup sample availability should re-analyses be required.

    Laboratory Analyses

    Water samples must be analyzed in the laboratory for the following major ion suite:

    Calcium (mg/L)
    Magnesium (mg/L)
    Potassium (mg/L)
    Sodium (mg/L)
    Total iron (mg/L)
    Chloride (mg/L)
    Sulfate (mg/L)
    Bicarbonate Alkalinity (as mg/L $CaCO_3$)
    Carbonate Alkalinity (as mg/L $CaCO_3$)
    Total Dissolved Solids (mg/L)
    Specific Conductance (umhos/cm or uS/cm)

    Quality Assurance

The permittee must provide documentation that field instruments were properly calibrated prior to obtaining field measurements during purging and sampling.

All water quality analyses must be performed by a laboratory certified by the Florida Department of Health (FDOH) and the National Environmental Laboratory Accreditation Program (NELAP). All laboratory analyses must be by methods for which the laboratory has FDOH certification. All laboratory analyses must be completed within EPA holding times. If data is lost or a laboratory error occurs and the EPA holding time for an analysis has expired, the permittee must have the well re-sampled within 15 days of notification from the laboratory that a loss or laboratory error has occurred. The resample shall be collected according to the procedures described above, and analyzed for the field parameters and the major ion suite listed above.

With the exception of pH, laboratory analyses utilizing selective ion electrodes are not acceptable, because of the inadequate sensitivity of these methods. For the same reason, analyses using test kits typically used for field screening (e.g., Hatch and LaMotte) are also not acceptable.

All major ion analyses must be checked for anion-cation balance (equivalent concentration in meq/L), and must not exceed 5% difference. If the ion balance exceeds 5% difference, the permittee must review the data and include in the report submitted to the District a discussion of the cause or explanation of the imbalance. The permittee may also be required to have the sample re-analyzed if it is within acceptable holding times or have the well re-sampled. The resample shall be collected according to the procedures described above, and analyzed for the four field parameters and the major ion suite.

Reports

A report must be submitted to the District no later than the last day of the month after the sampling. The report for samples collected in May must be submitted to the District no later than June 30. The report must include the following:

Table summarizing results for field measurements and laboratory chemical analyses
Well sampling log
Field instrument calibration verification
Chain of custody forms (if outsourced)
Laboratory analytical report (if outsourced)

All data must be submitted to the District in a District-approved electronic format readable by the District's computerized database.

35. The permittee must have groundwater samples collected and analyzed quarterly for total chloride (mg/L) from all permitted and operational Ormond Beach production wells at the Division Avenue and State Road 40 wellfields for the permit duration according to the following schedule: Quarter 1 (March), Quarter 2 (June), Quarter 3 (September) and Quarter 4 (December).
    All groundwater samples must be collected in accordance with the Sample Collection and Quality Assurance procedures required in Condition 35. The water quality analyses for total chloride (mg/L) must be performed by a laboratory certified by FDOH and NELAP. With the exception of pH, laboratory analyses utilizing selective ion electrodes are not acceptable, because of the inadequate sensitivity of these methods. For the same reason, analyses using test kits typically used for field screening (e.g., Hatch and LaMotte) are also not acceptable.
    A report must be submitted to the District no later than the last day of the month after the sampling (for example, the report for samples collected in March must be submitted to the District no later than April 30). The report must include the following:

Table summarizing results for field measurements and laboratory chemical analyses
Well sampling log
Field instrument calibration verification
Chain of custody forms (if outsourced)
Laboratory analytical report (if outsourced)

All data must be submitted to the District in a District-approved electronic format readable by the District's computerized database.

36. If the District determines that results for analyses of water quality data indicate that unexpected changes in groundwater geochemistry at any of the permitted production wells may be trending towards a chloride concentration or geochemical type of groundwater significantly different from background levels and indicating potential saline water intrusion, then within 60 days of receiving notice of that determination the permittee must submit a plan for District approval to abate the impact caused by the saline water intrusion. The plan must contain a schedule for implementation of corrective action which may include modification of the well construction, well rehabilitation, and reduction in well withdrawal rates or other measures identified by the permittee to abate the impact. The permittee must implement the District-approved plan in accordance with the schedule in it.

37. The permittee shall participate in developing and implementing an MFL prevention/recovery strategy approved by the Governing Board for lakes in Volusia County, unless the existing minimum levels for these lakes in rule chapter 40C-8 are revised so that a prevention or recovery strategy is no longer required under section 373.0421 of the Florida Statutes. The permittee's participation in developing and implementing an MFL prevention/recovery strategy approved by the Governing Board shall be limited to offsetting or mitigating the impact of the permittee's groundwater allocation and shall not extend to offsetting or mitigating the impact of other water uses or changes and structural alterations to the watershed, surface water, and aquifers and the effects that such changes or alterations have had or will have, and the constraints that such changes or alteration have placed or will place, on the hydrology of the affected watershed. If approved by the Governing Board as part of the regional water supply plan or plan amendment, such a prevention/recovery strategy may include without limitation any of the following actions or combinations of them:

a) Identifying and developing additional water supplies and other actions, consistent with the authority granted under chapter 373;
b) Promulgation of a rule or orders setting forth phasing or a time table, which will allow for the provision of sufficient water supplies for all existing and projected reasonable-beneficial uses, including development of additional water supplies and implementation of conservation and other efficiency measures concurrent with the provisions of chapter 373;
c) Actions taken by the District or water users, which cause Indian Lake to meet its minimum levels established in rule chapter 40C-8;
d) Elimination or reduction of permitted water uses; or
e) A lake impact avoidance/mitigation plan approved by the District, which by surface water augmentation, groundwater recharge, alternative water supply sources or other means of offsets or mitigates the impact of the permittee's groundwater allocation on Indian Lake.

The District shall revoke the permit in whole or in part, if the permittee fails to implement its portion of any Board-approved prevention/recovery strategy for Indian Lake in accordance with the schedule included in the strategy, as required by this condition.

The following measures have been identified to mitigate impacts to MFL water bodies (as incorporated in this permit) and, at least in part, meet the participation goals specified above including: an overall reduction in total allocation to 8.179 mgd in 2024; reduction in groundwater usage beginning in 2014 at Breakaway Trails from 0.562 mgd to 0.312 mgd (as back-up supply) when it is anticipated that reclaimed water will be available; maximum allocation at the Rima Ridge wellfield will be capped in 2014 at 3.15 mgd; and additional groundwater usage at the Hudson wellfield will replace the reduction in the Rima Ridge wellfield. This permit also includes three proposed wells at the Hudson wellfield for future use to improve reliability and lessen drawdown near MFL water bodies.

38. The permittee shall submit, to the District, a compliance report pursuant to subsection 373.236(3), F.S. The permittee shall submit the report by May 11, 2019. The report shall contain sufficient information to demonstrate that the permittee's use of water will continue, for the remaining duration of the permit, to meet the conditions for permit issuance set forth in the rules that existed when the District issued the permit. At a minimum, the compliance report must:

    a. include documentation verifying that the source is capable of supplying the needs authorized by this permit without causing harm to water resources;
    b. include documentation verifying that the use of water is efficient and that the permittee is implementing all feasible water conservation measures and all feasible reuse of reclaimed water;
    c. include information documenting that the projected allocation is needed; and
    d. include information demonstrating that the lowest quality source of water, including reclaimed water, is being used to meet water demands, unless the permittee demonstrates that such use is not feasible under District rules. Such information shall include a report of the permittee's efforts in seeking potential water supply partners with whom the permittee could implement projects that would provide a source of lower quality water to meet the permittee's water demands.

St. Johns River Water Management District

# E-Permitting

A quick reference guide

To submit electronically go to *floridaswater.com/permitting.*

Access the statewide permitting portal at *http://floridawaterpermits.com.*

## Account creation

- **Who needs an account?**

  An account is needed if you wish to subscribe to permit and application notice email lists or to submit any permit applications or compliance data online. An account is not needed to search permitting data via E-Permitting.

- **Where is my account information stored?**

  This data is in a secure file with encrypted passwords. It is not visible to others.

- **How do I create an account?**
  - Go to *floridaswater.com.*
  - Click on "Permitting."
  - Click on "Create an Account."

## Application submittal

- **How do I log in to submit information?**
  - Go to *floridaswater.com.*
  - Click on "Permitting."
  - Click on "Sign in to existing account."
  - Enter user name and password.
  - Click on "Sign in."

- **What types of applications can I submit?**

  Well construction, consumptive use, environmental resource, landscape irrigation and contractor licensing permit applications are available online. Your online account will allow you to submit new applications, renewals, modifications, combine permits or permit extensions.

- **How do I know what sections I need for a permit?**

  When you select a permit type (environmental resource permit — ERP) or use type(s) (consumptive use permit — CUP), the system will select and present only the sections and supplemental forms required.

- **What information must I submit?**

  The minimum amount of information required before an application can be submitted is shown by red asterisks in the online application.

- **How can I send reports or other documents with my application?**

  There are two ways to send reports or other documents.

  1. From the ERP or CUP Services page under Application Sent Pending Acceptance or Applications Accepted by

District under Review folders, click on the View button under Document Management. Next, click the Attach New Document button to bring up a new window to attach the document. Select an appropriate Document Type from the drop-down menu and add a short description of the document, then click on Attach and browse to the desired document and press the Enter key. You can attach more than one file if needed. **You do not need to attach reports or plans one page at a time.** Examples are multipage plans combined into one PDF file or previous years' monthly operating reports as multiple sheets in an Excel workbook.

2. Under Account Services, click on Additional Attachments. Enter the permit and sequence number and click on the Go button. Select an appropriate Document Type from the drop-down menu and add a short description of the document, then click on Attach and browse to the desired document and press the Enter key. This method can be used even if the original application was paper.

## Plans and electronic signature

- **What about engineering plans?**

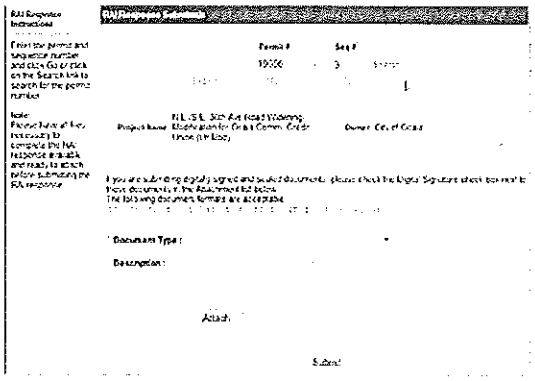
  The District accepts two electronic methods for signing and sealing.

  1. You may submit PKI digitally signed documents, as described in paragraph two of the 61G15 *Florida Administrative Code* (F.A.C.). Examples of products that

meet the 61G15 F.A.C. requirements can be found at *Adobe.com, Entrust.com* and *GlobalSign.com*. Check the PKI Digital Signature box to notify review staff that the file has been digitally signed.

2. The District also supports the receipt of signature files containing the file names and SHA numbers of plans, calculations or other file types. Once your application has been submitted, you will be able to create a pen signature file for the electronic submittals you wish to sign. This form will list the files that you select from the files submitted with the application, the SHA number for each file, and the file name. This signature file is printed and mailed to District headquarters.

## Team members



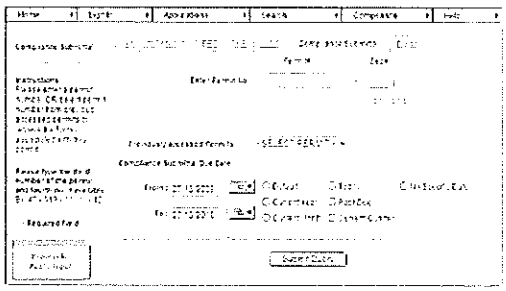
- **How can I collaborate with others on an application?**

  Anyone who has created an application that has not yet been submitted (in draft mode) can "delegate" rights on the application to other E-Permitting account holders. Select the Team Members tab to add delegates. Enter either the user name or email address of the account holder, select Edit or Pay, or both Edit and Pay and click on the Add Team Member button. The application will be flagged as ready for submittal and an email will be sent to all delegates letting them know that they have rights on the draft application. Team members can edit a page but only the original owner of the application can submit the application to the District.

## RAI response

- **Can I respond to RAIs online?**

  There are two ways that this can be done. You may select the Document Management link for the application that is currently under review from your ERP Services or CUP Services page. Under Document Management, select View and then Attach New Document. Select Document Type, enter a description and then click on Attach. You may also use the RAI Response link on your Account Services page. Enter the permit number and click Go. You may then attach files. NOTE: This method can be used even if the application was originally submitted on paper.



## Compliance submittal

- **What types of compliance reports can I submit?**

  All required compliance reports can be submitted.

- **How do I know when compliance reports are due?**

  After you have logged in, select Compliance from the main menu and enter the permit number and desired date range. All compliance reports due in that time frame for that permit will be displayed. This list can be sorted by compliance submittal name, compliance number or date due.

- **What if the application was submitted on paper?**

  You can still attach additional files, make additional application payments, respond to an RAI or submit compliance reports with an E-Permitting account. The Account Services home page has a link for each of these functions. Just select the appropriate action, enter the permit application number and complete the process.

## Payment

- **Must I pay the application fee online?**

  Yes. Payment is required for application submittal. Your online checking account or credit card payment is made using a secure connection to our banking service's payment site. Your credit card or checking account information is encrypted as it travels across the Internet. Because the bank service processes these transactions, the District and District employees do not have access to your credit card information, nor is any of the information retained as part of the public record. Cards accepted are VISA, MasterCard and American Express.

## Getting help

- **How do I get help?**

  **General information on consumptive use permits and environmental resource permits**

NOTICE OF PERMIT

In the Matter of an
Application for Permit by:
City of Ormond Beach
22A Beach Street
Ormond Beach, FL

Volusia County - DW
Ormond Beach WRF
Wastewater Permit Application
DEP File No: FL0020532-023-DW1P

ATTENTION Joyce A. Shanahan,
City Manager

Enclosed is Permit Number FL0020532 to operate a domestic wastewater facility issued under Sections 403.087 and 403.0885 of the Florida Statutes.

Judicial Review

Upon issuance of this final permit, any party to this order has the right to seek judicial review of it under Section 120.68, F.S. by the filing of a notice of appeal under Florida Rules of Appellate Procedure 9.110 and 9.190 with the Clerk of the Department of Environmental Protection in the Office of General Counsel (Mail Station #35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000) and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice must be filed within 30 days after this order is filed with the Clerk of the Department.

Executed in Orlando, Florida.

Ormond Beach, FL 32174-9512
Volusia County
Latitude: 29°17' 20.27" N Longitude: 81°4' 24.32" W

**PERMIT NUMBER:** FL0020532 (Major)
**FILE NUMBER:** FL0020532-023-DW1P
**ISSUANCE DATE:** **May 8, 2020**
**EFFECTIVE DATE:** **May 8, 2020**
**EXPIRATION DATE:** **May 7, 2025**

This permit is issued under the provisions of Chapter 403, Florida Statutes (F.S.), and applicable rules of the Florida Administrative Code (F.A.C.) and constitutes authorization to discharge to waters of the state under the National Pollutant Discharge Elimination System. This permit does not constitute authorization to discharge wastewater other than as expressly stated in this permit. The above-named permittee is hereby authorized to operate the facilities in accordance with the documents attached hereto and specifically described as follows:

**WASTEWATER TREATMENT:**

Treatment is provided by an existing 8.0 MGD annual average daily flow (AADF) permitted capacity advanced wastewater treatment (AWT) plant with an odor control system, influent screening, grit removal, biological nutrient removal (carousel type, 5-stage Bardenpho Process), re-aeration, chemical feed facilities, secondary clarification, tertiary filtration, high level disinfection, with post-aeration and dechlorination for the river discharge, and thickening, followed by dewatering, of biosolids. This permit authorizes modification of the piping, valving, and associated appurtenances to retrofit an existing Reclaimed Water (RW) Equalization (EQ) basin for use as a supplemental chlorine contact chamber.

**REUSE OR DISPOSAL:**

**Surface Water Discharge D-001** is an existing 6.0 MGD annual average daily flow discharge to the Halifax River, Class III Marine waters, (WBID# 2363B). The outfall pipe is approximately 1000 feet in length and discharges at a depth of approximately 5 feet. The point of discharge is located approximately at latitude 29°17' 50" N, longitude 81°3' 26" W.

**Land Application R-001** is an existing 10.0 MGD annual average daily flow permitted capacity slow-rate public access reuse (PAR) system. R-001 consists of irrigation within the approved Reuse Service Area as shown on the attached map, to the major users identified in Part IV.A.2 of this permit. This reuse system may receive reclaimed water (RW) from the Holly Hill PAR system. Excess reclaimed water and substandard effluent are discharged to D-001.

The following ground water sources may be used to augment the supply of reclaimed water: The Hunter's Ridge and Breakaway Trails RW storage systems receive water from supplemental groundwater wells prior to distribution within the service area.

Demineralization concentrate is blended with RW for irrigation via the public access reuse (PAR) system.

**IN ACCORDANCE WITH:** The limitations, monitoring requirements, and other conditions set forth in this cover sheet and Part I through Part IX on pages 1 through 27 of this permit.

## I. RECLAIMED WATER AND EFFLUENT LIMITATIONS AND MONITORING REQUIREMENTS

### A. Surface Water Discharges

1. During the period beginning on the effective date and lasting through the expiration date of this permit, the permittee is authorized to discharge effluent from Outfall D-001 to Halifax River. Such discharge shall be limited and monitored by the permittee as specified below and reported in accordance with Permit Condition I.C.8.

| | | | Effluent Limitations | | Monitoring Requirements | | | |

2. Effluent samples shall be taken at the monitoring site locations listed in Permit Condition I.A.1. and as described below:

| Monitoring Site Number | Description of Monitoring Site |
|---|---|
| FLW-10 | Flow to D-001 |
| FLW-6 | Flow to D-001 during by-pass of RW EQ basin |
| EFD-1 | Sample point after dechlorination |
| EFA-1 | Sampling point after chlorination |
| EFA-2 | Sample Point at end of the converted RW EQ basin when being used as a CCC |

3. Hourly measurement of pH and total residual chlorine for disinfection during the period of required operator attendance may be substituted for continuous measurement. *[62-600.660(1)]*

4. A recording flow meter with totalizer shall be utilized to measure flow and calibrated at least once every 12 months. **The sum of the two flows shall not exceed 6.0 MGD on an annual average basis**. *[62-600.200(25)]*

5. The discharge shall not contain components that, alone or in combination with other substances or in combination with other components of the discharge:

a. Settle to form putrescent deposits or otherwise create a nuisance; or

b. Float as debris, scum, oil, or other matter in such amounts as to form nuisances; or

c. Produce color, odor, taste, turbidity, or other conditions in such degree as to create a nuisance; or

d. Are acutely toxic; or

e. Are present in concentrations which are carcinogenic, mutagenic, or teratogenic to human beings or to significant, locally occurring, wildlife or aquatic species, unless specific standards are established for such components in subsection 62-302.500(2) or Rule 62-302.530, F.A.C.; or

f. Pose a serious danger to the public health, safety, or welfare.

*[62-302.500(1)(a)]*

6. In accordance with subsections 62-600.420(1) and (2), F.A.C., the monthly average effluent CBOD5 and TSS concentrations shall not exceed 15% of their respective influent values (i.e., 85% removal). *[62-600.420(1) and (2)]*

7. The effluent limitations for the monthly geometric means for fecal coliform and enterococci are only applicable if 10 or more values are reported. If fewer than 10 values are reported, the monthly geometric means shall be calculated and reported on the Discharge Monitoring Report, but shall not be used to determine compliance with the limitations for the monthly geometric means. The monthly geometric mean for fecal coliform shall be used to calculate the annual average. All other fecal coliform and enterococci effluent limitations included in permit condition I.A.1 apply regardless of the number of values reported. *[62-600.440(5)(b)] [62-302.530]*

8. To report the "90th percentile,"

   a. Place the bacteria results in ascending order (from lowest to highest value) and assign each sample a number, 1 for the lowest value.

   b. Multiply the total number of samples by 0.9 to determine the 90th percentile level.

   c. Report the value of the sample that corresponds to the 90th percentile level (e.g., 10 samples x 0.9 = 9, report the value of the 9th sample). If the 90th percentile level is not a whole number, rounding or interpolation should be used to determine the 90th percentile. When rounding, round down to the nearest whole number if the decimal is 0.4 or lower, and round up to the nearest whole number if the decimal is 0.5 or higher (e.g., 12 samples x 0.9 = 10.8, report the value of the 11th sample if rounding).

   *[62-600.440(5)(a)3] [62-302.530]*

9. Total residual chlorine must be maintained for a minimum contact time of 15 minutes based on peak hourly flow. *[62-600.440(5)(c), (6)(b), and (7)(c)]*

10. The permittee shall comply with the following requirements to evaluate acute whole effluent toxicity of the discharge from outfall D-001.

    a. Effluent Limitation

       (1) In any routine or additional follow-up test for acute whole effluent toxicity, the 96-hour LC50 shall not be less than 100% effluent. [Rules 62-302.200(1), 62-302.500(1)(a)4., 62-4.244(3)(a), and 62-4.241, F.A.C.]

    b. Monitoring Frequency

       (1) Routine toxicity tests shall be conducted once every six months, the first starting within 60 days of the effective date of this permit and lasting for the duration of this permit.

    c. Sampling Requirements

       (1) Routine tests shall be conducted on four separate grab samples collected at evenly-spaced (6-hr) intervals over a 24-hour period. The four grab samples shall be used in eight bioassays (four bioassays for each species) and shall represent one test. **If the duration of the discharge is less than 24-hours, a shortened sampling protocol will be used and the duration of discharge shall be documented on the chain of custody.**

       (2) For additional follow-up tests, the first test shall be conducted on four separate grab samples collected at evenly-spaced (6-hr) intervals over a 24-hour period. The four grab samples shall be used in four

separate bioassays for each species that failed the routine test. The four grab samples represent one test. The second follow-up test shall be run on a single grab sample collected on the day and time when the greatest toxicity was identified in the routine or first additional follow-up test.

d. Test Requirements

(1) Routine Tests: All routine tests shall be conducted using a control (0% effluent) and a minimum of five dilutions: **100%, 75%, 50%, 25%**, and **12.5%** effluent.

(2) The permittee shall conduct 96-hour acute static renewal multi-concentration toxicity tests using the daphnid, **Ceriodaphnia dubia**, and the bannerfin shiner, **Cyprinella leedsi**, concurrently.

(3) All test species, procedures and quality assurance criteria used shall be in accordance with **Methods for Measuring Acute Toxicity of Effluents and Receiving Waters to Freshwater and Marine Organisms**, 5th Edition, EPA-821-R-02-012. Any deviation of the bioassay procedures outlined herein shall be submitted in writing to the Department for review and approval prior to use. In the event the above method is revised, the permittee shall conduct acute toxicity testing in accordance with the revised method.

(4) The control water and dilution water shall be moderately hard water as described in EPA-821-R-02-012, Table 7.

e. Quality Assurance Requirements

(1) A standard reference toxicant (SRT) quality assurance (QA) acute toxicity test shall be conducted with each species used in the required toxicity tests either concurrently or initiated no more than 30 days before the date of each routine or additional follow-up test conducted. Additionally, the SRT test must be conducted concurrently if the test organisms are obtained from outside the test laboratory unless the test organism supplier provides control chart data from at least the last five monthly acute toxicity tests using the same reference toxicant and test conditions. If the organism supplier provides the required SRT data, the organism supplier's SRT data and the test laboratory's monthly SRT-QA data shall be included in the reports for each companion routine or additional follow-up test required.

(2) If the mortality in the control (0% effluent) exceeds 10% for either species in any test, the test for that species (including the control) shall be invalidated and the test repeated. The repeat test shall begin within 14 days after the last day of the invalid test.

(3) If 100% mortality occurs in all effluent concentrations for either species prior to the end of any test and the control mortality is less than 10% at that time, the test (including the control) for that species shall be terminated with the conclusion that the test fails and constitutes non-compliance.

(4) Routine and additional follow-up tests shall be evaluated for acceptability based on the concentration-response relationship, as required by EPA-821-R-02-012, Section 12.2.6.2., and included with the bioassay laboratory reports.

f. Reporting Requirements

(1) Results from all required tests shall be reported on the Discharge Monitoring Report (DMR) as follows:

(a) Routine Test Results: If an LC50 >100% effluent occurs in all four separate grab sample tests for the test species, ">100%" shall be entered on the DMR for that test species. If in any of the four separate grab sample tests for the test species an LC50 <100% effluent occurs, the lowest calculated LC50 effluent concentration shall be entered on the DMR for that test species.

(b) Additional Follow-up Test Results: For each additional test required, the calculated LC50 value shall be entered on the DMR for that test species.

(2) A bioassay laboratory report for the routine test shall be prepared according to EPA-821-R-02-012, Section 12, Report Preparation and Test Review, and mailed to the Department at the address below within 30 days after the last day of the test.

(3) For additional follow-up tests, a single bioassay laboratory report shall be prepared according to EPA-821-R-02-012, Section 12, and mailed within 30 days after the last day of the second valid additional follow-up test.

(4) Data for invalid tests shall be included in the bioassay laboratory report for the repeat test.

(5) The same bioassay data shall not be reported as the results of more than one test.

(6) All bioassay laboratory reports shall be sent to:
Florida Department of Environmental Protection

Central District Office
3319 Maguire Blvd, Suite 232
Orlando, Florida 32803-3767

g. Test Failures

(1) A test fails when the test results do not meet the limits in 10.a.(1).

(2) Additional Follow-up Tests:

(a) If a routine test does not meet the acute toxicity limitation in 10.a.(1) above, the permittee shall notify the Department at the address above within 21 days after the last day of the failed routine test and conduct two additional follow-up tests on each species that failed the test in accordance with 10.d.

(b) The first test shall be initiated within 28 days after the last day of the failed routine test. The remaining additional follow-up tests shall be conducted weekly thereafter until a total of two valid additional follow-up tests are completed.

(c) The first additional follow-up test shall be conducted using a control (0% effluent) and a minimum of five dilutions: 100%, 75%, 50%, 25%, and 12.5% effluent. The permittee may modify the dilution series in the second additional follow-up test to more accurately bracket the toxicity such that at least two dilutions above and two dilutions below the target concentration and a control (0% effluent) are run. All test results shall be statistically analyzed according to the procedures in EPA-821-R-02-012.

(3) In the event of three valid test failures (whether routine or additional follow-up tests) within a 12-month period, the permittee shall notify the Department within 21 days after the last day of the third test failure.

(a) The permittee shall submit a plan for correction of the effluent toxicity within 60 days after the last day of the third test failure.

(b) The Department shall review and approve the plan before initiation.

(c) The plan shall be initiated within 30 days following the Department's written approval of the plan.

(d) Progress reports shall be submitted quarterly to the Department at the address above.

(e) During the implementation of the plan, the permittee shall conduct quarterly routine whole effluent toxicity tests in accordance with 10.d. Additional follow-up tests are not required while the plan is in progress. Following completion or termination of the plan, the frequency of monitoring for routine and additional follow-up tests shall return to the schedule established in 10.b.(1). If a routine test is invalid according to the acceptance criteria in EPA-821-R-02-012, a repeat test shall be initiated within 14 days after the last day of the invalid routine test.

(f) Upon completion of four consecutive quarterly valid routine tests that demonstrate compliance with the effluent limitation in 10.a.(1) above, the permittee may submit a written request to the Department to terminate the plan. The plan shall be terminated upon written verification by the Department that the facility has passed at least four consecutive quarterly valid routine whole effluent toxicity tests. If a test within the sequence of the four is deemed invalid, but is replaced by a repeat valid test initiated within 14 days after the last day of the invalid test, the invalid test will not be counted against the requirement for four consecutive quarterly valid routine tests for the purpose of terminating the plan.

(4) The additional follow-up testing and the plan do not preclude the Department taking enforcement action for whole effluent toxicity failures.

*[62-4.241, 62-620.620(3)]*

11. A mixing zone for dichlorobromomethane (DCBM) has been approved in accordance with DEP permit file number FL0020532-012-DWIP and is described as a rectangle centered along the point of discharge with a mixing zone of 539 square meters. *[62-302.530(35)(b)5]*

12. The current effluent nutrient loading limits were established in the finalized Halifax River TMDL Report on July 1, 2013. Mass load shall be calculated Monthly for each calendar month of the reporting period by formula:

Monthly ADF MGD x Month Average TP or TN mg/L x 8.34 = lb/day TP or TN

lb/day TP or TN x days/month = Pounds TP or TN. This must be reported on the DMR for Outfall D-001

A cumulative total for all previously reported months, in the current calendar year, shall be submitted with each monthly reporting period. The numeric load limit, in lb/year, is for January through December, not a rolling 12-month total. [62-304 and 2013 Halifax River TMDL Report]

**B. Reuse and Land Application Systems**

1. During the period beginning on the effective date and lasting through the expiration date of this permit, the permittee is authorized to supplement reclaimed water with ground water and direct reclaimed water to Reuse System R-001. Such reclaimed water shall be limited and monitored by the permittee as specified below and reported in accordance with Permit Condition I.C.8.:

| | | | Reclaimed Water Limitations | | Monitoring Requirements | | | |

2. Reclaimed water samples shall be taken at the monitoring site locations listed in Permit Condition I.B.1. and as described below:

| Monitoring Site Number | Description of Monitoring Site |
|---|---|
| FLW-2 | Flow meter to the public access reuse system |
| EFA-1 | Sampling point after chlorination |
| EFB-1 | After filtration and prior to disinfection |
| FLW-7 | Supplemental GW flow from Hunters Ridge Well |
| OTH-2 | Groundwater from Hunters Ridge well |
| OTH-3 | Groundwater from Breakaway Trails well |
| FLW-3 | Total concentrate (FLW-4 + FLW-5) |
| OTH-1 | Sample point at mainland pump station (blend of RW and concentrate) |
| CAL-2 | Concentrate flow divided by the flow to the public access reuse system |

3. Hourly measurement of pH during the period of required operator attendance may be substituted for continuous measurement. *[62-600.660(1)]*

4. A recording flow meter with totalizer shall be utilized to measure flow and calibrated at least once every 12 months. *[62-600.200(25)]*

5. To report the "% less than detection," count the number of fecal coliform observations that were less than detection, divide by the total number of fecal coliform observations in the month, and multiply by 100% (round to the nearest integer). *[62-600.440(6)(a)]*

6. The minimum total chlorine residual shall be limited as described in the currently approved operating protocol such that the permit limitation for fecal coliform bacteria will be achieved. In no case shall the total chlorine residual be less than 1.0 mg/L. *[62-600.440(6)(b)][62-610.460(2)][62-610.463(2)]*

7. The maximum turbidity shall be limited as described in the currently approved operating protocol, such that the permit limitations for total suspended solids and fecal coliforms will be achieved. *[62-610.463(2)]*

8. The treatment facilities shall be operated in accordance with the currently approved operating protocol(s). Only reclaimed water that meets the criteria established in the approved operating protocol(s) may be released to system storage or to the reuse system. Reclaimed water that fails to meet the criteria in the approved operating protocol(s) shall be directed to the following permitted alternate discharge system: D-001. *[62-610.320(6) and 62-610.463(2)]*

9. Instruments for continuous on-line monitoring of total residual chlorine and turbidity shall be equipped with an automated data logging or recording device. *[62-610.463(2)]*

10. Intervals between sampling for Giardia and Cryptosporidium shall not exceed *[62-610.472(3)(d)]*

11. The maximum specific conductance shall be limited as described in the approved operating protocol. *[62-610.865(9)(a)]*

**C. Other Limitations and Monitoring and Reporting Requirements**

1. During the period beginning on the effective date and lasting through the expiration date of this permit, the treatment facility shall be limited and monitored by the permittee as specified below and reported in accordance with condition I.C.8.:

| | | | Limitations | | Monitoring Requirements | | | |
|---|---|---|---|---|---|---|---|---|
| Parameter | Units | Max./ Min | Limit | Statistical Basis | Frequency of Analysis | Sample Type | Monitoring Site Number | Notes |
| Flow (total through plant) | MGD | Max<br>Max<br>Max | 8.0<br>Report<br>Report | Annual Ave<br>Monthly Ave<br>Quarterly Ave | Continuous | Recording Flow Meter w/Totalizer | INF-1 | See I.C.4 |
| Percent Capacity, (TMADF/Permitted Capacity) x 100 | percent | Max | Report | Monthly Average | Monthly | Calculated | INF-1 | |
| BOD, Carbonaceous 5 day, 20C (Influent) | mg/L | Max | Report | Single Sample | 5 Days/Week | 24-hr FPC | INF-2 | See I.C.3 |
| Solids, Total Suspended (Influent) | mg/L | Max | Report | Single Sample | 5 Days/Week | 24-hr FPC | INF-2 | See I.C.3 |

2. Samples shall be taken at the monitoring site locations listed in Permit Condition I.C.1. and as described below:

| Monitoring Site Number | Description of Monitoring Site |
|---|---|
| INF-1 | Influent flow meter (Parshall Flume) |
| INF-2 | Raw influent to the headworks |

3. Influent samples shall be collected so that they do not contain digester supernatant or return activated sludge, or any other plant process recycled waters. *[62-600.660(4)(a)]*

4. A recording flow meter with totalizer shall be utilized to measure flow and calibrated at least once every 12 months. *[62-600.200(25)]*

5. Sampling results for giardia and cryptosporidium shall be reported on DEP Form 62-610.300(4)(a)4, Pathogen Monitoring, which is attached to this permit. This form shall be submitted to the Department's Central District Office and to DEP's Reuse Coordinator in Tallahassee. *[62-610.300(4)(a)]*

6. The sample collection, analytical test methods, and method detection limits (MDLs) applicable to this permit shall be conducted using a sufficiently sensitive method to ensure compliance with applicable water quality standards and effluent limitations and shall be in accordance with Rule 62-4.246, Chapters 62-160 and 62-600, F.A.C., and 40 CFR 136, as appropriate. The list of Department established analytical methods, and corresponding MDLs (method detection limits) and PQLs (practical quantitation limits), which is titled "FAC 62-4 MDL/PQL Table" is available at https://floridadep.gov/dear/quality-assurance/content/quality-assurance-resources . The MDLs and PQLs as described in this list shall constitute the minimum acceptable MDL/PQL values and the Department shall not accept results for which the laboratory's MDLs or PQLs are greater than those described above unless alternate MDLs and/or PQLs have been specifically approved by the Department for this permit. Any method included in the list may be used for reporting if it meets the following requirements:

   a. The laboratory's reported MDL and PQL values for the specific method must be equal or less than the corresponding method values specified in the Department's approved MDL and PQL list;

   b. The laboratory reported MDL for the specific parameter is less than or equal to the permit limit or the applicable water quality criteria, if any, stated in Chapter 62-302, F.A.C. Parameters that are listed as "report only" in the permit shall use methods that provide an MDL, which is equal to or less than the applicable water quality criteria stated in 62-302, F.A.C.; and

   c. If the MDLs for all methods available in the approved list are above the stated permit limit or applicable water quality criteria for that parameter, then the method with the lowest stated MDL shall be used.

   When the analytical results are below method detection or practical quantitation limits, the permittee shall report the actual laboratory MDL and/or PQL values for the analyses that were performed following the instructions on the applicable discharge monitoring report.

   Where necessary, the permittee may request approval of alternate methods or for alternative MDLs or PQLs for any approved analytical method. Approval of alternate laboratory MDLs or PQLs are not necessary if the laboratory reported MDLs and PQLs are less than or equal to the permit limit or the applicable water quality criteria, if any, stated in Chapter 62-302, F.A.C. Approval of an analytical method not included in the above-referenced list is not necessary if the analytical method is approved in accordance with 40 CFR 136 or deemed acceptable by the Department. *[62-4.246, 62-160]*

7. The permittee shall provide safe access points for obtaining representative samples which are required by this permit. *[62-600.650(2)]*

8. Monitoring requirements under this permit are effective on the first day of the second month following the effective date of the permit. Until such time, the permittee shall continue to monitor and report in accordance with previously effective permit requirements, if any. During the period of operation authorized by this permit, the permittee shall complete and submit to the Department Discharge Monitoring Reports (DMRs) in accordance with the frequencies specified by the REPORT type (i.e. monthly, quarterly, semiannual, annual, etc.) indicated on the DMR forms attached to this permit. Unless specified otherwise in this permit, monitoring results for each monitoring period shall be submitted in accordance with the associated DMR due dates below. DMRs shall be submitted for each required monitoring period including periods of no discharge.

| REPORT Type on DMR | Monitoring Period | Submit by |
|---|---|---|
| Monthly | first day of month - last day of month | 28th day of following month |
| Once Every Two Months | January 1 - February 28/29<br>March 1 - April 30<br>May 1 - June 30<br>July 1 - August 31<br>September 1 - October 31<br>November 1 - December 31 | March 28<br>May 28<br>July 28<br>September 28<br>November 28<br>January 28 |
| Quarterly | January 1 - March 31 | April 28 |

| REPORT Type on DMR | Monitoring Period | Submit by |
|---|---|---|
| | April 1 - June 30<br>July 1 - September 30<br>October 1 - December 31 | July 28<br>October 28<br>January 28 |
| Semiannual | January 1 - June 30<br>July 1 - December 31 | July 28<br>January 28 |
| Annual | January 1 - December 31 | January 28 |

The permittee shall use the electronic DMR system approved by the Department (EzDMR) and shall electronically submit the completed DMR forms using the DEP Business Portal at http://www.fldepportal.com/go/, unless the permittee has a waiver from the Department in accordance with 40 CFR 127.15. Reports shall be submitted to the Department by the twenty-eighth (28th) of the month following the month of operation.

*[62-620.610(18)][62-600.680(1)]*

9. During the period of operation authorized by this permit, reclaimed water or effluent shall be monitored annually for the primary and secondary drinking water standards contained in Chapter 62-550, F.A.C., (except for asbestos, total coliform, color, odor, and residual disinfectants). These monitoring results shall be reported to the Department annually on the RWS-A DMR. During years when a permit is not renewed, a certification stating that no new non-domestic wastewater dischargers have been added to the collection system since the last reclaimed water or effluent analysis was conducted may be submitted with the signed DMR in lieu of performing the analysis. When such a certification is submitted with the DMR, monitoring not required this period should be noted on the DMR. The annual reclaimed water or effluent analysis report, and certification if applicable, shall be completed and submitted in a timely manner so as to be received by the Department at the address identified on the DMR by January 28 of each year. Approved analytical methods identified in Rule 62-620.100(3)(j), F.A.C., shall be used for the analysis. If no method is included for a parameter, methods specified in Chapter 62-550, F.A.C., shall be used. *[62-600.660(2) and (3)(d)][62-600.680(2)][62-610.300(4)]*

10. An annual scan of the parameters listed as primary and secondary drinking water standards in Chapter 62-550, F.A.C. (except for turbidity, total coliforms, color, and corrosivity), shall be conducted for the demineralization concentrate (RWS-C) and the blend (RWS-B). The permittee shall submit the annual summaries of water quality in the reclaimed water, the concentrate, the blend, and ground water monitoring wells (RWS-G). Correlations between specific conductance and chloride, and total dissolved solids shall be developed and reported. The summary shall include an evaluation of any adverse effects on vegetation and ground water quality and needed corrective actions, including needed revisions to the operating protocol. Results of the annual scans and annual summary shall be submitted with the February DMR each year. *[62-610.865(8)(f) & (11)]*

11. The permittee shall submit an Annual Reuse Report using DEP Form 62-610.300(4)(a)2. on or before January 1 of each year. *[62-610.870(3)]*

12. The operating protocols, for the Public Access Reuse System and the blending of concentrate, were submitted and approved during the permit renewal process. These protocols shall remain in affect until any revisions are reviewed and approved by the Department. Operating protocol(s) shall be reviewed and updated periodically to ensure continuous compliance with the minimum treatment and disinfection requirements and established demineralization concentrate blend ratio and specific conductance limit. Updated operating protocols shall be submitted to the Department's Central District Office for review and approval upon revision of the operating protocol(s) and with each permit application. *[62-610.320(6)][62-610.463(2)][62-610.865(9)]*

13. The permittee shall maintain an inventory of storage systems. The inventory shall be submitted to the Department's Central District Office at least 30 days before reclaimed water will be introduced into any new storage system. The inventory of storage systems shall be attached to the annual submittal of the Annual Reuse Report. *[62-610.464(5)]*

14. Unless specified otherwise in this permit, all reports and other information required by this permit, including 24-hour notifications, shall be submitted to or reported to, as appropriate, the Department's Central District Office at the address specified below:

**Email (preferred):** DEP_CD@FLoridaDEP.gov

Or:

Florida Department of Environmental Protection
Central District
3319 Maguire Blvd
Suite 232
Orlando, Florida 32803-3767

Phone Number - (407)897-4100

*[62-620.305]*

15. All reports and other information shall be signed in accordance with the requirements of Rule 62-620.305, F.A.C. *[62-620.305]*

## II. BIOSOLIDS MANAGEMENT REQUIREMENTS

### A. Basic Requirements

1. Biosolids generated by this facility may be transferred to Shelley's BTF or disposed of in a Class I solid waste landfill. Transferring biosolids to an alternative biosolids treatment facility does not require a permit modification. However, use of an alternative biosolids treatment facility requires submittal of a copy of the agreement pursuant to Rule 62-640.880(1)(c), F.A.C., along with a written notification to the Department at least 30 days before transport of the biosolids. *[62-620.320(6), 62-640.880(1)]*

2. The permittee shall monitor and keep records of the quantities of biosolids generated, received from source facilities, treated, distributed and marketed, land applied, used as a biofuel or for bioenergy, transferred to another facility, or landfilled. These records shall be kept for a minimum of five years. *[62-640.650(4)(a)]*

3. Biosolids quantities shall be monitored by the permittee as specified below. Results shall be reported on the permittee's Discharge Monitoring Report for Monitoring Group RMP-Q in accordance with Condition I.C.8.

| | | | Biosolids Limitation | | Monitoring Requirements | | | |
|---|---|---|---|---|---|---|---|---|
| Parameter | Units | Max./ Min | Limit | Statistical Basis | Frequency of Analysis | Sample Type | Monitoring Site Number | Notes |
| Biosolids Quantity (Transferred) | dry tons | Max | Report | Monthly Total | Monthly | Calculated | RMP-1 | |
| Biosolids Quantity (Landfilled) | dry tons | Max | Report | Monthly Total | Monthly | Calculated | RMP-1 | |

*[62-640.650(5)(a)1]*

4. Biosolids quantities shall be calculated as listed in Permit Condition II.3 and as described below:

| Monitoring Site Number | Description of Monitoring Site Calculations |
|---|---|
| RMP-1 | Biosolids leaving site |

5. The treatment, management, transportation, use, land application, or disposal of biosolids shall not cause a violation of the odor prohibition in subsection 62-296.320(2), F.A.C. *[62-640.400(6)]*

6. Storage of biosolids or other solids at this facility shall be in accordance with the Facility Biosolids Storage Plan. *[62-640.300(4)]*

7. Biosolids shall not be spilled from or tracked off the treatment facility site by the hauling vehicle. *[62-640.400(9)]*

**B. Disposal**

1. Disposal of biosolids, septage, and "other solids" in a solid waste disposal facility, or disposal by placement on land for purposes other than soil conditioning or fertilization, such as at a monofill, surface impoundment, waste pile, or dedicated site, shall be in accordance with Chapter 62-701, F.A.C. *[62-640.100(6)(b) & (c)]*

**C. Transfer**

1. The permittee shall not be held responsible for treatment and management violations that occur after its biosolids have been accepted by a permitted biosolids treatment facility with which the source facility has an agreement in accordance with subsection 62-640.880(1)(c), F.A.C., for further treatment, management, or disposal. *[62-640.880(1)(b)]*

2. The permittee shall keep hauling records to track the transport of biosolids between the facilities. The hauling records shall contain the following information:

Source Facility
1. Date and time shipped
2. Amount of biosolids shipped
3. Degree of treatment (if applicable)
4. Name and ID Number of treatment facility
5. Signature of responsible party at source facility
6. Signature of hauler and name of hauling firm

Biosolids Treatment Facility or Treatment Facility
1. Date and time received
2. Amount of biosolids received
3. Name and ID number of source facility
4. Signature of hauler
5. Signature of responsible party at treatment facility

A copy of the source facility hauling records for each shipment shall be provided upon delivery of the biosolids to the biosolids treatment facility or treatment facility. The treatment facility permittee shall report to the Department within 24 hours of discovery any discrepancy in the quantity of biosolids leaving the source facility and arriving at the biosolids treatment facility or treatment facility.

*[62-640.880(4)]*

**D. Receipt**

1. If the permittee intends to accept biosolids from other facilities, a permit revision is required pursuant to paragraph 62-640.880(2)(d), F.A.C. *[62-640.880(2)(d)]*

## III. GROUND WATER REQUIREMENTS

**A. Construction Requirements**

1. The permittee shall give at least 72-hour notice to the Department's Central District Office, prior to the installation of any monitoring wells. *[62-520.600(6)(h)]*

2. Before construction of new ground water monitoring wells, a soil boring shall be made at each new monitoring well location to properly determine monitoring well specifications such as well depth, screen interval, screen slot, and filter pack. *[62-520.600(6)(g)]*

3. Within 30 days after installation of a monitoring well, the permittee shall submit to the Department's Central District Office well completion reports and soil boring/lithologic logs on the attached DEP Form(s) 62-520.900(3), Monitoring Well Completion Report. *[62-520.600(6)(j) and .900(3)]*

4. All piezometers and monitoring wells not part of the approved ground water monitoring plan shall be plugged and abandoned in accordance with Rule 62-532.500(5), F.A.C., unless future use is intended. *[62-532.500(5)]*

**B. Operational Requirements**

1. For the Part III Public Access system, all ground water quality criteria specified in Chapter 62-520, F.A.C., shall be met at the edge of the zone of discharge. The zone of discharge shall extend horizontally 100 feet from the application site(s) or to the property boundaries, whichever is less, and vertically to the base of the surficial aquifer. *[62-520.200(27)] [62-520.465]*

2. The ground water minimum criteria specified in Rule 62-520.400 F.A.C., shall be met within the zone of discharge. *[62-520.400 and 62-520.420(4)]*

3. If the concentration for any constituent listed in Permit Condition III.6. in the natural background quality of the ground water is greater than the stated maximum, or in the case of pH is also less than the minimum, the representative background quality shall be the prevailing standard. *[62-520.420(2)]*

4. During the period of operation authorized by this permit, the permittee shall continue to sample ground water at the monitoring wells identified in Permit Condition III.5., below in accordance with this permit and the approved ground water monitoring plan prepared in accordance with Rule 62-520.600, F.A.C. *[62-520.600] [62-610.463]*

5. The following monitoring wells shall be sampled for Reuse System R-001.

| Monitoring Well ID | Alternate Well Name and/or Description of Monitoring Location | Latitude | Longitude | Depth (Feet) | Aquifer Monitored | Well Type | New or Existing |
|---|---|---|---|---|---|---|---|
| MWB-1 | Well Name MW-1 Golf Course WAFR 7328 3064A16235 | 29°17' 28" | 81°2' 43" | 20 | Surficial | Background | Existing |
| MWC-2 | Well Name MW-2 Golf Course WAFR 7327 3064A16236 | 29°17' 46" | 81°2' 44" | 15 | Surficial | Compliance | Existing |
| MWC-3A | Well Name MW-3A Golf Course WAFR 46550 3064A16237 | 29°18' 16" | 81°2' 58" | 15 | Surficial | Compliance | Existing |
| MWC-4 | Well Name MW-4 Golf Course WAFR 7325 3064A16238 | 29°17' 44" | 81°2' 30" | 15 | Surficial | Compliance | Existing |
| MWC-5A | Well Name MW-5A Golf Course WAFR 46551 3064A16239 | 29°18' 8" | 81°2' 44" | 15 | Surficial | Compliance | Existing |

*[62-520.600] [62-610.463]*

6. The following parameters shall be analyzed for each monitoring well identified in Permit Condition III.5.:

| Parameter | Compliance Well Limit | Units | Sample Type | Monitoring Frequency |
|---|---|---|---|---|
| Water Level Relative to NGVD | Report | ft | In Situ | Quarterly |
| Nitrogen, Nitrate, Total (as N) | 10 | mg/L | Grab | Quarterly |
| Solids, Total Dissolved (TDS) | 500 | mg/L | Grab | Quarterly |
| Chloride (as Cl) | 250 | mg/L | Grab | Quarterly |
| Coliform, Fecal | 4 | #/100mL | Grab | Quarterly |
| pH | 6.5-8.5 | s.u. | Grab | Quarterly |
| Sulfate, Total | 250 | mg/L | Grab | Quarterly |
| Turbidity | Report | NTU | Grab | Quarterly |
| Sodium, Total Recoverable | 160 | mg/L | Grab | Quarterly |
| Trihalomethane, Total by summation | 80 | ug/L | Grab | Quarterly |
| Bis (2-ethylhexyl) phthalate | 0.006 | mg/L | Grab | Quarterly |

*[62-520.600(11)(b)] [62-600.670] [62-600.650(3)] [62-520.310(5)]*

7. Water levels shall be recorded before evacuating each well for sample collection. Elevation references shall include the top of the well casing and land surface at each well site (NAVD allowable) at a precision of plus or minus 0.01 foot. *[62-520.600(11)(c)] [62-610.463(3)(a)]*

8. Ground water monitoring wells shall be purged prior to sampling to obtain representative samples. *[62-160.210] [62-600.670(3)]*

9. Analyses shall be conducted on unfiltered samples, unless filtered samples have been approved by the Department's Central District Office as being more representative of ground water conditions. *[62-520.310(5)]*

10. Ground water monitoring test results shall be submitted on Part D of Form 62-620.910(10) in accordance with Permit Condition I.C.8. *[62-520.600(11)(b)] [62-600.670] [62-600.680(1)] [62-620.610(18)]*

11. If any monitoring well becomes inoperable or damaged to the extent that sampling or well integrity may be affected, the permittee shall notify the Department's Central District Office within two business days from discovery, and a detailed written report shall follow within ten days after notification to the Department. The written report shall detail what problem has occurred and remedial measures that have been taken to prevent recurrence or request approval for replacement of the monitoring well. All monitoring well design and replacement shall be approved by the Department's Central District Office before installation. *[62-520.600(6)(l)]*

12. The permittee shall sample the following monitoring well(s): MWC-5A for the primary and secondary drinking water parameters included in Rules 62-550.310 and 62-550.320, F.A.C., (except for asbestos and all parameters in Table 5 of Chapter 62-550, F.A.C., other than Di(2-ethylhexyl) adipate and Di(2-ethylhexyl) phthalate). Results of this sampling shall be submitted to the Department's Central District Office with the application for permit renewal. Sampling shall occur no sooner than 180 days before submittal of the renewal application and reported using the RWS-G DMR. *[62-520.600(5)(b)]*

## IV. ADDITIONAL REUSE AND LAND APPLICATION REQUIREMENTS

### A. Part III Public Access System(s)

1. Use of reclaimed water is authorized within the general service area identified in the attached map. The following uses of reclaimed water are authorized within this general service area:

   Athletic Complexes and Parks
   Golf Courses
   Other Landscape Irrigation
   Residential Developments

   *[62-620.630(10)(a)]*

2. This reuse system includes the following major user(s) of reclaimed water (i.e., using 0.1 MGD or more) and general service area(s):

| Site Number | User Name | User Type | Capacity (MGD) | Acreage |
|---|---|---|---|---|
| PAA-1 | North Peninsula Residential development | Residential Developments | 1.38 | 595 |
| PAA-2 | Residential/Recreational Open Space Residential Development | Golf Courses | 1.38 | 594 |
| PAA-3 | Golf Courses/Oceanside; Tomoka Oaks; River Bend | Other Landscape Irrigation | 2.38 | 437 |
| PAA-4 | Western Ormond Beach-Residential | Athletic Complexes and Parks | 3.26 | 1399 |
| PAA-5 | South Peninsula-Residential | Golf Courses | 1.57 | 676 |
| PAA_6 | Ormond Beach WRF | Other Landscape | 0.02 | 12 |
| | | Total | 10.0 | 3713 |

*[62-610.800(5)] [62-620.630(10)(b)]*

3. New major users of reclaimed water (i.e., using 0.1 MGD or more) may be added to the reuse system using the general permit described in Rule 62-610.890, F.A.C., if the requirements in this rule are complied with. Application for use of this general permit shall be made using Form 62-610.300(4)(a)1. *[62-610.890]*

4. Cross-connections to the potable water system are prohibited. *[62-610.469(7)]*

5. A cross-connection control program shall be implemented and/or remain in effect within the areas where reclaimed water will be provided for use and shall be in compliance with the Rule 62-555.360, F.A.C. *[62-610.469(7)]*

6. The permittee shall conduct inspections within the reclaimed water service area to verify proper connections, to minimize illegal cross-connections, and to verify both the proper use of reclaimed water and that the proper backflow prevention assemblies or devices have been installed and tested. Inspections are required when a customer first connects to the reuse distribution system. Subsequent inspections are required as specified in the cross-connection control and inspection program. *[62-610.469(7)(h)]*

7. If an actual or potential (e.g. no dual check device on residential connections served by a reuse system) cross-connection between the potable and reclaimed water systems is discovered, the permittee shall:

   a. Immediately discontinue potable water and/or reclaimed water service to the affected area if an actual cross-connection is discovered.

   b. If the potable water system is contaminated, clear the potable water lines.

   c. Eliminate the cross-connection and install a backflow prevention device as required by the Rule 62-555.360.F.A.C.

   d. Test the affected area for other possible cross-connections.

   e. Within 24 hours, notify the Department's Central District Office's domestic wastewater and drinking water programs.

   f. Within 5 days of discovery of an actual or potential cross-connection, submit a written report to the Department's Central District Office detailing: a description of the cross-connection, how the cross-connection was discovered, the exact date and time of discovery, approximate time that the cross-connection existed, the location, the cause, steps taken to eliminate the cross-connection, whether reclaimed water was consumed, and reports of possible illness, whether the drinking water system was contaminated and the steps taken to clear the drinking water system, when the cross-connection was eliminated, plan of action for testing for other possible cross-connections in the area, and an evaluation of the cross-connection control and inspection program to ensure that future cross-connections do not occur.

   *[62-555.360][62-620.610(20)]*

8. Maximum obtainable separation of reclaimed water lines and potable water lines shall be provided and the minimum separation distances specified in Rule 62-610.469(7), F.A.C., shall be provided. Reuse facilities shall be color coded or marked. Underground piping which is not manufactured of metal or concrete shall be color coded using Pantone Purple 522C using light stable colorants. Underground metal and concrete pipe shall be color coded or marked using purple as the predominant color. *[62-610.469(7)]*

9. In constructing reclaimed water distribution piping, the permittee shall maintain a 75-foot setback distance from a reclaimed water transmission facility to public water supply wells. No setback distances are required to other potable water supply wells or to any nonpotable water supply wells. *[62-610.471(3)]*

10. A setback distance of 75 feet shall be maintained between the edge of the wetted area and potable water supply wells, unless the utility adopts and enforces an ordinance prohibiting potable water supply wells within the reuse service area. No setback distances are required to any nonpotable water supply well, to any surface water, to any developed areas, or to any private swimming pools, hot tubs, spas, saunas, picnic tables, barbecue pits, or barbecue grills. *[62-610.471(1), (2), (5), and (7)]*

11. Reclaimed water shall not be used to fill swimming pools, hot tubs, or wading pools. *[62-610.469(4)]*

12. Low trajectory nozzles, or other means to minimize aerosol formation shall be used within 100 feet from outdoor public eating, drinking, or bathing facilities. *[62-610.471(6)]*

13. A setback distance of 100 feet shall be maintained from indoor aesthetic features using reclaimed water to adjacent indoor public eating and drinking facilities. *[62-610.471(8)]*

14. The public shall be notified of the use of reclaimed water. This shall be accomplished by posting of advisory signs in areas where reuse is practiced, notes on scorecards, or other methods. *[62-610.468(2)]*

15. All new advisory signs and labels on vaults, service boxes, or compartments that house hose bibbs along with all labels on hose bibbs, valves, and outlets shall bear the words "do not drink" and "no beber" along with the equivalent standard international symbol. In addition to the words "do not drink" and "no beber," advisory signs posted at storage ponds and decorative water features shall also bear the words "do not swim" and "no nadar" along with the equivalent standard international symbols. Existing advisory signs and labels shall be retrofitted, modified, or replaced in order to comply with the revised wording requirements. For existing advisory signs and labels this retrofit, modification, or replacement shall occur within 365 days after the date of this permit. For labels on existing vaults, service boxes, or compartments housing hose bibbs this retrofit, modification, or replacement shall occur within 730 days after the date of this permit. *[62-610.468, 62-610.469]*

16. The permittee shall ensure that users of reclaimed water are informed about the origin, nature, and characteristics of reclaimed water; the manner in which reclaimed water can be safely used; and limitations on the use of reclaimed water. Notification is required at the time of initial connection to the reclaimed water distribution system and annually after the reuse system is placed into operation. A description of on-going public notification activities shall be included in the Annual Reuse Report. *[62-610.468(6)]*

17. Routine aquatic weed control and regular maintenance of storage pond embankments and access areas are required. *[62-610.414(8)]*

18. Overflows from emergency discharge facilities on storage ponds shall be reported as abnormal events in accordance with Permit Condition IX.20. *[62-610.800(9)]*

Supplemental Water Supplies - Ground Water

19. An approved backflow prevention device, as described in Rule 62-555.360, F.A.C., shall be provided on the pipe from each well connected into the reclaimed water system. *[62-610.472(4)]*

20. The supplemental water supply pipes and appurtenances shall be color coded and marked to differentiate them from the reclaimed water and potable water facilities. *[62-610.472(4)]*

21. Facilities used to connect supplemental water supplies into the reclaimed water distribution system shall be located and documented in the record drawings for the reuse system. *[62-610.472(7)]*

<u>Blending of Concentrate with Reclaimed Water</u>

22. Demineralization concentrate from Ormond Beach Water Treatment Plant may be blended with the treated reclaimed water. Concentrate shall be blended with the reclaimed water at final plant effluent/reclaim water. *[62-610.865]*

## V. OPERATION AND MAINTENANCE REQUIREMENTS

### A. Staffing Requirements

1. During the period of operation authorized by this permit, the wastewater facilities shall be operated under the supervision of one or more operators certified in accordance with Chapter 62-602, F.A.C. In accordance with Chapter 62-699, F.A.C., this facility is a Category I, Class A facility and, at a minimum, operators with appropriate certification must be on the site as follows:

   A Class C or higher operator 24 hours/day for 7 days/week. The lead/chief operator must be a Class A operator.

   *[62-620.630(3)][62-699.310] [62-610.462]*

2. The lead/chief operator shall be employed at the plant full time. "Full time" shall mean at least 4 days per week, working a minimum of 35 hours per week, including leave time. A licensed operator shall be on-site and in charge of each required shift for periods of required staffing time when the lead/chief operator is not on-site. An operator meeting the lead/chief operator class for the treatment plant shall be available during all periods of plant operation. "Available" means able to be contacted as needed to initiate the appropriate action in a timely manner. *[62-699.311(10), (6) and (1)]*

### B. Capacity Analysis Report and Operation and Maintenance Performance Report Requirements

1. The application to renew this permit shall include an updated capacity analysis report prepared in accordance with Rule 62-600.405, F.A.C. *[62-600.405(5)]*

2. The application to renew this permit shall include a detailed operation and maintenance performance report prepared in accordance with Rule 62-600.735, F.A.C. *[62-600.735(1)]*

### C. Recordkeeping Requirements

1. The permittee shall maintain the following records and make them available for inspection on the site of the permitted facility.
   a. Records of all compliance monitoring information, including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation, including, if applicable, a copy of the laboratory certification showing the certification number of the laboratory, for at least three years from the date the sample or measurement was taken;
   b. Copies of all reports required by this permit for at least three years from the date the report was prepared;
   c. Records of all data, including reports and documents, used to complete the application for this permit for at least three years from the date the application was filed;
   d. Monitoring information, including a copy of the laboratory certification showing the laboratory certification number, related to the residuals use and disposal activities for the time period set forth in Chapter 62-640, F.A.C., for at least three years from the date of sampling or measurement;
   e. A copy of the current wastewater facility permit;
   f. Copies of the current operation and maintenance manuals for the wastewater facility and the collection/transmission systems owned or operated by the wastewater facility permittee as required by Chapters 62-600 and 62-604, F.A.C.;
   g. A copy of any required record drawings for the wastewater facility and the collection/transmission systems owned or operated by the wastewater facility permittee;
   h. Copies of the licenses of the current certified operators;

i. Copies of the logs and schedules showing plant operations and equipment maintenance for three years from the date of the logs or schedules. The logs shall, at a minimum, include identification of the plant; the signature and license number of the operator(s) and the signature of the person(s) making any entries; date and time in and out; specific operation and maintenance activities, including any preventive maintenance or repairs made or requested; results of tests performed and samples taken, unless documented on a laboratory sheet; and notation of any notification or reporting completed in accordance with Rule 62-602.650(3), F.A.C. The logs shall be maintained on-site in a location accessible to 24-hour inspection, protected from weather damage, and current to the last operation and maintenance performed; and

j. Records of biosolids quantities, treatment, monitoring, and hauling for at least five years.

*[62-620.350, 62-604.500, 62-602.650, 62-640.650(4)]*

## VI. SCHEDULES

1. The following improvement actions shall be completed according to the following schedule:

| Improvement Action | Completion Date |
|---|---|
| 1. Complete the conversion of the RW EQ tank to a supplemental chlorine contact chamber | 01/01/2021 |

*[62-620.320(6)]*

2. The permittee is not authorized to discharge to waters of the state after the expiration date of this permit, unless:

   a. The permittee has applied for renewal of this permit at least 180 days before the expiration date of this permit using the appropriate forms listed in Rule 62-620.910, F.A.C., and in the manner established in the Department of Environmental Protection Guide to Permitting Wastewater Facilities or Activities Under Chapter 62-620, F.A.C., including submittal of the appropriate processing fee set forth in Rule 62-4.050, F.A.C.; or

   b. The permittee has made complete the application for renewal of this permit before the permit expiration date.

   Please note, effluent testing shall be conducted for each outfall in accordance with the instructions provided in Sections 3.A.12., 13., and 14. of the application form. A minimum of three samples shall be taken within four and one-half years prior to the date of the permit application and must be representative of the seasonal variation in the discharge from each outfall. *[62-620.335(1) - (4)]*

## VII. INDUSTRIAL PRETREATMENT PROGRAM REQUIREMENTS

### A. Implementation Requirements

1. The permittee shall function as the Control Authority and shall be responsible for the performance of all pretreatment program requirements contained in Chapter 62-625, F.A.C. The permittee shall be subject to enforcement actions, penalties, and other remedies by the Department or other appropriate parties. The permittee shall implement and enforce its Approved Pretreatment Program. The permittee's Approved Pretreatment Program is hereby made an enforceable condition of this permit. The Department may initiate enforcement action against an industrial user for noncompliance with applicable standards and requirements. *[62-625.500]*

2. The permittee shall enforce the requirements promulgated under Sections 307(b), 307(c), 307(d), and 402(b) of the Act. The permittee shall cause industrial users subject to Federal Categorical Standards to achieve compliance no later than the date specified in those requirements or, in the case of new industrial users, upon commencement of the discharge. *[62-625.410]*

3. The permittee shall perform the pretreatment functions as required in Chapter 62-625, F.A.C., including, but not limited to, the following:

   a. Implementing the necessary legal authorities as provided in Rule 62-625.500(2)(a), F.A.C. This includes, among other things, the authority to require compliance with applicable pretreatment standards, which includes general prohibitions listed in Rule 62-625.400(1), F.A.C., specific prohibitions in Rule 62-625.400(2), F.A.C., locally developed limits as required by Rules 62-625.400(3) and (4), F.A.C., and national categorical limits in accordance with Rule 62-625.410, F.A.C.;

   b. Implementing the programmatic functions as required under Rule 62-625.500(2)(b), F.A.C.;

   c. Providing the required funding, equipment, and personnel to implement the pretreatment program as provided in Rules 62-625.500(2), (3), and (4)., F.A.C.; and

   d. Providing a written technical evaluation that local limits have been developed in accordance with Rule 62-625.400(3)(a), F.A.C. The evaluation shall verify whether existing local limits protect the wastewater facilities, and if not, the permittee shall develop new local limits as part of the evaluation in accordance with Rule 62-625.600(16), F.A.C. For new local limits, a plan of study shall be submitted to the Department prior to initiating sampling required to develop the new local limits. This evaluation shall be submitted to the Department at the address in the condition below as required by the approved Industrial Pretreatment Program, or 180 days prior to the expiration of this permit.

   *[62-625.400 and .500]*

4. As required by Rules 62-625.600(8) and (12), F.A.C., the permittee shall submit a signed copy of the annual report for pretreatment activities, including DMRs for Monitoring Site Numbers PRT-I, PRT-E, and PRT-R for this facility, to the Department at the following address:

   Florida Department of Environmental Protection
   Domestic Wastewater Section, Mail Station 3540
   Bob Martinez Center
   2600 Blair Stone Road
   Tallahassee, Florida 32399-2400

   The annual report shall contain the information required in accordance with Rule 62-625.600(8), F.A.C., except section (8)(f) as noted below, and shall describe the permittee's pretreatment activities for the reporting year. In the event that the permittee is not in compliance with any conditions or requirements of the pretreatment program, then the permittee shall also include the reasons for noncompliance and state how and when the permittee shall comply with such conditions and requirements.

   In order to comply with Rule 62-625.600(8)(f), F.A.C., the permittee shall submit annual DMRs with the analytical results of influent, effluent, and residuals for those pollutants listed on the DMRs. For any other nonpriority pollutants which the permittee believes may be causing or contributing to interference, pass through, or adversely impacting residuals quality, the annual report shall provide a summary of all analytical results of influent, effluent, and residuals. The annual report and DMRs are due on February 1 of each year, to cover a period between January 1 to December 31. *[62-625.600(8) and (12)]*

5. No additional facilities are covered by the Ormond Beach WRF (FL0020532) pretreatment program.

6. Samples for Monitoring Site Numbers PRT-I, PRT-E, and PRT-R shall be taken at the monitoring site locations described below:

| Monitoring Location Site Number | Description of Monitoring Location |
|---|---|
| PRT-I | Influent |
| PRT-E | Effluent |
| PRT-R | Residuals |

## VIII. OTHER SPECIFIC CONDITIONS

1. The permittee shall comply with all conditions and requirements for reuse contained in their consumptive use permit issued by the Water Management District, if such requirements are consistent with Department rules. *[62-610.800(10)]*

2. In the event that the wastewater facilities or equipment, including collection/transmission systems, no longer function as intended, are no longer safe in terms of public health and safety (including inactive or abandoned facilities), or odor, noise, aerosol drift, or lighting adversely affects neighboring developed areas at the levels prohibited by paragraphs 62-600.400(2)(a) and 62-604.400(2)(c), F.A.C., corrective action (which may include additional maintenance or modifications of the permitted facilities) shall be taken by the permittee. Other corrective action may be required to ensure compliance with rules of the Department. Additionally, the treatment, management, use or land application of residuals shall not cause a violation of the odor prohibition in subsection 62-296.320(2), F.A.C. *[62-600.410(5), 62-604.500(3) and 62-640.400(6)]*

3. All collection/transmission systems shall be operated and maintained so as to provide uninterrupted service. *[62-604.500(2)]*

4. The deliberate introduction of stormwater in any amount into collection/transmission systems designed solely for the introduction (and conveyance) of domestic/industrial wastewater; or the deliberate introduction of stormwater into collection/transmission systems designed for the introduction or conveyance of combinations of storm and domestic/industrial wastewater in amounts which may reduce the efficiency of pollutant removal by the treatment plant is prohibited, except as provided by Rule 62-610.472, F.A.C. *[62-604.130(3)]*

5. Cross-connection, as defined in Rule 62-550.200, F.A.C., between the wastewater facility, including the collection/transmission system, and a potable water system is prohibited. *[62-550.360][62-604.130(3)]*

6. The collection/transmission operation and maintenance manual shall be maintained and revised periodically in accordance with subsection 62-604.500(4), F.A.C., to reflect any alterations performed or to reflect experience resulting from operation. However, a new operation and maintenance manual is not required to be developed for each project if there is already an existing manual that is applicable to the facilities being constructed. *[62-604.500(4)]*

7. Collection/transmission system overflows shall be reported to the Department in accordance with Permit Condition IX. 20. *[62-604.550] [62-620.610(20)]*

8. The operating authority of a collection/transmission system and the permittee of a treatment plant are prohibited from accepting connections of wastewater discharges which have not received necessary pretreatment or which contain materials or pollutants (other than normal domestic wastewater constituents):

   a. Which may cause fire or explosion hazards; or

   b. Which may cause excessive corrosion or other deterioration of wastewater facilities due to chemical action or pH levels; or

   c. Which are solid or viscous and obstruct flow or otherwise interfere with wastewater facility operations or treatment; or

   d. Which result in the wastewater temperature at the introduction of the treatment plant exceeding $40^{o}C$ or otherwise inhibiting treatment; or

   e. Which result in the presence of toxic gases, vapors, or fumes that may cause worker health and safety problems.

   *[62-604.130(5)]*

9. The treatment facility, storage ponds for Part II systems, rapid infiltration basins, and/or infiltration trenches shall be enclosed with a fence or otherwise provided with features to discourage the entry of animals and unauthorized persons. *[62-600.400(2)(b)]*

10. Screenings and grit removed from the wastewater facilities shall be collected in suitable containers and hauled to a Department approved Class I landfill or to a landfill approved by the Department for receipt/disposal of screenings and grit. *[62-701.300(1)(a)]*

11. Where required by Chapter 471 or Chapter 492, F.S., applicable portions of reports that must be submitted under this permit shall be signed and sealed by a professional engineer or a professional geologist, as appropriate. *[62-620.310(4)]*

12. The permittee shall provide verbal notice to the Department's Central District Office as soon as practical after discovery of a sinkhole or other karst feature within an area for the management or application of wastewater, wastewater residuals (sludges), or reclaimed water. The permittee shall immediately implement measures appropriate to control the entry of contaminants, and shall detail these measures to the Department's Central District Office in a written report within 7 days of the sinkhole discovery. *[62-620.320(6)]*

## IX. GENERAL CONDITIONS

1. The terms, conditions, requirements, limitations, and restrictions set forth in this permit are binding and enforceable pursuant to Chapter 403, Florida Statutes. Any permit noncompliance constitutes a violation of Chapter 403, Florida Statutes, and is grounds for enforcement action, permit termination, permit revocation and reissuance, or permit revision. *[62-620.610(1)]*

2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviations from the approved drawings, exhibits, specifications, or conditions of this permit constitutes grounds for revocation and enforcement action by the Department. *[62-620.610(2)]*

3. As provided in subsection 403.087(7), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor authorize any infringement of federal, state, or local laws or regulations. This permit is not a waiver of or approval of any other Department permit or authorization that may be required for other aspects of the total project which are not addressed in this permit. *[62-620.610(3)]*

4. This permit conveys no title to land or water, does not constitute state recognition or acknowledgment of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title. *[62-620.610(4)]*

5. This permit does not relieve the permittee from liability and penalties for harm or injury to human health or welfare, animal or plant life, or property caused by the construction or operation of this permitted source; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department. The permittee shall take all reasonable steps to minimize or prevent any discharge, reuse of reclaimed water, or residuals use or disposal in violation of this permit which has a reasonable likelihood of adversely affecting human health or the environment. It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit. *[62-620.610(5)]*

6. If the permittee wishes to continue an activity regulated by this permit after its expiration date, the permittee shall apply for and obtain a new permit. *[62-620.610(6)]*

7. The permittee shall at all times properly operate and maintain the facility and systems of treatment and control, and related appurtenances, that are installed and used by the permittee to achieve compliance with the conditions of this permit. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to maintain or achieve compliance with the conditions of the permit. *[62-620.610(7)]*

8. This permit may be modified, revoked and reissued, or terminated for cause. The filing of a request by the permittee for a permit revision, revocation and reissuance, or termination, or a notification of planned changes or anticipated noncompliance does not stay any permit condition. *[62-620.610(8)]*

9. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, including an authorized representative of the Department and authorized EPA personnel, when applicable, upon presentation of credentials or other documents as may be required by law, and at reasonable times, depending upon the nature of the concern being investigated, to:

    a. Enter upon the permittee's premises where a regulated facility, system, or activity is located or conducted, or where records shall be kept under the conditions of this permit;

    b. Have access to and copy any records that shall be kept under the conditions of this permit;

    c. Inspect the facilities, equipment, practices, or operations regulated or required under this permit; and

    d. Sample or monitor any substances or parameters at any location necessary to assure compliance with this permit or Department rules.

    *[62-620.610(9)]*

10. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data, and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except as such use is proscribed by Section 403.111, F.S., or Rule 62-620.302, F.A.C. Such evidence shall only be used to the extent that it is consistent with the Florida Rules of Civil Procedure and applicable evidentiary rules. *[62-620.610(10)]*

11. When requested by the Department, the permittee shall within a reasonable time provide any information required by law which is needed to determine whether there is cause for revising, revoking and reissuing, or terminating this permit, or to determine compliance with the permit. The permittee shall also provide to the Department upon request copies of records required by this permit to be kept. If the permittee becomes aware of relevant facts that were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be promptly submitted or corrections promptly reported to the Department. *[62-620.610(11)]*

12. Unless specifically stated otherwise in Department rules, the permittee, in accepting this permit, agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules. A reasonable time for compliance with a new or amended surface water quality standard, other than those standards addressed in Rule 62-302.500, F.A.C., shall include a reasonable time to obtain or be denied a mixing zone for the new or amended standard. *[62-620.610(12)]*

13. The permittee, in accepting this permit, agrees to pay the applicable regulatory program and surveillance fee in accordance with Rule 62-4.052, F.A.C. *[62-620.610(13)]*

14. This permit is transferable only upon Department approval in accordance with Rule 62-620.340, F.A.C. The permittee shall be liable for any noncompliance of the permitted activity until the transfer is approved by the Department. *[62-620.610(14)]*

15. The permittee shall give the Department written notice at least 60 days before inactivation or abandonment of a wastewater facility or activity and shall specify what steps will be taken to safeguard public health and safety during and following inactivation or abandonment. *[62-620.610(15)]*

16. The permittee shall apply for a revision to the Department permit in accordance with Rules 62-620.300, F.A.C., and the Department of Environmental Protection Guide to Permitting Wastewater Facilities or Activities Under Chapter 62-620, F.A.C., at least 90 days before construction of any planned substantial modifications to the permitted facility is to commence or with Rule 62-620.325(2), F.A.C., for minor modifications to the permitted facility. A revised permit shall be obtained before construction begins except as provided in Rule 62-620.300, F.A.C. *[62-620.610(16)]*

17. The permittee shall give advance notice to the Department of any planned changes in the permitted facility or activity which may result in noncompliance with permit requirements. The permittee shall be responsible for any and all damages which may result from the changes and may be subject to enforcement action by the Department for penalties or revocation of this permit. The notice shall include the following information:

    a. A description of the anticipated noncompliance;

    b. The period of the anticipated noncompliance, including dates and times; and

    c. Steps being taken to prevent future occurrence of the noncompliance.

    *[62-620.610(17)]*

18. Sampling and monitoring data shall be collected and analyzed in accordance with Rule 62-4.246 and Chapters 62-160, 62-600, and 62-610, F.A.C., and 40 CFR 136, as appropriate.

    a. Monitoring results shall be reported at the intervals specified elsewhere in this permit and shall be reported on a Discharge Monitoring Report (DMR), DEP Form 62-620.910(10), or as specified elsewhere in the permit.

    b. If the permittee monitors any contaminant more frequently than required by the permit, using Department approved test procedures, the results of this monitoring shall be included in the calculation and reporting of the data submitted in the DMR.

    c. Calculations for all limitations which require averaging of measurements shall use an arithmetic mean unless otherwise specified in this permit.

    d. Except as specifically provided in Rule 62-160.300, F.A.C., any laboratory test required by this permit shall be performed by a laboratory that has been certified by the Department of Health Environmental Laboratory Certification Program (DOH ELCP). Such certification shall be for the matrix, test method and analyte(s) being measured to comply with this permit. For domestic wastewater facilities, testing for parameters listed in Rule 62-160.300(4), F.A.C., shall be conducted under the direction of a certified operator.

    e. Field activities including on-site tests and sample collection shall follow the applicable standard operating procedures described in DEP-SOP-001/01 adopted by reference in Chapter 62-160, F.A.C.

    f. Alternate field procedures and laboratory methods may be used where they have been approved in accordance with Rules 62-160.220, and 62-160.330, F.A.C.

    *[62-620.610(18)]*

19. Reports of compliance or noncompliance with, or any progress reports on, interim and final requirements contained in any compliance schedule detailed elsewhere in this permit shall be submitted no later than 14 days following each schedule date. *[62-620.610(19)]*

20. The permittee shall report to the Department any noncompliance which may endanger health or the environment. Any information shall be provided orally within 24 hours from the time the permittee becomes aware of the circumstances. A written submission shall also be provided within five days of the time the permittee becomes aware of the circumstances. The written submission shall contain a description of the noncompliance and its cause; the period of noncompliance including exact dates and time, and if the noncompliance has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent recurrence of the noncompliance. For noncompliance events related to sanitary sewer overflows or bypass events, these reports must include the data described above (with the exception of time of discovery) as well as the type of event (sanitary sewer overflows or bypass events), type of sewer overflow (e.g., manhole), discharge volumes by the treatment works treating domestic sewage, types of human health and environmental impacts of the sewer overflow event, and whether the noncompliance was related to wet weather. The written submission may be provided electronically using the Department's Business Portal at http://www.fldepportal.com/go/ (via "Submit" followed by "Report" or "Registration/Notification"). Notice required under paragraph (d) may be provided together with the written submission using the Business Portal. All noncompliance events related to sanitary sewer overflows or bypass events submitted after December 21, 2020 shall be submitted electronically.

(a) The following shall be included as information which must be reported within 24 hours under this condition:

1. Any unanticipated bypass which causes any reclaimed water or the effluent to exceed any permit limitation or results in an unpermitted discharge,

2. Any upset which causes any reclaimed water or the effluent to exceed any limitation in the permit,

3. Violation of a maximum daily discharge limitation for any of the pollutants specifically listed in the permit for such notice, and

4. Any unauthorized discharge to surface or ground waters.

(b) Oral reports as required by this subsection shall be provided as follows:

1. For unauthorized releases or spills of treated or untreated wastewater reported pursuant to subparagraph (a)4. that are in excess of 1,000 gallons per incident, or where information indicates that public health or the environment will be endangered, oral reports shall be provided to the Department by calling the STATE WATCH OFFICE TOLL FREE NUMBER (800) 320-0519, as soon as practical, but no later than 24 hours from the time the permittee becomes aware of the discharge. The permittee, to the extent known, shall provide the following information to the State Watch Office:

   a. Name, address, and telephone number of person reporting;

   b. Name, address, and telephone number of permittee or responsible person for the discharge;

   c. Date and time of the discharge and status of discharge (ongoing or ceased);

   d. Characteristics of the wastewater spilled or released (untreated or treated, industrial or domestic wastewater);

   e. Estimated amount of the discharge;

   f. Location or address of the discharge;

   g. Source and cause of the discharge;

   h. Whether the discharge was contained on-site, and cleanup actions taken to date;

   i. Description of area affected by the discharge, including name of water body affected, if any; and

   j. Other persons or agencies contacted.

2. Oral reports, not otherwise required to be provided pursuant to subparagraph (b)1. above, shall be provided to the Department within 24 hours from the time the permittee becomes aware of the circumstances.

(c) If the oral report has been received within 24 hours, the noncompliance has been corrected, and the noncompliance did not endanger health or the environment, the Department shall waive the written report.

(d) In accordance with Section 403.077, F.S., unauthorized releases or spills reportable to the StateWatch Office pursuant to subparagraph (b)1. above shall also be reported to the Department within 24 hours from the time the permittee becomes aware of the discharge. The permittee shall provide to the Department information reported to the State Watch Office. Notice of unauthorized releases or spills may be provided to the Department through the Department's Public Notice of Pollution web page at https://floridadep.gov/pollutionnotice.

1. If, after providing notice pursuant to paragraph (d) above, the permittee determines that a reportable unauthorized release or spill did not occur or that an amendment to the notice is warranted, the permittee may submit additional notice to the Department documenting such determination.

2. If, after providing notice pursuant to paragraph (d) above, the permittee discovers that a reportable unauthorized release or spill has migrated outside the property boundaries of the installation, the permittee

must provide an additional notice to the Department that the release has migrated outside the property boundaries within 24 hours after its discovery of the migration outside of the property boundaries.

*[62-620.610(20)] [62-620.100(3)] [403.077, F.S.]*

21. The permittee shall report all instances of noncompliance not reported under Permit Conditions IX.17., IX.18., or IX.19. of this permit at the time monitoring reports are submitted. This report shall contain the same information required by Permit Condition IX.20. of this permit. *[62-620.610(21)]*

22. Bypass Provisions.

    a. "Bypass" means the intentional diversion of waste streams from any portion of a treatment works.

    b. Bypass is prohibited, and the Department may take enforcement action against a permittee for bypass, unless the permittee affirmatively demonstrates that:

        (1) Bypass was unavoidable to prevent loss of life, personal injury, or severe property damage; and

        (2) There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate back-up equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventive maintenance; and

        (3) The permittee submitted notices as required under Permit Condition IX.22.c. of this permit.

    c. If the permittee knows in advance of the need for a bypass, it shall submit prior notice to the Department, if possible at least 10 days before the date of the bypass. The permittee shall submit notice of an unanticipated bypass within 24 hours of learning about the bypass as required in Permit Condition IX.20. of this permit. A notice shall include a description of the bypass and its cause; the period of the bypass, including exact dates and times; if the bypass has not been corrected, the anticipated time it is expected to continue; and the steps taken or planned to reduce, eliminate, and prevent recurrence of the bypass.

    d. The Department shall approve an anticipated bypass, after considering its adverse effect, if the permittee demonstrates that it will meet the three conditions listed in Permit Condition IX.22.b.(1) through (3) of this permit.

    e. A permittee may allow any bypass to occur which does not cause reclaimed water or effluent limitations to be exceeded if it is for essential maintenance to assure efficient operation. These bypasses are not subject to the provisions of Permit Condition IX.22.b. through d. of this permit.

    *[62-620.610(22)]*

23. Upset Provisions.

    a. "Upset" means an exceptional incident in which there is unintentional and temporary noncompliance with technology-based effluent limitations because of factors beyond the reasonable control of the permittee.

        (1) An upset does not include noncompliance caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, careless or improper operation.

        (2) An upset constitutes an affirmative defense to an action brought for noncompliance with technology based permit effluent limitations if the requirements of upset provisions of Rule 62-620.610, F.A.C., are met.

    b. A permittee who wishes to establish the affirmative defense of upset shall demonstrate, through properly signed contemporaneous operating logs, or other relevant evidence that:

        (1) An upset occurred and that the permittee can identify the cause(s) of the upset;

        (2) The permitted facility was at the time being properly operated;

        (3) The permittee submitted notice of the upset as required in Permit Condition IX.20. of this permit; and

        (4) The permittee complied with any remedial measures required under Permit Condition IX.5. of this permit.

c. In any enforcement proceeding, the burden of proof for establishing the occurrence of an upset rests with the permittee.

d. Before an enforcement proceeding is instituted, no representation made during the Department review of a claim that noncompliance was caused by an upset is final agency action subject to judicial review.

**DEPARTMENT OF ENVIRONMENTAL PROTECTION DISCHARGE MONITORING REPORT - PART A**

**When Completed submit this report to:** http://www.fldepportal.com/go/

PERMITTEE NAME: Ormond Beach, City of
MAILING ADDRESS: 22 S Beach St
Ormond Beach, Florida 32174- 6386

FACILITY: Ormond Beach WRF
LOCATION: 550 N Orchard St
Ormond Beach, FL 32174-9512

COUNTY: Volusia
OFFICE: Central District

PERMIT NUMBER: FL0020532-023-DW1P

LIMIT: Final
CLASS SIZE: MA
MONITORING GROUP NUMBER: PRT-I
MONITORING GROUP DESCRIPTION: Influent Pretreatment
RE-SUBMITTED DMR: ☐
NO DISCHARGE FROM SITE: ☐
MONITORING PERIOD From: _____ To: _____

REPORT FREQUENCY: Annually
PROGRAM: Domestic

| Parameter | | Quantity or Loading | | Units | Quality or Concentration | | | Units | No. Ex. | Frequency of Analysis | Sample Type |

COMMENTS AND EXPLANATION (Reference all attachments here):

# GROUNDWATER MONITORING REPORT - PART D

Facility Name: Ormond Beach WRF
Permit Number: FL0020532-023-DW1P
County: Volusia

Monitoring Well ID: MWC-5A
Well Type: Compliance
Description: Well Name MW-5A Golf Course WAFR 46551 3064A16239

Report Frequency: Quarterly
Program: Domestic

Office: Central District

Re-submitted DMR: ☐

Monitoring Period From: _____ To: _____

Date Sample Obtained: _____

Time Sample Obtained: _____

Was the well purged before sampling? ___Yes ___ No

| Parameter | PARM Code | Sample Measurement | Permit Requirement | Units | Sample Type | Frequency of Analysis | Detection Limits | Analysis Method | Sampling Equipment Used | Samples Filtered (L/F/N) |
|---|---|---|---|---|---|---|---|---|---|---|
| Water Level Relative to NGVD | 82545 | | Report | ft | In Situ | Quarterly | | | | |
| Nitrogen, Nitrate, Total (as N) | 00620 | | 10 | mg/L | Grab | Quarterly | | | | |
| Solids, Total Dissolved (TDS) | 70295 | | 500 | mg/L | Grab | Quarterly | | | | |
| Chloride (as Cl) | 00940 | | 250 | mg/L | Grab | Quarterly | | | | |
| Coliform, Fecal | 74055 | | 4 | #/100mL | Grab | Quarterly | | | | |
| pH | 00400 | | 6.5-8.5 | s.u. | Grab | Quarterly | | | | |
| Sulfate, Total | 00945 | | 250 | mg/L | Grab | Quarterly | | | | |
| Turbidity | 00070 | | Report | NTU | Grab | Quarterly | | | | |
| Sodium, Total Recoverable | 00923 | | 160 | mg/L | Grab | Quarterly | | | | |
| Trihalomethane, Total by summation | 82080 | | 80 | ug/L | Grab | Quarterly | | | | |
| Bis (2-ethylhexyl) phthalate | 39100 | | 0.006 | mg/L | Grab | Quarterly | | | | |
| | | | | | | | | | | |
| | | | | | | | | | | |
| | | | | | | | | | | |
| | | | | | | | | | | |

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

COMMENTS AND EXPLANATION (Reference all attachments here):

## INSTRUCTIONS FOR COMPLETING THE WASTEWATER DISCHARGE MONITORING REPORT

Read these instructions before completing the DMR. Hard copies and/or electronic copies of the required parts of the DMR were provided with the permit. All required information shall be completed in full and typed or printed in ink. A signed, original DMR shall be mailed to the address printed on the DMR by the 28th of the month following the monitoring period. Facilities who submit their DMR(s) electronically through eDMR do not need to submit a hardcopy DMR. The DMR shall not be submitted before the end of the monitoring period.

The DMR consists of three parts--A, B, and D--all of which may or may not be applicable to every facility. Facilities may have one or more Part A's for reporting effluent or reclaimed water data. All domestic wastewater facilities will have a Part B for reporting daily sample results. Part D is used for reporting ground water monitoring well data.

When results are not available, the following codes should be used on parts A and D of the DMR and an explanation provided where appropriate. Note: Codes used on Part B for raw data are different.

| CODE | DESCRIPTION/INSTRUCTIONS |
|---|---|
| ANC | Analysis not conducted. |
| DRY | Dry Well |
| FLD | Flood disaster. |
| IFS | Insufficient flow for sampling. |
| LS | Lost sample. |
| MNR | Monitoring not required this period. |

| CODE | DESCRIPTION/INSTRUCTIONS |
|---|---|
| NOD | No discharge from/to site. |
| OPS | Operations were shutdown so no sample could be taken. |
| OTH | Other. Please enter an explanation of why monitoring data were not available. |
| SEF | Sampling equipment failure. |

When reporting analytical results that fall below a laboratory's reported method detection limits or practical quantification limits, the following instructions should be used, unless indicated otherwise in the permit or on the DMR:

1. Results greater than or equal to the PQL shall be reported as the measured quantity.
2. Results less than the PQL and greater than or equal to the MDL shall be reported as the laboratory's MDL value. These values shall be deemed equal to the MDL when necessary to calculate an average for that parameter and when determining compliance with permit limits.
3. Results less than the MDL shall be reported by entering a less than sign ("<") followed by the laboratory's MDL value, e.g. < 0.001. A value of one-half the MDL or one-half the effluent limit, whichever is lower, shall be used for that sample when necessary to calculate an average for that parameter. Values less than the MDL are considered to demonstrate compliance with an effluent limitation.

