- 7) Public structures/parks shall be integrated on both sides of I-95. The need for approximately 45-acres of additional park land will be needed on the west side of I-95. There is approximately 20-acres needed on the east side of I-95. The City working with the property owner will either purchase or extend impact fees in lieu of credit for some portions of these lands. Additionally, the Volusia County School Board will be required to review and approve the Planned Development to ensure that there are adequate facilities being provided to address the intensification of the residential uses. There are opportunities within the town centers of the project to incorporate recreational, social and educational facilities;
- 8) The Developer shall deed an elementary school site to the Volusia County School Board, using a deed form acceptable to the City and the School Board, the Developer shall deed this land to the School Board prior to the City issuing building permits for residential development within the Ormond Crossing project. The school site shall contain a minimum of 20 contiguous, reasonably compact useable, upland acres and shall be located proximate to the residential land uses within the Ormond Crossings project. The Developer working with the School Board and the City shall provide for interconnected bicycle and pedestrian trails systems that provide direct access from the residential areas of the project;
- 9) Archeological Resources shall be protected by requiring that all development be consistent with currently adopted standards within the City of Ormond Beach Land Development Code. At a minimum, construction personnel at the Ormond Crossings project shall be notified through posted advisories or other methods of the potential for artifact discoveries and to report suspected findings to the Developer. In the event of discovery of artifacts of historic, archeological or

FUTURE LAND USE ELEMENT

GOALS OBJECTIVES AND POLICIES

paleontological significance during development of Ormond Crossings, the Developer shall stop construction at the site of discovery and notify the City and the Division of Historical Resources (DHR) of the Florida Department of State. From the date of notification, development shall be suspended within a radius of 100 feet around the site of discovery for a period of 120-days to allow for evaluation of the site. The Developer shall provide proper protection of the discovery to the satisfaction of the Division of Historical Resources ~~DHR~~, Volusia County and the City;

- 10) The Developer shall provide for affordable housing to persons who are considered to be within the low- and moderate-income levels. Low and moderate income are defined as 60% of ~~AMI~~ Area Median Income to 80% of ~~AMI~~ Area Median Income. ~~AMI is Area-wide Median Income.~~ Those units set aside to meet the minimum number units as established in the Planned Development zoning shall be subject to covenants and restrictions to assure the continued affordability of the units;
- 11) Energy conservation shall require that all residential construction within the Ormond Crossings Activity Center shall utilize energy saving techniques consistent with the EnergyStar standard for new homes. Non-public and public common facilities, such as community clubhouse buildings, shall follow the elements of sustainable development standard established by appropriate organizations, such as Leadership in Energy and Environmental Design (LEED) or Florida Green Building Coalition (FGBC). Commercial and Industrial buildings are encouraged to follow these standards to the maximum extent feasible. Additionally, the development shall utilize “dark skies” measures to reduce light pollution, subject to the City’s review and approval as based on the latest standards for safety and security; and
- 12) The Developer shall deed to the City a fire station site, acceptable to the City, containing up to 3 upland acres, which shall be located within a service delivery area acceptable to the City for purposes of providing fire and emergency management services to the Project. The fire station site shall be deeded to the City free of charge, on a form acceptable to the City, and shall be free and clear of liens or encumbrances. The Developer shall convey title to the fire station site to the City within 90 days following a request from the City. The Developer is responsible for the full cost of construction of the structure and purchase of a pumper and ladder truck, as specified by the City of Ormond Beach Fire Department.

GOALS OBJECTIVES AND POLICIES

GOAL ~~2.~~ 3. LAND USE COMPATIBILITY

THE LAND USE ELEMENT SHALL, ENSURE THAT LAND USES ARE AVAILABLE IN A COMPATIBLE ARRANGEMENT MAXIMIZING EFFICIENT USE OF PUBLIC INFRASTRUCTURE WHILE MINIMIZING NEGATIVE IMPACTS UPON EACH OTHER. THE CITY SHALL ENSURE ADEQUATE MANAGEMENT OF FUTURE DEVELOPMENT THROUGH THE CONTINUED REVIEW OF EXISTING REGULATIONS AND, WHERE NECESSARY, THE GENERATION, ADOPTION AND IMPLEMENTATION OF EFFECTIVE, COMPREHENSIVE, AND EQUITABLE DEVELOPMENT STANDARDS IN ORDER TO FURTHER THE QUALITY OF NEW DEVELOPMENT.

OBJECTIVE ~~2.1.~~ 3.1. DEVELOPMENT REGULATIONS

The City's Land Development Code shall include innovative techniques to guide development of land in such a manner as not to reduce reliance upon land use type separation as the sole way of assuring compatibility of various uses. This would include increased landscaping, buffering, fencing (and walls), lighting, signage, and architectural controls.

POLICY ~~2.1.1.~~ 3.1.1.

The City shall adopt and maintain land development regulations that contain specific provisions required to implement the Comprehensive Plan and which at a minimum:

- a. Regulate the subdivision of land;
- b. Regulate the use of land and waterbodies consistent with this Plan and ensure the compatibility of adjacent land uses;
- c. Provide for open space;
- d. Protect the City's natural resources;
- e. Regulate areas subject to seasonal and periodic flooding and provide for drainage and stormwater management;
- f. Protect potable water well fields and aquifer recharge areas;
- g. Regulate signage;
- h. Ensure safe and convenient traffic flow on and off site and vehicle parking needs;
- i. Provide that development orders and permits issued shall not result in a reduction below the level of service standards adopted in the Comprehensive Plan;
- ~~j.—Provide for the transfer of development rights;~~
- ~~k.~~ j. Contain performance standards for protecting archaeological or historically significant properties or buildings;
- ~~l.~~ k. Protect against adverse impacts to wildlife and their habitats; and

FUTURE LAND USE ELEMENT

GOALS OBJECTIVES AND POLICIES

- ~~m.~~ 1. Provide architectural control regulations for commercial, multi-family and industrial buildings.

POLICY ~~2.1.2.~~ 3.1.2.

Innovative land development regulations, which may include planned developments, mixed-use land use development techniques, form-based regulations, and redevelopment plans for the Downtown Community Redevelopment Area, shall be encouraged where appropriate.

POLICY ~~2.1.3.~~ 3.1.3.

The City shall, through the site plan review process, carefully evaluate potential on-site and off-site environmental impacts and require appropriate buffers and other site design features for development in those areas defined as “Environmentally Sensitive” in Policy 45.1.1. of this Element.

POLICY ~~2.1.4.~~ 3.1.4.

The City shall maintain an on-going, informal program to research and evaluate alternative development controls including performance standards, and solicit input from other planning agencies, private developers and concerned citizens.

POLICY ~~2.1.5.~~ 3.1.5.

Where commercial and/or industrial uses abut residential areas, the City shall continue to require the provision of appropriate buffers and establish operational and development standards to reduce or eliminate any negative environmental impacts (e.g., excess noise, odor, or light intrusion) that such commercial uses may generate.

POLICY ~~2.1.6.~~ 3.1.6.

The City shall periodically review and revise its existing zoning, landscaping, and environmental control regulations to ensure their effectiveness in controlling development activities in compliance with the intent of the Future Land Use Element.

POLICY ~~2.1.7.~~ 3.1.7.

Existing zoning shall be changed as necessary to be consistent with the Future Land Use Element.

POLICY ~~2.1.8.~~ 3.1.8.

The City shall review existing strip commercial developments to improve their function, access, appearance, and other aspects that make strip commercial development undesirable, as provided by the non-conforming provisions of the Land Development Code.

GOALS OBJECTIVES AND POLICIES

POLICY ~~2.1.9.~~ 3.1.9.

Infrastructure and utility structures, such as cellular communication towers, water, sewer, and energy transmission facilities shall be designed and located to minimize adverse visual impacts on the landscape. Utilities shall locate underground to the maximum extent possible.

POLICY ~~2.2.10.~~ 3.1.10.

The City shall continually review existing zoning regulations to incorporate requirements that would help reduce the impact that a high intensive use would have on a less intensive use.

POLICY ~~2.2.11.~~ 3.1.11.

The City will encourage the elimination and ~~inconsistent~~ inconsistencies with the City's character through its Land Development Code regulations. Uses inconsistent to the Comprehensive Plan shall be brought into conformance with a change of use or when they have been vacant for six months or longer.

OBJECTIVE ~~2.2.~~ 3.2. CONCURRENCY

The City shall approve development only where it demonstrates that the impacts of such development do not degrade the established level-of-service standards for public facilities and services below acceptable levels.

POLICY ~~2.2.1.~~ 3.2.1.

Development orders and permits shall be specifically conditioned on the availability of facilities and services necessary to serve the proposed development, in accordance with the Concurrency Management System.

POLICY ~~2.2.2.~~ 3.2.2.

Future land use designations, requests for rezoning, and development approval shall be coordinated with the availability of adequate facilities and services including, but not limited to, schools, roads, solid waste collection, stormwater management, fire and police protection, emergency medical services, potable water and sanitary sewer services, parks and recreation, cultural facilities, telephone and electric service, general public administration, and evacuation facilities.

GOALS OBJECTIVES AND POLICIES

POLICY ~~2.2.3~~ 3.2.3.

Require that water supply, production facilities and Consumptive Use Permit (C.U.P.) capacity is available for new site plan and/or subdivision developments, prior to issuance of development orders.

OBJECTIVE ~~2.3.~~ 3.3. URBAN SPRAWL

The City shall manage the available supply of developable land by delineating the amount of land and by distributing the types of land uses needed to accommodate growth and development. The City shall, through intergovernmental coordination, discourage urban sprawl by directing urban development to the areas within its urban service area boundaries.

POLICY ~~2.2.1.~~ 3.3.1.

The City shall limit urban sprawl by directing urban growth to those areas where public facilities and services are available.

POLICY ~~2.2.3.~~ 3.3.2.

The City recognizes that the urban growth area must be relatively stable and shall thus resist expansion of the area unless it can be demonstrated that the supply of available land inside the urban boundary will be exhausted within a five-year period.

POLICY ~~2.2.4.~~ 3.3.3.

Future urban development requiring access or connection to public facilities shall be located within the incorporated area or within the designated urban service boundaries in the unincorporated areas established by interlocal agreement.

POLICY ~~2.2.5.~~ 3.3.4.

In order to protect natural resources, new development and redevelopment shall be encouraged to infill existing developed areas.

OBJECTIVE ~~2.4.~~ 3.4. SMART GROWTH

Future land use designations, requests for rezoning, and development approval shall be in accordance with smart growth principals to foster a sense of community including:

- Creating a range of housing opportunities;
- Creating walkable neighborhoods;
- Encouraging stakeholder collaboration;
- Fostering a sense of place;

GOALS OBJECTIVES AND POLICIES

- Promoting mixed land uses;
- Preserving open space, and agricultural and environmentally sensitive lands;
- Providing a variety of transportation choices;
- Directing development towards existing public facilities; and
- Promoting compact building design.

POLICY ~~2.4.1.~~ 3.4.1.

Encourage development projects to include homes affordable to a diversity of income ranges.

POLICY ~~2.4.2.~~ 3.4.2.

Ensure opportunities for meaningful stakeholder participation throughout all stages of planning and policy implementation.

POLICY ~~2.4.3.~~ 3.4.3.

Maintain a sense of place by preserving the character of historic districts and areas in the City with a high concentration of locally designated historic properties and cultural resources through preservation, maintenance and rehabilitation of resources to the greatest extent possible.

POLICY ~~2.4.4.~~ 3.4.4.

Maintain a sense of community through the landscaping of parks, recreation areas and medians, as well as the City's greenbelt and gateway preservation overlay district.

POLICY ~~2.4.5.~~ 3.4.5.

Encourage a mix of land uses and expand housing choices by developing areas of infill or underutilized vacant land in the downtown.

POLICY ~~2.4.6.~~ 3.4.6.

Direct future growth away from environmentally sensitive areas.

POLICY ~~2.4.7.~~ 3.4.7.

Encourage cluster development which promotes the efficient use of open space and reduces development costs, in areas where services and facilities exist or are planned.

FUTURE LAND USE ELEMENT

GOALS OBJECTIVES AND POLICIES

POLICY ~~2.4.8.~~ 3.4.8.

Expand transportation choices by ensuring an efficient network of roads, sidewalks, and bike paths that are safe for pedestrians, bicyclists and vehicular traffic.

POLICY ~~2.4.9.~~ 3.4.9.

Implement Transit-Oriented Development in accordance with the Transportation Element.

POLICY ~~2.4.10.~~ 3.4.10.

Direct development towards existing residential communities and planned growth areas already served by infrastructure, to utilize resources that existing neighborhoods offer, thereby conserving open space and natural resources on the urban fringe.

POLICY ~~2.4.11.~~ 3.4.11.

Promote shared driveway access, shared parking spaces, and coordinated site plan designs to avoid new commercial strip development.

POLICY ~~2.4.12.~~ 3.4.12.

Promote environmental protection, reduced natural resource consumption and energy management into the design and construction of buildings.

OBJECTIVE ~~2.5.~~ 3.5. COMPREHENSIVE PLAN AMENDMENTS

The City shall review proposed text and Future Land Use Map amendments based upon state requirements, Volusia County Growth Management Commission regulations, and the Goals, Objectives, and Policies of the City's Comprehensive Plan.

POLICY ~~2.5.1.~~ 3.5.1.

The intensity of use in non-residential categories shall be measured by five (5) parameters that are common to the type and character of development that generally prevails in each category. These include percentage of impervious surface or its converse, the amount of open space and landscaping; the height of buildings; the amount of traffic generation; visual impact in terms of aesthetic considerations; and external impacts in the form of odor, noise, glare, vibrations, and air pollution. The following table has been developed to measure intensity levels for non-residential uses.

FUTURE LAND USE ELEMENT

GOALS OBJECTIVES AND POLICIES

Land Use Designation	Impervious Surface	Height	Traffic Generation	Visual Impact	Glare Noise Odor	Total	Intensity Level
General Commercial	5	2	5	3	3	18	4
Heavy Commercial	5	2	4	5	5	21	6
Tourist Commercial	5	5	3	4	3	20	5
Residential/Office, Retail	4	4	4	2	1	15	2
Industrial/Utilities	3	2	3	4	4	16	3
Government/Institutional	2	2	4	1	1	10	1

POLICY ~~2.5.2.~~ 3.5.2.

The following criteria shall be used in reviewing Comprehensive Plan amendments:

1. Consistency with the Goals, Objectives, and Policies of ~~this~~ the City's Comprehensive Plan.
2. Consistency with state requirements, including ~~9J-5~~ and Florida Statute requirements.
3. If the amendment is a map amendment, is the proposed change an appropriate use of land.
4. If the amendment is a map amendment, the impacts on the Level-of-Service Standards of public infrastructure including schools, roadways, utilities, stormwater, and park and recreation facilities.
5. If the amendment is a map amendment, impacts to surrounding jurisdictions.

POLICY ~~2.5.3.~~ 3.5.3.

All Comprehensive Plan amendments shall require the advertising and notification requirements of Florida Statutes and Chapter I, Introduction, Plan Administration of this Comprehensive Plan.

OBJECTIVE ~~2.6.~~ 3.6. SUSTAINABILITY

Promote compact, mixed-use, and energy efficient development arranged to encourage pedestrians, bicycle and transit use, to reduce greenhouse gases (GHGs).

POLICY ~~2.6.1.~~ 3.6.1.

The City shall seek opportunities to implement green and sustainable initiatives regarding, but not limited to, carbon footprint reduction, water ~~and~~ conservation and reuse, recycling, waste and energy reduction, reuse of resources, greater operational efficiency, land use and transportation practices, multi-pollutant prevention, and environmental improvements.

FUTURE LAND USE ELEMENT

GOALS OBJECTIVES AND POLICIES

POLICY ~~2.6.2.~~ 3.6.2.

Develop an Energy Efficiency and Conservation Strategy and an Energy Conservation Master Plan in accordance with the Energy Efficiency and Conservation Block Grant Program to develop City GHGs greenhouse gases emissions baseline data, to set GHG greenhouse gases emission goals and develop strategies to reduce greenhouse gases.

POLICY ~~2.6.3.~~ 3.6.3.

Promote technology to change and adapt the heating, cooling, insulation, ventilation, and lighting systems of structures to achieve greater energy efficiency.

POLICY ~~2.6.4.~~ 3.6.4.

Encourage the maintenance, restoration and adaptive reuse of existing urban areas, including buildings, infrastructure and other assets, to reduce energy use and Vehicle Miles Traveled (VMTs).

POLICY ~~2.6.5.~~ 3.6.5.

Encourage integration of passive solar design, green roofs, active solar, and other renewable energy sources into development projects through the Land Development Code.

POLICY ~~2.6.6.~~ 3.6.6.

Encourage urban design strategies that maximize use of renewable, sustainable, active, and passive sources of energy design in architecture.

POLICY ~~2.6.7.~~ 3.6.7.

Encourage food production for local consumption to reduce VMTs Vehicle Miles Traveled, thereby reducing GHG greenhouse gases, by encouraging farmers markets and community gardens.

POLICY ~~2.6.8.~~ 3.6.8.

The potential for reducing Vehicle Miles Traveled (VMTs) and GHG greenhouse gases emissions shall be considered in all location and investment decisions for public facilities.

POLICY ~~2.6.9.~~ 3.6.9.

Promote the redevelopment of brownfield and greyfield sites to reduce VMTs Vehicle Miles Traveled to reduce pressures for greenfield development.

FUTURE LAND USE ELEMENT

GOALS OBJECTIVES AND POLICIES

POLICY ~~2.6.10.~~ 3.6.10.

Support technology and business practices that enable people to reduce ~~VMTs~~ Vehicle Miles Traveled from home to work, including increased flexibility for home office uses.

POLICY ~~2.6.11.~~ 3.6.11.

Provide educational materials regarding energy efficiency, sustainable design, and climate change that encourage community residents and business owners to invest in energy-efficiency improvements through community outreach efforts, such as the City's Website.

POLICY ~~2.6.12.~~ 3.6.12.

Encourage design techniques and materials that reduce heat absorption, thereby reducing the heat island effect.

POLICY ~~2.6.13.~~ 3.6.13.

The designated Transportation Concurrency Exception Areas as identified in the Transportation Element and depicted as Figures 6 through 10 in the Future Land Use Map Series, shall also be designated as the City's Energy Conservation Areas.

GOALS OBJECTIVES AND POLICIES

GOAL ~~3.4.~~ BUILDING HEIGHT

THE CITY SHALL MAINTAIN HEIGHT RESTRICTIONS TO PRESERVE THE LOW-RISE CHARACTER OF THE CITY.

OBJECTIVE ~~3.1.~~ 4.1. HEIGHT LIMITS

Height limits shall be maintained consistent with the voter approved charter amendments.

POLICY ~~3.1.1.~~ 4.1.1.

In order to maintain consistency with the 2006 City Charter amendment, there shall be a limitation such that all buildings within the corporate limits of the City of Ormond Beach will not exceed a maximum height of 75' as per the approved 2006 charter amendment.

POLICY ~~3.1.2.~~ 4.1.2.

Any multi-family or nonresidential building taller than seventy-five (75) feet that existed on November 14, 2006, or (ii) the only development order that received final development approval before November 14, 2006, for the construction of a multi-family building over seventy-five (75) feet in height, so long as the development order has not lapsed, expired or been terminated. Any such building may be maintained, repaired, constructed and reconstructed to the same height and within the same building footprint as it existed on November 14, 2006, and in accordance with any applicable development order then in effect, subject to any other applicable federal, state and local laws.

GOALS OBJECTIVES AND POLICIES

GOAL 4. 5. PROTECTION OF NATURAL AND HISTORIC RESOURCES

THE CITY SHALL ENSURE THAT PLANNING AND DEVELOPMENT POLICIES MANAGE, CONSERVE, AND PROTECT THE NATURAL, SCENIC AND HISTORIC RESOURCES AND ENVIRONMENTAL QUALITY OF THE CITY.

OBJECTIVE ~~4.1.~~ 5.1. DEVELOPMENT IN “ENVIRONMENTALLY SENSITIVE” AREAS

The City shall monitor and review any development that occurs or is proposed to occur in or adjacent to "Environmentally Sensitive" areas to ensure that new development and site management practices are compatible with the ecological function of these areas.

POLICY ~~4.1.1.~~ 5.1.1.

Environmentally sensitive land shall be designated as follows:

1. All areas of the City shown as “Open Space/Conservation” on the Future Land Use Map.
2. All areas proposed for acquisition for conservation (~~e.g.~~included but not limited to, Conservation and Recreational Lands, Land and Water Conservation Fund, Volusia County Land Acquisition Trust Fund proposal sites).
3. Halifax River and adjacent lands, including wetlands and vegetative buffers.
4. Tomoka River and adjacent lands, including wetlands and vegetative buffers.
5. Intact sand dunes and beach.
6. All creeks or streams, adjacent lands including wetlands and vegetative buffers (e.g., Thompson’s, Strickland, Groover, Priest, and Dodson’s Creeks; Misner’s Branch and the Little Tomoka River).
7. All floodways and flood prone areas.
8. Critical habitat areas for designated flora, fauna, and marine species.
9. Primary aquifer recharge areas.
10. Wellfield protection zones of influence associated with municipal wellfields.
11. Areas subject to erosion.
12. Tomoka Marsh Aquatic Preserve and the Tomoka River Manatee Sanctuary.

FUTURE LAND USE ELEMENT

GOALS OBJECTIVES AND POLICIES

POLICY ~~4.1.2.~~ 5.1.2.

The City shall continue planning efforts to more specifically define “Environmentally Sensitive” areas and assist developers in minimizing environmental impacts through location and design measures.

POLICY ~~4.1.3.~~ 5.1.3.

The City shall establish regulations and standards to protect wellfields and their wellfield protection zones of influence, when determined by the St. Johns River Water Management District, from negative impacts.

POLICY ~~4.1.4.~~ 5.1.4.

Any activity proposed in or adjacent to environmentally sensitive lands shall be consistent with the requirements of the appropriate policies of the Comprehensive Plan and City ordinance and any adopted management plans.

POLICY ~~4.1.5.~~ 5.1.5.

The City shall refer, as appropriate, development proposals in or adjacent to environmentally sensitive areas to the respective Federal, State and regional agencies for their review and comment.

POLICY ~~4.1.6.~~ 5.1.6.

The City shall, in conjunction with the Department of Environmental Protection, maintain and review its environmental protection regulations as necessary to protect environmentally sensitive lands within the Tomoka Marsh Aquatic Preserve and shall continue to review development activity to ensure general consistency with the Tomoka Marsh Aquatic Preserve Management Plan.

POLICY ~~4.1.7.~~ 5.1.7.

Dredge ~~spoil~~material management sites are a public use required for the safe and efficient operation of the Intracoastal Waterway. It is the legislative mandate of the Florida Inland Navigation District (FIND) to provide all lands necessary for the construction, operation and maintenance of the Atlantic Intracoastal Waterway in Florida. Site selection for ~~spoil~~dredge material management sites are performed by ~~FIND~~ the Florida Inland Navigation District in conformance with their legislative mandate. Site inventories as part of ~~FIND'S~~ the Florida Inland Navigation District's annual public facilities report shall be submitted to the City ~~annually starting with the 1998 annual report as directed by Section 189.08, Florida Statutes.~~

FUTURE LAND USE ELEMENT

GOALS OBJECTIVES AND POLICIES

~~POLICY 4.1.8.~~ 5.1.8.

The City shall be notified by the Florida Department of Environmental Protection when ~~FIND~~ the Florida Inland Navigation District submits a permit for a new or modified ~~dredge~~ spoil-site Dredged Material Management Area. The City Commission may submit comments to the Florida Department of Environmental Protection regarding the consistency/inconsistency of the permit application with the City's Comprehensive Plan compatible with the provisions of Chapter 403.973(24)(a), Florida Statutes.

~~POLICY 4.1.9.~~ 5.1.9.

~~No new spoil islands shall be developed except when showing that their development is in the public interest and a hardship would result if the development is not authorized consistent with Rule 18.012, Florida Administrative Code.~~ The City will continue to work with the Florida Inland Navigation District and the U.S. Army Corps of Engineers to maintain the Intracoastal Waterway for the benefit of its citizens and visitors and seek opportunities for the beneficial re-use of dredge material.

~~POLICY 4.1.10.~~

~~Proposals for the public development of spoil islands within the City of Ormond Beach should receive public comments through a public hearing conducted within the City limits of Ormond Beach, consistent with Rule 18.012, Florida Administrative Code.~~

~~POLICY 4.1.11.~~

~~Unauthorized structures that have been constructed on spoil islands shall be removed in a manner consistent with Rule 18.21.012, Florida Administrative Code.~~

~~POLICY 4.1.12.~~ 5.1.10.

The City of Ormond Beach adopts and incorporates the Ormond Scenic Loop & Trail vision statement and map series in the Future Land Use Element as included in the adopted Ormond Scenic Loop & Trail Corridor Management Plan.

OBJECTIVE ~~4.2.5.2.~~ 5.2. FLOOD CONTROL AND STORMWATER RUNOFF

Through the provisions of the Land Development Code, the City shall manage development to minimize flood damage and runoff from development to lessen the potential degradation of the City's surface water bodies, as per the intent of the Conservation, Coastal Management and Utilities Elements of the City's Comprehensive Plan.

GOALS OBJECTIVES AND POLICIES

POLICY 4.2.1.5.2.1.

The City shall review all development plans to ensure that development is consistent with the City's ~~Flood Damage Control~~ Floodplain Management and Protection, Surface Water Runoff Control, and Wetlands Protection provisions in the Land Development Code and the Comprehensive Plan, and that all practical and feasible measures have been incorporated to minimize flood damage potential.

POLICY 4.2.2.5.2.2.

The City shall use detailed area-wide drainage plans to reduce flooding potential and minimize direct discharge of stormwater runoff into surface waterbodies. The City shall cooperate with Volusia County and adjoining communities in this effort.

POLICY 4.2.3.5.2.3.

Wherever feasible, the viability of natural drainage systems shall be maintained to prevent potential flooding problems and costly structural water control measures.

POLICY 4.2.4.5.2.4.

On an ongoing basis, the City shall update its mapping of flood prone areas to include an inventory of existing land uses, structures susceptible to damage and flooding, and an inventory of flood water conveyance structures and features. The update shall be incorporated into the Comprehensive Plan Update and shall further inventory and analyze future land uses proposed for flood prone areas to determine the suitability of such uses.

OBJECTIVE 4.3.5.3. PRESERVATION OF NATURAL FLORA AND FAUNA

The City shall encourage developers to incorporate, to the extent feasible, retention of natural vegetation in project design and ensure that significant aesthetic and natural features are not destroyed.

POLICY 4.3.1.5.3.1.

All new developments shall be reviewed for potential adverse environmental impacts.

POLICY 4.3.2.5.3.2.

The City shall maintain on-going programs that identify and preserve unique aesthetic and natural features.

GOALS OBJECTIVES AND POLICIES

POLICY ~~4.3.3.5.3.3.~~

The City shall, in cooperation with Volusia County, monitor and analyze surface water quality in the Tomoka River and Halifax River. The City shall take remedial action and adopt new regulations, as appropriate to maintain or improve its quality.

OBJECTIVE ~~4.4.5.4.~~ COORDINATION WITH NATURAL RESOURCES

The density and intensity of future land uses and any proposed development activity shall be coordinated with the natural conditions of the area, including topography, drainage, and soil conditions in order to maintain and protect vital natural functions and environmentally sensitive areas.

POLICY ~~4.4.1.5.4.1.~~

Review land use change and development approval requests for potential impact on natural conditions and for consistency with the environmental protection requirements of the Surface Water Runoff Control, Wetlands Protection, and Floodplain Management and Protection ~~Damage Control~~ Ordinances and with the Utilities, Coastal Management and Conservation Elements of the Comprehensive Plan.

POLICY ~~4.4.2.5.4.2.~~

Encourage the use of cluster development or innovative design measures to ensure the protection of natural resources.

POLICY ~~4.4.3.5.4.3.~~

The City shall update its Land Development Code, as necessary, to maintain specific and detailed provisions which regulate the use of land and water bodies consistent with the Comprehensive Plan and to ensure the compatibility of such uses with the natural resources of the community.

POLICY ~~4.4.4.5.4.4.~~

The location, development, and significance of topography, vegetation, wildlife habitat, flood hazard, the 100-year flood area, and soils for a particular site will be determined during the development review process from information required to be submitted to the City, in accordance with the criteria of Environmental Assessment Reports and that criteria of the relative ordinances for tree protection, wetlands protection, stormwater management, and flood damage control floodplain management and protection. This shall include recordation of Federal Emergency Management Administration (FEMA) flood zone designations on site plans and plats.

GOALS OBJECTIVES AND POLICIES

OBJECTIVE 4.5.5.5. SIGNIFICANT HISTORICAL, ARCHITECTURAL, ARCHAEOLOGICAL AND PALEONTOLOGICAL RESOURCES

The City shall continue to maintain land development regulations that identify, designate, and protect historical resources.

POLICY 4.5.1.5.5.1.

The City shall maintain the ~~Local~~ Ormond Beach Historic Landmark List and continue to identify and designate historically significant sites and buildings.

POLICY 4.5.2.5.5.2.

The City shall continue to implement the historic preservation ordinance that protects historic landmarks from alteration or demolition, and apply it to historical, architectural, archaeological, and paleontological resources in accordance with the Cultural and Historical Resources Element.

OBJECTIVE 4.6.5.6. ENVIRONMENTAL CORE OVERLAY

To support the protection and enhancement of environmentally sensitive corridors, wildlife habitat, connected wetlands, and natural hydrologic functions throughout Volusia County and the City of Ormond Beach.

POLICY 4.6.1.5.6.1.

To support the protection and enhancement of environmentally sensitive corridors, wildlife habitat, connected wetlands, and natural hydrologic functions throughout Volusia County and the City of Ormond Beach, the city adopts the Environmental Core Overlay or “ECO” Map as a ~~component~~ Figure 13 of the Future Land Use Map series.

POLICY 4.6.2.5.6.2.

The City supports the adopted smart growth goals, objectives and policies of the ~~Volusia~~ County’s Comprehensive Plan and will actively participate with Volusia County and local jurisdictions in the further development of policies that serve to manage future development that occurs within developable tracts of the adopted ~~ECO~~ Environmental Core Overlay Map.

POLICY 4.6.3.5.6.3.

Where land is partially or fully within ~~ECO~~ the Environmental Core Overlay, proposed development activities shall be encouraged to utilize innovative and flexible land development and planning techniques ~~such as transfer of development rights~~.

GOALS OBJECTIVES AND POLICIES

GOAL 5.6. ANNEXATION

THE CITY PROVIDES UTILITY SERVICE BEYOND IT'S MUNICIPAL LIMITS AND SHALL REQUIRE THAT ANY CONNECTION TO THE CITY UTILITY SYSTEM EITHER ANNEX INTO THE CITY OR ENTER INTO AN ANNEXATION AGREEMENT IF NOT CONTIGUOUS FOR UTILITY SERVICE.

OBJECTIVE 5.1.6.1. ANNEXATION

Newly annexed areas and new development shall not impose additional tax burdens on City residents or adversely impact City managed natural resources, public facilities and services, including potable water, sanitary sewer, drainage, solid waste, parks and recreation, and cultural facilities. Future land uses shall be located consistent with the provision of public facilities and services.

POLICY 5.1.1.6.1.1.

Properties that are annexed into the City of Ormond Beach shall be assigned a similar land use that existed in Volusia County. Property owners may apply for more intensive land uses, but shall be required to provide the data and analysis to justify the increase in density and/or intensity.

POLICY 5.1.2.6.1.2.

The cost of off-site water and sewer trunk lines shall be borne by the Developer with reimbursements limited to the amount specifically provided for in the impact-connection fee structure for such areas.

POLICY 5.1.3.6.1.3.

Impact-Connection fee districts shall be established with the impact-connection fee rate structure reflective of the availability or non-availability of a trunk line system. The plant impact-connection fee shall be paid on the same basis as the remainder of the City, even where development is converted from on-site to City systems.

POLICY 5.1.4.6.1.4.

Water and/or sewer service ("city utilities") may be provided to property or areas outside of the city's municipal boundaries that are considered suitable for annexation, as follows:

1. For property that is contiguous to the city's municipal boundaries and that meets other legal requirements for annexation, the property owner must annex the property prior to or concurrent with connection to the city's utilities.
2. Except as otherwise provided in paragraph 6 of this policy, the property owner executes and records an agreement to annex at the time the property is contiguous to the city's municipal boundaries and meets all other legal requirements for annexation.

FUTURE LAND USE ELEMENT

GOALS OBJECTIVES AND POLICIES

3. If connection to city utilities is necessary to develop the property, the proposed development is found to be generally consistent with the goals and policies of the SLDR Suburban Low Density land use category district or other appropriate land use designation.
4. The proposed development is contiguous to a water and/or sewer service area.
5. As otherwise provided by an interlocal agreement between the city and a governmental entity.
6. As otherwise provided for properties in a utility service area established by the city commission; such utility service areas include at the present time but are not necessarily limited to the following:
 - a) North Peninsula Water District (Ormond-By-The-Sea) established in 1979 by Ordinance 79-45 (Article 1, Division 3, Chapter 22, Code of Ordinances). Neither annexation nor an annexation agreement shall be required for connection to city utilities; and for properties with existing annexation agreements, annexation shall not be compelled without the consent of the property owner at the time of annexation.
 - b) West Ormond Utilities District established in 1989 by Ordinance 89-43 (Article VI, Chapter 22, Code of Ordinances). Annexation or an annexation agreement shall be required as conditions to connect to city utilities.
 - c) North U.S. Highway 1 Interlocal Planning and Municipal Service Area established in 2014 by Ordinance 2014-27 recorded on August 28, 2014, at Book 7026, Pages 878 through 895, of the Public Records of Volusia County, Florida. (Article VII, Chapter 2, Land Development Code). The Interlocal Service Boundary Agreement was amended effective and recorded on October 11, 2019, at Book 7758, Pages 4680 through 4683, of the Public Records of Volusia County, Florida for the first amendment related to the Plantation Oaks project. The Interlocal Service Boundary Agreement was amended effective and recorded on March 30, 2022, at Book 8228, Pages 1974 through 1978, of the Public Records of Volusia County, Florida for the second amendment related to the RidgeHaven project. The Interlocal Service Boundary Agreement was renewed by Ormond Beach and Volusia County until August 28, 2034 effective and recorded on August 28, 2024, at Book 8601, Pages 1751 through 1782, of the Public Records of Volusia County. Annexation or an annexation agreement shall be required as conditions to connect to city utilities within the North U.S. Highway 1 Interlocal Planning and Municipal Service Area.
 - d) Hunter's Ridge-Flagler County ~~DRI~~ Development of Regional Impact Service Area established in 2016 by Ordinance 2016-25 (Article IV, Chapter 22, Code of Ordinances). The properties in this service area are situated in Flagler County; therefore, the city's utility connection policy that would otherwise require a property owner to annex or to execute an annexation agreement shall not apply.

GOALS OBJECTIVES AND POLICIES

- e) As may be provided in other utility service areas that are established after the adoption of this policy.
- 7. Except as otherwise provided in this policy, connection to city utilities shall be deemed to be consent to annexation.

POLICY ~~5.1.5~~.6.1.5.

Proposed developments in annexed areas that are not located in close proximity to water and sewer infrastructure may be allowed to provide interim on-site water and sewer infrastructure, provided that all necessary State permits are secured; the development is dry-lined and all related infrastructure is in place to ensure future connection to the City system when available. To facilitate connection, ~~impact~~-connection fees shall be prepaid, bonded for, or otherwise guaranteed in a manner acceptable to the City.

POLICY ~~5.1.6~~.6.1.6.

New development shall be encouraged to provide on-site amenities commensurate with their projected populations including common open space, recreation facilities including game courts, swimming pools, community centers, and tot-lots.

POLICY ~~5.1.7~~.6.1.7.

The City shall cooperate with ~~the~~-Volusia County in establishing urban service areas as appropriate for police, fire, recreation, cultural and other activities and centers so that appropriate ~~impact~~-connection fees can be paid or bonded for development in the unincorporated area that may be annexed to the City, or such funds transferred to the City where the impact fee had previously been collected by Volusia County.

POLICY ~~5.1.8~~.6.1.8.

The City shall not reject annexation requests of strip commercial uses based solely on their design or functionality.

POLICY ~~5.1.9~~.6.1.9.

All new development proposing the use of interim package plants shall occur in an orderly and economical manner, with those areas having the greatest combined complement of urban public facilities and services receiving development first. New land areas will be staged for urbanization in a contiguous manner that minimizes additional public investments.

GOALS OBJECTIVES AND POLICIES

GOAL ~~6.7.~~ PLANNING PROCESS

CONTINUE TO IMPLEMENT A PERMANENT AND EFFECTIVE LOCAL LAND USE PLANNING PROCESS, BASED ON SOUND PROFESSIONAL PLANNING PRINCIPLES AND THE DESIRES OF THE CITIZENRY TO GUIDE THE FUTURE DEVELOPMENT OF THE CITY TO ENSURE THE HIGHEST QUALITY OF LIFE POSSIBLE FOR ALL EXISTING AND FUTURE RESIDENTS.

OBJECTIVE ~~6.1.7.1.~~ PUBLIC PARTICIPATION

The City should continue to provide adequate opportunity for citizen initiative and participation in the planning process. This shall include notification procedures appropriate to the planning issue.

POLICY ~~6.1.1.7.1.1.~~

The City, through the City Commission, the Planning Department, and advisory boards, shall continue to solicit public input and involvement in all areas of planning.

POLICY ~~6.1.2.7.1.2.~~

The City Commission and the Planning Department shall continue and, where necessary, improve and initiate measures to increase citizen awareness concerning planning issues.

OBJECTIVE ~~6.2.7.2.~~ COORDINATION OF POPULATION WITH HURRICANE EVACUATION PLANS

New development and coastal area population densities shall be coordinated with the local peacetime emergency management plan and any other interagency hurricane evacuation plans.

POLICY ~~6.2.1.7.2.1.~~

New development shall be managed so that public facility and service needs required to meet adopted hurricane evacuation times and needs as are maintained at the adequate level-of-service.

POLICY ~~6.2.2.7.2.2.~~

All requests for rezoning and land uses changes shall be considered in coordination with the criteria of the City's Coastal Management Element and the Volusia County Comprehensive Emergency Management Plan.

GOALS OBJECTIVES AND POLICIES

GOAL 7.8. DOWNTOWN COMMUNITY REDEVELOPMENT AREA

THE DOWNTOWN MASTER PLAN UPDATE WAS ADOPTED BY THE CITY COMMISSION ON ~~SEPTEMBER 18, 2007~~ OCTOBER 1, 2019. COVERING THE AREA BETWEEN ORCHARD STREET AND THE OCEAN AND BETWEEN LINCOLN AND TOMOKA AVENUES, THE PLAN REPRESENTS THE CITIZENS' VISION FOR REDEVELOPMENT AND GROWTH. THE VISION ENCOMPASSES THE FOLLOWING THEMES.

- ECONOMIC DEVELOPMENT – FOSTER A SUCCESSFUL AND ATTRACTIVE PEDESTRIAN ORIENTED DOWNTOWN RETAILING PLACE;
- SENSE OF PLACE & APPEARANCE – PROMOTE A SENSE OF PLACE AND PHYSICAL PRESENCE;
- ARTS & CULTURE – ENHANCE “COMMUNITY” UTILIZING THE ARTS AND DOWNTOWN’S CULTURAL ASSETS;
- ~~MAXIMIZE THE WATERFRONT AS AN ASSET FOR REDEVELOPMENT;~~
- TRANSPORTATION & CIRCULATION – RECLAIM GRANADA BOULEVARD AS A SHARED PUBLIC REALM;
- RESIDENTIAL NEIGHBORHOODS – PRESERVE AND ENHANCE RESIDENTIAL NEIGHBORHOODS;
- STANDARDS & REGULATIONS – CREATE A SUPPORTIVE REGULATORY ENVIRONMENT AND GOVERNMENTAL STRUCTURE THAT ENABLES POSITIVE REINVESTMENT; AND
- ~~HAVE A BIAS FOR ACTION.~~ENSURING THE VISION – COMMIT TO A STRATEGY OF ACTION ORGANIZED AROUND PROJECTS AND CHAMPIONS TO GET RESULTS.
- RECREATION & OPEN SPACE – MAXIMIZE THE USE OF AVAILABLE OPEN SPACE FOR COMMUNITY ENJOYMENT; AND
- ENVIRONMENTAL SUSTAINABILITY – FOSTER AN ENVIRONMENTALLY CONSCIOUS COMMUNITY;

THE PLAN ADDRESSES A WIDE RANGE OF ISSUES INCLUDING INFILL DEVELOPMENT, RECREATION, LAND DEVELOPMENT REGULATIONS, PUBLIC ART, STREETScape IMPROVEMENTS, AND PUBLIC PARKING. FUTURE DEVELOPMENT, REDEVELOPMENT, AND CITY CAPITAL INVESTMENT IN THE REDEVELOPMENT AREA SHALL BE CONSISTENT WITH THE MASTER PLAN, AS AMENDED.

GOALS OBJECTIVES AND POLICIES

OBJECTIVE ~~7.1.~~ 8.1. DEVELOPMENT AND REDEVELOPMENT REGULATIONS

Acknowledging that development and redevelopment in the Downtown Community Redevelopment Area is unique based on its location, history, and existing development pattern, the City shall continue developing regulations that promote development consistent with the recommendations of the adopted Downtown Master Plan.

POLICY ~~7.1.1.~~ 8.1.1.

The City shall utilize a Form Based Code to implement the vision stated in the adopted 2007 Downtown Redevelopment Master Plan.

POLICY ~~7.1.2.~~ 8.1.2.

The Ormond Beach Community Redevelopment Area through the adoption of the 2007 Downtown Redevelopment Master Plan for the Downtown Overlay District has established a Form Based Code that places an emphasis on the relationship between the street and buildings, pedestrian and vehicles, public and private spaces, and the relationship between multiple buildings, a block, a neighborhood, and transitions in scale.

POLICY ~~7.1.3.~~ 8.1.3.

In the Downtown Redevelopment Area only, building orientation for vacant sites shall be close to the street with “build to” lines at the front setback line. Main entrances should face the street or the street corner when located along two streets and parking shall be located to the rear of the building.

POLICY ~~7.1.4.~~ 8.1.4.

In accordance with the adopted 2007 Downtown Redevelopment Master Plan, new development and redevelopment shall be incentivized by providing alternative parking provisions to include:

- Off-site parking facilities;
- Parking reductions due to transit availability;
- Parking waivers for smaller tenant spaces; and
- Shared parking between day and evening users.

POLICY ~~7.1.5.~~ 8.1.5.

New developments which build residential medium or high-density infill housing, either as stand-alone or incorporated into mixed-use projects, are encouraged and shall take priority in financial assistance from the City.

GOALS OBJECTIVES AND POLICIES

POLICY ~~7.1.6.8.1.6.~~

The Land Development Code shall be ~~amended and~~ maintained to allow urban style signage within the commercial areas of the Downtown Community Redevelopment Area stressing wall, canopy, and projecting signs as opposed to pole and ground signage.

POLICY ~~7.1.7.8.1.7.~~

New Development and redevelopment within the Downtown and Beachside districts where the building is substantially removed (>50% of floor area), the building shall be set at the build-to-line. ~~ROW~~ A Right-of-Way (ROW) dedication or a private easement for increased sidewalk shall be required. Development may be placed behind the build-to-line if an outdoor café or courtyard is planned or with approval by the City Commission.

POLICY ~~7.1.8.8.1.8.~~

To promote development and redevelopment within the Downtown, the City shall pursue a downtown stormwater conceptual permit from St. John's River Water Management District as an alternative to individualized stormwater retention and treatment.

POLICY ~~7.1.9.8.1.9.~~

The City shall include incentives in the development review process to encourage upper story residential development with supporting uses such as ground floor retail and office development.

OBJECTIVE ~~7.2.8.2.~~ PUBLIC INVESTMENT

The City shall utilize Tax Increment Financing to develop infrastructure and capital projects to further the Redevelopment Plan.

POLICY ~~7.2.1.8.2.1.~~

The City shall pursue the underground placement of utilities where deemed financially feasible within the Downtown Community Redevelopment Area.

POLICY ~~7.2.2.8.2.2.~~

The City shall evaluate stormwater needs in the Downtown Community Redevelopment Area and implement a program of public retention areas to support intensive redevelopment of existing sites whenever practical.

POLICY ~~7.2.3.8.2.3.~~

Financial assistance programs shall be designed and implemented to further the implementation of the vision expressed in text and renderings contained in the Downtown Redevelopment Master Plan.

GOALS OBJECTIVES AND POLICIES

POLICY 7.2.4.8.2.4.

The City shall continually assess and implement a streetscape program along Granada Boulevard and other major roadways in the Downtown Community Redevelopment Area. The streetscape program should include street trees, decorative pavers and lighting, way-finding signage, and street furniture.

POLICY 7.2.5.8.2.5.

The City shall continue to review and improve the public park facilities in the Downtown Community Redevelopment Area and provide a full range of recreational opportunities, such as fishing, tot lots, performance, and festival areas.

POLICY 7.2.6.8.2.6.

The City shall utilize a portion of the Tax Increment Financing funds to provide continued maintenance of public streetscape improvements within the Downtown Community Redevelopment Area.

POLICY 7.2.7.8.2.7.

The City shall continue to work with organizations such as Ormond MainStreet, the Chamber of Commerce, and the Ormond Memorial Art Museum, as ~~will~~ well as business and property owners to implement capital projects in Downtown Master Plan Update.

POLICY 8.2.8.

The City should promote public art within the Downtown Community Redevelopment Area per the Downtown Public Art Master Plan.

OBJECTIVE 7.3.8.3. PARKING

The City shall encourage the shared parking of private parking lots, public on-street parking, and public parking lots within the Downtown Community Redevelopment Area.

POLICY 7.3.1.8.3.1.

The City shall pursue a market-based approach to required off-street parking in the Downtown Overlay District. Off-street and on-site parking is permitted, but public parking may be counted towards the parking requirement provided such parking is within the downtown pedestrian walking shed distance.

GOALS OBJECTIVES AND POLICIES

POLICY ~~7.3.2.8.3.2.~~

The City shall establish pedestrian sheds denoting walkability between existing public, offsite parking lots, and destination points within the Downtown Overlay District.

POLICY ~~7.3.3.8.3.3.~~

The City shall provide additional public parking in the Downtown Overlay District when it is determined through parking studies that parking demand exceeds parking supply.

POLICY ~~7.3.4.8.3.4.~~

The Land Development Code shall be maintained to allow for parking waivers in the Downtown Community Redevelopment Area, utilization of public lots for commercial parking calculations, and shared private parking lots.

POLICY ~~7.3.5.8.3.5.~~

While on-street parking along Granada Boulevard within the Downtown Community Redevelopment Area is regulated by the Florida Department of Transportation, the City's desire is to maintain existing on-street parking and expand where possible.

POLICY ~~7.3.6.8.3.6.~~

Wherever possible, local roads within the Downtown Community Redevelopment Area ~~redevelopment area~~ shall provide on-street parking.

POLICY ~~7.3.7.8.3.7.~~

The City shall continually identify opportunities to provide public parking where demand exceeds supply within the Downtown Community Redevelopment Area.

OBJECTIVE ~~7.4.8.4.~~ ENERGY MANAGEMENT PRACTICES

Promote effective energy management practices in the downtown community redevelopment community area.

POLICY ~~7.4.1.8.4.1.~~

Encourage an urban design pattern in redevelopment areas, where appropriate, that will reduce vehicle miles travelled among trip destinations.

FUTURE LAND USE ELEMENT

GOALS OBJECTIVES AND POLICIES

POLICY ~~7.4.2.8.4.2.~~

Continue developing new regulations to the land development code that will support the development of energy efficient infill and redevelopment of commercial and industrial areas.

GOALS OBJECTIVES AND POLICIES

GOAL ~~8.9.~~ ECONOMIC DEVELOPMENT

TO PROMOTE AND SUPPORT POSITIVE ECONOMIC PROSPERITY BY CONDUCTING STRATEGIC ACTIVITIES DESIGNED TO EXPAND AND DIVERSIFY THE EXISTING ECONOMY AND CREATE ADDITIONAL EMPLOYMENT AND INVESTMENT OPPORTUNITIES.

OBJECTIVE ~~8.1.~~ 9.1. BALANCED ECONOMIC GROWTH

The City shall implement economic development using a number of strategies including a Strategic Economic Development Plan designed to encourage investment in Ormond Beach and by being proactive in business retention, expansion, and attraction.

POLICY ~~8.1.1.~~ 9.1.1.

The City shall maintain a working relationship with the Ormond Beach business community and update economic development assistance programs, as necessary.

POLICY ~~8.1.2.~~ 9.1.2.

The City shall continually work to expand the Ormond Beach non-residential tax base and other revenue sources.

POLICY ~~8.1.3.~~ 9.1.3.

The City shall continue economic investment activities that provide financial incentives for business expansion and development that creates livable wage jobs for its residents.

POLICY ~~8.1.4.~~ 9.1.4.

The City shall continue to collect, analyze and disseminate relevant economic data and information in order to develop effective programs, projects, and activities to achieve its economic development goals.

POLICY ~~8.1.5.~~ 9.1.5.

The City shall coordinate marketing strategies to attract regional, national, and international companies to the City.

POLICY ~~8.1.6.~~ 9.1.6.

The City shall identify and recruit industries involved in the “Green” sustainable energy related research, development, and manufacturing industries.

GOALS OBJECTIVES AND POLICIES

POLICY 8.1.7-9.1.7.

The City shall continue to partner with Volusia County and the Ormond Beach Chamber of Commerce to promote economic development within Ormond Beach.

POLICY 8.1.8-9.1.8.

The City shall consider the impacts on neighborhoods and environmental protection as well as job and tax base growth when evaluating proposed development classified as heavy industrial.

POLICY 8.1.9-9.1.9.

The City shall seek new business locations and existing business expansions that are compatible with the City's land use plans and policies.

OBJECTIVE 8.2.9.2. BUSINESS RECRUITMENT, REDEVELOPMENT AND FUTURE BUSINESS CENTERS

The City shall ensure a sufficient amount of commercial and light industrial properties available for business recruitment and to work with property owners to redevelop vacant and underutilized properties in Ormond Beach.

POLICY 8.2.1-9.2.1.

The City shall promote and create financial and other incentives for redevelopment of the downtown, ~~community~~ redevelopment areas, considering in particular opportunities for adaptive reuse and for small business on infill sites.

POLICY 8.2.2-9.2.2.

The City shall continually attract new industries to locate at the Ormond Beach Municipal Airport and Airport Business Park and other industrial parks in the City.

POLICY 8.2.3-9.2.3.

The City shall assist development to understand and use the Brownfields Redevelopment Program to encourage redevelopment of areas with real and/or perceived environmental contamination.

POLICY 8.2.4-9.2.4.

The City shall continue to review and update land development regulations that encourage the redevelopment of areas of the City (such as the Downtown CRA Community Redevelopment Area, US1, and SRA1A) that have existing infrastructure and are vacant or underutilized.

FUTURE LAND USE ELEMENT

GOALS OBJECTIVES AND POLICIES

OBJECTIVE ~~8.3.1~~9.3. 9.3. PLANNING FOR ECONOMIC DEVELOPMENT

The City should plan for business retention, redevelopment, and attraction as part of economic development.

POLICY ~~8.3.1~~9.3.1.

All City departments shall program funding for the maintenance and expansion of infrastructure necessary for business attraction in all areas of the city.

POLICY ~~8.3.2~~9.3.2.

All City development-related departments shall regularly evaluate development review procedures to ensure that they are efficient. Inefficient programs and procedures shall be modified consistent with Smart Growth principles to provide certainty in the process with review and approval at the lowest possible level.

POLICY ~~8.3.3~~9.3.3.

The City shall regularly evaluate the demand for land designated for economic activity, and the availability and location of land suited for economic development activities, and opportunities for revitalization and reuse.

GOALS OBJECTIVES AND POLICIES

GOAL ~~9.10.~~ NORTH US 1 MUNICIPAL SERVICE AREA (MSA)

TO IMPLEMENT THE PLANNING, DEVELOPMENT AND ADMINISTRATIVE AUTHORITY OF THE INTERLOCAL SERVICE BOUNDARY AGREEMENT (ISBA) BETWEEN THE CITY AND THE COUNTY OF VOLUSIA PURSUANT TO CHAPTER 171, PART II, FLORIDA STATUTES, AS AMENDED.

OBJECTIVE ~~9.1.~~ 10.1. NORTH US 1 MSA MUNICIPAL SERVICE AREA (MSA) PLANNING, DEVELOPMENT AND ADMINISTRATIVE AUTHORITY

The City shall have sole and singular authority within the boundaries of the MSA Municipal Service Area (MSA) to apply the City's Comprehensive Land Use Plan and Zoning Map categories over unincorporated parcels, to administer the codes and regulations, and provide for the enforcement codes pursuant to the Interlocal Service Boundary Agreement (ISBA) adopted by the City of Ormond Beach City Commission and by the Volusia County Council effective and recorded on August 28, 2014, at Book 7026, Pages 878 through 895, of the Public Records of Volusia County, Florida, and as amended effective and recorded on October 11, 2019, at Book 7758, Pages 4680 through 4683, of the Public Records of Volusia County, Florida, and as amended effective and recorded on March 30, 2022, at Book 8228, Pages 1974 through 1978, of the Public Records of Volusia County, Florida. The Interlocal Service Boundary Agreement was renewed by Ormond Beach and Volusia County until August 28, 2034 effective and recorded on August 28, 2024, at Book 8601, Pages 1751 through 1782, of the Public Records of Volusia County.

POLICY ~~9.1.1.~~ 10.1.1.

The North US 1 Municipal Service Area (MSA), consistent with its related policies of the Intergovernmental Coordination Element, is hereby established between the City and Volusia County as a means to coordinate planning and delivery of services related to future land use, public facilities and services, and protection of natural resources in advance of annexation.

POLICY ~~9.1.2.~~ 10.1.2.

Pursuant to the ISBA Interlocal Service Boundary Agreement (ISBA), the City may annex noncontiguous parcels and create enclaves within the MSA Municipal Service Area notwithstanding Policy 56.1.4.

POLICY ~~9.1.3.~~

~~The City shall be authorized to amend the City's zoning map for all unincorporated lands within the MSA after a City land use designation has been adopted.~~

FUTURE LAND USE ELEMENT

GOALS OBJECTIVES AND POLICIES

Policy 9.1.4.10.1.3.

The City's future land uses on Figure 11 are described under "Goal 42. Land Use Distribution" of the current adopted Comprehensive Plan. For the purposes of the MSA Municipal Service Area, the City and County future land use categories shall be considered equal with the land use restrictions as described by map annotation in Table 4, and in Table 5, and in Table 6 of the Future Land Use Element.

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

TRANSPORTATION ELEMENT GOALS, OBJECTIVES AND POLICIES

GENERAL STATEMENT

THE OBJECTIVES AND POLICIES PRESENTED IN THIS ELEMENT ARE BASED UPON THE 2008 EVALUATION APPRAISAL REPORT. THE CITY RECOGNIZES IT CAN NOT CONTINUE TO RELY ON INCREASING ROADWAY CAPACITY AS ITS SOLE TRANSPORTATION STRATEGY. TO THAT END, A MULTI-MODAL STRATEGY IS PRESENTED THAT PLACES GREATER EMPHASIS ON REDUCING VEHICLE MILES TRAVELED (VMT) THAN PROVIDING MORE ROADWAY SUPPLY. THIS STRATEGY PROVIDES FOR FUTURE ROADWAY CORRIDOR PRESERVATION, MORE EFFECTIVE ACCESS MANAGEMENT, GREATER EMPHASIS ON PEDESTRIANS AND BIKE TRAILS, AND IMPLEMENTATION OF SMART GROWTH DESIGN PRINCIPLES TO AREAS WHERE (RE) DEVELOPMENT SHOULD OCCUR BASED UPON CURRENT TRANSIT CORRIDORS.

WHILE THE CITY IS DESIGNATED A DENSE URBAN LAND AREA (DULA) AND IS EXEMPT FROM STATE TRANSPORTATION CONCURRENCY (TOP-DOWN) CITYWIDE, THE CITY (BOTTOM-UP) IS REQUIRING THAT TRANSPORTATION IMPACTS ON STATE, COUNTY AND CITY ROADWAYS BE MITIGATED EXCEPT FOR THE DOWNTOWN, AIA (SR 40 SOUTH TO THE CITY LINE), US 1 (FROM WILMETTE AVENUE SOUTH TO THE CITY LINE); AND SR 40 (FROM AIA TO I95). FOR THESE AREAS, VOTRAN PROVIDES CORE BUS SERVICE WHICH WILL BE ENHANCED THROUGH DEVELOPMENT AND (RE) DEVELOPMENT AT HIGHER DENSITIES AND INTENSITIES. DEVELOPMENT AT OR ABOVE THRESHOLDS RECOMMENDED BY VOTRAN TRANSIT DESIGN GUIDELINES SHALL BE REQUIRED TO MAKE TRANSIT FACILITY OR OPERATIONAL IMPROVEMENTS.

THROUGHOUT THE CITY LEVEL OF SERVICE (LOS) FOR PERCENTAGE OF SIDEWALK COVERAGE LINKING RESIDENTIAL AREAS TO DESTINATION POINTS AND TRANSIT STOPS WILL BE ESTABLISHED AND ADOPTED INTO THE COMPREHENSIVE PLAN BY JULY 2012. WHERE SIDEWALK LOS IS BELOW THE ADOPTED LOS, APPLICANTS FOR DEVELOPMENT AND (RE) DEVELOPMENT SHALL BE REQUIRED TO CONSTRUCT OR PAY A FEE IN LIEU OF TO IMPROVE THE CURRENT SIDEWALK LOS TO THE ADOPTED LOS WITHIN THE ¼ MILE PEDESTRIAN SHED THAT SERVES THAT PARTICULAR DEVELOPMENT.

ORMOND BEACH DUE TO ITS SIZE AND LOCATION HAS A LIMITED ROLE IN DEVELOPING TRANSPORTATION DEMAND MANAGEMENT STRATEGIES, HOWEVER, THE CITY IS HOME TO MANY INDUSTRIAL USERS MOSTLY LOCATED ON US 1 BETWEEN WILMETTE AVENUE AND THE I95 INTERCHANGE THAT COULD BENEFIT FROM A PRIVATELY ORGANIZED TRANSPORTATION MANAGEMENT INITIATIVE (TMI) OPERATED THROUGH AN EXISTING ENTITY SUCH AS THE CHAMBER OF COMMERCE OR ECONOMIC DEVELOPMENT ORGANIZATION THAT COULD MARKET, ADVOCATE AND HOST TDM INITIATIVES.

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 1. LAND USE

PROMOTE A BALANCED, AFFORDABLE, RELIABLE, CONVENIENT AND EFFICIENT MULTI-MODAL TRANSPORTATION SYSTEM THAT SUPPORTS THE LAND USE VISION OF THE ORMOND BEACH COMPREHENSIVE PLAN.

OBJECTIVE 1.1. STRATEGIC INTERMODAL SYSTEM

Protect Florida's Strategic Intermodal System (SIS) by preserving future Right-of-Way ROW corridors.

POLICY 1.1.1.

The City shall utilize ~~Map~~ Figure 1 entitled, "The Future Traffic Circulation Map" as well as ~~Tables 61 and 72 of the Future Land Use~~ Transportation Element for addressing its long-range transportation needs.

POLICY 1.1.2.

The Future Traffic Circulation Map shall be derived primarily through use of ~~MPO~~ the Transportation Planning Organization's travel demand forecast models, where applicable, and shall reflect the ~~of MPO~~ Transportation Planning Organization's Adopted Cost Feasible Plan, locally designated corridors, corridors identified for Project Development Studies, and any future identified corridors. The Future Traffic Circulation Map shall not be subject to the financially feasible criteria applied to the five- and ten-year planning horizon.

POLICY 1.1.3.

The City shall utilize the long-range traffic circulation map for:

- a. Review of all proposed development orders for consistency with the map;
- b. Establishing the long range (2034~~5~~) level of service standards on major existing or future roadways by determining the resultant level of service on each roadway impacted by a project travel demand as determined using the ~~MPO~~ Transportation Planning Organization, or other travel demand forecasting models;
- c. Reviewing all proposed capital projects proposed to widen existing or develop new major roadways. All capital projects shall be consistent with the Future Traffic Circulation Map; and
- d. Achieving consistency of this Comprehensive Plan where appropriate with: the long-range transportation plans of all local governments adjacent to Ormond Beach; the Florida Department of Transportation's ~~FDOT's~~ Transportation Plan and approved work program; and the ~~of MPO's~~ Transportation Planning Organization's transportation improvement plan.

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.2. STUCTURE FREE RIGHT(S)-OF-WAY

The City shall insure the availability of structure free right(s)-of-way for major and important minor roadways and for Votran transit corridors necessary or desirable to accommodate projected travel demand in 2034~~5~~.

POLICY 1.2.1.

The City shall adopt a major thoroughfare provision in the LDC Land Development Code which:

- a. References the Future Traffic Circulation Map that will provide for adequate traffic circulation within the city;
- b. Identifies the right-of-way widths for each roadway in a manner consistent with the Future Traffic Circulation Map and in a manner consistent with the inventory of right-of-way already provided by Ormond Beach, other local governments, or the State of Florida;
- c. Establishes the Future Traffic Circulation Map as the official listing of right(s)-of-way to be reserved pursuant to Policy 21.2.2 below; and
- d. Establishes procedures and guidelines for the appropriate amendment of the map.

POLICY 1.2.2.

A right-of-way protection provision shall be adopted for the purpose of protecting right(s)-of-way necessary to develop the roadway network shown on the Future Traffic Circulation Map. This right-of-way protection is required so as to ~~insure~~ ensure compliance with long range level-of-service standards established by those policies within the Comprehensive Plan. Such ordinance shall prohibit the development of any structures, parking areas, or drainage facilities (except as allowable on an interim basis) within the corridors indicated on the Future Traffic Circulation Map or within any other surface transportation corridors (i.e. rail corridors) identified by ~~FDOT~~ the Florida Department of Transportation. Other uses, consistent with this Comprehensive Plan, may be considered within the protective right-of-way. Nothing in the right-of-way protection ordinance shall preclude location of temporary uses within protected right(s)-of-way. Any right-of-way protected under the right(s)-of-way protection ordinance may be dedicated to Ormond Beach during the development of a project. Dedication shall be accompanied with a Level 1 Environmental Audit of the ~~ROW~~ right-of-way dedicated or the parcel from which the ~~ROW~~ right-of-way was dedicated, whichever is appropriate. Any such dedication shall not be subject to time limits on right(s)-of-way reservation as required by Chapter 336 F.S. As used in this policy, "corridors" means that area of protected right-of-way for any roadway, as generally configured and as located on the Future Traffic Circulation Map. Protected right(s)-of-way shall be defined as:

GOALS, OBJECTIVES AND POLICIES

1. Required right-of-way on either side of the centerline of an existing roadway shown as having more lanes on the Future Traffic Circulation Map than the number of lanes currently existing.
2. Required right-of-way for roadway or other transportation corridors for which no centerline has been established. The location of the roadway right(s)-of-way shall be established during the review of proposed projects in proximity to future roadway corridors located on the Future Traffic Circulation Map. These newly established alignments selected during project review shall be continuous so as to provide for a continuous travel corridor of sufficient width to accommodate an appropriate cross section as required by city policy for facility types specified on the Future Traffic Circulation Map.

POLICY 1.2.3.

The City shall ensure that protected right(s)-of-way are reserved at the time of project review for issuance of a level of service compliance decision. Failure to reserve protected right(s)-of-way as a condition of level of service determination shall be considered a violation of the 20345 (long range) level of service standard for that roadway and shall, therefore, be prohibited. Such ordinance shall also contain mitigation measures designed in part to preclude the taking of private property unless fair compensation for any such taking is provided. These measures shall address properties which are located in a manner or exhibit characteristics that precludes the reasonable use of such property if the protected right-of-way is maintained free of drainage facilities, structures, or parking during the development of the property. Measures may include, but not be limited to:

1. The transfer of development right(s), which may be considered pursuant to the future land use policy from the area within a protected right-of-way to an area outside of the protected right-of-way on the same project site.
2. The reduction of required building setbacks, required buffers, and other requirements otherwise contained in this Comprehensive Plan or contained in other local land development regulations, if such reduced requirements are considered on a case-by-case basis and are granted pursuant to a finding of overriding public interest by the local government.

~~POLICY 1.2.4.~~

~~Adopt a right-of-way reservation ordinance that requires the dedication to Ormond Beach as a condition of issuance of a level of service compliance finding. Upon adoption of an ordinance, or upon recording of any update to the Future Traffic Circulation Map, the reserved right(s)-of-way shall be prohibited from all development of drainage facilities, parking or structures, and dedication of the reserved right-of-way shall be required upon issuance of the development order for any property encompassing said right-of-way. Appropriate access through reserved right-of-way as determined by Ormond Beach, will be permitted. Any such reservation of right-of-way for a particular transportation corridor~~

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~shall be effective for a period not to exceed five years from time of initial right-of-way reservation, unless the extends this five-year period in one-year increments not to exceed an additional five-year period.~~

~~POLICY 1.2.5.~~

~~The City shall provide, on an annual basis, and to the Florida Department of Transportation (FDOT) a listing of those State right(s)-of-way for which right-of-way protection or right-of-way reservation is in effect pursuant to the above policies, and for which level of service is worse than, or is projected within the next five years to decline to a level of service that is worse than the adopted level of service. Also, to coordinate with the Metropolitan Planning Organization and FDOT, so as to establish increased priorities for construction of improvements to such roadways based on enhanced availability facilitated by the City's plan and right-of-way protection or reservation ordinances.~~

~~POLICY 1.2.6.~~ POLICY 1.2.4.

Pursue advanced acquisition of easements and rights-of-way to reduce project costs and adverse impacts from road projects.

~~POLICY 1.2.7.~~ POLICY 1.2.5.

Prepare engineering plans for future transportation improvements in advance of funding commitments for construction in order to clarify and secure right-of-way requirements and to develop improved cost estimates.

~~POLICY 1.2.8.~~ POLICY 1.2.6.

All building setbacks shall be measured from the future right(s)-of-way line.

~~POLICY 1.2.9.~~ POLICY 1.2.7.

The impact of new and/or widened right(s)-of-way on existing residential use or residentially zoned property shall be minimized by the use of walls or combination of berm/landscape buffers, as appropriate to the particular site. Impacts to be considered shall include noise levels, safety, aesthetics, usefulness and property values. Walls and other buffers will be constructed by developers.

~~POLICY 1.2.10.~~ POLICY 1.2.8.

No existing right(s)-of-way for major roads shall be abandoned, vacated or otherwise conveyed from public ownership unless a positive recommendation has been made by the Site Plan Review Committee to the City Commission that the right-of-way will not be needed for the future expansion of the roadway as required in Table 61, "Future Roadway Functional Classification."

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.3. FUTURE ROADWAY FUNCTIONAL CLASSIFICATION SYSTEM

New streets and intersections shall be planned, designed, constructed and operated to be consistent with Tables 61 and 2 of the Transportation Element ~~Future Roadway Functional Classification System~~ as well as maximize safety and convenience.

POLICY 1.3.1.

All new streets shall be paved with a minimum paved driving surface to meet the requirements of the Land Development Code.

POLICY 1.3.2.

Pursue advanced acquisition of easements and rights-of-way to reduce project costs and adverse impacts from road projects.

POLICY 1.3.3.

Prepare engineering plans for future transportation improvements in advance of funding commitments for construction in order to clarify and secure right-of-way requirements and to develop improved cost estimates.

POLICY 1.3.4.

Implement traffic calming and other measures where needed to encourage motorists to drive with caution and consideration in residential communities.

POLICY 1.3.5.

Work with ~~FDOT~~ the Florida Department of Transportation to incorporate medians and separate turning lanes in the design or redesign of roadways having four or more travel lanes.

OBJECTIVE 1.4. ACCESS MANAGEMENT

Protect existing roadway capacity through access management by ensuring on-site circulation for new development shall not interrupt traffic flow on public road facilities.

POLICY 1.4.1.

All land use plan amendments, zonings, plats and site plans requiring City approval and access to Federal, State, County and City roads shall comply with the following access management strategies, if determined applicable to the location:

- a. Traffic circulation and maneuvering shall be accomplished on-site;

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

- b. Driveway entrances and exits shall be located as far as possible from street intersections;
- c. Nonresidential lots having frontage on two or more public streets shall have access to the street(s) with the lowest functional classification, unless specifically approved by the City Commission;
- d. Interior throughways within parking areas shall be separated from parking aisle areas;
- e. Peripheral outparcels designed for freestanding uses shall be integral parts of the total interior circulation system for a larger site;
- f. Driveways should align with opposite driveways;
- g. Joint curb cuts, cross-access easements, internal access for outparcels and other transportation system management strategies shall be employed to effectively reduce the number of curb cuts and median openings on all public road facilities;
- h. Curb cuts for driveways shall be minimized, and the location and number of cuts should relate to lot size, turnover rate, relationship to adjoining streets and the type of clientele served. Access points shall be designed to prevent hazards to vehicular or non-vehicular traffic. Turnout lanes and traffic dividers shall be provided on abutting roadways and on-site where existing or anticipated heavy flows of traffic indicate the need;
- i. Internal streets, roads, driveways and parking, loading and service areas shall be designed so as to provide safe and convenient vehicular access to all uses and facilities;
- j. Development proposals exceeding the thresholds established in the 2008 Votran Transit Design Guidelines shall include transportation demand management strategies, such as: ride sharing, van pooling, carpooling, flextime and bicycle usage, as methods to alleviate the need for automobile trips;
- k. Joint curb cuts with adjacent development parcels shall be provided where feasible;
- l. Residential and non-residential developments shall provide internal as well as external connectivity in order to support public transportation facilities for bicyclists and pedestrians;
- m. Reduce and consolidate private entrances, median crossovers, and similar disruptions to traffic flow;
- n. Minimum throat distances shall be established for driveway entrances based upon the floor area size of developments to ensure development related traffic does not disrupt through traffic on public roadways;
- o. New residential developments that exceed 200 average daily trips should provide emergency access independent of the primary access to the development as determined acceptable by the Site Plan Review Committee SPRC; and
- p. Residential subdivisions shall have internal road, pedestrian, and bicycle connectivity between each other.

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.5. TRANSPORTATION CONCURRENCY EXCEPTION AREAS

~~Establish~~ Maintain Transportation Concurrency Exception Areas along Votran core transit corridors to support intensified mixed-use development and redevelopment as measured by floor area, impervious surface, and density along commercial corridors and in the downtown redevelopment area.

POLICY 1.5.1.

As depicted on Figures 6 through 9 of the Future Land Use Element, the following corridors and parcels fronting and having access within $\frac{1}{4}$ mile of said corridors shall be designated Transportation Concurrency Exception Areas (TCEAs):

- a) A1A from SR 40 south to the city line;
- b) SR 40 from A1A to Williamson Boulevard; and
- c) US 1 from Wilmette Avenue south to the city line.

POLICY 1.5.2.

Development and redevelopment within designated Transportation Concurrency Exception Areas TCEAs are exempt from traditional state-mandated transportation concurrency requirements but shall comply with Objective 1.6 of the Transportation Element and associated policies as well as transit design principles.

POLICY 1.5.3.

Development and redevelopment within Transportation Concurrency Exception Areas TCEAs shall enhance community design by incorporating the following mobility strategies:

- a) Transportation demand management;
- b) Transportation system management;
- c) Alternative modes of transportation;
- d) Land use densities and intensities to support alternative modes of transportation;
- e) Mix of land uses;
- f) Plans to maintain or improve connectivity between all modes of transportation; and
- g) Transit and pedestrian-oriented design.

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 1.5.4.~~

~~By July 2011, the City shall enter into an Interlocal Agreement with Volusia County for development of a transit option as an alternative to the current road mitigation policy contained in the Volusia County's Traffic Impact Assessment Guidelines which is applicable to the City's TCEAs.~~

~~POLICY 1.5.5.~~ POLICY 1.5.4.

~~The mobility fee(s) (transit, and non-motorized) which replace the local impact fee within the Transportation Concurrency Exception Areas TCEAs shall be maintained, become effective on the effective date of the Comprehensive Plan. All three fees shall be assessed outside of the TCEAs.~~

~~POLICY 1.5.6.~~ POLICY 1.5.5.

~~A mix of residential and non-residential uses shall be encouraged in the Downtown Community Redevelopment Area shall be required such that a minimum of 10 percent of the floor area of commercial/office uses shall be in the form of residential dwelling units. Residential units may be vertically or horizontally mixed with the non-residential portion of the development.~~

OBJECTIVE 1.6. MULTI-MODAL STRATEGIES

Coordinate a multi-modal strategy with transportation planning and the land use element to provide alternative travel modes which are sufficient to accommodate the uses depicted on the Future Land Use Map and adopted Downtown Community Redevelopment Area Plan.

POLICY 1.6.1.

Multi-Modal Corridors shall be established for roadway corridors which have at least three of the following characteristics:

- a) Presence of transit;
- b) Opportunities for redevelopment or infill development;
- c) Downtown; and
- d) Constrained roadways.

POLICY 1.6.2.

Transportation Concurrency Exception Areas The TCEAs identified on Figures 6 through 10 of the Future Land Use Element shall also be classified as Multi-Modal Corridors and all Multi-Modal strategies shall apply to the corridors.

GOALS, OBJECTIVES AND POLICIES

POLICY 1.6.3.

The land use and transportation strategies that support and fund mobility are contained in the Ormond Beach Multi-Modal Strategy, ~~October 2010~~, which is adopted and incorporated herein as part of the Comprehensive Plan, and shall be adhered to as it relates to the non-motorized and transit vision plans articulated therein.

POLICY 1.6.4.

~~Where d~~ Development proposals that are consistent with the City's Future Land Use Map (FLUM) in terms of both land use type and density or intensity and located along the Multi-Modal Corridors where current and projected 2017 level of service standards are currently met, shall implement the following strategies ~~will be implemented~~:

- a) Access management;
- b) Bike facilities; and
- c) Sidewalk connectivity.

~~POLICY 1.6.5.~~

~~Where development proposals are consistent with the City's FLUM in terms of land use type and density and intensity, but are located along Multi-Modal Corridors where current and projected 2017 level of service standards will not be met, the following strategies will be implemented:~~

- ~~a) All of the strategies identified in policy 1.6.4.; and~~
- ~~b) On or off-site transit facility improvements as recommended by Votran.~~

~~POLICY 1.6.6.~~

~~Where development proposals require a comprehensive plan amendment in order to be consistent with the City's FLUM in terms of land use and density or intensity for property that is located on Multi-Modal Corridors where current and projected 2017 level of service standards are currently met, the following strategies will be implemented:~~

- ~~a) All of the strategies identified in policy 1.6.4.;~~
- ~~b) All of the strategies identified in policy 1.6.5.; and~~
- ~~c) A negotiated contribution for operations to support existing or enhanced transit service.~~

~~POLICY 1.6.7.~~

~~The City shall not encourage development proposals that require comprehensive plan amendments in order to be consistent with the City's FLUM in terms of land use and~~

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

density or intensity for property that is located on Multi-Modal Corridors where current and projected 2017 level-of-service standards are not being met.

~~POLICY 1.6.8.~~

~~Until the completion of redevelopment plans for A1A and US 1, the City shall review and require development to comply with the standards contained in Votran's Transit Guidelines and to provide on-site and off-site transit improvements, as necessary.~~

~~POLICY 1.6.9.~~

~~Redevelopment plans on A1A and shall identify:~~

- ~~a) Areas where private investment supports efficient transit operations and related facilities shall be located;~~
- ~~b) Infrastructure needs;~~
- ~~c) Opportunities for density bonuses which shall not exceed the densities illustrated below, intensity transfers, affordable housing, and alternative forms of transportation to ensure level of service standards are maintained and improved;~~

Maximum Densities for A1A and US 1 TCEAs		
Land Use Classification	Proposed	
	Density	FAR
Low Density Residential	4.3 upa	0.2
Medium Density Residential	5-15 upa	0.3
Tourist Commercial	32	1.5
General Commercial	32	0.7
Heavy Commercial	18	0.8
Public Institutional	N/A	0.8
Recreation/Open Space	N/A	0.5

~~d. Land assembly opportunities; and~~

~~e. Public parking areas in lieu of private on-site parking.~~

~~POLICY 1.6.10.~~ POLICY 1.6.5.

~~The City shall evaluate land use plan amendments for reductions in vehicle miles traveled along Multi-Modal Corridors in accordance with the City's adopted Multi-Modal Strategy.~~

~~POLICY 1.6.11.~~ POLICY 1.6.6.

~~The City shall utilize enhanced access management strategies along the Multi-Modal Corridors to improve the efficiency of the corridors.~~

GOALS, OBJECTIVES AND POLICIES

~~POLICY 1.6.12.~~ POLICY 1.6.7.

For all land use plan amendments, re-zonings, plats, and site plans where the development proposal exceeds the thresholds contained in Votran's Transit Guidelines, Votran shall be requested to review and provide the City and the applicant transit improvement options.

POLICY 1.6.8.

The City shall seek a redevelopment plan and implementing strategies to create a Community Redevelopment Area within the US Highway 1 (South Yonge Street) corridor.

~~POLICY 1.6.13.~~

~~The City shall adopt a redevelopment plan and implementing strategies for the US 1 CRA Corridor by December 2012 and for the A1A CRA Corridor by December 2014. After the redevelopment plan is adopted, it shall be incorporated into the comprehensive plan through an amendment to the comprehensive plan.~~

OBJECTIVE 1.7. ALTERNATIVE MODES OF TRANSPORTATION

The City shall promote alternative modes of transportation through the construction of bike paths, pedestrian facilities and the use of transit.

~~POLICY 1.7.2.~~ POLICY 1.7.1.

Bike lanes and multimodal paths shall be established where feasible on one side of every arterial (except I-95) and collector street with sidewalks established on the opposite side of the street.

~~POLICY 1.7.3.~~ POLICY 1.7.2.

The City shall incorporate Votran as a reviewing entity for those developments which meet or exceed the recommended review thresholds contained in Votran's Transit Design Guidelines, as amended.

~~POLICY 1.7.4.~~ POLICY 1.7.3.

In order to promote pedestrian safety, pedestrian activated walk signals shall be incorporated at all signalized intersections in Downtown Ormond Beach, at beach access points and other appropriate areas as warranted.

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 1.7.5.~~ POLICY 1.7.4.

The City shall continue to implement the its adopted 2002 Sidewalk Master Plan and Bicycle Master Plan as amended to add sidewalks based upon evaluation criteria that includes safety, school access, recreational access, and transit access and road classification. Amendments shall be included in the annual update of the Capital Improvements Element and in the non-motorized fee calculation.

~~POLICY 1.7.6.~~ POLICY 1.7.5.

The City shall permit a payment in lieu of sidewalk construction for development if it is determined by the Site Plan Review Committee that the construction of the sidewalk is not feasible and that the need for a sidewalk is ~~much~~ greater in other areas of the city.

~~POLICY 1.7.7.~~ POLICY 1.7.6.

The City shall implement the Bicycle and Pedestrian Safety Master Plan recommendations prepared by the ~~VTP~~ Transportation Planning Organization for all elementary schools within the City through its annual sidewalk program.

~~POLICY 1.7.8.~~ POLICY 1.7.7.

The City shall educate the public as to the benefits of bicycling, walking and other non-motorized transportation options including those benefits related to improving air quality, reducing energy consumption, reducing congestion, stimulating the economy and promoting health and physical fitness.

~~POLICY 1.7.9.~~ POLICY 1.7.8.

Increase the use of transportation alternatives to the automobile by providing increased opportunities for the use of transit, and encouraging carpools, vanpools, walking and bicycling, and by reducing the need for new or expanded ~~automobile and~~ automobile parking facilities.

~~POLICY 1.7.10~~ POLICY 1.7.9.

Encourage the use of alternative fuels for City vehicles, transit vehicles and as feasible, any other motor vehicles as a means for reducing greenhouse gas emissions and conserving energy.

POLICY 1.7.10.

The city shall prioritize the use of Complete Streets efforts as a method for planning, designing, redesigning, building, operating and maintain streets that enables safe access for all people who utilize roadways, including pedestrians, bicyclists, motorists, and transit riders of all ages and abilities.

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.8. TRANSIT DESIGN PRINCIPLES

Integrate transit supportive design policies into the Land Development Code.

POLICY 1.8.1.

Reduce the amount of parking in new development and redevelopment by promoting and permitting the following strategies:

- a) Shared parking between uses which have different peak parking characteristics;
- b) Encouraging grass parking for low trip generating land uses; and
- c) Accepting alternative parking demand ratios based upon parking studies; and
- ~~d) Establishing parking maximum ratios of no more than 2.0 spaces per residential unit and 3 parking spaces/1000 square feet of office or retail floor area.~~

POLICY 1.8.2.

Financial and regulatory incentives within the Downtown Community Redevelopment Area shall be tailored to ~~favor~~ encourage single parcel and mixed-use developments. The City shall provide the following incentives to encourage a horizontal or vertical mixed-use component containing residential and non-residential uses:

- a) Flexible parking requirements in accordance with Policy ~~78~~.1.4 of the Future Land Use Element; and
- b) Funding assistance through loans and grants through Tax Increment Financing.
- c) Public, regional stormwater facilities in lieu of private individual site-specific storm water retention.
- d) Administrative regulatory relief as it pertains to dimensional and yard standards.

POLICY 1.8.3.

To recognize the availability of transit, on-site parking requirements outside of the Downtown Redevelopment Area shall be reduced by 20 percent% for all development and redevelopment along a recognized Multi-Modal Corridor.

POLICY 1.8.4.

Provide bicycle parking and separate, high quality, pathway connections for pedestrians and bicycles between internal parts of a development as well as to adjacent parcels.

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.8.5.

Applicants for individual development projects shall be encouraged ~~required~~ to fund and maintain continuity of off-site transit, roadways, circulation between adjacent parcels, and provide easements for trails, pathways, or sidewalks.

POLICY 1.8.6.

Sidewalks shall have direct connections between main building entry points and designated transit stops.

~~POLICY 1.8.7.~~

~~By July 2012, the City shall incorporate level of service standards for sidewalk coverage within Multi-Modal Corridors into the Comprehensive Plan to ensure connectivity exists between residential areas, shopping areas, public services, recreation, and transit stops.~~

GOALS, OBJECTIVES AND POLICIES

GOAL 2. MITIGATION

ALL DEVELOPMENT AND REDEVELOPMENT OUTSIDE OF LOCALLY DESIGNATED TRANSPORTATION CONCURRENCY EXCEPTION AREAS ~~TCEA'S~~ SHALL BE REQUIRED TO MITIGATE IMPACTS OF DEVELOPMENT ON STATE, COUNTY AND CITY ROADS.

OBJECTIVE 2.1. MITIGATION

All new developments that may be considered significant traffic generators shall provide a traffic impact assessment consistent with the requirements in the City's Land Development Code and if required, transportation improvements to mitigate their impacts on the City's transportation system.

POLICY 2.1.1.

The City shall utilize ~~Volusia County Metropolitan~~ the Transportation Planning Organization's (VCMPO)-Transportation Impact Analysis (TIA) Guidelines Methodology as the principal means for assessing site development impacts on state, county and city roads.

POLICY 2.1.2.

New development shall construct that portion of any proposed road identified in the ~~Long Range~~ Future Traffic Circulation Map that abut or bisect their property and shall align new roads with existing and proposed facilities.

POLICY 2.1.3.

Mitigation funded through monetary or Proportionate Fair Share contributions may include either singularly or in combination any of the following improvements: road improvements, transit facility improvements, transit operation contributions, bicycle trail construction, ~~TDM~~ Transportation Demand Management strategies, or other appropriate measures which reduce vehicle miles traveled.

POLICY 2.1.4.

The City shall adopt level of service standards adopted for roadways Citywide outside of the Transportation Concurrence Exception Areas ~~TCEAs~~ as amended and listed in the Capital Improvements Element of the Comprehensive Plan.

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 2.1.5.

The following major collector or higher classification roadways within the City are considered constrained for road widening purposes only by their respective jurisdiction.

Constrained Roads by Jurisdiction	City	County
SR 40 from Nova to A1A	X	
A1A from North City Line to SR 40	X	
A1A from SR 40 to South City line	X	
US 1 from Wilmette to the southern eCity line	X	
North and South Beach Street from Big Pine Tree Drive to the eCity line respectively		X

For the purposes of Policy 2.1.5., the following terms shall apply:

- Road widening is defined as improvements made specifically to add traffic capacity to a road segment(s) which may or may not require additional right-of-way. Segments do not include intersections.
- Road reconstruction is any improvement made to an existing substandard road in order to bring it up to adopted roadway standards.
- Road efficiency improvements are those made to increase safety or efficiency of an existing intersection which may or may not require right-of-way.

Constrained roadways may be improved through road reconstruction or efficiency improvements.

GOALS, OBJECTIVES AND POLICIES

GOAL 3. DECISION-MAKING AND DESIGN

TRANSPORTATION DECISION-MAKING AND DESIGN SHALL TAKE INTO CONSIDERATION THE PHYSICAL ENVIRONMENT THROUGH WHICH ROADWAYS PASS THROUGH.

OBJECTIVE 3.1. DESIGN

The transportation system shall be designed to: 1) be context sensitive, thereby improving integration of roads into the physical environment and community; and 2) promote aesthetics through the creation of overlay districts and the provision of appropriate landscaping of medians which will not adversely impact public safety.

POLICY 3.1.1.

Medians in subdivision roadways shall utilize drought resistant landscaping whenever possible. Irrigation systems shall be installed in the landscaped medians and maintained in perpetuity by property owner associations.

POLICY 3.1.2.

The City shall utilize Greenbelt and Gateway Preservation District Standards on selected major arterial and collector roadways leading into the City. Enhanced setback distances, building design and ground mounted signs shall be signature elements to creating attractive entranceways into the City.

POLICY 3.1.3.

The City shall not as a general policy, support improving roadway Level-of-Service LOS, regardless of roadway jurisdiction, at the expense of reducing or eliminating landscaped medians, except for as approved by the City Commission.

POLICY 3.1.4.

The City shall formally recognize and provide appropriate protection for scenic highways and roadways.

POLICY 3.1.5.

The City shall assist the Corridor Management Entity to implement the vision statement within the adopted Corridor Management Plan of the Florida State designated Ormond Scenic Loop and Trail.

GOALS, OBJECTIVES AND POLICIES

GOAL 4. TRANSPORTATION DEMAND MANAGEMENT STRATEGIES

IMPLEMENT TRANSPORTATION DEMAND MANAGEMENT STRATEGIES DESIGNED TO INCREASE TRANSPORTATION SYSTEM EFFICIENCY BY MANAGING THE DEMAND SIDE OF THE DEMAND/CAPACITY RELATIONSHIP THUS REDUCING TOTAL VEHICLE TRIPS.

OBJECTIVE 4.1. TRANSPORTATION DEMAND MANAGEMENT

Promote Transportation Demand Management (TDM) to support efficient use of the transportation and transit system.

POLICY 4.1.1.

Develop ~~TDM~~ Transportation Demand Management strategies and programs in cooperation with the ~~VCMPPO~~ Transportation Planning Organization, ~~VOTRAN~~ Votran, ~~FDOT~~ the Florida Department of Transportation and other local jurisdictions.

POLICY 4.1.2.

Work with the School District, city residents, developers, homeowner associations and property management companies through residential based programs to promote the use of Votran, non-motorized travel, and other alternatives.

POLICY 4.1.3.

Work with the Chamber of Commerce or similar entity dedicated to economic development and business prosperity to establish a Transportation Management Initiative (TMI) designed as an Employer Outreach Service to market ~~TDM~~ Transportation Demand Management programs, advocate transit improvements, and act as host of ridesharing databases for industrial concerns located at the City's Airport Business Park and Ormond Crossings.

POLICY 4.1.4.

Develop a multi-modal access guide providing concise information about how to use various travel modes to get to a particular destination. The multi-modal guide should include but shall not be limited to the following information:

- a) Maps and graphics on how to use transit as well as walk and bicycle to a particular destination;
- b) Transit information such as frequency, fares, routes, and schedules;

GOALS, OBJECTIVES AND POLICIES

- c) Contact information for transit providers, to include telephone numbers;
- d) ~~Contact information;~~
- e d) Times and distances for those walking from a transit stop to a particular destination such as the beach;
- f e) Information about other modes, such as schedules and contact information for airport service;
- g f) Information for people with disabilities, such as how to make transit access arrangements; and
- h g) Information on bicycle facilities, such as parking, at destinations.

POLICY 4.1.5.

Require all development and redevelopment to incorporate bicycle facilities such as bike racks into the overall design of the site and encourage ~~require all~~ developments which exceed the Votran Transit Guideline thresholds for review to also incorporate lockers and showers to support employees to walk or bicycle to and from work.

POLICY 4.1.6.

Require all applicants requesting a city approval whose development exceed the Votran Transit Guidelines thresholds to show evidence that they have analyzed and evaluated potential TDM strategies.

POLICY 4.1.7.

Require all development to provide sufficient provisions for connection to existing and proposed pedestrian facilities.

GOALS, OBJECTIVES AND POLICIES

GOAL 5: ORMOND CROSSINGS ACTIVITY CENTER

THE ORMOND CROSSINGS ACTIVITY CENTER SHALL INCORPORATE A MOBILITY STRATEGY THAT ENSURES THAT A TRANSPORTATION NETWORK (ROAD, TRANSIT, TRAVEL DEMAND MANAGEMENT) IS IN PLACE TO FACILITATE AN ECONOMICALLY VIABLE COMPONENT OF THE CITY'S ECONOMIC DEVELOPMENT GOALS. THIS SHALL BE IMPLEMENTED THROUGH THE APPLICATION OF A TRANSPORTATION CONCURRENCY EXCEPTION AREA (TCEA) SO THAT MULTIPLE TRANSPORTATION MITIGATION SOLUTIONS THAT INCLUDE ROADWAY IMPROVEMENTS, MULTI-MODAL OPPORTUNITIES AND TRANSPORTATION DEMAND MANAGEMENT SYSTEMS CAN BE USED TO PROVIDE FOR A SUSTAINABLE TRANSPORTATION NETWORK.

OBJECTIVE 5.1. ORMOND CROSSINGS ACTIVITY CENTER TRANSPORTATION CONCURRENCY EXCEPTION AREA

Consistent with Section 163.3180, *Florida Statutes*, the City hereby establishes a Transportation Concurrence Exception Area (TCEA) for the Ormond Crossings Activity Center to support a mixed-use development and address redevelopment concerns by implementing a mobility strategy that addresses the impacts to the City and County road network, as well as emphasizing opportunities for transit-oriented design, integrated pedestrian and bicycle facilities, and transportation demand management strategies that mitigates for its impacts to the regional network.

POLICY 5.1.1.

The City has determined that it is good public policy to use multiple methods of transportation mitigation that can be developed through the Ormond Crossings Transportation Concurrence Exception Area TCEA since the associated mobility strategy addresses the impacts of a mixed-use Activity Center that is located within a Dense Urban Land Area as defined in Section 163.3164, *Florida Statutes*, and facilitates the implementation of the Ormond Crossings/North Mainland Community Redevelopment Master Plan.

POLICY 5.1.2.

The City, ~~working in coordination with the~~ Developer of the Ormond Crossings Activity Center, shall complete the mitigation measures set forth in Policy ~~56.1.3~~ to ensure implementation of a mobility strategy that addresses the transportation impacts of the Ormond Crossings Activity Center project.

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 5.1.3.

The City shall require that the Developer of the Ormond Crossings Activity Center mitigate for cross-jurisdictional transportation impacts in accordance with the standards established by the Volusia County Metropolitan Planning Organization as follows:

- a. ~~No later than July 31, 2013, the Developer shall pay the Florida Department of Transportation ("FDOT") \$500,000 as funding for a PD&E study for general consideration of State Road 40 improvements from Tymber Creek Road to I-95 (the "PD&E study"). The limits of the PD&E study will be subject to the FDOT's discretion. If the PD&E study is completed and/or paid for prior to July 31, 2013, instead of paying the \$500,000 to the FDOT, the Developer shall apply the \$500,000 to traffic related improvements that benefit Ormond Crossings as the City directs, or at the direction of the City, some or all of the \$500,000 shall be applied to improvements or operations that have the affect of reducing vehicle miles traveled from and to Ormond Crossings. In the event the \$500,000 is paid to FDOT for the PD&E study, and Developers, builders or property owners at Ormond Crossings have paid or thereafter pay mobility fees that are collected for the purpose of funding state transportation improvements, including studies like the PD&E study, then the Developer may be entitled to mobility fee credits from the FDOT or the State of Florida.~~
- b. ~~Subject to approval of Volusia County (the "County"), the Developer shall upgrade the approximately 4.15-mile segment of Tymber Creek Road from Airport Road to the I-95 underpass near the project's northern boundary (the "Tymber Creek Road Upgrade"). The Tymber Creek Road Upgrade shall consist of upgrading and repaving Tymber Creek Road within the existing right-of-way to a standard 2-lane typical cross section acceptable to the County. "Upgrade" shall mean utilizing existing pavement and road base to the maximum extent possible and providing lane widths and shoulders meeting the County's currently adopted standards for a 2-lane undivided roadway. The Developer is not responsible for new drainage improvements, modifying existing turn lanes previously installed at the entrance to the Southern Pines subdivision or building sidewalks or bicycle trails along the roadway. The Tymber Creek Road Upgrade shall commence within 1-year of the first subdivision or site plan approval for the portion of Ormond Crossings that is located west of I-95 and shall be completed within 1 year from the date of commencement. If the County does not approve all or a portion of the roadway improvements as proposed in this paragraph, instead of completing those roadway improvements, the Developer shall make alternative related improvements or contributions to operations as provided for in paragraph 22 below.~~
- e.
- a. As a contribution to the future 4-laning of Tymber Creek Road from Peruvian Trail to Airport Road (the "Tymber Creek 4-laning"), the Developer shall defer its right to use or sell transportation impact fee credits to which it may be entitled in connection with the Tymber Creek Road Upgrade until the County has collected \$3,500,000 of transportation impact fees in connection with building permits issued for construction at Ormond Crossings, provided the County agrees to escrow or otherwise earmark the

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

\$3,500,000 to construct the Tymber Creek Road 4-laning when the County has acquired any necessary right-of-way, designed and permitted the Tymber Creek Road 4-laning and has sufficient additional funds available, if additional funds are needed, to construct that roadway improvement. Developer's agreement to defer the use or sale of transportation impact fee credits shall not reduce the amount of transportation impact fee credits to which the Developer may be entitled pursuant to the applicable County ordinance or a separate agreement between the Developer and Volusia County.

d.—

- b. The Developer, the City and the North Mainland/Ormond Crossings Community Redevelopment Area ~~CRA~~ Authority ("CRA Authority") shall pursue the design and construction of Crossings Boulevard, including the overpass of I-95, to address the conditions of blight identified in the Master Redevelopment Plan North Mainland CRA, ~~dated March 2005~~. A portion of the funding for the improvement shall be generated through the use of tax increment financing funds ("TIF") funds and a portion shall be provided by the Developer or generated by the proposed Ormond Crossings Community Development District (CDD) through the use of special assessment bonds.

e.—

- c. The segment of Crossings Boulevard from US-1, including a railroad fly-over, to a roundabout will be part of Ormond Crossings Phase A ("Segment 1"). The Developer shall design and permit Segment 1 and the Developer or the Community Development District ~~CDD~~ shall loan sufficient funds to the Community Redevelopment Area ~~CRA~~ Authority (the "Segment 1 Loan") so the Community Redevelopment Area ~~CRA~~ Authority can commence construction of Segment 1 within 5 years after the Phase A plat is recorded. The terms and conditions of the Segment 1 Loan shall be provided for in a separate agreement between the Developer or the Community Development District ~~CDD~~ and the Community Redevelopment Area ~~CRA~~ Authority, provided that regardless of the amount of the loan to the Community Redevelopment Area ~~CRA~~ Authority, repayment, including reimbursement of the lender's cost of money, shall be limited to the extent that the County's contribution of tax increment financing ~~TIF~~ shall be limited to \$4,000,000 and the City's contribution shall be limited to \$8,000,000, totaling a maximum contribution of \$12,000,000. Segment 1 shall be designed and constructed as a 4-lane divided roadway with landscaped medians. The roadway shall be completed prior to the project exceeding 2,017 net peak-hour external trips.

f.

- d. Crossings Boulevard shall be extended from Segment 1, including an I-95 fly-over, to connect to an internal roadway within Ormond Crossings, west of I-95 ("Segment 2"). The Developer or the Community Development District ~~CDD~~ shall commence design and permitting of Segment 2 at such time as the Community Redevelopment Area ~~CRA~~ Authority provides written notice that it can reasonably foresee having the ability, within 2 years, to repay the Segment 1 Loan. The Developer or the Community Development District ~~CDD~~ shall proceed with the construction of Segment 2 upon

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

repayment of the Segment 2 Loan or as soon as the design and permitting of Segment 2 are completed, whichever is later. Segment 2 shall be designed and constructed as a 2-lane undivided roadway, but the Developer shall provide sufficient right-of-way to accommodate widening to a 4-lane divided cross section in the future. The roadway shall be completed prior to the project exceeding 4,000 net peak-hour external trips.

~~g.—~~

- e. The Developer shall construct or cause a successor developer or developers to construct an internal roadway system that provides a connection from the terminus of Segment 2 to US-1, northwest of its interchange with I-95. That roadway connection to US-1 shall be completed prior to buildout of 1,000 residential units at Ormond Crossings.

~~h.—~~

- f. Within 6 months following commencement of construction of Segment 1 by the Community Redevelopment Area ~~CRA~~ Authority, the Developer or the Community Development District ~~CDD~~ shall commence construction of a road segment from the point of terminus of Segment 1 northward to connect to Tymber Creek Road via an I-95 underpass (the "East-West Connector Road"). The East-West Connector Road shall be completed within 1 year following commencement or when Segment 1 is completed, whichever is later.

- ~~i. The Developer shall install a traffic signal at US-1 and Broadway Avenue and turn lane improvements (the "Broadway Signal and Turn Lanes"). The Broadway Turn Lane improvements shall consist of an eastbound left-turn lane, through lane, and right-turn lane on Broadway Avenue at US-1 and a southbound right-turn lane on US-1 at Broadway Avenue. The Turn Lane improvements shall be constructed prior to the eastbound (Broadway Avenue) approach traffic exceeding 53 vehicles during the eight highest hours of an average weekday, as documented in the Annual Report. The Broadway Signal shall be installed within one year of when the eastbound (Broadway Avenue) approach traffic meets traffic signal warrants based on FDOT study procedures.~~

~~j.—~~

- g. The Developer shall install a traffic signal and additional turn lanes at US-1 and Hull Road (the "Hull Road Signal and Turn Lanes"). The Hull Road Signal and Turn Lanes shall consist of a southbound right-turn lane at Hull Road, extension of the northbound (US-1) left-turn lane to 600 feet, and signalization. Construction shall be completed by December 31, 2012, provided that if the traffic signal is not warranted or if there have been no certificates of occupancy issued within Ormond Crossings by then, the Hull Road Signal and Turn Lanes shall be installed and constructed within 1-year following the date the traffic signal is warranted or the first certificate of occupancy has been issued, whichever is later.

~~k.—~~

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

- h. The Developer shall install the Broadway Signal as specified in number 9 above. The Developer shall also install traffic signals at the entrances to Ormond Crossings from north and south of the I-95 interchange when traffic meets the traffic signal warrants based on the FDOT Florida Department of Transportation study procedures. Concurrently with the installation of each of those three signals, the Developer shall also install communication cable connecting the new traffic signals to adjacent traffic signals within 0.5 mile along US-1. Within 6 months following a request from the City or County, but not later than December 31, 2020, the Developer shall provide the City with a timing study for the traffic signals on US-1 from the traffic signals on from the northern entrance to Ormond Crossings on US-1 to the southern entrance on at Crossing Boulevard/Pine Tree Road.
- i.—
- i. Prior to the project exceeding 2,275 net external peak-hour trips, the Developer shall complete the following improvements at the I-95/US-1 interchange:
 - 1. At the I-95 southbound ramps, add a second southbound I-95 to southbound US-1 left-turn lane, convert the existing inside left-turn lane to a shared through/left-turn lane and extend the southbound I-95 to northbound US-1 right-turn lane to 550 feet.
 - 2. At the I-95 northbound ramps, add a second, I-95 northbound to US -1 southbound left-turn lane and extend the northbound I-95 to northbound US-1 right-turn lane to 550 feet.
 - 3. In the event adjustments to existing traffic signals are necessary with the ramp improvements, the Developer shall make those adjustments but shall not be required to upgrade the signals with mast arms.
- m.—
- j. All roadways within Ormond Crossings shall be designed and constructed in accordance with applicable standards of the FDOT Florida Department of Transportation, the County or the City, depending on the agency responsible for the particular roadway. All site plan and site-specific development issues shall be addressed in the Planned Mixed-Use Development PMUD and as part of the subdivision and site plan review processes to ensure compliance with the City's Comprehensive Plan. The Developer shall be responsible for construction of new roadways and improvements, based on the City's local road design standards, to portions of Pineland Trail and Harmony Avenue that are within or bordering Ormond Crossings, which will be reviewed and approved through the Planned Mixed-Use Development PMUD and site plan processes to insure compliance with the City's requirements. The layout, design and roadway construction standards shall be determined by City staff in accordance with the typical City roadway details during the rezoning and development approval processes. The Developer has a right under the Planned Mixed-Use Development (PMUD) zoning process to request waivers and alternative design standards as prescribed by the City's Land Development Code or as may be provided for in the Planned Mixed-Use Development PMUD. If increased

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

roadway capacity resulting from improvements by the Developer to City streets or roadways is not all required for project related traffic, the Developer or assignee may be entitled to credits for transportation impact fees due to the City in connection with construction within the project. Any transportation impact fee credits shall be determined in accordance with the provisions of the City's impact fee ordinance or separate agreement between the Developer and the City.

~~n.~~—

- k. Except as provided for herein with respect to Crossings Boulevard or hereafter specifically agreed in writing, the City and the entity with jurisdiction over the facilities have no financial responsibility to contribute to or participate in the funding of the design, engineering, permitting and/or construction of roadway improvements for Ormond Crossings.

~~o.~~—

- l. In order to provide safe access and preserve operational capacity, left and right turn deceleration lanes shall be installed by the Developer at all entrances to Ormond Crossings on collector and arterial roadways, as determined by the appropriate maintaining agency. Pedestrian and transit considerations shall be considered in the design. The Developer and the appropriate maintaining agency shall confirm the need for and the cost of signalization at the entrances to Ormond Crossings consistent with policies of the appropriate governmental entity and when nationally recognized warrants (Federal Highway Administration's FHWA's Manual of Uniform Traffic Control Devices) are met. Signal costs at entrances to Ormond Crossings are the financial responsibility of the Developer through buildout of the project.

~~p.~~—

- m. As part of the Ormond Crossings Activity Center mobility strategy, the City will emphasize the use of a multi-modal transportation district for the project and surrounding area that includes, but is not limited to transit services, facilities and amenities as well as transit-oriented development practices and principles to accommodate growth in the area. Ormond Crossings shall adhere to transit-oriented development design principles and concepts within an area appropriate for future transit (see "Accessing Transit, design handbook for Florida Bus Passenger Facilities," FDOT Florida Department of Transportation, Version II 2008). The Developer shall provide annual reports based on methodology acceptable to the City. The City shall use the annual reports to determine if changes to the transportation demand management or multimodal system are warranted. The City shall provide the annual reports to Volusia County and Votran to ensure a coordinated effort for the multimodal improvements and operations. Prior to the issuance of the first certificate of occupancy, the Developer shall enter into an agreement which addresses roadway and transit capital, operations and maintenance funding. This agreement shall be reviewed and updated five years after the original approval by the City and Votran, and thereafter shall be reviewed and updated as part of the annual reports required as part of the Activity Center designation.

GOALS, OBJECTIVES AND POLICIES

g.—

- n. In the interest of safety, and to promote alternative forms of transportation, the Developer shall provide the following bicycle and pedestrian systems:
1. The on-site bicycle systems shall be connected into any adjacent external bicycle systems existing at the time of construction;
 2. Covered walkways shall be designed into the front of non-residential structures to the maximum extent practicable;
 3. In all areas of Ormond Crossings where cycling will be accomplished on both sidewalk/bikeways and streets, appropriate signage identifying bike routes will be installed;
 4. Connections for bicyclists and pedestrians shall be provided between residential neighborhoods, employment centers and commercial areas to the maximum extent practical;
 5. Bicycle support facilities (~~e.g., parking and lockers~~) shall be provided at commercial areas and all work areas.

f.—

- o. The following transit related actions are required:
1. Bicycle lockers or bicycle racks, transit passenger shelters and transit parking bays shall be constructed where necessary to augment and facilitate the operations of transit service to the site as determined by the City in consultation with Votran;
 2. Transit pull-out bays and transit shelters as required by the City in consultation with Votran shall be constructed on-site by the Developer;
 3. A site shall be provided for multiple future transit stops to accommodate buses at a location determined by the City in consultation with Votran and the Developer at the time of site plan approval;
 4. At the City's request, the Developer shall enter into an agreement with the City in consultation with Votran in order to determine the appropriate number and location of pull-out bays, transit shelters, covered walkways and their location on the site, the size of a future transit super-stop if determined by the City to be appropriate for the estimated ridership, and the viability of a Community Development District CDD operated internal tram system to provide transportation to destinations and transit stops within the project; and
 5. When studies are conducted to implement bus service, the Developer shall fully cooperate with the City in donating necessary right-of-way that may be necessary for the route, transit stations, park & ride facilities and other accoutrements deemed warranted by Votran, in consultation with the City.

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

s.—

- p. Developer shall promote and encourage variable work hours and flextime participation by on-site employers. The Developer, employers and owners shall make known to tenants and residents that Ormond Crossings has access to an existing ride-sharing program operated by Votran. Transit and current ride-sharing information shall be prominently displayed in all public gathering areas, in employment centers and other areas as suggested by Votran and the City. Transit access on public rights-of-way, if necessary, shall be provided to meet Votran specifications to facilitate transit to the site. To reduce peak hour trips, the Developer (Community Development District CDD or property owners' associations) may designate a part-time ride sharing coordinator who is responsible for working with the area transit provider, conducting employee ridesharing campaigns within the project, publicity, processing applications, and distribution information (including transit information).

t.—

- q. The Developer shall coordinate with the City, Votran, the Community Development District CDD, and any property owners' associations to ensure the provision of park and ride spaces onsite and construct an area for use as a rideshare lot to lessen the overall impacts on regional roadways. Spaces for at least 200 vehicles shall be provided and may be shared with parking for commercial land uses. The park and ride spaces shall be proximate to the bus transit stops when established. Park and ride spaces shall be aggregated into groupings of not less than 25 spaces per designated park and ride area, which shall be indicated with appropriate signage. The Developer shall coordinate with the City and Votran to accomplish these requirements at the time of site development.

u.—

- r. In order to minimize impacts to the roadway network, roads within Ormond Crossings shall, subject to environmental constraints, be interconnected to the maximum extent feasible as determined by the City. The project will generally be connected to existing neighborhoods and will tie into local streets, where feasible and as deemed appropriate by the appropriate local government.

v.—

- s. The transportation mitigation projects and other mitigation activities to reduce vehicle miles traveled from and to Ormond Crossings are sufficient for the impacts of the project, including impacts on Volusia County roadways. The City hereby acknowledges and agrees that by complying with the provisions of this mitigation strategy, the Developer shall be entitled to fully and completely develop Ormond Crossings without further transportation improvements. If any of the transportation mitigation projects are unnecessary because they were or are being undertaken by a third party or are not possible because they are not approved by the entity with jurisdiction or for any other reason, the Developer shall make alternative traffic related improvements or contributions to operations that have the affect of reducing vehicle

TRANSPORTATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

miles traveled from and to Ormond Crossings as directed by the City, provided that any alternative mitigation of offsite transportation impacts shall not exceed the cost of the individual transportation mitigation projects being replaced.

POLICY 5.1.4.

The City and Volusia County shall use the Traffic Impact Assessment Guidelines and Methodology approved by the ~~Volusia County Metropolitan~~ Transportation Planning Organization (VCMPO) as the principal method of assessing the impacts of the Ormond Crossings project on the local and county road networks. The Developer, the City, and Volusia County agree that the mitigation projects identified in Policy ~~56.1.3~~ constitute a reasonable mitigation solution pursuant to the Transportation Planning Organization VCMPO cross jurisdictional impact guidelines and the mobility strategy implemented as part of the Ormond Crossings Activity Center Transportation Concurrency Exception Area TCEA. The successful completion of the improvements identified in Policy ~~56.1.3~~ addresses the impacts from the project and thereby exempts the project from any and all additional extra-jurisdictional analysis and mitigation not otherwise identified herein.

OBJECTIVE 5.2. PUBLIC INFRASTRUCTURE AND FACILITIES

The Ormond Crossings Activity Center project provides the City with the opportunity to master plan a mixed-use development, including the needed public facilities required to meet the minimum levels of service or the requirements of the City's Mobility Plan as established in this Comprehensive Plan.

POLICY 5.2.1.

The City shall utilize an annual monitoring process to analyze, and where necessary, amend the Capital Improvement Element CIE and other related elements, to ensure that public infrastructure and facilities are in place or have a financially feasible commitment to construct the infrastructure or facilities in order to assure adherence to the City's mobility strategies for the Ormond Crossings Activity Center.

POLICY 5.2.2.

As part of the implementation of the Ormond Crossings/North Mainland Community Redevelopment Area CRA Master Plan and the Ormond Crossings Transportation Concurrency Exception Area TCEA-mobility strategies, the City shall establish in the Ormond Crossings Activity Center a principal arterial roadway, to be known as Crossings Boulevard, which will provide for accessibility between residential, commerce center, retail and service land uses.

TRANSPORTATION ELEMENT

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 1.A. SANITARY SEWER

THE CITY SHALL PROVIDE FOR MUNICIPAL SANITARY SEWER FACILITIES WITH SUFFICIENT CAPACITY TO COLLECT, TRANSMIT AND TREAT SANITARY SEWER FLOWS THROUGHOUT THE DEFINED SERVICE AREAS DURING THE PLANNING PERIOD AND THAT MEET OR EXCEED THE CALCULATED LEVEL-OF-SERVICE STANDARDS ESTABLISHED FOR THE SANITARY SEWER SYSTEM. SUCH FACILITIES SHALL MEET OR EXCEED STATE AND FEDERAL REQUIREMENTS FOR MUNICIPAL SANITARY SEWER TREATMENT INCLUDING THE ESTABLISHED WATER QUALITY-BASED EFFLUENT LIMITATIONS ESTABLISHED BY THE FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION. THE CITY SHALL ALSO APPROPRIATELY REGULATE THE USE OF INDIVIDUAL ON-SITE WASTEWATER TREATMENT SYSTEMS AND PACKAGE TREATMENTS SYSTEMS.

GOAL 1.B. POTABLE WATER

THE CITY SHALL PROVIDE FOR MUNICIPAL POTABLE WATER SUPPLY FACILITIES WITH SUFFICIENT CAPACITY FOR RAW WATER SUPPLY, TREATMENT, AND TRANSMISSION OF POTABLE WATER TO MEET CONSUMPTION DEMANDS THROUGHOUT THE DEFINED SERVICE AREAS DURING THE PLANNING PERIOD AND THAT MEET OR EXCEED THE CALCULATED LEVEL-OF-SERVICE STANDARDS ESTABLISHED FOR THE POTABLE WATER SYSTEM. SUCH FACILITIES SHALL MEET OR EXCEED STATE AND FEDERAL REQUIREMENTS FOR MUNICIPAL POTABLE WATER QUALITY, THE CITY SHALL ALSO APPROPRIATELY REGULATE THE USE OF INDIVIDUAL WELL AND POTABLE WATER PACKAGE TREATMENT SYSTEMS.

OBJECTIVE 1.1. CAPITAL IMPROVEMENTS FUNDING

The potable water, wastewater treatment and reuse irrigation systems shall continue to be operated efficiently and effectively and on an enterprise basis with established user fees to meet the operational costs and connection ~~impact~~ fees to construct new or expand existing facilities.

~~POLICY 1.1.1.~~

~~Areas that are not presently served with potable water and sanitary sewer trunk lines shall be assessed a differential impact fee.~~

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 1.1.2.~~ POLICY 1.1.1.

~~The City Owners, operators and managers~~ should undertake efforts to obtain optimum operating levels and facility longevity so as to maximize the use, effectiveness and efficiency of existing facilities.

OBJECTIVE 1.2. EFFLUENT REUSE

The City shall continue to operate a wastewater treatment plant effluent reuse distribution system that provides an orderly and cost-effective method of distributing reuse irrigation water to the several major reuse target areas and for residential irrigation.

POLICY 1.2.1.

The effluent at point of discharge shall meet or exceed the standards established by the Department of Environment Protection (FDEP).

POLICY 1.2.2.

Monitoring equipment and appropriately trained personnel shall be provided at the wastewater plant to ensure the continuous quality of the effluent. The City's Utility Division shall ~~each year, as the effluent reuse system expands,~~ publicly continually educate its customers on the benefits of participating in the re-use system.

POLICY 1.2.3.

New residential developments, in the vicinity of reclaimed water transmission mains, shall install 'dry-lines' for reclaimed water service. ~~Subdivisions with greater than 100 homes shall provide on-site storage and pumping for peak flow attenuation. Developers have the option of contributing to a reclaimed water construction fund if the development is not in an area scheduled to receive reclaimed water service.~~

POLICY 1.2.4.

The City shall implement water conservation and reuse practices as well as demand reduction strategies that are conditions of the City's current Consumptive Use Permit.

POLICY 1.2.5.

The City will implement the traditional and alternative water supply projects ~~scheduled for completion by 2013~~ as identified in the Water Supply ~~w~~ Work Plan.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.2.6.

The City will expand its reclaimed water system in accordance with the 2015 Utility Master Plan and subsequent updates in an effort to improve water quality throughout the region. The City shall establish a target of 100 percent reuse of average daily wastewater flow by the year 2030, except for operational conditions, including current weather conditions, anticipated weather patterns, reclaimed water demands, reclaimed water use patterns, system draw down restrictions, system surplus volume, interruptible customer service restrictions, system operational efficiency, production capability, reclaimed storage capacity, availability of storm and groundwater augmentation sources, and other agency regulatory restrictions that require river discharge.

OBJECTIVE 1.3. INTERIM “PACKAGE-TYPE” WASTEWATER TREATMENT FACILITIES

The use of interim or package-type wastewater treatment facilities shall be regulated by the Land Development Code and restricted as necessary to protect the public health and welfare and to protect the natural resources of the City.

POLICY 1.3.1.

Interim or small “package-type” wastewater treatment plants with a capacity of less than 500,000 gallons per day shall not be allowed in areas where improper levels of treatment and/or inadequate effluent disposal may result in adverse impacts on water resources (e.g., groundwater aquifers and surface water systems), unless each plant’s owner provides sufficient financial resources to the City to assume responsibility for operating and maintaining the collection, treatment and effluent disposal components in compliance with regulatory requirements and standards.

POLICY 1.3.2.

Interim or “package-type” wastewater treatment facilities shall be phased out upon notice that access to the system is available. The cost of such connection to the public system shall be the sole responsibility of the owner of the private system.

POLICY 1.3.3.

An interim package treatment plant may be permitted when all conditions for establishment of such a plant, as provided for in the Land Development Code (LDC) and City Code of Ordinances, exist.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.4. INDIVIDUAL WASTE TREATMENT/ DISPOSAL SYSTEMS

Individual waste treatment/disposal systems, including septic tanks, will be located, constructed and operated so that, either on an individual or cumulative basis, such facilities will not adversely impact public health or water quality.

POLICY 1.4.1.

On-site wastewater treatment in areas served by centralized wastewater treatment shall be prohibited. However, a private on-site waste water system may be permitted subject to state laws governing siting and installation provided soil conditions are conducive and the lack of a publicly owned treatment system for service exists.

POLICY 1.4.2.

Property owners shall be principally responsible for paying the capital costs related to connecting to the City's central sewer system when individual lot septic tank failures are sufficient in numbers to cause health and water quality concerns.

POLICY 1.4.3.

The City shall ~~maintain~~ establish criteria in the Land Development Code LDC that governs the appropriateness of phasing out septic tank systems in favor of connecting to publicly owned treatment systems.

POLICY 1.4.4.

Minimum lot sizes and associated conditions shall be utilized when prohibiting the use of on-site wastewater systems or permitting such systems when publicly owned centralized treatment systems are not available.

POLICY 1.4.5.

Minimum setbacks shall be established and utilized for the location of on-site wastewater systems from the 100-year floodplains, upland/wetlands systems, and the mean high water mark of natural occurring waterbodies ~~of courses~~.

POLICY 1.4.6.

The City shall maintain Land Development Code regulations ~~continually enforce policies~~ that require existing homes located on lots smaller than one acre and that have septic tank systems to connect to the city central sewer system when the gravity sewer system is within 100 feet of the lot line and the home can connect by gravity to the system. The City may create assessment districts, where appropriate, to retrofit a neighborhood with sewer lines and lift stations.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.4.6.

The City shall maintain Land Development Code regulations ~~continually enforce policies~~ that require existing homes located on lots smaller than one acre and that have septic tank systems to connect to the city central sewer system when the gravity sewer system is within 100 feet of the lot line and the home can connect by gravity to the system. The City may create assessment districts, where appropriate, to retrofit a neighborhood with sewer lines and lift stations.

POLICY 1.4.7.

Within the City of Ormond Beach's utility service area for any development of more than 50 residential lots, whether built or unbuilt, with more than one onsite sewage treatment and disposal system per 1 acre, the City outlines the feasibility of providing sanitary sewer services within the City's Utility Master Plan. There is one subdivision within the City's limits that is not connected to the central sewer and has a density of less than 1 unit per acre. Based on the latest Master Plan cost estimate, this subdivision is deemed not feasible to connect to the central sewer due to cost considerations. The City will re-evaluate this with future Utility Master Plan updates. An onsite sewage treatment and disposal system is presumed to exist on a developed parcel if sanitary sewer services are not available at or adjacent to the parcel boundary.

POLICY 1.4.8.

Sanitary sewer flows from current developments within the City of Ormond Beach's service area are received at the Water Reclamation Facility (WRF) on Orchard Street. The City of Ormond Beach is currently in the planning process of establishing a new wastewater treatment facility in the western region of the utility's service area. Projected flows from potential developments will be served by both facilities once the new facility has been completed.

The Annual Average Daily Flow (AADF) capacity of the facilities in the City of Ormond Beach's service area and the projected wastewater flow at these facilities for the next 20 years are depicted in Table 1. All values in Table 1 are in millions of gallons per day (MGD). Expected future new construction and connections of onsite sewage treatment and disposal systems to sanitary sewer are currently on a 20-year planning horizon as demonstrated in the Utility Master Plan collection and distribution Systems, as may be amended periodically.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

Table 1

Project AADF Wastewater Flow Projection

<u>Year</u>	<u>Total AADF to Orchard WRF*</u>	<u>Total AADF to Western Utility WRF**</u>	<u>Total AADF Wastewater Flow</u>
<u>2025</u>	<u>5.69</u>		<u>5.6</u>
<u>2030</u>	<u>7.5</u>		<u>7.5</u>
<u>2035</u>	<u>6.6</u>	<u>3.0</u>	<u>9.6</u>
<u>2045</u>	<u>7.5</u>	<u>4.0</u>	<u>11.5</u>

*The current permitted capacity of the Orchard St WRF is 8.0 MGD.

OBJECTIVE 1.5. GROWTH MANAGEMENT

All new development shall occur in an orderly and economical manner, to the maximum extent possible, ~~and to the maximum existing public infrastructure possible, with those areas having the greatest combined complement of urban public facilities and services being targeted first.~~ New land areas should be staged for urbanization in a contiguous manner that minimizes additional public investments.

POLICY 1.5.1.

Access to municipal wastewater interceptor or major transmission lines outside of designated urban service areas shall not be permitted except in cases of overriding public benefit and when the area is included or added to a designated urban service area. Consideration shall be given to the following minimum criteria/procedures in the implementation of this Policy.

- a. Encouragement of future growth and development to occur within areas of existing or planned wastewater service.
- b. Wastewater transmission or interceptor lines shall not be extended to accommodate premature forms of development.

POLICY 1.5.2.

The provision of public facilities and services is intended to serve as a growth management measure, as such provision shall be undertaken and expanded within existing or identified future designated facility service areas and discouraged elsewhere, except in cases of overriding public benefit or where needed to meet the needs of existing development.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.5.3.

The location and timing of providing public facilities and services shall be used as methods of implementing the Comprehensive Plan and associated sound and reasonable growth management policies and plans, and for the establishment of a direct, objective relationship between the entire array of public facilities and services and land use intensities.

POLICY 1.5.4.

The Departments of Public Works, and Planning and Zoning, and the Divisions of Public Utilities, and Engineering, shall maintain facility demand and capacity information as development orders or permits are issued and shall prepare annual summaries of capacity and demand information for each facility and service area. This shall be accomplished through the concurrency management system, as provided in the Land Development Code.

OBJECTIVE 1.6. LEVEL-OF-SERVICE STANDARDS (LOSS) AND CONCURRENCY

Potable Water and Sanitary Sewer facilities shall be maintained and expanded as needed to meet or exceed adopted Level-of-Service Standards LOSS. Minimum Level-of-Service Standards LOSS standards shall be met when planning capital improvements and reviewing applications for development approval.

POLICY 1.6.1.

The City shall apply level-of-service standards that shall be used as the basis for determining the availability of facility capacity and the demand generated by development in accordance with the Capital Improvements Element.

POLICY 1.6.2.

New development shall be approved by the City only in areas where public or private facilities are available, under construction, or where funds have been committed or scheduled for construction concurrent with the impacts of the new development.

POLICY 1.6.3.

Existing development with private water supplies not having adequate flow, pressure or poor water quality for firefighting shall be required to connect to the City water system upon notice of availability. Connection ~~Impact~~ fees and meter installation charges will be borne by the property owner.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.6.4.

Property owners shall be responsible for full capital costs incurred by the City providing water mains and fire hydrants to areas where developments, due to poor water quality or well failure, have inadequate flow or pressure.

POLICY 1.6.5.

The City shall issue Concurrency Certificates concurrent with issuance of a Development Order signifying that facilities and services are available under the City's District issued Consumptive Use Permit C.U.P. for which if no building permit is applied for and received within a specified time period as provided for in the Land Development Code LDC that such reservation of capacity shall expire.

POLICY 1.6.6.

The withdrawals of water for potable purposes from surface or groundwater supply sources in quantities which would result in the depletion, degradation, contamination or destruction of water resources or natural systems shall be prohibited.

POLICY 1.6.7.

The quality and quantity of potable water used to protect public health and safety require maintenance of adequate water pressures to meet fire flow requirements; monitoring of water quality conditions in the supply system distribution lines to ensure compliance with primary drinking water standards and effluent reuse systems designed to meet the fire flow requirements.

POLICY 1.6.8.

A peak day, domestic demand factor shall be established to determine the required capacity for public potable water systems and sanitary sewer systems. The Utilities Master Plan shall be utilized to review and update these factors, as necessary.

POLICY 1.6.9.

The City shall update ~~its water and sewer~~ the Utilities Master Plan as needed ~~'Master Plan'~~ ~~every five years~~ to determine capital needs to maintain the established level of service.

OBJECTIVE 1.7. CAPITAL FACILITIES CONSTRUCTION

The City shall ensure that potable water and sanitary sewer facilities are available to meet Level-of-Service Standards.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.7.1.

The Capital Improvements Planning process and Capital Improvements Element shall be utilized to plan, design, and construct cost feasible capital projects in order to maintain Level-of-Service Standards ~~LOSS~~.

POLICY 1.7.2.

Projected demands ~~through the year 2015~~ shall be met by undertaking those projects as identified in the Capital Improvements Element.

POLICY 1.7.3.

Projects needed to correct existing deficiencies shall be given priority in the formulation and implementation of the annual work programs of the City Department responsible for the project.

POLICY 1.7.4.

No permits shall be issued for new development which would result in an increase in demand on deficient facilities prior to completion of improvements needed to bring the facility up to standard.

POLICY 1.7.5.

The City will maintain a five-year schedule of capital improvement needs for public facilities, to be updated annually in conformance with the review process for the Capital Improvement Element of this plan. All Capital Improvement projects in the annual budget shall be consistent with the Comprehensive Plan.

POLICY 1.7.6.

All wellfields shall be developed and protected in accordance with the provisions for Public Water Supply Wellfield Protection in the Land Development Code.

POLICY 1.7.7.

The City shall continue to implement and develop wellfield expansion programs in accordance with guidelines established in the Utility Master Plan.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

UTILITIES ELEMENT DRAINAGE AND STORMWATER MANAGEMENT SUBELEMENT GOALS, OBJECTIVES AND POLICIES

GOAL 2. DRAINAGE AND STORMWATER MANAGEMENT

THE CITY SHALL CONTINUE TO IMPLEMENT A DRAINAGE AND STORMWATER MANAGEMENT POLICY THAT: INCORPORATES THE NEED FOR AN EFFECTIVE DRAINAGE AND STORMWATER MANAGEMENT SYSTEM; INVENTORIES EXISTING DRAINAGE AND STORMWATER MANAGEMENT SYSTEMS WITHIN THE CITY; DESCRIBES EXISTING DRAINAGE AND STORMWATER MANAGEMENT SYSTEMS AND THEIR FUNCTIONS; REQUIRES AS MUCH NATURAL STORMWATER MANAGEMENT AS IS FEASIBLE; AND SETS PERFORMANCE STANDARDS TO MAINTAIN A DESIRED LEVEL OF WATER RECHARGE AND SURFACE WATER QUALITY AND WORKS WITH OTHER ENTITIES, BOTH PUBLIC AND PRIVATE, TO ENSURE THE EXECUTION OF THIS GOAL AND ITS ASSOCIATED OBJECTIVES AND POLICIES.

OBJECTIVE 2.1. STORMWATER MANAGEMENT UTILITY

The City shall implement the adopted Stormwater Master Management Plan in order to prioritize improvements and expansions to the Stormwater Management System.

POLICY 2.1.1.

Develop a public information program that promotes public awareness of the stormwater problems and fosters public participation in the continued implementation of the Stormwater Master Management Plan through the capital improvements planning process.

POLICY 2.1.2.

The Stormwater Master Plan shall address the impact that stormwater runoff from existing roads has upon receiving waters and address corrective actions. Corrective actions should include both structural and non-structural measures. Structural measures include retrofitting existing roadways with effective stormwater management facilities. Non-structural measures include increased street sweeping and increased storm sewer cleaning. The capital Improvements Plan shall be utilized as the principal mechanism in scheduling improvements identified in the Stormwater Master Plan while the Stormwater Utility Fee shall be the chief funding source for stormwater implementation.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 2.1.3.

The City's stormwater management system shall be designed and developed to connect and integrate wetlands as a primary means to clean and recharge the aquifer.

OBJECTIVE 2.2. DEVELOPMENT REVIEW

Development activities shall be conducted to ensure the public safety and, at the same time, protects and enhances surface water quality of the surface waters, the functioning values of wetlands, and other natural design features, and aquifers recharge.

POLICY 2.2.1.

New stormwater management systems shall be built consistent with best available technologies in the field of stormwater design and treatment. The City shall continue to perform under construction field inspections of non-residential and residential development to ensure the stormwater system designs are built and function according to approved stormwater management plans.

~~POLICY 2.2.3.~~ POLICY 2.2.2.

The utilization of either Best Management Practices (BMPs) or Integrated Management Practices shall be required during road construction, urban development, agricultural, and silviculture activities, to protect natural water bodies and wetlands from pollutants and siltation.

~~POLICY 2.2.4.~~ POLICY 2.2.3.

Stormwater management systems that utilize isolated wetlands, shall provide diversion of the initial runoff from a storm event or "first flush" of stormwater to separate facilities.

~~POLICY 2.2.5.~~ POLICY 2.2.4.

Sufficient water shall be retained on-site to support natural groundwater and surface water levels throughout the year, to allow aquifer recharge and avoid over draining natural watersheds.

~~POLICY 2.2.6.~~ POLICY 2.2.5.

Drainage and stormwater management systems shall use natural systems to the greatest extent possible, and land development modifications shall resemble natural features to the greatest extent practicable.

~~POLICY 2.2.7.~~ POLICY 2.2.6.

The following criteria shall apply when considering applications for development activities that utilize wetlands as part of the stormwater management system:

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

- a. Stormwater outfalls from a development may be directed to the wetland only when free of debris and free of chemical pollutants and silt that will adversely impact wetlands, and only at rates that do not disturb vegetation or increase turbidity. Sheet flow and other overland drainage of runoff shall be controlled.
- b. The proposed action shall not cause stormwater runoff on the wetland to take place at a rate that would exceed the natural rate.
- c. The allowed total increased runoff, in combination with the total fill allowed, shall not cause total natural flood-storage capacity of the wetland to fall below, or fall below further, the projected volume of runoff on the whole developed wetland watershed generated by a 100-year frequency, 24-hour duration rainfall event.

~~POLICY 2.2.8.~~ POLICY 2.2.7.

Owner/operators of stormwater management systems shall be effectively required to maintain their systems according to the requirements of their Development Orders and state agency permits ~~Building Permits~~.

~~POLICY 2.2.9.~~ POLICY 2.2.8.

Open spaces shall be designed for multiple purposes and arranged to connect isolated wetlands so as to provide wildlife corridors and stormwater management conveyance.

~~POLICY 2.2.10.~~ POLICY 2.2.9.

Developers shall produce for examination, by the City, justified computer models and other data that objectively provide information relevant to their proposed projects.

~~POLICY 2.2.11.~~ POLICY 2.2.10.

Existing natural drainage systems shall be incorporated into the development's stormwater management system consistent with the performance standards for protection of wetlands.

~~POLICY 2.2.12.~~ POLICY 2.2.11.

Stormwater management systems shall be designed to ensure that post-development runoff does not exceed pre-development levels, in terms of the volume, rate, timing and pollutant load of runoff.

~~POLICY 2.2.13.~~ POLICY 2.2.12.

Development shall preserve or restore the natural shorelines and stabilizing shoreline vegetation of waterbodies. Buffers shall also be required along with the establishment of berm and swale systems near the shoreline to slow and filter runoff from development.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 2.2.14.~~ POLICY 2.2.13.

Alteration of natural stream channels shall be prohibited.

~~POLICY 2.2.15.~~ POLICY 2.2.14.

Stormwater runoff shall be detained for a sufficient amount of time, as needed, to provide for the settling and filtration of pollutants to the maximum extent possible before discharging into a surface waterbody or recharging into the groundwater as required by State regulations.

~~POLICY 2.2.16.~~ POLICY 2.2.15.

All drainage ditch or mosquito control ditch depths shall be tied to groundwater levels so as not to adversely impact wetland functions. Ditches in excess of three (3) feet in depth will be permitted on a case-by-case basis if sufficient information is provided to demonstrate a reasonable assurance that no adverse impact will result.

~~POLICY 2.2.17.~~ POLICY 2.2.16.

Discharge from drainage or mosquito control ditches directly to surface waterbodies or open water streams shall be discouraged and minimized. Discharge into existing compatible wetlands or constructed retention basins that have been seeded and/or vegetated with wetland plant species shall be encouraged.

~~POLICY 2.2.18.~~ POLICY 2.2.17.

Drainage or mosquito control ditches shall be constructed as ditches to meet requirements, with gently sloping sides not to exceed a 4:1 slope. The City will encourage the minimization of ditch construction, use of alternate methods of insect control, or restoration of areas currently drained by historical ditches.

~~POLICY 2.2.19.~~ POLICY 2.2.18.

There shall be no direct surface water connection from dredged or excavated areas to natural surface water bodies or open water streams (except for marinas on a case-by case basis).

~~POLICY 2.2.20.~~ POLICY 2.2.19.

If an outfall from a dredged or excavated area is necessary to remove excess stormwater, then the outfall shall either be routed through a compatible wetland or a shallow retention basin constructed and seeded or vegetated with wetland plant species to act as a filter for runoff.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 2.2.21.~~ POLICY 2.2.20.

Roads shall be placed to minimize the need for cut and fill, and all cut and fill banks shall be stabilized with minimum maintenance materials to prevent continuing erosion problems.

~~POLICY 2.2.22.~~ POLICY 2.2.21.

The City shall require where appropriate the planting of wetland vegetation to stabilize eroding shorelines in low-wave-energy areas which helps reduce turbidity and improve water quality.

~~POLICY 2.2.23.~~ POLICY 2.2.22.

Retention and detention facilities shall be constructed consistent with design and performance criteria which include:

- a) Restricting public access;
- b) Sloping;
- c) Stabilization of banks;
- d) Direct discharge to class II or III waters, as defined in F.A.C. Ch. 62-302, water quality standards, part III, water quality criteria-surface water or Outstanding Florida Waters (OFW) is prohibited; Oil or grease contamination; discharges to an Outstanding Florida Water (OFW);
- e) Use of wetlands for stormwater management and treatment compatible with the ecological characteristics of such wetlands that shall not degrade the wetland by disrupting the normal range of water level fluctuations necessary for sustaining the natural hydroperiod of the wetland; and
- f) Provisions, where appropriate, to utilize stormwater management systems for reclaimed water storage and/or augmentation.

~~POLICY 2.2.24.~~ POLICY 2.2.23.

Environmental assessments of stormwater facilities shall be required of development on the basis of its location, magnitude, and character in order to assess the impacts of stormwater runoff and related facilities upon water quality, fish and wildlife values, floodplains, wetlands, and other environmentally sensitive areas.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 2.2.25.~~ POLICY 2.2.24.

No development will be allowed that poses a threat of releasing harmful quantities of pollutants to surface waters during flooding.

~~POLICY 2.2.26.~~ POLICY 2.2.25.

Roadway designs in wetland areas will provide for the capture and diversion of stormwater runoff from roadway surfaces in wetland areas to upland stormwater retention/detention ponds for treatment prior to discharge to receiving water bodies and wetlands.

~~POLICY 2.2.27.~~ POLICY 2.2.26.

The Level-of-Service Standard LOSS, in accordance with the Capital Improvements Element, shall apply in the review of development activity.

~~POLICY 2.2.28.~~ POLICY 2.2.27.

The discharge of waters from a retention basin into surface water bodies and open water streams shall be discouraged and minimized. Discharge into existing, compatible wetlands shall be encouraged whenever possible.

~~POLICY 2.2.29.~~ POLICY 2.2.28.

Prior to construction, the City must receive and approve the applicant's proposal of the entity to be responsible for operation and maintenance of the permitted stormwater management system with the designation of the proposed entity. The City shall receive and approve a document enumerating enforceable affirmative obligations of the entity such as a homeowner's association, to properly operate and maintain the stormwater management system for its expected life. The documents may consist of a showing of compliance with the City's acceptance of portions of the system for maintenance; articles of incorporation for condominium or homeowner's association; or plat or deed restrictions apportioning maintenance responsibility.

~~POLICY 2.2.30.~~ POLICY 2.2.29.

All detention system surface areas shall consist of a littoral zone that is available for biological assimilation of pollutants. The extent of littoral zone requirements will be based on the ratio of vegetated littoral zone to the surface area of the pond at the controlled elevation. The width shall ensure adequate filtration of surface water runoff, provide for control of erosion and sedimentation, and offer wildlife habitat areas.

~~POLICY 2.2.31.~~ POLICY 2.2.30.

Dry retention areas shall have at least one foot of freeboard above the 25-year designated high water table.

OBJECTIVE 2.3. ADMINISTRATION

The City shall continue to administer, in a cost-effective and environmentally safe manner, drainage and stormwater management facilities and services consistent with the Land Development Code (LDC) as supported by the stormwater utility fee, user fees and impact connection fees. Existing deficiencies shall be corrected and the extension or increase in the capacity of the City drainage and stormwater management system shall be coordinated to meet existing and future needs as determined by the Stormwater Master Plan, to maximize the use of existing facilities, and to discourage urban sprawl.

POLICY 2.3.1.

Priority for capital improvements shall be given to the correction of existing deficiencies as determined by the adopted Stormwater Master Plan.

POLICY 2.3.2.

The City shall coordinate the extension of, or increase in, the capacity of drainage and stormwater management facilities with the needs of the public by ensuring that no development is approved unless the facilities are in place or scheduled to be in place concurrent with development and consistent with the adopted level-of-service standards.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

UTILITIES ELEMENT SOLID WASTE SUBELEMENT GOALS, OBJECTIVES AND POLICIES

GOAL 3. SOLID WASTE

THE CITY SHALL CONTINUE TO PROVIDE EITHER DIRECTLY OR BY CONTRACT WITH A PRIVATE ENTITY AN ADEQUATE SOLID WASTE COLLECTION, TRANSFER, AND RESOURCE RECOVERY SYSTEM TO MEET THE NEEDS AND DEMANDS OF THE CURRENT AND FUTURE POPULATION WHILE PROTECTING AND ENHANCING THE SOCIAL, ECONOMIC, AND ENVIRONMENTAL QUALITY OF THE CITY AND CO-OPERATING WITH THE VOLUSIA COUNTY TO REDUCE RELIANCE ON AS NECESSARY TO EVENTUALLY ELIMINATE THE USE OF LANDFILLS.

OBJECTIVE 3.1. CITY LANDFILL

The City shall continue to monitor the groundwater and surface water in the vicinity of the landfill after closure to determine if the landfill has any adverse impacts on the environment.

POLICY 3.1.1.

The City will monitor its closed Class III landfill in accordance with Florida Department of Environmental Protection (FDEP) rules.

POLICY 3.1.2.

The City shall continue to implement a program of data collection, monitoring, and periodic review of groundwater and surface water quality parameters to be able to effectively assess if any environmental impacts or health hazards may be associated with leachate.

POLICY 3.1.3.

The City shall continue to manage a long-term monitoring program at the landfill that includes at a minimum, the following:

- a. All landfill groundwater monitoring wells monitored on an annual basis;
- b. Landfill monitoring wells will be tested for water quality parameters in accordance with FDEP requirements;
- c. Periodic review of data collected and overall monitoring program results; and
- d. Correction of any problem discovered by the monitoring.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 3.1.4.

The City shall utilize reclaimed landfill sites for municipal recreation purposes consistent with the Parks and Recreation Master Plan. ~~Recreational and Open Space Master Plan.~~

OBJECTIVE 3.2. SOLID WASTE COLLECTION

The City shall effectively and efficiently operate a solid waste collection system to maximize the use of existing facilities and services and shall provide service to all residential and non-residential establishments within the City limits.

POLICY 3.2.1.

The City shall continue to incrementally expand its solid waste collection system to meet the needs of new growth and to maintain existing levels-of-service.

POLICY 3.2.2.

The City shall maintain the Solid Waste Disposal and Collection as an Enterprise Fund to pay for solid waste collection and transfer expenses.

POLICY 3.2.3.

The level-of-service standard for determining the availability of County Landfill facility capacity and the demand generated by development shall be in accordance with the Capital Improvements Element.

POLICY 3.2.4.

The City shall maintain a separate trash handling system for the collection of refrigerators, freezers, appliances, (white goods), and large piles of yard trash.

OBJECTIVE 3.3. RESOURCE RECOVERY AND VOLUME REDUCTION

The City shall continue to administer resource recovery and volume reduction practices to conserve natural resources and reduce landfill space requirements and maximize the use of existing facilities and services.

POLICY 3.3.1.

The City shall participate in the design, implementation, and evaluation of local recycling and waste management programs.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 3.3.2.

Alternative disposal methods for yard trash shall be continued in cooperation with the County.

POLICY 3.3.3.

The City shall ~~reduce the volume of non-hazardous~~ maintain the rate of reduction of the municipal solid waste disposed of in the County landfill by thirty 30 percent and meet additional State reduction goals as they are enacted of the October FY 1995-96 volume. No more than one-half of this thirty percent shall be met with a reduction in yard trash, white goods, scrap metal, construction debris, and tires while the other half may be met with a reduction in paper goods, perishable foods, plastic goods, and metal and glass containers.

POLICY 3.3.4.

Through the development review process, the City shall ensure that commercial and industrial establishments participate in recycling efforts.

POLICY 3.3.5.

The City shall implement recycling programs and participate in any County resource recovery programs as necessary to achieve reductions in solid waste as mandated by State law.

~~POLICY 3.3.6.~~

~~The City shall maintain a non-residential development recycling program which targets industrial and commercial establishments.~~

~~POLICY 3.3.7.~~ POLICY 3.3.6.

An adequate public participation rate in recycling shall be maintained to meet State requirements for volume reduction.

~~POLICY 3.3.8.~~ POLICY 3.3.7.

The City shall inform and educate the public about recycling and products which are not recyclable, cannot be converted or cannot be used.

OBJECTIVE 3.4. ADMINISTRATION AND DEVELOPMENT REVIEW

The City shall continue to administer, in a cost-efficient and environmentally safe manner, a collection and transfer solid waste system that is fully supported by user fees and that is designed to effectively meet the needs of existing and future residents.

POLICY 3.4.1.

The City's Department of Finance and Public Works shall work together to maintain a full cost accounting and reporting system for the collection and transfer of solid waste in compliance with the Solid Waste Management Act.

POLICY 3.4.2.

The City will participate in the "Keep Volusia Beautiful" program to control the problem of littering and illegal dumping.

POLICY 3.4.3.

The City shall support the County to maintain landfill location determination criteria designed to address minimum size criteria, minimum distance from residential areas, schools and hospitals, minimum distance from streams, aquifer recharge areas, and wetlands, stays out of 100-year floodplain, and determines maximum distance from main roads.

POLICY 3.4.4.

Solid waste generated within the City limits shall continue to be collected on a regularly scheduled basis.

POLICY 3.4.5.

Residential, commercial, and industrial development shall adequate landfill space to meet the solid waste needs anticipated to be generated by the proposed development activity in accordance with interim review of development activities and with the Land Development Code. All proposals for development shall include an analysis of the amount and types of solid waste to be generated and ability of the City and County to accommodate the new demand. No development shall be approved unless there is sufficient collection, transfer and disposal resources available to meet the new demand consistent with Level-of-Service Standards LOSS.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

UTILITIES ELEMENT HAZARDOUS MATERIAL AND WASTE SUBELEMENT GOALS, OBJECTIVES AND POLICIES

GOAL 4. HAZARDOUS MATERIALS AND WASTE

THE PUBLIC HEALTH, SAFETY AND WELFARE SHALL BE PROTECTED FROM THE IMPROPER MANAGEMENT OF HAZARDOUS WASTES AND MATERIALS USED AND GENERATED IN AND TRANSPORTED THROUGH THE CITY.

OBJECTIVE 4.1. HAZARDOUS WASTE PROGRAM DEVELOPMENT

The City shall continue its cooperation with the County to reduce improper hazardous storage and disposal. The City may consider disposal options which include privatization of service or interlocal agreements with the County.

POLICY 4.1.1.

Hazardous waste generators shall develop and submit to the City a hazardous waste management program at site plan submittal to protect the citizens and the environment from misuse, spills, and improper disposal. The purpose of the hazardous waste management plan is to ensure the safest and most efficient use and disposal of hazardous materials.

POLICY 4.1.2.

Business/industrial park storage/transfer facilities shall, at a minimum, conform to the Florida Department of Environmental Protection FDEP transporter permitting requirements.

POLICY 4.1.3.

Each business/industrial park shall secure, prior to leasing or selling any lots or parcels, arrangements with an the Florida Department of Environmental Protection FDEP permitted hazardous waste management company to pick up and transfer waste from the park on a regularly scheduled basis.

POLICY 4.1.4.

All users and generators shall properly store and dispose of hazardous materials and waste upon adoption of this plan. The following criteria shall apply in the implementation of this Policy:

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

- a. Large quantity generators (companies that generate in excess of 2,200 lbs./month) and industrial/commercial parks containing generators that produce waste not suitable for recycling, exchange or reuse shall be encouraged to reduce hazardous waste volumes and to obtain necessary permits to develop on-site treatment facilities to render the waste non-hazardous.
- b. Existing Federal and State regulations relating to storage, transfer, and disposal shall be stringently enforced through coordinated efforts at both State and local levels.
- c. On-site verification of a generator compliance with applicable rules and regulations shall be made, at a minimum, once a year.

OBJECTIVE 4.2. DEVELOPMENT REGULATIONS

All development activities shall provide protection to the environment and the public welfare from any hazardous wastes consistent with the provisions of the Land Development Code.

POLICY 4.2.1.

The City shall not admit those types and quantities of industrial waste that are harmful or damaging to the structures, processes, or operation of the sewage works.

POLICY 4.2.2.

The industrial user of the sewer system shall provide such preliminary treatment or handling of its waste as may be necessary to modify any objectionable characteristics or constraints.

POLICY 4.2.3.

The City shall require safe management, manufacture, transportation, usage, and disposal of hazardous materials.

POLICY 4.2.4.

The City shall continue to require all buildings scheduled for demolition or renovation be surveyed by the applicant for the presence of asbestos. Asbestos shall be removed prior to demolition. Any asbestos removal and disposal shall be performed by a contractor licensed by the Florida Department of Professional Regulation.

POLICY 4.2.5.

The City shall enforce the asbestos removal provisions adopted in the Florida Building Code in regard to asbestos removal during demolition or construction activities.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

UTILITIES ELEMENT ~~NATURAL GROUNDWATER RECHARGE SUBELEMENT~~ GOALS, OBJECTIVES, POLICIES

GOAL 5. POTABLE WATER SUPPLY

THE PUBLIC SHALL BE ENSURED AN ADEQUATE SUPPLY OF SAFE, POTABLE WATER WHICH IS OBTAINED FROM THE HIGHEST QUALITY SOURCE AVAILABLE AND IS PROTECTED FROM CONTAMINATION.

OBJECTIVE 5.1. DEVELOPMENT REVIEW

Natural groundwater protection standards shall be utilized in review of development activities as provided by the Land Development Code.

POLICY 5.1.1.

Saltwater intrusion shall be prevented by limiting potentially harmful water extraction and ensuring adequate recharge.

POLICY 5.1.2.

The use of native and drought-resistant vegetation in landscaping shall be encouraged by providing developers with a list of appropriate native vegetation at site plan application.

POLICY 5.1.3.

The City shall continue to deliver effluent for reuse as a component of its effluent disposal program for environmentally and economically suitable areas. ~~The City shall consider providing economic incentives to developments, agricultural operations and businesses which limit potable water consumption by using effluent reuse systems.~~

POLICY 5.1.4.

The City shall continue to administer an emergency water shortage plan.

POLICY 5.1.5.

Land use decisions and development approvals shall be consistent with adopted comprehensive water basin management plans. Water supply, production facilities, conveyance lines and Consumptive Use Permit C.U.P. capacity shall be available for new site plan and/or subdivision developments, prior to the issuance of development orders.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 5.1.6.

The use of ~~procreation~~ of native vegetation and/or drought-resistant vegetation shall be required on development projects ~~when irrigation water is drawn from sources which are critical to limiting saltwater intrusion.~~

POLICY 5.1.7.

Industries which utilize or generate hazardous materials shall be sited and designed so as to minimize the threat of surface water or groundwater contamination.

POLICY 5.1.8.

The City shall continue to apply regulations and procedures to control permanent water table drawdown in accordance with the County minimum environmental standards and the provisions of the Land Development Code.

~~POLICY 5.1.9.~~

~~Encourage Volusia County to maintain a functioning positive (pumped) drawdown system, in its "high-rise" landfills, to continually extract the mass of accumulating leachate and properly treat it.~~

~~POLICY 5.1.10.~~ POLICY 5.1.9.

Removal of the confining layer of material separating the bottom of borrow pits from the top of the Floridan Aquifer shall be prohibited as provided by the Land Development Code.

~~POLICY 5.1.11.~~ POLICY 5.1.10.

Water management plans shall be designed to approximate pre-development recharge conditions.

~~POLICY 5.1.12.~~ POLICY 5.1.11.

Land use planning and land development approvals shall reflect the limitations of available water supplies. The City shall continue to use its concurrency management system to limit development potential in accordance with available raw water production, treatment, distribution and permitted withdrawal capacity.

~~POLICY 5.1.13.~~ POLICY 5.1.12.

The watershed upstream of surface water potable water supplies shall be protected. Activities within the watershed should not reduce the volume of water available under low-flow conditions; or reduce the quality of the surface water below State standards.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 5.1.14.~~ POLICY 5.1.13.

The disposal of non-hazardous waste shall be managed and controlled to prevent surface water and groundwater contamination. The City shall continue to implement a groundwater and surface water monitoring program to detect potential contamination by leachate.

~~POLICY 5.1.15.~~ POLICY 5.1.14.

Marinas which service boats with on-board sewage facilities shall be required to provide sewage pump out and treatment facilities and to provide for the appropriate effluent disposal method. Such pump out and treatment facilities shall be maintained in good working order to assure the contamination of groundwater or surface water, in accordance with the provisions of the Florida Administrative Code, F.A.C. does not occur.

~~POLICY 5.1.16.~~ POLICY 5.1.15.

Industries which use hazardous materials or generate hazardous waste shall be regulated to prohibit the release of hazardous materials in violation of State water quality standards for groundwater and surface waters.

~~POLICY 5.1.17.~~ POLICY 5.1.16.

The withdrawal or discharge of water which alters hydroperiods, discharge volumes, in-stream velocities, surface water stages or groundwater levels so as to cause a significant, adverse effect on natural water-dependent ecosystems is prohibited. Such projects shall be permitted only in cases of overriding public benefit, such as alterations in the stage or flow of surface waters as a part of any government sanctioned program of flood control, water quality restoration, habitat restoration or exotic plant control and shall be designed and operated so as to minimize harm to non-target organisms or natural ecosystems.

~~POLICY 5.1.18.~~ POLICY 5.1.17.