### PART A -DISCHARGE MONITORING REPORT (DMR)

Part A of the DMR is comprised of one or more sections, each having its own header information. Facility information is preprinted in the header as well as the monitoring group number, whether the limits and monitoring requirements are interim or final, and the required submittal frequency (e.g. monthly, annually, quarterly, etc.). Submit Part A based on the required reporting frequency in the header and the instructions shown in the permit. The following should be completed by the permittee or authorized representative:

**Resubmitted DMR:** Check this box if this DMR is being re-submitted because there was information missing from or information that needed correction on a previously submitted DMR. The information that is being revised should be clearly noted on the re-submitted DMR (e.g. highlight, circle, etc.)
**No Discharge From Site:** Check this box if no discharge occurs and, as a result, there are no data or codes to be entered for all of the parameters on the DMR for the entire monitoring group number; however, if the monitoring group includes other monitoring locations (e.g., influent sampling), the "NOD" code should be used to individually denote those parameters for which there was no discharge.
**Monitoring Period:** Enter the month, day, and year for the first and last day of the monitoring period (i.e. the month, the quarter, the year, etc.) during which the data on this report were collected and analyzed.
**Sample Measurement:** Before filling in sample measurements in the table, check to see that the data collected correspond to the limit indicated on the DMR (i.e. interim or final) and that the data correspond to the monitoring group number in the header. Enter the data or calculated results for each parameter on this row in the non-shaded area above the limit. Be sure the result being entered corresponds to the appropriate statistical base code (e.g. annual average, monthly average, single sample maximum, etc.) and units. Data qualifier codes are not to be reported on Part A.
**No. Ex.:** Enter the number of sample measurements during the monitoring period that exceeded the permit limit for each parameter in the non-shaded area. If none, enter zero.
**Frequency of Analysis:** The shaded areas in this column contain the minimum number of times the measurement is required to be made according to the permit. Enter the actual number of times the measurement was made in the space above the shaded area.
**Sample Type:** The shaded areas in this column contain the type of sample (e.g. grab, composite, continuous) required by the permit. Enter the actual sample type that was taken in the space above the shaded area.
**Signature:** This report must be signed in accordance with Rule 62-620.305, F.A.C. Type or print the name and title of the signing official. Include the telephone number where the official may be reached in the event there are questions concerning this report. Enter the date when the report is signed.
**Comment and Explanation of Any Violations:** Use this area to explain any exceedances, any upset or by-pass events, or other items which require explanation. If more space is needed, reference all attachments in this area.

**PART B - DAILY SAMPLE RESULTS**

**Monitoring Period:** Enter the month, day, and year for the first and last day of the monitoring period (i.e. the month, the quarter, the year, etc.) during which the data on this report were collected and analyzed.
**Daily Monitoring Results:** Transfer all analytical data from your facility's laboratory or a contract laboratory's data sheets for all day(s) that samples were collected. Record the data in the units indicated. Table 1 in Chapter 62-160, F.A.C., contains a complete list of all the data qualifier codes that your laboratory may use when reporting analytical results. However, when transferring numerical results onto Part B of the DMR, only the following data qualifier codes should be used and an explanation provided where appropriate.

| CODE | DESCRIPTION/INSTRUCTIONS |
|---|---|
| < | The compound was analyzed for but not detected. |
| A | Value reported is the mean (average) of two or more determinations. |
| J | Estimated value, value not accurate. |
| Q | Sample held beyond the actual holding time. |
| Y | Laboratory analysis was from an unpreserved or improperly preserved sample. |

To calculate the monthly average, add each reported value to get a total. For flow, divide this total by the number of days in the month. For all other parameters, divide the total by the number of observations.
**Plant Staffing:** List the name, certificate number, and class of all state certified operators operating the facility during the monitoring period. Use additional sheets as necessary.

**PART D - GROUND WATER MONITORING REPORT**

**Monitoring Period:** Enter the month, day, and year for the first and last day of the monitoring period (i.e. the month, the quarter, the year, etc.) during which the data on this report were collected and analyzed.
**Date Sample Obtained:** Enter the date the sample was taken. Also, check whether or not the well was purged before sampling.
**Time Sample Obtained:** Enter the time the sample was taken.
**Sample Measurement:** Record the results of the analysis. If the result was below the minimum detection limit, indicate that. Data qualifier codes are not to be reported on Part D.
**Detection Limits:** Record the detection limits of the analytical methods used.
**Analysis Method:** Indicate the analytical method used. Record the method number from Chapter 62-160 or Chapter 62-601, F.A.C., or from other sources.
**Sampling Equipment Used:** Indicate the procedure used to collect the sample (e.g. airlift, bucket/bailer, centrifugal pump, etc.)
**Samples Filtered:** Indicate whether the sample obtained was filtered by laboratory (L), filtered in field (F), or unfiltered (N).
**Signature:** This report must be signed in accordance with Rule 62-620.305, F.A.C. Type or print the name and title of the signing official. Include the telephone number where the official may be reached in the event there are questions concerning this report. Enter the date when the report is signed.
**Comments and Explanation:** Use this space to make any comments on or explanations of results that are unexpected. If more space is needed, reference all attachments in this area.

**SPECIAL INSTRUCTIONS FOR LIMITED WET WEATHER DISCHARGES**

**Flow (Limited Wet Weather Discharge):** Enter the measured average flow rate during the period of discharge or divide gallons discharged by duration of discharge (converted into days). Record in million gallons per day (MGD).
**Flow (Upstream):** Enter the average flow rate in the receiving stream upstream from the point of discharge for the period of discharge. The average flow rate can be calculated based on two measurements; one made at the start and one made at the end of the discharge period. Measurements are to be made at the upstream gauging station described in the permit.
**Actual Stream Dilution Ratio:** To calculate the Actual Stream Dilution Ratio, divide the average upstream flow rate by the average discharge flow rate. Enter the Actual Stream Dilution Ratio accurate to the nearest 0.1.
**No. of Days the SDF > Stream Dilution Ratio:** For each day of discharge, compare the minimum Stream Dilution Factor (SDF) from the permit to the calculated Stream Dilution Ratio. On Part B of the DMR, enter an asterisk (*) if the SDF is greater than the Stream Dilution Ratio on any day of discharge. On Part A of the DMR, add up the days with an "*" and record the total number of days the Stream Dilution Factor was greater than the Stream Dilution Ratio.
**$CBOD_5$:** Enter the average $CBOD_5$ of the reclaimed water discharged during the period shown in duration of discharge.
**TKN:** Enter the average TKN of the reclaimed water discharged during the period shown in duration of discharge.
**Actual Rainfall:** Enter the actual rainfall for each day on Part B. Enter the actual cumulative rainfall to date for this calendar year and the actual total monthly rainfall on Part A. The cumulative rainfall to date for this calendar year is the total amount of rain, in inches, that has been recorded since January 1 of the current year through the month for which this DMR contains data.
**Rainfall During Average Rainfall Year:** On Part A, enter the total monthly rainfall during the average rainfall year and the cumulative rainfall for the average rainfall year. The cumulative rainfall for the average rainfall year is the amount of rain, in inches, which fell during the average rainfall year from January through the month for which this DMR contains data.
**No. of Days LWWD Activated During Calendar Year:** Enter the cumulative number of days that the limited wet weather discharge was activated since January 1 of the current year.
**Reason for Discharge:** Attach to the DMR a brief explanation of the factors contributing to the need to activate the limited wet weather discharge.

**DEPARTMENT OF ENVIRONMENTAL PROTECTION DISCHARGE MONITORING REPORT - PART A**

**When Completed submit this report to:** http://www.fldepportal.com/go/

PERMITTEE NAME: City of Ormond Beach

**DEPARTMENT OF ENVIRONMENTAL PROTECTION DISCHARGE MONITORING REPORT - PART A**

**When Completed mail this report to:** Department of Environmental Protection, Wastewater Compliance Evaluation Section, MS 3551, 2600 Blair Stone Road, Tallahassee, FL 32399-2400

PERMITTEE NAME: City of Ormond Beach
MAILING ADDRESS: 22 S Beach St
Ormond Beach, Florida 32174-6386

FACILITY: Ormond Beach WRF
LOCATION: 550 N Orchard St
Ormond Beach, FL 32174-9512

COUNTY: Volusia
OFFICE: Central District

PERMIT NUMBER: FL0020532-023-DW1P

LIMIT: Final
CLASS SIZE: MA
MONITORING GROUP NUMBER: RWS-C (Concentrate)
MONITORING GROUP DESCRIPTION: Annual Reclaimed Water or Effluent Analysis
RE-SUBMITTED DMR: ☐
NO DISCHARGE FROM SITE: ☐
MONITORING NOT REQUIRED: ☐
MONITORING PERIOD From: _____ To: _____

REPORT FREQUENCY: Annually
PROGRAM: Domestic

**FACT SHEET**
**FOR**
**STATE OF FLORIDA DOMESTIC WASTEWATER FACILITY PERMIT**

PERMIT NUMBER: FL0020532-023 (Major)

FACILITY NAME: Ormond Beach WRF

FACILITY LOCATION: 550 N Orchard St,
Ormond Beach, FL 32174-9512
Volusia County

NAME OF PERMITTEE: City of Ormond Beach

PERMIT WRITER: Dennise Judy

1. SUMMARY OF APPLICATION

a. Chronology of Application

Application Number: FL0020532-023-DW1P
Application Submittal Date: June 13, 2019

b. Type of Facility

Domestic Wastewater Treatment Plant
Ownership Type: Municipal
SIC Code: 4952

c. Facility Capacity

| | |
|---|---|
| Existing Permitted Capacity: | 8.0 MGD Annual Average Daily Flow |
| Proposed Increase in Permitted Capacity: | 0.0 MGD Annual Average Daily Flow |
| Proposed Total Permitted Capacity: | 8.0 MGD Annual Average Daily Flow |

d. Description of Wastewater Treatment

Treatment is provided by an existing 8.0 MGD annual average daily flow (AADF) permitted capacity advanced wastewater treatment (AWT) plant with an odor control system, influent screening, grit removal, biological nutrient removal (carousel type, 5-stage Bardenpho Process), re-aeration, chemical feed facilities, secondary clarification, tertiary filtration, high level disinfection, with post-aeration and dechlorination for the river discharge, and thickening, followed by dewatering, of biosolids. This permit authorizes modification of the piping, valving, and associated appurtenances to retrofit an existing Reclaimed Water (RW) Equalization (EQ) basin for use as a supplemental chlorine contact chamber.

e. Description of Effluent Disposal and Land Application Sites

**R-001** is an existing 10.0 MGD annual average daily flow permitted capacity slow-rate public access system. R-001 consists of irrigation within the approved Reuse Service Area as shown on the attached map, to the major users identified in Part IV.A.2 of this permit. This reuse system also receives reclaimed water (RW) from the Holly Hill RW system. Excess reclaimed water, and substandard effluent, is discharged to D-001.

The Hunter's Ridge and Breakaway Trails RW storage systems receive water from supplemental groundwater wells prior to distribution within the service area.

Demineralization concentrate is blended with reclaimed water going to the slow-rate public access R-001.

**D-001** is an existing 6.0 MGD annual average daily flow discharge to the Halifax River, Class III Marine waters, (WBID# 2363B). The outfall pipe is approximately 1000 feet in length and discharges at a depth of approximately 5 feet. The point of discharge is located approximately at latitude 29°17' 50" N, longitude 81°3' 26" W.

2. SUMMARY OF SURFACE WATER DISCHARGE

Pollutants which are present in significant quantities or which are subject to permit limitations are as follows:

| **Parameter** | **Units** | **Max/Min** | **Reported Value** (11/30/2018 through 10/31/2019) | **Statistical Basis** |
|---|---|---|---|---|
| Flow | MGD | Min | 0.03 | Monthly Average |
| Flow | MGD | Max | 5.40 | Monthly Average |
| BOD, Carbonaceous 5 day, 20C | mg/L | Min | 1.0 | Monthly Average |
| BOD, Carbonaceous 5 day, 20C | mg/L | Max | 4.15 | Monthly Average |
| Solids, Total Suspended | mg/L | Min | 0.5 | Monthly Average |
| Solids, Total Suspended | mg/L | Max | 1.23 | Monthly Average |
| Coliform, Fecal | #/100mL | Min | 0.50 | Monthly Average |
| Coliform, Fecal | #/100mL | Max | 1.25 | Monthly Average |
| pH | s.u. | Min | 7.1 | Single Sample |
| pH | s.u. | Max | 8.4 | Single Sample |
| Chlorine, Total Residual | mg/L | Min | 0.4 | Single Sample |
| Chlorine, Total Residual | mg/L | Max | 1.4 | Single Sample |
| Chlorine, Total Residual | mg/L | Min | 0.01 | Monthly Average |
| Chlorine, Total Residual | mg/L | Max | 0.01 | Monthly Average |
| Nitrogen, Total | mg/L | Min | 1.4 | Monthly Average |
| Nitrogen, Total | mg/L | Max | 2.8 | Monthly Average |
| Phosphorus, Total (as P) | mg/L | Min | 0.04 | Monthly Average |
| Phosphorus, Total (as P) | mg/L | Max | 0.2 | Monthly Average |
| Oxygen, Dissolved (DO) | mg/L | Min | 6.1 | Single Sample |
| Oxygen, Dissolved (DO) | mg/L | Max | 7.9 | Single Sample |
| Chlorodibromomethane | ug/L | Min | 13.9 | Annual Average |
| Chlorodibromomethane | ug/L | Max | 15.4 | Annual Average |
| Dichlorobromomethane | ug/L | Min | 33.7 | Annual Average |
| Dichlorobromomethane | ug/L | Max | 39.1 | Annual Average |
| Copper, Total Recoverable | ug/L | Min | 0.90 | Single Sample |
| Copper, Total Recoverable | ug/L | Max | 0.93 | Single Sample |
| Zinc, Total Recoverable | ug/L | Min | 24.9 | Single Sample |
| Zinc, Total Recoverable | ug/L | Max | 49.7 | Single Sample |

This facility does not have a new or expanded discharge to surface waters.

The Department does not anticipate adverse impacts on threatened or endangered species as a result of permit issuance.

3. BASIS FOR PERMIT LIMITATIONS AND MONITORING REQUIREMENTS

This facility is authorized to discharge effluent from Outfall D-001 to the Halifax River based on the following:

| Parameter | Units | Max/ Min | Limit | Statistical Basis | Rationale |
|---|---|---|---|---|---|
| Flow | MGD | Max | 6.0 | Annual Average | 62-600.700(2)(b) FAC |
| Flow | MGD | Max | Report | Monthly Average | 62-600.700(2)(b) FAC |
| Flow | MGD | Max | Report | Annual Average | 62-600.700(2)(b) FAC |
| Flow | MGD | Max | Report | Monthly Average | 62-600.700(2)(b) FAC |
| Flow | MGD | Max | Report | Annual Average | 62-600.700(2)(b) FAC |
| Flow | MGD | Max | Report | Monthly Average | 62-600.700(2)(b) FAC |
| BOD, Carbonaceous 5 day, 20C | mg/L | Max | 5.0 | Annual Average | 62-600.430(1)(b) FAC |
| BOD, Carbonaceous 5 day, 20C | mg/L | Max | 6.25 | Monthly Average | 62-600.740(2)(b)2 FAC |
| BOD, Carbonaceous 5 day, 20C | mg/L | Max | 7.5 | Weekly Average | 62-600.740(2)(b)3 FAC |
| BOD, Carbonaceous 5 day, 20C | mg/L | Max | 10.0 | Single Sample | 62-600.740(2)(b)4 FAC |
| Solids, Total Suspended | mg/L | Max | 5.0 | Annual Average | 62-600.430(1)(b) FAC |
| Solids, Total Suspended | mg/L | Max | 6.25 | Monthly Average | 62-600.740(2)(b)2 FAC |
| Solids, Total Suspended | mg/L | Max | 7.5 | Weekly Average | 62-600.740(2)(b)3 FAC |
| Solids, Total Suspended | mg/L | Max | 10.0 | Single Sample | 62-600.740(2)(b)4 FAC |
| Coliform, Fecal | #/100mL | Max | 200 | Monthly Geometric Mean | 62-600.640(5)(a)2 FAC |
| Coliform, Fecal | #/100mL | Max | 200 | Annual Average | 62-600.640(5)(a)1 FAC |
| Coliform, Fecal | #/100mL | Max | 400 | 90th Percentile | 62-600.640(5)(a)3 FAC |
| Coliform, Fecal | #/100mL | Max | 800 | Single Sample | 62-600.640(5)(a)4 FAC |
| Coliform, Fecal | #/100mL | Max | 200 | Monthly Geometric Mean | 62-600.640(5)(a)2 FAC |
| Coliform, Fecal | #/100mL | Max | 200 | Annual Average | 62-600.640(5)(a)1 FAC |
| Coliform, Fecal | #/100mL | Max | 400 | 90th Percentile | 62-600.640(5)(a)3 FAC |
| Coliform, Fecal | #/100mL | Max | 800 | Single Sample | 62-600.640(5)(a)4 FAC |
| Enterococci | #/100mL | Max | 35 | Monthly Geometric Mean | 62-302.530 FAC |
| Enterococci | #/100mL | Max | 130 | 90th Percentile | 62-302.530 FAC |
| pH | s.u. | Min | 6.5 | Single Sample | 62-600.430, 62-302.530(52) & 62-650 FAC |
| pH | s.u. | Max | 8.5 | Single Sample | 62-600.430, 62-302.530(52) & 62-650 FAC |

| Parameter | Units | Max/ Min | Limit | Statistical Basis | Rationale |
|---|---|---|---|---|---|
| Chlorine, Total Residual (For Disinfection) | mg/L | Min | 0.5 | Single Sample | 62-600.440(5)(c) FAC |
| Chlorine, Total Residual (For Disinfection) | mg/L | Min | 0.5 | Single Sample | 62-600.440(5)(c) FAC |
| Chlorine, Total Residual (For Dechlorination) | mg/L | Max | 0.01 | Single Sample | 62-600.440(2) & 62-302.530(18) FAC |
| Nitrogen, Total | mg/L | Max | 3.0 | Monthly Average | 62-650 FAC |
| Nitrogen, Total | mg/L | Max | 4.5 | Weekly Average | 62-600.740(2)(b)3. FAC |
| Nitrogen, Total | mg/L | Max | 6.0 | Single Sample | 62-600.740(2)(b)4. FAC |
| Phosphorus, Total (as P) | mg/L | Max | 1.0 | Monthly Average | 62-650 FAC |
| Phosphorus, Total (as P) | mg/L | Max | 1.5 | Weekly Average | 62-600.740(2)(b)3. FAC |
| Phosphorus, Total (as P) | mg/L | Max | 2.0 | Single Sample | 62-600.740(1)(b)2.c. FAC |
| Oxygen, Dissolved (DO) | mg/L | Min | 4.0 | Single Sample | 62-650 FAC |
| Nitrogen, Total | lb/yr | Max | 54831 | Annual Total | |
| Nitrogen, Total | lb/yr | Max | Report | Monthly Total | |
| Phosphorus, Total (as P) | lb/yr | Max | 18278 | Annual Total | |
| Phosphorus, Total (as P) | lb/yr | Max | Report | Monthly Total | |
| Acute Whole Effluent Toxicity, 96 Hour LC50 (Ceriodaphnia dubia) | percent | Min | 100 | Single Sample | 62-302.200(1), 62-302.500(1)(a)4 & 62-4.241(1)(a) FAC |
| Acute Whole Effluent Toxicity, 96 Hour LC50 (Cyprinella leedsi) | percent | Min | 100 | Single Sample | 62-302.200(1), 62-302.500(1)(a)4 & 62-4.241(1)(a) FAC |
| Dichlorobromomethane | ug/L | Max | 100 | Annual Average | 62-302.530(35)(b)5 FAC |
| Enterococci | #/100mL | Max | 35 | Monthly Geometric Mean | 62-302.500(1)(a)6. and 40 CFR Part 131.41 |
| Enterococci | #/100mL | Max | 104 | Single Sample | 62-302.500(1)(a)6. and 40 CFR Part 131.41 |

Because there is no established relationship between fecal coliform and enterococci bacteria, limitations based on both the disinfection requirements for fecal coliform from Rule 62-600.440, F.A.C., and based on the bacteriological water quality standards for enterococci for discharges to Class III predominately marine waters under Rule 62-302.530, F.A.C., have been included in the permit.

In addition to the specified limits in Condition I.A.1., the monthly average effluent concentration for carbonaceous biochemical oxygen demand (5-day) and total suspended solids shall not exceed 15% of the respective influent values (i.e., 85% removal).

A mixing zone for dichlorobromomethane (DCBM) has been approved in accordance with DEP permit file number: FL0020532-012-DW1P and is described as a rectangle centered along the diffuser with a mixing zone of 539 square meters.

Original effluent limitations were based on a Level II WQBEL titled "Halifax River Documentation, Water Quality Based Effluent Limitations," Vol. 2, No. 106, Water Quality Technical Series which was finalized by Wayne Magley and Linda Lakes on August 1, 1990. The WQBEL did not specify TSS limits. The annual effluent limitations for $CBOD_5$ TSS, TN and TP are Advanced Wastewater Treatment (AWT) limits, which are more stringent than the WQBEL. These limits were requested by the applicant during a previous permit renewal and have been included in all permits since then. The Waste Load allocation (WLA) for the Ormond Beach WRF discharge that was included in the 2013 Total Maximum Daily Load (TMDL) Report for the Halifax River replaced the original WQBEL limits. However, the TMDL document incorrectly stated the nitrogen concentration limit for the discharge to surface waters at 6.0 mg/L instead of the correct 3.0 mg/L concentration. **Backsliding is not permitted by EPA and the information was incorrect; therefore, the WLA remains at 54,831 lbs/yr (not 109,666 lbs/yr as stated in the TMDL final report.)** The concentration limits for $CBOD_5$ remain as stated in the previous permit. Although this segment of the Halifax River is also impaired for coliforms, the Department wastewater permit limits for fecal coliforms by rule are equivalent to the water quality standard for fecal coliform and therefore the discharge is not considered to be contributing to the coliform impairment.

The waste load allocations for this facility remain as follows:

| Parameter | Mass Loading (Lbs./year) |
|---|---|
| CBOD5 | 182,865 (based on 5 mg/L annual average) |
| Total Nitrogen | 54750 (based on 3 mg/L annual average) |
| Total Phosphorus | 18278 (based on 1 mg/L annual average) |

In previous permits, these limits were reported in lb/day; at 501, 150, and 50 for CBOD, TN and TP, respectively. The most recent permit required monthly total and cumulative total, for all months through the reporting month, for a given calendar year - January thru December – and is continued in this permit. The mass load limits are based on a calendar year. Basic level disinfection for the surface water discharge is required, as in the two previous permits, and is continued in this permit.

The minimum Dissolved Oxygen (DO) level of 2.0 mg/L in the earlier permits was established by the WQBEL document. However, on September 9, 2013, EPA approved revisions to Florida's criteria for DO. The revision also allowed a single sample maximum limit that meets the criteria under all conditions to be proposed by the applicant. The permittee proposed a single sample minimum DO of 4.0 mg/L. The saturation limit for oxygen in this segment of Halifax River at 60 F -the assumed minimum temperature of the effluent - would be 9.85 mg/L. Based on this value, the 38% daily average would be 4.0 mg/L, therefore, this has been established as the DO limit.

Technology based effluent limitations (TBELs) are minimum waste treatment requirements based on treatment technologies for reducing discharges of pollutants into receiving waters. TBELs are established, for domestic wastewater facilities, by state rule and statute in Chapters 62-600, 62-610, 62-611, 62-620, F.A.C., and Section 403.086, F.S.; they may also be developed in accordance with best professional judgment. TBELs are included in the permit for the following pollutants of concern:

| Parameter | Units | Monitoring Location | Monitoring Group |
|---|---|---|---|
| Flow | MGD | FLW-1 | D-001 |
| Flow | MGD | FLW-6 | D-001 |
| Chlorine, Total Residual (For Disinfection) | mg/L | EFA-1 | D-001 |
| Chlorine, Total Residual (For Disinfection) | mg/L | EFA-2 | D-001 |

Water quality based effluent limitations (WQBELs) are effluent limitations, which may be more stringent than a technology based effluent limitation, that have been determined necessary by the Department to ensure that water quality standards in a receiving body of water will not be violated. WQBELs are developed in accordance with Chapter 62-650, F.A.C., and are based on the characteristics of the discharge, the receiving water characteristics, and the criteria and standards in Chapters 62-4, 62-302, and the 62-600 series, F.A.C.; they may also be developed based on Total Maximum Daily Load (TMDL) allocations adopted in Chapter 62-304, F.A.C., or allocations developed as part of a Basin Management Action Plan (BMAP) or a Reasonable Assurance Plan (RAP). WQBELs are included in the permit for the following pollutants of concern:

| Parameter | Units | Monitoring Location | Monitoring Group |
|---|---|---|---|
| BOD, Carbonaceous 5 day, 20C | mg/L | EFD-1 | D-001 |
| Solids, Total Suspended | mg/L | EFD-1 | D-001 |
| Coliform, Fecal | #/100mL | EFA-1 | D-001 |
| Coliform, Fecal | #/100mL | EFA-2 | D-001 |
| Enterococci | #/100mL | EFD-1 | D-001 |
| pH | s.u. | EFD-1 | D-001 |
| Chlorine, Total Residual (For Dechlorination) | mg/L | EFD-1 | D-001 |
| Nitrogen, Total | mg/L | EFD-1 | D-001 |
| Phosphorus, Total (as P) | mg/L | EFD-1 | D-001 |
| Oxygen, Dissolved (DO) | mg/L | EFD-1 | D-001 |
| Nitrogen, Total | lb/yr | EFD-1 | D-001 |
| Phosphorus, Total (as P) | lb/yr | EFD-1 | D-001 |
| Dichlorobromomethane | ug/L | EFD-1 | D-001 |
| Enterococci | #/100mL | EFD-1 | D-001 |

Pollutants of concern were identified for WQBEL development based on an evaluation of all available information, including a characterization of the pollutants that may be discharged, fifth year inspection data, the sources of pollutants, existing controls on pollutants, available dilution, background pollutant levels in the receiving waters, and the toxicity of pollutants.

Unless otherwise noted, effluent limitations were developed by applying water quality criteria at the end of pipe.

Effluent limitations were determined based on an evaluation of the impact of the discharge on receiving water bodies. This evaluation was conducted in accordance with the TMDL process described in Rule 62-304, F.A.C. For each effluent limitation included in the permit, technology and water quality-based limitations were compared and the most stringent limitation was selected. The current effluent nutrient loading limits were established in the finalized Halifax River TMDL Report (dated July 1, 2013) and meet the Numeric Nutrient Criteria for the receiving water body.

This facility has provided reasonable assurance that the discharge will not adversely affect the designated use of the receiving water. Fifth year inspection data, as well as all other available data, have been evaluated in accordance with the Department's reasonable assurance procedures to ensure that no limits other than those included in this permit are needed to maintain Florida water quality standards. The proposed effluent limitations will be achieved during the period beginning on the issuance date and lasting through the expiration date of the permit. A Water Quality Based Effluent Limit (WQBEL) Level I Analysis was performed for this permit renewal. The facility has provided reasonable assurance that, if all conditions of this permit are met, the discharge will not adversely affect the designated use of the receiving water.

This facility was previously required to conduct chronic toxicity testing for this discharge because it was used on a regular basis. The discharge has become intermittent due to the expansion of the Public Access Reuse System. Therefore, acute toxicity testing is now included in the permit (96-hour LC50 with not less than 100% effluent.) with provisions for conducting a shorter duration sampling event due to the short-term nature of their discharges.

This facility is authorized to direct reclaimed water to Reuse System R-001, a slow-rate public access system, based on the following:

| Parameter | Units | Max/ Min | Limit | Statistical Basis | Rationale |
|---|---|---|---|---|---|
| Flow | MGD | Max | 10.0 | Annual Average | 62-600.700(2)(b) & 62-610.810(5) FAC |
| Flow | MGD | Max | Report | Monthly Average | 62-600.700(2)(b) & 62-610.810(5) FAC |

| Blend Ratio | ratio | Max | Report | Single Sample | 62-610.865(6)(d) FAC |
| Sodium Adsorption Ratio (Blend) | ratio | Max | Report | Single Sample | 62-610.865(8)(e) FAC |
| Sodium, Total Recoverable (Blend) | mg/L | Max | Report | Single Sample | 62-610.865(8)(e) FAC |
| Magnesium, Total Recoverable (Blend) | mg/L | Max | Report | Single Sample | 62-610.865(8)(e) FAC |
| Calcium, Total Recoverable (Blend) | mg/L | Max | Report | Single Sample | 62-610.865(8)(e) FAC |
| Chloride (as Cl) (Blend) | mg/L | Max | Report | Single Sample | 62-610.865(8)(e) FAC |
| Solids, Total Dissolved (TDS) (Blend) | mg/L | Max | Report | Single Sample | 62-610.865(8)(e) FAC |

Monthly monitoring of the effluent for Total Nitrogen and Total Phosphorus has been retained in this permit, as allowed by Rule 62-601.300(6), FAC, because the facility is located in an impaired water basin.

Other Limitations and Monitoring Requirements:

| Parameter | Units | Max/ Min | Limit | Statistical Basis | Rationale |
|---|---|---|---|---|---|
| Flow (total through plant) | MGD | Max | 8.0 | Annual Average | 62-600.700(2)(b) FAC |
| | | Max | Report | Monthly Average | 62-600.700(2)(b) FAC |

| Parameter | Units | Max/ Min | Limit | Statistical Basis | Rationale |
|---|---|---|---|---|---|
| Percent Capacity, (TMADF/Permitted Capacity) x 100 | percent | Max | Report | Monthly Average | 62-600.405(4) FAC |
| BOD, Carbonaceous 5 day, 20C (Influent) | mg/L | Max | Report | Single Sample | 62-600.660(1) FAC |
| Solids, Total Suspended (Influent) | mg/L | Max | Report | Single Sample | 62-600.660(1) FAC |
| Monitoring Frequencies and Sample Types | - | - | - | All Parameters | 62-600 FAC & 62-699 FAC and/or BPJ of permit writer |
| Sampling Locations | - | - | - | All Parameters | 62-600, 62-610.412, 62-610.463(1), 62-610.568, 62-610.613 FAC and/or BPJ of permit writer |

4. IMPAIRMENT STATUS OF RECEIVING WATERS

Under Section 303(d) of the Clean Water Act, the Department is required to submit lists of impaired waters to EPA. The receiving water body for this discharge is listed on the 303(d) list. This segment of the Halifax River was included on the State of Florida 1998 303d planning list and has an approved TMDL for nutrients. The approved TMDL for the Halifax River includes the Ormond Beach discharge and is based on the WQBEL document. Since the TMDL has been established only for nutrients and not coliforms, which is also listed as a parameter of concern for this segment of the Halifax River, the following is included as a condition of this permit: Coliforms and nutrients are listed as parameters of concern on the 1998 303d planning list for this segment of the Halifax River. This discharge is in compliance with the approved Total Maximum Daily Load (TMDL) for the Halifax River for nutrients. The Department may develop a TMDL for coliforms during the life of this permit. Once a TMDL has been established and adopted by rule, the Department shall revise this permit to incorporate the final findings of the TMDL, pursuant to Rule 62-620.325, Florida Administrative Code. This may include revised or new limits for coliforms.

5. DISCUSSION OF CHANGES TO PERMIT LIMITATIONS

The current wastewater permit for this facility FL0020532-023-DW1P expires on March 5, 2025. The following parameters are not included in the permit for monthly monitoring because they have been determined to not have the reasonable potential to exceed the water quality standard: Chlorodibromomethane (CDBM), copper, silver and zinc have been below the water quality standards at levels that provide assurance that there is no reasonable potential to exceed the standard. TTHMs and Bis(2-ethlhexyl) phthalate have been added to the GWMP because they were present in the annual reclaimed water scan.

6. BIOSOLIDS MANAGEMENT REQUIREMENTS

Biosolids generated by this facility may be transferred to a DEP approved biosolids treatment facility (BTF) or disposed of in a Class I solid waste landfill.

See the table below for the rationale for the biosolids quantities monitoring requirements.

| Parameter | Units | Max/ Min | Limit | Statistical Basis | Rationale |
|---|---|---|---|---|---|
| Biosolids Quantity (Transferred) | dry tons | Max | Report | Monthly Total | 62-640.650(5)(a)1. FAC |
| Biosolids Quantity (Landfilled) | dry tons | Max | Report | Monthly Total | 62-640.650(5)(a)1. FAC |
| Monitoring Frequency | | All Parameters | | | 62-640.650(5)(a) FAC |

7. GROUND WATER MONITORING REQUIREMENTS

Ground water monitoring requirements have been established in accordance with Chapters 62-520, 532, 600, 610, and 620, F.A.C.

8. PERMIT SCHEDULES

A schedule is included in the wastewater permit to complete the conversion of the RW EQ tank to a supplemental chlorine contact chamber. Approximately one year is anticipated for completion of the conversion, but it should be implemented as soon as possible

9. INDUSTRIAL PRETREATMENT REQUIREMENTS

The permittee has an active, approved industrial pretreatment program. The permit includes standard conditions requiring implementation and enforcement of the existing program.

10. ADMINISTRATIVE ORDERS (AO) AND CONSENT ORDERS (CO)

This permit is not accompanied by an AO, and the permittee has not entered into a CO with the Department that affects this permit.

11. REQUESTED VARIANCES OR ALTERNATIVES TO REQUIRED STANDARDS

No variances were requested for this facility.

12. THE ADMINISTRATIVE RECORD

The administrative record including application, draft permit, fact sheet, public notice (after release), comments received and additional information is available on the Department's electronic filing system:
https://depedms.dep.state.fl.us:443/Oculus/servlet/shell?command=hitlist&[freeText=]&[folderName=]&[profile=Permitting_Authorization]&[creator=]&[entityType=any]&[createdDateTo=]&[catalog=38]&[searchBy=Profile]&[sortBy=Document+Date]&[createdDate=]&{County=_EQ_VOLUSIA}&{District=_EQ_CD}&{Facility-Site+ID=_EQ_FL0020532}&{Document+Date=_RG_(06-01-2019,02-13-2020)}&{Document+Type=_EQ_PERMIT+APPLICATION+RELATED}&{Permit+Type=_EQ_DW+-+DOMESTIC+WASTEWATER+FACILITY}&{Facility+Type=_LK_DOMESTIC+WASTEWATER}

13. PROPOSED SCHEDULE FOR PERMIT ISSUANCE

| | |
|---|---|
| Draft Permit and Public Notice to Applicant and EPA | February 14, 2020 |
| Public Comment Period | Beginning: February 17, 2020<br>Ending: March 16, 2020 |
| Proposed Permit to EPA | March 18, 2020 |
| Notice of Intent to Issue | April 10, 2020 |
| Notice of Permit Issuance | May 8, 2020 |

14. DEP CONTACT

Additional information concerning the permit and proposed schedule for permit issuance may be obtained during normal business hours from:

Florida Department of Environmental Protection
Permitting and Wastewater Cleanup Program
Central District Office
3319 Maguire Blvd
Suite 232
Orlando, FL 32803-3767

Telephone No.: 407-897-4100

# PATHOGEN MONITORING

## Part I - Instructions

1. Completion of this report is required by Rules 62-610.463(4), 62-610.472(3)(d), 62-610.525(13), 62-610.568(11), 62-610.568(12), and 62-610.652(6)(c), F.A.C., for all domestic wastewater facilities that provide reclaimed water to certain types of reuse activities. The schedule for sampling and reporting shall be in accordance with the permit for the facility. If a schedule for sampling or re-sampling is not included in the permit, the following schedule shall apply:

   a. Routine Sampling:

      If sampling is required once every two years, this report shall be submitted on or before November 28 of each even numbered year (2006, 2008, 2010, etc.).

      If sampling is required once every five years, this report shall be submitted with the application for permit renewal.

      If sampling is required quarterly, this report shall be submitted on or before February 28, May 28, August 28, and November 28 of each year.

   b. Subsequent Re-Sampling:

      If subsequent re-sampling is required by Item 9 in Part I of this form, this form shall be submitted for the subsequent re-sampling(s) in accordance with the schedule established in Item 9 in Part I of this form.

2. Submit one copy of this form and a copy of the laboratory's final report for the analysis of *Giardia* and *Cryptosporidium* to each of the following two addresses:

   a. The appropriate DEP district office (attention Domestic Wastewater Program). Addresses for the DEP district offices are available at www.dep.state.fl.us/secretary/dist/default.htm.

   b. DEP Water Reuse Coordinator
      Mail Station 3540
      2600 Blair Stone Road
      Tallahassee, Florida 32399-2400

3. Please type or print legibly.

4. In Part II, Items 7 through 12 need to be completed only if this is the first submittal of this report, if the information in Items 7 through 12 has changed since the last submittal, or if the information in any of these questions has not been previously provided.

5. Part III is to be used when sampling for *Giardia* and *Cryptosporidium* at the treatment plant. Part III is also to be used when sampling for *Giardia* and *Cryptosporidium* in a supplemental water supply (see Rule 62-610.472, F.A.C.).

6. For each sample, record the sample volume obtained in liters.

7. For *Giardia*, record the concentrations in cysts per 100 liters. For *Cryptosporidium*, record the concentrations in oocysts per 100 liters. Sufficient sample volumes shall be collected and processed such that the detection limit is no greater than 5 cysts or oocysts per 100 liters. Detection levels on the order of 1 cyst or oocyst per 100 liters are recommended. If an observation is less than the detection limit, make an entry in the form "<2" (where 2 per 100 liters is the detection limit in this example). The actual detection limit will be dictated by the volumes of sample obtained, filtered, and processed. Do NOT record nondetectable values as zero.

8. EPA Method 1623 or other approved methods for reclaimed water or nonpotable waters, adjusted appropriately to accommodate the detection limit requirements, shall be used. Methods previously allowed for EPA's Information Collection Rule (ICR) shall not be used. The full requirements of the approved method, including quality assurance and quality control, are to be met. Quality assurance and sampling requirements in Chapter 62-160, F.A.C., shall apply.

   Two concentrations of *Giardia* and *Cryptosporidium* shall be recorded on Part III of this form:

   a. Total cysts and oocysts shall be enumerated using EPA Method 1623 or other approved methods.

   b. Potentially viable cysts and oocysts shall be enumerated using the DAPI staining technique contained in EPA Method 1623 or similar enumeration techniques included in other approved methods. Cysts and oocysts that are stained DAPI positive or show internal structure by D.I.C. shall be considered as being potentially viable. If the laboratory reports separate values for DAPI positive and for cysts or oocysts having internal structure, the larger of the two concentrations will be reported as being potentially viable.

9. If the number of potentially viable cysts of *Giardia* reported exceeds 5 per 100 liters, a subsequent sample shall be taken and analyzed using EPA Method 1623 or other approved methods and reported using this form. If the number of potentially viable oocysts of *Cryptosporidium* reported exceeds 22 per 100 liters, a subsequent sample shall be taken and analyzed using EPA Method 1623 or other approved methods and reported using this form. This subsequent sample shall be collected within 90 days of the date the initial sample was taken, analyzed for both *Giardia* and *Cryptosporidium*, and the results of the subsequent analysis shall be submitted to DEP using this form within 60 days of sample collection.

10. Rule 62-160.300, F.A.C., requires that all laboratories generating environmental data for submission to the DEP shall hold certification from the Department of Health's (DOH) Environmental Laboratory Certification Program (ELCP). Certification by the ELCP for analysis of *Giardia* and *Cryptosporidium* using EPA Method 1623 for non-potable waters is required. If other approved methods are used, certification by the ELCP is required for the specific method and for the test matrix. Lists of certified laboratories can be found at www.dep.state.fl.us/labs/cgi-bin/aams/index.asp

11. Samples shall be collected during peak flow periods (normally between the hours of 8:00 a.m. and 6:00 p.m.).

12. Recognizing that concentrations of these pathogens generally increase during the late summer through fall period, it is recommended that utilities sample during the August through October time period.

13. If the wastewater treatment facility uses chlorination for disinfection, samples obtained for analysis of *Giardia* and *Cryptosporidium* shall be dechlorinated.

14. When sampling at the treatment facility, obtain a grab sample for total suspended solids (TSS) that is representative of the water leaving the filters at the treatment facility during the period when pathogen samples are being obtained. In addition, record the highest turbidity and the lowest total chlorine residual observed during the period when pathogen samples are being obtained.

15. When sampling a supplemental water supply, obtain a grab sample for total suspended solids (TSS) that is representative of the surface water or treated stormwater as it is added to the reclaimed water system. This TSS sample shall be taken during the period when pathogen samples are being obtained. In addition, record the lowest total chlorine residual observed during the period when pathogen samples are being obtained.

## Part II - General Information

1. DEP wastewater facility identification number: **FL0020532**

   Wastewater facility name: Ormond Beach WRF

   Permittee name: City of Ormond Beach

2. Person completing this form:

   Name: _____

   Telephone: (_____)_____

   Email address: _____

3. Sampling and analysis:

   Date samples were taken: _____

   Organization collecting the samples: _____

   Was the sample dechlorinated in the field? ☐ Yes ☐ No

   Was the sample refrigerated or kept on ice during shipment to the laboratory? ☐ Yes ☐ No

   Date samples delivered to laboratory: _____

   Date analytical work was done: _____

   Laboratory doing the analysis: _____

   Laboratory's DOH Identification Number: _____

   Approved method used:

   ☐ EPA Method 1623

   ☐ Other approved method: _____

   Contact person at the laboratory: _____

   Email address of the lab contact person: _____

4. Is this the first time that this form has been submitted for the facility?

   ☐ Yes [Please complete Questions 7 through 16.]

   ☐ No [Proceed to Question 5.]

5. Is this a report of "subsequent re-sampling" required by Item 9 in Part I of this form based on concentrations of potentially viable cysts or oocysts in a previous sampling?

   ☐ No [Proceed to Question 6.]

   ☐ Yes [Attach a description of any facility or operational changes made to the treatment facilities since the time of the previous sampling and proceed to Question 6.]

6. Has the information requested in Questions 7 through 12 (below) changed since the last submittal of this form?

   ☐ Yes [Please complete Questions 7 through 16.]

   ☐ No [Proceed to Questions 13 through 16 of Part II of this form. You do not need to complete Questions 7 through 12.]

7. Type of secondary treatment system:

   ☐ Conventional activated sludge ☐ Extended aeration

   ☐ Contact stabilization ☐ Biological nutrient removal (such as Bardenpho)

   ☐ Other: _____

8. Does this treatment facility nitrify (convert ammonia nitrogen to nitrate)? ☐ Yes ☐ No

9. Filter type:

   ☐ Deep bed, single media ☐ Deep bed, multiple media

   ☐ Shallow bed, automatic backwash ☐ Upflow (including Dynasand)

   ☐ Slow rate sand filter ☐ Diatomaceous earth filter

   ☐ Fabric filter ☐ Cartridge filter

   ☐ Membranes (microfiltration, ultrafiltration, membrane bioreactor, reverse osmosis)

   ☐ Other: _____

10. Filter Media (complete for each type of media provided):

    Top layer of media: Media type: _____

    Effective size: _____ mm

    Uniformity coefficient: _____

    Bed depth: _____ inches

Middle layer of media: Media type: _____

Effective size: _____ mm

Uniformity coefficient: _____

Bed depth: _____ inches

Bottom layer of media: Media type: _____

Effective size: _____ mm

Uniformity coefficient: _____

Bed depth: _____ inches

11. Filter backwash water:

☐ Backwash water is returned to the headworks of the treatment plant.

☐ Backwash water is returned to the aeration basin.

☐ Other. Please describe: _____

12. Disinfection system:

☐ Chlorination, gas ☐ Hypochlorite

☐ Chlorine dioxide ☐ Chlorination, other _____

☐ Ultraviolet ☐ Ozone

☐ Other: _____

13. Is chlorine added before the filters? ☐ No ☐ Yes Dose: _____ mg/L

14. During the period that samples were taken, did you add a coagulant, coagulant aid, polyelectrolyte, or other chemical to enhance filtration?

☐ No

☐ Yes. Please list the chemicals being added and their dose.

Chemical 1 - Name: _____ Dose: _____ mg/L

Chemical 2 - Name: _____ Dose: _____ mg/L

Chemical 3 - Name: _____ Dose: _____ mg/L

15. Wastewater treatment plant permitted capacity: _____ MGD

16. Wastewater flow being treated at the time samples were collected: _____ MGD

## PART III - PATHOGEN MONITORING REPORT

**RESOLUTION NO. 2020-85**

A RESOLUTION ACCEPTING A BID FROM PACE ANALYTICAL SERVICES, LLC FOR LABORATORY SERVICES REGARDING WATER AND WASTEWATER FACILITY SAMPLE TESTING AND LAB ANALYSIS, UNDER BID NO. 2020-23; AUTHORIZING THE EXECUTION OF A CONTRACT AND PAYMENT THEREFOR; REJECTING ALL OTHER BIDS; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS**, the City advertised for bids (Bid No. 2020-23) for laboratory services regarding sample collection and testing of the City's potable water, sewer and reclaimed water ("the Project") pursuant to section 2-300, *Code of Ordinances*, and

**WHEREAS**, the City's professional staff have reviewed the bids received and have determined that the bid submitted by Pace Analytical Services, LLC in the amount of $61,418.00/year is the lowest responsible and responsive bid (a copy of the bid being incorporated in the contract which is attached hereto and incorporated herein by reference), and

**WHEREAS,** the City Manager has certified that the money for the payment of the Project is appropriated in the Water and Wastewater Fund, and

**WHEREAS,** the City Commission concurs with the foregoing recommendations, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE.** The bid submitted by Pace Analytical Services, LLC to provide laboratory testing services in the amount of $61,418.00/year is hereby accepted.

**SECTION TWO.** All other bids relative to the aforedescribed Project shall be deemed rejected upon the execution of a contract with Pace Analytical Services, LLC.

**SECTION THREE.** The Mayor and the City Manager are hereby authorized and directed to execute a contract with Pace Analytical Services, LLC to provide the services for an initial one-year term at $61,418.00 plus four possible renewal periods of $61,418.00 per year for a total of $307,090.00 over a five-year period, and to pay the cost thereof from the Water and Wastewater Fund.

**SECTION FOUR.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 28th day of July, 2020.**

**BILL PARTINGTON**
Mayor

**ATTEST:**

**COLBY J. CILENTO**
City Clerk

# AGREEMENT

**THIS AGREEMENT** is made and entered into by and between the **City of Ormond Beach** ("City"), a Florida municipal corporation, 22 South Beach Street, Ormond Beach, Volusia County, Florida and **Pace Analytical Services, LLC** ("Contractor"), 8 East Tower Circle, Ormond Beach, FL 32174, and in consideration of the mutual promises and covenants herein contained, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree to the following:

1. **Scope of Work.** The Proposal dated June 17, 2020, attached hereto as Exhibit "A", and the Invitation to Bid (2020-23 "Laboratory Testing Services") dated June 10, 2020, attached hereto as Exhibit "B", are incorporated herein by reference and are a material part of this Agreement. The Contractor shall fully comply with the terms and conditions described in the attached exhibits.

2. **Term.** This Agreement shall be effective on the date it is fully executed by the parties. The initial term of this Agreement shall be for a period of one (1) year and shall be automatically renewed for four (4) additional one-year periods, unless either party provides a written notice of non-renewal at least ninety (90) calendar days prior to the Agreement expiration date.

3. **Consideration.** Contractor shall perform the services at the prices set forth on the attached exhibits. Contractor shall prepare and submit invoices to the City at the address set forth in Paragraph 9 of this Agreement. All such invoices shall be paid by the City within thirty (30) days.

4. **Delivery.** Contractor shall complete the project within the time frame set forth on the attached exhibits.

5. **Termination of Agreement**.
   (a) The City Commission shall have the right to terminate the Agreement in the event the Contractor files any petition or proceeding for bankruptcy relief, or is adjudicated to be bankrupt or insolvent, or fails to pay just debts as they ordinarily become due; or for a material breach of this agreement that remains uncured for at least thirty days after prior written receipt of a notice of violation of same.

   (b) This Agreement may not be terminated by the Contractor.

6. **Assignment**. The Contractor shall not assign, convey or transfer all or any part of this Agreement, or all or any part of Contractor's interest herein, or all or any part of any interest in the Contractor, without the prior written consent of the City Commission, which consent shall not be unreasonably withheld.

7. **Complete Agreement**. This Agreement, including the provisions set forth in the exhibit attached hereto and incorporated by reference herein, constitutes the entire and complete

agreement of the parties, and the promises and covenants herein contained shall survive the life of this Agreement.

8. **Amendment to Agreement**. Any amendment, change, or modification of this Agreement must be in writing and fully executed by both parties.

9. **Notices**. All notices which are required by this Agreement shall be provided to the parties at the following addresses, or such other addresses as may be requested in writing by either party:

| | |
|---|---|
| **City of Ormond Beach** | **Pace Analytical Services, LLC** |
| Joyce Shanahan, City Manager | Garrett Ervin, General Manager |
| (copy to City Attorney) | 8 East Tower Circle |
| 22 South Beach Street | Ormond Beach, FL 32174 |
| Ormond Beach, FL 32174 | |

10. **Sovereign Immunity**. The City expressly retains and reserves all rights, privileges, immunities, and benefits of sovereign immunity. This provision shall be construed broadly in favor of the City.

11. **Venue**. The terms and conditions of this Agreement shall be construed and enforced under the laws of the State of Florida. Any action or proceeding, either at law or in equity, regarding this Agreement shall be brought in the circuit court, Seventh Judicial Circuit in and for Volusia County, Florida. Venue in any other jurisdiction or forum, whether it be any other circuit, state or federal venue, is hereby expressly waived.

12. **Waiver of Conditions**. No waiver by the City of any condition or breach of performance by the Contractor shall constitute an irrevocable, continuing, or subsequent waiver by the City of the same condition or breach of performance, or of any other condition or other breach of performance.

13. **Severability**. If any part of this Agreement is declared to be unenforceable or void by a court of competent jurisdiction, the remaining parts of the Agreement shall remain in full force and effect as long as the services to be provided by the Contractor are not materially affected, altered or impaired as a result of said judicial declaration.

14. **Conflicting Provisions.** In the event of any conflict between the provisions of this Agreement and any exhibits, the provision most favorable to the City shall control and shall be given full force and effect.

15. **Indemnification**. The City, its agents, employees, and officials, both elected and appointed, shall be indemnified and held harmless by Contractor from any and all liabilities, claims, and causes of action which may arise out of the willful, negligent, or unlawful acts or omissions of the Contractor or its subcontractors in the performance of this Agreement, unless such claims are a result of the City's sole negligence, as determined by the final decision maker of such claim.

16. **Duty to Defend.** The Contractor shall defend all suits and administrative actions, including all appellate proceedings, brought against the City, its agents, employees, and officials, both elected and appointed and shall pay all attorneys' fees and costs associated with the City's legal defense, as may be selected by the City, arising from all claims and causes of action described in Section 15 above. Such payment on behalf of the City shall be in addition to any and all other legal or equitable remedies available to the City and shall not be considered to be the City's exclusive remedy.

17. **Contractor's Insurance**. The Contractor shall purchase and maintain for the entire life of this Agreement, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under this Agreement, whether such operations be by the Contractor, or by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

18. **Types of Insurance and Limits of Liability.** The insurance required herein shall be written for not less than the limits of liability specified herein or as required by law, whichever is greater, and shall include the following:

(a) Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000. Each Accident Bodily Injury by Accident
$100,000. Each Employee Bodily Injury by Disease
$500,000. Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for coverage. However, if the contractor subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverages.)

(b) **Commercial General Liability Insurance** shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 88, or its successor form, including but not limited to the following coverages (any deviation shall be noted on the Certificates of Insurance), and the CITY OF ORMOND BEACH shall be named as an additional insured:

1. Premises and Operations
2. Owners' & Contractors' Protective
3. Products & Completed Operations
4. Explosion, Collapse & Underground Conditions
5. Blanket Contractual Liability
6. Personal Injury Liability
7. Broad Form Property Damage Endorsement, including Completed Operations
8. Independent Contractors
9. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
10. Pollution Liability (if applicable)
11. Asbestos Abatement (if applicable)
12. Fire Damage Liability

Certain coverages outlined above may not be required if they do not relate to the Agreement, as may be determined at the sole discretion of the City.

**Commercial General Liability Coverage** shall be written on an occurrence basis and the limits shall be no less than the following for all tiers of Contractors and Subcontractors:

| **Contract Value** | **Limits (not less than)** |
|---|---|
| 0 - 25,000 | $300,000 Each Occurrence |
| | $300,000 General Aggregate* |
| | $300,000 Aggregate Products & Completed Operations |
| | $ 25,000 Fire Damage (any one fire) |
| $25,001 - $250,000 | $500,000 Each Occurrence |
| | $1 Million General Aggregate* |
| | $1 Million Aggregate Products & Completed Operations |

| | | |
|---|---|---|
| | $ 50,000 | Fire Damage (any one fire) |
| $250,001 - $3,000,000 | $1 Million Each Occurrence<br>$1 Million General Aggregate*<br>$1 Million Aggregate Products & Completed Operations<br>$ 50,000 | Fire Damage (any one fire) |
| $3,000,001 & over | 20% of the Value of the Contract [Minimum $1 Million Each Occurrence/$2 Million General Aggregate] | |

* NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

(c) **Automobile Liability Insurance** for the operation, use, maintenance, loading or unloading of automobiles - ISO Symbol 1 (Any Auto) or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos). The coverage limits shall be no less than the following for all tiers of Contractors and Subcontractors:

| **Contract Value** | **Limits (not less than)** |
|---|---|
| 0 - 25,000 | $300,000 Combined Single Limit |
| $25,001 - $250,000 | $500,000 Combined Single Limit |
| $250,001 and over | $1 Million Combined Single Limit |

(d) Excess Liability

For Contracts of $250,000 or more, and in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention for occurrences insured in this Excess Policy not to exceed $25,000 and a minimum limit of $1 Million.

(e) Professional Liability, Malpractice and/or Errors and Omissions

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great

a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provide a retroactive date no later than the inception date of claims made coverage.

19. **Requirements for Certificates of Insurance**.

(a) With the execution of this Agreement, the Contractor shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall contain a provision that the coverage under the policies will not be canceled, non-renewed or materially changed until at least **thirty (30)** days' prior written notice of such cancellation, non-renewal or change [except for nonpayment of premium, which shall be **ten (10)** days] has been given to the City. The Contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACORD FORM 25-S (7/90), or its successor form, and shall be made a part of this Agreement.

(b) New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

(c) If requested by the City, the Contractor shall furnish complete copies of the Contractor's insurance policies, forms and endorsements.

(d) For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

(e) If the Contractor fails to obtain and maintain for the life of the Agreement the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City from the amount due the Contractor for the work covered by the Agreement.

(f) **Policies of Insurance**

1. Except as otherwise provided herein, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-) in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carriers; written confirmation is required.

3. All policies of insurance or certificates thereof referred to herein shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability and Automobile Liability policies of insurance and certificates thereof.

20. **Enforcement of Costs**. If any legal action or other proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default, or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorneys' fees, court costs, and all expenses even if not taxable court costs (including, without limitation, all such fees, costs and expenses incident to arbitration, appellate, bankruptcy, and post-judgment proceedings), incurred in that action or proceeding or any appeal, in addition to any other relief to which the party or parties may be entitled. Attorneys' fees include legal assistant fees, expert witness fees, investigative fees, administrative costs, and all other charges billed by the attorney for the prevailing party.

21. **Compliance With Laws.** Contractor shall comply with all applicable federal, state and local laws and regulations.

22. **Compliance With Florida Public Records Law**. Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.
(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.
(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be

provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.
(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

**IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:**

**COLBY J. CILENTO, CITY CLERK**

**COLBY.CILENTO@ORMONDBEACH.ORG**

Ref: Fla. Stat. §119.0701(2016)

23. **Limitation of Remedy and Liability.** Contractor and Owner expressly waive any claim for consequential damages against the other including but not limited to, a waiver of claims for diminished bonding capacity, loss of financing, loss of business reputation, lost profits on other projects or other lost opportunity damage claims.

Contractor expressly agrees that any claim (tort, contract, claim in equity, or otherwise) by Contractor for damages against Owner shall not exceed the total amount of the contract price, less any amounts actually paid to the Contractor by the Owner (or by an insurer of the Owner).

All liability of the City allegedly resulting from, arising out of or connected with this Agreement or from the performance or breach thereof, shall terminate three years from the execution of this Agreement.

24. **Waiver of Right to Jury Trial.** THE PARTIES HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVE ANY RIGHT WHICH ANY PARTY MAY HAVE TO TRIAL BY JURY IN RESPECT OF ANY PROCEEDING, LITIGATION OR COUNTERCLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN) OR ACTIONS OF ANY PARTY. IF THE SUBJECT MATTER OF ANY LAWSUIT IS ONE IN WHICH THE WAIVER OF JURY TRIAL IS PROHIBITED, NO PARTY TO THIS AGREEMENT SHALL PRESENT AS A NON-COMPULSORY COUNTERCLAIM IN ANY SUCH LAWSUIT ANY CLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT. FURTHERMORE, NO PARTY TO

THIS AGREEMENT SHALL SEEK TO CONSOLIDATE ANY SUCH ACTION IN WHICH A JURY TRIAL CANNOT BE WAIVED.

25. **Effective Date.** This Agreement shall become effective upon the date last signed by the parties hereto.

IN WITNESS WHEREOF, the undersigned parties have caused this Agreement to be signed on the dates indicated hereinbelow.

# Laboratory Testing Services

Table of Contents

| | |
|---|---|
| a.Copies of current State, NELAP, and EPA certifications or other documentation that firmly establishes, to the satisfaction of the City, the certification status of the laboratory for all listed parameters must be submitted with your bid | See Enclosed Thumb Drive |
| b. A price list must be submitted with your Bid showing individual parameter prices (for all listed parameters), method numbers, and method detection limits. Costs shall be shall be firm for the duration of the contract. | See Appendix A |
| c. One (1) copy of the laboratory NELAC compliant "Quality Manual" shall be provided with your Bid. | See Enclosed Thumb Drive |
| d. A statement indicating the percentage of work to be subcontracted. Additionally, the statement shall also confirm that the laboratory has sufficient staffing to assume the responsibility for the testing to be performed on behalf of the City of Ormond Beach. | Page 3 |
| e. The results from the most recent previous two WP/WA/NELAC Proficiency Testing studies are to be included in your submittal. | See Enclosed Thumb Drive |
| f. Copies of the last two FDOH laboratory assessments with corrective actions taken are to be included in your submittal. | See Enclosed Thumb Drive |
| g. A description of the laboratory and its relevant prior experience, specifically as related to governmental agencies. | Page 3 |
| h. A list of four references who shall confirm instances of comparable testing performed for governmental entities. If these cannot be provided, please explain. | Page 13 |
| i. The name and resume, including employment history with the Company, of the **senior staff** individuals who will perform the testing. If the successful provider subcontracts work under this contract, the same information will be provided for the subcontract laboratory. | Page 14 |
| j. Documentation which establishes the length of time in business in the State of Florida (at least four (4) years required). | Page 30 |
| k. Laboratories with service contracts cancelled within the previous five years due to failure to provide accurate testing results are not eligible to bid. | Page 32 |
| Appendix A – City of Ormond Beach bid Forms | Page 33 |

## d. A statement indicating the percentage of work to be subcontracted. Additionally, the statement shall also confirm that the laboratory has sufficient staffing to assume the responsibility for the testing to be performed on behalf of the City of Ormond Beach

Pace will subcontract only the 200.9 for Thallium ( to Benchmark EA) bioassay (to Hydrosphere) and Giardia/Cryptosporidium (to ASI) analysis. All other analysis will be performed by pace Analytical. That represents 3 tests out of 5100 tests which is <0.06% of the total tests. Pace is the incumbent laboratory and has sufficient staffing to continue serving the City of Ormond Beach for contract needs.

## g. A description for the laboratory and its relevant prior experience, specifically as related to governmental agencies.

Pace Analytical Services, LLC (Pace Analytical) was established in 1978. We are a privately held, full-service sampling and analytical services firm operating a network of 41 environmental laboratories and 45 service centers nationwide, plus 3 Life Sciences laboratories. All of our full-service environmental laboratories are NELAC accredited. Our laboratories utilize U.S. EPA, ASTM, Standard Methods, NIOSH, and other accepted test procedures and methods, in accordance with federal and state regulations.

The company consists of three divisions: Environmental, Life Sciences and Scientific Professional Services. Analytical testing and related services include analytical chemistry, on-site field sampling, product and material testing, microbiology services, medical device and drug-device combination product testing, professional laboratory staffing, and lab equipment sales and services. Pace Analytical maintains a comprehensive list of certifications and methodologies throughout our laboratories. In addition to offering full service environmental analytical services, Pace Analytical provides the following specialty environmental testing services:

- Drinking Water
- Water / Wastewater
- Air Toxics
- PFAS Testing
- Microbiological
- Mixed Waste Characterization
- Field Sampling and Analysis
- Aquatic Toxicity / Bioassay
- Radiochemistry
- Low Level Mercury Analysis
- Vapor Intrusion
- PCB Congeners
- On-Site Gas Phase FTIR
- Dioxin / Furan

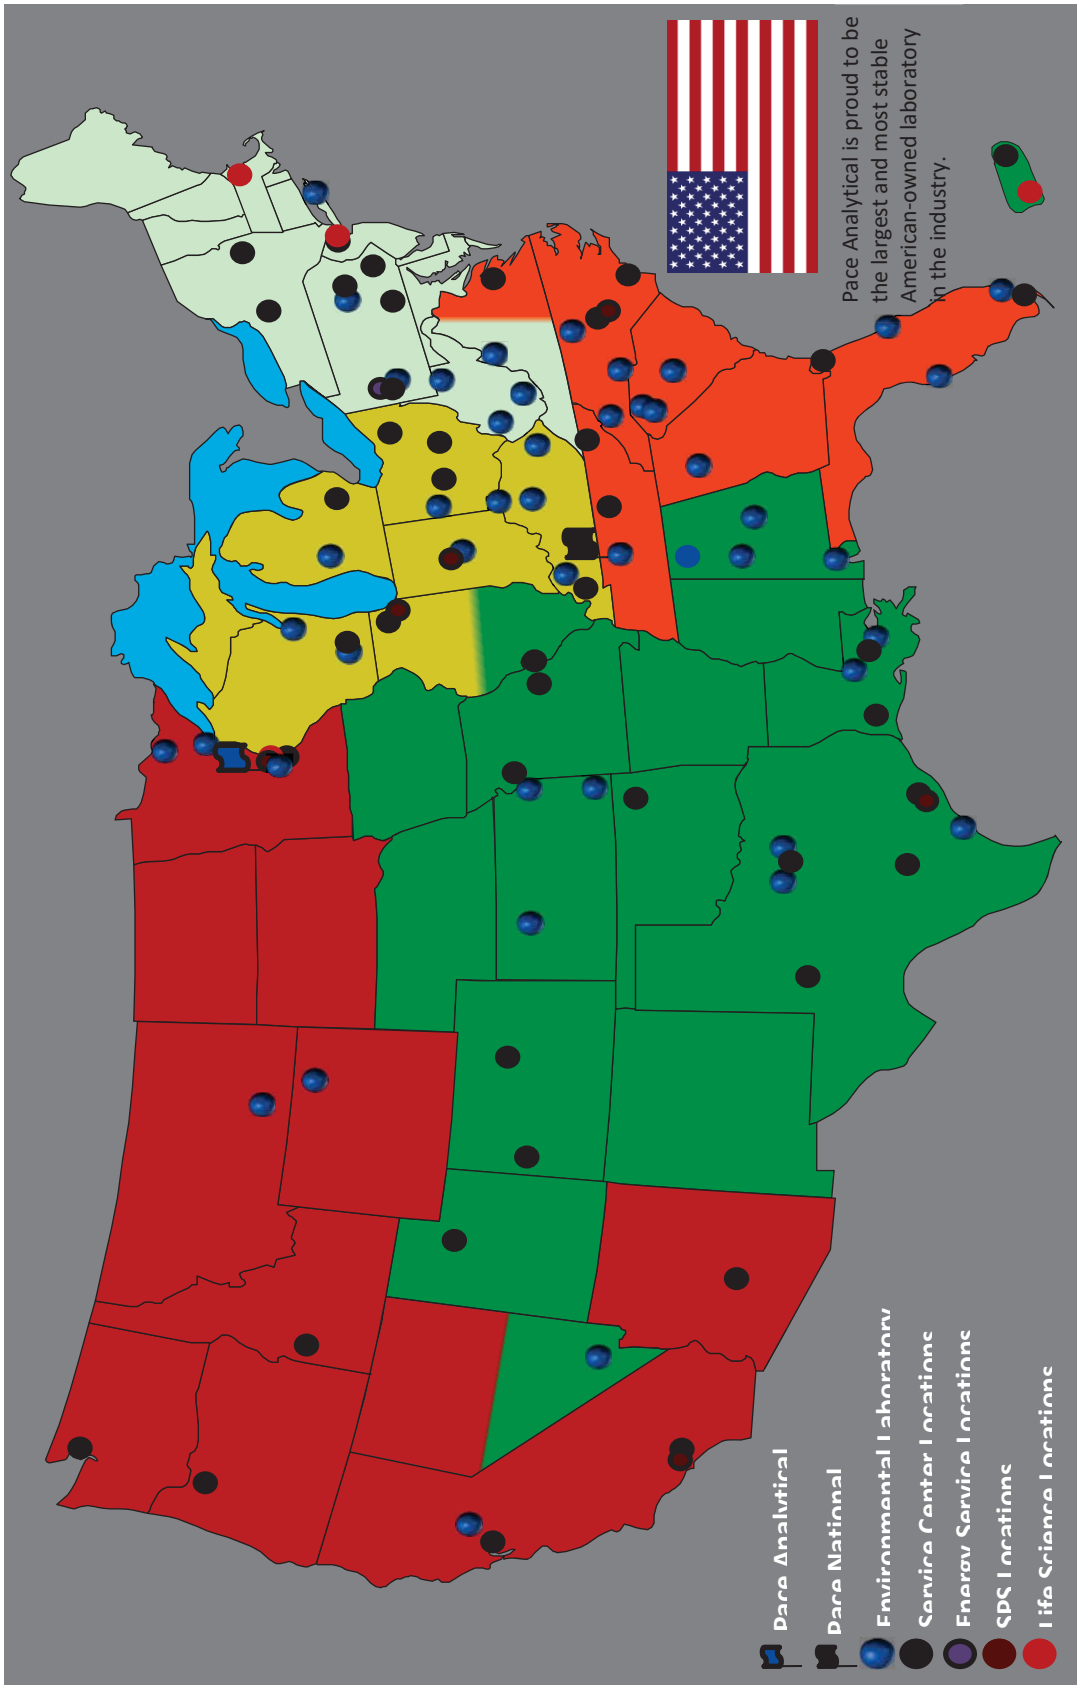
Pace Florida provides comprehensive environmental laboratory services from its Oldsmar, Ormond Beach and Pompano Beach, Florida locations. The Pace Florida laboratory in Ormond Beach was expanded to 20,000 square feet and completely renovated in 2010 and expanded again to add 10,000 more square feet in 2017. In addition, at that time the operation began operating on a 24 hour a day schedule Monday through Friday, and 12 hour a day schedule on Saturday and Sunday. As a result, the average turnaround time for mainstream parameters is less than our industry competitors.
Pace Florida provides field sampling and laboratory testing services to numerous cities and counties around the state. Most of our analytical services associated with City of Ormond Beach will be completed at our Ormond Beach, FL facility.

Pace is currently the lab contractor for:

- Collier County
- Palm Beach County
- Orlando Utilities Commission (OUC)
- City of Sanford
- City of Port Orange
- Miami-Dade County
- St. Lucie County
- Brevard County
- Volusia County
- Lake County
- Sarasota County

A strength of Pace's is the production of Florida Drinking Water forms and Electronic Data Deliverables (EDDs). Pace has automated this process as much as it can be automated and delivers EDDs within a day of final report generation.
Pace is the only national laboratory company that has every lab operating on a uniform Laboratory Information Management System (LIMS). This system coupled with PacePort enables clients and Pace Project Managers to accurately schedule and modify client accounts and projects. PacePort is Pace's password protected website that provides clients with access 24/7 to their data and other tools:

- Access to all records such as final reports, drinking water forms, chain-of-custodies, invoices, and preliminary data
- Automated and customized container ordering, and COC creation
- Immediate notification of sample receipt and itemized sample log-in information
- Automated notification of exceedances of action and permit limits
- Automated creation of EDDs such as ADaPT customized to your specifications and formats
- Rush project tracking
- Automated delivery of reports and EDD's via email to multiple addresses
- Indefinite historical retention of all data



Our Management Team and Department Managers have on average at least 20 years of experience in the analytical testing arena, which gives us a clear understanding of how to work with clients like City of Ormond Beach with environmental needs in multiple disciplines.

Thanks in advance for your time and support of Pace Analytical Services and we look forward to continuing a long-term win-win relationship with the City of Ormond Beach. This proposal had been made without collusion with any other person or entity submitting a proposal pursuant to this ITB. Please do not hesitate to contact us if you have any further questions or needs. I am the main contact for this submittal and can be reached directly at 813-340-8100 and my email is Mike.Valder@pacelabs.com Garrett Ervin is the authorized to negotiate on behalf of Pace Analytical Services for this contract. He is the General Manager for the Florida Operations and can be reached at 386-676-4839 direct and his email is Garrett.Ervin@pacelabs.com.

Below is a list of the Pace Florida Instrumentation:

- 25 Gas Chromatograph/Mass Spectrometer Systems
- 15 Gas Chromatograph Systems
- 5 High Pressure Liquid Chromatographs
- 2 Liquid Chromatograph-Mass Spectrometer/Mass Spectrometer Systems
- 3 Lachat Automated Analyzers
- 3 Inductively Coupled Plasma/Mass Spectrometer Systems
- 4 Inductively Coupled Plasma Systems
- 1 Mercury Analyzers
- 1 Low-level Mercury Analyzer
- 9 Ion Chromatographs
- 2 TOC Analyzers

The map on the next page shows the Pace locations of all our facilities.

Hydrosphere Research is a state and nationally recognized aquatic toxicity testing laboratory. We provide full bioassay laboratory resources that offer a wide array of services to private and public clients.
The following is a brief summary of our qualifications.

## Certifications

- NELAC accredited aquatic toxicity testing and bioassay lab (first commercial bioassay lab in Florida to receive accreditation)

.

## Customer Service

Hydrosphere Research has retained many of its clients since the lab's inception at CH2M Hill in 1986. We pride ourselves on providing unmatched customer service. Our SOQ contains a partial list of references. Please contact us for a list of references specific to your area or industry.

## Services

Hydrosphere Research professionals assist clients in toxicity test design, sample collection, and other toxicity issues throughout the United States. This specialization has aided clients in the public and private sectors in determining the potential impact of project development and in the design of suitable alternatives.

## Facilities

Hydrosphere Research's laboratory and office facilities are located in the Progress Corporate Park at 11842 Research Circle, Alachua, Florida, only minutes away from the University of Florida. We have divided our test facilities into separately lighted and climate-controlled sections to accommodate various test conditions or requirements. We also maintain an aquaculture facility separate from the testing labs for a wide range of fresh and saltwater cultures. We follow strict procedures for maintaining lab equipment and each machine or piece of equipment is available in at least duplicate. This helps us provide our clients quick turnaround time and avoid delays related to equipment. We also have an emergency generator installed to maintain our client's tests even during the most inclement weather. Our building and cold room environmental conditions are monitored remotely; should any event occur in our lab, the laboratory staff will be immediately notified.

## Aquaculture

We culture all freshwater and most saltwater organisms required for routine toxicity testing.
Hydrosphere has also developed innovative aquaculture techniques for the propagation of many species in both the bioassay, tropical fish and mariculture industries.

## Personnel

Hydrosphere Research boasts a highly skilled roster of scientists, engineers and support staff. In addition, our location near one of the nation's leading research centers provides us with easy access to some of the industry's most talented assistance, allowing us the flexibility to increase or decrease staff size for special projects.
Facilities are staffed seven days a week, 365 days a year for toxicity test monitoring, toxicity test initiation, and organism culturing.

We invite you to visit our state-of-the-art facilities in the scientific community at Progress Corporate Park in North Central Florida. To schedule a tour or to find out more about our services and how Hydrosphere Research can help you meet today's environmental standards, call us at 866.375.9004 or use our .

Below is a summary of some our government work. The work we do for EPA dwarfs all of the other government work combined. These are in order or size/value of work we did and does not capture the work we do through a subcontractor (like the City of Ormond Beach).

| Client | Type of Work |
|---|---|
| US Environmental Protection Agency | Acute & chronic fresh & saltwater studies. Product toxicity tests, algal toxicity studies, sediment bioassays |
| University of Florida/US Department of Defense | Sediment bioassays |
| JEA | Chronic freshwater studies, organisms sales |
| Flagler Beach | Chronic saltwater studies |
| City of Savannah | Acute saltwater & chronic freshwater studies. |
| St. Johns County | Acute freshwater, chronic freshwater & saltwater studies. |
| City of Chattahoochee | Chronic freshwater studies |
| Clay County Utility Authority | Acute freshwater & chronic saltwater studies |
| City of Tallahassee | Chronic freshwater & saltwater studies |
| City of Boca Raton | Chronic saltwater studies |
| Town of Orange Park | Chronic freshwater studies |
| City of Fernandina Beach | Chronic saltwater studies |
| City of Daytona Beach | Chronic freshwater studies |
| City of Neptune Beach | Chronic saltwater studies |
| Florida State Hospital | Chronic freshwater studies |
| City of Lakeland | Chronic freshwater studies |
| City of Jacksonville Beach | Chronic freshwater studies |
| City of Bradenton | Chronic freshwater studies |
| City of Jasper | Chronic freshwater studies |
| City of Hollywood | Acute Saltwater studies |
| City of Atlantic Beach | Chronic saltwater studies |
| City of Orlando | Chronic freshwater studies |
| City of St. Augustine | Chronic saltwater studies |
| Town of Callahan | Chronic freshwater studies |
| City of Rincon | Chronic freshwater studies |

| | |
|---|---|
| Town of Hastings | Acute & chronic freshwater studies |
| City of Starke | Chronic freshwater studies |
| City of Tybee Island | Chronic saltwater studies |
| City of Sanford | Acute freshwater studies |
| Camp Blanding | Acute freshwater studies |
| Putnam County | Acute freshwater studies |
| Town of Hilliard | Acute freshwater studies |
| Town of Macclenny | Chronic freshwater studies |
| City of Tarpon Springs | Acute freshwater studies |
| City of LaGrange | Chronic freshwater studies |

# ANALYTICAL SERVICES, INC. (ASI)
*Microbiological Testing, Research and Consulting*

Description of Lab:

## 1. PERSONNEL

- Harry Christman, Ph.D. -ASI Technical Director
  -Technical Lead – General Microbiology (*Legionella*)
  -PhD in Microbiology, 2011
  -BS in Microbiology, 2002
  -19 years experience in commercial and academic laboratories
- Aimee Benjamin, Ph.D. -ASI Quality Assurance Officer
  -Technical Lead - *Cryptosporidium/Giardia*
  -USEPA/LT2 Principal Analyst
  -PhD in Animal Science in 2016
  -5 years experience with *Cryptosporidium/Giardia*
- Roberto Rodriguez, PhD -ASI Senior Virologist
  -PhD Environmental Science, 2007
  -BS Microbiology, 1997
  -13 years experience in commercial and academic laboratories
- Paul Warden -Vice President and Director of Operations
  -30 years experience in commercial laboratory environment
  –Contact Person: pwarden@analyticalservices.com, 800-723-4432 x15

Analytical and Support Staff - Presently, ASI employs 12 people in our Williston, VT facility (10 scientists / microbiologists and 2 technicians). Four (4) staff perform EPA Method 1623.1 and two (2) of our Microbiologists are USEPA/LT2 Approved Principal Analysts for *Cryptosporidium* and *Giardia*, a third is a USEPA/LT2 Approved Analyst and the fourth is a Technician. This depth and expertise of our staff provides ASI redundancy to cover planned and unplanned staff absences, the flexibility to handle special projects and/or unscheduled work, as well as the ability to cross-train for redundancy/back-up.

In addition, ASI has been long committed to, and known for, outstanding client services. Our focus on client services functions, including front-end client interaction, work scheduling, shipping of supplies, sample receipt and log-in, and report preparation helps ensure seamless project execution. Sample collection kits are typically shipped three weeks in advance of the

scheduled sample collection date and any issues relative to samples received at ASI are quickly communicated to the client to allow timely resolution.

## 2. EXPERIENCE

Analytical Services, Inc. (ASI) is a full service environmental microbiology laboratory located in Williston, VT. Our primary business has been serving the public water supply industry with microbiological testing, research and consulting services for more than 25 years. ASI clients include state and local governmental entities, public water suppliers (public and private), corporations and engineering firms/consultants. ASI holds both state and municipal level monitoring contracts.
ASI is nationally recognized as an expert laboratory for protozoa analysis. Accordingly, we have been involved in numerous EPA-sponsored protozoa research projects, including the USEPA's multi-laboratory validations of EPA Method 1623.1 (2012), Method 1623 (1999) and Method 1622 (1998). ASI has analyzed more than 30,000 samples for the detection of *Cryptosporidium* and *Giardia* using EPA approved methods over more than 20 years.

Pace Analytical®

BENCHMARK
EnviroAnalytical, Inc.

Benchmark EnviroAnalytical, Inc.
Firm Profile

BenchmarkEA has 25 years of experience in analyzing water, soil and sediment. The laboratory is owner operated with thirty employees and two Florida locations, one in North Port / Port Charlotte and one in Palmetto. Both laboratories are NELAP certified and are operated by personnel having science degrees in chemistry or biology. The realm of certification includes organics, metals, inorganics, physical properties and microbiology. The complete list of certified analytes may be viewed at www.BenchmarkEA.com. BenchmarkEA is also certified by the Florida Office of Supplier Diversity as a minority Business Enterprise. BenchmarkEA's laboratory director has a Ph.D. in organic chemistry and is intimately familiar with the laboratory operations. The management team of supervisors and quality assurance officers works together to meet the company objective of providing "correct results the first time, on time".

Environmental analytical and field sampling experience includes surface water, storm water, groundwater and sediment / soil projects. Analytical project experience includes long term surface water studies for several watersheds and groundwater projects for drinking water production sites and large industrial sites. BenchmarkEA has extensive analytical experience with ASR wells and frequently associated RO treatment streams. BenchmarkEA has an excellent reporting system that provides timely accurate reports that can be tailored to client spreadsheet requirements. In addition, reports can be generated in aDaPT format or in a format uploadable to DEP STORET when required by compliance agency programs.

## i. The name and resume, including employment history with the company, for the senior staff individuals who will perform the testing.

**JEFF BAYLOR**
**SENIOR PROJECT MANAGER**

**EDUCATION**
B.S., Biology (Pennsylvania State University, 1996)

**REGISTRATIONS**
American Chemical Society

**EXPERIENCE**
Mr. Baylor has been a project manager for the laboratory since 2001 specializing in landfills, NPDES, drinking water, solid waste, and other State programs. His many years of service with the laboratory have given him a background that allows him to help clients with their site-specific work plans, applicable methodologies, turnaround time requirements, and project data quality objectives. In the capacity as Project Manager, Mr. Baylor provides his clients as the one point of contact for all their production and technical needs. He serves as a liaison between the client and the laboratory operations and currently serves a diverse group of clients, including many cities, counties, utilities, and consultants.

Prior to assuming the position of Project Manager, Mr. Baylor was the Supervisor of the laboratory's Biology Laboratory. He oversaw all areas of the department including the Microbiology and Toxicity sections. For the Microbiology section, he was in charge of the following: media preparation; quality control; detection and enumeration of densities of Fecal and total Coliforms, *Fecal Streptococcus*, *Enterococcus*, and heterotrophic bacteria. In 2002, he led the effort for ELAB to become EPA certified for testing for *Aeromonas* bacteria in drinking water under the Unregulated Contaminant Monitoring Rule (UCMR) program. For the toxicity section, he was responsible for organism breeding, quality control, freshwater and saltwater bioassays using EPA certified methods for both Acute and Chronic tests, and statistical evaluation of toxicity tests performed for client's NPDES permits.

Prior to this, Mr. Baylor supervised the Inorganic Department for several years after working as an analyst in the Metals and General Chemistry departments for six years. While in the General Chemistry department, he utilized gravimetric, potentiometric, titrimetric, and colorimetric approved methodologies to test samples of varied matrices including drinking water, ground water, surface water, waste water, solids, and sludges. He used a wide variety of instrumentation including manual and automated colorimetric analyzers, Ion Chromatograph, IR Chromatograph, and digestion/distillation apparatus. In the Metals department, he was responsible for all aspects of testing including digestion, analytical, and quality control. He is

proficient with the instrumentation used for the quantification of metallic elements such as flame and graphite furnace AA and cold vapor analysis of mercury.

During his tenure, Mr. Baylor help set up the Toxicity Characteristic Leaching Procedure methods now used by the laboratory for testing materials for clients under the RCRA program. He also supervised and conducted the setup and incubation of samples for Simulated Distribution Systems (SDS) and Biodegradable Organic Carbon (BDOC) analysis, which is related to the Information Collection Rule program.

**GARRETT ERVIN**
**GENERAL MANAGER FLORIDA OPERATIONS**

**EDUCATION**
B.A., Biology, Minor Geology (Western Michigan University, 1994)

**EXPERIENCE**
Mr. Ervin joined Pace Analytical in 2017 and is serving as the Operations Manager for the Ormond Beach Lab. He is responsible for the direction and coordination of the daily activities for 168 staff scientists, administrative personnel and service technicians at the company's Florida operations. He is responsible for maintaining project management oversight and direction in conjunction with corporate directives and goals, and he provides guidance and direction to the laboratory's Quality Assurance staff in conjunction with corporate goals, EPA guidelines, NELAC guidelines, and various other state and federal guidelines.
He is responsible for ensuring that on-time commitments, quality requirements, safety requirements and all reporting requirements are met by the facility. Mr. Ervin is also responsible for daily management of facility, including management of all departments to meet hold times, provide data and deliver analytical reports on time. Mr. Ervin manages staff and ensures the quality of service, the technical competence of the staff and any productivity and technical expansion as well as responsible for technical leadership and the development of department staff.

Prior to assuming the position of Operations Manager, Mr. Ervin was the Operations Manager for KAR Laboratories, Inc. He started as a Field Technician and rapidly transitioned to Client Services where he was a Client Services Technician, followed by Project Manager to Client Services Manager. Mr. Ervin developed his knowledge of test procedures and management skills. This included learning SDWA testing requirements and regulations. This enabled him to lead KAR Laboratories to be involved with extensive Pb/Cu testing during the Flint MI Drinking Water crisis.

**EDWARD OSGOOD**
**SEMIVOLATILES ENVIRONMENTAL MANAGER**

**EDUCATION**
B.S. Chemistry (Rollins College, 2006)

**RELEVANT EXPERIENCE**

Mr. Osgood has been in the environmental industry since 2006 when he started working for ELAB, Inc. as part of the semivolatiles department. He joined Pace Analytical in 2008 and continued his work in the same department. In this role, Mr. Osgood was responsible for the evaluation and processing of client samples as well as instrumental troubleshooting and routine maintenance. As needed his responsibilities also included the development and establishment of in-house testing parameters for new methodology and instrument technology. Instrumental experience includes GC with ECD, FID, and NPD variances though he is predominantly proficient in GC-MS experience with testing in SW-846 methodology as well as drinking water and UCMR3 testing methods. He has also served as both the Safety and Hazardous Waste Officer within the laboratory ensuring compliance with all company, state, and federal regulations.

In July 2017 Mr. Osgood transitioned into the Quality Assurance Manager position and had the responsibility to ensure that the Quality Systems in the Ormond Beach laboratory of Pace Analytical Services, LLC. was fully implemented and followed in order for the laboratory to achieve established standards of quality. He provided guidance and direction to the laboratory in conjunction with corporate goals and guidelines set by the EPA, NELAC, and various other state and federal agencies. This included maintaining regulatory compliance, data validation, laboratory analytical protocols, quality assurance documentation and conformance to quality criteria. He aided the Senior Quality Assurance Manager as a liaison between Pace Analytical-Florida and state/federal regulatory agencies on quality control issues. Mr. Osgood also provided technical support to laboratory operations and clients regarding methodology and project QA/QC requirements and is responsible for performing internal performance audits as well as systems audits on a regular basis.

In January 2019 Mr. Osgood accepted the position as manager of the environmental section of the semivolatiles department. In this role his responsibilities include management of staff and departmental budgeting as well as data validation and review. Mr. Osgood is able to apply his years of technical experience towards method development as well as provide technical support for instrumentation.

**TINA BUTTERMORE**
**SENIOR QUALITY MANAGER, FLORIDA**

**EDUCATION**
M.S. in Pharmacy (University of Florida, 2005)
B.S. in Biochemistry and BS in Microbiology and Cell Science (University of Florida, 2003)

**EXPERIENCE**
Ms. Buttermore has the responsibility to ensure that the Quality Systems in place at Pace Analytical-Florida are fully implemented and followed in order for the laboratory to achieve established standards of quality. This includes maintaining regulatory compliance, data validation, laboratory analytical protocols, quality assurance documentation and conformance to quality criteria. He serves as a liaison between Pace Analytical-Florida and state/federal regulatory agencies on quality control issues. Ms. Buttermore provides technical support to laboratory operations and clients regarding methodology and project QA/QC requirements and is responsible for performing internal performance audits as well as systems audits on a regular basis.

Ms. Buttermore has eight years experience in the environmental industry in both the analytical and regulatory sectors. She joined Pace Analytical in 2011 as the Technical and Operations Manager for the South Florida operations. As Technical Director and Operations Manager for the South Florida facility of Pace Analytical Services, Ms Buttermore had direct management responsibility for over 20 employees covering client services, analytical services and field services. She has previously held the positions of Quality Assurance Director, Technical Director, and various section management and analyst positions within the laboratory specializing in metals analyses (including ICP-AES, ICP-MS, cold vapor AA) and microbiology and wet chemistry techniques. She has also performed the role of Compliance and Enforcement Officer for both the Florida Department of Environmental Protection and the Florida Department of Health.

**TRISHA L. KELLY**
**Operations Manager**

**EDUCATION**
B.S. Biology (Radford University, 2003)

**RELEVANT EXPERIENCE**
Ms. Kelly is responsible for day to day management of the entire laboratory to include semi-volatiles, volatiles, wet chemistry, metals, and extractions.

Ms. Kelly past responsibilities have included the direction and coordination of the daily activities of the Semi volatiles analysis area. Her technical background helps her minimize instrumental down times in her area, thus allowing for a consistent and continuous performance of analyses. In order to be able to maintain short turnaround times, she is responsible of maintaining communication with project management and her area's analysts, making sure of the efficient scheduling of the workload. She is also responsible for maintaining her area is validated in accordance with the directives of the QA office, as well as within EPA guidelines, NELAC guidelines, and various other state and federal guidelines.

Since the beginning of her career, Ms. Kelly has advanced quickly in the laboratories she has worked, thanks to her talent, eagerness to learn new methods, and troubleshooting abilities. Her analytical and technical knowledge has made her a source of information for her peers. Her ambitious nature has made her very willing to accept new and specialized projects which may require planning and organization.

Ms. Kelly's 16 years of environmental analytical laboratory experience includes work as an analyst in Wet Chemistry and Microbiology, Inorganic manager, Semi volatiles manager and now Operations manager. She is knowledgeable and proficient in a number of analytical protocols and methods.

**BRIAN MARK RUSLER**
**TECHNICAL DIRECTOR**

**EDUCATION**
BS Chemistry (University of Central Florida, 1989)

**REGISTRATONS**
American Chemical Society
ACS divisional Affiliations in Environmental Chemistry, Organic Chemistry and chemistry and Law.
Central Florida Officials Association
FHSAA – Florida High School Athletic Association – Referee Monsanto Fellow

**EXPERIENCE**
Mr. Rusler joined Pace Analytical Services in 2017. He is currently serving as the Technical Director. He is responsible for maintaining close supervision of daily work activities and data production for Semi-Volatiles and Volatiles Departments. His job duties include

- Responsible for ensuring analytical data quality objectives are met
- Expand the analytical capabilities of the laboratory
- Added new methods, micro extraction and SPE
- Maintenance of all analytical instruments used in the laboratory
- Troubleshoot instrument / method problems and resolution
- Maintain close contact with project managers and sales team
- Develop UCMR methods

**ERIC J. BATTISTA**
**QUALITY MANAGER – TAMPA LABORATORY**

**EDUCATION**
B.S. Chemistry- Clemson University (1997)

**RELEVANT EXPERIENCE**
Mr. Battista has over 10 years experience as a laboratory analyst, several years as a Project Manager, as well as over 3 years as a Quality Manager. He has working knowledge and established proficiency in a number of analytical procedures, with a primary emphasis in wet chemistry methodology. His experience includes a wide variety of gravimetric, colorimetric, and ion chromatography methods drafted by EPA and Standard Methods, using Discrete Auto Analyzers, Ion Chromatography, and FIA systems. In addition to his wet chemistry experience, he has worked extensively with HPLC-UV, HPLC-FLUOR, and GC-FID systems for a variety of EPA and FLDEP methods. As a Project Manager, he served as the primary liaison between customers and operations through the daily coordination of activities including overseeing sample logins, maintaining customer records, and assuring that final reports are sent to the customers. As a Quality Manager, he has the responsibility and authority for ensuring that the management system related to quality is implemented and followed at all times for the Florida laboratories. His responsibilities include, but are not limited to, document management and distribution, training file maintenance, internal/external on-site assessments, and laboratory data review.

Mr. Battista has worked within a number of areas in the environmental industry, including: Radiochemistry, Wet Chemistry, Metals, and Semi-volatile Organics. His client exposure spans many different types of projects, including groundwater monitoring, site assessments, site remediation, and drinking water monitoring under AFCEE, CLP, RCRA, and CWA/NPDES.

**MEGAN STACY**
**CLIENT SERVICE SUPERVISOR-ORMOND BEACH**

**EDUCATION**
High School Diploma
Daytona State College

**EXPERIENCE**
Ms. Stacy joined Pace Analytical Services in 2014. Ms. Stacy is responsible for the direction and coordination of the daily staff and activities in the Sample Receiving department in Ormond Beach. Her job duties include: primary point of contact for Project Managers and Sample Receiving, the daily triaging incoming client samples, work closely with the lab to priorities Short Holds/Rushes, logging in samples in a timely manner, subcontracting samples, and managing the day to day operations of the Sample Receiving Department.

**HAZEL ARANDA**
**METALS SUPERVISOR**

**EDUCATION**
B.S., Biology, (University of Central Florida, 2006)

**EXPERIENCE**
Ms. Aranda joined Pace Analytical Services in 2008. She is currently serving as the Metals Supervisor. She is responsible for the daily management of the metals department. Her job duties include: Planning, coordinating, and directing operations of the department to meet holding times, provide data of appropriate quality, and to deliver analytical reports on time.

Prior to assuming the position of Metals Supervisor with Pace in 2014, Ms.Aranda worked in both the Wet Chemistry and Metals departments on the analytical bench. She is knowledgeable and proficient in a number of analytical protocols, including: ICP, ICP-MS, CVAA instrumentation, IC, Lachat, and UV-Vis.

**EDWARD MANEN**
**ORGANIC EXTRACTION SUPERVISOR**

**EDUCATION**
A.S., Forensic Science (Daytona State College, 2011)

**EXPERIENCE**
Mr. Manen joined Pace Analytical Services in 2016. He is currently serving as the supervisor for the Organic Extraction Department. He is responsible for the extraction department's output of work as well as the coordination of work with the Semi-Volatiles Department, communication between the lab and management, resolving issues of problematic methods/analytes within the department, adding new extraction procedures to the department, and maintaining inventory for his department. In addition, he is also responsible for extracting 8270D, 8141, 8081, 8082, 608.3 and 8151A waters and 8270, PRO, 8081, 8082 and 8141 soils.

**SIEGA KANEYAMA**
**SUPERVISOR VOLATILE GROUP**

**Education** BS Business Management University of Phoenix AZ 2011

**Experience** Seiga Kaneyama joined Pace Analytical Services in 2008. She is currently serving as the Supervisor of the Volatile Group. She is responsible for the day to management of four employees. Her job duties include:

- Manage costs and project workload within the group
- Review and validate data as needed
- Maintain instrumentation
- Train analysts in use of instrumentation
- Oversee and enforce safety policies

**Previous Experience**

Prior to joining Pace, Seiga Kaneyama worked at Elab Inc. Her job duties included:

- Extracting and concentrating samples
- Metals prep work
- Running Mercury analyzer

**ADAM SMITH**
**WET CHEMISTRY / MICROBIOLOGY SUPERVISOR**

**EDUCATION**
Seabreeze High School, 2006

**EXPERIENCE**
Mr. Smith joined Pace Analytical Services in 2006. He is currently serving as the Wet Chemistry / Microbiology Supervisor. He is responsible for providing or overseeing the analysis, administration and oversight of lab, services, or testing policies, programs and practices; provides feedback and direction, and guidance to employees and management, using professional and technical knowledge of environmental, biological, chemical, and related areas. His job duties include:

- Supervises staff including hiring, training, evaluating performance, and performance management.
- Oversees and supervises broad areas of the operations, such testing, scheduling, inventories, services, communication and general coordination of the lab and services.

**Instrumentation/methodologies:** Titrations, gravimetric, total organic carbon, biological oxygen demand, UV, distillations as well as many probe-based methods.

# ANALYTICAL SERVICES, INC. (ASI)

*Microbiological Testing, Research and Consulting*

Aimee Benjamin, Ph.D.

Education:

University of Vermont
Ph. D. Animal Science, May 2016

Cornell University
B.S. Animal Science, May 2005

SUNY Cobleskill
B.S. Animal Science, May 2003

Major Areas of Expertise:

EPA methods 1623 and 1623.1 for detection of *Giardia* and *Cryptosporidium*
General Cell Culture

Summary of Experience:

Ms. Benjamin was a graduate student at the University of Vermont prior to coming to ASI. Her research focused on the immune response to bacterial infections in dairy cattle. She presented this research at several professional conferences and received 3rd place for an oral presentation in 2012.

Currently, Dr. Benjamin works as ASI's Protozoa Area Coordinator and EPA/LT2 Principal Analyst, as well as a Staff Microbiologist, performing analysis for 1623, 1623.1 and 1693. In addition, Dr. Benjamin serves as ASI's QA Officer and has trained on virus isolation and detection from water and solid samples using cell culture techniques.

Professional Experience:

**Analytical Services Inc., Williston, VT (July 2016 – Present)**
**Protozoa Area Coordinator / QA officer / EPA-LT2 Principal Analyst / Staff Microbiologist**

Responsibilities:
US EPA / LT2 approved Principal Analyst for EPA methods 1623 and 1623.1 for detection of *Giardia* and *Cryptosporidium*
Management and implementation of ASI QA Program (direct report to President of ASI)
General Cell Culture
Virus Isolation and Basic Virology

**University of Vermont, Burlington, VT (May 2010 - May 2016)**

**Graduate Student**

Responsibilities:
Primary Cell Isolation and Culturing
Cell Challenge Studies
Gene Expression and Protein Analysis
DNA/RNA extraction
Teaching Undergraduate Students

Presentations:

"Effects of an early-life LPS challenge on a subsequent LPS challenge in Holstein bull calves." **A Benjamin**, F Korkmaz, T Elsasser, and D Kerr. ADSA-ASAS Joint Annual Meeting, Orlando, FL July 2015

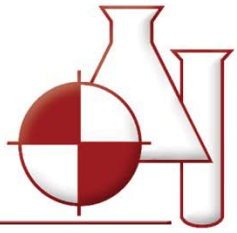
"Investigating innate immune response differences between Angus and Holstein cattle with the dermal fibroblast model." **A Benjamin**, W Weber, S McKay, B Crooker, and D Kerr. ADSA-ASAS Joint Annual Meeting, Kansas City, MO July 2014

"Use of dermal fibroblasts to predict the innate immune response to bovine mastitis." **A Benjamin** and D Kerr. Conference for Research Workers in Animal Disease, Chicago, IL, December 2012

"Variations within the innate immune pathways are not associated with selection for milk production." **A Benjamin**, B Green, and D Kerr. Mastitis Research Workers Conference, Chicago, IL, November 2011

Publications:

Neonatal LPS exposure does not diminish the innate immune response towards a subsequent LPS challenge in Holstein bull calves. **A. Benjamin**, F. Korkmaz, T. Elsasser, and D. Kerr. *Journal of Dairy Science.* 2016. 99: 1-14.



Differential responsiveness of Holstein and Angus dermal fibroblasts to LPS challenge occurs without major differences in the methylome. **A. Benjamin**, B. Green, B. Crooker, S. McKay, and D. Kerr. *BMC Genomics*. 2016. 17(1):258.

Cow-to-cow variation in fibroblast response to a toll-like receptor 2/6 agonist and its relation to mastitis caused by intramammary challenge with *Staphylococcus aureus*. **A Benjamin**, B Green, L Hayden, J Barlow, and D Kerr. *Journal of Dairy Science.* 2015. 98(3): 1836-50.

Between-cow variation in dermal fibroblast response to lipopolysaccharide reflected in resolution of inflammation during *Escherichia coli* mastitis. S Kandasamy, B Green, **A Benjamin**, and D Kerr. Journal of Dairy Science December 2011 (5963-75)

Pace Analytical®

BENCHMARK
EnviroAnalytical, Inc.

Resumé
Dale D. Dixon
Laboratory Director, BenchmarkEA

Dr. Dixon is BenchmarkEA's Laboratory Director and is responsible for laboratories in North Port and Palmetto. As a company co-founder he has led the company from one employee twenty-four years ago to thirty employees currently. During this period, the laboratory operation has changed from initially a predominantly manual mode to a highly automated operation for both analyses and processing generated data. Because of his first-hand experience in this development, Dr. Dixon is intimately familiar with all facets of the environmental laboratory. He has emphasized utilization of up-to-date analytical instruments and automated reporting up-loadable to client systems. Under Dr. Dixon's direction the company has grown to a current clientele base that includes industrial, mining, engineering and governmental markets.

Dr. Dixon has 25 years of experience managing all aspects of environmental analyses and sample collection in the field. His experience background includes managing long term surface water studies and groundwater projects for drinking water production sites such as ASR wells with RO systems and groundwater monitoring for large industrial facilities. During the years of operation he has developed numerous relationships with engineering firms and governmental agencies.

Dr. Dixon has extensive laboratory management experience including the areas of organic chemistry, polymer chemistry, catalytic chemistry and analytical chemistry. Prior to the founding of BenchmarkEA, he managed industrial chemical research at Air Products and Chemicals, Inc. Achievements include being named as an inventor on forty-four patents and as an author on twenty-three technical publications. His work won the IR-100 award from Industrial Research Magazine for having one of the one hundred most important inventions for 1978.

Dr. Dixon received a Ph.D. degree in organic chemistry from Oregon State University.

**Peter R. Meyer**
Hydrosphere Research
1049 NE 9th Ave
Gainesville, FL 32601

## WORK EXPERIENCE

**Laboratory Manager, Hydrosphere Research** 1995-Present
Responsible for overall laboratory operations including but not limited to developing and implementing standard operation procedures, training all laboratory personnel, development and documentation of new and existing test methods, and all aquaculture activities. Responsible for all testing including routine fresh and saltwater toxicity tests, algal toxicity tests, toxicity identification and reduction evaluation studies, sediment toxicity tests, soil toxicity tests and product toxicity tests.

Conduct an extensive number of acute, chronic and algal toxicity tests including both freshwater and marine species and both static and flow-through test design. Familiar with requirements for Biomonitoring Effluents Programs under EPA's National Pollutant Discharge Elimination System (NPDES).

**Laboratory Manager, CH2M Hill 1989-1995**
Previously employed in CH2M Hill's Gainesville bioassay laboratory for six years.

## RESEARCH

Participated in research project funded by Water Environment Research Foundation and the Environmental Protection Agency titled *Assessment of the Occurrence and Ecological Significance of Endocrine Disrupting Chemicals in Watersheds*. This project has focused on developing a battery of test methods for the occurrence of hormonal activity. These test methods include laboratory fish studies, flow-through fish studies, field studies, and development of the YES Assay, a gene expression assay for detecting the presence estrogen related compounds.

## ANALYTICAL EXPERIENCE

| | | |
|---|---|---|
| Toxicity Bioassays | Biological Culturing | Water analysis |
| Enzymatic assays | Wastewater analysis | Algal cultures |
| Algal Assays | Endocrine Assays | TIE/TRE |

## EDUCATION

University of Florida, Bachelor of Science-Zoology. 1989

## PUBLICATIONS

Poster titled "Comparison of Laboratory Generated Photographs and EPA Illustrations of *Mysidopsis bahia*." Presented at SETAC 1994

## j. Documentation which establishes the length of time in business in the State of Florida (at least 4 years required)

Pace has been operating labs in Florida since the early 2008 as Pace Analytical Service, Inc. and in October 1, 2016 had a name change to Pace Analytical Services, LLC.

The remainder of this page is left blank.

# State of Florida
## Department of State

I certify from the records of this office that PACE ANALYTICAL SERVICES, LLC is a Minnesota limited liability company authorized to transact business in the State of Florida, qualified on December 23, 2016.

The document number of this limited liability company is M16000010338.

I further certify that said limited liability company has paid all fees due this office through December 31, 2019, that its most recent annual report was filed on March 20, 2019, and that its status is active.

I further certify that said limited liability company has not filed a Certificate of Withdrawal.

October 18, 2016

This letter is to inform you that Pace Analytical Services, Inc. is now Pace Analytical Services, LLC. On October 1, 2016, Steve Vanderboom, CEO, brought in a new business partner. Our leadership structure, staff, strategy and approach to working with clients and vendors remains the same. We will continue to offer our clients the best analytical services in the industry.

Please note, Pace's Federal ID number remains the same: 41-1821617.

If you have any questions, please feel free to contact:

Mike Prasch, CFO - Michael.Prasch@pacelabs.com
Stacy McClintock, Controller – Stacy.McClintock@pacelabs.com

Thank you.

Michael Prasch, CFO

# INVITATION TO BID

BIDDER ACKNOWLEDGEMENT FORM

***THIS FORM MUST BE COMPLETED AND RETURNED WITH YOUR BID***

BID TITLE: **LABORATORY TESTING SERVICES**

BID NUMBER: **2020-23**

BID OPENING DATE & TIME: **June 10, 2020 at 2:00 PM**

BID OPENING LOCATION: **1st Floor Training Room, Ormond Beach City Hall, 22 S. Beach Street, Ormond Beach, Florida**

PRE-BID MEETING DATE & TIME: **May 26, 2020 at 11:00 AM**

PRE-BID MEETING LOCATION: **Public Works Training Room, 501 Orchard Street, Ormond Beach, FL 32174**

**Bids Received After The Above Date And Time Will Not Be Accepted.**

BIDDER'S NAME: Pace Analytical Services, LLC

BIDDER'S MAILING ADDRESS: 8 East Tower Circle

CITY-STATE-ZIP: Ormond Beach, FL 32174

F.E.I.N.: 41-1821617

PHONE NUMBER: 386-672-5668

EMAIL: Garrett.Ervin@pacelabs.com

If returning as a "No Bid", please state reason (s): _____

I certify that this Bid is made without prior understanding, agreement, or connection with any corporation, firm, or person submitting a Bid for the same materials, supplies, or equipment, and is in all respects fair and made without collusion or fraud. I agree to abide by all conditions of this Bid and certify that I am authorized to sign this Bid for the Bidder. In submitting a Bid to the City of Ormond Beach, the Bidder offers and agrees that if the Bid is accepted, the Bidder will convey, assign or transfer to the City of Ormond Beach all rights, title, and interest in and to all causes of action it may now or hereafter acquire under the Antitrust laws of the United States and the State of Florida for price fixing relating to the particular commodities or services purchased or acquired by the City of Ormond Beach. At the City's discretion, such assignment shall be made and become effective at the time the City tenders final payment to the Bidder.

# BID RESPONSE FORM

THIS BID IS SUBMITTED TO:
(Name and Address of Owner)

Purchasing Coordinator
City of Ormond Beach
22 S. Beach Street
Ormond Beach, Florida 32174
Phone: (386) 676-3223

The undersigned BIDDER proposes and agrees, if this Bid is accepted, to enter into an Agreement with the CITY in the form included in the Bid Documents to complete all Work as specified or indicated in the Bid Documents for the Contract Price and within the Contract Time indicated in this Bid and in full accordance with the Bid Documents.

BIDDER certifies that he has investigated the requirements to do business in the jurisdiction where the project is located, and that he is either qualified to do business or will obtain such prequalification prior to award of the contract.

BIDDER accepts all of the terms and conditions of the General Conditions. BIDDER will sign the Agreement (Contract) and submit the Contract security (when applicable) and other documents required by the Contract Documents within ten (10) days after the date of CITY's Notice of Award.

In submitting this Bid, BIDDER represents, as more fully set forth in the Agreement, that:

BIDDER has examined copies of all the Bid Documents and of the following Addenda:

| Addendum Date | Addendum Number |
|---|---|
| 6/2/2020 | 1 |
| 6/4/2020 | 2 |
| 6/9/2020 | 3 |

Receipt of all of which is hereby acknowledged.

BIDDER has examined the site and locality where the Work is to be performed, when applicable, the legal requirements (federal, state and local laws, ordinances, rules and regulations) and the conditions affecting cost, progress or performance of the Work and has made such independent investigations as BIDDER deems necessary.

## BID RESPONSE FORM
**(continued)**

This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; BIDDER has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid; BIDDER has not solicited or induced any person, firm or a corporation to refrain from bidding; and BIDDER has not sought by collusion to obtain for himself any advantage over any other Bidder or over the CITY.

THIS BID IS SUBMITTED BY:

COMPANY NAME: Pace Analytical Services, LLC

VENDOR/CONTRACTOR LICENSE NUMBER: _____

ADDRESS: 8 East Tower Circle

Ormond Beach, FL 32174

PHONE NO.: 386-672-5668 EMAIL: Garrett.Ervin@pacelabs.com

SUBMITTER'S NAME: Garrett Ervin
(Typed or Printed in Ink)

TITLE: General Manager

**AUTHORIZED SIGNATURE**: I, Garrett Ervin hereby
(Original Signature)
declare that I have read and fully understand the Invitation to Bid, including the General Conditions, Specifications and Drawings (when applicable) and that I am duly authorized to sign and submit this bid.

The CITY reserves the right to reject any and all bids, to waive informalities, and to accept any bid or parts thereof as the CITY, in its sole discretion, determines to be in the best interest of the CITY.

## DRUG-FREE WORKPLACE CERTIFICATION

**IDENTICAL OR "TIE" BID**: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more Bids which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a Bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie Bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

Give each employee that engages in providing the commodities or contractual services that are under proposal a copy of the statement specified in subsection (1).

In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under proposal, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) calendar days after such conviction.

Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

## LOCAL VENDOR PREFERENCE

The following is taken from the Code of Ordinances, City of Ormond Beach, Chapter 2, Financial Matters, Division 3, Purchasing, Article IX, Section 2-304:

Except where otherwise provided by federal or state law or other funding source restrictions, purchases of goods and services under the Purchasing Code shall give preference to local businesses as follows:

(a) Under a competitive bid solicitation, the City *may* give a local preference in the amount of three percent (3%) of the bid price or $25,000, whichever is less. The bid price shall include not only the base bid price but all alternatives which are part of the bid and actually purchased or awarded.

(b) A *local business* shall mean a vendor that has a valid occupational license issued by the City of Ormond Beach at least one year prior to bid opening, with a physical business address located within the municipal boundaries of the City of Ormond Beach from which the vendor operates or performs business on a day-to-day basis that is a substantial component of the goods or services being offered and has provided a Local Vendor Affidavit of Eligibility at the time the bid is submitted.

(c) A *Local Vendor Affidavit of Eligibility* shall accompany the bid submittal to be considered valid and shall include, but not be limited to, the following information:

(1) A physical business and location address;
(2) A copy of current City of Ormond Beach Local Business Tax Receipt (occupational license) to verify the business location;
(3) Proof of payment of business tax and real property tax due to the City of Ormond Beach;
(4) A copy of the firm's most recent annual corporation report to the Florida Division of Corporations;
(5) Any additional information necessary to verify local status.

(d) *Exemptions:* Goods or services provided under a cooperative purchasing agreement, contracts for professional services subject to Consultants' Competitive Negotiation Act, purchases or contracts funded in whole or part by a governmental entity that does not allow local preferences, purchases made under another agency's agreements or contracts (piggybacking), purchases under emergency or sole source situations and procurements subject to formal proposals including but not limited to request for proposals (RFP) or continuing contract, and request for quotes (RFQ) versus straight competitive bids.

(e) This section shall not be deemed to require the granting of a local preference, and nothing herein prohibits the award of a contract to a non-local vendor where such award is in the public interest.

## Local Vendor Affidavit of Eligibility

I certify that my company meets all of the following qualifications to be eligible for the local vendor preference:

a. My company has a physical business address located within the municipal boundaries of the City of Ormond Beach which is used to perform business on a day-to-day basis.
b. My company holds any business (occupational) or contractor license required by the City of Ormond Beach at least one year prior to bid opening.
c. Payment of business tax and real property tax due to the City of Ormond Beach is current
d. My company is in compliance with annual reporting to the Florida Division of Corporations

**Attention commercial locations, the following certification applies to all new and renewed business tax receipts:**

I certify under oath with a penalty of perjury, that all of the information contained herein is true and correct. If any portion is found to be false or misrepresented, such fact may be just cause for immediate revocation of any business tax receipt/registration issued to me and may subject me to prosecution. I acknowledge that the issuance of this business tax receipt is contingent upon complying with the building and fire prevention requirements of the City. I consent to inspection of the property by the City at any time between 9:00 a.m. and 5:00 p.m. Inspections will be performed, and should deficiencies be found that are in conflict with the City code, I understand that the City will not issue the business tax receipt until I (or the owner of the building, if leased) make the required corrections. I understand that should corrections be necessary, I am not permitted to operate this business until those corrections have been made. It is further understood that I must comply with the code of the City of Ormond Beach and failure to correct conditions which are in violation is punished under the code or sufficient cause for revocation of my business tax receipt/registration. I understand that if I engage in a business under a fictitious name, I must comply with the fictitious name statute.

ADDENDEM NO. 1

June 2, 2020

**TO:** Prospective Bidders and Others Concerned.

**SUBJECT:** Addendum # 1 **BID 2020-23 LABORATORY TESTING SERVICES**

**NOTE:** This addendum consists of the following documents. It is the Contractor's responsibility to ensure that all documents have been downloaded and reviewed prior to submitting bids on the work.

**TO ALL BIDDERS**: You are requested to make all changes and/or additions contained in this Addendum to the Bidding Documents. Failure to acknowledge this Addendum in Proposal may result in rejection of bid.

**The Project Manual shall be amended as follows:**

**Item 1:** Please delete "Pages 9 through 12 of 33" from the "Invitation to Bid" and replace it with "Pages 9R through 12R of 33."

**Item 2:** Please delete "Pages 15 through 19 of 33" from the "Invitation to Bid" and replace it with "Pages 15R through 19R of 33."

**Item 3:** A copy of the Florida Department of Environmental Protection Wastewater Treatment Plant Operating Permit, signed on May 8, 2020, is provided with this addendum.

**Item 4:** A copy of the Bid Form submitted by Pace Analytical for Bid No. 2015-34 is provided with this addendum. This unit price contract served as the basis of award with the current vendor.

**Item 5:** The following additional information is being provided in response to inquiries received.

**Question 1**: In section Reuse Effluent Analysis, are we supposed to only price out the methods and tests you list or does this include the full Primary and Secondary Drinking Water Standards, as well as the other tests and methods? Does this require Asbestos and Dioxin?
**Answer 1**: The bid includes the full Primary and Secondary Drinking Water Standards, as well as the other tests and methods. Asbestos and Dioxin are not included and are not part of our current permit. (A copy of the latest operating permit is provided with this addendum.)

**Question 2:** In section Wastewater, are you looking for the full Primary and Secondary Drinking Water Standards? Does this include Asbestos and Dioxin?
**Answer 2:** The reference to Primary and Secondary Drinking Water Standards has been removed from this section of the Itemized Bid sheet. Asbestos and Dioxin are not included and are not part of our current permit. (A copy of the latest operating permit is provided with this addendum.)

**Question 3:** In section Water, Primary Organics, does this include Asbestos?
Who is the most recent provider of these services to the City and what is currently being paid?
**Answer 3:** No, Asbestos is not included. The current provider of Laboratory Services is Pace Analytical. A copy of their original bid submittal is provided as an attachment to this addendum.

**Question 4:** In section Water, Regulated SOCs, does this include Dioxin?
**Answer 4:** No, Dioxin is not included.

**Question 5:** For the Subcontractors, the bid states the following: Subcontract labs, if any, shall be required to submit information in items "a - c" and "e - g." These sections include a lot of information from the subcontractors. For the Quality Manual of the sublabs, can we submit their cover page only with all signatures?
**Answer 5:** Subcontractor Labs must provide the information in items "a-c" and "e-g." A submission of a cover page with signatures will not comply with the requirements.

**Question 6:** Item #2. Bid Requirements states the following: "b. A price list must be submitted with your Bid showing individual parameter prices (for all listed parameters), method numbers, and method detection limits. Costs shall be shall be firm for the duration of the contract." Are we to submit, in addition to the bid document pricing, our standard pricelist? Can we submit the additional pricelist and another document with our MDLs for all parameters we are certified for? We do not have a document that list all analytes, individual prices for each analyte and the MDLs all on one page.
**Answer 6:** Bidders are not asked nor required to submit a separate standard pricelist. However, as additional supplemental information, bidders may, if they so choose, submit an additional price list and any other documents deemed appropriate to accompany the company's MDLs for any and all parameters for which the company is certified.

**Question 7:** Are we required to submit a Performance Bond (Bid Bond) for the City of Ormond Beach BID No. 2020-23; LABORATORY TESTING SERVICES ITB? Is there a percentage amount to be submitted for this ITB?
**Answer 7:** No Bid Bond shall be required with this Bid. No Performance Bond shall be required with this Bid.

**Question 8**: Could you tell us who the current incumbent is and what is the current contract pricing?
**Answer 8**: Pace Analytical is the current Lab Services provider. A copy of their Unit Price Submittal from the original bid award is included.

**Question 9:** With Weekend work being a potential can the city add a few line items to the pricing sheet? Line items for weekend Fecal coliform, weekend courier and a line for any other weekend parameter with a percentage mark up for weekend work.
**Answer 9:** Minimum laboratory requirements have been revised to state "The contract lab shall be available a minimum of 7 days per week." The bid form shall not be revised to accommodate the request.

**Question 10:** Can the city confirm a subcontractor is one that is outside the bidding company and not another location for the same company?
**Answer 10:** Please consider this response as an affirmative confirmation that a secondary office of the contractor is not regarded as a subcontractor.

**Question 11:** In the insurance section page 28 of 33 section 4 Service Bond. Could this provision be removed, or could the language be changed to allow for a letter of credit or other type of assurance instead?
**Answer 11:** No, the City is unwilling to remove this provision from these bid documents. However, for clarification, please be advised that the contract does not require a bid bond and does not require a performance bond. (Refer to Question 7)

**Question 12:** Can the requirement for providing claim information be removed from the insurance section?
**Answer 12:** No, the City standard requirement for providing claim information shall not be altered with these bid documents.

**Question 13:** Would it be possible to remove the requirement in the insurance section D3 on page 32 of 33 stating that "If requested by the City, the contractor shall furnish complete copies of the Contractor's insurance policies, forms and endorsements"?
**Answer 13:** No, the referenced clause in the City standard documents will not be changed at this time. Specifically, the requirement to furnish complete copies of the Contractor's insurance policies, forms and endorsements, if requested, remains in effect.

**Question 14:** In the draft agreement page #5 b. This Agreement may not be terminated by the contractor.: Would the City please remove this provision in favor of both parties being able to terminate for default, etc.?
**Answer 14:** The Bid Documents will not be changed at this time. However, please note that under the Section entitled Contract Duration, either party may provide a written notice of non-renewal ninety calendar days prior to the Contract expiration date.

**Question 15:** Page 15 of 33 Price Sheet Reuse Effluent Analysis: Are the parameters for the Primary & Secondary Drinking Water Standard methods listed in the bid sheet table the only methods and parameters required, or it is the full primary and secondary?
**Answer 15:** The bid includes the full Primary and Secondary Drinking Water Standards, as well as the other tests and methods as required by the permit. Asbestos and Dioxin are not included and are not part of our current permit. (A copy of the latest operating permit is provided with this addendum.)

**Question 16:** Page 15 of 33 Price Sheet Reuse Effluent Analysis: If the full primary and secondary is needed are Asbestos and Dioxin required for this section?
**Answer 16:** The bid includes the full Primary and Secondary Drinking Water Standards, as well as the other tests and methods. Asbestos and Dioxin are not included and are not part of our current permit. (A copy of the latest operating permit is provided with this addendum.)

**Question 17:** Page 15 of 33 Price Sheet Reuse Effluent Analysis: Can the city please list the tables needed for this section?

**Answer 17:** A copy of the latest operating permit is provided with this addendum.

**Question 18:** Page 15 of 33 Price Sheet Reuse Effluent Analysis: Are color and odor needed for this section?
**Answer 18:** A copy of the latest operating permit is provided with this addendum.

**Question 19:** Page 15 of 33 Industrial Pre-Treatment section: The TTO only includes the 624, 625 and 608 is that correct?
**Answer 19:** 624, 625 & 608 are inclusive but not exclusive of other relevant applicable methods. Please refer to the Treatment Plant Operating Permit provided with this addendum.

**Question 20:** Page 16 Wastewater section: Primary and Secondary. Are tables 1-6 of 62-550 the only required tables and are asbestos and dioxin required?
**Answer 20:** Asbestos and Dioxin are not included and are not part of our current permit. A copy of the latest operating permit is provided with this addendum, and shall be referenced by prospective bidders.

**Question 21:** Page 16 Wastewater section: Primary and Secondary. Can the city please list the tables required minus any parameters that are not needed?
**Answer 21:** Please refer to the Treatment Plant Operating Permit provided with this addendum.

**Question 22:** Page 18 Water Section: Analytical Groups /Calculation Primary Inorganics: does this include asbestos?
**Answer 22:** Asbestos is not included.

**Question 23:** Page 18 Water Section: Analytical Groups /Calculation Regulated SOCs: does this include dioxin?
**Answer 23:** Dioxin is not included.

Question 24: Page 18 for Thallium: Can 200.8 be used?
**Answer 22:** For bidding purposes, please use the method specified.

**In all other respects, except as specifically stated herein, the subject BID 2020-23 Laboratory Testing Services remains unchanged.**

**THIS ADDEDNDUM MUST BE ACKNOWLEDGED AND RETURNED WITH YOUR BID**

TO ALL BIDDERS: You are requested to make all changes and/or additions contained in this Addendum to the Bidding Documents. Failure to acknowledge this Addendum in Proposal may result in rejection of bid.

The foregoing changes are hereby incorporated into the Bidding Contract Documents for CITY OF ORMOND BEACH– BID 2020-23 LABORATORY TESTING SERVICES, for the City of Ormond Beach.

City of Ormond Beach, Florida

**END OF ADDENDUM NO. 1**

ADDENDEM NO. 2

June 4, 2020

**TO:** Prospective Bidders and Others Concerned.

**SUBJECT:** Addendum # 2 **BID 2020-23 LABORATORY TESTING SERVICES**

**NOTE:** This addendum consists of the following documents. It is the Contractor's responsibility to ensure that all documents have been downloaded and reviewed prior to submitting bids on the work.

**TO ALL BIDDERS**: You are requested to make all changes and/or additions contained in this Addendum to the Bidding Documents. Failure to acknowledge this Addendum in Proposal may result in rejection of bid.

**The Project Manual shall be amended as follows:**

**Item 1:** The deadline for questions to be submitted originally stated as June 1, 2020 at 5:00 p.m. has now been extended to June 8, 2020 at 5:00 p.m.

**Item 2:** The bid opening originally scheduled for June 10, 2020 at 2:00 p.m. has now been extended to June 17, 2020 at 2:30 p.m.

**Item 3:** Please delete "Page 16R of 33" from Addendum No. 1 and replace it with "Page 16R2 of 33."

**Item 4:** The following additional information is being provided in response to inquiries received.

**Question 1**: Can I please have some clarifications on the Addendum 1 answers? Specifically, Question 1, Question 15 and Question 16, the answer said that Asbestos and dioxin are not part of the permit. I see dioxin in the tables of the permit for RWS-A, RWS-B, RWS-C, RWS-G. Is this not for the Reuse Effluent Analysis section of the bid sheet on page 15R of 33?
**Answer 1:** YES, contrary to statements issued in Addendum No. 1, Dioxin is in fact included and required in accordance with the permit. To assist bidders, the relevant direct excerpt of the permit is provided herewith, and states the following:

> During the period of operation authorized by this permit, reclaimed water or effluent shall be monitored annually for the primary and secondary drinking water standards contained in Chapter 62-550, F.A.C., (except for asbestos, total coliform, color, odor, and residual disinfectants). These monitoring results shall be reported to the Department annually on the RWS-A DMR. During years when a permit is not renewed, a certification stating that no new non-domestic wastewater dischargers have been added to the collection system since the last reclaimed water or effluent analysis was conducted may be submitted with the signed DMR in lieu of performing the analysis. When such a certification is submitted with the DMR, monitoring not required this period should be noted on the DMR. The annual reclaimed

water or effluent analysis report, and certification if applicable, shall be completed and submitted in a timely manner so as to be received by the Department at the address identified on the DMR by January 28 of each year. Approved analytical methods identified in Rule 62-620.100(3) (j), F.A.C., shall be used for the analysis. If no method is included for a parameter, methods specified in Chapter 62-550, F.A.C., shall be used. *[62-600.660(2) and (3) (d)][62-600.680(2)][62-610.300(4)]*

**Question 2:** If the pricing sheet will not be altered, how will we decipher weekend work costs from weekday costs for specific tests and courier?

**Answer 2**: The pricing sheet, page 16R2 of 33, has been altered and made part of this addendum. A line item has been added beneath Fecal Coliform entitled "Fecal Coliform Additional Costs for Weekend Work" with a unit quantity of 104.

**In all other respects, except as specifically stated herein, the subject BID 2020-23 LABORATORY TESTING SERVICES remains unchanged.**

**THIS ADDEDNDUM MUST BE ACKNOWLEDGED AND RETURNED WITH YOUR BID**

**COMPANY NAME:** PACE Analytical Services

**SIGNATURE:** [signature] **DATE:** 6/4/20

TO ALL BIDDERS: You are requested to make all changes and/or additions contained in this Addendum to the Bidding Documents. Failure to acknowledge this Addendum in Proposal may result in rejection of bid.

The foregoing changes are hereby incorporated into the Bidding Contract Documents for CITY OF ORMOND BEACH– BID 2020-23 LABORATORY TESTING SERVICES, for the City of Ormond Beach.

City of Ormond Beach, Florida

**END OF ADDENDUM NO. 2**

ADDENDEM NO. 3

June 9, 2020

**TO:** Prospective Bidders and Others Concerned.

**SUBJECT:** Addendum # 3 **BID 2020-23 LABORATORY TESTING SERVICES**

**NOTE:** This addendum consists of the following documents. It is the Contractor's responsibility to ensure that all documents have been downloaded and reviewed prior to submitting bids on the work.

**TO ALL BIDDERS**: You are requested to make all changes and/or additions contained in this Addendum to the Bidding Documents. Failure to acknowledge this Addendum in Proposal may result in rejection of bid.

**The Project Manual shall be amended as follows:**

**Item 1:** The following additional information is being provided in response to inquiries received.

**Question 1**: Can we provide the large documents, such as the Quality Manuals, PT studies, audits and certifications on a CD or thumb drive only?
**Answer 1:** To assist bidders and reduce replication costs, the vendors shall have the option of supplying a paper copy of the "large documents" listed in the **Scope of Work, 2. Bid Requirements/ Information to be Provided with the Bidder's Submission,** as appearing on pages 11R and 12R, Item "a" and Items "c" through "k" inclusive. Bidders shall still submit a paper copy of Item 2.b, which states "A price list must be submitted with your Bid showing individual parameter prices (for all listed parameters), method numbers, and method detection limits. Costs shall be firm for the duration of the contract." While bidders have the option of supplying a paper copy of the items as noted herewith, this addendum does not relieve the bidder of supplying the required documents in digital format. In addition, should the bidder choose to omit submittal of certain documents in paper format, then it shall be the responsibility of the bidder to provide one paper copy of a "Table of Contents" or "List of Attachments" or "List of Exhibits" or other appropriately titled paper submittal that clearly identifies and lists each of the documents that are only provided in a digital format.

**Question 2:** For the Quality Manual can we mark it as a confidential document and only the city of Ormond Beach will have access to it?
**Answer 2**: No, upon submission of the bid documents, the Quality Manual shall be considered a public document and will not be considered confidential. We are not aware of any exemption which would cause that information to be confidential. If vendor would like to provide something to the contrary, we can take a look at it.

**In all other respects, except as specifically stated herein, the subject BID 2020-23 LABORATORY TESTING SERVICES remains unchanged.**

# PERFORMANCE BOND

**KNOW ALL MEN BY THESE PRESENTS**: that

_____
*(Name of Contractor)*

_____
*(Address of Contractor)*

a(n) _____ , hereinafter called Principal, and
*(Corporation, Partnership or Individual)*

_____
*(Name of Surety)*

N/A

_____
*(Address of Surety)*

hereinafter called Surety, are held and firmly bound unto

_____
*(Name of Owner)*

_____
*(Address of Owner)*

hereinafter called OWNER, in the penal sum of _____

_____ Dollars, ($_____ ) in lawful money of the United States, for the payment of which sum will and truly to be made, we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION is such that whereas, the Principal entered into a certain contract with OWNER, dated _____ day of _____, 20____, for the construction of:

**LABORATORY TESTING SERVICES 2020**
**Bid No. 2020-23**

NOW, THEREFORE, if the Principal shall well, truly and faithfully perform its duties, all the undertakings, covenants, terms, conditions, and agreements of said contract during the original term thereof, and any extensions thereof which may be granted by the OWNER, with or without notice to the Surety and during the one-year guaranty period, and if he shall satisfy all claims and demands incurred under such contract, and shall fully indemnify and save harmless the OWNER from all costs and damages which it may suffer by reason of failure to do so, and shall reimburse and repay the OWNER all outlay and expense which the OWNER may incur in making good any default, then this obligation shall be void; otherwise to remain in full force and effect.

PROVIDED, FURTHER, that the said Surety, for value received hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the contract or to WORK to be performed thereunder or the SPECIFICATIONS accompanying the same shall in any wise affect its obligation on this BOND, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the contract or to the WORK or to the SPECIFICATIONS. The Surety agrees that modifications and changes to the terms and conditions of the Contract that increase the total amount to be paid the Principal shall automatically increase the obligation of the Surety on this bond and notice to Surety is not required for such increased obligation.

PROVIDED, FURTHER, that no final settlement between the OWNER and the CONTRACTOR shall abridge the right of any beneficiary hereunder, whose claim may be unsatisfied.

IN WITNESS WHEREOF, this instrument is executed in _____ counterparts, each one of which shall be
(number)

deemed an original, this _____ day of _____, 20_____.

ADDENDEM NO. 1

June 2, 2020

**TO:** Prospective Bidders and Others Concerned.

**SUBJECT:** Addendum # 1 **BID 2020-23 LABORATORY TESTING SERVICES**

**NOTE:** This addendum consists of the following documents. It is the Contractor's responsibility to ensure that all documents have been downloaded and reviewed prior to submitting bids on the work.

**TO ALL BIDDERS**: You are requested to make all changes and/or additions contained in this Addendum to the Bidding Documents. Failure to acknowledge this Addendum in Proposal may result in rejection of bid.

**The Project Manual shall be amended as follows:**

**Item 1:** Please delete "Pages 9 through 12 of 33" from the "Invitation to Bid" and replace it with "Pages 9R through 12R of 33."

**Item 2:** Please delete "Pages 15 through 19 of 33" from the "Invitation to Bid" and replace it with "Pages 15R through 19R of 33."

**Item 3:** A copy of the Florida Department of Environmental Protection Wastewater Treatment Plant Operating Permit, signed on May 8, 2020, is provided with this addendum.

**Item 4:** A copy of the Bid Form submitted by Pace Analytical for Bid No. 2015-34 is provided with this addendum. This unit price contract served as the basis of award with the current vendor.

**Item 5:** The following additional information is being provided in response to inquiries received.

**Question 1**: In section Reuse Effluent Analysis, are we supposed to only price out the methods and tests you list or does this include the full Primary and Secondary Drinking Water Standards, as well as the other tests and methods? Does this require Asbestos and Dioxin?
**Answer 1**: The bid includes the full Primary and Secondary Drinking Water Standards, as well as the other tests and methods. Asbestos and Dioxin are not included and are not part of our current permit. (A copy of the latest operating permit is provided with this addendum.)

**Question 2:** In section Wastewater, are you looking for the full Primary and Secondary Drinking Water Standards? Does this include Asbestos and Dioxin?
**Answer 2:** The reference to Primary and Secondary Drinking Water Standards has been removed from this section of the Itemized Bid sheet. Asbestos and Dioxin are not included and are not part of our current permit. (A copy of the latest operating permit is provided with this addendum.)

**Question 3:** In section Water, Primary Organics, does this include Asbestos?
Who is the most recent provider of these services to the City and what is currently being paid?
**Answer 3:** No, Asbestos is not included. The current provider of Laboratory Services is Pace Analytical. A copy of their original bid submittal is provided as an attachment to this addendum.

**Question 4:** In section Water, Regulated SOCs, does this include Dioxin?
**Answer 4:** No, Dioxin is not included.

**Question 5:** For the Subcontractors, the bid states the following: Subcontract labs, if any, shall be required to submit information in items "a - c" and "e - g." These sections include a lot of information from the subcontractors. For the Quality Manual of the sublabs, can we submit their cover page only with all signatures?
**Answer 5:** Subcontractor Labs must provide the information in items "a-c" and "e-g." A submission of a cover page with signatures will not comply with the requirements.

**Question 6:** Item #2. Bid Requirements states the following: "b. A price list must be submitted with your Bid showing individual parameter prices (for all listed parameters), method numbers, and method detection limits. Costs shall be shall be firm for the duration of the contract." Are we to submit, in addition to the bid document pricing, our standard pricelist? Can we submit the additional pricelist and another document with our MDLs for all parameters we are certified for? We do not have a document that list all analytes, individual prices for each analyte and the MDLs all on one page.
**Answer 6:** Bidders are not asked nor required to submit a separate standard pricelist. However, as additional supplemental information, bidders may, if they so choose, submit an additional price list and any other documents deemed appropriate to accompany the company's MDLs for any and all parameters for which the company is certified.

**Question 7:** Are we required to submit a Performance Bond (Bid Bond) for the City of Ormond Beach BID No. 2020-23; LABORATORY TESTING SERVICES ITB? Is there a percentage amount to be submitted for this ITB?
**Answer 7:** No Bid Bond shall be required with this Bid. No Performance Bond shall be required with this Bid.

**Question 8**: Could you tell us who the current incumbent is and what is the current contract pricing?
**Answer 8**: Pace Analytical is the current Lab Services provider. A copy of their Unit Price Submittal from the original bid award is included.

**Question 9:** With Weekend work being a potential can the city add a few line items to the pricing sheet? Line items for weekend Fecal coliform, weekend courier and a line for any other weekend parameter with a percentage mark up for weekend work.
**Answer 9:** Minimum laboratory requirements have been revised to state "The contract lab shall be available a minimum of 7 days per week." The bid form shall not be revised to accommodate the request.

**Question 10:** Can the city confirm a subcontractor is one that is outside the bidding company and not another location for the same company?
**Answer 10:** Please consider this response as an affirmative confirmation that a secondary office of the contractor is not regarded as a subcontractor.

**Question 11:** In the insurance section page 28 of 33 section 4 Service Bond. Could this provision be removed, or could the language be changed to allow for a letter of credit or other type of assurance instead?
**Answer 11:** No, the City is unwilling to remove this provision from these bid documents. However, for clarification, please be advised that the contract does not require a bid bond and does not require a performance bond. (Refer to Question 7)

**Question 12:** Can the requirement for providing claim information be removed from the insurance section?
**Answer 12:** No, the City standard requirement for providing claim information shall not be altered with these bid documents.

**Question 13:** Would it be possible to remove the requirement in the insurance section D3 on page 32 of 33 stating that "If requested by the City, the contractor shall furnish complete copies of the Contractor's insurance policies, forms and endorsements"?
**Answer 13:** No, the referenced clause in the City standard documents will not be changed at this time. Specifically, the requirement to furnish complete copies of the Contractor's insurance policies, forms and endorsements, if requested, remains in effect.

**Question 14:** In the draft agreement page #5 b. This Agreement may not be terminated by the contractor.: Would the City please remove this provision in favor of both parties being able to terminate for default, etc.?
**Answer 14:** The Bid Documents will not be changed at this time. However, please note that under the Section entitled Contract Duration, either party may provide a written notice of non-renewal ninety calendar days prior to the Contract expiration date.

**Question 15:** Page 15 of 33 Price Sheet Reuse Effluent Analysis: Are the parameters for the Primary & Secondary Drinking Water Standard methods listed in the bid sheet table the only methods and parameters required, or it is the full primary and secondary?
**Answer 15:** The bid includes the full Primary and Secondary Drinking Water Standards, as well as the other tests and methods as required by the permit. Asbestos and Dioxin are not included and are not part of our current permit. (A copy of the latest operating permit is provided with this addendum.)

**Question 16:** Page 15 of 33 Price Sheet Reuse Effluent Analysis: If the full primary and secondary is needed are Asbestos and Dioxin required for this section?
**Answer 16:** The bid includes the full Primary and Secondary Drinking Water Standards, as well as the other tests and methods. Asbestos and Dioxin are not included and are not part of our current permit. (A copy of the latest operating permit is provided with this addendum.)

**Question 17:** Page 15 of 33 Price Sheet Reuse Effluent Analysis: Can the city please list the tables needed for this section?

**Answer 17:** A copy of the latest operating permit is provided with this addendum.

**Question 18:** Page 15 of 33 Price Sheet Reuse Effluent Analysis: Are color and odor needed for this section?
**Answer 18:** A copy of the latest operating permit is provided with this addendum.

**Question 19:** Page 15 of 33 Industrial Pre-Treatment section: The TTO only includes the 624, 625 and 608 is that correct?
**Answer 19:** 624, 625 & 608 are inclusive but not exclusive of other relevant applicable methods. Please refer to the Treatment Plant Operating Permit provided with this addendum.

**Question 20:** Page 16 Wastewater section: Primary and Secondary. Are tables 1-6 of 62-550 the only required tables and are asbestos and dioxin required?
**Answer 20:** Asbestos and Dioxin are not included and are not part of our current permit. A copy of the latest operating permit is provided with this addendum, and shall be referenced by prospective bidders.

**Question 21:** Page 16 Wastewater section: Primary and Secondary. Can the city please list the tables required minus any parameters that are not needed?
**Answer 21:** Please refer to the Treatment Plant Operating Permit provided with this addendum.

**Question 22:** Page 18 Water Section: Analytical Groups /Calculation Primary Inorganics: does this include asbestos?
**Answer 22:** Asbestos is not included.

**Question 23:** Page 18 Water Section: Analytical Groups /Calculation Regulated SOCs: does this include dioxin?
**Answer 23:** Dioxin is not included.

Question 24: Page 18 for Thallium: Can 200.8 be used?
**Answer 22:** For bidding purposes, please use the method specified.

**In all other respects, except as specifically stated herein, the subject BID 2020-23 Laboratory Testing Services remains unchanged.**

**THIS ADDEDNDUM MUST BE ACKNOWLEDGED AND RETURNED WITH YOUR BID**

**COMPANY NAME: _____**

**SIGNATURE: _____DATE:_____**

TO ALL BIDDERS: You are requested to make all changes and/or additions contained in this Addendum to the Bidding Documents. Failure to acknowledge this Addendum in Proposal may result in rejection of bid.

The foregoing changes are hereby incorporated into the Bidding Contract Documents for CITY OF ORMOND BEACH– BID 2020-23 LABORATORY TESTING SERVICES, for the City of Ormond Beach.

City of Ormond Beach, Florida

**END OF ADDENDUM NO. 1**

**SCOPE OF WORK:**

**GENERAL**

The City of Ormond Beach invites qualified laboratories to submit Bid for an annual contract for Laboratory Testing Services. The successful contractor will be required to provide not less than 90% of the analyses noted in the Bid. **Lab results provided in this contract must be from a laboratory certified by the State of Florida.**

## 1. Minimum Requirements for the Contract Laboratory

Interested laboratories are requested to specifically meet or exceed the following minimum specifications:

a. The cost of all sample containers, paperwork, coolers, shipping kits, and preservatives will be included in the cost of the sample analysis.

b. The Contract Laboratory will pay shipping charges to and from designated City pickup locations. A local contact shall be designated for pickup of samples if requested.

c. The Contract Laboratory shall be required to provide pickup of samples 7 days per week with a minimum of 8 hours of advance notification from the City. There shall be no additional charge for meeting these requirements.

d. The Contract Laboratory shall be available a minimum of 7 days per week.

e. The report delivery times for routine parameter testing must not exceed 14 calendar days. Electronic reporting in PDF or any similar format is acceptable for meeting this turn-around requirement. Hard copies of reports are to be provided upon request for wastewater test results in addition to electronic reports. Water test results will require hard copies and electronic copies. Exceptions would be granted for those analytes that require more than 14 calendar days for the analyses to be completed.

f. Report formats are to be in a standard lab format that meets NELAC requirements. In addition, special report formats include EPA, Florida Department of Environmental Protection, and Volusia County Health Department formats. The laboratory may be asked to also furnish copies of raw data records sheets, result calculations, etc. for any samples submitted. All report formats are to include a copy of the Chain-of-Custody (COC) form submitted with the samples. The laboratory and any of its subcontractors must participate in EPA's Annual DMR-QA studies and report required analytes corresponding to the Ormond Beach WRF.

g. The City of Ormond Beach is to be notified prior to sending any parameter to any subcontract laboratory. It is the intent of the City that all analysis be performed by the contract laboratory to the maximum extent feasible. PERCENTAGE OF SUBCONTRACTED WORK MAY NOT EXCEED TEN PERCENT (10%) of the samples **(the 10% limit refers to the number of samples, not to the cost per sample)**.

h. All analytical methods used for analysis will be state and EPA approved methodologies as specified in NELAC requirements. These methodologies can be, but are not limited to "Standard Methods", "Manual for the Certification of Laboratories Analyzing Drinking Water", "Test Methods for the Evaluation of Solid Waste (SE-846)", "EPA POTW Sludge Sampling and Analysis Guidance Document", and Radiochemical methodologies as stated in Federal Register 40 CFR 141. Methodologies used and the MDL must be accepted by the regulatory agency requiring the samples. Oil and Grease must be analyzed using the Hexane Extraction Method.

i. A specific person shall be designated for contact with the City of Ormond Beach for consultation services either by phone or in person, if necessary.

j. Laboratory personnel must be qualified in giving testimony, depositions or court appearances if requested by the City.

k. The laboratory will have the capability to analyze samples with the following matrices: potable water, reclaimed water, wastewater, groundwater, surface water and liquid/cake biosolids.

l. At a minimum, all analytical runs of the City of Ormond Beach samples will be required to include QC checks on 10% of the samples analyzed. The QC checks must meet the stricter of method, and/or NELAC quality assurance criteria. The QC generated will be submitted with the sample report. Contract laboratory QC will be monitored using these reports as well.

m. The laboratory shall have no service contracts that were cancelled in the previous five years due to failure to provide accurate testing results.

n. The City of Ormond Beach and its staff reserve the right to visit the Contract Laboratory for a tour of the facility, both prior to the award and during the duration of the contract. Prior to visiting the Laboratory facility, the City shall provide no less than 4 days, but no more than 7 days, advance notice to the facility.

In the event the Laboratory fails to comply with the reporting and analytical requirements set forth herein, the City of Ormond Beach shall issue to the Laboratory a written warning describing such failure. Should the Laboratory's noncompliance continue for four (4) consecutive weeks, with written warnings, the City of Ormond Beach will have the option to deduct from the invoice of reports not meeting the requirement an amount equal to

10% of the invoice total. If non-compliance with the 14 calendar day turn-around time continues for eight (8) consecutive weeks, with written warnings, the City of Ormond Beach will have the option to deduct from the invoice of reports an amount equal to 20% of the invoice total. Persistent and repeated failure of the laboratory to comply with this 14 calendar day turn-around time in any 3 month interval may be interpreted as default for the purposes of this section.

## 2. Bid Requirements/ Information to be Provided with Bidder's Submission

a. Copies of current State, NELAP, and EPA certifications or other documentation that firmly establishes, to the satisfaction of the City, the certification status of the laboratory for all listed parameters must be submitted with your Bid.

b. A price list must be submitted with your Bid showing individual parameter prices (for all listed parameters), method numbers, and method detection limits. Costs shall be shall be firm for the duration of the contract.

c. One (1) copy of the laboratory NELAC compliant "Quality Manual" shall be provided with your Bid.

d. A statement indicating the percentage of work to be subcontracted. Additionally, the statement shall also confirm that the laboratory has sufficient staffing to assume the responsibility for the testing to be performed on behalf of the City of Ormond Beach.

e. The results from the most recent previous two WP/WA/NELAC Proficiency Testing studies are to be included in your submittal.

f. Copies of the last two FDOH laboratory assessments with corrective actions taken are to be included in your submittal.

g. A description of the laboratory and its relevant prior experience, specifically as related to governmental agencies.

h. A list of four references who shall confirm instances of comparable testing performed for governmental entities. If these cannot be provided, please explain.

i. The name and resume, including employment history with the Company, of the **senior staff** individuals who will perform the testing. If the successful provider subcontracts work under this contract, the same information will be provided for the subcontract laboratory.

j. Documentation which establishes the length of time in business in the State of Florida (at least four (4) years required).

k. Laboratories with service contracts cancelled within the previous five years due to failure to provide accurate testing results are not eligible to bid.

Subcontract labs, if any, shall be required to submit information in items "a - c" and "e - g."

**COST ADJUSTMENTS**:

No later than June 1, of each contract year, the Contractor may petition the City through the Contract Manager for a rate adjustment to reflect the change in the cost of doing business, as measured by fluctuations in the Consumer Price Index (CPI), All Urban Customers, published by the U.S. Department of Labor, Bureau of Labor Statistics, for the preceding July 1-June 30 period. The maximum increase for any annual period shall be four (4%) percent which will only apply to the future year, increases will not be retroactive. The adjusted rate, if approved shall take effect on October 1, of the year in which approved.

# City of Ormond Beach

## LABORATORY TESTING SERVICES 2020
## Bid No. 2020-23

The BIDDER will fill in the MDL listed on the bid sheets and complete the Work, as described herein, for the following price(s):

### Reuse Effluent Analysis

| PARAMETERS | Methods | Matrix | No. of Samples | Unit Cost | Subtotal |
|---|---|---|---|---|---|
| Primary & Secondary Drinking Water Standards, including: 504.1,508.1 | Various | WW | 3 | $ | $ |
| 515.3, 524.2,Hg,As,Ba,Cd,Cr,Cu, | SEE PERMIT | | | | |
| Fe, Mn,Ag,Na,Zn,An,Pb,Se,Cl,F,NO3, | | | | | |
| SO4,MBAS,pH,TDS,Radium | | | | | |
| 226/228,Gross Alpha | | | | | |
| | | | | | |
| **Effluent Analysis Subtotal** | | | | $ | |

### Industrial Pre Treatment

| PARAMETERS | Methods | Matrix | MDL | No. of Samples | Unit Cost | Subtotal |
|---|---|---|---|---|---|---|
| As, Cd, Cr, Cu, Pb, Mo, Ni, Se, Ag, Zn, Oil & Grease (hexane method) | 200.7 | WW | | 5 | $ | $ |
| Cyanide | 335.3 | WW | | 5 | $ | $ |
| Mercury | 1631E | WW | | 5 | $ | $ |
| TSS | 160.1 | WW | | 5 | $ | $ |

NOTICE OF PERMIT

In the Matter of an
Application for Permit by:
City of Ormond Beach
22A Beach Street
Ormond Beach, FL

Volusia County - DW
Ormond Beach WRF
Wastewater Permit Application
DEP File No: FL0020532-023-DW1P

ATTENTION Joyce A. Shanahan,
City Manager

Enclosed is Permit Number FL0020532 to operate a domestic wastewater facility issued under Sections 403.087 and 403.0885 of the Florida Statutes.

Judicial Review

Upon issuance of this final permit, any party to this order has the right to seek judicial review of it under Section 120.68, F.S. by the filing of a notice of appeal under Florida Rules of Appellate Procedure 9.110 and 9.190 with the Clerk of the Department of Environmental Protection in the Office of General Counsel (Mail Station #35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000) and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice must be filed within 30 days after this order is filed with the Clerk of the Department.

Executed in Orlando, Florida.

## STATE OF FLORIDA
## DOMESTIC WASTEWATER FACILITY PERMIT

**PERMITTEE:**
City of Ormond Beach

**RESPONSIBLE OFFICIAL:**
Ms. Joyce Shanahan, City Manager
22 S Beach St
Ormond Beach, Florida 32174- 6386
(386) 676-3200
shanahan@ormondbeach.org

**FACILITY:**
Ormond Beach WRF
550 N Orchard St
Ormond Beach, FL 32174-9512
Volusia County
Latitude: 29°17' 20.27" N Longitude: 81°4' 24.32" W

**PERMIT NUMBER:** FL0020532 (Major)
**FILE NUMBER:** FL0020532-023-DW1P
**ISSUANCE DATE:** **May 8, 2020**
**EFFECTIVE DATE:** **May 8, 2020**
**EXPIRATION DATE:** **May 7, 2025**

This permit is issued under the provisions of Chapter 403, Florida Statutes (F.S.), and applicable rules of the Florida Administrative Code (F.A.C.) and constitutes authorization to discharge to waters of the state under the National Pollutant Discharge Elimination System. This permit does not constitute authorization to discharge wastewater other than as expressly stated in this permit. The above-named permittee is hereby authorized to operate the facilities in accordance with the documents attached hereto and specifically described as follows:

**WASTEWATER TREATMENT:**

Treatment is provided by an existing 8.0 MGD annual average daily flow (AADF) permitted capacity advanced wastewater treatment (AWT) plant with an odor control system, influent screening, grit removal, biological nutrient removal (carousel type, 5-stage Bardenpho Process), re-aeration, chemical feed facilities, secondary clarification, tertiary filtration, high level disinfection, with post-aeration and dechlorination for the river discharge, and thickening, followed by dewatering, of biosolids. This permit authorizes modification of the piping, valving, and associated appurtenances to retrofit an existing Reclaimed Water (RW) Equalization (EQ) basin for use as a supplemental chlorine contact chamber.

**REUSE OR DISPOSAL:**

**Surface Water Discharge D-001** is an existing 6.0 MGD annual average daily flow discharge to the Halifax River, Class III Marine waters, (WBID# 2363B). The outfall pipe is approximately 1000 feet in length and discharges at a depth of approximately 5 feet. The point of discharge is located approximately at latitude 29°17' 50" N, longitude 81°3' 26" W.

**Land Application R-001** is an existing 10.0 MGD annual average daily flow permitted capacity slow-rate public access reuse (PAR) system. R-001 consists of irrigation within the approved Reuse Service Area as shown on the attached map, to the major users identified in Part IV.A.2 of this permit. This reuse system may receive reclaimed water (RW) from the Holly Hill PAR system. Excess reclaimed water and substandard effluent are discharged to D-001.

The following ground water sources may be used to augment the supply of reclaimed water: The Hunter's Ridge and Breakaway Trails RW storage systems receive water from supplemental groundwater wells prior to distribution within the service area.

Demineralization concentrate is blended with RW for irrigation via the public access reuse (PAR) system.

**IN ACCORDANCE WITH:** The limitations, monitoring requirements, and other conditions set forth in this cover sheet and Part I through Part IX on pages 1 through 27 of this permit.

## I. RECLAIMED WATER AND EFFLUENT LIMITATIONS AND MONITORING REQUIREMENTS

### A. Surface Water Discharges

1. During the period beginning on the effective date and lasting through the expiration date of this permit, the permittee is authorized to discharge effluent from Outfall D-001 to Halifax River. Such discharge shall be limited and monitored by the permittee as specified below and reported in accordance with Permit Condition I.C.8.

| | | | Effluent Limitations | | Monitoring Requirements | | | |

2. Effluent samples shall be taken at the monitoring site locations listed in Permit Condition I.A.1. and as described below:

| Monitoring Site Number | Description of Monitoring Site |
|---|---|
| FLW-10 | Flow to D-001 |
| FLW-6 | Flow to D-001 during by-pass of RW EQ basin |
| EFD-1 | Sample point after dechlorination |
| EFA-1 | Sampling point after chlorination |
| EFA-2 | Sample Point at end of the converted RW EQ basin when being used as a CCC |

3. Hourly measurement of pH and total residual chlorine for disinfection during the period of required operator attendance may be substituted for continuous measurement. *[62-600.660(1)]*

4. A recording flow meter with totalizer shall be utilized to measure flow and calibrated at least once every 12 months. **The sum of the two flows shall not exceed 6.0 MGD on an annual average basis**. *[62-600.200(25)]*

5. The discharge shall not contain components that, alone or in combination with other substances or in combination with other components of the discharge:

a. Settle to form putrescent deposits or otherwise create a nuisance; or

b. Float as debris, scum, oil, or other matter in such amounts as to form nuisances; or

c. Produce color, odor, taste, turbidity, or other conditions in such degree as to create a nuisance; or

d. Are acutely toxic; or

e. Are present in concentrations which are carcinogenic, mutagenic, or teratogenic to human beings or to significant, locally occurring, wildlife or aquatic species, unless specific standards are established for such components in subsection 62-302.500(2) or Rule 62-302.530, F.A.C.; or

f. Pose a serious danger to the public health, safety, or welfare.

*[62-302.500(1)(a)]*

6. In accordance with subsections 62-600.420(1) and (2), F.A.C., the monthly average effluent CBOD5 and TSS concentrations shall not exceed 15% of their respective influent values (i.e., 85% removal). *[62-600.420(1) and (2)]*

7. The effluent limitations for the monthly geometric means for fecal coliform and enterococci are only applicable if 10 or more values are reported. If fewer than 10 values are reported, the monthly geometric means shall be calculated and reported on the Discharge Monitoring Report, but shall not be used to determine compliance with the limitations for the monthly geometric means. The monthly geometric mean for fecal coliform shall be used to calculate the annual average. All other fecal coliform and enterococci effluent limitations included in permit condition I.A.1 apply regardless of the number of values reported. *[62-600.440(5)(b)] [62-302.530]*

8. To report the "90th percentile,"

   a. Place the bacteria results in ascending order (from lowest to highest value) and assign each sample a number, 1 for the lowest value.

   b. Multiply the total number of samples by 0.9 to determine the 90th percentile level.

   c. Report the value of the sample that corresponds to the 90th percentile level (e.g., 10 samples x 0.9 = 9, report the value of the 9th sample). If the 90th percentile level is not a whole number, rounding or interpolation should be used to determine the 90th percentile. When rounding, round down to the nearest whole number if the decimal is 0.4 or lower, and round up to the nearest whole number if the decimal is 0.5 or higher (e.g., 12 samples x 0.9 = 10.8, report the value of the 11th sample if rounding).

   *[62-600.440(5)(a)3] [62-302.530]*

9. Total residual chlorine must be maintained for a minimum contact time of 15 minutes based on peak hourly flow. *[62-600.440(5)(c), (6)(b), and (7)(c)]*

10. The permittee shall comply with the following requirements to evaluate acute whole effluent toxicity of the discharge from outfall D-001.

    a. Effluent Limitation

       (1) In any routine or additional follow-up test for acute whole effluent toxicity, the 96-hour LC50 shall not be less than 100% effluent. [Rules 62-302.200(1), 62-302.500(1)(a)4., 62-4.244(3)(a), and 62-4.241, F.A.C.]

    b. Monitoring Frequency

       (1) Routine toxicity tests shall be conducted once every six months, the first starting within 60 days of the effective date of this permit and lasting for the duration of this permit.

    c. Sampling Requirements

       (1) Routine tests shall be conducted on four separate grab samples collected at evenly-spaced (6-hr) intervals over a 24-hour period. The four grab samples shall be used in eight bioassays (four bioassays for each species) and shall represent one test. **If the duration of the discharge is less than 24-hours, a shortened sampling protocol will be used and the duration of discharge shall be documented on the chain of custody.**

       (2) For additional follow-up tests, the first test shall be conducted on four separate grab samples collected at evenly-spaced (6-hr) intervals over a 24-hour period. The four grab samples shall be used in four

separate bioassays for each species that failed the routine test. The four grab samples represent one test. The second follow-up test shall be run on a single grab sample collected on the day and time when the greatest toxicity was identified in the routine or first additional follow-up test.

d. Test Requirements

(1) Routine Tests: All routine tests shall be conducted using a control (0% effluent) and a minimum of five dilutions: **100%, 75%, 50%, 25%**, and **12.5%** effluent.

(2) The permittee shall conduct 96-hour acute static renewal multi-concentration toxicity tests using the daphnid, **Ceriodaphnia dubia**, and the bannerfin shiner, **Cyprinella leedsi**, concurrently.

(3) All test species, procedures and quality assurance criteria used shall be in accordance with **Methods for Measuring Acute Toxicity of Effluents and Receiving Waters to Freshwater and Marine Organisms**, 5th Edition, EPA-821-R-02-012. Any deviation of the bioassay procedures outlined herein shall be submitted in writing to the Department for review and approval prior to use. In the event the above method is revised, the permittee shall conduct acute toxicity testing in accordance with the revised method.

(4) The control water and dilution water shall be moderately hard water as described in EPA-821-R-02-012, Table 7.

e. Quality Assurance Requirements

(1) A standard reference toxicant (SRT) quality assurance (QA) acute toxicity test shall be conducted with each species used in the required toxicity tests either concurrently or initiated no more than 30 days before the date of each routine or additional follow-up test conducted. Additionally, the SRT test must be conducted concurrently if the test organisms are obtained from outside the test laboratory unless the test organism supplier provides control chart data from at least the last five monthly acute toxicity tests using the same reference toxicant and test conditions. If the organism supplier provides the required SRT data, the organism supplier's SRT data and the test laboratory's monthly SRT-QA data shall be included in the reports for each companion routine or additional follow-up test required.

(2) If the mortality in the control (0% effluent) exceeds 10% for either species in any test, the test for that species (including the control) shall be invalidated and the test repeated. The repeat test shall begin within 14 days after the last day of the invalid test.

(3) If 100% mortality occurs in all effluent concentrations for either species prior to the end of any test and the control mortality is less than 10% at that time, the test (including the control) for that species shall be terminated with the conclusion that the test fails and constitutes non-compliance.

(4) Routine and additional follow-up tests shall be evaluated for acceptability based on the concentration-response relationship, as required by EPA-821-R-02-012, Section 12.2.6.2., and included with the bioassay laboratory reports.

f. Reporting Requirements

(1) Results from all required tests shall be reported on the Discharge Monitoring Report (DMR) as follows:

(a) Routine Test Results: If an LC50 >100% effluent occurs in all four separate grab sample tests for the test species, ">100%" shall be entered on the DMR for that test species. If in any of the four separate grab sample tests for the test species an LC50 <100% effluent occurs, the lowest calculated LC50 effluent concentration shall be entered on the DMR for that test species.

(b) Additional Follow-up Test Results: For each additional test required, the calculated LC50 value shall be entered on the DMR for that test species.

(2) A bioassay laboratory report for the routine test shall be prepared according to EPA-821-R-02-012, Section 12, Report Preparation and Test Review, and mailed to the Department at the address below within 30 days after the last day of the test.

(3) For additional follow-up tests, a single bioassay laboratory report shall be prepared according to EPA-821-R-02-012, Section 12, and mailed within 30 days after the last day of the second valid additional follow-up test.

(4) Data for invalid tests shall be included in the bioassay laboratory report for the repeat test.

(5) The same bioassay data shall not be reported as the results of more than one test.

(6) All bioassay laboratory reports shall be sent to:
Florida Department of Environmental Protection

Central District Office
3319 Maguire Blvd, Suite 232
Orlando, Florida 32803-3767

g. Test Failures

(1) A test fails when the test results do not meet the limits in 10.a.(1).

(2) Additional Follow-up Tests:

(a) If a routine test does not meet the acute toxicity limitation in 10.a.(1) above, the permittee shall notify the Department at the address above within 21 days after the last day of the failed routine test and conduct two additional follow-up tests on each species that failed the test in accordance with 10.d.

(b) The first test shall be initiated within 28 days after the last day of the failed routine test. The remaining additional follow-up tests shall be conducted weekly thereafter until a total of two valid additional follow-up tests are completed.

(c) The first additional follow-up test shall be conducted using a control (0% effluent) and a minimum of five dilutions: 100%, 75%, 50%, 25%, and 12.5% effluent. The permittee may modify the dilution series in the second additional follow-up test to more accurately bracket the toxicity such that at least two dilutions above and two dilutions below the target concentration and a control (0% effluent) are run. All test results shall be statistically analyzed according to the procedures in EPA-821-R-02-012.

(3) In the event of three valid test failures (whether routine or additional follow-up tests) within a 12-month period, the permittee shall notify the Department within 21 days after the last day of the third test failure.

(a) The permittee shall submit a plan for correction of the effluent toxicity within 60 days after the last day of the third test failure.

(b) The Department shall review and approve the plan before initiation.

(c) The plan shall be initiated within 30 days following the Department's written approval of the plan.

(d) Progress reports shall be submitted quarterly to the Department at the address above.

(e) During the implementation of the plan, the permittee shall conduct quarterly routine whole effluent toxicity tests in accordance with 10.d. Additional follow-up tests are not required while the plan is in progress. Following completion or termination of the plan, the frequency of monitoring for routine and additional follow-up tests shall return to the schedule established in 10.b.(1). If a routine test is invalid according to the acceptance criteria in EPA-821-R-02-012, a repeat test shall be initiated within 14 days after the last day of the invalid routine test.

(f) Upon completion of four consecutive quarterly valid routine tests that demonstrate compliance with the effluent limitation in 10.a.(1) above, the permittee may submit a written request to the Department to terminate the plan. The plan shall be terminated upon written verification by the Department that the facility has passed at least four consecutive quarterly valid routine whole effluent toxicity tests. If a test within the sequence of the four is deemed invalid, but is replaced by a repeat valid test initiated within 14 days after the last day of the invalid test, the invalid test will not be counted against the requirement for four consecutive quarterly valid routine tests for the purpose of terminating the plan.

(4) The additional follow-up testing and the plan do not preclude the Department taking enforcement action for whole effluent toxicity failures.

*[62-4.241, 62-620.620(3)]*

11. A mixing zone for dichlorobromomethane (DCBM) has been approved in accordance with DEP permit file number FL0020532-012-DWIP and is described as a rectangle centered along the point of discharge with a mixing zone of 539 square meters. *[62-302.530(35)(b)5]*

12. The current effluent nutrient loading limits were established in the finalized Halifax River TMDL Report on July 1, 2013. Mass load shall be calculated Monthly for each calendar month of the reporting period by formula:

Monthly ADF MGD x Month Average TP or TN mg/L x 8.34 = lb/day TP or TN

lb/day TP or TN x days/month = Pounds TP or TN. This must be reported on the DMR for Outfall D-001

A cumulative total for all previously reported months, in the current calendar year, shall be submitted with each monthly reporting period. The numeric load limit, in lb/year, is for January through December, not a rolling 12-month total. [62-304 and 2013 Halifax River TMDL Report]

**B. Reuse and Land Application Systems**

1. During the period beginning on the effective date and lasting through the expiration date of this permit, the permittee is authorized to supplement reclaimed water with ground water and direct reclaimed water to Reuse System R-001. Such reclaimed water shall be limited and monitored by the permittee as specified below and reported in accordance with Permit Condition I.C.8.:

| | | | Reclaimed Water Limitations | | Monitoring Requirements | | | |
|---|---|---|---|---|---|---|---|---|
| Parameter | Units | Max./ Min | Limit | Statistical Basis | Frequency of Analysis | Sample Type | Monitoring Site Number | Notes |

| Solids, Total Dissolved (TDS) (Blend) | mg/L | Max | Report | Single Sample | Weekly | Grab | OTH-1 | |

2. Reclaimed water samples shall be taken at the monitoring site locations listed in Permit Condition I.B.1. and as described below:

| Monitoring Site Number | Description of Monitoring Site |
|---|---|
| FLW-2 | Flow meter to the public access reuse system |
| EFA-1 | Sampling point after chlorination |
| EFB-1 | After filtration and prior to disinfection |
| FLW-7 | Supplemental GW flow from Hunters Ridge Well |
| OTH-2 | Groundwater from Hunters Ridge well |
| OTH-3 | Groundwater from Breakaway Trails well |
| FLW-3 | Total concentrate (FLW-4 + FLW-5) |
| OTH-1 | Sample point at mainland pump station (blend of RW and concentrate) |
| CAL-2 | Concentrate flow divided by the flow to the public access reuse system |

3. Hourly measurement of pH during the period of required operator attendance may be substituted for continuous measurement. *[62-600.660(1)]*

4. A recording flow meter with totalizer shall be utilized to measure flow and calibrated at least once every 12 months. *[62-600.200(25)]*

5. To report the "% less than detection," count the number of fecal coliform observations that were less than detection, divide by the total number of fecal coliform observations in the month, and multiply by 100% (round to the nearest integer). *[62-600.440(6)(a)]*

6. The minimum total chlorine residual shall be limited as described in the currently approved operating protocol such that the permit limitation for fecal coliform bacteria will be achieved. In no case shall the total chlorine residual be less than 1.0 mg/L. *[62-600.440(6)(b)][62-610.460(2)][62-610.463(2)]*

7. The maximum turbidity shall be limited as described in the currently approved operating protocol, such that the permit limitations for total suspended solids and fecal coliforms will be achieved. *[62-610.463(2)]*

8. The treatment facilities shall be operated in accordance with the currently approved operating protocol(s). Only reclaimed water that meets the criteria established in the approved operating protocol(s) may be released to system storage or to the reuse system. Reclaimed water that fails to meet the criteria in the approved operating protocol(s) shall be directed to the following permitted alternate discharge system: D-001. *[62-610.320(6) and 62-610.463(2)]*

9. Instruments for continuous on-line monitoring of total residual chlorine and turbidity shall be equipped with an automated data logging or recording device. *[62-610.463(2)]*

10. Intervals between sampling for Giardia and Cryptosporidium shall not exceed *[62-610.472(3)(d)]*

11. The maximum specific conductance shall be limited as described in the approved operating protocol. *[62-610.865(9)(a)]*

**C. Other Limitations and Monitoring and Reporting Requirements**

1. During the period beginning on the effective date and lasting through the expiration date of this permit, the treatment facility shall be limited and monitored by the permittee as specified below and reported in accordance with condition I.C.8.:

| | | | Limitations | | Monitoring Requirements | | | |
|---|---|---|---|---|---|---|---|---|
| Parameter | Units | Max./ Min | Limit | Statistical Basis | Frequency of Analysis | Sample Type | Monitoring Site Number | Notes |
| Flow (total through plant) | MGD | Max<br>Max<br>Max | 8.0<br>Report<br>Report | Annual Ave<br>Monthly Ave<br>Quarterly Ave | Continuous | Recording Flow Meter w/Totalizer | INF-1 | See I.C.4 |
| Percent Capacity, (TMADF/Permitted Capacity) x 100 | percent | Max | Report | Monthly Average | Monthly | Calculated | INF-1 | |
| BOD, Carbonaceous 5 day, 20C (Influent) | mg/L | Max | Report | Single Sample | 5 Days/Week | 24-hr FPC | INF-2 | See I.C.3 |
| Solids, Total Suspended (Influent) | mg/L | Max | Report | Single Sample | 5 Days/Week | 24-hr FPC | INF-2 | See I.C.3 |

2. Samples shall be taken at the monitoring site locations listed in Permit Condition I.C.1. and as described below:

| Monitoring Site Number | Description of Monitoring Site |
|---|---|
| INF-1 | Influent flow meter (Parshall Flume) |
| INF-2 | Raw influent to the headworks |

3. Influent samples shall be collected so that they do not contain digester supernatant or return activated sludge, or any other plant process recycled waters. *[62-600.660(4)(a)]*

4. A recording flow meter with totalizer shall be utilized to measure flow and calibrated at least once every 12 months. *[62-600.200(25)]*

5. Sampling results for giardia and cryptosporidium shall be reported on DEP Form 62-610.300(4)(a)4, Pathogen Monitoring, which is attached to this permit. This form shall be submitted to the Department's Central District Office and to DEP's Reuse Coordinator in Tallahassee. *[62-610.300(4)(a)]*

6. The sample collection, analytical test methods, and method detection limits (MDLs) applicable to this permit shall be conducted using a sufficiently sensitive method to ensure compliance with applicable water quality standards and effluent limitations and shall be in accordance with Rule 62-4.246, Chapters 62-160 and 62-600, F.A.C., and 40 CFR 136, as appropriate. The list of Department established analytical methods, and corresponding MDLs (method detection limits) and PQLs (practical quantitation limits), which is titled "FAC 62-4 MDL/PQL Table" is available at https://floridadep.gov/dear/quality-assurance/content/quality-assurance-resources . The MDLs and PQLs as described in this list shall constitute the minimum acceptable MDL/PQL values and the Department shall not accept results for which the laboratory's MDLs or PQLs are greater than those described above unless alternate MDLs and/or PQLs have been specifically approved by the Department for this permit. Any method included in the list may be used for reporting if it meets the following requirements:

   a. The laboratory's reported MDL and PQL values for the specific method must be equal or less than the corresponding method values specified in the Department's approved MDL and PQL list;

   b. The laboratory reported MDL for the specific parameter is less than or equal to the permit limit or the applicable water quality criteria, if any, stated in Chapter 62-302, F.A.C. Parameters that are listed as "report only" in the permit shall use methods that provide an MDL, which is equal to or less than the applicable water quality criteria stated in 62-302, F.A.C.; and

   c. If the MDLs for all methods available in the approved list are above the stated permit limit or applicable water quality criteria for that parameter, then the method with the lowest stated MDL shall be used.

   When the analytical results are below method detection or practical quantitation limits, the permittee shall report the actual laboratory MDL and/or PQL values for the analyses that were performed following the instructions on the applicable discharge monitoring report.

   Where necessary, the permittee may request approval of alternate methods or for alternative MDLs or PQLs for any approved analytical method. Approval of alternate laboratory MDLs or PQLs are not necessary if the laboratory reported MDLs and PQLs are less than or equal to the permit limit or the applicable water quality criteria, if any, stated in Chapter 62-302, F.A.C. Approval of an analytical method not included in the above-referenced list is not necessary if the analytical method is approved in accordance with 40 CFR 136 or deemed acceptable by the Department. *[62-4.246, 62-160]*

7. The permittee shall provide safe access points for obtaining representative samples which are required by this permit. *[62-600.650(2)]*

8. Monitoring requirements under this permit are effective on the first day of the second month following the effective date of the permit. Until such time, the permittee shall continue to monitor and report in accordance with previously effective permit requirements, if any. During the period of operation authorized by this permit, the permittee shall complete and submit to the Department Discharge Monitoring Reports (DMRs) in accordance with the frequencies specified by the REPORT type (i.e. monthly, quarterly, semiannual, annual, etc.) indicated on the DMR forms attached to this permit. Unless specified otherwise in this permit, monitoring results for each monitoring period shall be submitted in accordance with the associated DMR due dates below. DMRs shall be submitted for each required monitoring period including periods of no discharge.

| REPORT Type on DMR | Monitoring Period | Submit by |
|---|---|---|
| Monthly | first day of month - last day of month | 28th day of following month |
| Once Every Two Months | January 1 - February 28/29<br>March 1 - April 30<br>May 1 - June 30<br>July 1 - August 31<br>September 1 - October 31<br>November 1 - December 31 | March 28<br>May 28<br>July 28<br>September 28<br>November 28<br>January 28 |
| Quarterly | January 1 - March 31 | April 28 |

| REPORT Type on DMR | Monitoring Period | Submit by |
|---|---|---|
| | April 1 - June 30<br>July 1 - September 30<br>October 1 - December 31 | July 28<br>October 28<br>January 28 |
| Semiannual | January 1 - June 30<br>July 1 - December 31 | July 28<br>January 28 |
| Annual | January 1 - December 31 | January 28 |

The permittee shall use the electronic DMR system approved by the Department (EzDMR) and shall electronically submit the completed DMR forms using the DEP Business Portal at http://www.fldepportal.com/go/, unless the permittee has a waiver from the Department in accordance with 40 CFR 127.15. Reports shall be submitted to the Department by the twenty-eighth (28th) of the month following the month of operation.

*[62-620.610(18)][62-600.680(1)]*

9. During the period of operation authorized by this permit, reclaimed water or effluent shall be monitored annually for the primary and secondary drinking water standards contained in Chapter 62-550, F.A.C., (except for asbestos, total coliform, color, odor, and residual disinfectants). These monitoring results shall be reported to the Department annually on the RWS-A DMR. During years when a permit is not renewed, a certification stating that no new non-domestic wastewater dischargers have been added to the collection system since the last reclaimed water or effluent analysis was conducted may be submitted with the signed DMR in lieu of performing the analysis. When such a certification is submitted with the DMR, monitoring not required this period should be noted on the DMR. The annual reclaimed water or effluent analysis report, and certification if applicable, shall be completed and submitted in a timely manner so as to be received by the Department at the address identified on the DMR by January 28 of each year. Approved analytical methods identified in Rule 62-620.100(3)(j), F.A.C., shall be used for the analysis. If no method is included for a parameter, methods specified in Chapter 62-550, F.A.C., shall be used. *[62-600.660(2) and (3)(d)][62-600.680(2)][62-610.300(4)]*

10. An annual scan of the parameters listed as primary and secondary drinking water standards in Chapter 62-550, F.A.C. (except for turbidity, total coliforms, color, and corrosivity), shall be conducted for the demineralization concentrate (RWS-C) and the blend (RWS-B). The permittee shall submit the annual summaries of water quality in the reclaimed water, the concentrate, the blend, and ground water monitoring wells (RWS-G). Correlations between specific conductance and chloride, and total dissolved solids shall be developed and reported. The summary shall include an evaluation of any adverse effects on vegetation and ground water quality and needed corrective actions, including needed revisions to the operating protocol. Results of the annual scans and annual summary shall be submitted with the February DMR each year. *[62-610.865(8)(f) & (11)]*

11. The permittee shall submit an Annual Reuse Report using DEP Form 62-610.300(4)(a)2. on or before January 1 of each year. *[62-610.870(3)]*

12. The operating protocols, for the Public Access Reuse System and the blending of concentrate, were submitted and approved during the permit renewal process. These protocols shall remain in affect until any revisions are reviewed and approved by the Department. Operating protocol(s) shall be reviewed and updated periodically to ensure continuous compliance with the minimum treatment and disinfection requirements and established demineralization concentrate blend ratio and specific conductance limit. Updated operating protocols shall be submitted to the Department's Central District Office for review and approval upon revision of the operating protocol(s) and with each permit application. *[62-610.320(6)][62-610.463(2)][62-610.865(9)]*

13. The permittee shall maintain an inventory of storage systems. The inventory shall be submitted to the Department's Central District Office at least 30 days before reclaimed water will be introduced into any new storage system. The inventory of storage systems shall be attached to the annual submittal of the Annual Reuse Report. *[62-610.464(5)]*

14. Unless specified otherwise in this permit, all reports and other information required by this permit, including 24-hour notifications, shall be submitted to or reported to, as appropriate, the Department's Central District Office at the address specified below:

**Email (preferred):** DEP_CD@FLoridaDEP.gov

Or:

Florida Department of Environmental Protection
Central District
3319 Maguire Blvd
Suite 232
Orlando, Florida 32803-3767

Phone Number - (407)897-4100

*[62-620.305]*

15. All reports and other information shall be signed in accordance with the requirements of Rule 62-620.305, F.A.C. *[62-620.305]*

## II. BIOSOLIDS MANAGEMENT REQUIREMENTS

### A. Basic Requirements

1. Biosolids generated by this facility may be transferred to Shelley's BTF or disposed of in a Class I solid waste landfill. Transferring biosolids to an alternative biosolids treatment facility does not require a permit modification. However, use of an alternative biosolids treatment facility requires submittal of a copy of the agreement pursuant to Rule 62-640.880(1)(c), F.A.C., along with a written notification to the Department at least 30 days before transport of the biosolids. *[62-620.320(6), 62-640.880(1)]*

2. The permittee shall monitor and keep records of the quantities of biosolids generated, received from source facilities, treated, distributed and marketed, land applied, used as a biofuel or for bioenergy, transferred to another facility, or landfilled. These records shall be kept for a minimum of five years. *[62-640.650(4)(a)]*

3. Biosolids quantities shall be monitored by the permittee as specified below. Results shall be reported on the permittee's Discharge Monitoring Report for Monitoring Group RMP-Q in accordance with Condition I.C.8.

| | | | Biosolids Limitation | | Monitoring Requirements | | | |
|---|---|---|---|---|---|---|---|---|
| Parameter | Units | Max./ Min | Limit | Statistical Basis | Frequency of Analysis | Sample Type | Monitoring Site Number | Notes |
| Biosolids Quantity (Transferred) | dry tons | Max | Report | Monthly Total | Monthly | Calculated | RMP-1 | |
| Biosolids Quantity (Landfilled) | dry tons | Max | Report | Monthly Total | Monthly | Calculated | RMP-1 | |

*[62-640.650(5)(a)1]*

4. Biosolids quantities shall be calculated as listed in Permit Condition II.3 and as described below:

| Monitoring Site Number | Description of Monitoring Site Calculations |
|---|---|
| RMP-1 | Biosolids leaving site |

5. The treatment, management, transportation, use, land application, or disposal of biosolids shall not cause a violation of the odor prohibition in subsection 62-296.320(2), F.A.C. *[62-640.400(6)]*

6. Storage of biosolids or other solids at this facility shall be in accordance with the Facility Biosolids Storage Plan. *[62-640.300(4)]*

7. Biosolids shall not be spilled from or tracked off the treatment facility site by the hauling vehicle. *[62-640.400(9)]*

**B. Disposal**

1. Disposal of biosolids, septage, and "other solids" in a solid waste disposal facility, or disposal by placement on land for purposes other than soil conditioning or fertilization, such as at a monofill, surface impoundment, waste pile, or dedicated site, shall be in accordance with Chapter 62-701, F.A.C. *[62-640.100(6)(b) & (c)]*

**C. Transfer**

1. The permittee shall not be held responsible for treatment and management violations that occur after its biosolids have been accepted by a permitted biosolids treatment facility with which the source facility has an agreement in accordance with subsection 62-640.880(1)(c), F.A.C., for further treatment, management, or disposal. *[62-640.880(1)(b)]*

2. The permittee shall keep hauling records to track the transport of biosolids between the facilities. The hauling records shall contain the following information:

Source Facility
1. Date and time shipped
2. Amount of biosolids shipped
3. Degree of treatment (if applicable)
4. Name and ID Number of treatment facility
5. Signature of responsible party at source facility
6. Signature of hauler and name of hauling firm

Biosolids Treatment Facility or Treatment Facility
1. Date and time received
2. Amount of biosolids received
3. Name and ID number of source facility
4. Signature of hauler
5. Signature of responsible party at treatment facility

A copy of the source facility hauling records for each shipment shall be provided upon delivery of the biosolids to the biosolids treatment facility or treatment facility. The treatment facility permittee shall report to the Department within 24 hours of discovery any discrepancy in the quantity of biosolids leaving the source facility and arriving at the biosolids treatment facility or treatment facility.