The City shall determine water supply levels-of-service in conjunction with the St. John River Water Management District. Land development permits will be subject to those limitations.

~~POLICY 5.1.19.~~ POLICY 5.1.18.

The City shall issue no development orders or development permits without first consulting appropriate water suppliers to determine whether adequate water supplies to serve the development will be available no later than the anticipated date of issuance by the City of a Certificate of Occupancy or its functional equivalent. The City will also ensure that adequate water supplies and facilities are available and in place prior to issuing a Certificate of Occupancy or its functional equivalent.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 5.2. INTERGOVERNMENTAL COORDINATION

The City shall coordinate with the St. Johns River Water Management District to develop intergovernmental responses to groundwater problems.

POLICY 5.2.1.

The City shall maintain a ~~w-Water s-Supply w-Work p-Plan~~ that is coordinated with St. Johns River Water Management District's ~~District~~ Regional Water Supply Work Plan by updating the work plan within 18 months of an update to the District's ~~District~~ Regional Water Supply Plan that affects the City.

POLICY 5.2.2.

The City will participate in the development of updates to St. Johns River Water Management District's water supply assessment and ~~District~~ Regional Water Supply Plan and other water supply development-related initiatives facilitated by the District's that affect the City.

POLICY 5.2.3.

The City's Water Supply Work Plan is incorporated into the Comprehensive Plan as Appendix A of the Utilities Element. The City will implement the Water Supply Work Plan through the annual Capital Improvement Plan process.

OBJECTIVE 5.3. WATER CONSERVATION

The City shall continue to review water conservation measures that encourage water conservation. The City shall follow all water conservation plans approved by St. John's River Water Management District as part of the City's Consumptive Use Permit (C.U.P.).

POLICY 5.3.1.

The Public Works and Utilities Department shall monitor per capita finished water consumption rates and shall develop an action plan to reduce per capita consumption if the per capita consumption exceeds by 25 percent% the average gross per capita consumption of 110 gallons per day (gpd).

POLICY 5.3.2.

Potable water supplies shall be conserved to the maximum extent practicable through the continued implementation of water conservation techniques and programs. Such techniques and programs may include, but are not limited to:

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

- a. The City shall ~~work through the Water Authority of Volusia (WAV)~~ continue to incentivize water conservation using low-flow showers and toilets, rain sensors for lawn irrigation, ~~and xeriscape~~.
- b. The City will continue to implement and expand its program to provide for water reuse and/or reclamation and where appropriate require effluent reuse for irrigation, industrial use and other appropriate non-potable water use applications.
- c. The City shall require new development to install 'dry-lines' for reclaimed water distribution. Developments with greater than 100 units shall provide on-site storage and pumping, integrated with the stormwater management system. ~~Under certain conditions, the developer may be allowed to contribute an equivalent value of the infrastructure into a reclaimed water construction fund.~~
- d. The City shall ~~purchase a~~ continue its leak detection systems ~~by 2010~~ which will enable water distribution crews to monitor the entire City's water distribution system ~~through the use of leak noise loggers~~.

POLICY 5.3.3.

Non-potable water use demands shall be met using water of the lowest quality supply which is both available and acceptable for the intended application. Water reuse or water reclamation programs should be used, wherever economically and environmentally feasible, to reduce groundwater or surface water withdrawals for water use applications which do not require potable water.

POLICY 5.3.4.

The City shall utilize a low-pressure ~~reverses~~ reverse osmosis (LPRO) treatment process which permits the use of brackish groundwater which is lower quality water source from the Upper Floridan Aquifer. Future needs may require ~~to~~ the City to use the Lower Floridan Aquifer as an alternative water source.

POLICY 5.3.5.

The City shall maintain a comprehensive program responsible for educating businesses and residents of the City's current water conservation policies, the fragility of the aquifer, methods to reuse and conserve water, well abandonment problems and rules, and encouragement of the use of drought resistant plants (~~xeriscape~~).

POLICY 5.3.6.

The City of Ormond Beach will plan for municipal service areas or extend water and sewer services into unincorporated Volusia County in a manner consistent with the Volusia County Comprehensive Plan.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 5.3.7.

The City of Ormond Beach will implement all water conservation practices that are conditions of the Consumptive Use Permit C.U.P.

OBJECTIVE 5.4. NATURAL GROUNDWATER AQUIFER PROTECTION

The City shall protect the functions of designated natural groundwater aquifer recharge areas as provided by the Land Development Code.

POLICY 5.4.1.

The City shall regulate land use and development to protect functions of the designated recharge areas.

POLICY 5.4.2.

Prime groundwater recharge areas and other recharge areas which have been identified by the St. Johns River Water Management District the ECFRPC or subsequently by the City to maintain the quality and quantity of water in aquifers from which potable water supplies are drawn, shall be protected. Activities within recharge areas shall not reduce the volume of recharge (i.e., increase the total volume of post-development runoff), or reduce the quality of groundwater below State standards.

POLICY 5.4.3.

No commercial or industrial mining shall be allowed in prime groundwater recharge areas or in the watersheds of surface waters used as potable water supplies in order to prevent potentially adverse effects on water quality.

OBJECTIVE 5.5. PUBLIC WATER SUPPLY WELLFIELD PROTECTION

The City of Ormond Beach will safeguard the public health, safety and welfare of its citizens by appropriately regulating the storage, handling, use or production of hazardous substances within the well field protection areas surrounding public water supply wells and well fields.

POLICY 5.5.1.

The City shall continue to apply regulations and procedures contained in the Land Development Code concerning Public Water Supply Well Field Protection.

POLICY 5.5.2.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

Land uses or activities which, by their nature, represent a substantial risk to the quality or quantity of water from established public well fields or the watershed of surface water supplies shall be excluded from the immediate vicinity of such well fields or surface water supplies so as to minimize the threat to the public water supply. Conversely, the siting of new public water supplies shall avoid proximity to established land uses which may harm the water supply from that source.

POLICY 5.5.3.

The storage, use, disposal or production of hazardous or toxic substances ~~and that certain land uses~~ involving regulated or generic substances located within the "Primary and Secondary Well Field Protection Zones" surrounding public water supply wells and well fields that are potentially harmful to the drinking water of the City will be prohibited or severely restricted.

POLICY 5.5.4.

The City shall maintain a 'Primary Well Field Protection Zone,' which is defined as the land area immediately surrounding any public water supply well and extending a radial distance of two hundred (200') feet, or that area that is within the first twenty (20%) percent of the total radial distance of the cone of influence, whichever is greater.

POLICY 5.5.5.

The City shall maintain a 'Secondary Well Field Protection Zone' which is defined as the land area surrounding the 'Primary Well Field Protection Zone,' and extending a radial distance of eight hundred (800') feet from the 'Primary Well Field Protection Zone,' or that area within the cone of influence exclusive of the 'Primary Zone,' whichever is greater.

UTILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

APPENDIX A - WATER SUPPLY WORK PLAN

ORDINANCE NO. 2024-08

AN ORDINANCE OF THE CITY OF ORMOND BEACH, RELATING TO COMPREHENSIVE PLANNING, ADOPTING A 2024 WATER SUPPLY WORK PLAN; ADOPTING COMPREHENSIVE PLAN AMENDMENTS TO *THE CITY OF ORMOND BEACH COMPREHENSIVE PLAN*, RELATED TO THE WATER SUPPLY WORK PLAN, INCLUDING THE UTILITIES ELEMENT, CONSERVATION ELEMENT, AND CAPITAL IMPROVEMENTS ELEMENT, IN ACCORDANCE WITH CHAPTER 163, PART II AND CHAPTER 373 *FLORIDA STATUTES*; PROVIDING FOR TRANSMITTING COPIES OF THE NOTICE AND AMENDMENTS TO THE STATE REVIEWING AGENCIES, THE VOLUSIA GROWTH MANAGEMENT COMMISSION, THE COUNTY OF VOLUSIA, AND ANY OTHER LOCAL GOVERNMENT OR GOVERNMENTAL AGENCY REQUESTING A COPY; PROVIDING FOR PUBLIC HEARINGS; PROVIDING FOR CONFLICTING ORDINANCES; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, by Ordinance No. 90-36, the City Commission did adopt the *City of Ormond Beach Comprehensive Plan* (“*Comprehensive Plan*”) as required by the Local Government Comprehensive Planning and Land Development Regulation Act (Chapter 163, Part II, *Florida Statutes*) which *Comprehensive Plan* has been subsequently amended, and

WHEREAS, by Ordinance 2008-60 the City Commission did adopt certain amendments to the *City of Ormond Beach Comprehensive Plan* related to the 2008 Water Supply Work Plan; and

WHEREAS, to promote consistency among local government comprehensive plans and the Central Springs/East Coast Regional Water Supply Plan, Section 163.3177(6)(c)(4), *Florida Statutes*, requires each local government within the Central Springs/East Coast Regional

Water Supply Plan planning area to amend its comprehensive plan to adopt an updated Water Supply Work Plan within 18 months of the governing board approval of the 2022 Central Springs/East Coast Regional Water Supply Plan; and

WHEREAS, the City of Ormond Beach is required to amend the city's *Comprehensive Plan* to include an updated Water Supply Work Plan that is consistent with and reflects changes mandated by State law; and

WHEREAS, the proposed amendments to the *City of Ormond Beach Comprehensive Plan* are being submitted under the expedited state review process as provided in Section 163.3184, *Florida Statutes*; and

WHEREAS, on April 11, 2024 the Planning Board serving as the local planning agency, conducted a public meeting with due public notice on the *Comprehensive Plan* amendments, and recommended approval thereof, and

WHEREAS, the City Commission has duly conducted a public hearing authorizing transmittal of the requested *Comprehensive Plan* amendments, as described in §163.3184(3) and (11), *Florida Statutes*, and

WHEREAS, the City Commission has duly conducted a public hearing adopting the requested *Comprehensive Plan* amendments, as described in §163.3184(3)(c)(1), (4)(e)(1) and (11), *Florida Statutes*, and

WHEREAS, the City Commission finds that approval of the *Comprehensive Plan* amendments will preserve the internal consistency of the City's *Comprehensive Plan* pursuant to §163.3177, *Florida Statutes*, and

WHEREAS, the *City of Ormond Beach Comprehensive Plan* amendments to the Utilities Element, Conservation Element, and Capital Improvements Element are attached to this Ordinance as Exhibit “A” attached hereto and incorporated herein by reference, and

WHEREAS, the Water Supply Work Plan is adopted as an Appendix A to the Utilities Element and is attached to this Ordinance as Exhibit “B” attached hereto and incorporated herein by reference, and

WHEREAS, for the purposes of this Ordinance, underlined type constitutes additions to the original text and ~~strikethrough~~ shall constitute deletions to the original text, now therefore,

BE IT ENACTED BY THE PEOPLE OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. The foregoing recitals are incorporated herein by reference as the legislative findings of the Ormond Beach City Commission.

SECTION TWO. The Utilities Element of the *City of Ormond Beach Comprehensive Plan*, is hereby amended with the text amendments as set forth in Exhibit “A” attached hereto and incorporated herein by reference.

SECTION THREE. The Conservation Element of the *City of Ormond Beach Comprehensive Plan*, is hereby amended with the text amendments as set forth in Exhibit “A” attached hereto and incorporated herein by reference.

SECTION FOUR. The Capital Improvements Element of the *City of Ormond Beach Comprehensive Plan*, is hereby amended with the text amendments as set forth in Exhibit “A” attached hereto and incorporated herein by reference.

SECTION FIVE. The City of Ormond Beach Water Supply Work Plan is updated in its entirety from the 2008 Water Supply Work Plan to the 2024 Water Supply Work Plan as set forth in Exhibit “B” (Appendix A) attached hereto and incorporated herein by reference.

SECTION SIX. In order to make the *City of Ormond Beach Comprehensive Plan*, as hereby amended, available to the public, a certified copy of the enacting Ordinance, as well as certified copies of the *City of Ormond Beach Comprehensive Plan* and the amendments thereto, shall be located in the Planning Department of the City of Ormond Beach. The Planning Director shall also make copies available to the public for a reasonable reproduction charge.

SECTION SEVEN. The Planning Director is hereby authorized and directed to transmit the appropriate number of copies of the notice and amendments within ten (10) days after the first reading of this Ordinance to the appropriate agencies and to any other unit of local government who has filed a written request for a copy in accordance with the provisions of Section 163.3184, Florida Statutes and Volusia Growth Management Commission rules per Section 202.3 of the Charter of Volusia County.

SECTION EIGHT. Pursuant to §163.3184(3) and (4), *Florida Statutes*, the second reading of this *Comprehensive Plan* amendment shall not exceed 180 days after the receipt of the Florida Department of Commerce comments.

SECTION NINE. All Ordinances or parts of Ordinances in conflict herewith are hereby repealed to the extent of such conflict.

SECTION TEN. In the event any section or provision of this Ordinance be declared by any court of competent jurisdiction to be unconstitutional or invalid, such declaration shall not be deemed to affect the validity of this Ordinance as a whole or any other section or provision thereof.

SECTION ELEVEN. The effective date of this plan amendment, if the amendment is not timely challenged, shall be 31 days after the state land planning agency notifies the City of Ormond Beach that the plan amendment package is complete. If timely challenged, this amendment shall become effective on the date the state land planning agency or the Administration Commission enters a final order determining this adopted amendment to be in compliance. No development orders, development permits, or land use dependent on this amendment may be issued or commence before it has become effective. If a final order of noncompliance is issued by the Administrative Commission, this amendment may nevertheless be made effective by adoption of a resolution affirming its effective status, a copy of which resolution shall be sent to the state land planning agency.

PASSED UPON at the first reading of the City Commission, this 21st day of May, 2024.

PASSED UPON at the second and final reading of the City Commission, this 6th day of August, 2024.

BILL PARTINGTON
Mayor

ATTEST:

SUSAN CARROLL DAUDERIS
City Clerk

WATER SUPPLY WORK PLAN UPDATES TO COMPREHENSIVE PLAN

Utilities Element

POLICY 1.2.5

The City will implement the traditional and alternative water supply projects ~~scheduled for completion by 2013~~ as identified in the Water Supply ~~w~~Work Plan.

POLICY 1.2.6.

The City will expand its reclaimed water system in accordance with the 2015 Utility Master Plan and subsequent updates in an effort to improve water quality throughout the region. The City shall establish a target of 100% reuse of average daily wastewater flow by the year 2030, except for operational conditions, including current weather conditions, anticipated weather patterns, reclaimed water demands, reclaimed water use patterns, system draw down restrictions, system surplus volume, interruptible customer service restrictions, system operational efficiency, production capability, reclaimed storage capacity, availability of storm and groundwater augmentation sources, and other agency regulatory restrictions that require river discharge.

POLICY 1.7.2.

Projected demands ~~through the year 2015~~ shall be met by undertaking those projects as identified in the Capital Improvements Element.

POLICY 5.2.1.

The City shall maintain a ~~w~~Water ~~s~~Supply facilities ~~w~~Work ~~p~~Plan that is coordinated with St. Johns River Water Management District's ~~District~~ Regional Water Supply Work Plan by updating the work plan within 18 months of an update to the District's ~~District~~ Regional Water Supply Plan that affects the City.

POLICY 5.2.2.

The City will participate in the development of updates to St. Johns River Water Management District's water supply assessment and ~~District~~ Regional Water Supply Plan and other water supply development-related initiatives facilitated by the District's that affect the City.

POLICY 5.2.3.

The City's Water Supply Work Plan is incorporated into the Comprehensive Plan as Appendix A of the Utilities Element. The City will implement the Water Supply Work Plan through the annual Capital Improvement Plan process.

POLICY 5.3.2.

Potable water supplies shall be conserved to the maximum extent practicable through the continued implementation of water conservation techniques and programs. Such techniques and programs may include, but are not limited to:

- a. The City shall ~~work through the Water Authority of Volusia (WAV)~~ continue to incentivize water conservation using low-flow showers and toilets, rain sensors for lawn irrigation, and xeriscape.
- b. The City will continue to implement and expand its program to provide for water reuse and/or reclamation and where appropriate require effluent reuse for irrigation, industrial use and other appropriate non-potable water use applications.
- c. The City shall require new development to install 'dry-lines' for reclaimed water distribution. Developments with greater than 100 units shall provide on-site storage and pumping, integrated with the stormwater management system. Under certain conditions, the developer may be allowed to contribute an equivalent value of the infrastructure into a reclaimed water construction fund.
- d. The City shall ~~purchase a~~ continue its leak detection systems ~~by 2010~~ which will enable water distribution crews to monitor the entire City's water distribution system through the use of leak noise loggers.

Conservation Element

POLICY 1.2.7.

~~By the year 2010, the City shall develop a plan to further reduce the amount of treated effluent discharged to the Halifax River to 10% of the total volume of wastewater treated at the plant.~~

The City shall establish a target of 100% reuse of average daily wastewater flow by the year 2030, except for operational conditions, including current weather conditions, anticipated weather patterns, reclaimed water demands, reclaimed water use patterns, system draw down restrictions, system surplus volume, interruptible customer service restrictions, system operational efficiency, production capability, reclaimed storage capacity, availability of storm and groundwater augmentation sources, and other agency regulatory restrictions that require river discharge.

POLICY 5.3.8.

The City shall reduce groundwater withdrawal through the utilization of a reclaimed water scheduling program as mentioned in section 2C of the 2023 Water Supply Plan. The reclaimed water schedule may be updated by the Utility Manager or Public Works Director as deemed necessary. Additionally, the City will continue to communicate the importance of watering conservation with its customers.

Capital Improvements Element

POLICY 1.3.2.

The City shall use the following level-of-service standards to determine the impacts of new development and redevelopment upon public facility provision:

- a. **Fire Fighting:** All development having a density equivalent to or greater than one (1) unit per acre shall be served by a public/private central water system capable of delivering the required fire flows having adequate firefighting capacity of a minimum of 1,000 gpm or greater as determined by the Chief Fire Official in conjunction with the City Engineer or National Fire Protection Associates (NFPA) guidelines (or its equivalent where a sprinkler system is used) and minimum 20 psi residual for a minimum two- (2-) hour duration depending upon the specific structure and/or use. Single-family home development at less than one (1) unit per acre or less, or other development of equivalent intensity (e.g., average daily water use of less than 300 gpd per acre), may be served by an individual well. All required fire flows will be in addition to the peak daily demand established.
- b. **Parks (acres per population):** 13 acres per 1,000 population
A capital facilities recovery fee to develop lands dedicated by developers to meet the acreage level of service standards shall be pursued. The recovery fee may be either assessed to the developer of the subdivision or the builder of the home in the form of an impact fee.
Subdivisions which provide private recreation lands and facilities shall be provided a credit against the land dedication and capital facilities recovery fee.
- c. **Roads:** The following level-of-service standards are adopted for roadways Citywide:

City County State	LOS Daily	LOS Peak Hour
	C	D
	D	E
	C (SIS/FIHS)	D (TRIP)

- d. **Water:**

Raw:	An average daily volume of 124 gallons of raw water per capita per day. <u>An average daily volume of 330 gallons per Equivalent Residential Unit (ERU).</u>
Potable:	An annual average daily volume of 110 gallons per capita per day. <u>An average daily volume of 300 gallons per ERU.</u>

<u>Sewer:</u>	<u>An average daily volume of 270 gallons per ERU.</u>
<u>Reclaimed:</u>	<u>An average of daily volume of 600 GPD per ERU.</u> <u>An average daily volume of 300 GPD per ERU.</u>

Other uses water standards:

<u>Types of Establishments*</u>	
<u>Apartments</u>	<u>0.7 ERU per unit</u>
<u>Bars and cocktail lounges</u>	<u>0.05 ERU per seat</u>
<u>Barbershop</u>	<u>0.25 ERU per seat</u>
<u>Beauty Shop</u>	<u>0.5 ERU per seat</u>
<u>Car Wash</u>	<u>8.5 ERU minimum</u>
<u>Dentist</u>	<u>0.7 ERU per wet chair</u>
<u>Factories (with Showers or Chemicals)</u>	<u>0.1 ERU per 100 Sq. Ft.</u>
<u>Factories (without Showers or Chemicals)</u>	<u>0.05 ERU per 100 Sq. Ft.</u>
<u>General Commercial / Office Buildings</u>	<u>0.05 ERU per 100 Sq. Ft.</u>
<u>Gas Stations (no car wash)</u>	<u>1.5 ERU per bathroom</u>
<u>Hospitals</u>	<u>0.7 ERU per bed</u>
<u>Hotels and Motels</u>	<u>0.4 ERU per room</u>
<u>Movie theaters, auditoriums, churches</u>	<u>0.02 ERU per seat</u>
<u>Nursing Homes / A.L.F.</u>	<u>0.5 ERU per bed</u>
<u>Restaurants</u>	<u>0.15 ERU per seat</u>
<u>Single-Family residence</u>	<u>1.00 ERU per unit</u>
<u>Schools</u>	<u>0.05 ERU per seat</u>
<u>Townhouse residence</u>	<u>0.7 ERU per unit</u>

*The Site Plan Review Committee will consider alternate flow rates for various establishments if the applicant/Engineer of Record can provide supporting documentation.

- e. Sanitary Sewer: An annual average daily volume of 281 gallons equivalent residential unit (ERU).

Sanitary Sewer Treatment: All development having a density equivalent to or greater than one (1) ERU per acre shall be served by a public/private wastewater

treatment system capable of handling the projected design flows with an appropriate peak factor, as determined by the applicant or design professional. The peak factor shall not be less than 2.5. For developments having a density of less than one (1) ERU per acre, the applicant may elect to install a septic system provided that the applicant obtains an appropriate permit from the Volusia County Health Department and the City's existing gravity collection system is not within 200 feet of the proposed development.

f. Solid Waste:

Average residential pick-ups per truck.....	1,600
Average commercial pick-ups/truck/route	155
Average residential pick-ups/man/day.....	226
Pounds/capita/day for residential, commercial and industrial waste.....	5.69
Pounds/capita/day for special wastes.....	3

- g. Drainage: The difference in the volume of run-off for 25 years frequency, 24-hour duration storm event between pre-development and post-development conditions shall be retained on-site. The difference between the pre-development and post-development conditions for peak run-off rates for the 100-year frequency, 24-hour duration rainfall event shall be retained on-site. Individual development facility capacity shall be maintained so that there is no potential flooding increase above the base year elevation. There shall be no degradation of water quality of Class III waters. An equal or greater volume of storage capacity must be created for any volume of the regulatory flood that would be displaced by fill or structures. The velocity of the regulatory flood must not be adversely altered on any watercourse.

Areas not filled are to generally be left in their natural state. However, such areas may be used to meet landscaping and/or retention requirements, provided that the design is consistent with the then-existing City standards and ordinance requirements. Fill limitations consistent with the Land Development Code and the performance standards for each wetland classification established by the Conservation Element shall be enforced for all developments lying within areas of special flood hazard, as defined by the 100-year floodplain boundaries of the FEMA FIRM maps.

1. INTRODUCTION

1.1 GENERAL

Chapters 163 and 373 of Florida Statutes create a link between a regional water supply adopted by the Saint John's River Water Management District (SJRWMD) and local government comprehensive plans. Florida Statutes require water management districts to prepare a water supply plan for a twenty-year planning period to ensure that existing water sources are adequate to meet projected water demand. Local governments within a regional water supply planning area must develop a Water Supply Work Plan (WSWP) to ensure that adequate water supply is available to meet future demands over a 10-year planning period.

The overall purpose of this Water Supply Facilities Work Plan is to summarize the City of Ormond Beach's current water supply, water treatment, and effluent disposal methods, along with projecting future water demands based upon anticipated development projects scheduled to occur over the next ten years. The city is working towards meeting the projected water demands and the requirements of Senate Bill 64, which dictates the elimination of nonbeneficial surface water discharge. The City has selected a multi-tiered planning period for this document. Flows are projected, and capital projects are planned through 2033, representing a ten (10) year time horizon. The identified infrastructure improvement timeframes within this report are categorized by the following planning periods: Short Term (0-2 years), Intermediate (3-5 years), and Long Term (5-10 years). This categorization is aimed at creating an implementation schedule for the City. Actual implementation of recommended projects would occur yearly through adopting the Capital Improvement plan. The Water Supply Facilities Work Plan has been prepared in accordance with Sections 373.709 and 163.3177(6)(c)3 of the Florida Statutes. The Water Supply Facilities Work Plan demonstrates adequate water supply over the next ten years to serve utility customers within the adopted utility service area. The Water Supply Facilities Work Plan is intended to facilitate discussions between the city and the Saint John's River Water Management District's (SJRWMD) governing board and other regional government agencies that the city could form partnerships with.

1.2 REQUIREMENTS OF THE WATER SUPPLY FACILITIES WORK PLAN

The Florida Department of Economic Opportunity (now known as Florida Commerce) published "A Guide to the Preparation of the Water Supply Facilities Work Plan" and provides the statutory requirements for water supply and facility planning as follows:

1. Coordinate appropriate aspects of their comprehensive plan with the appropriate water management district's regional water supply plan. [Section 163.3177(4)(a), F.S.]
2. Revise the Potable Water Sub-Element to adopt a water supply facility work plan covering at least a 10-year planning period to meet existing and projected demand. The work plan should address those water supply facilities for which the local government is responsible and include the facilities needed to develop alternative

water supplies. The work plan should also identify conservation and reuse measures to meet future needs. [Section 163.3177(6)(c), F.S.]

3. Revise the Conservation Element to assess current and projected water needs and sources for at least a 10-year planning period. The analysis must consider the existing levels of water conservation, use, and protection, as well as the applicable policies of the water management district and the district's approved regional water supply plan. Without an approved regional water supply plan, the analysis must consider the district's approved water management plan. [Section 163.3177(6)(d)3, F.S.]
4. Revise the Capital Improvements Element to identify capital improvements projects to be implemented in the first five years of the work plan for which the local government is responsible, including both publicly and privately funded water supply projects necessary to achieve and maintain adopted level of service standards; and adopt a 5-year schedule of capital improvements to include those projects as either funded or unfunded, and if unfunded, given a level of priority for funding [163.3177(3)(a)4, F.S.]
5. Revise the Intergovernmental Coordination Element to adopt principles and guidelines to coordinate the comprehensive plan with the regional water supply authority (If applicable) and the applicable regional water supply plan. [163.3177(6)(h)1, F.S.]
6. During the Evaluation and Appraisal review, determine if comprehensive plan amendments are necessary to reflect statutory changes related to water supply and facilities planning since the last update to the comprehensive plan. If required, transmit the amendments to incorporate the statutory changes as appropriate. [Section 163.3191(1) and (2), F.S.]

2. DATA AND ANALYSIS

2.1 SERVICE AREA

The City of Ormond Beach is in northeastern Volusia County, North of Daytona Beach and Holly Hill, and South of Flagler County. It has a municipal boundary encompassing approximately 38 square miles and a utility service area encompassing approximately 57 square miles. The city provides potable water service to residential, retail, commercial, and industrial customers throughout its service area. The City currently has approximately 56,000 potable water customers. In addition to the corporate limits of the City of Ormond Beach, the utility service area includes:

1. The North Peninsula Water District: This area includes portions of unincorporated Volusia County, including Ormond by the Sea;
2. Hunter's Ridge-Flagler County Development of Regional Impact (DRI): The City of Ormond Beach and Flagler County entered into an interlocal agreement for the provision by the City of water and wastewater services to that portion of the Hunter's Ridge Development of Regional Impact that is located in the unincorporated territory of Flagler County (Hunter's Ridge-Flagler County DRI

Service Area), said interlocal agreement having been amended on November 16, 2009, and recorded at Book 6421, pages 2821-2829 in the Public Records of Volusia County, Florida; and

3. West Ormond Utilities District that includes lands within the City of Daytona Beach. This area contains multiple land areas including the Chelsea Place subdivision, Pineland subdivision, lands west of Tymber Creek Road, including Hunter's Ridge, Breakaway Trails, and a land area within the City of Daytona Beach. In 2006, Ormond Beach and Daytona Beach each approved a Settlement Agreement that governs the portion of the Ormond Beach utility service area within the City of Daytona Beach. The Settlement Agreement incorporates four interrelated documents: (1) a Second Amended Water and Sewer Service Area Agreement; (2) an Interlocal Wholesale and Wastewater Treatment Service Agreement; (3) an Interlocal Agreement for the Operation, Administration, and Maintenance of Finished Water Interconnects East [and West] of I-95; and (4) a Wholesale Water and Wastewater Rate Analysis by Black & Veatch.

A Utility Service Area Map illustrating Ormond Beach's municipal boundary and service area is included **Figure 1**. Residents within the utility service area receive potable water, wastewater, and reclaimed water services from the City where service is available.

Figure 1: Service Area

2.2 EXISTING RAW WATER INFRASTRUCTURE

The City obtains its water supply to serve the utility service areas from four (4) separate wellfields. The wellfield names are as follows: Division, SR40, Hudson, and Rima Ridge. Within these four wellfields, 33 active primary and secondary groundwater production wells are drilled into the upper producing zones of the Floridan aquifer. Additionally, the City owns and operates three wells in the Breakaway (BAT) Trails wellfield region. These BAT wells are currently only being utilized for reclaimed augmentation purposes as needed. **Table 1** Below is summarized current information regarding the city's wellfields and corresponding capacities. Three new wells were "proposed" for construction within the Hudson wellfield in the 2015 Master Plan and are included **Table 1**. These three new wells are currently in the design process and are scheduled to be constructed in 2024 as part of a capital improvement project.

Table 1: Existing Wellfield Summary

Wellfield	Ormond Well ID	SJRWMD Well ID	Casing Diam. (IN)	Cased Depth (FT)	Total Depth (FT)	Pump Capacity (GPM)	Drill Date	Status

Breakaway Trail (Irrigation)	3 Breakaway	17800	8	100	260	260	1985	Active
Breakaway Trail (Irrigation)	4 Breakaway	17801	8	100	260	225	1985	Active
Breakaway Trail Total						700		
Maximum Production (All Wellfields)						9,692		

Utilizing the maximum production GPM value calculated within **Table 1**, the City can theoretically withdraw 9,692 GPM from the upper Floridan aquifer in its current condition. This flow rate translates to 13.9 million gallons per day (MGD). However, removing the BAT reclaimed augmentation wells from the equation results in a theoretical maximum production value of 8,992 GPM or roughly 12.9 MGD. This 12.9 MGD value is the City's current maximum production capability as of 2019. **Figure 2** shows the approximate geographic location of wells throughout the City's service area.

2.3 EXISTING WATER QUALITY

The primary water quality concern for the City's existing wellfields is chloride levels. **Table 2** summarizes the overall chloride levels for the Division and SR40 wellfields from 2015 to the middle of 2019. The Hudson, Rima Ridge, and BAT wellfields are not required to have their chlorides documented and recorded. Typical chloride levels are a concern and are considered elevated when they exceed 250 mg/L. As such, wells numbered 4D, 5D, 6D, 8D, and 16D have experienced 'high' levels of chlorides within the past few years. Having chloride levels exceeding 250 mg/L is not a critical concern because the city has a reverse osmosis membrane water treatment plant, but high chloride levels typically increase overall treatment, operating, and maintenance costs. As such, the city would like to reduce the overall usage of the wells above with higher chloride levels to the maximum extent allowable within their CUP limits during the renewal process.

Wells 18SR and 20SR are offline and need repairs or relocation. The city is working on re-establishing these wells soon. Having them back online will aid the City with raw water supply capacity and wellfield rotation and will likely help lower the measured chloride levels. The city intends to discuss these out-of-service wells with SJRWMD during their CUP renewal process.

Figure 2: Primary Raw Water Components

Table 2: Existing Wellfield Chloride Levels

*Well, 10D was returned to active service near the end of the calendar year 2023.

2.4 EXISTING RAW WATER PIPING

The raw water transmission system comprises approximately 134,701 lineal feet, or approximately 25.5 miles, of various pipe sizes. **Table 3** illustrates the estimated length of each type of material present throughout the raw water transmission system according to the latest GIS information. **Figure 3** show a portion of the existing raw water main system in the western portion of the City's service area. The purpose of the raw water transmission piping system is to transfer all water withdrawn from the aquifer by the city's wells to the water treatment plant, where it can be treated and distributed to the city's potable customers.

Table 3: Raw Water System Pipe Material Tabulation

Size	Ductile Iron (LF)	PVC (LF)	Other/Unknown (LF)	Total (LF)
24-inch	39,468			39,468

4-inch	287			287
Total	119,694	14,235	772	134,701

Figure 3: Existing Raw Watermains

2.5 EXISTING CONSUMPTIVE USE PERMIT STATUS

The City's current Consumptive Use Permit (CUP) was established in 2012 by the SJRWMD and is set to expire in 2024. **Table 4** The chart shows the City's current permitted withdrawal limit and historical usage for past years through 2022. The City is currently in the process of renewing its CUP with the SJRWMD. SJRWMD is currently calibrating the Springs model, and the City looks forward to discussing the revised model with the management district.

Table 4: Current CUP #8932 Groundwater Allocations

Year		Permitted Annual Average Withdrawal (MGD)	Historical Annual Average Withdrawals (MGD)
Historical	2009	7.39	6.03
	2010	7.53	6.61

	2015	7.14	6.32
	2016	7.24	6.71
	2017	7.32	6.59
	2018	7.48	6.59
	2019	7.56	6.91
	2020	7.69	6.85
	2021	7.8	6.33
	2022	7.93	6.20
Permitted Withdrawal	2023	8.04	5.95
	2024	8.18	-

The city has an overall permitted daily flow withdrawal limit from all wells and established withdrawal limits for each wellfield. ^{(b)(1)} The table shows the currently permitted withdrawal limits for each of the City's existing wellfields.

Table 5: Permitted Average Daily Withdrawals from Each Wellfield

Year	Division Avenue Wellfield (MGD)	SR 40 Wellfield (MGD)	Hudson Wellfield (MGD)	Rima Ridge Wellfield (MGD)	Breakaway Trails Wellfield (MGD)
2014	1.65	0.58	1.51	3.15	0.312
2015	1.65	0.59	1.58	3.15	0.312
2016	1.65	0.60	1.69	3.15	0.312
2017	1.65	0.61	1.76	3.15	0.312
2018	1.65	0.61	1.93	3.15	0.312
2019	1.65	0.61	2.01	3.15	0.312
2020	1.65	0.61	2.16	3.15	0.312
2021	1.65	0.61	2.28	3.15	0.312
2022	1.65	0.61	2.43	3.15	0.312
2023	1.65	0.61	2.45	3.15	0.312
2024	1.65	0.61	2.45	3.15	0.312

2.6 HISTORIC RAW WATER USAGE

Historical raw water use data has been compiled from records kept by the City. **Table 6** The data range from 2015 to 2022. The main point is that the City's raw water system has experienced peak day ratios up to 1.43 times the annualized average daily flow values.

Table 6: Historical Raw Water Usage

Year	Annualized Average Daily Flow (MGD)	Peak Month Flow (MGD)	Peak Day Flow (MGD)	Peak Day Ratio to AADF	Annual % Increase of ADF Flow Values
2015	6.322	6.740	7.870	1.25	
2016	6.713	7.260	8.070	1.20	6.18%
2017	6.588	7.100	7.620	1.16	-1.86%
2018	6.588	7.110	7.880	1.20	0.00%
2019	6.913	7.250	8.540	1.24	4.93%
2020	6.845	7.270	8.660	1.27	-0.98%
2021	6.330	6.990	7.930	1.25	-7.52%
2022	6.203	6.560	7.720	1.24	-2.01%
2023	5.945	6.140	8.490	1.43	-4.08%
Averages	6.563	7.034	8.036	1.25	-0.67%

2.7 EXISTING WATER TREATMENT SYSTEM

Once raw water is pulled from the upper Floridan aquifer from the City's wellfields, the water is transferred to the City's water treatment plant (WTP), which is treated and conditioned before entering the potable distribution system. The permitted capacity of the City's WTP is listed as 12.0 MGD. This 12.0 capacity is split between an 8.0 MGD lime softening process and a 4.0 MGD low-pressure reverse osmosis (LPRO) process, with both processes being at the same plant location. The physical address of the plant is 298 Tomoka Avenue. The lime softening process includes the following treatment processes: aeration, lime softening, recarbonation, filtration, and disinfection. The LPRO process consists of the following treatment processes: pre-treatment via cartridge filters, feed pumps, membrane skids, chlorine contact chambers, and transfer pumps. The LPRO plant has the advantage of treating raw water with higher chloride levels, but the treatment process requires sacrificing additional raw water. This sacrificed water is designated as a concentrate, which ultimately gets sent to the City's water reclamation facility (WRF) for blending with the City's reclaimed water. **Figure 4** showcases the City's WTP process diagram.

The potable water distribution system primarily includes the following components:

- Four (4) inline booster pump stations
- Main plant storage tanks (2.5 MG Capacity split between two (2) tanks)
- Standish storage tank (1.0 MG Capacity)
- Leeway storage tank (1.0 MG Capacity)
- Approximately 370 miles of distribution piping

Figure 4: WTP Process Diagram

2.8 EXISTING RECLAIMED WATER INFRASTRUCTURE

The City operates a public-access reclaimed water system. The primary source of reclaimed water produced and distributed in the system is treated effluent generated at the City's Regional WRF at 550 North Orchard Street. The Florida Department of Environmental Protection (FDEP) regulates the system under the terms of operating permit # FL0020532.

The City's reclaimed water distribution system primarily includes the following components:

- WRF plant storage tanks (7.0 MG split between two tanks)
- WRF high-service pumping station
- A 2.0 MG storage tank and pump station at Breakaway Trails
- A 0.8 MG storage tank and pump station at Shadow Crossings
- One (1) inline booster station on Airport Road
- Approximately 75 miles of distribution piping

Table 7 showcases the City's average daily reclaimed water flow by month throughout the calendar year of 2022, with the yearly average daily flow into the WRF being 5.39 MGD. The showcased data is based on data recorded by WRF personnel. The primary item to note is that while the city has an annual average reuse rate of 80%, the overall reuse rate fluctuates from roughly 60% to nearly 100% based on the months or time of year. In essence, the city has enough reclaimed supply during the wetter (winter) months but generally does not have enough supply during the drier (summer) months. Additionally, the City does not currently have adequate storage capacity to allow for a more uniform year-round distribution of reclaimed demand. As such, the city is forced to discharge the excess reclaimed water to the Halifax River during periods of low usage, both during the non-growing season (Oct-March) and during periods of high rainfall.

Table 7: 2022 Historical Reuse Flows

Month	Average Flow Thru Plant (MGD)	Average Flow from WTP Concentrate (MGD)	Average Flow to River (MGD)	Flow to Reuse to (MGD)	Percent Reused
January	5.36	0.12	1.34	4.14	76%
February	4.94	0.12	1.09	3.97	78%
March	5.16	0.34	1.45	4.05	74%
April	5.27	0.36	1.21	4.42	79%
May	4.73	0.36	0.43	4.66	92%
June	4.39	0.37	0.01	4.75	100%
July	4.49	0.37	0.23	4.63	95%
August	4.52	0.37	0.21	4.68	96%
September	5.60	0.32	1.42	4.50	76%
October	8.08	0.37	3.45	5.00	59%
November	6.78	0.36	2.96	4.18	59%
December	5.37	0.37	1.47	4.27	74%
Average	5.39	0.32	1.27	4.44	80%

Other sources of reclaimed water, aside from treated effluent, include:

- Concentrate from the City's WTP RO process: Approx. 0.5-1.0 MGD
- Holly Hill reclaimed interconnect: Approx. 0.5-1.0 MGD
- Five (5) irrigation wells in the Hudson Wellfield (turned on as needed)

2.9 RECLAIMED WATER SCHEDULING

City ordinances state that under normal conditions, irrigation may only occur between 4 PM and 10 AM. Available reclaimed water, however, is generally fully utilized on most nights, especially during the drier months in the early growing season. During these peak irrigation periods, the city regularly runs out of reclaimed water before 10 AM, showcasing the city's current reclaimed water schedule. Conceptually, the schedule was set up to allow half of the City's customers to irrigate at a time, thereby reducing excess consumption and helping to alleviate pressure drops. Implementing this watering schedule has enabled the city to meet the demands of its reclaimed water customers on most days.

Table 8: Current Reclaimed Water Irrigation Schedule

Location	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
North Breakaway	OFF	ON	OFF	OFF	OFF	ON	OFF
South Breakaway	OFF	OFF	ON	OFF	OFF	OFF	ON
Hunters Ridge	OFF	OFF	ON	OFF	OFF	OFF	ON
North Peninsula	OFF	OFF	ON	OFF	OFF	OFF	ON
South Peninsula	OFF	ON	OFF	OFF	OFF	ON	OFF
Forest Quest, Briargate, & Deer Creek	OFF	ON	OFF	OFF	OFF	ON	OFF
Pineland	OFF	OFF	ON	OFF	OFF	OFF	ON
Mallards Reach	OFF	ON	OFF	OFF	OFF	ON	OFF

Figure 5: Irrigation Zones with Reclaimed Water Storage Tanks

2.10 RECLAIMED WATER CONSERVATION CHALLENGES

The City currently serves approximately 3,000 reclaimed customers. Based upon the average reclaimed demand of 4.44 MGD showcased in **Table 7**, this equates to the average City customer using approximately 1,480 gallons per day of reclaimed water. According to SJRWMD's recommendations, the average reclaimed customer should utilize no more than 500-900 gallons of reclaimed water per day. As such, the current demand data suggests that the City's existing customers are using more reclaimed water than they should be.

In the future, the City would like to add additional reclaimed water customers to the City's infrastructure. Adding reclaimed customers would likely reduce potable irrigation demand and also likely reduce surface water effluent discharges. In order to add additional customers, however, the City will need to look at the use of large volume storage to buffer the reclaimed demand, as well as implementing additional policy changes aimed at curbing excess reclaimed water usage. The City welcomes any input or discussion SJRWMD would like to have regarding reclaimed water conservation practices. Implementing the watering scheduling system has been shown to curb some of the excess usage that was present many years ago, but there is still room for improvement. Some methods for managing reclaimed water currently being discussed internally by City staff include public education, metering, remote valving, and increasing enforcement of existing regulations.

2.11 INTERCONNECTS

The City of Ormond Beach currently has six (6) local interconnects with utilities in the surrounding area. These interconnects are not typically utilized, but they are inspected and maintained by City staff on a routine basis as the City recognizes the overall importance of these interconnects.

The City of Holly Hill has three (3) emergency interconnects with the City. These are generally located on Ridge Avenue, South Center Street, and South Nova Road. The City of Daytona Beach has two (2) emergency interconnects with the City. These are generally located on Williamson Boulevard and North Atlantic Avenue. Volusia County has one (1) emergency interconnect with the City. This interconnect is generally located north of Plantation Oaks Boulevard.

3. IDENTIFICATION OF NEEDED FACILITIES

3.1 ANTICIPATED WATER DEMAND PROJECTIONS

The City of Ormond Beach anticipates developments throughout the service area over the next ten years. These planned developments include Avalon Park Daytona Beach, Hunter's Ridge—Flagler County Development of Regional Impact, Plantation Oaks, and Ormond Crossing.

Table 9 and **Table 10** have been created to showcase the projected potable and wastewater demands anticipated for the city over the next 10 years. This includes the demands from the aforementioned developments along with an additional column being added to the account for overall organic growth. This column is meant to represent the

overall increase in demand that would occur on its own regardless of any development. The organic growth rate of 1.5% was chosen based upon historical data and previous master plan documents. This growth values are subject to change and are monitored as part of the annual; Capital Improvement Plan. Additionally, a projected population for the City's service area has also been included within **Table 9**. The initial population for calendar year of 2024 was obtained by multiplying the City's current potable water meter count of 23,685 by 2.30. Subsequent projection years were estimated by taking the increase in total project average annual daily flow (AADF) value per each calendar year and dividing it by 125 gallons per person while rounding to four digits. These aforementioned values of 2.30 and 125 are estimates utilized by Staff based primarily off of historical trends within the City's service area.

Table 10 utilizes the same projection values of **Table 9**, but the 2024 calendar year value for the reclaimed AADF was obtained by reviewing 2023 discharge monitoring reports (DMR) for the City's water reclamation facility (WRF). The different starting values for the water demand and the reclaimed availability are predominately due to not every existing customer within the City's service area utilizing the City's sewer services. When considering the values present in **Table 10**, staff would like to inform the SJRWMD team that the city currently plans on constructing a secondary WRF in the upcoming calendar years. This new facility will aid the City with future wastewater treatment capacity. Additional detail pertaining to this planned facility was left out of this report due to staff feeling such information was not pertinent to a water supply planning document. With that being said, however, staff welcomes any conversations that the SJRWMD team would like to have with the City regarding this facility if reviewers at the district feel it would be beneficial to conservation efforts.

Table 9: Projected Potable Water Demands in MGD - 2024 to 2034

Year	Projected AADF with 1.5% Organic Growth	Projected AADF of Planned Developments	Total Projected AADF Potable Demand*	Projected Population in City Service Area
2024	6.296	0.521	6.817	54,475
2025	6.390	1.736	8.126	64,950
2026	6.486	1.955	8.441	67,470
2027	6.584	2.207	8.791	70,260
2028	6.682	2.528	9.210	73,620
2029	6.783	2.801	9.584	76,610
2030	6.884	2.930	9.814	78,450
2031	6.988	3.059	10.047	80,310
2032	7.092	3.189	10.281	82,190
2033	7.199	3.318	10.517	84,070
2034	7.307	3.447	10.754	85,970

*Projected potable water demands are for planning purposes and actual development trend will be reviewed with the annual Capital Improvement Plan.

3.2 PROJECTED WASTEWATER SUPPLY/RECLAIMED WATER AVAILABILITY

Table 10: Projected Reclaimed Water Supply in MGD - 2024 to 2034

Year	Projected AADF with 1.5% Organic Growth	Projected AADF of Planned Developments	Total Projected AADF Reclaimed Supply*
2024	5.40	0.521	5.921
2025	5.48	1.736	7.217
2026	5.56	1.955	7.518
2027	5.65	2.207	7.854
2028	5.73	2.528	8.259
2029	5.82	2.801	8.618
2030	5.90	2.930	8.835
2031	5.99	3.059	9.052
2032	6.08	3.189	9.272
2033	6.17	3.318	9.492
2034	6.27	3.447	9.714

*Projected wastewater/reclaimed water supply are for planning purposes and actual development trend will be reviewed with the annual Capital Improvement Plan.

3.3 PROJECTED CONSUMPTIVE USE PERMIT ALLOCATION

Table 11 showcases the City's current permitted raw water withdrawal limit and the projected raw water demands for the years 2024 to 2034. The anticipated CUP requested allocation was calculated by adding 1.0 MGD to the projected raw water demands previously shown in **Table 9**. The values showcased within **Table 11** suggests that the City's projected raw water withdrawal requirements will escalate in the upcoming years primarily due to the proposed developments mentioned in section 3 of this report. The City is currently in discussion with SJRWMD regarding renewing their CUP allocations. As such, the request allocation values in this report are subject to change.

Table 11: Projected CUP Values

Year	Current Permitted Annual Average Raw Water Withdrawal (MGD)	Projected Raw Water Demands (MGD)	Anticipated CUP Request Allocation (MGD)
2024	8.18	6.817	
2025		8.126	9.126
2026		8.441	9.441
2027		8.791	9.791
2028		9.210	10.21
2029		9.584	10.584
2030		9.814	10.814
2031		10.047	11.047
2032		10.281	11.281
2033		10.517	11.517
2034		10.754	11.754

3.4 RAW WATER SOURCE NEEDS

Based upon the projected raw water usage requirements shown in **Table 11**, the City will need the ability to withdrawal at least 11.754 MGD worth of raw water by 2033. Using the existing wellfield information summarized in **Table 2** of this report, the City's existing wells can currently supply a theoretical maximum of 13.9 MGD worth of raw water withdrawal. Typical raw water rotation guidelines recommend that the City should have the capability to withdrawal at least 2.0 times the anticipated demand from the upper Floridan aquifer. Having this 2.0 factor of safety allows for rotation of wells and also reduces the criticality of any single well going out of service. In order to reach this 2.0 factor of safety, the City will need to look at adding approximately 7.6 MGD worth of withdrawal capabilities over the course of the next ten years. Assuming approximately 500 GPM from a new well, this would correspond to the City needing to construct approximately 12 new wells. The location, depth, and GPM value for these new wells is currently being discussed within the CUP renewal process.

Alternative options for the City to obtain additional raw water include: utilizing Lower Floridan Aquifer (LFA) ground water, withdrawing surface water from the St. Johns River, and demineralization of seawater. Implementation of any of these alternative ideas, however, would have a significant cost burden placed upon the City. As such, these ideas

are not currently being pursued, but may be considered if significant funding opportunities or partnerships present themselves.

3.5 RAW WATER CAPITAL PROJECTS

The projects listed within this section are intended to highlight the City's anticipated path forward with regard to capital project construction for anticipated raw water needs identified in section 3 of this report. The capital improvement projects shall be reviewed annually as part of the city's budget and capital improvement plan process. In order to meet the projected demands of the raw water projection of 10.75 listed in **Table 11** for the calendar year 2034 with a 2.0 factor of safety, the City's existing raw water system will need to be reinforced and expanded upon. The projects listed within this section are aimed at establishing redundancy and adequate supply for the City in the years to come.

3.5.1 Raw Water Main Reinforcement

One of the main concerns the City has regarding the existing raw water transmission system is the overall dependence on the existing 24-inch main that runs along Granada Blvd from the utility easement located between Shadow Crossings and Breakaway Trails to the existing Walmart. If anything were to ever happen to this 24-inch main, the City would lose the capability to transfer water from the Hudson and Rima Ridge wellfields back to the existing water treatment plant. To reduce this overall potential vulnerability, the City is currently in the process of completing the design of a secondary, redundant, raw water main from Hunter's Ridge to Williamson Boulevard. A preliminary cost estimate is shown in **Table 12**. This project is intended to be implemented in the short term.

Table 12: Raw Water Main Reinforcement - Preliminary Cost Estimate

Item Description	Qty	Unit	Unit Cost	Total Cost
16-inch Raw Water Main	13,500	LF	\$120	\$1,620,000
Valves and Fittings	1	LS	\$380,000	\$380,000
Construction Sub-Total				\$2,000,000
Contingency @ 20%				\$400,000
Engineering & CEI @ 15%				\$300,000
Total Estimated Project Cost				\$2,700,000

3.5.2 Hudson Wellfield Expansion

The City currently has three (3) additional wells permitted for construction within the Hudson Wellfield as was permitted in the previous CUP application. The City has executed a task order with one of the consultants for the design of these new wells and the goal is to bring these wells online by the end of calendar year 2024. As such, this project is categorized as short term. A preliminary cost estimate is included in **Table 13**.

Table 13: Hudson Wellfield Expansion - Preliminary Cost Estimate

Item Description	Qty	Unit	Unit Cost	Total Cost
New UFA Wells, Pumps and Mechanical Equipment	3	EA	\$300,000	\$900,000
Well Access and Sitework	1	LS	\$500,000	\$500,000
Raw Water Main Piping	1	LS	\$200,000	\$200,000
Electrical and Instrumentation	1	LS	\$100,000	\$100,000
Emergency Power Generator	1	EA	\$200,000	\$200,000
Construction Sub-Total				\$1,900,000
Contingency @ 20%				\$380,000
Engineering & CEI @ 15%				\$285,000
Total Estimated Project Cost				\$2,565,000

3.5.3 Rima Ridge Wellfield Expansion

The City would benefit from constructing additional raw water wells in the Rima Ridge wellfield. This proposed project currently seeks to add three (3) new wells in the medium to long term time horizon. Estimated withdrawal capacity from each future well is approximately 500 GPM. A preliminary cost estimate is included in **Table 14**. This project along with the prospect of a new wellfield will be discussed with SJRWMD during the CUP renewal process and is listed an intermediate project in the City's capital improvement program.

Table 14: Rima Ridge Wellfield Expansion - Preliminary Cost Estimate

Item Description	Qty	Unit	Unit Cost	Total Cost
New UFA Wells, Pumps and Mechanical Equipment	3	EA	\$375,000	\$1,125,000
Well Access and Sitework	1	LS	\$650,000	\$650,000
Raw Water Main Piping	1	LS	\$275,000	\$275,000
Electrical and Instrumentation	1	LS	\$200,000	\$200,000
Emergency Power Generator	1	EA	\$200,000	\$200,000
Construction Sub-Total				\$2,450,000
Contingency @ 20%				\$490,000
Engineering & CEI @ 15%				\$367,500
Total Estimated Project Cost				\$3,307,500

3.5.4 Establish New Wellfield

The projected raw water demands demonstrate that the city will need to add raw water withdrawal capabilities in the upcoming years and construction of a new wellfield will be the most cost-effective option. Achieving a factor of 2.0 for raw water production to raw water demand would give the city greater flexibility to rotate wells, reducing saltwater up-coning and allowing for better control over elevated chloride levels. As previously mentioned, in order to reach this recommended 2.0 production capability, the city would

need to construct at least 12 new wells in the future. Assuming three (3) additional wells are installed within the Hudson Wellfield and three (3) additional wells are installed within the Rima Wellfield, the City should anticipate approximately six (6) wells within the new wellfield. At this point in time, no cost estimate has been established due to the unknown future wellfield site location. This project will be discussed with SJRWMD during the CUP renewal process and is considered a long-term project.

3.6 WATER TREATMENT SYSTEM CAPACITY IMPROVEMENT PROJECT

Based upon the average day potable water demand flow projection of 10.75 listed in **Table 9** for the year 2034, the City's existing water treatment plant will be challenged to provide adequate treated potable water in the long-term future. Typical FDEP recommendations are to plan for additional treatment capacity once the facility nears 80% capacity, which would be 9.6 MGD for the City. As such, the City is currently looking at constructing an additional potable water treatment facility in the future. The projects listed below are aimed at establishing such a facility.

3.6.1 Future Water Treatment Plant Evaluation Report

Due to the complexity of bringing a water treatment plant online, the City plans on conducting an evaluation report prior to the design process. The evaluation report is aimed at reviewing the following items as a minimum: site usability, technology selection, permitting requirements, staffing requirements, raw water quality, any potential blending requirements, and storage and pumping needs. **Table 15** shows a conceptual cost estimate for this evaluation report. This project is currently listed as long term.

Table 15: Future Water Treatment Plant - Evaluation Report

Item Description	Qty	Unit	Unit Cost	Total Cost
Site Evaluation and Technology Report	1	LS	\$250,000	\$250,000
			Contingency @ 20%	\$50,000
			Total Estimated Project Cost	\$300,000

3.7 WATER SYSTEM CAPACITY IMPROVEMENT PROJECT

The City currently owns undeveloped property west of I-95 near the intersection of Airport Road and Granada Boulevard. This property has been discussed as being a suitable location for a new water treatment facility. Establishing a new facility at this site would allow the City to treat raw water and distribute finished water to the western service area from this location, as opposed to pumping raw water from the western wellfields to the existing WTP only to then have the existing WTP redistribute the treated water back to the western region. The final site location and potential treatment process, however, will be impacted by the evaluation report. The City would welcome any input from SJRWMD for this upcoming facility. This project is currently listed as long term and a preliminary cost estimate is included in **Table 16**.

Table 16: New Western Water Treatment Plant - Preliminary Cost Estimate

Item Description	Qty	Unit	Unit Cost	Total Cost
3.0 MGD Water Treatment Plant	1	LS	\$30,000,000	\$30,000,000
Construction Sub-Total				\$30,000,000
Contingency @ 20%				\$6,000,000
Engineering & CEI @ 15%				\$4,500,000
Total Estimated Project Cost				\$40,500,000

3.8 RECLAIMED WATER DISTRIBUTION SYSTEM IMPROVEMENT PROJECTS

With the establishment of Policy 1.3.5, which is aimed at 100% reuse utilization by 2030, the City will need to add additional storage capacity and also add additional customers to its existing reclaimed water system. The projects within this section are poised to achieve this objective by creating and connecting a reclaimed water reservoir and by showcasing regions of the City's service area that the reclaimed system could be expanded to in the upcoming years.

3.8.1 Reclaim Main Extension to Reservoir

Based upon previous hydraulic modeling endeavors, the existing 10-inch reclaimed main on Airport Road has been identified as experiencing velocities around 12.0 ft/s during the daytime when filling the City's western storage tanks. For reclaimed water distribution systems, velocities greater than 8 ft/s are typically considered unacceptable. As such, this main is considered undersized and is considered by Staff as being the primary issue with transferring reclaimed water to the western portion of the City's service area. To remedy this situation, the City intends to replace the existing reclaimed main with a new pipe of a greater diameter to increase reliability, reduce experienced velocities, and add capacity to accommodate increased future demand. Additionally, this proposed project would also install a new main to the north of Airport Road such that it would connect the City's existing water reclamation facility to a future reclaimed water reservoir site. The City currently believes an 18-inch diameter main from the Airport Road booster station to the reclaimed reservoir site will achieve the desired outcomes of reducing velocities while also increase storage capabilities. A conceptual cost estimate for this project is shown in **Table 17**. City staff is currently in the initial design phase of this project. As such, this project is listed as being short term.

Table 17: Reclaimed Main Extension to Reservoir - Preliminary Cost Estimate

<i>Description</i>	<i>Qty</i>	<i>Unit</i>	<i>Unit Cost</i>	<i>Total Cost</i>
Mobilization and General Conditions	1	LS	\$350,000	\$350,000
18-inch Reclaimed Water Main	28,000	LF	\$110	\$3,080,000
18-inch Gate Valves	14	EA	\$14,000	\$196,000
18-inch Reclaimed Main Tie-In	2	EA	\$15,000	\$30,000
Air Release Valve Assemblies	5	EA	\$5,000	\$25,000
As-Built	1	LS	\$75,000	\$75,000
Clearing and Restoration	1	LS	\$650,000	\$650,000
Total Estimated Construction				\$4,406,000
Contingency @ 20%				\$881,200
Eng., C.A., & Inspection @ 15%				\$660,900
TOTAL ESTIMATED PROJECT COST				\$5,948,100

3.8.2 Reclaim Water Reservoir Tank and Station

Creating a reclaimed water reservoir would allow the City's WRF to store additional reuse water during periods of low demand while also providing an augmentation source when periods of high demand occur. The City is currently in the planning process of constructing a reservoir in Flagler County near Strickland Road. A conceptual cost estimate is included in **Table 18**. This project is currently listed with a short-term designation.

Table 18: Reclaimed Water Reservoir Tank and Station - Preliminary Cost Estimate

<i>Item Description</i>	<i>Qty</i>	<i>Unit</i>	<i>Unit Cost</i>	<i>Total Cost</i>
Mobilization and General Conditions	1	LS	\$300,000	\$300,000
Sitework	1	LS	\$125,000	\$125,000
18-inch Reclaimed Main	100	LF	\$110	\$11,000
2 MG Storage Tank	1	EA	\$1,500,000	\$1,500,000
Pump Station	1	LS	\$750,000	\$750,000
Filtration Unit	1	LS	\$350,000	\$350,000
Electrical and Instrumentation	1	LS	\$375,000	\$375,000
As-Built and Restoration	1	LS	\$80,000	\$80,000
Reservoir Excavation*	1	LS	\$0	\$0
Construction Sub-Total				\$3,491,000
Contingency @ 20%				\$698,200
Engineering Design and CEI @ 15%				\$523,650
Total Estimated Project Cost				\$4,712,850

*Excavation of Reservoir assumed to be sold as a borrow pit

3.8.3 New Reclaim Water Storage Tank and Pump Station

With the potential construction of a new water treatment plant and a new water reclamation facility in the western service area, the construction of a reclaimed water storage tank and pump station in the same general vicinity would be a reasonable addition. As such, the City anticipates constructing a 3.0 MG reclaimed water storage tank to add additional reclaimed water storage.

A conceptual cost estimate for this project is included in **Table 19**. This is considered an intermediate term project. This project is partially dependent on the completion of the new western plants projects previously mentioned, and may ultimately be combined within those future projects.

Table 19: Reclaimed Water Storage Tank/Pump Station - Preliminary Cost Estimate

<i>Description</i>	<i>Qty</i>	<i>Unit</i>	<i>Unit Cost</i>	<i>Total Cost</i>
Mobilization and General Conditions	1	LS	\$250,000	\$250,000
3.0 MG Reuse Storage Tank	1	LS	\$1,600,000	\$1,600,000
Reuse Pump Station	1	LS	\$750,000	\$750,000
Sitework and Yard Piping	1	LS	\$150,000	\$150,000
20-inch Reclaimed Water Main	100	LF	\$150	\$15,000
20-inch Valves	2	EA	\$14,500	\$232,000
Electrical and Instrumentation	1	LS	\$150,000	\$150,000
As-builts / Layout	1	LS	\$81,000	\$81,000
Clearing, MOT, and Restoration	1	LS	\$50,000	\$50,000
Total Estimated Construction				\$3,278,000
Contingency @ 20%				\$655,600
Eng., C.A., & Inspection @ 15%				\$491,700
TOTAL ESTIMATED PROJECT COST				\$4,425,300

3.8.4 Southern Peninsula Reclaimed Expansion

The City currently has a large number of reclaimed customers on the peninsula portion of the City's service area. As such, expansion of the reclaimed water system on the peninsula to serve customers that do not currently have reclaimed available would make practical sense. Based upon recent hydraulic modeling reports, however, the City has found that the reclaimed system cannot accommodate additional flow due to having only one subaqueous reclaimed crossing. To alleviate this bottleneck, the City is currently in the process of planning for a secondary subaqueous crossing under the Halifax River in the intermediate time frame. With this project completed, the City would be able to expand the existing reclaimed water system on the beachside to serve additional customers. Establishing additional customers on the peninsula would allow for the City to reduce the amount of potable water used for irrigation purposes. This project is currently on the City's long-term radar and conceptual cost estimate will be made during the next major master plan update.

3.8.5 Ormond Crossings Reclaimed Transmission Loop

With the proposed Ormond Crossings development, the developer is currently looking at the potential for installing a reclaimed water main system in the developed area. Theoretically, if the City and developer could work together to install a reclaimed system

that spanned to both the north and south side of the Ormond Crossings region, then this would allow for the City to establish a reclaimed water main looped system from US1 to Airport road. Doing so would allow the City to add additional customers to the reclaimed water system, decrease the amount of potable water used for irrigation purposes in the planned development, and improve reliability in the overall reclaimed system. This project, however, is currently tentative due to the overall nature of development. As such, this project is currently listed as a long-term endeavor dependent upon the developer's timetable. A conceptual cost estimate will be made during the next major master plan update.

4. FIVE YEAR SCHEDULE OF CAPITAL IMPROVEMENTS

Below is water, wastewater and reclaim projects within the city's five-year capital improvement plan.

Table 20: Fund 409, Water and Wastewater R and R (Annual)

Page #	2023-24	2024-25	2025-26	2026-27	2027-28	Total 2023-24 to 2027-28

5. WATER SUPPLY POLICY UPDATES TO COMPREHENSIVE PLAN

Utilities Element

POLICY 1.2.5 (Modified)

The City will implement the traditional and alternative water supply projects ~~scheduled for completion by 2013~~ as identified in the Water Supply ~~w~~Work Plan.

POLICY 1.2.6. (New)

The City will expand its reclaimed water system in accordance with the 2015 Utility Master Plan and subsequent updates in an effort to improve water quality throughout the region. The City shall establish a target of 100% reuse of average daily wastewater flow by the year 2030, except for operational conditions, including current weather conditions, anticipated weather patterns, reclaimed water demands, reclaimed water use patterns, system draw down restrictions, system surplus volume, interruptible customer service restrictions, system operational efficiency, production capability, reclaimed storage capacity, availability of storm and groundwater augmentation sources, and other agency regulatory restrictions that require river discharge.

POLICY 1.7.2. (Modified)

Projected demands ~~through the year 2015~~ shall be met by undertaking those projects as identified in the Capital Improvements Element.

POLICY 5.2.1. (Modified)

The City shall maintain a ~~w~~Water ~~s~~Supply ~~facilities w~~Work ~~p~~Plan that is coordinated with St. Johns River Water Management District's ~~District~~ Regional Water Supply Work Plan by updating the work plan within 18 months of an update to the District's ~~District~~ Regional Water Supply Plan that affects the City.

POLICY 5.2.2. (Modified)

The City will participate in the development of updates to St. Johns River Water Management District's water supply assessment and ~~District~~ Regional Water Supply Plan and other water supply development-related initiatives facilitated by the District's that affect the City.

POLICY 5.2.3. (New)

The City's Water Supply Work Plan is incorporated into the Comprehensive Plan as Appendix A of the Utilities Element. The City will implement the Water Supply Work Plan through the annual Capital Improvement Plan process.

POLICY 5.3.2. (Modified)

Potable water supplies shall be conserved to the maximum extent practicable through the continued implementation of water conservation techniques and programs. Such techniques and programs may include, but are not limited to:

- a. The City shall ~~work through the Water Authority of Volusia (WAV)~~ continue to incentivize water conservation using low-flow showers and toilets, rain sensors for lawn irrigation, and xeriscape.
- b. The City will continue to implement and expand its program to provide for water reuse and/or reclamation and where appropriate require effluent reuse for irrigation, industrial use and other appropriate non-potable water use applications.
- c. The City shall require new development to install 'dry-lines' for reclaimed water distribution. Developments with greater than 100 units shall provide on-site storage and pumping, integrated with the stormwater management system. Under certain conditions, the developer may be allowed to contribute an equivalent value of the infrastructure into a reclaimed water construction fund.
- d. The City shall ~~purchase a~~ continue its leak detection systems ~~by 2010~~ which will enable water distribution crews to monitor the entire City's water distribution system through the use of leak noise loggers.

Conservation Element

POLICY 1.2.7. (Modified)

~~By the year 2010, the City shall develop a plan to further reduce the amount of treated effluent discharged to the Halifax River to 10% of the total volume of wastewater treated at the plant.~~

The City shall establish a target of 100% reuse of average daily wastewater flow by the year 2030, except for operational conditions, including current weather conditions, anticipated weather patterns, reclaimed water demands, reclaimed water use patterns, system draw down restrictions, system surplus volume, interruptible customer service restrictions, system operational efficiency, production capability, reclaimed storage capacity, availability of storm and groundwater augmentation sources, and other agency regulatory restrictions that require river discharge

POLICY 5.3.8. (New)

The City shall reduce groundwater withdrawal through the utilization of a reclaimed water scheduling program as mentioned in section 2C of the 2023 Water Supply Plan. The reclaimed water schedule may be updated by the Utility Manager or Public Works Director as deemed necessary. Additionally, the City will continue to communicate the importance of watering conservation with its customers.

Capital Improvements Element

POLICY 1.3.2. (Modified)

The City shall use the following level-of-service standards to determine the impacts of new development and redevelopment upon public facility provision:

- a. Fire Fighting: All development having a density equivalent to or greater than one (1) unit per acre shall be served by a public/private central water system capable of delivering the required fire flows having adequate firefighting capacity of a minimum of 1,000 gpm or greater as determined by the Chief Fire Official in conjunction with the City Engineer or National Fire Protection Associates (NFPA) guidelines (or its equivalent where a sprinkler system is used) and minimum 20 psi residual for a minimum two- (2-) hour duration depending upon the specific structure and/or use. Single-family home development at less than one (1) unit per acre or less, or other development of equivalent intensity (e.g., average daily water use of less than 300 gpd per acre), may be served by an individual well. All required fire flows will be in addition to the peak daily demand established.

- b. Parks (acres per population): 13 acres per 1,000 population

A capital facilities recovery fee to develop lands dedicated by developers to meet the acreage level of service standards shall be pursued. The recovery fee may be either assessed to the developer of the subdivision or the builder of the home in the form of an impact fee.

Subdivisions which provide private recreation lands and facilities shall be provided a credit against the land dedication and capital facilities recovery fee.

- c. Roads: The following level-of-service standards are adopted for roadways Citywide:

City County State	LOS Daily	LOS Peak Hour
	C	D
	D	E
	C (SIS/FIHS)	D (TRIP)

- d. Water:

Raw:	An average daily volume of 124 gallons of raw water per capita per day. <u>An average daily volume of 330 gallons per Equivalent Residential Unit (ERU).</u>
------	--

Potable:	An annual average daily volume of 110 gallons per capita per day. <u>An average daily volume of 300 gallons per ERU.</u>
Sewer:	<u>An average daily volume of 270 gallons per ERU.</u>
Reclaimed:	An average of daily volume of 600 GPD per ERU. <u>An average daily volume of 300 GPD per ERU.</u>

Other uses water standards:

<u>Types of Establishments*</u>	
<u>Apartments</u>	<u>0.7 ERU per unit</u>
<u>Bars and cocktail lounges</u>	<u>0.05 ERU per seat</u>
<u>Barbershop</u>	<u>0.25 ERU per seat</u>
<u>Beauty Shop</u>	<u>0.5 ERU per seat</u>
<u>Car Wash</u>	<u>8.5 ERU minimum</u>
<u>Dentist</u>	<u>0.7 ERU per wet chair</u>
<u>Factories (with Showers or Chemicals)</u>	<u>0.1 ERU per 100 Sq. Ft.</u>
<u>Factories (without Showers or Chemicals)</u>	<u>0.05 ERU per 100 Sq. Ft.</u>
<u>General Commercial / Office Buildings</u>	<u>0.05 ERU per 100 Sq. Ft.</u>
<u>Gas Stations (no car wash)</u>	<u>1.5 ERU per bathroom</u>
<u>Hospitals</u>	<u>0.7 ERU per bed</u>
<u>Hotels and Motels</u>	<u>0.4 ERU per room</u>
<u>Movie theaters, auditoriums, churches</u>	<u>0.02 ERU per seat</u>
<u>Nursing Homes / A.L.F.</u>	<u>0.5 ERU per bed</u>
<u>Restaurants</u>	<u>0.15 ERU per seat</u>
<u>Single-Family residence</u>	<u>1.00 ERU per unit</u>
<u>Schools</u>	<u>0.05 ERU per seat</u>
<u>Townhouse residence</u>	<u>0.7 ERU per unit</u>

*The Site Plan Review Committee will consider alternate flow rates for various establishments if the applicant/Engineer of Record can provide supporting documentation.

- e. ~~Sanitary Sewer: An annual average daily volume of 281 gallons equivalent residential unit (ERU).~~

Sanitary Sewer Treatment: All development having a density equivalent to or greater than one (1) ERU per acre shall be served by a public/private wastewater treatment system capable of handling the projected design flows with an appropriate peak factor, as determined by the applicant or design professional. The peak factor shall not be less than 2.5. For developments having a density of less than one (1) ERU per acre, the applicant may elect to install a septic system provided that the applicant obtains an appropriate permit from the Volusia County Health Department and the City's existing gravity collection system is not within 200 feet of the proposed development.

- f. Solid Waste:

Average residential pick-ups per truck.....	1,600
Average commercial pick-ups/truck/route	155
Average residential pick-ups/man/day.....	226
Pounds/capita/day for residential, commercial and industrial waste.....	5.69
Pounds/capita/day for special wastes.....	3

- g. Drainage: The difference in the volume of run-off for 25 years frequency, 24-hour duration storm event between pre-development and post-development conditions shall be retained on-site. The difference between the pre-development and post-development conditions for peak run-off rates for the 100-year frequency, 24-hour duration rainfall event shall be retained on-site. Individual development facility capacity shall be maintained so that there is no potential flooding increase above the base year elevation. There shall be no degradation of water quality of Class III waters. An equal or greater volume of storage capacity must be created for any volume of the regulatory flood that would be displaced by fill or structures. The velocity of the regulatory flood must not be adversely altered on any watercourse. Areas not filled are to generally be left in their natural state. However, such areas may be used to meet landscaping and/or retention requirements, provided that the design is consistent with the then-existing City standards and ordinance requirements. Fill limitations consistent with the Land Development Code and the performance standards for each wetland classification established by the Conservation Element shall be enforced for all developments lying within areas of special flood hazard, as defined by the 100-year floodplain boundaries of the FEMA FIRM maps.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 1. WATERSHEDS, LAKES AND RIVERS

THE CITY SHALL MAINTAIN AND, TO THE MAXIMUM EXTENT FEASIBLE, PROMOTE PROGRAMS TO ENHANCE THE FUNCTIONAL, AESTHETIC AND QUALITATIVE VALUE OF THE HALIFAX RIVER, THE TOMOKA RIVER, THEIR MAJOR TRIBUTARIES, AND ARTIFICIALLY CONSTRUCTED LAKES.

OBJECTIVE 1.1. SPECIES DIVERSITY

The City shall coordinate with the appropriate state and federal agencies to maintain the native aquatic and wetland floral and faunal species diversity of the upper Halifax River and Tomoka River.

POLICY 1.1.1.

The City shall ~~continue to~~ cooperate with State and regional agencies and adjacent local governments in a comprehensive study and inventory of invertebrates and seagrasses in the portions of the Halifax River and the Tomoka Marsh Aquatic Preserve which are located within the City.

POLICY 1.1.2.

The City shall ~~continually~~ coordinate with the appropriate state and federal agencies to identify and prohibit activities that would have a significantly adverse effect on existing eelgrass or seagrass beds. When specific activities are identified, provisions to prohibit and mitigate adverse impacts from said activities shall be incorporated into the Land Development Code.

POLICY 1.1.3.

The City shall ~~continue to request~~ encourage that the State ~~adopt~~ maintain an effective management plan with appropriate funding and personnel to provide meaningful management for the Tomoka Marsh Aquatic Preserve.

POLICY 1.1.4.

~~The City,~~ In cooperation with State, regional, and local agencies, the City shall participate in a program to enhance the aesthetic, recreational, botanical, fish, and wildlife values, of spoil islands.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.1.5.

The City shall continue to work with the Florida Department of Environmental Protection to expand the Tomoka Marsh Aquatic Preserve boundaries to include Dodson Creek, Strickland Creek, and the portion of Thompson Creek east of US 1.

POLICY 1.1.6.

The City shall cooperate with State, regional and local governmental agencies, in an endangered species information program.

POLICY 1.1.7.

Historic stream courses, saltwater marshes, freshwater marshes, and other wetlands shall not be channelized or impeded and shall be retained in their current condition consistent with the wetland regulations of Objective 5.4.

OBJECTIVE 1.2. SURFACE WATER QUALITY

The City shall coordinate with the appropriate state and federal agencies to protect, enhance, and improve the ambient surface water quality of the Halifax River, the Tomoka River and their tributaries.

POLICY 1.2.1.

The City shall coordinate with the Florida Department of Environmental Protection, the St. Johns River Water Management District, the Ponce De Leon Port Authority, and other local governments in the maintenance of an on-going water quality sampling and monitoring program that identifies baseline conditions and standards as parameters to measure changes in water quality.

POLICY 1.2.2.

The City shall, in cooperation with local, regional and State agencies, adopt standards to identify, monitor, and manage point and non-point pollution source discharges. ~~This shall include, at a minimum, a review and update of all non-point source discharge permits, checking for accuracy and completeness.~~

POLICY 1.2.3.

If a central wastewater system is not available, on-site sewage treatment and disposal systems shall not be allowed on lots less than one acre in size.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.2.4.

On-site waste treatment system facilities and drain fields shall not be located within 75 feet of the 100-year floodplain; within 75 feet of an upland/wetland interface; or within 120 feet of the mean high-water mark of any surface waterbody, whichever is greater. On-site waste treatment systems should be located as far inland from a waterbody or wetlands as possible.

POLICY 1.2.5.

The City shall continually enforce policies that require existing homes located on lots smaller than one acre and that have septic tank systems to connect to the City central sewer system when it is within 100 feet of the lot line. The City may create assessment districts, where appropriate, to retrofit a neighborhood with sewer lines and lift stations.

POLICY 1.2.6.

The City shall continue to expand its effluent reuse program consistent with the St. Johns River Water Management District permit conditions and recommendations.

POLICY 1.2.7.

~~By the year 2010, the City shall develop a plan to further reduce the amount of treated effluent discharged to the Halifax River to 10% of the total volume of wastewater treated at the plant.~~

The City shall establish a target of 100% reuse of average daily wastewater flow by the year 2030, except for operational conditions, including current weather conditions, anticipated weather patterns, reclaimed water demands, reclaimed water use patterns, system drawdown restrictions, system surplus volume, interruptible customer service restrictions, system operational efficiency, production capability, reclaimed storage capacity, availability of storm and groundwater augmentation sources, and other agency regulatory restrictions that require river discharge.

POLICY 1.2.8.

The operation of the stormwater control utility and the retrofitting of stormwater outfalls shall comply with the recommendations of the adopted Stormwater Master Plan.

POLICY 1.2.9.

The City shall coordinate with State, regional, and local agencies in permitting the construction of new marina facilities; marinas shall not be located in the Tomoka River or its tributaries.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.2.10.

In order to protect surface waters from the activities of adjacent property owners, the City shall educate residents regarding deliberate deposition of lawn debris, washing paint brushes, the use of fertilizers and chemicals or the storage of hazardous chemicals and fuel supplies in close proximity to water bodies. "Close proximity" shall be defined with regard to the proposed activity and the degree to which the adjacent waterbody is to be protected.

OBJECTIVE 1.3. INTERGOVERNMENTAL COORDINATION

The City shall continue to promote intergovernmental coordination to maintain or improve the water quality, water quantity, recreational, fish, and wildlife resource values of the Halifax River, the Tomoka River, and their tributaries.

POLICY 1.3.1.

~~On a continuous basis, t~~The City shall support and promote state and federal agencies programs to improve natural tidal flushing action for the Halifax River to restore ambient water quality.

POLICY 1.3.2.

The City shall ~~coordinate its~~ encourage a water quality testing program with appropriate State, regional and local government testing programs to ensure efficient use of resources and to eliminate duplication of effort.

POLICY 1.3.3.

In cooperation with State, regional, and local agencies, including the Volusia County Sheriff's Department, the City shall participate, where possible, in a river safety program that utilizes to the maximum extent possible, miscellaneous media sources, newspaper advertising, signs, and literature to prevent surface water pollution, to protect manatees and other wildlife, and to promote proper boating safety standards.

OBJECTIVE 1.4. ECOLOGICAL BALANCE

The City shall continue to review development proposals and establish programs to balance the functioning values of the Halifax River and the Tomoka River in order to maintain an optimum combination of aesthetic, ecological, recreational, and historical resources.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.4.1.

~~On a continuing basis, the City shall coordinate with the appropriate State, regional, and local agencies in the identification and protection of significant archaeological, ecological, historical, and paleontological sites under and along the Tomoka River with other agencies and private organizations.~~ The City shall coordinate with the appropriate State, regional, and local agencies in the identification and protection of significant archaeological, ecological, historical, and paleontological sites under and along the Tomoka River with other agencies and private organizations. This shall include promoting studies by colleges, universities, and researchers and requiring archaeological studies by developers for projects in areas that may contain significant resources.

POLICY 1.4.2.

On a continuous basis, the City shall encourage college and university studies of the Halifax and Tomoka Rivers.

POLICY 1.4.3.

On a continuous basis, the City shall seek to acquire suitable property to meet public access requirements adjacent to the Tomoka River and its tributaries and the Halifax River for passive park and canoe access facilities.

POLICY 1.4.4.

In order to effectively monitor the effects of development activities on surface water conditions, the applicant or its successors shall provide, as determined by the City, the establishment and operation of a surface water and wetland biological monitoring program.

POLICY 1.4.5.

In calculating maximum potential density or maximum permitted density for any given parcel of property, such calculations shall be exclusive of that portion of the property which is considered to be submerged lands.

OBJECTIVE 1.5. ARTIFICIAL LAKES

Artificially constructed lakes shall be designed and located so as to not negatively affect the aesthetics, ambient water quality, biotic composition/diversity, environmental integrity, flood capacity, public health and safety, or recreational values of the upper Halifax River, the Tomoka River, or their tributaries.

POLICY 1.5.1.

Artificially constructed lakes shall not be included in stormwater management systems which have outfalls into the upper Halifax River, the Tomoka River, or their tributaries

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

without review and recommendations by the Site Plan Review Committee that all pertinent ordinances and standards have been met and that the discharge to the receiving waters will not degrade ambient surface water quality.

POLICY 1.5.2.

Artificially constructed lakes shall not be excavated in wetland systems in the upper Halifax River, the Tomoka River, or their tributaries and shall not lower water levels in these systems.

OBJECTIVE 1.6. REZONING

Rezoning shall be consistent with the Comprehensive Plan and with the objective of preserving ecological systems and the aesthetic qualities of the community.

POLICY 1.6.1.

All rezoning shall be compatible with the objective of protecting wildlife and the environment consistent with the Comprehensive Plan.

POLICY 1.6.2.

The City shall maintain the zoning district entitled "Special Environmental District" (SE). The following criteria shall apply to the implementation of this policy:

- A. The SE district applies to all Department of Environmental Protection or Army Corps of Engineers jurisdictional wetland lines:
 - 1. not protected or preserved by a conservation easement; and
 - 2. or part of an approved Master Land Use Plan for a Planned Residential Development.

This area includes mosquito impoundment districts.

- B. The SE district applies to environmentally sensitive areas designated for public acquisition and protection or areas currently in public ownership which should be subject to open space and conservation type land uses.

POLICY 1.6.3.

In cases where land development regulations and land use classifications will eliminate any reasonable use of real upland property, consideration will be given to public acquisition.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 2. FLOODPLAINS

THE CITY SHALL CONTINUE TO IMPLEMENT CURRENT PROGRAMS AND STUDY AND ADOPT NEW PROGRAMS TO MINIMIZE PUBLIC AND PRIVATE LOSSES AND THREATS TO THE PUBLIC HEALTH, SAFETY AND WELFARE DUE TO FLOOD CONDITIONS AND HAZARDS.

OBJECTIVE 2.1. FLOOD DAMAGE

Flood damage prevention shall be accomplished through restricting new development from obstructing the flow of water and increasing flood heights within a floodplain. To offset any loss of flood storage capacity, compensatory storage is required for new fill, or other obstruction, put in the floodplain by providing an at least equal volume to replace the lost flood storage volume.

POLICY 2.1.1.

The City shall protect the natural functioning values of the floodplains to the maximum extent feasible through wetland buffer requirements, compensatory storage, conservation easements and tree protection ordinances.

POLICY 2.1.2.

The City shall require all new development occurring within the 100-year floodplain to provide for the protection of adjacent properties.

POLICY 2.1.3.

The City shall regulate the deposition of fill material within a floodway in order to prevent damage to the public, as an uncontrolled river may at flood state, pose a threat to life and property in excess of that is anticipated by the 100-year storm in the floodway fringe areas.

POLICY 2.1.4.

Sites for the creation of compensatory storage volume, commensurate with any flood storage volume lost as a result of development activities (including roadways) in the 100-year floodplain, shall be on the same or adjacent site, or within the same hydraulically connected basin in order to provide for effective storage volume within the floodplain, but shall not be located within land areas identified for preservation purposes, such as wildlife corridors, or as being within the jurisdictional wetland limits of regulatory agencies, except for the purpose of providing pretreated stormwater storage capacity.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 2.1.5.

Special Flood Hazard Areas shall be interpreted as that portion of the site lying within the boundaries of the 100-year floodplain based on the Official Federal Emergency Management Agency Flood Insurance Study and corresponding Flood Insurance Rate Maps.

POLICY 2.1.6.

The City shall ensure that fill material or other structures do not adversely obstruct the movement of floodwaters natural overland sheet flow or pose a threat to the public health, safety, and welfare.

POLICY 2.1.7.

Areas not filled within the floodplain are to be generally left in their natural state. However, such areas may be used to meet landscaping and/or retention requirements, provided that the design of development is consistent with City codes and standards.

OBJECTIVE 2.2. FLOODPLAIN MANAGEMENT

All development shall continue to be reviewed in accordance with the floodplain management criteria of the City's Flood Hazard Area section of the Land Development Code, as amended, and other applicable policies as contained within the Code of Ordinances and the Comprehensive Plan.

POLICY 2.2.1.

The City shall constantly enforce the flood hazard provisions of Chapter 3, Article II of the Land Development Code which shall contain, at a minimum, provisions for:

- a. Restricting or prohibiting uses which are dangerous to health, safety, and property due to water or erosion hazards, or which result in damaging increases in erosion or in flood heights or velocities;
- b. Requiring that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
- c. Controlling the alteration of natural floodplains, stream channels, and natural protective barriers, which help accommodate or channel flood waters;
- d. Controlling filling, grading, dredging, and other development which may increase flood damage; and,
- e. Preventing or regulating the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards in other areas.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 2.2.2.

The City shall continue to develop and enforce a floodplain management program that balances the public interest in regulating the use of private property against the interests of private landowners.

POLICY 2.2.3.

The City shall continue to participate in the National Flood Insurance Program.

POLICY 2.2.4.

All development, rezoning, and changes in land classifications shall be reviewed and measured against the environment's capacity to accommodate such action and the extent of harm which the proposed development, rezoning and change in land use may impose upon the established and proper use of neighboring lands.

POLICY 2.2.5.

The City shall periodically review its zoning regulations to ensure that the density which is permitted under each zoning category is consistent with the City's desire to protect the natural functioning values of the floodplain and to protect the quality and quantity of surface water resources.

POLICY 2.2.6.

Floodplains whose functional values have been degraded or destroyed through human intervention should be restored, if possible, by acquisition of historic floodplain lands. Various state, regional and local land acquisition programs shall be used for this purpose.

POLICY 2.2.7.

The City shall perpetually enforce the flood hazard provisions of the Land Development Code and amend it as necessary to incorporate recently updated flood insurance studies and flood insurance rate maps and to further bring it into full compliance with revisions of the national flood insurance program floodplain management criteria.

POLICY 2.2.8.

All new public buildings and infrastructure shall be located outside the 100-year floodplain to the maximum extent feasible. Appropriate flood proofing measures shall be undertaken for any public buildings located within the floodplain. Any pump stations or other electrical and mechanical equipment shall be designed to be protected from physical damage by the 100-year flood.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 2.2.9.

The City shall coordinate its floodplain management programs with appropriate Federal, State, regional, and local governments.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 3. GROUNDWATER

THE CITY SHALL SECURE PUBLIC HEALTH, SAFETY, AND GENERAL WELFARE, AND PROTECT THE QUALITY AND QUANTITY OF GROUNDWATER RESOURCES IN ORDER TO ENSURE A SAFE AND ADEQUATE WATER SUPPLY FOR PRESENT AND FUTURE GENERATIONS AND, TO PRESERVE GROUNDWATER RESOURCES PRESENTLY IN USE.

OBJECTIVE 3.1. SALTWATER INTRUSION AND RECHARGE

The City shall prevent saltwater intrusion by limiting potentially harmful water extractions and ensuring recharge occurs to the maximum extent practical and technically feasible.

POLICY 3.1.1.

Water conservation measures shall be maintained in the plumbing codes (e.g., require new construction to install water conserving plumbing fixtures) and shall be updated as the technology becomes available.

POLICY 3.1.2.

The City shall continue to deliver effluent for reuse as a component of its effluent disposal program to the maximum extent possible. This shall include “dry-line” requirements for new developments.

~~POLICY 3.1.3.~~

~~The City shall obtain water through interconnections with adjacent utility systems.~~

POLICY 3.1.34.

Potable water withdrawal from areas east of the County buffer zone shall be pumped at an appropriate volume and rate to avoid both saltwater intrusion and decreased aquifer levels. These actions shall be consistent with the City’s approved wellfield operating plan.

OBJECTIVE 3.2. INTERGOVERNMENTAL COORDINATION

Coordinate with Federal, State, regional, and other local agencies to develop intergovernmental responses to groundwater problems.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 3.2.1.

The City shall maintain and periodically review potable water supply wellfield protection standards; by designing land use controls that provide long-term protection from contamination, and by establishing criteria for regulations to ensure proper handling, utilization, storage, and disposal of chemicals, fuels, and other hazardous materials within the City, to avoid groundwater contamination.

POLICY 3.2.2.

The City shall maintain formal lines of communication with Federal, State, and local agencies so that the City Police and Fire Departments can be prepared when hazardous materials are transported through the City.

POLICY 3.2.3.

On a continuous basis, the City's Engineering Division shall revise its estimates of safe yield for the Volusia-Floridan Sole Source Aquifer.

OBJECTIVE 3.3. AQUIFER PROTECTION

Excavation projects shall not harm the Volusia-Floridan Sole Source Aquifer.

POLICY 3.3.1.

The City shall prohibit removal of the confining layer of material separating the bottom of borrow pits from the top of the Volusia-Floridan Sole Source Aquifer.

OBJECTIVE 3.4. GROUNDWATER CONTAMINATION

The City shall act to prevent groundwater contamination and to ensure that any contamination will be quickly detected and subjected to a swift and effective response.

POLICY 3.4.1.

On a continuous basis, the City shall maintain its extensive water quality testing program at and near the City landfill in order to monitor groundwater quality parameters.

POLICY 3.4.2.

The City shall maintain and periodically review the provisions of the Land Development Code concerning abandoned gasoline tanks, to comply with applicable State and County regulations.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 3.4.3.

Groundwater resources shall be protected from leaking underground storage tanks by the utilization of state-of-the-art leak prevention technology (such as double-walled storage tanks).

OBJECTIVE 3.5. DEVELOPMENT

All requests for development shall be reviewed to ensure that potential impacts of the proposed development activity do not degrade the quantity and quality of groundwater resources.

POLICY 3.5.1.

Depending upon site locations and intensity of development, applicants for development may be required to provide the City with sufficient information for review of the potential impact on the groundwater resources of the City and region.

POLICY 3.5.2.

The City shall continue to require such information which shall include, but not be limited to, site hydrology, geology, geologic maps, surficial aquifer characteristics, confining unit definitions, water table contour map, direction and rate of groundwater flow, maximum/minimum recorded water table elevations, aquifer relationship to local geology, location of local discharge features, background water quality, suitability for irrigation and wastewater reuse, Volusia-Floridan Sole Source Aquifer characteristics, and potentiometric surface map.

POLICY 3.5.3.

Development within the zone of influence of wellfields shall be regulated and permitted to ensure no degradation of the quality and quantity of groundwater.

POLICY 3.5.4.

Fuel dispensing and storage facilities shall be prohibited within the zone of influence of any wellhead and wellfield.

POLICY 3.5.5.

To the maximum extent possible, the City shall encourage irrigation water to be furnished from community suppliers such as a City or neighborhood reuse system; and the City should discourage the use of individual non-potable wells.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 3.5.6.

The Volusia-Floridan Sole Source Aquifer should not be used to meet non-potable irrigation needs.

POLICY 3.5.7.

Individual well pumpage rates shall be matched to site specific hydrological characteristics in order to avoid excessive groundwater drawdowns in the Floridan Aquifer.

POLICY 3.5.8.

The use of air/water heat pumps shall be consistent with the requirements of the Land Development Code.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 4. POTABLE WATER

THE CITY SHALL PROVIDE AN ADEQUATE QUANTITY AND QUALITY OF POTABLE WATER TO ACCOMMODATE EXISTING AND FUTURE DEMANDS WITHOUT HARMING GROUNDWATER RESOURCES.

OBJECTIVE 4.1. POTABLE WATER SERVICES

Provision of potable water services shall be extended where needed, economically feasible, and environmentally acceptable.

POLICY 4.1.1.

The City shall provide potable water service to existing or platted subdivisions throughout its service area.

POLICY 4.1.2.

The availability of groundwater supplies which may effectively be extracted, treated, and delivered in a cost-effective manner shall be a contingency for development approval.

OBJECTIVE 4.2. INTERGOVERNMENTAL COORDINATION

The City shall cooperate and coordinate the provision of water supplies with State, regional, and local governments.

POLICY 4.2.1.

The City shall cooperate with Volusia County through County grants or County established assessment districts to retrofit subdivisions approved by the County that were developed with individual wells, and are in need of central water service.

POLICY 4.2.2.

The City shall maintain a combined and connected series of finished water interconnects with adjoining utilities' water systems.

POLICY 4.2.3.

The City shall continue to cooperate with the St. Johns River Water Management District in dealing with water shortages and enforcing water use restrictions. Implementation of this policy shall include the following:

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

- a. Interpret District procedures associated with declaring and rescinding a water shortage;
- b. Designate one or more persons to be a liaison with the District concerning water shortage related matters and the enforcement of District water use restrictions;
- c. Amend its ordinance, as needed, to facilitate local enforcement of District water use restrictions;

OBJECTIVE 4.3. WATER CONSERVATION

In order to maintain adequate potable water supplies to meet public health, safety, and welfare needs and minimize adverse economic, social, and environmental impacts, the City shall encourage and require water conservation.

POLICY 4.3.1.

The City shall continue to participate in Local, District, State, and Federal public awareness programs to inform the public of the benefits of reducing water usage.

POLICY 4.3.2.

The City shall discourage the over-watering of lawns and other landscaping plants, particularly when automatically timed sprinkler systems are used. The City shall require the use of “rain sensors” as required by Florida Statutes.

POLICY 4.3.3.

The City shall continue to prohibit the sprinkling of lawns during hours of high evaporation potential.

POLICY 4.3.4.

Water reuse or water reclamation programs shall be used to reduce groundwater and surface water withdrawals for water use applications which do not require potable water. This requirement includes dry-lines for reclaimed water in new developments and the use of stormwater as a reclaimed water augmentation source, where feasible.

POLICY 4.3.5.

The City shall encourage the implementation of a combined effluent reuse system, with adjacent utility providers, including Holly Hill, Daytona Beach and Volusia County.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 5. VEGETATION

THE CITY SHALL PROVIDE FOR THE PROTECTION, ENHANCEMENT, AND MANAGEMENT OF SIGNIFICANT NATURAL VEGETATIVE COMMUNITIES IN ORDER TO MAINTAIN THEIR ECOLOGICAL, AESTHETIC, ECONOMIC AND RECREATIONAL VALUES.

OBJECTIVE 5.1. ECOLOGICAL COMMUNITIES

The City shall maintain and periodically review standards and programs that maintain upland ecological communities to the maximum extent feasible within the City.

POLICY 5.1.1.

An inventory of natural vegetative communities shall be provided by the applicant for all development proposals requiring site plan or plat approval. The applicant shall provide a plan for protection of species which are designated by either State or Federal agencies as endangered, threatened, or of special concern.

POLICY 5.1.2.

~~The City shall maintain, refine, and expand its FLUCCS inventory and make such information available to land developers.~~ Land developers and other interested parties shall consult with state agencies who maintain the Florida Land Use, Cover, and Forms Classification System (FLUCCS) as desired.

POLICY 5.1.3.

Ecologically viable portions of natural upland plant communities including, but not limited to, rare or endangered ecosystems within proposed urban development sites, should be preserved and maintained in their original state, to the greatest extent practicable.

POLICY 5.1.4.

The City shall maintain and periodically review provisions in the Land Development Code to preserve the upland buffers of native vegetation; significant habitat area (including wildlife corridors); scenic vistas; areas where native vegetation is important to impede erosion; and other areas where the public interest is best served by preserving native vegetation.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 5.1.5.

The City shall maintain and periodically review standards that preserve the present forested tree cover to the maximum extent practical.

POLICY 5.1.6.

The City shall preserve designated canopy roads and Greenbelts as implemented by the Land Development Code.

POLICY 5.1.7.

The City shall minimize the clearing of trees for rights-of-way, to protect existing habitats as implemented by the Land Development Code.

POLICY 5.1.8.

Significant mesic or ~~xeric~~ native communities shall not be disturbed or affected by water detention, retention, or reuse activities or structures as implemented by the Land Development Code.

OBJECTIVE 5.2. HABITAT AND DEVELOPMENT

Balance the combination of aesthetic, ecological, recreational, and utilitarian qualities of the land for the long-term public interest.

POLICY 5.2.1.

Require habitat corridors and buffers of sufficient length and width to protect the long-term viability of significant habitat areas; for designated plant and animal species.

POLICY 5.2.2.

The development plan review process shall consider the overall impact of a project on adjoining ecosystems.

POLICY 5.2.3.

Require property owners to protect wetland systems in accordance with the criteria and standards for each wetland classification as noted under Objective 5.4 of this Element and in the City Wetlands Protection section of the Land Development Code, Chapter 3, Article II.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 5.2.4.

In cooperation with adjacent governmental entities, ensure the survival of significant habitat areas, habitat corridors, and specimen and historic trees.

POLICY 5.2.5.

Work with adjacent governmental entities to ensure that planned wildlife corridors are contiguous and provide for unimpeded movement of wildlife.

POLICY 5.2.6.

Manage undeveloped City-owned lands for the long-term public interest, doing so in a manner by which the City sets an example for private development to follow. For example, the City should follow Ecosystems Management Practices as defined by the Department of Environmental Protection when applicable.

POLICY 5.2.7.

Development may incorporate isolated wetlands into effective stormwater management systems, provided that the stormwater runoff is treated prior to entering any wetland system, so that the wetland is used for nutrient and volume attenuation.

POLICY 5.2.8.

Make land use decisions in conjunction with the carrying capacity of the land and its ecosystems.

POLICY 5.2.9.

On a continuous basis, the City shall study and upgrade as necessary its buffer width requirements for projects abutting waterways and wetlands.

POLICY 5.2.10.

On a continuous basis, the City shall coordinate and cooperate with contiguous governmental entities to protect environmentally sensitive vegetative habitats which extend into contiguous jurisdictions.

POLICY 5.2.11.

The area of land disturbed by development shall be as small as practicable. Those areas which are not to be disturbed shall be protected by an adequate barrier from construction activity. Whenever possible, natural vegetation shall be retained and protected.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 5.2.12.

Land that has been cleared for development and upon which construction has not commenced shall be protected from erosion by appropriate techniques designed to revegetate the area.

POLICY 5.2.13.

Wherever feasible, site design shall accommodate any designated plant species with protected status which are in the path of development; where this is not feasible, these plants will be relocated to protected sites having appropriate growing conditions, whenever possible.

POLICY 5.2.14.

To preserve wetlands, the lateral distance of groundwater drawdown influence shall not adversely affect protected wetlands or their functions. The applicant shall demonstrate to the City Engineer through a series of borings or field permeability tests that the subsurface, groundwater, and permeability conditions shall not receive a significant negative impact. The applicant shall provide a calculation of the maximum horizontal or vertical drawdown that can be anticipated beyond the maximum perimeters of any borrow pit, detention, or retention area.

POLICY 5.2.15.

The City of Ormond Beach shall cooperate with Volusia County in the development of an interpretive/educational signage program along the Ormond Scenic Loop & Trail. The program shall include a requirement for signage and information that highlight the flora, fauna, land forms, water bodies, and historical/archeological resources allocated along the corridor.

POLICY 5.2.16.

The City and Volusia County, in conjunction with the Ormond Scenic Loop & Trail Corridor Management Entity shall ~~develop~~ maintain and implement a plan for safe, public parking to allow the safe enjoyment of the natural and scenic resources.

POLICY 5.2.17.

The City of Ormond Beach shall cooperate with Volusia County in efforts to Regrow the Loop and Regrow Volusia.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 5.3. NATIVE LANDSCAPING

The City shall promote the use of native drought-resistant vegetation in landscaping. The maximum amount of protection possible shall be provided for existing trees and other vegetation in order to assist in the control of flooding, soil erosion, dust, heat, air, and noise pollution and to improve the appearance, environmental character, and value of the total urban area and to protect nearby properties.

POLICY 5.3.1.

The City shall continue to promote and encourage ~~xeriscape~~ native design concepts for landscaping single-family homes by providing builders, landscape designers, homeowners, and the general public with informational brochures describing ~~xeriscape~~ native plantings.

POLICY 5.3.2.

The City shall require that at least 50% of the landscape vegetation used on a project reviewed by the Site Plan Review Committee be comprised of drought resistant native vegetation in harmony with site specific conditions.

POLICY 5.3.3.

Vegetation on new City landscaping projects shall be comprised of at least 50% native drought resistant vegetation.

POLICY 5.3.4.

All new developments and expansions of existing development, except for single-family homes in an existing subdivision, shall provide for the protection of native vegetation on the site. Existing developments should utilize native plants in common areas (entranceways, pavilions) in instances where replanting or re-landscaping becomes necessary.

POLICY 5.3.5.

Native vegetation shall be used to the maximum extent possible to meet landscaping and open space requirements.

POLICY 5.3.6.

Exotic plant species, as identified by the Florida Invasive Species Council ~~listed as exempt species in chapter 3, Article II of the Land Development Code~~, shall be removed from development sites during the time of construction.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 5.3.7.

Development shall preserve fifty (50%) percent of ecologically viable portions of natural upland plant communities, including rare or endangered ecosystems, present on-site.

POLICY 5.3.8.

The City shall reduce groundwater withdrawal through the utilization of a reclaimed water scheduling program as mentioned in section 2C of the 2023 Water Supply Plan. The reclaimed water schedule may be updated by the Utility Manager or Public Works Director as deemed necessary. Additionally, the City will continue to communicate the importance of watering conservation with its customers.

POLICY 5.3.9.

The removal of invasive species on City owned and maintained lands shall be funded through the annual budget process.

OBJECTIVE 5.4. WETLAND PRESERVATION

Wetland areas within the City shall be preserved in accordance with a City that incorporates the need for wetlands preservation; directs incompatible uses away from wetland areas; promotes economic development that creates long-term jobs by establishing a means to allow wetland impacts for industrial land uses in platted industrial parks; inventories existing wetlands within the City; sets performance criteria to maintain wetland functions; establishes transition zones; and—establishes land use policies for transition zones; and establishes standards for mitigation based on a policy of no-net-loss of wetland functions as a last resort.

POLICY 5.4.1.

It is the policy of the City to require proper planning to avoid or minimize damage to wetlands; to require that activities not dependent upon a wetland location be located at upland sites; to allow wetland losses only where all practicable measures have been applied; to reduce those losses that are unavoidable and in the public interest; to require silviculture to comply with all requirements; to provide for mitigation in the form of wetland restoration, wetland creation or upland preservation; to offset further losses; to promote economic development that creates long-term, value added jobs by allowing wetland impacts in excess of minimum requirements under certain conditions for commercial, industrial, ~~and~~ residential, office, ~~and~~ retail, land uses, subject to applicable ~~e~~ County, ~~s~~ State, and ~~f~~ Federal wetland regulations; and to provide for the protection of wetlands under the City's land development regulations to be adopted and implemented consistent with Section 163.3202, F.S.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 5.4.2.

Land use planning and site design shall support development patterns which minimize the impact of development on wetland communities. As a result of development, there shall be no net loss of wetlands functions or values, nor shall wetlands functions and values be degraded.

POLICY 5.4.3.

All development shall comply with wetland protection requirements of all Federal, State, and regional agencies.

POLICY 5.4.4.

The City shall require a wetland permit for any development that proposes to alter a wetland system and the permit shall clearly show the proposed alteration and mitigation. A Wetland Management Plan shall be required for all development that may adversely affect wetland systems and the requirements shall be contained in the Land Development Code.

POLICY 5.4.5.

No activities in or affecting wetlands shall destroy natural wetland functions that are important, unless otherwise mitigated, to the general welfare by:

- a. Decreasing breeding, spawning, nesting, wintering, feeding, or other critical habitat for fish and wildlife, including rare, threatened and endangered plant and animal species, commercially and recreationally important fish and wildlife and species of special concern;
- b. Interfering with the natural exchange of nutrients needed by fish and other forms of wildlife;
- c. Reducing groundwater recharge;
- d. Destroying sites needed for educational and scientific research.

POLICY 5.4.6.

The City shall continue to require and enforce the provision and maintenance of adequate and undisturbed upland buffers of native vegetation adjacent to the Halifax River, the Tomoka River, and all of their associated tributaries and wetlands.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

A minimum shoreline requirement shall be applied for all new development to protect wildlife and marine life habitat areas and the adjacent surface water quality. The minimum shoreline setbacks shall be as follows:

- a. Tomoka River and the Little Tomoka River: A minimum of 120 feet from the mean high-water mark or 50 feet from the upland/wetland interface line, whichever is greater. The minimum setback may be reduced where a planned overlay district is approved for sites where a bluff of ten feet (10') above the mean high-water mark exists along the river.
- b. Halifax River: A minimum of 30 feet from the mean high-water line or upland/wetland interface, or as stipulated by a specific zoning district rear yard setback contained in the Land Development Code, whichever is greater. The minimum setback may be reduced where a planned overlay district is approved for sites where a bluff of ten (10') feet above the mean high-water mark exists along the river.
- c. Mosquito Control Ditches; Strickland, Dodson, and Thompson Creeks; and Misner's and Groover Branches: A minimum of 60 feet from the mean high-water mark or 50' from the upland/wetland interface line, whichever is greater.
- d. For those waterways listed under "c" above, the shoreline and wetland setback may be adjusted downward on a case-by-case basis, to be no less than 30 feet from the mean high-water mark or no less than 25 feet from the upland/wetland interface, whichever is greater. A request for a reduction may be considered, provided that the associated wetland and upland buffer areas are predominantly herbaceous in nature, and the functioning values of the wetland and upland buffer areas are poor for such factors as wetland wildlife quality, and quantity; and sediment and turbidity control; and surface water runoff control. A determination to allow a reduction in the buffer width shall be based on a finding of conformance to all of the following criteria as conducted through the development review process:
 1. The developable portion of the property is less than 150 feet deep for existing lots of record, as of the date of adoption of the Comprehensive Plan.
 2. The proposed development shall be connected to a central water and sewer system.
 3. The proposed development shall not adversely impact the hydroperiod and other functioning values of the adjacent wetland as determined by review of a Wetlands Management Plan, which is required to be submitted under the Wetlands Protection Ordinance.
 4. The proposed development shall provide one-to-one mitigation for reduction in standard, by enhancing the functioning values of the on-site upland and wetland buffer areas.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 5.4.7.

The City shall maintain Land Development Code regulations consistent with the minimum standards for wetland protection as approved by Volusia County. These standards address the identification of wetlands, mitigation requirements to ensure that there is no net loss of wetlands within the City limits, and a minimum 25-foot-wide buffer upland and adjacent to wetlands requirements.

POLICY 5.4.8.

All new development shall submit to the City a description of all watercourses, water bodies and wetlands on or adjacent to the site or into which surface waters flow. Information regarding their water quality and the current water quality classification, if any, given them by the Florida Department of Environmental Regulation, the Army Corps of Engineers, the St. Johns River Water Management District, and the Florida Department of Environmental Protection shall be included.

POLICY 5.4.9.

No development shall be approved unless it satisfies the provisions of the City's Land Development Code and the ~~SJRWD~~ St. Johns River Water Management District rules for Management and Storage of Surface Waters (MSSW), Chapter 40C-4, F.A.C.

POLICY 5.4.10.

The City will protect wetland systems through public acquisition or purchase of development rights, environmental conservation easements, cluster zoning, land banking and mitigation.

POLICY 5.4.11.

The City shall encourage the incorporation of isolated wetlands into stormwater management systems as detention facilities to avoid the filling and excavating of wetlands. Whenever isolated wetlands are used for stormwater detention, hydroperiods and stage elevations shall be designed to maintain the existing natural wetlands community, except where permitting agencies agree that the imposition of conditions which favor a different plant community is more desirable for the purpose of providing habitat, improving water quality or enhancing other wetland values. In order to maintain the long-term viability of isolated wetlands used for retention, stormwater shall be treated to meet the general water quality criteria of c.62, F.A.C., prior to its discharge in isolated wetlands.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 5.4.12.

The City shall continue to investigate methods to safely utilize wetlands to further treat treated wastewater as an alternative to discharging effluent into the surface waters of the City.

POLICY 5.4.13.

Any drainage that occurs adjacent to a wetland will be separated by an adequate buffer, liner or other means to avoid changes in the wetland's hydroperiod.

POLICY 5.4.14.

Biological monitoring activities, including shallow groundwater levels, shall be undertaken by the developer at various locations for the purpose of evaluating wetland biological productivity and condition.

POLICY 5.4.15.

The applicant shall take positive steps to correct or mitigate any unnecessary degradation of water or wetland quality caused by site development as determined by the St. Johns River Water Management District, the Florida Department of Environmental Protection, the Army Corps of Engineers, or the City.

POLICY 5.4.16.

Roadway designs in or near wetland areas will provide for the capture and diversion of stormwater runoff from roadway surfaces in wetland areas to upland stormwater retention/detention ponds for treatment prior to discharge into receiving water bodies.

POLICY 5.4.17.

On-site wastewater treatment systems shall not be allowed within 75 feet landward of the upland/wetland interface or the 100-year floodplain boundary or within 120 feet of the shoreline edge, whichever is more restrictive.

POLICY 5.4.18.

No wells shall be allowed to be constructed in wetlands.

POLICY 5.4.19.

Where artificially constructed lakes adjoin or are within 100 feet of a wetland, design elevations of such lakes will be controlled to maintain or recreate historic water levels and

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

hydroperiods of the adjacent or nearby wetland system. Under no circumstances shall the lakes be allowed to draw down the water table within 300 feet of a wetland.

POLICY 5.4.20.

The City shall prohibit construction projects utilizing any dewatering process from discharging into a designated wetlands area.

POLICY 5.4.21.

Limit the extensive utilization of fill material in uplands if its utilization results in extensive or significant wetland alteration.

POLICY 5.4.22.

Wetlands shall not be used as primary sediment traps during development. No grading, cutting or filling shall be commenced until erosion and sedimentation control devices have been installed between the disturbed area and the wetlands.

POLICY 5.4.23.

The City shall prohibit direct discharge of stormwater into wetland areas.

POLICY 5.4.24.

The minimum distance between the edge of each stormwater retention/detention pond and adjacent wetlands shall be 300 feet, unless the St. Johns River Water Management District and/or the City accepts tests, calculations or other information furnished by the applicant through the permitting process which clearly demonstrates that deviation from the 300 feet distance would not degrade the wetlands in any way.

POLICY 5.4.25.

Although the use of wetlands for storing and purifying water is encouraged, care must be taken not to overload their capacity, thereby harming the wetlands and transitional vegetation. Wetlands should not be damaged by the construction of detention ponds.

POLICY 5.4.26.

Retention and detention ponds shall be used to retain and detain the increased and accelerated runoff which the development generates. Water shall be released from detention ponds into wetlands at a rate and in a manner approximating the natural flow which would have occurred before development.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 5.4.27.

Agricultural drainage ditches and mosquito control ditches that adversely affect the hydroperiod of natural wetland systems shall be prohibited.

POLICY 5.4.28.

Proposed activities which would destroy or degrade the function of wetlands shall not be permitted except where such activities are not contrary to the public interest and where there is no practical alternative which reduces or avoids impacts to wetlands. Unavoidable losses of viable wetlands should be mitigated through the demonstrably successful restoration, creation or (where no other alternative is feasible) preservation of wetlands.

POLICY 5.4.29.

The purpose of mitigation is to offset unavoidable environmental impacts. Mitigation plans should consider the function of existing natural resources and provide comparable functions after mitigation is completed. Mitigation plans should maximize the preservation of existing natural resources. The mitigation plans shall consider the following methods, in order of priority in which they should be utilized:

- a. Avoiding the impact altogether by not taking a certain action or parts of an action;
- b. Minimizing impacts by limiting the degree or magnitude of the action or its implementation;
- c. Rectifying the impact by repairing, rehabilitating, or restoring the affected environment;
- d. Reducing or eliminating the impact over time by preservation and maintenance operations during the life of the action; and
- e. Compensating for the impact by replacing or providing substitute resources or environments through creation of new wetlands, enhancement of existing wetlands or re-establishment of wetlands or significant upland areas which are no longer functioning due to significant alteration in the past.

POLICY 5.4.30.

Where all or part of a wetland is destroyed or substantially altered by development, an acceptable mitigation plan shall include at least:

- a. Compensatory wetland mitigation ratios shall be consistent with the ratio established for each wetland classification. Wetland-to-wetland compensation should be like kind replacement, i.e., saltwater system for saltwater system, freshwater for freshwater where practicable;

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

- b. Specific design requirements based upon conditions of the site and the type of wetland to be treated or restored;
- c. Periodic monitoring to remove exotic or nuisance vegetation;
- d. Monitoring and replacement to assure a survival rate of 80% wetland vegetation for a minimum of three (3) years; and
- e. An upland habitat as an adjacent buffer on mitigated sites.

POLICY 5.4.31.

An acceptable mitigation plan shall be reasonably and technically feasible. Mitigation through restoration of other degraded wetlands or preservation of significant upland areas is preferred over wetland creation.

POLICY 5.4.32.

Mitigation shall take place as follows (ranked in preference): (1) on site or (2) in close proximity and within the same drainage basin or (3) an approved mitigation bank.

POLICY 5.4.33.

A mitigation plan approved by a Federal, State, or regional agency shall be presumed to be acceptable provided, however, if no such mitigation plan is required by the approved permit from the Federal, State, or regional agency, then the local government may at its option adopt a mitigation plan in compliance with this section.

POLICY 5.4.34.

An applicant who carries out a compensatory mitigation plan shall at least grant to the City a conservation easement on the newly created or restored wetland and buffer or preserved significant upland area to protect it from future development. A legal mechanism which protects the area in perpetuity other than a conservation easement may be deemed appropriate on a case by case basis to carry out the purpose of the subsection.

POLICY 5.4.35.

The City shall utilize the Uniform Mitigation Assessment Method (UMAM), pursuant to Section 62-345, F.A.C., to determine the amount of mitigation needed to offset a wetland impact.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 6. FISH AND WILDLIFE

MAINTAIN, PROTECT, PRESERVE, OR INCREASE EXISTING NATIVE FISH AND WILDLIFE SPECIES IN TERMS OF OVERALL POPULATION AND DIVERSITY.

OBJECTIVE 6.1. CONSERVATION

The City and any development activity shall ensure that viable sized tracts of unique and significant natural habitat areas and wildlife corridors are preserved and protected with adequate buffers of native vegetation and an effective management plan in order to minimize the adverse effect of development or recreation activity on fish and wildlife. Fisheries, fishes, wildlife, and wildlife or marine life habitats shall be conserved, appropriately used, and protected, particularly those which are threatened, endangered, or of special concern.

POLICY 6.1.1.

The City shall maintain the provisions of the Land Development Code that incorporate 1) the creation of viable wildlife habitats and corridors and 2) the preservation of sustainable vegetative mosaics of significant native faunal and floral habitat and wildlife corridors into the development review process to ensure that natural habitat areas are protected to the maximum extent feasible on both site-specific and macro levels from the cumulative effects of growth and development.

POLICY 6.1.2.

If it is presumed that a designated species may be present on the basis of general characteristics, including the number and types of plant communities, the linear amount of “edge” such as the boundaries between woods and grasslands, the presence of water, and the presence of movement corridors between habitat areas, the City shall require applicants for development to assess the impact of development on designated species. Designated species shall include those classified, by either the Florida Game and Freshwater Fish Commission or the U.S. Fish and Wildlife Service, as endangered, threatened, or species of special concern, or those species actively being considered for designation. When estimating the impact of proposed development, the applicant may be required to conduct an inventory of existing wildlife and vegetation on the site.

POLICY 6.1.3.

No more than 20% of the habitat area for designated species may be disturbed, whether cleared, filled or otherwise altered. Any development which disturbs designated species habitat areas shall prepare a workable management plan for those affected species. Such management plan shall be reviewed and approved by the respective State agencies.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 6.1.4.

The City shall monitor and review development and recreation activities, in conjunction with other agencies, along the Tomoka River and its tributaries to identify the impacts that development and recreation have on fish and wildlife within the rivers' and creeks' riparian wildlife corridor.

POLICY 6.1.5.

In order to maintain the biological integrity of the riparian wildlife corridor associated with the Tomoka River and its tributaries, the City shall continue to ensure that the width of the corridor does not diminish below present levels by preserving all connected wetland areas and requiring upland and shoreline buffers.

POLICY 6.1.6.

The City shall coordinate with the St. John's River Water Management District (SJRWMD) to inventory and analyze the extent of wildlife and make recommendations to maintain or prevent the significant decline of wildlife diversity in SJRWMD the St. John's River Water Management District designated Riparian Habitat Protection Zones.

POLICY 6.1.7.

The City shall maintain in the development review process the review and consideration of the cumulative and macro level impacts upon native faunal and floral species, their habitats, and wildlife corridors.

POLICY 6.1.8.

The City shall cooperate with local, State, regional, and Federal agencies as needed to update inventory and analysis of the quantity and quality of existing aquatic and terrestrial habitat and movement corridors.

POLICY 6.1.9.

The City will cooperate with state agencies to implement the ~~enforce riparian wildlife corridor standards to prevent the diminishing of wildlife diversity beyond the baseline diversity similar to but not less than the six hundred (600') foot St. John's River Water Management District (SJRWMD)~~ Tomoka River Riparian Habitat Protection Zone.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 6.1.10.

On a continuous basis, the City shall update its Land Development Code to incorporate the most recent information and to best ensure protection of sea turtles.

POLICY 6.1.11.

The City shall prohibit the release of balloons into the atmosphere, except for balloons associated with educational, scientific, or transportation purposes.

POLICY 6.1.12.

The City shall maintain standards, within the land development regulations for identification and preservation of floral and faunal habitats and wildlife corridors.

POLICY 6.1.13.

Site development related activities shall not result in the harming, pursuit, or harassment of wildlife species classified as endangered, threatened or a species of special concern by either the State or Federal governments in contravention of applicable State or Federal laws. Should such species be determined to be residing on, or be otherwise significantly dependent upon the project site, the developer shall cease all activities which might negatively affect that individual or population and immediately notify the Florida Game and Freshwater Fish Commission or the Florida Department of Environmental Protection, the United States Fish and Wildlife Service, and the City. Proper protection and habitat management, to the satisfaction of all agencies, shall be provided by the developer.

POLICY 6.1.14.

To minimize dependency on groundwater for irrigation and to prompt retention of wildlife habitat, native vegetation shall be utilized in landscaping to maximum extent practicable.

POLICY 6.1.15.

The City shall ensure that protected and designated environmental system corridors remain intact even after annexation.

POLICY 6.1.16.

If a habitat mitigation plan is required by an agency, the City shall ensure that the applicant provides for on-site direct supervision during the construction process and any post-construction modifications. Permit conditions of other agencies shall be submitted to the City and enforced.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 6.1.17.~~

~~The City shall encourage the Volusia Council of Governments to maintain a clearinghouse for environmental and natural resource studies and recommendations by both public and private organizations.~~

POLICY 6.1.187.

Marinas shall not be permitted in areas which are determined to be critical to the survival of the manatee. This includes the Tomoka River, Thompson Creek, Strickland Creek, and Dodson Creek. In addition, construction of new or the expansion of existing boat facilities in these areas shall be consistent with the Manatee Protection Plan for Volusia County dated ~~August 23, 2005~~ (adopted by Volusia County on September 8, 2005) and the requirements of the City of Ormond Beach Land Development Code, whichever is more restrictive.

POLICY 6.1.198.

Where a site is found to be inhabited by a gopher tortoise population that meets or exceeds the Florida Game and Freshwater Fish Commission's threshold of "significant" gopher tortoise habitat or which comprises part of a gopher tortoise population that may, in the aggregate, meet or exceed this threshold, the property owner shall protect such habitat areas through the use of conservation easements, deed restrictions, or common open space areas. As an alternative, gopher tortoises may be relocated only in conformance with an approved gopher tortoise relocation plan.

POLICY 6.1.2019.

Any bridge or road crossings over water bodies and/or wetlands shall be designed and constructed to minimize the right-of-way width, minimize overstory removal, and provide adequate space under the span of road to accommodate large wildlife movement and shall not impede anticipated water flows.

POLICY 6.1.210.

Land development proposals shall be reviewed to protect the natural functions of ecologically viable wildlife, fisheries and marine habitats. Applicants for development shall prepare a suitable alternative management plan, as per Policy 6.1.2., when local, State, or Federally listed vegetative, wildlife and marine species occur within project boundaries.

POLICY 6.1.221.

The City shall maintain development review standards for projects which impact habitats of endangered and threatened species or species of special concern. The type and

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

occurrence of such habitats shall be as determined by the City, the County or the appropriate Federal (USFWS) and State (FGWFC, FDEP, ECFRPC) agencies. These review standards shall address at minimum:

- a. Proper siting of development structures and infrastructure, including clustering of dwelling units or buildings away from such habitats;
- b. Management plans which protect fish and wildlife designated as endangered, threatened or species of special concern;
- c. Mitigation plans for such habitat which is unavoidably altered;
- d. Restrictions on the use of such habitats to those which are found to be compatible with the requirements of wildlife species which are threatened, endangered, or of special concern.

~~POLICY 6.1.23.~~

~~The City shall establish management plans for specific endangered and otherwise designated species. At minimum, these plans shall:~~

- ~~a. Provide for the coordination of Federal, State, local, and private activities involving protection of the particular species;~~
- ~~b. Establish public education programs;~~
- ~~c. Provide for the minimization of activities which directly or indirectly adversely impact the particular species listed above; and~~
- ~~d. Establish standards for habitat protection, and/or relocation of species, where appropriate.~~

POLICY 6.1.242.

The City shall establish and maintain programs to reduce, and eliminate, where possible, pollution activities which adversely impact endangered species, including illegal dumping of solid and hazardous waste, littering near open waterbodies, and the outdoor release of balloons.

POLICY 6.1.253.

Marine, brackish, and freshwater habitats necessary for the continued ecological stability of fisheries and water-dependending wildlife shall be identified and protected through, at minimum, coordination with the Florida Game and Freshwater Fish Commission, Florida Department of Environmental Protection, and other governmental agencies as appropriate.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 6.1.264.

The City shall continue to ensure the protection of manatees by, at minimum: supporting the Tomoka River Manatee Sanctuary; supporting the regulation and enforcement of boat speeds; regulating safety and water sport activities; utilizing the boat facility siting plan in Phase II of the Manatee Protection Plan for Volusia County ~~dated August 23, 2005~~; monitoring and ensuring the proper maintenance of extensive signage denoting manatee habitat and associated boat speed zone; requiring mitigation through contributions to the Manatee Conservation Fund; and ensuring the distribution of educational materials about manatees and their protection at boat launch and marina facilities. All manatee protection measures shall be consistent with the Manatee Protection Plan for Volusia County ~~dated August 23, 2005 (adopted by Volusia County on September 8, 2005)~~.

POLICY 6.1.275.

Land use activities adjacent to the following areas:

- Open space/conservation areas and recreation/open space areas designated in the Future Land Use and Recreation/Open Space Elements;
- Tomoka Marsh Aquatic Preserve;
- Tomoka River Manatee Sanctuary;
- Tomoka River ~~OFW~~ Outstanding Florida Water;
- Tomoka State Park; and
- Wetlands,

shall be limited to non-intensive uses such as Environmental Systems Corridors, Agriculture, rural, or low density residential and residential, office, retail or neighborhood commercial. All proposed land use activities must ensure that such activities will not degrade the natural physical, biological, aesthetic, or recreational functions of such lands and shall provide for the preservation and protection of such areas in accordance with the appropriate standards including, but not limited to, setback requirements, buffers, wetland and floodplain policies.

POLICY 6.1.286.

Planning and approval of development projects shall avoid adverse impacts to species listed as endangered, threatened or species of special concern to the greatest extent practicable. Where suitable habitat on a project site is utilized by a listed species, a management plan designed to minimize harm to the species and its habitat should be prepared by the developer and adherence to the plan made a condition of development approval. Management plans shall be reviewed and approved by the appropriate State

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

agency (~~FGFWFC or FDEP~~) and the U.S. Fish & Wildlife Service prior to their approval by the City.

POLICY 6.1.297.

The City shall support the protection of critical habitat for endangered and threatened species to the maximum extent feasible. "Critical habitat" shall include those habitat types, or specific geographical locations, which are designated as such by the appropriate State and Federal agencies. ~~USFWS, NMFS, FGFWFC, FDEP, FDACS, or the RPC.~~

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 7. USES OF NATURAL RESOURCES

THE CITY SHALL PROVIDE FOR THE PROTECTION AND SENSITIVE USE OF NATURAL RESOURCES THROUGH DEVELOPMENT REGULATIONS AND PUBLIC PROGRAMS.

OBJECTIVE 7.1. LAND ACQUISITION

The City shall support the acquisition of unique or environmentally significant properties for public conservation reservations and maintain its proposed level-of-service for passive parks.

POLICY 7.1.1.

Upon adoption of the Comprehensive Plan, the City shall require developments along the Tomoka River and its tributaries with individual properties of five acres or larger to include all wetlands in a conservation easement to the City. The easement shall not prohibit the construction of an elevated wooded catwalk to the waterway, provided the construction is done in the most environmentally sound manner. Developments, when property along a waterway or wetland is divided into tracts of less than 5 acres, shall put those wetlands in either public or semipublic (e.g., homeowner's association) control; properties with multiple riparian ownership of less than 5 acres which are under homeowner association control shall grant a conservation easement to the City. For lots of less than 5 acres, if part of a subdivision project, only one community dock shall be allowed.

POLICY 7.1.2.

On a continuous basis, the City shall consider acquisition of vacant lands abutting the Tomoka River, its tributaries, Dodson Creek, and the Halifax River.

POLICY 7.1.3.

The City shall, in coordination with local and State agencies, participate in a strategy to acquire environmentally sensitive lands.

OBJECTIVE 7.2. IMPACT ASSESSMENT

All development activities shall properly assess impacts on the environment and provide an effective mitigation plan as required.

POLICY 7.2.1.

The City shall require Environmental Assessment Reports for all planned unit developments, subdivisions, and other development that must comply with the special

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

requirements of the ~~residential-s~~ Suburban Residential zoning district and that must prepare a water management plan in accordance with the provisions of the Land Development Code.

OBJECTIVE 7.3. SUSTAINABILITY

Promote energy conservation techniques such as the use of alternative and renewable energy sources thereby increasing energy efficiency.

POLICY 7.3.1.

Encourage the production and use of energy generated from renewable resources.

POLICY 7.3.32.

The built environment and urban design should maximize natural areas and assets and incorporate Florida Friendly landscaping to reduce energy and water consumption.

POLICY 7.3.43.

Create, protect and manage systems of green infrastructure (i.e., urban forests, parks and open spaces, green roofs, natural drainage systems).

POLICY 7.3.54.

Protect and enhance green spaces to provide natural carbon sinks in soils, vegetation, and streambeds to mitigate carbon emissions.

POLICY 7.3.65.

Encourage site design techniques that restore natural “green infrastructure” (i.e., urban forests, parks and open spaces, natural drainage systems) instead of relying solely on engineered systems that require higher energy and carbon inputs.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 8. AIR QUALITY

MAINTAIN THE PRESENT HIGH LEVEL OF AIR QUALITY FOR HUMAN HEALTH, SAFETY, AND WELFARE, AND PROTECTION OF THE NATURAL ENVIRONMENT.

OBJECTIVE 8.1. STANDARDS

Prevent the degradation of the City's air quality below baseline standards.

POLICY 8.1.1.

No industrial or commercial business which emits air pollutants which would degrade the City's ambient air quality will be permitted unless it can be proven to the City that all available pollution control devices and practices will be installed as a part of the development upon occupancy.

POLICY 8.1.2.

The City shall encourage alternative modes of transportation by promoting the use of bicycles by building more bike lanes, bike paths, and bike racks, and requiring more improved pedestrian sidewalks.

~~POLICY 8.1.3.~~

~~The City shall support, by Resolution, an inspection program by the Police Department to identify vehicles which fail to meet pollution control standards as mandated by Florida Statutes.~~

POLICY 8.1.43.

New facilities housing the young, the elderly or the handicapped shall be prohibited from locating near point air pollution sources and vice versa. Playgrounds and active recreation areas shall also be located a safe distance from these sources.

POLICY 8.1.54.

Construction, excavation, and land clearing activities shall minimize the exposed ground surface area. Any area that is to be exposed for an extended time period shall be mulched or sodded.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 8.1.65.

In the interest of safety and air quality control, residential development shall construct a system of bikeways or provide for bicycles in the construction of the internal roadway system which will provide bicycle travel between:

- a. Homes and schools
- b. Homes and employment centers
- c. Homes and neighborhood commercial centers.

POLICY 8.1.76.

External bicycle systems which provide for bicycle traffic to adjacent residential, employment, and educational centers shall be connected by development and the provision for facilitating the movement of bicycle traffic to nearby external residential, employment and educational centers shall be considered during the site plan review process.

POLICY 8.1.87.

Bicycle lockers or bicycle racks, transit passenger shelters and transit parking bays shall be constructed where necessary to augment and facilitate the operations of off-site transit and bicycle facilities.

POLICY 8.1.98.

The City shall continue to require all buildings scheduled for demolition or renovation be surveyed by the applicant for the presence of asbestos. Asbestos shall be removed prior to demolition. Any asbestos removal and disposal shall be performed by a contractor licensed by the Florida Department of Professional Regulation.

POLICY 8.1.409.

The City shall enforce Section 104.1.10 of the currently adopted Florida Building Code in regard to asbestos removal during demolition or construction activities.

OBJECTIVE 8.2. SITE PLAN REVIEW

~~The City shall review through the site plan review process the change in levels of air pollutants considered hazardous to health or damaging to property (including but not limited to carbon monoxide, sulfur oxides, hydrocarbons, particulates, nitrogen oxides, photochemical oxides); the effective or visual aesthetics, in terms of opacity and shade of emitted smoke plumes. Should the City determine the need for the review of the impacts to the air quality, the developer shall pay for the services of a 3rd party consultant to review the project for change in levels of air pollutants, considered hazardous to health or damaging to~~

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

property. The City shall coordinate with the Florida Department of Environmental Protection as the regulatory body for -air permits.

POLICY 8.2.1.

The City shall require all industrial and certain commercial development and residential development to prepare an Environmental Assessment Report to analyze and estimate the net change in levels and distribution of pollution caused by the development activity.

POLICY 8.2.2.

The shade and opacity of smoke emitted from developments can be quickly determined by a trained inspector making comparisons with a Ringelmann Chart, which is simply a set of illustrations of different densities.

POLICY 8.2.3.

Development activity which creates an odor on the scale of 2, 3, or 4 shall be located at sufficient distances from residential neighborhoods to reduce the odor to, at minimum, a level of 1.

The intensity of odors can most simply be determined by using a zero-to-four scale, as follows:

- 0 No sensation of odor.
- 1 Just detectable odor (the threshold dilution).
- 2 Distinct and definite odor whose unpleasant characteristics are revealed or foreshadowed (the recognition threshold).
- 3 Odor strong enough to cause a person to attempt to avoid it completely.
- 4 Odor so strong as to be overpowering and intolerable for any length of time.

POLICY 8.2.4.

~~Air modeling shall be accomplished using guidelines adopted by the FDEP or, if none are adopted, using a methodology agreed upon by the City, Volusia County, and FDEP. If the air modeling specified above results in any predictions of one hour or eight hour CO concentrations at or above the Federal and State standards, then ambient air monitoring for CO will be conducted at an appropriate locations(s) determined by the City of Ormond Beach, Volusia County, FDEP and the East Central Florida Regional Planning Council. This monitoring will meet all applicable State and Federal standards for CO monitoring including season, location, duration, instrumentation, quality control and quality assurance. Should the City determine the need for the applicant to provide the air modeling using the guidelines adopted by the Florida Department of Environmental Protection, the applicant~~

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

shall pay for the services of a 3rd party consultant to review and provide comments in accordance with State and Federal standards.

POLICY 8.2.5.

Should the air monitoring specified above indicate that a violation of Florida Ambient Air Quality (FAAQ) standards has occurred, and the modeling indicates that ten (10%) percent or more of the CO is attributable to project traffic, then the applicant shall pursue one or any combination of the following until modeling indicates that the FAAQ's will be achieved:

- a. Not commence the next development or monitoring phase;
- b. Participate in cost-sharing of roadway improvements;
- c. Implement an active Transportation System Management program.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 9. MINING AND MINERALS

MINING EXTRACTION ACTIVITIES SHALL BE CONDUCTED IN A MANNER THAT MINIMIZES IMPACT ON THE ENVIRONMENT AND SURROUNDING LAND USES.

OBJECTIVE 9.1. SAFETY STANDARDS

Mineral extraction activities shall be accomplished in a manner consistent with applicable aesthetic, engineering, environmental, health, noise, recreation, and safety standards.

POLICY 9.1.1.

The City shall maintain the provisions of the Land Development Code concerning effective mineral extraction to achieve an aesthetically pleasing landscape compatible with adjacent land uses. Native vegetative buffers shall be used to minimize soil erosion. Buffers shall also be established between the mining activity and adjacent existing and planned future land uses.

POLICY 9.1.2.

On a continuous basis, the City shall coordinate with local governments, the FDEP Florida Department of Environmental Protection and SJRWMD the St. Johns River Water Management District to ensure that the mined areas are reclaimed in accordance with current law and permit conditions.

POLICY 9.1.3.

If a mine requires “dewatering,” the discharge shall occur from one cell of the project site to another cell. Off-site discharge shall be prohibited.

OBJECTIVE 9.2. HISTORICAL SITES

Mineral extraction activities shall “respect” paleontological, archaeological, and historical sites.

POLICY 9.2.1.

The City shall initiate cooperative efforts with other government agencies and private organizations to identify and evaluate existing or potential extraction sites that are likely to contain significant paleontological, archaeological or historical resources.

POLICY 9.2.2.

Any excavation or mining activity which uncovers or appears to be disturbing archaeological or paleontological resources shall be held in abeyance until a preliminary

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

assessment can determine the probability of significant archaeological or paleontological assets.

POLICY 9.2.3.

The City shall maintain the regulations in the Land Development Code that regulate the process for dealing with potential archaeological or paleontological resources. This shall include cooperation with the Museum of Arts and Sciences, the ~~Volusia~~ Central Florida Anthropological Society, and the ~~State Bureau~~ Florida Division of Historical Resources.

OBJECTIVE 9.3. COMMUNITY BENEFIT

Mineral extraction activities will generate a net benefit to the community.

POLICY 9.3.1.

The City shall require developers or owners to provide restoration plans for new or currently active borrow pits, so that once the material extraction has been completed, the former pits will continue to benefit the overall community.

POLICY 9.3.2.

The City ~~shall~~ may require dry hydrants be installed at appropriate sites adjacent to strategically located borrow pits, to ensure an adequate fire protection capacity.

POLICY 9.3.3.

Mining operators shall ~~demonstrate financial responsibility~~ be responsible to pay for necessary corrective actions or repairs to roadways, buildings, other structures, groundwater, or surface water and to reclaim the site to prescribed specifications upon completion of mineral extraction activities.

OBJECTIVE 9.4. RESOURCE PROTECTION

Mining activities shall not adversely affect the quality of air, groundwater and surface water and land and wildlife.

POLICY 9.4.1.

Phasing of extractive activities shall be used as a device to assure that only small areas are affected by such activities at one time.

POLICY 9.4.2.

The City shall require that a geophysical log series (from wells or other acceptable means) be prepared for the proposed site to assess the hydrogeologic character of the site.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 9.4.3.

Mineral and sand extraction activities shall not remove or disturb any impervious layer (e.g., clay) that naturally segregates the surficial aquifer from the Floridan Aquifer.

POLICY 9.4.4.

Once extraction ceases, appropriate usage limits regarding septic and stormwater systems are to be implemented to ensure protection of surface water, groundwater and the Volusia-Floridan Sole Source Aquifer.

POLICY 9.4.5.

Formerly mined areas may not be incorporated into a stormwater retention or detention system until an engineering, hydrologic, or hydrogeologic determination has been made showing an adequate confining layer, segregating water in the pit from the Volusia-Floridan Sole Source Aquifer.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 10. HAZARDOUS WASTES

THE CITY SHALL ENSURE THAT THE GENERATION, USE, STORAGE, TRANSPORTATION, AND COLLECTION OF HAZARDOUS OR TOXIC CHEMICALS, MATERIALS, OR SUBSTANCES WITHIN THE CITY SHALL CONSTITUTE NO SIGNIFICANT THREAT TO THE GENERAL HEALTH, SAFETY, AND WELFARE.

OBJECTIVE 10.1. ~~SARA TITLE III COMPLIANCE~~ HAZARDOUS WASTE COORDINATION

~~The City shall ensure compliance with SARA Title III provisions and shall ensure the proper management of hazardous materials to protect the public health, safety, and welfare and to protect natural resources. The City shall coordinate with Volusia County's hazardous waste management program in accordance with Volusia County's Comprehensive Plan.~~

POLICY 10.1.1.

~~The City shall continue to identify all industries and businesses within its boundaries which generate, use, or store hazardous or toxic chemicals, materials, or wastes.~~

The City shall cooperate with the implementation of the Volusia County hazardous waste management program.

POLICY 10.1.2.

~~The Fire Department shall maintain the information from Policy 10.1.1 (above) in its computer database.~~

The City shall publicize through various communication platforms to advertise the locations where Volusia County will accept household and small business hazardous waste as part of their collection program.

~~POLICY 10.1.3.~~

~~The City shall continue a public information campaign oriented to industries, businesses, and homes to educate people about safe use and disposal of hazardous or toxic substances.~~

~~POLICY 10.1.4.~~

~~The City, in conjunction with the Central Florida Local Emergency Planning Committee (LEPC) shall regulate and manage hazardous waste to protect the public health, safety and welfare and to protect natural resources as per the standards and guidelines established under Goal 3.2 in the Utilities Element.~~

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 10.2. — EMERGENCY PREPAREDNESS

~~The City shall be fully prepared for a hazardous or toxic accident or incident, with up-to-date plans, training, and equipment.~~

~~POLICY 10.2.1.~~

~~On a continuous basis, the appropriate personnel shall be kept abreast of the appropriate accident/incident response training.~~

~~POLICY 10.2.2.~~

~~On a continuous basis, up to date monitoring and accident/incident response equipment shall be maintained in quantities specified by Federal or State guidelines.~~

~~POLICY 10.2.3.~~

~~The City shall update its Hazardous Materials Response Plan on a continuous basis.~~

~~POLICY 10.2.4.~~

~~The City shall attempt to recover from any potentially liable third party any cost that it incurs from any hazardous or toxic accident/incident.~~

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 11. SOIL AND EROSION

THE CITY SHALL ENSURE THE APPROPRIATE CONSERVATION AND USE OF SOIL RESOURCES.

OBJECTIVE 11.1. DEVELOPMENT

Incorporate the inherent limitation of existing soils in land planning and development, and minimize impacts, which result in soil erosion.

POLICY 11.1.1.

Prior to any land disturbance associated with land development activities, except in previously approved subdivisions, the applicant shall indicate on a site plan those areas of highly erodible soils, as defined by the U.S. Department of Agriculture Soil Conservation Service, and avoid and minimize disturbance to those areas to the maximum extent feasible.

POLICY 11.1.2.

Building and other construction in soils which are determined to be hydric in character, as defined by the U.S. Department of Agriculture Soil Conservation Service USDASCS and the Florida Department of Agriculture, shall be prohibited except to accommodate an overriding public interest and except as allowed within the wetland regulations.

POLICY 11.1.3.

The City shall require excavation sites to be designed and executed to resemble and function as natural systems.

POLICY 11.1.4.

Residential site design shall be based on data contained in the U.S. Soil Conservation Service's soils report, unless a detailed soils analysis is undertaken and accepted by the City and the U.S. Department of Agriculture Soil Conservation Service USDASCS regional field or State soil scientist.

POLICY 11.1.5.

The applicant of proposed development activities shall be responsible for implementing measures prior to and during construction activities on the project site to ensure that sedimentation and/or erosion problems are not created in receiving wetlands or other water-bodies.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 11.1.6.

Septic tanks shall not be located in areas designated by the U.S. Soil Conservation Service as having severe or moderate limitations for septic tank development.

POLICY 11.1.7.

In connection with development, all swales, slopes of retention, and detention areas shall be sodded or vegetated to help prevent erosion and facilitate efficient maintenance.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 12. LOW IMPACT DEVELOPMENT

FOR NEW DEVELOPMENT AND REDEVELOPMENT, APPLY BETTER SITE DESIGN AND LOW IMPACT DEVELOPMENT (LID) TECHNIQUES, AND PURSUE COMMITMENTS TO REDUCE STORMWATER RUNOFF VOLUMES AND PEAK FLOWS, TO INCREASE GROUNDWATER RECHARGE, AND TO INCREASE PRESERVATION OF UNDISTURBED AREAS.

OBJECTIVE 12.1. LAND DEVELOPMENT CODE AMENDMENTS-REGULATIONS

~~By 2010~~ The City shall maintain ~~amend~~ the Land Development Code regulations for ~~to~~ implement Low Impact Development techniques.

POLICY 12.1.1.

Integrate into the Land Development Code (LDC) the source control concept which places a greater importance on managing smaller, cost-effective landscape features located on each lot rather than through costly pipe and pond stormwater management design.

POLICY 12.1.2.

Maintain or improve infiltration, frequency and volume of discharges, and groundwater recharge by placing greater emphasis on reducing impervious surfaces, functional grading, open channel sections, and the increasedu use of bioretention/filtration landscaped areas.

POLICY 12.1.3.

Integrate alternative stormwater management practices such as on-lot micro-storage, functional landscaping, open drainage swales, reduced imperviousness, flatter grades, increased runoff travel time, and depression storage into a multifunctional site design.

POLICY 12.1.4.

Reduce the use of centralized ~~b~~-Best ~~m~~-Management ~~p~~-Pactices (BMPs) such as storm water ponds through the use of Integrated Management Practices (IMPs) which are distributed in small portion of a lot or parcel and near the source of impacts.

POLICY 12.1.5.

~~Amend~~ Maintain the Low Impact Development Design Manual, Land Development Code, LDC and Construction Details to permit Low Impact Development LID designs that can significantly reduce development costs through smart site design by:

- Reducing impervious surfaces (roadways), curb, and gutters;

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

- Decreasing the use of storm drain piping, inlet structures, and
- Eliminating or decreasing the size of large stormwater ponds.

COASTAL MANAGEMENT ELEMENT

GOALS, OBJECTIVES AND POLICIES

DEFINITIONS

~~COASTAL HIGH HAZARD AREA (CHHA): THAT PORTION OF THE CITY WITHIN THE “THREAT ‘A’ EVACUATION ZONE” (CATEGORY 1 AND 2 STORMS), AS IDENTIFIED IN FIGURE 1.~~

~~COASTAL PLANNING AREA: CRITERIA FOR DETERMINING THE BOUNDARIES OF THE COASTAL AREA; WITHIN THE JURISDICTION OF THE CITY OF ORMOND BEACH ARE LISTED IN CHAPTER 9J-5, FLORIDA ADMINISTRATIVE CODE (F.A.C.) RULE 9J-5 STATES THAT THE COASTAL AREA MAY BE AN AREA OF THE LOCAL GOVERNMENT’S CHOOSING; HOWEVER, THIS AREA MUST ENCOMPASS WATER AND SUBMERGED LANDS OF OCEANIC WATER BODIES OR ESTUARINE WATER BODIES; SHORELINES ADJACENT TO OCEANIC WATERS OR ESTUARIES; COASTAL BARRIERS; LIVING MARINE RESOURCES; MARINE WETLANDS; WATER DEPENDENT FACILITIES OR WATER-RELATED FACILITIES ON OCEANIC OR ESTUARINE WATERS; OR PUBLIC ACCESS FACILITIES TO OCEANIC BEACHES OR ESTUARINE SHORELINES; AND ALL LANDS ADJACENT TO SUCH OCCURRENCES WHERE DEVELOPMENT ACTIVITIES WOULD IMPACT THE INTEGRITY OR QUALITY OF THE ABOVE. FIGURE 2 DISPLAYS THE COASTAL AREA OF THE CITY.~~

~~HURRICANE VULNERABILITY ZONE: THAT PORTION OF THE CITY WITHIN THE “THREAT ‘B’ EVACUATION ZONE” (CATEGORY 3 TO 5 STORMS) SURGE, AS IDENTIFIED IN FIGURE 1.~~

GOALS, OBJECTIVES AND POLICIES

GOAL 1. LAND USE

GROWTH AND LAND USE SHALL BE MANAGED AND BE CONSISTENT WITH, OR MORE STRINGENT THAN FLOOD-RESISTANT CONSTRUCTION SET FORTH IN 44 CODE OF FEDERAL REGULATIONS PART 59 AND 60; AND DEVELOPMENT ACTIVITIES SHALL BE RESTRICTED TO CONSERVE, PROTECT, AND RESTORE COASTAL RESOURCES.

OBJECTIVE 1.1. COMPATIBLE LAND USE

The City shall ensure that adjacent land uses are developed in a manner that minimizes flood damage and environmental conflict and maximizes compatibility, as implemented by Chapters 2 and 3 of the Land Development Code.

POLICY 1.1.1.

The City shall continue to utilize the citywide architectural standards for the A1A corridor south of Granada Boulevard to ensure compatibility ~~to~~ with architectural design.

POLICY 1.1.2.

The intrusion or impact of commercial or industrial uses on residential areas shall be avoided and in cases where they are adjoining land uses, then sufficient and aesthetically pleasing screening or buffering and other measures shall be provided to mitigate against such impacts, including flooding, noise, glare, and traffic congestion, as implemented by Chapter 3, Article V of the Land Development Code.

POLICY 1.1.3.

The City shall closely monitor development on the barrier island, in the Coastal Planning Areas, and in the unincorporated area north of the City Limits to ensure that development does not lower level-of-service standards for traffic, potable water and sanitary sewer, public access, and hurricane evacuation below acceptable levels.

POLICY 1.1.4.

Historical, civic, cultural, recreational, economic, and residential land uses in the Central Business District area shall be developed in compatibility with the Coastal Planning Areas and each other so that visual and functional continuity is achieved.

OBJECTIVE 1.2. SHORELINE LAND USE

Proposed shoreline land development shall be evaluated ~~on the basis of~~ based on the type of land use proposed, compatibility to adjacent land uses, ~~and~~ impact on water quality, coastal

GOALS, OBJECTIVES AND POLICIES

resources, public access, public infrastructure, and hurricane evacuation times, and impacts from sea level rise as implemented by Chapters 2 and 3 of the Land Development Code.

POLICY 1.2.1.

The following general shoreline land use priorities are established as guidelines for the review of applications for zoning, plan amendments, or development orders:

- a. Water dependent environmentally sensitive uses such as the maintenance and protection of fish and wildlife production through the preservation of marine wetlands;
- b. Water dependent uses such as water dependent recreation and urban residential uses, with development set back a distance from the river, creek, or dune, to minimize flood hazards, clearance of vegetation and surface water degradation; consistent with other Sections of this Element and of the Conservation Element;
- c. The floodplain manager/building official shall review all permit applications to determine whether proposed development sites will be reasonably safe from flooding. If a proposed development site is in a flood hazard area, all site development activities, new construction and substantial improvements shall be designed and constructed with methods, practices and materials that minimize flood damage and that are in accordance with the City Floodplain Management and Protection Section of the code; and consistent with other Sections of the code.
- d. Of lowest priority are those uses which are non-water dependent, non-water enhanced and which would result in an irretrievable commitment of coastal resources. Land uses which require channel modifications, dredging and filling, and point source pollution discharges should be prohibited.

Atlantic Ocean Shoreline Land Use:

POLICY 1.2.2.

The shoreline along the Atlantic Ocean, south of Granada Boulevard, shall be designated predominantly for water enhanced tourist/commercial land uses, except for those contiguous areas of existing, unique single-family development as defined by Policy 12.2.54, Future Land Use Element.

POLICY 1.2.3.

The shoreline along the Atlantic Ocean, north of Granada Boulevard, shall remain single-family residential, except for the existing multi-family, hotel/motel, and timeshare resorts.

POLICY 1.2.4.

The City will exercise the full extent of its jurisdictional authority to respect, protect and preserve the private property rights, inclusive of littoral rights, of the owners of those lands

GOALS, OBJECTIVES AND POLICIES

lying westerly of the mean high water line, subject only to those public recreational uses of the sandy area seaward of and adjacent to the mean high tide as have been ancient, reasonable, without interruption, and free from dispute.

Halifax River Shoreline Land Use:

POLICY 1.2.5.

The shoreline land uses along the Halifax River shall remain single-family residential except for passive parks that provide public access to the waterway.

Tomoka River and Tributaries Shoreline Land Use:

POLICY 1.2.6.

The shoreline land uses of the Tomoka River and its tributaries shall be single-family residential or multi-family residential when part of a ~~PRD~~ Planned Residential Development submittal that provides for maximum protection of tributaries.

POLICY 1.2.7.

The City shall continue to make efforts to acquire by fee simple interest or less than fee simple interest, wetlands associated with the Tomoka River and its tributaries.

POLICY 1.2.8.

Land development on the Tomoka River shall protect the natural wetland vegetation and associated upland buffers consistent with the Conservation Element and Chapter 3, Article II of the Land Development Code.

OBJECTIVE 1.3. REDEVELOPMENT

The City shall encourage redevelopment that results in more resilient, compact, and efficient development patterns and shall discourage redevelopment of stable neighborhoods.

POLICY 1.3.1.

Redevelopment shall be compatible with adjacent historic and archaeological resources.

POLICY 1.3.2.

When redevelopment is proposed, a number of concerns shall be addressed by the applicant regarding phasing, parking, ~~drainage~~ stormwater management, landscaping, and landscape maintenance, improvement and maintenance of common recreational areas, and effects on the traffic circulation network, including hurricane evacuation times impacts on natural resources. Phased improvements including ~~drainage~~ stormwater maintenance, parking,

COASTAL MANAGEMENT ELEMENT

GOALS, OBJECTIVES AND POLICIES

landscaping, and Homeowners' Association facilities (if appropriate) shall be correlated with the issuance of building permits, lot sales, and Certificates of Occupancy.

~~POLICY 1.3.3.~~

~~Consideration shall be given to public access to the beach or waterways so a redevelopment proposal to convert single-family to a high-density project will require access easements to be granted.~~

~~POLICY 1.3.4.~~ POLICY 1.3.3.

Redevelopment within the Downtown shall be consistent with and further the Downtown Community Redevelopment Agency Master Plan Update prepared by ~~Glatting Jackson~~ GAI Consultants, adopted ~~September 19, 2007.~~ October 1, 2019.

OBJECTIVE 1.4. ECONOMIC STABILITY

The City shall structure an economic base capable of providing maximum employment opportunities and income to the City's residents.

POLICY 1.4.1.

A business climate shall be maintained, which provides opportunities for the growth and expansion of new and existing businesses to provide quality employment for the City's residents without degrading the environment, quality of life, or ability of the City to provide public services and facilities.