*[62-640.880(4)]*

**D. Receipt**

1. If the permittee intends to accept biosolids from other facilities, a permit revision is required pursuant to paragraph 62-640.880(2)(d), F.A.C. *[62-640.880(2)(d)]*

## III. GROUND WATER REQUIREMENTS

**A. Construction Requirements**

1. The permittee shall give at least 72-hour notice to the Department's Central District Office, prior to the installation of any monitoring wells. *[62-520.600(6)(h)]*

2. Before construction of new ground water monitoring wells, a soil boring shall be made at each new monitoring well location to properly determine monitoring well specifications such as well depth, screen interval, screen slot, and filter pack. *[62-520.600(6)(g)]*

3. Within 30 days after installation of a monitoring well, the permittee shall submit to the Department's Central District Office well completion reports and soil boring/lithologic logs on the attached DEP Form(s) 62-520.900(3), Monitoring Well Completion Report. *[62-520.600(6)(j) and .900(3)]*

4. All piezometers and monitoring wells not part of the approved ground water monitoring plan shall be plugged and abandoned in accordance with Rule 62-532.500(5), F.A.C., unless future use is intended. *[62-532.500(5)]*

**B. Operational Requirements**

1. For the Part III Public Access system, all ground water quality criteria specified in Chapter 62-520, F.A.C., shall be met at the edge of the zone of discharge. The zone of discharge shall extend horizontally 100 feet from the application site(s) or to the property boundaries, whichever is less, and vertically to the base of the surficial aquifer. *[62-520.200(27)] [62-520.465]*

2. The ground water minimum criteria specified in Rule 62-520.400 F.A.C., shall be met within the zone of discharge. *[62-520.400 and 62-520.420(4)]*

3. If the concentration for any constituent listed in Permit Condition III.6. in the natural background quality of the ground water is greater than the stated maximum, or in the case of pH is also less than the minimum, the representative background quality shall be the prevailing standard. *[62-520.420(2)]*

4. During the period of operation authorized by this permit, the permittee shall continue to sample ground water at the monitoring wells identified in Permit Condition III.5., below in accordance with this permit and the approved ground water monitoring plan prepared in accordance with Rule 62-520.600, F.A.C. *[62-520.600] [62-610.463]*

5. The following monitoring wells shall be sampled for Reuse System R-001.

| Monitoring Well ID | Alternate Well Name and/or Description of Monitoring Location | Latitude | Longitude | Depth (Feet) | Aquifer Monitored | Well Type | New or Existing |
|---|---|---|---|---|---|---|---|
| MWB-1 | Well Name MW-1 Golf Course WAFR 7328 3064A16235 | 29°17' 28" | 81°2' 43" | 20 | Surficial | Background | Existing |
| MWC-2 | Well Name MW-2 Golf Course WAFR 7327 3064A16236 | 29°17' 46" | 81°2' 44" | 15 | Surficial | Compliance | Existing |
| MWC-3A | Well Name MW-3A Golf Course WAFR 46550 3064A16237 | 29°18' 16" | 81°2' 58" | 15 | Surficial | Compliance | Existing |
| MWC-4 | Well Name MW-4 Golf Course WAFR 7325 3064A16238 | 29°17' 44" | 81°2' 30" | 15 | Surficial | Compliance | Existing |
| MWC-5A | Well Name MW-5A Golf Course WAFR 46551 3064A16239 | 29°18' 8" | 81°2' 44" | 15 | Surficial | Compliance | Existing |

*[62-520.600] [62-610.463]*

6. The following parameters shall be analyzed for each monitoring well identified in Permit Condition III.5.:

| Parameter | Compliance Well Limit | Units | Sample Type | Monitoring Frequency |
|---|---|---|---|---|
| Water Level Relative to NGVD | Report | ft | In Situ | Quarterly |
| Nitrogen, Nitrate, Total (as N) | 10 | mg/L | Grab | Quarterly |
| Solids, Total Dissolved (TDS) | 500 | mg/L | Grab | Quarterly |
| Chloride (as Cl) | 250 | mg/L | Grab | Quarterly |
| Coliform, Fecal | 4 | #/100mL | Grab | Quarterly |
| pH | 6.5-8.5 | s.u. | Grab | Quarterly |
| Sulfate, Total | 250 | mg/L | Grab | Quarterly |
| Turbidity | Report | NTU | Grab | Quarterly |
| Sodium, Total Recoverable | 160 | mg/L | Grab | Quarterly |
| Trihalomethane, Total by summation | 80 | ug/L | Grab | Quarterly |
| Bis (2-ethylhexyl) phthalate | 0.006 | mg/L | Grab | Quarterly |

*[62-520.600(11)(b)] [62-600.670] [62-600.650(3)] [62-520.310(5)]*

7. Water levels shall be recorded before evacuating each well for sample collection. Elevation references shall include the top of the well casing and land surface at each well site (NAVD allowable) at a precision of plus or minus 0.01 foot. *[62-520.600(11)(c)] [62-610.463(3)(a)]*

8. Ground water monitoring wells shall be purged prior to sampling to obtain representative samples. *[62-160.210] [62-600.670(3)]*

9. Analyses shall be conducted on unfiltered samples, unless filtered samples have been approved by the Department's Central District Office as being more representative of ground water conditions. *[62-520.310(5)]*

10. Ground water monitoring test results shall be submitted on Part D of Form 62-620.910(10) in accordance with Permit Condition I.C.8. *[62-520.600(11)(b)] [62-600.670] [62-600.680(1)] [62-620.610(18)]*

11. If any monitoring well becomes inoperable or damaged to the extent that sampling or well integrity may be affected, the permittee shall notify the Department's Central District Office within two business days from discovery, and a detailed written report shall follow within ten days after notification to the Department. The written report shall detail what problem has occurred and remedial measures that have been taken to prevent recurrence or request approval for replacement of the monitoring well. All monitoring well design and replacement shall be approved by the Department's Central District Office before installation. *[62-520.600(6)(l)]*

12. The permittee shall sample the following monitoring well(s): MWC-5A for the primary and secondary drinking water parameters included in Rules 62-550.310 and 62-550.320, F.A.C., (except for asbestos and all parameters in Table 5 of Chapter 62-550, F.A.C., other than Di(2-ethylhexyl) adipate and Di(2-ethylhexyl) phthalate). Results of this sampling shall be submitted to the Department's Central District Office with the application for permit renewal. Sampling shall occur no sooner than 180 days before submittal of the renewal application and reported using the RWS-G DMR. *[62-520.600(5)(b)]*

## IV. ADDITIONAL REUSE AND LAND APPLICATION REQUIREMENTS

### A. Part III Public Access System(s)

1. Use of reclaimed water is authorized within the general service area identified in the attached map. The following uses of reclaimed water are authorized within this general service area:

   Athletic Complexes and Parks
   Golf Courses
   Other Landscape Irrigation
   Residential Developments

   *[62-620.630(10)(a)]*

2. This reuse system includes the following major user(s) of reclaimed water (i.e., using 0.1 MGD or more) and general service area(s):

| Site Number | User Name | User Type | Capacity (MGD) | Acreage |
|---|---|---|---|---|
| PAA-1 | North Peninsula Residential development | Residential Developments | 1.38 | 595 |
| PAA-2 | Residential/Recreational Open Space Residential Development | Golf Courses | 1.38 | 594 |
| PAA-3 | Golf Courses/Oceanside; Tomoka Oaks; River Bend | Other Landscape Irrigation | 2.38 | 437 |
| PAA-4 | Western Ormond Beach-Residential | Athletic Complexes and Parks | 3.26 | 1399 |
| PAA-5 | South Peninsula-Residential | Golf Courses | 1.57 | 676 |
| PAA_6 | Ormond Beach WRF | Other Landscape | 0.02 | 12 |
| | | Total | 10.0 | 3713 |

*[62-610.800(5)] [62-620.630(10)(b)]*

3. New major users of reclaimed water (i.e., using 0.1 MGD or more) may be added to the reuse system using the general permit described in Rule 62-610.890, F.A.C., if the requirements in this rule are complied with. Application for use of this general permit shall be made using Form 62-610.300(4)(a)1. *[62-610.890]*

4. Cross-connections to the potable water system are prohibited. *[62-610.469(7)]*

5. A cross-connection control program shall be implemented and/or remain in effect within the areas where reclaimed water will be provided for use and shall be in compliance with the Rule 62-555.360, F.A.C. *[62-610.469(7)]*

6. The permittee shall conduct inspections within the reclaimed water service area to verify proper connections, to minimize illegal cross-connections, and to verify both the proper use of reclaimed water and that the proper backflow prevention assemblies or devices have been installed and tested. Inspections are required when a customer first connects to the reuse distribution system. Subsequent inspections are required as specified in the cross-connection control and inspection program. *[62-610.469(7)(h)]*

7. If an actual or potential (e.g. no dual check device on residential connections served by a reuse system) cross-connection between the potable and reclaimed water systems is discovered, the permittee shall:

   a. Immediately discontinue potable water and/or reclaimed water service to the affected area if an actual cross-connection is discovered.

   b. If the potable water system is contaminated, clear the potable water lines.

   c. Eliminate the cross-connection and install a backflow prevention device as required by the Rule 62-555.360.F.A.C.

   d. Test the affected area for other possible cross-connections.

   e. Within 24 hours, notify the Department's Central District Office's domestic wastewater and drinking water programs.

   f. Within 5 days of discovery of an actual or potential cross-connection, submit a written report to the Department's Central District Office detailing: a description of the cross-connection, how the cross-connection was discovered, the exact date and time of discovery, approximate time that the cross-connection existed, the location, the cause, steps taken to eliminate the cross-connection, whether reclaimed water was consumed, and reports of possible illness, whether the drinking water system was contaminated and the steps taken to clear the drinking water system, when the cross-connection was eliminated, plan of action for testing for other possible cross-connections in the area, and an evaluation of the cross-connection control and inspection program to ensure that future cross-connections do not occur.

   *[62-555.360][62-620.610(20)]*

8. Maximum obtainable separation of reclaimed water lines and potable water lines shall be provided and the minimum separation distances specified in Rule 62-610.469(7), F.A.C., shall be provided. Reuse facilities shall be color coded or marked. Underground piping which is not manufactured of metal or concrete shall be color coded using Pantone Purple 522C using light stable colorants. Underground metal and concrete pipe shall be color coded or marked using purple as the predominant color. *[62-610.469(7)]*

9. In constructing reclaimed water distribution piping, the permittee shall maintain a 75-foot setback distance from a reclaimed water transmission facility to public water supply wells. No setback distances are required to other potable water supply wells or to any nonpotable water supply wells. *[62-610.471(3)]*

10. A setback distance of 75 feet shall be maintained between the edge of the wetted area and potable water supply wells, unless the utility adopts and enforces an ordinance prohibiting potable water supply wells within the reuse service area. No setback distances are required to any nonpotable water supply well, to any surface water, to any developed areas, or to any private swimming pools, hot tubs, spas, saunas, picnic tables, barbecue pits, or barbecue grills. *[62-610.471(1), (2), (5), and (7)]*

11. Reclaimed water shall not be used to fill swimming pools, hot tubs, or wading pools. *[62-610.469(4)]*

12. Low trajectory nozzles, or other means to minimize aerosol formation shall be used within 100 feet from outdoor public eating, drinking, or bathing facilities. *[62-610.471(6)]*

13. A setback distance of 100 feet shall be maintained from indoor aesthetic features using reclaimed water to adjacent indoor public eating and drinking facilities. *[62-610.471(8)]*

14. The public shall be notified of the use of reclaimed water. This shall be accomplished by posting of advisory signs in areas where reuse is practiced, notes on scorecards, or other methods. *[62-610.468(2)]*

15. All new advisory signs and labels on vaults, service boxes, or compartments that house hose bibbs along with all labels on hose bibbs, valves, and outlets shall bear the words "do not drink" and "no beber" along with the equivalent standard international symbol. In addition to the words "do not drink" and "no beber," advisory signs posted at storage ponds and decorative water features shall also bear the words "do not swim" and "no nadar" along with the equivalent standard international symbols. Existing advisory signs and labels shall be retrofitted, modified, or replaced in order to comply with the revised wording requirements. For existing advisory signs and labels this retrofit, modification, or replacement shall occur within 365 days after the date of this permit. For labels on existing vaults, service boxes, or compartments housing hose bibbs this retrofit, modification, or replacement shall occur within 730 days after the date of this permit. *[62-610.468, 62-610.469]*

16. The permittee shall ensure that users of reclaimed water are informed about the origin, nature, and characteristics of reclaimed water; the manner in which reclaimed water can be safely used; and limitations on the use of reclaimed water. Notification is required at the time of initial connection to the reclaimed water distribution system and annually after the reuse system is placed into operation. A description of on-going public notification activities shall be included in the Annual Reuse Report. *[62-610.468(6)]*

17. Routine aquatic weed control and regular maintenance of storage pond embankments and access areas are required. *[62-610.414(8)]*

18. Overflows from emergency discharge facilities on storage ponds shall be reported as abnormal events in accordance with Permit Condition IX.20. *[62-610.800(9)]*

Supplemental Water Supplies - Ground Water

19. An approved backflow prevention device, as described in Rule 62-555.360, F.A.C., shall be provided on the pipe from each well connected into the reclaimed water system. *[62-610.472(4)]*

20. The supplemental water supply pipes and appurtenances shall be color coded and marked to differentiate them from the reclaimed water and potable water facilities. *[62-610.472(4)]*

21. Facilities used to connect supplemental water supplies into the reclaimed water distribution system shall be located and documented in the record drawings for the reuse system. *[62-610.472(7)]*

<u>Blending of Concentrate with Reclaimed Water</u>

22. Demineralization concentrate from Ormond Beach Water Treatment Plant may be blended with the treated reclaimed water. Concentrate shall be blended with the reclaimed water at final plant effluent/reclaim water. *[62-610.865]*

## V. OPERATION AND MAINTENANCE REQUIREMENTS

### A. Staffing Requirements

1. During the period of operation authorized by this permit, the wastewater facilities shall be operated under the supervision of one or more operators certified in accordance with Chapter 62-602, F.A.C. In accordance with Chapter 62-699, F.A.C., this facility is a Category I, Class A facility and, at a minimum, operators with appropriate certification must be on the site as follows:

   A Class C or higher operator 24 hours/day for 7 days/week. The lead/chief operator must be a Class A operator.

   *[62-620.630(3)][62-699.310] [62-610.462]*

2. The lead/chief operator shall be employed at the plant full time. "Full time" shall mean at least 4 days per week, working a minimum of 35 hours per week, including leave time. A licensed operator shall be on-site and in charge of each required shift for periods of required staffing time when the lead/chief operator is not on-site. An operator meeting the lead/chief operator class for the treatment plant shall be available during all periods of plant operation. "Available" means able to be contacted as needed to initiate the appropriate action in a timely manner. *[62-699.311(10), (6) and (1)]*

### B. Capacity Analysis Report and Operation and Maintenance Performance Report Requirements

1. The application to renew this permit shall include an updated capacity analysis report prepared in accordance with Rule 62-600.405, F.A.C. *[62-600.405(5)]*

2. The application to renew this permit shall include a detailed operation and maintenance performance report prepared in accordance with Rule 62-600.735, F.A.C. *[62-600.735(1)]*

### C. Recordkeeping Requirements

1. The permittee shall maintain the following records and make them available for inspection on the site of the permitted facility.
   a. Records of all compliance monitoring information, including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation, including, if applicable, a copy of the laboratory certification showing the certification number of the laboratory, for at least three years from the date the sample or measurement was taken;
   b. Copies of all reports required by this permit for at least three years from the date the report was prepared;
   c. Records of all data, including reports and documents, used to complete the application for this permit for at least three years from the date the application was filed;
   d. Monitoring information, including a copy of the laboratory certification showing the laboratory certification number, related to the residuals use and disposal activities for the time period set forth in Chapter 62-640, F.A.C., for at least three years from the date of sampling or measurement;
   e. A copy of the current wastewater facility permit;
   f. Copies of the current operation and maintenance manuals for the wastewater facility and the collection/transmission systems owned or operated by the wastewater facility permittee as required by Chapters 62-600 and 62-604, F.A.C.;
   g. A copy of any required record drawings for the wastewater facility and the collection/transmission systems owned or operated by the wastewater facility permittee;
   h. Copies of the licenses of the current certified operators;

i. Copies of the logs and schedules showing plant operations and equipment maintenance for three years from the date of the logs or schedules. The logs shall, at a minimum, include identification of the plant; the signature and license number of the operator(s) and the signature of the person(s) making any entries; date and time in and out; specific operation and maintenance activities, including any preventive maintenance or repairs made or requested; results of tests performed and samples taken, unless documented on a laboratory sheet; and notation of any notification or reporting completed in accordance with Rule 62-602.650(3), F.A.C. The logs shall be maintained on-site in a location accessible to 24-hour inspection, protected from weather damage, and current to the last operation and maintenance performed; and

j. Records of biosolids quantities, treatment, monitoring, and hauling for at least five years.

*[62-620.350, 62-604.500, 62-602.650, 62-640.650(4)]*

## VI. SCHEDULES

1. The following improvement actions shall be completed according to the following schedule:

| Improvement Action | Completion Date |
|---|---|
| 1. Complete the conversion of the RW EQ tank to a supplemental chlorine contact chamber | 01/01/2021 |

*[62-620.320(6)]*

2. The permittee is not authorized to discharge to waters of the state after the expiration date of this permit, unless:

   a. The permittee has applied for renewal of this permit at least 180 days before the expiration date of this permit using the appropriate forms listed in Rule 62-620.910, F.A.C., and in the manner established in the Department of Environmental Protection Guide to Permitting Wastewater Facilities or Activities Under Chapter 62-620, F.A.C., including submittal of the appropriate processing fee set forth in Rule 62-4.050, F.A.C.; or

   b. The permittee has made complete the application for renewal of this permit before the permit expiration date.

   Please note, effluent testing shall be conducted for each outfall in accordance with the instructions provided in Sections 3.A.12., 13., and 14. of the application form. A minimum of three samples shall be taken within four and one-half years prior to the date of the permit application and must be representative of the seasonal variation in the discharge from each outfall. *[62-620.335(1) - (4)]*

## VII. INDUSTRIAL PRETREATMENT PROGRAM REQUIREMENTS

### A. Implementation Requirements

1. The permittee shall function as the Control Authority and shall be responsible for the performance of all pretreatment program requirements contained in Chapter 62-625, F.A.C. The permittee shall be subject to enforcement actions, penalties, and other remedies by the Department or other appropriate parties. The permittee shall implement and enforce its Approved Pretreatment Program. The permittee's Approved Pretreatment Program is hereby made an enforceable condition of this permit. The Department may initiate enforcement action against an industrial user for noncompliance with applicable standards and requirements. *[62-625.500]*

2. The permittee shall enforce the requirements promulgated under Sections 307(b), 307(c), 307(d), and 402(b) of the Act. The permittee shall cause industrial users subject to Federal Categorical Standards to achieve compliance no later than the date specified in those requirements or, in the case of new industrial users, upon commencement of the discharge. *[62-625.410]*

3. The permittee shall perform the pretreatment functions as required in Chapter 62-625, F.A.C., including, but not limited to, the following:

   a. Implementing the necessary legal authorities as provided in Rule 62-625.500(2)(a), F.A.C. This includes, among other things, the authority to require compliance with applicable pretreatment standards, which includes general prohibitions listed in Rule 62-625.400(1), F.A.C., specific prohibitions in Rule 62-625.400(2), F.A.C., locally developed limits as required by Rules 62-625.400(3) and (4), F.A.C., and national categorical limits in accordance with Rule 62-625.410, F.A.C.;

   b. Implementing the programmatic functions as required under Rule 62-625.500(2)(b), F.A.C.;

   c. Providing the required funding, equipment, and personnel to implement the pretreatment program as provided in Rules 62-625.500(2), (3), and (4)., F.A.C.; and

   d. Providing a written technical evaluation that local limits have been developed in accordance with Rule 62-625.400(3)(a), F.A.C. The evaluation shall verify whether existing local limits protect the wastewater facilities, and if not, the permittee shall develop new local limits as part of the evaluation in accordance with Rule 62-625.600(16), F.A.C. For new local limits, a plan of study shall be submitted to the Department prior to initiating sampling required to develop the new local limits. This evaluation shall be submitted to the Department at the address in the condition below as required by the approved Industrial Pretreatment Program, or 180 days prior to the expiration of this permit.

   *[62-625.400 and .500]*

4. As required by Rules 62-625.600(8) and (12), F.A.C., the permittee shall submit a signed copy of the annual report for pretreatment activities, including DMRs for Monitoring Site Numbers PRT-I, PRT-E, and PRT-R for this facility, to the Department at the following address:

   Florida Department of Environmental Protection
   Domestic Wastewater Section, Mail Station 3540
   Bob Martinez Center
   2600 Blair Stone Road
   Tallahassee, Florida 32399-2400

   The annual report shall contain the information required in accordance with Rule 62-625.600(8), F.A.C., except section (8)(f) as noted below, and shall describe the permittee's pretreatment activities for the reporting year. In the event that the permittee is not in compliance with any conditions or requirements of the pretreatment program, then the permittee shall also include the reasons for noncompliance and state how and when the permittee shall comply with such conditions and requirements.

   In order to comply with Rule 62-625.600(8)(f), F.A.C., the permittee shall submit annual DMRs with the analytical results of influent, effluent, and residuals for those pollutants listed on the DMRs. For any other nonpriority pollutants which the permittee believes may be causing or contributing to interference, pass through, or adversely impacting residuals quality, the annual report shall provide a summary of all analytical results of influent, effluent, and residuals. The annual report and DMRs are due on February 1 of each year, to cover a period between January 1 to December 31. *[62-625.600(8) and (12)]*

5. No additional facilities are covered by the Ormond Beach WRF (FL0020532) pretreatment program.

6. Samples for Monitoring Site Numbers PRT-I, PRT-E, and PRT-R shall be taken at the monitoring site locations described below:

| Monitoring Location Site Number | Description of Monitoring Location |
|---|---|
| PRT-I | Influent |
| PRT-E | Effluent |
| PRT-R | Residuals |

## VIII. OTHER SPECIFIC CONDITIONS

1. The permittee shall comply with all conditions and requirements for reuse contained in their consumptive use permit issued by the Water Management District, if such requirements are consistent with Department rules. *[62-610.800(10)]*

2. In the event that the wastewater facilities or equipment, including collection/transmission systems, no longer function as intended, are no longer safe in terms of public health and safety (including inactive or abandoned facilities), or odor, noise, aerosol drift, or lighting adversely affects neighboring developed areas at the levels prohibited by paragraphs 62-600.400(2)(a) and 62-604.400(2)(c), F.A.C., corrective action (which may include additional maintenance or modifications of the permitted facilities) shall be taken by the permittee. Other corrective action may be required to ensure compliance with rules of the Department. Additionally, the treatment, management, use or land application of residuals shall not cause a violation of the odor prohibition in subsection 62-296.320(2), F.A.C. *[62-600.410(5), 62-604.500(3) and 62-640.400(6)]*

3. All collection/transmission systems shall be operated and maintained so as to provide uninterrupted service. *[62-604.500(2)]*

4. The deliberate introduction of stormwater in any amount into collection/transmission systems designed solely for the introduction (and conveyance) of domestic/industrial wastewater; or the deliberate introduction of stormwater into collection/transmission systems designed for the introduction or conveyance of combinations of storm and domestic/industrial wastewater in amounts which may reduce the efficiency of pollutant removal by the treatment plant is prohibited, except as provided by Rule 62-610.472, F.A.C. *[62-604.130(3)]*

5. Cross-connection, as defined in Rule 62-550.200, F.A.C., between the wastewater facility, including the collection/transmission system, and a potable water system is prohibited. *[62-550.360][62-604.130(3)]*

6. The collection/transmission operation and maintenance manual shall be maintained and revised periodically in accordance with subsection 62-604.500(4), F.A.C., to reflect any alterations performed or to reflect experience resulting from operation. However, a new operation and maintenance manual is not required to be developed for each project if there is already an existing manual that is applicable to the facilities being constructed. *[62-604.500(4)]*

7. Collection/transmission system overflows shall be reported to the Department in accordance with Permit Condition IX. 20. *[62-604.550] [62-620.610(20)]*

8. The operating authority of a collection/transmission system and the permittee of a treatment plant are prohibited from accepting connections of wastewater discharges which have not received necessary pretreatment or which contain materials or pollutants (other than normal domestic wastewater constituents):

   a. Which may cause fire or explosion hazards; or

   b. Which may cause excessive corrosion or other deterioration of wastewater facilities due to chemical action or pH levels; or

   c. Which are solid or viscous and obstruct flow or otherwise interfere with wastewater facility operations or treatment; or

   d. Which result in the wastewater temperature at the introduction of the treatment plant exceeding $40^{o}C$ or otherwise inhibiting treatment; or

   e. Which result in the presence of toxic gases, vapors, or fumes that may cause worker health and safety problems.

   *[62-604.130(5)]*

9. The treatment facility, storage ponds for Part II systems, rapid infiltration basins, and/or infiltration trenches shall be enclosed with a fence or otherwise provided with features to discourage the entry of animals and unauthorized persons. *[62-600.400(2)(b)]*

10. Screenings and grit removed from the wastewater facilities shall be collected in suitable containers and hauled to a Department approved Class I landfill or to a landfill approved by the Department for receipt/disposal of screenings and grit. *[62-701.300(1)(a)]*

11. Where required by Chapter 471 or Chapter 492, F.S., applicable portions of reports that must be submitted under this permit shall be signed and sealed by a professional engineer or a professional geologist, as appropriate. *[62-620.310(4)]*

12. The permittee shall provide verbal notice to the Department's Central District Office as soon as practical after discovery of a sinkhole or other karst feature within an area for the management or application of wastewater, wastewater residuals (sludges), or reclaimed water. The permittee shall immediately implement measures appropriate to control the entry of contaminants, and shall detail these measures to the Department's Central District Office in a written report within 7 days of the sinkhole discovery. *[62-620.320(6)]*

## IX. GENERAL CONDITIONS

1. The terms, conditions, requirements, limitations, and restrictions set forth in this permit are binding and enforceable pursuant to Chapter 403, Florida Statutes. Any permit noncompliance constitutes a violation of Chapter 403, Florida Statutes, and is grounds for enforcement action, permit termination, permit revocation and reissuance, or permit revision. *[62-620.610(1)]*

2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviations from the approved drawings, exhibits, specifications, or conditions of this permit constitutes grounds for revocation and enforcement action by the Department. *[62-620.610(2)]*

3. As provided in subsection 403.087(7), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor authorize any infringement of federal, state, or local laws or regulations. This permit is not a waiver of or approval of any other Department permit or authorization that may be required for other aspects of the total project which are not addressed in this permit. *[62-620.610(3)]*

4. This permit conveys no title to land or water, does not constitute state recognition or acknowledgment of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title. *[62-620.610(4)]*

5. This permit does not relieve the permittee from liability and penalties for harm or injury to human health or welfare, animal or plant life, or property caused by the construction or operation of this permitted source; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department. The permittee shall take all reasonable steps to minimize or prevent any discharge, reuse of reclaimed water, or residuals use or disposal in violation of this permit which has a reasonable likelihood of adversely affecting human health or the environment. It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit. *[62-620.610(5)]*

6. If the permittee wishes to continue an activity regulated by this permit after its expiration date, the permittee shall apply for and obtain a new permit. *[62-620.610(6)]*

7. The permittee shall at all times properly operate and maintain the facility and systems of treatment and control, and related appurtenances, that are installed and used by the permittee to achieve compliance with the conditions of this permit. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to maintain or achieve compliance with the conditions of the permit. *[62-620.610(7)]*

8. This permit may be modified, revoked and reissued, or terminated for cause. The filing of a request by the permittee for a permit revision, revocation and reissuance, or termination, or a notification of planned changes or anticipated noncompliance does not stay any permit condition. *[62-620.610(8)]*

9. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, including an authorized representative of the Department and authorized EPA personnel, when applicable, upon presentation of credentials or other documents as may be required by law, and at reasonable times, depending upon the nature of the concern being investigated, to:

    a. Enter upon the permittee's premises where a regulated facility, system, or activity is located or conducted, or where records shall be kept under the conditions of this permit;

    b. Have access to and copy any records that shall be kept under the conditions of this permit;

    c. Inspect the facilities, equipment, practices, or operations regulated or required under this permit; and

    d. Sample or monitor any substances or parameters at any location necessary to assure compliance with this permit or Department rules.

    *[62-620.610(9)]*

10. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data, and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except as such use is proscribed by Section 403.111, F.S., or Rule 62-620.302, F.A.C. Such evidence shall only be used to the extent that it is consistent with the Florida Rules of Civil Procedure and applicable evidentiary rules. *[62-620.610(10)]*

11. When requested by the Department, the permittee shall within a reasonable time provide any information required by law which is needed to determine whether there is cause for revising, revoking and reissuing, or terminating this permit, or to determine compliance with the permit. The permittee shall also provide to the Department upon request copies of records required by this permit to be kept. If the permittee becomes aware of relevant facts that were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be promptly submitted or corrections promptly reported to the Department. *[62-620.610(11)]*

12. Unless specifically stated otherwise in Department rules, the permittee, in accepting this permit, agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules. A reasonable time for compliance with a new or amended surface water quality standard, other than those standards addressed in Rule 62-302.500, F.A.C., shall include a reasonable time to obtain or be denied a mixing zone for the new or amended standard. *[62-620.610(12)]*

13. The permittee, in accepting this permit, agrees to pay the applicable regulatory program and surveillance fee in accordance with Rule 62-4.052, F.A.C. *[62-620.610(13)]*

14. This permit is transferable only upon Department approval in accordance with Rule 62-620.340, F.A.C. The permittee shall be liable for any noncompliance of the permitted activity until the transfer is approved by the Department. *[62-620.610(14)]*

15. The permittee shall give the Department written notice at least 60 days before inactivation or abandonment of a wastewater facility or activity and shall specify what steps will be taken to safeguard public health and safety during and following inactivation or abandonment. *[62-620.610(15)]*

16. The permittee shall apply for a revision to the Department permit in accordance with Rules 62-620.300, F.A.C., and the Department of Environmental Protection Guide to Permitting Wastewater Facilities or Activities Under Chapter 62-620, F.A.C., at least 90 days before construction of any planned substantial modifications to the permitted facility is to commence or with Rule 62-620.325(2), F.A.C., for minor modifications to the permitted facility. A revised permit shall be obtained before construction begins except as provided in Rule 62-620.300, F.A.C. *[62-620.610(16)]*

17. The permittee shall give advance notice to the Department of any planned changes in the permitted facility or activity which may result in noncompliance with permit requirements. The permittee shall be responsible for any and all damages which may result from the changes and may be subject to enforcement action by the Department for penalties or revocation of this permit. The notice shall include the following information:

    a. A description of the anticipated noncompliance;

    b. The period of the anticipated noncompliance, including dates and times; and

    c. Steps being taken to prevent future occurrence of the noncompliance.

    *[62-620.610(17)]*

18. Sampling and monitoring data shall be collected and analyzed in accordance with Rule 62-4.246 and Chapters 62-160, 62-600, and 62-610, F.A.C., and 40 CFR 136, as appropriate.

    a. Monitoring results shall be reported at the intervals specified elsewhere in this permit and shall be reported on a Discharge Monitoring Report (DMR), DEP Form 62-620.910(10), or as specified elsewhere in the permit.

    b. If the permittee monitors any contaminant more frequently than required by the permit, using Department approved test procedures, the results of this monitoring shall be included in the calculation and reporting of the data submitted in the DMR.

    c. Calculations for all limitations which require averaging of measurements shall use an arithmetic mean unless otherwise specified in this permit.

    d. Except as specifically provided in Rule 62-160.300, F.A.C., any laboratory test required by this permit shall be performed by a laboratory that has been certified by the Department of Health Environmental Laboratory Certification Program (DOH ELCP). Such certification shall be for the matrix, test method and analyte(s) being measured to comply with this permit. For domestic wastewater facilities, testing for parameters listed in Rule 62-160.300(4), F.A.C., shall be conducted under the direction of a certified operator.

    e. Field activities including on-site tests and sample collection shall follow the applicable standard operating procedures described in DEP-SOP-001/01 adopted by reference in Chapter 62-160, F.A.C.

    f. Alternate field procedures and laboratory methods may be used where they have been approved in accordance with Rules 62-160.220, and 62-160.330, F.A.C.

    *[62-620.610(18)]*

19. Reports of compliance or noncompliance with, or any progress reports on, interim and final requirements contained in any compliance schedule detailed elsewhere in this permit shall be submitted no later than 14 days following each schedule date. *[62-620.610(19)]*

20. The permittee shall report to the Department any noncompliance which may endanger health or the environment. Any information shall be provided orally within 24 hours from the time the permittee becomes aware of the circumstances. A written submission shall also be provided within five days of the time the permittee becomes aware of the circumstances. The written submission shall contain a description of the noncompliance and its cause; the period of noncompliance including exact dates and time, and if the noncompliance has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent recurrence of the noncompliance. For noncompliance events related to sanitary sewer overflows or bypass events, these reports must include the data described above (with the exception of time of discovery) as well as the type of event (sanitary sewer overflows or bypass events), type of sewer overflow (e.g., manhole), discharge volumes by the treatment works treating domestic sewage, types of human health and environmental impacts of the sewer overflow event, and whether the noncompliance was related to wet weather. The written submission may be provided electronically using the Department's Business Portal at http://www.fldepportal.com/go/ (via "Submit" followed by "Report" or "Registration/Notification"). Notice required under paragraph (d) may be provided together with the written submission using the Business Portal. All noncompliance events related to sanitary sewer overflows or bypass events submitted after December 21, 2020 shall be submitted electronically.

(a) The following shall be included as information which must be reported within 24 hours under this condition:

1. Any unanticipated bypass which causes any reclaimed water or the effluent to exceed any permit limitation or results in an unpermitted discharge,

2. Any upset which causes any reclaimed water or the effluent to exceed any limitation in the permit,

3. Violation of a maximum daily discharge limitation for any of the pollutants specifically listed in the permit for such notice, and

4. Any unauthorized discharge to surface or ground waters.

(b) Oral reports as required by this subsection shall be provided as follows:

1. For unauthorized releases or spills of treated or untreated wastewater reported pursuant to subparagraph (a)4. that are in excess of 1,000 gallons per incident, or where information indicates that public health or the environment will be endangered, oral reports shall be provided to the Department by calling the STATE WATCH OFFICE TOLL FREE NUMBER (800) 320-0519, as soon as practical, but no later than 24 hours from the time the permittee becomes aware of the discharge. The permittee, to the extent known, shall provide the following information to the State Watch Office:

   a. Name, address, and telephone number of person reporting;

   b. Name, address, and telephone number of permittee or responsible person for the discharge;

   c. Date and time of the discharge and status of discharge (ongoing or ceased);

   d. Characteristics of the wastewater spilled or released (untreated or treated, industrial or domestic wastewater);

   e. Estimated amount of the discharge;

   f. Location or address of the discharge;

   g. Source and cause of the discharge;

   h. Whether the discharge was contained on-site, and cleanup actions taken to date;

   i. Description of area affected by the discharge, including name of water body affected, if any; and

   j. Other persons or agencies contacted.

2. Oral reports, not otherwise required to be provided pursuant to subparagraph (b)1. above, shall be provided to the Department within 24 hours from the time the permittee becomes aware of the circumstances.

(c) If the oral report has been received within 24 hours, the noncompliance has been corrected, and the noncompliance did not endanger health or the environment, the Department shall waive the written report.

(d) In accordance with Section 403.077, F.S., unauthorized releases or spills reportable to the StateWatch Office pursuant to subparagraph (b)1. above shall also be reported to the Department within 24 hours from the time the permittee becomes aware of the discharge. The permittee shall provide to the Department information reported to the State Watch Office. Notice of unauthorized releases or spills may be provided to the Department through the Department's Public Notice of Pollution web page at https://floridadep.gov/pollutionnotice.

1. If, after providing notice pursuant to paragraph (d) above, the permittee determines that a reportable unauthorized release or spill did not occur or that an amendment to the notice is warranted, the permittee may submit additional notice to the Department documenting such determination.

2. If, after providing notice pursuant to paragraph (d) above, the permittee discovers that a reportable unauthorized release or spill has migrated outside the property boundaries of the installation, the permittee

must provide an additional notice to the Department that the release has migrated outside the property boundaries within 24 hours after its discovery of the migration outside of the property boundaries.

*[62-620.610(20)] [62-620.100(3)] [403.077, F.S.]*

21. The permittee shall report all instances of noncompliance not reported under Permit Conditions IX.17., IX.18., or IX.19. of this permit at the time monitoring reports are submitted. This report shall contain the same information required by Permit Condition IX.20. of this permit. *[62-620.610(21)]*

22. Bypass Provisions.

    a. "Bypass" means the intentional diversion of waste streams from any portion of a treatment works.

    b. Bypass is prohibited, and the Department may take enforcement action against a permittee for bypass, unless the permittee affirmatively demonstrates that:

        (1) Bypass was unavoidable to prevent loss of life, personal injury, or severe property damage; and

        (2) There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate back-up equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventive maintenance; and

        (3) The permittee submitted notices as required under Permit Condition IX.22.c. of this permit.

    c. If the permittee knows in advance of the need for a bypass, it shall submit prior notice to the Department, if possible at least 10 days before the date of the bypass. The permittee shall submit notice of an unanticipated bypass within 24 hours of learning about the bypass as required in Permit Condition IX.20. of this permit. A notice shall include a description of the bypass and its cause; the period of the bypass, including exact dates and times; if the bypass has not been corrected, the anticipated time it is expected to continue; and the steps taken or planned to reduce, eliminate, and prevent recurrence of the bypass.

    d. The Department shall approve an anticipated bypass, after considering its adverse effect, if the permittee demonstrates that it will meet the three conditions listed in Permit Condition IX.22.b.(1) through (3) of this permit.

    e. A permittee may allow any bypass to occur which does not cause reclaimed water or effluent limitations to be exceeded if it is for essential maintenance to assure efficient operation. These bypasses are not subject to the provisions of Permit Condition IX.22.b. through d. of this permit.

    *[62-620.610(22)]*

23. Upset Provisions.

    a. "Upset" means an exceptional incident in which there is unintentional and temporary noncompliance with technology-based effluent limitations because of factors beyond the reasonable control of the permittee.

        (1) An upset does not include noncompliance caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, careless or improper operation.

        (2) An upset constitutes an affirmative defense to an action brought for noncompliance with technology based permit effluent limitations if the requirements of upset provisions of Rule 62-620.610, F.A.C., are met.

    b. A permittee who wishes to establish the affirmative defense of upset shall demonstrate, through properly signed contemporaneous operating logs, or other relevant evidence that:

        (1) An upset occurred and that the permittee can identify the cause(s) of the upset;

        (2) The permitted facility was at the time being properly operated;

        (3) The permittee submitted notice of the upset as required in Permit Condition IX.20. of this permit; and

        (4) The permittee complied with any remedial measures required under Permit Condition IX.5. of this permit.

c. In any enforcement proceeding, the burden of proof for establishing the occurrence of an upset rests with the permittee.

d. Before an enforcement proceeding is instituted, no representation made during the Department review of a claim that noncompliance was caused by an upset is final agency action subject to judicial review.

COMMENTS AND EXPLANATION (Reference all attachments here):

## INSTRUCTIONS FOR COMPLETING THE WASTEWATER DISCHARGE MONITORING REPORT

Read these instructions before completing the DMR. Hard copies and/or electronic copies of the required parts of the DMR were provided with the permit. All required information shall be completed in full and typed or printed in ink. A signed, original DMR shall be mailed to the address printed on the DMR by the 28th of the month following the monitoring period. Facilities who submit their DMR(s) electronically through eDMR do not need to submit a hardcopy DMR. The DMR shall not be submitted before the end of the monitoring period.

The DMR consists of three parts--A, B, and D--all of which may or may not be applicable to every facility. Facilities may have one or more Part A's for reporting effluent or reclaimed water data. All domestic wastewater facilities will have a Part B for reporting daily sample results. Part D is used for reporting ground water monitoring well data.

When results are not available, the following codes should be used on parts A and D of the DMR and an explanation provided where appropriate. Note: Codes used on Part B for raw data are different.

| CODE | DESCRIPTION/INSTRUCTIONS |
|---|---|
| ANC | Analysis not conducted. |
| DRY | Dry Well |
| FLD | Flood disaster. |
| IFS | Insufficient flow for sampling. |
| LS | Lost sample. |
| MNR | Monitoring not required this period. |

| CODE | DESCRIPTION/INSTRUCTIONS |
|---|---|
| NOD | No discharge from/to site. |
| OPS | Operations were shutdown so no sample could be taken. |
| OTH | Other. Please enter an explanation of why monitoring data were not available. |
| SEF | Sampling equipment failure. |

When reporting analytical results that fall below a laboratory's reported method detection limits or practical quantification limits, the following instructions should be used, unless indicated otherwise in the permit or on the DMR:

1. Results greater than or equal to the PQL shall be reported as the measured quantity.
2. Results less than the PQL and greater than or equal to the MDL shall be reported as the laboratory's MDL value. These values shall be deemed equal to the MDL when necessary to calculate an average for that parameter and when determining compliance with permit limits.
3. Results less than the MDL shall be reported by entering a less than sign ("<") followed by the laboratory's MDL value, e.g. < 0.001. A value of one-half the MDL or one-half the effluent limit, whichever is lower, shall be used for that sample when necessary to calculate an average for that parameter. Values less than the MDL are considered to demonstrate compliance with an effluent limitation.

### PART A -DISCHARGE MONITORING REPORT (DMR)

Part A of the DMR is comprised of one or more sections, each having its own header information. Facility information is preprinted in the header as well as the monitoring group number, whether the limits and monitoring requirements are interim or final, and the required submittal frequency (e.g. monthly, annually, quarterly, etc.). Submit Part A based on the required reporting frequency in the header and the instructions shown in the permit. The following should be completed by the permittee or authorized representative:

**Resubmitted DMR:** Check this box if this DMR is being re-submitted because there was information missing from or information that needed correction on a previously submitted DMR. The information that is being revised should be clearly noted on the re-submitted DMR (e.g. highlight, circle, etc.)
**No Discharge From Site:** Check this box if no discharge occurs and, as a result, there are no data or codes to be entered for all of the parameters on the DMR for the entire monitoring group number; however, if the monitoring group includes other monitoring locations (e.g., influent sampling), the "NOD" code should be used to individually denote those parameters for which there was no discharge.
**Monitoring Period:** Enter the month, day, and year for the first and last day of the monitoring period (i.e. the month, the quarter, the year, etc.) during which the data on this report were collected and analyzed.
**Sample Measurement:** Before filling in sample measurements in the table, check to see that the data collected correspond to the limit indicated on the DMR (i.e. interim or final) and that the data correspond to the monitoring group number in the header. Enter the data or calculated results for each parameter on this row in the non-shaded area above the limit. Be sure the result being entered corresponds to the appropriate statistical base code (e.g. annual average, monthly average, single sample maximum, etc.) and units. Data qualifier codes are not to be reported on Part A.
**No. Ex.:** Enter the number of sample measurements during the monitoring period that exceeded the permit limit for each parameter in the non-shaded area. If none, enter zero.
**Frequency of Analysis:** The shaded areas in this column contain the minimum number of times the measurement is required to be made according to the permit. Enter the actual number of times the measurement was made in the space above the shaded area.
**Sample Type:** The shaded areas in this column contain the type of sample (e.g. grab, composite, continuous) required by the permit. Enter the actual sample type that was taken in the space above the shaded area.
**Signature:** This report must be signed in accordance with Rule 62-620.305, F.A.C. Type or print the name and title of the signing official. Include the telephone number where the official may be reached in the event there are questions concerning this report. Enter the date when the report is signed.
**Comment and Explanation of Any Violations:** Use this area to explain any exceedances, any upset or by-pass events, or other items which require explanation. If more space is needed, reference all attachments in this area.

**PART B - DAILY SAMPLE RESULTS**

**Monitoring Period:** Enter the month, day, and year for the first and last day of the monitoring period (i.e. the month, the quarter, the year, etc.) during which the data on this report were collected and analyzed.
**Daily Monitoring Results:** Transfer all analytical data from your facility's laboratory or a contract laboratory's data sheets for all day(s) that samples were collected. Record the data in the units indicated. Table 1 in Chapter 62-160, F.A.C., contains a complete list of all the data qualifier codes that your laboratory may use when reporting analytical results. However, when transferring numerical results onto Part B of the DMR, only the following data qualifier codes should be used and an explanation provided where appropriate.

| CODE | DESCRIPTION/INSTRUCTIONS |
|---|---|
| < | The compound was analyzed for but not detected. |
| A | Value reported is the mean (average) of two or more determinations. |
| J | Estimated value, value not accurate. |
| Q | Sample held beyond the actual holding time. |
| Y | Laboratory analysis was from an unpreserved or improperly preserved sample. |

To calculate the monthly average, add each reported value to get a total. For flow, divide this total by the number of days in the month. For all other parameters, divide the total by the number of observations.
**Plant Staffing:** List the name, certificate number, and class of all state certified operators operating the facility during the monitoring period. Use additional sheets as necessary.

**PART D - GROUND WATER MONITORING REPORT**

**Monitoring Period:** Enter the month, day, and year for the first and last day of the monitoring period (i.e. the month, the quarter, the year, etc.) during which the data on this report were collected and analyzed.
**Date Sample Obtained:** Enter the date the sample was taken. Also, check whether or not the well was purged before sampling.
**Time Sample Obtained:** Enter the time the sample was taken.
**Sample Measurement:** Record the results of the analysis. If the result was below the minimum detection limit, indicate that. Data qualifier codes are not to be reported on Part D.
**Detection Limits:** Record the detection limits of the analytical methods used.
**Analysis Method:** Indicate the analytical method used. Record the method number from Chapter 62-160 or Chapter 62-601, F.A.C., or from other sources.
**Sampling Equipment Used:** Indicate the procedure used to collect the sample (e.g. airlift, bucket/bailer, centrifugal pump, etc.)
**Samples Filtered:** Indicate whether the sample obtained was filtered by laboratory (L), filtered in field (F), or unfiltered (N).
**Signature:** This report must be signed in accordance with Rule 62-620.305, F.A.C. Type or print the name and title of the signing official. Include the telephone number where the official may be reached in the event there are questions concerning this report. Enter the date when the report is signed.
**Comments and Explanation:** Use this space to make any comments on or explanations of results that are unexpected. If more space is needed, reference all attachments in this area.

**SPECIAL INSTRUCTIONS FOR LIMITED WET WEATHER DISCHARGES**

**Flow (Limited Wet Weather Discharge):** Enter the measured average flow rate during the period of discharge or divide gallons discharged by duration of discharge (converted into days). Record in million gallons per day (MGD).
**Flow (Upstream):** Enter the average flow rate in the receiving stream upstream from the point of discharge for the period of discharge. The average flow rate can be calculated based on two measurements; one made at the start and one made at the end of the discharge period. Measurements are to be made at the upstream gauging station described in the permit.
**Actual Stream Dilution Ratio:** To calculate the Actual Stream Dilution Ratio, divide the average upstream flow rate by the average discharge flow rate. Enter the Actual Stream Dilution Ratio accurate to the nearest 0.1.
**No. of Days the SDF > Stream Dilution Ratio:** For each day of discharge, compare the minimum Stream Dilution Factor (SDF) from the permit to the calculated Stream Dilution Ratio. On Part B of the DMR, enter an asterisk (*) if the SDF is greater than the Stream Dilution Ratio on any day of discharge. On Part A of the DMR, add up the days with an "*" and record the total number of days the Stream Dilution Factor was greater than the Stream Dilution Ratio.
**$CBOD_5$:** Enter the average $CBOD_5$ of the reclaimed water discharged during the period shown in duration of discharge.
**TKN:** Enter the average TKN of the reclaimed water discharged during the period shown in duration of discharge.
**Actual Rainfall:** Enter the actual rainfall for each day on Part B. Enter the actual cumulative rainfall to date for this calendar year and the actual total monthly rainfall on Part A. The cumulative rainfall to date for this calendar year is the total amount of rain, in inches, that has been recorded since January 1 of the current year through the month for which this DMR contains data.
**Rainfall During Average Rainfall Year:** On Part A, enter the total monthly rainfall during the average rainfall year and the cumulative rainfall for the average rainfall year. The cumulative rainfall for the average rainfall year is the amount of rain, in inches, which fell during the average rainfall year from January through the month for which this DMR contains data.
**No. of Days LWWD Activated During Calendar Year:** Enter the cumulative number of days that the limited wet weather discharge was activated since January 1 of the current year.
**Reason for Discharge:** Attach to the DMR a brief explanation of the factors contributing to the need to activate the limited wet weather discharge.

**DEPARTMENT OF ENVIRONMENTAL PROTECTION DISCHARGE MONITORING REPORT - PART A**

**When Completed submit this report to:** http://www.fldepportal.com/go/

PERMITTEE NAME: City of Ormond Beach
MAILING ADDRESS: 22 S Beach St
Ormond Beach, Florida 32174- 6386

FACILITY: Ormond Beach WRF
LOCATION: 550 N Orchard St
Ormond Beach, FL 32174-9512

COUNTY: Volusia

OFFICE: Central District

**DEPARTMENT OF ENVIRONMENTAL PROTECTION DISCHARGE MONITORING REPORT - PART A**

**When Completed mail this report to:** Department of Environmental Protection, Wastewater Compliance Evaluation Section, MS 3551, 2600 Blair Stone Road, Tallahassee, FL 32399-2400

PERMITTEE NAME: City of Ormond Beach
MAILING ADDRESS: 22 S Beach St
Ormond Beach, Florida 32174-6386

FACILITY: Ormond Beach WRF
LOCATION: 550 N Orchard St
Ormond Beach, FL 32174-9512

COUNTY: Volusia
OFFICE: Central District

PERMIT NUMBER: FL0020532-023-DW1P

LIMIT: Final
CLASS SIZE: MA
MONITORING GROUP NUMBER: RWS-B (Blend)
MONITORING GROUP DESCRIPTION: Annual Reclaimed Water or Effluent Analysis
RE-SUBMITTED DMR: ☐
NO DISCHARGE FROM SITE: ☐
MONITORING NOT REQUIRED: ☐
MONITORING PERIOD From: _____ To: _____

REPORT FREQUENCY: Annually
PROGRAM: Domestic

| Parameter | | Quantity or Loading | | Units | Quality or Concentration | | | Units | No. Ex. | Frequency of Analysis | Sample Type |
|---|---|---|---|---|---|---|---|---|---|---|---|
| Antimony, Total Recoverable (GWS = 6)* | Sample Measurement | | | | | | | | | | |
| PARM Code 01268 P Mon. Site No. RWS-B | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | 24-hr FPC |
| Arsenic, Total Recoverable (GWS = 10) | Sample Measurement | | | | | | | | | | |
| PARM Code 00978 P Mon. Site No. RWS-B | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | 24-hr FPC |
| Barium, Total Recoverable (GWS = 2,000) | Sample Measurement | | | | | | | | | | |
| PARM Code 01009 P Mon. Site No. RWS-B | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | 24-hr FPC |
| Beryllium, Total Recoverable (GWS = 4) | Sample Measurement | | | | | | | | | | |
| PARM Code 00998 P Mon. Site No. RWS-B | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | 24-hr FPC |
| Cadmium, Total Recoverable (GWS = 5) | Sample Measurement | | | | | | | | | | |
| PARM Code 01113 P Mon. Site No. RWS-B | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | 24-hr FPC |
| Chromium, Total Recoverable (GWS =100) | Sample Measurement | | | | | | | | | | |
| PARM Code 01118 P Mon. Site No. RWS-B | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | 24-hr FPC |

**DEPARTMENT OF ENVIRONMENTAL PROTECTION DISCHARGE MONITORING REPORT - PART A**

**When Completed mail this report to:** Department of Environmental Protection, Wastewater Compliance Evaluation Section, MS 3551, 2600 Blair Stone Road, Tallahassee, FL 32399-2400

PERMITTEE NAME: City of Ormond Beach
MAILING ADDRESS: 22 S Beach St
Ormond Beach, Florida 32174-6386

FACILITY: Ormond Beach WRF
LOCATION: 550 N Orchard St
Ormond Beach, FL 32174-9512

COUNTY: Volusia
OFFICE: Central District

PERMIT NUMBER: FL0020532-023-DW1P

LIMIT: Final
CLASS SIZE: MA
MONITORING GROUP NUMBER: RWS-C (Concentrate)
MONITORING GROUP DESCRIPTION: Annual Reclaimed Water or Effluent Analysis
RE-SUBMITTED DMR: ☐
NO DISCHARGE FROM SITE: ☐
MONITORING NOT REQUIRED: ☐
MONITORING PERIOD From: _____ To: _____

REPORT FREQUENCY: Annually
PROGRAM: Domestic

| Parameter | | Quantity or Loading | | Units | Quality or Concentration | | | Units | No. Ex. | Frequency of Analysis | Sample Type |
|---|---|---|---|---|---|---|---|---|---|---|---|
| Antimony, Total Recoverable (GWS = 6)* | Sample Measurement | | | | | | | | | | |
| PARM Code 01268 P Mon. Site No. RWS-C | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | Grab |
| Arsenic, Total Recoverable (GWS = 10) | Sample Measurement | | | | | | | | | | |
| PARM Code 00978 P Mon. Site No. RWS-C | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | Grab |
| Barium, Total Recoverable (GWS = 2,000) | Sample Measurement | | | | | | | | | | |
| PARM Code 01009 P Mon. Site No. RWS-C | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | Grab |
| Beryllium, Total Recoverable (GWS = 4) | Sample Measurement | | | | | | | | | | |
| PARM Code 00998 P Mon. Site No. RWS-C | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | Grab |
| Cadmium, Total Recoverable (GWS = 5) | Sample Measurement | | | | | | | | | | |
| PARM Code 01113 P Mon. Site No. RWS-C | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | Grab |
| Chromium, Total Recoverable (GWS =100) | Sample Measurement | | | | | | | | | | |
| PARM Code 01118 P Mon. Site No. RWS-C | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | Grab |

**DEPARTMENT OF ENVIRONMENTAL PROTECTION DISCHARGE MONITORING REPORT - PART A**

**When Completed submit this report to:** http://www.fldepportal.com/go/

PERMITTEE NAME: Ormond Beach, City of
MAILING ADDRESS: 22 S Beach St
Ormond Beach, Florida 32174- 6386

FACILITY: Ormond Beach WRF
LOCATION: 550 N Orchard St
Ormond Beach, FL 32174-9512

COUNTY: Volusia

OFFICE: Central District

PERMIT NUMBER: FL0020532-023-DW1P

LIMIT: Final
CLASS SIZE: MA
MONITORING GROUP NUMBER: RWS-G
MONITORING GROUP DESCRIPTION: Groundwater (MWC-5A) Analysis
RE-SUBMITTED DMR: ☐
NO DISCHARGE FROM SITE: ☐
MONITORING NOT REQUIRED:* ☐
MONITORING PERIOD From: _____ To: _____

REPORT FREQUENCY: Annually
PROGRAM: Domestic

| Parameter | | Quantity or Loading | | Units | Quality or Concentration | | | Units | No. Ex. | Frequency of Analysis | Sample Type |
|---|---|---|---|---|---|---|---|---|---|---|---|
| Antimony, Total Recoverable (GWS = 6)** | Sample Measurement | | | | | | | | | | |
| PARM Code 01268 P Mon. Site No. RWS-G | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | 24-hr FPC |
| Arsenic, Total Recoverable (GWS = 10) | Sample Measurement | | | | | | | | | | |
| PARM Code 00978 P Mon. Site No. RWS-G | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | 24-hr FPC |
| Barium, Total Recoverable (GWS = 2,000) | Sample Measurement | | | | | | | | | | |
| PARM Code 01009 P Mon. Site No. RWS-G | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | 24-hr FPC |
| Beryllium, Total Recoverable (GWS = 4) | Sample Measurement | | | | | | | | | | |
| PARM Code 00998 P Mon. Site No. RWS-G | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | 24-hr FPC |
| Cadmium, Total Recoverable (GWS = 5) | Sample Measurement | | | | | | | | | | |
| PARM Code 01113 P Mon. Site No. RWS-G | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | 24-hr FPC |
| Chromium, Total Recoverable (GWS =100) | Sample Measurement | | | | | | | | | | |
| PARM Code 01118 P Mon. Site No. RWS-G | Permit Requirement | | | | | | Report (Max.) | ug/L | | Annually | 24-hr FPC |

*THE "MONITORING NOT REQUIRED" CHECKBOX SHOULD BE SELECTED WHEN A CERTIFICATION STATEMENT IN ACCORDANCE WITH SUBSECTION 62-600.680(2), F.A.C., IS SUBMITTED WITH THIS DMR. SEE CERTIFICATION STATEMENT IN COMMENTS SECTION BELOW.
**GROUND WATER STANDARD (GWS) FOR REFERENCE AND REVIEW ONLY.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

**FACT SHEET**
**FOR**
**STATE OF FLORIDA DOMESTIC WASTEWATER FACILITY PERMIT**

PERMIT NUMBER: FL0020532-023 (Major)

FACILITY NAME: Ormond Beach WRF

FACILITY LOCATION: 550 N Orchard St,
Ormond Beach, FL 32174-9512
Volusia County

NAME OF PERMITTEE: City of Ormond Beach

PERMIT WRITER: Dennise Judy

1. SUMMARY OF APPLICATION

a. Chronology of Application

Application Number: FL0020532-023-DW1P
Application Submittal Date: June 13, 2019

b. Type of Facility

Domestic Wastewater Treatment Plant
Ownership Type: Municipal
SIC Code: 4952

c. Facility Capacity

| | |
|---|---|
| Existing Permitted Capacity: | 8.0 MGD Annual Average Daily Flow |
| Proposed Increase in Permitted Capacity: | 0.0 MGD Annual Average Daily Flow |
| Proposed Total Permitted Capacity: | 8.0 MGD Annual Average Daily Flow |

d. Description of Wastewater Treatment

Treatment is provided by an existing 8.0 MGD annual average daily flow (AADF) permitted capacity advanced wastewater treatment (AWT) plant with an odor control system, influent screening, grit removal, biological nutrient removal (carousel type, 5-stage Bardenpho Process), re-aeration, chemical feed facilities, secondary clarification, tertiary filtration, high level disinfection, with post-aeration and dechlorination for the river discharge, and thickening, followed by dewatering, of biosolids. This permit authorizes modification of the piping, valving, and associated appurtenances to retrofit an existing Reclaimed Water (RW) Equalization (EQ) basin for use as a supplemental chlorine contact chamber.

e. Description of Effluent Disposal and Land Application Sites

**R-001** is an existing 10.0 MGD annual average daily flow permitted capacity slow-rate public access system. R-001 consists of irrigation within the approved Reuse Service Area as shown on the attached map, to the major users identified in Part IV.A.2 of this permit. This reuse system also receives reclaimed water (RW) from the Holly Hill RW system. Excess reclaimed water, and substandard effluent, is discharged to D-001.

The Hunter's Ridge and Breakaway Trails RW storage systems receive water from supplemental groundwater wells prior to distribution within the service area.

Demineralization concentrate is blended with reclaimed water going to the slow-rate public access R-001.

**D-001** is an existing 6.0 MGD annual average daily flow discharge to the Halifax River, Class III Marine waters, (WBID# 2363B). The outfall pipe is approximately 1000 feet in length and discharges at a depth of approximately 5 feet. The point of discharge is located approximately at latitude 29°17' 50" N, longitude 81°3' 26" W.

2. SUMMARY OF SURFACE WATER DISCHARGE

Pollutants which are present in significant quantities or which are subject to permit limitations are as follows:

| Parameter | Units | Max/Min | Reported Value (11/30/2018 through 10/31/2019) | Statistical Basis |
|---|---|---|---|---|
| Flow | MGD | Min | 0.03 | Monthly Average |
| Flow | MGD | Max | 5.40 | Monthly Average |
| BOD, Carbonaceous 5 day, 20C | mg/L | Min | 1.0 | Monthly Average |
| BOD, Carbonaceous 5 day, 20C | mg/L | Max | 4.15 | Monthly Average |
| Solids, Total Suspended | mg/L | Min | 0.5 | Monthly Average |
| Solids, Total Suspended | mg/L | Max | 1.23 | Monthly Average |
| Coliform, Fecal | #/100mL | Min | 0.50 | Monthly Average |
| Coliform, Fecal | #/100mL | Max | 1.25 | Monthly Average |
| pH | s.u. | Min | 7.1 | Single Sample |
| pH | s.u. | Max | 8.4 | Single Sample |
| Chlorine, Total Residual | mg/L | Min | 0.4 | Single Sample |
| Chlorine, Total Residual | mg/L | Max | 1.4 | Single Sample |
| Chlorine, Total Residual | mg/L | Min | 0.01 | Monthly Average |
| Chlorine, Total Residual | mg/L | Max | 0.01 | Monthly Average |
| Nitrogen, Total | mg/L | Min | 1.4 | Monthly Average |
| Nitrogen, Total | mg/L | Max | 2.8 | Monthly Average |
| Phosphorus, Total (as P) | mg/L | Min | 0.04 | Monthly Average |
| Phosphorus, Total (as P) | mg/L | Max | 0.2 | Monthly Average |
| Oxygen, Dissolved (DO) | mg/L | Min | 6.1 | Single Sample |
| Oxygen, Dissolved (DO) | mg/L | Max | 7.9 | Single Sample |
| Chlorodibromomethane | ug/L | Min | 13.9 | Annual Average |
| Chlorodibromomethane | ug/L | Max | 15.4 | Annual Average |
| Dichlorobromomethane | ug/L | Min | 33.7 | Annual Average |
| Dichlorobromomethane | ug/L | Max | 39.1 | Annual Average |
| Copper, Total Recoverable | ug/L | Min | 0.90 | Single Sample |
| Copper, Total Recoverable | ug/L | Max | 0.93 | Single Sample |
| Zinc, Total Recoverable | ug/L | Min | 24.9 | Single Sample |
| Zinc, Total Recoverable | ug/L | Max | 49.7 | Single Sample |

This facility does not have a new or expanded discharge to surface waters.

The Department does not anticipate adverse impacts on threatened or endangered species as a result of permit issuance.

3. BASIS FOR PERMIT LIMITATIONS AND MONITORING REQUIREMENTS

This facility is authorized to discharge effluent from Outfall D-001 to the Halifax River based on the following:

| Parameter | Units | Max/ Min | Limit | Statistical Basis | Rationale |
|---|---|---|---|---|---|
| Flow | MGD | Max | 6.0 | Annual Average | 62-600.700(2)(b) FAC |
| Flow | MGD | Max | Report | Monthly Average | 62-600.700(2)(b) FAC |
| Flow | MGD | Max | Report | Annual Average | 62-600.700(2)(b) FAC |
| Flow | MGD | Max | Report | Monthly Average | 62-600.700(2)(b) FAC |
| Flow | MGD | Max | Report | Annual Average | 62-600.700(2)(b) FAC |
| Flow | MGD | Max | Report | Monthly Average | 62-600.700(2)(b) FAC |
| BOD, Carbonaceous 5 day, 20C | mg/L | Max | 5.0 | Annual Average | 62-600.430(1)(b) FAC |
| BOD, Carbonaceous 5 day, 20C | mg/L | Max | 6.25 | Monthly Average | 62-600.740(2)(b)2 FAC |
| BOD, Carbonaceous 5 day, 20C | mg/L | Max | 7.5 | Weekly Average | 62-600.740(2)(b)3 FAC |
| BOD, Carbonaceous 5 day, 20C | mg/L | Max | 10.0 | Single Sample | 62-600.740(2)(b)4 FAC |
| Solids, Total Suspended | mg/L | Max | 5.0 | Annual Average | 62-600.430(1)(b) FAC |
| Solids, Total Suspended | mg/L | Max | 6.25 | Monthly Average | 62-600.740(2)(b)2 FAC |
| Solids, Total Suspended | mg/L | Max | 7.5 | Weekly Average | 62-600.740(2)(b)3 FAC |
| Solids, Total Suspended | mg/L | Max | 10.0 | Single Sample | 62-600.740(2)(b)4 FAC |
| Coliform, Fecal | #/100mL | Max | 200 | Monthly Geometric Mean | 62-600.640(5)(a)2 FAC |
| Coliform, Fecal | #/100mL | Max | 200 | Annual Average | 62-600.640(5)(a)1 FAC |
| Coliform, Fecal | #/100mL | Max | 400 | 90th Percentile | 62-600.640(5)(a)3 FAC |
| Coliform, Fecal | #/100mL | Max | 800 | Single Sample | 62-600.640(5)(a)4 FAC |
| Coliform, Fecal | #/100mL | Max | 200 | Monthly Geometric Mean | 62-600.640(5)(a)2 FAC |
| Coliform, Fecal | #/100mL | Max | 200 | Annual Average | 62-600.640(5)(a)1 FAC |
| Coliform, Fecal | #/100mL | Max | 400 | 90th Percentile | 62-600.640(5)(a)3 FAC |
| Coliform, Fecal | #/100mL | Max | 800 | Single Sample | 62-600.640(5)(a)4 FAC |
| Enterococci | #/100mL | Max | 35 | Monthly Geometric Mean | 62-302.530 FAC |
| Enterococci | #/100mL | Max | 130 | 90th Percentile | 62-302.530 FAC |
| pH | s.u. | Min | 6.5 | Single Sample | 62-600.430, 62-302.530(52) & 62-650 FAC |
| pH | s.u. | Max | 8.5 | Single Sample | 62-600.430, 62-302.530(52) & 62-650 FAC |

| Parameter | Units | Max/ Min | Limit | Statistical Basis | Rationale |
|---|---|---|---|---|---|
| Chlorine, Total Residual (For Disinfection) | mg/L | Min | 0.5 | Single Sample | 62-600.440(5)(c) FAC |
| Chlorine, Total Residual (For Disinfection) | mg/L | Min | 0.5 | Single Sample | 62-600.440(5)(c) FAC |
| Chlorine, Total Residual (For Dechlorination) | mg/L | Max | 0.01 | Single Sample | 62-600.440(2) & 62-302.530(18) FAC |
| Nitrogen, Total | mg/L | Max | 3.0 | Monthly Average | 62-650 FAC |
| Nitrogen, Total | mg/L | Max | 4.5 | Weekly Average | 62-600.740(2)(b)3. FAC |
| Nitrogen, Total | mg/L | Max | 6.0 | Single Sample | 62-600.740(2)(b)4. FAC |
| Phosphorus, Total (as P) | mg/L | Max | 1.0 | Monthly Average | 62-650 FAC |
| Phosphorus, Total (as P) | mg/L | Max | 1.5 | Weekly Average | 62-600.740(2)(b)3. FAC |
| Phosphorus, Total (as P) | mg/L | Max | 2.0 | Single Sample | 62-600.740(1)(b)2.c. FAC |
| Oxygen, Dissolved (DO) | mg/L | Min | 4.0 | Single Sample | 62-650 FAC |
| Nitrogen, Total | lb/yr | Max | 54831 | Annual Total | |
| Nitrogen, Total | lb/yr | Max | Report | Monthly Total | |
| Phosphorus, Total (as P) | lb/yr | Max | 18278 | Annual Total | |
| Phosphorus, Total (as P) | lb/yr | Max | Report | Monthly Total | |
| Acute Whole Effluent Toxicity, 96 Hour LC50 (Ceriodaphnia dubia) | percent | Min | 100 | Single Sample | 62-302.200(1), 62-302.500(1)(a)4 & 62-4.241(1)(a) FAC |
| Acute Whole Effluent Toxicity, 96 Hour LC50 (Cyprinella leedsi) | percent | Min | 100 | Single Sample | 62-302.200(1), 62-302.500(1)(a)4 & 62-4.241(1)(a) FAC |
| Dichlorobromomethane | ug/L | Max | 100 | Annual Average | 62-302.530(35)(b)5 FAC |
| Enterococci | #/100mL | Max | 35 | Monthly Geometric Mean | 62-302.500(1)(a)6. and 40 CFR Part 131.41 |
| Enterococci | #/100mL | Max | 104 | Single Sample | 62-302.500(1)(a)6. and 40 CFR Part 131.41 |

Because there is no established relationship between fecal coliform and enterococci bacteria, limitations based on both the disinfection requirements for fecal coliform from Rule 62-600.440, F.A.C., and based on the bacteriological water quality standards for enterococci for discharges to Class III predominately marine waters under Rule 62-302.530, F.A.C., have been included in the permit.

In addition to the specified limits in Condition I.A.1., the monthly average effluent concentration for carbonaceous biochemical oxygen demand (5-day) and total suspended solids shall not exceed 15% of the respective influent values (i.e., 85% removal).

A mixing zone for dichlorobromomethane (DCBM) has been approved in accordance with DEP permit file number: FL0020532-012-DW1P and is described as a rectangle centered along the diffuser with a mixing zone of 539 square meters.

Original effluent limitations were based on a Level II WQBEL titled "Halifax River Documentation, Water Quality Based Effluent Limitations," Vol. 2, No. 106, Water Quality Technical Series which was finalized by Wayne Magley and Linda Lakes on August 1, 1990. The WQBEL did not specify TSS limits. The annual effluent limitations for $CBOD_5$ TSS, TN and TP are Advanced Wastewater Treatment (AWT) limits, which are more stringent than the WQBEL. These limits were requested by the applicant during a previous permit renewal and have been included in all permits since then. The Waste Load allocation (WLA) for the Ormond Beach WRF discharge that was included in the 2013 Total Maximum Daily Load (TMDL) Report for the Halifax River replaced the original WQBEL limits. However, the TMDL document incorrectly stated the nitrogen concentration limit for the discharge to surface waters at 6.0 mg/L instead of the correct 3.0 mg/L concentration. **Backsliding is not permitted by EPA and the information was incorrect; therefore, the WLA remains at 54,831 lbs/yr (not 109,666 lbs/yr as stated in the TMDL final report.)** The concentration limits for $CBOD_5$ remain as stated in the previous permit. Although this segment of the Halifax River is also impaired for coliforms, the Department wastewater permit limits for fecal coliforms by rule are equivalent to the water quality standard for fecal coliform and therefore the discharge is not considered to be contributing to the coliform impairment.

The waste load allocations for this facility remain as follows:

| Parameter | Mass Loading (Lbs./year) |
|---|---|
| CBOD5 | 182,865 (based on 5 mg/L annual average) |
| Total Nitrogen | 54750 (based on 3 mg/L annual average) |
| Total Phosphorus | 18278 (based on 1 mg/L annual average) |

In previous permits, these limits were reported in lb/day; at 501, 150, and 50 for CBOD, TN and TP, respectively. The most recent permit required monthly total and cumulative total, for all months through the reporting month, for a given calendar year - January thru December – and is continued in this permit. The mass load limits are based on a calendar year. Basic level disinfection for the surface water discharge is required, as in the two previous permits, and is continued in this permit.

The minimum Dissolved Oxygen (DO) level of 2.0 mg/L in the earlier permits was established by the WQBEL document. However, on September 9, 2013, EPA approved revisions to Florida's criteria for DO. The revision also allowed a single sample maximum limit that meets the criteria under all conditions to be proposed by the applicant. The permittee proposed a single sample minimum DO of 4.0 mg/L. The saturation limit for oxygen in this segment of Halifax River at 60 F -the assumed minimum temperature of the effluent - would be 9.85 mg/L. Based on this value, the 38% daily average would be 4.0 mg/L, therefore, this has been established as the DO limit.

Technology based effluent limitations (TBELs) are minimum waste treatment requirements based on treatment technologies for reducing discharges of pollutants into receiving waters. TBELs are established, for domestic wastewater facilities, by state rule and statute in Chapters 62-600, 62-610, 62-611, 62-620, F.A.C., and Section 403.086, F.S.; they may also be developed in accordance with best professional judgment. TBELs are included in the permit for the following pollutants of concern:

| Parameter | Units | Monitoring Location | Monitoring Group |
|---|---|---|---|
| Flow | MGD | FLW-1 | D-001 |
| Flow | MGD | FLW-6 | D-001 |
| Chlorine, Total Residual (For Disinfection) | mg/L | EFA-1 | D-001 |
| Chlorine, Total Residual (For Disinfection) | mg/L | EFA-2 | D-001 |

Water quality based effluent limitations (WQBELs) are effluent limitations, which may be more stringent than a technology based effluent limitation, that have been determined necessary by the Department to ensure that water quality standards in a receiving body of water will not be violated. WQBELs are developed in accordance with Chapter 62-650, F.A.C., and are based on the characteristics of the discharge, the receiving water characteristics, and the criteria and standards in Chapters 62-4, 62-302, and the 62-600 series, F.A.C.; they may also be developed based on Total Maximum Daily Load (TMDL) allocations adopted in Chapter 62-304, F.A.C., or allocations developed as part of a Basin Management Action Plan (BMAP) or a Reasonable Assurance Plan (RAP). WQBELs are included in the permit for the following pollutants of concern:

| Parameter | Units | Monitoring Location | Monitoring Group |
|---|---|---|---|
| BOD, Carbonaceous 5 day, 20C | mg/L | EFD-1 | D-001 |
| Solids, Total Suspended | mg/L | EFD-1 | D-001 |
| Coliform, Fecal | #/100mL | EFA-1 | D-001 |
| Coliform, Fecal | #/100mL | EFA-2 | D-001 |
| Enterococci | #/100mL | EFD-1 | D-001 |
| pH | s.u. | EFD-1 | D-001 |
| Chlorine, Total Residual (For Dechlorination) | mg/L | EFD-1 | D-001 |
| Nitrogen, Total | mg/L | EFD-1 | D-001 |
| Phosphorus, Total (as P) | mg/L | EFD-1 | D-001 |
| Oxygen, Dissolved (DO) | mg/L | EFD-1 | D-001 |
| Nitrogen, Total | lb/yr | EFD-1 | D-001 |
| Phosphorus, Total (as P) | lb/yr | EFD-1 | D-001 |
| Dichlorobromomethane | ug/L | EFD-1 | D-001 |
| Enterococci | #/100mL | EFD-1 | D-001 |

Pollutants of concern were identified for WQBEL development based on an evaluation of all available information, including a characterization of the pollutants that may be discharged, fifth year inspection data, the sources of pollutants, existing controls on pollutants, available dilution, background pollutant levels in the receiving waters, and the toxicity of pollutants.

Unless otherwise noted, effluent limitations were developed by applying water quality criteria at the end of pipe.

Effluent limitations were determined based on an evaluation of the impact of the discharge on receiving water bodies. This evaluation was conducted in accordance with the TMDL process described in Rule 62-304, F.A.C. For each effluent limitation included in the permit, technology and water quality-based limitations were compared and the most stringent limitation was selected. The current effluent nutrient loading limits were established in the finalized Halifax River TMDL Report (dated July 1, 2013) and meet the Numeric Nutrient Criteria for the receiving water body.

This facility has provided reasonable assurance that the discharge will not adversely affect the designated use of the receiving water. Fifth year inspection data, as well as all other available data, have been evaluated in accordance with the Department's reasonable assurance procedures to ensure that no limits other than those included in this permit are needed to maintain Florida water quality standards. The proposed effluent limitations will be achieved during the period beginning on the issuance date and lasting through the expiration date of the permit. A Water Quality Based Effluent Limit (WQBEL) Level I Analysis was performed for this permit renewal. The facility has provided reasonable assurance that, if all conditions of this permit are met, the discharge will not adversely affect the designated use of the receiving water.

This facility was previously required to conduct chronic toxicity testing for this discharge because it was used on a regular basis. The discharge has become intermittent due to the expansion of the Public Access Reuse System. Therefore, acute toxicity testing is now included in the permit (96-hour LC50 with not less than 100% effluent.) with provisions for conducting a shorter duration sampling event due to the short-term nature of their discharges.

This facility is authorized to direct reclaimed water to Reuse System R-001, a slow-rate public access system, based on the following:

| Parameter | Units | Max/ Min | Limit | Statistical Basis | Rationale |
|---|---|---|---|---|---|
| Flow | MGD | Max | 10.0 | Annual Average | 62-600.700(2)(b) & 62-610.810(5) FAC |

| Chloride (as Cl) (Blend) | mg/L | Max | Report | Single Sample | 62-610.865(8)(e) FAC |
| Solids, Total Dissolved (TDS) (Blend) | mg/L | Max | Report | Single Sample | 62-610.865(8)(e) FAC |

Monthly monitoring of the effluent for Total Nitrogen and Total Phosphorus has been retained in this permit, as allowed by Rule 62-601.300(6), FAC, because the facility is located in an impaired water basin.

Other Limitations and Monitoring Requirements:

| Parameter | Units | Max/ Min | Limit | Statistical Basis | Rationale |
|---|---|---|---|---|---|
| Flow (total through plant) | MGD | Max | 8.0 | Annual Average | 62-600.700(2)(b) FAC |
| | | Max | Report | Monthly Average | 62-600.700(2)(b) FAC |
| | | Max | Report | Quarterly Average | 62-600.700(2)(b) FAC |

| Parameter | Units | Max/ Min | Limit | Statistical Basis | Rationale |
|---|---|---|---|---|---|
| Percent Capacity, (TMADF/Permitted Capacity) x 100 | percent | Max | Report | Monthly Average | 62-600.405(4) FAC |
| BOD, Carbonaceous 5 day, 20C (Influent) | mg/L | Max | Report | Single Sample | 62-600.660(1) FAC |
| Solids, Total Suspended (Influent) | mg/L | Max | Report | Single Sample | 62-600.660(1) FAC |
| Monitoring Frequencies and Sample Types | - | - | - | All Parameters | 62-600 FAC & 62-699 FAC and/or BPJ of permit writer |
| Sampling Locations | - | - | - | All Parameters | 62-600, 62-610.412, 62-610.463(1), 62-610.568, 62-610.613 FAC and/or BPJ of permit writer |

4. IMPAIRMENT STATUS OF RECEIVING WATERS

Under Section 303(d) of the Clean Water Act, the Department is required to submit lists of impaired waters to EPA. The receiving water body for this discharge is listed on the 303(d) list. This segment of the Halifax River was included on the State of Florida 1998 303d planning list and has an approved TMDL for nutrients. The approved TMDL for the Halifax River includes the Ormond Beach discharge and is based on the WQBEL document. Since the TMDL has been established only for nutrients and not coliforms, which is also listed as a parameter of concern for this segment of the Halifax River, the following is included as a condition of this permit: Coliforms and nutrients are listed as parameters of concern on the 1998 303d planning list for this segment of the Halifax River. This discharge is in compliance with the approved Total Maximum Daily Load (TMDL) for the Halifax River for nutrients. The Department may develop a TMDL for coliforms during the life of this permit. Once a TMDL has been established and adopted by rule, the Department shall revise this permit to incorporate the final findings of the TMDL, pursuant to Rule 62-620.325, Florida Administrative Code. This may include revised or new limits for coliforms.

5. DISCUSSION OF CHANGES TO PERMIT LIMITATIONS

The current wastewater permit for this facility FL0020532-023-DW1P expires on March 5, 2025. The following parameters are not included in the permit for monthly monitoring because they have been determined to not have the reasonable potential to exceed the water quality standard: Chlorodibromomethane (CDBM), copper, silver and zinc have been below the water quality standards at levels that provide assurance that there is no reasonable potential to exceed the standard. TTHMs and Bis(2-ethlhexyl) phthalate have been added to the GWMP because they were present in the annual reclaimed water scan.

6. BIOSOLIDS MANAGEMENT REQUIREMENTS

Biosolids generated by this facility may be transferred to a DEP approved biosolids treatment facility (BTF) or disposed of in a Class I solid waste landfill.

See the table below for the rationale for the biosolids quantities monitoring requirements.

| Parameter | Units | Max/ Min | Limit | Statistical Basis | Rationale |
|---|---|---|---|---|---|
| Biosolids Quantity (Transferred) | dry tons | Max | Report | Monthly Total | 62-640.650(5)(a)1. FAC |
| Biosolids Quantity (Landfilled) | dry tons | Max | Report | Monthly Total | 62-640.650(5)(a)1. FAC |
| Monitoring Frequency | | All Parameters | | | 62-640.650(5)(a) FAC |

7. GROUND WATER MONITORING REQUIREMENTS

Ground water monitoring requirements have been established in accordance with Chapters 62-520, 532, 600, 610, and 620, F.A.C.

8. PERMIT SCHEDULES

A schedule is included in the wastewater permit to complete the conversion of the RW EQ tank to a supplemental chlorine contact chamber. Approximately one year is anticipated for completion of the conversion, but it should be implemented as soon as possible

9. INDUSTRIAL PRETREATMENT REQUIREMENTS

The permittee has an active, approved industrial pretreatment program. The permit includes standard conditions requiring implementation and enforcement of the existing program.

10. ADMINISTRATIVE ORDERS (AO) AND CONSENT ORDERS (CO)

This permit is not accompanied by an AO, and the permittee has not entered into a CO with the Department that affects this permit.

11. REQUESTED VARIANCES OR ALTERNATIVES TO REQUIRED STANDARDS

No variances were requested for this facility.

12. THE ADMINISTRATIVE RECORD

The administrative record including application, draft permit, fact sheet, public notice (after release), comments received and additional information is available on the Department's electronic filing system:
https://depedms.dep.state.fl.us:443/Oculus/servlet/shell?command=hitlist&[freeText=]&[folderName=]&[profile=Permitting_Authorization]&[creator=]&[entityType=any]&[createdDateTo=]&[catalog=38]&[searchBy=Profile]&[sortBy=Document+Date]&[createdDate=]&{County=_EQ_VOLUSIA}&{District=_EQ_CD}&{Facility-Site+ID=_EQ_FL0020532}&{Document+Date=_RG_(06-01-2019,02-13-2020)}&{Document+Type=_EQ_PERMIT+APPLICATION+RELATED}&{Permit+Type=_EQ_DW+-+DOMESTIC+WASTEWATER+FACILITY}&{Facility+Type=_LK_DOMESTIC+WASTEWATER}

13. PROPOSED SCHEDULE FOR PERMIT ISSUANCE

| | |
|---|---|
| Draft Permit and Public Notice to Applicant and EPA | February 14, 2020 |
| Public Comment Period | Beginning: February 17, 2020<br>Ending: March 16, 2020 |
| Proposed Permit to EPA | March 18, 2020 |
| Notice of Intent to Issue | April 10, 2020 |
| Notice of Permit Issuance | May 8, 2020 |

14. DEP CONTACT

Additional information concerning the permit and proposed schedule for permit issuance may be obtained during normal business hours from:

Florida Department of Environmental Protection
Permitting and Wastewater Cleanup Program
Central District Office
3319 Maguire Blvd
Suite 232
Orlando, FL 32803-3767

Telephone No.: 407-897-4100

# PATHOGEN MONITORING

## Part I - Instructions

1. Completion of this report is required by Rules 62-610.463(4), 62-610.472(3)(d), 62-610.525(13), 62-610.568(11), 62-610.568(12), and 62-610.652(6)(c), F.A.C., for all domestic wastewater facilities that provide reclaimed water to certain types of reuse activities. The schedule for sampling and reporting shall be in accordance with the permit for the facility. If a schedule for sampling or re-sampling is not included in the permit, the following schedule shall apply:

   a. Routine Sampling:

      If sampling is required once every two years, this report shall be submitted on or before November 28 of each even numbered year (2006, 2008, 2010, etc.).

      If sampling is required once every five years, this report shall be submitted with the application for permit renewal.

      If sampling is required quarterly, this report shall be submitted on or before February 28, May 28, August 28, and November 28 of each year.

   b. Subsequent Re-Sampling:

      If subsequent re-sampling is required by Item 9 in Part I of this form, this form shall be submitted for the subsequent re-sampling(s) in accordance with the schedule established in Item 9 in Part I of this form.

2. Submit one copy of this form and a copy of the laboratory's final report for the analysis of *Giardia* and *Cryptosporidium* to each of the following two addresses:

   a. The appropriate DEP district office (attention Domestic Wastewater Program). Addresses for the DEP district offices are available at www.dep.state.fl.us/secretary/dist/default.htm.

   b. DEP Water Reuse Coordinator
      Mail Station 3540
      2600 Blair Stone Road
      Tallahassee, Florida 32399-2400

3. Please type or print legibly.

4. In Part II, Items 7 through 12 need to be completed only if this is the first submittal of this report, if the information in Items 7 through 12 has changed since the last submittal, or if the information in any of these questions has not been previously provided.

5. Part III is to be used when sampling for *Giardia* and *Cryptosporidium* at the treatment plant. Part III is also to be used when sampling for *Giardia* and *Cryptosporidium* in a supplemental water supply (see Rule 62-610.472, F.A.C.).

6. For each sample, record the sample volume obtained in liters.

7. For *Giardia*, record the concentrations in cysts per 100 liters. For *Cryptosporidium*, record the concentrations in oocysts per 100 liters. Sufficient sample volumes shall be collected and processed such that the detection limit is no greater than 5 cysts or oocysts per 100 liters. Detection levels on the order of 1 cyst or oocyst per 100 liters are recommended. If an observation is less than the detection limit, make an entry in the form "<2" (where 2 per 100 liters is the detection limit in this example). The actual detection limit will be dictated by the volumes of sample obtained, filtered, and processed. Do NOT record nondetectable values as zero.

8. EPA Method 1623 or other approved methods for reclaimed water or nonpotable waters, adjusted appropriately to accommodate the detection limit requirements, shall be used. Methods previously allowed for EPA's Information Collection Rule (ICR) shall not be used. The full requirements of the approved method, including quality assurance and quality control, are to be met. Quality assurance and sampling requirements in Chapter 62-160, F.A.C., shall apply.

   Two concentrations of *Giardia* and *Cryptosporidium* shall be recorded on Part III of this form:

   a. Total cysts and oocysts shall be enumerated using EPA Method 1623 or other approved methods.

   b. Potentially viable cysts and oocysts shall be enumerated using the DAPI staining technique contained in EPA Method 1623 or similar enumeration techniques included in other approved methods. Cysts and oocysts that are stained DAPI positive or show internal structure by D.I.C. shall be considered as being potentially viable. If the laboratory reports separate values for DAPI positive and for cysts or oocysts having internal structure, the larger of the two concentrations will be reported as being potentially viable.

9. If the number of potentially viable cysts of *Giardia* reported exceeds 5 per 100 liters, a subsequent sample shall be taken and analyzed using EPA Method 1623 or other approved methods and reported using this form. If the number of potentially viable oocysts of *Cryptosporidium* reported exceeds 22 per 100 liters, a subsequent sample shall be taken and analyzed using EPA Method 1623 or other approved methods and reported using this form. This subsequent sample shall be collected within 90 days of the date the initial sample was taken, analyzed for both *Giardia* and *Cryptosporidium*, and the results of the subsequent analysis shall be submitted to DEP using this form within 60 days of sample collection.

10. Rule 62-160.300, F.A.C., requires that all laboratories generating environmental data for submission to the DEP shall hold certification from the Department of Health's (DOH) Environmental Laboratory Certification Program (ELCP). Certification by the ELCP for analysis of *Giardia* and *Cryptosporidium* using EPA Method 1623 for non-potable waters is required. If other approved methods are used, certification by the ELCP is required for the specific method and for the test matrix. Lists of certified laboratories can be found at www.dep.state.fl.us/labs/cgi-bin/aams/index.asp

11. Samples shall be collected during peak flow periods (normally between the hours of 8:00 a.m. and 6:00 p.m.).

12. Recognizing that concentrations of these pathogens generally increase during the late summer through fall period, it is recommended that utilities sample during the August through October time period.

13. If the wastewater treatment facility uses chlorination for disinfection, samples obtained for analysis of *Giardia* and *Cryptosporidium* shall be dechlorinated.

14. When sampling at the treatment facility, obtain a grab sample for total suspended solids (TSS) that is representative of the water leaving the filters at the treatment facility during the period when pathogen samples are being obtained. In addition, record the highest turbidity and the lowest total chlorine residual observed during the period when pathogen samples are being obtained.

15. When sampling a supplemental water supply, obtain a grab sample for total suspended solids (TSS) that is representative of the surface water or treated stormwater as it is added to the reclaimed water system. This TSS sample shall be taken during the period when pathogen samples are being obtained. In addition, record the lowest total chlorine residual observed during the period when pathogen samples are being obtained.

## Part II - General Information

1. DEP wastewater facility identification number: **FL0020532**

   Wastewater facility name: Ormond Beach WRF

   Permittee name: City of Ormond Beach

2. Person completing this form:

   Name: _____

   Telephone: (_____)_____

   Email address: _____

3. Sampling and analysis:

   Date samples were taken: _____

   Organization collecting the samples: _____

   Was the sample dechlorinated in the field? ☐ Yes ☐ No

   Was the sample refrigerated or kept on ice during shipment to the laboratory? ☐ Yes ☐ No

   Date samples delivered to laboratory: _____

   Date analytical work was done: _____

   Laboratory doing the analysis: _____

   Laboratory's DOH Identification Number: _____

   Approved method used:

   ☐ EPA Method 1623

   ☐ Other approved method: _____

   Contact person at the laboratory: _____

   Email address of the lab contact person: _____

4. Is this the first time that this form has been submitted for the facility?

   ☐ Yes [Please complete Questions 7 through 16.]

   ☐ No [Proceed to Question 5.]

5. Is this a report of "subsequent re-sampling" required by Item 9 in Part I of this form based on concentrations of potentially viable cysts or oocysts in a previous sampling?

   ☐ No [Proceed to Question 6.]

   ☐ Yes [Attach a description of any facility or operational changes made to the treatment facilities since the time of the previous sampling and proceed to Question 6.]

6. Has the information requested in Questions 7 through 12 (below) changed since the last submittal of this form?

   ☐ Yes [Please complete Questions 7 through 16.]

   ☐ No [Proceed to Questions 13 through 16 of Part II of this form. You do not need to complete Questions 7 through 12.]

7. Type of secondary treatment system:

   ☐ Conventional activated sludge ☐ Extended aeration

   ☐ Contact stabilization ☐ Biological nutrient removal (such as Bardenpho)

   ☐ Other: _____

8. Does this treatment facility nitrify (convert ammonia nitrogen to nitrate)? ☐ Yes ☐ No

9. Filter type:

   ☐ Deep bed, single media ☐ Deep bed, multiple media

   ☐ Shallow bed, automatic backwash ☐ Upflow (including Dynasand)

   ☐ Slow rate sand filter ☐ Diatomaceous earth filter

   ☐ Fabric filter ☐ Cartridge filter

   ☐ Membranes (microfiltration, ultrafiltration, membrane bioreactor, reverse osmosis)

   ☐ Other: _____

10. Filter Media (complete for each type of media provided):

    Top layer of media: Media type: _____

    Effective size: _____ mm

    Uniformity coefficient: _____

    Bed depth: _____ inches

Middle layer of media: Media type: _____

Effective size: _____ mm

Uniformity coefficient: _____

Bed depth: _____ inches

Bottom layer of media: Media type: _____

Effective size: _____ mm

Uniformity coefficient: _____

Bed depth: _____ inches

11. Filter backwash water:

☐ Backwash water is returned to the headworks of the treatment plant.

☐ Backwash water is returned to the aeration basin.

☐ Other. Please describe: _____

12. Disinfection system:

☐ Chlorination, gas ☐ Hypochlorite

☐ Chlorine dioxide ☐ Chlorination, other _____

☐ Ultraviolet ☐ Ozone

☐ Other: _____

13. Is chlorine added before the filters? ☐ No ☐ Yes Dose: _____ mg/L

14. During the period that samples were taken, did you add a coagulant, coagulant aid, polyelectrolyte, or other chemical to enhance filtration?

☐ No

☐ Yes. Please list the chemicals being added and their dose.

Chemical 1 - Name: _____ Dose: _____ mg/L

Chemical 2 - Name: _____ Dose: _____ mg/L

Chemical 3 - Name: _____ Dose: _____ mg/L

15. Wastewater treatment plant permitted capacity: _____ MGD

16. Wastewater flow being treated at the time samples were collected: _____ MGD

## PART III - PATHOGEN MONITORING REPORT

**FACILITY ID:** FL0020532

| *Cryptosporidium*, potentially viable oocysts * PARM Code VCRYP | | | | potentially viable oocysts/100 L |
| Supplemental Water Supply (surface water or stormwater): After Treatment & Disinfection Monitoring Site No. | | | | |
| TSS PARM Code 00530 | | | | mg/L |
| Total Chlorine Residual PARM Code 50060 | | | | mg/L |
| Volume Collected PARM Code 71994 | | Liters | | |
| *Giardia* (total count) * PARM Code GIARD | | | | total cysts/100 L |
| *Giardia*, potentially viable cysts * PARM Code VGIAR | | | | potentially viable cysts/100 L |
| *Cryptosporidium*, total count * PARM Code CRYPT | | | | total oocysts/100 L |
| *Cryptosporidium*, potentially viable oocysts * PARM Code VCRYP | | | | potentially viable oocysts/100 L |

* Data entries must be made for both total and potentially viable cysts and oocysts.

## PART IV - CERTIFICATION

I certify under penalty of law that I have personally examined and am familiar with the information submitted herein; and based upon my inquiry of those individuals immediately responsible for obtaining the information, I believe the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment.

ADDENDEM NO. 2

June 4, 2020

**TO:** Prospective Bidders and Others Concerned.

**SUBJECT:** Addendum # 2 **BID 2020-23 LABORATORY TESTING SERVICES**

**NOTE:** This addendum consists of the following documents. It is the Contractor's responsibility to ensure that all documents have been downloaded and reviewed prior to submitting bids on the work.