POLICY 1.4.2.

The City shall continually recognize problems of the economic growth areas and act as a conduit between public and private resources to provide incentives and supports that generate new private investments.

OBJECTIVE 1.5. LAND DEVELOPMENT REGULATIONS

The City shall continue to administer and review land use regulations that provide for the location, extent and distribution of land uses consistent with the protection of coastal resources and the preservation of fiscal stability. The land development regulations shall ensure that the provision of roads, potable water, sanitary sewer, drainage stormwater management, parks and recreation, ~~and~~ solid waste facilities and services, or any other facilities required to maintain the adopted Level-of-Service standards, shall be consistent and planned with the level of development proposed in the Future Land Use Element.

GOALS, OBJECTIVES AND POLICIES

POLICY 1.5.1.

The fiscal impact of new growth and development shall be minimized by the use of various fiscal management and assessment techniques, including level-of-service standards, special assessment districts, development exactions, ~~and impact fees,~~ cost-benefit analysis, feasibility, determination of applicability to City policies, and short-term versus long-term benefits in order to ~~attempt to get new growth and development to pay for itself.~~ prioritize infrastructure project expenditures of public services.

POLICY 1.5.2.

Land uses which have significant adverse impact on coastal resources to the point where they would cease to be viable as a result of the proposed land use shall be ~~appropriately~~ regulated through the appropriate local, state and federal agencies.

POLICY 1.5.3.

A variety of tools and techniques will be maintained in the Land Development Code in order to effectively manage growth. The City shall maintain within the Land Development Code procedures and standards for public protection and acquisition of land, public improvements, environmental controls, floodplain management, zoning techniques, subdivision techniques, tax and fee systems, and controls on the land.

POLICY 1.5.4.

Designated natural resource areas, significant environmental or ecological features, critical wildlife habitat, environmental system corridors or conservation areas shall be protected through a variety of mechanisms including buffer zones, restoration, limiting density and intensity, conservation easements, acquisition, ~~density transfers, transfer of development rights (TDRs),~~ purchase of development rights, or land exchanges.

POLICY 1.5.5.

The priority for new development shall be in areas of urban infill in order to contain sprawl, use existing developable lands, maximize the provision of urban services and facilities and protect remaining coastal habitat and marine resources.

POLICY 1.5.6.

The City shall continue to designate a proportion of its public water capacity to the unincorporated North Peninsula area consistent with the interlocal agreement with the County.

POLICY 1.5.7.

The specific and cumulative impacts of development or redevelopment upon flooding, water quantity, wildlife habitat, and living marine resources shall be limited in accordance

GOALS, OBJECTIVES AND POLICIES

with the policies set forth by the Future Land Use Element, Conservation Element, Utilities Element, and the Coastal Management Element.

POLICY 1.5.8.

The City shall continue to direct growth away from the ~~CHHA~~ Coastal High Hazard Area by utilizing land use controls, acquisition techniques, and other methods as deemed appropriate.

OBJECTIVE 1.6. PERFORMANCE STANDARDS FOR DEVELOPMENT

New development activity shall abide by standards established for determining appropriate densities, intensities, buffer zones, resource protection and location for development proposed in and adjacent to aquatic and natural preserves, wildlife refuges, and environmental system corridors, natural wetland systems, floodplains, shorelines, and critical habitat areas, in order to protect the natural character, scenic values and public benefit of these areas.

POLICY 1.6.1.

The City shall continue to evaluate zoning to identify, review, and prepare recommendations for lands zoned for development which are inconsistent or incompatible with the protection or conservation of coastal resources, or may exacerbate flooding.

POLICY 1.6.2.

The City shall continue to utilize innovative and alternative zoning districts or techniques to protect coastal resources. Such techniques could include overlay districts, floating zones, bonus ordinances, performance standards, quality development programs, ~~Transferable Development Rights~~, or other incentive-based methods.

POLICY 1.6.3.

The City's Stormwater Master Plan shall contain a database and information system on land use, other studies or evaluation tools, and acreage by watershed within the City limits. This should be coordinated with the County and other adjacent coastal municipalities to annually update this data.

POLICY 1.6.4.

The City shall ~~annually~~ prepare a monitoring and status report, by June 1, 2027, for distribution to the public and ~~elected officials~~ the City Commission. The Report shall contain the results of changes that have occurred in land use, other studies or evaluation tools, and development within each watershed.

GOALS, OBJECTIVES AND POLICIES

POLICY 1.6.5.

The City shall cooperate and coordinate with adjacent local governments, State agencies, and special districts in developing consistent standards, criteria and land development regulations for protection of coastal resources. This may include the evaluation of data and findings regarding sea level rise, erosion, and updated planning guidelines or best management practices for flooding.

POLICY 1.6.6.

The first priority for providing new slips is for the expansion of existing marinas, then to new areas for marinas meeting specific siting criteria.

POLICY 1.6.7.

The City shall maintain as part of the Land Development Code and apply standards for marina siting or expansion ~~to include the following criteria~~ with priority given to expansion of existing marinas.

POLICY 1.6.8.

Docking facilities shall only be approved which require a minimal or no dredging and/or filling to provide access by canal, channel, or road. This restriction shall also apply to widening and/or deepening any existing canal or channel, but not to regular maintenance dredging and filling to meet depth standards of existing canals or channels. Preference shall be given to marina sites with natural channels. In the event that dredging is required, the mooring areas and the navigation access channels shall not be dredged to depths greater than those necessary to prevent prop dredging. Any required dredging shall utilize appropriate construction techniques and materials to comply with State water quality standards (e.g., turbidity screens, hydraulic dredges, properly sized and isolated spoil deposition area to control spoil dewatering).

POLICY 1.6.9.

In reviewing applications for new or expanded docking facilities, ways to improve, mitigate, or restore adverse environmental impacts caused by previous activities shall be explored. This may include green stormwater infrastructure (GSI) or low impact development (LID), shallowing dredged areas, restoring wetland or submerged vegetation, or marking navigational channels. Such mitigation or restoration may be required as a condition of approval for new, renewed, or expanded facilities.

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.7. FLOOD RISK

The City shall eliminate inappropriate and unsafe development and mitigate the flood risk to existing and future development in the coastal areas that are of high risk of flooding due to storm surge, high tide events, flash flood, stormwater runoff and sea level rise when opportunities arise.

POLICY 1.7.1.

The City shall continue to include development and redevelopment principles, strategies and engineering solutions that reduce the flood risk which results from high tide events, storm surge, flash floods, stormwater runoff, and the related impacts of sea level rise. The utilization of innovative analysis techniques such as vulnerability assessments, tidal flood and storm surge inundation information, and other related studies shall be used to help identify: Adaptation Action Areas; public facilities and infrastructure at risk from sea level rise and related impacts; and areas where increased building standards and setbacks should be implemented to protect structures for the duration of their expected life.

POLICY 1.7.2.

The City shall continue to evaluate data and utilize innovative best practices findings to reduce the flood risk in coastal areas which results from high tide events, storm surge, flash floods, stormwater runoff, and the related impacts of sea level rise including but not limited to the use of best available data and analysis from historical floods, and studies or modeling to update planning and evaluation tools. If a buildable lot within the floodplain is proposed to be developed, the City will encourage improvements in the least hazardous flood zone on the property requiring cumulative substantial improvement.

POLICY 1.7.3.

The City shall continue to identify site development techniques and best management practices, including Green Stormwater Infrastructure (GSI) or Low Impact Development (LID) that may reduce losses due to flooding and claims made under flood insurance policies issued in the state.

POLICY 1.7.4.

The City shall continue to require development and redevelopment to be consistent with or more stringent than the flood-resistant construction requirements in the Florida Building Code and applicable floodplain management regulations set forth in 44 C.F.R. Code of Federal Regulations, Part 60, as amended. The Land Development Code should: implement building standards that address future conditions; and limit (re)development to minor and non-habitable structures seaward of the state Coastal Construction Control Line as defined by and consistent with applicable state statutes.

GOALS, OBJECTIVES AND POLICIES

POLICY 1.7.5.

The City shall continue to require that any construction activities seaward of the eCoastal eConstruction eControl lLines established pursuant to Section 161.053 be consistent with chapter 161, as amended.

POLICY 1.7.6.

The City shall continue to participate in and comply with the National Flood Insurance Program (NFIP) regulations; maintain an inventory of repetitive loss areas; and utilize the Land Development Code and Stormwater Master Plan to address mitigation strategies.

POLICY 1.7.7.

The City shall continue to participate in the Community Rating System (CRS) administered by the Federal Emergency Management Agency (FEMA) to achieve flood insurance premium discounts for residents through education and increased awareness about all types of flood risks and mitigation strategies through the National Flood Insurance Program.

POLICY 1.7.8.

To mitigate the impacts of flooding in development and redevelopment, the City shall consider, when an opportunity arises, cooperating with strategic partners to obtain funding to purchase, for recreational and open space use, “repetitive loss properties” most vulnerable to storm surge and repetitive flooding.

POLICY 1.7.9.

The City may consider the acquisition of severe repetitive loss properties to be used for public open space as property owner interest and procurement opportunities arise, such as through the use of grants.

GOALS, OBJECTIVES AND POLICIES

GOAL 2. NATURAL RESOURCES AND LIVING MARINE RESOURCES

THE CITY SHALL CONSERVE, PROTECT, AND RESTORE NATURAL SYSTEMS. DEVELOPMENT ACTIVITIES SHALL PROTECT AND PRESERVE WHERE PRACTICAL AND DESIRABLE THE ECOLOGICAL, AESTHETIC, AND ECONOMIC VALUE OF NATURAL RESOURCES.

OBJECTIVE 2.1. TOMOKA RIVER AND ITS TRIBUTARIES

The Tomoka River, its tributaries, and associated natural systems shall be protected to maintain and enhance the aesthetic, recreational, and natural values of the river corridor system.

POLICY 2.1.1.

The Tomoka River and its tributaries are designated a Manatee Sanctuary to ensure that the ~~endangered~~ threatened manatee is protected from any adverse impacts from recreation uses and adjacent land uses.

POLICY 2.1.2.

The City shall continue to assist in the implementation of the Tomoka River Aquatic Preserve Management Plan.

POLICY 2.1.3.

In the interest of protecting the manatees and the shoreline against erosion and protecting the public health, safety, and welfare, the City shall maintain the following restrictions on motorboats and personal watercraft for the Tomoka River and its tributaries:

- a. No motor speed zone year-round in Thompson's Creek, and the Little Tomoka River (west of Tymber Creek Road).
- b. Idle speed zone year-round in:
 1. Strickland Creek; and
 2. Dodson Creek; and
 3. all mosquito-control ditches intersecting the Tomoka River;
 4. Tomoka River
 - (a) from I-95 south; and
 - (b) from US 1 to the north boundary of Tomoka Estates;

GOALS, OBJECTIVES AND POLICIES

- c. Slow speed zone year-round in the Tomoka River from the north boundary of Tomoka Estates to the southern boundary of Tomoka State Park;
- d. Caution zone year-round in the Tomoka River from US 1 to I-95 provided that:
 - 1. the maximum speed around that large island located approximately half-way between I-95 and US 1 is limited to 25 mph, with one-way boat traffic around the island; and
 - 2. the maximum speed in the remainder of the aforescribed caution speed zone is limited to 30 mph.

POLICY 2.1.4.

Mosquito control practices that require habitat modification or manipulation shall be avoided unless there is no reasonable alternative and failure to conduct such practices would result in a threat to public health. The following criteria shall apply in the implementation of this Policy:

- a. To the maximum extent possible, existing privately owned mosquito control impoundments shall be managed for both pest control and fisheries habitat.
- b. Impounding as a management practice should be a technique of last resort and only initiated after a thorough and exhaustive search has been made of alternative courses of action.
- c. This does not preclude habitat modification which may be necessary for the reintroduction of existing impoundments into the estuarine system.

POLICY 2.1.5.

The City shall not allow rotary ditching of spoil islands unless it is demonstrated to not adversely affect the water quality of the surrounding surface waters.

~~POLICY 2.1.6.~~

~~The City shall continue to encourage the State to acquire the property known as the Rivers Site and incorporate it into the Tomoka State Park.~~

~~POLICY 2.1.7.~~

~~The City shall continue to prohibit personal watercraft in the Tomoka River and its tributaries in coordination with Volusia County and the Department of Environmental Protection.~~

GOALS, OBJECTIVES AND POLICIES

~~POLICY 2.1.8.~~ POLICY 2.1.6.

The City shall continue a program that establishes baseline water quality data and monitors water quality changes over time for the surface waters of the City as part of permit approvals.

~~POLICY 2.1.9.~~ POLICY 2.1.7.

The City shall promote and encourage low-impact recreational usage of the Tomoka River, such as canoeing, small outboard motorboats, fishing and nature observation that is compatible with the Manatee Sanctuary objectives.

~~POLICY 2.1.10.~~ POLICY 2.1.8.

The City, in cooperation with the Florida Department of Environmental Protection, Volusia County and the Tomoka State Park, shall monitor boating and personal watercraft usage and ~~prepare a study regarding public usage and capacity for the waterways, effectiveness of existing boat and personal watercraft regulations. The study shall recommend options for controlling public use of the waterways including, in cooperation with Volusia County and the Sheriff's office, the feasibility of local regulation of boat traffic as provided for in Florida Statutes.~~ provide recommendations for safety improvements as needed.

OBJECTIVE 2.2. FISH AND WILDLIFE

The City shall protect and preserve the City's fish and wildlife habitat areas from development practices which may jeopardize their ecological and economic value and shall maintain and restore habitat areas under public ownership.

POLICY 2.2.1.

The entire area within the City limits shall continue to be designated a bird sanctuary.

POLICY 2.2.2.

No dredging or filling shall be performed within designated estuarine waters, except for those occasions when there is an overriding public interest or for private access recreational facilities.

POLICY 2.2.3.

Activities within the estuaries that will adversely impact seagrass beds and other valuable submerged aquatic vegetation shall be prohibited, unless an overriding public interest can be shown and adequate mitigation and monitoring measures are included.

GOALS, OBJECTIVES AND POLICIES

POLICY 2.2.4.

The City shall continue to administer and effectively enforce Chapter 23, Article II of the Land Development Code to protect the threatened and endangered sea turtles from the emission of light from areas on or adjacent to the beach. Additionally, the City shall consider financially supporting volunteer organizations that help relocate sea turtles to safe nesting areas.

POLICY 2.2.5.

The disturbance of sea turtle nesting areas shall be prohibited.

POLICY 2.2.6.

The City shall continue to encourage the County to restrict mechanical beach cleaning activities during the nesting period for sea turtles.

POLICY 2.2.7.

Manatees shall be protected through the regulation of boat speeds and the prohibition of marinas in the designated Tomoka River Manatee Sanctuary.

POLICY 2.2.8.

The City shall, in cooperation with various governmental agencies, maintain the ~~adopt a Wildlife Corridor Management Plan along the Tomoka River, similar to but not less than the six hundred (600') foot St. John's River Water Management District (SJRWMD) Tomoka River Riparian Habitat Protection Zone, along the Tomoka River to maintain and enhance the riparian wildlife diversity. In the interim, the City shall continue to preserve contiguous wetland systems and review development proposals with the intent of maintaining the diversity of riparian wildlife.~~

POLICY 2.2.9.

The City shall continue to support a manatee public awareness program (in consultation with the Florida Department of Environmental Protection FDEP and Volusia County) which will include the posting of signs to advise boat users that manatees are an endangered species which frequent the waters of the region's estuaries and lagoons and the provision of manatee literature at conspicuous locations.

POLICY 2.2.10.

In order to maintain good water quality in stormwater management detention ponds and maximize the provision of fish and wildlife habitat, stormwater management systems with permanently wet detention ponds shall be designed, operated and maintained so as to resemble a natural pond to the greatest extent practicable. A natural pond design should include: a littoral zone comprised of native emergent and submerged aquatic macrophytic

COASTAL MANAGEMENT ELEMENT

GOALS, OBJECTIVES AND POLICIES

vegetation; a deep, open-water limnetic zone free of rooted emergent and submerged vegetation; and, where feasible, an upland buffer of native trees, shrubs and understory vegetation.

GOALS, OBJECTIVES AND POLICIES

GOAL 3. BEACH AND DUNES

THE CITY SHALL PROTECT, ENHANCE, AND RESTORE THE FUNCTIONING OF THE BEACH AND DUNE SYSTEMS AND REGULATE DEVELOPMENT ACTIVITIES THAT WOULD DAMAGE OR DESTROY SUCH SYSTEMS.

OBJECTIVE 3.1. BEACH AND DUNE ASSESSMENT REPORT

The City shall require multi-family, tourist/commercial, and subdivision shoreline development and redevelopment proposals along the Atlantic Ocean to submit a Beach and Dune Assessment Report, which is to include a form with a checklist of items to be submitted. The following policies shall apply in implementation of the objective that a beach and dune assessment report be prepared:

POLICY 3.1.1.

The Land Development Code shall require that a Beach and Dune Assessment Report be prepared for multi-family, tourist/commercial, and shoreline development and redevelopment proposals along the Atlantic Ocean.

OBJECTIVE 3.2. DUNE SYSTEM PRESERVATION AND PROTECTION STANDARDS

The City will regulate new development and redevelopment and monitor existing development to preserve and protect the dune system, as implemented in the Land Development Code.

POLICY 3.2.1.

The City shall regulate new construction activities seaward of the Coastal Construction Control Line consistent with the policies of the Department of Environmental Protection and Chapter 161, Florida Statutes, as amended.

POLICY 3.2.2.

The City shall coordinate with the Florida Department of Environmental Protection to ensure the preservation and maintenance of beach/dune vegetation.

POLICY 3.2.3.

Because beach/dune vegetation will provide for varying degrees of continued growth of the dunes which form a buffer area and give protection from storm damage to coastal structures and property, the following general standards for development shall be established in cooperation with ~~DEP~~ the Department of Environmental Protection:

GOALS, OBJECTIVES AND POLICIES

- a. To protect the crest and face of the dune system, which is the area closest to the wind and wave action of the active beach where grasses such as sea oats, vines, and other low-lying plants are dominant, the area seaward of the bulkhead line will be preserved such that no development or construction activities shall be allowed except in the overriding public interest and then only when such alteration is mitigated by the creation of dunes at a 4 to 1 compensatory dune mitigation ratio state permit conditions.
- b. When vegetation seaward of the bulkhead line is sparse or has been damaged by pedestrian or other activities, revegetation shall be undertaken.
- c. 20% of the natural dune vegetation remaining on the site shall be preserved.

POLICY 3.2.4.

The City shall require, to the maximum extent possible, the use and preservation of existing natural vegetation.

POLICY 3.2.5.

Property owners shall be required to seek advice from the Department of Environmental Protection before the cutting, pruning, or removal of beach/dune vegetation.

POLICY 3.2.6.

The use of hard engineering structures shall be discouraged. Alternatives to seawalls shall be encouraged with priority given to soft engineering techniques, such as living shorelines, sand nourishment, the development of new sand dunes, or the enhancement of existing or historical dunes. Any beach stabilization measures shall be required to provide for dune preservation enhancements, creation, or restoration.

POLICY 3.2.7.

Excavation and clearing of properties abutting the beach or containing significant dune systems shall provide for the sensitive reuse of the vegetation and sand by transplantation and relocation in order to reestablish the dunes. Significant dune systems located seaward of the Coastal Construction Control Line that are excavated or disturbed for development and construction shall be mitigated by the creation of dunes at a dune compensatory mitigation ratio of 2 to 1 per the state agency permit conditions. Dune creation shall occur on-site or as close to the site as possible.

POLICY 3.2.8.

Exotic trees and plants not indigenous to the beach and dune environment shall be prohibited. Exotic plant species ~~removed~~ shall be removed per Chapter 3, Article II of the Land Development Code, ~~in conjunction with Policy 2.3.4.~~ Removed plants shall be replanted with native species as deemed appropriate by the City's Landscape Architect.

GOALS, OBJECTIVES AND POLICIES

POLICY 3.2.9.

Reconstruction or replacement of existing hard erosion control structures along the oceanfront which are more than seventy-five (75%) percent destroyed shall meet the criteria contained under Objective 3.4. of this element, except for maintenance and care of structures which are needed to protect evacuation routes and public facilities and utilities. Any such reconstruction or replacement shall be done in conjunction with State Statutes.

POLICY 3.2.10.

Structural development along beaches fronting the Atlantic Ocean shall enhance and not further degrade the coastal beach and dune system. The following criteria shall apply in the implementation of this Policy:

- a. Shoreline buffer zones shall be established to protect and preserve the coastal beach and dune systems fronting the Atlantic Ocean.
- b. Structures shall be prohibited within the established buffer areas except where an overriding public interest is apparent for public park and recreation facilities, or for structures that are necessary for reasonable access and are elevated above the dune vegetation.
- c. Buffer areas shall be measured at least thirty (30') feet landward from the bulkhead line or measured in accordance with the criteria of the Land Development Code which states that no structures are allowed to extend beyond a line projected between the average of the existing buildings rear setback within 800' to the north and south of the site.

POLICY 3.2.11.

The City shall utilize outside technical assistance and expertise available in the coastal geology/engineering field within the Florida Department of Environmental Protection FDEP, school system, or other local governments to aid in the review of development proposals along the Atlantic Coastline that may potentially harm the beach and dune system.

POLICY 3.2.12.

Sand fences should be allowed, provided they are designed and constructed to maximize dune rebuilding and minimize disturbance to sea turtle nesting areas.

OBJECTIVE 3.3. BEACH/DUNE WALKWAY STANDARDS

Beach and dune walkways shall be designed to protect coastal vegetation and dune areas and constructed to maintain or enhance pedestrian access to the beach as implemented in the Land Development Code.

GOALS, OBJECTIVES AND POLICIES

POLICY 3.3.1.

Walkways and walkovers are required at all public access points and adjacent to all new multi-family dwelling structures, timeshare resorts, hotel/motel complexes, and other commercial establishments.

POLICY 3.3.2.

The City shall ~~ensure~~ encourage that all applicable permits from other regulatory agencies such as the Department of Environmental Protection have been received before issuance of a building permit for the walkway or walkover.

POLICY 3.3.3.

Walkways and walkovers shall be constructed in a manner that minimizes short-term disturbances to the dune system and existing vegetation.

POLICY 3.3.4.

Replacement of any vegetation destroyed during construction of the walkway or walkover with similar plants suitable for beach/dune stabilization is required.

POLICY 3.3.5.

Walkways or walkovers constructed across vegetated dunes or across heavily vegetated beach berms shall be pile-supported and elevated above the vegetation and dune system.

POLICY 3.3.6.

Stairs from existing seawalls except for single-family homes shall be amortized and replaced with a walkway or walkover by the year ~~2010~~ 2045, and it shall be built at least thirty (30") inches above the dunes in order to allow for the restoration of the associated dune system.

OBJECTIVE 3.4. SEAWALLS, ~~AND~~ REVETMENTS, AND SHORELINE STABILIZATION FEATURES

Permits for the construction of seawalls, ~~and~~ revetments, and shoreline stabilization features shall be reviewed and approved consistent with the following Policies in order to protect, to the maximum extent possible, the natural functioning values of the beach and dune system and to allow the beach and dunes system to erode and recover without the need for shoreline control structures.

GOALS, OBJECTIVES AND POLICIES

POLICY 3.4.1.

Single-family lots with less than 200 linear feet of ocean frontage if abutted by existing seawalls on both sides, shall be allowed to continue the seawall or revetment to fill in the gap, as implemented by the Land Development Code. Green shoreline stabilization features that include nature-based solutions such as living shorelines, constructed oyster reefs (COR), or wave attenuation devices (WAD) shall be encouraged.

POLICY 3.4.2.

Proposed armoring which does not abut existing armoring, or for multi-family or commercial projects, shall be ~~designed~~ discouraged so as to not significantly interfere with normal beach processes, or adversely impact critical wildlife habitat.

POLICY 3.4.3.

All new or reconstructed armoring projects shall first consider nature-based solutions and green shoreline stabilization features, such as living shorelines, constructed oyster reefs or wave attenuation devices, and upon completion, be covered by an artificial dune with appropriate planting of dune vegetation. The property owners are responsible for proper long-term maintenance of these structures and dunes.

POLICY 3.4.4.

Seawalls and revetments shall be allowed only if conditioned upon dune creation and restoration and the preparation of long-term management plans. In addition to such armoring, added protection shall be provided in the form of a fore dune, at least one-half the height of the armoring, but not less than six (6') feet, and with a forward slope no greater than fifteen (15°) degrees. The top of this dune shall be vegetated with native dune vegetation. The forward edge would be more effective with a sand trap, for example, sand trapping lattice fence or newer innovative nature-based solutions. The line shall be marked at intervals of not less than fifty (50') feet with the notice, "DUNE RECOVERY AREA – NO TRESPASSING." If access across the recovery area is needed, an appropriate elevated walkover ought to be provided. The walkover shall be adequately maintained, or the access point closed.

POLICY 3.4.5.

Native dune vegetation atop the protected area shall extend not less than thirty (30') feet inland, unless otherwise provided by existing construction permits. New development shall direct surface and building runoff from rainwater to a vegetated swale area to the maximum extent practical.

GOALS, OBJECTIVES AND POLICIES

POLICY 3.4.6.

Gaps Less than 200 Feet in Width - Gaps in seawalls and revetments which are less than 200 feet in width may be filled by a seawall or revetment. The type chosen shall be generally of the style and type of the adjacent ones, and shall be of reinforced concrete of thickness to withstand 30-year direct wave impact, and should extend at least four (4') feet below and fourteen (14') feet above the zero-vertical datum. The back area of the structure shall be filled with sand.

POLICY 3.4.7.

Gaps Over 200 Feet but Less Than 1,000 Feet – On a showing of need for protection of life and property, gaps over 200 but less than 1,000 feet may be protected by armoring. The protection shall be designed to prevent high-velocity back-wash, to withstand 30-year direct wave impact and should extend at least four (4') feet below and fourteen (14') feet above the zero-vertical datum. The ends should be generally of the style and type of the protection being joined.

The back area of the armoring shall be sand filled. Armoring which has internal gaps, such as boulders, should have a long-life sand retainer. The armoring of such systems should be inspected at not less than five-year intervals. Deterioration of the sand retainer should be cause for rebuilding of the armoring system.

Where gap-filling is not requested, or allowed, a fore-dune may be constructed.

POLICY 3.4.8.

Gaps Greater than 1,000 Feet in Extent – Except on a showing of extreme hazard to life and property, gaps greater than 1,000 feet between existing beach armoring should be protected solely by "soft protection." This may be the natural beach process, or it may be an enhancement of this process, for example, by the establishment of a fore-dune and vegetated recovery area as described above. Reduction of dune height and/or destruction of native dune vegetation in such gaps shall be forbidden, except that structures allowed by existing permits may be constructed. If gaps of this size are filled due to a determination of hazard, they should conform to the requirements for gaps of 200-1,000 feet.

GOALS, OBJECTIVES AND POLICIES

GOAL 4. WATER QUALITY OF ESTUARIES AND OCEAN

THE CITY SHALL PROTECT, ENHANCE, AND IMPROVE THE WATER QUALITY OF THE ESTUARIES AND OCEAN.

OBJECTIVE 4.1. OCEAN WATER QUALITY

The City shall continuously review development and devise standards and programs to protect ocean water quality.

POLICY 4.1.1.

New development shall not directly discharge stormwater or effluent into the coastal beach area.

POLICY 4.1.2.

Berm and swales shall be required for new development abutting the coastal beaches and dune systems.

POLICY 4.1.3.

All new development on the barrier island shall be required to connect to central water and sewer.

POLICY 4.1.4.

Backwashing of pools into the ocean/beach area shall be prohibited.

POLICY 4.1.5.

The City shall encourage the State and Federal government to prohibit oil drilling offshore of City limits.

OBJECTIVE 4.2. ESTUARINE WATER QUALITY

The City shall continuously review development and devise standards and programs to protect, enhance and improve estuarine water quality so that there is no further degradation of the water quality. Estuarine land uses will be (re)developed to meet the standards and criteria for location, intensity, compatibility and adequate infrastructure established for all (re)development within the City except where the unique attributes and vulnerabilities of the estuarine location require additions or modifications.

GOALS, OBJECTIVES AND POLICIES

POLICY 4.2.1.

Direct discharge of untreated stormwater from new development into surface waters shall be prohibited and no new point sources of pollution shall be permitted.

POLICY 4.2.2.

In coordination with other governmental entities, the City shall continue efforts to procure funding to develop a strategy to provide central sewer to the unincorporated area of the North Peninsula where there is a proliferation of package treatment plants and septic tanks. This strategy shall include the feasibility of the County establishing a tax assessment district for the installation of municipal sewer lines and extension of trunk lines to the wastewater treatment plant.

POLICY 4.2.3.

The City shall protect and ensure that there is no further degradation of the water quality of the estuarine system.

POLICY 4.2.4.

The City shall cooperate with other governmental entities to develop a strategy to provide central water and sewer services to the west portion of the City, including but not limited to: Tomoka Estates, Tomoka View, Tanglewood, and Twin Rivers and Riverbend Estates.

POLICY 4.2.5.

Septic tanks shall not be permitted within 120 feet of the mean high-water mark or 75 feet of the upland/wetland interface, whichever is greater.

POLICY 4.2.6.

The City shall utilize a monitoring program so that point and non-point pollution sources and facilities which are identified as potential water quality problems are regularly and periodically inspected.

POLICY 4.2.7.

The City shall continue to upgrade its existing sewage treatment plant. As additional sewage treatment plants are constructed and/or the existing plant is expanded, a concerted effort and commitment shall be made to restrict the placement of facilities within areas that present health, safety or environmental risks from natural hazards, utilize the highest level of treatment possible, or alternative methods of effluent disposal such as re-use and land spreading/spray irrigation should be used to reduce nutrient loadings to the rivers and estuaries.

GOALS, OBJECTIVES AND POLICIES

POLICY 4.2.8.

Best management practices shall be maintained in the Land Development Code that limit the amount of sediment reaching all surface waters. These practices shall be used in agriculture, silviculture, construction, dredge and fill operations, and stormwater management systems. Erosion and sediment control provisions shall be incorporated as part of the development review process.

POLICY 4.2.9.

The construction of future municipal stormwater management systems and the redesign of existing systems shall consider advanced data and analysis through studies and modeling to help evaluate and refine the timing of discharge of fresh water to the estuary, the hydroperiod of the wetlands as well as the potential loadings and shall maximize the use and preservation of existing wetlands, and impacts from flooding and storm surge. Stormwater systems should be designed to gradually release water via sheet flow through natural or constructed wetlands.

POLICY 4.2.10.

No development shall be permitted to degrade the Class III waters of the Tomoka River, a designated Outstanding Florida Waters waterbody.

POLICY 4.2.11.

The City shall require all ~~PRD-Planned Residential Development's~~ and multi-family projects greater than fifty (50) units, commercial and industrial development greater than ten (10) acres, adjacent to the Halifax River, the Tomoka River, and tributaries to properly assess the potential impacts of the project on the surface waters, due to flooding, by preparing an individual surface water monitoring program to assess the predevelopment condition. After the initial baseline data is completed, the monitoring shall continue through the requirements of the approved stormwater management plan. ~~the construction phase. The monitoring program shall be designed to detect any decline in water quality as defined by ambient standards as approved by the City Engineer. Should any decline in water quality be attributable to the development project, suitable actions shall be undertaken to test further the source and to make recommendations for immediate corrective actions. The monitoring program shall continue for the life of the project with reports submitted to the City yearly for the first 5 years after construction and then every 5 years thereafter.~~

POLICY 4.2.12.

All development shall review and report on their stormwater management system and provide an assessment of the impacts of the development with regards to the established

COASTAL MANAGEMENT ELEMENT

GOALS, OBJECTIVES AND POLICIES

ambient chemical and biological conditions of the wetlands and waters within and adjacent to the subject site.

GOALS, OBJECTIVES AND POLICIES

GOAL 5. HURRICANE EVACUATION/COASTAL FLOOD HAZARDS

THE CITY SHALL PLAN AND IMPLEMENT PROGRAMS AND DEVELOPMENT REGULATIONS TO LESSEN THE IMPACT OF A DESTRUCTIVE STORM ON THE PUBLIC HEALTH, SAFETY AND WELFARE, INCLUDING PUBLIC FACILITIES AND NATURAL RESOURCES.

OBJECTIVE 5.1. PUBLIC INFORMATION

The City shall continue to implement an effective public information program to inform the public of ~~hurricane vulnerability zones~~ Hurricane Vulnerability Zones, hurricane evacuation plans, and post-disaster redevelopment programs, as implemented by the City's Peacetime Emergency Plan.

POLICY 5.1.1.

Any public relations program ~~explaining to the coastal residents that explains~~ the potential threat from hurricane hazards will be coordinated with the schools, hospitals, Chamber of Commerce, assisted living facilities, day care centers, and local, regional, State, and Federal governments.

POLICY 5.1.2.

The City shall continually ensure that collateral materials, such as brochures, posters and hurricane tracking maps are available ~~for distribution~~ to the general public electronically. City departments shall ~~act as distribution sites~~ provide website information or provide a printout if internet is not accessible.

POLICY 5.1.3.

All condominiums, timeshare resorts, hotels/motels, apartments, subdivisions, and redevelopment projects ~~shall~~ are encouraged to properly notify all residents of potential flood hazards and hurricane evacuation routes.

POLICY 5.1.4.

Timeshare resorts, hotels/motels, and condominiums ~~shall~~ are encouraged to display hurricane warning and evacuation information material in a prominent place.

POLICY 5.1.5.

The City shall continue to implement a City-prepared Local Peacetime Emergency Management Plan as approved by the City Commission.

GOALS, OBJECTIVES AND POLICIES

POLICY 5.1.6.

An annual update will be prepared by May 1st, by appropriate staff explaining the Local Peacetime Emergency Plan, analyzing any problems and making specific recommendations for change.

POLICY 5.1.7.

The City Fire Department shall maintain an inventory of all sites where hazardous waste may be generated, stored, or transported and which are located on the barrier island and in the ~~hurricane vulnerability zone~~ Hurricane Vulnerability Zone. The City will also coordinate with County, Regional, State, and Federal jurisdictions to ensure that hazardous substances are properly managed and stored to prevent contamination during a coastal storm event.

POLICY 5.1.8.

The current Local Peacetime Emergency Plan shall be modified as necessary by appropriate staff to comply with the Policies under this Objective, and shall contain step-by-step details for post-disaster recovery operations.

OBJECTIVE 5.2. COASTAL EVACUATION TIMES

The City shall maintain the Coastal Evacuation time, as adopted, based on a level-of-service standard D during time of hurricane in any category storm.

POLICY 5.2.1.

A level-of-service standard shall be maintained, based upon the most up-to-date regional evacuation studies to evacuate populations most at risk in the Hurricane Vulnerability Zone, defining 14 hours as the maximum time to evacuate the population at risk within the City's hurricane vulnerability zone and defining 6 hours as the maximum clearance time as implemented in the Land Development Code.

POLICY 5.2.2.

The City will make all efforts possible to ensure that evacuation orders are issued in a timely manner to ensure the safe and orderly evacuation of the population. Orders should be issued at least 14 hours before projected hurricane landfall in coordination with Volusia County or State Emergency Management.

POLICY 5.2.3.

Land development-decisions, as regulated by the Land Development Code, affecting the barrier island and ~~hurricane vulnerability zone~~ Hurricane Vulnerability Zone shall consider the impact to evacuation times. Consequently, no development order shall be issued if the

GOALS, OBJECTIVES AND POLICIES

impact of such development reduces the levels-of-service below an acceptable level, unless mitigation is provided.

POLICY 5.2.4.

All new development located in the Hurricane Vulnerability Zone shall prepare a report indicating the impact of such development on the hurricane evacuation time standards as implemented by the Land Development Code.

~~POLICY 5.2.5.~~

~~In order for an applicant to conduct a transportation analysis and determine the impacts of development on the hazard clearance time, the following needs to be submitted by the applicant for development (as implemented by the Land Development Code).~~

OBJECTIVE 5.3. PUBLIC FACILITIES AND INFRASTRUCTURE

Public facilities and infrastructure shall be constructed and maintained in order to protect the public health, safety, and welfare during coastal storm events.

POLICY 5.3.1.

The City shall support, through ~~Metropolitan~~ Transportation Planning Organization efforts, improvements to existing bridges to facilitate evacuation and to improve public access to the beach.

POLICY 5.3.2.

Future roadway improvements shall minimize the impact of flooding and storm damage on evacuation route facilities.

POLICY 5.3.3.

In cooperation with other governmental agencies, the City shall ensure evacuation routes are designated in such a way as to distribute traffic demand to provide optimum utilization of available roadway facilities. This will include the redistribution of a portion of the traffic from the Granada Bridge to the Seabreeze Bridge.

POLICY 5.3.4.

Public expenditures shall be prohibited that will encourage new development inside the Coastal High Hazard Area (CHHA), unless the expenditures are consistent with policies specifically identified in the Coastal Management Element or cross-referenced to another appropriate element, and included in the Capital Improvements Element. This prohibition does not include: expenditures associated with redevelopment or development of properties

GOALS, OBJECTIVES AND POLICIES

in accordance with previously approved subdivisions or site plans; public access and recreation facilities; or resource restoration projects and facilities.

POLICY 5.3.5.

If constructed, all public facilities in the Hurricane Vulnerability Zone shall be flood proofed to minimize damages from storms and hurricanes.

POLICY 5.3.6.

The City shall continually update and maintain a contingency and management plan in the event of significant damage to the municipal wastewater treatment plant located on Wilmette Avenue.

POLICY 5.3.7.

The City shall continually participate in a “hazard identification and vulnerability assessment” study of public infrastructure in the Hurricane Vulnerability Zone and Coastal High Hazard Area. Capital improvement programming and land development regulations shall be adopted or revised, as necessary, to establish a continuing program of hurricane mitigation.

POLICY 5.3.8.

If feasible, and where State funds are anticipated to be needed, public infrastructure presently within the Coastal High Hazard Area (CHHA) shall be relocated outside of said area when repairing/replacing the infrastructure. If relocation of the infrastructure is deemed by the City to not be feasible, any reconstruction or repair of the infrastructure necessitating State funds shall be designed as to be consistent with the provisions of the Coastal Management Element. Facilities within the Coastal High Hazard Area that present health, safety or environmental risks from natural hazards shall be restricted.

OBJECTIVE 5.4. SHELTER FOR POPULATION

In cooperation with the American Red Cross, Volusia County, and other governmental agencies, the City shall designate hurricane evacuation shelters to protect the population in the region-wide Hurricane Vulnerability Zone.

POLICY 5.4.1.

In cooperation with the American Red Cross, Volusia County, and other governmental agencies, the City shall maintain hurricane emergency shelter facilities to accommodate at least 23% of the population in the Hurricane Vulnerability Zone, based upon a standard of 40 square feet of shelter space per person.

GOALS, OBJECTIVES AND POLICIES

POLICY 5.4.2.

New hurricane emergency shelter space shall not be located in the Hurricane Vulnerability Zone.

OBJECTIVE 5.5. POST-DISASTER REDEVELOPMENT

The City shall follow the provisions of the County Post-Disaster Relief Plan and the City's Peacetime Management Plan during post-disaster redevelopment efforts. If necessary, amendments may be made to the Comprehensive Plan based upon updated Post-Disaster Relief Plans as they occur.

POLICY 5.5.1.

The Post-Disaster Relief Plan shall include: the identification of land areas that should not be reconstructed; abandonment and/or relocation of buildings, rebuilding of public facilities; and reconstruction with structural modifications.

POLICY 5.5.2.

The Post-Disaster Relief Plan shall also identify structures in the Coastal High Hazard Area that might be of some utility for public access to coastal beaches and waterways, and make recommendations for acquisition when post-disaster opportunities arise. It shall establish guidelines for determining priorities for the acquisition of storm-damaged property in the Hurricane Vulnerability Zone.

POLICY 5.5.3.

The Post-Disaster Relief Plan shall establish principles for repairing, replacing, modifying, or relocating public facilities in the Hurricane Vulnerability Zone.

~~POLICY 5.5.4.~~

~~The Planning Department shall review the feasibility of a build-back policy, to be applied after a disaster. The Planning Department will prepare recommendations for the City Commission by 2010.~~

~~POLICY 5.5.5.~~ POLICY 5.5.4.

The City's Peacetime Emergency Management Plan for post-disaster relief in the form of disaster assessment, the provision of temporary housing, and the provision of individual assistance shall be coordinated with the appropriate governmental agencies and shall be updated as needed.

GOALS, OBJECTIVES AND POLICIES

~~POLICY 5.5.6.~~ POLICY 5.5.5.

Following a hurricane event, mitigative actions shall be undertaken to reduce or avoid future property damage through the implementation of programs based upon the following criteria:

- a. Post-hurricane mitigation should include mechanisms for the relocation of structures significantly damaged as the result of a major storm event.
- b. Land acquisition programs should include provisions for the timely redirection of funds directed toward the acquisition of beach and estuarine properties which should not be redeveloped.
- c. The redevelopment and rebuilding of facilities which serve to encourage growth in vulnerable areas should be limited to those instances where it is necessary in order that needed public services are provided to existing development.
- d. If rebuilt, structures which suffer damage in excess of fifty (50%) of their appraised value shall be rebuilt to meet all current requirements, including those enacted since construction of the structure.
- e. Structures which suffer repeated damage to pilings, foundations, or load bearing walls shall be required to rebuild landward of their current location or to modify the structure to ~~delete~~ remove the areas most prone to damage.

~~POLICY 5.5.7.~~

~~Within 24 hours after a hurricane, the City Commission shall meet to hear preliminary damage assessments, appoint a Recovery Task Force, and consider a temporary moratorium on building activities not necessary for the public health, safety, and welfare.~~

~~POLICY 5.5.8.~~

~~The Recovery Task Force shall include the City Manager, Planning Director, City Engineer, Chief Building Official, City Attorney, Facilities Maintenance Manager, Police and Fire Chiefs, Public Works Director, Public Utilities Manager, and other members as directed by the City Commission. Staff shall be provided by the departments whose directors sit on the Task Force. The Task Force shall be terminated after implementing its responsibilities under Policies 5.5.9, 5.5.10 and 5.5.11.~~

~~POLICY 5.5.9.~~

~~The Recovery Task Force shall: review and decide upon emergency building permits; coordinate with State and Federal officials to prepare disaster assistance applications; analyze and recommend to the City Commission hazard mitigation options including reconstruction or relocation of damaged public facilities; design a redevelopment plan; and~~

COASTAL MANAGEMENT ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~recommend amendments to the Comprehensive Plan, Local Peacetime Emergency Plan, and other appropriate policies and procedures.~~

~~POLICY 5.5.10.~~

~~Immediate repair and cleanup actions needed to protect the public health and safety include repairs to potable water, wastewater, and power facilities; removal of debris; stabilization or removal of structures about to collapse; and minimal repairs to make dwellings habitable. These actions shall receive first priority in permitting decisions. Long term redevelopment activities shall be postponed until the Recovery Task Force has completed its task.~~

~~POLICY 5.5.11.~~

~~The Recovery Task Force shall propose Comprehensive Plan amendments which reflect the recommendations in any interagency hazard mitigation reports or any other reports.~~

GOALS, OBJECTIVES AND POLICIES

GOAL 6. PUBLIC ACCESS TO THE BEACH AND WATERWAYS

THE CITY SHALL MAINTAIN AND IMPROVE PUBLIC ACCESS TO THE SOVEREIGN LANDS OF THE COASTAL MANAGEMENT AREA THROUGH THE PROVISIONS OF COASTAL BEACH ACCESS FACILITIES, FISHING PIERS, BOAT RAMPS AND MARINAS.

OBJECTIVE 6.1. BEACH DRIVING

Beach driving shall continue in a manner that maximizes public safety and minimizes destruction to the beach and dune system.

POLICY 6.1.1.

The City will encourage driving on the beach to be continued south of Granada, but limited to Standish Drive north of Granada, due to high tides and soft sand hazards. During exceptionally high tides, the beach should be closed to driving.

POLICY 6.1.2.

The area of the beach north of Standish Avenue should continue to be a “No Driving Zone” and a designated “Safe Play Zone” for children.

POLICY 6.1.3.

The City will encourage the County to prohibit vehicles from driving or parking on the beach that leak oil, gas, and anti-freeze or any other hazardous materials with specific penalties established and with enforcement by appropriate personnel such as the Beach Rangers-Volusia County Beach Safety.

POLICY 6.1.4.

The City shall encourage the County to regulate beach driving in such a manner that it minimizes the danger to the nesting areas of least terns, and sea turtles, and other State or Federally protected flora and fauna.

OBJECTIVE 6.2. JURISDICTIONAL RESPONSIBILITY FOR THE BEACH

The City shall ensure, to the maximum extent possible, that County management of the coastal beaches and approaches of the City, as well as County regulation of the beaches and public beach access and use, is consistent with the purpose and intent of the City to protect

GOALS, OBJECTIVES AND POLICIES

the public health, safety, and welfare and to protect the environment. The City shall further respect the private property rights of oceanfront property owners.

POLICY 6.2.1.

The City shall continue to participate in the activities of the County entity responsible for beach related policies. The City Commission, as a whole, shall entrust its representative(s) to make specific recommendations for amending The Unified Beach Code consistent with the interests of the City. The following criteria shall apply in implementation of this Policy:

- a. City staff shall annually review the Unified Beach Code with regard to the comprehensive regulation of public health, safety, and welfare on and pertaining to the beach, including, but not limited to, regulation of: individual conduct; pedestrian safety; vehicular access and fees; operation and parking of vehicles on beaches and approaches; and vendors, concessionaires, and special events.
- b. The City Commission shall annually appoint a representative(s) to the County entity responsible for beach related policies.

POLICY 6.2.2.

In coordination with the County, the City shall ensure that the County is expending funds to maintain a uniform level-of-service on the beach responsive to use and demand. If it is determined that level-of-services are diminishing below an acceptable level to the community, then the City shall notify the County.

OBJECTIVE 6.3. BEACH TOLLS

In cooperation with the County, the City shall minimize potential adverse impacts caused by the collection of beach tolls such as increased traffic congestion, reduction of vehicular access points to the beach, and reduction in tourist activity.

POLICY 6.3.1.

Since beach ramp closings during the toll season severely restrict public access to the beach, the City shall ensure that the minimum standards for beach access are maintained by either requesting the County to open more ramps or by encouraging the County to utilize the beach vehicular ramps as parking areas.

POLICY 6.3.2.

The City will continue to encourage the County to adopt a level-of-service standard for beach access of an average one-quarter mile intervals which should be maintained throughout the year.

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 6.4. OFF-BEACH PARKING

The City shall encourage the County to provide off-beach parking facilities as appropriate to maintain or improve public access to the beach provided, however, that no sections of the beach that are presently available for parking are closed.

POLICY 6.4.1.

Since the County has exclusive authority to regulate public beach access, including parking of vehicles on beaches and approaches as per the County Charter, then the City shall encourage the County to provide for off-beach parking facilities to the maximum extent feasible and to the extent that the County incurs the cost of construction and maintenance of said facilities.

POLICY 6.4.2.

The City shall prohibit the vacation of public right-of-way that provides or could provide public access to the beach or off-beach parking without an equivalent type of access.

OBJECTIVE 6.5. BEACH ACCESS FACILITY MAINTENANCE AND AMENITIES

In the interest of the public health, safety and welfare, the City shall monitor the services of the County to ensure that beach access facilities are properly maintained.

POLICY 6.5.1.

The County shall be encouraged by the City to provide amenities such as showers and rest rooms at the various beach access facilities.

OBJECTIVE 6.6. DOCKS AND MARINAS

Docks and marinas shall be constructed and expanded to protect the natural resources and public health, safety, and welfare as implemented by the Land Development Code.

POLICY 6.6.1.

Marinas shall not be located in the Tomoka River or its tributaries.

POLICY 6.6.2

Marinas shall not be located adjacent to residential neighborhoods unless a 100-foot vegetated buffer is established to screen the business activity.

POLICY 6.6.3.

GOALS, OBJECTIVES AND POLICIES

Dock facility standards and marina siting standards shall be maintained in the Land Development Code. Docks, boathouses, and other similar structures proposed for the Halifax River, Tomoka River and its canals and tributaries shall be constructed in accordance with the Land Development Code regulations.

OBJECTIVE 6.7. SCENIC ROUTES AND OVERLOOKS

The City shall establish scenic routes and overlooks to preserve the natural beauty and scenic vistas of the Community.

POLICY 6.7.1.

The City shall maintain the following scenic route designations:

- a. US 1 from Thompson's Creek to Nova Road;
- b. All of Beach Street;
- c. All of John Anderson Drive;
- d. All of Riverside Drive;
- e. Addison Drive;
- f. SR A1A (Ocean Shore from SR 40 (Granada Blvd.) to the northern City limit; and
- g. SR 40 (Granada Blvd.) from SR A1A (Ocean Shore/South Atlantic Blvd.) to Beach Street.

POLICY 6.7.2.

Scenic routes shall be protected by the following criteria:

- a. The City shall preserve and nurture the existing canopy of native vegetation over the scenic roadways by developing a program of replanting in areas where the cover is nominal or diminishing.
- b. Any widening of the roadways shall mitigate against the loss of canopy by planting mature trees at least three (3) to five (5) years in advance of the planned construction.
- c. Lots adjacent to scenic roadways shall be developed in such a manner that maximizes the scenic vistas from the roadway and minimizes flooding.
- d. Front yard setback requirements shall be established for lots fronting scenic roadways and routes in the Land Development Code.

POLICY 6.7.3.

GOALS, OBJECTIVES AND POLICIES

The City shall continue to provide scenic overlooks and parking areas along the scenic roadways.

POLICY 6.7.4.

If the City owns the land in the future, a scenic overlook shall be established on US 1 between Thompson's Creek and the Tomoka River.

POLICY 6.7.5.

Priority for bike paths construction shall be for scenic highways and scenic routes excluding those bike paths necessary for public safety.

POLICY 6.7.6.

The City shall continue to encourage the County to retain a maximum allowable speed limit of 35 miles per hour on the North Beach Street scenic corridor. The City shall continue to, in cooperation with the County, develop procedures for maintaining or reducing the number of vehicular trips, including the provision of an alternative roadway to meet traffic circulation demands.

POLICY 6.7.7.

The City shall, through interlocal agreement with adjacent local governments, establish corridor management strategies and recommendations to protect the scenic quality of the identified scenic roadways by limiting or prohibiting commercial or industrial land uses, conducting an inventory of existing land uses and ownership patterns, establishing desired right-of-way widths, establishing standards for additional screening, buffering, and setbacks, controlling access, and including urban design criteria for structures and signage.

POLICY 6.7.8.

Signage shall be maintained that designates Scenic Roadways.

POLICY 6.7.9.

The Land Development Code provisions that implement this objective may include land use controls such as overlay districts or site plan review requirements to maintain the natural appearance and aesthetics of the Scenic Routes.

POLICY 6.7.10.

Encourage the use of adaptation strategies for planning and design of Scenic Roadways, parks and open spaces in areas vulnerable to sea level rise and high tides in a manner that can help serve multiple functions, such as: recreational; enhanced water quality; natural ecosystem restoration; and coastal flooding accommodation.

HURRICANE VULNERABILITY ZONE

Figure #1

Category	Sustained Wind	Types of Damage Due to Hurricane Winds
1	74-95 mph 64-82 kt 119-153 km/h	Very dangerous winds will produce some damage: Well-constructed frame homes could have damage to roof, gables, vinyl siding and gutters. Large branches of trees will snap and shallowly rooted trees may be toppled. Extensive damage to power lines and poles likely will result in power outages that could last a few to several days.
2	96-110 mph 83-95 kt 154-177 km/h	Extremely dangerous winds will cause extensive damage: Well-constructed frame homes could sustain major roof and siding damage. Many shallowly rooted trees will be snapped or uprooted and block numerous roads. Near-total power loss is expected with outages that could last from several days to weeks.
3	111-129 mph 96-112 kt 178-208 km/h	Devastating damage will occur: Well-built framed homes may incur major damage or removal of roof decking and gable ends. Many trees will be snapped or uprooted, blocking numerous roads. Electricity and water will be unavailable for several days to weeks after the storm passes.
4	130-156 mph 113-136 kt 209-251 km/h	Catastrophic damage will occur: Well-built framed homes can sustain severe damage with loss of most of the roof structure and/or some exterior walls. Most trees will be snapped or uprooted and power poles downed. Fallen trees and power poles will isolate residential areas. Power outages will last for weeks to possibly months. Most of the area will be uninhabitable for weeks or months.
5	157 mph or higher 137 kt or higher 252 km/h or higher	Catastrophic damage will occur: A high percentage of framed homes will be destroyed, with total roof failure and wall collapse. Fallen trees and power poles will isolate residential areas. Power outages will last for weeks to possibly months. Most of the area will be uninhabitable for weeks or months.

HOUSING ELEMENT

GOALS, OBJECTIVES AND POLICIES

HOUSING ELEMENT GOALS, OBJECTIVES AND POLICIES

GOAL 1. HOUSING SUPPLY

ENSURE THE AVAILABILITY, THROUGH THE FUTURE LAND USE MAP AND ZONING REGULATIONS, OF SAFE AND ADEQUATE HOUSING UNITS OF DIFFERENT TYPES, SIZES, AND PRICE RANGES TO MEET THE NEEDS OF ALL CURRENT AND FUTURE RESIDENTS.

OBJECTIVE 1.1. HOUSING SUPPLY

The City shall continue to ~~facilitate~~ assist the private ~~production~~ sector, other public organizations, and housing non-profit agencies to provide a variety of housing types and price ranges for existing and future residents. ~~of a housing supply, including adequate sites for mobile homes or manufactured housing and low and moderate income housing, which will meet future community needs and offset housing deficiencies as noted in this Element.~~

POLICY 1.1.1.

A housing impact analysis shall be performed for all proposed City ordinances affecting development to ensure such provisions do not unnecessarily increase housing cost or inhibit innovative housing layout and design.

POLICY 1.1.2.

Land use plan amendments which increase density shall occur in areas with few environmental constraints and where adequate public infrastructure and services exist.

POLICY 1.1.3.

The City shall support Volusia County's housing programs that conserve or increase the supply of standard housing affordable to low- and moderate-income households.

POLICY 1.1.4.

The City shall support the Ormond Beach Housing Authority's efforts to provide housing assistance to lower and very-low-income residents of the City.

HOUSING ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 1.1.5.~~

~~The City shall establish an Affordable Housing Task Force every five years from the date of the previous Housing Plan update to review progress on previous Plan implementation and make new affordable housing recommendations if needed.~~

~~POLICY 1.1.6.~~

~~By 2012, the City shall create a housing partnership involving the County, City, financial institutions, and community-based non-profits for the purpose of providing financial and technical resources to assist the production of affordable housing that is designed for universal accessibility.~~

~~POLICY 1.1.7.~~

~~The City shall support public-private partnerships that provide for the housing needs of very low, low- and moderate-income residents utilizing Federal, State and local housing programs.~~

~~POLICY 1.1.8.~~

~~The City shall coordinate, with Volusia County, the efforts by Halifax Habitat for Humanity to purchase lots for the purpose of constructing homes for qualified low to moderate income families.~~

~~POLICY 1.1.9.~~

~~By 2010, the City shall have implemented the recommendations of the 2008 Housing Study Update Plan.~~

~~POLICY 1.1.10.~~

~~By 2012, the City shall have developed an Excel-Based Housing Demand Forecast Model to ensure that the available residential land use acreage and its densities remain in balance with the expected to reside population.~~

~~POLICY 1.1.11.~~

~~The City shall support and promote the concept of universal accessibility for all new housing created in the city by the private housing market.~~

~~POLICY 1.1.12.~~

~~By the year 2010, the City shall have implemented the Affordable Housing Task Force recommended changes to the City's permitting process related to enhance the efficiency of development services.~~

HOUSING ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.1.5.

The City shall continue to provide land use designations on the Future Land Use Map and zoning districts on the Official Zoning Map to ensure that adequate amounts of land are available to accommodate projected residential needs.

POLICY 1.1.6.

Through the Land Development Code, the City shall ensure the availability of safe and adequate housing units of different types, sizes, and price ranges to meet the needs of all current and future residents.

POLICY 1.1.7.

The Planned Residential Development zoning designation shall be maintained as a zoning tool to permit residential subdivisions that provide higher amenities, such as recreation, natural preservation, and open space. The Planned Residential Development is designed to review subdivision development in the “Suburban Low Density Residential” land use, smaller developments, and redevelopments. The City Commission may consider opportunities for the private sector to develop innovative housing prototypes and creative residential land use arrangements through the Planned Residential Development process to foster varied housing opportunities by type and cost.

POLICY 1.1.8.

The City shall promote mixed-use developments by allowing residential densities within commercial land uses. Mixed-use developments are encouraged in the Downtown Community Redevelopment Area and the multi-modal corridors.

POLICY 1.1.9.

Mobile and manufactured housing shall be permitted within the Land Development Code through the zoning regulations.

POLICY 1.1.10.

The Land Development Code shall continue to allow accessory dwelling units within single-family zoning classifications.

POLICY 1.1.11.

The City shall establish partnerships with private and public non-profit groups, private developers, and other affordable housing providers.

POLICY 1.1.12.

Assisted living facilities shall be allowed in commercial and residential zoning districts within the Land Development Code.

~~OBJECTIVE 1.2. — PROVISION OF ADEQUATE SERVICES AND FACILITIES~~

~~Each existing housing development and residential neighborhood along with all new housing development shall meet existing adopted level of service standards.~~

~~POLICY 1.2.1.~~

~~The general residential development pattern in the City should be in accord with the community's growth strategy for residential densities, as stipulated within the Future Land Use Element.~~

~~POLICY 1.2.2.~~

~~Large scale residential development shall be required to provide a wide range of services and facilities in accordance with their relative size of development, in order to meet the needs of their residents and eliminate or reduce direct or indirect cost in providing such facilities by the general public.~~

~~POLICY 1.2.3.~~

~~The City shall continue to develop facilities and services master plans that guide residential development patterns in a manner that encourages compact development and discourages urban sprawl.~~

~~POLICY 1.2.4.~~

~~The City shall ensure the continued improvement of public services and facilities in areas which are experiencing deterioration in order to encourage reinvestment by the private sector and promote a residential environment that fosters community pride and provides safe and sanitary living conditions.~~

~~POLICY 1.2.5.~~

~~The City's Land Development Code shall designate lands for residential development consistent with the availability of public facilities at the Level of Service as outlined in this~~

HOUSING ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~Comprehensive Plan for all households, including low and moderate income families, mobile and manufactured homes, group homes and foster facilities and households with special needs.~~

OBJECTIVE 1.2. SUBSTANDARD HOUSING

The City will seek to identify and engage in activities to reduce the number of substandard housing units and prevent the need for City-initiated demolitions.

POLICY 1.2.1.

The City shall continue to enforce the building, plumbing, electrical, mechanical, and all other associated construction codes to ensure compliance for safe housing and to achieve necessary corrective action where non-compliance exists.

POLICY 1.2.2.

The City shall continue implementing methods to maintain and improve the housing stock, including yard maintenance, solid waste management, vehicle parking, and other blighting conditions.

POLICY 1.2.3.

The City shall continue to identify and seek to gain compliance for dilapidated housing units through the code enforcement process. The property owner shall demolish housing units that cannot be rehabilitated. Where structures identified as unsafe are not demolished promptly, the City shall perform the demolition after due notice and place a lien on the property.

OBJECTIVE 1.3. GREEN BUILDING AND SUSTAINABLE DEVELOPMENT

~~Encourage resource efficient green building, and sustainable development practices to enhance energy efficiency of housing in Ormond Beach.~~

POLICY 1.3.1.

~~Encourage installation of renewable energy systems by homeowners.~~

POLICY 1.3.2.

~~Encourage the incorporation of green building practices into development projects.~~

HOUSING ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 1.3.3.~~

~~Provide educational materials regarding energy efficiency, sustainable design, and climate change, that encourage residents and business owners to invest in energy efficiency improvements through community outreach efforts through the City's website.~~

~~POLICY 1.3.4.~~

~~The City shall promote energy conservation techniques that incorporate Federal Energy Star Standards, as consistent with the requirements of the Florida Building Code.~~

~~POLICY 1.3.4.~~

~~Encourage building orientation that maximizes energy efficiency and fosters the use of alternative energy sources where appropriate, such as solar or wind energy systems, to reduce the demand for electricity and reduce greenhouse gas emissions.~~

~~POLICY 1.3.5.~~

~~Encourage appropriate orientation of trees and shrubs on a development site to reduce cooling loads by taking advantage of evapo-transpiration and shade.~~

~~POLICY 1.3.6.~~

~~Promote building design appropriate for local climate conditions.~~

~~POLICY 1.3.7.~~

~~The City shall encourage the construction of energy efficient housing by exploring innovative regulations through nationally recognized green building standards, that promote energy conserving and environmentally sensitive technologies.~~

OBJECTIVE 1.3. ATTAINABLE HOUSING

Adequate housing and land areas for very low-income, low-income, and moderate-income should be available to meet the housing needs through the provision of adequate residential land at various densities throughout the City.

POLICY 1.3.1.

Mobile, manufactured, modular, or alternative construction homes are allowed within the Land Development Code as a form of housing that can be more affordable to a broader range of individuals than traditional site-built homes and add to the variety of the available housing stock.

GOALS, OBJECTIVES AND POLICIES

POLICY 1.3.2.

Mobile Homes built to Housing and Urban Development standards shall be allowed in the T-2 zoning district within the Land Development Code on platted lots.

POLICY 1.3.3.

The Land Development Code shall allow modular buildings in all residential zoning districts, as defined in Chapter 553, Florida Statutes, provided the structures comply with all applicable building code standards.

POLICY 1.3.4.

Projects seeking to construct housing for very low-income, low-income, and moderate-income shall be provided with an expedited permitting process for site plan review and building permitting.

POLICY 1.3.5.

Developers may apply for any of the following regulatory relief provisions as part of a development that incorporates very low-income, low-income, and moderate-income housing units:

- a. Waiver of development fees related to approvals;
- b. Increased densities are allowed to accomplish affordable housing goals. The percentage of low and moderate housing set aside and the accompanying density bonus may increase in proportion to one another, but it shall not exceed 20 percent;
- c. Reduction of parking and setback requirements, particularly for housing designed for persons 65 and older; and
- d. Modifying sidewalk and street requirements, particularly in developments designed for persons 65 and older.

POLICY 1.3.6.

If development regulations are identified as hindering a project for very low-income, low-income, and moderate-income, consideration shall be given to processing a Land Development Code amendment or Planned Development at no cost to the project.

POLICY 1.3.7.

The City should seek funding assistance from Volusia County or state programs for providing very low-income, low-income, and moderate-income housing.

GOALS, OBJECTIVES AND POLICIES

POLICY 1.3.8.

As opportunities arise, the City should explore partnerships with developers or organizations that seek to provide very low-income, low-income, and moderate-income housing.

POLICY 1.3.9.

To the greatest extent practical, projects for very low-income, low-income, and moderate-income should be disbursed throughout the City.

POLICY 1.3.10.

The City shall support multi-jurisdictional approaches for affordable housing issues in Volusia County.

OBJECTIVE 1.4. GROUP HOMES AND FOSTER CARE FACILITIES

The City shall continue to permit group homes and foster care facilities licensed or funded by the appropriate state agency in residential areas.

POLICY 1.4.1.

The City shall encourage the integration of special residential uses, licensed group homes, and foster care facilities into all residential areas, except those areas considered flood prone, where adequate supporting infrastructure and nearby medical and public facilities are available.

POLICY 1.4.2.

The City shall maintain provisions in the Land Development Code to allow smaller group homes (up to six residents) to be permitted by right in all residential districts. Larger group homes shall be permitted as a conditional use in all single-family residential districts and by right in all multi-family districts.

OBJECTIVE 1.5. DISPLACEMENT

The City shall provide uniform and equitable treatment to individuals displaced by state or local government programs, consistent with applicable *Florida Statutes*.

POLICY 1.5.1.

The City shall adhere to the requirements of Section 421.55, *Florida Statutes*, to provide equitable solutions for individuals and businesses displaced by City projects.

OBJECTIVE 1.6. HISTORICALLY SIGNIFICANT HOUSING

The City shall continue preserving and protecting historically significant structures and sites consistent with the Cultural and Historical Resources Element.

POLICY 1.6.1.

The City shall identify, recognize, and preserve historically significant structures and sites per the Cultural and Historical Resources Element and the Land Development Code.

OBJECTIVE 1.7. GREEN BUILDING AND SUSTAINABLE DEVELOPMENT

Encourage resource-efficient green building and sustainable development practices to enhance the energy efficiency of housing in Ormond Beach.

POLICY 1.7.1.

Encourage homeowners to install renewable energy systems.

POLICY 1.7.2.

Encourage the incorporation of green building practices into development projects.

POLICY 1.7.3.

Provide educational materials regarding energy efficiency, sustainable design, and climate change that encourage residents and business owners to invest in energy-efficiency improvements through community outreach efforts and the City's website.

POLICY 1.7.4.

The City shall allow building orientation in the permitting process that maximizes energy efficiency and fosters the use of alternative energy sources where appropriate, such as solar or wind energy systems, to reduce the demand for electricity and greenhouse gas emissions.

POLICY 1.7.5.

Encourage appropriate orientation of trees and shrubs on a development site to reduce cooling loads by taking advantage of evapotranspiration and shade.

POLICY 1.7.6.

The City shall continue to enforce the energy efficiency and renewable energy resources regulations of the Florida Building Code and Chapter 553, Florida Statutes.

~~GOAL 2.——NEIGHBORHOOD MAINTENANCE~~

~~TO ENSURE AND PROMOTE THE MAINTENANCE AND ENHANCEMENT OF RESIDENTIAL NEIGHBORHOODS.~~

~~OBJECTIVE 2.1.——NEIGHBORHOOD MAINTENANCE~~

~~As a matter of on-going policy, the City will promote the maintenance, protection and, if necessary, the rejuvenation of city neighborhoods and residential areas, to encourage the highest quality housing and living environment possible.~~

~~POLICY 2.2.1.~~

~~By 2011, the City shall have developed and employed a neighborhood classification model designed to monitor neighborhood conditions, classify neighborhoods by a standardized condition and identify a comprehensive strategy for delivery of city services using a neighborhood focus.~~

~~POLICY 2.2.2.~~

~~By 2010, the City shall adopt an unsafe building abatement code to address vacant and derelict buildings to reduce blighting influences on commercial corridors and in residential neighborhoods.~~

~~POLICY 2.2.3.~~

~~Code enforcement, linked with housing rehabilitation assistance, shall be a principal conservation strategy for residential neighborhoods which are determined to be stable by the City's neighborhood classification model.~~

~~POLICY 2.2.4.~~

~~The City's Neighborhood Improvement Division shall provide in tandem with the issuance of housing code enforcement violations, information services provided by Volusia County Community Services for Ormond Beach.~~

~~POLICY 2.2.5.~~

~~Active citizen participation shall be incorporated into neighborhood planning efforts.~~

~~POLICY 2.2.6.~~

~~The City shall incorporate into the Land Development Code a formalized compatibility screening procedure to assist development applicants in identifying and mitigating conflicts in order to protect residential neighborhoods from incompatible land uses.~~

GOAL 3. ~~PRESERVATION AND REHABILITATION~~

~~PRESERVE AND EXPAND THE SUPPLY OF QUALITY HOUSING UNITS FOR LOW AND MODERATE-INCOME HOUSEHOLDS BY SUPPORTING THE BUILDING OF NEW UNITS, REHABILITATION OF SUBSTANDARD UNITS, AND THE PREVENTION OF LOSS AND DETERIORATION OF EXISTING AFFORDABLE UNITS.~~

OBJECTIVE 3.1.—REHABILITATION OF SUBSTANDARD HOUSING

~~All housing in the City which is found to be substandard but economically feasible to repair should be rehabilitated to increase the availability of standard housing and ensure that all housing in the City provides safe and adequate shelter to its occupants.~~

~~POLICY 3.1.1.~~

~~The City shall actively support the provision of housing services by Volusia County Community Services, Halifax Habitat for Humanity and other non-profit housing organizations in the Ormond Beach area.~~

~~POLICY 3.1.2.~~

~~As a matter of on-going policy, rehabilitation of housing units should be in conjunction with other neighborhood revitalization activities and facility improvements, as appropriate, to improve the overall quality of housing and neighborhood environments.~~

~~POLICY 3.1.3.~~

~~Neighborhood restoration efforts shall seek to maintain neighborhood identity and integrity.~~

OBJECTIVE 3.2.—COORDINATION OF HOUSING ACTIVITIES

~~The City shall establish partnerships with private and public non-profit groups, private developers and other affordable housing providers.~~

~~POLICY 3.2.1.~~

~~The City shall utilize, to the maximum extent possible, non-profit community-based organizations to assist in the acquisition, rehabilitation, and construction of affordable housing.~~

HOUSING ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 3.2.2.~~

~~The City shall support multi-jurisdictional approaches affordable housing issues in Volusia County.~~

~~GOAL 4. — HOME OWNERSHIP~~

~~INCREASE HOME OWNERSHIP OPPORTUNITIES BY REDUCING THE TOTAL COST OF HOUSING IN THE MARKET PLACE.~~

~~OBJECTIVE 4.1. — HOUSING OPPORTUNITIES~~

~~The City shall ensure, on a continual basis, that a variety of housing, including mobile homes or manufactured housing, affordable and rural housing is developed in the community to provide for the varied life-styles of its existing and future residents. The identification of historically significant housing shall continue in accordance with existing ordinances and as described in the Future Land Use Element, Coastal Management Element, Cultural Affairs Element, and Recreation and Open Space Element.~~

~~POLICY 4.1.1.~~

~~By 2010, the City shall utilize style neutral single-family residential design standards for all residential dwellings in order to address resident concerns regarding compatibility of manufactured housing in single-family residential neighborhoods.~~

~~POLICY 4.1.2.~~

~~The City shall incorporate affordable housing techniques into the Land Development Code such as Transfer of Development Rights, mandatory inclusionary zoning and density bonuses to increase the number of affordable lots and homes available to low and moderate income households.~~

~~POLICY 4.1.3.~~

~~The City shall ensure, through the Land Development Code, the availability of safe and adequate housing units of different types, sizes and price ranges to meet the needs of all current and future residents.~~

~~POLICY 4.1.4.~~

~~The City shall pursue affordable housing techniques designed to reduce the cost burden to low and moderate income households thus making affordable housing already available in the marketplace more accessible.~~

~~POLICY 4.1.5.~~

HOUSING ELEMENT

GOALS, OBJECTIVES AND POLICIES

When provided by developers, the percentage affordable ratio shall be adjusted by area and by size of the development. Depending upon the geographic location, percentages may vary. In existing areas of the City where there is a significant population of low income and moderate income groups, then a base percentage of 10% would apply, while elsewhere the base percentage may be 5%. the 10 percentage areas are generally identified as follows:

- 1) CDBG Priority Area: An area bounded on the north by Highland/Selden Avenue, the south by the City limits, the east by South Ridgewood, and the west by the Florida East Coast railroad tracks. (As amended by Ordinance 93-14, adopted on April 6, 1993.)
- 2) Barrier Island South: An area bounded on the north by Seminole Avenue, the south by the City limits, the east by A1A, and the west by Riverside Drive (south of the Fluhart Drive and Riverside Drive intersection).
- 3) Granada/Wilmette North: An area bounded on the north by Wilmette Avenue and its extension, the south by Granada Boulevard, the east by Orchard Street and the west by Nova Road.
- 4) Granada/Division South: An area bounded on the north by Granada Boulevard, the south by Division Avenue.

Low and moderate income housing units shall be dispersed throughout new development projects in a way that preserves the ambient character of the project and ensures assisted and non-assisted units shall not be distinguishable externally.

POLICY 4.1.6.

Mix use buildings incorporating residential and commercial development in the downtown shall have priority over single use buildings when applying for financial assistance from the City through the Tax Increment Financing District.

POLICY 4.1.7.

The City housing policy shall promote universal accessibility as a design option for housing of the elderly and various income level families.

POLICY 4.1.8.

Through the development review process and the administration of regulatory controls, the City will consider opportunities for the private sector to develop innovative housing prototypes and creative residential land use arrangements to foster varied housing opportunities by types and cost.

POLICY 4.1.9.

The City shall continue to maintain an inventory all public lands and buildings and, upon query by non-profit housing organizations, report to the City Commission the feasibility of

HOUSING ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~such public lands and buildings being made available for low and moderate income housing.~~

~~POLICY 4.1.10.~~

~~Mobile homes shall be allowed in the T-2 zoning districts. T-2, the Manufactured Home Community District, will allow for a self-contained planned community under single ownership and featuring extensive on-site recreation facilities, landscaping and innovative design.~~

~~POLICY 4.1.11.~~

~~The City shall continue to implement standards, regulations, and guidelines for the protection and improvement of historically significant housing, consistent with the criteria contained within the Future Land Use, Coastal Management, Cultural Affairs and Recreation and Open Space Elements.~~

OBJECTIVE 4.2. — HOUSING COSTS

~~The City shall support and promote the provision of affordable housing, including mobile homes and manufactured housing, to all segments of the City population.~~

~~POLICY 4.2.1.~~

~~The City shall monitor all land and building development ordinances, regulations, and the permitting process to identify conflicting requirements, eliminate excessive and unnecessary regulations, and provide flexibility in the provision of housing through innovative technologies.~~

~~POLICY 4.2.2.~~

~~On an on-going basis, the City shall utilize automated processes to improve building and inspection services in order to provide time sensitive turnaround approvals.~~

~~POLICY 4.2.3.~~

~~Developers may apply for any of the following regulatory relief provisions as part of a development that incorporates low and moderate income housing units:~~

- ~~a. Waiver of development fees related to approvals.~~
- ~~b. Allowance of increased densities to accomplish affordable housing goals. The percentage of low and moderate housing set aside and accompanying density bonus may increase in proportion to one another but in no case shall it exceed 20%.~~
- ~~c. Reduction of parking and setback requirements, particularly for housing designed for the elderly.~~

HOUSING ELEMENT

GOALS, OBJECTIVES AND POLICIES

- d. ~~Modification of sidewalk and street requirements, particularly in developments designed for the elderly.~~

GOALS, OBJECTIVES AND POLICIES

GOAL 5.——EQUAL HOUSING

~~PERMIT HOUSEHOLDS TO FREELY CHOOSE AMONG THE DIFFERENT OPTIONS AND TENURES WHICH ARE AVAILABLE IN AN UNRESTRICTED MARKET.~~

OBJECTIVE 5.1.——EQUAL HOUSING

~~The City shall ensure that equal housing opportunities are realized by all residents regardless of race, color, religion, ancestry, sex, familial status, national origin, handicap or place of birth.~~

~~POLICY 5.1.1.~~

~~The City shall continue to enforce its Fair Housing Ordinance, continually monitoring housing practices for possible housing discrimination.~~

~~POLICY 5.1.2.~~

~~The City shall ensure housing opportunities for all current and future residents, with an emphasis on the needs of the financially, socially and/or physically disadvantaged, and those displaced due to City actions.~~

OBJECTIVE 5.2.——GROUP HOMES AND FOSTER CARE FACILITIES

~~The City shall continue to permit in residential areas group homes and foster care facilities licensed or funded by the Department of Children and Family Services.~~

~~POLICY 5.2.1.~~

~~The City shall encourage the integration of special residential uses, licensed group homes, and foster care facilities into all residential areas, except those areas considered flood prone, where adequate supporting infrastructure and nearby medical and public facilities are available.~~

~~POLICY 5.2.2.~~

~~The City shall maintain provisions in the Land Development Code to allow smaller group homes (up to six residents) be permitted by right in all residential districts. Larger group homes shall be permitted as a conditional use in all single family residential districts and by right in all multi-family districts.~~

GOALS, OBJECTIVES AND POLICIES

GOAL 6.——JOBS AND HOUSING BALANCE

ENCOURAGE A BALANCED AND MIXED ECONOMIC COMMUNITY.

OBJECTIVE 6.1.——JOBS AND HOUSING BALANCE

The City shall promote, through its economic development efforts, a higher job to housing growth ratio.

POLICY 6.1.1.

Increase the job/housing ratio from 1.10 (2008) to 1.25 (2015) by creating higher value-added jobs.

POLICY 6.1.2.

By 2015, the cost of housing shall closely mirror the median wage structure of the City's economic base.

RECREATION AND OPEN SPACE PARKS AND RECREATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 1. RECREATION AREAS AND FACILITIES

PROVIDE AN ACCEPTABLE QUALITY, QUANTITY, AND VARIETY OF ACTIVE AND PASSIVE RECREATION AREAS AND FACILITIES NECESSARY TO MEET THE EXISTING AND FUTURE RECREATIONAL NEEDS OF ALL THE CITY'S RESIDENTS AND OF ITS VISITORS.

OBJECTIVE 1.1. LEVEL OF SERVICE STANDARDS

The City shall require of new development activities concurrency with the adopted level-of service standards according to the adopted Parks and Recreation Master Plan Study, as amended.

POLICY 1.1.1.

The City shall apply level-of-service standards park categories and facilities in accordance with the adopted Parks and Recreation Master Plan Study as amended and listed in the Capital Improvements Element of the Comprehensive Plan.

POLICY 1.1.2.

Parks and recreational facilities, as shown in Figure 1 of the Parks and Recreation Element, shall be located throughout the City to allow access opportunities to all segments of the population.

POLICY 1.1.3.

The City shall continue to provide sufficient lighting where needed at any active recreation facilities existing at that time.

POLICY 1.1.4.

The City shall continue to acquire the appropriate acreage for neighborhood and community park and recreation sites to meet its level-of-service standards when necessary.

~~POLICY 1.1.5.~~

~~Alligator Island shall be maintained under the Open Space/Conservation land use designation.~~

RECREATION AND OPEN SPACE PARKS AND RECREATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.1.6. POLICY 1.1.5.

The City's facility needs and program planning shall be determined through a continuous assessment of facility capacities and community needs, thorough surveys, citizen responses, civic interaction, and population growth. ~~Surveys shall be completed by April of each year by the Leisure Services and Planning Departments. The following criteria shall be applied in implementation of this policy.~~

- ~~a. — Coordination with other City departments and civic groups of studio (e.g., continuing education) programs, special events and referral services. Such programs shall be available for all ages and not limited to any level of proficiency.~~
- ~~b. — Coordination of or liaison to the development of other community enhancement projects (e.g., Santaland Art in the Park, and Easter Egg Hunt).~~
- ~~c. — Develop an outreach strategy that provides recreation activities and programs on a neighborhood basis.~~
- ~~d. — Determine the need for additional multi-diversified leisure facilities to better accommodate existing and future needs.~~
- ~~e. — Survey of the use of recreation facilities by developmentally disabled and physically handicapped people. The plan shall further contain specific recommendations for correcting existing deficiencies and meeting future needs.~~
- ~~f. — Assess the special population needs and provide structured activities for youth and adults that would interface with mainstream youth programs.~~

OBJECTIVE 1.2. MAINTENANCE

To maximize the responsible use of existing public lands and facilities, City parks and recreation facilities shall be maintained by the City's Leisure Services Parks and Recreation Department in order to promote public use and community pride, and discourage vandalism.

POLICY 1.2.1.

The City shall manage undeveloped City-owned land for the long-term public interest, doing so in a manner by which the City sets an example for others to follow.

POLICY 1.2.2.

The City shall maintain its boat ramps, piers, docks, and other water-access facilities in a safe and operable condition.

POLICY 1.2.3.

~~By 2025, the City shall develop a facility at Central Park to support after-school programs and other activities.~~

RECREATION AND OPEN SPACE PARKS AND **RECREATION ELEMENT**

GOALS, OBJECTIVES AND POLICIES

POLICY 1.2.4.

~~The City shall actively maintain any saltmarsh areas adjacent to City property to be free of litter and/or other garbage.~~

POLICY 1.2.5. POLICY 1.2.3.

The City shall continue to provide information and interpretive signs at all City-operated boat ramps to alert users of the endangered manatees, the Tomoka River Manatee Sanctuary, and the City personal watercraft ordinance.

OBJECTIVE 1.3. LAND USE COMPATIBILITY

Balance the functioning value of the natural environment so there is an optimum combination of aesthetic, ecological, and recreation values.

POLICY 1.3.1.

Use park systems or open space to buffer incompatible land uses, where parks or open spaces are compatible with these land uses.

POLICY 1.3.2.

To the extent practical based on available funding, the City shall acquire or preserve lands with unique environmental assets, as well as provide community access and/or recreation opportunities/value to the community.

POLICY 1.3.3.

To the maximum extent consistent with Federal, State, and City objectives, policies, and responsibilities, multiple uses of public lands shall be considered, to reduce the cost of and expedite the acquisition of additional needed public lands.

OBJECTIVE 1.4. ACCESS AND DEVELOPMENT

The City shall maintain and improve access to its parks, recreation, and open space areas, facilities, programs, and events and encourage development of facilities, programs, and events of state and regional excellence.

POLICY 1.4.1.

The ~~Leisure Services~~ Parks and Recreation Department shall develop and distribute literature and maps listing the parks, leisure service, recreation sites, and historic sites located within the City, their facilities, location, and operating hours.

RECREATION AND OPEN SPACE PARKS AND **RECREATION ELEMENT**

GOALS, OBJECTIVES AND POLICIES

POLICY 1.4.2.

The ~~Leisure Services~~ Parks and Recreation Department shall prepare an annual report, as part of the budget process, that in general describes the status of that department's functions in the City for presentation to the City Commission ~~that department's functions in the City~~; assess the general needs of the population; describes events which affect or are affected by that department; and assesses interdepartmental and intergovernmental areas of concern and propose solutions to these areas of concern.

OBJECTIVE 1.5. FUNDING

The City shall develop a fiscally sound public parks recreation facilities program.

POLICY 1.5.1.

The City shall continue to pursue outside funding sources by monitoring on an on-going basis, the availability of parks and recreation grants and funds. The applications shall be submitted in a timely manner to ensure procurement and proper outside review.

POLICY 1.5.2.

A user fee system shall continue to be an integral and vital component of the overall funding mechanism for recreation programs and events. The following criteria shall apply in implementation of this policy:

- a. The fee shall be reasonably established and shall not restrict access on the basis of affordability.
- b. The City shall periodically review the fee structures of other local government jurisdictions and per capita operating expenses and recurring capital expenses as a basis for determining the equity of the fee structure.
- c. Reasonable fees shall be established for use of all City facilities based on the type of event, the particular facility and the expected number of people attending.
- d. The fee schedule shall be reviewed and updated on an annual basis.

POLICY 1.5.3.

The City shall continue to financially support the activities, events, and programs offered by the ~~Leisure Services~~ Parks and Recreation Department, in order to maintain programs at their current level-of-service in accordance with the adopted Parks and Recreation Master Plan as amended.

RECREATION AND OPEN SPACE PARKS AND **RECREATION ELEMENT**

GOALS, OBJECTIVES AND POLICIES

POLICY 1.5.4.

The City shall continue to assess a Recreational Impact Fee per the City Land Development Code in order to provide for the acquisition and development of additional recreational space and facilities needed by the occupants of such new residential dwelling units.

POLICY 1.5.5.

New development shall be encouraged to provide land for accessible and usable public parks in accordance with the adopted Parks and Recreation Master Plan Study as amended and in the City Land Development Code.

POLICY 1.5.6.

The City shall continue to charge a non-residents fee determined by the Leisure Services Parks and Recreation Department and the City Commission for the use of City recreation facilities.

POLICY 1.5.7.

The City shall continue to utilize user fee charges for services and facilities to help offset costs at recreation sites.

OBJECTIVE 1.6. BEACH ACCESS

The City shall recommend policies and programs to Volusia County that maintain and improve public access to beach recreational opportunities.

POLICY 1.6.1.

Participate in and encourage State, Regional, and County programs to provide on and off-site beach parking.

OBJECTIVE 1.7. BICYCLING OPPORTUNITIES

Safe bicycling opportunities, for both recreation and transportation, shall be provided within the eCity where possible.

POLICY 1.7.1.

Bicycle facilities shall be incorporated into arterial and collector roadway construction widening, and reconstruction plans and programs as provided by the Land Development Code.

RECREATION AND OPEN SPACE PARKS AND **RECREATION ELEMENT**

GOALS, OBJECTIVES AND POLICIES

POLICY 1.7.2.

The City shall cooperate with bicycle organizations, law enforcement agencies, and the FDOT Florida Department of Transportation to promote a bicycle safety program; this shall include a program in the schools and a media information program.

POLICY 1.7.3.

Bicycle facilities connecting schools with nearby active recreation areas shall be a priority of the City.

POLICY 1.7.4.

The City shall continue to provide bicycle facilities at all City-owned buildings or facilities that are open to the public.

~~POLICY 1.7.5.~~

~~When providing bicycle and pedestrian pathways the City shall determine, through its traffic consultant, upon which streets or roads bicycle traffic would constitute an unacceptable hazard. This shall also determine the time of day when this hazard would exist.~~

~~POLICY 1.7.6.~~ POLICY 1.7.5.

The City shall maintain regulations requiring new developments to incorporate bicycle and pedestrian paths as an integral part of their transportation plans.

~~POLICY 1.7.7~~ POLICY 1.7.6.

To the extent practical, utility easements (overhead transmission lines, gas and water) shall be considered in the development of trails to provide for connections and linkages to neighborhoods, and recreation and open space facilities.

~~POLICY 1.7.8~~ POLICY 1.7.7.

The following criteria shall be used in prioritizing bicycle facility improvements:

- a. Beach access points and crossings;
- b. Proximity to major public parks, cultural facilities, public schools, high-density residential and commercial areas;
- c. Lack of alternative routes;
- d. Streets serving important transit stops;
- e. Areas exhibiting high incidence of vehicle accidents with bicycles; and
- f. Arterial and collector streets.

RECREATION AND OPEN SPACE PARKS AND **RECREATION ELEMENT**

GOALS, OBJECTIVES AND POLICIES

POLICY 1.7.9 POLICY 1.7.8.

The City, in cooperation with the County and ~~FDOT~~ the Florida Department of Transportation, shall encourage the installation of bicycle detection devices at traffic activated signals on arterial and collector streets, subject to the availability of funding.

POLICY 1.7.9.

The City should update the 2016 Bike Master Plan and seek collaboration with Volusia County Trail and Bike Master Plan.

OBJECTIVE 1.8. CONSERVATION

Active and passive recreation facilities shall be designed and used in a manner that protects the quality of the natural systems including, but not limited to, the surface waters, significant wildlife habitats, designated species habitats, and wetlands. The permitting criteria of Federal, State, and regional agencies shall be met during the design and construction of active and passive recreation facilities.

POLICY 1.8.1.

The use of off-road recreational vehicles in wetland or upland habitats shall be limited to the maximum extent allowed by law.

POLICY 1.8.2.

New proposed land development adjacent to parks, recreation, and conservation areas shall be compatible with both natural systems and the intended function of the park, recreation, or conservation area.

POLICY 1.8.3.

The City shall acquire sensitive lands to meet open space objectives and/or adopt regulations to protect and enhance the functional values of such lands.

OBJECTIVE 1.9. ADA AMERICANS WITH DISABILITIES **ACT STANDARDS**

Public recreation facilities shall both accommodate and integrate ~~handicapped and disabled~~ special populations and persons with disabilities consistent with Federal and State standards.

RECREATION AND OPEN SPACE PARKS AND **RECREATION ELEMENT**

GOALS, OBJECTIVES AND POLICIES

POLICY 1.9.1.

The City shall provide physical programs for the ~~handicapped and disabled~~ special populations and persons with disabilities of all ages, based upon demand.

POLICY 1.9.2.

Recreation facility construction or renovation shall be designed to accommodate and integrate the ~~handicapped and disabled~~ special populations and persons with disabilities consistent with Federal and State ~~ADA~~ Americans with Disabilities Act standards.

POLICY 1.9.3.

When possible, ~~handicap~~ special populations and persons with disabilities access to the beach shall be improved by the process of ~~handicap~~ accessible parking spaces and pedestrian beach access ramps.

POLICY 1.9.4.

Playgrounds shall include ~~handicap and disability handicap~~ special populations and persons with disabilities accessible and usable facilities, to integrate ~~handicapped~~ special populations children into the mainstream.

POLICY 1.9.5.

The City shall construct playgrounds oriented towards ~~handicapped~~ special populations children.

OBJECTIVE 1.10. INTERGOVERNMENTAL COORDINATION

The provision of recreation programs and facilities shall be coordinated among adjacent local government jurisdictions and private sector providers to develop the most cost-effective services to the public.

POLICY 1.10.1.

The City shall notify in a timely manner, for review and comment, the Tomoka State Park management and provide information regarding any development activities and ordinances that may significantly affect the park environment and operations.

POLICY 1.10.2.

The City shall continue to actively participate in the Volusia County land acquisition program and request utilization of such funds for open space land purchases within the City as appropriate and to the maximum extent feasible.

RECREATION AND OPEN SPACE PARKS AND **RECREATION ELEMENT**

GOALS, OBJECTIVES AND POLICIES

POLICY 1.10.3.

The City shall submit when appropriate and applicable, grant applications to local, state and federal grant programs for the acquisition, planning and development/management of City-owned lands. Programs include, but are not limited to:

- ~~Florida Recreation and Development Assistance Program;~~
- ~~Land and Water Conservation Fund Program;~~
- ~~Florida Forever;~~
- ~~Florida Boating Improvement Program;~~
- ~~Save our Rivers Program (SJRWMD);~~
- ~~Ponce DeLeon Port Authority;~~
- ~~Florida Inland Navigation District;~~
- ~~Florida Communities Trust Program; and~~
- ~~ECHO.~~

POLICY 1.10.4. POLICY 1.10.3.

The City shall continue to submit applications when appropriate and applicable for grants under programs sponsored by various local, State, and regional federal governments including, but not limited to, the Florida Department of Environmental Protection, the Florida Fish and Wildlife Conservation Commission, Florida Forever, Florida Recreation and Development Assistance Program, Volusia ECHO, Volusia Forever, and the Florida Inland Navigation District.

POLICY 1.10.5. POLICY 1.10.4.

The City shall enter into agreements, as appropriate, with private institutional recreation organizations to provide services and programs including joint use of facilities and personnel.

POLICY 1.10.6 POLICY 1.10.5.

Wherever possible, Ormond Beach Recreational trail corridors shall be coordinated with other national level trails such as the Ormond Scenic Loop and Trail, East Coast Greenway, as well as other state trail systems.

OBJECTIVE 1.11. DEVELOPMENT ACTIVITIES

The City shall periodically review and amend the Land Development Code relative to current open space definitions and standards to implement the Recreation and Open Space Parks and Recreation Element. The following policies shall apply to the review of development activities and the conduct of public activity.

RECREATION AND OPEN SPACE PARKS AND

RECREATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.11.1.

The following shall be applied by the City to protect and provide buffers, greenbelts, and recreation within the open space system:

- a. Regulate the use of land and water consistent with the Future Land Use, Conservation, and Coastal Management Elements.
- b. Ensure the protection of natural vegetation and unique land features.
- c. Regulate areas subject to seasonal and periodic flooding and provide for drainage and stormwater management.
- d. Maintain and protect major environmental areas, parks, preserves, wildlife management areas and refuges.
- e. Provide mechanisms for the on-site transfer of development rights as per the Future Land Use Element.
- f. Develop performance standards for protecting lands with historic, scenic, recreational or environmental significance.
- g. Protect against significant adverse impacts to wildlife, wildlife habitats/corridors.

POLICY 1.11.2.

Innovative techniques shall be utilized to protect identified open space areas. Such techniques could include overlay districts, flood zones, performance standards, or other incentive-based methods.

POLICY 1.11.3.

Designated open space areas encompassing natural resource areas, significant environmental features, marine and wildlife habitats, conservation or potential recreation areas shall, at minimum, be protected, by buffer zones, deed restrictions, limiting density and intensity of development, conservation easements, acquisition, transfer of development rights, and purchase of development rights or land exchanges.

POLICY 1.11.4.

Criteria and standards to be used for reviewing development proposals within existing and proposed open space areas shall be maintained in the Land Development Code. Upon adoption of the plan, site specific analysis shall include an Environmental Assessment Report as per the criteria of the Conservation Element to be submitted, reviewed and approved prior to the issuance of a development order.

RECREATION AND OPEN SPACE PARKS AND **RECREATION ELEMENT**

GOALS, OBJECTIVES AND POLICIES

POLICY 1.11.5.

Coordinate with local governments, State and other public agencies in developing consistent standards, criteria and land development regulations for the protection of open space areas.

OBJECTIVE 1.12. LAND ACQUISITION

The City shall continue to increase the public provision, protection and enhancement of open space by utilizing the Volusia County, Land Acquisition Program with the cooperation of the Florida Forever, Save Our Rivers, Land and Water Conservation Fund, County Port Authority, St. Johns River Water Management District land acquisition programs, and similar State, and Federal land acquisition programs, as appropriate, to acquire by purchase or donation those lands identified by the City Commission. Provision of open space by private enterprise shall be accomplished through donation or requirements for dedication of open and common space as specified in the Land Development Code.

POLICY 1.12.1.

Land or easements suitable for the provision of open space shall be encouraged as donations from public agencies and private enterprises. The location, shape, size and character shall be evaluated for applicability to City land development regulations. The City is not obligated to accept donations of open space areas from public areas and private enterprise.

POLICY 1.12.2.

Open Space areas shall be preserved for the following types of development:

- a. Residential development required to provide park needs and open space areas as required by the Land Development Code.
- b. Planned overlay districts required to provide open space and common open space per the Land Development Code.
- c. Development plans encompassing valuable resource habitats such as, but not limited to, environmental corridors as identified in the Conservation and Future Land Use Elements.
- d. Non-residential development required to provide open space areas as required by the Land Development Code.

RECREATION AND OPEN SPACE PARKS AND **RECREATION ELEMENT**

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.13. SCENIC HIGHWAYS AND CORRIDOR CONNECTIVITY

Provide for recreational corridors to link the City-owned parks as well as other open space/conservation areas.

POLICY 1.13.1.

The City shall designate scenic roadways in accordance with State and Federal programs, as provided for by the Coastal Management Element and the Land Development Code.

POLICY 1.13.2.

The City's standards designed to ensure preservation of the scenic value of designated routes shall be maintained in the Land Development Code.

POLICY 1.13.3.

The City shall continue to coordinate with utility companies the potential multi-use concept for open space and recreation uses within utility easements.

POLICY 1.13.4.

To the extent practical, utility easements (overhead transmission lines, gas and water, sewer and drainage) shall be made available for bike path, nature, jogging, and horse trail development. This off-road corridor system shall be designed and developed to connect neighborhoods and communities to recreation and open facilities.

POLICY 1.13.5.

Open space systems or conservation areas identified for potential outdoor classroom sites or nature study facilities shall be provided with the appropriate access facilities. Facilities shall include, but are not limited to: on-site circulation system elements, natural trails, above ground boardwalks and limited passive areas designated for picnicking.

POLICY 1.13.6.

Public access to the beach and waterways shall be provided in accordance with the policies under Goal 67 of the Coastal Management Element.

POLICY 1.13.7.

The City of Ormond Beach adopts and incorporates the Ormond Scenic Loop & Trail vision statement and map series as included in the adopted Ormond Scenic Loop & Trail Corridor Management Plan, as amended. The Ormond Scenic Loop & Trail is shown in Figure 2 of the Parks and Recreation Element.

RECREATION AND OPEN SPACE PARKS AND **RECREATION ELEMENT**

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.14. ORMOND CROSSINGS ACTIVITY CENTER

The City working with the Developer of the Ormond Crossings Activity Center shall develop a comprehensive approach to address existing and projected deficiencies so that there are adequate facilities to serve the residents of Ormond Crossings.

POLICY 1.14.1.

~~Within 90 days of the effective date of the comprehensive plan amendments establishing the Activity Center land use category and applying it to the Ormond Crossings Activity Center, the Developer shall deed to the City the title to a 17-acre parcel that is located immediately north of the Airport Sports Complex and fronts on Harmony Trail.~~

POLICY 1.14.2. POLICY 1.14.1.

The Developer shall deed to the City a total of 45-acres of land to be used for parks and recreation purposes. The land may be divided ~~up to 5~~ as separate park sites within the Ormond Crossings Activity Center subject to the approval of the City, if it is determined that providing multiple parks sites minimizes automobile traffic and encourages pedestrian and bicycle access to the park facilities.

POLICY 1.14.3. POLICY 1.14.2.

Based on the projected population associated with this proposed amendment, the Developer of the property shall be responsible for the following improvements. These improvements shall be completed prior to the issuance of the certificate of occupancy for the 1,000th dwelling unit within the Ormond Crossings Activity Center.

- a. A public community center with a minimum of 6,000 square feet of building area;
- b. A trail system, including a minimum of .75 miles of hard surface walkway;
- c. 1 Picnic shelter with restrooms;
- d. 1 soccer/football field;
- e. 1 baseball/softball field;
- f. 2 outside basketball courts with lights;
- g. 2 shuffle board courts;
- h. 1 bocce ball court;
- i. 1 tennis court; and
- j. 1 racquetball court.

RECREATION AND OPEN SPACE PARKS AND **RECREATION ELEMENT**

GOALS, OBJECTIVES AND POLICIES

Based on the projected population associated with this proposed amendment, the Developer of the property shall be responsible for the following improvements. These improvements shall be completed prior to the issuance of the eCertificate of eOccupancy for the 2,000th dwelling unit.

- a. 1 community center that can be either public or private with a total minimum building area of 4,000 square feet;
- b. A trail system, including a minimum of .525 miles of hard surface walkways;
- c. Passive park area of 36.5 acres;
- d. 1 off-leash dog park;
- e. 1 covered playground area;
- f. 1 baseball/softball field;
- g. 2 outside basketball courts with lights;
- h. 2 shuffle board courts;
- i. 1 bocce ball court;
- j. 2 tennis courts; and
- k. 1 racquetball court.

The City acknowledges that the need for recreational facilities is a function of the population therefore adjustments to these requirements can be expected to occur as the project proceeds. The City also reserves the right to request cash in lieu of improvements when it proves that funding will provide the City with a greater benefit and compliance with the minimum level of service standards.

CAPITAL IMPROVEMENTS ELEMENT

GOALS, OBJECTIVES AND POLICIES

CAPITAL IMPROVEMENTS ELEMENT GOALS OBJECTIVES AND POLICIES SCHEDULE OF IMPROVEMENTS MONITORING / EVALUATION

GOALS, OBJECTIVES AND POLICIES

GOAL 1.LEVEL OF SERVICE STANDARDS

PUBLIC FACILITIES SHALL BE PROVIDED IN A TIMELY AND EFFICIENT MANNER AS NECESSARY TO CORRECT EXISTING DEFICIENCIES IN THE LEVEL-OF-SERVICE FOR POTABLE WATER, SANITARY SEWER, SOLID WASTE, TRAFFIC CIRCULATION, AND PARKS AND RECREATION AND TO MEET FUTURE DEMANDS GENERATED FROM NEW DEVELOPMENT THROUGH THE USE OF SOUND FISCAL PRACTICES.

OBJECTIVE 1.1. CAPITAL IMPROVEMENTS

Capital Improvements identified in other plan Elements shall be provided to correct existing deficiencies, accommodate future growth, and to replace deteriorated or obsolete facilities in an economically and energy efficient manner, as indicated in the schedule of improvements in this Element.

POLICY 1.1.1.

The City shall include capital improvement projects that are either: 1) required to meet adopted level-of-service standards; 2) implemented Goals, Objectives and Policies of the Comprehensive Plan; and 3) determined to be of relatively large scale in cost (\$25,000.00 or greater) in the Schedule of Improvements of this Element.

POLICY 1.1.2.

As per Section 163.3177, F.S., all capital improvement projects proposed by the City shall be consistent with the Comprehensive Plan.

POLICY 1.1.3.

All capital improvements included in the Capital Improvements Element schedule of improvements shall be included in the City's annual capital budget.

POLICY 1.1.4.

CAPITAL IMPROVEMENTS ELEMENT

GOALS, OBJECTIVES AND POLICIES

Proposed capital improvement projects that compete for funding within the same funding source and as identified annually through the concurrency management system shall be evaluated and ranked in order of priority according to the following guidelines:

- a. The extent to which the project is necessary to protect public health and safety.
- b. Capital improvements needed to address existing deficiencies.
- c. Maintenance of adopted levels-of-service.
- d. The impact that the project would have on the local budget.
- e. Reduction of future improvements costs.
- f. Encouragement of infill development and/or preservation or achievement of full use of existing facilities.
- g. Promotion of efficient development and prevention of urban sprawl.
- h. Consistency with ~~FDOT~~ the Florida Department of Transportation and other State and regional plans.

POLICY 1.1.5.

The Capital Improvements Element shall be reviewed on an annual basis and modified as necessary in accordance with Section 163.318~~77~~, F.S. Corrections, updates and modifications concerning costs; revenue sources; acceptance of facilities, pursuant to dedications which are consistent with the plan; or the date of construction of any facility enumerated in the ~~CE~~ Capital Improvements Element may be accomplished by ordinance and shall not be deemed to be amendments to the Comprehensive Plan.

POLICY 1.1.6.

The comprehensive planning process shall be used to ensure that present and future public facility and service needs are planned and provided in a timely and efficient manner, while safeguarding the health safety and welfare of the public and natural environment.

POLICY 1.1.7.

The provision of the public services and facilities shall be planned and coordinated so that the provision of public services and facilities occurs in a manner which encourages growth to be orderly and, to the extent feasible, is compatible with existing and desired land uses.

CAPITAL IMPROVEMENTS ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.1.8.

Public facilities, services, and programs shall be designed to service the intensities of development projected in State, regional and local comprehensive and functional plans and other planning documents.

~~Integrate energy cost reduction measures into the budget process.~~

POLICY 1.1.9

Government buildings and facilities shall incorporate and recognize urban design principles. Life cycle costs should be considered in the design and construction of government facilities. The City shall implement an Energy Efficiency and Conservation Plan including a program to track the use of energy and water in facilities owned by the City and reducing energy consumption as it relates to budgetary constraints. The City shall require energy efficient retrofits of existing facilities, where feasible, and will ensure energy efficient objectives are met in the planning and construction of any new facilities. The City shall consider a Sustainability Index for use in assessing proposed capital projects.

OBJECTIVE 1.2. COASTAL HIGH HAZARD AREA

The City shall limit future public expenditures for capital improvements which promote growth within Coastal High Hazard Areas, except for public land acquisition, enhancement of natural resources, or other projects as identified in the Coastal Management Element and, except for projects already in progress and continuing in good faith at the time of plan adoption.

POLICY 1.2.1.

The City shall expend funds in Coastal High Hazard Areas for the provision of improvements needed to correct existing deficiencies to maintain their existing capacity.

POLICY 1.2.2.

The City shall continue to provide recreational facilities as needed within Coastal High Hazard Areas.

POLICY 1.2.3.

The City shall not construct any new public facilities in the coastal high-hazard areas, except for:

- a. Conservation, natural resource protection and preservation, conservation groundwater aquifer recharge, resource restoration facilities, public access facilities, stormwater management and passive recreation and recreation support facilities;
- b. Facilities necessary to improve hurricane evacuation time and/or mitigate storm damage to existing development; and

CAPITAL IMPROVEMENTS ELEMENT

GOALS, OBJECTIVES AND POLICIES

- c. Reconstruction of public facilities essential to maintaining the public health and safety shall only occur if such structures can meet the most current hurricane wind velocity standards contained in the adopted building code.

~~POLICY 1.2.4.~~

~~The City shall study, existing public facilities located in the Coastal High Hazard Area that can be replaced over a twenty (20) year period.~~

~~POLICY 1.2.5.~~

~~Further development of facilities located in the Coastal High Hazard Area shall be discouraged excluding beach-related capital facilities, including, but not limited to, access ramps and pedestrian walkways.~~

OBJECTIVE 1.3. CONCURRENCY MANAGEMENT SYSTEM

The City shall continue to implement and periodically review its concurrency management system. The concurrency management system shall ensure the management of the land development process in a way that public facility needs identified within plan Elements are provided as needed but not in excess of the City's financial capacity to operate such facilities.

POLICY 1.3.1.

The provision of public facilities and services is intended to serve as a growth management measure, as such provision shall be undertaken and expanded within existing or identified future designated facility service areas and discouraged elsewhere, except in cases of overriding public benefit or where needed to meet the needs of existing development.

POLICY 1.3.2.

The City shall use the following level-of-service standards to determine the impacts of new development and redevelopment upon public facility provision:

- a. Fire Fighting: All development having a density equivalent to or greater than one (1) unit per acre shall be served by a public/private central water system capable of delivering the required fire flows having adequate fire-fighting capacity of a minimum of 500 ~~gpm~~ gallons per minute (gpm) or greater as determined by the Chief Fire Official in conjunction with the City Engineer (or its equivalent where a sprinkler system is used) and minimum 20 pounds per square inch (psi) residual for a minimum two- (2-) hour duration depending upon the specific structure and/or use. Single-family home development at less than one (1) unit per acre or less, or other development of equivalent intensity (e.g., average daily water use of less than 300 ~~gpd~~ gallons per day per acre), may be served by an individual well. All required fire flows will be in addition to the peak daily demand established.

CAPITAL IMPROVEMENTS ELEMENT

GOALS, OBJECTIVES AND POLICIES

- b. Parks (acres per population): 13 acres per 1,000 population.

A capital facilities recovery fee to develop lands dedicated by developers to meet the acreage level_of-service standards shall be pursued. The recovery fee may be either assessed to the developer of the subdivision or the builder of the home in the form of an impact fee.

Subdivisions which provide private recreation lands and facilities shall be provided a credit against the land dedication and capital facilities recovery fee.

- c. Roads: The following level_of-service standards are adopted for roadways Citywide:

City County State	<u>LOS Level-of- Service Daily</u>	<u>LOS Level-of- Service Peak Hour</u>
	C	D
	D	E
	C (SIS/FIHS)	D (TRIP)

- d. Water:

Raw:	An average daily volume of 330 gallons per Equivalent Residential Unit (ERU).
Potable:	An average daily volume of 300 gallons per Equivalent Residential Unit.
Sewer:	An average daily volume of 270 gallons per Equivalent Residential Unit.
Reclaimed:	An average daily volume of 300 gallons per day per Equivalent Residential Unit.

CAPITAL IMPROVEMENTS ELEMENT

GOALS, OBJECTIVES AND POLICIES

Other uses water standards:

Types of Establishments* (note – ERU is Equivalent Residential Unit)	
Apartments	0.7 ERU per unit
Bars and Cocktail Lounges	0.05 ERU per seat
Barbershop	0.25 ERU per seat
Beauty Shop	0.5 ERU per seat
Car Wash	8.5 ERU minimum
Dentist	0.7 ERU per wet chair
Factories (with Showers or Chemicals)	0.1 ERU per 100 sq. ft.
Factories (without Showers or Chemicals)	0.05 ERU per 100 sq. ft.
General Commercial / Office Buildings	0.05 ERU per 100 sq. ft.
Gas Stations (no car wash)	1.5 ERU per bathroom
Hospitals	0.7 ERU per bed
Hotels and Motels	0.4 ERU per room
Movie Theaters, Auditoriums, Churches	0.02 ERU per seat
Nursing Homes / A.L.F.	0.5 ERU per bed
Restaurants	0.15 ERU per seat
Single-Family Residence	1.00 ERU per unit
Schools	0.05 ERU per seat
Townhouse Residence	0.7 ERU per unit

*The Site Plan Review Committee will consider alternate flow rates for various establishments if the applicant/Engineer of Record can provide supporting documentation.

- e. Sewer: An average daily volume of 270 gallons per Equivalent Residential Unit.
Sanitary Sewer Treatment: All development having a density equivalent to or greater than one (1) ERU per acre shall be served by a public/private wastewater treatment system capable of handling the projected design flows with an appropriate peak factor, as determined by the applicant or design professional. The peak factor shall not be less than 2.5. For developments having a density of less than one (1) ERU per acre, the applicant may elect to install a septic system provided that the applicant obtains an appropriate permit from the Volusia County Health Department and the City's existing gravity collection system is not within 200 feet of the proposed development.

CAPITAL IMPROVEMENTS ELEMENT

GOALS, OBJECTIVES AND POLICIES

f. Solid Waste:

Average residential pick-ups per truck	<u>1,600</u> <u>1,400</u>
Average commercial pick-ups/truck/route	<u>155</u> <u>160</u>
Average residential pick-ups/man/day	<u>226</u> <u>800-600</u>
Pounds/capita/day for residential, commercial and industrial waste	<u>5.69</u> <u>5.83</u>
Pounds/capita/day for special wastes	<u>3.85</u>

- g. Drainage: The difference in the volume of run-off for 25 years frequency, 24-hour duration storm event between pre-development and post-development conditions shall be retained on-site. The difference between the pre-development and post-development conditions for peak run-off rates for the 100-year frequency, 24-hour duration rainfall event shall be retained on-site. Individual development facility capacity shall be maintained so that there is no potential flooding increase above the base year elevation. There shall be no degradation of water quality of Class III waters. An equal or greater volume of storage capacity must be created for any volume of the regulatory flood that would be displaced by fill or structures. The velocity of the regulatory flood must not be adversely altered on any watercourse. Areas not filled are to generally be left in their natural state. However, such areas may be used to meet landscaping and/or retention requirements, provided that the design is consistent with the then-existing City standards and ordinance requirements. Fill limitations consistent with the Land Development Code and the performance standards for each wetland classification established by the Conservation Element shall be enforced for all developments lying within areas of special flood hazard, as defined by the 100-year floodplain boundaries of the ~~FEMA~~ Federal Emergency Management Agency ~~FIRM~~ Flood Insurance Rate Map maps.

POLICY 1.3.3.

The City shall maintain provisions in the Land Development Code that will ensure that, at the time a development order is issued, adequate facility capacity is or will be available when needed to serve the development.

POLICY 1.3.4.

The City shall evaluate proposed plan amendments and requests for new development based on the following guidelines:

- Creates potential public hazard.
- Accentuates any existing facility deficiencies.
- Generates public facility demands that could be accommodated by scheduled capacity increases in the capital improvements schedule.

CAPITAL IMPROVEMENTS ELEMENT

GOALS, OBJECTIVES AND POLICIES

- d. Conforms with the Future Land Use Map (Future Land Use Element) and service areas (Utilities Element).
- e. Affects other agencies' facilities plans.
- f. Conforms to the Conservation Element's policies for natural resource protection.
- g. Conforms to the Coastal Management Element's policies for limiting specific and cumulative impacts of development or redevelopment upon wetlands, water quality and quantity, wildlife habitat, living marine resources, and beach and dune systems.
- h. Minimizes impacts to surrounding jurisdictions.

OBJECTIVE 1.4. IMPACT AND CONNECTION FEES

Future development projects shall pay their fair share of the cost of providing facilities and services required to maintain adopted level-of-service standards as specified in the Land Development Code. Impact and connection fees, developer dedications and contributions shall be required in an amount equal to the cost of the infrastructure required to serve the development.

POLICY 1.4.1.

Recreation impact fees shall be continued and refined as needed to adequately maintain adopted LOS level-of-service standards.

POLICY 1.4.2.

Water and sewer ~~impact~~ connection fees shall be periodically reviewed and adjusted as ~~needed to~~ in accordance with Florida Statutes to assure that revenues are equal to growth-related capital expenditures, and to adequately maintain adopted LOS level-of-service standards.

~~POLICY 1.4.3.~~

~~The City shall annually review the fee schedules of all impact fee ordinances and adjust the fee schedules to reflect the pro-rata share of costs needed to finance improvements necessitated by new development.~~

~~POLICY 1.4.4.~~ POLICY 1.4.3.

The City shall continue to require that developers build water, sewer and reclaimed water infrastructure, local streets and internal collectors and provide off-site improvements needed for their development including but not limited to acceleration/deceleration lanes, turning lanes and traffic signals. ~~Such improvements shall not be eligible for impact fee reimbursements.~~

CAPITAL IMPROVEMENTS ELEMENT

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.5. FISCAL RESOURCES

The City shall manage its fiscal resources to ensure the provision of needed capital improvements for previously issued development orders and for future development and redevelopment.

POLICY 1.5.1.

In providing capital improvements funded by general obligation bond issues, the City shall limit outstanding indebtedness to no greater than five (5%) percent of its property tax base.

POLICY 1.5.2.

The City shall continue to adopt an annual capital budget and a five- (5) year capital improvement program as part of its budgeting process.

POLICY 1.5.3.

The City shall continue its efforts to secure State or Federal grants or private funds whenever available for capital improvements financing, through actively seeking and applying for grants and, if required, providing matching funds for grants.

POLICY 1.5.4.

Prior to scheduling any referenda to finance capital projects, the City shall make every effort to identify alternative funding sources.

POLICY 1.5.5.

Prior to the issuance of Certificates of Occupancy, the City shall provide for all public facilities needed to serve developments for which development orders were previously issued.

~~POLICY 1.5.6.~~

~~The Capital Improvements Element will be financially feasible in accordance with state law.~~

~~POLICY 1.5.7~~ POLICY 1.5.6.

If a Capital improvement is needed to maintain a level of service standard, then new development will be required to contribute its fair share toward the improvement.

~~POLICY 1.5.8~~

CAPITAL IMPROVEMENTS ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~Encourage investment in capital projects that will utilize municipal energy production in an environmentally responsible manner.~~

OBJECTIVE 1.6. LOCAL AND REGIONAL FACILITIES & SERVICES

The City shall require that necessary local and regional facilities and services be available concurrent with the impacts of development through the adoption of a concurrency management system as implemented by the Land Development Code.

POLICY 1.6.1.

The City shall verify that all public facilities needed to serve new development have been provided prior to the approval of an application for final subdivision plan or final site plan.

POLICY 1.6.2.

The City shall continue to implement a concurrency management system to:

- a. Determine whether necessary facilities identified within the City's Capital Improvements Element, including Traffic Circulation, Recreation and Open Space, and Utilities are being constructed in accordance with the schedules in the Comprehensive Plan.
- b. Update annually existing level-of-service, committed capacity as defined in the Land Development Code, and facility needs prior to and in conjunction with the annual update of the Capital Improvements Element, except that a shorter time frame, daily, monthly, or semi-annually, will be used as appropriate where the level-of-service is near capacity.

The City plat approval process will require that necessary regional and local facilities and services be available concurrent with the impacts of development after the adoption of the concurrency management system through any of the following situations:

1. The necessary facilities are in place at the time a plat approval is issued, or a plat approval is issued subject to the condition that the necessary facilities will be in place when the impacts of the development occur.
2. The necessary facilities are under construction at the time a plat approval is issued.
3. The necessary facilities are the subject of a binding contract executed for the construction of those necessary facilities at the time a plat approval is issued. Capacity to meet LOS Level-of-Service for sanitary sewer, potable water, drainage and solid waste shall be in place prior to awarding concurrency status for any development order.
4. The necessary road facilities as listed in the first three (3) years of the ~~FDOT~~ Florida Department of Transportation Five-Year Work Program have been included in the Volusia County or City of Ormond Beach annual budget at the time a plat approval is issued. A plan amendment is required to eliminate, defer or delay construction of any

CAPITAL IMPROVEMENTS ELEMENT

GOALS, OBJECTIVES AND POLICIES

road or mass transit facility or service which is needed to maintain the adopted level-of-service standards and which is listed in the five- (5-) year schedule of capital improvements.

For those parcels that do not require platting, the above steps will be considered at the time of site plan and review. In such cases the words “site plan” will replace “plat approval” wherever it appears above.

POLICY 1.6.3

Capital Improvements necessary for water supply concurrency will be identified and included in the annual update to the Capital Improvements Schedule.

OBJECTIVE 1.7. INTERGOVERNMENTAL COORDINATION

Intergovernmental cooperation and coordination shall be established and maintained in order to plan for and provide the best methods for providing efficient, cost-effective, and environmentally sound public facilities and services.

POLICY 1.7.1.

Effective administrative and procedural mechanisms which promote the coordination, planning and provision of public facilities and services shall be used at every possible opportunity. Adherence to this policy cluster, at a minimum, shall include the following actions:

- a. The City shall establish formal and informal methods of contact and communication with adjacent and/or affected units of local government concurrent with the initiation of planning for new public facilities or improvements to existing public facilities for the purpose of interjurisdictional coordination in the planning, construction and operation of such facilities, where appropriate.
- b. Administrative and procedural mechanisms shall be used to more effectively coordinate, plan and provide public facilities and services.

OBJECTIVE 1.48. ORMOND CROSSINGS ACTIVITY CENTER

The Ormond Crossings Activity Center provides the City with the opportunity to master plan a mixed-use development, including the needed public facilities required to meet the minimum levels of service established in this Comprehensive Plan.

POLICY 1.48.1.

CAPITAL IMPROVEMENTS ELEMENT

GOALS, OBJECTIVES AND POLICIES

The City shall monitor the progress of the development to analyze and where necessary, amend the Capital Improvements Element (CIE) and other related elements to ensure that public infrastructure and facilities are in place to ensure that minimum levels_of_service are maintained at the lowest possible cost to the City. The following is a list of improvements that may be required, as identified in the Ormond Crossings Activity Center Development Agreement. This list is to be used for general planning purposes and provide guidelines to the City. This policy shall not be interpreted to mean that changes to the development plan for the identified improvement cannot occur in the future. Given the potential time needed for this project to reach buildout, changes are to be expected. This policy provides a process and background for future capital planning efforts of the City.

CAPITAL IMPROVEMENTS ELEMENT

GOALS, OBJECTIVES AND POLICIES

SCHEDULE OF IMPROVEMENTS

The tables on the following pages of the Capital Improvements Element will be used to effectively stage the timing, estimated cost, and revenue sources of the capital improvements projected for the future. All items listed are consistent with individual Comprehensive Plan Elements.

~~The first part of each table will include the projected improvements for the period between Fiscal Years 2008-09 and 2012-13 in one (1-) year increments.~~

~~The table also specifies the type of work that is needed such as addressing an existing deficiency, a projected deficiency, or if the project consists of a repair, renovation or replacement of an existing facility.~~

The Schedule of Improvements are based upon the annual Ormond Beach Capital Improvement Plan and the capital improvements of other organizations such as Volusia County School Board and the Transportation Planning Organization.

MONITORING / EVALUATION

The Capital Improvements Element requires a continuous program for monitoring and evaluation, and pursuant to Chapter 163, F.S., the Element must be reviewed every year to ensure that the fiscal resources are available to provide public facilities needed to support adopted LOS Level-of-Service standards.

Programs that will be adopted to ensure that the Goals, Objectives and Policies established in the Capital Improvements Element include:

- a. ~~The Concurrency Management System (described in the Introduction Section).~~
- b. Annual review of the ~~CIE~~ Capital Improvements Element.
- c. Annual review of the City's budget to determine if all capital improvement projects are consistent with all Comprehensive Plan Elements and that the proposed projects will further the Goals, Objectives and Policies of the Comprehensive Plan.

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

GOAL 1. COORDINATION

THE CITY SHALL ESTABLISH AND MAINTAIN EFFECTIVE COORDINATION TO ADDRESS MULTI-JURISDICTIONAL ISSUES OF CONCERN AND TO IMPLEMENT THE CITY'S COMPREHENSIVE PLAN.

OBJECTIVE 1.1. CAPITAL IMPROVEMENTS

The City shall provide public facilities in a timely and efficient manner, coordinating planning, acquisition, development, funding, and improvements with other governments and agencies to the greatest extent possible.

POLICY 1.1.1.

Intergovernmental cooperation and coordination shall be maintained in order to plan for and provide efficient, cost effective, and environmentally sound public facilities and services.

~~POLICY 1.1.2.~~

~~Effective procedural mechanisms which promote the coordination, planning and provision of public facilities and services shall be used at every possible opportunity. Adherence to this policy, at a minimum, shall include the following actions:~~

- ~~a. The City shall maintain formal and informal channels of communication with appropriate units of government in order to provide opportunity for interjurisdictional coordination in the planning, construction and operation of new or expanded public facilities.~~
- ~~b. The City shall continue to review all Army Corps of Engineers (ACOE), Florida Department of Environmental Protection (DEP) and St. Johns River Water Management District (SJRWMD), permit applications and offer comments to the permitting agency in a timely manner in order to ensure that such permits are consistent with City policy.~~
- ~~c. On an ongoing basis, the City shall provide information on Cultural Affairs programs, economic development, public safety, active and passive recreation, transportation, and utilities capital improvement projects with adjacent and/or affected governments and utilities.~~
- ~~d. The City shall coordinate with Federal, State, regional and local permitting agencies to ensure that all permits be received by the time of the issuing of a development order.~~

~~POLICY 1.1.3.~~ POLICY 1.1.2.

The City shall maximize grant and revenue funds for capital improvement projects.

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.2. COASTAL MANAGEMENT

The City shall coordinate and cooperate with other governmental units and agencies to effectively and efficiently manage coastal resources.

~~POLICY 1.2.1.~~

~~The City shall cooperate with the Volusia Council of Governments (VCOG) to establish and maintain intergovernmental coordination mechanisms as needed for the proper management of coastal resources.~~

~~POLICY 1.2.2.~~ POLICY 1.2.1.

The City shall review the Comprehensive Plans and any amendments thereto of the adjacent municipalities, Volusia County, and Flagler County to determine if coastal resources including the Halifax River, the Tomoka River and its tributaries, the barrier island, and any associated wetlands are being managed in a consistent manner.

~~POLICY 1.2.3.~~ POLICY 1.2.2.

The City shall cooperate as provided for by the Volusia County Home Rule Charter and State Statutes in joint planning and management programs with adjacent municipalities and counties and other public agencies that operate governments within its boundaries ~~for mosquito impoundments, beach renourishment, hurricane evacuation, provision of public access, providing water dependent use sites, controlling stormwater, reducing wastewater treatment plant discharges into the lagoon, and coordinating efforts to protect designated and other rare species.~~

~~POLICY 1.2.4.~~ POLICY 1.2.3.

The City shall maintain an intergovernmental coordination mechanism that provides potentially affected municipalities, counties, and agencies opportunities for review and comment of development proposals.

~~POLICY 1.2.5.~~ POLICY 1.2.4.

The City shall encourage the State and regional permitting agencies to require that a proposed project ~~not~~ be consistent with local government comprehensive plans and land development regulations before issuing a development permit.

~~POLICY 1.2.6.~~ POLICY 1.2.5.

The City, in cooperation with the Florida Department of Environmental Protection ~~DEP~~, shall support the protection of the Tomoka Marsh Aquatic Preserve in accordance with the Florida Department of Environmental Protection ~~DEP~~ Management Plan and the City Comprehensive Plan.

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 1.2.7.~~ POLICY 1.2.6.

The City shall cooperate with the County in the development and implementation of minimum standards for environmental protection in accordance with the Volusia County Home Rule Charter.

~~POLICY 1.2.8.~~ POLICY 1.2.7.

The City shall work cooperatively with Flagler County to ensure responsible development in the upstream portions of the Tomoka River watershed such that the River is not adversely impacted.

~~POLICY 1.2.9.~~ POLICY 1.2.8.

The city shall continue to monitor and implement legislative changes in environmental protection measures.

~~POLICY 1.2.10.~~ POLICY 1.2.9.

On a continuous basis, the City shall review and implement stormwater quality programs and regulations as proposed by the Federal Environmental Protection Agency, the Florida Department of Environmental Protection ~~DEP~~, and the St. Johns River Water Management District. ~~SJRWMD~~.

~~POLICY 1.2.11.~~ POLICY 1.2.10.

The City shall support and participate in the preparation of management plans, water quality studies, and sampling programs in conjunction with Volusia County, the East Central Florida Regional Planning Council (~~ECFRPC~~), the St. Johns River Water Management District ~~SJRWMD~~, the Department of Health and ~~Rehabilitative Services~~, and the Florida Department of Environmental Protection. ~~DEP~~.

~~POLICY 1.2.12.~~ POLICY 1.2.11.

Land use decisions shall be consistent with the natural resource protection policies contained within the East Central Florida Strategic Regional Policy Plan and the State Comprehensive Plan.

~~POLICY 1.2.13.~~ POLICY 1.2.12.

The City shall review proposed development activity for consistency with appropriate ~~portions of resource management protection plans~~ Land Development Code sections and Comprehensive Plan policies addressing the estuaries, beach and dune systems, and the barrier island. ~~The following criteria shall apply in implementation of this policy:~~

- ~~a. The City shall forward all development proposals adjacent to the Tomoka River Aquatic Preserve to the DEP for its review and comment.~~

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

- b. ~~The City shall cooperate with State and regional efforts to coordinate management of the Tomoka Marsh Aquatic Preserve, including participation in watershed committees, basin-wide stormwater management planning, and development of best management practices.~~
- e. ~~The City shall assist the ECFRPC and the SJRWMD in the protection of regionally significant coastal resources.~~

OBJECTIVE 1.3. CONSERVATION

The City shall, through cooperative programs and intergovernmental coordination, and through membership in various intergovernmental coordination organizations, promote and foster the effective conservation of natural resources.

POLICY 1.3.1.

The City, in cooperation with other governments and governmental agencies shall protect the floodplain, and maintain the surface water quality, as well as native aquatic and wetland floral and faunal species diversity of the upper Halifax River, the Tomoka River and its tributaries.

POLICY 1.3.2.

The City shall continue to cooperate with State and regional agencies and adjacent local governments in updating information available on floral and faunal species, significant habitat areas, wildlife movement corridors, and existing and necessary protection mechanisms.

POLICY 1.3.3.

The City shall, continue to work in partnership with Volusia County on matters related to designated species.

POLICY 1.3.4.

Basin-wide management programs shall assure that historic stream courses are not channelized or impeded but retained in their current condition.

POLICY 1.3.5.

The City shall support the maintenance of the “Outstanding Florida Waters” status for that portion of the Tomoka River extending from US 1 to US 92.

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.3.6.

The City shall, in cooperation with local, regional, and State agencies, continue to implement the s~~Stormwater management Master p~~Plan that maintains or improves ambient surface water quality and protects natural drainage features. (~~See Utilities Element for criteria~~).

POLICY 1.3.7.

On a continuous basis, the City shall cooperate with Federal, State, regional, and local agencies to acquire and/or protect unique, environmentally sensitive, or recreationally significant properties.

POLICY 1.3.8.

On a continuous basis, the City shall coordinate the identification and protection of significant archeological, historical, and paleontological sites with the appropriate agencies and organization.

POLICY 1.3.9.

The City shall continue to cooperate with Federal, State and local agencies to maximize the protection of natural floodplain functions and to improve floodplain information.

POLICY 1.3.10.

On a continuous basis, the City shall coordinate and cooperate with adjacent governments and agencies to ensure the protection of wildlife corridors and significant floral and faunal habitats, which extend into contiguous jurisdictions.

POLICY 1.3.11.

The City shall coordinate and cooperate with other governments and agencies to preserve air quality when presented with appropriate opportunities.

POLICY 1.3.12.

On a continuous basis, the City shall coordinate and cooperate with State and local governments, the Florida Department of Environmental Protection FDEP, and the St. Johns River Water Management District SJRWMD to ensure that mineral extraction sites are reclaimed according to current law and permit requirements.

POLICY 1.3.13.

The City shall maintain standards in the Land Development Code for the identification and management of potentially significant cultural, historical, archaeological or paleontological resources.

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.4. ~~RECREATION AND OPEN SPACE~~ PARKS AND RECREATION

The City shall cooperate and coordinate with adjacent local governments and other public agencies to effectively and efficiently provide acceptable and affordable levels of service standards for municipal parks, recreation and open space facilities.

POLICY 1.4.1.

The City shall cooperate and coordinate with other government agencies to develop waterfront recreation facilities.

POLICY 1.4.2.

The City shall continue to encourage Volusia County and the State to provide well-maintained, high-quality beach access with adequate parking ~~to serve the park~~.

POLICY 1.4.3.

On a continuous basis, the City shall encourage Volusia County to maintain and improve existing beach access and provide future access when needed in a manner which does not create a negative impact on Ormond Beach.

POLICY 1.4.4.

The City shall cooperate with other governments and agencies to provide a safe and effective bicycle facilities network. The following criteria shall apply in implementation of this policy:

- a. The City shall cooperate with ~~the~~ Florida Department of Transportation (~~DOT~~), Florida Department of Environmental Protection ~~DEP~~, ~~VCOG~~, ~~Metropolitan~~ Transportation Planning Organization (~~MPO~~), Volusia County, and the School Board to develop an interconnected bicycle facilities network.
- b. The City shall cooperate with ~~VCOG~~, the School Board, law enforcement agencies, and the Florida Department of Transportation ~~FDOT~~ to promote a bicycle safety program.; ~~this shall include a program in the schools and a media information program.~~
- c. The City shall maintain the requirements for the provision of bicycle lanes and racks through the Land Development Code.

POLICY 1.4.5.

The provision of recreation programs and facilities shall be coordinated among adjacent local government jurisdictions and agencies to develop the most cost-effective services to the public.

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.4.6.

The City shall work in cooperation with the School Board and the Transportation Planning Organization MPO to develop and implement Bike/Ped Bicycle/Pedestrian School Safety Studies.

POLICY 1.4.7.

The City shall continue to submit grant applications when appropriate and applicable, under programs sponsored by Federal, State, regional governments, and Volusia County (Volusia Forever). ~~the County Land Acquisition Trust Fund.~~

POLICY 1.4.8.

The City shall notify in a timely manner, for review and comment, the Tomoka State Park management and provide information regarding any development activities and ordinances that may significantly affect the park environment and operations.

OBJECTIVE 1.5. CULTURAL AND HISTORICAL RESOURCES AFFAIRS

The City shall continue to promote cultural affairs and historical resources through coordination and cooperation with other governments and agencies.

POLICY 1.5.1.

The City shall continue to identify and pursue outside funding sources when appropriate and applicable by monitoring the availability of cultural grants and funds on an on-going basis.

POLICY 1.5.2.

In cooperation with Volusia County, the City shall ensure that Ormond Beach residents have adequate and acceptable access to a fully-operational public library system.

POLICY 1.5.3.

The City shall coordinate with the County Library to maximize public participation.

OBJECTIVE 1.6. HOUSING

The City shall continue to coordinate with the appropriate public agencies to provide affordable housing.

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.6.1.

The City shall continue to coordinate with Volusia County, the State of Florida, and the Department of Housing and Urban Development (HUD) to provide Community Development Block Grant funds to eligible persons.

~~POLICY 1.6.2.~~

~~On an ongoing basis, the City staff shall research and make available to the City Commission information about all new Federal, State, and local housing assistance programs.~~

~~POLICY 1.6.3.~~ POLICY 1.6.2.

The City shall cooperate with the Florida Department of Children and Families to ensure the availability of adequate sites for group homes or foster care facilities.

~~POLICY 1.6.4.~~

~~The City shall continue to coordinate its housing programs with those of Volusia County and the adjacent municipalities.~~

OBJECTIVE 1.7. LAND USE

The City shall coordinate the review of proposed development activity with adjacent local governments and with State, regional, and local public agencies.

POLICY 1.7.1.

The City shall cooperate with the appropriate local governments and public agencies to promote compact development patterns and to discourage urban sprawl.

POLICY 1.7.2.

The City shall continue to coordinate with local, State and regional agencies to ensure public infrastructure and facilities will be provided concurrent with the impacts of development as mandated by Florida Statutes.

~~POLICY 1.7.3.~~

~~The City shall continue to request that State and regional permitting agencies not permit a project unless the development proposal is consistent with the City Comprehensive Plan and Land Development Code.~~

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 1.7.4.~~ POLICY 1.7.3.

The City shall actively participate in organizations formed to promote systematic growth and development, including the East Central Florida Regional Planning Council ECFRPC, ~~the VCOG~~, the Transportation Planning Organization MPO, and Volusia Growth Management Commission, to discourage urban sprawl adjacent to or near the City's urban fringe.

~~POLICY 1.7.5.~~ POLICY 1.7.4.

The City shall work cooperatively with Flagler County, adjoining cities, and Volusia County to ensure that development in the upstream portions of the Tomoka River watershed does not adversely impact water quality of the Tomoka River.

~~POLICY 1.7.6.~~

~~The City shall resolve annexation issues through its active participation in the Volusia Growth Management Commission.~~

OBJECTIVE 1.8. TRAFFIC CIRCULATION

The City shall continue to coordinate its transportation plans with Federal, State, regional, and local agencies in order to maintain the adopted level-of-service.

POLICY 1.8.1.

The City shall continue to coordinate transportation planning and the provision of transportation facilities with the appropriate public agencies to the maximum extent feasible.

POLICY 1.8.2.

The City shall continue to coordinate and cooperate with the Federal Aviation Administration FAA and the Florida Department of Transportation FDOT to operate the Ormond Beach Municipal Airport.

POLICY 1.8.3.

The City shall coordinate its transportation planning with ~~Volusia County 2035 Long Range Transportation Plan (VCL RTP)~~, the Transportation Planning Organization MPO, Volusia County, the Florida Department of Transportation FDOT, Voltran, ~~VCOG~~, and other appropriate agencies to the maximum extent feasible.

POLICY 1.8.4.

The City shall coordinate proposed transportation Level-of-Service Standards with the Florida Department of Transportation FDOT and adjacent local government jurisdictions.

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.8.5.

The City shall continue to ~~request~~ support that the County collect and disburse transportation impact fee funds in impact fee zones that are designed to ensure that the payer of the fee is in fact the benefactor of the fee.

POLICY 1.8.6.

The City shall develop in association with Votran and the Volusia County ~~Metropolitan~~ Transportation Planning Organization multi-modal strategies that seek to reduce vehicle-miles traveled.

~~POLICY 1.8.7.~~

~~Ormond Beach will support proposed TCEAs for road corridors east of Interstate 95 in the adjacent jurisdiction of The City of Daytona Beach when such TCEAs include multi-modal transportation strategies that are complementary to the City's TCEAs.~~

OBJECTIVE 1.9. UTILITIES

The City shall coordinate the provision of utilities infrastructure and service with Federal, State, and local agencies.

POLICY 1.9.1.

The City shall coordinate the provision of potable water with Federal, State, and local agencies and develop intergovernmental responses to groundwater problems.

POLICY 1.9.2.

The City shall provide raw water to its residents in cooperation with the ~~DEP~~ Florida Department of Environmental Protection, the ~~SJRWMD~~ St. Johns River Water Management District, and Volusia County.

POLICY 1.9.3.

The City shall continue to provide solid waste collection in cooperation with ~~DEP~~ the Florida Department of Environmental Protection and Volusia County.

POLICY 1.9.4.

The City and the County shall work in cooperation to implement the hazardous waste management program.

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.9.5.

The City shall coordinate and cooperate with adjacent jurisdictions to participate in basin-wide stormwater management studies for the Halifax River and Tomoka River.

POLICY 1.9.6.

The City shall participate in drainage studies for the Halifax River and Tomoka River basins, when available or through direct coordination with affected entities.

OBJECTIVE 1.10. CONFLICT RESOLUTION

Maintain and increase the use of intergovernmental planning agencies for discussion and resolution of multi-jurisdictional issues. This objective shall be achieved through the implementation of the policies associated with this objective.

POLICY 1.10.1.

Continue active membership and support of intergovernmental planning agencies to resolve issues and disputes through mechanisms such as VCOG, MPO-Transportation Planning Organization, VGMC-Volusia Growth Management Commission, ECFRPC and the East Central Florida Regional Planning Council. and the Florida Growth Management Conflict Resolution Consortium.

POLICY 1.10.2.

Support the efforts to plan for the regional management of water resources.

POLICY 1.10.3.

Work with VGMC the Volusia Growth Management Commission to ensure coordination of all planning activities mandated by the Comprehensive Plan.

POLICY 1.10.4.

For comprehensive plan disputes, the City shall use the Volusia Growth Management Commission's dispute resolution process.

OBJECTIVE 1.11. JOINT PLANNING AREAS

Identify, implement, and coordinate joint planning areas for annexation and service provision.

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.11.1.

The City shall provide Volusia County notice, as required by Florida Statutes, of all annexations. ~~will continue to coordinate with the Volusia Council of Governments, VGMC, Volusia County, the Cities of Holly Hill and Daytona Beach, and other jurisdictions when annexations occur.~~

POLICY 1.11.2.

The City will provide a copy of its published or posted notice of annexation, to the Volusia County Council as required by Florida Statutes as amended.

POLICY 1.11.3.

The City will continue to provide potable water and sewer service within its identified service boundary areas.

POLICY 1.11.4.

The City will continue to coordinate procedures through interlocal agreements with Volusia County and other adjoining jurisdictions, as appropriate, on the review of development orders and guaranteed compliance with the City of Ormond Beach Land Development Code for projects requesting City utility services.

POLICY 1.11.5.

The City will promote sound growth management by providing city services to contiguous areas before non-contiguous areas.

POLICY 1.11.6.

The Interlocal Service Boundary Agreement adopted by the City of Ormond Beach Commission by Ordinance No. 2014-27, and the Volusia County Council by Ordinance 2014-12, is hereby adopted within the eComprehensive pPlan by reference, said agreement having been recorded on August 28, 2014, at Book 7026, Pages 8786 through 895, of the Public Records of Volusia County, Florida.

The Interlocal Service Boundary Agreement and was amended effective and recorded on October 11, 2019, at Book 7758, Pages 4680 through 4683, of the Public Records of Volusia County, Florida for the first amendment related to the Plantation Oaks project. The Interlocal Service Boundary Agreement was amended effective and recorded on March 30, 2022, at Book 8228, Pages 1974 through 1978, of the Public Records of Volusia County, Florida for the second amendment related to the RidgeHaven project.

The Interlocal Service Boundary Agreement was renewed by Ormond Beach and Volusia County until August 28, 2034 effective and recorded on August 28, 2024, at Book 8601, Pages 1751 through 1782, of the Public Records of Volusia County.

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.11.7.

A Municipal Service Area (MSA) is hereby established between the City Ormond Beach and Volusia County as a means to coordinate planning and delivery of services related to future land use, public facilities and services, and protection of natural resources in advance of annexation.

POLICY 1.11.8.

Pursuant to Chapter 171, Part II, Florida Statutes, Volusia County and the City of Ormond Beach have established an Interlocal Service Boundary Agreement (ISBA) effective and recorded on August 28, 2014, at Book 7026, Pages 878~~6~~ through 895, of the Public Records of Volusia County, Florida.

The Interlocal Service Boundary Agreement and as was amended effective and recorded on October 11, 2019, at Book 7758, Pages 4680 through 4683, of the Public Records of Volusia County, Florida for the first amendment related to the Plantation Oaks project. The Interlocal Service Boundary Agreement was amended effective and recorded on March 30, 2022, at Book 8228, Pages 1974 through 1978, of the Public Records of Volusia County, Florida for the second amendment related to the RidgeHaven project.

The Interlocal Service Boundary Agreement was renewed by Ormond Beach and Volusia County until August 28, 2034 effective and recorded on August 28, 2024, at Book 8601, Pages 1751 through 1782, of the Public Records of Volusia County.

The agreement allows the City to annex properties within the Joint Planning Area that would not otherwise be eligible for annexation subject to the provisions established in the ISBA-Interlocal Service Boundary Agreement.

POLICY 1.11.9.

The City is authorized and empowered, pursuant to section 163.3171(4), Florida Statutes, to amend and apply its Comprehensive Plan to the lands within the Municipal Service Area (MSA) in advance of the annexation of those lands.

OBJECTIVE 1.12. JOINT PROCESSES FOR COLLABORATIVE PLANNING AND DECISION MAKING

Identify and describe joint processes for collaborative planning on population projections, school siting, facilities subject to concurrency, facilities with countywide significance, and problematic land uses.

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.12.1.

The City shall utilize population information from the United States Census. In the years where the United States Census is not published, the City shall use the population projections of the University of Florida Bureau of Economic and Business Research. ~~will continue to coordinate with the Volusia County Growth Management Department, the Volusia Council of Governments, the MPO, the University of Florida Bureau of Economic and Business Research, and other agencies in order to develop citywide and countywide population projections that include expected growth shown in the Comprehensive Plan for the City.~~ In addition, the City will use these mutually agreed upon and coordinated population figures in the Comprehensive Plan.

POLICY 1.12.2.

City staff will coordinate annually, or more often as needed, with Volusia County staff for the purpose of determining future unincorporated area needs for water and sewer within each respective unincorporated area served by the county.

POLICY 1.12.3.

The City will forward requests for access to County or State maintained roadways to each respective agency for comment concerning their respective plans and policies.

POLICY 1.12.4.

The City will coordinate with service providers that have no regulatory authority over the use of land in the City to develop recommendations that address ways to improve coordination of the City's concurrency management methodologies and systems, and levels-of-service.

POLICY 1.12.5.

The City will enter into an interlocal agreement with Volusia County for joint projects identified in the City's Stormwater Management Master Plan and the Volusia County's Stormwater Management Plan Program.

POLICY 1.12.6.

The Planning Department will coordinate concurrency reviews with the respective City Departments, ~~Volusia Council of Governments~~ and any other agencies as deemed appropriate and necessary.

POLICY 1.12.7.

The City will continue to coordinate with Volusia County for the provision of countywide facilities, including but not limited to, solid waste disposal and the Volusia County Emergency Operations Center.

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.12.8.

The City will forward notice of proposed future land use plan policies related to hurricane shelters and evacuation routes, as well as map amendments resulting in an increase in population within coastal high hazard areas, to the ~~ECFRPC~~ East Central Florida Regional Planning Council and the Volusia County Emergency Management Department to determine hurricane shelter space availability and the effect of increased evacuating populations on evacuation clearance times and routes.

POLICY 1.12.9.

The City shall forward site plans to Votran in accordance with defined thresholds as stated in the Volusia County Transit Design Guidelines.

GOALS, OBJECTIVES AND POLICIES

GOAL 2. JOINT PLANNING PROCESS

ESTABLISH AND MAINTAIN A COOPERATIVE RELATIONSHIP BETWEEN THE CITY OF ORMOND BEACH AND SCHOOL DISTRICT TO PROVIDE AN EFFECTIVE JOINT PLANNING PROCESS INCLUDING PROCEDURES TO COORDINATE LAND USE PLANNING WITH THE DEVELOPMENT OF SCHOOL FACILITIES INCLUDING PUBLIC SCHOOL SITING, CALCULATION POPULATION PROJECTIONS, AND PROVIDE FOR THE DEVELOPMENT OF PUBLIC EDUCATION FACILITIES CONCURRENTLY WITH RESIDENTIAL DEVELOPMENT AND OTHER PUBLIC FACILITIES AND SERVICES.

OBJECTIVE 2.1. INTERGOVERNMENTAL COORDINATION

The City of Ormond Beach shall establish coordination mechanisms with the School Board to achieve a collaborative effort to identify school needs, provide for school facilities and implement school concurrency using consistent supporting data and analysis.

POLICY 2.1.1.

In cooperation with the School Board, the City of Ormond Beach shall ~~adopt and~~ continue to implement the interlocal agreement as required by Section 1013.33 F.S., ~~which includes procedures for:~~

- ~~a. Coordinating and sharing information;~~
- ~~b. Educational and ancillary siting procedures;~~
- ~~c. Comprehensive plans and plan amendment review;~~
- ~~d. Site design and development plan review;~~
- ~~e. Joint development of schools, parks and other uses;~~
- ~~f. School concurrency implementation;~~
- ~~g. Implementation and amendments; and~~
- ~~h. Resolution of disputes.~~

POLICY 2.1.2.

In accordance with the schedule established in the interlocal agreement, the City of Ormond Beach shall continue to send a representative to meet with School Board and other local government representatives to review data and annually approve a projection of the amount, type, and distribution of population growth and student enrollment. ~~Data shall include but not be limited to:~~

- ~~a. Capital budgets for each jurisdiction;~~
- ~~b. School Board five-year facilities work program;~~

INTERGOVERNMENTAL COORDINATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

- ~~e. School Board educational plant survey (every fifth year);~~
- ~~d. Volusia County five-year road improvement program;~~
- ~~e. Anticipated new development, infill development and redevelopment; and~~
- ~~f. Student enrollment and school utilization including portable classroom assignments.~~

~~POLICY 2.1.3.~~

~~The City of Ormond Beach shall provide the School Board with a copy of each planning board and Council/Commission agenda.~~

~~POLICY 2.1.4.~~ POLICY 2.1.3.

The City of Ormond Beach and the School Board shall coordinate the acquisition and development of sites for future educational and ancillary facilities in accordance with the process established in the interlocal agreement.

~~POLICY 2.1.5.~~ POLICY 2.1.4.

The City of Ormond Beach shall continue to implement school concurrency and Section 206 of the Volusia County Charter. ~~no later than February 1, 2008.~~

~~POLICY 2.1.6.~~

~~The City of Ormond Beach shall provide notice to adjacent jurisdictions as required by the Volusia County Interlocal Agreement for School Planning when school capacity in the adjacent jurisdiction is anticipated to be applied to meet concurrency requirements for proposed residential development.~~

OBJECTIVE 2.2. MONITORING AND EVALUATION

The City of Ormond Beach shall regularly monitor and evaluate the implementation of the Public School Facilities Element to assure compliance with the provisions of the comprehensive plan and the interlocal agreement, to assure the use of best practices in the joint planning of school facilities, and to provide for the continuing coordination of school planning.

POLICY 2.2.1.

In accordance with the interlocal agreement but no less than once per year, the City of Ormond Beach shall submit a report to the School Board reporting on the implementation actions and coordinated planning efforts for planning and developing school facilities including joint development opportunities. If the School Board finds that implementation of the plan or interlocal agreement is not occurring, the School Board shall make recommendations to the City of Ormond Beach of steps necessary to achieve successful implementation.

GOALS, OBJECTIVES AND POLICIES

POLICY 2.2.2.

For each Comprehensive Plan amendment reviewed by the Volusia Growth Management Commission (~~VGMC~~), the City of Ormond Beach shall identify in the ~~VGMC~~ Volusia Growth Management Commission application support materials how anticipated impacts of the proposed amendment to school facilities are addressed.

POLICY 2.2.3.

The City of Ormond Beach shall appoint a citizen to serve as a member of the oversight committee created by the adopted Interlocal Agreement and shall appoint a staff member to serve on the technical committee created by the adopted Interlocal Agreement.

CULTURAL AND HISTORICAL RESOURCES ELEMENT
GOALS, OBJECTIVES AND POLICIES

GOAL 1.CULTURAL ACTIVITIES AND HISTORICALAL RESOURCES

THE CITY SHALL MAINTAIN A BALANCE OF CULTURAL ACTIVITIES AND HISTORICALAL RESOURCES APPROPRIATE TO RESIDENTS OF ALL AGES, NATIONAL ORIGINS, AND ECONOMIC LEVELS.

OBJECTIVE 1.1. ACCESS AND DEVELOPMENT

The City shall maintain and improve access to its ~~historie~~ and cultural and historical resources and encourage the development of programs and encourage the development of cultural programs of State and regional excellence.

POLICY 1.1.1.

The ~~Leisure Services~~ Parks and Recreation Department shall serve as a community arts agency to provide a mechanism for social and leisure interaction and awareness in the community. The Department shall organize, schedule, coordinate, promote and supervise cultural and historical civic activities such as a concert series, a community arts outreach program, continuing exhibits by local and regional-national artists and other special events utilizing City and other public facilities.

POLICY 1.1.2.

The City's cultural and historical activities and programs shall be determined through a continuous assessment of community needs, as identified through surveys, citizen responses, civic interaction, and population growth in conjunction with the Parks and Recreation Element Policy 1.1.95.

POLICY 1.1.3.

The appropriate City advisory boards shall continue to provide advice and make recommendations on matters related to cultural and historical resources and activities, per the criteria in the City's Land Development Code.

~~POLICY 1.1.4.~~

~~The Leisure Services Department shall report the needs for building and grounds maintenance to the Chief Building Official and Facilities Maintenance Manager, respectively, to ensure orderly and responsible maintenance and conduct of facilities.~~

CULTURAL AND HISTORICAL RESOURCES ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 1.1.5.~~ POLICY 1.1.4.

The Parks and Recreation Department shall prepare and submit, in April of each year, an annual report, as part of the budget process, which ~~that~~ describes the status of cultural and historical affairs in the City. The report shall assess the general needs of the population, evaluate the City's cultural and historical activities and programs, assess interdepartmental and intergovernmental areas of concern, and assess the condition of cultural and historical facilities. The annual report shall include recommendations for specific program changes, budgetary needs, and schedule of events.

OBJECTIVE 1.2. MAINTENANCE

The City shall continue to maintain and improve cultural and historical facilities to prevent deterioration and to maintain the aesthetics qualities of the community.

~~POLICY 1.2.1.~~

~~The Rockefeller Gardens Park shall be restored to its "Rockefeller Era" condition. Plans for the development of this Park have been programmed as part of the 2009-2014 5-year Capital Improvements Program.~~

~~POLICY 1.2.2.~~ POLICY 1.2.1.

The City will encourage private entities to create, maintain, and promote a new Birthplace of Speed Museum exhibit.

~~POLICY 1.2.3.~~ POLICY 1.2.2.

The Ames House, cottage and grounds shall continue to be maintained by the City and used by the City's ~~Legal Department~~. The grounds shall continue to be available for use by civic groups and residents.

~~POLICY 1.2.4.~~ POLICY 1.2.3.

The Bailey-Riverbridge Gardens Park shall continue to be maintained to prevent deterioration and to ensure public access and shall continue to be available for use by civic groups and residents.

~~POLICY 1.2.5.~~ POLICY 1.2.4.

The Indian Mound Park site shall be maintained as a historical resource, ~~developed with amenities onsite such as an interpretation center that explains the history of Indians in the area and displays certain related artifacts~~. No playground or other non-archaeological facilities shall be permitted on the site.

CULTURAL AND HISTORICAL RESOURCES ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.2.6. POLICY 1.2.5.

The building and landscaping at the Senior Center/Performing Arts Center shall continue to be properly maintained.

POLICY 1.2.6.

The building and landscaping at the Stout-MacDonald House shall continue to be properly maintained.

POLICY 1.2.7.

The Quality of Life Board, the Public Works Department and the ~~Leisure Services~~ Parks and Recreation Department shall annually evaluate conditions at the City's parks, recreation, and cultural facilities to ensure that the landscaping of such facilities ~~are~~ is maintained in good condition and are aesthetically pleasing (pursuant to the Parks and Recreation Element Objective 1.2. Reereation Policy 1.1.9).

POLICY 1.2.8.

The Ormond Memorial Art Museum and Gardens shall continue to be properly maintained and operated ~~by the City so as to promote and encourage outstanding Florida Artists in accordance with a partnership between the City of Ormond Beach and the Ormond Memorial Art Museum, Inc., a Florida 501(c)(3) corporation. The following criteria shall apply in implementation of this policy. The responsibilities of each party are detailed in the service agreement, and must include the following criteria:~~

- a. ~~The Museum's Malcolm Fraser Art Exhibit shall be properly maintained and available to the public free of an admission charge. Due to the public-private partnership as it relates to administration and maintenance, the Museum shall work cooperatively with the appropriate City departments to establish operational rules and regulations.~~
- b. ~~The Ormond War Memorial Art Gallery Corporation is encouraged to continue functioning as an operating body to manage and direct the museum with responsibilities to publish newsletters, coordinate volunteer groups, curate exhibitions, grant writing, fund-raising, and outreach public relations projects with school and civic related groups. The Ormond Memorial Art Museum, Inc. will function as the operating body of the Art Museum and Gardens. The Ormond Memorial Art Museum and Gardens are responsible for administering professional programs and exhibitions.~~
- c. ~~Due to the public-private partnership as it relates to administrations and maintenance, the Museum shall work cooperatively with the appropriate City departments to establish operational rules and regulations. The Malcolm Fraser Collection shall be properly maintained and exhibited to the public.~~

POLICY 1.2.9.

The ~~Leisure Services~~ Parks and Recreation Department and the Quality of Life Board will periodically consider creating an Art in Public Places Program, ~~which may require that one (1%) percent of the value of all new industrial and commercial structures over \$500,000 or new public buildings be required to provide on-site art amenities for review by the Quality of Life Board and approval by the City Commission.~~

OBJECTIVE 1.3. FACILITIES AND PROGRAMS

The City shall develop fiscally sound cultural and historical facilities and programs.

POLICY 1.3.1.

The City shall maintain the Friends of the Performing Arts Center, Friends of Recreation, and other foundations for the purpose of receiving and dispensing funds donated from various sources. This foundation shall be a City-sponsored, private, non-profit corporation US Code Title 26, 501(c)-(3) as registered with the State of Florida, Department of Agriculture and Consumer Services. By so doing, the City is eligible for receiving tax-deductible contributions and certain grants that are usually available only to non-profit organizations.

POLICY 1.3.2.

The City shall continue to work with the ~~Florida Department of State~~ Florida Division of Arts and Culture for ~~Florida Endowment Arts Fund~~ Cultural Endowment Program monies for the purpose of establishing a City investment fund to generate interest income to offset operating expenses.

POLICY 1.3.3.

The City shall continue to financially support the cultural activities and programs offered by the ~~Leisure Services~~ Parks and Recreation Department.

POLICY 1.3.4.

The City shall continue to pursue outside funding sources by monitoring on an on-going basis the availability of cultural and historical grants and funds. Applications shall be submitted in a timely manner to ensure procurement and proper outside agency review.

POLICY 1.3.5.

A user fee system shall continue to be an integral and vital component of the overall funding mechanism for cultural and historical programs and events. The following criteria shall apply in implementation of this policy:

CULTURAL AND HISTORICAL RESOURCES ELEMENT

GOALS, OBJECTIVES AND POLICIES

- a. The fee shall be reasonably established and shall not restrict access on the basis of affordability.
- b. The City shall periodically review the fee structures of other local government jurisdictions as a basis for determining the equity of the fee structure.
- c. Reasonable fees shall be established for the use of all City facilities based on the type of event, the particular facility and the expected number of people of attending.
- d. Fees shall be established, as necessary, for cultural programs such as dance, ballet, arts and crafts but shall not be established for admission into the Ormond Memorial Art Museum's Malcolm Fraser Art Exhibit.
- e. The fee schedule shall be reviewed and updated on an annual basis.

OBJECTIVE 1.4. SENIOR PROGRAMS AND FACILITES

The City shall ~~operate~~ continue to facilitate a senior citizen program and maintain a senior center facility that offers a diversity of activities and events to meet the full range of user interests.

POLICY 1.4.1.

The City, through the ~~Leisure Services~~ Parks and Recreation Department, shall provide services designed to increase community involvement and to improve cultural, historical, and recreational opportunities for the elderly.

~~POLICY 1.4.2.~~

~~The City shall, in cooperation with the Volusia County School Board, support efforts to increase the participation of the elderly in education and social service programs serving children.~~

~~POLICY 1.4.3.~~

~~The City shall continue to study the need and availability of adequate transportation for the elderly to facilitate participation in senior activities and events and to ensure adequate accessibility.~~

~~POLICY 1.4.4.~~ POLICY 1.4.2.

The Senior Center shall ~~offer~~ facilitate support services for the elderly that provide mechanisms for achieving maximum self-sufficiency, self-support and personal independence.

CULTURAL AND HISTORICAL RESOURCES ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 1.4.5.~~ POLICY 1.4.3.

The City shall ~~offer~~ facilitate an active participation program for seniors, to include theatre productions, concerts, dancing, and arts and crafts.

OBJECTIVE 1.5. SPECIAL EVENTS

The City shall support special events such as street fairs, festivals, performances, special audience programs (Very Special Arts), and art exhibits in developing a leisure time policy for use of recreation facilities to ensure a balanced recreation program that highlights the cultural and historical tradition of the City and supports the activity preferences of ethnic and racial groups by exposing the public to the music and art of different eras of time and of different folk cultures.

POLICY 1.5.1.

The City shall consider, but not limit itself to, Special events including a downtown area festival, neighborhood festivals and other art festivals. The City shall ~~also consider~~ continue sponsoring and providing fireworks at the 4th of July festival.

OBJECTIVE 1.6. INTERGOVERNMENTAL COORDINATION

The City will cooperate and coordinate with other local, State and Federal governments to ensure that cultural and historical services are available to City residents.

POLICY 1.6.1.

Coordination shall be maintained with the State in the development of a strategy for the construction of arts facilities based on a City assessment of needs and capabilities. This shall be accomplished with the City assessment pursuant to the Parks and Recreation Element Policy 1.1.95. The following minimum criteria and procedures shall be adhered to in the implementation of this policy:

- a. Maintain an inventory of existing facilities, to include stage size, seating capacity, and display areas, which currently provide access to cultural activities.
- b. Develop criteria and procedures for evaluating and determining the locations, extent, and types of public need for additional facilities to provide public access to cultural activities and performances.
- c. Develop a strategy to encourage the renovation of existing facilities which show potential for future use in providing increased public access to cultural activities; and the construction of new facilities, as determined by need, which will provide additional public access to cultural activities.

CULTURAL AND HISTORICAL RESOURCES ELEMENT

GOALS, OBJECTIVES AND POLICIES

- d. Develop a strategy for the identification and/or establishment of financial mechanisms necessary for the construction of arts and cultural activities.
- e. Develop a strategic plan based on the adopted Parks and Recreation Master Plan Study as it relates to cultural and historical services events, programs, and classes.

POLICY 1.6.2.

The City shall strive to expand and strengthen organizational ties with outside agencies and the private sector. Increased emphasis shall be placed on financial support from the general public and the private sector to assist in the provision of increased cultural and historical opportunities in the region, so as to accomplish:

- a. An increased frequency of cultural and historical events;
- b. A reduction in participatory costs or greater availability of scholarships so that cultural and historical events are economically accessible to the region's population; and
- c. Enhanced identification, preservation and use of historical properties and resources.

OBJECTIVE 1.7. HISTORICAL RESOURCES

Historical resources listed on, or eligible for listing on the Florida Master Site File or *National Register of Historic Places* shall be taken into consideration in development projects, with such programs and activities being implemented in a manner sufficient to protect and ensure the protection and preservation of historical and archaeological resources.

POLICY 1.7.1.

Additions or modifications to historical resources shall ensure that the architectural form, qualities and integrity of those resources be protected, preserved, and enhanced as possible. If the additions or alterations are ever removed, the essential form and integrity of the historical structure will be unimpaired.

POLICY 1.7.2.

The historic property shall be used for purposes that are the same as, or compatible with, the original uses(s), or as adaptive reuse in order to preserve and maintain the integrity of the original structure.

POLICY 1.7.3.

The identification and evaluation of adverse impacts on historical sites, structures or properties include assessments of, but are not limited to:

- a. The visual continuity of the historical resource's immediate surroundings;
- b. The degree of compatibility between the historical resource and proposed land uses in the immediate vicinity;

CULTURAL AND HISTORICAL RESOURCES ELEMENT

GOALS, OBJECTIVES AND POLICIES

- c. The maintenance of a historical resource with other ancillary or supporting structures and appurtenances such as fences, walkways, outbuildings, plants and trees which might be an important part of the entity's history, function, or purpose;
- d. The maintenance of the relative prominence of a historical resource in terms of height, accessibility, view distance and linear distance from other buildings and structures; and
- e. Prior to the approval for a development or project, a determination of the effects on any historical resource that is included in or eligible for inclusion in the *National Register of Historic Places* and locally designated landmarks and districts shall be made, with consultations being undertaken with the Florida Division of Historical Resources, as required by the Land Development Code.

POLICY 1.7.4.

If a historical resource is to be demolished, destroyed, or substantially altered in a way which adversely affects the character, form, integrity, or other qualities which contribute to its historical, architectural, or archaeological values, timely actions developed in consultation with the Florida Division of Historical Resources shall be taken to determine that no feasible and prudent alternative to the proposed demolition, destruction, or alteration exists.

POLICY 1.7.5.

In situations where no such practicable alternative is determined to exist, timely actions shall be taken either to avoid or mitigate the adverse impacts, or to undertake an appropriate archaeological salvage excavation, data recording, or other appropriate actions to document the resource as it existed prior to destruction or alteration.

POLICY 1.7.6.

The City shall exercise caution to assure that any historical and archaeological resources within its control are not inadvertently transferred, sold, demolished, destroyed, substantially altered, or allowed to deteriorate significantly.

POLICY 1.7.7.

Based on recommendations of the Florida Division of Historical Resources staff, special field surveys of historical and archaeological resources will be required to identify the extent of potential endangerment resulting from the proposed projects.

- a. A determination of need for such surveys shall be made by the Florida Division of Historical Resources and City staff.

CULTURAL AND HISTORICAL RESOURCES ELEMENT

GOALS, OBJECTIVES AND POLICIES

- b. The design and procedures of such surveys and mitigative measures shall be developed in consultation with the Florida Division of Historical Resources and the City's Historic Landmark Preservation Board.
- c. New information on previously unrecorded historical resources shall be transmitted to the Florida Division of Historical Resources.

POLICY 1.7.8.

Following the discovery of unknown archaeological or historical resources or remains, the Florida Division of Historical Resources shall be immediately notified and development activities shall be stopped until a professional archaeologist determines an appropriate area that should be protected and the discovery can be investigated and determined as to its significance or lack thereof.

POLICY 1.7.9.

Chapter 872, Florida Statutes, shall be implemented upon discovering burial sites or human remains during development activities.

POLICY 1.7.10.

Methods of rehabilitation and public accessibility to historical resources shall be developed in consultation with the Florida Division of Historical Resources, with emphasis being placed on public access, interpretative programs, and exhibits designed to increase public awareness, understanding and enjoyment of historical resources.

POLICY 1.7.11.

The identification and evaluation of adverse impacts on archaeological sites or areas from adjacent land uses include assessments of, but are not limited to:

- a. The effects of proposed land uses in the immediate vicinity of the archaeological resource in terms of its continued existence and maintenance or integrity; and
- b. The relationship, role, and function of the archaeological resource to the surrounding land uses and activities, which are based on applicable standards, are designed as either:
 - “Desirable” which includes: protection of its intrinsic value as an archaeological resource; incorporation into an harmonious development pattern; adequate protection while providing for public access and information about the archaeological resource; incorporation in site development plans as green space; conservation area, passive recreational area, or other land uses which do not disturb the ground; or
 - “Undesirable” which includes: destruction, damage, or diminishment resulting from land modification and site development activities; purposeful looting and vandalism; incompatible land uses and activities resulting in changes in surface water or

CULTURAL AND HISTORICAL RESOURCES ELEMENT

GOALS, OBJECTIVES AND POLICIES

groundwater levels due to drainage modifications or groundwater chemistry due to the introduction of pollutants.

POLICY 1.7.12.

Efforts shall be made to promote increased public awareness of and access to an expanded variety of cultural programs and historical resource appreciation activities in the City.

POLICY 1.7.13.

Archaeological and Historical resources shall be protected from vandalism and destruction. ~~Adherence to this policy, at a minimum, will require the following actions:~~

- ~~a. Continued anonymity of the exact locations of archaeological resources in remote locations or situations where adequate site protection or security would be difficult to provide.~~
- ~~b. Enhanced site security and property protection systems and procedures shall be utilized as needed.~~
- ~~c. Preparation and dissemination of increased levels of public information on the extent of vandalism and theft in terms of losses of historic resources, diminished usage, and the public costs of repair and replacement, with the information being disseminated via posters, television and radio public service announcements, news releases, and information to interested organizations.~~

POLICY 1.7.14.

Old King's Road is a significant historic resource which shall be recognized and interpreted for the benefit of the citizens.

GOAL 2. HISTORICAL, ARCHAEOLOGICAL, AND PALEONTOLOGICAL RESOURCES

CONSISTENT WITH THE FUTURE LAND USE, HOUSING, CULTURAL AFFAIRS AND HISTORICAL RESOURCES, AND RECREATION AND OPEN SPACE PARKS AND RECREATION ELEMENTS, THE CITY SHALL PROTECT AND PRESERVE HISTORICAL, ARCHAEOLOGICAL, AND PALEONTOLOGICAL RESOURCES.

OBJECTIVE 2.1. HISTORIC OVERLAY DISTRICT

The City shall consider the creation of additional historic overlay districts to protect significant historical areas.

POLICY 2.1.1.

District Regulations contained in Chapter 3, Article VI of the Land Development Code shall be maintained and periodically reviewed in order to protect the character of existing properties and to prevent negative impacts from new development.

POLICY 2.1.2.

The Planning Department shall perform a detailed survey to identify the predominant architectural features, colors, and materials of any area targeted for the designation.

POLICY 2.1.3.

A setback policy shall be maintained for those properties located on the west side of North and South Beach Street which shall not be less than the average building setback of all existing single-family dwelling units within 300 feet of either side of the proposed single-family dwelling unit.

POLICY 2.1.4.

The City shall consider the addition of streetscape elements such as pavers, streetlamps, street signs, and historical markers, that would project a common theme for each historic district.

POLICY 2.1.5.

The City shall consider, ~~on an ongoing basis~~ when supported by property owners in the area, the feasibility of historic districts in other areas of the City.

OBJECTIVE 2.2. PROTECTION OF HISTORICAL, ARCHAEOLOGICAL, AND PALEONTOLOGICAL RESOURCES

Development activities shall protect significant historical, archaeological, and paleontological resources to the extent practicable and in the public interest. When no other practicable alternative exists to the proposed development activity, appropriate management and mitigation plans shall be prepared and implemented by the applicant for such development activity.

POLICY 2.2.1.

Coordination shall be maintained with the Florida Division of Historical Resources, for review of development activities in potentially significant historical, archaeological, and paleontological areas. If the State determines that an area is potentially significant, an archaeological or historical survey shall be prepared by the applicant prior to development approval and in accordance with criteria established and recommended by the Florida Division of Historical Resources.

POLICY 2.2.2.

All capital improvement projects shall be devised and implemented in a manner sufficient to protect and preserve significant historical, archaeological, and paleontological resources.

POLICY 2.2.3.

The City shall maintain and periodically review the standards, regulations, and guidelines for the protection of historical, archaeological, and paleontological resources contained within the Land Development Code.

POLICY 2.2.4.

Implement historical preservation regulations in support of the Historic Landmark Preservation Board in accordance with the Historic Districts and Landmarks section of the City's Land Development Code.

POLICY 2.2.5.

Work with the State to continuously update the existing Florida Master Site File information as appropriate. Said update, as is economically feasible, may be undertaken in its entirety, or in increments in accordance with the applicable grant application cycles.

PUBLIC SCHOOL FACILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

PUBLIC SCHOOL FACILITIES ELEMENT GOALS, OBJECTIVES AND POLICIES

GOAL 1. COLLABORATION

COLLABORATE AND COORDINATE WITH THE SCHOOL BOARD OF VOLUSIA COUNTY TO PROVIDE AND MAINTAIN A PUBLIC EDUCATION SYSTEM WHICH MEETS THE NEEDS OF VOLUSIA COUNTY'S CURRENT AND FUTURE POPULATION.

OBJECTIVE 1.1. COORDINATION AND CONSISTENCY

The City of Ormond Beach shall implement and maintain mechanisms designed to coordinate with the School Board to provide consistency between local government comprehensive plans and public school facilities and programs.

POLICY 1.1.1.

Pursuant to the procedures and requirements of the adopted interlocal agreement, the City of Ormond Beach shall coordinate with the School Board on growth and development trends, general population and student projections to ensure that the plans of the School Board and the City of Ormond Beach are based on consistent data.

POLICY 1.1.2.

The City of Ormond Beach shall provide the representative of the School Board with copies of all meeting agendas and staff reports.

POLICY 1.1.3.

The City of Ormond Beach shall meet at least annually with representatives from the School District Board and the other local governments in Volusia County to review the Public School Facilities Element, including enrollment projects. The timing and content of these meetings shall be done according to the requirements and procedures set forth in the adopted interlocal agreement.

OBJECTIVE 1.2. SCHOOL FACILITY SITING AND AVAILABILITY

The City of Ormond Beach shall coordinate with the School Board on the planning and siting of new public schools and ancillary facilities to ensure school facilities are coordinated with necessary services and infrastructure and are compatible and consistent with the e Comprehensive p-Plan.

PUBLIC SCHOOL FACILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 1.2.1.

The City of Ormond Beach shall coordinate with the School Board to assure that proposed public school facility sites are consistent with the applicable land use categories and policies of the ~~e~~Comprehensive ~~p~~Plan. Schools shall be permitted in all future land use classifications except for the Industrial, Recreation/Open Space, and Open Space/Conservation land use classifications.

POLICY 1.2.2.

Coordination of the location, acquisition, phasing, and development of future school sites and ancillary facilities shall be accomplished through the procedures adopted in the interlocal agreement.

POLICY 1.2.3.

The City of Ormond Beach and the School Board will jointly determine the need for and timing of on-site and off-site improvements necessary to support each new school or the proposed renovation, expansion or closure of an existing school. If deemed necessary, the parties may enter into a written agreement as to the timing, location, and party or parties responsible for constructing, operating and maintaining the required improvements.

POLICY 1.2.4.

The City of Ormond Beach shall encourage the School Board to land bank sites for future use as school facilities. The City of Ormond Beach shall coordinate with the School Board on the acquisition and use of land banked sites in the same manner as established for other sites in order to ensure adequate infrastructure is planned and constructed in advance of school construction.

POLICY 1.2.5.

The City of Ormond Beach shall protect schools and land banked school sites from the adverse impact of incompatible land uses by providing the School ~~District~~ Board with the opportunity to participate in the review process for all proposed development adjacent to schools.

POLICY 1.2.6.

In developing capital improvements plans and programs for public services, the City of Ormond Beach shall consider required infrastructure to service existing and proposed schools and any land banked school sites.

OBJECTIVE 1.3. ENHANCE COMMUNITY DESIGN

The City of Ormond Beach shall enhance community and neighborhood design through effective school facility design and siting standards and encourage the siting of school facilities that serve as community focal points and are compatible with surrounding land uses.

POLICY 1.3.1.

The City of Ormond Beach shall coordinate with the School Board on opportunities for the expansion and rehabilitation of existing schools so as to support neighborhoods and redevelopment.

POLICY 1.3.2.

The City of Ormond Beach shall collaborate with the School Board on the siting of public facilities such as parks, libraries, and community centers near existing or planned public schools, to the extent feasible.

POLICY 1.3.3.

The City of Ormond Beach shall look for opportunities to co-locate and share the use of public facilities when preparing updates to the Comprehensive Plan's Schedule of Capital Improvements and when planning and designing new or renovating existing, community facilities. Co-located facilities shall be governed by a written agreement between the School Board and the City of Ormond Beach specifying operating procedures and maintenance and operating responsibilities.

POLICY 1.3.4.

The City of Ormond Beach shall reduce hazardous walking conditions consistent with Florida's Safe Ways to School Program. In conjunction with the School Board, the City of Ormond Beach shall implement the following strategies:

1. New developments adjacent to schools shall be required to provide a right-of-way and direct safe access path for pedestrian travel to existing and planned schools, and shall connect to the neighborhood's pedestrian network.
2. New development and redevelopment within two miles of a school shall be required to provide sidewalks within or adjacent to the property for the corridor that directly serves the school or qualifies as an acceptable designated walk or bicycle route to the school.
3. In order to ensure continuous pedestrian access to public schools, the City of Ormond Beach shall consider infill sidewalk and bicycle projects connecting networks serving schools as part of the annual capital budget process. Priority shall be given to hazardous walking conditions pursuant to Section 1006.23, Florida Statutes.

PUBLIC SCHOOL FACILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

4. The City of Ormond Beach shall coordinate with the Metropolitan Transportation Planning Organization to maximize the funding from the Florida Department of Transportation and other sources that may be devoted to improving pedestrian networks serving schools.

POLICY 1.3.5.

The City of Ormond Beach and the School Board shall coordinate with Volusia County Emergency Services on efforts to build new school facilities, and facility rehabilitation and expansion, to be designed to serve as and provide emergency shelters as required by Section 1013.372, Florida Statutes.

OBJECTIVE 1.4. COORDINATE COMPREHENSIVE PLAN AMENDMENTS AND DEVELOPMENT ORDERS WITH SCHOOL CAPACITY

Manage the timing of new development to coordinate with adequate school capacity as determined by the Volusia County School District Board.

POLICY 1.4.1.

The City of Ormond Beach shall take into consideration the School Board comments and findings on the availability of adequate school capacity in the evaluation of e Comprehensive p-Plan amendments and other land use decisions, including but not limited to, developments of regional impact. School Board review shall follow the policies and procedures set forth in the interlocal agreement.

POLICY 1.4.2.

Amendments to the future land use map shall be coordinated with the School Board and the Public School Facilities Planning Maps.

POLICY 1.4.3.

Where capacity will not be available to serve students from the property seeking a land use change or other land use determination that increases residential density, the City of Ormond Beach shall not approve the proposed land use change until such time as the School Board can find that adequate public schools can be timely planned and constructed to serve the student population or that the applicant has provided adequate mitigation to offset the inadequacies in anticipated school capacity.

GOAL 2. IMPLEMENT PUBLIC SCHOOL CONCURRENCY

THE CITY OF ORMOND BEACH SHALL ASSURE THE FUTURE AVAILABILITY OF PUBLIC SCHOOL FACILITIES TO SERVE NEW DEVELOPMENT CONSISTENT WITH THE ADOPTED ~~LEVEL-OF-SERVICE~~ STANDARDS. THIS GOAL WILL BE ACCOMPLISHED RECOGNIZING THE SCHOOL DISTRICT BOARD'S STATUTORY AND CONSTITUTIONAL RESPONSIBILITY TO PROVIDE A UNIFORM SYSTEM OF FREE AND ADEQUATE PUBLIC SCHOOLS AND THE CITY OF ORMOND BEACH'S AUTHORITY FOR LAND USE, INCLUDING THE AUTHORITY TO APPROVE OR DENY COMPREHENSIVE PLAN AMENDMENTS, RE-ZONINGS OR OTHER DEVELOPMENT ORDERS THAT GENERATE STUDENTS AND IMPACT THE PUBLIC SCHOOL SYSTEM. THE CITY OF ORMOND BEACH SHALL OPERATE AND MAINTAIN IN A TIMELY AND EFFICIENT MANNER, ADEQUATE PUBLIC FACILITIES FOR BOTH EXISTING AND FUTURE POPULATIONS CONSISTENT WITH THE AVAILABLE FINANCIAL RESOURCES.

OBJECTIVE 2.1. LEVEL-OF-SERVICE STANDARDS

The City of Ormond Beach, through coordinated planning with the School ~~District-Board~~ and implementation of its concurrency management system, shall ensure that the capacity of schools is sufficient to support residential subdivisions and site plans at the adopted ~~level-of-service~~ standard within the period covered by the five-year schedule of capital improvements. These standards and the concurrency management system shall be consistent with the interlocal agreement approved by the School Board and the local governments in Volusia County.

POLICY 2.1.1.

The level-of-service (~~LOS~~) standards for schools shall be applied consistently by all the local governments in Volusia County and by the School Board district-wide to all schools of the same type.

POLICY 2.1.2.

Consistent with the interlocal agreement, the uniform, district-wide, level-of-service standards are set as follows using Florida Inventory of School Houses (FISH) capacity based on the traditional school calendar:

1. Elementary Schools: 115% of permanent FISH capacity for the concurrency service area;
2. K-8 Schools: 115% of permanent FISH capacity for the concurrency service area;
3. Middle Schools: 115% of permanent FISH capacity for the concurrency service area;

PUBLIC SCHOOL FACILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

4. High Schools: 120% of permanent FISH capacity for the concurrency service area; and
5. Special Purpose Schools: 100% of permanent FISH capacity.

~~POLICY 2.1.3.~~

The following schools shall achieve the adopted level of service no later than the identified date. The level of service presented in the following table is the tiered level of service that shall apply to that school unit for the date noted in the table.

School	LOS	DATE
Orange City Elementary	117%	July 1, 2012
Horizon Elementary	158%	July 1, 2012
Freedom Elementary	126%	July 1, 2012
Osceola Elementary	117%	July 1, 2012
Ortona Elementary	150%	July 1, 2012
Ormond Beach Elementary	116%	July 1, 2012
Southwestern Middle	120%	July 1, 2013
New Smyrna Beach Middle	122%	July 1, 2014

(Note: This policy designates a tiered LOS for those schools that exceed the desired levels at the end of the five-year capital improvements program.)

~~POLICY 2.1.4.~~ POLICY 2.1.3.

The following schools shall be considered constrained schools at the designated level-of-service LOS due to the inability to add capacity at the site and the nature of the communities they serve. Concurrency will be reviewed in the adjacent concurrency service areas and requests to increase residential densities in the constrained concurrency service areas will need to be accompanied by a plan to address school capacity.

School	<u>LOS Level-of-Service</u>
Burns-Oak Hill Elementary	115%
Coronado Elementary	115%
Samsula Elementary	165%

Source: Volusia County Interlocal Agreement

~~POLICY 2.1.5.~~ POLICY 2.1.4.

The City of Ormond Beach and the School Board recognize and agree that short-term changes in enrollment, unrelated to new development approvals, can and do occur, and that students enrolling in their assigned school will be accepted consistent with the School District Board's constitutional obligations regardless of the utilization levels at the assigned school.

PUBLIC SCHOOL FACILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

~~POLICY 2.1.6.~~ POLICY 2.1.5.

If there is a consensus to amend any level-of-service, the amendment shall be accomplished by execution of an amendment to the interlocal agreement by all parties and the adoption of amendments to each local government's Comprehensive Plan. The amended level-of-service shall not be effective until all plan amendments are effective and the amended interlocal agreement is fully executed. No level-of-service standard shall be amended without showing that the amended level-of-service standard is financially feasible and can be achieved and maintained within the facilities five-year work plan. ~~five years of the capital facilities plan.~~

OBJECTIVE 2.2. SCHOOL CONCURRENCY SERVICE AREAS

The City of Ormond Beach shall establish School Concurrency Service Areas as the area within which an evaluation is made of whether adequate school capacity is available based on the adopted level-of-service standard. Maps of the School Concurrency Service Areas are adopted in the Volusia County Interlocal Agreement for Public School Facilities Planning.

POLICY 2.2.1.

The concurrency service area for elementary schools shall be the elementary school attendance boundary as represented on the map series "Public School Facilities Element Elementary School Concurrency Service Areas" adopted as part of the Volusia County Comprehensive Plan and which is incorporated herein by reference.

POLICY 2.2.2.

The concurrency service area for middle schools shall be the middle school attendance boundary as represented on the map series "Public School Facilities Element Middle School Concurrency Service Areas" adopted as part of the Volusia County Comprehensive Plan and which is incorporated herein by reference.

POLICY 2.2.3.

The concurrency service area for K-8 schools shall be the attendance boundary as represented on the map series "Public School Facilities Element K-8 Concurrency Service Areas" adopted as part of the Volusia County Comprehensive Plan and which is incorporated herein by reference. ~~(Note: no K-8 schools have been established at this time.)~~

POLICY 2.2.4.

The concurrency service area for high schools shall be as represented on the map series "Public School Facilities Element High School Concurrency Service Areas" adopted as

PUBLIC SCHOOL FACILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

part of the Volusia County Comprehensive Plan and which is incorporated herein by reference.

POLICY 2.2.5.

The concurrency service area for special use schools shall be district wide.

POLICY 2.2.6.

The concurrency service area maps designate three areas where school capacity is not anticipated for the planning period.

POLICY 2.2.7.

Amendments to the School Concurrency Service Areas shall be completed according to the procedures specified in the Volusia County Interlocal Agreement for School Facilities Planning. Amendments to concurrency service areas shall consider the following criteria:

1. Adopted level-of-service standards shall not exceed the level-of-service standard within the initial five-year planning period.
2. The utilization of school capacity is maximized to the greatest extent possible taking into account transportation costs, court approved desegregation plans, proximity to schools, ethnic and socio-economic diversity, subdivisions and neighborhoods, demographic changes, future land development patterns, crossing guard availability and other relevant factors.

POLICY 2.2.8.

Within the central concurrency service areas, all current and future students shall be assigned to schools designated for them as part of the School ~~District~~ Board's normal school assignment procedures. Requests for development orders for new development consistent with the future land use designations and existing residential zoning densities shall be evaluated for concurrency based on the assigned school and that school's concurrency service area. If adequate capacity is not available in the assigned concurrency service area, the proposed development shall be evaluated in comparison to the concurrency service areas adjacent to the assigned concurrency service area, subject to the limitations of Policy 2.3.7. of this Element. The School ~~district~~ Board shall maintain a listing of assigned and adjacent concurrency service areas for each central school concurrency service area.

POLICY 2.2.9.

Requests to develop properties within the central school concurrency service areas at residential densities and intensities greater than the current land use or zoning designations shall be done via a ~~e-Comprehensive p-Plan a-Amendment~~ consistent with the Volusia County Charter ~~Section 206~~ regarding school planning. The ~~e-Comprehensive p-Plan a~~

PUBLIC SCHOOL FACILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

Amendment shall demonstrate how school capacity will be met consistent with the terms of the First Amendment to the Interlocal Agreement for Public School Facility Planning effective July 2007 and ~~Section 206 of the Volusia County Charter~~ Section 206. If the project area is to be annexed by a municipality, the ~~e-Comprehensive p-Plan a-Amendment~~ shall include an amendment of the central concurrency service area boundary by Volusia County to exclude the subject parcel.

OBJECTIVE 2.3. PROCESS FOR SCHOOL CONCURRENCY IMPLEMENTATION

In coordination with the School Board, the City of Ormond Beach will establish a process for implementation of school concurrency which includes applicability and capacity determination, availability standards and school capacity methods. The City of Ormond Beach shall manage the timing of residential subdivision approvals and site plans to ensure adequate school capacity is available consistent with the adopted level-of-service standards for public schools.

POLICY 2.3.1.

School concurrency applies to residential development not otherwise exempt as specified by Policy 2.3.3. of this Element.

POLICY 2.3.2.

Development orders may be issued for residential development where:

1. Adequate school capacity, as determined by the School Board, exists or will be under construction for each level of school in the affected concurrency service area within three years after the issuance of the development order allowing the residential development.
2. Adequate school facilities, as determined by the School Board, are available within an adjacent concurrency service area subject to the limitations of Policy 2.3.7. of this Element. Where capacity from an adjacent concurrency service area or areas is utilized, the impacts of development shall be shifted to that area. If capacity exists in more than one concurrency service area or school within a concurrency service area, the School ~~District~~ Board shall determine where the impacts of development shall be allocated based on the School ~~District~~ Board policies for student assignment.
3. The developer executes a legally binding commitment with the School Board and the City of Ormond Beach to provide mitigation proportionate to the demand for public school facilities to be created by the actual development of the property as provided by Objective 2.4. of this Element and its supporting policies.

POLICY 2.3.3.

PUBLIC SCHOOL FACILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

The following residential development shall be considered exempt from the school concurrency requirements:

1. Single-family lots-of-record existing as such at the time School Concurrency implementing ordinance is adopted which otherwise would be entitled to build, shall be exempt from School Concurrency requirements.
2. Any residential development or any other development with a residential component that received approval of a Final Development Order or functional equivalent or is otherwise vested prior to the implementation date of school concurrency is considered vested for that component which was previously approved for construction and shall not be considered as proposed new residential development for purposes of school concurrency.
3. Amendments to residential development approvals which do not increase the number of students generated by the development based on the student generation rates for each school type as determined by the School ~~District~~ Board.
4. Age restricted developments that are subject to deed restrictions prohibiting the permanent occupancy by a resident under the age of fifty-five. Such deed restrictions must be recorded and be irrevocable for a period of at least thirty years.
5. Group quarters that do not generate students including residential facilities such as jails, prisons, hospitals, bed and breakfast, hotels and motels, temporary emergency shelters for the homeless, adult halfway houses, firehouse dorms, college dorms exclusive of married student housing, and religious non-youth facilities.

POLICY 2.3.4.

The creation of subdivisions and/or single-family lots equal to or less than ten units shall be subject to school concurrency as part of an annual concurrency management review or provide a letter of exemption from the School Board. The City of Ormond Beach shall report such projects to the School Board as part of the annual planning coordination process established by the interlocal agreement and these units shall be included by the School Board in planning student allocations by school.

POLICY 2.3.5.

The City of Ormond Beach shall continue to implement the school concurrency ordinance (Ord. ~~2-8-3~~ 2008-25), which establishes the application procedures and process for evaluating school capacity and making concurrency determinations consistent with the provisions of the interlocal agreement.

POLICY 2.3.6.

The School Board shall conduct a concurrency review that includes findings and recommendations of whether there is adequate capacity to accommodate proposed

PUBLIC SCHOOL FACILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

development for each type of school within the affected concurrency service area consistent with the adopted level_of_service. The School Board may issue a certificate of school concurrency if sufficient capacity exists for the proposed development or the School Board may set forth conditions required to satisfy the requirements of school concurrency including proportionate share mitigation.

POLICY 2.3.7.

If the adopted level_of_service standard cannot be met within a particular concurrency service area as applied to an application for development order and if the needed capacity is available in one or more contiguous concurrency service areas, then this capacity shall be applied to the concurrency evaluation of the application for development approval subject to the following limitations:

1. Areas established for diversity at schools shall not be considered contiguous.
2. Concurrency service areas generating excessive transportation costs shall not be considered contiguous. Excessive transportation costs are defined as transporting students, requiring a transport time of fifty minutes one-way as determined by School ~~District~~ Board transportation routing staff.
3. Concurrency service areas shall not be considered contiguous when the concurrency service areas are separated by a natural or man-made barrier such as a river, waterbody or interstate highway that requires indirect transport of students through a third concurrency service area. (~~Refer to graphic examples.~~)
4. When capacity in an adjacent concurrency service area is allocated to a development application, assignment of the students to the school with available capacity may be accomplished by applying any of the techniques used to establish school attendance zones, including modification of existing attendance zone boundaries or creation of island zones.
5. Student transportation not in conformance with the conditions established in Items 1 through 4 above shall be permitted to allow student assignments based on specific educational programming options; to comply with State and Federal mandatory transfer opportunities; or for other transfer opportunities that the School Board shall deem appropriate for the specific circumstances of an individual student.

POLICY 2.3.8.

If the adopted level of service cannot be met within a particular concurrency service area the School Board may apply one or more of the following techniques to maximize use of available capacity and provide for adequate numbers of student stations to meet current and future demand:

1. Construct new school facilities;
2. Construct additions to current facilities;

3. Adjust program assignments to schools with available capacity;
4. Modify attendance boundaries to assign students to schools with available capacity;
5. Eliminate variances to overcrowded facilities that are not otherwise restricted by State or Federal requirements.

OBJECTIVE 2.4. PROPORTIONATE SHARE MITIGATION

The City of Ormond Beach shall provide for mitigation alternatives that are financially feasible and will achieve and maintain the adopted level-of-service standard consistent with the School Board's adopted financially feasible work program.

POLICY 2.4.1.

In the event that sufficient school capacity is not available in the affected concurrency service area, the developer shall have the option to propose proportionate share mitigation to address the impacts of the proposed development.

POLICY 2.4.2.

Mitigation shall be directed toward a permanent capacity improvement identified in the School Board's financially feasible work program, which satisfies the demands created by the proposed development consistent with the adopted level-of-service standards.

POLICY 2.4.3.

Mitigation shall be directed to projects on the School Board's financially feasible work program that the School Board agrees will satisfy the demand created by the proposed development approval and shall be assured by a legally binding development agreement between the School Board, the City of Ormond Beach, and the applicant which shall be executed prior to the City of Ormond Beach issuance of the subdivision or site plan approval. If the School Board agrees to the mitigation, the School Board shall commit in the agreement to placing the improvement required for mitigation in its work plan.

POLICY 2.4.4.

The applicant's total proportionate share obligation shall be based on multiplying the number of needed student stations generated from the proposed project times the School Board's current cost per student station plus land cost for each type of school. The applicant's proportionate share mitigation obligation shall be credited toward any impact fee or exaction fee imposed by local ordinance for the same need on a dollar for dollar basis. (For example, if the proportionate share mitigation provides only for land, the credit is applied only against that portion of the impact fee or other exaction devoted to land costs.)

PUBLIC SCHOOL FACILITIES ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 2.4.5.

The student generation rates used to determine the impact of a particular development shall be the student generation rates adopted in the most recent school impact fee study.

POLICY 2.4.6.

The cost per student station shall be the most recent actual costs per student station, and capitalization costs if applicable, paid by the School Board for the equivalent school facility.

POLICY 2.4.7.

Mitigation options must consider the School Board's educational delivery methods and requirements and the State Requirements for Educational Facilities and may include, but not be limited to, the following:

1. Donation of buildings for use as a primary or alternative learning facility;
2. Renovation of existing buildings for use as learning facilities;
3. Funding dedicated to, or construction of, permanent student stations or core capacity;
4. For schools contained in the School Board's adopted five-year capital facilities work program, upon agreement with the School Board, the applicant may build the school in advance of the time set forth in the five-year work program;
5. Dedication of a school site as approved by the School Board;
6. Up front lump sum payment of school impact fees;
7. Up-front payment of interest and other costs of borrowing;
8. Payment of off-site infrastructure expenses including but not limited to roads, water, and/or sewer improvements;
9. Payment of transportation costs associated with the movement of students as a result of overcapacity school;
10. Funding assistance with acquisition of school site;
11. Phasing of construction or delay of construction in order to timely plan for the availability of school capacity;
12. Establishment of an educational facilities benefit district;
13. Establishment of educational facilities mitigation banks.

OBJECTIVE 2.5. CAPITAL FACILITIES PLANNING

The City of Ormond Beach shall ensure existing deficiencies and future needs are addressed consistent with the adopted level-of-service standards for schools.

POLICY 2.5.1.

In accordance with the adopted interlocal agreement, the City of Ormond Beach shall collaborate with the School Board in locating required school sites as identified in the School Board's five, ten and twenty-year capital facilities plan.

POLICY 2.5.2.

The City of Ormond Beach shall ensure that future development pays a proportionate share of the costs of capital facilities capacity needed to accommodate new development and to assist in maintaining the adopted level-of-service standards via impact fees and other legally available and appropriate methods.

POLICY 2.5.3.

The City of Ormond Beach adopts by reference the School Board's five-year work program approved annually each September as part of the overall School ~~District~~ Board budget. The City of Ormond Beach shall review the annual work program to verify that it is financially feasible and will maintain the level-of-service standards by the end of the five-year period.

TABLE OF CONTENTS

GOAL 1. PRIVATE PROPERTY RIGHTS.....2
OBJECTIVE 1.1. PRIVATE PROPERTY RIGHTS AND DECISION-MAKING2

PROPERTY RIGHTS ELEMENT GOALS, OBJECTIVES AND POLICIES

GOAL 1. PRIVATE PROPERTY RIGHTS

TO RESPECT JUDICIALLY ACKNOWLEDGED AND CONSTITUTIONALLY PROTECTED PRIVATE PROPERTY RIGHTS.

OBJECTIVE 1.1. PRIVATE PROPERTY RIGHTS AND DECISION-MAKING

The following policies are to ensure that private property rights shall be considered in local decision-making.

POLICY 1.1.1.

The City will consider in its decision-making, the right of a property owner to physically possess and control his or her interests in the property, including easements, leases, or mineral rights.

POLICY 1.1.2.

The City will consider in its decision-making, the right of the property owner to use, maintain, develop, and improve his or her property for personal use or for the use of any person, subject to state law and local ordinances.

POLICY 1.1.3.

The City will consider in its decision-making the right of the property owner to privacy and to exclude others from the property to protect the owner's possessions and property.

POLICY 1.1.4.

The City will consider in its decision-making the right of the property owner to dispose of his or her property through sale or gift.

PLANNING BOARD STAFF REPORT

Comprehensive Plan 2045 Update,
Evaluation and Appraisal Report **Re-adoption**
Project Number: PZ-2024-084

New text highlighted from the March 13th report

PLANNING BOARD DATE:	November 13, 2025
TENTATIVE CITY COMMISSION DATES:	December 2, 2025 (first reading) December 16, 2025 (second reading)
APPLICANT:	Administrative
REQUEST:	An administrative request for Comprehensive Plan amendments related to the Evaluation and Appraisal Report, also known as the Comprehensive Plan 2045 update. There are Comprehensive Plan amendments to the following Elements: Plan Administration, Future Land Use, Transportation, Utilities, Conservation, Coastal Management, Housing, Recreation and Open Space, Capital Improvements, Intergovernmental Coordination, Cultural and Historical Resources, Public School Facilities, and Property Rights. These amendments were adopted with Ormond Beach ordinance 2025-17 and are being readopted in response to comments from FloridaCommerce.
STAFF RECOMMENDATION:	Approval
STAFF CONTACT:	Steven Spraker, AICP, Planning Director Noel Eaton, Senior Planner Sarah Motes, Senior Planner

SECTION 1, INTRODUCTION:

This is an administrative request for Comprehensive Plan amendments related to the Evaluation and Appraisal Report, also known as the Comprehensive Plan 2045 update. There are Comprehensive Plan amendments to the following Elements: Plan Administration, Future Land Use, Transportation, Utilities, Conservation, Coastal Management, Housing, Recreation and Open Space, Capital Improvements, Intergovernmental Coordination, Cultural and Historical Resources, Public School Facilities, and Property Rights. These amendments were adopted with Ormond Beach ordinance 2025-17 and will need to be rescinded and readopted in response to comments from FloridaCommerce. The changes from the adopted ordinance 2025-17 are:

1. Policy 1.6.4. of the Transportation Element – deleted subsection (d).

2. Policy 1.1.9. of the Housing Element – delete and renumber, as necessary.

On October 17, 2025, FloridaCommerce identified Policy 1.6.4. of the Transportation Element, as more restrictive and burdensome, and Policy 1.1.9 of the Housing Element, as potentially more restrictive and burdensome, and provided a letter stating that the City of Ormond Beach Comprehensive Plan amendments were "null and void". This review was conducted after the Ormond Beach adoption, based on Senate Bill 180. The staff report, data, analysis, and exhibits are the same as previously adopted, except for the two policies identified by FloridaCommerce. Modified text within this staff report is highlighted. This item intends rescind ordinance 2025-17 and readopt the Comprehensive Plan amendments, addressing the FloridaCommerce's two comments that caused the Comprehensive Plan amendments to be deemed null and void.

SECTION 2, BACKGROUND:

Section 163.3191 of the Florida Statutes states,

“At least once every 7 years, each local government shall evaluate its comprehensive plan to determine if plan amendments are necessary to reflect a minimum planning period of at least 10 years as provided in s. 163.3177(5) or to reflect changes in state requirements in this part since the last update of the comprehensive plan, and notify the state land planning agency as to its determination. The notification must include a separate affidavit, signed by the chair of the governing body of the county or the mayor of the municipality, attesting that all elements of its comprehensive plan comply with this subsection. The affidavit must also include a certification that the adopted comprehensive plan contains the minimum planning period of 10 years, as provided in s. 163.3177(5), and must cite the source and date of the population projections used in establishing the 10-year planning period.”

Ormond Beach last conducted an Evaluation and Appraisal Report in 2010. The purpose of the Evaluation and Appraisal Report analysis is to:

1. Ensure compliance with State Statutes;
2. Identify areas within the plan that need updates; and
3. Incorporate changing conditions of a city into the plan.

A Comprehensive Plan has the following characteristics:

1. A state-required policy plan designed to guide the future growth and public infrastructure investment within Ormond Beach;
2. Living and evolving documents written for a long-term outlook, typically 20 years;
3. The plan provides Goals, Objectives, and Policies that direct where development, redevelopment, and preservation within the city should occur, as well as public capital investments; and
4. A vision and blueprint as to what a city desires to become in the future.

Ordinance 2025-17 was transmitted to Volusia County Growth Management Commission and state agencies, and the following actions occurred:

1. On May 27, 2025, the Volusia Growth Management Commission issued a Certificate of Consistency with no objections from any other governmental entity.
2. On June 23, 2025, the city received the FloridaCommerce review letter. The review letter noted one comment (not an objection) from the Department of Environmental Protection regarding the conversion of a septic system to central sanitary sewer service. During the review process, St. Johns River Water Management District staff requested that Policy 5.1.19 of the Utilities Element not be deleted.
3. On August 19, 2025, ordinance 2025-17 was adopted by the City Commission. Within the adoption packet was a summary of the amendments, including how staff addressed the Department of Environmental Protection's comment and the St. Johns River Water Management District's request.
4. On September 2, 2025, FloridaCommerce provided a letter stating that the amendment package appears to be complete and that a Notice of Intent was due on October 17, 2025.
5. On October 17, 2025, FloridaCommerce issued the null and void letter identifying Policy 1.6.4. of the Transportation Element was more restrictive and burdensome based off Senate Bill 180 and Policy 1.1.9. of the Housing Element as potentially more restrictive and burdensome based on Senate Bill 180.

The Comprehensive Plan 2045 amendments were adopted with Ormond Beach ordinance 2025-17. The purpose of this item is to rescind ordinance 2025-17 and readopt the amendments based upon comments from FloridaCommerce. The changes from the adopted ordinance 2025-17 are:

1. Policy 1.6.4. of the Transportation Element – delete subsection (d).
2. Policy 1.1.9. of the Housing Element – delete policy 1.1.9. and renumber, as necessary.

Transportation Element

POLICY 1.6.4.

~~Where d Development proposals that are consistent with the City's Future Land Use Map (FLUM) in terms of both land use type and density or intensity and located along the Multi-Modal Corridors where current and projected 2017 level-of-service standards are currently met, shall implement the following strategies will be implemented:~~

- a) Access management;
- b) Bike facilities; and
- c) Sidewalk connectivity.

This subsection is proposed to be deleted

~~d) On or off site transit facility improvements as recommended by Votran.~~

Housing Element

Policy 1.1.9. of ordinance 2025-17 is proposed to be deleted in its entirety and the other policies will be renumbered as necessary:

POLICY 1.1.9.

~~The city shall maintain and consistently review the permitting process that facilitates the private sector housing production.~~

POLICY 1.1.9.

Mobile and manufactured housing shall be permitted within the Land Development Code through the zoning regulations.

POLICY 1.1.10.

The Land Development Code shall continue to allow accessory dwelling units within single-family zoning classifications.

POLICY 1.1.11.

The city shall establish partnerships with private and public non-profit groups, private developers, and other affordable housing providers.

POLICY 1.1.12.

Assisted living facilities shall be allowed in commercial and residential zoning districts within the Land Development Code.

SECTION 3, COMPREHENSIVE PLAN 2045 UPDATE PROCESS:

The Comprehensive Plan 2045 update is divided into four phases as follows:

1. Introduction: The introduction phase included the following:
 - Creation of a project webpage, <https://www.ormondbeach.org/1057/Comprehensive-Plan-2045-Update>;
 - Development and advertising of a community survey;
 - August 8, 2024, Planning Board discussion item;
 - August 20, 2024, City Commission disposition item; and
 - August 26, 2024, Community Engagement Meeting. This meeting included twelve stations detailing the individual elements and an input board. There were 75 attendees at this meeting.
2. Element Review and Analysis: This phase included a review of each Element in a matrix format as well as a summary of the development trends from 2010 to 2024. The Planning Board was utilized as an entity to review changes, and other advisory Boards were presented Elements that pertained to their Board's purpose. The Comprehensive Plan 2045 update was reviewed at the following advisory board meetings:

- Leisure Services Advisory Board, September 11, 2024;
- Planning Board, September 12, 2024;
- Historic Landmark Preservation Board, September 16, 2024;
- Planning Board, October 29, 2024;
- Planning Board, November 11, 2024;
- Quality of Life Advisory Board, December 5, 2024;
- Planning Board, December 12, 2024;
- Historic Landmark Preservation Board, December 16, 2024; and
- Leisure Services Advisory Board, February 12, 2025.

All review information was posted to the project webpage. In addition to the Board review, City staff received 373 questions regarding the Comprehensive Plan update which were answered, and interdepartmental discussions occurred to review these answers. The questions were also posted to the project webpage.

3. Plan Amendments: This phase included the ~~strike through~~ (deleted text) and underline (added text) for each Element. The following meetings have or are scheduled to occur:

- + January 16, 2025, Community Engagement Meeting;
- + February 4, 2025, City Commission Workshop;
- + February 13, 2025, Planning Board discussion;
- + March 13, 2025, Planning Board public hearing;
- + April 15, 2025, City Commission public hearing (transmittal); and
- + August 19, 2025, City Commission adoption of ordinance 2025-17.

4. Transmittal to state agencies and local governments and adoption: If the Comprehensive Plan amendments for transmittal at first reading, the following actions would occur:

- ❖ State agencies – Planning staff would transmit the proposed amendments to the appropriate state agencies;
- ❖ Volusia Growth Management Commission – within Volusia County, amendments to the Comprehensive Plan are provided to abutting jurisdictions and the Volusia Growth Management Commission for review and provision of comments;
- ❖ City Commission, second reading (date to be determined) – before scheduling the item for a second reading, city staff would seek to resolve any outstanding comments from the state review or Volusia Growth Management Commission review. The second reading would be the city's final action.
- ❖ FloridaCommerce – the adopted ordinance must be sent to the FloridaCommerce for state acceptance.

The revised ordinance would be transmitted to FloridaCommerce after rescinding ordinance 2025-17 and the readoption of the amendments by the City Commission.

SECTION 4, DATA AND ANALYSIS:

Separate of the Element amendments, the following Attachments are provided as data and analysis to the Comprehensive Plan amendments:

Element summaries: These are one-page summaries of each Element that include a summary sentence of the Element, Board review dates, and key updates.

Review matrix: Each Element has a matrix of the proposed changes, any applicable state statute reference, and an explanation of the proposed changes.

PowerPoint summary: A PowerPoint summary has been used throughout the update process.

Population projections: Population projections are required as part of the update. The 1990 Comprehensive Plan projected a 2010 population of **56,250**. In 2000, the population projection was **51,079** for the year 2025. As part of the population update staff reviewed the following:

1. Population growth: The total percentage change from the 2010 census is 17.83%, or an average yearly growth rate of 1.27%.
2. Development entitlements. There are 6,211 residential units that are within the development process.
3. General growth rate. A general growth rate of 0.5% to include general population shifts and residential development projects not including residential units in the current development process.
4. Volusia County population growth. In 2020, Ormond Beach's population was 7.78% of Volusia County's population. In 2045, Ormond Beach is expected to be approximately 9.14% of the Volusia County total population.

The population projection is as follows:

Exhibit 1: Population Projections

Year	Population Projection
2025	46,255
2030	50,773
2035	55,238
2040	58,986
2045	63,542

Development Activity: The update process includes summaries of development activity. Key highlights include:

- Annexation: There were 68 properties annexed since 2010, totaling 1,682.71 acres with 66% of all annexation occurring in the North US 1 corridor.
- Development projects: A list of projects is provided below:

Exhibit 2: Development Activity

Type of Use	2010-2019, Number of Projects	2010-2019 Square Feet or Units	2020-2024, Number of Projects	2020-2024 Square Feet or Units
Commercial	38	217,725	15	98,850
House of Worship	2	72,585	0	NA
Industrial	15	353,408	16	567,982
Infrastructure, commercial	1	NA	1	NA
Institutional	11	62,240	8	145,380
Multi-Family	3	212 units	0	NA
Office	8	179,230	3	20,348
Parking/ RV & Boat Storage	6	NA	1	NA
Residential (single-family/townhouses - platted and manufactured homes)	5	455 units	16	1,716 units
Telecommunication Towers	2	NA	0	NA
Transient Lodging	1	124 units	1	125 units

- Comprehensive Plan amendments:
 - 2010-2019, 55 land use map amendments to the Comprehensive Plan.
 - 2010-2019, 15 text amendments to the Comprehensive Plan.
 - 2010-2019, 23 land use map amendments within the North US 1 corridor.
 - 2020-2024, 16 land use map amendments to the Comprehensive Plan.
 - 2020-2024, 10 text amendments to the Comprehensive Plan.
- Multi-family development: There have been three multi-family development constructed from 2010 to 2024 totaling 212 units.
- Platting: Subdivision construction requires platting (preliminary and final plats). Platted lots by decade are provided below:

Exhibit 3: Platted Lots by Decade

Exhibit 4: Single-Family House Permits (by calendar year)

Housing analysis: Attachment 7 contains data and inventory of existing housing and future trends influencing housing provisions within Ormond Beach. This data and analysis information was sourced from the United States Census Bureau, the American Community Survey (ACS), and the Shimberg Center Florida Housing Data Clearinghouse. Key information includes:

Exhibit 5: Dwelling Units by Structure

Housing Units by Type	Ormond Beach Units	Percent	Volusia County Units	Percent
Single-Family Detached	13,863	65%	177,760	65%
Single-Family Attached	1,197	6%	10,631	4%
Duplex	341	2%	5,404	2%
Multi-family	3,751	18%	56,696	21%
Mobile Homes	2,143	10%	23,084	8%
Total	21,295	100%	273,835	100%

Public Input, Survey and Community Meeting Input: Attachment 8 contains information gathered as part of the Community Engagement Meeting (comments cards, input sheets, and Element notes) and the survey information (summarized and survey responses). Key input from the survey includes:

- ✓ What is one place, location or image that comes to mind when you think of Ormond Beach? Exhibit 7 below is a word cloud created based on citizen response.

[illegible]

- ### Exhibit 8: Table summary of top 2 priorities based on citizen responses

Meeting minutes, February City Commission workshop and Planning Board: Attachment 9 contains key meeting minutes and summaries provided as follows:

- ✚ January 16, 2025, Community Engagement Meeting summary;
- ✚ February 4, 2025, City Commission workshop; and
- ✚ February 13, 2025, Planning Board discussion item.

SECTION 5, ELEMENT KEY UPDATES:

City staff have reviewed each Element and recommended changes. Key Element updates include:

Plan Administration:

- Updated state statute references.
- Added acronyms.
- Added definitions.

Future Land Use:

- Deletion of the Heavy Industrial land use category.
- Updated Policies based on input from staff of Florida Inland Navigation District. (Policies 5.1.7-5.1.10.)
- Updated text in Goal 8 – Downtown Community Redevelopment Area.
- Provided summary of development (2010-2024).
- Updated tables and maps.
- Updated population projections.

Transportation:

- Deleted Policy that sought to replace Volusia County road impact fee. (Policy 1.5.4.)
- Combined Multi-Modal policies. (Policies 1.6.4. – 1.6.7.). Based upon the FloridaCommerce October 17, 2025 “null and void” letter, subsection (d) of Policy 1.6.4. is proposed to be deleted.
- Deleted Policies regarding redevelopment plans as part US 1 and South Atlantic Avenue. (Policies 1.6.8., 1.6.9., and 1.6.13.)
- Added “Complete Street” Policy. (Policy 1.7.10.)
- Updated Ormond Crossings text, removing completed items. (Goal 5)
- Updated Future Traffic Circulation Map.

Utilities:

- Updated Solid Waste text. (Goal 3., Policies 3.3.3., 3.3.6., and 5.1.9.)
- Amended impact fees to connection fees per impact fee study. Deleted Policy on differential impact fee. (Objective 1.1.)
- Modified text per Water Supply Work Plan. (Policies 1.2.5., 1.2.6., 1.7.2., and 5.2.3.)
- Based off the St. Johns River Water Management District review, Policy 5.1.19. (becomes 5.1.18) is to be maintained. This Policy was within ordinance 2025-17.
- Based off the Florida Department of Environmental Protection, Policies 1.4.7. and 1.4.8. have been created regarding connection to central sewer systems. These Policies were within ordinance 2025-17.

Conservation:

- Amended text regarding air quality. (Objective 8.2. and Policy 8.2.4.)
- Reorganization of Goal to increase coordination with Volusia County on Hazardous Waste management. (Goal 10.)
- Deleted certain Policies. {Policy 3.1.3. (Interconnections), Policy 6.1.17. (Volusia Council of Governments), Policy 6.1.23. (Management plans for specific endangered species), and Policy 8.1.3.}
- Added Water Supply Policies. (Policies 1.2.7. and 5.3.8.)

Coastal Management:

- Deleted build back policy and emergency procedure policies. (Policies 5.5.4., and 5.5.7. – 5.5.11.)
- Added new policy referencing adaptation strategies for planning and design. (Policy 6.7.10.)
- Added language for consistency with State Statutes. (Policy 1.7.1.)
- Updated Coastal High Hazard Area and Storm Surge maps.

Housing:

- Data and analysis summary performed.
- Re-organized Element to include:
 - Objective 1.1. Housing Supply
 - Objective 1.2. Substandard Housing
 - Objective 1.3. Attainable Housing
 - Objective 1.4. Group Homes and Foster Care Facilities
 - Objective 1.5. Displacement
 - Objective 1.6. Historically Significant Housing

➤ Objective 1.7. Green Building and Sustainable Development

Based upon the FloridaCommerce October 17, 2025 “null and void” letter, Policy 1.1.9. of the Housing Element is proposed to be deleted because it was identified as potentially more restrictive and burdensome.

Recreation and Open Space (proposed Parks and Recreation):

- Changed Recreation and Open Space Element to the Parks and Recreation Element. (Element wide)
- Changed Leisure Services Department name to Parks and Recreation Department per City Commission directive.
- Updated Americans with Disabilities Act policies consistent with master plan recommendations. (Policies 1.9.1., 1.9.2., 1.9.3., 1.9.4., and 1.9.5.)
- Deleted accomplished Policies. (Policy 1.2.3. – Environmental Discovery Center and Policy 1.14.1. - 17 acres from Ormond Crossings)
- Added Master Park/Recreation and Facilities, Ormond Scenic Loop and Trail maps. (Figures 1 and 2)

Capital Improvements Element:

- Schedule of Capital Improvements linked to Capital Improvements Program.
- Updated Coastal High Hazard Area Policies. (Objective 1.2., Policies 1.2.4. and 1.2.5.)
- Updated Level-of-Service standards (water, sanitary sewer, and solid waste). (Policy 1.3.2.)
- Changed term for impact fee for water and sewer, to connection fees, and updated policies. (Objective 1.4., Policies 1.4.2. and 1.4.3.)

Intergovernmental Coordination:

- Deleted Policy conditioning development approvals on outside agency permits. (Policies 1.1.2. and 1.2.12.)
- Updated Interlocal Service Boundary Agreement (ISBA) Policy. (Policies 1.11.6. and 1.11.8.)
- Deleted Housing related Policies. (Policies 1.6.2. and 1.6.4.)
- Deleted two school related Policies. (Policies 2.1.3. and 2.1.6.)

Cultural and Historical Resources:

- Updated Art in Public Places. (Policy 1.2.7.)
- Modified Senior Programs and Facilities Objective and Policies. (Objective 1.4., Policy 1.4.1., 1.4.2., and 1.4.3.)
- Historic Overlay Districts shall be maintained and considered, with the support of property owners, to protect significant historic areas. (Objective 2.1. and Policy 2.1.5.)

- Deleted accomplished Policy. (Policy 1.2.1. – Rockefeller Gardens restoration)
- Updated Element title and associated language to Cultural and Historical Resources Element. (Element wide)

Public School Facilities:

- No substantial changes
- Based on 2007 Interlocal Agreement between Volusia County, Cities, and School Board
- Updated Figure 1 – School Planning Areas Map

Property Rights:

- No text changes.

SECTION 6, REVIEW CRITERIA

Existing Policy 2.5.2. of the Future Land Use Element provides criteria for reviewing Comprehensive Plan amendments. These criteria are discussed below:

1. Consistency with the Goals, Objectives, and Policies of this Plan.

The purpose of the update is to review all the Elements and determine if individual Goals, Objectives, and Policies should be updated, deleted, or new Goals, Objectives, and Policies added. The review matrix details the changes. City staff focused on formatting, spelling out acronyms, and ensuring the Goals, Objectives and Policies were relevant.

2. Consistency with state requirements, including 9J-5 and Florida Statute requirements.

The amendments are consistent with applicable Florida Statute requirements, particularly Section 163.3191 and 163.3177. The amendments include population projections and housing analysis.

3. If the amendment is a map amendment, is the proposed change an appropriate use of land.

There is no land use map amendment as part of the Comprehensive Plan 2045 update.

4. If the amendment is a map amendment, the impacts on the Level-of-Service of public infrastructure including schools, roadways, utilities, stormwater, and park and recreation facilities.

There is no land use map amendment as part of the Comprehensive Plan 2045 update.

5. If the amendment is a map amendment, impacts to surrounding jurisdictions.

There is no land use map amendment as part of the Comprehensive Plan 2045 update.

SECTION 7, RECOMMENDATION

Based upon comments dated October 17, 2025 from Florida Commerce, it is necessary to rescind ordinance 2025-17 and readopt the Comprehensive Plan amendments. There are two changes from ordinance 2025-17:

1. Policy 1.6.4. of the Transportation Element, subsection (d) has been deleted:

~~d) On or off site transit facility improvements as recommended by Votran.~~

2. Policy 1.1.9 of the Housing Element has been deleted:

~~POLICY 1.1.9.~~

~~The city shall maintain and consistently review the permitting process that facilitates the private sector housing production.~~

All other text from ordinance 2015-17 remain unchanged. The data and analysis for the Comprehensive Plan amendments also remains the same.

It is recommended that the Planning Board (1) rescind ordinance 2025-17 and (2) **APPROVE** the proposed Comprehensive Plan amendments to the following Elements: Plan Administration, Future Land Use, Transportation, Utilities, Conservation, Coastal Management, Housing, Recreation and Open Space, Capital Improvements, Intergovernmental Coordination, Cultural and Historical Resources, Public School Facilities, and Property Rights.

CITY OF
ORMOND BEACH, FLORIDA

ATTACHMENT 2: ELEMENT SUMMARIES

PLAN ADMINISTRATION

This Chapter provides for the administration of the Comprehensive Plan, including plan interpretation, appeals, and amendments.

Board Review Date:

Planning Board: 9/12/2024

KEY UPDATES OF THE ELEMENT

- Updated state statute references.
- Added acronyms.
- Added definitions.

FUTURE LAND USE ELEMENT

This Element focuses on the management of growth that is consistent with sound social, economic, fiscal, and environmental principals.

Board Review Date:

Planning Board: 9/12/2024

KEY UPDATES OF THE ELEMENT

- Deletion of the Heavy Industrial land use category.
- Updated Policies based on input from staff of Florida Inland Navigation District. (Policies 5.1.7-5.1.10.)
- Updated text in Goal 8 – Downtown Community Redevelopment Area.
- Provided summary of development (2010-2024).
- Updated tables and maps.
- Updated population projections.

TRANSPORTATION ELEMENT

This Element focuses on long range transportation planning that considers the physical environment when making roadway decisions while also encouraging multi-modal alternatives.

Board Review Date:

Planning Board: 11/14/2024

KEY UPDATES OF THE ELEMENT

- Deleted Policy that sought to replace Volusia County road impact fee. (Policy 1.5.4.)
- Combined Multi-Modal policies. (Policies 1.6.4. – 1.6.7.)
- Deleted Policies regarding redevelopment plans as part US 1 and South Atlantic Avenue. (Policies 1.6.8., 1.6.9., and 1.6.13.)
- Added “Complete Street” Policy. (Policy 1.7.10.)
- Updated Ormond Crossings text, removing completed items. (Goal 5)
- Updated Future Traffic Circulation Map.

UTILITIES ELEMENT

This Element focuses on providing and maintaining potable water, sewer, re-claim water, and stormwater service in accordance with adopted level-of-services.

**Board Review
Date:**
Planning Board:
11/14/2024

KEY UPDATES OF THE ELEMENT

- **Updated Solid Waste text.** (Goal 3., Policies 3.3.3., 3.3.6., and 5.1.9.)
- **Amended impact fees to connection fees per impact fee study. Deleted Policy on differential impact fee.** (Objective 1.1.)
- **Modified text per Water Supply Work Plan.** (Policies 1.2.5., 1.2.6., 1.7.2., and 5.2.3.)

CONSERVATION ELEMENT

This Element focuses on preserving, protecting and enhancing natural resources and environmental diversity.

Board Review Date:

Planning Board: 10/29/2024

KEY UPDATES OF THE ELEMENT

- **Amended text regarding air quality.** (Objective 8.2. and Policy 8.2.4.)
- **Reorganization of Goal to increase coordination with Volusia County on Hazardous Waste management.** (Goal 10.)
- **Deleted certain Policies.** (Policy 3.1.3. (Interconnections), Policy 6.1.17. (Volusia Council of Governments), Policy 6.1.23. (Management plans for specific endangered species), and Policy 8.1.3.)
- **Added Water Supply Policies.** (Policies 1.2.7., 5.3.8.)

COASTAL MANAGEMENT ELEMENT

This Element focuses on identifying vulnerable areas and planning and implementing strategies for preserving, protecting, developing, and where possible, restoring or enhancing, the natural resources of the city in defense against flooding and erosion.

Board Review Date:

Planning Board: 11/14/2024

KEY UPDATES OF THE ELEMENT

- Deleted build back policy and emergency procedure policies. (Policies 5.5.4., and 5.5.7. – 5.5.11.)
- Added new policy referencing adaptation strategies for planning and design. (Policy 6.7.10.)
- Added language for consistency with State Statutes (Policy 1.7.1.)
- Updated Coastal High Hazard Area and Storm Surge map.

HOUSING ELEMENT

This Element focuses on housing availability and ensuring adequate levels-of-service are met for future housing development.

Board Review Date:

Planning Board: 12/12/2024

KEY UPDATES OF THE ELEMENT

- Data and analysis summary performed.
- Re-organized Element to include:
 - Objective 1.1. Housing Supply
 - Objective 1.2. Substandard Housing
 - Objective 1.3. Attainable Housing
 - Objective 1.4. Group Homes and Foster Care Facilities
 - Objective 1.5. Displacement
 - Objective 1.6. Historically Significant Housing
 - Objective 1.7. Green Building and Sustainable Development

PARKS AND RECREATION ELEMENT

This Element focuses on providing and maintaining recreation areas, facilities and activities, and access to them.

Board Review Dates:

Leisure Services Advisory Board: 09/11/2024

Planning Board: 10/29/2024

Quality of Life Advisory Board: 12/05/2024

KEY UPDATES OF THE ELEMENT

- **Changed Recreation and Open Space Element to the Parks and Recreation Element.** (Element wide)
- **Updated Americans with Disabilities Act policies consistent with master plan recommendations.** (Policies 1.9.1., 1.9.2., 1.9.3., 1.9.4., and 1.9.5.)
- **Deleted accomplished Policies.** (Policy 1.2.3. – Environmental Discovery Center and Policy 1.14.1. - 17 acres from Ormond Crossings)
- **Added Parks and Recreation, Ormond Scenic Loop and Trail maps.** (Figures 1 and 2)

CAPITAL IMPROVEMENTS ELEMENT

This Element focuses on planning for and implementing capital improvements in accordance with adopted levels-of-service.

Board Review Date:
Planning Board: 12/12/2024

KEY UPDATES OF THE ELEMENT

- **Schedule of Capital Improvements linked to Capital Improvements Program.**
- **Updated Coastal High Hazard Area Policies.** (Objective 1.2., Policies 1.2.4. and 1.2.5.)
- **Updated Level-of-Service standards (water, sanitary sewer, and solid waste).** (Policy 1.3.2.)
- **Changed term for impact fee for water and sewer, to connection fees, and updated policies.** (Objective 1.4., Policies 1.4.2. and 1.4.3.)

INTERGOVERNMENTAL COORDINATION ELEMENT

This Element focuses on establishing and maintaining effective coordination to address multi-jurisdictional issues of concern.

Board Review Date:

Planning Board: 10/29/2024

KEY UPDATES OF THE ELEMENT

- Deleted Policy conditioning development approvals on outside agency permits. (Policies 1.1.2. and 1.2.12.)
- Updated Interlocal Service Boundary Agreement (ISBA) Policy. (Policies 1.11.6. and 1.11.8.)
- Deleted Housing related Policies. (Policies 1.6.2. and 1.6.4.)
- Deleted two school related Policies. (Policies 2.1.3. and 2.1.6.)

CULTURAL AND HISTORICAL RESOURCES ELEMENT

This Element focuses on preserving, protecting and promoting historical resources and cultural activities throughout the City.

Board Review Dates:

Leisure Services Advisory Board: 09/11/2024

Historic Landmark Preservation Board: 09/16/2024

Planning Board: 10/29/2024

Quality of Life Advisory Board: 12/05/2024

Historic Landmark Preservation Board: 12/16/2024

KEY UPDATES OF THE ELEMENT

- Updated Art in Public Places. (Policy 1.2.7.)
- Modified Senior Programs and Facilities Objective and Policies. (Objective 1.4., Policy 1.4.1., 1.4.2., and 1.4.3.)
- Historic Overlay Districts shall be maintained and considered, with support of property owners, to protect significant historic areas. (Objective 2.1. and Policy 2.1.5.)
- Deleted accomplished Policies. (Policy 1.2.1. – Rockefeller Gardens restoration, and Policy 1.2.2. – Birthplace of Speed Museum exhibit)
- Updated Element title and associated language to Cultural and Historical Resources Element. (Element wide)

PUBLIC SCHOOL FACILITIES ELEMENT

This Element focuses on coordination with the Volusia County School District to provide and maintain a public education system which meets the needs of Volusia County's current and future populations.

Board Review Date:

Planning Board: 12/12/2024

KEY ASPECTS OF THE ELEMENT

- No substantial changes
- Based on 2007 Interlocal Agreement between Volusia County, Cities, and School Board
- Updated Figure 1 – School Planning Areas Map

PROPERTY RIGHTS ELEMENT

This Element focuses on ensuring that private property rights are considered in local decision-making.

Board Review Date:
Planning Board: 10/29/2024

KEY ASPECTS OF THE ELEMENT

- No proposed changes.
- State-required element.
- Respect judicially-acknowledged and constitutionally-protected private property rights.

Comprehensive Plan 2045 Update

Comprehensive Plan Update Overview

Comprehensive Plan 2045 Update

What is a Comprehensive Plan?

- ❑ A **state-required policy plan** designed to guide the future growth and public infrastructure investment within Ormond Beach.
- ❑ Living and evolving documents written for a long-term outlook, typically 20 years.
- ❑ The plan provides Goals, Objectives, and Policies that **direct where development, redevelopment, and preservation within the city should occur, as well as public capital investments.**
- ❑ A vision and blueprint as to what a city desires to become in the future.

Comprehensive Plan 2045 Update

Comprehensive Plan Planning in Florida

1975 Local Government Comprehensive Plan Act

- Required creation and adoption of comprehensive plans to guide development.

1985 Growth Management Act

- Comprehensive Plans must contain certain elements such described in Chapter 163, Florida Statutes and Rule 9J-5, Florida Administrative Code.

2011 Community Planning Act

- Amended requirements of the 1985 Act, re-shaped the Department of Community Affairs, allows Proportionate Fair Share to meet concurrency requirements.

Comprehensive Plan 2045 Update

Why update the Comprehensive Plan now?

- ☐ State required (Florida Statutes Section 163.3191).
- ☐ Ensure compliance with State Statutes.
- ☐ Identify areas within the plan that need updates.
- ☐ Incorporate changing conditions of the city into the plan.

Comprehensive Plan 2045 Process

Introduction

**Community Engagement Meeting**

The City of Ormond Beach is updating the Comprehensive Plan (2045 update) and you are invited to share your thoughts and ideas regarding the future of Ormond Beach at an upcoming Community Engagement Meeting.

 **Monday, August 26, 2024**

 **City Hall
Commission Chambers
22 S. Beach Street**

 **5:30 PM - 7:00 PM**

COMPREHENSIVE PLAN 2045

CITY OF
ORMOND BEACH, FLORIDA

ATTACHMENT 4: REVIEW MATRIX

CITY OF ORMOND BEACH

Planning • 22 S. Beach Street • Ormond Beach • Florida • 32174 • (386) 676-3311 • Fax (386) 676-3361

DEPARTMENT OF PLANNING MEMORANDUM

Added with re-adoption

TO: City Commission
FROM: Steven Spraker, AICP, Planning Director
DATE: July 21, 2024
SUBJECT: Comprehensive Plan 2045 Update, Changes from the transmittal draft sent to state agencies and Volusia County Growth Management Commission

During the transmittal draft of the Comprehensive Plan amendments, city staff received two requested changes. The first requested change were based on e-mail communications with St. Johns River Management District staff. Based on city staff's commitment to not delete existing Policy 5.1.19. of the Utilities Element, there was no comments or objections from the St. Johns River Water Management District review. The second requested change is from the Florida Department of Environmental Protection which was provided as a comment. The comment seeks compliance within the Utilities Element with 2023 House Bill 1379, now Florida Statute Section 163.3177(6)(c)3. City staff have coordinated with the Florida Department of Environmental Protection to address the outstanding comment.

Change 1: Utilities Element, Existing Policy 5.1.19. (to be Policy 5.1.18.)

The first reading of the Ordinance (transmittal draft) had Policy 5.1.19. of the Utilities Element to be deleted. In e-mail communications, St. Johns River Water Management District staff recommended maintaining this policy. St. Johns River Water Management District states that Policy 5.1.19. implements Florida Statute Section 163.3180(2). City staff have no objections to maintaining this Policy.

Utilities Element (Do not delete Policy)

~~POLICY 5.1.19.~~ POLICY 5.1.18.

The City shall issue no development orders or development permits without first consulting appropriate water suppliers to determine whether adequate water supplies to serve the development will be available no later than the anticipated date of issuance by the City of a Certificate of Occupancy or its functional equivalent. The City will also ensure that adequate water supplies and facilities are available and in place prior to issuing a Certificate of Occupancy or its functional equivalent.

Change 2: Florida Statute Section 163.3177(6)(c)(3) – 2023 House Bill 1379

The Florida Department of Environmental Protection staff provided the comment below:

During the 2023 legislative session, the Florida Legislature passed House Bill (HB) 1379, Laws of Florida Chapter No. 2023-169, which revised s. 163.3177, F.S., requiring local government comprehensive plans to address the following:

- Within the general sanitary sewer, solid waste, drainage, potable water, and natural groundwater aquifer recharge element, local governments

visit our website: www.ormondbeach.org

must address the upgrading of wastewater treatment facilities and prioritize advanced waste treatment (AWT), and, for local governments not included within a designated Rural Area of Opportunity, a section considering the feasibility of providing sanitary sewer services within a 10-year planning horizon to any development of more than 50 built or unbuilt residential lots with a density of more than one onsite sewage treatment and disposal system (OSTDS; aka septic system) per acre must be included by July 1, 2024 (s. 163.3177(6)(c)3, F.S.)

Based on the Department's records, the City of Ormond Beach has not addressed the above requirements, specifically the inclusion of the wastewater feasibility analysis described in s. 163.3177(6)(c)3, F.S. If applicable developments exist within the jurisdiction, the City must update their general sanitary sewer, solid waste, drainage, potable water, and natural groundwater aquifer recharge element to include the required information as soon as possible to address the existing noncompliance with s. 163.3177, F.S.

The following two Policies were developed to address the Florida Department of Environmental Protection comment. There is one subdivision, Hidden Hills, that is not connected to city sewer that is more than 50 lots and has a density of less than one unit per acre. The feasibility of connection to a central sewer system was previously reviewed with the Utility Master Plan and deemed financially unfeasible at this time. Future updates to the Utility Master Plan will continue to review the feasibility of a central sewer connection. Below are the two proposed Policies based on the Florida Department of Environmental Protection comment.

Utilities Element

POLICY 1.4.7.

Within the City of Ormond Beach's utility service area for any development of more than 50 residential lots, whether built or unbuilt, with more than one onsite sewage treatment and disposal system per 1 acre, the City outlines the feasibility of providing sanitary sewer services within the City's Utility Master Plan. There is one subdivision within the City's limits which is not connected to central sewer that has a density of less than 1 unit per acre. Based upon the findings from the latest Master Plan cost estimate, this subdivision is deemed not feasible to connect to central sewer based on cost. The City will re-evaluate this with future Utility Master Plan updates. An onsite sewage treatment and disposal system is presumed to exist on a developed parcel if sanitary sewer services are not available at or adjacent to the parcel boundary.

POLICY 1.4.8.

Sanitary sewer flows from current developments within the City of Ormond Beach's service area are received at the Water Reclamation Facility (WRF) on Orchard Street. The City of Ormond Beach is currently in the planning process of establishing a new wastewater treatment facility in the western region of the utility's service area. Projected flows from potential developments will be served by both facilities once the new facility has been completed.

The Annual Average Daily Flow (AADF) capacity of the facilities in the City of Ormond Beach's service area and the projected wastewater flow at these facilities for the next 20 years are depicted in Table 1. All values in Table 1 are in millions of gallons per day (MGD). Expected future new construction and connections of onsite sewage treatment and disposal systems to sanitary sewer

are currently on a 20-year planning horizon as demonstrated in the Utility Master Plan collection and distribution Systems, as may be amended periodically.

Table 1
Project AADF Wastewater Flow Projection

<u>Year</u>	<u>Total AADF to Orchard WRF*</u>	<u>Total AADF to Western Utility WRF**</u>	<u>Total AADF Wastewater Flow</u>
<u>2025</u>	<u>5.69</u>		<u>5.6</u>
<u>2030</u>	<u>7.5</u>		<u>7.5</u>
<u>2035</u>	<u>6.6</u>	<u>3.0</u>	<u>9.6</u>
<u>2045</u>	<u>7.5</u>	<u>4.0</u>	<u>11.5</u>

*The current permitted capacity of the Orchard St WRF is 8.0 MGD.

INTRODUCTION <u>PLAN ADMINISTRATION</u>	Recommended Action						Explanation/Modification
	Keep	Delete	New	Replace	Move	Modify	
PLAN ADMININSTRATION DECEMBER 29, 2024							
A. INTRODUCTION This Chapter sets forth the guidelines and criteria for administering the Ormond Beach Comprehensive Plan. Proper Plan administration requires the establishment of procedures to ensure that the Plan provides for a means of Plan interpretation, Plan interpretation appeals, and Plan amendment.	X						No changes to text, modify format
B. PLAN INTERPRETATION It is the responsibility of the Planning Department Director (hereinafter referred to as the Director) to interpret the Comprehensive Plan and its application to public and private land and to activities permitted thereon. Plan interpretations are to be based on the applicable text, maps, figures and tables within the adopted Comprehensive Plan along with the support documentation developed to support the Comprehensive Plan. Plan interpretations shall be based upon the following guidelines: 1. <u>Use and Status of Support Documentation</u> – The City’s supporting data and analysis establishes the base data complied to support the Comprehensive Plan. The support documentation is not adopted as part of the Plan but may be used in any review, interpretation and update of the adopted Comprehensive Plan. The support documentation may be updated periodically and portions may be incorporated as a Plan amendment if deemed appropriate. 2. <u>Interpretation of Conflicts</u> – Conflicts shall be judged under the following guidelines: a. In the event of any difference of meaning or implication between the text of the Plan and any caption, illustration, summary table, or illustrative table, the text shall control. b. In the event of an apparent conflict between the Future Land Use Map and any other map or figure in the adopted Comprehensive Plan, the Future Land Use Map shall control.	X						Modify format. Spell out Florida Statues

INTRODUCTION <u>PLAN ADMINISTRATION</u>	Recommended Action						Explanation/Modification
	Keep	Delete	New	Replace	Move	Modify	
c. In the event of an apparent conflict between Plan goals, objectives and policies or any other portion of the Plan text, the Plan goals, objectives and policies shall control. 3. <u>Interpretation of Undefined Terms</u> – Terms not otherwise defined herein shall be interpreted first by reference to the relevant provisions of the Local Government Comprehensive Planning and Land Development Regulation Act Part II, Chapter 163 F.S. <u>Florida Statutes</u>, or other relevant and appropriate State Statutes or Administrative Rules if specifically defined therein; secondly, by reference to generally accepted planning or otherwise professional terminology if technical; and otherwise according to the latest edition of Webster’s New Collegiate Dictionary. 4. <u>Administrative Interpretations</u> – It is the responsibility of the Director to make Comprehensive Plan administrative interpretations. Applications for an administrative interpretation together with the appropriate fee as may be required by resolution of the City Commission shall be filed with the Director. Administrative interpretations may be required as a result of one of the following actions: a. Failure to obtain a Comprehensive Plan consistency finding based on submission of a building permit, or subdivision or site plan application: In the event a building permit, or subdivision or site plan application is found inconsistent with the Plan, the application may be forwarded to the Director for an administrative interpretation. The building permit, or subdivision or site plan application shall serve as the application for an administrative interpretation. b. Request for interpretation of land use designation boundaries: Written requests are required for administrative interpretations related to land use designation boundaries. The request shall include a legal description of the parcel(s) and depending on the circumstance a current survey may be required. The applicant may submit additional materials that he feels supports his application and the Director may ask for additional information to explain said request. c. Any other action that would require a Comprehensive Plan interpretation.							

INTRODUCTION <u>PLAN ADMINISTRATION</u>	Recommended Action						Explanation/Modification
	Keep	Delete	New	Replace	Move	Modify	
Any affected party may make application for an administrative interpretation of the Comprehensive Plan. The application would be for a set of circumstances not covered under one of the aforementioned interpretations. Specifically, the application shall include a written statement which clearly identifies the section or sections of the Plan for which an interpretation is required along with references to text, maps, figures and support document(s) which the applicant feels supports the application. 5. <u>Administrative Interpretation of Plan Consistency and its Relationship to the Concurrency Provisions of the Capital Improvements Element</u> – An administrative interpretation resulting in a determination of consistency does not constitute a determination of concurrency, which is a separate determination that is subject to Article 7, Concurrency Management, of the City Land Development Code and the concurrency provisions of the Comprehensive Plan’s Capital Improvements Element. 6. <u>Appeal of an Administrative Interpretation</u> – Any administrative interpretation made by the Director under the provisions of this Chapter may be appealed to the City Commission. Appeals may be initiated by any person aggrieved, or by any officer, board, department or agency of City Government. An appeal shall be submitted within 10 days after rendition of the interpretation by filing with the Director and with the Legal Department, a written Notice of Appeal specifying its grounds together with the appropriate fee, as may be required by resolution of the City Commission. The appeal shall be submitted on a form prescribed by the Director. Upon receipt of the Notice of Appeal, the Director shall transmit to the City Commission all documents, plans, papers, minutes, applications, recommendations or other materials relating to the appealed decision. In its deliberations, the City Commission shall decide that the interpretation of the Director is either consistent or inconsistent with the Comprehensive Plan and then shall direct the disposition of the appeal. In lieu of a consistency/inconsistency ruling, the Commission may determine that the scope of the appeal goes beyond a simple interpretation of the Plan and deals with a substantive issue affecting City policy. Having made such a determination, the City Commission may then refer the application to the Planning Board. The Board							

INTRODUCTION <u>PLAN ADMINISTRATION</u>	Recommended Action						Explanation/Modification
	Keep	Delete	New	Replace	Move	Modify	
shall review the appeal to determine its policy implications and recommend whether or not the appeal would constitute a Comprehensive Plan amendment. 7. <u>Recourses to Decisions of the City Commission</u> – Any City Commission decision on an administrative interpretation may be appealed by an aggrieved person, to the Circuit Court for review by certiorari, within 30 days after the rendition of the City Commission decision. The aggrieved person shall notify all interested persons as required by law and shall have established a record before the City Commission during its hearing on the appeal.							
C. PLAN AMENDMENTS From time to time it will be necessary to amend the Comprehensive Plan to keep up with changing conditions, to comply with State mandated updates and evaluations, to achieve implementation of the Plan and to provide citizens and affected parties a means of recourse to participate in the City’s Comprehensive Plan Program. All amendments to the Comprehensive Plan shall, as a minimum, comply with the advertising requirements as prescribed by Part II, Chapter 163 F.S. and by City Ordinance. Any action which requires that a change be made to any of the maps, text, figures, tables or charts and any other change having the effect of altering the use of land as prescribed by this Plan shall be deemed to require a Comprehensive Plan amendment. Plan amendments may be initiated by elected bodies, public agencies, appointed officials, advisory boards, public, semi-public or private utilities, individuals and groups, or any other affected person or combinations thereof. 1. <u>Types of Comprehensive Plan Amendments</u> – The Comprehensive Plan may be amended as a result of one of the following types of applications: a. Mandated Amendment - an amendment required to comply with State laws and rules thereof. A mandated amendment would include court directed settlements in accord with State law. b. Administrative Amendment – an amendment which is initiated by the City Commission through their own actions or acting on the advice or recommendation of the Planning Board, staff or other agency of government.						X	Section 163.3184 F.S was amended and changed the processing requirements. There are no longer comprehensive plan amendment cycles.

INTRODUCTION <u>PLAN ADMINISTRATION</u>	Recommended Action						Explanation/Modification
	Keep	Delete	New	Replace	Move	Modify	
c. Development Amendment – an amendment which is initiated by the property owner or their authorized agent to change the Plan so that a particular development type or land use not otherwise consistent with the Plan, would become consistent following the adoption of the amendment. Applicants may be a single individual owning a single parcel or two or more individuals owning contiguous land areas. Applicants may also be an individual or groups of individuals owning 51% <u>percent</u> or more of the subject land area. Applicants may be private individuals sponsoring a residential, commercial, industrial or related use or a public agency sponsoring a public use amendment subject to the Comprehensive Plan. d. Small Scale Development Amendment – a Development Amendment that qualifies under the small-scale development amendment provisions of Section 163.3187(1)(a-e) F.S. and Section 3, below. This Section exempts small-scale amendments from the two-a-year amendment limitations and provides for an accelerated review and adoption schedule. 2. <u>Submission of an Application for a Comprehensive Plan Amendment</u> – a. Mandated and Administrative Amendments shall not require a formal application, but shall be processed consistent with the amendment requirements of Part II, Chapter 163 F.S. and Administrative Rule 9J-5. No fee is required for a Mandated or Administrative Plan Amendment. b. Development Amendment applications shall be submitted to the Planning Department on a form prescribed by the Director, together with the appropriate fee as may be required by resolution of the City Commission. Development Amendments may require a pre-application meeting. If required, the Planning Department will schedule the pre-application meeting and may invite other public agencies and representatives as appropriate to attend the meeting. 3. <u>Notification Requirements of Small-Scale Development Amendments</u> – Small-Scale Development Amendments require the notification of adjacent property owners in the manner described herein:							(continued) Section 163.3184 F.S was amended and changed the processing requirements. There are no longer comprehensive plan amendment cycles. Administrative Rule 9J-5 was repealed in 2011 and all references are now obsolete.

INTRODUCTION <u>PLAN ADMINISTRATION</u>	Recommended Action						Explanation/Modification
	Keep	Delete	New	Replace	Move	Modify	
For the purpose of a Small-Scale Amendment, adjoining property is intended to include property for which any portion of the boundary is contiguous to any portion of the boundary of the property encompassed by the proposed “Small-Scale Amendment” and which is not owned or leased by the individual(s) having ownership of the property encompassed by the proposed Small-Scale Amendment. In the case of an intervening easement or right-of-way, this term shall mean the property adjoining said easement or right-of-way which is not owned by the owner(s) of the property encompassed by the proposed Small-Scale Amendment. Where the proposed Small-Scale Amendment encompasses part of a larger property owned or leased by the same individual(s), the boundary of the larger property shall be used to determine the adjoining property(ies). At least ten days prior to the Planning Board and City Commission scheduled public hearing date, the landowner, or his duly authorized agent, city shall mail notice of the public hearing to the owner(s) of adjoining property. The latest ad valorem tax record shall be used to identify the name and address of the adjoining property owner(s). Said notice, which is to be mailed by certified regular-mail –return receipt requested, shall set forth the time, day, place and purpose of the public hearing. The Planning Department will provide the owner or his authorized agent with a notice form. The owner or his authorized agent shall acknowledge receipt of the notice form. It is the intent of this provision that only one said mailing is required to be sent to the owner(s) of the property involved in the proposed Small-Scale Amendment which is not owned or leased by the owner(s) of the property encompassed by the proposed Small-Scale Amendment. A copy of said notice shall be available for public inspection during the Planning Department’s regular business hours. 4. <u>Processing of Plan Amendment Applications</u> – Upon the Director’s determination that the application is complete, the Department shall prepare a staff report with all applicable exhibits, information and materials and schedule the application for a Planning Board hearing. The Planning Board shall consider the staff report and forward its recommendation on said Plan amendment to the City Commission. It shall be the responsibility of the City Commission to							(continued) Section 163.3187(1)(a-c) F.S was amended and Small Scale amendments are now defined as 50 acres or less instead of 10 acres. The City requires mail notice of small scale land amendments above state notification requirements. Staff proposes to also require mail notice for City Commission meeting (performed now as policy). Staff has discovered

INTRODUCTION <u>PLAN ADMINISTRATION</u>	Recommended Action						Explanation/Modification
	Keep	Delete	New	Replace	Move	Modify	
approve, approve with conditions, continue, or deny the Plan amendment. All Plan amendments must meet the requirements as set forth by Part II, Chapter 163, F.S. and Section 3 above, for Small Scale Amendment and the applicable Rules of the Volusia Growth Management Commission. Plan amendments are not in effect until the Volusia Growth Management Commission makes a determination of consistency in accordance with their Rules and the Florida Department of Community Affairs determines that the Plan amendment is in compliance with Part II, Chapter 163 F.S. and Administrative Rule 9J-5.							that regular mail notice has been more effective in reaching property owners and residents. Modify format.
D. RIGHT TO CHALLENGE DEVELOPMENT ORDER CONSISTENCY WITH COMPREHENSIVE PLAN The right of any aggrieved or adversely affected party to bring action for injunctive or other relief against the City of Ormond Beach to prevent the City Commission from taking any action on a development order that is not consistent with the Comprehensive Plan shall be as set forth in Part II, Chapter <u>Section 163.3215 F.S.</u>							No changes to text, modify format

<u>DEFINITIONS OF TERMS AND WORDS</u>			X				All new definitions added, see element for complete list.

Goals, Objectives, Policies			Recommended Action						Explanation/Modification
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify	
Future Land Use Element, February 18, 2025									
OVERVIEW	The Future Land Use Element establishes the pattern of land uses and location of urban growth for the City of Ormond Beach through <u>2025 2045</u>. It identifies locations in the City of Ormond Beach where various land uses and intensities of use will be permitted to occur in the future. It establishes and articulates broad policy in keeping with the traditional role of the Comprehensive Plan as a framework for future development. The Future Land Use Element reflects previously adopted plans, current development trends, established land uses, and zoning patterns. Upon adoption, the Future Land Use Element sets forth the City’s policy regarding future zoning and land use patterns. The major goal of the Future Land Use Element is to achieve the highest quality of life for all the residents of the City, its visitors and businesses by managing growth in a manner that is consistent with sound social, economic, fiscal, and environmental principals. The element reflects existing urban service capacities and constraints, and it also establishes locations where future service improvements will follow.							X	Minor text amendment to update to the new long-range planning year.
	Regarding public infrastructure, the areas adjacent to existing public infrastructure will be the primary areas for future infrastructure development. Expansion of existing facilities in a fiscally and environmentally appropriate manner will be the primary objective. The intent is to maximize efficiency of urban services through compact development and utilization of existing development and facilities for planned developments otherwise consistent with the City of Ormond Beach Comprehensive Plan.								
		In addition to encouraging development near existing or planned public facilities, areas that are outside the proposed development areas or contain environmentally sensitive or historical attributes will receive							X

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Future Land Use Element, February 18, 2025									
OVERVIEW	special attention to ensure proper management of the City’s natural and historic resources. The Future Land Use Element contains all of the material required by Section 163.3177, <i>Florida Statutes</i> , (6)(a), (F.S.) and Section 9J-5.006, <i>Florida Administrative Code</i> (F.A.C.) which establish the minimum requirements for the content of the Future Land Use Element. The adopted components of the Future Land Use Element include the Goals, Objectives and Policies and the Future Land Use Map presented as Figure 1.								
GOAL 1. FUTURE LAND USE CATEGORIES	The Future Land Use categories are declared to be a part of the adopted Future Land Use Policies. The general future land use categories have been developed to help in the determination of where development should occur through 2025 2045. The categories are described below: <u>in the objectives and policies below.</u>						X	Modify date. Converted format into Goals, Objectives, and Policies.	
1. OBJECTIVE 1.1. RESIDENTIAL	<u>The Future Land Use Map shall include the following Residential land use categories.</u>				X			Converted format into Goals, Objectives, and Policies.	

Goals, Objectives, Policies		Recommended Action						Explanation/Modification
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify
Future Land Use Element, February 18, 2025								
<u>POLICY 1.1.1.</u>	A.—Rural Estate/Agriculture (REA) <i>Purpose:</i> To protect the rural character of certain sections of the City where lands are environmentally sensitive, and also to protect those areas where it is the desire of the property owners to maintain their exurban character. Limited agricultural uses, such as kennels and veterinarians, and institutional uses may be permitted in accordance with the maximum floor area ratio. <i>Density:</i> 1 unit per five acres <i>Maximum FAR Floor Area Ratio:</i> 0.2							X Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio
<u>POLICY 1.1.2.</u>	B.—Rural Residential (RR) <i>Purpose:</i> To provide one-acre or larger “exurban” homesites for those landowners who desire a semi-rural environment in close proximity to urban facilities and services. Areas in this classification can also serve as a transition zone between Rural Estate/Agricultural uses and areas proposed for development at suburban level densities. Institutional uses may be permitted in accordance with the maximum floor area ratio. <i>Density:</i> 1 unit per 2.5 acres to 1 unit per acre <i>Maximum FAR Floor Area Ratio:</i> 0.2							X Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio
<u>POLICY 1.1.3.</u>	C.—Suburban Low Density Residential (SLDR) <i>Purpose:</i> To establish development guidelines, densities and land uses appropriate to the undeveloped and outlying suburban areas of the City, including areas that may be the subject of future annexations within the Ormond Water and Sewer Utility Service Area. It is the intent of the SLDR District to establish density standards that will achieve an intensity of development approximately 20% to 30% less than in the urban core (e.g., 1.6 to 2.5 units per acre, gross density) while encouraging smart growth principles such as compact and cluster							X Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio

Goals, Objectives, Policies		Recommended Action						Explanation/Modification
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify
Future Land Use Element, February 18, 2025								
<u>POLICY 1.1.3.</u>	development to reduce the cost of extending utilities and allow for the efficient delivery of government services. Maximum potential density or holding capacity within the SLDR District is determined on a case by case basis based on site specific conditions relative to on-site environmental constraints and the availability of central water and sewer services. Environmental constraints for each parcel of property proposed for development are synthesized from the high water table, soil characteristics and flood prone area data derived from the U.S. Soil Conservation Service study and the National Flood Insurance Program maps. This information is used by the applicant to arrive at the maximum potential density, or holding capacity, for a particular parcel of land. Actual densities may differ from the maximum potential densities due to zoning requirements that establish minimum lot sizes and setbacks and due to environmental protection requirements, that are designed to maintain the integrity of the natural ecological system. The actual density figure is dependent upon the degree of severity of the environmental constraints, the availability of central utilities, and the type of development that is proposed. Limited daily-need retail, not to exceed 20% of the gross project area, and institutional uses may be permitted in accordance with the maximum floor area ratio. <i>Density:</i> Minimum .2-6 units per acre. Requires holding capacity analysis per the Land Development Code. <i>Maximum FAR-Floor Area Ratio:</i> 0.2							X Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Future Land Use Element, February 18, 2025									
<u>POLICY 1.1.4.</u>	D.–Low Density Residential (LDR) <i>Purpose:</i> To protect and encourage the continued development of typical single-family residential areas and stabilize and protect the character of such neighborhoods. Institutional uses may be permitted in accordance with the maximum floor area ratio. <i>Density:</i> up to 4.3 units per acre Maximum FAR–Floor Area Ratio: 0.2							X	Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio
<u>POLICY 1.1.5.</u>	E.–Medium Density Residential (MDR) <i>Purpose:</i> To allow a variety of highly aesthetic dwelling units, encouraging the establishment of recreation areas and open space and discouraging look-alike rows of dwellings. MDR also allows the development of relatively low-density duplex, townhouse and multi-family projects which emphasize open space and maintain a low profile, thus maximizing the compatibility with single-family areas. Institutional uses may be permitted in accordance with the maximum floor area ratio. <i>Density:</i> Minimum 5-12 units per acre except in the Downtown Community Redevelopment Area where 5 - 15 units shall be allowed. Maximum FAR–Floor Area Ratio: 0.3							X	Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio
<u>POLICY 1.1.6.</u>	F.–High Density Residential (MHDR) <i>Purpose:</i> To provide lands suitable for the development of multi-family residential structures. Institutional uses may be permitted in accordance with the maximum floor area ratio. <i>Density:</i> Minimum 12-32 units per acre. Maximum FAR–Floor Area Ratio: 0.3							X	Converted format into Goals, Objectives, and Policies. Corrected MDR to HDR Spell out Floor Area Ratio

2. <u>OBJECTIVE 1.2.</u> COMMERCIAL	<u>The Future Land Use Map shall include the following Commercial land use categories.</u>				X				Converted format into Goals, Objectives, and Policies
<u>POLICY 1.2.1.</u>	A.—General Commercial (GC) <i>Purpose:</i> A multi-use land use category to provide for the sales of retail goods and services, high density multi-family, professional offices and services, and restaurants, depending on the range of population to be served and the availability of transit. For projects that propose a mixture of residential and non-residential uses, the minimum FAR <u>Floor Area Ratio</u> should be 0.2. <i>Density:</i> Maximum: 32 units per acre. <i>Maximum FAR Floor Area Ratio:</i> 0.7 (2.0 within the Downtown Community Redevelopment area)							X	Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio
<u>POLICY 1.2.2.</u>	B.—Heavy Commercial (HC) <i>Purpose:</i> A multi-use land use category to provide for the sale, service, display, and storage of certain commodities which, by their nature, are not compatible with most retail uses. Such uses are often related to the automobile, but may also include business and home improvement services. For projects that propose a mixture of residential and non-residential uses, the minimum FAR <u>Floor Area Ratio</u> should be 0.2. <i>Density:</i> Maximum: 18 units per acre. <i>Maximum FAR Floor Area Ratio:</i> 0.8							X	Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio
<u>POLICY 1.2.3.</u>	C.—Tourist Commercial (TC) <i>Purpose:</i> A multi-use land use category to provide uses along the Atlantic Ocean, SR A1A and highway interchanges, that include transit availability, retail services, tourist attractions, restaurants, multi-family and lodging to visitors to the City. For projects that propose a mixture							X	Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio

	of residential and non-residential uses, the minimum FAR <u>Floor Area Ratio</u> should be 0.2. <i>Density:</i> Maximum: 32 units per acre. <i>Maximum FAR-Floor Area Ratio:</i> 1.5							
<u>POLICY 1.2.4.</u>	D. Residential, Office, Retail (ROR) <i>Purpose:</i> A multi-use land use category to provide areas served by transit for use by residential uses, general office, medical and professional uses, restaurants, retail sales and personal services. It is expected that at least 30% of the undeveloped office/professional lands in the City will be developed with multi-family residential uses and adult care/retirement facilities. For projects that propose a mixture of residential and non-residential uses, the minimum FAR <u>Floor Area Ratio</u> should be 0.2. <i>Density:</i> Maximum: 15 units per acre. <i>Maximum FAR-Floor Area Ratio:</i> Restaurants, retail sales, and personal services shall not exceed a 0.2 FAR. All other uses shall not exceed 0.5.							Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio
<u>POLICY 1.2.5.</u>	E. Low Intensity Commercial (LIC) <i>Purpose:</i> A multi-use land use category to depict those areas of the city that are now developed, or appropriate to be developed, for retail, office and professional services, residential, and restaurants consistent with the surrounding uses, transportation facilities and natural resource characteristics of such areas. For projects that propose a mixture of residential and non-residential uses, the minimum FAR <u>Floor Area Ratio</u> should be 0.2. <i>Density:</i> Maximum 10 units per acre. <i>Maximum FAR-Floor Area Ratio:</i> 0.6							Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio

3. OBJECTIVE 1.3. PUBLIC INSTITUTIONAL	<u>The Future Land Use Map shall include the following Public Institutional land use category.</u>				X				Converted format into Goals, Objectives, and Policies.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Future Land Use Element, February 18, 2025									
<u>POLICY 1.3.1.</u>	A.—Public Institutional (PI) <i>Purpose:</i> This category includes governmental and public uses, such as City Hall, post offices, fire and police stations, and libraries; educational facilities, such as elementary, middle, and high schools, whether public, parochial or private; cemeteries; religious facilities; airport, hospitals, and other facilities, such as civic associations and service clubs, child care centers, and facilities for the care of the aged and infirm. Public uses are provided for in all zoning districts either as permitted or special exception uses. The City does not have a special zoning district for this land use category. Therefore, the underlying zoning district may be any district, provided that it is compatible with the surrounding zoning districts and the use of the parcel is consistent with the uses allowed in the district. In districts where such uses may be questionable, a public hearing may be required. Due to the scale and impracticability of showing all public/institutional uses, such uses are not always shown on the Land Use Map, even when permitted. <i>Density:</i> Maximum: Not permitted. <i>Maximum FAR—Floor Area Ratio:</i> 0.8 (2.0 within the Downtown Community Redevelopment area)							X	Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio
<u>4. OBJECTIVE 1.4. INDUSTRIAL</u>	<u>The Future Land Use Map shall include the following Industrial land use category.</u>				X				Converted format into Goals, Objectives, and Policies.
<u>POLICY 1.4.1.</u>	A.—Light Industrial/Utilities (LI/U)							X	Converted format into Goals, Objectives, and Policies.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Future Land Use Element, February 18, 2025									
	<i>Purpose:</i> To provide for the location of light industrial operations and similar uses and would generally include the I-1 (Light Industrial) type of development as stipulated in the zoning district regulations. This land use category also includes areas of the City which will be used for public utilities such as water and wastewater treatment plants, water tanks, and power stations and transit. <i>Density:</i> Not permitted. <i>Maximum FAR-Floor Area Ratio:</i> 0.8							Spell out Floor Area Ratio	
	B. Heavy Industrial Purpose: To depict those areas of the City that are now developed, or appropriate to be developed, in a general industrial manner and location consistent with surrounding use, transportation facilities, and natural resource characteristics. Heavier industrial land uses are generally appropriate to locations with sufficient size to encourage either an industrial park type arrangement with provision for internal service access or as a stand-alone industrial location, both of which incorporate adequate buffering of adverse noise, odor, or emissions; with minimal adverse impact on adjoining uses; and served directly by an arterial road network as well as by transit. Density: Not permitted. Maximum FAR: 0.75			X				The area around Hull Road had property in Volusia County that is designated for Heavy Industrial uses. Development of residential uses, the municipal airport, and sports complex makes the Heavy Industrial use incompatible with existing land uses.	
5. OBJECTIVE 1.5. RECREATION/ OPEN SPACE	<u>The Future Land Use Map shall include the following Recreation/Open Space land use category.</u>				X			Converted format into Goals, Objectives, and Policies.	
POLICY 1.5.1.	A. Recreation/Open Space (R/OS) <i>Purpose:</i> To provide land for public, semipublic, or privately-owned areas intended for active recreational uses. Permitted uses within this						X	Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio.

Future Land Use Element, February 18, 2025									
	category include ball fields, golf courses, archery ranges, sports complexes, outdoor recreation areas, contoured golf courses, public parks, picnic areas and gymnasiums. Recreation uses are provided for in all zoning districts as principal uses or special exceptions depending on the specific districts and whether they are public or private and indoor or outdoor. Density: Not permitted. Maximum FAR-Floor Area Ratio: 0.5								
6. OBJECTIVE 1.6. OPEN SPACE/ CONSERVATION	he Future Land Use Map shall include the following Open Space/Conservation land use category.				X			Converted format into Goals, Objectives, and Policies.	
POLICY 1.6.1.	A. Open Space/Conservation (OS/C). Purpose: This category includes two (2) subcategories: Parks, which includes public areas used for passive recreation, and Conservation which consists of areas within the City that have significant limitations to development, related to elevations, soils, probability of flooding, relationship to a major waterbody, wetland characteristics, or similar factors. This category of land use is applicable to all zoning districts. Density: Not permitted. Maximum FAR-Floor Area Ratio: 0.5						X	Converted format into Goals, Objectives, and Policies. Spell out Floor Area Ratio	
	B. Activity Center Purpose: To encourage the development of master planned, mixed-use developments that serve as a catalyst for economic development opportunities and provide for balanced, integrated communities. Density and intensity standards are listed under Policy 1.7.7 of the Future Land Use Element.						X	Created new Objective 1.7.

Future Land Use Element, February 18, 2025									
	<u>residential or retail commercial uses is strictly prohibited, but the conversion of non-residential uses to other non-residential use, excluding commercial retail, shall be allowed based on the net impacts of the proposed use on the roads, water, sewer and stormwater utilities. Any conversion to a different use cannot create additional impact on these facilities since these intensities and uses reflect the maximum impacts estimated to be produced by the land use mix shown in the table. The amount of a particular non-residential land use within Ormond Crossings may increase or decrease per Policy 2.7.7. of the Future Land Use Element.</u>								
GOAL 1. GOAL 2. LAND USE DISTRIBUTION	FUTURE DEVELOPMENT AND REDEVELOPMENT ACTIVITIES SHOULD BE DIRECTED IN APPROPRIATE AREAS AS DEPICTED ON THE FUTURE LAND USE MAP TO MEET THE LAND USE NEEDS OF THE ANTICIPATED POPULATION, IN A MANNER CONSISTENT WITH SOUND PLANNING PRINCIPLES, THE GOALS, OBJECTIVES AND POLICIES CONTAINED HEREIN, AND THE DESIRED COMMUNITY CHARACTER. THE FUTURE LAND USE ELEMENT SHOULD ALLOW LIMITED COMMERCIAL EXPANSION, PROMOTE INDUSTRIAL USE, AND MAINTAIN CURRENT RESIDENTIAL DENSITIES IN THE CORE AREA WHILE ESTABLISHING LOWER DENSITIES IN THE PERIMETER AREAS, FOCUSING REDEVELOPMENT IN THE DOWNTOWN COMMUNITY REDEVELOPMENT AREA, US1, AND SRA1A, AND PROVIDING FOR A CONTINUED HIGH LEVEL OF OPEN SPACE. FUTURE GROWTH SHALL BE TIMED AND LOCATED TO MAXIMIZE EXISTING PUBLIC INFRASTRUCTURE.	163.3177						X No change to text. Re-numbered.

Future Land Use Element, February 18, 2025									
POLICY 4.1.2. <u>2.1.2.</u>	Continue to promote sound planning for the location and design of new residential developments including on-site common open space and recreation facilities.							X	No change to text. Re-numbered.
POLICY 4.1.3. <u>2.1.3.</u>	Preserve the character of existing neighborhoods by not allowing intrusion of land uses that would threaten to alter the neighborhood character and by encouraging voluntary rehabilitation and sound maintenance programs in viable neighborhoods which are capable of self-renewal and establishing code enforcement or public redevelopment activities in areas not capable of self-renewal.							X	No change to text. Re-numbered.
POLICY 4.1.4. <u>2.1.4.</u>	Preserve the single-family estate character of oceanfront properties north of Granada Boulevard. Preserve the existing beachside, single-family residential areas, south of Granada Boulevard and east of South Atlantic Avenue, by maintaining their land use designation of “Low Density Residential.”							X	No change to text. Re-numbered.
POLICY 4.1.5. <u>2.1.5.</u>	Encourage innovative design measures for new residential developments and ensure that adequate provision is made for neighborhood facilities suitable to the type of development proposed.							X	No change to text. Re-numbered.
POLICY 4.1.6. <u>2.1.6.</u>	Provide the opportunity, through zoning and other land use controls, for the development of a variety of housing types (i.e., single-family, duplex, townhouse, multi-family) in both conventional, planned unit and cluster type developments, that will meet the varied needs of the citizens of Ormond Beach.							X	No change to text. Re-numbered.
POLICY 4.1.7. <u>2.1.7.</u>	Continuously review and modify development and building regulations to provide for sound residential communities and quality housing.							X	No change to text. Re-numbered.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Future Land Use Element, February 18, 2025									
POLICY 1.1.8. <u>2.1.8.</u>	Maintain the holding capacity requirement of the SLDR <u>Suburban Low Density Residential</u> land use designation in the Land Development Code.							X	Spell out acronym. Re-numbered.
POLICY 1.1.9. <u>2.1.9.</u>	Medium and high-density multi-family residential development shall be encouraged near employment centers with convenient access to public recreational facilities, the thoroughfare system and mass transit routes.							X	No change to text. Re-numbered.
POLICY 1.1.10. <u>2.1.10.</u>	Provide opportunities for housing geared to lower income families and the elderly in close proximity to shopping areas, mass transit facilities, convenient shopping, hospitals and recreational opportunities by designating these “opportunity” areas as Medium Density Residential on the Future Land Use Map.							X	No change to text. Re-numbered.
POLICY 1.1.11. <u>2.1.11.</u>	Encourage medium density multi-family residential development within the Downtown CRA <u>Community Redevelopment Area</u> and in areas where excessive commercial uses currently occur. Generally, maintain the current density ranges in the core City while providing for lower density development in the perimeter areas of the City.							X	Spell out acronym. Re-numbered.
POLICY 1.1.12. <u>2.1.12.</u>	The City shall continue to implement its Community Development Block Grant Program to improve the general quality of existing viable, but deteriorating neighborhoods, and remove blighting influences, in accordance with the programs described in the Housing Element. Building and housing codes shall be strictly enforced to help prevent or eliminate urban blight.							X	No change to text. Re-numbered.
POLICY 1.1.13. <u>2.1.13.</u>	Encourage the redevelopment of blighted residential areas and promote the rehabilitation of deteriorated residential areas to increase the supply of affordable housing.							X	No change to text. Re-numbered.

			Keep	Delete	New	Replace	Move	Modify	
Future Land Use Element, February 18, 2025									
POLICY 1.1.14. <u>2.1.14.</u>	Enhance community livability in the central core and older sections of the City by encouraging infill as appropriate, transit-oriented development and walkable residential areas.							X	No change to text. Re-numbered.
POLICY 1.1.15.	Densities in the Medium Density Residential (MDR) land use category shall be limited as provided in Section B of the Future Land Use Element. Notwithstanding, on or after April 1, 1993, whenever an individual site is designated MDR and zoned Manufactured Home Community District (T-1), the density of development of such site shall be limited to a maximum of 5 du/ac. In the event that such site is subsequently rezoned or is otherwise developed under zoning provisions other than those for the Manufactured Home Community District, the maximum density shall nevertheless remain 5 du/ac unless changed pursuant to a duly adopted amendment to the Comprehensive Plan.			X					Proposed to be deleted.
POLICY 1.1.16. <u>2.1.15.</u>	Properties with the REA Rural Estate/Agriculture land use designation shall maintain their existing land use density. These properties shall not have their land use modified to permit more intensive residential uses.							X	Spell out acronym. Re-numbered.
OBJECTIVE 1.2.2.2. COMMERCIAL LAND USE	Ensure that adequate amounts of land are available to meet the commercial land use needs of the community.	163.3177						X	No change to text. Re-numbered.
POLICY 1.2.1. <u>2.2.1.</u>	New development and redevelopment shall not exceed the FAR established in Section B <u>Floor Area Ratio</u> established in Goal 1 of the Future Land Use Element. Parking garages shall not be calculated as floor area ratio.							X	Updated acronym and referenced Goal 1. Re-numbered.
POLICY 1.2.2. <u>2.2.2.</u>	Auto based strip commercial development along existing and future roads shall be discouraged while compact centers located near major intersections with adequate off-street parking shall be encouraged. Uses generating high traffic volumes should be restricted to corner locations.							X	No change to text. Re-numbered.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Future Land Use Element, February 18, 2025									
POLICY 4.2.3. <u>2.2.3.</u>	Shopping centers shall be located in areas along arterials with secondary access to another collector or arterial street providing convenient access to surrounding residential areas as well as opportunity to facilitate return trips. Such uses shall provide adequate off-street parking and loading spaces; adequate on-site traffic circulation; and be encouraged to incorporate landscaping and other aesthetic amenities in their design.							X	No change to text. Re-numbered.
POLICY 4.2.4. <u>2.2.4.</u>	Tourist oriented hotel/motel development and appropriate support facilities shall be located along A1A south of Granada Boulevard and near highway interchanges, and shall not be permitted to intrude into established residential areas north of Granada Boulevard nor established residential areas east of South Atlantic Avenue, further westward of A1A than is currently permitted south of Granada Boulevard.							X	No change to text. Re-numbered.
POLICY 4.2.5. <u>2.2.5.</u>	The redevelopment and renewal of blighted commercial areas shall be encouraged.							X	No change to text. Re-numbered.
POLICY 4.2.6. <u>2.2.6.</u>	New commercial development shall be required to provide appropriate buffers and landscaping to minimize negative impacts on surrounding uses.							X	No change to text. Re-numbered.
POLICY 4.2.7. <u>2.2.7.</u>	Maintain the tourist commercial character of the A1A corridor, except as noted in Policies 4.1.4. <u>2.1.4.</u> and 4.2.4. <u>2.2.4.</u> Design guidelines should be established in the Land Development Code <u>should be maintained</u> for all new development along the ocean so that, in the future, buildings will be homogeneous and compatible with surrounding constructions and will represent a common theme. Maintain oceanfront setbacks for properties located along the Atlantic Ocean. Oceanfront development should be airy and open with a minimum of interference with the ocean view and breeze.							X	The Land Development Code contains architectural and landscaping requirements for new development. Updated Policy references. Re-numbered.
POLICY 4.2.8. <u>2.2.8.</u>	Professional and medical uses shall be encouraged to locate along the Greenbelt corridor and in the area accessible to their respective clientele.							X	No change to text. Re-numbered.

Future Land Use Element, February 18, 2025									
OBJECTIVE 1.4.2.4. UTILITY/INDUSTRIAL LAND USES	Provide sufficient land area for the location of utility/industrial land uses, and encourage light industrial development in order to provide increased employment opportunities and to broaden the City’s economic base.	163.3177						X	No change to text. Re-numbered.
POLICY 1.4.1.2.4.1.	Light industry shall be encouraged to locate in the community in those areas where transportation, power, and water and sewer facilities are available or can be provided, and where impact on surrounding residential areas and the environment can be kept to a minimum.							X	No change to text. Re-numbered.
POLICY 1.4.2.	Heavy industrial uses shall be located to minimize impacts to adjoining properties, especially residential uses. It is anticipated that some heavy industrial uses will be annexed into the City as they require connection to City utilities. In general, the heavy industrial land use category should be used sparingly and where no adverse impacts can be demonstrated.			X					Heavy industrial land use proposed to be removed.
POLICY 1.4.3.2.4.2.	Continue to develop the Airport Business Park and encourage employee-intensive, light industry to locate there.							X	No change to text. Re-numbered.
POLICY 1.4.4.2.4.3.	Excessive air, noise, water, and visual pollution from industrial activities shall be prohibited and incorporation of landscaping and other aesthetic amenities in industrial project design shall be encouraged.							X	No change to text. Re-numbered.

	d. Fire and explosion hazards; e. Radioactive elements; f. Electromagnetic interference; g. Smoke, dust and dirt; h. Vibrations; i. Glare; j. Hazardous Waste; k. Toxic Waste; and l. Petroleum contaminants.								
OBJECTIVE 4.5.2.5. RECREATION/OPEN SPACE LAND USE	The City shall acquire or dedicate lands for the provision or expansion of active recreation facilities to meet the existing and future needs of the population, as determined in the Capital Improvements Element.	163.3177						X	Text – added land use. Re-numbered.
POLICY 4.5.1.2.5.1.	The recreation impact fee rebate program should be continued to offset the recreation and open space impacts of new development.							X	Text change - Impact fees are collected to offset the recreation and open space of new development. Not referred to as an impact fee rebate program. Re-numbered.
POLICY 4.5.2.2.5.2.	The City shall upgrade existing facilities when needed to assure that they provide for adequate active recreation opportunities.							X	No change to text. Re-numbered.
OBJECTIVE 4.6.2.6. OPEN SPACE/CONSERVATION LAND USE	The City shall acquire or dedicate lands to ensure their protection where there are environmental assets that shall be preserved, as well as providing community access and/or recreation opportunities/value to the community.	163.3177						X	Minor text amendment– added land. Re-numbered.
POLICY 4.6.1.2.6.1.	The City shall upgrade existing City-owned parks when, as financially feasible, to assure that they provide for adequate access to passive recreation areas.							X	No change to text. Re-numbered.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification		
			Keep	Delete	New	Replace	Move		Modify	
Future Land Use Element, February 18, 2025										
POLICY 4.6.2. <u>2.6.2.</u>	The City shall maintain a zoning district category to assure protection of open space/conservation uses entitled: “Special Environmental District” (SE). The following criteria shall apply to the implementation of this Policy: ➤ The SE <u>Special Environmental zoning</u> district applies to all Department of Environmental Protection or Army Corps of Engineers jurisdictional wetland lines. This area includes mosquito impoundment districts. ➤ The SE <u>Special Environmental zoning</u> district applies to environmentally sensitive areas designated for public acquisition and protection or areas currently in public ownership which should be subject to open space and conservation type land uses.							X	Spelled out SE – Special Environmental. Clarified zoning district Re-numbered.	
POLICY 4.6.3. <u>2.6.3.</u>	Project <u>Protect</u> existing agricultural lands by allowing existing agricultural operations to continue; rezoning of these lands should not occur unless requested by property owners.								X	Property owner would need to amend both land use and zoning designations. Re-numbered.
POLICY 4.6.4. <u>2.6.4.</u>	Encourage retention of natural vegetation and use of native plant species in all projects in order to reduce irrigation needs and minimize vegetation loss during deep freeze periods, protect wildlife habitat areas; and provide suitable natural open space areas in the urban environment.								X	Corrected punctuation; removed comma after “habitat areas” Re-numbered.
POLICY 4.6.5. <u>2.6.5.</u>	The City shall continually consider the acquisition of sensitive lands in the North US1 corridor and in the flood prone areas south of Granada Boulevard that are shown in the Future Land Use Map as Open Space/Conservation for passive open space use. Environmentally sensitive areas as defined in Policy 45.1.1. of this Element with an underlying land use in the Land Use Element are to be carefully monitored for on and off-site environmental impacts during the site plan review process.								X	Updated Policy reference from 4.1.1. to 5.1.1. Re-numbered.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Future Land Use Element, February 18, 2025									
OBJECTIVE 1.7.2.7. ACTIVITY CENTERS <u>LAND</u> <u>USE</u>	The City of Ormond Beach establishes the “Activity Center” land use classification to encourage the development of master planned, mixed-use developments that serve as a catalyst for economic development opportunities and provide for balanced, integrated communities.	163.3177						X	Minor text amendment. Added land use.
POLICY 1.7.1.2.7.1.	The application of the Activity Center land use designation shall be limited to properties with minimum areas of 2,000 acres that are under single ownership. A Development of Regional Impact or rezoning to Planned Development shall be required of all properties designated as “Activity Center” on the Future Land Use Map. The Florida Community Renewal Act of 2009 identified that property owners can decide to not participate in the DRI <u>Development of Regional Impact</u> process if the project is located in a Dense Urban Land Areas (DULA’s). The City is a DULA, as so designated by the Florida Department of Community Affairs in July 2009. To ensure that there is a coordinated and integrated development, all property designated as “Activity Center” shall be required to have a zoning classification of “Planned Development.” The City shall not use the “Activity Center” land use to prematurely develop lands in a fashion that encourages sprawl. Sprawl shall be identified by the following conditions: 1. Promotes, allows or designates for development substantial areas of the jurisdiction to develop as low-intensity, low density or single-use development or uses in excess of the demonstrated need. 2. Fails to maximize use of existing and future public facilities and services. 3. As a result of premature or poorly planned conversion of rural land to other uses, fails to adequately protect and conserve natural resources, such as wetlands, floodplains, native vegetation, environmentally sensitive areas, natural groundwater aquifer recharge areas, lakes, rivers, shorelines,							X	Spell out DRI acronym. Re-numbered.

Goals, Objectives, Policies		Recommended Action						Explanation/Modification
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify
Future Land Use Element, February 18, 2025								
	beaches, bays, estuarine systems, and other significant natural systems. 4. Fails to adequately protect adjacent agricultural areas and activities, including silviculture, active agricultural activities, as well as passive agricultural activities, dormant, unique prime farmlands and soils. 5. Allows for land use patterns or timing which disproportionately increase the cost in time, money and energy of providing and maintaining facilities and services, including roads, potable water, sanitary sewer, stormwater management, law enforcement, education, health care, fire and emergency response, and general government. 6. Fails to provide a clear separation between rural and urban uses. 7. Results in the loss of significant open space.							
POLICY 4.7.2. <u>2.7.2.</u>	Development proposals for property designated as “Activity Center” shall provide for a diversity of land uses, including, but not limited to industrial, manufacturing, commercial, office, and residential. Emphasis shall be placed on developments that integrate linkages between related land uses; for example, a development that minimizes home to work trips through shorter distance and/or public transportation.						X	Corrected punctuation; added comma after “office” Re-numbered.
POLICY 4.7.3. <u>2.7.3.</u>	The following guidelines and standards shall be established through the DRI and rezoning to Planned Development procedures and shall, at a minimum, address the following: 1. Integration of land uses and enhancement of economic and environmental opportunities; 2. Urban design and architectural control; 3. Coordinated, transportation systems and access management standards;						X	Minor text amendment of deleting DRI reference. Ormond Crossings is not a DRI and the DRI process has been removed from state law. Re-numbered.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification
			Keep	Delete	New	Replace	Move	
Future Land Use Element, February 18, 2025								
	4. Innovative land use standards designed to protect and enhance environmental resources; 5. Coordinated and orderly provision of public utilities;and 6. Comprehensive provision of educational and recreational activities and facilities. This will require the coordination and approval of the DRI and/or rezoning to “Planned Development” by the appropriate staff member of the Volusia County School Board. 7. The following are specific design guidelines that are established to ensure that projects developed within the “Activity Center” land use provide for a balanced and sustainable mix of uses. All development shall, at a minimum, be required to: A. Provide visual harmony by, but not limited to, such mechanisms as sign control (i.e., number, height and copy area), establishing landscape screening/buffering requirements (i.e., width and composition), requiring the use of underground utilities, and establishing building setbacks and height requirements; B. Encourage building orientation which promotes interaction between different projects and discourages creating unnecessary separation or the isolation of projects; C. Use shared parking, access and loading facilities, as practical in an effort to reduce impervious surfaces; D. Promote vehicular, pedestrian, and non-vehicular movement throughout the Activity Center; E. Provide a network of unifying open spaces (said open spaces shall be in, or predominantly in, a natural state)							

Goals, Objectives, Policies		Recommended Action						Explanation/Modification
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify
Future Land Use Element, February 18, 2025								
	which promote linkage with other adjoining developments; and F. Use common frontage/service roads where appropriate; and G. Use shared or joint facilities, such as stormwater, bus stops, and utility easements. 8. The “Activity Center” land use must provide for a balance of uses within a framework of transportation, social and economic connectivity. The following guidelines will be applied to all projects developed through either a DRI or a Planned Development within the “Activity Center” land use category: A. There shall be an industrial component located near major transportation facilities to provide for employment opportunities and expansion of the City’s economic base. The development within these areas shall focus on manufacturing, distribution, and warehousing. Other ancillary uses may be allowed provided it is compatible with the industrial uses. B. There shall be commercial retail located at critical points to serve local and regional needs. Local retail uses shall be integrated within both residential and non-residential areas, for example within industrial and office complexes the integration of convenience shopping and restaurant uses will be encouraged. The development of town centers shall be identified so that vertical integration of office, retail and residential uses shall be massed in a compact urban form. Lastly, the location of regional retail centers should be located and developed in a manner that does not prohibit the

Future Land Use Element, February 18, 2025									
	development of industrial and office uses, nor shall it be inconsistent with efforts to develop compact town centers.								

POLICY 1.7.4.2.7.4.	There are limited opportunities to use this designation, given the existing land use pattern within the City and properties in adjacent unincorporated Volusia County. There is a property that is identified as "Ormond Crossings". This property is located west of US1 and straddles both sides of I-95. There are approximately 3,095 acres of land included in this amendment that will be <u>was</u> under the sole ownership of one corporation, Tomoka Holdings, L.L.C. The following provides generalized standards for any property that the City determines to be appropriate for this land use classification. There are also specific standards established solely for the "Ormond Crossings" development. The following are general standards that apply to all properties designated as "Activity Center" on the City's Future Land Use Map: 1. Land uses within Activity Centers shall include residential, office, business park/flex space, light industrial, mini-warehouse, warehouse, commercial, institutional, schools and recreation. The density and intensity of each land use and the percentage distribution among the mix of uses shall be provided in each land use plan amendment designating an Activity Center. 2. Contain a minimum of 2,000-acres under single ownership. 3. Located adjacent to major transportation systems such as interstate and intrastate highways, transit/bus route, rail lines and/or the municipal airport to ensure access to various modes of travel. 4. Incorporate a balanced integration of varied land uses that are interrelated and dependent on each other. For example, multi-family elements in close proximity to retail and work-related uses. 5. Provide for a land use pattern that emphasizes employment-based uses (light industrial, manufacturing, distribution, and corporate headquarters), daily and regional retail and various residential uses. 6. The land use pattern within Activity Centers shall be designed to ensure sufficient connectivity between these uses through							X	Minor text amendment to remove property owner which may change over time. Re-numbered.

Future Land Use Element, February 18, 2025								
	various travel opportunities. The intent is to internalize the trips and minimize the length of the home to work; home to school, and home to shopping trips. 7. Integrate urban design and architectural standards that provide for enhanced value and improved use of space. Typical standards would include, but not be limited to, the regulation and design of signage, tree preservation and landscape buffering, building placement and architectural style, parking arrangement and orientation, and pedestrian/transit opportunities. 8. Establishing specific master plans for the protection and enhancement of natural resources, including but not limited to, wetlands, protected species and protection of the floodplain. 9. Site development/civil engineering plans that emphasize connection to public supplies of water, sanitary sewer and effluent that provide incentives to projects to develop in areas appropriate for development. 10. Traffic circulation and access management that integrate the project into the local, county, regional, and State road system in a manner that maintains the applicable level of service. The focus is to ensure that the appropriate facility is being used to move the maximum volume of traffic in the most efficient way. 11. Establishing a master plan for recreational, public safety and educational facilities to serve the development. Emphasis shall be placed on integration of educational and recreational facilities to better serve the population. Public safety facilities shall be designed to serve the entire project and shall be							

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification

Future Land Use Element, February 18, 2025									
	constructed at a time where there are adequate response times from the various public safety providers.								
POLICY 1.7.5-2.7.5.	The application of the Activity Center land use designation shall be limited to properties with minimum area of 2,000 acres that are under single ownership. A Development of Regional Impact or rezoning to Planned Development shall be required of all properties designated as “Activity Center” on the Future Land Use Map. The Florida Community Renewal Act of 2009, identified that property owners can decide to not participate in the DRI process if the project is located <u>in</u> a Dense Urban Land Areas (DULA’s). The City is a DULA, as so designated by the Florida Department of Community Affairs in July 2009. To ensure that there is a coordinated and integrated development, all property designated as “Activity Center” shall be required to have a zoning classification of “Planned Development.” The City shall not use the “Activity Center” land use to prematurely develop lands in a fashion that encourages sprawl. Sprawl shall be identified by the following conditions: 1. Promotes, allows or designates for development substantial areas of the jurisdiction to develop as low-intensity, low density or single-use development or uses in excess of the demonstrated need. 2. Fails to maximize use of existing and future public facilities and services. 3. As a result of premature or poorly planned conversion of rural land to other uses, fails to adequately protect and conserve natural resources, such as wetlands, floodplains, native vegetation, environmentally sensitive areas, natural groundwater aquifer recharge areas, lakes, rivers, shorelines, beaches, bays, estuarine systems, and other significant natural systems.							Corrected punctuation; added the word “in” for clarification. Minor text amendment of deleting DRI reference. Ormond Crossings is not a DRI and the DRI process has been removed from state law. Re-numbered.

	4. Fails to adequately protect adjacent agricultural areas and activities, including silviculture, active agricultural activities, as well as passive agricultural activities, dormant, unique prime farmlands and soils. 5. Allows for land use patterns or timing which disproportionately increase the cost in time, money and energy of providing and maintaining facilities and services, including roads, potable water, sanitary sewer, stormwater management, law enforcement, education, health care, fire and emergency response, and general government. 6. Fails to provide a clear separation between rural and urban uses. 7. Results in the loss of significant open space.								
POLICY 1.7.6.	The following guidelines and standards shall be established through the rezoning to Planned Development procedures and shall, at a minimum, address the following: 1. Integration of land uses and enhancement of economic and environmental opportunities; 2. Urban design and architectural control; 3. Coordinated, transportation systems and access management standards; 4. Innovative land use standards designed to protect and enhance environmental resources; 5. Coordinated and orderly provision of public utilities; and 6. Comprehensive provision of educational and recreational activities and facilities. This will require the coordination and approval of the rezoning to “Planned Development” by the appropriate staff member of the Volusia County School Board.			X				Proposed to be deleted. 	The Ormond Crossings Activity Center is a project that consists of 2,940 acres of land situated southwest of the FEC Florida East Coast Railroad,							• Minor text changes. • Spelled out acronyms.

Goals, Objectives, Policies		Recommended Action						Explanation/Modification
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify
Future Land Use Element, February 18, 2025								
POLICY 1.7.7.2.7.6.	north of the City of Ormond Beach Municipal Airport, east of the Flagler County line. There are 155-acres of land located between the FEC <u>Florida East Coast</u> Railroad and US1 that was part of the original annexation. This area is disconnected from the Activity Center project by the FEC <u>Florida East Coast</u> Railroad and is best developed under the commercial and industrial land uses that were originally assigned by the City or Volusia County. The owner of the property, Tomoka Holdings, L.L.C., working in conjunction with the City, plans to develop the property for a mixed-use development. The City of Ormond Beach vision, as defined by the City Commission in July 2004, establishes specific design, use and development goals for the entire property. The property owner has cooperated with the City of Ormond Beach and prepared a Preliminary Assessment Report that provides better details and direction to the vision established by the City Commission. Both of these documents have been referenced and shall be used for conceptual guidance of the review of the were used in the rezoning to “Planned Development.” There are specific conditions that establish minimum standards for the development within the “Activity Center” and the City cannot approve any development orders that deviate from those standards. The standards applicable to the Ormond Crossings project include the following:							- Deleted property owner and referenced Planned Development has been approved. - Removed “and” at the end of #3E-2c-3 and 4. - Added “s” to “park” in #3E-2b-2 and to “wetland” in #3E-2c-6. #3E-1-b added “1” to US1. - Re-numbered.
POLICY 1.7.7.2.7.6. (cont.)	1. The project shall consist of a mixture of uses, with the following establishing the minimum building area allocated by use. In order to ensure that the project provides the necessary economic diversity there shall be a minimum of 1,000-acres of land (inclusive of rights-of-way, wetlands and stormwater facilities) to be developed for a “Commerce Park” that will have a mixture of industrial, warehousing, distribution, office and limited retail. This will be coordinated with retail and residential uses in order to minimize net external trips outside the boundary of the Activity Center land use							(continued) - Minor text changes. - Spelled out acronyms. - Deleted property owner and referenced Planned Development has been approved. - Removed “and” at the end of #3E-2c-3 and 4. - Added “s” to “park” in #3E-2b-2 and to “wetland” in #3E-2c-6. #3E-1-b added “1” to US1.

POLICY 1.7.7-2.7.6. (cont.)	of non-residential uses within the Ormond Crossings Activity Center to residential or retail commercial uses is strictly prohibited, but the conversion of non-residential uses to other non-residential use, excluding commercial retail, shall be allowed based on the net impacts of the proposed use on the roads, water, sewer and stormwater utilities. Any conversion to a different use cannot create additional impact on these facilities since these intensities and uses reflect the maximum impacts estimated to be produced by the land use mix shown in the table. The amount of a particular non-residential land use within Ormond Crossings may increase or decrease, provided: A. Aggregate potable water, wastewater and reclaimed water demands of Ormond Crossings shall not exceed the totals proposed for the uses identified in the table above. Any change of land use must address changes to the potable water usage and identify if the potable water capacity allocation under the applicable consumptive use permit is available. B. The intensity within the Business Park shall not exceed 1.0 FAR Floor Area Ratio on any individual building site or an average .35 FAR Floor Area Ratio throughout the entire Business Park. C. The building height shall not exceed 75'. D. Increasing the number of residential units and retail commercial uses is strictly prohibited. E. The change will not increase total offsite traffic impacts from the project (4,551 Net External Peak Hour Trips). 3. The development of this mixed-use project shall incorporate focal points of retail, office, residential and open space to create "Town Centers" that will provide a variety of services to corporate, industrial and residential developments located throughout the							• #3E-1-b added "1" to US1. • Re-numbered (continued) • Minor text changes. • Spelled out acronyms. • Deleted property owner and referenced Planned Development has been approved. • Removed "and" at the end of #3E-2c-3 and 4. • Added "s" to "park" in #3E-2b-2 and to "wetland" in #3E-2c-6. • #3E-1-b added "1" to US1. • Re-numbered

		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify
Future Land Use Element, February 18, 2025								
POLICY 1.7.7-2.7.6. (cont.)	project. The final development shall incorporate residential uses in urban, suburban and rural settings. Densities shall be established in the Planned Development Orders, but the total number of units allocated to the portion of the Ormond Crossings project in Ormond Beach shall not exceed 2,950 units. There shall be a fixed number of units allowed in the Ormond Beach portion of the project. The final residential densities shall be coordinated with the adjacent uses to ensure compatibility. It is important that the Planned Development use development standards that encourage the use of buffers and clustering of units to ensure that the rural and natural resources of the area are protected. To encourage compact urban development higher density residential uses should be integrated into the office and commercial development occurring within the project. Due to the amount of environmentally sensitive lands located at the southwest portion of the Ormond Crossings Activity Center, west of I-95, near Durance Acres, the use of clustering to establish large tracts of open land for preservation and conservation shall be encouraged. A. Provision of utilities and other urban infrastructure shall be the responsibility of the Developer and shall be coordinated with the adjacent counties and municipalities to ensure efficiency. The City shall work with the Developer to establish a Community Redevelopment Agency that will facilitate the design and construction of a “spine road” that serves as a principal arterial roadway. This roadway shall provide for elevated crossings of the Florida East Coast Railroad and I-95 so as to connect the east and west sides of the project. The road shall span from US1 on the east side of I-95 to over I-95 and terminate at Tymber Creek Road on the west side of I-95. B. The I-95 and US1 corridors provide for valuable inter and intrastate transportation. The visual impact of this project on							(continued) • Minor text changes. • Spelled out acronyms. • Deleted property owner and referenced Planned Development has been approved. • Removed “and” at the end of #3E-2c-3 and 4. • Added “s” to “park” in #3E-2b-2 and to “wetland” in #3E-2c-6. • #3E-1-b added “1” to US1. • Re-numbered

		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify
Future Land Use Element, February 18, 2025								
POLICY 1.7.7-2.7.6. (cont.)	these two roadways has been identified as a primary concern by the City Commission. The Planned Development zoning development orders shall include specific design standards for the appearance of the project adjacent to these roadways. The plans shall also include an access management plan that protects the efficiency of the roadway by limiting driveway access, limited number of full turning movement intersections and a hierarchy of principal arterial, collector and local roads that feed into US1. C. The project shall provide for a master plan regarding wetland impacts and mitigation. The plan shall also address floodplain issues, such that there is a comprehensive approach to the wetland and flood-prone areas to be impacted by development. The primary purpose is to identify marginal wetland areas that may be developed as well as larger pristine areas that should be protected. The second purpose is to establish a mitigation plan that allows for the transfer of impacts and mitigation that preserves and protects large ecosystems within the project boundary. D. The interim use of the property for silviculture, pasture lands and similar low-intensity agricultural uses shall be allowed. A site will no longer be deemed to be in a bona fide agricultural use after there is an active development proceeding on the site. Active development shall mean a site plan or subdivision application for non-agricultural uses has been reviewed and approved by the City. Intensive agricultural uses such as mining, animal/crop processing or animal holding pens for food production shall not be allowed within the project. Provisions implementing this policy shall be incorporated into the Planned Development zoning.							(continued) • Minor text changes. • Spelled out acronyms. • Deleted property owner and referenced Planned Development has been approved. • Removed “and” at the end of #3E-2c-3 and 4. • Added “s” to “park” in #3E-2b-2 and to “wetland” in #3E-2c-6. • #3E-1-b added “1” to US1. • Re-numbered

Future Land Use Element, February 18, 2025								
POLICY 1.7.7-2.7.6. (cont.)	E. The primary goal of the Ormond Crossings development is to provide an opportunity for the development of industrial uses on the east side of I-95 that is integrated with other commercial, office and residential uses. The final outcome is an integrated mixed-use development that provides opportunities for work, home, social/cultural and preservation of natural resources. The following are guidelines to be used in the drafting of the Planned Development rezoning. 1. Accessibility: In regard to the Ormond Crossings project, accessibility is a primary resource to draw both employment-based users. It is understood that market conditions indicated that the development of the property for residential uses can be accomplished quickly. The primary rationale for attempting to diversify the land uses for non-residential uses is to capitalize on the accessibility to truck and rail freight. This provides the area with a strong attraction. In order to assure that the diversity of land uses within this project is realized, the following conditions should be in place: a. Thoroughfares identified to service industrial uses shall be identified through the zoning to Planned Development. These roads shall be designed to accommodate the loading and travel demands of the pending industrial users. Integration with a grid or modified grid system shall be incorporated into the final design to ensure simplicity in movement of truck and passenger vehicles. The integration of multi-modal opportunities shall be developed and incorporated into the design of all development types.							(continued) • Minor text changes. • Spelled out acronyms. • Deleted property owner and referenced Planned Development has been approved. • Removed “and” at the end of #3E-2c-3 and 4. • Added “s” to “park” in #3E-2b-2 and to “wetland” in #3E-2c-6. • #3E-1-b added “1” to US1. • Re-numbered

Future Land Use Element, February 18, 2025								
POLICY 1.7.7-2.7.6. (cont.)	b. Integration with non-industrial uses within Ormond Crossings shall be accomplished through a series of collector roads that connect to the proposed arterial roadway that connects US1. c. Residential development shall be laid out such that each neighborhood shall provide pedestrian connectivity throughout the neighborhood to sidewalks, off-street paths and roadways. The integration of multi-modal opportunities shall be developed and incorporated into the design of all development types. d. Commercial and office uses shall provide for vehicular, pedestrian and multi-modal accessibility throughout the development. 2. Land Use Compatibility: The balancing of industrial retail, residential land use with the natural resources within the Ormond Crossings area is the principal concern of the City. The project provides opportunities to attract significant employment-based land uses, as well as opportunities to preserve, protect and enhance significant natural resources. The following guidelines shall be used as additional requirements to Federal, State and Regional regulations: a. Industrial land uses shall be located to minimize potential negative impacts to wetlands and upland systems. The primary location of intensive industrial uses shall be concentrated on the east side of I-95. There are wetlands of varying quality located on this							(continued) • Minor text changes. • Spelled out acronyms. • Deleted property owner and referenced Planned Development has been approved. • Removed “and” at the end of #3E-2c-3 and 4. • Added “s” to “park” in #3E-2b-2 and to “wetland” in #3E-2c-6. • #3E-1-b added “1” to US1. • Re-numbered

POLICY 1.7.7-2.7.6. (cont.)	side of I-95. The large cypress dome located near Harmony Road and Pineland Trail should be preserved and integrated into the stormwater management systems. This area also serves as a potential buffer to the residential uses located south of Ormond Crossings. The other significant wetland resources consist of wet prairies and isolated cypress domes. All of this area has been impacted by wildfires and silviculture. The development of industrial uses adjacent to the FEC <u>Florida East Coast</u> railroad shall be done in a fashion that limits negative impacts to those wetland resources that are to be preserved. Preservation shall be through either public ownership or through private ownership with conservation easements granted to the City and other reviewing agencies. b. Traditional retail and industrial uses along the US1 corridor, outside the Activity Center area, shall be allowed, however there shall be sufficient standards to ensure: 1) Architectural and landscaping standards that provide for a coordinated and unified development theme to ensure stability and vitality along the corridor; 2) Integration of public spaces connected to the retail areas such as linear parks, sidewalks and trails to ensure that pedestrian and bicycle traffic can easily access the retail centers; and							(continued) • Minor text changes. • Spelled out acronyms. • Deleted property owner and referenced Planned Development has been approved. • Removed “and” at the end of #3E-2c-3 and 4. • Added “s” to “park” in #3E-2b-2 and to “wetland” in #3E-2c-6. • #3E-1-b added “1” to US1. • Re-numbered

GOAL 2-3. LAND USE COMPATIBILITY	THE LAND USE ELEMENT SHALL, ENSURE THAT LAND USES ARE AVAILABLE IN A COMPATIBLE ARRANGEMENT MAXIMIZINIG EFFICIENCT USE OF PUBLIC INFRASTRUCTURE WHILE MINIMIZING NEGATIVE IMPACTS UPON EACH OTHER. THE CITY SHALL ENSURE ADEQUATE MANAGEMENT OF FUTURE DEVELOPMENT THROUGH THE CONTINUED REVIEW OF EXISTING REGULATONS AND, WHERE NECESSARY, THE GENERATION, ADOPTION AND IMPLEMENTATION OF EFFECTIVE, COMPREHENSIVE, AND EQUITABLE DEVELOPMENT STANDARDS IN ORDER TO FURTHER THE QUALITY OF NEW DEVELOPMENT.	163.3177						X	Corrected punctuation; removed comma after “shall”; added comma after “EFFECTIVE” and “Comprehensive” Re-numbered.
OBJECTIVE 2.1-3.1. DEVELOPMENT REGULATIONS	The City’s Land Development Code shall include innovative techniques to guide development of land in such a manner as not to reduce reliance upon land use type separation as the sole way of assuring compatibility of various uses. This would include increased landscaping, buffering, fencing (and walls), lighting, signage, and architectural controls.	163.3177						X	Corrected punctuation; added comma after “signage” Re-numbered.

Future Land Use Element, February 18, 2025									
POLICY 2.1.1. <u>3.1.1.</u>	The City shall adopt and maintain land development regulations that contain specific provisions required to implement the Comprehensive Plan and which at a minimum: a. Regulate the subdivision of land; b. Regulate the use of land and water bodies consistent with this Plan and ensure the compatibility of adjacent land uses; c. Provide for open space; d. Protect the City’s natural resources; e. Regulate areas subject to seasonal and periodic flooding and provide for drainage and stormwater management; f. Protect potable water well fields and aquifer recharge areas; g. Regulate signage; h. Ensure safe and convenient traffic flow on and off site and vehicle parking needs; i. Provide that development orders and permits issued shall not result in a reduction below the Level of Service standards adopted in the Comprehensive Plan; j. Provide for the transfer of development rights; k. j. Contain performance standards for protecting archaeological or historically significant properties or buildings; l. k. Protect against adverse impacts to wildlife and their habitats; and m. l. Provide architectural control regulations for commercial, multi-family and industrial buildings.							X	There are no provisions for the transfer of development rights. Delete letter “j” Re-ordered lettering after deleted line “j” Re-numbered.
POLICY 2.1.2. <u>3.1.2.</u>	Innovative land development regulations, which may include planned developments, mixed-use land use development techniques, form-based							X	Hyphenated “mixed-use”

Future Land Use Element, February 18, 2025									
POLICY 4.1.6- <u>5.1.6.</u>	The City shall, in conjunction with the Department of Environmental Protection, maintain and review its environmental protection regulations as necessary to protect environmentally sensitive lands within the Tomoka Marsh Aquatic Preserve and shall continue to review development activity to ensure general consistency with the Tomoka Marsh Aquatic Preserve Management Plan.							X	No change to text. Re-numbered.
POLICY 4.1.7- <u>5.1.7.</u>	Dredge spoil <u>material management</u> sites are a public use required for the safe and efficient operation of the Intracoastal Waterway. It is the legislative mandate of the Florida Inland Navigation District (FIND) to provide all lands necessary for the construction, operation and maintenance of the Atlantic Intracoastal Waterway in Florida. Site selection for spoil <u>dredge material management</u> sites are performed by FIND <u>the Florida Inland Navigation District</u> in conformance with their legislative mandate. Site inventories as part of FIND'S <u>the Florida Inland Navigation District's annual</u> public facilities report shall be submitted to the City annually starting with the 1998 annual report as directed by Section 189.08, Florida Statutes.							X	Informed by Florida Inland Navigation District representative that the term “spoil sites” are no longer used. Other changes are updated as recommended by Florida Inland Navigation District. Spell out acronyms Re-numbered.
POLICY 4.1.8- <u>5.1.8.</u>	The City shall be notified by the Florida Department of Environmental Protection when FIND <u>the Florida Inland Navigation District</u> submits a permit for a new or modified dredge-spoil-site <u>Dredged Material Management Area</u> . The City Commission may submit comments to the Florida Department of Environmental Protection regarding the consistency/inconsistency of the permit application with the City’s Comprehensive Plan compatible with the provisions of Chapter 403.973(24)(a), Florida Statutes.							X	Updated as recommended by Florida Inland Navigation District. Spelled out acronym. Re-numbered.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Future Land Use Element, February 18, 2025									
POLICY 4.1.9- <u>5.1.9.</u>	No new spoil islands shall be developed except when showing that their development is in the public interest and a hardship would result if the development is not authorized consistent with Rule 18.012, Florida Administrative Code. The City will continue to work with the Florida Inland Navigation District and the U.S. Army Corps of Engineers to maintain the Intracoastal Waterway for the benefit of its citizens and visitors and seek opportunities for the beneficial re-use of dredge material.							X	Updated as recommended by Florida Inland Navigation District. Re-numbered.
POLICY 4.1.10.	Proposals for the public development of spoil islands within the City of Ormond Beach should receive public comments through a public hearing conducted within the City limits of Ormond Beach, consistent with Rule 18.012, Florida Administrative Code.			X					There are no spoil islands within the City of Ormond Beach limits for public development so this policy should be deleted.
POLICY 4.1.11.	Unauthorized structures that have been constructed on spoil islands shall be removed in a manner consistent with Rule 18-21.012, Florida Administrative Code.			X					There are no spoil islands within the City of Ormond Beach limits so this policy should be deleted.
POLICY 4.1.12- <u>5.1.10.</u>	The City of Ormond Beach adopts and incorporates the Ormond Scenic Loop & Trail vision statement and map series in the Future Land Use Element as included in the adopted Ormond Scenic Loop & Trail Corridor Management Plan.							X	No change to text. Re-numbered.
OBJECTIVE 4.2.5.2. FLOOD CONTROL AND STORMWATER RUNOFF	Through the provisions of the Land Development Code, the City shall manage development to minimize flood damage and runoff from development to lessen the potential degradation of the City’s surface water bodies, as per the intent of the Conservation, Coastal Management and Utilities Elements of the City’s Comprehensive Plan.	163.3177						X	No change to text. Re-numbered.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Future Land Use Element, February 18, 2025									
POLICY 4.2.1. <u>5.2.1.</u>	The City shall review all development plans to ensure that development is consistent with the City’s Flood Damage Control-Floodplain Management and Protection , Surface Water Runoff Control, and Wetlands Protection provisions in the Land Development Code and the Comprehensive Plan, and that all practical and feasible measures have been incorporated to minimize flood damage potential.							X	Updated the LDC section title.
POLICY 4.2.2. <u>5.2.2.</u>	The City shall use detailed area-wide drainage plans to reduce flooding potential and minimize direct discharge of stormwater runoff into surface water bodies. The City shall cooperate with Volusia County and adjoining communities in this effort.							X	No change to text. Re-numbered.
POLICY 4.2.3. <u>5.2.3.</u>	Wherever feasible, the viability of natural drainage systems shall be maintained to prevent potential flooding problems and costly structural water control measures.							X	No change to text. Re-numbered.
POLICY 4.2.4. <u>5.2.4.</u>	On an ongoing basis, the City shall update its mapping of flood prone areas to include an inventory of existing land uses, structures susceptible to damage and flooding, and an inventory of flood water conveyance structures and features. The update shall be incorporated into the Comprehensive Plan Update and shall further inventory and analyze future land uses proposed for flood prone areas to determine the suitability of such uses.							X	No change to text. Re-numbered.
OBJECTIVE 4.3.5.3. PRESERVATION OF NATURAL FLORA AND FAUNA	The City shall encourage Developers to incorporate, to the extent feasible, retention of natural vegetation in project design and ensure that significant aesthetic and natural features are not destroyed.	163.3177						X	No change to text. Re-numbered.
POLICY 4.3.1. <u>5.3.1.</u>	All new developments shall be reviewed for potential adverse environmental impacts.							X	No change to text. Re-numbered.