**TO ALL BIDDERS**: You are requested to make all changes and/or additions contained in this Addendum to the Bidding Documents. Failure to acknowledge this Addendum in Proposal may result in rejection of bid.

**The Project Manual shall be amended as follows:**

**Item 1:** The deadline for questions to be submitted originally stated as June 1, 2020 at 5:00 p.m. has now been extended to June 8, 2020 at 5:00 p.m.

**Item 2:** The bid opening originally scheduled for June 10, 2020 at 2:00 p.m. has now been extended to June 17, 2020 at 2:30 p.m.

**Item 3:** Please delete "Page 16R of 33" from Addendum No. 1 and replace it with "Page 16R2 of 33."

**Item 4:** The following additional information is being provided in response to inquiries received.

**Question 1**: Can I please have some clarifications on the Addendum 1 answers? Specifically, Question 1, Question 15 and Question 16, the answer said that Asbestos and dioxin are not part of the permit. I see dioxin in the tables of the permit for RWS-A, RWS-B, RWS-C, RWS-G. Is this not for the Reuse Effluent Analysis section of the bid sheet on page 15R of 33?
**Answer 1:** YES, contrary to statements issued in Addendum No. 1, Dioxin is in fact included and required in accordance with the permit. To assist bidders, the relevant direct excerpt of the permit is provided herewith, and states the following:

> During the period of operation authorized by this permit, reclaimed water or effluent shall be monitored annually for the primary and secondary drinking water standards contained in Chapter 62-550, F.A.C., (except for asbestos, total coliform, color, odor, and residual disinfectants). These monitoring results shall be reported to the Department annually on the RWS-A DMR. During years when a permit is not renewed, a certification stating that no new non-domestic wastewater dischargers have been added to the collection system since the last reclaimed water or effluent analysis was conducted may be submitted with the signed DMR in lieu of performing the analysis. When such a certification is submitted with the DMR, monitoring not required this period should be noted on the DMR. The annual reclaimed

water or effluent analysis report, and certification if applicable, shall be completed and submitted in a timely manner so as to be received by the Department at the address identified on the DMR by January 28 of each year. Approved analytical methods identified in Rule 62-620.100(3) (j), F.A.C., shall be used for the analysis. If no method is included for a parameter, methods specified in Chapter 62-550, F.A.C., shall be used. *[62-600.660(2) and (3) (d)][62-600.680(2)][62-610.300(4)]*

**Question 2:** If the pricing sheet will not be altered, how will we decipher weekend work costs from weekday costs for specific tests and courier?

**Answer 2**: The pricing sheet, page 16R2 of 33, has been altered and made part of this addendum. A line item has been added beneath Fecal Coliform entitled “Fecal Coliform Additional Costs for Weekend Work” with a unit quantity of 104.

**In all other respects, except as specifically stated herein, the subject BID 2020-23 LABORATORY TESTING SERVICES remains unchanged.**

**THIS ADDEDNDUM MUST BE ACKNOWLEDGED AND RETURNED WITH YOUR BID**

ADDENDEM NO. 3

June 9, 2020

**TO:** Prospective Bidders and Others Concerned.

**SUBJECT:** Addendum # 3 **BID 2020-23 LABORATORY TESTING SERVICES**

**NOTE:** This addendum consists of the following documents. It is the Contractor's responsibility to ensure that all documents have been downloaded and reviewed prior to submitting bids on the work.

**TO ALL BIDDERS**: You are requested to make all changes and/or additions contained in this Addendum to the Bidding Documents. Failure to acknowledge this Addendum in Proposal may result in rejection of bid.

**The Project Manual shall be amended as follows:**

**Item 1:** The following additional information is being provided in response to inquiries received.

**Question 1**: Can we provide the large documents, such as the Quality Manuals, PT studies, audits and certifications on a CD or thumb drive only?
**Answer 1:** To assist bidders and reduce replication costs, the vendors shall have the option of supplying a paper copy of the "large documents" listed in the **Scope of Work, 2. Bid Requirements/ Information to be Provided with the Bidder's Submission,** as appearing on pages 11R and 12R, Item "a" and Items "c" through "k" inclusive. Bidders shall still submit a paper copy of Item 2.b, which states "A price list must be submitted with your Bid showing individual parameter prices (for all listed parameters), method numbers, and method detection limits. Costs shall be firm for the duration of the contract." While bidders have the option of supplying a paper copy of the items as noted herewith, this addendum does not relieve the bidder of supplying the required documents in digital format. In addition, should the bidder choose to omit submittal of certain documents in paper format, then it shall be the responsibility of the bidder to provide one paper copy of a "Table of Contents" or "List of Attachments" or "List of Exhibits" or other appropriately titled paper submittal that clearly identifies and lists each of the documents that are only provided in a digital format.

**Question 2:** For the Quality Manual can we mark it as a confidential document and only the city of Ormond Beach will have access to it?
**Answer 2**: No, upon submission of the bid documents, the Quality Manual shall be considered a public document and will not be considered confidential. We are not aware of any exemption which would cause that information to be confidential. If vendor would like to provide something to the contrary, we can take a look at it.

**In all other respects, except as specifically stated herein, the subject BID 2020-23 LABORATORY TESTING SERVICES remains unchanged.**

**THIS ADDEDNDUM MUST BE ACKNOWLEDGED AND RETURNED WITH YOUR BID**

**COMPANY NAME: _____**

**SIGNATURE: _____DATE:_____**

TO ALL BIDDERS: You are requested to make all changes and/or additions contained in this Addendum to the Bidding Documents. Failure to acknowledge this Addendum in Proposal may result in rejection of bid.

The foregoing changes are hereby incorporated into the Bidding Contract Documents for CITY OF ORMOND BEACH– BID 2020-23 LABORATORY TESTING SERVICES, for the City of Ormond Beach.

**CITY MANAGER**
**MEMORANDUM**

**To:** The Honorable Mayor Partington and City Commissioners

**Through:** Joyce A. Shanahan, City Manager

**From:** Shawn Finley, Public Works Director

**Date:** July 28, 2020

**Subject:** Award of Laboratory Testing Services Bid No. 2020-23

**Commission Goal:** Water Quality and Environment - Other

## Introduction

This is a request to award a contract to Pace Analytical Services, Incorporated (hereafter referred to as "Pace") to perform water and wastewater facility sample testing and lab analysis for assessing plant performance, and for compliance verification purposes with state and federal permit requirements for various constituents.

## Background

Laboratory services are required to perform testing on ground water, potable water, sanitary sewer influent, effluent, reclaimed water and biosolids to verify compliance with state and federal requirements for various constituents. The City's current contract for lab services was originally bid in 2015 and was awarded to Pace. The current contract will expire on July 28, 2020. Having been in place for the maximum five years, the existing contract is not renewable.

The City solicited bids for testing services from qualified laboratories for one year periods, while providing an annual renewal clause, thereby making the contract effective for up to a maximum period of five years. Bids were received from two laboratories, ranging from $61,418 to $69,805. A copy of the bid tabulation sheet recorded at the June 17, 2020, bid opening is attached for reference.

## Discussion

Staff reviewed the bids and identified the lowest responsive bid to be submitted from Pace in the amount of $61,418. The City is currently contracted with Pace and is satisfied with the results, quality control and service provided from this laboratory. In addition, Pace provided all required supplementary information in its bid submittal. Pace is a local business and is located at 8 Tower Circle in the City's Airport Business Park.

## Budget Impact

The total budgeted annual cost for laboratory services is $100,000 in the FY 2019-2020 operating budget. Funding is split between Water Treatment in an amount of $15,000 and Wastewater Treatment in an amount of $85,000.

## Citizen Impact

The accurate testing of water and wastewater in accordance with federal and state regulatory guidelines is absolutely essential in order to safely and successfully operate a water utility. Contracting with a knowledgeable, reputable, and experienced vendor ensures that public health, safety, and welfare are safeguarded, ensuring that our water resources are protected for the long term benefit of present and future generations.

## Recommendation

Staff recommends award of Bid No. 2020-23 to the lowest responsive bidder, Pace Analytical Services, Incorporated, in the amount of $61,418 for annual laboratory testing services.

Summary

The purpose of this item is to award the bid for the Ormond Beach Sports Complex (OBSC) Stormwater Retention Expansion, Bid No. 2025-22.

On August 20, 2024, the City Commission approved a work authorization to Upham, Inc. for surveying and Engineering design services related to the expansion of stormwater facilities at the Ormond Beach Sports Complex (OBSC). Many of the baseball and soccer fields at the OBSC have experienced issues following significant rainfall events and have flooded for extended periods of time due to inadequate drainage and a lack of water retention areas. As a result, playing on these fields was suspended, and games were often canceled or postponed. Additionally, the OBSC utilizes surface water as a primary irrigation source. Therefore, additional lake volume would allow for additional irrigation storage that can be utilized to irrigate the fields throughout the entire sports complex.

The final revised storm water management system will provide improved drainage and increased irrigation capacity, resulting in more efficient and reliable use of the fields at OBSC. The bid plans and specifications propose expansion of smaller drainage areas, and further connection of these retention areas into one large pond. The realignment of a 4" sanitary sewer force main, a 9" reclaimed water main, and a 12" water main are included in these plans to allow for the proposed pond expansion. The expanded lake area related to this project is generally away from pedestrian areas and utilizes existing chain link fence to separate the pond from ball field areas; additional wood fencing will be installed to help direct visitors to the Sports Complex from the retention areas.

The bid for this project was structured with a base bid inclusive of all site and utilities work. The

base bid called for all excavated material to remain the property of the City; an alternate was included that allowed bidders to provide a credit to the City for this excavated material.

On May 28, 2025, bids were opened (including base bids with alternate credit). The bids ranged from $870,185 to $2,105,007.65. The lowest bid, including the alternate credit of $400,000 for the sale of , was received from GPS Civil Construction Inc. at $870,185. GPS Civil Construction has successfully completed similar projects for the City and is recommended for this project.

Financial Impact

Funding in the amount of $484,950 was included in the Fiscal Year 2024-25 budget, within Fund 107 - Stormwater. A budget amendment will be required to allocate additional funds towards this project.

Citizen Impact

Increasing the water retention area will increase the playability of fields at the Ormond Beach Sports Complex. Improved storm drainage will allow for fields to drain properly and, as a result, prevent cancellations due to flooding.

**RESOLUTION NO. 2025-115**

A RESOLUTION ACCEPTING THE BID OF GPS CIVIL CONSTRUCTION, INC. REGARDING THE SPORTS COMPLEX STORMWATER RETENTION EXPANSION PROJECT, UNDER BID NO. 2025-22; REJECTING ALL OTHER BIDS; AUTHORIZING THE EXECUTION OF A CONTRACT AND PAYMENT THEREFOR; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS,** the City advertised for bids (Bid No. 2025-22) regarding the Sports Complex stormwater retention expansion project ("Project") in accordance with Section 2-300, *Code of Ordinances,* and

**WHEREAS**, the appropriate City staff members have reviewed the seven (7) bids received and have determined that the bid submitted by GPS Civil Construction, Inc. with a base bid of $1,270,185.00 plus bid alternate #1, a credit of $400,000.00, for a total bid in the amount of $870,185.00 is the lowest responsible and responsive bid (a copy of said bid being attached hereto and incorporated herein by reference), and

**WHEREAS,** the City Manager has certified that funds will be appropriated to the credit of the Stormwater Fund (107) through a budget amendment and will not be appropriated for any other purpose, and

**WHEREAS,** the City Commission concurs in the said determination and recommendation, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE.** The bid submitted by GPS Civil Construction, Inc. to provide services for the Project at a cost not to exceed $870,185.00 is hereby accepted.

**SECTION TWO.** All other bids to provide services for the Project are hereby rejected upon the execution of a contract with GPS Civil Construction, Inc.

**SECTION THREE.** The Mayor and the City Manager are hereby authorized and directed to execute a contract between the City and GPS Civil Construction, Inc. for the performance of the Project at the said price, and to pay the cost therefor from the Stormwater Fund.

**SECTION FOUR.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025.**

PROJECT IDENTIFICATION:
**SPORTS COMPLEX STORMWATER RETENTION EXPANSION**

CONTRACT IDENTIFICATION AND NUMBER: Bid No. 2025-22

THIS BID IS SUBMITTED TO:
(Name and Address of OWNER)

City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174

1. The undersigned BIDDER proposes and agrees, if this Bid is accepted, to enter into an Agreement with OWNER in the form included in the Contract Documents to complete all Work as specified or indicated in the Contract Documents for the Contract Price and within the Contract Time indicated in this Bid and in accordance with the Contract Documents.

2. BIDDER certifies that he has investigated the requirements to do business in the jurisdiction where the project is located, and that he is either qualified to do business or will obtain such prequalification prior to award of the contract.

3. BIDDER accepts all of the terms and conditions of the Instructions to Bidders (Section 00100) including, without limitation, those dealing with the disposition of Bid Security, Public Entity Crimes, and Minority Policies. This Bid will remain open for 30 days after the day of Bid opening. BIDDER will sign the Agreement and submit the Contract security and other documents required by the Contract Documents within ten (10) days after the date of OWNER'S Notice of Award.

4. In submitting this Bid, BIDDER represents, as more fully set forth in the Agreement, that:

(a) BIDDER has examined copies of all the Contract Documents and of the following addenda:

| Date | Number |
|---|---|
| MAY 9, 2025 | #1 |
| MAY 19, 2025 | #2 |
| MAY 21, 2025 | #3 |
| MAY 22, 2025 | #4 |

(receipt of all of which is hereby acknowledged) and also copies of the Advertisement to Bid and the Instructions to Bidders;

(b) BIDDER has examined the site and locality where the Work is to be performed, the legal requirements (federal, state and local laws, ordinances, rules and regulations) and the conditions affecting cost, progress or performance of the Work and has made such independent investigations as BIDDER deems necessary.

(c) This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; BIDDER has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid; BIDDER has not solicited or induced any person, firm or a corporation to refrain from bidding; and BIDDER has not sought by collusion to obtain for himself any advantage over any other Bidder or over OWNER; and

5. BIDDER will complete the Work for the following price(s):

BIDDER acknowledges that the quantities are not guaranteed and final payment will be based on actual quantities determined as provided in the Contract Documents.

BIDDER agrees that the Work will be substantially completed within **150** calendar days after the date when the Contract Time commences to run and completed within **180** calendar days after the date when the Contract Time commences to run.

BIDDER recognizes that time is of the essence to complete this Project and that OWNER will suffer financial loss if the Work is not substantially complete within the time specified above, plus any extensions thereof allowed in accordance with Article 12 of the General Conditions. The BIDDER also recognize the delays, expenses and difficulties involved in proving, in a legal or arbitration proceeding, the actual loss suffered by OWNER if the Work is not substantially complete on time. Accordingly, instead of requiring any such proof, OWNER has determined, and BIDDER agrees to accept that as liquidated damages for delay (but not as a penalty) CONTRACTOR shall pay OWNER **Five Hundred** Dollars **($500.00)** for each calendar day that expires after the time specified above for substantial completion until the Work is substantially complete. After substantial completion, if CONTRACTOR shall neglect, refuse or fail to complete the remaining Work within the time specified above for completion and readiness for final payment or any proper extension thereof granted by OWNER, CONTRACTOR shall pay the OWNER an amount equal to all actual expenses incurred by the OWNER as a direct result of the CONTRACTOR'S negligence, refusal, or failure to so complete the remaining work. In the event the CONTRACTOR is terminated or abandons the work prior to the scheduled date for final completion, the CONTRACTOR may be liable for both liquidated damages attributable to delay and for excess completion costs.

6. The following documents are attached to and made a condition of this Bid:

   (a) Required Bid Security in the form of

   (1) a certified check drawn in favor of the City of Ormond Beach in the amount of 5 percent of the total bid; or

   (2) a Bid Bond in the amount of 5 percent of the total bid.

   (b) Equipment, Material, and Subcontractors List

   (c) All information required by the Trench Safety Act (Part VI, Chapter 553, Florida Statutes).

   (d) Drug Free Workplace Certificate

   (e) Conflict, Non-Conflict of Interest, Litigation Statement

   (f) Local Vendor Preference

   (g) Verification of Employment Status Using E-Verify System

   (h) Affidavit of Compliance F.S. 287.138 Contracting With Foreign Entities of Concern

(i) Human Trafficking Affidavit, Section 787.06, Florida Statutes

7. Communications to the BIDDER concerning this Bid shall be addressed to:

EQUIPMENT AND SUBCONTRACTORS LIST

List the names of the manufacturers whose product is proposed for use. No more than one manufacturer's name shall be inserted for each item of material and/or equipment listed. Failure to list materials and equipment supplier may result in the Bid being rejected as incomplete and nonresponsive. If any Subcontractors are proposed to be used for any portions of the Work, the names, addresses, phone numbers and work classifications of each such Subcontractor must be listed. The failure to list all Subcontractors proposed for the work may result in the Bid being rejected as incomplete and nonresponsive. If more than one manufacturer or subcontractor is listed, selection will be made by the OWNER. If none is listed, those listed as the "Basis for Design" will be used.

Materials and Equipment:

| Item | Supplier |

## TRENCH SAFETY STANDARDS

If this project includes trench excavation in excess of five (5) feet in depth, the following trench safety standards will be in effect during the period of construction of the project:

The Occupational Safety and Health Administration's excavation safety standards, 29 C.F.R.s. 1926.650 Subpart P, and any regulation promulgated there under are hereby incorporated as the standard for this project.

The Bidder hereby certifies that the Contractor performing the trench excavation will comply with the applicable trench safety standards.

The Bidder further certifies that the cost (which is included in his unit cost) of compliance with applicable trench safety standards is:

| ITEM | Estimated Quantity | Units | Unit Price | Total Estimated Price |
|---|---|---|---|---|
| 1. Trench Excavation | 100 | L.F. | $1 | $100 |
| 2. Sheeting/Shoring | _____ | S.F. | _____ | _____ |

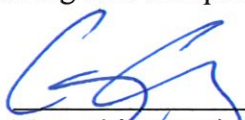
## DRUG-FREE WORKPLACE CERTIFICATION

**Identical Or "Tie" Bids**: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.



2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

3) Give each employee that engages in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5 ) calendar days after such conviction.

5) Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

## LOCAL VENDOR PREFERENCE

The following is taken from the Code of Ordinances, City of Ormond Beach, Chapter 2, Financial Matters, Division 3, Purchasing, Article IX, Section 2-304:

Except where otherwise provided by federal or state law or other funding source restrictions, purchases of goods and services under the Purchasing Code shall give preference to local businesses as follows:

(a) Under a competitive bid solicitation, the City *may* give a local preference in the amount of three percent (3%) of the bid price or $25,000, whichever is less. The bid price shall include not only the base bid price but all alternatives which are part of the bid and actually purchased or awarded.

(b) A *local business* shall mean a vendor that has a valid occupational license issued by the City of Ormond Beach at least one year prior to bid opening, with a physical business address located within the municipal boundaries of the City of Ormond Beach from which the vendor operates or performs business on a day-to-day basis that is a substantial component of the goods or services being offered and has provided a Local Vendor Affidavit of Eligibility at the time the bid is submitted.

(c) A *Local Vendor Affidavit of Eligibility* shall accompany the bid submittal to be considered valid and shall include, but not be limited to, the following information:
   (1) A physical business and location address;
   (2) A copy of current City of Ormond Beach Local Business Tax Receipt (occupational license) to verify the business location;
   (3) Proof of payment of business tax and real property tax due to the City of Ormond Beach;
   (4) A copy of the firm's most recent annual corporation report to the Florida Division of Corporations;
   (5) Any additional information necessary to verify local status.

(d) *Exemptions:* Goods or services provided under a cooperative purchasing agreement, contracts for professional services subject to Consultants' Competitive Negotiation Act, purchases or contracts funded in whole or part by a governmental entity that does not allow local preferences, purchases made under another agency's agreements or contracts (piggybacking), purchases under emergency or sole source situations and procurements subject to formal proposals including but not limited to request for proposals (RFP) or continuing contract, and request for quotes (RFQ) versus straight competitive bids.

(e) This section shall not be deemed to require the granting of a local preference, and nothing herein prohibits the award of a contract to a non-local vendor where such award is in the public interest.

## VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.
2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.
3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.
4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.
5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

Summary

On May 8, 2025, proposals for RFP 2025-33, Aquatic Weed Control Maintenance and Ditch Cleaning Services were opened. Two proposals were received: Chuck Robinson Concrete and Bobcat, Inc. and Environmental Management Acquisitions LLC dba Estate Management Services.

The RFP Evaluation Committee met and ranked the 2 proposals:
1. Chuck Robinson Concrete and Bobcat Inc. (received 242 points)
2. Environmental Management Acquisitions LLC dba Estate Management Services (received 211 points)

The Committee recommends award to Chuck Robinson Concrete and Bobcat Inc., 1818 Ronda Lane, Pierson, FL.

Aquatic weed control maintenance and ditch cleaning services are critical elements in the successful management of stormwater. By providing the necessary cleaning and reshaping of storm water conveyance systems, including ponds, swales, ditches, and canals throughout the City; the collection, conveyance, and directing of stormwater allows contributing areas to drain properly and mitigates of flooding. Chuck Robinson Concrete and Bobcat Inc. has been providing Aquatic Weed Control Maintenance and Ditch Cleaning Services for the past twelve (12) plus years and has provided an excellent level of service and satisfaction in performing their assigned work tasks.

Financial Impact

The Fiscal Year 2024-25 budget contains an appropriation within Fund 107-Stormwater in the amount of $75,000 for aquatic weed control maintenance and ditch cleaning services.

Citizen Impact

Aquatic weed control maintenance and ditch cleaning services assist with flood mitigation which is a significant benefit to the residents of the City, in protection of life and property.

**RESOLUTION NO. 2025-116**

A RESOLUTION ACCEPTING THE PROPOSAL OF CHUCK ROBINSON CONCRETE AND BOB CAT SERVICE, INC., REGARDING AQUATIC WEED CONTROL MAINTENANCE AND DITCH CLEANING SERVICES; AUTHORIZING THE EXECUTION OF AN AGREEMENT AND PAYMENT THEREFOR; REJECTING ALL OTHER PROPOSALS; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS**, the City solicited proposals for aquatic weed control maintenance and ditch cleaning services (the Project) (RFP No. 2025-33), in accordance with Section 2-300(b), *Code of Ordinances*, and

**WHEREAS,** the City's evaluation committee reviewed the two proposals received and determined that the most advantageous proposal is the proposal submitted by Chuck Robinson Concrete and Bob Cat Service, Inc. to provide aquatic weed control maintenance and ditch cleaning services (a copy of said proposal being incorporated in the contract which is attached hereto and incorporated herein by reference), and

**WHEREAS**, based on the foregoing, the City's professional staff recommends that the City Commission accept the proposal of Chuck Robinson Concrete and Bob Cat Service, Inc. at a cost not to exceed $75,000.00 annually ($225,000.00 for the initial three-year term plus two possible renewal periods for a total of $375,000.00 over a five-year period), and

**WHEREAS**, the City Manager has certified that the money for the payment of the Project has been appropriated to the credit of the Stormwater Fund (107) and has not been appropriated for any other purpose, now therefore

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE**. The proposal of Chuck Robinson Concrete and Bob Cat Service, Inc. to provide aquatic weed control maintenance and ditch cleaning for the City is hereby accepted.

**SECTION TWO.** All other proposals relative to the aforedescribed Project shall be deemed rejected upon the execution of an agreement with Chuck Robinson Concrete and Bob Cat Service, Inc.

**SECTION THREE**. The Mayor and the City Manager are hereby authorized and directed to execute an Agreement between the City and Chuck Robinson Concrete and Bob Cat Service, Inc. for the Project at a cost not to exceed $225,000.00 for the initial three-year term (plus two possible annual renewals of $75,000.00 each) and to pay the cost thereof from the Stormwater Fund.

**SECTION FOUR.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025.**

# AGREEMENT

**THIS AGREEMENT** is made and entered into by and between the **City of Ormond Beach** ("City"), a Florida municipal corporation, 22 South Beach Street, Ormond Beach, Volusia County, Florida and **Chuck Robinson Concrete and Bob Cat Service, Inc.** ("Contractor"), 1818 Ronda Lane, Pierson, FL 32180, and in consideration of the mutual promises and covenants herein contained, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree to the following:

1. **Scope of Work.** The Request for Proposal (RFP 2025-33, "Aquatic Weed Control Maintenance and Ditch Cleaning Services") dated May 4, 2025 and Contractor's Equipment Price List, attached hereto as Exhibit "A" is incorporated herein by reference and is a material part of this Agreement. The Contractor shall fully comply with the terms and conditions described in the attached exhibit.

   A. **Authorization for Services.**

      1. Prior to authorization for professional services by Contractor:
         (a) City and Contractor shall develop a well-defined project description and complete understanding of the scope of services to be provided.
         (b) Contractor shall provide City with a detailed proposal that provides the total estimated cost for each phase of services based on the prices set forth in the attached exhibits. If the proposal is accepted by City, the City shall issue and execute a written Work Authorization to be signed by Contractor.
      2. Each Work Authorization shall contain:
         (a) The project description.
         (b) The scope of work. The scope of work shall be attached and incorporated into the Work Authorization. It shall describe the services to be performed for each phase of work.
         (c) The dates for commencement and completion of work.

   The Work Authorizations will be issued under and shall incorporate the terms of this Agreement. City makes no covenant or promise as to the number of available projects or that Contractor will perform any project for City during the life of this Agreement. City reserves the right to contract with other parties for the services contemplated by this Agreement when it is determined by City to be in the best interest of City to do so.

2. **Term.** This Agreement shall be effective on the date it is fully executed by the parties and shall have an initial term of three (3) years with two (2) automatic one-year renewal options unless either party provides at least ninety (90) days prior written notice of their intent not to renew.

3. **Consideration.** Contractor shall provide the equipment and perform the services at the prices set forth on Exhibit "A". Contractor shall prepare and submit invoices to the City at the address set forth in Paragraph 9 of this Agreement. All such invoices shall be paid by the City within thirty (30) days.

4. **Delivery.** Contractor shall complete the project within the time frame set forth on Exhibit "A".

5. **Termination of Agreement.**
   (a) The City Commission shall have the right to terminate the Agreement in the event the Contractor files any petition or proceeding for bankruptcy relief, or is adjudicated to be bankrupt or insolvent, or fails to pay just debts as they ordinarily become due; or for a material breach of this agreement that remains uncured for at least thirty days after prior written receipt of a notice of violation of same.

   (b) This Agreement may not be terminated by the Contractor.

6. **Assignment**. The Contractor shall not assign, convey or transfer all or any part of this Agreement, or all or any part of Contractor's interest herein, or all or any part of any interest in the Contractor, without the prior written consent of the City Commission, which consent shall not be unreasonably withheld.

7. **Complete Agreement**. This Agreement, including the provisions set forth in the exhibit attached hereto and incorporated by reference herein, constitutes the entire and complete agreement of the parties, and the promises and covenants herein contained shall survive the life of this Agreement.

8. **Amendment to Agreement**. Any amendment, change, or modification of this Agreement must be in writing and fully executed by both parties.

9. **Notices**. All notices which are required by this Agreement shall be provided to the parties at the following addresses, or such other addresses as may be requested in writing by either party:

| | |
|---|---|
| **City of Ormond Beach** | **Chuck Robinson Concrete and Bob Cat Service, Inc.** |
| Joyce Shanahan, City Manager | Charles P. Robinson, Owner |
| (copy to City Attorney) | 1818 Ronda Lane |
| 22 South Beach Street | Pierson, FL 32180 |
| Ormond Beach, FL 32174 | |

10. **Sovereign Immunity**. The City expressly retains and reserves all rights, privileges, immunities, and benefits of sovereign immunity. This provision shall be construed broadly in favor of the City.

11. **Venue**. The terms and conditions of this Agreement shall be construed and enforced under the laws of the State of Florida. Any action or proceeding, either at law or in equity, regarding this Agreement shall be brought in the circuit court, Seventh Judicial Circuit in and for Volusia County, Florida. Venue in any other jurisdiction or forum, whether it be any other circuit, state or federal venue, is hereby expressly waived.

12. **Waiver of Conditions**. No waiver by the City of any condition or breach of performance by the Contractor shall constitute an irrevocable, continuing, or subsequent waiver by the City of the same condition or breach of performance, or of any other condition or other breach of performance.

13. **Severability**. If any part of this Agreement is declared to be unenforceable or void by a court of competent jurisdiction, the remaining parts of the Agreement shall remain in full force and effect as long as the services to be provided by the Contractor are not materially affected, altered or impaired as a result of said judicial declaration.

14. **Conflicting Provisions.** In the event of any conflict between the provisions of this Agreement and any exhibits, the provision most favorable to the City shall control and shall be given full force and effect.

15. **Indemnification**. The City, its agents, employees, and officials, both elected and appointed, shall be indemnified and held harmless by Contractor from any and all liabilities, claims, and causes of action which may arise out of the willful, negligent, or unlawful acts or omissions of the Contractor or its subcontractors in the performance of this Agreement, unless such claims are a result of the City's sole negligence, as determined by the final decision maker of such claim.

16. **Duty to Defend.** The Contractor shall defend all suits and administrative actions, including all appellate proceedings, brought against the City, its agents, employees, and officials, both elected and appointed and shall pay all attorneys' fees and costs associated with the City's legal defense, as may be selected by the City, arising from all claims and causes of action described in Section 15 above. Such payment on behalf of the City shall be in addition to any and all other legal or equitable remedies available to the City and shall not be considered to be the City's exclusive remedy.

17. **Contractor's Insurance**. The Contractor shall purchase and maintain for the entire life of this Agreement, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under this Agreement, whether such operations be by the Contractor, or by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

18. **Types of Insurance and Limits of Liability**

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

**(a)** Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident
$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for coverage. However, if the contractor subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

**(b)** Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations
h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)

k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence
$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

**(c)** Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract.

ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

| | |
|---|---|
| $1 Million | Combined Single Limit for Bodily Injury and Property Damage |

**(d)** Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,000 per occurrence.

**(e)** Builder's Risk

Contractor shall purchase Builder's Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

**(f)** Professional Liability, Malpractice and/or Errors and Omissions

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

19. **Requirements for Certificates of Insurance.**

(a) With the execution of this Agreement, the Contractor shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall contain a provision that the coverage under the policies will not be canceled, non-renewed or materially changed until at least **thirty (30)** days' prior written notice of such cancellation, non-renewal or change [except for nonpayment of premium, which shall be **ten (10)** days] has been given to the City. The Contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACCORD FORM 25-S (7/90), or its successor form, and shall be made a part of this Agreement.

(b) New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

(c) If requested by the City, the Contractor shall furnish complete copies of the Contractor's insurance policies, forms and endorsements.

(d) For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

(e) If the Contractor fails to obtain and maintain for the life of the Agreement the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City from the amount due the Contractor for the work covered by the Agreement.

(f) **Policies of Insurance**

1. Except as otherwise provided herein, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring

company is required to have a minimum financial rating of (A-) in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carriers; written confirmation is required.

3. All policies of insurance or certificates thereof referred to herein shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability and Automobile Liability policies of insurance and certificates thereof.

20. **Enforcement of Costs.** If any legal action or other proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default, or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorneys' fees, court costs, and all expenses even if not taxable court costs (including, without limitation, all such fees, costs and expenses incident to arbitration, appellate, bankruptcy, and post-judgment proceedings), incurred in that action or proceeding or any appeal, in addition to any other relief to which the party or parties may be entitled. Attorneys' fees include legal assistant fees, expert witness fees, investigative fees, administrative costs, and all other charges billed by the attorney for the prevailing party.

21. **Compliance With Laws.** Contractor shall comply with all applicable federal, state and local laws and regulations.

22. **Compliance With Florida Public Records Law.** Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.
(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.
(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the

City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.
(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

**IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:**

**CITY CLERK**
**22 SOUTH BEACH STREET**
**ORMOND BEACH, FLORIDA 32175. (386)677-0311**
**CITYCLERK@ORMONDBEACH.ORG**

Ref: Fla. Stat. §119.0701(2016)

23. **Limitation of Remedy and Liability.** Contractor and Owner expressly waive any claim for consequential damages against the other including but not limited to, a waiver of claims for diminished bonding capacity, loss of financing, loss of business reputation, lost profits on other projects or other lost opportunity damage claims.

Contractor expressly agrees that any claim (tort, contract, claim in equity, or otherwise) by Contractor for damages against Owner shall not exceed the total amount of the contract price, less any amounts actually paid to the Contractor by the Owner.

24. **Waiver of Right to Jury Trial.** THE PARTIES HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVE ANY RIGHT WHICH ANY PARTY MAY HAVE TO TRIAL BY JURY IN RESPECT OF ANY PROCEEDING, LITIGATION OR COUNTERCLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN) OR ACTIONS OF ANY PARTY. IF THE SUBJECT MATTER OF ANY LAWSUIT IS ONE IN WHICH THE WAIVER OF JURY TRIAL IS PROHIBITED, NO PARTY TO THIS AGREEMENT SHALL PRESENT AS A NON-COMPULSORY COUNTERCLAIM IN ANY SUCH LAWSUIT ANY CLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT. FURTHERMORE, NO PARTY TO

THIS AGREEMENT SHALL SEEK TO CONSOLIDATE ANY SUCH ACTION IN WHICH A JURY TRIAL CANNOT BE WAIVED.

25. **Verification of Employment Status Using E-Verify System**

(a) Section 448.09, *Florida Statutes*, makes it unlawful for any person to knowingly employ, hire, recruit, or refer, either for herself or himself, or on behalf of another, for private or public employment within the state, an alien who is not duly authorized to work in the United States. Contractor warrants that it is registered with the U.S. Department of Homeland Security's E-Verify system, and is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

(b) Contractor agrees that if the contractor enters into an agreement with a subcontractor, the subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and contractor warrants it shall maintain any such affidavits for the duration of the contract. If the City has a good faith belief that a subcontractor knowingly violated Section 448.09 (1), the City shall promptly notify the contractor and order the contractor to immediately terminate the contract with the subcontractor.

(c) In the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and as provided by statute, the contractor may not be awarded a public contract for at least one (1) year after the date of termination. The contractor may also be held liable for any additional costs incurred by the City as a result of the termination of the contract.

26. **No Conflict of Interest.** The Contractor warrants and agrees that neither it, nor any of its employees, agents, officers, directors, shareholders and independent contractors are, or will become, under contract with or accept compensation from any individual, business, corporation or governmental entity that has the possibility of an adverse interest to those of the City of Ormond Beach. The Contractor and its officers, directors, shareholders, employers, agents and subcontractors, agree not to provide any services or assistance to any entity directly or indirectly relating to the services provided to the City and to immediately notify the City Manager and City Attorney of any contact with any entity that has, or potentially has, a conflict of interest with the City of Ormond Beach. This provision shall be interpreted as broadly as possible to prevent any potential or actual conflict of interest presently or in the future by the Contractor.

27. **Effective Date.** This Agreement shall become effective upon the date last signed by the parties hereto.

IN WITNESS WHEREOF, the undersigned parties have caused this Agreement to be signed on the dates indicated hereinbelow.

## GENERAL CONDITIONS

**PUBLIC ENTITY CRIMES:** A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a proposal on a contract to provide any goods or services to a public entity, may not submit a proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit Proposals on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

**DISCRIMINATION:** Pursuant to Section 287.134(2)(a), Florida Statutes, an entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid or proposal on a contract to provide any goods or services to a public entity, may not submit a bid or proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit bid or proposal on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

**PUBLIC RECORDS/NON-CONFIDENTIALITY OF BIDS AND/OR PROPOSALS.** The City of Ormond Beach cannot and does not warrant the confidentiality of any information submitted in response to this solicitation. Florida law provides that municipal records shall at all times be open for personal inspection by any person, Section 119.01, F.S., The Public Records Law. Information and materials received by the City of Ormond Beach in connection with all Proposers' response shall be deemed to be public records subject to public inspection upon award, recommendation for award, or 30 days after bid opening, whichever occurs first. Section 119.071, F.S.

**DISTRIBUTION OF BIDS AND RFP'S:** The City uses the services of DemandStar (www.demandstar.com) to distribute its bids and RFP's on-line on the Internet. If you have received a copy of this RFP from any source other than DemandStar, please be aware that you may not have received the latest version of the RFP or any related addendums.

**SUBMISSION OF RESPONSES:** All Submittals shall be delivered in a sealed envelope. The Request for Proposals (RFP) number, title, and opening date shall be clearly displayed on the outside of the sealed envelope (and on the outside of any express shipping package). The delivery of said submittal to the Purchasing Office on or before the specified opening date and time is solely and strictly the responsibility of the Submitter. Any submittal received by the Purchasing Office after the specified date and time will not be accepted. Submittals must be presented on forms provided by the City. No other forms will be accepted. Responses submitted by telephone, fax or email will not be considered. No Submittal may be modified after opening. No Submittal may be withdrawn after opening for a period of ninety (90) days unless otherwise specified.

**EXECUTION OF SUBMITTAL:** Submittals must contain a manual signature of authorized representative in the space(s) provided. Submittals must be typed or printed in ink. Use of erasable ink is not permitted. All corrections made by Submitter to any Submittal entry must be initialed. The company name and Federal Employer Identification Number (F.E.I.N.) number shall appear in the space(s) provided.

**RFP OPENING**: Submittals shall be opened and the name of the submitters shall be read publicly. No discussion of the Submittals will occur at this time.

**SUBMITTAL TABULATION:** The RFP Tabulation will be posted on Demandstar (www.demandstar.com). Any submitter wishing to receive a paper copy of the tabulation is required to enclose a stamped, self-addressed envelope with their Submittal response.

**CLARIFICATION/CORRECTION OF RFP ENTRY:** The City of Ormond Beach reserves the right to allow for the clarification of questionable entries and for the correction of obvious mistakes.

**INTERPRETATION:** Any questions concerning conditions and specifications shall be directed to the Purchasing Coordinator. Those interpretations which may affect the eventual outcome of this Submittal will be furnished in writing to all prospective Submitters. No interpretation shall be considered binding unless provided in writing by the City of Ormond Beach.

**MINORITY POLICIES:** The City of Ormond Beach, Florida, encourages the full participation of Disadvantaged and Women Business Enterprises (D&WBE) in the provision of goods and services.

**RESPONSIBILITY DETERMINATION:** Pursuant to the provisions of Florida Statutes Chapter 287.05701, the City does not request or consider a vendor's social, political, or ideological interests in making a responsibility determination.

**LICENSES AND PERMITS:** The Vendor/Contractor is responsible for obtaining all necessary permits and licenses to comply with all Federal, State, local laws, rules and regulations required to perform work in accordance with the specifications.

**ADDITIONAL TERMS AND CONDITIONS:** The City of Ormond Beach reserves the right to reject Submittals containing any additional terms or conditions not specifically requested in the original conditions and specifications.

**TAXES:** The City of Ormond Beach is exempt from Federal Excise Taxes and all sales taxes.

**SILENCE OF SPECIFICATIONS**: The apparent silence of any specification and any supplemental specifications as to any details or the omission from same of any detailed description concerning any point shall be regarded as meaning that only the best

commercial practices are to prevail and that only materials of first quality and correct type, size, and design are to be used. All workmanship is to be first quality. All interpretations of the specifications shall be made upon the basis of this statement.

**ASSIGNMENT:** Any purchase order or contract issued pursuant to a Submittal and the monies which may become due hereunder are not assignable except with the prior written approval of the City Manager or City Commissioner, whichever authorized the purchase or Agreement.

**LIABILITY:** The Contractor shall hold and save the City of Ormond Beach, its officers, agents, and employees harmless against claims by third parties resulting from the Contractor's or supplier's breach of contract or negligence, including all attorney's fees and costs, and shall pay any and all damages, fees, and costs assessed on behalf of the City. The City expressly reserves all rights, privileges and benefits of sovereign immunity.

**PATENTS AND ROYALTIES:** The Contractor, without exception, shall indemnify and save harmless the City of Ormond Beach and its employees from liability of any kind, including cost and expenses for or on account of any copyrighted, patented, or unpatented invention, process, or article manufactured or used in the performance of the contract, including its use by the City of Ormond Beach. If the Contractor uses any design, device, or materials covered by letters, patent or copyright, it is mutually agreed and understood without exception that the Submittal prices shall include all royalties or cost arising from the use of such design, device, or materials in any way involved in the work.

**NON-APPROPRIATION OF FUNDS:** In the event sufficient budget funds are not available for a new fiscal period, the CITY shall notify the VENDOR/CONTRACTOR of such occurrence and the contract shall terminate on the last day of the current fiscal period, without any penalty or expense to the CITY of any kind whatsoever.

**AWARDS:** The CITY reserves the right, in its sole discretion, as the best interest of the CITY may require, to make award(s) by individual item, group of items, all or none, or a combination thereof; on a geographical basis and/or with one or more vendors, contractors, consultants or specialists; or to reject any and all Submittals or waive any minor irregularity or technicality in the Submittals received.

**OTHER AGENCIES:** All Bidder(s) awarded contracts from this bid or proposal may, permit any municipality or other government agency to participate in the contract under the same prices, terms, and conditions, if agreed to by both parties.

It is understood that at no time will any city, municipality, or other agency be obligated for placing an order for any other city, municipality, or agency: nor will any city, municipality, or agency be obligated for any bills incurred by any other city, municipality, or agency. Further, it is understood that each agency will issue its own purchase orders to the awarded bidder(s).

**COMPLIANCE WITH FLORIDA PUBLIC RECORDS LAW:**

Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.
(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.
(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.
(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

**IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:**

**THE CITY OF ORMOND BEACH RESERVES THE RIGHT TO REJECT ANY OR ALL PROPOSALS, AND TO WAIVE INFORMALITIES AS MAY BE DEEMED TO BE IN THE BEST INTEREST OF THE CITY.**

**THE CITY OF ORMOND BEACH RESERVES THE RIGHT TO REJECT ANY OR ALL PROPOSALS, AND TO WAIVE INFORMALITIES AS MAY BE DEEMED TO BE IN THE BEST INTEREST OF THE CITY.**

## TERMS AND CONDITIONS

A. The City of Ormond Beach reserves the right without prejudice to reject any or all proposals, to request clarification of information submitted, and to request additional information of one or more proposers.

B. The City reserves the right to award the contract to the next most qualified firm if the successful firm fails to execute a contract within two weeks after the award of the contract by the City Commission.

C. In accordance with federal, State, and local regulations, the firm shall not discriminate under the contract against any person.

D. The firm shall not assign or transfer any interest in the contract without prior approval of the City Commission.

E. The City reserves the right to terminate the contract at any time due to the vendor's default under terms of agreement.

F. Submission of a proposal indicates acceptance by the firm of the conditions contained in this Request for Proposals unless clearly and specifically noted in the proposal submitted and confirmed in the contract between the City of Ormond Beach and the firm selected.

G. Submittals should include a copy of firm's insurance certificate, Conflict, Non-Conflict of Interest Statement/Litigation Statement, Drug Free Workplace Certificate and E-Verify Statement.

## I. OBJECTIVE OF THE REQUEST FOR PROPOSALS

Aquatic Weed Control Maintenance and Ditch Cleaning Services

## II. SCOPE OF SERVICES

The scope of work includes general aquatic maintenance activities within stormwater ponds, canals, ditches and/or lakes. The work covered in this proposal shall consist of furnishing all labor, materials, and equipment necessary to perform the noted aquatic maintenance activities.

## III. TERM OF AGREEMENT

The initial term of this agreement shall be for a period of three (3) years and will be automatically renewed for two (2) one-year periods thereafter unless either party provides at least ninety (90) days prior written notice to the other party of their intent not to renew the agreement.

## IV. MINIMUM QUALIFICATIONS

To be considered by the City, proposing firm must:

The Contractor shall be responsible for the dredging and clearing of ponds, canals, ditches and lakes of excessive vegetation and/or accumulated sediments. The Contractor shall provide proof of appropriate operator's licenses and project work experience. The Contractor shall obtain all permits and pay all required fees to any regulatory agency having jurisdiction over the proposed work. The Contractor shall be responsible for obtaining right-of entry and/or temporary use permits from property owners as necessary to accommodate treatments and/or temporary storage areas during mechanical harvesting or dredging. The Contractor shall be responsible for all required temporary and permanent sediment and erosion control measures. The site shall maintain compliance with City, County and State erosion control requirements. On completion of the work, evidence satisfactory to the City shall be furnished to the City to show that all work has been performed in accordance with the appropriate regulatory requirements and scope of work. At any time during the proposed work, the City or its agent may visit the site to observe work underway. Should the materials and/or workmanship not meet the City standards specified and agreed upon at the start of work, the Contractor shall timely correct the problem to the standards of the City at Contractor's expense. Disposal of all removed spoil, dredge or exotic plant material shall be the responsibility of the Contractor. Disposal shall be in an approved location. During and upon completion of the project the Contractor shall keep the project site clean. All damaged or altered existing structures resulting from the work shall be corrected. When or where direct or indirect injury is done to public or private property by or on account of any act, omission, neglect or misconduct in the execution of the work, or inconsequence of the non-execution thereof by the Contractor, the Contractor shall restore, at Contractor's expense, such property to a condition similar or equal to that existing before such damage or injury was done, by repairing, rebuilding, replanting, or otherwise restoring as may be directed, or Contractor shall make good such damage or injury in an acceptable manner.

## V. PROPOSAL PROCESS

The firm or individual(s) interested in this contract should include a response to each of the following items in their written proposal:

**A. Background of firm:**
The Proposer shall include qualifications and past performance of the firm/individual(s) who will provide the services, including resumes. The submission must include:

**A.** List three (3) references for which your company provided similar services as requested in this RFP. List the names of the client (name, address, telephone number, fax numbers and project title. The list should include brief description of similar work satisfactorily completed, including location, dates of contracts, names and addresses of clients/owners, and contact person.

**B.** List of personnel, by name and title, contemplated to perform the work for each position described. Include statement of credentials, education, experience, certifications, licenses and all pertinent information to demonstrate capabilities.

**B. Experience:**
Proposer shall explain the Scope of Services as understood by the Proposer, detail the approach and activities to be undertaken in providing the requested delivery, installation and servicing of requested equipment. The proposal shall include the following information:

**A.** Technical Plan. This shall include an explanation of the work procedures and processing system and resources to be utilized.

**B.** Explanation of the Proposer's approach plan to support the needs and objectives of the procurement as set forth in this RFP and the *Scope of Services.*

**C.** List of available in-house equipment and list of out sourced equipment.

**C. Fees:**

**Dredging and Bank Clearing - (assume min. 3 hours on-site)**

- Track Excavator with a long boom Per Hour
- All-Terrain Excavator (ex. Menzi Muck or Kaiser Spyder) Per Hour
- Dump Truck (15 cu. Yd.) Per Hour
- Bush Hog or equivalent mowing attachment Per Hour
- Amphibious Excavator Per Hour

**Aquatic Weed Harvesting**

- Aquatic Weed Harvester Per Hour
- Mobilization Fee: (One lump sum charge per job) Per Job
- Disposal Fee (Load ticket required for ea load, specifying yards) Cubic Yd
- Replace/Restore Sod (as needed) Sq. Yd.

## VI. PROPOSAL SUBMITTAL

Please check the contents of your RFP package carefully to ensure that you have in your possession all the necessary documents, as referenced within this RFP, including any addenda. If you are missing any items, please contact the City's Purchasing Coordinator at 386-676-3223, or by e-mail at: rob.hart@ormondbeach.org.

Submission of a proposal pursuant to this RFP shall constitute acknowledgement and acceptance of the terms and conditions set forth herein. Portions of this RFP and the contents of the proposal submitted by the successful proposer may become contractual obligations if an Agreement is awarded. Failure of the successful proposer to accept these obligations may result in cancellation of the award of contract.

The City reserves the right to withdraw this RFP at any time without prior notice. All proposals submitted in response to this RFP become the property of the City of Ormond Beach.

Deadline for Submission: To be considered, proposals must be received no later than 2:00 PM, May 8, 2025.

Inquiries: Technical questions may arise as firms are preparing their proposals. The City will accept written inquiries regarding this RFP until **April 28, 2025 at 4:00 PM.** Questions received after that time will not be responded to. Answers to questions that warrant attention of all the potential proposers will be distributed in the form of an addendum. Please direct written inquiries to:

Rob Hart
City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174
Telephone: (386) 676-3223
rob.hart@ormondbeach.org

Signature Requirements: Proposals must be signed by a duly authorized official(s) of the proposing firm. Consortiums, joint ventures, or teams submitting proposals, although permitted and encouraged, will not be considered responsive unless it is established that all contractual responsibility rests solely with one firm or legal entity

which shall not be a subsidiary or affiliate with limited resources. Each proposal shall indicate the entity responsible for execution on behalf of the proposal team.

Proposal Delivery: You must submit one (1) unbound original plus one (1) electronic copy on compact disk (CD) or flash drive of the proposal no later than the date and time specified above. Submit proposals to: Rob Hart, Purchasing Coordinator, at City Hall down stairs in Room 102, 22 South Beach Street, Ormond Beach, FL 32174. The RFP title and number shall be plainly marked on the outside of the delivery envelope or package. It is solely the responsibility of the submitter to ensure that the Proposal is delivered on or before the specified date and time. Late proposals will not be accepted.

Addenda and Supplements to the Request for Proposals (RFP): In the event that it becomes necessary to revise any part of this RFP, or if additional information is necessary to enable the proposing firm to make an adequate interpretation of the provisions of this RFP, a supplement to the RFP will be provided to each firm that has requested a copy of this document.

Rejection Rights: The City of Ormond Beach reserves the right, at any time, to modify, waive or otherwise vary the terms and conditions of this RFP including, but not limited to, the deadlines for submission and submission requirements. The City further reserves the right to reject any or all submittals, to cancel or withdraw this RFP at any time and to negotiate with any party prior to or after submittal of proposals. Selection is also dependent upon the negotiation of a mutually acceptable contract with the successful proposers.

Cost of Proposal Preparation: No reimbursement will be made by the City of Ormond Beach for any costs incurred in the preparation of the proposal or presentation.

Proposals to be in Effect: Each proposal shall state that it is valid for a period of not less than 90 days from date of receipt.

## VII. EVALUATION PROCESS AND CRITERIA

The City of Ormond Beach will conduct an evaluation of all proposals, submitted by the deadline, to determine compliance with proposal requirements and mandatory document submissions. The committee will consist of members of the Public Works Department and/or other departments as deemed appropriate. The committee will evaluate proposals and select the Proposer that meets the best interests of the City, and will make a recommendation of Award of Contract to the City Commission.

**The City reserves the following rights:**

- Modify, extend, or cancel this RFP at any time to obtain additional proposals or for any other reason the City determines to be in its best interest;

- Issue a new RFP with terms and conditions that are the same, similar or substantially different as those set forth in this or a previous RFP in order to obtain additional proposals or for any other reason the City determines to be in its best interest;

- Conduct pre-award discussion and/or pre-award negotiations with any or all responsive and responsible proposer(s) who submit proposals determined to be reasonably acceptable of being selected for award; and, conduct personal interviews or require presentations of any or all proposer(s) prior to selection.

- Request that proposer(s) furnish additional information as the City may reasonably require.

- Accept or reject qualifications or proposals in part or whole, and/or waive any defect or deficiency in any proposal, if in the City's sole judgment, the defect or deficiency is not material in response to this RFP;

- Limit and/or determine the actual contract services to be included in a contract.

- Engage outside experts to assist staff in evaluating the merits and viability of each proposer.

- Obtain information for use in evaluating submittals from any source.

- Verify the information received in the proposal. If a proposer knowingly and willfully submits false information or data, the City of Ormond Beach reserves the right to reject that proposal. If it is determined that an Agreement was awarded as a result of false statements or other data submitted in response to this RFP, the City of Ormond Beach reserves the right to terminate the Agreement.

The City shall be the sole judge of the proposer's qualifications.

**Evaluation Criteria:**

For the purposes of further evaluation, the responsive proposals will be evaluated on, but shall not be limited to, consideration of the following criteria:

Qualifications and Experience (40 points)
References (30 points)
Price (30 points)

Responsive proposals will be ranked in each of the criteria

## VIII. EXHIBITS

**The following exhibits are provided to assist firms with preparing proposals:**

**REGISTRATION AND INSURANCE REQUIREMENTS FOR VENDOR/CONTRACTOR WORKING ON CITY PROJECTS**

**Registration Requirements**

VENDORS doing business within the City Limits must be registered with the City. Requirements for registering a business are as follows:

Copy of City Business Tax Receipt (where your business is located).
Certificate of Insurance showing General Liability and Workers' Comp (or State Workers' Comp Exemption form).
Application Fee: $25.00 For more information, contact the City's Business Tax Receipt official.

**State Certified/Registered Contractors**

All registered contractors must be registered with Volusia County. Volusia County Contractor Licensing, 123 W. Indiana Ave., Rm 203, Deland, Fl. 32720 (386) 736-5957 Opt. 2 –(386) 248-8158 Fax. Certified Contractors have the option of registering with Volusia County, or providing information directly to the business tax receipt official.

If you have any questions regarding the above requirements, please contact the business tax receipt official at (386) 676-3370.

## EXHIBIT A
## Risk Management and Insurance Requirements

### A. Payment and Performance Bonds

**1.** Except as otherwise provided herein, the Contractor shall, prior to beginning performance, deliver to the City, and the City shall record in the public records of Volusia County, Florida, the Contractor's Payment and Performance Bond in an amount equal to the full amount of the Contract.

**2.** **(a)** Payment and Performance Bonds shall not be required for any contract except those which are for the construction of a public building, for the prosecution and completion of a public work (as described in Section 180.06, **Florida Statutes,** as amended from time to time) or for repairs upon a public building or public work (as described in Section 180.06, **Florida Statutes**, as amended from time to time).

**(b)** With respect to those Contracts for which Payment and Performance Bonds are otherwise required:

**i.** Unless the City Manager, or his designee, determines such Bond to be necessary to protect the interests of the City, no

Contractor shall be required to provide a Payment and Performance Bond for any Contract which is for $25,000.00 or less.

ii. Upon the request of the contractor, good cause shown by the Contractor, and a determination that the public health, safety and welfare will be sufficiently protected, the City Commission may exempt the contractor from the requirement of providing a Payment and Performance Bond for any Contract which is for more than $25,000.00 but is less than $200,000.00.

3. The Payment and Performance Bond shall list the Contractor as Principal and be issued by a surety insurer authorized to do business in Florida as a surety and listed as an acceptable surety in the Federal Register.

4. The Payment and Performance Bond shall be executed pursuant to Section 255.05, **Florida Statutes**, and be in a form substantially similar to the form set forth in Section 255.05(3), **Florida Statutes**.

5. The Payment and Performance Bond shall specifically provide coverage for delay damages due to a default by the Contractor.

6. The Payment and Performance Bond shall not make the Contract part of the Bond agreement.

7. In lieu of the Payment and Performance Bond, the Contractor may file with the Finance Director of the City, in an amount equal to the full amount of the Contract, cash, a money order, a certified check, a cashier's check, an irrevocable letter of credit, or a security of a type listed in Part II, Chapter 625, **Florida Statutes**.

8. In the event the surety on any Payment and Performance Bond furnished by the Contractor is declared bankrupt or becomes insolvent, or its right to do business in the State of Florida is terminated, the Contractor shall, within five (5) working days thereafter, substitute another Payment and Performance Bond and surety acceptable to the City.

9. The Contractor is totally and solely responsible for keeping its surety informed as to the Base Contract Price as bid, significant changes in the Project Scope, and the overall progress and completion of the Project for the entire life of the Contract.

10. The payment and performance bond requirements stated herein above shall not be applicable to service-related contracts unless otherwise determined by the City Manager in order to protect the health, safety and welfare of the general public.

## B. Contractual Provisions Relative to Risk Management

All contracts for any public works to be performed, and service-related contracts, for or on behalf of the City shall include at a minimum, the following, or substantially similar, provisions:

1. **Hold Harmless and Indemnity**
The Contractor agrees to assume liability for and indemnify, hold harmless, and defend the City, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Contractor, its agents, officers, contractors, subcontractors, employees, or anyone else employed or utilized by the Contractor in the performance of this Contract. The Contractor's liability hereunder shall include all attorney's fees and costs incurred by the City in the enforcement of this provision.

2. **Payment on Behalf of City**
The Contractor shall pay all costs of the City's legal defense, as may be selected by the City, for all claims described in the Hold Harmless paragraph. Such payment on behalf of the City shall be in addition to any and all other legal remedies available to the City and shall not be considered to be the City's exclusive remedy.

3. **Loss Control/Safety**
Precaution shall be exercised at all times by the Contractor for the protection of all persons, including employees and property. The Contractor shall comply with all applicable laws, regulations and ordinances related to safety and health, shall make special efforts to detect hazardous conditions, and shall take prompt action when loss control/safety measures are reasonably necessary. The City may order work to be stopped if conditions exist that present an immediate danger to persons or property. The Contractor acknowledges that such work stoppage will not shift responsibility for any damages from the Contractor to the City.

4. **Service Bond**
For Service-related contracts only, the City may require the Contractor to secure a service bond with a minimum $25,000 coverage limit for the period of the service agreement. The service bond covers dishonest acts of the contractor's employees against the City. A copy of the bond shall be

provided to the City when the agreement commences. Service-related contracts include and are not limited to businesses providing janitorial, pest control, general repair, security, carpet cleaning, locksmith, temporary employment, painting, moving services or other contracts as determined in the discretion of the Risk Manager as necessary to minimize

**C. Contractor's Insurance**

1. **General**

The Contractor, including service-related contractors, shall purchase and maintain for the entire life of the Project, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under the Contract Documents, whether such operations be by the Contractor, by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

2. **Types of Insurance and Limits of Liability**

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

(a) Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident
$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for coverage. However, if the contractor

subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

**(b)** Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations
h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)
k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence
$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

**(c)** Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract. ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

| | |
|---|---|
| $1 Million | Combined Single Limit for Bodily Injury and Property Damage |

**(d)** Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,0000 per occurrence.

**(e)** Builder's Risk

Contractor shall purchase Builder's Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

**(f)** Professional Liability, Malpractice and/or Errors and Omissions

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

## D. Requirements for Certificates of Insurance

**1.** With the execution of the Contract Documents, the Contractor, including service related contractors, shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall

contain an endorsement that the coverage under the policies will not be canceled, non-renewed or materially changed until at least thirty (30) days' prior written notice of such cancellation, non-renewal or change (except for nonpayment of premium, which shall be ten (10) days) and a copy of the cancellation endorsement signed by an authorized representative of the insurer, be given to the City. The contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACORD FORM 25-S (7/90), or its successor form, and shall be made a part of the Contract Documents.

2. New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

3. If requested by the City, the contractor shall immediately furnish complete copies of the Contractor's insurance policies, forms and endorsements.

4. For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

5. If the Contractor fails to obtain and maintain for the life of the Project the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City form the amount due the Contractor for the work covered by the Contract.

**E. Policies of Insurance**

1. Except as otherwise provided in this Exhibit, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-), in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carrier; written confirmation is required.

3. All policies of insurance or certificates thereof referred to in this Exhibit shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability including products and completed operations and Automobile Liability policies of insurance and certificates thereof.

## DRUG-FREE WORKPLACE CERTIFICATION

**IDENTICAL OR "TIE" SUBMITTALS**: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

3) Give each employee that engages in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5 ) calendar days after such conviction.

5) Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

## AFFIDAVIT OF COMPLIANCE WITH SECTION 287.138, FLORIDA STATUTES

### AFFIDAVIT OF COMPLIANCE WITH SECTION 287.138, FLORIDA STATUTES CONTRACTING WITH FOREIGN ENTITIES OF CONCERN

The undersigned ("Affiant"), on behalf of the entity listed below ("Entity"), hereby attests under penalty of perjury as follows:

1. Affiant is the Owner (Title) of Chuck Robinson Concrete + Bob Cat Tr (Business Name) which does business in the State of Florida, hereinafter called the "Entity".
2. Entity is not owned by the government of a foreign country of concern, as defined in Section 287.138 (1) (c), Florida Statutes.
3. The government of a foreign country of concern does not have a controlling interest in Entity, as defined in Section 287.138 (1)(a), Florida Statutes.
4. Entity is not organized under the laws of, and does not have a principal place of business in, a foreign country of concern.
5. Entity is not owned or controlled by the government of a foreign country of concern.
6. For purposes of this affidavit, a foreign country of concern means the People's Republic of China, the Russian Federation, the Islamic Republic of Iran, the Democratic People's Republic of Korea, the Republic of Cuba, the Venezuelan regime of Nicolas Maduro, or the Syrian Arab Republic, including any agency of or any other entity of significant control of such foreign country of concern, as defined in Section 287.138(1)(c), Florida Statutes.

The undersigned is authorized to execute this affidavit on behalf of the Entity.

Date: 5-5, 2025 Signed: Charles P Robinson

## VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

---

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.

3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.

4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.

5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

## GENERAL CONDITIONS

**PUBLIC ENTITY CRIMES:** A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a proposal on a contract to provide any goods or services to a public entity, may not submit a proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit Proposals on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

**DISCRIMINATION:** Pursuant to Section 287.134(2)(a), Florida Statutes, an entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid or proposal on a contract to provide any goods or services to a public entity, may not submit a bid or proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit bid or proposal on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

**PUBLIC RECORDS/NON-CONFIDENTIALITY OF BIDS AND/OR PROPOSALS.** The City of Ormond Beach cannot and does not warrant the confidentiality of any information submitted in response to this solicitation. Florida law provides that municipal records shall at all times be open for personal inspection by any person, Section 119.01, F.S., The Public Records Law. Information and materials received by the City of Ormond Beach in connection with all Proposers' response shall be deemed to be public records subject to public inspection upon award, recommendation for award, or 30 days after bid opening, whichever occurs first. Section 119.071, F.S.

**DISTRIBUTION OF BIDS AND RFP'S:** The City uses the services of DemandStar (www.demandstar.com) to distribute its bids and RFP's on-line on the Internet. If you have received a copy of this RFP from any source other than DemandStar, please be aware that you may not have received the latest version of the RFP or any related addendums.

**SUBMISSION OF RESPONSES:** All Submittals shall be delivered in a sealed envelope. The Request for Proposals (RFP) number, title, and opening date shall be clearly displayed on the outside of the sealed envelope (and on the outside of any express shipping package). The delivery of said submittal to the Purchasing Office on or before the specified opening date and time is solely and strictly the responsibility of the Submitter. Any submittal received by the Purchasing Office after the specified date and time will not be accepted. Submittals must be presented on forms provided by the City. No other forms will be accepted. Responses submitted by telephone, fax or email will not be considered. No Submittal may be modified after opening. No Submittal may be withdrawn after opening for a period of ninety (90) days unless otherwise specified.

**EXECUTION OF SUBMITTAL:** Submittals must contain a manual signature of authorized representative in the space(s) provided. Submittals must be typed or printed in ink. Use of erasable ink is not permitted. All corrections made by Submitter to any Submittal entry must be initialed. The company name and Federal Employer Identification Number (F.E.I.N.) number shall appear in the space(s) provided.

**RFP OPENING**: Submittals shall be opened and the name of the submitters shall be read publicly. No discussion of the Submittals will occur at this time.

**SUBMITTAL TABULATION:** The RFP Tabulation will be posted on Demandstar (www.demandstar.com). Any submitter wishing to receive a paper copy of the tabulation is required to enclose a stamped, self-addressed envelope with their Submittal response.

**CLARIFICATION/CORRECTION OF RFP ENTRY:** The City of Ormond Beach reserves the right to allow for the clarification of questionable entries and for the correction of obvious mistakes.

**INTERPRETATION:** Any questions concerning conditions and specifications shall be directed to the Purchasing Coordinator. Those interpretations which may affect the eventual outcome of this Submittal will be furnished in writing to all prospective Submitters. No interpretation shall be considered binding unless provided in writing by the City of Ormond Beach.

**MINORITY POLICIES:** The City of Ormond Beach, Florida, encourages the full participation of Disadvantaged and Women Business Enterprises (D&WBE) in the provision of goods and services.

**RESPONSIBILITY DETERMINATION:** Pursuant to the provisions of Florida Statutes Chapter 287.05701, the City does not request or consider a vendor's social, political, or ideological interests in making a responsibility determination.

**LICENSES AND PERMITS:** The Vendor/Contractor is responsible for obtaining all necessary permits and licenses to comply with all Federal, State, local laws, rules and regulations required to perform work in accordance with the specifications.

**ADDITIONAL TERMS AND CONDITIONS:** The City of Ormond Beach reserves the right to reject Submittals containing any additional terms or conditions not specifically requested in the original conditions and specifications.

**TAXES:** The City of Ormond Beach is exempt from Federal Excise Taxes and all sales taxes.

**SILENCE OF SPECIFICATIONS**: The apparent silence of any specification and any supplemental specifications as to any details or the omission from same of any detailed description concerning any point shall be regarded as meaning that only the best

commercial practices are to prevail and that only materials of first quality and correct type, size, and design are to be used. All workmanship is to be first quality. All interpretations of the specifications shall be made upon the basis of this statement.

**ASSIGNMENT:** Any purchase order or contract issued pursuant to a Submittal and the monies which may become due hereunder are not assignable except with the prior written approval of the City Manager or City Commissioner, whichever authorized the purchase or Agreement.

**LIABILITY**: The Contractor shall hold and save the City of Ormond Beach, its officers, agents, and employees harmless against claims by third parties resulting from the Contractor's or supplier's breach of contract or negligence, including all attorney's fees and costs, and shall pay any and all damages, fees, and costs assessed on behalf of the City. The City expressly reserves all rights, privileges and benefits of sovereign immunity.

**PATENTS AND ROYALTIES**: The Contractor, without exception, shall indemnify and save harmless the City of Ormond Beach and its employees from liability of any kind, including cost and expenses for or on account of any copyrighted, patented, or unpatented invention, process, or article manufactured or used in the performance of the contract, including its use by the City of Ormond Beach. If the Contractor uses any design, device, or materials covered by letters, patent or copyright, it is mutually agreed and understood without exception that the Submittal prices shall include all royalties or cost arising from the use of such design, device, or materials in any way involved in the work.

**NON-APPROPRIATION OF FUNDS:** In the event sufficient budget funds are not available for a new fiscal period, the CITY shall notify the VENDOR/CONTRACTOR of such occurrence and the contract shall terminate on the last day of the current fiscal period, without any penalty or expense to the CITY of any kind whatsoever.

**AWARDS:** The CITY reserves the right, in its sole discretion, as the best interest of the CITY may require, to make award(s) by individual item, group of items, all or none, or a combination thereof; on a geographical basis and/or with one or more vendors, contractors, consultants or specialists; or to reject any and all Submittals or waive any minor irregularity or technicality in the Submittals received.

**OTHER AGENCIES:** All Bidder(s) awarded contracts from this bid or proposal may, permit any municipality or other government agency to participate in the contract under the same prices, terms, and conditions, if agreed to by both parties.

It is understood that at no time will any city, municipality, or other agency be obligated for placing an order for any other city, municipality, or agency: nor will any city, municipality, or agency be obligated for any bills incurred by any other city, municipality, or agency. Further, it is understood that each agency will issue its own purchase orders to the awarded bidder(s).

**COMPLIANCE WITH FLORIDA PUBLIC RECORDS LAW:**

Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.
(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.
(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.
(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

**IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:**

**CITY CLERK**

**THE CITY OF ORMOND BEACH RESERVES THE RIGHT TO REJECT ANY OR ALL PROPOSALS, AND TO WAIVE INFORMALITIES AS MAY BE DEEMED TO BE IN THE BEST INTEREST OF THE CITY.**

**THE CITY OF ORMOND BEACH RESERVES THE RIGHT TO REJECT ANY OR ALL PROPOSALS, AND TO WAIVE INFORMALITIES AS MAY BE DEEMED TO BE IN THE BEST INTEREST OF THE CITY.**

## TERMS AND CONDITIONS

A. The City of Ormond Beach reserves the right without prejudice to reject any or all proposals, to request clarification of information submitted, and to request additional information of one or more proposers.

B. The City reserves the right to award the contract to the next most qualified firm if the successful firm fails to execute a contract within two weeks after the award of the contract by the City Commission.

C. In accordance with federal, State, and local regulations, the firm shall not discriminate under the contract against any person.

D. The firm shall not assign or transfer any interest in the contract without prior approval of the City Commission.

E. The City reserves the right to terminate the contract at any time due to the vendor's default under terms of agreement.

F. Submission of a proposal indicates acceptance by the firm of the conditions contained in this Request for Proposals unless clearly and specifically noted in the proposal submitted and confirmed in the contract between the City of Ormond Beach and the firm selected.

G. Submittals should include a copy of firm's insurance certificate, Conflict, Non-Conflict of Interest Statement/Litigation Statement, Drug Free Workplace Certificate and E-Verify Statement.

## I. OBJECTIVE OF THE REQUEST FOR PROPOSALS

Aquatic Weed Control Maintenance and Ditch Cleaning Services

## II. SCOPE OF SERVICES

The scope of work includes general aquatic maintenance activities within stormwater ponds, canals, ditches and/or lakes. The work covered in this proposal shall consist of furnishing all labor, materials, and equipment necessary to perform the noted aquatic maintenance activities.

## III. TERM OF AGREEMENT

The initial term of this agreement shall be for a period of three (3) years and will be automatically renewed for two (2) one-year periods thereafter unless either party provides at least ninety (90) days prior written notice to the other party of their intent not to renew the agreement.

## IV. MINIMUM QUALIFICATIONS

To be considered by the City, proposing firm must:

The Contractor shall be responsible for the dredging and clearing of ponds, canals, ditches and lakes of excessive vegetation and/or accumulated sediments. The Contractor shall provide proof of appropriate operator's licenses and project work experience. The Contractor shall obtain all permits and pay all required fees to any regulatory agency having jurisdiction over the proposed work. The Contractor shall be responsible for obtaining right-of entry and/or temporary use permits from property owners as necessary to accommodate treatments and/or temporary storage areas during mechanical harvesting or dredging. The Contractor shall be responsible for all required temporary and permanent sediment and erosion control measures. The site shall maintain compliance with City, County and State erosion control requirements. On completion of the work, evidence satisfactory to the City shall be furnished to the City to show that all work has been performed in accordance with the appropriate regulatory requirements and scope of work. At any time during the proposed work, the City or its agent may visit the site to observe work underway. Should the materials and/or workmanship not meet the City standards specified and agreed upon at the start of work, the Contractor shall timely correct the problem to the standards of the City at Contractor's expense. Disposal of all removed spoil, dredge or exotic plant material shall be the responsibility of the Contractor. Disposal shall be in an approved location. During and upon completion of the project the Contractor shall keep the project site clean. All damaged or altered existing structures resulting from the work shall be corrected. When or where direct or indirect injury is done to public or private property by or on account of any act, omission, neglect or misconduct in the execution of the work, or inconsequence of the non-execution thereof by the Contractor, the Contractor shall restore, at Contractor's expense, such property to a condition similar or equal to that existing before such damage or injury was done, by repairing, rebuilding, replanting, or otherwise restoring as may be directed, or Contractor shall make good such damage or injury in an acceptable manner.

## V. PROPOSAL PROCESS

The firm or individual(s) interested in this contract should include a response to each of the following items in their written proposal:

**A. Background of firm:**
The Proposer shall include qualifications and past performance of the firm/individual(s) who will provide the services, including resumes. The submission must include:

**A.** List three (3) references for which your company provided similar services as requested in this RFP. List the names of the client (name, address, telephone number, fax numbers and project title. The list should include brief description of similar work satisfactorily completed, including location, dates of contracts, names and addresses of clients/owners, and contact person.

**B.** List of personnel, by name and title, contemplated to perform the work for each position described. Include statement of credentials, education, experience, certifications, licenses and all pertinent information to demonstrate capabilities.

**B. Experience:**
Proposer shall explain the Scope of Services as understood by the Proposer, detail the approach and activities to be undertaken in providing the requested delivery, installation and servicing of requested equipment. The proposal shall include the following information:

**A.** Technical Plan. This shall include an explanation of the work procedures and processing system and resources to be utilized.

**B.** Explanation of the Proposer's approach plan to support the needs and objectives of the procurement as set forth in this RFP and the *Scope of Services.*

**C.** List of available in-house equipment and list of out sourced equipment.

**C. Fees:**

**Dredging and Bank Clearing - (assume min. 3 hours on-site)**

- Track Excavator with a long boom Per Hour
- All-Terrain Excavator (ex. Menzi Muck or Kaiser Spyder) Per Hour
- Dump Truck (15 cu. Yd.) Per Hour
- Bush Hog or equivalent mowing attachment Per Hour
- Amphibious Excavator Per Hour

Ormond Beach Fl

RFP-2025-33

To: Whom it may concern

Chuck Robinson Concrete specializes in aquatic excavation and storm water maintenance. We have over 30 years of combined experience with similar projects outlined in the RFP. Our company has worked with Ormond Beach for many years on a variety of projects.

We can and will provide the needed manpower, equipment and any other necessary resources to complete the work involved in this proposal in a timely and professional manner. This contract, as in all the work we provide, will take top priority upon acceptance.

We feel our track record extensive knowledge of specialized equipment we utilize combined with our environmentally cautious approach will provide Ormond Beach with cost effective yet above average results.

Sincerely,

Charles P. Robinson

Scope

May 4, 2025

Attn: Purchasing and Contracts Division

Ormond Beach

RFP-2025

To: Whom it may concern

The scope of work outlined in the RFP is our company's specialty. We possess the specialized equipment necessary to complete all tasks. Per request we have attached a complete list of all available equipment.

Our employees are extensively experienced in aquatic weed control, both on land and water. To include ditch cleaning, weed harvesting evasive plant removal mud and soil excavation and general aquatic maintenance. We feel we are more than qualified and have proven to be professional, efficient, environmentally cautious and complete job scopes in a timely manner.

Sincerely,

Charles P. Robinson

**Aquatic Weed Harvesting**

- Aquatic Weed Harvester Per Hour
- Mobilization Fee: (One lump sum charge per job) Per Job
- Disposal Fee (Load ticket required for ea load, specifying yards) Cubic Yd
- Replace/Restore Sod (as needed) Sq. Yd.

## VI. PROPOSAL SUBMITTAL

Please check the contents of your RFP package carefully to ensure that you have in your possession all the necessary documents, as referenced within this RFP, including any addenda. If you are missing any items, please contact the City's Purchasing Coordinator at 386-676-3223, or by e-mail at: rob.hart@ormondbeach.org.

Submission of a proposal pursuant to this RFP shall constitute acknowledgement and acceptance of the terms and conditions set forth herein. Portions of this RFP and the contents of the proposal submitted by the successful proposer may become contractual obligations if an Agreement is awarded. Failure of the successful proposer to accept these obligations may result in cancellation of the award of contract.

The City reserves the right to withdraw this RFP at any time without prior notice. All proposals submitted in response to this RFP become the property of the City of Ormond Beach.

Deadline for Submission: To be considered, proposals must be received no later than 2:00 PM, May 8, 2025.

Inquiries: Technical questions may arise as firms are preparing their proposals. The City will accept written inquiries regarding this RFP until **April 28, 2025 at 4:00 PM.** Questions received after that time will not be responded to. Answers to questions that warrant attention of all the potential proposers will be distributed in the form of an addendum. Please direct written inquiries to:

Rob Hart
City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174
Telephone: (386) 676-3223
rob.hart@ormondbeach.org

Signature Requirements: Proposals must be signed by a duly authorized official(s) of the proposing firm. Consortiums, joint ventures, or teams submitting proposals, although permitted and encouraged, will not be considered responsive unless it is established that all contractual responsibility rests solely with one firm or legal entity

which shall not be a subsidiary or affiliate with limited resources. Each proposal shall indicate the entity responsible for execution on behalf of the proposal team.

Proposal Delivery: You must submit one (1) unbound original plus one (1) electronic copy on compact disk (CD) or flash drive of the proposal no later than the date and time specified above. Submit proposals to: Rob Hart, Purchasing Coordinator, at City Hall down stairs in Room 102, 22 South Beach Street, Ormond Beach, FL 32174. The RFP title and number shall be plainly marked on the outside of the delivery envelope or package. It is solely the responsibility of the submitter to ensure that the Proposal is delivered on or before the specified date and time. Late proposals will not be accepted.

Addenda and Supplements to the Request for Proposals (RFP): In the event that it becomes necessary to revise any part of this RFP, or if additional information is necessary to enable the proposing firm to make an adequate interpretation of the provisions of this RFP, a supplement to the RFP will be provided to each firm that has requested a copy of this document.

Rejection Rights: The City of Ormond Beach reserves the right, at any time, to modify, waive or otherwise vary the terms and conditions of this RFP including, but not limited to, the deadlines for submission and submission requirements. The City further reserves the right to reject any or all submittals, to cancel or withdraw this RFP at any time and to negotiate with any party prior to or after submittal of proposals. Selection is also dependent upon the negotiation of a mutually acceptable contract with the successful proposers.

Cost of Proposal Preparation: No reimbursement will be made by the City of Ormond Beach for any costs incurred in the preparation of the proposal or presentation.

Proposals to be in Effect: Each proposal shall state that it is valid for a period of not less than 90 days from date of receipt.

## VII. EVALUATION PROCESS AND CRITERIA

The City of Ormond Beach will conduct an evaluation of all proposals, submitted by the deadline, to determine compliance with proposal requirements and mandatory document submissions. The committee will consist of members of the Public Works Department and/or other departments as deemed appropriate. The committee will evaluate proposals and select the Proposer that meets the best interests of the City, and will make a recommendation of Award of Contract to the City Commission.

**The City reserves the following rights:**

- Modify, extend, or cancel this RFP at any time to obtain additional proposals or for any other reason the City determines to be in its best interest;

- Issue a new RFP with terms and conditions that are the same, similar or substantially different as those set forth in this or a previous RFP in order to obtain additional proposals or for any other reason the City determines to be in its best interest;

- Conduct pre-award discussion and/or pre-award negotiations with any or all responsive and responsible proposer(s) who submit proposals determined to be reasonably acceptable of being selected for award; and, conduct personal interviews or require presentations of any or all proposer(s) prior to selection.

- Request that proposer(s) furnish additional information as the City may reasonably require.

- Accept or reject qualifications or proposals in part or whole, and/or waive any defect or deficiency in any proposal, if in the City's sole judgment, the defect or deficiency is not material in response to this RFP;

- Limit and/or determine the actual contract services to be included in a contract.

- Engage outside experts to assist staff in evaluating the merits and viability of each proposer.

- Obtain information for use in evaluating submittals from any source.

- Verify the information received in the proposal. If a proposer knowingly and willfully submits false information or data, the City of Ormond Beach reserves the right to reject that proposal. If it is determined that an Agreement was awarded as a result of false statements or other data submitted in response to this RFP, the City of Ormond Beach reserves the right to terminate the Agreement.

The City shall be the sole judge of the proposer's qualifications.

**Evaluation Criteria:**

For the purposes of further evaluation, the responsive proposals will be evaluated on, but shall not be limited to, consideration of the following criteria:

Qualifications and Experience (40 points)
References (30 points)
Price (30 points)

Responsive proposals will be ranked in each of the criteria

## VIII. EXHIBITS

**The following exhibits are provided to assist firms with preparing proposals:**

**REGISTRATION AND INSURANCE REQUIREMENTS FOR VENDOR/CONTRACTOR WORKING ON CITY PROJECTS**

**Registration Requirements**

VENDORS doing business within the City Limits must be registered with the City. Requirements for registering a business are as follows:

Copy of City Business Tax Receipt (where your business is located).
Certificate of Insurance showing General Liability and Workers' Comp (or State Workers' Comp Exemption form).
Application Fee: $25.00 For more information, contact the City's Business Tax Receipt official.

**State Certified/Registered Contractors**

All registered contractors must be registered with Volusia County. Volusia County Contractor Licensing, 123 W. Indiana Ave., Rm 203, Deland, Fl. 32720 (386) 736-5957 Opt. 2 –(386) 248-8158 Fax. Certified Contractors have the option of registering with Volusia County, or providing information directly to the business tax receipt official.

If you have any questions regarding the above requirements, please contact the business tax receipt official at (386) 676-3370.

## EXHIBIT A
## Risk Management and Insurance Requirements

### A. Payment and Performance Bonds

**1.** Except as otherwise provided herein, the Contractor shall, prior to beginning performance, deliver to the City, and the City shall record in the public records of Volusia County, Florida, the Contractor's Payment and Performance Bond in an amount equal to the full amount of the Contract.

**2.** **(a)** Payment and Performance Bonds shall not be required for any contract except those which are for the construction of a public building, for the prosecution and completion of a public work (as described in Section 180.06, **Florida Statutes,** as amended from time to time) or for repairs upon a public building or public work (as described in Section 180.06, **Florida Statutes**, as amended from time to time).

**(b)** With respect to those Contracts for which Payment and Performance Bonds are otherwise required:

**i.** Unless the City Manager, or his designee, determines such Bond to be necessary to protect the interests of the City, no

Contractor shall be required to provide a Payment and Performance Bond for any Contract which is for $25,000.00 or less.

**ii.** Upon the request of the contractor, good cause shown by the Contractor, and a determination that the public health, safety and welfare will be sufficiently protected, the City Commission may exempt the contractor from the requirement of providing a Payment and Performance Bond for any Contract which is for more than $25,000.00 but is less than $200,000.00.

**3.** The Payment and Performance Bond shall list the Contractor as Principal and be issued by a surety insurer authorized to do business in Florida as a surety and listed as an acceptable surety in the Federal Register.

**4.** The Payment and Performance Bond shall be executed pursuant to Section 255.05, **Florida Statutes**, and be in a form substantially similar to the form set forth in Section 255.05(3), **Florida Statutes**.

**5.** The Payment and Performance Bond shall specifically provide coverage for delay damages due to a default by the Contractor.

**6.** The Payment and Performance Bond shall not make the Contract part of the Bond agreement.

**7.** In lieu of the Payment and Performance Bond, the Contractor may file with the Finance Director of the City, in an amount equal to the full amount of the Contract, cash, a money order, a certified check, a cashier's check, an irrevocable letter of credit, or a security of a type listed in Part II, Chapter 625, **Florida Statutes**.

**8.** In the event the surety on any Payment and Performance Bond furnished by the Contractor is declared bankrupt or becomes insolvent, or its right to do business in the State of Florida is terminated, the Contractor shall, within five (5) working days thereafter, substitute another Payment and Performance Bond and surety acceptable to the City.

**9.** The Contractor is totally and solely responsible for keeping its surety informed as to the Base Contract Price as bid, significant changes in the Project Scope, and the overall progress and completion of the Project for the entire life of the Contract.

**10.** The payment and performance bond requirements stated herein above shall not be applicable to service-related contracts unless otherwise determined by the City Manager in order to protect the health, safety and welfare of the general public.

## B. Contractual Provisions Relative to Risk Management

All contracts for any public works to be performed, and service-related contracts, for or on behalf of the City shall include at a minimum, the following, or substantially similar, provisions:

1. **Hold Harmless and Indemnity**
   The Contractor agrees to assume liability for and indemnify, hold harmless, and defend the City, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Contractor, its agents, officers, contractors, subcontractors, employees, or anyone else employed or utilized by the Contractor in the performance of this Contract. The Contractor's liability hereunder shall include all attorney's fees and costs incurred by the City in the enforcement of this provision.

2. **Payment on Behalf of City**
   The Contractor shall pay all costs of the City's legal defense, as may be selected by the City, for all claims described in the Hold Harmless paragraph. Such payment on behalf of the City shall be in addition to any and all other legal remedies available to the City and shall not be considered to be the City's exclusive remedy.

3. **Loss Control/Safety**
   Precaution shall be exercised at all times by the Contractor for the protection of all persons, including employees and property. The Contractor shall comply with all applicable laws, regulations and ordinances related to safety and health, shall make special efforts to detect hazardous conditions, and shall take prompt action when loss control/safety measures are reasonably necessary. The City may order work to be stopped if conditions exist that present an immediate danger to persons or property. The Contractor acknowledges that such work stoppage will not shift responsibility for any damages from the Contractor to the City.

4. **Service Bond**
   For Service-related contracts only, the City may require the Contractor to secure a service bond with a minimum $25,000 coverage limit for the period of the service agreement. The service bond covers dishonest acts of the contractor's employees against the City. A copy of the bond shall be

provided to the City when the agreement commences. Service-related contracts include and are not limited to businesses providing janitorial, pest control, general repair, security, carpet cleaning, locksmith, temporary employment, painting, moving services or other contracts as determined in the discretion of the Risk Manager as necessary to minimize

## C. Contractor's Insurance

### 1. General

The Contractor, including service-related contractors, shall purchase and maintain for the entire life of the Project, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under the Contract Documents, whether such operations be by the Contractor, by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

### 2. Types of Insurance and Limits of Liability

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

**(a)** Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident
$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for coverage. However, if the contractor

subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

**(b)** Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations
h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)
k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence
$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

**(c)** Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract. ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

| | |
|---|---|
| $1 Million | Combined Single Limit for Bodily Injury and Property Damage |

**(d)** Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,0000 per occurrence.

**(e)** Builder's Risk

Contractor shall purchase Builder's Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

**(f)** Professional Liability, Malpractice and/or Errors and Omissions

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

## D. Requirements for Certificates of Insurance

**1.** With the execution of the Contract Documents, the Contractor, including service related contractors, shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall

contain an endorsement that the coverage under the policies will not be canceled, non-renewed or materially changed until at least thirty (30) days' prior written notice of such cancellation, non-renewal or change (except for nonpayment of premium, which shall be ten (10) days) and a copy of the cancellation endorsement signed by an authorized representative of the insurer, be given to the City. The contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACORD FORM 25-S (7/90), or its successor form, and shall be made a part of the Contract Documents.

2. New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

3. If requested by the City, the contractor shall immediately furnish complete copies of the Contractor's insurance policies, forms and endorsements.

4. For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

5. If the Contractor fails to obtain and maintain for the life of the Project the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City form the amount due the Contractor for the work covered by the Contract.

**E. Policies of Insurance**

1. Except as otherwise provided in this Exhibit, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-), in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carrier; written confirmation is required.

3. All policies of insurance or certificates thereof referred to in this Exhibit shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability including products and completed operations and Automobile Liability policies of insurance and certificates thereof.

# CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY): 05/05/2025

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. ☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ _____

**Note:** Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is **not** disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

*(Applies to accounts maintained outside the U.S.)*

5 Address (number, street, and apt. or suite no.) See instructions.

1818 Ronda Lane

Requester's name and address (optional)

6 City, state, and ZIP code

Pierson, Fl 32180

7 List account number(s) here (optional)

## Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

**Note:** If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

**Social security number**

| | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | | | – | | | – | | | | |

**or**

**Employer identification number**

| | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| 7 | 6 | – | 0 | 7 | 4 | 7 | 1 | 0 | 0 |

## Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

**Sign Here** | **Signature of U.S. person** ▶ Chuck Robinson | **Date** ▶ 5/5/2025

# General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

**Future developments.** For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

## Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

*If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See* What is backup withholding, *later.*

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),

2. Certify that you are not subject to backup withholding, or

3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and

4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting,* later, for further information.

**Note:** If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

**Definition of a U.S. person.** For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien;
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States;
- An estate (other than a foreign estate); or
- A domestic trust (as defined in Regulations section 301.7701-7).

**Special rules for partnerships.** Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

In the cases below, the following person must give Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States.

- In the case of a disregarded entity with a U.S. owner, the U.S. owner of the disregarded entity and not the entity;
- In the case of a grantor trust with a U.S. grantor or other U.S. owner, generally, the U.S. grantor or other U.S. owner of the grantor trust and not the trust; and
- In the case of a U.S. trust (other than a grantor trust), the U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

**Foreign person.** If you are a foreign person or the U.S. branch of a foreign bank that has elected to be treated as a U.S. person, do not use Form W-9. Instead, use the appropriate Form W-8 or Form 8233 (see Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).

**Nonresident alien who becomes a resident alien.** Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items.

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.

2. The treaty article addressing the income.

3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.

4. The type and amount of income that qualifies for the exemption from tax.

5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

***Example.*** Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity, give the requester the appropriate completed Form W-8 or Form 8233.

## Backup Withholding

**What is backup withholding?** Persons making certain payments to you must under certain conditions withhold and pay to the IRS 24% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, payments made in settlement of payment card and third party network transactions, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

**Payments you receive will be subject to backup withholding if:**

1. You do not furnish your TIN to the requester,

2. You do not certify your TIN when required (see the instructions for Part II for details),

3. The IRS tells the requester that you furnished an incorrect TIN,

4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or

5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See *Exempt payee code,* later, and the separate Instructions for the Requester of Form W-9 for more information.

Also see *Special rules for partnerships,* earlier.

## What is FATCA Reporting?

The Foreign Account Tax Compliance Act (FATCA) requires a participating foreign financial institution to report all United States account holders that are specified United States persons. Certain payees are exempt from FATCA reporting. See *Exemption from FATCA reporting code,* later, and the Instructions for the Requester of Form W-9 for more information.

## Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you no longer are tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account; for example, if the grantor of a grantor trust dies.

## Penalties

**Failure to furnish TIN.** If you fail to furnish your correct TIN to a requester, you are subject to a penalty of $50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

**Civil penalty for false information with respect to withholding.** If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a $500 penalty.

**Criminal penalty for falsifying information.** Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

**Misuse of TINs.** If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

# Specific Instructions

## Line 1

You must enter one of the following on this line; **do not** leave this line blank. The name should match the name on your tax return.

If this Form W-9 is for a joint account (other than an account maintained by a foreign financial institution (FFI)), list first, and then circle, the name of the person or entity whose number you entered in Part I of Form W-9. If you are providing Form W-9 to an FFI to document a joint account, each holder of the account that is a U.S. person must provide a Form W-9.

a. **Individual.** Generally, enter the name shown on your tax return. If you have changed your last name without informing the Social Security Administration (SSA) of the name change, enter your first name, the last name as shown on your social security card, and your new last name.