Future Land Use Element, February 18, 2025									
POLICY 4.3.2. <u>5.3.2.</u>	The City shall maintain on-going programs that identify and preserve unique aesthetic and natural features.							X	No change to text. Re-numbered.
OLICY 4.3.3. <u>5.3.3.</u>	The City shall, in cooperation with Volusia County, monitor and analyze surface water quality in the Tomoka River and Halifax River. The City shall take remedial action and adopt new regulations, as appropriate to maintain or improve its quality.							X	No change to text. Re-numbered.
OBJECTIVE 4.4.5.4. COORDINATION WITH NATURAL RESOURCES	The density and intensity of future land uses and any proposed development activity shall be coordinated with the natural conditions of the area, including topography, drainage, and soil conditions in order to maintain and protect vital natural functions and environmentally sensitive areas.	163.3177						X	No change to text. Re-numbered.
POLICY 4.4.1. <u>5.4.1.</u>	Review land use change and development approval requests for potential impact on natural conditions and for consistency with the environmental protection requirements of the Surface Water Runoff Control, Wetlands Protection, and Floodplain Management and Protection Damage Control Ordinances and with the Utilities, Coastal Management and Conservation Elements of the Comprehensive Plan.							X	Updated the title of Ordinance. Re-numbered.
POLICY 4.4.2. <u>5.4.2.</u>	Encourage the use of cluster development or innovative design measures to ensure the protection of natural resources.							X	No change to text. Re-numbered.
POLICY 4.4.3. <u>5.4.3.</u>	The City shall update its Land Development Code, as necessary, to maintain specific and detailed provisions which regulate the use of land and water bodies consistent with the Comprehensive Plan and to ensure the compatibility of such uses with the natural resources of the community.							X	No change to text. Re-numbered.

			Keep	Delete	New	Replace	Move	Modify	
Future Land Use Element, February 18, 2025									
POLICY 4.4.4.-5.4.4.	The location, development, and significance of topography, vegetation, wildlife habitat, flood hazard, the 100-year flood area, and soils for a particular site will be determined during the development review process from information required to be submitted to the City, in accordance with the criteria of Environmental Assessment Reports and that criteria of the relative ordinances for tree protection, wetlands protection, stormwater management, and flood damage control floodplain management and protection. This shall include recordation of Federal Emergency Management Administration (FEMA) flood zone designations on site plans and plats.							X	Updated the term “floodplain management and protection” instead of “flood damage control” for consistency. Re-numbered.
OBJECTIVE 4.5.-5.5. SIGNIFICANT HISTORICAL, ARCHITECTURAL, ARCHAEOLOGICAL AND PALEONTOLOGICAL RESOURCES	The City shall continue to maintain land development regulations that identify, designate, and protect <u>historical</u> resources.	163.3177							X Updated language consistent with Cultural and Historical Resources Element. Re-numbered.
POLICY 4.5.1.-5.5.1.	The City shall maintain the Local Ormond Beach Historic Landmark List and continue to identify and designate historically significant sites and buildings.								X Update language consistent with LDC 2-71(k). Re-numbered.
POLICY 4.5.2.-5.5.2.	The City shall continue to implement the historic preservation ordinance that protects historic landmarks from alteration or demolition, and apply it to <u>historical</u> , architectural, archaeological, and paleontological resources in accordance with the Cultural and Historical Resources Element.								X Updated language consistent with Cultural and Historical Resources Element Added comma after “archaeological” Re-numbered.
OBJECTIVE 4.6.-5.6. ENVIRONMENTAL CORE OVERLAY	To support the protection and enhancement of environmentally sensitive corridors, wildlife habitat, connected wetlands, and natural hydrologic functions throughout Volusia County and the City of Ormond Beach.	163.3177							X No change to text. Re-numbered.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Future Land Use Element, February 18, 2025									
POLICY 4.6.1- <u>5.6.1.</u>	To support the protection and enhancement of environmentally sensitive corridors, wildlife habitat, connected wetlands, and natural hydrologic functions throughout Volusia County and the City of Ormond Beach, the city adopts the Environmental Core Overlay or “ECO” Map as a component <u>Figure 13</u> of the Future Land Use Map series.							X	Added reference to Figure 13. Re-numbered.
POLICY 4.6.2- <u>5.6.2.</u>	The City supports the adopted smart growth goals, objectives and policies of the Volusia County’s Comprehensive Plan and will actively participate with Volusia County and local jurisdictions in the further development of policies that serve to manage future development that occurs within developable tracts of the adopted ECO <u>Environmental Core Overlay Map</u> .							X	Added “Volusia” before County’s. Spell out acronym. Re-numbered.
POLICY 4.6.3- <u>5.6.3.</u>	Where land is partially or fully within ECO <u>the Environmental Core Overlay</u> , proposed development activities shall be encouraged to utilize innovative and flexible land development and planning techniques such as transfer of development rights .							X	Spell out acronym. No provisions of transfer of development rights. Re-numbered.
GOAL 5.6. ANNEXATION	THE CITY PROVIDES UTILITY SERVICE BEYOND IT’S MUNICIPAL LIMITS AND SHALL REQUIRE THAT ANY CONNECTION TO THE CITY UTILITY SYSTEM EITHER ANNEX INTO THE CITY OR ENTER INTO AN ANNEXATION AGREEMENT IF NOT CONTIGUOUS FOR UTILITY SERVICE.	163.3177						X	No change to text. Re-numbered.
OBJECTIVE 5.1.6.1. ANNEXATION	Newly annexed areas and new development shall not impose additional tax burdens on City residents or adversely impact City managed natural resources, public facilities and services, including potable water, sanitary sewer, drainage, solid waste, parks and recreation, and cultural facilities. Future land uses shall be located consistent with the provision of public facilities and services.	163.3177						X	Corrected punctuation; added comma after “recreation” Re-numbered.
POLICY 5.1.4.-6.1.1.	Properties that are annexed into the City of Ormond Beach shall be assigned a similar land use that existed in Volusia County. Property							X	No change to text. Re-numbered.

	owners may apply for more intensive land uses, but shall be required to provide the data and analysis to justify the increase in density and/or intensity.							
POLICY 5.1.2. <u>6.1.2.</u>	The cost of off-site water and sewer trunk lines shall be borne by the Developer with reimbursements limited to the amount specifically provided for in the impact <u>connection</u> fee structure for such areas.							X Change impact to connection fee. Re-numbered.
POLICY 5.1.3. <u>6.1.3.</u>	Impact <u>Connection</u> fee districts shall be established with the impact <u>connection</u> fee rate structure reflective of the availability or non-availability of a trunk line system. The plant impact <u>connection</u> fee shall be paid on the same basis as the remainder of the City, even where development is converted from on-site to City systems.							X Change impact to connection fee. Take underline out from comma in policy #. Re-numbered.
POLICY 5.1.4. <u>6.1.4.</u>	Water and/or sewer service (“city utilities”) may be provided to property or areas outside of the city’s municipal boundaries that are considered suitable for annexation, as follows: 1. For property that is contiguous to the city’s municipal boundaries and that meets other legal requirements for annexation, the property owner must annex the property prior to or concurrent with connection to the city’s utilities. 2. Except as otherwise provided in paragraph 6 of this policy, the property owner executes and records an agreement to annex at the time the property is contiguous to the city’s municipal boundaries and meets all other legal requirements for annexation. 3. If connection to city utilities is necessary to develop the property, the proposed development is found to be generally consistent with the goals and policies of the SLDR <u>Suburban Low Density Residential</u> district <u>land use category</u> or other appropriate land use designation. 4. The proposed development is contiguous to a water and/or sewer service area.							X Minor text amendment. Added N. US 1 MSA amendment dates. Added the renewal of the ISBA completed (August 2024). Spelled out DRI on item “d” Re-numbered.

POLICY 7.2.7. <u>8.2.7.</u>	The City shall continue to work with organizations such as Ormond MainStreet, the Chamber of Commerce, and the <u>Ormond Memorial Art Museum</u> , as will <u>well</u> as business and property owners to implement capital projects in Downtown Master Plan Update.								X	Corrected spelling from will to well. Re-numbered.
<u>POLICY 8.2.8.</u>	<u>The City should promote public art within the Downtown Community Redevelopment Area per the Downtown Public Art Master Plan.</u>				X					Implementation of public art per the Public Art Master Plan (currently underway).
OBJECTIVE 7.3.<u>8.3.</u> PARKING	The City shall encourage the shared parking of private parking lots, public on-street parking, and public parking lots within the Downtown Community Redevelopment Area.								X	No change to text. Re-numbered.
POLICY 7.3.1. <u>8.3.1.</u>	The City shall pursue a market-based approach to required off-street parking in the Downtown Overlay District. Off-street <u>and</u> on-site parking is permitted, but public parking may be counted towards the parking requirement provided such parking is within the downtown pedestrian walking shed distance.								X	Added and after “Off-street” Re-numbered.
POLICY 7.3.2. <u>8.3.2.</u>	The City shall establish pedestrian sheds denoting walkability between existing public, offsite parking lots, and destination points within the Downtown Overlay District.								X	Corrected punctuation; added commas after “public” and “lots”. Re-numbered.
POLICY 7.3.3. <u>8.3.3</u>	The City shall provide additional public parking in the Downtown Overlay District when it is determined through parking studies that parking demand exceeds parking supply.								X	No change to text. Re-numbered.
POLICY 7.3.4. <u>8.3.4.</u>	The Land Development Code shall be maintained to allow for parking waivers in the Downtown Community Redevelopment Area, utilization								X	No change to text. Re-numbered.

	of public lots for commercial parking calculations, and shared private parking lots.								
POLICY 7.3.5. <u>8.3.5.</u>	While on-street parking along Granada Boulevard within the Downtown Community Redevelopment Area is regulated by the Florida Department of Transportation, the City’s desire is to maintain existing on-street parking and expand where possible.							X	No change to text. Re-numbered.
POLICY 7.3.6. <u>8.3.6.</u>	Wherever possible, local roads within the <u>Downtown Community Redevelopment Area</u> redevelopment area shall provide on-street parking.							X	Updated to Downtown Community Redevelopment Area for consistency. Re-numbered.
POLICY 7.3.7. <u>8.3.7.</u>	The City shall continually identify opportunities to provide public parking where demand exceeds supply within the Downtown Community Redevelopment Area.							X	No change to text. Re-numbered.
OBJECTIVE 7.4. <u>8.4.</u> ENERGY MANAGEMENT PRACTICES	Promote effective energy management practices in the downtown community redevelopment community area.							X	Delete word “community”. Re-numbered.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Future Land Use Element, February 18, 2025									
POLICY 7.4.1. <u>8.4.1.</u>	Encourage an urban design pattern in redevelopment areas, where appropriate, that will reduce vehicle miles travelled among trip destinations.							X	Re-numbered.
POLICY 7.4.2. <u>8.4.2.</u>	Continue developing new regulations to the land development code that will support the development of energy efficient infill and redevelopment of commercial and industrial areas.							X	No change to text. Re-numbered.
GOAL 8-9. ECONOMIC DEVELOPMENT	TO PROMOTE AND SUPPORT POSITIVE ECONOMIC PROSPERITY BY CONDUCTING STRATEGIC ACTIVITIES DESIGNED TO EXPAND AND DIVERSIFY THE EXISTING ECONOMY AND CREATE ADDITIONAL EMPLOYMENT AND INVESTMENT OPPORTUNITIES.							X	No change to text. Re-numbered.
OBJECTIVE 8-1-9.1. BALANCED ECONOMIC GROWTH	The City shall implement economic development using a number of strategies including a Strategic Economic Development Plan designed to encourage investment in Ormond Beach and by being proactive in business retention, expansion, and attraction.							X	No change to text. Re-numbered.
POLICY 8-1-1. <u>9.1.1.</u>	The City shall maintain a working relationship with the Ormond Beach business community and update economic development assistance programs as necessary.							X	No change to text. Re-numbered.
POLICY 8-1-2. <u>9.1.2.</u>	The City shall continually work to expand the Ormond Beach non-residential tax base and other revenue sources.							X	No change to text. Re-numbered.
POLICY 8-1-3. <u>9.1.3.</u>	The City shall continue economic investment activities that provide financial incentives for business expansion and development that creates livable wage jobs for its residents.							X	No change to text. Re-numbered.
POLICY 8-1-4. <u>9.1.4.</u>	The City shall continue to collect, analyze and disseminate relevant economic data and information in order to develop effective programs, projects, and activities to achieve its economic development goals.							X	No change to text. Re-numbered.

Future Land Use Element, February 18, 2025								
GOAL 9-10. NORTH US 1 MUNICIPAL SERVICE AREA (MSA)	TO IMPLEMENT THE PLANNING, DEVELOPMENT AND ADMINISTRATIVE AUTHORITY OF THE INTERLOCAL SERVICE BOUNDARY AGREEMENT (ISBA) BETWEEN THE CITY AND THE COUNTY OF VOLUSIA PURSUANT TO CHAPTER 171, PART II, FLORIDA STATUTES, AS AMENDED.							X No change to text. Re-numbered.
OBJECTIVE 9.1-10.1. NORTH US 1 MSA MUNICIPAL SERVICE AREA (MSA) PLANNING, DEVELOPMENT AND ADMINISTRATIVE AUTHORITY	The City shall have sole and singular authority within the boundaries of the MSA <u>Municipal Service Area (MSA)</u> to apply the City's Comprehensive Land Use Plan and Zoning Map categories over unincorporated parcels, to administer the codes and regulations, and provide for the enforcement codes pursuant to the Interlocal Service Boundary Agreement (ISBA) adopted by the City of Ormond Beach <u>City</u> Commission and by the Volusia County Council effective and recorded on August 28, 2014, at Book 7026, Pages 878 through 895, of the Public Records of Volusia County, Florida, and as amended effective and recorded on October 11, 2019, at Book 7758, Pages 4680 through 4683, of the Public Records of Volusia County, Florida, and as amended effective and recorded on March 30, 2022, at Book 8228, Pages 1974 through 1978, of the Public Records of Volusia County, Florida. <u>The Interlocal Service Boundary Agreement was renewed by Ormond Beach and Volusia County until August 28, 2034 effective and recorded on August 28, 2024, at Book 8601, Pages 1751 through 1782, of the Public Records of Volusia County.</u>							X Spell out MSA (Municipal Service Area). Re-numbered. Added renewal of the ISBA.
POLICY 9.1.1-10.1.1.	The North US 1 Municipal Service Area (MSA), consistent with its related policies of the Intergovernmental Coordination Element, is hereby established between the City and Volusia County as a means to coordinate planning and delivery of services related to future land use, public facilities and services, and protection of natural resources in advance of annexation.							X No change to text. Re-numbered.
POLICY 9.1.2-10.1.2.	Pursuant to the ISBA <u>Interlocal Service Boundary Agreement (ISBA)</u> , the City may annex noncontiguous parcels and create enclaves within the MSA <u>Municipal Service Area</u> notwithstanding Policy 56.1.4.							X Spell out acronyms. Update Policy reference.

Transportation Element – February 18, 2025								
GENERAL STATEMENT	GENERAL STATEMENT THE OBJECTIVES AND POLICIES PRESENTED IN THIS ELEMENT ARE BASED UPON THE 2008 EVALUATION APPRAISAL REPORT. THE CITY RECOGNIZES IT CAN NOT CONTINUE TO RELY ON INCREASING ROADWAY CAPACITY AS ITS SOLE TRANSPORTATION STRATEGY. TO THAT END, A MULTI-MODAL STRATEGY IS PRESENTED THAT PLACES GREATER EMPHASIS ON REDUCING VEHICLE MILES TRAVELED (VMT) THAN PROVIDING MORE ROADWAY SUPPLY. THIS STRATEGY PROVIDES FOR FUTURE ROADWAY CORRIDOR PRESERVATION, MORE EFFECTIVE ACCESS MANAGEMENT, GREATER EMPHASIS ON PEDESTRIANS AND BIKE TRAILS, AND IMPLEMENTATION OF SMART GROWTH DESIGN PRINCIPLES TO AREAS WHERE (RE) DEVELOPMENT SHOULD OCCUR BASED UPON CURRENT TRANSIT CORRIDORS. WHILE THE CITY IS DESIGNATED A DENSE URBAN LAND AREA (DULA) AND IS EXEMPT FROM STATE TRANSPORTATION CONCURRENCY (TOP-DOWN) CITYWIDE, THE CITY (BOTTOM-UP) IS REQUIRING THAT TRANSPORTATION IMPACTS ON STATE, COUNTY AND CITY ROADWAYS BE MITIGATED EXCEPT FOR THE DOWNTOWN, AIA (SR 40 SOUTH TO THE CITY LINE), US 1 (FROM WILMETTE AVENUE SOUTH TO THE CITY LINE); AND SR 40 (FROM AIA TO I95). FOR THESE	163.3177 (6)(b)		X				Proposed to be deleted. Other Elements do not have general statements and this appears to be inconsistent with the other Elements.

Goals, Objectives, Policies		Recommended Action						Explanation/Modification

Transportation Element – February 18, 2025									
OBJECTIVE 1.2. STUCTURE FREE RIGHT(S)-OF-WAY	The City shall insure the availability of structure free right(s)-of-way for major and important minor roadways and for Votran transit corridors necessary or desirable to accommodate projected travel demand in 20345.							X	Update 2035 date to 2045.
POLICY 1.2.1.	The City shall adopt a major thoroughfare provision in the LDC <u>Land Development Code</u> which: a. References the Future Traffic Circulation Map that will provide for adequate traffic circulation within the city; b. Identifies the right-of-way widths for each roadway in a manner consistent with the Future Traffic Circulation Map and in a manner consistent with the inventory of right-of-way already provided by Ormond Beach, other local governments, or the State of Florida; c. Establishes the Future Traffic Circulation Map as the official listing of right(s)-of-way to be reserved pursuant to Policy 21.2.2 below; and d. Establishes procedures and guidelines for the appropriate amendment of the map.							X	Spell out acronyms. Corrected reference to Policy 1.2.2.
POLICY 1.2.2.	A right-of-way protection provision shall be adopted for the purpose of protecting right(s)-of-way necessary to develop the roadway network shown on the Future Traffic Circulation Map. This right-of-way protection is required so as to insure <u>ensure</u> compliance with long range level-of-service standards established by those policies within the Comprehensive Plan. Such ordinance shall prohibit the development of any structures, parking areas, or drainage facilities (except as allowable on an interim basis) within the corridors							X	Spell out acronyms. Hyphenate level-of-service

Goals, Objectives, Policies		Recommended Action						Explanation/Modification
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify
Transportation Element – February 18, 2025								
	indicated on the Future Traffic Circulation Map or within any other surface transportation corridors (i.e. rail corridors) identified by FDOT <u>the Florida Department of Transportation</u>. Other uses, consistent with this Comprehensive Plan, may be considered within the protective right-of-way. Nothing in the right-of-way protection ordinance shall preclude location of temporary uses within protected right(s)-of-way. Any right-of-way protected under the right(s)-of-way protection ordinance may be dedicated to Ormond Beach during the development of a project. Dedication shall be accompanied with a Level 1 Environmental Audit of the <u>right-of-way ROW</u> dedicated or the parcel from which the <u>right-of-way ROW</u> was dedicated, whichever is appropriate. Any such dedication shall not be subject to time limits on right(s)-of-way reservation as required by Chapter 336 F.S. As used in this policy, “corridors” means that area of protected right-of-way for any roadway, as generally configured and as located on the Future Traffic Circulation Map. Protected right(s)-of-way shall be defined as: 1. Required right-of-way on either side of the centerline of an existing roadway shown as having more lanes on the Future Traffic Circulation Map than the number of lanes currently existing. 2. Required right-of-way for roadway or other transportation corridors for which no centerline has been established. The location of the roadway right(s)-of-way shall be established during the review of proposed projects in proximity to future roadway corridors located							

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Transportation Element – February 18, 2025									
	on the Future Traffic Circulation Map. These newly established alignments selected during project review shall be continuous so as to provide for a continuous travel corridor of sufficient width to accommodate an appropriate cross section as required by city policy for facility types specified on the Future Traffic Circulation Map.								
POLICY 1.2.3.	The City shall ensure that protected right(s)-of-way are reserved at the time of project review for issuance of a level of service compliance decision. Failure to reserve protected right(s)-of-way as a condition of level of service determination shall be considered a violation of the 20345 (long range) level of service standard for that roadway and shall, therefore, be prohibited. Such ordinance shall also contain mitigation measures designed in part to preclude the taking of private property unless fair compensation for any such taking is provided. These measures shall address properties which are located in a manner or exhibit characteristics that precludes the reasonable use of such property if the protected right-of-way is maintained free of drainage facilities, structures, or parking during the development of the property. Measures may include, but are not be limited to: 1. The transfer of development right(s), which may be considered pursuant to <u>the</u> future land use policy from the area within a protected right-of-way to an area outside of the protected right-of-way on the same project site. 2. The reduction of required building setbacks, required buffers, and other requirements otherwise contained in this Comprehensive Plan or contained in other local land							X	Update 2035 date to 2045

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification
			Keep	Delete	New	Replace	Move	
Transportation Element – February 18, 2025								
	development regulations, if such reduced requirements are considered on a case-by-case basis and are granted pursuant to a finding of overriding public interest by the local government.							
POLICY 1.2.4.	Adopt a right of way reservation ordinance that requires the dedication to Ormond Beach as a condition of issuance of a level of service compliance finding. Upon adoption of an ordinance, or upon recording of any update to the Future Traffic Circulation Map, the reserved right(s) of way shall be prohibited from all development of drainage facilities, parking or structures, and dedication of the reserved right of way shall be required upon issuance of the development order for any property encompassing said right of way. Appropriate access through reserved right of way as determined by Ormond Beach, will be permitted. Any such reservation of right of way for a particular transportation corridor shall be effective for a period not to exceed five years from time of initial right of way reservation, unless the extends this five year period in one year increments not to exceed an additional five year period.			X				Right-of-way preservation is accomplished through the Site Plan Review Committee review of site plans.
POLICY 1.2.5.	The City shall provide, on an annual basis, and to the Florida Department of Transportation (FDOT) a listing of those State right(s) of way for which right of way protection or right of way reservation is in effect pursuant to the above policies, and for which level of service is worse than, or is projected within the next five years to decline to a level of service that is worse than the adopted level of service. Also, to coordinate with the Metropolitan Planning Organization and FDOT, so as to establish increased priorities for construction of improvements to such roadways based on enhanced availability facilitated by the City's plan and right of way protection or reservation ordinances.			X				The city consistently works with the Florida Department of Transportation regarding development projects. The obtaining of right-of-way along state roadways is primarily a state review responsibility. The Site Plan Review Committee does consider existing and proposed rights-of-way as part of the site plan review process.

Transportation Element – February 18, 2025								
POLICY 1.4.1.	All land use plan amendments, zonings, plats and site plans requiring City approval and access to Federal, State, County and City roads shall comply with the following access management strategies, if determined applicable to the location: a. Traffic circulation and maneuvering shall be accomplished on-site; b. Driveway entrances and exits shall be located as far as possible from street intersections; c. Nonresidential lots having frontage on two or more public streets shall have access to the street(s) with the lowest functional classification, <u>unless specifically approved by the City Commission</u>; d. Interior throughways within parking areas shall be separated from parking aisle areas; e. Peripheral outparcels designed for freestanding uses shall be integral parts of the total interior circulation system for a larger site; f. Driveways should align with opposite driveways; g. Joint curb cuts, cross-access easements, internal access for outparcels and other transportation system management strategies shall be employed to effectively reduce the number of curb cuts and median openings on all public road facilities; h. Curb cuts for driveways shall be minimized, and the location and number of cuts should relate to lot size, turnover rate, relationship to adjoining streets and the type of clientele served. Access points shall be designed to prevent hazards to vehicular or non-vehicular traffic.							Amend item “c”. There may be developments that there is a policy decision not to allow access through a residential oriented street. Delete date from item “j”. Spell out acronym in item “o”.

Transportation Element – February 18, 2025								
	Turnout lanes and traffic dividers shall be provided on abutting roadways and on-site where existing or anticipated heavy flows of traffic indicate the need; i. Internal streets, roads, driveways and parking, loading and service areas shall be designed so as to provide safe and convenient vehicular access to all uses and facilities; j. Development proposals exceeding the thresholds established in the 2008 Votran Transit Design Guidelines shall include transportation demand management strategies, such as: ride sharing, van pooling, carpooling, flextime and bicycle usage, as methods to alleviate the need for automobile trips; k. Joint curb cuts with adjacent development parcels shall be provided where feasible; l. Residential and non-residential developments shall provide internal as well as external connectivity in order to support public transportation facilities for bicyclists and pedestrians; m. Reduce and consolidate private entrances, median crossovers, and similar disruptions to traffic flow; n. Minimum throat distances shall be established for driveway entrances based upon the floor area size of developments to ensure development related traffic does not disrupt through traffic on public roadways; o. New residential developments that exceed 200 average daily trips should provide emergency access independent of the primary access to the development as determined acceptable by the <u>Site Plan Review Committee SPRC</u>; and

	vertically or horizontally mixed with the non-residential portion of the development.								Community Redevelopment Area. Renumbered.
OBJECTIVE 1.6. MULTI-MODAL STRATEGIES	Coordinate a multi-modal strategy with transportation planning and the land use element to provide alternative travel modes which are sufficient to accommodate the uses depicted on the Future Land Use Map and adopted Downtown Community Redevelopment Area Plan.		X						
POLICY 1.6.1.	Multi-Modal Corridors shall be established for roadway corridors which have at least three of the following characteristics: a) Presence of transit; b) Opportunities for redevelopment or infill development; c) Downtown; and d) Constrained roadways.		X						
POLICY 1.6.2.	Transportation Concurrency Exception Areas The TCEAs identified on Figures 6 through 10 of the Future Land Use Element shall also be classified as Multi-Modal Corridors and all Multi-Modal strategies shall apply to the corridors.							X	Spell out acronym. Clarified the Figures are in the Future Land Use Element.
POLICY 1.6.3.	The land use and transportation strategies that support and fund mobility are contained in the Ormond Beach Multi-Modal Strategy, October 2010 , which is adopted and incorporated herein as part of the Comprehensive Plan, and shall be adhered to as it relates to the non-motorized and transit vision plans articulated therein.							X	Deleted date reference.
POLICY 1.6.4.	Where development proposals that are consistent with the City's Future Land Use Map (FLUM) in terms of both land use type and density or intensity and located along the Multi-Modal Corridors where current and projected 2017 level of							X	Projects in the Multi-Modal Corridors are exempt from concurrency. Projects in these areas are required to provide the items in “a” through “d”.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification
			Keep	Delete	New	Replace	Move	
Transportation Element – February 18, 2025								
	service standards are currently met, shall implement the following strategies will be implemented: a) Access management; b) Bike facilities; and c) Sidewalk connectivity; and d) On or off site transit facility improvements as recommended by Votran.							Update 10/27/25 - Based upon the Florida Commerce “null and void” letter dated October 17, 2025 proposed change to Policy 1.6.4. of the Transportation Element is to delete letter “d” in its entirety. Note double strikethrough is newly deleted text.
POLICY 1.6.5.	Where development proposals are consistent with the City’s FLUM in terms of land use type and density and intensity, but are located along Multi-Modal Corridors where current and projected 2017 level-of-service standards will not be met, the following strategies will be implemented: a) All of the strategies identified in policy 1.6.4.; and b) On or off site transit facility improvements as recommended by Votran.			X				Projects in the Multi-Modal Corridors are exempt from concurrency. This policy is to be combined with Policy 1.6.4.
POLICY 1.6.6.	Where development proposals require a Comprehensive Plan amendment in order to be consistent with the City’s FLUM in terms of land use and density or intensity for property that is located on Multi-Modal Corridors where current and projected 2017 level-of-service standards are currently met, the following strategies will be implemented: a) All of the strategies identified in policy 1.6.4.; b) All of the strategies identified in policy 1.6.5.; and c) A negotiated contribution for operations to support existing or enhanced transit service. —			X				Projects in the Multi-Modal Corridors are exempt from concurrency. This policy is to be combined with Policy 1.6.4.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification

POLICY 4.1.6.	Require all applicants requesting a city approval and whose development exceed the Votran Transit Guideline thresholds, to show evidence that they have analyzed and evaluated potential TDM <u>Transportation Demand Management</u> strategies.							X	Spell out acronyms.
<u>POLICY 4.1.7.</u>	<u>Require all development to provide sufficient provisions for connection to existing and proposed pedestrian facilities.</u>				X				New policy proposed.
GOAL 5: ORMOND CROSSINGS ACTIVITY CENTER	THE ORMOND CROSSINGS ACTIVITY CENTER SHALL INCORPORATE A MOBILITY STRATEGY THAT ENSURES THAT A TRANSPORTATION NETWORK (ROAD, TRANSIT, TRAVEL DEMAND MANAGEMENT) IS IN PLACE TO FACILITATE AN ECONOMICALLY VIABLE COMPONENT OF THE CITY’S ECONOMIC DEVELOPMENT GOALS. THIS SHALL BE IMPLEMENTED THROUGH THE APPLICATION OF A TRANSPORTATION CONCURRENCY EXCEPTION AREA (TCEA) SO THAT MULTIPLE TRANSPORTATION MITIGATION SOLUTIONS THAT INCLUDE ROADWAY IMPROVEMENTS, MULTI-MODAL OPPORTUNITIES AND TRANSPORTATION DEMAND MANAGEMENT SYSTEMS CAN BE USED TO PROVIDE FOR A SUSTAINABLE TRANSPORTATION NETWORK.	DCA Stipulation Settlement Agreement		X					
OBJECTIVE 5.1. ORMOND CROSSINGS ACTIVITY CENTER TRANSPORTATION CONCURRENCY EXCEPTION AREA	Consistent with Section 163.3180, <i>Florida Statutes</i> , the City hereby establishes a Transportation Concurrency Exception Area (TCEA) for the Ormond Crossings Activity Center to support a mixed-use development and address redevelopment concerns by implementing a mobility strategy that addresses the impacts to the City and County road network, as well as emphasizing opportunities for transit-oriented design, integrated			X					

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Transportation Element – February 18, 2025									
	pedestrian and bicycle facilities, and transportation demand management strategies that mitigates for its impacts to the regional network.								
POLICY 5.1.1.	The City has determined that it is good public policy to use multiple methods of transportation mitigation that can be developed through the Ormond Crossings <u>Transportation Concurrency Exception Area TCEA</u> since the associated mobility strategy addresses the impacts of a mixed-use Activity Center that is located within a Dense Urban Land Area as defined in Section 163.3164, <i>Florida Statutes</i> , and facilitates the implementation of the Ormond Crossings/North Mainland Community Redevelopment Master Plan.							X	Spell out acronym.
POLICY 5.1.2.	The City, working in coordination with the Developer of the Ormond Crossings Activity Center, shall complete the mitigation measures set forth in Policy <u>56.1.3.</u> to ensure implementation of a mobility strategy that addresses the transportation impacts of the Ormond Crossings Activity Center project.							X	Clarification that the developer is responsible for all mitigation measures. Corrected policy number.

POLICY 5.1.3.	The City shall require that the Developer of the Ormond Crossings Activity Center mitigate for cross-jurisdictional transportation impacts in accordance with the standards established by this Policy and the Development Agreement: a. No later than July 31, 2013, the Developer shall pay the Florida Department of Transportation ("FDOT") \$500,000 as funding for a PD&E study for general consideration of State Road 40 improvements from Tymber Creek Road to I-95 (the "PD&E study"). The limits of the PD&E study will be subject to the FDOT's discretion. If the PD&E study is completed and/or paid for prior to July 31, 2013, instead of paying the \$500,000 to the FDOT, the Developer shall apply the \$500,000 to traffic related improvements that benefit Ormond Crossings as the City directs, or at the direction of the City, some or all of the \$500,000 shall be applied to improvements or operations that have the effect of reducing vehicle miles traveled from and to Ormond Crossings. In the event the \$500,000 is paid to FDOT for the PD&E study, and Developers, builders or property owners at Ormond Crossings have paid or thereafter pay mobility fees that are collected for the purpose of funding state transportation improvements, including studies like the PD&E study, then the Developer may be entitled to mobility fee credits from the FDOT or the State of Florida. b. Subject to approval of Volusia County (the "County"), the Developer shall upgrade the approximately 4.15-mile segment of Tymber Creek Road from Airport Road to the I-95 underpass near the project's northern boundary (the "Tymber Creek Road Upgrade"). The Tymber Creek Road Upgrade shall consist of upgrading and repaving Tymber Creek Road within the existing right-of-way to a standard 2-lane typical cross-section acceptable to the County. "Upgrade" shall mean utilizing existing pavement and road base to the maximum extent possible and providing lane widths and shoulders meeting the County's currently adopted standards for a								Item A has been accomplished. Item B has been accomplished. Item D – delete date. Item I has been accomplished. Item K to be amended. Broadway Signal has been accomplished. Transportation Element – February 18, 2025								
	2-lane undivided roadway. The Developer is not responsible for new drainage improvements, modifying existing turn lanes previously installed at the entrance to the Southern Pines subdivision, or building sidewalks or bicycle trails along the roadway. The Tymber Creek Road Upgrade shall commence within 1-year of the first subdivision or site plan approval for the portion of Ormond Crossings that is located west of I-95 and shall be completed within 1-year from the date of commencement. If the County does not approve all or a portion of the roadway improvements as proposed in this paragraph, instead of completing those roadway improvements, the Developer shall make alternative related improvements or contributions to operations as provided for in paragraph 22 below. c. As a contribution to the future 4-laning of Tymber Creek Road from Peruvian Trail to Airport Road (the "Tymber Creek 4-laning"), the Developer shall defer its right to use or sell transportation impact fee credits to which it may be entitled in connection with the Tymber Creek Road Upgrade until the County has collected \$3,500,000 of transportation impact fees in connection with building permits issued for construction at Ormond Crossings, provided the County agrees to escrow or otherwise earmark the \$3,500,000 to construct the Tymber Creek Road 4-laning when the County has acquired any necessary right-of-way, designed and permitted the Tymber Creek Road 4-laning and has sufficient additional funds available, if additional funds are needed, to construct that roadway improvement. Developer's agreement to defer the use or sale of transportation impact fee credits shall not reduce the

Transportation Element – February 18, 2025								
	amount of transportation impact fee credits to which the Developer may be entitled pursuant to the applicable County ordinance or a separate agreement between the Developer and Volusia County. d. The Developer, the City and the North Mainland/Ormond Crossings <u>Community Redevelopment Area</u> CRA Authority ("CRA Authority") shall pursue the design and construction of Crossings Boulevard, including the overpass of I-95, to address the conditions of blight identified in the Master Redevelopment Plan North Mainland CRA, dated March 2005. A portion of the funding for the improvement shall be generated through the use of tax increment <u>financing</u> funds ("TIF") and a portion shall be provided by the Developer or generated by the proposed Ormond Crossings Community Development District (CDD) through the use of special assessment bonds. e. The segment of Crossings Boulevard from US-1, including a railroad fly-over, to a round-about will be part of Ormond Crossings Phase A ("Segment 1"). The Developer shall design and permit Segment 1 and the Developer or the <u>Community Development District CDD</u> shall loan sufficient funds to the <u>Community Redevelopment Area</u> CRA Authority (the "Segment 1 Loan") so the <u>Community Redevelopment Area</u> CRA Authority can commence construction of Segment 1 within 5 years after the Phase A plat is recorded. The terms and conditions of the Segment 1 Loan shall be provided for in a separate agreement between the Developer or the <u>Community Development District CDD</u> and the <u>Community Redevelopment Area</u> CRA Authority, provided that regardless of the amount of the

Transportation Element – February 18, 2025								
	loan to the <u>Community Redevelopment Area</u> CRA Authority, repayment, including reimbursement of the lender's cost of money, shall be limited to the extent that the County's contribution of <u>tax increment financing</u> TIF shall be limited to \$4,000,000 and the City's contribution shall be limited to \$8,000,000, totaling a maximum contribution of \$12,000,000. Segment 1 shall be designed and constructed as a 4-lane divided roadway with landscaped medians. The roadway shall be completed prior to the project exceeding 2,017 net peak-hour external trips. f. Crossings Boulevard shall be extended from Segment 1, including an I-95 fly-over, to connect to an internal roadway within Ormond Crossings, west of I-95 ("Segment 2"). The Developer or the <u>Community Development District</u> CDD shall commence design and permitting of Segment 2 at such time as the <u>Community Redevelopment Area</u> CRA Authority provides written notice that it can reasonably foresee having the ability, within 2 years, to repay the Segment 1 Loan. The Developer or the <u>Community Development District</u> CDD shall proceed with the construction of Segment 2 upon repayment of the Segment 2 Loan or as soon as the design and permitting of Segment 2 are completed, whichever is later. Segment 2 shall be designed and constructed as a 2-lane undivided roadway, but the Developer shall provide sufficient right-of-way to accommodate widening to a 4-lane divided cross section in the future. The roadway shall be completed prior to the project exceeding 4,000 net peak-hour external trips. g. The Developer shall construct or cause a successor developer or developers to construct an internal roadway							

Goals, Objectives, Policies		Recommended Action						Explanation/Modification

Transportation Element – February 18, 2025								
	system that provides a connection from the terminus of Segment 2 to US-1, northwest of its interchange with I-95. That roadway connection to US-1 shall be completed prior to buildout of 1,000 residential units at Ormond Crossings. h. Within 6 months following commencement of construction of Segment 1 by the <u>Community Redevelopment Area CRA</u> Authority, the Developer or the <u>Community Development District CDD</u> shall commence construction of a road segment from the point of terminus of Segment 1 northward to connect to Tymber Creek Road via an I-95 underpass (the "East-West Connector Road"). The East-West Connector Road shall be completed within 1 year following commencement or when Segment 1 is completed, whichever is later. i. The Developer shall install a traffic signal at US-1 and Broadway Avenue and turn lane improvements (the "Broadway Signal and Turn Lanes"). The Broadway Turn Lane improvements shall consist of an eastbound left turn lane, through lane, and right turn lane on Broadway Avenue at US-1 and a southbound right turn lane on US-1 at Broadway Avenue. The Turn Lane improvements shall be constructed prior to the eastbound (Broadway Avenue) approach traffic exceeding 53 vehicles during the eight highest hours of an average weekday, as documented in the Annual Report. The Broadway Signal shall be installed within one year of when the eastbound (Broadway Avenue) approach traffic meets traffic signal warrants based on FDOT study procedures.							

Goals, Objectives, Policies		Recommended Action						Explanation/Modification
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify
Transportation Element – February 18, 2025								
	j. The Developer shall install a traffic signal and additional turn lanes at US-1 and Hull Road (the "Hull Road Signal and Turn Lanes"). The Hull Road Signal and Turn Lanes shall consist of a southbound right-turn lane at Hull Road, extension of the northbound (US-1) left-turn lane to 600 feet, and signalization. Construction shall be completed by December 31, 2012, provided that if the traffic signal is not warranted or if there have been no certificates of occupancy issued within Ormond Crossings by then, the Hull Road Signal and Turn Lanes shall be installed and constructed within 1-year following the date the traffic signal is warranted or the first certificate of occupancy has been issued, whichever is later. k. The Developer shall install the Broadway Signal as specified in number 9 above. The Developer shall also install traffic signals at the entrances to Ormond Crossings from north and south of the I-95 interchange when traffic meets the traffic signal warrants based on the FDOT <u>Florida Department of Transportation</u> study procedures. Concurrently with the installation of each of those three signals, the Developer shall also install communication cable connecting the new traffic signals to adjacent traffic signals within 0.5 mile along US-1. Within 6 months following a request from the City or County, but not later than December 31, 2020, the Developer shall provide the City with a timing study for the traffic signals on US-1 from the traffic signals on from the northern entrance to Ormond Crossings on US-1 to the southern entrance on at Crossing Boulevard/Pine Tree Road.

Transportation Element – February 18, 2025								
	1. Prior to the project exceeding 2,275 net external peak-hour trips, the Developer shall complete the following improvements at the I-95/US-1 interchange: 1. At the I-95 southbound ramps, add a second southbound I-95 to southbound US-1 left-turn lane, convert the existing inside left-turn lane to a shared through/left-turn lane and extend the southbound I-95 to northbound US-1 right-turn lane to 550 feet. 2. At the I-95 northbound ramps, add a second, I-95 northbound to US-1 southbound left-turn lane and extend the northbound I-95 to northbound US-1 right-turn lane to 550 feet. 3. In the event adjustments to existing traffic signals are necessary with the ramp improvements, the Developer shall make those adjustments but shall not be required to upgrade the signals with mast arms. m. All roadways within Ormond Crossings shall be designed and constructed in accordance with applicable standards of the FDOT <u>Florida Department of Transportation</u>, the County or the City, depending on the agency responsible for the particular roadway. All site plan and site-specific development issues shall be addressed in the <u>Planned Mixed-Use Development PMUD</u> and as part of the subdivision and site plan review processes to ensure compliance with the City's Comprehensive Plan. The Developer shall be responsible for construction of new roadways and improvements, based on the City's local road design standards, to portions of Pineland Trail and Harmony Avenue that are within or bordering Ormond Crossings,							

Goals, Objectives, Policies		Recommended Action						Explanation/Modification
		FL Statute Citation	Keep	Delete	New	Replace	Move	
Transportation Element – February 18, 2025								
	which will be reviewed and approved through the <u>Planned Mixed-Use Development PMUD</u> and site plan processes to insure compliance with the City's requirements. The layout, design and roadway construction standards shall be determined by City staff in accordance with the typical City roadway details during the rezoning and development approval processes. The Developer has a right under the Planned Mixed-Use Development (PMUD) zoning process to request waivers and alternative design standards as prescribed by the City's Land Development Code or as may be provided for in the <u>Planned Mixed-Use Development PMUD</u>. If increased roadway capacity resulting from improvements by the Developer to City streets or roadways is not all required for project related traffic, the Developer or assignee may be entitled to credits for transportation impact fees due to the City in connection with construction within the project. Any transportation impact fee credits shall be determined in accordance with the provisions of the City's impact fee ordinance or separate agreement between the Developer and the City. n. Except as provided for herein with respect to Crossings Boulevard or hereafter specifically agreed in writing, the City and the entity with jurisdiction over the facilities have no financial responsibility to contribute to or participate in the funding of the design, engineering, permitting and/or construction of roadway improvements for Ormond Crossings. o. In order to provide safe access and preserve operational capacity, left and right turn deceleration lanes shall be installed by the Developer at all entrances to Ormond

Transportation Element – February 18, 2025								
	Crossings on collector and arterial roadways, as determined by the appropriate maintaining agency. Pedestrian and transit considerations shall be considered in the design. The Developer and the appropriate maintaining agency shall confirm the need for and the cost of signalization at the entrances to Ormond Crossings consistent with policies of the appropriate governmental entity and when nationally recognized warrants (<u>Federal Highway Administration's FHWA's Manual of Uniform Traffic Control Devices</u>) are met. Signal costs at entrances to Ormond Crossings are the financial responsibility of the Developer through buildout of the project. p. As part of the Ormond Crossings Activity Center mobility strategy, the City will emphasize the use of a multi-modal transportation district for the project and surrounding area that includes, but is not limited to transit services, facilities and amenities as well as transit-oriented development practices and principles to accommodate growth in the area. Ormond Crossings shall adhere to transit-oriented development design principles and concepts within an area appropriate for future transit (see "Accessing Transit, design handbook for Florida Bus Passenger Facilities," <u>FDOT Florida Department of Transportation, Version II 2008</u>). The Developer shall provide annual reports based on methodology acceptable to the City. The City shall use the annual reports to determine if changes to the transportation demand management or multimodal system are warranted. The City shall provide the annual reports to Volusia County and Votran to ensure a coordinated effort for the multimodal improvements and

Transportation Element – February 18, 2025								
	operations. Prior to the issuance of the first certificate of occupancy, the Developer shall enter into an agreement which addresses roadway and transit capital, operations and maintenance funding. This agreement shall be reviewed and updated five years after the original approval by the City and Votran, and thereafter shall be reviewed and updated as part of the annual reports required as part of the Activity Center designation. q. In the interest of safety, and to promote alternative forms of transportation, the Developer shall provide the following bicycle and pedestrian systems: 1. The on-site bicycle systems shall be connected into any adjacent external bicycle systems existing at the time of construction; 2. Covered walkways shall be designed into the front of non-residential structures to the maximum extent practicable; 3. In all areas of Ormond Crossings where cycling will be accomplished on both sidewalk/bikeways and streets, appropriate signage identifying bike routes will be installed; 4. Connections for bicyclists and pedestrians shall be provided between residential neighborhoods, employment centers and commercial areas to the maximum extent practical; 5. Bicycle support facilities (e.g., parking and lockers) shall be provided at commercial areas and all work areas. r. The following transit related actions are required:							

Goals, Objectives, Policies		Recommended Action						Explanation/Modification
		FL Statute Citation	Keep	Delete	New	Replace	Move	
Transportation Element – February 18, 2025								
	1. Bicycle lockers or bicycle racks, transit passenger shelters, and transit parking bays, shall be constructed where necessary to augment and facilitate the operations of transit service to the site as determined by the City in consultation with Votran; 2. Transit pull-out bays and transit shelters as required by the City in consultation with Votran, shall be constructed on-site by the Developer; 3. A site shall be provided for multiple future transit stops to accommodate buses at a location determined by the City in consultation with Votran and the Developer at the time of site plan approval; 4. At the City's request, the Developer shall enter into an agreement with the City in consultation with Votran in order to determine the appropriate number and location of pull-out bays, transit shelters, covered walkways and their location on the site, the size of a future transit super-stop if determined by the City to be appropriate for the estimated ridership, and the viability of a <u>Community Development District</u> CDD operated internal tram system to provide transportation to destinations and transit stops within the project; and 5. When studies are conducted to implement bus service, the Developer shall fully cooperate with the City in donating necessary right-of-way that may be necessary for the route, transit stations, park & ride facilities and other accoutrements deemed warranted by Votran, in consultation with the City.							

Goals, Objectives, Policies		Recommended Action						Explanation/Modification

Transportation Element – February 18, 2025								
	s. The Developer shall promote and encourage variable work hours and flextime participation by on-site employers. The Developer, employers and owners shall make known to tenants and residents that Ormond Crossings has access to an existing ride-sharing program operated by Votran. Transit and current ride-sharing information shall be prominently displayed in all public gathering areas, in employment centers and other areas as suggested by Votran and the City. Transit access on public rights-of-way, if necessary, shall be provided to meet Votran specifications to facilitate transit to the site. To reduce peak hour trips, the Developer (<u>Community Development District CDD</u>—or property owners' associations) may designate a part-time ride sharing coordinator who is responsible for working with the area transit provider, conducting employee ridesharing campaigns within the project, publicity, processing applications, and distribution information (including transit information). t. The Developer shall coordinate with the City, Votran, the <u>Community Development District CDD</u>, and any property owners' associations to ensure the provision of park and ride spaces onsite and construct an area for use as a rideshare lot to lessen the overall impacts on regional roadways. Spaces for at least 200 vehicles shall be provided and may be shared with parking for commercial land uses. The park and ride spaces shall be proximate to the bus transit stops when established. Park and ride spaces shall be aggregated into groupings of not less than 25 spaces per designated park and ride area, which shall be indicated with appropriate signage. The Developer

	shall coordinate with the City and Votran to accomplish these requirements at the time of site development. u. In order to minimize impacts to the roadway network, roads within Ormond Crossings shall, subject to environmental constraints, be interconnected to the maximum extent feasible as determined by the City. The project will generally be connected to existing neighborhoods and will tie into local streets, where feasible and as deemed appropriate by the appropriate local government. v. The transportation mitigation projects and other mitigation activities to reduce vehicle miles traveled from and to Ormond Crossings are sufficient for the impacts of the project, including impacts on Volusia County roadways. The City hereby acknowledges and agrees that by complying with the provisions of this mitigation strategy, the Developer shall be entitled to fully and completely develop Ormond Crossings without further transportation improvements. If any of the transportation mitigation projects are unnecessary because they were or are being undertaken by a third party or are not possible because they are not approved by the entity with jurisdiction or for any other reason, the Developer shall make alternative traffic related improvements or contributions to operations that have the effect of reducing vehicle miles traveled from and to Ormond Crossings as directed by the City, provided that any alternative mitigation of offsite transportation impacts shall not exceed the cost of the individual transportation mitigation projects being replaced.

SUCH FACILITIES SHALL MEET OR EXCEED STATE AND FEDERAL REQUIREMENTS FOR MUNICIPAL POTABLE WATER QUALITY, THE CITY SHALL ALSO APPROPRIATELY REGULATE THE USE OF INDIVIDUAL WELL AND POTABLE WATER PACKAGE TREATMENT SYSTEMS.								
OBJECTIVE 1.1. CAPITAL IMPROVEMENTS FUNDING	The potable water, wastewater treatment and reuse irrigation systems shall continue to be operated efficiently and effectively and on an enterprise basis with established user fees to meet the operational costs and <u>connection</u> impact fees to construct new or expand existing facilities.	163.3177 (6)(c)						X	Change impact fee to connection fee based on impact fee update.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Utilities Element, February 18, 2025									
POLICY 1.1.1.	Areas that are not presently served with potable water and sanitary sewer trunk lines shall be assessed a differential impact fee.			X					The City adopted an impact fee update (Ordinance 2023-30) based on changes in state law on June 6, 2023. There are no differential impact fees with the Ordinance. This Policy is proposed to be deleted
POLICY 1.1.2. <u>POLICY 1.1.1.</u>	The City Owners, operators and managers should undertake efforts to obtain optimum operating levels and facility longevity so as to maximize the use, effectiveness and efficiency of existing facilities.							X	Re-written to clarify this policy applies to the City. Renumbered.
OBJECTIVE 1.2. EFFLUENT REUSE	The City shall continue to operate a wastewater treatment plant effluent reuse distribution system that provides an orderly and cost-effective method of distributing reuse irrigation water to the several major reuse target areas and for residential irrigation.	403.064	X						
POLICY 1.2.1.	The effluent at point of discharge shall meet or exceed the standards established by the Department of Environment Protection (FDEP).		X						
POLICY 1.2.2.	Monitoring equipment and appropriately trained personnel shall be provided at the wastewater plant to ensure the continuous quality of the effluent. The City’s Utility Division shall each year, as the effluent reuse system expands, publicly continually educate its customers on the benefits of participating in the re-use system.							X	Modified policy to state the education regarding the benefits of participating in the re-use system is ongoing.

Goals, Objectives, Policies		Recommended Action							Explanation/Modification
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify	
Utilities Element, February 18, 2025									
POLICY 1.2.3.	New residential developments, in the vicinity of reclaimed water transmission mains, shall install ‘dry-lines’ for reclaimed water service. Subdivisions with greater than 100 homes shall provide on-site storage and pumping for peak flow attenuation. Developers have the option of contributing to a reclaimed water construction fund if the development is not in an area scheduled to receive reclaimed water service.							X	This Policy is proposed to be shortened – deleting the text after the first sentence. There is no reclaimed water construction fund. Added “.” after Policy number for consistency.
POLICY 1.2.4.	The City shall implement water conservation and reuse practices as well as demand reduction strategies that are conditions of the City’s current Consumptive Use Permit.							X	Added “.” after Policy number for consistency.
POLICY 1.2.5.	The City will implement the <u>traditional and</u> alternative water supply projects scheduled for completion by 2013 as identified in the Water Supply w-Work Plan.							X	This is part of the Water Supply Work Plan adopted with Ordinance 2024-06. Added “.” after Policy number for consistency.
<u>POLICY 1.2.6.</u>	<u>The City will expand its reclaimed water system in accordance with the 2015 Utility Master Plan and subsequent updates in an effort to improve water quality throughout the region. The City shall establish a target of 100 percent reuse of average daily wastewater flow by the year 2030, except for operational conditions, including current weather conditions, anticipated weather patterns, reclaimed water demands, reclaimed water use patterns, system draw down restrictions, system surplus volume, interruptible customer service restrictions, system operational</u>				X				This is part of the Water Supply Work Plan adopted with Ordinance 2024-06.

Utilities Element, February 18, 2025									
	<u>efficiency, production capability, reclaimed storage capacity, availability of storm and groundwater augmentation sources, and other agency regulatory restrictions that require river discharge.</u>								
OBJECTIVE 1.3. INTERIM “PACKAGE-TYPE” WASTEWATER TREATMENT FACILITIES	The use of interim or package-type wastewater treatment facilities shall be regulated by the Land Development Code and restricted as necessary to protect the public health and welfare and to protect the natural resources of the City.	163.3177 (6)(c)	X						
POLICY 1.3.1.	Interim or small “package-type” wastewater treatment plants with a capacity of less than 500,000 <u>gallons per day</u> shall not be allowed in areas where improper levels of treatment and/or inadequate effluent disposal may result in adverse impacts on water resources (e.g., groundwater aquifers and surface water systems), unless each plant’s owner provides sufficient financial resources to the City to assume responsibility for operating and maintaining the collection, treatment and effluent disposal components in compliance with regulatory requirements and standards.							X	Inserted gallons per day.
POLICY 1.3.2.	Interim or “package-type” wastewater treatment facilities shall be phased out upon notice that access to the system is available. The cost of such connection to the public system shall be the sole responsibility of the owner of the private system.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Utilities Element, February 18, 2025									
POLICY 1.3.3.	An interim package treatment plant may be permitted when all conditions for establishment of such a plant, as provided for in the Land Development Code (LDC) and City Code of Ordinances, exist.		X						
OBJECTIVE 1.4. INDIVIDUAL WASTE TREATMENT/DISPOSAL SYSTEMS	Individual waste treatment/disposal systems, including septic tanks, will be located, constructed and operated so that, either on an individual or cumulative basis, such facilities will not adversely impact public health or water quality.	163.3177 (6)(c)	X						
POLICY 1.4.1.	On-site wastewater treatment in areas served by centralized wastewater treatment shall be prohibited. However, a private on-site wastewater system may be permitted subject to state laws governing siting and installation provided soil conditions are conducive and the lack of a publicly owned treatment system for service exists.		X						
POLICY 1.4.2.	Property owners shall be principally responsible for paying the capital costs related to connecting to the City’s central sewer system when individual lot septic tank failures are sufficient in numbers to cause health and water quality concerns.		X						
POLICY 1.4.3.	The City shall <u>maintain</u> establish criteria in the <u>Land Development Code LDC</u> that governs the appropriateness of phasing out septic tank							X	Update establish to maintain and spell out Land Development Code.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification

Utilities Element, February 18, 2025									
	systems in favor of connecting to publicly owned treatment systems.								
POLICY 1.4.4.	Minimum lot sizes and associated conditions shall be utilized when prohibiting the use of on-site wastewater systems or permitting such systems when publicly owned centralized treatment systems are not available.		X						
POLICY 1.4.5.	Minimum setbacks shall be established and utilized for the location of on-site wastewater systems from the 100-year floodplains, upland/wetlands systems, and the mean high water mark of natural occurring waterbodies of courses.							X	Delete of courses
POLICY 1.4.6.	The City shall maintain <u>Land Development Code regulations</u> continually enforce policies that require existing homes located on lots smaller than one acre and that have septic tank systems to connect to the city central sewer system when the gravity sewer system is within 100 feet of the lot line and the home can connect by gravity to the system. The City may create assessment districts, where appropriate, to retrofit a neighborhood with sewer lines and lift stations.							X	Amend to modify that the City will maintain Land Development Code regulations versus enforce policies.
OBJECTIVE 1.5. GROWTH MANAGEMENT	All new development shall occur in an orderly and economical manner, to the maximum extent possible, and to the maximum existing public infrastructure possible. with those areas having the greatest combined complement of urban public facilities and services being targeted first. New land areas should be staged							X	Modified to simplify Objective to maximize exiting public infrastructure.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification

	for urbanization in a contiguous manner that minimizes additional public investments.								
POLICY 1.5.1.	Access to municipal wastewater interceptor or major transmission lines outside of designated urban service areas shall not be permitted except in cases of overriding public benefit and when the area is included or added to a designated urban service area. Consideration shall be given to the following minimum criteria/procedures in the implementation of this Policy. a. Encouragement of future growth and development to occur within areas of existing or planned wastewater service. b. Wastewater transmission or interceptor lines shall not be extended to accommodate premature forms of development.		X						
POLICY 1.5.2.	The provision of public facilities and services is intended to serve as a growth management measure, as such provision shall be undertaken and expanded within existing or identified future designated facility service areas and discouraged elsewhere, except in cases of overriding public benefit or where needed to meet the needs of existing development.		X						
POLICY 1.5.3.	The location and timing of providing public facilities and services shall be used as methods of implementing the Comprehensive Plan and associated sound and reasonable growth management policies and plans, and for the		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification

Utilities Element, February 18, 2025									
	establishment of a direct, objective relationship between the entire array of public facilities and services and land use intensities.								
POLICY 1.5.4.	The Departments of Public Works, and Planning and Zoning, and the Divisions of Public Utilities, and Engineering, shall maintain facility demand and capacity information as development orders or permits are issued and shall prepare annual summaries of capacity and demand information for each facility and service area. This shall be accomplished through the concurrency management system, as provided in the Land Development Code.		X						
OBJECTIVE 1.6. LEVEL-OF-SERVICE STANDARDS (LOSS) AND CONCURRENCY	Potable Water and Sanitary Sewer facilities shall be maintained and expanded as needed to meet or exceed adopted <u>Level-of-Service Standards</u> LOSS. Minimum <u>Level-of-Service Standards</u> LOSS standards shall be met when planning capital improvements and reviewing applications for development approval.							X	Spell out acronyms.
POLICY 1.6.1.	The City shall apply level-of-service standards that shall be used as the basis for determining the availability of facility capacity and the demand generated by development in accordance with the Capital Improvements Element.		X						
POLICY 1.6.2.	New development shall be approved by the City only in areas where public or private facilities are available, under construction, or where funds have been committed or scheduled for		X

POLICY 1.6.6.	The withdrawals of water for potable purposes from surface or groundwater supply sources in quantities which would result in the depletion, degradation, contamination or destruction of water resources or natural systems shall be prohibited.		X						
POLICY 1.6.7.	The quality and quantity of potable water used to protect public health and safety require maintenance of adequate water pressures to meet fire flow requirements, monitoring of water quality conditions in the supply system distribution lines to ensure compliance with primary drinking water standards and effluent reuse systems designed to meet the fire flow requirements.		X						
POLICY 1.6.8.	A peak day, domestic demand factor shall be established to determine the required capacity for public potable water systems and sanitary sewer systems. The Utilities Master Plan shall be utilized to review and update these factors as necessary.		X						
POLICY 1.6.9.	The City shall update its water and sewer the Utilities Master Plan as needed ‘Master Plan’ every five years to determine capital needs to maintain the established level of service.							X	Modify the update as needed versus every five years.
OBJECTIVE 1.7. CAPITAL FACILITIES CONSTRUCTION	The City shall ensure that potable water and sanitary sewer facilities are available to meet Level-of-Service Standards.	163.3177 (6)(c)	X

OBJECTIVE 2.1. STORMWATER MANAGEMENT UTILITY	The City shall implement the adopted Stormwater <u>Master Management</u> Plan in order to prioritize improvements and expansions to the Stormwater Management System.							X	Update word “Management” to “Master” consistent with Resolution 2023-65.
POLICY 2.1.1.	Develop a public information program that promotes public awareness of the stormwater problems and fosters public participation in the continued implementation of the Stormwater <u>Master Management</u> Plan through the capital improvements planning process.							X	Update word “Management” to “Master” consistent with Resolution 2023-65.
POLICY 2.1.2.	The Stormwater Master Plan shall address the impact that stormwater runoff from existing roads has upon receiving waters and address corrective actions. Corrective actions should include both structural and non-structural measures. Structural measures include retrofitting existing roadways with effective stormwater management facilities. Non-structural measures include increased street sweeping and increased storm sewer cleaning. The Capital Improvements Plan shall be utilized as the principal mechanism in scheduling improvements identified in the Stormwater Master Plan while the Stormwater Utility Fee shall be the chief funding source for stormwater implementation.		X						
POLICY 2.1.3.	The City’s stormwater management system shall be designed and developed to connect and integrate wetlands as a primary means to clean and recharge the aquifer.		X

All landfill groundwater monitoring wells monitored on an annual basis; b. Landfill monitoring wells will be tested for water quality parameters in accordance with FDEP requirements; c. Periodic review of data collected and overall monitoring program results; and d. Correction of any problem discovered by the monitoring.							X	Grammatical corrections.
POLICY 3.1.4.	The City shall utilize reclaimed landfill sites for municipal recreation purposes consistent with the <u>Parks and Recreation Master Plan</u> . Recreational and Open Space Master Plan.							X	This policy is proposed to be updated to state “Parks and Recreation Master Plan” versus “Recreational and Open Space Master Plan”.
OBJECTIVE 3.2. SOLID WASTE COLLECTION	The City shall effectively and efficiently operate a solid waste collection system to maximize the use of existing facilities and services and shall provide service to all residential and non-residential establishments within the City limits.		X						
POLICY 3.2.1.	The City shall continue to incrementally expand its solid waste collection system to meet the needs of new growth and to maintain existing levels-of-service.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Utilities Element, February 18, 2025									
POLICY 3.2.2.	The City shall maintain the Solid Waste Disposal and Collection as an Enterprise Fund to pay for solid waste collection and transfer expenses.		X						
POLICY 3.2.3.	The level-of-service standard for determining the availability of County Landfill facility capacity and the demand generated by development shall be in accordance with the Capital Improvements Element.		X						
POLICY 3.2.4.	The City shall maintain a separate trash handling system for the collection of refrigerators, freezers, appliances, (white goods), and large piles of yard trash.							X	Corrected punctuation.
OBJECTIVE 3.3. RESOURCE RECOVERY AND VOLUME REDUCTION	The City shall continue to administer resource recovery and volume reduction practices to conserve natural resources and reduce landfill space requirements, and maximize the use of existing facilities and services.		X						
POLICY 3.3.1.	The City shall participate in the design, implementation, and evaluation of local recycling and waste management programs.		X						
POLICY 3.3.2.	Alternative disposal methods for yard trash shall be continued in cooperation with the County.		X						
POLICY 3.3.3.	The City shall reduce the volume of non-hazardous maintain the rate of reduction of the municipal solid waste disposed of in the County landfill by thirty <u>30 percent and meet additional State reduction goals as they are enacted.</u> of the October FY 1995-96 volume. No more than one-							X	Modify consistent with Volusia County Solid Waste Sub Element: Objective 8.1.1. - Maintain the rate of reduction in the amount of Volusia County's solid waste stream by 30% and meet additional State waste reduction goals as they are enacted.

Goals, Objectives, Policies			Recommended Action						Explanation/Modification

OBJECTIVE 3.4. ADMINISTRATION AND DEVELOPMENT REVIEW	The City shall continue to administer, in a cost-efficient and environmentally safe manner, a collection and transfer solid waste system that is fully supported by user fees and that is designed to effectively meet the needs of existing and future residents.		X						
POLICY 3.4.1.	The City’s Department of Finance and Public Works shall work together to maintain a full cost accounting and reporting system for the collection and transfer of solid waste in compliance with the Solid Waste Management Act.		X						
POLICY 3.4.2.	The City will participate in the “Keep Volusia Beautiful” program to control the problem of littering and illegal dumping.		X						
POLICY 3.4.3.	The City shall support the County to maintain landfill location determination criteria designed to address minimum size criteria, minimum distance from residential areas, schools and hospitals, minimum distance from streams, aquifer recharge areas, and wetlands, stay out of 100-year floodplain, and determines maximum distance from main roads.		X						
POLICY 3.4.4.	Solid waste generated within the city limits shall continue to be collected on a regularly scheduled basis.		X						
POLICY 3.4.5.	Residential, commercial, and industrial development shall have adequate landfill space to meet the solid waste needs anticipated to be generated by the proposed development activity							X	Spell out acronym

Utilities Element, February 18, 2025									
	economic incentives to developments, agricultural operations and businesses which limit potable water consumption by using effluent reuse systems.								
POLICY 5.1.4.	The City shall continue to administer an emergency water shortage plan.		X						
POLICY 5.1.5.	Land use decisions and development approvals shall be consistent with adopted comprehensive water basin management plans. Water supply, production facilities, conveyance lines and <u>Consumptive Use Permit C.U.P.</u> capacity shall be available for new site plan and/or subdivision developments, prior to issuance of development orders.							X	Spelled out Consumptive Use Permit.
POLICY 5.1.6.	The use of procreation of native vegetation and/or drought-resistant vegetation shall be required on development projects when irrigation water is drawn from sources which are critical to limiting saltwater intrusion.							X	Native vegetation and drought-resistant vegetation required on all development projects.
POLICY 5.1.7.	Industries which utilize or generate hazardous materials shall be sited and designed so as to minimize the threat of surface water or groundwater contamination.		X						
POLICY 5.1.8.	The City shall continue to apply regulations and procedures to control permanent water table drawdown in accordance with the County minimum environmental standards and the provisions of the Land Development Code.		X

Utilities Element, February 18, 2025									
	monitor the entire City’s water distribution system through the use of leak noise loggers.								
POLICY 5.3.3.	Non-potable water use demands shall be met using water of the lowest quality supply which is both available and acceptable for the intended application. Water reuse or water reclamation programs should be used, wherever economically and environmentally feasible, to reduce groundwater or surface water withdrawals for water use applications which do not require potable water.		X						
POLICY 5.3.4.	The City shall utilize a low pressure reverses <u>reverse</u> osmosis (LPRO) treatment process which permits the use of brackish groundwater which is lower quality water source from the Upper Floridan Aquifer. Future needs may require to the City to use the Lower Floridan Aquifer as an alternative water source.							X	Correct spelling error for reverse.
POLICY 5.3.5.	The City shall maintain a comprehensive program responsible for educating businesses and residents of: the City’s current water conservation policies, the fragility of the aquifer, methods to reuse and conserve water, well abandonment problems and rules, and encouragement of the use of drought resistant plants (xeriscape).							X	Delete term xeriscape.
POLICY 5.3.6.	The City of Ormond Beach will plan for municipal service areas or extend water and sewer services into unincorporated Volusia County in a		X

POLICY 1.2.9.	The City shall coordinate with State, regional, and local agencies in permitting the construction of new marina facilities; marinas shall not be located in the Tomoka River or its tributaries.		X						
POLICY 1.2.10.	In order to protect surface waters from the activities of adjacent property owners, the City shall educate residents regarding deliberate deposition of lawn debris, washing paint brushes, the use of fertilizers and chemicals or the storage of hazardous chemicals and fuel supplies in close proximity to water bodies. “Close proximity” shall be defined with regard to the proposed activity and the degree to which the adjacent water body is to be protected.		X						
OBJECTIVE 1.3. INTERGOVERNMENTAL COORDINATION	The City shall continue to promote intergovernmental coordination to maintain or improve the water quality, water quantity, recreational, fish, and wildlife resource values of the Halifax River, the Tomoka River, and their tributaries.	F.S. 163	X						
POLICY 1.3.1.	On a continuous basis, the The City shall support and promote <u>state and federal agencies</u> programs to improve natural tidal flushing action for the Halifax River to restore ambient water quality.							X	The city will cooperate with the appropriate agencies on these initiatives, but the state and federal agencies are the lead for these inventories.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 1.3.2.	The City shall coordinate its <u>encourage</u> a water quality testing program with appropriate State, regional and local government testing programs to ensure efficient use of resources and to eliminate duplication of effort.							X	The city will cooperate with the appropriate agencies on these initiatives, but the state and federal agencies are the lead for these inventories. Community Engagement Meeting comment: Add “of point source and water to the Halifax intrusion”
POLICY 1.3.3.	In cooperation with State, regional, and local agencies, including the Volusia County Sheriff’s Department, the City shall participate, where possible, in a river safety program that utilizes to the maximum extent possible, miscellaneous media sources, newspaper advertising, signs, and literature to prevent surface water pollution, to protect manatees and other wildlife, and to promote proper boating safety standards.							X	No change to text. added commas around “where possible” and after “extent possible”
OBJECTIVE 1.4. ECOLOGICAL BALANCE	The City shall continue to review development proposals and establish programs to balance the functioning values of the Halifax River and the Tomoka River in order to maintain an optimum combination of aesthetic, ecological, recreational, and historical resources.	F.S. 163.3177 and F.S. 403	X						Community Engagement Meeting comment: Add “park” after recreational.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 1.4.1.	On a continuing basis, the City shall coordinate with the appropriate State, regional, and local agencies in the identification and protection of significant archaeological, ecological, historical, and paleontological sites under and along the Tomoka River with other agencies and private organizations. This shall include promoting studies by colleges, universities, and researchers and requiring archaeological studies by developers for projects in areas that may contain significant resources.							X	The city will cooperate with the appropriate agencies on these initiatives, but the state and federal agencies are the lead for these inventories.
POLICY 1.4.2.	On a continuous basis, the City shall encourage college and university studies of the Halifax and Tomoka Rivers.		X						
POLICY 1.4.3.	On a continuous basis, the City shall seek to acquire suitable property to meet public access requirements adjacent to the Tomoka River and its tributaries and the Halifax River for passive park and canoe access facilities.		X						
POLICY 1.4.4.	In order to effectively monitor the effects of development activities on surface water conditions, the applicant or its successors shall provide, as determined by the City, the establishment and operation of a surface water and wetland biological monitoring program.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLIVY 1.4.5.	In calculating maximum potential density or maximum permitted density for any given parcel of property, such calculations shall be exclusive of that portion of the property which is considered to be submerged lands.		X						
OBJECTIVE 1.5. ARTIFICIAL LAKES	Artificially constructed lakes shall be designed and located so as to not negatively affect the aesthetics, ambient water quality, biotic composition/diversity, environmental integrity, flood capacity, public health and safety, or recreational values of the upper Halifax River, the Tomoka River, or their tributaries.	F.S. 163.3177	X						
POLICY 1.5.1.	Artificially constructed lakes shall not be included in stormwater management systems which have outfalls into the upper Halifax River, the Tomoka River, or their tributaries without review and recommendations by the Site Plan Review Committee that all pertinent ordinances and standards have been met and that the discharge to the receiving waters will not degrade ambient surface water quality.		X						
POLICY 1.5.2.	Artificially constructed lakes shall not be excavated in wetland systems in the upper Halifax River, the Tomoka River, or their tributaries and shall not lower water levels in these systems.		X						
OBJECTIVE 1.6. REZONING	Rezoning shall be consistent with the Comprehensive Plan and with the objective	F.S. 163.3177	X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
	of preserving ecological systems and the aesthetic qualities of the community.								
POLICY 1.6.1.	All rezoning shall be compatible with the objective of protecting wildlife and the environment consistent with the Comprehensive Plan.		X						
POLICY 1.6.2.	The City shall maintain the zoning district entitled “Special Environmental District” (SE). The following criteria shall apply to the implementation of this policy: A. The SE district applies to all Departments of Environmental Protection or Army Corps of Engineers jurisdictional wetland lines: 1. not protected or preserved by a conservation easement; and 2. or part of an approved Master Land Use Plan for a Planned Residential Development. This area includes mosquito impoundment districts. B. The SE district applies to environmentally sensitive areas designated for public acquisition and protection or areas currently in public ownership which should be subject to open space and conservation type land uses.		X					Community Engagement Meeting comment: add Ormond Scenic Loop and Trail as new Item C.	

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 1.6.3.	In cases where land development regulations and land use classifications will eliminate any reasonable use of real upland property, consideration will be given to public acquisition.		X						
GOAL 2. FLOODPLAINS	THE CITY SHALL CONTINUE TO IMPLEMENT CURRENT PROGRAMS AND STUDY AND ADOPT NEW PROGRAMS TO MINIMIZE PUBLIC AND PRIVATE LOSSES AND THREATS TO THE PUBLIC HEALTH, SAFETY AND WELFARE DUE TO FLOOD CONDITIONS AND HAZARDS.	F.S. 163.3177	X						
OBJECTIVE 2.1. FLOOD DAMAGE	Flood damage prevention shall be accomplished through restricting new development from obstructing the flow of water and increasing flood heights within a floodplain. To offset any loss of flood storage capacity, compensatory storage is required for new fill, or other obstruction put in the floodplain by providing an at least equal volume to replace the lost flood storage volume.	F.S. 163.3177	X						
POLICY 2.1.1.	The City shall protect the natural functioning values of the floodplains to the maximum extent feasible through wetland buffer requirements, compensatory storage, conservation easements and tree protection ordinances.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 2.1.2.	The City shall require all new development occurring within the 100-year floodplain to provide for the protection of adjacent properties.		X						
POLICY 2.1.3.	The City shall regulate the deposition of fill material within a floodway in order to prevent damage to the public, as an uncontrolled river may at flood state, pose a threat to life and property in excess of that is anticipated by the 100-year storm in the floodway fringe areas.		X						
POLICY 2.1.4.	Sites for the creation of compensatory storage volume, commensurate with any flood storage volume lost as a result of development activities (including roadways) in the 100-year floodplain, shall be on the same or adjacent site, or within the same hydraulically connected basin in order to provide for effective storage volume within the floodplain, but shall not be located within land areas identified for preservation purposes, such as wildlife corridors, or as being within the jurisdictional wetland limits of regulatory agencies, except for the purpose of providing pretreated stormwater storage capacity.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 2.1.5.	Special Flood Hazard Areas shall be interpreted as that portion of the site lying within the boundaries of the 100-year floodplain based on the Official Federal Emergency Management Agency Flood Insurance Study and corresponding Flood Insurance Rate Maps.		X						
POLICY 2.1.6.	The City shall ensure that fill material or other structures do not adversely obstruct the movement of floodwaters natural overland sheetflow or pose a threat to the public health, safety, and welfare.		X						
POLICY 2.1.7.	Areas not filled within the floodplain are to be generally left in their natural state. However, such areas may be used to meet landscaping and/or retention requirements, provided that the design of development is consistent with City codes and standards.		X						
OBJECTIVE 2.2. FLOODPLAIN MANAGEMENT	All development shall continue to be reviewed in accordance with the floodplain management criteria of the City’s Flood Hazard Area section of the Land Development Code, as amended, and other applicable policies as contained within the Code of Ordinances and the Comprehensive Plan.	F.S. 163.3177	X						
POLICY 2.2.1.	The City shall constantly enforce the flood hazard provisions of Chapter 3, Article II of							X	No change to text. Corrected punctuation; removed comma after “and” in paragraph “d”

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
	the Land Development Code which shall contain, at a minimum, provisions for: a. Restricting or prohibiting uses which are dangerous to health, safety, and property due to water or erosion hazards, or which result in damaging increases in erosion or in flood heights or velocities; b. Requiring that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction; c. Controlling the alteration of natural floodplains, stream channels, and natural protective barriers, which help accommodate or channel flood waters; d. Controlling filling, grading, dredging, and other development which may increase flood damage; and, e. Preventing or regulating the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards in other areas.								

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify

POLICY 2.2.2.	The City shall continue to develop and enforce a floodplain management program that balances the public interest in regulating the use of private property against the interests of private landowners.		X						
POLICY 2.2.3.	The City shall continue to participate in the National Flood Insurance Program.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 2.2.4.	All development, rezoning, and changes in land classifications shall be reviewed and measured against the environment’s capacity to accommodate such action and the extent of harm which the proposed development, rezoning and change in land use may impose upon the established and proper use of neighboring lands.		X						
POLICY 2.2.5.	The City shall periodically review its zoning regulations to ensure that the density which is permitted under each zoning category is consistent with the City’s desire to protect the natural functioning values of the floodplain and to protect the quality and quantity of surface water resources.		X						
POLICY 2.2.6.	Floodplains whose functional values have been degraded or destroyed through human intervention should be restored, if possible, by acquisition of historic floodplain lands. Various state, regional and local land acquisition programs shall be used for this purpose.		X						
POLICY 2.2.7.	The City shall perpetually enforce the flood hazard provisions of the Land Development Code and amend it as necessary to incorporate recently updated flood insurance studies and flood insurance rate maps and to further bring it into full compliance with revisions of the national flood insurance program floodplain management criteria.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 2.2.8.	All new public buildings and infrastructure shall be located outside the 100-year floodplain to the maximum extent feasible. Appropriate flood proofing measures shall be undertaken for any public buildings located within the floodplain. Any pump stations or other electrical and mechanical equipment shall be designed to be protected from physical damage by the 100-year flood.		X						
POLICY 2.2.9.	The City shall coordinate its floodplain management programs with appropriate Federal, State, regional, and local governments.		X						
GOAL 3. GROUNDWATER	THE CITY SHALL SECURE PUBLIC HEALTH, SAFETY, AND GENERAL WELFARE, AND PROTECT THE QUALITY AND QUANTITY OF GROUNDWATER RESOURCES IN ORDER TO ENSURE A SAFE AND ADEQUATE WATER SUPPLY FOR PRESENT AND FUTURE GENERATIONS AND, TO PRESERVE GROUNDWATER RESOURCES PRESENTLY IN USE.	F.S. 163.3177	X						
OBJECTIVE 3.1. SALTWATER INTRUSION AND RECHARGE	The City shall prevent saltwater intrusion by limiting potentially harmful water extractions and ensuring recharge occurs to the maximum extent practical and technically feasible.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 3.1.1.	Water conservation measures shall be maintained in the plumbing codes (e.g., require new construction to install water conserving plumbing fixtures) and shall be updated as the technology becomes available.		X						
POLICY 3.1.2.	The City shall continue to deliver effluent for reuse as a component of its effluent disposal program to the maximum extent possible. This shall include “dry-line” requirements for new developments.		X						
POLICY 3.1.3.	The City shall obtain water through interconnections with adjacent utility systems.			X					The City does not obtain water from other utility systems. Have interconnections for emergency situations.
POLICY 3.1.34.	Potable water withdrawal from areas east of the County buffer zone shall be pumped at an appropriate volume and rate to avoid both saltwater intrusion and decreased aquifer levels. These actions shall be consistent with the City’s approved wellfield operating plan.							X	No change in text. Re-number policy
OBJECTIVE 3.2. INTERGOVERNMENTAL COORDINATION	Coordinate with Federal, State, regional, and other local agencies to develop intergovernmental responses to groundwater problems.	F.S. 163.3177	X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify

POLICY 3.2.1.	The City shall maintain and periodically review potable water supply wellfield protection standards; by designing land use controls that provide long-term protection from contamination, and by establishing criteria for regulations to ensure proper handling, utilization, storage, and disposal of chemicals, fuels, and other hazardous materials within the City, to avoid groundwater contamination.							X	Corrected punctuation; removed comma after “standards”
POLICY 3.2.2.	The City shall maintain formal lines of communication with Federal, State, and local agencies so that the City Police and Fire Departments can be prepared when hazardous materials are transported through the City.		X						
POLICY 3.2.3.	On a continuous basis, the City’s Engineering Division shall revise its estimates of safe yield for the Volusia-Floridan Sole Source Aquifer.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
OBJECTIVE 3.3. AQUIFER PROTECTION	Excavation projects shall not harm the Volusia-Floridan Sole Source Aquifer.	F.S. 163.3177	X						
POLICY 3.3.1.	The City shall prohibit removal of the confining layer of material separating the bottom of borrow pits from the top of the Volusia-Floridan Sole Source Aquifer.		X						
OBJECTIVE 3.4. GROUNDWATER CONTAMINATION	The City shall act to prevent groundwater contamination to ensure that any contamination will be quickly detected and subjected to a swift and effective response.	F.S. 163.3177	X						
POLICY 3.4.1.	On a continuous basis, the City shall maintain its extensive water quality testing program at and near the City landfill in order to monitor groundwater quality parameters.		X						
POLICY 3.4.2.	The City shall maintain and periodically review the provisions of the Land Development Code concerning abandoned gasoline tanks, to comply with applicable State and County regulations.		X						
POLICY 3.4.3.	Groundwater resources shall be protected from leaking underground storage tanks by the utilization of state-of-the-art leak prevention technology (such as double-walled storage tanks).		X						
OBJECTIVE 3.5. DEVELOPMENT	All requests for development shall be reviewed to ensure that potential impacts of	F.S. 163.3177	X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
	the proposed development activity do not degrade the quantity and quality of groundwater resources.								
POLICY 3.5.1.	Depending upon site locations and intensity of development, applicants for development may be required to provide the City with sufficient information for review of the potential impact on the groundwater resources of the City and region.		X						
POLICY 3.5.2.	The City shall continue to require such information which shall include, but not be limited to, site hydrology, geology, geologic maps, surficial aquifer characteristics, confining unit definitions, water table contour map, direction and rate of groundwater flow, maximum/minimum recorded water table elevations, aquifer relationship to local geology, location of local discharge features, background water quality, suitability for irrigation and wastewater reuse, Volusia-Floridan Sole Source Aquifer characteristics, and potentiometric surface map.		X

Conservation Element – February 18, 2025									
POLICY 3.5.3.	Development within the zone of influence of wellfields shall be regulated and permitted to ensure no degradation of the quality and quantity of groundwater.		X						
POLICY 3.5.4.	Fuel dispensing and storage facilities shall be prohibited within the zone of influence of any wellhead and wellfield.		X						
POLICY 3.5.5.	To the maximum extent possible, the City shall encourage irrigation water to be furnished from community suppliers such as a City or neighborhood reuse system; and the City should discourage the use of individual non-potable wells.		X						
POLICY 3.5.6.	The Volusia-Floridan Sole Source Aquifer should not be used to meet non-potable irrigation needs.		X						
POLICY 3.5.7.	Individual well pumpage rates shall be matched to site specific hydrological characteristics in order to avoid excessive groundwater drawdowns in the Floridan Aquifer.		X						
POLICY 3.5.8.	The use of air/water heat pumps shall be consistent with the requirements of the Land Development Code.		X						Community Engagement Meeting comment: add new Policy 3.5.9. “The use of atmospheric water generation shall be considered whenever and wherever possible”.
GOAL 4. POTABLE WATER	THE CITY SHALL PROVIDE AN ADEQUATE QUANTITY AND QUALITY OF POTABLE WATER TO ACCOMMODATE EXISTING AND	F.S. 163.3177	X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
	FUTURE DEMANDS WITHOUT HARMING GOUNDWATER RESOURCES.								
OBJECTIVE 4.1. POTABLE WATER SERVICES	Provision of potable water services shall be extended where needed, economically feasible, and environmentally acceptable.		X						
POLICY 4.1.1.	The City shall provide potable water service to existing or platted subdivisions throughout its service area.		X						
POLICY 4.1.2.	The availability of groundwater supplies which may effectively be extracted, treated, and delivered in a cost-effective manner shall be a contingency for development approval.		X						Community Engagement Meeting comment: add new Policy 4.1.3.“Atmospheric water generation when possible”
OBJECTIVE 4.2. INTERGOVERNMENTAL COORDINATION	The City shall cooperate and coordinate the provision of water supplies with State, regional, and local governments.	F.S. 163.3177	X						
POLICY 4.2.1.	The City shall cooperate with Volusia County through County grants or County established assessment districts to retrofit subdivisions approved by the County that were developed with individual wells and are in need of central water service.							X	Grammer – delete comma.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 4.2.2.	The City shall maintain a combined and connected series of finished water interconnects with adjoining utilities’ water systems.		X						
POLICY 4.2.3.	The City shall continue to cooperate with the St. Johns River Water Management District in dealing with water shortages and enforcing water use restrictions. Implementation of this policy shall include the following: a. Interpret District procedures associated with declaring and rescinding a water shortage; b. Designate one or more persons to be a liaison with the District concerning water shortage related matters and the enforcement of District water use restrictions; c. Amend its ordinance, as needed, to facilitate local enforcement of District water use restrictions;		X						
OBJECTIVE 4.3. WATER CONSERVATION	In order to maintain adequate potable water supplies to meet public health, safety, and welfare needs and minimize adverse economic, social, and environmental impacts, the City shall encourage and require water conservation.	F.S. 163.3177	X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 4.3.1.	The City shall continue to participate in Local, District, State, and Federal public awareness programs to inform the public of the benefits of reducing water usage.		X						
POLICY 4.3.2.	The City shall discourage the over-watering of lawns and other landscaping plants, particularly when automatically timed sprinkler systems are used. The City shall require the use of “rain sensors” as required by Florida Statutes.		X						
POLICY 4.3.3.	The City shall continue to prohibit the sprinkling of lawns during hours of high evaporation potential.		X						
POLICY 4.3.4.	Water reuse or water reclamation programs shall be used to reduce groundwater and surface water withdrawals for water use applications which do not require potable water. This requirement includes dry-lines for reclaimed water in new developments and the use of stormwater as a reclaimed water augmentation source, where feasible.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 4.3.5.	The City shall encourage the implementation of a combined effluent reuse system, with adjacent utility providers, including Holly Hill, Daytona Beach and Volusia County.		X						
GOAL 5. VEGETATION	THE CITY SHALL PROVIDE FOR THE PROTECTION, ENHANCEMENT, AND MANAGEMENT OF SIGNIFICANT NATURAL VEGETATIVE COMMUNITIES IN ORDER TO MAINTAIN THEIR ECOLOGICAL, AESTHETIC, ECONOMIC AND RECREATIONAL VALUES.	F.S. 163.3177	X						
OBJECTIVE 5.1. ECOLOGICAL COMMUNITIES	The City shall maintain and periodically review standards and programs that maintain upland ecological communities to the maximum extent feasible within the City.		X						
POLICY 5.1.1.	An inventory of natural vegetative communities shall be provided by the applicant for all development proposals requiring site plan or plat approval. The applicant shall provide a plan for protection of species which are designated by either State or Federal agencies as endangered, threatened, or of special concern.		X						Community Engagement Meeting comment: strike natural and add native

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 5.1.2.	The City shall maintain, refine, and expand its FLUCCS inventory and make such information available to land developers. Land developers and other interested parties shall consult with state agencies who maintain the Florida Land Use, Cover, and Forms Classification System (FLUCCS) as desired.							X	The city will cooperate with the appropriate agencies on these initiatives, but the state and federal agencies are the lead for these inventories. Community Engagement Meeting comment: strike developers and add all residents.
POLICY 5.1.3.	Ecologically viable portions of natural upland plant communities including, but not limited to, rare or endangered ecosystems within proposed urban development sites, should be preserved and maintained in their original state, to the greatest extent practicable.		X						Community Engagement Meeting comment: add forests.
POLICY 5.1.4.	The City shall maintain and periodically review provisions in the Land Development Code to preserve the upland buffers of native vegetation; significant habitat area (including wildlife corridors); scenic vistas; areas where native vegetation is important to impede erosion, and other areas where the public interest is best served by preserving native vegetation.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification

POLICY 5.3.1.	The City shall continue to promote and encourage xeriscape <u>native</u> design concepts for landscaping single-family homes by providing builders, landscape designers, homeowners, and the general public with informational brochures describing xeriscape <u>native plantings</u> .		X						Community Engagement Meeting comment: delete xeriscape and add native plant.
POLICY 5.3.2.	The City shall require that at least 50% of the landscape vegetation used on a project reviewed by the Site Plan Review Committee be comprised of drought resistant native vegetation in harmony with site specific conditions.		X						Community Engagement Meeting comment: delete 50% and add 75%. Delete drought resistant.
POLICY 5.3.3.	Vegetation on new City landscaping projects shall be comprised of at least 50% native drought resistant vegetation.		X						Community Engagement Meeting comment: delete 50% and add 75%. Delete drought resistant.
POLICY 5.3.4.	All new development and expansions of existing development, except for single-family homes in an existing subdivision, shall provide for the protection of native vegetation on the site. Existing developments should utilize native plants in common areas (entranceways, pavilions) in instances where replanting or re-landscaping becomes necessary.		X						
POLICY 5.3.5.	Native vegetation shall be used to the maximum extent possible to meet landscaping and open space requirements.		X						Community Engagement Meeting comment: delete open space.

POLICY 5.3.9.	<u>The removal of invasive species on City owned and maintained lands shall be funded through the annual budget process.</u>				X				City Commission directive from February 4, 2025 workshop.
OBJECTIVE 5.4. WETLAND PRESERVATION	Wetland areas within the City shall be preserved in accordance with a City that incorporates the need for wetlands preservation; directs incompatible uses away from wetland areas; promotes economic development that creates long-term jobs by establishing a means to allow wetland impacts for industrial land uses in platted industrial parks; inventories existing wetlands within the City; sets performance criteria to maintain wetland functions; establishes transition zones; and establishes land use policies for transition zones; and establishes standards for mitigation based on a policy of no-net-loss of wetland functions as a last resort.	F.S. 163.3177						X	Removed the word “and” after the first occurrence of “transition zones”

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 5.4.1.	It is the policy of the City to require proper planning to avoid or minimize damage to wetlands; to require that activities not dependent upon a wetland location be located at upland sites; to allow wetland losses only where all practicable measures have been applied; to reduce those losses that are unavoidable and in the public interest; to require silviculture to comply with all requirements; to provide for mitigation in the form of wetland restoration, wetland creation or upland preservation; to offset further losses; to promote economic development that creates long-term, value added jobs by allowing wetland impacts in excess of minimum requirements under certain conditions for commercial, industrial, and residential, office, <u>and</u> retail; land uses, subject to applicable e <u>County</u> , s— <u>State</u> , and f— <u>Federal</u> wetland regulations; and to provide for the protection of wetlands under the City’s land development regulations to be adopted and implemented consistent with Section 163.3202, F.S.							X	Minor grammatical changes.
POLICY 5.4.2.	Land use planning and site design shall support development patterns which minimize the impact of development on wetland communities. As a result of development, there shall be no net loss of wetlands functions or values, nor shall wetlands functions and values be degraded.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 5.4.3.	All development shall comply with wetland protection requirements of all Federal, State, and regional agencies.		X						
POLICY 5.4.4.	The City shall require a wetland permit for any development that proposes to alter a wetland system and the permit shall clearly show the proposed alteration and mitigation. A Wetland Management Plan shall be required for all development that may adversely affect wetland systems and the requirements shall be contained in the Land Development Code.		X						
POLICY 5.4.5.	No activities in or affecting wetlands shall destroy natural wetland functions <u>that are</u> important, unless otherwise mitigated, to the general welfare by: a. Decreasing breeding, spawning, nesting, wintering, feeding, or other critical habitat for fish and wildlife, including rare, threatened and endangered plant and animal species, commercially and recreationally important fish and wildlife and species of special concern; b. Interfering with the natural exchange of nutrients needed by fish and other forms of wildlife; c. Reducing groundwater recharge; d. Destroying sites needed for educational and scientific research.							X	Added the phrase “that are” for clarity.

POLICY 5.4.6.	The City shall continue to require and enforce the provision and maintenance of adequate and undisturbed upland buffers of native vegetation adjacent to the Halifax River, the Tomoka River, and all of their associated tributaries and wetlands. A minimum shoreline requirement shall be applied for all new development to protect wildlife and marine life habitat areas and the adjacent surface water quality. The minimum shoreline setbacks shall be as follows: a. Tomoka River and the Little Tomoka River: A minimum of 120 feet from the mean high-water mark or 50 feet from the upland/wetland interface line, whichever is greater. The minimum setback may be reduced where a planned overlay district is approved for sites where a bluff of ten feet (10') above the mean high-water mark exists along the river. b. Halifax River: A minimum of 30 feet from the mean high-water line or upland/wetland interface, or as stipulated by a specific zoning district rear yard setback contained in the Land Development Code, whichever is greater. The minimum setback may be reduced where a planned overlay district is approved for sites where a bluff of ten (10') feet above the mean high-water mark exists along the river. c. Mosquito Control Ditches; Strickland, Dodson, and Thompson Creeks; and Misner's and Groover Branches: A minimum of 60 feet from the mean							X	Hyphenated each occurrence of "high-water" for grammar Removed the second occurrence of "and" and replaced commas with semicolons for clarity after "wildlife quality" and "turbidity control" in paragraph "d"
---------------	---	--	--	--	--	--	--	---	---

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification

Conservation Element – February 18, 2025									
	high-water mark or 50 feet from the upland/wetland interface line, whichever is greater. d. For those waterways listed under “c” above, the shoreline and wetland setback may be adjusted downward on a case-by-case basis, to be no less than 30 feet from the mean high-water mark or no less than 25 feet from the upland/wetland interface, whichever is greater. A request for a reduction may be considered, provided that the associated wetland and upland buffer areas are predominantly herbaceous in nature, and the functioning values of the wetland and upland buffer areas are poor for such factors as wetland wildlife quality; and quantity; and sediment and turbidity control; and surface water runoff control. A determination to allow a reduction in the buffer width shall be based on a finding of conformance to all of the following criteria as conducted through the development review process: 1. The developable portion of the property is less than 150 feet deep for existing lots of record, as of the date of adoption of the Comprehensive Plan.

			Keep	Delete	New	Replace	Move	Modify		
Conservation Element – February 18, 2025										
	2. The proposed development shall be connected to a central water and sewer system. 3. The proposed development shall not adversely impact the hydroperiod and other functioning values of the adjacent wetland as determined by review of a Wetlands Management Plan, which is required to be submitted under the Wetlands Protection Ordinance. 4. The proposed development shall provide one-to-one mitigation for reduction in standard, by enhancing the functioning values of the on-site upland and wetland buffer areas.									
POLICY 5.4.7.	The City shall maintain Land Development Code regulations consistent with the minimum standards for wetland protection as approved by Volusia County. These standards address the identification of wetlands, mitigation requirements to ensure that there is no net loss of wetlands within the City limits, and a minimum 25-foot-wide buffer upland and adjacent to wetlands requirements.		X							
POLICY 5.4.8.	All new development shall submit to the City a description of all watercourses, water bodies							X	Added the word “the”.

			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 5.4.21.	Limit the extensive utilization of fill material in uplands, if its utilization results in extensive or significant wetland alteration.		X						
POLICY 5.4.22.	Wetlands shall not be used as primary sediment traps during development. No grading, cutting or filling shall be commenced until erosion and sedimentation control devices have been installed between the disturbed area and the wetlands.		X						
POLICY 5.4.23.	The City shall prohibit direct discharge of stormwater into wetland areas.		X						
POLICY 5.4.24.	The minimum distance between the edge of each stormwater retention/detention pond and adjacent wetlands shall be 300 feet, unless the St. Johns River Water Management District and/or the City accepts tests, calculations or other information furnished by the applicant through the permitting process which clearly demonstrates that deviation from the 300 feet distance would not degrade the wetlands in any way.		X						
POLICY 5.4.25.	Although the use of wetlands for storing and purifying water is encouraged, care must be taken not to overload their capacity, thereby harming the wetlands and transitional vegetation. Wetlands should not be damaged by the construction of detention ponds.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 5.4.26.	Retention and detention ponds shall be used to retain and detain the increased and accelerated runoff which the development generates. Water shall be released from detention ponds into wetlands at a rate and in a manner approximating the natural flow which would have occurred before development.		X						
POLICY 5.4.27.	Agricultural drainage ditches and mosquito control ditches that adversely affect the hydroperiod of natural wetland systems shall be prohibited.		X						
POLICY 5.4.28.	Proposed activities which would destroy or degrade the function of wetlands shall not be permitted except where such activities are not contrary to the public interest and where there is no practical alternative which reduces or avoids impacts to wetlands. Unavoidable losses of viable wetlands should be mitigated through the demonstrably successful restoration, creation or (where no other alternative is feasible) preservation of wetlands.		X						
POLICY 5.4.29.	The purpose of mitigation is to offset unavoidable environmental impacts. Mitigation plans should consider the function of existing natural resources and provide comparable functions after mitigation is completed. Mitigation plans should maximize the preservation of existing natural resources. The mitigation plans shall consider the		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
	following methods, in order of priority in which they should be utilized: a. Avoiding the impact altogether by not taking a certain action or parts of an action; b. Minimizing impacts by limiting the degree or magnitude of the action or its implementation; c. Rectifying the impact by repairing, rehabilitating, or restoring the affected environment; d. Reducing or eliminating the impact over time by preservation and maintenance operations during the life of the action; and e. Compensating for the impact by replacing or providing substitute resources or environments through creation of new wetlands, enhancement of existing wetlands or re-establishment of wetlands or significant upland areas which are no longer functioning due to significant alteration in the past.								
POLICY 5.4.30.	Where all or part of a wetland is destroyed or substantially altered by development, an acceptable mitigation plan shall include at least:		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
	a. Compensatory wetland mitigation ratios shall be consistent with the ratio established for each wetland classification. Wetland-to-wetland compensation should be like kind replacement, i.e., saltwater system for saltwater system, freshwater for freshwater where practicable; b. Specific design requirements based upon conditions of the site and the type of wetland to be treated or restored; c. Periodic monitoring to remove exotic or nuisance vegetation; d. Monitoring and replacement to assure a survival rate of 80% wetland vegetation for a minimum of three (3) years; and e. An upland habitat as an adjacent buffer on mitigated sites.								
POLICY 5.4.31.	An acceptable mitigation plan shall be reasonably and technically feasible. Mitigation through restoration of other degraded wetlands or preservation of significant upland areas is preferred over wetland creation.		X						
POLICY 5.4.32.	Mitigation shall take place as follows (ranked in preference): (1) on site or (2) in close proximity and within the same drainage basin or (3) an approved mitigation bank.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify

	degrade the natural physical, biological, aesthetic, or recreational functions of such lands and shall provide for the preservation and protection of such areas in accordance with the appropriate standards including, but not limited to, setback requirements, buffers, wetland and floodplain policies.								

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification	
			Keep	Delete	New	Replace	Move	Modify		
Conservation Element – February 18, 2025										
POLICY 6.1.268.	Planning and approval of development projects shall avoid adverse impacts to species listed as endangered, threatened or species of special concern to the greatest extent practicable. Where suitable habitat on a project site is utilized by a listed species, a management plan designed to minimize harm to the species and its habitat should be prepared by the developer and adherence to the plan made a condition of development approval. Management plans shall be reviewed and approved by the appropriate State agency (FGFWFC or FDEP) and the U.S. Fish & Wildlife Service prior to their approval by the City.		X						Delete acronyms. Re-number policy.	
POLICY 6.1.279.	The City shall support the protection of critical habitat for endangered and threatened species to the maximum extent feasible. “Critical habitat” shall include those habitat types, or specific geographical locations, which are designated as such by the <u>appropriate State and Federal agencies</u> . USFWS, NMFS, FGFWFC, FDEP, FDACS, or the RPC.							X	Recommended to remove acronyms and replace with appropriate State and Federal agencies. Re-number policy.	
GOAL 7. USES OF NATURAL RESOURCES	THE CITY SHALL PROVIDE FOR THE PROTECTION AND SENSITIVE USE OF NATURAL RESOURCES THROUGH DEVELOPMENT REGULATONS AND PUBLIC PROGRAMS.	F.S. 163.3177	X							

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
OBJECTIVE 7.1. LAND ACQUISITION	The City shall support the acquisition of unique or environmentally significant properties for public conservation reservations and maintain its proposed level-of-service for passive parks.		X						
POLICY 7.1.1.	Upon adoption of the Comprehensive Plan, the City shall require developments along the Tomoka River and its tributaries with individual properties of five acres or larger to include all wetlands in a conservation easement to the City. The easement shall not prohibit the construction of an elevated wooded catwalk to the waterway, provided the construction is done in the most environmentally sound manner. Developments, when property along a waterway or wetland is divided into tracts of less than 5 acres, shall put those wetlands in either public or semipublic (e.g., homeowner’s association) control; properties with multiple riparian ownership of less than 5 acres which are under homeowner association control shall grant a conservation easement to the City. For lots of less than 5 acres, if part of a subdivision project, only one community dock shall be allowed.		X						
POLICY 7.1.2.	On a continuous basis, the City shall consider acquisition of vacant lands abutting the Tomoka River, its tributaries, Dodson Creek, and the Halifax River.							X	Community Engagement Meeting comment: add residential in front of vacant lands.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
									Corrected punctuation; added comma after “Dodson Creek”
POLICY 7.1.3.	The City shall, in coordination with local and State agencies, participate in a strategy to acquire environmentally sensitive lands.		X						
OBJECTIVE 7.2. IMPACT ASSESSMENT	All development activities shall properly assess impacts on the environment and provide an effective mitigation plan as required.							X	No change to text: added period after 7.2 for consistency.
POLICY 7.2.1.	The City shall require Environmental Assessment Reports for all planned unit developments, subdivisions, and other development that must comply with the special requirements of the residential –s Suburban Residential zoning district and that must prepare a water management plan in accordance with the provisions of the Land Development Code.							X	Corrected to Suburban Residential
OBJECTIVE 7.3. SUSTAINABILITY	Promote energy conservation techniques such as the use of alternative and renewable energy sources thereby increasing energy efficiency.		X						Community Engagement Meeting comment: Delete Sustainability and add Wise Use of Land in objective title
POLICY 7.3.1.	Encourage the production and use of energy generated from renewable resources.							X	No change to text: added period after 7.3.1 for consistency.
POLICY 7.3.32.	The built environment and urban design should maximize natural areas and assets and incorporate Florida Friendly landscaping to reduce energy and water consumption.							X	Renumber Community Engagement Meeting comment: after incorporate – add native plants 75%, FF 20%, natural 5%,

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 7.3.43.	Create, protect and manage systems of green infrastructure (i.e., urban forests, parks and open spaces, green roofs, natural drainage systems).							X	Renumber Community Engagement Meeting comment: Delete Create, protect and manage green infrastructure and replace with Plan, plant, park program – See Attachment.
POLICY 7.3.54.	Protect and enhance green spaces to provide natural carbon sinks in soils, vegetation, and streambeds to mitigate carbon emissions.							X	Renumber Community Engagement Meeting comment: re-write policy – See Attachment.
POLICY 7.3.65.	Encourage site design techniques that restore natural “green infrastructure” (i.e., urban forests, parks and open spaces, natural drainage systems) instead of relying solely on engineered systems that require higher energy and carbon inputs.							X	Renumber Community Engagement Meeting comment: re-write policy – See Attachment.
GOAL 8. AIR QUALITY	MAINTAIN THE PRESENT HIGH LEVEL OF AIR QUALITY FOR HUMAN HEALTH, SAFETY, AND WELFARE, AND PROTECTION OF THE NATURAL ENVIRONMENT.	F.S. 163.3177						X	Removed the word “AND” after “SAFETY”
OBJECTIVE 8.1. STANDARDS	Prevent the degradation of the City’s air quality below baseline standards.		X						
POLICY 8.1.1.	No industrial or commercial business which emits air pollutants which would degrade the City’s ambient air quality will be permitted unless it can be proven to the City that all available pollution control devices and practices will be installed as a part of the development upon occupancy.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 8.1.2.	The City shall encourage alternative modes of transportation by promoting the use of bicycles by building more bike lanes, bike paths, and bike racks, and requiring more improved pedestrian sidewalks.							X	Removed the word “and”
POLICY 8.1.3.	The City shall support, by Resolution, an inspection program by the Police Department to identify vehicles which fail to meet pollution control standards as mandated by Florida Statutes.			X					Proposed for deletion as the City does not do this.
POLICY 8.1.43.	New facilities housing the young, the elderly or the handicapped shall be prohibited from locating near point air pollution sources and vice versa. Playgrounds and active recreation areas shall also be located a safe distance from these sources.							X	No change in text. Re-number policy.
POLICY 8.1.54.	Construction, excavation, and land clearing activities shall minimize the exposed ground surface area. Any area that is to be exposed for an extended time period shall be mulched or sodded.							X	No change in text Re-number policy.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 8.1.65.	In the interest of safety and air quality control, residential development shall construct a system of bikeways or provide for bicycles in the construction of the internal roadway system which will provide bicycle travel between: a. Homes and schools b. Homes and employment centers c. Homes and neighborhood commercial centers.							X	No change in text. Re-number policy.
POLICY 8.1.76.	External bicycle systems which provide for bicycle traffic to adjacent residential, employment, and educational centers shall be connected by development and the provision for facilitating the movement of bicycle traffic to nearby external residential, employment and educational centers shall be considered during the site plan review process.							X	No change in text. Re-number policy.
POLICY 8.1.87.	Bicycle lockers or bicycle racks, transit passenger shelters and transit parking bays shall be constructed where necessary to augment and facilitate the operations of off-site transit and bicycle facilities.							X	No change in text. Re-number policy.
POLICY 8.1.98.	The City shall continue to require all buildings scheduled for demolition or renovation be surveyed by the applicant for the presence of asbestos. Asbestos shall be removed prior to demolition. Any asbestos removal and							X	No change in text. Re-number policy.

Conservation Element – February 18, 2025									
	disposal shall be performed by a contractor licensed by the Florida Department of Professional Regulation.								
POLICY 8.1.409.	The City shall enforce Section 104.1.10 of the currently adopted Florida Building Code in regard to asbestos removal during demolition or construction activities.							X	No change in text. Re-number policy. Community Engagement Meeting comment: Add new policy 8.1.10. – Tree help reduce CO2 and increase O2 and clean air.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
OBJECTIVE 8.2. SITE PLAN REVIEW	The City shall review through the site plan review process the change in levels of air pollutants considered hazardous to health or damaging to property (including but not limited to carbon monoxide, sulfur oxides, hydrocarbons, particulates, nitrogen oxides, photochemical oxides); the effective or visual aesthetics, in terms of opacity and shade of emitted smoke plumes. <u>Should the City determine the need for the review of the impacts to the air quality, the developer shall pay for the services of a 3rd party consultant to review the project for change in levels of air pollutants, considered hazardous to health or damaging to property. The City shall coordinate with the Florida Department of Environmental Protection as the regulatory body for - air permits.</u>							X	Proposed modifications to involve a 3 rd party consultant for site plan review as necessary.
POLICY 8.2.1.	The City shall require all industrial and certain commercial development and residential development to prepare an Environmental Assessment Report to analyze and estimate the net change in levels and distribution of pollution caused by the development activity.		X						Community Engagement Meeting comment: add public after all.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 8.2.2.	The shade and opacity of smoke emitted from developments can be quickly determined by a trained inspector making comparisons with a Ringelmann Chart, which is simply a set of illustrations of different densities.		X						
POLICY 8.2.3	Development activity which creates an odor on the scale of 2, 3, or 4 shall be located at sufficient distances from residential neighborhoods to reduce the odor to, at minimum, a level of 1. The intensity of odors can most simply be determined by using a zero-to-four scale, as follows: 0 No sensation of odor. 1 Just detectable odor (the threshold dilution). 2 Distinct and definite odor whose unpleasant characteristics are revealed or foreshadowed (the recognition threshold). 3 Odor strong enough to cause a person to attempt to avoid it completely. 4 Odor so strong as to be overpowering and intolerable for any length of time.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 8.2.4.	Air modeling shall be accomplished using guidelines adopted by the FDEP or, if none are adopted, using a methodology agreed upon by the City, Volusia County, and FDEP. If the air modeling specified above results in any predictions of one hour or eight hour CO concentrations at or above the Federal and State standards, then ambient air monitoring for CO will be conducted at an appropriate locations(s) determined by the City of Ormond Beach, Volusia County, FDEP and the East Central Florida Regional Planning Council. This monitoring will meet all applicable State and Federal standards for CO monitoring including season, location, duration, instrumentation, quality control and quality assurance. <u>Should the City determine the need for the applicant to provide the air modeling using the guidelines adopted by the Florida Department of Environmental Protection, the applicant shall pay for the services of a 3rd party consultant to review and provide comments in accordance with State and Federal standards.</u>							X	Proposed modifications to involve a 3 rd party consultant for site plan review as necessary.
POLICY 8.2.5.	Should the air monitoring specified above indicate that a violation of Florida Ambient Air Quality (FAAQ) standards has occurred, and the modeling indicates that ten (10%)		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification	
			Keep	Delete	New	Replace	Move	Modify		
Conservation Element – February 18, 2025										
	percent or more of the CO is attributable to project traffic, then the applicant shall pursue one or any combination of the following until modeling indicates that the FAAQ’s will be achieved: a. Not commence the next development or monitoring phase; b. Participate in cost-sharing of roadway improvements; c. Implement an active Transportation System Management program.									
GOAL 9. MINING AND MINERALS	MINING EXTRACTION ACTIVITIES SHALL BE CONDUCTED IN A MANNER THAT MINIMIZES IMPACT ON THE ENVIRONMENT AND SURROUNDING LAND USES.	F.S. 163.3177	X							
OBJECTIVE 9.1. SAFETY STANDARDS	Mineral extraction activities shall be accomplished in a manner consistent with applicable aesthetic, engineering, environmental, health, noise, recreation, and safety standards.		X							
POLICY 9.1.1.	The City shall maintain the provisions of the Land Development Code concerning effective mineral extraction to achieve an aesthetically pleasing landscape compatible with adjacent land uses. Native vegetative buffers shall be used <u>to</u> minimize soil erosion. Buffers shall also be established between the mining							X	Added the word “to” after “buffers shall be used” for clarity	

Goals, Objectives, Policies			Recommended Action

Conservation Element – February 18, 2025									
	activity and adjacent existing and planned future land uses.								

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 9.1.2.	On a continuous basis, the City shall coordinate with local governments, the FDEP <u>Florida Department of Environmental Protection</u> and SJRWMD the St. Johns River Water Management District to ensure that the mined areas are reclaimed in accordance with current law and permit conditions.							X	Spell out acronyms.
POLICY 9.1.3.	If a mine requires “dewatering”, the discharge shall occur from one cell of the project site to another cell. Off-site discharge shall be prohibited.		X						
OBJECTIVE 9.2. HISTORICAL <u>SITES</u>	Mineral extraction activities shall “respect” paleontological, archaeological, and <u>historical</u> sites.							X	Updated the word to Historical for consistency
POLICY 9.2.1.	The City shall initiate cooperative efforts with other government agencies and private organizations to identify and evaluate existing or potential extraction sites that are likely to contain significant paleontological, archaeological or historical resources.		X						
POLICY 9.2.2.	Any excavation or mining activity which uncovers or appears to be disturbing archaeological or paleontological resources shall be held in abeyance until a preliminary assessment can determine the probability of significant archaeological or paleontological assets.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 9.2.3.	The City shall maintain the regulations in the Land Development Code that regulate the process for dealing with potential archaeological or paleontological resources. This shall include cooperation with the Museum of Arts and Sciences, the Volusia Central Florida Anthropological Society, and the State Bureau of Historical Resources.							X	Central Florida Anthropological Society is the correct name. The state has 13 chapters, Ormond Beach’s is Central Florida, not Volusia County. Amend state division name
OBJECTIVE 9.3. COMMUNITY BENEFIT	Mineral extraction activities will generate a net benefit to the community.		X						
POLICY 9.3.1.	The City shall require developers or owners to provide restoration plans for new or currently active borrow pits, so that once the material extraction has been completed, the former pits will continue to benefit the overall community.		X						
POLICY 9.3.2.	The City shall <u>may</u> require dry hydrants be installed at appropriate sites adjacent to strategically located borrow pits, to ensure an adequate fire protection capacity.							X	Recommended language change to be consistent with the Land Development Code.
POLICY 9.3.3.	Mining operators shall demonstrate financial responsibility <u>be responsible</u> to pay for necessary corrective actions or repairs to roadways, buildings, other structures, groundwater, or surface water and to reclaim the site to prescribed specifications upon completion of mineral extraction activities.							X	Recommended to modify language for responsible party.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
OBJECTIVE 9.4. RESOURCE PROTECTION	Mining activities shall not adversely affect the quality of air, groundwater and surface water and land and wildlife.		X						
POLICY 9.4.1.	Phasing of extractive activities shall be used as a device to assure that only small areas are affected by such activities at one time.		X						
POLICY 9.4.2.	The City shall require that a geophysical log series (from wells or other acceptable means) be prepared for the proposed site to assess the hydrogeologic character of the site.		X						
POLICY 9.4.3.	Mineral and sand extraction activities shall not remove or disturb any impervious layer (e.g., clay) that naturally segregates the surficial aquifer from the Floridan Aquifer.		X						
POLICY 9.4.4.	Once extraction ceases, appropriate usage limits regarding septic and stormwater systems are to be implemented to ensure protection of surface water, groundwater and the Volusia-Floridan Sole Source Aquifer.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 9.4.5.	Formerly mined areas may not be incorporated into a stormwater retention or detention system until an engineering, hydrologic, or hydrogeologic determination has been made showing an adequate confining layer, segregating water in the pit from the Volusia-Floridan Sole Source Aquifer.		X						
GOAL 10. HAZARDOUS WASTES	THE CITY SHALL ENSURE THAT THE GENERATION, USE, STORAGE, TRANSPORTATION, AND COLLECTION OF HAZARDOUS OR TOXIC CHEMICALS, MATERIALS, OR SUBSTANCES WITHIN THE CITY SHALL CONSTITUTE NO SIGNIFICANT THREAT TO THE GENERAL HEALTH, SAFETY, AND WELFARE.	F.S. 163.3177	X						
OBJECTIVE 10.1. SARA TITLE III COMPLIANCE HAZARDOUS WASTE COORDINATION	The City shall ensure compliance with SARA Title III provisions and shall ensure the proper management of hazardous materials to protect the public health, safety, and welfare and to protect natural resources. <u>The City shall coordinate with Volusia County’s hazardous waste management program in accordance with Volusia County’s Comprehensive Plan.</u>							X	The reason for these modifications is because Volusia County is the lead agency for hazardous waste compliance. The city will continue to coordinate with Volusia County on these initiatives.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
POLICY 10.1.1.	The City shall continue to identify all industries and businesses within its boundaries which generate, use, or store hazardous or toxic chemicals, materials, or wastes. <u>The City shall cooperate with the implementation of the Volusia County hazardous waste management program.</u>							X	The reason for these modifications is because Volusia County is the lead agency for hazardous waste compliance. The city will continue to coordinate with Volusia County on these initiatives.
POLICY 10.1.2.	The Fire Department shall maintain the information from Policy 10.1.1 (above) in its computer database. <u>The City shall publicize through various communication platforms to advertise the locations where Volusia County will accept household and small business hazardous waste as part of their collection program.</u>							X	The reason for these modifications is because Volusia County is the lead agency for hazardous waste compliance. The city will continue to coordinate with Volusia County on these initiatives.
POLICY 10.1.3.	The City shall continue a public information campaign oriented to industries, businesses, and homes to educate people about safe use and disposal of hazardous or toxic substances.			X					The reason for proposed deletion is because Volusia County is the lead agency for hazardous waste compliance. The city will continue to coordinate with Volusia County on these initiatives.
POLICY 10.1.4.	The City, in conjunction with the Central Florida Local Emergency Planning Committee (LEPC) shall regulate and manage hazardous waste to protect the public health, safety and welfare and to protect natural resources as per the standards and guidelines established under Goal 3.2 in the Utilities Element.			X					The reason for proposed deletion is because Volusia County is the lead agency for hazardous waste compliance. The city will continue to coordinate with Volusia County on these initiatives.

			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
OBJECTIVE 10.2. EMERGENCY PREPAREDNESS	The City shall be fully prepared for a hazardous or toxic accident or incident, with up-to-date plans, training, and equipment.			X					The reason for proposed deletion is because Volusia County is the lead agency for hazardous waste compliance. The city will continue to coordinate with Volusia County on these initiatives.
POLICY 10.2.1.	On a continuous basis, the appropriate personnel shall be kept abreast of the appropriate accident/incident response training.			X					The reason for proposed deletion is because Volusia County is the lead agency for hazardous waste compliance. The city will continue to coordinate with Volusia County on these initiatives.
POLICY 10.2.2.	On a continuous basis, up to date monitoring and accident/incident response equipment shall be maintained in quantities specified by Federal or State guidelines.			X					The reason for proposed deletion is because Volusia County is the lead agency for hazardous waste compliance. The city will continue to coordinate with Volusia County on these initiatives.
POLICY 10.2.3.	The City shall update its Hazardous Materials Response Plan on a continuous basis.			X					The reason for proposed deletion is because Volusia County is the lead agency for hazardous waste compliance. The city will continue to coordinate with Volusia County on these initiatives.
POLICY 10.2.4.	The City shall attempt to recover from any potentially liable third party any cost that it incurs from any hazardous or toxic accident/incident.			X					The reason for proposed deletion is because Volusia County is the lead agency for hazardous waste compliance. The city will continue to coordinate with Volusia County on these initiatives.
GOAL 11. SOIL AND EROSION	THE CITY SHALL ENSURE THE APPROPRIATE CONSERVATION AND USE OF SOIL RESOURCES.	F.S. 163.3177	X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
OBJECTIVE 11.1. DEVELOPMENT	Incorporate the inherent limitation of existing soils in land planning and development, and minimize impacts, which result in soil erosion.							X	No change in text. Corrected punctuation; removed comma after “development”
POLICY 11.1.1.	Prior to any land disturbance associated with land development activities, except in previously approved subdivisions, the applicant shall indicate on a site plan those areas of highly erodible soils, as defined by the U.S. Department of Agriculture Soil Conservation Service, and avoid and minimize disturbance to those areas to the maximum extent feasible.		X						
POLICY 11.1.2.	Building and other construction in soils which are determined to be hydric in character, as defined by the <u>U.S. Department of Agriculture Soil Conservation Service</u> USDASCS and the Florida Department of Agriculture, shall be prohibited except to accommodate an overriding public interest and except as allowed within the wetland regulations.							X	Remove acronym
POLICY 11.1.3.	The City shall require excavation sites to be designed and executed to resemble and function as natural systems.		X						
POLICY 11.1.4.	Residential site design shall be based on data contained in the U.S. Soil Conservation Service’s soils report, unless a detailed soils analysis is undertaken and accepted by the City and the <u>U.S. Department of Agriculture</u>							X	Remove acronym

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification

			Keep	Delete	New	Replace	Move	Modify		
Conservation Element – February 18, 2025										
OBJECTIVE 12.1. LAND DEVELOPMENT CODE AMENDMENTS REGULATIONS	By 2010 The City shall <u>maintain</u> amend the Land Development Code <u>regulations for to</u> implement Low Impact Development techniques.							X	Low Impact Development standards have been incorporated into the Land Development Code and the change in text is to maintain these regulations.	
POLICY 12.1.1.	Integrate into the Land Development Code (LDC) the source control concept which places a greater importance on managing smaller, cost-effective landscape features located on each lot rather than through costly pipe and pond stormwater management design.									
POLICY 12.1.2.	Maintain or improve infiltration, frequency and volume of discharges, and groundwater recharge by placing greater emphasis on reducing <u>impervious</u> surfaces, functional grading, open channel sections, and the <u>increased</u> use of bioretention/filtration landscaped areas.							X	Change pervious to impervious. Changed “increase” to “the increased use” for clarity.	
POLICY 12.1.3.	Integrate alternative stormwater management practices such as on-lot micro-storage, functional landscaping, open drainage swales, reduced imperviousness, flatter grades, increased runoff travel time, and depression storage into a multifunctional site design.							X	Hyphenated “micro-storage”	
POLICY 12.1.4.	Reduce the use of centralized b–Best m Management p–Practices (BMPs) such as storm water ponds through the use of Integrated Management Practices (IMPs)							X	Capitalized “Best Management Practices” for reference with acronym	

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Conservation Element – February 18, 2025									
	which are distributed in a small portion of a lot or parcel and near the source of impacts.								
POLICY 12.1.5.	Amend <u>Maintain</u> the <u>Low Impact Development Design Manual</u>, <u>Land Development Code</u>, <u>LDC</u> and Construction Details to permit <u>Low Impact Development</u> LID designs that can significantly reduce development costs through smart site design by: • Reducing impervious surfaces (roadways), curb, and gutters; • Decreasing the use of storm drain piping, inlet structures, and • Eliminating or decreasing the size of large stormwater ponds.							X	Amendments have occurred Low Impact Development Design Manual. Remove acronyms

Coastal Management Element, February 18, 2025									
	measures shall be provided to mitigate against such impacts, including <u>flooding</u> , noise, glare, and traffic congestion, as implemented by Chapter 3, Article V of the Land Development Code.								
POLICY 1.1.3.	The City shall closely monitor development on the barrier island, <u>in the Coastal Planning Areas</u> , and in the unincorporated area north of the City Limits to ensure that development does not lower level-of-service standards for traffic, potable water and sanitary sewer, public access, and hurricane evacuation below acceptable levels.							X	Added “Coastal Planning Area” which will also serve as the Adaptation Action Area.
POLICY 1.1.4.	Historical, civic, cultural, recreational, economic, and residential land uses in the Central Business District area shall be developed in compatibility with <u>the Coastal Planning Areas</u> and each other so that visual and functional continuity is achieved.							X	Added “the Coastal Planning Areas” which will also serve as the Adaptation Action Area.
OBJECTIVE 1.2. SHORELINE LAND USE	Proposed shoreline land development shall be evaluated on the basis of <u>based on</u> the type of land use proposed, compatibility to adjacent land uses, and—impact on water quality, coastal resources, public							X	Updated text to include sea-level-rise which could impact erosion and impact shoreline development. Modified grammar.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification
			Keep	Delete	New	Replace	Move	
Coastal Management Element, February 18, 2025								
	access, public infrastructure, and hurricane evacuation times, and impacts from sea level rise as implemented by Chapters 2 and 3 of the Land Development Code.							
POLICY 1.2.1.	The following general shoreline land use priorities are established as guidelines for the review of applications for zoning, plan amendments, or development orders: a. Water dependent environmentally sensitive uses such as the maintenance and protection of fish and wildlife production through the preservation of marine wetlands; b. Water dependent uses such as water dependent recreation and urban residential uses, with development set back a distance from the river, creek, or dune, to minimize flood hazards, clearance of vegetation and surface water degradation; consistent with other sections of this Element						X	Added additional language for consistency with the Floodplain Management and Protection Section of the Land Development Code.

	and of the Conservation Element; c. <u>The floodplain manager/building official shall review all permit applications to determine whether proposed development sites will be reasonably safe from flooding. If a proposed development site is in a flood hazard area, all site development activities, new construction and substantial improvements shall be designed and constructed with methods, practices and materials that minimize flood damage and that are in accordance with the city Floodplain Management and Protection Section of the code; and consistent with other Sections of the code.</u> e.d. Of lowest priority are those uses which are non-water dependent, non-water enhanced, and which would result in an irretrievable commitment of coastal resources. Land uses which require channel modifications, dredging and filling, and point source pollution discharges, should be prohibited.								
POLICY 1.2.2.	Atlantic Ocean Shoreline Land Use: The shoreline along the Atlantic Ocean, south of Granada							X	Changed to reference the correct Future Land Use policy.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
	Boulevard, shall be designated predominantly for water enhanced tourist/commercial land uses, except for those contiguous areas of existing, unique single-family development as defined by Policy 12.2.54, Future Land Use Element.								
POLICY 1.2.3.	The shoreline along the Atlantic Ocean, north of Granada Boulevard, shall remain single-family residential, except for the existing multi-family, hotel/motel, and timeshare resorts.		X						
POLICY 1.2.4.	The City will exercise the full extent of its jurisdictional authority to respect, protect and preserve the private property rights, inclusive of littoral rights, of the owners of those lands lying westerly of the mean high-water line, subject only to those public recreational uses of the sandy area seaward of and adjacent to the mean high tide as have been ancient, reasonable, without interruption, and free from dispute.		X						
POLICY 1.2.5.	Halifax River Shoreline Land Use: The shoreline land uses along the Halifax River shall remain single-family residential except for		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
	passive parks that provide public access to the waterway.								
POLICY 1.2.6.	Tomoka River and Tributaries Shoreline Land Use: The shoreline land uses of the Tomoka River and its tributaries shall be single-family residential or multi-family residential when part of a PRD <u>Planned Residential Development</u> submittal that provides for maximum protection of tributaries.							X	Spell out acronym
POLICY 1.2.7.	The City shall continue to make efforts to acquire by fee-simple interest or less than fee-simple interest, wetlands associated with the Tomoka River and its tributaries.		X						
POLICY 1.2.8.	Land development on the Tomoka River shall protect the natural wetland vegetation and associated upland buffers consistent with the Conservation Element and Chapter 3, Article II of the Land Development Code.		X						
OBJECTIVE 1.3. REDEVELOPMENT	The City shall encourage redevelopment that results in more <u>resilient</u>, compact, and efficient development patterns and shall discourage							X	Added the word “resilient” for more flexibility in development/redevelopment.

Goals, Objectives, Policies			Recommended Action						
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify	Explanation/Modification

	redevelopment of stable neighborhoods.								
POLICY 1.3.1.	Redevelopment shall be compatible with adjacent historic and archaeological resources.		X						
POLICY 1.3.2.	When redevelopment is proposed, a number of concerns shall be addressed by the applicant regarding phasing, parking, <u>drainage stormwater management</u> , landscaping, and landscape maintenance, improvement and maintenance of common recreational areas, <u>and</u> effects on the traffic circulation network, including hurricane evacuation times impacts on natural resources. Phased improvements including <u>drainage stormwater maintenance</u> , parking, landscaping, and Homeowners’ Association facilities (if appropriate) shall be correlated with the issuance of building permits, lot sales, and Certificates of Occupancy.							X	Changed “drainage” to “stormwater maintenance”. Modified grammar.
POLICY 1.3.3.	Consideration shall be given to public access to the beach or waterways so a redevelopment proposal to convert single-family to a high density project will			X					Delete language since it is not the intent to increase density along beach/waterways which would exacerbate flooding and prolong evacuation times.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification

	require access easements to be granted.								
POLICY 1.3.4. <u>POLICY 1.3.3.</u>	Redevelopment within the Downtown shall be consistent with and further the Downtown Community Redevelopment Agency Master Plan Update prepared by Glatting Jackson <u>GAI Consultants</u> , adopted September 19, 2007 . <u>October 1, 2019.</u>							X	Text revised to updated Downtown Community Redevelopment Agency Master Plan. Renumber policy.
OBJECTIVE 1.4. ECONOMIC STABILITY	The City shall structure an economic base capable of providing maximum employment opportunities and income to the City’s residents.		X						
POLICY 1.4.1.	A business climate shall be maintained, which provides opportunities for the growth and expansion of new and existing businesses to provide quality employment for the City’s residents without degrading the environment, quality of life, or ability of the City to provide public services and facilities.		X						
POLICY 1.4.2.	The City shall continually recognize problems of the economic growth areas and act as a conduit between public and private resources to provide incentives and							X	Delete “s”

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
	supports that generate new private investments.								
OBJECTIVE 1.5. LAND DEVELOPMENT REGULATIONS	The City shall continue to administer and review land use regulations that provide for the location, extent and distribution of land uses consistent with the protection of coastal resources and the preservation of fiscal stability. The land development regulations shall ensure that the provision of roads, potable water, sanitary sewer, drainage <u>stormwater management</u> , parks and recreation, and solid waste facilities and services, or any other facilities required to maintain the adopted Level-of-Service standards, shall be consistent and planned with the level of development proposed in the Future Land Use Element.							X	Changed the word “drainage” to “stormwater management” since stormwater management is considered in fiscal stability and public level-of-service standards required to support those land uses as a result of extreme weather and sea level rise. Modified grammar.
POLICY 1.5.1	The fiscal impact of new growth and development shall be minimized by the use of various fiscal management and assessment techniques, including level-of-service standards, special assessment districts, development exactions, and impact fees, cost-benefit analysis, feasibility,	163.3178							X Revised text for consistency with Florida Statutes.

POLICY 1.5.4.	Designated natural resource areas, significant environmental or ecological features, critical wildlife habitat, environmental system corridors or conservation areas shall be protected through a variety of mechanisms including buffer zones, restoration, limiting density and intensity, conservation easements, acquisition, density transfers, transfer of development rights (TDRs), purchase of development rights, or land exchanges.							X	There are no density transfers or transfer of development rights.
POLICY 1.5.5.	The priority for new development shall be in areas of urban infill in order to contain sprawl, use existing developable lands, maximize the provision of urban services and facilities, and protect remaining coastal habitat and marine resources.		X						
POLICY 1.5.6.	The City shall continue to designate a proportion of its public water capacity to the unincorporated North Peninsula area consistent with the interlocal agreement with the County.		X

Coastal Management Element, February 18, 2025									
POLICY 1.5.7.	The specific and cumulative impacts of development or redevelopment upon <u>flooding</u> , water quantity, wildlife habitat, and living marine resources shall be limited in accordance with the policies set forth by the Future Land Use Element, Conservation Element, Utilities Element, and the Coastal Management Element.							X	Added the word “flooding”
POLICY 1.5.8.	The City shall continue to direct growth away from the CHHA <u>Coastal High Hazard Area</u> by utilizing land use controls, acquisition techniques, and other methods as deemed appropriate.							X	Spell out CHHA to Coastal High Hazard Area

Goals, Objectives, Policies		Recommended Action							
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify	Explanation/Modification
Coastal Management Element, February 18, 2025									
OBJECTIVE 1.6. PERFORMANCE STANDARDS FOR DEVELOPMENT	New development activity shall abide by standards established for determining appropriate densities, intensities, buffer zones, resource protection and location for development proposed in and adjacent to aquatic and natural preserves, wildlife refuges, and environmental system corridors, natural wetland systems, floodplains, <u>shorelines</u> , and critical habitat areas, in order to protect the natural character, scenic values and public benefit of these areas.							X	Added the word “shorelines,”.
POLICY 1.6.1.	The City shall continue to evaluate zoning to identify, review, and prepare recommendations for, lands zoned for development which are inconsistent or incompatible with the protection or conservation of coastal resources, <u>or may exacerbate flooding.</u>							X	Added verbiage to include flooding.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Coastal Management Element, February 18, 2025									
POLICY 1.6.2.	The City shall continue to utilize innovative and alternative zoning districts or techniques to protect coastal resources. Such techniques could include overlay districts, floating zones, bonus ordinances, performance standards, quality development programs, Transferable Development Rights , or other incentive-based methods.							X	Delete Transferable Development Rights.
POLICY 1.6.3.	The City’s Stormwater Master Plan shall contain a database and information system on land use, <u>other studies or evaluation tools</u> , and acreage by watershed within the City limits. This should be coordinated with the County and other adjacent coastal municipalities to annually update this data.							X	Added text referencing other studies and evaluation tools.
POLICY 1.6.4.	The City shall annually prepare a monitoring and status report, <u>by June 1, 2027</u> , for distribution to the public and elected officials <u>the City Commission</u> . The Report shall contain the results of changes that have occurred in land use, <u>other studies or evaluation tools</u> , and development within each watershed.							X	Added text referencing other studies and evaluation tools. Added a date of June 1, 2027 to provide an evaluation of the stormwater master plan adopted in 2022.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Coastal Management Element, February 18, 2025									
POLICY 1.6.5.	The City shall cooperate and coordinate with adjacent local governments, State agencies, and special districts in developing consistent standards, criteria, and land development regulations for protection of coastal resources. <u>This may include the evaluation of data and findings regarding sea level rise, erosion, and updated planning guidelines or best management practices for flooding.</u>	163.3177						X	Added text consistent with Florida Statutes
POLICY 1.6.6.	The first priority for providing new slips is for the expansion of existing marinas, then to new areas for marinas meeting specific siting criteria.		X						
POLICY 1.6.7.	The City shall maintain as part of the Land Development Code and apply standards for marina siting or expansion to include the following criteria with priority given to expansion of existing marinas.							X	Delete criteria reference that does not exist.

Goals, Objectives, Policies		Recommended Action

Coastal Management Element, February 18, 2025									
POLICY 1.6.8.	Docking facilities shall only be approved which require a minimal or no dredging and/or filling to provide access by canal, channel, or road. This restriction shall also apply to widening and/or deepening any existing canal or channel, but not to regular maintenance dredging and filling to meet depth standards of existing canals or channels. Preference shall be given to marina sites with natural channels. In the event that dredging is required, the mooring areas and the navigation access channels shall not be dredged to depths greater than those necessary to prevent prop dredging. Any required dredging shall utilize appropriate construction techniques and materials to comply with State water quality standards (e.g., turbidity screens, hydraulic dredges, properly sized and isolated spoil deposition area to control spoil dewatering).		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 1.6.9.	In reviewing applications for new or expanded docking facilities, ways to improve, mitigate, or restore adverse environmental impacts caused by previous activities shall be explored. This may include <u>green stormwater infrastructure (GSI) or low impact development (LID)</u> , shallowing dredged areas, restoring wetland or submerged vegetation, or marking navigational channels. Such mitigation or restoration may be required as a condition of approval for new, renewed, or expanded facilities.	163.3177						X	Added text consistent with Florida Statutes
OBJECTIVE 1.7 FLOOD RISK	The City shall eliminate inappropriate and unsafe development and mitigate the flood risk to existing and future development in the coastal areas that are of high risk of flooding due to storm surge, high tide events, flash flood, stormwater runoff and sea level rise when opportunities arise.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification
			Keep	Delete	New	Replace	Move	
Coastal Management Element, February 18, 2025								
POLICY 1.7.1	The City shall continue to include development and redevelopment principles, strategies and engineering solutions that reduce the flood risk which results from high tide events, storm surge, flash floods, stormwater runoff and the related impacts of sea level rise. <u>The utilization of innovative analysis techniques such as vulnerability assessments, tidal flood and storm surge inundation information, and other related studies shall be used to help identify: Adaptation Action Areas; public facilities and infrastructure at risk from sea level rise and related impacts; and areas where increased building standards and setbacks should be implemented to protect structures for the duration of their expected life.</u>	163.3178(2)(f)						X Added language consistent with 163.3178(2)(f), F.S., Peril of Flood for compliance.
POLICY 1.7.2.	The City shall continue to evaluate <u>data and utilize innovative best practices findings</u> to reduce the flood risk in coastal areas which results from high tide events, storm surge, flash floods, stormwater runoff, and the related impacts of <u>sea level</u> rise including but not limited to the use of best available data <u>and analysis</u> from historical floods, and studies or modeling to							X Updated verbiage to reflect what the City does.

Coastal Management Element, February 18, 2025									
	<u>update planning and evaluation tools.</u> If a buildable lot within the floodplain is proposed to be developed, the City will encourage improvements in the least hazardous flood zone on the property requiring cumulative substantial improvement.								
POLICY 1.7.3.	The City shall continue to identify site development techniques and best management practices, <u>including Green Stormwater Infrastructure (GSI) or Low Impact Development (LID)</u> that may reduce losses due to flooding and claims made under flood insurance policies issued in the state.						X	Updated to include other Best Practices options.	

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Coastal Management Element, February 18, 2025									
POLICY 1.7.4.	The City shall continue to require development and redevelopment to be consistent with or more stringent than the flood-resistant construction requirements in the Florida Building Code and applicable floodplain management regulations set forth in 44 C.F.R. Code of Federal Regulations, Part 60, as amended. The Land Development Code should: implement building standards that address future conditions; and limit (re)development to minor and non-habitable structures seaward of the state Coastal Construction Control Line as defined by and consistent with applicable state statutes.							X	Added verbiage consistent with FEMA regulations.
POLICY 1.7.5.	The City shall continue to require that any construction activities seaward of the eCoastal eConstruction eControl Lines established, pursuant to Section 161.053, be consistent with chapter 161, as amended.							X	Capital Coastal Construction Control Line
POLICY 1.7.6.	The City shall continue to participate in and comply with the National Flood Insurance Program (NFIP) regulations; maintain an inventory of repetitive loss areas; and utilize the Land Development Code and Stormwater Master Plan to address mitigation strategies.							X	Modified in compliance with FEMA National Flood Insurance, Community Rating System program requirements.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 1.7.7.	The City shall continue to participate in the Community Rating System (CRS) administered by the Federal Emergency Management Agency (FEMA) to achieve flood insurance premium discounts for residents <u>through education and increased awareness about all types of flood risks and mitigation strategies through the National Flood Insurance Program.</u>							X	Modified in compliance with FEMA National Flood Insurance, Community Rating System program requirements.
POLICY 1.7.8.	To mitigate the impacts of <u>flooding in</u> development and redevelopment, the City shall consider, when an opportunity arises, cooperating with strategic partners to obtain funding to purchase, for recreational and open space use, “repetitive loss properties” most vulnerable to storm surge and repetitive flooding.							X	Added text for clarification.
POLICY 1.7.9.	The City may consider the acquisition of severe repetitive loss properties to be used for public open space as property owner interest and procurement opportunities arise, such as through the use of grants.		X

GOAL 2. NATURAL RESOURCES AND LIVING MARINE RESOURCES	THE CITY SHALL CONSERVE, PROTECT, AND RESTORE NATURAL SYSTEMS. DEVELOPMENT ACTIVITIES SHALL PROTECT AND PRESERVE, WHERE PRACTICAL AND DESIRABLE THE ECOLOGICAL, AESTHETIC, AND ECONOMIC VALUE OF NATURAL RESOURCES.		X						
OBJECTIVE 2.1. TOMOKA RIVER AND ITS TRIBUTARIES	The Tomoka River, its tributaries, and associated natural systems shall be protected to maintain and enhance the aesthetic, recreational, and natural values of the river corridor system.		X						
POLICY 2.1.1.	The Tomoka River and its tributaries are designated to be a Manatee Sanctuary to ensure that the endangered <u>threatened</u> manatee is protected from any adverse impacts from recreation uses and adjacent land uses.							X	West Indian manatee was reclassified from endangered to threatened under the Endangered Species Act in 2017
POLICY 2.1.2.	The City shall continue to assist in the implementation of the Tomoka River Aquatic Preserve Management Plan.		X						

POLICY 2.1.3.	In the interest of protecting the manatees and the shoreline against erosion and protecting the public health, safety, and welfare, the City shall maintain the following restrictions on motor boats and personal watercraft for the Tomoka River and its tributaries: a. No motor speed zone year-round in Thompson's Creek, and the Little Tomoka River (west of Tymber Creek Road). b. Idle speed zone year-round in: 1. Strickland Creek; and 2. Dodson Creek; and all mosquito-control ditches intersecting the Tomoka River; 3. Tomoka River (a) from I-95 south; and (b) from US 1 to the north boundary of Tomoka Estates; c. Slow speed zone year-round in the Tomoka River from the north boundary of Tomoka Estates to the southern boundary of Tomoka State Park; d. Caution zone year-round in the Tomoka River from US 1 to I-95 provided that: 1. The maximum speed around the large island located approximately half-way between I-95		X

Coastal Management Element, February 18, 2025									
POLICY 2.2.10.	In order to maintain good water quality in stormwater management detention ponds and maximize the provision of fish and wildlife habitat, stormwater management systems with permanent wet detention ponds shall be designed, operated and maintained so as to resemble a natural pond to the greatest extent practicable. A natural pond design should include: a littoral zone comprised of native emergent and submerged aquatic macrophytic vegetation; a deep, open-water limnetic zone, free of rooted emergent and submerged vegetation; and, where feasible, an upland buffer of native trees, shrubs and understory vegetation.		X						
GOAL 3. BEACH AND DUNES	THE CITY SHALL PROTECT, ENHANCE, AND RESTORE THE FUNCTIONING OF THE BEACH AND DUNE SYSTEMS AND REGULATE DEVELOPMENT ACTIVITIES THAT WOULD DAMAGE OR DESTROY SUCH SYSTEMS.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification
			Keep	Delete	New	Replace	Move	
Coastal Management Element, February 18, 2025								
OBJECTIVE 3.1. BEACH AND DUNE ASSESSMENT REPORT	The City shall require multi-family, tourist/commercial, and subdivision shoreline development and redevelopment proposals along the Atlantic Ocean to submit a Beach and Dune Assessment Report, which is to include a form with a checklist of items to be submitted. The following policies shall apply in implementation of the objective that a beach and dune assessment report be prepared.		X					
POLICY 3.1.1.	The Land Development Code shall require that a Beach and Dune Assessment Report be prepared for multi-family, tourist/commercial, and shoreline development and redevelopment proposals along the Atlantic Ocean.		X					
OBJECTIVE 3.2. DUNE SYSTEM PRESERVATION AND PROTECTION STANDARDS	The City will regulate new development and redevelopment and monitor existing development to preserve and protect the dune system, as implemented in the Land Development Code.		X					

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 3.2.1.	The City shall regulate new construction activities seaward of the Coastal Construction Control Line consistent with the policies of the Department of Environmental Protection <u>and Chapter 161, Florida Statutes, as amended.</u>							X	Added additional Florida Statute reference.
POLICY 3.2.2.	The City shall coordinate with the Florida Department of Environmental Protection to ensure the preservation and maintenance of beach/dune vegetation.		X						

POLICY 3.2.3.	Because beach/dune vegetation will provide for varying degrees of continued growth of the dunes which form a buffer area and give protection from storm damage to coastal structures and property, the following general standards for development shall be established in cooperation with DEP <u>the Department of Environmental Protection</u>: a. To protect the crest and face of the dune system, which is the area closest to the wind and wave action of the active beach where grasses such as sea oats, vines, and other low-lying plants are dominant, the area seaward of the bulkhead line will be preserved such that no development or construction activities shall be allowed except in the overriding public interest and then only when such alteration is mitigated by the creation of dunes at a 4 to 1 compensatory dune mitigation ratio <u>state permit conditions</u>. b. When vegetation seaward of the bulkhead line is sparse or has been damaged by pedestrian or other activities, revegetation shall be undertaken.							X	Spell out Department of Environmental Protection. Referenced state permit for mitigation ratios.
---------------	---	--	--	--	--	--	--	---	---

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
	c. 20% of the natural dune vegetation remaining on the site shall be preserved.								
POLICY 3.2.4.	The City shall require, to the maximum extent possible, the use and preservation of existing natural vegetation.		X						
POLICY 3.2.5.	Property owners shall be required to seek advice from the Department of Environmental Protection before the cutting, pruning, or removal of beach/dune vegetation.		X						
POLICY 3.2.6.	<u>The use of hard engineering structures shall be discouraged.</u> Alternatives to seawalls shall be encouraged with priority given to soft engineering techniques, such as <u>living shorelines</u> , sand nourishment, the development of new sand dunes, or the enhancement of existing or historical dunes. Any beach stabilization measures shall be required to provide for dune preservation enhancements, creation, or restoration.							X	Modified text since seawalls do not dissipate wave energy and can accelerate scouring and erosion on adjacent properties without seawalls.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Coastal Management Element, February 18, 2025									
POLICY 3.2.7.	Excavation and clearing of properties abutting the beach or containing significant dune systems shall provide for the sensitive reuse of the vegetation and sand by transplantation and relocation in order to reestablish the dunes. Significant dune systems located seaward of the Coastal Construction Control Line that are excavated or disturbed for development and construction shall be mitigated by the creation of dunes at a dune compensatory mitigation ratio of 2 to 1 per the state agency permit conditions. Dune creation shall occur on-site or as close to the site as possible.							X	Dune permitting would require a state agency permit that would establish the mitigation ratio.
POLICY 3.2.8.	Exotic trees and plants not indigenous to the beach and dune environment shall be prohibited. Exotic plant species removed shall be removed per Chapter 3, Article II of the Land Development Code. be in conjunction with Policy 2.3.4. Removed plants shall be replanted with native species as deemed appropriate by the City's Landscape Architect.							X	Revised to reference Chapter 3, Article II of the Land Development Code.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Coastal Management Element, February 18, 2025									
POLICY 3.2.9.	Reconstruction or replacement of existing hard erosion control structures along the oceanfront which are more than seventy-five (75%) percent destroyed shall meet the criteria contained under Objective 3.4. of this element, except for maintenance and care of structures which are needed to protect evacuation routes and public facilities and utilities. Any such reconstruction or replacement shall be done in conjunction with State Statutes.							X	Clarification of element.

POLICY 3.2.10.	Structural development along beaches fronting the Atlantic Ocean shall enhance and not further degrade the coastal beach and dune system. The following criteria shall apply in the implementation of this Policy: a. Shoreline buffer zones shall be established to protect and preserve the coastal beach and dune systems fronting the Atlantic Ocean. b. Structures shall be prohibited within the established buffer areas except where an overriding public interest is apparent for public park and recreation facilities, or for structures that are necessary for reasonable access and are elevated above the dune vegetation. c. Buffer areas shall be measured at least thirty (30') feet landward from the bulkhead line or measured in accordance with the criteria of the Land Development Code which states that no structures are allowed to extend beyond a line projected between the average of the existing buildings rear setback within 800' to the north and south of the site.		X

Coastal Management Element, February 18, 2025									
POLICY 3.2.11.	The City shall utilize outside technical assistance and expertise available in the coastal geology/engineering field within the <u>Florida Department of Environmental Protection</u> FDEP, school system, or other local governments to aid in the review of development proposals along the Atlantic Coastline that may potentially harm the beach and dune system.							X	Spelled out acronym
POLICY 3.2.12.	Sand fences should be allowed, provided they are designed and constructed to maximize dune rebuilding and minimize disturbance to sea turtle nesting areas.		X						
OBJECTIVE 3.3. BEACH/DUNE WALKWAY STANDARDS	Beach and dune walkways shall be designed to protect coastal vegetation and dune areas and constructed to maintain or enhance pedestrian access to the beach as implemented in the Land Development Code.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Coastal Management Element, February 18, 2025									
POLICY 3.3.1.	Walkways and walkovers are required at all public access points and adjacent to all new multi-family dwelling structures, timeshare resorts, hotel/motel complexes, and other commercial establishments.		X						
POLICY 3.3.2.	The City shall ensure <u>encourage</u> that all applicable permits from other regulatory agencies such as the Department of Environmental Protection have been received before issuance of a building permit for the walkway or walkover.							X	The City cannot withhold City permits based on outside agency permitting.
POLICY 3.3.3.	Walkways and walkovers shall be constructed in a manner that minimizes short-term disturbances to the dune system and existing vegetation.		X						
POLICY 3.3.4.	Replacement of any vegetation destroyed during construction of the walkway or walkover with similar plants suitable for beach/dune stabilization is required.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Coastal Management Element, February 18, 2025									
POLICY 3.3.5.	Walkways or walkovers constructed across vegetated dunes or across heavily vegetated beach berms shall be pile-supported and elevated above the vegetation and dune system.		X						
POLICY 3.3.6.	Stairs from existing seawalls except for single-family homes shall be amortized and replaced with a walkway or walkover by the year 2040 2045, and it shall be built at least thirty (30”) inches above the dunes in order to allow for the restoration of the associated dune system.							X	Updated to 2045.
<u>OBJECTIVE 3.4. SEAWALLS, AND REVETMENTS, AND SHORELINE STABILIZATION FEATURES</u>	<u>Permits for the construction of seawalls, and revetments, and shoreline stabilization features shall be reviewed and approved consistent with the following Policies in order to protect, to the maximum extent possible, the natural functioning values of the beach and dune system and to allow the beach and dunes system to erode and recover without the need for shoreline control structures.</u>							X	Added text since seawalls do not dissipate wave energy and can accelerate scouring and erosion on adjacent properties without seawalls.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Coastal Management Element, February 18, 2025									
POLICY 3.4.1.	Single-family lots with less than 200 linear feet of ocean frontage if abutted by existing seawalls on both sides, shall be allowed to continue the seawall or revetment to fill in the gap, as implemented by the Land Development Code. <u>Green shoreline stabilization features that include nature-based solutions such as living shorelines, constructed oyster reefs (COR), or wave attenuation devices (WAD) shall be encouraged.</u>							X	Other types of armoring were added.
POLICY 3.4.2.	Proposed armoring which does not abut existing armoring, or for multi-family or commercial projects, shall be designed <u>discouraged</u> so as to not significantly interfere with normal beach processes, or adversely impact critical wildlife habitat.							X	Changed language to “discouraged”.

Goals, Objectives, Policies		Recommended Action							
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify	Explanation/Modification
Coastal Management Element, February 18, 2025									
POLICY 3.4.3.	All new or reconstructed armoring projects shall <u>first consider nature-based solutions and green shoreline stabilization features such as living shorelines, constructed oyster reefs, or wave attenuation devices</u> , and upon completion, be covered by an artificial dune with appropriate planting of dune vegetation. The property owners are responsible for proper long-term maintenance of these structures and dunes.							X	Added newer, innovative armoring instead of seawalls.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification
			Keep	Delete	New	Replace	Move	
Coastal Management Element, February 18, 2025								
POLICY 3.4.4.	Seawalls and revetments shall be allowed only if conditioned upon dune creation and restoration and the preparation of long-term management plans. In addition to such armoring, added protection shall be provided in the form of a fore dune, at least one-half the height of the armoring, but not less than six (6') feet, and with a forward slope no greater than fifteen (15°) degrees. The top of this dune shall be vegetated with native dune vegetation. The forward edge would be more effective with a sand trap, for example, sand trapping lattice fence <u>or newer innovative nature-based solutions</u> . The line shall be marked at intervals of not less than fifty (50') feet with the notice, "DUNE RECOVERY AREA – NO TRESPASSING." If access across the recovery area is needed, an appropriate elevated walkover ought to be provided. The walkover shall be adequately maintained, or the access point closed.						X	Added text including newer, innovative armoring instead of seawalls.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification
			Keep	Delete	New	Replace	Move	
Coastal Management Element, February 18, 2025								
POLICY 3.4.5.	Native dune vegetation atop the protected area shall extend not less than thirty (30') feet inland, unless otherwise provided by existing construction permits. New development shall direct surface and building runoff from rainwater to a vegetated swale area to the maximum extent practical.		X					
POLICY 3.4.6.	Gaps Less than 200 Feet in Width - Gaps in seawalls and revetments which are less than 200 feet in width may be filled by a seawall or revetment. The type chosen shall be generally of the style and type of the adjacent ones, and shall be of reinforced concrete of thickness to withstand 30-year direct wave impact, and should extend at least four (4') feet below and fourteen (14') feet above the zero-vertical datum. The back area of the structure shall be filled with sand.						X	No changes to text. Formatting is proposed to be bolded instead of underlined to avoid errors when formatting strikethrough and underline

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification
			Keep	Delete	New	Replace	Move	
Coastal Management Element, February 18, 2025								
POLICY 3.4.7.	Gaps Over 200 Feet but Less Than 1,000 Feet – On a showing of need for protection of life and property, gaps over 200 but less than 1,000 feet may be protected by armoring. The protection shall be designed to prevent high-velocity back-wash, to withstand 30-year direct wave impact and should extend at least four (4’) feet below and fourteen (14’) feet above the zero-vertical datum. Ends should be generally of the style and type of the protection being joined. The back area of the armoring shall be sand filled. Armoring which has internal gaps, such as boulders, should have a long-life sand retainer. The armoring of such systems should be inspected at not less than five-year intervals. Deterioration of the sand retainer should be cause for rebuilding of the armoring system. Where gap-filling is not requested, or allowed, a fore-dune may be constructed.						X	No changes to text. Formatting is proposed to be bolded instead of underlined to avoid errors when formatting strikethrough and underline

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 3.4.8.	Gaps Greater than 1,000 Feet in Extent – Except on a showing of extreme hazard to life and property, gaps greater than 1,000 feet between existing beach armoring should be protected solely by “soft protection.” This may be the natural beach process, or it may be an enhancement of this process, for example, by the establishment of a fore-dune and vegetated recovery area as described above. Reduction of dune height and/or destruction of native dune vegetation in such gaps shall be forbidden, except that structures allowed by existing permits may be constructed. If gaps of this size are filled due to a determination of hazard, they should conform to the requirements for gaps of 200-1,000 feet.							X	No changes to text. Formatting is proposed to be bolded instead of underlined to avoid errors when formatting strikethrough and underline
GOAL 4. WATER QUALITY OF ESTUARIES AND OCEAN	THE CITY SHALL PROTECT, ENHANCE, AND IMPROVE THE WATER QUALITY OF THE ESTUARIES AND OCEAN.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
OBJECTIVE 4.1. OCEAN WATER QUALITY	The City shall continuously review development and devise standards and programs to protect ocean water quality.		X						
POLICY 4.1.1.	New development shall not directly discharge stormwater or effluent into the coastal beach area.		X						
POLICY 4.1.2.	Berms and swales shall be required for new development abutting the coastal beaches and dune systems.		X						
POLICY 4.1.3.	All new development on the barrier island shall be required to connect to central water and sewer.		X						
POLICY 4.1.4.	Backwashing of pools into the ocean/beach area shall be prohibited.		X						
POLICY 4.1.5.	The City shall encourage the State and Federal government to prohibit oil drilling offshore of City Limits.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
OBJECTIVE 4.2. ESTUARINE WATER QUALITY	The City shall continuously review development and devise standards and programs to protect, enhance, and improve estuarine water quality so that there is no further degradation of the water quality. <u>Estuarine land uses will be (re)developed to meet the standards and criteria for location, intensity, compatibility and adequate infrastructure established for all (re)development within the City except where the unique attributes and vulnerabilities of the estuarine location require additions or modifications.</u>							X	Updated text since current and future projections show impacts to coast and estuaries.
POLICY 4.2.1.	Direct discharge of untreated stormwater from new development into surface waters shall be prohibited and no new point sources of pollution shall be permitted.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 4.2.2.	In coordination with other governmental entities, the City shall continue efforts to procure funding to develop a strategy to provide central sewer to the unincorporated area of the North Peninsula where there is a proliferation of package treatment plants and septic tanks. This strategy shall include the feasibility of the County establishing a tax assessment district for the installation of municipal sewer lines and extension of trunk lines to the wastewater treatment plant.		X						
POLICY 4.2.3.	The City shall protect and ensure <u>that</u> there is no further degradation of the water quality of the estuarine system.		X						Insert word “that”.
POLICY 4.2.4.	The City shall cooperate with other governmental entities to develop a strategy to provide central water and sewer services to the west portion of the City, including but not limited to: Tomoka Estates, Tomoka View, Tanglewood, Twin Rivers and Riverbend Estates.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 4.2.5.	Septic tanks shall not be permitted within 120 feet of the mean high-water mark or 75 feet of the upland/wetland interface, whichever is greater.		X						
POLICY 4.2.6.	The City shall utilize a monitoring program so that point and non-point pollution sources and facilities which are identified as potential water quality problems are regularly and periodically inspected.		X						
POLICY 4.2.7.	The City shall continue to upgrade its existing sewage treatment plant. As additional sewage treatment plants are constructed and/or the existing plant is expanded, a concerted effort and commitment shall be made to <u>restrict the placement of facilities within areas that present health, safety or environmental risks from natural hazards</u> , utilize the highest level of treatment possible, or alternative methods of effluent disposal such as re-use and land spreading/spray irrigation should be used to reduce nutrient loadings to the rivers and estuaries.							X	Added text for clarification.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification
			Keep	Delete	New	Replace	Move	
Coastal Management Element, February 18, 2025								
POLICY 4.2.8.	Best management practices shall be maintained in the Land Development Code that limit the amount of sediment reaching all surface waters. These practices shall be used in agriculture, silviculture, construction, dredge and fill operations, and stormwater management systems. Erosion and sediment control provisions shall be incorporated as part of the development review process.		X					
POLICY 4.2.9.	The construction of future municipal stormwater management systems and the redesign of existing systems shall consider <u>advanced data and analysis through studies and modeling to help evaluate and refine</u> the timing of discharge of fresh water to the estuary, the hydroperiod of the wetlands as well as the potential loadings and shall maximize the use and preservation of existing wetlands, <u>and impacts from flooding and storm surge</u> . Stormwater systems should be designed to gradually release water via sheet flow through natural or constructed wetlands.						X	Updated text.

Goals, Objectives, Policies			Recommended Action							
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify	Explanation/Modification	
Coastal Management Element, February 18, 2025										
POLICY 4.2.10.	No development shall be permitted to degrade the Class III waters of the Tomoka River, a designated Outstanding Florida Waters waterbody.		X							

POLICY 4.2.11.	The City shall require all PRD <u>Planned Residential Development</u>'s and multi-family <u>projects</u> greater than fifty (50) units, commercial and industrial development greater than ten (10) acres, adjacent to the Halifax River, the Tomoka River, and tributaries to properly assess the potential impacts of the project on the surface waters, due to flooding, by preparing an individual surface water monitoring program to assess the predevelopment condition. After the initial baseline data is completed, the monitoring shall continue through <u>the requirements of the approved stormwater management plan.</u> the construction phase. The monitoring program shall be designed to detect any decline in water quality as defined by ambient standards as approved by the City Engineer. Should any decline in water quality be attributable to the development project, suitable actions shall be undertaken to test further the source and to make recommendations for immediate corrective actions. The monitoring program shall continue for the life of the project with reports submitted to the City yearly for the first 5 years after construction and then every 5 years thereafter.							X	Spelled out acronym. Modified to base monitoring of development on the approved stormwater permit.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 4.2.12.	All development shall review and report on their stormwater management system and provide an assessment of the impacts of the development with regards to the established ambient chemical and biological conditions of the wetlands and waters within and adjacent to the subject site.		X						
GOAL 5. HURRICANE EVACUATION/COASTAL FLOOD HAZARDS	THE CITY SHALL PLAN AND IMPLEMENT PROGRAMS AND DEVELOPMENT REGULATIONS TO LESSEN THE IMPACT OF A DESTRUCTIVE STORM ON THE PUBLIC HEALTH, SAFETY AND WELFARE, INCLUDING PUBLIC FACILITIES AND NATURAL RESOURCES.		X						
OBJECTIVE 5.1. PUBLIC INFORMATION	The City shall continue to implement an effective public information program to inform the public of hurricane vulnerability zones <u>Hurricane Vulnerability Zones</u> , hurricane evacuation plans, and post-disaster redevelopment programs, as implemented by the City’s Peacetime Emergency Plan.							X	Minor edit to capitalize Hurricane Vulnerability Zone.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 5.1.1.	Any public relations program explaining to the coastal residents that explains the potential threat from hurricane hazards will be coordinated with the schools, hospitals, Chamber of Commerce, assisted living facilities, day care centers, and local, regional, State, and Federal governments.							X	Minor edit for clarification.
POLICY 5.1.2.	The City shall continually ensure that collateral materials, such as brochures, posters, and hurricane tracking maps are available for distribution to the general public <u>electronically</u> . City departments shall act as distribution sites <u>provide website information or provide a printout if internet is not accessible</u> .							X	Updated text since most information is available on City website or other agency websites electronically.
POLICY 5.1.3.	All condominiums, timeshare resorts, hotels/motels, apartments, subdivisions, and redevelopment projects shall are encouraged to properly notify all residents of potential flood hazards and hurricane evacuation routes.							X	There is no mechanism for enforcement. The intent is worthwhile and should be promoted where possible.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification

Coastal Management Element, February 18, 2025									
POLICY 5.1.4.	Timeshare resorts, hotels/motels, and condominiums shall <u>are encouraged to</u> display hurricane warning and evacuation information material in a prominent place.							X	There is no mechanism for enforcement. The intent is worthwhile and should be promoted where possible.
POLICY 5.1.5.	The City shall continue to implement a City-prepared Local Peacetime Emergency Management Plan as approved by the City Commission.		X						
POLICY 5.1.6.	An annual update will be prepared by May 1 st , by appropriate staff explaining the Local Peacetime Emergency Plan, analyzing any problems and making specific recommendations for change.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Coastal Management Element, February 18, 2025									
POLICY 5.1.7.	The City Fire Department shall maintain an inventory of all sites where hazardous waste may be generated, stored, or transported and which are located on the barrier island and in the hurricane vulnerability zone Hurricane Vulnerability Zone . The City will also coordinate with County, Regional, State, and Federal jurisdictions to ensure that hazardous substances are properly managed and stored to prevent contamination during a coastal storm event.							X	Minor modification capitalizing the title.
POLICY 5.1.8.	The current Local Peacetime Emergency Plan shall be modified as necessary by appropriate staff to comply with the Policies under this Objective, and shall contain step-by-step details for post-disaster recovery operations.		X						
OBJECTIVE 5.2. COASTAL EVACUATION TIMES	The City shall maintain the Coastal Evacuation time, as adopted, based on a level-of-service standard D during time of hurricane in any category storm.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification		
			Keep	Delete	New	Replace	Move		Modify	
Coastal Management Element, February 18, 2025										
POLICY 5.2.1.	A level-of-service standard shall be maintained, <u>based upon the most up-to-date regional evacuate studies to evacuation populations most at risk in the Hurricane Vulnerability Zone.</u> defining 14 hours as the maximum time to evacuate the population at risk within the City's hurricane vulnerability zone and defining 6 hours as the maximum clearance time as implemented in the Land Development Code.							X	Text has been broadened.	
POLICY 5.2.2.	The City will make all efforts possible to ensure that evacuation orders are issued in a timely manner to ensure the safe and orderly evacuation of the population. Orders should be issued at least 14 hours before projected hurricane landfall <u>in coordination with Volusia County or State Emergency Management.</u>								X	Updated text to reflect how evacuation orders are actually handled.

Goals, Objectives, Policies			Recommended Action						
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify	Explanation/Modification
Coastal Management Element, February 18, 2025									
POLICY 5.2.3.	Land development-decisions, as regulated by the Land Development Code, affecting the barrier island and hurricane vulnerability zone <u>Hurricane Vulnerability Zone</u> shall consider the impact to evacuation times. Consequently, no development order shall be issued if the impact of such development reduces the levels-of-service below an acceptable level, unless mitigation is provided.							X	Minor modification capitalizing the title.
POLICY 5.2.4.	All new development located in the Hurricane Vulnerability Zone shall prepare a report indicating the impact of such development on the hurricane evacuation time standards as implemented by the Land Development Code.		X						
POLICY 5.2.5.	In order for an applicant to conduct a transportation analysis and determine the impacts of development on the hazard clearance time, the following needs to be submitted by the applicant for development (as implemented by the Land Development Code).			X					Policy lacks information to be submitted. Submittal information would be determined at site plan application.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
OBJECTIVE 5.3. PUBLIC FACILITIES AND INFRASTRUCTURE	Public facilities and infrastructure shall be constructed and maintained in order to protect the public health, safety, and welfare during coastal storm events.		X						
POLICY 5.3.1.	The City shall support, through Metropolitan Transportation Planning Organization efforts, improvements to existing bridges to facilitate evacuation and to improve public access to the beach.							X	Updated agency title.
POLICY 5.3.2.	Future roadway improvements shall minimize the impact of flooding and storm damage on evacuation route facilities.		X						
POLICY 5.3.3.	In cooperation with other governmental agencies, the City shall ensure evacuation routes are designated in such a way as to distribute traffic demand to provide optimum utilization of available roadway facilities. This will include the redistribution of a portion of the traffic from the Granada Bridge to the Seabreeze Bridge.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 5.3.4.	Public expenditures shall be prohibited that will encourage new development inside the Coastal High Hazard Area (CHHA), unless the expenditures are consistent with policies specifically identified in the Coastal Management Element or cross-referenced to another appropriate element, and included in the Capital Improvements Element. This prohibition does not include: expenditures associated with redevelopment or development of properties in accordance with previously approved subdivisions or site plans; public access and recreation facilities; or resource restoration projects and facilities.		X						
POLICY 5.3.5.	If constructed, all public facilities in the Hurricane Vulnerability Zone shall be flood proofed to minimize damages from storms and hurricanes.		X						
POLICY 5.3.6.	The City shall continually update and maintain a contingency and management plan in the event of significant damage to the municipal wastewater treatment plant located on Wilmette Avenue.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification
			Keep	Delete	New	Replace	Move	
Coastal Management Element, February 18, 2025								
POLICY 5.3.7.	The City shall continually participate in a “hazard identification and vulnerability assessment” study of public infrastructure in the Hurricane Vulnerability Zone and Coastal High Hazard Area (CHHA). Capital improvement programming and land development regulations shall be adopted or revised, as necessary, to establish a continuing program of hurricane mitigation.		X					

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Coastal Management Element, February 18, 2025									
POLICY 5.3.8.	If feasible, and where State funds are anticipated to be needed, public infrastructure presently within the Coastal High Hazard Area (CHHA) shall be relocated outside of said area when repairing/replacing the infrastructure. If relocation of the infrastructure is deemed by the City to not be feasible, any reconstruction or repair of the infrastructure necessitating State funds shall be designed as to be consistent with the provisions of the Coastal Management Element. <u>Facilities within the Coastal High Hazard Area that present health, safety or environmental risks from natural hazards shall be restricted.</u>							X	Added text
OBJECTIVE 5.4. SHELTER FOR POPULATION	In cooperation with the American Red Cross, Volusia County, and other governmental agencies, the City shall designate hurricane evacuation shelters to protect the population in the region-wide Hurricane Vulnerability Zone.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 5.4.1.	In cooperation with the American Red Cross, Volusia County, and other governmental agencies, the City shall maintain hurricane emergency shelter facilities to accommodate at least 23% of the population in the Hurricane Vulnerability Zone, based upon a standard of 40 square feet of shelter space per person.		X						
POLICY 5.4.2.	New hurricane emergency shelter space shall not be located in the Hurricane Vulnerability Zone.		X						
OBJECTIVE 5.5. POST-DISASTER REDEVELOPMENT	The City shall follow the provisions of the County Post-Disaster Relief Plan and the City’s Peacetime Management Plan during post-disaster redevelopment efforts. If necessary, amendments may be made to the Comprehensive Plan based upon updated Post-Disaster Relief Plans as they occur.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Coastal Management Element, February 18, 2025									
POLICY 5.5.1.	The Post-Disaster Relief Plan shall include: the identification of land areas that should not be reconstructed; abandonment and/or relocation of buildings, rebuilding of public facilities; and reconstruction with structural modifications.		X						
POLICY 5.5.2.	The Post-Disaster Relief Plan shall also identify structures in the Coastal High Hazard Area (CHHA) that might be of some utility for public access to coastal beaches and waterways, and make recommendations for acquisition when post-disaster opportunities arise. It shall establish guidelines for determining priorities for the acquisition of storm-damaged property in the Hurricane Vulnerability Zone.		X						
POLICY 5.5.3.	The Post-Disaster Relief Plan shall establish principles for repairing, replacing, modifying, or relocating public facilities in the Hurricane Vulnerability Zone.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 5.5.4.	The Planning Department shall review the feasibility of a build-back policy, to be applied after a disaster. The Planning Department will prepare recommendations for the City Commission by 2010.			X					There has been no policy of creating a build back policy and the Land Development Code regulations would control after a disaster.
POLICY 5.5.5. <u>POLICY 5.5.4.</u>	The City’s Peacetime Emergency Management Plan for post-disaster relief in the form of disaster assessment, the provision of temporary housing, and the provision of individual assistance shall be coordinated with the appropriate governmental agencies and shall be updated as needed.							X	Re-numbered.

POLICY 5.5.6. <u>POLICY 5.5.5.</u>	Following a hurricane event, mitigative actions shall be undertaken to reduce or avoid future property damage through the implementation of programs based upon the following criteria: a. Post-hurricane mitigation should include mechanisms for the relocation of structures significantly damaged as the result of a major storm event. b. Land acquisition programs should include provisions for the timely redirection of funds directed toward the acquisition of beach and estuarine properties which should not be redeveloped. c. The redevelopment and rebuilding of facilities which serve to encourage growth in vulnerable areas should be limited to those instances where it is necessary in order that needed public services are provided to existing development. d. If rebuilt, structures which suffer damage in excess of fifty (50%) of their appraised value shall be rebuilt to meet all current requirements, including those enacted since construction of the structure. e. Structures which suffer repeated damage to pilings,							X	Minor edit. Re-numbered.

Coastal Management Element, February 18, 2025								
POLICY 5.5.9.	The Recovery Task Force shall: review and decide upon emergency building permits; coordinate with State and Federal officials to prepare disaster assistance applications; analyze and recommend to the City Commission hazard mitigation options including reconstruction or relocation of damaged public facilities; design a redevelopment plan; and recommend amendments to the Comprehensive Plan, Local Peacetime Emergency Plan, and other appropriate policies and procedures.			X				Delete. Emergency procedures would be determined by the appropriate city staff.
POLICY 5.5.10.	Immediate repair and cleanup actions needed to protect the public health and safety include repairs to potable water, wastewater, and power facilities; removal of debris; stabilization or removal of structures about to collapse; and minimal repairs to make dwellings habitable. These actions shall receive first priority in permitting decisions. Long term redevelopment activities shall be postponed until the Recovery Task Force has completed its task.			X				Delete. Emergency procedures would be determined by the appropriate city staff.

POLICY 5.5.11.	The Recovery Task Force shall propose Comprehensive Plan amendments which reflect the recommendations in any interagency hazard mitigation reports or any other reports.			X					Delete. Emergency procedures would be determined by the appropriate city staff.
GOAL 6. PUBLIC ACCESS TO THE BEACH AND WATERWAYS	THE CITY SHALL MAINTAIN AND IMPROVE PUBLIC ACCESS TO THE SOVEREIGN LANDS OF THE COASTAL MANAGEMENT AREA THROUGH THE PROVISIONS OF COASTAL BEACH ACCESS FACILITIES, FISHING PIERS, BOAT RAMPS AND MARINAS.		X						
OBJECTIVE 6.1. BEACH DRIVING	Beach driving shall continue in a manner that maximizes public safety and minimizes destruction to the beach and dune system.		X						
POLICY 6.1.1.	The City will encourage driving on the beach to be continued south of Granada, but limited to Standish Drive north of Granada, due to high tides and soft sand hazards. During exceptionally high tides, the beach should be closed to driving.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification	
			Keep	Delete	New	Replace	Move		Modify
Coastal Management Element, February 18, 2025									
POLICY 6.1.2.	The area of the beach north of Standish Avenue should continue to be a “No Driving Zone” and a designated “Safe Play Zone” for children.		X						
POLICY 6.1.3.	The City will encourage the County to prohibit vehicles from driving or parking on the beach that leak oil, gas, and anti-freeze or any other hazardous materials with specific penalties established and with enforcement by appropriate personnel such as the Beach Rangers <u>Volusia County Beach Safety</u> .							X	Changes Beach Rangers to Volusia County Beach Safety.
POLICY 6.1.4.	The City shall encourage the County to regulate beach driving in such a manner that it minimizes the danger to the nesting areas of least terns, and sea turtles, and other <u>State or Federally protected flora and fauna</u> .							X	Updated to encompass any state or federally protected species.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification
			Keep	Delete	New	Replace	Move	
Coastal Management Element, February 18, 2025								
OBJECTIVE 6.2. JURISDICTIONAL RESPONSIBILITY FOR THE BEACH	The City shall ensure, to the <u>maximum</u> extent possible, that County management of the coastal beaches and approaches of the City, as well as County regulation of the beaches and public beach access and use, is consistent with the purpose and intent of the City to protect the public health, safety, and welfare and to protect the environment. The City shall further respect the private property rights of oceanfront property owners.							X Insert word “maximum”.

POLICY 6.2.1.	The City shall continue to participate in the activities of the County entity responsible for beach related policies. The City Commission, as a whole, shall entrust its representative(s) to make specific recommendations for amending The Unified Beach Code consistent with the interests of the City. The following criteria shall apply in implementation of this Policy: a. City staff shall annually review the Unified Beach Code with regard to the comprehensive regulation of public health, safety, and welfare on and pertaining to the beach, including, but not limited to, regulation of: individual conduct; pedestrian safety; vehicular access and fees; operation and parking of vehicles on beaches and approaches; and vendors, concessionaires, and special events. b. The City Commission shall annually appoint a representative(s) to the County entity responsible for beach related policies.		X

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 6.2.2.	In coordination with the County, the City shall ensure that the County is expending funds to maintain a uniform level-of-service on the beach responsive to use and demand. If it is determined that level-of-services are diminishing below an acceptable level to the community, then the City shall notify the County.		X						
OBJECTIVE 6.3. BEACH TOLLS	In cooperation with the County, the City shall minimize potential adverse impacts caused by the collection of beach tolls such as increased traffic congestion, reduction of vehicular access points to the beach, and reduction in tourist activity.		X						
POLICY 6.3.1.	Since beach ramp closings during the toll season severely restrict public access to the beach, the City shall ensure that the minimum standards for beach access are maintained by either requesting the County to open more ramps or by encouraging the County to utilize the beach vehicular ramps as parking areas.		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 6.3.2.	The City will continue to encourage the County to adopt a level-of-service standard for beach access of an average one-quarter mile intervals which should be maintained throughout the year.		X						
OBJECTIVE 6.4. OFF-BEACH PARKING	The City shall encourage the County to provide off-beach parking facilities as appropriate to maintain or improve public access to the beach provided, however, that no sections of the beach that are presently available for parking are closed.		X						
POLICY 6.4.1.	Since the County has exclusive authority to regulate public beach access, including parking of vehicles on beaches and approaches as per the County Charter, then the City shall encourage the County to provide for off-beach parking facilities to the maximum extent feasible and to the extent that the County incurs the cost of construction and maintenance of said facilities.		X

			Keep	Delete	New	Replace	Move	Modify	
Coastal Management Element, February 18, 2025									
POLICY 6.4.2.	The City shall prohibit the vacation of public right-of-way that provides or could provide public access to the beach or off-beach parking without an equivalent type of access.		X						
OBJECTIVE 6.5. BEACH ACCESS FACILITY MAINTENANCE AND AMENITIES	In the interest of the public health, safety, and welfare, the City shall monitor the services of the County to ensure that beach access facilities are properly maintained.		X						
POLICY 6.5.1.	The County shall be encouraged by the City to provide amenities such as showers and restrooms at the various beach access facilities.		X						
OBJECTIVE 6.6. DOCKS AND MARINAS	Docks and marinas shall be constructed and expanded to protect the natural resources and public health, safety, and welfare as implemented by the Land Development Code.		X						
POLICY 6.6.1.	Marinas shall not be located in the Tomoka River or its tributaries.		X						
POLICY 6.6.2	Marinas shall not be located adjacent to residential neighborhoods unless a 100-foot vegetated buffer is established to screen the business activity.		X

<u>POLICY 1.7.3.</u>	<u>Provide educational materials regarding energy efficiency, sustainable design, and climate change that encourage residents and business owners to invest in energy-efficiency improvements through community outreach efforts and the City’s website.</u>						X		Existing Policy 1.3.3.
<u>POLICY 1.7.4.</u>	<u>The City shall allow building orientation in the permitting process that maximizes energy efficiency and fosters the use of alternative energy sources where appropriate, such as solar or wind energy systems, to reduce the demand for electricity and greenhouse gas emissions.</u>						X	X	Existing Policy 1.3.4. The proposed Policy states, “The City shall allow in the permitting process,” and deletes the word “Encourage” from the original Policy.
<u>POLICY 1.7.5.</u>	<u>Encourage appropriate orientation of trees and shrubs on a development site to reduce cooling loads by taking advantage of evapotranspiration and shade.</u>						X		Existing Policy 1.3.5.
<u>POLICY 1.7.6.</u>	<u>The City shall continue to enforce the energy efficiency and renewable energy resources regulations of the Florida Building Code and Chapter 553, Florida Statutes.</u>				X				Implements energy efficiency and renewable energy resources regulations of the Florida Building Code and Chapter 553, Florida Statutes.
GOAL 2. NEIGHBORHOOD MAINTENANCE	TO ENSURE AND PROMOTE THE MAINTENANCE AND ENHANCEMENT OF RESIDENTIAL NEIGHBORHOODS.			X					This Goal is not required for the Housing Element per the Florida Statute.
OBJECTIVE 2.1. NEIGHBORHOOD MAINTENANCE	As a matter of on-going policy, the City will promote the maintenance, protection and if necessary, the rejuvenation of City neighborhoods and residential areas, to encourage the highest quality housing and living environment possible.			X					Public services and facilities are planned and implemented within the Capital Improvement Plan. Code enforcement occurs within the Code of Ordinances and Land Development Code regulations.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Housing Element, February 18, 2025									
POLICY 2.2.1.	By 2011, the City shall have developed and employed a neighborhood classification model designed to monitor neighborhood conditions, classify neighborhoods by a standardized condition and identify a comprehensive strategy for delivery of city services using a neighborhood focus.			X					The City is not utilizing a neighborhood classification model.
POLICY 2.2.2.	By 2010, the City shall adopt an unsafe building abatement code to address vacant and derelict buildings to reduce blighting influences on commercial corridors and in residential neighborhoods.			X					The City adopted an unsafe building abatement Ordinance for unsafe structures which is within the Code of Ordinances, Section 8-4. In 2014, an ordinance regarding abandoned (foreclosure) property. The City has not adopted a maintenance code for buildings and the Florida Building Code would be applicable.
POLICY 2.2.3.	Code enforcement, linked with housing rehabilitation assistance, shall be a principal conservation strategy for residential neighborhoods which are determined to be stable by the City's Neighborhood Classification Model.			X					This policy is not a required part of the Housing Element per the Florida Statute. Recommending not including code enforcement actions in the Comprehensive Plan.
POLICY 2.2.4.	The City's Neighborhood Improvement Division shall provide in tandem with the issuance of housing code enforcement violations, information services provided by Volusia County Community Services for Ormond Beach.			X					This policy is not a required part of the Housing Element per the Florida Statute. Recommending not including code enforcement actions in the Comprehensive Plan.

POLICY 2.2.5.	Active citizen participation shall be incorporated into neighborhood planning efforts.			X					There are Policies within the Future Land Use Element for citizen participation.
POLICY 2.2.6.	The City shall incorporate into the Land Development Code a formalized compatibility screening procedure to assist development applicants in identifying and mitigating conflicts in order to protect residential neighborhoods from incompatible land uses.			X					The Land Development Code has regulations that seek compatibility between uses.
GOAL 3. PRESERVATION AND REHABILITATION	PRESERVE AND EXPAND THE SUPPLY OF QUALITY HOUSING UNITS FOR LOW AND MODERATE INCOME HOUSEHOLDS BY SUPPORTING THE BUILDING OF NEW UNITS, REHABILITATION OF SUBSTANDARD UNITS, AND THE PREVENTION OF LOSS AND DETERIORATION OF EXISTING AFFORDABLE UNITS.			X					Re-incorporated into new Objective 1.2.
OBJECTIVE 3.1. REHABILITATION OF SUBSTANDARD HOUSING	All housing in the City which is found to be substandard but economically feasible to repair should be rehabilitated to increase the availability of standard housing and ensure that all housing in the City provides safe and adequate shelter to its occupants.			X					Re-incorporated into new Policy 1.2.3.
POLICY 3.1.1.	The City shall actively support the provision of housing services by Volusia County Community Services, Halifax Habitat for Humanity and other non-profit housing organizations in the Ormond Beach area.			X					Re-incorporated into new Policy 1.3.8.
POLICY 3.1.2.	As a matter of on-going policy, rehabilitation of housing units should be in conjunction with other neighborhood revitalization activities and facility improvements, as appropriate, to improve the overall quality of housing and neighborhood environments.			X					Rehabilitation is a private sector function and this Policy is proposed to be deleted.
POLICY 3.1.3.	Neighborhood restoration efforts shall seek to maintain neighborhood identity and integrity.			X					Rehabilitation is a private sector function and this Policy is proposed to be deleted.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Housing Element, February 18, 2025									
OBJECTIVE 3.2. COORDINATION OF HOUSING ACTIVITIES	The City shall establish partnerships with private and public non-profit groups, private developers and other affordable housing providers.			X					Re-incorporated into new Policies 1.1.12., 1.3.7. and 1.3.8.
POLICY 3.2.1.	The City shall utilize, to the maximum extent possible, non-profit community-based organizations to assist in the acquisition, rehabilitation, and construction of affordable housing.			X					Re-incorporated into new Policies 1.3.7. and 1.3.8.
POLICY 3.2.2.	The City shall support multi-jurisdictional approaches affordable housing issues in Volusia County.						X		Moved to Policy 1.3.10
GOAL 4: HOME OWNERSHIP	INCREASE HOME OWNERSHIP OPPORTUNITIES BY REDUCING THE TOTAL COST OF HOUSING IN THE MARKET PLACE.			X					The City does not have the ability to control the cost of private sector housing. Policy is proposed to be deleted.
OBJECTIVE 4.1. HOUSING OPPORTUNITIES	The City shall ensure, on a continual basis, that a variety of housing, including mobile homes or manufactured housing, affordable and rural housing is developed in the community to provide for the varied life-styles of its existing and future residents. The identification of historically significant housing shall continue in accordance with existing ordinances and as described in the Future Land Use Element, Coastal Management Element, Cultural Affairs Element, and Recreation and Open Space Element.			X					This Objective is proposed to be deleted. Preservation of historically significant housing is within the Historic and Cultural Resources Element.
POLICY 4.1.1.	By 2010, the City shall utilize style neutral single-family residential design standards for all residential dwellings in order to address resident concerns regarding compatibility of manufactured housing in single-family residential neighborhoods.			X					This Policy will be deleted. Standards exist in Section 2-42 of the Land Development Code.
POLICY 4.1.2.	The City shall incorporate affordable housing techniques into the Land Development Code such as Transfer of Development Rights, mandatory inclusionary zoning and density bonuses to increase the number of			X					Density bonuses are available within the Planned Residential Development zoning district. The concept of transfer of

Housing Element, February 18, 2025									
	affordable lots and homes available to low- and moderate-income households.								development rights or required inclusionary zoning has not been implemented.
POLICY 4.1.3.	The City shall ensure, through the Land Development Code, the availability of safe and adequate housing units of different types, sizes and price ranges to meet the needs of all current and future residents.						X		Moved to Policy 1.1.6.
POLICY 4.1.4.	The City shall pursue affordable housing techniques designed to reduce the cost burden to low- and moderate-income households thus making affordable housing already available in the marketplace more accessible.			X					Proposed to be deleted.
POLICY 4.1.5.	When provided by developers, the percentage affordable ratio shall be adjusted by area and by size of the development. Depending upon the geographic location, percentages may vary. In existing areas of the City where there is a significant population of low income and moderate-income groups, then a base percentage of 10% would apply, while elsewhere the base percentage may be 5%. The 10 percentage areas are generally identified as follows: 1) CDBG Priority Area: An area bounded on the north by Highland/Selden Avenue, the south by the City limits, the east by South Ridgewood, and the west by the Florida East Coast Railroad tracks. (As amended by Ordinance 93-14, adopted on April 6, 1993.) 2) Barrier Island South: An area bounded on the north by Seminole Avenue, the south by the City limits, the east by A1A, and the west by Riverside Drive (south of the Fluhart Drive and Riverside Drive intersection). 3) Granada/Wilmette North: An area bounded on the north by Wilmette Avenue and its extension, the south by Granada Boulevard, the east by Orchard Street and the west by Nova Road. 4) Granada/Division South: An area bounded on the north by Granada Boulevard, the south by Division Avenue.			X					This Policy is proposed to be deleted. Proposed Policy 1.3.9. seeks to disperse affordable housing. This Policy is voluntary and includes suggested percentages. If there is a desire to require inclusionary affordable housing units, this Policy would need to be re-written.

Housing Element, February 18, 2025									
	Low and moderate income housing units shall be dispersed throughout new development projects in a way that preserves the ambient character of the project and ensures assisted and non-assisted units shall not be distinguishable externally.								
POLICY 4.1.6.	Mixed-use buildings incorporating residential and commercial development in the downtown shall have priority over single-use buildings when applying for financial assistance from the City through the Tax Increment Financing District.			X					There are other Policies that encourage mixed use and this Policy is proposed to be deleted.
POLICY 4.1.7.	The City housing policy shall promote universal accessibility as a design option for housing of the elderly and various income level families.			X					Proposed to be deleted.
POLICY 4.1.8.	Through the development review process and the administration of regulatory controls, the City will consider opportunities for the private sector to develop innovative housing prototypes and creative residential land use arrangements to foster varied housing opportunities by types and cost.						X	X	Policy incorporated into Policy 1.1.7.
POLICY 4.1.9.	The City shall continue to maintain an inventory of all public lands and buildings and, upon query by non-profit housing organizations, report to the City Commission the feasibility of such public lands and buildings being made available for low and moderate income housing.			X					The city has vacant land map in Future Land Use Element and search on the Property Appraiser’s website.

POLICY 4.1.10.	Mobile Homes shall be allowed in the T-2 zoning districts. T-2, the Manufactured Home Community District, will allow for a self-contained planned community under single ownership and featuring extensive on-site recreation facilities, landscaping and innovative design.						X		Moved to Policy 1.3.2.
POLICY 4.1.11.	The City shall continue to implement standards, regulations, and guidelines for the protection and improvement of historically significant housing, consistent with the criteria contained within the Future Land Use, Coastal Management, Cultural Affairs and Recreation and Open Space Elements.						X		Moved to Objective 1.6.
OBJECTIVE 4.2 HOUSING COSTS	The City shall support and promote the provision of affordable housing, including mobile homes and manufactured housing, to all segments of the City population.						X		Moved to Policies 1.3.1. and 1.3.2.
POLICY 4.2.1	The City shall monitor all land and building development ordinances, regulations, and the permitting process to identify conflicting requirements, eliminate excessive and unnecessary regulations, and provide flexibility in the provision of housing through innovative technologies			X					See new Policies 1.3.4. and 1.3.6.
POLICY 4.2.2.	On an on-going basis, the City shall utilize automated processes to improve building and inspection services in order to provide time sensitive turnaround approvals.			X					See new Policies 1.3.4. and 1.3.6.
POLICY 4.2.3.	Developers may apply for any of the following regulatory relief provisions as part of a development that incorporates low- and moderate-income housing units: a. Waver of development fees related to approvals. b. Allowance of increased densities to accomplish affordable housing goals. The percentage of low and moderate housing set aside and accompanying density bonus may increase in proportion to one another but in no case shall it exceed 20%.						X		Moved to Policy 1.3.5.

Recreation and Open Space Parks and Recreation Element, Revision February 10, 2025									
POLICY 1.8.3.	The City shall acquire sensitive lands to meet open space objectives and/or adopt regulations to protect and enhance the functional values of such lands.		X						No change. See Attachments – concern at discussion item that the City could use eminent domain to acquire sensitive land. Community Engagement Meeting comment: delete open space and insert park. Insert “and trees” at end of sentence.
OBJECTIVE 1.9. ADA AMERICANS WITH DISABILITIES ACT STANDARDS	Public recreation facilities shall both accommodate and integrate handicapped and disabled <u>special populations and persons with disabilities</u> consistent with Federal and State standards.							X	As recommended in 4.2 of the Parks and Recreation Master Plan Update. The term special population is currently used - https://www.ormondbeach.org/736/Special-Populations-Programming#:~:text=About,Hoedown Discussion item – resident brought up concern of using term special population (see attachments).
POLICY 1.9.1.	The City shall provide physical programs for the handicapped and disabled <u>special populations and persons with disabilities</u> of all ages, based upon demand.							X	As recommended in 4.2 of the Parks and Recreation Master Plan Update. The term special population is currently used - https://www.ormondbeach.org/736/Special-Populations-Programming#:~:text=About,Hoedown Discussion item – resident brought up concern of using term special population (see attachments).
POLICY 1.9.2.	Recreation facility construction or renovation shall be designed to accommodate and integrate the handicapped and disabled <u>special populations and persons with disabilities</u> consistent with Federal and State ADA Americans with Disabilities Act standards.							X	As recommended in 4.2 of the Parks and Recreation Master Plan Update. The term special population is currently used - https://www.ormondbeach.org/736/Special-Populations-Programming#:~:text=About,Hoedown Discussion item – resident brought up concern of using term special population (see attachments).

Recreation and Open Space Parks and Recreation Element, Revision February 10, 2025									
POLICY 1.9.3.	When possible, handicap <u>special populations and persons with disabilities</u> access to the beach shall be improved by the process of handicap <u>accessible</u> parking spaces and pedestrian beach access ramps.							X	As recommended in 4.2 of the Parks and Recreation Master Plan Update. The term special population is currently used - https://www.ormondbeach.org/736/Special-Populations-Programming#:~:text=About,Hoedown Discussion item – resident brought up concern of using term special population (see attachments).
POLICY 1.9.4.	Playgrounds shall include handicap and disability <u>handicap special populations and persons with disabilities</u> accessible and usable facilities, to integrate handicapped <u>special populations</u> children into the mainstream.							X	As recommended in 4.2 of the Parks and Recreation Master Plan Update. The term special population is currently used - https://www.ormondbeach.org/736/Special-Populations-Programming#:~:text=About,Hoedown Discussion item – resident brought up concern of using term special population (see attachments).
POLICY 1.9.5.	The City shall construct playgrounds oriented towards handicapped <u>special populations</u> children.							X	As recommended in 4.2 of the Parks and Recreation Master Plan Update. The term special population is currently used - https://www.ormondbeach.org/736/Special-Populations-Programming#:~:text=About,Hoedown Discussion item – resident brought up concern of using term special population (see attachments).
OBJECTIVE 1.10. INTERGOVERNMENTAL COORDINATION	The provision of recreation programs and facilities shall be coordinated among adjacent local government jurisdictions and private sector providers to develop the most cost- effective services to the public.		X						No change.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification
			Keep	Delete	New	Replace	Move	
Recreation and Open Space Parks and Recreation Element, Revision February 10, 2025								
POLICY 1.10.1.	The City shall notify in a timely manner, for review and comment, the Tomoka State Park management and provide information regarding any development activities and ordinances that may significantly affect the park environment and operations.		X					No change.
POLICY 1.10.2.	The City shall continue to actively participate in the Volusia County land acquisition program and request utilization of such funds for open space land purchases within the City as appropriate and to the maximum extent feasible.		X					No change.
POLICY 1.10.3.	The City shall submit when appropriate and applicable, grant applications to local, state and federal grant programs for the acquisition, planning and development/management of City-owned lands. Programs include, but are not limited to: Florida Recreation and Development Assistance Program; Land and Water Conservation Fund Program; Florida Forever; Florida Boating Improvement Program; Save our Rivers Program (SJRWMD); Ponce DeLeon Port Authority; Florida Inland Navigation District; Florida Communities Trust Program; and ECHO.			X				This policy is being combined with Policy 1.10.4. Re-number as appropriate. Community Engagement Meeting comment: insert regrow Volusia.

Recreation and Open Space Parks and Recreation Element, Revision February 10, 2025									
POLICY 1.10.43.	The City shall continue to submit applications <u>when appropriate and applicable</u> for grants under programs sponsored by various <u>local, State, and regional federal</u> governments including, <u>but not limited to</u> the Florida Department of Environmental Protection, the Florida Fish and Wildlife Conservation Commission, <u>Florida Forever, Florida Recreation and Development Assistance Program, Volusia ECHO, Volusia Forever,</u> and the Florida Inland Navigation District.							X	Combined language from Policy 1.10.3. for simplification. Re-number as appropriate.
POLICY 1.10.54.	The City shall enter into agreements, as appropriate, with private institutional recreation organizations to provide services and programs including joint use of facilities and personnel.							X	No change in text. Re-number as appropriate.
POLICY 1.10.65.	Wherever possible, Ormond Beach Recreational trail corridors shall be coordinated with other national level trails such as the <u>Ormond Scenic Loop and Trail</u> , East Coast Greenway, as well as other state trail systems.							X	Added Ormond Scenic Loop and Trail. Re-number as appropriate. Community Engagement Meeting comment: insert Ormond Scenic Loop and Trail.
OBJECTIVE 1.11. DEVELOPMENT ACTIVITIES	The City shall periodically review and amend the Land Development Code relative to current open space definitions and standards to implement the <u>Recreation and Open Space Parks and Recreation Element</u>. The following policies shall apply to the review of development activities and the conduct of public activity.							X	Change name of Element to Parks and Recreation consistent with Department name.
POLICY 1.11.1.	The following shall be applied by the City to protect and provide buffers, greenbelts, and recreation within the open space system: a. Regulate the use of land and water consistent with the Future Land Use, Conservation, and Coastal Management Elements.		X						No change. Community Engagement Meeting comment: item b – insert native trees and plants. Item d – insert trees

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification

Recreation and Open Space Parks and Recreation Element, Revision February 10, 2025									
	b. Ensure the protection of natural vegetation and unique land features. c. Regulate areas subject to seasonal and periodic flooding and provide for drainage and stormwater management. d. Maintain and protect major environmental areas, parks, preserves, wildlife management areas and refuges. e. Provide mechanisms for the on-site transfer of development rights as per the Future Land Use Element. f. Develop performance standards for protecting lands with historic, scenic, recreational or environmental significance. g. Protect against significant adverse impacts to wildlife, wildlife habitats/corridors.								
POLICY 1.11.2.	Innovative techniques shall be utilized to protect identified open space areas. Such techniques could include overlay districts, flood zones, performance standards, or other incentive-based methods.		X					No change.	
POLICY 1.11.3.	Designated open space areas encompassing natural resource areas, significant environmental features, marine and wildlife habitats, conservation or potential recreation areas shall, at minimum, be protected, by buffer zones, deed restrictions, limiting density and intensity of development, conservation easements, acquisition, transfer of development rights, and purchase of development rights or land exchanges.		X					No change. Community Engagement Meeting comment: delete open space areas and insert parks.	
POLICY 1.11.4.	Criteria and standards to be used for reviewing development proposals within existing and proposed open space areas shall be maintained in the Land Development Code. Upon adoption of the plan, site specific analysis shall include an Environmental		X					No change.	

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification

Recreation and Open Space Parks and Recreation Element, Revision February 10, 2025									
	Assessment Report as per the criteria of the Conservation Element to be submitted, reviewed and approved prior to the issuance of a development order.								
POLICY 1.11.5.	Coordinate with local governments, State and other public agencies in developing consistent standards, criteria and land development regulations for the protection of open space areas.		X						No change.
OBJECTIVE 1.12. LAND ACQUISITION	The City shall continue to increase the public provision, protection and enhancement of open space by utilizing the Volusia County, Land Acquisition Program with the cooperation of the Florida Forever, Save Our Rivers, Land and Water Conservation Fund, County Port Authority, St. Johns River Water Management District land acquisition programs, and similar <u>State, and Federal land acquisition programs, as appropriate,</u> to acquire by purchase or donation those lands identified by the City Commission. Provision of open space by private enterprise shall be accomplished through donation or requirements for dedication of open and common space as specified in the Land Development Code.							X	Minor modification to broaden programs possibly available for open space acquisition.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Recreation and Open Space Parks and Recreation Element, Revision February 10, 2025									
POLICY 1.12.1.	Land or easements suitable for the provision of open space shall be encouraged as donations from public agencies and private enterprises. The location, shape, size and character shall be evaluated for applicability to City land development regulations. The City is not obligated to accept donations of open space areas from public areas and private enterprises.		X						No change.
POLICY 1.12.2.	Open Space areas shall be preserved for the following types of development: a. Residential development required to provide park needs and open space areas as required by the Land Development Code. b. Planned overlay districts required to provide open space and common open space per the Land Development Code. c. Development plans encompassing valuable resource habitats such as, but not limited to, environmental corridors as identified in the Conservation and Future Land Use Elements. d. Non-residential development required to provide open space areas as required by the Land Development Code.		X						No change. Community Engagement Meeting comment: delete Open Space areas and insert Parks. Item b – include Ormond Scenic Loop and Trail. Item d – delete open space and insert park.
OBJECTIVE 1.13. SCENIC HIGHWAYS AND CORRIDOR CONNECTIVITY	Provide for recreational corridors to link the City-owned parks as well as other open space/conservation areas.		X						No change. Community Engagement Meeting comment: delete other open space and insert community forest.
POLICY 1.13.1.	The City shall designate scenic roadways in accordance with State and Federal programs, as provided for by the Coastal Management Element and the Land Development Code.		X						No change. Community Engagement Meeting comment: insert Ormond Scenic Loop and Trail.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Recreation and Open Space Parks and Recreation Element, Revision February 10, 2025									
POLICY 1.13.2.	The City’s standards designed to ensure preservation of the scenic value of designated routes, shall be maintained in the Land Development Code.		X						No change.
POLICY 1.13.3.	The City shall continue to coordinate with utility companies the potential multi-use concept for open space and recreation uses within utility easements.		X						No change. Community Engagement Meeting comment: delete open space and insert park.
POLICY 1.13.4.	To the extent practical, utility easements (overhead transmission lines, gas and water, sewer and drainage) shall be made available for bike path, nature, jogging, and horse trail development. This off-road corridor system shall be designed and developed to connect neighborhoods and communities to recreation and open facilities.		X						No change. Community Engagement Meeting comment: add ROW after utility easements.
POLICY 1.13.5.	Open space systems or conservation areas identified for potential outdoor classroom sites or nature study facilities shall be provided with the appropriate access facilities. Facilities shall include, but are not limited to: on-site circulation system elements, natural trails, above ground boardwalks and limited passive areas designated for picnicking.		X						No change. Community Engagement Meeting comment: delete open space and insert park. Add trees to last sentence.
POLICY 1.13.6.	Public access to the beach and waterways shall be provided in accordance with the policies under Goal 67 of the Coastal Management Element.							X	Modified to Goal 6 of the Coastal Management Element for accuracy.
POLICY 1.13.7.	The City of Ormond Beach adopts and incorporates the Ormond Scenic Loop & Trail vision statement and map series as included in the adopted Ormond Scenic Loop & Trail Corridor Management Plan, as amended. The Ormond Scenic Loop & Trail is shown in Figure 2 of the Parks and Recreation Element.				X				New Ormond Scenic Loop & Trail Policy and map (Figure 2). Discussed at community engagement meeting and discussion item.
OBJECTIVE 1.14. ORMOND CROSSINGS ACTIVITY CENTER	The City working with the Developer of the Ormond Crossings Activity Center shall develop a comprehensive approach to address existing and projected deficiencies so that there are adequate		X						No change.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Recreation and Open Space Parks and Recreation Element, Revision February 10, 2025									
	facilities to serve the residents of Ormond Crossings.								
POLICY 1.14.1.	Within 90 days of the effective date of the Comprehensive Plan amendments establishing the Activity Center land use category and applying it to the Ormond Crossings Activity Center, the Developer shall deed to the City the title to a 17-acre parcel that is located immediately north of the Airport Sports Complex and fronts on Harmony Trail.			X					This policy has been completed and the 17-acre parcel deeded to the city.
POLICY 1.14.12.	The Developer shall deed to the City a total of 45-acres of land to be used for parks and recreation purposes. The land may be divided up to 5 as separate park sites within the Ormond Crossings Activity Center subject to the approval of the City, if it is determined that providing multiple parks sites minimizes automobile traffic and encourages pedestrian and bicycle access to the park facilities.							X	The number of recreations sites would be determined during site development in coordination with city staff. Re-number as appropriate. Community Engagement Meeting comment: insert dedication date to December 2025.
POLICY 1.14.23.	Based on the projected population associated with this proposed amendment, the Developer of the property shall be responsible for the following improvements. These improvements shall be completed prior to the issuance of the Certificate of Occupancy for the 1,000th dwelling unit within the Ormond Crossings Activity Center. a. A public community center with a minimum of 6,000 square feet of building area; b. A trail system, including a minimum of .75 miles of hard surface walkway; c. 1 Picnic shelter with restrooms; d. 1 soccer/football field; e. 1 baseball/softball field; f. 2 outside basketball courts with lights; g. 2 shuffle board courts;							X	No change to text. Re-number as appropriate. Community Engagement Meeting comment: delete open space and insert park. delete 1000 and insert 100.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification

Recreation and Open Space Parks and Recreation Element, Revision February 10, 2025								
	h. 1 bocce ball court; i. 1 tennis court; and j. 1 racquetball court. Based on the projected population associated with this proposed amendment, the Developer of the property shall be responsible for the following improvements. These improvements shall be completed prior to the issuance of the Certificate of Occupancy for the 2,000th dwelling unit. a. 1 community center that can be either public or private with a total minimum building area of 4,000 square feet; b. A trail system, including a minimum of .525 miles of hard surface walkways; c. Passive park area of 36.5 acres; d. 1 off-leash dog park; e. 1 covered playground area; f. 1 baseball/softball field; g. 2 outside basketball courts with lights; h. 2 shuffle board courts; i. 1 bocce ball court; j. 2 tennis courts; and k. 1 racquetball court. The City acknowledges that the need for recreational facilities is a function of the population therefore adjustments to these requirements can be expected to occur as the project proceeds. The City also reserves the right to request cash in lieu of improvements when it proves that funding will provide the City with a greater benefit and compliance with the minimum level of service standards.

Capital Improvements Element, February 18, 2025									
Headers/Footers	CAPITAL IMPROVEMENTS ELEMENT GOALS, OBJECTIVES AND POLICIES							X	Cover page added. Headers deleted from all elements and replaced with Element title. Footers modified.
GOAL 1. LEVEL OF SERVICE STANDARDS	PUBLIC FACILITIES SHALL BE PROVIDED IN A TIMELY AND EFFICIENT MANNER AS NECESSARY TO CORRECT EXISTING DEFICIENCIES IN THE LEVEL-OF-SERVICE FOR POTABLE WATER, SANITARY SEWER, SOLID WASTE, TRAFFIC CIRCULATION, AND PARKS AND RECREATION AND TO MEET FUTURE DEMANDS GENERATED FROM NEW DEVELOPMENT THROUGH THE USE OF SOUND FISCAL PRACTICES.	163.3177	X						
OBJECTIVE 1.1. CAPITAL IMPROVEMENTS	Capital Improvements identified in other plan Elements shall be provided to correct existing deficiencies, accommodate future growth, and to replace deteriorated or obsolete facilities in an economically and energy efficient manner, as indicated in the schedule of improvements in this Element.		X						
POLICY 1.1.1.	The City shall include capital improvement projects that are either: 1) required to meet adopted level-of-service standards; 2) implemented Goals, Objectives and Policies of the Comprehensive Plan; and 3) determined to be of relatively large scale in cost (\$25,000.00 or greater) in the Schedule of Improvements of this Element.							X	Hyphenate level-of-service

			Keep	Delete	New	Replace	Move	Modify		
Capital Improvements Element, February 18, 2025										
POLICY 1.1.4.	Proposed capital improvement projects that compete for funding within the same funding source and as identified annually through the concurrency management system shall be evaluated and ranked in order of priority according to the following guidelines: a. The extent to which the project is necessary to protect public health and safety. b. Capital improvements needed to address existing deficiencies. c. Maintenance of adopted levels-of-service. d. The impact that the project would have on the local budget. e. Reduction of future improvements costs. f. Encouragement of infill development and/or preservation or achievement of full use of existing facilities. g. Promotion of efficient development and prevention of urban sprawl. h. Consistency with FDOT <u>the Florida Department of Transportation</u> and other State and regional plans.							X	Spell out FDOT in item “h”	
POLICY 1.1.5.	The Capital Improvements Element shall be reviewed on an annual basis and modified as necessary in accordance with Section 163.31877, F.S. Corrections, updates and modifications concerning costs; revenue sources; acceptance of facilities, pursuant to	163.3177							X	Correct F.S. reference is 163.3177 Spell out CIE.

	dedications which are consistent with the plan; or the date of construction of any facility enumerated in the CIE <u>Capital Improvements Element</u> may be accomplished by ordinance and shall not be deemed to be amendments to the Comprehensive Plan.								
POLICY 1.1.6.	The comprehensive planning process shall be used to ensure that present and future public facility and service needs are planned and provided in a timely and efficient manner, while safeguarding the health safety and welfare of the public and natural environment.		X						
POLICY 1.1.7.	The provision of the public services and facilities shall be planned and coordinated so that the provision of public services and facilities occurs in a manner which encourages growth to be orderly and, to the extent feasible, is compatible with existing and desired land uses.		X						
POLICY 1.1.8.	Public facilities, services, and programs shall be designed to service the intensities of development projected in State, regional and local comprehensive and functional plans and other planning documents. Integrate energy cost reduction measures into the budget process.							X	The deleted sentence is out of place with the first sentence. Energy cost reduction is part of Policy 1.1.9.
POLICY 1.1.9.	Government buildings and facilities shall incorporate and recognize urban design principles. Life cycle costs should be considered in the design and construction of government facilities. The City shall implement an Energy Efficiency and Conservation Plan including a program to track the use of energy and water in facilities owned by the City and reducing energy		X

			Keep	Delete	New	Replace	Move	Modify	
Capital Improvements Element, February 18, 2025									
	consumption as it relates to budgetary constraints. The City shall require energy efficient retrofits of existing facilities, where feasible, and will ensure energy efficient objectives are met in the planning and construction of any new facilities. The City shall consider a Sustainability Index for use in assessing proposed capital projects.								
OBJECTIVE 1.2. COASTAL HIGH HAZARD AREA	The City shall limit future public expenditures for capital improvements which promote growth within Coastal High Hazard Areas, except for public land acquisition, enhancement of natural resources, or other projects as identified in the Coastal Management Element and, except for projects already in progress and continuing in good faith at the time of plan adoption.	163.3177(6)6.						X	There are no existing City projects in the Coastal High Hazard Area.
POLICY 1.2.1.	The City shall expend funds in Coastal High Hazard Areas for the provision of improvements needed to correct existing deficiencies to maintain their existing capacity.		X						
POLICY 1.2.2.	The City shall continue to provide recreational facilities as needed within Coastal High Hazard Areas.		X						
POLICY 1.2.3.	The City shall not construct any new public facilities in the coastal high-hazard areas, except for: a. Conservation, natural resource protection and preservation, conservation groundwater aquifer recharge, resource restoration facilities, public access facilities, stormwater management and passive recreation and recreation support facilities;		X						

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification

	b. Facilities necessary to improve hurricane evacuation time and/or mitigate storm damage to existing development; and c. Reconstruction of public facilities essential to maintaining the public health and safety shall only occur if such structures can meet the most current hurricane wind velocity standards contained in the adopted building code.								
POLICY 1.2.4.	The City shall study, existing public facilities located in the Coastal High Hazard Area that can be replaced over a twenty (20)-year period.			X					This Policy is repetitive of other Policies under this Objective and is proposed to be deleted. There are no capital plans to replace any existing public facilities in the Coastal High Hazard Area.
POLICY 1.2.5.	Further development of facilities located in the Coastal High Hazard Area shall be discouraged excluding beach-related capital facilities, including, but not limited to, access ramps and pedestrian walkways.			X					This Policy is repetitive of other Policies under this Objective and is proposed to be deleted. There are no capital plans to replace any existing public facilities in the Coastal High Hazard Area.
OBJECTIVE 1.3. CONCURRENCY MANAGEMENT SYSTEM	The City shall continue to implement and periodically review its concurrency management system. The concurrency management system shall ensure the management of the land development process in a way that public a facility needs identified within plan Elements and are provided as needed but not in excess of the City’s financial capacity to operate such facilities.		X

			Keep	Delete	New	Replace	Move		Modify
Capital Improvements Element, February 18, 2025									
POLICY 1.3.2.	The City shall use the following level-of-service standards to determine the impacts of new development and redevelopment upon public facility provision: a. Fire Fighting: All development having a density equivalent to or greater than one (1) unit per acre shall be served by a public/private central water system capable of delivering the required fire flows having adequate firefighting capacity of a minimum of 500 gpm <u>gallons per minute (gpm)</u> or greater as determined by the Chief Fire Official in conjunction with the City Engineer (or its equivalent where a sprinkler system is used) and minimum 20 <u>pounds per square inch (psi)</u> residual for a minimum two- (2-) hour duration depending upon the specific structure and/or use. Single-family home development at less than one (1) unit per acre or less, or other development of equivalent intensity (e.g., average daily water use of less than 300 gpd <u>gallons per day</u> per acre), may be served by an individual well. All required fire flows will be in addition to the peak daily demand established. b. Parks (acres per population): 13 acres per 1,000 population.							X	Level of Service standards for water and sewer were updated with the Water Supply Work Plan. Solid Waste Level of Services updated per recommendation of Public Works. Spelled out acronyms. Hyphenated level-of-service

	A capital facilities recovery fee to develop lands dedicated by developers to meet the acreage level_of_service standards shall be pursued. The recovery fee may be either assessed to the developer of the subdivision or the builder of the home in the form of an impact fee. Subdivisions which provide private recreation lands and facilities shall be provided a credit against the land dedication and capital facilities recovery fee. c. Roads: The following level_of_service standards are adopted for roadways Citywide: <table><tr><td rowspan="4">City County State</td><td><u>LOS Level-of-Service</u> Daily</td><td><u>LOS Level-of-Service</u> Peak Hour</td></tr><tr><td>C</td><td>D</td></tr><tr><td>D</td><td>E</td></tr><tr><td>C (SIS/FIHS)</td><td>D (TRIP)</td></tr></table>	City County State	<u>LOS Level-of-Service</u> Daily	<u>LOS Level-of-Service</u> Peak Hour	C	D	D	E	C (SIS/FIHS)	D (TRIP)

	rates for the 100-year frequency, 24-hour duration rainfall event shall be retained on-site. Individual development facility capacity shall be maintained so that there is no potential flooding increase above the base year elevation. There shall be no degradation of water quality of Class III waters. An equal or greater volume of storage capacity must be created for any volume of the regulatory flood that would be displaced by fill or structures. The velocity of the regulatory flood must not be adversely altered on any watercourse. Areas not filled are to generally be left in their natural state. However, such areas may be used to meet landscaping and/or retention requirements, provided that the design is consistent with the then-existing City standards and ordinance requirements. Fill limitations consistent with the Land Development Code and the performance standards for each wetland classification established by the Conservation Element shall be enforced for all developments lying within areas of special flood hazard, as defined by the 100-year floodplain boundaries of the FEMA Federal Emergency Management Agency FIRM Flood Insurance Rate Map-maps.								
POLICY 1.3.3.	The City shall maintain provisions in the Land Development Code that will ensure that, at the time a development order is issued, adequate facility capacity		X

			Keep	Delete	New	Replace	Move	Modify	
Capital Improvements Element, February 18, 2025									
	is or will be available when needed to serve the development.								
POLICY 1.3.4.	The City shall evaluate proposed plan amendments and requests for new development based on the following guidelines: a. Creates potential public hazard. b. Accentuates any existing facility deficiencies. c. Generates public facility demands that could be accommodated by scheduled capacity increases in the capital improvements schedule. d. Conforms with the Future Land Use Map (Future Land Use Element) and service areas (Utilities Element). e. Affects other agencies’ facilities plans. f. Conforms to the Conservation Element’s policies for natural resource protection. g. Conforms to the Coastal Management Element’s policies for limiting specific and cumulative impacts of development or redevelopment upon wetlands, water quality and quantity, wildlife habitat, living marine resources, and beach and dune systems. h. Minimizes impacts to surrounding jurisdictions.		X						
OBJECTIVE 1.4 IMPACT AND CONNECTION FEES	Future development projects shall pay their fair share of the cost of providing facilities and services required to maintain adopted level-of-service	163.31801						X	With the impact fee update, water and sewer fees were amended to connection fees.

Capital Improvements Element, February 18, 2025									
	standards as specified in the Land Development Code. <u>Impact and connection</u> fees, developer dedications and contributions shall be required in an amount equal to the cost of the infrastructure required to serve the development.								
POLICY 1.4.1.	Recreation impact fees shall be continued and refined as needed to adequately maintain adopted LOS <u>level-of-service</u> standards.							X	Spell out level-of-service
POLICY 1.4.2.	Water and sewer impact <u>connection</u> fees shall be periodically reviewed and adjusted as needed to <u>in accordance with Florida Statutes to</u> assure that revenues are equal to growth-related capital expenditures, and to adequately maintain adopted LOS <u>level-of-service</u> standards.							X	Amended impact to connection fee. Fee reviews require a study in accordance with Florida Statutes. Also, to spell out level-of-service.
POLICY 1.4.3.	The City shall annually review the fee schedules of all impact fee ordinances and adjust the fee schedules to reflect the pro-rata share of costs needed to finance improvements necessitated by new development.			X					Impact fees cannot be updated with cost of living increases based on changes to state law. The fees require studies per state law requirements. Proposed to be deleted.
POLICY 1.4.4. <u>POLICY 1.4.3.</u>	The City shall continue to require that developers build water, sewer and reclaimed water infrastructure, local streets and internal collectors and provide off-site improvements needed for their development including but not limited to acceleration/deceleration lanes, turning lanes and traffic signals. Such improvements shall not be eligible for impact fee reimbursements.							X	Deleted last sentence – traffic improvements may be eligible for impact fee credits. Renumbered.
OBJECTIVE 1.5 FISCAL RESOURCES	The City shall manage its fiscal resources to ensure the provision of needed capital improvements for	163.3177	X

	previously issued development orders and for future development and redevelopment.								
POLICY 1.5.1.	In providing capital improvements funded by general obligation bond issues, the City shall limit outstanding indebtedness to no greater than five (5%) percent of its property tax base.		X						
POLICY 1.5.2.	The City shall continue to adopt an annual capital budget and a five (5)-year capital improvement program as part of its budgeting process.		X						
POLICY 1.5.3.	The City shall continue its efforts to secure State or Federal grants or private funds whenever available for capital improvements financing, through actively seeking and applying for grants and, if required, providing matching funds for grants.		X						
POLICY 1.5.4.	Prior to scheduling any referenda to finance capital projects, the City shall make every effort to identify alternative funding sources.		X						
POLICY 1.5.5.	Prior to the issuance of Certificates of Occupancy, the City shall provide for all public facilities needed to serve developments for which development orders were previously issued.		X						
POLICY 1.5.6.	The Capital Improvements Element will be financially feasible in accordance with state law.			X					This requirement has been removed from Florida Statute. Proposed to be deleted.
POLICY 1.5.7. <u>POLICY 1.5.6.</u>	If a Capital improvement is needed to maintain a level of service standard, then new development will be required to contribute its fair share toward the improvement.							X	Renumbered.

Intergovernmental Coordination Element, February 18, 2025									
	discourage urban sprawl adjacent to or near the City’s urban fringe.								participate with the League of Cities. Once again I am very concerned with the direction the city is taking with this 2045 Comprehensive Plan update as it will lead the city down a very slippery slope. I cannot stress enough I do not think the 2045 Comprehensive Plan should be any more than is legally mandated by the state a bare bones document. Note: staff has removed reference of coordination with Volusia League of Cities based on public comment.
POLICY 1.7.5.4	The City shall work cooperatively with Flagler County, adjoining cities, and Volusia County to ensure that development in the upstream portions of the Tomoka River watershed does not adversely impact water quality of the Tomoka River.							X	No change to text. Re-number policy.
POLICY 1.7.6.	The City shall resolve annexation issues through its active participation in the Volusia Growth Management Commission.			X					Volusia Growth Management Commission (VGMC) reviews land use changes, and does not review annexations.
OBJECTIVE 1.8. TRAFFIC CIRCULATION	The City shall continue to coordinate its transportation plans with Federal, State, regional, and local agencies in order to maintain the adopted level-of-service.		X						No change

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Intergovernmental Coordination Element, February 18, 2025									
POLICY 1.8.1.	The City shall continue to coordinate transportation planning and the provision of transportation facilities with the appropriate public agencies to the maximum extent feasible.		X						No change
POLICY 1.8.2.	The City shall continue to coordinate and cooperate with the <u>Federal Aviation Administration</u> FAA and <u>the Florida Department of Transportation</u> FDOT to operate the Ormond Beach Municipal Airport.							X	Removal of acronyms
POLICY 1.8.3.	The City shall coordinate its transportation planning with Volusia County 2035 Long Range Transportation Plan (VCLRTP) , <u>the Transportation Planning Organization MPO</u> , Volusia County, <u>the Florida Department of Transportation</u> FDOT , Votran, VCOG , and other appropriate agencies to the maximum extent feasible.							X	Connect 2045 Long Range Transportation Plan (LRTP) is a plan of/from the Transportation Planning Organization. Coordination should occur with the agency and not the specific document. Removal of acronyms and update to Volusia League of Cities, Volusia Council of Governments was dismembered in 2012. Public comment: Again The League of Cities has been actively involved in promoting the New Green Deal, a comprehensive plan aimed at addressing climate change and economic inequality. How can the city think this is an appropriate agency to work with. AN organization that has its own agenda. Note: staff has removed reference of coordination with Volusia League of Cities based on public comment.

Intergovernmental Coordination Element, February 18, 2025									
POLICY 1.8.4.	The City shall coordinate proposed transportation Level-of-Service Standards with <u>the Florida Department of Transportation</u> FDOT and adjacent local government jurisdictions.							X	Removal of acronyms
POLICY 1.8.5.	The City shall continue to request <u>support</u> that the County collect and disburse transportation impact fee funds in impact fee zones that are designed to ensure that the payer of the fee is in fact the benefactor of the fee.							X	Volusia County is already doing this and the city supports it.
POLICY 1.8.6.	The City shall develop in association with Votran and the Volusia County Metropolitan <u>Transportation</u> Planning Organization multi-modal strategies that <u>seek to</u> reduce vehicle-miles traveled.							X	Organization is now Transportation Planning Organization (TPO)
POLICY 1.8.7.	Ormond Beach will support proposed TCEAs for road corridors east of Interstate 95 in the adjacent jurisdiction of The City of Daytona Beach when such TCEAs include multi-modal transportation strategies that are complementary to the City's TCEAs.			X					Daytona Beach has made decisions on their Transportation Concurrency Exception Areas.

X	State has changed name of program to Cultural Endowment Program which is through the Florida Division of Arts and Culture
POLICY 1.3.3.	The City shall continue to financially support the cultural activities and programs offered by the Leisure Services <u>Parks and Recreation</u> Department.							X	Modify name of Leisure Services to Parks and Recreation – City Commission Workshop on 02.04.2025
POLICY 1.3.4.	The City shall continue to pursue outside funding sources by monitoring on an on-going basis, the availability of cultural and historical <u> grants and funds</u> . Applications shall be submitted in a timely manner to ensure procurement and proper outside agency review.							X	Update language.
POLICY 1.3.5.	A user fee system shall continue to be an integral and vital component of the overall funding mechanism for cultural and historical <u> programs and events</u> . The following criteria shall apply in implementation of this policy:							X	Update language.

Goals, Objectives, Policies		Recommended Action							Explanation/Modification
		FL Statute Citation	Keep	Delete	New	Replace	Move	Modify	
Cultural and Historical Resources Element, February 18, 2025									
	a. The fee shall be reasonably established and shall not restrict access on the basis of affordability. b. The City shall periodically review the fee structures of other local government jurisdictions as a basis for determining the equity of the fee structure. c. Reasonable fees shall be established for the use of all City facilities based on the type of event, the particular facility and the expected number of people of attending. d. Fees shall be established, as necessary, for cultural programs such as dance, ballet, arts and crafts but shall not be established for admission into the <u>Ormond</u> Memorial Art Museum’s Malcolm Fraser Art Exhibit. e. The fee schedule shall be reviewed and updated on an annual basis.								
OBJECTIVE 1.4. SENIOR PROGRAMS AND FACILITES	The City shall operate <u>continue to facilitate</u> a senior citizen program and maintain a senior center facility that offers a diversity of activities and events to meet the full range of user interests.							X	Update language because the Council on Aging runs the program.

Cultural and Historical Resources Element, February 18, 2025								
POLICY 1.4.1.	The City, through the Leisure Services Parks and Recreation Department, shall provide services designed to increase community involvement and to improve employment cultural, historical, and recreational opportunities for the elderly.							X Updated language because the City does not provide employment opportunities for the elderly. HLPB discussion item. Discussion item resident comment: Should not the purpose of the Leisure Services department be leisure not finding the elderly employment opportunities? I find this policy needs to be modified or better yet deleted. Modify name of Leisure Services to Parks and Recreation – City Commission Workshop on 02.04.2025
POLICY 1.4.2.	The City shall, in cooperation with the Volusia County School Board, support efforts to increase the participation of the elderly in education and social service programs serving children.			X				 Proposed to be deleted, the Volusia County School Board is responsible for this effort and the council on aging runs the senior program. HLPB discussion item. Discussion item resident comment: Again why is the cultural and historical element of this plan going to work with the Volusia County School Board to increase the participation of the elderly or social service programs serving children ? As a member of the Special populations as defined above I find this policy in great need of modification or better yet be deleted.

INTERGOVERN- MENTAL COORDINATION									
POLICY 1.6.1.	Coordination shall be maintained with the State in the development of a strategy for the construction of arts facilities based on a City assessment of needs and capabilities. This shall be accomplished with the City assessment pursuant to <u>the Parks and Recreation Element Policy 1.1.95</u> . The following minimum criteria and procedures shall be adhered to in the implementation of this policy: a. Maintain an inventory of existing facilities, to include stage size, seating capacity, and display areas, which currently provide access to cultural activities. b. Develop criteria and procedures for evaluating and determining the locations, extent, and types of public need for additional facilities to provide public access to cultural activities and performances. c. Develop a strategy to encourage the renovation of existing facilities which show potential for future use in providing increased public access to cultural activities; and the construction of new facilities, as determined by need, which will provide additional public access to cultural activities. d. Develop a strategy for the identification and/or establishment of financial mechanisms necessary for the construction of arts and cultural activities. Cultural and Historical Resources Element, February 18, 2025									
	e. Develop a strategic plan based on the adopted Parks and Recreation Master Plan Study as it relates to cultural and historical services events, programs, and classes.								
POLICY 1.6.2.	The City shall strive to expand and strengthen organizational ties with outside agencies and the private sector. Increased emphasis shall be placed on financial support from the general public and the private sector to assist in the provision of increased cultural and historical opportunities in the region, so as to accomplish: a. An increased frequency of cultural and historical events; b. A reduction in participatory costs or greater availability of scholarships so that cultural and historical events are economically accessible to the region’s population; and c. Enhanced identification, preservation and use of historical properties and resources.							X	Update language.
OBJECTIVE 1.7. HISTORICAL RESOURCES	Historical resources listed on, or eligible for listing on the Florida Master Site File, or <i>National Register of Historic Places</i> shall be taken into consideration in development projects, with such programs and activities being implemented in a manner sufficient to protect and ensure the protection and preservation of historical and archaeological resources. 	enrollment, unrelated to new development approvals, can and do occur, and that students enrolling in their assigned school will be accepted consistent with the School District Board’s constitutional obligations regardless of the utilization levels at the assigned school.								Update policy numbering. POLICY 2.1.4.	
POLICY 2.1.6 <u>POLICY 2.1.5.</u>	If there is a consensus to amend any level_of-service, the amendment shall be accomplished by execution of an amendment to the interlocal agreement by all parties and the adoption of amendments to each local government’s Comprehensive Plan. The amended level_of-service shall not be effective until all plan amendments are effective and the amended interlocal agreement is fully executed. No level_of-service standard shall be amended without showing that the amended level_of-service standard is financially feasible and can be achieved and <u>maintained within the facilities five year work plan.</u> five years of the capital facilities plan.							X	Updated language to be consistent with Volusia County School Board language. Update policy numbering. POLICY 2.1.5. Hyphenated “level-of-service”	
OBJECTIVE 2.2. SCHOOL CONCURRENCY SERVICE AREAS	The City of Ormond Beach shall establish School Concurrency Service Areas as the area within which an evaluation is made of whether adequate school capacity is available based on the adopted level-of-service standard. Maps of the School Concurrency Service Areas are adopted in the Volusia County Interlocal Agreement for Public School Facilities Planning.							X	Hyphenated level-of-service	
POLICY 2.2.1.	The concurrency service area for elementary schools shall be the elementary school attendance		X

			Keep	Delete	New	Replace	Move		Modify
Public School Facilities Element – February 18, 2025									
POLICY 2.2.7.	Amendments to the School Concurrency Service Areas shall be completed according to the procedures specified in the Volusia County Interlocal Agreement for School Facilities Planning. Amendments to concurrency service areas shall consider the following criteria: 1. Adopted level_of-service standards shall not exceed the level_of-service standard within the initial five-year planning period. 2. The utilization of school capacity is maximized to the greatest extent possible taking into account transportation costs, court approved desegregation plans, proximity to schools, ethnic and socio-economic diversity, subdivisions and neighborhoods, demographic changes, future land development patterns, crossing guard availability and other relevant factors.							X	Hyphenated level-of-service.
POLICY 2.2.8.	Within the central concurrency service areas, all current and future students shall be assigned to schools designated for them as part of the School District Board’s normal school assignment procedures. Requests for development orders for new development consistent with the future land use designations and existing residential zoning densities shall be evaluated for concurrency based on the assigned school and that school’s concurrency service area. If adequate capacity is not available in the assigned concurrency service area, the proposed development shall be evaluated in comparison to the concurrency service areas							X	Replace District with Board. Clarify element related to Policy 2.3.7.

	adjacent to the assigned concurrency service area, subject to the limitations of Policy 2.3.7. <u>of this Element</u> . The School district Board shall maintain a listing of assigned and adjacent concurrency service areas for each central school concurrency service area.								
POLICY 2.2.9.	Requests to develop properties within the central school concurrency service areas at residential densities and intensities greater than the current land use or zoning designations shall be done via a e-Comprehensive p-Plan a-Amendment consistent with the Volusia County Charter Section 206 regarding school planning. The e-Comprehensive p-Plan a-Amendment shall demonstrate how school capacity will be met consistent with the terms of the First Amendment to the Interlocal Agreement for Public School Facility Planning effective July 2007 and Section 206 of the Volusia County Charter Section 206 . If the project area is to be annexed by a municipality, the e-Comprehensive p-Plan a-Amendment shall include an amendment of the central concurrency service area boundary by Volusia County to exclude the subject parcel.							X	Delete reference to Section 206. Capitalized Comprehensive Plan Amendment
OBJECTIVE 2.3. PROCESS FOR SCHOOL CONCURRENCY IMPLEMENTATION	In coordination with the School Board, the City of Ormond Beach will establish a process for implementation of school concurrency which includes applicability and capacity determination, availability standards and school capacity methods. The City of Ormond Beach shall manage the timing of residential subdivision approvals and site plans to ensure adequate school capacity is available consistent							X	Hyphenated level-of-service.

	with the adopted level-of-service standards for public schools.							
POLICY 2.3.1.	School concurrency applies to residential development not otherwise exempt as specified by Policy 2.3.3. <u>of this Element.</u>							X Clarify element related to Policy 2.3.3.
POLICY 2.3.2.	Development orders may be issued for residential development where: 1. Adequate school capacity, as determined by the School Board, exists or will be under construction for each level of school in the affected concurrency service area within three years after the issuance of the development order allowing the residential development. 2. Adequate school facilities, as determined by the School Board, are available within an adjacent concurrency service area subject to the limitations of Policy 2.3.7. <u>of this Element.</u> Where capacity from an adjacent concurrency service area or areas is utilized, the impacts of development shall be shifted to that area. If capacity exists in more than one concurrency service area or school within a concurrency service area, the School District Board shall determine where the impacts of development shall be allocated based on the School District Board policies for student assignment. 3. The developer executes a legally binding commitment with the School Board and the City of Ormond Beach to provide mitigation proportionate to the demand for public school							X Replace District with Board Clarify element related to Policy 2.3.7. 	occupancy by a resident under the age of fifty-five. Such deed restrictions must be recorded and be irrevocable for a period of at least thirty years. 5. Group quarters that do not generate students including residential facilities such as jails, prisons, hospitals, bed and breakfast, hotels and motels, temporary emergency shelters for the homeless, adult halfway houses, firehouse dorms, college dorms exclusive of married student housing, and religious non-youth facilities.								
POLICY 2.3.4.	The creation of subdivisions and/or single-family lots equal to or less than ten units shall be subject to school concurrency as part of an annual concurrency management review <u>or provide a letter of exemption from the School Board.</u> The City of Ormond Beach shall report such projects to the School Board as part of the annual planning coordination process established by the interlocal agreement and these units shall be included by the School Board in planning student allocations by school.							X	Added additional language.
POLICY 2.3.5.	The City of Ormond Beach shall continue to implement the school concurrency ordinance (Ord. 2-8-3 <u>2008-25</u>), which establishes the application procedures and process for evaluating school capacity and making concurrency determinations consistent with the provisions of the interlocal agreement.							X	Modify Ordinance number from 2-8-3 to 2008-25.

			Keep	Delete	New	Replace	Move	Modify	
Public School Facilities Element – February 18, 2025									
POLICY 2.3.6.	The School Board shall conduct a concurrency review that includes findings and recommendations of whether there is adequate capacity to accommodate proposed development for each type of school within the affected concurrency service area consistent with the adopted level_of-service. The School Board may issue a Certificate of School Concurrency if sufficient capacity exists for the proposed development or the School Board may set forth conditions required to satisfy the requirements of school concurrency including proportionate share mitigation.							X	Hyphenated level-of-service
POLICY 2.3.7.	If the adopted level_of-service standard cannot be met within a particular concurrency service area as applied to an application for a development order and if the needed capacity is available in one or more contiguous concurrency service areas, then this capacity shall be applied to the concurrency evaluation of the application for development approval subject to the following limitations: 1. Areas established for diversity at schools shall not be considered contiguous. 2. Concurrency service areas generating excessive transportation costs shall not be considered contiguous. Excessive transportation costs are defined as transporting students, requiring a transport time of fifty minutes one-way as determined by School District Board transportation routing staff.							X	Hyphenated level-of-service Replace District with Board Remove (Refer to graphic examples.) on #3.

Goals, Objectives, Policies		FL Statute Citation	Recommended Action					Explanation/Modification

	3. Concurrency service areas shall not be considered contiguous when the concurrency service areas are separated by a natural or man-made barrier such as a river, waterbody or interstate highway that requires indirect transport of students through a third concurrency service area. (Refer to graphic examples.) 4. When capacity in an adjacent concurrency service area is allocated to a development application, assignment of the students to the school with available capacity may be accomplished by applying any of the techniques used to establish school attendance zones, including modification of existing attendance zone boundaries or creation of island zones. 5. Student transportation not in conformance with the conditions established in Items 1 through 4 above shall be permitted to allow student assignments based on specific educational programming options; to comply with State and Federal mandatory transfer opportunities; or for other transfer opportunities that the School Board shall deem appropriate for the specific circumstances of an individual student.							

Goals, Objectives, Policies		FL Statute Citation	Recommended Action						Explanation/Modification
			Keep	Delete	New	Replace	Move	Modify	
Public School Facilities Element – February 18, 2025									
POLICY 2.3.8.	If the adopted level of service cannot be met within a particular concurrency service area the School Board may apply one or more of the following techniques to maximize use of available capacity and provide for adequate numbers of student stations to meet current and future demand: 1. Construct new school facilities; 2. Construct additions to current facilities; 3. Adjust program assignments to schools with available capacity; 4. Modify attendance boundaries to assign students to schools with available capacity; 5. Eliminate variances to overcrowded facilities that are not otherwise restricted by State or Federal requirements.		X						
OBJECTIVE 2.4. PROPORTIONATE SHARE MITIGATION	The City of Ormond Beach shall provide for mitigation alternatives that are financially feasible and will achieve and maintain the adopted level-of-service standard consistent with the School Board’s adopted financially feasible work program.							X	Hyphenated level-of-service
POLICY 2.4.1.	In the event that sufficient school capacity is not available in the affected concurrency service area, the developer shall have the option to propose proportionate share mitigation to address the impacts of the proposed development.		X

			Keep	Delete	New	Replace	Move	Modify	
Public School Facilities Element – February 18, 2025									
POLICY 2.4.2.	Mitigation shall be directed toward a permanent capacity improvement identified in the School Board’s financially feasible work program, which satisfies the demands created by the proposed development consistent with the adopted level_of-service standards.							X	Hyphenated level-of-service
POLICY 2.4.3.	Mitigation shall be directed to projects on the School Board’s financially feasible work program that the School Board agrees will satisfy the demand created by the proposed development approval and shall be assured by a legally binding development agreement between the School Board, the City of Ormond Beach, and the applicant which shall be executed prior to the City of Ormond Beach issuance of the subdivision or site plan approval. If the School Board agrees to the mitigation, the School Board shall commit in the agreement to placing the improvement required for mitigation in its work plan.		X						
POLICY 2.4.4.	The applicant’s total proportionate share obligation shall be based on multiplying the number of needed student stations generated from the proposed project times the School Board’s current cost per student station plus land cost for each type of school. The applicant’s proportionate share mitigation obligation shall be credited toward any impact fee or exaction fee imposed by local ordinance for the same need on a dollar-for-dollar basis. (For example, if the proportionate share mitigation provides only for land, the credit is applied only against that portion of the impact fee or other exaction devoted to land costs).		X

POLICY 2.4.5.	The student generation rates used to determine the impact of a particular development shall be the student generation rates adopted in the most recent school impact fee study.		X						
POLICY 2.4.6.	The cost per student station shall be the most recent actual costs per student station, and capitalization costs if applicable, paid by the School Board for the equivalent school facility.		X						
POLICY 2.4.7.	Mitigation options must consider the School Board’s educational delivery methods and requirements and the State Requirements for Educational Facilities and may include, but not be limited to, the following: 1. Donation of buildings for use as a primary or alternative learning facility; 2. Renovation of existing buildings for use as learning facilities; 3. Funding dedicated to, or construction of, permanent student stations or core capacity; 4. For schools contained in the School Board’s adopted five-year capital facilities work program, upon agreement with the School Board, the applicant may build the school in advance of the time set forth in the five-year work program; 5. Dedication of a school site as approved by the School Board; 6. Up front lump sum payment of school impact fees;		X

COMPREHENSIVE PLAN 2045

CITY OF
ORMOND BEACH, FLORIDA

ATTACHMENT 5: POPULATION PROJECTIONS

Ormond Beach 2045 Population Analysis

Existing population estimates

The 1990 Comprehensive Plan projected a 2010 population of **56,250**. In 2000, the population projection was:

Year	Population Projection	Census population
2010	42,533	38,137
2015	45,951	
2020	48,880	43,080
2025	51,079	

The census provides the city population every ten (10) years. The city utilizes the population estimates from University of Florida Business of Economic and Business Research in non-census years. As detailed in the Municipal Impact Fee Study in 2023, the estimate of persons per household, based on census information, is:

Single-family, persons per household: 2.53

Multi-family, persons per household: 2.05

Mobile Home, persons per household: 1.68

City average, persons per household: 2.33

The following exhibit displays the census population (**in bold**), population estimates from the University of Florida Business of Economic and Business Research, recorded plats, and building permit data based on housing types.

Residential lots in the development process		6,211

Residential development trends depend on several factors, including (1) infrastructure costs, (2) interest rates, (3) demand for housing, and (4) labor to construct infrastructure and residential units. Exhibit 2 details a potential number of residential lots based on the remaining vacant land within Ormond Beach. Additional residential units may occur through the development of other vacant lands or the conversion of existing uses.

Planning staff believes that the vacant inventory provides a basis for residential population projections. Exhibit 4, population projection, assumes an average of 200 single-family residential units per year, four multi-family developments during the twenty-year planning period, and the build-out of the manufactured homes with Plantation Oaks, Phase 2.

2. General growth rate. Exhibit 4 includes a general growth rate of 0.5% to include general population shifts and residential development projects not included in the 6,180 residential lots in the current development process.
3. Historical growth rate. Ormond Beach has had a historical growth of 1.27% over the last fourteen years. The city has experienced a moderate rate of residential development, which is expected to increase with the buildout of the land area around Plantation Oaks Boulevard, which was annexed from Volusia County. The Ormond Crossings project (2,950 residential units) is expected to commence construction within the twenty-year planning period.
4. Volusia County population growth. Exhibit 4 details the population of Ormond Beach and Volusia County. In 2020, Ormond Beach's population was 7.78% of Volusia County's population. In 2045, Ormond Beach is expected to be approximately 9.14% of the Volusia County total population.

Exhibit 3: Projected Ormond Beach and Volusia County population

Year ⁽¹⁾	Ormond Beach Population	Percentage Change, Ormond Beach	Volusia County Population ⁽²⁾	Percentage Change, Volusia County

COMPREHENSIVE PLAN 2045

CITY OF
ORMOND BEACH, FLORIDA

ATTACHMENT 6: DEVELOPMENT ACTIVITY

Annexations, 2010 to 2024

By the numbers:

- 68 properties annexed from 2010, totaling 1,682.71 acres.
- 52 properties from 2010 to 2019, totaling 401.85 acres.
- 16 properties from 2020 to 2024, totaling 1,280.86 acres.
- 45 properties, or 66% of all annexations, occurred along the North US 1 corridor.
- 7 properties along the Williamson Boulevard corridor, including the developed apartment complexes of San Marco and Crown Pointe.
- 3 subdivisions annexed. These include Chelsea Place, which was partially developed, Plantation Oaks, and RidgeHaven, which are both undeveloped.

Annexations typically occur as properties connect to the city utilities.

2010-2019:

On September 7, 2010, with Resolution 2010-131, Ormond Beach initiated the process to create an Interlocal Service Boundary Agreement (ISBA) area established by Chapter 171, Part II, Florida Statutes, along the North U.S. Highway 1 corridor. From 2010 to 2014, 22 annexations occurred along the North U.S. Highway 1 corridor. On August 19, 2014, Ordinance 2014-27 approved the Interlocal Service Boundary Agreement with Volusia County regarding the North U.S. 1 Joint planning area. The Ordinance approved a Planning and Services Delivery Sub-Agreement and itinerant vendor criteria. Ormond Beach took control of land use planning, zoning, permitting, and code enforcement of the Interlocal Service Boundary Agreement for properties along the North U.S. Highway 1 corridor within Ormond Beach and unincorporated Volusia County.

Other areas of annexation included the Williamson Boulevard corridor, which included seven (7) annexations. These properties included two (2) developed apartment complexes, a post office, and retail uses. In 2013, the city annexed the Chelsea Place subdivision, which had been partially developed in Volusia County.

2020-2024:

The city annexed Plantation Oaks (1,055 acres) as part of the first ISBA amendment based on utility connections. The RidgeHaven subdivision (103 acres) was the second ISBA amendment that was annexed. Other notable annexations included 350 Clyde Morris Boulevard, later developed for an assisted living facility, and 860 Hull Road for an office expansion at Halifax Paving.

Comprehensive Plan amendments, 2010 to 2024

By the numbers:

- 2010-2019, 55 land use map amendments to the Comprehensive Plan.
- 2010-2019, 15 text amendments to the Comprehensive Plan.
- 2010-2019, 23 land use map amendments within the North US 1 corridor.
- 2020-2024, 16 land use map amendments to the Comprehensive Plan.
- 2020-2024, 10 text amendments to the Comprehensive Plan.

Comprehensive plan amendments can be one of three types:

1. Land Use Map amendment (small scale) under 10 acres (later amended by the state to be under 50 acres);
2. Land Use Map amendment (large scale) over 10 acres (later amended by the state to be under 50 acres); and
3. Amendment to text (Goals, Objectives, Policies, or tables/figures) of the Comprehensive Plan.

2010-2019:

From 2010 to 2014, 22 small-scale land use map amendments were in the North US 1 corridor. Many of these properties were developed and annexed from Volusia County. With the adoption of the Interlocal Service Boundary Agreement (ISBA) in 2014, a Comprehensive Plan amendment was performed in 2015 that assigned city land uses to all properties within the ISBA. In 2014, there were land use map amendments for properties along the Williamson Boulevard area that had been annexed into Ormond Beach. Other notable land use map amendments include:

1. Shoppes on Granada, vacant land annexed into Ormond Beach for retail development. Comprehensive Plan Ordinances 2013-59 and 2017-07.
2. 100 North Halifax Drive, redevelopment of a church to a townhome development. Comprehensive Plan Ordinance 2016-45.
3. Granada Pointe, stormwater area. The land use map has been amended from "Low-Density Residential" to "Open Space/Conservation" and "Residential, Office, Retail." Comprehensive Plan Ordinance 2016-06.

There were 15 text amendments to the Comprehensive Plan. Notable amendments include:

1. Capital Improvement Element annual updates;
2. Amendments to implement the Interlocal Service Boundary Agreement. Comprehensive Plan Ordinance 2014-42.
3. Amendment of the "Office/Professional" land use to the "Residential, Office, and Retail" land use. Comprehensive Plan Ordinance 2015-01.

Comprehensive Plan amendments, 2010 -2024

4. Amendment to the allowed Floor Area Ratio for buildings within the Downtown Overlay District. Comprehensive Plan Ordinance 2017-20.

2020-2024:

From 2020 to 2024, there were 16 small-scale land use map amendments. Note that the threshold for a small-scale amendment was amended to 50 acres in 2021. Notable land use map amendments include:

1. 135 North Yonge Street, Courtyards/Enclave, to allow an increase in multi-family residential density. Comprehensive Plan Ordinance 2019-23.
2. 350 Clyde Morris Boulevard, Paradise Pointe, based on annexation to allow a "Residential, Office, Retail" land use. The site was developed into an assisted living facility. Comprehensive Plan Ordinance 2020-46.
3. Interlocal Service Boundary Agreement amendments: Plantation Oaks (1st amendment) and RidgeHaven (2nd amendment) for residential subdivisions. Comprehensive Plan Ordinances 2019-43 and 2022-12.

From 2020 to 2024, there were 10 text amendments. Notable text amendments include:

1. Required text amendments: (a) Property rights element, Ordinance 2021-44, (b) Peril of Flood, Ordinance 2022-37, (c) Water Supply Work Plan, Ordinance 2024-08.
2. Interlocal Service Boundary Agreement amendments: (a) Plantation Oaks, Ordinance 2019-43, and (b) RidgeHaven, Ordinance 2022-12.
3. Clarification of annexation policies, Future Land Use Element, Ordinance 2020-03.

Multi-Family Residential Development

By the numbers:

- 3 Multi-family developments constructed from 2010 – 2024.
- 212 multi-family units constructed from 2010 – 2024.

2010-2019:

In 2010, two multi-family projects were constructed:

1. Madison Glen, 570 Sterthaus Drive, 96 units (senior housing).
2. Olive Grove, 765 West Granada Boulevard, 88 units.

In 2018, the first building consisting of 28 units was constructed within the Ormond Renaissance Condominium project. The project has a total of 280 multi-family units approved in ten (10) buildings.

2020-2024:

There have been no multi-family projects constructed from 2020 to 2024.

CITY LIMITS (2024)

Map ID	Year	Address	Project Name	Use	Type	Units or Square Footage
1	2010	570 Sterthaus Drive	Madison Glen	Multi-Family	New	96 units
2	2010	765 West Granada Boulevard	Olive Grove	Multi-Family	New	88 units
3	2018	799 Sterthaus Drive	Ormond Renaissance Condo (Building 1C)	Multi-Family	New	28 units

Residential Development, Platted Lots

By the numbers:

- 1980-1989, 2,475 lots platted.
- 1990-1999, 1,952 lots platted.
- 2000-2009, 1,261 lots platted.
- 2010-2019, 502 lots platted.
- 2020-2024, 569 lots platted.

Subdivision construction requires platting (preliminary and final plats). Final plats are approved by the city and recorded with the Volusia County Clerk of the Court. After recording a final plat, the platted lots can be sold, and residential units can be constructed. The platted lots provide an inventory of available lots to be constructed with a building permit.

2010-2019:

No residential plats were recorded from 2010 to 2013. The River Oaks subdivision (101 lots) was platted in 2014 and 2016, and the Deer Creek subdivision (98 lots) was platted in 2015 and 2016. The annexed lands of the Chelsea Place subdivision (65 lots) and the Gardens at Addison Oaks (72 townhome lots) were recorded in 2017. The city-approved planned developments of the Pineland subdivision (114 for 3 phases) and Cypress Trail subdivision (48 lots) were recorded in 2019.

2020-2024:

In 2020, the Pellicer subdivision (5 lots) was recorded. The continued buildout of the Pineland subdivision (78 lots in phases 4 and 5) and the Ormond Grande townhome subdivision (60 lots) were recorded in 2021. In 2023, the Cupola at Oceanside townhome project (12 lots) and the first two subdivisions within Plantation Oaks, Fountain View, Phase 1 (121 lots), and Archer's Mill, Phase 1 (94 lots) were recorded. The following subdivisions were recorded in 2024: RidgeHaven subdivision (286 lots) Archer's Mill, Phase 2 (68 lots), Fountain View, Phase 1B (137 lots) and Archer's Mill, Phase 6 (78 lots). To date, a total of 939 residential lots have been platted from 2020 to 2024.

Multi-Family	3	212 units	0	NA
Office	8	179,230	3	20,348
Parking/ RV & Boat Storage	6	NA	1	NA
Residential (single- family/townhouses)	5	455	16	1,716
Telecommunication Towers	2	NA	0	NA
Transient Lodging	1	124 units	1	125 units

Note: The information in the table above and in the information below are all permitted developments. No approved development that has not been constructed are included.

Commercial: This includes uses such as retail sales, restaurants, restaurants with drive-thru, convenience gas stations, and banks.

2010-2019:

1. There were new and re-constructed gas stations, including (a) RaceTrac (1670 West Granada Boulevard), (b) Wawa (600 West Granada Boulevard), (c) Sunoco's (1546 West Granada Boulevard, 3 North Yonge, and 460 South Atlantic Avenue).
2. The Shoppes on Granada, 1254 through 1298 West Granada Boulevard, developed new retail uses, including an Aldi and a Starbucks.
3. A number of restaurants were constructed, including (a) Jimmy Johns (300 West Granada Boulevard), (b) Zaxby's (1287 West Granada Boulevard), (c) Maria Bonita expansion (196 West Granada Boulevard), (d) Hull's Seafood expansion (111 West Granada Boulevard), (e) Pumphouse redevelopment (124 West Granada Boulevard), and (f) Dunkin' Donuts redevelopment (1535 N. U.S. Highway 1).

Permitted Development Projects, 2010-2024

4. Several banks were constructed, including (a) Chase Bank (75 Shadow Lakes Boulevard), (b) Vystar Credit Union (1301 West Granada Boulevard), and Chase Bank redevelopment (1520 West Granada Boulevard).
5. Multiple properties were redeveloped, including (a) CVS (790 West Granada Boulevard), Dollar General (1545 N. US Highway 1), Starbucks (125 East Granada Boulevard), and Surf Style (600 West Granada Boulevard).

2020-2024:

1. Redevelopments: Publix reconstruction (220 North Nova Road) and Ocean Club redevelopment (88 South Atlantic Avenue).
2. North US1 retail: Ace Hardware (1480 North U.S. Highway 1) new retail sales in the North US 1 corridor.
3. Granada Pointe: Culver's (655 West Granada Boulevard) and IHOP (675 West Granada Boulevard).

House of Worship: This category includes churches.

2010-2019:

Tomoka Christian Church (1450 Hand Avenue) constructed a new facility, and Salty Church (221 Vining Court) performed a significant expansion.

2020-2024:

No activity.

Industrial: This category includes warehousing, manufacturing, and other light industrial uses.

2010-2019:

1. S.R. Perrott (1280 N. U.S. Highway 1) constructed a new facility in 2013 and performed an expansion in 2019.
2. Airport Business Park: (a) E-LAB expansion (8 East Tower Circle), (b) Valiant Diners (15 West Tower Circle), (c) Concentrated Aloe (20 West Tower Circle).

2020-2024:

1. Indoor self-storage: (a) All-Aboard Storage (263 S. Nova Road), (b) All-Aboard Storage (Interchange Depot), (c) Stor-It (1405 N. U.S. Highway 1, and (d) Ormond Central (768 West Granada Boulevard).
2. Airport Business Park: (a) GPR1 (105 Runway Drive), (b) Valiant Diners (15 West Tower Circle, (c) Beach House Graphics (7 East Tower Circle).

Infrastructure, Commercial: This category includes a commercial subdivision where the property is cleared and graded and infrastructure, including stormwater, utilities, common roadways, and landscaping, is constructed.

2010-2019:

1. Granada Point: This project is at 600 West Granada Boulevard.

Permitted Development Projects, 2010-2024

2020-2024:

1. Ormond Central: This project is at 768 West Granada Boulevard.

Institutional: This category includes public facilities such as parks, assisted living facilities, child care centers, and other governmental facilities.

2010-2019:

1. Ormond Beach park facilities: Andy Romano Beachfront Park (839 South Atlantic Avenue), the Sports Complex Field House (80 Doug Thomas Way), and the Environmental Discovery Center (601 Division Avenue) were constructed in this timeframe.
2. Assisted Living Facilities: Sarah House (30 Forest Court) and For Our Parents (495 Sterthaus Drive) were constructed.

2020-2024:

1. Assisted Living Facilities: Paradise Pointe (350 Clyde Morris Boulevard) and Revella (1211 West Granada Boulevard) were constructed.
2. Art Museum: performed a major redevelopment at 78 East Granada Boulevard.
3. Ormond Beach park facilities: South Ormond Neighborhood Center (176 Division) added a gymnasium.

Multifamily: This category includes multi-family developments.

2010-2019:

1. Madison Glen (570 Sterthaus Drive) – 96 units, senior housing.
2. Olive Grove (765 West Granada Boulevard) - 88 affordable/attainable housing units.
3. Ormond Renaissance Condominium (799 Sterthaus Drive) 28 units (one of ten buildings) – new multifamily.

2020-2024:

No activity.

Office: This category includes offices and medical offices.

2010-2019:

4. Security First (1001 Broadway Avenue) is the first development within Ormond Crossings.
5. Olive Grove (775 West Granada Boulevard) and Realty Pros (900 West Granada) constructed new office facilities.

2020-2024:

1. Complete Cardiology (1240 West Granada Boulevard) and Halifax Paving (860 Hull Road) performed office expansions at existing developed properties.

2. Full-Time Construction (1255 North US Highway 1) constructed a new office building.

Parking and Storage: This category includes stand-alone parking lots and RV & boat storage facilities.

2010-2019:

1. RV & boat parking: Stor-It (99 Portland Street), 146 North Orchard Street, and Total Comfort (1345 N. US Highway 1) constructed new RV and boat storage facilities.
2. Volusia County created an off-beach parking lot at 650 South Atlantic Avenue.

2020-2024:

1. RV & boat parking: 835 Hull Road is in the process of creating RV and boat storage.

Residential Development: This category includes the subdivision infrastructure improvements for single-family and townhome developments. Additional building permits are required for the construction of buildings.

2010-2019:

Residential development in Ormond Beach was slowed based on the economy (2010-2015) and a lack of vacant residential land. River Oaks was approved in Volusia County and annexed into the city based on connections to city utilities. Chelsea Place, Phase 3, also annexed based on a utility connection. Cypress Trails and Pineland subdivisions were planned developments approved later in the decade. A list of the residential developments is provided below:

Subdivision	Lots
Deer Creek, Phase 4	49
River Oaks	101
Chelsea Place	65
Cypress Trails	48
Pineland	192
Total	455

2020-2024:

Ormond Beach annexed the Plantation Oaks subdivision, an approved Development of Regional Impact and Planned Development in Volusia County based upon a connection to city utilities. Other land areas in the Plantation Oaks Boulevard annexed for utility connections included RidgeHaven and Bradford Park. The list below comprises a mix of manufactured homes, townhomes, and various sizes of single-family lots. A list of the residential developments is provided below:

Permitted Development Projects, 2010-2024

Subdivision	Lots
Ormond Grande, Townhomes	60
Plantation Oaks, Phase 2B, Manufactured Homes	125
Cupola, Townhomes	12
Fountain View, Phase 1A	121
Plantation Oaks, Phase 2C, Manufactured Homes	121
Plantation Oaks, Phase 2D, Manufactured Homes	84
Archer's Mill, Phase 1 (Plantation Oaks)	94
Archer's Mill, Phase 2 (Plantation Oaks)	68
Archer's Mill, Phase 5 (Plantation Oaks)	114
Archer's Mill, Phase 6 (Plantation Oaks)	78
RidgeHaven	286
Tides Edge	15
Fountain View, Phase 1B (Plantation Oaks)	137
Bradford Lakes (Plantation Oaks)	80
Bradford Park, Townhomes	180
Fountain View, Phase 1C	141
Total	1,716

Telecommunication Towers: This category includes stand-alone telecommunication towers.

2010-2019:

1. Two telecommunication towers were constructed at 1 South Old Kings Road (now 768 West Granada Boulevard) and 610 South Yonge Street.

2020-2024:

No activity.

Transient Lodging: This category includes hotels and motels.

2010-2019:

1. Extended Stay (275 Interchange Boulevard) was constructed.

2020-2024:

2. Ormond Beach Holdings (251 South Atlantic Avenue) is under construction.

COMPREHENSIVE PLAN 2045

CITY OF
ORMOND BEACH, FLORIDA

ATTACHMENT 7: HOUSING ANALYSIS

Introduction

Based on Chapter 163 of the Florida Statutes, the Housing Element review consists of data and inventory of existing housing and future trends influencing housing provisions within Ormond Beach. This data and analysis uses information from the United States Census Bureau, the American Community Survey (ACS), and the Shimberg Center, Florida Housing Data Clearinghouse.

Population and building permit information

Table 1 displays the census population (**in bold**), population estimates from the University of Florida Business of Economic and Business Research, recorded plats, and building permit data based on housing types.

Table 1: Population and building permit information

Notes:						
1	Population estimates from the University of Florida Business of Economic and Business Research. 1980, 1990, 2000, 2010, and 2020 in bold are from the U.S. Census.					
2	SFH lots plat are taken from the Volusia County Clerk of Court website, http://app02.clerk.org/or_plats/					
3	Single-family, multi-family, manufactured, and mobile home permits from the Ormond Beach Building Department.					

Platted lots by decade

Subdivision construction requires platting (preliminary and final plats). Final plats are approved by the city and recorded with the Volusia County Clerk of the Court. After recording a final plat, the platted lots can be sold, and residential units can be constructed. The platted lots provide an inventory of available lots to be built with a building permit.

2010-2019:

No residential plats were recorded from 2010 to 2013. The River Oaks subdivision (101 lots) was platted in 2014 and 2016, and the Deer Creek subdivision (98 lots) was platted in 2015 and 2016. The annexed lands of the Chelsea Place subdivision (65 lots) and the Gardens at Addison Oaks (72 townhome lots) were recorded in 2017. The city-approved planned developments of the Pineland subdivision (114 for 3 phases) and Cypress Trail subdivision (48 lots) were recorded in 2019.

2020-2024:

In 2020, the Pellicer subdivision (5 lots) was recorded. The continued buildout of the Pineland subdivision (78 lots in phases 4 and 5) and the Ormond Grande townhome subdivision (60 lots) were recorded in 2021. In 2023, the Cupola at Oceanside townhome project (12 lots) and the first two subdivisions within Plantation Oaks, Fountain View, Phase 1 (121 lots), and Archer's Mill, Phase 1 (94 lots), were recorded. The RidgeHaven subdivision (286 lots), Archer's Mill, Phase

2, (68 lots), Fountain View, Phase 1B, (137 lots), Archer's Mill, Phase 6, (78 lots), Bradford Lakes, (80 lots), and Bradford Park, (180 townhome lots).

Table 2: Platted Lots by Decade

Decade	Lots Platted
1980 – 1989	2,475
1990 – 1999	1,952
2000 – 2009	1,261
2010 – 2019	502
2020 – 2024	939

Multi-Family Developments

From 2010 to 2024, there have been three multi-family developments, as shown in Table 3. Madison Glen is affordable/attainable senior housing with 96 units. Olive Grove is a tax-credit affordable housing project with 88 units. Ormond Renaissance Condominium construction was one of ten buildings, totaling 28 units of the allowed 280 units in 2017. There has been no additional construction for the Ormond Renaissance Condominium project.

Table 3: Multi-Family Developments, 2010 to 2024

Project Name	Address	Units
Madison Glen	570 Sterthaus Drive	96
Olive Grove	765 West Granada Boulevard	88
Ormond Renaissance Condo	799 Sterthaus Drive	28

Mobile and Manufactured Homes

Table 6 identifies the mobile home parks and manufactured home communities. A total of 306 additional manufactured home lots have been approved for the Plantation Oaks development, which is completing infrastructure improvements. There are 443 existing mobile homes within mobile home parks and 1,880 manufactured home units in four master-planned communities.

Dwelling Units by Structure Type

The U.S. Census Bureau, American Community Survey, provides residential structures by type. Table 10 provides the residential structure type within Ormond Beach and Volusia County. There are 21,295 residential units within the City of Ormond Beach. Single-family units comprise 65% of the housing unit inventory, the same percentage as Volusia County. As a percentage of the housing totals, Ormond Beach has 18% of the multi-family housing stock, compared to 21% for Volusia County. Mobile and manufactured homes comprise 10% of the Ormond Beach housing inventory, 2% higher than Volusia County.

Table 10: Dwelling Units by Structure

Housing Units by Type	Ormond Beach Units	Percent	Volusia County Units	Percent
Single-Family Detached	13,863	65%	177,760	65%
Single-Family Attached	1,197	6%	10,631	4%
Duplex	341	2%	5,404	2%
Multi-family	3,751	18%	56,696	21%

Source: U.S. Census Bureau. "Selected Housing Characteristics." American Community Survey, ACS 5-Year Estimates Data Profiles, Table DP04, 2022

Housing Age

The U.S. Census Bureau, American Community Survey, provides the year when the residential inventory of the City was constructed. Table 13 shows 62% of the City's housing inventory was constructed from 1970 to 1999. As residential construction occurred, the amount of available vacant land has decreased, as shown from the year 2010 forward. The City has annexed two land areas that will lead to additional residential inventory. The first land area is Ormond Crossings, annexed in 2004, which has a master plan approval for 2,950 residential units. The second land area is Plantation Oaks, annexed in 2015, and surrounding lands that will develop into approximately 2,200 residential units.

Table 13: Dwelling Units by Age of Construction

Year Structured was Built	Ormond Beach Units	Percent	Volusia County Units	Percent
Built 2020 or later	82	0.39%	2,667	0.97%
Built 2010 to 2019	1,050	4.93%	17,502	6.39%
Built 2000 to 2009	3,086	14.49%	46,202	16.87%

Ormond Beach Comprehensive Plan 2045 Survey

Survey Results - Question #2

Ormond Beach Comprehensive Plan 2045 Survey

Survey Results - Question #3

If you feel that there is not enough affordable housing in the city, do you have any thoughts on appropriate solutions?

Subsidize Purchases:

- "Instead of spending the money to build affordable housing complexes...use the funds to subsidize purchases for people who qualify."

Regulate Developers / Avoid New Apartment Complexes:

- "Require developers to provide affordable housing as well as the ones they want approved."
- "An affordable housing trust fund via developer impact fees."
- "Stop building apartments and build housing communities with smaller houses."
- "There is an abundance of homes and way too many apartment complexes."

Utilize Abandoned Properties:

- "Turn former buildings into affordable housing, i.e., former schools, former churches and shopping centers. They can be made into apartments for senior fixed income housing."

Lower Costs for Housing Development:

- "Make it easier to build all kinds of housing with an emphasis on multifamily (apartments, duplexes, triplexes) to drive down costs."
- "Modify the lot size and setback requirements in selected neighborhoods."
- "Stop creating more and more expensive building codes and permits we have to acquire to do basic renovations."

Ormond Beach Comprehensive Plan 2045 Survey

Survey Results - Question #3 Continued

If you feel that there is not enough affordable housing in the city, do you have any thoughts on appropriate solutions?

Incentivize:

- "Collect impact fees from new development to offer subsidies for affordable housing."
- "Incentives for landlords to make housing more affordable."
- "The City should encourage redevelopment and the allowance of density within the city Center."
- "The city should provide incentives to those who are willing to put sweat equity or rehab existing homes that aren't the new construction"

External Solutions:

- "Discussion with other cities Ormond size, that have incorporated affordable housing."
- "Should not be just low income but affordable housing for the middle class as well. We need rent caps especially for those living in a 55 and older community. Florida wages need to go up, people can't afford 2000 and up for rent."

Support Hometown Heroes Program:

- "Keep asking the legislature to appropriate money for Hometown Heroes to make home ownership possible, instead of renting."

Increase Inventory and Variety:

- "Build more homes. More inventory = lower prices."
- "New builds need a variety of price ranges for homes."
- "Tiny homes areas..... with a common space for some gardens."
- "More senior complexes like Madison Glenn would be great."
- "Higher density units to preserve green and forested areas."

Survey Results - Question #2

What are your thoughts on the availability of affordable housing in Ormond Beach

Answered	189
Skipped	7

Comprehensive Plan 2045 Update

Survey Results - Question #3

If you feel that there is not enough affordable housing in the city, do you have any thoughts on appropriate solutions?

Subsidize Purchases:

- "Instead of spending the money to build affordable housing complexes...use the funds to subsidize purchases for people who qualify."

Regulate Developers / Avoid New Apartment Complexes:

- "Require developers to provide affordable housing as well as the ones they want approved."
- "An affordable housing trust fund via developer impact fees."
- "Stop building apartments and build housing communities with smaller houses."
- "There is an abundance of homes and way too many apartment complexes."

Utilize Abandoned Properties:

- "Turn former buildings into affordable housing, i.e., former schools, former churches and shopping centers. They can be made into apartments for senior fixed income housing."

Lower Costs for Housing Development:

- "Make it easier to build all kinds of housing with an emphasis on multifamily (apartments, duplexes, triplexes) to drive down costs."
- "Modify the lot size and setback requirements in selected neighborhoods."
- "Stop creating more and more expensive building codes and permits we have to acquire to do basic renovations."

Answered	80
Skipped	116

Incentivize:

- "Collect impact fees from new development to offer subsidies for affordable housing."
- "Incentives for landlords to make housing more affordable."
- "The City should encourage redevelopment and the allowance of density within the City Center."
- "The city should provide incentives to those who are willing to put sweat equity or rehab existing homes that aren't the new construction."

External Solutions:

- "Discussion with other cities Ormond size, that have incorporated affordable housing."
- "Should not be just low income but affordable housing for the middle class as well. We need rent caps especially for those living in a 55 and older community. Florida wages need to go up, people cant afford 2000 and up for rent."

Support Hometown Heroes Program:

- "Keep asking the legislature to appropriate money for Hometown Heroes to make home ownership possible, instead of renting."

Increase Inventory and Variety:

- "Build more homes. More inventory = lower prices."
- "New builds need a variety of price ranges for homes."
- "Tiny homes areas..... with a common space for some gardens."
- "More senior complexes like Madison Glenn would be great."
- "Higher density units to preserve green and forested areas."

Comprehensive Plan 2045 Update

Survey Results - Question #4

How should Ormond Beach prioritize improving or expanding infrastructure improvements?

Answered 194
Skipped 2

Comprehensive Plan 2045 Update

Survey Results - Question #5

What is one feature or improvement that could be added to Ormond Beach that would improve the quality of life?

Traffic Improvements:

- "Traffic improvements. And PLEASE repaint direction arrows at lights and stop signs."
- "Turn lanes at major intersections."
- "Better traffic flow. Larger bicycle lanes in both directions. Central turn lane in A1A North of Granada."
- "Traffic control on Granada Blvd. Consider lower speed limit."
- "Another bridge to beachside and get rid of the median on Granada there's so much traffic now it's getting ridiculous."

Enhance Parks and Green Spaces:

- "More community gardens."
- "More natural areas, less economic development."
- "Expand park areas with well-maintained sidewalks and exercise areas."
- "Improve the parks we have and purchase more lands for public use when available along the waterfronts."
- "Park expansion with well maintained sidewalks and exercise area."
- "Outdoor covered sitting areas as shelter from sun and rain for walkers."
- "Make a 24-hour basketball gym only accessible to Ormond Beach residents."

Answered	183
Skipped	13

Increase Bike and Pedestrian Infrastructure:

- "More protected bike lanes, wider sidewalks, more crosswalks."
- "A comprehensive bike trail network and more sidewalks."
- "Safer paths AWAY from motor vehicles."
- "More multi-purpose use trails (i.e., bike and walking)."
- "The creation of communities and developments that prioritize the pedestrian and do not require the use of a car."
- "Interconnecting sidewalks and trails, especially along John Anderson and N. Beach St."

Reduce Building and Development:

- "Stop tearing down trees and building so much. The quaint small-town feeling of Ormond is gone."
- "Less development and protect wildlife and greenspace."
- "Stop clear-cutting and require developers to build around existing trees and plant life."
- "STOP BUILDING!!! The growth is out of control."
- "Discourage projects that will negatively impact the history, culture and appeal of OB."

Comprehensive Plan 2045 Update

Survey Results - Question #5 (continued)

What is one feature or improvement that could be added to Ormond Beach that would improve the quality of life?

Upgrade Infrastructure:

- “Expand the sewer system.”
- “Sewer connection from septic to public along A1A.”
- “More medical care facilities.”
- “Bury the Utility Lines....would reap back cost in 3 hurricanes and make enduring a storm much safer and more pleasant.”
- “More commerce and parks west of I-95.”

Preserve the Local Character:

- “No more dense housing (apartments).”
- “Public art, fountains & permanent monuments that pay tribute to our history.”
- “Clean up the North US 1 area.”
- “A community appearance board like some other communities have.”
- “Ormond Beach should prioritize creating a vibrant downtown area along Granada.”

Public Safety:

- “Police enforcement, traffic and appearance, in gated communities. Pay for Ormond Beach police officers need to be equivalent or more to surrounding cities and county.”
- “Removing homeless and panhandlers.”
- “Lighting along beach street sidewalks like Holly Hill & Daytona did.”

Develop Public Spaces and Facilities:

- “Build a community center.”
- “Ormond Beach needs an Event Center.”
- “Consider relocating the library to a waterfront event center.”
- “An indoor public pool.”
- “Continued development of waterfront areas for entertainment / recreation.”
- “Moving the City offices and library and activating that amazing property, views and the riverfront. Ideas would be a hotel and 1st level shops/restaurantsthe hotel could offer boating adventures with the new dock. The Ormond hotel used to offer boating excursions (-: The taxes from this property alone would eventually pay for the move.”
- “Bocce Ball Courts beach side of Halifax River.”
- “Public Parking with Showers and Bathrooms.”
- “Municipal golf course, more adult rec sports leagues.”
- “Availability of the big beach wheelchairs that can be taken into the ocean and provided through advertising of companies. Also, the big sand-free beach access mats that make it accessible to bring a wheelchair onto the beach as well as beach carts.”
- “Inside/outside entertainment such as a top golf, nice bowling center, food hall.”

Survey Results - Question #7

What are the top two priorities that you believe Ormond Beach should focus on over the next 20 years?

1. Traffic Management and Infrastructure Improvement:

- “Traffic congestion, particularly on Granada Avenue.”
- “Enhanced infrastructure, including road expansions, bike lanes, and safer pedestrian routes.”
- “Development to provide adequate infrastructure to prevent overburdening existing systems.”

2. Controlled Development and Preservation of Green Spaces:

- “Slow down residential and commercial development.”
- “Protect small-town charm.”
- “Overdevelopment is leading to loss of green spaces and increased flooding.”
- “Preserve natural areas and existing neighborhoods.”

3. Community and Amenities:

- “Addition of parks and community centers.”
- “Enhanced aesthetic/appeal and mixed use development in the downtown and beachside areas.”

4. Environmental Protection/Conservation:

- “Preserve natural areas including wetlands and trees.”
- “Ensure new developments are preserving open spaces, and managing stormwater runoff and protecting local waterways.”

5. Affordable Housing and Community Needs:

- “More affordable housing options without overcrowding. Some suggest reusing.”
- “Repurpose existing buildings instead of building new ones.”
- “More community spaces, parks, and facilities that cater to families and seniors.”

6. Preserving Character:

- “Charm of Ormond Beach.”
- “Historical resources and small-town feel.”
- “Thoughtful growth that aligns with the values and needs of the residents.”

Survey Results - Question #7 (cont.)

What are the top two priorities that you believe Ormond Beach should focus on over the next 20 years? (Proposed Solutions)

Development Control:

- "Enforce moratoriums on new building."
- "Manage and limit housing growth."
- "Stop overdevelopment and protect green spaces."
- "Maintain low-density development."

Infrastructure Improvements:

- "Upgrade roads, including widening A1A and John Anderson Drive."
- "Improve stormwater infrastructure and drainage."
- "Expand and improve utility infrastructure."
- "Add more sidewalks and bicycle lanes for safer mobility."
- "Develop a bike network and improve pedestrian routes."
- "Consider water taxis for transportation along the Halifax River."

Traffic Management:

- "Enforce speed limits."
- "Implement traffic control measures, including roundabouts and smart traffic lights."
- "Address traffic congestion, especially in high-traffic areas like Granada."

Beautification and Community Amenities:

- "Enhance downtown aesthetics with landscaping and public art."
- "Create more public parks and green spaces."
- "Develop mixed-use areas that encourage walking and cycling."

Environmental Preservation:

- "Protect natural habitats and prevent clear-cutting of trees."
- "Focus on sustainable development practices."
- "Address issues of flooding through environmental conservation."

Community Services:

- "Increase hospital and emergency service capacity."
- "Enhance educational facilities and quality of schools."
- "Address homelessness and improve community safety."
- "Implement measures to prepare for hurricanes."

Cultural and Recreational Development:

- "Develop community centers and cultural venues."
- "Create more waterfront restaurants and public meeting spaces."

Zoning and Land Use:

- "Implement strict zoning regulations to control industrial development."
- "Preserve existing historical neighborhoods and buildings."

Tax and Budget Management:

- "Focus on maintaining low taxes and responsible spending."
- "Seek state and federal funding for community projects."

Survey Results - Question #10

In a few words, describe your vision for Ormond Beach

Summary of responses only - see survey results worksheet 9.30.2024 for detailed responses

- ❖ **Preserve Small-Town Feel:** Respondents want Ormond Beach to retain its quaint, small-town atmosphere while keeping the historic charm. Family friend community.
- ❖ **Manage Growth Responsibly:** Maintain a balance of development and quality of life. Concern that growth that is leading to congestion, environmental degradation, and loss of green spaces. There should be controlled and thoughtful development that preserves existing natural areas.
- ❖ **Enhance Green Spaces and Environment:** Maintain and expand green spaces, protect natural environments, and improve sustainability efforts.
- ❖ **Improve Infrastructure:** Better infrastructure to support growth, including improved roads, utilities, and public transportation. Maintain and enhance existing facilities rather than building new ones.
- ❖ **Community and Family-Friendly Environment:** Remain a family-friendly community with accessible amenities and a high quality of life. Support of local businesses, parks, recreational opportunities and cultural/community events.
- ❖ **Avoid Overdevelopment:** Concern that excessive development could lead to overcrowding, increased traffic, and a loss of character.
- ❖ **Maintain Cleanliness and Safety:** Ensure that the city remains clean, safe, and attractive.

Comprehensive Plan 2045 Update

Survey Results - Question #11

What are the biggest challenges you believe that Ormond Beach currently experiences, or you believe the city will face over the next 20 years?

1. Infrastructure:

Roads: Traffic congestion and inadequate road infrastructure to handle growing population.

Sewers & Septic Systems: Current systems insufficient for the expanding community.

Stormwater Management: Flooding.

2. Emergency Services:

Police and Law Enforcement: Managing crime and traffic issues.

Fire and Rescue Services: Capacity of emergency services to handle increased demand.

3. Public Services:

Healthcare: Availability and quality of medical care, including mental health services.

Education: Overcrowding in schools and need for more educational facilities.

4. Environmental Services:

Green Space: Perseveration of natural areas and management of environmental impact from development.

Parks and Recreation: More recreational spaces and facilities.

5. Affordable Housing:

Housing Options: Lack of availability of affordable housing and its impact on neighborhoods.

6. Transportation:

Public Transit: Better public transportation options to accommodate growing population.

Bicycle and Pedestrian Facilities: Improved facilities for non-motorized transportation.

What are the top three concerns you have related to future development within Ormond Beach?

Answered	192
Skipped	4

Comprehensive Plan 2045 Update

Survey Results - Question #13

Please provide any other comments, thoughts, or issues you feel should be discussed in the Comprehensive Plan 2045 update.

Summary of responses only - see survey results worksheet 9.30.2024 for detailed responses

Growth Management:

- Limit annexation and overdevelopment, particularly in green spaces.
- Implement a moratorium on new developments to address existing infrastructure issues.
- Enforce stricter zoning regulations to prevent unwanted developments.

Infrastructure Improvements:

- Upgrade the Granada Bridge and the downtown area for better aesthetics and functionality.
- Bury utilities to prepare for hurricanes.
- Improve roads and parking, particularly near busy intersections.

Community Engagement:

- Increase transparency and communication from city leaders to residents, prioritizing citizen input over special interest groups.
- Establish programs for local businesses to volunteer in schools and communities.

Environmental Preservation:

- Preserve parks and green spaces, halt clear-cutting, and maintain the natural character of the area.
- Encourage responsible land use, including the establishment of more parks and recreational spaces.

Survey Results - Question #13 (cont.)

Please provide any other comments, thoughts, or issues you feel should be discussed in the Comprehensive Plan 2045 update.

Summary of responses only - see survey results worksheet 9.30.2024 for detailed responses

Economic Development:

- Focus on attracting small businesses rather than large developments.
- Enhance downtown as a destination for shopping and dining.

Recreation and Quality of Life:

- Develop more bike paths, walking trails, and dog parks.
- Address the need for community centers and summer programs for kids.

Sustainable Practices:

- Ensure new developments adhere to stronger building codes for climate resilience.
- Research successful community growth models from other cities to inform local decisions.

Public Safety and Services:

- Improve code enforcement and police facilities.
- Address traffic safety with better signage and speed control measures.

Transportation and Access:

- Improve public transportation options and pedestrian pathways.
- Consider additional access points to the beach and better routes for evacuations.

Community Identity:

- Maintain Ormond Beach's small-town charm and character through careful planning and community-focused policies.

7	Respondent ID	Response Date	Responses
8	114684784685	Sep 09 2024 07:21 PM	Please just no more over-building. Live on the outskirts of Ormond Beach and save and improve your current home for a nice resale price and then move to Ormond Beach if you want to.
9	114683429922	Sep 07 2024 03:58 PM	I don't think they're in Ormond, but some of the empty malls could be recon converted into communities.
10	114680585408	Sep 04 2024 08:53 AM	I don't know if there's adequate affordable housing, but I strongly stress that this town is very full already, I hope the government professionals want to keep this town, peaceful, and not overloaded with people and the roads are full already, there's really not room for any more traffic and people.
11	114677355981	Aug 30 2024 07:33 AM	Nope
12	114674966047	Aug 27 2024 03:37 PM	There is an uptick of homeless even in the trails. Affordable housing would not be in reach for these folks. The jobs that surround OB are not very high end, however you run the risk of slums if you lower the housing standards, then as with Clyde Morris, Williamson, LPGA,,crime spikes. Remember OB was the home for high end professionals, that's change so you need to strike a careful balance.
13	114674798008	Aug 27 2024 12:26 PM	Values have come up so much that people cannot afford to down size or live here. I think perhaps instead of spending the money to build affordable housing complexes...which reduces the values of neighboring properties...use the funds to subsidize purchases for people who qualify. It seems easier and will help to sell our over abundance of inventory.
14	114674746857	Aug 27 2024 11:30 AM	Not sure. Can't grow to the east. I don't know much about affordable housing. Real estate and rents seem to be rising faster than ever.
15	114674677002	Aug 27 2024 10:18 AM	Stop building overpriced apartments . Require developers to build housing that is truly affordable given the areas low wages
16	114674676558	Aug 27 2024 10:18 AM	Please, no more apartment buildings and storage units along our thorofares.
17	114674670410	Aug 27 2024 10:11 AM	Housing seems to be keeping up
18	114674273941	Aug 26 2024 08:47 PM	Please prioritize the development of mixed-use and/or affordable housing projects that do not financially run on enormous profit margins; Ormond Beach needs development that people can comfortably live in commensurate to their lower wages.
19	114674060444	Aug 26 2024 03:02 PM	It's certainly NOT more apartment complexes. Rents are overpriced and can exceed the cost of a mortgage. New housing developments without the added expense of an HOA with smaller home options may be a solution.
20	114674041489	Aug 26 2024 02:39 PM	Is there a way to put more abandoned houses on the market? More tax deed sales would be great.
21	114673902708	Aug 26 2024 11:59 AM	None. Affordable housing is mostly affected by personal choice and willingness to live within their means. There are plenty of homes available that don't meet "the aesthetic" of what this younger generation are looking for. The city should provide incentives to those who are willing to put sweat equity or rehab existing homes that aren't the new construction models younger people are looking for. Quality neighborhoods are dying out because no one is offering an opportunity to revitalize older homes. Such a waste of property to let them go unrehabilitated.
22	114673478848	Aug 25 2024 09:30 PM	Liberalize zoning and building restrictions to allow developers big and small to fill the gaps.
23	114673402419	Aug 25 2024 05:04 PM	What exactly is the definition of affordable housing?
24	114673100465	Aug 24 2024 08:04 PM	No more apartments
25	114672740643	Aug 23 2024 11:09 PM	1. Keep asking the legislature to appropriate money for Hometown Heroes to make home ownership possible, isntead of renting. 2. Consider smaller lot sizes / tiny homes in certain areas. 3. Build more homes. More inventory = lower prices.
26	114672380159	Aug 23 2024 11:53 AM	Collect impact fees from new development to offer subsidies for affordable housing
27	114672273188	Aug 23 2024 09:37 AM	Make it easier to build all kinds of housing with an emphasis on multifamily (apartments, duplexes, triplexes) to drive down costs. Allow more infill.
28	114671419604	Aug 22 2024 07:28 AM	Less taxes
29	114671162814	Aug 21 2024 08:57 PM	na
30	114671161549	Aug 21 2024 08:54 PM	Quit building apartments and build housing communities with smaller houses
31	114670698971	Aug 21 2024 09:51 AM	I give our city government the credit for being able to implement a strategy; you just need the will to do it!
32	114670649490	Aug 21 2024 08:44 AM	Dont build anymore apartments. There is enough housing. Ormond is full. NO fuel farm

	A	B	C
33	114669277114	Aug 19 2024 02:55 PM	Is there a way to incentivize landlords/lessors to offer clean, safe affordable housing close to bus stops, etc? I wish I knew how to implement social/business policy without subsidies. It's usually a supply/vs demand issue. Not enough affordable housing means either living on the street or somewhere unsafe & in poor living conditions. To build more affordable housing you need affordable land & maybe a structure where you waive the developer's cost of putting in the roads, curbs, gas, electric, sewer, water, lighting & common area landscaping as long as the city can have a say in the rent. Maybe we need to look at what other cities have done successfully & try to replicate? How bout we have the capacity to help people find affordable housing that meets their needs?? This is a tough one.
34	114669269523	Aug 19 2024 02:44 PM	Many apt complexes have been built the past few years along Williamson, Clyde Morris, etc. near the hospital and manufactured Plantation Oaks communities built between Old Dixie and US 1.
35	114668615233	Aug 18 2024 01:10 PM	N/A
36	114668546999	Aug 18 2024 09:26 AM	NO MORE SUBSIDIZED, LOW-RENT HOUSING! We do NOT want Ormond to look like the crime ridden big cities!
37	114668175530	Aug 17 2024 08:58 AM	N/a
38	114668139144	Aug 17 2024 07:00 AM	There is an abundance of homes and way too many apartment complex. None of them are affordable
39	114667887645	Aug 16 2024 05:16 PM	Stop raising taxes every year and find ways to lower home insurance. Stop creating more and more expensive building codes and permits we have to acquire to do basic renovations.
40	114667618395	Aug 16 2024 10:37 AM	Na
41	114667341013	Aug 16 2024 12:49 AM	I don't know how much affordable housing there is. Its not my season of life.
42	114666951199	Aug 15 2024 12:53 PM	More senior complexes like Madison Glenn would be great.
43	114666857887	Aug 15 2024 11:00 AM	Reserve some of the massive amount of development taking place for community that are not house-rental-only.
44	114666844491	Aug 15 2024 10:43 AM	Apartments would seem go be the best at this time, even though rents are sky high also. When I first moved to FL, I lived in a subsidized apartment complex, which helped until I was on my feet and could afford more. Are there many in Ormond Beach? I can't remember seeing any when I looked in 2005. Maybe that is a part of the solution?
45	114666783868	Aug 15 2024 09:22 AM	NA
46	114666778725	Aug 15 2024 09:14 AM	Higher density units to preserve green and forested areas.
47	114666771043	Aug 15 2024 09:02 AM	Multi family units rather than single family housing should be prioritized.
48	114666755921	Aug 15 2024 08:35 AM	I wish I knew.
49	114666710998	Aug 15 2024 07:04 AM	Either regulate or build affordable housing
50	114666694522	Aug 15 2024 06:26 AM	Instead of building all high price apartments and houses look at alternative lower cost housing.
51	114666464798	Aug 14 2024 08:02 PM	There are enough neighborhoods being built
52	114666362934	Aug 14 2024 04:48 PM	Send them to Daytona or Palm Coast.
53	114666349225	Aug 14 2024 04:28 PM	"affordable" is the operative number. I don't like all the "perks" companies get to put up apartments with a "certain" number with lower cost, and get massive tax breaks...most apartments turn to condos around 10 years...so builders got all their money up front, then leave. I believe ALL cities should get input from surrounding areas, as Ormonds roads, schools, parks will be impacted, with NO tax income into Ormond. Just as Hunter's Ridge did...It is Flagler, yet has no entrance/exit into Flagler...The Avalon Park will impact Ormond having a major entrance on Booth road, dumping onto Granada, The Interstate off ramp, Ormonds traffic, yet NO plans are in the works to widen Granada (not talking making a turn lane). Also our recharge water area is being surrounded by housing. Tiny house communities more affordable than manufactured. Ormond older communities for single families are too small for today's families.
54	114666117192	Aug 14 2024 11:38 AM	Stop building apartments and build homes
55	114665286072	Aug 13 2024 12:15 PM	Turn former buildings into affordable housing, i.e., former schools, former churches and shopping centers. They can be made into apartments for senior fixed income housing.
56	114664436526	Aug 12 2024 11:44 AM	Regulation!! starting with DeSantis and with local governments. We like him, but he's way too all for capitalization over ppl. It's the one area we are disappointed in with him.
57	114663107390	Aug 09 2024 02:44 PM	Research how other cities have made provisions and build our own program.
58	114662808933	Aug 09 2024 06:55 AM	A committee to explore vacant buildings for infill or properties that are vacant to develop.
59	114662582347	Aug 08 2024 08:41 PM	Please do NOT build more housing, improve the infrastructure FIRST to prepare for the future!
60	114662219137	Aug 08 2024 11:28 AM	Modify the lot size and setback requirements in selected neighborhoods. For example Collins and Bryant south of hand.
61	114662087204	Aug 08 2024 08:44 AM	Possible overlay district.
			Allow mixed use development on key commercial corridors like N. US 1, Nova Road, S. US 1, AIA and in the downtown to build density and amenities.

	A	B	C
62	114661668445	Aug 07 2024 05:37 PM	Incentives for landlords to make housing more affordable
63	114661622289	Aug 07 2024 04:33 PM	Use some of the empty buildings as apartments
64	114661463161	Aug 07 2024 01:08 PM	The City should encourage redevelopment and the allowance of density within the city Center
65	114661348995	Aug 07 2024 10:53 AM	Tiny homes areas..... with a common space for some gardens
66	114661329132	Aug 07 2024 10:29 AM	New builds need a variety of price ranges for homes. Help fight to regulate home owners insurance.
67	114661237761	Aug 07 2024 08:27 AM	Build more affordable housing . Stop bankrolling luxury apartments
68	114661230607	Aug 07 2024 08:15 AM	building more apartments and increasing density is NOT the answer, the City's charm is that it is NOT full of low income and subsidized housing
69	114661215165	Aug 07 2024 07:48 AM	Vacant buildings or homes that could be used fir temporary housing
70	114661165417	Aug 07 2024 06:08 AM	N/A
71	114660979273	Aug 06 2024 10:55 PM	More reasonably priced homes not apartments. Not cookie cutter Dr Horton either.
72	114660786151	Aug 06 2024 04:52 PM	Accept, housing crisis is a national issue, stop trying to solve national issue here locally by having disportionate share of affordable housing.
73	114660785104	Aug 06 2024 04:50 PM	N/A
74	114660685176	Aug 06 2024 02:57 PM	An affordable housing trust fund via developer impact fees. The developers are making profits while increased development impacts our traffic, chances of flooding, natural environment.
75	114660663180	Aug 06 2024 02:29 PM	Renovate or update, stop adding to the drainage issues by overbuilding.
76	114660565162	Aug 06 2024 12:34 PM	Should not be just low income but affordable housing for the middle class as well. We need rent caps especially for those living in a 55 and older community. Florida wages need to go up, people cant afford 2000 and up for rent.
77	114660542884	Aug 06 2024 12:08 PM	Ormond has a large population of elderly. Nicely appointed elderly housing would be a great asset.
78	114660539317	Aug 06 2024 12:04 PM	I lived in Holly Hill in the 60 on Audrey Dr, the neighborhood was wonderful, then the city built the projects on Jimmie Anne Dr, our neighborhood deteriorated from then on along with the rest of Holly Hill. The last thing we need is people that don't respect their living accomidations, we already have plenty of appartments being built on the edge of Ormond Beach on or near Williamson, Clyde Morris and LPGA. Ormond residents safety is more important!
79	114660501792	Aug 06 2024 11:21 AM	Put systems in place to lower insurance rates to make home ownership more attainable as well as be able to lower rents due to less overhead.
80	114660497660	Aug 06 2024 11:16 AM	Require developers to provide affordable housing as well as the ones they want approved.
81	114660496826	Aug 06 2024 11:15 AM	N/a - there are plenty of rentals and far too many that border Ormond Beach just south of Granada. It is a worry that there will be far too much crime because of this.
82	114660492419	Aug 06 2024 11:10 AM	Don't want low income housing in Ormond. There is enough in Holly Hill and daytona.
83	114660490029	Aug 06 2024 11:08 AM	Fund an affordable housing program
84	114660489603	Aug 06 2024 11:07 AM	Unfortunately most housing is unaffordable now. There is no quick and easy solution, but options should be researched.
85	114660482090	Aug 06 2024 10:59 AM	Honestly, not sure how to do that! Purchasing a home in Ormond Beach has always been more expensive, compared to neigboring cities. In fact, when I bought my first home, I bought in Daytona Beach, because that was what I could afford at the time. When I became more financially capable , I purchased in Ormond Beach.
86	114660465442	Aug 06 2024 10:39 AM	Insurance needs to be addressed.
87	114660450767	Aug 06 2024 10:22 AM	Discussion with other cities Ormond size, that have incorporated affordable housing.

	A	B	C	D	E	F	G	H	I	J	K
1	City of Ormond Beach Comprehensive Plan 2045 Update - Final Survey Worksheet 9.30.2024										
2	How should Ormond Beach prioritize improving or expanding infrastructure improvements?										
3		High Priority			Neutral		Low Priority		Not a Priority		Total
4	Roadway expansion (with State FDOT and Volusia County)	40.63%	78	58	16.15%	31	8.85%	17	4.17%	8	192
5	Trail expansion	31.22%	59	53	26.46%	50	8.47%	16	5.82%	11	189
6	Missing sidewalk corridors	40.53%	77	61	19.47%	37	3.68%	7	4.21%	8	190
7	Stormwater Improvements	56.77%	109	51	14.58%	28	1.56%	3	0.52%	1	192
8	Additional Park & Recreation Facilities	28.95%	55	67	21.58%	41	8.42%	16	5.79%	11	190
9	Utilities (re-use, water and sewer)	33.33%	64	70	20.31%	39	6.77%	13	3.13%	6	192

Respondent ID	Response Date	Responses
114692044833	Sep 18 2024 02:36 PM	More exotic/invasive vegetation & vine removal throughout City and require or enforce removal from private properties. Areas are overrun and impacting sensitive habitats, some of which provide basic needs for protected species - ie - Sanchez Park/Brazilian Pepper and Manatees
114691156008	Sep 17 2024 04:45 PM	Remove septic tanks and provide service to beachside county areas
114684819763	Sep 09 2024 08:25 PM	Continued development of waterfront areas for entertainment / recreation.
114684784685	Sep 09 2024 07:21 PM	If we have a "willing seller" for the Tomoka Oaks Golf Course land, PLEASE put an 18-hole golf course back there. The State was trying to put about 4 different golf courses in our State Parks. That is not a good idea. "We" have a perfect spot for an 18-hole golf course. In our Parks and Rec survey of 2022, a golf course was mentioned on pp. 132, 149, 155, 186, 192 and page 231. We need recreation for our families and a golf course would be welcomed.
114684358420	Sep 09 2024 10:53 AM	Moratorium on development of new residential neighborhoods and apartment complexes until their impact on traffic, flooding, and medical infrastructure has been fully evaluated to ensure these areas can absorb new growth.
114684290117	Sep 09 2024 09:40 AM	Bury the Utility Lines....would reap back cost in 3 hurricanes and make enduring a storm much safer and more pleasant.
114683429922	Sep 07 2024 03:58 PM	Improve traffic patterns before you allow any more new apartment buildings or neighborhoods to be built. I realize part of the problem is Daytona resident West of 95 all dumping on Granada but that affects all of us who live here and suck with it.
114683429070	Sep 07 2024 03:55 PM	improving walk and bicycle access that is safe
114683418154	Sep 07 2024 03:18 PM	High end looking LANDSCAPE
114680788831	Sep 04 2024 12:25 PM	a community appearance board like some other communities have
114680585408	Sep 04 2024 08:53 AM	Ormond Beach has a great quality of life, we just don't want to see too much change in the population, it already takes over 20 minutes just to go from east to west, we just want to keep it manageable traffic and a manageable amount of people in this beautiful beach town
114680005115	Sep 03 2024 03:00 PM	STOP BUILDING!!! The growth is out of control.
114678254396	Aug 31 2024 02:16 PM	Stop bulding all over.
114678165469	Aug 31 2024 10:39 AM	Police enforcement, traffic and appearance, in gated communities.
114677355981	Aug 30 2024 07:33 AM	Pay for Ormond Beach police officers need to be equivalent or more to surrounding cities and county.
114677000430	Aug 29 2024 07:43 PM	Sewer not septic
114676819599	Aug 29 2024 03:59 PM	Turn lanes at major intersections
114676418248	Aug 29 2024 09:48 AM	traffic control on Granada Blvd. Consider lower speed limit.
114674970353	Aug 27 2024 03:42 PM	Drivers are out of control, never see law enforcement
114674966047	Aug 27 2024 03:37 PM	Develop our downtown (S. of bridge)with more shops, restaurants etc.
114674798008	Aug 27 2024 12:26 PM	Clean out the homeless people, panhandling, and illegal alien element within Ormond Beach.
114674746857	Aug 27 2024 11:30 AM	There isn't any. It was not planned well decades ago.
114674710537	Aug 27 2024 10:53 AM	Moving the City offices and library and activating that amazing property, views and the riverfront. Ideas would be a hotel and 1st level shops/restaurantsthe hotel could offer boating adventures with the new dock. The Ormond hotel used to offer boating excursions (-: The taxes from this property alone would eventually pay for the move.
114674706645	Aug 27 2024 10:49 AM	No response
114674703589	Aug 27 2024 10:45 AM	Public art, fountains & permanent monuments that pay tribute to our history (i.e., The Birthplace of Speed, John Anderson, John D Rockefeller, etc.). Add Palm trees within the center road barriers on A1A similar to those on Granada. Get rid of bus bench billboard ads on A1A, looks trashy.
114674680256	Aug 27 2024 10:22 AM	more landscaping
114674677002	Aug 27 2024 10:18 AM	No more dense housing (apartments)
114674676558	Aug 27 2024 10:18 AM	Golfing. Nothing to do but beach, bars & restaurants. Not only good for locals, but for visitors also.
114674670410	Aug 27 2024 10:11 AM	Stop building wawas, storage units , fast food restaurants and destroying green spaces
114674668505	Aug 27 2024 10:09 AM	Clean up the North US 1 area. Use enforcement, if necessary.
114674664547	Aug 27 2024 10:04 AM	Traffic control
114674663398	Aug 27 2024 10:03 AM	Clean up US #1 North
114674273941	Aug 26 2024 08:47 PM	Bocce Ball Courts beach side of Halifax River.
114674060444	Aug 26 2024 03:02 PM	More medical care facilities
114674060444	Aug 26 2024 03:02 PM	The course of communities and developments that prioritize the pedestrian and do not require the use of a car. Many communities out by i-95 are very isolated due to cars being the only viable transportation in the area.
114674060444	Aug 26 2024 03:02 PM	More utilization of our waterfront areas.

114674058488	Aug 26 2024 03:00 PM	Outdoor covered sitting areas as shelter from sun and rain for walkers
114674041489	Aug 26 2024 02:39 PM	Prohibiting cars from driving on the Atlantic beach.
114673984829	Aug 26 2024 01:33 PM	Improve Downtown Ormond Beach. Specifically Granada Blvd.
114673902708	Aug 26 2024 11:59 AM	Lighting along beach street sidewalks like Holly Hill & Daytona did.
114673880068	Aug 26 2024 11:35 AM	Stop the over building and clear cutting the land.
114673817030	Aug 26 2024 10:30 AM	Pay the police a higher salary and keep out the homeless
114673478848	Aug 25 2024 09:30 PM	Grade separated bicycle lanes.
114673402419	Aug 25 2024 05:04 PM	More shade structures at Parks and allow ability to have truck vendors or others provide food services and make them destinations during certain periods of the week or month
114673226667	Aug 25 2024 06:47 AM	Stop building and taking away open land
114673100465	Aug 24 2024 08:04 PM	Less developers
114672740643	Aug 23 2024 11:09 PM	I would like to see an Ormond Beach City Center, similar to what Port Orange has. City Government, EOC, Police, Library, Event Center, Recreation, etc. (It would have been nice to do something like that at the old Memorial Hospital site.)
114672549851	Aug 23 2024 04:01 PM	Ormond Beach needs an Event Center. What if you relocated the Library and made that into a waterfront event center?
114672380159	Aug 23 2024 11:53 AM	More bike lanes , a farmer's market that is not strictly during business hours so people who work can attend
114672317455	Aug 23 2024 10:33 AM	Scrap the realignment plan for Granada Blvd. and come up with a more realistic one suitable for the only east/west corridor in Ormond Beach. The in progress plan will severely impact traffic congestion, emergency services response and operations with questionable benefits to citizens and visitors.
114672273188	Aug 23 2024 09:37 AM	More protected bike lanes, wider sidewalks, more crosswalks.
114671883660	Aug 22 2024 06:25 PM	Removing homeless and panhandlers
114671706092	Aug 22 2024 01:52 PM	Less building when there are so many vacant commercial properties
114671419604	Aug 22 2024 07:28 AM	Interconnecting sidewalks and trails, especially along John Anderson and n beach st
114671220483	Aug 21 2024 11:12 PM	Prevent road expansion as a way to deter any further overpopulation.
114671162814	Aug 21 2024 08:57 PM	na
114671161549	Aug 21 2024 08:54 PM	More community gardens
114671031940	Aug 21 2024 04:45 PM	Stop cutting down trees for development.
114670765308	Aug 21 2024 11:11 AM	more crosswalks or cross-bridge for residents and visitors to safely walk from one end to another. More safety signals for pedestrians
114670698971	Aug 21 2024 09:51 AM	Stop the unabated development without corresponding infrastructure improvement. Residents are VERY UNHAPPY about the way all this development is taking place, with corresponding traffic tie ups and accidents!
114670649490	Aug 21 2024 08:44 AM	No fuel farm
114670192748	Aug 20 2024 05:10 PM	Ormond Beach should prioritize creating a vibrant downtown area along Granada, filled with more restaurants and lively businesses. To achieve this, we need to thoughtfully relocate establishments like boxing gyms to different parts of town, ensuring the downtown becomes a hub of activity and community. Additionally, we should focus on enhancing our school system, providing our children with a strong foundation to grow up here, and consider bringing a football stadium to Ormond to foster local pride and opportunities
114669990173	Aug 20 2024 01:05 PM	Community/Event Center
114669277114	Aug 19 2024 02:55 PM	I personally feel that this is an extremely active community so sidewalks, roads & lighting all for safety purposes I find necessary & living beachside by Andy Romano Park I'm grateful for what has transpired to create more safety on A1A, but man of our roads & sidewalks and the lighting at dusk & dawn is not safe for walkers, joggers, bicyclists, and dog walkers.
114669269523	Aug 19 2024 02:44 PM	Town Center near Ross Common Publix. Why do proposed projects there never materialize?
114668641041	Aug 18 2024 02:43 PM	Halifax Plantation subdivisions keep being built.
114668615233	Aug 18 2024 01:10 PM	Stop clear-cutting and require developers to build around existing trees and plant life
114668546999	Aug 18 2024 09:26 AM	I think of the Daytona Beach Ocean Walk area's colored brick roadway at a couple intersections. I always thought a comparable one would look so nice at Granada and Beach Street and perhaps Granada and A1A the same turquoise and sand color. Perhaps in the center "Ormond Beach".
114668198516	Aug 17 2024 10:03 AM	Stop bringing in all these cheap apartments! Lush native plants on public property and maintain trees and vegetation with best practices.
114668175530	Aug 17 2024 08:58 AM	We need another bridge. It is unsafe to only have one bridge in Ormond for evacuation purposes. Not only that, our population and traffic have increased to the point that the bridge is often backed up. If there is an event at the Casements on top of that, traffic becomes unmanageable.
114668139144	Aug 17 2024 07:00 AM	Stop tearing down trees and building apartments, car washes, storage buildings and dollar stores. Preserve what little beauty is left of Ormond
114668060353	Aug 17 2024 01:46 AM	Keeping height limits on buildings on the beachside.
114667895547	Aug 16 2024 05:31 PM	Developers should ALWAYS pay impact fees for roadways, police, fire, schools, etc.
114667887645	Aug 16 2024 05:16 PM	Better sidewalks everywhere and lanes for bikes on all roads (John Anderson) Stop ripping out trees for overdevelopment. We don't need more carwashes, condos and storage. Provide more beach access, parks, boat ramps. Save the trees and swamps. Stop building on Grenada. More hospitals.
114667826196	Aug 16 2024 03:35 PM	Public Parking with Showers and Bathrooms
114667749888	Aug 16 2024 01:39 PM	Stop overdeveloping
114667618395	Aug 16 2024 10:37 AM	Less apartments and another hospital

114667341013	Aug 16 2024 12:49 AM	A more central location for family/community events. Port Orange has City Center and never seems to have parking issues. We have the Casements and parking and traffic are in the middle of everything
114667231607	Aug 15 2024 07:56 PM	Less development
114667157856	Aug 15 2024 05:28 PM	activities center
114667145463	Aug 15 2024 05:07 PM	Create a real sense of downtown...
114667062207	Aug 15 2024 03:10 PM	A comprehensive bike trail network and more sidewalks. My street is very busy and is a commuter cut-through but we have no sidewalks.
114667059913	Aug 15 2024 03:08 PM	Less new development
114667038102	Aug 15 2024 02:41 PM	Less corporate franchises. We don't need more National fast food or convenience stores. Prefer to see more locally owned restaurants and stores. No more strip malls.
114666951199	Aug 15 2024 12:53 PM	Better access on Granada. Doing all the improvements with the medians just creates more backup. I pray that people are not stuck in traffic when an ambulance has to get thru there. Enlarge Granada, don't put in more medians.
114666937262	Aug 15 2024 12:36 PM	Movie theater
114666857887	Aug 15 2024 11:00 AM	More multi-purpose use trails (i.e., bike and walking)
114666844491	Aug 15 2024 10:43 AM	Figure out a solution to the traffic issues we are having. It seems like, since I moved here in 2012, we have gone from only having occasional traffic backups during high season, to constantly having traffic backups. I realize there is no easy solution, as we are locked into too few roads to handle the traffic, but something has to be done! It is not unusual to see traffic backed up one or almost 2 lights on Granada at certain times of the day. The small town atmosphere we had here is quickly disappearing.
114666835265	Aug 15 2024 10:32 AM	An indoor public pool.
114666828954	Aug 15 2024 10:24 AM	Leave it alone and stop spending OUR money
114666810987	Aug 15 2024 10:02 AM	Sewer connection from septic to public along A1A
114666798187	Aug 15 2024 09:44 AM	Traffic control ;
114666790823	Aug 15 2024 09:33 AM	Inside/outside entertainment such as a top golf, nice bowling center, food hall
114666783868	Aug 15 2024 09:22 AM	Quit building storage facilities, car washes. Add a nice park that has cook out area, shaded space and a fishing pond for the kids.
114666778725	Aug 15 2024 09:14 AM	More and safer mixed use paths that connect with various areas of the city & beyond. Safer paths AWAY from motor vehicles. It is not enough to have an 18-24" bike lane. Increase sidewalk side to protect bicyclists and pedestrians alike.
114666772970	Aug 15 2024 09:05 AM	Less building and reforestation is needed here
114666771043	Aug 15 2024 09:02 AM	Discourage projects that will negatively impact the history, culture and appeal of OB. Bike and walking paths throughout the city would be nice.
114666755921	Aug 15 2024 08:35 AM	More concerts
114666751186	Aug 15 2024 08:27 AM	Taking volume off Granada Blvd - it takes too long to get from I-95 exit to beachside A1A
114666747414	Aug 15 2024 08:19 AM	Infrastructure is due to the overbuilding of greedy developers and those who benefit with little or no thought to expanding our roads.
114666740302	Aug 15 2024 08:06 AM	Stop developing
114666736890	Aug 15 2024 07:59 AM	More something that can be stopped - stop cutting down so many trees and clearing land. Don't add apartments or big developments.
114666731152	Aug 15 2024 07:47 AM	Slow traffic in neighborhoods
114666725633	Aug 15 2024 07:35 AM	More commerce and parks west of 95. Right now anyone who lives out here has to cross the interstate to do almost anything, unless it's a trip to Walgreens or to get gas. Even worse for city parks, where the nearest one is Riverbend. And how can our most major road not have a single park on it? (I don't count the one downtown next to city hall, as that is more of just a shaded sitting area for people to take cigarette breaks).
114666720810	Aug 15 2024 07:25 AM	Taxes and staying up with city codes as far as how one keeps the junk out of their property etc
114666720961	Aug 15 2024 07:25 AM	Stop tearing down trees and building so much. The quaint small town feeling of Ormond is gone, which is why my family moved here 24 years ago. Traffic is grown out of control, Granada has become a nightmare to drive on, as well as A1A.
114666716833	Aug 15 2024 07:17 AM	Sidewalks
114666710998	Aug 15 2024 07:04 AM	More or larger emergency room facilities
114666697578	Aug 15 2024 06:33 AM	More natural areas, less economic development. Do not remove all the natural areas to build, etc. That is killing the area.
114666694522	Aug 15 2024 06:26 AM	Quit allowing so much building without thinking of consequences with flooding, road congestion
114666694775	Aug 15 2024 06:26 AM	Another bridge to beachside and get rid of the median on Granada there's so much traffic now it's getting ridiculous
114666464798	Aug 14 2024 08:02 PM	Make a 24 hour basketball gym only accessible to ormond beach residents.
114666362934	Aug 14 2024 04:48 PM	One complaint that I have is that after 5 a clock, in the South Ormond Recreational center, there is a large group of 20 people who come and hog up the basketball court, running full courts, which is against the rules. Most of the people there aren't even from Ormond.
114666349225	Aug 14 2024 04:28 PM	Expanding sewage and water to Ormond by the Sea
114666117192	Aug 14 2024 11:38 AM	Require ALL new communities whether apartment or housing have rain retrieval drums as they have in Australia and people off grid in Hawaii. We are drawing water from the springs in Deland area, as salt water has moved further West since I was on The first committee for this review (It was pass US1 then). Everyone needs water.
114665329861	Aug 13 2024 01:11 PM	More walkability
114665286072	Aug 13 2024 12:15 PM	Municipal golf course, more adult rec sports leagues, in recent years the city has lost almost all of their leagues while cities like port orange have a well run organized leagues for various sports
		Availability of the big beach wheelchairs that can be taken into the ocean and provided through advertising of companies. Also, the big sand-free beach access mats that make it accessible to bring a wheelchair onto the beach as well as beach carts. (The costs could be offset by companies sponsoring the mats by having their logo or name imprinted on the mats at each entrance.)