**Note: ITIN applicant:** Enter your individual name as it was entered on your Form W-7 application, line 1a. This should also be the same as the name you entered on the Form 1040/1040A/1040EZ you filed with your application.

b. **Sole proprietor or single-member LLC.** Enter your individual name as shown on your 1040/1040A/1040EZ on line 1. You may enter your business, trade, or "doing business as" (DBA) name on line 2.

c. **Partnership, LLC that is not a single-member LLC, C corporation, or S corporation.** Enter the entity's name as shown on the entity's tax return on line 1 and any business, trade, or DBA name on line 2.

d. **Other entities.** Enter your name as shown on required U.S. federal tax documents on line 1. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on line 2.

e. **Disregarded entity.** For U.S. federal tax purposes, an entity that is disregarded as an entity separate from its owner is treated as a "disregarded entity." See Regulations section 301.7701-2(c)(2)(iii). Enter the owner's name on line 1. The name of the entity entered on line 1 should never be a disregarded entity. The name on line 1 should be the name shown on the income tax return on which the income should be reported. For example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a single owner that is a U.S. person, the U.S. owner's name is required to be provided on line 1. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity's name on line 2, "Business name/disregarded entity name." If the owner of the disregarded entity is a foreign person, the owner must complete an appropriate Form W-8 instead of a Form W-9. This is the case even if the foreign person has a U.S. TIN.

## Line 2

If you have a business name, trade name, DBA name, or disregarded entity name, you may enter it on line 2.

## Line 3

Check the appropriate box on line 3 for the U.S. federal tax classification of the person whose name is entered on line 1. Check only one box on line 3.

| IF the entity/person on line 1 is a(n) . . . | THEN check the box for . . . |
|---|---|
| • Corporation | Corporation |
| • Individual<br>• Sole proprietorship, or<br>• Single-member limited liability company (LLC) owned by an individual and disregarded for U.S. federal tax purposes. | Individual/sole proprietor or single-member LLC |
| • LLC treated as a partnership for U.S. federal tax purposes,<br>• LLC that has filed Form 8832 or 2553 to be taxed as a corporation, or<br>• LLC that is disregarded as an entity separate from its owner but the owner is another LLC that is not disregarded for U.S. federal tax purposes. | Limited liability company and enter the appropriate tax classification. (P= Partnership; C= C corporation; or S= S corporation) |
| • Partnership | Partnership |
| • Trust/estate | Trust/estate |

## Line 4, Exemptions

If you are exempt from backup withholding and/or FATCA reporting, enter in the appropriate space on line 4 any code(s) that may apply to you.

**Exempt payee code.**

- Generally, individuals (including sole proprietors) are not exempt from backup withholding.
- Except as provided below, corporations are exempt from backup withholding for certain payments, including interest and dividends.
- Corporations are not exempt from backup withholding for payments made in settlement of payment card or third party network transactions.
- Corporations are not exempt from backup withholding with respect to attorneys' fees or gross proceeds paid to attorneys, and corporations that provide medical or health care services are not exempt with respect to payments reportable on Form 1099-MISC.

The following codes identify payees that are exempt from backup withholding. Enter the appropriate code in the space in line 4.

1—An organization exempt from tax under section 501(a), any IRA, or a custodial account under section 403(b)(7) if the account satisfies the requirements of section 401(f)(2)

2—The United States or any of its agencies or instrumentalities

3—A state, the District of Columbia, a U.S. commonwealth or possession, or any of their political subdivisions or instrumentalities

4—A foreign government or any of its political subdivisions, agencies, or instrumentalities

5—A corporation

6—A dealer in securities or commodities required to register in the United States, the District of Columbia, or a U.S. commonwealth or possession

7—A futures commission merchant registered with the Commodity Futures Trading Commission

8—A real estate investment trust

9—An entity registered at all times during the tax year under the Investment Company Act of 1940

10—A common trust fund operated by a bank under section 584(a)

11—A financial institution

12—A middleman known in the investment community as a nominee or custodian

13—A trust exempt from tax under section 664 or described in section 4947

The following chart shows types of payments that may be exempt from backup withholding. The chart applies to the exempt payees listed above, 1 through 13.

| IF the payment is for . . . | THEN the payment is exempt for . . . |
|---|---|
| Interest and dividend payments | All exempt payees except for 7 |
| Broker transactions | Exempt payees 1 through 4 and 6 through 11 and all C corporations. S corporations must not enter an exempt payee code because they are exempt only for sales of noncovered securities acquired prior to 2012. |
| Barter exchange transactions and patronage dividends | Exempt payees 1 through 4 |
| Payments over $600 required to be reported and direct sales over $5,000[1] | Generally, exempt payees 1 through 5[2] |
| Payments made in settlement of payment card or third party network transactions | Exempt payees 1 through 4 |

[1] See Form 1099-MISC, Miscellaneous Income, and its instructions.

[2] However, the following payments made to a corporation and reportable on Form 1099-MISC are not exempt from backup withholding: medical and health care payments, attorneys' fees, gross proceeds paid to an attorney reportable under section 6045(f), and payments for services paid by a federal executive agency.

**Exemption from FATCA reporting code.** The following codes identify payees that are exempt from reporting under FATCA. These codes apply to persons submitting this form for accounts maintained outside of the United States by certain foreign financial institutions. Therefore, if you are only submitting this form for an account you hold in the United States, you may leave this field blank. Consult with the person requesting this form if you are uncertain if the financial institution is subject to these requirements. A requester may indicate that a code is not required by providing you with a Form W-9 with "Not Applicable" (or any similar indication) written or printed on the line for a FATCA exemption code.

A—An organization exempt from tax under section 501(a) or any individual retirement plan as defined in section 7701(a)(37)

B—The United States or any of its agencies or instrumentalities

C—A state, the District of Columbia, a U.S. commonwealth or possession, or any of their political subdivisions or instrumentalities

D—A corporation the stock of which is regularly traded on one or more established securities markets, as described in Regulations section 1.1472-1(c)(1)(i)

E—A corporation that is a member of the same expanded affiliated group as a corporation described in Regulations section 1.1472-1(c)(1)(i)

F—A dealer in securities, commodities, or derivative financial instruments (including notional principal contracts, futures, forwards, and options) that is registered as such under the laws of the United States or any state

G—A real estate investment trust

H—A regulated investment company as defined in section 851 or an entity registered at all times during the tax year under the Investment Company Act of 1940

I—A common trust fund as defined in section 584(a)

J—A bank as defined in section 581

K—A broker

L—A trust exempt from tax under section 664 or described in section 4947(a)(1)

M—A tax exempt trust under a section 403(b) plan or section 457(g) plan

**Note:** You may wish to consult with the financial institution requesting this form to determine whether the FATCA code and/or exempt payee code should be completed.

### Line 5

Enter your address (number, street, and apartment or suite number). This is where the requester of this Form W-9 will mail your information returns. If this address differs from the one the requester already has on file, write NEW at the top. If a new address is provided, there is still a chance the old address will be used until the payor changes your address in their records.

### Line 6

Enter your city, state, and ZIP code.

## Part I. Taxpayer Identification Number (TIN)

**Enter your TIN in the appropriate box.** If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN.

If you are a single-member LLC that is disregarded as an entity separate from its owner, enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN. If the LLC is classified as a corporation or partnership, enter the entity's EIN.

**Note:** See *What Name and Number To Give the Requester*, later, for further clarification of name and TIN combinations.

**How to get a TIN.** If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local SSA office or get this form online at *www.SSA.gov*. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at *www.irs.gov/Businesses* and clicking on Employer Identification Number (EIN) under Starting a Business. Go to *www.irs.gov/Forms* to view, download, or print Form W-7 and/or Form SS-4. Or, you can go to *www.irs.gov/OrderForms* to place an order and have Form W-7 and/or SS-4 mailed to you within 10 business days.

If you are asked to complete Form W-9 but do not have a TIN, apply for a TIN and write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

**Note:** Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

**Caution:** A disregarded U.S. entity that has a foreign owner must use the appropriate Form W-8.

## Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if item 1, 4, or 5 below indicates otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on line 1 must sign. Exempt payees, see *Exempt payee code*, earlier.

**Signature requirements.** Complete the certification as indicated in items 1 through 5 below.

**1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983.** You must give your correct TIN, but you do not have to sign the certification.

**2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983.** You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

**3. Real estate transactions.** You must sign the certification. You may cross out item 2 of the certification.

**4. Other payments.** You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments made in settlement of payment card and third party network transactions, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

**5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), ABLE accounts (under section 529A), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions.** You must give your correct TIN, but you do not have to sign the certification.

## What Name and Number To Give the Requester

| For this type of account: | Give name and SSN of: |
|---|---|
| 1. Individual | The individual |
| 2. Two or more individuals (joint account) other than an account maintained by an FFI | The actual owner of the account or, if combined funds, the first individual on the account[1] |
| 3. Two or more U.S. persons (joint account maintained by an FFI) | Each holder of the account |
| 4. Custodial account of a minor (Uniform Gift to Minors Act) | The minor[2] |
| 5. a. The usual revocable savings trust (grantor is also trustee) | The grantor-trustee[1] |
| b. So-called trust account that is not a legal or valid trust under state law | The actual owner[1] |
| 6. Sole proprietorship or disregarded entity owned by an individual | The owner[3] |
| 7. Grantor trust filing under Optional Form 1099 Filing Method 1 (see Regulations section 1.671-4(b)(2)(i)(A)) | The grantor* |
| **For this type of account:** | **Give name and EIN of:** |
| 8. Disregarded entity not owned by an individual | The owner |
| 9. A valid trust, estate, or pension trust | Legal entity[4] |
| 10. Corporation or LLC electing corporate status on Form 8832 or Form 2553 | The corporation |
| 11. Association, club, religious, charitable, educational, or other tax-exempt organization | The organization |
| 12. Partnership or multi-member LLC | The partnership |
| 13. A broker or registered nominee | The broker or nominee |
| 14. Account with the Department of Agriculture in the name of a public entity (such as a state or local government, school district, or prison) that receives agricultural program payments | The public entity |
| 15. Grantor trust filing under the Form 1041 Filing Method or the Optional Form 1099 Filing Method 2 (see Regulations section 1.671-4(b)(2)(i)(B)) | The trust |

[1] List first and circle the name of the person whose number you furnish. If only one person on a joint account has an SSN, that person's number must be furnished.

[2] Circle the minor's name and furnish the minor's SSN.

[3] You must show your individual name and you may also enter your business or DBA name on the "Business name/disregarded entity" name line. You may use either your SSN or EIN (if you have one), but the IRS encourages you to use your SSN.

[4] List first and circle the name of the trust, estate, or pension trust. (Do not furnish the TIN of the personal representative or trustee unless the legal entity itself is not designated in the account title.) Also see *Special rules for partnerships,* earlier.

***Note:** The grantor also must provide a Form W-9 to trustee of trust.

**Note:** If no name is circled when more than one name is listed, the number will be considered to be that of the first name listed.

## Secure Your Tax Records From Identity Theft

Identity theft occurs when someone uses your personal information such as your name, SSN, or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity or credit report, contact the IRS Identity Theft Hotline at 1-800-908-4490 or submit Form 14039.

For more information, see Pub. 5027, Identity Theft Information for Taxpayers.

Victims of identity theft who are experiencing economic harm or a systemic problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

**Protect yourself from suspicious emails or phishing schemes.** Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to *phishing@irs.gov*. You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration (TIGTA) at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at *spam@uce.gov* or report them at *www.ftc.gov/complaint*. You can contact the FTC at *www.ftc.gov/idtheft* or 877-IDTHEFT (877-438-4338). If you have been the victim of identity theft, see *www.IdentityTheft.gov* and Pub. 5027.

Visit *www.irs.gov/IdentityTheft* to learn more about identity theft and how to reduce your risk.

## Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons (including federal agencies) who are required to file information returns with the IRS to report interest, dividends, or certain other income paid to you; mortgage interest you paid; the acquisition or abandonment of secured property; the cancellation of debt; or contributions you made to an IRA, Archer MSA, or HSA. The person collecting this form uses the information on the form to file information returns with the IRS, reporting the above information. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation and to cities, states, the District of Columbia, and U.S. commonwealths and possessions for use in administering their laws. The information also may be disclosed to other countries under a treaty, to federal and state agencies to enforce civil and criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism. You must provide your TIN whether or not you are required to file a tax return. Under section 3406, payers must generally withhold a percentage of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to the payer. Certain penalties may also apply for providing false or fraudulent information.

## DRUG-FREE WORKPLACE CERTIFICATION

**IDENTICAL OR "TIE" SUBMITTALS**: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.

3) Give each employee that engages in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5 ) calendar days after such conviction.

5) Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

## AFFIDAVIT OF COMPLIANCE WITH SECTION 287.138, FLORIDA STATUTES

### AFFIDAVIT OF COMPLIANCE WITH SECTION 287.138, FLORIDA STATUTES CONTRACTING WITH FOREIGN ENTITIES OF CONCERN

The undersigned ("Affiant"), on behalf of the entity listed below ("Entity"), hereby attests under penalty of perjury as follows:

1. Affiant is the Owner (Title) of Chuck Robinson Concrete + Bob Cat Inc (Business Name) which does business in the State of Florida, hereinafter called the "Entity".
2. Entity is not owned by the government of a foreign country of concern, as defined in Section 287.138 (1) (c), Florida Statutes.
3. The government of a foreign country of concern does not have a controlling interest in Entity, as defined in Section 287.138 (1)(a), Florida Statutes.
4. Entity is not organized under the laws of, and does not have a principal place of business in, a foreign country of concern.
5. Entity is not owned or controlled by the government of a foreign country of concern.
6. For purposes of this affidavit, a foreign country of concern means the People's Republic of China, the Russian Federation, the Islamic Republic of Iran, the Democratic People's Republic of Korea, the Republic of Cuba, the Venezuelan regime of Nicolas Maduro, or the Syrian Arab Republic, including any agency of or any other entity of significant control of such foreign country of concern, as defined in Section 287.138(1)(c), Florida Statutes.

The undersigned is authorized to execute this affidavit on behalf of the Entity.

## VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

---

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.

3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.

4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.

5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

ESTATE MANAGEMENT
SERVICES

## About Estate Management Services

Over our 30-year history, Estate Management Services has grown into one of the largest and most well-regarded aquatics companies in the United States. Our broad range of services, highly trained workforce and unparalleled technical expertise has set us apart in the aquatic industry.

EMS maintains eight locations across five states, providing contract aquatic maintenance and compliance services for a range of municipal, commercial, federal, and private clients. Additionally, EMS boasts robust capabilities in wetland mitigation plans, wetland delineations, dredging, airboat application, aerial application, aquatic toxicology analysis and laboratory services.

EMS' consulting arm, Meryman Environmental, is headquartered in Riverview, FL and has been a FL-based Environmental Consultant for 50 years. While operating under different names, EMS and Meryman have the same ownership and work closely together on aquatic and wetland management plan design and execution.

EMS also has a stormwater services arm, Georgia Stormwater Services, headquartered in Atlanta, Ga and has been a stormwater service Consultant and repair company for 9 years. While operating under different names, EMS and GSS have the same ownership and work closely together on stormwater Consulting, Inspections and repairs.

## Our Leadership Team

**John Crabb, Sr. Aquatics Director** - John Crabb has been a licensed aquatics contractor for 30 years across eleven different states. A former board member for the SC Aquatic Plant Management Society and the Arkansas Water Resource Commission, John has been actively involved in the aquatics industry and an advocate for the preservation of natural areas for his entire career. John has provided consulting services for GADNR, SCDNR, Tennessee Valley Authority, City of Atlanta, and Santee Cooper in matters regarding water quality and aquatic resource management. In his 30 years in the industry, John has overseen large-scale lake management programs and drinking reservoirs in thirteen different states.

**Jeremy Anderson, Natural Areas/ Wetlands Director** – Jeremy Anderson has 20 years of natural areas management experience on private, federal, state and utility waterways. He has 10 years of experience treating aquatic weeds on the Santee Cooper lakes. Jeremy is licensed in six states in aquatics, right-of-way, and natural areas. Mr. Anderson also holds certifications as a Master Certified Pond/ Stormwater Manager, USCG Captains License, SePRO Certified preferred applicator and Procellacor specialist. Additionally, Jeremy is an experienced Raven Precision Guided spray technician and is licensed BioBase Bathymetry mapping technician. Jeremy oversees services for Miami Dade County, SCDNR aquatic vegetation control program and Santee Lake management program. Jeremy is also certified in hazardous material handling and spill containment.

**Jennifer Kasper, Chief Operating Officer** - Jennifer Kasper has over 15 years of management experience. Jennifer specializes in administrative management, team leading, and is actively engaged in aquatics training. She oversees all aspects of EMS operations, driving efficiency, scalability, and profitability. With a proven history of implementing innovative solutions and optimizing processes, Jennifer Kasper plays a pivotal role in guiding EMS towards its strategic goals. She brings a combination of strategic vision and hand-on operational expertise, ensuring alignment across departments and fostering a culture of collaboration and excellence. Jennifer is a powerful force in the workplace and uses her cheerful outlook and tireless energy to encourage others to work hard and succeed as a team.

**Tim Woodland, President** – Tim Woodland has over 15 years of experience in construction, development, and land management, with a particular focus on large scale project management across multiple geographies. Tim is a licensed General Contractor, a Certified Master Pond Manager, and is a member of the Stormwater Policy Committee for the Southeast Stormwater Association. Tim has completed successful projects in 27 different states and internationally for numerous Fortune 100 companies, heads of state and federal and municipal entities.

ESTATE MANAGEMENT SERVICES

May 1, 2025

Re: Information about Our Services

Here is some information about our company. Estate Management Services is a Georgia based corporation with offices throughout the Southeast, Mid-South, and Mid-West. With our 30 years of experience, we are able to provide consulting for lake systems, stormwater systems and drinking reservoirs worldwide. We are best known for our advanced technology and a true turnkey all in one service provider. We have in-house staffed dredge services, limnology services, lab services, fountain and aeration, mosquito abatement, aqua scaping, SOX erosion services, fisheries management, airboat services, and Truxor amphibious work. Besides our staff, our strengths are the ability to provide the client with the best possible solutions by not just recommending the only services that we provide. Our full scale of services affords you the comfort of knowing we are suggesting the best possible solutions to your aquatics program needs.

Feel free to contact me should you have any questions.

Sincerely,

Jeremy Anderson
Natural Areas and Wetlands Director
Estate Management Services

# City of Ormond Beach

Plan:

City of Ormond Beach,

We are a full service Aquatic Pond/ Lake Management Company and we look forward to the opportunity to provide these services for you. Based on your needs we have put together this proposal package to cover all the possible options you may need during this agreement if selected. We are fully committed to dredging or clearing ponds, lakes, canals, ditches and lakes of excess vegetation or sediment.

Our goal is to upon being advised of a particular need gather all pertinent information and any required permits and mobilize. At that time, we will complete the assigned project with professional service in a timely manner. As each of these pieces of equipment is different and performing different tasks the approach plan will vary slightly. However, we are educated in servicing and completing any task that may arise based on the proposed specifications. If you have any questions, please feel free to contact me.

Sincerely,

Jeremy Anderson

To Whom It May Concern,

Personally, I have had the pleasure of working with Estate Management Services over the past five years. Santee Cooper's lake management group has worked alongside them for ten years, during which time they consistently demonstrated commitment and reliability in aquatic plant management.

Estate Management Services has managed a variety of aquatic plant issues on the Santee Cooper lake system, including invasive species control. Generally, they have aided Santee Cooper in managing species like crested floating heart, water hyacinth, and giant salvinia in non- residential areas. At times, they have also effectively treated these same species in residential areas. Occasionally, they have helped us treat algal blooms in wastewater ponds, at our generating stations. They have been a pleasant part of our team regardless of the aquatic plant issue at hand.

I am confident that Santee Cooper will continue to have a positive relationship with EMS. I would recommend them to any organization needing their assistance in aquatic plant control.

Please feel free to contact me at (843)761-8000 ext. 4407 or allan.stack@santeecooper.com if you have any questions or require further information.

Sincerely,

Allan Stack

Re: Letter of Recommendation

To Whom It May Concern:

I have had the pleasure of knowing Mr. Jeremy Anderson of Estate Management Services for about **4 years**. Through a contract with Miami Dade County Special Taxing the company was awarded the task to clean and maintain certain Lakes in different communities for residents. The scope of work was to provide quality control inspections, aquatic weed control such as maintaining weeds, algae, floating/submerged weeds & border grass. During this period, he demonstrated that he is very honest, dedicated, energetic, positive, and conscientious in whatever he undertakes.

Based on my observation, in terms of his professional career, I would recommend Mr. Anderson and the Estate Management Services for water control quality services. He is motivated, responsible, and possesses a high degree of integrity. Should you need any further information, please do not hesitate to contact me at **(786) 202-1037**.

Sincerely,

Larry C. Gardner

Re: Letter of Recommendation

To Whom It May Concern,

My name is Johnny Richardson, and I am the Water Resource Scientist for Leon County Public Works, located in Tallahassee, FL. I am happy to write this Letter of Recommendation for Estate Management Services, Inc.

I have worked with Jeremy Anderson of Estate Management Services since early 2024 on an ongoing invasive exotic aquatic plant removal project that encompasses natural waterbodies as well as stormwater facilities in Leon County, Florida. I have been extremely satisfied with the results of the project, the work ethic of Estate Management Services' employees, as well as my ongoing working relationship with Mr. Anderson.

I wholeheartedly recommend Mr. Anderson and Estate Management Services, Inc. for herbicide treatment of invasive exotic aquatic plants in natural, or manmade (e. g., stormwater facilities) waterbodies. Please feel free to contact me by phone (850) 606-1541 or email at Richardsonjo@leoncountyfl.gov.

Sincerely,

Johnny Richardson

Summary

The purpose of this agenda item is to award the contract for the design and installation of new playground equipment at Andy Romano Beachfront Park and Fire Station 91.

Four contractors submitted proposals in response to the Request for Proposals (RFP) issued by the City. The vendors include Play Power LT Farmington Inc c/o Playworx Playsets LLC, Playmore West Inc.,Lanier Plans Inc dba KorKat, and Playcore Wisconsin Inc dba Gametime.

The proposals were reviewed by the 3 members of the evaluation committee, comprised of Robert Carolin, Leisure Services Director, David Lisicki, Contract Manager, and Cindy Berglund, Permit Manager.

The proposals varied in price from $226,148.48 to $299,738.08 and were evaluated based on scoring evaluation as follows:

- Qualifications and Experience (30 points)
- References (20 points)
- Proposed Playground Equipment and Configuration (30 points)
- Written Proposal & Project Schedule (20 points)

Based on a comprehensive evaluation of all submissions and the highest overall scores, the Evaluation Committee recommends the contract be awarded to Playcore Wisconsin Inc., dba Gametime. The Committee has endorsed the selection of Option A for both sites, which

encompasses the preferred design elements, equipment specifications, and installation schedule.

Financial Impact

The Fire Station 91 playground cost of $183,505.12 is included in the FY 2024-25 budget under Fund 317 – Facilities Renewal & Replacement Fund. The Andy Romano Beachfront Park playground, a cost of $114,976, was not included within the current budget and will need a budget amendment from the General Fund Reserves.

Citizen Impact

The new playground equipment will provide necessary structural updates, enhance the recreational components of the City's parks, and improve the quality of life for residents and visitors of Ormond Beach.

**RESOLUTION NO. 2025-117**

A RESOLUTION ACCEPTING THE PROPOSAL OF PLAYCORE WISCONSIN, INC. D/B/A GAMETIME REGARDING THE PURCHASE AND INSTALLATION OF PLAYGROUND EQUIPMENT FOR ANDY ROMANO BEACHFRONT PARK AND FIRE STATION 91 PARK; AUTHORIZING THE EXECUTION OF AN AGREEMENT AND PAYMENT THEREFOR; REJECTING ALL OTHER PROPOSALS; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS**, the City solicited proposals for the purchase and installation of playground equipment at Andy Romano Beachfront Park and Fire Station 91 Park (the Project) (City RFP No. 2025-37), in accordance with Section 2-300, *Code of Ordinances*, and

**WHEREAS,** the City's evaluation committee reviewed the four (4) proposals received and determined that the most advantageous proposal for the City is the proposal submitted by Playcore Wisconsin, Inc. d/b/a Gametime to provide playground equipment for Andy Romano Beachfront Park in the amount of $114,976.00 and Fire Station 91 Park in the amount of $183,505.12 (a copy of said proposals being incorporated in the contract which is attached hereto and incorporated herein by reference), and

**WHEREAS**, based on the foregoing the City's professional staff recommends that the City Commission accept the proposal of Playcore Wisconsin, Inc. d/b/a Gametime and execute an agreement for the Project, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE**. The proposal of Playcore Wisconsin, Inc. d/b/a Gametime for the purchase and installation of playground equipment at Andy Romano Beachfront Park and Fire Station 91 Park is hereby accepted.

**SECTION TWO**. All other proposals relative to the aforedescribed Project shall be deemed rejected upon the execution of an agreement with Playcore Wisconsin, Inc. d/b/a Gametime.

**SECTION THREE** The Mayor and the City Manager are hereby authorized and directed to execute an Agreement between the City and Playcore Wisconsin, Inc. d/b/a Gametime for the Project in the total amount of $298,481.12, and to pay the cost thereof from the Facilities Renewal and Replacement Fund (317) and General Fund Reserves.

**SECTION FOUR.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025.**

City Clerk

## AGREEMENT

**THIS AGREEMENT** is made and entered into by and between the **City of Ormond Beach** ("City"), a Florida municipal corporation, 22 South Beach Street, Ormond Beach, Volusia County, Florida and **Playcore Wisconsin, Inc. d/b/a Gametime** ("Contractor"), 150 Playcore Drive SE, Fort Payne, AL 35968, and in consideration of the mutual promises and covenants herein contained, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree to the following:

1. **Scope of Work.** The Request for Proposals RFP 2025-37 "Andy Romano Beachfront Park and Fire Station 91 Playground" attached hereto as Exhibit "A", Contractor's proposal for Option A-Andy Romano Playground attached hereto as Exhibit "B", and Contractor's proposal for Option A-Fire Station 91 Playground attached hereto as Exhibit C" are all incorporated herein by reference and are a material part of this Agreement. The Contractor shall fully comply with the terms and conditions described in the attached exhibits.

2. **Term.** This Agreement shall be effective on the date it is fully executed by the parties. It shall remain in effect for the duration of both projects which are each estimated to be 150 days for final completion from the notice to proceed.

3. **Consideration.** Contractor shall provide the equipment and perform the services at the following prices:

   Andy Romano Playground, Option A for the total sum of $114,976.00 as more fully set forth on Exhibit "B";

   Fire Station 91 Playground, Option A for the total sum of $183,505.12 as more fully set forth on Exhibit "C".

   Contractor shall prepare and submit invoices to the City at the address set forth in Paragraph 9 of this Agreement. All such invoices shall be paid by the City within thirty (30) days. Final payment will be made only after delivery and installation of the equipment and completion of the City's final acceptance inspection.

4. **Delivery.** Contractor shall complete the project within the time frame set forth on the attached exhibits.

5. **Termination of Agreement**.

   (a) The City Commission shall have the right to terminate the Agreement in the event the Contractor files any petition or proceeding for bankruptcy relief, or is adjudicated to be bankrupt or insolvent, or fails to pay just debts as they ordinarily become due; or for a material breach of this agreement that remains uncured for at least thirty days after prior written receipt of a notice of violation of same.

   (b) This Agreement may not be terminated by the Contractor.

6. **Assignment**. The Contractor shall not assign, convey or transfer all or any part of this Agreement, or all or any part of Contractor's interest herein, or all or any part of any interest

in the Contractor, without the prior written consent of the City Commission, which consent shall not be unreasonably withheld.

7. **Complete Agreement**. This Agreement, including the provisions set forth in the exhibits attached hereto and incorporated by reference herein, constitutes the entire and complete agreement of the parties, and the promises and covenants herein contained shall survive the life of this Agreement.

8. **Amendment to Agreement**. Any amendment, change, or modification of this Agreement must be in writing and fully executed by both parties.

9. **Notices**. All notices which are required by this Agreement shall be provided to the parties at the following addresses, or such other addresses as may be requested in writing by either party:

| | |
|---|---|
| **City of Ormond Beach** | **Playcore Wisconsin, Inc.** |
| Joyce Shanahan, City Manager | **d/b/a Gametime** |
| (copy to City Attorney) | Rob Dominica |
| 22 South Beach Street | 150 Playcore Drive SE |
| Ormond Beach, FL 32174 | Fort Payne, AL 35968 |

10. **Sovereign Immunity**. The City expressly retains and reserves all rights, privileges, immunities, and benefits of sovereign immunity. This provision shall be construed broadly in favor of the City.

11. **Venue**. The terms and conditions of this Agreement shall be construed and enforced under the laws of the State of Florida. Any action or proceeding, either at law or in equity, regarding this Agreement shall be brought in the circuit court, Seventh Judicial Circuit in and for Volusia County, Florida. Venue in any other jurisdiction or forum, whether it be any other circuit, state or federal venue, is hereby expressly waived.

12. **Waiver of Conditions**. No waiver by the City of any condition or breach of performance by the Contractor shall constitute an irrevocable, continuing, or subsequent waiver by the City of the same condition or breach of performance, or of any other condition or other breach of performance.

13. **Severability**. If any part of this Agreement is declared to be unenforceable or void by a court of competent jurisdiction, the remaining parts of the Agreement shall remain in full force and effect as long as the services to be provided by the Contractor are not materially affected, altered or impaired as a result of said judicial declaration.

14. **Conflicting Provisions.** In the event of any conflict between the provisions of this Agreement and any exhibits, the provision most favorable to the City shall control and shall be given full force and effect.

15. **Indemnification**. The City, its agents, employees, and officials, both elected and appointed, shall be indemnified and held harmless by Contractor from any and all liabilities, claims, and causes of action which may arise out of the willful, negligent, or unlawful acts or omissions of the Contractor or its subcontractors in the performance of this Agreement, unless such claims are a result of the City's sole negligence, as determined by the final decision maker of such claim.

16. **Duty to Defend.** The Contractor shall defend all suits and administrative actions, including all appellate proceedings, brought against the City, its agents, employees, and officials, both elected and appointed and shall pay all attorneys' fees and costs associated with the City's legal defense, as may be selected by the City, arising from all claims and causes of action described in Section 15 above. Such payment on behalf of the City shall be in addition to any and all other legal or equitable remedies available to the City and shall not be considered to be the City's exclusive remedy.

17. **Contractor's Insurance**. The Contractor shall purchase and maintain for the entire life of this Agreement, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under this Agreement, whether such operations be by the Contractor, or by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

18. **Types of Insurance and Limits of Liability**

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

**(a)** Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident
$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for

coverage. However, if the contractor subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

**(b)** Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations
h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)
k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence
$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

**(c)** Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract.

ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

| | |
|---|---|
| $1 Million | Combined Single Limit for Bodily Injury and Property Damage |

**(d)** Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,0000 per occurrence.

**(e)** Builder's Risk

Contractor shall purchase Builder's Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

**(f)** Professional Liability, Malpractice and/or Errors and Omissions

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

19. **Requirements for Certificates of Insurance.**

(a) With the execution of this Agreement, the Contractor shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall contain a provision that the coverage under the policies will not be canceled, non-renewed or materially changed until at least **thirty (30)** days' prior written notice

of such cancellation, non-renewal or change [except for nonpayment of premium, which shall be **ten (10)** days] has been given to the City. The Contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACORD FORM 25-S (7/90), or its successor form, and shall be made a part of this Agreement.

(b) New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

(c) If requested by the City, the Contractor shall furnish complete copies of the Contractor's insurance policies, forms and endorsements.

(d) For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

(e) If the Contractor fails to obtain and maintain for the life of the Agreement the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City from the amount due the Contractor for the work covered by the Agreement.

(f) **Policies of Insurance**

1. Except as otherwise provided herein, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-) in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carriers; written confirmation is required.

3. All policies of insurance or certificates thereof referred to herein shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability and Automobile Liability policies of insurance and certificates thereof.

20. **Enforcement of Costs**. If any legal action or other proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default, or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorneys' fees, court costs, and all expenses even if not taxable court costs (including, without limitation, all such fees, costs and expenses incident to arbitration, appellate, bankruptcy, and post-judgment proceedings), incurred in that action or proceeding or any appeal, in addition to any other relief to which the party or parties may be entitled. Attorneys' fees include legal assistant fees, expert witness fees, investigative fees, administrative costs, and all other charges billed by the attorney for the prevailing party.

21. **Compliance With Laws.** Contractor shall comply with all applicable federal, state and local laws and regulations.

22. **Compliance With Florida Public Records Law**. Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.
(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.
(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.
(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

**IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS**

**RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:**

**CITY CLERK**
**22 SOUTH BEACH STREET**
**ORMOND BEACH, FLORIDA 32175. (386)677-0311**
**CITYCLERK@ORMONDBEACH.ORG**

Ref: Fla. Stat. §119.0701(2016)

23. **Limitation of Remedy and Liability.** Contractor and Owner expressly waive any claim for consequential damages against the other including but not limited to, a waiver of claims for diminished bonding capacity, loss of financing, loss of business reputation, lost profits on other projects or other lost opportunity damage claims.

Contractor expressly agrees that any claim (tort, contract, claim in equity, or otherwise) by Contractor for damages against Owner shall not exceed the total amount of the contract price, less any amounts actually paid to the Contractor by the Owner.

24. **Waiver of Right to Jury Trial.** THE PARTIES HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVE ANY RIGHT WHICH ANY PARTY MAY HAVE TO TRIAL BY JURY IN RESPECT OF ANY PROCEEDING, LITIGATION OR COUNTERCLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN) OR ACTIONS OF ANY PARTY. IF THE SUBJECT MATTER OF ANY LAWSUIT IS ONE IN WHICH THE WAIVER OF JURY TRIAL IS PROHIBITED, NO PARTY TO THIS AGREEMENT SHALL PRESENT AS A NON-COMPULSORY COUNTERCLAIM IN ANY SUCH LAWSUIT ANY CLAIM BASED ON, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT. FURTHERMORE, NO PARTY TO THIS AGREEMENT SHALL SEEK TO CONSOLIDATE ANY SUCH ACTION IN WHICH A JURY TRIAL CANNOT BE WAIVED.

25. **Verification of Employment Status Using E-Verify System**

(a) Section 448.09, *Florida Statutes*, makes it unlawful for any person to knowingly employ, hire, recruit, or refer, either for herself or himself, or on behalf of another, for private or public employment within the state, an alien who is not duly authorized to work in the United States. Contractor warrants that it is registered with the U.S. Department of Homeland Security's E-Verify system, and is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

(b) Contractor agrees that if the contractor enters into an agreement with a subcontractor, the subcontractor must provide the contractor with an affidavit stating that the

subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and contractor warrants it shall maintain any such affidavits for the duration of the contract. If the City has a good faith belief that a subcontractor knowingly violated Section 448.09 (1), the City shall promptly notify the contractor and order the contractor to immediately terminate the contract with the subcontractor.

(c) In the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and as provided by statute, the contractor may not be awarded a public contract for at least one (1) year after the date of termination. The contractor may also be held liable for any additional costs incurred by the City as a result of the termination of the contract.

26. **No Conflict of Interest.** The Contractor warrants and agrees that neither it, nor any of its employees, agents, officers, directors, shareholders and independent contractors are, or will become, under contract with or accept compensation from any individual, business, corporation or governmental entity that has the possibility of an adverse interest to those of the City of Ormond Beach. The Contractor and its officers, directors, shareholders, employers, agents and subcontractors, agree not to provide any services or assistance to any entity directly or indirectly relating to the services provided to the City and to immediately notify the City Manager and City Attorney of any contact with any entity that has, or potentially has, a conflict of interest with the City of Ormond Beach. This provision shall be interpreted as broadly as possible to prevent any potential or actual conflict of interest presently or in the future by the Contractor.

27. **Effective Date**. This Agreement shall become effective upon the date last signed by the parties hereto.

IN WITNESS WHEREOF, the undersigned parties have caused this Agreement to be signed on the dates indicated hereinbelow.

## GENERAL CONDITIONS

**PUBLIC ENTITY CRIMES:** A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a proposal on a contract to provide any goods or services to a public entity, may not submit a proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit Proposals on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

**DISCRIMINATION:** Pursuant to Section 287.134(2)(a), Florida Statutes, an entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid or proposal on a contract to provide any goods or services to a public entity, may not submit a bid or proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit bid or proposal on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

**PUBLIC RECORDS/NON-CONFIDENTIALITY OF BIDS AND/OR PROPOSALS.** The City of Ormond Beach cannot and does not warrant the confidentiality of any information submitted in response to this solicitation. Florida law provides that municipal records shall at all times be open for personal inspection by any person, Section 119.01, F.S., The Public Records Law. Information and materials received by the City of Ormond Beach in connection with all Proposers' response shall be deemed to be public records subject to public inspection upon award, recommendation for award, or 30 days after bid opening, whichever occurs first. Section 119.071, F.S.

**DISTRIBUTION OF BIDS AND RFP'S:** The City uses the services of DemandStar (www.demandstar.com) to distribute its bids and RFP's on-line on the Internet. If you have received a copy of this RFP from any source other than DemandStar, please be aware that you may not have received the latest version of the RFP or any related addendums.

**SUBMISSION OF RESPONSES:** All Submittals shall be delivered in a sealed envelope. The Request for Proposals (RFP) number, title, and opening date shall be clearly displayed on the outside of the sealed envelope (and on the outside of any express shipping package). The delivery of said submittal to the Purchasing Office on or before the specified opening date and time is solely and strictly the responsibility of the Submitter. Any submittal received by the Purchasing Office after the specified date and time will not be accepted. Submittals must be presented on forms provided by the City. No other forms will be accepted. Responses submitted by telephone, fax or email will not be considered. No Submittal may be modified after opening. No Submittal may be withdrawn after opening for a period of ninety (90) days unless otherwise specified.

**EXECUTION OF SUBMITTAL:** Submittals must contain a manual signature of authorized representative in the space(s) provided. Submittals must be typed or printed in ink. Use of erasable ink is not permitted. All corrections made by Submitter to any Submittal entry must be initialed. The company name and Federal Employer Identification Number (F.E.I.N.) number shall appear in the space(s) provided.

**RFP OPENING:** Submittals shall be opened and the name of the submitters shall be read publicly. No discussion of the Submittals will occur at this time.

**SUBMITTAL TABULATION:** The RFP Tabulation will be posted on Demandstar (www.demandstar.com). Any submitter wishing to receive a paper copy of the tabulation is required to enclose a stamped, self-addressed envelope with their Submittal response.

**CLARIFICATION/CORRECTION OF RFP ENTRY:** The City of Ormond Beach reserves the right to allow for the clarification of questionable entries and for the correction of obvious mistakes.

**INTERPRETATION:** Any questions concerning conditions and specifications shall be directed to the Purchasing Coordinator. Those interpretations which may affect the eventual outcome of this Submittal will be furnished in writing to all prospective Submitters. No interpretation shall be considered binding unless provided in writing by the City of Ormond Beach.

**MINORITY POLICIES:** The City of Ormond Beach, Florida, encourages the full participation of Disadvantaged and Women Business Enterprises (D&WBE) in the provision of goods and services.

**RESPONSIBILITY DETERMINATION:** Pursuant to the provisions of Florida Statutes Chapter 287.05701, the City does not request or consider a vendor's social, political, or ideological interests in making a responsibility determination.

**LICENSES AND PERMITS:** The Vendor/Contractor is responsible for obtaining all necessary permits and licenses to comply with all Federal, State, local laws, rules and regulations required to perform work in accordance with the specifications.

**ADDITIONAL TERMS AND CONDITIONS:** The City of Ormond Beach reserves the right to reject Submittals containing any additional terms or conditions not specifically requested in the original conditions and specifications.

**TAXES:** The City of Ormond Beach is exempt from Federal Excise Taxes and all sales taxes.

**SILENCE OF SPECIFICATIONS:** The apparent silence of any specification and any supplemental specifications as to any details or the omission from same of any detailed description concerning any point shall be regarded as meaning that only the best commercial practices are to prevail and that only materials of first quality and correct type, size, and design are to be used. All workmanship is to be first quality. All interpretations of the specifications shall be made upon the basis of this statement.

**ASSIGNMENT:** Any purchase order or contract issued pursuant to a Submittal and the monies which may become due hereunder are not assignable except with the prior written approval of the City Manager or City Commissioner, whichever authorized the purchase or Agreement.

**LIABILITY:** The Contractor shall hold and save the City of Ormond Beach, its officers, agents, and employees harmless against claims by third parties resulting from the Contractor's or supplier's breach of contract or negligence, including all attorney's fees and costs, and shall pay any and all damages, fees, and costs assessed on behalf of the City. The City expressly reserves all rights, privileges and benefits of sovereign immunity.

**PATENTS AND ROYALTIES:** The Contractor, without exception, shall indemnify and save harmless the City of Ormond Beach and its employees from liability of any kind, including cost and expenses for or on account of any copyrighted, patented, or unpatented invention, process, or article manufactured or used

in the performance of the contract, including its use by the City of Ormond Beach. If the Contractor uses any design, device, or materials covered by letters, patent or copyright, it is mutually agreed and understood without exception that the Submittal prices shall include all royalties or cost arising from the use of such design, device, or materials in any way involved in the work.

**NON-APPROPRIATION OF FUNDS:** In the event sufficient budget funds are not available for a new fiscal period, the CITY shall notify the VENDOR/CONTRACTOR of such occurrence and the contract shall terminate on the last day of the current fiscal period, without any penalty or expense to the CITY of any kind whatsoever.

**AWARDS:** The CITY reserves the right, in its sole discretion, as the best interest of the CITY may require, to make award(s) by individual item, group of items, all or none, or a combination thereof; on a geographical basis and/or with one or more vendors, contractors, consultants or specialists; or to reject any and all Submittals or waive any minor irregularity or technicality in the Submittals received.

**OTHER AGENCIES:** All Bidder(s) awarded contracts from this bid or proposal may, permit any municipality or other government agency to participate in the contract under the same prices, terms, and conditions, if agreed to by both parties.

It is understood that at no time will any city, municipality, or other agency be obligated for placing an order for any other city, municipality, or agency: nor will any city, municipality, or agency be obligated for any bills incurred by any other city, municipality, or agency. Further, it is understood that each agency will issue its own purchase orders to the awarded bidder(s).

**COMPLIANCE WITH FLORIDA PUBLIC RECORDS LAW:**

Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.
(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.
(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.
(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

**IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:**

**THE CITY OF ORMOND BEACH RESERVES THE RIGHT TO REJECT ANY OR ALL PROPOSALS, AND TO WAIVE INFORMALITIES AS MAY BE DEEMED TO BE IN THE BEST INTEREST OF THE CITY.**

**TERMS AND CONDITIONS**

A. The City of Ormond Beach reserves the right without prejudice to reject any or all proposals, to request clarification of information submitted, and to request additional information of one or more proposers.

B. The City reserves the right to award the contract to the next most qualified firm if the successful firm fails to execute a contract within two weeks after the award of the contract by the City Commission.

C. In accordance with federal, State, and local regulations, the firm shall not discriminate under the contract against any person.

D. The firm shall not assign or transfer any interest in the contract without prior approval of the City Commission.

E. The City reserves the right to terminate the contract at any time due to the vendor's default under terms of agreement.

F. Submission of a proposal indicates acceptance by the firm of the conditions contained in this Request for Proposals unless clearly and specifically noted in the proposal submitted and confirmed in the contract between the City of Ormond Beach and the firm selected.

G. Submittals should include a copy of firm's insurance certificate, Conflict, Non-Conflict of Interest Statement/Litigation Statement, Drug Free Workplace Certificate and E-Verify Statement.

## I. OBJECTIVE OF THE REQUEST FOR PROPOSALS

The City of Ormond Beach, Florida, is requesting proposals and services from companies who are qualified to design and install all playground equipment components for this project. The equipment shall meet all current playground/fitness safety standards and certifications including, but not limited to, CPSC, ASTM, DIN and IPEMA.

The proposed playgrounds will be located at Fire Station 91, 364 S Atlantic Avenue and Andy Romano Beachfront Park, 839 S Atlantic Avenue.

## II. SCOPE OF SERVICES

These are turn-key projects to design the new playground layouts, supply materials, deliver and install new exterior commercial playground equipment, including required permitting. The selected company shall be issued a contract for services for this project.

Vendors are required to develop and provide equipment layout plan for the project area utilizing the scale of 1"=10'. Complete three-dimensional drawings or photos of equipment and plan view drawing showing the layout within the provided use zone are required. All design plans/drawings shall be shown in complimentary color families.

One design layout is required, however additional designs are optional. Each vendor can provide 3 different designs maximum for this submittal. Each design should be labeled Option 1, Option 2 and Option 3.

The general dimensions of the area are provided for planning purposes, vendors are responsible for ensuring the accuracy of these measurements and for ensuring that any equipment layout proposed will fit the actual site dimensions.

### Current Conditions

See attached aerial maps that shows project locations and existing surrounding site elements.

### Playground Equipment

The playground equipment chosen shall be durable and designed for outdoor use. This playground equipment selected shall incorporate the latest playground design philosophy and technology addressing the physical and creative needs of children. The playground equipment for Fire Station 91 selected shall be appropriate for ages 2-5 and 5-12, and stressing the importance of durability. The playground equipment for Andy Romano Beachfront Park selected shall be appropriate for ages 5-12. The equipment and area around the equipment shall be accessible to all children and meet all current ADA requirement at a minimum, with ADA inclusive features possible within the funding amount. The playground equipment could be one large unit or multiple pieces for different play experiences.

Equipment shall meet National Playground standards as referenced in the American Society for Testing and Materials (ASTM) document F1487-17; Standard Consumer Safety Performance Specification for Playground Equipment for Public Safety. Evidence of compliance shall be submitted and stamped on equipment as required.

Construction in compliance with ASTM F2373, ADA guidelines for surfacing and ASTM F1292 for Impact Attenuation and F1951 for wheelchair accessibility.

Equipment shall meet National playground standards as referenced in the U.S. Consumer Product Safety Commission's Public Playground Safety Handbook.

All proposed equipment and surfacing shall be IPEMA certified by the Manufacturer.

The equipment shall accommodate a minimum of 30 children, with a minimum of 7 play events.

**The equipment which shall be incorporated in the design, supplied, and installed could include, but not be limited to the following.**

Types of Equipment to Encourage The Play Experience

Auditory, balancing, gathering/social/imaginative, manipulative, climbing, sliding and spinning

Themed playground for each location

Equipment that could be include in the design:

ADA Transfer Platform with Guardrail & Hand Grips Climber

Play panel or interactive element Spinner

Ladder

**Types of Materials for Equipment**

Primary considerations are safety, durability, longevity and low maintenance Stainless Steel bolts, anchors and fasteners

Bridges, walkways and platforms shall be slip resistant

Two coat powder coating process 3.0-5.0 mil thickness minimum Materials that are long lasting

Coastal coating

No wood products for playground equipment

Shade components allowed

**Borders with Accessible Border System**

Supply and install playground borders around the entire perimeter of the play area and include an ADA accessible border system. Borders to be 12" height, made from recycled plastic content including galvanized stakes to secure in place.

**Surfacing**

Surfacing is proposed to be engineered wood fiber and shall be installed as per manufacturer installation recommendations for the Fire Station 91 playground and PIP rubber surface for the Andy Romano Beachfront Park playground.

## Site Area Clean Up

The site shall be kept clean and free of tools, trash, and debris and installation materials on a daily basis. Products may be stored on site during installation with appropriate protective measures and approval by

the Cities Project Manager. If periphery areas are damaged due to implementation than site restoration will be required and restored with like materials at companies cost.

## Removal of Existing Playground Equipment:

City staff will be removing the existing playground equipment prior to the start of this project. The playground company will be responsible to remove the existing mulch on the existing playground.

## Project Budget:

The Fire Station 91 playground is a Facilities Renewal & Replacement funded project and the allocated funds are $185,000 for this project. The Andy Romano Beachfront Park playground is a General Reserve funded project and the allocated funds are $115,000 for this project.

## III. TERM OF AGREEMENT

The contract will be for the duration of this project.

To be considered by the City, proposing firm must:

## IV. MINIMUM QUALIFICATIONS

To be considered by the City, proposing firm must:

**Professional Qualifications:** Any firm or individual experienced and authorized to do business in the State of Florida is invited to submit a qualifications packet. The firm must possess professional service registrations and construction licenses in accordance with applicable statutes, regulations, and rules. The firm must be able to demonstrate financial strength appropriate to the scale of projects to be managed.

**Insurance Requirements:** The firm shall purchase at his own expense and maintain throughout the duration of the contract the types and amounts of insurance in form and from companies satisfactory to the City and shall furnish proof of insurance prior to commencing work. The firm shall indemnify and hold harmless the City and its employees from and against all claims, damages, losses, and expenses including, but not limited to, attorneys' fees arising out of or resulting from work provided that the claim, damages, loss and expense is caused in whole or in part.

## Information to be Submitted:

One (1) original of the complete proposal packet along with one (1) fully complete electronic file in pdf format on either a CD or thumb drive:

## V. PROPOSAL PROCESS

The firm or individual(s) interested in this contract should include a response to each of the following items in their written proposal:

## A – General

1. Letter of interest and cover letter signed by an authorized officer of the firm or company. Include name(s), telephone number(s), and email(s) of the authorized contact person(s) concerning this proposal.
2. RFP response form, completed.
3. Whether or not the firm or individual is a certified Minority Business Enterprise as defined by the Florida Small and Minority Business Assistance Act of 1985.
4. Provide a copy of applicable Florida business license. Provide proof of being registered to do business in the State of Florida.
5. Copy of firm's certificate of insurance.
6. Note: firm or company selected will be required to provide performance and payment bonds for this project.
7. Completed Conflict, Non-Conflict of Interest Statement/Litigation Statement.
8. Completed Drug-Free Workplace Certification.
9. Completed form - Verification of Employment Status Using E-Verify System

## B – Experience

1. Provide a brief introduction narrative letter highlighting the qualifications of the firm including legal nature of organization, number of years in business, pertinent capabilities, and experience in contracting and managing municipal projects.
2. Provide an organizational chart of the firm to include a depiction of subcontractors, if any, proposed for use for accomplishment of the project scope of work. List all subcontractors and/or agents who shall be part of your team on this project, and state what their involvement and specific duties shall be (i.e. installer, manufacturer, etc.).
3. Provide a listing of at least 3 projects and references completed by the firm comparable in nature and costs which demonstrate the firm's ability to perform the required services as described within the RFP. If applicable list examples of projects in the State of Florida and particularly municipal projects. Include the following for each project:
    a. Name and location of the project.
    b. The nature of the firm's responsibility on the project.
    c. Project owner's representative name, address, telephone and e-mail contact information.
    d. Date project was completed or is anticipated to be completed.
    e. Firm's project manager and other key professionals involved on the project.

## C – Proposed Playground Equipment and Configuration

1. Provide the manufacturer's name and model/name of the equipment you are proposing.
2. Vendors are required to develop and provide equipment layout plan for the project area utilizing the scale of 1"=10'. Complete three-dimensional drawings or photos of equipment and plan view drawing showing the layout including the use zones. See scope of work/layout design sections for more requirement details.
3. Does the equipment meet all the most current safety standards and certifications as required in this RFP?
4. Provide the manufacturer's warranty on all components including powder coating/paints & poured in place surfacing.
5. Provide details on the equipment materials.
6. How many people can use this equipment at a given time and how many play events?

7. Does the equipment layout allow space between the components and allow clearance for a wheelchair (ADA accessible)?
8. Provide a cut sheet of all equipment being proposed and include technical specifications, including the plastic borders and engineered wood fiber/coastal coating.

## D – Written Proposal & Project Schedule

1. Please provide a written proposal. Project is within the stated budget. Building permit fees shall be included in written proposal and signed and sealed documents as needed for Building Permit approval and include payment & performance bonds.
2. Provide a project schedule that details equipment manufacturing time and the projected timeframe for installation of all components within this RFP

## VI. PROPOSAL SUBMITTAL

Please check the contents of your RFP package carefully to ensure that you have in your possession all the necessary documents, as referenced within this RFP, including any addenda. If you are missing any items, please contact the City's Purchasing Coordinator at 386-676-3223, or by e-mail at: rob.hart@ormondbeach.org.

Submission of a proposal pursuant to this RFP shall constitute acknowledgement and acceptance of the terms and conditions set forth herein. Portions of this RFP and the contents of the proposal submitted by the successful proposer may become contractual obligations if an Agreement is awarded. Failure of the successful proposer to accept these obligations may result in cancellation of the award of contract.

The City reserves the right to withdraw this RFP at any time without prior notice. All proposals submitted in response to this RFP become the property of the City of Ormond Beach.

Deadline for Submission: To be considered, proposals must be received no later than 2:00 p.m., May 6, 2025.

Inquiries: Technical questions may arise as firms are preparing their proposals. The City will accept written inquiries regarding this RFP until seven (7) working days prior to the RFP due date. Questions received after that time will not be responded to. Answers to questions that warrant attention of all the potential proposers will be distributed in the form of an addendum. Please direct written inquiries to:

Rob Hart
City of Ormond Beach
22 South Beach Street, Room 102
Ormond Beach, Florida 32174
Telephone: (386) 676-3223
rob.hart@ormondbeach.org

Signature Requirements: Proposals must be signed by a duly authorized official(s) of the proposing firm. Consortiums, joint ventures, or teams submitting proposals, although permitted and encouraged, will not be considered responsive unless it is established that all contractual responsibility rests solely with one firm or legal entity which shall not be a subsidiary or affiliate with limited resources. Each proposal shall indicate the entity responsible for execution on behalf of the proposal team.

Proposal Delivery: You must submit one (1) unbound original plus one (1) electronic copy on compact disk (CD) or flash drive of the proposal no later than the date and time specified above. Submit proposals to: Rob Hart, Purchasing Coordinator, at City Hall down stairs in Room 102, 22 South Beach Street, Ormond Beach, FL 32174. The RFP title and number shall be plainly marked on the outside of the delivery envelope or package. It is solely the responsibility of the submitter to ensure that the Proposal is delivered on or before the specified date and time. Late proposals will not be accepted.

Addenda and Supplements to the Request for Proposals (RFP): In the event that it becomes necessary to revise any part of this RFP, or if additional information is necessary to enable the proposing firm to make an adequate interpretation of the provisions of this RFP, a supplement to the RFP will be provided to each firm that has requested a copy of this document.

Rejection Rights: The City of Ormond Beach reserves the right, at any time, to modify, waive or otherwise vary the terms and conditions of this RFP including, but not limited to, the deadlines for submission and submission requirements. The City further reserves the right to reject any or all submittals, to cancel or withdraw this RFP at any time and to negotiate with any party prior to or after submittal of proposals. Selection is also dependent upon the negotiation of a mutually acceptable contract with the successful proposers.

Cost of Proposal Preparation: No reimbursement will be made by the City of Ormond Beach for any costs incurred in the preparation of the proposal or presentation.

Proposals to be in Effect: Each proposal shall state that it is valid for a period of not less than 90 days from date of receipt.

## VII. EVALUATION PROCESS AND CRITERIA

The City of Ormond Beach will conduct an evaluation of all proposals, submitted by the deadline, to determine compliance with proposal requirements and mandatory document submissions. The committee will consist of the Leisure Services Department, Finance Department, and other City Department staff. The committee will evaluate proposals and select the Proposer that meets the best interests of the City, and will make a recommendation of Award of Contract to the City Commission.

**The City reserves the following rights:**

- Modify, extend, or cancel this RFP at any time to obtain additional proposals or for any other reason the City determines to be in its best interest;

- Issue a new RFP with terms and conditions that are the same, similar or substantially different as those set forth in this or a previous RFP in order to obtain additional proposals or for any other reason the City determines to be in its best interest;

- Conduct pre-award discussion and/or pre-award negotiations with any or all responsive and responsible proposer(s) who submit proposals determined to be reasonably acceptable of being selected for award; and, conduct personal interviews or require presentations of any or all proposer(s) prior to selection.

- Request that proposer(s) furnish additional information as the City may reasonably require.

- Accept or reject qualifications or proposals in part or whole, and/or waive any defect or deficiency in any proposal, if in the City's sole judgment, the defect or deficiency is not material in response to this RFP;

- Limit and/or determine the actual contract services to be included in a contract.

- Engage outside experts to assist staff in evaluating the merits and viability of each proposer.

- Obtain information for use in evaluating submittals from any source.

- Verify the information received in the proposal. If a proposer knowingly and willfully submits false information or data, the City of Ormond Beach reserves the right to reject that proposal. If it is determined that an Agreement was awarded as a result of false statements or other data submitted in response to this RFP, the City of Ormond Beach reserves the right to terminate the Agreement.

The City shall be the sole judge of the proposer's qualifications.

**Evaluation Criteria:**

For the purposes of further evaluation, the responsive proposals will be evaluated on, but shall not be limited to, consideration of the following criteria:

Qualifications and Experience (30 points)
References (20 points)
Proposed Playground Equipment and Configuration (30 points)
Written Proposal & Project Schedule (20 points)

The most important evaluation emphasis will be placed upon the experience and past performance
of the firm and the overall qualifications of the firm. Evaluation will also be based upon a creative equipment layout that enhances the play experience for children.

## REGISTRATION REQUIREMENTS FOR VENDOR/CONTRACTOR WORKING ON CITY PROJECTS

**Registration Requirements**

VENDORS doing business within the City Limits must be registered with the City.

Requirements for registering a business are as follows:
Copy of City Business Tax Receipt (where your business is located).
Certificate of Insurance showing General Liability and Workers' Comp (or State Workers' Comp Exemption form).

Application Fee: $25.00 For more information, contact the City's Business Tax Receipt official at 386-676-3233 or btonline@ormondbeach.org You can apply online here: https://ormondbeachfl-energovweb.tylerhost.net/apps/selfservice#/home

**State Certified/Registered Contractors**

All registered State contractors must be registered with Volusia County. Volusia County Contractor Licensing, 123 W. Indiana Ave., Rm 203, Deland, Fl. 32720 (386) 736-5957 contractorlicensing@volusia.org https://connectlivepermits.org/citizenportal/app/landing

State certified contractors have the option of registering with Volusia County, or providing information directly to the business tax receipt official, to include copy of State license, certificate of insurance and copy of local business tax receipt. This information is provided with the permit application.

If you have any questions regarding the above requirements, please contact the business tax receipt official at (386) 676-3233 or btonline@ormondbeach.org

## EXHIBIT A
## Risk Management and Insurance Requirements

### A. Payment and Performance Bonds

**1.** Except as otherwise provided herein, the Contractor shall, prior to beginning performance, deliver to the City, and the City shall record in the public records of Volusia County, Florida, the Contractor's Payment and Performance Bond in an amount equal to the full amount of the Contract.

**2.** **(a)** Payment and Performance Bonds shall not be required for any contract except those which are for the construction of a public building, for the prosecution and completion of a public work (as described in Section 180.06, **Florida Statutes,** as amended from time to time) or for repairs upon a public building or public work (as

described in Section 180.06, **Florida Statutes**, as amended from time to time).

**(b)** With respect to those Contracts for which Payment and Performance Bonds are otherwise required:

**i.** Unless the City Manager, or his designee, determines such Bond to be necessary to protect the interests of the City, no Contractor shall be required to provide a Payment and Performance Bond for any Contract which is for $25,000.00 or less.

**ii.** Upon the request of the contractor, good cause shown by the Contractor, and a determination that the public health, safety and welfare will be sufficiently protected, the City Commission may exempt the contractor from the requirement of providing a Payment and Performance Bond for any Contract which is for more than $25,000.00 but is less than $200,000.00.

**3.** The Payment and Performance Bond shall list the Contractor as Principal and be issued by a surety insurer authorized to do business in Florida as a surety and listed as an acceptable surety in the Federal Register.

**4.** The Payment and Performance Bond shall be executed pursuant to Section 255.05, **Florida Statutes**, and be in a form substantially similar to the form set forth in Section 255.05(3), **Florida Statutes**.

**5.** The Payment and Performance Bond shall specifically provide coverage for delay damages due to a default by the Contractor.

**6.** The Payment and Performance Bond shall not make the Contract part of the Bond agreement.

**7.** In lieu of the Payment and Performance Bond, the Contractor may file with the Finance Director of the City, in an amount equal to the full amount of the Contract, cash, a money order, a certified check, a cashier's check, an irrevocable letter of credit, or a security of a type listed in Part II, Chapter 625, **Florida Statutes**.

**8.** In the event the surety on any Payment and Performance Bond furnished by the Contractor is declared bankrupt or becomes insolvent, or its right to do business in the State of Florida is terminated, the Contractor shall, within five (5) working days thereafter, substitute another Payment and Performance Bond and surety acceptable to the City.

**9.** The Contractor is totally and solely responsible for keeping its surety informed as to the Base Contract Price as bid, significant changes in the

Project Scope, and the overall progress and completion of the Project for the entire life of the Contract.

**10.** The payment and performance bond requirements stated herein above shall not be applicable to service-related contracts unless otherwise determined by the City Manager in order to protect the health, safety and welfare of the general public.

## B. Contractual Provisions Relative to Risk Management

All contracts for any public works to be performed, and service-related contracts, for or on behalf of the City shall include at a minimum, the following, or substantially similar, provisions:

### 1. Hold Harmless and Indemnity

The Contractor agrees to assume liability for and indemnify, hold harmless, and defend the City, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Contractor, its agents, officers, contractors, subcontractors, employees, or anyone else employed or utilized by the Contractor in the performance of this Contract. The Contractor's liability hereunder shall include all attorney's fees and costs incurred by the City in the enforcement of this provision.

### 2. Payment on Behalf of City

The Contractor shall pay all costs of the City's legal defense, as may be selected by the City, for all claims described in the Hold Harmless paragraph. Such payment on behalf of the City shall be in addition to any and all other legal remedies available to the City and shall not be considered to be the City's exclusive remedy.

### 3. Loss Control/Safety

Precaution shall be exercised at all times by the Contractor for the protection of all persons, including employees and property. The Contractor shall comply with all applicable laws, regulations and ordinances related to safety and health, shall make special efforts to detect hazardous conditions, and shall take prompt action when loss control/safety measures are reasonably necessary. The City may order work to be stopped if conditions exist that present an immediate danger to persons or property. The Contractor acknowledges that such work stoppage will not shift responsibility for any damages from the Contractor to the City.

### 4. Service Bond

For Service-related contracts only, the City may require the Contractor to secure a service bond with a minimum $25,000 coverage limit for the period of the service agreement. The service bond covers dishonest acts of the contractor's employees against the City. A copy of the bond shall be provided to the City when the agreement commences. Service-related contracts include and are not limited to businesses providing janitorial, pest control, general repair, security, carpet cleaning, locksmith, temporary employment, painting, moving services or other contracts as determined in the discretion of the Risk Manager as necessary to minimize loss.

## C. Contractor's Insurance

### 1. General

The Contractor, including service-related contractors, shall purchase and maintain for the entire life of the Project, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under the Contract Documents, whether such operations be by the Contractor, by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

### 2. Types of Insurance and Limits of Liability

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

**(a)** Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident
$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place

of the requirement for coverage. However, if the contractor subcontracts or retains any other person or entity to perform under the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

**(b)** Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations
h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)
k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence
$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

**(c)** Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract. ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

| | |
|---|---|
| $1 Million | Combined Single Limit for Bodily Injury and Property Damage |

**(d)** Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,0000 per occurrence.

**(e)** Builder's Risk

Contractor shall purchase Builder's Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

**(f)** Professional Liability, Malpractice and/or Errors and Omissions

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

## D. Requirements for Certificates of Insurance

**1.** With the execution of the Contract Documents, the Contractor, including service related contractors, shall provide certificates of such insurance

acceptable to the City. These certificates and insurance policies shall contain an endorsement that the coverage under the policies will not be canceled, non-renewed or materially changed until at least thirty (30) days' prior written notice of such cancellation, non-renewal or change (except for nonpayment of premium, which shall be ten (10) days) and a copy of the cancellation endorsement signed by an authorized representative of the insurer, be given to the City. The contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACORD FORM 25-S (7/90), or its successor form, and shall be made a part of the Contract Documents.

2. New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

3. If requested by the City, the contractor shall immediately furnish complete copies of the Contractor's insurance policies, forms and endorsements.

4. For Commercial General Liability coverage, the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

5. If the Contractor fails to obtain and maintain for the life of the Project the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City form the amount due the Contractor for the work covered by the Contract.

## E. Policies of Insurance

1. Except as otherwise provided in this Exhibit, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-), in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

2. For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carrier; written confirmation is required.

3. All policies of insurance or certificates thereof referred to in this Exhibit shall be deposited with the City Clerk.

4. The City shall be named an Additional Insured on General Liability including

products and completed operations and Automobile Liability policies of insurance and certificates thereof.

## VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.

3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.

4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.

5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

# RFP RESPONSE FORM

THIS RESPONSE IS SUBMITTED TO:

Purchasing Coordinator
City of Ormond Beach
22 S. Beach Street
Ormond Beach, Florida 32174

The undersigned SUBMITTER proposes and agrees, if this Submittal is accepted, to enter into a Contract with the CITY that reflects the items of this Request for Proposal (RFP) and to provide all services, as specified or indicated in the RFP Documents, in full accordance with the terms and conditions set forth in therein.

SUBMITTER accepts all of the terms and conditions of the General Conditions. SUBMITTER will sign the Contract) and submit the Contract security (when applicable) and other documents required by the Contract Documents within ten (10) days after the date of CITY's Notice of Award.

In submitting this information, SUBMITTER represents, as more fully set forth in the Agreement, that:

SUBMITTER has examined copies of all the RFP Documents and of the following Addenda:

| Addendum Date | Addendum Number |
|---|---|
| 4/24/2025 | 1 |
| 4/28/2025 | 2 |
| | |

Receipt of all of which is hereby acknowledged.

This Submittal is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; SUBMITTER has not directly or indirectly induced or solicited any other Submitter to submit a false or sham Submittal; SUBMITTER has not solicited or induced any person, firm or a corporation to refrain from bidding; and SUBMITTER has not sought by collusion to obtain for himself any advantage over any other Bidder or over the CITY.

## DRUG-FREE WORKPLACE CERTIFICATION

**IDENTICAL OR "TIE" SUBMITTALS**: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.
3) Give each employee that engages in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5 ) calendar days after such conviction.
5) Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.
6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

**Permits are not included in cost, unless specifically listed in pricing.** If permits are required Signed/Sealed drawings are needed and are also not included unless specifically listed in pricing. Any costs for muncipal permits, paid by installer, will be charged back to the owner. Adding permits to any job will increase the length of completion, expect total time to be about **150 days**, after receipt of Site Plan from owner/customer (this is not due to manufacturing but rather the permit process at the muncipality level). It is expected that the **owner will provide approved site plans** of the area for the permit office, and will help and assist in the securing of all required approvals before assembly of equipment can begin. Installer cannot provide site plans. **The permit process can not begin until appropriate and current site plans are provided by owner.** If there are no current surveys or site plans available, the owner may be required to obtain a new survey for the permit. This is the responsibility of the owner to obtain. If additional permitting requirements are needed during the process, those will be added and billed accordingly, i.e. soil density test, formed footers, etc.

# Andy Romano Beachfront Park

**Payment Terms: Governmental Purchase Order.**
**Purchases in excess of $1,000.00 to be supported by your written purchase order made out to GameTime.**
Net 30 days subject to approval by GameTime Credit Manager. A completed Credit Application and Bank Reference Authorization, must be received with the order. The decision on credit is the sole discretion of GameTime/PlayCore. A 1.5% per month finance charge will be imposed on all past due accounts.
**Multiple Invoices:** Invoices will be generated upon services rendered. When equipment ships it will be invoiced seperately from installation and/or other services. Terms are Net 30 for each individual invoice.
This Quotation is subject to policies in the current GameTime Park and Playground Catalog and the following terms and conditions. Our quotation is based on shipment of all items at one time to a single destination, unless noted, and changes are subject to price adjustment.
Pricing: Firm for 60 days from date of quotation.
Shipment: F.O.B. factory, order shall ship within 120 days after GameTime's receipt and acceptance of your purchase order, color selections, approved submittals, and receipt of payment.
Taxes: State and local taxes will be added at time of invoicing, if not already included, unless a tax exempt certificate is provided at the time of order entry.
Exclusions: Unless specifically discussed, this quotation excludes all sitework and landscaping; removal of existing equipment; acceptance of equipment and off-loading; lift gate delivery; storage of goods prior to installation; security of equipment (on site and at night); equipment assembly and installation; safety surfacing; borders; drainage; signed/sealed drawings; or permits.

Installation Terms: Shall be by a Certified Installer. The installer is an indepedent installer and not part of PlayCore, GameTime, nor Dominica Recreation Products. If playground equipment, installer will be NPSI and Factory Trained and Certified. Unless otherwise noted, installation is based on a standard installation consistent with GameTime installation sheets and in suitable soil with a sub-base that will allow proper playground installation. Drainage is not part of our scope of work unless otherwise noted. Customer shall be responsible for scheduling and coordination with the installer. Site should be level and allow for unrestricted access of trucks and machinery. Customer shall also provide a staging and construction area. Installer not responsible for sod replacement or damage to access path and staging area. Customer shall be responsible for unknown conditions such as buried utilities, tree stumps, rock, or any concealed materials or conditions that may result in additional labor or material costs. Customer will be billed hourly or per job directly by the installer for any additional costs that were not previously included.

Unitary Surfacing Notes : The installer of the Unitary Surfacing (Poured, Bonded, Turf, Tiles) is not the same installer of the playground equipment. However, your certified equipment installer will coordinate the timing of the unitary surfacing installation, but more than likely they will not be on-site at the time. They will continue to be your contact should you have any questions. Security is needed to protect surfacing at night or after installation as the product set. Normally it is not needed or a concern, however in some areas additional security is needed to prevent vandalism. **Security is not included.** Vandalism will be the responsible of the owner.

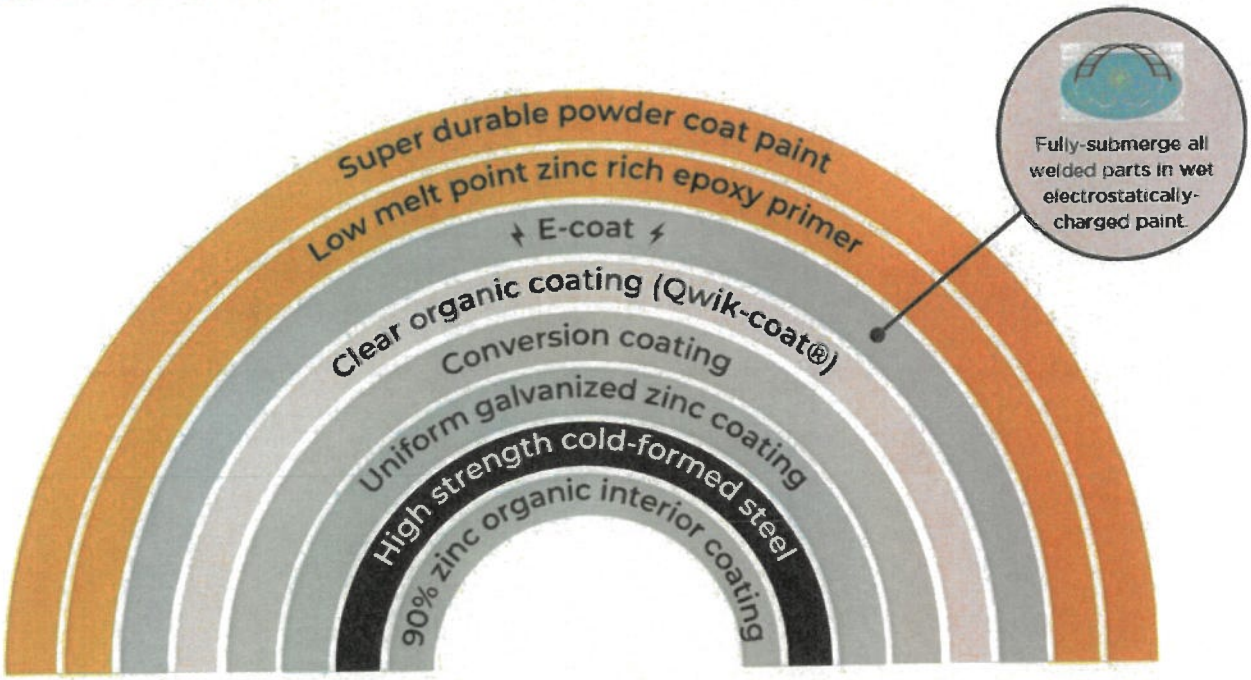
# COASTAL PAINT OPTIONS WITH E-COAT



Durable powder coat coverage

## COASTAL PAINT PACKAGE

For coastal environments, GameTime offers an advanced paint process with E-Coat. We fully submerge parts with their weldments in a wet paint solution that is electrostatically charged.

The paint adheres to every part of the surface and provides superior protection against rust and corrosion. Next, we apply an industry-leading low melt point zinc-rich epoxy primer, and we finish the surface with our PCI 4000-certified powder coat paint. Our super durable paint and primer is tested to 3,000 hours, far beyond the industry standard of 1,000 hours of corrosion testing.

GameTime's coastal paint process carries a seven year warranty on labor and all painted parts when installed by a GameTime-certified installer.

# WARRANTY

GameTime offers a comprehensive warranty on all of our products.

For the purpose of this warranty, "lifetime" encompasses no specific term of years, but rather that the Seller warrants to its original customer for as long as the original customer owns the product, and uses the product for its intended purpose, that the product and all its parts will be free from defects in material and manufacturing workmanship.

- **Lifetime limited warranty** on PowerScape®, PrimeTime®, Xscape® & IONiX® and Modern City® uprights.
- **Lifetime limited warranty** on Tru-Loc® connections and upright bolt-through connections.
- **Lifetime limited warranty** on all hardware.
- **Twenty-Year limited warranty** on Timber Décor & Timbers recycled plastic lumber.
- **Fifteen-Year limited warranty** on metal decks, pipes, rungs, rails, loops, braces, and footbucks.
- **Fifteen-Year limited warranty** on rotationally-molded products.
- **Fifteen-Year limited warranty** on VistaRope™ nylon bearings and ring junction pieces.
- **Ten-Year limited warranty** on GTFit®, THRIVE® and Challenge Course posts & bars.
- **Ten-Year limited warranty** on site furnishings against structural failure.
- **Ten-Year limited warranty** on SunBlox products.
- **Ten-Year limited warranty** on fiberglass and DHPL signage.
- **Ten-Year limited warranty** on VistaRope™ WeaveTech™ cables.
- **Five-Year limited warranty** on Tuff Forms® structures, including TuffCrete and PolyShield.
- **Five-Year limited warranty** on nylon-covered cable net climbers and components.
- **Five-Year limited warranty** on GT Symphony Freenotes™ Harmony Park components.
- **Five-Year limited warranty** on Super Seats.
- **Five-Year limited warranty** on premature wear of VistaRope cables.
- **Three-Year limited warranty** on EveryBODY Plays® polyurea coated foam & rubber strips.
- **Three-Year limited warranty** on SaddleMates rubber and "C"-springs.
- **Three-Year limited warranty** on rubber seat and rubber mats for net events.
- **One-Year limited warranty** on Challenge Course timing components.
- **One-Year limited warranty** on all other GameTime products.

TO THE EXTENT PERMITTED BY LAW, THESE WARRANTIES ARE EXPRESSLY IN LIEU OF ANY OTHER IMPLIED OR EXPRESSED WARRANTIES OR REPRESENTATIONS BY ANY PERSON, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS. Warranties do not cover damage caused by vandalism or abuse. Warranty claims must be filed within the applicable warranty period and accompanied by a copy of the original invoice or GameTime invoice number.

**Payment Terms: Governmental Purchase Order.**
**Purchases in excess of $1,000.00 to be supported by your written purchase order made out to GameTime.**
Net 30 days subject to approval by GameTime Credit Manager. A completed Credit Application and Bank Reference Authorization, must be received with the order. The decision on credit is the sole discretion of GameTime/PlayCore. A 1.5% per month finance charge will be imposed on all past due accounts.
**Multiple Invoices:** Invoices will be generated upon services rendered. When equipment ships it will be invoiced seperately from installation and/or other services. Terms are Net 30 for each individual invoice.
This Quotation is subject to policies in the current GameTime Park and Playground Catalog and the following terms and conditions. Our quotation is based on shipment of all items at one time to a single destination, unless noted, and changes are subject to price adjustment.
Pricing: Firm for 60 days from date of quotation.
Shipment: F.O.B. factory, order shall ship within 120 days after GameTime's receipt and acceptance of your purchase order, color selections, approved submittals, and receipt of payment.
Taxes: State and local taxes will be added at time of invoicing, if not already included, unless a tax exempt certificate is provided at the time of order entry.
Exclusions: Unless specifically discussed, this quotation excludes all sitework and landscaping; removal of existing equipment; acceptance of equipment and off-loading; lift gate delivery; storage of goods prior to installation; security of equipment (on site and at night); equipment assembly and installation; safety surfacing; borders; drainage; signed/sealed drawings; or permits.

Installation Terms: Shall be by a Certified Installer. The installer is an indepedent installer and not part of PlayCore, GameTime, nor Dominica Recreation Products. If playground equipment, installer will be NPSI and Factory Trained and Certified. Unless otherwise noted, installation is based on a standard installation consistent with GameTime installation sheets and in suitable soil with a sub-base that will allow proper playground installation. Drainage is not part of our scope of work unless otherwise noted. Customer shall be responsible for scheduling and coordination with the installer. Site should be level and allow for unrestricted access of trucks and machinery. Customer shall also provide a staging and construction area. Installer not responsible for sod replacement or damage to access path and staging area. Customer shall be responsible for unknown conditions such as buried utilities, tree stumps, rock, or any concealed materials or conditions that may result in additional labor or material costs. Customer will be billed hourly or per job directly by the installer for any additional costs that were not previously included.

Unitary Surfacing Notes : The installer of the Unitary Surfacing (Poured, Bonded, Turf, Tiles) is not the same installer of the playground equipment. However, your certified equipment installer will coordinate the timing of the unitary surfacing installation, but more than likely they will not be on-site at the time. They will continue to be your contact should you have any questions. Security is needed to protect surfacing at night or after installation as the product set. Normally it is not needed or a concern, however in some areas additional security is needed to prevent vandalism. **Security is not included.** Vandalism will be the responsible of the owner.

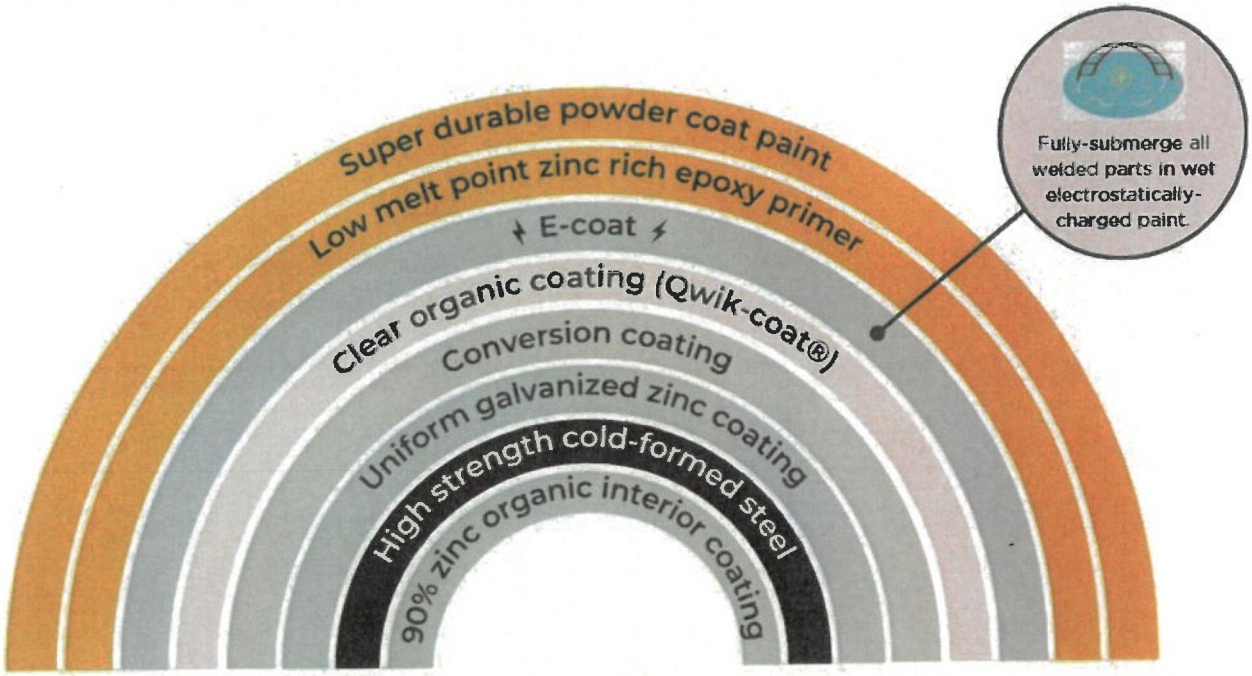
# COASTAL PAINT OPTIONS WITH E-COAT



Durable powder coat coverage

## COASTAL PAINT PACKAGE

For coastal environments, GameTime offers an advanced paint process with E-Coat. We fully submerge parts with their weldments in a wet paint solution that is electrostatically charged.

The paint adheres to every part of the surface and provides superior protection against rust and corrosion. Next, we apply an industry-leading low melt point zinc-rich epoxy primer, and we finish the surface with our PCI 4000-certified powder coat paint. Our super durable paint and primer is tested to 3,000 hours, far beyond the industry standard of 1,000 hours of corrosion testing.

GameTime's coastal paint process carries a seven year warranty on labor and all painted parts when installed by a GameTime-certified installer.

# WARRANTY

GameTime offers a comprehensive warranty on all of our products.

For the purpose of this warranty, "lifetime" encompasses no specific term of years, but rather that the Seller warrants to its original customer for as long as the original customer owns the product, and uses the product for its intended purpose, that the product and all its parts will be free from defects in material and manufacturing workmanship.

- **Lifetime limited warranty** on PowerScape®, PrimeTime®, Xscape® & IONiX® and Modern City® uprights.
- **Lifetime limited warranty** on Tru-Loc® connections and upright bolt-through connections.
- **Lifetime limited warranty** on all hardware.
- **Twenty-Year limited warranty** on Timber Décor & Timbers recycled plastic lumber.
- **Fifteen-Year limited warranty** on metal decks, pipes, rungs, rails, loops, braces, and footbucks.
- **Fifteen-Year limited warranty** on rotationally-molded products.
- **Fifteen-Year limited warranty** on VistaRope™ nylon bearings and ring junction pieces.
- **Ten-Year limited warranty** on GTFit®, THRIVE® and Challenge Course posts & bars.
- **Ten-Year limited warranty** on site furnishings against structural failure.
- **Ten-Year limited warranty** on SunBlox products.
- **Ten-Year limited warranty** on fiberglass and DHPL signage.
- **Ten-Year limited warranty** on VistaRope™ WeaveTech™ cables.
- **Five-Year limited warranty** on Tuff Forms® structures, including TuffCrete and PolyShield.
- **Five-Year limited warranty** on nylon-covered cable net climbers and components.
- **Five-Year limited warranty** on GT Symphony Freenotes™ Harmony Park components.
- **Five-Year limited warranty** on Super Seats.
- **Five-Year limited warranty** on premature wear of VistaRope cables.
- **Three-Year limited warranty** on EveryBODY Plays® polyurea coated foam & rubber strips.
- **Three-Year limited warranty** on SaddleMates rubber and "C"-springs.
- **Three-Year limited warranty** on rubber seat and rubber mats for net events.
- **One-Year limited warranty** on Challenge Course timing components.
- **One-Year limited warranty** on all other GameTime products.

TO THE EXTENT PERMITTED BY LAW, THESE WARRANTIES ARE EXPRESSLY IN LIEU OF ANY OTHER IMPLIED OR EXPRESSED WARRANTIES OR REPRESENTATIONS BY ANY PERSON, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS. Warranties do not cover damage caused by vandalism or abuse. Warranty claims must be filed within the applicable warranty period and accompanied by a copy of the original invoice or GameTime invoice number.

## Dominica Recreation Products/GameTime

Dominica Recreation Products has always been multi-tiered, and team-oriented, working alongside our clients to bring the vision, specifications, and scope of each project to fruition.

For over 53 years, throughout Georgia and Florida, we've served over 54,000 orders efficiently, professionally, and completely. On average, we manage over 500 projects/clients in real-time with six local Territory Managers, three dedicated installation teams, three in-house project managers, a bid specialist, two exclusive customer service professionals, and other support staff throughout Dominica Recreation Products and GameTime.

Our Territory Manager, Steve Larson, is local to your project. He visits the site multiple times to take lots of photos and precise measurements. He's there to communicate with you locally and respond quickly when needed.

Those pictures and measurements, along with the vision and scope of a bid such as this one, are communicated to our senior project manager, who will design a playground according to your specifications, budget, space, access, vision, site conditions, surfacing, installation, permits, drawings and so on.

After that, a top-view drawing is created to ensure everything fits properly and safely with compliant access. From there, the bid proposal is created, showing all equipment, discounts, freight, installation, tax, etc. Once that is completed, a 3-D color rendering is created to show what the completed project will look like from multiple angles.

Once the project is ordered, GameTime manufactures the system as specified and ships it to the site, where our exclusive certified installer, The Copponex Group will complete the installation.

For the life of the project, many years down the road, we will be with you in full communication, access, and responsiveness.

We are excited to work with the City of Ormond Beach and complete the Andy Romano Beachfront Park and Fire Station 91 Playground project.

Thank you,

Rob Dominica
President/drp

# RFP RESPONSE FORM

THIS RESPONSE IS SUBMITTED TO:

Purchasing Coordinator
City of Ormond Beach
22 S. Beach Street
Ormond Beach, Florida 32174

The undersigned SUBMITTER proposes and agrees, if this Submittal is accepted, to enter into a Contract with the CITY that reflects the items of this Request for Proposal (RFP) and to provide all services, as specified or indicated in the RFP Documents, in full accordance with the terms and conditions set forth in therein.

SUBMITTER accepts all of the terms and conditions of the General Conditions. SUBMITTER will sign the Contract) and submit the Contract security (when applicable) and other documents required by the Contract Documents within ten (10) days after the date of CITY's Notice of Award.

In submitting this information, SUBMITTER represents, as more fully set forth in the Agreement, that:

SUBMITTER has examined copies of all the RFP Documents and of the following Addenda:

| Addendum Date | Addendum Number |
|---|---|
| 4/24/2025 | 1 |
| 4/28/2025 | 2 |
| | |

Receipt of all of which is hereby acknowledged.

This Submittal is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; SUBMITTER has not directly or indirectly induced or solicited any other Submitter to submit a false or sham Submittal; SUBMITTER has not solicited or induced any person, firm or a corporation to refrain from bidding; and SUBMITTER has not sought by collusion to obtain for himself any advantage over any other Bidder or over the CITY.

THIS RESPONSE IS SUBMITTED BY:

Form **W-9**
(Rev. March 2024)
Department of the Treasury
Internal Revenue Service

# Request for Taxpayer Identification Number and Certification

**Go to *www.irs.gov/FormW9* for instructions and the latest information.**

**Give form to the requester. Do not send to the IRS.**

**Before you begin.** For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See *Specific Instructions* on page 3.

1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.)

PlayCore Wisconsin, Inc.

2 Business name/disregarded entity name, if different from above.

DBA GameTime

3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor ☑ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate

☐ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) _____

**Note:** Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) _____

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) 5

Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any) N/A

*(Applies to accounts maintained outside the United States.)*

3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions ☐

5 Address (number, street, and apt. or suite no.). See instructions.

150 PlayCore Drive S.E.

Requester's name and address (optional)

6 City, state, and ZIP code

Fort Payne, AL 35967

7 List account number(s) here (optional)

## Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

**Note:** If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

**Social security number**

| | | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | | | – | | | – | | | | |

**or**

**Employer identification number**

| | | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| 3 | 9 | – | 1 | 7 | 2 | 0 | 4 | 8 | 0 |

## Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

**Sign Here** Signature of U.S. person  Date **January 6, 2025**

# General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

**Future developments.** For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

## What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

## Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

## DRUG-FREE WORKPLACE CERTIFICATION

**IDENTICAL OR "TIE" SUBMITTALS**: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.
3) Give each employee that engages in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5 ) calendar days after such conviction.
5) Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.
6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

## VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.

3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.

4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.

5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

A PLAYCORE Company

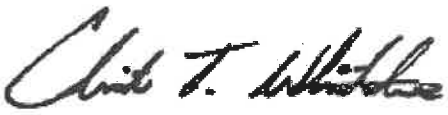
## QUALIFICATION STATEMENT FOR FURNISHING PLAYGROUND AND ANCILLARY EQUIPMENT, SAFETY SURFACING, & INSTALLATION SERVICES

The GameTime Division of PlayCore Wisconsin, Inc., in collaboration with your local GameTime regional sales representative agency, seeks to prequalify, first as a manufacturer and vendor of park and playground equipment, and secondly as a first-tier subcontractor to furnish and install safety surfacing. Additionally, we are positioned to provide installation services through our network of factory-trained and certified installers. As this submittal attests, GameTime is fully qualified to provide the necessary equipment and services to fulfill the requirements of the most demanding project.

GameTime has been manufacturing commercial playground apparatus continuously since 1929. The GameTime Division is a vertically integrated company with extensive design, manufacturing, distribution, and installation capabilities. With 400,000 sq. ft. under the roof of an 81-acre facility devoted solely to the manufacture of playground equipment, GameTime is well equipped to handle orders of any size. Seasonal weekly production can exceed $5,000,000. Daily inventory often exceeds $6,000,000. GameTime does all metal fabrication, rotationally molded plastic, PVC coating, and powder coating "in-house." Once an order is entered, GameTime delivers equipment to its customers within 21 to 30 days.

GameTime currently employs 434 people to design and manufacture commercial playground and recreation equipment. The staff includes five industrial designers, four product managers, three structural engineers, a landscape architect, and eight CAD operators in the product development, design, and processing groups. The GameTime office staff total 112. Additionally, several consultants collaborate in key areas. GameTime products are distributed in the United States by a network of 13 domestic independent sales organizations employing 130 sales and 98 support personnel. Seventeen international distributors market GameTime products worldwide.

GameTime conducts "GT College" annually and holds seminars throughout the year to disseminate the latest in product improvements and new design directions, computer technology, safety compliance, risk management, installation techniques, ADA requirements, and related topics. Staff members are CPSI-certified playground safety inspectors. GameTime provides local on-site playground design services utilizing laptop computers with exclusive GTCAD programing; furnishes CPSI safety audits; equipment selection consultations; safety surfacing materials; and installation by "factory-certified" installers for complete "turnkey" packages. On average, GameTime sales agencies have been serving customers for 32 years.



Originally founded in Michigan, GameTime division headquarters and manufacturing relocated to Fort Payne, Alabama U.S.A. in 1979. In March of 1997, PlayCore Wisconsin, Inc., a wholly owned subsidiary of PlayCore, Inc. (AMEX: PCO), acquired GameTime, Inc. Chartwell Investments acquired all issued and outstanding shares of PlayCore stock in April 2000, and the company became privately held. Irving Place Capital (formerly Bear Stearns Merchant Banking), together with the company management, purchased PlayCore in February 2007. On May 30, 2014, PlayCore was acquired by Sentinel Capital Partners, a New York middle-market private equity firm which subsequently sold the company to Court Square Capital Partners https://www.courtsquare.com/. PlayCore product sales for 2025 are expected to exceed $1,000,000,000.

PlayCore is a leading designer, manufacturer, and marketer of a broad range of commercial playground and park equipment, safety surfacing, site amenities, fitness, and related products. PlayCore currently operates in seven distribution locations, four core manufacturing facilities; and ten specialized manufacturing sites. The PlayCore Federal Identification Number is 39-1720480; the DUNS Number is 006639710; and the CAGE Code is 84308.

We submit this as verification that GameTime is financially sound, experienced, and well positioned to provide a full-solution, total turnkey package for playground equipment and related services from design to final inspection. As a privately held company, Court Square Capital Partners refrains from the distribution of financial data on segments of its investment portfolio that may be subject to public disclosure. Should further financial particulars on PlayCore be necessary, kindly contact Scott Hardin, Vice President of Finance and Accounting, 423/648-5890, scott.hardin@playcore.com.

We certify the information submitted herein is true and correct.

A PLAYCORE Company

## MANAGEMENT TEAM QUALIFICATIONS

**Territory Sales Manager – Steve Larson**. Steve serves 12 counties throughout North/East Florida for Dominica Recreation Products/GameTime. With an in-depth, consultative approach, Steve works directly with each project contact and conveys the vision, requirements, budget, and specifications to our project managers to create a design that is not only comprehensive but exciting.

**Project Manager** – Rob Dominica. President DRP-Registered Authorized Officer for all GameTime contract sales in Florida, Rob Dominica. Rob has been managing projects since 1995. Member of ASTM Committee on Public Playground Equipment and an NPSI certification holder. He will design and ensure that all the playgrounds are ADA-compliant and that the design is done with the City's wishes and requirements in mind. He makes sure that the proper equipment is ordered, and all drawings are complete and ready to submit for permitting.

**Contract Administrator** - Courtney Crawford. Courtney will help with all contract requirements including Certificates of Insurance

**Permit Coordinator** - Sarah Catrillo. Sarah works on all permit applications and the NOC. Being in contact with the city on any forms required for permits. Helping to coordinate from sales to installation.

**Supervisor of Installation** - Greg Copponex. Greg has supervised the installation of over 10,000 playgrounds in Florida and Georgia over the past 15 years. Copponex Group is the certified GameTime installer for Florida and Georgia. Greg's crews are licensed, certified, and badged in the State of Florida and Georgia, and have been installing playgrounds for 10-plus years. NPSI Certified.

# COMPLIANCE

Industry standards set a minimum level that playground manufacturers must meet. We meet or exceed those standards, because we understand that the ultimate playground offers peace of mind, as well as playful experiences.

## AMERICAN SOCIETY FOR TESTING AND MATERIALS (ASTM)

Several key people at GameTime, including our Manager of Compliance and Standards, serve on the ASTM committee that sets the standards for the entire playground industry. GameTime products conform to that standard, ASTM F1487- 11, the Standard Consumer Safety Performance Specification for Playground Equipment for Public Use.

## CPSC

The Consumer Product Safety Commission is an independent agency within the United States Federal Government with the authority to inform the public of current product safety performance information and recommended practices. The CPSC first published their guidelines for public playgrounds in 1981 and have updated their publication since then. The current CPSC Handbook for Public Playground Safety, publication #325, is an excellent guide for owners and operators of public play environments.

## IPEMA EQUIPMENT CERTIFICATION

GameTime is one of the founding members of IPEMA, and several of our people serve as board members, committee members and chairpersons of the association. In the interest of public playground safety, IPEMA provides a 3rd party certification, to validate conformance to established standards. Our use of the IPEMA seal is your assurance that GameTime has received written validation from an independent lab that the products associated with the seal conform with the ASTM standard, as well as the Canadian CSA standard CAN Z-614. A list of our validated products may be found on the IPEMA website, www. ipema.org.

## IPEMA SURFACING CERTIFICATION

GameTime's GT Impax product provides you with the assurance that our surfacing has been certified as compliant to the appropriate ASTM standard. In the interest of public playground safety, IPEMA provides a third party certification to validate a manufacturer's conformance to the ASTM F-1292-99 Standard Specification for Impact Attenuation of Surface Systems Under And Around Playground Equipment. The use of the IPEMA Certification Seal signifies that the manufacturer has received written validation from the independent laboratory that the product associated with the use of the seal conforms with the requirements of ASTM F1292-99. A complete list of our validated products may be found on the IPEMA website at www.ipema.com.

## ADA

GameTime is the only manufacturer to have a lab partnership with an Institute for children with special needs, so that we can develop and test our accessible products before bringing them to market. GameTime is the only manufacturer to meet accessibility guidelines on all of its pre-designed PowerScape and PrimeTime playground plans. We also recommend accessible surfacing options. For more information, log on to www.access-board.gov

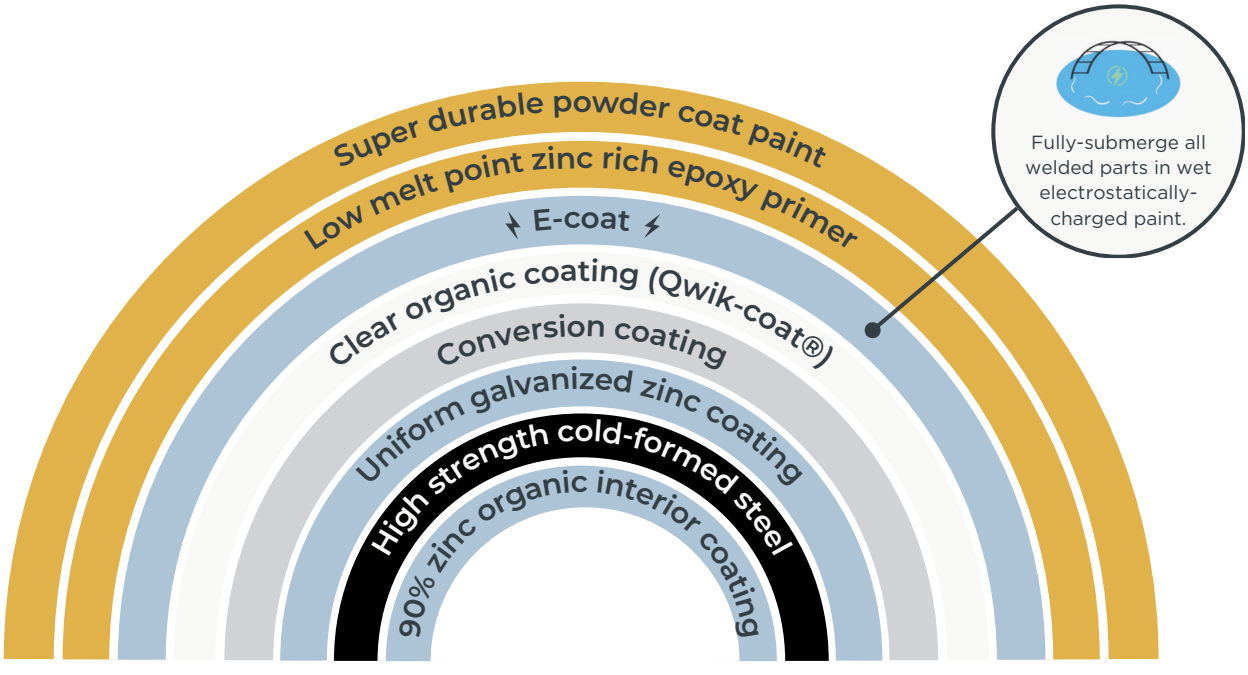
## ISO 9001:2000

GameTime is the first playground manufacturer to obtain the ISO 9001:2000 standard. In order to obtain this certification, the company's manuals, policies, objectives and quality procedures are closely examined during a surveillance audit by ISO representatives. Strict attention is paid to policies and procedures in manufacturing, communication channels, system monitoring, customer relations and order processing, which are reviewed for consistency and standards. Companies who meet the standard are awarded the ISO designation.

## TUV

An international organization that is a European Union Notified and Competent Body, providing testing and certification. Use of the TUV seal demonstrates that products have passed a comprehensive testing procedure based upon the European Harmonized Standard for Commercial Playground Equipment, and that the GameTime plant is regularly monitored by TUV.

# COASTAL PAINT OPTIONS WITH E-COAT



Durable powder coat coverage

## COASTAL PAINT PACKAGE

For coastal environments, GameTime offers an advanced paint process with E-Coat. We fully submerge parts with their weldments in a wet paint solution that is electrostatically charged.

The paint adheres to every part of the surface and provides superior protection against rust and corrosion. Next, we apply an industry-leading low melt point zinc-rich epoxy primer, and we finish the surface with our PCI 4000-certified powder coat paint. Our super durable paint and primer is tested to 3,000 hours, far beyond the industry standard of 1,000 hours of corrosion testing.

GameTime's coastal paint process carries a seven year warranty on labor and all painted parts when installed by a GameTime-certified installer.

# WARRANTY

GameTime offers a comprehensive warranty on all of our products.

For the purpose of this warranty, “lifetime” encompasses no specific term of years, but rather that the Seller warrants to its original customer for as long as the original customer owns the product, and uses the product for its intended purpose, that the product and all its parts will be free from defects in material and manufacturing workmanship.

- **Lifetime limited warranty** on PowerScape®, PrimeTime®, Xscape® & IONiX® and Modern City® uprights.
- **Lifetime limited warranty** on Tru-Loc® connections and upright bolt-through connections.
- **Lifetime limited warranty** on all hardware.
- **Twenty-Year limited warranty** on Timber Décor & Timbers recycled plastic lumber.
- **Fifteen-Year limited warranty** on metal decks, pipes, rungs, rails, loops, braces, and footbucks.
- **Fifteen-Year limited warranty** on rotationally-molded products.
- **Fifteen-Year limited warranty** on VistaRope™ nylon bearings and ring junction pieces.
- **Ten-Year limited warranty** on GTFit®, THRIVE® and Challenge Course posts & bars.
- **Ten-Year limited warranty** on site furnishings against structural failure.
- **Ten-Year limited warranty** on SunBlox products.
- **Ten-Year limited warranty** on fiberglass and DHPL signage.
- **Ten-Year limited warranty** on VistaRope™ WeaveTech™ cables.
- **Five-Year limited warranty** on Tuff Forms® structures, including TuffCrete and PolyShield.
- **Five-Year limited warranty** on nylon-covered cable net climbers and components.
- **Five-Year limited warranty** on GT Symphony Freenotes™ Harmony Park components.
- **Five-Year limited warranty** on Super Seats.
- **Five-Year limited warranty** on premature wear of VistaRope cables.
- **Three-Year limited warranty** on EveryBODY Plays® polyurea coated foam & rubber strips.
- **Three-Year limited warranty** on SaddleMates rubber and “C”-springs.
- **Three-Year limited warranty** on rubber seat and rubber mats for net events.
- **One-Year limited warranty** on Challenge Course timing components.
- **One-Year limited warranty** on all other GameTime products.

TO THE EXTENT PERMITTED BY LAW, THESE WARRANTIES ARE EXPRESSLY IN LIEU OF ANY OTHER IMPLIED OR EXPRESSED WARRANTIES OR REPRESENTATIONS BY ANY PERSON, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS. Warranties do not cover damage caused by vandalism or abuse. Warranty claims must be filed within the applicable warranty period and accompanied by a copy of the original invoice or GameTime invoice number.

**Permits are not included in cost, unless specifically listed in pricing.** If permits are required Signed/Sealed drawings are needed and are also not included unless specifically listed in pricing. Any costs for muncipal permits, paid by installer, will be charged back to the owner. Adding permits to any job will increase the length of completion, expect total time to be about **150 days**, after receipt of Site Plan from owner/customer (this is not due to manufacturing but rather the permit process at the muncipality level). It is expected that the **owner will provide approved site plans** of the area for the permit office, and will help and assist in the securing of all required approvals before assembly of equipment can begin. Installer cannot provide site plans. **The permit process can not begin until appropriate and current site plans are provided by owner.** If there are no current surveys or site plans available, the owner may be required to obtain a new survey for the permit. This is the responsibility of the owner to obtain. If additional permitting requirements are needed during the process, those will be added and billed accordingly, i.e. soil density test, formed footers, etc.

Quote #
107490-02-02

# Andy Romano Beachfront Park

**Payment Terms: Governmental Purchase Order.**
**Purchases in excess of $1,000.00 to be supported by your written purchase order made out to GameTime.**
Net 30 days subject to approval by GameTime Credit Manager. A completed Credit Application and Bank Reference Authorization, must be received with the order. The decision on credit is the sole discretion of GameTime/PlayCore. A 1.5% per month finance charge will be imposed on all past due accounts.
**Multiple Invoices**: Invoices will be generated upon services rendered. When equipment ships it will be invoiced seperately from installation and/or other services. Terms are Net 30 for each individual invoice.
This Quotation is subject to policies in the current GameTime Park and Playground Catalog and the following terms and conditions. Our quotation is based on shipment of all items at one time to a single destination, unless noted, and changes are subject to price adjustment.
Pricing: Firm for 60 days from date of quotation.
Shipment: F.O.B. factory, order shall ship within 120 days after GameTime's receipt and acceptance of your purchase order, color selections, approved submittals, and receipt of payment.
Taxes: State and local taxes will be added at time of invoicing, if not already included, unless a tax exempt certificate is provided at the time of order entry.
Exclusions: Unless specifically discussed, this quotation excludes all sitework and landscaping; removal of existing equipment; acceptance of equipment and off-loading; lift gate delivery; storage of goods prior to installation; security of equipment (on site and at night); equipment assembly and installation; safety surfacing; borders; drainage; signed/sealed drawings; or permits.

Installation Terms: Shall be by a Certified Installer. The installer is an indepedent installer and not part of PlayCore, GameTime, nor Dominica Recreation Products. If playground equipment, installer will be NPSI and Factory Trained and Certified. Unless otherwise noted, installation is based on a standard installation consistent with GameTime installation sheets and in suitable soil with a sub-base that will allow proper playground installation. Drainage is not part of our scope of work unless otherwise noted. Customer shall be responsible for scheduling and coordination with the installer. Site should be level and allow for unrestricted access of trucks and machinery. Customer shall also provide a staging and construction area. Installer not responsible for sod replacement or damage to access path and staging area. Customer shall be responsible for unknown conditions such as buried utilities, tree stumps, rock, or any concealed materials or conditions that may result in additional labor or material costs. Customer will be billed hourly or per job directly by the installer for any additional costs that were not previously included.

Unitary Surfacing Notes : The installer of the Unitary Surfacing (Poured, Bonded, Turf, Tiles) is not the same installer of the playground equipment. However, your certified equipment installer will coordinate the timing of the unitary surfacing installation, but more than likely they will not be on-site at the time. They will continue to be your contact should you have any questions. Security is needed to protect surfacing at night or after installation as the product set. Normally it is not needed or a concern, however in some areas additional security is needed to prevent vandalism. **Security is not included.** Vandalism will be the responsible of the owner.

**Permits are not included in cost, unless specifically listed in pricing.** If permits are required Signed/Sealed drawings are needed and are also not included unless specifically listed in pricing. Any costs for muncipal permits, paid by installer, will be charged back to the owner. Adding permits to any job will increase the length of completion, expect total time to be about **150 days**, after receipt of Site Plan from owner/customer (this is not due to manufacturing but rather the permit process at the muncipality level). It is expected that the **owner will provide approved site plans** of the area for the permit office, and will help and assist in the securing of all required approvals before assembly of equipment can begin. Installer cannot provide site plans. **The permit process can not begin until appropriate and current site plans are provided by owner.** If there are no current surveys or site plans available, the owner may be required to obtain a new survey for the permit. This is the responsibility of the owner to obtain. If additional permitting requirements are needed during the process, those will be added and billed accordingly, i.e. soil density test, formed footers, etc.

**Payment Terms: Governmental Purchase Order.**
**Purchases in excess of $1,000.00 to be supported by your written purchase order made out to GameTime.**
Net 30 days subject to approval by GameTime Credit Manager. A completed Credit Application and Bank Reference Authorization, must be received with the order. The decision on credit is the sole discretion of GameTime/PlayCore. A 1.5% per month finance charge will be imposed on all past due accounts.
**Multiple Invoices**: Invoices will be generated upon services rendered. When equipment ships it will be invoiced seperately from installation and/or other services. Terms are Net 30 for each individual invoice.
This Quotation is subject to policies in the current GameTime Park and Playground Catalog and the following terms and conditions. Our quotation is based on shipment of all items at one time to a single destination, unless noted, and changes are subject to price adjustment.
Pricing: Firm for 60 days from date of quotation.
Shipment: F.O.B. factory, order shall ship within 120 days after GameTime's receipt and acceptance of your purchase order, color selections, approved submittals, and receipt of payment.
Taxes: State and local taxes will be added at time of invoicing, if not already included, unless a tax exempt certificate is provided at the time of order entry.
Exclusions: Unless specifically discussed, this quotation excludes all sitework and landscaping; removal of existing equipment; acceptance of equipment and off-loading; lift gate delivery; storage of goods prior to installation; security of equipment (on site and at night); equipment assembly and installation; safety surfacing; borders; drainage; signed/sealed drawings; or permits.

Installation Terms: Shall be by a Certified Installer. The installer is an indepedent installer and not part of PlayCore, GameTime, nor Dominica Recreation Products. If playground equipment, installer will be NPSI and Factory Trained and Certified. Unless otherwise noted, installation is based on a standard installation consistent with GameTime installation sheets and in suitable soil with a sub-base that will allow proper playground installation. Drainage is not part of our scope of work unless otherwise noted. Customer shall be responsible for scheduling and coordination with the installer. Site should be level and allow for unrestricted access of trucks and machinery. Customer shall also provide a staging and construction area. Installer not responsible for sod replacement or damage to access path and staging area. Customer shall be responsible for unknown conditions such as buried utilities, tree stumps, rock, or any concealed materials or conditions that may result in additional labor or material costs. Customer will be billed hourly or per job directly by the installer for any additional costs that were not previously included.

Unitary Surfacing Notes : The installer of the Unitary Surfacing (Poured, Bonded, Turf, Tiles) is not the same installer of the playground equipment. However, your certified equipment installer will coordinate the timing of the unitary surfacing installation, but more than likely they will not be on-site at the time. They will continue to be your contact should you have any questions. Security is needed to protect surfacing at night or after installation as the product set. Normally it is not needed or a concern, however in some areas additional security is needed to prevent vandalism. **Security is not included.** Vandalism will be the responsible of the owner.

**Permits are not included in cost, unless specifically listed in pricing.** If permits are required Signed/Sealed drawings are needed and are also not included unless specifically listed in pricing. Any costs for muncipal permits, paid by installer, will be charged back to the owner. Adding permits to any job will increase the length of completion, expect total time to be about **150 days**, after receipt of Site Plan from owner/customer (this is not due to manufacturing but rather the permit process at the muncipality level). It is expected that the **owner will provide approved site plans** of the area for the permit office, and will help and assist in the securing of all required approvals before assembly of equipment can begin. Installer cannot provide site plans. **The permit process can not begin until appropriate and current site plans are provided by owner.** If there are no current surveys or site plans available, the owner may be required to obtain a new survey for the permit. This is the responsibility of the owner to obtain. If additional permitting requirements are needed during the process, those will be added and billed accordingly, i.e. soil density test, formed footers, etc.

**Payment Terms: Governmental Purchase Order.**
**Purchases in excess of $1,000.00 to be supported by your written purchase order made out to GameTime.**
Net 30 days subject to approval by GameTime Credit Manager. A completed Credit Application and Bank Reference Authorization, must be received with the order. The decision on credit is the sole discretion of GameTime/PlayCore. A 1.5% per month finance charge will be imposed on all past due accounts.
**Multiple Invoices**: Invoices will be generated upon services rendered. When equipment ships it will be invoiced seperately from installation and/or other services. Terms are Net 30 for each individual invoice.
This Quotation is subject to policies in the current GameTime Park and Playground Catalog and the following terms and conditions. Our quotation is based on shipment of all items at one time to a single destination, unless noted, and changes are subject to price adjustment.
Pricing: Firm for 60 days from date of quotation.
Shipment: F.O.B. factory, order shall ship within 120 days after GameTime's receipt and acceptance of your purchase order, color selections, approved submittals, and receipt of payment.
Taxes: State and local taxes will be added at time of invoicing, if not already included, unless a tax exempt certificate is provided at the time of order entry.
Exclusions: Unless specifically discussed, this quotation excludes all sitework and landscaping; removal of existing equipment; acceptance of equipment and off-loading; lift gate delivery; storage of goods prior to installation; security of equipment (on site and at night); equipment assembly and installation; safety surfacing; borders; drainage; signed/sealed drawings; or permits.

Installation Terms: Shall be by a Certified Installer. The installer is an indepedent installer and not part of PlayCore, GameTime, nor Dominica Recreation Products. If playground equipment, installer will be NPSI and Factory Trained and Certified. Unless otherwise noted, installation is based on a standard installation consistent with GameTime installation sheets and in suitable soil with a sub-base that will allow proper playground installation. Drainage is not part of our scope of work unless otherwise noted. Customer shall be responsible for scheduling and coordination with the installer. Site should be level and allow for unrestricted access of trucks and machinery. Customer shall also provide a staging and construction area. Installer not responsible for sod replacement or damage to access path and staging area. Customer shall be responsible for unknown conditions such as buried utilities, tree stumps, rock, or any concealed materials or conditions that may result in additional labor or material costs. Customer will be billed hourly or per job directly by the installer for any additional costs that were not previously included.

Unitary Surfacing Notes : The installer of the Unitary Surfacing (Poured, Bonded, Turf, Tiles) is not the same installer of the playground equipment. However, your certified equipment installer will coordinate the timing of the unitary surfacing installation, but more than likely they will not be on-site at the time. They will continue to be your contact should you have any questions. Security is needed to protect surfacing at night or after installation as the product set. Normally it is not needed or a concern, however in some areas additional security is needed to prevent vandalism. **Security is not included.** Vandalism will be the responsible of the owner.

Summary

This item serves as a request to accept the response to the Request for Proposals for Agent of Record Property and Casualty Insurance and corresponding Insurance Consultant Services Agreement and enter into an agreement with Foundation Risk Partners (FRP).

The Request for Proposals was advertised on May 25, 2025, and the City received and opened proposals from Foundation Risk Partners and Brown & Brown on June 24, 2025. On July 8, 2025, the evaluation committee reviewed and evaluated both proposals per the City's purchasing rules, deemed both proposals as qualified and awarded the maximum points possible in each category. Both firms are well-qualified, have experienced team members, provided professional references, and quoted a reasonable fee with only a slight difference in rates compared to the overall underlying insurance costs.

Both FRP and Brown & Brown have a proven history of providing professional and responsive services to the City while successfully managing property, casualty, liability, and workers' compensation claims and premium costs. With that in mind, the City only recently began utilizing the services of Foundation Risk Partners, following an insurance RFP process that resulted in changes to its insurance providers on October 1, 2024. As a result of working together for less than a year, and due to the impacts of Hurricane Milton also occurring in October 2024, the City is still working with FRP to fully implement many of its risk management services and programs. As such, the evaluation committee made a recommendation to select FRP as its property, casualty, liability, and workers' compensation broker in an effort to fully explore and realize many of these benefits, maintain continuity and efficiency in the provision of services, and avoid unnecessary additional costs and disruption.

Financial Impact

The total annual fee is $55,000 and will be funded from Fund 504-General Liability Insurance Fund.

Citizen Impact

In keeping with the city's commitment to transparency, the committee conducted a thorough process for the evaluation of insurance brokers and recommended an agreement that fits the city's needs, matches the tolerance for risk, and provides the desired level of service.

**RESOLUTION NO. 2025-118**

A RESOLUTION ACCEPTING THE PROPOSAL OF FOUNDATION RISK PARTNERS, CORP REGARDING AGENT OF RECORD SERVICES FOR PROPERTY, LIABILITY AND WORKERS' COMPENSATION INSURANCE; AUTHORIZING THE EXECUTION OF AN AGREEMENT AND PAYMENT THEREFOR; REJECTING ALL OTHER PROPOSALS; AND SETTING FORTH AN EFFECTIVE DATE.

**WHEREAS**, the City solicited proposals for Agent of Record for property, liability and workers' compensation insurance (the Project) (City RFP No. 2025-46), in accordance with Section 2-300, *Code of Ordinances*, and

**WHEREAS,** the City's evaluation committee reviewed the two (2) proposals received and determined that the most advantageous proposal for the City is the proposal submitted by Foundation Risk Partners, Corp to provide Agent of Record services (a copy of said proposal being attached hereto and incorporated herein by reference), and

**WHEREAS**, based on the foregoing the City's professional staff recommends that the City Commission accept the proposal of Foundation Risk Partners, Corp to provide Agent of Record services at an annual cost of $55,000.00 ($165,000.00 for the initial three-year term, plus two possible renewal periods for a total of $275,000.00 over a five-year period) and execute an agreement for the Project (a copy of said agreement being attached hereto and incorporated herein by reference), and

**WHEREAS**, the City Manager has certified that the money for the payment of the Project has been appropriated to the credit of the General Liability Fund (504) and has not been appropriated for any other purpose, now therefore,

**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:**

**SECTION ONE**. The proposal of Foundation Risk Partners, Corp to provide Agent of Record services for the City is hereby accepted.

**SECTION TWO**. All other proposals relative to the aforedescribed Project shall be deemed rejected upon the execution of an agreement with Foundation Risk Partners, Corp.

**SECTION THREE.** The Mayor and the City Manager are hereby authorized and directed to execute an Agreement between the City and Foundation Risk Partners, Corp for the Project in an amount of $165,000.00 for the initial three-year term (plus two possible annual renewals of $55,000.00 each), and to pay the costs thereof from the General Liability Fund (504).

**SECTION FOUR.** This Resolution shall take effect immediately upon its adoption.

**APPROVED AND AUTHENTICATED this 22nd day of July, 2025.**

# *Broker Services Agreement*

Prepared For:
City of Ormond Beach

Presented by:
Foundation Risk Partners, Corp

Effective Date:
October 1, 2025

## Terms and Conditions

This Broker Services Agreement (this "Agreement") is effective October 1, 2025 (the "Effective Date") by and between the **City of Ormond Beach**, a Florida municipal corporation, with offices at 22 South Beach Street, Ormond Beach, FL 32174 ("Client"), and **FOUNDATION RISK PARTNERS, CORP.**, a Delaware corporation, with offices at 780 W. Granada Blvd., Ormond Beach, FL 32168 ("FRP").

**WHEREAS,** Client has engaged FRP to perform certain services, including but not limited to Agent of Record Property & Casualty Insurance; and

**WHEREAS,** this Agreement represents the mutual understanding of Client and FRP regarding the services that FRP will provide to Client.

**NOW THEREFORE,** in consideration of the terms and conditions set forth below and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

**1. Services.** During the term of this Agreement, FRP agrees to provide Client with the "Services" as described on Exhibit A attached hereto. Client shall appoint FRP as its insurance broker of record. FRP shall have the exclusive right to provide the Services to Client for the term of this Agreement. Any and all Services not contained herein fall outside the scope of this Agreement and if additional services are required, this Agreement shall be amended in writing accordingly prior to the provision of such service.

**2. Payment.** In consideration for the Services, Client agrees to pay FRP the amount shown on Exhibit B attached hereto.

**3. Term.**

3.1 *Term.* This Agreement shall commence on the Effective Date and shall have an initial term of three (3) years. This Agreement shall be automatically renewed for two (2) additional one (1) year periods unless either party provides at least ninety (90) days prior written notice of its intent not to renew. If FRP and Client, in good faith, continue its business relationship after the above expiration date, the terms of this Agreement will control and continue to be in full force and effect until such time as a new agreement is executed by the parties or the relationship between the parties is otherwise terminated.

**4. Warranties.**

4.1 *Warranties by FRP.* FRP hereby represents and warrants to Client that:

a. The Services will be performed in a professional and workmanlike manner, consistent with all applicable laws, required guidelines and industry standards.

b. It will at all times employ current industry standard security protection, compliant with all applicable laws, to prevent unauthorized access to all records, data, documents, images and other information of Client and its employees ("Employee Data Records") and that it shall employ industry standard measures to maintain the

strict confidentiality at all times of all Employee Data Records.

c. The Services do not and shall not violate or infringe the copyright, trademark, patent, trade secret, privacy, publicity or reputational rights of any third party.

4.2 *Warranties by Client.* Client hereby represents and warrants to FRP that:

a. All information provided to FRP by Client in connection with FRP's performance of Services is or will be complete and accurate in all material respects;

b. Use of the information provided by Client to perform the Services will not conflict with or constitute a violation or breach of any contract or other obligation under which Client is bound or any judgment, law, rule, or governmental regulation applicable to Client.

4.3 *WARRANTY DISCLAIMERS*. Neither party makes any representation or warranty, express or implied, with respect to any Confidential Information. Neither party shall be responsible for any expenses, losses, or actions incurred or undertaken by the other party as a result of the receipt and use by such party of Confidential Information of the other party. Disclosing party retains all rights to its Confidential Information. No grant or license is made or given hereunder, express or implied, to any trademark, copyright, patent or similar right other than the use of the Confidential Information for the limited Business Purpose. Confidential Information is disclosed "AS IS" under this agreement. This Agreement is not intended, nor shall it be constructed, to create or convey any right in or upon any person or entity not a party to this Agreement.

**5. <u>Data and Return of Data</u>.**

5.1 *Data.* Client hereby represents, warrants, and covenants that: (i) Client has all rights and authorizations, in compliance with all applicable laws and regulations, to provide the Data (defined below) to FRP and (ii) Client owns all Data and has sole responsibility and liability for the Data under all applicable laws and regulations at all times during Initial Term and any renewal of this Agreement. "Data" means Client's records or files and other related information.

*5.2 Return of Data.* Upon either (i) completion of the Services of (ii) termination of this Agreement, Client and FRP hereby agree that FRP shall return to the owning party or destroy all copies of the Confidential Information, provided that such destruction is not prohibited by applicable law, rule, court order or other similar process, or a governmental, regulatory or legal authority. A party may return Confidential Information, or any part thereof, to the other party at any time. Notwithstanding the foregoing, the obligation to return or destroy Confidential Information shall not cover (a) Confidential Information that is maintained on routine computer backup tapes, disks, or other backup storage devices or (b) one copy of Confidential Information that the recipient is required to maintain in accordance with applicable legal, regulatory or record-keeping requirements, provided that such retained Confidential Information is not used or disclosed or, in the case of back-up Confidential Information, otherwise recovered from such back-up devices. The obligation contained in this Section not to use, disclose or otherwise

access such retained Confidential Information shall continue in full force and effect, notwithstanding any other termination of this Agreement.

**6. Client Responsibilities.** Client has sole responsibility and liability for: (a) establishment and operation of its plans; (b) construing and interpreting the provisions of its plans; (c) deciding all questions of fact arising under its plans; and (d) all fiduciary decisions relating to its plans.

**7. Remedies.** Without prejudice to any other remedies to which Client may be entitled at law or in equity, in the event of a breach of FRP's warranty under Section 4.1, Client shall provide FRP written notice of non-conforming services within twenty (20) days of Client being on notice of the non-conforming services being performed. If adequate notice was provided to FRP, FRP shall promptly re-perform the non-conforming Services at no additional cost so as to make the Services comply with its representations, warranties and covenants of Section 4.1. If FRP should fail to promptly re-perform the Services, Client shall not be obligated to pay for any such deficient Services to the extent they are not re-performed, and shall be entitled to: (i) recover any fees already paid to FRP for such deficient Services to the extent they were not re-performed, provided however, no refund shall be given for any Services which were performed or have been re-performed in compliance with FRP's representations, warranties and covenants of Section 4; and (ii) retain any deliverables resulting from such deficient Services if and only to the extent Client pays all fees for any Services in connection with such deliverables regardless of whether the Services were performed in compliance with FRP's representations, warranties and covenants of Section 4.

**8. Authority; Compliance with Laws.** Each party represents, warrants and covenants to the other party that (i) it has the authority to enter into this Agreement and to perform all of its obligations hereunder; (ii) FRP and each of FRP's employees, contractors, and subcontractors who perform Services hereunder ("FRP Personnel") have not previously entered into any agreement that would restrict any of such persons in the performance of Services; and (iii) each party shall comply with all applicable foreign and United States federal, state and local laws, rules and regulations in its performance of this Agreement.

**9. Sufficient Rights; Non-Infringement.** FRP represents, warrants and covenants to Client that (i) it has sufficient rights to perform the Services on behalf of Client; and (ii) the Services, when performed and used in accordance with the terms and conditions of this Agreement, do not and shall not infringe upon or otherwise violate or misappropriate any Intellectual Property Rights of any third party. "Intellectual Property Rights" means copyrights, patents, trademarks, trade secrets, and other intellectual property rights.

**10. Publicity; Use of Trademarks.** Nothing herein shall be interpreted as granting either party a right or a license to use the trade name, word mark or the trademark of the other party for any reason. Any use of such information must be obtained in writing from the other party.

**11. Relationship of the Parties.** Client and FRP are independent contracting parties. This Agreement shall not create a relationship of principal and agent, partners, joint venturers, or employer and employee.

**12. Confidentiality.**

*12.1 Definition.* "Confidential Information" includes all trade secrets (as defined by Florida law), business information, technical data, or

know-how, including, but not limited to, that which relates to a disclosing party's research, hardware, insurance information (including insurance data, premium and policy information, premium spend, broker and insurer information, insurance coverage amounts and limits, historical losses, asset related information), products and services, clients, customers, tenants and tenant financial information, software products, technology, data, data models, data processing systems and techniques, product roadmap, product platforms, solutions, technical information, trades secrets, business plans, business models and related documentation, support, and services, financial information and other confidential and proprietary information not made available to the general public by disclosing party furnished after the date of this agreement, analyses, compilations, summaries or other documents prepared by the recipient party containing or based upon any such information, copies of any of the foregoing regardless of its form or medium (oral, written, stored in computers, machine readable, electronic or other) ("Confidential Information"). Each party (the "Recipient") acknowledges that it has or may be exposed to Confidential Information of the other party (the "Disclosing Party"), whether or not the Disclosing Party expressly designates any such information to be Confidential Information. Confidential Information shall not include any information (a) that is or becomes publicly known without any breach hereof by the Recipient, (b) that was known to the Recipient prior to any disclosure to it by the Disclosing Party, as shown by the Recipient's written records, (c) that is rightfully received by the Recipient from a third party who is not bound by a confidentiality obligation to the Disclosing Party, (d) that is independently developed by the Recipient without using any of the Confidential Information of the Disclosing Party, or (e) that is required to be disclosed by law. FRP shall keep and maintain public records that ordinarily and necessarily would be required by Client as indicated in the attached referenced and incorporated herein as *Exhibit A*, in order to perform the services. FRP shall provide the Client with access to Client's public records on the same terms and conditions that Client would provide the records and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, as may be amended or revised or as otherwise provided by law, and ensure the public records that are exempt or confidential from public records disclosure requirements are not disclosed except as authorized by law. FRP shall also meet all requirements for retaining public records and transfer, at no cost to Client all public records in possession of FRP at termination of this Agreement. All records stored electronically must be provided to Client in a format compatible with Client's technology system.

*12.2 Restrictions.* Each party forever agrees to hold in confidence and not disclose or utilize for its own or anyone else's benefit any Confidential Information except as necessary in connection with the Services, or as required pursuant to the terms of a valid and effective subpoena or order issued by a court of competent jurisdiction. Except as expressly authorized herein or in a separate writing signed by the Disclosing Party, the Recipient shall not use, commercialize or disclose any Confidential Information to any person or entity, except as provided by law. Each party shall also ensure that all of its officers, directors, employees and independent contractors abide by the terms of this Agreement. The Non-disclosing Party shall protect all Confidential Information of the Disclosing Party from disclosure and unauthorized use in the same manner that it protects its own proprietary and confidential information of like nature, but in no event shall such standard of care be less than reasonable care. The Non-disclosing Party shall

not copy the Disclosing Party's Confidential Information without the Disclosing Party's prior written consent except as necessary to perform its obligations under this agreement and to maintain a record of the Confidential Information exchanged pursuant to this agreement, and shall immediately notify the Disclosing Party in the event of any unauthorized use or disclosure of the Disclosing Party's Confidential Information. However, any Confidential Information that is required to be disclosed pursuant to a requirement of a governmental agency or law of the United States of America or a state thereof, or any governmental or political subdivision thereof, may be disclosed, but only to the extent required so long as the party required to disclose the information provides the other party with timely prior notice of such requirement and an opportunity to oppose the disclosure. The parties further agree that each party is and shall remain; the exclusive owner of all of its respective Confidential Information and no license or conveyance of any rights to any Confidential Information is granted or implied under this Agreement. Upon the termination of this Agreement, the parties shall return all Confidential Information to its respective owner.

*12.3 Survival.* The provisions of this Section 12 shall survive any termination of this Agreement.

**13. <u>Indemnification</u>.**

13.1 *General; Personal Injury; Damage to Personal Property.* FRP and Client shall each indemnify (a party providing indemnification pursuant to this Article 13 referred to as an "Indemnifying Party") and hold the other party (a party seeking indemnification pursuant to this Article 13 referred to as an "Indemnified Party"), its officers, employees and agents harmless against any and all liability, loss, expense, including reasonable attorney's fees, or claims for injuries or direct damages (not including consequential or punitive damages) arising out of the Indemnifying Party's performance of this Agreement, but only in proportion to and to the extent such liability, loss or expense, attorney fees, or claims for injury or direct damages are caused directly by or resulting from the negligent or intentional acts or omissions of the Indemnifying Party, its officers, employees or agents. The Indemnified Party will provide the Indemnifying Party written notice within thirty (30) days of receiving notice of a claim potentially giving rise to indemnification hereunder and will provide the Indemnifying Party an opportunity to control the defense of such claim. Notwithstanding the foregoing, the Indemnifying Party shall not make any settlement of any claim on behalf of the Indemnified Party without the prior written consent of the Indemnified Party, which consent shall not be unreasonably withheld or delayed.

*13.2 Non-Infringement.* FRP and Client shall each indemnify, defend and hold harmless each other from and against any and all claims relating to, or arising out of, any claim alleging that the Services or any deliverable, or the use of any part thereof, when used in accordance with the terms and condition of this Agreement infringes, misappropriates or violates any Intellectual Property Rights of a third party, except to the extent (i) that either party is determined by a court of competent jurisdiction to be responsible for the incident that resulted in such claims, or (ii) such claims result directly from gross negligence or willful misconduct. Both parties shall cooperate as reasonably requested and shall provide any information in its possession with respect to such claims and will provide prompt notice of such claims.

13.3 *Breach of Confidentiality or Security Requirements.* Each party shall indemnify, defend and hold harmless each other from and against any and all claims relating to, or arising out of, any breach of Section 12 (Confidentiality), except to the extent (i) either party is determined by a court of competent jurisdiction to be responsible for the incident that resulted in such claims, or (ii) such claims result directly from gross negligence or willful misconduct. Both parties shall cooperate as reasonably requested and shall provide any information in its possession with respect to such claims and will provide prompt notice of such claims.

**14. Limitation of Liability.**

14.1 SUBJECT TO SECTION 14.2, EITHER PARTY'S CUMULATIVE LIABILITY TO THE OTHER PARTY UNDER THIS AGREEMENT FOR ALL CAUSES OF ACTION, WHETHER ARISING IN CONTRACT, TORT (INCLUDING NEGLIGENCE), OR OTHERWISE (INCLUDING THIRD PARTY CLAIMS), SHALL BE LIMITED TO AND NOT EXCEED PROVEN DIRECT DAMAGES IN AN AMOUNT NOT TO EXCEED THE AMOUNT PAID OR TO BE PAID BY CLIENT PURSUANT TO THIS AGREEMENT, REGARDLESS OF WHETHER SUCH PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

14.2 IN NO EVENT SHALL EITHER PARTY BE LIABLE TO THE OTHER PARTY FOR ANY CONSEQUENTIAL, INCIDENTAL, PUNITIVE, SPECIAL, EXEMPLARY, OR INDIRECT DAMAGES, OR ANY AMOUNTS REPRESENTING LOSS OF REVENUES, LOSS OF PROFITS, LOSS OF BUSINESS, LOSS OF USE, LOST OR DAMAGED DATA, INTERRUPTION OF BUSINESS ARISING OUT OF THIS AGREEMENT, EVEN IF SUCH PARTY IS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

14.3 SOVEREIGN IMMUNITY. THE CLIENT EXPRESSLY RETAINS AND RESERVES ALL RIGHTS, PRIVILEGES, IMMUNITIES, AND BENEFITS OF SOVEREIGN IMMUNITY AS PROVIDED UNDER THE FLORIDA STATUTES, AND THIS PROVISION SHALL BE CONSTRUED BROADLY IN FAVOR OF CLIENT.

**15. Miscellaneous.**

*15.1 In General.* The parties, without further consideration of any kind, shall each execute and deliver, or cause to be executed and delivered, such other instruments, and take, or cause to be taken, such other action, as shall reasonably be requested by the other party hereto to more effectively carry out the terms and provisions of this Agreement.

15.2 *Amendment.* This Agreement may not be modified or amended except in writing and duly signed by an authorized representative of each party.

*15.3 Governing Law and Venue.* The construction, interpretation and performance of this Agreement, and the transactions under it, shall be governed by and construed in accordance with the laws of the State of Florida, excluding its conflict of laws and choice of law rules, and jurisdiction over any action to enforce this Agreement, or any dispute arising from or relating to this Agreement shall subsist solely in the state and/or federal courts located within the State of Florida, with exclusive venue agreed to be in a state or federal court of competent jurisdiction in or for Volusia County, Florida.

*15.4 Force Majeure.* Neither FRP nor Client shall be held responsible for any delay or failure in performance under this Agreement arising out of causes beyond its control, or without its fault or negligence. Such causes

may include, but are not limited to, fires, terrorist acts, strikes, embargoes, shortages or supplies of raw materials, or components or finished goods, acts of God, acts of regulatory agencies or national disasters.

15.5 *Notices.* All notices, requests, demands, claims and other communications hereunder ("Notices") shall be in writing. Any Notice hereunder shall be deemed duly given (i) upon receipt if delivered in person; (ii) upon the third business day after being sent if sent by registered or certified mail, return receipt requested with postage thereon prepaid; or (iii) on the next business day if sent by Federal Express or similar overnight courier service; in each case addressed to HIP or to Client at the addresses listed below:

**Address for Notices to FRP:**
Foundation Risk Partners, Corp.
780 W. Granada Blvd.
Ormond Beach, FL 32174
Attn: Thomas J. Leek, Chief Legal Officer

**Address for Notices to Client:**
Joyce Shanahan, City Manager
(copy to City Attorney)
22 South Beach Street
Ormond Beach, FL 32174

*15.6 Attorney's Fees*. In the event of a dispute concerning the terms of this Agreement, any claims arising from this Agreement, or arising out of the relationship created by this Agreement, the prevailing Party, as determined by the court or arbiter, shall be entitled to recover, in addition to any other remedy obtained, (i) all attorneys' and paralegals' fees incurred in the investigation and preparation of issues related to the dispute, including investigation and preparation for trial and in the trial and appellate proceedings, and (ii) all statutory costs. The prevailing party shall be that party which shall have prevailed on a majority, but not necessarily all, of the material issues which were adjudicated in such proceeding.

*15.7 Severability.* Any term or provision of this Agreement that is invalid or unenforceable in any jurisdiction shall not affect the validity or enforceability of the balance of the Agreement or of the offending term or provision in any other situation or jurisdiction.

*15.8 Waiver.* The failure of either party hereto to enforce any right under this Agreement shall not be construed to be a waiver of that right, or of damages caused thereby, or of any other rights under this Agreement.

*15.9 Counterparts.* This Agreement may be executed in any number of counterparts, which together shall constitute one and the same instrument. Delivery of an executed counterpart of a signature page by facsimile or electronic means shall be effective as delivery of a manually executed counterpart.

*16.0 Entire Agreement.* This Agreement constitutes the entire agreement between the parties regarding the subject matter hereof and no terms, conditions or provisions other than those expressly contained herein shall be deemed to be part of this Agreement. This Agreement supersedes any and all prior agreements, covenants, arrangements, communications, representations and/or warranties with respect to the subject matter of this Agreement.

FOUNDATION
RISK PARTNERS

## Exhibit A – Services

The broker selected will serve as the City's Agent of Record and will be responsible for conducting all services relative to the marketing, acquisition and maintenance of Property & Casualty insurance on behalf of the City of Ormond Beach.

1. Contact Property & Casualty insurance providers on behalf of the City to resolve issues that may arise throughout the year as needed. The City of Ormond Beach currently purchases Excess Workers' Compensation, Property, Public Officials Liability, Employment Practices Liability, Commercial General Liability, Licensees & Permitees, Drone, Cyber, Volunteer Accident, Petroleum, Flood, Professional Liability for Specified Medical Professions (Emergency Medical Technicians – EMT), Commercial Crime, and Accidental Death and Disability for Public Safety coverage. The City may consider Auto Liability coverage, or other applicable coverage.

2. Negotiate renewal rates on an annual basis for the most comprehensive coverage at the most cost-effective premium with input from City staff and provide such rates no later than July of each year – unless other arrangements are agreed-to between the broker or brokers and the City.

3. Assist the Risk Manager and/or City staff in conducting annual physical inventories for real and personal property, establishing current replacement values.

4. Prepare and maintain list of current properties owned by the City. Update list to reflect new construction, acquisition or deletion of property and provide same to the City, at a minimum on an annual basis.

5. Assist the Risk Manager in preparing documents and exhibits for presentation to the City's Insurance Program Committee and/or City Commission for approval/annual renewal of Property & Casualty insurance. All documents/proposals to be considered by the City Commission for approval must be received in final form to meet deadlines established by the Risk Manager for inclusion in the City Commission agenda packet.

6. Attend City Commission meetings and other meetings as requested by City staff at no cost to the City.

7. Assist City staff with review and suggested improvement to the City's minimum insurance requirements.

8. Be available to meet with City staff concerning issues regarding the City's minimum insurance requirements and certificates of insurance.

9. Be willing to assist vendors or bidders on City contracts with insurance coverage that meets or exceeds the City's minimum insurance requirements.

10.Assist in the preparation of Requests for Proposals (in compliance Section 2-300 of the Ormond Beach Code of Ordinances) and analysis of same as needed at no charge to the City.

11.Respond to telephone calls from City staff on the same day or within twenty-four (24) hours and be available at night and on weekends as needed.

12.Be available to meet on-site as required by the City within 48 hours of request, unless other arrangements are agreed-to between the broker and the City.

13.Actively pursue improved coverage and/or rates on behalf of the City of Ormond Beach. Outline marketing techniques including timing, client meetings, meetings with underwriters and major carriers.

14.Perform risk management advisory services. Advice must be provided on emerging risk management trends, the state of the market and any new, innovative products.

15.Review and refine existing insurance model and prepare ongoing reports as requested.

16.Provide other related services as determined by the City at no cost to the City.

**End of Scope of Services**

FOUNDATION
RISK PARTNERS

**Exhibit B - Pricing**

In consideration for the Services provided herein, Client agrees to pay FRP annually an amount of $55,000 for the Services rendered. This fee is not refundable.

| Annual Contract Fee for RFP No. 2025-46 | |
|---|---|
| **Annual Total Flat Fee** | **$55,000/year** |

**FRP will not accept compensation for the insurance program currently in place, other than the FEE proposed, except for flood policies placed through the National Flood Insurance Program. FEMA issued a memorandum in April 2012 prohibiting the "rebating" or return of commission practice for NFIP flood policies. FRP adheres to this directive for all NFIP flood policies placed by FRP. A copy of the FEMA directive is available upon request.*

IN WITNESS WHEREOF, Client and FRP have executed and delivered this Broker Services Agreement effective as of the Effective Date.

## GENERAL CONDITIONS

**PUBLIC ENTITY CRIMES**: A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a proposal on a contract to provide any goods or services to a public entity, may not submit a proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit Proposals on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

**DISCRIMINATION:** Pursuant to Section 287.134(2)(a), Florida Statutes, an entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid or proposal on a contract to provide any goods or services to a public entity, may not submit a bid or proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit bid or proposal on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

**PUBLIC RECORDS/NON-CONFIDENTIALITY OF BIDS AND/OR PROPOSALS**. The City of Ormond Beach cannot and does not warrant the confidentiality of any information submitted in response to this solicitation. Florida law provides that municipal records shall at all times be open for personal inspection by any person, Section 119.01, F.S., The Public Records Law. Information and materials received by the City of Ormond Beach in connection with all Proposers' response shall be deemed to be public records subject to public inspection upon award, recommendation for award, or 30 days after bid opening, whichever occurs first. Section 119.071, F.S.

**DISTRIBUTION OF BIDS AND RFP'S**: The City uses the services of DemandStar (www.demandstar.com) to distribute its bids and RFP's on-line on the Internet. If you have received a copy of this RFP from any source other than DemandStar, please be aware that you may not have received the latest version of the RFP or any related addendums.

**SUBMISSION OF RESPONSES**: All Submittals shall be delivered in a sealed envelope. The Request for Proposals (RFP) number, title, and opening date shall be clearly displayed on the outside of the sealed envelope (and on the outside of any express shipping package). The delivery of said submittal to the Purchasing Office on or before the specified opening date and time is solely and strictly the responsibility of the Submitter. Any submittal received by the Purchasing Office after the specified date and time will not be accepted. Submittals must be presented on forms provided by the City. No other forms will be accepted. Responses submitted by telephone, fax or email will not be considered. No Submittal may be modified after opening. No Submittal may be withdrawn after opening for a period of ninety (90) days unless otherwise specified.

**EXECUTION OF SUBMITTAL:** Submittals must contain a manual signature of authorized representative in the space(s) provided. Submittals must be typed or printed in ink. Use of erasable ink is not permitted. All corrections made by Submitter to any Submittal entry must be initialed. The company name and Federal Employer Identification Number (F.E.I.N.) number shall appear in the space(s) provided.

**RFP OPENING**: Submittals shall be opened and the name of the submitters shall be read publicly. No discussion of the Submittals will occur at this time.

**SUBMITTAL TABULATION:** The RFP Tabulation will be posted on Demandstar (www.demandstar.com). Any submitter wishing to receive a paper copy of the tabulation is required to enclose a stamped, self-addressed envelope with their Submittal response.

**CLARIFICATION/CORRECTION OF RFP ENTRY:** The City of Ormond Beach reserves the right to allow for the clarification of questionable entries and for the correction of obvious mistakes.

**INTERPRETATION:** Any questions concerning conditions and specifications shall be directed to the Purchasing Coordinator. Those interpretations which may affect the eventual outcome of this Submittal will be furnished in writing to all prospective Submitters. No interpretation shall be considered binding unless provided in writing by the City of Ormond Beach.

**MINORITY POLICIES:** The City of Ormond Beach, Florida, encourages the full participation of Disadvantaged and Women Business Enterprises (D&WBE) in the provision of goods and services.

**RESPONSIBILITY DETERMINATION:** Pursuant to the provisions of Florida Statutes Chapter 287.05701, the City does not request or consider a vendor's social, political, or ideological interests in making a responsibility determination.

**LICENSES AND PERMITS:** The Vendor/Contractor is responsible for obtaining all necessary permits and licenses to comply with all Federal, State, local laws, rules and regulations required to perform work in accordance with the specifications.

**ADDITIONAL TERMS AND CONDITIONS:** The City of Ormond Beach reserves the right to reject Submittals containing any additional terms or conditions not specifically requested in the original conditions and specifications.

**TAXES:** The City of Ormond Beach is exempt from Federal Excise Taxes and all sales taxes.

**SILENCE OF SPECIFICATIONS**: The apparent silence of any specification and any supplemental specifications as to any details or the omission from same of any detailed description concerning any point shall be regarded as meaning that only the best commercial practices are to prevail and that only materials of first quality and correct

type, size, and design are to be used. All workmanship is to be first quality. All interpretations of the specifications shall be made upon the basis of this statement.

**ASSIGNMENT:** Any purchase order or contract issued pursuant to a Submittal and the monies which may become due hereunder are not assignable except with the prior written approval of the City Manager or City Commissioner, whichever authorized the purchase or Agreement.

**LIABILITY**: The Contractor shall hold and save the City of Ormond Beach, its officers, agents, and employees harmless against claims by third parties resulting from the Contractor's or supplier's breach of contract or negligence, including all attorney's fees and costs, and shall pay any and all damages, fees, and costs assessed on behalf of the City. The City expressly reserves all rights, privileges and benefits of sovereign immunity.

**PATENTS AND ROYALTIES**: The Contractor, without exception, shall indemnify and save harmless the City of Ormond Beach and its employees from liability of any kind, including cost and expenses for or on account of any copyrighted, patented, or unpatented invention, process, or article manufactured or used in the performance of the contract, including its use by the City of Ormond Beach. If the Contractor uses any design, device, or materials covered by letters, patent or copyright, it is mutually agreed and understood without exception that the Submittal prices shall include all royalties or cost arising from the use of such design, device, or materials in any way involved in the work.

**NON-APPROPRIATION OF FUNDS:** In the event sufficient budget funds are not available for a new fiscal period, the CITY shall notify the VENDOR/CONTRACTOR of such occurrence and the contract shall terminate on the last day of the current fiscal period, without any penalty or expense to the CITY of any kind whatsoever.

**AWARDS:** The CITY reserves the right, in its sole discretion, as the best interest of the CITY may require, to make award(s) by individual item, group of items, all or none, or a combination thereof; on a geographical basis and/or with one or more vendors, contractors, consultants or specialists; or to reject any and all Submittals or waive any minor irregularity or technicality in the Submittals received.

**OTHER AGENCIES:** All Bidder(s) awarded contracts from this bid or proposal may, permit any municipality or other government agency to participate in the contract under the same prices, terms, and conditions, if agreed to by both parties.

It is understood that at no time will any city, municipality, or other agency be obligated for placing an order for any other city, municipality, or agency: nor will any city, municipality, or agency be obligated for any bills incurred by any other city, municipality, or agency. Further, it is understood that each agency will issue its own purchase orders to the awarded bidder(s).

**COMPLIANCE WITH FLORIDA PUBLIC RECORDS LAW:**

Contractor expressly agrees that it shall comply with the public records law provided in Florida Statutes, Chapter 119, and specifically to:

(a) Keep and maintain public records required by the City to perform the contracted service.
(b) Upon request from the City Clerk, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the City.
(d) Upon completion of the contract, transfer at no cost, to the City all public records in possession of the contractor or keep and maintain public records required by the City to perform the service. If the contractor transfers all public records to the City upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon the completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City Clerk, in a format that is compatible with the information technology systems of the City.
(e) Failure of the Contractor to comply with Public Records Law as provided by Florida Statutes, Chapter 119, shall subject the Contractor to penalties under Chapter 119.10 and subject this Agreement to termination for cause by the City.

**IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:**

**THE CITY OF ORMOND BEACH RESERVES THE RIGHT TO REJECT ANY OR ALL PROPOSALS, AND TO WAIVE INFORMALITIES AS MAY BE DEEMED TO BE IN THE BEST INTEREST OF THE CITY.**

## TERMS AND CONDITIONS

A. The City of Ormond Beach reserves the right without prejudice to reject any or all proposals, to request clarification of information submitted, and to request additional information of one or more proposers.

B. The City reserves the right to award the contract to the next most qualified firm if the successful firm fails to execute a contract within two weeks after the award of the contract by the City Commission.

C. In accordance with federal, State, and local regulations, the firm shall not discriminate under the contract against any person.

D. The firm shall not assign or transfer any interest in the contract without prior approval of the City Commission.

E. The City reserves the right to terminate the contract at any time due to the vendor's default under terms of agreement.

F. Submission of a proposal indicates acceptance by the firm of the conditions contained in this Request for Proposals unless clearly and specifically noted in the proposal submitted and confirmed in the contract between the City of Ormond Beach and the firm selected.

G. Submittals should include a copy of firm's insurance certificate, Conflict, Non-Conflict of Interest Statement/Litigation Statement, Drug Free Workplace Certificate and E-Verify Statement.

## I. OBJECTIVE OF THE REQUEST FOR PROPOSALS

The City of Ormond Beach, located in Volusia County, Florida, is comprised of approximately 33 square miles, with a population of 43,000 and 349 full-time employees. The city is seeking the professional services of an Agent of Record for Property & Casualty Insurance. The Agent of Record will assist in the negotiation of rates and resolution of all related issues on behalf of the City.

## II. SCOPE OF SERVICES

The City is seeking proposals from established, qualified Property & Casualty insurance brokers who are properly licensed and have been in the business for not less than five (5) years. The broker selected will serve as the City's Agent of Record and will be responsible for conducting all services relative to the marketing, acquisition and maintenance of Property & Casualty insurance on behalf of the City of Ormond Beach. The Agent of Record may receive a reasonable commission from the Property & Casualty insurance carrier(s) and/or charge an administrative fee directly to the City. The Agent should be able to acquire liability coverage which provides for the City's choice of counsel. Examples of the work expected to be performed by the selected agent includes but are not limited to:

1. Contact Property & Casualty insurance providers on behalf of the City to resolve issues that may arise throughout the year as needed. The City of Ormond Beach currently purchases Excess Workers' Compensation, Property, Public Officials Liability, Employment Practices Liability, Commercial General Liability, Licensees & Permitees, Drone, Cyber, Volunteer Accident, Petroleum, Flood, Professional Liability for Specified Medical Professions (Emergency Medical Technicians – EMT), Commercial Crime, and Accidental Death and Disability for Public Safety coverage. The City may consider Auto Liability coverage, or other applicable coverage.

2. Negotiate renewal rates on an annual basis for the most comprehensive coverage at the most cost-effective premium with input from City staff and provide such rates no later than July of each year – unless other arrangements are agreed-to between the broker or brokers and the City.

3. Assist the Risk Manager and/or City staff in conducting annual physical inventories for real and personal property, establishing current replacement values.

4. Prepare and maintain list of current properties owned by the City. Update list to reflect new construction, acquisition or deletion of property and provide same to the City, at a minimum on an annual basis.

5. Assist the Risk Manager in preparing documents and exhibits for presentation to the City's Insurance Program Committee and/or City Commission for approval/annual renewal of Property & Casualty insurance. All documents/proposals to be considered by the City Commission for approval must be received in final form to meet deadlines established by the Risk Manager for inclusion in the City Commission agenda packet.

6. Attend City Commission meetings and other meetings as requested by City staff at no cost to the City.

7. Assist City staff with review and suggested improvement to the City's minimum insurance requirements.

8. Be available to meet with City staff concerning issues regarding the City's minimum insurance requirements and certificates of insurance.

9. Be willing to assist vendors or bidders on City contracts with insurance coverage that meets or exceeds the City's minimum insurance requirements.

10. Assist in the preparation of Requests for Proposals (in compliance Section 2-300 of the Ormond Beach Code of Ordinances) and analysis of same as needed at no charge to the City.

11. Respond to telephone calls from City staff on the same day or within twenty-four (24) hours and be available at night and on weekends as needed.

12. Be available to meet on-site as required by the City within 48 hours of request, unless other arrangements are agreed-to between the broker and the City.

13. Actively pursue improved coverage and/or rates on behalf of the City of Ormond Beach. Outline marketing techniques including timing, client meetings, meetings with underwriters and major carriers.

14. Perform risk management advisory services. Advice must be provided on emerging risk management trends, the state of the market and any new, innovative products.

15. Review and refine existing insurance model and prepare ongoing reports as requested.

16. Provide other related services as determined by the City at no cost to the City.

## III. TERM OF AGREEMENT

The initial term of this agreement shall be for a period of three (3) years and will be automatically renewed for two (2) additional one-year periods thereafter unless either party provides at least ninety (90) days prior written notice to the other party of their intent not to renew the agreement.

## IV. MIMIMUM QUALIFICATIONS

To be considered by the City, proposing firm must:

1. Have at least five years of experience under the same name providing similar property and casualty broker services to municipalities of similar size in the state of Florida.

2. Be licensed to transact insurance brokerage business in the state of Florida.

3. Demonstrate they have successfully provided similar broker services to at least three other municipalities of similar size in the state of Florida.

4. Services must have been provided in the past five years prior to the issuance of this RFP.

5. Demonstrated ability and success implementing various risk management strategies to reduce premium costs while providing adequate insurance levels.

6. The client executive assigned to the account must have a minimum of ten years of experience providing similar broker of record services to municipalities of similar size in the state of Florida and must be capable of speaking and making decisions on behalf of the firm. Additional support staff assigned to the city must have a minimum of five years of experience supporting municipalities in the administration of property and casualty insurance programs.

## V. PROPOSAL PROCESS

The firm or individual(s) interested in this contract should include a response to each of the following items in their written proposal:

A. Background and experience of firm:

1. Describe the firm's experience working with municipalities of similar size in the state of Florida. Provide a list of all public employee/government clients for the past three years. Provide contact information for at least three municipal clients.

2. Provide resumes for the firm owners, key management personnel, and dedicated account team including account executive, client representatives, and any other administrative support personnel interacting with the city.

3. Provide an organizational chart showing reporting structures for all key staff and dedicated team members.

4. Include three professional references for the individual designated to serve as the city's primary point of contact.

B. Fees:

Provide the firm's fee structure.

.

## VI. PROPOSAL SUBMITTAL

Please check the contents of your RFP package carefully to ensure that you have in your possession all the necessary documents, as referenced within this RFP, including any addenda. If you are missing any items, please contact the City's Purchasing Coordinator at 386-676-3223, or by e-mail at: rob.hart@ormondbeach.org.

Submission of a proposal pursuant to this RFP shall constitute acknowledgement and acceptance of the terms and conditions set forth herein. Portions of this RFP and the contents of the proposal submitted by the successful proposer may become contractual obligations if an Agreement is awarded. Failure of the successful proposer to accept these obligations may result in cancellation of the award of contract.

The City reserves the right to withdraw this RFP at any time without prior notice. All proposals submitted in response to this RFP become the property of the City of Ormond Beach.

Deadline for Submission: To be considered, proposals must be received no later than 2:00 p.m., June 24, 2025.

Inquiries: Technical questions may arise as firms are preparing their proposals. The City will accept written inquiries regarding this RFP until seven (7) working days prior to the RFP due date. Questions received after that time will not be responded to. Answers to questions that warrant attention of all the potential proposers will be distributed in the form of an addendum. Please direct written inquiries to:

Rob Hart
City of Ormond Beach
22 South Beach Street, Room 102
Ormond Beach, Florida 32174
Telephone: (386) 676-3223
FAX: (386) 676-3374
rob.hart@ormondbeach.org

Signature Requirements: Proposals must be signed by a duly authorized official(s) of the proposing firm. Consortiums, joint ventures, or teams submitting proposals, although permitted and encouraged, will not be considered responsive unless it is established that all contractual responsibility rests solely with one firm or legal entity which shall not be a subsidiary or affiliate with limited resources. Each proposal shall indicate the entity responsible for execution on behalf of the proposal team.

Proposal Delivery: You must submit one (1) unbound original plus one (1) electronic copy on compact disk (CD) or flash drive of the proposal no later than the date and time specified above. Submit proposals to: Rob Hart, Purchasing Coordinator, at City Hall down stairs in Room 102, 22 South Beach Street, Ormond Beach, FL 32174. The RFP title and number shall be plainly marked on the outside of the delivery envelope or package. It is solely the responsibility of the submitter to ensure that the Proposal is delivered on or before the specified date and time. Late proposals will not be accepted.

Addenda and Supplements to the Request for Proposals (RFP): In the event that it becomes necessary to revise any part of this RFP, or if additional information is necessary to enable the proposing firm to make an adequate interpretation of the provisions of this

RFP, a supplement to the RFP will be provided to each firm that has requested a copy of this document.

Rejection Rights: The City of Ormond Beach reserves the right, at any time, to modify, waive or otherwise vary the terms and conditions of this RFP including, but not limited to, the deadlines for submission and submission requirements. The City further reserves the right to reject any or all submittals, to cancel or withdraw this RFP at any time and to negotiate with any party prior to or after submittal of proposals. Selection is also dependent upon the negotiation of a mutually acceptable contract with the successful proposers.

Cost of Proposal Preparation: No reimbursement will be made by the City of Ormond Beach for any costs incurred in the preparation of the proposal or presentation.

Proposals to be in Effect: Each proposal shall state that it is valid for a period of not less than 90 days from date of receipt.

## VII. EVALUATION PROCESS AND CRITERIA

The City of Ormond Beach will conduct an evaluation of all proposals, submitted by the deadline, to determine compliance with proposal requirements and mandatory document submissions. The evaluation committee will review proposals and select the Proposer that meets the best interests of the City and will make a recommendation of Award of Contract to the City Commission.

**The City reserves the following rights:**

- Modify, extend, or cancel this RFP at any time to obtain additional proposals or for any other reason the City determines to be in its best interest;

- Issue a new RFP with terms and conditions that are the same, similar or substantially different as those set forth in this or a previous RFP in order to obtain additional proposals or for any other reason the City determines to be in its best interest;

- Conduct pre-award discussion and/or pre-award negotiations with any or all responsive and responsible proposer(s) who submit proposals determined to be reasonably acceptable of being selected for award; and, conduct personal interviews or require presentations of any or all proposer(s) prior to selection.

- Request that proposer(s) furnish additional information as the City may reasonably require.

- Accept or reject qualifications or proposals in part or whole, and/or waive any defect or deficiency in any proposal, if in the City's sole judgment, the defect or deficiency is not material in response to this RFP;

- Limit and/or determine the actual contract services to be included in a contract.

- Engage outside experts to assist staff in evaluating the merits and viability of each proposer.

- Obtain information for use in evaluating submittals from any source.

- Verify the information received in the proposal. If a proposer knowingly and willfully submits false information or data, the City of Ormond Beach reserves the right to reject that proposal. If it is determined that an Agreement was awarded as a result of false statements or other data submitted in response to this RFP, the City of Ormond Beach reserves the right to terminate the Agreement.

The City shall be the sole judge of the proposer's qualifications.

**Evaluation Criteria:**

For the purposes of further evaluation, the responsive proposals will be evaluated on, but shall not be limited to, consideration of the following criteria:

Qualifications of Firm (30 points)
Experience of Dedicated Team Members (40 points)
References (20 points)
Price (10 points)

Responsive proposals will be ranked in each of the criteria

## VIII. EXHIBITS

**The following exhibits are provided to assist firms with preparing proposals:**

- 2024-2025 Policy Summary

**REGISTRATION AND INSURANCE REQUIREMENTS FOR VENDOR/CONTRACTOR WORKING ON CITY PROJECTS**

REGISTRATION REQUIREMENTS FOR VENDOR/CONTRACTOR WORKING ON CITY PROJECTS

**Registration Requirements**

VENDORS doing business within the City Limits must be registered with the City.

Requirements for registering a business are as follows:
Copy of City Business Tax Receipt (where your business is located).

Certificate of Insurance showing General Liability and Workers' Comp (or State Workers' Comp Exemption form).

Application Fee: $25.00 For more information, contact the City's Business Tax Receipt official at 386-676-3233 or btonline@ormondbeach.org You can apply online here: https://ormondbeachfl-energovweb.tylerhost.net/apps/selfservice#/home

**State Certified/Registered Contractors**

All registered State contractors must be registered with Volusia County. Volusia County Contractor Licensing, 123 W. Indiana Ave., Rm 203, Deland, Fl. 32720 (386) 736-5957 contractorlicensing@volusia.org
https://connectlivepermits.org/citizenportal/app/landing

State certified contractors have the option of registering with Volusia County, or providing information directly to the business tax receipt official, to include copy of State license, certificate of insurance and copy of local business tax receipt. This information is provided with the permit application.

If you have any questions regarding the above requirements, please contact the business tax receipt official at (386) 676-3233 or btonline@ormondbeach.org

**EXHIBIT A**
**Risk Management and Insurance Requirements**

**A. Payment and Performance Bonds**

**1.** Except as otherwise provided herein, the Contractor shall, prior to beginning performance, deliver to the City, and the City shall record in the public records of Volusia County, Florida, the Contractor's Payment and Performance Bond in an amount equal to the full amount of the Contract.

**2.** **(a)** Payment and Performance Bonds shall not be required for any contract except those which are for the construction of a public building, for the prosecution and completion of a public work (as described in Section 180.06, **Florida Statutes,** as amended from time to time) or for repairs upon a public building or public work (as described in Section 180.06, **Florida Statutes**, as amended from time to time).

**(b)** With respect to those Contracts for which Payment and Performance Bonds are otherwise required:

**i.** Unless the City Manager, or his designee, determines such Bond to be necessary to protect the interests of the City, no Contractor shall be required to provide a Payment and Performance Bond for any Contract which is for $25,000.00 or less.

**ii.** Upon the request of the contractor, good cause shown by the Contractor, and a determination that the public health, safety and welfare will be sufficiently protected, the City Commission may exempt the contractor from the requirement of providing a Payment and Performance Bond for any Contract which is for more than $25,000.00 but is less than $200,000.00.

**3.** The Payment and Performance Bond shall list the Contractor as Principal and be issued by a surety insurer authorized to do business in Florida as a surety and listed as an acceptable surety in the Federal Register.

**4.** The Payment and Performance Bond shall be executed pursuant to Section 255.05, **Florida Statutes**, and be in a form substantially similar to the form set forth in Section 255.05(3), **Florida Statutes**.

**5.** The Payment and Performance Bond shall specifically provide coverage for delay damages due to a default by the Contractor.

**6.** The Payment and Performance Bond shall not make the Contract part of the Bond agreement.

**7.** In lieu of the Payment and Performance Bond, the Contractor may file with the Finance Director of the City, in an amount equal to the full amount of the Contract, cash, a money order, a certified check, a cashier's check, an irrevocable letter of credit, or a security of a type listed in Part II, Chapter 625, **Florida Statutes**.

**8.** In the event the surety on any Payment and Performance Bond furnished by the Contractor is declared bankrupt or becomes insolvent, or its right to do business in the State of Florida is terminated, the Contractor shall, within five (5) working days thereafter, substitute another Payment and Performance Bond and surety acceptable to the City.

**9.** The Contractor is totally and solely responsible for keeping its surety informed as to the Base Contract Price as bid, significant changes in the Project Scope, and the overall progress and completion of the Project for the entire life of the Contract.

**10.** The payment and performance bond requirements stated herein above shall not be applicable to service-related contracts unless otherwise determined by the City Manager in order to protect the health, safety and welfare of the general public.

## B. Contractual Provisions Relative to Risk Management

All contracts for any public works to be performed, and service-related contracts, for or on behalf of the City shall include at a minimum, the following, or substantially similar, provisions:

### 1. Hold Harmless and Indemnity

The Contractor agrees to assume liability for and indemnify, hold harmless, and defend the City, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Contractor, its agents, officers, contractors, subcontractors, employees, or anyone else employed or utilized by the Contractor in the performance of this Contract. The Contractor's liability hereunder shall include all attorney's fees and costs incurred by the City in the enforcement of this provision.

### 2. Payment on Behalf of City

The Contractor shall pay all costs of the City's legal defense, as may be selected by the City, for all claims described in the Hold Harmless paragraph. Such payment on behalf of the City shall be in addition to any and all other legal remedies available to the City and shall not be considered to be the City's exclusive remedy.

### 3. Loss Control/Safety

Precaution shall be exercised at all times by the Contractor for the protection of all persons, including employees and property. The Contractor shall comply with all applicable laws, regulations and ordinances related to safety and health, shall make special efforts to detect hazardous conditions, and shall take prompt action when loss control/safety measures are reasonably necessary. The City may order work to be stopped if conditions exist that present an immediate danger to persons or property. The Contractor acknowledges that such work stoppage will not shift responsibility for any damages from the Contractor to the City.

### 4. Service Bond

For Service-related contracts only, the City may require the Contractor to secure a service bond with a minimum $25,000 coverage limit for the period

of the service agreement. The service bond covers dishonest acts of the contractor's employees against the City. A copy of the bond shall be provided to the City when the agreement commences. Service-related contracts include and are not limited to businesses providing janitorial, pest control, general repair, security, carpet cleaning, locksmith, temporary employment, painting, moving services or other contracts as determined in the discretion of the Risk Manager as necessary to minimize loss.

## C. Contractor's Insurance

### 1. General

The Contractor, including service-related contractors, shall purchase and maintain for the entire life of the Project, including any and all approved time extensions, until its final acceptance by the City, such insurance as will protect the Contractor from claims under Workers' Compensation, disability benefit laws or other similar employee benefit laws; from claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees; from claims insured by usual or unusual injury liability coverage; from claims or injury to or destruction of tangible property and from claims insured by usual Commercial General Liability coverage. This includes loss of use resulting therefrom, any or all of which may arise out of the Contractor's operations under the Contract Documents, whether such operations be by the Contractor, by any Subcontractor, or by anyone directly or indirectly employed by any of them or for whose acts any of them may be legally liable. The Contractor's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City, and may be reduced or eliminated at the sole discretion of the City. The Contractor is responsible for the amount of any deductible or self-insured retention.

### 2. Types of Insurance and Limits of Liability

The insurance required herein shall be written for not less than any limits of liability specified and incorporated as part of the Contract Documents or as required by law, whichever is greater, and shall include and not limited to the following:

**(a)** Workers' Compensation Insurance in statutory limits for the State of Florida with Coverage B - Employer's Liability limits of not less than:

$100,000 Each Accident Bodily Injury by Accident
$100,000 Each Employee Bodily Injury by Disease
$500,000 Policy Limit Bodily Injury by Disease

Certificate of Exemptions. If the contractor has a State-issued Certificate of Exemption, the contractor may provide a copy in place of the requirement for coverage. However, if the contractor subcontracts or retains any other person or entity to perform under

the contract, that person or entity must provide proof of workers' compensation insurance as required by law or provide a Certificate of Exemption.

It is the intent of the City that any individual who either contracts directly with the city or performs any work on behalf of any such contractor be covered by workers' compensation insurance or have a valid exemption from said coverage.

(If applicable to the Project, the policy must include benefits under the United States Longshoremen's and Harbor Workers' Act and the Jones Act coverage--all maritime coverage.)

**(b)** Commercial General Liability Insurance shall be written on a coverage form as broad as Insurance Services Office (ISO) Form CG 00 01 11 85, or its successor form, including but not limited to the following coverage (any deviation shall be noted on the Certificates of Insurance):

a. Premises, Operations, Products and Completed Operations
b. Owners' & Contractors' Protective
c. Products & Completed Operation
d. Explosion, Collapse & Underground Conditions
e. Blanket Contractual Liability
f. Personal Injury Liability
g. Broad Form Property Damage Endorsement, including Completed Operations
h. Independent Contractors
i. Watercraft--Owned and Non-Owned (if applicable, endorsement must be included in General Liability policy or a separate Protection & Indemnity Policy must be written)
j. Pollution Liability (if applicable)
k. Asbestos Abatement (if applicable)
l. Fire Damage Liability

Certain coverage outlined above may not be required if they do not relate to the Project, as may be determined at the sole discretion of the City.

Commercial General Liability Coverage shall be written on an occurrence basis and the limits shall be no less and not limited to the following amounts:

Limits (not less than)

$1 Million Each Occurrence
$2 Million General Aggregate
$1 Million Aggregate Products & Completed Operations

NOTE: Commercial General Liability Coverage must be purchased

on either a project basis (separate policy per contract) or an endorsement allocating an aggregate limit per location or specified project.

**(c)** Automobile Liability Insurance is required if an Automobile(s) is used in the performance of the contract. ISO Symbol 1 (Any Auto), or alternatively a combination of Symbol 2 (Owned Autos), Symbol 8 (Hired Autos), and Symbol 9 (Non-Owned Autos), and limits shall be no less than:

| | |
|---|---|
| $1 Million | Combined Single Limit for Bodily Injury and Property Damage |

**(d)** Excess Liability

For contracts $250,000 or greater an Excess Liability Policy of at least but not limited to $1,000,000 in addition to the scheduled underlying policies for Commercial General Liability, Automobile Liability and Employers' Liability, the Contractor shall also provide an Excess Liability Policy with a maximum self-insured retention not to exceed $25,0000 per occurrence.

**(e)** Builder's Risk

Contractor shall purchase Builder's Risk Insurance for any contracts that are deemed to be vertical construction on an All-Risk policy, and shall also include coverage for wind, hail, and named storm. Limits of coverage shall be at least and not limited to the value of the project.

**(f)** Professional Liability, Malpractice and/or Errors and Omissions

The Contractor shall purchase and maintain professional liability, malpractice, or errors or omissions insurance with minimum limits of $1,000,000 per occurrence. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the inception date of claims made coverage, unless the prior policy was extended indefinitely to cover prior acts. Coverage shall be extended beyond the policy year either by a supplemental extended reporting period (ERP) of as great a duration as is available, and with no less coverage and with reinstated aggregate limits, or by requiring that any new policy provides a retroactive date no later than the inception date of claims made coverage.

## D. Requirements for Certificates of Insurance

**1.** With the execution of the Contract Documents, the Contractor, including service related contractors, shall provide certificates of such insurance acceptable to the City. These certificates and insurance policies shall contain an endorsement that the coverage under the policies will not be

canceled, non-renewed or materially changed until at least thirty (30) days' prior written notice of such cancellation, non-renewal or change (except for nonpayment of premium, which shall be ten (10) days) and a copy of the cancellation endorsement signed by an authorized representative of the insurer, be given to the City. The contractor shall be required to replace any expired or canceled policies in like amount and coverage to the satisfaction of the City. The Certificate of Insurance shall be the ACORD FORM 25-S (7/90), or its successor form, and shall be made a part of the Contract Documents.

**2.** New certificates of insurance shall be provided to the City at least fifteen (15) days prior to coverage renewals.

**3.** If requested by the City, the contractor shall immediately furnish complete copies of the Contractor's insurance policies, forms and endorsements.

**4.** For Commercial General Liability coverage the Contractor shall, at the option of the City, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage. If the Commercial General Liability form of coverage includes an annual aggregate limitation on the amount of insurance provided, a separate project aggregate limit may be required by the City for the given contract.

**5.** If the Contractor fails to obtain and maintain for the life of the Project the insurance required hereby or to replace any such expired or canceled policy, the City may obtain and maintain such insurance with such company as it deems satisfactory. Any amounts expended by the City in payment of premiums for such insurance shall be deducted by the City form the amount due the Contractor for the work covered by the Contract.

## E. Policies of Insurance

**1.** Except as otherwise provided in this Exhibit, all insurance policies shall be issued by insurers licensed to do business in the State of Florida on an admitted basis or which is an eligible surplus lines insurer in the State of Florida, and any such insuring company is required to have a minimum financial rating of (A-), in the latest edition of "Best's Key Rating Guide", published by A. M. Best Co., Inc., or some similarly nationally recognized rating authority, including Standard and Poors and Demotech.

**2.** For Workers' Compensation coverage only, self-insurance programs are acceptable with a minimum A- rated reinsurance carrier; written confirmation is required.

**3.** All policies of insurance or certificates thereof referred to in this Exhibit shall be deposited with the City Clerk.

**4.** The City shall be named an Additional Insured on General Liability including products and completed operations and Automobile Liability policies of insurance and certificates thereof.

# Request for Proposals (RFP)
# Agent of Record Property & Casualty Insurance
# (RFP No. RFP 2025-46)

## VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

**1.** Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

**2.** Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.

**3.** Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.

**4.** Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.

**5.** Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

# Agent of Record Property & Casualty Insurance
# (RFP No. RFP 2025-46)
# CITY OF ORMOND BEACH, FLORIDA
## DRUG-FREE WORKPLACE CERTIFICATION

**IDENTICAL OR "TIE" SUBMITTALS**: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.
3) Give each employee that engages in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5 ) calendar days after such conviction.
5) Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.
6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

FOUNDATION RISK PARTNERS
PUBLIC ENTITY SERVICES

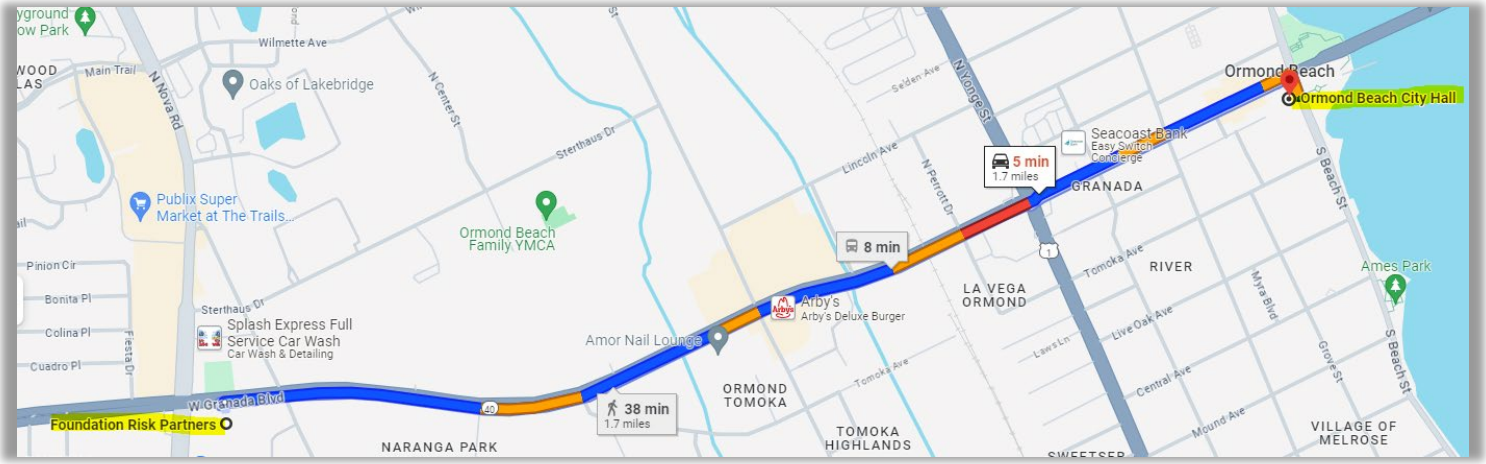
Re: RFP 2025-46 Agent of Record Property & Casualty Insurance

Dear Mr. Hart and Members of the Evaluation Committee,

On behalf of Foundation Risk Partners Public Entity Services, we would like to thank you for the opportunity to respond to the solicitation "RFP 2025-46 Agent of Record Property & Casualty Insurance". We look forward to your review of the enclosed response.

Foundation Risk Partners will continue to serve and partner with the City of Ormond Beach ("City") in helping to execute the City's goal of procuring the very best Property & Casualty insurance program now and into the future. Our aim is to develop a trusted partnership that feels like a true extension of staff; a partnership that understands, develops, and provides solutions to your needs. Our team is collaborative, forward thinking, creative, and has the proven technical knowledge and capabilities to deliver best in class services while driving down costs. Foundation Risk Partners will focus on the following key areas of concern:

1. We are committed to the City of Ormond Beach, Volusia County and their community:
    a. Local office at 780 W. Granada Blvd. Ormond Beach, FL 32174
    b. Employing 100+ Volusia County tax paying citizens
2. Execute the strategic risk management goals of Ms. Shanahan, Ms. Whitley, Ms. Potts, and staff.
3. Act as the City's insurance intermediary utilizing industry best practices to design, market, and manage the City's insurance program on a guaranteed and transparent fee basis.
4. Formally review City's underwriting data to ensure the very best presentation of risk to the marketplace to receive best pricing available.
5. Lower the City's total cost of risk and optimize the City's premium spend by aggressive negotiation. **We were able to prove this with over $330,000 in savings and better coverage in our first year.**
6. Provide the City a market feasibility study on various insurance program options.
7. Aid the City in improving loss control, minimizing claims frequency/severity using education and onsite loss control.
8. Assist City staff with decision support, certificate reviews, and insurance consultation.
9. Claims advocacy, actively participating in the City's claims review process ensuring loss reserves and payments are accurate.



We are committed to perform and exceed the "Scope of Services" outlined in this RFP. We attest, that if selected, Foundation Risk Partners is willing to meet any location, budget, and task orders.

Sincerely,

Jeff Seidl, Client Executive

Jonathan Jallad, Sales Leader

## Local Presence – FRP Headquarters Distance to City Hall

## Foundation Risk Partners Moves Corporate Headquarters to New 33,000 Sq ft. Space

Foundation Risk Partners / September 22, 2023 /

On September 15, 2023, Foundation Risk Partners (FRP) moved the corporate headquarters to a new location: 780 W. Granada Blvd., Ormond Beach, Florida, 32174. Since the next phase of FRP's business requires a space that can accommodate the continued growth, training and development of our insurance brokerage, we have acquired a newly renovated 33,000 square-foot three-story office and event space ... **Read More**

# Minimum Qualifications

1. **Have at least five years of experience under the same name providing similar property and casualty broker services to municipalities of similar size in the state of Florida.**

**Public Entity Expertise:**
Foundation Risk Partners Public Entity Services is a specialty division that exclusively serves Florida's public entities. We provide cost effective solutions to meet the diverse insurance needs of Florida's governmental entities, including municipalities, counties, schools, special districts, and authorities. Our leadership has served both in local and State level government and our staff are subject matter experts in public sector insurance. We serve over 70 public entity clients in the State of Florida.

We speak "Public Entity" and draw from our experience from other public agencies to better serve you. We were built from the ground up to exclusively serve Florida public agencies, and our team is dedicated to public sector risk consulting. This focus was by design, as the nuances of local government and the risks local public agencies face are truly unique to not only government, but Florida government. Our team lives, eats, and sleeps Florida public entity and we love what we do.

Our focus is and always will be putting the needs of our clients first. We are a performance-based company that focuses on *serving those that serve others* within our areas of expertise. When it comes to public entities, we believe we offer a different approach than our competitors in that we understand not only the nuances of public sector brokerage, but also how to create and optimize insurance programs that drive real results.

The Public Entity Practice is led by Alan Florez and David Lodwick, who proudly served both State and local government in Tallahassee and Palm Beach County. In their careers, they have been fortunate to provide risk management programs to over 500 public entities of all sizes from the State University System to counties from the very largest to the very smallest and several county governments in over half of the State's counties.

Our experience is our differentiating factor. It has led to what our team is best at accomplishing for our clients. That is to create deal tension between the most competitive markets. Our access to every major Individual Risk Placement (IRP) market and multiple viable Insurance Trusts operating in Florida ensures the very best outcome for our public entity clients.

The Public Entity practice recognizes the unique exposures and evolving risk profiles of our municipal clients and strives to reduce the Total Cost of Risk. The practice believes in public service and is dedicated to reducing the total program cost, mitigating risk, and functioning as an extension of your staff.

Our claims service includes a senior claims specialist on our public entity team to assist with claims reporting, monitoring and overall claims handling. She is supplemented as needed by our internal legal staff to assist with claims compensability issues as well as coverage interpretations.

Our team also includes staff with risk management backgrounds to assist with contractual language review to further assist with maximizing opportunities for contractual risk transfer to reduce the retained risk by the City as well as reducing the overall cost of risk.

Our data analytics specialists work with clients to develop the desired management reports to effectively show key data metrics for program evaluation. Within our framework, we utilize Origami Risk when needed as a RMIS. Our relationship and familiarity with Origami was born out of our consultant work with a $90+ billion-dollar placement that we were responsible for data integration, normalization and analysis. Our work on this project within Origami has allowed this firm to access and analyze their data in a way that they never have before. This analysis and review will lead to alternative structure and placement in the marketplace and is resulting in savings of 20% when increases of 20%-30% were expected.

## Company Timeline

**1956:**
Formerly known as Mitchell Noel, we have been proud to serve the residents of Ormond Beach since 1956. Mitchell Noel joined Foundation Risk Partners in 2017.

**January 26, 2010:**
Acentria was organized with an effective date of January 26, 2010 (formerly known as Legends Insurance Solutions, LLC ("LIS") formed March 9, 2009).