114665110565	Aug 13 2024 08:24 AM	Reduce land clearing
114664817062	Aug 12 2024 09:06 PM	Park expansion with well maintained sidewalks and exercise area.
114664604293	Aug 12 2024 03:14 PM	Maybe not allowing so many big franchises to ruin the small beach town feel. And doing something about the awful traffic on Granada Blvd.
114664436526	Aug 12 2024 11:44 AM	Traffic improvements. And PLEASE repaint direction arrows at lights and stop signs. They are barely visible and a hazard. Thank you!
114663461010	Aug 10 2024 07:47 AM	Improve the parks we have and purchase more lands for public use when available along the waterfronts.
114663107390	Aug 09 2024 02:44 PM	Build a community center.
114663094365	Aug 09 2024 02:23 PM	Put a public golf course back at Tomoka Oaks
114663012183	Aug 09 2024 12:16 PM	Zoning needs to be reviewed and addressed
114662811289	Aug 09 2024 07:00 AM	Stop building apartments. Stop building period. Don't change zoning in favor of businesses that don't help current residents. Tymber Creek Apartments comes to mind.
114662808933	Aug 09 2024 06:55 AM	A golf course
114662582347	Aug 08 2024 08:41 PM	Underground utilities
114662346395	Aug 08 2024 02:03 PM	I think our quality of life is very good
114662219137	Aug 08 2024 11:28 AM	Traffic Concurrency
114662147464	Aug 08 2024 10:01 AM	Street cameras and safety for pedestrians
114662087204	Aug 08 2024 08:44 AM	Removing the height restrictions in the downtown and beachside.
114661990725	Aug 08 2024 05:32 AM	Bike friendly trails
114661810666	Aug 07 2024 10:18 PM	Better traffic flow. Larger bicycle lanes in both directions. Central turn lane in A1A North of Granada.
114661789054	Aug 07 2024 09:32 PM	More greenery and not allowing the raping of our forests by big developers
114661668445	Aug 07 2024 05:37 PM	Disabled access to beach
114661642825	Aug 07 2024 04:59 PM	More freshwater fishing locations or stock the existing locations with more fish
114661622289	Aug 07 2024 04:33 PM	Quit bulldozing trees
114661546872	Aug 07 2024 02:55 PM	Upgrades to sports and recreation facilities
114661463161	Aug 07 2024 01:08 PM	Bike lanes that are separate from traffic.
114661432126	Aug 07 2024 12:28 PM	Addressing speeding on roadways
114661405401	Aug 07 2024 11:58 AM	Walkable downtown area with more shops and restaurants similar to New Smyrna Beach
114661400920	Aug 07 2024 11:53 AM	Sidewalks along John Anderson Drive
114661356794	Aug 07 2024 11:02 AM	Road updates
114661348995	Aug 07 2024 10:53 AM	Make sure people are keeping the sidewalks clear of vegetation so walking does not send kids/adults into the road. Enforce the Neighborhood codes. Publish a code every time you make a Facebook post. Tired of the boats in the front yards.
114661329132	Aug 07 2024 10:29 AM	Better restaurants!
114661237761	Aug 07 2024 08:27 AM	Less development
114661230607	Aug 07 2024 08:15 AM	more policing
114661224319	Aug 07 2024 08:04 AM	Slow down development
114661215165	Aug 07 2024 07:48 AM	Less development and protect wildlife and greenspace.
114661165417	Aug 07 2024 06:08 AM	Leasing parking spots from the building g owner near Granda and a-1-a for beach access to Granada approach
114661061001	Aug 07 2024 02:24 AM	Expanded use and growth of what should otherwise be a very walkable downtown
114660979273	Aug 06 2024 10:55 PM	Lower property tax
114660966685	Aug 06 2024 10:26 PM	Improve transportation from school to sports programs that aren't offered on campus. You'll attract so many young families who are dual working parents which is common with today's economy.
114660919281	Aug 06 2024 08:45 PM	More parking for shops along Granada
114660880782	Aug 06 2024 07:27 PM	Farm market needs more vendors
114660864064	Aug 06 2024 06:54 PM	Paved bike routes throughout the mainland
114660786151	Aug 06 2024 06:54 PM	More natural areas and less building.
114660785104	Aug 06 2024 04:52 PM	Remove dogs
114660764770	Aug 06 2024 04:50 PM	More trails for walking dogs
114660759645	Aug 06 2024 04:26 PM	Getting on owners about run down or vacant properties
114660696241	Aug 06 2024 04:20 PM	Open to public paddle ball/tennis courts.
114660685176	Aug 06 2024 03:09 PM	More Parks - less condos
114660684138	Aug 06 2024 02:57 PM	Continue to fight proposed fuel farm and have developers reinvest in our community to maintain quality of life.
114660663180	Aug 06 2024 02:56 PM	Designation of some roadways, especially in neighborhoods with very limited access to major roadways, as 'Golf Cart' roadways.
114660591292	Aug 06 2024 02:29 PM	Bike lanes and wide shoulders elsewhere to improve transportation options. Not only for the environment, but for a more active lifestyle, and accessible for those who don't drive.
114660565162	Aug 06 2024 01:05 PM	Less development
	Aug 06 2024 12:34 PM	Need more stores, shopping facilities on Nova. Not dollar tree, family dollar type stores. Nova rd looks like a poor area, needs cleaning up.

114660555099	Aug 06 2024 12:22 PM	An additional department store. We currently must travel to a neighboring city.
114660548241	Aug 06 2024 12:14 PM	Less clear cutting and over-development.
114660542884	Aug 06 2024 12:08 PM	Neighborhood roads in historic ormond are dismal and need repaving. Sidewalks should be installed. Finish the city sewer to populated areas still on septic.
114660539317	Aug 06 2024 12:04 PM	Safe bicycle lanes to and from the beach and Central Park.
114660512359	Aug 06 2024 11:33 AM	Expanded sewer system
114660503935	Aug 06 2024 11:24 AM	Add walking and running trails
114660497660	Aug 06 2024 11:16 AM	Like a Fun Spot for the kids. Keeps them busy and safe.
114660496826	Aug 06 2024 11:15 AM	Safer roads and sidewalks. Slower speeds on roads. Beautify the neighborhoods around Central Park. Right now, those neighborhoods and houses around the park a major deterrent to visiting the park.
114660492419	Aug 06 2024 11:10 AM	Fix traffic in the downtown granada area
114660490029	Aug 06 2024 11:08 AM	Build additional boat ramps
114660489603	Aug 06 2024 11:07 AM	Less development, less heavy industrial.
114660482090	Aug 06 2024 10:59 AM	Improved roadways to alleviate back up on Granada, especially Nova Road to Tymbercreek Road.
114660465442	Aug 06 2024 10:39 AM	Get insurance under control.
114660452468	Aug 06 2024 10:24 AM	Quit tearing trees down
114660450767	Aug 06 2024 10:22 AM	Less traffic.
114660444357	Aug 06 2024 10:15 AM	More walking trails.
114660443069	Aug 06 2024 10:13 AM	Storm water improvements that protect and improve water quality into the future
114660403902	Aug 06 2024 09:26 AM	Less growth

	A	B	C
1	City of Ormond Beach Comprehensive Plan 2045 Update - Final Survey Worksheet 9.30.2024		
2	What is something you currently enjoy about Ormond Beach?		
3	Answered	181	
4	Skipped	15	
5			
6			
7	Respondent ID	Response Date	Responses
8	114692044833	Sep 18 2024 02:36 PM	Access to Beach and River, variety of restaurants, amenities available.
9	114691156008	Sep 17 2024 04:45 PM	It's a fantastic setting with water throughout.
10	114684819763	Sep 09 2024 08:25 PM	Feeling of community.
11	114684784685	Sep 09 2024 07:21 PM	The open land that is still here, although it is dwindling. I love the trails, the beach and the restaurants.
12	114684358420	Sep 09 2024 10:53 AM	Small town feel
13	114684290117	Sep 09 2024 09:40 AM	The downtown restaurants in the Rose Villa vicinity where you can park and walk from one to the other....very rare and very nice.
14	114683429922	Sep 07 2024 03:58 PM	That when you're on the top of the bridge, you see natural beauty, instead of lots of development.
15	114683429070	Sep 07 2024 03:55 PM	The ability to find parking to get to the beach
16	114683418154	Sep 07 2024 03:18 PM	Water
17	114680788831	Sep 04 2024 12:25 PM	overlooking the river
18	114680585408	Sep 04 2024 08:53 AM	Its quaint, safe, clean.
19	114680005115	Sep 03 2024 03:00 PM	The green space.
20	114678254396	Aug 31 2024 02:16 PM	Not much, 40 is a nightmare
21	114678165469	Aug 31 2024 10:39 AM	Small town vibe, but is growing to much,
22	114677355981	Aug 30 2024 07:33 AM	Smaller town feel
23	114677063608	Aug 29 2024 09:34 PM	The parks and public areas. The beach access. Romano Park
24	114677000430	Aug 29 2024 07:43 PM	It has a small-town feel but still has everything you need.
25	114676819599	Aug 29 2024 03:59 PM	living in an upscale area
26	114676418248	Aug 29 2024 09:48 AM	Beaches, no high rises, peaceful, friendly.
27	114674970353	Aug 27 2024 03:42 PM	It's a Republican run city and isn't screwed up with stupid Democrat and socialist policies and programs that cost a ton of money and never work.
28	114674966047	Aug 27 2024 03:37 PM	The employees at City Hall. (You can now guess who this is)
29	114674798008	Aug 27 2024 12:26 PM	The people, the 4 corner parks and fit loop, the history, our city officials and commissioners!
30	114674746857	Aug 27 2024 11:30 AM	Somewhat of a small town feel.
31	1146747110537	Aug 27 2024 10:53 AM	The mainstreet area, the bridge/Cassen Park, Granada from Cassen to the main beach access.
32	114674706645	Aug 27 2024 10:49 AM	quality of life
33	114674694926	Aug 27 2024 10:36 AM	Beautiful sceneries
34	114674680256	Aug 27 2024 10:22 AM	Parks- beautiful & plentiful
35	114674676558	Aug 27 2024 10:18 AM	Small town feel within a beautiful setting.
36	114674677002	Aug 27 2024 10:18 AM	F
37	114674670410	Aug 27 2024 10:11 AM	Friendly people. Weather is good.
38	114674668505	Aug 27 2024 10:09 AM	Quality of government, it all stops & starts with City Hall
39	114674664547	Aug 27 2024 10:04 AM	Walking all the parks and walking the beach.
40	114674663398	Aug 27 2024 10:03 AM	Beach, good neighbors, wonderful library.
41	114674273941	Aug 26 2024 08:47 PM	Grenada Street is a great downtown area that should be used as a model for commercial development, in contrast to large strip malls and parking lots.
42	114674060444	Aug 26 2024 03:02 PM	Our beachfront & waterways
43	114674058488	Aug 26 2024 03:00 PM	Uncrowded well-maintained free beaches
44	114673984829	Aug 26 2024 01:33 PM	Art Festival
45	114673979337	Aug 26 2024 01:27 PM	The beach

	A	B	C
46	114673902708	Aug 26 2024 11:59 AM	Somehow, stills feels like a small town but all the expansion west at I-95 corridor make me nervous. The inner core of Ormond is dying out and the city is moving west and not reinvesting in the heart of the Ormond Beach.
47	114673880068	Aug 26 2024 11:35 AM	The small town feeling that we are losing. Stop the crazy cheap building.
48	114673817030	Aug 26 2024 10:30 AM	All the trees on the loop, Granada and through out the area
49	114673478848	Aug 25 2024 09:30 PM	The Magic Forest
50	114673402419	Aug 25 2024 05:04 PM	Appreciate the well manicured landscaping, and needs to be extended gradually throughout the city
51	114673226667	Aug 25 2024 06:47 AM	the beauty and the loop
52	114673100465	Aug 24 2024 08:04 PM	It was beautiful quiet small town atmosphere.
53	114672740643	Aug 23 2024 11:09 PM	Everything! It is beautiful and clean, with a wonderful downtown, great shopping and restaurants, parks, the arts, nightlife, outdoor activities, rich history, leisure and recreation facilities. But the best part is the PEOPLE!
54	114672549851	Aug 23 2024 04:01 PM	The way that the City keeps the landscaping so beautiful.
55	114672380159	Aug 23 2024 11:53 AM	Access to beaches, new Riverbend MTN bike park, central park trails and Environmental Center
56	114672317455	Aug 23 2024 10:33 AM	Natural amenities such as beach, river and nature parks that have not been seriously affected by poor growth management.
57	114671883660	Aug 22 2024 06:25 PM	Mostly everything.
58	114671706092	Aug 22 2024 01:52 PM	The parks and beaches
59	114671419604	Aug 22 2024 07:28 AM	Beach
60	114671220483	Aug 21 2024 11:12 PM	Festivals at the Casements.
61	114671162814	Aug 21 2024 08:57 PM	small community feeling
62	114671161549	Aug 21 2024 08:54 PM	Driving the loop
63	114671031940	Aug 21 2024 04:45 PM	a sense of community
64	114670765308	Aug 21 2024 11:11 AM	the local restaurants and cleanliness
65	114670698971	Aug 21 2024 09:51 AM	The fact that I can get to shopping, doctors, leisure within 15 minutes of my home
66	114670649490	Aug 21 2024 08:44 AM	local feel
67	114670192748	Aug 20 2024 05:10 PM	I love the Granada area of our city, from the park and the local events organized by Ormond Mainstreet to the great restaurants.
68	114669990173	Aug 20 2024 01:05 PM	the Parks
69	114669277114	Aug 19 2024 02:55 PM	Beaches, parks, restaurants-all fabulous!! We love living here. Is it possible to do to our beaches what they are doing to Flagler Beach beaches? It looks amazing in Flagler Beach!
			Previously, it's small town feeling.
			Now with all the housing development and imported from California Palm Tree Islands (instead of indigenous FL Palms) on Granada causing tremendous traffic, it's lost it's Tree City small town feeling.
70	114669269523	Aug 19 2024 02:44 PM	Still calmer than Daytona and Palm Coast.
71	114668615233	Aug 18 2024 01:10 PM	Casement, Cassin Park area, library/city hall with all the oak trees, the pretty palm trees along downtown corridor, any area with pretty shady oak, and the park docks looking at the river and of course the ocean which I never go to but I do love it.
72	114668546999	Aug 18 2024 09:26 AM	Low crime
73	114668198516	Aug 17 2024 10:03 AM	Driving on the beach and the beach
74	114668175530	Aug 17 2024 08:58 AM	The sense of community. We love being able to walk up Granada and visit the different shops and restaurants.
75	114668139144	Aug 17 2024 07:00 AM	Beach and parks, variety of shopping and restaurants, but don't need more. Improve present areas instead of building more
76	114668060353	Aug 17 2024 01:46 AM	The beaches
77	114667895547	Aug 16 2024 05:31 PM	Very friendly people. I've lived here for many years and enjoy the variety of people, places and events.
78	114667826196	Aug 16 2024 03:35 PM	The Beach
79	114667749888	Aug 16 2024 01:39 PM	Not as much as 10 years ago
80	114667618395	Aug 16 2024 10:37 AM	We lost the small town image
81	114667341013	Aug 16 2024 12:49 AM	Beach area now is looking great
82	114667231607	Aug 15 2024 07:56 PM	Everything I really need is here except a Trader Joes
83	114667157856	Aug 15 2024 05:28 PM	Aesthetics
			recreation
84	114667145463	Aug 15 2024 05:07 PM	The library and bridge parks.

	A	B	C
85	114667062207	Aug 15 2024 03:10 PM	The beach town vibe, the small size, the green space and trees and our beautiful beach.
86	114667059913	Aug 15 2024 03:08 PM	The pace of life
87	114667038102	Aug 15 2024 02:41 PM	I like the downtown because it's well preserved and the historic architecture is very pretty.
88	114666951199	Aug 15 2024 12:53 PM	You're away from the touristy districts yet close enough to take part in everything happening in Volusia County.
89	114666937262	Aug 15 2024 12:36 PM	Library
90	114666857887	Aug 15 2024 11:00 AM	Nice community, availability of services
91	114666844491	Aug 15 2024 10:43 AM	The fact that many people here seem to want to retain the small town feeling. The fact that the area of the town is smaller also, so we don't feel like we have to drive 30 minutes to get into town.
92	114666835265	Aug 15 2024 10:32 AM	Kayaking Central Park.
93	114666828954	Aug 15 2024 10:24 AM	The Atlantic Ocean
94	114666810987	Aug 15 2024 10:02 AM	I love everything about Ormond. Small beach community, quaint down town, nice events at the Casements, fireworks over the Granada bridge.
95	114666790823	Aug 15 2024 09:33 AM	The quietness of it
96	114666783868	Aug 15 2024 09:22 AM	The beach and small town feel.
97	114666778725	Aug 15 2024 09:14 AM	Slower pace than nearby Daytona. More green space. Proximity and easy access to the beach.
98	114666772970	Aug 15 2024 09:05 AM	Love the location, weather, people.
99	114666771043	Aug 15 2024 09:02 AM	The small city feel of the area.
100	114666757938	Aug 15 2024 08:39 AM	The improved gardens and building at Granada and Halifax
101	114666755921	Aug 15 2024 08:35 AM	Proximity to everything I need
102	114666751186	Aug 15 2024 08:27 AM	Demographic makeup of the community
103	114666747414	Aug 15 2024 08:19 AM	Not much anymore due to total destruction of green space.
104	114666740302	Aug 15 2024 08:06 AM	Small town feel
105	114666731152	Aug 15 2024 07:47 AM	Central Park,
106	114666725633	Aug 15 2024 07:35 AM	the sense of community with other longtime residents. Also the downtown, which is a mixed feeling of old town, hundred year old Ormond with the modern amenities and restaurant options.
107	114666720961	Aug 15 2024 07:25 AM	The beach
108	114666720810	Aug 15 2024 07:25 AM	Hospital doctors medical stuff all right here but could us more. Seems like they are all moving to port orange
109	114666716833	Aug 15 2024 07:17 AM	Quiet
110	114666710998	Aug 15 2024 07:04 AM	Quiet/calm
111	114666697578	Aug 15 2024 06:33 AM	I love all the natural areas.
112	114666694775	Aug 15 2024 06:26 AM	The city park and facilities employees there always so nice when you see them out in the community working.
113	114666694522	Aug 15 2024 06:26 AM	Safety
114	114666464798	Aug 14 2024 08:02 PM	The natural beauty.
115	114666362934	Aug 14 2024 04:48 PM	It still has a small town "vibe". If you go somewhere you're more than likely to run into someone you know.
116	114666349225	Aug 14 2024 04:28 PM	I enjoyed the small town feel, up until about 5 years ago...I don't like sitting, waiting to make left hand turn (no light) for 128 cars going by both sides(yes I count them each time). center where Space coast cred., and Subway are. I can't put a finger on anything right now...since it is not the small town it was.
117	114666117192	Aug 14 2024 11:38 AM	The downtown area
118	114665329861	Aug 13 2024 01:11 PM	The small town feel, yet there's a decent amount of things to do. Clean beaches, nice parks.
119	114665286072	Aug 13 2024 12:15 PM	Our library and downtown vibe.
120	114665110565	Aug 13 2024 08:24 AM	Lower levels of tourists than other beach communities
121	114664817062	Aug 12 2024 09:06 PM	I walk the park daily, as do many residents with homes in the area.
122	114664604293	Aug 12 2024 03:14 PM	I love the community events at the casements and seasonal festivals. The parks are also very well kept.
123	114664436526	Aug 12 2024 11:44 AM	Everything. I love the town feel. Ppl are mostly friendly. Easy access to other places. It's a pretty town, well kept (except for directional street arrows). Still has that quiet feel and few slum areas.
124	114663461010	Aug 10 2024 07:47 AM	Hometown feeling. It is mine.
125	114663107390	Aug 09 2024 02:44 PM	The quality of life in general. The River.
126	114663094365	Aug 09 2024 02:23 PM	Clean streets low crime

	A	B	C
127	114663012183	Aug 09 2024 12:16 PM	Laid back lifestyle small town vibe and sense of community
128	114662811289	Aug 09 2024 07:00 AM	Small town feel.... If we can keep it.
129	114662808933	Aug 09 2024 06:55 AM	Being on east side of 95 with everything close
130	114662582347	Aug 08 2024 08:41 PM	The beach!
131	114662346395	Aug 08 2024 02:03 PM	Small town feel with lots of vibrant businesses
132	114662219137	Aug 08 2024 11:28 AM	Small town where things are simply better here.
133	114662147464	Aug 08 2024 10:01 AM	Location
134	114662087204	Aug 08 2024 08:44 AM	Downtown
135	114661990725	Aug 08 2024 05:32 AM	It's beautiful with a wonderful community and great place to raise kids
136	114661810666	Aug 07 2024 10:18 PM	Not too commercialized as of yet. Please keep it this way. Deter national chains. Encourage local businesses.
137	114661789054	Aug 07 2024 09:32 PM	The Beach and the Scenic Loop and the parks
138	114661668445	Aug 07 2024 05:37 PM	Beach proximity
139	114661642825	Aug 07 2024 04:59 PM	The climate and locations of all the stores that I use
140	114661622289	Aug 07 2024 04:33 PM	My neighborhood except for the Persis'
141	114661546872	Aug 07 2024 02:55 PM	Our sports and recreation areas
142	114661463161	Aug 07 2024 01:08 PM	Downtown area
143	114661432126	Aug 07 2024 12:28 PM	The beach and the parks
144	114661405401	Aug 07 2024 11:58 AM	The beach...although I worry that it is shrinking
145	114661400920	Aug 07 2024 11:53 AM	Beach; Small-town feel; weather; downtown improvements
146	114661356794	Aug 07 2024 11:02 AM	Beach
147	114661348995	Aug 07 2024 10:53 AM	Accessibility to riverfront.
148	114661329132	Aug 07 2024 10:29 AM	Downtown area.
149	114661230607	Aug 07 2024 08:15 AM	low density, high quality environment, slower pace of life
150	114661224319	Aug 07 2024 08:04 AM	Not much, used to be a great small town. Not any more.
151	114661215165	Aug 07 2024 07:48 AM	Easy access to beach, restaurants, shopping and Interstate travel
152	114661165417	Aug 07 2024 06:08 AM	The 4 bridge parks
153	114661061001	Aug 07 2024 02:24 AM	It's parks
154	114660979273	Aug 06 2024 10:55 PM	Not over built yet. Almost has the same small town charm it had 7 years ago but that is slowly going away.
155	114660966685	Aug 06 2024 10:26 PM	The Loop and other beautiful things like that which encourage being outdoorsy.
156	114660919281	Aug 06 2024 08:45 PM	Beaches, restaurants, activities at Fortunada, festivals
157	114660880782	Aug 06 2024 07:27 PM	Small town feel, family oriented, traffic is manageable
158	114660864064	Aug 06 2024 06:54 PM	Small town charm
159	114660786151	Aug 06 2024 04:52 PM	Reduced crowds
160	114660785104	Aug 06 2024 04:50 PM	Central Park trails and lakes. Walkover to the beach on A1A and Granada Blvd. Off beach parking.
161	114660764770	Aug 06 2024 04:26 PM	Love its smaller town feel
162	114660759645	Aug 06 2024 04:20 PM	The bridge and four corners parks are great for walking/running
163	114660696241	Aug 06 2024 03:09 PM	I used to enjoy the small town feel
164	114660685176	Aug 06 2024 02:57 PM	I live in unincorporated Ormond and our garbage/lawn pick up service is excellent- especially after storms.
165	114660684138	Aug 06 2024 02:56 PM	Downtown (west Granada, specifically).
166	114660663180	Aug 06 2024 02:29 PM	Low crime, FREE PUBLIC BEACH ACCESS.
167	114660591292	Aug 06 2024 01:05 PM	Beach
168	114660565162	Aug 06 2024 12:34 PM	The beach
169	114660555099	Aug 06 2024 12:22 PM	The family atmosphere
170	114660548241	Aug 06 2024 12:14 PM	Recreation facilities
171	114660542884	Aug 06 2024 12:08 PM	Public safety is good. Beaches are good except the dog beach. I am a dog lover, they do not belong on the beach.

	A	B	C
172	114660539317	Aug 06 2024 12:04 PM	Safer than Daytona or Holly Hill, but with all the new apartments being built up against Ormond Beach I hope Ormond continues to be a safe place to live.
173	114660512359	Aug 06 2024 11:33 AM	The parks! They are beautifully maintained & a joy to be in.
174	114660503935	Aug 06 2024 11:24 AM	Quiet, older neighborhoods. I enjoy the large trees that line the streets and provide added character and shade.
175	114660501792	Aug 06 2024 11:21 AM	All the outdoor options, beach, parks, trails, etc
176	114660497660	Aug 06 2024 11:16 AM	Driving on A1A.
177	114660496826	Aug 06 2024 11:15 AM	The restaurants, the beaches that do not allow cars on them.
178	114660492419	Aug 06 2024 11:10 AM	Not a low income community.
179	114660490029	Aug 06 2024 11:08 AM	The beach
180	114660489603	Aug 06 2024 11:07 AM	Being close to the beach
181	114660482090	Aug 06 2024 10:59 AM	It's natural beauty!
182	114660465442	Aug 06 2024 10:39 AM	The people.
183	114660452468	Aug 06 2024 10:24 AM	Mario's, OB sports Bar, Alexander's,
184	114660450767	Aug 06 2024 10:22 AM	The involvement of the community in the betterment of Ormond
185	114660444357	Aug 06 2024 10:15 AM	Beach, Granada
186	114660443069	Aug 06 2024 10:13 AM	Natural spaces, quality housing, good schools, low crime/safe environment, and many varied amenities
187	114660403902	Aug 06 2024 09:26 AM	small town feel
188	114659871859	Aug 05 2024 03:46 PM	Andy Romano Park

City of Ormond Beach Comprehensive Plan 2045 Update - Final Survey Worksheet 9.30.2024		
What are the top two priorities that you believe Ormond Beach should focus on over the next 20 years?		
Answered	187	
Skipped	9	
Respondent ID	Response Date	Responses
114692044833	Sep 18 2024 02:36 PM	aging infrastructure and Sustainability/Resiliency
		East west travel ways
114691156008	Sep 17 2024 04:45 PM	Redevelopment of downtown areas to move and relocate low end trailer park and affordable housing units
		1. Hurricane preparedness.
114684819763	Sep 09 2024 08:25 PM	2. Leveraging uniqueness of waterfront while balancing development/congestion.
114684784685	Sep 09 2024 07:21 PM	Saving any green space we have left and protecting our infrastructure.
		Traffic
114684358420	Sep 09 2024 10:53 AM	Over development of residential housing
114684290117	Sep 09 2024 09:40 AM	1). START ENFORCING THE SPEED LIMITS. 2) Improve the Downtown restaurant area with aesthetic upgrades and METICULOUS MAINTENANCE. It needs to match the charm of the restaurants/buildings that have been installed there. We need more landscaping (pots/planters), benches, awnings, fountains, anything that makes it more enjoyable to drive by or walk in.
114683429922	Sep 07 2024 03:58 PM	1. The ability to travel through the community easily, Which would include a moratorium on building in the short term.
		2. Sidewalks
114683429070	Sep 07 2024 03:55 PM	Roadways (other than just Granada) to keep traffic moving while still being safe
114683418154	Sep 07 2024 03:18 PM	Landscape and nice businesses - not WaWa, IHOP and fast food burger joints.
		infrastructure to support all the apartment people and minimal zoning changes from the master plan
114680788831	Sep 04 2024 12:25 PM	Managing/limiting housing growth.
114680585408	Sep 04 2024 08:53 AM	Roads
114680215191	Sep 03 2024 08:15 PM	STOP BUILDING!! Manage the growth that's already exploded.
114680005115	Sep 03 2024 03:00 PM	Have all traffic on the loop use us1 only for in and out. Far too much traffic on n beach st.
114678254396	Aug 31 2024 02:16 PM	Keep us small and friendly town.
114678165469	Aug 31 2024 10:39 AM	Bike lanes and Granada Avenue
114677355981	Aug 30 2024 07:33 AM	Quality growth the preserves natural areas.
114677063608	Aug 29 2024 09:34 PM	Do not make the same mistake as cities like Palm Coast and allow rampant overdevelopment. Maintain the small town feel.
114677000430	Aug 29 2024 07:43 PM	Halting run-away development, butchering of trees, unsightly development
114676819599	Aug 29 2024 03:59 PM	Keep it charming, cottage, no high rises. Dev. Existing buildings such as Fountain Square
114676418248	Aug 29 2024 09:48 AM	Flooding caused by overdevelopment. Keeping Democrat and left leaning socialistic ideas out of government. They don't work and Agenda 2030 and its long list of meaningless buzzwords is a future disaster in the making that will ultimately result in higher taxes and a worse standard of living for the residents of Ormond Beach.
114674970353	Aug 27 2024 03:42 PM	Concentrate on redevelopment for future modeling, urban sprawl is too widespread and ob is now saturated.
114674966047	Aug 27 2024 03:37 PM	Activating the riverfront and moving the city offices ...see question #5 and making the city bicycle friendly...connecting to the river to sea trail!
114674798008	Aug 27 2024 12:26 PM	Slow down the growth and clean up the Halifax river.
114674746857	Aug 27 2024 11:30 AM	1.) Infrastructure: widen A1A & John Anderson Drive wherever possible to allow for passing from Granada towards Flagler Beach. Properly pave the loop & add a bike lane. Annex OBTS, beautify A1A towards OBTS, & convert from septic to sewer & city water. In other words, make sure that we don't have algae blooms like the west coast of Florida due to sewer/septic failures. Reinforce weak dunes to preclude future road failures on A1A.
		2.) Beautification:
114674710537	Aug 27 2024 10:53 AM	

114674706645	Aug 27 2024 10:49 AM	additional bridges and more downtown parking
114674703589	Aug 27 2024 10:45 AM	reduce growth, growth resist
114674680256	Aug 27 2024 10:22 AM	Public Gold Course
114674677002	Aug 27 2024 10:18 AM	Traffic problems and flooding
114674676558	Aug 27 2024 10:18 AM	Quality schools.
114674670410	Aug 27 2024 10:11 AM	Traffic.
114674668505	Aug 27 2024 10:09 AM	Traffic - Roads added and controlled at times when traffic is heaviest.
114674664547	Aug 27 2024 10:04 AM	more round-abouts
114674663398	Aug 27 2024 10:03 AM	Restoration of older buildings and saving the history.
114674273941	Aug 26 2024 08:47 PM	1. Relieve traffic jams.
114674060444	Aug 26 2024 03:02 PM	2. Save the loop.
114674058488	Aug 26 2024 03:00 PM	Expanding the city with planning that prioritizes pedestrians and mixed-use zoning; and investing in infrastructure that responds and prepares for climate change-induced severe weather.
114674041489	Aug 26 2024 02:39 PM	A marina. Additional waterfront restaurant options. Some sort of publicly available meeting/convention space. This is severely lacking in our area.
114673984829	Aug 26 2024 01:33 PM	Increase availability of dog-friendly ocean beaches
114673979337	Aug 26 2024 01:27 PM	Managing housing construction to be at a reasonable rate and prohibiting builders from cutting down old trees when building.
114673902708	Aug 26 2024 11:59 AM	Downtown Ormond and city's church property on/near the river lease the property to a restaurant like Captain Jacks.
114673880068	Aug 26 2024 11:35 AM	Traffic and over development
114673817030	Aug 26 2024 10:30 AM	Reinvesting in historical neighborhoods to revitalize. Limit growth expansion westward and in the Loop area.
114673478848	Aug 25 2024 09:30 PM	Ensure proper zoning so we don't have high industrial building near homes or recreational facilities or schools etc,
114673402419	Aug 25 2024 05:04 PM	A comprehensive growth plan that includes preserving the land to ensure that nature and man exist and we fo t end up looking like the cities in south Florida.
114673226667	Aug 25 2024 06:47 AM	Pay the police officers higher salary and keep out the homeless. Keep crime low
114673100465	Aug 24 2024 08:04 PM	Building bicycle lane network. Infill development.
114672740643	Aug 23 2024 11:09 PM	Find ways to get people to be more mobile around the historic area or the beach side and parks
114672549851	Aug 23 2024 04:01 PM	protecting the area from over development
114672380159	Aug 23 2024 11:53 AM	not allowing short term rentals in residential areas
114672317455	Aug 23 2024 10:33 AM	Keeping a historic feeling and not over crowded with apartments like they are building on every open green land
114672273188	Aug 23 2024 09:37 AM	1. Hospital capacity - our hospitals are already so overburdened even with the addition of additional beds. Looking towards 2045, we will have many more residents moving into Ormond Beach and the surrounding areas, including the upcoming Avalon and Ormond Crossings.
114671883660	Aug 22 2024 06:25 PM	2. Extend centralized wastewater (sewer) service to Ormond by the Sea. OBTS septic tanks discharge large amounts of nitrogen and other pollutants into groundwater that eventually flows into the Halifax River that flows through our gorgeous city. The state considers the Halifax River impaired. Let's get these folks on our sewer!
114671706092	Aug 22 2024 01:52 PM	Water Taxi along the Halifax River running to Daytona Beach, and a Restaurant along the Halifax River.
114671419604	Aug 22 2024 07:28 AM	Halt development,
114671220483	Aug 21 2024 11:12 PM	Growth control
114671162814	Aug 21 2024 08:57 PM	Repair, replacement of deteriorating roads and sidewalks.
		Safety for walkers and bikers and housing.
		Saving land and trees
		No more subdivisions...we arw full
		traffic on granada, preservation
		Utilities and storm water infrastructure, maintenance of roadways
		1) Go car-free, keeping the streets small. This will deter any further overpopulation. Going car free will put Ormond on the map as a progressive, forward thinking city that is refocused on its natural beauty and charm and masters of self-driving public transport.
		2) Buy back affordable housing apartments and convert them into hotels. We welcome tourists, but no more renters. We are out of room. Let the populations grow in Daytona and further south.
		1) traffic control on Granada from I 95 to A1A
		2) Stop allowing land to be cleared for new commercial structures

114671161549	Aug 21 2024 08:54 PM	Mitigate development and protect wetlands
114671031940	Aug 21 2024 04:45 PM	less housing developments and Storm water improvements
114670765308	Aug 21 2024 11:11 AM	transportation expansion - too much traffic currently
114670698971	Aug 21 2024 09:51 AM	Preservation of our green spaces; water and air quality
114670649490	Aug 21 2024 08:44 AM	No fuel farm. traffic control
114670192748	Aug 20 2024 05:10 PM	One of the top priorities for Ormond Beach over the next 20 years should be preserving the land we have left. The area along Highway 40 is quickly being developed, and if we're not careful, we risk losing the so of what makes our community special
114669990173	Aug 20 2024 01:05 PM	adding a community& Event Center painting and lighting our bridge so it reflective of Ormond Beach.
114669277114	Aug 19 2024 02:55 PM	1. Budget-Access to every dollar available to the city from the state & federal government for any/all purposes & identify any programs/projects that private citizens would be willing to fund or help fund to keep Ormond Beach healthy, beautiful & prosperous (an appealing vacation destination). 2. Traffic/infrastructure
114669269523	Aug 19 2024 02:44 PM	Utility infrastructure to match the development. Expansion of Police Department with emphasis on community involvement like the good old days of PAL programs.
114668687484	Aug 18 2024 05:35 PM	Slow down apartment building.
114668641041	Aug 18 2024 02:43 PM	Increase medical care.
114668615233	Aug 18 2024 01:10 PM	Making the environment top priority and stop over-development and clear-cutting of old growth trees and natural plant life
114668546999	Aug 18 2024 09:26 AM	1) preservation of large shady trees 2) when comes to progress and growth keep it low density, SMART (preservation of trees) and be tenacious with the flooding as a top priority. The little guy is getting flooded from all the building/excavation. Ex the leveling/clearing of acres of trees west of the WAWA for years now.
114668198516	Aug 17 2024 10:03 AM	Preserving freedom, keeping taxes low.
114668175530	Aug 17 2024 08:58 AM	Approved plans with native plants and maintain trees and vegetation cooperatively with all property owners.
114668139144	Aug 17 2024 07:00 AM	Putting in a bridge and adding more bicycle trails and lanes
114668060353	Aug 17 2024 01:46 AM	Traffic and stop building !!
114667895547	Aug 16 2024 05:31 PM	Stopping overdevelopment and preserving more green spaces.
114667887645	Aug 16 2024 05:16 PM	Lower taxes. Reduce spending
114667826196	Aug 16 2024 03:35 PM	Stop the overdevelopment. We don't need an IHOP on Grenada. We need better quality of life, more shade and to save natural Florida. It's getting hotter, and weather more severe . We need shade, and more natural stormwater flood areas such as swamps and cypress hammocks. Stop building on the beaches, so we don't have to hear people complain about storm damage that inflates everyone's insurance. You shouldn't allow building in natural flood areas in the first place.
114667749888	Aug 16 2024 01:39 PM	Public Parking with Showers and Bathrooms
114667618395	Aug 16 2024 10:37 AM	Improve infrastructure, improve the lifestyle of the current population
114667341013	Aug 16 2024 12:49 AM	Hospitals and roadways
114667231607	Aug 15 2024 07:56 PM	Traffic management where all these apt complexes are going up at the OB DB lines. Everything feels more crowded and school drop off lines are worse... not much OBPD presence and its needed.
114667157856	Aug 15 2024 05:28 PM	Less development; improved infrastructure
114667145463	Aug 15 2024 05:07 PM	traffic and growth
114667062207	Aug 15 2024 03:10 PM	Better SAFER pedestrian routes.
114667059913	Aug 15 2024 03:08 PM	Storm water and flooding mitigation, and more sidewalks.
114667038102	Aug 15 2024 02:41 PM	Less new development
114666951199	Aug 15 2024 12:53 PM	Improving roads and infrstructure
114666937262	Aug 15 2024 12:36 PM	Reduce the constant building on Granada and have the business properties on AIA look less run down
114666857887	Aug 15 2024 11:00 AM	Road enlargements and paving and storm drainage
114666844491	Aug 15 2024 10:43 AM	Saving trees from development
		Limit development as we are overburdening the infrastructure;
		Controlling growth to a MANAGEABLE pace. Being sure the infrastructure to handle the growth is in place BEFORE the construction of homes begins. (I thought that was FL law?)

114666835265	Aug 15 2024 10:32 AM	Economic development of the airport and business park.
114666828954	Aug 15 2024 10:24 AM	Zoning ordinances that mitigate junky neighborhoods.
114666810987	Aug 15 2024 10:02 AM	Leave it alone reduce the size of city hall
114666790823	Aug 15 2024 09:33 AM	Homelessness/transient problem needs to be addressed.
114666783868	Aug 15 2024 09:22 AM	creating safe outdoor spaces that we can utilize with family in the shade
		Parks and road improvements.
		Preservation of green space.
114666778725	Aug 15 2024 09:14 AM	More and safer mixed use trails to encourage more residents to get out and walk, ride, and enjoy the outdoors.
114666772970	Aug 15 2024 09:05 AM	Overpopulation and no fuel farm
		Managing the growth so the city doesn't look and/or feel like an extension of Daytona.
114666771043	Aug 15 2024 09:02 AM	Maintaining the infrastructure ie putting in roundabouts rather than additional stop lights.
114666757938	Aug 15 2024 08:39 AM	Not growing into an over grown city without true green spaces.
114666755921	Aug 15 2024 08:35 AM	Traffic and affordable housing
		curbing over development
114666751186	Aug 15 2024 08:27 AM	improving transportation infrastructure
		Stop building.
114666747414	Aug 15 2024 08:19 AM	Infrastructure
114666740302	Aug 15 2024 08:06 AM	Keeping the charm and small town feel.
		Stopping so much development — what I used to enjoy about living here was that it wasn't so crowded and that the city seemed to care about that and preserving the woodlands and beauty of the area. Does seem like that is priority anymore.
114666736890	Aug 15 2024 07:59 AM	Traffic control, slow/smart growth
114666731152	Aug 15 2024 07:47 AM	Insisting growth pay for itself with the added demand placed on roads. More community events that are held on the west side of town.
114666725633	Aug 15 2024 07:35 AM	Stop building so much (trees and land are disappearing)
114666720961	Aug 15 2024 07:25 AM	Improve roads. If you build make sure the roads can handle the extra traffic. Very important!
114666720810	Aug 15 2024 07:25 AM	Attracting more business
114666716833	Aug 15 2024 07:17 AM	Roads and affordable housing
114666710998	Aug 15 2024 07:04 AM	Protecting all the current natural areas. Creating more natural areas instead of destroying them.
114666697578	Aug 15 2024 06:33 AM	Maintaining roads. Slow building especially in congested areas.
114666694522	Aug 15 2024 06:26 AM	Another bridge to beachside and traffic congestion
114666694775	Aug 15 2024 06:26 AM	Economic and population growth
114666464798	Aug 14 2024 08:02 PM	Bring in fun activities for people to do
114666362934	Aug 14 2024 04:48 PM	Slow growth.
114666349225	Aug 14 2024 04:28 PM	require reuse ,rebuild vacant/closed buildings within center of city,before giving ok of expanding out. Expand our water recharge area or set up rain retrieval containers.
114666117192	Aug 14 2024 11:38 AM	Expanding parks and walkability
114665329861	Aug 13 2024 01:11 PM	Limiting outward expansion focus more on redeveloping areas along US1
		Remove the little 'sets ins' that take up parking spots downtown.
		Re-do sidewalks on Granada.
114665286072	Aug 13 2024 12:15 PM	
114665110565	Aug 13 2024 08:24 AM	Increased safety for pedestrians and bicycle riders so the city is more walkable. Reducing the amount of cleared land for unneeded services, such as storage facilities
114664817062	Aug 12 2024 09:06 PM	Turning back time. We are loosing the small, hometown area due to rapid growth and excess traffic. Soon we will be s bad as Port Orange. Purchasing waterfront property for parks.
		Keeping beach driving and limiting the amount of big corporations to open businesses over small business owners. Ormond Beach for so many people has been a small town feel so it shouldn't turn into a Port Orange or Orlando metropolis.
114664604293	Aug 12 2024 03:14 PM	Roads and bringing more big box stores to the area. Offer them an incentive but don't raise taxes.
114664436526	Aug 12 2024 11:44 AM	Make some destinations away from Granada and the beach to avoid ruining the parts of the city we love most.
114663461010	Aug 10 2024 07:47 AM	
114663107390	Aug 09 2024 02:44 PM	Clean-up US 1.

114663094365	Aug 09 2024 02:23 PM	Reduce growth rate. More green space
114663012183	Aug 09 2024 12:16 PM	Zoning reviews and traffic
114662811289	Aug 09 2024 07:00 AM	Keep taking existing buildings and refurbish, and make improvements. This has been great these past few years. Trails, Ormond Town Square, Downtown Ormond look great.
114662808933	Aug 09 2024 06:55 AM	Maintaining OB as a beach town, not pushing for another Miami. Maintenance as opposed to unruly expansion.
114662582347	Aug 08 2024 08:41 PM	Move utilities underground and improve infrastructure
114662346395	Aug 08 2024 02:03 PM	Careful expansion....dont need any more cash washes or storage facilities. Carefully balance residential growth and maintaining the environment/natural resources
114662219137	Aug 08 2024 11:28 AM	Manage impacts of development without changing the character of the town.
114662147464	Aug 08 2024 10:01 AM	Storm/flooding - preservation of wetlands and overdevelopment
114662087204	Aug 08 2024 08:44 AM	1. attracting mixed use development in downtown/beachside.
114661990725	Aug 08 2024 05:32 AM	2. acquiring land or annexing unincorporated land to advance development/economic development.
114661810666	Aug 07 2024 10:18 PM	Dealing with growth while maintaining green spaces
114661789054	Aug 07 2024 09:32 PM	Local business. Better roads, traffic flow.
		Saving our open space and limit the developers from over building and ruining our Ormond
114661668445	Aug 07 2024 05:37 PM	No more septic tanks
114661642825	Aug 07 2024 04:59 PM	Dune replacement on coast
114661622289	Aug 07 2024 04:33 PM	'Curb the development of the area
114661463161	Aug 07 2024 01:08 PM	Infrastructure, taxes
114661432126	Aug 07 2024 12:28 PM	Ormond Beach should develop a bike network that allows individuals to utilize alternative forms of transportation.
114661405401	Aug 07 2024 11:58 AM	Roadway safety and attracting quality businesses to the area.
114661400920	Aug 07 2024 11:53 AM	Keeping it safe and enjoyable
114661356794	Aug 07 2024 11:02 AM	Sidewalk improvements/expansion; more public art
114661348995	Aug 07 2024 10:53 AM	Beach and Storm water improvement
114661329132	Aug 07 2024 10:29 AM	Be mindful of overbuilding and over development of businesses. Kepp the small town vibe; it is a great asset.
114661237761	Aug 07 2024 08:27 AM	Not overcrowding!
114661230607	Aug 07 2024 08:15 AM	Improve infrastructure. Controlling and planned development as to what is the environmental impact .
114661224319	Aug 07 2024 08:04 AM	maintaining the low density and maintaining neighborhood character
114661215165	Aug 07 2024 07:48 AM	Close the airport or at least try to pay off the 500,000 debt. Charge admission to the Casements park for the fireworks, close it like they do for paid events.
		Flooding and preservation of undeveloped land
114661165417	Aug 07 2024 06:08 AM	Stop growth / make ormond more of a beach town making Granda Main Street a more active area. Paint buildings coastal colors. Trolley service from Main Street Granda to over bridge making stops. Stop letting chain eating establishments build.
114661061001	Aug 07 2024 02:24 AM	Limiting cut thru traffic. A more walkable downtown.
114660979273	Aug 06 2024 10:55 PM	Roadway expansion and downtown revamp
114660966685	Aug 06 2024 10:26 PM	Updating utility infrastructure and increasing green spaces for families.
114660919281	Aug 06 2024 08:45 PM	Do not allow Belvedere. Keep homeless from loitering and littering. We have noticed trashier streets and parking lots since moving to OB in 2021. More celebrations for Senior population
114660864064	Aug 06 2024 06:54 PM	Halt industrial zoning and add cultural venues and parks.
114660827057	Aug 06 2024 05:52 PM	Stopping the fuel farm and storm drainage
114660786151	Aug 06 2024 04:52 PM	Tax reduction
		1. How to handle growth exceeding expectations.
		2. Crime
114660785104	Aug 06 2024 04:50 PM	
114660764770	Aug 06 2024 04:26 PM	Not removing all the green spaces. Less building
114660696241	Aug 06 2024 03:09 PM	Stop building everywhere! Focus on what we have and concentrate on the infrastructure we need now.
114660685176	Aug 06 2024 02:57 PM	Denying the fuel farm and attending to better traffic flow.
		Relocation of the police department.
114660684138	Aug 06 2024 02:56 PM	Infrastructure: storm water, roadways, moving overhead utility wires underground.

		Foot and bike trails all over town, linking neighborhoods to each other.
114660663180	Aug 06 2024 02:29 PM	MUNICIPAL GOLD COURSE.
114660591292	Aug 06 2024 01:05 PM	Stopping the fuel farm and smart development
114660565162	Aug 06 2024 12:34 PM	Affordable homes and cleaning up of Nova rd area.
114660555099	Aug 06 2024 12:22 PM	Infrastructure and smart development.
114660548241	Aug 06 2024 12:14 PM	Rezoning. Remove heavy industrial. Restore what's left of the loop.
114660542884	Aug 06 2024 12:08 PM	Seniors and infrastructure.
114660539317	Aug 06 2024 12:04 PM	Prevent flooding and only high quality growth (nice homestead owner homes and jobs that pay over \$70K per year)
114660512359	Aug 06 2024 11:33 AM	Beach improvements/conservation & preserving the Loop
		Reducing building or better planning for building- keep large industry out of Ormond. Improving drainage across the area.
114660503935	Aug 06 2024 11:24 AM	
114660501792	Aug 06 2024 11:21 AM	Sidewalk and street crossing safety with signs that blink ONLY when people are crossing. Or make it red lights instead of yellow.
		Infrastructure and sewer/septic issues and beach erosion and our roads are terrible. Must be re-done correctly and striped and reflective on roads too.
114660497660	Aug 06 2024 11:16 AM	Keeping the city as built out. Moratorium on new buildings until the roads and fire and infrastructure is in place BEFORE building.
114660496826	Aug 06 2024 11:15 AM	Improve schools, improve sidewalks and make safer roads, add shopping.
114660492419	Aug 06 2024 11:10 AM	Put seawall's all up and down the river
114660490029	Aug 06 2024 11:08 AM	Beach access and parking
		Getting rid of heavy industrial zoning in the city, Safer areas to walk, bike, relax. Including sidewalks, parks, etc.
114660489603	Aug 06 2024 11:07 AM	
114660482090	Aug 06 2024 10:59 AM	Alleviating traffic. Please don't ever remove the wide grassy, tree filled medians on Granada. That's A big part makes that corridor so beautiful!
114660465442	Aug 06 2024 10:39 AM	Insurance and roads, the potholes are everywhere.
114660452468	Aug 06 2024 10:24 AM	Quit building!
		Success of OBPAC Less traffic....
114660450767	Aug 06 2024 10:22 AM	
114660444357	Aug 06 2024 10:15 AM	Retaining the charm of Ormond Beach, traffic.
114660443069	Aug 06 2024 10:13 AM	Resiliency - storm water improvements that protect water quality and rising sea levels
		less growth road improvement
114660403902	Aug 06 2024 09:26 AM	
114659871859	Aug 05 2024 03:46 PM	Community Preservation and Environmental Conservation

City of Ormond Beach Comprehensive Plan 2045 Update - Final Survey Worksheet 9.30.2024

In a few words, describe your vision for Ormond Beach

Answered	173	
Skipped	23	
Respondent ID	Response Date	Responses
114691156008	Sep 17 2024 04:45 PM	An upscale area differentiated from Daytona Beach and other areas.
114684819763	Sep 09 2024 08:25 PM	Develop uniqueness of residential community by enhancing waterfront area.
114684784685	Sep 09 2024 07:21 PM	Stop the over-building and keep it the way it is as much as we possibly can. Also, stop changing the roads, first they are wide, then they are narrow, then they are wide, (Well, you get the idea). It affects the nearby stores and restaurants when you mess with our roads and it never seems to solve whatever problem FDOT is trying to solve.
114684358420	Sep 09 2024 10:53 AM	Retain the present charm and personality. Don't overdevelop.
		Ormond Beach needs to be in a total preservation mode, looking out for the current resident and improving quality of life for those who live there. The Historic provenance of the City needs to be front and center, as does aesthetic improvements, maintenance of what is already there, enforcement of current laws / codes. The natural flow of visitors to the area is MORE than sufficient to bring new residents into the town. Visiting relatives, other tourists fall in love with the place and will move here. There is ZERO reason to be investing in promoting Tourism. We have a natural draw. We need to work on improving the quality/aesthetics of the main drag (Granada) from A1A to Young Street, and make the area more aesthetically pleasing to live up to the quality of our restaurants like Rose Villa and 31. They are jewels of the City. We 100% need to improve the aesthetics of the Granada Bridge. The Daytona Bridges put us to shame and that's wrong! Our bridge is a gorgeous shape but the dirty concrete with no decoration or color is awful. We need to work with local businesses to share parking during off hours to make the dinner time parking work for diners. Shared parking with churches for beach goers, etc, all make sense. We need to preserve our historic structures to the nth degree as the History of Ormond Beach is its true niche and speciality. It is what sets us apart from other beach towns. We need to embrace and brag on that history, and focus on our quality...the coming of new businesses and residents will take care of itself. People are drawn to quality.
114684290117	Sep 09 2024 09:40 AM	My vision of Ormond Beach is the community I grew up in, small enough to know your neighbors where one always felt safe.
114683429922	Sep 07 2024 03:58 PM	Living beachside, I love that we have easy access to the beach and that there aren't crowds to deal with unless you choose to drive on beach. Restaurants have greatly improved the desire to stay closer to home and spend our money here.
114683429070	Sep 07 2024 03:55 PM	Nicer, high end town - elevated landscape!
114683418154	Sep 07 2024 03:18 PM	a community like Boca Raton or Vero beach with strict zoning so the city eventually becomes a very attractive high quality, high priced, community
114680788831	Sep 04 2024 12:25 PM	Change is always inevitable, but please keep Ormond Beach the quaint, safe, clean, Beachtown, that it has always been. Be cognizant of overpopulation with housing.
114680585408	Sep 04 2024 08:53 AM	Try to keep it a small town.
114680005115	Sep 03 2024 03:00 PM	All that is done is build,build and build some more.ever think of running out of good water some day
		.
114678254396	Aug 31 2024 02:16 PM	Safe and Friendly place to live.
114678165469	Aug 31 2024 10:39 AM	Safe small town with economic development
114677355981	Aug 30 2024 07:33 AM	Keep the character of the city. Economic development is important but retaining Ormond's unique quality of life and neighborhood character will continue to increase property values.
114677063608	Aug 29 2024 09:34 PM	Limit development and preserve our quality of life.
114677000430	Aug 29 2024 07:43 PM	More user-friendly for walkers, bicycle riders, more pedestrian safety
114676819599	Aug 29 2024 03:59 PM	Better traffic flow Beachside Granada. Develop historical homes, buildings. No high rises.
114676418248	Aug 29 2024 09:48 AM	A city with few democrat representatives and citizens to screw things up. A city free of Agenda 2030 blow smoke up my skirt meaningless buzzwords meant to enact leftist socialistic ideas and a sustainable environment that somehow the city was able to thrive without for 100+ years.
114674970353	Aug 27 2024 03:42 PM	Just like any other central Florida city with a river running through it and an ocean on its doorstep.(Sorry)
114674966047	Aug 27 2024 03:37 PM	A city where visitors and locals enjoy all of the amenities...parks, biking, restaurants, entertainment etc.
114674798008	Aug 27 2024 12:26 PM	Like I remember it was in the 1960's and 1970's
114674746857	Aug 27 2024 11:30 AM	The most fun/vibrant, well planned, easily navigable, clean/safe & memorable beach community in Florida.
114674710537	Aug 27 2024 10:53 AM	a wonderful community for quality living
114674706645	Aug 27 2024 10:49 AM	preserve the small town
114674703589	Aug 27 2024 10:45 AM	Keep the beautiful trees
114674694926	Aug 27 2024 10:36 AM	A community in which residents really do help make decisions, not ignored by City Comms.
114674680256	Aug 27 2024 10:22 AM	Keep it attractive with green spaces
114674677002	Aug 27 2024 10:18 AM	I would like to see a welcoming community, but keeping in mind the impact of more + more people and cars.
114674676558	Aug 27 2024 10:18 AM	

114674670410	Aug 27 2024 10:11 AM	I find it is a pleasant place to live and a beautiful place.
114674668505	Aug 27 2024 10:09 AM	make sure 2044 has the same charm as 2024
114674664547	Aug 27 2024 10:04 AM	OLD FLORIDA CHARM - I AM A BORN AND RAISED Floridian. Keep Florida Florida!
114674273941	Aug 26 2024 08:47 PM	I want Ormond Beach to be a city where schools, shops, parks, and places to socialize are within a 15 minute walk from my house.
114674060444	Aug 26 2024 03:02 PM	A go to destination whether it be for a day, an extended vacation or a meeting/convention gathering.
114674058488	Aug 26 2024 03:00 PM	Increase and Maintain fishing access with more ramped access
114674041489	Aug 26 2024 02:39 PM	A small residential community that places emphasis on maintaining the natural environment.
114673984829	Aug 26 2024 01:33 PM	Less growth
114673979337	Aug 26 2024 01:27 PM	Remain the small town appeal.
114673902708	Aug 26 2024 11:59 AM	Celebrate & maintain our history as a small town.
114673880068	Aug 26 2024 11:35 AM	To remain a well planned community that integrates environment (nature), housing, and businesses, focusing on local businesses.
114673478848	Aug 25 2024 09:30 PM	Mixed-use zoning, walkability, medium density
114673402419	Aug 25 2024 05:04 PM	As you have done with your entryway on I 95 give people that same vibe that this is a clean community with consistent activities for people to enjoy
114673226667	Aug 25 2024 06:47 AM	keep the small-town feel. Do not over develop it, the water has to go somewhere.
114673100465	Aug 24 2024 08:04 PM	Less buildings and no more Apts. And no more storage facilities
114672740643	Aug 23 2024 11:09 PM	Ormond Beach has really grown up in the 40+ years I've lived here. I think we are on a great path. I see us continuing to maintain our quality of life and character if we make sure we are on top of the growth that is a constant. Somewhere along the lines of a Delray Beach - a prosperous, vibrant yet intimate, bustling Florida seaside town that is appealing to everyone - young people, families, visitors and retirees.
114672549851	Aug 23 2024 04:01 PM	My vision for Ormond Beach is a well maintained, and friendly City, who offers a lot of family-friendly activities.
114672380159	Aug 23 2024 11:53 AM	Invest in the community that is already here. Halt development. More protection for our environment. Glass recycling like Flagler Beach does. More bike lanes and education to share the road.
114672317455	Aug 23 2024 10:33 AM	Regulated expansion with focus on citizen quality of life.
114672273188	Aug 23 2024 09:37 AM	A great place to live and work where most people can live in a vibrant downtown or commercial area, walk to work, bike to see friends, feel safe doing so.
114671883660	Aug 22 2024 06:25 PM	Keep it a quiet, quaint beach town. Don't turn into Daytona
114671419604	Aug 22 2024 07:28 AM	To maintain as a beach town with opportunities to raise children and have a sufficient career, in an affordable environment.
114671220483	Aug 21 2024 11:12 PM	Ormond Beach should be the Overland Park of Florida, implementing a smart growth restructuring plan.
114671162814	Aug 21 2024 08:57 PM	keep the small town vibes
114671161549	Aug 21 2024 08:54 PM	Ormond, as I grew up knowing, has been ruined by developers and would be hard to overcome with the current developer friendly council members, but my vision would be that of a small city with a rural feel.
114671031940	Aug 21 2024 04:45 PM	small town feel. quaint
114670698971	Aug 21 2024 09:51 AM	Balanced development with environmental and green space preservation. Maintain quality of air and water.
114670649490	Aug 21 2024 08:44 AM	It was better 20 years ago.
114670192748	Aug 20 2024 05:10 PM	My vision for Ormond Beach is to preserve its small-town charm with thriving local restaurants and businesses while embracing thoughtful, balanced growth
114669990173	Aug 20 2024 01:05 PM	Ormond Beach is the Crown Jewel of Volusia county and should be a place a our young people want to come back to after college and start a life here.
114669277114	Aug 19 2024 02:55 PM	Clean, safe, family-friendly thriving on outdoor activities & community programs for all ages & abilities.
114669269523	Aug 19 2024 02:44 PM	Maintain the 7 story maximum for beachside high risers. Preserve The Loop which is being trodden upon. Growth with responsibility.
114668641041	Aug 18 2024 02:43 PM	The homes to be built west of 95 will help with housing. Don't widen Granada/SR 40 and turn Ormond Beach into Port Orange. END CLEAR-CUTTING!!!
114668615233	Aug 18 2024 01:10 PM	My "wanta be" vision for Ormond Beach is to look like the Trails and Halifax Plantation on as many areas as possible.
114668546999	Aug 18 2024 09:26 AM	Keep it a nice, conservative, clean, small town with low taxes.
114668198516	Aug 17 2024 10:03 AM	Lush native plants in all public properties and cooperate with all property owners through education and technical assistance
114668175530	Aug 17 2024 08:58 AM	I'd like to see it become a classy tourist location with upscale restaurants and shopping.
114668139144	Aug 17 2024 07:00 AM	Preserve undeveloped land, improve land already developed
114668060353	Aug 17 2024 01:46 AM	Less development. Preservation of the Loop, parks, and green spaces. Controlling over development in the beaches and beach erosion. Keeping the small town community. Controlling population growth.
114667895547	Aug 16 2024 05:31 PM	A beautifully maintained place to live without roads being overcrowded, no over-development that causes massive flooding, preservation of woods and open land.
114667887645	Aug 16 2024 05:16 PM	More options and better quality for the middle class. Stop raising taxes and have the big businesses/development coming in pay for the roads, hospitals, utility improvement. Stop giving them tax breaks.

114667826196	Aug 16 2024 03:35 PM	A place to go to the Beach with Family and Friends.
114667749888	Aug 16 2024 01:39 PM	Stop letting developers destroy our city
114667618395	Aug 16 2024 10:37 AM	Clean, beautiful, well kept without the congestion of growing too fast as the hospitals are at capacity and traffic is getting worse
114667231607	Aug 15 2024 07:56 PM	Improve infrastructure, less development, emergency services
114667157856	Aug 15 2024 05:28 PM	slow/low growth
114667145463	Aug 15 2024 05:07 PM	A great place to raise kids.
114667062207	Aug 15 2024 03:10 PM	Ormond Beach should continue to remain a small city with a small town. feel. we should not only protect our parks and green spaces, but we should expand them. we should make it easier to get around on bikes or on foot with the addition of bike trails and sidewalks. we should also do studies in heavily trafficked side roads to mitigate speeding through the neighborhoods which negatively affects the community feel and the quality of life.
114667059913	Aug 15 2024 03:08 PM	Keep it like it is now
114667038102	Aug 15 2024 02:41 PM	I'd like for Ormond Beach to maintain its unique style and not be over run with strip malls, National franchises and duplicate fast food outlets. Don't over build. Clean up existing buildings on A1A so the approach to Ormond by the Sea isn't so seedy.
114666951199	Aug 15 2024 12:53 PM	A place where people can afford to live and work making a decent wage.
114666937262	Aug 15 2024 12:36 PM	Slow down the growth of new housing development
114666857887	Aug 15 2024 11:00 AM	I would like to see Ormond Beach maintain a balance between being family-friendly, economically stable, environmentally friendly, and an all-round lovely place to live. I would like us to have a plan that does NOT include cutting down every tree in the city and to balance the needs of our community members with that of development. We are inching ourselves towards making the area east of I-95 look like cities down south and that it a less desirable place to be.
114666844491	Aug 15 2024 10:43 AM	Unfortunately my vision of the future here is grim. If we continue to have growth at this rate, I won't want to deal with it. It is already frustrating to just run an errand to the grocery store with the traffic jams.
114666835265	Aug 15 2024 10:32 AM	Clean it up.
114666828954	Aug 15 2024 10:24 AM	this is an agenda 2030 land grab do none of the above ranking
114666810987	Aug 15 2024 10:02 AM	Keep Ormond a small quaint beach town. Encourage local business growth. GET THAT SECANT WALL DONE. WIDEN THE BEACH LIKE FLAGLER DID. Help condos connect to public sewer. Eliminate septic along A1A. Help condos owners with all the demands legislation, insurance, hurricanes, Surfside collas have caused. There are too many condos that are not selling because HOA fees have soared, lowering property values!
114666798187	Aug 15 2024 09:44 AM	Improve infrastructure to support current growth. Improve Mass transit options. Improve utilities for improved support during storms.
114666790823	Aug 15 2024 09:33 AM	I don't want it to change, I love how it is today.
114666783868	Aug 15 2024 09:22 AM	Stay a small town, clean without big box stores on every corner. Low crime rates.
114666772970	Aug 15 2024 09:05 AM	Quaint seaside village perseverance of history
114666771043	Aug 15 2024 09:02 AM	Family centered, environmentally progressive community
114666757938	Aug 15 2024 08:39 AM	Vision is to keep it as a "hometown" environment, excluding bike weeks.
114666755921	Aug 15 2024 08:35 AM	A place where families can gather safely and with much to do
114666751186	Aug 15 2024 08:27 AM	retain the small town feel
114666747414	Aug 15 2024 08:19 AM	I have no vision as it is clouded with the sand, debris, and smoke that I face every day due to overbuilding on Plantation Oaks. No one cares. It is all about the money.
114666740302	Aug 15 2024 08:06 AM	Do not want it to Get over developed
114666736890	Aug 15 2024 07:59 AM	Developers getting creative and using land that is already cleared, repurposing vacant buildings or properties instead of clearing more land. No more big developments like Margaritaville. No more sprawling apartment complexes - there are enough.
114666731152	Aug 15 2024 07:47 AM	A 50,000 person city that has a small town feel
114666725633	Aug 15 2024 07:35 AM	A city my kids will want to raise their kids in.
114666720961	Aug 15 2024 07:25 AM	Keep it quaint, stop overbuilding which has already been done. Beachside has become overpopulated causing so many accidents on A1A. The small town vibe has been taken away unfortunately
114666710998	Aug 15 2024 07:04 AM	Everyone to be able to have access to affordable housing and healthcare in a clean proactive environment
114666694522	Aug 15 2024 06:26 AM	To be more community oriented over business development
114666694775	Aug 15 2024 06:26 AM	Community that has enough employees to take care of the city and to keep the taxes low. Replace the city manager to someone that doesn't get paid over 200,000 year for nothing
114666464798	Aug 14 2024 08:02 PM	A city where everyone gets a long
114666362934	Aug 14 2024 04:48 PM	Small town where everybody doesn't worry about being employed or not making enough money to survive. And able to live a good life.
114666349225	Aug 14 2024 04:28 PM	I grew up in Daytona my neighborhood was a "mini" city,could get 90% of what you needed within those 4-5 blocks(except school and Doctors and major dept stores).Had grocery,hairdressers/barber,Movie theater,church,pharmacy,gas,diner,post office,camera , park ,shop,tv shop,bakery,bar and motel (when family visited).
114665329861	Aug 13 2024 01:11 PM	Keep ormond from becoming port orange
114665286072	Aug 13 2024 12:15 PM	Keeping it a small beachie town. Stop all the residential communities. Attract larger companies, with high salary workers, which would help the city with taxes.

114665110565	Aug 13 2024 08:24 AM	Family friendly, historic community that preserves it's natural spaces
114664817062	Aug 12 2024 09:06 PM	A family friendly town that has a small town feel, since of community.
114664604293	Aug 12 2024 03:14 PM	A small town with beautiful beaches, waterways, and locally owned dining/retail/services.
114664436526	Aug 12 2024 11:44 AM	Work hard to keep that home-town feel. Can't call it "quaint" any longer. Let's be careful about progress. I know I said more big box stores but other than that, forget too much growth.
114663461010	Aug 10 2024 07:47 AM	Don't try to make it MORE popular and ruin what we love.
114663107390	Aug 09 2024 02:44 PM	High quality of life with a variety of things to do. An environment where a person can build a life where they can work and play with a focus on walkability or bike transport. Less focus on the car.
114663094365	Aug 09 2024 02:23 PM	More use of green space. In town. No more housing in inner city
114663012183	Aug 09 2024 12:16 PM	Sleepy beach town that offers a wonderful quality of life and great jobs
114662811289	Aug 09 2024 07:00 AM	We need a development moratorium so that we don't cause flooding and traffic issues. It will lose its small town charm in favor of developers, big business and to the detriment of long time residents.
114662808933	Aug 09 2024 06:55 AM	There's other places along the coast to start new small towns.
114662582347	Aug 08 2024 08:41 PM	HOME!
114662346395	Aug 08 2024 02:03 PM	Keep our beachside a sleepy little beach town, don't sellout!
114662219137	Aug 08 2024 11:28 AM	Responsible growth that does sacrifice our quality or life and minimizes density
114662087204	Aug 08 2024 08:44 AM	A better place to live
114661990725	Aug 08 2024 05:32 AM	Smart sustainable growth that creatively embraces and adapts new buildings to population trends, adopts new technology for multi-modal transportation options, and creates a housing environment enticing to families and the younger generation.
114661810666	Aug 07 2024 10:18 PM	Safe environment where we can work and play
114661789054	Aug 07 2024 09:32 PM	Local feel, slower pace, hospitality, great local businesses
114661668445	Aug 07 2024 05:37 PM	Keep what we have. What you and/or Volusia have already approved for developments is adequate.
114661642825	Aug 07 2024 04:59 PM	Stay small and friendly
114661622289	Aug 07 2024 04:33 PM	Keeping the same population and facilities we have now by not developing any more land
114661463161	Aug 07 2024 01:08 PM	A government that is honest, less traffic.
114661432126	Aug 07 2024 12:28 PM	A city that leverages long term planning to foster intermodal transportation to heighten the equitability of living for those aging in place as well as children
114661405401	Aug 07 2024 11:58 AM	Historic community with thriving commerce and abundant public parks and natural spaces
114661400920	Aug 07 2024 11:53 AM	Maintain growth and preserve the beautiful beach and over population, keeping crime at a minimum
114661356794	Aug 07 2024 11:02 AM	To keep its' small-town feel; keep it clean and beautiful; keep the beach clean; keep it safe from crime
114661348995	Aug 07 2024 10:53 AM	Try to keep it as a small city
114661329132	Aug 07 2024 10:29 AM	Small town vibe without the big box stores and storage buildings. Making the town very family friendly.
114661237761	Aug 07 2024 08:27 AM	Keep it green and stop the over building.
114661230607	Aug 07 2024 08:15 AM	A community that cared about environmental impact and Greenspace with limited well planned development .
114661224319	Aug 07 2024 08:04 AM	preserve it as it is
114661215165	Aug 07 2024 07:48 AM	More people that have lived here long periods to moving to other places
114661165417	Aug 07 2024 06:08 AM	We continue to be the quieter, prettier, friendlier and safer city in this area.
114661061001	Aug 07 2024 02:24 AM	For it to be more of a beach / coastal community
114660979273	Aug 06 2024 10:55 PM	Return to a more quant town.
114660966685	Aug 06 2024 10:26 PM	Please don't loss the small town feel by overbuilding cookie cutter homes, more apartments, car washes or storage units.
114660919281	Aug 06 2024 08:45 PM	No fuel farm, more green spaces, safer for my kids, community unity around what's best for the kids instead of what's going to make someone richer.
114660880782	Aug 06 2024 07:27 PM	My vision is for OB to stay small, quaint, clean
114660864064	Aug 06 2024 06:54 PM	Stay small
114660827057	Aug 06 2024 05:52 PM	Keep it clean and beautiful
114660786151	Aug 06 2024 04:52 PM	It's small town and we need to keep it that way or we will have the same issues as Daytona
114660785104	Aug 06 2024 04:50 PM	Unique small town beach feel
114660764770	Aug 06 2024 04:26 PM	I would like for Ormond Beach to stay the same quaint little town and have the same characteristics of the charm it has now.
114660722238	Aug 06 2024 03:37 PM	Would like to see OB remain green with less congestion and overbuilding
114660696241	Aug 06 2024 03:09 PM	I want Ormond to be a small city, like it was eight years ago before all of the apartments and condos went up. I want roads, utilities to be enough for our population. I want green spaces preserved for other generations and not torn up.
114660685176	Aug 06 2024 02:57 PM	Although I feel it's already been lost - could try to regain the small town feel. Do not try to build more and more when we do not have the space or support for them.
		A beautiful environmental community that is safe for residents from the proposed fuel farm, w/ improved traffic management, controlled growth and expansion of affordable housing.

114660684138	Aug 06 2024 02:56 PM	Be the area leader in preserving and enhancing residents' quality of life with balanced growth and development. Infrastructure that keeps up with growth and development instead of being an afterthought and not having to play 'catch up'. Cooperation and communication with our neighboring cities and Volusia County governments.
114660663180	Aug 06 2024 02:29 PM	A safe place where you can get anywhere on a bike, scooter, roller skates or foot. Free public beach access and great free recreation options.
114660591292	Aug 06 2024 01:05 PM	Small family town
114660565162	Aug 06 2024 12:34 PM	Affordable but beautiful community
114660555099	Aug 06 2024 12:22 PM	Family community with smart growth
114660548241	Aug 06 2024 12:14 PM	Remain a family oriented community, no fuel farm, no more clear cutting and over-development.
114660542884	Aug 06 2024 12:08 PM	The city is nearly built out. Improve the infrastructure and provide more housing opportunities for seniors on fixed income. Maintaining the character of the community and quality of life should be the focus.
114660539317	Aug 06 2024 12:04 PM	Quality lifestyle, and criminals are prosecuted to the full extent. In other words a judicial system that looks out for the victims not the other way around. "Commit a crime in Ormond" you will pay dearly "Kill an Ormond Resident Intentionally" The death penalty is the first resort. No drawn out trials or implementation either!
114660503935	Aug 06 2024 11:24 AM	Maintain the historic, old town feel. Provide opportunities for walking. Support current infrastructure.
114660497660	Aug 06 2024 11:16 AM	Nice safe neighborhoods with good roads and infrastructure. Access to the beach. So beautiful. Fun stuff for seniors and kids. Beautifying what's in place. Need more bike lanes and sidewalks for walkers and strollers etc.
114660496826	Aug 06 2024 11:15 AM	Safe place to raise families; no crime; good schools; beautiful parks
114660490029	Aug 06 2024 11:08 AM	A place with high quality of life.
114660489603	Aug 06 2024 11:07 AM	To stay as a friendly beach town. I don't want it turned into an heavy industrial town, or turn into a overcrowded/overbuilt city.
114660482090	Aug 06 2024 10:59 AM	I would like to see the City limit the growth in the area. Every vacant lot and plot of land does not need to be developed! Let's keep our city, the Tree City!
114660452468	Aug 06 2024 10:24 AM	What it was 10 years ago
114660450767	Aug 06 2024 10:22 AM	Slow down building growth. Growth
114660444357	Aug 06 2024 10:15 AM	To enhance what we have for the current citizens, encourage use of existing buildings vs new development.
114660443069	Aug 06 2024 10:13 AM	A place where diverse people want to live, raise their families and visit. A place that provides a high quality of life to it's residents in an environment that is and will continue to be inclusive and accessible.
114660403902	Aug 06 2024 09:26 AM	less growth
114659871859	Aug 05 2024 03:46 PM	Allow growth while also putting measures in place that will preserve the charm and character that the city is known for

City of Ormond Beach Comprehensive Plan 2045 Update - Final Survey Worksheet 9.30.2024

What are the biggest challenges you believe that Ormond Beach currently experiences, or you believe the city will face over the next 20 years?

Answered	186	
Skipped	10	
Respondent ID	Response Date	Responses
114692044833	Sep 18 2024 02:36 PM	Limited land = limited growth = higher taxes at some point
114691156008	Sep 17 2024 04:45 PM	Effectively managing growth in the busy corridors
		Maintaining / improving tax base to support services and growth while being landlocked.
114684819763	Sep 09 2024 08:25 PM	Hurricane preparedness / stormwater improvements.
114684784685	Sep 09 2024 07:21 PM	Keep Belvedere away, save our green space what is left of it. SAVE TOMOKA OAKS golf course if we have a willing seller.
114684358420	Sep 09 2024 10:53 AM	Overdevelopment will lead to more traffic congestion, less availability of emergency and daily medical personnel, and compromise education which is already facing budget and staff cuts.
114684290117	Sep 09 2024 09:40 AM	Controlling growth. Keeping the small, historic town feel and function and keeping quality of maintenance, etc.
114683429922	Sep 07 2024 03:58 PM	Too much development.
114683429070	Sep 07 2024 03:55 PM	Over the 30 years I have lived here, overcrowded roads and stormwater issues seem to have increased.
114683418154	Sep 07 2024 03:18 PM	Over building housing
114680788831	Sep 04 2024 12:25 PM	managing all the new people moving into the new city on RT 40, and in all the new, but nearby, Daytona apartments
114680585408	Sep 04 2024 08:53 AM	Overpopulation, do not want to turn Ormond Beach into a big city with tons of traffic.
114680215191	Sep 03 2024 08:15 PM	Over crowded, lack of trees, busy roads
114680005115	Sep 03 2024 03:00 PM	Pressure from developers. Managing the infrastructure to deal with the population explosion that has already taken place.
114678254396	Aug 31 2024 02:16 PM	For too much growth.
114678165469	Aug 31 2024 10:39 AM	Controlling development and having enough healthcare in our area.
114677355981	Aug 30 2024 07:33 AM	Housing development west of I-95 connecting to Granada Avenue
114677063608	Aug 29 2024 09:34 PM	Overgrowth at the expense natural areas that create the unique character and make OB the place people want to call home.
114677000430	Aug 29 2024 07:43 PM	Destruction of the environment and losing the town's identity.
114676819599	Aug 29 2024 03:59 PM	halting over-development
114676418248	Aug 29 2024 09:48 AM	More population
114674970353	Aug 27 2024 03:42 PM	Illegal immigrant crime, increasing taxes, Agenda 2030 false narratives and promises, Green New Scams that the city will fall for, stormwater, over development, poor budgeting and fiscal management, and the worst by far is the desire by many on John Anderson to build "affordable housing" and stick it in someone else neighborhood and all the problems that will soon follow, like they always do.
114674966047	Aug 27 2024 03:37 PM	Obviously traffic, too many people and not enough emergency response to handle it.
114674798008	Aug 27 2024 12:26 PM	Locals who want things to stay as they always have been)-:
114674746857	Aug 27 2024 11:30 AM	Growth from surrounding areas impacting the city, with respect to traffic and potable water and storm water runoff
114674710537	Aug 27 2024 10:53 AM	Roads, sewers & septic that are insufficient to handle the growth beachside.
114674706645	Aug 27 2024 10:49 AM	too rapid growth (in nearby cities) that impact our roadways
114674703589	Aug 27 2024 10:45 AM	Daytona Beach dense housing over development
114674694926	Aug 27 2024 10:36 AM	Overgrowth
114674680256	Aug 27 2024 10:22 AM	FLOODING
114674676558	Aug 27 2024 10:18 AM	clogged roads.
114674677002	Aug 27 2024 10:18 AM	Overdevelopment
114674670410	Aug 27 2024 10:11 AM	Increase in traffic
114674668505	Aug 27 2024 10:09 AM	Daytona Beach expansion impacting SR 40
114674663398	Aug 27 2024 10:03 AM	Building more than roads and medical care can handle.
114674273941	Aug 26 2024 08:47 PM	Stronger hurricanes are certainly an existential challenge to the future of Ormond Beach and has to be addressed now before it is too late.

114674060444	Aug 26 2024 03:02 PM	Overdevelopment. This is not the quaint, quiet town is was 20 years ago. We need to slow down. We don't want to become Port Orange or turn Granada into Dunlawton. Our area is unique and our businesses and our services should be as well. How many Dollar Stores do we need? Chain businesses and restaurants - not good for our area. Keep Ormond Beach unique - we don't want to be like every other FI destination.
114674058488	Aug 26 2024 03:00 PM	Development without appropriate drainage planning leading to increased flooding issues
114674041489	Aug 26 2024 02:39 PM	Keeping growth from obliterating the natural landscape.
114673984829	Aug 26 2024 01:33 PM	Too much growth
114673979337	Aug 26 2024 01:27 PM	Traffic. Not enough law enforcement to enforce traffic laws. Replacing long-term politicians who lack the ability to manage change in today's world.
114673902708	Aug 26 2024 11:59 AM	Over expansion westward leaving the inner Ormond Beach corridor to fall into decline.
114673880068	Aug 26 2024 11:35 AM	Over development which will turn older businesses and housing into discarded messes and run down that will encourage homeless and druggies. And not surveying and updating zoning laws that allow dangerous and inappropriate business to build and operate in areas close to homes, schools, and sport facilities like the proposed Full Farm
114673817030	Aug 26 2024 10:30 AM	Balancing growth with infrastructure
114673478848	Aug 25 2024 09:30 PM	Urban sprawl, environmental degradation, car dependency
114673402419	Aug 25 2024 05:04 PM	Stormwater
114673226667	Aug 25 2024 06:47 AM	the pressure to build to many homes.
114673100465	Aug 24 2024 08:04 PM	Overcrowded and traffic jams
114672740643	Aug 23 2024 11:09 PM	Over the next 20 years, we need to be proactive and constantly plan for the growth that will continue in our city so that we may maintain our quality of life. We will need more housing, schools, hospitals, roads, utilities, etc. We should also look to attract more manufacturing with high paying jobs, especially in the space sector. As our entire region adapts to support the space industry in a bigger way, Ormond Beach should be ready to welcome those new employees and executives.
114672549851	Aug 23 2024 04:01 PM	Traffic Congestion along Granada Blvd as the only primary East/West thoroughfare in Ormond Beach.
114672380159	Aug 23 2024 11:53 AM	Too much growth and development.
114672317455	Aug 23 2024 10:33 AM	Quality of life vs. big money expansionism.
114671883660	Aug 22 2024 06:25 PM	Planning and implementation of viable master plans
114671419604	Aug 22 2024 07:28 AM	Over building of new homes
		Overdevelopment
114671220483	Aug 21 2024 11:12 PM	Ormond Beach has been completely over-run by apartment buildings and storage units, and it's a reflection of decades of weak leadership in planning and zoning. This forces us into an infrastructure expansion mindset when we need the opposite, shrinking the community to make it an exclusive community.
114671162814	Aug 21 2024 08:57 PM	na
114671161549	Aug 21 2024 08:54 PM	Land being overdeveloped causing traffic nightmares like larger cities.
114671031940	Aug 21 2024 04:45 PM	overcrowding in schools due to increase population
114670765308	Aug 21 2024 11:11 AM	traffic for commuters from other cities coming into OB for work Also for local residents traffic
114670698971	Aug 21 2024 09:51 AM	Overdevelopment, Stress of water utilization, Inattention Of city commissioners to these issues As they may lean towards appeasing developers, and not the citizens of this beautiful city
114670649490	Aug 21 2024 08:44 AM	corrupt developers. Snowbirds.
114670192748	Aug 20 2024 05:10 PM	I believe the surge in apartment developments is a temporary trend. If we continue allowing so many to be built, we must consider what they will look like in 10 to 15 years. Will they still serve the community effectively, or will they become burdensome
114669990173	Aug 20 2024 01:05 PM	growing population and a community that doesn't want to change to accommodate the growth.
114669277114	Aug 19 2024 02:55 PM	Infrastructure/traffic. Keeping our city clean. Safe place for homeless people who want to get off the streets to live & learn how to transition. (Salty Family Services is a great model to review & revamp for the overall homeless population) and looking at our youth & how to engage them at every age to keep them off the streets out of trouble and no longer at risk. Healthcare, especially mental healthcare, is seriously lacking for the country as a whole.
114669269523	Aug 19 2024 02:44 PM	Future Overdevelopment.
114668641041	Aug 18 2024 02:43 PM	Over-development and not enough green space and the flooding that will continue to worsen as a result of it
114668615233	Aug 18 2024 01:10 PM	Airport being self-sustaining and smart development
114668546999	Aug 18 2024 09:26 AM	Too much traffic and too many crummy apartments popping up all over the place.

114668198516	Aug 17 2024 10:03 AM	Loss of natural areas such as golf courses, wetlands, trees, and vegetation
114668175530	Aug 17 2024 08:58 AM	Traffic, especially beachside. Lack of places to ride bicycle, especially beachside.
114668139144	Aug 17 2024 07:00 AM	Over population and traffic
114668060353	Aug 17 2024 01:46 AM	Over development on the beach and beach erosion
114667895547	Aug 16 2024 05:31 PM	I know big developers will continue to fund elected officials so they can enjoy land use and zoning changes. Getting enough voters interested so the above can be prevented.
114667887645	Aug 16 2024 05:16 PM	Over development without planning for the future (roads, hospitals, good jobs, quality of life) Taxes will be too high, in combination with insurance and cost of living. High taxes, high insurance, high cost of living. I don't want to see any more increase in school taxes. I don't want to see any more strip malls or lousy fast food places. Support small businesses more.
114667826196	Aug 16 2024 03:35 PM	Lack of Restaurant options near the beach. Lack of Public Parking with Showers and Bathrooms
114667749888	Aug 16 2024 01:39 PM	Traffic, overdevelopment
114667618395	Aug 16 2024 10:37 AM	Overcrowding
114667231607	Aug 15 2024 07:56 PM	Over development, lack of infrastructure
114667157856	Aug 15 2024 05:28 PM	traffic and growth
114667145463	Aug 15 2024 05:07 PM	Population migration West of I-95 will create a second town center, diluting the current downtown and as a side effect, it'll reduce the sense of community.
114667062207	Aug 15 2024 03:10 PM	I think the city will be affected over the next 20 years by climate change, stronger storms and higher temperatures. The current stormwater system can't handle heavy storms. we also need to get a handle on development, and not approve things like massive apartment complexes such as the ones we see on Williamson and on LPGA in Daytona Beach. we need to keep Ormond small so that it remains the wonderful city that we all love.
114667059913	Aug 15 2024 03:08 PM	Stopping more development
114667038102	Aug 15 2024 02:41 PM	Possible increases in taxes, crime and less attractive properties should we have a continued economic downturn.
114666951199	Aug 15 2024 12:53 PM	Development of low income, senior housing. Water availability. Septic tank conversion.
114666937262	Aug 15 2024 12:36 PM	Water supply for increasing population
114666857887	Aug 15 2024 11:00 AM	Pressure and money from developers overwhelming the needs and wishes of community members.
114666844491	Aug 15 2024 10:43 AM	Too much growth too fast. Unfortunately, we can't control what Daytona (on our border at Granada) and Flagler (Hunter's Ridge and north) do to add to the strain, but growth for the sake of growth will lead to the destruction of the atmosphere of Ormond Beach. As a friend of mine says as they watch the new developments and businesses clear cutting huge lots of land, "If I had wanted to live in South Florida I would have stayed there. At this pace, I will be ready to leave Ormond in a year or two."
114666835265	Aug 15 2024 10:32 AM	Traffic and Crime.
114666828954	Aug 15 2024 10:24 AM	City Hall itself is the biggest problem
114666810987	Aug 15 2024 10:02 AM	Growth demands on infrastructure. Further demands on HOAs causing too many people to not be able to afford HOA dues and trying to sell. Too many condos on the market & soaring HOA dues are causing units not to sell and lowering property values.
114666798187	Aug 15 2024 09:44 AM	Growth without adequate infrastructure.
114666790823	Aug 15 2024 09:33 AM	The excess building of fast foods, storage units, and car washes.
114666783868	Aug 15 2024 09:22 AM	Increase in population.
114666778725	Aug 15 2024 09:14 AM	1) Overdevelopment, more concrete, more traffic 2) Sea level rise & flooding as storms become more frequent and virulent. 3) Affordability
114666772970	Aug 15 2024 09:05 AM	Flooding
114666771043	Aug 15 2024 09:02 AM	Unrestricted grown and the potential for corruption/graft of developers and politicians.
114666757938	Aug 15 2024 08:39 AM	Fuel tanks and expansion of business. Overpopulation.
114666755921	Aug 15 2024 08:35 AM	Traffic congestion, overuse of utilities, affordable housing, over development now and in the future
114666751186	Aug 15 2024 08:27 AM	Overcrowding. Developers can get away with destroying green space without regard for gopher tortoises and other animals. Burning with diesel oil without regard for rules/regs because Volusia County covers them. The practices are disgraceful.
114666747414	Aug 15 2024 08:19 AM	Over growth of people and housing
114666740302	Aug 15 2024 08:06 AM	Over growth of people and housing
114666736890	Aug 15 2024 07:59 AM	Too many people drawing on resources, crowding roads
114666731152	Aug 15 2024 07:47 AM	Traffic and over development

114666725633	Aug 15 2024 07:35 AM	Is the city prepared for the growth around us and within us? Plans should be thought out long term on traffic needs, not just what is needed today. Same for commerce and parks. Don't just look at what the population is now, look at where it will be 20 years from now and ask what we can do to stay on pace.
114666720961	Aug 15 2024 07:25 AM	Traffic and roads
114666720810	Aug 15 2024 07:25 AM	Taxes crime
114666716833	Aug 15 2024 07:17 AM	Building homes BEFORE infrastructure. OB is famous for doing that
114666710998	Aug 15 2024 07:04 AM	Infrastructure/roads
114666696016	Aug 15 2024 06:29 AM	Traffic due to housing construction outside the city.
114666694775	Aug 15 2024 06:26 AM	Traffic congestion and city facilities
114666694522	Aug 15 2024 06:26 AM	Slowing down commercial development, traffic congestion. High cost housing
114666464798	Aug 14 2024 08:02 PM	I feel like traffic may be getting worse
114666362934	Aug 14 2024 04:48 PM	Younger lazy people who burden the system. And are a hendrance more than a helper.
114666349225	Aug 14 2024 04:28 PM	Too much money going into politicians pockets to get projects done,that are NOT always for the whole communities best interest. People in office now,probably won't be in office when items come to fruition .
114665329861	Aug 13 2024 01:11 PM	I fear the complete development of Avalon park will put a strain on all of ormonds facilities and it will be a problem that we will have to deal with after the fact.
114665286072	Aug 13 2024 12:15 PM	Affordable housing and employment pay scale. Attracting big business to offset taxes.
114665110565	Aug 13 2024 08:24 AM	Over-development, over- commercialization
114664817062	Aug 12 2024 09:06 PM	Over development and poor infrastructure
114664604293	Aug 12 2024 03:14 PM	The transition from biker/spring break town to a more year round consistency for revenue. Maybe a new annual festival that is related to one of the many things in Ormond Beach that draw people here?
114664436526	Aug 12 2024 11:44 AM	Growth! Traffic! Housing - especially for elderly! (You should have a had a category for that when you asked about housing.)
114663461010	Aug 10 2024 07:47 AM	Traffic and expanding visitor populations. Insurance costs and rising ocean levels.
114663107390	Aug 09 2024 02:44 PM	Age in place housing. There simply are not enough services/options for older people.
114663094365	Aug 09 2024 02:23 PM	Over crowding streets to busy to handle pedestrians and traffic combines
114663012183	Aug 09 2024 12:16 PM	Expansion in a classy way.
114662811289	Aug 09 2024 07:00 AM	Beach erosion.
114662808933	Aug 09 2024 06:55 AM	A fuel farm, over development and taking control of the airport
114662582347	Aug 08 2024 08:41 PM	The push for more housing and overdevelopment. Let's use the open buildings we already have!
114662346395	Aug 08 2024 02:03 PM	Density/developments/growth management
114662219137	Aug 08 2024 11:28 AM	Managing growth from within the city and the impacts caused by the adjacent cities
114662147464	Aug 08 2024 10:01 AM	Climate change and overdevelopment
114662087204	Aug 08 2024 08:44 AM	1. No-growth advocates that want Ormond Beach to return to the 19th century. 2. Height restrictions equals urban sprawl. Soon there will be nowhere to go but up, unfortunately at the expense of virgin land that is used up to the end until there is no choice to go up. 3. Utility capacity and the city's requirement to serve external jurisdictions without just compensation. 4. A baby-boomer definition of affordable housing challenges the development of 21st century definition of affordable housing for starter families, fixed-income elderly, and employees in the leisure/hospitality industry who barely make enough to get by. 5. As a coastal community, will need to adapt and be prepared to adjust for any impact of storms, flooding, and sinkholes.
114661990725	Aug 08 2024 05:32 AM	Impact of growth from people moving in and surrounding areas to ormond. Schools needing updating, having adequate transportation for aging populations. Having places for people to have leisure (Flagler has amazing bike, walking trails)
114661810666	Aug 07 2024 10:18 PM	Growth, limited ability to accommodate traffic and expansion. Corporate sell out. Maintaining local feel.
114661789054	Aug 07 2024 09:32 PM	Traffic, because YOU allowed too many homes, condos, etc. to move in without a feasibility study to accommodate all that. You take impact fees, but don't rectify the roads or add adequate schooling for the new families. STOP DEVELOPING.
114661668445	Aug 07 2024 05:37 PM	Environmental conservation/sustainability
114661642825	Aug 07 2024 04:59 PM	The increase in population and the government that will be needed to control it
114661622289	Aug 07 2024 04:33 PM	Crooked current city commissioners, more green space
114661463161	Aug 07 2024 01:08 PM	Vision
114661432126	Aug 07 2024 12:28 PM	Attracting and keeping high quality businesses. I'd like to see fewer smoke and vape shops and massage businesses and more produce and higher quality grocery stores.
114661405401	Aug 07 2024 11:58 AM	Over build of housing projects.

114661400920	Aug 07 2024 11:53 AM	Too much growth- Granada Blvd is too busy now. Need emergency services on beachside; only one bridge from beachside to mainland
114661356794	Aug 07 2024 11:02 AM	Population growth
114661348995	Aug 07 2024 10:53 AM	Over growth and use of roads/water resources
114661329132	Aug 07 2024 10:29 AM	Overcrowding
114661237761	Aug 07 2024 08:27 AM	Overcrowded schools . Less green space .More traffic .
114661230607	Aug 07 2024 08:15 AM	too much affordable housing, impact of unrestrained development and higher density
114661224319	Aug 07 2024 08:04 AM	Debt. Airport, roads insufficient for the amount of vehicles and smaller town being run by people who are not really business minded.
114661215165	Aug 07 2024 07:48 AM	Overdevelopment causing flooding and increased heat from lack of trees
114661165417	Aug 07 2024 06:08 AM	Over growth
114661061001	Aug 07 2024 02:24 AM	Traffic.
114660979273	Aug 06 2024 10:55 PM	Homeless
114660966685	Aug 06 2024 10:26 PM	Fuel farm, corrupt politicians, substance abuse, homelessness, lack of focus on current action's impact on long term goals.
114660919281	Aug 06 2024 08:45 PM	Traffic and danger if fuel farm is allowed. Stop so much building. We don't need more car washes, nail salons, and dollar stores.
114660880782	Aug 06 2024 07:27 PM	Traffic increasing, too much commercial buildings, school overcrowding
114660871571	Aug 06 2024 07:08 PM	Growth!
114660864064	Aug 06 2024 06:54 PM	Belvedere Terminals is a nightmare scenario and must be stopped. Traffic is becoming ridiculous due to all the development.
114660827057	Aug 06 2024 05:52 PM	Too much traffic on the few main streets we have and no way to expand for all the apartments that keep going in.
114660786151	Aug 06 2024 04:52 PM	Limited restaurants/entertainment that is open after 7 pm
114660785104	Aug 06 2024 04:50 PM	Traffic congestion, overcrowding, stormwater management
114660764770	Aug 06 2024 04:26 PM	Overbuilding
114660759645	Aug 06 2024 04:20 PM	Too much development, eroding the environment, frequent flooding due to deforestation.
114660722238	Aug 06 2024 03:37 PM	If we continue to expand, our biggest problem will be environmental. We will experience flooding, loss of trees, pollution, toxic air and noise.
114660696241	Aug 06 2024 03:09 PM	Overbuilding and expanding. Stop!
114660685176	Aug 06 2024 02:57 PM	Over development and the proposed fuel farm.
114660684138	Aug 06 2024 02:56 PM	Controlling our destiny as it relates to growth and development going on around us.
114660663180	Aug 06 2024 02:29 PM	Traffic congestion, panhandling, lack of self transportation without motorized vehicle.
114660591292	Aug 06 2024 01:05 PM	Over population
114660565162	Aug 06 2024 12:34 PM	The homeless population and drugs especially southern end, Nova rd area.
114660555099	Aug 06 2024 12:22 PM	Traffic and lack of infrastructure on Granada.
114660542884	Aug 06 2024 12:08 PM	Increases in taxes for wants and not needs. The city should be run like a business. The city needs tax base to take the burden off the residents.
114660539317	Aug 06 2024 12:04 PM	Remaining a quality place to live, Daytona and Holly Hill overflow into Ormond is already happening, look at the crime in Volusia County. If Ormond Beach adopts a strong Justice system criminals will be afraid to hurt Ormond residents when Daytona and Holly Hill has plenty of opportunities. Just look at Ridgewood between LPGA and Orange Ave!
114660512359	Aug 06 2024 11:33 AM	Overcrowding, roadways ill equipped to handle the traffic.
114660503935	Aug 06 2024 11:24 AM	Outside interests want to over-develop the area. Need to improve local entertainment amenities and parks. Support infrastructure that protects the citizens against flooding or hurricane damage.
114660501792	Aug 06 2024 11:21 AM	Grow too quick too fast and not have great infrastructure.
		Infrastructure, too many people for Ormond Beach, utilities and preservation of what land is left.
114660497660	Aug 06 2024 11:16 AM	Smart planning and smart design & development and smart roads.
114660496826	Aug 06 2024 11:15 AM	Stopping the Belvedere fuel farm and containing heavy industrial. Preventing an increase in crime. Improving the quality of schools and education.
114660492419	Aug 06 2024 11:10 AM	Traffic on Granada and Beach erosion
114660490029	Aug 06 2024 11:08 AM	Traffic congestion on Granada Boulevard
114660489603	Aug 06 2024 11:07 AM	Keeping development to a minimum.
114660482090	Aug 06 2024 10:59 AM	Traffic, traffic, traffic! There's too much development going on! The roads aren't designed for the number of people that have moved to the area and that are doing business in the area.
114660465442	Aug 06 2024 10:39 AM	We are being priced out of our home due to outrageous insurance and taxes.

114660452468	Aug 06 2024 10:24 AM	Too many people
		Growth
		Big time investors
114660450767	Aug 06 2024 10:22 AM	Traffic
114660444357	Aug 06 2024 10:15 AM	Overgrowth
114660443069	Aug 06 2024 10:13 AM	storm water, environmental/water quality issues, traffic congestion
114660403902	Aug 06 2024 09:26 AM	growth
114659871859	Aug 05 2024 03:46 PM	To much development and not enough preservation

City of Ormond Beach Comprehensive Plan 2045 Update - Final Survey Worksheet 9.30.2024

Please provide any other comments, thoughts, or issues you feel should be discussed in the Comprehensive Plan 2045 update.

Answered	115	
Skipped	81	
Respondent ID	Response Date	Responses
114692044833	Sep 18 2024 02:36 PM	we need to prioritize maintaining the facilities and infrastructure we have and promote redevelopment/property improvement in areas that APPEAR blighted as many areas are looking old and run down.
114684819763	Sep 09 2024 08:25 PM	Annexation of Ormond by the Sea and other communities adjacent to Ormond Beach.
114684784685	Sep 09 2024 07:21 PM	I will only be voting for politicians who want to stop the over-building on our last available green space.
114684358420	Sep 09 2024 10:53 AM	Medical infrastructure needs to be added to criteria.
		1) Improvements to the Granada Bridge. Needs a refresh, artistic update. Paint, some decorations, something. 2) Really focusing on function and aesthetics of the Downtown Dining area. 3) Codes/ Ordinances to keep quality on Granada, such as keeping out Vape shops / Tattoo parlors on the main drag. 4) Enforcing the Codes / Ordinances / Laws, building into the Police budget enough money to enforce the speed limits with PEOPLE not speed tables. We have to get back to personal code enforcement. 5) Burying the utilities for hurricanes. 6) Preserving Parks / Land / The Loop / Trees / Green Spaces / and limiting growth to keep our small town SMALL.
114684290117	Sep 09 2024 09:40 AM	1- community appearance board
114680788831	Sep 04 2024 12:25 PM	2- negligible approvals for development outside the zoning plan
114680585408	Sep 04 2024 08:53 AM	Thank you for caring with the residence think. I truly hope that you all can manage/limit the growth, to keep Ormond Beach the lovely town that it is.
		Loewer home and car insurance.
114678254396	Aug 31 2024 02:16 PM	
114677355981	Aug 30 2024 07:33 AM	Hardening utilities for hurricanes
114677000430	Aug 29 2024 07:43 PM	Growth is inevitable but you have an opportunity to manage that growth so that it does not impact our quality of life or destroy the environment. The support that has been shown to the residents of Tomoka Oaks against overdevelopment of the golf course is a shining example of how government can indeed support their residents if they choose to.
114676418248	Aug 29 2024 09:48 AM	I live Beachside so most of my comments are referred to this area.
		Anybody using meaningless undefined words is a huge problem...It's just left leaning NGOs and word salad designed to create solutions to problems that don't exist at the citizens' detriment. Buzzwords like, Consensus, Community Development, Land Use and Environment, Collaborative Approaches, Purchase of Development Rights (PRD), Maintaining a strong, diversified local economy, Preserve open space, Preserving our heritage, Heritage corridors, Heritage area, Historic preservation, Quality growth, Smart Growth, Innovative new development, Regional governments, Regional planning boards, Urban forest, Conservation easements, Climate change, Sustainable farming, Comprehensive planning, Growth management, are undefined and intentionally designed to persuade the masses, to benefit a few, at the expense of many. The message of sustainable living and the people pushing that agenda are the very people that screwed up other cities and are now trying to bring the very same failed policies to Ormond Beach.
114674970353	Aug 27 2024 03:42 PM	Will provide a detailed follow up on policies that I noted in the 2025/2045 Comp plan.
114674966047	Aug 27 2024 03:37 PM	
114674746857	Aug 27 2024 11:30 AM	I believe in landowner's rights to do with their properties what they wish, if it is legal. Zoning needs to be better, in some cases, to prevent problems like the Belvedere fuel depot. I believe that area is in the county.
114674710537	Aug 27 2024 10:53 AM	Parking from the intersection of Granada & A1A to the intersection of Granada & Yonge. As an example, I'm not sure how the future operator of Billy's Tap Room & Grill will be able to survive based on parking alone.
114674694926	Aug 27 2024 10:36 AM	Stop Clearcutting
		"Man plans and God laughs."
114674680256	Aug 27 2024 10:22 AM	Please inquire of Him in making decisions.
		What about a few more areas to take our dogs & perhaps some "pocket parks" for dogs. More bike paths would be nice. We love living in Ormond Beach. The City government has been exceptional for years. Than you for this.
114674676558	Aug 27 2024 10:18 AM	And thank you for hosting this. I hope it was beneficial.
114674664547	Aug 27 2024 10:04 AM	Ormond Beach is a treasure. Try to keep its beach side fell and beauty.
114674273941	Aug 26 2024 08:47 PM	Walkable communities and mixed-use zoning have proven to provide not only many economic benefits, but a more connected and happy community. Ormond Beach deserves this future.
114674058488	Aug 26 2024 03:00 PM	Code enforcement as revenue generator and improved quality of life
114674041489	Aug 26 2024 02:39 PM	Please keep state parks, city parks, and the beaches natural and free from development and car traffic.

114673979337	Aug 26 2024 01:27 PM	I want to hear what has been done and what is planned to be done beachside (32176). Once you get over the Granada bridge (walking or by vehicle), the road to the beach is deplorable. An embarrassment. Obnoxious drivers, driving obnoxious "loud" vehicles with complete disregard for anyone but themselves. Go north on Halifax, which is a residential neighborhood, you would think you're at the speedway. Votran speeds, the mail carriers speed, the vendors speed. Current and previous leadership has missed the mark completely.
114673902708	Aug 26 2024 11:59 AM	Please look for ways to maintain the city's character. Too much growth in big box establishments and apartments actually cheapens the integrity and character of a small town. Make smart economic growth for professional business ventures, not just service oriented jobs.
114673880068	Aug 26 2024 11:35 AM	Plann as if you children and grandchildren are going to grow up here and it will be beautiful and safe.
114673402419	Aug 25 2024 05:04 PM	Waterways access
114673226667	Aug 25 2024 06:47 AM	limit the building. encourage small buisnesses and keep it affordable
114673100465	Aug 24 2024 08:04 PM	Tell the politicians who run NYC CA MI WI and other cities who ran the people our for bD policies overcrowding high taxes not to bring them to Florida and ruin our beautiful city like they ruined theirs.
114672317455	Aug 23 2024 10:33 AM	Greater financial responsibility by developers, city land acquisition for green space, recreation and safe pathways for pedestrians and bicyclists.
114671883660	Aug 22 2024 06:25 PM	Great town...keep it that way
114671419604	Aug 22 2024 07:28 AM	Updating as necessary to maintain the integrity of Ormond Beach long term, we don't want to turn into Daytona Beach because of our inability to manage growth responsibly.
114671220483	Aug 21 2024 11:12 PM	Growth is not a positive goal. That is very hard for an elected official or city staff member to agree with because it is a threat to their positions. I challenge you to rethink the way you think, and make it a goal to shrink out community as a way of making it exclusive and restoring its character.
114671162814	Aug 21 2024 08:57 PM	na
114671161549	Aug 21 2024 08:54 PM	Reverting back to the original rules for wetland management before SJWMD rules were adopted
114671031940	Aug 21 2024 04:45 PM	N US Hwy 1 looks like one giant junk yard. I know it was annexed from the county, but it would be nice if it could be held to the same standards as the rest of Ormond Beach. When family and friends come to visit, I take them the scenic route and bypass US 1 because it is not how I describe Ormond Beach to be.
114670698971	Aug 21 2024 09:51 AM	Please balance all decisions regarding development with environmental and quality of life impacts on our citizens and our city
114670649490	Aug 21 2024 08:44 AM	No to the fuel farm
114669990173	Aug 20 2024 01:05 PM	Parking for the Downtown area, we can build an Attractive Parking Garage centrally located. we have to manage our growth to accommodate businesses and people moving to our area.
114669277114	Aug 19 2024 02:55 PM	I would personally love to see a program initiative where any and all local businesses (I wish) would institute a program with the schools and local shelters or even the veterans hospital to allow employees to have 1 day a month to volunteer where they still get paid but have accountability for where the serve/volunteer. Maybe in the schools helping kids learn to read, help at pickup/drop off for traffic, help file, answer phones, copying for teachers, help with homework during school or immediately after school. Maybe they volunteer with veterans. Serve meals in shelters/soup kitchens. Do laundry? So many non-profits & schools need help & that would be businesses & citizens getting involved in our community to see the issues first hand and get directly involved in being a part of the solution without feeling the pain in your pocket or your family schedule. It would depend on background checks & obviously skill set, but it could really make a difference in our community & to our children & families & teachers & veterans, etc etc etc. community involvement is just not an easy initiative to tackle. I wish had all the answers, but I don't. I have ideas, but no proof that they will work. Better than sitting on our hands.
114669269523	Aug 19 2024 02:44 PM	Research communities that have expanded responsibly and follow steps taken to do so.
114668687484	Aug 18 2024 05:35 PM	Please consider not allowing developers to remove so many of the trees and plants. I've seen one development on Clyde Morris that kept a lot of trees and planted even more. It screens the development from the passerby's and vice versa. It probably absorbs auto pollution as a plus.
114668641041	Aug 18 2024 02:43 PM	We live in Tymber Creek and it's sad that Ormond Beach didn't continue with Tymber Creek and the Trails type of developments and build around the natural environment rather than clear-cutting and then sticking in a few trees
114668615233	Aug 18 2024 01:10 PM	Perhaps the police department should have some new facilities within the next 6-7 years. Daytona, Port Orange has really nice new facilities, why not our Ormond Police.
114668198516	Aug 17 2024 10:03 AM	Change department names from abstractions such as "state of mind" i.e. Leisure Services to concrete concepts such as parks and recreation.
114668139144	Aug 17 2024 07:00 AM	Revisit the concepts of Open space and vacant land. Redefine a new park classification, to add an overlay park.
114667895547	Aug 16 2024 05:31 PM	Name City Hall to Ormond Beach Civic Park.
114667887645	Aug 16 2024 05:16 PM	Encourage use of empty businesses instead of building new ones
114667826196	Aug 16 2024 03:35 PM	Council must present a clear picture of the impacts of over-development on traffic, water, police, fire, schools, etc.
114667749888	Aug 16 2024 01:39 PM	We need economic development that isn't building ugly townhomes everywhere. LPGA is a blight and I avoid driving and shopping there. How about bringing in jobs and small business development?
114667618395	Aug 16 2024 10:37 AM	Public Parking with Showers and Bathrooms
114667231607	Aug 15 2024 07:56 PM	City leaders need to listen to the citizens more, and less then the special interest groups
		Less apartments to slow the growth. Let us catch up with the infrastructure.
		Be smarter with the taxation monies, in regards to spending.

114667145463	Aug 15 2024 05:07 PM	Ormond downtown is an amazing, under utilized resource. If expanded north and south (New Briton and Tomoka Avenue), it can be a destination like Sanford and Daytona. For now, the narrow strip of Granada segregated by the huge bridge is stunting Ormond's growth potential.
114667062207	Aug 15 2024 03:10 PM	I live in an area of Ormond Beach that borders Holly Hill. The cooperation between both cities on maintaining the street and the stormwater is non-existent. there needs to be a partnership or attention paid to areas abutting of the jurisdictions. I often feel like we are in the wilderness here, not part of the city that we pay taxes to and we are proud to live in. it's a wonderful City and a wonderful place to live, keeping it small and keeping it well managed. will ensure a wonderful future for everyone.
114667038102	Aug 15 2024 02:41 PM	Granada Blvd. is overbuilt which is causing major traffic congestion. AIA is seedy and the landlords who own those properties like the tattoo parlor and the auto body shop should be encouraged to make those buildings more attractive.
114666951199	Aug 15 2024 12:53 PM	We need to do things for our infra structure, I.e., road enlarging & paving, utilities underground, maybe another bridge to get over to the Mainland for hurricanes.
114666835265	Aug 15 2024 10:32 AM	City input tin encouraging economic competition at the airport.
114666828954	Aug 15 2024 10:24 AM	THE CITY OF ORMOND BEACH DOES NOT NEED TO FOLLOW ADAPTE TO THE AGENDA 2030 MODEL AND THIS IS ALL BAD. I HAVE SEEN FIRST HAND WHAT THIS TYPE OF LEADING CAN DO
114666810987	Aug 15 2024 10:02 AM	Really, the impact of all the recent legislation, soaring insurance cost and HOA dues are putting undue duress on retired beach communities. There is o gluten of condos on the market because retirees can't afford the rising cost of insurance, cost of repairs insurance companies find an excuse to not cover, and the demands of recent legislation. We need help here. Aging septic tanks are next. We need some sort of grant to address this or else properties on the market will soar, and property values will tank.
114666790823	Aug 15 2024 09:33 AM	How to stop corporations from building in our community!!
114666783868	Aug 15 2024 09:22 AM	Don't keep building apartments, build single family homes.
114666778725	Aug 15 2024 09:14 AM	The last time a community wide survey about recreational needs was completed in order to create a master plan (just 2 years ago), mixed use trails and paths was CLEARLY the top need. YET.....no significant plans are being made to add more paths and trails in the MAIN part of the city. Yes, there are some plans for west of 95, but A1A is sorely in need of better & safer paths. More sidewalks are needed to keep pedestrians and bicyclists away from motor vehicles.
114666772970	Aug 15 2024 09:05 AM	Do not allow the government to be overrun by political goals as opposed to community preservation.
114666771043	Aug 15 2024 09:02 AM	We don't want to be responsible for the erosion of this city's environment and culture through mismanagement of resources.
114666757938	Aug 15 2024 08:39 AM	Please find and secure a variety of green spaces.
114666751186	Aug 15 2024 08:27 AM	it is bordering on criminal to approve clear cutting land on Granada for development and then it sits empty for years (parcel where only Wawa and car wash). What is the plan?
114666747414	Aug 15 2024 08:19 AM	Ormond Beach has gone downhill in the three years that I have been here. I cannot imagine what it will look like in 2045.
114666740302	Aug 15 2024 08:06 AM	No fuel farm, less land development, return nature
114666731152	Aug 15 2024 07:47 AM	Overall I believe the city is well run.
114666720961	Aug 15 2024 07:25 AM	I know and believe change is good but not when quality is taken away. Improve our beautiful town by enhancing roads, parks, land, keeping the beaches clean and dog free in OBS area and not just building more and more unaffordable communities. We moved here because of the quiet beachside vibe and that has been slowly taken away. Life isn't always just about money and development
114666710998	Aug 15 2024 07:04 AM	N/a
114666697578	Aug 15 2024 06:33 AM	Preserving the natural areas.
114666694775	Aug 15 2024 06:26 AM	Traffic congestion , the amount frivolous spending , the payroll for the most senior positions another access point for beachside residents Granada bridge getting way to busy
114666464798	Aug 14 2024 08:02 PM	Just please look at the basketball courts.
114666362934	Aug 14 2024 04:48 PM	Bring jobs and investment to Ormond Beach. Curb homelessness. If you can't afford to live here, move away.
114666349225	Aug 14 2024 04:28 PM	More affordable or free Summer programs for kids...I think Ormond needs a pool...other than the YWCA one..kids need to learn how to swim. Require stronger building codes for buildings to withstand climate challenges such as heat,storms. Need more Firestations /EMS further out West. Expand Hand Av. to West side of town for evacuation if needed...Granada US1 won't be sufficient. Plus I would like if people/groups buying LARGE parcels of land,give city a USE,even if down the road.Like the petroleum storage debate going on right now..oking a sale without knowing what "possible" use would be is like oking a tract of land ,without knowing it would be a "grow" farm for marijuana (before passing the bill).
114665329861	Aug 13 2024 01:11 PM	Improving public transportation within the city
114665286072	Aug 13 2024 12:15 PM	No oil tanks within 10 miles of a residential property!
114665110565	Aug 13 2024 08:24 AM	School overcrowding is a concern. Ormond needs it's own high school.
114664817062	Aug 12 2024 09:06 PM	Would like to see a true downtown area, not just a block of overpriced restaurants owned by the same person. Would like to see art festivals (Deland has one) would like some redevelopment of US1
114664604293	Aug 12 2024 03:14 PM	Please keep Ormond Beach small. Size isn't everything.
114664436526	Aug 12 2024 11:44 AM	Safety - to let Ormond be known that ppl/criminals will be prosecuted fully and that Ormond's ppl will be protected well.
114663461010	Aug 10 2024 07:47 AM	Another bridge?
114663107390	Aug 09 2024 02:44 PM	There should be more focus on aging in place and creating spaces where people can live work and play. Need to start thinking more about diversity and meeting a variety of needs.

		Don't turn this into a Smart City or 15 minute city. We don't need more density of businesses or homes.
114662811289	Aug 09 2024 07:00 AM	Avalon was the worst idea for this area. The one in Orlando is very ugly and awful. Large houses with tiny yards, limited driveway space and you can practically touch house to house. It's what you'd expect in Orlando, not here. It's not up to par with the existing Breakaway/Tymer Creek/Hunter's Ridge communities.
114662808933	Aug 09 2024 06:55 AM	Moving the police station from current location and extending Hand Ave over I95 and Code Enforcement
114662582347	Aug 08 2024 08:41 PM	Please install push button light up signs and built into the crosswalks to the beaches for high visibility to motorists to stop.
114662219137	Aug 08 2024 11:28 AM	Tightening up the Comp Plan and following it.
114662087204	Aug 08 2024 08:44 AM	Affordable housing should be discussed. It needs to be addressed. Mixed-use developments so the city can grow-up.
114661810666	Aug 07 2024 10:18 PM	Do not sell out for money. Do not sell us out for overdevelopment and commercialization.
114661789054	Aug 07 2024 09:32 PM	Stop Over developing our landscape. It's hideous what has happened in that back of Halifax Plantation and along Plantation Pines. You Have ruined why we moved here
114661642825	Aug 07 2024 04:59 PM	If a developer or individual purchases a piece of property, the zoning should not be changed from what exists when purchased to suit the buyer
114661405401	Aug 07 2024 11:58 AM	I hope officials are taking appropriate actions to save our beach.
114661400920	Aug 07 2024 11:53 AM	Pedestrian safety; traffic congestion; walkability; public art
114661237761	Aug 07 2024 08:27 AM	A moratorium on development. Greater concern about Green Space. Addressing the horrendous traffic situation that is only getting worse with the overdevelopment.
114661224319	Aug 07 2024 08:04 AM	Ormond Beach, going downhill like a snowball.
114661215165	Aug 07 2024 07:48 AM	Better use of the vacant OB Municipal golfcourse. Radial zones around densely populated areas to eliminate specific heavy industrial use.
114661165417	Aug 07 2024 06:08 AM	Leaving a police sub station on the east side , when the main station is moved. To not forget the older established east side , as people move west.
114660979273	Aug 06 2024 10:55 PM	We need more speed bumps through the city. Too many speeders and not enough police.
114660966685	Aug 06 2024 10:26 PM	Stop developing everything! Your community needs you to focus on improving what's here instead of building more. You are chasing away good families that contribute to the community for businesses that don't even attempt to fill existing open storefronts so we will just continue to look more and more like Holly Hill.
114660919281	Aug 06 2024 08:45 PM	We are happy to be living in this pretty community. Let's keep it that way
114660864064	Aug 06 2024 06:54 PM	STOP BELVEDERE TERMINALS!
114660764770	Aug 06 2024 04:26 PM	Overbuilding and traffic congestion
114660722238	Aug 06 2024 03:37 PM	We need to ensure that areas around schools, residential
114660696241	Aug 06 2024 03:09 PM	Save the open spaces we have and add more recreation.
114660685176	Aug 06 2024 02:57 PM	Control growth to maintain small town status, fight dangerous fuel farm, limit traffic, address flooding.
114660663180	Aug 06 2024 02:29 PM	Golf Course, SAFE bike and footpaths or extra wide shoulders for any new or updated streets.
114660548241	Aug 06 2024 12:14 PM	Rezone Hull Road. Deny services for fuel farm.
114660542884	Aug 06 2024 12:08 PM	It would be nice to redevelop the downtown area. Do something about the traffic on Granada Blvd. Finish Timber Creek to LPGA Blvd. Finish Hand Ave. to Timber Creek.
114660539317	Aug 06 2024 12:04 PM	Please keep Ormond Beach residents safe, Sheriff Chitwood needs better support with the local judicial system. It makes no difference if the law enforcement arrests bad people if the courts let the drug dealers and murderers out with a slap on the hand. Can your tax payer money support keeping criminals in jail that should have received the death penalty at \$100K cost per year for incarceration? I am tired of it!
114660497660	Aug 06 2024 11:16 AM	Don't make this another Miami. People want to live where it's nice looking and clean. Don't overcrowd everything in the city by over building.
114660496826	Aug 06 2024 11:15 AM	Definitely focus on improving school education. Please help improve home values by maintaining roads and removing crime. We are all very concerned about the increase in rental apartments in Daytona beach right along the Ormond Beach border and how that will impact crime and safety.
114660490029	Aug 06 2024 11:08 AM	Stop increasing densities of developments, focus on the existing residents quality of life and stop giving money away for economic development.
114660452468	Aug 06 2024 10:24 AM	I believe I've made myself clear. Y'all are ruining the area!
114660450767	Aug 06 2024 10:22 AM	Establishment of an OB community center run by the city.
114660444357	Aug 06 2024 10:15 AM	We are losing the Ormond Beach charm.

Community Engagement Meeting

(August 26, 2024)

Comments and Input

Comprehensive Plan 2045 Update Comment Card

Element: Recreation & Open Spaces

Comments: _____

My comment applies to all elements, How
much funding is planned for beachside
Growth is obviously west, but beachside is dd.
rweldon22@gmail.com

Comprehensive Plan 2045 Update Comment Card

Element: Bocce Ball Courts

Comments: I would like three (3) or more
Bocce BALL Courts for playing competitive
Bocce BALL Games.

I am ready, willing and able to volunteer
on a Committee to assist in getting
Bocce Ball Courts. And other volunteer areas

Linda Ward 305-872-2334 (ward2230@bellsouth.net)
52 Byron Ellwood Dr.
Ormond Beach

Comprehensive Plan 2045 Update Comment Card

Element: Golf

Comments: We need a golf course in Ormond Beach that the average guy/gal can use. Most cities our size have 1-3 public golf courses.

Comprehensive Plan 2045 Update Comment Card

Element: Recreation (Parks + Rec)

Comments: Need to add "Waterfront or Waterways Access" so city can acquire grants/funding

Comprehensive Plan 2045 Update Comment Card

Element:

Bocce Ball Courts

Pickle Ball Courts

1. Billy's Taproom & grill. Street facing facade is an eyesore. Needs a repair: Policy 2.2.2
2. Public Art should be included in this Element.
3. Special events at Casements - parking is a Real issue. what can be done?

PROTECT ROADWAYS WITH BEST PRACTICES FOR COMMUNITY FOREST: THE LOOP

* Put sidewalk on John Anderson!
more roundabouts

TREES ARE CAPITAL
IMPROVEMENTS - COMMUNITY
FOREST.

TREES TO BE INCLUDED IN THE
ANNUAL CIP 1 2 3 4 5

* Put a sidewalk on John Anderson!

1. Not Sure if this is the right place ... Create an ordinance that does not allow "Smoke"- Vape Shops in the Downtown - Mainstreet area
2. I totally agree w/ the above concerns. - Devalues property.
3. Ditto above!
4. Ditto... Please come up with an ordinance to prevent any more Smoke/Vape/CBD shops on main street of Ormond (Granada)
5. FDOT, Volusia County, Ormond Beach and Florida State Park system working together, PARTNERING, to protect the natural resources, educate our residents in good gardening practices and care for THE LOOP.
Ormond Scenic Loop and Trail National Scenic Byway.
6. Enforce codes in neighborhood! Proactive - trailers, sheds, overnight street parking, boats parking on lawns - Don't let neighborhoods turn into slums.

Future Land Use Element

1. Clear cutting of land.
2. Concern with density
3. VACANT LAND WETLAND OVERLAY
4. INCLUDE ReGrow Volusia w THE LOOP MAP
5. DELETE "OPEN SPACE" ADD PARKS
6. Concern for 58 E Granada - Vacant for years - needs follow up & owners need to take care of declining street facing facade.
7. Traffic Concerns ?
8. Existing services - medical, can they keep up with demands ?
9. MORE MIXED-USE / LESS SPRAWL
10. Entertainment destinations
11. ^{quit} Mowing all the trees down, bringing in mounds of dirt/fill, flooding neighbors that have been here for years, AND City/Mayor Sending ^{current} ~~previous~~ owners letters to get flood insurance

SMART GROWTH

Most people, when observing the use of the word SMART in reference to community planning, or as an attached label to power meters and home appliances, believe it refers to “intelligent,” “Unique,” or “Scientific” new ideas for protecting the environment and cutting our carbon footprint. In fact, the use of the word SMART is actually engineering lingo meaning:

S- Specific
M- Measurable
A- Achievable
R - Relevant
T- Time Oriented

In other words, use of the acronym SMART means a controlled outcome in a specific period of time.

Agenda 21. Agenda 2030. Green New Deal = S.M.A.R.T.!

UTILITIES ELEMENT GOALS, OBJECTIVES AND POLICIES

Page 1 - Areas that are not presently served with potable water and sanitary sewer trunk lines shall be assessed a differential impact fee.

If forced to connect, why should they pay?

The city just issued bonds for water and sewer projects (13 million new, 25plus million in 6 other bonds), so Everyone has to pay?

Page 4 - Property owners shall be principally responsible for paying the capital costs related to connecting to the City's central sewer system.

LDC that governs the appropriateness of phasing out septic tank systems in favor of connecting to publicly owned treatment systems.

City shall continually enforce policies that require existing homes located on lots smaller than one acre and that have septic tank systems to connect to the City central sewer system

The City appears to go after individual property owners to pay for connecting to water and sewer, but bonds are taken out to pay for the big developments. Why the disparity ?

Page 8 - Stormwater Utility Fee shall be chief funding source for stormwater implementation.

Who determines the Fee? How often and what are the rules around them? Why is this not a ballot initiative to see if folks what to pay for it?

Page 17 - The City will participate in the "Keep Volusia Beautiful" program to control the problem of littering and illegal dumping.

What is the Cost? Why cant we just enforce current laws to control the problem?

Page 20 - City shall continue to administer an emergency water shortage plan.

What is our emergency water shortage plan? Where is it located?

Page 22 - The City shall determine water supply levels-of-service in conjunction with the St. John River Water Management District.

Do we get our water from the St. John River Water Management District? If yes where is the LOSS located. If No why do we have a LOS with them?

Page 23 - The City shall work through the Water Authority of Volusia (WAV) to incentivize water conservation

WAV after existing four years, spending \$5.37 million and producing not a single drop of water, the **Water Authority of Volusia** was **stripped** of its power to be the county...article date Mar 2007.

CONSERVATION ELEMENT GOALS, OBJECTIVES AND POLICIES

Page 2 - central wastewater system is not available, on-site sewage treatment and disposal systems shall not be allowed on lots less than one acre in size.

Are you going to guarantee connection to public sewer being you are not allowing septic tanks ?

Page 5 - Site Plan Review Committee

Who makes up the Site Plan Review Committee? Is it Staff? NGO? Citizens?

aesthetic qualities of the community.

Who determines the aesthetic qualities of the community.

Page 6 - In cases where land development regulations and land use classifications will eliminate any reasonable use of real upland property, consideration will be given to public acquisition.

Why does the city feel eminent domain is the best way to go? I see this as a land grab/

Page 9 - The City shall continue to develop and enforce a floodplain management program that balances the public interest in regulating the use of private property against the interests of private landowners.

The city has the obligation to the private property landowners, why does the city feel it can regulate use on private land?

Page 13 - the City should discourage the use of individual non-potable wells.

Once again why is the city working against the private landowner?

Page 16 - The City shall encourage the implementation of a combined effluent reuse system, with adjacent utility providers, including Holly Hill, Daytona Beach and Volusia County.

Why would the city think drinking sewer water would be good. NO SEWER TO TAP!

Page 17 – expand its FLUCCS inventory and make such information available to land developers.

Where is the FLUCCS inventory now located? Is it only available to land developers?

Page 18 – habitat corridors and buffers of sufficient length and width

What are the buffers and definitions of habitat corridors ? what is the equation to come up with?

Page 21 Site Plan Review Committee

Who are they ?Staff? NGO? Citizens

Page 24- The City will protect wetland systems through public acquisition or purchase of development rights, environmental conservation easements, cluster zoning, land banking and mitigation.

What right does the city have to use eminent domain to acquire land?

Page 35 - City shall require developments along the Tomoka River and its tributaries with individual properties of five acres or larger to include all wetlands in a conservation easement to the City. tracts of less than 5 acres, shall put those wetlands in either public or semipublic (e.g., homeowner's association) control; properties with multiple riparian ownership of less than 5 acres which are under homeowner association control shall grant a conservation easement to the City.

Who does the city think they are to mandate a land conservation easement ? This is theft by the City.

the City shall consider acquisition of vacant lands abutting the Tomoka River, its tributaries, Dodson Creek and the Halifax River.

Why does the city need to buy all this land? This is a land grab to keep honest folks from purchasing property

TRANSPORTATION ELEMENT GOALS, OBJECTIVES AND POLICIES

Page 2 – Privately Organized Transportation Management Initiative (TMI) Operated thru the Chamber of Commerce or Economic Development Organization, and host TDM (Transportation demand management) initiatives.

NGO's running government functions. This not how a transparent government works

preserving future ROW corridors.

How do you preserve something that does not exist?

Page 6 - Prepare engineering plans for future transportation improvements in advance of funding commitments for construction in order to clarify and secure right-of-way requirements and to develop improved cost estimates.

To far in advance is a waste of money. How many times has this been done for Ormond Crossings? Over 20 years in the making.

Page 7 - said corridors shall be designated Transportation Concurrency Exception Areas (TCEAs): a) A1A from SR 40 south to the city line; to support intensified mix use development and redevelopment

So not only are you going to push low income housing you are going to support intensive mix use development. This is not good for the residents that live there

Page 8 - City shall enter into an Interlocal Agreement with Volusia County for development of a transit option as an alternative to the current road mitigation policy contained in the Volusia County's Traffic Impact Assessment Guidelines which is applicable to the City's TCEAs.

YES or NO have you entered into interlocal agreements

Page 11 - The City shall adopt a redevelopment plan for the A1A CRA Corridor by December 2014. After the redevelopment plan is adopted, it shall be incorporated into the comprehensive plan through an amendment to the comprehensive plan

Was this incorporated into the comprehensive plan and if so where?

Page 12 - Amendments shall be included in the annual update of the Capital Improvements Element and in the non-motorized fee calculation.

Where do we find this information?

City shall permit a payment in lieu of sidewalk construction for development if it is determined that the need for sidewalk is much greater in other areas of the city.

When payment was taken in lieu of sidewalks how much money was taken and where were the sidewalks put in and what was the cost?

prepared by the VTPO

Who is VTPO have searched for in whole document this is the only time this abbreviation was used?

The City shall educate the public as to the benefits of bicycling, walking and other non-motorized transportation

Why does the city think they are qualified to educate the public about walking

reducing the need for new or expanded automobile and automobile parking facilities.

With the growth in population the city wants to reduce parking. This is beyond stupid

Page 13 - on-site parking requirements outside of the Downtown Redevelopment Area shall be reduced by 20% for all development and redevelopment along a recognized Multi-Modal Corridor.

Once again the city plans to reduce parking. I think you mistitled the Plan, it should say Ormond Beach 2045 Agneda 2030/The Green New Deal

Page 14 - All new developments that may be considered significant traffic generators shall provide a traffic impact assessment

What constitutes a significant traffic impact?

Page 15 - Constrained roadways may be improved through road reconstruction or efficiency improvements.

What Constitutes a Constrained roadway?

Are efficiency improvements Bike Lanes? If not, what are they?

Page 16 - Irrigation systems shall be installed in the landscaped medians and maintained in perpetuity by property owner associations.

Who is the city to dictate how a property owner association takes care of their landscaping?

The City shall assist the Corridor Management Entity to implement the vision statement

Who is the Corridor Management Entity and what are they made up of ? NGOs?

Page 17 - Work with the Chamber of Commerce or similar entity dedicated to economic development and business prosperity to establish a Transportation Management Initiative (TMI)

Why are we working with NGO's?

Page 18 - Require all development and (re) development to incorporate bicycle facilities such as bike racks and require all developments to also incorporate lockers and showers to support employees to walk or bicycle to and from work.

The city is overreaching their role, why do they think they can tell employers to add expense to their business?

Page 19-25 All to do with Ormond Crossings

Once again pages just as in the FUTURE LAND USE ELEMENT section on an area of the city that does not exist. The 20 plus year push for the development of a 15 min city by Ormond Beach is scary.

RESOLUTION 2006-263

A RESOLUTION SUPPORTING THE DESIGNATION OF THE ORMOND SCENIC LOOP & TRAIL AS A FLORIDA SCENIC HIGHWAY AND NATIONAL SCENIC HIGHWAY; SUPPORTING THE ORMOND SCENIC LOOP AND TRAIL CORRIDOR MANAGEMENT PLAN (CMP); AUTHORIZING TRANSMITTAL OF SAID DOCUMENT; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, a Corridor Advocacy Group, known as the Ormond Scenic Loop & Trail Corridor Advocacy Group, has been formed for the purpose of advocating the proposed Ormond Scenic Loop & Trail, as provided by section 335.093, *Florida Statutes* and 23 U.S.C. §162 for the designation and implementation of a Florida Scenic Highway and National Scenic Byway, respectively; and

WHEREAS, the proposed Florida Scenic Highway and National Scenic Byway advocated the Ormond Scenic Loop & Trail begin at the Volusia County line on SR A1A extending southward to Granada Boulevard, proceeding west to North Beach Street, also referred to as Old Dixie Highway, with an extension westward along Pine Tree Drive to the Tomoka State Park boundary, continuing north along Old Dixie Highway to the intersection with Walter Boardman Lane, extending east along Walter Boardman Lane to Highbridge Road through to SR A1A and continuing south along John Anderson Drive until the corridor terminates at Granada Boulevard.

WHEREAS, the purpose of the scenic highway and byway designations is to protect, enhance, preserve and maintain the intrinsic resources of the designated corridor, while utilizing these resources for appropriate economic development, recreation, and tourism; and

Ormond Scenic Loop & Trail
Annual Work Plan - 2024

The Woods of Ormond Beach

Ormond Beach, Florida • Volusia County

One of the largest landowners in the nation, Weyerhaeuser NR Company, has placed five large timber tracts on the market.

Now called The Woods of Ormond Beach, this is a rare opportunity to purchase more than 7,000 acres of land that is forested and loaded with merchantable timber.

***Timber cruise
available
upon request.***

The Woods of Ormond Beach is a 7,086 acre forested tract located in Ormond Beach, Florida in Volusia County. Large portions of the property's north border are contiguous to the Flagler County line. Located just 10 miles west of I-95, Ormond Beach, and the East coast, the property is a prime location for future development. Close to beaches, dining, entertainment, shopping, and entertainment, all are but a minutes drive. In addition, the property is only an hour's drive to Orlando and Daytona.

Ormond Beach is known as "a small town with a big city flair and old-fashioned comfort" and draws people to it's quaint southern charm.

Historically, it became the "birthplace of speed" in 1903 and gained worldwide fame by attracting daring drivers who chased speed records on its wide, hard-packed, sandy beach.

The Woods of Ormond Beach is included in the Deltona-Daytona Beach-Ormond Beach MSA, which has a population of 600,756. It is only five miles from new construction and upscale residential areas, where the emerging housing market is growing.

The Woods of Ormond Beach tracts are contiguous except for 828 acres, which are located one mile west of the main property. Running through the center of the main property is three miles of frontage on SR 40, a main highway which runs east to west across the state.

The western 828 acres tract encompasses almost two miles of "Little Haw Creek" that bisects that tract from north to south, offering a serene paddle way through an old Florida cypress swamp that leads to Lake Disston.

Development potential is perfect for large planned communities. The property has an approved Planned Unit Development (PUD) that allows 355 equestrian housing units. The PUD can be modified by using the Subdivision Conservation land use category. This use allows additional residential units and some commercial use.

Heavily wooded, the property has merchantable timber available. A timber cruise was recently completed that resulted in site indexes above normal in many areas. The property's timber stand information is available.

Currently, the land is being used as a large industrial timber tract with potential commercial or residential use.

The Woods of Ormond Beach is a developer's dream! An excellent investment property with a great location, population, and much potential; perfect for commercial or residential development.

GOALS, OBJECTIVES AND POLICIES

~~PARK~~

RECREATION AND OPEN SPACE ELEMENT GOALS, OBJECTIVES AND POLICIES
--

GOAL 1. RECREATION AREAS AND FACILITIES

PROVIDE AN ACCEPTABLE QUALITY, QUANTITY, AND VARIETY OF ACTIVE AND PASSIVE RECREATION AREAS AND FACILITIES NECESSARY TO MEET THE EXISTING AND FUTURE RECREATIONAL NEEDS OF ALL THE CITY'S RESIDENTS AND OF ITS VISITORS.

OBJECTIVE 1.1. LEVEL OF SERVICE STANDARDS

The City shall require of new development activities concurrency with the adopted level-of service standards according to the adopted Parks and Recreation Master Plan Study, as amended.

POLICY 1.1.1.

The City shall apply level-of-service standards park categories and facilities in accordance with the adopted Parks and Recreation Master Plan Study as amended and listed in the Capital Improvements Element of the Comprehensive Plan.

POLICY 1.1.2.

Parks and recreational facilities shall be located throughout the City to allow access opportunities to all segments of the population.

POLICY 1.1.3.

The City shall continue to provide sufficient lighting where needed at any active recreation facilities existing at that time.

POLICY 1.1.4.

The City shall continue to acquire the appropriate acreage for neighborhood and community park and recreation sites to meet its level-of-service standards when necessary.

POLICY 1.1.5.

Alligator Island shall be maintained under the ~~Open Space~~/Conservation land use designation.

POLICY 1.1.6.

The City's facility needs and program planning shall be determined through a continuous assessment of facility capacities and community needs, thorough surveys, citizen responses, civic

RECREATION AND ~~OPEN SPACE~~ ELEMENT GOALS, OBJECTIVES AND POLICIES

interaction, and population growth. Surveys shall be completed by April of each year by the Leisure Services and Planning Departments. The following criteria shall be applied in implementation of this policy.

- a. Coordination with other City departments and civic groups of studio (e.g., continuing education) programs, special events and referral services. Such programs shall be available for all ages and not limited to any level of proficiency.
- b. Coordination of or liaison to the development of other community enhancement projects (e.g., Santaland Art in the Park, and Easter Egg Hunt).
- c. Develop an outreach strategy that provides recreation activities and programs on a neighborhood basis.
- d. Determine the need for additional multi-diversified leisure facilities to better accommodate existing and future needs.
- e. Survey of the use of recreation facilities by developmentally disabled and physically handicapped people. The plan shall further contain specific recommendations for correcting existing deficiencies and meeting future needs.
- f. Assess the special population needs and provide structured activities for youth and adults that would interface with mainstream youth programs.

OBJECTIVE 1.2. MAINTENANCE

To maximize the responsible use of existing public lands and facilities, City parks and recreation facilities shall be maintained by the City's ~~Leisure Services~~ Department in order to promote public use and community pride, and discourage vandalism.

POLICY 1.2.1.

The City shall manage undeveloped City-owned land for the long-term public interest, doing so in a manner by which the City sets an example for others to follow.

POLICY 1.2.2.

The City shall maintain its boat ramps, piers, docks, and other water-access facilities in a safe and operable condition.

POLICY 1.2.3.

By 2025, the City shall develop a facility at Central Park to support after school programs and other activities.

POLICY 1.2.4.

The City shall actively maintain any saltmarsh areas adjacent to City property to be free of litter and/or other garbage. ~~REDUCE INVASIVE SPECIES~~

**RECREATION AND ~~OPEN SPACE~~ ELEMENT
GOALS, OBJECTIVES AND POLICIES**

POLICY 1.2.5.

The City shall continue to provide information and interpretive signs at all City-operated boat ramps to alert users of the endangered manatees, the Tomoka River Manatee Sanctuary, and the City personal watercraft ordinance.

OBJECTIVE 1.3. LAND USE COMPATIBILITY

Balance the functioning value of the natural environment so there is an optimum combination of aesthetic, ecological, and recreation values.

POLICY 1.3.1.

Use park systems ~~or open space~~ to buffer incompatible land uses, where parks ~~or open spaces~~ are compatible with these land uses.

POLICY 1.3.2.

To the extent practical based on available funding, the City shall acquire or preserve lands with unique environmental assets, as well as provide community access and/or recreation opportunities/value to the community.

POLICY 1.3.3.

To the maximum extent consistent with Federal, State, and City objectives, policies, and responsibilities, multiple uses of public lands shall be considered, to reduce the cost of and expedite the acquisition of additional needed public lands.

OBJECTIVE 1.4. ACCESS AND DEVELOPMENT

The City shall maintain and improve access to its parks, recreation, and ~~open space areas~~, facilities, programs, and events and encourage development of facilities, programs, and events of state and regional excellence.

POLICY 1.4.1.

The ~~Leisure Services~~ Department shall develop and distribute literature and maps listing the parks, ~~leisure service~~ sites, and historic sites located within the City, their facilities, location, and operating hours.

POLICY 1.4.2.

The ~~Leisure Services~~ Department shall, prepare an annual report that in general describes the status of for presentation to the City Commission that department's functions in the City; assess the general needs of the population; describes event which affect or are affected by that department; and assesses interdepartmental and intergovernmental areas of concern and proposed solutions to these areas of concern.

RECREATION AND ~~OPEN SPACE~~ ELEMENT GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.5. FUNDING

The City shall develop a fiscally sound public parks recreation facilities program.

POLICY 1.5.1.

The City shall continue to pursue outside funding sources by monitoring on an on-going basis, the availability of parks and recreation grants and funds. The applications shall be submitted in a timely manner to ensure procurement and proper outside review.

POLICY 1.5.2.

A user fee system shall continue to be an integral and vital component of the overall funding mechanism for recreation programs and events. The following criteria shall apply in implementation of this policy:

- a. The fee shall be reasonably established and shall not restrict access on the basis of affordability.
- b. The City shall periodically review the fee structures of other local government jurisdictions and per capita operating expenses and recurring capital expenses as a basis for determining the equity of the fee structure.
- c. Reasonable fees shall be established for use of all City facilities based on the type of event, the particular facility and the expected number of people attending.
- d. The fee schedule shall be reviewed and updated on an annual basis.

E

POLICY 1.5.3.

The City shall continue to financially support the activities, events, and programs offered by the Leisure Services Department, in order to maintain programs at their current level-of-service in accordance with the adopted Parks and Recreation Master Plan as amended.

POLICY 1.5.4.

The City shall continue to assess a Recreational Impact Fee per the City Land Development Code in order to provide for the acquisition and development of additional recreational space and facilities needed by the occupants of such new residential dwelling units.

POLICY 1.5.5.

New development shall be encouraged to provide land for accessible and usable public parks in accordance with the adopted Parks and Recreation Master Plan Study as amended and the City Land Development Code.

**RECREATION AND ~~OPEN SPACE~~ ELEMENT
GOALS, OBJECTIVES AND POLICIES**

POLICY 1.5.6.

The City shall continue to charge a non-residents fee determined by the Leisure Services Department and the City Commission for the use of City recreation facilities.

POLICY 1.5.7.

The City shall continue to utilize user fee charges for services and facilities to help offset costs at recreation sites.

POLICY 1.5.8 — THE CITY SHALL UTILIZE DONATIONS & GIFTS

OBJECTIVE 1.6. BEACH ACCESS

The City shall recommend policies and programs to Volusia County that maintain and improve public access to beach recreational opportunities.

POLICY 1.6.1.

Participate in and encourage State, Regional, and County programs to provide on and off-site beach parking.

OBJECTIVE 1.7. BICYCLING OPPORTUNITIES

Safe bicycling opportunities, for both recreation and transportation, shall be provided within the city where possible.

POLICY 1.7.1.

Bicycle facilities shall be incorporated into arterial and collector roadway construction widening, and reconstruction plans and programs as provided by the Land Development Code.

POLICY 1.7.2.

The City shall cooperate with bicycle organizations, law enforcement agencies, and the FDOT to promote a bicycle safety program; this shall include a program in the schools and a media information program.

POLICY 1.7.3.

Bicycle facilities connecting schools with nearby active recreation areas shall be a priority of the City.

POLICY 1.7.4.

The City shall continue to provide bicycle facilities at all City-owned buildings or facilities that are open to the public.

RECREATION AND ~~OPEN SPACE~~ ELEMENT GOALS, OBJECTIVES AND POLICIES

POLICY 1.7.5.

When providing bicycle and pedestrian pathways the City shall determine, through its traffic consultant, upon which streets or roads bicycle traffic would constitute an unacceptable hazard. This shall also determine the time of day when this hazard would exist.

POLICY 1.7.6.

The City shall maintain regulations requiring new developments to incorporate bicycle and pedestrian paths as an integral part of their transportation plans.

POLICY 1.7.7

To the extent practical, utility easements (^{+ROW}overhead transmission lines, gas and water) shall be considered in the development of trails to provide for connections and linkages to neighborhoods, and recreation and ~~open space~~ facilities. ^{PARK}

POLICY 1.7.8

The following criteria shall be used in prioritizing bicycle facility improvements:

- a. Beach access points and crossings;
- b. Proximity to major public parks, cultural facilities, public schools, high-density residential and commercial areas.
- c. Lack of alternative routes;
- d. Streets serving important transit stops;
- e. Areas exhibiting high incidence of vehicle accidents with bicycles; and
- f. Arterial and collector streets.

^{G. COMMUNITY FOREST}

POLICY 1.7.9

The City, in cooperation with the County and FDOT, shall encourage the installation of bicycle detection devices at traffic activated signals on arterial and collector streets, subject to the availability of funding.

OBJECTIVE 1.8. CONSERVATION

Active and passive recreation facilities shall be designed and used in a manner that protects the quality of the natural systems including, but not limited to, the surface waters, significant wildlife habitats, designated species habitats, and wetlands. The permitting criteria of Federal, State, and regional agencies shall be met during the design and construction of active and passive recreation facilities. ^{COMMUNITY FOREST}

RECREATION AND ~~OPEN SPACE~~ ELEMENT GOALS, OBJECTIVES AND POLICIES

POLICY 1.8.1.

The use of off-road recreational vehicles in wetland or upland habitats shall be limited to the maximum extent allowed by law.

POLICY 1.8.2.

New proposed land development adjacent to parks, recreation, and conservation areas shall be compatible with both natural systems and the intended function of the park, recreation, or conservation area.

POLICY 1.8.3.

The City shall acquire sensitive lands to meet ~~open space~~ ^{PARK} objectives and/or adopt regulations to protect and enhance the functional values of such lands. ^{+ TREES +}

OBJECTIVE 1.9. ADA STANDARDS

Public recreation facilities shall both accommodate and integrate handicapped and disabled persons consistent with Federal and State standards.

POLICY 1.9.1.

The City shall provide physical programs for the handicapped and disabled of all ages, based upon demand.

POLICY 1.9.2.

Recreation facility construction or renovation shall be designed to accommodate and integrate the handicapped and disabled consistent with Federal and State ADA standards.

POLICY 1.9.3.

When possible, handicap access to the beach shall be improved by the process of handicap parking spaces and pedestrian beach access ramps.

POLICY 1.9.4.

Playgrounds shall include handicap and disability accessible and usable facilities, to integrate handicapped children into the mainstream.

POLICY 1.9.5.

The City shall construct playgrounds oriented towards handicapped children.

RECREATION AND ~~OPEN SPACE~~ ELEMENT GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.10. INTERGOVERNMENTAL COORDINATION

The provision of recreation programs and facilities shall be coordinated among adjacent local government jurisdictions and private sector providers to develop the most cost-effective services to the public.

POLICY 1.10.1.

The City shall notify in a timely manner, for review and comment, the Tomoka State Park management and provide information regarding any development activities and ordinances that may significantly affect the park environment and operations.

POLICY 1.10.2.

The City shall continue to actively participate in the Volusia County land acquisition program and request utilization of such funds for open space land purchases within the City as appropriate and to the maximum extent feasible.

POLICY 1.10.3.

The City shall submit when appropriate and applicable, grant applications to local, state and federal grant programs for the acquisition, planning and development/management of City-owned lands. Programs include, but are not limited to:

Florida Recreation and Development Assistance Program;

Land and Water Conservation Fund Program;

Florida Forever;

Florida Boating Improvement Program;

Save our Rivers Program (SJRWMD);

Ponce DeLeon Port Authority;

Florida Inland Navigation District;

Florida Communities Trust Program; and

ECHO.

REGROW VOLUSIA

POLICY 1.10.4.

The City shall continue to submit applications for grants under programs sponsored by various State and regional governments including the Florida Department of Environmental Protection, the Florida Fish and Wildlife Conservation Commission, and the Florida Inland Navigation District.

RECREATION AND ~~OPEN SPACE~~ ELEMENT GOALS, OBJECTIVES AND POLICIES

POLICY 1.10.5.

The City shall enter into agreements, as appropriate, with private institutional recreation organizations to provide services and programs including joint use of facilities and personnel.

POLICY 1.10.6

Wherever possible, Ormond Beach Recreational trail corridors shall be coordinated with other national level trails such as the East Coast Greenway, as well as other state trail systems.

OSLT

OBJECTIVE 1.11. DEVELOPMENT ACTIVITIES

The City shall periodically review and amend the Land Development Code relative to current open space definitions and standards to implement the Recreation and ~~Open Space~~ **PARK** Element. The following policies shall apply to the review of development activities and the conduct of public activity.

POLICY 1.11.1.

The following shall be applied by the City to protect and provide buffers, greenbelts, and recreation within the open space system:

- a. Regulate the use of land and water consistent with the Future Land Use, Conservation, and Coastal Management Elements.
- b. Ensure the protection of natural vegetation and unique land features. **NATIVE TREES + PLANTS**
- c. Regulate areas subject to seasonal and periodic flooding and provide for drainage and stormwater management.
- d. Maintain and protect major environmental areas, **TREES**, parks, preserves, wildlife management areas and refuges.
- e. Provide mechanisms for the on-site transfer of development rights as per the Future Land Use Element.
- f. Develop performance standards for protecting lands with historic, scenic, recreational or environmental significance.
- g. Protect against significant adverse impacts to wildlife, wildlife habitats/corridors.