**January 31, 2017:**
Foundation Risk Partners, Corp. ("FRP") was organized as a Delaware corporation on January 31, 2017 and authorized to do business in Florida as of February 24, 2017.

**November 1, 2017:**
On or about November 1, 2017, FRP acquired substantially all the assets of Acentria, Inc., a Florida corporation.

**Today:**

4. **Services must have been provided in the past five years prior to the issuance of this RFP.**

We affirm services have been provided in the past five years prior to issuance of this RFP.

5. **Demonstrated ability and success implementing various risk management strategies to reduce premium costs while providing adequate insurance levels.**

We are pleased to provide case studies that illustrate the qualifications and experience of our Public Entity team in working with similar municipalities across the State of Florida.

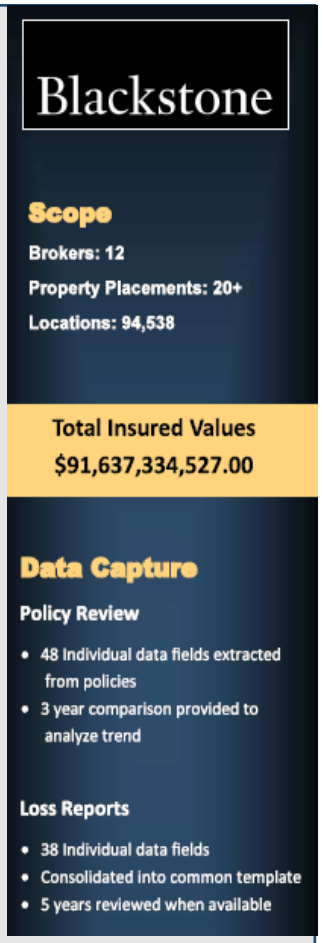
We are pleased to provide case studies that illustrate the qualifications and experience of our Public Entity team in working with similar municipalities across the State of Florida.

## Ken Killgore

**Administrative Services Director/CFO, City of Sebastian**

*"Foundation Risk Partners is easily reachable and always willing and able to assist us with questions or concerns with our insurance programs. When we were unhappy with a denial of coverage for legal fees on a very prominent and political lawsuit, FRP interceded to set up a meeting with our insurance company officials that worked to our benefit. When it was necessary to conduct a formal bid for our insurance policies this year, FRP professionally conducted a competitive bid process for us, and we enjoyed a substantial cost savings. FRP has earned our trust, and we appreciate their expertise and client focused service."*

## Large Florida Hospital District:



**Full Summary:** In our capacity as a broker, our team services all aspects of property insurance. Our process and increased leverage in the insurance marketplace resulted in 10% savings in a challenging market. This structure change also provided the District with freedom of choice for TPA and engineering services, resulting in more control of their insurance program. We continue to service in this capacity for the District with regard to servicing and placing all aspects of the $1.3 billion Total Insured Value program.

**Why it Matters to the City:**

- This district left the largest broker in the State of Florida and trusted us to leverage our experience and process in the marketplace.
- Our process created interest with insurers who have not felt that they have had a "fair shot" in 23 years.
  - These same insurers had declined to quote every year for the last 3 years at least.
- Our approach brought new capacity to drive deal tension.
- We increased data clarity and quality, allowing insurers to reclassify the Property as best in class and not middle of the pack.
- **We were able to reduce the District's deductible from $50,000,000 to as low as $1,000,000 in a Named Storm event.**
- This all started by listening to the District's needs and purchasing philosophy:
- Results:
  - Listened to our clients' needs and executed our plan.
  - Achieved a 10% decrease in cost.
  - Negotiated a program that included a coverage increase of as much as $49,000,000 in a Named Storm

## Blackstone/Revantage:

**Full Summary:** Our firm provided services to capture data from 24 different portfolios including loss data, policy information, and insurance data. We then consolidated this data and assisted with the presentation and tracking of the feasibility study to determine the viability of a captive. This process resulted in the formation of one of the largest property captives in the world. Our responsibilities continue to this day with overall consultation on the program as well as project management of the different workstreams associated with growing and maintaining the captive.

**Project Deliverables Phase I:**

- Make data easily accessible and identifiable to analyze underwriting data as a homogenous dataset viewed in multidimensional reporting configurations.
- Through consolidation of data, expeditiously enable a feasibility analysis.
- Evaluate data quality of all SOV's for sufficiency related to underwriting characteristics utilizing AIR data sufficiency analytics services.
    - **Analyzed and scrubbed data to improve modeling, lowering overall insurance costs.**
- Build a best-in-class RMIS platform and information storage to be a proactive negotiator during insurance renewals rather than reactive.
    - Turning data into negotiating power and leverage modelling and analytics to consistently outpace the insurance market.

**Why it Matters to the City:**

- Our process is tried and tested by one of the largest insurance purchasers in the world.
- Our forward-thinking strategies have resulted in decreases, while the rest of the market is continuing to elevate.
- We have positioned our clients to be in a position of strength every renewal, dictating terms and process, resulting in best-in-class outcomes.

**Example: West Florida School District**

**Relevant to the City:** The District bases their insurance purchase on the 1 in 250 Wind event modelling, and their AIR modelling depicted a loss level of $91 million. In our original review we recognized that their data set being sent for AIR modelling contained no updates to buildings, roofs, etc. Some of the information was outdated by 30+ years.

This caused a significant miscalculation in their results. These results drive their limit purchasing decisions, as well as the cost to purchase coverage. We met with their risk management team to articulate our findings and then brought in their building ops department for updated information.

**Result**: We were able to drive their PML down to $70 million by using correct and accurate data. **This resulted in 20% savings in a market where they were budgeting for a 10% increase**. These modeling results were achieved through AIR and RMS; both accepted by FEMA when determining adequacy of limits and monetary assistance.

**Case Study #1: Alan Florez, David Lodwick, and Ross Beach in coordination with our Fort Myers office**

**Entity**: City of Fort Myers

**Relevant to the City:** The City had two public entity brokers on the account. The property was placed in the IRP market with a wind limit of $10 million. The liability and workers' compensation coverages were through another pooling carrier. Our firm was selected to provide a competing quote.

**Full Summary:** The City of Fort Myers utilized their current broker to access the traditional commercial markets in 2019.

Their consultant requested our firm to approach the Florida Municipal Insurance Trust and allowed a third broker to approach PGIT to create competition and allow the City to obtain the best combination of services and pricing.

**Result:** The initial estimates to the City were for a single digit increase in costs. As a result of the deal tension created by introducing the FMIT as competition, the City achieved the following through our firm and the FMIT:

- **Two Year Rate Guarantee of Property, Liability, and Auto Coverage**
- A premium reduction of 7%
- An increase in the coverage for Named Windstorm from $10 million to $150 million
- An increase in All Other Perils coverage limit from $20 million to $150 million.
- A decrease in the property deductibles
- The inclusion of a Disaster Recovery Response team from the carrier to assist with property claim response as well as to integrate the claims process with any FEMA related claims on municipal property.
- Rate decreases on all lines of coverage

**Case Study #2: Alan Florez, David Lodwick, and Ross Beach in coordination with our Miami office**

**Entity**: City of Doral

**Relevant to the City:** The City went out to bid for Brokers Services, their largest concern was the amount of loss control and risk management services that they were receiving from their current broker/carrier.

**Result:** Moved from Brown & Brown and PGIT to Acentria Public Risk and the FMIT.

**Full Summary:** The bid for the City of Doral was for Broker Services as well as quotations. Acentria Public Risk partnered to bring a response to the City. During the City's review of bids, our program was recommended by staff after an extensive review of coverage and risk control services including an interview process with both programs. The City remarked that the combination of online services with a local risk control consultant would provide superior services than the current program.

**Case Study #3: All team members**

**Entity**: City of Miami Gardens

**Relevant to the City:** We were afforded the ability to review the City's program in 2019 before being the broker of record to attempt to find them savings late in the process.

**Result:** Moved from Brown & Brown and PGIT to Acentria Public Risk and the FMIT.

**Full Summary:** Our involvement drove their renewal pricing from their current market down by over $100,000. In addition to the savings secured for the City, we were able to better several key coverages. We have since been awarded the business.

- A premium reduction of 10% compared to expiring premium ($200,000 in savings) and a reduction of 7% ($130,000) over bound renewal price with PGIT.
- No minimum Named Storm Deductible restriction.
- Named Storm deductible applies per item instead of per location/bldg.
- Increase in Accounts receivables coverage ($500K vs. $250K)
- Increase in Business Income Coverage ($1.5Mil vs. $1Mil)
- Unlimited Aggregate coverage for Public Officials Liability (currently only $1Mil in agg. Cover)
- Unlimited defense for Public Officials Liability (currently defense coverage expires once a $1Mil claim is exhausted)
- Unlimited Aggregate coverage for Employment Practices Liability (currently only $1Mil in agg. Cover)
- Unlimited defense for Employment Practices Liability (currently defense coverage expires once a $1Mil claim is exhausted)
- The inclusion of a Disaster Recovery Response team from the carrier to assist with property claim response as well as to integrate the claims process with any FEMA related claims on municipal property.

**Case Study #4: Alan Florez, David Lodwick, and Ross Beach**

**Entity**: City of Apopka

**Relevant to the City:** The City had been with the same broker and program for years without a process to push their broker to provide the best pricing available. The City went to bid for pricing and services.

**Full Summary:** As part of our RFP response, we partnered with the FMIT to provide pricing and services proposal to the City. With our fee included, we were able to reduce the City's spend from **$1,078,839 to under $775,000. A savings of 28%!**

**Result:** Since being selected, the City has appreciated the increase in safety and loss control including a full safety report and audit of all locations (parks, buildings, and all city owned property), on-site and online training to further the City's push to mitigate cost and losses. The initial estimates to the City were for a double digit increase in costs. As a result of the deal tension created by introducing the FMIT as competition, the City achieved the following through our firm and the FMIT:

- A premium reduction of 28%
- A dedicated limit of insurance, not shared with other members of the "pool."
- A decrease in the property deductibles
- The inclusion of a Disaster Recovery Response team from the carrier to assist with property claim response as well as to integrate the claims process with any FEMA related claims on municipal property.

## City of Winter Park:

**Contract Start:** Selected as broker 10/1/2023 – taking over for Brown & Brown after 20+ years.

**Situation:** Property renewal. City staff expressed priorities for improvement during initial meetings and RFP process.

- Inaccurate Not To Exceed estimates
- Late Quotes
- Need for higher frequency of communication.
- Concern regarding cost clarity

**Renewal Process:** Meeting frequency: Bi-weekly, to weekly, then to twice a week.

**Property:**

- No valuation increases due to E2Value data provided by FRP at no additional cost.
- City was forced to a lower Loss Limit and a 70% increase in 2023.
    - After Data Scrub: Modeling provides confidence to lower loss limit further if preferred for a 12.5% savings.
    - City did not take lower limits but provided comfort in not increasing limits back to 2022 levels.
- Rate decrease of 4% (Not to Exceed was provided 75 days in advance of a 5% increase, continued communications and terms improvement communicated throughout process).

**Equipment Breakdown:**

- Identified stale information and TIV was increased by 100% with only a 4% increase YOY.
- Placed equipment breakdown policy direct, reducing commission paid to the wholesale broker (20% commission).
- Net 1% increase with 100% increase in coverage.

**All other lines increased by 1% YOY with increased exposures.**

**Why it matters to the City:**

- Our process was built based on the City's feedback.
- Secured a 4% decrease in this market due to data improvement and creating increased deal tension (FMIT & Parametric).
- Increased efficiency of market placement reducing wholesale compensation.

6. **The client executive assigned to the account must have a minimum of ten years of experience providing similar broker of record services to municipalities of similar size in the state of Florida and must be capable of speaking and making decisions on behalf of the firm. Additional support staff assigned to the city must have a minimum of five years of experience supporting municipalities in the administration of property and casualty insurance programs.**

We affirm that we meet these requirements.

# Background and Experience of Firm

1. **Describe the firm's experience working with municipalities of similar size in the state of Florida. Provide a list of all public employee/government clients for the past three years. Provide contact information for at least three municipal clients.**

We affirm that we meet this requirement. Please see our case studies starting on page 14.

**Public Entity Expertise:**
Foundation Risk Partners Public Entity Services is a specialty division that exclusively serves Florida's public entities. We provide cost effective solutions to meet the diverse insurance needs of Florida's governmental entities, including municipalities, counties, schools, special districts, and authorities. Our leadership has served both in local and State level government and our staff are subject matter experts in public sector insurance.

We speak "Public Entity" and draw from our experience from other public agencies to better serve you. We were built from the ground up to exclusively serve Florida public agencies, and our team is dedicated to public sector risk and employee benefits consulting. This focus was by design, as the nuances of local government and the risks/benefits local public agencies face are truly unique to not only government, but Florida government. Our team lives, eats, and sleeps Florida public entity and we love what we do.

Our consultants have public entity experience and technical skill sets that translate to better outcomes for our clients' specific municipal exposures. Foundation Risk Partners safety consultants will bring additional resources and value. They will develop an individualized loss control service plan by identifying the likelihood, frequency, and severity of risks our clients face.

We assess each organization's equipment, environment, and employees to identify likelihood, frequency, and severity of the risks they are exposed to and then create a systematic approach to control those exposures. Our consultants use an evidence-based approach to safety and health, and offer practical technical solutions, tools, and strategies to help reduce work-related employee injury and illness. We've found this approach can significantly improve your safety culture and productivity.

David Lodwick's experience managing the internal claims department for the Florida League of Cities, makes us experts in claims resolution as well as the complex nature of a municipalities responsibility to care for their residents and insure optimal financial outcomes.

The Public Entity Practice is led by Alan Florez and David Lodwick, who proudly served both State and local government in Tallahassee and Palm Beach County. In their careers, they have been fortunate to provide risk management programs to over 500 public entities of all sizes from the State University System to counties from the very largest to the very smallest and several county governments in over half of the State's counties.

- Disaster Recovery
- Catastrophe Modeling & Analysis
- Data Quality Analysis
- Claims Coordination & Advocacy
- Multiple Carrier Program Structure
- Individual Risk Placement
- Pooled Risk Placement

## Property Program Experience

**Lead:** Alan Florez, EVP

The Foundation Risk Partners team has extensive experience in the design and implementation of property insurance programs. This experience also extends to the recovery process including FEMA coordination of insured losses. Success stories and experience includes:

- Established a dedicated property insurance tower of insurance that includes 4 School Districts within a large public entity insurance trust.
- Established a dedicated Recovery Management program that coordinates recovery and insurance claims for public entities that also includes FEMA coordination.
- Analysis of data quality to ensure accuracy of modeling results and potential risk in catastrophic events.
- Utilization of accurate modeling data to improve/reduce insurance spend.
- Utilization of Parametric insurance markets to eliminate property policy coverage gaps and reduce retained risk.
- Utilization of Capital Markets to increase potential capacity of re-insurance.

- Risk Retention Analysis
- Cause of Loss analysis
- Coordination of Risk Control w/ Cause of Loss
- Risk Retention Strategies
- Claims Advocacy

## Auto & Liability Program Experience

**Lead:** David Lodwick, CRM, CIC

The Foundation Risk Partners team will assist City staff through the analysis of previous losses and the proactive coordination of various Risk Control strategies and training. The team additionally can support the City's Risk Management team with claims assistance and advocacy through both our Legal Staff and Risk Management specialists.

**Experience:**

- Assisted multiple municipalities in increased Risk Control training schedules in areas such as Active Shooter training and Employment issues including Harassment and Diversity training modules.
- Assisted large municipalities in determining the correct risk retention strategies to minimize the total spend for claims and insurance.
- Expanded contractual risk transfer opportunities through contract reviews and reduced liability exposure to municipalities.

- Employee Training
- Risk Control
- Risk Retention Analysis
- Fraud Detection & Investigation
- Risk Retention Strategies

## Workers' Compensation Program Experience

**Lead:** David Lodwick, CRM, CIC

The Foundation Risk Partners team has extensive experience with assisting large municipalities in the comprehensive analysis and design of cost effect workers compensation programs. Success stories include:

- Assisted a County Sheriff in implementation of an outcome-based physician network for treatment of workplace injuries and exposures.
- Assisted a municipal pool with implementation of an improved in-hospital discount program to reduce large workers compensation losses.
- Assisted with implementation of anti-fraud detection and training of adjusters and coordination with carrier anti-fraud units to reduce fraudulent public entity workers compensation claims.
- Implemented proactive training programs to reduce the incident rate of workplace injuries.

- Sovereign Immunity
- Contractual Risk Transfer & Contract Review
- Labor & Employment Issues
- Review of Claims Settlement Recommendations
- Review of Compensability Claims

## Legal Support & Advocacy

**Lead:** Debbie Tappin, Vice President of Claims Services

The Foundation Risk Partners team relies on the assistance of a very well credentialed and experienced legal team in the area of insurance contract reviews, contractual risk transfers, sovereign immunity, employment & labor issues and review of compensability of claims. This expertise makes our team effect in claims advocacy for our public entity clients.

- In conjunction with the Florida Municipal Insurance Trust, our staff provides the most pertinent legislative and legal updates to our public entity clients on an ongoing basis.
- Counsel is provided by attorneys with experience as claim supervisors for the largest insurance carriers in the world including ACE & ASIC
- Our legal team has specific municipality experience for current clients as well as in the past while in private Practice:
  - **St John's County School District**: Tom Leek served as Outside Chief Litigator and provided Employment Training for 20+ years
  - **City of Niceville**: Works with City attorney regarding compensability issues
- Legal team is led by an attorney with 25 Years of providing expert of practicing in Employment Labor Law

- Member, Halifax Health Board of Commissioners

**Current Job Responsibilities:**
In Alan's current role, he is responsible for the growth and operation of Foundation Risk Partners globally. In addition to the supervision of sales and service, Alan assists with carrier relationships, program development, design and placement stewardship and negotiation to all FRP's public entity clients.

**Expected Job Responsibilities for the City's Insurance Program:**
Large property practice leader, Alan will help lead the design of the property brokerage and placement in conjunction with Jonathan Jallad, Jeff Seidl, David Lodwick, and Ross Beach. Alan will lend his experience in personally placing over $5B of property insurance for public entities as a broker to assure optimal pricing, terms, and conditions.

**Name of Member:** David Lodwick, CRM, CIC
**Office Address & Telephone Number:** 386-281-3791
780 W. Granada Blvd.
Ormond Beach, FL 32174
**Formal Education:** B.S. in Chemical Engineering from The Ohio State University
**Licenses Maintained in Florida:** 2-20 Resident General Lines Insurance Agent
**Years of Commercial Lines Experience (Florida):** 30+ Years
**Professional Designations:** CIC, CRM
**Professional Memberships:** PRIMA

**Employment History:**

- Director of Trust Services, Florida League of Cities | 9 Years
  - Assisted with the excess placement and negotiation for a $100M in premium insurance program.
  - Provided supervision of claim services.
  - Assisted members with retention levels and program structure.
  - Directed Disaster Recovery Symposiums to train staff.
  - Consulted and provided guidance to improve property schedules and values to improve the Probable Maximum Loss results for several members.
- Partner, Insurance Offices of America | 15 Years
- Mayor of Royal Palm Beach | 17 Years
- Chairman, Board of Directors, Florida Municipal Insurance Trust | 5 years

**Current Job Responsibilities:**
David serves in multiple roles for the Foundation Risk Partners team. David deploys his extensive knowledge in pooled insurance structures, public entity coverages, claims, and loss control to guide the development of the public entity practice and ensure a best-in-class program for each of our clients. As a former mayor, David is also an expert in Sunshine Law and the Stafford Act. As a leader within the Florida League of Cities, David was tasked with providing industry insight and risk management presentations/information for all their members. This knowledge is invaluable as we navigate the insurance marketplace for our clients and assist with best practices, placement/design, as well as risk mitigation strategies.

**Expected Job Responsibilities for the City's Insurance Program:**
Mr. Lodwick will be assisting in claims management, risk management guidance, and development. In addition, he will continue to push our organization to be on the forefront of emerging trends among public entities in the state of Florida. David is uniquely qualified in evaluating the City's program. His knowledge of reinsurance, excess markets, capital markets and how they are utilized to provide individual risk placement coverage and how they form the structure of pooled risks will provide a sophisticated and best in class recommendation to the City. This background assisted in the placement of the largest pool in the State of Florida for municipalities and for the preparation of a captive analysis for a $90B property portfolio.

**Name of Member:** Ross Beach, ARM-P
**Office Address & Telephone Number:** 386-281-3769
780 W. Granada Blvd.
Ormond Beach, FL 32174
**Formal Education:** B.S. in Biology/Pre-Med from Armstrong Atlantic State University

FOUNDATION RISK PARTNERS

# NINO GALLINI

## LOSS CONTROL DIRECTOR

## Nino Gallini

Nino brings more than 18 years of insurance experience to Foundation Risk Partners (FRP) with an expertise on safety and loss prevention. He is responsible for the development, implementation and application of FRP's Loss Control program.

Nino takes a comprehensive approach to identifying and satisfying the needs of clients by applying health and safety principals and utilizing carrier and vendor based resources. His methodology provides great value to our clients by yielding solutions with guidance to minimize current and unforeseen problems.

After earning dual Bachelor of Science degrees from the University of Central Florida in Engineering Technologies Operation and Engineering Technologies Design, Nino launched his career as an Industrial Engineer for a Heating and Air Conditioning Contractor in Central Florida. He holds the Associate in Risk Management (ARM) professional designation, is a member of American Society of Safety Professionals (ASSP) and is a certified OSHA Construction Trainer. In addition to all of this, Nino has been published in the Human Factors and Ergonomics Society Journal, has extensive experience with multi-state account management within a variety of industries and is bilingual in English and Spanish. Foundation Risk Partners is proud to have leadership like Nino Gallini on their national Commercial Lines team to assist agency partners and their clients in protecting what matters most to them. ◆

"Our goal is to reduce your overall insurance costs by mitigating workplace related exposures, injuries and illnesses."

# Tab 4

# Scope of Services

1. **Contact Property & Casualty insurance providers on behalf of the City to resolve issues that may arise throughout the year as needed. The City of Ormond Beach currently purchases Excess Workers' Compensation, Property, Public Officials Liability, Employment Practices Liability, Commercial General Liability, Licensees & Permitees, Drone, Cyber, Volunteer Accident, Petroleum, Flood, Professional Liability for Specified Medical Professions (Emergency Medical Technicians – EMT), Commercial Crime, and Accidental Death and Disability for Public Safety coverage. The City may consider Auto Liability coverage, or other applicable coverage.**

   **Marketing Meeting with City Staff:**
   Our marketing meeting with the City staff is focused on our strategy in presenting the City's program to the insurance marketplace. This includes a discussion of applications, pertinent loss reports, prior year premium summaries, premium targets, alternative risk possibilities and the results on loss data of those potential structures, as well as a communication timeline to provide the City with expectations.

   We will ensure that any changes or endorsements are verified for accuracy and are in conformance with negotiated terms. Marketing strategy meetings will be held in advance of the approach of the marketplace, including alternative risk transfer structures. During each renewal presentation our firm will provide a marketing summary containing the list of markets approached after approval from the City.

   **Trust Partnership:**
   One of our biggest differentiators that is relevant to the City is our access to the Florida Municipal Insurance Trust (FMIT) and our agnostic approach. The FMIT is built for hardening markets their program structure insulates cities from the majority of market pressure. Due to the strong financial wherewithal, the FMIT can price based on the experience of their pool and not market conditions. No other Trust is built like this in the State of Florida. Our agnostic approach to marketing allows us to be completely transparent to our clients. **We do not have any ownership or incentives to place business anywhere, except for what is best for the City.**

2. **Negotiate renewal rates on an annual basis for the most comprehensive coverage at the most cost-effective premium with input from City staff and provide such rates no later than July of each year – unless other arrangements are agreed-to between the broker or brokers and the City.**

   **Experience in negotiating with insurance carriers:**
   Our agnostic approach will allow you to have an option to either insure with a pool (FMIT) or Independent Risk Placement (IRP) markets for the next several years and always create the most effective deal negotiation method to keep costs down. In addition, no other broker can boast more experience with pools and IRP markets than our team.

   Our team brings experience, a large public entity presence, as well as the leverage of placing over $2 billion of premium with the majority in the State of Florida. We affirm that we will represent the City in communications, and we are also confident in our ability to bring the most deal tension to the City's negotiating process. This tension is what drives the best results. The selection of our team will allow you to explore multiple options in the marketplace and always create the most effective deal negotiation method to keep costs down.

3. **Assist the Risk Manager and/or City staff in conducting annual physical inventories for real and personal property, establishing current replacement values.**

   An annual review of the City's exposure data is critical in producing accurate and optimal results. This is not just a renewal function. We believe that identifying changing risk characteristics allows us to accurately portray the City in the marketplace. The more robust and accurate the data and submission, the less assumptions made by insurance carriers. Typical insurance models assume the worst, as we continually update information and clean up data to carriers, we will continue to be able to drive down uncertainty and therefore reduce the cost to the City.

   We are currently working through this process with the City and have uncovered several assets that have been missed in the past. We have created a process and a workflow to avoid these issues in the future.

4. **Prepare and maintain list of current properties owned by the City. Update list to reflect new construction, acquisition or deletion of property and provide same to the City, at a minimum on an annual basis.**

   We affirm that we will meet this requirement.

5. **Assist the Risk Manager in preparing documents and exhibits for presentation to the City's Insurance Program Committee and/or City Commission for approval/annual renewal of Property & Casualty insurance. All documents/proposals to be considered by the City Commission for approval must be received in final form to meet deadlines established by the Risk Manager for inclusion in the City Commission agenda packet.**

   **Marketing Results Meeting:**
   After our marketing effort, we will present to the City options, markets, alternative risk strategies, etc. This marketing summary will contain the status and outcome of each market (quoted or declined), as well as a reason for the declination (losses, exposure, etc.) or a reason that the quote is not proposed (pricing was too high, coverage was not broad enough, etc.). All these options and reports will be built around a comparison of historic losses and the effects of alternative risk transfer as well as the effect on premium.

   Our goal is to provide options that may allow the City to reduce their total cost of risk. Insurance cost is an important piece to risk management, but the ultimate goal is determining what the total cost of risk is. As markets harden, the cost of transfer becomes increasingly more expensive and the incentive to increase retentions becomes a cost-effective alternative.

   Our responsibility is to provide options and advice on the short-term Total Cost of Risk as well as advise the City on long term consequences/risks of different choices. Our experience in serving in local and state government positions make us uniquely qualified to advise during a hardening market and during budget uncertainty. We will continue to advise on long-term & short-term initiatives and just as importantly provide options and data to allow the City to make the most informed decision possible.

**6. Attend City Commission meetings and other meetings as requested by City staff at no cost to the City.**

We affirm that we will meet this requirement.

Our Public Entity team members are available to attend meetings with your Board or staff as needed. The team lead will utilize the other team members to provide the needed expertise for specific areas within the risk management program. Our experience in Public Entities make us fully aware that not all needs arise during normal working hours, and we stand ready to be an extension of your staff when that need arises.

Our goal is to serve as an extension of your staff. This means we expect to assist the City in multiple ways. This includes lines of coverage placed by us, advice throughout the course of the year, and risk management questions that may arise. Our experience with Public Entities makes us fully aware that not all needs arise during normal working hours, and we stand ready to be an extension of your staff when that need arises.

**7. Assist City staff with review and suggested improvement to the City's minimum insurance requirements.**

Improving and monitoring the City's risk transfer is a key component to continuing to improve the City's Enterprise Risk Management. We affirm that we will continually monitor signed agreements, retentions, insurance purchased, as well as continue to identify mechanisms to drive the Total Cost of Risk down for the City.

1. *We have provided the City with a matrix for insurance requirements by vendor type, i.e., construction, structural construction, IT, financial consultation, etc. This matrix is built in consultation with the City.*
2. *This matrix led to further discussion including proposed language tweaks within the City's current procurement and contracts, and a plan of action for long term changes to the City's process that are currently underway.*
3. *This process is on-going.*

We understand the importance of being easy to do business with and the important balance of not exposing the City in that endeavor. Our knowledge and experience as civil servants at the city and state level drive our ability to provide unparalleled risk management support.

**8. Be available to meet with City staff concerning issues regarding the City's minimum insurance requirements and certificates of insurance.**

We affirm that we will meet this requirement.

**9. Be willing to assist vendors or bidders on City contracts with insurance coverage that meets or exceeds the City's minimum insurance requirements.**

We affirm that we will meet this requirement.

**10. Assist in the preparation of Requests for Proposals (in compliance Section 2-300 of the Ormond Beach Code of Ordinances) and analysis of same as needed at no charge to the City.**

We affirm that we will meet this requirement.

**11. Respond to telephone calls from City staff on the same day or within twenty-four (24) hours and be available at night and on weekends as needed.**

We affirm we are available for consultation on a daily basis. Our office and leadership support bring public entity expertise and significant resources that match/exceed any other public entity practice in the State of Florida. We have dedicated ourselves to building a service model that will serve our clients and continue to expand our offerings. This structure also keeps our agents in the office more to allow for a more hands on approach from your primary contact.

Our goal is to serve as an extension of your staff. This means we expect to assist the City in multiple ways. This includes lines of coverage placed by us, advice throughout the course of the year, and risk management questions that may arise. Our experience in Public Entities make us fully aware that not all needs arise during normal working hours, and we stand ready to be an extension of your staff when that need arises.

Office hours for our locations are from 8:00AM-5:00PM 5 days per week, but our account leads understand that our priority is a commitment to immediate response and are available via cell phone at any time and contact information will be provided. Calls and emails are expected to be returned within 4 hours.

| Service Standards | Within: |
|---|---|
| Return phone calls* | Same day (within 24 hours), we strive for 4 hours |
| Issue invoices and related documents | 5 workdays of effective date |
| Incorporate policy changes | 3 workdays of receipt |
| Issue certificates | 24 hours of receipt or as needed/2 hours for rush requests |
| Process premium-bearing endorsements | 10 workdays of receipt from carrier |
| Process non-premium-bearing endorsements | 10 workdays of receipt from carrier |
| Process audits | 7 workdays of receipt from carrier |
| Check policies | 30 workdays of effective date & deliver within 10 workdays |

**cell phones are provided for escalation and after hours, if needed*

**12. Be available to meet on-site as required by the City within 48 hours of request, unless other arrangements are agreed-to between the broker and the City.**

We affirm that we will meet this requirement.

Our Public Entity team members are available to attend meetings with your Board or staff as needed. The team lead will utilize the other team members to provide the needed expertise for specific areas within the risk management program. Our experience in Public Entities make us fully aware that not all needs arise during normal working hours, and we stand ready to be an extension of your staff when that need arises.

Our goal is to serve as an extension of your staff. This means we expect to assist the City in multiple ways. This includes lines of coverage placed by us, advice throughout the course of the year, and risk management questions that may arise. Our experience with Public Entities makes us fully aware that not all needs arise during normal working hours, and we stand ready to be an extension of your staff when that need arises.

**13. Actively pursue improved coverage and/or rates on behalf of the City of Ormond Beach. Outline marketing techniques including timing, client meetings, meetings with underwriters and major carriers.**

**Executed improvements over the last 9 months:**

- Improved the City's named storm deductibles.
- Saved the City over $300,000 year over year.
- From a modeling perspective, increased the City's named storm coverage from 1 in 250 years to 1 in 1,000 years.
- Identified overspend as previous broker was taking commission and fees on Active Shooter/Terrorism coverage.
- Increased AD&D coverage from $2,500 to $50,000.
- Successfully lined up multiple policies to 10/1 effective date for easier program management by the City.
- Improvement of TULIP administration. Identifying overcharge to the City and users of City property. Examples available upon request. We also identified errors in prior years certificates.

**Experience with the Global Marketplace:**
As independent agents and brokers we represent carriers worldwide, enabling us to provide a wide range of coverage options for our clients. We currently insure more than $200 billion in total insurable values throughout the United States and represent an array of prestigious clients including real estate holdings, financial institutions, and non-profits.

We are proud of the reputation we have cultivated with our insurance carriers, and especially with our underwriters. We work with our carriers to maintain long standing relationships with our underwriters. We have found that this provides a stable and profitable underwriting environment for our clients, carriers, and the agency.

A hardening property market creates issues with pricing and limits/terms. A broker who has the ability to provide options from insurance trusts and the standard marketplace provides the City the ability to analyze these options on an annual basis throughout the length of the contract awarded. We have consistently been able to leverage the insurance marketplace with better success than other brokers in the state of Florida. We have been able to drive results for our clients as well as for new clients/bidding processes.

We also have vast experience in alternative risk transfer through CAT bonds, Insurance Linked Securities, Parametric products, etc. that all invite additional competition to continue to move the needle in a positive direction for our clients. We are recognized as one of the fast-growing agencies in the country with most of our carrier partners. This allows us direct access to senior leadership of all major carriers as a strategic growth partner.

**Experience in analyzing insurance coverage proposals:**
As one of the largest brokers in the State of Florida, our ability to analyze multiple options is the life blood of what we do. Understanding the needs of our clients comes first. Each program has its strengths and weaknesses, and through discovery and analysis we work to find the best option for our clients. We understand that services provided play a crucial role in decision making, so our coverage review includes a service review as well.

Additionally, our firm currently serves as a consultant to the largest insurance placement of property in the United States. In this role we have been tasked with assisting in evaluating parametric products, Insurance-Linked Securities, Captive structures, increased retentions, and several other forms of risk transfer. This consultation included an extensive analysis of 10 years of data to determine data sufficiency, actuarial defined expected future losses, disaster recovery program implementation, TPA review, and several other processes to aid in the selection of the best possible outcome for the client.

We believe this speaks to our ability to aid the City in their options in the current insurance marketplace. We believe our expertise in the area will continue to allow us to position our clients in the best way possible as the insurance market continues to harden on all lines of coverage. Our approach and timeline are centered around quality of data. This is exemplified in our step-by-step marketing process and our attention to property detailing and modeling.

**Work with the City to prepare coverage submissions effectively and efficiently:**

- Coordinate with the City approximately 120 to 150 days prior to renewals and provide estimates of renewal changes in premium, coverage, policy terms, etc. and in collecting needed renewal rating and background information.
- Provide the City with Probable Maximum Loss ("PML") studies.
- Present renewal pricing and policy changes to the City at a minimum of forty-five (45) days before renewal or at a time agreed upon with the City.
- Obtain proposals from additional insurance markets and provide them to the City with a listing of all companies contacted, detailed spreadsheets of all submissions received and all rejection letters.
- Provide final, written renewal submissions to the City on a schedule agreed upon with the City to allow for review of renewals.

We have provided a marketing/service timeline that will hold our team accountable to the proper stewardship of the risk management program. The timeline provided is an example and can be adapted to meet the specific needs of the City. This timeline is designed to incorporate requirements within the Scope of Services to allow the City to continually track that we are meeting the promises set forth in this RFP response.

Our approach and timeline are centered around quality of data. This is exemplified in our step-by-step marketing process and our attention to property detailing and modeling. The timeline is included on the following page. We are confident in our ability to meet the City's Scope of Services and will work to modify this calendar and approach after our initial meetings with the City if selected.

**Available Markets:**
With access to 100+ markets, a list of all active carriers is not specific enough for the City to evaluate our ability to drive results. On pages 49-51 we have provided a list of carriers that we believe will effectively compete on the City's program and provide the necessary deal tension to insure the optimal outcome in a hardening market.

# Service Calendar

FOUNDATION RISK PARTNERS
PUBLIC ENTITY SERVICES

Initial Meeting → Foundation Risk Partners Data Review → Marketing Meeting with Staff → Marketing Process → Marketing Results

| | Action Date: | Main Objective: |
|---|---|---|
| ☐ | Within 10 Days of Bid Award | **Initial Meeting**<br>**To understand the City's philosophy and overall risk management goals. | Hudson | Monoline POL/EPL or LEL |
| ***This list is not all encompassing for Ancillary coverages*** | |

**14. Perform risk management advisory services. Advice must be provided on emerging risk management trends, the state of the market and any new, innovative products.**

The Public Entity Practice recognizes the unique exposures and evolving risk profiles of our municipal clients and strives to reduce the total cost of risk. The practice believes in public service and is dedicated to reducing the total program cost, mitigating risk, and functioning as an extension of your staff.

We assess each organization's equipment, environment, and employees to identify likelihood, frequency, and severity of the risks they are exposed to and then create a systematic approach to control those exposures. Our in-house loss consultant uses an evidence-based approach to safety and health, and offers practical technical solutions, tools, and strategies to help reduce work-related employee injury and illness. We've found this approach can significantly improve your safety culture and productivity.

**Quarterly Loss Meetings:**
These meetings can be phone reviews or in person, but the objective of these meetings is to allow for a discussion of information on open claim expectation. An open discussion allows for our claims unit to provide a higher quality of service, allows the City to be proactive on large claims and keeps both parties continually updated on risk mitigation strategies and training opportunities that will result in a lower Total Cost of Risk.

**Loss Prevention/Engineering Services:**
As an extension of your staff, our Risk and Safety Management team works with you to identify and address potential hazards and risks. Together, we create a safer environment to protect your assets (especially your employees) and save you money. Our in-house loss control expert will make proactive recommendations in consultation with the City. In addition to that role, his expertise as a former insurer loss control expert allows him to better represent the City with regard to insurance companies reports.

Our in-house loss control team has several industry certifications, including OSHA. We utilize in-house services when appropriate to reduce the cost to the City but, will identify qualified firms and act as a liaison as requested.

**Health and Safety Services:**
People drive the business. As a critical resource, employees will be safeguarded through training, provision of appropriate work surroundings, and procedures that foster protection of health and safety. The following, services are available on a continuous improvement or as needed bases.

- Loss Control Toolbox
- Trend analysis
- Job Safety Analysis
- Ergonomic Evaluations
- Workplace evaluations
- Industrial Hygiene Coordination
- Incident Investigation supervision

**Web Based Tools:**
We have accumulated Web Based Tools that help achieve the greatest of value to our clients.

- Client Portal
- Learning Management System
- Access to resource portal (Mywave)
- Human Resource Portal (Mywave)
- Zywave basic and advanced training (Zywave University)
- Access to Loss Control and Claims Advocacy teams.
- Vendor partnerships.

**Web Based Loss Control services:**
Loss control-based resources and guidance are available electronically. Use is driven by the broker in collaboration with loss control.

- Assisting with OSHA Inspections
- Large loss/incident investigation review
- Resource coordination (policy, handout, presentation, etc.)
- Claims Management assistance.
- Guidance with carrier recommendations
- General Safety Consultation
- Carrier Based Loss Control Resources

# LOSS CONTROL & SAFETY

CUSTOM PLATFORM

Developing a Loss Control & Safety Program can seem daunting, but it doesn't have to be. The team of experts at Foundation Risk Partners take the time to get to know you and to conduct data-driven analyses so that the best safety program solutions are tailored to meet your unique needs. Measuring employee morale, incident occurrences and productivity are just a few examples of the metrics assessed and impacted by customizing a safety program. As a full-service independent agency, the professionals at Foundation Risk Partners are focused on providing strategic solutions based on collaboration and excellence, no matter where you are in the U.S.

### Loss Control Services

- On-Site Consultation Services
- Web-Based Services including Web Training & Virtual Site Evaluations
- Assistance with Fleet Management

### Stay in Compliance

Gain confidence with OSHA compliance as we assist with facility inspections, OSHA 300 Log record keeping, rules, regulations, standards, updates and more.

### Potentially Reduce Cost

We can help you potentially reduce cost with an effective loss control action plan.

- Evaluations of current Programs, Policies and Procedures
- Statistical analysis of workers' compensation losses, OSHA 300 Logs and Loss Runs
- Identification of problem area
- Review of experience modifiers for accuracy

### In-House Claims Department

- 24/7 Rapid Response Claims Delivery
- Over 35 years of combined claims

### Reduce Your Mod

- Reduce the number and severity of workers' compensation claims through safety programs in the workplace.
- Assistance and training in the development
- and organizational structure of a safety committee.
- Ensure injured employees return to work sooner with our resources for creating effective return to work programs
- Use our supervisory training materials and other resources to improve effective safety protocols.

### Risk Management Services

- Claims Prevention & Risk Review
- Financial & Data Presentation Tips
- Progressive Online Safety Support
- Contract Review

# ONLINE RESOURCE PORTAL

## CLIENT PORTAL

### Our Portal Can Help You:

- Solve your business's unique pain points with centralized tools and content
- Easily navigate the complex world of compliance and risk management
- Effectively handle tasks involving employees using portal resources

### Industry-leading Resource Portal

Our client portal is your go-to resource to find the content and tools you need to help you stay compliant, manage risk and build a better workforce.

- 24/7 access to exclusive compliance information, training, people and risk management tools you can use to avoid costly lawsuits, claims and fines
- Accurate compliance information regarding ACA, FMLA, COBRA, OSHA and more
- Alerts and notifications to help you stay up-to-date when content and legislation is updated
- User-friendly solutions that will assist you in getting more done in less time
- HR and compliance assets you need to do your job more effectively

### Apps Include:

- Custom Job Description Builder
- Interview Question Builder
- Employee Cost Calculator
- Federal Poster Advisor
- Multi-state Law Comparison Tool
- FMLA Advisor
- Health Plan Compliance Calendar
- Compliance Notice Builder
- HR Self-assessment
- Performance Review Builder
- Employee Handbook Builder
- Sample Job Descriptions
- Salary Benchmarking

## HR HOTLINE

The HR Hotline is a service staffed by HR professionals, available by phone or email, to answer your HR-related questions. As a valued client, you will have access to personalized, professional HR consultation and expertise every month.

### What can you ask about?

- Employee benefits
- Leaves of absence
- Federal compliance
- State employment law
- Wage and hour issues
- Discipline and terminations
- Recruiting and hiring
- Employee relations
- Workers' compensation
- Investigations
- Performance management

# Risk Management Center

## Comprehensive Risk Management, Employee Safety and Compliance Platform

Help protect your company with the Risk Management Center, a unique web-based software suite of safety and risk management tools designed to empower your organization's risk prevention efforts.

The Risk Management Center allows you to reduce risk and improve workplace safety by creating effective risk mitigation programs. It is easy to access and use, and provides a cost-effective risk reduction and safety center for your entire organization.

The Risk Management Center is right for any organization that wants to proactively manage risk exposures to reduce claims, losses, and associated costs.

**Safety Library**
Access a database of document templates and training courses, created to help companies mitigate risk and reduce losses.

**Online Training**
Deliver employee safety training efficiently and effectively.

**Incident Management Tools**
Automate safety audits, field inspections, and corrective action reporting while complying with OSHA reporting requirements.

**HR Compliance Solutions**
Access HR best-practice templates, training, news alerts, and expert advice.

### MORE INFORMATION

To learn more, or sign up for a no-obligation webinar, contact your platform provider or KPA Client Services at **503-766-6063** or **software.support@succeedms.com**.

Risk Management Center

# Tools to Enhance Your Compliance

**COI Track**
Manage the Certificate of Insurance (COI) process and ensure your business is protected from unexpected liability.

**Incident Track**
Report claims and reduce incidents. Track employee injuries and related time off of work, conduct incident analyses, and run OSHA 300 Logs.

**SDS Track**
Comply with the new Globally Harmonized System.

**Audit Track**
Create audits, surveys, questionnaires, and self-assessments.

**HR Essentials**
Achieve HR compliance, enabled through online educational materials, an HR & Benefits library, and access to on-demand experts.

**BBS Track**
Cultivate a safety culture throughout your organization with a Behavior-Based Safety (BBS) Program. Ensure employees are doing their jobs safely.

**Safety Observation Track**
Perform and track safety observations and demonstrate job compliance.

**Job Description Track**
Build job descriptions that clearly communicate employee responsibilities and job-related health and safety requirements.

**Training Track**
Automate your entire employee training process. Schedule, track, and document training with a database of training titles.

**Online Risk Management Library**
Access a multitude of bilingual risk management documents and resources.

**Loss Control Inspection Services**
Attain certified experts to analyze current workplace conditions and environmental waste disposal programs, conduct on-site training, and assist with the management, tracking, and reporting of compliance issues.

2

**Knowledge of Florida State Law:**
Our team includes staff with risk management backgrounds to assist with contractual language review to further assist with maximizing opportunities for contractual risk transfer to reduce the retained risk by the City as well as reducing the overall cost of risk. There are many statutes that impact the provision of insurance for which we have extensive experience and understanding of their application. They include but are not limited to:

- F.S. 624.4622 - Local Government self-insurance funds (The law applies to Preferred and FMIT)
- F.S. 768.28 – Waiver of sovereign immunity in tort actions
- F.S. Chapter 440 – Workers Compensation
- F.S. 112.18 – Firefighters and law enforcement or correctional officers; special provisions relative to disability
- F.S. 112.1816 – Firefighters; cancer diagnosis

David Lodwick, Director of Public Entity Services, is the lead for reviewing contractual language for insurance provisions to ensure proper protection. He leads not only our compliance best practices, but also training of all staff who handle our accounts. As a former Mayor and Board Chair of the FMIT, and 30 plus years in Risk Management he brings a unique skill set that will be an asset to the City.

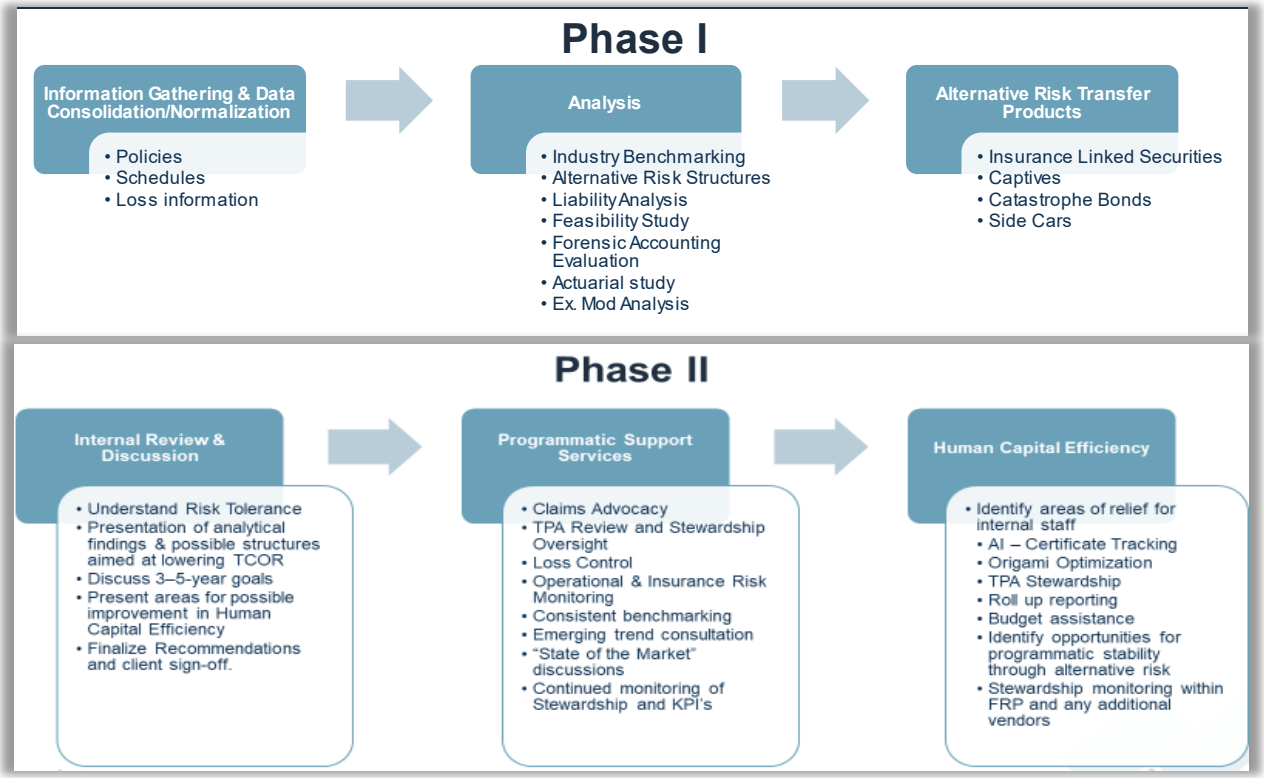
Lastly, **Tom Leek**, Chief Legal Officer, also serves as a member of the Florida State Legislature and provides guidance and understanding of any legislative issues that arise related to our client services. Our leadership maintains relationships with the OIR, DFS and State Government to ensure that our team is properly educated on all matters that will impact our clients.

**Legal Representation & Consultation Related to the Provided Coverage:**
Throughout the year our team will assume a consultative approach to ensure City staff are well informed on the insurance market as well as potential legislation that could impact the risk management plan.

- Drafting, preparation, review, issuance of certificates of insurance, binders, or cover notes, in accordance with the instructions of the client.
- Assistance with insurance program design and review of policy wordings.
- Production and dissemination of premium invoices.
- Tracking of premium receipts and reconciliation.
- Preparation of statistics for renewal discussions.
- General correspondence/queries on policy conditions.
- Delivery of coverage summaries
- Policy Administration - Receipt, Review, and Delivery

**Keep the City informed of changing conditions in the insurance marketplace:**
State of the market updates, as well as court cases that may affect the applicability of a coverage to the City is crucial when building strategy at renewal time and throughout the course of the year. Our size nationally, as one of the largest 20 insurance brokerage firms in the country, and one of the 5 largest in Florida ensures that our clients receive the market intelligence of an organization of our size and breadth of resources.

We will update the City at least quarterly with current market conditions that could potentially impact the insurance and risk management programs. In addition, we will update the City with potential legislative changes that could impact the insurance and risk management programs.



### 15. Review and refine existing insurance model and prepare ongoing reports as requested.

**How we work:**

A core philosophy to our approach to each client is to build a unique program customized to their specific exposures. We will review the City's current program; what is working, what is not, where are losses trending in the wrong direction, where are they trending in the right direction, where are they unintentionally self-insuring, where does risk transfer reduce or increase the Total Cost of Risk? We will identify areas of improvement; we will implement language, procedures, and training to fix those areas, and maintain current training and procedures that are producing the intended outcome.

Additional risk transfer mechanisms are becoming more common, and in hardening markets this tends to increase the speed of these products being introduced. We will continue to monitor alternative and additional products for the viability and trustworthiness to meet our ultimate goals for the City. Our experience building large public entity pools and property programs provides us an advantage in difficult to place risks, hardening markets, as well as providing innovations to continue to drive better results in risk management.

We understand that every client has different needs and wants of their risk management program and policy. We operate as an extension of your staff and consult with your staff to come up with the best plan of action to be most advantages to the City. Our action plan is driven by a data focused approach, identifying negative trends and controllable risk exposures.

On the following pages are several loss analyses based on information provided by the City. We build our material based on the needs of each client instead of a cookie cutter and generic approach. Our output will meet internal, external, as well as agenda requirements. Should there be a need for multiple documents to meet multiple format requests, our team will provide it in those structures to reduce the burden on City staff.

**16. Provide other related services as determined by the City at no cost to the City.**

**Brokerage:**

- Only broker in Florida to have access to 4 Florida public sector insurance pools.
- Strategic partnership with the Florida League of Cities program; Florida Municipal Insurance Trust.
- Fully transparent pricing (we cap wholesale intermediaries commission and disclose those amounts as well.)
- Consults largest private property owner in world-Blackstone, Inc.
- Developed real estate asset data management policy for Blackstone's $91 billion TIV, 93,000 locations across the world, including one of the largest captives in the world.
- Designed and established a $4 billion TIV property tower for 4 Public School Districts.
- Unrivaled ability to create deal tension and lower costs.
- Represent every public sector insurer.
- Independent & agnostic - we do not own any intermediary/wholesale brokers or Third-Party Administrators (TPA's).
- Dedicated flood division for audits of property schedule and rate 2.0 mapping audits.

**We Speak "Public Entity"**

- Public sector team has served in both State and City government.
  - Governor's Office
  - Mayor of Royal Palm Beach
  - Our Chief Legal Officer is a current member of the Florida Senate
- Director of Member services of Florida League of Cities sponsored Florida Municipal Insurance Trust.
- Developed largest property asset recovery program for over 200 Cities in Florida.
- Provided risk management programs to over 500 public entities of all sizes.
- FEMA claims, Stafford Act assistance.
  - State University System
  - Municipalities
  - Counties
  - School Districts
  - Single purpose special districts
- Team has overseen Florida's 2 largest self-Insurance pools as well as public entity specific brokerage.

**Extraordinary Customer Service:**

- Dedicated agent, single point of contact, experienced public sector client services team. Our team is available for text/email after hours.
- Extension of staff, supporting the City's Risk Management Department.
- Collaborative team approach draws on the strength of each team member.
- Corporate culture aligned to work as a team.
- Team aligned for delivering a VIP customer experience.
- Service timelines, stewardship reports, and same day call backs (goal is within 4 hours, 24 hrs. max)
- Unlimited decision support for staff, service requests, and questions.

- More than 5 team members assigned to the City for extraordinary customer service and built-in service redundancy.
- Unlimited availability for onsite meetings and board meetings, we serve the City.

**Claims (in house):**
- Work hand in hand with City's chosen insurance defense attorney.
- Work hand in hand with City's chosen TPA for fast and efficient claims handling.
- Provide claims advocacy and ability to push back on insurers when necessary.
- Work hand in hand with City's insurance defense attorney to minimize insurer financial desire to settle vs fight. We are aware of the risk of settling to soon and setting a precedent for trial attorneys.
- Chief legal officer (attorney) is also a Florida Legislator, keeping us apprised of legislative concerns that may impact our clients and insurance industry.
- VP of claims (attorney) heads up claims division and claims team who act as liaison to insurer claims adjuster.
- Employment & labor issues.
- Contract review & Disaster Response.

**Loss Control, Risk Management, & Client Resources Portal (in house):**
- Loss control platform and specialist assigned to the City.
- Creating and fostering a culture of safety.
- Improve safety and deliver actionable advice.
- Loss control plan customized to the City.
- Director of Risk Management assigned to the City.
- Policy language audit and gap analysis.
- Web based training, fleet maintenance, OSHA compliance, facility inspections, learning tools, analytics and more.
- Cyber Concierge including legal support, assessments, and best practices following a claim.
- Industry leading client resource portal.
- HR Hotline staffed by HR professionals.
- Learning Management System, including over 150 training courses (mobile ready) at no additional cost to the City.

**Data Analytics *"Data Dictates the Process"* (in house):**
- Director of Risk Management that manages Blackstone's data assigned to the City.
- Coordination of independent 3rd party property appraisal and key data points.
- Collection and data set organization (making data meaningful to the client)
- Utilizing data to determine true exposures, secondary underwriting factors for modeling, and benchmarking.
- Probable Maximum Loss (PML), Wind Modeling (FEMA accepted) pre scrub vs. post scrub.
- LORAN graphical analysis of claims (what if scenarios for historical retention levels)
- Property insurance data review and augmentation.
- Self-insured retention (SIR) trends, insights for optimizing SIR layers.

**FRP - Claims Services**

**Claims Administration/Adjusting:**
Our claims unit will provide advocacy throughout the claims process to ensure the most favorable settlement offer. We also will utilize David Lodwick's expertise in his former role as Head of Claims for the Florida League of Cities and utilize our knowledge of procedure to speed claims resolution whenever possible.

We believe in open and frequent communication with the City staff during the entire claims process to alleviate the burden on the City staff and achieve optimal outcomes. We will include quarterly and as needed meetings to satisfy the City's needs.

**Debbie Tappin** and her team will serve as liaisons for all claims; from notifying carriers to advocating for claim resolutions. Debbie brings a wealth of knowledge and experience, particularly with compensability questions. Debbie is also an attorney and licensed claims adjustor. Our commitment to loss control and found is exemplified by our commitment to staff.

Most claims departments, if any, are made up of former account managers or adjusters. Our staff is led by an attorney who was formerly defense counsel for several large insurers. These additional qualifications allow us to bring higher quality claims advocacy to our clients than what is typically provided by their brokers.

We work with your selected TPA's to receive all claims data and normalize this data into our systems to produce these reports on a regular basis for presentation to your team.

**Claims Management Overview:**
- Provide benchmarking data.
- Confirm coverage with loss adjusters appointed by the client in the event of claims being notified.
- Liaise with insureds and claims administrators.
- Proactively monitor and engage to assisting in closing out open claims.
- Quarterly Claims Review Process.
- Assist in settlement discussions and claim disputes.
- Review of claims protocols and areas to increase efficiency.
- Dedicated Team of Claims Professionals.
- Review of and Assistance with Reporting of Claims.
- Large Loss Strategy Development/Meetings.
- Loss Analysis and Recommendations.

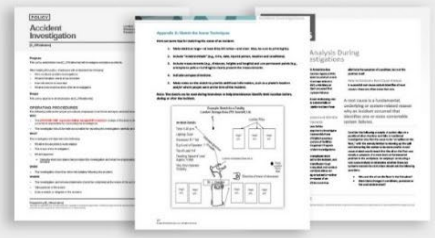
# Claims Management – Differentiators

## In House Claims Legal Consultant

- Prior Litigation experience
- Claims Management experience
- Extensive experience handling all insurance lines of business
- Contract / Coverage review experience
- FAIA Legislative Counsel member
- Legal relationships

## Dedicated Claims Advocate

- Director of Client Services Advocacy with over 30 years of claims experience
- Advise on claims reporting/resolution
- Review & prepare all coverage reconsideration letters
- Coordinate Quarterly Claims Call on ALL open claims
- Partner w/ Loss Control (address claims frequency)
- Claim Updates provided prior to ALL policy renewals



### INTERACTIVE RISK ANALYSIS TOOLS

Use these multifunctional tools to evaluate various industry pain points. Many of these tools can be customized for your organization's specific needs, so you can see how your business is faring and learn ways to manage your risk exposures.

### INJURY AND ILLNESS INVESTIGATION PROGRAMS

Make sure that injuries and illnesses only cost you a single time. These resources can help you establish best practices for investigating the true sources of workplace incidents and reduce the chance of costly reoccurrences.

### COMPLIANCE TOOLS

Mismanaging compliance topics can lead to costly fines and a tarnished reputation. Use these attorney-written compliance tools to understand recent federal legislation handed down by OSHA, the Department of Transportation and other government agencies, and make sure your business stays in compliance.

**FRP - Cyber Services**

**Cyber Concierge:**
- Provides real-time claim advocacy.
- Submits claims and handles the notification protocols on behalf of the client.
- 24/7 access for Q&A.
- Legal support during filing, notification, and mitigation process.

**Information Security Risk Assessment Tool:**
- The foundation for developing and implementing your WISP.
- Assessment is based on the ISO 27000 Security Framework Standard.
- Annual assessments are guided and reviewed by information security professionals.
- Assessment answers are entered and retained online.
- Compliance deficiencies that require remediation are identified, maintained, and managed online.

**Remediation Prioritization:**
- Recommendations for remediation prioritization based upon assessment findings.
- Easy visibility and continuous management of remediation priorities.

**Information Security Policies:**
- Complete set of enterprise-quality information security policies.
- Policies that can be downloaded, adapted, and uploaded again to the portal for central distribution and viewing online.
- Online access to policies for employees.

**Service Provider/Business Associate Management:**
- Enables you to survey all service providers/business associates regarding their critical information security capabilities.
- Addresses regulatory and contractual requirements.
- Survey results are color coded based on severity and delivered via an online dashboard for quick and easy monitoring of the WISP status of your vendor network.

**FRP - Flood Expertise on Staff**

One of the most overlooked lines of coverage to a coastal city in Florida is flood.

Jeff Bajza is an expert on the NFIP flood insurance manual, and he evaluates each risk independently to find the best ratings possible. He built his name and practice on flood expertise before becoming part of the FRP team. Many commercial businesses and public entity clients think that because the NFIP is a government program that there are not any differentiators or competitors, but that is simply not true.

We have contracts with all the major NFIP carriers including Wright flood, American Bankers, Hartford, etc. but we specialize in our ability to compare and provide alternatives to the NFIP marketplace with better terms, costs, and services.

We have multiple private market flood programs including one semi exclusive program. The private market is where we separate ourselves from a lot of our competition. The private market truly underwrites risk, and our approach is to bring an increased level of data to the marketplace to drive better pricing and terms. We also can write master policies with multiple locations.

We provide this free evaluation (NFIP vs. Private market) and the following services to all our clients:

**Letter of Map Amendments & Letter of Map Revisions:**

- We handle all LOMA and LOMR requests and save our clients hundreds of thousands of dollars annually while increasing the value of their properties. Correcting flood zones can result in savings of thousands of dollars per purchased policy.

**Elevation Certificates:**

- We manage the ordering of elevation certificates when needed and review existing elevation certificates for accuracy.

**Mitigation Evaluations:**

- Another critical differentiator is our mitigation services. We may recommend certain mitigation processes if it will help save premium. Flood proofing for example can help us positively change elevation differences which will save premium. This can be helpful during pre-construction especially. We have engineers available to make recommendations and sign the flood proofing certificates.

## Flood Audit Case Study:

**Full Summary:** Our firm provided a complete program analysis and audit of current coverages. Through review, on-site inspection, and discussions with the prospect, we identified that the current broker did not understand NFIP coverage forms and created a situation where duplicative coverage was provided through a separate flood policy that would never have responded in a loss scenario. We notified the carrier and petitioned for a return of premium. These requests can go back 5 years. We succeeded in our petition and the client did not renew, received premium from the current policy, and is in the process of receiving 4 prior years as well.

This audit resulted in a refund of *$14,098*, additionally during the audit process we discovered an uncovered claim that should have been covered, which resulted in an additional payment of *$80,000*. **Total money received = $94,098**

**Why it Matters to the City:**

- Our firm does not force reliance for all insurance matters on the primary point of contact.
- We create an integrated team with specific expertise that is additive to our ability to provide our clients best in class service, including specific expertise and industry knowledge.
- Our national support system allows us to bring the leverage and expertise of a top 20 firm with the day-to-day service of a local office. We do not have territories, separate P&L's, or separate goals that hinder our collaborative process.
- Our sole focus is how do we put together the best team and program for each client.

**Name of Member:** Jeff Bajza
**Office Address & Telephone Number:** 813-394-7617
1401 Forum Way, West Palm Beach, Florida 33401
251 Windward Passage Suite G, Clearwater Beach, Florida 33767
**Formal Education:** Graduate of UNC Charlotte – Class of '92
**Licenses Maintained in Florida:** 2-20 Resident General Lines Insurance Agent
**Years of Commercial Lines Experience:** 28+ Years

**2018 – Top Producer Recognized by Insurance Business America**
**2020 – Top Producer Recognized by Insurance Business America**

**Narrative:**
With almost three decades of experience in the insurance industry, Jeff boasts unparalleled knowledge and outstanding customer service, setting him apart from a vast majority of insurance professionals. He founded AmeriFlood in 2005, and through his many years of experience, has become a subject-matter expert on flood insurance.

Aside from his many years of valuable experience and extensive knowledge, Jeff has been integral in leading AmeriFlood to be voted one of the top insurance agencies in Fort Lauderdale – the last three years in a row. AmeriFlood is a subsidiary of Foundation Risk Partners.

**Employment History:**
- Founder and President, AmeriFlood I 18 Years
  - Business-owner of local well-respected independent insurance agency
  - Managing partner for 14 years, contributing to growth goals of the agency as well as successful transition to Acentria.
  - Successful in growing the reputation as a flood expert among many different classes of real estate.
- Owner, Allstate Agency | 4 Years
  - Business-owner of local well-respected independent insurance agency
  - Sold the business in 2006 and relocated to Florida.
- Founder and Owner, Jeff Bajza Agency in New Jersey | 10 Years
  - Business-owner of local well-respected independent insurance agency
  - Sold the business in 2002.

**Current Job Responsibilities:**
*Jeff is a subject matter expert in Flood Insurance and the NFIP program.* After becoming part of the Foundation Risk Partners family, Jeff is continually relied upon to bring additional resources and expertise to our clients. This knowledge has allowed us to differentiate ourselves from other mid-market brokers. This expertise has resulted in more savings, policy consolidation, and price smoothing compared to the NFIP programs.

**Expected Job Responsibilities for the City's Insurance Program:**
Jeff is expected to service within the same role for the City by reviewing and assisting in placement of the City's flood insurance program.

AmeriFlood

*A Foundation Risk Partners Company*

## Flood Program Offerings

At AmeriFlood, we are experts when it comes to the NFIP flood insurance manual and we evaluate each risk independently to find the best ratings possible. Many commercial businesses think that because the NFIP is a government program there are not any differentiators/competitors, but that is simply not true.

We have contracts with all the major NFIP WYO carriers including Wright flood, American Bankers, Hartford. etc. but we specialize in our ability to compare and provide alternatives to the NFIP marketplace with better terms, costs and services.

## Services Include

- **Letter of Map Amendments & Letter of Map Revisions**
  - We handle all LOMA and LOMR requests and save our clients hundreds of thousands of dollars annually while increasing the value of their properties.
- **Elevation Certificates**
  - We manage the ordering of elevation certificates and review them for accuracy.
- **Mitigation**
  - Another critical differentiator is our mitigation services. We may recommend certain mitigation processes if it will help save premium. Flood proofing for example can help us positively change elevation differences which will save premium. This can be helpful during pre-construction especially. We have engineers available to make recommendations and sign the flood proofing certificates.

## *EXPERT ADVISORY AND CONSULTATION SERVICES*

Whether placing a policy in the NFIP or in the private market, we specialize in working with lenders whether it be showing proof of coverage, compliance with their guidelines or requesting waivers in certain instances. We will work directly with the lenders if requested.

### *NFIP MARKETS*

We are experts when it comes to the NFIP flood insurance manual and we evaluate each risk independently to find the best ratings possible.

We have contracts with all the major NFIP WYO carriers including:

- Wright Flood
- American Bankers
  - Dedicated underwriters with American Bankers which separates us from a lot of our competition
- Hartford

### *PRIVATE MARKETS*

We have multiple private market flood programs including one semi exclusive program. The private market is where we separate ourselves from a lot of our competition. The private market truly underwrites risk, and our approach is to bring an increased level of data to the marketplace to drive better pricing and terms. We also have the ability to write master policies with multiple locations.

### *RECENT SUCCESS*

We recently competed against a national flood placement competitor for a placement for a top 3 national storage facility company. They were looking for a private market alternative to the NFIP that was mortgage company compliant, could be written with a common effective date and would save premium.

According to the risk manager, they had been asking the incumbent to put together a private option outside of NFP and incumbent was unable to present a viable option for the client.

After one meeting with the client AmeriFlood was able to deliver on all three objectives and write a compliant, master policy with a 21% savings.

FOUNDATION
RISK PARTNERS

# Tab 5

# Fees

- **Provide the firm's fee structure.**

**100% Independent & Agnostic:**
While we partner with the FMIT when it is best for our clients, **we have no ownership interest or financial incentive to place the City's account with any market or wholesale broker; our only focus is driving the best results for our client.** Furthermore, Foundation Risk Partners does not own any P&C wholesalers, intermediaries, or TPAs.

**This approach led to savings for the City of $330K+ year over year and included impactful coverage improvements.**

**FRP will not accept compensation for the insurance program currently in place, other than the FEE proposed, except for flood policies placed through the National Flood Insurance Program. FEMA issued a memorandum in April 2012 prohibiting the "rebating" or return of commission practice for NFIP flood policies. FRP adheres to this directive for all NFIP flood policies placed by FRP. A copy of the FEMA directive is available upon request.*

## Verification of Employment Status Using E-Verify System

# City of Ormond Beach
# Request for Proposals (RFP)
# Agent of Record Property & Casualty Insurance
# (RFP No. RFP 2025-46)

## VERIFICATION OF EMPLOYMENT STATUS USING E-VERIFY SYSTEM

1. Undersigned firm warrants it **IS** currently registered with the U.S. Department of Homeland Security's E-Verify system, **and** is compliant with the requirements of Sections 448.09 and 448.095, *Florida Statutes*.

2. Undersigned firm warrants it **has not** had any contracts terminated as a result of violations of Sections 448.09 or 448.095, *Florida Statutes*, that prohibit it from contracting with a public agency.

3. Undersigned firm warrants that if it enters into an agreement with a subcontractor, an express provision shall be included in all of its subcontracts requiring subcontractors, who perform work or provide services pursuant to the contract, to use the E-Verify system to verify employment eligibility of all new employees hired by the subcontractor during the contract term.

4. Undersigned firm understands that any subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien, and the contractor understands it shall maintain any such affidavits for the duration of the contract, and the contract with the subcontractor must be immediately terminated if the City has a good faith belief that the subcontractor knowingly violated Section 448.09 (1), *Florida Statutes*.

5. Undersigned firm understands that in the event the City has a good faith belief that the contractor has knowingly violated Section 448.09 (1), *Florida Statutes*, the City shall terminate the contract, and the contractor may not be awarded a public contract for a period of at least one (1) year after the date of termination. The contractor may be held liable for any additional costs incurred by the City as a result of termination of the contract.

## Drug-Free Workplace Certification Form

**City of Ormond Beach**
**Request for Proposals (RFP)**
**Agent of Record Property & Casualty Insurance**
**(RFP No. RFP 2025-46)**
**CITY OF ORMOND BEACH, FLORIDA**
**DRUG-FREE WORKPLACE CERTIFICATION**

**IDENTICAL OR "TIE" SUBMITTALS**: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals which are equal in respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violation.
3) Give each employee that engages in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5 ) calendar days after such conviction.
5) Impose sanctions on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.
6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

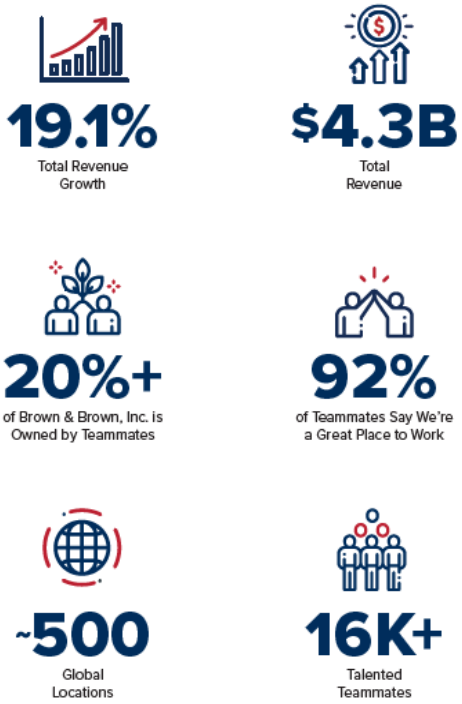
**RE: Request For Proposal #2025-46 - Agent of Record Property and Casualty Insurance**

Dear Mr. Hart,



On behalf of Brown & Brown Public Sector (d.b.a. Risk Management Associates, Inc.) we are pleased to submit our bid for the City's Agent of Record Property and Casualty Insurance solicitation. It is our intent to demonstrate our firm's willingness and ability to meet and exceed the terms requested. Our philosophy is, and always will be, to ***exceed our clients' expectations while maintaining high professional and ethical standards.***

The Brown & Brown Public Sector team – based in Volusia County - is comprised of highly specialized insurance advisors trained to deliver industry-leading brokerage services to public entities in the State of Florida. For over 80 years, we have continuously refined that specialization and enhanced our services enroute to becoming the largest public entity brokerage in Florida. Our team provides **Property & Casualty and Employee Benefits consulting, brokerage and insurance services to more than 250 Florida governments, including more than 100 Cities, Counties and School Boards.**

Brown & Brown's rich culture spans more than eight decades; from our early beginnings as a family-owned business in Daytona Beach to our current status as one of the five largest insurance brokerages in the World, a publicly traded company, and a member of the S&P500 – Brown & Brown has continued to develop and enhance not only our client services, but our teammates and carrier relationships as well. All of this has been accomplished with unwavering commitment to remain rooted right here in Volusia County, Florida. That commitment was reaffirmed with the 2021 completion of our new Daytona Beach headquarters and campus on Beach Street (pictured above).

The 86-year growth of our company has pushed our company beyond 495 offices nationwide, housing more than 16,000 teammates. In Florida, more than 50 offices and 3,000 teammates are responsible for the design, placement, and servicing of annual insurance premiums exceeding $2.6 Billion.

You will find in our response there are many compelling reasons why our company is best suited to serve the City. We are an independent and unbiased brokerage firm, not an insurance carrier. We will act as your advocate and consultant on all risk matters. Our objective is to reduce your insurance cost, reduce the City's risk exposure and optimize your risk management program. Our services and methodologies are solely focused on our clients' needs and not on improving insurance carriers' outcomes.

Our team delivers industry-leading results and administrative services. The key components of our service offering include the following:

- Risk Exposure Identification and Analysis
- Insurance Program Design, Marketing, and Placement within Budgetary Objectives
- Enterprise Risk Management Consulting
- Concierge-Level Service and Administrative Support
- Claims Advocacy – Onsite Disaster Claims Coordination and Resources
- Safety & Loss Control and Claims Mitigation Strategies
- Insured Asset Schedule Management
- Communicate Legislative Impacts, Industry Trends and Market Conditions

Our accomplishments and successes are best conveyed through our 98% retention. We highly encourage the City to reach out to all of the clients referenced in our proposal.

The person authorized to make representations for RMA (Brown & Brown Public Sector) is Mr. Matthew Montgomery. Contact information for Mr. Montgomery is as follows:

Sincerely,

Matthew Montgomery
Executive Vice President
300 N. Beach St., Daytona Beach, FL 32114
Matt.Montgomery@bbrown.com

## Request for Deviations

**Page 18 of 26, D. #1**
Our policies are not specifically endorsed to add an additional insured, therefore, we cannot provide the prior written notice of such cancellation, non-renewal or change. Brown & Brown Public Sector will endeavor to notify the City in the event of any actions noted above are taken.

**Page 19 of 26, D. #3**
Our insurance policies are considered proprietary information and cannot be provided upon request.

**Page 19 of 26, D. #4**
Brown and Brown Public Sector cannot agree to this.

**Page 19 of 26, E. #4**
Brown & Brown Public Sector can only do Additional Insured on General Liability policies, not Automobile Liability policies.

# Section 2

## Background and Experience of Firm

## Section 2 – Background and Experience of Firm

**1. Describe the firm's experience working with municipalities of similar size in the state of Florida. Provide a list of all public employee/government clients for the past three years. Provide contact information for at least three municipal clients.**

## Our Experience & Success

Our team currently controls the insurance programs for more than **100 Cities, Counties and School Boards in Florida**. We are confident in our ability to seamlessly and quickly transition the City back to the highest levels of services, consulting and results. We specialize in risks similar to the size and scope of the City of Ormond Beach and the clients below are our just some of our local public entity accounts with which we have worked with over the past three years.

- Volusia County
- Flagler County
- City of Port Orange
- Town of Ponce Inlet
- City of Daytona Beach Shores
- City of Daytona Beach
- City of New Smyrna Beach
- City of South Daytona
- City of Holly Hill
- City of Palm Coast
- Volusia County Schools
- New Smyrna Beach Utility Authority
- City of DeLand
- City of Edgewater

The clients below are our some of our additional public entity accounts throughout the State of Florida with which we have worked directly over the past three years.

- The State of Florida
- Palm Beach County
- Hillsborough County
- Lee County
- Collier County
- Brevard County
- Marion County
- City of Miami
- City of Ocala
- City of Ft. Lauderdale
- City of Sarasota
- City of Tallahassee
- City of Naples
- City of Punta Gorda
- City of Parkland
- Town of Davie
- City of Palm Bay
- City of St. Cloud
- City of Jacksonville
- Leon County Schools
- Osceola County Schools
- Collier County Schools
- Lee County Schools
- Pasco County Schools
- Pinellas Suncoast Transit Authority
- Hillsborough Area Transit

## Florida Public Entity Footprint

**Our clients, from Key West to the Florida Panhandle, purchase an excess of $250 Million in annual insurance premiums.**

**This includes large, complex Risk Management Programs such as Cities of Miami, Sarasota, Tallahassee, Jacksonville, Fort Lauderdale, Ocala, and the Counties of Palm Beach, Volusia, Flagler, Collier, and Hillsborough.**

We have proven over 7 decades of service to local governments that we are a highly organized and accountable team of insurance professionals, laser-focused on providing both world-class brokerage services and concierge-level support to our clients.

Our strong reputation was built by empowering our governmental clients to outperform their industry peers, lower total cost of risk, and enhance risk management programs - all within annual budgetary constraints. We serve those who serve the public.

Powered by a culture that values high performance and perseverance, Brown & Brown is the most efficient operating platform in the insurance brokerage business. We consistently deliver high-quality solutions and services to a broad array of customers. Our culture is built on integrity, innovation, superior capabilities, and discipline. We view insurance differently and use our experience, carrier relationships, and principled customer focus to deliver first-class service and solutions.

"Our institutional knowledge of Florida public entities is a clear advantage for Brown & Brown Public Sector. We understand the intricacies of the industry & marketplace and will implement short-term, attainable goals that will complement the long-term objectives of the City."

## City of Sarasota

### Total Insured Property $256M – 950 employees

John Powers, Risk Manager
Email: John.Powers@sarasotafl.gov | Phone: (941) 263-6339

Brown & Brown Public Sector was awarded the City's Agent of Record in a statewide Request for Qualifications process in 2009, 2014, 2019, and 2024. We manage all property, casualty, and workers' compensation insurance programs. Since becoming the City's Agent of Record, we have accomplished the following:

- Identified the need to put NFIP policies in place and successfully coordinated the placement of 9 NFIP policies. By doing so the City obtained an additional $3,500,000 of flood coverage.
- In 2021 we performed a comprehensive analysis of the City's liability risk retention and transfer program resulting in a more cost-effective strategy for risk financing.
- Brown & Brown Public Sector improved the insurance requirements and indemnification language for all City contracts by drafting standardized insurance requirements and procedures for all departments to follow. The review and improvement of contract language is a continuous process, and changes are made regularly.
- In the most recent property insurance renewal (April 2024) we presented alternative risk financing options. The Van Wezel Theater has been the City's main driver in the CAT model year over year. This risk was perceived by underwriters as unfavorable due to the location and construction type. We performed modelling with and without this building as well as provided the City with multiple options to assist with lowering the City's total cost of risk.
- These efforts provided the City with a 12% premium savings on the 2024 property renewal.
- After the 2024 Hurricanes, our team provided disaster recovery consultation and coordinated field adjusting to ensure a seamless process with repairs and FEMA public assistance.

# City of Jacksonville

## Total Insured Property $3.2B – 10,000 employees

Tracy Flynn, Chief of Risk Management
Email: tflynn@coj.net | Phone: (904) 255-5310

Brown & Brown Public Sector was awarded Broker of Record in 2018 as a result of a statewide RFQ process. We currently manage all the property, casualty, excess liability, and excess workers compensation insurance programs. Accomplishments and improvements include:

- Renewed 8 general liability and two excess workers compensation policies with mostly flat rates and provided significant coverage improvements.
- Provided rate stabilization with several multi-year policy options.
- Cyber Security & Privacy - Secured, placed and service this additional line of coverage.
- Special Event - Secured, placed and service this additional line of coverage to provide effective risk transfer from the self-insured fund.
- Marine – Through an RFP process successfully secured and placed coverage for the City's marine exposures. This currently includes the various department's watercraft, wharfinger liability and excess.
- Special Excess Medical Professional Liability - Through an RFP process, secured and placed $10M limit policy for detention centers and jails.
- In each of the above cases, we were able to achieve premium reductions and broader coverage terms and conditions.

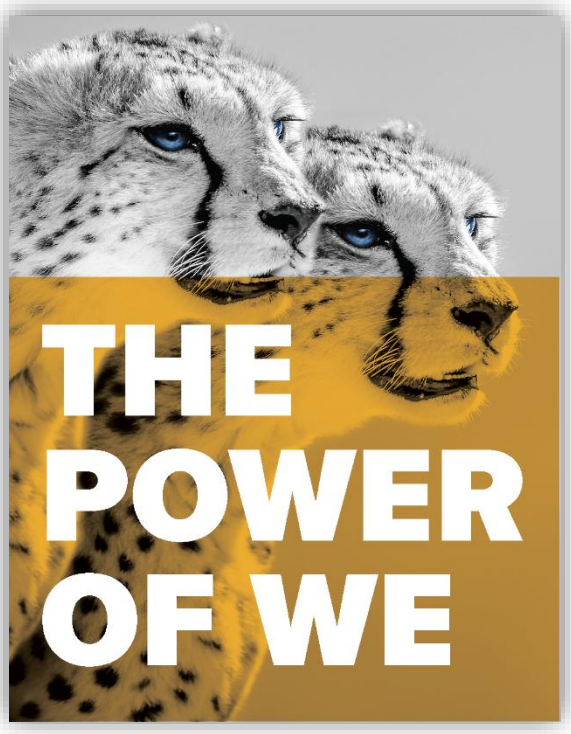
Our achievements and immediate successful results for the City lead to Brown & Brown Public Sector being chosen as the City's Broker of Record for Property through a separate RFP process in 2019. Notable achievements include:

- Implementation of a formal Property and Fine Arts Insurance to Value Appraisal conducted by third parties. The Brown & Brown Public Sector team performed a full review and comparison of the existing property and fine arts exposures, then produced an updated statement of values for the 2020 renewal. This necessary review resulted in discovery of unscheduled items, removal of duplications and demolished buildings and ultimately lead to a 12.8% increase in values.
- Full property market solicitation, which includes coordination with the City's Risk Management team attending meetings with the individual existing and prospective insurance company underwriters. Domestic meetings with over 20 interested markets occurred in Atlanta and formal presentations were made to the London marketplace in December. This ultimately drove a very successful renewal given the current state of the marketplace.

# City of Fort Lauderdale

## Total Insured Property $593M – 3,000 Employees

Guy Hine, Risk Manager
Email: GHine@fortlauderdale.gov | Phone: (954) 828-5494



Brown & Brown Public Sector was awarded the City's Agent of Record in a statewide Request for Qualifications process in 2009, 2013, 2017 and in 2021. We manage all property, casualty, and workers' compensation insurance programs. Since becoming the City's Agent of Record, we have accomplished the following:

- In April 2010, we reduced the total property premium by $167,288 (8%) while also increasing the overall property insurance limit from $100M to $150M. This was achieved by utilizing a specialty insurance market relationship.
- Identified the need to put NFIP policies in place and successfully coordinated the placement of 71 NFIP policies. By doing so the City obtained an additional $40,921,000 of flood coverage.
- Provided an accurate wind and flood model which resulted in putting the City in a much better position to negotiate favorable terms with property insurance carriers.
- Provided significant improvement to the property schedule by providing secondary building characteristics and thereby improving wind model output and accuracy.
- We provided a comprehensive wind and flood model report that disclosed the top 9 locations where the potential for wind loss was the greatest. The model also included flood zones and most importantly, proximity to flood zones.
- Brown & Brown Public Sector improved the insurance requirements and indemnification language for all City contracts by drafting standardized insurance requirements and procedures for all departments to follow. The review and improvement of contract language is a continuous process, and changes are made regularly.
- In the 2023 property insurance renewal (February 2023) we were able to negotiate a very low rate increase of only 12.3%. This compares very favorably with other risks that were experiencing 40% and higher rate increase.
- We also exceeded expectations in the 2024 renewal with a 20% increase in rate despite a $10M flood loss in April 2023. This renewal also resulted in improved coverage terms.
- As we finish wrapping up the 2025 Property renewal, we were able to secure another rate decrease, lowered named storm deductibles, and improved terms.

**2. Provide resumes for the firm owners, key management personnel, and dedicated account team including account executive, client representatives, and any other administrative support personnel interacting with the City.**

## Our Team Experience

Brown & Brown Public Sector is a team of passionate, motivated, and hard-working insurance industry leaders who are extremely excited and ready to work with the City on a partnership focused on long-term goals and improvements to the current program with an injection of expertise, energy, and fresh ideas. Our company believes in The Power of WE – we are a team, and we are better together.

Our entire team of insurance professionals is cross-trained and educated on all accounts, which provides continuity and exceptional service standards. Our proactive approach includes establishing a calendar of events with our clients which maintains the insurance program in real-time and assures that we are aware of and available for important meetings, events, and deadlines including communication expectations and reporting requirements. It is our service model to immediately identify and document client expectations and to meet those needs on a daily and ongoing basis.

Part of the Brown & Brown culture is our endless pursuit of learning. All teammates within Brown & Brown are required to maintain the required national, state, and local licensures. All teammates also are mandated to complete annual training programs and other focused education requirements. 2023 required courses include cyber risk management, ethics, compliance, HIPAA, and licensure requirement review. These requirements ensure higher knowledge and consistency between our professionals and therefore also in the of quality service for our clients.

Brown & Brown University (BBU) has been developed over the past 10 years to provide in-house education to ensure teammates receive technical training, advanced learning, market navigation, leadership skills, product and presentation innovations, and best practices within our culture.

Increasing our knowledge of the insurance industry helps us to stay focused on our core operations and enhances the company's ability to sell and service insurance. In addition to obtaining and maintaining the proper state licenses, teammates and leaders are encouraged to pursue insurance related designations. The educational programs that encompass these designations serve two important purposes. First, the coursework provides insurance professionals with an in-depth

understanding of industry practices. Second, having achieved these designations illustrates an insurance professional's expertise in their field to prospective clients.
Brown & Brown has partnered with some of the organizations that offer continuing education and designation programs for the insurance industry including The Institutes, The National Alliance for Insurance Education, The National Association of Benefits and Insurance Professionals, The National Underwriter Company, and The American College. These partnerships give teammates discounts on their education costs. In addition, we reimburse employees for all their education costs.

Our team's collective experience exceeds **300 years**, and all teammates are encouraged to continue their pursuit of knowledge by continuing educational endeavors. As a result, most teammates hold professional insurance/risk designations, including:

- Bachelor of Science – Risk Management/Insurance
- AIDA – Associate in Insurance Data Analytics
- ARM-P – Associate in Risk Management for Public Entities
- RMPE – Completion of Risk Management for Public Entities
- CIC – Certified Insurance Counselor
- CISR – Certified Insurance Service Representative
- CPCU – Chartered Property Casualty Underwriter
- CRIS – Construction Risk and Insurance Specialist
- CRM – Certified Risk Manager
- GBA – Group Benefits Associate
- GBDS – Group Benefits Disability Specialist
- GWPC -Certified Wellness Program Coordinator
- VBS – Voluntary Benefits Specialist
- CEBS – Certified Employee Benefits Specialist

*Fortune* Best Workplaces for Millennials™ 2024

Detailed resumes including years of industry experience and insurance designations can be found on the following pages.

## Brown & Brown Leadership

### J. Hyatt Brown CPCU, CLU – Chairman of the Board

Mr. Hyatt Brown was our Chief Executive Officer from 1993 to 2009 and our President from 1993 to December 2002 and served as President and Chief Executive Officer of our predecessor corporation from 1961 to 1993. He was a member of the Florida House of Representatives from 1972 to 1980 and Speaker of the House from 1978 to 1980. Mr. Brown served on the Board of Directors of International Speedway Corporation, a publicly held company, until 2019, and he previously served on the Board of Directors of Verisk Analytics, Inc. (formerly Insurance Services Office). Mr. Brown is a member of the Board of Trustees of Stetson University, of which he is a past Chairman, and the Florida Council of 100.

### J. Powell Brown, CPCU – Chief Executive Officer

Mr. Powell Brown was named Chief Executive Officer in July 2009. He has been our President since January 2007 and was appointed to be a director in October 2007. Prior to 2007, he served as one of our Regional Executive Vice Presidents starting in 2002. Mr. Brown was previously responsible for overseeing certain or all parts of our segments and worked in various capacities throughout the Company since joining us in 1995. Powell serves on the board of Camp Boggy Creek, a non-profit camp for chronically ill children. He is a member of the board of trustees of The Institutes and serves as secretary of The Council board (formerly CIAB). He is also on The Juilliard School Board of Trustees.

### P. Barrett Brown – President of Retail Segment

As president of the Retail segment, Barrett Brown is responsible for leading Brown & Brown's growing number of retail offices across the country and in select global markets. He also oversees Brown & Brown University, the company's technical sales, service and leadership training program that provides vital training for Brown & Brown teammates throughout the organization. Barrett began his insurance career in the commercial account department at Chubb Group of Insurance Companies in 1996 before transitioning to Brown & Brown in 1999.

Barrett's emphasis has been on revamping marketing infrastructure and improving business development efforts for the Retail segment. He has a disciplined focus on doing what is best for our customers and is driven to deliver agile solutions and improved customer experiences today and into the future. Barrett believes that teammates are the lifeblood of our business. He remains true to the Brown & Brown vision of being in the people recruiting and enhancing business, which includes finding talent, mentoring and aligning teammates across the business and giving them the opportunity to grow and succeed within the organization. He resides in Georgia with his wife and two children. Barrett is a graduate of the University of Florida.

## Steve Farmer, Executive Vice President

Steve Farmer is responsible for Brown & Brown's Daytona Beach office including sales, service, and operations. Steve has over 25 years of insurance industry experience with Brown & Brown and has worked with many public entities over his career. Steve will serve as a resource in expediting the resolution of any critical matters with top management at the insurance companies on behalf of our customers and their employees.

## Matt Montgomery, Executive Vice President

Matt Montgomery leads the Brown & Brown Public Sector team with almost 20 years of experience in Federal and State Government and more than a decade representing Florida Local Government Property, Casualty and Employee Benefits Programs. Matt is particularly adept at aiding clients with presentations to executive staff and elected officials in order to achieve programmatic objectives around budget, plan administration, long term vision, and industry trends. As part of his duties as Sales Leader, Matt not only drives strategic sales initiatives but also mentors and develops his sales team, equipping them with the knowledge and skills needed to deliver outstanding benefit solutions. Mr. Montgomery earned his bachelor's degree in philosophy from Florida State University. He holds his Florida 2-15 Life, Health and Variable Annuities as well as 2-20 General Lines Agents license.