POLICY 1.11.2.

Innovative techniques shall be utilized to protect identified open space areas. Such techniques could include overlay districts, flood zones, performance standards, or other incentive-based methods.

POLICY 1.11.3.

Designated ~~open space areas~~ **PARKS** encompassing natural resource areas, significant environmental features, marine and wildlife habitats, conservation or potential recreation areas shall, at minimum, be protected, by buffer zones, deed restrictions, limiting density and intensity of

RECREATION AND ~~OPEN SPACE~~ ELEMENT GOALS, OBJECTIVES AND POLICIES

development, conservation easements, acquisition, transfer of development rights, and purchase of development rights or land exchanges.

POLICY 1.11.4.

Criteria and standards to be used for reviewing development proposals within existing and proposed open space areas shall be maintained in the Land Development Code. Upon adoption of the plan, site specific analysis shall include an Environmental Assessment Report as per the criteria of the Conservation Element to be submitted, reviewed and approved prior to the issuance of a development order.

POLICY 1.11.5.

Coordinate with local governments, State and other public agencies in developing consistent standards, criteria and land development regulations for the protection of open space areas.

OBJECTIVE 1.12. LAND ACQUISITION

The City shall continue to increase the public provision, protection and enhancement of open space by utilizing the Volusia County Land Acquisition Program with the cooperation of the Florida Forever, Save Our Rivers, Land and Water Conservation Fund, County Port Authority, St. Johns River Water Management District land acquisition programs, and similar programs to acquire by purchase or donation those lands identified by the City Commission. Provision of open space by private enterprise shall be accomplished through donation or requirements for dedication of open and common space as specified in the Land Development Code.

POLICY 1.12.1.

Land or easements suitable for the provision of open space shall be encouraged as donations from public agencies and private enterprises. The location, shape, size and character shall be evaluated for applicability to City land development regulations. The City is not obligated to accept donations of ~~open space~~ areas from public ~~areas~~ and private enterprises.

POLICY 1.12.2.

~~Open Space areas~~ **PARKS** shall be preserved for the following types of development:

- a. Residential development required to provide park needs and open space areas as required by the Land Development Code.
- b. Planned overlay districts required to ~~provide open space and common open space~~ **PARK** per the Land Development Code.
- c. Development plans encompassing valuable resource habitats such as, but not limited to, environmental corridors as identified in the Conservation and Future Land Use Elements.
- d. Non-residential development required to provide ~~open space~~ **PARK** areas as required by the Land Development Code.

RECREATION AND ~~OPEN SPACE~~ ELEMENT GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.13. SCENIC HIGHWAYS AND CORRIDOR CONNECTIVITY

Provide for recreational corridors to link the City-owned parks as well as ~~other open space~~ ^{community for}/conservation areas.

POLICY 1.13.1.

^{W5LT+} The City shall designate scenic roadways in accordance with State and Federal programs, as provided for by the Coastal Management Element and the Land Development Code.

POLICY 1.13.2.

The City's standards designed to ensure preservation of the scenic value of designated routes shall be maintained in the Land Development Code.

POLICY 1.13.3.

^{PARK} The City shall continue to coordinate with utility companies the potential multi-use concept for ~~open space~~ ^{+ ROW} and recreation uses within utility easements.

POLICY 1.13.4.

^{+ ROW} To the extent practical, utility easements (overhead transmission lines, gas and water, sewer and drainage) shall be made available for bike path, nature, jogging, and horse trail development. This off-road corridor system shall be designed and developed to connect neighborhoods and communities to recreation and open facilities.

POLICY 1.13.5.

^{PARK} ~~Open space~~ systems or conservation areas identified for potential outdoor classroom sites or nature study facilities shall be provided with the appropriate access facilities. Facilities shall include, but are not limited to: on-site circulation system elements, natural trails, ^{TREES} above ground boardwalks and limited passive areas designated for picnicking.

POLICY 1.13.6.

Public access to the beach and waterways shall be provided in accordance with the policies under Goal 7 of the Coastal Management Element.

RECREATION AND OPEN SPACE ELEMENT GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.14. ORMOND CROSSINGS ACTIVITY CENTER

The City working with the Developer of the Ormond Crossings Activity Center shall develop a comprehensive approach to address existing and projected deficiencies so that there are adequate facilities to serve the residents of Ormond Crossings.

POLICY 1.14.1.

Within 90 days of the effective date of the comprehensive plan amendments establishing the Activity Center land use category and applying it to the Ormond Crossings Activity Center, the Developer shall deed to the City the title to a 17-acre parcel that is located immediately north of the Airport Sports Complex and fronts on Harmony Trail.

POLICY 1.14.2.

The Developer shall deed to the City a total of 45-acres of land to be used for parks and recreation purposes. The land may be divided up to 5 separate park sites within the Ormond Crossings Activity Center subject to the approval of the City, if it is determined that providing multiple parks sites minimizes automobile traffic and encourages pedestrian and bicycle access to the park facilities.

POLICY 1.14.3.

Based on the projected population associated with this proposed amendment, the Developer of the property shall be responsible for the following improvements. These improvements shall be completed prior to the issuance of the certificate of occupancy for the 1,000th dwelling unit within the Ormond Crossings Activity Center.

- a. A public community center with a minimum of 6,000 square feet of building area;
- b. A trail system, including a minimum of .75 miles of hard surface walkway;
- c. 1 Picnic shelter with restrooms;
- d. 1 soccer/football field;
- e. 1 baseball/softball field;
- f. 2 outside basketball courts with lights;
- g. 2 shuffle board courts;
- h. 1 bocce ball court;
- i. 1 tennis court; and
- j. 1 racquetball court.

Based on the projected population associated with this proposed amendment, the Developer of the property shall be responsible for the following improvements. These improvements shall be completed prior to the issuance of the certificate of occupancy for the 2,000th dwelling unit.

- a. 1 community center that can be either public or private with a total minimum building area of 4,000 square feet;
- b. A trail system, including a minimum of .525 miles of hard surface walkways;
- c. Passive park area of 36.5 acres;
- d. 1 off-leash dog park;
- e. 1 covered playground area;

**RECREATION AND ~~OPEN SPACE~~ ELEMENT
GOALS, OBJECTIVES AND POLICIES**

- f. 1 baseball/softball field;
- g. 2 outside basketball courts with lights;
- h. 2 shuffle board courts;
- i. 1 bocce ball court;
- j. 2 tennis courts; and
- k. 1 racquetball court.

The City acknowledges that the need for recreational facilities is a function of the population therefore adjustments to these requirements can be expected to occur as the project proceeds. The City also reserves the right to request cash in lieu of improvements when it proves that funding will provide the City with a greater benefit and compliance with the minimum level of service standards.

OBJECTIVE 6.1.	CONSERVATION	29
GOAL 7.	USES OF NATURAL RESOURCES	35
OBJECTIVE 7.1.	LAND ACQUISITION	35

CONSERVATION ELEMENT GOALS, OBJECTIVES AND POLICIES

GOAL 1. WATERSHEDS, LAKES AND RIVERS

THE CITY SHALL MAINTAIN AND, TO THE MAXIMUM EXTENT FEASIBLE, PROMOTE PROGRAMS TO ENHANCE THE FUNCTIONAL, AESTHETIC AND QUALITATIVE VALUE OF THE HALIFAX RIVER, THE TOMOKA RIVER, THEIR MAJOR TRIBUTARIES, AND ARTIFICIALLY CONSTRUCTED LAKES.

OBJECTIVE 1.1. SPECIES DIVERSITY

The City shall maintain the native aquatic and wetland floral and faunal species diversity of the upper Halifax River and Tomoka River.

POLICY 1.1.1.

The City shall continue to cooperate with State and regional agencies and adjacent local governments in a comprehensive study and inventory of invertebrates and seagrasses in the portions of the Halifax River and the Tomoka Marsh Aquatic Preserve which are located within the City.

POLICY 1.1.2.

The City shall continually identify and prohibit activities that would have a significantly adverse effect on existing eelgrass or seagrass beds. When specific activities are identified, provisions to prohibit and mitigate adverse impacts from said activities shall be incorporated into the Land Development Code.

POLICY 1.1.3.

The City shall continue to request that the State adopt an effective management plan with appropriate funding and personnel to provide meaningful management for the Tomoka Marsh Aquatic Preserve.

POLICY 1.1.4.

The City, in cooperation with State, regional, and local agencies, shall participate in a program to enhance the aesthetic, recreational, botanical, fish, and wildlife values, of spoil islands. *BY USE & NATIVE VEGETATION*

CONSERVATION ELEMENT GOALS, OBJECTIVES AND POLICIES

OBJECTIVE 1.3. INTERGOVERNMENTAL COORDINATION

The City shall continue to promote intergovernmental coordination to maintain or improve the water quality, water quantity, recreational, fish, and wildlife resource values of the Halifax River, the Tomoka River, and their tributaries.

POLICY 1.3.1.

On a continuous basis, the City shall support and promote programs to improve natural tidal flushing action for the Halifax River to restore ambient water quality.

POLICY 1.3.2.

The City shall coordinate its water quality testing program with appropriate State, regional and local government testing programs to ensure efficient use of resources and to eliminate duplication of effort, *OF POINT SOURCE & WATER TO THE HALIFAX INTRUSION*

POLICY 1.3.3.

In cooperation with State, regional, and local agencies, including the Volusia County Sheriff's Department, the City shall participate where possible in a river safety program that utilizes to the maximum extent possible miscellaneous media sources, newspaper advertising, signs, and literature to prevent surface water pollution, to protect manatees and other wildlife, and to promote proper boating safety standards.

OBJECTIVE 1.4. ECOLOGICAL BALANCE

The City shall continue to review development proposals and establish programs to balance the functioning values of the Halifax River and the Tomoka River in order to maintain an optimum combination of aesthetic, ecological, recreational, and historical resources. *PARK*

POLICY 1.4.1.

On a continuing basis, the City shall coordinate the identification and protection of significant archaeological, ecological, historical, and paleontological sites under and along the Tomoka River with other agencies and private organizations. This shall include promoting studies by colleges, universities, and researchers and requiring archaeological studies by developers for projects in areas that may contain significant resources.

POLICY 1.4.2.

On a continuous basis, the City shall encourage college and university studies of the Halifax and Tomoka Rivers.

CONSERVATION ELEMENT GOALS, OBJECTIVES AND POLICIES

POLICY 1.6.1.

All rezoning shall be compatible with the objective of protecting wildlife and the environment consistent with the Comprehensive Plan.

POLICY 1.6.2.

The City shall maintain the zoning district entitled “Special Environmental District” (SE). The following criteria shall apply to the implementation of this policy:

- A. The SE district applies to all Department of Environmental Protection or Army Corps of Engineers jurisdictional wetland lines:
 - 1. not protected preserved by a conservation easement; and
 - 2. or part of an approved Master Land Use Plan for a Planned Residential Development.

This area includes mosquito impoundment districts.

- B. The SE district applies to environmentally sensitive areas designated for public acquisition and protection or areas currently in public ownership which should be subject to open space and conservation type land uses.

C. THE O S A T.

POLICY 1.6.3.

In cases where land development regulations and land use classifications will eliminate any reasonable use of real upland property, consideration will be given to public acquisition.

**CONSERVATION ELEMENT
GOALS, OBJECTIVES AND POLICIES**

POLICY 3.5.8.

The use of air/water heat pumps shall be consistent with the requirements of the Land Development Code.

*POLICY 3.5.9
THE USE OF ATMOSPHERIC WATER GENERATION SHALL
BE CONSIDERED WHENEVER WHEREVER POSSIBLE*

GOAL 4. POTABLE WATER

THE CITY SHALL PROVIDE AN ADEQUATE QUANTITY AND QUALITY OF POTABLE WATER TO ACCOMMODATE EXISTING AND FUTURE DEMANDS WITHOUT HARMING GROUNDWATER RESOURCES.

OBJECTIVE 4.1. POTABLE WATER SERVICES

Provision of potable water services shall be extended where needed, economically feasible, and environmentally acceptable.

POLICY 4.1.1.

The City shall provide potable water service to existing or platted subdivisions throughout its service area.

POLICY 4.1.2.

The availability of groundwater supplies which may effectively be extracted, treated, and delivered in a cost-effective manner shall be a contingency for development approval.

4.1.3 AWG WHEN POSSIBLE

OBJECTIVE 4.2. INTERGOVERNMENTAL COORDINATION

The City shall cooperate and coordinate the provision of water supplies with State, regional, and local governments.

POLICY 4.2.1.

The City shall cooperate with Volusia County through County grants or County established assessment districts to retrofit subdivisions approved by the County that were developed with individual wells, and are in need of central water service.

POLICY 4.2.2.

The City shall maintain a combined and connected series of finished water interconnects with adjoining utilities' water systems.

POLICY 4.2.3.

The City shall continue to cooperate with the St. Johns River Water Management District in dealing with water shortages and enforcing water use restrictions. Implementation of this policy shall include the following:

- a. Interpret District procedures associated with declaring and rescinding a water shortage;

GOAL 5. VEGETATION

THE CITY SHALL PROVIDE FOR THE PROTECTION, ENHANCEMENT, AND MANAGEMENT OF SIGNIFICANT NATURAL VEGETATIVE COMMUNITIES IN ORDER TO MAINTAIN THEIR ECOLOGICAL, AESTHETIC, ECONOMIC AND RECREATIONAL VALUES.

OBJECTIVE 5.1. ECOLOGICAL COMMUNITIES

The City shall maintain and periodically review standards and programs that maintain upland ecological communities to the maximum extent feasible within the City.

POLICY 5.1.1.

An inventory of ^{NATIVE} natural vegetative communities shall be provided by the applicant for all development proposals requiring site plan or plat approval. The applicant shall provide a plan for protection of species which are designated by either State or Federal agencies as endangered, threatened, or of special concern.

POLICY 5.1.2.

The City shall maintain, refine, and expand its FLUCCS inventory and make such information available to ~~land developers~~ ^{ALL RESIDENTS}.

POLICY 5.1.3.

Ecologically viable portions of natural upland plant ^{to} communities including, but not limited to, rare or endangered ecosystems within proposed urban development sites, should be preserved and maintained in their original state, to the greatest extent practicable. ^{FORESTS}

POLICY 5.1.4.

The City shall maintain and periodically review provisions in the Land Development Code to preserve the upland buffers of native vegetation; significant habitat area (including wildlife corridors); scenic vistas; areas where native vegetation is important to impede erosion, and other areas where the public interest is best served by preserving native vegetation.

CONSERVATION ELEMENT

GOALS, OBJECTIVES AND POLICIES

POLICY 5.1.5.

The City shall maintain and ^{ANNUALLY} periodically review standards that preserve the present forested tree cover to the maximum extent practical. ^{ESPECIALLY THE OSLT}

POLICY 5.1.6.

^{PLANT, PLANT, PLANT + PROGRAM +}
The City shall preserve designated canopy roads and Greenbelts as implemented by the Land Development Code.

POLICY 5.1.7.

^{EXPAND REGROWTH OF TREES}
The City shall minimize the clearing of trees for rights-of-way, to protect existing habitats as implemented by the Land Development Code.

POLICY 5.1.8.

^{NATIVE}
Significant mesic or xeric communities shall not be disturbed or affected by water detention, retention, or reuse activities or structures as implemented by the Land Development Code.

OBJECTIVE 5.2. HABITAT AND DEVELOPMENT ^{+ REGROW}

Balance the combination of aesthetic, ecological, recreational and utilitarian qualities of the land for the long-term public interest.

POLICY 5.2.1.

Require habitat corridors and buffers of sufficient length and width to protect the long-term viability of significant habitat areas, for designated plant and animal species.

POLICY 5.2.2.

The development plan review process shall consider the overall impact of a project on adjoining ecosystems.

POLICY 5.2.3.

Require property owners to protect wetland systems in accordance with the criteria and standards for each wetland classification as noted under Objective 5.4 of this Element and in the City Wetlands Protection section of the Land Development Code, Chapter 3, Article II.

POLICY 5.2.4.

In cooperation with adjacent governmental entities, ensure the survival of significant habitat areas, habitat corridors and specimen trees. ^{+ COMMUNITY FOREST}

**CONSERVATION ELEMENT
GOALS, OBJECTIVES AND POLICIES**

POLICY 5.2.5.

Work with adjacent governmental entities to ensure that planned wildlife corridors are contiguous and provide for unimpeded movement of wildlife.

POLICY 5.2.6.

NATIVE

Manage undeveloped City-owned lands for the long-term public interest, doing so in a manner by which the City sets an example for private development to follow. For example, the City should follow Ecosystems Management Practices as defined by the Department of Environmental Protection when applicable.

TO PHA

POLICY 5.2.7.

Development may incorporate isolated wetlands into effective stormwater management systems, provided that the stormwater runoff is treated prior to entering any wetland system, so that the wetland is used for nutrient and volume attenuation.

POLICY 5.2.8.

Make land use decisions in conjunction with the carrying capacity of the land and its ecosystems.

POLICY 5.2.9.

On a continuous basis, the City shall study and upgrade as necessary its buffer width requirements for projects abutting waterways and wetlands.

POLICY 5.2.10.

On a continuous basis, the City shall coordinate and cooperate with contiguous governmental entities to protect environmentally sensitive vegetative habitats which extend into contiguous jurisdictions.

NATIVE TREES + PLANTS

POLICY 5.2.11.

The area of land disturbed by development shall be as small as practicable. Those areas which are not to be disturbed shall be protected by an adequate barrier from construction activity. Whenever possible, natural vegetation shall be retained and protected.

POLICY 5.2.12.

Land that has been cleared for development and upon which construction has not commenced shall be protected from erosion by appropriate techniques designed to revegetate the area.

CONSERVATION ELEMENT GOALS, OBJECTIVES AND POLICIES

POLICY 5.2.13.

Wherever feasible, site design shall accommodate any ~~designated~~ ^{NATIVE} plant species with protected status which are in the path of development; where this is not feasible, these plants will be relocated to protected sites having appropriate growing conditions, whenever possible.

POLICY 5.2.14.

To preserve wetlands, the lateral distance of groundwater drawdown influence shall not adversely affect protected wetlands or their functions. The applicant shall demonstrate to the City Engineer through a series of borings or field permeability tests that the subsurface, groundwater, and permeability conditions shall not receive a significant negative impact. The applicant shall provide a calculation of the maximum horizontal or vertical drawdown that can be anticipated beyond the maximum perimeters of any borrow pit, detention, or retention area.

POLICY 5.2.15.

The City of Ormond Beach shall cooperate with Volusia County in the development of an interpretive/educational signage program along the Ormond Scenic Loop & Trail. The program shall include a requirement for signage and information that highlight the flora, fauna, land forms, water bodies and historical/archeological resources allocated along the corridor.

POLICY 5.2.16.

The City and Volusia County, in conjunction with the Ormond Scenic Loop & Trail Corridor Management Entity shall develop and implement a plan for safe, public parking to allow the safe enjoyment of the natural and scenic resources.

OBJECTIVE 5.3. NATIVE LANDSCAPING

The City shall promote the use of native ~~drought-resistant~~ ^{TREES +} vegetation in landscaping. The maximum amount of protection possible shall be provided for existing trees and other vegetation in order to assist in the control of flooding, soil erosion, dust, heat, air, and noise pollution and to improve the appearance, environmental character, and value of the total urban area and to protect nearby properties.

POLICY 5.3.1.

The City shall continue to promote and encourage xeriscape design concepts for landscaping single-family homes by providing builders, landscape designers, homeowners, and the general public with informational brochures ~~describing xeriscape.~~ ^{NATIVE PLANT} ^{NATIVE PLANTS}

CONSERVATION ELEMENT GOALS, OBJECTIVES AND POLICIES

POLICY 5.3.2.

The City shall require that at least ¹⁵~~50%~~ of the landscape vegetation used on a project reviewed by the Site Plan Review Committee be comprised of ~~drought-resistant~~ native vegetation in harmony with site specific conditions.

POLICY 5.3.3.

Vegetation on new City landscaping projects shall be comprised of at least ⁷⁵~~50%~~ native ~~drought resistant~~ vegetation.

POLICY 5.3.4.

All new development and expansions of existing development, except for single-family homes in an existing subdivision, shall provide for the protection of native vegetation on the site. Existing developments should utilize native plants in common areas (entranceways, pavilions) in instances where replanting or relandscaping becomes necessary.

POLICY 5.3.5.

Native vegetation shall be used to the maximum extent possible to meet landscaping and ~~open-space~~ requirements.

POLICY 5.3.6.

Exotic plant species, as listed as exempt species in Chapter 3, Article II of the Land Development Code, shall be removed from development sites during the time of construction.

POLICY 5.3.7.

Development shall preserve fifty (⁷⁵~~50%~~) percent of ecologically viable portions of natural upland plant communities, including rare or endangered ecosystems, present on-site.

5.3.8 REDUCE AND OR REMOVE INVASIVE PLANTS

OBJECTIVE 5.4. WETLAND PRESERVATION

Wetland areas within the City shall be preserved in accordance with a City that incorporates the need for wetlands preservation; directs incompatible uses away from wetland areas; promotes economic development that creates long-term jobs by establishing a means to allow wetland impacts for industrial land uses in platted industrial parks; inventories existing wetlands within the City; sets performance criteria to maintain wetland functions; establishes transition zones; and establishes land use policies for transition zones; and establishes standards for mitigation based on a policy of no-net-loss of wetland functions as a last resort.

GOAL 6. FISH AND WILDLIFE

MAINTAIN, PROTECT, PRESERVE, OR INCREASE EXISTING NATIVE FISH AND WILDLIFE SPECIES ~~IN TERMS OF~~ ^{FOR} OVERALL POPULATION AND DIVERSITY.

OBJECTIVE 6.1. CONSERVATION

The City and any development activity shall ensure that viable sized tracts of unique and significant natural habitat areas and wildlife corridors are preserved and protected with adequate buffers of native vegetation and an effective management plan in order to minimize the adverse effect of development or recreation activity on fish and wildlife. Fisheries, fishes, wildlife, and wildlife or marine life habitats shall be conserved, appropriately used, and protected, particularly those which are threatened, endangered, or of special concern.

POLICY 6.1.1.

The City shall maintain the provisions of the Land Development Code that incorporate 1) the creation of viable wildlife habitats and corridors and 2) the preservation of sustainable vegetative mosaics of significant native faunal and floral habitat and wildlife corridors into the development review process to ensure that natural habitat areas are protected to the maximum extent feasible on both site-specific and macro levels from the cumulative effects of growth and development.

POLICY 6.1.2.

If it is presumed that a designated species may be present on the basis of general characteristics including the number and types of plant communities, the linear amount of “edge” such as the boundaries between woods and grasslands, the presence of water, and the presence of movement corridors between habitat areas, the City shall require applicants for development to assess the impact of development on designated species. Designated species shall include those classified, by either the Florida Game and Freshwater Fish Commission or the U.S. Fish and Wildlife Service, as endangered, threatened, or species of special concern, or those species actively being considered for designation. When estimating the impact of proposed development, the applicant may be required to conduct an inventory of existing wildlife and vegetation on the site.

POLICY 6.1.3.

No more than 20% of the habitat area for designated species may be disturbed, whether cleared, filled or otherwise altered. Any development which disturbs designated species habitat areas shall prepare a workable management plan for those affected species. Such management plan shall be reviewed and approved by the respective State agencies.

CONSERVATION ELEMENT GOALS, OBJECTIVES AND POLICIES

POLICY 6.1.27.

Land use activities adjacent to the following areas:

- Open space/conservation areas and recreation/open space areas designated in the Future Land Use and Recreation/Open Space Elements;
- Tomoka Marsh Aquatic Preserve;
- Tomoka River Manatee Sanctuary;
- Tomoka River OFW;
- Tomoka State Park; and
- Wetlands,

shall be limited to non-intensive uses such as Environmental Systems Corridors, Agriculture, rural, or low density residential and office/professional or neighborhood commercial. All proposed land use activities must ensure that such activities will not degrade the natural physical, biological, aesthetic, or recreational functions of such lands and shall provide for the preservation and protection of such areas in accordance with the appropriate standards including, but not limited to, setback requirements, buffers, wetland and floodplain policies.

POLICY 6.1.28.

Planning and approval of development projects shall avoid adverse impacts to species listed as endangered, threatened or species of special concern to the greatest extent practicable. Where suitable habitat on a project site is utilized by a listed species, a management plan designed to minimize harm to the species and its habitat should be prepared by the developer and adherence to the plan made a condition of development approval. Management plans shall be reviewed and approved by the appropriate State agency (FGFWFC or FDEP) and the U.S. Fish & Wildlife Service prior to their approval by the City.

POLICY 6.1.29.

The City shall support the protection of critical habitat for endangered and threatened species to the maximum extent feasible. "Critical habitat" shall include those habitat types, or specific geographical locations, which are designated as such by the USFWS, NMFS, FGFWFC, FDEP, FDACS, or the RPC.

GOAL 7. USES OF NATURAL RESOURCES

THE CITY SHALL PROVIDE FOR THE PROTECTION AND SENSITIVE USE OF NATURAL RESOURCES THROUGH DEVELOPMENT REGULATIONS AND PUBLIC PROGRAMS.

OBJECTIVE 7.1. LAND ACQUISITION

The City shall support the acquisition of unique or environmentally significant properties for public conservation reservations and maintain its proposed level-of-service for passive parks.

POLICY 7.1.1.

Upon adoption of the Comprehensive Plan, the City shall require developments along the Tomoka River and its tributaries with individual properties of five acres or larger to include all wetlands in a conservation easement to the City. The easement shall not prohibit the construction of an elevated wooded catwalk to the waterway, provided the construction is done in the most environmentally sound manner. Developments, when property along a waterway or wetland is divided into tracts of less than 5 acres, shall put those wetlands in either public or semipublic (e.g., homeowner's association) control; properties with multiple riparian ownership of less than 5 acres which are under homeowner association control shall grant a conservation easement to the City. For lots of less than 5 acres, if part of a subdivision project, only one community dock shall be allowed.

POLICY 7.1.2.

On a continuous basis, the City shall consider acquisition of vacant lands abutting the Tomoka River, its tributaries, Dodson Creek and the Halifax River.

POLICY 7.1.3.

The City shall, in coordination with local and State agencies, participate in a strategy to acquire environmentally sensitive lands.

OBJECTIVE 7.2 IMPACT ASSESSMENT

All development activities shall properly assess impacts on the environment and provide an effective mitigation plan as required.

CONSERVATION ELEMENT GOALS, OBJECTIVES AND POLICIES

POLICY 7.2.1.

The City shall require Environmental Assessment Reports for all planned unit developments, subdivisions, and other development that must comply with the special requirements of the residential suburban zoning district and that must prepare a water management plan in accordance with the provisions of the Land Development Code.

OBJECTIVE 7.3. ~~SUSTAINABILITY~~ WISE USE OF LAND

Promote energy conservation techniques such as the use of alternative and renewable energy sources thereby increasing energy efficiency.

POLICY 7.3.1

Encourage the production and use of energy generated from renewable resources.

POLICY 7.3.3

The built environment and urban design should maximize natural areas and assets and incorporate Florida Friendly landscaping to reduce energy and water consumption.

POLICY 7.3.4

~~FLA. PLANT, PART PROGRAM~~
Create, protect and manage systems of green infrastructure (i.e., urban forests, parks and ~~open spaces~~, green roofs, natural drainage systems). ~~COMMITMENT FOR~~

POLICY 7.3.5

Protect and enhance ~~green spaces to provide natural carbon sinks in soils, vegetation, and streambeds to mitigate carbon emissions.~~ TREES

POLICY 7.3.6

Encourage site design techniques that restore natural “~~green infrastructure~~” (i.e., urban forests, parks and ~~open spaces, natural drainage systems~~) instead of relying solely on ~~engineered systems that require higher energy and carbon inputs.~~

CONSERVATION ELEMENT GOALS, OBJECTIVES AND POLICIES

- b. Homes and employment centers
- c. Homes and neighborhood commercial centers.

POLICY 8.1.7.

External bicycle systems which provide for bicycle traffic to adjacent residential, employment, and educational centers shall be connected by development and the provision for facilitating the movement of bicycle traffic to nearby external residential, employment and educational centers shall be considered during the site plan review process.

POLICY 8.1.8.

Bicycle lockers or bicycle racks, transit passenger shelters and transit parking bays shall be constructed where necessary to augment and facilitate the operations of off-site transit and bicycle facilities.

POLICY 8.1.9.

The City shall continue to require all buildings scheduled for demolition or renovation be surveyed by the applicant for the presence of asbestos. Asbestos shall be removed prior to demolition. Any asbestos removal and disposal shall be performed by a contractor licensed by the Florida Department of Professional Regulation.

POLICY 8.1.10.

The City shall enforce Section 104.1.10 of the currently adopted Florida Building Code in regard to asbestos removal during demolition or construction activities.

8.1.11 TREE HELP REDUCE CO₂ + INCREASE O₂ & CLEAN AIR.

OBJECTIVE 8.2. SITE PLAN REVIEW

The City shall review through the site plan review process the change in levels of air pollutants considered hazardous to health or damaging to property (including but not limited to carbon monoxide, sulfur oxides, hydrocarbons, particulates, nitrogen oxides, photochemical oxides); the effective or visual aesthetics, in terms of opacity and shade of emitted smoke plumes.

POLICY 8.2.1.

The City shall require all ^{*PUBLIC*} industrial and certain commercial development and residential development to prepare an Environmental Assessment Report to analyze and estimate the net change in levels and distribution of pollution caused by the development activity.

GOAL 10. HAZARDOUS WASTES

THE CITY SHALL ENSURE THAT THE GENERATION, USE, STORAGE, TRANSPORTATION, AND COLLECTION OF HAZARDOUS OR TOXIC CHEMICALS, MATERIALS, OR SUBSTANCES WITHIN THE CITY SHALL CONSTITUTE NO SIGNIFICANT THREAT TO THE GENERAL HEALTH, SAFETY, AND WELFARE.

OBJECTIVE 10.1. SARA TITLE III COMPLIANCE

The City shall ensure compliance with SARA Title III provisions and shall ensure the proper management of hazardous materials to protect the public health, safety, and welfare and to protect natural resources.

POLICY 10.1.1.

The City shall continue to identify all industries and businesses within its boundaries which generate, use, or store hazardous or toxic chemicals, materials, or wastes.

POLICY 10.1.2.

The Fire Department shall maintain the information from Policy 10.1.1 (above) in its computer database.

POLICY 10.1.3.

The City shall continue a public information campaign oriented to industries, businesses, and homes to educate people about safe use and disposal of hazardous or toxic substances.

POLICY 10.1.4.

The City, in conjunction with the Central Florida Local Emergency Planning Committee (LEPC) shall regulate and manage hazardous waste to protect the public health, safety and welfare and to protect natural resources as per the standards and guidelines established under Goal 3.2 in the Utilities Element.

OBJECTIVE 10.2. EMERGENCY PREPAREDNESS

The City shall be fully prepared for a hazardous or toxic accident or incident, with up-to-date plans, training, and equipment.

POLICY 10.2.1.

On a continuous basis, the appropriate personnel shall be kept abreast of the appropriate accident/incident response training.

**CONSERVATION ELEMENT
GOALS, OBJECTIVES AND POLICIES**

POLICY 11.1.6.

Septic tanks shall not be located in areas designated by the U.S. Soil Conservation Service as having severe or moderate limitations for septic tank development.

POLICY 11.1.7.

In connection with development, all swales, retention, and detention areas shall be sodded or vegetated to help prevent erosion and facilitate efficient maintenance.

11.1.8

TREES HELP REDUCE SOIL EROSION

COMPREHENSIVE PLAN 2045

CITY OF
ORMOND BEACH, FLORIDA

ATTACHMENT 9:
MEETING MINUTES, FEBRUARY
CITY COMMISSION WORKSHOP AND
PLANNING BOARD

Comprehensive Plan Update, Community Engagement Meeting, January 16, 2025 Meeting Notes

City staff in attendance:

Shawn Finley, Assistant City Manager
Robert Carolin, Leisure Services Director
Steven Spraker, Planning Director
Sarah Motes, Senior Planner
Noel Eaton, Senior Planner
Mike Stephenson, Utilities Engineer

The meeting began at 5:30 pm with a presentation by Steven Spraker, Sarah Motes, and Noel Eaton summarizing the Comprehensive Plan update, survey results, development trends and key updates of the individual Elements. Citizens in attendance were provided opportunities to ask questions throughout the meeting. Questions and comments included:

- “The Regrow Volusia or Regrow The Loop” should be included in the Conservation Element as part of the preservation, protection and enhancement efforts.
- Why is the city pursuing properties to annex? The city does not proactively pursue properties to annex. However, if a property owner wants city water and sewer, they must annex. If the city is going to provide infrastructure, the property needs to be in the city jurisdiction or sign an annexation agreement.
- Are the other master plans being updated consistent with the Comprehensive Plan? The response was “yes”. In addition, the Comprehensive Plan is updated as needed and another update review would be required in seven years.
- Did the boundary of the Downtown Development District change? The answer was “no” and has been the same since 1986.
- When discussing open space, it seems this is not correct terminology. Maybe, the City Commission should consider using the term “real estate” as it relates to properties that are developed and may have flooded but are not considered stormwater. Staff was not in favor of replacing the term “Open Space”. Another citizen thought that Open Space was the correct terminology to use.
- Positive comments included how the Comprehensive Plan update has been processed and the parks are well used and one of the best things about the city.

Next steps and the website link was provided as to where all of the Comprehensive Plan Update information could be found. The meeting ended at 6:25 pm with additional opportunity to ask staff more questions.

**MINUTES
CITY OF ORMOND BEACH
COMPREHENSIVE PLAN 2045 UPDATE WORKSHOP**

February 4, 2025

5:30 p.m.

City Commission Conference Room

I. CALL TO ORDER

Mayor Jason Leslie called the meeting to order at 5:30 p.m.

Present: Mayor Jason Leslie, Commissioners Lori Tolland, Kristin Deaton and Harold Briley, City Attorney Randy Hayes, Assistant City Manager Shawn Finley, Assistant City Manager Claire Whitley, Planning Director Steven Spraker, and Senior Planner Noel Eaton.

II. DISCUSSIONS

Mr. Shawn Finley, Assistant City Manager, stated staff would review the individual elements of the Comprehensive Plan 2045 update.

Mr. Steven Spraker, Planning Director, explained what a Comprehensive Plan was and the state statutes surrounding it. He noted there were 12 Comprehensive Plan Elements to be reviewed. He reviewed the process of preparing the update, the city's advisory boards input, and the public input.

Ms. Noel Eaton, Senior Planner, reviewed the highlights from the public survey, noting there were 196 responses.

Commissioner Briley inquired about the meaning of Community Preservation; whereby, Ms. Eaton stated it was the sense of place within the city. Commissioner Briley stated it could be subjective.

Commissioner Tolland noted the importance of Community Preservation.

Mr. Spraker discussed the city's development trends, including annexations, permitted developments, and projected population. He reviewed the Plan Administration and Future Land Use Element.

Mayor Leslie inquired about the projected population; whereby, Mr. Spraker stated it was determined by general population growth and number of permitted lots.

Mr. Spraker reviewed the Transportation Element.

Commissioner Briley expressed interest in keeping the Community Redevelopment Plans regarding South Atlantic Avenue in the element, and to revisit the idea with Volusia County due to the success of the downtown Community Redevelopment Agency; whereby, Mayor Leslie agreed.

Commissioner Tolland requested the multi-modal be included in Policy 1.7.1 of the Transportation Element.

Mr. Spraker reviewed the Utilities Element.

Commissioner Tolland discussed the Florida League of Cities legislative policy called One Water, and requested for staff to look into and see if it could be incorporated. She inquired if staff could look into all stormwater policies to find if anything could be improved; whereby, Mayor Leslie stated that could be included in the requested stormwater workshop.

Commissioner Briley expressed concerns about Volusia County and privately-owned problem areas. He expressed the importance of providing education to Homeowner Associations (HOA) on dredging retention ponds.

Commissioner Tolland suggested working with legislators to see if some laws could be changed to be able to work with HOA's.

Mr. Finley requested time to gather information for a stormwater workshop.

Commissioner Briley voiced concerns regarding inactive HOA's and stormwater maintenance.

Mayor Leslie indicated state legislators had funding for stormwater projects.

Commissioner Deaton expressed concerns regarding approaching HOA's and the potential for the cost of the HOA fees to rise resulting in financial hardships for residents.

Commissioner Tolland inquired if the city could assist with inactive HOA's retention pond dredging; whereby, Mr. Randy Hayes, City Attorney, explained public funds could not be used on private use.

Mr. Finley noted there were old developments that were not up to the newer stormwater codes.

Mr. Spraker reviewed the Conservation Element.

Commissioner Tolland inquired about policies for purchasing land for conservation; whereby, Mr. Spraker stated there were policies in place.

Mr. Spraker reviewed the Coastal Management Element, Housing Element and residential building permits and plats. He discussed neighboring municipalities residential permits.

Commissioner Briley stated Daytona Beach's residential permits were the reason the city was feeling traffic issues along the roadway corridors.

Commissioner Tolland inquired if there was enough affordable housing; whereby, Mr. Spraker stated there was always a demand for affordable housing.

Commissioner Deaton stated there was always a waitlist for Olive Grove, which provides affordable housing; whereby, Commissioner Briley stated Olive Grove and Fisherman's Landing were both subsidized housing.

Mr. Spraker discussed areas of population growth including Ormond Crossings and Plantation Oaks.

Ms. Eaton reviewed the Recreation and Open Space Element that was proposed to be changed to the Parks and Recreation Element. She noted that there was public comment received to change the name of the Leisure Service Department to the Parks and Recreation Department, noting planning staff was looking for direction from the Commission if they are interested in changing the name.

Commissioner Tolland inquired how the city would change the department name from Leisure Services to Parks and Recreation; whereby, Mr. Spraker stated a resolution confirming the City Commission's intent to change the department name, followed by a Land Development Code and Code of Ordinances amendment.

Commissioner Briley questioned why the name was changed previously; whereby, Mr. Spraker stated it was a broader term to be more encompassing of all services offered.

Commissioner Tolland requested staff look at the 2016 Bike Master Plan and seek collaboration with the Volusia County Bike Trail to incorporate both into the element. She stated she would like to see a policy regarding removing invasive plant species on city property and incorporate the expense in the budget.

Ms. Eaton reviewed the Capital Improvements Element, Intergovernmental Coordination Element and Cultural and Historical Resources Element.

Commissioner Briley inquired where the Birthplace of Speed Museum was located; whereby, Ms. Eaton stated the exhibit was on floor two of The Casements.

Commissioner Briley requested the Birthplace of Speed Museum policy stay in the Cultural and Historical Resources Element and a stand-alone museum was desired; whereby, Mayor Leslie agreed.

Commissioner Tolland requested when the "Friends of the Performing Arts Center" was mentioned, to also mention the "Friends of Recreation."

Ms. Eaton reviewed the Public School Facilities Element and Property Rights Element.

Mr. Spraker reviewed the next steps of the 2045 update and reminded the Commission the document could always be revised.

Commissioner Briley expressed concern regarding flooding with new stormwater requirements in older residential neighborhoods with the building of new homes; whereby Mr. Spraker reviewed the stormwater redevelopment requirements and process.

Mr. Finley suggested looking at the process and requirements at the proposed stormwater workshop.

Commissioner Tolland requested wetlands also be discussed during the stormwater workshop.

III. ADJOURNMENT

The meeting was adjourned at 6:30 p.m.
Prepared by: Taylor Lochert

Board Questions

Mr. Railsback asked if there was any benefit to not being on the list. Ms. Eaton replied that there are no restrictions on expansions.

Mr. Gentry asked if there were any other restrictions that would prohibit action to remove the property from the list. Ms. Eaton responded that there are no criteria for removal and that the criteria is for the LDC amendment.

Mr. Railsback asked if there were any other properties adjacent to or around the property that are on the list. Ms. Eaton answered that there are not.

Chairman Thomas asked if the applicant was interested in addressing the Board and opened it up for any additional Board questions or comments. There were none.

Chairman Thomas entertained a motion.

Mr. Scudiero motioned to approve PZ-2024-121 Land Development Code Amendment for Historic Landmark Designation (Removal) of 63 Seville Street, The “Barbie House”. Mr. Gentry seconded it. Vote was called, and the motion was approved (7-0).

Chairman Thomas commented that these requests are managed by the Board occasionally and how it is nice for the houses to be on the historic register list, but how sometimes changes need to be made which affects the eligibility.

VIII. PUBLIC COMMENTS

None.

IX. OTHER BUSINESS

A. PZ-24-84 Comprehensive Plan 2045 Update Review

Mr. Spraker delivered a summary of the Comprehensive Plan 2045 update. He summarized the actions since the issuance of the Planning Board packet that a Community Engagement Meeting was held on January 16, 2025, with approximately ten individuals in attendance. Mr. Spraker continued that on February 4, 2025, there was a City Commission workshop to discuss the Comprehensive Plan update. Mr. Spraker stated key direction points including:

- Recommendation for a policy to perform a bike plan;
- Maintenance of a Policy in the Transportation Element regarding the desire for a Redevelopment Plan along South Yonge Street which is subject to Volusia County approval;
- The change of the name of the Leisure Services Department to the Parks and Recreation Department. He stated that the Quality of Life Board, Historic Landmark Preservation Board, and Leisure Advisory Board recommended approval of the name change. He noted that the City Commission expressed support for the department name change; and
- Recommendation to maintain a Policy regarding the Birthplace of Speed Museum concept.

Mr. Spraker reviewed the discussion at the Leisure Service Advisory Board on February 12, 2025.

Mr. Spraker stated that the Planning Board has seen the PowerPoint within the packet as the Comprehensive Plan 2045 update was reviewed. He stated that he was available for questions.

Mr. Jorczak asked about the portion of the plan that deals with flood control. He referenced that Volusia County is working to address flooding issues. Mr. Spraker stated that the Comprehensive Plan establishes a broad policy for floodplain management and wetlands with the details in the Land Development Code. Separate of these policies there is a Stormwater Master Plan which was adopted in 2023 that has its own Policies. Mr. Spraker stated that the Stormwater Master Plan details existing developed areas that have flooding issues. He restated that the Comprehensive Plan provides broad policies for floodplain management and implementation of the Stormwater Master Plan. Mr. Spraker stated that the City Commission had a similar discussion and provided direction for a workshop regarding stormwater and flooding issues. He stated that through Volusia County funding there are studies underway for the Durrance Acres area, North US1/Ormond Lakes, and microstudy areas.

Mr. Jorczak stated that the City is gathering information to make additional decisions. Mr. Spraker agreed and referred to past Stormwater Master Plan projects such as in the Central Park area. He referenced that a meeting was held after Hurricane Milton for flood structures that desired to seek state and federal grants for home demolition/acquisition and raising of structures.

Mr. Jorczak discussed drainage canals and ditch maintenance by Homeowners' Associations. Mr. Spraker discussed maintenance and enforcement stating that the City cannot go on or repair improvements on private property.

Mr. Gentry asked how the survey for the update was advertised. Mr. Spraker stated that the survey was advertised on the City's website, e-mail distribution lists, Facebook, the Community Engagement Meeting and advertisements in the News-Journal and Ormond Observer.

Ms. Shull discussed the importance of drainage swales and conveyances as part of the flooding issues. She referenced a subdivision next to hers that has caused flooding concern. Ms. Shull encouraged the maintenance of city owned/maintained swales.

Chairman Thomas inquired about the ditch/culvert of the Hunter's Ridge area and if the Homeowner's Association is responsible. Mr. Spraker replied that if the swale/ditch is within the property, then the Homeowners' Association would be responsible as part of the stormwater permit. He continued that the Little Tomoka Village project was at a zoning stage of application. Mr. Spraker stated that Homeowners' Associations have been reporting requirements to the St. John's River Water Management District. He added that investigation of which Homeowners' Association are provided stormwater maintenance, could be part of an overall flooding strategy. Mr. Spraker concluded that Planning staff can inform the Planning Board of the pending City Commission workshop on stormwater.

Mr. Galloway stated that once the swale/ditch is within a state right-of-way, it is the responsibility of the Florida Department of Transportation. The Board discussed the responsibility of maintenance of a culvert within a right-of-way. Chairman Thomas clarified that he was referring to the drainage ditch in the backyards of residents. He

stated that he believes that a Homeowners' Association is responsible for maintenance of that ditch.

Mr. Spraker remarked that staff will provide new packets with the Comprehensive Plan amendment focused on formatting and grammatical changes.

Mr. Jorczak commented that he noticed there was not a lot of information on the airport. He stated that he understood that there was an Airport Master Plan. Mr. Jorczak asked if more information on the airport should be in the Comprehensive Plan. He referenced Flagler County's airport overlay district. Mr. Spraker responded that the airport overlay district is contained within the Land Development Code. The airport is not a required Element of the Comprehensive Plan. He stated that past practice has not included the airport in the Comprehensive Plan but instead use the Airport Master Plan. Mr. Spraker stated that the Airport Master Plan is the more appropriate place for airport related policies with implementation regulations in the Land Development Code.

City Attorney Hayes stated that there may be some reasons under the FAA regulations that airport policies would be more appropriate in the Airport Master Plan. He commented that the Comprehensive Plans are harder to amend.

Mr. Galloway asked if the Ormond Beach Business Park was part of the Comprehensive Plan. Mr. Spraker responded that all properties are included in the Future Land Use Map. He stated that the Business Park was sold from the airport to allow industrial development. Mr. Jorczak concurred that the Business Park was part of the airport and was sold for industrial development.

Mr. Spraker confirmed for Mr. Galloway that Ormond Crossings is part of the Comprehensive Policies.

Ms. Shull asked about traffic and if there is the consideration of trying to get ahead of the traffic needs for roads. Mr. Spraker stated that yes, there are efforts to plan, such as Interstate 95 and U.S. Highway 1. He added that the roadways that are most traveled are Volusia County and state roadways. Mr. Spraker stated while the City can encourage or partner, it is either Volusia County or state work programs that have roadway expansions in their capital projects. He stated these projects are constrained by funding and competing against other roadway projects. Mr. Spraker discussed state law and proportionate fair share regulations. Ms. Shull stated it would be nice to seek to look ahead for future projects such as Ormond Crossings. Mr. Spraker stated within the development orders for Ormond Crossings there are substantial improvements that the development must construct, such as the bridge over the railroad tracks.

Mr. Jorczak asked if there was a timeframe for the completion of the roadway to connect the business park to Pineland Trail. Mr. Spraker stated that it is near completion, and that he will check with the Engineering staff.

X. MEMBER COMMENTS

Ms. Shull asked for an overview of the former Bank of America neighborhood meeting. Mr. Spraker stated that there were 10 to 15 individuals in attendance. He added that the use is a conditional use which is approved by the Site Plan Review Committee. Mr. Spraker detailed items that were discussed which included stormwater, traffic, homeless in the area, and how residents stated that they did not believe the project was appropriate. Mr. Spraker confirmed that the submittal was for

COMPREHENSIVE PLAN 2045

Added with re-adoption

CITY OF
ORMOND BEACH, FLORIDA

**ATTACHMENT 10:
VOLUSIA GROWTH MANAGEMENT
COMMISSION AND FLORIDA COMMERCE
LETTERS**

October 17, 2025

The Honorable Jason Leslie
Mayor, City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174

Dear Mayor Leslie,

FloridaCommerce has completed its review of the adopted comprehensive plan amendment for the City of Ormond Beach (Amendment No. 25-01ER), which was received on September 2, 2025. FloridaCommerce received the adopted amendment in accordance with the state coordinated review process set forth in sections 163.3184(2) and (4), Florida Statutes (F.S.).

FloridaCommerce has identified a conflict with the application of Chapter 2025-190, Section 28, Laws of Florida (L.O.F.), and the adopted comprehensive plan amendment. These conflicts render the adopted comprehensive plan amendment null and void ab initio pursuant to Chapter 2025-190, Section 28, L.O.F. Chapter 2025-190 provides:

Section 28. (1) Each county listed in the Federal Disaster Declaration for Hurricane Debby (DR-4806), Hurricane Helene (DR-4828), or Hurricane Milton (DR-4834), and each municipality within one of those counties, may not propose or adopt any moratorium on construction, reconstruction, or redevelopment of any property damaged by such hurricanes; propose or adopt more restrictive or burdensome amendments to its comprehensive plan or land redevelopment regulations; or propose or adopt more restrictive or burdensome procedures concerning review, approval, or issuance of a site plan, development permit, or development order, to the extent that those terms are defined by s. 163.3164, Florida Statutes, before October 1, 2027, an any such moratorium or restrictive or burdensome comprehensive plan amendment, land development regulation, or procedure shall be null and void ab initio. This subsection applies retroactively to August 1, 2024.

For the reasons outlined herein, the City of Ormond Beach's adopted amendment is more restrictive or burdensome, making it null and void ab initio, pursuant to Section 28 of Chapter 2025-190, L.O.F.

The Honorable Jason Leslie
October 17, 2025

If you have any questions concerning this review, please contact me by telephone at (850) 717-8512 or by email at James.Stansbury@Commerce.fl.gov.

Sincerely,

James D. Stansbury, Chief
Bureau of Community Planning and Growth

JDS/jc

cc: Steven Spraker, AICP, Planning Director, City of Ormond Beach
Tara McCue, AICP, Executive Director, East Central Florida Regional Planning Council

Chapter 2025-190, Section 28, Laws of Florida (L.O.F.), to provide:

Section 28. (1) Each county listed in the Federal Disaster Declaration for Hurricane Debby (DR-4806), Hurricane Helene (DR-4828), or Hurricane Milton (DR-4834), and each municipality within one of those counties, may not propose or adopt any moratorium on construction, reconstruction, or redevelopment of any property damaged by such hurricanes; propose or adopt more restrictive or burdensome amendments to its comprehensive plan or land redevelopment regulations; or propose or adopt more restrictive or burdensome procedures concerning review, approval, or issuance of a site plan, development permit, or development order, to the extent that those terms are defined by s. 163.3164, Florida Statutes, before October 1, 2027, an any such moratorium or restrictive or burdensome comprehensive plan amendment, land development regulation, or procedure shall be null and void ab initio. This subsection applies retroactively to August 1, 2024.

The City of Ormond Beach's adopted Amendment 25-01ER makes changes related to the following policy in the Comprehensive Plan that is more restrictive or burdensome and another policy that is potentially more restrictive or burdensome than the City's currently adopted Comprehensive Plan. The following policy is more restrictive or burdensome: Transportation Element Policy 1.6.4. The following policy is potentially more restrictive or burdensome: Housing Element Policy 1.1.9.

RE: Ord No. 2025-17

Dear Mr. Spraker:

Thank you for submitting copies of the adopted Comprehensive Plan Amendment for the City of Ormond Beach No. 25-01ER, adopted by Ordinance No. 2025-17 on August 19, 2025, for our review.

We have conducted a preliminary inventory of the plan amendment package to verify the inclusion of all required materials. The submission package appears to be complete, and your adopted plan amendment will be reviewed pursuant to Section 163.3184(4), Florida Statutes. Once the review is underway, you may be asked to provide additional supporting documentation by the review team to ensure a thorough review. The State Land Planning Agency will conduct a compliance review and issue a Notice of Intent regarding the adopted comprehensive plan amendment on or about October 17, 2025.

Please be advised pursuant to Section 163.3184(4)(e)4., Florida Statutes, the State Land Planning Agency's Notice of Intent shall become effective upon posting on the agency's internet website unless challenged by an Affected Party.

If you have any questions, please contact James Stansbury, Bureau Chief, for region 05, who will be assigning the adopted plan amendment for review at (850)717-8512.

Sincerely,

Donna Harris, Senior Plan Processor

**Transmittal of Adopted City of Ormond Beach Comprehensive Plan
Amendment, Evaluation and Appraisal Report – Comprehensive Plan
2045 Update**

Uploaded to: <https://flcom.my.salesforce-sites.com/cp>

Dear Ms. Harris:

Please find enclosed the adopted amendment to the Ormond Beach Comprehensive Plan related to the Evaluation and Appraisal Report – Comprehensive Plan 2045. Details of the Comprehensive Plan amendment are as follows:

1. The adoption package includes Ordinance 2025-17 regarding the proposed amendments. The second reading was conducted on August 19, 2025.
2. The following changes were made based on the state agencies review:

Change 1: Utilities Element, Existing Policy 5.1.19. (to be Policy 5.1.18.)

The first reading of the Ordinance (transmittal draft) had Policy 5.1.19. of the Utilities Element to be deleted. In e-mail communications, St. Johns River Water Management District staff recommended maintaining this policy. St. Johns River Water Management District states that Policy 5.1.19. implements Florida Statute Section 163.3180(2). City staff have no objections to maintaining this Policy.

Utilities Element (Do not delete Policy)

~~POLICY 5.1.19.~~ POLICY 5.1.18.

The City shall issue no development orders or development permits without first consulting appropriate water suppliers to determine whether adequate water supplies to serve the development will be available no later than the anticipated date of issuance by the City of a Certificate of Occupancy or its functional equivalent. The City will also ensure that adequate water supplies and facilities are available and in place prior to issuing a Certificate of Occupancy or its functional equivalent.

Change 2: Florida Statute Section 163.3177(6)(c)(3) – 2023 House Bill 1379

The Florida Department of Environmental Protection staff provided the comment below:

During the 2023 legislative session, the Florida Legislature passed House Bill (HB) 1379, Laws of Florida Chapter No. 2023-169, which revised s. 163.3177, F.S., requiring local government comprehensive plans to address the following:

- Within the general sanitary sewer, solid waste, drainage, potable water, and natural groundwater aquifer recharge element, local governments must address the upgrading of wastewater treatment facilities and prioritize advanced waste treatment (AWT), and, for local governments not included within a designated Rural Area of Opportunity, a section considering the feasibility of providing sanitary sewer services within a 10-year planning horizon to any development of more than 50 built or unbuilt residential lots with a density of more than one onsite sewage treatment and disposal system (OSTDS; aka septic system) per acre must be included by July 1, 2024 (s. 163.3177(6)(c)3, F.S.)

Based on the Department's records, the City of Ormond Beach has not addressed the above requirements, specifically the inclusion of the wastewater feasibility analysis described in s. 163.3177(6)(c)3, F.S. If applicable developments exist within the jurisdiction, the City must update their general sanitary sewer, solid waste, drainage, potable water, and natural groundwater aquifer recharge element to include the required information as soon as possible to address the existing noncompliance with s. 163.3177, F.S.

The following two Policies were developed to address the Florida Department of Environmental Protection comment. There is one subdivision, Hidden Hills, which is not connected to city sewer that is more than 50 lots and has a density of less than one unit per acre. The feasibility of connection to a central sewer system was previously reviewed with the Utility Master Plan and deemed financially unfeasible at this time. Future updates to the Utility Master Plan will continue to review the feasible of a central sewer connection. Below are the two proposed Policies based on the Florida Department of Environmental Protection comment.

Utilities Element

POLICY 1.4.7.

Within the City of Ormond Beach's utility service area for any development of more than 50 residential lots, whether built or unbuilt, with more than one onsite sewage treatment and disposal system per 1 acre, the City outlines the feasibility of providing sanitary sewer services within the City's Utility Master Plan. There is one subdivision within the City's limits which is not connected to central sewer that has a density of less than 1 unit per acre. Based upon the findings from the latest Master Plan cost estimate, this subdivision is deemed not feasible to connect to central sewer based on cost. The City will re-evaluate this with future Utility Master Plan updates. An onsite sewage treatment and disposal system is presumed to exist on a developed parcel if sanitary sewer services are not available at or adjacent to the parcel boundary.

POLICY 1.4.8.

Sanitary sewer flows from current developments within the City of Ormond Beach's service area are received at the Water Reclamation Facility (WRF) on Orchard Street. The City of Ormond Beach is currently in the planning process of establishing a new wastewater treatment facility in the western region of the utility's service area. Projected flows from potential developments will be served by both facilities once the new facility has been completed.

The Annual Average Daily Flow (AADF) capacity of the facilities in the City of Ormond Beach's service area and the projected wastewater flow at these facilities for the next 20 years are depicted in Table 1. All values in Table 1 are in millions of gallons per day (MGD). Expected future new construction and connections of onsite sewage treatment and disposal systems to sanitary sewer are currently on a 20-year planning horizon as demonstrated in the Utility Master Plan collection and distribution Systems, as may be amended periodically.

Table 1
Project AADF Wastewater Flow Projection

<u>Year</u>	<u>Total AADF to Orchard WRF*</u>	<u>Total AADF to Western Utility WRF**</u>	<u>Total AADF Wastewater Flow</u>
<u>2025</u>	<u>5.69</u>		<u>5.6</u>
<u>2030</u>	<u>7.5</u>		<u>7.5</u>
<u>2035</u>	<u>6.6</u>	<u>3.0</u>	<u>9.6</u>
<u>2045</u>	<u>7.5</u>	<u>4.0</u>	<u>11.5</u>

*The current permitted capacity of the Orchard St WRF is 8.0 MGD.

June 23, 2025

The Honorable Jason Leslie
Mayor, City of Ormond Beach
22 South Beach Street
Ormond Beach, Florida 32174

Dear Mayor Leslie,

FloridaCommerce has completed its review of the proposed comprehensive plan amendment for the City of Ormond Beach (Amendment No. 25-01ER), which was received on April 24, 2025. We have reviewed the proposed amendment in accordance with the state coordinated review process set forth in Sections 163.3184(2) and (4), Florida Statutes (F.S.), for compliance with Chapter 163, Part II, F.S.

The attached Objections, Recommendations and Comments Report outlines our findings concerning the amendment. FloridaCommerce does not identify any objections to the proposed amendment. However, FloridaCommerce is providing a comment. The comment is offered to assist the local government but will not form the basis for a determination of whether the amendment, if adopted, is "In Compliance" as defined in Section 163.3184(1)(b), F.S. Copies of comments received by FloridaCommerce from reviewing agencies, if any, are also enclosed.

The City should act by choosing to adopt, adopt with changes or not adopt the proposed amendment. For your assistance, we have enclosed the procedures for adoption and transmittal of the comprehensive plan amendment.

The second public hearing, which shall be a hearing on whether to adopt one or more comprehensive plan amendments, **must be held within 180 days** of your receipt of FloridaCommerce's attached report, or the amendment will be deemed withdrawn unless extended by agreement with notice to FloridaCommerce and any affected party that provided comment on the amendment pursuant to Section 163.3184(4)(e)1., F.S. **The adopted amendment must be transmitted to FloridaCommerce within ten working days after the second public hearing pursuant to Section 163.3184(4)(e)2., F.S.**

FloridaCommerce staff is available to assist the City to address the comment. If you have any questions related to this review, please contact Jon Coulter, Planning Analyst, by telephone at (850) 717-8421 or by email at Jon.Coulter@Commerce.fl.gov.

Sincerely,

James D. Stansbury, Chief
Bureau of Community Planning and Growth

Tara McCue, AICP, Executive Director, East Central Florida Regional Planning Council

Objections, Recommendations and Comments Report
Proposed Comprehensive Plan Amendment
City of Ormond Beach 25-01ER

FloridaCommerce has identified a comment regarding the City of Ormond Beach's proposed comprehensive plan amendment. The comment is provided below, along with recommended actions the City could take to resolve issues of concern. Comments are offered to assist the local government and will not form the basis for a compliance determination.

FloridaCommerce staff has discussed the basis of the report with City staff and is available to assist the City to address the comment.

Comment 1: Septic System Conversion to Central Sanitary Sewer System Service

The proposed Amendment is not consistent with the requirements of section 163.3177(6)(c)3., F.S. Chapter No. 2023-169 amended section 163.3177(6)(c)3., F.S., to require the Infrastructure Element to consider the feasibility of providing sanitary sewer services to any development of more than 50 residential lots, whether built or unbuilt, with more than one onsite sewage treatment and disposal system (OSTDS) per one acre within a 10-year planning horizon, and to identify the wastewater facility (capacity, projected flows for the next 20 years, and timeline for construction of the sanitary sewer system) that could receive the sanitary sewer flows after connection. Section 163.3177(6)(c)3., F.S., requires that each comprehensive plan must be updated to include the required element by July 1, 2024, and as needed thereafter to account for future applicable developments. The proposed Amendment 25-02ER does not include the information required by section 163.3177(6)(c)3., F.S. In addition, please see the enclosed comments (letter dated May 23, 2025) from the Florida Department of Environmental Protection (FDEP), which addresses this specific element.

SUBMITTAL OF ADOPTED COMPREHENSIVE PLAN AMENDMENTS
FOR STATE COORDINATED REVIEW

Section 163.3184(4), Florida Statutes

NUMBER OF COPIES TO BE SUBMITTED: Please submit electronically using the Department's electronic amendment submittal portal "**Comprehensive Plan and Amendment Upload**" (<https://fideo.my.salesforce-sites.com/cp/>) or submit three complete copies of all comprehensive plan materials, of which one complete paper copy and two complete electronic copies on CD ROM in Portable Document Format (PDF) to the State Land Planning Agency and one copy to each entity below that provided timely comments to the local government: the appropriate Regional Planning Council; Water Management District; Department of Transportation; Department of Environmental Protection; Department of State; the appropriate county (municipal amendments only); the Florida Fish and Wildlife Conservation Commission and the Department of Agriculture and Consumer Services (county plan amendments only); and the Department of Education (amendments relating to public schools); and for certain local governments, the appropriate military installation and any other local government or governmental agency that has filed a written request.

SUBMITTAL LETTER: Please include the following information in the cover letter transmitting the adopted amendment:

_____ Florida Department of Commerce identification number for adopted amendment package;

_____ Summary description of the adoption package, including any amendments proposed but not adopted;

_____ Ordinance number and adoption date;

_____ Certification that the adopted amendment(s) has been submitted to all parties that provided timely comments to the local government;

_____ Name, title, address, telephone, FAX number and e-mail address of local government contact;

_____ Letter signed by the chief elected official or the person designated by the local government.

ADOPTION AMENDMENT PACKAGE: Please include the following information in the amendment package:

_____ In the case of text amendments, changes should be shown in strike-through/underline format;

_____ In the case of future land use map amendment, an adopted future land use map, in **color format**, clearly depicting the parcel, its existing future land use designation, and its adopted designation;

_____ A copy of any data and analyses the local government deems appropriate.

Note: If the local government is relying on previously submitted data and analysis, no additional data and analysis is required;

_____ Copy of executed ordinance adopting the comprehensive plan amendment(s);

Suggested effective date language for the adoption ordinance for state coordinated review:

"The effective date of this plan amendment, if the amendment is not timely challenged, shall be the date the state land planning agency posts a notice of intent determining that this amendment is in compliance. If the amendment is timely challenged, or if the state land planning agency issues a notice of intent determining that this amendment is not in compliance, this amendment shall become effective on the date the state land planning agency or the Administration Commission enters a final order determining this adopted amendment to be in compliance. No development orders, development permits, or development dependent on this amendment may be issued or commence before it has become effective. "

_____ List of additional changes made in the adopted amendment that the Florida Department of Commerce did not previously review;

_____ List of findings of the local governing body, if any, that were not included in the ordinance and which provided the basis of the adoption or determination not to adopt the proposed amendment;

_____ Statement indicating the relationship of the additional changes not previously reviewed by the Florida Department of Commerce to the ORC report from the Florida Department of Commerce.

Re: Ormond Beach 25-01ER – State Coordinated Review of Proposed Comprehensive Plan Amendment

The Office of Intergovernmental Programs of the Florida Department of Environmental Protection (Department) has reviewed the above-referenced amendment package under the provisions of Chapter 163, Florida Statutes. The Department conducted a detailed review that focused on potential adverse impacts to important state resources and facilities, specifically: air and water pollution; wetlands and other surface waters of the state; federal and state-owned lands and interest in lands, including state parks, greenways and trails, conservation easements; solid waste; and water and wastewater treatment.

Based on our review of the submitted amendment package, the Department has found no provision that, if adopted, would result in adverse impacts to important state resources subject to the Department's jurisdiction. However, the Department offers the following technical assistance regarding consistency with s. 163.3177, F.S.:

During the 2023 legislative session, the Florida Legislature passed House Bill (HB) 1379, Laws of Florida Chapter No. 2023-169, which revised s. 163.3177, F.S., requiring local government comprehensive plans to address the following:

- Within the general sanitary sewer, solid waste, drainage, potable water, and natural groundwater aquifer recharge element, local governments must address the upgrading of wastewater treatment facilities and prioritize advanced waste treatment (AWT), and, for local governments not included within a designated Rural Area of Opportunity, a section considering the feasibility of providing sanitary sewer services within a 10-year planning horizon to any development of more than 50 built or unbuilt residential lots with a density of more than one onsite sewage treatment and disposal system (OSTDS; aka septic system) per acre must be included by July 1, 2024 (s. 163.3177(6)(c)3, F.S.)

Based on the Department's records, the City of Ormond Beach has not addressed the above requirements, specifically the inclusion of the wastewater feasibility analysis described in s. 163.3177(6)(c)3, F.S. If applicable developments exist within the jurisdiction, the City must update their general sanitary sewer, solid waste, drainage, potable water, and natural groundwater aquifer recharge element to include the required information as soon as possible to address the existing noncompliance with s. 163.3177, F.S.

Please submit all future amendments by email to Plan.Review@FloridaDEP.gov. If your submittal is too large to send via email or if you need other assistance, contact Lindsay Weaver at (850) 717-9037.

Volusia Growth Management Commission

May 27, 2025

Steven Spraker, AICP
Planning Director
City of Ormond Beach
22 S. Beach Street
Ormond Beach, FL 32174

**RE: VGMC #25-015, City of Ormond Beach
Large Scale Amendment – Comprehensive Plan 2045 Update
Evaluation and Appraisal Report (EAR) Comp Plan Amendments
Certificate of Consistency**

Dear Mr. Spraker,

VGMC Case No. 25-015 qualifies for certification in accordance with Chapter 90, Article II. of the Volusia County Code of Ordinances, Volusia Growth Management Commission Consistency Certification Rules and Organization. Based upon the lack of objection filed by another unit of local government, VGMC Case No. 25-015 is hereby deemed certified as consistent without the need for a public hearing.

The Volusia Growth Management Commission appreciates the efforts of the City of Ormond Beach to further intergovernmental cooperation and coordination in Volusia County. If you have any questions regarding this matter, please do not hesitate to call me.

Sincerely,

Debbie Connors

Debbie Connors
VGMC Chair

Planning Board minutes from November 13, 2025

ITEM:

PZ-2024-084

Comprehensive Plan 2045 Update,
Readoption

Recommended for Approval

- Shall be limited to Sundays from 9:00 a.m. to 3:00 p.m.
- Up to ten (10) pop-up tents allowed, generally six-foot by six-foot tents.
- The outdoor activity shall only be for the existing tenants within the Fountain Square development. No itinerant merchants/vendors allowed.
- No outside cooking or open flame allowed.
- No outdoor live music allowed.

Ms. Eaton concluded that the Ormond Main Street Design Committee and the Site Plan Review Committee recommend approval.

Ms. Eaton reviewed the tent locations in response to a question from Mr. Gentry.

Applicant Presentation

Mr. Herve Rabeaux, property manager of Fountain Square, 142 East Granada Boulevard, thanked Ms. Eaton for her presentation and summary. Mr. Rabeaux stated that the application seeks to provide an interesting attraction for locals to visit on Sundays and help tenants make additional sales.

Board Questions

Chairman Thomas asked if there is a restaurant on site. Mr. Rabeaux confirmed that there is a restaurant, but that it is closed on Sundays.

Chairman Thomas stated that this concept reminds him of Europe and that he cannot believe that no one thought of it earlier. He stated that he thought it was a fabulous idea to help merchants and to be a nice place for people to enjoy their shopping experience.

Mr. Jorczak commented that he agreed with Chairman Thomas that this innovation provides business opportunities for the merchants. He stated that he believes that this would be positive for the area.

Mr. Rabeaux stated that Fountain Square is almost at maximum tenant capacity. He reviewed the investment made in Fountain Square and the fact that they bought the building based on his mother-in-law's memories of coming to Fountain Square as a kid. He concluded that they renovated the inside of the property and plan to renovate the outside of it next year.

Chairman Thomas added that it will have lots of charm.

Ms. Shull concurred and stated that she thinks that it is a great idea.

Vice Chair Shull entertained a motion.

Chairman Thomas motioned to approve PZ-2025-201 and Mr. Jorczak seconded it. The vote was called, and the motion was approved (5-0).

E. PZ-2024-084, Comprehensive Plan 2045 Update, Evaluation and Appraisal Report Re-adoption, Comprehensive Plan Amendments

Mr. Spraker stated that this is a Comprehensive Plan amendment to (1) rescind Ordinance 2025-17 and (2) re-adopt the Comprehensive Plan amendments based upon FloridaCommerce comments. He stated that on August 19, 2025, the City Commission approved Ordinance 2025-17, which adopted the Comprehensive Plan amendments. Mr. Spraker noted that on October 17, 2025, FloridaCommere provided

a letter specifying that the amendments were “null and void”, stating that two policies were more restrictive and burdensome under a review of Senate Bill 180.

Mr. Spraker detailed the two policies that led to FloridaCommerce's objections. He stated that subsection (d) of Policy 1.6.4. of the Transportation Element was to be deleted. Mr. Spraker continued that Policy 1.1.9 of the Housing Element was to be deleted in its entirety. Mr. Spraker summarized the actions of the amendments as follows:

1. Rescind Ordinance 2025-17 in its entirety.
2. Re-adopt Comprehensive Plan amendments without:
 - a. Policy 1.6.4.(d) of the Transportation Element.
 - b. Policy 1.1.9. of the Housing Element.
3. All other Goals, Objectives, Policies remain the same.
4. Data and analysis remain the same.
5. Readopted Ordinance will be transmitted back to FloridaCommerce.

Mr. Spraker stated that the Planning staff recommended approval of the Comprehensive Plan amendments.

Board Questions

Chairman Thomas asked what would happen if the Planning Board and the City Commission denied the application. Mr. Spraker responded that the existing Comprehensive Plan 2025 would remain in effect. Mr. Spraker inquired about what Goals, Objectives, or Policies would lead to the recommendation of denial. Chairman Thomas stated that his point is not to disapprove the amendments, but expressed that it really does not matter because the state is going to tell the city what to do.

Mr. Spraker concurred and stated that the alternative would be to challenge the “null and void” letter or to wait and see what happens with Senate Bill 180. He continued that based on the comments provided, the Planning staff recommends deleting the two policies identified as more restrictive and explained that there are certain legislation, as seen in recent and upcoming Land Development Code amendments, that local governments are required to follow.

Chairman Thomas expressed his point in that the state is tying the hands of local government.

Vice Chair Shull added that she had the same thoughts and concurred. She noted that these changes are state-required.

Chairman Thomas stated that people do not realize that we do not have a whole lot of choices. He continued that the state tells local governments what to do.

Mr. Spraker agreed and stated that focus should not be lost on the positive process and changes that resulted from the review.

Vice Chair Shull entertained a motion.

Mr. Railsback motioned to approve PZ-2024-084 and Mr. Gentry seconded the motion. The vote was called, and the motion was approved, with Chairman Thomas in opposition (4-1).

Ordinance Adoption **Business Impact Estimate**

Proposed ordinance's number and legal title:

ORDINANCE NO. 2025-37

AN ORDINANCE OF THE CITY OF ORMOND BEACH, FLORIDA, AMENDING THE COMPREHENSIVE PLAN FOR THE CITY OF ORMOND BEACH IN ITS ENTIRETY PURSUANT TO CHAPTER 163, FLORIDA STATUTES; RESCINDING ORDINANCE 2025-17; ADOPTING COMPREHENSIVE PLAN 2045 AMENDMENTS BASED UPON COMMENTS RECEIVED FROM FLORIDACOMMERCE, INCLUDING AMENDMENTS TO THE PLAN ADMINISTRATION, FUTURE LAND USE ELEMENT, TRANSPORTATION ELEMENT, UTILITIES ELEMENT, CONSERVATION ELEMENT, COASTAL MANAGEMENT ELEMENT, HOUSING ELEMENT, RECREATION AND OPEN SPACE ELEMENT, CAPITAL IMPROVEMENTS ELEMENT, INTERGOVERNMENTAL COORDINATION ELEMENT, CULTURAL AND HISTORICAL RESOURCES ELEMENT, PUBLIC SCHOOLS FACILITIES ELEMENT, AND PROPERTY RIGHTS ELEMENT, AND ALL ASSOCIATED MAPS AND FIGURES; PROVIDING FOR THE TRANSMITTAL OF COPIES OF THE AMENDMENTS TO THE FLORIDACOMMERCE; PROVIDING PUBLIC HEARINGS; PROVIDING FOR SEVERABILITY; AND SETTING FORTH AN EFFECTIVE.

This Business Impact Estimate is provided in accordance with section 166.041(4), Florida Statutes. If one or more boxes are checked below, this means the City is of the view that a business impact estimate is not required by state law for the proposed ordinance, but the City is, nevertheless, providing this Business Impact Estimate as a courtesy and to avoid any procedural issues that could impact the enactment of the proposed ordinance. This Business Impact Estimate may be revised following its initial posting.

- ☐ The proposed ordinance is required for compliance with Federal or State law or regulation;
- ☐ The proposed ordinance relates to the issuance or refinancing of debt;
- ☐ The proposed ordinance relates to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;
- ☐ The proposed ordinance is required to implement a contract or an agreement, including, but not limited to, any Federal, State, local, or private grant or other financial assistance accepted by the municipal government;
- ☐ The proposed ordinance is an emergency ordinance;
- ☐ The ordinance relates to procurement; or
- ☒ The proposed ordinance is enacted to implement the following:
 - a. Part II of Chapter 163, Florida Statutes, relating to growth policy, county and municipal planning, and land development regulation, including zoning, development orders, development agreements and development permits;
 - b. Sections 190.005 and 190.046, Florida Statutes, regarding community development districts;
 - c. Section 553.73, Florida Statutes, relating to the Florida Building Code; or

- d. Section 633.202, Florida Statutes, relating to the Florida Fire Prevention Code.

In accordance with the provisions of controlling law, even notwithstanding the fact that an exemption noted above may apply, the City hereby publishes the following information:

1. A summary of the proposed ordinance, including a statement of the public purpose to be served by the proposed ordinance, such as serving the public health, safety, morals, and welfare of the City.

This is an administrative request for Comprehensive Plan amendments related to the Evaluation and Appraisal Report, also known as the Comprehensive Plan 2045 update. This ordinance seeks to rescind ordinance 2025-17 and readopt Comprehensive Plan amendments to the following Elements: Plan Administration, Future Land Use, Transportation, Utilities, Conservation, Coastal Management, Housing, Recreation and Open Space, Capital Improvements, Intergovernmental Coordination, Cultural and Historical Resources, Public School Facilities, and Property Rights based upon comments from FloridaCommerce.

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the City, including the following, if any:

- a. An estimate of direct compliance costs that businesses may reasonably incur if the ordinance is enacted;

None. This is an ordinance regarding the update of the Comprehensive Plan.

- b. Identification of any new charge or fee on businesses subject to the proposed ordinance, or for which businesses will be financially responsible; and

None. This is an ordinance regarding the update of the Comprehensive Plan.

- c. An estimate of the City's regulatory costs, including an estimate of revenues from any new charges or fees that will be imposed on businesses to cover such costs.

None. This is an ordinance regarding the update of the Comprehensive Plan.

3. A good faith estimates of the number of businesses likely to be impacted by the ordinance.

None. This is an ordinance regarding the update of the Comprehensive Plan.

4. Any additional information the City determines may be useful.

(This section may include: methodology or data used to prepare the Business Impact Estimate, e.g., City staff solicited comments from businesses as to the potential impact of the proposed ordinance by contacting the chamber of commerce, social media posting, direct mail/email, posting on the City's website, public workshop, etc.; efforts made to reduce the potential fiscal impact on businesses; and state the proposed ordinance is a generally applicable ordinance that applies to all persons similarly situated (individuals or businesses) and, therefore, the proposed ordinance does not affect only businesses.)

No business impacts proposed. The item was advertised by newspaper advertisements. Information on the application is also on the city's website.

City of Ormond Beach
City Commission Agenda
Staff Report

Agenda Date	December 2, 2025	Item No	8.D.
Section	PUBLIC HEARINGS	Category	Public Hearing - Ordinances
Subject	Land Development Code Amendments, Certified Recovery Residences		
Recommended Action	The Planning Board recommended APPROVAL of amendments to (1) Chapter 1, General Administration, Article III, Definitions and Acronyms, Section 1-22, Definitions of terms and words and (2) Chapter 2, District and General Regulations, Article IV, Conditional and Special Exception Regulations, Section 2-57, Criteria for review of specific conditional and special exception to establish procedures for the review and action for certified recovery residences as required by Florida Statute Section 397.487 implemented with Senate Bill 954.		
Strategic Goal	Transportation & Community Development - Other		
Department Staff Contact	Planning & Building Steven Spraker, Planning Director		

Summary

This is an application for administrative Land Development Code amendments to (1) Chapter 1, General Administration, Article III, Definitions and Acronyms, Section 1-22, Definitions of terms and words and (2) Chapter 2, District and General Regulations, Article IV, Conditional and Special Exception Regulations, Section 2-57, Criteria for review of specific conditional and special exception to establish procedures for the review and action for certified recovery residences as required by Florida Statute Section 397.487 implemented with Senate Bill 954.

On June 25, 2025, the Florida Governor signed Senate Bill 954 into law, requiring local governments to adopt an ordinance to establish procedures for the review and approval of certified recovery residences by January 1, 2026. Senate Bill 954 amends Section 397.487, Florida Statutes. The Land Development Code amendments established definitions for certified recovery residences, business tax receipt requirements, a process for requesting reasonable accommodation requests, criteria for review, and an appeal mechanism.

The Planning Board reviewed the proposed Land Development Code amendments and recommended approval to the City Commission.

Financial Impact

None

Citizen Impact

The amendments are based upon Senate Bill 954 and required by Florida Statutes to be implemented by local governments.

ORDINANCE NO. 2025-38

AN ORDINANCE AMENDING CHAPTER 1, GENERAL ADMINISTRATION, ARTICLE III, DEFINITIONS AND ACRONYMS, SECTION 1-22, DEFINITION OF TERMS AND WORDS OF THE CITY OF ORMOND BEACH *LAND DEVELOPMENT CODE* AND CHAPTER 2, DISTRICT AND GENERAL REGULATIONS, ARTICLE IV, CONDITIONAL AND SPECIAL EXCEPTION REGULATIONS, SECTION 2-57, CRITERIA FOR REVIEW OF SPECIFIC CONDITIONAL AND SPECIAL EXCEPTION, OF THE CITY OF ORMOND BEACH *LAND DEVELOPMENT CODE* TO CREATE DEFINITIONS, ESTABLISH PROCEDURES, AND DEFINE A PROCESS FOR THE REVIEW OF REASONABLE ACCOMMODATION REQUESTS FOR CERTIFIED RECOVERY RESIDENCES PURSUANT TO FLORIDA STATUTE SECTION 397.487; REPEALING ALL INCONSISTENT ORDINANCES OR PARTS THEREOF; PROVIDING FOR SEVERABILITY; AND SETTING FORTH AN EFFECTIVE DATE.

WHEREAS, this is an administrative request to amend Chapter 1, General Administration, Article III, Definitions and Acronyms, Section 1-22, Definitions of terms and words of the Land Development Code and Chapter 2, District and General Regulations, Article IV, Conditional and Special Exception Regulations, Section 2-57, Criteria for review of specific conditional and special exception to create definitions, establish procedures, and establish a process for the review of reasonable accommodation requests for certified recovery residences as required by Senate Bill 954, codified in Florida Statute Section 397.487; and

WHEREAS, Senate Bill 954 was enacted on July 1, 2025 and requires local governments to adopt an ordinance establishing procedures for the review of certified recovery

residences and a process for the review of reasonable accommodation requests by January 1, 2026;
and

WHEREAS, Senate Bill 954 requires the ordinance establish a process for requesting reasonable accommodations from any local land use regulation that prohibits the establishment of certified recovery residences; and

WHEREAS, the local planning agency, being the Planning Board of the City of Ormond Beach, has conducted a public hearing on November 13, 2025 on the requested amendment and has made recommendations thereon to the City Commission; and

WHEREAS, all applicable notice requirements of Section 166.041(3)(a), *Florida Statutes*, have been complied with; and

WHEREAS, for the purposes of this Ordinance, underlined type constitute additions to the original text and ~~striketrough~~ shall constitute deletions to the original text; and

WHEREAS, the City Commission finds the amendment to be consistent with the provisions of the *Comprehensive Plan* of the City of Ormond Beach, and in the overall best interest of the public health, safety and welfare; now therefore,

BE IT ENACTED BY THE PEOPLE OF THE CITY OF ORMOND BEACH, FLORIDA, THAT:

SECTION ONE. Section 1-22, Definition of terms and words, of Article III, Definitions and Acronyms, of Chapter 1, General Administration, of the City of Ormond Beach *Land Development Code*, is hereby amended to the following:

Certificate of use ... (No change in existing text) ...

Certified recovery residence means a recovery residence that holds a valid certificate of compliance and is actively managed by a certified recovery residence administrator.

- (a) A Level I certified recovery residence houses individuals in recovery who have completed treatment, with a minimum of 9 months of sobriety. A Level I certified recovery residence is democratically run by the members who reside in the home.
- (b) A Level II certified recovery residence encompasses the traditional perspectives of sober living homes. There is oversight from a house manager who has experience with living in recovery. Residents are expected to follow rules outlined in a resident handbook provided by the certified recovery residence administrator. Residents must pay dues, if applicable, and work toward achieving realistic and defined milestones within a chosen recovery path.
- (c) A Level III certified recovery residence offers higher supervision by staff with formal training to ensure resident accountability. Such residences are staffed 24 hours a day, 7 days a week, and offer residents peer-support services, which may include, but are not limited to, life skill mentoring, recovery planning, and meal preparation. Clinical services may not be performed at the residence. Such residences are most appropriate for persons who require a more structured environment during early recovery from addiction.
- (d) A Level IV certified recovery residence is a residence offered, referred to, or provided by, a licensed service provider to its patients who are required to reside at the residence while receiving intensive outpatient and higher levels of outpatient care. Such residences are staffed 24 hours a day and combine outpatient licensable services with recovery residential living. Residents are required to follow a treatment plan and attend group and individual sessions, in addition to developing a recovery plan within the social model of living in a sober lifestyle. No clinical services are provided at the residence and all licensable services are provided offsite.

Certified recovery residence administrator means a recovery residence administrator who holds a valid certificate of compliance.

Change of use ... (No change in existing text)...

SECTION TWO. Section 2-57, Criteria for review of specific conditional and special exception, of Article IV, Conditional and Special Exception Regulations, of Chapter 2,

District and General Regulations of the City of Ormond Beach *Land Development Code*, is hereby amended to the following:

(13) *Cemetery*. ...(No change in existing text)...

(14) *Certified Recovery Residences*.

- (a) *Florida Statue requirements*. Certified Recovery Residences are defined within Section 397.311 Florida Statutes, as amended, and provide the regulations for review and approval of applications for reasonable accommodations in applying the city's ordinances, rules, policies, and procedures consistent with the federal Fair Housing Amendments Act (42 U.S.C. 3601, et seq.) ("FHA") and Title II of the Americans with Disabilities Act (42 U.S.C. Section 12131, et seq.) ("ADA").
- (b) *Establishment of a certified recovery residence*. A certified recovery residence may be established in zoning districts that allow multi-family use and must comply with Section 2-57 of this Code for that zoning district and all other applicable land development regulations, except that reasonable accommodation(s) may be requested pursuant to this section. The city may not regulate the duration or frequency of a resident's stay in a certified recovery residence located within a multifamily zoning district.
- (c) *Business Tax Receipt required*. All certified recovery residences are required to obtain a Business Tax Receipt.
- (d) *Filing a reasonable accommodation request to establish a certified recovery residence*. A request for a reasonable accommodation under this section from the land development regulations, rules, policies, and procedures of the City that may hinder the establishment of a certified recovery residence shall be made through the city electronic permitting system and shall at a minimum provide the following information:
 - 1. Name and contact information of the applicant.
 - 2. If the applicant is not the certified recovery residence administrator who will be actively managing the recovery residence, the administrator's name, and contact information.
 - 3. Copy of recovery residence administrator certification.
 - 4. Florida Association of Recovery Residences, (FARR) location certification.
 - 5. The location where reasonable accommodation is requested including the address and parcel identification number.

6. A description of the facility operations, including the number of beds and services provided.
 7. A description of the accommodation needed, identifying the ordinances, rules, or policies for which the applicant needs reasonable accommodation, and why it is necessary.
 8. Any additional information or documentation the applicant feels is necessary to support the request for reasonable accommodation.
 9. No fees or costs may be imposed for applications submitted under this section or an appeal of a decision for such application.
- (e) Review process. The following review process shall apply to applications for reasonable accommodation request(s) to establish a certified recovery residence:
1. The application shall be date-stamped when received.
 2. The applicant shall be notified in writing within the first 30 days of the submittal if additional information or documents are required. The applicant shall have 30 days to respond and provide the additional information or additional documents that have been requested.
 3. The review process shall not require public hearings beyond the minimum required by law to grant the requested accommodation.
 4. Within 60 days of receiving the completed application, the Planning Director shall review the request for reasonable accommodation based on the criteria of subsection (f) and make a determination.
 - a. Approve the accommodation request as submitted;
 - b. Approve a portion of the request and deny a portion of the request, and/or impose conditions upon the grant of the request, or approve a reasonable alternative accommodation; or
 - c. Deny the accommodation request, stating with specificity the objective, evidence-based reasons for denial and identifying any deficiencies or actions necessary for reconsideration.
 5. If the final written determination is not issued within 60 days after the receipt of a completed application, the request is deemed approved unless the parties agree in writing to a reasonable extension of time.
 6. In the event that a reasonable accommodation is granted, the Applicant shall continue to comply with any and all other applicable building and/or site permitting processes required by the city's Land Development Code and all other state and federal laws.

7. A reasonable accommodation is specific to the Applicant and does not run with the subject property.
 8. The application of Florida Statutes 397.487 does not supersede any current or future declaration or declaration of condominium adopted pursuant to chapter 718; any cooperative document adopted pursuant to chapter 719; or any declaration or declaration of covenant adopted pursuant to chapter 720.
- (f) Criteria. The following criteria shall be used in reviewing an application for a reasonable accommodation request for establishing a certified recovery residence:
1. Whether the applicant has established that he/she, or the individual on whose behalf the application was submitted, is protected under applicable laws.
 2. Whether the applicant has established that the requested accommodation is reasonable and necessary to afford the disabled individual, an equal opportunity to use and enjoy the property.
 3. Whether the requested accommodation would impose an undue financial or administrative burden on the city.
 4. Whether the requested accommodation would require a fundamental alteration in the nature of the land use and zoning regulations of the city.
 5. If applicable, whether alternative reasonable accommodations could provide an equivalent level of benefit.
 6. Any other relevant criteria under applicable laws.
 7. That applicant adheres to all applicable state and federal laws relating to Certified Recovery Residences and can demonstrate the same, inclusive of all required licensures or credentials for operation of a certified recovery residence.
- (g) Appeal. Whenever the applicant disagrees with the determination of the Planning Director, or any of the conditions imposed as part of the terms under which the reasonable accommodation is approved, they may elect to appeal the application per Section 1-19 of this code.
- (h) Revocation. The approval granted under this Section for a reasonable accommodation may be revoked or modified if the recovery residence fails to maintain certification or licensure required under state law and it is not reinstated within 180 days, or a violation of any provision of the determination granting the reasonable accommodation is found.

SECTION THREE All Ordinances or parts of Ordinances in conflict herewith are hereby repealed to the extent of such conflict.

SECTION FOUR. In the event any word, phrase, clause, sentence, paragraph, term, or provision of this Ordinance shall be held to be invalid by a court of competent jurisdiction, such judicial determination shall not affect any other word, clause, phrase, sentence, paragraph, term or provision, of this Ordinance, and the remainder of this Ordinance shall remain in full force and effect.

SECTION FIVE. This Ordinance shall take effect immediately upon its adoption.

PASSED UPON at the first reading of the City Commission, this 2nd day of December 2025.

PASSED UPON at the second and final reading of the City Commission, this 16th day of December 2025.

PLANNING BOARD STAFF REPORT

**Land Development Code (LDC) Amendments
Certified Recovery Residences
Project Number: PZ-2025-204**

PLANNING BOARD DATE:	November 13, 2025
TENTATIVE CITY COMMISSION DATES:	December 2, 2025 (1 st Reading) December 16, 2025 (2 nd Reading)
APPLICANT:	Administrative
PROJECT NUMBER:	PZ 2025-204
SUBJECT:	Land Development Code amendment, Certified Recovery Residences: Chapter 1, General Administration, Article III, Definitions and Acronyms, Section 1-22, Definitions of terms and words, and (2) Chapter 2, District and General Regulations, Article IV, Conditional and Special Exception Regulations, Section 2-57, Criteria for review of specific conditional and special exception
PLANNING STAFF RECOMMENDATION:	Approval
STAFF CONTACT:	Steven Spraker, AICP, Planning Director Robin Gaweł, Senior Planner

SECTION 1, INTRODUCTION: This is an application for administrative Land Development Code amendments to (1) Chapter 1, General Administration, Article III, Definitions and Acronyms, Section 1-22, Definitions of terms and words and (2) Chapter 2, District and General Regulations, Article IV, Conditional and Special Exception Regulations, Section 2-57, Criteria for review of specific conditional and special exception to establish procedures for the review and action for certified recovery residences as required by Florida Statute Section 397.487 implemented with Senate Bill 954.

SECTION 2, BACKGROUND: On June 25, 2025, the Florida Governor signed Senate Bill 954 into law, requiring local governments to adopt an ordinance to establish procedures for the review and approval of certified recovery residences by January 1, 2026. Senate Bill 954 amends Section 397.487, Florida Statutes. Attachment 1 includes (1) Senate Bill 954, (2) analysis of Senate Bill 954, and (3) amended Section 397.487 Florida Statutes. The proposed Land Development Code would amend:

1. Chapter 1, General Administration, Article III, Definitions and Acronyms, Section 1-22, Definitions of terms and words.
2. Section 2-57, Criteria for review of specific conditional and special exception.

SECTION 3, ANALYSIS: The purpose of the Land Development Code amendment is to implement the requirements of Senate Bill 954. The proposed Land Development Code amendments are included in Attachment 2. The proposed amendments perform the following actions:

1. Add definitions for certified recovery residences and certified recovery residence administrators. These definitions are copied from Section 397.311(5) and (6), Florida Statutes.
2. Section 2-57 of the Land Development Code is amended as follows:
 - (a) Florida Statutes requirements. Links local regulation to the Florida Statutes and state procedures, which must be consistent with the federal Fair Housing Amendments Act (42 U.S.C. 3601, et seq.) ("FHA") and Title II of the Americans with Disabilities Act (42 U.S.C. Section 12131, et seq.) ("ADA").
 - (b) Establishment of certified recovery residences. This use may be established in any zoning district that allows multifamily residential and would be treated as a residential use. Under Florida Statute, the city may not regulate the duration or frequency of a resident's stay in a certified recovery residence located within a multifamily zoning district.
 - (c) Business Tax Receipt. All certified recovery residences must obtain a business tax receipt.
 - (d) Filing a reasonable accommodation request to establish a certified recovery residences. This section specifies the information required to be submitted with a request for a reasonable accommodation under this section, as well as the land development regulations, rules, policies, and procedures of the city that may hinder the establishment of certified recovery residences.
 - (e) Review process. This section establishes the review process for applications for reasonable accommodations. The Land Development Code amendment designates the Planning Director as the reviewer for requests for reasonable accommodations. The review must be completed within 60 days of the application.
 - (f) Criteria. This section establishes review criteria for requests by certified recovery residences for reasonable accommodation.
 - (g) Appeals. Appeals of determinations for reasonable accommodation for certified recovery residences would follow Section 1-19 of the Land Development Code.
 - (h) Revocation. Florida Statutes allow the revocation of approvals granted for a reasonable accommodation if the recovery residences fail to maintain certification or licensure required under state law and are not reinstated within 180 days, or if a violation of any provision of the determination granting the reasonable accommodation is found.

SECTION 4, CONCLUSION:

Section 1-15(e) of the Land Development Code requires certain criteria that must be evaluated before the adoption of a Land Development Code amendment when making their recommendation, as follows:

- 1. The proposed development conforms to the standards and requirements of this Code and will not create undue crowding beyond the conditions normally permitted in the zoning district, or adversely affect the public health, safety, welfare or quality of life.**

No development is proposed as part of the proposed amendment. This is an administrative amendment to establish procedures for the review and action of certified recovery residences, consistent with Section 397.487 of the Florida Statutes, based on Senate Bill 954. The analysis of Senate Bill 954 is provided in Attachment 1. The amendment will not create undue crowding beyond the conditions normally permitted in the zoning district, nor will it adversely affect public health, safety, welfare, or quality of life.

- 2. The proposed development is consistent with the Comprehensive Plan.**

The proposed Land Development Code amendment is consistent with the Comprehensive Plan. Objective 2.1 of the Future Land Use Element of the Comprehensive Plan discussed the need to update Land Development Code regulations.

- 3. The proposed development will not adversely impact environmentally sensitive lands or natural resources, including but not limited to waterbodies, wetlands, xeric communities, wildlife habitats, endangered or threatened plants and animal species or species of special concern, wellfields, and individual wells.**

The proposed Land Development Code amendment does not approve any site-specific development and will not have an adverse impact on environmentally sensitive lands. This is an administrative amendment to establish procedures for the review and action of certified recovery residences, consistent with Section 397.487 of the Florida Statutes, based on Senate Bill 954.

- 4. The proposed use will not substantially or permanently depreciate the value of surrounding property; create a nuisance; or deprive adjoining properties of adequate light and air; create excessive noise, odor, glare, or visual impacts on the neighborhood and adjoining properties.**

The proposed Land Development Code amendment does not approve any site-specific development and will not have any impacts on surrounding properties.

- 5. There are adequate public facilities to serve the development, including but not limited to roads, sidewalks, bike paths, potable water, wastewater treatment, drainage, fire and police safety, parks and recreation facilities, schools, and playgrounds.**

This is an administrative amendment to the regulations to establish procedures for the review and action of certified recovery residences, consistent with Section 397.487 of the Florida Statutes, based on Senate Bill 954. The proposed amendment would not have a negative impact on public facilities.

- 6. Ingress and egress to the property and traffic patterns are designed to protect and promote motorized vehicle and pedestrian/bicycle safety and convenience, allow for desirable traffic flow and control, and provide adequate access in case of fire or catastrophe. This finding shall be based on a traffic report where available, prepared by a qualified traffic consultant, engineer or planner which details the anticipated or projected effect of the project on adjacent roads and the impact on public safety.**

No development is proposed as part of the amendment. The application pertains to a Land Development Code amendment.

- 7. The proposed development is functional in the use of space and aesthetically acceptable.**

No development is proposed as part of the amendment. This is an administrative amendment to the regulations to establish procedures for the review and action of certified recovery residences, consistent with Section 397.487 of the Florida Statutes, based on Senate Bill 954.

- 8. The proposed development provides for the safety of occupants and visitors.**

No development is proposed as part of the amendment. This is an administrative amendment to the regulations to establish procedures for the review and action of certified recovery residences, consistent with Section 397.487 of the Florida Statutes, based on Senate Bill 954.

- 9. The proposed use of materials and architectural features will not adversely impact the neighborhood and aesthetics of the area.**

No development is proposed as part of the amendment. This is an administrative amendment to the regulations to establish procedures for the review and action of certified recovery residences, consistent with Section 397.487 of the Florida Statutes, based on Senate Bill 954.

- 10. The testimony provided at public hearings.**

There has not been a public hearing at this time. The comments from the Planning Board meeting will be incorporated into the City Commission packet.

SECTION 5, RECOMMENDATION: It is recommended that the Planning Board **APPROVE** amendments to (1) Chapter 1, General Administration, Article III, Definitions and Acronyms, Section 1-22, Definitions of terms and words and (2) Chapter 2, District and General Regulations, Article IV, Conditional and Special Exception Regulations, Section 2-57, Criteria for review of specific conditional and special exception to establish procedures for the review and action for certified recovery residences as required by Florida Statute Section 397.487 implemented with Senate Bill 954 as shown in Attachment 2.

2025954er

1
2 An act relating to certified recovery residences;
3 amending s. 397.487, F.S.; requiring, by a specified
4 date, the governing body of each county or
5 municipality to adopt an ordinance to establish
6 procedures for the review and approval of certified
7 recovery residences; requiring that such ordinance
8 include a process for requesting reasonable
9 accommodations from any local land use regulation that
10 serves to prohibit the establishment of a certified
11 recovery residence; specifying criteria for the
12 ordinance; providing that the ordinance may establish
13 additional requirements for the review and approval of
14 reasonable accommodation requests; requiring that such
15 additional requirements be consistent with federal law
16 and not conflict with the act; prohibiting the
17 ordinance from requiring public hearings beyond the
18 minimum required by law; providing that the ordinance
19 may include provisions for revocation of a granted
20 accommodation for cause, if the accommodation is not
21 reinstated within a specified timeframe; providing
22 construction; amending s. 397.4871, F.S.; providing
23 that the personnel-to-resident ratio for a certified
24 recovery residence must be met only when the residents
25 are at the residence; providing that a certified
26 recovery residence administrator for Level IV
27 certified recovery residences which maintains a
28 specified personnel-to-patient ratio has a limitation
29 on the number of residents it may manage; providing an

2025954er

effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (15) and (16) are added to section 397.487, Florida Statutes, to read:

397.487 Voluntary certification of recovery residences.—

(15) (a) By January 1, 2026, the governing body of each county or municipality shall adopt an ordinance establishing procedures for the review and approval of certified recovery residences within its jurisdiction. The ordinance must include a process for requesting reasonable accommodations from any local land use regulation that serves to prohibit the establishment of a certified recovery residence.

(b) At a minimum, the ordinance must:

1. Be consistent with the Fair Housing Amendments Act of 1988, 42 U.S.C. ss. 3601 et seq., and Title II of the Americans with Disabilities Act, 42 U.S.C. ss. 12131 et seq.

2. Establish a written application process for requesting a reasonable accommodation for the establishment of a certified recovery residence, which application must be submitted to the appropriate local government office.

3. Require the local government to date-stamp each application upon receipt. If additional information is required, the local government must notify the applicant in writing within the first 30 days after receipt of the application and allow the applicant at least 30 days to respond.

4. Require the local government to issue a final written determination on the application within 60 days after receipt of

2025954er

59 a completed application. The determination must:

60 a. Approve the request in whole or in part, with or without
61 conditions; or

62 b. Deny the request, stating with specificity the
63 objective, evidence-based reasons for denial and identifying any
64 deficiencies or actions necessary for reconsideration.

65 5. Provide that if a final written determination is not
66 issued within 60 days after receipt of a completed application,
67 the request is deemed approved unless the parties agree in
68 writing to a reasonable extension of time.

69 6. Require that the application include, at a minimum:

70 a. The name and contact information of the applicant or the
71 applicant's authorized representative;

72 b. The property address and parcel identification number;
73 and

74 c. A description of the accommodation requested and the
75 specific regulation or policy from which relief is sought.

76 (c) The ordinance may establish additional requirements for
77 the review or approval of reasonable accommodation requests for
78 establishing a certified recovery residence, provided such
79 requirements are consistent with federal law and do not conflict
80 with this subsection.

81 (d) The ordinance may not require public hearings beyond
82 the minimum required by law to grant the requested
83 accommodation.

84 (e) The ordinance may include provisions for the revocation
85 of a granted accommodation of a certified recovery residence for
86 cause, including, but not limited to, a violation of the
87 conditions of approval or the lapse, revocation, or failure to

2025954er

maintain certification or licensure required under this section,
if not reinstated within 180 days.

(f) The ordinance and establishment of a reasonable
accommodation process does not relieve the local government from
its obligations under the Fair Housing Amendments Act of 1988,
42 U.S.C. ss. 3601 et seq., and Title II of the Americans with
Disabilities Act, 42 U.S.C. ss. 12131 et seq. The regulation for
which the applicant is seeking a reasonable accommodation must
not facially discriminate against or otherwise disparately
impact the applicant.

(16) The application of this section does not supersede any
current or future declaration or declaration of condominium
adopted pursuant to chapter 718; any cooperative document
adopted pursuant to chapter 719; or any declaration or
declaration of covenant adopted pursuant to chapter 720.

Section 2. Paragraph (c) of subsection (8) of section
397.4871, Florida Statutes, is amended to read:

397.4871 Recovery residence administrator certification.—

(8)

(c) Notwithstanding paragraph (b), a Level IV certified
recovery residence operating as community housing as defined in
s. 397.311(9), which residence is actively managed by a
certified recovery residence administrator approved for 100
residents under this section and is wholly owned or controlled
by a licensed service provider, may:

1. Actively manage up to 150 residents so long as the
licensed service provider maintains a service provider
personnel-to-patient ratio of 1 to 8 and maintains onsite
supervision at the residence during times when residents are at

2025954er

the residence ~~24 hours a day, 7 days a week,~~ with a personnel-
to-resident ratio of 1 to 10.

2. Actively manage up to 300 residents, so long as the
licensed service provider maintains a service provider
personnel-to-patient ratio of 1 to 8 and maintains onsite
supervision at the residence during times when residents are at
the residence with a personnel-to-resident ratio of 1 to 6.

A certified recovery residence administrator who has been
removed by a certified recovery residence due to termination,
resignation, or any other reason may not continue to actively
manage more than 50 residents for another service provider or
certified recovery residence without being approved by the
credentialing entity.

Section 3. This act shall take effect July 1, 2025.

The Florida Senate
BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/CS/SB 954 requires local governments to adopt an ordinance, subject to certain restrictions, to formalize and streamline the process for applicants seeking reasonable accommodations from land use regulations in order to open a certified recovery residence.

For certain Level IV certified recovery residences, the bill also eliminates staffing requirements when patients are not present, and increases the number of residents that a recovery residence administrator can oversee from 150 to 300 if the operator maintains a minimum 1:6 personnel-to-resident ratio when residents are present.

The bill has no fiscal impact on state revenues or expenditures. **See Section V., Fiscal Impact Statement.**

The bill takes effect July 1, 2025.

II. Present Situation:

Substance abuse is the harmful or hazardous use of psychoactive substances, including alcohol and illicit drugs.¹ According to the Diagnostic and Statistical Manual of Mental Disorders, Fifth

¹ The World Health Organization, *Mental Health and Substance Abuse*, available at <https://www.who.int/westernpacific/about/how-we-work/programmes/mental-health-and-substance-abuse>; (last visited

Edition (DSM-5), a diagnosis of substance use disorder (SUD) is based on evidence of impaired control, social impairment, risky use, and pharmacological criteria.² SUD occurs when an individual chronically uses alcohol or drugs, resulting in significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home.³ Repeated drug use leads to changes in the brain's structure and function that can make a person more susceptible to developing a substance abuse disorder.⁴ Imaging studies of brains belonging to persons with SUD reveal physical changes in areas of the brain critical to judgment, decision making, learning and memory, and behavior control.⁵

In 2021, approximately 46.3 million people aged 12 or older had a SUD related to corresponding use of alcohol or illicit drugs within the previous year.⁶ The most common substance abuse disorders in the United States are from the use of alcohol, tobacco, cannabis, opioids, hallucinogens, and stimulants. Provisional data from the CDC's National Center for Health Statistics indicate there were an estimated 107,622 drug overdose deaths in the United States during 2021 (the last year for which there is complete data), an increase of nearly 15% from the 93,655 deaths estimated in 2020.⁷

Substance Abuse Treatment in Florida

In the early 1970s, the federal government enacted laws creating formula grants for states to develop continuums of care for individuals and families affected by substance abuse. The laws resulted in separate funding streams and requirements for alcoholism and drug abuse. In response to the laws, the Florida Legislature enacted chs. 396 and 397, F.S., relating to alcohol and drug abuse, respectively.⁸ Each of these laws governed different aspects of addiction, and thus had different rules promulgated by the state to fully implement the respective pieces of legislation.⁹ However, because persons with substance abuse issues often do not restrict their misuse to one substance or another, having two separate laws dealing with the prevention and treatment of addiction was cumbersome and did not adequately address Florida's substance abuse problem.¹⁰

¹⁰ The Center for Disease Control and Prevention, National Center for Health Statistics, *U.S. Overdose Deaths In 2021 Increased Half as Much as in 2020 – But Are Still Up 15%*, available at https://www.cdc.gov/nchs/pressroom/nchs_press_releases/2022/202205.htm (last visited March 28, 2025).

In 1993, legislation was adopted to combine ch. 396 and 397, F.S., into a single law, the Hal S. Marchman Alcohol and Other Drug Services Act (Marchman Act).¹¹

The Marchman Act encourages individuals to seek services on a voluntary basis within the existing financial and space capacities of a service provider.¹² However, denial of addiction is a prevalent symptom of SUD, creating a barrier to timely intervention and effective treatment.¹³ As a result, treatment typically must stem from a third party providing the intervention needed for SUD treatment.¹⁴

The Department of Children and Families (DCF) administers a statewide system of safety net services for substance abuse and mental health (SAMH) prevention, treatment, and recovery for children and adults who are otherwise unable to obtain these services. Services are provided based upon state and federally established priority populations.¹⁵ The DCF provides treatment for SUD through a community-based provider system offering detoxification, treatment, and recovery support for individuals affected by substance misuse, abuse, or dependence.¹⁶

- **Detoxification Services:** Detoxification services use medical and clinical procedures to assist individuals and adults as they withdraw from the physiological and psychological effects of substance abuse.¹⁷
- **Treatment Services:** Treatment services¹⁸ include a wide array of assessment, counseling, case management, and support that are designed to help individuals who have lost their ability to control their substance use on their own and require formal, structured intervention and support.¹⁹
- **Recovery Support:** Recovery support services, including transitional housing, life skills training, parenting skills, and peer-based individual and group counseling are offered during and following treatment to further assist individuals in their development of the knowledge and skills necessary to maintain their recovery.²⁰

¹¹ Chapter 93-39, s. 2, L.O.F., which codified current ch. 397, F.S.

¹² See s. 397.601(1) and (2), F.S. An individual who wishes to enter treatment may apply to a service provider for voluntary admission. Within the financial and space capabilities of the service provider, the individual must be admitted to treatment when sufficient evidence exists that he or she is impaired by substance abuse and his or her medical and behavioral conditions are not beyond the safe management capabilities of the service provider.

Day or Night Treatment with Community Housing

The DCF licenses “Day or Night Treatment” facilities both with and without community housing components. Day or night treatment programs provide substance use treatment as a service in a nonresidential environment, with a structured schedule of treatment and rehabilitative services.²¹ Day or night treatment programs with community housing are intended for individuals who can benefit from living independently in peer community housing while participating in treatment services for a minimum of 5 hours a day or 25 hours per week.²²

Day or night treatment with community housing is appropriate for individuals who do not require structured, 24 hours a day, 7 days a week residential treatment.²³ The housing must be provided and managed by the licensed service provider, including room and board and any ancillary services such as supervision, transportation, and meals. Activities for day or night treatment with community housing programs emphasize rehabilitation and treatment services using multidisciplinary teams to provide integration of therapeutic and family services.²⁴ This component allows individuals to live in a supportive, community housing location while participating in treatment. Treatment must not take place in the housing where the individuals live, and the housing must be utilized solely for the purpose of assisting individuals in making a transition to independent living.²⁵ Individuals who are considered appropriate for this level of care:

- Would not have active suicidal or homicidal ideation or present a danger to self or others;
- Are able to demonstrate motivation to work toward independence;
- Are able to demonstrate a willingness to live in supportive community housing;
- Are able to demonstrate commitment to comply with rules established by the provider;
- Are not in need of detoxification or residential treatment; and
- Typically need ancillary services such as transportation, assistance with shopping, or assistance with medical referrals and may need to attend and participate in certain social and recovery oriented activities in addition to other required clinical services.²⁶

Services provided by such programs may include:

- Individual counseling;
- Group counseling;
- Counseling with families or support system;
- Substance-related and recovery-focused education, such as strategies for avoiding substance use or relapse, information regarding health problems related to substance use, motivational enhancement, and strategies for achieving a substance-free lifestyle;
- Life skills training such as anger management, communication skills, employability skills, problem solving, relapse prevention, recovery management, decision-making, relationship skills, symptom management, and food purchase and preparation;

²⁴ *Id.*

²⁵ *Id.*

²⁶ *Id.*

- Expressive therapies, such as recreation therapy, art therapy, music therapy, or dance (movement) therapy to provide the individual with alternative means of self-expression and problem resolution;
- Training or provision of information regarding health and medical issues;
- Employment or educational support services to assist individuals in becoming financially independent;
- Nutrition education; and
- Mental health services for the purpose of:
 - Managing individuals with disorders who are stabilized,
 - Evaluating individuals' needs for in-depth mental health assessment,
 - Training individuals to manage symptoms; and
 - If the provider is not staffed to address primary mental health problems that may arise during treatment, the provider shall initiate a timely referral to an appropriate provider for mental health crises or for the emergence of a primary mental health disorder in accordance with the provider's policies and procedures.²⁷

Each enrolled individual must receive a minimum of 25 hours of service per week, including:

- Counseling;
- Group counseling; or
- Counseling with families or support systems.²⁸

Each provider is required to arrange for or provide transportation services, if needed and as appropriate, to clients who reside in community housing.²⁹ Each provider must have an awake, paid employee on the premises at all times at the treatment location when one or more individuals are present.³⁰ For adults, the provider must have a paid employee on call during the time when individuals are at the community housing location.³¹ In addition, the provider must have an awake, paid employee at the community housing location at all times if individuals under the age of 18 are present.³² No primary counselor may have a caseload that exceeds 15 individuals.³³ For individuals in treatment who are granted privilege to self-administer their own medications, provider staff are not required to be present for the self-administration.³⁴

Recovery Residences

Recovery residences (also known as “sober homes” or “sober living homes”) are alcohol- and drug-free living environments for individuals in recovery who are attempting to maintain abstinence from alcohol and drugs.³⁵ These residences offer no formal treatment and are, in some cases, self-funded through resident fees.

²⁷ Rule 65D-30.0081(2), F.A.C.

²⁸ Rule 65D-30.0081(4), F.A.C.

²⁹ Rule 65D-30.0081(5), F.A.C.

³⁰ Rule 65D-30.0081(6), F.A.C.

³¹ *Id.*

³² *Id.*

³³ Rule 65D-30.0081(7), F.A.C.

³⁴ Rule 65D-30.0081(8), F.A.C.

³⁵ SAMSHA, *Recovery Housing: Best Practices and Suggested Guidelines*, p. 2, available at <https://www.samhsa.gov/sites/default/files/housing-best-practices-100819.pdf> (last visited March 28, 2025).

A recovery residence is defined as “a residential dwelling unit, the community housing component of a licensed day or night treatment facility with community housing, or other form of group housing, which is offered or advertised through any means, including oral, written, electronic, or printed means, by any person or entity as a residence that provides a peer-supported, alcohol-free, and drug-free living environment.”³⁶

Staffing Requirements for Certified Recovery Residences

A certified recovery residence administrator (CRAA) may actively manage up to 50 residents at any given time, though may manage up to 100 residents if written justification is provided to, and approved by, the credentialing entity as to how the administrator is able to effectively and appropriately respond to the needs of the residents, maintain residence standards, and meet the residence certification requirements.³⁷ CRRAs at certain Level IV certified recovery residences (those operating as community housing as defined in s. 397.311(9), F.S., which residence is actively managed by a certified recovery residence administrator approved for 100 residents under this section and is wholly owned or controlled by a licensed service provider) are allowed to actively manage up to 150 residents provided certain conditions are met:

- Maintains a personnel-to-patient ratio of 1 to 8;
- Maintains onsite supervision at the residence 24 hours a day, 7 days a week; and
- Has a personnel-to-resident ratio of 1 to 10.³⁸

Recovery Residence Levels of Support

Section 397.311(5), F.S., establishes a four level-classification of certified recovery residences, including:

- Level I—houses individuals in recovery who have completed treatment, with a minimum of 9 months of sobriety. A Level I certified recovery residence is democratically run by the members who reside in the home.
- Level II—encompasses the traditional perspectives of sober living homes. There is oversight from a house manager who has experience with living in recovery. Residents are expected to follow rules outlined in a resident handbook provided by the certified recovery residence administrator. Residents must pay dues, if applicable, and work toward achieving realistic and defined milestones within a chosen recovery path.
- Level III—offers higher supervision by staff with formal training to ensure resident accountability. Such residences are staffed 24 hours a day, 7 days a week, and offer residents peer-support services, which may include, but are not limited to, life skill mentoring, recovery planning, and meal preparation. Clinical services may not be performed at the residence. Such residences are most appropriate for persons who require a more structured environment during early recovery from addiction.
- Level IV—is a residence offered, referred to, or provided by, a licensed service provider to its patients who are required to reside at the residence while receiving intensive outpatient and higher levels of outpatient care. Such residences are staffed 24 hours a day and combine outpatient licensable services with recovery residential living. Residents are required to follow a treatment plan and attend group and individual sessions, in addition to developing a

³⁶ Section 397.311(38), F.S.

³⁷ Section 397.4871(6)(b), F.S.

³⁸ Section 397.4871(8)(b) and (c), F.S.

recovery plan within the social model of living in a sober lifestyle. No clinical services are provided at the residence and all licensable services are provided offsite.

Voluntary Certification of Recovery Residences and Administrators in Florida

Florida has a voluntary certification programs for recovery residences and recovery residence administrators, conducted by private credentialing entities.³⁹ Under the voluntary certification program, the DCF has approved two credentialing entities to design the certification programs and issue certificates: the Florida Association of Recovery Residences (FARR) certifies recovery residences and the Florida Certification Board (FCB) certifies recovery residence administrators.⁴⁰ Under the voluntary certification program, recovery residences are classified into four levels of care, with Level IV being the most intense level.⁴¹

Credentialing entities must require prospective recovery residences to submit the following documents with a completed application and fee:

- A policy and procedures manual containing:
 - Job descriptions for all staff positions;
 - Drug-testing procedures and requirements;
 - A prohibition on the premises against alcohol, illegal drugs, and the use of prescribed medications by an individual other than the individual for whom the medication is prescribed;
 - Policies to support a resident's recovery efforts; and
 - A good neighbor policy to address neighborhood concerns and complaints.
- Rules for residents;
- Copies of all forms provided to residents;
- Intake procedures;
- Sexual predator and sexual offender registry compliance policy;
- Relapse policy;
- Fee schedule;
- Refund policy;
- Eviction procedures and policy;
- Code of ethics;
- Proof of insurance;
- Proof of background screening; and
- Proof of satisfactory fire, safety, and health inspections.⁴²

Patient Referrals

While certification is voluntary, Florida law incentivizes certification. Since 2016, Florida has prohibited licensed substance abuse service providers from referring patients to a recovery residence unless the recovery residence holds a valid certificate of compliance and is actively

³⁹ Sections 397.487 through 397.4872, F.S.

⁴⁰ The Department of Children and Families, *Recovery Residence Administrators and Recovery Residences*, available at <https://www.myflfamilies.com/services/samh/recovery-residence-administrators-and-recovery-residences> (last visited March 28, 2025).

⁴¹ Section 397.311, F.S., and sections 397.487 through 397.4873, F.S.

⁴² Section 397.487(3), F.S.

managed by a certified recovery residence administrator (CRRRA).⁴³ There are certain exceptions that allow referrals to or from uncertified recovery residences, including any of the following:

- A licensed service provider under contract with a behavioral health managing entity.
- Referrals by a recovery residence to a licensed service provider when the recovery residence or its owners, directors, operators, or employees do not benefit, directly or indirectly, from the referral.
- Referrals made before July 1, 2018, by a licensed service provider to that licensed service provider's wholly owned subsidiary.
- Referrals to, or accepted referrals from, a recovery residence with no direct or indirect financial or other referral relationship with the licensed service provider, and that is democratically operated by its residents pursuant to a charter from an entity recognized or sanctioned by Congress, and where the residence or any resident of the residence does not receive a benefit, directly or indirectly, for the referral.⁴⁴

Service providers are required to record the name and location of each recovery residence that the provider has referred patients to or received referrals from in the DCF Provider Licensure and Designations System.⁴⁵ Prospective service providers must also include the names and locations of any recovery residences which they plan to refer patients to, or accept patients from, on their application for licensure.⁴⁶

Residences managed by a certified recovery residence administrator approved for up to 100 residents and wholly owned or controlled by a licensed service provider may accommodate up to 150 residents under certain conditions.⁴⁷ These conditions include maintaining a service provider personnel-to-patient ratio of 1 to 8 and providing onsite supervision 24/7 with a personnel-to-resident ratio of 1 to 10. Additionally, administrators overseeing Level IV certified recovery residences with a personnel-to-resident ratio of 1 to 6 are not subject to limitations on the number of residents they may manage.

Zoning and Land Use

The Growth Management Act requires every city and county to create and implement a comprehensive plan to guide future development.⁴⁸ All development, both public and private, and all development orders⁴⁹ approved by local governments must be consistent with the local government's comprehensive plan unless otherwise provided by law.⁵⁰ The Future Land Use Element in a comprehensive plan establishes a range of allowable uses and densities and

⁴³ Section 397.4873(1), F.S.

⁴⁴ Section 397.4873(2)(a)-(d), F.S.

⁴⁵ Section 397.4104(1), F.S.

⁴⁶ Section 397.403(1)(j), F.S.

⁴⁷ Section 397.4871(8)(c), F.S.

⁴⁸ Section 163.3167(2), F.S.

⁴⁹ "Development order" means any order granting, denying, or granting with conditions an application for a development permit. See s. 163.3164(15), F.S. "Development permit" includes any building permit, zoning permit, subdivision approval, rezoning, certification, special exception, variance, or any other official action of local government having the effect of permitting the development of land. See s. 163.3164(16), F.S.

⁵⁰ Section 163.3194(3), F.S.

intensities over large areas, and the specific use and intensities for specific parcels within that range are decided by a more detailed, implementing zoning map.⁵¹

III. Effect of Proposed Changes:

Section 1 amends s. 397.487, F.S., to require counties and municipalities, by January 1, 2026, to adopt an ordinance establishing procedures for the review and approval of certified recovery residences, including a process for requesting reasonable accommodations from land use regulations that otherwise prohibit such establishment. The bill requires that the ordinance:

- Be consistent with state and federal law;
- Establish a written application process;
- Require the local government to date-stamp each application upon receipt, and request additional information within 30 days if required, giving 30 days for such response;
- Require final written determination within 60 days which either approves in whole or part, with or without conditions, or denies the request, stating with specificity the objective reasons for denial and process for reconsideration;
- Provide that an application which does not receive final determination within 60 days is deemed approved unless the parties agree to extension; and
- Require the application to include the name and contact information of the applicant, the property address and parcel identification number, and a description of any accommodation requested.

The ordinance may establish additional requirements for the review or approval of reasonable accommodation requests, but may not require public hearings beyond the minimum required by law to grant the requested accommodation. The ordinance may include provisions for the revocation of a granted accommodation for cause such as a violation of conditions or failure to maintain certification.

The bill also clarifies that the ordinance does not supersede covenants and restrictions related to condominium or homeowners' associations.

Section 2 amends s. 397.4871, F.S., to provide that a certified recovery residence administrator for level IV certified recovery residence which maintains a personnel-to-resident ratio of 1 to 6 may manage up to 300 residents. Currently the maximum allowed is 150 residents with a 1 to 8 ratio. The bill also amends the 24/7 onsite supervision requirement to only apply during times when residents are at the residence.

The bill takes effect July 1, 2025.

⁵¹ Richard Grosso, A Guide to Development Order "Consistency" Challenges Under Florida Statutes Section 163.3215, 34 J. Envtl. L. & Litig. 129, 154 (2019) citing Brevard Cty. v. Snyder, 627 So. 2d 469, 475 (Fla. 1993).

IV. Constitutional Issues:**A. Municipality/County Mandates Restrictions:**

Article VII, s. 18(a) of the Florida Constitution provides, in part, that a county or municipality may not be bound by a general law requiring a county or municipality to spend funds or take an action that requires the expenditure of funds unless certain specified exemptions or exceptions are met. The bill requires counties and municipalities to expend funds associated with the requirement to enact an ordinance for the review and approval of certified recovery residences. However, the mandate requirement does not apply to laws having an insignificant impact,⁵² which for Fiscal Year 2025-2026 is forecast at approximately \$2.4 million.⁵³ The aggregate cost for local governments to implement this provision is likely insignificant.

However, if the bill does qualify as a mandate, in order to be binding upon cities and counties, the bill must contain a finding of important state interest and be approved by a two-thirds vote of the membership of each house.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:**A. Tax/Fee Issues:**

None.

B. Private Sector Impact:

The overall effect of the bill may be to simplify the establishment and maintenance of a recovery residence, providing an indeterminate positive impact.

⁵² FLA. CONST. art. VII, s. 18(d).

⁵³ An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year times \$0.10. See Fla. Senate Comm. On Cmty. Affairs, Interim Report 2012-115: Insignificant Impact (Sept. 2011), available at: <http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf>.

C. Government Sector Impact:

Counties and municipalities will likely incur administrative expenses associated with the development and noticing of the ordinance required in section 1 of the bill.

The bill has no fiscal impact on state revenues or expenditures.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 397.487 and 397.4871.

IX. Additional Information:**A. Committee Substitute – Statement of Substantial Changes:**
(Summarizing differences between the Committee Substitute and the prior version of the bill.)**CS/CS/CS by Rules on April 21, 2025:**

The committee substitute revises the mechanic for local approval of certified recovery residences to require that local governments adopt an ordinance outlining procedures for approving certified recovery residences within their jurisdiction, with certain conditions on the nature and scope of the ordinance.

CS/CS by Appropriations Committee on Health and Human Services on April 15, 2025:

The committee substitute changes the maximum number of residents that can be actively managed by a certified recovery residence administrator for Level IV certified recovery residence to 300 residents.

CS by Community Affairs on March 31, 2025:

The committee substitute removes all provisions of the bill except:

- The provisions of section 4 declaring a certified recovery residence is deemed a nontransient residential use of land for the purposes of all local zoning ordinances. The provisions requiring administrative approval and a reduction of parking requirements are removed.
- Section 5, adjusting bed limits by personnel-to-resident ratio. This provision is modified to provide a 500 resident limit.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

Select Year: 2025 

The 2025 Florida Statutes

[Title XXIX](#)
PUBLIC HEALTH

[Chapter 397](#)
SUBSTANCE ABUSE SERVICES

[View Entire Chapter](#)

397.487 Voluntary certification of recovery residences.—

(1) The Legislature finds that a person suffering from addiction has a higher success rate of achieving long-lasting sobriety when given the opportunity to build a stronger foundation by living in a recovery residence while receiving treatment or after completing treatment. The Legislature further finds that this state and its subdivisions have a legitimate state interest in protecting these persons, who represent a vulnerable consumer population in need of adequate housing. It is the intent of the Legislature to protect persons who reside in a recovery residence.

(2) The department shall approve at least one credentialing entity by December 1, 2015, for the purpose of developing and administering a voluntary certification program for recovery residences. The approved credentialing entity shall:

- (a) Establish recovery residence certification requirements.
- (b) Establish procedures to:
 - 1. Administer the application, certification, recertification, and disciplinary processes.
 - 2. Monitor and inspect a recovery residence and its staff to ensure compliance with certification requirements.
 - 3. Interview and evaluate residents, employees, and volunteer staff on their knowledge and application of certification requirements.
- (c) Provide training for owners, managers, and staff.
- (d) Develop a code of ethics.
- (e) Establish application, inspection, and annual certification renewal fees. The application fee may not exceed \$100. Any onsite inspection fee shall reflect actual costs for inspections. The annual certification renewal fee may not exceed \$100.

(3) A credentialing entity shall require the recovery residence to submit the following documents with the completed application and fee:

- (a) A policy and procedures manual containing:
 - 1. Job descriptions for all staff positions.
 - 2. Drug-testing procedures and requirements.
 - 3. A prohibition on the premises against alcohol, marijuana, illegal drugs, and the use of prescribed medications by an individual other than the individual for whom the medication is prescribed. For the purposes of this subsection, “marijuana” includes marijuana that has been certified by a qualified physician for medical use in accordance with s. [381.986](#).
 - 4. Policies to support a resident’s recovery efforts.
 - 5. A good neighbor policy to address neighborhood concerns and complaints.
- (b) Rules for residents.
- (c) Copies of all forms provided to residents.
- (d) Intake procedures.
- (e) Sexual predator and sexual offender registry compliance policy.
- (f) Relapse policy.
- (g) Fee schedule.
- (h) Refund policy.

- (i) Eviction procedures and policy.
- (j) Code of ethics.
- (k) Proof of insurance.
- (l) Proof of background screening.
- (m) Proof of satisfactory fire, safety, and health inspections.

(4) A certified recovery residence must be actively managed by a certified recovery residence administrator. All applications for certification must include the name of the certified recovery residence administrator who will be actively managing the applicant recovery residence.

(5) Upon receiving a complete application, a credentialing entity shall conduct an onsite inspection of the recovery residence.

(6) All owners, directors, and chief financial officers of an applicant recovery residence are subject to level 2 background screening as provided under s. 408.809 and chapter 435. A recovery residence is ineligible for certification, and a credentialing entity shall deny a recovery residence's application, if any owner, director, or chief financial officer has been found guilty of, or has entered a plea of guilty or nolo contendere to, regardless of adjudication, any offense listed in s. 408.809(4) or s. 435.04(2) unless the department has issued an exemption under s. 435.07. Exemptions from disqualification applicable to service provider personnel pursuant to s. 397.4073 or s. 435.07 shall apply to this subsection. In accordance with s. 435.04, the department shall notify the credentialing agency of an owner's, director's, or chief financial officer's eligibility based on the results of his or her background screening.

(7) A credentialing entity shall issue a certificate of compliance upon approval of the recovery residence's application and inspection. The certification shall automatically terminate 1 year after issuance if not renewed.

(8) Onsite followup monitoring of a certified recovery residence may be conducted by the credentialing entity to determine continuing compliance with certification requirements. The credentialing entity shall inspect each certified recovery residence at least annually to ensure compliance.

(a) A credentialing entity may suspend or revoke a certification if the recovery residence is not in compliance with any provision of this section or has failed to remedy any deficiency identified by the credentialing entity within the time period specified.

(b) A certified recovery residence must notify the credentialing entity within 3 business days after the removal of the recovery residence's certified recovery residence administrator due to termination, resignation, or any other reason. The certified recovery residence has 90 days to retain a certified recovery residence administrator. The credentialing entity must revoke the certificate of compliance of any certified recovery residence that fails to comply with this paragraph.

(c) If a certified recovery residence's administrator has been removed due to termination, resignation, or any other reason and had been previously approved to actively manage more than 50 residents pursuant to s. 397.4871(8)(b), the certified recovery residence has 90 days to retain another certified recovery residence administrator pursuant to s. 397.4871. The credentialing entity must revoke the certificate of compliance of any certified recovery residence that fails to comply with this paragraph.

(d) If any owner, director, or chief financial officer of a certified recovery residence is arrested and awaiting disposition for or found guilty of, or enters a plea of guilty or nolo contendere to, regardless of whether adjudication is withheld, any offense listed in s. 435.04(2) while acting in that capacity, the certified recovery residence must immediately remove the person from that position and notify the credentialing entity within 3 business days after such removal. The credentialing entity must revoke the certificate of compliance of a certified recovery residence that fails to meet these requirements.

(e) A credentialing entity shall revoke a certified recovery residence's certificate of compliance if the certified recovery residence provides false or misleading information to the credentialing entity at any time.

(f) Any decision by a department-recognized credentialing entity to deny, revoke, or suspend a certification, or otherwise impose sanctions on a certified recovery residence, is reviewable by the department. Upon receiving an adverse determination, the certified recovery residence may request an administrative hearing pursuant to ss.

120.569 and 120.57(1) within 30 days after completing any appeals process offered by the credentialing entity or the department, as applicable.

(9) A person may not advertise to the public, in any way or by any medium whatsoever, any recovery residence as a “certified recovery residence” unless such recovery residence has first secured a certificate of compliance under this section. A person who violates this subsection commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(10)(a) A certified recovery residence may allow a minor child to visit a parent who is a resident of the recovery residence, provided that a minor child may not visit or remain in the recovery residence between the hours of 9 p.m. and 7 a.m. unless:

1. A court makes a specific finding that such visitation is in the best interest of the minor child; or
2. The recovery residence is a specialized residence for pregnant women or parents whose children reside with them. Such recovery residences may allow children to visit or reside in the residence if the parent does not yet have a time-sharing plan pursuant to s. 61.13, provided that the parent files with the court for establishment of a plan within 14 days of moving into the residence.

(b) A certified recovery residence may not allow a minor child to visit a parent who is a resident of the recovery residence at any time if any resident of the recovery residence is currently required to register as a sexual predator under s. 775.21 or as a sexual offender under s. 943.0435.

(11) Notwithstanding any landlord and tenant rights and obligations under chapter 83, a recovery residence that is certified under this section and has a discharge policy approved by a department-recognized credentialing entity may immediately discharge or transfer a resident in accordance with that policy under any of the following circumstances:

- (a) The discharge or transfer is necessary for the resident’s welfare.
- (b) The resident’s needs cannot be met at the recovery residence.
- (c) The health and safety of other residents or recovery residence employees is at risk or would be at risk if the resident continues to live at the recovery residence.

(12) Any person discharged from a recovery residence under subsection (11) who willfully refuses to depart after being warned by the owner or an authorized employee of the recovery residence commits the offense of trespass in a recovery residence, a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(13) Beginning January 1, 2025, a certified recovery residence may not deny an individual access to housing solely on the basis that he or she has been prescribed federally approved medication that assists with treatment for substance use disorders by a licensed physician, a physician’s assistant, or an advanced practice registered nurse registered under s. 464.0123.

(14) A local ordinance or regulation may not further regulate the duration or frequency of a resident’s stay in a certified recovery residence located within a multifamily zoning district after June 30, 2024. This provision shall expire July 1, 2026.

(15)(a) By January 1, 2026, the governing body of each county or municipality shall adopt an ordinance establishing procedures for the review and approval of certified recovery residences within its jurisdiction. The ordinance must include a process for requesting reasonable accommodations from any local land use regulation that serves to prohibit the establishment of a certified recovery residence.

(b) At a minimum, the ordinance must:

1. Be consistent with the Fair Housing Amendments Act of 1988, 42 U.S.C. ss. 3601 et seq., and Title II of the Americans with Disabilities Act, 42 U.S.C. ss. 12131 et seq.
2. Establish a written application process for requesting a reasonable accommodation for the establishment of a certified recovery residence, which application must be submitted to the appropriate local government office.
3. Require the local government to date stamp each application upon receipt. If additional information is required, the local government must notify the applicant in writing within the first 30 days after receipt of the application and allow the applicant at least 30 days to respond.

4. Require the local government to issue a final written determination on the application within 60 days after receipt of a completed application. The determination must:

- a. Approve the request in whole or in part, with or without conditions; or
- b. Deny the request, stating with specificity the objective, evidence-based reasons for denial and identifying any deficiencies or actions necessary for reconsideration.

5. Provide that if a final written determination is not issued within 60 days after receipt of a completed application, the request is deemed approved unless the parties agree in writing to a reasonable extension of time.

6. Require that the application include, at a minimum:
- a. The name and contact information of the applicant or the applicant's authorized representative;
 - b. The property address and parcel identification number; and
 - c. A description of the accommodation requested and the specific regulation or policy from which relief is sought.

(c) The ordinance may establish additional requirements for the review or approval of reasonable accommodation requests for establishing a certified recovery residence, provided such requirements are consistent with federal law and do not conflict with this subsection.

(d) The ordinance may not require public hearings beyond the minimum required by law to grant the requested accommodation.

(e) The ordinance may include provisions for the revocation of a granted accommodation of a certified recovery residence for cause, including, but not limited to, a violation of the conditions of approval or the lapse, revocation, or failure to maintain certification or licensure required under this section, if not reinstated within 180 days.

(f) The ordinance and establishment of a reasonable accommodation process does not relieve the local government from its obligations under the Fair Housing Amendments Act of 1988, 42 U.S.C. ss. 3601 et seq., and Title II of the Americans with Disabilities Act, 42 U.S.C. ss. 12131 et seq. The regulation for which the applicant is seeking a reasonable accommodation must not facially discriminate against or otherwise disparately impact the applicant.

(16) The application of this section does not supersede any current or future declaration or declaration of condominium adopted pursuant to chapter 718; any cooperative document adopted pursuant to chapter 719; or any declaration or declaration of covenant adopted pursuant to chapter 720.

- ✚ Chapter 2, District and General Regulations, Article IV, Conditional and Special Exception Regulations, Section 2-57, Criteria for review of specific conditional and special exception

Chapter 1, General Administration, Article III, Definitions and Acronyms, Section 1-22, Definitions of terms and words

Note definitions are from Florida Statutes 397.311(5) and (6)

Certificate of use ...(No change in existing text)...

Certified recovery residence means a recovery residence that holds a valid certificate of compliance and is actively managed by a certified recovery residence administrator.

- (a) A Level I certified recovery residence houses individuals in recovery who have completed treatment, with a minimum of 9 months of sobriety. A Level I certified recovery residence is democratically run by the members who reside in the home.
- (b) A Level II certified recovery residence encompasses the traditional perspectives of sober living homes. There is oversight from a house manager who has experience with living in recovery. Residents are expected to follow rules outlined in a resident handbook provided by the certified recovery residence administrator. Residents must pay dues, if applicable, and work toward achieving realistic and defined milestones within a chosen recovery path.
- (c) A Level III certified recovery residence offers higher supervision by staff with formal training to ensure resident accountability. Such residences are staffed 24 hours a day, 7 days a week, and offer residents peer-support services, which may include, but are not limited to, life skill mentoring, recovery planning, and meal preparation. Clinical services may not be performed at the residence. Such residences are most appropriate for persons who require a more structured environment during early recovery from addiction.
- (d) A Level IV certified recovery residence is a residence offered, referred to, or provided by, a licensed service provider to its patients who are required to reside at the residence while receiving intensive outpatient and higher levels of outpatient care. Such residences are staffed 24 hours a day and combine outpatient licensable services with recovery residential living. Residents are required to follow a treatment plan and attend group and individual sessions, in addition to developing a recovery plan within the social model of living in a sober lifestyle. No clinical services are provided at the residence and all licensable services are provided offsite.

Certified recovery residence administrator means a recovery residence administrator who holds a valid certificate of compliance.

Chapter 2, District and General Regulations, Article IV, Conditional and Special Exception Regulations, Section 2-57, Criteria for review of specific conditional and special exception

(13) *Cemetery*. ...(No change in existing text)...

(14) *Certified Recovery Residences*.

- (a) *Florida Statue requirements*. Certified Recovery Residences are defined within Section 397.311 Florida Statutes, as amended, and provide the regulations for review and approval of applications for reasonable accommodations in applying the city's ordinances, rules, policies, and procedures consistent with the federal Fair Housing Amendments Act (42

Note: ~~Strikethrough~~ text is proposed deleted text and underlined text is proposed text

U.S.C. 3601, et seq.) ("FHA") and Title II of the Americans with Disabilities Act (42 U.S.C. Section 12131, et seq.) ("ADA").

- (b) Establishment of a certified recovery residence. A certified recovery residence may be established in zoning districts that allow multi-family use and must comply with Section 2-57 of this Code for that zoning district and all other applicable land development regulations, except that reasonable accommodation(s) may be requested pursuant to this section. The city may not regulate the duration or frequency of a resident's stay in a certified recovery residence located within a multifamily zoning district.
- (c) Business Tax Receipt required. All certified recovery residences are required to obtain a Business Tax Receipt.
- (d) Filing a reasonable accommodation request to establish a certified recovery residence. A request for a reasonable accommodation under this section from the land development regulations, rules, policies, and procedures of the City that may hinder the establishment of a certified recovery residence shall be made through the city electronic permitting system and shall at a minimum provide the following information:
1. Name and contact information of the applicant.
 2. If the applicant is not the certified recovery residence administrator who will be actively managing the recovery residence, the administrator's name, and contact information.
 3. Copy of recovery residence administrator certification.
 4. Florida Association of Recovery Residences, (FARR) location certification.
 5. The location where reasonable accommodation is requested including the address and parcel identification number.
 6. A description of the facility operations, including the number of beds and services provided.
 7. A description of the accommodation needed, identifying the ordinances, rules, or policies for which the applicant needs reasonable accommodation, and why it is necessary.
 8. Any additional information or documentation the applicant feels is necessary to support the request for reasonable accommodation.
 9. No fees or costs may be imposed for applications submitted under this section or an appeal of a decision for such application.
- (e) Review process. The following review process shall apply to applications for reasonable accommodation request(s) to establish a certified recovery residence:
1. The application shall be date-stamped when received.
 2. The applicant shall be notified in writing within the first 30 days of the submittal if additional information or documents are required. The applicant shall have 30 days to respond and provide the additional information or additional documents that have been requested.

Note: ~~Strikethrough~~ text is proposed deleted text and underlined text is proposed text

3. The review process shall not require public hearings beyond the minimum required by law to grant the requested accommodation.
 4. Within 60 days of receiving the completed application, the Planning Director shall review the request for reasonable accommodation based on the criteria of subsection (f) and make a determination.
 - a. Approve the accommodation request as submitted;
 - b. Approve a portion of the request and deny a portion of the request, and/or impose conditions upon the grant of the request, or approve a reasonable alternative accommodation; or
 - c. Deny the accommodation request, stating with specificity the objective, evidence-based reasons for denial and identifying any deficiencies or actions necessary for reconsideration.
 5. If the final written determination is not issued within 60 days after the receipt of a completed application, the request is deemed approved unless the parties agree in writing to a reasonable extension of time.
 6. In the event that a reasonable accommodation is granted, the Applicant shall continue to comply with any and all other applicable building and/or site permitting processes required by the city's Land Development Code and all other state and federal laws.
 7. A reasonable accommodation is specific to the Applicant and does not run with the subject property.
 8. The application of Florida Statutes 397.487 does not supersede any current or future declaration or declaration of condominium adopted pursuant to chapter 718; any cooperative document adopted pursuant to chapter 719; or any declaration or declaration of covenant adopted pursuant to chapter 720.
- (f) Criteria. The following criteria shall be used in reviewing an application for a reasonable accommodation request for establishing a certified recovery residence:
1. Whether the applicant has established that he/she, or the individual on whose behalf the application was submitted, is protected under applicable laws.
 2. Whether the applicant has established that the requested accommodation is reasonable and necessary to afford the disabled individual, an equal opportunity to use and enjoy the property.
 3. Whether the requested accommodation would impose an undue financial or administrative burden on the city.
 4. Whether the requested accommodation would require a fundamental alteration in the nature of the land use and zoning regulations of the city.
 5. If applicable, whether alternative reasonable accommodations could provide an equivalent level of benefit.
 6. Any other relevant criteria under applicable laws.
 7. That applicant adheres to all applicable state and federal laws relating to Certified

Recovery Residences and can demonstrate the same, inclusive of all required licensures or credentials for operation of a certified recovery residence.

(g) Appeal. Whenever the applicant disagrees with the determination of the Planning Director, or any of the conditions imposed as part of the terms under which the reasonable accommodation is approved, they may elect to appeal the application per Section 1-19 of this code.

(h) Revocation. The approval granted under this Section for a reasonable accommodation may be revoked or modified if the recovery residence fails to maintain certification or licensure required under state law and it is not reinstated within 180 days, or a violation of any provision of the determination granting the reasonable accommodation is found.

Planning Board minutes from November 13, 2025

ITEM:

PZ-2025-204

Certified Recovery Residences

Recommended for Approval

F. PZ-2025-204, Certified Recovery Residences, Land Development Code Amendment

Mr. Spraker stated that this is an application for administrative Land Development Code amendments to establish procedures for the review and action of Certified Recovery Residences, as required by Florida Statute Section 397.487, implemented by Senate Bill 954. He added that Senate Bill 954, which was effective July 1, 2025, was codified into Florida Statute Section 397.487. Mr. Spraker stated that the bill requires local governments to adopt an ordinance to establish procedures for the review and approval of certified recovery residences by January 1, 2026. He continued that the bill also requires the establishment of a process for reasonable accommodation requests for Certified Recovery Residences.

Mr. Spraker stated that the Land Development Code amendments have two parts. The first part establishes definitions for Certified Recovery Residences and Certified Recovery Residence administrators, which were copied from the Florida Statutes.

Mr. Spraker stated that the second part of the amendment creates a subsection in Section 2-57 that establishes:

- a) Florida Statutes requirements.
- b) Establishment of certified recovery residences.
- c) Business Tax Receipt.
- d) Filing a reasonable accommodation request to establish a certified recovery residence.
- e) Review process.
- f) Criteria.
- g) Appeals.
- h) Revocation.

Mr. Spraker stated that the Planning staff is recommending approval of the Land Development Code amendment.

Board Questions

Mr. Jorczak asked, based on what is known about the legislature, how many more of these types of mandates are coming. He stated that we continue to see more oversight by the state of the individual municipalities and how they are constructing their codes. He asked how many more of this kind of thing that local governments are seeing. Mr. Spraker replied that he does not have an answer to the question, and how the state legislature is to implement laws and policies that they feel are appropriate.

Mr. Jorczak remarked that it would be nice to put the mandates on hold so that local governments can work on regional issues and plans.

Vice Chair Shull asked where the recovery residences can be located. Mr. Spraker confirmed that they would be allowed in the multi-family zoning districts because they are functioning as residential units.

Vice Chair Shull inquired if there was any distance separation from schools. Mr. Spraker responded that there are no distance separation requirements because the units are residential and services are provided off-site.

Ms. Shull inquired if there would be a Homeowners' Association (HOA) or anything. Mr. Spraker replied that multi-family units typically have management associations, and Certified Recovery Residences also have an administrator.

Vice Chair Shull entertained a motion.

Mr. Gentry motioned to approve PZ-2025-204. Mr. Jorczak seconded the motion. The vote was called, and the motion was approved, with Chairman Thomas in opposition (4-1).

G. PZ-2025-205, Home Occupations, Land Development Code Amendment

Mr. Steven Spraker, Planning Director, explained the application for administrative Land Development Code amendments to update the regulations for home occupations based upon Section 559.955, Florida Statutes. He explained that Section 559.955, Florida Statutes, state:

- ❖ Prohibited local governments from taking certain actions relating to the licensure and regulation of home-based businesses.
- ❖ Specified conditions under which a business is considered a home-based business.
- ❖ Authorized home-based businesses to operate in areas zoned for residential use.
- ❖ Specified that home-based businesses are subject to certain business taxes.
- ❖ Authorized the prevailing party in such challenge to recover specified attorney fees and costs, etc.

Mr. Spraker stated that the Land Development Code amendments seek to:

1. Amend the definition title of home occupation to home-based business.
2. Delete Section 2-50(t), Home occupations of the Land Development Code in its entirety.
3. Establish procedural requirements.
4. Establish conditions based on the Florida Statutes conditions.
5. Establish a yearly expiration, as with all Business Tax Receipts.
6. Establish that home-based businesses cannot be transferred.
7. Establish a revocation subsection if the business violates the Land Development Code and the Florida Statutes.

Mr. Spraker stated that the Planning staff is recommending approval of the Land Development Code amendment.

Board Questions

Vice Chair Shull inquired whether a Homeowners' Association (HOA) can still establish standards for what is allowed within its community. Mr. Spraker responded that Homeowners' Associations (HOAs) can establish their own standards.

Vice Chair Shull brought it back up to the Board and entertained a motion.

Mr. Railsback motioned to approve PZ-2025-205, and Mr. Gentry seconded it. The vote was called, and the motion was approved, with Chairman Thomas in opposition (4-1).

VIII. PUBLIC COMMENTS

Amber Bobak, 397 Collins Street, expressed her thoughts regarding the proposed Tomoka Commerce Park project. She stated that she attended the neighborhood

Ordinance Adoption **Business Impact Estimate**

Proposed ordinance's number and legal title:

2025-38

AN ORDINANCE AMENDING CHAPTER 1, GENERAL ADMINISTRATION, ARTICLE III, DEFINITIONS AND ACRONYMS, SECTION 1-22, DEFINITION OF TERMS AND WORDS OF THE CITY OF ORMOND BEACH LAND DEVELOPMENT CODE AND CHAPTER 2, DISTRICT AND GENERAL REGULATIONS, ARTICLE IV, CONDITIONAL AND SPECIAL EXCEPTION REGULATIONS, SECTION 2-57, CRITERIA FOR REVIEW OF SPECIFIC CONDITIONAL AND SPECIAL EXCEPTION, OF THE CITY OF ORMOND BEACH LAND DEVELOPMENT CODE TO CREATE DEFINITIONS, ESTABLISH PROCEDURES, AND DEFINE A PROCESS FOR THE REVIEW OF REASONABLE ACCOMMODATION REQUESTS FOR CERTIFIED RECOVERY RESIDENCES PURSUANT TO FLORIDA STATUTE SECTION 397.487; REPEALING ALL INCONSISTENT ORDINANCES OR PARTS THEREOF; PROVIDING FOR SEVERABILITY; AND SETTING FORTH AN EFFECTIVE DATE.

This Business Impact Estimate is provided in accordance with section 166.041(4), Florida Statutes. If one or more boxes are checked below, this means the City is of the view that a business impact estimate is not required by state law for the proposed ordinance, but the City is, nevertheless, providing this Business Impact Estimate as a courtesy and to avoid any procedural issues that could impact the enactment of the proposed ordinance. This Business Impact Estimate may be revised following its initial posting.

- ☐ The proposed ordinance is required for compliance with Federal or State law or regulation;
- ☐ The proposed ordinance relates to the issuance or refinancing of debt;
- ☐ The proposed ordinance relates to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;
- ☐ The proposed ordinance is required to implement a contract or an agreement, including, but not limited to, any Federal, State, local, or private grant or other financial assistance accepted by the municipal government;
- ☐ The proposed ordinance is an emergency ordinance;
- ☐ The ordinance relates to procurement; or
- ☒ The proposed ordinance is enacted to implement the following:
 - a. Part II of Chapter 163, Florida Statutes, relating to growth policy, county and municipal planning, and land development regulation, including zoning, development orders, development agreements and development permits;
 - b. Sections 190.005 and 190.046, Florida Statutes, regarding community development districts;
 - c. Section 553.73, Florida Statutes, relating to the Florida Building Code; or
 - d. Section 633.202, Florida Statutes, relating to the Florida Fire Prevention Code.

In accordance with the provisions of controlling law, even notwithstanding the fact that an exemption noted above may apply, the City hereby publishes the following information:

1. A summary of the proposed ordinance, including a statement of the public purpose to be served by the proposed ordinance, such as serving the public health, safety, morals, and welfare of the City.

This is an application for administrative Land Development Code amendments to (1) Chapter 1, General Administration, Article III, Definitions and Acronyms, Section 1-22, Definitions of terms and words and (2) Chapter 2, District and General Regulations, Article IV, Conditional and Special Exception Regulations, Section 2-57, Criteria for review of specific conditional and special exception to establish procedures for the review and action for certified recovery residences as required by Florida Statute Section 397.487 implemented with Senate Bill 954.

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the City, including the following, if any:

- a. An estimate of direct compliance costs that businesses may reasonably incur if the ordinance is enacted;

None. T This is an application for administrative Land Development Code amendments to (1) Chapter 1, General Administration, Article III, Definitions and Acronyms, Section 1-22, Definitions of terms and words and (2) Chapter 2, District and General Regulations, Article IV, Conditional and Special Exception Regulations, Section 2-57, Criteria for review of specific conditional and special exception to establish procedures for the review and action for certified recovery residences as required by Florida Statute Section 397.487 implemented with Senate Bill 954.

- b. Identification of any new charge or fee on businesses subject to the proposed ordinance, or for which businesses will be financially responsible; and

None. This is an application for administrative Land Development Code amendments to (1) Chapter 1, General Administration, Article III, Definitions and Acronyms, Section 1-22, Definitions of terms and words and (2) Chapter 2, District and General Regulations, Article IV, Conditional and Special Exception Regulations, Section 2-57, Criteria for review of specific conditional and special exception to establish procedures for the review and action for certified recovery residences as required by Florida Statute Section 397.487 implemented with Senate Bill 954.

- c. An estimate of the City's regulatory costs, including an estimate of revenues from any new charges or fees that will be imposed on businesses to cover such costs.

None. This is an application for administrative Land Development Code amendments to (1) Chapter 1, General Administration, Article III, Definitions and Acronyms, Section 1-22, Definitions of terms and words and (2) Chapter 2, District and General Regulations, Article IV, Conditional and Special Exception Regulations, Section 2-57, Criteria for review of specific conditional and special exception to establish procedures for the review and action for certified recovery residences as required by Florida Statute Section 397.487 implemented with Senate Bill 954.

3. A good faith estimates of the number of businesses likely to be impacted by the ordinance.

None. This is an application for administrative Land Development Code amendments to (1) Chapter 1, General Administration, Article III, Definitions and Acronyms, Section 1-22, Definitions of terms and words and (2) Chapter 2, District and General Regulations, Article IV, Conditional and Special Exception Regulations, Section 2-57, Criteria for review of specific conditional and special exception to establish procedures for the review and action for certified recovery residences as required by Florida Statute Section 397.487 implemented with Senate Bill 954.

4. Any additional information the City determines may be useful.

(This section may include: methodology or data used to prepare the Business Impact Estimate, e.g., City staff solicited comments from businesses as to the potential impact of the proposed ordinance by contacting the chamber of commerce, social media posting, direct mail/email, posting on the City's website, public workshop, etc.; efforts made to reduce the potential fiscal impact on businesses; and state the proposed ordinance is a generally applicable ordinance that applies to all persons similarly situated (individuals or businesses) and, therefore, the proposed ordinance does not affect only businesses.)

No business impacts proposed. The item was advertised in newspaper advertisements. Information on the application is also on the city's website.
